

Brain-building Storytimes for children birth to age 3

Mondays at 11:00 am

April 6, 13, 20, 27

May 4, 11

May 18th – Special Session: *Sing-a-long*

Jamaica Bay Library

Families enjoy stories and activities designed to encourage brain development and early learning practices. Each week we will read books, sing songs, and do fun activities that promote language development, social-emotional skills, and more. Parents and caregivers will have the opportunity to learn about community resources and connect with peer support networks. Each week, we explore a different theme: **READING, TALKING, SINGING, PLAYING, MOVEMENT, and EMOTIONS**. Families will also receive **FREE** materials to continue the learning and fun at home.

For more information visit bklynlib.org/brainybabies

Brainy Babies is made possible due to generous support from Fund for Early Learning of the Robin Hood Foundation, Mother Cabrini Health Foundation, and City's First Readers, an initiative of the New York City Council.
