MTA Virtual Public Workshop

Brooklyn Bus Network Redesign

This project is part of our larger effort to modernize New York City's bus network and improve bus service borough by borough. We are taking a fresh look at the bus network, with the goal of meeting customers' priorities: frequent service, faster travel, reliable service, better connections, and an easy ride.

Public workshops

We're planning a better bus network for Brooklyn, and we want to hear from you. Please [join us](#) for your community event!

All workshops will happen from 6:30-8:30 p.m. Sessions will begin at 6:30 and 7:30 p.m., though you can join at any time. [Please use this link to register for your community workshop.](#) If you can't make the workshop for your neighborhood, you can sign up for a different one.

Each workshop will be conducted in English. Additional language interpreters as well as ASL and CART can be made available upon advance request via the registration form. Requests must be received no fewer than five business days before the workshop you want to attend.

Please join Virtual Workshop on the date for your community via Zoom:
