WHEREAS, the applicant also requests a waiver, pursuant to § 1-14.2 of the Board's Rules of Practice and Procedure, of Rule § 1-7.03(b)(2) to permit the filing of this application less than two years after the expiration of the term; and

WHEREAS, the applicant represents that the use has been continuous since the expiration of the term and that substantial prejudice would result without the requested

# MINUTES

waiver; and

WHEREAS, in response to the concerns raised by Community Board 13, the applicant added “No Overnight Parking” signs to the site, striped the parking lot, added a chain to enclose the parking area, revised an agreement with a towing company to enforce the ban on overnight parking at the subject site, installed landscaping, removed a recreational vehicle from the site and repaired fencing; and

WHEREAS, the Board finds that a ten (10) year extension of the term of the variance is appropriate with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated May 10, 1994, as amended through August 17, 2004, so that as amended this portion of the resolution reads: “to grant an extension of the term of the variance for a term of ten (10) years from the expiration of the last grant to expire on May 10, 2024; *on condition* that all work and site conditions shall comply with drawings filed with this application marked ‘Received May 19, 2017-Three (3) sheets; and *on further condition*:

THAT signs stating that no overnight parking is permitted at the site and violators will be towed shall be posted at all times;

THAT an agreement with a towing company to enforce the ban on overnight parking shall remain in effect for the duration of the term;

THAT no rental of parking spaces at the site shall be permitted;

THAT no parking of trailers or recreational vehicles shall be permitted on the site;

THAT asphalt and striping of the parking spaces shall be maintained and repaired as necessary;

THAT fencing, perimeter walls and building walls, as illustrated on the BSA-approved plans, shall be maintained in good condition, free of graffiti and repainted regularly;

THAT landscaping shall be maintained, as illustrated on the BSA-approved plans, and replaced as necessary so as to provide a dense buffer between the subject site and its surrounding neighbors;

THAT all site lighting shall be directed downward and away from adjacent residences;

THAT no signs shall be placed on the sidewalks;

THAT all signs shall comply with the C-1 district regulations;

THAT there shall be no automobile repair work conducted in the open portion of the lot and automobile repair work shall be limited to the hours of 8:00 a.m. to 5:00 p.m., Monday through Friday and the hours of 8:00 a.m. to 1:00 p.m. on Saturday;

THAT the premises shall be kept clean and free of debris and graffiti;

THAT any graffiti located on the premises shall be removed within 48 hours;

THAT there shall be no welding, body or fender work done on the premises;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions and all conditions from prior resolutions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one year from the date of this grant;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, June 6, 2017.

## 139-95-BZ

APPLICANT – Rothkrug Rothkrug & Spector LLP, for 54<sup>th</sup> Street, LLC, owner.

SUBJECT – Application October 11, 2016 – Extension of Term for a Special Permit (§73-36) to allow the operation of a Physical Cultural Establishment (Equinox) which expired on October 8, 2016. C1-9 (TA) zoning district.

PREMISES AFFECTED – 250 East 54<sup>th</sup> Street, Block 1327, Lot 7502, Borough of Manhattan.

## COMMUNITY BOARD #2M

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Montanez.....4

Negative: .....0

THE RESOLUTION –

WHEREAS, this is an application for an extension of the term of a previously granted special permit for a physical culture establishment (“PCE”), which expired on October 8, 2016, and an amendment to reflect a change in hours of operation; and

WHEREAS, a public hearing was held on this application on June 6, 2017, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Commissioner Montanez performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 2, Manhattan, recommends approval on condition that the term be extended for five (5) years in order to allow review and recommendations based on any changes in condition that may occur; and

WHEREAS, the subject site is located on the southwest corner of East 54<sup>th</sup> Street and Second Avenue, in a C1-9 zoning district and the Special Transit Land Use District, in Manhattan; and

WHEREAS, the site has approximately 100 feet of frontage along East 54<sup>th</sup> Street, 100 feet of frontage along Second Avenue, 10,042 square feet of lot area and is occupied by a forty-story mixed-use commercial and residential building; and

---

# MINUTES

---

WHEREAS, the Board has exercised jurisdiction over the subject site since October 8, 1996, when, under the subject calendar number, the Board granted a special permit, pursuant to ZR § 73-36, to permit a proposed physical culture establishment on a portion of the sub-cellar, cellar and first floor of an existing building for a term of ten (10) years, expiring October 8, 2006, on condition that there be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board; that hours of operation be limited to Monday through Friday 6:00 a.m. to 11:00 p.m. and Saturday and Sunday 8:00 a.m. to 6:00 p.m.; and that noise levels generated by the physical culture establishment comply with the New York City Noise Control Code to minimize any potential impacts on the residents in the building; and

WHEREAS, on March 30, 1999, under the subject calendar number, the Board amended the special permit to permit a change in the layout of the physical culture establishment, an increase in the floor area of the establishment and a change in the operators, on further condition that the premises be kept clean of debris and graffiti and that all signs be maintained in accordance with BSA Approved plans; and

WHEREAS, by letter dated April 14, 2006, the Board approved modifications to the plans, including the proposed conversion of the sub-cellar swimming pool into additional exercise studio space, as substantially in compliance with the previously approved plans; and

WHEREAS, on December 12, 2006, under the subject calendar number, the Board amended the special permit to grant an extension of the term for an additional ten (10) years, expiring October 8, 2016; and

WHEREAS, the most recent term having expired, the applicant presently seeks an extension of the term of the special permit and an amendment to the permitted hours of operation; and

WHEREAS, the applicant proposes to change the operating hours to Monday through Thursday 5:30 a.m. to 11:00 p.m., Friday 5:30 a.m. to 9:00 p.m. and Saturday and Sunday 8:00 a.m. to 9:00 p.m.; and

WHEREAS, by letter dated May 31, 2017, the Fire Department states that the premises was last inspected for compliance with the New York Fire Code and Department of Buildings Place of Assembly regulations on February 1, 2017, the Fire Department inspection account was approved and, thus, the Fire Department has no objection to the subject application; and

WHEREAS, noting that there have been no issued raised regarding the operation of the PCE at the premises, the Board finds that a ten (10) year extension and change in operating hours, as requested, are appropriate, with the conditions set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated October 8, 1996, as amended through December 12, 2006, so that as amended this portion of the resolution shall read: "to permit an extension of the term of the special permit for a term of ten (10) years, expiring October 8, 2026, *on condition* that the site shall substantially conform to drawings as filed with this application,

marked 'Received October 11, 2016 – Five (5) sheets; and *on further condition*:

THAT this grant shall be limited to a term of ten (10) years, expiring October 8, 2026;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT the hours of operation shall be limited to Monday through Thursday 5:30 a.m. to 11:00 p.m., Friday 5:30 a.m. to 9:00 p.m. and Saturday and Sunday 8:00 a.m. to 9:00 p.m.;

THAT the noise levels generated by the physical culture establishment shall comply with the New York City Noise Control Code to minimize any potential impacts on the residents in the building;

THAT the premise shall be kept clean of debris and graffiti;

THAT all signs shall be maintained in accordance with the BSA-approved plans;

THAT Local Law 58/87 compliance shall be as reviewed and approved by the Department of Buildings;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, June 6, 2017.

### COMMUNITY BOARD #1BK

**ACTION OF THE BOARD** – Application granted on condition.

#### THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Montanez.....4

Negative: .....0

#### THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), acting on Application No. 321131743, reads in pertinent part:

“Refer to Board of Standards and Appeals for a variance of bulk regulations as follows:

1. Proposed floor area ratio (FAR) exceed[s] the maximum permitted pursuant to ZR 43-12;
2. Proposed front wall height exceeds the maximum permitted pursuant to ZR 43-43;
3. No initial setback provided, contrary to ZR 43-43;
4. Required parking is not provided contrary to ZR 44-21”; and

WHEREAS, this is an application under ZR § 72-21 to permit, on a site located within an M1-1 zoning district, the development of a four-story plus cellar commercial building at the premises that does not comply with the underlying regulations pertaining to floor area ratio, front wall height, setback and parking, contrary to ZR §§ 43-12, 43-43 and 44-21; and

WHEREAS, a public hearing was held on this

application on September 20, 2016, after due notice by publication in *The City Record*, with continued hearings on February 13, 2017, and April 4, 2017 and then to decision on June 6, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Montanez and former Vice-Chair Hinkson performed inspections of the site and surrounding area; and

WHEREAS, Community Board 1, Brooklyn, recommends approval of the application and states in its recommendation that the advantage of the commercial spaces provided by the proposal outweighs the lack of additional parking spaces because; and

WHEREAS, the subject site is located on the south side of Grattan Street, between Knickerbocker Avenue and Morgan Avenue, in an M1-1 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 25 feet of frontage along Grattan Street, 100 feet of depth, 2,500 square feet of lot area and is currently vacant; and

WHEREAS, the subject site is not held in common ownership with any adjacent lots and the applicant suggests that the site has been vacant since at 1991, when a full demolition permit was issued for the site; and

WHEREAS, the subject application proposes to develop the site with a four-story plus cellar commercial building having 7,975 square feet of floor area, a floor area ratio (“FAR”) of 3.19, a front wall height of 44’-4”, no front setback at a height of 30 feet and no off-street parking spaces; and

WHEREAS, the applicant proposes to occupy the buildings with retail uses in the cellar and on the first floor and offices uses in the remainder of the building to be marketed to creative businesses; and

WHEREAS, at the subject site, a maximum FAR of 1.00 (2,500 square feet of floor area) is permitted pursuant to ZR § 43-12; a maximum front wall height of 30 feet and an initial 20 foot setback are required pursuant to ZR § 43-43; and 32 off street parking spaces are required pursuant to ZR § 44-21; and

WHEREAS, the applicant states that, pursuant to ZR § 72-21(a), the narrow width of the lot, which results in inefficiently small floor plates, and history of development of the site create practical difficulties and unnecessary hardship in developing the subject site in conformance with the zoning regulations applicable in the underlying district; and

WHEREAS, the applicant provided the Board with a study of lots located within 400 feet of the premises and within an M1-1 zoning district (the “Study Area”) concluding that while 50 (71 percent) of the 70 total lots in the Study Area have widths of 25 feet or less, 25 of these lots (50 percent, or 36 percent of all lots in the Study Area) are not held in common ownership with one or more adjacent lots and only two of these lots (8 percent, or 3 percent of all lots in the Study Area) are currently vacant or utilized as a parking lot; in addition, only four of all lots in the Study area (6 percent) have widths of 25 feet or less, are

---

# MINUTES

---

not held in common ownership with an adjacent lot and developed with a conforming use; and

WHEREAS, the applicant submits that the narrow width of the site reduces its marketability for a conforming manufacturing or industrial use, as evidenced by the limited number of similarly sized, vacant and singularly owned lots in the Study Area developed with conforming uses; and

WHEREAS, based on the foregoing, the Board finds that the aforementioned unique physical conditions create unnecessary hardship and practical difficulties in developing the site in conformance with applicable zoning regulations; and

WHEREAS, with regards to ZR § 72-21(b), the applicant submits that there is no reasonable possibility that a conforming development at the subject site will bring a reasonable return and, in support of that assertion, submitted a financial analysis of (1) an as-of-right one-story plus cellar building with industrial and retail uses (the "AOR Industrial Scenario"); (2) an as-of-right one-story plus cellar building for co-working and shared office use (the "AOR Office Scenario") and (3) the subject proposal, demonstrating that only the subject proposal would provide a reasonable return; and

WHEREAS, to wit, the financial analysis concludes that the AOR Industrial Scenario would generate a project loss of approximately \$185,000; the AOR Office Scenario would generate a project loss of approximately \$405,000; and the subject proposal would yield a return of approximately \$45,000; and

WHEREAS, upon review of the applicant's submissions, the Board finds that, due to the site's unique physical conditions, there is no reasonable possibility that a development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposal will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property and will not be detrimental to the public welfare in accordance with ZR § 72-21(c) because the use conforms with those permitted in the underlying district, is consistent with the surrounding area, which is characterized by a mix of manufacturing, commercial and residential uses, the tenants of the proposed building will create jobs and contribute to the local economy and the development of the site will fill a long-standing vacancy in the street wall;

WHEREAS, with respect to the proposed bulk, the applicant provided a study showing that the proposal is consistent with the existing character of the neighborhood, which includes a variety of building types; specifically, the height of the proposal, at 44'-4", is slightly taller than the parapet height of the building located immediately to the west and its FAR is consistent with a variety of building on the block, which have FARs ranging from 2.68 to 3.55; and

WHEREAS, the Board notes that while the floor area ask is large in comparison to the floor area permitted as-of-right in the zoning district, the proposed building provides the most efficient interior layouts for the proposed

occupancy with minimal redundancies in circulation space, the proposed building height was reduced in the course of hearing from 53'-8" to 44'-4" by reducing the floor-to-floor heights; in addition, the Board notes that allowing commercial use in a manufacturing district, where possible, is desirable and to be encouraged as good public policy; and

WHEREAS, with regards to traffic, the applicant submits that, based on their experiences in commercial development in the subject neighborhood, tenants of the building will be local and access the site by foot, bicycle or public transportation rather than private motor vehicle and, therefore, not adversely affect traffic and/or parking conditions in the neighborhood; and

WHEREAS, to support this contention, the applicant conducted an informal travel survey of employees at 20 businesses located near the subject site concluding that the majority arrive to work in the surrounding area by public transportation (43 out of 55 respondents, or 78 percent) or bike (4 out of 55 respondents, or 7 percent); and

WHEREAS, in addition, the applicant provided a parking study, showing that the proposal will generate a parking demand of nine spaces during peak periods identified as weekdays from 10 a.m. to 12 p.m., and a parking survey of on-street parking available within a ¼-mile radius of the site, showing that approximately 100 on-street spaces are available within this radius during an active weekday hour and, conservatively discounting all streets within this radius but south of Flushing Avenue with street-cleaning rules in effect during various weekdays, an estimated 46 on-street parking spaces are available; and

WHEREAS, the Board notes that although the parking study submitted in connection with this application shows a demand for nine spaces, the on-street parking study demonstrates that a significant number of spaces in excess of the nine demanded are available at peak times, therefore the Board is comfortable with the proposal providing no parking on-site; and

WHEREAS, accordingly, the Board finds that the requested relief will not alter the essential character of the neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship claimed as grounds for the variance was not created by the owner or a predecessor in title in accordance with ZR § 72-21(d); and

WHEREAS, the applicant represents that the subject proposal is the minimum variance necessary to afford relief because it is the only scenario of the three analyzed that provides a return and will enable the applicant to develop the underutilized site with conforming commercial uses; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the

# MINUTES

Environmental Assessment Statement Short Form CEQR No. 16-BSA-008K, dated June 28, 2016; and

WHEREAS, the EAS documents that the project as proposed would not have significant impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, the New York City Landmarks Preservation (“LPC”) reviewed the subject proposal and concluded that the subject site is of no architectural or archaeological significance; and

WHEREAS, by letter dated July 20, 2016, the New York Department of Environmental Protection (“DEP”) states that they reviewed the June 2016 Environmental Assessment Statement, May 2013 Phase I Environmental Site Assessment Report (the “Phase I”), the May 2016 limited Phase II Environmental Site Investigation (the “Phase II”), the 2016 Remedial Action Plan (“RAP”) and the May 2016 Construction Health and Safety Plan (“CHASP”) for the subject proposal; notes that the Phase II was conducted without DEP approval; recommends that, upon completion of the clean fill (for landscaped areas, if proposed) investigation activities, the applicant submit a detailed clean soil report—including, at a minimum, an executive summary, narrative of the field activities, laboratory data and comparison of soil analytical results—to DEP for review and approval prior to importation and placement on-site; and states that it finds the June 2016 RAP and May 2016 CHASP acceptable as long as the recommended clean soil report is submitted to DEP and that, upon the completion of the project, a Professional Engineer certified Remedial Closure Report, indicating that all remedial requirements have been properly implemented, be submitted to DEP for review and approval; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

*Therefore it is Resolved*, that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR § 72-21 to permit, on a site located within an M1-1 zoning district, the development of a four-story plus cellar commercial building at the premises that does not comply with the underlying regulations pertaining to floor area ratio, front wall height, setback and parking, contrary to ZR §§ 43-12, 43-43 and 44-21, *on condition* that all work will

substantially conform to drawings filed with this application marked “Received May 9, 2017”—Eleven (11) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area ratio of 3.19 (7,975 square feet of floor area), a maximum front wall height of 44’-4”, no initial set back and no off-street parking spaces, as reflected on the BSA-approved plans;

THAT upon the completion of the project, a Professional Engineer certified Remedial Closure Report, indicating that all remedial requirements as set forth in the June 2016 Remedial Action Plan and the May 2016 Construction Health and Safety Plan have been properly implemented, be submitted to DEP for review and approval; and

THAT such Remedial Closure Report shall be submitted and approved prior to the issuance of a Certificate of Occupancy;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a Certificate of Occupancy shall be obtained within four (4) years;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 6, 2017.

“Proposed Physical Culture Establishment in C4-5X Zoning district is contrary to section 32-10 ZR and requires a special permit from BSA (73-36)”;  
and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, on a site located within a C4-5X zoning district, a physical culture establishment (“PCE”) on a portion of the first floor and the entire second and third floors of a proposed three-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on May 2, 2017, after due notice by publication in *The City Record*, with a continued hearing on June 6, 2017, and then to decision on that date; and

WHEREAS, Community Board 6, Bronx, made no recommendation as to the disposition of this application; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the northeast corner of East Tremont Avenue and Hughes Avenue, in a C4-5X zoning district, in the Bronx; and

WHEREAS, the site has approximately 71 feet of frontage along East Tremont Avenue, 91 feet of frontage along Hughes Avenue, 3,238 square feet of lot area and is occupied by a one-story and mezzanine commercial building; and

WHEREAS, the applicant represents that an application has been filed with DOB to vertically enlarge the existing building with two additional stories; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
  - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
  - (ii) a swimming pool of a minimum 1,500 square feet; or
  - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
  - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i)

through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and Certificate of Occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the PCE is proposed to occupy a total of 14,142 square feet of floor area: 1,250 square feet of floor area on the first floor, containing an entrance lobby, stair and a dedicated elevator to the PCE space on the upper levels; 6,446 square feet of floor area on the second floor, containing the front desk, cardiovascular and weight training equipment, office space and the women’s locker room; and 6,446 square feet of floor area on the third floor, containing additional exercise equipment, a dumbbell area and the men’s locker rooms; and

WHEREAS, the PCE is proposed to be operated as a Blink Fitness with the following hours of operation: Monday through Saturday, 5:30 a.m. to 11:00 p.m. and Sunday, 7:00 a.m. to 9:00 p.m.; and

---

# MINUTES

---

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because it is located in a commercial building within a busy commercial district and will feature sound attenuation measures, including rubber flooring in activity areas and demising walls with batt insulation, to ensure that the sound level experienced in other portions of the building will not exceed 45 dBA; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE will provide facilities for classes, instruction and programs for physical improvement, body building, weight reduction and aerobics; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that an approved fire alarm system—including area smoke detectors, manual pull stations, local audible and visual alarms and a connection to an FDNY-approved central station—and full sprinklering will be provided in the PCE space; and

WHEREAS, by letter dated December 29, 2016, the Fire Department states that the proposed conditions satisfy all necessary Fire Department requirements for this type of occupancy and that it has no objection to the approval of this application; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, the applicant represents that the PCE will not interfere with any public improvement projects; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 17-BSA-044X, dated November 21, 2016; and

*Therefore it is Resolved*, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located in a C4-5X zoning district, the operation of a physical culture establishment on a portion of the first floor and the entire second and third floors of a proposed three-story commercial building, contrary to ZR § 32-10; *on condition* that all work

shall substantially conform to drawings filed with this application marked “Received June 9, 2017” – Seven (7) sheets; and *on further condition*:

THAT the term of the PCE grant shall expire on June 6, 2027;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT minimum 3 foot wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT an approved fire alarm system—including area smoke detectors, manual pull stations, local audible and visual alarms and a connection to an FDNY-approved central station—shall be installed in the entire PCE space;

THAT the PCE shall be fully sprinklered;

THAT accessibility compliance under Local Law 58/87 shall be as reviewed and approved by DOB;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT a revised Certificate of Occupancy shall be obtained within four (4) years;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 6, 2017.

#### THE RESOLUTION –

WHEREAS, the decision of the Bronx Borough Commissioner, acting on DOB Application No. 220533901, reads in pertinent part:

“ZR 22-10: Zoning use group 6 is not permitted as-of-right in an R8 district . . . .”; and

WHEREAS, this is an application under ZR § 72-21 to permit, on a site located within an R8 zoning district, a Use Group 6A supermarket and Use Group 6B offices in an existing two-story building, contrary to ZR § 22-10; and

WHEREAS, a public hearing was held on this application on June 6, 2017, after due notice by publication in *The City Record*, and then to decision on that date; and

WHEREAS, Community Board 5, Bronx, recommends approval of this application on the following conditions: that there be no “Loading Zone” or reduction in parking in front of the supermarket proposed for the first floor of the existing building; there be no unloading of delivery trucks during peak hours; that all deliveries be unloaded during the evening and early morning hours; and that the proposed supermarket be handicap and senior citizen friendly; and

WHEREAS, the subject site is bound by East Tremont Avenue to the south, Creston Avenue to the west and East 178th Street to the north, in an R8 zoning district, in the Bronx; and

WHEREAS, the site has approximately 82 feet of frontage along East Tremont Avenue, 126 feet of frontage along Creston Avenue, 22 feet of frontage along East 178th Street, 6,764 square feet of lot area and is occupied by a vacant two-story building containing 13,430 square feet of floor area; and

WHEREAS, the site was previously owned by the City of New York; by decision dated December 16, 2009, the City Planning Commissioner designated the subject site as an Urban Development Action Area and the Council of the City of New York approved this decision by its Resolution No. 22, dated February 3, 2010; and

WHEREAS, the site was sold by deed, entered into with the Department of Housing Preservation and Development (“HPD”) on June 19, 2014, subject to the restriction that the purchaser, the applicant, “conserve the existing Improvements on the [site] for a period of not less than twenty (20) years” and devote the property to “commercial use consisting of 13,500 square feet to be used as commercial space or for other uses as permitted by zoning”; and

WHEREAS, the subject application is for commercial use of the existing building, specifically a Use Group 6A supermarket, having 6,710 square feet of floor area on the first floor of the building, accessible by an entrance located on the corner of East Tremont Avenue and Creston Avenue; and Use Group 6B commercial offices having a total of 6,720 square feet of floor area on the second floor of the building, accessible by stairs and elevator through an entrance fronting East Tremont Avenue; and

WHEREAS, commercial use is not permitted in an R8 zoning district, the applicant seeks the subject relief; and

WHEREAS, the applicant states that, pursuant to ZR § 72-21(a), the history of development of the site with commercial uses and the irregular floorplates of the existing building create practical difficulties and unnecessary hardship in developing the subject site in conformance with the zoning regulations applicable in the underlying district; and

WHEREAS, the site is an irregularly shaped triangular lot ranging in width from 21’-8” at the northern edge of the lot to a width of 76’-4” at the southern edge of the lot, and the full lot coverage building occupying the site has similarly irregular floorplates; and

WHEREAS, the applicant provided the Board with a study of lots located within 800 feet of the subject site (the “Study Area”) concluding that, of the 215 total lots within the Study Area, 8 other lots (or 3.7 percent) are triangularly shaped; and

WHEREAS, the subject building was designed for commercial use and has been so utilized since at least 1967, as evidenced by a Temporary Certificate of Occupancy, dated February 28, 1967, indicating Use Group 6 stores and offices as the permissible occupancy; and

WHEREAS, the applicant additionally represents that HPD occupied the building as the Bronx Field Office for approximately 30 years; and

WHEREAS, based on the foregoing, the Board finds that the aforementioned unique physical conditions create unnecessary hardship and practical difficulties in developing the site in conformance with applicable zoning regulations; and

WHEREAS, with regards to ZR § 72-21(b), the applicant submits that there is no reasonable possibility that

---

# MINUTES

---

a conforming development at the subject site while utilizing the existing building as required under the terms of the deed will bring a reasonable return and, in support of that assertion, submitted a financial analysis of (1) an as-of-right residential use providing 12 units; (2) an as-of-right residential use providing seven duplex units; (3) an as-of-right community facility use and (4) the subject proposal, demonstrating that only the subject proposal would provide a reasonable return; and

WHEREAS, to wit, the financial analysis concludes that the as-of-right residential use with 12 units would generate a project loss of \$4,319,427; the as-of-right residential use with seven duplex units would generate a project loss of \$4,287,437; the as-of-right community facility use would generate a project loss of \$1,716,323; and the subject proposal would yield a return of approximately \$19,458; and

WHEREAS, the applicant represents that the irregular floorplates of the existing building and lack of windows along the eastern lot line, the longest side of the lot, result in oddly shaped and inefficiently laid out dwelling units in the as-of-right residential use proposals and a high proportion of required access, egress and circulation space to rentable space in the community facility proposal, which renders all of the alternative scenarios infeasible; and

WHEREAS, the proposal for residential use with duplex units was proposed to demonstrate that the reduction in the area dedicated to circulation and access on the second floor, specifically the removal of the corridor and an elevator, would not produce a feasible as-of-right scenario; and

WHEREAS, the applicant also submits that the location of the site at East Tremont Avenue, a wide four-lane highly traveled street, and the low profile of the existing building would necessitate the installation of sound attenuation measures for a complying residential use in order to counter the noise and vibrations associated with nearby vehicular traffic and, along with the residential rents available in the local market, negatively affects the profitability of the residential units; and

WHEREAS, upon review of the applicant's submissions, the Board finds that, due to the site's unique physical conditions, there is no reasonable possibility that a development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposal will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property and will not be detrimental to the public welfare in accordance with ZR § 72-21(c) because the proposal is consistent with the historical commercial use of the property and the immediate area, particularly East Tremont Area, which is characterized by a mix of commercial, community facility and residential uses; and

WHEREAS, the applicant further submits that the proposal for a supermarket on the ground floor of the existing building will, in particular, provide a necessary

service in the neighborhood, which is currently underserved by neighborhood grocery stores and, further, that the applicant intends to offer senior citizen discounts, donate food to community food drives and organizations and offer a delivery service to patrons living within walking distance; and

WHEREAS, with regards to the proposed office uses on the second floor, the applicant submits that this use is a continuation of the most recent use of the building as an office location for HPD; and

WHEREAS, the Board finds that the proposal will not alter the essential character of the neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship claimed as a ground for the variance was not created by the owner or a predecessor in title in accordance with ZR § 72-21(d); and

WHEREAS, the applicant represents that the subject proposal is the minimum variance necessary to afford relief because it is the only scenario of the four analyzed that provides a return and it continues the historic use of the subject site; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

\* WHEREAS, the Board notes that it considered other Use Group 6 uses on the first floor in the course of its review of this application, particularly in the evaluation of the financials, which utilized comparables other than food markets, and that future requests for a change in the use of the first floor from a Use Group 6A supermarket, as permitted herein, to another use within Use Group 6 could be facilitated by letter, rather than an amendment, because the Board finds that such change would not implicate any of the findings for a variance and, thus, be in substantial compliance with this Resolution; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Environmental Assessment Statement Short Form CEQR No. 17-BSA-014X, dated March 23, 2017; and

WHEREAS, the EAS documents that the project as proposed would not have significant impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact

---

# MINUTES

---

on the environment; and

*Therefore it is Resolved*, that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR § 72-21 to permit, on a site within an R8 zoning district, a Use Group 6A supermarket on the first floor and Use Group 6B offices on the second floor of an existing two-story building, contrary to ZR § 22-10, *on condition* that all work will substantially conform to drawings filed with this application marked “Received March 23, 2017”- Seven (7) sheets; and *on further condition*:

THAT the hours of operation of the supermarket shall not exceed 5:00 a.m. to midnight, seven days a week;

THAT no delivery shall be permitted during peak traffic hours and in no event between 7:00 a.m. and 9:00 a.m. and 5:00 p.m. and 7:00 p.m.;

THAT trash shall remain on the interior of the building until immediately before pickup;

THAT no dumpsters shall be maintained on the sidewalks;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a Certificate of Occupancy shall be obtained within four (4) years;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 6, 2017.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Montanez.....4

Negative: .....0

**THE RESOLUTION** –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and an extension of term of the variance, previously granted by the Board, which expired on April 3, 2011; and

WHEREAS, a public hearing was held on this application on October 16, 2015, after due notice by publication in *The City Record*, with continued hearings on February 2, 2016, April 5, 2016, May 3, 2016, June 14, 2016, July 19, 2016, and January 31, 2017, and then to decision on June 20, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 11, Bronx, has no objection to this application; and

WHEREAS, the subject site is located on the south side of Allerton Avenue, between Williamsbridge Road and Paulding Avenue, in an R4-1 (C2-2) zoning district, in the Bronx; and

WHEREAS, the site has approximately 161 feet of frontage along Allerton Avenue, 207 feet of frontage along Williamsbridge Road, 139 feet of frontage along Paulding Avenue, 16,326 square feet of lot area and is occupied by gasoline service station with an accessory one-story commercial building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since April 3, 1956, when, under BSA Calendar Number 375-55-BZ, the Board granted a variance

for a term of fifteen (15) years, expiring April 3, 1971, to permit the site to be occupied as a gasoline service station and accessory uses on condition that all buildings and uses on the premises be removed and the premises be leveled substantially to the grade of the abutting streets, that the site be constructed and arranged substantially as indicated on the plans, that the accessory building be of the design and arrangement and location as shown except that the toilet rooms be arranged so that the doors thereto not be contiguous, that there be no cellar under such building, that the accessory building in all other respects comply with the requirements of the Building Code, that the accessory building be faced with face brick on all sides, that along the building lines to the west, south and east, there be erected a masonry wall with similar face brick to a height of not less than 5’-6”, and properly coped with suitable terminating posts, that the portion of the site to the south shown as a planting area be properly protected with curbing not less than 8 inches in height and 6 inches in width and be maintained with suitable planting, that the balance of the site not occupied by accessory building and pumps be paved with concrete or asphaltic pavement, that the pumps be of a low approved type and erected not nearer than 15 feet to either street building line, that the number of gasoline storage tanks be limited to twelve 550-gallon approved tanks, that curb cuts be restricted to two curb cuts to Williamsbridge Road located where shown and of a width shown on the drawings and three curb cuts to Allerton Avenue located as shown and of the width as indicated, that signs be restricted to permanent signs attached to the façade of the accessory building and to the illuminated globes of the pumps, excluding all roof signs and temporary signs but permitting the erection within the intersection of Williamsbridge Road and Allerton Avenue of a post standard for supporting a sign, which may be illuminated and permitting such sign to extend beyond the building line for a distance of not more than 4 feet, that there may be minor repairs with hand tools only for adjustment maintained within the accessory building, that sidewalks and curbing abutting the site be constructed or repaired to the satisfaction of the Borough President, that such portable firefighting appliances be maintained as the Fire Commissioner directs and that all permits be obtained, including a certificate of occupancy, and work completed as required by the Zoning Resolution; and

WHEREAS, on April 24, 1957, under BSA Calendar Number 375-55-BZ, the Board granted an extension of time to complete construction, which had expired April 3, 1957; and

WHEREAS, on November 6, 1957, the Board amended the variance to permit the reduction of the planting area with planting installed as shown on the revised plans, the omission of the car-washing portion and the addition of a post standard supporting a business sign; and

WHEREAS, on October 23, 1962, under the subject calendar number, the Board granted an application under ZR § 11-412 to permit the construction of an enlargement to the accessory building on condition that a 3-foot brick wall,

---

# MINUTES

---

with a 2'-6" iron picket fence on top of it, be constructed along Paulding Avenue from the service building to the intersection of Allerton Avenue, that the curb cut shown on Paulding Avenue be eliminated and that the windows shown on the Paulding Avenue wall of the accessory building be eliminated; and

WHEREAS, on June 29, 1971, under the subject calendar number the Board granted an extension of term of the variance for ten (10) years, expiring April 3, 1981, on condition that the gasoline pumps conform to revised drawings and that a new certificate of occupancy be obtained; and

WHEREAS, on May 29, 1973, under BSA Calendar Number 9-73-BZ, the Board permitted the enlargement in area of the automotive service station with accessory uses and the addition of the uses to include automotive laundry with less than the required accessory reservoir space on condition that the propose automobile laundry be limited to a free wash by qualifying patrons of the service station and that substantial construction be completed by May 29, 1974; and

WHEREAS, on February 5, 1974, under the subject calendar number, the Board amended the variance to revise the gasoline pumps; and

WHEREAS, on January 16, 1979, under BSA Calendar Number 375-55-BZ, the Board amended the variance to revise the existing ground sign; and

WHEREAS, on July 8, 1980, under the subject calendar number, the Board granted an extension of term of the variance for ten (10) years, expiring April 3, 1991, on condition that the station be operated at all times in such fashion as to minimize traffic congestion and that a new certificate of occupancy be obtained by July 8, 1981; and

WHEREAS, on June 11, 1985, under the subject calendar number, the Board amended the variance in conjunction with a change to self-service pumps for the sale of gasoline to permit the construction of a new canopy over two new gasoline pump islands with new self-serve pumps, to convert a portion of the accessory building to an attendant's booth and to increase the width of the existing curb cuts on condition that there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic and that substantial construction be completed by June 11, 1986; and

WHEREAS, on June 11, 1985, under BSA Calendar Number 260-85-A, the Board granted an appeal from the Fire Commissioner to permit self-service pumps for a term of five (5) years, expiring June 11, 1990, on condition, among other things, that a trained attendant shall be on duty at all times to monitor the operation of the pumps and shall have no other duties while any self-service pump is in operation, that it be the attendant's duty to require the engine of any vehicle be shut off before the start of the fuel operation and to prohibit smoking within the immediate area of the fuel operation and that it be the attendant's duty to prevent the dispensing of gasoline, diesel or other motor vehicle fuel into portable containers; and

WHEREAS, on December 4, 1991, under the subject

calendar number, the Board granted an extension of term for ten (10) years, expiring April 3, 2001, on condition that there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic and that a new certificate of occupancy be obtained by December 4, 1992; and

WHEREAS, on November 5, 2003, under the subject calendar number, the Board waived its rules, extended the term of the variance for ten (10) years, expiring April 3, 2011, and amended the variance to legalize the conversion of the repair bay to a convenience store accessory to the existing gasoline service station and the alteration of existing signage on condition that the premises be maintained free of debris and graffiti, that any graffiti located on the site be removed within 48 hours, that landscaping be provided and maintained in accordance with the Board-approved plans, that lighting shall be positioned down and away from residential uses and that the above conditions and all conditions from prior resolutions appear on the certificate of occupancy; and

WHEREAS, the term of the variance having expired, the applicant now seeks an extension of term of the variance for ten (10) years; and

WHEREAS, in addition, the applicant requests a waiver, pursuant to § 1-14.2 of the Board's Rules of Practice and Procedure, of Rule § 1-07.3(b)(2) to permit the filing for an extension of term more than two (2) years but less than ten (10) years after the expiration of the term; and

WHEREAS, the applicant has demonstrated that the use has been continuous since the expiration of term and that substantial prejudice would result without such a waiver; and

WHEREAS, at hearing, the Board questioned the presence of the temporary, wooden shed and the state of the site's fencing, gate, brick wall and wilting landscaping; and

WHEREAS, in response the applicant provided evidence of improved site conditions, including new plantings, improved fencing and a concrete pad in the former location of the shed; and

WHEREAS, at hearing, the applicant represented that the concrete pad would not be used for another shed but would instead serve as amenity space for an employee lunch area; and

WHEREAS, the Board finds that a ten (10) year extension of term of the variance is appropriate, with the conditions set forth below.

*Therefore, it is Resolved*, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure and *reopens* and *amends* the resolution, dated October 23, 1962, as amended through November 5, 2003, so that as amended this portion of the resolution reads: "to grant an extension of term of the variance for a term of ten (10) years from the expiration of the last grant, to expire April 3, 2021; *on condition* that all work and site conditions shall comply with drawings filed with this application marked 'Received June 7, 2017'-Twelve (12) sheets; and *on further condition*:

THAT no storage shed shall be installed on the pad or elsewhere on the site;

# MINUTES

THAT the site shall be maintained at all times clean and free of debris and graffiti;

THAT building walls and fencing shall be painted and repaired as necessary;

THAT landscaping shall be maintained in accordance with the Board-approved plans and replaced as necessary to ensure a continuous, dense buffer, eight (8) feet in height, between the site and adjacent properties;

THAT driving surfaces shall be maintained and repaired as necessary;

THAT no temporary storage shed shall be permitted;

THAT no signage shall be permitted, except the signage shown on the Board-approved plans;

THAT no open storage of any kind shall be permitted;

THAT any graffiti located on the site shall be removed within 48 hours;

THAT lighting shall be positioned down and away from residential uses;

THAT there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic;

THAT this station shall be operated at all times in such a fashion to minimize traffic congestion;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions and all conditions from prior resolutions shall appear on the certificate of occupancy;

THAT an amended certificate of occupancy shall be obtained within one (1) year, by June 20, 2018; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 20, 2017.

THE RESOLUTION –

WHEREAS, this is an application for an extension of time to obtain a Certificate of Occupancy, which expired on February 17, 2017; and

WHEREAS, a public hearing was held on June 20, 2017, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, the subject site is located on the northwest corner of Westchester Avenue and Glebe Avenue, within an R6 (C2-4) zoning district, in the Bronx; and

WHEREAS, the site has approximately 138 feet of frontage along Westchester Avenue, 165 feet of frontage along Glebe Avenue, 22,790 square feet of lot area and is occupied by a two-story commercial building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since February 7, 2006, when, under the subject calendar number, the Board granted a special permit, pursuant to ZR §§ 73-36 and 73-03, legalizing an existing physical culture establishment (“PCE”) on the second floor of the building for a term of ten (10) years, expiring July 15, 2014, on condition that there be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board; that the hours of operation be limited to Monday through Friday 5:00 a.m. to 12:00 a.m. and Saturday and Sunday 7:00 a.m. to 9:00 p.m.; that all massages be performed only by practitioners with valid and current New York State massage licenses; that fire safety measures, including a sprinkler system, shall be installed and maintained as indicated on the Board-approved plans; that an interior fire alarm system be provided; and that a Certificate of Occupancy be obtained within one (1) year, by February 7, 2007; and

WHEREAS, on October 5, 2010, under the subject calendar number, the Board granted a one (1) year extension of time to obtain a Certificate of Occupancy, expiring October 5, 2011, and an amendment to the previously approved special permit allowing a change in operator to Planet Fitness, changes to minor interior modifications, and a change in hours of operation, on condition that the hours of the operation be Monday through Thursday 5:00 a.m. to 12:00 a.m., Friday from 5:00 a.m. to 10:00 p.m. and Saturday and Sunday from 7:00 a.m. to 7:00 p.m.; that the site be maintained free of garbage and debris; that there be no further change in ownership or operating control of the physical culture establishment without prior application; and that the conditions be listed on the Certificate of Occupancy; and

WHEREAS, on December 16, 2014, under the subject calendar number, the Board granted an extension of the term of the special permit for ten (10) years, expiring July 15, 2024, on additional condition that graffiti be removed within 48 hours and that a Certificate of Occupancy be obtained by December 16, 2015; and

WHEREAS, on May 17, 2016, under the subject calendar number, the Board granted an additional extension of time to obtain a Certificate of Occupancy, until February 17, 2017, on condition that the applicant make all administrative corrections necessary to obtain Fire Department signoff of the physical culture establishment’s interior fire alarm and that the Fire Department provide such sign off; and

---

# MINUTES

---

WHEREAS, the time to obtain a Certificate of Occupancy having expired, the applicant seeks the subject relief; and

WHEREAS, the applicant represents that the site complies with all conditions of the previous grants and that a Certificate of Occupancy can be obtained within 12 months of the grant; and

WHEREAS, the most recent Temporary Certificate of Occupancy was issued for the subject site on February 28, 2017, and expired on May 29, 2017, and was submitted to the Board in connection with this application; and

WHEREAS, the applicant further states that the issuance of a Final Certificate of Occupancy has been delayed due to outstanding DOB signoffs for open applications; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to obtain a Certificate of Occupancy is appropriate with certain conditions, as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated February 7, 2006, as amended through May 17, 2016, so that as amended this portion of the resolution reads: “to grant an extension of time to obtain a Certificate of Occupancy to June 20, 2018; *on condition*:

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT the hours of operation shall be limited to Monday through Thursday 5:00 a.m. to 12:00 a.m., Friday from 5:00 a.m. to 10:00 p.m. and Saturday and Sunday from 7:00 a.m. to 7:00 p.m.;

THAT all massages shall be performed only by practitioners with valid and current New York State massage licenses;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT the site shall be maintained free of garbage and debris;

THAT graffiti shall be removed within 48 hours of its appearance at the site;

THAT fire safety measures—including a sprinkler system and an interior fire alarm system—shall be maintained as indicated on the BSA-approved plans;

THAT the above conditions shall be listed on the Certificate of Occupancy;

THAT a Certificate of Occupancy shall be obtained by June 20, 2018;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s); and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, June

20, 2017.

SUBJECT – Application October 7, 2016 – Application for an extension of time to complete construction of the building and obtain a Certificate of Occupancy on a previously approved grant granted common law vested right of complete construction and permitting in an M1-3 zoning district which expired on October 7, 2016. M1-2/R5B (LIC) zoning district.

PREMISES AFFECTED – 38-30 28<sup>th</sup> Street, Block 386, Lot 27, Borough of Queens.

### COMMUNITY BOARD # 1Q

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Montanez.....4  
Negative: .....0

THE RESOLUTION –

WHEREAS, this is an application for an extension of time to complete construction and obtain a certificate of occupancy for an eight-story hotel building at the subject

site; and

WHEREAS, a public hearing was held on this application on June 20, 2017, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Vice-Chair Chanda and Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the west side of 28th Street, between 38th Avenue and 39th Avenue, in an M1-2/R5B zoning district and the Special Long Island City Mixed Use District, in Queens; and

WHEREAS, the site has approximately 25 feet of frontage along 28th Avenue, 99 feet of depth, 2,451 square feet of lot area and is occupied by a partially constructed eight-story, with cellar, hotel building (the “Building”); and

WHEREAS, on July 16, 2007, the Department of Buildings (“DOB”) issued Permit No. 402232534-01-AL (the “Alteration Permit”) authorizing construction of the Building in accordance with the M1-3D zoning district regulations; and

WHEREAS, on October 7, 2008 (the “Enactment Date”), the City Council voted to adopt the Dutch Kills Rezoning, which rezoned the site from M1-3D to M1-2/R5B, within the Special Long Island City District; and

WHEREAS, on June 5, 2012, under the subject calendar number, the Board adopted a resolution recognizing that a vested right to continue construction under the Alteration Permit had accrued under the common law doctrine of vested rights, and the Board reinstated the Alteration Permit for a term of two (2) years, expiring June 5, 2014; and

WHEREAS, on October 7, 2014, under the subject calendar number, the Board renewed the Alteration Permit and all related permits for various work types and granted an extension of time to complete construction and obtain a certificate of occupancy for a term of two (2) years, expiring October 7, 2016, on condition that approval for the backflow preventer be obtained from the New York City Department of Environmental Protection (“DEP”) before issuance of the renewed Alteration Permit; and

WHEREAS, the applicant represents that, as of October 7, 2016, construction has not been completed and a certificate of occupancy has not been issued for the Building; and

WHEREAS, accordingly, the applicant now seeks an additional two-year term in which to complete construction and obtain a certificate of occupancy; and

WHEREAS, the applicant notes that, subsequent to the 2014 grant and prior to the permit’s expiration on October 7, 2016, the following work was performed: installation of metal stud walls for the first floor and basement, drop ceilings within rooms, electrical panels on all floors, sewer line connection, 8” private water main with hydrant as well as 6” water service, two backflow prevention devices, metal partitions in the basement, fire pump buster pump, hot water heaters, sheetrock in the basement, ceramic tile in the bathrooms, and plastered and painted walls and ceilings; and

# MINUTES

WHEREAS, the applicant states that it has expended a total of \$4,534,056 to date, which represents 87 percent of the total costs to complete the Building; and

WHEREAS, the applicant represents that DEP has approved the backflow prevention device, and the applicant has provided proof of DEP's approval; and

WHEREAS, at the Board's request, the applicant provided photographs of the site and further information indicating the Alteration Permit has not lapsed, canceled checks for costs incurred since the Board's prior extension of time, updated total costs, information as to the serious loss the applicant would face should the time to complete construction not be extended and an explanation as to why a two-year extension is being sought; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to complete construction is appropriate with certain conditions, as set forth below.

*Therefore it is Resolved*, that this application to renew Alteration Permit No. 402232534-01-AL, as well as all related permits for various work types, either already issued or necessary to complete construction, is granted, and the Board hereby extends the time to complete construction and obtain a certificate of occupancy for two years from the date of the prior extension of time, to expire October 7, 2018, subject to the following conditions:

THAT construction shall be completed and a certificate of occupancy shall be obtained by October 7, 2018;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 20, 2017.

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated February 8, 2016, acting on New Building Application No. 302205940, reads in pertinent part:

“The proposed number of accessory off-street parking spaces is less than required by ZR 36-21”; and

WHEREAS, this is an application under ZR §§ 73-44 and 73-03 to permit, on a site partially within a C8-2 and partially within a C4-2 zoning district and in the Special Ocean Parkway District, a reduction in the required number of accessory off-street parking spaces for an ambulatory diagnostic or treatment facility listed in Use Group 4, contrary to ZR § 36-21; and

WHEREAS, a public hearing was held on this

# MINUTES

application on April 25, 2017, after due notice by publication in *The City Record*, with a continued hearing on June 20, 2017, and then to decision on that same date; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends disapproval of this application because of limited parking in the surrounding area; and

WHEREAS, the subject site is located on the southeast corner of Quentin Road and East 9th Street, partially within a C8-2 and partially within a C4-2 zoning district and in the Special Ocean Parkway District, in Brooklyn; and

WHEREAS, on February 11, 2016, a zoning lot description was recorded in the Office of the City Register describing the subject zoning lot as comprised of Tax Lots 1, 5 and 8 on Block 6666; and

WHEREAS, the site has 223 feet of frontage along Quentin Road, 111 feet of frontage along East 9th Street, 22,912 square feet of lot area and is occupied, on Tax Lots 1 and 5, with an 8-story, with cellar and sub-cellar, community-facility building occupied by non-profit institution without sleeping accommodation and ambulatory diagnostic health care facility uses (Use Group 4) with 98 parking spaces located in the sub cellar, cellar and first floor; and, on Tax Lot 8, with a one-story, plus cellar, motor vehicle repair shop; and

WHEREAS, on Tax Lots 1 and 5, the applicant proposes to extend the existing ambulatory diagnostic or treatment facility into a portion of the first floor currently dedicated to parking for a total, on that floor, of 10,816 square feet of floor area on the portion of the site located within a C8-2 zoning district and 858 square feet of floor area on the portion of the site located within a C4-2 zoning district; and

WHEREAS, in total, the proposed building will contain 33,708 square feet of floor area on the portion of the site located within a C8-2 zoning district and 858 square feet of floor area on the portion of the site located within a C4-2 zoning district dedicated to ambulatory diagnostic or treatment facility and 33,999 square feet of floor area dedicated to non-profit institutional use with a total occupancy count of 541 for this use; and

WHEREAS, the applicant represents that, pursuant to ZR § 36-21, 114 accessory parking spaces are required for the non-profit institution and ambulatory diagnostic health care facility, calculated at a rate of one per 20 persons for the non-profit institution, one per 400 square feet of floor area for the ambulatory diagnostic health care facility in the C8-2 zoning district and one per 300 square feet of floor area for the ambulatory diagnostic health care facility in the C4-2 zoning district—a total of 114 parking spaces—however, the applicant seeks to provide 71 spaces; and

WHEREAS, ZR § 73-44 provides:

In the districts indicated, the Board of Standards and Appeals may permit a reduction in the number of *accessory* off-street parking spaces required by the provisions of Section 36-21 or 44-

21 (General Provisions) for ambulatory diagnostic or treatment facilities listed in Use Group 4 and *uses* in parking requirement category B1 in Use Group 6, 7, 8, 9, 10, 11, 14 or 16 to the applicable number of spaces specified in the table set forth at the end of this Section, provided that the Board finds that occupancy by ambulatory diagnostic or treatment facilities listed in Use Group 4 or *uses* in parking category B1 is contemplated in good faith on the basis of evidence submitted by the applicant. In such a case the Board shall require that the certificate of occupancy issued for the *building* within which such *use* is located shall state that no certificate of occupancy shall thereafter be issued if the *use* is changed to a *use* listed in parking category B unless additional *accessory* off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius.

REDUCED ACCESSORY OFF-STREET  
PARKING SPACES REQUIRED FOR  
AMBULATORY DIAGNOSTIC  
OR TREATMENT FACILITIES LISTED IN  
USE GROUP 4 AND  
COMMERCIAL USES IN PARKING  
REQUIREMENT CATEGORY B1

Parking Spaces Required

Per Number of Square

Feet on <i>Floor Area</i> *	Districts
1 per 400	C1-1 C2-1 C3 C4-1
1 per 600	C1-2 C2-2 C4-2 C8-1 M1-1 M1-2 M1-3 M2-1 M2-2 M3-1
1 per 800	C1-3 C2-3 C4-3 C7 C8-2

\* For ambulatory diagnostic or treatment facilities listed in Use Group 4, parking spaces required for number of square feet of *floor area* or *cellar space*, except *cellar space used* for storage; and

WHEREAS, pursuant to ZR § 73-44, the Board may reduce the required parking for an ambulatory diagnostic or treatment facility listed in Use Group 4 at the subject site from one space per 400 square feet of floor area to one space per 800 square feet of floor area in the C8-2 zoning district and from one space per 300 square feet of floor area to one space per 600 square feet of floor area in the C4-2 zoning district provided that the Board finds that such occupancy is contemplated in good faith; and

WHEREAS, the applicant submitted an affidavit stating that the building will continue to be occupied by a Use Group 4 ambulatory diagnostic or treatment facility; and

WHEREAS, the applicant further states that any certificate of occupancy for the building will state that no subsequent certificate of occupancy may be issued if the Use Group 4 ambulatory diagnostic or treatment facilities are changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to

---

# MINUTES

---

meet such requirements are provided on the site or within the permitted off-site radius; and

WHEREAS, the Board finds the affidavit credible and that the applicant has submitted sufficient evidence of good faith in maintaining the proposed Use Group 4 ambulatory diagnostic or treatment facility at the site; and

WHEREAS, the Board notes that its determination is also subject to and guided by, among other things, ZR §§ 73-01 through 73-04, inclusive; and

WHEREAS, in response to the concerns of Community Board 15 about limited parking and traffic congestion in the area, the Board directed the applicant to demonstrate that the application satisfies ZR § 73-03(a), specifically, to provide information as to how the proposed reduction in required accessory off-street parking spaces would impact the surrounding community; and

WHEREAS, in response, the applicant submitted a parking study demonstrating that parking demand would reach 64 parking spaces during the peak demand period of 10 a.m. to 11 a.m., demonstrating that the provision of 71 parking spaces on-site is sufficient to meet demand; and

WHEREAS, the applicant also submitted a study of local transit options indicating that multiple public-transit options are located within a convenient walking distance of the subject site; and

WHEREAS, the applicant further submitted a traffic engineering report evidencing that, based on industry-standard guidelines and local data sources, the proposed parking configuration would function adequately in conjunction with the continued implementation of on-site valet operators; and

WHEREAS, the applicant submitted a parking layout approved by DOB; and

WHEREAS, in response to questions from the Board, the applicant submitted a plan for parking operations that provides for two valet staff members, a signaling system, five reservoir spaces to increase maneuverability, a visibility-conscious ramp design, accessibility for persons with disabilities, an on-street standing zone for ambulettes dropping off passengers at the building entrance, mirrors and a camera system as well as signage advertising free on-site parking; and

WHEREAS, the applicant provided a copy of the application submitted to the New York City Department of Transportation for an ambulette standing zone in front of the building entrance; and

WHEREAS, the evidence in the record discredits the general assertions and anecdotes expressed by Community Board 15, Brooklyn, and the Board does not find that there is limited parking in the area during periods of peak demand for the proposed Use Group 4 ambulatory diagnostic or treatment facility; and

WHEREAS, accordingly, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of parking regulations is outweighed by the advantages to be derived by the community; and

WHEREAS, the applicant represents that the parking

modification will not interfere with any public improvement project; and

WHEREAS, based upon its review of the record, the Board concludes that the findings required under ZR §§ 73-44 and 73-03 have been met; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 16BSA078K, dated September 1, 2016; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved*, that the Board of Standards and Appeals *issues* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR §§ 73-44 and 73-03 to *permit*, on a site partially within a C8-2 and partially within a C4-2 zoning district and in the Special Ocean Parkway District, a reduction in the required number of accessory off-street parking spaces for an ambulatory diagnostic or treatment facility listed in Use Group 4, contrary to ZR § 36-21; *on condition* that all work shall substantially conform to drawings as they apply to the objections above noted filed with this application marked “Received June 20, 2017”–Sixteen (16) sheets, and *on further condition*:

THAT no certificate of occupancy shall be issued if the ambulatory diagnostic or treatment facility listed in Use Group 4 is changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius;

THAT the above condition shall be stated on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by June 20, 2021;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

# MINUTES

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 20, 2017.

SUBJECT – Application April 25, 2016 – Variance (§72-21) to allow retail (Use Groups 6 and 10) below the floor level of the second story contrary to ZR §42-14(D)(2)(b), and Use Group 10 retail use, contrary to ZR §42-12. M1-5B zoning district.

PREMISES AFFECTED – 11-13 Bond Street, aka 348-354 Lafayette Street, Block 529, Lot 15, Borough of Manhattan.

### COMMUNITY BOARD #2M

**ACTION OF THE BOARD** – Application granted on condition.

#### THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Montane.....4  
Negative:.....0

#### THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated November 21, 2016, acting on DOB Application No. 122629003 reads in pertinent part:

Proposed Use Group 6 and 10 for a single tenant retail building with retail uses below the floor level of the second (2nd) story is within an M1-5B Zoning District which is contrary to ZR 42-14(D)(2) and is not permitted; and

WHEREAS, this is an application under ZR § 72-21 to permit, on a site located within an M1-5B zoning district, Use Group 6 retail on the ground floor of an existing three- to four-story building, contrary to ZR § 42-14(D)(2)(b); and

WHEREAS, a public hearing was held on this application February 14, 2017, after due notice by publication in *The City Record*, with a continued hearing on April 25, 2017, and then to decision on June 20, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Montane performed inspections of the subject site and surrounding neighborhood; and

WHEREAS, Community Board 2, Manhattan, recommends approval of this application on condition that the Board ascertains that the subject building is truly appropriate for a single tenant; any approved Use Group 10 use be limited to arts and design establishments and not banks, drugstores and apparel stores; that no eating and drinking establishments be within the building or on the rooftop; that there be no below-

grade selling space; that the rooftop will be landscaped and maintained; that there will be no event space on the roof and no public access of any kind to the roof except for essential maintenance of the building and plantings; that the applicant will continue to communicate with neighbors during the conversion; that illumination, including in-window advertising/display signage and other lighting, not cast light into residential windows and be reduced within one hour of closing or by 10 p.m., whichever is earlier; and that if a single user store is approved, the top floor be used for back of house activities and not as an additional selling floor; and

WHEREAS, at hearing, the Board heard testimony from a representative of the NoHo Bowery Stakeholders, Inc., a community benefit organization, in support of this application; and

WHEREAS, the subject site is located on the southwest corner of Bond Street and Lafayette Street, within an M1-5B zoning district and the NoHo Historic District, in Manhattan; and

WHEREAS, the site has approximately 25 feet of frontage along Bond Street, 115 feet of frontage along Lafayette Street, 3,260 square feet of lot area and is occupied by a three- to four-story building; and

WHEREAS, the applicant represents that the existing building was constructed as a three-story building in 1913 for an animal hospital, enlarged in 1924 with a partial-fourth floor and rooftop terrace, converted to a factor and offices in 1964 after the animal hospital vacated the premises and was most recently utilized as women’s shelter operated by the New York State Department of Social Services; and

WHEREAS, the applicant originally proposed Use Group 6/10A retail use on the ground floor, contrary to ZR § 42-14(D)(2)(b), which only permits uses listed in Use Group 7, 9, 11, 16, 17A, 17B, 17C or 17E below the floor level of the second story, and Use Group 10A retail use in the remainder of the building, contrary to ZR § 42-12, which limits Use Group 10A uses in the subject zoning district to depositories for storage of office records, microfilm or computer tapes, or for data processing; docks for ferries; office or business machine stores, sales or rental; photographic or motion picture production studios; and radio or television studios; and

WHEREAS, in response to comments from the Board that UG 10A use was not justified by the submissions, particularly the financial analysis, which did not evidence a premium for Use Group 10A space, the applicant revised the application and now proposes to occupy the building with a single Use Group 6 retail tenant on the ground floor of the building and conforming accessory uses on the other floors and seeks a waiver of only ZR § 42-14(D)(2)(b); and

WHEREAS, the subject proposal additionally includes interior alterations—including the construction of a continuous first floor level accessible at grade from Lafayette Street, removing split levels to create a 17 foot tall first floor, reconfiguration of the cellar to accommodate existing and new utility services, installation of new fire stairs at the south end of the building and a second set of egress stairs at the north end of the building and enclosure of the open space at the fourth floor roof to create a full fourth floor—and façade alterations; and

---

# MINUTES

---

WHEREAS, the applicant state that, pursuant to ZR § 72-21(a), the functional obsolescence of the existing building—specifically, its small floorplate, split level configuration and lack of a loading dock—is a unique physical condition that creates a practical difficulty and unnecessary hardship in developing the site in conformance with the underlying district regulations; and

WHEREAS, the applicant represents that the second through fourth floors of the building have floorplates with approximately 3,282 square feet of floor area, which is inadequate for conforming uses that require larger floorplates, and that the split level first floor and cellar levels—which allowed horses to be brought into the cellar from one entrance on Lafayette Street and patrons and doctors to enter on the ground floor level from a separate entrance on Lafayette Street—are smaller, with between 1,150 and 1,500 square feet of floor area and, thus, even more inadequate for conforming uses; and

WHEREAS, the applicant submits that conforming wholesale commercial and/or manufacturing uses would also require suitable loading facilities, which the subject building lacks, as well as a dedicated freight elevator and/or internal stairs wide enough to facilitate the transfer of goods across the various floors of the building and, currently, circulation in the building is limited to a passenger elevator and several narrow staircases, ranging in width from 2'-7" to 3'-8", and the building lacks a loading dock; and

WHEREAS, in light of the foregoing, the Board finds that the functional obsolescence of the existing building is a unique physical condition that creates unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, with regards to the (b) finding, the applicant submits that there is no reasonable possibility that a conforming development at the subject site will bring a reasonable return and, in support of that contention, submitted a financial analysis of (1) a single Use Group 16 showroom on the first floor and conforming uses garnering market rents on the upper floors (the "AOR Scenario") and (2) the subject proposal; and

WHEREAS, the financial analyses submitted with this application conclude that the AOR Scenario would generate a project loss of approximately \$1.2 million and the subject proposal would generate a return of approximately \$850,000; and

WHEREAS, upon review of the applicant's submissions, the Board finds, in accordance with ZR § 72-21(b), that, due to the site's unique physical conditions, there is no reasonable possibility that a development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant states that the subject proposal will not substantially impair the appropriate use or development of adjacent properties and not be detrimental to the public welfare, in accordance with ZR § 72-21(c); specifically, as the site is located within the NoHo Historic District, characterized by institutional, loft and commercial office buildings dating from the 19th and early 20th

centuries, many of them cast iron, rising in heights ranging from three- to eight-stories with Use Group 6 retail and eating and drinking establishment uses on the ground floor and offices, residential and joint living-work quarters for artists ("JLWQA") on the floors above, the proposal is consistent with the existing neighborhood character; and

WHEREAS, the applicant asserts that any loading and unloading of goods will take place at the Jones Alley entrance to the building, rather than the main entry located on Lafayette Street, and will have a minimal impact on pedestrian and street traffic and that all mechanical units located on the roof will be located as far away from the adjacent building located at 9 Bond Street as possible to minimize noise impacts; and

WHEREAS, in response to the conditions suggested by Community Board 2, Manhattan, unrelated to the applicant's original request for Use Group 10A on the ground floor, which was subsequently removed, the applicant states that it agrees not to locate an eating and drinking establishment on the rooftop, but does not agree to the prohibition of eating and drinking establishments throughout the entire building; and agrees that there shall be no below-grade selling space, that the roof shall be landscaped and maintained without any event space or public access, that the applicant will communicate with neighbors during conversion of the building, that illumination will not cast light in to residential windows and be reduced within one hour of closing or by 10 pm, whichever is earlier; and

WHEREAS, accordingly, the Board finds that the subject proposal will not alter the essential character of the neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant represents and the Board finds that the hardship claimed as grounds for the variance was not created by the owner or a predecessor in title in accordance with ZR § 72-21(d); and

WHEREAS, the applicant submits that the subject proposal is the minimum variance necessary to afford relief because it is the only scenario that provides a return and will enable the applicant to successfully redevelop the site; and

WHEREAS, accordingly, the Board finds that the subject proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the project is classified as a Type I Action pursuant to 6 NYCRR, Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 16BSA114M, dated October 19, 2016; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water

---

# MINUTES

---

and Sewer Infrastructure; Solid Waste and Sanitation; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, by letter dated February 21, 2017, the New York City Department of Environmental Protection (“DEP”) states that DEP finds the December 2016 Phase II Work Plan and Health and Safety Plan (“HASP”) acceptable, provided that the name and phone number of an alternate Site Health and Safety Officer and a list of other relevant emergency telephone numbers are included in the HASP and the proposed soil and soil vapor sampling locations are individually labelled on the Sampling Locations Plan in the Phase II Work Plan; and

WHEREAS, DEP also requested that, upon completion of the investigation activities at the site, the applicant submit a detailed Phase II report—including, at a minimum, an executive summary, narrative of the field activities, laboratory data and conclusions, comparisons of soil and soil vapor analytical results, updated site plans depicting sample locations, boring logs and remedial recommendations, if warranted—to DEP for review and approval; and

WHEREAS, the applicant submitted a revised Phase II Work Plan and HASP incorporating DEP’s requested modifications; and

WHEREAS, by letter dated May 5, 2017, DEP states that the April 2017 Remedial Action Plan (“RAP”) and Construction Health and Safety Plan (“CHASP”) are acceptable, provided that the RAP is modified to indicate that indoor air sampling using a photoionization detector is conducted at the completion of renovation and construction activities and that the name and phone number of an Alternative Site Health and Safety Officer be added to the CHASP; and

WHEREAS, DEP further requested that upon completion of the clean fill/top soil investigation activities, a detailed clean soil report—including, at a minimum, an executive summary, narrative of field activities, laboratory data and comparison of soil analytical results—be submitted to DEP for review and approval prior to importation and placement on-site; and that, upon the completion of the project, a Remedial Closure Report, certified by a Professional Engineer and indicating that all remedial requirements have been properly implemented, be submitted to DEP for review and approval; and

WHEREAS, the applicant submitted a RAP and CHASP revised in accordance with DEP’s requests; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

*Therefore, it is Resolved*, that the Board of Standards and Appeals issues a Type I Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental

Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 to permit, on a site located within an M1-5B zoning district, Use Group 6 retail on the ground floor of an existing three- to four-story building, contrary to ZR § 42-14(D)(2)(b); *on condition* that all work shall substantially conform to drawings filed with this application marked “Received June 2, 2017”—Twelve (12) sheets; and *on further condition*:

THAT upon completion of the investigation activities at the site, the applicant submit a detailed Phase II report—including, at a minimum, an executive summary, narrative of the field activities, laboratory data and conclusions, comparisons of soil and soil vapor analytical results, updated site plans depicting sample locations, boring logs and remedial recommendations, if warranted—to DEP for review and approval;

THAT upon completion of the clean fill/top soil investigation activities, a detailed clean soil report—including, at a minimum, an executive summary, narrative of field activities, laboratory data and comparison of soil analytical results—be submitted to DEP for review and approval prior to importation and placement on-site;

THAT upon the completion of the project, a Remedial Closure Report, certified by a Professional Engineer and indicating that all remedial requirements have been properly implemented, be submitted to DEP for review and approval;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a certificate of occupancy shall be obtained within four (4) years;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 20, 2017.

entry/exit of an accessory loading berth with a C8-3 zoning district). C8-3 & R7-2 zoning district.

PREMISES AFFECTED – 2420 Amsterdam Avenue, Block 2152, Lot(s) 77 & 83, Borough of Manhattan.

## COMMUNITY BOARD #12M

**ACTION OF THE BOARD** – Application granted on condition.

### THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Montane.....4

Negative: .....0

### THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated September 7, 2016, acting on DOB Application No. 121190763 reads in pertinent part:

1. ZR 22-10: Proposed Use Group 5 and 6 are not permitted as of right in an R7-2 District as per 22-10;
2. ZR 33-122: Proposed commercial floor area exceeds the maximum permitted floor area of 2.0 FAR in the C8-3 district as per ZR 33-122;
3. ZR 33-432 and 33-442: Proposed sky exposure plan [*sic*] does not comply with the requirements of ZR 33-432 and 33-442;
4. ZR 36-683: Proposed entrance and exit from the accessory loading berth does not provide the minimum distance of 30 feet from the residential district boundary as per ZR 36-683; and

WHEREAS, this is an application under ZR § 72-21 to permit, on a site located partially within a C8-3 zoning district and partially within an R7-2 zoning district, the development of a commercial building that does not comply with zoning regulations relating to use, maximum commercial floor area, sky exposure plane and the location of the entry and exit of the accessory loading berth set forth in ZR §§ 22-10, 33-122, 33-432, 33-442 and 36-683; and

WHEREAS, a public hearing was held on this application on January 31, 2017, after due notice by publication in *The City Record*, with continued hearings on April 4, 2017, and June 6, 2017, and then to decision on June 20, 2017; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the subject site and surrounding neighborhood; and

WHEREAS, Community Board 12, Manhattan, recommends approval of this application on condition that certain community enhancements be provided<sup>1</sup> and that the

---

<sup>1</sup> In a letter to Community Board 12, Manhattan, dated December 22, 2016, the applicant memorialized its commitment to provide the following community enhancements: public access to the hotel lobby and outdoor courtyard whenever those spaces are also open to patrons of the hotel and tenants of the office space; permanent dedication of five percent of the development’s office space to community based organizations; community use of conference and lecture space in the development up to six

applicant report to the Community Board prior to, during and following the completion of environmental cleanup of the site; and

WHEREAS, the Board has received letters in support of the proposal from New York State Senator Marisol Alcantara, New York State Assemblywoman Carmen De La Rosa, United States Congressman Adriano Espaillat, the Northern Manhattan Arts Alliance and the Washington Heights Business Improvement District; and

WHEREAS, at hearing, the Board heard testimony in support of the proposal from a representative of New York City Councilmember Ydanis Rodriguez, who noted the high demand for commercial office space in the area and that the proposed development would be a great economic generator; and

WHEREAS, the Board additionally received a letter in opposition to the proposal alleging that the site does not suffer from any unique physical conditions that pose a hardship to its development as-of-right and is, thus, not eligible for a variance; and

WHEREAS, the subject site is located on the west side of Amsterdam Avenue, bound by West 181st Street to the north and West 180th Street to the south, partially within a C8-3 zoning district and partially within an R7-2 zoning district, in Manhattan; and

WHEREAS, the site has approximately 220 feet of frontage along Amsterdam Avenue, 150 feet of frontage along West 181st Street, 150 feet of frontage along West 180th Street, 32,925 square feet of lot area and is currently occupied by a vacant one-story building; and

WHEREAS, the Board has exercised jurisdiction over portions of the subject site since July 2, 1935, when, under BSA Cal. No. 556-26-BZ, the Board granted a variance at 2420-2436 Amsterdam Avenue, 513-515 West 180th Street and 502 West 181st Street to permit the construction and maintenance of a gasoline service station in a business district; and

WHEREAS, the Board subsequently approved plans, granted several extensions of terms, extensions of time and amendments and modified a decision of a Borough Superintendent regarding Fire Prevention Code compliance for the site under BSA Cal. Nos. 556-26-BZ, 8-78-BZ, 314-82-A and 243-03-BZ; and

WHEREAS, most recently, on March 9, 2004, under BSA Cal. No. 243-03-BZ, the Board granted an application

---

times a year at no cost for 20 years; dedicated gallery space in the hotel lobby or other common areas of the building used to profile the work of local artists and residents and a curator on staff at the development to coordinate public exhibits up to four times a year; an agreement to work with New York City agencies, Community Board 12, Manhattan, and other local stakeholder to recruit and hire local residents for construction and permanent jobs associated with the development; and provision of employee tuition reimbursement and internships in hotel and food and beverage operations for local students enrolled in related programs.

---

---

pursuant to ZR § 11-412 to reestablish the then-lapsed variance permitting the operation of a gasoline service station with accessory uses and, further, the conversion of a portion of the existing building to an accessory convenience store for a term of ten (10) years, expiring October 17, 2008; and

WHEREAS, the applicant now proposes to develop the site with a commercial building having a total of 213,822 square feet of floor area and a floor area ratio ("FAR") of 6.5 contained within a series of building volumes, the tallest of which rises to 22-stories and a height of 280'-3" on the portion of the site fronting West 181st Street; and

WHEREAS, the development is proposed to include 85,855 square feet of floor area for a 212-room hotel located in a four-story portion of the development fronting West 180th Street and an 11-story portion fronting Amsterdam Avenue; 114,898 square feet of floor area of office space located in the portions of the development fronting West 181st Street; and 13,067 square feet of floor area of retail space located on the ground floor of level of the development fronting both Amsterdam Avenue and West 181st Street ; and

WHEREAS, the proposed development proposes commercial use within the southwestern portion of the site located within an R7-2 zoning district, contrary to ZR § 22-10; proposes more than the maximum 2.0 FAR (54,876 square feet of floor area) of commercial use on the portion of the site located with a C8-3 zoning district, contrary to ZR § 33-122; penetrates the sky exposure plane contrary to ZR §§ 33-432 and 33-443; and locates a loading berth approximately six feet from an R7-2 zoning district boundary, contrary to ZR § 36-683; and

WHEREAS, accordingly, the applicant seeks the herein relief requested herein; and

WHEREAS, the applicant states that, pursuant to ZR § 72-21(a), the history of development of the lot with automotive-related commercial uses, subsurface petroleum contamination on the site and its location within both a residential and a commercial zoning district are unique physical conditions that create a practical difficulty and unnecessary hardship in developing the site in conformance with the underlying district regulations; and

WHEREAS, a southwestern portion of the lot (5,487 square feet of lot area, or approximately 17 percent) is located within an R7-2 zoning district, where many commercial uses are prohibited, and the remaining (27,438 square feet of lot area, or approximately 83 percent) is located within a C8-3 zoning district, where residential uses are not permitted as-of-right; and

WHEREAS, however, the applicant submits that the site has been occupied by a gasoline service station and accessory uses since the 1930s, prior to the designation of a portion of the site within an R7-2 zoning district in 1961, and that the subject development proposes to continue the history of commercial use; and

WHEREAS, the applicant also represents that the site is contaminated with petroleum as a result of its development history, specifically that the New York State

Department of Environmental Conservation ("NYSDEC") assigned Spill Number 07-12231 to the site in February 2008 in connection with a leak from an underground storage tank and issued a conditional closure report on October 11, 2013, requiring that appropriate remedial and vapor mitigation measures be taken in the event the site was redeveloped; and

WHEREAS, the applicant submits that the subject site is the only property within a 1,000-foot radius with a reported NYSDEC Spill; and

WHEREAS, soil groundwater and soil vapor sampling was conducted throughout the site in July 2016 and found that petroleum-impacted groundwater is located in two bedrock wells near the northwestern portion of the site; petroleum- and metals-impacted soil exist at depths between ten feet and 30 feet below grade in the northwestern portion of the site; and petroleum staining, semi-volatile organic compounds and metal concentrations can be found in the central portion of the site; and

WHEREAS, as a result of this subsurface contamination, the applicant represents that engineering and construction measures above and beyond those typically associated with site redevelopment are required at the subject site and, further, such measures are unique to the subject site due to its prior development; and

WHEREAS, the applicant additionally submits that shallow bedrock on the site, present at a depth ranging from six feet below grade at the eastern portion of the site to 30 feet below grade at the northern portion of the site with approximately 50 percent of the site underlain with bedrock at a depth of less than 12 feet below grade, is unique and creates a practical difficulty in developing the site in conformance with the applicable zoning regulations, particularly the accessory off-street parking space regulations; and

WHEREAS, the applicant submits that in order to accommodate the 1 space per 1,000 square feet of floor area required for a commercial development on the site pursuant to ZR § 36-21, a cellar would have to be excavated to a depth of 18 feet through bedrock and that a need for such costly excavation is unique to the subject site; and

WHEREAS, in support of that contention, the applicant submitted a uniqueness study of all the 208 tax lots within 1,000 feet of the subject site (the "Study Area") concluding that eight other lots within the Study Area (or four percent) are vacant or undeveloped, but all of these lots are located within an R7-2 zoning district and thus, unlike the subject site, are not likely to require the excavation of bedrock in order to accommodate parking required in connection with their development; and

WHEREAS, the uniqueness study analyzed the as-of-right development potential of the eight lots and concluded that three of the lots have lot area of less than 10,000 square feet and could, therefore, have their parking requirement waived for residential use pursuant to ZR § 25-242 and two of these lots are also located on the campus of Yeshiva University and would have no parking requirement if developed with a community facility associated with the

---

# MINUTES

---

university pursuant to ZR § 25-31; one of the lots is occupied by the Trans Manhattan Expressway and is unlikely to be developed at all; and the four remaining lots are contiguous, currently utilized in tandem for open parking, and if developed together with a residential use, could accommodate all of the required parking in a partial cellar only 12 feet deep; and

WHEREAS, the applicant additionally analyzed the underdeveloped tax lots—defined as being developed with an FAR of 2.0 or less—located within the Study Area, of which there are 54 (or 26 percent of all lots in the Study Area): 35 lots have Certificates of Occupancy indicating that the developments on these lots contain cellars and, thus, would not require additional excavation to accommodate any parking that may be required as part of their redevelopment; 15 lots are located within an R7-2 or R7-2(C1-4) zoning district with less than 10,000 square feet of lot area and, thus, any parking required for their redevelopment with residential uses could be waived pursuant to ZR § 25-242; two lots having more than 10,000 square feet of lot area are owned by Yeshiva University and the New York City Department of Education, suggesting that both would be redeveloped with a community facility use for which there is no parking requirement and, thus, excavation for a cellar to accommodate required parking would be unnecessary; one lot is located within a C8-3 zoning district, but only contains 2,500 square feet of lot area and is surrounded by overbuilt commercial buildings with full lot coverage on the adjacent lots and, thus, unlikely to be redeveloped for commercial or community facility use; and one site is located in a C4-4 zoning district, contains 7,500 square feet of lot area and is currently occupied with a commercial development with a basement and thus could, arguably, accommodate any parking required as part of its redevelopment without additional excavation; and

WHEREAS, based on the above, the Board finds that the history of development of the site, the subsurface contamination and the split lot condition constitute unique physical conditions that create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, with regards to the (b) finding, the applicant submits that there is no reasonable possibility that a conforming development at the subject site will bring a reasonable return and, in support of that assertion, submitted a financial analysis of (1) an as-of-right development of a six-story residential building containing 18,860 square feet of floor area on the portion of the site located within an R7-2 zoning district and a series of building volumes, similar in massing to the proposed building, containing a 52,940 square feet of floor area dedicated to a 114-room hotel and 142,150 square feet of floor area dedicated to community facility use on the portion of the site located within a C8-3 zoning district with one 18-foot deep cellar across the entire site (the “AOR Scenario”); (2) the AOR Scenario with a partial 18-foot deep cellar setback 22 feet from Amsterdam Avenue requiring less bedrock excavation (the “AOR Alternative Scenario 1”); (3) the AOR Scenario with a 12-foot deep cellar and an 18-foot sub-cellar setback 22 feet and 36 feet, respectively, from Amsterdam Avenue,

comparable to the two cellars in the subject proposal (the “AOR Alternative Scenario 2”); and (4) the subject proposal, demonstrating that only the subject proposal would provide a reasonable return; and

WHEREAS, the applicant states that the residential, hotel and community facility uses in the AOR Scenario would generate income insufficient to cover the premium construction costs associated with site remediation and costly bedrock excavation; the reduced cellar in AOR Alternative Scenario 1 would require the relocation of parking and support spaces from floor space in the cellar to floor area above grade, thereby reducing revenue; and that, similar to the AOR Scenario, the revenue realizable from as-of-right uses will be insufficient to cover the premium costs associated with the excavation of two partial cellars in AOR Alternative Scenario 2; and

WHEREAS, the applicant represents that in 2014, the site entered the New York State Brownfield Cleanup Program and an agreement was made with NYSDEC to, at a minimum, clean up contaminated soil and historic fill having concentrations above the site specific soil clean up objectives, remediate any groundwater identified as contaminated and construct a soil vapor mitigation system during development; and that costs associated with these remediation efforts increase the premium costs of the proposal by between \$2.89 million and \$3.14 million, depending on the level of remediation achieved; and

WHEREAS, the Board notes that encouraging the remediation of environmental contamination to the highest level feasible is good public policy; and

WHEREAS, the site is eligible for Brownfield Redevelopment Tax Credits due to its participation in the Brownfield Cleanup Program, but the applicant submits that such tax credits may not be received by the taxpayer until several years after the cessation of the remediation activities for which the credits are claimed and, thus, are not available to fund project development; the applicant additionally informs the Board that, under certain circumstances, some tax credit amounts may be subject to recapture; accordingly, the income anticipated to be received from these tax credits, estimated at \$1.75 million, has not been included as income in the financial analyses for any of the scenarios; and

WHEREAS, the financial analysis concludes that the AOR Scenario would generate a project loss of approximately \$5.5 million; AOR Alternative Scenario 1 would generate a project loss of approximately \$7.2 million; AOR Alternative Scenario 2 would generate a project loss of approximately \$16.7 million; and the subject proposal would yield a return of approximately \$479,000; and

WHEREAS, upon review of the applicant’s submissions, the Board finds, in accordance with ZR § 72-21(b), that, due to the site’s unique physical conditions, there is no reasonable possibility that a development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant states that subject proposal will not substantially impair the appropriate use or development of adjacent property and not be detrimental to

---

# MINUTES

---

the public welfare, in accordance with ZR § 72-21(c); specifically, that the site is located at the intersection of two wide streets in an immediate area characterized by three- and four-story commercial buildings and a five-story residential building to the west, five- and eight-story mixed-use residential and commercial buildings to the north, a three-story commercial building and a five-story residential building to the south and Highbridge Park and George Washington Bridge roadways to the east; and that the edges of the neighborhood are framed by taller buildings, including four 18-story residential buildings to the south of the site, five 12-story residential buildings to the west of the site, an 18-story community facility building to the northeast of the site, a 17-story community facility building located to the north of the site and three residential towers of between 20- and 22-stories located to the northwest of the site; and

WHEREAS, the applicant states that the massing of the building is informed by and explicitly synthesizes these various building masses in its design, which consists of a series of stacked volumes—a four-story base fronting Amsterdam Avenue, West 180th Street and West 181st Street, a seven-story mid-rise section atop this base fronting Amsterdam Avenue and West 181st Street, an one-story transitional volume and a tower that fronts on West 181st Street—that roughly match the brick residential buildings that characterize the neighborhood; further, the development’s height along West 180th Street is consistent with the five-story residential buildings located on that block while the taller portion is located at the intersection of Amsterdam Avenue and West 181st Street, consistent with a tenet of urban planning that encourages higher scale development at the intersection of wide streets; and

WHEREAS, at hearing, the Board suggested that a reduction in the height of the proposed tower and a corresponding increase in its width and floorplates may be more consistent with neighborhood character; and

WHEREAS, the applicant submitted plans for such a modification, illustrating that such a proposal would not eliminate the waivers requested with regards to the sky exposure plane regulations and, further, would require an additional rear yard waiver; and

WHEREAS, finally, the applicant suggests that the redevelopment of the subject site with the proposed, which includes ground floor retail and street trees, would constitute a substantial improvement over the existing conditions, which consist of a one-story building and a paved parking lot; and

WHEREAS, in light of the foregoing, the Board finds that the subject proposal will not alter the essential character of the neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant represents and the Board finds that the hardship claimed as grounds for the variance was not created by the owner or a predecessor in title in accordance with ZR § 72-21(d); and

WHEREAS, the applicant represents that the subject proposal is the minimum variance necessary to afford relief

and, in support of this contention, submitted the analysis of two lesser variance scenarios: (1) the subject proposal with 20,384 square feet of floor area dedicated to community facility use on the upper four floors of the office tower portion of the development (“LV1”) and (2) the subject proposal with 18,180 square feet of floor area on the lower floors of the office tower (“LV2”), both of which would reduce the degree of the waiver requested for commercial floor area, contrary to ZR § 33-122, and, in the case of LV1 alone, would comply with the sky exposure plane regulations and eliminate the need for a waiver of ZR §§ 33-432 and 33-442; and

WHEREAS, the financial analysis of LV1 and LV2 concluded that each scenario resulted in a project loss of approximately \$5.7 million and \$6.27 million, respectively, and are, thus, infeasible; and

WHEREAS, accordingly, the Board finds that the subject proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the project is classified as an Unlisted Action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Environmental Assessment Statement Short Form CEQR No. 17-BSA-016M, dated June 2, 2017; and

WHEREAS, the EAS documents that the project as proposed would not have significant impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, by a report dated May 11, 2016, the New York City Landmarks Preservation Commission states that the subject site is of no architectural or archaeological significance; and

WHEREAS, by correspondence dated December 19, 2016, the New York City Department of Parks and Recreation states that it has no comments with regards to the shadow assessment and conclusions provided in connection with the subject proposal; and

WHEREAS, by correspondence dated January 26, 2017, the New York City Department of Environmental Protection (“DEP”) requests that the following conditions, relating to the subject site’s participation in the Brownfield Cleanup Program, be applied to the Board’s decision: Board approval is conditioned on the subject site’s participation in the Brownfield Cleanup Program; a letter of acceptance into the Brownfield Cleanup Program and an executed Brownfield Cleanup Agreement are required for the issuance of any building permits associated with the proposed development; on certificate of occupancy shall be issued until a certificate of completion has been issued by NYSDEC; and failure to complete the remedy for cleanup

---

---

approved by NYSDEC and receive a certificate of completion requires amendment to the grant of the variance and the submission of test results and a Remedial Action plan for review and approval by DEP; and

WHEREAS, by letter dated May 16, 2017, the New York City Department of Transportation (“DOT”) suggested minor signal timing modifications to traffic lights located at the intersection of West 181st Street and Amsterdam Avenue and the intersection of West 180th Street and Amsterdam Avenue in order to accommodate the vehicle trips generated by the proposed development; DOT additionally requested that the Board and/or the applicant inform DOT six months prior to the completion and occupancy of the proposed development; and

WHEREAS, with regards to noise, by letter dated June 1, 2017, DEP states that, as a result of the noise impact analysis, the following minimum composite OITC window/wall noise attenuation rating are required: building frontages on West 181st Street require rating of 33 dBA from the street level to an elevation of 80 feet and 30 dBA for elevation of 80 to 160 feet above ground level; the building frontage on Amsterdam Avenue require a rating of 31 dBA from the street level to an elevation of 100 feet and 28 dBA for an elevation of 100 to 200 feet above ground level; and the noise attenuation for commercial and office uses shall be 5 dBA lower; and

WHEREAS, DEP also required that an alternate means of ventilation be incorporated into the design and construction of the proposed development; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

*Therefore, it is Resolved*, that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR § 72-21 to permit, on a site located partially within a C8-3 zoning district and partially within an R7-2 zoning district, the development of a commercial building that does not comply with zoning regulations relating to use, maximum commercial floor area, sky exposure plane and the location of the entry and exit of the accessory loading berth set forth in ZR §§ 22-10, 33-122, 33-432, 33-442 and 36-683; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received June 5, 2017”-Thirty-Two (32) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum of 213,822 square feet of commercial floor area (6.5 FAR), including 7,736 square feet of commercial floor area in the portion of the site located within an R7-2 zoning district; no setback from West 181st Street; and an entrance and exit from the

accessory loading berth less than 30 feet from the residential district boundary;

THAT this approval is conditioned on the subject site’s participation in the Brownfield Cleanup Program;

THAT no building permits associated with the subject development shall issue without submission of a letter of acceptance into the Brownfield Cleanup Program and an executed Brownfield Cleanup Agreement to DOB;

THAT no certificate of occupancy shall be issued until a certificate of completion has been issued by NYSDEC;

THAT failure to complete the remedy for cleanup approved by NYSDEC and receive a certificate of completion requires amendment to the grant of the variance and the submission of test results and a Remedial Action plan for review and approval by DEP;

THAT the applicant notify DOT six months prior to the completion and occupancy of the proposed development;

THAT building frontages on West 181st Street require rating of 33 dBA from the street level to an elevation of 80 feet and 30 dBA for elevation of 80 to 160 feet above ground level;

THAT the building frontage on Amsterdam Avenue require a rating of 31 dBA from the street level to an elevation of 100 feet and 28 dBA for an elevation of 100 to 200 feet above ground level;

THAT the noise attenuation for commercial and office uses shall be 5 dBA lower;

THAT an alternate means of ventilation be incorporated into the design and construction of the proposed development;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a certificate of occupancy shall be obtained within four (4) years;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 20, 2017.

SUBJECT – Application December 22, 2016 – Special Permit (§73-36) to operate a physical culture establishment (*Crunch Fitness*) within an existing building. C5-5 (Lower Manhattan Special District) within the Marine Midland Bank Building (New York City Landmark).

PREMISES AFFECTED – 140 Broadway, Block 48, Lot 1, Borough of Manhattan.

### COMMUNITY BOARD #1M

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Montanez.....4

Negative: .....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated November 22, 2016, acting on Alteration Application No. 122935609, reads in pertinent part:

“Proposed physical culture establishment, in C5-5 (LM) zoning district, is contrary to Section 32-10 ZR and requires a special permit from the BSA”;  
and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, in a C5-5 zoning district and the Special Lower Manhattan District, the operation of a physical culture establishment in the sub-cellar and on the first floor of a 51-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on June 20, 2017, after due notice by publication in *The City Record*, and then to decision on June 20, 2017; and

WHEREAS, Vice-Chair Chanda and Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 1, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of Broadway, between Liberty Street and Cedar Street, in a C5-5 zoning district and the Special Lower Manhattan District, in Manhattan; and

WHEREAS, the site has approximately 144 feet of frontage along Broadway, 318 feet of frontage along Liberty

---

# MINUTES

---

Street, 184 feet of frontage along Nassau Street, 311 feet of frontage along Cedar Street, 52,636 square feet of lot area and is occupied by a 51-story, with cellar and sub-cellars, commercial building; and

WHEREAS, the building is the former Marine Midland Bank Building, an individual landmark designated by the New York City Landmarks Preservation Commission ("LPC") on June 25, 2013; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
  - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
  - (ii) a swimming pool of a minimum 1,500 square feet; or
  - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
  - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and

- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04 and 73-36(b)(4), it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the proposed PCE will occupy 28,611 square feet of floor space (1,317 square feet of floor area) as follows: 27,294 square feet of floor space in sub-cellar level B, including exercise-equipment areas, group-fitness spaces, a yoga studio, a spinning studio, locker rooms with saunas and an office, and 1,317 square feet of floor area on the first floor, serving as a lobby; and

WHEREAS, the PCE will be operated as Crunch Fitness with proposed hours of operation of Monday to Friday, 5:00 a.m. to 11:30 p.m., and Saturday and Sunday, 7:00 a.m. to 9:00 p.m.; and

WHEREAS, the applicant represents that the proposed PCE will be located below ground, under an existing bank vault, storage space and mail room with only a minor portion below office space, within an existing commercial building; and

WHEREAS, in addition, the applicant submits that sound attenuation measures will be provided within the space so as to not disturb other tenants in the building and to ensure that sound levels in adjacent building areas do not exceed 45 dBA, including rubber matting and ceiling-suspended gypsum board; and

WHEREAS, at the Board's request, the applicant provided the results of a noise survey conducted at the premises, concluding that 35 pound weight drops would be rendered inaudible at the lobby level with the use of the 2-1/2" mat utilized during testing and the following recommendations. received from a consultant regarding limiting the transmission of sound from the proposed PCE: a sound barrier ceiling consisting of two layers of 5/8" gypsum board suspended from spring hangers with insulation throughout the ceiling space; speakers should be isolated and subwoofers mounted resiliently on the floor using neoprene waffle pads; sound level limiters be hardwired into the speaker system; resilient headers on all walls associated with impact noise or containing a room

---

# MINUTES

---

with elevated noise levels (i.e. the “Throw Wall” within the Group Training Room”); installation of a 2-1/2” thick rubber tile floor in areas containing weight stack equipment and free weights; resilient fitness flooring in the cardio equipment area; installation of a specialized floor system—consisting of a finish layer of interlocking recycled rubber tiles, a layer of softer polymer, and dimpled recycled rubber layer at the bottom—in the CrossFit activity areas; and

WHEREAS, accordingly, the Board finds that the PCE use is so located as to not impair the essential character or the future use or development of the surrounding area; and

WHEREAS, with regards to the use of the premises, the applicant states that the PCE provides facilities for classes, instruction and programs for physical improvement, including spinning and yoga; and

WHEREAS, the Board finds that the PCE use is consistent with those eligible, pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE will be fully sprinklered and that an approved interior fire alarm—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, and a connection to an FDNY-approved central station—will be installed in the entire PCE space; and

WHEREAS, by letter dated April 19, 2017, the Fire Department states that it has no objection to this application; and

WHEREAS, the LPC issued Certificate of Appropriateness No. 18-3035 (Docket No. 181978) dated March 8, 2016, expiring May 12, 2021, for alterations associated with the subject application; and

WHEREAS, on April 24, 2017, LPC permitted an amendment to the work approved under the Certificate of Appropriateness; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, the applicant represents that the PCE will not interfere with any public improvement projects; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 17BSA056M, dated December 22, 2016; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on

Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; and Construction; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03.

*Therefore it is Resolved*, that the Board of Standards and Appeals issues a Type I Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to *permit*, in a C5-5 zoning district and the Special Lower Manhattan District, the operation of a physical culture establishment, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received June 1, 2017”- Six (6) sheets; and *on further condition*:

THAT the term of this grant shall be for ten (10) years, expiring June 20, 2027;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT minimum 3’-0” wide exit pathways shall be provided leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be installed in the entire PCE space and the PCE shall be fully sprinklered, as indicated on the BSA-approved plans;

THAT sound attenuation shall be installed in the PCE as indicated on the BSA-approved plans;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by June 20, 2021;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the

# MINUTES

Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 20, 2017.

Negative: .....0

### THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated January 5, 2017, acting on Alteration Application No. 122947231, reads in pertinent part:

“Proposed Physical Culture Establishment in M1-5M zoning district is not permitted pursuant to ZR 42-10 and is referred to the Board of Standards and Appeals for special permit under ZR 73-36”; and

WHEREAS, this is an application, under ZR §§ 73-36 and 73-03, to permit, in an M1-5M zoning district, the operation of a physical culture establishment (“PCE”) in the cellar and on the first floor of an 8-story mixed-use building, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on June 20, 2017, after due notice by publication in *The City Record*, and then to decision on June 20, 2017; and

WHEREAS, Community Board 5, Manhattan, waived its recommendation for this application; and

WHEREAS, the subject site is located on the north side of East 19th Street, between Broadway and Park Avenue South, in an M1-5M zoning district, in the Ladies’ Mile Historic District, in Manhattan; and

WHEREAS, the site has approximately 60 feet of frontage along East 19th Street, 92 feet of depth, 5,520 square feet of lot area and is occupied by an 8-story, with cellar, mixed-use commercial-and-residential building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
  - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
  - (ii) a swimming pool of a minimum 1,500 square feet; or
  - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
  - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-

04 and 73-36(b)(4), it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE will occupy approximately 8,992 square feet of floor space as follows: 4,406 square feet of floor area in the cellar, consisting of a waiting area, treatment rooms, locker rooms with steam rooms, and storage, and 4,620 square feet of floor area on the first floor, including check-in, a waiting area, retail space, treatment rooms, a hair-styling area, manicure and pedicure areas, an eyebrow studio, offices, restrooms and check-out; and

WHEREAS, the PCE will be operated as Rescue Spa with proposed hours of operation 9 a.m. to 10 p.m. daily; and

WHEREAS, the applicant represents that the proposed PCE will not impair the character or future use or development of the surrounding area because the PCE will be fully contained in an existing structure, will generate very little noise, will only play light music and will not be a nuisance to tenants of the subject mixed-use building; and

WHEREAS, accordingly, the Board finds that the PCE use is so located as to not impair the essential character or the future use or development of the surrounding area; and

WHEREAS, with regard to the use of the premises, the applicant states that the proposed PCE will include facilities for the practice of massage by New York State licensed masseurs and masseuses; and

WHEREAS, the Board finds that the PCE use is consistent with those eligible, pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the building is fully sprinklered and that an approved fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, and connection to a Fire Department-approved central station—will be installed in the entire PCE space; and

WHEREAS, by letter dated June 16, 2017, the Fire Department states that, based on its review of the drawings and supporting documentation for the proposed PCE, it has no objection to this application; and

WHEREAS, the New York City Landmarks

Preservation Commission (“LPC”) issued Certificate of Appropriateness No. 96-0171 (Docket No. 96-4774) dated June 14, 1996, expiring June 4, 2002, for an existing flagpole and nylon banner; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17BSA067M, dated January 10, 2017; and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03.

*Therefore it is Resolved*, that the Board of Standards and Appeals *issues* a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 *per se*, in an M1-5M zoning district, the operation of a physical culture establishment, contrary to ZR § 42-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received April 26, 2017”- Four (4) sheets; and *on further condition*:

THAT the term of this grant shall be for ten (10) years, expiring June 20, 2027;

THAT all massages shall be performed only by New York State licensed massage professionals;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT minimum 3’-0” wide exit pathways shall be provided leading to the required exits and that pathways shall be maintained unobstructed, including from any spa equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be installed in the entire PCE space, as indicated on the BSA-approved plans;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by June 20, 2021;

THAT this approval is limited to the relief granted by

---

---

the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 20, 2017.

## SPECIAL ORDER CALENDAR

### 581-56-BZ

APPLICANT – Gerald J. Caliendo, RA, AIA, for Salamander Realty Corp., owner.

SUBJECT – Application May 16, 2016 – Amendment (§11-413) of a previously approved variance which permitted the operation of a Storage Warehouse (UG 16). The amendment seeks to change the use to a trade school, meeting hall and offices (Use Groups 6 & 9). R5 zoning district.

PREMISES AFFECTED – 24-01 to 24-11 36<sup>th</sup> Avenue aka 35-45 to 35-57 24<sup>th</sup> Street, Block 338, Lot 1, Borough of Queens.

### COMMUNITY BOARD #1Q

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Montanez.....3

Negative: .....0

Absent: Commissioner Ottley-Brown.....1

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated April 14, 2016, acting on Alteration Application No. 420649855, reads in pertinent part:

“ZR 22-10” “Proposed change of use from existing storage warehouse, distribution, office and sales, commercial use to a trade school, meeting hall and offices (use group 6 and 9) in a residential zoning district (R5) is not permitted as of right. This proposed use is contrary to section 22-10 ZR. There are no bulk regulations for commercial uses in a residence district. Proposed use is contrary to BSA Cal No. 581-56 BZ. Refer to the Board and Standards and Appeals for their resolution”; and

WHEREAS, this is an application under ZR § 11-413 for an amendment to a variance, previously granted by the Board, to permit, in an R5 zoning district, a change of use from use as a storage warehouse and offices (Use Groups 16 and 6) to a trade school, meeting hall and offices (Use Groups 9 and 6); and

WHEREAS, a public hearing was held on this application on May 23, 2017, after due notice by publication in *The City Record*, and then to decision on June 27, 2017; and

WHEREAS, Vice-Chair Chanda and Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 1, Queens, recommends approval of this application, noting that it believes the change in use from a stapling and fastening warehouse use to a union trade school and meeting hall would not have significant impacts on nearby residential uses; and

WHEREAS, the subject site is located on the northeast corner of 36th Avenue and 24th Street, in an R5 zoning district, in Queens; and

WHEREAS, the site has approximately 125 feet of frontage along 36th Avenue, 143 feet of frontage along 24th Street, 17,267 square feet of lot area and is occupied by a one-story, with cellar, commercial building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 22, 1957, when, under the subject calendar number, the Board granted a variance to permit the construction of a commercial building used for offices, storage warehouse, distribution, sales and maintenance as well as open parking and truck loading and unloading on condition that the building not be increased in height or area beyond that shown on the Board-approved plans and that such portable fire-fighting appliances be maintained as the Fire Commissioner directs; and

WHEREAS, the applicant now seeks to change the use of the subject site from a storage warehouse and offices (Use Groups 16 and 6) to a trade school, meeting hall and offices (Use Groups 9 and 6); and

WHEREAS, the applicant represents that the proposed change of use complies with ZR § 11-413, which requires that changing from one non-conforming use to another comply with ZR §§ 52-31 to 52-36; and

WHEREAS, at hearing, the Board questioned the maintenance of the fencing and landscaping, the use of razor wire around the site perimeter, the presence of steel containers in the parking lot and graffiti on the roll-down doors and requested further information about the operations of the proposed trade school and meeting hall; and

WHEREAS, in response, the applicant submitted photographs of improved site conditions, amended the drawings to correct zoning calculations and provided a dense landscaped buffer consisting of a three-foot-wide planting strip with seven arborvitae, which will grow to a minimum height of six feet, and provided a detailed operational plan for the proposed trade school and meeting hall; and

WHEREAS, the Board agrees with Community Board 1 and finds that, in accordance with ZR § 11-413, the propose changed of use will not impair the essential character or the future use or development of the surrounding area; and

WHEREAS, based on the foregoing, the Board has determined that the requested amendments to the variance are appropriate with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated

# MINUTES

January 22, 1957, so that as amended this portion of the resolution reads: “under ZR § 11-413 to permit, in an R5 zoning district, a change of use from use as a storage warehouse and offices (Use Groups 16 and 6) to a trade school, meeting hall and offices (Use Groups 9 and 6); *on condition* that all work and site conditions shall comply with drawings filed with this application marked ‘Received June 27, 2017’-Five (5) sheets; and *on further condition*:

THAT the building shall not be increased in height or area beyond that shown on the Board-approved plans;

THAT such portable fire-fighting appliances shall be maintained as the Fire Commissioner directs;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by June 27, 2021;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 27, 2017.

-----

## 19-94-BZ

APPLICANT – Andrew Schwarsin, Esq., for Walter R. Schwarsin, owner.

SUBJECT – Application July 13, 2016 – Extension of Term of a previously approved Variance permitting a public parking lot (UG 8) of which a portion of the lot lies in a residential zoning district which expired on July 18, 2015; Waiver of the rules. C4-3/R-5 zoning district.

PREMISES AFFECTED – 37-18 75<sup>th</sup> Street, Block 1285, Lot 47, Borough of Queens.

## COMMUNITY BOARD #3Q

### THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Montanez.....3

Negative: .....0

Absent: Commissioner Ottley-Brown.....1

### THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and an extension of term of a variance, previously granted by the Board, which expired July 18, 2015; and

WHEREAS, a public hearing was held on this application on January 24, 2017, after due notice by publication in *The City Record*, with a continued hearing on March 28, 2017, and then to decision on June 27, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 3, Queens, recommends approval of this application for a term of ten (10) years; and

WHEREAS, the subject site is located on the west side of 75th Street, between 37th Avenue and 37th Road, in an R5 (C4-3) zoning district, in Queens; and

WHEREAS, the site has approximately 120 feet of frontage along 75th Street, 100 feet of depth, 12,001 square feet of lot area and is occupied by a parking lot; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 25, 1995, when, under the subject calendar number, the Board granted a variance under ZR § 72-21 to permit a public parking lot in Use Group 8 within the residential portion of the site for a term of ten (10) years, expiring July 18, 2005, on condition that all site lighting be directed downward and away from the adjacent residential use, that attendant parking be provided, that fencing be installed and maintained in accordance with the Board-approved plans, that the gates to the parking lot be closed after hours and that the lot be paved in accordance with Administrative Code § 27-479, that the Board’s conditions appear on the certificate of occupancy; and

WHEREAS, on September 15, 1998, under the subject calendar number, the Board denied an application to amend the resolution to add 14 parking spaces; and

WHEREAS, on October 9, 1998, the Board issued a letter of substantial compliance to allow minor changes to the site plans, including enlargements of the curb cut and of the attendant’s booth to accommodate a lavatory, which was never installed; and

WHEREAS, on November 15, 2005, under the subject calendar number, the Board waived its Rules of Practice and Procedure, amended its resolution to permit minor changes to the site plans and granted an extension of term for ten (10) years, to expire July 18, 2015; and

WHEREAS, the term of the variance having expired, the applicant now seeks a further extension of the term of the variance for an additional ten (10) years; and

WHEREAS, in addition, the applicant requests a waiver, pursuant to § 1-14.2 of the Board’s Rules of Practice and Procedure, of Rule § 1-07.3(b)(2) to permit the filing for an extension of term less than two (2) years after the expiration of the term; and

WHEREAS, the applicant has demonstrated that the use has been continuous since the expiration of term and that substantial prejudice would result without such a waiver; and

WHEREAS, at hearing, the Board questioned the lack of lavatory access for employees, damage to the fencing, the state of the parking lot’s pavement, light trespass on adjacent residences, lack of planting and the actual uses abutting the subject site; and

WHEREAS, in response, the applicant provided information about employees’ restroom access, repaired the fencing, repaved and re-striped the parking lot, submitted a

# MINUTES

light-spread diagram and described the uses in the surrounding area; and

WHEREAS, the Board agrees with Community Board 3 that ten (10) years is a suitable length of time; and

WHEREAS, the Board finds that a ten (10) year extension of the term of the variance is appropriate with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure and *reopens* and *amends* the resolution, dated July 25, 1995, as amended through November 15, 2005, so that as amended this portion of the resolution reads: “to *grant* an extension of term of the variance for ten (10) years from the expiration of the last grant, to expire July 18, 2025; *on condition* that all work and site conditions shall comply with drawings filed with this application marked ‘Received December 14, 2016’-three (3) sheets; and *on further condition*:

THAT the term of the variance shall be limited to ten (10) years, to expire July 18, 2025;

THAT all site lighting shall be directed downward and away from the adjacent residential use;

THAT attendant parking shall be provided;

THAT fencing shall be installed and maintained in accordance with the Board-approved plans;

THAT the gates to the parking lot shall be closed after hours;

THAT the lot shall be paved in accordance with Administrative Code § 27-479;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 27, 2017.

## 58-96-BZ

APPLICANT – Kramer Levin Naftalis & Frankel LLP, for 277 Park Avenue, LLC., owner; Manhattan Athletic Club LLC, lessee.

SUBJECT – Application November 28, 2016 – Extension of Term of a previously granted Special Permit (§73-36) for the continued operation of physical culture establishment (*Manhattan Athletic Club*) which expires on December 10, 2016. C5-2A (DB) zoning district. C5-3 & C6-6 (Special Midtown District) zoning district.

PREMISES AFFECTED – 277 Park Avenue, Block 1302, Lot 1, Borough of Manhattan.

COMMUNITY BOARD #5M

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Montanez.....3

Negative: .....0

Absent: Commissioner Ottley-Brown.....1

THE RESOLUTION –

WHEREAS, this is an application to amend a previously granted special permit for a physical culture establishment (“PCE”) and an extension of term of the special permit, which expired on December 10, 2016; and

WHEREAS, a public hearing was held on this application on May 23, 2017, after due notice by publication in *The City Record*, and then to decision on June 27, 2017; and

WHEREAS, Vice-Chair Chanda and Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 4, Manhattan, waives its recommendation for this application; and

WHEREAS, the subject site is located on the east side of Park Avenue, between East 48th Street, Lexington Avenue and East 46th Street, partially within a C5-3 zoning district and partially within a C6-6 zoning district, in the Special Midtown District, in Manhattan; and

WHEREAS, the site has approximately 201 feet of frontage along Park Avenue, 405 feet of frontage along East 48th Street, 201 feet of frontage along Lexington Avenue, 405 feet of frontage along East 47th Street, 81,338 square feet of lot area and is occupied by a 50-story, with cellar, commercial building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since December 10, 1996, when, under the subject calendar number, the Board granted a special permit to permit the operation of PCE for a term of ten (10) years, expiring December 10, 2006, on condition that there be no change in ownership or operating control of the PCE without prior application to and approval from the Board, that all massage therapists at the subject PCE shall possess a valid New York State license for such practice which license shall be prominently displayed at the premises and that the above conditions appear on the certificate of occupancy; and

WHEREAS, on April 10, 2007, the Board amended its grant to modify the PCE’s interior layout and add 479 square feet of floor area on the first floor to accommodate boxing facilities and extended the term of the special permit for ten (10) years, expiring December 10, 2016, on condition that there be no change in ownership or operating control of the PCE without prior approval from the Board, that the Board’s conditions appear on the certificate of occupancy, that a certificate of occupancy be obtained within one (1) year, by April 10, 2008, and that Local Law 58/87 be as reviewed and approved by the Department of Buildings; and

WHEREAS, the applicant now seeks an extension of term of the special permit for an additional ten (10) years and an amendment to permit interior layout changes, reflecting a smaller reception area and additional massage

# MINUTES

room; and

WHEREAS, the facility remains in operation as Manhattan Athletic Club with the following hours of operation: 5:30 a.m. to 10:00 p.m., Monday through Friday, and 9:00 a.m. to 6:00 p.m., Saturday and Sunday; and

WHEREAS, the applicant notes that the PCE continues to occupy 13,428 square feet of floor area: 495 square feet in the basement and 12,454 square feet on the first floor, as previously approved by the Board; and

WHEREAS, the applicant explains that the drawings have been corrected to reflect the PCE floor area of 13,428 square feet, which includes 495 square feet of floor area for the PCE entrance at the basement level; and

WHEREAS, as discussed at hearing, the Board declines to opine on the banners at the subject site and notes that no sign regulations have been waived by the Board, and accordingly all signage shall comply with the applicable sign regulations; and

WHEREAS, the Board notes that its determination is subject to and guided by ZR § 73-03; and

WHEREAS, by letter dated June 23, 2017, the Fire Department states that, based upon its review of the drawings and supporting documentation, it has no objection to this application; and

WHEREAS, consistent with ZR § 73-03(a), the Board finds that, under the conditions and safeguards imposed, the hazards of disadvantage to the community at large of the special permit are outweighed by the advantages to be derived by the community; and

WHEREAS, as to ZR § 73-03 subsections (b) and (c), the Board finds, respectively, that the subject special permit will not interfere with any public improvement project and that the use will not interfere with the existing street system; and

WHEREAS, the Board notes that ZR § 73-03 subsections (d) and (g) are inapplicable to this application; and

WHEREAS, § 73-36 mandates a term not to exceed ten (10) years and, thus, pursuant to ZR § 73-03(e), the Board shall establish a term not to extend ten (10) years; and

WHEREAS, consistent with ZR § 73-03(f), the Board finds that the circumstances warranting the original grant still obtain and that the applicant has complied with the conditions and safeguards theretofore described by the Board during the prior term; and

WHEREAS, based upon its review of the record, the Board finds that the requested amendment and ten (10) year extension is appropriate with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated December 10, 1996, as amended April 10, 2007, so that as amended this portion of the resolution shall read: “to grant modifications to the interior layout, reflecting a smaller reception area and additional massage room, and an extension of term for an additional ten (10) years, expiring December 10, 2026; *on condition* that the use and operation of the PCE shall substantially conform to the Board-

approved plans, and that all work and site conditions shall comply with drawings marked ‘Received November 28, 2016’-Two (2) sheets; and *on further condition*:

THAT this special permit shall be limited to a term of ten (10) years, expiring December 10, 2026;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massage therapists at the subject physical culture establishment shall possess a valid New York State license for such practice, which license shall be prominently displayed at the premises;

THAT the above conditions shall appear on the certificate of occupancy;

THAT an amended certificate of occupancy shall be obtained within one (1) year, by June 27, 2018;

THAT Local Law 58/87 compliance shall be as reviewed and approved by the Department of Buildings;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect; and

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 27, 2017.

in *The City Record*, and then to decision on June 27, 2017; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 4, Manhattan, waives its recommendation for this application; and

WHEREAS, the subject site is located on the east side of Eighth Avenue, between West 24th Street and West 23rd Street, in a C2-7A zoning district, in Manhattan; and

WHEREAS, the site has approximately 198 feet of frontage along Eighth Avenue, 100 feet of depth, 19,750 square feet of lot area and is occupied by a two-story, with cellar, commercial building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since February 24, 1998, when, under the subject calendar number, the Board granted a special permit for the PCE in the subject building for a term of ten (10) years, expiring November 1, 2006, on condition that there be no change in ownership or operating control of the PCE without prior application to and approval from the Board, that signage be maintained in accordance with the Board-approved plans, that rooftop HVAC and mechanical equipment comply with the New York City Noise Code, that the hours of operation be limited to 6:00 a.m. to 11:00 p.m., Monday through Thursday, 6:00 a.m. to 10:00 p.m., Friday, and 9:00 a.m. to 6:00 p.m., Saturday and Sunday, that the above conditions appear on the certificate of occupancy and that a certificate of occupancy be obtained within one (1) year, by February 24, 1999; and

WHEREAS, on September 14, 2010, under the subject calendar number, the Board waived its Rules of Practice and Procedure, granted an extension of term of the special permit for ten (10) years, expiring November 1, 2016, and amended its resolution to change the hours of operation to Monday through Thursday, 5:30 a.m. to 11:00 p.m., Friday, 5:30 a.m. to 10:00 p.m., and Saturday and Sunday, 8:00 a.m. to 9:00 p.m.; and

WHEREAS, the term of the special permit having expired, the applicant now seeks a further extension of term for an additional ten (10) year term; and

WHEREAS, the facility remains in operation as New York Sports Club with the following hours of operation: Monday through Thursday, 5:30 a.m. to 11:00 p.m., Friday, 5:30 a.m. to 10:00 p.m., and Saturday and Sunday, 8:00 a.m. to 9:00 p.m.; and

WHEREAS, the applicant notes that the PCE continues to occupy 19,990 square feet of floor space in the building: 240 square feet of floor space in the cellar and 19,750 square feet of floor area on the second floor, as previously approved by the Board; and

WHEREAS, at hearing, the applicant explained that, despite the previously approved plans, which reflect 19,760 square feet of floor area, the actual floor area used by the PCE is in fact 19,750; and

WHEREAS, the Board notes that its determination is subject to and guided by ZR § 73-03; and

WHEREAS, by letter dated June 26, 2016, the Fire Department states that, based upon its review of the

drawings and supporting documentation, it has no objection to this application; and

WHEREAS, by letter dated December 28, 2016, Community Board 4, Manhattan, states that it has recently conducted an inspection of the PCE, finding that the PCE was a well-run facility, and that Community Board 4's office has no record of complaints about the PCE; and

WHEREAS, consistent with ZR § 73-03(a), the Board finds that, under the conditions and safeguards imposed, the hazards of disadvantage to the community at large of the special permit are outweighed by the advantages to be derived by the community; and

WHEREAS, as to ZR § 73-03 subsections (b) and (c), the Board finds, respectively, that the subject special permit will not interfere with any public improvement project and that the use will not interfere with the existing street system; and

WHEREAS, the Board notes that ZR § 73-03 subsections (d) and (g) are inapplicable to the subject application; and

WHEREAS, § 73-36 mandates a term not to exceed ten (10) years and, thus, pursuant to ZR § 73-03(e), the Board shall establish a term not to extend ten (10) years; and

WHEREAS, consistent with ZR § 73-03(f), the Board finds that the circumstances warranting the original grant still obtain and that the applicant has complied with the conditions and safeguards theretofore described by the Board during the prior term; and

WHEREAS, based upon its review of the record, the Board finds that a ten (10) year extension is appropriate with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals *reopens* and *amends* the resolution, as adopted on February 24, 1998, as amended through September 14, 2010, so that as amended this portion of the resolution shall read: "to extend the term for a period of ten (10) years from November 1, 2016, to expire on November 1, 2026; *on condition* that all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked 'Received November 30, 2016'-Five (5) sheets; and *on further condition*:

THAT the term of this grant shall expire November 1, 2026;

THAT the hours of operation shall be: Monday through Thursday, 5:30 a.m. to 11:00 p.m., Friday, 5:30 a.m. to 10:00 p.m. and Saturday and Sunday, 8:00 a.m. to 9:00 p.m.;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT signage shall be maintained in accordance with the Board-approved plans;

THAT rooftop HVAC and mechanical equipment comply with the New York City Noise Code;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT an amended certificate of occupancy shall be obtained within one (1) year, by June 27, 2018;

#### THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated July 28, 2015, acting on Alteration Application No. 321166064, reads in pertinent part:

1. Proposed F.A.R. and O.S.R. constitutes an increase in the degree of existing non compliance contrary to Sec. 23-141 of the N.Y.C. Zoning Resolution.
2. Proposed horizontal enlargement provides less than the required side yard contrary to Sec. 23-46 Z.R. and less than the required rear yard contrary to Sec. 23-47 Z.R.; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03 to permit, in an R2 zoning district, the enlargement of an existing single-family detached residence that does not comply with the zoning requirements for floor area ratio (“FAR”), open space ratio, side yards and rear yards, contrary to ZR §§ 23-141, 23-46 and 23-47; and

WHEREAS, a public hearing was held on this application on February 28, 2017, after due notice by publication in *The City Record*, with continued hearings on April 4, 2017, and June 6, 2017, and then to decision on June 27, 2017; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application on condition that a distance of 3 feet be required between the residence and garage; and

WHEREAS, the subject site is located on the west side of East 23rd Street, between Avenue M and Avenue N, in an R2 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 40 feet of frontage along East 23rd Street, 100 feet of depth, 4,000 square feet of lot area and is occupied by a three-story, with

cellar, single-family detached residence; and

WHEREAS, ZR § 73-622 provides:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single-* or *two-family detached* or *semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard* or *perimeter wall height* regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single-* or *two-family detached* or *semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall

---

# MINUTES

---

be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge an existing detached single-family residence, as contemplated in ZR § 73-622; and

WHEREAS, the applicant proposes to enlarge the existing single-family detached residence at the front, rear and south side, increasing the floor area from 2,555 (0.64 FAR) to 3,845 square feet (0.96 FAR), decreasing the open space ratio from 1.08 to 0.60, reducing the rear yard from 30'-6" to 20 feet and maintaining the existing 3'-11" north side yard; and

WHEREAS, at the subject site, a maximum FAR of 0.50 is permitted and a minimum open space ratio of 1.50 is required under ZR § 23-141; two side yards with widths of at least 5 feet each are required under ZR § 23-46; and a rear yard of at least 30 feet is required pursuant to ZR § 23-47; and

WHEREAS, the applicant submits that the enlarged building will not alter the essential character of the neighborhood or district in which it is located, nor impair the future use or development of the surrounding area; and

WHEREAS, in support of this contention, the applicant presented a photographic study of the floor area ratios of single- and two-family residences within 400 feet of the subject site, concluding that 27 of 102 lots (27 percent) in the study area had FARs greater than 0.75; and

WHEREAS, the applicant also analyzed the rear yards of single- and two-family residences within 400 feet of the subject site, concluding that 23 of 102 lots (23 percent) in the study area have rear yards with depths of less than 30 feet at the first floor, 17 lots (74 percent of rear yards less than 30 feet) have rear yards with depths of less than 20 feet and 11 lots (65 percent of rear yards less than 20 feet) have two-story construction at the rear yard, consistent with the proposed enlargement; and

WHEREAS, the applicant further states that, on the subject block, there are ten lots that have non-complying rear yards with depths of less than 30 feet; and

WHEREAS, at the Board's request, the applicant reduced the height [KS1] of the enlarged building proposed and studied the height of single- and two-family residences within 400 feet, concluding that 30 of the 102 (47 percent) single- and two-family residences have heights above 35 feet and that 10 residences on the social block (29 percent) have heights above 35 feet, consistent with the proposed height; and

WHEREAS, in response to the concerns of Community Board 14, Brooklyn, the applicant also amended the drawings to reflect that a minimum distance of 3 feet will be provided between the existing garage and the residence; and

WHEREAS, at hearing, the Board questioned the bulk of the enlarged building in the context of the existing neighborhood, so the applicant revised the drawings to reduce the building's imposition on the rear yard at the second and third floors; and

WHEREAS, accordingly, the Board finds that the proposed enlarged building will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 16-BSA-022K, dated August 27, 2015; and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03.

*Therefore it is Resolved*, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-622 and 73-03 to *permit*, in an R2 zoning district, an enlargement of an existing single-family detached residence that does not comply with the zoning requirements for floor area ratio, open space, side yards and rear yards, contrary to ZR §§ 23-141, 23-46 and 23-47; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received June 13, 2017"- Twelve (12) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area of 3,845 (0.96 FAR), a minimum open space ratio of 0.60, a north side yard of at least 3'-11" and a rear yard of at least 20 feet, as illustrated on the Board-approved drawings;

THAT removal of existing building material in excess of that shown on the Board-approved plans shall void this

# MINUTES

approval;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 27, 2017.

## 2017-61-BZ

APPLICANT – Sheldon Lobel, P.C., for CA Plaza, LLC, owner.

SUBJECT – Application March 10, 2017 – Special Permit (§73-66) to permit the construction of a new building in excess of the height limits established under ZR 61-20. C4-2 & C4-3 zoning district. Waiver of section §1-05.3 of the Rules of Practice and Procedure to allow filing of a Department of Buildings Objection form more than 30 days after the final determination by the Commissioner of Buildings.

PREMISES AFFECTED – 36-18 Main Street, Block 4971, Lot 15, Borough of Queens.

## COMMUNITY BOARD #7Q

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Montanez.....3

Negative: .....0

Absent: Commissioner Ottley-Brown.....1

THE RESOLUTION –

WHEREAS, decision on behalf of the Queens Borough Commissioner, dated September 12, 2013, acting on Department of Buildings (“DOB”) Application No. 401816923 reads in pertinent part:

“Proposed building height . . . exceeds the height per ZR 61-20, required to obtain BSA special permit as per 73-66”; and

WHEREAS, this is an application under § 73-66 to permit, on a site located partially within a C4-3 zoning district and partially within a C4-2 zoning district, the construction of a building that exceeds the maximum height permitted in the vicinity of major airports, contrary to ZR § 61-21; and

WHEREAS, a public hearing was held on this application on May 2, 2017, after due notice by publication in *The City Record*, with a continued hearing on June 27, 2017, and then to decision on that same date; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Montanez performed inspections of the subject site and neighborhood; and

WHEREAS, Community Board 7, Queens, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of Main Street, between Northern Boulevard and 37th Avenue, partially within a C4-3 zoning district and partially within a C4-2 zoning district, in Queens; and

WHEREAS, the site has approximately 74 feet of frontage along Main Street, 151 feet of frontage along Prince Street, 35,857 square feet of lot area and is currently under development with a mixed-used commercial and community facility building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since June 13, 1939, when, under BSA Cal. No. 642-39-A, the Board granted an appeal and modified the decision of the borough superintendent of buildings to permit the installation of a sign exceeding 30 square feet and extending more than 25 feet above the sidewalk on a one-story building on condition that no additional sign be constructed on the building; and

WHEREAS, on May 11, 1948, under BSA Cal. No. 213-48-A, the Board varied the Labor Law to permit the arrangement of doors and bars on windows contrary to Sections 271 and 272 of that law for a one-story building utilized for the rolling and plating of precious metals as well as offices for 10 persons; and

WHEREAS, in the current application, the applicant seeks a special permit, pursuant to ZR § 73-66, to permit the construction of a building composed of three sections: a 14-story portion fronting Main Street with a total elevation of 212.58 feet above mean sea level (“AMSL”), 211.48 feet NAVD 88 or 209.83 feet Queens Datum; a 12-story portion fronting Prince Street with a total elevation of 184.75 feet AMSL, 183.65 NAVD 88 or 182.00 feet Queens Datum, contrary to ZR § 61-21; and a three-story portion in between, connecting the other two portions (the “Building”); and

WHEREAS, pursuant to ZR § 61-21:

Notwithstanding any other provisions of this Resolution, except as provided in Section 61-22 (Permitted Projection within Any Flight Obstruction Area), the highest projection of any *building or other structure* hereafter constructed or of any existing *building or other structure* hereafter relocated, *enlarged* or reconstructed shall not penetrate:

- (a) the *approach surfaces*, the *transitional surfaces*, the *horizontal surface*, or the *conical surface*, whichever is more restrictive, within the Airport Approach District of the *flight obstruction area*; and
- (b) the *horizontal surface* or the *conical surface* within the Airport Circling District of the *flight obstruction area*; and

WHEREAS, the applicant represents that, pursuant to ZR § 61-21 and the definitions contained in ZR § 61-30, the approach surfaces are the most restrictive at the subject site and permit a maximum height of 156.00 feet AMSL, 154.90 NAVD 88 or 153.25 feet Queens Datum; and

---

# MINUTES

---

WHEREAS, ZR § 73-66 provides that:

The Board of Standards and Appeals may permit the construction, *enlargement*, or reconstruction of a *building or other structure* in excess of the height limits established under Section 61-21 (Restriction on Highest Projection of Building or Structure) or 61-22 (Permitted Projection Within any Flight Obstruction Area), provided that the applicant submits a site plan, with elevations, showing the proposed *building or other structure* in relation to such maximum height limits, and that the Board finds that such proposed *building or other structure, enlargement*, or reconstruction would not constitute a hazard (either under the existing layout of the airport or under any planned reorientation or lengthening of the airport runways) to the safety of the occupants of such proposed *building*, to other *buildings* in the vicinity or to the safety of air passengers, and would not disrupt established airways.

The Board shall refer the application to the Federal Aviation Administration for a report as to whether such construction will constitute a danger to the safety of air passengers or disrupt established airways; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, in support of this application, the applicant has submitted a site plan showing the proposed Building with elevations, the maximum as-of-right height permitted at the site and the maximum obstruction height approved by the Federal Aviation Administration (“FAA”); and

WHEREAS, regarding the Board’s determination that such proposed building would not constitute a hazard, the Board notes that the FAA regulates the heights of buildings within proximity to airports and that, since the subject site is located within the flight obstruction area for LaGuardia Airport, the Board defers to the FAA’s determinations regarding the any potential hazards posed by the proposed building; and

WHEREAS, the application was referred to the FAA, which issued a Determination of No Hazard to Air Navigation, dated May 27, 2016, under Aeronautical Study No. 2016-AEA-4405-OE stating that the FAA’s aeronautical study of the Building, conducted under the provisions of 49 U.S.C. Section 44718 and, if applicable, Title 14 of the Code of Federal Regulations, part 77, revealed that, at a maximum height of 216 feet AMSL, the Building would exceed obstruction standards but not be a hazard to air navigation provided that the structure continue to be marked/lighted utilizing red lights (the “FAA Determination”); and

WHEREAS, accordingly, the maximum building height approved by the FAA is 216 feet AMSL, 214.90 feet NAVD 88 or 213.25 feet Queens Datum; and

WHEREAS, the Board notes that the heights proposed

for the 14-story portion of the Building fronting Main Street and 12-story portion of the Building fronting Prince Street have total elevations of less than 216 feet AMSL; and

WHEREAS, the Board notes that the obstruction standards referenced by the FAA in its determination are similar, but not identical, to those found in the Zoning Resolution and that the maximum building height of 216 feet AMSL includes temporary construction equipment such as cranes, derricks, etc., which may be used during actual construction of the structure, but equipment shall not exceed the overall height of 216 feet AMSL and any temporary construction equipment of greater height would require separate notice to the FAA; and

WHEREAS, the FAA Determination further required that (1) FAA Form 7460-2, Notice of Actual Construction or Alteration, be e-filed any time the provide is abandoned or within five (5) days after the construction reaches its greatest height; (2) the FAA be kept appraised as to the status of the development at the site, warning that any failure to respond to periodic FAA inquiries could invalidate the FAA Determination; and (3) any construction that requires the use of a crane or cranes for the structure should be e-filed with the FAA at least 90-120 days prior to crane operations exceeding the structures’ AMSL height with a lift plan, jump schedule, crane specification documents and marking and lighting plan attached to ensure expeditious FAA evaluation; and

WHEREAS, by its explicit terms, any changes in coordinates, heights and frequencies or use of greater power than those indicated therein will void the FAA Determination and any future construction or alternation, including increase to heights, power, or the additional of other transmitters will require separate notice to the FAA; and

WHEREAS, all FAA conditions contained in the FAA Determination have been adopted and incorporated into the Board’s grant herein, therefore any act constituting a violation of the FAA Determination will necessarily violate the subject Resolution; and

WHEREAS, by letter dated August 20, 2012, the Port Authority of New York and New Jersey, which operates LaGuardia Airport, communicates its agreement with the FAA Determination and requests that all conditions stated in the FAA Determination be followed; and

WHEREAS, based on the above, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit is outweighed by the advantages to be derived by the community; and

WHEREAS, the applicant states that the subject proposal will not interfere with any public improvement projects; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-66 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

*Therefore it is Resolved*, that the Board of Standards and

# MINUTES

Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-66 and 73-03, to permit, on a site partially within a C4-3 zoning district and partially within a C4-2 zoning district, the construction of a building that exceeds the maximum height limits around airports, contrary to ZR § 61-21; *on condition* that all work will substantially conform to the drawings filed with this application and marked "Received June 27, 2017"-Twenty-Six (26) sheets; and *on further condition*:

THAT the maximum height of the building, including all appurtenances, shall be as follows: 216 feet AMSL, 214.90 feet NAVD 88 or 213.25 feet Queens Datum;

THAT the proposed building shall be marked/lighted utilizing red lights, as required by the FAA, at all times;

THAT FAA Form 7460-2, Notice of Actual Construction or Alteration, be e-filed any time the provide is abandoned or within five (5) days after the construction reaches its greatest height;

THAT the FAA be kept apprised as to the status of the development at the site, warning that any failure to respond to periodic FAA inquiries could invalidate the FAA Determination;

THAT any construction that requires the use of a crane or cranes for the structure should be e-filed with the FAA at least 90-120 days prior to crane operations exceeding the structures' AMSL height with a lift plan, jump schedule, crane specification documents and marking and lighting plan attached to ensure expeditious FAA evaluation;

THAT no temporary construction equipment may exceed a height of 216 feet AMSL;

THAT any temporary construction equipment having a height greater than 216 feet AMSL and/or any future construction or alteration, including increase to heights, power or the addition of other transmitters, requires separate notice to the FAA;

THAT substantial construction be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 27, 2017.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Montanez.....3

Negative: .....0

Absent: Commissioner Ottley-Brown.....1

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated December 2, 2016, acting on Alteration Application No. 321042297, reads in pertinent part:

“Proposed Physical Culture Establishment in R7A / C2-4 Zoning district is contrary to section 32-10 ZR and requires a special permit from BSA (73-36);” and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, in an R7A (C2-4) zoning district, the operation of a physical culture establishment (“PCE”) on a portion of the cellar, first floor and second floor of a two-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on June 27, 2017, after due notice by publication in *The City Record*, and then to decision on the same day; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and WHEREAS, Community Board 7, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of 4th Avenue, between 51st Street and 52nd Street, in an R7A (C2-4) zoning district, in Brooklyn; and

WHEREAS, the site has approximately 50 feet of frontage along 4th Avenue, 100 feet of depth, 5,000 square

---

# MINUTES

---

feet of lot area and is occupied by a two-story, with cellar, commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
  - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
  - (ii) a swimming pool of a minimum 1,500 square feet; or
  - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
  - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by

ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04 and 73-36(b)(4), it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the proposed PCE will occupy a total of 9,185 square feet of floor space as follows: 2,535 square feet of floor space in the cellar, used for strength-training and cardiovascular-equipment areas, a locker room and janitor's closet; 2,552 of floor area on the first floor, including a reception area, strength-training equipment, elliptical machines, a locker room, an office, storage space and retail; and 4,098 of floor area on the second floor, with areas dedicated to stretching, dumbbells, a jungle gym, cardiovascular fitness and strength training as well as a break room; and

WHEREAS, the PCE will be operated as Blink Fitness with proposed hours of operation Monday to Saturday, 5:30 a.m. to 11:00 p.m., and Sunday, 7:00 a.m. to 9:00 p.m.; and

WHEREAS, the applicant represents that the proposed PCE will be located on a busy commercial thoroughfare and will be entirely within an existing commercial building, surrounded by other commercial uses; and

WHEREAS, in addition, the applicant submits that noise abatement measures—including rubber flooring and demising walls with batt insulation—will be provided in the PCE space to ensure that sound levels in other portions of the building will not exceed a maximum interior noise level of 45 dBA, including sound emanating from any sound system installed; and

WHEREAS, accordingly, the Board finds that the PCE use is so located as to not impair the essential character or the future use or development of the surrounding area; and

WHEREAS, with regard to use of the premises, the applicant states that the proposed PCE contains facilities for classes, instruction and programs for physical improvement, body building, weight reduction and aerobics; and

WHEREAS, the Board finds that the PCE use is consistent with those eligible, pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE will be fully sprinklered and that an approved fire alarm—

# MINUTES

including area smoke detectors, manual pull stations at each required exist, local audible and visual alarms and connection of the interior fire alarm and sprinkler system to an FDNY-approved central station—will be installed in the entire PCE space; and

WHEREAS, by letter dated June 23, 2017, the Fire Department states that, based on its review of the drawings and supporting documentation for the proposed PCE, it has no objection to this application; and

WHEREAS, by letter dated May 6, 2015, the New York City Office of Environmental Remediation (“OER”) issued a Notice to Proceed stating that a Notice of Satisfaction from OER is required prior to the issuance of any final or temporary certificate of occupancy for the subject building, a condition that has been incorporated herein; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17-BSA-049K, dated December 6, 2016; and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03.

*Therefore it is Resolved*, that the Board of Standards and Appeals *issues* a Type II determination under 6 NYCRR Part 617.3 and 617.5, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to *permit*, in an R7A (C2-4) zoning district, the operation of a physical culture establishment, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received May 31, 2017”- Five (5) sheets; and *on further condition*:

THAT a Notice of Satisfaction from the New York City Office of Environmental Remediation is required prior to the issuance of any final or temporary certificate of occupancy for the subject building, a condition that has been incorporated herein;

THAT the term of this grant shall be for ten (10) years, expiring June 27, 2027;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT minimum 3'-0" wide exit pathways shall be

provided leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm and sprinkler system to an FDNY-approved central station—shall be installed in the entire PCE space and the PCE shall be fully sprinklered, as indicated on the Board-approved plans;

THAT sound attenuation shall be installed in the PCE as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by June 27, 2021;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 27, 2017.

---

construction standards that does not comply with the zoning requirements for front yards, contrary to ZR § 23-45; and

WHEREAS, a public hearing was held on this application on June 27, 2017, and then to decision on the same date; and

WHEREAS, this application is brought on behalf of the property owner by the Build It Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in furtherance of the City's effort to rebuilt residences impacted by Superstorm Sandy expeditiously and effectively, the Board, pursuant to 2 RCNY § 1-14.2, waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1-05.1 (Objection Issued by the Department of Buildings); (2) 2 RCNY § 1-05.3 (Filing Period); (3) 2 RCNY § 1-05.4 (Application Referral); (4) 2 RCNY § 1-05.6 (Hearing Notice); (5) 2 RCNY § 1-05.7 (List of Affected Property Owners); (6) 2 RCNY § 1-09.4 (Owner's Authorization); and (7) 2 RCNY § 1-10.7 (Proof of Service for Application Referral and Hearing Notice); and

WHEREAS, the Board notes that the subject application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the east side of Bedford Avenue, between Rockaway Point Boulevard and Doris Lane, in an R4 zoning district, in Queens; and

WHEREAS, the site has approximately 28 feet of frontage along Bedford Avenue, 92 feet of depth, 2,556 square feet of lot area and is occupied by a one-story single-family detached residence that is non-compliant with the applicable front-yard regulations; and

WHEREAS, the applicant now seeks a special permit, pursuant to ZR § 64-92, to allow the reconstruction and enlargement of a one-story one-family detached residence with open space having a depth of 11.8 feet fronting Bedford Avenue; and

WHEREAS, at the subject site, front yards must be 10 feet or, if deeper, at least 18 feet under ZR § 23-45; and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments* and *enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Section 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

(a) that there would be a practical difficulty in complying with *flood-resistant construction*

*standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;

- (b) that any modifications of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, in accordance with ZR § 64-92(a), the need to reconstruct and enlarge the existing residence, which, as it exists, is non-compliant with front-yard regulations, creates practical difficulties in complying with flood-resistant construction standards without the modification of the front-yard requirement and that waiver of the same is the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the finding pursuant to ZR § 64-92(b) is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the residence is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the majority of residences within the surrounding neighborhood are single-family residences, a significant number of which are on lots that do not meet requirements for lot size or frontage and have non-complying yard configurations; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed reconstruction and enlargement satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17BSA143Q, dated June 13, 2017.

*Therefore, it is Resolved*, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure; *issues* a Type II determination under 6 NYCRR Part 617.5

# MINUTES

and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review; and makes the required findings under ZR § 64-92 to *permit*, in an R4 zoning district, the reconstruction and enlargement of a one-story single-family detached residence in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards, contrary to ZR § 23-45; *on condition* that all work shall substantially conform to the drawings filed with this application and marked “Received June 13, 2017”- Seven (7) sheets; and *on further condition*:

THAT there shall be a front yard of at least 11.8 feet along Bedford Avenue, as illustrated on the Board-approved plans;

THAT the building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code;

THAT the residence shall be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code;

THAT the underside of the exterior of the residence where the foundation is not closed shall have a floor assembly that provides a 2-hour fire resistance rating;

THAT the height from grade plane to the highest windowsill leading to a habitable space may not exceed 32 feet;

THAT this approval shall be limited to the Build It Back program;

THAT all DOB and related agency application(s) filed in connection with the authorize use and/or bulk shall be signed off by DOB and all other relevant agencies by June 27, 2021;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 27, 2017.

designed and installed in accordance with Section 907.2.11 of the New York City Building Code; the underside of the exterior of the residence where the foundation is not closed having a floor assembly that provides a 2-hour fire resistance rating; and the height from grade plane to the highest windowsill leading to a habitable space not exceeding 32 feet; and

WHEREAS, the applicant now seeks a special permit, pursuant to ZR § 64-92, to allow the reconstruction of a two-story one-family detached residence with 6'-11" of open space along the west lot line, 6'-1" of open space along the east lot line and 10 feet of open space along the south lot line, contrary to the zoning requirements for side yards and rear yards; and

WHEREAS, at the subject site, side-yard and rear-yard requirements are set forth in ZR §§ 23-462(c) and 23-47; and

WHEREAS, the subject site does not front a "street," as defined in ZR § 12-10, and is accessed, instead, by a path, allowing ingress and egress to the surrounding public streets; and

WHEREAS, consequently the subject site lacks a "front lot line," a "front yard," a "rear lot line," a "rear yard" and "side yards," as those terms are defined in the same section and, therefore, proposes open space, in lieu of yards, along its lot lines and seeks waivers of the applicable yard regulations; and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments* and *enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Section 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

- (a) that there would be a practical difficulty in complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;
- (b) that any modifications of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in

which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, in accordance with ZR § 64-92(a), the need to reconstruct the existing residence, which, as it exists, is non-compliant with yard regulations, creates practical difficulties in complying with flood-resistant construction standards without the modification of the yard requirements and that waivers of the same is the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the finding pursuant to ZR § 64-92(b) is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the residence is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed reconstruction satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17BSA144K, dated June 14, 2017.

*Therefore, it is Resolved*, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure and *issues* a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92 to *permit*, in an R6 zoning district and the Special Ocean Parkway District, the reconstruction of a two-story single-family detached residence in compliance with flood-resistant construction standards that does not comply with the zoning requirements for side yards and rear yards, contrary to ZR §§ 23-462(c), 23-47 and 64-A353; *on condition* that all work shall substantially conform to the drawings filed with this application and marked "Received June 13, 2017"- Eleven (11) sheets; and "Received June 15, 2017"- One (1) sheet; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: a minimum of 6'-11" of open space along the west lot line, a minimum of 6'-1" of open space along the east lot line and a minimum of 10 feet of open space along the south lot line, with exterior stairs in the open space at the north and south and a porch column at the north, as illustrated on

rear yards; and

WHEREAS, at the subject site, side-yard and rear-yard requirements are set forth in ZR §§ 23-462(c) and 23-47; and

WHEREAS, the subject site does not front a “street,” as defined in ZR § 12-10, and is accessed, instead, by a pathway, allowing ingress and egress to the surrounding public streets; and

WHEREAS, consequently the subject site lacks a “front lot line,” a “front yard,” a “rear lot line,” a “rear yard” and “side yards,” as those terms are defined in the same section and, therefore, proposes open space, in lieu of yards, along its lot lines and seeks waivers of the applicable yard regulations; and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments* and *enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Section 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

- (a) that there would be a practical difficulty in complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;
- (b) that any modifications of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood’s potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, in accordance with ZR § 64-92(a), the need to reconstruct the existing residence, which, as it exists, is non-compliant with yard regulations, creates practical difficulties in complying with flood-resistant construction standards without the modification of the yard

requirements and that waivers of the same is the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the finding pursuant to ZR § 64-92(b) is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the residence is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood’s potential development in accordance with flood-resistant construction standards; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed reconstruction satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17BSA145K, dated June 14, 2017.

*Therefore, it is Resolved*, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure *and* issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92 to *permit*, in an R6 zoning district and the Special Ocean Parkway District, the reconstruction of a single-family detached residence in compliance with flood-resistant construction standards that does not comply with the zoning requirements for side yards and rear yards, contrary to ZR §§ 23-462(c) and 23-47; *on condition* that all work shall substantially conform to the drawings filed with this application and marked “Received June 14, 2017”-Four (4) sheets and “Received June 15, 2017”-One (1) sheet; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: a minimum of 8 feet of open space along the west lot line, a minimum of 5 feet of open space along the east lot line and a minimum of 39.95 feet of open space along the west lot line, with exterior stairs in the open space at the north and south, as illustrated on the Board-approved plans;

THAT the building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code;

THAT the residence shall be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code;

THAT the underside of the exterior of the residence where the foundation is not closed shall have a floor assembly that provides a 2-hour fire resistance rating;

THAT the height from grade plane to the highest windowsill leading to a habitable space may not exceed 32 feet;

**This resolution adopted on March 21, 2017, under Calendar No. 2016-1221-BZ and printed in Volume 102, Bulletin Nos. 12-13, is hereby corrected to read as follows:**

## 2016-1221-BZ

### CEQR #16-BSA-075M

APPLICANT – Jay Goldstein, Esq., for Fifth Jam Development, LLC, owner; EVF Row House Inc., lessee.

SUBJECT – Application February 11, 2016 – Special Permit (§73-36) to permit a physical culture establishment (*Row House*) on the second floor of an existing commercial building. C2-7A zoning district.

PREMISES AFFECTED – 269 West 23<sup>rd</sup> Street, Block 773, Lot 9, Borough of Manhattan.

### COMMUNITY BOARD #4M

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Commissioner Ottley-Brown, Commissioner Montanez and Commissioner Chanda.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Chief Plan Examiner of the Manhattan Borough Office of the Department of Buildings (“DOB”), dated August 29, 2016, acting on DOB Application No. 122514323, reads in pertinent part:

Proposed ‘Physical Culture Establishment’ is not permitted As-Of-Right as per section ZR 32-10 and is referred to the Board of Standards and Appeals for a special permit under ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalized, on a site located within a C2-7A zoning district, the operation of a physical culture establishment (“PCE”) on a portion of the first floor and the second floor of an existing two-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on September 27, 2016, after due notice by publication in *The City Record*, with a continued hearing on January 10, 2017, and then to decision on March 21, 2017; and

WHEREAS, Community Board 4, Manhattan, recommends approval of this application; and

WHEREAS, Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the north side of West 23<sup>rd</sup> Street, between Eighth Avenue and Seventh Avenue, in a C2-7A zoning district, in Manhattan; and

WHEREAS, the site has approximately 38 feet of frontage along West 23<sup>rd</sup> Street, a depth of 99 feet, 3,703 square feet of lot area and is occupied by a two-story commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in

---

# MINUTES

---

certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
  - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
  - (ii) a swimming pool of a minimum 1,500 square feet; or
  - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
  - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse

effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and Certificate of Occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE occupies 130 square feet of floor area on the first floor, consisting of stairs to the second floor, and 2,465 square feet of floor area on the second floor of the existing building containing a reception area, locker rooms, storage and a rowing studio; and

WHEREAS, the PCE has been in operation as Row House since November 2015; and

WHEREAS, the PCE's hours of operation are Monday through Friday, 5:00 a.m. to 10:00 p.m., and Saturday and Sunday, 6:00 a.m. to 7:00 p.m.; and

WHEREAS, the applicant represents that the PCE use will not impair the essential character or the future use or development of the surrounding area because it is entirely contained within an existing commercial building and surrounded by other commercial uses; and

WHEREAS, in addition, the applicant submits that sound attenuation measures have been provided within the space so as to not disturb other tenants in the building; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE provides facilities for a low-impact full body workout combining rowing circuits with interval training; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE is equipped with an interior fire alarm system—including smoke detectors, manual pull stations, local audible and visual alarms and a connection to the building's interior fire alarm connected to an FDNY-approved central station; and

WHEREAS, by letter dated March 8, 2017, the Fire Department recommended that no final decision be made on this application until on-site inspection of the premises was scheduled and received a confirmed date, but at hearing, the Fire Department revised its position, noting that an existing sprinkler and fire alarm system has been approved for the subject building and that it no longer has any objection to approval of this application; and

WHEREAS, pursuant to ZR § 73-03, the Board finds

---

# MINUTES

---

that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, the applicant represents that the PCE will not interfere with any public improvement projects; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated at the premises without the special permit; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 16-BSA-075M, dated February 11, 2016.

*Therefore it is Resolved*, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to legalize, on a site located in a C2-7A zoning district, the operation of a physical culture establishment on a portion of the first floor and second floor of an existing two-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received February 11, 2016” – Four (4) sheets and “Received March 1, 2017” – One (1) sheet; and on further condition:

THAT the term of the PCE grant will expire on November 1, 2025;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance under Local Law 58/87 will be as reviewed and approved by DOB;

THAT the existing fire alarm system will be maintained as indicated on the Board-approved plans;

THAT minimum 3 foot wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT a revised Certificate of Occupancy shall be obtained within one year;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 21, 2017.

THE VOTE TO GRANT – Affirmative: Chair Perlmutter, Commissioner Ottley-Brown, Commissioner Montanez and Commissioner Chanda.....4

Negative: .....0

**THE RESOLUTION –**

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure, an extension of time to obtain certificates of occupancy and an extension of term of a special permit for a physical culture establishment (“PCE”) previously granted by the Board, which expired July 12, 2015; and

WHEREAS, a public hearing was held on this application on February 14, 2017, after due notice by publication in *The City Record*, with continued hearings on March 21, 2017, and then to decision on July 11, 2017; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 2, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the northwest corner of Fulton Street and Saint Felix Street, in an R7A (C2-4) zoning district and an Inclusionary Housing Designated Area, in Brooklyn; and

WHEREAS, the site has approximately 166 feet of frontage along Fulton Street, 175 feet of frontage along Saint Felix Street and 14,182 square feet of lot area; and

WHEREAS, the site is occupied by a two-story commercial building at 691 Fulton Street (Lot 69) and an adjacent one-story commercial building at 695 Fulton Street (Lot 66); and

WHEREAS, the PCE occupies a portion of the first floor of both buildings and the mezzanine of the two-story building; and

WHEREAS, the Board has exercised jurisdiction over

the subject site since July 12, 2005, when, under the subject calendar number, the Board granted an application to permit a PCE to be located within a portion of an existing two-story commercial building for a term of ten (10) years, expiring July 12, 2015, on condition that all massages be performed only by New York State licensed massage therapists, that there be no change in ownership or operating control of the PCE without prior application to and approval from the Board, that the hours of operation be limited to 6 a.m. to 11:00 p.m., Monday through Friday, and 8:00 a.m. to 11:00 p.m., Saturday and Sunday, that the above conditions appear on the certificate of occupancy, that Local Law 58/87 compliance be reviewed and approved by the Department of Buildings (“DOB”), that fire safety measures be installed and maintained as illustrated on the Board-approved plans and that an interior fire alarm system be provided as set for the on the Board-approved plans and approved by DOB; and

WHEREAS, on April 24, 2007, under the subject calendar number, the Board amended the resolution to allow the enlargement and expansion of the PCE into an adjoining building, to reflect a change in the name of the operator and to permit operation 24 hours per day on condition that there be no change in ownership or operating control of the PCE without prior approval from the Board, that all massages be performed only by New York State licensed massage professionals, that the above conditions appear on the certificates of occupancy and that Local Law 58/87 compliance be as reviewed and approved by DOB; and

WHEREAS, on July 17, 2012, under the subject calendar number, the Board granted an extension of time to obtain certificates of occupancy, which expired April 24, 2011, on condition that there be no change in ownership or operating control of the PCE without prior approval from the Board, that all massage be performed only by New York State licensed massage professionals, that the above conditions appear on the certificate of occupancy, that a certificate of occupancy be obtained by July 17, 2013, and that Local Law 58/87 compliance be as reviewed and approved by DOB; and

WHEREAS, on October 29, 2013, under the subject calendar number, the Board granted another extension of time to obtain certificates of occupancy, which expired July 17, 2013, on condition that there be no change in ownership or operating control of the PCE without prior approval from the Board, that all massages be performed only by New York State licensed massage professionals, that the above conditions will appear on the certificates of occupancy, that certificates of occupancy be obtained by October 29, 2014, and that Local Law 58/87 compliance be as reviewed and approved by DOB; and

WHEREAS, originally, the applicant had not requested an extension of term, though the term of the special permit had already expired; and

WHEREAS, with the application revised accordingly, the applicant now seeks an extension of term of the special permit and an extension of time to obtain certificates of occupancy; and

WHEREAS, in addition, the applicant requests

# MINUTES

waivers, pursuant to § 1-14.2 of the Board's Rules of Practice and Procedure, of Rule § 1-07.3(b)(2) to permit the filing for an extension of term less than two (2) years after the expiration of the term and of Rule § 1-07.3(d)(2) to permit the filing of this application more than thirty (30) days after the expiration of the time to obtain certificates of occupancy; and

WHEREAS, the applicant has demonstrated that the use has been continuous since the expiration of term and that substantial prejudice would result without such a waiver; and

WHEREAS, the applicant represents that attempts to obtain certificates of occupancy have been stymied by the bankruptcy filing of the PCE operator's parent company, as well as several audits at Department of Buildings, but submits that efforts are already underway to resolve the outstanding objections and that all necessary work at the site can be completed within one (1) year of the approval of this application; and

WHEREAS, the facility remains in operation as Crunch Fitness with hours of operation 24 hours, daily; and

WHEREAS, the applicant notes that the PCE continues to occupy 11,981 square feet of floor area with 5,692 square feet of floor space in the cellar and 9,206 square feet on the first floor of 671 Fulton Street and 92,775 square feet of floor area on the first floor of 699 Fulton Street; and

WHEREAS, by letter dated March 8, 2017, the Fire Department states that it has no objection to an extension of time to a obtain certificates of occupancy; and

WHEREAS, additionally, the Fire Department represents that it has no objection to an extension of term of the special permit; and

WHEREAS, the Board notes that its determination is subject to and guided by ZR § 73-03; and

WHEREAS, consistent with ZR § 73-03(a), the Board finds that, under the conditions and safeguards imposed, the hazards of disadvantage to the community at large of the special permit are outweighed by the advantages to be derived by the community; and

WHEREAS, as to ZR § 73-03 subsections (b) and (c), the Board finds, respectively, that the subject special permit will not interfere with any public improvement project and that the use will not interfere with the existing street system; and

WHEREAS, the Board notes that ZR § 73-03 subsections (d) and (g) are inapplicable to the subject application; and

WHEREAS, ZR § 73-36 mandates a term not to exceed ten (10) years and, thus, pursuant to ZR § 73-03(e), the Board shall establish a term not to extend ten (10) years; and

WHEREAS, consistent with ZR § 73-03(f), the Board finds that the circumstances warranting the original grant still obtain and that the applicant has complied with the conditions and safeguards theretofore described by the Board during the prior term; and

WHEREAS, based upon its review of the record, the

Board finds that a ten (10) year extension is appropriate with certain conditions as set forth below.

*Therefore, it is Resolved*, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure and *reopens* and *amends* the resolution, dated July 12, 2005, as amended through October 29, 2013, so that as amended this portion of the resolution reads: "to grant an extension of the term of the special permit for ten (10) years from the expiration of the last grant, to expire on July 12, 2025; *on condition* that all work and site conditions shall comply with drawings filed with this application marked 'Received March 2, 2017' - Five (5) sheets; and *on further condition*:

THAT there shall be no change in ownership or operating control of the PCE without prior approval from the Board;

THAT all massages shall be performed only by New York State licensed massage professionals;

THAT the above conditions shall appear on the certificates of occupancy;

THAT certificates of occupancy, final for both lots, shall be obtained within one (1) year from the date of this resolution, by July 11, 2018;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 11, 2017.

---

term of a special permit for a physical culture establishment (“PCE”) previously granted by the Board, which expired on May 20, 2016; and

WHEREAS, a public hearing was held on this application on June 6, 2017, after due notice by publication in *The City Record*, and then to decision on July 11, 2017; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 7, Manhattan, recommends approval of this application on condition that the PCE obtain a temporary certificate of occupancy (“TCO”) listing 18 conditions of the special permit listed on the current TCO within 60 days of renewal, that no PCE activities occur on the public thoroughfare on the block and that the PCE comply with the conditions of the special permit; and

WHEREAS, the subject site is located on the northeast corner of Columbus Avenue and West 67th Street, in an R8 (C4-7) zoning district and the Special Lincoln Square District, in Manhattan; and

WHEREAS, the site has approximately 100 feet of frontage along Columbus Avenue, 150 feet of frontage along West 67th Street, 15,063 square feet of lot area and is occupied by a 31-story, with cellar, mixed-use commercial and residential building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since May 20, 2014, when, under the subject calendar number, the Board granted an application to permit the operation of a PCE in the cellar for a term of four (4) years, expiring May 20, 2016, on condition that the PCE use be limited to the C4-7 zoning district portion of the site, that the wall separating the C4-7 portion of the site from the R8 zoning district portion of the site be maintained, as reflected on the Board-approved plans, that no PCE use be permitted in the R8 portion of the site, that the hours of operation for the PCE be limited to Monday through Friday, from 6:00 a.m. to 9:30 p.m. and Saturday and Sunday from 9:00 a.m. to 6:00 p.m., that no private training or other PCE activity will be held outside of the noted hours of operation, that competitions or other similarly-attended events be prohibited, that sound-attenuating measures, including a raised flooring system and padded fitness flooring will be installed and maintained throughout the entire PCE space and sound-foam panels will be installed and maintained along certain walls, as reflected on the approved plans, that the sound attenuation measures will be installed by November 20, 2014, that the use of the facility will comply with New York City Noise Code regulations, there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board, that any massages will be performed only by New York State licensed massage professionals, that Local Law 58/87 compliance will be as reviewed and approved by DOB, that fire safety measures will be installed and/or maintained as shown on the Board-approved plans and that the above conditions will appear on the Certificate of Occupancy; and

WHEREAS, the term of the special permit having

expired, the applicant now seeks an extension of term for ten (10) years; and

WHEREAS, the facility remains in operation as Crossfit NYC with the following hours of operation: 6:00 a.m. to 9:30 p.m., Monday to Friday, and 9:00 a.m. to 6:00 p.m., Saturday and Sunday; and

WHEREAS, the applicant represents that the PCE continues to occupy 6,461 square feet of floor space in the cellar, including a reception area, open workout areas as well as space for pullups, rowing, and squats; and

WHEREAS, by letter dated May 31, 2017, the Fire Department states that, based upon its review of the drawing and supporting documentation, it has no objection to this application; and

WHEREAS, the Board notes that its determination is subject to and guided by ZR § 73-03; and

WHEREAS, consistent with ZR § 73-03(a), the Board finds that, under the conditions and safeguards imposed, the hazards of disadvantage to the community at large of the special permit are outweighed by the advantages to be derived by the community; and

WHEREAS, with regard to concerns from Community Board 7, Manhattan, and residents of the neighborhood, at hearing, the Board questioned whether the PCE would conduct classes using the City’s sidewalks, and the applicant represented that the PCE has not done so and would not in the future; and

WHEREAS, as to ZR § 73-03 subsections (b) and (c), the Board finds, respectively, that the subject special permit will not interfere with any public improvement project and that the use will not interfere with the existing street system; and

WHEREAS, the Board notes that ZR § 73-03 subsections (d) and (g) are inapplicable to the subject application; and

WHEREAS, § 73-36 mandates a term not to exceed ten (10) years and, thus, pursuant to ZR § 73-03(e), the Board shall establish a term not to extend ten (10) years; and

WHEREAS, with regard to the absence of reference to the PCE on the last issued TCO, the applicant explains that, because the special permit had expired, the certificate of occupancy could not be renewed with reference to the PCE until the special permit was renewed; and

WHEREAS, consistent with ZR § 73-03(f), the Board finds that the circumstances warranting the original grant still obtain and that the applicant has complied with the conditions and safeguards theretofore described by the Board during the prior term; and

WHEREAS, based upon its review of the record, the Board finds that a ten (10) year extension is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated May 20, 2014, so that as amended this portion of the resolution shall read: “to permit an extension of the term of the special permit for a term of ten (10) years, expiring May 20, 2026, *on condition* that the site shall substantially conform to drawings as filed with this application, marked ‘Received

# MINUTES

March 6, 2017'-Five (5) sheets; and *on further condition:*

THAT the term of the PCE grant shall expire on May 20, 2026;

THAT the PCE use shall be limited to the C4-7 zoning district portion of the site; the wall separating the C4-7 portion of the site from the R8 zoning district portion of the site shall be maintained, as reflected on the Board-approved plans, and no PCE use shall be permitted in the R8 portion of the site;

THAT the hours of operation for the PCE shall be limited to Monday through Friday, from 6:00 a.m. to 9:30 p.m. and Saturday and Sunday from 9:00 a.m. to 6:00 p.m.;

THAT no private training or other PCE activity shall be held outside of the noted hours of operation;

THAT competitions or other similarly-attended events shall be prohibited;

THAT sound-attenuating measures, including a raised flooring system and padded fitness flooring, shall be maintained throughout the entire PCE space, and sound-foam panels shall be maintained along certain walls, as reflected on the Board-approved plans;

THAT the use of the facility shall comply with New York City Noise Code regulations;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT any massages shall be performed only by New York State licensed massage professionals;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT fire safety measures shall be maintained as shown on the Board-approved plans;

THAT the above conditions and the conditions of Community Board 7, Manhattan, shall appear on all temporary certificates of occupancy and on the final certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by July 11, 2021;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted."

Adopted by the Board of Standards and Appeals, July 11, 2017.

### 134-15-BZ

#### CEQR #15-BSA-213K

APPLICANT – Sheldon Lobel, P.C., for David Aronowicz, owner; Cinderella 248, LLC, lessee.

SUBJECT – Application June 5, 2015 – Special Permit (§73-36) to allow the operation of a Physical Culture establishment (*Orange theory Fitness*) in the existing building on the first floor and cellar of a one story commercial building, located within an R7A/C2-4 zoning district.

PREMISES AFFECTED – 248 Flatbush Avenue, Block 936, Lot 12, Borough of Brooklyn.

#### COMMUNITY BOARD #6BK

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Commissioner Ottley-Brown, Commissioner Montanez and Commissioner Chanda.....4

Negative: .....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated January 15, 2016, acting on Alteration Application No. 320624543, reads in pertinent part:

“ZR 32-10” “ZR 32-31” “Proposed use, ‘physical culture or health establishment’, is not permitted as-of-right in C2-4 zoning district and a BSA special permit is required”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, in an R7A (C2-4) zoning district, the operation of a physical culture establishment (“PCE”), contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on January 10, 2017, after due notice by publication in *The City Record*, with continued hearings on March 21, 2017, and June 27, 2017, and then to decision on July 11, 2017; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 6, Brooklyn, recommends approval of this application and requested that the Board take a hard look at the environmental review of this application to clarify whether it is a brownfield or otherwise contaminated; and

WHEREAS, the subject site is located on the west side of Flatbush Avenue, between Saint Marks Avenue and Prospect Place, in an R7A (C2-4) zoning district, in Brooklyn; and

WHEREAS, the site has approximately 33 feet of frontage along Flatbush Avenue, 71 feet of depth, 2,310 square feet of lot area and is occupied by a one-story, with cellar, commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such

---

# MINUTES

---

special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
  - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
  - (ii) a swimming pool of a minimum 1,500 square feet; or
  - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
  - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04 and 73-36(b)(4), it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such

conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE occupies a total of 2,485 square feet of floor area as follows: 1,617 square feet of floor space in the cellar, used for storage and locker rooms, and 2,485 square feet of floor area on the first floor, including areas for rowing machines, weight-lifting and treadmills; and

WHEREAS, the PCE has been in operation as Orangetheory Fitness since January 6, 2017; and

WHEREAS, the PCE's hours of operation are 5:00 a.m. to 9:00 p.m., Monday through Thursday, 5:00 a.m. to 8:00 p.m., Friday, 7:00 a.m. to 1:00 p.m., Saturday, and 8:00 a.m. to 2:00 p.m., Sunday; and

WHEREAS, the applicant represents that the PCE is consistent with the mixed residential and commercial uses and character of the surrounding area, that Flatbush Avenue is a heavily traveled commercial street and that the PCE will be located entirely within an existing commercial building; and

WHEREAS, the applicant further states that sound attenuation measures—including a floating floor system, acoustical ceiling, ceiling speaker enclosures and soundproofing walls—have been installed so as to not disturb others in the area; and

WHEREAS, accordingly, the Board finds that the PCE use is so located as to not impair the essential character or the future use or development of the surrounding neighborhood; and

WHEREAS, with regards to the use of the premises, the applicant states that the PCE provides facilities for classes, instruction and programs for physical improvement; and

WHEREAS, the Board finds that the PCE use is consistent with those eligible, pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE is fully sprinklered and that an approved fire alarm—including area smoke detectors, manual pull stations at each required exist, local audible and visual alarms and connection to an FDNY-approved central station—has been installed in the entire PCE space; and

WHEREAS, at the request of the Fire Department and the Board, the applicant submitted affidavits indicating that both the sprinkler system and fire alarm system have been

# MINUTES

installed according to the plans filed with DOB, are compliant with the New York City Building and Fire Codes and are operational; and

WHEREAS, the Fire Department states that it has no objection to this application; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 15-BSA-213-K, dated June 5, 2015; and

WHEREAS, in response to the Board's inquiry regarding brownfield remediation work at the premises, the applicant provided a summary of work performed at the site in accordance with its participation in the New York State Department of Environmental Conservation ("DEC") Brownfield Program (as Site No. C 224160) as a result of having previously been occupied by a dry-cleaner, notified the Board that the site's redevelopment as a gym was noted in the Remedial Action Work Plan submitted and approved by DEC in 2015, and stated that a Certificate of Completion from DEC is anticipated by the end of the year; and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated at the premises without the special permit.

*Therefore it is Resolved*, that the Board of Standards and Appeals *issues* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to *legalize*, in an R7A (C2-4) zoning district, the operation of a physical culture establishment ("PCE"), contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received March 1, 2017" – Eleven (11) sheets; and *on further condition*:

THAT the term of this grant shall be for ten (10) years, expiring January 6, 2027;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT minimum 3'-0" wide exit pathways shall be provided leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be maintained in the entire PCE space and the PCE shall be fully sprinklered, as indicated on the Board-approved plans;

THAT sound attenuation measures shall be installed in the PCE as indicated on the BSA-approved plans;

THAT Local Law 58/87 shall be complied with as approved by the Department of Buildings;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by July 11, 2018;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 11, 2017.

## 2016-4167-BZ

APPLICANT – Eric Palatnik, P.C., for Ocean Services, Inc., owner.

SUBJECT – Application April 6, 2016 – Special Permit (§73-622) for the enlargement of an existing two story single family home contrary to floor area, lot coverage and open space (ZR 23-141(b)); and less than the required rear yard (ZR 23-47). R3-1 zoning district.

PREMISES AFFECTED – 4180 Ocean Avenue, Block 8737, Lot 92, Borough of Brooklyn.

## COMMUNITY BOARD #15BK

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Commissioner Ottley-Brown, Commissioner Montanez and Commissioner Chanda.....4

Negative: .....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated February 17, 2017, acting on Department of Buildings ("DOB") Application No. 321289636 reads in pertinent part:

Proposed vertical and horizontal enlargement to an existing single family home in an R3-1 district is non-compliant in regard to:

- 1) Proposed floor area ratio is contrary to...ZR 23-142;
- 2) Proposed lot coverage is contrary to...ZR 23-

# MINUTES

- 142;
- 3) Proposed open space is contrary to...ZR 23-142;
- 4) Proposed rear yard is contrary to ZR 23-47; And must be referred to the Board of Standards and Appeals for a special permit pursuant to ZR 73-622; and

WHEREAS, this is an application under ZR § 73-622 to permit, in an R3-1 zoning district, the proposed enlargement of a single-family detached residence that does not comply with the zoning requirements for floor area ratio, lot coverage, open space and rear yards, contrary to ZR §§ 23-142 and 23-47; and

WHEREAS, a public hearing was held on this application on June 6, 2017, after due notice by publication in *The City Record*, with a continued hearing on July 11, 2017, and then to decision on that date; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends disapproval of this application out of concern that the residence would become a multiple dwelling; and

WHEREAS, the subject site is located on the west side of Ocean Avenue, between Hampton Avenue and Oriental Boulevard, within an R3-1 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 60 feet of frontage along Ocean Avenue, 100 feet of depth and 6,000 square feet of lot area; and

WHEREAS, the site is occupied by a one-and-a-half story single-family detached residence with 2,969 square feet of floor area, a floor area ratio ("FAR") of 0.50, 33 percent lot coverage, 67 percent open space, and a 27.92 foot rear yard; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single- or two-family detached or semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be

renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage, open space, floor area, side yard, rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge an existing detached single-family residence, as contemplated by ZR § 73-622; and

WHEREAS, the applicant proposes to enlarge the existing dwelling with front and rear extensions on the first and second floor as well as a new attic, resulting in a dwelling with

---

# MINUTES

---

a total of 5,405 square feet of floor area, 0.90 FAR, 39 percent lot coverage and 61 percent open space; no changes are proposed to the depth of the rear yard, which will remain with a depth of 27.92 feet; and

WHEREAS, at the subject site, a maximum FAR of 0.50 (3,000 square feet of floor area), maximum lot coverage of 35 percent and minimum open space of 65 percent are permitted pursuant to ZR § 23-142 and a rear yard of at least 30 feet is required pursuant to ZR § 23-47; and

WHEREAS, the applicant submitted an analysis of single- or two-family dwellings located within 400 feet of the subject premises (the “Study Area”) concluding that 42 of the 77 dwellings (55 percent) had FARs greater than 0.50, ranging from 0.52 FAR to 1.13 FAR and approximately 1,582 square feet of floor area to 10,692 square feet; further, 17 of the 26 dwellings on the subject block (65 percent) have FARs greater than 0.50, including 4 of the 5 dwellings located to the immediate south of the subject site on the west side of Ocean Avenue, which range from 0.58 FAR to 0.86 FAR, and 12 of the 13 dwellings (92 percent) on the east side of the subject block, which range from 0.52 FAR to 0.77 FAR; and

WHEREAS, in addition, 21 of the 77 dwellings in the Study Area (27 percent) have lot coverage greater than 35 percent and provide less than 65 percent open space and 16 of the 28 dwellings on the subject block (57 percent) have rear yards of less than 30 feet; and

WHEREAS, the site is also located in Zone AE, an area of special flood hazard, on FEMA’s Preliminary Flood Insurance Rate Map (“FIRM”) and, accordingly, the applicant affirms that the proposed dwelling will comply with all requirements set forth in Appendix G; and

WHEREAS, in particular, the applicant submits that the existing first floor is more than two feet above the Base Flood Elevation (“BFE”) and that the subject proposal maintains the same existing first floor elevation, which is above the Flood Resistant Construction Elevation (“FRCE”), but all areas below the FRCE, including the entire cellar, shall be renovated to provide floor resistant materials; and

WHEREAS, the applicant further submits that because the cost of the proposed enlargement is less than half of the market value of the home, as calculated pursuant to 1 RCNY § 3606-01, the propose enlargement is not a “substantial improvement”; and

WHEREAS, the Board referred this application to DOB’s Technical Affairs and Code Development Unit, which confirmed that the cost of renovations, as provided by the applicant in a Cost Affidavit, does not exceed half of the market value of the residence based on either the 2016 or the 2017 Final Assessment Rolls; and

WHEREAS, the Board received one letter of support and several letters and testimony at hearing in opposition to the subject application, including from the Manhattan Beach Community Group, Inc., purported to be on the basis that the subject site is owned by an unregistered corporation, rather than a named individual, lacking standing to bring this application and a concern that the premises would be utilized as a multiple-dwelling, S.R.O. or for commercial use because of the number of people and cars seen at the premises; and

WHEREAS, in response, the applicant submitted proof that the record owner of the subject property is a domestic business corporation registered to do business in New York State with standing to file and proceed with his application and, at hearing, a resident of the subject premises testified that the residence was, indeed, for the exclusive use of his family, including his parents, his sister and her husband and a younger sister who is permanently disabled and requires visits from various home aides and physical therapists; and

WHEREAS, the Board notes that the plans submitted with this application do not reflect any intention to convert the existing single-family to a multiple-dwelling, in particular, it lacks multiple sets of stairs and kitchens; and

WHEREAS, the Board also received one letter of opposition regarding the height of the proposed residence; and

WHEREAS, in response, the applicant provided an analysis of the roof heights of buildings on the same social block as the premises as well as a streetscape illustrating the envelope of the proposal within the existing streetscape demonstrating that the proposed total height of 32 feet, permitted as-of-right, is consistent with surrounding buildings and, thus, will not adversely affect its neighbors; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

*Therefore it is Resolved*, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622, to permit, in an R3-1 zoning district, the proposed enlargement of a single-family detached residence that does not comply with the zoning requirements for floor area ratio, lot coverage, open space and rear yards, contrary to ZR §§ 23-142 and 23-47; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked “Received June 22, 2017”-Sixteen (16) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area ratio of 0.90, a maximum of 39 percent lot coverage, a minimum of 61 percent open space and a rear yard of at least 27.92 feet, as illustrated on the BSA-approved plan; and

THAT all existing exterior walls and wall joists indicated to remain undisturbed on the BSA-approved plans shall remain or the special permit is void;

THAT the building must comply with Appendix G;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the special relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

**CEQR #17-BSA-080M**

APPLICANT – Law Office of Jay Goldstein, for Geloda Briarwood Corp., owner; Fhitting Room, lessee.

SUBJECT – Application February 6, 2017 – Special Permit (§73-36) to permit the operation of a Physical Cultural Establishment (*The Fhitting Room*) on the first floor of an existing building. C1-9 and R7-2 zoning district.

PREMISES AFFECTED – 580 Columbus Avenue, Block 1219, Lot 7501, Borough of Manhattan.

**COMMUNITY BOARD #7M**

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Perlmutter, Commissioner Ottley-Brown, Commissioner Montanez and Commissioner Chanda.....4

Negative: .....0

**THE RESOLUTION** –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated January 10, 2017, acting on Alteration Application No. 122973274, reads in pertinent part:

“Proposed use as a physical culture establishment, as defined as ZR 12-10, is contrary to ZR 32-10 and must be referred to the Board of Standards and Appeals for approval pursuant to ZR 73-36”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, in an R7-2 (C1-9) zoning district, a physical culture establishment (“PCE”) on a portion of the first floor of a nine-story, with cellar, mixed-use commercial and residential building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on June 6, 2017, after due notice by publication in *The City Record*, and then to decision on July 11, 2017; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 7, Manhattan, recommends approval of this application; and

WHEREAS, at hearing and by resolution dated July 5, 2017, Community Board 7 clarified that its recommendation is based on the applicant’s commitment to make certain changes to the project design, including modifying the handicapped lift support partition to increase transparency along the southern retail unity and modifying the cavity between the glass and interior partition to incorporate lighting and install decorative graphics; and

WHEREAS, the subject site is located on the west side of Columbus Avenue, between West 89th Street and West 88th Street, in an R7-2 (C1-9) zoning district, in Manhattan; and

WHEREAS, the site has approximately 201 feet of frontage along Columbus Avenue, 175 feet of frontage

along West 89th Street, 95 feet of frontage along West 88th Street, 27,216 square feet of lot area and is occupied by a nine-story, with cellar, mixed-use commercial and residential building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
  - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
  - (ii) a swimming pool of a minimum 1,500 square feet; or
  - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
  - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

---

# MINUTES

---

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04 and 73-36(b)(4), it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE occupies a total of 2,528 square feet of floor area on a portion of the first floor, including a reception area, retail space, an office, lockers, showers, utility space and a fitness studio; and

WHEREAS, the PCE has operated as Fitting Room since May 2017 with hours of operation of 5:30 a.m. to 10 p.m., Monday through Friday, and 6:30 a.m. to 7:00 p.m., Saturday and Sunday; and

WHEREAS, the applicant represents that the PCE use is consistent with the mixed residential and commercial character of the surrounding area, that the PCE's limited size and location will not adversely affect the neighborhood, that the surrounding area is heavily trafficked by retail customers and other building tenants and that most patrons are expected to arrive by foot or mass transit; and

WHEREAS, with regard to sound attenuation, the applicant submits that sound attenuation measures—including sheetrock, sound-attenuated batt insulation, isolated slab flooring, perimeter isolation boards and sealed penetrations at studio ceilings and partitions—have been provided within the space so as not to disturb other tenants in the building; and

WHEREAS, accordingly, the Board finds that the PCE use is so located as to not impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant represents that the PCE provides classes for physical improvement; and

WHEREAS, the Board finds that the PCE use is consistent with those eligible, pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that an approved fire alarm—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection to an FDNY-approved central station—has been installed in the entire PCE space; and

WHEREAS, at hearing, the Fire Department stated that, based on its review of the drawings and supporting documentation, it has no objection to this application; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17-BSA-080M, dated February 6, 2017; and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated at the premises without the special permit.

*Therefore it is Resolved*, that the Board of Standards and Appeals *issues* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to *legalize*, in an R7-2 (C1-9) zoning district, a physical culture establishment (“PCE”) on a portion of the first floor of a nine-story, with cellar, mixed-use commercial and residential building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received May 18, 2017” –Three (3) sheets; and *on further condition*:

THAT the applicant shall work with Community Board 7 to increase the amount of transparency at the storefront, consistent with Community Board 7's resolution, through an iterative process;

THAT the term of this grant shall be for ten (10) years, expiring May 1, 2027;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT minimum 3'-0" wide exit pathways shall be provided leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be installed in the entire PCE space, as indicated on the BSA-approved plans;

THAT sound attenuation shall be installed in the PCE

---

# MINUTES

---

as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by July 11, 2018;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 11, 2017.

**ZONING CALENDAR**

**2017-57-BZ**

**CEQR #No. 17-BSA-100K**

APPLICANT – Law Office of Fredrick A. Becker, for Mary McDowell Friends School, owner.

SUBJECT – Application March 2, 2017– Variance (§72-21) to permit the enlargement of an existing School (Mary McDowell Friends School) UG 3 contrary to ZR §24-11 (floor area increased the degree of non-compliance and lot coverage); ZR §23-33 (opposed 2 story addition in the rear yard is not a permitted obstruction); ZR § 23-662a (maximum base height of the street wall exceeds the maximum permitted); and ZR §23-662c (Proposed enlargement does not comply with the initial setback distance. R6A and R6B zoning districts.

PREMISES AFFECTED – 18-20 Bergen Street, Block 384, Lot(s) 15, 16, 172, Borough of Brooklyn.

**COMMUNITY BOARD #2BK**

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Perlmutter, Commissioner Ottley-Brown, Commissioner Montanez and Commissioner Chanda.....4

Negative: .....0

**THE RESOLUTION** –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated February 28, 2017, acting on DOB Application No. 321184623 reads in pertinent part:

1. ZR 24-11: Proposed increase in floor area increases the degree of non-compliance;
2. ZR 23-662a: Proposed maximum base height of the street wall exceeds the maximum permitted;
3. ZR 23-662c: Proposed enlargement does not comply with the initial setback distance;
4. ZR 24-33: Proposed 2 story addition in the rear yard is not a permitted obstruction;
5. ZR 24-11: Proposed rear yard addition does not comply with lot coverage; and

WHEREAS, this is an application under ZR § 72-21 to permit, on a site partially located within an R6A zoning district and partially located within an R6B, the enlargement of a school that does not comply with the floor area, street wall base height, initial setback, rear yard and lot coverage regulations, contrary to ZR §§ 23-662, 24-11 and 24-33; and

WHEREAS, this application is filed on behalf of Mary McDowell Friends School (the “School”), a Quaker-affiliated school for students with learning disabilities; and

WHEREAS, the School has three campuses offering

---

# MINUTES

---

instruction for students in kindergarten through 12th grade and a facility located at the subject site has accommodated kindergarten through 5th grade students since the late 1990s; and

WHEREAS, a public hearing was held on this application on July 11, 2017, after due notice by publication in *The City Record*, and then to decision on that date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the subject site and surrounding neighborhood; and

WHEREAS, Community Board 2, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the south side of Bergen Street, between Court Street and Smith Street, partially within an R6A zoning district and partially within an R6B zoning district, in Brooklyn; and

WHEREAS, the site has approximately 70 feet of frontage along Bergen Street, a depth of 100 feet, 7,000 square feet of lot area and is occupied by one three-story building with retail use on the ground floor and accessory school storage on the upper floors (18 Bergen Street) and one five-story building (20 Bergen Street) operated by the School; and

WHEREAS, the School proposes to demolish the existing three-story building at 18 Bergen Street, renovate and enlarge the existing 5-story building from 17,500 square feet of floor area to 25,625 square feet, a floor area ratio ("FAR") of 3.66 and 83 percent lot coverage, including a one-story plus mezzanine 23 foot tall extension into the rear yard and an increase of the street wall base height from 60 feet to 62'-9" without a setback; and

WHEREAS, the applicant represents that demolition of the existing building at 18 Bergen Street is necessary because it is of frame construction, which poses structural challenges to its retention and renovation, and, further, its floors do not align with those in the existing school building located next door; demolition of the building also permits the proposed enlargement of the cellar space in the 20 Bergen Street building; and

WHEREAS, at the subject site, based on approximately 88.3 percent of the lot being located within an R6A zoning district and approximately 11.7 percent of the lot being located within an R6B zoning district, the maximum floor area permitted for a community facility is 20,160 square feet of floor area (2.88 FAR) pursuant to ZR § 24-11; the maximum base height permitted is 57'-8" pursuant to ZR § 23-622(a), after which a setback of at least 10 feet is required, pursuant to ZR 23-662(c); a maximum of 60 percent lot coverage is permitted pursuant to ZR § 24-11; and a portion of a building used for community facility uses in excess of one story and in any event 23 feet above curb level is prohibited as a permitted obstruction pursuant to ZR § 24-33; and

WHEREAS, because the proposed enlargement does not comply with the applicable bulk regulations in the subject zoning districts, the applicant seeks the requested variance; and

WHEREAS, the School states that the waivers sought

are necessary in order to meet its programmatic needs, specifically accommodating its current student body (129 students) and a modest increase estimated to be between 15 to 20 students in an adequate number of appropriately sized classrooms and breakout spaces critical for educating students with learning disabilities, an enlarged gymnasium, an enlarged lunchroom and an improved Quaker Meeting Room, which constitutes an essential part of the School's Quaker mission; and

WHEREAS, the School represents that the hallways of the building at 20 Bergen Street are currently utilized for instruction and that such locating is not conducive to distraction-free student instruction; that occupational therapy—a vital support service provided to students—is currently located in a cellar level space of a size inadequate to accommodate equipment that could be utilized to improve students' motor skills; that the existing classroom spaces for the School's STEAM (Science, Technology, Engineering, Art and Math) program are so undersized as to require classes to be split and taught in halves, leading to scheduling conflicts and inefficiencies; that the School's library, science and art classrooms are currently located in the basement without access to natural light and are too small to accommodate the storage of necessary related equipment, which are instead housed in mechanical closets and/or off-site locations; that the columns in the Meeting Room restrict view corridors and lead to distractions during Quaker Meetings, which are intended to be moments of silence, reflection and sharing; and that the undersized lunchroom prevents quality student interactions; and

WHEREAS, the School submits that the proposed enlargement will provide two additional classrooms; enlarge the lunch room from approximately 814 square feet of floor space to 1,325 square feet of floor space so as to accommodate a greater portion of the student body at one time; enlarge the existing undersized gymnasium from 511 square feet of floor space to 1,655 square feet of floor space to allow for sports instruction as well as room to seat the complete elementary school student body; provide an additional 307 square feet of floor space in the cellar for occupational therapy; provide 4 additional breakout spaces, containing approximately 922 square feet of floor area, adjacent to classrooms to allow for small group instruction; relocate the Meeting Room from a space interrupted by columns on the first floor of the existing school building to a column-less space in the proposed rear yard encroachment with a mezzanine; an enlarged library and computer lab; a new dedicated classroom for music instruction large enough for the storage of musical instruments and supplies; and additional administrative office space; and

WHEREAS, in response to Board questions regarding the proposed administrative space, a representative of the School testified at hearing that some administrators were relocated to another one of the School's campuses in order to make room for additional classroom space at the subject site and that the additional administrative office space proposed herein is intended to allow those administrators to return to the subject site and for all of the school's

---

# MINUTES

---

administrative offices to again be located, more efficiently, at a single site; and

WHEREAS, in response to Board inquiry regarding the smaller size of the proposed Meeting Room as compared to the existing Meeting Room, the same School representative testified that while the proposed Meeting Room will not accommodate the entire student body, it is not the School's practice for the entire student body to utilize the Meeting Room at the same time and that the gym is, instead, utilized for school-wide general assemblies; and

WHEREAS, the Board acknowledges that the School, as an educational institution, is entitled to deference under the law of the State of New York as to zoning and its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, specifically, as held in *Cornell University v. Bagnardi*, 68 NY2d 583 (1986), an educational or religious institution's application is to be granted unless it can be shown to have an adverse effect on the health, safety or welfare of the community and general concerns about traffic and disruption of the residential character of the neighborhood are insufficient grounds for the denial of such application; and

WHEREAS, based on the above, the Board finds that the programmatic needs of the School create unnecessary hardship and practical difficulty in developing the premises in compliance with the applicable zoning regulations; and

WHEREAS, because the School is a not-for-profit organization and the variance is needed to further its not-for-profit mission, the finding set forth in ZR § 72-21(b) does not have to be made in order to grant the variance requested in this application; and

WHEREAS, the School represents that, pursuant to ZR § 72-21(c), the variance, if granted, will not alter the character of the neighborhood, impair the appropriate use or development of adjacent property, or be detrimental to the public welfare; and

WHEREAS, the applicant notes that Bergen Street has a mapped width of 75 feet and is, thus, a "wide street" as defined in ZR § 12-10; that a school use is permitted as-of-right in the subject zoning districts; that the surrounding neighborhood is characterized by buildings ranging from three-stories to five-stories with residential and ground floor retail uses; and that the proposed enlargement is consistent with the four- and five-story buildings on the subject block that have similar heights, including the existing School building at 20 Bergen; and

WHEREAS, the applicant also submitted a shadow study demonstrating that the proposed enlargement will have no or limited impact on the surrounding area; and

WHEREAS, with regards to traffic, the School submits that 16-17 small buses transport students to and from the premises between 8 a.m. and 8:15 a.m. and 3 p.m. and 3:15 p.m., many of which have vacant seats and can, if necessary, accommodate the anticipated modest increase in student enrollment and, accordingly, the proposed enlargement will have no impact on traffic on Bergen Street; and

WHEREAS, the School represents that no food is

prepared on-site, that students bring their own lunch and that food and waste refuse will be stored in the refrigerated perishable food trash storage space indicated on the proposed cellar floor plan before being placed at the curb prior to pick-up; and

WHEREAS, in light of the foregoing, the Board finds that the proposal will not alter the essential character of the surrounding neighborhood, nor impair the use or development of adjacent properties, and not be detrimental to the public welfare; and

WHEREAS, the School states that the practical difficulties herein complained of are inherent to its unique programming needs and were not caused by the owner of the site or a predecessor in title; and

WHEREAS, the Board finds that the hardship herein was not created by the School; and

WHEREAS, the School represents that, consistent with ZR § 72-21(e), the proposal represents the minimum variance needed to accommodate its programmatic needs; and

WHEREAS, the Board finds that this proposal is the minimum necessary to allow the School to fulfill its programmatic needs; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17-BSA-100K, dated March 2, 2017; and

*Therefore, it is Resolved*, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review, and makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit, on a site partially located within an R6A zoning district and partially located within an R6B, the enlargement of a school that does not comply with the floor area, street wall base height, initial setback, rear yard and lot coverage regulations, contrary to ZR §§ 23-662, 24-11 and 24-33; *on condition* that all work will substantially conform to drawings filed with this application marked "Received June 7, 2017"-Fifteen (15) sheets; and "Received July 12, 2017"- Three (3) sheets; for a total of Eighteen (18) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum of 25,625 square feet of floor area (3.66 FAR); a maximum of one-floor plus mezzanine encroachment of the building in the rear rising to a maximum height of 23 feet; a maximum lot coverage of 83 percent; a maximum street wall base height of 62'-9" and no front setback, as indicated on the BSA-approved plans;

THAT the above conditions shall be listed on the Certificate of Occupancy;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a Certificate of Occupancy shall be obtained

---

# MINUTES

---

within four (4) years, by July 11, 2021;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portion related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 11, 2017.

# MINUTES

**REGULAR MEETING  
TUESDAY MORNING, JULY 18, 2017  
10:00 A.M.**

Present: Chair Perlmutter, Vice-Chair Chanda, and Commissioner Ottley-Brown.

**SPECIAL ORDER CALENDAR**

**156-92-BZ**

APPLICANT – Eric Palatnik, P.C., for Parisi Patel, Inc., owner.

SUBJECT – Application December 20, 2016 – Extension of Time to Obtain a Certificate of Occupancy for a previously approved variance (§72-21) which permitted medical office use in an existing building contrary to side yard regulation at the basement and first floor levels, which expired December 1, 2016. R5 zoning district.

PREMISES AFFECTED – 1835 Bay Ridge Parkway, Block 6216, Lot 60, Borough of Brooklyn.

**COMMUNITY BOARD #11BK**

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

**THE RESOLUTION** –

WHEREAS, this is an application for an extension of time to obtain a certificate of occupancy; and

WHEREAS, a public hearing was held on this application on July 18, 2017, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the north side of Bay Ridge Parkway, between 18th and 19th Avenues, within an R5 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 40 feet of frontage along Bay Ridge Parkway, 4,000 square feet of lot area, and is occupied by a four-story building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 15, 1994, when, under the subject calendar number, the Board granted a variance to permit medical offices (Use Groups 4 and 6) within the existing building, which does not comply with side yard regulations at the basement and first floor levels and does not conform to use regulations on the second and third floors, for a term of twenty (20) years, expiring March 15, 2014; and

WHEREAS, on December 1, 2015, under the subject calendar number, the Board waived its Rules of Practice and Procedure and granted a 20-year extension of term of the variance, expiring March 15, 2034, on condition that trash be stored inside the building until pickup and placed in proper containers, that the third floor use be limited to

conferences and educational purposes, that the above conditions appear on the certificate of occupancy and that a new certificate of occupancy be obtained by December 1, 2016; and

WHEREAS, the time to obtain a certificate of occupancy having expired, the applicant now seeks an extension of time to obtain a certificate of occupancy; and

WHEREAS, the applicant represents that the site complies with all conditions of the previous grants and that a certificate of occupancy can be obtained within 12 months of the grant; and

WHEREAS, the applicant represents that it has experienced a number of administrative delays in obtaining necessary permits but anticipates obtaining a certificate of occupancy within the extension period requested; and

WHEREAS, in response to the Board’s questions at hearing, the applicant confirmed that trash is stored within the building until pickup and that the third floor is being used for educational purposes and conferences; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to obtain a certificate of occupancy is appropriate with certain conditions, as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated March 15, 1994, as amended through December 1, 2015, so that as amended this portion of the resolution reads: “to grant an extension of time to obtain a certificate of occupancy to July 18, 2018, *on condition* that any and all work shall substantially conform to the Board-approved plans associated with the prior grant; and *on further condition*:

THAT this grant shall be limited to a term of twenty (20) years from March 15, 2014, expiring March 15, 2034;

THAT trash shall be stored inside the building until pickup and placed in proper containers;

THAT use of the third floor shall be limited to conferences and educational purposes;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions shall appear on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT other than as herein amended the resolution above cited shall be complied with in all respects; and

THAT a new certificate of occupancy shall be obtained within one (1) year from the date of this amended resolution, by July 18, 2018.”

Adopted by the Board of Standards and Appeals, July 18, 2017.

## APPEALS CALENDAR

### 2016-4260-A & 2016-4261-A

APPLICANT – Alfonso Duarte, for Benedetta Lipcic, owner.

SUBJECT – Application October 3, 2014 – Proposed new accessory garage located in the bed of a mapped street contrary to Section 35 of the General City Law. R1-2 zoning district.

PREMISES AFFECTED – 240-45 Depew Avenue, Block 8103, Lot 113, Borough of Queens.

### COMMUNITY BOARD #11Q

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner dated September 19, 2016, acting on Department of Buildings (“DOB”) Application No. 421303707, reads in pertinent part:

Proposed extension to dwelling located in bed [of] mapped street is contrary to Section 35 G.C.L.; and

WHEREAS, a decision on the same date, acting on DOB Application No. 421225819, reads in pertinent part:

Proposed new building accessory garage located in bed of a mapped street is contrary to Section 35 G.C.L.; and

WHEREAS, this is an application to enlarge an existing one-family dwelling and construct a one-car garage within the bed of a mapped street, contrary to General City Law (“GCL”) § 35; and

WHEREAS, a public hearing was held on this application on July 18, 2017, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspection of the site and surrounding neighborhood; and

WHEREAS, the subject site is located north of Depew Avenue, east of 240th Street and west of 243rd Street (Orient Avenue), within an R1-2 zoning district, in Queens; and

WHEREAS, the site has a width of approximately 100 feet, parallel to and approximately 205 feet north of Depew Avenue, a depth that ranges from 82 feet on its western lot line to 174 feet on its eastern lot line, 13,330 square feet of lot area and is occupied by a two-story one-family dwelling; and

WHEREAS, the site is accessible from Depew Avenue by a ten-foot wide easement running perpendicular to Depew Avenue and across Lot 13, located immediately south of the subject site, recorded under Document ID 2007073100670001 with the New York City Department of Finance Office of the City Register; and

WHEREAS, the applicant proposes to enlarge the existing residence with a two-story addition and construct a one-car accessory garage; both the enlargement and garage are located within the bed of 40th Avenue, a mapped but unbuilt

---

# MINUTES

---

street; and

WHEREAS, the applicant represents that the enlargement is intended to provide additional living space to the currently undersized residence and that the enlargement and one-car garage must be located in the bed of 40th Avenue because it traverse a large proportion of the site; and

WHEREAS, subject the site is located immediately south of train tracks owned and utilized by the Long Island Railroad (“LIRR”); and

WHEREAS, the applicant submits that the proposed enlargement is more than 35 feet from the tracks and therefore will not affect LIRR operations; and

WHEREAS, despite the applicant’s suggestion that the proposal will not interfere with operation of the LIRR, the Board makes no such determination and defers to DOB regarding any issues that may arise regarding the proximity of the proposed enlargement to the tracks; and

WHEREAS, by letter dated October 12, 2016, the New York City Fire Department states that it has no objection to this proposal on condition that a new placard identifying the building be placed at both the intersection of Depew Street and on the building pursuant to Fire Code Section 505.1; and

WHEREAS, by letter dated April 14, 2017, the New York City Department of Transportation (“DOT”) states that 40th Avenue at this location is mapped to a width of 60 feet and irregular widths and that the City does not have title to the street; further, DOT states that the improvement of 40th Avenue at this location, which would include a taking of the subject lot, is not presently included in DOT’s Capital Improvement Program; and

WHEREAS, by letter dated May 16, 2017, the New York City Department of Environmental Protection (“DEP”) states that there are no existing sewers or water mains in the bed of 40th Avenue at the site; that a 10”-diameter sanitary sewer is located in the bed of 40th Avenue between 240th Street and 243rd Street; and that the site plan provided with this application shows a 35-foot wide sewer corridor within the property line of the subject site for the installation, maintenance and/or reconstruction of the future 10”-diameter sanitary sewer, but that DEP has no objections to the proposal; and

WHEREAS, the Board notes that pursuant to GCL § 35, it may authorize construction within the bed of the mapped street subject to reasonable requirements; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

*Therefore it is Resolved*, that the Board modifies the decisions of the Queens Borough Commissioner, dated September 19, 2016, acting on Department of Buildings Application Nos. 421303707 and 421225819, by the power vested in it by Section 35 of the General City Law to grant this appeal, limited to the decisions noted above *on condition* that construction will substantially conform to the drawings filed with the application marked “Received February 23, 2017”– One (1) sheet; and *on further condition*:

THAT the proposal shall comply with all applicable zoning district requirements and all other applicable laws, rules and regulations;

THAT that a new placard identifying the building be placed at both the intersection of Depew Street and on the building pursuant to Fire Code Section 505.1;

THAT DOB shall review any issues regarding the proximity of the proposed enlargement to the LIRR tracks located to the north of the subject site;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by July 18, 2021;

THAT DOB shall review the plans associated with the Board’s approval for compliance with all relevant provisions of the Zoning Resolution;

THAT to the extent required by DOB and/or DOT, a Builder’s Pavement Plan shall be filed and approved prior to the issuance of the Certificate of Occupancy;

THAT a Certificate of Occupancy be obtained within four (4) years, by July 18, 2021;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 18, 2017.

APPLICANT – Goldman Harris LLC, for Brooklyn Flatbush Avenue, LLC, owner.

SUBJECT – Application January 27, 2017 – Special Permit (§73-44) for the reduction in parking from 144 to 72 spaces to facilitate a Use Group 10 furniture store (*Raymour & Flanigan*) in parking category PRC B1. C8-1 zoning district.

PREMISES AFFECTED – 2570 Flatbush Avenue, Block 8590, Lot 31, Borough of Brooklyn.

### COMMUNITY BOARD #18BK

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated December 28, 2016, acting on New Building Application No. 321437487, reads in pertinent part:

“ZR 36-21: The proposed ... accessory parking spaces for Use Group 10 retail (PRC B1) floor area does not comply with 1 space per 300 square feet requirement”; and

WHEREAS, this is an application under ZR §§ 73-44 and 73-03 to permit, in a C8-1 zoning district, a reduction in the required number of accessory parking spaces for a Use Group 10 furniture store in parking requirement category B1 from 141 spaces to 70 spaces, contrary to ZR § 36-21; and

WHEREAS, a public hearing was held on this application on July 11, 2017, after due notice by publication in *The City Record*, with a continued hearing on July 18,

2017, and then to decision on the same date; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 18, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the southwest corner of Flatbush Avenue and Avenue V, in a C8-1 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 260 feet of frontage along Flatbush Avenue, 200 feet of frontage along Avenue V, 293 feet of frontage along Hendrickson Street, 55,300 square feet of lot area and is occupied by two one-story commercial buildings and one two-story commercial building; and

WHEREAS, the applicant proposes to demolish the existing buildings and develop a two-story commercial building with a total floor area of 53,484 square feet (0.97 FAR), 42,294 square feet of which will be used for a Use Group 10 furniture store, and 110 parking spaces, 70 of which will be accessory to the Use Group 10 furniture store in parking requirement category B1; and

WHEREAS, the applicant represents that, pursuant to ZR § 36-21, 141 spaces are required for the proposed furniture store, calculated at a rate of one space per 300 square feet of floor area; however, the applicant seeks to provide 70 spaces, 71 fewer spaces than required; and

WHEREAS, ZR § 73-44 provides:

In the districts indicated, the Board of Standards and Appeals may permit a reduction in the number of *accessory* off-street parking spaces required by the provisions of Section 36-21 or 44-21 (General Provisions) for ambulatory diagnostic or treatment facilities listed in Use Group 4 and *uses* in parking requirement category B1 in Use Group 6, 7, 8, 9, 10, 11, 14 or 16 to the applicable number of spaces specified in the table set forth at the end of this Section, provided that the Board finds that occupancy by ambulatory diagnostic or treatment facilities listed in Use Group 4 or *uses* in parking category B1 is contemplated in good faith on the basis of evidence submitted by the applicant. In such a case the Board shall require that the certificate of occupancy issued for the *building* within which such *use* is located shall state that no certificate of occupancy shall thereafter be issued if the *use* is changed to a *use* listed in parking category B unless additional *accessory* off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius.

REDUCED ACCESSORY OFF-STREET  
PARKING SPACES REQUIRED FOR  
AMBULATORY DIAGNOSTIC  
OR TREATMENT FACILITIES LISTED IN  
USE GROUP 4 AND  
COMMERCIAL USES IN PARKING  
REQUIREMENT CATEGORY B1

# MINUTES

Parking Spaces Required Per Number of Square Feet on <i>Floor Area</i> *	Districts
1 per 400	C1-1 C2-1 C3 C4-1
1 per 600	C1-2 C2-2 C4-2 C8-1 M1-1 M1-2 M1-3 M2-1 M2-2 M3-1
1 per 800	C1-3 C2-3 C4-3 C7 C8-2

\* For ambulatory diagnostic or treatment facilities listed in Use Group 4, parking spaces required for number of square feet of *floor area* or *cellar space*, except *cellar space used* for storage; and

WHEREAS, pursuant to ZR § 73-44, the Board may reduce the required parking for Use Group 10 furniture stores in parking requirement category B1 at the subject site from one space per 300 square feet of floor area to one space per 600 square feet of floor area provided that the Board finds that such occupancy is contemplated in good faith; and

WHEREAS, the applicant submitted an affidavit stating that the building will be occupied by a Use Group 10 furniture store in parking requirement category B1; and

WHEREAS, the applicant further represents that any certificate of occupancy for the building will state that no subsequent certificate of occupancy may be issued if the Use Group 10 furniture store is changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius; and

WHEREAS, the Boards finds the affidavit credible and that the applicant has submitted sufficient evidence of good faith in maintaining the proposed commercial use at the site; and

WHEREAS, the Board notes that its determination is also subject to and guided by, among other things, ZR §§ 73-01 through 73-04, inclusive; and

WHEREAS, the Board directed the applicant to demonstrate that the application satisfies ZR § 73-03(a), specifically, to provide information as to how the proposed reduction in required accessory off-street parking spaces will affect the surrounding community; and

WHEREAS, in response, the applicant submitted a parking study demonstrating that the maximum demand for parking generated by the proposed Use Group 10 furniture store will be approximately 38 vehicles on weekdays from 6:15 p.m. to 6:30 p.m. and 32 vehicles on Saturday from 1:45 p.m. to 2 p.m., and that such demand can be accommodated by the proposed 70 on-site parking spaces accessory to the furniture store; and

WHEREAS, as requested by the Board for buffering along the perimeter of the site, the applicant provided a landscaping plan providing street trees, a planting strip with boxwoods, creeping juniper ground cover and a low wall with an ornamental black iron railing; and

WHEREAS, accordingly, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed

modification of parking regulations is outweighed by the advantages to be derived by the community; and

WHEREAS, the applicant represents that the parking modification will not interfere with any public improvement project; and

WHEREAS, based upon its review of the record, the Board concludes that the findings required under ZR §§ 73-44 and 73-03 have been met; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (“EAS”) CEQR No. 17BSA075K, dated July 7, 2017; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, by correspondence dated April 17, 2017, the Landmarks Preservation Commission states that the site has no architectural or archaeological significance; and

WHEREAS, by letter dated June 30, 2017, the Department of Environmental Protection (“DEP”) identified the need for a Phase II Environmental Site Assessment and directed the applicant to submit a Phase II Work Plan and an Investigative Health and Safety Plan for review prior to starting fieldwork; and

WHEREAS, by correspondence dated June 30, 2017, the Department of City Planning states that the proposal will not substantially hinder the achievement of any Waterfront Revitalization Program policy; and

WHEREAS, the Board notes that an (E) designation (E-438) for hazardous materials has been placed on the subject site; and

WHEREAS, the (E) designation requires an environmental review by the New York City Office of Environmental Remediation (“OER”) which must be satisfied before DOB will issue a building permit or temporary or final certificate of occupancy at the subject site; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved*, that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality

# MINUTES

Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR § 73-44 and 73-03 *per*mit, in a C8-1 zoning district, a reduction in the required number of accessory parking spaces for a Use Group 10 furniture store in parking requirement category B1 from 141 spaces to 70 spaces, contrary to ZR § 36-21; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received May 26, 2017”- Nine (9) sheets and “Received July 14, 2017”- Three (3) sheets; and *on further condition*:

THAT the certificate of occupancy issued for the building within which the Use Group 10 furniture store is located shall state that no certificate shall thereafter be issued if the Use Group 10 furniture store is changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius;

THAT prior to issuing a building permit or temporary or final certificate of occupancy, the Department of Buildings shall be furnished with a notice issued by the Office of Environmental Remediation (“OER”) stating that OER does not object to the issuance of such building permit, or temporary or final certificate of occupancy;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by July 18, 2021;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 18, 2017.

APPLICANT – Akerman, LLP, for M. Sopher & Co. LLC, owner.

SUBJECT – Application March 16, 2016 – Special Permit (§73-52) to extend by 25'-0" a commercial use into a residential zoning district contrary to ZR §§22-10 and 77-11. C1-4/R7-1 and R7-1 district.

PREMISES AFFECTED – 1959 University Avenue, Block 3216, Lot 70, Borough of Bronx.

### COMMUNITY BOARD #5BX

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated February 16, 2016, acting on New Building Application No. 220455451, reads in pertinent part:

The proposed PAA filing to extend the comm. use into the res. portion of the z. lot is denied. The proposed extension of commercial use ... is not permitted pursuant to ZR §§ 22-10 and 77-11 and therefore requires a ZR § 73-52 special permit from the Board of Standards and Appeals; and

WHEREAS, this is an application under ZR §§ 73-52 and 73-03 to permit, in an R7-1 (C1-4) zoning district, a Use Group 6 commercial use to extend 25 feet into the adjacent R7-1 zoning district, contrary to ZR §§ 22-10 and 77-11; and

WHEREAS, a public hearing was held on this application on July 18, 2017, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 5, Bronx, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of University Avenue, between West 179<sup>th</sup> Street and West Burnside Avenue, partially in an R7-1 (C1-4) zoning district and partially in an R7-1 zoning district, in the Bronx; and

WHEREAS, the site has approximately 100 feet of frontage along University Avenue, 150 feet of depth, 15,112 square feet of lot area and is vacant; and

WHEREAS, the applicant seeks to permit a Use Group 6 commercial use to extend 25 feet into the R7-1 portion of the subject site and to permit the bulk, off-street parking and loading, and all other regulations of the R7-1 (C1-4) zoning district to apply for the 25 feet that such commercial use is permitted to extend; and

WHEREAS, ZR § 73-52 provides that when a zoning lot that is (a) in single ownership as of December 15, 1961 and (b) divided by district boundaries in which two or more uses are permitted, the Board may permit a use which is permitted in the district in which more than 50 percent of the lot area of the zoning lot is located to extend not more than 25 feet into the remaining portion of the zoning lot where such use is not permitted, provided that: (1) without any such extension, it would not be economically feasible to use or develop the remaining portion of the zoning lot for a permitted use; and (2) such extension will not cause impairment of the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant submitted documents reflecting the history of ownership of the subject lot and has demonstrated to the satisfaction of the Board that the zoning lot was in single ownership prior to December 15, 1961; and

WHEREAS, as to the 50-percent lot area requirement,

---

# MINUTES

---

the applicant submitted a site plan indicating that approximately 9,947 of the site's 15,112 square feet of lot area (approximately 66 percent) is located within a R7-1 (C1-4) zoning district; and

WHEREAS, accordingly, the Board finds that the site meets the threshold requirements for ZR § 73-52; and

WHEREAS, as to economic feasibility, the applicant represents that it would not be economically feasible to use or develop the R7-1 portion of the site for a permitted use; specifically, the applicant states that use of the remainder of the site for a permitted use would necessitate additional entry to and corridors through the proposed building, which would interrupt the commercial use thereof, and that the R7-1 portion of the site features a significant grade change that would require significant excavation; and

WHEREAS, accordingly, absent the requested extension of the Use Group 6 commercial use into the R7-1 zoning district, a substantial portion of the site would be unusable and remain vacant; and

WHEREAS, the Board agrees that it would not be economically feasible to use or develop the remaining portion of the site in the R7-1 zoning district for a permitted use; and

WHEREAS, as to the extension's effect on the surrounding area, the applicant submits that the proposed extension is consistent with existing land use conditions and anticipated projects in the immediate area, in that the area surrounding the site is predominated by high-density commercial and residential uses; and

WHEREAS, further, at the request of the Board and to buffer adjacent residential uses, the applicant proposes to landscape the rear yard with Norway spruce trees and blue rug juniper; and

WHEREAS, in response to questions from the Board about the sloping of the site, the applicant represents that the rear wall of the proposed building will be designed as a retaining wall; and

WHEREAS, finally, the applicant represents that the proposed building complies with the applicable regulations for the R7-1 (C1-4) zoning district and that the portion of the site beyond the 25-foot extension will remain an open area; and

WHEREAS, based on the foregoing, the Board finds that the proposed extension will not cause impairment of the essential character or the future use or development of the surrounding area; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 16BSA093X, dated February 28, 2017; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design; Natural Resources; Hazardous Materials; Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction Impacts; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-52 and 73-03.

*Therefore it is Resolved*, that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR §§ 73-52 and 73-03 to permit, in an R7-1 (C1-4) zoning district, a Use Group 6 commercial use to extend 25 feet into the adjacent R7-1 zoning district, contrary to ZR §§ 22-10 and 77-11; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received July 18, 2017" – Ten (10) sheets; and *on further condition*:

THAT a certificate of occupancy shall be obtained within four (4) years, by July 18, 2021;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 18, 2017.

APPLICANT – Law Office of Jay Goldstein, for 55 Prospect LLC, owner; Shadowbox Dumbo LLC, lessee.

SUBJECT – Application February 6, 2017 – Special Permit (§73-36) to permit the legalization of a physical cultural establishment (*Shadowbox*) located on the first floor of an existing building contrary to ZR §42-10. M1-6 zoning district.

PREMISES AFFECTED – 55 Prospect Street, Block 63, Lot 1, Borough of Brooklyn.

**COMMUNITY BOARD #2BK**

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

**THE RESOLUTION** –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated January 5, 2017, acting on Alteration Application No. 321391524, reads in pertinent part:

“Proposed Physical Culture Establishment in M1-6 zoning district is not permitted pursuant to ZR 42-10 and is referred to the Board of Standards and Appeal[s] for special permit under ZR 73-36”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, in an M1-6 zoning district, on a portion of the first floor of a nine-story, with cellar, commercial building, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on July 18, 2017, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 2, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the north side of Prospect Street, between Adams Street and Pearl Street, in an M1-6 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 205 feet of frontage along Prospect Street, 101 feet of frontage along Adams Street, 100 feet of frontage along Pearl Street, 20,630 square feet of lot area and is occupied by a nine-story, with cellar, commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

(1) that such *use* is so located as not to impair the essential character or the future use or

development of the surrounding area; and

(2) that such *use* contains:

(i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or

(ii) a swimming pool of a minimum 1,500 square feet; or

(iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or

(iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

(1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and

(2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04 and 73-36(b)(4), it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or

---

# MINUTES

---

revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE occupies 3,398 square feet of floor area on the first floor, including a reception area, office, gymnasium and locker rooms; and

WHEREAS, the PCE has been in operation as Shadowbox Dumbo LLC since January 2017; and

WHEREAS, the PCE's hours of operation are 5:30 a.m. to 11:00 p.m., Monday through Friday, and 6:30 a.m. to 7:00 p.m., Saturday and Sunday; and

WHEREAS, the applicant represents that the PCE use is consistent with the commercial character of the surrounding area and that the PCE is fully contained within an existing commercial building; and

WHEREAS, in addition, the applicant submits that sound attenuation measures—including sheetrock partitions with an STC rating of 63, isolated-slab flooring with an STC rating of 62, perimeter isolation boards and sealed and caulked penetrations at studio ceilings and partitions—have been provided within the space to absorb noise, echoes and reverberation, if any, created by the PCE; and

WHEREAS, accordingly, the Board finds that the PCE use is so located as to not impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE includes a boxing ring for personal training sessions and a group exercise room used for instructional classes; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE is fully sprinklered and that an approved fire alarm—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection to an FDNY-approved central station—has been installed in the entire PCE space; and

WHEREAS, by letter dated July 14, 2017, the Fire Department states that, based upon its review of the drawings and supporting documentation, it has no objection to this application; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, the applicant represents that the PCE will not interfere with any public improvement projects; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the

proposed Type II action noted in the CEQR Checklist No. 17-BSA-081K, dated February 6, 2017; and

WHEREAS, the Board has determined that the evidence in the record supports the requisite findings for a special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the Board notes that the term of the special permit has been reduced to reflect the period of time that the PCE has operated at the site without a special permit.

*Therefore it is Resolved*, that the Board of Standards and Appeals *issues* a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to *legalize*, on a site located within an M1-6 zoning district, a physical culture establishment, contrary to ZR § 42-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received July 18, 2017"- Three (3) sheets; and *on further condition*:

THAT the term of this grant shall be for ten (10) years, expiring January 1, 2027;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT minimum 3'-0" wide exit pathways shall be provided leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be maintained in the entire PCE space and the PCE shall be fully sprinklered, as indicated on the Board-approved plans;

THAT sound attenuation shall be installed in the PCE as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by July 18, 2018;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 18, 2017.

**REGULAR MEETING  
TUESDAY MORNING, JULY 25, 2017  
10:00 A.M.**

Present: Chair Perlmutter, Vice-Chair Chanda, and  
Commissioner Ottley-Brown.

**SPECIAL ORDER CALENDAR**

**302-01-BZ**

APPLICANT – Greenberg Traurig, LLP by Jay A. Segal, Esq., for Creston Avenue Realty LLC, owner.

SUBJECT – Application April 19, 2017 – Amendment of a pre-1961 variance which permitted an open parking lot accessory to a commercial building. The Amendment seeks to develop an as-of-right building on the site retaining the accessory parking. R8 zoning district.

PREMISES AFFECTED – 2519-2525 Creston Avenue, Block 3175, Lot 26, Borough of Bronx.

**COMMUNITY BOARD # 7BX**

**ACTION OF THE BOARD** – Application granted on condition

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

THE RESOLUTION –

WHEREAS, this is an application to amend a variance, previously granted by the Board, to permit the development of an as-of-right building on the site; and

WHEREAS, a public hearing was held on this application on June 27, 2017, after due notice by publication in *The City Record*, with a continued hearing on July 25, 2017, and then to decision on the same date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 7, the Bronx, recommends approval of the application; and

WHEREAS, the subject site is located on the southwest corner of Creston Avenue and East 191st Street, within an R8 zoning district, in the Bronx; and

WHEREAS, the site has approximately 172 feet of frontage along Creston Avenue, 136 feet of frontage along East 191st Street, 24,677 square feet of lot area and is occupied by a parking lot; and

WHEREAS, the Board has exercised jurisdiction over the subject site since December 7, 1948, when, under BSA Cal. No. 861-48-BZ, the Board granted a variance to permit the parking of more than five (5) motor vehicles at the site for customers and patrons of a nearby department store for a term of two (2) years, expiring December 7, 1950, on various conditions; and

WHEREAS, on December 20, 1949, under BSA Cal. No. 861-48-BZ, the Board amended the resolution to permit the department store to charge customers for parking and to

accept revised plans indicating a single entrance and exit from the premises; and

WHEREAS, on November 28, 1950, under BSA Cal. No. 861-48-BZ, the Board extended the term of the variance for another two (2) years, expiring November 28, 1952; and

WHEREAS, on May 22, 1951, under BSA Cal. No. 861-48-BZ, the Board granted a three (3) month extension of time to complete construction and obtain a certificate of occupancy, expiring August 22, 1951; and

WHEREAS, on November 25, 1952, under BSA Cal. No. 861-48-BZ, the Board extended the term of the variance for an additional five (5) years, expiring November 25, 1957, on condition that all permits be obtained and a new Certificate of Occupancy be obtained within three (3) months; and

WHEREAS, on June 8, 1954, under BSA Cal. No. 861-48-BZ, the Board denied a variance application proposing to construct a one-story garage on the site and utilize the roof for additional parking; and

WHEREAS, on the same date, under BSA Cal. No. 48-54-A, the Board denied an appeal from Department of Buildings objections related to the same proposal; and

WHEREAS, on November 13, 1963, April 25, 1972, January 10, 1978, and June 21, 1983, under BSA Cal. No. 861-48-BZ, the Board extended the term of the variance for five (5) year terms, the latest of which expired January 10, 1988; and

WHEREAS, on April 23, 2002, under the subject calendar number, the Board reestablished the expired variance, pursuant to ZR §§ 11-411 and 73-01, permitting an accessory parking facility for commercial use for a term of ten (10) years, expiring April 23, 2012, on condition that the premises be maintained free of debris and graffiti, the fences and gates be of legal and uniform height, lighting be directed down and away from residential uses and that these conditions appear on the Certificate of Occupancy; and

WHEREAS, on January 10, 2012, under the subject calendar number, the Board granted a six (6) month extension of time to obtain a Certificate of Occupancy, expiring July 10, 2012; and

WHEREAS, on December 11, 2012, under the subject calendar number, the Board further extended the term of the variance for an additional ten (10) years, expiring April 23, 2022, and granted a one (1) year extension of time to obtain a Certificate of Occupancy, expiring December 11, 2013, on condition that the site be maintained free of debris and graffiti and that this condition appear on the Certificate of Occupancy; and

WHEREAS, on October 21, 2014, under the subject calendar number, the Board granted another one (1) year extension of time to obtain a Certificate of Occupancy, expiring October 21, 2015; and

WHEREAS, Certificate of Occupancy No. 200683590F was issued for the subject site, effective August 10, 2015, indicating its use as a parking lot for 67 vehicles solely for customers and patrons of 2501 Grand Concourse; and

WHEREAS, the applicant proposes to develop the site with a 12-story mixed-use residential and community facility building and continue to provide 66 accessory parking spaces within the cellar and ground floor; and

# MINUTES

WHEREAS, the applicant represents that the proposed mixed-use building is fully compliant with all applicable zoning regulations; the Board has neither reviewed the proposed building for zoning compliance nor contemplated any waivers associated with its use or building envelope; and

WHEREAS, the applicant submits that the site is located in the Transit Zone and that the proposed building will provide “income-restricted housing units,” as defined in ZR § 12-10, for which no accessory off-street parking spaces are required pursuant to ZR § 25-251, and, further, that the proposed building will have no more than 38 units at rents affordable to households earning above 80 percent Area Median Income (“AMI”), for which parking for 40 percent of the units is required where group parking facilities are provided pursuant to ZR § 25-23 in the subject district, resulting in a maximum of 15 required spaces, all of which may be waived pursuant to ZR § 25-261; and

WHEREAS, thus, the applicant represents that the 66 accessory parking spaces will be sufficient for both residents of the proposed building, who are not anticipated to own cars, and the continued use by employees and patrons of the offices and stores now located at the building previously occupied by the large department store to which the existing parking lot was originally permitted as accessory (identified on the Certificate of Occupancy as 2501 Grand Concourse); and

WHEREAS, the proposed enclosed parking facility will be self-park, though an attendant is proposed to be present at the premises seven days a week from 7:00 a.m. to 10:00 p.m. to ensure that daily parkers are patrons of or visitors to 2501 Grand Concourse; at all other hours, the applicant submits that monthly parkers, likely employees of the offices and stores located at 2501 Grand Concourse, will have 24-hour access to the parking facility through an electronic control device; and

WHEREAS, in response to Board concerns regarding buffering the parking facility use from adjacent residential uses, the applicant revised the drawings to indicate, *inter alia*, a 6-foot tall metal screened fence along a portion of the western lot line, a 6-foot tall vegetated screen fence with native climbing vines planted in ground along the southern lot line and landscaping throughout the site; and

WHEREAS, based on the foregoing, the Board has determined that the request to amend the variance to permit the development of a mixed-use residential and community facility building with 66 accessory parking spaces provided on the cellar and first floor levels is appropriate with certain conditions as set forth below.

*Therefore, it is Resolved*, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated April 23, 2002, as amended through October 21, 2014, so that as amended this portion of the resolution shall read: “to permit the development on the site of an as-of-right mixed-use residential and community facility building, compliant with applicable zoning regulations, with 66 accessory parking spaces provided on the cellar and first floor levels; *on condition* that all work shall substantially conform to drawings as filed with this application, marked “Received July 25, 2017”- Fourteen (14) sheets; and *on further condition*:

THAT the building occupying the site shall provide

income-restricted housing, as defined in ZR § 12-10, for which no accessory off-street parking spaces are required pursuant to ZR § 25-251, and a maximum of 38 moderate income units for which a maximum of 15 accessory off-street parking spaces are required and, thus, waived pursuant to ZR § 25-261;

THAT the parking spaces provided are accessory to use(s) located at 2501 Grand Concourse, but otherwise available to residential tenants of the proposed mixed-use building;

THAT monthly parkers shall have access to the subject parking facility 24-hours a day 7-days a week by key card or other electronic device;

THAT the premises shall be maintained free of debris and graffiti;

THAT the fences and gates shall be of legal and uniform height;

THAT the lighting shall be directed down and away from residential uses;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a new Certificate of Occupancy shall be obtained within four (4) years;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, July 25, 2017.

-----

## 1259-79-BZ

APPLICANT – Sheldon Lobel, P.C., for 29 West 26<sup>th</sup> LLC, owner.

SUBJECT – Application June 8, 2016 – Extension of Time to Complete Construction and Obtain a Certificate of Occupancy for a Variance (§72-21) to convert the fourth and sixth floors of an existing building from manufacturing lofts to residential use which expired on May 8, 2016. M1-6 zoning district.

PREMISES AFFECTED – 29 West 26<sup>th</sup> Street, Block 828, Lot 16, Borough of Manhattan.

## COMMUNITY BOARD #5M

**ACTION OF THE BOARD** – Application withdrawn without prejudice.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

---

# MINUTES

---

## THE RESOLUTION –

WHEREAS, this is an application for an extension of time to complete construction and obtain a certificate of occupancy, which expired May 8, 2016, in accordance with a variance, originally granted by the Board on July 8, 1980; and

WHEREAS, a public hearing was held on this application on April 4, 2017, after due notice in *The City Record*, and then to decision on July 25, 2017; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the north side of West 26th Street, between Broadway and Avenue of the Americas, in an M1-6 zoning district, in Manhattan; and

WHEREAS, the site has approximately 25 feet of frontage along West 26th Street, 99 feet of depth, 2,469 square feet of lot area and is occupied by a seven-story mixed-use commercial and residential building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 8, 1980, where, under the subject calendar number, the Board granted a variance, pursuant to ZR § 72-21, to allow the conversion of all floors above the first floor of the existing seven-story building from manufacturing lofts into a multiple dwelling on condition that a smoke detector with a self-contained alarm be installed in each apartment; that a rate-of-rise device, connected to an alarm that can be heard throughout the building, be installed in the public halls and spaces and on the commercial floors including the cellar; that a manual fire alarm station be installed on each floor; that the existing fire escape be retained and provide street termination to the satisfaction of the Department of Buildings; that all laws, rules and regulations applicable be complied with; and that substantial construction be completed in accordance with ZR § 72-23; and

WHEREAS, on October 6, 1981, March 8, 1983, January 24, 1984, under the subject calendar number, the Board amended the resolution to permit one (1) year extensions of time to complete construction, the last of which expired October 6, 1984; and

WHEREAS, on October 27, 2009, under the subject calendar number, the Board waived its Rules of Practice and Procedure and granted a two (2) year extension of time to complete construction and obtain a certificate of occupancy, on condition that construction be substantially complete by April 27, 2011, and a certificate of occupancy be obtained by October 27, 2011; and

WHEREAS, in the course of that application, the applicant represented that the second, third, fifth and seventh floors of the subject building had been converted to residential use, but that construction had not yet been completed due to financing issues, a change in property ownership and a stop work order issued by the Department of Buildings; and

WHEREAS, on May 8, 2012, under the subject calendar number, the Board again waived its Rules of Practice and Procedure and granted a four (4) year extension of time to complete construction and obtain a certificate of occupancy, expiring May 8, 2016; and

WHEREAS, in the prosecution of that application, the applicant represented that the fourth and sixth floors were still

in the process of being converted to residential use; and

WHEREAS, the time to complete construction and obtain a certificate of occupancy having expired, the applicant filed the subject application for an additional four (4) year extension of time to complete construction and obtain a certificate of occupancy; and

WHEREAS, the applicant submits that the fourth floor has been substantially converted pursuant to the original variance grant and is occupied by a residential tenant, but that the sixth floor has only been partially converted and is temporarily being utilized as an office for the building management company until work can recommence for its residential conversion; and

WHEREAS, at the hearing held on April 4, 2017, the Board noted that ZR § 42-133 was enacted in tandem with the New York City Loft Law to allow the as-of-right conversion of commercial buildings to residential use in certain zoning districts, including M1-6 zoning districts; and

WHEREAS, ZR § 42-133(a) provides as follows:  
42-133

Provisions for dwelling units in certain M1-5 or M1-6 Districts

- (a) In M1-5 and M1-6 Districts, except for M1-6D Districts, located within the rectangle formed by West 23rd Street, Fifth Avenue, West 31st Street, and Eighth Avenue, no new *dwelling units* shall be permitted. However, *dwelling units* which the Chairperson of the City Planning Commission determines were occupied on September 1, 1980, shall be a permitted *use* provided that a complete application to permit such *use* is filed by the owner of the *building* or the occupant of a *dwelling unit* in such *building* not later than June 21, 1983.

Such *dwelling units* shall comply with the requirements of Section 15-024 or 15-22, where applicable and with Section 15-23. For the purposes of Article 7C of the New York State Multiple Dwelling Law, such a determination of *residential* occupancy on September 1, 1980, shall be deemed to permit *residential use* as-of-right for such *dwelling units*.

[...]; and

WHEREAS, the subject site is also under the jurisdiction of the New York City Loft Board (“Loft Board”), which issued a Certification of Compliance Pursuant to Title 29 of the Rules of the City of New York (“RCNY”), L.B. Cert. # 380, dated July 10, 1995, certifying that the building located at the subject site complies with all of the requirements of 29 RCNY § 2-01(d)(2) relating to Interim Multiple Dwellings; and

WHEREAS, the applicant additionally provided evidence that the registration of the residential units located on the second, third, fourth, fifth and seventh floors of the subject building was last renewed with the Loft Board in 2016; and

WHEREAS, the Board observed that because the dwelling units on the second through fifth and seventh floors

---

# MINUTES

---

are registered with the Loft Board, the variance is no longer necessary to permit residential occupancy of those floors<sup>1</sup>; and

WHEREAS, at hearing, the Board expressed its disapproval regarding the more than three decades it has taken to substantially complete construction in accordance with the Board's grant, including the installation of fire safety measures; and

WHEREAS, by letter dated July 21, 2016, the Fire Department states that "[b]ased on the extreme age of the original application and the numerous renewals that have been filed, this Agency recommends that this renewal NOT be considered for a final vote by the Board, until the sprinkler system installation is complete and approved"; and

WHEREAS, by letter dated Jun 14, 2017, the applicant requested withdrawal of this application, without prejudice; and

WHEREAS, at the Board's request, the applicant submitted a second letter, dated July 12, 2017, providing additional details regarding the request to withdraw, indicating an intent to continue the as-of-right commercial use on the sixth floor and not pursue its residential conversion at this time; and

WHEREAS, the Board notes that, in voting to accept the request to withdraw this application, the 1980 variance granted for this site has lapsed as a matter of law, pursuant to ZR § 72-23, as of May 8, 2016; and

*Therefore, it is Resolved*, that the subject application is hereby withdrawn, without prejudice.

Adopted by the Board of Standards and Appeals, July 25, 2017.

## APPEALS CALENDAR

### 2017-4-A

APPLICANT – Eric Palatnik, P.C., for Lavan Muthu, owner.

SUBJECT – Application January 6, 2017 – Proposed construction of a two story, mixed use residential and commercial building located within the bed of a mapped street, contrary to General City Law Section 35. C1-3/R4 zoning district.

PREMISES AFFECTED – 339 Victory Boulevard, Block 115, Lot 63, Borough of Staten Island.

### COMMUNITY BOARD #1SI

**ACTION OF THE BOARD** – Application granted on condition.

### THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

### THE RESOLUTION –

WHEREAS, the decision of the Staten Island Deputy Borough Commissioner, dated December 14, 2016, acting on Department of Buildings (“DOB”) Application No. 520283336, reads in pertinent part:

GCL 35: Proposed construction within the bed of a mapped street is contrary to Article III, Section 35 of the General City Law. Therefore, refer [to] the Board of Standards and Appeals for Review; and

WHEREAS, this is an application to construct a two-story mixed-use commercial and residential building partially within the bed of a mapped street, contrary to General City Law (“GCL”) § 35; and

WHEREAS, a public hearing was held on this application on July 25, 2017, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Community Board 1, Staten Island, recommends approval of this application; and

WHEREAS, the subject site is located on the southwest corner of Victory Boulevard and Cebra Avenue, within an R4 (C1-3) zoning district and the Special Hillside Preservation District, on Staten Island; and

WHEREAS, the site has approximately 50 feet of frontage along Victory Boulevard, 108 feet of frontage along Cebra Avenue and is occupied by a one-story building that will be demolished to facilitate the construction of the subject proposal; and

WHEREAS, the applicant proposes to construct a two-story building with commercial space on the ground floor and four residential units on the second floor partially within the bed of a mapped, but unbuilt, portion of Victory Boulevard; and

WHEREAS, the applicant represents that the proposed building will comply with all bulk regulations applicable in the subject zoning districts and the Special Hillside Preservation District; and

WHEREAS, by letter dated June 20, 2016, the New York State Department of Environmental Conservation (“DEC”) states that Spill Case # 1510228 has been closed at

the subject site, but reserves all of its rights concerning, and such forbearance shall not extend to, any further investigation or remedial action DEC deems necessary due to (1) the off-site migration of petroleum contaminants that was unknown at the time of the closure; (2) environmental conditions related to this spill case which were unknown to DEC at the time of the closure; (3) information received, in whole or in part, after the DEC’s spill case closure, which indicates that corrective action was not sufficiently protective of human health and/or the environment; and (4) fraud in obtaining the spill closure determination; and

WHEREAS, DEC also states that, if subsurface contamination is encountered while excavating for any construction activity, appropriate remedial and vapor mitigation efforts may need to be taken to prevent vapor intrusion into any site development and to ensure human health and safety and that the spill closure does not exempt Responsible Parties from compliance with any applicable laws and regulations; and

WHEREAS, by letter dated February 3, 2017, the New York City Department of Transportation (“DOT”) states that, at this location, Victory Boulevard is mapped for 100 feet and the City has a Corporation Counsel Opinion of Dedication for approximately 65 feet of this width but no title for the remaining 35 feet to the east and west; and

WHEREAS, DOT further states that the improvement of Victory Boulevard at this location, which would involve the taking of a portion of the subject lot, is not presently included in DOT’s Capital Improvement Program, but that this fact does not preclude a change in the program in the future; and

WHEREAS, by letter dated February 10, 2017, the New York City Department of Environmental Protection (“DEP”) states that there are a 3’-3” by 2’-2” combined sewer, a 12” diameter, two 20” diameter and a 48” diameter city water main in the bed of Victory Boulevard at the subject location and two 10” diameter sanitary sewers and a 36” diameter storm future sewer in the bed of Victory Boulevard between Cebra Avenue and Woodstock Avenue, but that DEP has no objections to the subject proposal; and

WHEREAS, an E designation (E-262) has been mapped on the subject site pursuant to a Negative Declaration CEQR No. 11DCP023Y, dated September 13, 2010, prepared by the New York City Department of City Planning in accordance with Article 8 of the Environmental Conservation Law 6 N.Y.C.R.R. part 617, to preclude the potential for significant adverse hazardous materials impact; and

WHEREAS, the text of the E designation requires, for petroleum, that a soil, soil gas, and groundwater testing protocol (including a description of methods), and a site map with all sampling location represented clearly and precisely be submitted to the DEP by the fee owner(s) of the lot for review; and, for non-petroleum, that (1) a scope of work for any sampling and testing needed to determine if contamination exists and to what extent remediation may be required, including all relevant supporting documentation, be submitted to DEP for review and approval prior to implementation and (2) a Health and Safety Plan (“HASP”) be devised and approved by the DEP before the commencement of any on-site

# MINUTES

activities; and

WHEREAS, the text further requires that after sample collection and laboratory analysis have been completed on the soil and/or groundwater samples, a summary of the data and findings in the form of a written report be presented to the DEP for review and approval; if DEP determines that remediation is necessary, the fee owner must submit a proposed remediation plan to DEP for review and approval; and once approval has been obtained and the work completed, the owner of the lot must provide proof to DEP that the work has been completed satisfactorily; and

WHEREAS, the site is also subject to E designations related to air quality and noise; and

WHEREAS, with regards to air quality impacts, the E designation text requires that any new residential/commercial development at the site use natural gas as the type of fuel for space heating and hot water (HVAC) systems; and with regards to noise impacts, the E designation text requires that future residential/commercial uses provide a closed window condition with a minimum of 35 dB(A) window/wall attenuation on all facades in order to maintain an interior noise level of 45 dB(A), that an alternate means of ventilation be provided in order to maintain a closed-window condition and that that such alternate means of ventilation includes, but is not limited to, central air conditioning or air conditioning sleeves containing air conditioners; and

WHEREAS, by letter dated April 6, 2017, the Fire Department states that it has no objection regarding the subject proposal on condition that there are no intentions of any other City agencies to take action to acquire the property; and

WHEREAS, the Board notes that pursuant to GCL § 35, it may authorize construction within the bed of the mapped street subject to reasonable requirements; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

*Therefore it is Resolved*, that the Board modifies the decisions of the Staten Island Deputy Borough Commissioner, dated December 14, 2016, acting on Department of Buildings Application No. 520283336, by the power vested in it by Section 35 of the General City Law to grant this appeal, limited to the decisions noted above *on condition* that construction will substantially conform to the drawings filed with the application marked "Received May 19, 2017"– Two (2) sheets; and *on further condition*:

THAT the site shall comply with all applicable conditions required by the Negative Declaration, dated September 13, 2010, associated with its E designations for hazardous materials, air quality and noise (E-262);

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by July 25, 2021;

THAT DOB shall review the plans associated with the Board's approval for compliance with all relevant provisions of the Zoning Resolution;

THAT to the extent required by DOB and/or DOT, a Builder's Pavement Plan shall be filed and approved prior to the issuance of the Certificate of Occupancy;

THAT a Certificate of Occupancy be obtained within four (4) years, by July 25, 2021;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 25, 2017.

THE VOTE TO DISMISS –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated April 17, 2015, acting on Application No. 121184128, reads in pertinent part:

1. ZR 23-145: The proposed residential FAR exceeds the maximum permitted;
2. ZR 23-22; ZR 35-40: The proposed number of dwelling units exceeds the maximum permitted;
3. ZR 25-23: The proposed number of accessory

# MINUTES

off-street parking spaces for the residential use is less than the required;

4. ZR 32-421: The proposed commercial use above the level of the first story ceiling is contrary to ZR 32-421;
5. ZR 23-633(b); ZR 35-24(c): The proposed height of the street wall exceeds the maximum base height;
6. ZR 23-633(c); ZR 35-24(d): The proposed building height exceeds the maximum permitted;
7. ZR 36-62: Proposed number of accessory off-street loading berths is less than required; and

WHEREAS, this is an application under ZR § 72-21 to permit, on a site located within an R7-2(C2-4) zoning district, the construction of a mixed-use commercial and residential building that does not comply with zoning regulations relating to maximum floor area ratio, maximum number of dwelling units, accessory off-street parking requirements, commercial use, maximum street wall height, maximum building height and accessory off-street loading berth requirements set forth in ZR §§ 23-145, 23-22, 23-633(b), 23-633(c), 25-23, 32-421, 35-24(c), 35-24(d), 35-40 and 36-62; and

WHEREAS, this application was originally filed on May 12, 2015; and

WHEREAS, the first Notice of Comments was issued on October 5, 2015; the project was revised and a new application with responses to the Notice of Comments was submitted on August 2, 2016; and

WHEREAS, on September 29, 2016, a second Notice of Comments was issued and a new application with a third revised project was filed on November 21, 2016; and

WHEREAS, the application was calendared for hearing and was, indeed, heard for the first time on December 13, 2016; a second hearing was then scheduled for February 28, 2017; and

WHEREAS, prior to the second hearing, the counsel that filed the application informed staff that he would be withdrawing and that new counsel was being retained to prosecute this application; and

WHEREAS, no submission was made to the Board in advance of the February 28, 2017, hearing, no one appeared to represent this application at that hearing and the application was taken off-calendar; and

WHEREAS, by letter dated May 10, 2017, the owner of record was informed that the application was scheduled for public hearing on July 25, 2017, that a submission—including a response to comments made at the December public hearing—was due by July 5, 2017, and that failure to appear at the July 25, 2017, hearing could result in the dismissal of this application for failure to prosecute; and

WHEREAS, the Board was informed of the identity of the new counsel for this application by letters from the new counsel and the owner of record of the subject site dated June 16, 2017; and

WHEREAS, the Board notes that such letters are inadequate to meet the requirement, set forth in § 1-9.4 of the Board's Rules of Practice and Procedure, of an executed and submitted Affidavit of Ownership and Authorization form

confirming ownership of the subject lot and authorizing a particular person or entity to make filings on the owner's behalf; and

WHEREAS, while a notarized Affidavit of Ownership and Authorization form authorizing the original representative was completed and submitted to the Board, a notarized Affidavit of Ownership and Authorization form naming new counsel was not; and

WHEREAS, no other submissions on this application were received prior to the July 25, 2017, hearing and no one appeared at that hearing on behalf of this application; and

WHEREAS, accordingly, due to the repeated failure of the applicant and its representatives to appear at hearings and submit materials in support of this application, it must be dismissed in its entirety.

*Therefore, it is Resolved*, that the application filed under BSA Cal. No. 104-15-BZ is hereby dismissed for lack of prosecution.

Adopted by the Board of Standards and Appeals, July 25, 2017.

PREMISES AFFECTED – 2619 East 16<sup>th</sup> Street, Block 7460, Lot 96, Borough of Brooklyn.

### **COMMUNITY BOARD #15BK**

**ACTION OF THE BOARD** – Application granted on condition

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated September 13, 2016, acting on New Building Application No. 321239619, reads in pertinent part:

“Proposed development is contrary to ZR 36-21 and requires a special permit pursuant to ZR Section 73-44”; and

WHEREAS, this is an application under ZR §§ 73-44 and 73-03 to permit, in a C4-2 zoning district, a reduction in the required number of accessory parking spaces for an ambulatory diagnostic or treatment facility in Use Group 4 and for Use Group 6 offices in parking requirement category B1, contrary to ZR § 36-21; and

WHEREAS, a public hearing was held on this application on January 10, 2017, after due notice by publication in *The City Record*, with continued a hearing on May 23, 2017, and then to decision on July 25, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner

# MINUTES

Ottley-Brown and Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends disapproval of this application, stating that the site is located near a major traffic hub with limited parking; and

WHEREAS, the subject site is located on the east side of East 16th Street, between Avenue Z and Sheepshead Bay Road, in a C4-2 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 25 feet of frontage along East 16th Street, 100 feet of depth, 2,500 square feet of lot area and is occupied by a two-story residential building; and

WHEREAS, the applicant proposes to develop a five-story mixed-use commercial and community-facility building with 8,696 square feet of floor area (3.48 FAR), 4,004 square feet of which will be used for a Use Group 4 ambulatory diagnostic or treatment facility and 4,692 square feet of which will be used for Use Group 6 offices; and

WHEREAS, the applicant represents that, pursuant to ZR § 36-21, 13 spaces are required for the Use Group 4 ambulatory diagnostic or treatment facility and 16 spaces are required for the Use Group 6 offices, calculated at a rate of one per 300 square feet of floor area; however, the applicant seeks to provide 14 parking spaces, 15 fewer than required and, accordingly, seeks the relief requested herein; and

WHEREAS, the applicant submits that, upon grant of this relief, waiver of the remaining 14 parking spaces will be sought pursuant to ZR § 36-231, which allows the waiver of all accessory parking in cases where the total number of required accessory off-street parking spaces is less than 15; and

WHEREAS, the Board takes no position as to whether approval of the subject special permit application qualifies the site for a parking waiver pursuant to ZR § 36-231, which is a determination subject to review by DOB; and

WHEREAS, ZR § 73-44 provides:

In the districts indicated, the Board of Standards and Appeals may permit a reduction in the number of *accessory* off-street parking spaces required by the provisions of Section 36-21 or 44-21 (General Provisions) for ambulatory diagnostic or treatment facilities listed in Use Group 4 and *uses* in parking requirement category B1 in Use Group 6, 7, 8, 9, 10, 11, 14 or 16 to the applicable number of spaces specified in the table set forth at the end of this Section, provided that the Board finds that occupancy by ambulatory diagnostic or treatment facilities listed in Use Group 4 or *uses* in parking category B1 is contemplated in good faith on the basis of evidence submitted by the applicant. In such a case the Board shall require that the certificate of occupancy issued for the *building* within which such *use* is located shall state that no certificate of occupancy shall thereafter be issued if the *use* is changed to a *use* listed in parking category B unless additional *accessory* off-street parking spaces sufficient to

meet such requirements are provided on the site or within the permitted off-site radius.

REDUCED ACCESSORY OFF-STREET  
PARKING SPACES REQUIRED FOR  
AMBULATORY DIAGNOSTIC  
OR TREATMENT FACILITIES LISTED IN  
USE GROUP 4 AND  
COMMERCIAL USES IN PARKING  
REQUIREMENT CATEGORY B1

Parking Spaces Required

Feet on <i>Floor Area</i> *	Districts
1 per 400	C1-1 C2-1 C3 C4-1
1 per 600	C1-2 C2-2 C4-2 C8-1 M1-1 M1-2 M1-3 M2-1 M2-2 M3-1
1 per 800	C1-3 C2-3 C4-3 C7 C8-2

\* For ambulatory diagnostic or treatment facilities listed in Use Group 4, parking spaces required for number of square feet of *floor area* or *cellar space*, except *cellar space used* for storage; and

WHEREAS, pursuant to ZR § 73-44, the Board may reduce the required parking for a Use Group 4 ambulatory diagnostic or treatment facility and Use Group 6 offices from one space per 300 square feet of floor area to one space per 600 square feet provided that the Board finds that such occupancy is contemplated in good faith; and

WHEREAS, the applicant submitted an affidavit indicating that the proposed building will be used for a Use Group 4 ambulatory diagnostic or treatment facility and Use Group 6 offices; and

WHEREAS, the applicant further states that any certificate of occupancy for the building will state that no subsequent certificate of occupancy may be issued if the Use Group 4 ambulatory diagnostic or treatment facility or Use Group 6 offices is changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius; and

WHEREAS, the Board finds the affidavit credible and that the applicant has submitted sufficient evidence of good faith in maintaining the proposed ambulatory diagnostic or treatment facility and office use at the site; and

WHEREAS, the Board notes that its determination is also subject to and guided by, among other things, ZR §§ 73-01 through 73-04, inclusive; and

WHEREAS, because of concerns expressed by Community Board 15, Brooklyn, and as the Board customarily does with applications under ZR § 73-44, the Board directed the applicant to demonstrate that the application satisfies ZR § 73-03(a), specifically, to provide information as to how the proposed reduction in required accessory off-street parking spaces will impact the surrounding community; and

WHEREAS, in response, the applicant submitted a parking study demonstrating that the maximum demand for parking generated by the proposed uses at the site will be

---

# MINUTES

---

\*\*\*4 spaces during peak demand, weekdays from 8:00 a.m. to 10:00 a.m., and that such demand can be accommodated by the 22 and 18 on-street parking spaces available from 8:00 a.m. to 9:00 a.m. and 9:00 a.m. to 10:00 a.m. as well as 49 and 48 off-street parking spaces available during such time in nearby public parking lots; and

WHEREAS, the Board notes that the parking study was based on the current operation of the existing medical facility wherein the subject site operates as a radiation and management practice only in tandem with its principal practice at 2632 East 14th Street, Brooklyn, so any change in ownership or in operation would require prior approval from the Board to examine whether the parking demand has changed as a result; and

WHEREAS, the evidence in the record discredits the general assertions of Community Board 15, Brooklyn, and the Board does not find that there is limited parking in the area during periods of peak demand for the proposed Use Group 4 ambulatory diagnostic or treatment facility and Use Group 6 offices; and

WHEREAS, accordingly, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of parking regulations is outweighed by the advantages to be derived by the community; and

WHEREAS, the applicant represents that the parking modification will not interfere with any public improvement project; and

WHEREAS, based upon its review of the record, the Board concludes that the findings required under ZR §§ 73-44 and 73-03 have been met; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (“EAS”) CEQR No. 16BSA052K, dated December 8, 2016; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, by correspondence dated March 9, 2017, [KS1] the Department of City Planning states that the proposal will not substantially hinder the achievement of any Waterfront Revitalization Program policy; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved*, that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR §§ 73-44 and 73-03 *per*mit, in a C4-2 zoning district, a reduction in the required number of accessory parking spaces for an ambulatory diagnostic or treatment facility in Use Group 4 and for Use Group 6 offices in parking requirement category B1, contrary to ZR § 36-21, *on condition* that all work shall substantially conform to drawings filed with this application marked “Received July 7, 2017” – seventeen (17) sheets; and *on further condition*:

THAT any change in ownership or in operation shall require prior approval from the Board in order to examine whether the parking demand has changed from 4 parking spaces because the parking study considered by the Board was based on the current operation of the existing medical facility wherein the subject site operates as a radiation and management practice only in tandem with its principal practice at 2632 East 14th Street, Brooklyn;

THAT the certificate of occupancy issued for the building within which the Use Group 4 ambulatory diagnostic or treatment facility and Use Group 6 offices are located shall state that no certificate shall thereafter be issued if the Use Group 4 ambulatory diagnostic or treatment facility or Use Group 6 offices are changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by July 25, 2021;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable pro-visions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 25, 2017.

**2016-4251-BZ**

**CEQR #17-BSA-018K**

APPLICANT – Jesse Masyr, Esq., Fox Rothschild LLP, for Neptune South Commercial LLC, owner.

SUBJECT – Application September 13, 2016 – Special Permit (§73-44) to permit the reduction of required accessory off-street parking spaces for ambulatory diagnostic and treatment health care facility use (UG 4A) and office use (UG 6B). C8-2 (Special Ocean Parkway District) zoning district.

PREMISES AFFECTED – 626 Sheepshead Bay Road, Block 7279, Lot 6, Borough of Brooklyn.

**COMMUNITY BOARD #13BK**

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

**THE RESOLUTION** –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated September 6, 2016, acting on New Building Application No. 320625258, reads in pertinent part:

“ZR 36-21” “the number of [a]ccessory parking spaces provided for use group 6b office use and use group 4a ambulatory diagnostic or treatment health care facility use does not comply”; and

WHEREAS, this is an application under ZR §§ 73-44 and 73-03 to permit, in a C8-2 zoning district and the Special Ocean Parkway District, a reduction in the required number of accessory parking spaces for Use Group 6 office use and for a Use Group 4 ambulatory diagnostic or treatment health care facility from 138 to 69, contrary to ZR § 36-21; and

WHEREAS, a public hearing was held on this application on May 23, 2017, after due notice by publication in *The City Record*, and then to decision on July 25, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 13, Brooklyn, recommends disapproval of this application, with a few votes in favor and the majority opposed; and

WHEREAS, the subject site is located on the south side of Sheepshead Bay Road, between West 8th Street and West 5th Street, in a C8-2 zoning district and the Special Ocean Parkway District, in Brooklyn; and

WHEREAS, the site has approximately 203 feet of frontage along Sheepshead Bay Road, 120 feet of depth, 27,292 square feet of lot area and is vacant; and

WHEREAS, the Board has exercised jurisdiction over the subject site since August 16, 2005, when, under BSA Calendar No. 13-05-BZ, the Board granted an application to permit the operation of a physical culture establishment for a term of ten (1) years, expiring August 16, 2015, within a three-story building; and

WHEREAS, the applicant states that the special permit has expired without renewal and that the three-story building has been demolished; and

WHEREAS, the applicant proposes to develop a seven-story, with cellar, mixed-use commercial and community-facility building with 109,376 square feet of total floor area (4.01 FAR) with 36,610 square feet of floor area dedicated to Use Group 6 offices and 18,306 square feet of floor area dedicated to a Use Group 4 ambulatory diagnostic or treatment health care facility; and

WHEREAS, the applicant represents that, pursuant to ZR § 36-21, 92 parking spaces are required for the office use and 46 parking spaces are required for the ambulatory diagnostic or treatment health care facility, calculated at a rate of one space per 400 square feet of floor area; however, the applicant seeks to provide 46 parking spaces accessory to the office use and 23 parking spaces accessory to the ambulatory diagnostic or treatment health care facility, 69 fewer spaces total than required and, accordingly, seeks the relief requested herein; and

WHEREAS, ZR § 73-44 provides:

In the districts indicated, the Board of Standards and Appeals may permit a reduction in the number of *accessory* off-street parking spaces required by the provisions of Section 36-21 or 44-21 (General Provisions) for ambulatory diagnostic or treatment facilities listed in Use Group 4 and *uses* in parking requirement category B1 in Use Group 6, 7, 8, 9, 10, 11, 14 or 16 to the applicable number of spaces specified in the table set forth at the end of this Section, provided that the Board finds that occupancy by ambulatory diagnostic or treatment facilities listed in Use Group 4 or *uses* in parking category B1 is contemplated in good faith on the basis of evidence submitted by the applicant. In such a case the Board shall require that the certificate of occupancy issued for the *building* within which such *use* is located shall state that no certificate of occupancy shall thereafter be issued if the *use* is changed to a *use* listed in parking category B unless additional *accessory* off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius.

**REDUCED ACCESSORY OFF-STREET

# MINUTES

---

1 per 800 C1-3 C2-3 C4-3 C7 C8-2

\* For ambulatory diagnostic or treatment facilities listed in Use Group 4, parking spaces required for number of square feet of *floor area* or *cellar* space, except *cellar* space used for storage; and

WHEREAS, pursuant to ZR § 73-44, the Board may reduce the required parking for Use Group 6 offices and a Use Group 4 ambulatory diagnostic or treatment facility from one space per 400 square feet of floor area to one space per 800 square feet provided that the Board finds that such occupancy is contemplated in good faith; and

WHEREAS, the applicant represents that the proposed building will be used for Use Group 6 offices and a Use Group 4 ambulatory diagnostic or treatment facility, and the applicant submitted a letter from the applicant's real estate broker indicating that, while negotiations are ongoing, the broker has been in contact with several prospective tenants to lease space for such uses; and

WHEREAS, the applicant further states that any certificate of occupancy for the building will state that no subsequent certificate of occupancy may be issued if the Use Group 6 offices or Use Group 4 ambulatory diagnostic or treatment facility are changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius; and

WHEREAS, the Board finds the applicant's representations credible and that the applicant has submitted sufficient evidence of good faith in maintaining the proposed ambulatory diagnostic or treatment facility and office use at the site; and

WHEREAS, the Board notes that its determination is also subject to and guided by, among other things, ZR §§ 73-01 through 73-04, inclusive; and

WHEREAS, in response to the recommendation of Community Board 13, Brooklyn, and as the Board customarily does, the Board directed the applicant to demonstrate that the application satisfies ZR § 73-03(a), specifically, to provide information as to how the proposed reduction in required accessory off-street parking spaces will impact the surrounding community; and

WHEREAS, in response, the applicant submitted a parking study demonstrating that the maximum demand for parking generated by the proposed Use Group 6 offices and Use Group 4 ambulatory diagnostic or treatment facility will be 69 parking spaces, weekdays from 10:00 a.m. to 11:00 a.m., with 37 spaces accessory to the offices and 32 spaces accessory to the ambulatory diagnostic or treatment facility, and that such demand can be accommodated by 132 accessory off-street parking spaces; and

WHEREAS, at the Board's request, the applicant also submitted a lighting plan for the parking deck illustrating that aluminum screening will be provided to protect neighbors' windows from headlights and that the parking deck's light fixtures will be directed downward to prevent light spread; and

WHEREAS, accordingly, the Board finds that, under

the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of parking regulations is outweighed by the advantages to be derived by the community; and

WHEREAS, the applicant represents that the parking modification will not interfere with any public improvement project; and

WHEREAS, based upon its review of the record, the Board concludes that the findings required under ZR §§ 73-44 and 73-03 have been met; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement ("EAS") CEQR No. 17-BSA-018K, dated June 28, 2017; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, by correspondence dated July 24, 2017, 2017, the Department of City Planning states that the proposal will not substantially hinder the achievement of any Waterfront Revitalization Program policy; and

WHEREAS, the Board notes that the EAS makes reference to floodgates; however, at hearing, the applicant testified that, rather than floodgates, glass flood-proofing material will be used for the first-floor retail spaces; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved*, that the Board of Standards and Appeals *issues* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR §§ 73-44 and 73-03 to *permit*, in a C8-2 zoning district and the Special Ocean Parkway District, a reduction in the required number of accessory parking spaces for Use Group 6 office use and for a Use Group 4 ambulatory diagnostic or treatment health care facility from 138 to 69, contrary to ZR § 36-21, *on condition* that all work shall substantially conform to drawings filed with this application marked "Received June 28, 2017" – Sixteen (16) sheets; and *on further condition*:

THAT the certificate of occupancy issued for the

## 2017-1-BZ

### CEQR #17-BSA-059X

APPLICANT – Rothkrug Rothkrug & Spector LLP, for 2883 Third Avenue Realty Associates, owner; Blink 2883 3<sup>rd</sup> Avenue, Inc., lessee.

SUBJECT – Application January 3, 2017 – Special Permit (§73-36) to operate a physical culture establishment (*Blink*) within an existing building. C4-4 zoning district.

PREMISES AFFECTED – 570 Melrose Avenue aka 2883 Third Avenue, Block 2374, Lot 1, Borough of Bronx.

### COMMUNITY BOARD #1BX

**ACTION OF THE BOARD** – Application granted on condition.

#### THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

#### THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated December 5, 2016, acting on Alteration Application No. 220455834, reads in pertinent part:

“Proposed Physical Culture Establishment in C4-4 Zoning District is contrary to Section 32-10 ZR and requires a special permit from BSA (73-36)”;  
and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, in a C4-4 zoning district, the operation of a physical culture establishment (“PCE”) on the first, second and third floors of a five-story, with cellar,

commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on July 18, 2017, after due notice by publication in *The City Record*, and then to decision on July 25, 2017; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 1, Bronx, provided a letter dated July 7, 2017, in support of this application; and

WHEREAS, the subject site is located on the northeast corner of Melrose Avenue and East 150th Street, in a C4-4 zoning district, in the Bronx; and

WHEREAS, the site has approximately 100 feet of frontage along Melrose Avenue, 141 feet of frontage along East 150th Street, 64 feet of frontage along Third Avenue, 9,910 square feet of lot area and is occupied by a five-story, with cellar, commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
  - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
  - (ii) a swimming pool of a minimum 1,500 square feet; or
  - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
  - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

---

# MINUTES

---

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04 and 73-36(b)(4), it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the proposed PCE will occupy a total of 16,219 square feet of floor area as follows: 460 square feet of floor area on the first floor consisting of a lobby, 7,800 square feet on the second floor, including a reception area, offices, strength-training areas, cardiovascular-fitness machines, stretching areas, a locker room and janitor room, and 7,958 square feet on the third floor with cardiovascular-training space, strength-training and heavy-lifting areas, a locker room and a janitor room; and

WHEREAS, the PCE will be operated as Blink Fitness with proposed hours of operation of 5:30 a.m. to 11:00 p.m., Monday through Saturday, and 7:00 a.m. to 9:00 p.m., Sunday; and

WHEREAS, the applicant represents that the proposed PCE will be located in a busy commercial area within an existing commercial building and that the proposed PCE will be consistent with other uses in the vicinity and other commercial uses in the building; and

WHEREAS, with regard to sound attenuation, the applicant submits that the PCE will have sound attenuation measures—including rubber flooring and demising walls with batt insulation—designed to ensure that sound levels experienced in other areas of the building will not exceed interior noise levels of 45 dBA, including sound emanating from any sound system installed; and

WHEREAS, accordingly, the Board finds that the PCE use is so located as to not impair the essential character or

the future use or development of the surrounding area; and

WHEREAS, the applicant represents that the proposed PCE will contain facilities for classes, instruction and programs for physical improvement, body building, weight reduction and aerobic exercise; and

WHEREAS, accordingly, the Board finds that the PCE use is so located as to not impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE will be fully sprinklered and that an approved fire alarm—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection to an FDNY-approved central station—will be installed in the entire PCE space; and

WHEREAS, by letter dated July 14, 2017, the Fire Department states that, based upon its review of the drawings and supporting documentation, it has no objection to this application; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, the applicant represents that the PCE will not interfere with any public improvement projects; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17-BSA-059X, dated January 3, 2017; and

WHEREAS, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03.

*Therefore it is Resolved*, that the Board of Standards and Appeals *issues* a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to *permit*, on a site located within a C4-4 zoning district, a physical culture establishment, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received July 21, 2017”- Seven (7) sheets; and *on further condition*:

THAT the term of this grant shall be for ten (10) years, expiring July 25, 2027;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT minimum 3'-0" wide exit pathways shall be provided leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

# MINUTES

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be installed in the entire PCE space and the PCE shall be fully sprinklered, as indicated on the Board-approved plans;

THAT sound attenuation shall be installed in the PCE as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by July 25, 2021;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 25, 2017.

**CEQR #17-BSA-128K**

APPLICANT – NYC Mayor’s Office of Housing Recovery Operations (“HRO”)

SUBJECT – Application May 19, 2017 – Special Permit (§64-92) to waive bulk regulations for the replacement of homes damaged/destroyed by Hurricane Sandy, on properties which are registered in the NYC Build it Back Program. R3-1 zoning district.

PREMISES AFFECTED – 32 Stanton Road. Block 8800, Lot 52. Borough of Brooklyn.

**COMMUNITY BOARD # 15BK**

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Montanez.....4

Negative: .....0

**THE RESOLUTION** –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92 to permit, on a site within an R4-1 zoning district, the elevation of a single-family detached home in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards, side yards rear yards, open space and lot coverage, contrary to ZR §§ 23-45, 23-461(a), 23-47, 23-142, 64-A351, 64-A352, 64-A353 and 64-A311; and

WHEREAS, a public hearing was held on this application on May 25, 2017, and then to decision on the same date; and

WHEREAS, this application is brought on behalf of the property owner by the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in furtherance of the City’s effort to rebuilt homes impacted by Superstorm Sandy expeditiously and effectively, the Board, pursuant to 2 RCNY § 1-14.2, waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1-05.1 (Objection Issued by the Department of Buildings); (2) 2 RCNY § 1-05.3 (Filing Period); (3) 2 RCNY § 1-05.4 (Application Referral); (4) 2 RCNY § 1-05.6 (Hearing Notice); (5) 2 RCNY § 1-05.7 (List of Affected Property Owners); (6) 2 RCNY § 1-09.4 (Owner’s Authorization); and (7) 2 RCNY § 1-10.7 (Proof of Service for Application Referral and Hearing Notice); and

WHEREAS, the Board notes that the subject application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the east side of Stanton Road, between Gunnison Court and Losee Terrace, in an R4-1 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 25 feet of frontage along Stanton Road, 1,375 square feet of lot area and is occupied by a one-story single-family detached home, which is setback between 0.8 and 1.4 feet from the northern lot line, 14.1 feet from the eastern lot line, between 3.2 and 3.7 feet from the southern lot line, 0.2 feet from the western lot line and is non-compliant with the applicable yard regulations; and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 22, 2016, when, under BSA Cal. No. 2016-390-A, the Board granted a waiver of General City Law (“GCL”) § 36 permitting the elevation or reconstruction of a one-family dwelling that does not front on a mapped street; and

WHEREAS, the waiver was conditioned, *inter alia*, upon the elevated dwelling having a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code; the dwelling being provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code, unless the Fire Department has notified DOB that it is exempt; the underside of the exterior of the dwelling where the foundation is not closed having a floor assembly that provides a 2-hour fire resistance rating; and the height from grade plane to the highest window-sill leading to a habitable space not exceeding 32 feet; and

WHEREAS, the applicant now seeks a special permit, pursuant to ZR § 64-92, to allow the elevation of the existing residence in the same footprint, resulting in a two-story single-family detached dwelling with the same lot line setbacks; and

WHEREAS, at the subject site, the minimum lot area required for a single-family detached residence is 2,375 square feet and the minimum lot width required is 25 feet, pursuant to ZR § 25-32; and

WHEREAS, yard requirements for the subject site are set forth as follows: minimum front yard depth requirements are set forth in ZR §§ 23-45 and 64-A351; side yard requirements are set forth in ZR § 23-461(a), and 64-A352; and rear yard requirements are set forth in ZR § 23-47 and 64-A353; and

WHEREAS, open area and lot coverage requirements for the subject site are set forth in ZR §§ 23-142 and 64-A311; and

WHEREAS, the requirement of an open area of at least 8 feet between residences on adjacent zoning lots set forth in ZR § 23-461(c) is waived at the site pursuant to ZR § 64-A352(c); and

WHEREAS, the subject site does not front a “street,” as defined in ZR § 12-10, and is accessed, instead, by a private path having an average width of 4 feet, allowing from ingress and egress to the surrounding public streets; and

WHEREAS, consequently the subject site lacks a

---

# MINUTES

---

“front lot line,” a “front yard,” a “rear lot line,” a “rear yard” and “side yards,” as those terms are defined in the same section and, therefore, proposes open areas, in lieu of yards, along its lot lines and seeks waivers of the applicable yard regulations; and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments* and *enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Section 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

- (a) that there would be a practical difficulty in complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;
- (b) that any modifications of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood’s potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, in accordance with ZR § 64-92(a), the need to elevate the existing residence, which, as it exists, is non-compliant with yard regulations, creates practical difficulties in complying with flood-resistant construction standards without the modification of the yard requirements and that waivers of the same is the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the finding pursuant to ZR § 64-92(b) is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR §

64-92(c), the proposal will not alter the essential character of the neighborhood in which the dwelling is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood’s potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the surrounding neighborhood is a mixed density waterfront community that the majority of homes within a 200 foot radius of the subject site are one- and two- story detached bungalows, a significant number of which are also participating in the Build it Back program by being elevated or reconstructed; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed alteration and elevation satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17BSA128K, dated May 19, 2017; and

*Therefore, it is Resolved*, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure and issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92 to permit, on a site within an R4-1 zoning district, the elevation of a single-family detached dwelling in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards, side yards rear yards, open space and lot coverage, contrary to ZR §§ 23-45, 23-461(a), 23-47, 23-142, 64-A351, 64-A352, 64-A353 and 64-A311; *on condition* that all work shall substantially conform to the drawings filed with this application and marked “Received May 19, 2017”- Five (5) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: setback at least 0.8 feet from the northern lot line, setback at least 14.1 feet from the eastern lot line, setback at least 3.2 feet from the southern lot line and setback at least 0.2 feet from the western lot line, as illustrated on the BSA-approved plans;

THAT the building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code, unless the Fire Department has notified DOB that it is exempt;

THAT the dwelling shall be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code;

THAT the underside of the exterior of the dwelling where the foundation is not closed shall have a floor assembly that provides a 2-hour fire resistance rating;

THAT the height from grade plane to the highest window-sill leading to a habitable space may not exceed 32

# MINUTES

feet;

THAT this approval shall be limited to the Build it Back program;

THAT all DOB and related agency application(s) filed in connection with the authorize use and/or bulk shall be signed off by DOB and all other relevant agencies by May 25, 2021;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 25, 2017.

## REGULAR MEETING TUESDAY MORNING, AUGUST 7, 2017 10:00 A.M.

Present: Chair Perlmutter, Vice-Chair Chanda, and Commissioner Ottley-Brown.

### SPECIAL ORDER CALENDAR

#### 70-97-BZ

APPLICANT – Law Office of Fredrick A. Becker for 575 Lex Property Owner LLC, owner; TSI East 51<sup>st</sup> Street, LLC dba New York Sports Club, lessee.

SUBJECT – Application November 10, 2016 – Extension of Term of a Special Permit (§73-36) to permitting the operation of a Physical Culture Establishment (*New York Sports Club*) which expired on November 1, 2016. C6-6 and C6-4.5 (MID) zoning district.

PREMISES AFFECTED – 575 Lexington Avenue, Block 1306, Lot 23, Borough of Manhattan.

#### COMMUNITY BOARD #6M

**ACTION OF THE BOARD** – Application granted on condition.

#### THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

#### THE RESOLUTION –

WHEREAS, this is an application for an extension of term of a special permit for a physical culture establishment (“PCE”) previously granted by the Board, which expired on November 1, 2016; and

WHEREAS, a public hearing was held on this application on August 8, 2017, after due notice by publication in *The City Record*, and then to decision on August 8, 2017; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 6, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the northeast corner of Lexington Avenue and East 51<sup>st</sup> Street, partially in a C6-6 zoning district and partially in a C6-4.5 zoning district, in Manhattan; and

WHEREAS, the site has approximately 151 feet of frontage along Lexington Avenue, 225 feet of frontage along East 51<sup>st</sup> Street, 50 feet of frontage along East 52<sup>nd</sup> Street, 32,637 square feet of lot area and is occupied by an existing 34-story commercial building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since December 16, 1997, when, under the subject calendar number, the Board granted an application under ZR § 73-36 to permit the legalization of a PCE on a portion of the second floor of the subject building for a term of ten (10) years, expiring November 1, 2006, on condition that there be no change in ownership or operating control of

the PCE without prior application to and approval from the Board, that fire prevention measures be installed and maintained in accordance with the Board-approved plans, that the above conditions appear on the certificate of occupancy and that a new certificate of occupancy be obtained within one (1) year, by December 16, 1998; and

WHEREAS, on December 5, 2006, under the subject calendar number, the Board granted an amendment to legalize an increase in floor area occupied by the PCE and an extension of term for ten (10) years, expiring November 1, 2016, on condition that there be no change in ownership or operating control of the PCE without prior approval from the Board and that the above conditions appear on the certificate of occupancy; and

WHEREAS, the term of the special permit having expired, the applicant now seeks an extension of term for ten (10) additional years; and

WHEREAS, the facility remains in operation as New York Sports Club with the following hours of operation: Monday through Thursday, 5:45 a.m. to 11:00 p.m., Friday, 5:45 a.m. to 9:00 p.m., Saturday, 9:00 a.m. to 6:00 p.m., and Sunday, 9:00 a.m. to 4:00 p.m.; and

WHEREAS, the applicant submits that the PCE continues to occupy 24,980 square feet of floor area in the building: 280 square feet of floor area on the first floor and 24,700 square feet of floor area on the second floor, as previously approved by the Board; and

WHEREAS, the applicant represents that the circumstances warranting the original grant still obtain and that the applicant has complied with the conditions and safeguards theretofore described by the Board during the prior term; and

WHEREAS, by letter dated April 27, 2017, the Fire Department states that the PCE includes an approved fire alarm and sprinkler system, that egress locations and egress travel distances are acceptable but that the PCE’s exit doors should open towards the direction of egress; and

WHEREAS, at the Board’s request, the applicant submitted evidence that the exit doors had been repaired to open towards the direction of egress; and

WHEREAS, the Board finds that the requested extension of term is appropriate with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution pursuant to Section 73-36 of the Zoning Resolution, said resolution having been adopted on December 16, 1997, as amended through December 5, 2006, expiring November 1, 2016, only as to the term of the special permit, so that as amended this portion of the resolution shall read: “granted for a term of ten (10) years from the expiration of the last grant to expire November 1, 2026; *on condition* that the use and operation of the PCE shall substantially conform to Board-approved plans; and *on further condition*:

THAT there shall be no change in ownership or operating control of the PCE without prior approval from the Board;

THAT this grant shall be limited to a term of ten (10)

---

# MINUTES

---

years, expiring November 1, 2026;

THAT the above conditions shall appear on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT other than as herein amended the resolution above cited shall be complied with in all respects; and

THAT a new certificate of occupancy shall be obtained within one (1) year from the date of this amended resolution, by August 8, 2018.”

Adopted by the Board of Standards and Appeals, August 8, 2017.

-----

## 41-07-BZ

APPLICANT – Rothkrug Rothkrug & Spector, LLP, for 17<sup>th</sup> and 10<sup>th</sup> Associates LLC, owner; Equinox 17<sup>th</sup> Street, Inc., lessee.

SUBJECT – Application February 28, 2017 – Extension of Term of a previously approved Special Permit (§73-36) which permitted the operation of a Physical Cultural Establishment (*Equinox*) on the cellar, ground, and mezzanine levels of a 24-story mix-use building which expires on May 8, 2017. C6-3 Special West Chelsea District.

PREMISES AFFECTED – 450 West 17<sup>th</sup> Street aka 100 10<sup>th</sup> Avenue, Block 1531, Lot 1, Borough of Manhattan.

## COMMUNITY BOARD # 4M

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

THE RESOLUTION –

WHEREAS, this is an application for an extension of term of a special permit for the operation of a physical culture establishment (“PCE”) previously granted by the Board, which expired May 8, 2017; and

WHEREAS, a public hearing was held on this application on August 8, 2017, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Community Board 4, Manhattan, recommends denial of this application for failure to provide documentation that the PCE offers special discounts to residents occupying affordable apartments in the subject building<sup>1</sup>; and

WHEREAS, the subject site is located on the east side of Tenth Avenue, between West 16<sup>th</sup> Street and West 17<sup>th</sup> Street, in a C6-3 zoning district and the Special West

---

1 The Board notes that, while ZR § 73-36 authorizes the placement of appropriate conditions—such as the “location of signs and limitations on the manner and/or hours of operation” (emphasis in original)—on special permits so as to safeguard community character, the Board does not regulate PCE memberships.

Chelsea District, in Manhattan; and

WHEREAS, the site has approximately 161 feet of frontage along Tenth Avenue, 300 feet of frontage along West 16<sup>th</sup> Street, 200 feet of frontage along West 17<sup>th</sup> Street, 52,875 square feet of lot area and is occupied by a 24-story, with cellar, mixed-use commercial and residential building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since May 8, 2007, when, under the subject calendar number, the Board granted a special permit for the operation of a PCE on portions of the cellar, first floor and mezzanine levels of the subject building for a term of ten (10) years, expiring May 8, 2017, on condition that there be no change in ownership or operating control of the PCE without prior application to and approval from the Board, that the hours of operation be limited to Monday through Thursday, 5:30 a.m. to 11:00 p.m., Friday, 5:30 a.m. to 10:00 p.m., and Saturday and Sunday, 7:00 a.m. to 9:00 p.m., that all massages be performed by New York State licensed massage therapists and that the above conditions appear on the certificate of occupancy; and

WHEREAS, the term of the special permit having expired, the applicant now seeks an extension of term; and

WHEREAS, the facility remains in operation as Equinox with the following hours of operation: Monday through Thursday, 5:30 a.m. to 11:00 p.m., Friday, 5:30 a.m. to 10:00 p.m., and Saturday and Sunday, 7:00 a.m. to 9:00 p.m.; and

WHEREAS, the applicant submits that the PCE occupies 32,868 square feet of floor space in the building: 21,676 square feet of floor space in the cellar, 8,332 square feet of floor area on the first floor and 2,860 square feet of floor area on the first-floor mezzanine, as previously approved by the Board; and

WHEREAS, the applicant represents that the circumstances warranting the original grant still obtain and that the applicant has complied with the conditions and safeguards theretofore described by the Board during the prior term; and

WHEREAS, at hearing, the Fire Department represented that it has no objection to this application; and

WHEREAS, the Board finds that the requested extension of term is appropriate with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution pursuant to Section 73-36 of the Zoning Resolution, said resolution having been adopted on May 8, 2007, expiring May 8, 2017, only as to the term of the special permit, so that as amended this portion of the resolution shall read: “granted for a term of ten (10) years from the expiration of the last grant to expire May 8, 2027; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received February 28, 2017” – Six (6) sheets; and *on further condition*:

THAT the term of this grant shall expire on May 8, 2027;

THAT there shall be no change in ownership or

# MINUTES

operating control of the physical culture establishment without prior application to and approval from the Board;

THAT the hours of operation shall be limited to: Monday through Thursday, 5:30 a.m. to 11:00 p.m.; Friday, 5:30 a.m. to 10:00 p.m.; and Saturday and Sunday, 7:00 a.m. to 9:00 p.m.;

THAT all massages shall be performed by New York State licensed massage therapists;

THAT the above conditions shall appear on the certificate of occupancy;

THAT Local Law 58/87 compliance shall be as reviewed and approved by the Department of Buildings;

THAT fire safety measures shall be maintained as shown on the Board-approved plans;

THAT all conditions from prior resolutions not specifically waived by the Board shall remain in effect;

THAT other than as herein amended the resolution above cited shall be complied with in all respects; and

THAT a new certificate of occupancy shall be obtained within one (1) year, by August 8, 2018.”

Adopted by the Board of Standards and Appeals, August 8, 2017.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

**THE RESOLUTION** –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated May 27, 2016, acting on Alteration Application No. 320997409, reads in pertinent part:

Proposed floor area ratio exceeds the maximum 0.5 permitted, contrary to Z.R. 23-141 (b) ... Proposed lot coverage exceeds the maximum 35% allowed, contrary to Z.R. 23-141(b) ... Proposed two side yards must be at least a minimum 5 feet and total 13 feet side yard required, contrary to Z.R. 23-461 ... Proposed open space is required minimum 65%, contrary to Z.R. 23-141(b) ... Show height of perimeter wall [21 ft], height of maximum ridge plane [35 ft], and sloping planes to ridge lines on building elevations and sections per Z.R. 23-631(b)(1) through (5)[KS1]; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03 to permit, in an R3-1 zoning district, the enlargement of an existing single-family detached residence that does not comply with the zoning requirements for floor area, open space, lot coverage, side yards and perimeter wall height, contrary to ZR §§ 23-141(b), 23-461 and 23-361(b); and

WHEREAS, a public hearing was held on this application on November 17, 2015, after due notice by publication in *The City Record*, with continued hearings on February 2, 2016, March 22, 2016, May 3, 2016, May 16, 2017, and June 6, 2017, and then to decision on August 8, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown, former Vice-Chair Hinkson and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, residents of the neighborhood provided testimony in opposition, citing the presence of an easement along the subject site; however, the Board notes that an agency is not required to consider a private agreement in the context of a government approval because a zoning ordinance “is a legislative enactment and the easement or covenant a matter of private agreements,” *Friends of Shawangunks, Inc. v. Knowlton*, 64 N.Y.2d 387, 392 (1985), and the Board takes no position as to the legality of the existing encroachment in the side yard, though Department of Buildings should ensure the encroachment’s compliance with applicable laws, including the Zoning Resolution; and

WHEREAS, the subject site is located on the south side of Shore Boulevard, between Oxford Street and Norfolk Street, in an R3-1 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 25 feet of

frontage along Shore Boulevard, 90 feet of depth, 2,261 square feet of lot area and is occupied by a one-story single-family detached residence; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single- or two-family detached* or *semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached* or *semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the

---

# MINUTES

---

perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins. Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, among other things, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge an existing single-family detached residence, as contemplated in ZR § 73-622; and

WHEREAS, the applicant proposes to increase the floor area of the residence from 900 square feet (0.398 FAR) to 2,222 square feet (0.982 FAR), decrease open space from 1,361 square feet to 1,287 square feet, increase lot coverage from 40 percent to 43 percent and maintain the existing non-complying side yards of 2'-3/8" and 3'-0"; and

WHEREAS, the applicant originally proposed to increase the floor area to 2,229 square feet (0.986 FAR), decrease open space to 1,206 square feet, increase lot coverage to 47 percent, reduce side yards to 0'-2" and 3'-0", increase perimeter wall height from 9'-0" to 23'-3", increase perimeter wall height to 37'-7"; however, the applicant modified the proposed enlargement—reducing the scope of some waivers and eliminating others altogether—in response to the Board's concerns about its massing in the context of the existing neighborhood; and

WHEREAS, at the subject site, the applicant states that the maximum floor area permitted is 1,130 square feet (0.5 FAR), open space must be a minimum of 1,469 square feet, lot coverage may not exceed 35 percent and side yards with minimum depths of 5'-0" and 8'-0" are required; and

WHEREAS, the applicant represents that the enlarged building is consistent with the essential character of the neighborhood; and

WHEREAS, in support of this assertion, the applicant surveyed properties within the immediate area surrounding the subject site occupied by single- or two-family residences, finding that 16 lots range from 0.90 FAR to more than 1.0 FAR and that lot coverage in the area for 27 lots ranges from 44 percent to 65 percent; and

WHEREAS, as to the height, the applicant represents that the proposed enlargement complies with all applicable

flood regulations, including but not limited to Appendix G of the Building Code, but that, after being reduced at the Board's request, the height of the proposed building would be consistent with the total height of nearby buildings constructed prior to current flood regulations; and

WHEREAS, the applicant also submitted, among other evidence, a photographic streetscape study illustrating that the proposed enlargement is in context with surrounding properties; and

WHEREAS, based upon its review of the record and its inspections of the site and surrounding area, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood nor impair the future use or development of the surrounding area; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed bulk modifications is outweighed by the advantages to be derived by the community; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, accordingly, the Board has determined that the evidence in record supports the findings required to be made under ZR §§ 73-622 and 73-03.

*Therefore it is Resolved*, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to *permit*, in an R3-1 zoning district, the enlargement of an existing single-family detached residence that does not comply with the zoning requirements for floor area, open space, lot coverage, side yards and perimeter wall height, contrary to ZR §§ 23-141(b), 23-461 and 23-361(b); *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received July 25, 2017"-Fifteen (15) sheets; and *on further condition*:

THAT the maximum floor area of the residence shall be 2,222 square feet (0.982 FAR), a minimum of 1,287 square feet of open space shall be provided, lot coverage shall not exceed 43 percent and side yards shall have depths of at least 2'-3/8" and 3'-0", as illustrated on the Board-approved plans;

THAT removal of existing structure in excess of that shown on the Board-approved plans shall void the special permit;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure

# MINUTES

compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 8, 2017.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated December 22, 2016, acting on New Building Application No. 421094283, reads in pertinent part:

“1-Reduction of parking spaces from 53 to 33, this does not meet the minimum parking spaces as pursuant to ZR 36-21. Refer to BSA for approval pursuant to ZR 73-44”; and

WHEREAS, this is an application under ZR §§ 73-44 and 73-03 to permit, on a site located in an R6 (C2-2) zoning district, a reduction in the required number of accessory parking spaces for a Use Group (“UG”) 4 ambulatory diagnostic or treatment facility, contrary to ZR § 36-21; and

WHEREAS, a public hearing was held on this application on August 8, 2017, after due notice by publication in *The City Record*, and then to decision on the same day; and

WHEREAS, Vice-Chair Chanda performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 14, Queens, recommends disapproval of this application citing general concerns about parking availability in the area and the possibility of increased parking demand created by patients visiting the proposed ambulatory diagnostic or treatment facility; and

WHEREAS, Council Member Donovan Richards submitted testimony in support of this application; and

WHEREAS, the subject site is located on the southeast corner of Beach Channel Drive and Far Rockaway Boulevard, in an R6 (C2-2) zoning district, in Queens; and

WHEREAS, the site has approximately 21 feet of frontage along Far Rockaway Boulevard, 202 feet of frontage along Beach Channel Drive, 121 feet of frontage along Beach 34th Street, 36,355 square feet of lot area and is vacant; and

WHEREAS, the applicant proposes to construct a seven-story mixed-use community-facility and residential building with 144,973 square feet of floor area, 10,911 square feet of which will be used as a UG 4 ambulatory diagnostic or treatment facility on the first floor; and

WHEREAS, the applicant represents that, pursuant to ZR §§ 36-21 and 25-252, 51 total parking spaces are required, calculated at a rate of one space per 300 square feet of floor area for the UG 4 ambulatory diagnostic or treatment facility and at a rate of ten percent of dwelling units; however, the applicant seeks to provide 33 parking spaces, 18 fewer spaces than required; and

WHEREAS, ZR § 73-44 provides:

In the districts indicated, the Board of Standards and Appeals may permit a reduction in the number of *accessory* off-street parking spaces required by the provisions of Section 36-21 or 44-21 (General Provisions) for ambulatory diagnostic or treatment facilities listed in Use Group 4 and *uses* in parking requirement category B1 in Use

Group 6, 7, 8, 9, 10, 11, 14 or 16 to the applicable number of spaces specified in the table set forth at the end of this Section, provided that the Board finds that occupancy by ambulatory diagnostic or treatment facilities listed in Use Group 4 or *uses* in parking category B1 is contemplated in good faith on the basis of evidence submitted by the applicant. In such a case the Board shall require that the certificate of occupancy issued for the *building* within which such *use* is located shall state that no certificate of occupancy shall thereafter be issued if the *use* is changed to a *use* listed in parking category B unless additional *accessory* off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius.

REDUCED ACCESSORY OFF-STREET  
PARKING SPACES REQUIRED FOR  
AMBULATORY DIAGNOSTIC  
OR TREATMENT FACILITIES LISTED IN  
USE GROUP 4 AND  
COMMERCIAL USES IN PARKING  
REQUIREMENT CATEGORY B1

Parking Spaces Required

Per Number of Square

Feet on <i>Floor Area</i> *	Districts
1 per 400	C1-1 C2-1 C3 C4-1
1 per 600	C1-2 C2-2 C4-2 C8-1 M1-1 M1-2 M1-3 M2-1 M2-2 M3-1
1 per 800	C1-3 C2-3 C4-3 C7 C8-2

\* For ambulatory diagnostic or treatment facilities listed in Use Group 4, parking spaces required for number of square feet of *floor area* or *cellar* space, except *cellar* space used for storage; and

WHEREAS, pursuant to ZR § 73-44, the Board may reduce the required parking for a UG 4 ambulatory diagnostic or treatment facility at the subject site from one space per 300 square feet of floor area to one space per 600 square feet of floor area provided that the Board finds that such occupancy is contemplated in good faith; and

WHEREAS, the applicant submitted an affidavit stating that the building will be occupied by a UG 4 ambulatory diagnostic or treatment facility; and

WHEREAS, the applicant further states that any certificate of occupancy for the building will state that no subsequent certificate of occupancy may be issued if the UG 4 ambulatory diagnostic or treatment facility is changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius; and

WHEREAS, the Board finds the affidavit credible and that the applicant has submitted sufficient evidence of good faith in maintaining the proposed ambulatory diagnostic or treatment facility use at the site; and

WHEREAS, the Board notes that its determination is

---

# MINUTES

---

also subject to and guided by, among other things, ZR §§ 73-01 through 73-04, inclusive; and

WHEREAS, in response to the concerns of Community Board 14, Queens, and as the Board customarily does, the Board directed the applicant to demonstrate that the application satisfies ZR § 73-03(a), specifically, to provide information as to how the proposed reduction in required accessory off-street parking spaces will impact the surrounding community; and

WHEREAS, in response, the applicant submitted a parking study demonstrating that the maximum demand for parking generated by the proposed UG 4 use at the site will be 28 spaces during the peak hours of demand, weekdays and Saturdays before 7:00 a.m. and weekdays from 8:00 a.m. to 9:00 a.m., and that such demand can be accommodated by the proposed 33 on-site parking spaces and available during peak demand; and

WHEREAS, the parking study also presents an on-street parking survey concluding that, during the periods of peak demand, there are 42 parking spaces available within a one-quarter mile radius—a walking distance of approximately five minutes—for a utilization rate of 49 percent within the parking study area; and

WHEREAS, the evidence in the record discredits the general assertions of Community Board 14, Queens, and the Board does not find that there is limited parking in the area during periods of peak demand for the proposed Use Group 4 ambulatory diagnostic or treatment facility; and

WHEREAS, accordingly, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of parking regulations is outweighed by the advantages to be derived by the community; and

WHEREAS, the applicant represents that the parking modification will not interfere with any public improvement project; and

WHEREAS, based upon its review of the record, the Board concludes that the findings required under ZR §§ 73-44 and 73-03 have been met; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 17BSA064Q, dated January 12, 2017; and

WHEREAS[KS2], the Department of Housing Preservation and Development (“HPD”) has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 15HPD067Q, dated June 18, 2015; and

WHEREAS, these EAS documents that the proposed mixed-use residential and community-facility building at the site would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources;

Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and[KS3]

WHEREAS, the HPD EAS dated June 18, 2015, specifically examined the proposed action for potential impacts on natural resources, hazardous materials and noise and determined that there would not be any impacts based on specific conditions being complied with; and

WHEREAS, the applicant has agreed to the following conditions with HPD regarding natural resource measures associated with development within the floodplain, remedial measures associated with identified with contamination from historic uses and window-wall attenuation measures associated with ambient noise:

1. As a condition of federal financial assistance, the proposed project shall be covered by flood insurance;
2. Construction shall be completed in accordance with the Remedial Action Work Plan approved by the New York State Department of Environmental Conservation by letter dated June 5, 2015, and with the June 2015 Declaration Statement–Decision Document appended to the EAS; and
3. The project sponsor shall provide at least 28 dBA of window-wall attenuation on all facades of the proposed building with an alternate means of ventilation provided in order to ensure a maximum interior noise environment of 45 dBA under closed-window conditions; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, HPD issued a Negative Declaration June 19, 2015, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617; and

WHEREAS, the Board concurs with HPD that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved*, that the Board of Standards and Appeals *issues* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, [KS4]and makes each and every one of the required findings under ZR §§ 73-44 and 73-03 to *permit*, on a site located in an R6 (C2-2) zoning district, a reduction in the required number of accessory parking spaces for a Use Group 4 ambulatory diagnostic or treatment facility, contrary to ZR § 36-21; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received June 30, 2017” – Fifteen (15) sheets; and *on further condition*:

---

# MINUTES

---

THAT the certificate of occupancy issued for the building within which the Use Group 4 ambulatory diagnostic or treatment facility is located shall state that no certificate shall thereafter be issued if the Use Group 4 ambulatory diagnostic or treatment facility or Use Group 6 offices are changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius;

THAT the above condition shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by August 8, 2021;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable pro-visions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

#### THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated May 1, 2015, acting on Department of Buildings (“DOB”) Application No. 421039325 reads in pertinent part:

Proposed a New Building House of Worships, of which the building is located in R2X District of Maximum permitted FAR is 0.5 and proposed... is contrary to ZR 24-111(a); and

WHEREAS, the decision dated January 12, 2016, acting on the same application number reads in pertinent part:

Proposed lot coverage . . . contrary to ZR 24-11;

Proposed front yards are contrary to ZR 24-34;

Proposed side yards are contrary to ZR 24-35(a);

Proposed rear yards/rear yard equivalent are contrary to ZR 24-382(b);

Proposed wall height/sky exposure contrary to ZR 24-521;

Proposed parking contrary to ZR 25-31; and

WHEREAS, this is an application under ZR § 72-21 to permit, on a site located in an R2X zoning district, the construction of a Use Group 4 house of worship that does not comply with the applicable floor area, lot coverage, front yard, side yard, rear yard, wall height, sky exposure plane and parking regulations of ZR §§ 24-11, 24-111(a), 24-34, 24-35(a), 24-382(b), 24-521 and 25-31; and

WHEREAS, this application is filed on behalf of K’hal Nesiv Hatorah (the “Congregation”), a non-profit religious organization; and

WHEREAS, a public hearing was held on this application on July 12, 2016, after due notice by publication in *The City Record*, with continued hearings on September 13, 2016, December 6, 2016, December 13, 2016, and then

to decision on January 24, 2017; and

WHEREAS, Vice-Chair Hinkson, Commissioner Ottley-Brown, Commissioner Montanez and Commissioner Chanda performed inspections of the subject site and surrounding neighborhood; and

WHEREAS, Community Board 14, Queens, recommends approval of this application; and

WHEREAS, Donovan Richards, Council Member for the 31st District, Queens, submitted a letter in support of this application; and

WHEREAS, the Board received and reviewed additional letters in support of the application and an objection on the basis that the proposed development will cause more car and pedestrian traffic in the surrounding area; and

WHEREAS, the subject site is located on the north side of Hicksville Road, between Beach 9 Street and Elvira Avenue, in an R2X zoning district, in Queens; and

WHEREAS, the site has approximately 85 feet of frontage along Hicksville Road, 74 feet of frontage along Frisco Avenue, 11,368 square feet of lot area and is currently vacant; and

WHEREAS, the applicant represents that the site was historically developed with a one-family residence, but such residence was demolished, along with its foundation, because it was insufficient to serve the needs of the Congregation; and

WHEREAS, the Congregation proposes to construct a two-story, plus cellar, Use Group 4 synagogue on the site with 10,697 square feet of floor area, a floor area ratio (“FAR”) of 0.94, 59 percent lot coverage, a 7’-1” front yard, side yards measuring 7’-0” and 3’-5”, rear yards measuring 26’-9” and 7’-2” and a base wall height of 25’-8” that breaches the sky exposure plane, and provide two parking spaces; and

WHEREAS, the cellar level of the proposed synagogue will consist of a social hall with a capacity of 235 persons, intended for religious celebratory use only, a prep kitchen with both refrigerated and dry storage, bathroom facilities and storage space; the first floor will contain the main prayer area with a capacity for 180 congregants, additional bathroom facilities, a study area and rabbi’s office; and the second floor will include a women’s prayer area with a capacity of 179 congregants open to the main prayer area below, an administrative office, a playroom and women’s bathroom facilities; and

WHEREAS, the applicant states that the social hall will not be utilized for any commercial catering and agreed to such limitation on its use being made a condition of this approval; and

WHEREAS, at the subject site, the maximum FAR permitted is 0.5 (5,684 square feet of floor area) pursuant to ZR § 24-111(a); the maximum lot coverage permitted is 55 percent pursuant to ZR § 24-11; two front yards of at least 15 feet are required pursuant to ZR § 24-34; two side yards measuring at least 8 feet are required pursuant to ZR § 24-35(a); a rear yard equivalent of either an open area with a minimum depth of 60 feet midway between the two street

---

# MINUTES

---

lines, two open areas with a minimum depth of 30 feet along the full length of a street line or an open area along the full length of each side lot line with a minimum width of 30 feet is required pursuant to ZR § 24-382(b); and 24 parking spaces are required pursuant to ZR § 25-31; and

WHEREAS, because the proposed synagogue does not comply with the applicable bulk regulations for the use in the subject zoning district, the applicant seeks the requested variance; and

WHEREAS, the Congregation states that the waivers sought are essential to its ability to meet its programmatic needs, including accommodating its current membership of 116 households, 114 of which live within a three-quarter mile radius of the subject site; and

WHEREAS, the Congregation currently rents space from a girls school for religious services on weekends and Jewish holidays, when the school is not in session, and rents from neighboring facilities for its daily classes and lecture offerings; and

WHEREAS, the applicant asserts that its programming, and the growth of its membership have been inhibited by the spatial constraints of the facilities it rents; and

WHEREAS, the applicant contends that the subject proposal will provide seating adequate to accommodate its existing congregation as well as allow for modest future growth, space necessary to hold various classes and lectures simultaneously, play space for children during religious services, a library (kollel) with additional space for smaller lectures, necessary administrative offices, including an office for the Rabbi, and a social hall to be used by the Congregation on special occasions; and

WHEREAS, the Congregation represents that the irregular shape of the lot creates practical difficulties or unnecessary hardship in strictly complying with the bulk provisions of the Zoning Resolution; and

WHEREAS, specifically, the applicant states that the irregular shape of the western lot line—which runs from the northern lot line in a slightly westerly direction for approximately 63 feet before running in a slightly easterly direction for approximately 76 feet to the southern lot line, resulting in frontage along Frisco Avenue that is 11 feet narrower than the frontage along Hicksville Road—prevents the construction of a symmetrical building with sufficient space to meet the Congregation's programmatic needs; and

WHEREAS, a synagogue constructed at the premises as-of-right would provide sanctuary space on the first floor to accommodate 131 congregants, a sanctuary space on the second floor for a maximum of 82 congregants and provide a social hall with a capacity of 162 persons, which the applicant states is insufficient for the growing congregation; and

WHEREAS, the Board acknowledges that the Congregation, a religious institution, is entitled to deference under the law of the State of New York as to zoning and its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, specifically, as held in *Cornell University*

*v. Bagnardi*, 68 NY2d 583 (1986), an educational or religious institution's application is to be granted unless it can be shown to have an adverse effect on the health, safety or welfare of the community and general concerns about traffic and disruption of the residential character of a neighborhood are insufficient grounds for the denial of such application; and

WHEREAS, based on the above, the Board finds that the programmatic needs of the Congregation create unnecessary hardship and practical difficulty in developing the premises in compliance with the applicable zoning regulations; and

WHEREAS, because the Congregation is a non-profit organization and the variance is needed to further its non-profit mission, the finding set forth in ZR § 72-21(b) does not have to be made in order to grant the variance requested in this application; and

WHEREAS, the Congregation represents that, pursuant to ZR § 72-21(c), the variance, if granted, will not alter the character of the neighborhood, impair the appropriate use or development of adjacent property, or be detrimental to the public welfare; and

WHEREAS, the applicant first notes that the proposed use is permitted as-of-right in the subject zoning district and that substantial efforts have been made to design the proposed building to appear consistent with surrounding residential and community facility buildings; and

WHEREAS, the Congregation initially proposed a building with a base wall height of 27'-2", including the location of the first floor 3 feet above the flood plain elevation, and total proposed height of 38'-7"; and

WHEREAS, the applicant explained that the building was proposed to be lifted from grade in order to both emphasize the special function of the proposed synagogue as a religious institution and help prevent flooding at the first floor; and

WHEREAS, while the subject site is not located in a flood zone, the applicant represents that it is located across the street from a flood zone and, thus, prone to being flooded; and

WHEREAS, nevertheless, in response to Board concerns that the originally proposed building was too tall and the overall design of the roof appeared too massive, particularly as perceived from Frisco Avenue, the applicant reduced the height of the first floor from 3'-0" to 1'-6" above grade, reduced the height of the proposed parapet along Frisco Avenue by 2'-0" to match the heights of adjacent residences and revised the roof design from a solid mansard to one with dormers along the sides fronting Hicksville Road and Frisco Avenue, intended to block the rooftop bulkheads from view; and

WHEREAS, additionally at the Board's request, the applicant modified the plans to provide wrought iron fencing along the entire length of both side yards, gates at the side yards to prevent the utilization of the side yards for congregating or play and trees along the side lot lines to buffer the proposed use from surrounding residences; and

WHEREAS, with regards to parking, the applicant

---

# MINUTES

---

states that the requested reduction in parking spaces to 2 is reasonable for the subject use because congregants are prohibited from driving on religious days and holidays, thus the greatest need for parking will be weekday mornings and evenings, where lesser numbers of congregants will travel to the synagogue for assorted classes, lectures and small study groups; and the applicant states that, even at those times, approximately half of congregants will walk to the site because they live within a three-quarter mile radius of the premises; and

WHEREAS, based on the anticipated programming schedule at the building, the applicant concluded that 33 parking spaces would be required during peak weekday hours and prepared parking studies of the surrounding area during both morning and evening hours demonstrating that sufficient on-street parking spaces were, indeed, available; and

WHEREAS, in response to the Board's concerns regarding the use of on-street parking by other community facilities located in the immediate area, the applicant further agreed to arrange for access to 17 parking spaces accessory to a school located across the street from the subject site on Beach 9th Street on weekdays between 5:30 a.m. and 8:30 a.m. and provided a letter confirming such access from that school's administrator; and

WHEREAS, the applicant additionally notes that the provision of 2 parking spaces is greater than the number of parking spaces that would be required if the Congregation applied to the City Planning Commission for the parking waiver available for locally oriented houses of worship pursuant to ZR § 25-35, which the Congregation asserts it would qualify for and, under which, few enough parking spaces would be required such that all required parking could be waived pursuant to ZR § 25-33; and

WHEREAS, the Board, thus, finds that the proposal will not alter the essential character of the surrounding neighborhood, nor impair the use or development of adjacent properties, and not be detrimental to the public welfare; and

WHEREAS, the Congregation states that, per ZR § 72-21(d), the hardship was not self-created; and

WHEREAS, the Board finds that the hardship herein was not created by the Congregation; and

WHEREAS, the Congregation represents that, consistent with ZR § 72-21(e), the proposal represents the minimum variance needed to accommodate its programmatic needs; and

WHEREAS, the Board finds that this proposal is the minimum necessary to allow the synagogue to fulfill its programmatic needs; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board conducted an environmental review of the proposed action and documented relevant information about the project in the Environmental

Assessment Statement (EAS) Short Form CEQR No. 15BSA203Q, dated November 18, 2016; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historical and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; and Construction; and

WHEREAS, by correspondence dated December 6, 2016, the New York City Landmarks Preservation Commission confirms that the subject site is of no architectural or archaeological significance; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

*Therefore it is Resolved*, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21, and grants a variance to permit, on a site located in an R2X zoning district, the construction of a Use Group 4 house of worship that does not comply with the applicable FAR, lot coverage, front yard, side yard, rear yard, wall height, sky exposure plane and parking regulations of ZR §§ 24-11, 24-111(a), 24-34, 24-35(a), 24-382(b), 24-521 and 25-31, on condition that all work will substantially conform to drawings filed with this application marked "Received January 24, 2017"-Twelve (12) sheets; and on further condition:

THAT the following shall be the bulk parameters of the building: a maximum FAR of 0.94 (10,697 square feet of floor area), a maximum of 59 percent lot coverage, a minimum 7'-1" front yard, side yards measuring at least 7'-0" and 3'-5", rear yards measuring a minimum of 26'-9" and 7'-2", a maximum base wall height of 25'-8" that breaches the sky exposure plane, and the provision of at least two parking spaces, as indicated on the BSA-approved plans;

THAT the gates to the side yards shall remain locked at all times and provide access for maintenance only;

THAT landscaping and fencing shall be provided as indicated on the Board-approved plans and maintained, repaired and replaced as needed;

THAT no occupancy of the roof is permitted;

THAT no portion of the building, including but not limited to the cellar level social hall, may be utilized for commercial catering;

THAT the above conditions shall be listed on the Certificate of Occupancy;

---

# MINUTES

---

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a Certificate of Occupancy shall be obtained within four (4) years, by January 24, 2021;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portion related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 24, 2017.

#### CEQR #17-BSA-129K

APPLICANT – NYC Mayor’s Office of Housing Recovery Operations (“HRO”)

SUBJECT – Application May 19, 2017 – Special Permit (§64-92) to waive bulk regulations for the replacement of homes damaged/destroyed by Hurricane Sandy, on properties which are registered in the NYC Build it Back Program. R3-1 zoning district.

PREMISES AFFECTED – 29 Stanton Road. Block 8800, Lot 59. Borough of Brooklyn.

#### COMMUNITY BOARD # 15BK

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Montanez. . . . .4

Negative: . . . . .0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92 to permit, on a site within an R4-1 zoning district, the elevation of a single-family detached home in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards, side yards rear yards, open space and lot coverage, contrary to ZR §§ 23-45, 23-461(a), 23-47, 23-142, 64-A351, 64-A352, 64-A353 and 64-A311; and

WHEREAS, a public hearing was held on this application on May 25, 2017, and then to decision on the same date; and

WHEREAS, this application is brought on behalf of the property owner by the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in furtherance of the City’s effort to rebuilt homes impacted by Superstorm Sandy expeditiously and effectively, the Board, pursuant to 2 RCNY § 1-14.2, waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1-05.1 (Objection Issued by the Department of Buildings); (2) 2 RCNY § 1-05.3 (Filing Period); (3) 2 RCNY § 1-05.4 (Application Referral); (4) 2 RCNY § 1-05.6 (Hearing Notice); (5) 2 RCNY § 1-05.7 (List of Affected Property Owners); (6) 2 RCNY § 1-09.4 (Owner’s Authorization); and (7) 2 RCNY § 1-10.7 (Proof of Service for Application Referral and Hearing Notice); and

WHEREAS, the Board notes that the subject application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the east side of Stanton Road, between Gunnison Court and Losee

---

# MINUTES

---

Terrace, in an R4-1 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 24 feet of frontage along Stanton Road, 1,320 square feet of lot area and is occupied by a one-story single-family detached home, which is 1'-3" from the northern lot line, 13'-5" from the western lot line, 0'-7" from the eastern lot line, 2'-1" from the southern lot line and is non-compliant with the applicable yard regulations; and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 22, 2016, when, under BSA Cal. No. 2016-402-A, the Board granted a waiver of General City Law ("GCL") § 36 permitting the elevation or reconstruction of a one-family dwelling that does not front on a mapped street; and

WHEREAS, the waiver was conditioned, *inter alia*, upon the elevated dwelling having a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code; unless the Fire Department has notified the Department of Buildings ("DOB") that it is exempt; the dwelling being provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code; the underside of the exterior of the dwelling where the foundation is not closed having a floor assembly that provides a 2-hour fire resistance rating; and the height from grade plane to the highest window-sill leading to a habitable space not exceeding 32 feet; and

WHEREAS, the applicant now seeks a special permit, pursuant to ZR § 64-92, to allow the elevation of the existing residence in the same footprint, resulting in a two-story single-family detached dwelling with the same lot line setbacks; and

WHEREAS, at the subject site, the minimum lot area required for a single-family detached residence is 2,375 square feet and the minimum lot width required is 25 feet, pursuant to ZR § 25-32; and

WHEREAS, yard requirements for the subject site are set forth as follows: minimum front yard depth requirements are set forth in ZR §§ 23-45 and 64-A351; side yard requirements are set forth in ZR § 23-461(a), and 64-A352; and rear yard requirements are set forth in ZR § 23-47 and 64-A353; and

WHEREAS, open area and lot coverage requirements for the subject site are set forth in ZR §§ 23-142 and 64-A311; and

WHEREAS, the requirement of an open area of at least 8 feet between residences on adjacent zoning lots set forth in ZR § 23-461(c) is waived at the site pursuant to ZR § 64-A352(c); and

WHEREAS, the subject site does not front a "street," as defined in ZR § 12-10, and is accessed, instead, by a private path having an average width of 4 feet, allowing from ingress and egress to the surrounding public streets; and

WHEREAS, consequently the subject site lacks a "front lot line," a "front yard," a "rear lot line," a "rear yard" and "side yards," as those terms are defined in the same section and, therefore, proposes open areas, in lieu of yards,

along its lot lines and seeks waivers of the applicable yard regulations; and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments* and *enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Section 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable bulk regulations of the Zoning Resolution, except floor area ratio regulations, provided the following findings are made:

- (a) that there would be a practical difficulty in complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;
- (b) that any modifications of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, in accordance with ZR § 64-92(a), the need to elevate the existing residence, which, as it exists, is non-compliant with yard regulations, creates practical difficulties in complying with flood-resistant construction standards without the modification of the yard requirements and that waivers of the same is the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the finding pursuant to ZR § 64-92(b) is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the dwelling is located, nor impair the future use or development of the surrounding area

---

# MINUTES

---

in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the surrounding neighborhood is a mixed density waterfront community that the majority of homes within a 200 foot radius of the subject site are one- and two- story detached bungalows, a significant number of which are also participating in the Build it Back program by being elevated or reconstructed; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed alteration and elevation satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17BSA129K, dated May 19, 2017; and

*Therefore, it is Resolved*, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure and issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92 to permit, on a site within an R4-1 zoning district, the elevation of a single-family detached dwelling in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards, side yards rear yards, open space and lot coverage, contrary to ZR §§ 23-45, 23-461(a), 23-47, 23-142, 64-A351, 64-A352, 64-A353 and 64-A311; *on condition* that all work shall substantially conform to the drawings filed with this application and marked "Received May 19, 2017"- Five (5) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: setback at least 1'-3" from the northern lot line, setback at least 13'-5" from the western lot line, setback at least 0'-7" from the eastern lot line and setback at least 2'-1" from the southern lot line, as illustrated on the BSA-approved plans;

THAT the building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code; unless the Fire Department has notified the Department of Buildings ("DOB") that it is exempt;

THAT the dwelling shall be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code;

THAT the underside of the exterior of the dwelling where the foundation is not closed shall have a floor assembly that provides a 2-hour fire resistance rating;

THAT the height from grade plane to the highest window-sill leading to a habitable space may not exceed 32 feet;

THAT this approval shall be limited to the Build it Back program;

THAT all DOB and related agency application(s) filed in connection with the authorize use and/or bulk shall be signed off by DOB and all other relevant agencies by May 25, 2021;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 25, 2017.

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92 to permit, on a site within an R4-1 zoning district, the elevation of a single-family detached home in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards, side yards rear yards, open space and lot coverage, contrary to ZR §§ 23-45, 23-461(a), 23-47, 23-142, 64-A351, 64-A352, 64-A353 and 64-A311; and

WHEREAS, a public hearing was held on this application on May 25, 2017, and then to decision on the same date; and

WHEREAS, this application is brought on behalf of the property owner by the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in furtherance of the City’s effort to rebuilt homes impacted by Superstorm Sandy expeditiously and effectively, the Board, pursuant to 2 RCNY § 1-14.2, waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1-05.1 (Objection Issued by the Department of Buildings); (2) 2 RCNY § 1-05.3 (Filing Period); (3) 2 RCNY § 1-05.4 (Application Referral); (4) 2 RCNY § 1-05.6 (Hearing Notice); (5) 2 RCNY § 1-05.7 (List of Affected Property Owners); (6) 2 RCNY § 1-09.4 (Owner’s Authorization); and (7) 2 RCNY § 1-10.7 (Proof of Service for Application Referral and Hearing Notice); and

WHEREAS, the Board notes that the subject application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the east side

of Stanton Road, between Gunnison Court and Losee Terrace, in an R4-1 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 24 feet of frontage along Stanton Road, 1,320 square feet of lot area and is occupied by a one-story single-family detached home, which is 2’-7” from the northern lot line, 13’-11” from the western lot line, 7 feet from the eastern lot line, 1 foot from the southern lot line and is non-compliant with the applicable yard regulations; and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 22, 2016, when, under BSA Cal. No. 2016-467-A, the Board granted a waiver of General City Law (“GCL”) § 36 permitting the elevation or reconstruction of a one-family dwelling that does not front on a mapped street; and

WHEREAS, the waiver was conditioned, *inter alia*, upon the elevated dwelling having a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code; unless the Fire Department has notified the Department of Buildings (“DOB”) that it is exempt; the dwelling being provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code; the underside of the exterior of the dwelling where the foundation is not closed having a floor assembly that provides a 2-hour fire resistance rating; and the height from grade plane to the highest window-sill leading to a habitable space not exceeding 32 feet; and

WHEREAS, the applicant now seeks a special permit, pursuant to ZR § 64-92, to allow the elevation of the existing residence in the same footprint, resulting in a two-story single-family detached dwelling with the same lot line setbacks; and

WHEREAS, at the subject site, the minimum lot area required for a single-family detached residence is 2,375 square feet and the minimum lot width required is 25 feet, pursuant to ZR § 25-32; and

WHEREAS, yard requirements for the subject site are set forth as follows: minimum front yard depth requirements are set forth in ZR §§ 23-45 and 64-A351; side yard requirements are set forth in ZR § 23-461(a), and 64-A352; and rear yard requirements are set forth in ZR § 23-47 and 64-A353; and

WHEREAS, open area and lot coverage requirements for the subject site are set forth in ZR §§ 23-142 and 64-A311; and

WHEREAS, the requirement of an open area of at least 8 feet between residences on adjacent zoning lots set forth in ZR § 23-461(c) is waived at the site pursuant to ZR § 64-A352(c); and

WHEREAS, the subject site does not front a “street,” as defined in ZR § 12-10, and is accessed, instead, by a private path having an average width of 4 feet, allowing from ingress and egress to the surrounding public streets; and

WHEREAS, consequently the subject site lacks a “front lot line,” a “front yard,” a “rear lot line,” a “rear yard” and “side yards,” as those terms are defined in the same

---

# MINUTES

---

section and, therefore, proposes open areas, in lieu of yards, along its lot lines and seeks waivers of the applicable yard regulations; and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments* and *enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Section 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except floor area ratio regulations, provided the following findings are made:

- (a) that there would be a practical difficulty in complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;
- (b) that any modifications of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, in accordance with ZR § 64-92(a), the need to elevate the existing residence, which, as it exists, is non-compliant with yard regulations, creates practical difficulties in complying with flood-resistant construction standards without the modification of the yard requirements and that waivers of the same is the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the finding pursuant to ZR § 64-92(b) is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the dwelling is located, nor

impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the surrounding neighborhood is a mixed density waterfront community that the majority of homes within a 200 foot radius of the subject site are one- and two- story detached bungalows, a significant number of which are also participating in the Build it Back program by being elevated or reconstructed; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed alteration and elevation satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17BSA129K, dated May 19, 2017; and

*Therefore, it is Resolved*, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure and issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92 to permit, on a site within an R4-1 zoning district, the elevation of a single-family detached dwelling in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards, side yards rear yards, open space and lot coverage, contrary to ZR §§ 23-45, 23-461(a), 23-47, 23-142, 64-A351, 64-A352, 64-A353 and 64-A311; *on condition* that all work shall substantially conform to the drawings filed with this application and marked "Received May 19, 2017"- Six (6) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: setback at least 2'-7" from the northern lot line, setback at least 13'-11" from the western lot line, setback at least 7 feet from the eastern lot line and setback at least 1 foot from the southern lot line, as illustrated on the BSA-approved plans;

THAT the building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code; unless the Fire Department has notified the Department of Buildings ("DOB") that it is exempt;

THAT the dwelling shall be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code;

THAT the underside of the exterior of the dwelling where the foundation is not closed shall have a floor assembly that provides a 2-hour fire resistance rating;

THAT the height from grade plane to the highest window-sill leading to a habitable space may not exceed 32 feet;

THAT this approval shall be limited to the Build it

# MINUTES

Back program;

THAT all DOB and related agency application(s) filed in connection with the authorize use and/or bulk shall be signed off by DOB and all other relevant agencies by May 25, 2021;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 25, 2017.

## REGULAR MEETING TUESDAY MORNING, AUGUST 15, 2017 10:00 A.M.

Present: Chair Perlmutter, Vice-Chair Chanda, and Commissioner Ottley-Brown.

### SPECIAL ORDER CALENDAR

#### 174-94-BZ

APPLICANT – Gerald J. Caliendo, RA, AIA, for David Rosero, owner.

SUBJECT – Application May 30, 2014 – Extension of the term of the variance, permitting an automotive sales establishment, which expired on May 6, 2012: Waiver of the Rules. R6 zoning district.

PREMISES AFFECTED – 99-07 Roosevelt Avenue, Block 1765, Lot 44, Borough of Queens.

#### COMMUNITY BOARD #3Q

**ACTION OF THE BOARD** – Application granted on condition.

#### THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

#### THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and an extension of term of a variance, previously granted by the Board, which expired on May 6, 2012; and

WHEREAS, a public hearing was held on this application on September 27, 2016, after due notice by publication in *The City Record*, with a continued hearing on June 6, 2017, and then to decision on August 15, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown, former Commissioner Montanez and former Vice-Chair Hinkson performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 3, Queens, recommends approval of this application on condition that the maximum number of cars to be stored shall not exceed the approved plans of 11 cars, that the sidewalks bordering the site shall not at any time be used for parking, sale or display of vehicles and that fencing shall be kept in good repair and appearance; and

WHEREAS, the subject site is located on the northwest corner of Roosevelt Avenue and 99th Street, in an R6B (C1-4) zoning district, in Queens; and

WHEREAS, the site has approximately 96 feet of frontage along Roosevelt Avenue, 15 feet of frontage along 99th Street, 93 feet of frontage along 39th Avenue, 2,433 square feet of lot area and is occupied by an office trailer and advertising sign; and

WHEREAS, the Board has exercised jurisdiction over the subject site since May 6, 1997, when, under the subject calendar number, the Board granted a variance to permit an automobile retail sales establishment in Use Group 16 on

condition that the variance be limited to a term of five (5) years, expiring May 6, 2002, that screening be provided in accordance with ZR § 36-56, that fencing be provided and maintained in accordance with the Board-approved plans and ingress and egress at the site be limited to a single gate at a location adjacent to the existing curb-cut on Roosevelt Avenue, that signage be limited in accordance with the Board-approved plans, that the above conditions appear on the certificate of occupancy and that a certificate of occupancy be obtained within one (1) year, by May 6, 1998; and

WHEREAS, on January 7, 2003, under the subject calendar number, the Board granted an extension of term of ten (10) years, expiring May 6, 2012; and

WHEREAS, the term of the variance having expired, the applicant now seeks an extension of term for an additional ten (10) years; and

WHEREAS, in addition, the applicant requests a waiver of the Board’s Rules of Practice and Procedure to permit the filing of this application; and

WHEREAS, at hearing, the Board questioned maintenance of the subject site, the lawfulness of signage, the presence of barbed wire, the state of the sidewalk and the provision of fencing, landscaping and screening; and

WHEREAS, in response, the applicant provided additional information about signage and submits that the fence has been repaired with barbed wire removed, that new landscaping has been planted, that restrooms will be accessible for employees at a nearby off-site location, that the sidewalk has been repaired; and

WHEREAS, the Board notes that no determination has been made herein with regard to the lawfulness of advertising signs at the subject site, which signage should be reviewed by the Department of Buildings to ensure compliance with applicable laws and regulations; and

WHEREAS, accordingly, based upon its review of the record, the Board finds that the requested waiver and extension of term are appropriate with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated May 6, 1997, as amended through January 7, 2003, so that as amended this portion of the resolution shall read: “to *wave* the Board’s Rules of Practice and Procedure and *grant* an extension of term of the variance for ten (10) years, expiring May 6, 2022; *on condition* that all work and site conditions shall comply with the drawings filed with this application marked ‘Received July 26, 2017’- Three (3) sheets; and *on further condition*:

THAT sanitary facilities shall be provided off-site for employees, which facilities shall be in close proximity to the site and shall be accessible at all times while the business is operating;

THAT fencing, paving and landscaping shall be maintained and be repaired or replaced as necessary;

THAT no storage of automobile parts shall be permitted on the site;

THAT the maximum number of automobiles permitted

---

# MINUTES

---

to be offered for sale on the site shall be 11;

THAT that above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by August 15, 2021;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, August 15, 2017.

## 201-97-BZ

APPLICANT – Eric Palatnik, P.C., for Monroe Queens-Rockaway, LLC, owner.

SUBJECT – Application August 6, 2015 – Amendment of a previously approved Variance (§72-21) which permitted the erection and use of a one-story building as a non-conforming Use Group 6 drug store with accessory parking. The Amendment seeks to eliminate the term of the variance since the use is now permitted in the district. C2-3/R3-2 zoning district.

PREMISES AFFECTED – 119-02 Rockaway Boulevard, corner of Rockaway Boulevard and Lefferts Boulevard, Block 11712, Lot 28, Borough of Queens.

### COMMUNITY BOARD #10Q

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated July 30, 2015, acting on Alteration Application No. 421181250, reads in pertinent part:

“The instant application is contrary to BSA Calendar Number 201-97-BZ as December 2, 2013 rezoning creates non compliances with respect to:” “ZR 33-291 – Minimum side yard,” “ZR 37-921 – Street Trees,” “ZR 36-21 – Parking” and “ZR 36-62 – Loading”; and

WHEREAS, this is an application to amend a previously granted variance, which is set to expire on June 23, 2023, to eliminate the term of the variance; and

WHEREAS, a public hearing was held on this application on March 22, 2016, after due notice by

publication in *The City Record*, with continued hearings on November 1, 2016, and May 23, 2017, and then to decision on August 15, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown, former Vice-Chair Hinkson and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 10, Queens, recommends approval of this application on condition that more street trees be planted, that planting be enhanced with cleaning and restoring of on-site planting and that fencing be repaired; and

WHEREAS, the subject site is located on the southeast corner of Rockaway Boulevard and Lefferts Boulevard, in an R3-2 (C2-3) zoning district, in Queens; and

WHEREAS, the site has approximately 100 feet of frontage along Rockaway Boulevard, 219 feet of frontage along Lefferts Boulevard, 22,036 square feet of lot area and is occupied by one-story commercial building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since June 23, 1998, when, under the subject calendar number, the Board granted a variance to permit the construction and use of a one-story building as a non-conforming drug store (Use Group 6) with accessory parking for a term of twenty (20) years, expiring May 27, 2018, on condition that the premises remain free of debris and graffiti at all times, that a sign be posted prohibiting left hand turns to be made from the parking lot onto Rockaway Boulevard, that the applicant prepare and submit a soil or groundwater sampling plan for the project site to the Bureau of Air, Noise and Hazardous Materials of the Department of Environmental Protection (“DEP”) for review and approval, that the applicant also be required to complete any remedial actions that are determined by DEP to be appropriate based on the testing, that no sampling begin until DEP has approved the proposed sampling protocol in writing, that no site grading, excavation, demolition or building construction begin until all DEP-approved sampling and any necessary remediation have been completed, that 21 parking spaces for patron parking be provided at the site and that the above conditions appear on the certificate of occupancy; and

WHEREAS, on October 23, 1998, under the subject calendar number, the Board reopened and amended its resolution to modify the term of the variance from twenty (20) years to twenty-five (25) years, expiring June 23, 2023; and

WHEREAS, the applicant now seeks to eliminate the term of the variance; and

WHEREAS, the applicant represents that a Use Group 6 drug store now constitutes a permitted use under ZR § 32-15 and that commercial, residential and mixed uses predominate in the areas around the subject site; and

WHEREAS, in response to the concerns of Community Board 10 and questions from the Board about site maintenance, fencing, street trees, landscaping, the drug store’s operations, the concrete-block trash enclosure, the applicant provided evidence that the fencing and bumpers had been repaired, that the parking lot had been washed and

# MINUTES

restriped, that dense landscaping had been planted, including additional street trees, that signage prohibiting left-hand turns from the parking lot onto Rockaway Boulevard had been installed and that the trash enclosure had been repaired, washed and painted; and

WHEREAS, based on the foregoing, the Board has determined that the requested amendment to the variance is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution adopted June 23, 1998, amended through October 20, 1998, to eliminate the term of the variance and specifically the June 23, 2023, expiration; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received October 31, 2016"- Seven (7) sheets; and *on further condition*:

THAT landscaping, fencing, paving, striping, signage and exterior materials of the building and the fence enclosure shall be maintained at all times and replaced as necessary to maintain the site in a clean, orderly and aesthetically pleasing condition;

THAT the site shall remain free of debris and graffiti at all times;

THAT a sign shall be posted prohibiting left-hand turns to be made from the parking lot onto Rockaway Boulevard;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by August 15, 2021;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings; and

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 15, 2017.

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated December 15, 2016, acting on Department of Buildings (“DOB”) Application No. ZRD1 46881 reads in pertinent part:

“ZR 33-10, ZR 72-21: Proposed community facility floor area exceeds maximum permitted community facility floor area contrary to Zoning Resolution section 33-10 . . .”; and

WHEREAS, this is an application under ZR § 72-21 to permit, on a site located within a C6-2 zoning district, the enlargement of a 15-story community facility building that does not comply with the zoning regulations for floor area, contrary to ZR § 33-10, specifically ZR § 33-123; and

WHEREAS, this application is filed on behalf of the Fashion Institute of Technology (“FIT”), a college of the State University of New York specializing in design, fashion, art, communications and business education; and

WHEREAS, a public hearing was held on this application on August 15, 2017, after due notice by publication in *The City Record*, and then to decision on that date; and

WHEREAS, Vice-Chair Shanda performed an inspection of the subject site and surrounding neighborhood; and

WHEREAS, Community Board 5, Manhattan, recommends approval of the subject application; and

WHEREAS, the subject site is located on the south side of West 27th Street, between Sixth Avenue and Seventh Avenue, in a C6-2 zoning district, in Manhattan; and

WHEREAS, the site has approximately 133 feet of frontage along West 27th Street, a depth of 99 feet, 13,064 square feet of lot area and is occupied by a 15-story community facility building with 95,653 square feet of floor area and a floor area ratio (“FAR”) of 7.3 utilized as an FIT residence hall (the “Building”); and

WHEREAS, FIT proposes to enlarge the existing building at the rear of the first floor with 1,170 square feet of floor area, resulting in a building with a total of 96,823 square feet of floor area and 7.4 FAR; and

WHEREAS, at the subject site, a maximum of 84,914 square feet of community facility floor area and 6.5 FAR are permitted, pursuant to ZR § 33-123; and

WHEREAS, accordingly, FIT seeks the subject relief; and

WHEREAS, the applicant states that the Building was constructed in 1974 pursuant to then-applicable plaza regulations, which permitted a maximum of 97,288 square feet of floor area at the site on account of the plaza located in front of the Building (the “Plaza”); and

---

# MINUTES

---

WHEREAS, the applicant notes that due to subsequent amendments to the Zoning Resolution, both the Plaza and the Building are legal non-compliances; and

WHEREAS, FIT states that the waiver sought is necessary in order to meet its programmatic needs, specifically, to accommodate the relocation of its existing bookstore from its current location in the cellar of a building located at 340 Eighth Avenue, Manhattan, and the utilization of that cellar space for Studio X, a studio and laboratory space that will replicate technology and equipment currently available only to students within specific majors in an open studio setting accessible by and available to use by all FIT students, regardless of major or course of study; and

WHEREAS, the applicant states that Studio X will provide much-needed additional studio space to foster creative collaboration and house equipment upgrades, resources and technologies as they become available; accordingly, because of the large footprint required to accommodate Studio X, as well as the studio's need for certain infrastructural support including adequate ventilation and cooling systems, the current location of the FIT bookstore was identified as the only suitable site that would not necessitate conversion of several of FIT's currently over-programmed classroom spaces; and

WHEREAS, FIT submits that the bookstore will also benefit from its relocation to the subject building, where it will be directly accessible from the street rather than require that patrons and daily deliveries make their way through another academic building and below grade to the bookstore's current location on Eighth Avenue, where it additionally lacks display windows, a common feature of college bookstores to promote institutional pride and school spirit; and

WHEREAS, the existing unoccupied space to which the proposed enlargement will be appended—approximately 4,595 square feet of floor area—is too small to fully accommodate relocation of the bookstore and requires the additional 1,170 square feet of floor area proposed herein at the first floor in order to accommodate the necessary variety of textbooks as well as the specialty art supplies and fashion products required by FIT's curriculum; and

WHEREAS, FIT represents that the rear yard of the Building, in which the enlargement is proposed, is currently accessible to Building residents and their guests and occasionally utilized for residential life events; the enlargement will be located in only a portion of the rear yard and new landscaping, outdoor furniture and pavement will be provided in the remainder of the space for the continuation of these uses; and

WHEREAS, the Board acknowledges that FIT, as an educational institution, is entitled to deference under the law of the State of New York as to zoning and its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, specifically, as held in *Cornell University v. Bagnardi*, 68 NY2d 583 (1986), an educational or religious institution's application is to be granted unless it

can be shown to have an adverse effect on the health, safety or welfare of the community and general concerns about traffic and disruption of the residential character of the neighborhood are insufficient grounds for the denial of such application; and

WHEREAS, based on the above, the Board finds that FIT's programmatic needs create unnecessary hardship and practical difficulty in developing the premises in compliance with the applicable zoning regulations; and

WHEREAS, because FIT is a non-profit institution and the variance is needed to further its not-for-profit mission, the finding set forth in ZR § 72-21(b) does not have to be made in order to grant the variance requested in this application; and

WHEREAS, FIT represents that, pursuant to ZR § 72-21(c), the variance, if granted, will not alter the character of the neighborhood, impair the appropriate use or development of adjacent property, or be detrimental to the public welfare; and

WHEREAS, specifically, FIT asserts that the proposed enlargement will not be visible from the street; that it is a permitted obstruction in a rear yard pursuant to ZR § 33-23(b)(3) because it is less than 23 feet above curb level; that the use is permitted as-of-right in the subject zoning district and consistent with the commercial character of ground floor uses on the subject block; that the Building is in such close proximity with the existing bookstore that relocation will not increase the amount of traffic on the subject street; and that the height of the enlargement, at 14 feet, will be lower than the height of the windows of buildings facing the subject rear yard, thus, the enlargement will affect neither the views nor accessibility of light and air to those buildings; and

WHEREAS, in light of the foregoing, the Board finds that the proposal will not alter the essential character of the surrounding neighborhood, nor impair the use or development of adjacent properties, and not be detrimental to the public welfare; and

WHEREAS, FIT states that the practical difficulties herein complained of are inherent to its unique programming needs and were not caused by the owner of the site or a predecessor in title; and

WHEREAS, the Board finds that the hardship herein was not created by FIT; and

WHEREAS, FIT represents that, consistent with ZR § 72-21(e), the proposal is modest, resulting in a 0.1 increase of the FAR of the Building, and represents the minimum variance needed to accommodate its programmatic needs; and

WHEREAS, the Board finds that this proposal is the minimum necessary to allow FIT to fulfill its programmatic needs; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the

# MINUTES

proposed Type II action noted in the CEQR Checklist No. 17-BSA-068M, dated January 17, 2017; and

*Therefore, it is Resolved*, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review, and makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit, on a site located within a C6-2 zoning district, the enlargement of a community facility that does not comply with the community facility floor area regulations, contrary to ZR § 33-10, specifically ZR § 33-123; *on condition* that all work will substantially conform to drawings filed with this application marked “Received June 14, 2017”- Seven (7) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum 96,823 square feet of floor area (7.4 FAR), as indicated on the BSA-approved plans;

THAT the exterior material of the enlargement shall be a finished material such as, but not limited to, finished block or brick;

THAT the above conditions shall be listed on the Certificate of Occupancy;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a Certificate of Occupancy shall be obtained within four (4) years, by August 15, 2021;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portion related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 15, 2017.

### CEQR #17-BSA-082M

APPLICANT – Law Office of Jay Goldstein, for Greenhorn Development, LLC, owner; Rumble Fitness LLC, lessee.

SUBJECT – Application February 7, 2017 – Special Permit (§73-36) to permit the legalization of the operation of a Physical Cultural Establishment (Rumble Fitness) located in a portion of the first floor and cellar of an existing building contrary to ZR §32-10. C6-3X zoning district.

PREMISES AFFECTED – 142 West 23<sup>rd</sup> Street, Block 798, Lot 66, Borough of Manhattan.

### COMMUNITY BOARD #4M

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and

Commissioner Ottley-Brown.....3

Negative: .....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated January 15, 2017, acting on Alteration Application No. 122972417, reads in pertinent part:

“Proposed Physical Culture Establishment in C6-3X zoning district is not permitted pursuant to ZR 32-10 and is referred to the Board of Standards and Appeals for special permit under ZR 73-36”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize the operation of a physical culture establishment (“PCE”) on portions of the cellar and first floor of a 13-story mixed-use commercial and residential building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on August 15, 2017, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Community Board 4, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the south side of West 23rd Street, between Seventh Avenue and Sixth Avenue, in a C6-3X zoning district, in Manhattan; and

WHEREAS, the site has approximately 75 feet of frontage along West 23rd Street, 99 feet of depth, 7,406 square feet of lot area and is occupied by a 13-story, with cellar, mixed-use commercial and residential building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
  - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
  - (ii) a swimming pool of a minimum 1,500 square feet; or
  - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
  - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i)

---

through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE occupies a total of 5,900 square feet of floor space as follows: 4,100 square feet of floor space in the cellar, including a gymnasium area, locker rooms, storage and an office, and 1,800 square feet of floor area on the first floor, used for reception, a private studio and locker area; and

WHEREAS, the PCE has been in operation since January 2017 as Rumble Fitness LLC with the following hours of operation: Monday through Friday, 4:45 a.m. to 10:00 p.m., and Saturday and Sunday, 6:30 a.m. to 8:00 p.m.; and

WHEREAS, the applicant represents that the PCE use is consistent with the mixed residential and commercial area, which includes commercial office buildings,

community facilities, retail stores, restaurants and residences, and that the location of the PCE within the first floor and cellar of the existing building minimizes its visibility from the street; and

WHEREAS, in addition, the applicant submits that sound attenuation measures—including isolation of the studio with sheetrock and BATT insulation, flooring with isolated mat subfloor with neoprene isolators, fiberglass batting and perimeter isolation boards, penetrations at ceilings and partitions sealed with mineral fiber insulation and caulk, partitions with an STC rating of 60 and flooring with an STC rating of 64—have been installed to absorb noise, echoes and reverberation, if any, created by the PCE; and

WHEREAS, accordingly, the Board finds that the PCE use is so located as to not impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant represents that the PCE contains an exercise room and personal training room that will be used for instructional classes for physical improvement; and

WHEREAS, the Board finds that the PCE use is consistent with those eligible, pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE is fully sprinklered and that an approved fire alarm—including area smoke detectors, manual pull stations at each required exist, local audible and visual alarms and connection to an FDNY-approved central station—has been installed in the entire PCE space; and

WHEREAS, by letter dated April 19, 2017, the Fire Department states that, based upon its review of the drawings and supporting documentation, it has no objection to this application; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17-BSA-082M, dated February 7, 2017; and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

# MINUTES

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated at the premises without the special permit.

*Therefore it is Resolved*, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to *legalize*, in a C6-3X zoning district, the operation of a physical culture establishment on portions of the cellar and first floor of a 13-story mixed-use commercial and residential building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received February 7, 2017” – Seven (7) sheets; and *on further condition*:

THAT the term of this grant shall be for ten (10) years, expiring January 31, 2027;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum 3’-0” wide exit pathways shall be provided leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be maintained in the entire PCE space and the PCE shall be fully sprinklered, as indicated on the Board-approved plans;

THAT sound attenuation shall be installed in the PCE as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by the Department of Buildings;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by August 15, 2018;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 15, 2017.

### CEQR #17-BSA-085M

APPLICANT – Law Office of Jay Goldstein, for TGA II, LLC, owner; Flywheel Sports, lessee.

SUBJECT – Application February 8, 2017 – Special Permit (§73-36) to permit the legalization of a Physical Cultural Establishment (*Flywheel*) in a portion of the first floor and first floor mezzanine of an existing building contrary to ZR §32-10. C5-2 & C6-4A zoning district.

PREMISES AFFECTED – 420 Park Avenue South (420-422 Park Ave S, 50 East 29<sup>th</sup>), Block 858, Lot 45, Borough of Manhattan.

### COMMUNITY BOARD #5M

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated January 10, 2017, acting on New Building Application No. 110030190, reads in pertinent part:

“ZR 32-10” “Physical Culture Use is not permitted, as of right”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, on a site partially in a C5-2 zoning district and partially in a C6-4 zoning district, the operation of a physical culture establishment (“PCE”) on portions of the first and second floors of a 19-story commercial and hotel building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on August 15, 2017, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Community Board 5, Manhattan, waives its recommendation for this application; and

WHEREAS, the subject site is located on the southwest corner of Park Avenue South and East 29th Street, partially in a C5-2 zoning district and partially in a C6-4 zoning district, in Manhattan; and

WHEREAS, the site has approximately 103 feet of frontage along Park Avenue South, 142 feet of frontage along East 29th Street, 20,642 square feet of lot area and is occupied by a 19-story, with cellar, commercial and hotel building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:

---

# MINUTES

---

- (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
- (ii) a swimming pool of a minimum 1,500 square feet; or
- (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
- (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE occupies a total of 3,667 square feet of floor area as follows: 3,234 square feet of floor area on the first floor, including reception, retail, toilets, storage, a shower and a spinning studio, and 433 square feet of floor area on the second floor, used for toilets, storage and showers; and

WHEREAS, the PCE has been in operation as Flywheel Sports since September 2016 with the following hours of operation: Monday through Friday, 5:30 a.m. to 9:00 p.m., and Saturday and Sunday, 7:30 a.m. to 5:30 p.m.; and

WHEREAS, the applicant states that the PCE is consistent with the surrounding area, which contains commercial offices buildings, community facilities, retail stores, restaurants and residential uses, and that the PCE is fully contained within the building with limited visibility from the street; and

WHEREAS, with regard to sound attenuation, the applicant submits that all partitions in the studio are isolated from adjacent structures with sheetrock and sound-attenuated batt insulation, that all flooring sits on isolated mat subfloor with neoprene isolators, fiberglass batting and perimeter isolation boards at the edges, that all penetrations at the studio ceiling and partitions are sealed with mineral fiber insulation and caulked, that partitions have STC ratings of 60 and that flooring has an STC rating of 64; and

WHEREAS, accordingly, the Board finds that the PCE use is so located as to not impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant represents that the PCE provides spin classes for increasing participants' stamina and physical fitness; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE is fully sprinklered and that an approved fire alarm—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection to an FDNY-approved central station—has been installed in the entire PCE space; and

WHEREAS, the Board has made no determination as to the lawfulness of signage at the subject site, and signs must comply with the applicable zoning regulations as reviewed and approved by the Department of Buildings; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

# MINUTES

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17-BSA-085M, dated February 8, 2017; and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated at the premises without the special permit.

*Therefore it is Resolved*, that the Board of Standards and Appeals *issues* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to *legalize*, on a site partially in a C5-2 zoning district and partially in a C6-4 zoning district, the operation of a physical culture establishment (“PCE”) on portions of the first and second floors of a 19-story commercial and hotel building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received June 9, 2017” – Three (3) sheets; and *on further condition*:

THAT the term of this grant shall be for ten (10) years, expiring September 30, 2026;

THAT the fire alarm system and sprinkler system within the physical culture establishment shall be inspected and signed off by the Fire Department prior to the issuance of a certificate of occupancy;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum 3’-0” wide exit pathways shall be provided leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be maintained in the entire PCE space and the PCE shall be fully sprinklered, as indicated on the Board-approved plans;

THAT sound attenuation shall be installed in the PCE as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by the Department of Buildings;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by August 15, 2018;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 15, 2017.

### CEQR #17-BSA-085M

APPLICANT – Jay Goldstein, Esq., for 819 Realty Group LLC, owner; Beast Fitness Evolved, lessee.

SUBJECT – Application February 21, 2017 – Special Permit (§73-36) to permit the legalization of a Physical Cultural Establishment (*Beast Fitness Evolved*) in a portion of the cellar first floor of an existing building contrary to ZR §32-10. C4-3A zoning district.

PREMISES AFFECTED – 458 5<sup>th</sup> Avenue, Block 1010, Lot 40, Borough of Brooklyn.

### COMMUNITY BOARD #6BK

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3  
Negative: .....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated January 25, 2017, acting on Alteration Application No. 320916657, reads in pertinent part:

“The proposed additional Cultural Establishment in C4-3A Zoning District is not permitted pursuant to ZR 32-10 and is referred to Board of Standards and Appeals (BSA) for a special permit under ZR 73-36”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, in a C4-3A zoning district, the operation of a physical culture establishment (“PCE”) on portions of the cellar and first floor of a four-story mixed-use commercial and residential building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on August 15, 2017, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Community Board 6, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the northwest corner of 5th Avenue and 10th Street, in a C4-3A zoning district, in Brooklyn; and

---

# MINUTES

---

WHEREAS, the site has approximately 50 feet of frontage along 5th Avenue, 96 feet of frontage along 10th Street, 4,788 square feet of lot area and is occupied by a four-story, with cellar, mixed-use commercial and residential building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
  - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
  - (ii) a swimming pool of a minimum 1,500 square feet; or
  - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
  - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are

made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the proposed PCE will occupy 3,442 square feet of floor space as follows: 1,676 square feet of floor space in the cellar, including an exercise room, bathrooms with a shower and a business area, and 1,766 square feet of floor area on the first floor, including reception, retail, a bathroom and a training area; and

WHEREAS, the PCE will be operated as Beast Fitness with proposed hours of operation of Monday through Friday, 5:00 a.m. to 9:00 p.m., and Saturday and Sunday, 9:00 a.m. to 4:00 p.m.; and

WHEREAS, the applicant represents that the PCE is limited in size and wholly contained within the building, reducing its visibility from the street, and that the surrounding area contains a vibrant mixed of commercial, residential and community-facility uses; and

WHEREAS, with regards to sound attenuation, the applicant represents that all typical partitions at the studio will be isolated from adjacent structure, that all ceiling are gypsum board with glue will be supported by vibration isolation hangers, that penetrations at studio ceilings and partitions will be sealed with mineral fiber insulation and caulked, that partitions will have STC ratings of 63 and that ceilings will have an STC rating of 62; and

WHEREAS, at hearing, in response to questions from the Board, the applicant represented that the sound attenuation measures to be installed will ensure that sound levels in adjacent areas will not exceed 45 dBA, including sound emanating from any sound system installed; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant represents that the PCE will provide facilities for classes, instruction and programs for physical improvement; and

WHEREAS, the Board finds that the PCE use is consistent with those eligible, pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and

# MINUTES

operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, by letter dated June 26, 2017, the Fire Department states that an interior fire alarm system must be installed and inspected before the Fire Department can support this application; and

WHEREAS, in response, the applicant revised the drawings to reflect installation of an interior fire alarm system; and

WHEREAS, the applicant represents that the PCE will be fully sprinklered and that an approved fire alarm—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection to an FDNY-approved central station—will be installed in the entire PCE space; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17-BSA-085M, dated February 8, 2017; and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03.

*Therefore it is Resolved*, that the Board of Standards and Appeals *issues* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to *permit*, in a C4-3A zoning district, the operation of a physical culture establishment on portions of the cellar and first floor of a three-story mixed-use commercial and residential building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received June 9, 2017” –One (1) sheet and “August 15, 2017”-Four (4) sheets; and *on further condition*:

THAT the term of this grant shall be for ten (10) years, expiring September 30, 2026;

THAT acoustic isolation measures shall be enhanced if vibrations become a disturbance to neighbors or if noise levels exceed 45 dBA;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum 3'-0" wide exit pathways shall be provided leading to the required exits and that pathways

shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be installed and maintained in the entire PCE space and the PCE shall be fully sprinklered, as indicated on the Board-approved plans;

THAT sound attenuation shall be installed in the PCE as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by the Department of Buildings;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by August 15, 2021;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 15, 2017.

## 2017-236-BZ

### CEQR #18-BSA-012Q

APPLICANT – NYC Mayor’s Office of Housing Recovery Operations (HRO) for Gregory Henkel, owner.

SUBJECT – August 10, 2017 – Special Permit (§64-92) to waive bulk regulations for the replacement of homes damaged/destroyed by Hurricane Sandy, on properties which are registered in the NYC Build it Back Program. R3-1 zoning district.

PREMISES AFFECTED – 1632 Channel Road and 16-33 Church Road, Block 15482, Lot 28. Borough of Queens.

### COMMUNITY BOARD #14Q

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Otley-Brown.....3

Negative: .....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to permit, in an C3A zoning district, the reconstruction of a single-family detached residence in compliance with flood-resistant construction standards that does not comply with the zoning requirements for waterfront yards, contrary to ZR § 62-332; and

---

# MINUTES

---

WHEREAS, a public hearing was held on this application on August 15, 2017, and then to decision on the same date; and

WHEREAS, this application is brought on behalf of the property owner by the Build It Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in furtherance of the City's effort to rebuilt residences impacted by Superstorm Sandy expeditiously and effectively, the Board, pursuant to 2 RCNY § 1-14.2, waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1-05.1 (Objection Issued by the Department of Buildings); (2) 2 RCNY § 1-05.3 (Filing Period); (3) 2 RCNY § 1-05.4 (Application Referral); (4) 2 RCNY § 1-05.6 (Hearing Notice); (5) 2 RCNY § 1-05.7 (List of Affected Property Owners); (6) 2 RCNY § 1-09.4 (Owner's Authorization); and (7) 2 RCNY § 1-10.7 (Proof of Service for Application Referral and Hearing Notice); and

WHEREAS, the Board notes that the subject application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the east side of Channel Road, between East 18 Road and East 16 Road, in an C3A zoning district, in Queens; and

WHEREAS, the site has approximately 25 feet of frontage along Channel Road, 180 feet of depth, 4,545 square feet of lot area and is occupied by a one-story, with cellar, one-family detached residence; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 8, 2016, when, under BSA Calendar Number 2016-1431-A, the Board granted an application to build within the bed of a mapped street, contrary to General City Law § 35, on condition that no building or other structure may be constructed over an existing DEP-managed water or sewer main, as confirmed by a survey prepared by a New York State licensed land surveyor; that if a proposed building or other structure is not within the exact footprint of the pre-Hurricane Sandy building or other structure being replaced or repaired, the proposed building or other structure may not be within 5 feet of a DEP-managed existing water or sewer main, as confirmed by a survey prepared by a New York State licensed land surveyor, unless DEP has notified DOB that such limitation does not apply; that if a proposed building or other structure is within the exact footprint of the pre-Hurricane Sandy building or other structure being replaced or repaired, the proposed building or other structure may be within 5 feet of a DEP-managed existing water or sewer main, as confirmed by a survey prepared by a New York State licensed land surveyor; that if a proposed building or other structure is not within the exact footprint of the pre-Hurricane Sandy building or other structure being replaced or repaired solely because of the addition of a new landing, lift, ramp, staircase and/or porch required to accommodate elevation of the proposed building or other structure, that portion of the proposed building or other structure that is within the exact footprint of the pre-Hurricane Sandy

building or other structure may remain within 5 feet of a DEP-managed existing water or sewer main but such new landing, lift, ramp, staircase and/or porch may not be within 5 feet of a DEP-managed existing water or sewer main, as confirmed by a survey prepared by a New York State licensed land surveyor, unless DEP has notified DOB that such limitation does not apply; and that, if the curb-to-curb width of the street is less than 34 feet or the building is setback more than 40 feet from the curb line: (1) the building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code, unless the Fire Department has notified DOB that the building is exempt; (2) the building will be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code; (3) the underside of the building, where the foundation is not completely closed, shall have an exterior assembly that provides a 2-hour fire resistance rating; and (4) the height from grade plane to the highest window-sill leading to a habitable space may not exceed 32'-0"; and

WHEREAS, the applicant now seeks a special permit, pursuant to ZR § 64-92, to allow the reconstruction of a one-family detached residence with a 6.8-foot waterfront yard; and

WHEREAS, at the subject site, waterfront yards must be 30 feet in depth under ZR § 62-332; and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments* and *enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Section 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

- (a) that there would be a practical difficulty in complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;
- (b) that any modifications of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in

---

# MINUTES

---

which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, in accordance with ZR § 64-92(a), the need to reconstruct the existing residence, which, as it exists, is non-compliant with side-yard and waterfront-yard regulations, creates practical difficulties in complying with flood-resistant construction standards without the modification of the waterfront-yard requirement and that waiver of the same is the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the finding pursuant to ZR § 64-92(b) is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the residence is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; the applicant further states that the majority of residences within the surrounding neighborhood are single-family residences; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed reconstruction satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18BSA012Q, dated August 10, 2017.

*Therefore, it is Resolved*, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure; *issues* a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review; and makes the required findings under ZR § 64-92 to *permit*, in an R3-2 zoning district, the reconstruction of a single-family detached residence in compliance with flood-resistant construction standards that does not comply with the zoning requirements for waterfront yards, contrary to ZR § 62-332; *on condition* that all work shall substantially conform to the drawings filed with this application and marked "Received August 10, 2017"- eight (8) sheets; and *on further condition*:

THAT there shall be a waterfront yard at least 6.8 feet in depth, as illustrated on the Board-approved plans;

THAT the building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code, unless the Fire Department has notified DOB that it is exempt;

THAT the residence shall be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code;

THAT the underside of the exterior of the residence where the foundation is not closed shall have a floor assembly that provides a 2-hour fire resistance rating;

THAT the height from grade plane to the highest windowsill leading to a habitable space may not exceed 32 feet;

THAT this approval shall be limited to the Build It Back program;

THAT all DOB and related agency application(s) filed in connection with the authorize use and/or bulk shall be signed off by DOB and all other relevant agencies by August 15, 2021;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 15, 2017.

Negative: .....0

**THE RESOLUTION** –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure, an extension of term of a variance, previously granted by the Board under ZR § 72-21, which expired June 13, 2013, and an extension of time to obtain a certificate of occupancy, which expired June 13, 2013; and

WHEREAS, a public hearing was held on this application on August 23, 2016, after due notice by publication in *The City Record*, with continued hearings on October 18, 2016, and July 18, 2017, and then to decision on August 22, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown, former Vice-Chair Hinkson and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 11, Queens, recommends approval of this application on condition that the parking lot have accessible parking spaces located closer to the building entrance, that directional arrows be drawn to direct drivers around the parking lot, that exit signs be placed on the building to direct traffic, that a “right turn only” sign be posted at the exit and that deliveries and dumpster collection cease after 10:00 p.m.; and

WHEREAS, New York State Senator Tony Avella submitted testimony regarding this application, citing frequent late-night and early-morning noise from store

deliveries and store pickups as well as debris on the sidewalk around the site, and recommended, should this application be granted, that all deliveries, including garbage pickup, be mandated to occur no later than 9:00 p.m. and no earlier than 8:00 a.m. and that the sidewalk in front of the site be kept clean and free of debris at all times; and

WHEREAS, the subject site is located on the south side of Northern Boulevard, between Oceania Street and 211 Street, partially in an R4 zoning district and partially in an R6B (C2-1) zoning district, in Queens; and

WHEREAS, the site has approximately 300 feet of frontage along Northern Boulevard, 225 feet of frontage along 45th Road, 200 feet of depth, 52,500 square feet of lot area and is occupied by a one-story, with cellar, commercial building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 30, 1920, when, under BSA Calendar Number 166-20-BZ, the Board granted a variance to permit the construction of a garage for more than five motor vehicles on condition that the rear and side walls be unpierced throughout their entire length and height, except for a fire exit not to exceed 3’-8” in width and that any skylights in the roof not be placed within 20 feet of the rear line of the building; and

WHEREAS, on December 16, 1952, under BSA Calendar Number 692-52-BZ, the Board granted a variance for a term of fifteen (15) years, expiring December 16, 1967, to permit the building to be occupied by a car agency as a service and display building on condition that the site be leveled substantially to the grade of Northern Boulevard, that the rear portion may be occupied for the cars of the agency, that such rear portion be leveled and paved with concrete or asphalt, that there be erected on the interior and street building lines with one opening thereto to 45th Road, that such opening shall be fitted with gates normally kept closed and with curb cut opposite, that the site may be used in conjunction with the present buildings and uses on former Lots 11 and 13 adjoining the site to the west, that the proposed canopy on the front of the building not extend more than 10 inches beyond the building line, that signs comply with the applicable requirements of the Zoning Resolution therefore and no sign shall advertise the sale of gasoline or for automobile repairing on this or adjoining lots, that minor repairing may be permitted within the building, as is usual for a service station of this type, that such building may be occupied as a storage garage in conjunction with uses herein permitted for more than five motor vehicles for a similar term, that such portable fire-fighting appliances be maintained as the Fire Department directs and that a certificate of occupancy be obtained; and

WHEREAS, on January 23, 1968, under BSA Calendar Number 692-52-BZ, the Board granted an extension of term of the variance for ten (10) years, expiring December 16, 1977, on condition that a new certificate of occupancy be obtained; and

WHEREAS, on November 5, 1969, under BSA Calendar Number 477-69-BZ, the Board granted an application under ZR § 11-412 to permit the extension of a

---

# MINUTES

---

motor vehicle repair shop into an adjoining auto showroom and auto supply store; and

WHEREAS, on June 13, 1978, under BSA Calendar Numbers 692-52-BZ and 477-69-BZ, the Board granted an extension of term of the variance for ten (10) years, expiring June 13, 1988, on condition that a certificate of occupancy be issued to cover both addresses 209-34 and 209-50 Northern Boulevard, to indicate BSA Calendar Numbers 692-52-BZ and 477-69-BZ and lot numbers 15 and 18, on condition that high intensity lights on the used car lot be tilted away from residential structures, that all outside speakers for the use of playing music be removed, that the fence at the rear of 209-30 Northern Boulevard be repaired and dense shrubbery be planted, that a speed bump strip be installed at the 45th Road gate and a stop sign be placed to avoid speeding with a Service Manager to instruct employees against speeding, that testing of cars be eliminated south of Northern Boulevard, that parking on the Northern Boulevard sidewalk be eliminated and that a new certificate of occupancy be obtained by June 13, 1979; and

WHEREAS, on September 22, 1981, under BSA Calendar Number 692-52-BZ and separately under BSA Calendar Number 477-69-BZ, the Board held a compliance hearing and did not rescind its resolution upon the owner's demonstrating compliance with the Board's conditions, including that the lights had been re-positioned, that the fences had been repaired, that shrubbery had been planted, that "no parking on sidewalk area" signs had been placed with one employee assigned on an ongoing basis to monitor compliance, that employees had been instructed that no road testing of cars be conducted on all streets behind the facility, which instruction shall be continually monitored and enforced and that the Northern Boulevard entrance had been posted with a full stop sign and a speed bump; and

WHEREAS, on May 10, 1983, under the subject calendar number, the Board granted an application under ZR §§ 11-412 and 72-21 to permit the enlargement in lot area and reestablishment of an expired variance of an existing automobile sales and service establishment and the maintenance of existing uses, including open and enclosed accessory parking, open and enclosed automobile sales and auto repairs and accessory signs, on condition that the variance replace and supersede BSA Calendar Number 166-20-BZ, which expired October 23, 1982, that there be no parking of cars on any sidewalk, that there be new, densely planted shrubbery on the 45th Road lot lines of Lots 13 and 9 and all shrubbery and street trees be maintained and replaced when necessary, that the 45th Road entrance to Lot 15 be closed and locked and used only for fire vehicles, that all exterior lights on the site be adjusted to shine down and away from all residential uses, that repairs be limited to minor repairs and no body and fender or paint spraying, that no repairs take place in open areas, that the conditions prohibiting the testing of cars and parking of cars on sidewalks be continuously monitored, that all warning signs be placed within three (3) months, by August 10, 1983, that the above conditions appear on the certificate of occupancy and that the Department of Buildings shall issue no permits

until 31 days after the date of certification of the resolution; and

WHEREAS, on October 3, 1989, under BSA Calendar Number 477-69-BZ, the Board amended its resolution to continue the amended variance for a term of four (4) years from June 13, 1989, to June 13, 1993, to merge BSA Calendar Numbers 692-52-BZ into BSA Calendar Number 477-69-BZ, to legalize the existing mezzanine area, to permit the gate at the rear area to be kept locked except for emergency vehicles, to change the interior layout and to change the design of a portion of the front façade of the building on condition that all signage comply with C2 zoning district regulations and that a new certificate of occupancy be obtained by October 3, 1990; and

WHEREAS, on February 26, 1991, under the subject calendar number, the Board amended the variance for a term expiring June 13, 2003, to change the use from auto repair and showroom to permitted retail stores or offices in Use Group 6, to permit accessory parking at the rear of the building and to permit Calendar Number 477-69-BZ into Calendar Number 716-82-BZ, on condition that a new certificate of occupancy be obtained within eighteen (18) months from October 3, 1990, by April 3, 1992, that all gates be locked after business hours, that the landscaping be maintained and replaced when necessary and that the lighting be directed down and away from the residential dwellings; and

WHEREAS, on February 26, 1991, under BSA Calendar Number 477-69-BZ, the Board rescinded its resolution as moot; and

WHEREAS, on May 20, 2003, under the subject calendar number, the Board granted an extension of term of the variance for ten (10) years, expiring June 13, 2013, on condition that the site be maintained free of debris and graffiti, that any graffiti located on the site be removed within 48 hours and that the above conditions and all conditions from prior resolutions appear on the certificate of occupancy; and

WHEREAS, the term of the variance having expired, the applicant now seeks an extension of term of the variance for an additional ten (10) years and an extension of time to obtain a certificate of occupancy; and

WHEREAS, in addition, the applicant request a waiver of the Board's Rules and Practice and Procedure to permit the filing of this application; and

WHEREAS, at hearing, the Board questioned maintenance of the site, the presence of barbed wire, striping of the parking lot, directional signage, the presence of a storage container and relocation of the exterior fence; and

WHEREAS, in response, the applicant amended the drawings to reflect additional landscaping and accessibility compliance and submitted evidence that fencing had been repaired, that directional arrows had been painted within the parking lot, that the masonry wall had been painted, that the storage container had been removed, that barbed wire had been removed from fencing and that new evergreen shrubs and ground cover had been planted; and

WHEREAS, as to deliveries, the applicant represents

# MINUTES

that pickups and deliveries will be limited to the hours of 8:00 a.m. to 8:00 p.m. with instructions to drivers that trucks not idle in the parking lot; and

WHEREAS, accordingly, the Board finds that the requested waiver, extension of term and extension of time to obtain a certificate of occupancy are appropriate with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated on May 10, 1983, as amended through on May 20, 2003, so that as amended this portion of the resolution shall read: “to *waive* the Board’s Rules of Practice and Procedure and *grant* an extension of term for ten (10) years, expiring June 13, 2023; *on condition* that all work and site conditions shall conform to the drawings filed with this application marked, ‘Received August 2, 2017’-Two (2) sheets; and *on further condition*:

THAT the term of this grant shall be limited to ten (10) years, expiring June 13, 2023;

THAT pickups and deliveries shall be limited to 8 a.m. to 8 p.m.;

THAT snow and ice shall be removed promptly;

THAT landscaping, shrubbery and street trees shall be maintained and replaced as necessary, as illustrated on the Board-approved plans;

THAT there shall be no parking of cars on any sidewalk;

THAT the condition prohibiting the parking of cars on sidewalks shall be continuously monitored;

THAT the 45th Road entrance to Lot 15 be closed and locked and used only for fire vehicles;

THAT all exterior lights on the site shall shine down and away from all residential uses;

THAT all gates shall be locked after business hours;

THAT the site shall be maintained free of debris and graffiti;

THAT any graffiti located on the site shall be removed within 48 hours;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by August 22, 2021;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, August 22, 2017.

## 182-85-BZ

APPLICANT – Eric Palatnik, P.C., for 209-11 20<sup>th</sup> Street, LLC, owner.

SUBJECT – Application September 27, 2016 – Extension of Term of a previously approved Variance (§72-21) for a one story building for the storage of commercial vehicles for a (UG16) contractor's establishment which expired on September 9, 2016. R6B zoning district.

PREMISES AFFECTED – 209-11 20<sup>th</sup> Street, Block 637, Lot 64, Borough of Brooklyn.

### COMMUNITY BOARD #7BK

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated May 23, 2017, regarding Certificate of Occupancy No. 302214583F, reads in pertinent part:

“Per ZR 22-00, UG 16D” “Beverage Store Warehouse” “is not a use permitted as-of-right,” “nor is there a variance that authorizes this use”; and

WHEREAS, this is an application for an extension of term of a variance, previously granted by the Board under ZR § 72-21, which expired September 9, 2016, and an amendment to permit, in an R6B zoning district, a beverage storage warehouse in Use Group 16, contrary to ZR § 22-10; and

WHEREAS, a public hearing was held on this application on July 18, 2017, after due notice by publication in *The City Record*, and then to decision on August 22, 2017; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 7, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the north side of 20th Street, between 4th Avenue and 5th Avenue, in an R6B zoning district, in Brooklyn; and

WHEREAS, the site has approximately 50 feet of frontage along 20th Street, 100 feet of depth, 5,000 square feet of lot area and is occupied by a one-story commercial building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since September 9, 1986, when, under the subject calendar number, the Board granted a variance to permit the construction of a one-story building on an existing foundation for the storage of commercial vehicles for a contractor’s establishment in Use Group 16 for a term of ten (10) years, expiring September 9, 1996, on condition that the hours of operation be limited to 7:00 a.m. to 7:00 p.m., Monday through Friday, and 8:00 a.m. to 1:00 p.m., Saturday, that all signs comply with C1 zoning district

# MINUTES

regulations, that all trucks be parked within the building, that there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic, that since the owner was already availing himself of this use on the lot, all construction be completed within one (1) year of the date of the resolution, by September 9, 1987, that the above conditions appear on the certificate of occupancy and that the Department of Buildings issue no permits for a period of 31 days from the date of the resolution; and

WHEREAS, on July 15, 1997, under the subject calendar number, the Board granted an extension of term for ten (10) years, expiring September 9, 2006, on condition that the site be maintained clean and free of graffiti and that a new certificate of occupancy be obtained within one (1) year, by July 15, 1998; and

WHEREAS, on October 28, 2008,<sup>1</sup> under the subject calendar number, the Board granted an extension of term for ten (10) years, expiring September 9, 2016, on condition that the term be listed on the certificate of occupancy; and

WHEREAS, the term of the variance having expired, the applicant now seeks a further extension of term for an additional ten (10) years and an amendment to permit conversion of the existing commercial building from a contractor's establishment to a beverage storage warehouse, both in Use Group 16; and

WHEREAS, at hearing, the Board questioned the presence of graffiti, the building's fire-protection systems, storage on the sidewalk and signs' compliance with C1 zoning district regulations; and

WHEREAS, in response, the applicant provided evidence that graffiti had been removed, explained that sprinkler and fire alarm systems would not be necessary for the proposed beverage storage warehouse and represented that signage complies; and

WHEREAS, the Board finds that a ten (10) year extension of term and an amendment to the variance are appropriate with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated September 9, 1986, as amended through October 28, 2008, so that as amended this portion of the resolution shall read: "to *permit*, in an R6B zoning district, a beverage storage warehouse in Use Group 16, contrary to ZR § 22-10, and to *extend* the term for ten (10) years; *on condition* that all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked, 'Received July 21, 2017'-Four (4) sheets; and *on further condition*:

THAT this variance shall be limited to a term of ten (10) years, expiring September 9, 2026;

THAT no materials shall be stored on the sidewalk;

THAT the site shall be maintained clean and free of graffiti;

THAT graffiti shall be removed immediately;

THAT the façade shall be painted as necessary to retain its appearance;

THAT the hours of operation shall be limited to 7:00 a.m. to 7:00 p.m., Monday through Friday, and 7:00 a.m. to 5:00 p.m., Saturday;

THAT all signs shall comply with C1 zoning district regulations;

THAT all trucks shall be parked within the building;

THAT there shall be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by August 22, 2021;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted."

Adopted by the Board of Standards and Appeals, August 22, 2017.

---

application on May 16, 2017, after due notice by publication in *The City Record*, with a continued hearing on July 18, 2017, and then to decision on August 22, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 2, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the southeast corner of Seventh Avenue South and West 10th Street, in a C4-5 zoning district, in Manhattan; and

WHEREAS, the site has approximately 135 feet of frontage along Seventh Avenue South, 17 feet of frontage along West 10th Street, 5,741 square feet of lot area and is occupied by three-story, with cellar, commercial building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since June 13, 1995, when, under the subject calendar number the Board granted a special permit to legalize the operation of a physical culture establishment (“PCE”) in the cellar, second and third floors of the subject building on condition that there be no change in ownership or operating control of the PCE without prior application to and approval from the Board, that the special permit shall be limited to a term of ten (10) years, expiring June 13, 2005, and that the above conditions appear on the certificate of occupancy; and

WHEREAS, on March 14, 2006, under the subject calendar number, the Board granted an extension of term of the special permit for ten (10) years, expiring June 13, 2015; and

WHEREAS, the term of the special permit having expired, the applicant now seeks a further extension of term for ten (10) years; and

WHEREAS, in addition, the applicant requests a waiver, pursuant to § 1-14.2 of the Board’s Rules of Practice and Procedure, of Rule § 1-07.3(b)(2) to permit the filing for an extension of term less than two (2) years after the expiration of the term; and

WHEREAS, the applicant has demonstrated that the use has been continuous since the expiration of term and that substantial prejudice would result without such a waiver; and

WHEREAS, the facility remains in operation as New York Sports Club with the following hours of operation: Monday through Thursday, 5:00 a.m. to 11:00 p.m., Friday, 5:00 a.m. to 10:00 p.m., and Saturday and Sunday, 8:00 a.m. to 8:00 p.m.; and

WHEREAS, the applicant notes that the PCE continues to occupy 16,538 square feet of floor space in the building, 3,987 square feet of floor space in the cellar, 233 square feet of floor area on the first floor, 5,250 square feet of floor area on the second floor, 5,250 square feet of floor area on the third floor and 1,818 square feet of floor area on the third-floor mezzanine, as previously approved by the Board; and

WHEREAS, the Board notes that its determination is

subject to and guided by ZR § 73-03; and

WHEREAS, by letter dated May 9, 2017, the Fire Department states that there are outstanding violations regarding failure to provide a required Certificate of Fitness holder for the fire alarm system and failure to maintain fire-rated self-closing doors; and

WHEREAS, in response to questions from the Board, the applicant explained that the PCE was no longer operating during construction and submitted evidence that the fire-rated door swing had been corrected; and

WHEREAS, consistent with ZR § 73-03(a), the Board finds that, under the conditions and safeguards imposed, the hazards of disadvantage to the community at large of the special permit are outweighed by the advantages to be derived by the community; and

WHEREAS, as to ZR § 73-03 subsections (b) and (c), the Board finds, respectively, that the subject special permit will not interfere with any public improvement project and that the use will not interfere with the existing street system; and

WHEREAS, the Board notes that ZR § 73-03 subsections (d) and (g) are inapplicable to the subject application; and

WHEREAS, § 73-36 mandates a term not to exceed ten (10) years and, thus, pursuant to ZR § 73-03(e), the Board shall establish a term not to extend ten (10) years; and

WHEREAS, consistent with ZR § 73-03(f), the Board finds that the circumstances warranting the original grant still obtain and that the applicant has complied with the conditions and safeguards theretofore described by the Board during the prior term; and

WHEREAS, based upon its review of the record, the Board finds that a ten (10) year extension is appropriate with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure and *reopens* and *amends* the resolution, dated June 13, 1995, as amended through March 14, 2006, so that as amended this portion of the resolution reads: “to grant an extension of term of the special permit for a term of ten (10) years, expiring June 13, 2025; *on condition* that the use and operation of the physical culture establishment shall substantially conform to drawings filed with this application, marked ‘Received December 8, 2016’ - Seven (7) sheets; and *on further condition*:

THAT this grant shall be limited to a term of ten (10) years, expiring June 13, 2025;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by August 22, 2021;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the

### THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

### THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated October 18, 2016, acting on Alteration Application No. 520297615, reads in pertinent part:

“[S]pecial permit granted by B.S.A. (26-06-BZ) expired JULY 25TH 2016. Therefore, provide updated board of standards and appeals approval for physical culture establishment”; and

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure, an extension of term of a special permit, previously granted by the Board pursuant to ZR §§ 73-36 and 73-03, which expire July 25, 2016, and an amendment to change the hours of operation and to allow minor interior changes; and

WHEREAS, a public hearing was held on this application on August 8, 2017, after due notice by publication in *The City Record*, and then to decision on August 22, 2017; and

WHEREAS, Community Board 2, Staten Island, recommends approval of this application; and

WHEREAS, the subject site (Lot 50) is located on the northeast corner of East Service Road and Wild Avenue, in an M1-1 zoning district, on Staten Island; and

WHEREAS, the site is part of a larger shopping center

that occupies Lots 50, 60 and 63 with two commercial buildings and 542 parking spaces; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 25, 2006, when, under the subject calendar number, the Board granted a special permit to allow the operation of a physical culture establishment (“PCE”) within an existing one-story commercial building in a shopping center for a term of ten (10) years, expiring July 25, 2016, on condition that there be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board, that the hours of operation be limited to Monday through Friday, 5:00 a.m. to 12:00 a.m., and Saturday and Sunday, 6:00 a.m. to 8:00 p.m. and that the above conditions appear on the certificate of occupancy; and

WHEREAS, the term of the special permit having expired, the applicant now seeks an extension of term for ten (10) years and an amendment to change the PCE’s hours of operation and modifications to the interior layout of the PCE; and

WHEREAS, in addition, the applicant requests a waiver, pursuant to § 1-14.2 of the Board’s Rules of Practice and Procedure, of Rule § 1-07.3(b)(2) to permit the filing for an extension of term less than two (2) years after the expiration of the term; and

WHEREAS, the applicant has demonstrated that the use has been continuous since the expiration of term and that substantial prejudice would result without such a waiver; and

WHEREAS, the facility remains in operation as LA Fitness, and the applicant proposes to change the hours of operation as follows: Monday through Thursday, 4:00 a.m. to 12:00 a.m., Friday, 4:00 a.m. to 10:00 p.m., and Saturday and Sunday, 6:00 a.m. to 7:00 p.m.; and

WHEREAS, the PCE continues to occupy 51,609 square feet of floor area on the first floor of the one-story commercial building; and

WHEREAS, the Board notes that its determination is subject to and guided by ZR § 73-03; and

WHEREAS, the Fire Department represents that it has no objection to this application; and

WHEREAS, at hearing, the Board noted that the owner should maintain the site clean and free of debris and that failure to do so could subject the owner to enforcement action; and

WHEREAS, consistent with ZR § 73-03(a), the Board finds that, under the conditions and safeguards imposed, the hazards of disadvantage to the community at large of the special permit are outweighed by the advantages to be derived by the community; and

WHEREAS, as to ZR § 73-03 subsections (b) and (c), the Board finds, respectively, that the subject special permit will not interfere with any public improvement project and that the use will not interfere with the existing street system; and

WHEREAS, the Board notes that ZR § 73-03 subsections (d) and (g) are inapplicable to the subject application; and

---

# MINUTES

---

WHEREAS, § 73-36 mandates a term not to exceed ten (10) years and, thus, pursuant to ZR § 73-03(e), the Board shall establish a term not to extend ten (10) years; and

WHEREAS, consistent with ZR § 73-03(f), the Board finds that the circumstances warranting the original grant still obtain and that the applicant has complied with the conditions and safeguards theretofore described by the Board during the prior term; and

WHEREAS, based upon its review of the record, the Board finds that a ten (10) year extension and amendment are appropriate with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeal does hereby *waive* its Rules of Practice and Procedure and *reopen* and *amend* the resolution, dated July 25, 2006, so that as amended this portion of the resolution reads: “to *grant* an extension of term of the special permit for ten (10) years, expiring July 25, 2026; *on condition* that all work and site conditions shall comply with drawings filed with this application marked ‘Received April 19, 2017’ - Three (3) sheets; and *on further condition*:

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT the hours of operation of the physical culture establishment shall be limited to Monday through Thursday, 4:00 a.m. to 12:00 a.m., Friday, 4:00 a.m. to 10:00 p.m., and Saturday and Sunday, 6:00 a.m. to 7:00 p.m.;

THAT the above conditions appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by August 22, 2021;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, August 22, 2017.

### CEQR #08-BSA-091M

APPLICANT – Eric Palatnik, P.C., for 68-70 Spring Partners, LLC, owners.

SUBJECT – Application February 7, 2017 – Extension of time to complete construction of a previously approved Variance (§72-21) to permit the construction of a seven-story and penthouse residential building, with twelve (12) dwelling units and ground floor retail use, contrary to ZR42-10 and 42-10(D)(2)(b) set to expire on October 28, 2017. M1-5B zoning district.

PREMISES AFFECTED – 68-70 Spring Street, Block 482, Lot 19, Borough of Manhattan.

### COMMUNITY BOARD #2M

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

THE RESOLUTION –

WHEREAS, this is an application for an extension of time to complete construction; and

WHEREAS, a public hearing was held on this application on June 20, 2017, after due notice by publication in *The City Record*, with a continued hearing on August 15, 2017 and then to decision on August 22, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the south side of Spring Street, between Crosby Street and Lafayette Street, in an M1-5B zoning district, in Manhattan; and

WHEREAS, the site has approximately 50 feet of frontage along Spring Street, 94 feet of depth, 4,766 square feet of lot area and is occupied by a one-story, with cellar, commercial building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since February 10, 2009, when, under the subject calendar number, the Board granted a variance to permit a seven-story, with penthouse, residential building with 12 dwelling units and ground-floor retail use on condition that the bulk parameters of the proposed building be a 12-unit residential building with ground floor retail use, a floor area of 23,830 square feet (5.0 FAR), a street wall height of 94’-0”, a total building height of 106’-0” and a rear yard of between 7’-4” and 8’-11” at the first floor with between approximately 31’-10” and 32’-2” above the first floor, that prior to the issuance of any building permit that would result in grading, excavation, foundation, alteration, building or other permit respecting the site which permits soil disturbance for the project, the applicant or successor shall obtain from the Department of Environmental Protection (“DEP”), as applicable, either a Notice of No Objection, Notice to Proceed or Notice of Satisfaction and shall comply with all DEP requirements to obtain such Notices and that no temporary or permanent certificate of

# MINUTES

occupancy shall be issued by the Department of Buildings (“DOB”) or accepted by the applicant or successor until the DEP shall have issued a Notice of No Objection or Notice of Satisfaction; and

WHEREAS, on October 28, 2014, under the subject calendar number, the Board granted an extension of time to complete construction for a term of three (3) years, expiring October 28, 2017, on condition that substantial construction be completed by October 28, 2017; and

WHEREAS, the time to complete construction nearing expiration, the applicant now seeks an additional four (4) years to complete construction; and

WHEREAS, the applicant represents that it has experienced a number of administrative delays in obtaining funding and necessary permits but anticipates completing construction and obtaining a certificate of occupancy within the extension period requested; and

WHEREAS, additionally, the applicant submitted evidence of financing, construction documents submitted to DOB, hiring of the architect, hiring of an engineer, a geotechnical report investigating borings, test pits and structural stability, Metropolitan Transit Authority approval and relocation of the fire hydrant and street light; and

WHEREAS, in conjunction with the original application in 2009, the Board conducted an environmental review of the proposed action and documented relevant information about the project in the Final Environmental Assessment Statement (“EAS”) CEQR No. 08BSA091M, dated May 22, 2008, finding that the proposed action would not have a significant adverse impact on the environment; and

WHEREAS, the applicant provided a Technical Memorandum, dated July 11, 2017, updating the 2008 EAS regarding hazardous materials; and

WHEREAS, by letter dated August 4, 2017, the Department of Environmental Protection (“DEP”) Bureau of Sustainability states that it has reviewed the 2017 Technical Memorandum and determined that a Phase II Environmental Site Assessment is necessary to characterize the surface and subsurface soils of the subject site and requires a Phase II Work Plan and an Investigative Health and Safety Plan for submittal to DEP prior to the start of any fieldwork; and

WHEREAS, the applicant represents that placing an (E) designation on the subject site is necessary to secure financing and to fulfill applicable hazmat requirements; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to complete construction is appropriate with certain conditions set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated February 10, 2009, as amended October 28, 2014, only as to the time to complete construction so that as amended this portion of the resolution reads: “to grant an extension of time to complete construction for an additional four (4) years, expiring October 28, 2021; *on condition* that the use and operation of the site shall substantially conform to the Board-approved plans; and *on further condition*:

THAT the following shall be the parameters of the proposed building: a 12-unit residential building with ground floor retail use, a floor area of 23,830 square feet (5.0 FAR), a street wall height of 94’-0”, a total building height of 106’-0” and a rear yard of between 7’-4” and 8’-11” at the first floor with between approximately 31’-10” and 32’-2” above the first floor;

THAT an (E) designation (E-445) shall be placed on the site to ensure proper hazardous material remediation;

THAT the above conditions shall appear on the certificate of occupancy;

THAT prior to DOB’s issuance of any building permit, the New York City Office of Environmental Remediation (“OER”) must issue a Notice to Proceed or a Notice of No Objection pursuant to the site’s (E) designation; [KS1]

THAT prior to DOB’s issuance of a certificate of occupancy, OER must issue a Certificate of Completion or a Notice of Satisfaction;

THAT construction shall be completed and a certificate of occupancy shall be obtained within four (4) years, by October 28, 2021;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, August 22, 2017.

APPLICANT – Michio Sanga, for Seucharran Sewdat, owner.

SUBJECT – Application December 15, 2015 – Variance (§72-21) to permit the construction of a 2-story two-family residence contrary to ZR §23-461c (open area between buildings containing residences). R3A zoning district.

PREMISES AFFECTED – 110-43 160<sup>th</sup> Street, Block 12164, Lot 4, Borough of Queens.

### COMMUNITY BOARD #12Q

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated December 9, 2015, acting on Department of Buildings (“DOB”) Application No. 421201577 reads in pertinent part:

Proposed open area between buildings containing residences is contrary to ZR 23-461(c); and

WHEREAS, this is an application under ZR § 72-21 to permit, within an R3A zoning district, the construction of a two-story plus cellar two-family detached residence that does not comply with the minimum requirements for open area between buildings containing residences, contrary to ZR § 23-461(c); and

WHEREAS, a public hearing was held on this application on February 14, 2017, after due notice by publication in *The City Record*, with continued hearings on May 16, 2017 and June 6, 2017, and then to decision on August 22, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the subject site and surrounding neighborhood; and

WHEREAS, Community Board 12, Queens,

recommends disapproval of this application, noting that the developer of the property will not reside at the subject site; and

WHEREAS, Councilmember Ruben Wills submitted a letter to the Board, dated December 5, 2016, stating that he is not in support of the application on the bases that (1) the proposed residence will be railroad-style and, thus, “nonconforming to the surrounding homes in the area”; (2) the developer will not reside at the site; and (3) if built, the developer may rent or sell the property for personal gain; and

WHEREAS, at hearing, the Board noted that railroad style apartments are not prohibited in the subject zoning district and questioned whether the railroad apartments proposed here are, in fact, uncommon in the surrounding area; and

WHEREAS, in addition, the Board noted that the record lacked substantial evidence to support the Community Board and Councilmember’s assertions that the subject proposal is a speculative development; and

WHEREAS, the subject site on the east side of 160th Street, between 110th Avenue and 111th Avenue, within an R3A zoning district, in Queens; and

WHEREAS, the site has approximately 24 feet of frontage along 160th Street, a depth of 150 feet, 3,600 square feet of floor area and is currently vacant; and

WHEREAS, the applicant states that the site was previously occupied by a two-story detached residence demolished between late-2009 and early 2010, when the current site was located in an R3-2 zoning district; and

WHEREAS, at hearing, the Board inquired as to whether the applicant could reconstruct the previously existing residence in the same footprint as-of-right, pursuant to ZR § 54-41; and

WHEREAS, in response, the applicant submitted a ZRD1 to DOB, dated June 21, 2017, seeking a determination as to whether the previously existing residence could be reconstructed at the premises with all of its attendant non-compliances; and

WHEREAS, by a determination dated July 8, 2017, DOB denied the request, stating that DOB interprets ZR § 54-41 with a time limitation of two years on the right to reconstruct a non-complying building and because, per DOB records, the existing building on the premises was demolished and signed-off on February 11, 2010, “the fully demolished building may be reconstructed only in accordance with the applicable district bulk regulations”; and

WHEREAS, in light of the DOB denial, the applicant continued to prosecute the subject variance application; and

WHEREAS, the applicant proposes to develop the site with a two-family plus cellar two-family detached residence with side yards measuring 8’-0” and 2’-10” resulting in a total of a 9’-7” open area between the proposed residence and the neighboring residential building to the south and a total of 4’-6” open area between the proposed residence and the neighboring residential building to the north; and

WHEREAS, at the subject site, an open area with a

---

# MINUTES

---

minimum total width of eight feet and parallel to the side lot line is required between buildings containing residences on adjacent zoning lots pursuant to ZR § 23-461(c)(1); and

WHEREAS, the applicant asserts that the proposed building is otherwise compliant with the bulk regulations applicable in the subject zoning district; and

WHEREAS, the applicant states, pursuant to ZR § 72-21(a), the vacancy and history of ownership of the subject site separate and apart from all adjacent lots are unique physical conditions that create practical difficulty and unnecessary hardship in developing the site in compliance with the underlying district regulations; and

WHEREAS, in support of this assertion, the applicant submitted a uniqueness study of all lots located within 400 feet of the subject site in an R3A zoning district (the “Study Area”) demonstrating that 12 of the 141 lots (9 percent), including the subject site, within the Study Area are not occupied by buildings or other structures, four of those 12 lots (33 percent) are owned in common with an immediately adjacent lot and another four (33 percent) are owned in common with a community facility and utilized as its parking lot, making the subject site one of four in the Study Area (3 percent) that are vacant and not held in common ownership with an adjacent lot; and

WHEREAS, in addition, all of the other three vacant lots owned independently from adjacent lots are corner lots, while the subject lot is an interior lot; and

WHEREAS, the applicant also submitted deeds demonstrating that the subject site has been owned separate and apart from adjacent lots since at least 1967; and

WHEREAS, the applicant additionally submits that the width of the lot is comparable to surrounding lots in the area—many lots on the subject block range in width from 20 to 25 feet—but represents that many of these lots were developed prior to December 15, 1961, and are non-compliant with ZR § 23-461(a) in that they provide less than eight feet of open area between buildings containing residences on adjacent zoning lots; and

WHEREAS, in support of this contention, the applicant submitted a study of the 18 open areas located between the residential buildings located on the same side of 160th Street as the subject site demonstrating that only five (28 percent) are at least eight feet wide and the remaining 13 open areas (72 percent) range in width from 7’-11” to 2’-9”;

and

WHEREAS, the applicant further states that strict conformance with ZR § 23-461(c)(1) would result in a residence with a maximum exterior width of 11’-3” and maximum interior width of approximately 10’-5”, precluding the provision of interior corridors and resulting in a home that the applicant argues is not habitable; additionally, because the existing residence located to the north of the subject site is only 1’-8” from the site’s northern lot line and the existing residence located to the south of the subject site is only 1’-7” from the site’s southern lot line, a complying residence would need to provide a northern side yard measuring 6’-4” wide and a southern side yard measuring 6’-5” wide, neither of which would be wide

enough to allow for a driveway or access to a garage at the rear of the lot and, would instead, require the locating of a parking space within the proposed residence, limiting the already limited amount of habitable space; and

WHEREAS, in light of the foregoing, the Board finds that the vacancy of the lot and its history of ownership separate and apart from adjacent zoning lots create unnecessary hardship and practical difficulty in developing the site in strict compliance with the underlying bulk provisions of the Zoning Resolution; and

WHEREAS, the Board has determined that because of the subject lot’s unique physical conditions, there is no reasonable possibility that compliance with applicable zoning regulations will result in a habitable home, in satisfaction of ZR § 72-21(b); and

WHEREAS, the applicant states that the subject proposal will not alter the essential character of the neighborhood because many of the existing buildings in the Study Area provide less than the minimum eight feet required between residential buildings, as demonstrated by the aforementioned open area study of the eastern side of the subject block, and the proposed residence is otherwise compliant with applicable zoning regulations; and

WHEREAS, accordingly, the Board finds that the subject proposal will not alter the essential character of the neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare in satisfaction with ZR § 72-21(c); and

WHEREAS, the applicant submits, and the Board finds, that, per ZR § 72-21(d), the hardship was not created by the owner or a predecessor in title; and

WHEREAS, the applicant state that the subject proposal, which requests only a waiver of the minimum open area between residential buildings on adjacent zoning lots and is otherwise compliant with applicable zoning regulations, is the minimum relief required in satisfaction of ZR § 72-21(e); and

WHEREAS, the Board finds that the subject proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 16-BSA-057Q, dated December 15, 2015; and

*Therefore it is Resolved*, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR § 72-21 to permit, in an R3A zoning district, development of a two-story plus cellar two-family detached residence that does not comply with the minimum requirements for open area between buildings containing residences, contrary to ZR § 23-461(c); *on condition* that all work shall substantially conform to drawings filed with this application marked “Received October 24, 2016 – Five (5) sheets; and

# MINUTES

on further condition:

THAT the following shall be the bulk parameters of the site: open areas of at least 4’-6” and 9’-7” between the subject building and the residences located on adjacent zoning lots, as reflected on the BSA-approved plans;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a certificate of occupancy shall be obtained within four (4) years;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 22, 2017.

application on November 1, 2016, after due notice by publication in *The City Record*, with continued hearings on January 31, 2017, April 25, 2017, June 20, 2017, and August, and then to decision on August 22, 2017; and

WHEREAS, Commissioner Ottley-Brown, former Vice-Chair Hinkson and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 3, Staten Island, recommends approval on condition that the Amboy Road egress remain an “Exit Only” at all times; that the retail store and drive through hours be limited to 5:00 a.m. to midnight and that baking on the premises not be restricted and permitted when the establishment is closed; and

WHEREAS, Board staff was also in receipt of a phone call from New York City Councilmember Joseph C. Borelli, details of which were entered into the record for Board review and consideration, in support of this application, noting that he was satisfied that the applicant modified the proposal over the course of hearing; and

WHEREAS, the Board is also in receipt of seven letters in opposition to the subject application, citing concerns that the proposed use will increase traffic and noise at an already congested intersection, that cars in the queue at the site will adversely affect traffic on the surrounding streets, that the use is not adequately buffered from surrounding residential uses with landscaping and that there is an express bus stop located at the site; and

WHEREAS, the subject site is located on the northwest corner of Amboy Road and Foster Road, within an R3X zoning district and the Special South Richmond Development District, on Staten Island; and

WHEREAS, the site has approximately 150 feet of frontage along Amboy Road, 110 feet of frontage along Foster Road, 16,322 square feet of lot area and is currently vacant; and

WHEREAS, the Board has exercised jurisdiction over the subject site since June 17, 1941, when, under BSA Cal. No. 268-41-BZ, the Board granted a variance to permit the reconstruction and extension of an existing gasoline service station; and

WHEREAS, on June 23, 1942, under BSA Cal. No. 268-41-BZ, the Board amended the resolution to extend the time to obtain permits and complete work by one (1) year, expiring June 23, 1943, and adding to the previous resolution conditions relating to the future widening of Amboy Road and materials utilized at the site; and

WHEREAS, on July 20, 1943, and September 12, 1944, under BSA Cal. No. 268-41-BZ, the Board amended the resolution to further extend the time to obtain permits and complete work by one (1) year periods, the latest extension of time expiring September 12, 1945; and

WHEREAS, on October 28, 1969, under BSA Cal. No. 279-69-BZ, the Board permitted an extension of the gasoline service station use, pursuant to ZR § 11-412, to include minor auto repairs and the parking of cars awaiting service for a term of ten (10) years, expiring October 28, 1979; and

WHEREAS, on December 1, 1970, November 9, 1971, and December 12, 1972, under BSA Cal. No. 279-69-BZ, the

---

# MINUTES

---

Board granted one (1) year extensions of time to obtain permits and complete construction, the last of which expired on October 28, 1973; and

WHEREAS, on October 20, 1992, under BSA Cal. No. 911-89-BZ, the Board reestablished the expired variance permitting an automotive service station with accessory uses and legalized the enlargement of the service station building for a term of five (5) years, expiring October 20, 1997; and

WHEREAS, on March 13, 2001, under BSA Cal. No. 221-00-BZ, the Board granted a variance, pursuant to ZR § 72-21, permitting the continuation of the existing automotive service station and addition of accessory off-street parking for a term of ten (10) years, expiring March 13, 2011; and

WHEREAS, the applicant represents that the automotive service station was demolished in 2015; and

WHEREAS, the applicant originally proposed to construct a UG 6 eating and drinking establishment with a drive through window operating 24 hours a day, 7 days per week, with 2,448 square feet of floor area, 16 accessory parking spaces, queuing for 10 cars, a menu board/annunciator system facing an adjoining residence, ingress from curb cuts located on Foster Road and Amboy Road, sole egress from the curb cut on Amboy Road by right turn only, and 4 foot wide planting strips along both the northern and western lots lines; and

WHEREAS, in the course of hearing, the applicant revised the proposal and now seeks to construct a UG 6 eating and drinking establishment with a drive through window operating 5:00 a.m. to midnight, 7 days a week with 2,200 square feet of floor area, 13 accessory parking spaces, queuing for 7 cars, a menu board/annunciator at the rear of the proposed building, sole ingress from Foster Road, egress from both Foster Road and Amboy Road by right turns only, a 10 foot wide planting strip along the northern lot line, adjacent to the residential neighbor, and a 4 foot wide planting strip along the western lot line; and

WHEREAS, pursuant to ZR § 22-10, UG 6 uses are not permitted within R3X zoning districts and, thus, the applicant seeks the subject relief; and

WHEREAS, the applicant states that, pursuant to ZR § 72-21(a), the presence of contamination at the site due to its historical use is a unique physical conditions that create a practical difficulty and unnecessary hardship in developing the site in conformance with the underlying district regulations; and

WHEREAS, specifically, the applicant submits that the historic use of the site as an automotive service station for more than 80 years resulted in contaminated soil and groundwater as well as soil vapor at the site requiring extensive remediation including removal of underground storage tanks, removal of heavily contaminated free product, extraction of soil vapor under buildings and sheet piling and capping of the site with asphalt to contain remaining contamination and prevent its spreading to surrounding properties; and

WHEREAS, the site is a voluntary participant in the Brownfield Cleanup Program (“BCP”) administered by the New York State Department of Environmental Conservation (“DEC”) and, by letter dated July 18, 2016, DEC approved the

submitted Remedial Action Work Plan and issued a Decision Document, pursuant to which the environmental remediation is required to be implemented; and

WHEREAS, in light of the foregoing, the Board finds that the contamination present at the site as a result of its historic and legal use as an automotive service station is a unique physical condition that creates unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, with regards to the (b) finding, the applicant submits that there is no reasonable possibility that a conforming development at the subject site will bring a reasonable return and, in support of that contention, submitted a financial analysis of (1) two detached two-family residential buildings with approximately 3,450 gross square feet and 4,465 gross square feet and on-site parking; (2) two detached two-family residential buildings with approximately 3,450 gross square feet and 6,394 gross square feet and on-site parking; (3) a detached two-story mixed-use community facility and residential building with two residential units; and (4) the subject proposal; and

WHEREAS, the applicant additionally analyzed a lesser variance—a detached two-story mixed-use community facility and residential building partially located within the street widening lines that would, thus, require a waiver of GCL § 35; and

WHEREAS, the financial analyses submitted with the application conclude that only the subject proposal would generate a reasonable return, approximately 5.6 percent; and

WHEREAS, at hearing, the Board acknowledged that the shape of the site, presence of widening lines for both Foster Road and Amboy Road—at a width of approximately 6 feet parallel to Foster Road and varying widths parallel to Amboy Road of up to 19 feet—and the location of a New York State-regulated wetland on the lot to the west and directly adjacent to the subject site, though not unique to the subject property for the purposes of satisfying the finding of ZR § 72-21(a), limit the portion of the site that may be developed as-of-right; and

WHEREAS, at hearing, the applicant stated that, despite the location of portions of the subject site within street widening lines, no waiver of General City Law (“GCL”) § 35 was required for the subject proposal; thus, such relief was neither considered nor granted by the Board; and

WHEREAS, upon review of the applicant’s submissions, the Board finds, in accordance with ZR § 72-21(b), that, due to the site’s unique physical conditions, there is no reasonable possibility that a development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant submits that the subject proposal will not substantially impair the appropriate use or development of adjacent properties and not be detrimental to the public welfare, in accordance with ZR § 72-21(c); and

WHEREAS, specifically, the applicant represents that the proposed UG 6 use is a less aggressive use than the automotive service station that previously occupied the site and had most recently fallen into disrepair; that the UG 6 use is consistent with the commercial uses that predominate the stretch of

---

# MINUTES

---

Amboy Road located near the site; and that the proposal includes environmental remediation of the site as well as landscaping, including a ten-foot wide landscaped buffer between the site and its residential neighbor to the west, which will be beneficial to the surrounding area; and

WHEREAS, additionally, the applicant submitted an operational plan in response to inquiries as to how the site would operate with large drive through orders or in cases when the seven reservoir spaces proposed at the site are insufficient for the number of cars on-site; and

WHEREAS, the Board adopts this operational plan as a condition of its grant and finds that the subject proposal will not alter the essential character of the neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant represents and the Board finds that the hardship claimed as grounds for the variance was not created by the owner or a predecessor in title in accordance with ZR § 72-21(d); and

WHEREAS, the applicant submits that the subject proposal is the minimum variance necessary to afford relief because it is the only scenario that provides a reasonable return; and

WHEREAS, the applicant further submits that the drive through component of the proposal is necessary for the proposal to recognize a reasonable return because rents for UG 6 eating and drinking establishments without a drive through are substantially lower (by approximately \$15/square foot of floor area) than rents for such establishments with a drive through and the premium rents made possible by the addition of a drive through are required to overcome the expense of environmental remediation at the site; and

WHEREAS, in response to the Board's consideration of a term on a grant of the requested variance, the applicant represents that the subject proposal has a payback period of approximately 18 years, a long period for a project of this type, and, thus, a term of less than 20 years would reduce the amount of rent the proposed use could demand and, as a consequence, make the subject proposal financially unfeasible; and

WHEREAS, accordingly, the Board finds that the subject proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement ("EAS") CEQR No. 16BSA104R, dated January 26, 2017; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation

Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, by letter dated August 22, 2017, the New York City Department of Transportation ("DOT") states that the proposed use is expected to generate 106, 73 and 59 new trips during the weekday AM, midday and PM peak hours, respectively, and that the occurrence of deliveries between midnight and 5:00 a.m., when the establishment is closed, will ensure that the deliveries do not conflict with on-site circulation or parking; and

WHEREAS, DOT further states that the applicant has agreed to monitor the queue of the drive through and, in the case that the drive through queue exceeds seven cars, the applicant will coordinate with DOT to develop measures to ensure that the queue can be accommodated on-site and will not spill onto surrounding streets; and

WHEREAS, DOT concludes that the subject proposal will not have significant adverse traffic impacts and requests that, prior to opening, the applicant coordinate with DOT to ensure that appropriate signage and markings are installed on-site and on-street according to DOT standards and requirements, the design and installation of which will be at the applicant's expense; and

WHEREAS, by letters dated July 13, 2015, July 21, 2015, July 8, 2016, and July 18, 2016, DEC approved the BCP site Interim Remedial Measure ("IRM") Work Plan, Remedial Investigation Work Plan, Remedial Investigation Report ("RIR"), and Remedial Action Work Plan ("RAWP"), respectively; and

WHEREAS, in its letter dated July 8, 2016, DEC states that, on May 5, 2016, DEC, in conjunction with the New York State Department of Health determined that the site does not represent a significant threat to public health and/or the environment; and

WHEREAS, by letter dated June 7, 2016, DEC states that NYSDEC Permit No. 2-6405-00046/00005 previously issued for the site and set to expire on December 31, 2021, was modified to reflect the relocation of a planting area proposed at the site and that strict compliance with permit conditions is required including, among other things, the submittal of a "Notice of Intent to Commence Work" at least five days prior to the start of the permitted activity and submittal of a "Notice of Completion of Work" within ten days of the completion of work; and

WHEREAS, by email dated March 10, 2017, the Waterfront Open Space Division of the New York City Department of City Planning ("DCP"), which reviewed the proposal for consistency with the policies and intent of the New York City Waterfront Revitalization Program ("WRP") on behalf of the New York City Coastal Commission under WRP #16-080, states that, based on the information submitted, it finds that the proposed action will not substantially hinder the achievement of any WRP policy; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

# MINUTES

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

*Therefore, it is Resolved*, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 to permit, on a site located within an R3X zoning district, Use Group 6 eating and drinking establishment with a drive through, contrary to ZR § 22-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received August 14, 2017”-Ten (10) sheets; and *on further condition*:

THAT site shall be remediated pursuant to the Brownfield Cleanup Program administered by the New York State Department of Environmental Conservation (“DEC”), specifically in accordance with the June 2016 Decision Document issued by DEC, prior to the issuance of permits for the building;

THAT failure to satisfactorily complete the Brownfield Cleanup Program shall require amendment to this variance;

THAT shrubs shall be planted along with perimeter of the site to provide a dense buffer, as illustrated on the Board-approved plans, and such shrubs shall be maintained and replaced as necessary;

THAT a snow fence demarcation zone shall be installed beneath gravel on the site;

THAT the annunciator sound level of the menu board shall be permanently limited to prevent sound levels experienced at the lot lines the subject lot shares with residential uses does not exceed 40 dBA;

THAT prior to opening, the applicant and/or operator of the use shall coordinate with the New York City Department of Transportation (“DOT”) to ensure that appropriate signage and markings are installed on-site and on-street according to DOT standards and requirements, the design and installation of which shall be at the applicant and/or operator’s expense;

THAT the site shall operate pursuant to the following operational plan, submitted into the record by the applicant and herein adopted by the Board:

Management will monitor the drive-through queuing to ensure that the vehicles do not exceed seven cars. During times of peak operation of the drive-thru, internal staff will prioritize fulfilling drive-thru order to minimize service times and therefore, drive-thru queuing. In the event that more than seven cars are in the drive-through lane a representative from the establishment will direct the cars to park and place their order from the store until such time as the drive-thru queue is alleviated. For the infrequent larger, time consuming, drive-thru orders, the patron will be directed to pull forward and park and the order will be brought to them in order to allow the remaining drive-thru queue to be

processed without delay.”;

THAT in the case that the drive through queue exceeds seven cars, the applicant and/or operator of the use shall coordinate with DOT to develop measures to ensure that the queue can be accommodated on-site and will not spill onto surrounding streets;

THAT the Amboy Road curb cut shall remain exit only at all times;

THAT the retail store and drive through hours shall be limited to 5:00 a.m. to midnight excluding baking time, which may occur outside those hours;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a certificate of occupancy shall be obtained within four (4) years;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 22, 2017.

## 2016-4224-BZ

APPLICANT – Law Office of Lyra J. Altman, for Elie Fein, owner.

SUBJECT – Application July 1, 2016 – Special Permit (§73-622) for the enlargement of an existing single family home contrary to floor area, open space and lot coverage (ZR 23-141); side yards (ZR 23-461) and less than the required rear yard (ZR 23-47). R3-2 zoning district.

PREMISES AFFECTED – 1869 East 21<sup>st</sup> Street, Block 6804, Lot 63, Borough of Brooklyn.

## COMMUNITY BOARD #15BK

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated December 27, 2016, acting on Department of Buildings (“DOB”) Application No. 321358320 reads in pertinent part:

The proposed enlargement of the existing one family residence in an R3-2 zoning district:

1. Creates non-compliance with respect to floor area by exceeding the allowable floor area ratio and is contrary to Sections 23-142 of the Zoning Resolution;

---

# MINUTES

---

2. Creates non-compliance with respect to the lot coverage and open space and is contrary to Sections 23-142 of the Zoning Resolution;
3. Creates non-compliance with respect to the side yard by not meeting the minimum requirements of Section 23-461 of the Zoning Resolution;
4. Creates non-compliance with respect to the rear yard by not meeting the minimum requirements of Section 23-47 of the Zoning Resolution; and

WHEREAS, this is an application under ZR § 73-622 to permit, in an R3-2 zoning district, the proposed enlargement of a single-family two-story detached residence that does not comply with the zoning requirements for floor area ratio, lot coverage, open space, side yards and rear yards, contrary to ZR §§ 23-142, 23-461 and 23-47; and

WHEREAS, a public hearing was held on this application on June 20, 2017, after due notice by publication in *The City Record*, with a continued hearing on August 15, 2017, and then to decision on August 22, 2017; and

WHEREAS, Commissioner Ottley-Brown and former Commissioner Montanez performed inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of East 21st Street, between Quentin Road and Avenue R, in an R3-2 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 40 feet of frontage along East 21st Street, a depth of 100 feet and 4,000 square feet of lot area; and

WHEREAS, the site is occupied by a two-story single-family detached residence with 1,396 square feet of floor area, a floor area ratio ("FAR") of 0.35, 19 percent lot coverage, 81 percent open space, side yards measuring 4'-5" and 18'-5", a 42'-9.75" rear yard and a garage; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single- or two-family detached or semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit

Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage, open space, floor area, side yard, rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge an existing detached single-family residence, as contemplated by ZR § 73-622; and

---

# MINUTES

---

WHEREAS, the applicant proposes to remove the garage in the rear yard and enlarge the existing dwelling into side and rear yards and an extension of the existing second floor into the front yard, resulting in a dwelling with 3,447 square feet of floor area, 0.86 FAR, 45 percent lot coverage, 55 percent open space, side yards measuring 4'-5" and 9 feet and a 20 foot deep rear yard; and

WHEREAS, at the subject site, a maximum FAR of 0.50, maximum lot coverage of 35 percent and a minimum of 65 percent open space is required pursuant to ZR § 23-142; two sides yards, each at least 5 feet wide and having a combined width of at least 13 feet are required pursuant to ZR § 23-461; and a rear yard of not less than 30 feet is required pursuant to ZR § 23-47; and

WHEREAS, with regards to the existing non-complying 4'-5" side yard, which is proposed to be maintained, the applicant submitted a 1929 Belcher Hyde Map of the area demonstrating that a building was located at the site in substantially the same location as the existing building in or around 1929, prior to the 1961 Zoning Resolution; and

WHEREAS, the applicant submitted an analysis of single- or two-family dwellings located within 400 feet of the subject premises located within an R3-2 zoning district (the "Study Area") concluding that 19 out of the 88 dwellings (22 percent) have FARs greater than 0.50, ranging from 0.52 FAR to 0.99 FAR, including the dwellings on either side of the subject site and six dwellings directly across the street from the subject site, and 10 of the 17 in the Study Area located on the east side of East 21st street, the same side of the block as the subject site dwellings (59 percent) have FARs greater than 0.50, ranging from 0.53 FAR to 0.75 FAR; and

WHEREAS, in addition, 55 of the 88 dwellings in the Study Area (63 percent) have lot coverage greater than 35 percent (ranging from 36 percent lot coverage to 57 percent lot coverage) and less than 65 percent open space and 12 of the 45 dwellings on the subject block (27 percent) have rear yards of less than 30 feet, but 32 of those 45 dwellings (71 percent) have garages located in the rear yard that reduce their effective depths; and

WHEREAS, in light of the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

*Therefore it is Resolved*, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622, to permit, in an R3-2 zoning district, the proposed enlargement of a two-story single-family detached residence that does not comply with the zoning requirements for floor area ratio, lot coverage, open space, side yards and rear yards, contrary to ZR §§ 23-142, 23-461 and 23-47; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received August 18, 2017"-Seventeen (17) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area ratio of 0.86, a

maximum of 45 percent lot coverage, a minimum of 55 percent open space, side yards measuring at least 4'-5" and 9 feet in width and a rear yard of at least 20 feet, as illustrated on the BSA-approved plan; and

THAT all existing exterior walls and wall joists indicated to remain undisturbed on the BSA-approved plans shall remain or the special permit is void;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the special relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 22, 2017.

**ACTION OF THE BOARD** – Laid over to October 31, 2017, at 10 A.M., for continued hearing.

## REGULAR MEETING

TUESDAY AFTERNOON, AUGUST 22, 2017  
1:00 P.M.

Present: Chair Perlmutter, Vice-Chair Chanda, and Commissioner Ottley-Brown.

## ZONING CALENDAR

### 10-15-BZ

#### CEQR #15-BSA-143M

APPLICANT – Goldman Harris LLC, for Steven Elghanayan/Epic Lafayette LLC, owner; Kevin P. McGrath/Five Points Academy, lessee.

SUBJECT – Application January 15, 2015 – Special Permit (§73-36) to allow a physical culture establishment (*Five Points Academy*) in the cellar and ground floor of the premises, located within an M1-5B zoning district.

PREMISES AFFECTED – 148 Lafayette Street, Block 233, Lot 26, Borough of Manhattan.

#### COMMUNITY BOARD #2M

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Child Plan Examiner of the Manhattan Borough Office of the Department of Buildings (“DOB”), dated December 16, 2014, acting on DOB Application No. 122127796, reads in pertinent part:

ZR 42-10, ZR 73-36: The proposed Physical Culture Establishment in zoning district M1-5B is not a permitted use as of right. A Special Permit from the Board of Standards and Appeals per Section 73-36 of the Zoning Resolution [is required];

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, on a site located within an M1-5B zoning district, a physical culture establishment (“PCE”) located in portion of the ground floor and cellar level of an existing thirteen-story plus cellar commercial building, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on August 22, 2017, after due notice by publication in *The City Record*, and then to decision on that date; and

WHEREAS, Community Board 2, Manhattan, recommends approval of this application; and

WHEREAS, at hearing, one neighbor and one nearby business owner testified in support of this application; and

WHEREAS, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the

---

# MINUTES

---

northwest corner of Lafayette Street and Howard Street, in an M1-5B zoning district, in Manhattan; and

WHEREAS, the site has approximately 114 feet of frontage along Lafayette Street, 90 feet of frontage along Howard Street, 10,524 square feet of lot area and is occupied by a thirteen-floor plus cellar commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
  - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
  - (ii) a swimming pool of a minimum 1,500 square feet; or
  - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
  - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a

special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE occupies 2,069 square feet of floor area on the ground floor, consisting of an entry and reception area, locker rooms with showers and areas for weight lifting and suspension training, and 5,004 square feet of floor space in the cellar with a boxing ring, punching bags, weightlifting and cardiovascular exercise areas and storage; and

WHEREAS, the PCE has been in operation as Five Point Academy since June 2014 with the following hours of operation: Monday through Friday, 5:30 a.m. to 9:30 p.m., Saturday 7:00 a.m. to 3:00 p.m. and Sunday 9:00 a.m. to 3:00 p.m.; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because it is located in a commercial building in an area with buildings containing commercial retail and restaurant uses on the ground floor and commercial or residential uses on the upper floors; that operation of the PCE at the subject site will not adversely affect adjacent uses, which, on the ground floor, include a retail art supply store and the entrance lobby for offices located on the floors above and, in the cellar, include accessory storage and mechanical spaces for the building; and that the PCE use provides physical improvement instruction valuable to people who live and work in the surrounding area; and

WHEREAS, additionally, the applicant states that sound attenuation measures—including rubber mats, interlocking rubber flooring and 2-hour rated concrete and gypsum board demising walls separating portions of the PCE space from adjacent uses—have been installed in the PCE space to mitigate any sound transmission associated with the use; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE provides

# MINUTES

facilities for suspension and weight training, yoga classes, cardiovascular machines, and martial arts instruction for physical improvement as contemplated by the special permit; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant states the subject space was previously occupied by a retail tenant and that the sprinklers and fire alarm systems—including smoke detectors, manual pull stations, local audible and visual alarms and a connection to an FDNY-approved central station—installed in connection with the prior use remain sufficient for the safe operation of the subject PCE; in addition, the applicant submitted DOB and FDNY signoffs for the existing fire alarm system in the subject space; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, the applicant represents that the PCE will not interfere with any public improvement projects; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated at the premises without the special permit; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 15-BSA-143M, dated January 15, 2015; and

*Therefore it is Resolved*, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to legalize, on a site located in an M1-5B zoning district, the operation of a physical culture establishment on portions of the ground floor and cellar level of an existing thirteen-story plus cellar commercial building, contrary to ZR § 42-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received August 23, 2017” – Eight (8) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on June 1, 2024;

THAT sound attenuation measures shall be maintained as indicated on the Board-approved plans to ensure that the subject use does not violate the New York City Noise Code;

THAT there will be no change in ownership or

operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance under Local Law 58/87 will be as reviewed and approved by DOB;

THAT the existing fire alarm and sprinkler systems shall be maintained as indicated on the Board-approved plans;

THAT minimum 3 foot wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT a revised Certificate of Occupancy shall be obtained within one (1) year;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 22, 2017.

same date; and

WHEREAS, this application is brought on behalf of the property owner by the Build It Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in furtherance of the City's effort to rebuild residences impacted by Superstorm Sandy expeditiously and effectively, the Board, pursuant to 2 RCNY § 1-14.2, waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1-05.1 (Objection Issued by the Department of Buildings); (2) 2 RCNY § 1-05.3 (Filing Period); (3) 2 RCNY § 1-05.4 (Application Referral); (4) 2 RCNY § 1-05.6 (Hearing Notice); (5) 2 RCNY § 1-05.7 (List of Affected Property Owners); (6) 2 RCNY § 1-09.4 (Owner's Authorization); and (7) 2 RCNY § 1-10.7 (Proof of Service for Application Referral and Hearing Notice); and

WHEREAS, the Board notes that the subject application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the east side of Doty Avenue, between Robin Road and Father Capodanno Boulevard, in an R3-1 zoning district, on Staten Island; and

WHEREAS, the site has approximately 40 feet of frontage along Doty Avenue, 45 feet of depth, 1,800 square feet of lot area and is occupied by a two-story single-family detached residence; and

WHEREAS, the applicant now seeks a special permit, pursuant to ZR § 64-92, to allow the reconstruction of a one-family detached residence with a front yard 13 feet in depth; and

WHEREAS, at the subject site, front yards must be 15 feet in depth under ZR § 23-45; and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments* and *enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Section 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

(a) that there would be a practical difficulty in complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;

- (b) that any modifications of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, in accordance with ZR § 64-92(a), the need to reconstruct the existing residence, which, as it exists, is non-compliant with lot-area and front-yard regulations, creates practical difficulties in complying with flood-resistant construction standards without the modification of the front-yard requirement and that waiver of the same is the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the finding pursuant to ZR § 64-92(b) is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the residence is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; the applicant further states that the majority of residences within the surrounding neighborhood are similar detached residences; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed reconstruction satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18BSA015Q, dated August 14, 2017.

*Therefore, it is Resolved*, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure; *issues* a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review; and makes the required findings under ZR § 64-92 to *permit*, in an R3-1 zoning district, the reconstruction of a single-family detached residence in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards, contrary to ZR § 23-45; *on condition* that all work shall substantially conform to the drawings filed with this application and marked "Received

# MINUTES

August 14, 2017”- Three (3) sheets; and *on further condition:*

THAT there shall be a front yard at least 13 feet in depth, as illustrated on the Board-approved plans;

THAT the residence shall be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code;

THAT the underside of the exterior of the residence where the foundation is not closed shall have a floor assembly that provides a 2-hour fire resistance rating;

THAT the height from grade plane to the highest windowsill leading to a habitable space may not exceed 32 feet;

THAT the foundation system shall have a 2-hour fire resistance rating in accordance with Section 601 of the New York City Building Code;

THAT the exterior walls, ceilings and interior floors shall have 1-hour fire resistance ratings;

THAT this approval shall be limited to the Build It Back program;

THAT all DOB and related agency application(s) filed in connection with the authorize use and/or bulk shall be signed off by DOB and all other relevant agencies by August 22, 2021;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 22, 2017.

---

BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

- (a) that there would be a practical difficulty in complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;
- (b) that any modifications of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, in accordance with ZR § 64-92(a), the need to reconstruct the existing residence, which, as it existed, was non-compliant with regulations for permitted obstructions and open areas between residential buildings, creates practical difficulties in complying with flood-resistant construction standards without the modification of the requirements for permitted obstructions and for open areas between buildings and that waiver of the same is the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the finding pursuant to ZR § 64-92(b) is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the residence is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the majority of residences within the surrounding neighborhood are single-family residences, a significant number of which are on lots that have non-complying yard configurations; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed reconstruction

and enlargement satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18BSA017X, dated August 16, 2017.

*Therefore, it is Resolved*, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure; *issues* a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review; and makes the required findings under ZR § 64-92 *to permit*, in a C3A zoning district, the reconstruction and enlargement of a single-family detached residence in compliance with flood-resistant construction standards that does not comply with the zoning requirements for permitted obstructions in required yards and open areas between residential buildings, contrary to ZR §§ 23-44(a)(7) and 23-461(c); *on condition* that all work shall substantially conform to the drawings filed with this application and marked "Received August 16, 2017"- Four (4) sheets; and *on further condition*:

THAT eaves and gutters shall project no more than 12 inches into the north side yard, and there shall be at least 6'-5" feet of separation between the proposed building and the residential building to the north, as illustrated on the Board-approved plans;

THAT the building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code;

THAT the exterior walls, floors and ceilings of the residence shall have 1-hour fire resistance rating;

THAT the residence shall be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code;

THAT the underside of the exterior of the residence where the foundation is not closed shall have a floor assembly that provides a 2-hour fire resistance rating;

THAT the height from grade plane to the highest windowsill leading to a habitable space may not exceed 32 feet;

THAT this approval shall be limited to the Build It Back program;

THAT all DOB and related agency application(s) filed in connection with the authorize use and/or bulk shall be signed off by DOB and all other relevant agencies by August 22, 2021;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

**THE RESOLUTION** –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to permit, in an R4-1 zoning district, the reconstruction of a single-family detached residence in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards, side yards, rear yards, open space and lot coverage, contrary to ZR §§ 23-45, 64-A351, 23-461(a), 64-A353, 23-47, 64-A353, 23-142, 64-A311; and

WHEREAS, a public hearing was held on this application on August 22, 2017, and then to decision on the same date; and

WHEREAS, this application is brought on behalf of the property owner by the Build It Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in furtherance of the City’s effort to rebuilt residences impacted by Superstorm Sandy expeditiously and effectively, the Board, pursuant to 2 RCNY § 1-14.2, waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1-05.1 (Objection Issued by the Department of Buildings); (2) 2 RCNY § 1-05.3 (Filing Period); (3) 2 RCNY § 1-05.4 (Application Referral); (4) 2 RCNY § 1-05.6 (Hearing Notice); (5) 2 RCNY § 1-05.7 (List of Affected Property Owners); (6) 2 RCNY § 1-09.4 (Owner’s Authorization); and (7) 2 RCNY § 1-10.7 (Proof of Service for Application Referral and Hearing Notice); and

WHEREAS, the Board notes that the subject application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the northeast corner of Stanton Road and Gunnison Court, in an R4-1 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 35 feet of frontage along Stanton Road, 55 feet of frontage along

Gunnison Court, 1,907 square feet of lot area and is occupied by a single-family detached residence; and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 22, 2016, when, under BSA Cal. No. 2016-410-A, the Board granted a waiver of General City Law (“GCL”) § 36 permitting the elevation or reconstruction of a single-family residence that does not front on a mapped street; and

WHEREAS, the waiver was conditioned, inter alia, upon the reconstructed residence having a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code; the residence being provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code; the underside of the exterior of the residence where the foundation is not closed having a floor assembly that provides a 2-hour fire resistance rating; and the height from grade plane to the highest windowsill leading to a habitable space not exceeding 32 feet; and

WHEREAS, the applicant now seeks a special permit, pursuant to ZR § 64-92, to allow the reconstruction of a two-story single-family detached residence with 13’-4” feet of open space along the east lot line, 13 feet of open space along the south lot line, 6’-6” of open space along the west lot line, 3 feet of open space along the north lot line, 1,100 square feet of open space and 40 percent lot coverage, contrary to the zoning requirements for front yards, side yards, rear yards, open space and lot coverage; and

WHEREAS, at the subject site, front-yard, side-yard, rear-yard, open-space and lot-coverage requirements are set forth in ZR §§ 23-45, 64-A351, 23-461(a), 64-A353, 23-47, 64-A353, 23-142, 64-A311; and

WHEREAS, the subject site does not front a “street,” as defined in ZR § 12-10, and is accessed, instead, by a private pathway, allowing ingress and egress to the surrounding public streets; and

WHEREAS, consequently the subject site lacks a “front lot line,” a “front yard,” a “rear lot line,” a “rear yard” and “side yards,” as those terms are defined in the same section and, therefore, proposes open space, in lieu of yards, along its lot lines and seeks waivers of the applicable yard regulations; and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments* and *enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Section 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning

---

# MINUTES

---

Resolution, except *floor area ratio* regulations, provided the following findings are made:

- (a) that there would be a practical difficulty in complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;
- (b) that any modifications of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, in accordance with ZR § 64-92(a), the need to reconstruct the existing residence, which, as it exists, is non-compliant with regulations for lot size, front yards, rear yards, side yards, open space and lot coverage, creates practical difficulties in complying with flood-resistant construction standards without the modification of the yard, open-space and lot-coverage requirements and that waiving the same is the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the finding pursuant to ZR § 64-92(b) is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the residence is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed reconstruction satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18BSA018K, dated August 16, 2017.

Therefore, it is Resolved, that the Board of Standards and Appeals waives its Rules of Practice and Procedure and issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of

Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92 to *permit*, in an R4-1 zoning district, the reconstruction of a single-family detached residence in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards, side yards, rear yards, open space and lot coverage, contrary to ZR §§ 23-45, 64-A351, 23-461(a), 64-A353, 23-47, 64-A353, 23-142, 64-A311; *on condition* that all work shall substantially conform to the drawings filed with this application and marked "Received August 16, 2017"-Four (4) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: a minimum of 13'-4" feet of open space along the east lot line, a minimum of 13 feet of open space along the south lot line, a minimum of 6'-6" of open space along the west lot line, a minimum of 3 feet of open space along the north lot line, with exterior balconies, stairs, eaves and gutters permitted in the required open space, a minimum of 1,100 square feet of open space and a maximum of 40 percent lot coverage, as illustrated on the Board-approved plans;

THAT the building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code;

THAT the residence shall be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code;

THAT the underside of the exterior of the residence where the foundation is not closed shall have a floor assembly that provides a 2-hour fire resistance rating;

THAT the height from grade plane to the highest windowsill leading to a habitable space may not exceed 32 feet;

THAT this approval shall be limited to the Build It Back program;

THAT all DOB and related agency application(s) filed in connection with the authorize use and/or bulk shall be signed off by DOB and all other relevant agencies by June 27, 2021;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 22, 2017.

## REGULAR MEETING TUESDAY MORNING, SEPTEMBER 12, 2017 10:00 A.M.

Present: Chair Perlmutter, Vice-Chair Chanda, and Commissioner Ottley-Brown.

### SPECIAL ORDER CALENDAR

#### 418-50-BZ

APPLICANT – Law Office of Stuart Klein, for WOTC Tenants’ Corp., owner.

SUBJECT – Application November 21, 2014 – Amendment seek to modify the grant to allow for the addition of 98 parking spaces and the development of a clubhouses which will provide additional amenities and recreation space for the sole use and enjoyment of the residents at the premises, located in an R3-2 zoning district.

PREMISES AFFECTED – 73-69 217<sup>th</sup> Street (Block 7739, Lot 3); 73-36 Springfield Boulevard (Block 7742, Lot 3); 219-02 74<sup>th</sup> Avenue (Block 7754, Lot 3); 73-10 220<sup>th</sup> Street (Block 7755, Lot 3), Borough of Queens.

#### COMMUNITY BOARD #11Q

**ACTION OF THE BOARD** – Withdrawn without prejudice.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice Chair Chanda and Commissioner Ottley-Brown .....3

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application to amend a variance, previously granted by the Board, to permit the addition of additional parking spaces and clubhouse with amenity and recreational space on the site; and

WHEREAS, a public hearing was held on this application on May 2, 2017, after due notice by publication in *The City Record*, with a continued hearing on September 12, 2017, and then to a vote on that date; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 11, Queens, recommends disapproval of the application, citing concerns from residents living adjacent to the site voiced at the community board meeting regarding the proposal to build within the 100 foot buffer between the subject site and its neighbors provided by a prior Board grant; that additional parking space will add to pollution; and that a proposed driveway entrance would be unsafe; and

WHEREAS, the Board was in receipt of letters from New York State Assemblyman David I. Weprin and New York State Senator Tony Avella in opposition to the subject application and letters from New York City Council Member Barry S. Grodenchik requesting that the applicant adequately maintain the 100 foot buffer area in compliance with a prior Board grant; and

WHEREAS, Assemblyman Weprin, Senator Avella and Council Member Grodenchik additionally provided oral

testimony in opposition to the application; and

WHEREAS, the subject site is comprised of three tax blocks, within an R3-2 zoning district—Block 7739 bound by 217<sup>th</sup> Street to the west, 73<sup>rd</sup> Avenue to the north, 220<sup>th</sup> Street to the east, 74<sup>th</sup> Avenue to the southeast and 75<sup>th</sup> Avenue to the south; Block 7742 bound by 220<sup>th</sup> Street to the west, 73<sup>rd</sup> Avenue to the north, Springfield Boulevard to the east and 75<sup>th</sup> Avenue to the south; and Block 7755 bound by 74<sup>th</sup> Avenue to the west, 220<sup>th</sup> Street to the north and east and 75<sup>th</sup> Avenue to the south—and Lot 3 on Block 7754, which is bound by 217<sup>th</sup> Street to the west, 75<sup>th</sup> Avenue to the north, Springfield Boulevard to the east and 77<sup>th</sup> Avenue to the south, and is partially located within an R3-2 zoning district and partially located within an R2A zoning district, in Queens (the “Premises”); and

WHEREAS, the site has approximately 1,788,036 square feet of lot area and is occupied by 449 two-family dwelling units and 749 accessory off-street parking spaces; and

WHEREAS, the Premises is otherwise known as Windsor Oaks, a cooperative apartment complex, and this application was filed on behalf of the Windsor Oaks Tenants’ Corporation; and

WHEREAS, the Board was in receipt of petitions from residents of Windsor Oaks, one group in favor of the proposal and another in opposition to the proposal, as well as letters in opposition to the proposal from residents and homeowners of the surrounding area; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 25, 1950, when, under the subject calendar number, the Board granted a variance to permit the construction of more than one building on the lot without the required yards and courts and the parking of motor vehicles belonging to the residents of the proposed buildings (the “1950 Variance”); and

WHEREAS, on July 3, 1951, under the subject calendar number, the Board amended the resolution to permit an extension of time to obtain permits and complete work under the 1950 Variance; and

WHEREAS, the 1950 Variance was conditioned, *inter alia*, on the southern portion of Block 7754, Lot 3 being maintained unbuilt upon, as then-proposed, with fencing along the lot lines to the south, east and west, and planted for a depth of 100 feet from the southerly line with grass, trees and shrubs with existing trees to be retained as possible; that the planting in the area be suitable and maintained at all times in good condition; that no playground or picnic grounds and no benches or similar facilities be located within the strip 100 feet in width adjoining the southerly lot line; and that no parking or storage of motor vehicles on any portion of the space within 150 feet of the southerly lot line (the “Buffer Zone”); and

WHEREAS, the applicant now proposes to modify the 1950 Variance to permit, within the Buffer Zone, the construction of a new driveway, 98 additional parking spaces and a clubhouse having approximately 5,000 square feet of floor area with amenity and recreation space for the use of Windsor Oaks residents; and

WHEREAS, at hearing, Commissioners requested that the applicant explore alternative locations for the proposed

---

# MINUTES

---

clubhouse and parking outside of the Buffer Zone in light of the vastness of the Premises and the specificity of the 1950 Variance grant in ensuring that the Buffer Zone be maintained undeveloped; Commissioners additionally noted the concerns of community members in opposition to the proposed amendment to the variance, including residents of homes located on Block 7754 to the south of the Buffer Zone, outside of Windsor Oaks, who, in the more than 60 years of its existence, have come to rely on and enjoy the unimproved greenspace; and

WHEREAS, the Greenbelt Neighborhood Alliance, represented by counsel, testified in opposition to the application, suggesting that its scale was such that a new variance application was required, citing the fact that the subject proposal would reduce the size of the Buffer Zone by nearly half; and

WHEREAS, additional testimony in opposition to the application was provided at hearing by members of the public, voicing concerns that the applicant has not been properly maintaining the Buffer Zone and has, instead, used it as a dumping ground for trash, household garbage and landscaping waste; the Board also heard testimony against the proposed driveway, specifically, concerns that it would exacerbate the already dangerous pedestrian traffic conditions in the area, against the proposed location of additional parking within the Buffer Zone, alleging that there were more suitable locations for additional parking than the Buffer Zone, and that the proposal, as a whole, would adversely impact both the environment and quality of life in the area; and

WHEREAS, by letter dated September 8, 2017, a representative of the Windsor Oaks Board of Directors requested that the subject application be withdrawn without prejudice, alleging that the Board had a “pre-textual agenda and chose to ignore the recommendations of its own staff” with regards to permitting development within the Buffer Zone and criticizing suggestions made by the Board to amend the proposal as, among other things, “ludicrous”, “disingenuous,” “defy[ing] credulity” and “clear[ly] ignoran[t]”; and

WHEREAS, at the September 11, 2017, executive session, the Board clarified that staff review and comments are not indicative of Board approval and are, instead, meant to ensure that an application is complete prior to Commissioner review; further, Commissioners read all submissions on an application—both those by the applicant and those submitted by opposition—prior to formulating their views, which are then expressed to the public, and it is the applicant’s responsibility, to the extent they believe that the Board’s understanding of the proposal is flawed, to clarify the application materials and correct the Board’s understanding; and

WHEREAS, in addition, the Board requested that, in light of the evidence presented by opposition that the Premises were out of compliance with the 1950 Variance grant—specifically, that the Buffer Zone was not being properly maintained—a compliance hearing be scheduled for this application and requested that in advance of that hearing, the applicant inspect the Buffer Zone and initiate any work required to ensure compliance of the Buffer Zone with the conditions of the 1950 Variance; and

Therefore, it is Resolved, that the Board of Standards and Appeals accepts the withdrawal of this application without prejudice.

Adopted by the Board of Standards and Appeals, September 12, 2017.

**949-57-BZ**

APPLICANT – Akerman, LLP, for Pelham Bridges Realities, LLC, owner; NY Dealers Stations, LLC, owner.  
SUBJECT – Application July 7, 2015 – Extension of Term (§11-411) of a previously approved variance permitting the operation of an Automotive Service Station (UG 16B) which expired on October 29, 2014; Waiver of the Rules. R5D zoning district.

PREMISES AFFECTED – 2100 Williamsbridge Avenue, Block 4310, Lot 30, Borough of Bronx.

**COMMUNITY BOARD #11BX**

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice Chair Chanda and Commissioner Ottley-Brown .....3  
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and, pursuant to ZR §11-411, an extension of the term of a variance, previously granted by the Board, which expired on October 29, 2014; and

WHEREAS, a public hearing was held on this application on September 20, 2016, after due notice by publication in *The City Record*, with continued hearings on January 31, 2017, and March 7, 2017, May 2, 2017, and June 27, 2017, M, and then to decision on September 12, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown, former Vice-Chair Hinkson and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 11, Bronx, waived its recommendation on this application; and

WHEREAS, the subject site is located on the northeast corner of Williamsbridge Road and Lydig Avenue, in an R5D zoning district, in the Bronx; and

WHEREAS, the site has approximately 100 feet of frontage along Williamsbridge Road, 86 feet of frontage along Lydig Avenue, 9,210 square feet of lot area and is occupied by an automotive service station; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 8, 1958, when, under the subject calendar number, the Board granted a variance to permit the construction and maintenance of a gasoline service station with accessory uses, including a car wash, lubricatorium, minor repairs with hand tools only and office, and the locating of show windows and business entrances within 75 feet of a residence district for a term of fifteen (15) years, expiring July 8, 1973; and

---

# MINUTES

---

WHEREAS, on October 31, 1961, under the subject calendar number, the Board granted a one-year extension of time to complete construction; and

WHEREAS, on September 25, 1962, under the subject calendar number, the variance was amended to permit redesign and rearrangement of the service station, but prohibiting a proposed fluorescent floodlight on Lydig Avenue near the easterly lot line; and

WHEREAS, on May 14, 1963, under the subject calendar number, the Board approved an amendment to the variance to permit a reduction in the width of the accessory building and the addition of a crawl space on the second floor of the same as well as a one-year extension of time to complete construction; and

WHEREAS, on October 29, 1974, under the subject calendar number, the Board waived its Rule of Procedure and granted an extension of the term of the variance for ten (10) years, expiring October 29, 1984; and

WHEREAS, on November 28, 1978, under the subject calendar number, the Board further amended the resolution to permit alterations to the existing ground sign advertising the brand of gasoline on sale to include the wording auto care; and

WHEREAS, on April 30, 1985, under the subject calendar number, the Board granted a waiver of its rules and an extension of the term of the variance for ten (10) years, expiring October 29, 1994, on condition that the parking and storage of motor vehicles on the premises shall be for vehicles awaiting service only; that there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic; and that a new certificate of occupancy be obtained within one (1) years; and

WHEREAS, May 9, 1995, under the subject calendar number, the Board again waived its rules and granted an extension of the term of the variance for ten (10) years, expiring October 29, 2004, on condition that there be no storage behind the building on the premises and that a new certificate of occupancy be obtained within one (1) years; and

WHEREAS, on November 9, 2004, under the subject calendar number, the Board again extended the term of the variance for ten (10) years, expiring October 29, 2014, and an amendment permitting the conversion of the repair bay structure to an accessory convenience store on condition that the premises be maintained free of debris and graffiti and that any graffiti located on the premises be removed within 48 hours; and

WHEREAS, the previous term having expired, the applicant seeks a further extension of the term for an additional ten (10) years; and

WHEREAS, the applicant also requests a waiver, pursuant to § 1-14.2 of the Board's Rules of Practice and Procedure, of Rule § 1-07.3(b)(2) to permit the filing of this application less than two years after the expiration of the term; and

WHEREAS, the applicant represents that the use has been continuous since the expiration of the term and that substantial prejudice would result without the requested

waiver; and

WHEREAS, at hearing, the Board observed via photos of the site that the premises were maintained in poor condition—specifically, fencing at the site required repairs; materials were improperly stored outdoors, and an air conditioning unit and a temporary shed were located in rear of the accessory building on the site, contrary to the 1995 Board approval—and that signage in excess of that permitted was present on the site; and

WHEREAS, accordingly, the Board requested that certain site improvement work be completed at the premises prior to the Board's voting on this application, including removal of excess signage from the site, removal of the temporary shed from behind the accessory building, repairs to the chain link fence enclosure, addition of landscaping to the rear of the accessory building to prevent improper use of this area for storage, the relocation of a dumpster from adjacent to a residential property to the east of the site to adjacent to a commercial use to the north of the site and the installation of a wrought iron picket fence above the existing brick wall to a total height of 8 feet; and

WHEREAS, the applicant having satisfactorily addressed the Board's concerns regarding the site's appearance and maintenance, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 11-411 and finds that a ten (10) year extension of the term of the variance is appropriate with certain conditions as set forth below.

*Therefore, it is Resolved*, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated July 8, 1958, as amended through November 9, 2004, so that as amended this portion of the resolution reads: “to grant an extension of the term of the variance for a term of ten (10) years from the expiration of the last grant to expire on October 29, 2024, *on condition* that all work and site conditions shall comply with drawings filed with this application marked ‘Received June 8, 2017-Eight (8) sheets; and *on further condition*:

THAT the premises shall be maintained free of debris and graffiti;

THAT graffiti located at the premises shall be removed within 48 hours;

THAT building walls and masonry fencing shall be painted regularly and be maintained in good condition;

THAT all planting, fencing, asphaltting and striping at the site shall be maintained as shown on the BSA-approved plans and replaced as necessary to maintain the site in good condition;

THAT all signage shall comply with regulations applicable in C1 zoning districts;

THAT a sound attenuating enclosure shall be installed around the air conditioning unit located in the rear of the accessory building on the site;

THAT there shall be no storage behind the accessory building on the premises;

THAT the above conditions shall appear on the certificate of occupancy;

THAT all conditions from prior resolutions not

---

# MINUTES

---

specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, September 12, 2017.

THE VOTE TO GRANT –

Affirmative: .....0

Negative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and, pursuant to ZR § 11-411 and § 1-05 et seq. of the Board’s Rules, a reinstatement of a variance previously granted by the Board, which expired on September 23, 1990; and

WHEREAS, a public hearing was held on this application on March 24, 2015, after due notice by publication in *The City Record*, with continued hearings on July 14, 2015, October 20, 2015, December 15, 2015, February 23, 2016, June 14, 2016, September 13, 2016, January 10, 2017, April 4, 2017, and June 27, 2017, and then to decision on September 12, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown, former Vice-Chair Hinkson and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 7, Queens, recommended approval of this application for a term of five (5) years instead of ten (10) years, as requested by the applicant; and

WHEREAS, the subject site is located on the southeast corner of Main Street and Maple Avenue, partially within an R6 (C1-2) zoning district and partially within an R6 zoning district, in Queens; and

WHEREAS, the site has approximately 118 feet of frontage along Main Street, 211 feet of frontage along Maple Avenue, 31,500 square feet of lot area and is occupied by a two-story plus mezzanine Use Group (“UG”) 6 commercial building and accessory parking lot; and

WHEREAS, the Board has exercised jurisdiction over the subject site since May 11, 1954, when, under BSA Cal. No. 889-53-BZ, the Board granted a variance to permit a portion of the premises to be occupied by transient parking of motor vehicles belonging to employees and patrons of the then-proposed two-story plus cellar commercial building for a term of five (5) years, expiring May 11, 1959; and

WHEREAS, on December 1, 1959, March 23, 1965,

June 30, 1970, September 23, 1975, January 6, 1981, and May 3, 1988, under BSA Cal. No. 889-53-BZ, the Board granted extensions of the term of the variance for additional five (5) year terms, the latest of which expired on September 23, 1990; and

WHEREAS, the previous term having expired, the applicant seeks a further extension of the term of the variance for an additional ten (10) years; and

WHEREAS, the applicant additionally requests a waiver, pursuant to § 1-14.2 of the Board’s Rules of Practice and Procedure, of § 1-07.3(b)(4)(i) to permit the filing of this application more than ten (10) years after the expiration of the term; and

WHEREAS, the applicant represents that the use has been continuous since the expiration of the term and that substantial prejudice would result without the requested waiver; and

WHEREAS, at the time of the filing of this application with the Board, the premises had 20 open Department of Buildings (“DOB”) violations and 16 open Environmental Control Board (“ECB”) violations, the majority of which were related to the subject of this variance; and

WHEREAS, the applicant asserts that the delay in filing this application was due to the tenant’s ignorance that site was subject to a variance and that the term of the variance had expired; and

WHEREAS, the applicant states that after the last extension of term grant in 1988, the commercial building on the site was enlarged, necessitating the provision of an additional 16 parking spaces at the site, which the applicant submits are accommodated within the portion of the subject lot located within a C1-2 zoning district and through a reciprocal parking agreement for 10 parking spaces on an adjacent lot; and

WHEREAS, at the Board’s request the applicant amended the site plan to accommodate all parking spaces required for the commercial building on site using triple stackers; and

WHEREAS, the applicant subsequently submitted several amended site plans with altered layouts for parking at the site; and

WHEREAS, nevertheless, over the course of the many hearings held on this application, the Board grew frustrated with the applicant’s lack of responsiveness to the Board’s request for physical improvements to the site, continued accrual of DOB violations, failure to timely pay outstanding fines and failure to install the stackers needed to provide all of the required parking for the UG 6 use on the subject site; and

WHEREAS, accordingly, the Board finds that the evidence in the record does not support a reinstatement of the subject variance pursuant to ZR § 11-411 and such variance has, accordingly, expired.

*Therefore, it is Resolved*, that the application for a waiver of the Board’s Rules of Practice and Procedure and reinstatement of a variance previously granted by the Board, pursuant to ZR § 11-411, is *denied*.

Adopted by the Board of Standards and Appeals,

**2016-4299-BZ**

**CEQR #17-BSA-038K**

APPLICANT – Jesse Masyr, Esq., Fox Rothschild LLP, for Thor 280 Richards Street, LLC, owner.

SUBJECT – Application November 4, 2016 – Special Permit (§73-44) to permit the reduction of required accessory off-street parking spaces for a UG 6B office use (PRC-B1). M3-1 zoning district.

PREMISES AFFECTED – 280 Richards Street, Block 612, Lot 150, Borough of Brooklyn.

**COMMUNITY BOARD #6BK**

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice Chair Chanda and Commissioner Ottley-Brown .....3

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated October 13, 2016, acting on DOB Application No. 321183465 reads in pertinent part:

ZR 44-21: The number of accessory parking spaces that shall be provided for Use Group 6B Office use do not comply with ZR 44-21; and

WHEREAS, this is an application under ZR §§ 73-44 and 73-03 to permit, on a site located within an M3-1 zoning district, the reduction in the number of required accessory parking spaces for a Use Group (“UG”) 6B office from 2,048 spaces to 1,024 spaces, contrary to ZR § 44-21; and

WHEREAS, a public hearing was held on this application on June 27, 2017, after due notice by publication in *The City Record*, with a continued hearing on September 12, 2017, and then to decision on that date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and the surrounding neighborhood; and

WHEREAS, Community Board 6, Brooklyn, recommends approval of this application on condition that the existing cobblestones on Richards Street be preserved and maintained; that the applicant enter a binding agreement regarding alternative off-site accessory parking spaces; and that ten percent of the proposed parking spaces be set aside as free parking to allow for mix of visitors from a broader range of income levels to access the site; and

WHEREAS, the subject site is a waterfront lot located on the west side of the intersection of Beard Street and Richard Street, bound on the remaining three sides by the Erie Basin, in an M3-1 zoning district, in Brooklyn; and

WHEREAS, the site is additionally located in the New York City Waterfront Revitalization Program (“WRP”) Coastal Zone Boundary and a Zone AE flood zone on FEMA’s 2015 Preliminary Flood Insurance Rate Map; and

WHEREAS, the site has approximately 587 feet of frontage along Beard Street and 696,580 square feet of lot area, of which approximately 451,618 square feet are landward of the bulkhead line, and is currently vacant; and

WHEREAS, the applicant proposes to construct a five-story commercial building with approximately 614,430 zoning square feet of UG 6B office use and 24,118 zoning square feet of UG 6A retail use and below-grade accessory parking facility with 1,014 attended parking spaces and 90 self-parking spaces; and

WHEREAS, pursuant to ZR § 44-21, 2,128 parking spaces—2,048 parking spaces for the UG 6B office use and 80 parking spaces for the UG 6A retail use—are required for the proposed use, calculated at a rate of one space per 300 square feet of floor area; and

WHEREAS, the applicant proposes to provide the 80 parking spaces generated by the UG 6A retail use and seeks the subject relief to reduce the number of parking spaces provided for the UG 6B use from 2,048 to 1,024; and

WHEREAS, ZR § 73-44 provides as follows:

In the districts indicated, the Board of Standards and Appeals may permit a reduction in the number of *accessory* off-street parking spaces required by the provisions of Section 36-21 or 44-21 (General Provisions) for ambulatory diagnostic or treatment facilities listed in Use Group 4 and *uses* in parking requirement category B1 in Use Group 6, 7, 8, 9, 10, 11, 14 or 16 to the applicable number of spaces specified in the table set forth at the end of this Section, provided that the Board finds that occupancy by ambulatory diagnostic or treatment facilities listed in Use Group 4 or *uses* in parking category B1 is contemplated in good faith on the basis of evidence submitted by the applicant. In such a case the Board shall require that the certificate of occupancy issued for the *building* within which such *use* is located shall state that no certificate of occupancy shall thereafter be issued if the *use* is changed to a *use* listed in parking category B unless additional *accessory* off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius.

**REDUCED ACCESSORY OFF-STREET  
PARKING SPACES REQUIRED FOR

---

for storage; and

WHEREAS, pursuant to ZR § 73-44, the Board may reduce the required parking for a UG 6 use at the subject site from one space per 300 square feet of floor area to one space per 600 square feet of floor area provided that the Board finds that such occupancy is contemplated in good faith; and

WHEREAS, the applicant submitted a signed letter from its broker and marketing materials produced by the same relating to efforts to lease space in the proposed building for office use, particularly to businesses in the technology, advertising, media and information industries; additionally, the applicant provided an affidavit from an authorized representative affirming that the UG 6B office use is contemplated in good faith; and

WHEREAS, the Board finds that the proposed UG 6B office use at the subject site is contemplated in good faith; and

WHEREAS, the Board notes that its determination is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04, inclusive; and

WHEREAS, in satisfaction of ZR § 73-03(a), the applicant provided a parking demand analysis demonstrating that the proposed development will generate a peak hour demand on weekdays between 10:00 a.m. and 11:00 a.m. and 2:00 p.m. and 3:00 p.m. of 907 parking spaces; and

WHEREAS, the peak hour demand assumes a 40 percent auto share, despite data for the Red Hook census tract that 47 percent of workers in the area drive to work, and, in defense of that assumption, the applicant points to another recent development in Brooklyn—the Brooklyn Navy Yard—occupied by tenants similar in profile to those anticipated to occupy the subject development and situated a similar distance from public transportation that has a 42 percent auto share; the applicant further submits that the parking demand analysis has taken the high use of alternative taxi modes of transportation—specifically Uber and Lyft—to further justify the assumption of a lower auto share; and

WHEREAS, at hearing, the Board questioned the comparability of the Brooklyn Navy Yard development, which is easily accessible by bike from many of the neighborhoods in which its workers reside and also runs a shuttle bus to the site from a variety of nearby subway lines; and

WHEREAS, accordingly, the Board suggested that, similar to the Brooklyn Navy Yard, the subject proposal operate a regular shuttle bus to the site from nearby subway lines, the nearest of which, the applicant submits, is one mile away; and

WHEREAS, in response to the Board's inquiries, the applicant supplemented its parking demand analysis with an alternative study utilizing a 47 percent auto share demonstrating that, during the same peak hours, the demand at the site will be 1,065 parking spaces, 39 spaces fewer than the number of spaces proposed; and

WHEREAS, additionally, at hearing, the applicant agreed that providing a shuttle would remove any doubt that

the proposed reduction in accessory parking spaces can satisfy the parking demand of the proposed UG 6B office use and proposed that the most appropriate trigger for when a shuttle to and from the site would commence operation was 50 percent occupancy of the zoning square footage of the UG 6B office use; and

WHEREAS, with respect to the impact of the parking facility on traffic on adjacent streets, the applicant submits that two valet drop-off zones will be located at the facility—one on the northern end with at least 15 reservoir spaces and one on the southern end with at least 16 reservoir spaces—that will ensure that vehicles can queue for parking on-site and not use the surrounding street network; and

WHEREAS, with regards to the location of the site within the flood zone, the applicant submits that the proposed development will comply with Appendix G of the New York City Building Code and all applicable requirements, including the dry flood-proofing of all below grade areas, including the cellar level parking, up to the design flood elevation; and

WHEREAS, accordingly, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, based upon its review of the record, the Board concludes that the findings required under ZR §§ 73-03 and 73-44 have been met; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR, Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 17BSA038K, dated September 11, 2017; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, the New York City Landmarks Preservation Commission completed an environmental review of the site and concluded that, though the site is located within the radius of a Designated New York City Landmark or within a Designated Historic District and in the radius of an area eligible for National Register Listing, the site has no architectural or archaeological significance; and

WHEREAS, on November 9, 2015, the Department of the Army, New York District, Corps of Engineers (“Army Corps of Engineers”) issued Permit Number NAN-2015-00586, expiring November 9, 2018, authorizing specified work at the subject premises, including repairs to the existing timber bulkhead and shore stabilization work,

---

# MINUTES

---

pursuant to approved plans and subject to specified conditions; and

WHEREAS, the subject site is also subject to New York State Department of Environmental Conservation (“DEC”) Permit No. 2-6102-00130/00004 for the rehabilitation of the bulkhead; and

WHEREAS, by letter dated July 12, 2017, the Bureau of Sustainability New York City Department of Environmental Protection (“DEP”) states that it reviewed the March 2017 Environmental Assessment Statement, the November 2015 Phase I Environmental Site Assessment Report (Phase I), the March 2012 limited Phase II Environmental Site Investigation (Phase II), the April 2017 Soil Vapor Investigation, the April 2017 Remedial Action Plan (“RAP”) and Construction Health and Safety Plan (“CHASP”) and requested that the CHASP include the names and phone numbers of the Site Health and Safety Officer and Alternate Site Health and Safety Officer; that the open status spill (Spill Number 0811098) on the subject property be remediated and closed in accordance with DEC requirements; stated that ACM may be present at the subject property and that those materials should be properly removed and/or managed prior to the start of any construction activities and disposed of in accordance with all federal, state and local regulation; and that, upon completion of the clean fill/top soil investigation activities (for the 2-feet of clean cover soil in landscaped area), a clean soil report—including, at a minimum, an executive summary, narrative of the field activities, laboratory data, and comparison of soil analytical results—be submitted to DEP for review and approval prior to importation and placement on-site; and

WHEREAS, DEP additionally requested that, at the completion of the project, a Professional Engineer (P.E.) certified Remedial Closure Report indicating that all remedial requirements have been properly implemented be submitted to DEP for review and approval for the proposed project; and

WHEREAS, by letter dated July 19, 2017, the Bureau of Environmental Planning and Analysis for DEP states that, based on the materials reviewed, DEP had determined that the proposed project would not result in any potential for significant adverse impacts in regards to air quality; and

WHEREAS, by communication dated September 11, 2017, the Waterfront and Open Space Division of the New York City Department of City Planning states that, based on the information submitted, the proposed development, assigned WRP #16-140, will not substantially hinder the achievement of any WRP policy and is consistent with WRP policies; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved*, that the Board of Standards and Appeals issues a Type I Negative Declaration, with conditions

as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-03 and 73-44 to permit, on a site located within an M3-1 zoning district, the reduction in the required number of accessory parking spaces for a Use Group 6B office use from 2,048 to 1,024 spaces, contrary to ZR § 44-21; on condition that all work shall substantially conform to drawings as they apply to the objections above noted filed with this application marked “Received May 17, 2017”—Seventeen (17) sheets, and on further condition:

THAT upon 50 percent occupancy of the floor area dedicated to UG 6B office use at the site, a shuttle bus shall commence operation between the site and nearby public transportation during office hours;

THAT there shall be no change in the uses at the site without prior review and approval by the Board;

THAT no certificate of occupancy shall be issued if the UG 6B office use is changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius;

THAT upon completion of the clean fill/top soil investigation activities at the site (for the 2-feet of clean cover soil in landscaped area), a clean soil report—including, at a minimum, an executive summary, narrative of the field activities, laboratory data, and comparison of soil analytical results—shall be submitted to DEP for review and approval prior to importation and placement onsite;

THAT upon the completion of the project, a Professional Engineer (P.E.) certified Remedial Closure Report indicating that all remedial requirements have been properly implemented be submitted to DEP for review and approval for the proposed project;

THAT all required revisions, modifications and/or extensions to existing permits issued by DEC and/or Army Corps of Engineering shall be obtained;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years;

THAT substantial construction shall be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, September 12, 2017.

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated January 20, 2017, acting on Department of Buildings (“DOB”) Application No. 122963454, reads in pertinent part:

ZR 32-10: Proposed physical culture establishment, in C[4-4D/C6-3 (125) zoning district is contrary to Section 32-10 ZR and requires a special permit from BSA; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, on a site partially located within a C4-4D zoning district and partially located within a C6-3 zoning district, in the Special 125th Street District, a physical culture establishment (“PCE”) on a portion of the first floor, the second floor and in a proposed mezzanine of an existing two-story plus cellar commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on September 12, 2017, after due notice by publication in *The City Record*, and then to decision on that date; and

WHEREAS, the Land Use Committee of Community Board 10, Manhattan had no objections and voted unanimously in support of the application; and

---

# MINUTES

---

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the north side of West 124th Street between Frederick Douglas Boulevard and Adam C Powell Boulevard, partially within a C4-4D zoning district and partially within a C6-3 zoning district, within the Special 125th Street District, in Manhattan; and

WHEREAS, the site has approximately 100 feet of frontage along West 124th Street, 50 feet of frontage along West 125th Street, has a through lot portion 202 feet in depth and an interior lot portion fronting West 124th Street 101 feet in depth, 15,138 square feet of lot area, and is occupied by a two-story plus cellar commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
  - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
  - (ii) a swimming pool of a minimum 1,500 square feet; or
  - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
  - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any

application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and

- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and Certificate of Occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the PCE is proposed to occupy a total of 17,543 square feet of floor area comprised of approximately 1,568 square feet of floor area on the ground floor, consisting of an entrance lobby fronting West 125th Street, stairs and ADA accessible elevator to the primary PCE space on the second floor, and two secondary means of egress fronting on West 124<sup>th</sup> Street; 14,876 square feet of floor area on the second floor consisting of a reception desk, climbing walls, men's and women's locker rooms, office space, and an open gym area; and 1,102 square feet of floor area on the proposed first floor mezzanine with cardiovascular exercise equipment; and

WHEREAS, the PCE is proposed to be operated as The Cliffs with the following hours of operation: Monday through Friday, 7:00 a.m. to 12:00 a.m. and Saturday through Sunday, 9:00 a.m. to 10:00 p.m.; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because it of its location in a mixed-use neighborhood that includes both commercial and residential uses and will serve as an alternative to conventional fitness clubs for area residents; and

WHEREAS, the Board finds that the PCE is so located as to not impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE will provide indoor climbing facilities for improved physical fitness, including instructional classes for clients of all climbing abilities; and

WHEREAS, the Board finds that the subject PCE use

---

# MINUTES

---

is consistent with those eligible pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation (“DOI”) has performed a background check on the corporate owner and operator of the establishment and the principals thereof and provided a complaint filed in Criminal Court of the City of New York, County of Queens, against a named principal in 2013; and

WHEREAS, the principal subsequently paid a fine and received a one year provisional discharge; and

WHEREAS, the Board found the charge to be unrelated to the types of offense the subject special permit was intended to prevent, to wit, houses of ill repute and, accordingly, deemed the support issued by DOI to be satisfactory; and

WHEREAS, the applicant submits that an approved fire alarm system—including area smoke detectors, manual pull stations at required exits, local audible and visual alarms and a connection to an FDNY-approved central station—will be provided in the PCE space and that an automatic sprinkler system connected to an FDNY-approved central station is presently installed throughout the entire building; and

WHEREAS, the site is the subject of a New York City Planning ULURP Action; and

WHEREAS, the site has existing institutional controls, specifically an E designation (E-201) relating to hazardous materials, air quality and noise as identified in the Final Environmental Impact Statement CEQR No. 07DCP030M, dated February 29, 2008; and

WHEREAS, with regards to hazardous materials, the E designation requires that pre-development activities at the site include a Phase I environmental site investigation, and, if necessary, a sampling protocol and remediation to the satisfaction of the New York City Department of Environmental Protection (“DEP”) before the issuance of a building permit; and

WHEREAS, with regards to air quality, the text of the E designation reads as follows: “any new residential and/or commercial development...must ensure that the heating, ventilating and air conditioning stack(s) are located at least 100 and 82 feet for Oil No. 4 and Oil No. 2 from the lot lines or use Natural Gas as the type of fuel for space heating and hot water (HVAC) systems, to avoid any potential significant adverse air quality impacts”; and

WHEREAS, with regards to noise, the text of the E designation reads as follows:

In order to ensure an acceptable interior noise environment, future residential/commercial users must provide a closed window condition with a minimum of 30 dBA and 40 dBA window/wall attenuation on some facades in order to maintain an interior noise level of 45 dBA. To achieve 40 dBA of building attenuation, special design features that go beyond the normal double-glazed windows are necessary and may include using specially design windows (i.e., windows with small sizes, windows with air gaps, windows with thicker glazing, etc.), and additional building attenuation. In order to maintain a closed-

window condition, an alternate means of ventilation must also be provided. Alternate means of ventilation includes, but is not limited to, central air conditioning; and

WHEREAS, the applicant acknowledges that the subject building with comply with all of the requirements of E designation (E-201) for hazardous materials, air quality and noise; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, the applicant states that the proposed PCE will not interfere with any public improvement projects; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 17BSA093M, received February 17, 2017 and

*Therefore it is Resolved*, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site partially located within a C4-4D zoning district and partially located within a C6-3 zoning district, in the Special 125th Street District, the operation of a physical culture establishment on a portion of the first floor, the second floor and in a proposed mezzanine of an existing two-story plus cellar commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received September 12, 2017”– Ten (10) sheets; and *on further condition*:

THAT the term of the PCE grant shall expire on September 12, 2027;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT minimum 3 foot wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT an approved fire alarm system—including area smoke detectors, manual pull stations at required exits, local audible and visual alarms and a connection to an FDNY-approved central station—shall be installed in the entire PCE space;

THAT the PCE shall be fully sprinklered;

THAT accessibility compliance under Local Law 58/87 shall be as reviewed and approved by DOB;

THAT the building shall comply with the requirements of E designation (E-201) with regards to hazardous materials, air quality and noise;

# MINUTES

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT a revised Certificate of Occupancy shall be obtained within four (4) years;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, September 12, 2017.

# MINUTES

**REGULAR MEETING  
TUESDAY MORNING, SEPTEMBER 19, 2017  
10:00 A.M.**

Present: Chair Perlmutter, Vice-Chair Chanda, and Commissioner Ottley-Brown.

**SPECIAL ORDER CALENDAR**

**558-51-BZ**

APPLICANT – Eric Palatnik, P.C., for BP Products North America Inc., owner.

SUBJECT – Application August 14, 2015 – Extension of Term (§11-411) to seek the term of a previously granted variance for a gasoline service station and maintenance which expired December 21, 2016. C2-2/R5D zoning district.

PREMISES AFFECTED – 68-22 Northern Boulevard, Block 1186, Lot 19, Borough of Queens.

**COMMUNITY BOARD #19Q**

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

**THE RESOLUTION** –

WHEREAS, this is an application under ZR § 11-411 for an extension of term of a variance, previously granted by the Board, which expired December 21, 2016; and

WHEREAS, a public hearing was held on this application on June 20, 2017, after due notice by publication in *The City Record*, with a continued hearing on June 20, 2017, and then to decision on September 19, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 3, Queens, recommends approval of this application; and

WHEREAS, the subject site is located on the south side of Northern Boulevard, between the Brooklyn-Queens Expressway and 69th Street, in an R5 (C2-2) zoning district, in Queens; and

WHEREAS, the site has approximately 100 feet of frontage along Northern Boulevard, 100 feet of depth, 1,000 square feet of lot area and is occupied by an automotive service station; and

WHEREAS, the Board has exercised jurisdiction over the subject site since February 5, 1952, when, under the subject calendar number, the Board granted a variance for a term of fifteen (15) years, expiring February 5, 1967, to permit a gasoline service station and accessory uses on condition that the accessory building be located, arranged and designed substantially as indicated on the Board-approved plans, that all uses on the site be removed, that the balance of the site where not occupied by accessory building

and pumps be paved with concrete or bituminous paving, that there be constructed on the rear lot line a masonry wall constructed of brick and properly coped for the full width of the plot and not less than 5'-6" in height, that a similar wall be constructed along the street line of 69th Street for a distance of 60 feet from the rear line but may be reduced to 4'-6" in height for a distance of 10 feet from the northerly end of such wall, that pumps be located as proposed not nearer than 15 feet from the street building line of Northern Boulevard, that no pumps be erected facing 69th street, that curb cuts be restricted to one curb cut to 69th Street not over 20 feet in width within the distance of 25 feet from the intersection and two curb cuts to Northern Boulevard not over 30 feet in width each, that no curb cut be nearer than five feet from any lot line as prolonged, that there be constructed within the building line at the intersection a block of concrete not less than 12 inches in height and extending for a distance of not less than five feet along each building line, that the number of approved gasoline storage tanks of 550 gallons capacity shall not exceed six (6), that minor repairs may be permitted with hand tools only for similar term, provided such repairs are carried on entirely within the accessory building, that there may be parking of cars awaiting service, that the boiler room be separated from the balance of the building by fireproof construction except that the ceiling may be fire retarded, that the boiler room be enterable only from the exterior, that signs be restricted to a permanent sign attached to the façade of the accessory building and to the illuminated globes of the pumps, excluding all roof signs and all temporary signs but permitting the construction within the building line near the intersection of a post standard for supporting a sign which may be illuminated and permitting such sign to extend beyond the building line for a distance of not more than four feet, that such portable fire-fighting appliances shall be maintained as the Fire Department shall direct, that no wall need be constructed along the westerly lot line in view of the proposed ramp wall for the highway and that if, however, such ramp and wall is delayed or postponed or is not on the lot line of this plot there shall be a woven wire fence to a height of 5'-6" along the westerly lot line from the street building line of Northern Boulevard to the rear; and

WHEREAS, on February 17, 1953, under the subject calendar number, the Board granted an extension of time to complete construction; and

WHEREAS, on May 19, 1953, under the subject calendar number, the Board amended the variance to permit minor changes; and

WHEREAS, on November 10, 1953, under the subject calendar number, the Board amended the variance so that the number of gasoline storage tanks permitted be increased from six (6) to ten (10) approved tanks, each of 550-gallon capacity; and

WHEREAS, on December 8, 1953, under the subject calendar number, the Board amended the variance to permit the owner to change the pump arrangement and to omit the use of stucco on the accessory building exterior walls and substitute face brick therefor; and

---

# MINUTES

---

WHEREAS, on May 2, 1967, under the subject calendar number, the Board granted an extension of term for ten (10) years, expiring February 5, 1977, on condition that a certificate of occupancy be obtained; and

WHEREAS, on December 21, 1976, under the subject calendar number, the Board granted an extension of term for ten (10) years, expiring December 21, 1986, on condition that the interior of the building be painted and the work areas be kept clean at all times, that the paving around the gasoline pumps be repaired, that any damaged vehicles which are no longer in use be removed, that the site be kept clear of debris and that a new certificate of occupancy be obtained within one (1) year, by December 21, 1977; and

WHEREAS, on February 28, 1984, under the subject calendar number, the Board amended the variance under ZR § 11-412 to permit the construction of a canopy over new gasoline pump islands with new self-serve dispensers, to remove the existing accessory building, to install an attendant's office on one of the pump islands, to relocate the curb cut on 69th Street and to add a trash enclosure on condition that there be no parking of automobiles, trucks or any other vehicles on the sidewalk area or in such a manner as to obstruct pedestrian or vehicular traffic and that the site be maintained clean and free of debris at all times; and

WHEREAS, on February 28, 1984, under BSA Calendar Number 823-83-A, the Board granted on condition an application for a self-service gasoline and oil selling station for a term of five (5) years, expiring February 28, 1989; and

WHEREAS, on November 17, 1987, under the subject calendar number, the Board granted an extension of term for ten (10) years, expiring December 21, 1996, on condition that there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic and that a new certificate of occupancy be obtained within one (1) year, by November 17, 1988; and

WHEREAS, on January 13, 1998, under the subject calendar number, the Board granted an extension of term for ten (10) years, expiring December 21, 2006, on condition that fencing be maintained in accordance with the Board-approved drawings, that the curb along 69th Street be restored, that the site be maintained free of graffiti and that a certificate of occupancy be obtained within one (1) year, by January 13, 1999; and

WHEREAS, on September 14, 1999, under the subject calendar number, the Board granted an extension of time to obtain a certificate of occupancy on condition that a new certificate of occupancy be obtained within 32 months, by September 13, 2000; and

WHEREAS, on August 5, 2003, under the subject calendar number, the Board granted an extension of time to obtain a certificate of occupancy and amended the variance to permit a change in signage from a total of 108 square feet of illuminated signage to 66.25 square feet of illuminated signage on condition that the site be maintained free of debris and graffiti, that any graffiti located at the site be removed within 48 hours and that the above conditions appear on the certificate of occupancy and that a certificate

of occupancy be obtained within two (2) years, by August 5, 2005; and

WHEREAS, on August 23, 2005, under the subject calendar number, the Board granted an extension of time to obtain a certificate of occupancy for an additional two (2) years, expiring August 5, 2007; and

WHEREAS, on September 26, 2006, under the subject calendar number, the Board granted an extension of term for an additional ten (10) years, expiring December 21, 2016, on condition that the above conditions appear on the certificate of occupancy; and

WHEREAS, the term of the variance having expired, the applicant now seeks an additional ten (10) year term; and

WHEREAS, at the Board's request, the applicant submitted evidence of the installation of a new trash enclosure, restriping of the parking lot to improve visibility of the dedicated parking stall for persons with disabilities and the removal and compliance of signage; and

WHEREAS, based upon the evidence in the record, the Board finds the requested extension of term appropriate, with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated February 5, 1952, as amended through September 26, 2006, only as to the term of the variance so that as amended this portion of the resolution reads: "to *permit* under ZR § 11-411 an extension of term for an additional ten (10) years from the expiration of the prior grant, expiring December 21, 2026; *on condition* that all work and operation of the site shall substantially conform to drawings as filed with this application, marked "Received July 28, 2017"-Five (5) sheets; and *on further condition*:

THAT the term of this grant shall be for ten (10) years, expiring December 21, 2026;

THAT the interior of the building shall be painted and the work areas shall be kept clean at all times;

THAT any damaged vehicles which are no longer in use shall be removed;

THAT there shall be no parking of automobiles, trucks or any other vehicles on the sidewalk area or in such a manner as to obstruct pedestrian or vehicular traffic;

THAT the site shall be maintained clean and free of debris at all times;

THAT fencing shall be maintained in accordance with the Board-approved drawings;

THAT the site shall be maintained free of graffiti;

THAT any graffiti located at the site shall be removed within 48 hours;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by September 19, 2021;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure

# MINUTES

compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, September 19, 2017.

-----

WHEREAS, a public hearing was held on this application on June 20, 2017, after due notice by publication in *The City Record*, and then to decision on September 19, 2017; and

WHEREAS, former Commissioner Montanez performed an inspection of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the southwest corner of Victory Boulevard and Manor Road, in an R3-2 (C2-1) zoning district, on Staten Island; and

WHEREAS, the site has approximately 127 feet of frontage along Victory Boulevard, 100 feet of frontage along Manor Road, 14,068 square feet of lot area and is occupied by a gasoline service station with a one-story commercial building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since June 7, 1960, when, under the subject calendar number, the Board granted a variance to permit the reconstruction of an existing gasoline service station and to continue the present uses, lubricatorium, minor auto repairs, car washing, sales room, utility room and parking and storage of motor vehicles on condition that the accessory building be moved five feet from the rear lot line, that there be no commitment on future pumps, that pumps to be installed be placed 15 feet back from the existing building line and that the men’s toilet in the accessory building have a door from the utility room and not from the outside; and

WHEREAS, on July 5, 1961, under the subject calendar number, the Board granted an extension of time to

complete construction, expiring July 5, 1962; and

WHEREAS, on November 4, 1964, under the subject calendar number, the Board granted an extension of time to complete construction and obtain a certificate of occupancy, expiring October 26, 1965; and

WHEREAS, on September 28, 1965, under the subject calendar number, the Board granted an extension of time to complete construction, expiring September 28, 1966, and amended the variance so that the gasoline service station might be redesigned, rearranged and constructed substantially as shown on the revised drawings on condition that a certificate of occupancy be obtained; and

WHEREAS, March 22, 1966, under the subject calendar number, the Board amended the variance so that in the event the owner desired to seal the existing tanks and to install 12 new approved gasoline storage tanks, such change shall be permitted; and

WHEREAS, on April 2, 1974, under the subject calendar number, the Board amended the variance so that the gasoline pumps facing Manor Road might be removed and the accessory building might be altered; and

WHEREAS, on June 2, 1987, under the subject calendar number, the Board amended the variance under ZR § 11-412 to convert the sale of gasoline to self-service, to construct a new steel canopy over two (2) new gasoline pump islands with new self-serve “MPD” pumps and to alter the existing office and sales area of the accessory building to accommodate an attendant’s booth on condition that there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic; and

WHEREAS, on December 9, 2014, under the subject calendar number, the Board amended the variance under ZR § 11-412 to convert existing automotive service bays into an accessory convenience store and to enlarge the accessory building on condition that the building have a maximum of 2,451 square feet of floor area (0.17 FAR), that the site be maintained free of debris and graffiti, that signage be in accordance with C2 regulations, that landscaping and buffering be maintained in accordance with the Board-approved plans, that lighting be directed downward and away from adjoining residences, that the above conditions appear on the certificate of occupancy and that a certificate of occupancy be obtained by December 9, 2015; and

WHEREAS, the time to complete construction having expired, the applicant now seeks an additional four (4) years to complete construction; and

WHEREAS, at hearing, the Board raised concerns about parking and the display of automobiles, the condition of the asphalt, maintenance of the site and the status of the street widening line along Victory Boulevard; and

WHEREAS, in response, the applicant represents that the operation of the site will soon transfer from the current tenant to the owner and agreed that the Board’s resolution for this application shall not issue before such time; and

WHEREAS, additionally, the applicant submits that the applicant has taken interim steps to address site conditions, including repairs to the asphalt and replacement of the LED sign, amended plans to reflect landscaping and

# MINUTES

notes on the asphalt, and confirmed that the Department of Transportation has no impending plans to widen Victory Boulevard adjacent to the subject site but that such widening would have negligible impacts on the subject site; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to complete construction is appropriate with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated June 7, 1960, as amended through December 9, 2014, so that as amended this portion of the resolution reads: “to grant a four (4) year extension of time to complete construction, expiring September 19, 2021; *on condition* that any and all work shall substantially conform to drawings filed with this application marked “Received September 18, 2017”-Six (6) sheets; and *on further condition*:

THAT the building shall have a maximum of 2,451 square feet of floor area (0.17 FAR);

THAT the site shall be maintained free of debris and graffiti;

THAT signage shall be in accordance with C2 regulations;

THAT landscaping and buffering shall be maintained in accordance with the Board-approved plans;

THAT lighting shall be directed downward and away from adjoining residences;

THAT there shall be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic;

THAT the above conditions shall be noted on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained by September 19, 2021;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, September 19, 2017.

## 234-84-BZ

APPLICANT – Robert E. Schuster, AIA, for Forest Realty Management, LLC., owner.

SUBJECT – Application April 28, 2015 – Extension of Term (§11-411) of a previously approved Variance which permitted the operation of an Eating and Drinking Establishment (UG 6) which expired on February 12, 2015; Waiver of the Board's Rules. C81-/R3-1 zoning district.

PREMISES AFFECTED – 1076/82 Forest Avenue, Block 1696, Lot 26, Borough of Staten Island.

## COMMUNITY BOARD #1SI

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

THE RESOLUTION –

WHEREAS, this is an application under ZR § 11-411 for an extension of term of a variance previously approved by the Board, which expired February 12, 2015, and a waiver of the Board's Rules of Practice and Procedure; and

WHEREAS, a public hearing was held on this application on January 31, 2017, after due notice by publication in *The City Record*, with continued hearings on March 7, 2017, April 4, 2017, and July 25, 2017, and then to decision on September 19, 2017; and

WHEREAS, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board, 1, Staten Island, recommends approval of this application; and

WHEREAS, the site is located on the southwest corner of Forest Avenue and Van Name Avenue, partially in a C8-1 zoning district and partially in an R3-2 zoning district, on Staten Island; and

WHEREAS, the site has approximately 132 feet of frontage along Forest Avenue, 66 feet of frontage along Van Name Avenue, 10,181 square feet of lot area and is occupied by a two-story commercial building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since February 13, 1985, when, under the subject calendar number, the Board granted a variance to permit the construction of a one-story and mezzanine retail store with open accessory parking that created non-conformity within the residence district portion of the site for a term of twenty (20) years, expiring February 13, 2005, on condition that the owner comply with the conditions set forth in the Conditional Negative Declaration, that fences and landscaping shown on the Board-approved plans be installed, maintained and replaced when necessary, that signs conform to C1 district regulations and that these conditions appear on the certificate of occupancy; and

WHEREAS, on September 13, 2005, under the subject calendar number, the Board granted an extension of term for ten (10) years, expiring February 12, 2015, and amended the variance to permit the conversion of two stores into one store and the change of use of one store from retail in Use

# MINUTES

Group 6 to an eating and drinking establishment in Use Group 6 on condition that the term appear on the certificate of occupancy; and

WHEREAS, the term of the variance having expired, the applicant now seeks an extension of term for an additional ten (10) years; and

WHEREAS, in addition, the applicant requests a waiver, pursuant to § 1-14.2 of the Board's Rules of Practice and Procedure, of Rule § 1-07.3(b)(2) to permit the filing for an extension of term less than two (2) years after the expiration of the term; and

WHEREAS, the applicant has demonstrated that the use has been continuous since the expiration of term and that substantial prejudice would result without such a waiver; and

WHEREAS, at hearing, the Board questioned the maintenance of the site, weeds and plantings, the potential presence of vermin, shabby signage, fencing, graffiti, accessibility, paving, the swing gate, the location of the existing ice freezer and street trees; and

WHEREAS, in response, the applicant amended the drawings to improve landscaping with plantings and sidewalk tree pits and to add the swing gate and bumper guards and submitted evidence of improved site conditions, including new shrubs and plantings, repaving and restriping, repaired fencing, graffiti and trash removal and spruced up sidewalk tree pits; and

WHEREAS, based upon the foregoing, the Board finds that an extension of term is appropriate with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *waive* its Rules of Practice and Procedure and *reopen* and *amend* the resolution, dated February 13, 1985, as amended September 13, 2005, so that as amended this portion of the resolution reads: "to *grant* an extension of term of the variance for ten (10) years, expiring February 12, 2025; *on condition* that all work and operation of the site shall substantially conform to drawings as filed with this application, marked "Received March 17, 2017"-six (6) sheets; and "Received August 25, 2017"-one (1) sheet and *on further condition*:

THAT the term of this grant shall be for ten (10) years, expiring February 12, 2025;

THAT graffiti shall be removed immediately upon their occurring;

THAT the building façade shall be painted in uniform colors;

THAT fences and landscaping shall be maintained, repaired and replaced as necessary to maintain the site in an orderly fashion;

THAT no trash shall be stored in the parking areas or in the side yard;

THAT the side yard shall not be used for storage of any kind;

THAT the owner shall comply with the conditions set forth in the Conditional Negative Declaration;

THAT signs shall conform to C1 district regulations;

THAT the above conditions shall appear on the

certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by September 19, 2021;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, September 19, 2017.

APPLICANT – Eric Palatnik, P.C., for 206 20<sup>th</sup> Street LLC, owner.

SUBJECT – Application September 27, 2016 – Extension of Term of a previously approved Variance (§72-21) for the operation of a (UG 16) open storage yard for building materials and accessory parking for four cars with an accessory office and showroom building, which expires on November 18, 2016. R6B zoning district.

PREMISES AFFECTED – 206/8 20<sup>th</sup> Street, Block 640, Lot 21, Borough of Brooklyn.

## COMMUNITY BOARD #7BK

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

THE RESOLUTION –

WHEREAS, this is an application for an extension of term of the variance previously granted by the Board, which expired November 18, 2016; and

WHEREAS, a public hearing was held on this application on May 16, 2017, after due notice by publication in *The City Record*, with a continued hearing on July 25, 2017, and then to decision on September 19, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 7, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the south side of 20<sup>th</sup> Street, between 4<sup>th</sup> Avenue and 5<sup>th</sup> Avenue, in an R6B zoning district, in Brooklyn; and

WHEREAS, the site has approximately 50 feet of frontage along 20<sup>th</sup> Street, 100 feet of depth, 5,008 square feet of lot area and is occupied by an open yard for storage

---

# MINUTES

---

of building materials and one-story accessory office building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since November 18, 1986, when, under the subject calendar number, the Board granted a variance to permit the legalization of an enlargement to an existing one-story structure and the change in use from scrap metal storage and junk yard in Use Group 18 to an open storage yard for building materials less than 5,000 square feet in area with an accessory office and showroom building in Use Group 16 for a term of ten (10) years, expiring November 18, 1996, on condition that no parking or storage or work of any kind be done on the sidewalk except for over the sidewalk loading and unloading in front of the site, that the public sidewalk not be used for the transportation of building materials between this site and any other location on this block, that the hours of operation be limited to 7:00 a.m. to 7:00 p.m. Monday through Friday, that all signs comply with C1 district regulations and that these conditions appear on the certificate of occupancy; and

WHEREAS, on July 15, 1997, under the subject calendar number, the Board granted an extension of term of the variance for ten (10) years, expiring November 18, 2006, and an amendment to the resolution to permit extended hours of operation on Saturday from 7:00 a.m. to 5:00 p.m. on condition that the site be maintained clean and free of graffiti and that a new certificate of occupancy be obtained by July 15, 1998; and

WHEREAS, on October 28, 2008, under the subject calendar number, the Board granted an extension of term of the variance for ten (10) years, expiring November 18, 2016, on condition that the term be listed on the certificate of occupancy; and

WHEREAS, the term of the variance having expired, the applicant now seeks an extension of term for an additional ten (10) years; and

WHEREAS, at hearing, the Board questioned the dilapidation of the building's walls, the presence of a forklift on the sidewalk, graffiti, razor wire atop the fence and compressed gas storage; and

WHEREAS, in response, the applicant provided evidence that materials were only stored within the site, power-washing of the building's walls, painting of the building's façade, removal of barbed wire from the fence and roof and general cleaning and organization of the site; and

WHEREAS, based upon the foregoing, the Board finds that an extension of term is appropriate with conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated November 18, 1986, as amended through October 28, 2008, so that as amended this portion of the resolution reads: "to *grant* an extension of term of the variance for an additional ten (10) years, expiring November 18, 2026; *on condition* that any and all work shall substantially conform to drawings filed with this application marked "Received March 7, 2017"-Four (4) sheets; and *on further condition*:

THAT no parking or storage or work of any kind shall be done on the sidewalk except for over the sidewalk loading and unloading in front of the site;

THAT the public sidewalk shall not be used for the transportation of building materials between this site and any other location on this block;

THAT the hours of operation shall be limited to Monday through Friday, 7:00 a.m. to 7:00 p.m., and Saturday, 7:00 a.m. to 5:00 p.m.;

THAT all signs shall comply with C1 district regulations;

THAT the site shall be maintained clean and free of graffiti;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by September 19, 2021;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, September 19, 2017.

---

application on June 27, 2017, after due notice by publication in *The City Record*, and then to decision on September 19, 2017; and

WHEREAS, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 2, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of Broadway, between Spring Street and Broome Street, in an M1-5B zoning district and the SoHo-Cast Iron Historic District, in Manhattan; and

WHEREAS, the site has approximately 49 feet of frontage along Broadway, 200 feet of depth, 50 feet of frontage along Mercer Street, 9,766 square feet of lot area and is occupied by an eight-story commercial building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since September 12, 2006, when, under the subject calendar number, the Board granted a special permit to allow the operation of a PCE on the second and third floors of an existing commercial building for a term of ten (10) years, expiring September 12, 2016, on condition that there be no change in ownership or operating control of the PCE without prior application to and approval from the Board, that the hours of operation be limited to Monday through Thursday, 5:30 a.m. to 10:30 p.m., Friday, 5:30 a.m. to 9:00 p.m., Saturday, 8:00 a.m. to 8:00 p.m., and Sunday, 8:00 a.m. to 6:00 p.m., that the above conditions appear on the certificate of occupancy, that Local Law 58/87 compliance be as reviewed and approved by the Department of Buildings (“DOB”), that all signage comply with regulations applicable in M1-5B zoning districts within the SoHo Cast Iron Historic District, that all fire protection measures, as indicated on the Board-approved plans, be installed and maintained, as approved by DOB and that all exiting requirements be as reviewed and approved by DOB; and

WHEREAS, the term of the special permit having expired, the applicant now seeks an extension of term for an additional ten (10) years; and

WHEREAS, the facility remains in operation as Drive 495 with the following reduced hours of operation: Monday through Thursday, 5:30 a.m. to 9:30 p.m., Friday 5:30 a.m. to 8:30 p.m., and Saturday and Sunday, 8:00 a.m. to 6:00 p.m.; and

WHEREAS, the applicant notes that the PCE continues to occupy a total of 9,270 square feet of floor area, 7,144 square feet of floor area on the second floor and 2,126 square feet of floor area on the third floor; and

WHEREAS, the Board notes that its determination is subject to and guided by ZR § 73-03; and

WHEREAS, consistent with ZR § 73-03(a), the Board finds that, under the conditions and safeguards imposed, the hazards of disadvantage to the community at large of the special permit are outweighed by the advantages to be derived by the community; and

WHEREAS, as to ZR § 73-03 subsections (b) and (c), the Board finds, respectively, that the subject special permit

will not interfere with any public improvement project and that the use will not interfere with the existing street system; and

WHEREAS, the Board notes that ZR § 73-03 subsections (d) and (g) are inapplicable to the subject application; and

WHEREAS, § 73-36 mandates a term not to exceed ten (10) years and, thus, pursuant to ZR § 73-03(e), the Board shall establish a term not to extend ten (10) years; and

WHEREAS, consistent with ZR § 73-03(f), the Board finds that the circumstances warranting the original grant still obtain and that the applicant has complied with the conditions and safeguards theretofore described by the Board during the prior term; and

WHEREAS, based upon its review of the record, the Board finds that a ten (10) year extension is appropriate with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated September 12, 2006, so that as amended this portion of the resolution shall read: “to grant an extension of term of the special permit for ten (10) years, expiring September 12, 2026; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked “Received August 30, 2017” – three (3) sheets; and *on further condition*:

THAT the term of this grant shall be for ten years from the date of the grant, expiring on September 12, 2026;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT the hours of operation shall be limited to Monday through Thursday, 5:30 a.m. to 9:30 p.m., Friday 5:30 a.m. to 8:30 p.m., and Saturday and Sunday, 8:00 a.m. to 6:00 p.m.;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by September 19, 2021;

THAT Local Law 58/87 compliance shall be as reviewed and approved by the Department of Buildings;

THAT all signage shall comply with regulations applicable in M1-5B zoning districts within the SoHo Cast Iron Historic District;

THAT all fire protection measures, as indicated on the Board-approved plans, shall be installed and maintained, as approved by the Department of Buildings;

THAT all exiting requirements shall be as reviewed and approved by the Department of Buildings;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure

APPLICANT – Sheldon Lobel, P.C., for Waterview Lofts LLC, owner; 92 Fitness Crew New York 2, LLC, lessee.

SUBJECT – Application August 3, 2015 – Special Permit (§73-36) to permit the legalization of a Physical Cultural Establishment (*Orangetheory Fitness*) on the cellar level of an existing mix-use building contrary to ZR §42-10. M1-2/R6A & MX-8 zoning districts.

PREMISES AFFECTED – 157 Kent Avenue, Block 2349, Lot 15, Borough of Brooklyn.

### COMMUNITY BOARD #1BK

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated July 28, 2016, acting on Alteration Application No. 320625105, reads in pertinent part:

“Proposed physical cultural establishment as defined by ZR 12-10 at cellar is not permitted as-of-right in a MX-8 Special Zoning District per ZR 42-10 and must be referred to the Board of Standards and Appeals for approval pursuant to ZR 73-36”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, in an M1-2/R6A zoning district and the Special Mixed Use District (MX-8), the legalization of a physical culture establishment (“PCE”) on the first floor and cellar of a seven-story mixed-use building, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on August 22, 2017, after due notice by publication in *The City Record*, and then to decision on September 19, 2017; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 1, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the southwest corner of Kent Avenue and North 4th Street, in an M1-2/R6A zoning district and the Special Mixed Use District (MX-8), in Brooklyn; and

WHEREAS, the site has approximately 69 feet of frontage along Kent Avenue, 400 feet of frontage along North 4th Street, 21,300 square feet of lot area and is occupied by a seven-story, with cellar, mixed-use commercial and residential building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or

---

# MINUTES

---

health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
  - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
  - (ii) a swimming pool of a minimum 1,500 square feet; or
  - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
  - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04 and 73-36(b)(4), it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such

conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE occupies a total of 4,290 square feet of floor space as follows: 623 square feet of floor area on the first floor, including an entry vestibule and check-in area, and 3,667 square feet of floor space in the cellar, used for reception, retail, rowers, treadmills, rowers, straps and restrooms; and

WHEREAS, the PCE has been in operation as Orangetheory Fitness since June 2016 with the following hours of operation: Monday through Thursday, 5:00 a.m. to 9:00 p.m., Friday, 5:00 a.m. to 8:00 p.m., Saturday, 7:00 a.m. to 1:00 p.m., and Sunday, 8:00 a.m. to 2:00 p.m.; and

WHEREAS, the applicant represents that the PCE use will not impair the essential character or the future use or development of the surrounding area because it is entirely contained within an existing building and surrounded by other first-floor commercial uses; and

WHEREAS, in addition, the applicant submits that sound attenuation measures—including rubber flooring, a dropped gypsum insulated ceiling with fiberglass batt insulation and additional doors for acoustic separation—have been provided within the space so as to not disturb other tenants in the building; and

WHEREAS, accordingly, the Board finds that the PCE use is so located as to not impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE provides facilities for group training, instruction and programs for physical improvement, body building, weight reduction and physical improvement; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant provided evidence that the PCE is fully sprinklered and that an approved fire alarm—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection to an FDNY-approved central station—has been installed in the entire PCE space; and

WHEREAS, the applicant represents that the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither alter the essential character of the

# MINUTES

surrounding neighborhood, impair the use or development of adjacent properties, nor be detrimental to the public welfare; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated at the site without the special permit; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 16BSA013K, dated August 3, 2015.

*Therefore it is Resolved*, that the Board of Standards and Appeals *issues* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to *permit*, in an M1-2/R6A zoning district and the Special Mixed Use District (MX-8), the legalization of a physical culture establishment on the first floor and cellar of a seven-story mixed-use building, contrary to ZR § 42-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received August 30, 2017” – Ten (10) sheets; and *on further condition*:

THAT the term of this grant shall be for ten (10) years, expiring June 1, 2026;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum 3’-0” wide exit pathways shall be provided leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be maintained in the entire PCE space and the PCE shall be fully sprinklered, as indicated on the Board-approved plans;

THAT sound attenuation shall be maintained in the PCE as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by the Department of Buildings;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by September 19, 2018;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the

Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, September 19, 2017.

## 216-15-BZ

APPLICANT – Eric Palatnik, P.C., for Gasteria Oil Corp., owner.

SUBJECT – Application September 2, 2015 – Special Permit (§73-211): to authorize the construction of an automotive service station and accessory convenience store on an irregularly shaped lot, located within an C2-4 zoning district.

PREMISES AFFECTED – 205 West Fordham Road, West 6 Frame Road bordering Sedgwick Avenue. Block 3236, Lot 0220. Borough of the Bronx.

## COMMUNITY BOARD #7BX

**ACTION OF THE BOARD** – Application denied.

THE VOTE TO GRANT –

Affirmative: .....0

Negative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

THE RESOLUTION –

WHEREAS, the decision of the Bronx Borough Commissioner, dated August 3, 2015, acting on Department of Buildings (“DOB”) Application No. 220461701 reads in pertinent part:

Proposed amendment to the automotive service [station] is contrary to previous approval under BSA Cal. No. 105-02-BZ and must therefore be referred back to the Board of Standards and Appeals; and

WHEREAS, this is an application for a special permit pursuant to ZR §§ 73-211 and 73-03 to permit the construction of an automotive service station and accessory convenience store on a site located within an R7-1 (C2-4) zoning district; and

WHEREAS, a public hearing was held on this application on June 21, 2016, after due notice by publication in *The City Record*, with continued hearings on October 14, 2016, February 28, 2017, May 2, 2017 and July 25, 2017, and then to decision on September 19, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown, former Vice-Chair Hinkson and former Commissioner Montanez performed inspections of the site and the surrounding neighborhood; and

WHEREAS, Community Board 7, the Bronx, recommends disapproval of this application based on comments from local residents of the Fordham Hill cooperative apartment complex that the proposed construction will exacerbate traffic and congestion in the

---

# MINUTES

---

area and concerns that an environmental impact statement had not been submitted; and

WHEREAS, by letter dated May 18, 2016, New York City Councilmember Fernando Cabrero expressed his opposition to the subject application on the basis that the proposal would have a negative impact on traffic congestion in the immediate area and there being no need for a new automotive service station in light of an existing automotive service station three blocks south of the subject site; and

WHEREAS, at hearing, a representative of a nearly residential co-operative testified in opposition to the application, citing traffic concerns relating to the proposed gasoline service station, alleging that residents of Fordham Hill, a development of more than 1,100 units, avoid accessing the Major Deegan via West Fordham Road, passing the subject site, because the traffic is so bad and, further, that drivers currently make illegal turns into the automotive service station located across West Fordham Road to the south of the subject site and, therefore, may make such illegal turns to access the proposed; and

WHEREAS, in addition, immediately prior to the hearing on September 19, 2017, the Board was in receipt of more than forty letters from nearby residents in opposition to the application, citing vehicular and pedestrian traffic safety concerns relating to the subject proposal, among others; and

WHEREAS, the subject site is located on the west side of West Fordham Road, between Landing Road and Sedgwick Avenue, within an R7-1 (C2-4) zoning district, in the Bronx; and

WHEREAS, the site has approximately 182 feet of frontage along West Fordham Road, 66 feet of frontage along Landing Road, 12,978 square feet of lot area and is currently developed as a public parking lot with 59 parking space and a one-story building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since October 22, 2002, when, under BSA Cal. No. 105-02-BZ, the Board granted a special permit, pursuant to ZR §§ 73-211 and 73-03 to permit the construction of an automotive service station with accessory convenience store on condition for a term of ten (10) years, expiring October 22, 2012; and

WHEREAS, the applicant represents that that proposed automotive service station was never construction and the site was subsequently used as a public parking lot; and

WHEREAS, the prior special permit having lapsed by operation of law, the applicant seeks the subject relief; and

WHEREAS, ZR § 73-211 provides as follows:

In any C2, C4, C6 or C7 District whose longer dimension is 375 feet or more (exclusive of land in *streets*), the Board of Standards and Appeals may permit *automotive service stations* provided that the following findings are made:

- (a) that the site for such *use* has a minimum area of 7,500 square feet; and
- (b) that the site for any such *use* which is not located on an arterial highway or a major *street* has a maximum area of 15,000 square

feet.

The Board shall prescribe the following conditions:

- (1) that any facilities for lubrication, minor repairs or washing are located within a *completely enclosed building*;
- (2) that the site is so designed as to provide reservoir space for five waiting automobiles within the *zoning lot* in addition to spaces available within an enclosed lubritorium or at the pumps;
- (3) that entrances and exits are so planned that, at maximum expected operation, vehicular movement into or from the *automotive service station* will cause a minimum of obstruction on *streets* or sidewalks;
- (4) that, along any *rear lot line* or *side lot line* adjoining a *Residence District*, the *zoning lot* is screened as the Board may prescribe, by either of the following methods:
  - (i) a strip at least four feet wide, densely planted with shrubs or trees at least four feet high at the time of planting and which are of a type which may be expected to form a year-round dense screen at least six feet high within three years; or
  - (ii) a wall or barrier or uniformly painted fence of fire-resistant material at least six feet high, but not more than eight feet above finished grade. Such wall, barrier, or fence may be opaque or perforated, provided that not more than 50 percent of its face is open; and
- (5) that *signs*, other than *advertising signs*, shall be subject to the applicable district *sign* regulations, provided that:
  - (i) in C2 Districts, the provisions of Sections 32-642 (Non-illuminated signs) and 32-643 (Illuminated non-flashing signs) shall be modified to permit non-*illuminated* or *illuminated non-flashing signs* with a total *surface area* not exceeding 150 square feet on any *zoning lot*; and
  - (ii) the provisions set forth in Section 32-652 (Permitted projection in all other Commercial Districts) may be modified in accordance with the provisions of Section 73-212 (Projection of accessory signs).

The Board may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, and to protect *residential zoning lots* which are adjoining or across the *street*.

WHEREAS, the Board confirms that the R7-1 (C2-4) zoning district in which the subject site is located has a

---

# MINUTES

---

length of more than 375 feet, that the subject site has a minimum area of 7,500 square feet, and that the site is located on West Fordham Road, a major street, rendering ZR § 73-211(b) inapplicable; and

WHEREAS, the Board notes that its determination is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04, inclusive; and

WHEREAS, the applicant originally proposed to construct an automotive services station with an accessory convenience store open 24 hours a day, 7 days a week and having 1,680 square feet of floor area, including 875 square feet of sales area, six parking spaces, five gasoline pump islands, the reduction of two existing curb cuts (measuring 38 feet and 32 feet) to 30 feet and replacement of one 38 foot curb cut with two 30 foot curb cuts for a total of four 30 foot curb cuts at the site; and

WHEREAS, in the course of hearings and in response to concerns from the Board regarding access to and maneuverability on the site, adequate space for landscaping to buffer the site from surrounding uses, as well as the compatibility of the proposal with existing pedestrian and vehicular traffic in the immediate area, the applicant revised the proposed plans by eliminating one gasoline pump island, angling the remaining four pump islands on the site, eliminating one of the proposed new 30 foot curb cuts and one of the convenience store parking spaces, pulling the convenience store away from the side lot line, adding landscaping across the rear lot line and a portion of the front lot line along the side of the convenience store, adding signage to indicate that left hand turns into and off of the site are prohibited at the southernmost curb cut and extending bollards from the pedestrian island opposite the site (where Sedgwick Avenue and West Fordham Road merge) an additional 10 feet to prevent illegal right turns into the site by cars traveling along West Fordham Road at the northernmost curb cut (thereby permitting access to the site at the this curb cut by cars travelling along Webb Avenue only); and

WHEREAS, despite these revisions, the Board was concerned with vehicular traffic to and from the site conflicting with pedestrian traffic, particularly the locating of curb cuts next to cross walks utilized by pedestrians walking to and from Fordham Landing Park, located immediately to the west of the subject premise, and Devoe Park, located to the northeast of the site across Sedgwick Avenue, and the capacity for vehicles to maneuver on the subject site without substantial use of the sidewalks and/or idling in the curb cuts and forcing pedestrians into the street; and

WHEREAS, in response to neighborhood concerns regarding traffic in the area, the Board requested that the applicant provide materials supporting the assumption that the site would serve pass-by traffic only rather than serve as a destination for gasoline service, and, thus, would not attract new traffic to the surrounding roadways or adversely affect existing traffic conditions in the area; and

WHEREAS, the applicant submitted a Traffic Impact Study, revised April 18, 2017, reporting that based on a

review of traffic counts taken July 28, 2016 and August 2, 2016, the weekday morning vehicular peak hour occurred from 8 a.m. to 9 a.m. (the “Morning Peak”) and the weekday evening vehicular peak hour occurred between 5:15 p.m. and 6:15 p.m. (the “Evening Peak”), and concluding that during the Morning Peak, 51 vehicles would enter and exit the site and during the Evening Peak, 68 vehicles would enter and 67 vehicles would exit the site; additionally, the study assumed, based on the CEQR Technical Manual and comments obtained from the New York City Department of Transportation (“DOT”) that 25 percent of traffic to the site would be comprised of pass-by traffic during the Morning Peak or Evening Peak<sup>1</sup>, meaning that 39 of the 51 vehicles accessing the site during the Morning Peak and 52 of the 68 vehicles accessing the site during the Evening Peak would be newly generated traffic; and

WHEREAS, this version of the Traffic Impact Study notes that the subject site would be unlikely to attract east-bound traffic because a driver that makes a left hand turn into the site will be unable to conveniently, or even legally, exit the site to continue in an easterly direction due to the cross-sectional width and number of lanes on West Fordham Road, which, the applicant notes, carries approximately 35,000 vehicles per day; and

WHEREAS, by letter dated May 31, 2017, the Bronx Office of the New York City Department of City Planning (“DCP”) states that the traffic analysis provided in connection with this application is generally sound, but does not take into consideration the development of a 136-unit affordable housing building that includes a 200 bed homeless shelter at 233 Landing Road, immediately to the west of the subject site, slated to be completed in August 2017, that would create additional pedestrian and vehicular traffic and, further, that it does not consider the future development of the Inwood Manhattan waterfront or the long-term development of the University Heights waterfront (the “DCP Letter”); and

WHEREAS, the DCP Letter additionally states, “While pedestrian traffic volumes on the north side of Fordham Road today are low it is expected they will increase significantly as the waterfront develops. Specifically there will be additional conflicts with vehicles ingressing and egressing the gas station where no crosswalks exist at Fordham and Landing Rd.”; and

WHEREAS, at hearing and in a subsequent written submission, the applicant disputed the DCP Letter, alleging that it was riddled with errors and written with the purpose of dissuading the Board from approving the subject

---

<sup>1</sup> This version of the Traffic Impact Study states, however, that “it is an accepted industry standard and well documented within the [Institute of Transportation Engineers] Trip Generation Handbook, 3rd Edition that a significantly greater percentage of pass-by trips are associated with gasoline stations and convenience store uses (64% pass-by trips during the weekday morning peak hour and 56% pass-by trips during the weekday evening peak hour).”

---

# MINUTES

---

application and submitted a report from Brooklyn Borough President Eric L. Adams titled “Fueling Brooklyn’s Future,” discussing the current state of fueling stations in Brooklyn and steps to prevent mass gasoline station closures similar to those seen following Hurricane Sandy, in support of their proposition that gasoline service stations are needed across the city; and

WHEREAS, in response to the Board’s request and in further response to the DCP letter, the applicant submitted further revised versions of the Traffic Impact Study, the last of which was revised July 17, 2017, adding review of pedestrian count data at the site (conducted on July 28, 2016, August 2, 2016, and May 20, 2017), concluding that 88 pedestrian traverse the frontage of the subject site during the Saturday midday peak hour of 3:30 p.m. to 4:30 p.m. (the “Saturday Peak”); considering the effects of the planned development at 233 Landing Road and concluding that the 233 Landing Road site would generate 8 total vehicle trips and 122 total pedestrian trips during the Morning Peak, 10 total vehicle trips and 169 total pedestrian trips during the Evening Peak and 11 vehicles trips and 160 pedestrian trips during the Saturday Peak; and

WHEREAS, the latest version of the Traffic Impact Study also revised the conclusion regarding trip generation at the proposed site, reducing the number of vehicles entering and exiting the site during the Morning Peak from 51 to 41 and 51 to 40, respectively, and reducing the number of vehicles entering and exiting the site during the Evening Peak from 68 to 54 and 67 to 54, respectively; the final Traffic Impact Study ultimately concluded that the Saturday Peak overlaid on the Morning Peak and Evening Peak are calculated to allow the site to operate a Level of Service B (on a scale of A to F); and

WHEREAS, by letter dated July 24, 2017, DOT states that the traffic improvement measures proposed by the applicant (specifically, modifications of traffic signal timing at the Sedgewick Avenue and West Fordham Road intersection during the weekday morning and evening peak hours and geometric and pavement marking modifications to extend channelization including short dotted line and flexible delineators to discourage illegal right turns into the most easterly site entrance) appear reasonable and feasible; and

WHEREAS, the Board finds that DOT’s letter suggests the agency’s position of accommodating the subject proposal rather than evaluating its suitability at the subject site and, accordingly, fails to find, as it must pursuant to ZR § 73-03(a), that there are any conditions or safeguards that could be imposed that would enable the hazards or disadvantages of the proposed special permit use to the community at large to be outweighed by the advantages to be derived by its grant; and

WHEREAS, at multiple hearings, the Board inquired about possible further reduction in the number of pumps, the existence and size of the proposed convenience store, the necessity for three curb cuts interrupting a sidewalk utilized by pedestrians accessing nearby parks, the decision to provide diesel and thereby invite trucks having greater

maneuverability needs onto the site, whether trucks could effectively make the turns indicated on the submitted truck circulation plan and whether the site was too narrow to accommodate both gasoline services and a convenience store along with its required accessory parking, but such comments remained unaddressed by the applicant; and

WHEREAS, instead, the applicant submitted that the subject proposal was similar in scope and design of the special permit granted for the site in 2002 and, because the area has not substantially changed, the subject application should be similarly granted; that the diesel proposed at the site was low-flow and, thus, unlikely to attract large trucks, which prefer high-flow diesel that can refuel a truck in a shorter period of time, and that the number of proposed curb cuts is the same as the number of existing curb cuts at the site and, therefore, the proposed would actually not result in any additional adverse impacts to pedestrian traffic; and

WHEREAS, in response, the Board stated at hearings that the land use and development patterns of the surrounding area have, in fact, changed since the first special permit was granted for this site in 2002; that the site is currently in use as a parking lot and the three existing curb cuts are currently utilized much less frequently than the three revised curb cuts would be used if the site were utilized as a gasoline service station; that, though the applicant represents that the site would not be attractive to larger trucks, the best way of ensuring that such trucks do not enter the site would be to eliminate diesel at the site, which the applicant has not done; and reiterated its concerns that the narrowness of the site constrains vehicle circulation both on the site and between the site and the surrounding streets, specifically citing the applicant’s last revision of its vehicle circulation plan, submitted June 29, 2017, illustrating that to exit the site at the southernmost curb cut, a vehicle would have to travel laterally on the sidewalk for a distance of more than 42 feet; and

*Therefore, it is Resolved*, that the decision of the Department of Buildings, dated August 3, 2015, acting on Department of Buildings (“DOB”) Application No. 220461701, is sustained and the subject application is hereby denied.

Adopted by the Board of Standards and Appeals, September 19, 2017.

## **2016-4131-BZ**

APPLICANT – Rothkrug Rothkrug & Spector LLP, for Ateret Torah Center, owner.

SUBJECT – Application March 7, 2016 – Special Permit (§73-19) to permit the construction of a school (UG 3) (Yeshiva Ateret Torah) contrary to use regulation on a portion of the lot and a Variance (§72-21) to permit waivers for height and setback, front yard, street wall height, ridge line and absence of off-street loading facilities. C8-2 and R5 (OP) zoning district.

PREMISES AFFECTED – 901 Quentin Road, Block 6641, Block 38, Borough of Brooklyn.

**COMMUNITY BOARD #15BK**

---

# MINUTES

---

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

**THE RESOLUTION** –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated February 4, 2016, acting on New Building Application No. 320622769, reads in pertinent part:

Proposed Use Group 3 school is not permitted with the C8-2 portion of the lot, contrary to ZR32-12. BSA special permit is required pursuant to ZR32-31.

Height and setback does not comply with ZR33-432 & 33-42 (f).

Front yard does not comply with zoning requirement per ZR113-542/23-45.

Maximum street wall height does not comply with zoning requirement per ZR113-55/23-631.

Maximum ridge line does not comply with zoning requirement per ZR113-55 /23-631.

Proposed new building containing school without off street loading facilities and bus drive-thru lane does not comply with zoning requirement per ZR113-22(a); and

WHEREAS, this is an application under ZR §§ 73-19 and 73-03 to permit, on a site partially in a C8-2 zoning district and the Special Ocean Parkway District and partially in an R5 zoning district and the Subdistrict of the Special Ocean Parkway District, a school, contrary to ZR § 32-12, and an application under ZR § 72-21 for a variance to permit the development of a school building that does not comply with zoning requirements for height and setback, front yards, street wall height, ridge line and off-street loading facilities, contrary to ZR §§ 33-432, 33-42(f), 113-542, 23-45, 113-55, 23-631, 113-55, 23-631 and 113-22(a); and

WHEREAS, a public hearing was held on this application on May 16, 2017, after due notice by publication in *The City Record*, with a continued hearing on July 18, 2017, and then to decision on September 19, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the north side of Quentin Road, between East 9th Street and East 10th Street, on a site partially in a C8-2 zoning district and the Special Ocean Parkway District and partially in an R5 zoning district and the Subdistrict of the Special Ocean Parkway District, in Brooklyn; and

WHEREAS, the site has approximately 200 feet of frontage along Quentin Road, 100 feet of frontage along East 9th Street, 120 feet of frontage along East 10th Street, 22,000 square feet of lot area and is occupied by a four-

story, with cellar, school building, a two-story, with cellar, accessory office building and a trailer; and

WHEREAS, the Board has exercised jurisdiction over the subject site since May 30, 1984, when, under BSA Calendar Number 1147-83-BZ, the Board granted a special permit under ZR § 73-19 to allow the development of a three-story, with cellar, building for use as a parochial school on condition that all loading and unloading of children take place on the site and off the street, that application be made to the Department of Traffic for signs prohibiting curbside parking during school hours and that application be made to the Department of Traffic for school crossing guards; and

WHEREAS, on April 15, 1986, under BSA Calendar Number 1147-83-BZ, the Board amended the special permit to change the school structure from a three-story to a four-story structure and to change the interior layout; and

WHEREAS, the applicant proposes to construct a second school building (the “School Building”) on the subject site, which will replace the existing accessory office building and trailer; and

WHEREAS, the applicant first seeks a special permit under ZR §§ 73-19 and 73-03 to allow a school (the “School”) on the portion of the site in a C8-2 zoning district; and

WHEREAS, in C8 zoning districts, schools are not permitted as-of-right under ZR § 32-12; and

WHEREAS, the applicant represents that the School meets the requirements of the special permit authorized by ZR §§ 73-19 and 73-03 for permitting a school in a C8-2 zoning district; and

WHEREAS, ZR § 73-19(a) requires an applicant to demonstrate difficulty in obtaining land for the development of a school within the neighborhood to be served with an adequate size, sufficient to meet the programmatic needs of the School within a district where the School is permitted as-of-right; and

WHEREAS, in support of this contention, the applicant submitted a programmatic-needs report detailing the School’s pedagogical requirements as they relate to the proposed built character of the School Building, including narratives regarding the School’s existing facilities, a proposed floor area chart illustrating the proposed additions of a gym and cafeteria space at the cellar, an assembly space on the first floor, a study hall on the second floor and the addition of 12 new classrooms on the third and fourth floors, statistics regarding the number of students and faculty, a narrative about programmatic deficiencies to be solved by the School Building and occupancy charts illustrating the utilization of classroom spaces throughout the school week; and

WHEREAS, the applicant submits that the School has performed a search of other properties within the neighborhood and found that, of other sites that are of comparable size, only two are unimproved; the first site is owned in common with an adjacent residential home, and the second site has recently had a new-building application approved for development; and

---

# MINUTES

---

WHEREAS, the applicant further states that the School already operates one building on the subject site, that purchasing an alternate site would be cost prohibitive and create practical difficulties in meeting the School's programmatic needs because of the redundant staff and facilities that would be needed; and

WHEREAS, the applicant has demonstrated difficulty in obtaining land for the development of a school within the neighborhood to be served by the School and with an adequate size within districts where a school is permitted as-of-right sufficient to meet the programmatic needs of the School; and

WHEREAS, accordingly, the Board finds that the requirements of ZR § 73-19(a) are met; and

WHEREAS, the applicant states that part of the subject site is located within an R5 zoning district, where the School is permitted as-of-right; and

WHEREAS, consistent with ZR § 73-19(b), the Board finds that the School is located within 400 feet of an R5 zoning district, where the school is permitted as-of-right; and

WHEREAS, the applicant states that the subject site's immediate block within the C8-2 zoning district is only otherwise occupied by the other school building and that the School will be separated from the remainder of the C8-2 zoning district by streets; and

WHEREAS, the applicant submits that nearby commercial uses include eating and drinking establishments, retail stores, a physical culture establishment and a fully enclosed automotive repair establishment located across Quentin Road at substantial distances; and

WHEREAS, the Board finds that adequate separation from noise, traffic and other adverse effects of the surrounding non-residential district is achieved through the use of sound-attenuating fencing, as well as the distances from the School along both street frontages, thus satisfying the requirements of ZR § 73-19(c); and

WHEREAS, as to ZR § 73-19(d), the applicant represents that an area has been designated as a "no standing" zone along Quentin Road for students to be dropped off and picked up in front of the subject site, that drop offs and pickups are monitored by school staff and that little deviation, if any, from current operations of the subject site will be necessary to accommodate the School; and

WHEREAS, by letter dated March 17, 2017, the New York City Department of Transportation ("DOT") has conducted a child and traffic safety review of the School and has no objection to a school at the subject site; and

WHEREAS, in response to comments from the Board, the applicant provided a faculty survey and an operational plan detailing procedures for picking up and dropping off students so as to control vehicular and pedestrian traffic; and

WHEREAS, the Board finds that under ZR § 73-19(d) the movement of traffic through the streets on which the School will be located can be controlled so as to protect children going to and from the School; and

WHEREAS, accordingly, the Board finds that the evidence in the record supports the findings required to be

made under ZR § 73-19; and

WHEREAS, in reference to ZR § 73-03(a) and the application sought under ZR § 73-19, the Board acknowledges that the School, as an educational institution, is entitled to deference under the law of the State of New York as to zoning; specifically, as held in *Cornell University v. Bagnardi*, 68 N.Y.2d 583 (1986), an education institution's zoning application is to be granted unless it can be shown to have an adverse effect upon the health, safety or welfare of the community, and general concerns about traffic and disruption of the residential character of a neighborhood are insufficient grounds for a denial; and

WHEREAS, as to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the applicant also seeks a variance under ZR § 72-21 to permit the development of the School Building, which does not comply with the zoning regulations for height and setback, front yards, maximum street wall height, maximum ridge line and special off-street loading regulations, contrary to ZR §§ 33-432, 33-42(f), 113-542, 23-45, 113-55, 23-631, 113-55, 23-631 and 113-22(a); and

WHEREAS, the applicant represents that a variance is necessitated by the need for additional spaces based on past and projected growth in the School's enrollment and the need for classrooms, a study hall, gymnasium and assembly space, laboratories and outdoor recreation; and

WHEREAS, the applicant states that the existing school building cannot accommodate the School's programmatic needs, which necessitated the acquisition of the portion of the subject site within the R5 zoning district for accessory office space; and

WHEREAS, the applicant further states that the existing school building is overcrowded and outdated, that there is inadequate space for indoor recreation, lunchrooms and other ancillary spaces and that these conditions create practical difficulties in meeting the School's programmatic needs on-site and have forced the School to move part of its programming off-site; and

WHEREAS, in addition, the applicant notes, and the Board recognizes, that the School, as an educational institution, is entitled to deference under the law of the State of New York as to zoning and its ability to rely upon programmatic needs in support of the subject variance application; specifically, as held in *Cornell University v. Bagnardi*, 68 N.Y.2d 583 (1986), an educational or religious institution's zoning application is to be granted unless it can be shown to have an adverse effect on the health, safety or welfare of the community, and general concerns about traffic and disruption of the residential character of a

---

# MINUTES

---

neighborhood are insufficient grounds for the denial of such application; and

WHEREAS, based on the above, the Board finds that the applicant is entitled to deference on this application and satisfaction of the (a) finding is not required; and

WHEREAS, because the School is a non-profit organization and the variance is requested to further its non-profit mission, the finding set forth in ZR § 72-21(b) is not required in order to grant the subject variance; and

WHEREAS, as to ZR § 72-21(c), the applicant represents that the School Building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that the School Building will fit in with the existing frontage on Quentin Road and heights of the buildings in the vicinity and submitted streetscape studies and radius diagrams in support of this contention; and

WHEREAS, the applicant notes that the existing accessory office building will be demolished, and, in its stead, there will be a yard with a width of 10 feet that will serve as a buffer between the School Building and residences to the north; and

WHEREAS, at the Board's request, the applicant proposes to provide hedges, plantings and landscaping along the perimeter of the subject site with additional street trees and a sound-attenuated fence with bicycle parking; and

WHEREAS, accordingly, the Board finds that this action will neither alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant states that the hardship was not self-created; and

WHEREAS, the Board finds that the hardship claimed as a ground for the variance was not created by the owner or a predecessor in title in accordance with ZR § 72-21(d); and

WHEREAS, under ZR § 72-21(e), the applicant states that the School Building involves the minimum variance of bulk regulations necessary to accommodate the School's programmatic needs; and

WHEREAS, the applicant submits that a conforming development would not allow the School to fulfill the pedagogical mission detailed in the submitted programmatic-needs report because an as-of-right development would either block windows, split the outdoor recreation area, reduce the first story to an inefficient floor plan, create traffic disturbance or significantly reduce the number of classrooms; and

WHEREAS, accordingly, the Board finds that the proposal represents the minimum variance necessary to provide relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21 and that the applicant has substantiated a basis to warrant exercise of discretion to

grant and is therefore entitled to relief on the grounds of practical difficulty or unnecessary hardship; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 16-BSA-085K, dated April 28, 2017; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, by letter dated August 18, 2017, the New York City Department of Environmental Protection's Bureau of Environmental Protection and Analysis ("DEP") states that the proposed project will not result in any potential for significant adverse impacts with regard to air quality; and

WHEREAS, the New York City Landmarks Preservation Commission ("LPC") environmental review of the proposal, dated March 17, 2017, indicates that the site has no architectural or archaeological significance; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *issue* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR §§ 73-19 and 73-03 to *permit*, on a site partially in a C8-2 zoning district and the Special Ocean Parkway District and partially in an R5 zoning district and the Subdistrict of the Special Ocean Parkway District, a school, contrary to ZR § 32-10, and makes each and every one of the required findings under ZR § 72-21 to *permit* the development of a school building that does not comply with zoning requirements for height and setback, front yards, street wall height, ridge line and off-street loading facilities, contrary to ZR §§ 33-432, 33-42(f), 113-542, 23-45, 113-55, 23-631, 113-55, 23-631 and 113-22(a); *on condition* that all construction and site conditions shall comply with the drawings filed with this application marked "Received September 5, 2017"-Twenty-One (21) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as

# MINUTES

follows: a maximum height of 73'-4.5", a maximum street wall height of 60 feet and a maximum ridge line height of 60 feet, as illustrated on the Board-approved plans; and

THAT a certificate of occupancy shall be obtained within four (4) years, by September 19, 2021;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, September 19, 2017.

## 2016-4147-BZ

APPLICANT – Sheldon Lobel, P.C., for Pietro Alesci, owner.

SUBJECT – Application March 17, 2016 – Variance (§72-21) to permit the development of a three-story, three-family residential building (UG 2) contrary to ZR §42-10. M1-1D zoning district.

PREMISES AFFECTED – 57-12 58<sup>th</sup> Place, Block 2672, Lot 96, Borough of Queens.

### COMMUNITY BOARD #5Q

ACTION OF THE BOARD – Application withdrawn.

THE VOTE TO WITHDRAW –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

THE RESOLUTION:

WHEREAS, the decision of the Queens Borough Commissioner, dated February 16, 2016, acting on Department of Buildings (“DOB”) Application No. 42154939 reads in pertinent part:

Proposed new three family dwelling at premises not permitted by zoning resolution section 42-10; and

WHEREAS, this is an application under ZR § 72-21 to permit, on a site located in an M1-1D zoning district, the construction of a three-family dwelling contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on March 7, 2017, after due notice by publication in *The City Record*, with a continued hearing on May 16, 2017, at which point the hearing was closed and scheduled for decision on July 25, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 5, Queens, has no objection to the approval of this application; and

WHEREAS, the subject site is located on the west side of 58th Place, between Maspeth Avenue and 57th Road, within an M1-1D zoning district, in Queens; and

WHEREAS, the site has approximately 25 feet of frontage along 58th Place, a depth of 95 feet, 2,375 square feet of lot area and is currently vacant; and

WHEREAS, the site was previously occupied by a two-story residential building; and

WHEREAS, the site was disposed of by the City of New York, acting by and through the New York City Department of Housing Preservation and Development (“HPD”), to a predecessor in interest in March 2006 and is subject to a deed restriction requiring that all buildings and improvements at the site be conserved and the site be utilized for residential use until, at least, 2026; and

WHEREAS, the applicant represented that HPD had been contacted regarding modifying the deed restriction to permit the construction of the proposed residential building and HPD agreed to modify the deed if the Department of City Planning (“DCP”) granted a zoning authorization, pursuant to ZR § 42-47(a) to permit the development of a new residential building on the site, but, upon the August 2014 demolition of the then-existing two-story residential building, which was in poor condition, uninhabitable and in risk of collapse, DCP determined that there was no longer any existing residential use at the site and, thus, authorization pursuant to ZR § 42-47(a) was no longer available; and

WHEREAS, accordingly, the applicant seeks the subject relief to permit residential use at the site; and

WHEREAS, the applicant provided a Phase I Environmental Site Assessment and by letter dated December 21, 2016, the New York City Department of Environmental Protection (“DEP”) stated that the Phase I report revealed historical manufacturing uses, including an auto garage, junk yard, machine shop, wood manufacturing facility, paper products manufacturing facility and residential use on the subject site and the surrounding area and that a review of regulatory databases reported 33 spills within a ½-mile radius of the site, 3 of which were in active status; and

WHEREAS, accordingly, DEP recommended that a Phase II Environmental Site Assessment be completed to adequately identify and characterize the surface and subsurface soils of the subject site; and

WHEREAS, at hearing, the applicant represented that DEP was incorrect in stating that manufacturing uses were previously located at the site and disagreed that a Phase II was necessary; further, the applicant submitted that the proposed building would be slab on grade, thus, the remedy for any ground contamination would be the installation of a vapor barrier; the applicant additionally offered to complete soil vapor testing in lieu of a Phase II, which the applicant stated was prohibitively expensive; and

WHEREAS, by letter dated, July 24, 2017, the applicant requested withdrawal of the application, without prejudice; and

WHEREAS, pursuant to § 1-12.2 of the Boards Rules

# MINUTES

of Practice and Procedure, if a request to withdraw an application is made after the hearing is closed, the Board may permit withdrawal without prejudice for good cause only and that, if the Board determines that proper enforcement or public policy would thereby be served, the Board may refuse the withdrawal or condition the withdrawal with prejudice on the re-filing of a future application for the same relief; and

WHEREAS, the Board deferred decision on the request to withdraw to September 19, 2017, pending further explanation from the application regarding the reason for the request and whether HPD would require the completion of a Phase II at the site; and

WHEREAS, by communication dated September 6, 2017, HPD stated that they deferred to the Board as lead agency as to the necessity of completing a Phase II; and

WHEREAS, the Board, in turn, defers to DEP, as the agency with the expertise regarding environmental review, in evaluating the necessity of certain environmental investigations, such as the Phase II recommended in this case; and

WHEREAS, the applicant identified the costs of completing a Phase II as the rationale for the request to withdraw the subject application; and

WHEREAS, the Board finds that the financial concerns of the applicant constitute good cause for the withdrawal of this application without prejudice; and

*Therefore, it is Resolved*, that the Board of Standards and Appeals accepts the withdrawal of this application without prejudice.

Adopted by the Board of Standards and Appeals, September 19, 2017.

## **2016-4277-BZ**

### **CEQR #17-BSA-035Q**

APPLICANT – Fried Frank Harris Shriver & Jacobson, LLP, for Consolidated Edison Company of New York, Inc., owner.

SUBJECT – Application March 28, 2017 – Special Permit (§73-16) to permit the addition of a battery storage facility to an existing electric utility substation that was granted pursuant to BSA Calendar Number: 178-63-BZ. R4 zoning district.

PREMISES AFFECTED – 79-04 151<sup>st</sup> Avenue, Block 11426, Lot 2, Borough of Queens.

### **COMMUNITY BOARD #10Q**

**ACTION OF THE BOARD** – Application granted on condition.

#### **THE VOTE TO GRANT –**

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

#### **THE RESOLUTION –**

WHEREAS, the decision of the Department of Buildings (“DOB”), dated December 14, 2016, acting on New Building Application No. 421265213, reads in pertinent part:

“Proposed battery facility as part of an electric utility substation is not permitted as-of-right in the R4 zoning district. Obtain special permit from the Board of Standards and Appeals pursuant to ZR Section 73-16”; and

WHEREAS, this is an application under ZR §§ 73-16 and 73-03 to permit, in an R4 zoning district, an electric utility substation, contrary to ZR § 22-10; and

WHEREAS, a public hearing was held on this application on March 28, 2017, after due notice by publication in *The City Record*, with continued hearings on May 23, 2017, and July 25, 2017, and then to decision on September 19, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 10, Queens, recommends approval of this application; and

WHEREAS, Queens Borough President Melinda Katz submitted testimony in support of this application; and

WHEREAS, the subject site is located on the southeast corner of 151st Avenue and 79th Street, in an R4 zoning district, in Queens; and

WHEREAS, the site has approximately 99 feet of frontage along 151st Avenue, 123 feet of frontage along 79th Street, 12,174 square feet of lot area and is occupied by an existing electric utility substation; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 16, 1963, when, under BSA Calendar Number 178-63-BZ, the Board permitted the construction and maintenance of an outdoor electric unit substation on condition that a certificate of occupancy be obtained within one (1) year, by July 16, 1964; and

WHEREAS, the applicant now seeks a special permit to allow an electric utility substation, specifically the addition of a battery storage facility to an existing electric utility substation owned and operated by the Consolidated Edison Company of New York, Inc.; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, under ZR § 73-16(a), the applicant represents that the electric utility substation will serve either the residential community within which it is proposed to be located and the residential community immediately adjacent;

---

# MINUTES

---

and

WHEREAS, the applicant states that the electric utility substation will be connected to the Richmond Hill Network, primarily serving the Lindenwood, Howard Beach and Ozone Park neighborhoods and provided a map illustrating that such residential communities include the community in which the electric utility substation will be located as well as those immediately adjacent; and

WHEREAS, the applicant further states that there are serious difficulties in locating the electric utility substation in a nearby district where it is permitted as of right because the combined lot area of the proposed electric utility substation with the existing one would require location in a manufacturing district; however, the manufacturing districts within a half-mile of the subject site are small, and sites in those districts are unavailable; and

WHEREAS, accordingly, the Board finds that the requirements of ZR § 73-16(a) are met; and

WHEREAS, because this application does not propose a public transit or railroad electric substation, ZR § 73-16(b) is not applicable; and

WHEREAS, consistent with ZR § 73-16(c), the applicant represents that the site is located so as to minimize any adverse effects on the integrity of existing and future development in the R4 zoning district; and

WHEREAS, in response to questions from the Board regarding visual screening, landscaping and sound attenuation, the applicant submits that the proposed electric utility substation will be screened by a new ten-foot high, brick-faced wall along 151st Avenue and 79th Street, which will screen views of the subject site from the east and south and provide sound attenuation; and

WHEREAS, the applicant will also replace fencing with brick-faced wall along 151st Avenue and an ornamental security fence along 79th Street, repaint the existing fencing along the eastern and southern lot lines and provide evergreen screening growing to a height of 20–25 feet with new hedges and street trees; and

WHEREAS, the Board finds that the requirements of ZR § 73-16(c) are met; and

WHEREAS, the applicant represents that, under ZR § 73-16(d), the architectural and landscaping treatment of the proposed electric utility substation will blend harmoniously with the surrounding area; and

WHEREAS, the applicant submitted a study illustrating that the surrounding area is characterized by a variety of residential uses, many of which feature ground-floor brick-front facades, which the brick-faced screening wall will visually complement; and

WHEREAS, the applicant further represents that the proposed screening wall will be treated with a solution designed to protect masonry surfaces from graffiti and will feature ivy in new sidewalk beds, subject to approval by the Department of Transportation, or on the interior of the subject site so as to grow over the proposed screening wall; and

WHEREAS, the Board finds that the applicant has met the requirements of ZR § 73-16(d); and

WHEREAS, consistent with ZR § 73-16(e), the applicant represents that the proposed electric utility substation will conform the performance standards applicable to M1 zoning districts enumerated in ZR §§ 42-21–42-28; and

WHEREAS, with respect to noise under ZR § 42-21, the applicant provided a sound study of the battery installation proposed indicating that the levels of noise produced adjacent to the subject site will be 43–48 dBA, comparable to the noise level of a quiet urban area at night; and

WHEREAS, by letter dated August 30, 2017, the Department of Environmental Protection states that the proposed project would not result in any potential for significant adverse impacts in regards to noise; and

WHEREAS, examining vibration under ZR § 42-22, the applicant submitted a vibration monitoring plan and represents that the only potential source of vibration within the proposed electric utility substation would be eight HVAC condenser units serving the battery containers, which will be located on elevated metal platforms and would have minimal vibration effects on the surrounding area, if any, which effects would be within the ranges permitted for steady state and impact vibrations; and

WHEREAS, turning to fire and explosive hazards under ZR § 42-47, the applicant represents that the battery installation proposed will utilize lithium ion batteries, which are Class I materials, consistent with M1 zoning district performance standards and have been selected for their thermal stability and low risk of thermal runaway; and

WHEREAS, in order to ensure safe operation of the battery installation proposed, the applicant submits that the facility will be continuously monitored when active with maintenance crews visiting quarterly for maintenance checks and more frequently on an as-needed basis, and the applicant has developed an emergency protocol in conjunction with the Fire Department, including the following: remote shutdown of any cells at risk of thermal overload, a dry fire suppression system in the event that any cell catches fire and a back-up wet-sprinkler system in the event that the dry suppression system is ineffective; and

WHEREAS, by letter dated March, 22, 2017, the Fire Department states that it has no objection to this application on condition that any standard protocols relating to fire and life safety that are developed in the future be added to the battery installation proposed at such time as they are officially established; and

WHEREAS, the applicant states that the proposed electric utility substation will not generate or cause any smoke, dust or other particulate matter, odorous matter, toxic noxious matter, radiation hazards, humidity, heat or glare and will not include oxygen manufacture, storage or use; and

WHEREAS, the Board finds that the applicant has met the requirements of ZR § 73-16(e); and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is

# MINUTES

outweighed by the advantages to be derived by the community; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17-BSA-035Q, dated October 31, 2016; and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-16 and 73-03.

*Therefore, it is Resolved*, that the Board of Standards and Appeals *issues* a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-16 and 73-03 to *permit*, in an R4 zoning district, an electric utility substation, contrary to ZR § 22-10; all work and site conditions shall substantially conform to drawings filed with this application marked “Received August 29, 2017” – Three (3) sheets; and *on further condition*:

THAT a certificate of occupancy shall be obtained within four (4) years, by September 19, 2021; and

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, September 19, 2017.

## 2016-4337-BZ

### CEQR #17-BSA-045K

APPLICANT – Eric Palatnik, P.C., for Dr. Joshua Schiller and Ms. Vivian Lee, owners.

SUBJECT – Application November 22, 2016 – Variance (§72-21) to permit the enlargement of an existing single family home contrary to side yards (ZR 23-461a and rear yards (ZR 23-543). R5 zoning district.

PREMISES AFFECTED – 127 Vanderbilt Street, Block 5264, Lot 51, Borough of Brooklyn.

### COMMUNITY BOARD #7BK

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

### THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated November 6, 2016, acting on Alteration Application No. 321195853, reads in pertinent part:

“ZR 23-543: Proposed enlargement increases the degree of non-compliance for both of its required rear yards”; and

WHEREAS, this is an application under ZR §§ 73-69 and 73-03 to permit, in an R5 zoning district, modifications to the rear yards required for a zoning lot existing on April 30, 2008, contrary to ZR § 23-543; and

WHEREAS, a public hearing was held on this application on July 25, 2017, after due notice by publication in *The City Record*, and then to decision on September 19, 2017; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and WHEREAS, Community Board 7, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the north side of Vanderbilt Street, between McDonald Avenue and 20th Street, in an R5 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 18 feet of frontage along Vanderbilt Street, 150 feet of depth, 4,300 square feet of lot area and is occupied by a two-story, with cellar, residence; and

WHEREAS, the applicant originally sought a variance under ZR § 72-21 to permit an enlargement of the existing residence that would not comply with regulations for rear yards and side yards; and

WHEREAS, in response to comments from the Board about the inability of the subject site to meet the required findings under ZR § 72-21, the applicant instead seeks a modification to the rear yards required for a zoning lot existing on April 30, 2008, under ZR §§ 73-69 and 73-03; and

WHEREAS, as a threshold matter, the applicant submits that the zoning lot existed on April 30, 2008, and provided evidence in the form of historic tax maps, a 1948 alteration application, 1949 alteration plans, a 1950 certificate of occupancy, a deed from 1978 and Sanborn maps dating from 1950 to 2007 demonstrating that the subject zoning lot was “a lot of record existing on December 15, 1961,” consistent with subdivision (a) of the “zoning lot” definition in ZR § 12-10, and that the subject zoning lot has remained unchanged since; and

WHEREAS, under ZR § 73-69(a), the applicant submits that no horizontal enlargement to the residence would be possible without increasing the degree of non-compliance with respect to the subject site’s required rear yards, that the rear yards required overlap one another, that a forward encroachment into the 18-foot-wide portion of the lot would create non-compliances with side-yard requirements and that the existing residence contains only

---

# MINUTES

---

two bedrooms, dining room and kitchen; and

WHEREAS, the Board finds that because of the irregular shape of the subject zoning lot, compliance with rear-yard regulations would create site planning constraints and adversely affect the layout and development of the site; and

WHEREAS, the applicant submits that the requested rear-yard modification results in a residence with a Floor Area Ratio ("FAR") of 0.31 where 1.25 FAR is permitted and lot coverage of 24 percent where 55 percent is permitted and that, accordingly, the requested reduction is the minimum necessary to afford relief; and

WHEREAS, the Board finds that the requested reduction in rear-yard depth is the least amount necessary to grant relief; and

WHEREAS, the applicant represents that the surrounding area is characterized by low-density residences with varying rear-yard depths, that the proposed enlargement would not encroach into the open space of adjacent residences, that all of the surrounding residences have floor area ratios greater than the 0.31 FAR proposed and that adjacent lot contain garages directly in line with the subject residence; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification is outweighed by the advantages to be derived by the community; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17-BSA-045K, dated November 22, 2016; and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-69 and 73-03.

*Therefore it is Resolved*, that the Board of Standards and Appeals *issues* a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-69 and 73-03 to *permit*, in an R5 zoning district, modifications to the rear yards required for a zoning lot existing on April 30, 2008, contrary to ZR § 23-543; *on condition* that all work and site conditions shall substantially conform the drawings filed with this application marked "Received September 19, 2017"- Ten (10) sheets; and *on further condition*:

THAT a certificate of occupancy shall be obtained within four (4) years, by September 19, 2021;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, September 19, 2017.

## APPEALS CALENDAR

### 2016-4327-A

APPLICANT – Sky House Condominium, owner.

SUBJECT – Application November 10, 2016 – Appeal challenging NYC Department of Building's determination that the Tower complies with the New York City Zoning Resolution and the New York City Housing Maintenance Code. C5-2 zoning district.

PREMISES AFFECTED – 15 East 30<sup>th</sup> Street, Block 860, Lot (s) 12, 69, 63, Borough of Manhattan.

### COMMUNITY BOARD #5M

**ACTION OF THE BOARD** – Appeal denied.

THE VOTE TO GRANT –

Affirmative: .....0

Negative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown .....3

THE RESOLUTION –

WHEREAS, the determination of the Department of Buildings (“DOB”), dated March 1, 2017, acting on a public challenge to New Building Application No. 122128679, reads in pertinent part:

The challenger’s second zoning challenge pertains to the classification of the Chandler Hotel’s existing use as a residential use and not a commercial use (Point II). The Chandler Hotel at 12 East 31st Street is on tax lot No. 74, which is one of six adjoining tax lots, including the subject building’s tax lot No. 12, which have been merged into a single zoning lot. Per the latest Certificate of Occupancy (CO) (No. 38263) in the Department’s BIS website, dated March 8, 1951, the Chandler Hotel’s lawful use is a “hotel.” In addition, the CO states that “[t]his building complies with Section 67 of the Multiple Dwelling Law.”

[ . . . ]

As per the Chandler Hotel’s inspection I-cards, circa 1938, from the Housing Preservation and Development’s (HPD) website . . . , the Chandler Hotel is classified as a “Heretofore Erected Existing Class B” (HEXB) multiple dwelling “originally erected as [an] apartment [and] transient hotel.” Per the NYS Multiple Dwelling Law’s (MDL) definition in MDL § 4(9), “[a] ‘class B’ multiple dwelling is a multiple dwelling which is occupied, as a rule transiently, as the more or less temporary abode of individuals or families who are lodged with or without meals. This class shall include hotels . . . .” MDL § 4(12)

defines hotel as “an inn having thirty or more sleeping rooms.” According to the I-card issued contemporaneously with the 1951 CO, none of the units in the Chandler Hotel were identified as residential apartments. Therefore, based on the above DOB and HPD records, this public challenge is hereby denied.

[ . . . ]

The challenger’s third zoning challenge pertains to the subject building’s mechanical floor spaces’ use and “unnecessary height” (Point III). The challenger does not specify which of the subject building’s mechanical floor spaces will be constructed with “unnecessary height.”

Per the Zoning Resolution’s definition for “floor area” in Section ZR 12-10, “the floor area of a building shall not include . . . (8) floor space used for mechanical equipment . . . .” Per the mechanical plans approved by the Department for the building’s second, third, fourth, fiftieth and fifty-first stories, those stories contain mechanical equipment throughout each story, which supports the building’s mechanical systems. As such, these stories may be excluded from the building’s floor area, as demonstrated on the approved zoning analysis . . . .

In addition, the Zoning Resolution does not regulate the floor-to-ceiling height of a building’s mechanical spaces. The building’s bulk, including the building’s height, is limited by the applicable height and setback regulations, including the tower regulations, in the Zoning Resolution. The approved zoning analysis . . . demonstrates that the subject building’s bulk complies with the tower regulations in ZR 23-65 (Tower Regulations), including ZR 23-652 (Standard Tower). Therefore, this public challenge is hereby denied.

[ . . . ]

The [fifth] zoning challenge pertains to the minimum required distance between the subject building and the Chandler Hotel.

In response, the challenger states that “I agree that the building space requirements of 23-71 are not applicable ‘because the existing and proposed building are abutting on the same zoning lot and therefore considered to be one building.’”

In addition, the challenger cites to subdivision 2 in MDL § 28 (Two or more buildings on same lot) in the NYS Multiple Dwelling Law . . . . Because the Chandler Hotel on tax lot No. 74 and the subject building on tax lot No. 12 are located on two separate tax lots, MDL 28(2) is not applicable. Therefore, this public challenge is hereby denied; and

WHEREAS, this is an appeal for interpretation under ZR § 72-11 and Charter § 666(6)(a), brought on behalf of Sky House Condominium (“Appellant”), owner in fee of

---

# MINUTES

---

land located in Manhattan known and designated as Block 859, Lot 7501 (11 East 29th Street), alleging errors of law pertaining to floor space used for mechanical equipment within a building proposed at 15 East 30th Street (the “Proposed Building”) and to the use classification of Hotel Chandler, an existing building located at 12 East 31st Street (the “Hotel”); and

WHEREAS, for the reasons that follow, the Board denies this appeal; and

WHEREAS, a public hearing was held on this appeal on July 25, 2017, after due notice by publication in *The City Record*, with a continued hearing on September 20, 2017, and then to decision on the same date; and

WHEREAS, Vice-Chair Chanda performed an inspection of the site and surrounding neighborhood; and

WHEREAS, the New York City Department of City Planning (“DCP”) submitted testimony stating that there are no regulations in the Zoning Resolution controlling the height of stories with floor space used for mechanical equipment, that no inner court regulations apply to commercial hotel uses and that there are no provisions of the Zoning Resolution that would preclude the merger of two or more zoning lots in the event that such a merger would create any non-compliance with the bulk regulations of the Zoning Resolution; and

WHEREAS, New York City Councilmember Daniel R. Garodnick submitted testimony expressing concern that the idea of a “structural void,” a shorthand term referring to the second, third and fourth stories of the Proposed Building and identified as mechanical floors, does not exist in the Zoning Resolution, that the DOB determination at issue in this appeal may set precedent for other developments in the City and that the proposed building may adversely affect legally mandated light and air available to Hotel Chandler; and

WHEREAS, Friends of the Upper East Side Historic Districts, The Municipal Art Society of New York and the Greenwich Village Society for Historic Preservation presented written and oral testimony in opposition to the proposed building and in support of this appeal; and

WHEREAS, DOB, Appellant, the owner of the Proposed Building (the “Owner”) and the Hotel have been represented by counsel throughout this appeal; and

## BACKGROUND

WHEREAS, the subject zoning lot is bounded by East 31st Street to the north, Madison Avenue to the east and East 30th Street to the south, in a C5-2 zoning district, in Manhattan; and

WHEREAS, the zoning lot has approximately 220 feet of frontage along East 31st Street, 143 total feet of non-continuous frontage along Madison Avenue, 118 square feet of frontage along East 30th Street and consists of Tax Lots 10, 12, 16, 63, 64, 67, 69, 71, 74, 1101–1107 and 90671;

---

1 ZR § 12-10 states that a “zoning lot” “may or may not coincide with a lot as shown on the official tax map of the City of New York.” Here, pursuant to subdivision (d) of the “zoning lot” definition, multiple tax lots have been merged

and

WHEREAS, the Proposed Building is under construction at 15 East 30th Street (Tax Lot 12); and

WHEREAS, 12 East 31st Street (Tax Lot 74) is occupied by the Hotel, a 13-story with cellar and sub-cellar building; and

## PROCEDURAL HISTORY

WHEREAS, this appeal concerns the development of the Proposed Building, a 56-story, with cellar, mixed-use residential and commercial building; and

WHEREAS, a construction application for the Proposed Building was filed with DOB on September 11, 2014, and permits were issued in conjunction with New Building Application No. 122128679 (the “NB Application”) on July 21, 2016, and subsequently renewed; and

WHEREAS, beginning February 11, 2015, numerous determinations regarding application of the Zoning Resolution to the Proposed Building were posted publicly on DOB’s website in accordance with DOB’s public-challenge rule, 1 RCNY § 101-15, which affords members of the public an opportunity to learn about proposed buildings early in the construction process; and

WHEREAS, by letter dated April 25, 2016, Appellant submitted a challenge to the Proposed Building, which DOB accepted in part and denied in part on June 29, 2016; and

WHEREAS, by letter dated July 14, 2016, Appellant internally appealed DOB’s challenge denial to DOB’s Technical Affairs Unit; and

WHEREAS, on June 29, 2016, and July 13, 2016, DOB audited the NB Application, finding open issues, which were resolved by August 4, 2016, when the NB Application passed its third audit; and

WHEREAS, post approval amendments to the NB Application were submitted and subsequently approved by DOB on August 11, 2016, and October 17, 2017; and

WHEREAS, on November 10, 2016, Appellant filed this appeal, contesting DOB’s reissuance of Permit No. 122128679-01-NB for the Proposed Building on October 11, 2016; and

WHEREAS, on March 1, 2017, DOB issued the determination cited above (the “Final Determination”) and Appellant filed an amendment to this appeal on March 31, 2017; and

WHEREAS, on May 5, 2017, the Board’s staff instructed Appellant to notify the Hotel of this appeal because of Appellant’s apparent challenge to the Hotel’s CO; and

## ISSUES PRESENTED

WHEREAS, the two issues in this appeal are whether

---

into one zoning lot pursuant to a restrictive declaration executed by each party in interest and recorded in the Conveyances Section of the New York City Department of Finance Office of the City Register (Document ID No. 2017041300245001), and the Board credits DOB’s testimony that these tax lots constitute one merged zoning lot.

---

# MINUTES

---

(1) DOB appropriately determined that floor space used for mechanical equipment within the Proposed Building could be deducted from floor area under ZR § 12-10 without limitation as to height and (2) DOB properly considered a certificate of occupancy for the Hotel in determining its legal use and occupancy and in applying bulk regulations to the Proposed Building<sup>2</sup>; and

## DISCUSSION

### (1) MECHANICAL SPACE

WHEREAS, Appellant, DOB and the Owner dispute whether floor space on the second, third and fourth stories of the Proposed Building may properly be deducted from floor area; and

WHEREAS, ZR § 12-10 reads in pertinent part that “the *floor area* of a *building* shall not include: . . . floor space used for mechanical equipment” and that an “*accessory use* . . . is a *use* which is clearly incidental to, and customarily found in connection with, such principal *use*”; and

WHEREAS, Appellant contends that the spaces on the second, third and fourth stories<sup>3</sup> of the Proposed Building used for mechanical equipment are too tall to permit their exemption from floor area and that the height of those floors are too excessive and unrelated to the housing of mechanical equipment that they must be classified as their own use (a “Structural Void”<sup>4</sup>) with the primary purpose of increasing the height of the building, which is not a permitted use in the Zoning Resolution; and

WHEREAS, the Board considers Appellant’s contentions in turn but ultimately finds them unconvincing; and

### (A) Height

WHEREAS, Appellant argues that the Proposed Building will contain Structural Voids rather than bona fide mechanical floor space used for mechanical equipment and that a Structural Void is not a listed—and thereby permitted—floor area deduction under the Zoning Resolution; and

WHEREAS, Appellant states that Structural Voids,

---

<sup>2</sup> Appellant’s revised statement of facts, dated March 31, 2017, indicates that these are the two issues on appeal. Subsequent submissions by Appellant attempt to muddy the issues by including, for instance, discussion of provisions of the Housing Maintenance Code without providing a final agency determination from DOB interpreting said provisions. Consistent with the Board’s Rules of Practice and Procedure §§ 1-06.1(a) and 1-06.3(a), the Board declines to consider new arguments not presented to—and decided by—DOB in the first instance.

<sup>3</sup> Appellant states in a letter dated August 8, 2017, that it does not address whether the fiftieth and fifty-first stories of the Proposed Building are primarily used for accessory building mechanicals in this appeal, but Appellant does not state what differentiates those stories from the second, third and fourth stories contested here.

<sup>4</sup> The Board notes that “structural void” is a shorthand term, not one found or defined in the Zoning Resolution.

masquerading as accessory building mechanicals, are designed to boost building heights, views and sales prices; and

WHEREAS, Appellant states, in a submission dated March 31, 2017, that approximately 172 feet of height, or 24 percent of the Proposed Building’s volume, is devoted to accessory building mechanicals, but Appellant also states that the Structural Void proposed is 132 feet in height<sup>5</sup>; and

WHEREAS, the Owner replies that mechanical deductions constitute approximately five percent of the Proposed Building’s above-grade square footage and that Appellant’s figures are unsupported by calculations; and

WHEREAS, Appellant cites no provision in the Zoning Resolution restricting the height of floor space used for mechanical equipment as is at issue here,<sup>6</sup> and Appellant states that it has found no case law or legal guidance on the topic but contends that, under *New York Botanical Garden v. Bd. of Standards & Appeals of City of New York*, 91 N.Y.2d 413, 423 (1998), the Zoning Resolution’s silence as to the height permitted for accessory uses is not determinative; and

WHEREAS, Appellant also cites to *47 East 3rd Street*, BSA Cal. No. 128-14-A (May 12, 2015), where the Board stated that “DOB may take into consideration, with respect to a purported accessory use, the relative size of the purported accessory use where the size of the purported accessory use is indicative of its status as subordinate and minor in significance to said principal use”; and

WHEREAS, DOB replies that the Zoning Resolution does not contain any regulations pertaining to the floor-to-ceiling height of a building’s mechanical spaces and, by letter dated July 20, 2017, DCP corroborates that there are no regulations in the Zoning Resolution controlling the height of stories with floor space used for mechanical equipment; and

WHEREAS, the Owner replies that, where the Zoning Resolution restricts floor-to-ceiling heights or overall building heights, it does so explicitly, though no such provision restricts the height of the Proposed Building under ZR § 23-65; and

WHEREAS, based upon its review of the record, the definition of “floor area” set forth in ZR § 12-10 and the Zoning Resolution as a whole, the Board finds that the Zoning Resolution does not control the floor-to-ceiling height of floor space used for mechanical equipment; and

### (B) Accessory Use

WHEREAS, Appellant additionally argues that a Structural Void does not constitute a lawful accessory use and, thus, the excessive heights of the second, third and

---

<sup>5</sup> Presumably this discrepancy results from Appellant’s inclusion or exclusion of the fiftieth and fifty-first stories from its calculations.

<sup>6</sup> The Owner submits that the Zoning Resolution does regulate the height of mechanical equipment in the limited context of height restrictions for permitted obstructions under ZR §§ 23-62(g), 33-42(f) and 43-42(e), but those sections are inapplicable in this appeal.

---

# MINUTES

---

fourth floors are not permitted by the Zoning Resolution; and

WHEREAS, pursuant to ZR § 12-10, an “accessory use”:

- (a) is a *use* conducted on the same *zoning lot* as the principal *use* to which it is related (whether located within the same or an *accessory building or other structure*, or as an *accessory use* of land), except that, where specifically provided in the applicable district regulations or elsewhere in this Resolution, *accessory* docks, off-street parking or off-street loading need not be located on the same *zoning lot*; and
- (b) is a *use* which is clearly incidental to, and customarily found in connection with, such principal *use*; and
- (c) is either on the same ownership as such principal *use*, or is operated and maintained on the same *zoning lot* substantially for the benefit or convenience of the owners, occupants, employees, customers, or visitors of the principal *use*; and

WHEREAS, Appellant posits that the Structural Void proposed on the second, third and fourth stories of the Proposed Building will hold only limited amounts of mechanical equipment that are not proportional to the size of the space or consistent with current standards for apartment buildings; and

WHEREAS, DOB and the Owner reply that the space at issue will be used for mechanical equipment, which is a lawful accessory use because the mechanical equipment proposed is “clearly incidental to” and “customarily found in connection with” the principal use of the Proposed Building under ZR § 12-10; and

WHEREAS, DCP states that, regardless of floor-to-ceiling height, any space devoted to accessory mechanical equipment is considered a lawful accessory use; and

WHEREAS, the Board notes that, under *New York Botanical Garden*, 91 N.Y.2d 413, 420 (1998):

Whether a proposed accessory use is clearly incidental to and customarily found in connection with the principal use depends on an analysis of the nature and character of the principal use of the land in question in relation to the accessory use, taking into consideration the over-all character of the particular area in question . . . . This analysis is, to a great extent, fact-based . . . [and] one that will clearly benefit from the expertise of specialists in land use planning; and

WHEREAS, accordingly, the Board considers whether the proposed mechanical equipment is “clearly incidental to” and “customarily found in connection with” the principal use of the Proposed Building under ZR § 12-10; and

(i) Clearly Incidental

WHEREAS, despite the Board’s request to do so, Appellant provided no testimony from a mechanical engineer evaluating whether the amount of floor space used for

mechanical equipment in the Proposed Building is excessive or irregular, and, in its submission dated August 8, 2017, Appellant states that it “does not intend to hire an engineer or enter into a technical argument about what really constitutes mechanical space”; and

WHEREAS, at hearing, Appellant stated that, after searching, Appellant was unable to find someone willing and qualified to testify on the record evaluating the amount of floor space used for mechanical equipment in the Proposed Building; and

WHEREAS, instead, Appellant urges DOB to employ its discretion, as upheld in *9th & 10th St. L.L.C. v. Bd. of Standards & Appeals of City of New York*, 10 N.Y.3d 264 (2008), to require specific proof that floor space denoted on the approved plans as being used for mechanical equipment could be put to that use; and

WHEREAS, DOB states that, based upon its review, the architectural and mechanical plans for the Proposed Building show mechanical space sufficient to justify its exemption from floor are as follows: the second floor contains an emergency generator and switchboard, cooling towers, primary cold-water pumps, secondary condenser water-loop pumps, an expansion tank, heat exchangers and an air separator; the third floor has a cogeneration power plan, a precipitator, boilers, hot-water pumps, an air separator, an expansion tank, heat exchangers, part of the indoor-cooling towers from the second floor and other equipment; and the fourth floor includes domestic hot-water pumps, domestic-water heat-exchanger units, air-handler units, fan units and other equipment; and

WHEREAS, DOB and the Owner represent that, here, DOB has no reason to doubt that the mechanical space can be used as proposed, especially in light of composite mechanical plans for the Proposed Building illustrating the mechanical equipment proposed for the second, third and fourth stories; and

WHEREAS, the Board credits DOB’s review of the proposed plans and finds that, unlike *9th & 10th St. L.L.C.*, there is no reason to suspect that floor spaces designated as being used for mechanical equipment on the approved plans will not be put to such use; and

WHEREAS, the Owner submits sworn affidavits from Fatma M. Amer, former First Deputy Commissioner for DOB with more than 25 years of experience in technical positions, stating that composite mechanical plans for the Proposed Building demonstrate that the second, third and fourth stories will be used solely for mechanical equipment with no other uses; and

WHEREAS, the Owner additionally cites *246 Spring Street*, BSA Cal. No. 315-08-A (Oct. 5, 2010), where the Board upheld DOB’s determination that the specific floor-area deductions taken for swimming pool service process equipment spaces and electric meter rooms were proper; and

WHEREAS, the Board credits DOB’s review of the specific mechanical equipment proposed and, in the absence of contradicting testimony or evidence from a licensed and appropriately experienced engineer, the Board has no basis upon which to question the evidence in the record

---

# MINUTES

---

suggesting that the floor space on the second, third and fourth stories of the Proposed Building is “clearly incidental” to the principal use of the Proposed Building, in satisfaction of subdivision (b) of the “accessory use” definition in ZR § 12-10; and

(ii) Customary Connection

WHEREAS, at hearing, Appellant stated that large spaces used for mechanical equipment are not unique to this building and can be found in dozens of buildings currently planned, under construction and recently built in the City; and

WHEREAS, Appellant further stated that, on 57th Street in Manhattan, there is another building under construction with multiple stories devoted to mechanical equipment, totaling approximately 390 feet or 27 percent of that building’s height, though Appellant did not specify how much floor space was used for such mechanical equipment; and

WHEREAS, the Owner states that other buildings within the City have been constructed using similar floor-area deductions for mechanical space, including 220 Central Park South, 520 Park Avenue, 111 West 57th Street, 217 West 57th Street and 432 Park Avenue in Manhattan; and

WHEREAS, at hearing, the Board noted that, on the same street as the Proposed Building, a similar building was completed within the past year that featured four interstitial mechanical floors and also discussed the similarity of the building located at 432 Park Avenue, Manhattan, to the Proposed Building; and

WHEREAS, Friends of the Upper East Side Historic Districts states that a building under construction at 180 East 88th Street, Manhattan, contains a three-story space used for mechanical equipment that is exempt from floor area, though no mention is made of the specific amount of floor space deducted; and

WHEREAS, The Municipal Art Society of New York states that several developments—including 217 West 57th Street, Manhattan, with 350 feet of its height devoted to mechanical space and an unspecified amount of floor space thereby exempted—contain tall mechanical spaces that extend heights, improve views and increase prices; and

WHEREAS, in response to concerns from Appellant and the community regarding the applicability of this appeal to other development within the City, the Board notes that, while it has the power, among other things, “to hear and decide appeals from and to review interpretations of this Resolution” under ZR § 72-01(a), the Board does not have the power to zone, *see* Charter § 666; and

WHEREAS, accordingly, insofar as Appellant or members of the community take issue with provisions of the Zoning Resolution—or absence thereof—as enacted, that grievance falls outside the scope of the Board’s authority to review this appeal; and

WHEREAS, the Board notes that whether the amount of mechanical equipment proposed for the Proposed Building is customarily found in connection with mixed-use buildings similar to the Proposed Building is “a fact-based determination,” *New York Botanical Garden v. Bd. of*

*Standards & Appeals of City of New York*, 91 N.Y.2d 413, 421 (1998); and

WHEREAS, in response to an inquiry from the Board regarding whether a standard percentage of floor space dedicated to mechanical equipment has been interpreted as reasonable for similar developments and, thus, properly exempt from floor-area calculations, DOB states that mechanical floor space deductions are evaluated on a case-by-case basis and that the deduction of floor space on the second, third and fourth stories of the Proposed Building is consistent with its evaluation of mechanical floor space in comparable mixed-use developments in the City; and

WHEREAS, based upon the foregoing, the Board finds that, in accordance with the “floor area” and “accessory use” definitions of ZR § 12-10, DOB properly classified the floor space identified for the placement of mechanical equipment in the Proposed Building as a permissible accessory use and properly deducted that floor space from the calculation of floor area; and

(2) OCCUPANCY OF THE HOTEL

WHEREAS, Appellant, DOB and the Owner dispute the Hotel’s legal occupancy under the Multiple Dwelling Law as of 1951 and today, the Hotel’s legal use under the Zoning Resolution and the affect that the Hotel’s legal occupancy and use have on the applicability of certain bulk regulations to construction of the Proposed Building, specifically with regards to distance between buildings; and

WHEREAS, the Board considers each contention in turn, but ultimately finds none of Appellant’s arguments persuasive; and

(A) Legal Occupancy in 1951

WHEREAS, a certificate of occupancy was issued for the Hotel on March 8, 1951 (the “CO”), which states in pertinent part:

Occupancy classification—Heretofore Erected  
Exist. Cl. B Hotel . . .

2nd to 12th story, incl. . . . Fifteen (15) hotel  
rooms on each story. . . .

13th story . . . Eleven hotel rooms. . . .

No changes of use or occupancy not consistent  
with this certificate shall be made unless first  
approved by the Borough Superintendent . . . The  
building or any part thereof shall not be used for  
any purpose other than that for which it is  
certified . . . and the use to which any story may  
be put shall be restricted to that fixed by this  
certificate except as specifically stated; and

WHEREAS, Appellant states that, according to the CO, the Hotel “is used for hotel rooms”<sup>7</sup>; and

WHEREAS, DOB and the Owner represent that the permissible occupancy of the Hotel is technically as a class

---

<sup>7</sup> Appellant also argues that the CO is “largely illegible and unconvincing of the [Hotel’s] status in 1951.” The Board does not find the CO illegible, especially in light of the fact that Appellant, DOB and the Owner have all concluded that the CO permits occupancy for a class B hotel.

---

# MINUTES

---

B hotel,<sup>8</sup> as defined in the Multiple Dwelling Law (“MDL”), and further emphasize that the definition of “class B” multiple dwelling in MDL § 4(9) indicates that such dwelling is occupied “as a rule transiently”; and WHEREAS, the Board finds that, as authorized under the CO in 1951, the legal occupancy of the Hotel was as a class B hotel—a multiple dwelling designed to be occupied, as a rule transiently, as an inn having more than thirty sleeping rooms; and

(B) Current Legal Occupancy and Use

(i) Legal Occupancy under the Multiple Dwelling Law

WHEREAS, Appellant argues that the legal use of the Hotel in 1951 is irrelevant to this appeal, and that it is its current use, allegedly contrary to the CO, that dictates the applicability of certain bulk regulations to the Proposed Building; and

WHEREAS, in response, DOB directs the Board’s attention to Charter § 645(e), which reads in relevant part:

[E]very certificate of occupancy shall, unless and until set aside, vacated or modified by the board of standards and appeals or a court of competent jurisdiction, be and remain binding and conclusive upon all agencies and officers of the city . . . as to all matters therein set forth, and no order, direction or requirement affecting or at variance with any matter set forth in any certificate of occupancy shall be made or issued by any agency or officer of the city . . . unless and until the certificate is set aside, vacated or modified . . . upon the application of the agency, department, commission, officer or member thereof seeking to make or issue such order, direction or requirement; and

WHEREAS, accordingly, DOB argues that because the CO is binding as to matters set forth therein, it would be improper for DOB to look beyond the CO to determine the Hotel’s legal occupancy; and

WHEREAS, the Board notes that DOB has not filed an appeal with the Board to set aside, vacate or modify the CO and that nothing in the record indicates that the CO was temporary, has otherwise expired as a matter of law or been superseded; and

WHEREAS, accordingly, the Board finds that the CO is currently in effect and that the Hotel’s current legal

---

8 MDL § 4 states in relevant part: “9. A ‘class B’ multiple dwelling is a multiple dwelling which is occupied, as a rule transiently, as the more or less temporary abode of individuals or families who are lodged with or without meals. This class shall include hotels, lodging houses, rooming houses, boarding houses, boarding schools, furnished room houses, lodgings, club houses, college and school dormitories and dwellings designed as private dwellings but occupied by one or two families with five or more transient boarders, roomers or lodgers in one household. . . . 12. A ‘hotel’ is an inn having thirty or more sleeping rooms.”

occupancy remains class B hotel, as defined in the Multiple Dwelling Law and stated therein; and

(ii) Legal Use under the Zoning Resolution

(a) **Apartment Hotel**

WHEREAS, Appellant alleges that currently, the legal primary use of the Hotel is residential because the Hotel meets the definition of “apartment hotel” under ZR § 12-109; and

WHEREAS, ZR § 12-10 defines a “residence,” in pertinent part, as “one or more *dwelling units* or *rooming units* . . . . A *residence* may, for example, consist of . . . multiple dwellings . . . or *apartment hotels*. However, *residences* do not include: (a) such transient accommodations as *transient hotels*”; and

WHEREAS, ZR § 12-10 defines an “apartment hotel,” in pertinent part, as:

[A] *building* or part of a *building* that is a Class A multiple dwelling as defined in the Multiple Dwelling Law, which:

- (a) has three or more *dwelling units* or *rooming units*;
- (b) has one or more common entrances serving all such units; and
- (c) provides one or more of the following services: housekeeping, telephone, desk, or bellhop service, or the furnishing or laundering of linens; and

WHEREAS, Appellant does not apply the Multiple Dwelling Law’s definition of “Class A multiple dwelling”<sup>10</sup> and instead presents records from the New York City Department of Finance (“DOF”), argues that they indicate that the Hotel contains rent-regulated residential units<sup>11</sup> and cites *Nutter v. W&J Hotel Company*, 171 Misc. 2d 302 (N.Y.C. Civil Ct. 1997) for the proposition that rent-stabilized units in hotels are treated as permanent residences under the New York Rent Stabilization Law (“RSL”); and

WHEREAS, in response, DOB points out that hotels subject to rent regulation include “[a]ny Class A or Class B multiple dwelling” under 9 NYCRR § 2520.6; thus, Appellant’s reference to the RSL proves unpersuasive as

---

9 Contradictorily, Appellant states in its submission dated August 8, 2017, “The Hotel is a transient hotel and a multiple dwelling.” The Board notes that apartment hotels and transient hotels are mutually exclusive primary uses but considers Appellant’s argument to be that the Hotel is primarily used as an apartment hotel.

10 Nor does Appellant apply the Zoning Resolution’s definitions of “dwelling unit” or “rooming unit” under subdivision (a) of the “apartment hotel” definition set forth in ZR § 12-10. However, Appellant does state that the Hotel has a common entrance on 30th Street in response to subdivision (b) of the definition of “apartment hotel” and submitted a printout from the Hotel’s website and states that the Hotel provides services listed under subdivision (c).

11 However, under the heading “Annual Property Tax Detail,” the DOF property tax statement indicates that the Hotel is “Tax class 4 – Commercial Property.”

---

# MINUTES

---

determinative of the Hotel's proper use classification; and

WHEREAS, both DOB and the Owner submit that the presence of an incidental number of rent-regulated units within the Hotel would not convert the Hotel into a class A multiple dwelling and, thus, residential; and

WHEREAS, the Board notes that, in administering and enforcing the Zoning Resolution, neither DOB nor the Board is "required to blindly import a definition" from other statutes with varying purposes, *see Appelbaum v. Deutsch*, 66 N.Y.2d 975, 977 (1985); and

WHEREAS, the Board does not credit Appellant's suggestion that the Hotel's tax classification or the treatment of rent-stabilized units under the RSL as determinative of the Hotel's legal primary use; and

WHEREAS, rather, the Board looks to the definitions section of the Multiple Dwelling Law, which is directly referenced in the relevant text of the Zoning Resolution, and notes that MDL § 4(8)(a) states in pertinent part:

A "class A" multiple dwelling is a multiple dwelling that is occupied for permanent residence purposes. This class shall include . . . all other multiple dwellings except class B multiple dwellings. A class A multiple dwelling shall only be used for permanent residence purposes. For the purposes of this definition, "permanent residence purposes" shall consist of occupancy of a dwelling unit by the same natural person or family for thirty consecutive days or more . . . ; and

WHEREAS, the Owner emphasizes that, under MDL § 4(8)(a), a class A multiple dwelling "shall only" be used for permanent residence purposes; and

WHEREAS, the Board notes that, because the Hotel's current legal occupancy is class B multiple dwelling while class A multiple dwellings include "all other multiple dwellings except class B multiple dwellings" under MDL § 4(8)(a), the Hotel cannot be a "Class A multiple dwelling as defined in the Multiple Dwelling Law" in accordance with the "apartment hotel" definition of ZR § 12-10; and

WHEREAS, accordingly, the Board finds that the Hotel is not an apartment hotel under ZR § 12-10; and

## **(b) Transient Hotel**

WHEREAS, DOB and the Owner contend that the Hotel is instead a commercial<sup>12</sup> building and classified as a transient hotel under ZR § 12-10; and

WHEREAS, ZR § 12-10 states in relevant part, "A 'transient hotel' is a *building* or part of a *building* in which: (a) living or sleeping accommodations are used primarily for transient occupancy, and may be rented on a daily basis"<sup>13</sup>; and

---

<sup>12</sup> ZR § 12-10 states, "A 'commercial' *use* is any *use* listed in Use Group[] 5." Transient hotels and accessory uses are listed in Use Group 5 under ZR § 32-14 and are, therefore, commercial uses.

<sup>13</sup> None of the other elements of the "transient hotel" definition of ZR § 12-10 as they apply to the Hotel are disputed in this appeal.

WHEREAS, Appellant states in its submission dated July 21, 2017, that the Hotel is primarily used "as a transient Class B multiple dwelling"<sup>14</sup>; and

WHEREAS, the Board notes that ZR § 12-01(f) states, "The phrase 'used for' includes 'arranged for', 'designed for', 'intended for', 'maintained for', 'or occupied for'"; and

WHEREAS, as stated above, the Board finds that the Hotel's current certificate of occupancy indicates that the Hotel is designed and arranged for occupancy, as a rule transiently, as an inn having more than thirty sleeping rooms; and

WHEREAS, the Board notes that nothing in the record indicates that the Hotel has been unlawfully altered from its legal occupancy as a class B hotel; and

WHEREAS, to the contrary, the Board notes that the Hotel's website indicates that the Hotel is actively being operated and advertising rooms for short-term, transient occupancy; and

WHEREAS, accordingly, the Board finds that the primary use of the Hotel is consistent with the "transient hotel" definition in ZR § 12-10 and that the Hotel is, therefore, a commercial building; and

## **(C) Applicability of Bulk Regulations**

WHEREAS, Appellant argues that certain bulk regulations<sup>15</sup> applicable to residential buildings apply to the Hotel and were not properly considered in DOB's evaluation of the NB Application and, thus, the Final Determination was in error; and

WHEREAS, in particular, Appellant argues that MDL § 28 precludes construction of the Proposed Building, and MDL § 28(2) reads in relevant part:

Except as otherwise provided . . . for dwellings erected, enlarged, converted or altered pursuant to plans filed prior to December fifteenth, nineteen hundred sixty-one in accordance with the provisions of subdivision one of section twenty-six, if any building or dwelling is placed on the rear of the same lot with a multiple dwelling or a multiple dwelling is placed anywhere on the same lot with another building, there shall be left between the two buildings an open space unoccupied from the ground up and at least forty feet in depth, measured in the direction from one building to the other for the first one hundred

---

<sup>14</sup> The Board again notes that this statement contradicts Appellant's argument that the Hotel is an apartment hotel.

<sup>15</sup> By letter from Appellant to DOB dated July 14, 2016, as referenced in the Final Determination, Appellant states, "I agree that the building space requirements of 23-71 are not applicable 'because the existing and proposed buildings are abutting on the same zoning lot and therefore considered to be one building.'" Accordingly, the Board declines to consider the applicability of ZR § 23-71 in this appeal since Appellant apparently conceded this point before DOB. Appellant has also not challenged any bulk regulations of the Zoning Resolution applied by DOB in the Final Determination, including ZR §§ 23-532 and 23-65.

---

# MINUTES

---

twenty-five feet above the curb level, and eighty feet above that point; and

WHEREAS, both DOB and the Owner state that MDL § 28(2) does not apply because said provision relates to multiple buildings on a single tax lot, not zoning lot, and the Proposed Building and the Hotel are located on two separate tax lots; and

WHEREAS, additionally, the Owner notes that MDL § 4(31) states, “A ‘lot’ is a parcel or plot of ground which is or may be occupied wholly or in part by a dwelling, including the spaces occupied by accessory or other structures and any open or unoccupied spaces thereon, but not including any part of an abutting public street or thoroughfare”; and

WHEREAS, comparing the “lot” definition in MDL § 4(31) with the “zoning lot” definition in ZR § 12-10, the Board notes that the definitions differ in scope and purposes<sup>16</sup>; and

WHEREAS, the Board finds Appellant’s conclusory conflation of the “lot” definition in MDL § 4(31) with the “zoning lot” definition in ZR § 12-10 unpersuasive; and

WHEREAS, the Board credits DOB’s interpretations, especially in light of DOB’s extensive experience administering complex zoning lot mergers; and

WHEREAS, based on the above, the Board finds MDL § 28(2) is inapplicable to the Proposed Building; and

## CONCLUSION

WHEREAS, the Board has considered all of Appellant’s arguments on appeal and finds them to be without merit; and

WHEREAS, for the foregoing reasons, the Board finds that DOB appropriately permitted floor space used for mechanical equipment within the Proposed Building to be deducted from floor area under ZR § 12-10 without limitation as to height and that DOB properly determined that the Hotel constitutes a commercial building occupied as a class B hotel, as defined in MDL § 4, and used as a transient hotel under ZR § 12-10 in applying bulk regulations to the Proposed Building.

*Therefore it is Resolved*, that the determination of the Department of Buildings, dated March 1, 2017, acting on a public challenge to New Building Application No. 122128679, shall be and hereby is *upheld* and that this appeal shall be and hereby is *denied*.

Adopted by the Board of Standards and Appeals, September 20, 2017.

-----  
*Carlo Costanza, Acting Executive Director*

---

<sup>16</sup> For instance, MDL § 4(31) states that a lot “may be occupied wholly or in part by a dwelling,” but ZR § 12-10 contains no reference to residences in the “zoning lot” definition. Likewise, ZR § 12-10 states that a “zoning lot” “may or may not coincide with a lot as shown on the official tax map of the City of New York,” but MDL § 4(31) contains no such disclaimer.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

**THE RESOLUTION** –

WHEREAS, this is an application under ZR § 11-411 for an extension of term of a variance, previously granted by the Board, which expired July 30, 2015, and for a waiver of the Board's Rules of Practice and Procedure; and

WHEREAS, a public hearing was held on this application on March 21, 2017, after due notice by publication in *The City Record*, and then to decision on September 26, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 12, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of Coney Island Avenue, between Cortelyou Road and Ditmas Avenue, partially in a C8-2 zoning district and partially in an R5 zoning district, in the Special Ocean Parkway District, in Brooklyn; and

WHEREAS, the site has approximately 80 feet of frontage along Coney Island Avenue, 128 feet of depth, 10,480 square feet of lot area and is occupied by a one-story, with cellar and mezzanine, commercial building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since October 23, 1923, when, under BSA Calendar Number 930-23-BZ, the Board granted a variance

to permit the construction and maintenance of an extension to an existing garage for the storage of more than five motor vehicles on condition that the rear and side walls of the extension be unpierced throughout their entire height and length, that the roof be of flat design and construction, that not more than one vehicular entrance be permitted within the lines of the proposed extension, that the front portion of this addition be arranged and operated as a store or shop, that the front elevation be finished, as to design and material, in harmony with the existing garage building and that permits be obtained within nine (9) months and the building completed within eighteen (18) months; and

WHEREAS, on November 20, 1923, under BSA Calendar Number 930-23-BZ, the Board granted an interpretation of its resolution that the plans on file for interpretation were in substantial compliance with the resolution as to variation of the use district; and

WHEREAS, on February 1, 1927, under BSA Calendar Number 930-23-BZ, the Board modified the variance as to the location of the store or shop on condition that the rear and side walls of the extension be unpierced throughout their entire height and length, that the roof be of flat design and construction, that not more than one vehicular entrance be permitted within the lines of this proposed extension, that the front of the site, the southerly half on the Coney Island Avenue front be maintained as a store or accessory shop, that the front elevation be finished, as to design and material, in harmony with the existing garage building and that permits be obtained within nine (9) months and the building completed within eighteen (18) months; and

WHEREAS, on April 20, 1948, under BSA Calendar Number 65-48-BZ, the Board granted a variance to permit the occupancy of a building by the Kings County Buick Corporation as proposed as a service station for cars dealt in by that agency and to permit minor repairing in connection with such agency as proposed, that the buildings not be increased in height or area and comply with the resolutions adopted by the Board under BSA Calendar Numbers 569-23-BZ and 930-23-BZ, that all permits be obtained and work completed within one (1) year, by April 20, 1949, and that such portable fire-fighting appliance be maintained as directed by the Fire Department; and

WHEREAS, on April 17, 1951, under BSA Calendar Number 65-48-BZ, the Board amended the variance to permit for a term of ten (10) years, expiring April 17, 1961, the parking of cars being serviced on the adjoining site under the same ownership on condition that the site be leveled substantially to the grade of the adjoining building and surfaced with clean gravel or steam cinders and treated with a binder and properly rolled, that access to this lot be solely by a door as proposed in the southerly wall of the existing building on the subject site under the same ownership, that on all lot lines except where the wall of the existing building occurs, there be maintained a fence of the woven wire chain link type erected on a masonry base not less than 12" in height to a total height of not less than 5'-6", that this plot not be used for public parking and no fee be

---

# MINUTES

---

charged, that no signs be erected on the site as herein proposed for storing of cars being serviced, that the existing business signs then constructed on the building may be continued provided the sign that extends above the roof parapet is removed and no addition signs are constructed, that the rearrangement proposed as to repair work and minor adjustments be permitted, that all permits be obtained and work completed within six (6) months, by October 17, 1951; and

WHEREAS, on July 3, 1951, under BSA Calendar Number 65-48-BZ, the Board amended the variance so that the masonry base hereinbefore required to be constructed in connection with the wire chain link fence may be omitted; and

WHEREAS, on October 30, 1951, under BSA Calendar Number 65-48-BZ, the Board granted an extension of time to complete construction; and

WHEREAS, on December 22, 1953, under BSA Calendar Number 65-48-BZ, the Board granted an extension of time to complete construction; and

WHEREAS, on June 20, 1961, under BSA Calendar Number 65-48-BZ, the Board granted an extension of term of the variance for ten (10) years, expiring June 20, 1971, on condition that a certificate of occupancy be obtained; and

WHEREAS, on September 8, 1971, under BSA Calendar Number 65-48-BZ, the Board granted an extension of term of the variance for ten (10) years, expiring June 20, 1981, on condition that a new certificate of occupancy be obtained; and

WHEREAS, on July 30, 1985, under the subject calendar number, the Board permitted the renewal of the variance under ZR § 11-411 to reestablish a portion of the variance for an auto repair shop with accessory uses of acetylene torch and arc welding and spray painting, sale and display of new and used automobiles and storage of tow trucks and auto parts for a term of ten (10) years, expiring July 30, 1995, on condition that the owner comply with the conditions set forth in the Conditional Negative Declaration, that no more than two (2) quarts of paint be sprayed per day, that hours of operation be limited to Monday through Friday, 8:00 a.m. to 5:30 p.m., and Saturday, 8:00 a.m. to 12:00 p.m., that the front doors be kept closed while the site is in operation, that signs projecting above the parapet be removed, that signs comply with C8 district regulations and that these conditions appear on the certificate of occupancy; and

WHEREAS, on March 31, 1998, under the subject calendar number, the Board granted an extension of term for ten (10) years, expiring July 30, 2005, on condition that no fender or body work nor spray painting of vehicles be conducted on the site, that no towing service be operated from the site, that there be no vehicular parking on the sidewalks, that the business signs be in conformance with the Board-approved plans, that the site be maintained graffiti free and that a new certificate of occupancy be obtained within one (1) year, by March 31, 1999; and

WHEREAS, on January 10, 2006, under the subject calendar number, the Board granted an extension of term for

ten (10) years, expiring July 30, 2015, on condition that the hours of operation be from Monday through Friday, 8:00 a.m. to 5:30 p.m., and Saturday and Sunday, 8:00 a.m. to 12:00 p.m., that all body and fender work occur only within the building in the area indicated on the Board-approved plans, that no more than two (2) quarts of paint be sprayed per day, that the front doors be kept closed while the site is in operation and that the above conditions appear on the certificate of occupancy; and

WHEREAS, the term of the variance having expired, the applicant now seeks an extension of term; and

WHEREAS, in addition, the applicant requests a waiver, pursuant to § 1-14.2 of the Board's Rules of Practice and Procedure, of Rule § 1-07.3(b)(3)(i) to permit the filing for an extension of term more than two (2) years but less than ten (10) years after the expiration of the term; and

WHEREAS, the applicant has demonstrated that the use has been continuous since the expiration of term and that substantial prejudice would result without such a waiver; and

WHEREAS, at hearing, the Board questioned paint spraying at the site and signs' compliance; and

WHEREAS, in response, the applicant removed excess signage, provided sign calculations, submits that no painting or spraying shall be permitted unless or until a spray booth approved by the Department of Environmental Protection and by the Fire Department has been installed and amended the drawings as to painting and spraying; and

WHEREAS, based upon the foregoing, the Board finds the requested waiver and extension of term appropriate with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *waive* its Rules of Practice and Procedure and *reopen* and *amend* the resolution, dated July 30, 1985, as amended through January 10, 2006, so that as amended this portion of the resolution reads: "to *grant* an extension of term for ten (10) years, expiring July 30, 2025; *on condition* that all work and site conditions shall comply with drawings filed with this application marked 'Received September 7, 2017'- Four (4) sheets; and *on further condition*:

THAT no paint spraying of any kind whatsoever on the premises or on the public way in front of the premises shall be permitted in the absence of the installation of a spray booth approved by the Department of Environmental Protection and by the Fire Department;

THAT the hours of operation shall be limited to Monday through Friday, 8:00 a.m. to 5:30 p.m., and Saturday and Sunday, 8:00 a.m. to 12:00 p.m.;

THAT all body and fender shall work occur only within the building in the area indicated on the Board-approved plans;

THAT the front doors shall be kept closed while the premises are in operation;

THAT no towing service shall be operated from the premises;

THAT there shall be no vehicular parking on the sidewalks;

# MINUTES

THAT accessory signs shall be in conformance with the Board-approved plans;

THAT the premises shall be maintained graffiti free;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by September 26, 2021;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, September 26, 2017.

## 294-06-BZ

APPLICANT – Goldman Harris LLC, for John & Steven, Inc., owner; Club Fitness NY, lessee.

SUBJECT – Application May 10, 2017 – Extension of Term of a previously approved Special Permit (§73-36) permitted the operation of a Physical Culture Establishment (*Club Fitness*) in the cellar, second and third floors of a three-story building which expired on April 10, 2017. C4-2A & C4-3 zoning district.

PREMISES AFFECTED – 31-11 Broadway, Block 613, Lot(s) 1 & 3, Borough of Queens.

### COMMUNITY BOARD #1Q

**ACTION OF THE BOARD** – Application granted on condition.

#### THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

#### THE RESOLUTION –

WHEREAS, this is an application for an extension of term of a special permit, previously granted by the Board, allowing the operation of a physical culture establishment (“PCE”), which expired April 10, 2017; and

WHEREAS, a public hearing was held on this application on September 26, 2017, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Community Board 1, Queens, recommends approval of this application; and

WHEREAS, the subject site is located on the northeast corner of Broadway and 32nd Street, partially in a C4-2A zoning district and partially in a C4-3 zoning district, in Queens; and

WHEREAS, the site has approximately 100 feet of

frontage along Broadway, 228 feet of frontage along 32nd Street, 22,822 square feet of lot area and is occupied by a three-story, with cellar, commercial building on Lot 1 and by a two-story, with cellar, commercial building on Lot 4; and

WHEREAS, the Board has exercised jurisdiction over the subject site since December 6, 1921, when, under BSA Calendar Number 628-21-BZ, the Board granted a variance to permit the maintenance of a motion picture theater on condition that there be no entrance to or exit from the theater in the residence area, that no display signs, bill posters or bill boards be hung or maintained in the residence district and that the front elevation be finished in face brick with stone trimmings; the theater has since been demolished; and

WHEREAS, on October 17, 1967, under BSA Calendar Number 97-67-BZ, the Board granted a variance to permit the addition to the use of the cellar club room to include cabaret on condition that there be a maximum of five musical instruments and one vocalist; the cabaret use has since been discontinued; and

WHEREAS, the Board notes that both variances have been abandoned and are no longer in effect; and

WHEREAS, on April 10, 2007, under the subject calendar number, the Board granted a special permit to allow the operation of a PCE on portions of the cellar, first, second, and third floors of the existing two- and three-story commercial buildings for a term of ten (10) years, expiring April 10, 2017, on condition that there be no change in ownership or operating control of the PCE without prior application to and approval from the Board, that the hours of operation be limited to Monday through Sunday, 5:00 a.m. to midnight and that the above conditions appear on the certificate of occupancy; and

WHEREAS, on August 14, 2012, the Board amended the special permit to permit modifications to the approved plans, including a 4,700 square foot enlargement of the cellar, on condition that signage on the site comply with C4 district regulations and that there be no change in ownership or operating control of the PCE without prior approval from the Board; and

WHEREAS, the term of the special permit having expired, the applicant now seeks an extension of term; and

WHEREAS, the facility remains in operation as Club Fitness with the following hours of operation: Monday through Sunday, 5:00 a.m. to 12:00 a.m.; and

WHEREAS, the applicant notes that the PCE continues to occupy 28,434 square feet of floor area in the buildings: 4,700 square feet in the cellar, 3,686 square feet of floor area on the first floor, 13,393 square feet of floor area on the second floor and 11,355 on the third floor, as previously approved by the Board; and

WHEREAS, the Board notes that its determination is subject to and guided by ZR § 73-03; and

WHEREAS, consistent with ZR § 73-03(a), the Board finds that, under the conditions and safeguards imposed, the hazards of disadvantage to the community at large of the special permit are outweighed by the advantages to be derived by the community; and

---

# MINUTES

---

WHEREAS, as to ZR § 73-03 subsections (b) and (c), the Board finds, respectively, that the subject special permit will not interfere with any public improvement project and that the use will not interfere with the existing street system; and

WHEREAS, the Board notes that ZR § 73-03 subsections (d) and (g) are inapplicable to the subject application; and

WHEREAS, § 73-36 mandates a term not to exceed ten (10) years and, thus, pursuant to ZR § 73-03(e), the Board shall establish a term not to extend ten (10) years; and

WHEREAS, consistent with ZR § 73-03(f), the Board finds that the circumstances warranting the original grant still obtain and that the applicant has complied with the conditions and safeguards theretofore described by the Board during the prior term; and

WHEREAS, based upon its review of the record, the Board finds that a ten (10) year extension is appropriate with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated April 10, 2007, as amended August 14, 2012, so that as amended this portion of the resolution shall read: “to grant an extension of term of the special permit for ten (10) years, expiring April 10, 2027; *on condition* that the use and operation of the site shall substantially conform to the Board-approved plans associated with the prior grant; and *on further condition*:

THAT the term of this grant shall be for ten (10) years, expiring April 10, 2027;

THAT the fire inspection report dated January 2, 2014, indicating that Fire Department Inspector J. Asbaghi inspected the site, is accurate, and that inspections and the fire alarm system are up-to-date;

THAT signage on the site shall comply with C4 district regulations;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT the hours of operation be limited to Monday through Sunday, 5:00 a.m. to 12:00 a.m.;

THAT the above conditions shall appear on the certificate of occupancy;

THAT certificates of occupancy shall be obtained within four (4) years, by September 26, 2021;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals,  
September 26, 2017.

### 255-15-A

APPLICANT – David L. Businelli, for Michael Ricco, owner.

SUBJECT – Application November 12, 2015 – Proposed enlargement located partly within the bed of a mapped street, an original one story house, located within an R3-1 zoning district, contrary to Section 35, Article 3 of the General City Law and waiver under 72-01-(g). R3-1 zoning district.

PREMISES AFFECTED – 106 Ebbitts Street, Block 4056, Lot 86, Borough of Staten Island.

## COMMUNITY BOARD #2SI

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

THE RESOLUTION –

WHEREAS, the decision of the Staten Island Deputy Borough Commissioner, dated November 4, 2015, acting on Department of Buildings (“DOB”) Application No. 520245075, reads in pertinent part:

1. Proposed enlargement located partly within the bed of a mapped street is contrary to Section 35 of the General City Law. Obtain Board of Standards and Appeals Approval;
2. Proposed scope of work to building with existing bulk non-compliances will result with an increase of bulk non-compliances due to the location of such mapped street. Obtain Board of Standards and Appeals Waiver pursuant to ZR 72-01(g); and

WHEREAS, this is an application to permit the reconstruction and enlargement of a residential building partially within the bed of a mapped street, contrary to Section 35 of the General City Law (“GCL”), and that affects compliance of the newly constructed second floor with the front yard requirement, set forth in ZR § 23-45; and

WHEREAS, accordingly, a waiver pursuant to ZR § 72-10(g) is requested to permit a portion of the second floor to remain within the bed of a mapped, but unimproved, portion of Ebbitts Street; and

WHEREAS, a public hearing was held on this application on June 27, 2017, after due notice by publication in *The City Record*, with a continued hearing on September 12, 2017, and then to decision on September 26, 2017; and

WHEREAS, Commissioner Montanez performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 3, Staten Island, recommends disapproval of this application because the

---

# MINUTES

---

enlargement was constructed without proper permits and does not comply with applicable bulk regulations; and

WHEREAS, the subject site is located on the southeast corner of Ebbitts Street and Manila Place, in an R3-1 zoning district, on Staten Island; and

WHEREAS, the site has approximately 40 feet of frontage along Ebbitts Street, 80 feet of depth, 3,200 square feet of lot area and was previously occupied by a one-story residential building constructed in or around 1930 within the bed of a mapped, but unimproved, portion of Ebbitts Street; and

WHEREAS, the applicant submits that the building was heavily damaged during Hurricane Sandy and, upon discussion with consultants, the applicant proceeded to demolish the existing building and reconstruct an elevated and enlarged, two-story residential structure in its place, utilizing the former building's foundations and without the required DOB permits; and

WHEREAS, DOB subsequently issued a violation and Stop Work Order for the premises on June 3, 2014, and the applicant filed the subject application; and

WHEREAS, the site is traversed by an approximately 18 foot wide mapped, but unbuilt, portion of Ebbitts Street; and

WHEREAS, the applicant represents that waiver of ZR § 72-01(g) is being sought in order to allow the newly constructed second floor to remain within the required front yard; the applicant further submits that, because the building is otherwise located in the same position as it was originally constructed in or around 1930, no further waivers are required; and

WHEREAS, the applicant further represents that the enlarged residence will be compliant with Appendix G of the New York City Building Code; and

WHEREAS, the Board notes that the reconstructed first floor of the subject residential building is also located within the mapped, but unimproved, portion of Ebbitts Street, but makes no findings as to whether this condition is an existing non-compliance and defers DOB for such a determination; and

WHEREAS, further, and more specifically, the Board is not waiving any applicable bulk regulations relating to the required front yard distance from the front property line fronting Ebbitts Street to the front wall of the first floor; and

WHEREAS, by letter dated November 7, 2016, the New York City Department of Transportation ("DOT") states that, according to the Staten Island Borough President's Topographical Bureau, Ebbitts Street is mapped to a width of 80 feet at this location and the City has a Corporation Counsel Opinion of Dedication for 50 feet; and

WHEREAS, DOT additionally states that the improvement of Ebbitts Street between Manila Place and Milton Avenue, which would involve the taking of a portion of the subject site, is not presently included in the DOT's Capital Improvement Program; and

WHEREAS, by letter dated September 5, 2017, the New York City Department of Environmental Protection ("DEP") states that it has no objection to the proposed application; that there are 10-inch diameter sanitary sewer, 24-inch diameter sewer, 6'-6" by 3 foot storm sewer and two 12-inch diameter

City water mains located in the bed of Ebbitts Street at the subject location and that the 50 foot record width of Ebbitts Street will be available for the installation, maintenance and/or reconstruction of the future and existing sewers and water mains; and

WHEREAS, the Board notes that, pursuant to GCL § 35, it may authorize construction within the bed of the mapped street subject to reasonable requirements; and

WHEREAS, the Board additionally notes that pursuant to ZR § 72-01(g), the Board may waive bulk regulations where construction is proposed in part within the bed of a mapped street; such bulk waivers will be only as necessary to address non-compliances resulting from the location of construction within and outside of the mapped street, and the zoning lot will comply to the maximum extent feasible with all applicable zoning regulations as if the street were not mapped; and

WHEREAS, therefore, consistent with GCL § 35 and ZR § 72-01(g), the Board finds that applying the bulk regulations across the portion of the subject lot within the mapped street and the portion of the subject lot outside the mapped street as if the lot were unencumbered by a mapped street is both reasonable and necessary to allow the proposed construction; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

*Therefore it is Resolved*, that the Board modifies the decision of the Department of Buildings ("DOB"), dated November 4, 2015, acting on DOB Application No. 520245075, by the power vested in it by Section 35 of the General City Law, and also waives ZR § 23-45 as applied to the second floor of the two-story residential building associated with the presence of an mapped but unbuilt portion of Ebbitts Street pursuant to Section 72-01(g) of the Zoning Resolution to grant this appeal, limited to the decision noted above *on condition* that construction will substantially conform to the drawings filed with the application marked "Received September 18, 2017"–One (1) sheet; and *on further condition*:

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by September 26, 2021;

THAT DOB will review and approve plans associated with the Board's approval for compliance with the underlying zoning regulations as if the unbuilt portion of the street were not mapped;

THAT to the extent required by DOB and/or DOT, a Builder's Pavement Plan shall be filed and approved prior to the issuance of the Certificate of Occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related

---

# MINUTES

---

to the relief granted.

Adopted by the Board of Standards and Appeals,  
September 27, 2017.

-----  
**2016-4256-A**

APPLICANT – Rothkrug Rothkrug & Spector LLP, for Stecher Street LLC, owner.

SUBJECT – Application September 20, 2016 – Proposed construction of a one family, two-story dwelling not fronting on a legally mapped street, pursuant to Article 3 Section 36 of the General City Law. R1-2 (SRD) zoning district.

PREMISES AFFECTED – 147 Stecher Street, Block 6565, Lot 11, Borough of Staten Island.

**COMMUNITY BOARD #3SI**

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

**THE RESOLUTION** –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated August 3, 2016, acting on New Building Application No. 520296171, reads in pertinent part:

“The street giving access to proposed building is not duly placed on the official map of the City of New York therefore:

- A) No Certificate of Occupancy can be issued pursuant to Article 3, Section 36 of General City Law.
- B) Proposed construction does not have at least 8% of the total perimeter of building(s) fronting directly upon a legally mapped street or frontage space contrary to section 502.1 of the 2014 NYC Building Code”;

WHEREAS, this is an appeal to permit, in an R1-2 zoning district in the Special South Richmond Development District and a Lower Density Growth Management Area, the development of a two-story residence that does not front on a mapped street, contrary to General City Law (“GCL”) § 36; and

WHEREAS, a public hearing was held on this appeal on February 28, 2017, after due notice by publication in *The City Record*, with continued hearings on April 4, 2017, June 27, 2017, and September 12, 2017, and then to decision on September 26, 2017; and

WHEREAS, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 3, Staten Island, recommends approval of this appeal; and

WHEREAS, Staten Island Borough President James S. Oddo submitted testimony regarding the ownership of Stecher Street, paving, street maintenance and infrastructure repairs, storm drainage and Fire Code compliance; and

WHEREAS, the subject site is located on the east side

of Stecher Street, between Deisius Street and Eylandt Street, in an R1-2 zoning district in the Special South Richmond Development District and a Lower Density Growth Management Area, on Staten Island; and

WHEREAS, the site has approximately 40 feet of frontage along Stecher Street, 100 feet of depth, 4,000 square feet of lot area and is vacant; and

WHEREAS, the applicant proposes to develop the subject site with a two-story residence compliant with all zoning requirements applicable in the subject zoning district; and

WHEREAS, GCL § 36 provides that no certificate of occupancy shall be issued for any building unless a street or highway giving access to such structure has been officially mapped and adequately improved in respect to the public health, safety and general welfare; and

WHEREAS, said statute empowers the Board to vary this requirement where there is practical difficulty or unnecessary hardship; and

WHEREAS, because the subject site is only accessible from Stecher Street, which is not a street duly placed on the official map of the City of New York, the applicant seeks the relief sought herein; and

WHEREAS, Stecher Street is built to a width of 34 feet immediately north of the subject site but is unbuilt at the subject site; Stecher Street connects to Deisius Street, a street appearing on the official map of the City of New York, approximately 285 feet to the north of the subject site; and

WHEREAS, in response to questions from the Board and from Borough President Oddo, the applicant submitted information regarding ownership of Stecher Street, paving, street maintenance and infrastructure repairs, storm drainage and Fire Code compliance; and

WHEREAS, the drawings submitted in support of this appeal demonstrate that the newly improved portion of Stecher Street will have a width of 34 feet and will be paved with new 3”-thick asphalt concrete pavement on 8”-thick graded stone base; and

WHEREAS, the applicant further represents that a drywell will be installed at the subject site to manage drainage, that there will be no adverse effect on any surrounding properties concerning storm water drainage, that all drywells will be a minimum of five feet from property lines and a minimum of 10 feet from the building foundation, that there are no streams or natural water courses on the subject site and that all yards with a slope in excess of three percent will be sodded with all other yards to be seeded; and

WHEREAS, the applicant also states that the proposed curbs will align with existing curbs and that roadways and sidewalks will comply with the New York City Department of Transportation’s standards and design materials; and

WHEREAS, by letter dated October 17, 2016, the New York City Department of Environmental Protection’s Bureau of Water and Sewer Operations states that it has certified the site connection proposed in conjunction with this appeal; and

---

# MINUTES

---

WHEREAS, by letter dated February 6, 2017, the New York State Department of Environmental Conservation states that no freshwater wetlands, tidal wetlands or coastal erosion hazard areas permit is required for development on the subject site; and

WHEREAS, by letter dated February 6, 2017, the Fire Department states that, because the proposed development is located on a dead-end street further than 150 feet from the curb line of the nearest street which is not dead-end, the building must be fully sprinklered; and

WHEREAS, in response, the applicant amended the drawings to reflect that the proposed building will be fully sprinklered in conformity with the New York City Fire Code and represents that a fire hydrant will be located within 250 feet of the proposed building's entrance; and

WHEREAS, accordingly, the Board finds that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

*Therefore it is Resolved*, that the decision of the Department of Buildings, dated August 3, 2016, acting on New Building Application No. 520296171, be and it hereby is *modified* under the powers vested in the Board of Standards and Appeals by General City Law § 36, and that this appeal be and it hereby is *granted*, limited to the objection noted, *on condition* that all construction shall substantially conform to drawings filed with this appeal marked, "Received August 25, 2017"-One (1) sheet; and *on further condition*:

THAT the restrictive declaration submitted in connection with this appeal shall be recorded in the Office of the County Clerk, County of Richmond, prior to the issuance of any certificate of occupancy;

THAT the restrictive declaration shall be recorded on the certificate of occupancy;

THAT the recorded restrictive declaration shall substantially conform to the form and substance of the following:

DECLARATION made this \_\_\_\_ day of March 2017, by Stecher Street LLC, hereinafter referred to as the "Declarant," located at 2535 Victory Boulevard, Staten Island, New York.

WHEREAS, the Declarant is the owner of certain land located in the City and State of New York, Borough of Staten Island, designated as Block 6565 Lot 11 as depicted on the Tax Map of the City of New York and hereinafter referred to as Parcel A (the "Subject Premises").

WHEREAS, the Declarant has requested the New York City Board of Standards and Appeals (the "BSA") act upon BSA Cal. No. 2016-4256-A for approval to construct a one-family dwelling that does not front on a final mapped street, contrary to Article III, Section 36 of the General City Law (DOB Application No. 520296171); and

WHEREAS, the BSA requires Declarant to execute and file this restrictive declaration prior to obtaining a Certificate of Occupancy for the subject application.

NOW, THEREFORE, in consideration of BSA approval to allow the proposed construction of a building not fronting on a legally mapped street, contrary to Article III, General City Law 36, Declarant does hereby declare that Declarant and his successors and/or assigns shall be legally responsible for developing, operating and maintaining the portion of record Stecher Street, adjacent and west of "Parcel A", 40 feet by 34 feet in area, as depicted on the BSA approved site plan annexed hereto as Schedule A and by this reference made a part hereof.

1. This declaration may not be modified, amended or terminated without the prior written consent of the BSA;
2. The covenants set forth herein shall run with the land and be binding upon and inure to the benefit of the parties hereto and their respective heirs, legal representatives, successors and assigns;
3. Failure to comply with the terms of this declaration may result in the revocation of a building permit or certificate of occupancy; and
4. This declaration shall be recorded at the office of the Staten Island County Clerk against the Subject Premises and the cross-reference number and title of the declaration shall be recorded on each temporary and permanent certificate of occupancy hereafter issued to any building located on the Subject Premises and in any deed for the conveyance thereof.

THIS DECLARATION IS ONLY EFFECTIVE UPON APPROVAL BY THE BOARD OF STANDARDS AND APPEALS OF THE APPLICATION FILED UNDER CAL. NO. 2016-4256-A AND UPON SUBSEQUENT COMPLETION OF CONSTRUCTION AND ISSUE OF A CERTIFICATE OF OCCUPANCY PURSUANT TO SUCH APPROVALS, OTHERWISE THIS DECLARATION IS OF NO EFFECT.

IN WITNESS WHEREOF, Declarant has made and executed the foregoing restrictive declaration as of the date hereinabove written.

THAT the proposed building shall be fully fire sprinklered in conformity with the sprinkler provisions of the New York City Fire Code as well as reference standards of the New York City Building Code;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by September 26, 2021;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered

# MINUTES

approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, September 26, 2017.

## ZONING CALENDAR

### 161-15-BZ

#### CEQR #16-BSA-007X

APPLICANT – Sheldon Lobel, P.C., for Church of Pentecost U.S.A., Inc., owner.

SUBJECT – Application July 23, 2015 – Variance (§72-21) to permit the enlargement of an existing house of worship (UG 4) contrary to lot coverage and rear yard requirements. R6A/R5A zoning district.

PREMISES AFFECTED – 621 East 216<sup>th</sup> Street, Block 4649, Lot 1, Borough of Bronx.

### COMMUNITY BOARD #12BX

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated June 23, 2015, acting on Alteration Application No. 220386080, reads in pertinent part:

“[P]roposes the following non-compliances, and is therefore referred to the BSA:

- Proposed Rear Yard contrary to ZR 24-36
- Proposed Lot Coverage contrary to ZR 24-11”; and

WHEREAS, this is an application under ZR § 72-21 to permit, on a site partially in an R6A zoning district and partially in an R5A zoning district, the enlargement of an existing two-story community-facility building used as a house of worship that does not comply with zoning regulations for lot coverage and rear yards, contrary to ZR §§ 24-11 and 24-36; and

WHEREAS, a public hearing was held on this application on April 25, 2017, after due notice by publication in *The City Record*, with a continued hearing on June 27, 2017, and then to decision on September 26, 2017; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 12, Bronx,

---

# MINUTES

---

recommends disapproval of this application, citing concerns with the massing of the proposed building, the prominence of office space within the proposed building, potential increases in traffic and parking demand, the absence of unique physical conditions at the subject site and incompatibility with neighborhood character; and

WHEREAS, the subject site is located on the northeast corner of East 216th Street and Bronx Boulevard, partially in an R6A zoning district and partially in an R5A zoning district, in the Bronx; and

WHEREAS, the site has approximately 111 feet of frontage along East 216th Street, 200 feet of frontage along Bronx Boulevard, 21,102 square feet of lot area and is occupied by a two-story, with cellar, community-facility building used as a house of worship (the "House of Worship"); and

WHEREAS, the applicant now seeks a variance to enlarge the existing building, which has a non-complying rear yard of 1'-4" and complying lot coverage of 40 percent, because the proposed enlargement will create non-compliance at the second and third stories by providing a 15-foot rear yard where 30 feet is required under ZR § 24-36 and non-compliance above the first story by providing 87 percent lot coverage where the maximum permitted lot coverage is 70.5 percent under ZR § 24-11; and

WHEREAS, the applicant represents that the proposed enlargement is necessary in order to accommodate the House of Worship's programmatic needs; and

WHEREAS, in support of this contention, the applicant submitted a programmatic-needs report detailing statistics about the House of Worship's congregation, a program schedule detailing the occupancy of the existing and proposed buildings' spaces throughout the week, operational details about religious services, youth services, administration, summer camp, the food-pantry program and other charitable endeavors; and

WHEREAS, in addition, the applicant notes, and the Board recognizes, that the House of Worship, as a religious institution, is entitled to deference under the law of the State of New York as to zoning and its ability to rely upon programmatic needs in support of the subject variance application; specifically, as held in *Cornell University v. Bagnardi*, 68 N.Y.2d 583 (1986), an educational or religious institution's zoning application is to be granted unless it can be shown to have an adverse effect on the health, safety or welfare of the community, and general concerns about traffic and disruption of the residential character of a neighborhood are insufficient grounds for the denial of such application; and

WHEREAS, based on the above, the Board finds that the applicant is entitled to deference on this application and satisfaction of the (a) finding is not required; and

WHEREAS, because the House of Worship is a non-profit organization and the variance is requested to further its non-profit mission, the finding set forth in ZR § 72-21(b) is not required in order to grant the subject variance; and

WHEREAS, as to ZR § 72-21(c), the applicant represents that the proposed enlargement will not alter the

essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property and will not be detrimental to the public welfare; and

WHEREAS, at hearing, the Board took a hard look at the concerns of Community Board 12, Bronx, including those regarding the massing of the proposed building, the prominence of office space within the proposed building, potential increases in traffic and parking demand and neighborhood character; and

WHEREAS, in response to questions from the Board, the applicant provided detailed renderings of the proposed building within the context of the area in order to show how it would fit into the existing streetscape and submitted a study of nearby community facilities; and

WHEREAS, the applicant reduced the size of office space and the multipurpose room in the proposed building and provided additional information regarding parking, accessibility of the proposed building and compliance with the New York City Construction Codes; and

WHEREAS, as revised, the applicant's proposed building reduces the effect of building massing on neighboring property owners by setting back the second and third stories, thereby enhancing the proposed building's circulation and efficiency as well; and

WHEREAS, with regard to traffic concerns, the applicant submits that the House of Worship will provide shuttle van service to pick up parishioners from a nearby subway station; and

WHEREAS, accordingly, based upon its review of the record, the Board finds that this action will neither alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant states that the hardship was not self-created; and

WHEREAS, the Board finds that the hardship claimed as a ground for the variance was not created by the owner or a predecessor in title in accordance with ZR § 72-21(d); and

WHEREAS, under ZR § 72-21(e), the applicant states that the School Building involves the minimum variance of bulk regulations necessary to accommodate the School's programmatic needs; and

WHEREAS, the applicant submits that a conforming enlargement would not allow the House of Worship sufficient space as-of-right to hold services for its growing congregation, as detailed in its programmatic-needs report and illustrated in plans for a conforming enlargement; and

WHEREAS, accordingly, the Board finds that the proposal represents the minimum variance necessary to provide relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21 and that the applicant has substantiated a basis to warrant exercise of discretion to grant and is therefore entitled to relief on the grounds of practical difficulty or unnecessary hardship; and

WHEREAS, the project is classified as an Unlisted

---

# MINUTES

---

action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 16BSA007X, dated October 31, 2016; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, by correspondence dated July 21, 2015, the Department of City Planning (“DCP”) states that the proposed activity complies with New York State’s Coastal Management Program as expressed in New York City’s approved Local Waterfront Revitalization Program and will be conducted in a manner consistent with such program; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *issue* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR § 72-21 to *permit*, on a site partially in an R6A zoning district and partially in an R5A zoning district, the enlargement of an existing two-story community-facility building used as a house of worship that does not comply with zoning regulations for lot coverage and rear yards, contrary to ZR §§ 24-11 and 24-36; *on condition* that all construction and site conditions shall comply with the drawings filed with this application marked “Received September 7, 2017”-Fourteen (14) sheets; and *on further condition*:

THAT operation of a shuttle van service shall be provided to transport parishioners to and from the subway station;

THAT the above condition shall be noted on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by September 26, 2021; and

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, September 26, 2017.

-----

## **1-96-BZ**

APPLICANT – New York City Board of Standards and Appeals.

SUBJECT – Application August 2, 2016 – Amendment for an extension of an existing school building to add 3<sup>rd</sup> and 4<sup>th</sup> floors. R5 zoning district.

#### COMMUNITY BOARD #8BK

**ACTION OF THE BOARD** – Application granted on condition.

#### THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

#### THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated April 26, 2017, acting on Alteration Application No. 121436179, reads in pertinent part:

“Proposed Dance Studio and Storage (at Cellar) under UG 9, as defined by ZR 12-10, ... is not permitted as-of-right in R8B Zoning District is contrary to ZR 22-10”; and

WHEREAS, this is an application for an extension of term of a variance, previously approved by the Board, which expired August 8, 2016, and an amendment to permit the change of use from a physical culture establishment (“PCE”) to a dance studio in Use Group 9 and an expansion to portions of the first floor and cellar of the existing two-story commercial building, contrary to ZR § 22-10; and

WHEREAS, a public hearing was held on this application on August 8, 2017, after due notice by publication in *The City Record*, and then to decision on October 3, 2017; and

WHEREAS, Vice-Chair Chanda performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 8, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the south side of East 75th Street, between First Avenue and York Avenue, in an R8B zoning district, in Manhattan; and

WHEREAS, the site has approximately 36 feet of

frontage along East 75th Street, 102 feet of depth, 3,678 square feet of lot area and is occupied by a two-story, with cellar, commercial building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since August 8, 2006, when, under the subject calendar number, the Board granted a variance to permit the legalization of a PCE on the second floor of the building for a term of ten (10) years, expiring August 8, 2016, on condition that there be no change in ownership or operating control of the PCE without prior application to and approval from the Board, that the hours of operation be limited to 6:00 a.m. to 9:00 p.m., Monday through Friday, and 8:00 a.m. to 3:00 p.m., Saturday and Sunday, and that the above conditions appear on the certificate of occupancy; and

WHEREAS, on August 10, 2007, under the subject calendar number, the Board issued a letter of substantial compliance to approve a change in operator to American Youth Dance Theater and minor modifications to the approved plans, including the relocation and reconfiguration of locker rooms, elimination of the massage therapy rooms, addition of a fifth exercise area and addition of retractable partitions; and

WHEREAS, the term of the variance having expired, the applicant now seeks an extension of term for ten (10) years and an amendment; and

WHEREAS, the amendment seeks to change the use from a PCE to a dance studio in Use Group 9 and an expansion to portions of the first floor and cellar of the subject building; and

WHEREAS, the applicant represents that the dance studio occupies 2,052 square feet of floor space in the cellar, 2,015 square feet of floor area on the first floor and 3,358 square feet of floor area on the second floor; and

WHEREAS, the facility operates with the following reduced hours of operation: Monday through Friday, 9:00 a.m. to 8:00 p.m., Saturday and Sunday, 9:00 a.m. to 3:00 p.m.; and

WHEREAS, at hearing, the Board questioned whether circumstances had changed, adequacy of egress, and compliance with conditions related to fire safety; and

WHEREAS, in response, the applicant provided additional information evidencing that the circumstances warranting the original grant still pertained to the subject site and submitted evidence demonstrating egress adequacy and compliance with the Board’s conditions; and

WHEREAS, based upon its review of the record, the Board finds that an extension of term and the proposed amendments are appropriate with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated August 8, 2006, so that as amended this portion of the resolution reads: “to *grant* an extension of term for ten (10) years, expiring August 8, 2026, and to *permit* the change of use from a physical culture establishment to a dance studio in Use Group 9 and an expansion to portions of the first floor and cellar, contrary to ZR § 22-10; *on condition* that all

# MINUTES

work and site conditions shall comply with drawings filed with this application marked ‘Received September 15, 2017’-Seven (7) sheets; and *on further condition:*

THAT the term of the variance shall be limited to ten (10) years, expiring August 8, 2026;

THAT there shall be no change in ownership or operating control of the dance studio without prior application to and approval from the Board;

THAT the hours of operation shall be limited to 9:00 a.m. to 8:00 p.m., Monday through Friday, and 8:00 a.m. to 3:00 p.m., Saturday and Sunday;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by October 3, 2021;

THAT all fire protections measures indicated on the Board-approved plans shall be installed and maintained, as approved by the Department of Buildings;

THAT Local Law 58/87 compliance shall be as reviewed and approved by the Department of Buildings;

THAT all existing requirements shall be as reviewed and approved by the Department of Buildings;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, October 3, 2017.

## 19-15-BZ

APPLICANT – Herrick, Feinstein LLP, for Andon Investment L.P., owner; Retro Fitness (dba Fitness of New York LLC), lessee.

SUBJECT – Application September 28, 2016 – Amendment of a previously approved Special Permit (§73-36) to permit a physical culture establishment (*Retro Fitness*) to be located at second-story level (plus entrance at ground-floor level) of a new two-story building. R7-1/C2-2 zoning district.

PREMISES AFFECTED – 92-77 Queens Boulevard, Block 2075, Lot 39, Borough of Queens.

## COMMUNITY BOARD #6Q

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated May 3, 2017, acting on New Building Application No. 420944848, reads in pertinent part:

“Proposed Physical Culture Establishment on the 1st floor and 2nd floor does not conform to BSA Approval BZ 19-15. Obtain BSA approval for New layout”; and

WHEREAS, this is an application for an amendment to a special permit, previously granted by the Board, allowing the operation of a physical culture establishment (“PCE”) on the first and second floor of a four-story, with cellar, mixed-use building; and

WHEREAS, a public hearing was held on this application on July 25, 2017, after due notice by publication in *The City Record*, and then to decision on October 3, 2017; and

WHEREAS, Vice-Chair Chanda performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 6, Queens, recommends approval of this application; and

WHEREAS, the subject site is a through lot fronting on Queens Boulevard and 93rd Street, between 62nd Avenue and the Long Island Expressway, in an R7-1 (C2-2) zoning district, in Queens; and

WHEREAS, the site has approximately 105 feet of frontage along Queens Boulevard, 100 feet of frontage along 93rd Street, 151 feet of depth, 20,634 square feet of lot area and is occupied by a four-story, with cellar, mixed-use commercial and hotel building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since September 18, 2015, when, under the subject calendar number, the Board granted a special permit to allow the operation of a PCE on the first and second floors of the subject building; and

WHEREAS, the applicant now seeks an amendment to legalize an increase in the amount of floor area used by the PCE on the first and second floors with additional off-street parking; and

WHEREAS, the applicant submits that the PCE will total approximately 19,690 square feet of floor area as follows: 5,585 on the first floor, used for the main entrance, reception and lobby area, lockers and showers, an open fitness area and children’s activity area, and 14,105 square feet of floor area on the second floor, housing an open fitness area with space for cardiovascular fitness and strength training, locker rooms with showers and a multipurpose area for stretching, abdominal work and yoga classes; and

WHEREAS, the applicant represents that accessibility, fire-safety and sound-attenuation measures comply with the Board’s prior grant; and

WHEREAS, at hearing, regarding sound attenuation, the applicant explained that the demising wall between the restaurant and the PCE on the first floor is a double-layer wall with insulation in between; and

WHEREAS, based upon its review of the record, the Board finds the requested amendment appropriate with

# MINUTES

certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated September 18, 2015, so that as amended this portion of the resolution shall read: “to *permit* an expansion of the physical culture establishment on the first and second floors; *on condition* that the use and operation of the site shall substantially conform to drawings filed with this application marked ‘Received October 4, 2017’- Five (5) sheets; and *on further condition*:

THAT the term of the PCE grant shall expire September 18, 2025;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT fire safety measures shall be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by October 3, 2021;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk shall be signed off by DOB and all other relevant agencies by September 18, 2019;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, October 3, 2017.

## APPEALS CALENDAR

### 2017-106-A

APPLICANT – Rothkrug Rothkrug & Spector LLP, for Sharrotts Realty LLC, owner.

SUBJECT – Application April 13, 2017 – Proposed construction of a warehouse building not fronting on a legally mapped street pursuant to Section 36 Article 3 of the General City Law. M3-1 (SRD) zoning district.

PREMISES AFFECTED – 721 Sharrotts Road, Block 7385, Lot 215, Borough of Staten Island.

### COMMUNITY BOARD #3SI

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

**THE RESOLUTION** –

WHEREAS, the decision of the Staten Island Deputy Borough Commissioner, dated April 3, 2017, acting on Application No. 520263107 reads in pertinent part:

The street giving access to the proposed building is not duly placed on the official map of the City of New York therefore:

- A) No certificate of occupancy can be issued pursuant to Article 3, Section 36 of General City Law;
- B) Proposed construction does not have at least 8% of the total perimeter of building fronting directly upon a legally mapped street of frontage space contrary to Sec 501.3.1 of the 2014 NYC Building Code; and

WHEREAS, this is an application to permit the construction of a one-story plus mezzanine Use Group (“UG”) 17 coffee roasting facility and UG 16 warehouse that does not front on a mapped street, contrary to Section 36 of the General City Law (“GCL”); and

WHEREAS, a public hearing was held on this application on October 3, after due notice by publication in *The City Record*, and then to decision on that date; and

WHEREAS, Community Board 3, Staten Island, recommends approval of this application; and

WHEREAS, the subject lot is located on the north side of Sharrotts Road, west of Arthur Kill Road, in an M3-1 zoning district, in the Special South Richmond Development District, on Staten Island; and

WHEREAS, the site has approximately 183 feet of frontage along Sharrotts Road, 340 feet of depth, 70,312 square feet of lot area and is currently occupied by one-story frame building and concrete pad with a covered structure proposed to be demolished to facilitate the proposed development; and

WHEREAS, the applicant seeks the subject relief because the proposed building will front on Sharrotts Road, which is not duly placed on the official map of the City of New York; and

WHEREAS, the applicant submits that the proposed development complies with all zoning regulations applicable in

the underlying zoning district and the Special South Richmond Development District; to wit, the proposed building will have approximately 39,500 square feet of floor area, a floor area ratio (“FAR”) of 0.57, include four loading births and that 29 accessory off-street parking spaces will be provided at the site; and

WHEREAS, the City does not have title to the street, but Sharrotts Road is paved and improved at a width 40 feet at the site and a Corporation Counsel Opinion of Dedication, dated January 29, 1996, as dedicated to public use as a public street; and

WHEREAS, Sharrotts Road is accessible from Arthur Kill Road, a paved legally mapped street; and

WHEREAS, the applicant notes that pursuant to Fire Code Section 503.2.10, buildings fronting on a fire apparatus access road with an unobstructed width of less than 34 feet must be fully sprinklered and, though Sharrotts Road is paved to a width of 40 feet at the subject site, the proposed building will be fully sprinklered; and

WHEREAS, the Board has determined that the applicant has submitted adequate evidence to warrant approval of the application subject to certain conditions set forth herein.

*Therefore it is Resolved*, that the decision of the DOB dated April 3, 2017, acting on DOB Application No. 520263107 is modified by the power vested in the Board by Section 36 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked “Received April 13, 2017”- One (1) sheet; that the proposal will comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT the dwelling shall be fully sprinklered, as indicated on the BSA-approved plans;

THAT curb and pavement improvements for the site shall be completed in substantial compliance with the Builder’s Pavement Plan;

THAT all curbs, curb cuts, sidewalks, pavement, street lighting and street signage shall be designed and constructed in accordance with the requirements of the New York City Department of Transportation (“DOT”) and be subject to DOT review and approval;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by DOB;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 3, 2017.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated July 7, 2016, acting on Department of Buildings (“DOB”) Application No. 320917193 reads in pertinent part:

Proposed new building new four (4) story mixed 2-family building with ground floor retail not permitted in an R6A district, contrary to ZR 22-00; and

WHEREAS, this is an application under ZR § 72-21 to permit, on a site located in an R6A zoning district, Use Group (“UG”) 6 commercial use on the ground floor of a proposed mixed-use commercial and residential building, contrary to ZR § 22-10; and

WHEREAS, a public hearing was held on this application on February 28, 2017, after due notice by publication in *The City Record*, with a continued hearing on April 4, 2017, and then to decision on October 3, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 1, Brooklyn, recommends approval of this application; and

WHEREAS, the Board was in receipt of one objection to the proposal on the basis that the neighborhood is overcrowded; and

WHEREAS, the subject site is located on the southwest corner of McGuinness Boulevard and Kent Avenue, in an R6A zoning district, in Brooklyn; and

WHEREAS, the site has approximately 87 feet of frontage along McGuinness Boulevard, 11 feet of frontage along Kent Avenue, 1,298 square feet of lot area and is currently vacant; and

WHEREAS, the applicant proposes to develop the site with a four-story building with UG 6 commercial use on the ground floor and two residential duplexes above; and

WHEREAS, pursuant to ZR § 22-10, UG 6 uses are

---

# MINUTES

---

not permitted within R6A zoning districts and, thus, the applicant seeks the subject relief; and

WHEREAS, the applicant represents that the proposed building will have a total of 3,731 square feet of floor area and will comply with all bulk requirements applicable in the underlying R6A zoning district; and

WHEREAS, the applicant states that, pursuant to ZR § 72-21(a), the size, shape and narrowness of the lot are unique conditions that create a practical difficulty and unnecessary hardship in developing the site in conformance with the underlying district regulations, specifically, utilizing the ground floor of the proposed building for conforming residential use; and

WHEREAS, the applicant submits that, based on a study of the 576 lots within 1,000 feet of the subject site (the "Study Area"), 30 lots (5.2 percent) have a lot area equal to or less than that of the subject site and only one of those sites (0.2 percent) also has shorter frontage than the subject site; and

WHEREAS, of those 30 lots, the applicant observes that 13 (43 percent) include commercial floor area and that the one site with shorter frontage is utilized as a parking lot; and

WHEREAS, the applicant further submits that the curved lot line fronting McGuinness Boulevard results in an irregularly shaped lot that ranges in width from approximately 11 feet along the northern lot line to nearly 19 feet at the southern lot line and that there are only nine other irregular lots (1.6 percent) within the Study Area, only one of which is smaller in lot area than the subject site; and

WHEREAS, in light of the foregoing, the Board finds that the size, shape and narrowness of the site are unique physical conditions that create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, with regards to the (b) finding, the applicant submits that there is no reasonable possibility that a conforming development at the subject site will bring a reasonable return and, in support of that contention, submitted a financial analysis for (1) a four-story as-of-right residential building with a floor area ratio ("FAR") of 2.99 (the "AOR Development"); (2) a four-story residential building with an FAR of 2.88 and five dwelling units that would require waivers of ZR §§ 23-662 and 23-33 (the "Lesser Variance") and (3) the subject proposal; and

WHEREAS, the financial analyses submitted with the application conclude that only the subject proposal would generate a reasonable return, approximately 0.9 percent; and

WHEREAS, upon review of the applicant's submissions, the Board finds, in accordance with ZR § 72-21(b), that due to the site's unique physical conditions, there is no reasonable possibility that a development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the subject proposal will not substantially impair the appropriate use or development of adjacent properties and not be detrimental to the public welfare, in accordance with ZR § 72-21(c);

specifically, the applicant avers that ground floor commercial use is consistent with the character of the neighborhood, particularly along McGuinness Boulevard, where two gas stations are located within 400 feet of premises, and that, further, there is a C2-4 commercial overlap located immediately adjacent to the site to the south; and

WHEREAS, the Board finds that the subject proposal will not alter the essential character of the neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant represents and the Board finds that the hardship claimed as grounds for the variance was not created by the owner or a predecessor in title in accordance with ZR § 72-21(d); and

WHEREAS, the applicant submits that the subject proposal is the minimum variance necessary to afford relief because it is the only scenario that provides a reasonable return; and

WHEREAS, accordingly, the Board finds that the subject proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement ("EAS") CEQR No. 15-BSA-036K, dated January 11, 2017; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, by letter dated March 1, 2017, the New York City Department of Environmental Preservation ("DEP") states that, based on the results of the air quality analysis, it was determined that the proposal would not result in any potential for significant adverse impacts in regards to air quality; and

WHEREAS, by communication dated September 28, 2017, the New York City Department of City Planning ("DCP") Waterfront and Open Space Division states that it completed review of the project for consistency with the policies and intent of the New York City Waterfront Revitalization Program ("WRP") under WRP # 17-012 and finds that the action will not substantially hinder the achievement of any WRP policy and is consistent with the WRP policies; and

WHEREAS, by letter dated October 27, 2017, DEP states that it reviewed the August 2017 Revised Remedial Action Plan ("RAP") and Construction Health and Safety Plan ("CHASP") for the proposal and found them

# MINUTES

acceptable; DEP additionally requested that a Professional Engineer-certified Remedial Closure Report—indicating that all remedial requirements have been properly implemented—be submitted to DEP for review and approval upon the completion of the project; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

*Therefore, it is Resolved*, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 to permit, on a site located within an R6A zoning district, the construction of a four-story mixed-use residential and commercial building with Use Group 6 commercial use on the ground floor, contrary to ZR § 22-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received August 17, 2017”-Thirteen (13) sheets; and *on further condition*:

THAT a Professional Engineer-certified Remedial Closure Report—indicating that all remedial requirements have been properly implemented—be submitted to DEP for review and approval upon the completion of the project;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a certificate of occupancy shall be obtained within four (4) years;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 3, 2017.

APPLICANT – Akerman, LLP, for Islamic Center of Jackson Heights, Inc., owner.

SUBJECT – Application April 20, 2017 – Variance (§72-21) to permit the construction of a new three-story house of worship (UG 4A) building contrary to ZR §24-34 (front yard) and ZR §24-35 (side yard) requirements. R4 zoning district.

PREMISES AFFECTED – 78-04 31<sup>st</sup> Avenue, Block 1149, Lot 1, Borough of Queens.

## COMMUNITY BOARD #3Q

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”) dated April 26, 2017, acting on DOB Application No. 421200159 reads in pertinent part:

1. Proposed front yard along 31<sup>st</sup> Avenue is less than required pursuant to ZR 24-34;
2. Proposed front yard along 78<sup>th</sup> Street is less than required pursuant to ZR 24-34;
3. Proposed side yards are less than required by ZR 24-35; and

WHEREAS, this is an application under ZR § 72-21 to permit, on a site located within an R4 zoning district, the construction of a Use Group 4 house of worship that does not comply with the front yard and side yard regulations set forth in ZR §§ 24-34 and 24-35; and

WHEREAS, this application is filed on behalf of the Islamic Center of Jackson Heights (“ICJH”); and

WHEREAS, a public hearing was held on this application on May 23, 2017, after due notice by publication in *The City Record*, with a continued hearing on July 25, 2017, and then to decision on October 3, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the subject site and surrounding neighborhood; and

WHEREAS, Community Board 3, Queens, recommends approval of this application; and

WHEREAS, New York City Councilmember Daniel Dromm submitted a letter, dated October 7, 2016, in support of this application; and

WHEREAS, the Board is additionally in receipt of approximately three letters in support of the application and 27 letters of objection, citing concerns with regards to the adverse effects the proposal will have on noise, traffic congestion and parking in the immediate area, the present handling of refuse at the site and the insufficient provision of open space at the site for effective drainage and absorption of flood waters; and

WHEREAS, the subject site is located on the southeast corner of 31st Avenue and 78th Street, in an R4 zoning district, in Queens; and

---

# MINUTES

---

WHEREAS, the site has approximately 38 feet of frontage along 31st Avenue, 89 feet of frontage along 78th Street, 3,382 square feet of lot area and is currently occupied by a two-story-plus basement mixed-use community facility and residential building and a one-story accessory garage; and

WHEREAS, the applicant represents that the existing building on the site was built in or around 1930 and utilized as a two-family dwelling until 2001 when the applicant purchased the site and converted the first floor and basement levels to a Use Group 4 house of worship; and

WHEREAS, Certificate of Occupancy No. 401252951F issued for the subject site and effective as of April 16, 2010, indicates a two-story building with a Use Group 4 house of worship in the basement and first floor and a Use Group 2 single-family dwelling on the second floor; and

WHEREAS, the applicant submits that at the time of the conversion, the existing building could accommodate the existing congregation, which numbered approximately 20 members, but as the congregation has grown to over 200 members, the existing space—totaling approximately 1,994 square feet of floor space—has proven insufficient; that, as a result, members of the congregation have gathered outside the existing building during prayer services and speakers have been set up outside the building to enable those congregants to hear the sermon and that this practice, rendered necessary by the spatial constraints of the existing building, is the source of neighbors' complaints regarding noise and traffic congestion at the site; and

WHEREAS, accordingly, the applicant seeks to demolish the existing building and construct a three-story plus cellar Use Group 4 house of worship with a 10 foot front yard fronting 31st Avenue, a 5 foot front yard fronting 78th Street and side yards measuring 0 feet and 5 feet; and

WHEREAS, at the subject site, two front yards measuring at least 15 feet each are required pursuant to ZR § 24-34 and two side yards with a minimum required width of 8 feet are required pursuant to ZR § 24-35; and

WHEREAS, accordingly, the applicant seeks the subject relief; and

WHEREAS, the cellar of the proposed building will contain a large multi-purpose room utilized for women's prayer services and religious instruction on weekends and the first through third floors of the proposed building will contain male prayer halls with vestibules outside for congregants to remove their shoes and socialize immediately prior to prayer services; offices are also provided on each floor for use by the congregation's imam, clerical staff and for one-on-one religious instruction; and

WHEREAS, the applicant submits that, pursuant to Islamic tradition, while men and women may enter a house of worship through the same entrances, they must pray in separate prayer halls and that the provision of additional prayer hall space will alleviate the need to utilize the sidewalks and area outside of the existing building for congregant overflow; and

WHEREAS, the applicant submits that each of the

prayer halls located on the first through third floors will have a maximum capacity of 75 persons and the cellar level multi-purpose room will accommodate a maximum of 99 persons, for a total occupancy capacity for the proposed building of 324 persons, sufficient to meet the current needs of the congregation; and

WHEREAS, in response to questions from the Board, the applicant affirmed that the roof of the proposed building will not be used for any purposes aside from building maintenance and submitted copies of Zoning Resolution and Construction Code Determinations from DOB approving, respectively, two minarets and one ornamental dome on the proposed building as permitted obstructions in accordance with ZR § 24-51 and the calculation of prayer space occupancy in the proposed building at a rate of 15 square feet of net floor area per occupant; and

WHEREAS, the applicant submits that the existing building was originally designed and constructed for residential occupancy and, thus, lacks adequate internal circulation space, space for congregant assembly, prayer and multi-purpose rooms for vital religious services, i.e. weddings or funerals, and, further, cannot meet modern accessibility standards; additionally, the applicant submits that the narrowness of the zoning lot poses practical difficulty or unnecessary hardship in strictly complying with the bulk provisions of the Zoning Resolution, specifically, the application of applicable front and side yard requirements would result in a building having a floorplate of only 990 square feet, a maximum width of 15 feet and assembly spaces with a maximum width of between 12 and 13 feet, a size that would accommodate prayer halls on the first through third floors with a maximum capacity of 11 persons each and would require the elimination of offices and programmatically required vestibules outside of the prayer halls on the second and third floors; and

WHEREAS, in addition, the applicant notes and the Board recognizes that the ICJH, as a religious institution, is entitled to deference under the law of the State of New York as to zoning and its ability to rely upon programmatic needs in support of the subject variance application; specifically, as held in *Cornell University v. Bagnardi*, 68 NY2d 583 (1986), an educational or religious institution's zoning application is to be granted unless it can be shown to have an adverse effect on the health, safety or welfare of the community and general concerns about traffic and disruption of the residential character of a neighborhood are sufficient grounds for the denial of such application; and

WHEREAS, based on the above, the Board finds that the applicant is entitled to deference on this application and satisfaction of the (a) finding is not required; and

WHEREAS, additionally, because the ICJH is a non-profit religious organization and the variance is needed to further its not-for-profit mission, the finding set forth in ZR § 72-21(b) does not have to be made in order to grant the variance requested in this application; and

WHEREAS, the applicant represents that, pursuant to ZR § 72-21(c), the variance, if granted, will not alter the character of the neighborhood, impair the appropriate use or

---

# MINUTES

---

development of adjacent property, or be detrimental to the public welfare; and

WHEREAS, specifically, the applicant submits that the proposed community facility is permitted in the underlying zoning district as-of-right; that the proposed Use Group 4 house of worship complies with bulk regulations applicable in the district relating to floor area, floor area ratio, lot coverage, and height and setback, among others; that the majority of corner lots located within 400 feet of the subject site have non-compliant front yards, including all three other sites located at the subject intersection of 31st Avenue and 78th Street, which all have two foot front yards fronting 78th Street; and

WHEREAS, in addition, the applicants submits that construction of the proposed building will allay noise and pedestrian congestion that presently results from the overcrowding of the existing building and need for congregants to gather outside; the new building will also incorporate sound attenuation measures in the window and wall construction to further mitigate noise from the site; and

WHEREAS, with regards to parking, the applicant submits that approximately 92 percent of its congregants live within a half mile of the subject site and are, thus, unlikely to arrive to the site by car; the applicant also provided an affidavit from a representative of the ICJH attesting to the fact that only 30 percent of congregant households located beyond a half mile of the site typically drive to the site and the remainder utilize public transportation; further, the applicant completed a survey of parking available on the surrounding streets on Friday afternoons, the time at which religious services are most heavily attended, identifying 19 on-street parking spaces, which the applicant submits, are sufficient to accommodate members who drive to the site; and

WHEREAS, the applicant notes that a waiver of parking for locally oriented houses of worship is available by certification from the Chairperson of the City Planning Commission provided that, *inter alia*, seventy-five percent or more of the congregants reside within a three-quarter mile radius; and

WHEREAS, the applicant also proposed to provide two parking monitors during peak hours—one along 78th Street and another along 31st Avenue—to ensure that neighbor's driveways are not blocked by members of the congregation and that congregants do not double park in front of the site; and

WHEREAS, with regards to the handling of refuse at the site, the applicant notes that there is no preparation of food onsite, but that all refuse will be stored in a trash room proposed in the cellar of the proposed building and travel by elevator to the ground floor and out to the northern property line fronting 31st Avenue for pickup; and

WHEREAS, in light of the foregoing, the Board finds that the proposal will not alter the essential character of the surrounding neighborhood, nor impair the use or development of adjacent properties, and not be detrimental to the public welfare; and

WHEREAS, the applicant submits and the Board finds

that the practical difficulties herein complained of were not created by the owner or a predecessor in title; and

WHEREAS, consistent with ZR § 72-21(e), the applicant state that the requested yard waivers are the minimum necessary to accommodate its program at the site and, in support of that contention, submitted a lesser variance scenario in which the proposed site provides two 10 foot front yards and one 8 foot side yard, which results in a building having a maximum width of 20 feet and, because of the need to accommodate interior stairs and elevator core, prayer spaces that are too small to accommodate the applicant's existing congregation; and

WHEREAS, the Board finds that this proposal is the minimum necessary to allow the applicant to fulfill its programmatic needs; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 16BSA112Q, dated April 21, 2016; and

*Therefore, it is Resolved*, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review, and makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit, on a site located within an R4 zoning district, the construction of a Use Group 4 house of worship that does not comply with the front yard and side yard regulations set forth in ZR §§ 24-34 and 24-35; *on condition* that all work will substantially conform to drawings filed with this application marked "Received September 19, 2017"- Six (6) sheets and "Received October 3, 2017"- Nine (9) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a front yard with a minimum depth of 10 feet fronting 31st Avenue, a front yard with a minimum depth of 5 feet fronting 78th Street and side yards with minimum depths of 0 feet and 5 feet;

THAT no speaker or amplified sound system shall be permitted outside of the building;

THAT people shall not be permitted to congregate in the front yards of the site before or after services;

THAT site managers and/or parking monitors shall be utilized to prevent congregating in the front yards of the site and prevent double parking at the site;

THAT the doors to the building shall remain closed during functions to protect surrounding neighbors from noise;

THAT the above conditions shall be listed on the Certificate of Occupancy;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a Certificate of Occupancy shall be obtained within four (4) years, by October 3, 2021;

# MINUTES

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portion related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 3, 2017.

## 2017-11-BZ

### CEQR #17-BSA-065X

APPLICANT – Sheldon Lobel, P.C., for MHA, LLC, owner.

SUBJECT – Application January 13, 2017 – Special Permit (§73-36) to operate a physical culture establishment (ILOVEKICKBOXING) within a portion of the ground floor of an existing one-story commercial building. C2-4/R7A zoning district.

PREMISES AFFECTED – 3261 Westchester Avenue, Block 4248, Lot 56, Borough of Bronx.

### COMMUNITY BOARD #10BX

**ACTION OF THE BOARD** – Application granted on condition.

#### THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

#### THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated April 26, 2017, acting on New Building Application No. 220220473, reads in pertinent part:

“The proposed physical culture establishment is contrary to ZR Section 32-10 and requires a special permit (73-36) from the Board of Standards and Appeals”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, on a site partially in an R7-1 (C2-4) zoning district and partially in an R7-1 zoning district, the operation of a physical culture establishment (“PCE”) on a portion of the first floor of a one-story, with cellar, commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on August 8, 2017, after due notice by publication in *The City Record*, and then to decision on October 3, 2017; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 10, Bronx, recommends approval of this application; and

WHEREAS, the subject site is located on the northwest corner of Westchester Avenue and Colonial

Avenue, partially in an R7-1 (C2-4) zoning district and partially in an R7-1 zoning district, in the Bronx; and

WHEREAS, the site has approximately 78 feet of frontage along Westchester Avenue, 104 feet of frontage along Colonial Avenue, 9,446 square feet of lot area and is occupied by a one-story, with cellar, commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
  - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
  - (ii) a swimming pool of a minimum 1,500 square feet; or
  - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
  - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a

---

# MINUTES

---

special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE occupies 2,588 square feet of floor area on the first floor, including a training area, locker rooms with bathrooms, a break room and storage; and

WHEREAS, the PCE has been in operation as iLoveKickboxing.com since April 2017 with the following hours of operation: Monday through Saturday, 6:00 a.m. to 10:00 p.m., and Sunday, 6:00 a.m. to 3:00 p.m.; and

WHEREAS, the applicant represents that the PCE use will not impair the essential character or the future use or development of the surrounding area, that the subject site is located directly adjacent to an elevated rail line on a heavily traveled thoroughfare with a vibrant mix of uses, including retailing stores, eating and drinking establishments, pharmacies and commercial offices; and

WHEREAS, in addition, the applicant submits that sound attenuation measures, including sound-reducing drywall, have been provided within the space so as to not disturb other tenants in the building; and

WHEREAS, accordingly, the Board finds that the PCE use is so located as to not impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE provides facilities for classes, instruction and programs relating to physical improvement; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant submitted evidence that the PCE is fully sprinklered and that an approved fire alarm—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection to an FDNY-approved central station—has been installed in

the entire PCE space; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17-BSA-065X, dated January 13, 2017; and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated at the premises without the special permit.

*Therefore it is Resolved*, that the Board of Standards and Appeals *issues* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to *legalize*, on a site partially in an R7-1 (C2-4) zoning district and partially in an R7-1 zoning district, the operation of a physical culture establishment on a portion of the first floor of a one-story, with cellar, commercial building, contrary to ZR § 32-10; *on condition* that all work and site conditions shall substantially conform to drawings filed with this application marked “Received September 14, 2017” – Four (4) sheets; and *on further condition*:

THAT the term of this grant shall be for ten (10) years, expiring April 1, 2027;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum 3'-0" wide exit pathways shall be provided leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be maintained in the entire PCE space and the PCE shall be fully sprinklered, as indicated on the Board-approved plans;

THAT sound attenuation shall be maintained in the PCE as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the

# MINUTES

certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by October 3, 2018;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 3, 2017.

# MINUTES

## REGULAR MEETING TUESDAY MORNING, OCTOBER 17, 2017 10:00 A.M.

Present: Chair Perlmutter, Vice-Chair Chanda, and Commissioner Ottley-Brown and Commissioner Sheta.

### SPECIAL ORDER CALENDAR

#### 4-98-BZ

APPLICANT – Eric Palatnik, P.C., for Madison Queens & Guy Brewer, LLC, owner.

SUBJECT – Application July 24, 2015 – Amendment of a previously approved variance (72-21) which permitted the operation of a drug store (UG 6) contrary to uses regulations. The amendment seeks to eliminate the term of the variance and reflect non-compliance with respect to bulk. C1-3/R3X zoning district.

PREMISES AFFECTED – 127-04 Guy Brewer Boulevard, corner of Guy Brewer Boulevard and Baisley Boulevard, Block 12269, Lot 29, Borough of Queens.

#### COMMUNITY BOARD #12Q

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

Abstain: Commissioner Sheta. ....1

WHEREAS, the decision of the Department of Buildings (“DOB”), dated July 15, 2015, acting on Alteration Application No. 421181269, reads in pertinent part:

“The instant application is contrary to BSA Calendar Number 4-98-BZ, as the March 30, 2011 rezoning creates non compliances with respect to: ZR 33-291 – Minimum side yard,” “ZR 37-94 – Trash Enclosure,” “ZR 39-921 – Landscape Buffer,” “ZR 36-58 – Drive Aisle” and “ZR 37-921 – Street Trees”; and

WHEREAS, this is an application for an amendment to a variance, previously granted by the Board under ZR § 72-21, to eliminate the term of the variance and to allow certain non-compliances with respect to bulk regulations for side yards, trash enclosures, landscape buffers, drive aisles and street trees, contrary to ZR §§ 33-291, 37-94, 39-921, 36-58 and 37-921; and

WHEREAS, a public hearing was held on this application on March 22, 2016, after due notice by publication in *The City Record*, with continued hearings on June 14, 2016, and June 27, 2017, and then to decision on October 17, 2017; and

WHEREAS, Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 12, Queens,

recommends approval of this application; and

WHEREAS, Councilmember Ruben Wills submitted testimony in support of this application; and

WHEREAS, the subject site is located on the west side of Guy Brewer Boulevard, between Baisley Boulevard and 128th Avenue, in an R3X (C1-3) zoning district, in Queens; and

WHEREAS, the site has approximately 156 feet of frontage along Guy Brewer Boulevard, 244 feet of frontage along Baisley Boulevard, 211 feet of frontage along 128th Avenue, 35,822 square feet of lot area and is occupied by a one-story commercial building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since August 11, 1998, when, under the subject calendar number, the Board granted a variance to permit the demolition of a non-conforming automotive service station and two abutting frame residential buildings and allow the construction and operation of a drug store in Use Group 6 with an accessory open parking lot for a term of twenty-five (25) years, expiring August 11, 2023, on condition that on-site accessory parking spaces and loading areas be maintained in accordance with the Board-approved plans and be secured when the store is not in operation, that lighting be positioned down and away from nearby residential uses, that screening and fencing be maintained in accordance with the Board-approved plans, that landscaping be maintained in accordance with the Board-approved plans, that trash pick-up occur between the hours of 8:00 a.m. and 10:00 p.m. only, that the following conditions set forth in the conditional negative declaration, adopted by reference therein, be complied with—The Applicant shall submit a sampling protocol for soil gas and soil/groundwater testing on Block 12269, Tentative Lot 29, to DEP’s Bureau of Air, Noise and Hazardous Materials (“BANHM”) for review and approval. The applicant is also required to complete any remedial actions determined by DEP to be appropriate based on the sampling. In addition, no sampling, site grading, excavation, demolition or building construction and/or remediation can begin until DEP/BANHM provides written approval of the sampling protocol—and that the above conditions appear on the certificate of occupancy; and

WHEREAS, the applicant now seeks to eliminate the term of the variance and to allow certain non-compliances with respect to bulk; and

WHEREAS, the applicant represents that, on March 30, 2011, the subject site was rezoned from an R3-2 zoning district to an R3X (C1-3) zoning district; and

WHEREAS, under ZR § 32-15, drug stores in Use Group 6 are permitted as-of-right in C1-3 zoning districts; and

WHEREAS, because the use of the subject site as a drug store is now permitted as-of-right, the applicant submits that a term is no longer a necessary safeguard and accordingly requests an elimination of term of the variance; and

WHEREAS, the applicant notes that the surrounding area is characterized by a vibrant mix of commercial uses, including a shopping center nearby, along with automobile

# MINUTES

service stations, residences and local retail establishments;  
and

WHEREAS, however, with respect to bulk, the applicant also states that rezoning of the subject site in 2011 created a number of non-compliances with bulk regulations, namely restrictions on side yards, trash enclosures, landscape buffers, drive aisles and street trees; and

WHEREAS, at hearing, the Board questioned the presence of debris at the site, landscaping, signage, street trees, a “pod” container and the location of the trash enclosure; and

WHEREAS, in response, the applicant spruced up the site, revised the drawings, added plantings, submitted sign calculations and removed the “pod” container; and

WHEREAS, the Board also notes that, in 1997, a sign apparently existed at the subject site, which the Board presumes was permitted by calculations based on three frontages of measurement, not by variance; and

WHEREAS, by letter dated July 9, 1999, the New York State Department of Environmental Conservation Division of Environmental Remediation states that no further action is required; and

WHEREAS, based upon its review of the record, the Board finds that an amendment to eliminate the term of the variance and to allow certain non-compliances with respect to bulk is appropriate with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated August 11, 1998, so that as amended this portion of the resolution shall read: “to *eliminate* the term of the variance and to *permit* certain non-compliances with respect to restrictions on side yards, trash enclosures, landscape buffers, drive aisles and street trees, contrary to ZR §§ 33-291, 37-94, 39-921, 36-58 and 37-921; *on condition that* all work and site conditions shall comply with drawings filed with this application marked ‘Received September 28, 2017’-Seven (7) sheets; and *on further condition*:

THAT the term of the variance shall be eliminated;

THAT on-site accessory parking spaces and loading areas shall be maintained in accordance with the Board-approved plans and shall be secured when the store is not in operation;

THAT lighting shall be positioned down and away from the nearby residential uses;

THAT screening and fencing shall be maintained in accordance with the Board-approved plans;

THAT landscaping shall be maintained in accordance with the Board-approved plans;

THAT trash pick-up shall occur between the hours of 8:00 a.m. and 10:00 p.m. daily;

THAT truck deliveries shall be limited to the hours of 7:00 a.m. to 10:00 p.m. daily;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by October 17, 2021;

THAT all conditions from prior resolutions not

specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, October 17, 2017.

-----

## 182-02-BZ

APPLICANT – Eric Palatnik, P.C., for Gaseteria Oil Corporation, owner.

SUBJECT – Application July 22, 2014 – Extension of Term of a previously approved (§72-21) permitting the operation of an Automotive Service Station (UG 16B) with an accessory convenience store which expired January 7, 2013; Waiver of the Rules. C2-2/R3-1 zoning district.

PREMISES AFFECTED – 2990 Victory Boulevard, Block 2072, Lot 42, Borough of Staten Island.

## COMMUNITY BOARD #2SI

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

Abstain: Commissioner Sheta.....1

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and an extension of term of a variance, previously granted by the Board under ZR § 72-21, which expired January 7, 2013; and

WHEREAS, a public hearing was held on this application on October 18, 2016, after due notice by publication in *The City Record*, with a continued hearing on March 21, 2017, and then to decision on October 17, 2017; and

WHEREAS, Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 2, Staten Island, recommends approval of this application; and

WHEREAS, the subject site is located on the southeast corner of Victory Boulevard and Richmond Avenue, in an R3-1 (C2-2) zoning district, on Staten Island; and

WHEREAS, the site has approximately 178 feet of frontage along Richmond Avenue, 126 feet of frontage along Victory Boulevard, 22,616 square feet of lot area and is occupied by an automotive service station with a one-story accessory convenience store; and

WHEREAS, the Board has exercised jurisdiction over

---

the subject site since July 25, 1957, when, under BSA Calendar Number 32-57-BZ, the Board granted a variance to permit the reconstruction and extension of an existing gasoline service station on condition that all buildings and uses not proposed to be retained in their present condition be removed and the premises be reconstructed and arranged as indicated on the Board-approved plans, that an approved diner might be constructed on the site in the location shown, that the accessory building be of the design and arrangement as shown and faced with face brick on all sides, that there be no cellar under such building, that pumps be of a low approved type constructed where shown, facing Victory Boulevard and Richmond Avenue, that the number of gasoline storage tanks not exceed twelve 550-gallon approved tanks, that pending the taking by the City of a portion of the site for street widening the site might be arranged as indicated and as proposed, that when the site is taken, as proposed, by the City for such street widening the equipment then proposed to be located within the area so to be taken be moved back to a relative position from the new building line, that such portable fire-fighting appliances be maintained as the Fire Department directs, that there might be minor repairing with hand tools only for adjustment maintained solely within the accessory building, that there might be parking and storage of motor vehicles on spaces where such parking and storage would not interfere with the servicing of the station, that the site where not occupied by accessory building and pumps and the diner be paved with concrete or asphaltic pavement, that signs be restricted to permanent signs attached to the façade of the accessory building and to the illuminated globes of the pumps, excluding all roof signs and temporary signs but permitting the construction to the east and south, where shown, of a post standard, at each location, each for supporting a sign, which might be illuminated, and permitting such sign to extend beyond the building line for a distance of not more than four (4) feet and that at such location at the intersection, there be constructed a block of concrete not less than 12 inches in height and extending for a distance of not less than five feet in either direction; and

WHEREAS, on February 11, 1958, under BSA Calendar Number 32-57-BZ, the Board amended the variance so that applicant might be permitted to omit the installation of the diner, that the applicant might also be permitted to install a brick enclosure 9'-4" by 9'-4" by 4'-4" in height as a rubbish screen, that the area at the rear of the accessory building and for a distance of 60 feet from the south lot line might be paved with crushed stone and that the curb cut to Richmond Avenue might be rearranged; and

WHEREAS, on September 11, 1990, under BSA Calendar Number 32-57-BZ, the Board amended the variance to change the design and arrangement of the existing automotive service station and to construct a new metal canopy over four (4) new gasoline pump islands with new "MPD" self-serve pumps and to construct a new 8' by 15' kiosk and to construct a new 30-foot curb cut on Victory Boulevard on condition that there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian

or vehicular traffic; and

WHEREAS, the variance granted under BSA Calendar Number 32-57-BZ subsequently lapsed; and

WHEREAS, on January 7, 2003, under the subject calendar number, the Board granted a variance to permit the construction of a new automotive service station, with an accessory convenience store, in Use Group 16B for a term of ten (10) years, expiring January 7, 2013, on condition that the term be noted on the certificate of occupancy; and

WHEREAS, on June 7, 2005, under the subject calendar number, the Board amended the variance to allow a redesign of the gasoline service station, including a relocation and reduction of floor area of the convenience store, relocation of the fuel dispenser islands and canopy, increase in the number of curb cuts from three to five and to modify landscaping; and

WHEREAS, the Board notes that the Board-approved drawings from 2005 under the subject calendar number were not available; however, the applicant submitted copies of drawings approved by the Department of Buildings in 2005, which the Board has relied on in its consideration of this application; and

WHEREAS, the term of the variance having expired, the applicant now seeks an extension of term for ten (10) years; and

WHEREAS, in addition, the applicant requests a waiver, pursuant to § 1-14.2 of the Board's Rules of Practice and Procedure, of Rule § 1-07.3(b)(2) to permit the filing for an extension of term less than two (2) years after the expiration of the term; and

WHEREAS, the applicant has demonstrated that the use has been continuous since the expiration of term and that substantial prejudice would result without such a waiver; and

WHEREAS, at hearing, the Board questioned the location of air stations and parking spaces as well as maintenance of the site, including landscaping, litter and the fence's disrepair; and

WHEREAS, in response, the applicant revised the drawings to clarify landscaping, location of the air stations and parking spaces and also submitted evidence that the site had been cleaned up with replaced fencing and new plantings; and

WHEREAS, based upon its review of the record, the Board finds that a ten (10) year extension of term is appropriate with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated January 7, 2003, as amended through June 7, 2005, so that this portion of the resolution shall read: "to *grant* an extension of term of the variance for ten (10) years, expiring January 7, 2023; *on condition* that all work and site conditions shall comply with drawings filed with this application marked 'Received March 2, 2017'- Six (6) sheets; and *on further condition*:

THAT the term of the variance shall be limited to ten (10) years, expiring January 7, 2023;

THAT the above condition shall appear on the

---

# MINUTES

---

certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by October 17, 2021;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 17, 2017.

## **218-03-BZ**

APPLICANT – Akerman, LLP, for 19-80 Steinway LLC, owner.

SUBJECT – Application December 17, 2017 – Amendment of a previously approved Variance (§72-21) which permitted a nine-story mixed use building with residential, commercial and community facility uses contrary to Z.R. §42-00, §23-141 and §23-631. The amendment seeks to permit a reduction in the number of accessory parking spaces provided in the existing building's accessory garage from 219 spaces to 135 spaces. M1-1 zoning district.

PREMISES AFFECTED – 19-73 38<sup>th</sup> Street, Block 811, Lot 1, Borough of Queens.

## **COMMUNITY BOARD #1Q**

**ACTION OF THE BOARD** – Application granted on condition.

### **THE VOTE TO GRANT –**

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

Abstain: Commissioner Sheta.....1

### **THE RESOLUTION –**

WHEREAS, the decision of the Department of Buildings (“DOB”), dated November 28, 2016, acting on New Building Application No. 401444923, reads in pertinent part:

“Proposed reduction in the number of parking spaces is contrary to BSA Cal. No. 218-03-BZ. Refer to BSA for approval”; and

WHEREAS, this is an application under ZR §§ 72-01 and 72-22 for an amendment of a variance previously granted by the Board to permit a reduction in the number of accessory parking spaces in a mixed-use development from 219 parking spaces to 135 parking spaces; and

WHEREAS, a public hearing was held on this application on October 17, 2017, after due notice by publication in *The City Record*, and then to decision on that

same date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 1, Queens, recommends approval of this application on condition that the variance be reopened should a future need for additional parking arise; and

WHEREAS, Council Member Costa Constantinides submitted testimony in support of this application, citing the expense of car lifts for the mixed-use development at the site, part of which includes 100-percent affordable housing; and

WHEREAS, the subject site is located on the north side of 20th Avenue, between 38th Street and Steinway Street, in an M1-1 zoning district, in Queens; and

WHEREAS, the site has approximately 300 feet of frontage along 38th Street, 200 feet of frontage along 20th Avenue, 300 feet of frontage along Steinway Street, 60,016 square feet of lot area and is occupied by a four-story, with cellar, mixed-use building with residential, commercial and community-facility uses; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 12, 2005, when, under the subject calendar number, the Board granted a variance to permit the development of a four-story mixed-used building with residential, commercial and community-facility uses and accessory parking, contrary to use regulations, on condition that the bulk parameters of the proposed building be 1.65 Floor Area Ratio total (99,258 square feet maximum total floor area, maximum residential floor area of 76,986 square feet, maximum community facility floor area of 2,521 square feet) with a maximum building height of 53 feet, that there be a maximum of 84 units, that a maximum of 219 parking spaces be provided in the accessory parking levels and that the interior layout, parking layout and all exiting requirements be as reviewed and approved by the Department of Buildings; and

WHEREAS, by letter dated September 20, 2006, under the subject calendar number, the Board allowed minor modifications to the Board-approved plans, including elimination of the cellar parking area, addition of approximately 74 parking stackers on the first floor, reconfiguration of the residential entrance and lobby, elimination of one store, reconfiguration of the elevator and stair plans and reduction of the number of dwelling units from 84 to 66; and

WHEREAS, by letter dated February 20, 2007, under the subject calendar number, the Board allowed minor modifications to the Board-approved plans, including reconfiguration of the vehicle entrance to the center of the building to provide vehicle access to the residential lobby and the parking garage, reduction of the number of curb cuts from six to two, reconfiguration of the elevator, stairs and corridors in order to divide the floors into two wings, reconfiguration of the cellar space and redesign of the façade; and

WHEREAS, by letter dated April 18, 2008, under the subject calendar number, the Board allowed minor

# MINUTES

modifications to the Board-approved plans, including increasing the number of dwelling units from 66 to 72; and

WHEREAS, by letter dated June 4, 2013, under the subject calendar number, the Board allowed minor modifications to the Board-approved plans, including an increase back to the originally approved 84 dwelling units with total residential floor area of 76,986 square feet, as originally approved; and

WHEREAS, the applicant now seeks to amend the variance to permit a reduction in the number of accessory parking spaces in the mixed-use development from 219 parking spaces to 135 parking spaces; and

WHEREAS, at hearing, in response to the concerns of Community Board 1, Queens, the Board noted that the proposal to reopen the variance should parking needs in the community change presents administrative difficulties with monitoring; however, the Board finds that a condition restricting the term of the requested parking reduction to the life of the regulatory agreement submitted with this application—with the income mix presented or equivalent parking spaces—is an appropriate safeguard to address community concerns about future parking conditions, which are speculative at this time; and

WHEREAS, on February 4, 2016, the New York City Office of Environmental Remediation issued a notice of completion for the subject site stating that remediation requirements have been achieved; and

WHEREAS, accordingly, the Board finds that the applicant has submitted adequate evidence in support of this application and that an amendment is appropriate with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated July 12, 2005, so that as amended this portion of the resolution shall read: “to *permit* a reduction in the number of accessory parking spaces in the mixed-use development from 219 parking spaces to 135 parking spaces; *on condition* that all work and site conditions shall substantially conform to drawings filed with this application marked ‘Received August 24, 2017’-Ten (10) sheets; and *on further condition*:

THAT the bulk parameters of the proposed building shall be as follows: a total Floor Area Ratio of 1.65 (99,258 square feet maximum total floor area); maximum residential floor area of 76,986 square feet; maximum community-facility floor area of 2,517; maximum commercial floor area of 19,632 square feet; and a maximum building height of 53 feet;

THAT there shall be a maximum of 84 dwelling units;

THAT a maximum of 135 parking spaces shall be provided at the subject site;

THAT the term of this grant shall be limited to the life of the regulatory agreement submitted with this application with the income mix presented to the Board or the equivalent in parking spaces;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained

within four (4) years, by October 17, 2021;

THAT the interior layout, parking layout and all exiting requirements shall be as reviewed and approved by the Department of Buildings;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, October 17, 2017.

APPLICANT – (Cal. No. 107-13-A) – Law Office of Marvin B. Mitzner LLC, for Sky East LLC, owner.

SUBJECT – Application June 4, 2012, April 18, 2013 – Application to of two appeals before the Board: (1) an application filed by the First Deputy Commissioner of the New York City Department of Buildings (“DOB”), dated June 4, 2012, pursuant to New York City Charter §§ 645(b)(3)(e) and 666(6)(a) to revoke Certificate of Occupancy No. 103703226F issued for the site (the “CO Revocation Appeal”) and (2) an application seeking a determination that the owner of the premises (the “Appellant”) obtained the right to complete construction of the one-story plus mezzanine building present at the site under the common law doctrine of vested rights (the “Vested Right Application,” collectively, the “Appeals”).

PREMISES AFFECTED – 638 East 11<sup>th</sup> Street, south side of East 11th Street, between Avenue B and Avenue C, Block 393, Lot 25, 26 & 27, Borough of Manhattan.

### COMMUNITY BOARD #3M

**ACTION OF THE BOARD** – Application for Common Law Vested Right Denied (BSA Cal. No. 107-13-A) and Application for Revocation of Certificate of Occupancy Granted in Part (BSA Cal. No. 166-12-A).

THE VOTE –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

Abstain: Commissioner Sheta.....1

THE RESOLUTION –

WHEREAS, this site is the subject of two appeals before the Board: (1) an application filed by the First Deputy Commissioner of the New York City Department of Buildings (“DOB”), dated June 4, 2012, pursuant to New York City Charter §§ 645(b)(3)(e) and 666(6)(a) to revoke Certificate of Occupancy No. 103703226F issued for the site (the “CO Revocation Appeal”) and (2) an application seeking a determination that the owner of the premises (the “Appellant”) obtained the right to complete construction of the one-story plus mezzanine building present at the site under the common law doctrine of vested rights (the “Vested Right Application,” collectively, the “Appeals”); and

WHEREAS, a public hearing was first held on the Appeals on November 26, 2013, after due notice by publication in *The City Record*, with continued hearings on January 28, 2014, March 31, 2015, November 15, 2016, January 31, 2017, and June 20, 2017, and then to decision on October 17, 2017; and

WHEREAS, Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, former Vice-Chair Hinkson and former Commissioner Montanez performed inspections of the site and the surrounding neighborhood; and

WHEREAS, the subject site is located on the south side

# MINUTES

of East 11th Street, between Avenue B and Avenue C, in an R8B zoning district, in Manhattan; and

WHEREAS, the site has approximately 75 feet of frontage along East 11th Street, a depth of 95 feet and 7,109 square feet of lot area; and

WHEREAS, Certificate of Occupancy No. 103703226F and associated DOB-approved plans represent that the site is occupied by a seven-story mixed-use community facility and residential building (the "Front Building") and a one-story community facility building located in the Front Building's required rear yard (the "Rear Building," together, the "Development"); and

WHEREAS, the Appellant submits that the site was previously comprised of tax lots 25, 26 and 27 ("Former Tax Lot 25", "Former Tax Lot 26" and "Former Tax Lot 27") located at 636, 638 and 640 East 11th Street, respectively; and

WHEREAS, Former Tax Lot 25 was previously occupied by a one-story residential building in the rear yard; Former Lot 26 was previously occupied by a five-story residential building and a three-story residential building in the rear yard; and Former Tax Lot 27 was previously occupied by a five-story residential building; and

## FACTS

WHEREAS, on March 23, 2004, DOB issued an Alteration Type 2 ("Alt 2") permit (the "Demolition Alt 2 Permit") for work at the site described as follows:

DEMOLISH EXISTING FLOOR SLABS,  
PARTITIONS CEILING AND DOORS REMOVE  
EXISTING STAIRS REMOVE REAR PORTION  
OF BUILDING. INSTALL NEW OPENING IN  
PANTRY WALL. REMOVE EXTERIOR SIDE  
WALL TO THE 2ND FLOOR

existing party walls as shown on drawings filed herewith. No change in use o [*sic*]

occupancy. Egress filed under Alt I #; and

WHEREAS, on March 30, 2004, an Alt 2 permit was issued for "Removal of building structures in [the] rear yard" of the site and additionally noted, "Main buildings to remain" (the "Rear Yard Alt 2 Permit"); and

WHEREAS, on April 21, 2004, an Alt 2 permit was issued to permit the installation of new foundations and footings for a new enlargement at the site (the "Foundation Permit") and on May 21, 2004, DOB issued an Alteration Type I permit for a use identified as "J-2 Residential Apartment House" with a Schedule A indicating Use Group ("UG") 4 "medical offices" (Permit No. 103703226, the "Alt 1 Permit"); and

WHEREAS, at the time that the Alt 1 Permit was issued, ZR § 24-33(b) permitted a building or portion of a building used for community facility use at the subject site to be located within a required rear yard, provided that its height did not exceed one story or, in any event, 23 feet above curb level;

1 Per ZR § 12-10, a "community facility" use is any use listed in Use Group 3 or 4. As further described in ZR § 22-14 (Use Group 4), Use Group 4 includes ambulatory diagnostic or treatment health care facilities, common referred to as "medical offices."

and

WHEREAS, on May 27, 2004, a zoning lot description describing the metes and bounds of the subject zoning lot (consisting of Former Tax Lot 25, Former Tax Lot 26 and Former Tax Lot 27) was recorded with the Office of the City Register; and

WHEREAS, on June 21, 2004, DOB issued a stop work order (ECB Violation No. 34440904N) for work contrary to approved plans filed under the Rear Yard Alt 2 Permit (the "Stop Work Order"); and

WHEREAS, on the same date, DOB issued a violation citing a failure to maintain an exterior building wall (ECB Violation No. 34440903L, the "Hazardous Conditions Violation") and a preemptory vacate order for 640 East 11th Street, which stated:

Due to construction operations, the party wall foundation is cracked and separating from rear exterior wall. Rear masonry wall is bulging, cracked, and defective from the second story to roof.

West exterior wall of adjacent property (638 East 11th Street) is bulging at the 5th story to roof which is creating a hazardous condition; and

WHEREAS, by letter dated July 20, 2004, DOB partially lifted the Stop Work Order to allow work to resume in accordance with the approved plans at 636 and 638 East 11th Street, but continued to prohibit any demolition, alteration or renovation at 640 East 11th Street; and

WHEREAS, on August 16, 2004, two violations were issued for an alleged failure to comply with the Stop Work Order and for work contrary to the plans filed under the Rear Yard Alt 2 Permit (ECB Violation No. 34451354L and ECB Violation No. 34451352H); and

WHEREAS, on September 1, 2004, DOB lifted the Stop Work Order as to 640 East 11th Street, allowing work to proceed as recommended in a letter from the structural engineer of record for the subject site, dated August 26, 2004, which included, among the list of items proposed to cure hazardous site conditions, work pursuant to the Foundation Permit, specifically, the pouring of "foundation walls on the east side of 636 vacant lot according to plan" and the completion of "foundation work in 638 and 640 according to approved plan, and continue foundation on 636 lot" (the "2004 Structural Engineer Letter"); and

WHEREAS, on September 9, 2004 (the "Effective Date"), an amendment to the Zoning Resolution was adopted that, among other things, modified the definition of permitted obstructions under ZR § 24-33 (the "ZR Amendment"), in relevant part, as follows:

(b) In any rear yard or rear yard equivalent:

[...]

Any building or portion of a building used for community facility uses, provided that the height of such building shall not exceed one story, nor in any event 23 feet above curb level.

However, the following shall not be permitted obstructions:

(1) in all residence districts, any portion of a building containing rooms used for living

---

# MINUTES

---

or sleeping purposes, other than a room in a hospital used for the care or treatment of patients;

- (2) in R1, R2, R3A, R3X, R3-1, R4A, R4B or R4-1 Districts, any portion of a *building* used for any *community facility use*;
- (3) in all *residence districts* not listed in paragraph (b)(2) of this Section, beyond one hundred feet of a *wide street*, any portion of a *building* used for a *community facility use* other than a *school*, house of worship, college or university, or hospital and related facilities;  
[...]; and

WHEREAS, the subject site is located beyond one hundred feet of a “wide street,” which, per ZR § 12-10, “is any *street* 75 feet or more in width”; and

WHEREAS, Appellant did not file an application with the Board, within 30 days of the Effective Date, seeking recognition of a statutory right, pursuant to ZR § 11-331 to complete construction under the Alt 1 permit; and

WHEREAS, a Certificate of Correction, dated December 7, 2004, reporting the completion of all work to cure the Hazardous Conditions Violation was submitted to DOB and approved on December 15, 2004; and

WHEREAS, on July 26, 2005, the Alt 1 Permit was signed off and Final Certificate of Occupancy No. 103703226F was issued for the subject premises under the Alt 1 Permit on July 15, 2008, indicating a total of 36 dwelling units in a seven-story building and UG 4 medical offices in the cellar, mezzanine and first floor levels (the “CO”); and

WHEREAS, on December 31, 2008, DOB issued violations to the premises for (1) occupancy contrary to that allowed by the CO, specifically citing the conversion of 26 medical offices at the first floor and cellar levels into Class A apartments (ECB Violation No. 34758244R); (2) illegal use in a residential district, noting that, at the first floor and cellar levels, the residential floor area and lot coverage of the Development exceeded the maximum allowable in the zoning district and ordering the discontinuance of the illegal use (ECB Violation No. 34758243P); (3) the conversion of 14 medical offices at the first floor and 12 medical offices at the cellar level to Class A apartments (ECB Violation No. 34758241L); and (4) work without a permit, specifically the installation of showers in the medical offices located on the first floor and cellar levels (ECB Violation No. 34758242N); and

WHEREAS, on August 26, 2010, DOB again issued violations for (1) occupancy contrary to the CO, indicating that, based on the affidavit of New York City Councilwoman Rosie Mendez, medical offices at the first floor and cellar levels had been converted into Class A apartments (ECB Violation No. 34808444Y) and (2) illegal conversion of the first floor and cellar levels and illegal use in a residential district (ECB Violation No. 34808445X); and

WHEREAS, on June 4, 2012, DOB filed the CO Revocation Appeal, BSA Cal. No. 166-12-A, alleging that the CO should not have been issued because the Alt 1 Permit, to which the CO is related, lapsed as a matter of law when

foundations at the site were not completed by September 9, 2004, and the permit was not thereafter renewed by the Board pursuant to ZR § 11-331; and

WHEREAS, the Vested Right Application was filed on April 18, 2013; and

WHEREAS, the Appeals were first heard, in tandem, on November 26, 2013, and a continued hearing was scheduled by the Board for January 28, 2014; and

WHEREAS, in response to testimony given at the hearing held on November 26, 2013, that illegal conditions cited in the 2008 and 2010 ECB violations issued to the property remained outstanding, DOB conducted inspections of the premises on December 2, 5 and 9, 2013, and issued additional violations; and

WHEREAS, on December 2, 2013, DOB issued violations to the premises for (1) failure to comply with an order to correct conditions pursuant to a previous violation relating to the installation of showers in medical offices at the site (ECB Violation No. 35032322R, relating back to ECB Violation No. 34758242N); (2) occupancy contrary to that allowed by the CO and DOB records, specifically, a temporary certificate of occupancy indicated medical offices at the cellar, first and second floors<sup>2</sup> of the Rear Building, but the inspector observed exclusively residential occupancy with 14 Class A apartments, four of which had mezzanines (ECB Violation No. 35033408M); (3) failure to provide an unobstructed exit passageway, specifically, a second means of egress from the Rear Building, which, the inspector observed, is a three-level building with residential occupancy (ECB Violation No. 35033409Y); and (4) work without permits, indicating that 100 percent of the work had been completed, but noting approximately 14 residential, Class A apartments, four with mezzanines, in three-level Rear Building and that respondent has history of non-compliance (ECB Violation No. 35032321P); and

WHEREAS, on December 5, 2013, DOB issued a violation to premises for failure to maintain the Development, noting non-compliances with regards to fire safety (ECB Violation No. 35033407K) and on December 9, 2013, four violations were issued for additional non-compliances of the Development with the New York City Fire Code (ECB Violation Nos. 35008848L, 35008849N, 35008847J and 35008925X); and

WHEREAS, the hearing scheduled for January 28, 2014, as well as the next seven hearings, were adjourned at the Appellant’s and/or DOB’s request in order to permit the parties to resolve outstanding DOB objections relating to the premises and conclude the Appeals; and

WHEREAS, at the hearing held on March 31, 2015, DOB stated that the Appellant had made progress in addressing the outstanding objections, specifically, the Appellant had submitted revised plans for the Development showing the

---

<sup>2</sup> DOB avers that, pursuant to ZR § 12-10, which defines a “story” as “that part of a building between the surface of a floor (whether or not counted for purposes of computing floor area ratio) and the ceiling immediately above,” the mezzanine in the Rear Building constitutes a second “story.”

---

# MINUTES

---

removal of the mezzanine from the Rear Building as well as two means of egress, two issues DOB considered to be major objections; and

WHEREAS, on March 31, 2015, the Board removed the Appeals from the Board's hearing calendar to allow the Appellant to resolve all outstanding issues with DOB such that DOB would withdraw the CO Revocation Appeal; and

WHEREAS, by letter dated May 4, 2016, DOB requested that the CO Revocation Appeal be returned to the Board's calendar because of the Appellant's seven-month delay in providing revised plans to address the final remaining DOB objection; DOB averred that to date, it had been unable to determine that the Alt 1 Permit had been validly issued; and

WHEREAS, by letter dated June 30, 2016, in response to DOB's request to return the CO Revocation Appeal to the Board's calendar, Appellant stated that the objection remained outstanding because of a missing planning sheet, which the Appellant provided on May 9, 2016, and the DOB plan examiner subsequently removed this final objection; accordingly, the Appellant requested that the Appeals remain off-calendar; and

WHEREAS, by letter dated July 12, 2016, DOB reported that an audit of the plans filed in connection with the Development prior to September 9, 2004, (the "2012 Audit") had been completed, advised the Board that the Alt 1 Permit was, indeed, validly issued and requested that the Vested Right Application alone be returned to the Board's calendar to determine if Appellant had obtained a vested right under the common law; DOB maintained its position, however, that the foundation was not complete prior to September 9, 2004, and requested that if the Appellant failed to further pursue the Vested Right Application, or if the Board denied it, the CO Revocation Appeal be returned to the Board's hearing calendar; and

WHEREAS, the Appeals were re-calendared for a continued hearing on September 20, 2016, but that hearing date was adjourned at the Appellant's request due to a scheduling conflict; continued hearings were subsequently held on November 15, 2016, January 31, 2017, June 20, 2017, and October 17, 2017, and both cases were then decided on that same date; and

WHEREAS, at the November 15 hearing, DOB stated that plans presented by the Appellant curing DOB's objections had been approved, enabling the 2012 Audit to be closed, but acknowledged that permits could not be issued and the construction to cure undertaken unless and until the Board recognized that the Appellant had acquired a common law vested right to complete the Rear Building in the first instance; and

WHEREAS, at that hearing, the Board requested that the Appellant correct those violations that did not require DOB permits, namely, remove the residential uses from the areas of the Development indicated as medical office on the CO; and

WHEREAS, at the January 31 hearing, the Appellant informed the Board that four non-conforming residential occupancies remained in the Rear Building, that ownership was engaged with discussions with those tenants to work out relocation, but that such relocation may take a number of

months; and

WHEREAS, on April 20, 2017, Board Commissioners and staff visited the site with DOB and the Appellant's representatives to inspect the premises; and

WHEREAS, a hearing scheduled for May 2, 2017, was adjourned at the Appellant's request to allow time to comply with requests made by the Board in prior hearings, but at the May 1 Executive Session, the Chair stated that, at the April site inspection, the Board observed that two of the units in the Rear Building remained occupied by residential tenants; that it was clear from observing window treatments and domestic furnishings that the first floor at the rear of the Front Building had been occupied by residential tenants contrary to DOB-approved plans; that areas in the Front Building indicated on plans as an accessory lounge, fitness room and medical office were each occupied by residential tenants; and that kitchens and bathrooms had been constructed in the Rear Building contrary to DOB-approved plans; and

WHEREAS, the Chair requested that all of the spaces illegally occupied by residential tenants at the site be vacant by the next hearing and for the submission of an affidavit from the architect indicated on the title block of drawings approved by DOB attesting to whether they were hired to and indeed did conduct field observations of the site during the period of construction of the Development and whether the architect inspected the site prior to sign off and observed that the Development—particularly the areas on the cellar and first floor levels indicated as medical office—had been constructed pursuant to plans approved by DOB; and

WHEREAS, the architect instead provided a letter without a professional seal stating that the architect "recalled" that the Development was built according to DOB approved plans; and

WHEREAS, New York City Council Member Rosie Mendez submitted a letter and testified at hearings held on November 15, January 31, and June 20 in opposition to the Vested Right Application, stating that spaces indicated as UG 4 medical office on the CO at the site had been illegally occupied by residential tenants since at least January 2006 and that the premises never displayed signage indicating the presence of medical offices; and

WHEREAS, additionally, the Greenwich Village Society for Historic Preservation submitted letters and oral testimony in opposition to the Vested Right Appeal, stating that the Development has never been occupied fully in conformance with the CO; and

WHEREAS, DOB inspected the premises on June 15, 2017, and observed that all units in the Rear Building and one duplex unit in the Front Building were unoccupied, but that two duplex units in the Front Building remained occupied; and

WHEREAS, on an October 12, 2017, inspection, DOB observed that all six units in the cellar and all six units on the first floor of the Rear Building, were unoccupied, as were the three duplex units in the Front Building; and

WHEREAS, by letter dated October 13, 2017, the Appellant reported to the Board that the appliances and fixtures had been removed from all of the units inspected by DOB on October 12; and

## COMMON LAW VESTED RIGHTS DOCTRINE

WHEREAS, when a restrictive amendment to the Zoning Resolution is enacted, a vested right can be acquired when, pursuant to a lawfully-issued permit, a property owner demonstrates a commitment to the purpose for which the permit was granted; and

WHEREAS, pursuant to ZR § 11-331, a property owner may continue construction subsequent to an applicable zoning change pursuant to a lawfully-issued building permit if, in the case of a “minor development,” all work on foundations had been completed prior to such effective date or, in the case of a “major development,” the foundations for at least one building has been completed prior to such effective date; and

WHEREAS, if the required foundation work has been commenced, but not completed, prior to the effective date of the amendment to the Zoning Resolution that rendered the project non-conforming or non-complying, the building permit will automatically lapse on the effective date and the right to continue construction will terminate; and

WHEREAS, however, the building permit may be renewed if an application is made to the Board to recognize the statutory right to continue construction pursuant to ZR § 11-331 within 30 days of the automatic lapse of the permit and the Board may grant such application upon finding that, at the date the building permit lapsed, excavation at the site had been completed and substantial progress on foundations had been made; and

WHEREAS, more than 30 days after the automatic lapse of a building permit due to an applicable zoning change, a property owner may apply to the Board seeking the recognition of a common law vested right to continue construction pursuant to a permit lawfully-issued prior to that applicable zoning change, and the Board may grant such application, if: (1) the owner has undertaken substantial construction; (2) the owner has made substantial expenditures; and (3) serious loss will result if the owner is denied the right to proceed under the prior zoning; and

WHEREAS, specifically, as held in Putnam Armonk, Inc. v. Town of Southeast, 52 A.D.2d 10 (2d Dept. 1976), where a restrictive amendment to a zoning ordinance is enacted, the owner’s rights under the prior ordinance are deemed vested “and will not be disturbed where enforcement [of new zoning requirements] would cause ‘serious loss’ to the owner,” and “where substantial construction had been undertaken and substantial expenditures made prior to the effective date of the ordinance”; and

WHEREAS, notwithstanding this general framework, as discussed by the court in Kadin v. Bennett, 163 A.D.2d 308, 309 (2d Dept. 1990),

[T]here is no fixed formula which measures the content of all the circumstances whereby a party is said to possess ‘a vested right’. Rather, it is a term which sums up a determination that the facts of the case render it inequitable that the State impede the individual from taking certain action; and

WHEREAS, however, even if the Board recognizes a common law vested right, there may be instances in which circumstances may have changed such that the City’s interest

in present zoning outweighs the property owner’s vested right; and

WHEREAS, Putnam holds that the following factors are relevant in determining whether a common law vested right has lapsed: (1) abandonment, including the intent to abandon and an overt act, or some failure to act, implying that the owner neither claims nor retains any interest in the subject matter of the abandonment; (2) recoupment by the owner of all or part of his financial expenditures on the property without completing construction; or (3) the extent to which considerations of public safety, health and welfare indicate that enforcement of present zoning regulations would provide an overriding benefit to the public; and

## APPELLANT’S POSITION

WHEREAS, the Appellant acknowledges that the ZR Amendment prohibited the community facility use in the Rear Building, but that neither the owner of the premises nor DOB noticed this change and that it was not until receipt of a letter from DOB, dated February 3, 2012—alleging that the Alt 1 Permit lapsed by operation of law on September 9, 2004—that Appellant was on notice that the Rear Building was contrary to applicable zoning regulations; and

WHEREAS, the Appellant states that the foundation of the Rear Building was 100 percent complete by the Effective Date and, in support of this contention, submitted into the record a survey said to depict the extent of the work completed at the premises as of September 9, 2004 (the “Survey”); and

WHEREAS, accordingly, the Appellant submits that their right to complete construction at the site pursuant to the Alt 1 Permit vested by operation of law, specifically ZR § 11-331(b), which states that, in the case of a major development, a statutory right to complete construction vests if the foundations for at least one building has been completed prior to the effective date of the applicable amendment; and

WHEREAS, the Appellant states that the development of the subject site is considered a “major development”<sup>3</sup> for purposes of ZR § 11-331(b) because it includes two or more “buildings,” as that term was defined by the Zoning Resolution at the time of the Alt 1 Permit; therefore, because the foundations for the Rear Building were complete as of the Effective Date, the Appellant’s right to complete all construction on the site under the Alt 1 Permit vested pursuant to statute; and

WHEREAS, in the alternative, if the Board does not agree that the work under the Alt 1 Permit constitutes a “major development,” the Appellant suggests that the facts nevertheless support a finding that the Appellant instead acquired a vested right to complete construction under the common law; and

WHEREAS, with regards to substantial construction, the Appellant directs the Board’s attention to the permits issued for the site between March 24 and April 21, 2004, as well as the

---

<sup>3</sup> Zoning Resolution Section 11-31(c)(2) includes, among the definition of “major development” for purposes of statutory vesting, “construction of two or more *buildings* on a single *zoning lot* which will be *non-complying* under the provisions of any applicable amendment to this Resolution.”

# MINUTES

---

Survey; re-alleges that the foundations of the Rear Building were 100 percent complete by September 9, 2004, and additionally submits into the record (1) an Affidavit from a concrete contractor, contracted to remove old foundations at the site and install rebar and concrete for the new foundation, stating that the foundation for the Rear Building was completed “by the end of June 2004” and that all foundation work at the property, that is, including that for the Front Building, was completed “[b]y September 2004”; (2) a letter from Metropolis Group stating that the foundation work at the premises “was completed well before September 2004 since the project was in superstructure in September 2004 and could not have been in that phase of construction unless the foundations were complete” and that not obtaining sign-offs on the foundation work until after the Effective Date has no bearing on when the foundation work was actually completed by the Effective Date; (3) a letter, dated February 23, 2012, from a surveyor stating that when they visited the site on August 3, 2004, to mark out a proposed elevator shaft, their crew installed a mark “on the newly installed foundation of the building at the rear of the property” and, thus, the Rear Building was “installed and completed as of August 4, 2004”; (4) photos from the site taken May 6, May 21, June 2 and June 15, 2004, showing the progress of the Rear Building foundation; (6) a letter, dated January 11, 2017, from the structural engineer of record for the Development stating that, based on the Surveyor Letter and the structural engineer’s own observation “that the foundations existed on or before August 26, 2004,” the foundations for the Rear Building were completed prior to the Effective Date; and (7) a letter, dated September 25, 2017, from the architect of the site from 2003 to 2005 interpreting the 2004 Structural Engineer Letter’s observation that “there presently are timber braces from the first floor rear wall to the new foundation of the rear addition” to indicate that the new foundation of the Rear Building was already built as of August 24, 2004, two days before the 2004 Structural Engineer’s Letter, and stating that the recommendations made in the 2004 Structural Engineer’s Letter regarding completion of foundations related to the Front Building only; and

WHEREAS, with regards to substantial expenditures, the Appellant avers that approximately \$1.25 million was spent on demolition, construction and restoration of the Front Building and Rear Building prior to September 9, 2004, including approximately \$691,000 spent on the Rear Building alone, out of a total estimated cost of \$6.7 million (19 percent); and

WHEREAS, the Appellant submits that substantial loss would result if no common law vested right was recognized by the Board because such a determination would require not only the complete demolition of the Rear Building, but the “perpetual annual loss of income from the 12 medical offices of lost space estimated at \$296,808 for the first year”; and

WHEREAS, with regards to allegations that the Rear Building was occupied contrary to the CO with residential tenants, the Appellant, by submission dated June 7, 2017, reported that residential tenants had been completely vacated from the Rear Building and the rear units of the Front Building and reiterated that they believed that they had previously submitted evidence sufficient to support their argument that the

foundation of the Rear Building had been completed by September 9, 2004; and

WHEREAS, finally, Appellant requested that the CO Revocation Appeal be dismissed because DOB had not yet met their burden and proven that the Alt 1 Permit did not vest; a request to revoke the CO based on objections from an audit performed nine years after the issuance of the Alt 1 Permit and five years after the issuance of the CO was not properly before the Board because, *inter alia*, DOB failed to allow Appellant the opportunity to address and cure objections prior to the filing of the appeal; DOB’s argument that certain objections were curable and others were not was arbitrary and such objections were issued in error; and DOB’s issuance of the CO was further proof that construction vested under the Alt 1 Permit; and

## DOB’S POSITION

WHEREAS, DOB initially asserted that the Alt 1 Permit “was not validly issued,” and, therefore, the Appellant could not have attained a vested right to complete construction after September 9, 2004 (See *Vi. Of Asharokan v. Pitassy*, 119 A.D.2d 404, 417 (N.Y. App. Div. 2nd Dep’t 1986; see also *Jayne Estates, Inc. v. Raynor*, 22 N.Y.2d 417, 422 (1968))); and

WHEREAS, DOB additionally submitted that the 2012 Audit revealed substantial and incurable errors—including violations of the Zoning Resolution and the Building Code—affecting life and safety that would require a substantial redesign of the Development for compliance; in particular, DOB identified the elevated exterior walkways on the Rear Building as contrary to ZR §§ 23-44 and 24-33, the second story of the Rear Building as an obstruction contrary to ZR § 24-33 and the absence of a second means of egress from both the Front Building and the Rear Building as contrary to Sections 27-362 and 27-366 of the 1968 Building Code; and

WHEREAS, DOB additionally identified other objections discovered in the course of the 2012 Audit as potentially curable, but alleged that when all of the objections are considered in their totality, the objections render the Alt 1 Permit invalid; and

WHEREAS, therefore, DOB considered the question of whether foundations were complete prior to September 9, 2004, as irrelevant because a vested right cannot accrue where the construction upon which such right relies was completed pursuant to invalid permits; and

WHEREAS, upon completion of the 2012 Audit, DOB concluded that the Alt 1 Permit was, in fact, validly issued, but contested that foundations at the site had not been completed and, thus, the Alt 1 Permit lapsed by operation of law on the Effective Date, citing, among other things, the facts that (1) the Stop Work Order issued for the site was not lifted in its entirety until September 1, 2004, eight days before the Effective Date; (2) the Alt 1 Permit was not signed off until July 26, 2005; (3) a Post-Approval Amendment for the Demolition Alt 2 Permit was not filed until on or about October 5, 2004; and (4) the Foundation Permit was renewed on March 10, 2005; and

WHEREAS, in support of their contention that the foundation was not complete by September 9, 2004, DOB identifies the following pieces of evidence: (1) the 2004 Structural Engineer Letter advising the owner that, among

---

# MINUTES

---

other things, foundation work at 638 and 640 East 11th Street be completed and foundation work at 636 East 11th Street should be continued; (2) the renewal of the Foundation Permit on March 10, 2005, six months after the Effective Date, and its ultimate signoff on July 26, 2005, ten months after the Effective Date; (3) the filing of a Post Approval Amendment to the Demolition Alt 2 Permit on October 5, 2004, with notations that had not previously appeared on drawings previously submitted with the Demolition Alt 2 Permit approved prior to the Effective Date stating “Existing foundation wall to be removed and replaced with new structural concrete wall...”, “Underpin existing walls as req’d...”, and “New struct. Walls as req’d...”, suggesting that a month after the Effective Date, foundation walls still needed to be removed and new concrete walls constructed in their place; and (4) the Survey submitted by the Appellant reflecting conditions at the site on April 25, 2005, outlining the buildings under construction and a proposed elevator shaft, suggesting that the foundations of the Front Building at 638 and 640 East 11th Street may have been complete, but providing no evidence of the rear foundation walls for any portion of the site; and

WHEREAS, DOB notes that the Stop Work Order was active at the premises at the time of the 2004 Structural Engineer’s Letter, was lifted at 636 and 638 East 11th Street on the same day, but was not lifted at 640 East 11<sup>th</sup> Street until September 1, 2004, eight days before the Effective Date, leaving the Appellant with insufficient time to complete foundations at the site by that time; and

## THE BOARD’S FINDINGS

WHEREAS, the Board accepts DOB’s conclusion that the Alt 1 Permit was validly issued; and

WHEREAS, the Board finds that foundation work for the Development had been commenced prior to the Effective Date, but that the question of whether the Development is a “major development” or a “minor development” is not properly before this Board and, in any event, neither the Rear Building foundation nor all work on foundations were completed at the site prior to the Effective Date and thus, the Alt 1 Permit lapsed pursuant to ZR § 11-331; and

WHEREAS, because the Appellant did not file an application to the Board within 30 days of the Effective Date to recognize a statutory right to continue construction at the site subsequent to the Effective Date, the Appellant did not obtain a statutory vested right to complete the construction of the Development; and

WHEREAS, however, the Board finds that the Appellant had undertaken substantial construction, made substantial expenditures in connection with the Alt 1 Permit and that serious loss would have resulted if the owner had been denied the right to proceed under the prior zoning; and

WHEREAS, thus, the Board recognizes that the Appellant had, indeed, acquired a common law vested right to complete the construction of the Development subsequent to the Effective Date; and

WHEREAS, the 2004 amendment to ZR § 24-33 exempted from the definition of “permitted obstruction,” “any portion of a building” located in a residence district other than R1, R2, R3A, R3X, R3-1, R4A, R4B or R4-1, beyond 100 feet

of a wide street “used for community facility use other than a school, house of worship, college or university, or hospital and related facilities;” and

WHEREAS, therefore, as of the Effective Date, the Rear Building was rendered non-complying because its bulk was not permitted in the rear yard of a residential building as a permitted obstruction; and

WHEREAS, the Board finds, based on the substantial evidence in the record, that neither the Rear Building nor the first floor and cellar of the Front Building have been occupied by UG 4 medical offices since on or around December 31, 2008, the date of the first violations issued to the premises by DOB for occupancy contrary to the CO; and

WHEREAS, even assuming that the Appellant was not on notice that residential occupancy of the Rear Building and the first and cellar floor levels of the Front Building were contrary to both the CO and the Zoning Resolution until a February 2012 letter from DOB, residential occupancy of these areas of the Development continued until mid-2017, another five years; and

WHEREAS, viewed in the most generous light and supposing that the medical office areas of the Development were, in fact, occupied by medical offices at some time prior to 2012, pursuant to ZR § 52-61, if a non-conforming use is considered abandoned once it is discontinued in a building for a continuous period of two years, that building must thereafter be used only for conforming use; and

WHEREAS, the Board finds that ten years have lapsed since the time of the construction of the Development and circumstances have changed such that the City’s interest in present zoning, to wit, legal occupancy of the premises, outweighs the property owner’s vested right; and

WHEREAS, the Board finds that the failure to occupy the UG 4 medical office space in the Rear Building with UG 4 medical office in the face of multiple years of attempted enforcement by DOB, both in the issuing of violations and the filing and prosecution of the CO Revocation Appeal to be an overt act sufficient to constitute abandonment as contemplated in Putnam; and

WHEREAS, the Board notes that the Zoning Amendment specifically rendered UG 4 medical office use in the Rear Building non-complying; and

WHEREAS, accordingly, the Board finds that the Appellant abandoned its right to occupy the Rear Building with UG 4 medical offices; and

*Therefore it is Resolved*, that the application to revoke Certificate of Occupancy No. 103703226F, filed under BSA Cal. No. 166-12-A, is *granted in part* with regards to the UG 4 medical office occupancies indicated on the cellar, first floor and mezzanine levels of the Rear Building and the application to recognize a common law vested right to complete construction under Permit No. 103703226, filed under BSA Cal. No. 107-13-A, is *denied*.

Adopted by the Board of Standards and Appeals, October 17, 2017.

Abstain: Commissioner Sheta.....1

WHEREAS, the decision of the Department of Buildings (“DOB”), dated September 1, 2016, acting on New Building Application No. 520229208, reads in pertinent part:

“The street giving access to proposed building is not duly placed on the official map of the City of New York therefore:

- A) No Certificate of Occupancy can be issued pursuant to Article 3, Section 36 of the General City Law.
- B) Proposed construction does not have at least 8% of the total perimeter of building(s) fronting directly upon a legally mapped street or frontage space contrary to section 502.1 of the 2014 NYC Building Code”; and

WHEREAS, this is an appeal to permit, in an M3-1 zoning district and Special South Richmond Development District, the development of a two-story building that does

not front on a mapped street, contrary to General City Law (“GCL”) § 36; and

WHEREAS, a public hearing was held on this appeal on June 6, 2017, after due notice by publication in *The City Record*, with a continued hearing on August 8, 2017, and then to decision on October 17, 2017; and

WHEREAS, former Commissioner Montanez performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 3, Staten Island, recommends approval of this appeal; and

WHEREAS, the subject site is located on the east side of Industrial Loop, north of Arthur Kill Road, in an M3-1 zoning district and Special South Richmond Development District, on Staten Island; and

WHEREAS, the site has approximately 104 feet of frontage along Industrial Loop, 150 feet of depth, 16,866 square feet of lot area and is unimproved and used as a storage yard with two trailers; and

WHEREAS, the applicant proposes the develop the subject site with a two-story building used as a warehouse and office that complies with all zoning requirements applicable in the subject zoning district; and

WHEREAS, GCL § 36 provides that no certificate of occupancy shall be issued for any building unless a street or highway giving access to such structure has been officially mapped and adequately improved in respect to the public health, safety and general welfare; and

WHEREAS, said statute empowers the Board to vary this requirement where there is practical difficulty or unnecessary hardship; and

WHEREAS, because the subject site is only accessible from Industrial Loop, which is not a street duly placed on the official map of the City of New York, the applicant seeks the relief sought herein; and

WHEREAS, Industrial Loop is built to a width of 37 feet immediately west of the subject site and connects to Arthur Kill Road, a street appearing on the official map of the City of New York, approximately 1,798 feet to the south of the subject site; and

WHEREAS, the applicant submits that a restrictive declaration, dated January 26, 1995, has been placed on the subject site by Arthur Kill Association, Ltd., in order to provide for the maintenance of Industrial Loop, including paving, repairing, surfacing, re-surfacing, snow removal, clearance of all debris and all work otherwise necessary to maintain Industrial Loop for ingress and egress and to keep Industrial Loop open for the use of the subject site and adjoining sites; additionally, the restrictive declaration further provides for the maintenance of fire hydrants, fire alarm system, the storm drainage system, electricity, telephone, natural gas and water lines; and

WHEREAS, at hearing, the Board questioned the presence of parking in the fire lane and requested that landscaping be shown on the drawings; and

WHEREAS, by letter dated June 5, 2017, the Fire Department states that fire hydrants must be located within 100 feet of a Siamese connection, that a designated access

---

# MINUTES

---

road at least 34 feet in width must lead to the frontage space and that a frontage space with 30 feet in both dimensions must be located in front of and adjoining the proposed building's main front entrance; and

WHEREAS, in response, the applicant notes that the proposed building will be fully sprinklered and amended the drawings with respect to fire hydrants, "no parking" signage and relevant dimensions; and

WHEREAS, accordingly, the Board finds that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

*Therefore it is Resolved*, the decision of the Department of Buildings, dated September 1, 2016, acting on New Building Application No. 520229208, be and it hereby is *modified* under the powers vested in the Board of Standards and Appeals by General City Law § 36, and that this appeal be and it hereby is *granted*, limited to the objection noted, *on condition* that all construction shall substantially conform to drawings filed with this appeal marked, "Received October 17, 2017"-One (1) sheet; and *on further condition*:

THAT a certificate of occupancy shall be obtained within four (4) years, by October 17, 2021;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 17, 2017.

## 2017-189-A

APPLICANT – Rothkrug Rothkrug & Spector LLP, for Dongan 222 LLC, owner.

SUBJECT – Application May 24, 2017– Proposed three-story, two-family dwelling located within the bed of a mapped street contrary to Article III, Section 35 of the General City Law. R3X zoning district.

PREMISES AFFECTED – 222 Dongan Hills Avenue, Block 3549, Lot 16, Borough of Staten Island.

### COMMUNITY BOARD #2SI

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative: .....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated April 24, 2017, acting on New Building Application No. 520289642, reads in pertinent

part:

"GCL 35 Proposed construction within the bed of a mapped street is contrary to Article III, Section 35 of the General City Law. Therefore, refer to the Board of Standards and Appeals for review.

"ZR 24-00 Proposed new building has bulk non-compliances resulting from the location of such mapped street. Obtain Board of Standards and Appeals waiver pursuant to ZR 72-01(g)"; and

WHEREAS, this is an appeal to permit, in an R3X zoning district, the development of a building in the bed of a mapped street, contrary to General City Law ("GCL") § 35 and ZR § 24-00; and

WHEREAS, a public hearing was held on this appeal on October 17, 2017, after due notice by publication in *The City Record*, and then to decision on that same date; and

WHEREAS, Community Board 2, Staten Island, recommends disapproval of this appeal; and

WHEREAS, the subject site is located on the south side of Dongan Hills Avenue, between Vera Street and Hylan Boulevard, in an R3X zoning district and a Lower Density Growth Management Area, on Staten Island; and

WHEREAS, the site has approximately 60 feet of frontage along Dongan Hills Avenue, 74 feet of depth, 4,466 square feet of lot area and is occupied by a two-story residence and one-story accessory garage; and

WHEREAS, the applicant proposes to demolish the existing buildings and develop a three-story, two-family residence partially within the bed of Joyce Street, an unimproved mapped street; and

WHEREAS, additionally, the applicant represents that the proposed building will comply with applicable provisions of the Zoning Resolution but that certain bulk waivers pertaining to measuring yards from lot lines, rather than street lines, is necessary to address non-compliance resulting from the location of the proposed building within and outside the unimproved street; and

WHEREAS, the applicant further submits that the zoning lot will comply to the maximum extent feasible with all applicable zoning regulations as if such unimproved street were not mapped; and

WHEREAS, by letter dated June 28, 2017, the New York City Department of Transportation ("DOT") states that Joyce Street at this location is mapped for 60 feet, that the City does not have title and that Joyce Street at this location is not currently included in DOT's Capital Improvement Program; and

WHEREAS, by letter dated June 28, 2017, the New York City Department of Environmental Protection ("DEP") states that DEP has reviewed this appeal and has no objection; and

WHEREAS, the Fire Department represents that it has no objection to this appeal; and

WHEREAS, at hearing, the applicant clarified that this appeal pertains only to Joyce Street, not Dongan Hills Avenue, and that the proposed building complies with the unimproved, mapped portion of Dongan Hills Avenue within the subject lot; and

# MINUTES

WHEREAS, in response to questions from the Board, the applicant revised the drawings to reflect setback distances; and

WHEREAS, accordingly, the Board finds that the evidence in the record supports the findings required to be made and that the applicant has substantiated a basis to warrant exercise of discretion to grant under GCL § 35 and ZR § 72-01(g).

Therefore it is Resolved, that the decision of the Department of Buildings, dated April 24, 2017, acting on New Building Application No. 520289642, be and it hereby is *modified* under the powers vested in the Board of Standards and Appeals by General City Law § 35 and ZR § 72-01(g), and that this appeal be and it hereby is *granted*, limited to the objection noted, *on condition* that all construction shall substantially conform to drawings filed with this appeal marked “Received July 28, 2017”-One (1) sheet; and *on further condition*:

THAT a certificate of occupancy shall be obtained within four (4) years, by October 17, 2021;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 17, 2017.

## 205-15-A thru 214-15-A

APPLICANT – Rothkrug Rothkrug & Spector LLP, for Atid Development LLC, owner.

SUBJECT – Application August 31, 2015 – Proposed development of two-story, one family dwelling with accessory parking space that are proposed to be located within the bed of mapped but unbuilt 129th Avenue & Hook Creek Boulevard, contrary to Article 3 of the General City Law, Section 35 located within an R2 zoning district.

PREMISES AFFECTED – 128-60 to 128-76 Hook Creek Boulevard and 128-63 to 128-75 Fortune Way, Block 12887, Lot(s) 129, 130,131, 132, 133,134, 135,136, 137, 138, Borough of Queens.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated April 20, 2015, acting on DOB Application No. 320515313 reads in pertinent part:

1. ZR 42-00: Proposed extension of use group 3 is prohibited per approved BSA plans under 138-04-BZ;
2. ZR 43-12: Proposed floor area exceed maximum permitted, contrary to ZR 43-12;
3. ZR 43-12: Use Group 3 school is not permitted as of right, contrary to ZR 43-12;
4. ZR 43-43: Proposed enlargement exceeds height limitations contrary to ZR 43-43;
5. ZR 43-26: Proposed enlargement is prohibited in required rear yard
6. [ . . . ];
7. ZR 43-31: Proposed enlargement requires rear yard beyond 100’ for thru lot portion;
8. ZR 43-28: Provide rear yard equivalent for thru lot beyond 100’ of corner; and

WHEREAS, this is an application under ZR § 72-21 to permit, on a site located within an M1-1 zoning district, the enlargement of an existing Use Group (“UG”) 3 school that does not comply with the zoning regulations regarding use, floor area ratio, rear yards, rear yard equivalents and front wall height and setbacks, contrary to ZR §§ 42-00, 43-12, 43-26, 43-28, 43-31 and 43-43; and

WHEREAS, this application is filed on behalf of Congregation Machne Chaim, the owner of the premises, and Yeshiva Bais Sorah (the “Yeshiva”), the occupier of the premises; and

WHEREAS, a public hearing was held on this application on April 21, 2015, after due notice by publication in *The City Record*, with continued hearings on October 20, 2015, December 15, 2015, March 22, 2016, May 17, 2016 and July 19, 2016, and then to decision on

# MINUTES

---

October 17, 2017; and

WHEREAS, Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, former Vice-Chair Hinkson and former Commissioner Montanez performed inspections of the site and the surrounding neighborhood; and

WHEREAS, Community Board 11, Brooklyn, recommends approval of this application on condition that an enclosed area be provided on site for the storage of garbage; and

WHEREAS, New York City Council Member David G. Greenfield submitted a letter, dated June 12, 2014, in support of this application; and

WHEREAS, the subject site is bound by 16th Avenue to the west, 61st Street to the north, 62nd Street to the south, in an M1-1 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 200 feet of frontage along 16th Avenue, 190 feet of frontage along 61st Street, 110 feet of frontage along 62nd Street, 30,000 square feet of lot area and is occupied by a three-story not-for-profit UG 3 girls yeshiva; and

WHEREAS, the Board has exercised jurisdiction over the subject site since June 14, 2005, when, under BSA Cal. No. 138-04-BZ, the Board granted a special permit, pursuant to ZR § 73-19 and 73-03, for a UG 3 school at the premises; and

WHEREAS, the existing building has approximately 59,959 square feet of floor area, a floor area ratio ("FAR") of 2.0 and houses a pre-school through high school student population (students aged 2 through 17 years) within 38 classrooms accommodating a total of 1,191 students; and

WHEREAS, the applicant submits that the existing building lacks sufficient space to accommodate younger students as they progress in their education (i.e. while there are four classes of fourth graders, there is only sufficient classroom space for three classes of fifth through sixth graders, two classes of seventh and eighth graders and one class of each of the ninth through twelfth graders) and the Yeshiva is in need of additional classroom space; and

WHEREAS, the applicant originally proposed a three-story enlargement of the existing building and five-story plus cellar enlargement within the interior lot portion of the site fronting 61st Street, resulting in a building with 159,240 square feet of floor area, 5.31 FAR with a front wall height of 84'-3" with no setbacks, a mikveh in the cellar and a new seminary for 120 post-high school adult students on the sixth floor and a rooftop play area; and

WHEREAS, in the course of hearings, the Board expressed concerns regarding the adequate isolation of the adult seminary from children in the enlarged building and, in lieu of providing a separate entrance for seminary students on a separate floor, the applicant revised the proposal to remove the seminary program and sixth floor from the proposed enlargement; and

WHEREAS, the applicant now proposes to enlarge the school by adding a fourth and fifth story to the existing building and five-story plus cellar enlargement within the interior lot portion of the site fronting 61st Street, resulting in a building with 140,815 square feet of floor area, 4.69

FAR, rising to a front wall height of 70.8 feet with no setbacks, a 7'-10" rear yard equivalent and a rooftop play area; and

WHEREAS, at the subject site, a UG 3 school is not permitted pursuant to ZR §§ 42-00 and 43-12; the maximum floor area ratio permitted is 2.4 FAR pursuant to ZR 43-122; a maximum front wall height of 30 feet is permitted before a setback consistent with the sky exposure plane is required pursuant to ZR § 43-43; a 15 foot setback from 16th Avenue, a wide street, and 20 feet setbacks from both 61st and 62nd Streets, narrow streets, are required pursuant to ZR § 43-43; a rear yard at least 20 feet in depth is required for the portion of the lot located beyond 100 feet of the corner and fronting 61st Street pursuant to ZR §§ 43-26 and 43-31; and a rear yard equivalent of either (a) an open area with a minimum lot depth of 40 feet midway between the street lines of 61st Street and 62nd Street, (b) two open areas, each adjoining and extending along the full length of the lot lines fronting 61st Street and 62nd Street, each with a minimum depth of 20 feet from each street line or (c) an open area adjoining and extending along the full length of each side lot line with a minimum width of 20 feet measured from each side lot line is required for the through lot portion of the site pursuant to ZR § 43-28; and

WHEREAS, accordingly, the applicant seeks the subject relief; and

WHEREAS, the Yeshiva submits that the waivers sought are necessary in order to meet its programmatic needs, specifically, to accommodate its existing student body as they graduate to higher grade levels, allow opportunity for modest growth and provide sufficient classroom and multi-purpose spaces to accommodate all of their existing course offerings; and

WHEREAS, the enlarged building will provide an additional 25 classrooms accommodating a total of approximately 1,662 students (students aged 6 months to 17 years), new lunchrooms, indoor play areas, gymnasias, computer rooms, libraries, science labs, music and art rooms and a mikveh in the cellar of the enlarged portion of the building for use by the female students post-graduation and for use by the general community; and

WHEREAS, the applicant submits that the mikveh is an integral part of the Yeshiva's mission of being an essential part of its female students' lives throughout their lives and creating an environment in which they can not only receive an education consisting of both Judaic studies and secular studies, but one to which they can return for spiritual and developmental guidance in preparation for significant life events such as marriage; and

WHEREAS, the Board requires, and the Yeshiva agrees, that there be no access from the mikveh directly to or from the school—it is accessible from an entrance located on 62st Street, egress is made to 61st Street and the ADA access to the mikveh cannot be used to access school areas—and that stranger, non-school staff adults will be kept separate from children at all times; and

WHEREAS, in response to a request from the Board, the applicant indicated that the mikveh will be available

---

# MINUTES

---

only after sundown and during evening hours and that school hours will never overlap with the mikveh's hours; and

WHEREAS, the remainder of the enlargement will provide the following additional spaces: a lunchroom, kitchen and indoor play area for day care and pre-nursery school students on the first floor; four classrooms for five-year old Pre-1A students and two classrooms for four-year old kindergarten students on the second floor; a dining area, warming kitchen and gym for first through third grade students and other elementary students, as required, on the third floor; 20 classrooms for grades four through eight (permitting four classes per grade), offices, and tutoring spaces on the fourth floor; and eight classrooms for grades nine through twelve (permitting two classes per grade), a cafeteria for high school students, offices, two computer rooms, two computer labs, a science lab, a home economics classroom, a craft room and a library that will be available to all students in the building on the fifth floor; and

WHEREAS, the roof of the enlarged building will additionally provide a rooftop play area surrounded by a 9'-8" tall fence; and

WHEREAS, the applicant states that an as-of-right enlargement of the existing building would only permit its enlargement by 12,040 square feet—less than one story—which would be insufficient to accommodate its existing elementary and middle school students as they progress in their education and, thus, the requested waivers are required for the Yeshiva to meet its programmatic need to eliminate classroom overcrowding and provide adequate educational facilities for its students and curriculum; and

WHEREAS, specifically, the applicant submits that the requested use waiver is required to enable an extension of the UG 3 school, which is not permitted at the subject site as-of-right and only exists because of a special permit granted to the site by the Board in 2005; that an expansion compliant with the maximum permitted FAR would be insufficient to adequately accommodate its current and future projected student body; and that compliance with the maximum front wall height, setback, rear yard and rear yard equivalent regulations would result in smaller floorplates for the five-story enlargement as well on the additional fourth and fifth floors (which would need to be set back from three sides), would require the relocating of staircases on those floors and the installation of transfer beams and new columns and ultimately result in not only the loss of necessary classroom and accessory spaces but increased construction costs; and

WHEREAS, the Board acknowledges that the Yeshiva, as an educational institution, is entitled to deference under the law of the State of New York as to zoning and its ability to rely upon programmatic needs in support of the subject variance application; specifically, as held in *Cornell University v. Bagnardi*, 68 NY2d 583 (1986), an educational or religious institution's application is to be granted unless it can be shown to have an adverse effect on the health, safety or welfare of the community and general concerns about traffic and disruption of the residential character of the

neighborhood are insufficient grounds for the denial of such applications; and

WHEREAS, based on the above, the Board finds that the Yeshiva's programmatic needs create unnecessary hardship and practical difficulty in developing the premises in compliance with the applicable zoning regulations; and

WHEREAS, the Yeshiva is a not-for-profit institution and because the variance is needed to further its not-for-profit mission, the finding set forth in ZR § 72-21(b) need not be made in order to grant the variance requested in this application; and

WHEREAS, the applicant represents that, pursuant to ZR § 72-21(c), the variance, if granted, will not alter the essential character of the neighborhood, impair the appropriate use or development of adjacent property, or be detrimental to the public welfare; and

WHEREAS, specifically, the Yeshiva notes that resulting enlarged building will be shorter than two public schools located in the area—P.S. 227, located three block west, which rises to 74 feet tall, and P.S. 180, located four blocks, which stands at 84 feet high; and

WHEREAS, with regards to transportation to and from the site, the applicant submits that bus arrivals and departures are currently staggered, with 629 first through sixth graders arriving at the site on approximately 10 buses between 8:30 a.m. and 8:50 a.m., 294 pre-school students arriving at the site on approximately 5 buses between 9:15 a.m. and 9:45 a.m., pre-school students are dismissed at 3 p.m. and elementary school students are dismissed at 4:15 p.m.; and

WHEREAS, the applicant represents that the buses are equipped with GPS devices and that school staff meet the buses at arrival and departure times to ensure that students are loaded and unloaded from the buses safely and efficiently; in addition, No Parking Signs are located at each of the Yeshiva's three frontages, effective from 7 a.m. to 6 p.m. on all school days, and the buses are parked off-site; and

WHEREAS, the applicant represents that the remaining students (approximately 268 in grades seven through twelve) travel to and from the Yeshiva on foot or via mass transit; seventh and eighth grade students arrive at the premises between 8:30 a.m. and 8:50 a.m. and are dismissed at 4:15 p.m. while high school students arrive at the premises between 8:15 a.m. and 8:45 a.m. and are dismissed at 4:40 p.m.; and

WHEREAS, the applicant submits that, at full capacity, there will be 280 high school students and 240 seventh and eighth grade students arriving to the Yeshiva by foot or public and 1,142 students in pre-nursery through sixth grade arriving on the same staggered schedule as currently devised and the total number required will increase by one to 11; and

WHEREAS, in addition, the applicant submitted letters from the Girls School of Bobov, dated March 1, 2016, and April 18, 2016, indicating a commitment to sign a lease with the Yeshiva to provide parking spaces for all 11 of these buses at 1454 62nd Street when they are not in use; and

---

WHEREAS, an arrival and dismissal operational plan consistent with the foregoing was presented to the Board and has been incorporated as a condition to this grant; and

WHEREAS, the Board finds that the proposal will not alter the essential character of the surrounding neighborhood, nor impair the use or development of adjacent properties, and not be detrimental to the public welfare; and

WHEREAS, the applicant states, and the Board finds, that the practical difficulties herein are inherent to its unique programming needs and were not caused by the owner of the site or a predecessor in title; and

WHEREAS, the applicant represents that, consistent with ZR § 72-21(e), the proposal is the minimum necessary to accommodate its programmatic needs; and

WHEREAS, in light of the revisions to the proposal over the course of hearings, the Board finds that this proposal is the minimum necessary to allow the Yeshiva to fulfill its programmatic needs; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, this project is classified as an Unlisted Action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (“EAS”) Short Form CEQR No. 14-BSA-116K, dated October 17, 2017; and

WHEREAS, the EAS documents that the project as proposed would not have significant impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, the New York City Department of Environmental Protection (“DEP”) reviewed the subject proposal for air quality, noise and hazardous materials; and

WHEREAS, by letter dated March 25, 2015, DEP states that it reviewed the February 2015 Phase II Environmental Site Assessment Investigation (Phase II) for the subject proposal and makes the following comments, which have been incorporated as a condition to this grant: (1) submission of a Remedial Action Plan (“RAP”) for the proposed construction project, delineating that contaminated soils should be properly disposed of in accordance with the applicable NYSDEC regulations, to DEP for the review and approval; (2) submission of a site-specific Construction Health and Safety Plan (“CHASP”) on the basis of workers exposure to contaminants for the proposed construction project to DEP for review and written approval prior to any soil disturbance; (3) incorporation of a vapor barrier into the design plan with manufacturer’s specifications of the

proposed vapor barrier submitted to DEP for review and approval; (4) for all areas which will either be landscaped or covered with grass (not capped), a minimum of two feet of clean fill/top soil must be imported from an approved facility/source and graded across all landscaped/grass covered areas of the site not capped with concrete asphalt and the clean fill/top soil must be segregated at the source/facility, have qualified environmental personnel collect representative samples at a frequency of one sample for every 250 cubic yards, analyze the samples for TCL VOCs, SVOCs, pesticides, PCBs, and TAL metals by a New York State Department of Health Environmental Laboratory Approval Program certified laboratory, compared to NYSDEC Part 375 Environmental Remediation Programs; (5) excavated soils, which are temporarily stockpiled on site, must be covered with polyethylene sheeting while disposal options are determined and excavated soils should not be reused for grading purposes; (6) if any petroleum-impacted soils (which display petroleum odors and/or staining) are encountered during the excavation/grading activities, the impacted soils should be removed and properly disposed of in accordance with all NYSDEC regulations; (7) dust suppression must be maintained by the contractor during the excavating and grading activities at the site; (8) all known or found underground storage tanks and aboveground storage tanks (including dispensers, piping, and fill-ports) must be properly removed/closed in accordance with all applicable NYSDEC regulations; and (9) if de-watering into New York City storm/sewer drains will occur during the propose construction, a New York City Department of Environmental Protection Sewer Discharge Permit must be obtained prior to the start of any dewatering activities at the site; and

WHEREAS, by letter dated July 22, 2015, DEP states that it reviewed and approved the June 2015 RAP and CHASP submitted by the applicant, and additionally requested that, upon the completion of the project, a Professional Engineer-certified Remedial Closure Report indicating that all remedial requirements have been properly implemented (i.e. proof of installation of vapor barrier; transportation/disposal manifests and certificates from impacted soils removed and disposed of in accordance with all NYSDEC regulations; and two feet of certified clean fill/top soil capping requirements in all landscaped/grass covered areas not capped with concrete/asphalt, etc.) be submitted to DEP for review and approval; and

WHEREAS, by letter dated May 15, 2015, DEP states that it reviewed the Noise Analysis prepared in connection with the subject application and makes the following comments, which have been incorporated as a condition to this grant: (1) composite window/wall noise attenuation of 28 dBA is required for the 16th Avenue frontage of the proposed building in order to attain an indoor noise level of 45 dBA within the proposed development and (2) an alternate means of ventilation shall be incorporated into the building design and construction; and

WHEREAS, by letter dated September 12, 2017, DEP states that it reviewed the revised Air Quality analysis dated

---

# MINUTES

---

July 2017 in connection with the subject proposal and concluded that the proposed project would not result in any significant adverse air quality impact; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

*Therefore, it is Resolved,* that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR § 72-21 to grant, on a site located in an M1-1 zoning district, the enlargement of an existing Use Group 3 school that does not comply with the zoning regulations regarding use, floor area ratio, rear yards, rear yard equivalents and front wall height and setbacks, contrary to ZR §§ 42-00, 43-12, 43-26, 43-28, 43-31 and 43-43; *on condition* that all work will substantially conform to drawings filed with this application marked "Received October 17, 2017"- Fourteen (14) sheets; and *on further condition:*

THAT the following shall be the bulk parameters of the building: a maximum of 4.69 FAR (140,815 square feet of floor area), a maximum front wall height of 70.8 feet, a minimum of 0 feet setback from all street frontages above a front wall height of 30 feet; a rear yard equivalent of at least 7'-10" on the through lot portion of the site; and a rear yard of at least 0 feet on the portion of the lot located beyond 100 feet of the corner and fronting 61st Street;

THAT buses shall be parked during off hours at 1454 62nd Street, Brooklyn; and

THAT bus drop off and pick up shall be conducted according to the following operational schedule:

The school will utilize all three frontages, which have no parking signs from 7 a.m. to 6 p.m. school days, to accommodate the students as they arrive and depart the building to ensure that the students enter and exit the building as quickly as possible without impacting the surrounding uses or traffic.

Each bus will have at least one staff member on it. At arrival and dismissal there are teachers and staff at each entrance to meet the buses and ensure the students safely load and unload the buses. The buses are equipped with GPS devices that are monitored by a staff member in the premises to ensure their respective routes are being followed.

The first floor will have an auditorium that will be used daily for bus line up for the children. The students are arranged for dismissal by buses. Each bus is assigned a color and each student that is on that bus will be gathered for dismissal with that color group. This system ensures an efficient

dismissal schedule to avoid any impact on traffic. At capacity, there will be

- 280 high school students that walk to and from the school, arriving between 8:15 a.m. and 8:45 a.m. and leaving upon dismissal at 4:40 p.m.;
- 240 students in seventh and eighth grades that walk to and from school, arriving between 8:30 a.m. and 8:50 a.m. and leaving upon dismissal at 4:15 p.m.;
- 720 students in the first through sixth grades arriving on approximately 11 buses (each carrying approximately 65 students) between 8:30 a.m. and 8:50 a.m. and leaving by bus upon dismissal at 4:15 p.m.; and
- 422 students in preschool arriving on approximately 8 buses (each carrying approximately 55 students) between 9:15 a.m. and 9:45 p.m. and leaving by bus upon dismissal at 3 p.m.; and

THAT the subject approval does not include facilities for a seminary;

THAT the hours of the mikveh located in the cellar shall not overlap with the hours of the Use Group 3 school;

THAT a vapor barrier be incorporated into the design plan with manufacturer's specifications of the proposed vapor barrier submitted to DEP for review and approval;

THAT, for all areas which will either be landscaped or covered with grass (not capped), a minimum of two feet of clean fill/top soil must be imported from an approved facility/source and graded across all landscaped/grass covered areas of the site not capped with concrete asphalt and the clean fill/top soil must be segregated at the source/facility, have qualified environmental personnel collect representative samples at a frequency of one sample for every 250 cubic yards, analyze the samples for TCL VOCs, SVOCs, pesticides, PCBs, and TAL metals by a New York State Department of Health Environmental Laboratory Approval Program certified laboratory, compared to NYSDEC Part 375 Environmental Remediation Programs;

THAT excavated soils, which are temporarily stockpiled on site, must be covered with polyethylene sheeting while disposal options are determined and excavated soils should not be reused for grading purposes;

THAT if any petroleum-impacted soils (which display petroleum odors and/or staining) are encountered during the excavation/grading activities, the impacted soils should be removed and properly disposed of in accordance with all NYSDEC regulations;

THAT dust suppression must be maintained by the contractor during the excavating and grading activities at the site;

THAT all known or found underground storage tanks and aboveground storage tanks (including dispensers, piping, and fill-ports) must be properly removed/closed in accordance with all applicable NYSDEC regulations;

THAT if de-watering into New York City storm/sewer drains will occur during the propose construction, a New

# MINUTES

York City Department of Environmental Protection Sewer Discharge Permit must be obtained prior to the start of any dewatering activities at the site;

THAT upon the completion of the project, a Professional Engineer-certified Remedial Closure Report indicating that all remedial requirements have been properly implemented (i.e. proof of installation of vapor barrier; transportation/disposal manifests and certificates from impacted soils removed and disposed of in accordance with all NYSDEC regulations; and two feet of certified clean fill/top soil capping requirements in all landscaped/grass covered areas not capped with concrete/asphalt, etc.) be submitted to DEP for review and approval;

THAT composite window/wall noise attenuation of 28 dBA is required for the 16th Avenue frontage of the proposed building in order to attain an indoor noise level of 45 dBA within the proposed development;

THAT an alternate means of ventilation shall be incorporated into the building design and construction;

THAT the above conditions shall be listed on the Certificate of Occupancy;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a Certificate of Occupancy shall be obtained within four (4) years, by October 17, 2021;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portion related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 17, 2017.

APPLICANT – Rothkrug Rothkrug & Spector LLP, for 100-02 Rockaway Blvd 26 LLC, owner; Warrior Fitness Queens Inc., lessee.

SUBJECT – Application August 27, 2014 – Special Permit (§73-36) to allow for a physical culture establishment (*Warrior Fitness*) within a portion of an existing commercial building. M1-1 zoning district.

PREMISES AFFECTED – 100-02 Rockaway Boulevard, Block 9539, Lot 1, Borough of Queens.

### COMMUNITY BOARD #10Q

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

Abstain: Commissioner Sheta.....1

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated October 12, 2017, acting on Alteration Application No. 421549408, reads in pertinent part:

“As per ZR 42-31, proposed physical culture or health establishment in an M1 zoning district requires a special permit from the Board of Standards and Appeals”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, in an M1-1 zoning district, the operation of a physical culture establishment (“PCE”) on a portion of the second floor of a two-story, with cellar, commercial building; and

WHEREAS, a public hearing was held on this application on August 27, 2014, after due notice by publication in *The City Record*, and then to decision on October 17, 2017; and

WHEREAS, the subject site is located on the south side of Rockaway Boulevard, between 100th Street and 101st Street, in an M1-1 zoning district, in Queens; and

WHEREAS, the site has approximately 233 feet of frontage along Rockaway Boulevard, 328 feet of frontage along 100th Street, 55 feet of frontage along 101st Street, 38,286 square feet of lot area and is occupied by a two-story, with cellar, commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
  - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
  - (ii) a swimming pool of a minimum 1,500 square feet; or
  - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
  - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or

---

# MINUTES

---

health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the proposed PCE will occupy a total of 7,514 square feet of floor area on the second floor, including a reception area, yoga area, aerobics space, cardiovascular equipment, weight training, a boxing ring, juice bar and restrooms; and

WHEREAS, the PCE will operate as Tapout Fitness with the following hours of operation: Monday to Saturday, 5:30 a.m. to 11:00 p.m., and Sunday, 6:00 a.m. to 10:00 p.m.; and

WHEREAS, the applicant represents that the PCE use will not impair the essential character or the future use or development of the surrounding area because it is entirely contained within an existing commercial building and surrounded by other commercial uses in a manufacturing district; and

WHEREAS, in addition, the applicant submits that sound attenuation measures—including sound-attenuation

panels on all exterior walls and tenant-separation walls—will be provided within the space to ensure that the sound level in the other portions of the building do not exceed a maximum interior noise level of 45 dBA, including sound emanating from any sound system, if installed; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or the future use or development of the surrounding area; and

WHEREAS, with regards to the use of the premises, the applicant states that the PCE provides facilities for classes, instruction and programs for physical improvement, body building, weight reduction and aerobics; and

WHEREAS, the Board finds that the PCE use is consistent with those eligible, pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE will be fully sprinklered and that an approved interior fire alarm—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, and a connection to an FDNY-approved central station—will be installed in the entire PCE space; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No.15BSA050Q, dated August 27, 2014; and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03.

*Therefore it is Resolved*, that the Board of Standards and Appeals *issues* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to *permit*, in an M1-1 zoning district, the operation of a physical culture on a portion of the second floor of a two-story, with cellar, commercial building; *on condition* that all work and site conditions shall substantially conform to drawings filed with this application marked “Received September 26, 2017” – Three (3) sheets; and *on further condition*:

THAT the term of this grant shall be for ten (10) years,

# MINUTES

expiring October 17, 2027;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum 3'-0" wide exit pathways shall be provided leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be installed in the entire PCE space and the PCE shall be fully sprinklered, as indicated on the Board-approved plans;

THAT sound attenuation shall be installed in the PCE as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by October 17, 2021;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 17, 2017.

### CEQR #16-BSA-012Q

APPLICANT – Eric Palatnik, P.C., for 146-45 22<sup>nd</sup> Avenue LLC, owner.

SUBJECT – Application July 31, 2015 – Variance (§72-21) to permit the development of a 1,796 square foot two-story with cellar two (2) family dwelling contrary to underlying bulk regulations. R3A zoning district.

PREMISES AFFECTED – 146-45 22<sup>nd</sup> Avenue, Block 4637, Lot 47, Borough of Queens.

### COMMUNITY BOARD #7Q

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

Abstain: Commissioner Sheta.....1

THE RESOLUTION –

WHEREAS, the decision of the Department of

Buildings (“DOB”), dated July 1, 2015, acting on New Building Application No. 421143863, reads in pertinent part:

“The proposed front yard . . . is less tha[n] the required . . . and therefore contrary to ZR Section 23-45(a)”;

WHEREAS, this is an application under ZR § 72-21 to permit, in an R3A zoning district, the development of a two-story, with cellar, two-family residence that does not comply with zoning requirements for front yards, contrary to ZR § 23-45(a); and

WHEREAS, a public hearing was held on this application on December 6, 2016, after due notice by publication in *The City Record*, with continued hearings on February 28, 2017, May 16, 2017, and August 8, 2017, and then to decision on October 17, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown, former Vice-Chair Hinkson and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 7, Queens, recommends disapproval of this application, citing concerns with neighborhood character, the potential effect of a front-yard reduction on the streetscape and whether the floor area request was minimal; and

WHEREAS, Queens Borough President Melinda Katz submitted testimony in opposition to this application, citing concerns regarding the requested waivers for floor area and dwelling unit size; and

WHEREAS, Council Member Paul A. Vallone submitted testimony in opposition to this application, citing concerns with neighborhood character and potential deleterious effects on adjacent properties; and

WHEREAS, New York State Senator Tony Avella submitted testimony regarding the presence of debris at the site, construction violations and alignment of the proposed building with adjacent residences; and

WHEREAS, the subject site is located on the northwest corner of 22nd Avenue and 147th Street, in an R3A zoning district, in Queens; and

WHEREAS, the site has approximately 25 feet of frontage along 147th Street, 100 feet of frontage along 22nd Avenue, 2,500 square feet of lot area and is vacant; and

WHEREAS, initially the applicant proposed to develop a two-story residence that would not comply with zoning requirements for floor area, front yards and dwelling unit size; and

WHEREAS, in response to skepticism from the Board about the original proposal’s ability to meet the required findings and in response to community concerns, the applicant modified this application to eliminate certain waivers; and

WHEREAS, the applicant now seeks a variance to permit the development of a two-story, with cellar, two-family residence with a 19’-5” front yard along 147th Street and a 7’-0” front yard along 22nd Avenue, which is less than the required front yards of 10 feet or at least as deep as adjacent front yards, contrary to ZR § 23-45(a); and

---

# MINUTES

---

WHEREAS, the applicant represents, consistent with ZR § 72-21(a), the narrowness of the subject lot is a unique physical condition that creates practical difficulties or unnecessary hardship in complying with the zoning requirements for front yards; and

WHEREAS, in support of this contention, the applicant surveyed adjacent properties and submitted a study evidencing that only one other property within the surrounding area is a vacant corner lot with a width of 25 feet or less that is not improved with a lawful non-complying residence; and

WHEREAS, the applicant represents that a conforming residence on the subject site that complies with front yard requirements in an R3A zoning district would have a width of 15 feet and that such with would create unnecessary hardship; and

WHEREAS, the applicant further studied the width of nearby residences and found that no residences within the surveyed area had a width of 15 feet and that said residences range in width from 16 feet to 22 feet with an average width of 18 feet; and

WHEREAS, based upon the foregoing, the Board finds that the narrowness of the subject lot create practical difficulties or unnecessary hardship in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the applicant represents that, under ZR § 72-21(b), because of the size of the lot and the aforementioned minimum front-yard requirements applicable to the subject site, an as-of-right development is unbuildable and, accordingly, there is no reasonable possibility that development of the zoning lot in strict conformity with the Zoning Resolution will bring a reasonable return; and

WHEREAS, the Board finds that there is no reasonable possibility that a development in strict compliance with applicable zoning requirements would be feasible because the site's unique physical conditions; and

WHEREAS, under ZR § 72-21(c), the applicant states that the proposed development will not alter the essential character of the neighborhood or district in which the subject lot is located; and

WHEREAS, in response to requests from the Board and concerns from the community, the applicant submitted a front-yard study of corner lots within the surrounding area demonstrating that 42 percent have non-complying front yards and that, for corner lots with less than 30 feet in width, all of the improved corner lots have non-complying front yards; and

WHEREAS, the applicant further notes that, along 147th Street, the majority of the existing residences have front yards between 9 and 15 feet in depth and that the average front yard depth along 147th Street is 12 feet; and

WHEREAS, the applicant also submits that, on 22nd Avenue, front yards range from 6 to 20 feet in depth, similar to the proposed front yard with a depth of 7 feet; and

WHEREAS, based upon the evidence in the record, the Board finds that the proposal will not alter the essential character of the neighborhood nor impair the use or

development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, consistent with ZR § 72-21(d), the applicant states that the practical difficulties or unnecessary hardship claimed have not been created by the owner or by a predecessor in title; and

WHEREAS, the applicant submitted evidence that the subject site has not been in common ownership with adjacent tracts of land; and

WHEREAS, the Board finds that the practical difficulties or unnecessary hardship claimed have not been created by the owner or by a predecessor in title; and

WHEREAS, under ZR § 72-21(e), the applicant represents that the variance is the minimum necessary to afford relief to allow for reasonable and productive use of the site for a habitable two-family residence; and

WHEREAS, finally, the Board finds that the proposal is the minimum variance necessary to afford relief, as set forth in ZR § 72-21(e); and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 16-BSA-012Q, dated July 31, 2015; and

WHEREAS, accordingly, the Board finds that the evidence in the record supports the findings required to be made under ZR § 72-21 and that the applicant has substantiated a basis to warrant exercise in discretion to grant.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR § 72-21 to *permit*, in an R3A zoning district, the development of a two-story, with cellar, two-family residence that does not comply with zoning requirements for front yards, contrary to ZR § 23-45(a); *on condition* that all work and site conditions shall substantially conform to drawings filed with this application marked 'Received October 17, 2017'-Six (6) sheets; and *on further condition*:

THAT the front yard of the two-family residence along 22nd Avenue shall have a minimum depth of 7 feet, and the front yard of the detached one-car garage may have a minimum depth of 5'-10", as illustrated on the Board-approved plans;

THAT the above condition shall be noted on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by October 17, \*2021;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure

# MINUTES

compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 17, 2017.

## 2016-4259-BZ

### CEQR #17-BSA-022K

APPLICANT – Eric Palatnik, P.C., for Ed Houry and Irene Kokossion, owners.

SUBJECT – Application September 23, 2016 – Special Permit (73-622) for the enlargement of an existing single family home contrary to floor area, lot coverage and open space (ZR 23-141); side yard requirements (ZR 23-461) and less than the minimum rear yard (ZR 23-47). R2 zoning district.

PREMISES AFFECTED – 8033 Shore Road, Block 5975, Lot 181, Borough of Brooklyn.

### COMMUNITY BOARD #10BK

**ACTION OF THE BOARD** – Application granted on condition.

#### THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

Abstain: Commissioner Sheta.....1

#### THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated November 10, 2016, acting on Alteration Application No. 321305912, reads in pertinent part:

“The proposed enlargement of the existing one family residence . . .

1. Creates non-compliance with respect to floor area by exceeding the allowable floor area ratio and is contrary to Section 23-141 of the Zoning Resolution.
2. Creates non-compliance with respect to the open space and is contrary to section[] 23-141 of the Zoning Resolution”; and

WHEREAS, this is an application under ZR §§ 73-621 and 73-03 to permit, in an R2 zoning district and the Special Bay Ridge District, the enlargement of a building containing residential uses that does not comply with bulk regulations for floor area ratio and open space ratio, contrary to ZR § 23-141; and

WHEREAS, a public hearing was held on this application on July 25, 2017, after due notice by publication in *The City Record*, and then to decision on October 17, 2017; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 10, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the east side

of Shore Road, between 80th Street and 82nd Street, in an R2 zoning district and the Special Bay Ridge District, in Brooklyn; and

WHEREAS, the site has approximately 70 feet of frontage along Shore Road, between 126 and 141 feet of depth, 9,438 square feet of lot area and is occupied by a two-story, with cellar, residential building; and

WHEREAS, the applicant now seeks a modification of bulk regulations to permit the enlargement of the subject building to increase the Floor Area Ratio (“FAR”) from 0.45 FAR (4,283 square feet of floor area) to 0.51 FAR (4,809 square feet of floor area) and decrease the Open Space Ratio (“OSR”) from 170 percent (7,621 square feet of open space) to 138 percent (6,648 square feet of open space); and

WHEREAS, as a preliminary matter, the applicant represents that the subject building existed on December 15, 1961; and

WHEREAS, the applicant states that, at the subject site, floor area may not exceed 4,719 square feet (0.50 FAR) under ZR 23-141, and a minimum of 7,079 square feet of open space (150 percent OSR) is required under ZR § 23-141; and

WHEREAS, under ZR § 73-621, the Board may modify bulk regulations for enlargements of buildings containing residential uses to permit a maximum FAR that does not exceed the maximum FAR permitted by more than 10 percent and to permit an OSR that is not less than 90 percent of the required OSR; and

WHEREAS, as to FAR, the Board confirms that the proposed FAR of 0.51 does not exceed the maximum FAR permitted of 0.50 by more than 10 percent; and

WHEREAS, as to OSR, the Board confirms that the proposed OSR of 138 percent is not less than 90 percent of the required OSR of 150 percent; and

WHEREAS, additionally, the enlargement of a building containing a residential use pursuant to ZR § 73-621 shall not create any new non-compliance or increase the amount or degree of any existing non-compliance; and

WHEREAS, the applicant represents that the proposed enlargement does not create any new non-compliance or increase the amount or degree of any existing non-compliance, including with respect to the side yards of the subject building; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed enlargements satisfies all of the relevant requirements of ZR § 73-621; and

WHEREAS, the applicant submits that the proposed modification of bulk requirements will have no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, in support of this contention, the applicant provided an FAR study of the surrounding area illustrating 24 residential buildings with 0.50 FAR or greater, 22 of which have FARs exceeding 0.51, similar to the proposed FAR of 0.51; and

WHEREAS, the applicant further submitted a streetscape study displaying the proposed building in context as well as a height diagram demonstrating that the

# MINUTES

proposed enlargement will result in a building lower than surrounding residences; and

WHEREAS, at hearing, the Board questioned the height and massing of the proposed building as well as the lawfulness of the existing side yards; and

WHEREAS, in response, the applicant amended the drawings to lower the building height and to note that the attic shall not be occupied and also submitted additional information regarding the side yards of the subject building; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of bulk regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17-BSA-022K, dated September 23, 2016; and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-621 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion to grant.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes and each and every one of the required findings under ZR §§ 73-621 and 73-03 to *permit*, in an R2 zoning district and the Special Bay Ridge District, the enlargement of a building containing residential uses that does not comply with bulk regulations for floor area ratio and open space ratio, contrary to ZR § 23-141; *on condition* that all work and site conditions shall substantially conform to the drawings filed with this application marked “Received October 11, 2017”- Sixteen (16) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: a maximum of 4,809 square feet of floor area (0.51 Floor Area Ratio) and a minimum of 6,648 square feet of open space (Open Space Ratio of 138 percent), as illustrated on the Board-approved plans;

THAT there shall be no occupancy of the attic level for sleeping purposes;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by October 17, 2021;

THAT all existing exterior walls and wall joists

indicated to remain undisturbed on the Board-approved plans shall remain or this grant is void;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 17, 2017.

## 2016-4270-BZ

### CEQR #17-BSA-028K

APPLICANT – Sheldon Lobel, P.C., for 540 Fifth Avenue Corp., owner.

SUBJECT – Application October 12, 2016 – Special Permit (§73-36) to permit the operation of a physical culture establishment (*iLoveKickboxing*) in the cellar and first floor of an existing building. C4-3A zoning district.

PREMISES AFFECTED – 540 5<sup>th</sup> Avenue, Block 1041, Lot 41, Borough of Brooklyn.

### COMMUNITY BOARD #6BK

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

Abstain: Commissioner Sheta.....1

WHEREAS, the decision of the Department of Buildings (“DOB”), dated February 2, 2017, acting on Alteration Application No. 321400453, reads in pertinent part:

“Proposed physical culture establishment on first floor and cellar spaces is not as of right as per ZR 32-10 except by special permit as per ZR 73-36”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, in a C4-3A zoning district, the operation of a physical culture establishment (“PCE”) in the cellar and on the first floor of a five-story, with cellar, mixed-use residential and commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on August 8, 2017, after due notice by publication in *The City Record*, and then to decision on October 17, 2017; and

WHEREAS, Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 6, Brooklyn, waives

---

# MINUTES

---

its recommendation for this application; and

WHEREAS, the subject site is located on the west side of 5th Avenue, between 14th Street and 15th Street, in a C4-3A zoning district, in Brooklyn; and

WHEREAS, the site has approximately 25 feet of frontage along 5th Avenue, 98 feet of depth, 2,447 square feet of lot area and is occupied by a five-story, with cellar, mixed-use residential and commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
  - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
  - (ii) a swimming pool of a minimum 1,500 square feet; or
  - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
  - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and

- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE occupies 3,873 square feet of floor space as follows: 2,000 square feet of floor area on the first floor, including a reception area, seating area, shop, restroom and mat area, and 1,874 square feet of floor space in the cellar, used for a lower lobby, locker rooms, coffee, restrooms and storage; and

WHEREAS, the PCE has operated as iLoveKickboxing.com since April 2017 with the following hours of operation: Monday through Friday, 6:00 a.m. to 9:00 p.m., Saturday, 9:00 a.m. to 2:00 p.m., and Sunday, 9:30 a.m. to 12:00 p.m.; and

WHEREAS, the applicant represents that the PCE use will not impair the essential character or the future use or development of the surrounding area because the surrounding area consists of a vibrant mix of mixed-use buildings, characterized by retail stores and eating and drinking establishments, along a heavily traveled thoroughfare; and

WHEREAS, in addition, the applicant submits that sound attenuation measures—including a suspended ceiling with 3 inches of sound-attenuation blankets above the ceiling envelope, mats and rubber cushioning over the concrete floor slab, acoustic lay-in ceiling tiles and demising walls with fireproof gypsum board and sound-attenuation blankets—have been provided within the space so as to not disturb other tenants in the building; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE provides facilities for classes, instruction and programs relating to physical improvement; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has

# MINUTES

performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant submitted evidence that the PCE is fully sprinklered and that an approved fire alarm—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection to an FDNY-approved central station—has been installed in the entire PCE space; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17-BSA-028K, dated May 10, 2017; and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated at the premises without the special permit.

*Therefore it is Resolved*, that the Board of Standards and Appeals *issues* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to *legalize*, in a C4-3A zoning district, the operation of a physical culture establishment in the cellar and on the first floor of a five-story, with cellar, mixed-use residential and commercial building, contrary to ZR § 32-10; *on condition* that all work and site conditions shall substantially conform to drawings filed with this application marked “Received October 5, 2017” – Five (5) sheets; and *on further condition*:

THAT the term of this grant shall be for ten (10) years, expiring April 1, 2027;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum 3’-0” wide exit pathways shall be provided leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central

station—shall be maintained in the entire PCE space and the PCE shall be fully sprinklered, as indicated on the Board-approved plans;

THAT sound attenuation shall be maintained in the PCE as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by October 17, 2018;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 17, 2017.

## 2016-4215-BZ

APPLICANT – Eric Palatnik, P.C., for Aleksandr S. Cherny, owner.

SUBJECT – Application June 8, 2016 – Special Permit (§73-622) to permit the enlargement of an existing single family home contrary to floor area, open space and lot coverage and providing less than the required rear yard (ZR 23-47). R3-1 zoning district.

## THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

Abstain: Commissioner Sheta.....1

## THE RESOLUTION –

WHEREAS, this is an application to allow for the elevation or reconstruction of a single family home that does not front on a mapped street, contrary to General City Law § 36 (“GCL § 36”), as well as a waiver of certain of the Board’s Rules of Practice and Procedure; and

WHEREAS, a public hearing was held on this

application on October 17, 2017, and then to decision on that same date; and

WHEREAS, in order to accept the application from HRO on behalf of the owner, and in furtherance of the City’s effort to rebuild homes impacted by Superstorm Sandy expeditiously and efficiently, the Board waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1- 06.1(a) (Appeal of Agency Final Determination), (2) 2 RCNY § 1-06.2 (A Form), (3) 2 RCNY § 1-06.3(b) (Filing Period), (4) 2 RCNY § 1-06.4(b) (Application Referral), (5) 2 RCNY § 1-06.5 (Hearing Notice), (6) 2 RCNY § 1-09.1 (Application Form), and (7) 2 RCNY § 1-09.4 (Owner’s Authorization); and

WHEREAS, the Board notes that the subject application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the east side of Bogardus Street, south of Emmons Avenue, in an R5 (C2-2) zoning district and the Special Sheepshead Bay District, in Brooklyn; and

WHEREAS, the site has approximately 22 feet of frontage along Bogardus Street, 43 feet of depth, 953 square feet of lot area and is occupied by a two-story single-family detached residence; and

WHEREAS, it has been determined by HRO that the subject site is occupied by a building or other structure or was occupied by a building or other structure on October 28, 2012, which must be reconstructed or elevated and which does not front on a mapped street; and

WHEREAS, in support of this application, HRO has submitted the following documents to the Board: (1) a BSA application form; (2) a statement of facts which includes reference to HRO’s identification of the site as not fronting on a mapped street; and (3) maps of the subject property; and

WHEREAS, by letter dated September 27, 2017, the Fire Department states that it has no objection to the proposal provided that: (1) the building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code; (2) the building will be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code; (3) the underside of the exterior of the building where the foundation is not completely closed shall have a floor assembly that provides a 2-hour fire resistance rating; and (4) the height from grade plane to the highest window-sill leading to a habitable space may not exceed 32 feet; and

WHEREAS, the Fire Department further stated, that in circumstances where the construction consists primarily of structural elevation and FDNY has determined that the home has been mostly repaired, Department of Buildings (“DOB”) may waive the requirement that the building has a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code upon notice from FDNY; and

WHEREAS, accordingly, the Board has determined

---

# MINUTES

---

that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

*Therefore it is Resolved*, that the Board of Standards and Appeals *waives* the above-referenced Rules of Practice and Procedure and *authorizes* a waiver of General City Law § 36, *on condition* that the proposed elevation or reconstruction will comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT the building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code;

THAT the building shall be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code;

THAT the underside of the exterior of the building where the foundation is not completely closed shall have a floor assembly that provides a 2-hour fire resistance rating;

THAT the height from grade plane to the highest window-sill leading to a habitable space may not exceed 32 feet;

THAT this approval shall be limited to the Build it Back program;

THAT this approval is limited to proposals for elevation or reconstruction of previously existing structures; insofar as the applicant proposes, instead, to repair the building or other structure on subject lot, this waiver will be void as unnecessary;

THAT the applicant provide the Board with a full set of approved plans upon DOB's issuance of a Certificate of Occupancy for the subject building or structure; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 17, 2017.

## 2017-275-BZ

### CEQR #18-BSA-039K

APPLICANT – NYC Mayor's Office of Housing Recovery Operations, for Elena Trama, owner.

SUBJECT – Application October 2, 2017 – Special Permit (§64-92) to waive bulk regulations for the replacement of homes damaged/destroyed by Hurricane Sandy, on properties which are registered in the NYC Build it Back Program. R5 zoning district.

PREMISES AFFECTED – 31 Bogardus Street, Unmapped Street (Bogardus) and Emmons Avenue, Block 8815, Lot 412. Borough of Brooklyn.

### COMMUNITY BOARD #15M

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

Abstain: Commissioner Sheta.....1

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board's Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to permit, in an R5 (C2-2) zoning district and the Special Sheepshead Bay District, the alteration of a single-family detached residence in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards, rear yards, side yards, lot coverage, open space ratio and distance between buildings, contrary to ZR § 23-45, 23-47, 23-46, 23-142, 94-095 and 23-461(c); and

WHEREAS, a public hearing was held on this application on October 17, 2017, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, this application is brought on behalf of the property owner by the Build It Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in furtherance of the City's effort to rebuild residences impacted by Superstorm Sandy expeditiously and effectively, the Board, pursuant to 2 RCNY § 1-14.2, waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1-05.1 (Objection Issued by the Department of Buildings); (2) 2 RCNY § 1-05.3 (Filing Period); (3) 2 RCNY § 1-05.4 (Application Referral); (4) 2 RCNY § 1-05.6 (Hearing Notice); (5) 2 RCNY § 1-05.7 (List of Affected Property Owners); (6) 2 RCNY § 1-09.4 (Owner's Authorization); and (7) 2 RCNY § 1-10.7 (Proof of Service for Application Referral and Hearing Notice); and

WHEREAS, the Board notes that the subject application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the east side of Bogardus Street, south of Emmons Avenue, in an R5 (C2-2) zoning district and the Special Sheepshead Bay District, in Brooklyn; and

---

# MINUTES

---

WHEREAS, the site has approximately 22 feet of frontage along Bogardus Street, 43 feet of depth, 953 square feet of lot area and is occupied by a two-story single-family detached residence; and

WHEREAS, the applicant now seeks a special permit, pursuant to ZR § 64-92, to allow the alteration of a single-family detached residence with existing non-compliances for front yards, side yards, rear yards, lot coverage, open space ratio and distance between buildings that will relocate the residence closer to the rear of the lot, thereby decreasing certain existing non-compliances and increasing others; and

WHEREAS, at the subject site, front yards must be at least 10 feet in depth under ZR § 23-45, rear yards must be at least 10 feet in depth under ZR § 23-52, side yards totaling 13 feet in width are required under ZR 23-46, lot coverage may not exceed 55 percent under ZR § 23-142, open space ratio must be at least 40.0 under ZR § 94-095 and at least 8 feet of distance is required between buildings under ZR § 23-461(c); and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments and enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Section 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

- (a) that there would be a practical difficulty in complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;
- (b) that any modifications of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the

surrounding area; and

WHEREAS, in accordance with ZR § 64-92(a), the need to alter [KS1]the existing residence, which, as it exists, is non-compliant with regulations for front yards, side yards, rear yards, lot coverage, open space ratio and distance between buildings, creates practical difficulties in complying with flood-resistant construction standards without the modification of requirements for front yards, rear yards, side yards, lot coverage, open space ratio and distance between buildings and that waiver of the same is the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the finding pursuant to ZR § 64-92(b) is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the residence is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; the applicant further states that the majority of residences within the surrounding neighborhood are similar detached residences; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed alteration satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18BSA0039K, dated October 2, 2017.

*Therefore it is Resolved*, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure; *issues* a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review; and makes the required findings under ZR § 64-92 to *permit*, in an R5 (C2-2) zoning district and the Special Sheepshead Bay District, the alteration of a single-family detached residence in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards, rear yards, side yards, lot coverage, open space ratio and distance between buildings, contrary to ZR § 23-45, 23-47, 23-46, 23-142, 94-095 and 23-461(c); *on condition* that all work shall substantially conform to the drawings filed with this application and marked "Received October 2, 2017"- Five (5) sheets; and *on further condition*:

THAT there shall be a front yard at least 3 feet in depth, the rear yard shall be at least 2'6" feet in depth, there shall be side yards totaling 3'-8" feet in width with 0 feet of width at the north and 3'-8" at the south, lot coverage shall not exceed 70 percent, open space ratio must be at least 30.5 and distance between buildings shall be at least 3'-6" to the north and 4'-2" to the south, as illustrated on the Board-approved plans;

# MINUTES

THAT there shall be a fire sprinkler system installed in accordance with Chapter 9 and Appendix Q of the New York City Building Code;

THAT the residence shall be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code;

THAT the underside of the exterior of the residence where the foundation is not closed shall have a floor assembly that provides a 2-hour fire resistance rating;

THAT the height from grade plane to the highest windowsill leading to a habitable space may not exceed 32 feet;

THAT this approval shall be limited to the Build It Back program;

THAT all DOB and related agency application(s) filed in connection with the authorize use and/or bulk shall be signed off by DOB and all other relevant agencies by October 17, 2021;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 17, 2017.

**THE RESOLUTION** –

WHEREAS, this is an application under ZR § 73-03 for an extension of term of a special permit, previously granted by the Board, which expired December 16, 2016; and

WHEREAS, a public hearing was held on this application on October 31, 2017, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Community Board 5, Manhattan, waives its recommendation for this application; and

WHEREAS, the subject site is located on the east side of Seventh Avenue, between West 51st Street and West 52nd Street, partially in a C6-6 zoning district and partially in a C6-5 zoning district, in the Special Midtown District, in Manhattan; and

WHEREAS, the site has approximately 201 feet of frontage along Seventh Avenue, 400 feet of frontage along West 51st Street, 400 feet of frontage along West 52nd Street, 80,000 square feet of lot area and is occupied by a 51-story, with cellar, commercial building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since December 16, 1986, when, under the subject calendar number, the Board granted a special permit to allow the operation of a physical culture establishment (“PCE”) in a portion of the concourse, mezzanine and sub-cellar levels of the subject building for a term of ten (10)

years, expiring December 16, 1996, on condition that the owner comply with the conditions set forth in the conditional negative declaration, that there be no change in ownership or operating control of the PCE without prior application to and approval from the Board, that the hours of operation be limited to 6:30 a.m. to 9:00 p.m., Monday through Friday, 6:30 a.m. to 6:00 p.m., Saturday, and 12:00 p.m. to 6:00 p.m., Sunday and that the conditions appear on the certificate of occupancy; and

WHEREAS, on April 29, 1997, under the subject calendar number, the Board amended the special permit to remove the condition restricting the hours of operation and to reflect the change of ownership and control of the PCE and granted an extension of term for ten (10) years, expiring December 16, 2006, on condition that a new certificate of occupancy be obtained within one (1) year, by April 29, 1998; and

WHEREAS, on February 26, 2008, under the subject calendar number, the Board granted an extension of term for an additional ten (10) years, expiring December 16, 2016, on condition that there be no change in ownership or operating control of the PCE without prior approval from the Board, that the Board’s conditions appear on the certificate of occupancy and that a certificate of occupancy be obtained within one (1) year, by February 26, 2008; and

WHEREAS, the term of the special permit having expired, the applicant now seeks an extension of term; and

WHEREAS, the PCE remains in operation as Athletic & Swim Club with the following hours of operation: 5:30 a.m. to 10:00 p.m., Monday through Thursday, 5:30 a.m. to 9:00 p.m., Friday, and 9:00 a.m. to 5:00 p.m., Saturday and Sunday; and

WHEREAS, in response to questions from the Board, the applicant clarified that the PCE occupies 18,171 square feet of floor space<sup>1</sup> with 11,123 square feet of floor area on the concourse level, 4,255 square feet of floor area on the mezzanine level and 2,793 square feet of floor space in the sub-cellar level, as previously approved by the Board; and

WHEREAS, the Board notes that its determination is subject to and guided by ZR § 73-03; and

WHEREAS, consistent with ZR § 73-03(a), the Board finds that, under the conditions and safeguards imposed, the hazards of disadvantage to the community at large of the special permit are outweighed by the advantages to be derived by the community; and

WHEREAS, as to ZR § 73-03 subsections (b) and (c), the Board finds, respectively, that the subject special permit will not interfere with any public improvement project and that the use will not interfere with the existing street system; and

WHEREAS, the Board notes that ZR § 73-03 subsections (d) and (g) are inapplicable to the subject application; and

WHEREAS, ZR § 73-36 mandates a term not to

---

<sup>1</sup> The Board notes that its prior grant approved 28,350 square feet of floor space, though it appears that this figure may have counted double-height space twice.

# MINUTES

exceed ten (10) years and, thus, pursuant to ZR § 73-03(e), the Board shall establish a term not to extend ten (10) years; and

WHEREAS, the applicant submitted evidence indicating that the PCE is fully sprinklered and that an approved fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—has been installed in the entire PCE space; and

WHEREAS, the applicant also submits that massages provided at the PCE are performed only by New York State licensed massage professionals; and

WHEREAS, consistent with ZR § 73-03(f), the Board finds that the circumstances warranting the original grant still obtain and that the applicant has complied with the conditions and safeguards theretofore described by the Board during the prior term; and

WHEREAS, based upon its review of the record, the Board finds that a ten (10) year extension is appropriate with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated December 16, 1986, as amended through February 26, 2008, so that as amended this portion of the resolution shall read: “to *grant* an extension of term for ten (10) years, expiring December 16, 2026; *on condition* that the use and operation of the physical culture establishment shall substantially conform to drawings filed with this application marked “Received August 7, 2017”-four (4) sheets; and *on further condition*:

THAT the term of this grant shall expire December 16, 2026;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages shall be performed only by New York State licensed massage professionals;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a new certificate of occupancy shall be obtained within one (1) year, by October 31, 2018;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, October 31, 2017.

## 189-96-BZ

APPLICANT – John C. Chen, R.A., for Ping Yee, owner; Club Flamingo, lessee.

SUBJECT – Application October 24, 2016 – Extension of Term for a previously granted Special Permit (§73-244) of a UG12 Eating and Drinking establishment with entertainment and dancing (*Flamingos*) which expires on May 19, 2016; Waiver of the Rules. C2-3/R6 zoning district.

PREMISES AFFECTED – 85-10/12 Roosevelt Avenue, Block 1502, Lot 3, Borough of Queens.

## COMMUNITY BOARD #4Q

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown .....

3

Abstain: Commissioner Sheta.....1

Negative:.....0

**THE RESOLUTION** –

WHEREAS, this an application for a waiver of the Board’s Rules of Practice and Procedure and an extension of term of a special permit, previously granted by the Board, which expired May 19, 2015; and

WHEREAS, a public hearing was held on this application on April 25, 2017, after due notice by publication in *The City Record*, with a continued hearing on July 18, 2017, and then to decision on October 31, 2017; and

WHEREAS, Vice-Chair Chanda performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 4, Queens, recommends approval of this application; and

WHEREAS, the subject site is located on the south side of Roosevelt Avenue, between Forley Street and Elbertson Street, in an R6 (C2-3) zoning district, in Queens; and

WHEREAS, the site has approximately 40 feet of frontage along Roosevelt Avenue, 50 feet of frontage along Forley Street, between 46 and 76 feet of depth, 2,430 square feet of lot area and is occupied by a two-story, with cellar, commercial building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since May 19, 1998, when, under the subject calendar number, the Board granted a special permit to permit the proposed change in use of an existing eating and drinking establishment in Use Group 6 to an eating and drinking establishment with entertainment and dancing in Use Group 12 for a term of three (3) years, expiring May 19, 2001, on condition that, in order to minimize the impacts on the nearby residential uses and ensure compliance with the New York City Noise Code, all windows and doors remain closed during the hours that entertainment and dancing is provided, that all roof-mounted HVAC equipment comply with the New York City Noise Code, that fire prevention measures be provided and maintained in accordance with the Board-approved plans, that patrons not be permitted to wait or congregate outside of the subject site, that garbage pick-up occur between the hours of 7:00 a.m. and 9:00 p.m. and

---

# MINUTES

that parking for a minimum of 35 cars continue to be reserved for patron parking at the parking garage at 86-10 Roosevelt Avenue; and

WHEREAS, on May 14, 2002, under the subject calendar number, the Board granted an extension of term of the special permit for three (3) years, expiring May 19, 2004, on condition that the site be kept clean of debris and graffiti, that all light be pointed away from residential dwellings, that there be no loitering or queuing of customers in front of the site, that there be parking for a minimum of 35 cars reserved for patron parking at the parking garage at 86-10 Roosevelt Avenue, that signs be maintained in accordance with the Board-approved plans, that the above conditions appear on the certificate of occupancy and that a certificate of occupancy be obtained within one year, by May 14, 2003; and

WHEREAS, on June 7, 2005, under the subject calendar number, the Board granted an extension of term of the special permit for three (3) years, expiring May 19, 2007; and

WHEREAS, on July 17, 2007, under the subject calendar number, the Board granted an extension of term of the special permit for three (3) years, expiring June 7, 2011, on condition that the doors fronting on Forley Street be used for emergency egress only and be posted with appropriate signage and that a certificate of occupancy and public assembly permit be obtained within six (6) months, by January 17, 2008; and

WHEREAS, on July 27, 2010, under the subject calendar number, the Board granted an extension of term of the special permit for three (3) years, expiring May 19, 2013, on condition that the term be listed on the certificate of occupancy; and

WHEREAS, on October 22, 2013, under the subject calendar number, the Board granted an extension of term of the special permit for three (3) years, expiring May 19, 2016, on condition that the term be listed on the certificate of occupancy; and

WHEREAS, the term of the special permit having expired, the applicant now seeks an extension of term, and the applicant request a waiver of the Board's Rules and Practice and Procedure to permit the filing of this application; and

WHEREAS, at hearing, the Board questioned the use of the side door, sound attenuation of the windows, trash pickup, hours of operation and the noise output of the HVAC equipment on the roof, the presence of razor wire, dilapidation of the masonry wall and the unsightliness of equipment on the roof; and

WHEREAS, in response, the applicant provided a copy of a current place of assembly permit, proof of noise-reductions measures and evidence that the site has been cleaned up with the installation of a decorative opaque fence concealing equipment on the roof of the building and the removal of razor wire; and

WHEREAS, the Board agrees with the concerns of Community Board 4, Queens, that the doors fronting on Forley Street be used for emergency egress only; and

WHEREAS, the Board notes that its determination is subject to and guided by ZR § 73-03; and

WHEREAS, consistent with ZR § 73-03(a), the Board finds that, under the conditions and safeguards imposed, the hazards of disadvantage to the community at large of the special permit are outweighed by the advantages to be derived by the community; and

WHEREAS, as to ZR § 73-03 subsections (b) and (c), the Board finds, respectively, that the subject special permit will not interfere with any public improvement project and that the use will not interfere with the existing street system; and

WHEREAS, the Board notes that ZR § 73-03 subsections (d) and (g) are inapplicable to the subject application; and

WHEREAS, ZR § 73-244 mandates a term not to exceed three (3) years and, thus, pursuant to ZR § 73-03(e), the Board shall establish a term not to exceed three (3) years; and

WHEREAS, consistent with ZR § 73-03(f), the Board finds that the circumstances warranting the original grant still obtain and that the applicant has complied with the conditions and safeguards theretofore described by the Board during the prior term; and

WHEREAS, based upon its review of the record, the Board finds that a three (3) year extension is appropriate with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and appeals does hereby *waive* its Rules of Practice and Procedure and *reopen* and *amend* the resolution, dated May 19, 1999, as amended through October 22, 2013, so that as amended this portion of the resolution shall read: "to *grant* an extension of term for three (3) years, expiring May 19, 2019; *on condition* that all work shall substantially conform to the drawings filed with this application and marked "Received October 24, 2017"- Five (5) sheets; and *on further condition*:

THAT the term of this grant shall expire May 19, 2019;

THAT the doors fronting on Forley Street shall be used for emergency egress only and shall be posted with appropriate signage;

THAT the site shall be kept clean of debris and graffiti;

THAT all graffiti, if any occurs, shall be removed immediately;

THAT planting, fencing and masonry shall be maintained in good condition;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy and public assembly permit shall be obtained within one (1) year, by October 31, 2018;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

# MINUTES

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, October 31, 2017.

## 104-15-BZ

APPLICANT – Rosenberg & Estis, P.C./Frank E. Chaney, Esq., for 4452 Broadway Mazal LLC, owner.

SUBJECT – Application May 12, 2015 – Variance (§72-21) to permit the development of a mixed-use residential building with retail contrary to underlying bulk and use regulations. R7-2 zoning district with C2-4 overlay.

PREMISES AFFECTED – 4452 Broadway (aka 44-90 Fairview Avenue), Block 2170, Lot(s) 62, 400, Borough of Manhattan.

## COMMUNITY BOARD #12M

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4  
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a rehearing, pursuant to Section 1-12.5 of the Board’s Rules of Practice and Procedure, of a variance application that the Board previously dismissed for lack of prosecution; and

WHEREAS, a public hearing was held on this application on October 31, 2017, after due notice by publication in *The City Record*, and then to decision on that date; and

WHEREAS, the subject site is located on the southeast corner of Broadway and Fairview Avenue, partially within an R7-2 (C2-4) zoning district and partially within an R7-2 zoning district, in Manhattan; and

WHEREAS, the site has approximately 75 feet of frontage along Broadway, 303 feet of frontage along Fairview Avenue and 24,280 square feet of lot area; and

WHEREAS, the applicant represents that Lot 62 is currently occupied by a one-story commercial building and Lot 400 is currently vacant; and

WHEREAS, the Board has exercised jurisdiction over the subject tax lots since December 6, 1960, when, under BSA Cal. No. 502-60-BZ, the Board granted a variance to permit the maintenance of a parking lot for the parking and storage of more than five motor vehicles for a term of five (5) years, expiring December 6, 1965; and

WHEREAS, on February 1, 1966, April 6, 1971, January 20, 1976, December 16, 1980, and May 20, 1986, under BSA Cal. No. 502-60-BZ, the Board granted five (5) year extensions of the term of the variance five (5) years, the latest of which

expired January 20, 1991; and

WHEREAS, on February 9, 1988, and June 19, 1990, under BSA Cal. No. 502-60-BZ, the Board granted one (1) year extensions of time to obtain a certificate of occupancy, the latest of which expired on May 20, 1988; and

WHEREAS, on January 28, 1992, and February 26, 2002, under BSA Cal. No. 502-60-BZ, the Board granted ten (10) year extensions of the variance, the latest of which expired January 20, 2011; and

WHEREAS, on May 12, 2015, an application was made under the subject calendar number for a variance pursuant to ZR § 72-21 permitting the construction of a 16-story mixed-use commercial and residential building contrary to ZR §§ 23-145 (maximum FAR for Quality Housing buildings), 23-22 (maximum number of dwelling units), 23-633 (street wall location and height and setback regulations), 25-23 (parking requirements where group parking facilities are provided), 32-421 (limitation on floors occupied by commercial uses), 35-24 (special street wall location and height and setback regulations in certain districts), 35-40 (applicability of density regulations) and 36-62 (required accessory off-street loading berths); and

WHEREAS, on July 25, 2017, the Board dismissed the application for lack of prosecution due to the repeated failure of the applicant and its representatives to appear at hearings and submit materials in support of the application, details of which are memorialized in the July 25, 2017, resolution issued under this calendar number; and

WHEREAS, Section 1-12.5 of the Board’s Rules of Practice and Procedure, which reads, in pertinent part:

The Board will not grant a request to rehear a case which was denied, dismissed, or withdrawn with prejudice unless: (1) substantial new evidence is submitted that was not available at the time of the initial hearing, (2) there is a material change in plans or circumstances, or (3) an application is filed under a different jurisdictional provision of the law; and

WHEREAS, accordingly, the applicant asserts that there has been a material change in plans since the Board’s dismissal of the variance application, to wit, the applicant now proposes a 14-story mixed-use commercial and residential building with rental residential units (in the former iteration, the residential units were condominium units) and 60 affordable housing units contrary to ZR §§ 23-153 (maximum FAR for Quality Housing buildings), 23-22 (maximum number of dwelling units), 23-662 (maximum height of buildings and setback regulations) and 25-23 (parking requirements where group parking facilities are provided); the applicant additionally provided a new engineering report in support of ZR § 72-21(a); and

WHEREAS, the Board has reviewed the record and determined that the applicant has provided sufficient evidence of a material change in plans or circumstances to justify a rehearing; and

*Therefore, it is Resolved*, that this application for rehearing of BSA Cal. No. 104-15-BZ is granted.

Adopted by the Board of Standards and Appeals, October 31, 2017.

## APPEALS CALENDAR

### 2016-1186-A thru 2016-1207-A

APPLICANT – Rothkrug Rothkrug & Spector LLP, for Airport Park LLC, owner.

SUBJECT – Application January 12, 2016 – Proposed construction of a two-story, two-family building, contrary to General City Law Section 35. R1-1 zoning district.

PREMISES AFFECTED – 145-25 to 147-21A Hook Creek Boulevard, Block 13633, Lot(s) 27, 28, 29, 30, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, Borough of Queens.

### COMMUNITY BOARD #13Q

**ACTION OF THE BOARD** – Laid over to January 9, 2018, at 10 A.M., for continued hearing.

### 2016-4268-A

APPLICANT – Tarter Krinsky & Drogin LLP, for Shurgard Storage Centers, Inc., owners.

SUBJECT – Application October 11, 2016 – Appeal from Department of Buildings determination that a sign is not entitled to con-conforming use status as advertising sign at the existing size and height.

PREMISES AFFECTED – 30 Prince Street aka 265-269 Gold Street, Block 122, Lot 10, Borough of Brooklyn.

### COMMUNITY BOARD #2BK

**ACTION OF THE BOARD** – Laid over to January 9, 2018, at 10 A.M., for adjourned hearing.

### 2016-4330-A & 2016-4331-A

APPLICANT – Eric Palatnik, P.C., for 1671 Hylan Blvd. LLC, owner.

SUBJECT – Application November 14, 2016 – To permit the proposed development of a one family home, contrary to Article 3 Section 36 of the General City Law. R3X zoning district.

PREMISES AFFECTED – 16 & 19 Tuttle Street, Block 1481, Lot(s) 96 and 300, Borough of Staten Island

### COMMUNITY BOARD #1SI

**ACTION OF THE BOARD** – Laid over to January 9, 2018, at 10 A.M., for continued hearing.

### 2017-30-A

APPLICANT – Eric Palatnik, P.C., for 1671 Hylan Boulevard LLC, owner.

SUBJECT – Application January 27, 2017 – To permit the proposed development of a one family home, contrary to Article 3 Section 36 of the General City Law. R3X zoning district.

PREMISES AFFECTED – 16 Garage Tuttle Street, Block 1481, Lot 96, Borough of Staten Island.

### COMMUNITY BOARD #1SI

**ACTION OF THE BOARD** – Laid over to January 9, 2018, at 10 A.M., for continued hearing.

### 2017-226-A

APPLICANT – Eric Palatnik, P.C., for 1671 Hylan Boulevard, LLC, owner.

SUBJECT – Application July 11, 2017 – Proposed construction of a one-family home not fronting a legally mapped street contrary to General City Law 36. R3X zoning district.

PREMISES AFFECTED – 18 Tuttle Street, Block 1481, Lot 92, Borough of Staten Island.

### COMMUNITY BOARD # 1SI

**ACTION OF THE BOARD** – Laid over to January 9, 2018, at 10 A.M., for continued hearing.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3  
Abstain: Commissioner Sheta.....1  
Negative: .....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated November 24, 2014, acting on Alteration Application No. 320626961, reads in pertinent part:

“Proposed enlargement of an existing building Use Group 6 requires an increase in parking spaces as per ZR 36-20”; and

WHEREAS, this is an application under ZR §§ 73-44 and 73-03 to permit, on a site partially in an R4 (C2-2) zoning district and partially in an R4 zoning district, a reduction in the number of off-street accessory parking spaces for ambulatory diagnostic or treatment facilities listed in Use Group (“UG”) 4 and for uses in parking requirement category B1, contrary to ZR § 36-20; and

WHEREAS, a public hearing was held on this application on February 28, 2017, after due notice by publication in *The City Record*, with continued hearings on April 4, 2017, June 20, 2017, and August 22, 2017, and then

# MINUTES

to decision on October 31, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of Nostrand Avenue, between Avenue Y and Avenue Z, partially in an R4 (C2-2) zoning district and partially in an R4 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 700 feet of frontage along Nostrand Avenue, 105 feet of frontage along Avenue Y, 121 feet of frontage along Avenue Z, 75,300 square feet of lot area and is occupied by five existing buildings used for commercial and community-facility uses; and

WHEREAS, this application concerns the two-story mixed-use building located at 3848–3850 Nostrand Avenue (“Building 2”) and the two-story, with cellar, mixed-use building located at 3806 Nostrand Avenue (“Building 4”); and

WHEREAS, the Board has exercised jurisdiction over the subject site since April 8, 1986, when, under BSA Calendar Number 791-85-BZ, the Board granted a special permit to allow a physical culture establishment in Building 2 for a term of ten (10) years; however, the special permit has since expired, and the physical culture establishment is no longer in operation; and

WHEREAS, the applicant seeks a reduction in the number of off-street accessory parking spaces for Building 2 and Building 4, which have a total of 29,843 square feet of floor area used for UG 4 ambulatory diagnostic or treatment facilities and UG 6 and UG 9 commercial uses in parking requirement category B1; and

WHEREAS, the applicant represents that, under ZR § 36-21, 99 required parking spaces are eligible for reduction in Building 2 and Building 4, calculated at a rate of one space per 300 square feet of floor area; however, the applicant seeks to provide 50 parking spaces, 49 fewer spaces than required; and

WHEREAS, ZR § 73-44 provides:

In the districts indicated, the Board of Standards and Appeals may permit a reduction in the number of *accessory* off-street parking spaces required by the provisions of Section 36-21 or 44-21 (General Provisions) for ambulatory diagnostic or treatment facilities listed in Use Group 4 and *uses* in parking requirement category B1 in Use Group 6, 7, 8, 9, 10, 11, 14 or 16 to the applicable number of spaces specified in the table set forth at the end of this Section, provided that the Board finds that occupancy by ambulatory diagnostic or treatment facilities listed in Use Group 4 or *uses* in parking category B1 is contemplated in good faith on the basis of evidence submitted by the applicant. In such a case the Board shall require that the certificate of occupancy issued for the

*building* within which such *use* is located shall state that no certificate of occupancy shall thereafter be issued if the *use* is changed to a *use* listed in parking category B unless additional *accessory* off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius.

REDUCED ACCESSORY OFF-STREET  
PARKING SPACES REQUIRED FOR  
AMBULATORY DIAGNOSTIC  
OR TREATMENT FACILITIES LISTED IN  
USE GROUP 4 AND  
COMMERCIAL USES IN PARKING  
REQUIREMENT CATEGORY B1

Parking Spaces Required Per Number of Square Feet on <i>Floor Area</i> *	Districts

1 per 600	C1-2 C2-2 C4-2 C8-1 M1-1 M1-2 M1-3 M2-1 M2-2 M3-1
1 per 800	C1-3 C2-3 C4-3 C7 C8-2

\* For ambulatory diagnostic or treatment facilities listed in Use Group 4, parking spaces required for number of square feet of *floor area* or *cellar space*, except *cellar space used* for storage; and

WHEREAS, pursuant to ZR § 73-44, the Board may reduce the required parking for UG 4 ambulatory diagnostic or treatment facilities and UG 6 and UG 9 commercial uses in parking requirement category B1 from one space per 300 square feet of floor area to one space per 600 square feet of floor area, provided that the Board finds that such occupancy is contemplated in good faith; and

WHEREAS, the applicant submitted evidence indicating that the owner is currently marketing vacant space in Building 2 and Building 4 for office use and that said buildings will be occupied by the proposed uses; and

WHEREAS, the applicant further represents that any certificate of occupancy for the building will state that no subsequent certificate of occupancy may be issued if the UG 4 ambulatory diagnostic or treatment facilities and UG 6 and UG 9 commercial uses in parking requirement category B1 are changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius; and

WHEREAS, the Board finds the applicant’s representations credible and that the applicant has submitted sufficient evidence of good faith in maintaining the proposed UG 4 ambulatory diagnostic or treatment facilities and UG 6 and UG 9 commercial uses at the site; and

WHEREAS, the Board notes that its determination is also subject to and guided by, among other things, ZR §§ 73-01 through 73-04, inclusive; and

WHEREAS, the Board directed the applicant to demonstrate that the application satisfies ZR § 73-03(a), specifically, to provide information as to how the proposed

---

# MINUTES

---

reduction in required accessory off-street parking spaces will impact the surrounding community; and

WHEREAS, in response, the applicant submitted a parking study demonstrating that the maximum demand for parking generated by the proposed UG 4 ambulatory diagnostic or treatment facilities and UG 6 and UG 9 commercial uses at the site will be 49 spaces during the peak hours of demand, weekdays from 10:00 a.m. to 11:00 a.m., and that such demand can be accommodated by the proposed on-site parking spaces available during peak demand; and

WHEREAS, the parking study also notes that the subject site will provide an additional 27 off-street parking spaces that are not the subject of this application, for a total of 77 parking spaces at the subject site, and presents an on-street parking survey finding that there are approximately 46 one-street parking spaces along Nostrand Avenue adjacent to the subject site; and

WHEREAS, at hearing, the Board questioned the prominence of on-site signage indicating parking availability, maintenance of the subject site at the rear and whether fees might affect off-street parking demand at the subject site; and

WHEREAS, in response, the applicant provided evidence of redesigned signage, power washing, repainting and tidying up of the site, amended the drawings to reflect fencing, a guardrail and landscaping to screen the subject site from adjacent residences and submits that one hour of on-site parking will be provided at no cost to visitors of the subject site; and

WHEREAS, accordingly, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of parking regulations is outweighed by the advantages to be derived by the community; and

WHEREAS, the applicant represents that the parking modification will not interfere with any public improvement project; and

WHEREAS, based upon its review of the record, the Board concludes that the findings required under ZR §§ 73-44 and 73-03 have been met; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 15BSA124K, dated April 26, 2017; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, by communication dated May 30, 2017, the New York City Department of City Planning (“DCP”) Waterfront and Open Space Division states that it completed review of the project for consistency with the policies and intent of the New York City Waterfront Revitalization Program (“WRP”) under WRP # 16-181 and finds that the action will not substantially hinder the achievement of any WRP policy and is consistent with the WRP policies; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the requisite findings to be made under ZR §§ 73-44 and 73-03 and that the applicant had substantiated a basis to warrant exercise of discretion to grant.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *issue* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR §§ 73-44 and 73-03 to *permit*, on a site partially in an R4 (C2-2) zoning district and partially in an R4 zoning district, a reduction in the number of off-street accessory parking spaces for ambulatory diagnostic or treatment facilities listed in Use Group 4 and for Use Group 6 and Use Group 9 commercial uses in parking requirement category B1, contrary to ZR § 36-20; *on condition* that all work and site conditions shall substantially conform to the drawings filed with this application marked “Received October 30, 2017”-Sixteen (16) sheets; and *on further condition*:

THAT one hour of parking shall be provided at no cost to patrons of the subject site;

THAT fencing, guardrails, asphalt, signage and buildings shall be maintained in good condition;

THAT no certificate of occupancy shall hereafter be issued if the ambulatory diagnostic or treatment facilities listed in Use Group 4 or uses in parking requirement category B1 are changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius;

THAT the above conditions shall be noted on the certificates of occupancy;

THAT certificates of occupancy shall be obtained within four (4) years, by October 31, 2021;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure

## 2016-4136-BZ

### CEQR #16-BSA-090Q

APPLICANT – Sheldon Lobel, P.C., for Astoria Warehouse Enterprises, Inc., owner.

SUBJECT – Application March 15, 2016 – Special Permit (§73-44) to allow the reduction of required parking for the use group 4 ambulatory diagnostic treatment healthcare facility. M1-1 zoning district.

PREMISES AFFECTED – 19-59 & 19-61 49<sup>th</sup> Street, Block 755, Lot(s) 5 and 6; Borough of Queens.

### COMMUNITY BOARD #1Q

**ACTION OF THE BOARD** – Application granted on condition.

#### THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Abstain: Commissioner Sheta.....1

Negative: .....0

WHEREAS, the decision of the Department of Buildings (“DOB”), dated February 12, 2016, acting on New Building Application No. 401702788, reads in pertinent part:

“Respectfully request to waive parking requirement for ambulatory diagnostic office contrary to ZR 44-21”; and

WHEREAS, this is an application under ZR §§ 73-44 and 73-03 to permit, in an M1-1 zoning district, a reduction in the number of off-street accessory parking spaces for ambulatory diagnostic or treatment facilities listed in Use Group (“UG”) 4 and for uses in parking requirement category B1, contrary to ZR § 44-21; and

WHEREAS, a public hearing was held on this application on January 24, 2017, after due notice by publication in *The City Record*, with continued hearings on June 6, 2017, and August 15, 2017, and then to decision on October 31, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown, former Vice-Chair Hinkson and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 1, Queens, recommends approval of this application on condition that the applicant attempt to occupy the building with a use that has a parking requirement lower than medical offices, that the applicant should install mechanical parking lifts where possible within the enclosed attendant parking area to increase the number of off-street spaces, that a term of five (5) years should be imposed if medical offices are approved, that the term should be limited to five (5) years to assess the development’s impact, that a patient parking fee should be

waived, that the applicant should request that the New York City Department of Transportation place angled parking along the west side of 49th Street, that the plans should be revised to meet accessibility requirements and that on-street parking spaces not be used for attended parking; and

WHEREAS, Council Member Costa Constantinides submitted testimony in support of this application, stating that there are many parking spaces available on the streets surrounding the subject site and that the minimum reduction of parking spaces will not have a negative impact on the community; and

WHEREAS, the subject site is located on the east side of 49th Street, between 19th Avenue and 20th Avenue, in an M1-1 zoning district, in Queens; and

WHEREAS, the site has approximately 50 feet of frontage along 49th Street, 100 feet of depth, 2,500 square feet of lot area and is occupied by a four-story community-facility building designed as a house of worship; and

WHEREAS, the applicant proposed to convert the subject building to UG 4 ambulatory diagnostic or treatment facilities, which became permitted uses in the subject zoning district in 2011 after construction of the subject building, and for UG 6 commercial uses in parking requirement category B1; and

WHEREAS, the applicant represents that, under ZR § 44-21, 38 parking spaces are required, calculated at a rate of one parking space per 300 square feet of floor area; however, the applicant seeks to provide 32 parking spaces, 6 fewer spaces than required; and

WHEREAS, ZR § 73-44 provides:

In the districts indicated, the Board of Standards and Appeals may permit a reduction in the number of *accessory* off-street parking spaces required by the provisions of Section 36-21 or 44-21 (General Provisions) for ambulatory diagnostic or treatment facilities listed in Use Group 4 and *uses* in parking requirement category B1 in Use Group 6, 7, 8, 9, 10, 11, 14 or 16 to the applicable number of spaces specified in the table set forth at the end of this Section, provided that the Board finds that occupancy by ambulatory diagnostic or treatment facilities listed in Use Group 4 or *uses* in parking category B1 is contemplated in good faith on the basis of evidence submitted by the applicant. In such a case the Board shall require that the certificate of occupancy issued for the *building* within which such *use* is located shall state that no certificate of occupancy shall thereafter be issued if the *use* is changed to a *use* listed in parking category B unless additional *accessory* off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius.

REDUCED ACCESSORY OFF-STREET

## COMMERCIAL USES IN PARKING REQUIREMENT CATEGORY B1

Parking Spaces Required Per Number of Square Feet on <i>Floor Area</i> *	Districts
1 per 400	C1-1 C2-1 C3 C4-1
1 per 600	C1-2 C2-2 C4-2 C8-1 M1-1 M1-2 M1-3 M2-1 M2-2 M3-1
1 per 800	C1-3 C2-3 C4-3 C7 C8-2

\* For ambulatory diagnostic or treatment facilities listed in Use Group 4, parking spaces required for number of square feet of *floor area* or *cellar space*, except *cellar space used* for storage; and

WHEREAS, under ZR § 73-44, the Board may reduce the required parking for UG 4 ambulatory diagnostic or treatment facilities and UG 6 commercial uses in parking requirement category B1 from one space per 300 square feet of floor area to one space per 600 square feet of floor area, provided that the Board finds that such occupancy is contemplated in good faith; and

WHEREAS, the applicant submitted an affidavit indicating that the subject building would be limited to occupancy for UG 4 ambulatory diagnostic or treatment facilities and UG 6 commercial uses in parking requirement category B1; and

WHEREAS, the applicant further states that any certificate of occupancy for the building will state that no subsequent certificate of occupancy may be issued if the UG 4 ambulatory diagnostic or treatment facilities and UG 6 commercial uses in parking requirement category B1 are changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius; and

WHEREAS, the Board finds the affidavit submitted credible and finds that the applicant has submitted sufficient evidence of good faith in maintaining the proposed UG 4 ambulatory diagnostic or treatment facilities and UG 6 commercial uses in parking requirement category B1 at the site; and

WHEREAS, the Board notes that its determination is also subject to and guided by, among other things, ZR §§ 73-01 through 73-04, inclusive; and

WHEREAS, the Board directed the applicant to demonstrate that the application satisfies ZR § 73-03(a), specifically, to provide information as to how the proposed reduction in required accessory off-street parking spaces will impact the surrounding community; and

\* WHEREAS, in response, the applicant submitted a parking study demonstrating that the maximum demand for parking generated by the proposed UG 4 ambulatory diagnostic or treatment facilities and UG 6 commercial uses at the site will be 57 spaces during the peak hours of demand, weekdays from 10:00 a.m. to 11:00 a.m., and that such demand can be accommodated by the proposed on-site parking spaces available during peak demand and available

on-street parking spaces; and

WHEREAS, the applicant also surveyed the surrounding area and noted that, within a one-quarter mile radius (approximately a five-minute walking distance), there were a minimum of 364 parking spaces available on-street in the neighborhood between 8:00 a.m. and 6:00 p.m.; and

WHEREAS, in response to questions from the Board, the applicant provided additional information demonstrating that no additional parking spaces could be provided on-site given the building footprint and interior constraints and that angled parking would not be necessary because of the availability of on-street parking in the area and also amended the drawings to reflect accessibility; and

WHEREAS, the applicant also revised this application to reduce the requested parking reduction from 12 spaces to 6 parking spaces and added additional off-street parking; and

WHEREAS, the applicant also notes that, due to factors beyond the owner's control, the subject building could not be used by the house of worship it was originally designed to accommodate; and

WHEREAS, the Board finds no appropriate basis in the record to impose a term in light of the fact that the applicant is requesting a reduction of 6 spaces for the subject building and that the applicant proposes to install mechanical parking lifts where possible within the enclosed attendant parking area to increase the number of off-street spaces as much as feasible; and

WHEREAS, accordingly, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of parking regulations is outweighed by the advantages to be derived by the community; and

WHEREAS, the applicant represents that the parking modification will not interfere with any public improvement project; and

WHEREAS, based upon its review of the record, the Board concludes that the findings required under ZR §§ 73-44 and 73-03 have been met; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 16BSA090Q, dated July 25, 2017; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact

Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the requisite findings to be made under ZR §§ 73-44 and 73-03 and that the applicant had substantiated a basis to warrant exercise of discretion to grant.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *issue* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR §§ 73-44 and 73-03 to *permit*, in an M1-1 zoning district, a reduction in the number of off-street accessory parking spaces for ambulatory diagnostic or treatment facilities listed in Use Group 4 and for Use Group 6 commercial uses in parking requirement category B1, contrary to ZR § 44-21; *on condition* that all work and site conditions shall substantially conform to the drawings filed with this application marked “Received July 26, 2017”-Ten (10) sheets; and *on further condition*:

THAT no certificate of occupancy shall hereafter be issued if the ambulatory diagnostic or treatment facilities listed in Use Group 4 or uses in parking requirement category B1 are changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius;

THAT the above conditions shall be noted on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by October 31, 2021;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 31, 2017.

## 2016-4137-BZ

### CEQR #16-BSA-090Q

APPLICANT – Sheldon Lobel, P.C., for Astoria Warehouse Enterprises, Inc., owner.

SUBJECT – Application March 15, 2016 – Special Permit (§73-44) to allow the reduction of required parking for the use group 4 ambulatory diagnostic treatment healthcare facility. M1-1 zoning district.

PREMISES AFFECTED – 19-55 & 19-57 49<sup>th</sup> Street, Block 755, Lot(s) 7 & 8, Borough of Queens.

### COMMUNITY BOARD #1Q

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Abstain: Commissioner Sheta.....1

Negative: .....0

WHEREAS, the decision of the Department of Buildings (“DOB”), dated February 12, 2016, acting on New Building Application No. 401701583, reads in pertinent part:

“Respectfully request to waive parking requirement for ambulatory diagnostic office contrary to ZR 44-21”; and

WHEREAS, this is an application under ZR §§ 73-44 and 73-03 to permit, in an M1-1 zoning district, a reduction in the number of off-street accessory parking spaces for ambulatory diagnostic or treatment facilities listed in Use Group (“UG”) 4 and for uses in parking requirement category B1, contrary to ZR § 44-21; and

WHEREAS, a public hearing was held on this application on January 24, 2017, after due notice by publication in *The City Record*, with continued hearings on June 6, 2017, and August 15, 2017, and then to decision on October 31, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown, former Vice-Chair Hinkson and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 1, Queens, recommends approval of this application on condition that the applicant attempt to occupy the building with a use that has a parking requirement lower than medical offices, that the applicant should install mechanical parking lifts where possible within the enclosed attendant parking area to increase the number of off-street spaces, that a term of five (5) years should be imposed if medical offices are approved, that the term should be limited to five (5) years to assess the development’s impact, that a patient parking fee should be waived, that the applicant should request that the New York City Department of Transportation place angled parking along the west side of 49th Street, that the plans should be revised to meet accessibility requirements and that on-street parking spaces not be used for attended parking; and

WHEREAS, Council Member Costa Constantinides submitted testimony in support of this application, stating that there are many parking spaces available on the streets

# MINUTES

surrounding the subject site and that the minimum reduction of parking spaces will not have a negative impact on the community; and

WHEREAS, the subject site is located on the east side of 49th Street, between 19th Avenue and 20th Avenue, in an M1-1 zoning district, in Queens; and

WHEREAS, the site has approximately 50 feet of frontage along 49th Street, 100 feet of depth, 2,500 square feet of lot area and is occupied by a four-story community-facility building designed as a house of worship; and

WHEREAS, the applicant proposed to convert the subject building to UG 4 ambulatory diagnostic or treatment facilities, which became permitted uses in the subject zoning district in 2011 after construction of the subject building, and for UG 6 commercial uses in parking requirement category B1; and

WHEREAS, the applicant represents that, under ZR § 44-21, 38 parking spaces are required, calculated at a rate of one parking space per 300 square feet of floor area; however, the applicant seeks to provide 32 parking spaces, 6 fewer spaces than required; and

WHEREAS, ZR § 73-44 provides:

In the districts indicated, the Board of Standards and Appeals may permit a reduction in the number of *accessory* off-street parking spaces required by the provisions of Section 36-21 or 44-21 (General Provisions) for ambulatory diagnostic or treatment facilities listed in Use Group 4 and *uses* in parking requirement category B1 in Use Group 6, 7, 8, 9, 10, 11, 14 or 16 to the applicable number of spaces specified in the table set forth at the end of this Section, provided that the Board finds that occupancy by ambulatory diagnostic or treatment facilities listed in Use Group 4 or *uses* in parking category B1 is contemplated in good faith on the basis of evidence submitted by the applicant. In such a case the Board shall require that the certificate of occupancy issued for the *building* within which such *use* is located shall state that no certificate of occupancy shall thereafter be issued if the *use* is changed to a *use* listed in parking category B unless additional *accessory* off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius.

REDUCED ACCESSORY OFF-STREET  
PARKING SPACES REQUIRED FOR  
AMBULATORY DIAGNOSTIC  
OR TREATMENT FACILITIES LISTED IN  
USE GROUP 4 AND  
COMMERCIAL USES IN PARKING  
REQUIREMENT CATEGORY B1

Parking Spaces Required Per Number of Square Feet on <i>Floor Area</i> *	Districts
1 per 400	C1-1 C2-1 C3 C4-1
1 per 600	C1-2 C2-2 C4-2 C8-1 M1-1 M1-2 M1-3

M2-1 M2-2 M3-1  
1 per 800 C1-3 C2-3 C4-3 C7 C8-2

\* For ambulatory diagnostic or treatment facilities listed in Use Group 4, parking spaces required for number of square feet of *floor area* or *cellar space*, except *cellar space used* for storage; and

WHEREAS, under ZR § 73-44, the Board may reduce the required parking for UG 4 ambulatory diagnostic or treatment facilities and UG 6 commercial uses in parking requirement category B1 from one space per 300 square feet of floor area to one space per 600 square feet of floor area, provided that the Board finds that such occupancy is contemplated in good faith; and

WHEREAS, the applicant submitted an affidavit indicating that the subject building would be limited to occupancy for UG 4 ambulatory diagnostic or treatment facilities and UG 6 commercial uses in parking requirement category B1; and

WHEREAS, the applicant further states that any certificate of occupancy for the building will state that no subsequent certificate of occupancy may be issued if the UG 4 ambulatory diagnostic or treatment facilities and UG 6 commercial uses in parking requirement category B1 are changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius; and

WHEREAS, the Board finds the affidavit submitted credible and finds that the applicant has submitted sufficient evidence of good faith in maintaining the proposed UG 4 ambulatory diagnostic or treatment facilities and UG 6 commercial uses in parking requirement category B1 at the site; and

WHEREAS, the Board notes that its determination is also subject to and guided by, among other things, ZR §§ 73-01 through 73-04, inclusive; and

WHEREAS, the Board directed the applicant to demonstrate that the application satisfies ZR § 73-03(a), specifically, to provide information as to how the proposed reduction in required accessory off-street parking spaces will impact the surrounding community; and

\* WHEREAS, in response, the applicant submitted a parking study demonstrating that the maximum demand for parking generated by the proposed UG 4 ambulatory diagnostic or treatment facilities and UG 6 commercial uses at the site will be 57 spaces during the peak hours of demand, weekdays from 10:00 a.m. to 11:00 a.m., and that such demand can be accommodated by the proposed on-site parking spaces available during peak demand and available on-street parking spaces; and

WHEREAS, the applicant also surveyed the surrounding area and noted that, within a one-quarter mile radius (approximately a five-minute walking distance), there were a minimum of 364 parking spaces available on-street in the neighborhood between 8:00 a.m. and 6:00 p.m.; and

WHEREAS, in response to questions from the Board, the applicant provided additional information demonstrating

---

# MINUTES

---

that no additional parking spaces could be provided on-site given the building footprint and interior constraints and that angled parking would not be necessary because of the availability of on-street parking in the area and also amended the drawings to reflect accessibility; and

WHEREAS, the applicant also revised this application to reduce the requested parking reduction from 12 spaces to 6 parking spaces and added additional off-street parking; and

WHEREAS, the applicant also notes that, due to factors beyond the owner's control, the subject building could not be used by the house of worship it was originally designed to accommodate; and

WHEREAS, the Board finds no appropriate basis in the record to impose a term in light of the fact that the applicant is requesting a reduction of 6 spaces for the subject building and that the applicant proposes to install mechanical parking lifts where possible within the enclosed attendant parking area to increase the number of off-street spaces as much as feasible; and

WHEREAS, accordingly, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of parking regulations is outweighed by the advantages to be derived by the community; and

WHEREAS, the applicant represents that the parking modification will not interfere with any public improvement project; and

WHEREAS, based upon its review of the record, the Board concludes that the findings required under ZR §§ 73-44 and 73-03 have been met; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 16BSA090Q, dated July 25, 2017; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the requisite findings to be made under ZR §§ 73-44 and 73-03 and that the applicant had substantiated a basis to warrant exercise of

discretion to grant.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *issue* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR §§ 73-44 and 73-03 to *permit*, in an M1-1 zoning district, a reduction in the number of off-street accessory parking spaces for ambulatory diagnostic or treatment facilities listed in Use Group 4 and for Use Group 6 commercial uses in parking requirement category B1, contrary to ZR § 44-21; *on condition* that all work and site conditions shall substantially conform to the drawings filed with this application marked "Received July 26, 2017"-Ten (10) sheets; and *on further condition*:

THAT no certificate of occupancy shall hereafter be issued if the ambulatory diagnostic or treatment facilities listed in Use Group 4 or uses in parking requirement category B1 are changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius;

THAT the above conditions shall be noted on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by October 31, 2021;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 31, 2017.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated October 26, 2016, acting on New Building Application No. 321195764, reads in pertinent part:

“Proposed number of accessory parking spaces for the proposed building is less than required pursuant to ZR 44-21”; and

WHEREAS, this is an application under ZR §§ 73-44 and 73-03 to permit, in an M1-2 zoning district, a reduction in the number of accessory off-street parking spaces for offices in parking category B1 in Use Group (“UG”) 6, contrary to ZR § 44-21; and

WHEREAS, a public hearing was held on this application on August 8, 2017, after due notice by publication in *The City Record*, and then to decision on October 31, 2017; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 6, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the northeast corner of Nevins Street and Carroll Street, in an M1-2 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 50 feet of frontage along Nevins Street, 82 feet of frontage along Carroll Street, 4,100 square feet of lot area and is vacant; and

WHEREAS, the applicant proposes to construct a two-story, with mezzanine and cellar, commercial building with 8,108 square feet of floor area to be used as UG 6 offices; and

WHEREAS, the applicant represents that, under ZR § 44-21, 27 parking spaces are required, calculated at a rate of one parking space per 300 square feet of floor area; however, the applicant seeks to provide 14 parking spaces, 13 fewer spaces than required; and

WHEREAS, ZR § 73-44 provides:

In the districts indicated, the Board of Standards and Appeals may permit a reduction in the number of *accessory* off-street parking spaces required by the provisions of Section 36-21 or 44-21 (General Provisions) for ambulatory diagnostic or treatment facilities listed in Use Group 4 and *uses* in parking requirement category B1 in Use Group 6, 7, 8, 9, 10, 11, 14 or 16 to the applicable number of spaces specified in the table set forth at the end of this Section, provided that the Board finds that occupancy by ambulatory diagnostic or treatment facilities listed in Use Group 4 or *uses* in parking category B1 is contemplated in good faith on the basis of evidence submitted by the applicant. In such a case the Board shall require that the certificate of occupancy issued for the

*building* within which such *use* is located shall state that no certificate of occupancy shall thereafter be issued if the *use* is changed to a *use* listed in parking category B unless additional *accessory* off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius.

REDUCED ACCESSORY OFF-STREET

WHEREAS, the Board notes that its determination is also subject to and guided by, among other things, ZR §§ 73-01 through 73-04, inclusive; and

WHEREAS, the Board directed the applicant to demonstrate that the application satisfies ZR § 73-03(a), specifically, to provide information as to how the proposed reduction in required accessory off-street parking spaces will impact the surrounding community; and

WHEREAS, in response, the applicant submitted a parking study demonstrating that the maximum demand for parking generated by the proposed UG 6 offices at the site will be 11 spaces during the peak hours of demand,

---

# MINUTES

---

weekdays between 9:00 a.m. and 4:00 p.m., and that such demand can be accommodated by the proposed on-site parking spaces available during peak demand; and

WHEREAS, the parking study also presents an on-street parking survey concluding that, during periods of peak demand, there are 37 off-street spaces available within a one-quarter mile radius—a walking distance of approximately five minutes—for a utilization rate of 22 percent within the parking study area; and

WHEREAS, in response to questions from the Board at hearing, the applicant submitted an operational plan and verified compliance with accessibility requirements for people with disabilities; and

WHEREAS, accordingly, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of parking regulations is outweighed by the advantages to be derived by the community; and

WHEREAS, the applicant represents that the parking modification will not interfere with any public improvement project; and

WHEREAS, based upon its review of the record, the Board concludes that the findings required under ZR §§ 73-44 and 73-03 have been met; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 17BSA042K, dated October 25, 2017; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, the Board referred this application to the New York City Landmarks Preservation Commission, which waived its recommendation; and

WHEREAS, by communication dated October 23, 2017 the New York City Department of City Planning (“DCP”) Waterfront and Open Space Division states that it completed review of the project for consistency with the policies and intent of the New York City Waterfront Revitalization Program (“WRP”) under WRP # 17-017 and finds that the action will not substantially hinder the achievement of any WRP policy and is consistent with the WRP policies; and

WHEREAS, the Board recommends that an (E) designation for hazardous materials be placed on the site as part of the approval; and

WHEREAS, the (E) designation requires an environmental review by the New York City Office of

Environmental Remediation (“OER”) which must be satisfied before DOB will issue building permits at the subject site; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the requisite findings to be made under ZR §§ 73-44 and 73-03 and that the applicant had substantiated a basis to warrant exercise of discretion to grant.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *issue* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR §§ 73-44 and 73-03 to *permit*, a reduction in the number of accessory off-street parking spaces for offices in parking category B1 in Use Group 6 from 27 parking spaces to 14 parking spaces; *on condition* that all work and site conditions shall substantially conform to the drawings filed with this application marked ‘Received September 28, 2017’-Seventeen (17) sheets; and *on further condition*:

THAT no certificate of occupancy for the subject building shall hereafter be issued if the Use Group 6 offices in parking category B1 are changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius;

THAT the above condition shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by October 31, 2021;

THAT prior to DOB’s issuance of any building permit, OER shall issue a Notice to Proceed or a Notice of No Objection pursuant to the site’s (E) designation (E-453);

THAT prior to DOB’s issuance of a Certificate of Occupancy, OER must issue a Notice of No Objection or a Notice of Satisfaction;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 31, 2017.

APPLICANT – Law Office of Jay Goldstein, for Noah S. Smith, owner.

SUBJECT – Application December 8, 2016 – Special Permit (§73-622) for the enlargement of an existing single family home contrary to floor area and open space ratio (ZR 23-141); side yard (ZR 23-461) and less than the required rear yard (ZR 23-47). R2 zoning district.

PREMISES AFFECTED – 1350 East 28<sup>th</sup> Street, Block 7663, Lot 60, Borough of Brooklyn.

**COMMUNITY BOARD #14BK**

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Abstain: Commissioner Sheta.....1

Negative: .....0

**THE RESOLUTION** –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated November 23, 2016, acting on Alteration Application No. 321196950, reads in pertinent part:

1. Proposed plans are contrary to ZR 23-141 in that the proposed floor area ratio (FAR) exceeds the permitted 50%
2. Proposed plans are contrary to ZR 23-141 in that the proposed open space ratio (OSR) is less than the required 150%
3. Plans are contrary to ZR 23-461(a) in that the proposed side yards are less than the required 5’-0” and 8’-0”
4. Proposed plans are contrary to ZR 23-47 in that the proposed rear yard is less than 30’-0”; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03 to permit, in an R2 zoning district, the enlargement of a one-family, semi-detached residence that does not comply with bulk regulations for floor area ratio (“FAR”), open space ratio (“OSR”), side yards and rear yards, contrary to ZR §§ 23-141, 23-461(a) and 23-47; and

WHEREAS, a public hearing was held on this application on June 6, 2017, after due notice by publication in *The City Record*, with continued hearings on August 15, 2017, and then to decision on October 31, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of East 38th Street, between Avenue M and Avenue N, in an R2 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 28 feet of frontage along East 28th Street, 100 feet of depth, 2,750 square feet of lot area and is occupied by a two-story, one-

family semi-detached residence; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single- or two-family detached or semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage, open space, floor area, side yard, rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building’s non-complying* perimeter

---

# MINUTES

---

wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, inter alia, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge an existing semi-detached single-family residence, as contemplated in ZR § 73-622; and

WHEREAS, the applicant proposes to add a second story and an attic, thereby increasing the floor area from 1,538 square feet (0.56 FAR) to 2,743 square feet (1.01 FAR), decrease OSR from 123 percent to 51 percent, maintain the existing side yards with widths of 0 feet at the south and 10'-6" and 8'-9" at the north and reduce the rear yard from 43'-3" to 20 feet at the first story and 26'-3" at the second story; and

WHEREAS, the applicant represents that, at the subject site, the maximum permitted floor area is 1,375 square feet (0.50 FAR), a minimum OSR of 150 percent is required, a rear yard with a minimum depth of 30 feet is required and side yards must total 13 feet in width with each at least 5 feet in width; and

WHEREAS, the Board finds that, because of existing non-complying side yards at the subject site, the proposed enlargement will not result in a decrease in the existing minimum width of open area between the building that is being enlarged and the side lot line; and

WHEREAS, the Board finds that the proposed enlargement is not located within 20 feet of the rear lot line; and

WHEREAS, the applicant represents that the proposed enlargement is consistent with the character of the neighborhood; and

WHEREAS, in support of that contention, the applicant submitted a FAR study concluding that, within 400 feet, there are 127 lots, 38 of which have FARs between 0.75 and 1.44; and

WHEREAS, the applicant further studied rear yards on the subject block, finding that of 46 lots 20 have rear yards between 16 feet and 29 feet in depth; and

WHEREAS, the applicant surveyed lot coverage in the surrounding area and found that 38 of 127 lots have lot coverage in excess of 40 percent; and

WHEREAS, the applicant also submitted a photographic streetscape study and three-dimensional rendering illustrating the proposed enlarged building in context with surrounding properties; and

WHEREAS, in response to questions from the Board about the massing of the proposed enlargement, the applicant reduced its request and revised the roofline to create a continuous slope from the adjoining structure; and

WHEREAS, based upon its review of the record and its inspections of the site and surrounding area, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of bulk regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17BSA051K, dated November 30, 2016; and

WHEREAS, the Board finds that the evidence in the record supports the requisite findings under ZR §§ 73-622 and 73-03 and that the applicant had substantiated a basis to warrant exercise of discretion to grant with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals *issues* a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03 to *permit*, in an R2 zoning district, the enlargement of a one-family, semi-detached residence that does not comply with bulk regulations for floor area ratio, open space ratio, side yards and rear yards, contrary to ZR §§ 23-141, 23-461(a) and 23-47; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received October 18, 2017" – Twelve (12) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: maximum floor area of 2,743 square feet (1.01 floor area ratio), minimum open space ratio of 51 percent, side yards with widths of at least 0 feet at the south and 10'-6" and 8'-9" at the north and a rear yard with depths of 20 feet at the first story and 26'-3" at the second story, as illustrated on the Board-approved plans;

THAT all existing exterior walls and wall joists indicated to remain undisturbed on the BSA-approved plans

# MINUTES

shall remain or the special permit is void;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by October 31, 2021;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 31, 2017.

### CEQR #17-BSA-090M

APPLICANT – Deirdre A. Carson, Esq., Greenberg Traurig, LLP, for 3896 Tenth Avenue Associates, owner; Inwood Academy For Leadership Charter School, lessee.

SUBJECT – Application February 15, 2017 – Special Permit (§73-19) to allow for the operation of a school (Use Group 3) (*Inwood Academy*) contrary to ZR §32-12. C8-3 zoning district.

PREMISES AFFECTED – 3896 Tenth Avenue, Block 2223, Lot 16, Borough of Manhattan.

### COMMUNITY BOARD #12M

**ACTION OF THE BOARD** – Application granted on condition.

#### THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Abstain: Commissioner Sheta.....1

Negative: .....0

#### THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated February 10, 2017, acting on Alteration Application No. 122972293, reads in pertinent part:

“The proposed Use Group 3A school is not permitted within a C8-3 Commercial District, contrary to Zoning Resolution Section 32-12”; and

WHEREAS, this is an application under ZR §§ 73-19 and 73-03 to permit, in a C8-3 zoning district, the operation of a school, contrary to ZR § 32-12; and

WHEREAS, this application is brought on behalf of Inwood Academy for Leadership (the “School”), a public charter school; and

WHEREAS, a public hearing was held on this application on September 19, 2017, after due notice by publication in *The City Record*, and then to decision on October 31, 2017; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 12, Manhattan, recommends approval of this application; and

WHEREAS, Council Member Ydanis Rodriguez submitted testimony stating that the community and the applicant would be better served by including this project in the process for a potential neighborhood rezoning so that this project can be part of a comprehensive strategy regarding land use, education and infrastructure; and

WHEREAS, the subject site is located on the west side of Tenth Avenue, between Isham Street and Post Avenue, in an C8-3 zoning district, in Manhattan; and

WHEREAS, the site has approximately 159 feet of frontage along Tenth Avenue, 70 feet of frontage along Isham Street, 20 feet of frontage along Post Avenue, 18,082 square feet of lot area and is occupied by a two-story, with cellar, industrial building; and

WHEREAS, the applicant seeks a special permit to allow the operation of a high school (the “New School”) at the subject site; and

WHEREAS, as a preliminary matter, the applicant submits that the New School meets the “school” definition of ZR § 12-10 because it will provide “full-time day instruction and a course of study that meets the requirements of Sections 3204, 3205 and 3210 of the New York State Education Law”; and

WHEREAS, the applicant states that the New School will be operated by the School, which currently serves the community at other locations in the neighborhood with an existing middle school at 433 West 204th Street and an existing high school at 108 Cooper Street proposed to be relocated to the subject site, and provided a copy of the School’s charter; and

WHEREAS, based upon its review of the record, the Board finds that the New School meets the definition of “school” under ZR § 12-10; and

WHEREAS, ZR § 73-19(a) requires an applicant to demonstrate the inability to obtain a site for the development of a school within the neighborhood to be served and with a size sufficient to meet the programmatic needs of the school within a district where the school is permitted as of right; and

WHEREAS, the applicant submitted a report detailing the School’s site search indicating that the School has reviewed 87 potential sites within the neighborhood whose zoning districts would permit the New School as of right but that there was no practical possibility of obtaining a site of adequate size to accommodate the School’s programmatic needs; and

WHEREAS, the applicant also provided a programmatic needs analysis demonstrating that the School needs the New School to house approximately 500 students and 55 staff members with convenient access to public transportation and adequate space for classrooms, science labs and art space and that the subject site is uniquely situated to accommodate such needs; and

---

# MINUTES

---

WHEREAS, the Board finds that there is no practical possibility of obtaining a site of adequate size in a district where the New School could locate as of right; and

WHEREAS, ZR § 73-19(b) requires an applicant to demonstrate that the proposed school is located no more than 400 feet from the boundary of a district in which such a school is permitted as of right; and

WHEREAS, the applicant represents that the subject site is approximately 50 feet from an R7-2 zoning district, where schools are permitted as of right; and

WHEREAS, the Board finds that the New School is located not more than 400 feet from the boundary of a district wherein the New School is permitted as of right; and

WHEREAS, ZR § 73-19(c) requires an applicant to demonstrate how it will achieve adequate separation from noise, traffic and other adverse effects of the surrounding non-residential district; and

WHEREAS, the applicant represents that the New School's building will feature sound-attenuating exterior walls and windows in order to achieve an interior sound level of 45 dBA or less; and

WHEREAS, as to the surrounding area, the applicant notes that the New School will be located immediately adjacent to a residential building and that there is adequate separation from nearby non-residential uses, which include an eating and drinking establishment, stores, offices, an automotive service station and a train yard enclosed by a solid concrete wall and metal fence; and

WHEREAS, the Board finds that, under ZR § 73-19(c), there is adequate separation from noise, traffic and other potential adverse effects of the surrounding C8-3 zoning district; and

WHEREAS, ZR § 73-19(d) requires an applicant to demonstrate how the movement of traffic through the street on which the proposed school will be located can be controlled so as to protect children traveling to and from the school; and

WHEREAS, the applicant states that traffic moving through the streets adjacent to the subject site can be controlled in order to protect students going to and from the New School; and

WHEREAS, by letter dated April 6, 2017, the School Safety Engineering Office of the New York City Department of Transportation ("DOT") states that the New School should build a concrete curb extension on the northwest corner of Tenth Avenue and Post Street, on Post Street, which the Board finds to be an appropriate safeguard; and

WHEREAS, the applicant states that the New School will implement an arrival and dismissal procedure ensuring that arrivals and dismissals will take place within the subject building, be supervised by staff and will ensure that students enter and exit the New School through a single egress point on Tenth Avenue without congregating or occasion to wait on the street; and

WHEREAS, the applicant further states that the proposed curb extension suggested by DOT will provide additional reservoir space for pedestrians waiting to cross

the street while also serving to slow traffic; and

WHEREAS, the applicant notes that surrounding streets provide well-marked crosswalks and signaled intersections; and

WHEREAS, the Board finds that, under ZR § 73-19(d), the movement of traffic through the streets on which the New School is located can be controlled so as to protect children going to and from the New School; and

WHEREAS, as to ZR § 73-03(a), the Board acknowledges that the School, as an educational institution, is entitled to deference under the law of the State of New York as to zoning; specifically, as held in *Cornell University v. Bagnardi*, 68 NY2d 583 (1986), an educational institution's zoning application is to be granted unless it can be shown to have an adverse effect upon the health, safety or welfare of the community, and general concerns about traffic and disruption of the residential character of a neighborhood are insufficient grounds for a denial; and

WHEREAS, as to concerns regarding potential rezoning of the surrounding area, the applicant notes that the Department of City Planning is currently engaging in a comprehensive neighborhood planning study in conjunction with New York City Economic Development Corporation for a potential rezoning that could change the zoning district of the subject site to an R8A (C4-4D) zoning district, where the New School would be allowed as of right; and

WHEREAS, in response to questions from the Board, the applicant provided further information about the School's physical education program, staff parking to be provided within the vicinity of the New School as well as security measures, including placement of security guards at the entrance of the subject building, employing staff monitors to supervise departures, a security desk at the entrance and employment of a buzz-in identification display with key-card access for staff; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-19 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 17BSA090M, dated September 29, 2017; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows;

---

# MINUTES

---

Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, the New York City Department of Environmental Protection (“DEP”) reviewed the proposed project with regard to air quality and noise; and

WHEREAS, by letter dated August 10, 2017, as revised September 20, 2017, DEP states that the proposed project would not result in any potential for significant adverse impacts from heating, ventilation and air-conditioning (HVAC) systems using natural gas as the type of fuel, that the mobile source impacts are below the screening threshold, that no manufacturing or processing facilities within air toxics concerns were identified within a 400-foot radius of the subject site, that in order to attain an indoor noise level of 45 dBA within the proposed development, a composite window-wall noise attenuation of 41 dBA is required for building facades on Isham Street, Tenth Avenue, and Post Avenue and that, to maintain a closed window condition, an alternate means of ventilation is required and should be incorporated into building design and construction; and

WHEREAS, by letter dated October 19, 2017, DOT states that the proposed project would generate fewer than 50 vehicle trip-ends during the weekday peak hour, that, as to pedestrian trips during the analysis peak hours, the pedestrian analysis indicates that all analyzed locations would continue to operate at LOS B or better in the future with-action condition, that, as to off-street parking, there would be sufficient parking available within a one-half mile walking distance from the subject site, that a detailed traffic analysis is not warranted and that the proposed project would not create significant adverse pedestrian and parking impacts; and

WHEREAS, the Board recommends that an (E) designation for hazardous materials be placed on the subject site as part of this approval; and

WHEREAS, the (E) designation requires an environmental review by the New York City Office of Environmental Remediation (“OER”) which must be satisfied before DOB will issue building permits at the subject site; and

WHEREAS, as part of the Remedial Action Work Plan submitted to OER for the proposed project, a restrictive declaration (the “Declaration of Covenants and Restrictions”) that includes a listing of engineering controls and institutional controls and a requirement that management of these controls must be in compliance with an approved Site Management Plan (“SMP”) shall be recorded against the subject site and shall provide that institutional controls shall include prohibition of the following: vegetable gardening and farming; use of groundwater without treatment rendering it safe for the intended use; disturbance of residual contaminated material unless it is conducted in accordance with the SMP; and

higher level of land usage without OER approval; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the requisite findings to be made under ZR §§ 73-19 and 73-03 and that the applicant had substantiated a basis to warrant exercise of discretion to grant.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *issue* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR §§ 73-19 and 73-03 to *permit*, in a C8-3 zoning district, the operation of a school, contrary to ZR § 32-12; *on condition* that all work and site conditions shall substantially conform to the drawings filed with this application marked “Received July 31, 2017”-Ten (10) sheets and “Received September 22, 2017”-Two (2) sheets; and *on further condition*:

THAT a concrete curb extension shall be built on the northwest corner of Tenth Avenue and Post Street, on Post Street;

THAT parking spaces shall be reserved for the School’s staff at a nearby facility;

THAT a parking restricted zone shall be placed in front of the subject building during school hours;

THAT the School shall provide school crossing guards and security guards at the School’s entrance;

THAT the School shall employ a buzz-in identification display system and supply staff with key cards for building access;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by October 31, 2021;

THAT prior to DOB’s issuance of any building permit, OER shall issue a Notice to Proceed or a Notice of No Objection pursuant to the site’s (E) designation (E-452) and the Declaration of Covenants and Restrictions shall be recorded against the subject site;

THAT prior to DOB’s issuance of a Certificate of Occupancy, OER must issue a Notice of No Objection or a Notice of Satisfaction;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the

## 2017-53-BZ

### CEQR #17-BSA-096M

APPLICANT – Francis R. Angelino, Esq., for Unizo Real Estate NY, owner; Mile High Run Club LLC, lessee.

SUBJECT – Application February 23, 2017 – Special Permit (§73-36) to permit the legalization of a Physical Cultural Establishment (*Mile High*) located in the cellar and first floor of an existing building contrary to ZR §42-10. M1-6 zoning district.

PREMISES AFFECTED – 24 West 25<sup>th</sup> Street, Block 826, Lot 57, Borough of Manhattan.

### COMMUNITY BOARD #5M

**ACTION OF THE BOARD** – Application granted on condition.

#### THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Abstain: Commissioner Sheta.....1

Negative: .....0

#### THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated January 26, 2017, acting on Alteration Application No. 122265146, reads in pertinent part:

“A Physical Cultural Establishment as defined in ZR 12-10 is proposed . . . and is not a permitted Use as-of-right . . . and is contrary to ZR 42-10”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, in an M1-6 zoning district, the legalization of a physical culture establishment (“PCE”) in the cellar and first floor of a 12-story commercial building, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on September 12, 2017, after due notice by publication in *The City Record*, and then to decision on October 31, 2017; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and  
WHEREAS, Community Board 5, Manhattan, waives its recommendation for this application; and

WHEREAS, the subject site is located on the south side of West 25th Street, between Sixth Avenue and Broadway, in an M1-6 zoning district, in Manhattan; and

WHEREAS, the site has approximately 100 feet of frontage along West 25th Street, 99 feet of depth, 9,875 square feet of lot area and is occupied by a 12-story, with cellar, commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such

special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
  - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
  - (ii) a swimming pool of a minimum 1,500 square feet; or
  - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
  - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04 and 73-36(b)(4), it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property

---

# MINUTES

---

and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE occupies 5,256 square feet of floor space as follows: 3,131 square feet of floor area on the first floor, including an entryway, retail, a locker room with showers, restrooms, a workout area equipped with treadmills and closets, and 2,125 square feet of floor space in the cellar, used for a locker room with showers, laundry, storage and office space; and

WHEREAS, the PCE has been in operation as Mile High Run Club since January 2, 2016, [KS1] with the following hours of operation: 5:15 a.m. to 9:30 p.m., Monday through Friday, and 7:00 a.m. to 8:00 p.m., Saturday and Sunday; and

WHEREAS, the applicant represents that the PCE is located entirely within an existing commercial building, which is consistent with the surrounding area, characterized by compatible commercial uses; and

WHEREAS, with regard to sound attenuation, the applicant submits that the studio is located on a vibration isolated floor using acoustical pads, a concrete isolated slab, plywood and rubber flooring, that the isolated walls, consisting of metal stud framing, have been built on a rubber isolated wall mat, six inches of acoustical fiber insulation and three layers of sheetrock, and that the ceiling is supported by spring hangers to prevent vibration and sound from traveling throughout the building along with six inches of acoustical insulation and three layers of sheetrock; and

WHEREAS, accordingly, the Board finds that the PCE use is so located as to not impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant submits that the PCE offers treadmill classes and running-focused strength training; and

WHEREAS, the Board finds that the PCE use is consistent with those eligible, pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant submitted evidence that the PCE is fully sprinklered and that an approved fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—has been installed in the entire PCE space; and

WHEREAS, the Board finds that, under the conditions

and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17-BSA-096M, dated February 23, 2017; and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated at the subject site without the special permit.

*Therefore it is Resolved*, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 *to permit*, in an M1-6 zoning district, the legalization of a physical culture establishment in the cellar and first floor of a 12-story commercial building, contrary to ZR § 42-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received February 23, 2017”-Five (5) sheets; and *on further condition*:

THAT the term of this grant shall be for ten (10) years, expiring January 2, 2026;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum 3'-0" wide exit pathways shall be provided leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be maintained in the entire PCE space and the PCE shall be fully sprinklered, as indicated on the Board-approved plans;

THAT sound attenuation shall be installed in the PCE as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by October 31, 2018;

THAT this approval is limited to the relief granted by

# MINUTES

the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 31, 2017.

APPLICANT – Sheldon Lobel, P.C., for JSM Associates I  
LLC, owner; OTF Studios, LLC, lessee.

SUBJECT – Application November 10, 2016 – Special  
Permit (§73-36) to permit the operation a Physical Cultural  
Establishment (*Orangetheory Fitness*) on the first and cellar  
floors of the existing building. C6-3 zoning district.

PREMISES AFFECTED – 51 Astor Place, Block 554, Lot  
35, Borough of Manhattan.

#### COMMUNITY BOARD #3M

**ACTION OF THE BOARD** – Application granted on  
condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda,  
Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of  
Buildings (“DOB”), dated May 4, 2017, acting on New  
Building Application No. 120746826, reads in pertinent  
part:

“The proposed physical culture establishment is  
not permitted as of right in a C6-3 district as per  
ZR 32-10. BSA special permit per ZR 73-36 is  
required”; and

WHEREAS, this is an application under ZR §§ 73-36  
and 73-03 to permit, in a C6-3 zoning district, the  
legalization of a physical culture establishment (“PCE”) on  
the first and cellar floors of a 14-story mixed-use building,  
contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this  
application on October 31, 2017, after due notice by  
publication in *The City Record*, and then to decision on the  
same date; and

WHEREAS, Chair Perlmutter, Vice-Chair Chanda,  
Commissioner Ottley-Brown and former Commissioner  
Montanez performed inspections of the site and surrounding  
neighborhood; and

WHEREAS, Community Board 3, Manhattan, has no  
objection to this application; and

WHEREAS, the subject site is located on a block  
bounded by Astor Place, Fourth Avenue, East 9th Street and  
Third Avenue, in a C6-3 zoning district, in Manhattan; and

WHEREAS, the site has approximately 171 feet of  
frontage along Astor Place, 198 feet of frontage along  
Fourth Avenue, 231 feet of frontage along East 9th Street,

---

# MINUTES

---

166 feet of frontage along Third Avenue, 36,177 square feet of lot area and is occupied by a 14-story mixed-use commercial and community-facility building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
  - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
  - (ii) a swimming pool of a minimum 1,500 square feet; or
  - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
  - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the

foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04 and 73-36(b)(4), it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE occupies 3,536 square feet of floor space as follows: 483 square feet of floor area on the first floor, including a reception area, and 3,053 square feet of floor area in the cellar, used for rowing machines, treadmills, dumbbells, suspension training, balance training, restrooms, showers and storage; and

WHEREAS, the PCE has been in operation as Orangetheory Fitness since January 12, 2017, with the following hours of operation: 5:00 a.m. to 9:00 p.m., Monday through Thursday, 5:00 a.m. to 8:00 p.m., Friday, 7:00 a.m. to 1:00 p.m., Saturday, and 8:00 a.m. to 2:00 p.m., Sunday; and

WHEREAS, the applicant represents that the PCE is located on the first and cellar floors of an existing commercial building, which is consistent with the surrounding area, characterized by a mix of compatible uses, including gymnasium spaces, offices, eating and drinking establishment and retail stores; and

WHEREAS, with regard to sound attenuation, the applicant submits that the PCE has installed a suspended, spring isolated gypsum acoustic ceiling and 2.5" thick rubber floor tiles in the workout area; and

WHEREAS, accordingly, the Board finds that the PCE use is so located as to not impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE provides facilities for classes, instruction and programs for physical improvement, body building, weight reduction and aerobics; and

WHEREAS, the Board finds that the PCE use is consistent with those eligible, pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant submitted evidence that the PCE is fully sprinklered and that an approved fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms

# MINUTES

and connection of the interior fire alarm to an FDNY-approved central station—has been installed in the entire PCE space; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17-BSA-041-M, dated July 19, 2017; and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated at the subject site without the special permit.

*Therefore it is Resolved*, that the Board of Standards and Appeals *issues* a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to *permit*, in a C6-3 zoning district, the legalization of a physical culture establishment on the first and cellar floors of a 14-story mixed-use building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received July 19, 2017”- Five (5) sheets; and *on further condition*:

THAT the term of this grant shall be for ten (10) years, expiring January 12, 2027;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum 3'-0" wide exit pathways shall be provided leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be maintained in the entire PCE space and the PCE shall be fully sprinklered, as indicated on the Board-approved plans;

THAT sound attenuation shall be installed in the PCE as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the

certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by October 31, 2018;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 31, 2017.

recommends approval of this application; and

WHEREAS, the subject site is located on a block bounded by Water Street, Adams Street, Front Street and Washington Street, in an M1-2/R8A zoning district and the Special Mixed Use District (MX-2), in the DUMBO Historic District, in Brooklyn; and

WHEREAS, the site has approximately 181 feet of frontage along Water Street, 212 feet of frontage along Adams Street, 232 feet of frontage along Front Street, 200 feet of frontage along Washington Street, 42,832 square feet of lot area and is occupied by a nine-story commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
  - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
  - (ii) a swimming pool of a minimum 1,500 square feet; or
  - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
  - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or

corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and

- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04 and 73-36(b)(4), it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE occupies a total of 9,667 square feet of floor area on the first floor, including a foyer, boxing rings, restrooms, showers, offices, concessions and storage; and

WHEREAS, the PCE has been in operation as Gleason's Gym since December 1, 2016, with the following hours of operation: 5:00 a.m. to 10:00 p.m., Monday through Sunday; and

WHEREAS, the applicant represents that the PCE is located entirely within an existing commercial building and is consistent with the mixed-use residential and commercial character of the surrounding area; and

WHEREAS, with regard to sound attenuation, the applicant submits that the PCE does not play music and houses limited, if any, group activity with no noise complaints from other commercial tenants within the subject building since the facility has been in operation; and

WHEREAS, accordingly, the Board finds that the PCE use is so located as to not impair the essential character or the future use or development of the surrounding area; and

**THE RESOLUTION** –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated April 26, 2017, acting on Alteration Application No. 321558765, reads in pertinent part:

“Propose[d] Physical Culture Establishment . . . is not permitted pursuant to ZR 42-10”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, in an M1-6 zoning district, the legalization of a physical culture establishment (“PCE”) on a portion of the cellar and first floor of a 10-story commercial building, contrary to ZR § 42-10; and

---

# MINUTES

---

WHEREAS, a public hearing was held on this application on October 31, 2017, after due notice by publication in *The City Record*, and then to decision on October 31, 2017; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 2, Brooklyn, waives its recommendation for this application; and

WHEREAS, the subject site is located on the north side of Prospect Street, between Washington Street and Adams Street, in an M1-6 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 205 feet of frontage along Prospect Street, 101 feet of frontage along Washington Street, 100 feet of frontage along Adams Street, 20,704 square feet of lot area and is occupied by a 10-story, with cellar, commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
  - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
  - (ii) a swimming pool of a minimum 1,500 square feet; or
  - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
  - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application

to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and

- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04 and 73-36(b)(4), it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE occupies a total of 3,407 square feet of floor space as follows: 3,407 square feet of floor area on the first floor, used for a reception area, shoe cubbies and studios, and 2,056 square feet of floor space in the cellar, including a lobby, shoe cubbies, laundry, an office, locker rooms and saunas; and

WHEREAS, the PCE has been in operation as Yoga Vida since January 2017 with the following hours of operation: 5:30 a.m. to 11:00 p.m., Monday through Friday, and 7:00 a.m. to 9:00 p.m., Saturday and Sunday; and

WHEREAS, the application represents that the PCE is entirely contained within the first floor and cellar of the existing commercial building, thereby limiting visibility from the street, that the space is located in a manufacturing district with commercial uses surrounding it and that nearby uses include storage and office space; and

WHEREAS, with regard to sound attenuation, the applicant submits that the studio is isolated from adjacent structures with two layers of sheetrock in the studio and two layers outside with sound-attenuated insulation, that all penetration at studio ceilings and partitions are sealed mineral fiber insulation and caulked and that partitions have an STC rating of 56, the flooring has an STC rating of 56 and the ceilings have an STC rating of 55; and

WHEREAS, accordingly, the Board finds that the PCE use is so located as to not impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE provides

# MINUTES

class and private-session yoga instruction; and

WHEREAS, the Board finds that the PCE use is consistent with those eligible, pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant submitted evidence that the PCE is fully sprinklered and that an approved fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—has been installed in the entire PCE space; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17-BSA-117K, dated April 26, 2017; and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated at the subject site without the special permit.

*Therefore it is Resolved*, that the Board of Standards and Appeals *issues* a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to *permit*, in an M1-6 zoning district, the legalization of a physical culture establishment on a portion of the cellar and first floor of a 10-story commercial building, contrary to ZR § 42-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received April 28, 2017”- Four (4) sheets; and *on further condition*:

THAT the term of this grant shall be for ten (10) years, expiring January 31, 2027;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum 3'-0" wide exit pathways shall be provided leading to the required exits and that pathways shall be maintained unobstructed, including from any

gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be maintained in the entire PCE space and the PCE shall be fully sprinklered, as indicated on the Board-approved plans;

THAT sound attenuation shall be installed in the PCE as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by October 31, 2018;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 31, 2017.

## 2017-281-BZ

### CEQR #18-BSA-044K

APPLICANT – NYC Housing Preservation & Development, for William Hoffman, owner.

SUBJECT – Application October 24, 2017 – Special Permit (§64-92) to waive bulk regulations for the replacement of homes damaged/destroyed by Hurricane Sandy, on properties which are registered in the NYC Build it Back Program. R4 zoning district.

PREMISES AFFECTED – 23 Beacon Court, Block 8845, Lot 2042, Borough of Brooklyn.

### COMMUNITY BOARD #15BK

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to permit, in an R4 zoning district, the reconstruction of a single-family detached residence in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards, rear yards and side yards, contrary to ZR § 23-45, 23-52 and 23-461; and

---

# MINUTES

---

WHEREAS, a public hearing was held on this application on October 31, 2017, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, this application is brought on behalf of the property owner by the Build It Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in furtherance of the City's effort to rebuild residences impacted by Superstorm Sandy expeditiously and effectively, the Board, pursuant to 2 RCNY § 1-14.2, waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1-05.1 (Objection Issued by the Department of Buildings); (2) 2 RCNY § 1-05.3 (Filing Period); (3) 2 RCNY § 1-05.4 (Application Referral); (4) 2 RCNY § 1-05.6 (Hearing Notice); (5) 2 RCNY § 1-05.7 (List of Affected Property Owners); (6) 2 RCNY § 1-09.4 (Owner's Authorization); and (7) 2 RCNY § 1-10.7 (Proof of Service for Application Referral and Hearing Notice); and

WHEREAS, the Board notes that the subject application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the west side of Beacon Court, between Lois Avenue and Plumb Beach Avenue, in an R4 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 40 feet of frontage along Beacon Court, 45 feet of depth, 1,800 square feet of lot area and is occupied by a one-story detached residence; and

WHEREAS, the applicant now seeks a special permit, pursuant to ZR § 64-92, to allow the development of a single-family detached residence with non-compliances for front yards, side yards and rear yards; and

WHEREAS, at the subject site, front yards must be either 10 feet or 18 feet in depth under ZR § 23-45, rear yards must be at least 10 feet in depth under ZR § 23-52 and side yards must total 13 feet with a minimum of five feet each under ZR § 23-461; and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments* and *enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Section 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

(a) that there would be a practical difficulty in complying with *flood-resistant construction*

*standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;

- (b) that any modifications of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, in accordance with ZR § 64-92(a), the need to develop the proposed residence creates practical difficulties in complying with flood-resistant construction standards without the modification of requirements for front yards, rear yards and side yards and that waiver of the same is the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the finding pursuant to ZR § 64-92(b) is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the residence is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; the applicant further states that the majority of residences within the surrounding neighborhood are similar detached residences; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed alteration satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18BSA044K, dated October 24, 2017.

*Therefore it is Resolved*, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure; *issues* a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review; and makes the required findings under ZR § 64-92 to *permit*, in an R4 zoning district, the development of a single-family detached residence in compliance with flood-resistant construction standards that does not comply with the zoning

---

---

requirements for front yards, rear yards and side yards, contrary to ZR § 23-45, 23-52 and 23-461; *on condition* that all work shall substantially conform to the drawings filed with this application and marked “Received October 24, 2017”- six (6) sheets; and *on further condition*:

THAT there shall be a front yard at least 10’-6” in depth, the rear yard shall be at least 9’-5” in depth and there shall be side yards with 4’-11” of width to the north and 8’-1” to the south, as illustrated on the Board-approved plans;

THAT there shall be a fire sprinkler system installed in accordance with Chapter 9 and Appendix Q of the New York City Building Code;

THAT the residence shall be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code;

THAT the underside of the exterior of the residence where the foundation is not closed shall have a floor assembly that provides a 2-hour fire resistance rating;

THAT the height from grade plane to the highest windowsill leading to a habitable space may not exceed 32 feet;

THAT this approval shall be limited to the Build It Back program;

THAT all DOB and related agency application(s) filed in connection with the authorize use and/or bulk shall be signed off by DOB and all other relevant agencies by October 31, 2021;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 31, 2017.

#### COMMUNITY BOARD #1Q

**ACTION OF THE BOARD** – Application Withdrawn Without Prejudice.

#### THE VOTE TO WITHDRAW –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative: .....0

#### THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board's Rules of Practice and Procedure, an amendment to a variance, previously granted by the Board, and an extension of term of the same, which expired on June 2, 2011; and

WHEREAS, a public hearing was held on this application on January 22, 2016, after due notice by publication in *The City Record*, with continued hearings on March 22, 2016, July 12, 2016, and August 22, 2017, and then to decision on November 14, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown, former Vice-Chair Hinkson and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the east side of 31st Street, between 36th Avenue and 35th Avenue, in an R5 zoning district, in Queens; and

WHEREAS, the site has approximately 50 feet of frontage along 31st Street, a depth of 80 feet, 4,008 square feet of lot area and is occupied by one-story plus mezzanine building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since June 2, 1981, when, under the subject calendar number, the Board granted a variance to permit the construction of a one-story and mezzanine structure for use as a showroom with accessory storage and office for a term of twenty (20) years, expiring June 2, 2001, on condition that there be no manufacturing operation of any kind performed at the site, the door into the adjoining building be 4 feet in maximum width and constructed to the satisfaction

of the Department of Buildings, signs comply with C1 district regulations, the owner maintain the sidewalks in a clean condition at all times and there be no items on the streets except for routine loading and unloading; and

WHEREAS, on January 6, 2004, under the subject calendar number, the Board amended the resolution to extend the term for an additional ten (10) years, expiring June 2, 2011, on condition that the premises be maintained free of debris and graffiti, any graffiti on the premises be removed within 48 hours, all trash receptacles be located within the property line behind a fence except on the designated pick-up date, the trash dumpster be stored within Lot 9 and placed on the sidewalk only during pick-up times, a new Certificate of Occupancy be obtained within one year, by January 6, 2005, and that, upon expiration of the term, if the applicant returns to the Board for an extension, the applicant submit a financial study examining the feasibility of residential use of the premises; and

WHEREAS, the previous term having expired, the applicant seeks a further extension of the term for an additional ten (10) years, as well as an amendment permitting a change in use of the site to a Use Group 6 eating and drinking establishment; and

WHEREAS, the applicant also requests a waiver, pursuant to § 1-14.2 of the Board's Rules of Practice and Procedure, of Rule § 1-07.3(b)(3)(ii) to permit the filing of this application more than two (2) years after but less than ten (10) years after the expiration of the term; and

WHEREAS, by letter dated November 10, 2017, the applicant requested that the subject application be withdrawn due to litigation pending in Queens County Court; and

WHEREAS, at hearing, the Board advised the applicant that accepting withdrawal of the application would render the subject variance expired, as of June 2, 2011, and require compliance of the site with use regulations applicable in the underlying zoning district; additionally, pursuant to Rule § 1-07.3(b)(3)(ii) of the current version of the Board's Rules, the applicant may file an application for an extension of the term of the variance granted under the subject calendar number on the Board's SOC calendar only until June 2, 2021, provided that a request for a waiver of that section is additionally requested, but, after such date, pursuant to Rule § 1-07.3(b)(4), the applicant would be required to file an application for a new variance for the site on the Board's BZ calendar; and

WHEREAS, the applicant acknowledged the foregoing, but maintained the request for withdrawal; and

WHEREAS, pursuant to § 1-12.2 of the Board's Rules, as the request for withdrawal was made prior to the hearing on the application being closed, the Board may permit withdrawal without prejudice.

*Therefore, it is Resolved*, that the Board of Standards and Appeals accepts the withdrawal of this application without prejudice.

Adopted by the Board of Standards and Appeals, November 14, 2017.

## 198-08-BZ

APPLICANT – Rothkrug Rothkrug & Spector LLP, for 270 Park Avenue South LLC, owner; NYHRC, lessee.

SUBJECT – Application March 17, 2016 – Extension of Term of a previously granted Special Permit (§73-36) for the continued operation of physical culture establishment (*New York Health and Racquet Club*) which expired on February 10, 2019; Amendment to permit the expansion of the use at the cellar and first floor; Waiver of the Rules. C6-4A zoning district.

PREMISES AFFECTED – 270 Park Avenue South, Block 850, Lot 39, Borough of Manhattan.

## COMMUNITY BOARD #5M

**ACTION OF THE BOARD** – Application granted on condition.

### THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative: .....0

### THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and an extension of term of a previously granted special permit for a physical culture establishment (“PCE”), which will expire on February 10, 2019, and an amendment to the special permit to permit the expansion of the PCE to the cellar and first floor; and

WHEREAS, a public hearing was held on this application on November 14, 2017, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and the surrounding neighborhood; and

WHEREAS, Community Board 5, Manhattan, waived their recommendation on the subject application; and

WHEREAS, the Board was in receipt of three letters from residential tenants of the third floor of the subject building stating that such tenants had never experienced any disturbing noise or vibrations created by the applicant; and

WHEREAS, the subject site is located on the northwest corner of Park Avenue and East 21st Street, within a C6-4A zoning district, in Manhattan; and

WHEREAS, the site has approximately 99 feet of frontage along Park Avenue, 75 feet of frontage along East 21st Street, 7,406 square feet of lot area and is occupied by a 12-story plus penthouse mixed-use commercial and residential building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since February 10, 2009, when, under the subject calendar number, the Board permitted the establishment of a PCE on the sub-cellar, cellar, first floor, second floor and second floor mezzanine levels of the subject building for a term of ten (10) years, expiring February 10, 2019, on condition that there be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board; all massages be performed by New York State

licensed massage therapists; all signage comply with C6-4A zoning regulation; the Department of Buildings (“DOB”) review the second floor mezzanine for compliance with ZR § 54-41; all second floor and second floor mezzanine windows be non-operable, one-inch thick and double-glazed in accordance with the BSA-approved plans; one-inch thick rubber flooring be installed throughout the exercise rooms of the second floor and second floor mezzanine of the PCE; a distributed speaker system be used with moderated volume unit; and fire safety measures be installed and/or maintained as shown on the Board-approved plans; and

WHEREAS, the PCE was approved to operate as and by the New York Health and Racquet Club and to occupy a total of 14,991 gross square feet in the subject building, with 7,685 square feet of floor space in the sub-cellar and cellar, 380 square feet of floor area on the first floor, 6,126 square feet of floor area on the second floor and 800 square feet of floor area on the second floor mezzanine; and

WHEREAS, the applicant proposes to amend the special permit to permit the enlargement of the PCE at the cellar and first floor levels by an additional 1,264 square feet of floor space in the cellar and 689 square feet of floor area on the first floor for the provision of additional office space, a revised reception desk and a seating lounge for patrons; accordingly, the PCE would occupy a total of 16,944 gross square feet in the subject building; and

WHEREAS, additionally, the applicant seeks to extend the term of the special permit grant and, accordingly, requests a waiver, pursuant to § 1-14.2 of the Board’s Rules of Practice and Procedure, of Rule § 1-07.3(b)(2) to permit the filing of the application more than one (1) year before the expiration of the term; and

WHEREAS, the applicant submits that no operational changes to the PCE are herein proposed, to wit, the PCE continues to be operated as New York Health and Racquet Club and operates seven days a week from 6:00 a.m. to 11:00 p.m.; and

WHEREAS, the Board finds that a ten (10) year extension and amendment to reflect a change in weekend hours, as requested, are appropriate, with the conditions set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals *reopens and amends* the resolution, dated February 10, 2009, so that as amended this portion of the resolution shall read: “to permit an extension of the term of the special permit for a term of ten (10) years, expiring February 10, 2029, *on condition* that the site shall substantially conform to drawings as filed with this application, marked ‘Received February 19, 2017’- Seven (7) sheets and ‘July 25, 2017’- Two (2) sheets; and *on further condition*:

THAT this grant shall be limited to a term of ten (10) years, expiring February 10, 2029;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages shall be performed by New York State licensed massage therapists;

THAT all signage shall comply with C6-4A zoning

---

# MINUTES

---

regulation;

THAT the Department of Buildings shall review the second floor mezzanine for compliance with ZR § 54-41;

THAT all second floor and second floor mezzanine windows shall be non-operable, one-inch thick and double-glazed in accordance with the BSA-approved plans;

THAT one-inch thick rubber flooring shall be installed and/or maintained throughout the exercise rooms of the second floor and second floor mezzanine of the PCE;

THAT a distributed speaker system be used with moderated volume unit; and fire safety measures be installed and/or maintained as shown on the Board-approved plans;

THAT the sprinklers and approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exist, local audible and visual alarms and connection to an FDNY-approved central station—shall be maintained as shown on the Board-approved plans;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT minimum 3 foot wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT substantial construction shall be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, November 14, 2017.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Abstain: Commissioner Sheta.....1

Negative: .....0

**THE RESOLUTION** –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated October 28, 2016, acting on Department of Buildings (“DOB”) Application No. 321264396 reads in pertinent part:

Proposed removal of thirty-five (35) existing accessory off-street parking spaces at the subject premises is contrary to ZR § 25-23 and will require the approval by BSA of a special permit to waive the existing accessory off street parking spaces under ZR § 73-433; and

WHEREAS, this is an application under ZR §§ 73-433 and 73-03 to permit, on a site located within an R7D zoning district, the waiver of 35 accessory off-street parking spaces required for a building located on the zoning lot containing income-restricted housing units, contrary to ZR § 25-23; and

WHEREAS, a public hearing was held on this application on October 3, 2017, after due notice by publication in *The City Record*, with a continued hearing on November 14, 2017, and then to decision on that date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and the surrounding neighborhood; and

WHEREAS, Community Board 8, Brooklyn, recommends approval of this application; and

WHEREAS, the Board also received two letters in support of this application; and

WHEREAS, the subject site is bound by Bedford Avenue to the east, Dean Street to the south and Pacific Street to the north, in an R7D zoning district, in Brooklyn; and

WHEREAS, the site has approximately 233 feet of frontage along Bedford Avenue, 200 feet of frontage along Dean Street, 122 feet of frontage along Pacific Street, 35,400 square feet of lot area and is occupied by a six-story building containing 78 Section 8 units (the “Existing Building”) and an accessory parking lot with 35 off-street parking spaces; and

WHEREAS, the applicant proposes to develop the accessory parking lot with a nine-story residential building with approximately 80,000 square feet of zoning floor area containing 47 income-restricted housing units and 46 units that

---

# MINUTES

---

will be developed pursuant to a regulatory agreement with the New York City Department of Housing Preservation and Development (“HPD”) and made available to households earning between 80 percent and 130 percent of the area median income (“AMI”) (the “Proposed Building”); and

WHEREAS, ZR § 73-433 provides as follows:

For *zoning lots* within the *Transit Zone* with *buildings* containing *income-restricted housing units* in receipt of a certificate of occupancy prior to March 22, 2016, the Board of Standards and Appeals may permit a waiver of, or a reduction in, the number of *accessory* off-street parking spaces required for such *income-restricted housing units* prior to March 22, 2016, provided that the Board finds that such waiver or reduction will:

- (a) facilitate an improved site plan;
- (b) facilitate the creation or preservation of affordable housing, where a *development* includes new *residential floor area* on the *zoning lot*;
- (c) not cause traffic congestion; and
- (d) not have undue adverse effects on residents, businesses or *community facilities* in the surrounding area, as applicable, including the availability of parking spaces for such *uses*.

Factors to be considered by the Board may include, without limitation, the use of the existing parking spaces by residents of the *zoning lot*, the availability of parking in the surrounding area and the proximity of public transportation. The Board may impose appropriate conditions and safeguard to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant submits that the Existing Building located on the zoning lot contains “income-restricted housing units” as defined in ZR § 12-10; and

WHEREAS, ZR § 12-10 defines “income-restricted housing unit,” in pertinent part, to include:

Any dwelling unit for which the applicable number of required accessory off-street parking spaces was established pursuant to the provisions of Section 25-25 (Modification of Requirements for Income-Restricted Housing Units, Affordable Independent Residences for Seniors or Other Government-Assisted Dwelling Units) as such Section existed between December 16, 1961, and March 22, 2016 . . .; and

WHEREAS, the applicant submitted into the record Certificate of Occupancy No. 219091, dated January 23, 1981, and issued for the Existing Building when it was located in an R6 zoning district, reflecting a six-story residential building with 13 apartments per floor, for a total of 78 apartments, and 35 accessory parking spaces at grade; and

WHEREAS, the applicant submits that the 35 existing parking spaces were provided at the site pursuant to ZR § 25-25, as that section existed between December 16, 1961, and March 22, 2016 (the “Operative Period”); and

WHEREAS, the Board notes that the provision of 35

accessory off-street parking spaces is consistent with ZR § 25-25, as it existed in the Operative Period during which time parking had to be provided for 45 percent of the dwelling units subject to a federal rent subsidy program; and

WHEREAS, in addition, the applicant submits that at the time of the conversion of the Existing Building to residential use, ZR § 25-21 provided that accessory off-street parking spaces “shall be provided . . . for all new #residences# constructed after December 15, 1961, as a condition precedent to the #use# of such residences”; and

WHEREAS, in light of the foregoing, the Board finds that the subject site qualifies, as a threshold matter, for the requested relief; and

WHEREAS, in connection with ZR § 73-433(a), the applicant submits that the waiver herein requested will facilitate an improved site plan in that the existing off-street accessory parking lot, despite being available to residents of the Existing Building for free, has sat underutilized and mostly vacant and that the proposal to develop residential units on the site will put the site to greater productive use while also providing 23 parking spaces at grade in compliance with ZR § 25-23, spaces which are accessible from a curb cut located on Pacific Street; and

WHEREAS, accordingly, the Board finds that the subject proposal facilitates an improved site plan in accordance with ZR § 73-433(a); and

WHEREAS, in support of ZR § 73-433(b), the applicant represents that the special permit will facilitate the preservation of the income-restricted units in the Existing Building, which will remain affordable under the Section 8 program pursuant to a contract set to expire on October 1, 2030, as well as the creation of 93 affordable residential units plus one superintendent unit; and of the 93 affordable units, 47 units will be income-restricted housing units available to residents earning 80 percent AMI or less and, pursuant to the Mandatory Inclusionary Housing Program, approximately 23 of the total 93 units will remain affordable in perpetuity while the remaining 70 units will remain affordable pursuant to a regulatory agreement with HPD for a term of approximately 35 years; and

WHEREAS, at the Board’s request, and in support of this contention and the subject application, HPD submitted a letter, dated November 13, 2017, stating that the proposed residential development at the site is in HPD’s pipeline, consistent with the goals set forth in Housing New York and that, at closing, the proposed development will be made subject to a regulatory agreement with HPD through 2056, during which time the development’s 94 units will remain subject to a legally binding restriction limiting rents through the Mixed-Middle-Income Program and be made subject to a Mandatory Inclusionary Housing Restrictive Declaration under which 23 units will remain affordable in perpetuity; and

WHEREAS, the Board thus finds that the requested waiver, as applied to this proposal which includes new residential floor area on the zoning lot, will facilitate the creation or preservation of affordable housing; and

WHEREAS, with regards to ZR § 73-433(c), the applicant submits that the elimination of the parking spaces on

---

# MINUTES

---

the subject premise will not cause traffic congestion because only a few of the Existing Building's tenants own cars—specifically, according to a parking survey conducted on February 1, 2017, only six of the tenants in the Existing Building own cars; and

WHEREAS, the applicant additionally points to the general availability of on-street parking, permissive parking regulations in the surrounding area that allow on-street parking at most times and location of the site within close proximity to public transportation (including MTA subway, MTA bus and Long Island Railroad stations and stops) to justify their claim that waiver of parking at the site in connection with the Existing Building will not adversely affect neighborhood traffic conditions; and

WHEREAS, the Board finds that, in accordance with ZR § 73-433(c), the waiver will not cause traffic congestion; and

WHEREAS, the applicant represents that the grant of the requested special permit will not adversely affect residents, businesses or community facilities in the surrounding area in accordance with ZR § 73-433(d) because only six residents of the Existing Building own cars and these six cars can be accommodated by on-street parking spaces; and

WHEREAS, the applicant notes that all six cars have successfully been accommodated by on-street parking spaces since at least May 2016 when the 35 accessory off-street parking spaces on site became unavailable due to façade work being completed on the Existing Building pursuant to Local Law 11; and

WHEREAS, in light of the foregoing, the Board finds that the requested waiver will not have undue adverse effects on residents, businesses or community facilities in the surrounding area, as required under ZR § 73-433(d); and

WHEREAS, finally, with regards to the findings of ZR § 73-03, of which, the applicant submits, only subsections (a) and (b) are applicable to the subject application, the applicant states that, with regards to ZR § 73-03(a), the advantage to be derived from the special permit outweigh the hazards or disadvantages to the community at large because the requested special permit will put an underutilized portion of the zoning lot to beneficial residential use, specifically, it will provide much needed low- and middle income housing units and, with regards to ZR § 73-03(b), that no public improvement project has been approved or is pending “before the Board of Estimate, Site Selection Board or the City Planning Commission” that would interfere with the subject proposal; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR, Part 617.4; and

WHEREAS, the City Planning Commission of the City of New York (“CPC”) conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 17DCP071K, dated January 13, 2017; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual

Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, on January 17, 2017, CPC issued a Negative Declaration, ULURP Nos. 170070ZMK, N170071ZRK, prepared in accordance with Article 8 of the Environmental Conservation Law 6 NYCRR Part 617, proposing that an (E) designation (E-412) be assigned to the project site for significant adverse impacts related to hazardous materials, air quality, and noise; and

WHEREAS, the (E) designation (E-412) text related to hazardous materials is as follows:

## Task 1 – Sampling Protocol

The applicant submits to OER, for review and approval, a Phase I of the site along with a soil, groundwater and soil vapor testing protocol, including a description of methods and a site map with all sampling locations clearly and precisely represented. If site sampling is necessary, no sampling should begin until written approval of a protocol is received from OER. The number and location of samples should be selected to adequately characterize the site, specific sources of suspected contamination (i.e., petroleum based contamination and non-petroleum based contamination), and the remainder of the site's condition. The characterization should be complete enough to determine what remediation strategy (if any) is necessary after review of sampling data. Guidelines and criteria for selecting sampling locations and collecting samples are provided by OER upon request.

## Task 2 – Remediation Determination and Protocol

A written report with findings and a summary of the data must be submitted to OER after completion of the testing phase and laboratory analysis for review and approval. After receiving such results, a determination is made by OER if the results indicate that remediation is necessary. If OER determines that no remediation is necessary, written notice shall be given by OER.

If remediation is indicated from test results, a proposed remediation plan must be submitted to OER for review and approval. The applicant must complete such remediation as determined necessary by OER. The applicant should then provide proper documentation that the work has been satisfactorily completed.

A construction-related health and safety plan should be submitted to OER and would be implemented during excavation and

---

# MINUTES

---

construction activities to protect workers and the community from potentially significant adverse impacts associated with contaminated soil, groundwater and/or soil vapor. This plan should be submitted to OER prior to implementation; and

WHEREAS, the (E) designation (E-412) text related to air quality is as follows:

Any new development or enlargement on the above referenced property must use natural gas as the type of fuel for heating, ventilating, and air conditioning for the (HVAC) system and ensure that the HVAC stack is located at least 88 feet above grade to avoid any potential significant adverse air quality impacts.

In order to ensure an acceptable interior noise environment, future residential/commercial uses on the above referenced property must provide a closed window condition with a minimum of 31 dBA window/wall attenuation on the north-facing, east-facing and west-facing facades in order to maintain an interior noise level of 45 dBA. In order to maintain a closed-window condition, an alternate means of ventilation must also be provided; and

WHEREAS, the City Planning Commission determined that no other significant effects on the environment which would require an Environmental Impact Statement are foreseeable; and

WHEREAS, based upon its review of the record, the Board concludes that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-03 and 73-433; and

*Therefore it is Resolved*, that the Board of Standards and Appeals adopts a Type I Negative Declaration issued by the City Planning Commission on January 17, 2017, for CEQR No. 17DCP071K, as prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, effective as of the date of this grant, and makes each and every one of the required findings under ZR §§ 73-03 and 73-433 to permit, on a site located within an R7D zoning district, the waiver of 35 accessory off-street parking spaces required for a building located on the zoning lot containing income-restricted housing units, contrary to ZR § 25-23; *on condition* that all work shall substantially conform to drawings as they apply to the objections above noted filed with this application marked “Received August 30, 2017” – four (4) sheets and “Received October 13, 2017” – three (3) sheets, and *on further condition*:

THAT the Existing Building shall contain “income-

restricted housing units,” as that term is defined in ZR § 12-10, for the life of the Proposed Building or, in the alternative, shall provide the required parking upon the termination of the income-restricted units;

THAT restricted income and affordable housing units shall be provided and retained as described in the restrictive declaration and the regulatory agreements;

THAT recreational space at the site shall be provided as shown on the Board-approved plans;

THAT an e-designation (E-412) relating to hazardous materials and air quality be placed on the subject site;

THAT prior to the issuance of permits by the Department of Buildings, a restrictive declaration shall be recorded in the Office of the City Register in Kings County substantially conforming to the form and substance of the following:

DECLARATION, made this \_\_\_\_ day of \_\_\_\_\_, 201\_, by GRANT DEVELOPMENT ASSOCIATES, L.P., (“Declarant”) having an office at 124 Atlantic Avenue, Lynbrook, New York, 11583.

WHEREAS, the Declarant is the fee owner of certain land located in the City and State of New York, Borough of Brooklyn, designated as Block 1205, Lot 28 and Pending Lot 127 on the Tax Map of the City of New York (the “Premises”), and more particularly described by a metes and bounds description set forth in Schedule A annexed hereto and by this reference made a part hereof;

WHEREAS, the Premises is improved with a six-story Section 8 housing building (the “Existing Building”) which contains 78 “income-restricted housing units” as defined by Section 12-10 of the New York City Zoning Resolution (“ZR”). Thirty-five accessory parking spaces are provided in an open parking lot on the Premises for the 78 “income-restricted housing units”, pursuant to the parking requirements of former ZR §25-25, as amended, in effect in 1981. See Certificate of Occupancy No. 219091, dated January 23, 1981, in Schedule B annexed hereto and by this reference made a part hereof;

WHEREAS, Declarant has requested by application assigned BSA Cal. No. 2016-4333-BZ that the New York City Board of Standards and Appeals (the “Board”) grant a special permit, under ZR §73- 433 (the “Special Permit”), to waive the 35 off-street parking spaces that are accessory to the Existing Building;

WHEREAS, the special permit requires that the elimination of accessory parking for the 78 “income-restricted housing units” facilitate the development of new affordable housing on the zoning lot;

WHEREAS, the grant of the Special Permit will facilitate the construction of a nine-story residential building (the “Proposed Building”) with 47 “income-restricted housing units” and 46 units that are not income-restricted housing units but that

---

---

are subject to rental restrictions pursuant to the Department of Housing Preservation and Development (“HPD”) regulatory agreements. Pursuant to ZR §25-251, no parking spaces are required for the 47 “income-restricted housing units.” Pursuant to ZR §25-23, twenty-three parking spaces are required and will be provided for the 46 other housing units in the Proposed Building. The portion of the Premises presently occupied by the existing 35 space parking lot will be developed with the Proposed Building and 23 parking spaces; and

WHEREAS, the Board requires Declarant to execute and record in the Office of the City Register of the City of New York this restrictive declaration prior to obtaining a building permit for the Premises;

NOW THEREFORE, in consideration of the Board’s approval of the Special Permit, Declarant does hereby declare that Declarant and its successors and/or assigns shall be legally responsible for compliance with the following restrictions:

1. If any of the 78 units in the Existing Building cease to be “income-restricted housing units” as defined by ZR §12-10 or the 47 “income restricted housing units” as defined by ZR §12-10 in the Proposed Building cease to be “income restricted housing units”, Declarant shall provide accessory parking as required by the Zoning Resolution;
2. This declaration may not be modified, amended or terminated without the prior written consent of the Board
3. The covenants set forth herein shall run with the land and be binding upon and inure to the benefit of the parties hereto and their respective heirs, legal representatives, successors and assigns;
4. Failure to comply with the terms of this declaration may result in the revocation of a building permit or Certificate of Occupancy as well as any other authorization or waiver granted by the Board, including, but not limited to, the Special Permit; and
5. This declaration shall be recorded at the city register’s (county clerk’s) office against the Premises and the cross-reference number and title of the declaration shall be recorded on each temporary and permanent certificate of occupancy hereafter issued to any buildings located on the Premises and in any deed for the conveyance thereof.

IN WITNESS WHEREOF, Declarant has made and executed the foregoing restrictive declaration as of the date hereinabove written.

THAT the above conditions shall appear on the certificate of occupancy;

THAT substantial construction shall be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, November 14, 2017.

Present: Chair Perlmutter, Vice-Chair Chanda, and Commissioner Ottley-Brown and Commissioner Sheta.

### SPECIAL ORDER CALENDAR

#### 240-55-BZ

APPLICANT – Rothkrug Rothkrug & Spector LLP, for DLC Properties LLC, owner.

SUBJECT – Application December 24, 2015 – Extension of Term (§11-411) of a previously approved variance which permitted the operation of an automotive repair facility (UG 16B) which is set to expire on November 3, 2018; Amendment (§11-413) to permit a change in use from automotive repair facility (UG 16B) to automotive sales (UG 9A); Extension of Time to Obtain a Certificate of Occupancy which expired on April 1, 2015; Waiver of the Rules to permit the filing for an Extension of Term in excess of 1 year prior to the expiration and for filing in excess of 30 day but less than 1 year of the expiration of the time to obtain a Certificate of Occupancy. C2-2/R6B & R4 zoning district.

PREMISES AFFECTED – 207-22 Northern Boulevard, Block 7305, Lot 19, Borough of Queens.

#### COMMUNITY BOARD #11Q

**ACTION OF THE BOARD** – Dismissed for Lack of Prosecution.

#### THE VOTE TO DISMISS –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

Abstain: Commissioner Sheta.....1

#### THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board's Rules of Practice and Procedure and, pursuant to ZR § 11-411, an extension of the term of a variance, previously granted by the Board, which will expire on November 3, 2018, an amendment to the same to facilitate a change in use and an extension of time to obtain a certificate of occupancy, which expired on April 1, 2015; and

WHEREAS, a public hearing was held on this application on August 23, 2016, after due notice by publication in *The City Record*, with continued hearings on October 18, 2016, December 13, 2016, January 31, 2017, and September 12, 2017, and then to decision on November 21, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown, former Vice-Chair Hinkson and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, by letter dated March 8, 2016, Community Board 11, Queens, recommended approval of this application on condition that there be no road testing of vehicles on 45th Road, that the gate on 45th Road be locked

at night after business hours and that all lights in the parking lot be directed away from residences; and

WHEREAS, by follow up letter dated November 7, 2016, Community Board 11, Queens, reported that upon review of the operational plan presented by the applicant and the plan for test drives out of the facility, the Community Board agreed that the operational plan was acceptable and that the use of 45th Road would be preferable to driving cars through a showroom onto Northern Boulevard; and

WHEREAS, New York Senator Tony Avella submitted two letters into the record reporting a constituent's concerns with the subject application; and

WHEREAS, the subject site is located on the south side of Northern Boulevard, between 206th Street and Oceania Street, partially within an R4 zoning district and partially within an R6B (C2-2) zoning district, in Queens; and

WHEREAS, the site is a through lot with approximately 50 feet of frontage along Northern Boulevard, 50 feet of frontage along 45th Road, 10,000 square feet of lot area and is occupied by an automotive repair shop; and

WHEREAS, the Board has exercised jurisdiction over the subject property since December 13, 1955, when, under the subject calendar number, the Board granted a variance to permit the construction of a one-story building to be used for body and fender repair, auto repairs, car and motor washing, welding, painting and spraying in conjunction with the owner's premises at the northwest corner of 209th Street and Northern Boulevard and to permit the use of the unbuilt upon space at the rear for a term of five (5) years, expiring December 13, 1960, on condition that the space at the rear be leveled and surfaced; a woven wire fence be positioned along the interior lot lines and rear lot lines with no openings therein to the property at either side or to 45th Road; a close split sapling fence be attached to the woven wire fence to a total height of five feet six inches facing on the exterior; fire fighting appliances be maintained as the Fire Commissioner directs; the building not be increased in height or area beyond that proposed; the sidewalk and curbing in front of the premises be restored or repaired to the satisfaction of the Borough President; one gasoline pump and one 550 gallon approved storage tank be installed within the building solely for use by the owner for cars being repaired; and there be no sign on the exterior of the building advertising sale or storage of gasoline; and

WHEREAS, on April 3, 1956, under the subject calendar number, the Board amended the resolution to state that, in the event the owner wished to rearrange the interior layout of the building by installing approved type paint and spray booth instead of building a paint and spray room, installing four additional skylights, making a total of six, and constructing a 5'-6" high masonry wall along the east and west lot lines where the building does not occur and along the 45th Road building line with a 10 foot wide sliding wood gate and a 3 foot wide exit door and to install a 15 foot wide curb cut on 45th Road, such changes may be

---

# MINUTES

---

made provided the requirements of the resolution be complied with in all other respects; and

WHEREAS, on June 26, 1956, under the subject calendar number, the Board further amended the resolution insofar as it referenced the building line fences, permitted the fences previously required on 45th Road to be changed from 5'-6" high masonry wall to 8 foot high chain link fence with posts 10 feet on center and permitted a similar gate to 45th Road as was permitted by the April 3, 1956, resolution; and

WHEREAS, on March 12, 1957, under the subject calendar number, the Board amended the reference to the gasoline dispensing system in the December 13, 1955, resolution to permit two additional gasoline pumps to be installed within the building and two 550 gallon approved gasoline storage tanks to be installed outside the building for the sole use by the owner for cars being repaired; and

WHEREAS, on September 17, 1958, under the subject calendar number, the Board further amended the resolution to add, in addition to the uses previously permitted at the site, the purchase, sale and exchange of automotive vehicles and products, provided that such uses were not contrary to any specific law, and to omit the reference to the site being used in connection with the owner's premises at the northwest corner of 209th Street and Northern Boulevard; and

WHEREAS, on November 15, 1960, under the subject calendar number, the Board extended the term of the variance for five (5) years, expiring November 15, 1965, on condition that illegal signs be removed on both the Northern Boulevard and 45th Road frontages and that a new certificate of occupancy be obtained; and

WHEREAS, on November 3, 1965, under the subject calendar number, the Board extended the term of the variance for another term of five (5) years, expiring November 3, 1970, on condition that a certificate of occupancy be obtained; and

WHEREAS, on February 23, 1971, under the subject calendar number, the Board extended the term of variance for a term of ten (10) years, expiring November 3, 1980, on condition that the a new certificate of occupancy be obtained; and

WHEREAS, on June 18, 1974, under the subject calendar number, the Board amended the resolution to allow the lot to be reduced in area and the building to be substantially altered as shown on revised drawings; and

WHEREAS, on January 27, 1981, under the subject calendar number, the Board amended the resolution to extend the term for five (5) years, expiring November 3, 1985, on condition that vehicular traffic entering and exiting on 45th Road be kept to a minimum; the rule against parking on the sidewalk on Northern Boulevard and 45th Road be enforced; the gate adjoining the property immediately to the east be removed; the existing fences in back of the property for its full length be restrung and repaired; the existing fence and gate fronting on 45th Road be screened on the inside with wooden slates 8 inches wide by 3 inches apart placed horizontally and all fences and wood slats be repainted

every two years; and that a new certificate of occupancy be obtained within one year, by January 27, 1982; and

WHEREAS, on July 9, 1986, under the subject calendar number, the Board, upon receiving a sworn affidavit from the owners declaring that they would close the opening in the fence between the subject lot and Lots 47 and 48 and operate with the doors facing 45th Road closed, the Board amended the resolution to extend the term of the variance for three (3) years, expiring November 3, 1988, on condition that the hours of operation be limited to 8:30 a.m. to 5:00 p.m. Monday through Friday, closed Saturday and Sunday; the rear overhead doors facing 45th Road be kept closed at all times during business hours except when cars enter or leave the building; there be no opening on the easterly lot line fence between the subject lot and Lot 48; the adjacent Lots 47 and 48 not be used in conjunction with the site; the ventilation systems shown on the plans be kept operating at all times during business hours; that no certificate of occupancy be issued until the ventilation system was installed and operational; and that a new certificate of occupancy be obtained within six months, by January 9, 1987; and

WHEREAS, on February 13, 1990, under the subject calendar number, the Board extended the term of the variance for five (5) years, expiring November 3, 1993, and legalized the elimination of the spray paint booth, the gasoline pump and the body and fender repair uses on condition that a new certificate of occupancy be obtained within one year, by February 13, 1991; and

WHEREAS, on June 7, 1994, under the subject calendar number, the Board extended the term of the variance for five (5) years, expiring November 3, 1998, on condition that a new certificate of occupancy be obtained within one year, by June 7, 1995; and

WHEREAS, on May 25, 1999, under the subject calendar number, the Board again extended the term of the variance for a term of ten (10) years, expiring November 3, 2008, and granted an amendment to the variance permitting the existing opening in the fence between the parking area of the subject site and the owner's property to the east on condition that no vehicles be parked on the sidewalk; the premises be kept clean of debris and graffiti; all landscaping be maintained in accordance with the BSA approved plans; all lighting be pointed away from residential uses and that a new certificate of occupancy be obtained with one (1) year, by May 25, 2000; and

WHEREAS, on March 6, 2001, under the subject calendar number, the Board amended the resolution to permit the construction of a second story on the existing commercial building, a total of 5,000 square feet, to be occupied as office and storage space, on condition that the office use be limited to 1960 square feet; that any changes to the office occupancy require approval from the BSA; the building not be accessible from 45th Road; all fencing and screening surrounding the premises be maintained; and that substantial work be completed within two years, by March 6, 2003; and

WHEREAS, on April 29, 2003, under the subject

---

# MINUTES

---

calendar number, the Board granted an extension of the time to obtain a certificate of occupancy for two (2) years, expiring April 29, 2005, on condition that the premises be maintained free of debris and graffiti and that any graffiti located on the premises be removed within 48 hours; and

WHEREAS, on February 13, 2007, under the subject calendar number, the Board granted another extension of time for two (2) years on condition that substantial construction on the second story be completed by February 13, 2009; and

WHEREAS, on April 28, 2009, under the subject calendar number, the Board granted a third extension of time for three (3) years, on condition that substantial construction be completed by April 28, 2012; and

WHEREAS, on December 8, 2009, under the subject calendar number, the Board extended the term of the variance for ten (10) years, expiring November 3, 2018, and amended specific prior conditions to the grant, thereafter requiring that no spray-painting be performed on site; the gate remain closed and no access be provided from the site to 45th Road; no vehicles be parked on the sidewalk; the premises be maintained free of debris and graffiti; all lighting be directed away from residential uses; the hours of operation be limited to Monday through Friday, 8:00 a.m. to 6:00 p.m. and closed on weekends; and that a new certificate of occupancy be obtained by June 8, 2010; and

WHEREAS, on April 1, 2014, under the subject calendar number, the Board granted an extension of time to obtain a certificate of occupancy for one (1) year on condition that a certificate of occupancy be obtained by April 1, 2015; and

WHEREAS, the applicant filed the subject application for an extension of the term, an amendment to the variance to permit a change in use from automotive repair (Use Group 16) to automobile sales (Use Group 9), an extension of time to obtain a certificate of occupancy, and, pursuant to § 1-14.2 of the Board's Rules of Practice and Procedure, a waiver of Rule § 1-07.3(d)(2), to permit the filing of an application for an extension of time to obtain a certificate of occupancy more than thirty (30) days after the expiration of that time, and Rule § 1-07.3(b)(2), to permit the filing of an application for an extension of term more than one (1) year before the expiration of the term; and

WHEREAS, the Board expressed concern regarding the proposed use of 45th Road for access to the accessory parking on the site, past residential neighbors located in an R4 zoning district, and requested an operational plan; and

WHEREAS, at hearing on October 17, 2016, upon receipt of the operational plan, which described how automobiles would exit the subject site by its rear gate onto 45th Road and return to the site via the same gate, the Board requested that the applicant, instead, explore options for operating test drives from Northern Boulevard, including potentially obtaining an easement for access to Northern Boulevard through an adjacent lot; and

WHEREAS, by submission dated November 16, 2016, the applicant revised its proposal to request that, should the application be granted, the Board condition the resolution on

vehicles for test drive being parked at Lot 29, a lot located immediately the east of the subject site and under common control; and

WHEREAS, in light of this representation, at the hearing held on January 31, 2017, the Board requested that a fence be placed across the 45th Road to prevent egress from that curb cut by cars as well as a written easement agreement regarding the provision of parking on Lot 29; and

WHEREAS, the next three hearings—scheduled for March 21, 2017, June 27, 2017, and September 12, 2017—were subsequently adjourned at the applicant's request; and

WHEREAS, at the executive session held on September 11, 2017, the Board remarked on the slow prosecution of this case, including the failure of the applicant to provide, among other things, the easement agreement with Lot 29 requested on January 31, 2017, and warned that should such materials not be received by the next hearing, the Board would vote to deny or dismiss the application for failure to prosecute; and

WHEREAS, at hearing on September 12, 2017, the applicant repeated that the subject proposal was to close the curb cut on 45th Road and require that all vehicular access to the site be through Northern Boulevard, and explained that the delay in prosecution was due to time needed to explore whether test drives could be removed from the subject site entirely; and

WHEREAS, the applicant's representative stated that the applicant had determined that test drives could, indeed, be eliminated from the subject site; and

WHEREAS, the Chair specifically asked the applicant's representative whether the applicant would object to a condition that test drives not occur at this site and the applicant's representative indicated that such a condition would not pose a problem; and

WHEREAS, the applicant subsequently requested an adjournment of the next hearing, scheduled for November 21, 2017, which the Board denied; and

WHEREAS, at the hearing held on November 21, 2017, the applicant's representative stated that the applicant had determined that the elimination of vehicular access to the rear of the lot was not acceptable; and

WHEREAS, the Board expressed frustration that it had theretofore been led to believe that the applicant was amenable to the Board's requests regarding the minimal use of 45th Road, a means of access that has been a concern of the Board throughout the more than 60 years the Board has exercised jurisdiction over the site; and

WHEREAS, to wit, with regards to access to 45th Road from the subject site, previous grants have been conditioned on, among other things, the positioning of a woven wire fence with no openings to the property to 45th Road (December 13, 1955); traffic entering and exiting on 45th Road being kept to a minimum (January 27, 1981); the building not being accessible from 45th Road (March 6, 2001); and no access being provided from the site to 45th Road (December 8, 2009); and

*Therefore, it is Resolved,* that the subject application is hereby dismissed for lack of prosecution; the site must

---

# MINUTES

---

comply with the terms and conditions, including all conditions from prior resolutions not specifically waived by the Board, of the most recent grant issued under the subject calendar number, dated April 1, 2014.

Adopted by the Board of Standards and Appeals, November 21, 2017.

APPLICANT – Carl A. Sulfaro, Esq., for The Rand Properties Group, LLC, owner; Danes Parking Corp., lessee. SUBJECT – Application May 9, 2016 – Extension of Term (§11-411) of a previously approved variance which permitted a parking lot (UG 8) which expired on June 3, 2010; Waiver of the Rules. R8 zoning district.

PREMISES AFFECTED – 53 East 177<sup>th</sup> Street (fka 53-57 East 177<sup>th</sup> Street), Block 2828, Lot 1, Borough of Bronx.

### COMMUNITY BOARD #5BX

**ACTION OF THE BOARD** – Application granted on condition.

#### THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

Abstain: Commissioner Sheta.....1

#### THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and, pursuant to ZR §11-411, an extension of the term of a variance, previously granted by the Board, which expired on June 3, 2010; and

WHEREAS, a public hearing was held on this application on February 14, 2017, after due notice by publication in *The City Record*, with a continued hearing on September 12, 2017, and then to decision on November 21, 2017; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 5, Bronx, recommends approval of this application; and

WHEREAS, the subject site is located on the northeast corner of East 177<sup>th</sup> Street and Walton Avenue, in an R8 zoning district, in the Bronx; and

WHEREAS, the site has approximately 75 feet of frontage along East 177<sup>th</sup> Street, 100 feet of frontage along Walton Avenue, 7,500 square feet of lot area and is occupied as a Use Group 8 parking lot; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 8, 1960, when, under the subject calendar number, the Board granted a variance to permit, in a residence use district, the maintenance of a parking lot for the parking and storage of more than five motor vehicles for a term of ten (10) years, expiring March 8, 1970, on condition that the surface of the lot is paved with clean cinders or gravel, treated with a binder and properly rolled and drained to the satisfaction of the Borough Superintendent; the northerly curb cut to Walton Avenue be eliminated; an entrance gate and curb cut on East 177<sup>th</sup>

Street would be permitted if the owner desired; there be provided, where shown, a 5 foot 6 inch woven wire fence on an eight inch concrete curb; and there be no signs other than the sign required by the Commissioner of License; and

WHEREAS, on June 23, 1970, under the subject calendar number, the Board granted an extension of the term of the variance for five (5) years, expiring March 8, 1975, on condition that the gates be made 50 percent opaque; paving and bumpers comply with the rules and regulations of the Department of Buildings; sidewalks in front of the premises be paved from building line to curb in compliance with the rules and regulations of the Department of Highways within two months; that the lot be cleaned and so maintained; and that a new certificate of occupancy be obtained; and

WHEREAS, on April 22, 1975, under the subject calendar number, the Board granted an additional extension of term for five (5) years, expiring April 22, 1980; and

WHEREAS, on June 3, 1980, under the subject calendar number, the Board granted a ten (10) year extension of the term of the variance, expiring June 3, 1990, on condition that the use be limited to Use Group 8 for pleasure cars only, dead storage be prohibited, bumpers be installed where required and the existing canopy be removed and that a new certificate of occupancy be obtained within one (1) year; and

WHEREAS, on June 5, 1990, under the subject calendar number, the Board granted another ten (10) year extension of term of the variance, expiring June 3, 2000; and

WHEREAS, on July 24, 2007, under the subject calendar number, the Board granted a waiver of its Rules and granted a ten (10) year extension of the term of the variance, expiring June 3, 2010; and

WHEREAS, the previous term having expired, the applicant seeks a ten (10) year extension of the term of the variance; and

WHEREAS, additionally, the applicant requests a waiver, pursuant to § 1-14.2 of the Board’s Rules of Practice and Procedure, or Rule § 1-07.3(b)(3)(i) more than two years but less than ten years after the expiration of the term; and

WHEREAS, the applicant represents that the use has been continuous since the expiration of the term and that substantial prejudice would result without the requested waiver; and

WHEREAS, based on observations based on submitted photographs of the site, the Board requested that certain site work be completed prior to decision, including painting and repairing the existing fence, making the existing fence more opaque so as to obscure the use from its residential neighbors, removing barbed wire from the site and improving the condition of the existing attendant’s booth; and

WHEREAS, the applicant subsequently submitted photos evidencing the completion of this requested site work; and

WHEREAS, in addition, upon learning that the existing fence and attendant booth were not located within

# MINUTES

the bounds of the subject site, but were, instead, located, at least in part, on the public sidewalk, the Board requested that the fence and attendant's booth be relocated to within the subject property lines; and

WHEREAS, the applicant revised the plans to show revised locations for both the fence and attendant booths; and

WHEREAS, the applicant having satisfactorily addressed the Board's concerns regarding the site's appearance and maintenance, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 11-411 and finds that a ten (10) year extension of the term of the variance is appropriate with certain conditions as set forth below.

*Therefore, it is Resolved*, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated March 8, 1960, as amended through July 24, 2007, so that as amended this portion of the resolution reads: "to grant an extension of the term of the variance for a term of ten (10) years from the expiration of the last grant, to expire on June 3, 2020, *on condition* that all work and site conditions shall comply with drawings filed with this application marked 'Received November 6, 2017- One (1) sheet; and *on further condition*:

THAT the fence and attendant's booth be relocated prior to obtaining a revised certificate of occupancy;

THAT the lot be cleaned and so maintained;

THAT that the use be limited to Use Group 8 for pleasure cars only;

THAT dead storage be prohibited;

THAT the above conditions shall appear on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT a new certificate of occupancy be obtained within one (1) year;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, November 21, 2017.

## 30-00-BZ

APPLICANT – Fried, Frank, Harris Shriver & Jacobson LLP, for The Trustees of Columbia University in the City of New York, lessee.

SUBJECT – Application February 17, 2016 – Extension of term of a previously granted variance granted pursuant to §72-21 of the zoning resolution which permitted an open parking lot (Use Group 8) which expired on February 6, 2016. R7-2 zoning district.

PREMISES AFFECTED – 465-469 West 165<sup>th</sup> Street and

458-464 West 166<sup>th</sup> Street, Block 2111, Lot(s) 53, 54, 55, 57, 71, 72, 73, Borough of Manhattan.

## COMMUNITY BOARD #12M

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

Abstain: Commissioner Sheta.....1

THE RESOLUTION –

WHEREAS, this is an application for an extension of term of a variance, previously granted by the Board, which expired February 6, 2016; and

WHEREAS, a public hearing was held on this application on May 24, 2016 after due notice by publication in *The City Record*, with continued hearings on October 14, 2016, March 28, 2017, May 23, 2017, and September 12, 2017 and then to decision on November 21, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown, former Vice-Chair Hinkson and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 12, Manhattan, recommends approval of this application for a term of three (3) years or through the end of Columbia University's current lease; and

WHEREAS, the subject site is located on the south side of West 166<sup>th</sup> Street, between Amsterdam Avenue and Edgecomb Avenue, in an R7-2 zoning district, in Manhattan; and

WHEREAS, the site has approximately 125 feet of frontage along West 166<sup>th</sup> Street, 65 feet of frontage along West 165<sup>th</sup> Street, 17,730 square feet of lot area and is occupied by an open parking lot; and

WHEREAS, the Board has exercised jurisdiction over the subject site since February 6, 2001, when, under the subject calendar number, the Board granted a variance to permit the operation of an open parking lot in Use Group 8 for a term of five (5) years, expiring February 6, 2006, on condition that no vehicles be parked on the sidewalk, that there be no parking of commercial vehicles, that the subject site be kept clean and free of debris, that the site remain graffiti free at all times, that all fencing be maintained in accordance with the Board-approved plans, that the above conditions appear on the certificate of occupancy and that a new certificate of occupancy be obtained within one (1) year, by February 6, 2002; and

WHEREAS, on February 27, 2007, under the subject calendar number, the Board granted an extension of term of the variance for ten (10) years, expiring February 6, 2016, on condition that the term appear on the certificate of occupancy; and

WHEREAS, the term of the variance having expired, the applicant now seeks an additional extension of term for ten (10) years; and

WHEREAS, the applicant represents that there are approximately 71 parking spaces for motor vehicle parking

# MINUTES

and storage at the subject site with seven bicycle parking spaces and that these conditions will be maintained; and

WHEREAS, as to the term proposed by Community Board 12, Manhattan, the applicant notes that control of the subject site has transferred from The Trustees of Columbia University in the City of New York (“Columbia University”) to New York Presbyterian Hospital and that accordingly an extension of term of ten (10) years is appropriate to meet the parking needs of the employees of New York Presbyterian Hospital; and

WHEREAS, at hearing, the Board requested additional information about maintenance and operation of the subject site; and

WHEREAS, in response, the applicant submits that new fencing relocated to the property line has been installed with privacy slats, that a new parking attendant’s booth has been constructed, shields have been placed on lights to prevent spillover onto adjacent residential properties and the sign bracket along West 166th Street has been removed and provided additional information regarding stability of the concrete-block wall; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of term is appropriate with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated February 6, 2001, as amended February 27, 2007, so that as amended this portion of the resolution shall read: “to *grant* extension of term of the variance for ten (10) years, expiring February 6, 2026; *on condition* that the use and operation of the parking lot shall substantially conform to the drawings filed with this application marked ‘Received November 1, 2017’-Four (4) sheets; and *on further condition*:

THAT the term of this grant shall be for ten (10) years, expiring February 6, 2026;

THAT no vehicles shall be parked on the sidewalk;

THAT there shall be no parking of commercial vehicles;

THAT the subject site shall be kept clean and free of debris;

THAT the site shall remain graffiti free at all times;

THAT all fencing shall be maintained in accordance with the Board-approved plans;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by November 21, 2021;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the

Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, November 21, 2017.

## COMMUNITY BOARD #17BK

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4  
Negative: .....0

THE RESOLUTION –

WHEREAS, this is an application for a Waiver of the Board’s Rules of Practice and Procedure, an amendment to a previously granted special permit and an extension of term for the same, which expired on February 2, 2016; and

WHEREAS, a public hearing was held on this application on November 21, 2017, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, the subject site is bound by Ditmas Avenue to the southeast, East 91st Street to the northeast and Remsen Avenue to the southwest, within an R5 (C1-2) zoning district, in Brooklyn; and

WHEREAS, the site has approximately 200 feet of frontage along Ditmas Avenue, 100 feet of frontage along East 91st Street, 140 feet of frontage along Remsen Avenue, 24,000 square feet of lot area and is occupied by a one-story eating and drinking establishment with a drive-through and 27 accessory parking spaces; and

WHEREAS, the Board has exercised jurisdiction over the subject site since August 14, 2001, when, under the subject calendar number, the Board granted a special permit, pursuant to ZR § 73-243, to allow an accessory drive-through facility at a then-proposed eating and drinking establishment on condition that the premises remain graffiti free at all times, that landscaping be maintained in accordance with the Board-approved plans and that the hours of operation for the drive-through be Sunday through Thursday, 10:00 a.m. through 11:00 p.m. and Friday and Saturday, 10:00 a.m. to midnight; and

WHEREAS, on February 1, 2005, under the subject calendar number, the Board amended the resolution to change the hours of operation of the drive-through facility to

---

# MINUTES

---

10:00 a.m. to 1:00 a.m., daily, for a term of one (1) year, expiring February 1, 2006, on condition that, upon closure of the main restaurant at 11:00 p.m., the parking areas on the site shall be chained off by restaurant staff so that no vehicle access to these areas is possible and that the chains shall be visible to drivers at night in accordance with the note on the Board-approved plans and that all landscaping be planted and maintained as indicated on the approved plans and all trees adjacent to the neighboring residential uses be maintained at a maximum height of 6 feet; and

WHEREAS, on October 17, 2006, under the subject calendar number, the Board further amended the resolution to extend the term of the special permit for an additional five (5) years, expiring February 1, 2011, on condition that the premises be maintained free of debris and graffiti; any graffiti located on the premises be removed within 48 hours; all garbage removal be performed between 6:00 a.m. and 1:00 a.m.; the hours of operation for the drive-through be 10:00 a.m. to 2:00 a.m., Sunday through Wednesday, and 10:00 a.m. to 3:00 a.m., Thursday through Saturday; the parking lot be closed and chained off at 11:00 p.m. each night; signs reading "Please lower your radio as a courtesy to our neighbors," "This area of the parking lot closes at 11:00 p.m.," and "Any comments or suggestions regarding the operation of this facility should be directed to the store manager" be prominently posted at the site in accordance with Board-approved plans; and

WHEREAS, on July 12, 2011, under the subject calendar number, the Board extended the term of the special permit for an additional five (5) years, expiring February 1, 2016, on condition that there be no change in the operator of the eating and drinking establishment without prior approval of the Board; landscaping be maintained in accordance with the Board-approved plans; the premises be maintained free of debris and graffiti; any graffiti located on the premises be removed within 48 hours; all garbage removal be performed between the hours of 6:00 a.m. and 1:00 a.m.; the hours of operation of the drive-through be limited to Sunday through Wednesday, 10:00 a.m. to 2:00 a.m., and Thursday through Saturday, 10:00 a.m. to 3:00 a.m.; and a new certificate of occupancy be obtained by July 12, 2012; and

WHEREAS, by letter dated August 31, 2016, the Board approved a change in the operator of the eating and drinking establishment from Quality Is Our Recipe, LLC to Briad Wenco, LLC, noting that the establishment would continue to be a Wendy's restaurant; and

WHEREAS, the last term having expired, the applicant seeks an extension of the term of the special permit for an additional five (5) years as well as an amendment to the previously approved hours of operation for the facility, to 9:00 a.m. to 2:00 a.m., daily, and modifications to the previously approved plans, specifically, alterations to the site plan to bring the site into ADA compliance, improvements to the building façade and new exterior signage; and

WHEREAS, in addition, the applicant seeks a waiver of the Board's Rules of Practice and Procedure, pursuant to § 1-14.2, of § 1-07.3(b)(2) to permit the filing of this

application less than two (2) years after the expiration of the term; and

WHEREAS, in accordance with that Rule, the applicant has demonstrated that the subject eating and drinking establishment with accessory drive-through facilities has been continuous since the expiration of the term and that substantial prejudice would result without the requested waiver; and

WHEREAS, in accordance with ZR § 73-03(f), the Board finds the circumstances warranting the original grant still maintain and that the applicant has complied with the conditions and safeguards theretofore described by the Board during the prior term; and

WHEREAS, therefore, the Board finds that the requested five (5) year extension of term for the subject special permit, amendment to the hours of drive-through facility and modifications to the previously approved plans are appropriate with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated August 14, 2001, as amended through July 12, 2011, so that as amended this portion of the resolution reads: "to permit the extension of the term of the special permit for an additional five years from February 1, 2016, to expire on February 2, 2021; *on condition* that all work and site conditions shall comply with drawings filed with this application marked 'Received August 3, 2017- Six (6) sheets; and *on further condition*:

THAT the term of this grant shall expire on February 1, 2021;

THAT there shall be no change in the operator of the subject eating and drinking establishment without the prior approval of the Board;

THAT landscaping shall be maintained in accordance with the BSA-approved plans;

THAT the premises shall be maintained free of debris and graffiti;

THAT any graffiti located on the premises shall be removed within 48 hours;

THAT all garbage removal shall be performed between the hours of 6:00 a.m. and 1:00 a.m.;

THAT the hours of operation for the drive-through shall be limited to: 9:00 a.m. to 2:00 a.m., daily;

THAT the parking lot shall be closed and chained off at 11:00 p.m. each night;

THAT the above conditions and reference to this calendar number (BSA Cal No 111-01-BZ) shall appear on the certificate of occupancy;

THAT signs reading: "Please lower your radio as a courtesy to our neighbors"; "This area of the parking lot closes at 11:00 p.m."; and "Any comments or suggestions regarding the operation of this facility should be directed to the storage manager" shall be prominently posted at the site in accordance with the BSA-approved plans;

THAT a new certificate of occupancy shall be obtained by July 12, 2012;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the

---

Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, November 21, 2017.

## 227-02-BZ

APPLICANT – Stanley K. Schlein, Esq., for 4201 Webster Corp., owner.

SUBJECT – Application August 21, 2015 – Extension of Term (§§72-01 and 72-22) of a previously approved variance which permitted the operation of an automotive service station (UG 16B) with an accessory convenience store which expired on December 12, 2013; Amendment to the condition of term since the term expired in excess of 2 years but less than ten years; Extension of Time to Obtain a Certificate of Occupancy which expired on December 10, 2006; Waiver of the Board’s Rules. R7-A zoning district. PREMISES AFFECTED – 527 East 233<sup>rd</sup> Street, Block 3395, Lot 80, Borough of Bronx.

## COMMUNITY BOARD #12BX

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

Abstain: Commissioner Sheta.....1

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and an amendment, extension of term and extension of time to obtain a certificate of occupancy of a variance, previously granted by the Board, which expired December 12, 2013; and

WHEREAS, a public hearing was held on this application on November 15, 2016, after due notice by publication in *The City Record*, with a continued hearing on April 25, 2017, and then to decision on November 21, 2017; and

WHEREAS, Community Board 12, Bronx, recommends approval of this application; and

WHEREAS, the subject site is located on the north side of East 233<sup>rd</sup> Street, between Peters Place and Webster Avenue, in an R7A zoning district, in the Bronx; and

WHEREAS, the site has approximately 76 feet of frontage along East 233<sup>rd</sup> Street, 191 feet of frontage along Peters Place, 192 feet of frontage along Webster Avenue, 19,570 square feet of lot area and is occupied by a gasoline service station and a one-story accessory convenience store; and

WHEREAS, the Board has exercised jurisdiction over the subject site since December 10, 2002, when, under the subject calendar number, the Board granted a variance to

permit the construction and operation of a gasoline service station and an accessory convenience store for a term of ten (10) years, expiring December 10, 2012, on condition that the proposal comply with the fire safety measures stated on the Proposed Conditions Site Plan (sheet 2 of 6) and that the above conditions be noted on the certificate of occupancy; and

WHEREAS, the term of the variance having expired, the applicant now seeks an amendment, an extension of term and an extension of time to obtain a certificate of occupancy; and

WHEREAS, in addition, the applicant requests a waiver, pursuant to § 1-14.2 of the Board’s Rules of Practice and Procedure, of Rule § 1-07.3(b)(3)(ii) to permit the filing for an extension of term more than two (2) years after but less than ten (10) years after the expiration of the term; and

WHEREAS, the applicant represents that an amendment to the condition of the Board’s prior grant is necessary because more than two (2) years but less than ten (10) have passed since the variance expired; and

WHEREAS, the applicant has demonstrated that the use has been continuous since the expiration of term and that substantial prejudice would result without such a waiver and amendment; and

WHEREAS, in response to Board questions regarding landscaping, the storage container and ice box, banners and flags, accessibility and striping of parking spaces, the applicant revised the drawings; and

WHEREAS, the applicant also submitted evidence indicating installation of fencing around the storage container, cleaning of building walls and fencing, removal of graffiti, removal of extraneous flags and banners, painting of parking lines and relocation of the ice box from the accessible entrance to the accessory building; and

WHEREAS, based upon its review of the record, the Board finds the requested waiver and amendment, extension of term and extension of time to obtain a certificate of occupancy are appropriate with certain conditions as set forth below.

*Therefore, it is Resolved*, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure and *reopens* and *amends* the resolution, dated December 10, 2002, so that as amended this portion of the resolution reads: “to grant an extension of the term of the variance for a term of ten (10) years from the expiration of the last grant, to expire December 10, 2022; *on condition* that all work and site conditions shall comply with drawings filed with this application marked ‘Received September 26, 2017’ - One (1) sheet; and *on further condition*:

THAT the term of the variance shall be limited to ten (10) years from the expiration of the last grant, expiring December 10, 2022;

THAT the proposal shall comply with the fire safety measures stated on the Proposed Conditions Site Plan (sheet 2 of 6);

THAT the above conditions shall be noted on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained

# MINUTES

within four (4) years, by November 21, 2021;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, November 21, 2017.

## 107-06-BZ

APPLICANT – Rothkrug Rothkrug & Spector LLP, for 817 Lexington LLC entities c/o Managing Guy LLC, owner; Equinox 63<sup>rd</sup> Street, Inc., lessee.

SUBJECT – Application January 27, 2017 – Extension of Term of a previously approved Special Permit (§ 73-36) to allow a physical culture establishment use (Equinox) in the cellar, sub cellar, first floor and second floor of a 22 story mixed use building which expires on February 27, 2017. C1-8X/R8B zoning district. Landmark Building (Barbizon Hotel For Women).

PREMISES AFFECTED – 140 East 63<sup>rd</sup> Street, Block 1397, Lot 7505, Borough of Manhattan.

## COMMUNITY BOARD #8M

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

Abstain: Commissioner Sheta.....1

THE RESOLUTION –

WHEREAS, this is an application for the extension of a term of a previously granted special permit for a physical culture establishment (“PCE”), which expired on February 27, 2017, and amendment to reflect a change in hours of operation; and

WHEREAS, a public hearing was held on this application on September 12, 2017, after due notice by publication in *The City Record*, with a continued hearing on November 21, 2017, and then to decision on the same date; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 8, Manhattan, recommends approval of the application; and

WHEREAS, the subject site is located on the southeast corner of the intersection of East 63rd Street and Lexington Avenue, partially located within a C1-8X zoning district and

partially located within an R8B zoning district, in Manhattan; and

WHEREAS, the site has approximately 120 feet of frontage along East 63rd Street, 112 feet of frontage along Lexington Avenue, 13,137 square feet of lot area and is occupied by a 22-story mixed-use commercial and residential building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since February 27, 2007, when, under the subject calendar number, the Board granted a special permit, pursuant to ZR § 73-36, to allow the establishment of a PCE in the sub-cellar, cellar, first floor and second floor levels of the subject building for a term of ten (10) years, expiring February 27, 2017, on condition that there be no change in ownership or operating control without prior application to and approval from the Board; that the hours of operation be limited to Monday through Thursday, 5:30 a.m. to 11:00 p.m., Friday, 5:30 a.m. to 10:00 p.m., and Saturday and Sunday, 8:00 a.m. to 9:00 p.m.; that massages only be performed by New York State licensed massage therapists; and that these conditions appear on the Certificate of Occupancy; and

WHEREAS, on January 8, 2013, under the subject calendar number, the Board amended the resolution to permit the expansion of the PCE on the first floor to a total of 19,164 square feet of floor area in the subject building; and

WHEREAS, the term of the prior term having expired, the applicant seeks an extension of the term of the special permit and a change to the hours of operation on Saturday and Sundays only to 7:00 a.m. to 9:00 p.m.; and

WHEREAS, the applicant represents that there have been no changes to the floor area occupied by the subject PCE, which remains at 19,164 square feet, or the operator, Equinox Fitness Club; and

WHEREAS, an article from the New York Post, dated March 28, 2017, was entered into the record reporting that owners of residential units in the subject building initiated litigation against the subject PCE alleging that, *inter alia*, residents as high as the fifth floor could hear music and the dropping or throwing of weights emanating from the subject PCE space; and

WHEREAS, in light of this article, the Board requested that notice of the November 21, 2017, hearing be posted in the lobby of the building to notify building residents of the subject application; and

WHEREAS, at the November 21, 2017, hearing, the applicant informed that Board that building management would not permit the posting of the notice of hearing in the building, but would circulate the notice to residents via email; the applicant additionally stated that notice of the hearing was posted at various locations outside the subject building and provided photographs of such postings; and

WHEREAS, the Board notes that no public speakers appeared to give testimony on this application at the hearing on November 21, 2017, and no written objections were received on this application in advance of that hearing; and

WHEREAS, the applicant additionally provided an acoustical study, completed in October 2016, and stated that the following sound attenuation measures have been instituted

# MINUTES

at the site in response to neighborhood complaints: (1) management has been enforcing strict controls to eliminate Olympic lifting, weight drops and any other non-sanctioned behavior; (2) in September 2015, special 3” thick acoustical tiles were added to the second floor to abate noise and vibration transmission; (3) in October 2016, the head wall of the cycling studio on the second floor was rebuilt, windows in the cycling studio were permanently closed and the building shaft adjacent to the cycling studio was sealed; (4) in January 2016, new audio limiters were installed in both the second floor cycling studio and group fitness studio and a new audio system with better control over bass and tamper proof controls was installed in the boxing studio; (5) in November 2015, the strength area on the second floor was relocated; and (6) in December 2016, password protection was installed on all limiters and the volume was set to below typical club averages; and

WHEREAS, the applicant provided proof of Department of Buildings (“DOB”) signoff for sprinklers at the site as of May 28, 2008, and Fire Department approval of an interior fire alarm system, sprinklers and smoke detectors within the subject PCE space, dated May 4, 2010; and

WHEREAS, by letter dated June 2, 2017, the Fire Department states that the premise was last inspected for compliance with the Fire Code and DOB’s Place of Assembly regulations on October 3, 2016, the inspection account was approved and that the Fire Department has no objection to the approval of this application; and

WHEREAS, the Board finds that a ten (10) year extension and amendment to reflect a change in weekend hours, as requested, are appropriate, with the conditions set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated February 27, 2017, as amended through January 8, 2013, so that as amended this portion of the resolution shall read: “to permit an extension of the term of the special permit for a term of ten (10) years, expiring February 27, 2027, *on condition* that the site shall substantially conform to drawings as filed with this application, marked ‘Received January 27, 2017- Six (6) sheets; and *on further condition*:

THAT this grant shall be limited to a term of ten (10) years, expiring February 27, 2027;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT the hours of operation shall be limited to Monday through Thursday, 5:30 a.m. to 11:00 p.m., Friday, 5:30 a.m. to 10:00 p.m., and Saturday and Sunday, 7:00 a.m. to 9:00 p.m.;

THAT massages shall only be performed by New York State licensed massage therapists;

THAT noise abatement measures shall be maintained in the PCE space to ensure that sound levels—including sounds emanating from any sound system, if installed—do not exceed 45 dBA;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT the existing approved interior fire alarm—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, and connection to an FDNY-approved central station—shall be maintained throughout the entire PCE space;

THAT minimum 3 foot wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, November 21, 2017.

PREMISES AFFECTED – 2170 Mill Avenue, Block 8470, Lot 1150, Borough of Brooklyn.

### COMMUNITY BOARD #18BK

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative: .....0

THE RESOLUTION –

WHEREAS, this is an application for an extension of time to complete construction, which expired on May 7, 2017; and

WHEREAS, a public hearing was held on November 21, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, the subject site is located on the west side of Mill Avenue, between Avenue U and Avenue V, partially within an R3-1 zoning district and partially within an R3-1 (C2-2) zoning district, in Brooklyn; and

WHEREAS, the site has approximately 100 feet of frontage along Mill Avenue, a depth of 460 feet and 46,000 square feet of lot area; and

WHEREAS, the Board has exercised jurisdiction over the subject site since May 7, 2013, when, under the subject calendar number, the Board granted a variance to permit the construction of a multi-family residential development contrary to ZR §§ 22-10, 23-141, 23-22, 23-45, 23-451 and 23-631 on condition that the resulting building have 54,615 square feet of floor area (1.19 FAR), a maximum perimeter wall height and building height of 41’-1”, a Mill Avenue street wall height of 29’-9”, a front yard with a depth of 8 feet along the unpaved 60 foot wide right-of-way abutting the eastern lot line of the site (the “Avenue V Easement”), a front yard with a depth of 25 feet along Mill Avenue, a rear yard with a depth of 30 feet, 48 dwelling units, 1,542.83 square feet of front yard planning along the Avenue V Easement, and 50 on-grade parking spaces, as indicated on the BSA-approved plans; all signage at the site be consistent with BSA-approved plans; all requirements associated with the E designation (E-71) are satisfied; and that substantial construction be completed within four (4) years, by May 7, 2017; and

WHEREAS, the time to complete construction having expired, the applicant seeks the herein requested relief; and

WHEREAS, the applicant submits that an extension is needed to allow additional time to secure financing for the development; and

WHEREAS, based upon its review of the record, the Board finds that a four (4) year extension of time to complete construction is appropriate with certain conditions, as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated May 7, 2013, so that as amended this portion of the resolution reads: “to grant a four (4) year extension of time to complete construction to May 7, 2021; and *on further condition*:

THAT the following shall be the bulk parameters of the building: 54,615 square feet of floor area (1.19 FAR), a maximum perimeter wall height and building height of 41’-1”, a Mill Avenue street wall height of 29’-9”, a front yard with a depth of 8 feet along the unpaved 60 foot wide right-of-way abutting the eastern lot line of the site (the “Avenue V Easement”), a front yard with a depth of 25 feet along Mill Avenue, a rear yard with a depth of 30 feet, 48 dwelling units, 1,542.83 square feet of front yard planning along the Avenue V Easement, and 50 on-grade parking spaces, as indicated on the BSA-approved plans;

THAT all signage at the site shall be in accordance with BSA-approved plans;

THAT all requirements associated with the E designation (E-71) are satisfied;

THAT substantial construction shall be completed within four (4) years, by May 7, 2021;

THAT all conditions from the prior resolution not

# MINUTES

specifically waived by the Board remain in effect; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) ad/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, November 21, 2017.

## THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated May 3, 2017, acting on Department of Buildings (“DOB”) Application No. 421226774 reads in pertinent part:

1. As per Zoning Resolution 22-10, Use Group 6 (Commercial) is not permitted “As-of-Right” in a Residential district;
2. As per Zoning Resolutions [sic] 23-45, proposed Front Yard is deficient [...];
3. As per Zoning Resolution 23-462, proposed Side Yards are deficient [...];
4. As per Zoning Resolution Section 23-142, maximum allowable residential FAR is exceeded [...]; and

WHEREAS, this is an application under ZR § 72-21 to permit, on a site located in an R4-1 zoning district, the construction of a two-story plus cellar mixed-use commercial and residential building contrary to the use, front yard, side yards, floor area and floor area ratio regulations set forth in ZR §§ 22-10, 23-45, 23-462 and 23-142; and

WHEREAS, a public hearing was held on this application on August 22, 2017, after due notice by publication in *The City Record*, with a continued hearing on November 21, 2017, and then to decision on that date; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the subject site and surrounding neighborhood; and

WHEREAS, Community Board 5, Queens, recommends approval of this application on condition that the applicant plant three street trees along the Myrtle Avenue frontage and one street tree on the 74th Street frontage of the site; and

WHEREAS, the subject site is located on the northwest corner of Myrtle Avenue and 74th Street, within an R4-1 zoning district, in Queens; and

WHEREAS, the site has approximately 102 feet of frontage along Myrtle Avenue, 35 feet of frontage along 74th Street, 2,620 square feet of lot area and is currently vacant; and

WHEREAS, the applicant originally proposed a building with 4,195 square feet of floor area, including 2,158 square feet of residential floor area and 2,037 square feet of commercial floor area, a floor area ratio (“FAR”) of 1.60, one 5 foot side yard, no front yards and zero parking spaces; and

WHEREAS, the original proposal additionally required a waiver of Section 35 of the General City Law and a companion application for that relief was filed under BSA Cal. No. 2016-1220-A; and

WHEREAS, upon review of the application filed under BSA Cal. No. 2016-1220-A, the New York City Department of Transportation recommended that the proposed building be aligned with the existing structures on the block; and

WHEREAS, the applicant subsequently revised the proposal to construct a building with 4,705 square feet of floor area, including 2,708 square feet of residential floor area and 1,997 square feet of commercial floor area, a front yard

fronting Myrtle Avenue that varies in width from 3’-11” to 2’-9”, no front yard fronting 74th Street, no side yards and two parking spaces accessible from a 14 foot curb cut on Myrtle Avenue; and

WHEREAS, the applicant proposes Use Group 6 commercial use on the ground floor accessible from Myrtle Avenue, two two-bedroom apartments on the second floor accessible from a residential lobby fronting 74th Street, and storage located in the cellar; and

WHEREAS, the revised proposal no longer requires a waiver of the General City Law and the application filed under BSA Cal. No. 2016-1220-A was, accordingly, withdrawn by the applicant; and

WHEREAS, by letter dated May 10, 2016, the Fire Department states that it has no objections to the subject application provided that the building will be fully sprinklered and a fire hydrant is located within 250 feet of the main front entrance; and

WHEREAS, at the subject site, commercial use is not permitted pursuant to ZR § 22-10; one front yard of at least 10 feet is required pursuant to ZR § 23-45; two side yards measuring at least 8 feet each are required pursuant to ZR § 23-462; and a maximum residential FAR of 0.75 is permitted pursuant to ZR § 23-142; and

WHEREAS, the applicant states that, pursuant to ZR § 72-21(a), the irregular shape, narrowness of the lot are unique physical conditions that create a practical difficulty and unnecessary hardship in developing the site in conformance with the underlying district regulations, particularly the front and side yard requirements; and

WHEREAS, the applicant submits that the subject lot approximates the shape of a bowtie, narrower in its middle than at either side, which vary in width from 22 feet at the western end to 35 feet at the eastern end, and that this shape results in infeasibly narrow, triangular floorplates for an as-of-right building, specifically, one that varies in width from 18 feet to 7 feet; and

WHEREAS, in light of the foregoing, the Board finds that the irregular shape and narrowness of the site are unique physical conditions that create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, with regards to the (b) finding, the applicant submits that there is no reasonable possibility that a conforming development at the subject site will bring a reasonable return and, in support of that contention, submitted a financial analysis of (1) a two-story plus cellar residential building containing two one-bedroom dwelling units and 1,504 square feet of total floor area (the “AOR Residential Scenario”); (2) a two-story plus cellar mixed-use residential and community facility building with one studio dwelling unit on the second floor and 928 square feet of total floor area (the “AOR Mixed Use Scenario”) and (3) the subject proposal; and

WHEREAS, the financial analyses submitted with this application conclude that only the subject proposal will realize a positive return (0.1 percent); and

WHEREAS, upon review of the applicant’s submissions, the Board finds, in accordance with ZR § 72-21(b), that, due to

---

# MINUTES

---

the site's unique physical conditions, there is no reasonable possibility that a development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant states that the subject proposal will not substantially impair the appropriate use or development of adjacent properties and not be detrimental to the public welfare, in accordance with ZR § 72-21(c); specifically, the proposed ground floor commercial use is consistent with the immediately adjacent blocks with frontage along Myrtle Avenue, which are mapped within C1-3 overlays (the subject block is the only one within a stretch of approximately 13 blocks along Myrtle Avenue, from 72nd Street to 82nd street—a length of more than 3,000 feet—without the C1-3 overlay) and that the revised proposal to provide a front yard along Myrtle Avenue enables the proposed building to align with the building located immediately to the west so that both building provide a consistent front wall along the avenue; and

WHEREAS, the proposed plans include only one street tree along the Myrtle Avenue frontage and, in response to Board questions regarding the ability to provide three street trees along this frontage and one street tree along 74th Street, as recommended by the Community Board, the applicant represents that given the location of the site at a corner, the presence of a bus stop along the Myrtle Avenue frontage, a fire hydrant along the site's 74th Street frontage and New York City Department of Parks regulations regarding the placement of street trees in relation to those features—including a minimum distance of 40 feet from the corner of a street intersection to the tree trunk, a minimum distance of 3 feet from a fire hydrant to the edge of a tree pit and a minimum distance of 2 feet from a curb cut to the edge of a tree pit and 7 feet from a curb cut to the tree trunk—only one street tree could be accommodated at the subject site; and

WHEREAS, the Board finds that the subject proposal will not alter the essential character of the neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant represents and the Board finds that the hardship claimed as grounds for the variance was not created by the owner or a predecessor in title in accordance with ZR § 72-21(d); and

WHEREAS, the applicant submits that the subject proposal is the minimum variance necessary to afford relief because it is the only scenario that provides a return and will enable the applicant to successfully redevelop the site; and

WHEREAS, the Board finds that the subject proposal is the minimum necessary to afford the owner relief, particularly in light of revisions to the proposal that reduced the degree of the front yard waiver and eliminated waivers of the General City Law and applicable parking regulations previously sought in the original application; and

WHEREAS, the project is classified as an Unlisted Action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the

Final Environmental Assessment Statement CEQR No. 16BSA075Q, dated February 7, 2017; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

*Therefore, it is Resolved*, that the Board of Standards and Appeals does hereby issue a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR § 72-21 to permit, in an R4-1 zoning district, the construction of a two-story plus cellar mixed-use commercial and residential building contrary to the use, front yard, side yards, floor area and floor area ratio regulations set forth in ZR §§ 22-10, 23-45, 23-462 and 23-142; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received November 20, 2017"—Eight (8) sheets; and *on further condition*:

THAT the maximum envelope of the building shall be as follows: a maximum of 4,705 square feet of floor area (a maximum of 1,997 square feet of commercial floor area (0.76 FAR) and a maximum of 2,708 square feet of residential floor area (1.03 FAR)), a total maximum FAR of 1.80, no side yards, no front yard along the 74th Street frontage, and a front yard along the Myrtle Avenue frontage with a depth of at least 2'-9" at the western end of the site so that the building aligns with the existing two-story building located immediately adjacent to the site to the west, as illustrated on the Board-approved plans;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a certificate of occupancy shall be obtained within four (4) years;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated January 27, 2017, acting on Department of Buildings (“DOB”) Application No. 321511440 reads in pertinent part:

1. Proposed plans are contrary to ZR 23-141 in that the proposed floor area ratio (FAR) exceeds the permitted 0.50;
2. Proposed plans are contrary to ZR 23-141 in that the proposed open space ratio (OSR) is less than the required 150%;
3. Proposed plans are contrary to ZR 23-461(a) in that the straight line extension of the North side yard results in a side yard with less than the required minimum 5’-0”;
4. Proposed plans are contrary to ZR 23-47 in that

the proposed rear yard is less than 30’-0”;

WHEREAS, this is an application under ZR § 73-622 to permit, in an R2 zoning district, the proposed enlargement of a two-story plus cellar and attic detached single-family residence that does not comply with the zoning requirements for floor area ratio, open space ratio, side yards and rear yards, contrary to ZR §§ 23-141, 23-461(a) and 23-47; and

WHEREAS, a public hearing was held on this application on September 12, 2017, after due notice by publication in *The City Record*, with a continued hearing on November 21, 2017, and then to decision on the same date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application on condition that the proposed side entrance and two window wells be eliminated from the proposal; and

WHEREAS, in addition, the Board was in receipt of one letter in support and two letters in objection to the subject application; the objectors raised concerns about the small size of the lot and ability to accommodate the proposed enlargement, that the proposal is out of scale and does not match the style of adjacent properties and repeated the Community Board’s request that the side entrance and two window wells be eliminated from the proposal; and

WHEREAS, the subject site is located on the east side of East 28th Street, between Avenue K and Avenue L, in an R2 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 27 feet of frontage along East 28th Street, a depth of 100 feet and 2,700 square feet of lot area; and

WHEREAS, the site is occupied by a two-story plus cellar and attic detached single-family home with 1,425 square feet of floor area, a floor area ratio (“FAR”) of 0.53, an open space ratio of 132, a rear yard measuring 35’-2 3/8”, side yards measuring 3’-9 5/8” and 7’-2 3/8” and a garage in the rear yard; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single- or two-family detached* or *semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General

---

# MINUTES

---

Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge an existing detached single-family

residence, as contemplated by ZR § 73-622; and

WHEREAS, the applicant proposes to remove the garage located in the rear yard and enlarge the existing residence with two-story plus attic extensions into both the southern side yard and rear yard and an additional one-story addition in the rear yard resulting in a dwelling with 2,684 square feet of floor area, 0.99 FAR, an open space ratio of 53, a 20 foot rear yard at the first story and 27 foot rear yard at the second story and attic levels and side yards measuring 3'-9 5/8" and 5'-2 3/8"; and

WHEREAS, the applicant initially proposed, in addition, a one-story greenhouse in the rear yard, a stoop and two window wells in the northern side yard; and

WHEREAS, in response to concerns raised by the Community Board and comments from the Board that the window wells were located very close to the property line and an adjacent driveway and that the proposed greenhouse further reduced the proposed 20 foot rear yard, the applicant revised the plans to remove those aspects of the proposal and a neighbor who had previously submitted a letter in opposition to the proposal confirmed in testimony provided at public hearing and the reasons for his objections were no longer applicable; and

WHEREAS, at the subject site, a maximum FAR of 0.50 is permitted and an open space ratio of at least 150.0 is required pursuant to ZR § 23-141; two side yards totaling at least 13 feet and a minimum width of 5 feet each are required pursuant to ZR § 23-461(a); and a rear yard of at least 30 feet is required pursuant to ZR § 23-47; and

WHEREAS, additionally, pursuant to ZR § 23-48, because the subject lot is narrower than the minimum lot width for single-family detached residences located in R2 zoning districts set forth in ZR § 23-32 and the applicant submitted evidence that the subject site was owned separately and individually from all other adjoining tracts of land on December 15, 1961, and on the date of application for a building permit, the required total width of the side yards may be reduced as-of-right to 8'-8", but each side yard must have a minimum width of five feet; and

WHEREAS, with regards to the existing non-complying 3'-9 5/8" northern side yard, which is proposed to be maintained, the applicant submitted Sanborn maps demonstrating that a building was located at the site in substantially the same location as the existing building since at least 1930, prior to the 1961 Zoning Resolution; and

WHEREAS, the applicant submitted an analysis of single- or two-family dwellings located within 400 feet of the subject premises located within an R2 zoning district (the "Study Area") concluding that, of the 109 residences in the Study Area, excluding the subject site, 106 residences (97 percent) has an open space ratio of less than 150 and 25 residences (23 percent) have open space ratios of less than 60; 98 residences (90 percent) have FARs of greater than 0.50 and 29 (27 percent) have FARs of 0.90 or greater; and, of the 41 residences on the subject tax block, 17 residences (41 percent) have rear yards with a depth of less than 30 feet, 9 residences (22 percent) have rear yards 20 feet in depth or less and 32 residences (78 percent) have garages located in the rear yards, including 10 residences (24 percent) that also have rear yards

---

# MINUTES

---

less than 30 feet deep, effectively decreasing their rear yard depths; and

WHEREAS, in light of the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

*Therefore it is Resolved*, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622, to permit, in an R2 zoning district, the proposed enlargement of a two-story plus cellar and attic detached single-family residence that does not comply with the zoning requirements for floor area ratio, open space ratio, side yards and rear yards, contrary to ZR §§ 23-141, 23-461(a) and 23-47; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received November 21, 2017"-Eleven (11) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area ratio of 0.99 (2,684 square feet of floor area), a minimum open space ratio of 56, a rear yard of at least 20 feet at the first story and at least 27 feet at the second story and attic levels, and side yards measuring at least 3'-9 5/8" and 5'-2 3/8", as illustrated on the BSA-approved plan; and

THAT all existing exterior walls and wall joists indicated to remain undisturbed on the BSA-approved plans shall remain or the special permit is void;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the special relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, November 21, 2017.

#### THE RESOLUTION –

WHEREAS, the decision of the Chief Plan Examiner of the Manhattan Borough Office of the Department of Buildings (“DOB”), dated April 19, 2017, acting on DOB Application No. 123076027, reads in pertinent part:

Proposed use of portion of cellar and first floor as a Physical Culture Establishment (PCE) is not permitted as of right in C6-1G Zoning District and is contrary to ZR Section 32-10 . . . .; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, on a site located within a C6-1G zoning district, a physical culture establishment (“PCE”) in portions of the cellar and first floor levels of an existing seven-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on November 21, 2017, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Community Board 3, Manhattan, waived its recommendation for this application; and

WHEREAS, the subject site is located on the east side of Bower, between Delancey Street and Broome Street, in a C6-1G zoning district, in Manhattan; and

WHEREAS, the site has approximately 23 feet of

frontage along Bowery, a depth of 114 feet along the southern lot line and a depth of 115 feet along the northern lot line, 2,670 square feet of lot area and is occupied by a seven-story plus cellar commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
  - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
  - (ii) a swimming pool of a minimum 1,500 square feet; or
  - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
  - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

---

# MINUTES

---

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE occupies 1,782 square feet of floor area on the first floor with an exercise studio, locker area and retail space, and 1,842 square feet of floor space in the cellar of the subject building containing a second open exercise studios, bathrooms, showers and office space; and

WHEREAS, the PCE has been in operation as Mark Fisher Fitness Bowery since November 2016 with the following hours of operation: Monday through Friday, 6:00 a.m. to 10:00 p.m., and Saturday through Sunday 7:00 a.m. to 6:00 p.m.; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential nor future use or development of the surrounding area because it is of limited size, located in a commercial building in a commercial zoning district and on a heavily trafficked street with easy access by public transportation; and

WHEREAS, the applicant additionally submitted that the following sound attenuation measures to mitigate any adverse impacts of the use to tenants of the subject and surrounding buildings: studio partitions are isolated from adjacent structure with two layers of 5/8" sheetrock in the studio and two layers outside of the studio, with green glue, and 4" sound attenuated batt insulation; all flooring at the studio is 4" isolated mat subfloor with neoprene isolators, fiberglass batting and perimeter isolation boards at all edges; all penetrations at studio ceilings and partitions are sealed with mineral fiber insulation and caulked; and all partitions have an STC rating of 60 and flooring have an STC rating of 64; and

WHEREAS, in light of the foregoing, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant submits that the PCE provides group and individual physical fitness instruction utilizing calisthenics and functional training equipment, including free weights, cable pulls, resistance training and kettlebells; and

WHEREAS, the Board finds that the subject PCE use

is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant states that sprinklers and fire alarm systems—including smoke detectors, manual pull stations, local audible and visual alarms and a connection to an FDNY-approved central station—are installed throughout the PCE space; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, the applicant represents that the PCE will not interfere with any public improvement projects; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated at the premises without the special permit; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 17-BSA-124M dated May 18, 2017; and

*Therefore it is Resolved*, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to legalize, on a site located within a C6-1G zoning district, a physical culture establishment in portions of the cellar and first floor levels of an existing seven-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received May 18, 2017"—Three (3) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on November 1, 2026;

THAT the following sound attenuation measures shall be maintained as indicated on the Board-approved plans to ensure that the subject use does not violate the New York City Noise Code: studio partitions are isolated from adjacent structure with two layers of 5/8" sheetrock in the studio and two layers outside of the studio, with green glue, and 4" sound attenuated batt insulation; all flooring at the studio is 4" isolated mat subfloor with neoprene isolators, fiberglass batting and perimeter isolation boards at all edges; all penetrations at studio ceilings and partitions are sealed with mineral fiber insulation and caulked; and all partitions have an STC rating of 60 and flooring have an STC rating of 64;

THAT there will be no change in ownership or operating control of the PCE without prior application to

# MINUTES

and approval from the Board;

THAT accessibility compliance under Local Law 58/87 will be as reviewed and approved by DOB;

THAT the existing fire alarm and sprinkler systems shall be maintained as indicated on the Board-approved plans;

THAT minimum 3 foot wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, November 21, 2017.

### CEQR #17-BSA-137M

APPLICANT – Francis R. Angelino, Esq., for Tahor 26 Owner, LLC, owner; EBF NY 1, LLC, lessee.

SUBJECT – Application June 7, 2017 – Special Permit (§73-36) to permit the operation of a physical culture establishment (*Every Body Fights*) in a portion of the cellar of an existing commercial building contrary to ZR §32-10. C5-3 (MID) zoning district.

PREMISES AFFECTED – 295 Madison Avenue, Block 1275, Lot 50, Borough of Manhattan.

### COMMUNITY BOARD #5M

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative: .....0

**THE RESOLUTION** –

WHEREAS, the decision of the Deputy Borough Commissioner, dated June 1, 2017, acting on Department of Buildings (“DOB”) Application No. 123095907, reads in pertinent part:

ZR 32-10: Proposed basement and first floor “Physical Culture Establishment” is not permitted As-Of-Right in C5-3 and C5-2.5 as per section ZR 32-10. Use as the physical cultural health establishment in C5-3 and C5-2.5 shall comply with 73-36...; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, on a site located partially within a C5-2.5 zoning district and partially within a C5-3 zoning

district, in the Special Midtown District, a physical culture establishment (“PCE”) in portions of the basement and first floor levels of an existing 45-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on November 21, 2017, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Community Board 5, Manhattan, waived its recommendation for this application; and

WHEREAS, the subject site is located on the southeast corner of Madison Avenue and East 41st Street, partially within a C5-2.5 zoning district and partially within a C5-3 zoning district, in the Special Midtown District, in Manhattan; and

WHEREAS, the site has approximately 47 feet of frontage along Madison Avenue, 185 feet of frontage along East 41st Street, 13,725 square feet of lot area and is occupied by a 45-story plus basement and cellar commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
  - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
  - (ii) a swimming pool of a minimum 1,500 square feet; or
  - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
  - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or

---

---

addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE occupies 140 square feet of floor area on the first floor, providing access to the PCE from East 41st Street, and 6,500 square feet of floor area in the basement with boxing rings, locker rooms, cardiovascular equipment, and a reception area; and

WHEREAS, the PCE has been in operation since August 2017 as Every Body Fights with the following hours of operation: Monday through Friday, 5:00 a.m. to 9:00 p.m., and Saturday through Sunday, 9:00 a.m. to 3:00 p.m.; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because it is located in a commercial building in the heavily trafficked Special Midtown District and will draw its patrons from the immediate area, which is well-served by public transportation; and

WHEREAS, though the main portion of the PCE space is separated from office uses in the subject building by the ground floor, sound mitigation measures, including acoustical treatments in the ceiling and partitions, have been installed in the portions of the basement occupied by the PCE to mitigate any adverse impacts of the use to other building tenants; specifically: demising partitions are

isolated from adjacent structure with two layers of 5/8” sheetrock inside and two layers outside and 3-5/8” sound attenuated Thermafiber insulation; ceilings are two layers 5/8” sheetrock on wave hangers with 2-1/2” Thermafiber insulation and 2” thick K-13 spray insulation; floors are 9mm finish rubber flooring on 4mm acoustical rubber underlayment; all penetrations at studio ceilings and partitions are sealed with mineral fiber insulation and caulked; partitions have an STC rating of 56, the ceiling has an STC rating of 55 and the floor has an STC rating of 56; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant submits that the PCE contains facilities for the provision of physical fitness instruction, including boxing, cardiovascular, strength and circuit exercises; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant states that sprinklers and fire alarm systems—including smoke detectors, manual pull stations, local audible and visual alarms and a connection to an FDNY-approved central station—are installed throughout the PCE space; and

WHEREAS, the applicant provided evidence that sprinklers at the site were inspected and approved by DOB on August 11, 2017; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, the applicant represents that the PCE will not interfere with any public improvement projects; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated at the premises without the special permit; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 17-BSA-137M, dated June 7, 2017; and

*Therefore it is Resolved*, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to legalize, on a site partially located

**COMMUNITY BOARD #9Q**

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative: .....0

**THE RESOLUTION** –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure, an extension of term of a variance, previously granted by the Board, which expired June 1, 2015, and an extension of time to obtain a certificate of occupancy; and

WHEREAS, a public hearing was held on this application on December 5, 2017, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the east side of 111th Street, between Jamaica Avenue and 91st Avenue, partially in an R3-1 zoning district and partially in a C2-4 (R6A) zoning district, in Queens; and

WHEREAS, the site has approximately 100 feet of frontage along 111th Street, 100 feet of depth, 10,000 square feet of lot area and is occupied by a two-story commercial building and accessory parking lot; and

WHEREAS, the Board has exercised jurisdiction over the subject site since February 9, 1954, when, under the subject calendar number, the Board granted a variance to permit the construction and maintenance of a commercial building with a curb cut nearer a residence district than permitted on condition that the lots to the south with a two-story frame building thereon remain occupied for residential use under the same ownership to act as a buffer and not be

used in any way with Lot 124, that the loading building and use not be extended beyond what therein permitted and shown on such plans and for use only in conjunction with the subject site under the same ownership facing on Jamaica Avenue, that fences be maintained on the lot lines and street building line of the portion of the plot to be left vacant, with no openings therein except to 111th Street, where an opening may be permitted of a width not over 15 feet and fitted with gates of similar construction as the fences, that the site be paved with concrete, that there be no windows opening to the rear and any openings proposed in the rear be filled with glass blocks as approved for exterior walls, that no signs be erected on the site, except there may be a small sign not over 15 square feet in area attached to the fence at the street line, that opposite the opening in the fence there may be a curb cut of similar width and that such portable fire-fighting equipment be installed as the Fire Department directs; and

WHEREAS, on June 1, 1960, under the subject calendar number, the Board granted a variance to permit the construction of a two-story extension to the one-story building occupying more than the permitted area and encroaching on the required rear yard, extending the present use on the first floor, the second floor for offices, with customer and employee parking on the open area on condition that the variance on the parking area be limited to a term of twenty (20) years, expiring June 1, 1980, that there be no additional driveway door on 111th Street and that there be no additional signs on 111th Street; and

WHEREAS, on October 18, 1960, under the subject calendar number, the Board amended the resolution to add thereto that in the event the owner desires to eliminate the southerly door from the existing building and to install an overhead door in the new building, such changes may be permitted and that the curb cuts on 111th Street and the gate to the parking area be arranged substantially as shown on the revised plot plan; and

WHEREAS, on June 20, 1961, under the subject calendar number, the Board granted an extension of time to obtain permits and complete the work on condition that a certificate of occupancy be obtained; and

WHEREAS, on February 10, 1981, under the subject calendar number, the Board granted an extension of term of the variance for a term of five (5) years from June 1, 1980, to June 1, 1985, on condition that the existing canopy structure connecting both two-story buildings be removed by no later than September 1, 1981, and that the graffiti on the front façade of the building be removed and that a new certificate of occupancy be obtained within one (1) year, by February 10, 1982; and

WHEREAS, on June 8, 1982, under the subject calendar number, the Board amended the variance to permit the construction of a canopy structure connecting two buildings on condition that a new certificate of occupancy be obtained within one (1) year, by February 10, 1983; and

WHEREAS, on January 14, 1986, under the subject calendar number, the Board granted an extension of term of the variance for five (5) years, expiring June 1, 1990, for the

---

# MINUTES

---

parking area only on condition that a certificate of occupancy be obtained within one (1) year, by January 14, 1987; and

WHEREAS, on July 3, 1990, under the subject calendar number, the Board granted an extension of term of the variance for five (5) years, expiring June 1, 1995, on condition that a new sidewalk and curb be installed prior to the issuance of a temporary or permanent certificate of occupancy and that a new certificate of occupancy be obtained within one (1) year, by July 3, 1991; and

WHEREAS, on January 9, 1996, under the subject calendar number, the Board granted an extension of term of the variance for ten (10) years, expiring June 1, 2005, on condition that the parking lot be used solely as accessory parking for tenants, employees and visitors, that all site lighting be directed downward and away from adjacent residential uses and that a new certificate of occupancy be obtained within one (1) year, by January 9, 1997; and

WHEREAS, on April 8, 1997, under the subject calendar number, the Board granted an extension of time to obtain a certificate of occupancy for 15 months, expiring April 8, 1998; and

WHEREAS, on May 2, 2006, under the subject calendar number, the Board granted an extension of term of the variance for ten (10) years, expiring June 1, 2015; and

WHEREAS, the term of the variance having expired, the applicant now seeks an extension of term of the variance and an extension of time to obtain a certificate of occupancy; and

WHEREAS, in addition, the applicant requests a waiver, pursuant to § 1-14.2 of the Board's Rules of Practice and Procedure, of Rule § 1-07.3(b)(3) to permit the filing for an extension of term less than ten (10) years after the expiration of the term; and

WHEREAS, the applicant has demonstrated that the use has been continuous since the expiration of term and that substantial prejudice would result without such a waiver; and

WHEREAS, at hearing, in response to questions from the Board, the applicant submitted that there is a chain at the subject site that closes off the parking lot after business hours; and

WHEREAS, the Board finds that the requested extensions are appropriate with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *waive* its Rules of Practice and Procedure and *reopen* and *amend* the resolution, dated February 9, 1954, as amended through May 2, 2006, so that as amended this portion of the resolution shall read: "to grant an extension of term for ten (10) years, expiring June 1, 2025; on condition that all work and site conditions shall substantially conform to the drawings filed with this application marked 'Received August 21, 2017'-One (1) sheet; and on further condition:

THAT the chain closing off the parking lot after business hours shall be maintained;

THAT the parking lot shall be used solely as accessory

parking for tenants, employees and visitors;

THAT all site lighting shall be directed downward and away from adjacent residential uses;

THAT any graffiti on the front façade of the building shall be removed;

THAT there shall be no additional driveway door on 111th Street;

THAT there shall be no additional signs on 111th Street;

THAT fences shall be maintained on the lot lines and street building line of the portion of the plot to be left vacant, with no openings therein except to 111th Street, where an opening may be permitted of a width not over 15 feet and fitted with gates of similar construction as the fences;

THAT the site shall be paved with concrete;

THAT there shall be no windows opening to the rear and any openings proposed in the rear be filled with glass blocks as approved for exterior walls;

THAT no signs shall be erected on the site, except there may be a small sign not over 15 square feet in area attached to the fence at the street line;

THAT opposite the opening in the fence there may be a curb cut of similar width;

THAT such portable fire-fighting equipment shall be installed as the Fire Department directs;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by December 5, 2021;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted."

Adopted by the Board of Standards and Appeals, December 5, 2017.

## 617-56-BZ

APPLICANT – Kenneth H. Koons, AIA, for John O’Dwyer, owner.

SUBJECT – Application June 20, 2017 – Extension of Term (§11-411) of a previously approved variance which permitted the operation of a transient parking lot (UG 8) which is set to expired on September 27, 2017. C2-3/R6 & C1-3 zoning district.

PREMISES AFFECTED – 3120 Albany Crescent, Block 3267, Lot 15, Borough of Bronx.

### COMMUNITY BOARD #15BX

**ACTION OF THE BOARD** – Application granted on condition.

#### THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

Abstain: Commissioner Sheta.....1

#### THE RESOLUTION –

WHEREAS, this is an application under ZR § 11-411 for an extension of term of a variance, previously granted by the Board, which expired September 27, 2017; and

WHEREAS, a public hearing was held on this application on October 3, 2017, after due notice by publication in *The City Record*, and then to decision on December 5, 2017; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 8, Bronx, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of Albany Crescent, between West 231st Street and West 233rd Street, partially in an R6 (C1-3) zoning district and partially in an R6 (C2-3) zoning district, in the Bronx; and

WHEREAS, the site has approximately 112 feet of frontage along Albany Crescent, 162 feet of depth, 17,890 square feet of lot area and is occupied by an open parking lot with 66 spaces and an accessory office building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since April 9, 1957, when, under the subject calendar number, the Board granted a variance to permit the maintenance of a parking lot for the parking and storage of more than five (5) motor vehicles for a term of five (5) years, expiring April 9, 1962, on condition that all buildings and uses on the subject site be removed and the site be leveled substantially to the grade of Albany Crescent and be surfaced with clean gravel or steam cinders and treated with a binder and properly rolled, that there be constructed on all lot lines a woven wire fence of the chain link type not less than 5’-6” in height with no openings therein except two to Albany Crescent each not over 11 feet in width, that such opening be fitted with gates of similar construction which normally be kept closed except when the parking lot is in operation, that opposite such openings there may be two curb cuts now existing each not exceeding 11 feet in width, as shown, that during the term of this variance the site be occupied for no other use than as herein permitted, that there may be a building constructed for an office and shelter for

an attendant not exceeding 100 square feet in area, nor one story in height, which may be located near the entrance, that such portable fire-fighting appliances be maintained as the Fire Department directs, that there may be a sign attached to the fence at the entrance, that such sign not exceed 15 square feet in area and not extend beyond the building line, that proper bumpers be maintained against such fences for protection thereto and that a certificate of occupancy be obtained within six (6) months, by October 9, 1957; and

WHEREAS, on June 26, 1962, under the subject calendar number, the Board granted an extension of term for five (5) years, expiring June 26, 1967, on condition that a new certificate of occupancy be obtained; and

WHEREAS, on June 20, 1967, under the subject calendar number, the Board granted an extension of term for five (5) years, expiring June 26, 1972, on condition that a certificate of occupancy be obtained; and

WHEREAS, on June 6, 1972, under the subject calendar number, the Board granted an extension of term for five (5) years, expiring June 26, 1977, on condition that a new certificate of occupancy be obtained; and

WHEREAS, on September 27, 1977, under the subject calendar number, the Board granted an extension of term for five (5) years, expiring September 27, 1982, on condition that a new certificate of occupancy be obtained within one (1) year, by September 27, 1978; and

WHEREAS, on September 13, 1983, under the subject calendar number, the Board granted an extension of term for five (5) years, expiring September 27, 1987, on condition that the sidewalk and curb be repaired where necessary and that bumpers be installed or repaired where required and that a new certificate of occupancy be obtained within one (1) year, by September 13, 1983; and

WHEREAS, on January 12, 1988, under the subject calendar number, the Board granted an extension of term for five (5) years, expiring September 27, 1992, on condition that a new certificate of occupancy be obtained within one (1) year, by January 12, 1989; and

WHEREAS, on October 26, 1993, under the subject calendar number, the Board granted an extension of term for five (5) years, expiring September 27, 1997, on condition that the fences be maintained, that the site be maintained graffiti free and that a new certificate of occupancy be obtained within one (1) year, by October 26, 1994; and

WHEREAS, on January 13, 1998, under the subject calendar number, the Board granted an extension of term for ten (10) years, expiring September 27, 2007, on condition that the fencing be painted in a uniform color and adequately maintained, that the site be maintained graffiti free and that a new certificate of occupancy be obtained within one (1) year, by January 13, 1999; and

WHEREAS, on February 24, 2009, under the subject calendar number, the Board granted an extension of term for ten (10) years, expiring September 27, 2017, on condition that the term be listed on the certificate of occupancy and that a new certificate of occupancy be obtained by August 24, 2009; and

WHEREAS, the term of the variance having expired,

# MINUTES

the applicant now seeks an extension of term for an additional ten (10) years; and

WHEREAS, the applicant submitted a copy of a parking lot license issued by the New York City Department of Consumer Affairs (“DCA”) stating that the car capacity at the subject site is 80 parking spaces, which is more than the Board approved under the subject calendar number; and

WHEREAS, in response to concerns from the Board about the number of parking spaces at the site, the applicant amended the drawings to indicate that only 66 parking spaces are permitted, and the applicant represents any renewed parking lot license from DCA will only be for 66 parking spaces; and

WHEREAS, in response to further questions from the Board, the applicant submitted evidence that vinyl slats had been installed on the fencing with ragged edges, which the applicant states will be cut to create an even border along the top and bottom of the fencing; and

WHEREAS, based upon its review of the record, the Board finds the requested extension of term appropriate with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated April 9, 1957, as amended through February 24, 2009, so that as amended this portion of the resolution shall read: “to *grant* an extension of term for ten (10) years, expiring September 27, 2027; *on condition* that the use and operation of the site and all work shall substantially conform to drawings filed with this application marked ‘Received August 22, 2017’-Three (3) sheets; and *on further condition*:

THAT the term of this grant shall be limited to ten (10) years, expiring September 27, 2027;

THAT the vinyl slats installed on the fencing shall be trimmed to be even across the top and bottom of the fencing;

THAT the sidewalk and curb shall be repaired where necessary;

THAT bumpers shall be installed or repaired where required;

THAT the fences shall be painted in a uniform color and shall be adequately maintained;

THAT the site shall be maintained graffiti free;

THAT the above conditions shall be noted on the certificate of occupancy;

THAT a new certificate of occupancy shall be obtained within four (4) years, by December 5, 2021;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, December 5, 2017.

APPLICANT – Rothkrug Rothkrug & Spector LLP, for Anne Marie Cicciu Inc., owner.

SUBJECT – Application June 12, 2017 – Extension of Term of a Variance (§72-21) for a UG8 open parking lot and storage of motor vehicles which expired on May 12, 2017. R7-1 zoning district.

PREMISES AFFECTED – 2338 Cambreleng Avenue, Block 3089, Lot 22, Borough of Bronx.

### COMMUNITY BOARD #6BX

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative: .....0

THE RESOLUTION –

WHEREAS, this is an application for an extension of term of a variance, previously granted by the Board, which expired May 12, 2017; and

WHEREAS, a public hearing was held on this application on October 3, 2017, after due notice by publication in *The City Record*, and then to decision on December 5, 2017; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the east side of Cambreleng Avenue, south of Crescent Avenue, in an R7-1 zoning district, in the Bronx; and

WHEREAS, the site is occupied by an open parking lot; and

WHEREAS, the Board has exercised jurisdiction over the subject site since May 12, 1987, when, under the subject calendar number, the Board granted a variance for a term of ten (10) years, expiring May 12, 1997, to permit open parking and storage of motor vehicles in Use Group 8 on condition that the owner comply with the conditions set forth in the conditional negative declaration, that the variance be limited to a term of ten (10) years, that the lot be constructed in accordance with the Department of Buildings Rules for Parking Lots, that the lot be used for passenger vehicles only, that all lighting be directed down and away from adjoining residences, that the gate be locked after dark and that the above conditions be listed on the certificate of occupancy; and

WHEREAS, on November 23, 1999, under the subject calendar number, the Board granted an extension of term for ten (10) years, expiring May 12, 2007, on condition that all signs, lighting levels and landscaping be maintained in accordance with the Board-approved plans, that other than as amended the resolution be complied with in all respects and that a new certificate of occupancy be obtained within one (1) year, by November 23, 2000; and

WHEREAS, on May 3, 2011, under the subject

---

calendar number, the Board granted an extension of term for ten (10) years, expiring May 12, 2017, and an extension of time to obtain a certificate of occupancy, expiring May 3, 2012, on condition that the term appear on the certificate of occupancy; and

WHEREAS, the term of the variance having expired, the applicant now seeks an extension of term; and

WHEREAS, the applicant represents that that the subject site is in compliance with the Board's conditions and safeguards and that security features include a key access system and keeping the gate locked at all times when not in use; and

WHEREAS, based upon its review of the record, the Board finds that an extension of term is appropriate with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated May 12, 1987, as amended through May 3, 2011, so that as amended this portion of the resolution shall read: "to grant an extension of term for ten (10) years, expiring May 12, 2027; on condition that any and all work and site conditions shall substantially conform to the drawings filed with this application marked 'Received November 17, 2017'-One (1) sheet; and on further condition:

THAT the lot shall be maintained in accordance with the Department of Buildings Rules for Parking Lots;

THAT the lot shall be used for passenger vehicles only;

THAT all lighting shall be directed down and away from adjoining residences;

THAT the gate shall be locked after dark;

THAT all signs, lighting levels and landscaping shall be maintained in accordance with the Board-approved plans;

THAT the above conditions be listed on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by December 5, 2021;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted."

Adopted by the Board of Standards and Appeals, December 5, 2017.

APPLICANT – Friedman & Gotbaum LLP by Shelly S. Friedman, Esq., for Red Hook 160 LLC, owner.

SUBJECT – Application May 27, 2016 – Extension of Time to Complete Construction of a previously granted Variance (§72-21) for the re-use of a vacant six story manufacturing building, and the addition of three floors, for residential (UG2) use, which expired on May 1, 2016. M2-1 zoning district.

PREMISES AFFECTED – 160 Imlay Street, Block 515, Lot 75, Borough of Brooklyn.

### COMMUNITY BOARD #6BK

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....3

Negative: .....0

Abstain: Chair Perlmutter .....1

THE RESOLUTION –

WHEREAS, this is an application for an extension of time to complete construction, which expired May 1, 2016, under a variance, previously granted by the Board; and

WHEREAS, a public hearing was held on this application on November 21, 2017, after due notice by publication in *The City Record*, and then to decision on December 5, 2017; and

WHEREAS, Vice-Chair Chanda performed an inspection of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the west side of Imlay Street, between Commerce Street and Verona Street, within an M2-1 zoning district, in Brooklyn; and

WHEREAS, the Board has exercised jurisdiction over the subject site since December 23, 2003, when, under the subject calendar number, the Board granted a variance to permit the conversion of a six-story industrial building to residential use on condition that the following activities be implemented prior to construction to ensure that there will not be any potential hazardous materials effects and/or impacts on the proposed residents: (1) Ground-penetrating radar to determine if the 20,000 gallon petroleum underground storage tank is located at the subject site., (2) Testing the fluid contained within the transformers for PCBs and (3) Phase II investigation to determine the nature and extent of the suspect liquid observed through a hole adjacent to the 20,00 gallon above-ground storage tank at the north end of the building, that the premises be maintained free of debris and graffiti, that any graffiti located in the premises be removed within 48 hours, that parking will be provided according to BSA approved plans, that the applicant will comply with all applicable fire safety measures, that all exits from the commercial and residential spaces must comply with applicable provisions of the Building Code, with compliance to be determined by the Department of Buildings and that the above conditions be noted in the certificate of occupancy; and

WHEREAS, judicial proceedings, including appeals, were instituted to review the Board's decision under the

# MINUTES

subject calendar number, and the applicant submits that, consistent with ZR § 72-23, the date of entry of the final order in such proceedings was March 18, 2008, in *Red Hook/Gowanus Chamber of Commerce v. New York City Bd. of Standards & Appeals*, 49 A.D.3d 749 (N.Y. App. Div. 2008); and

WHEREAS, on May 1, 2012, under the subject calendar number, the Board granted an extension of time to complete construction for four (4) years, expiring May 1, 2016, on condition that substantial construction be completed by May 1, 2016; and

WHEREAS, by letters dated January 7, 2013, April 29, 2013, and April 9, 2015, under the subject calendar number, the Board approved minor modifications to the Board-approved plans; and

WHEREAS, the time to complete construction having expired, the applicant now seeks an extension of time; and

WHEREAS, the applicant states that, due to delays relating to the transfer of ownership and damage caused by Superstorm Sandy, additional time is necessary to complete construction; and

WHEREAS, the applicant submitted a construction progress report detailing the progress of work at the subject site, and the applicant states that work commenced on all portions of the subject building subsequent to the Board's approval of minor modifications in 2013 and that work has been ongoing since this application was filed; and

WHEREAS, the applicant states that a Phase II Environmental Site Investigation Report dated April 12, 2013, has been prepared, which concludes that no evidence of buried petroleum tanks or vaults at the subject site and that no PCBs at concentrations that exceed the Part 375 Unrestricted Use Soil Cleanup Objectives were detected; and

WHEREAS, in response to questions from the Board, the applicant submitted a copy of a DOB Stop Work Rescind Order dated November 28, 2017, stating that construction work may continue in accordance with the DOB-approved plans and permits; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to complete construction is appropriate with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution dated December 23, 2003, as amended through May 1, 2012, so that as amended this portion of the resolution shall read: "to *grant* an extension of time to complete construction for four (4) years, expiring May 1, 2020; *on condition* that all work and site conditions shall substantially conform to the Board-approved plans; and *on further condition*:

THAT that the premises shall be maintained free of debris and graffiti;

THAT at any graffiti located in the premises shall be removed within 48 hours;

THAT parking shall be provided according to Board-approved plans;

THAT the applicant shall comply with all applicable fire safety measures;

THAT all exits from the commercial and residential spaces must comply with applicable provisions of the Building Code, with compliance to be determined by the Department of Buildings;

THAT the above conditions shall be noted on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by May 1, 2020;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted."

Adopted by the Board of Standards and Appeals, December 5, 2017.

## 363-04-BZ

APPLICANT – Greenberg Traurig, LLP, for Fort Hamilton Group LLC, c/o Halcyon Management Group, owner.

SUBJECT – Application July 21, 2017 – Amendment of a previously approved Variance (§72-21) which permitted the development of mixed residential and commercial retail building with accessory parking contrary to underlying use regulations. The amendment seeks to reduce the approved parking from 93 spaces to 58 spaces contrary to the Board's previous approvals. M1-1 zoning district.

PREMISES AFFECTED – 6002 Fort Hamilton Parkway, Block 5715, Lot 7501, Borough of Brooklyn.

## COMMUNITY BOARD #12BK

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative: .....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated July 13, 2017, acting on Alteration Application No. 321583354, reads in pertinent part:

"Proposed number of parking spaces is less th[a]n the number of spaces requ[i]red by BSA variance approval Cal. No. 363-04 BZ amended in 2014"; and

WHEREAS, this is an application for an amendment to a variance, previously granted by the Board, to permit a reduction in the number of accessory residential parking

---

# MINUTES

---

spaces from 93 spaces to 56 unattended accessory parking spaces; and

WHEREAS, a public hearing was held on this application on December 5, 2017, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 12, Brooklyn, recommend approval of this application; and

WHEREAS, the subject site is located on the west side of Fort Hamilton Parkway, between 60th Street and 61st Street, in an M1-1 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 236 feet of frontage along 60th Street, 203 feet of frontage along Fort Hamilton Parkway, 99 feet of frontage along 61st Street, 33,472 square feet of lot area and is occupied by a five-story, with cellar, mixed-use commercial and residential building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 19, 2005, when, under the subject calendar number, the Board granted a variance to permit the conversion of an existing industrial building to residential use on condition that the building contain a maximum of 100 units, that the total floor area ratio not exceed 3.0, that use of the 92 cellar-level accessory parking spaces shall be used exclusively by residents of the building and that the above conditions be listed on the certificate of occupancy; and

WHEREAS, on November 21, 2006, under the subject calendar number, the Board amended the variance to permit the removal of the proposed mezzanines, the reconfiguration of the dwelling units, commercial space, and parking lot, which increased the number of parking spaces from 92 to 93, with 48 spaces in the cellar and 45 spaces in the unenclosed lot on the site, and a reduction in the height of the building from six to five stories and other interior and exterior reconfigurations to the approved plans; and

WHEREAS, on May 11, 2010, under the subject calendar number, the Board granted an extension of time to complete construction for four (4) years, expiring July 19, 2013; and

WHEREAS, on July 16, 2013, under the subject calendar number, the Board granted an extension of time to complete construction and to obtain a certificate of occupancy for four (4) years, expiring July 19, 2017; and

WHEREAS, by letter dated May 21, 2014, the Board approved minor modifications to the Board-approved plans as follows: to increase the height which would vary from 47'-4" to 51'-3" to account for a 3'-11" change in elevation, to maintain the existing commercial street wall on both the building's frontages, ground floor retail space is proposed instead of ground floor residential space, for a total of 13,995 square feet of retail floor area with a loading dock provided to accommodate the increased retail space; to reduce the residential floor area to 83,553 square feet with the total number of units remaining at 92; to rearrange the

93 parking spaces, with 67 spaces to be provided in an attended cellar level facility, and 26 spaces in a single-story, at-grade rear yard enclosure, and an outdoor recreation space provided for residential tenants above the parking enclosure; to modify the façade of the building to allow for heating and cooling units to be located under and along the windows, which façade design would include "pilasters" to recall the existing façade, a treatment of the building's base with a "rusticated" appearance similar to the existing façade; and

WHEREAS, the applicant now seeks an amendment to the variance to reduce the number of accessory residential parking spaces from 93 spaces to 56 spaces; and

WHEREAS, the applicant represents that approximately 96 percent of the dwelling units in the building are currently occupied but that only 34 percent of the parking spaces have been rented, representing a total parking demand of approximately 34 parking spaces—22 fewer spaces than the 56 parking spaces proposed; and

WHEREAS, the applicant proposes to revise the parking configuration in the cellar by removing stackers and providing 32 self-service parking spaces in the cellar while maintaining the 24 unattended parking spaces on the first floor; and

WHEREAS, the applicant states that, in comparable zoning districts that allow residential uses, parking is required for 50 percent of new dwelling units and that the proposed number of parking spaces would exceed such requirement; and

WHEREAS, the applicant provided a parking study concluding that ownership of automobiles in the surrounding area has declined by 11 percent since 2000, that only approximately 40 percent of tenants within a half-mile radius of the subject site own automobiles, that car ownership in three census tracts bordering the subject site is approximately 32 percent and that the current rate of tenants' renting parking spaces in the subject building is unlikely to increase a substantial amount; and

WHEREAS, the applicant further notes that the subject site is well-served by public transit with nearby subway and train stations nearby and multiple bus routes with stops within two blocks of the subject site as well as approximately 206 public parking spaces located within a one-third mile radius of the subject site in two public parking lots and one parking garage; and

WHEREAS, by letter dated August 10, 2016, the New York City Office of Environmental Remediation ("OER") issued a Notice of Satisfaction stating that the site has satisfied the hazardous materials restrictive declaration requirements, that Track 2 Restricted Residential cleanup for hazardous materials has been achieved, that no further hazardous materials action is required and that OER has no objection to the issuance of a certificate of occupancy for the subject site; and

WHEREAS, based upon its review of the record, the Board finds that the requested amendment is appropriate with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards

# MINUTES

and Appeals does hereby *reopen* and *amend* the resolution, dated November 21, 2006, as amended through July 16, 2013, so that as amended this portion of the resolution shall read: “to *permit* a reduction in the number of accessory residential parking spaces from 93 spaces to 56 unattended accessory parking spaces, *on condition* that all work and site conditions shall substantially conform to drawings filed with this application marked ‘Received October 23, 2017’-Thirteen (13) sheets; and *on further condition*:

THAT the building shall contain a maximum of 100 units;

THAT the total floor area ratio shall not exceed 3.0;

THAT use of the cellar-level accessory parking spaces shall be used exclusively by residents of the building;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by December 5, 2021;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, December 5, 2017.

SUBJECT – Application August 15, 2017 – Extension of Term of a previously approved Special Permit (§73-36) which permitted the operation of a physical culture establishment (*Massage Envy*) which will expire on October 2, 2017. C4-1 zoning district.

PREMISES AFFECTED – 280 Marsh Avenue (The Crossings @ Staten Island Mall), Block 2400, Lot 300, Borough of Staten Island.

## COMMUNITY BOARD #2SI

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

Abstain: Commissioner Sheta.....1

THE RESOLUTION –

WHEREAS, this is an application for an extension of term of a special permit, previously granted by the Board,

which expired October 2, 2017; and

WHEREAS, a public hearing was held on this application on August 15, 2017, after due notice by publication in *The City Record*, with a continued hearing on September 26, 2017, and then to decision on December 5, 2017; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 2, Staten Island, recommends approval of this application; and

WHEREAS, the subject site is located within The Crossings at Staten Island Mall, which is north of Platinum Avenue, west of Marsh Avenue, and east of Staten Island Mall Drive, in a C4-1 zoning district, on Staten Island; and

WHEREAS, the Board has exercised jurisdiction over the subject site since October 2, 2007, when, under the subject calendar number, the Board granted a special permit (“PCE”) in a one-story commercial unit within a shopping mall complex for a term of ten (10) years, expiring October 2, 2017, on condition that there be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board, that all massages be performed by New York State licensed massage therapists, that the hours of operation be limited to: Monday through Friday, 8:00 a.m. to 10:00 p.m., Saturday 8:00 a.m. to 6:00 p.m., and Sunday, 10:00 a.m. to 6:00 p.m., and that the above conditions appear on the Certificate of Occupancy; and

WHEREAS, on September 11, 2012, under the subject calendar number, the Board amended its resolution to permit a 1,270 square foot expansion on the first floor on condition that all conditions from the prior resolution not specifically waived by the Board remain in effect; and

WHEREAS, the term of the special permit having expired, the applicant now seeks an extension of term; and

WHEREAS, the facility remains in operation as Massage Envy with the following hours of operation: Monday through Friday, 8:00 a.m. to 10:00 p.m., Saturday 8:00 a.m. to 6:00 p.m., and Sunday, 10:00 a.m. to 6:00 p.m.; and

WHEREAS, the applicant notes that the PCE continues to occupy a total of 4,351 square feet of floor area, including reception, a waiting area, treatment rooms, restrooms, a hand-washing room, an office and storage; and

WHEREAS, the Board notes that its determination is subject to and guided by ZR § 73-03; and

WHEREAS, consistent with ZR § 73-03(a), the Board finds that, under the conditions and safeguards imposed, the hazards of disadvantage to the community at large of the special permit are outweighed by the advantages to be derived by the community; and

WHEREAS, as to ZR § 73-03 subsections (b) and (c), the Board finds, respectively, that the subject special permit will not interfere with any public improvement project and that the use will not interfere with the existing street system; and

WHEREAS, the Board notes that ZR § 73-03

# MINUTES

subsections (d) and (g) are inapplicable to this application; and

WHEREAS, § 73-36 mandates a term not to exceed ten (10) years and, thus, pursuant to ZR § 73-03(e), the Board shall establish a term not to extend ten (10) years; and

WHEREAS, consistent with ZR § 73-03(f), the Board finds that the circumstances warranting the original grant still obtain and that the applicant has complied with the conditions and safeguards theretofore described by the Board during the prior term; and

WHEREAS, based upon its review of the record, the Board finds that a ten (10) year extension is appropriate with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution dated October 2, 2007, as amended September 11, 2012, so that as amended this portion of the resolution shall read: “to grant an extension of term for ten (10) years, expiring October 2, 2027; *on condition* that all work and site conditions shall substantially conform to the drawings filed with this application marked ‘Received April 13, 2017’- Three (3) sheets; and *on further condition*:

THAT the term of this grant shall expire on October 2, 2027;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages shall be performed by New York State licensed massage therapists;

THAT the hours of operation shall be limited to: Monday through Friday, 8:00 a.m. to 10:00 p.m.; Saturday 8:00 a.m. to 6:00 p.m.; and Sunday, 10:00 a.m. to 6:00 p.m.;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by December 5, 2021;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, December 5, 2017.

## 36-15-BZ

APPLICANT – Akerman, LLP, for CAC Atlantic, LLC, owner; 66 Boerum Place Fitness Group, LLC, lessee.

SUBJECT – Application June 7, 2017 – Amendment of a previously approved Special Permit (§73-36) which permitted the operation of a physical culture establishment (Planet Fitness) on portions of the cellar, first and second floors of a new building. The Amendment seeks to legalize the expansion of the facility by 555 square feet of floor area on the second floor. C6-2A (Special Downtown Brooklyn District) zoning district.

PREMISES AFFECTED – 241 Atlantic Avenue aka 66 Boerum Place, Brooklyn.

### COMMUNITY BOARD #2BK

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative: .....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated May 9, 2017, acting on New Building Application No. 320728735, reads in pertinent part:

“Proposed extension of and layout changes of physical culture establishment within the existing building is contrary to ZR Section 32-10 and BSA Cal. No. 36-15-BZ”; and

WHEREAS, this is an application for an amendment to a special permit, previously granted by the Board, which expires September 18, 2025, to extend the proposed PCE on the second story along with modifications to partitions, equipment layout and signage; and

WHEREAS, a public hearing was held on this application on December 5, 2017, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 2, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the northwest corner of Atlantic Avenue and Boerum Place, in a C6-2A zoning district, in the Special Downtown Brooklyn District, in Brooklyn; and

WHEREAS, the site has approximately 172 feet of frontage along Atlantic Avenue, 173 feet of frontage along Boerum Place, 211 feet of frontage along State Street depth, 187,349 square feet of lot area and is occupied by an 11-story, with cellar, mixed-use building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since September 18, 2015, when, under the subject calendar number, the Board granted a special permit to allow the operation of a physical culture establishment (“PCE”) in the cellar and on the first and second stories of an 11-story mixed-use building for a term of ten (10) years, expiring September 18, 2025, on condition that there be no

---

# MINUTES

---

change in ownership or operating control of the PCE without prior application to and approval from the Board, that all fire safety and sound attenuation measures be installed and maintained as shown on the Board-approved plans and that the above conditions appear on the certificate of occupancy; and

WHEREAS, the applicant now seeks an amendment to extend the proposed PCE on the second story along with modifications to partitions, equipment layout and signage; and

WHEREAS, the applicant represents that the PCE will continue to operate as Planet Fitness with hours of operation 24 hours per day, seven days per week; and

WHEREAS, the applicant represents that as amended the PCE will occupy a total of 17,292 square feet of floor space as follows: 10,970 square feet of floor space in the cellar, 628 square feet of floor area on the first floor and 5,694 square feet of floor area on the second floor; and

WHEREAS, the applicant proposes to modify the amount of signage accessory to the PCE but notes that the proposed signage on each street frontage complies with the applicable district regulations; and

WHEREAS, at hearing, the Board noted with approval that the temporary certificate of occupancy issued for the subject site indicates that fire safety and sound attenuation measures have been installed at the subject site in conjunction with the subject special permit; and

WHEREAS, based upon its review of the record, the Board finds that the requested amendment is appropriate with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated September 18, 2015, so that as amended this portion of the resolution shall read: “to *amend* the special permit to extend the proposed PCE on the second story along with modifications to partitions, equipment layout and signage; *on condition* that all work, site conditions and operations shall substantially conform to drawings filed with this application marked ‘Received August 30, 2017’-Eight (8) Sheets; and *on further condition*:

THAT the term of this grant shall expire on September 18, 2025;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT all fire safety and sound attenuation measure shall be installed and maintained as shown on the Board-approved plans;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by December 5, 2021;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered

approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, December 5, 2017.

## APPEALS CALENDAR

### 2017-52-A

APPLICANT – Slater & Beckerman P.C., for 1109 Metropolitan Avenue LLC, owner.

SUBJECT – Application February 22, 2017 – Interpretative Appeal challenging the Department of Buildings determination that a proposed caretaker's apartment for a proposed sign painting shop does not satisfy the ZR 12-10 definition of an "accessory use". M3-1 zoning district.

PREMISES AFFECTED – 1109 Metropolitan Avenue, Block 2927, Lot 25, Borough of Brooklyn.

### COMMUNITY BOARD #1BK

**ACTION OF THE BOARD** – Appeal granted.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative: .....0

THE RESOLUTION –

WHEREAS, the determination of the Department of Buildings (“DOB”), dated January 26, 2017, acting on Alteration Application No. 321052114, reads in pertinent part:

The request, that the proposed caretaker’s apartment for the proposed sign painting contractor’s establishment satisfies ZR 12-10’s definition for “accessory use,” is hereby denied.

[ . . . ]

The proposed accessory caretaker’s apartment shall satisfy ZR 12-10’s definition for “accessory use,” including paragraph (b), which states that “[a]n ‘accessory use’ . . . is a use which is clearly incidental to, and customarily found in connection with, such principal use . . . .”

[ . . . ]

However, none of the buildings listed above are examples of caretaker’s apartments that are “clearly incidental to, and customarily found in connection with” a sign painting contractor’s establishment in Use Group 16A.

Therefore, for the above stated reasons, the applicant’s request is hereby denied and a caretaker’s apartment shall not be considered an “accessory use” to a sign painting contractor’s establishment.

The proposed caretaker’s apartment in the subject building shall, instead, be considered a residential use in Use Group 2, pursuant to ZR 22-12 (Use Group 2), which is not a permitted use in the M3-1 District, pursuant to ZR 42-00 (General Provisions); and

WHEREAS, this is an appeal for interpretation under ZR § 72-11 and Charter § 666(6)(a), brought on behalf of 1109 Metropolitan Avenue LLC, doing business as Colossal Media (“Appellant”), owner of the subject site, alleging errors pertaining to accessory uses permitted for a sign painting shop in Use Group 16 (the “Sign Painting Shop”) under ZR § 12-10 with respect to a proposed caretaker’s apartment (the “Caretaker’s Apartment”); and

WHEREAS, for the reasons that follow, the Board grants this appeal; and

WHEREAS, a public hearing was held on this application on September 12, 2017, after due notice by publication in *The City Record*, with a continued hearing on December 5, 2017, and then to decision on that date; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Council Member Antonio Reynoso submitted testimony in support of Appellant by letter dated January 20, 2016, stating that Appellant has represented that the Caretaker’s Apartment meets all requirements of existing zoning and is necessary to ensure that the new facility is secure and operational at all times, as required by Appellant’s business operations; and

WHEREAS, DOB and Appellant have been represented by counsel throughout this appeal; and

### BACKGROUND

WHEREAS, the subject site is located on the north side of Metropolitan Avenue, between Vandervoort Avenue and English Kills, a tributary of Newtown Creek, north of

# MINUTES

Grand Street, in an M3-1 zoning district, in Brooklyn; and  
WHEREAS, the site has approximately 139 feet of frontage along Metropolitan Avenue, between 61 feet and 113 feet of depth, 11,222 square feet of lot area and is occupied by a two-story industrial building currently being enlarged and converted for use as a Use Group 16 sign painting shop; and

WHEREAS, Appellant states that, after conversion to the Sign Painting Shop, the subject building will contain approximately 7,489 square feet of floor area as follows: 4,997 square feet of floor area on the first floor for use as workshop space and 2,492 square feet of floor area on the second floor proposed to be used as an accessory office (1,814 square feet of floor area) and the Caretaker's Apartment (678 square feet of floor area); and

WHEREAS, Appellant originally proposed to dedicate 1,196 square feet of floor area to the Caretaker's Apartment but subsequently reduced the size in response to DOB's concerns that the Caretaker's Apartment would not be "clearly incidental" to the Sign Painting Shop; and

WHEREAS, Appellant states that the Sign Painting Shop will be used by an existing business, which will employ approximately 40 full-time employees in departments devoted to operations, painting, rigging, shop and maintenance, and that employees will be responsible for the creation of custom patterning, sign designs and mixing of custom paint colors, that the Sign Painting Shop will operate 24 hours per day, seven days per week, and that office equipment, job materials, safety equipment, scissor lifts and other work vehicles will be stored at the subject site; and

WHEREAS, the Board notes that, generally, the term "sign painting shop" includes an establishment employing commercial artists and artisans to paint signage by hand and that sign painting shops are a small industry within the City; and

## PROCEDURAL HISTORY

WHEREAS, on May 4, 2015, DOB issued a zoning determination stating, in part, that a "proposed accessory caretaker apartment with living and sleeping accommodations is contrary to ZR12-10" because "no such living or sleeping accommodations are [permitted to be] located in a C7, C8 or Manufacturing District"; and

WHEREAS, on October 23, 2015, through its internal appeals process, DOB upheld its denial of a proposed caretaker apartment on the grounds that no sufficient demonstration had been made that such caretaker's apartment would be necessary for the maintenance of the subject building; and

WHEREAS, on June 28, 2016, DOB considered additional information provided in response to the determination dated October 23, 2015, and upheld its denial on the grounds that no sufficient demonstration had been made that a caretaker's apartment would be incidental to or customarily found in connection with a sign painting shop and that caretakers' apartments are not incidental to or customarily found in connection with uses located within heavy manufacturing districts; and

WHEREAS, on January 26, 2017, DOB issued the determination cited above, and Appellant commenced this appeal on February 22, 2017, seeking reversal of DOB's determination; and

## RELEVANT PROVISIONS OF THE ZONING RESOLUTION

WHEREAS, ZR § 42-00 states in relevant part: "Use Group[] . . . 16 . . . , including each *use* listed separately therein, . . . are permitted in *Manufacturing Districts* as indicated in Sections 42-11 to 42-15, inclusive"; and

WHEREAS, ZR § 42-12 allows as of right, in M1, M2 and M3 zoning districts, Use Group 16 uses set forth in ZR § 32-25; and

WHEREAS, ZR § 32-25 describes Use Group 16 uses, in relevant part, as follows:

Use Group 16 consists of . . . necessary semi-industrial *uses* which:

- (1) are required widely throughout the city; and
- (2) involve offensive noise, vibration, smoke, dust, or other particulate matter, odorous matter, heat, humidity, glare or other objectionable influences, making such *uses* incompatible with *residential uses* and other *commercial uses*.

### A. Retail or Service Establishments

[ . . . ]

Sign painting shops, with no limitation on *floor area* per establishment [PRC-B1]

[ . . . ]

### E. Accessory Uses

WHEREAS, ZR § 12-10 defines "accessory uses," in part, as follows:

An "accessory use":

- (a) is a *use* conducted on the same *zoning lot* as the principal *use* to which it is related (whether located within the same or an *accessory building or other structure*, or as an *accessory use* of land) . . . ; and
- (b) is a *use* which is clearly incidental to, and customarily found in connection with, such principal *use*; and
- (c) is . . . in the same ownership as such principal *use* . . . .

[ . . . ]

An *accessory use* includes: . . . (2) Living or sleeping accommodations for caretakers in connection with any *use* listed in Use Groups 3 through 18 inclusive . . . ; and

## ISSUE PRESENTED

WHEREAS, this appeal concerns whether the Caretaker's Apartment is an accessory use to the Sign Painting Shop permitted in an M3-1 zoning district under ZR §§ 42-12 and 12-10; and

WHEREAS, however, the sole issue disputed by Appellant1 and DOB—and, in turn, considered by the

---

1 Appellant also argues that no showing of a customary connection need be made for "[l]iving or sleeping

---

# MINUTES

---

Board—is whether the Caretaker’s Apartment is “customarily found in connection with” the Sign Painting Shop under the definition of “accessory use” in ZR § 12-10; and

## DISCUSSION

WHEREAS, ZR § 12-10 provides: “An ‘accessory use’ . . . is a *use* which is . . . customarily found in connection with” “the principal *use* to which it is related”; and

WHEREAS, in *New York Botanical Garden v. Bd. of Standards & Appeals of City of New York*, 91 N.Y.2d 413, 421 (1998), the Court of Appeals of New York explains the “accessory use” inquiry as follows:

In this case, there is no dispute that radio stations and their attendant towers are clearly incidental to and customarily found on college campuses in New York and all over the United States. The issue before the BSA was: is a station of this particular size and power, with a 480-foot tower, customarily found on a college campus or is there something inherently different in this radio station and tower that would justify treating it differently; and

WHEREAS, here, Appellant and DOB similarly “dispute that [living or sleeping accommodations for caretakers] are . . . customarily found [with sign painting shops] in New York,” *id.*; see also *Exxon Corp. v. Bd. of Standards & Appeals of City of New York*, 151 A.D.2d 438, 439 (N.Y. App. Div. 1989) (discussing application of “accessory use” definition); and

WHEREAS, accordingly, the Board first examines whether living or sleeping accommodations for caretakers generally are “customarily found in connection with” sign painting shops and then looks to whether Appellant has demonstrated that the specific activities proposed render the Caretaker’s Apartment a “living or sleeping accommodations for caretakers” within the meaning of ZR § 12-10; and

WHEREAS, for the reasons that follow, the Board finds both the general and specific inquiries answered in the affirmative; and

### (1) GENERAL INQUIRY

WHEREAS, Appellant and DOB disagree as to whether living or sleeping accommodations for caretakers are typically found in conjunction with sign painting shops; and

WHEREAS, Appellant argues that the plain meaning of the ZR § 12-10 definition of “accessory use” evinces a clear intent to determine, by legislative fiat, that living or sleeping accommodations for caretakers are always

---

accommodations for caretakers in connection with any *use* listed in Use Groups 3 through 18 inclusive” under ZR § 12-10; however, the Board need not resolve that issue in this appeal because, as discussed herein, the record demonstrates a customary connection between accommodations for caretakers and a Use Group 16 sign painting shop.

customarily found in connection with any and all uses listed in Use Groups 3 through 18 by explicitly identifying such use on a list of uses “included” as “accessory”; and

WHEREAS, Appellant also furnished, in support of a general customary connection, multiple certificates of occupancy listing as lawful uses art studios and photography studios with caretakers’ apartments within the same building; and

WHEREAS, Appellant notes that there is a dearth of sign painting shops located within the City and that accordingly it is appropriate for the Board to examine analogous uses; and

WHEREAS, DOB does not credit this evidence, noting that art studios and photographic developing or photographic printing establishments are listed in Use Group 9, not Use Group 16; and

WHEREAS, DOB states that, in *New York Botanical Garden*, the court examined the exact same principal use and concludes that Appellant needs to demonstrate the custom in the Use Group 16 sign painting industry specifically, rather than analogizing to a Use Group 9 use; and

WHEREAS, DOB states that none of the examples provided are in the same use group as—or even analogous to—sign painting shops; and

WHEREAS, DOB also points out that, in *New York Botanical Garden*, the Court of Appeals specifically interpreted the list in the “accessory use” definition “as examples of permissible accessory uses (provided, of course, that they comply with the requirements of Zoning Resolution § 12-10 [accessory use] [a], [b] and [c]),” 91 N.Y.2d at 422; and

WHEREAS, DOB posits that, if there are too few sign painting shops within the City to demonstrate a customary connection, Appellant should demonstrate that sign painting shops around the country typically have caretakers’ apartments; and

WHEREAS, Appellant responds that a country-wide query would prove too onerous and that, in any case, other localities may have regulations regarding caretakers’ apartments that materially differ from the Zoning Resolution; and

WHEREAS, nothing in the record demonstrates that there are sign painting shops in the City without caretakers’ apartments or that there are more than a few, if any, other sign painting shops whatsoever within the City; and

WHEREAS, as noted above, the Board finds that sign painting shops employ commercial artists and artisans to paint signs and that sign painting is a small industry within the City; and

WHEREAS, the Board also notes that many artists work with paint as their medium and often toil long hours with expensive equipment and inventory, which they have a strong interest in protecting, so there is sufficient overlap and overall similarity of activities carried on within sign painting shops and art studios to make an analogy between Use Group 16 sign painting shops and Use Group 9 artists’ studios, as Appellant suggests; and

---

# MINUTES

---

WHEREAS, the Board credits said analogy between art studios and sign painting shops as being close enough to find the supplied certificates of occupancy of art studios with caretakers' apartments of probative value; and

WHEREAS, the Board notes that caretaker's apartment is shorthand for "living or sleeping accommodations for caretakers," which appears in ZR § 12-10; and

WHEREAS, the Board determines that said certificates of occupancy indicate that living or sleeping accommodations for caretakers are concomitant with sign painting shops; and

WHEREAS, because there is sufficient evidence in the record to support a general connection between living or sleeping accommodations for caretakers and sign painting shops, the Board need not reach Appellant's argument as to an interpretation regarding every use in Use Groups 3 through 18, which is beyond the scope of this appeal; and

WHEREAS, accordingly, the Board finds that, generally, living or sleeping accommodations for caretakers are "customarily found in connection with" Use Group 16 sign painting shops under ZR § 12-10; and

## (2) SPECIFIC INQUIRY

WHEREAS, the Board next considers the specific activities proposed with regard to the Caretaker's Apartment; and

WHEREAS, at the outset, the Board notes that this consideration does not look to the size and scope of the proposed activities, which would implicate the not-at-issue "clearly incidental" aspect of the "accessory use" definition; rather, the Board examines whether the activities proposed for the Caretaker's Apartment are of a type and character within the ambit of the general term "living or sleeping accommodations for caretakers" or whether there is something inherently different about Appellant's proposed activities that would justify treating the Caretaker's Apartment differently; and

WHEREAS, Appellant states that the Caretaker's Apartment will allow an individual (the "Caretaker") to reside at the subject site and perform the following duties: collect all refuse and manage the collection of refuse by private refuse collectors; maintain the sidewalk at the subject site in good condition; maintain the bulkhead and shoreline at the subject site in good condition; maintain the subject site and subject building in good condition; maintain the façade of the subject building in a clean and graffiti-free condition; maintain and operate the mechanical and heating equipment at the subject site; maintain the subject site in a state of overall good repair; ensure continuance of maintenance, security and good repair of the subject site; maintain the Sign Painting Shop's inventory; and

WHEREAS, Appellant also notes that the subject site is remote, with infrequent vehicular and pedestrian traffic, and bordered on two sides by waterfront, leaving the subject site susceptible to burglaries and vandalism, and that the Caretaker would provide constant safeguarding and perform frequent patrolling to assure that the subject building remain secure and safe; and

WHEREAS, Appellant states that the Caretaker's responsibilities pertaining to site security and theft deterrence would be the most practical and cost-effective measure because the subject site is already outfitted with gates, lighting, fencing and 14 security cameras, with two additional cameras to be installed, which have not been effective in deterring break-ins; and

WHEREAS, Appellant submitted police reports documenting three burglaries that have occurred at the subject site since 2016 and states that the subject site has been burgled four times with one instance unreported; and

WHEREAS, Appellant submitted a fourth police report documenting a burglary that occurred while this appeal was pending; and

WHEREAS, Appellant states that the Caretaker will perform duties akin to the responsibilities of a superintendent who lives in a residential building; and

WHEREAS, DOB states that it is improper to compare caretakers with superintendents since they are different uses and that the Caretaker's Apartment should instead be categorized as a primary, residential use that is not permitted in M3-1 zoning districts as of right; and

WHEREAS, the Board notes that a restrictive declaration for caretakers' apartments, in the form approved by DOB and required to be recorded against all premises with caretakers' apartments prior to the issuance of a certificate of occupancy pursuant to the ZR § 12-10 definition of "accessory use," states that a caretaker will provide the following maintenance and repair services for the premises: collect all refuse and maintain such refuse in refuse bins; maintain the sidewalk outside the premises in good repair and in clear condition; maintain the façade of the premises in a clean and graffiti-free condition; maintain and operate mechanical equipment that heats the premises; maintain the premises in overall good repair; and perform any other caretaker functions necessary to insure the continuance of maintenance, security and good repair of the premises; and

WHEREAS, the Board notes that the premises issued the supplied certificates of occupancy for art studios with caretakers' apartments have recorded restrictive declarations listing the same duties as those proposed for the Caretaker; and

WHEREAS, the Board finds that the specific activities proposed for the Caretaker, including maintaining and safeguarding the subject site, fall within the scope of duties typical of caretakers; and

WHEREAS, the Board finds that, as an apartment where the Caretaker will reside, the Caretaker's Apartment is properly classified under "living or sleeping accommodations for caretakers" within the meaning of the "accessory use" definition of ZR § 12-10; and

## CONCLUSION

WHEREAS, the Board has considered all of DOB's arguments on appeal and finds them ultimately unpersuasive as applied to the Caretaker's Apartment at the subject site; and

WHEREAS, because the Board's determination is

# MINUTES

limited to the evidence in the record regarding the Caretaker's Apartment at the subject site, nothing herein shall be understood as a determination by the Board that living or sleeping accommodations for caretakers generally are always customarily found in connection with any and all uses listed in Use Groups 3 through 18 since it is unnecessary to reach such issue in this appeal; and

WHEREAS, for the foregoing reasons, the Board finds that the Caretaker's Apartment is a permitted accessory use for the Sign Painting Shop at the subject site.

*Therefore it is Resolved*, that the determination of the Department of Buildings, dated January 26, 2017, acting on Alteration Application No. 321052114, shall be and hereby is *reversed*, only as to the Caretaker's Apartment accessory to the Sign Painting Shop in Use Group 16 as proposed at the subject site, and that this appeal shall be and hereby is *granted*.

Adopted by the Board of Standards and Appeals, December 5, 2017.

### THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner

Sheta.....4

Negative: .....0

## THE RESOLUTION –

WHEREAS, the decision of the Borough Commissioner, dated January 6, 2016, acting on Department of Buildings Application No. 320267386 reads in pertinent part:

Existing three story multiple dwelling building to be altered into a three story community facility.

1. Provide off street loading facility as per Section ZR 113-22(a);
2. New non-compliance of required side yards and front yard by conversion [*sic*] created and it is prohibited as per ZR 54-31, ZR 23-46[4], ZR 23-45;
3. New non-compliance of exceeding floor area, resulting from the addition of exterior stairs as the two means of egress for the community facility as per ZR 23-141;
4. New non-compliance of lot coverage and open space resulting from the addition of exterior stairs as the two means of egress for the community facility as per ZR 23-141; and

WHEREAS, the Board notes that since the filing of this application, the Zoning Resolution has been amended and the text formerly found in ZR § 23-141, setting forth the maximum floor area ratio, minimum required open space and maximum lot coverage permitted in an R3-2 zoning district, is now found in ZR § 23-142; thus, the Board treats the citation to ZR § 23-141 in DOB's objection as a citation to ZR § 23-142; and

WHEREAS, this is an application under ZR § 72-21 to permit, on a site located in an R5 zoning district and the Special Ocean Parkway District, the development of a three-story Use Group 3 school that does not comply with applicable bulk regulations pertaining to floor area, floor area ratio, open space, lot coverage, front yards, side yards and off-street loading regulations, contrary to ZR §§ 23-142, 23-45, 23-464 and 113-22; and

WHEREAS, this application is filed on behalf of Bais Chaya Esther, Inc., a non-profit religious corporation ("Bais Chaya"), for purposes of housing the third location of the Bais Chaya Esther School, which will serve as an elementary school; and

WHEREAS, a public hearing was held on this application on August 2, 2016, after due notice by publication in *The City Record*, with continued hearings on September 27, 2016, August 22, 2017, and October 31, 2017, and then to decision on December 5, 2017; and

WHEREAS, Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, former Vice-Chair Hinkson and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, additionally, the Board was in receipt of three form letters in support of this application and five form letters in opposition, citing concerns regarding existing

---

# MINUTES

---

traffic and parking concerns in the neighborhood and the potential for the subject proposal to exacerbate both; and

WHEREAS, the subject site is located on the northeastern corner of Webster Avenue and Seton Place, in an R5 zoning district and the Special Ocean Parkway District, in Brooklyn; and

WHEREAS, the site has approximately 21 feet of frontage along Webster Avenue, 96 feet of frontage along Seton Place, 2,014 square feet of lot area and is occupied by a three-story plus cellar residential building; and

WHEREAS, the applicant proposes to convert the existing building into a Use Group 3 school with the addition of approximately 730 square feet of floor area, existing in two exterior enclosed stairs provided as additional means of egress, and a proposed handicap lift; and

WHEREAS, the existing building, which was issued a certificate of occupancy dated February 27, 1924, is non-compliant with regards to floor area (4,795 square feet), floor area ratio ("FAR") (2.38 FAR), open space (20 percent), lot coverage (80 percent), wall height (34 feet), front yard (7'-4.5") and setback (0 foot setback); and

WHEREAS, at the subject site, a maximum FAR of 1.25 (2,513 square feet of floor area), a minimum of 45 percent open space and a maximum of 55 percent lot coverage are permitted pursuant to ZR § 23-142; one front yard of at least 10 feet is required pursuant to ZR § 23-45; two side yards at least fifteen feet are required pursuant to ZR § 23-464; and, because the proposed building will contain a school for children below grade 7, off-street loading facilities are required to be so situated and arranged to provide head-in and head-out movement of vehicles on two separate streets, have a minimum dimension of 12 feet and be screened from adjacent zoning lots by a four foot buffer of shrubbery at least four feet high at the time of planting pursuant to ZR § 113-22(a); and

WHEREAS, the proposed conversion will result in a building having 6,341 square feet of floor area (3.15 FAR), 8.5 percent open space, 91.5 percent lot coverage, no front yard, one side yard measuring 4'-2.5" and the provision of an eight foot by 74 foot no-parking zone for pick-ups and drop-offs along the Seton Place frontage of the subject site; and

WHEREAS, the applicant states that the proposed conversion will enable the school to expand and house approximately 100 nursery through fourth grade students; and

WHEREAS, upon its conversion, the cellar of the building will contain a warm-up kitchen, bathroom, refrigerated trash area and a lunchroom that, during times of inclement weather, will serve as an alternative play area; the first floor will contain two offices, one classroom with toilets for pre-school and nursery students and one classrooms with toilets for kindergarten students; the second floor will contain one classroom for first grade, one classroom for second grade, bathrooms, an additional office and a library; the third floor will contain one classroom for third grade, one classroom for fourth grade, bathrooms, an

office and a therapist room; and the roof will feature a play area with a 10 foot high fence around the perimeter; and

WHEREAS, the proposed conversion will increase the degrees of non-compliance of the existing building with regards to floor area, floor area ratio, open space, lot coverage and front yards, and will create new non-compliances with regards to side yards and off-street loading conditions; accordingly, the applicant seeks the subject relief; and

WHEREAS, the Board acknowledges that the Bais Chaya Esther School, as an educational institution, is entitled to deference under the law of the State of New York as to zoning and its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, specifically, as held in *Cornell University v. Bagnardi*, 68 NY2d 583 (1986), an educational or religious institution's application is to be granted unless it can be shown to have an adverse effect on the health, safety or welfare of the community and general concerns about traffic and disruption of the residential character of the neighborhood are insufficient grounds for the denial of such application; and

WHEREAS, based on the above, the Board finds that Bais Chaya Esther School's programmatic needs create unnecessary hardship and practical difficulty in developing the premises in compliance with the applicable zoning regulations; and

WHEREAS, because Bais Chaya is a non-profit institution and the variance is needed to further its not-for-profit mission, the finding set forth in ZR § 72-21(b) does not have to be made in order to grant the variance requested in this application; and

WHEREAS, Bais Chaya represents that, pursuant to ZR § 72-21(c), the subject variance, if granted, will not substantially impair the appropriate use or development of adjacent properties and will not be detrimental to the public welfare; specifically, the applicant states that the subject proposal does not substantially alter the bulk or height of the existing building, which is consistent with those surrounding it, and notes that schools are permitted in the zoning district as-of-right; and

WHEREAS, with regards to the operations of the school, the applicant notes that deliveries will arrive at the site between 6:00 a.m. and 7:00 a.m., prior to the morning rush hour, that the 100 students will arrive at the site on two buses that will arrive at 8:55 a.m. and two additional buses that will arrive at 9:55 a.m. and that students will be escorted off the bus by teachers and staff, that nursery and first grade students will depart the site on two buses at 2:45 p.m. and the second through fourth graders will depart the site on two buses at 4:30 p.m., prior to the evening rush hour; and

WHEREAS, the applicant states that an application has been filed with the New York City Department of Transportation ("DOT") for a 74 foot long no-parking zone (between the hours of 8 a.m. and 5 p.m. only) in front of the premises along its Seton Place frontage and that such zone will accommodate two buses, which will utilize the zone for

---

# MINUTES

---

pickups and drop offs; the applicant further submits that the elimination of four on-street parking spaces for the school will not adversely affect the surrounding area because the area is well served by public transportation and the Community Board did not raise any concerns regarding the loss of parking; and

WHEREAS, by letter dated July 11, 2016, DOT School Safety states that as long as there is a door on the driver's side of the school bus, DOT should not have a problem with the loading zone being on Seton, which runs one-way southbound, rather than Webster; DOT School Safety additionally states that, because the proposed school will have less than 250 students, it does not fall under School Safety's jurisdiction, but requests that the applicant reach out to the DOT Brooklyn Borough Engineer for a final assessment to determine if a school loading zone is warranted and on which street it should be located; and

WHEREAS, with regards to the rooftop play area, the applicant avers that the area will be used only between 12:30 p.m. and 1:30 p.m. on school days; and

WHEREAS, the applicant represents that the school buses will be parked offsite when not in use and provided the Board with a copy of an executed lease for two bus parking spaces at 709 Chester Street for an initial term expiring September 1, 2037, that allows for automatic renewals for five successive one-year terms; and

WHEREAS, in light of the foregoing, the Board finds that the subject proposal will not alter the essential character of the neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant represents, and the Board finds, that the hardship claimed as ground for the variance was not created by the owner or a predecessor in title in accordance with ZR § 72-21(d); and

WHEREAS, the applicant submits that the subject proposal is the minimum variance necessary to afford relief and, in support of that contention, submitted two lesser variance scenarios: (1) locating the required egress stairs within the building, rather than on the exterior, which would require a waiver of ZR § 113-22 only and (2) locating a single exterior enclosed egress stair in the side yard and providing a 66 foot wide corridor for access, which would require all of the waivers requested in the subject application with the exception of a waiver of ZR § 23-45 (front yards); and

WHEREAS, both lesser variance scenarios result in the reduction or elimination of vital classroom and programming spaces and dedicate a disproportionate amount of floor space to circulation; and

WHEREAS, at the Board's request, the applicant sought three Construction Code Determinations from DOB to permit egress through rear classrooms located on the second and third floors, eliminating the need for one of the two proposed exterior egress stairs in the side yards of the subject site, and all three requests were denied; and

WHEREAS, the Board finds that the subject proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement ("EAS") CEQR No. 15BSA140K, dated June 3, 2016; and

WHEREAS, the EAS documents that the project, as proposed, would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design; Natural Resources; Hazardous Materials; Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, by letter dated July 14, 2016, the New York City Department of Environmental Protection, Bureau of Environmental Planning and Analysis, reviewed the proposal for noise impacts and determined that the subject application would not result in potential significant adverse noise impacts; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

*Therefore, it is Resolved*, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 to permit, on a site located in an R5 zoning district and the Special Ocean Parkway District, the development of a three-story Use Group 3 school that does not comply with applicable bulk regulations pertaining to floor area, floor area ratio, open space, lot coverage, front yards, side yards and off-street loading regulations, contrary to ZR §§ 23-142, 23-45, 23-464 and 113-22, *on condition* that all work shall substantially conform to drawings filed with this application marked "Received December 5, 2017"-Twelve (12) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum of 6,341 square feet of floor area (3.15 FAR), a minimum of 8.5 percent open space, a maximum of 91.5 percent lot coverage, no front yards and at least one side yard with a minimum width of 4'-2.5";

THAT windows at the exterior stairs shall not be enclosed, so long as such condition is approved by DOB and if DOB should require their enclosure, the windows at the exterior stairs shall be covered with perforated metal screens, as indicated on the plan detail as found on sheets No. 04 of 10 of the Board-approved plans;

THAT buses shall be parked off-site when not in use at

# MINUTES

709 Chester Street, Brooklyn;

THAT the relocation of off-site bus parking from 709 Chester Street shall require prior letter approval by the Board;

THAT upon the completion of construction, the applicant contact DOT Brooklyn Borough Engineer for a final assessment to determine if a school loading zone is warranted and on which street it should be located;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a certificate of occupancy shall be obtained within four (4) years;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, December 5, 2017.

## 22-15-BZ

### CEQR #15-BSA-152K

APPLICANT – Simons & Wright LLC, for 219 26<sup>th</sup> Street, LLC, owner.

SUBJECT – Application February 5, 2015 – Variance (72-21) to proposed to construct a residential building on a small lot at premises, located in an M1-1D zoning district, contrary to (Section 42-00) not permitted as of right.

PREMISES AFFECTED – 219 26<sup>th</sup> Street, Block 655, Lot 55, Borough of Brooklyn.

### COMMUNITY BOARD #7BK

**ACTION OF THE BOARD** – Application granted on condition.

#### THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

Abstain: Commissioner Sheta .....1

#### THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated January 9, 2015, acting on DOB Application No. 320968805, reads in pertinent part:

The proposed construction of a building with residential use is not permitted as-of-right in a M1-1D zoning district and is contrary to Section 42-00 (use) of the Zoning Resolution . . .

WHEREAS, this is an application under ZR § 72-21 to permit, on a site located in an M1-1D zoning district, the development of a three-story plus cellar three unit residential building, contrary to ZR § 42-00; and

WHEREAS, a public hearing was held on this

application on September 27, 2016, after due notice by publication in *The City Record*, with continued hearings on January 10, 2017, and March 28, 2017, and then to decision on December 5, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown, former Vice-Chair Hinkson and former Commissioner Montanez performed inspections of the site and the surrounding neighborhood; and

WHEREAS, Community Board 7, Brooklyn, recommends approval of this application, stating that, though the Board is typically very protective of its manufacturing zones, Board Members believed that this site was appropriate for a variance because of its previous residential use and similar non-conforming properties on the block; and

WHEREAS, the Board was also in receipt of five form consents to the application and four form objections to the application; and

WHEREAS, the subject site is located on the north side of 26th Street, between Fourth Avenue and Fifth Avenue, in an M1-1D zoning district, in Brooklyn; and

WHEREAS, the site has approximately 26 feet of frontage along 26th Street, a depth of 60 feet at the west lot line and 63 feet at the east lot line, 1,603 square feet of lot area and is currently occupied by a two story plus basement residential building that has been vacant for at least two years; and

WHEREAS, the applicant originally proposed a three-story plus basement four unit residential building with 3,640 square feet of floor area, a floor area ratio (“FAR”) of 2.27, a building height of 35 feet, a rear yard varying in depth from 24’-1’ to 21’-8”, no side yards and a 3’-8” deep front yard; and

WHEREAS, in response to the Board’s comments, the applicant revised the application and now proposes to redevelop the site with a three-story plus cellar three unit residential building with 3,120 square feet of floor area (1.95 FAR), a height of 30 feet and a rear yard that measures approximately 20’-5” at the west lot line and 22’-11” at the east lot line; and

WHEREAS, pursuant to ZR § 42-00, residential use is not permitted within an M1-1D zoning district, therefore, the applicant sees the subject relief; and

WHEREAS, the applicant states that, pursuant to ZR § 72-21(a), the small size and shallow depth of the site are unique physical conditions that create a practical difficulty and unnecessary hardship in developing the site in conformance with the underlying district regulations; and

WHEREAS, in support of this contention, the applicant submitted a study of sites located within 1,000 feet of subject site and an M1-1 zoning district (the “Study Area”) concluding that, of the 313 sites in the Study Area, four lots (one percent) have 2,000 square feet or less of lot area, a depth of 65 feet or less and are not occupied by either an existing non-conforming residential use or a conforming manufacturing, industrial or commercial building; and

WHEREAS, upon learning that the subject site was previously held in common ownership with Lot 56, located

---

# MINUTES

---

immediately to the west of the subject site and having a depth of 58 feet at its west lot line and 60 feet at the lot line it shares with the subject site, the Board requested an alternative analysis to establish that the sale of Lot 56 did not create the hardship herein complained of; and

WHEREAS, in response, the applicant submitted an alternative analysis of the Study Area, considering lots having 3,100 square feet or less of lot area (Lots 55 and 56, combined, have a total lot area of 3,035 square feet) and again concluding that there are only four lots (one percent) having 3,100 square feet or less of lot area and a depth of 65 feet or less that are not occupied by either an existing non-conforming residential use or a conforming manufacturing, industrial or commercial building; and

WHEREAS, all four of those lots are under common ownership with and used in connection with one or more adjacent lots, thereby distinguishing them from the subject site, which has not been held in common ownership with any adjoining lot since at least 1985, when Lot 56 was sold to the owner of Lot 57, located immediately to its west; and

WHEREAS, accordingly, the Board finds that the small size and shallowness of the subject site are unique physical conditions that create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, in satisfaction of the (b) finding, the applicant submits that there is no reasonable possibility that a conforming development at the subject site will bring a reasonable return and, in support of that contention, submitted a financial analysis for (1) a one story industrial building across Lots 55 and 56 having 3,082 square feet of floor area; (2) a one-story industrial building on the subject lot only, having 1,603 square feet of floor area; (3) a three-story residential building with 2,639 square feet of floor area and three one-bedroom units (the "Lesser Variance"); and (4) the subject proposal, which was evaluated assuming three two-bedroom units; and

WHEREAS, the Lesser Variance was developed to be consistent with the bulk parameters set forth in ZR § 43-61, which apply to any development authorized by the City Planning Commission pursuant to ZR § 42-47 (Residential Uses in M1-1D through M1-5D Districts); and

WHEREAS, the financial analyses submitted with the application conclude that only the subject proposal would generate a reasonable return, approximately 0.5 percent; and

WHEREAS, upon review of the applicant's submissions, the Board finds that, in accordance with ZR § 72-21(b), due to the site's unique physical conditions, there is no reasonable possibility that a development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant states that the subject proposal will not substantially impair the appropriate use or development of adjacent properties and will not be detrimental to the public welfare in accordance with ZR § 72-21(c); specifically, the applicant submits that the site has historically been utilized as residential, that the existing building on the site, which will be demolished to

accommodate the subject proposal, is residential, that residential buildings exist to the east, west and rear of the subject site on the subject block, and that the opposite side of 26th Street (Block 658) is also substantially residential in character; and

WHEREAS, with regards to height, the applicant notes the reduction in the height of the proposed building from 35 feet to 30 feet, which is the same height as the existing residential building on the premises; and

WHEREAS, accordingly, the Board finds that the subject proposal will not alter the essential character of the neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant represents, and the Board finds, that the hardship claimed as grounds for the variance was not created by the owner or a predecessor in title in accordance with ZR § 72-21(d); and

WHEREAS, the applicant submits that the subject proposal is the minimum variance necessary to afford relief because it is the only scenario that provides a reasonable return; and

WHEREAS, the Board finds that the subject proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement ("EAS") CEQR No. 15BSA152K, received November 14, 2017; and

WHEREAS, the EAS documents that the project, as proposed, would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, by letter dated August 9, 2017, the New York City Department of Environmental Protection ("DEP") states that, based on the results of the noise analysis performed as per the City Environmental Quality Technical Manual, it was determined that the proposed project would not result in any potential for significant adverse impacts in regards to noise; and

WHEREAS, by letter dated September 27, 2017, upon review of the September 2017 Revised Remedial Action Plan ("RAP"), DEP recommended that, upon completion of the project, a Professional Engineer certified Remedial Closure Report indicating that all remedial requirements have been properly implemented be submitted for review and approval; and

WHEREAS, by letter dated October 23, 2017, DEP concludes that, based on its review of a revised Air Toxic Analysis report, the proposed project would not result in any

---

# MINUTES

---

significant adverse air quality impact; and

WHEREAS, by a report dated June 16, 2015, the New York City Landmarks Preservation Commission states that the subject site is of neither architectural nor archaeological significance; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

*Therefore, it is Resolved*, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 to permit, on a site located in an M1-1D zoning district, the development of a three-story plus cellar residential building with three two-bedroom units, contrary to ZR § 42-00; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received December 21, 2016”—Nine (9) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum of 3,120 square feet of floor area (1.95 FAR), a maximum height of 30 feet and a maximum of three two-bedroom dwelling units; and

THAT upon completion of the project, a Professional Engineer certified Remedial Closure Report indicating that all remedial requirements have been properly implemented be submitted for review and approval by DEP;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a certificate of occupancy shall be obtained within four (4) years;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, December 5, 2017.

### CEQR #17-BSA-101M

APPLICANT – Law Office of Fredrick A. Becker, for Premier 644 Greenwich LLC, owner; Bright Horizons Children’s Center LLC, lessee.

SUBJECT – Application March 9, 2017 – Special Permit (§73-19) to allow for a Day Care Center (UG 3) (*Bright Horizons Child Care Center*) to be located on the first (1st) floor of an existing building contrary to ZR §42-00. M1-5 zoning district.

PREMISES AFFECTED – 111 Barrow Street, Block 603, Lot 37, Borough of Manhattan.

### COMMUNITY BOARD #2M

**ACTION OF THE BOARD** – Application granted on condition.

#### THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4  
Negative: .....0

#### THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated March 7, 2017, acting on Alteration Application No. 123021247, reads in pertinent part:

“Community Facility Use (Use Group 3) Day Care Center is not permitted in M1-5 District as indicated in Section ZR 42-00”; and

WHEREAS, this is an application under ZR §§ 73-19 and 73-03 to permit, in an M1-5 zoning district, the operation of a school, contrary to ZR § 42-00; and

WHEREAS, a public hearing was held on this application on October 17, 2017, after due notice by publication in *The City Record*, and then to decision on December 5, 2017; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 2, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the southwest corner of Barrow Street and Greenwich Street, in an M1-5 zoning district, in Manhattan; and

WHEREAS, the site has approximately 104 feet of frontage along Barrow Street, 100 feet of frontage along Greenwich Street, 10,130 square feet of lot area and is occupied by an eight-story, with cellar, mixed-use residential and community-facility building; and

WHEREAS, the applicant proposes to convert the first floor for use as a childcare center (the “School”) and thus seeks a special permit to allow the operation of a school in the subject zoning district, where schools are not permitted as of right; and

WHEREAS, as a preliminary matter, the applicant represents that the School meets the definition of “school” in ZR § 12-10 and states that the School will meet New York State licensing and related requirements; and

WHEREAS, reviewing the record, the Board finds that the School meets the “school” definition in ZR § 12-10 and

---

# MINUTES

---

that a special permit under ZR § 73-19 is accordingly available for such proposed use; and

WHEREAS, under ZR § 73-19(a), the applicant states that, within the neighborhood to be served by the School there is no practical possibility of obtaining a site of adequate size located in a district wherein it is permitted as of right, because appropriate sites in such districts are occupied by substantial improvements; and

WHEREAS, the applicant analyzed the School's programmatic needs, concluding that the School will educate approximately 96 children, ranging in age from infants to preschool age, that that accordingly there will be a need for three infant rooms with eight children in each, two toddler rooms with ten children in each, two pre-school rooms with 20 children in each and one additional room for twelve children, that there will be a full-time staff of 18 individuals, that the School will need a location that provides adequate egress with an accessible location at the ground floor level and that the School needs at least 7,560 square feet of floor area to meet its programmatic needs; and

WHEREAS, the applicant represents that the School has conducted a search for more than two years, considering 42 commercial sites, which all presented difficulties in terms of costs and lack of available space on the ground floor; and

WHEREAS, the applicant submits that the subject site will adequately meet the School's programmatic needs with sufficient floor area, egress, accessibility, outdoor recreation available nearby and feasible costs; and

WHEREAS, the Board makes the necessary finding under ZR § 73-19(a); and

WHEREAS, consistent with ZR § 73-19(b), the applicant represents that the School is located within 400 feet of the boundary of a district where the School is permitted as of right; and

WHEREAS, specifically, the applicant notes that the northern side of Barrow Street is within a C6-2 zoning district, that diagonally across Greenwich Street to the north is an R6 zoning district and that there is a C1-6A zoning district one-half block west; and

WHEREAS, the Board makes the required finding under ZR § 73-19(b); and

WHEREAS, the applicant states that, under ZR § 73-19(c), the School will achieve an adequate separation from noise, traffic and other adverse effects of the surrounding non-residence districts through the use of sound-attenuating exterior wall and window construction or by the provision of adequate open areas along the subject site's lot lines; and

WHEREAS, the applicant represents that the surrounding area contains a mix of residential and commercial uses with no particular heavy industry within the vicinity and no excessive noise or noxious fumes; and

WHEREAS, the Board finds that the requirements of ZR § 73-19(c) are met; and

WHEREAS, the applicant states that, under ZR § 73-19(d), traffic through Barrow Street and Greenwich Street can be controlled so as to protect children going to and from the School; and

WHEREAS, by letter dated November 6, 2017, the New York City Department of Transportation ("DOT") states that the School is not subject to DOT jurisdiction but that, once the School is ready to begin operations, the applicant may elect to coordinate with DOT to determine whether a loading zone is warranted; and

WHEREAS, in addition, the applicant submits that all of the students will arrive and depart accompanied by adults and that the School will supervise arrivals and departures to prevent vehicular hazards; and

WHEREAS, the Board makes the necessary finding under ZR § 73-19(d); and

WHEREAS, the applicant represents that the School will have a beneficial effect on the community and that there is adequate on-site storage for infant equipment and supplies and that the School will not have any adverse effects on the neighborhood; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 17BSA101M, dated August 16, 2017; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction Impacts; and

WHEREAS, by letter dated September 20, 2017, the New York City Department of Environmental Protection ("DEP") states that the project would not result in significant noise impacts and that the existing window-wall attenuation would be sufficient to maintain an interior noise level below 45 dBA; and

WHEREAS, by correspondence dated October 10, 2017, the New York City Department of City Planning states that the project as proposed will not substantially hinder the achievement of any Waterfront Revitalization Program ("WRP") policy and is consistent with the WRP policies; and

WHEREAS, by letter dated October 24, 2017, DEP

# MINUTES

states that, based on prior on-site or surrounding area land uses, indoor air sampling shall be required for the on-site structure, that outdoor air samples should be collected simultaneously with indoor air samples to evaluate the potential influence, if any, of outdoor air on the indoor air sampled, that an Investigative Protocol/Work Plan summarizing the proposed indoor and outdoor air sampling activities shall be submitted to DEP for review and approval, that the Work Plan shall include a site map depicting the proposed indoor and outdoor air sampling locations, that the sampling shall be conducted in accordance with New York State Department of Health (“NYSDOH”) October 2006 Guidance for Evaluating Soil Vapor Intrusion in the State of New York, that the indoor and outdoor air samples shall be collected and analyzed by a NYSDOH Environmental Laboratory Approval Program certified laboratory for the presence of volatile organic compounds by United States Environmental Protection Agency Method TO-15 and that an Investigative Health and Safety Plan (“HASP”) shall also be submitted to DEP for review and approval; and

WHEREAS, DEP further states in the letter dated October 24, 2017, that ACM and LBP may be present at the subject site, that these materials shall be properly removed or managed prior to the start of any construction activities and disposed of in accordance with all federal, state and local regulations, that the Phase II Work Plan and HASP shall be submitted to DEP for review and approval prior to the start of any fieldwork; and

WHEREAS, by letter dated November 30, 2017, DEP recommends that the first floor be properly sealed such that there would be minimal transfer of vapors from the basement into the first floor, that the heating, ventilating and air conditioning system be operated to ensure frequent air exchange on the first floor, that the phone number of the Alternate Site Health and Safety Officer be included in the CHASP and that, at the completion of renovation and construction activities, an indoor air survey using a photoionization detector shall be conducted with the results of the survey submitted to DEP for review and approval; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board has determined that the evidence in the record supports the necessary findings under ZR §§ 73-19 and 73-03 and that the applicant had substantiated a basis to warrant exercise of discretion to grant.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *issue* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and make each and every one of the required findings under ZR §§ 73-19 and 73-03 to *permit*, in an M1-5 zoning

district, the operation of a school, contrary to ZR § 42-00; *on condition* that all work, site conditions and operation of the site shall substantially conform to drawings filed with this application marked “Received August 2, 2017”- Four (4) sheets; and *on further condition*:

THAT at the completion of renovation and construction activities, an indoor air survey using a photoionization detector shall be conducted and the results of the survey shall be submitted to DEP for review and approval;

THAT the above condition shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by December 5, 2021;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, December 5, 2017.

### CEQR #16-BSA-016K

APPLICANT – Moshe M. Friedman, P.E., for 127 Taaffe LLC, owner.

SUBJECT – Application August 10, 2015 – Variance (§72-21) to permit the development of a four-story, multifamily residential building (UG2) contrary to ZR §42-10. M1-1 zoning district.

PREMISES AFFECTED – 129 Taaffe Place, Block 1897, Lot 6, Borough of Brooklyn.

### COMMUNITY BOARD #3BK

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

Abstain: Commissioner Sheta.....1

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated July 12, 2015, acting on DOB Application No. 320624794 reads in pertinent part:

ZR 42-00: Proposed residential use in M1-1 district is not permitted; and

WHEREAS, this is an application under ZR § 72-21 to permit, on a site located in an M1-1 zoning district, the development of a four-story plus cellar Use Group 2 multifamily residential building, contrary to ZR § 42-00; and

WHEREAS, a public hearing was held on this

---

---

application on March 21, 2017, after due notice by publication in *The City Record*, with continued hearings on June 27, 2017, September 26, 2017, and then to decision on December 5, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, the Board was in receipt of two letters of consent to the application; and

WHEREAS, Community Board 3, Brooklyn, waived its recommendation on this application; and

WHEREAS, the subject site is located on the west side of Taaffe Place, between Park Avenue and Myrtle Avenue, in an M1-1 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 33 feet of frontage along Taaffe Place, a depth of 75 feet, 2,500 square feet of lot area and is currently vacant; and

WHEREAS, the applicant proposes to develop the site with a four-story plus cellar eight-unit Use Group 2 residential building; and

WHEREAS, pursuant to ZR § 42-00, residential use is not permitted within an M1-1 zoning district and, thus, the applicant seeks the subject relief; and

WHEREAS, the applicant represents that the propose building will contain 5,971 square feet of floor area, a floor area ratio ("FAR") of 2.39, a 30 foot rear yard and a height of 40 feet; and

WHEREAS, the applicant states that, pursuant to ZR § 72-21(a), the small size, narrow width and shallowness of the site are unique conditions that create a practical difficulty and unnecessary hardship in developing the site in conformance with the underlying district regulations; and

WHEREAS, based on a study of the 214 lots within 1,000 feet of the subject site within an M1-1 or M1-2 zoning district provided by the applicant (the "Study Area"), 5 lots (2 percent) contain 2,500 square feet or less of lot area, a depth of less than 75 feet, a width of less than 33 feet and are not developed with non-conforming residential uses; and

WHEREAS, of those 5 lots, 2 are utilized for industrial or manufacturing uses in connection with adjacent lots, 1 is utilized as a commercial parking lot in connection with an adjacent lot and 1 is developed with a commercial use, leaving 1 lot (1 percent), which is currently vacant, similarly plagued as the subject site; and

WHEREAS, the applicant notes that 105 lots within the Study Area (49 percent) are developed with non-conforming residential uses; and

WHEREAS, accordingly, the Board finds that the small size narrow width and shallowness of the subject site are unique physical conditions that create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, in satisfaction of the (b) finding, the applicant submits that there is no reasonable possibility that a conforming development at the subject site will bring a reasonable return and, in support of that contention, submitted a financial analysis for (1) a one story commercial building (the "AOR Development") and (2) the subject

proposal; and

WHEREAS, the financial analyses submitted with the application conclude that only the subject proposal would generate a reasonable return, approximately 1 percent; and

WHEREAS, upon review of the applicant's submissions, the Board finds that, in accordance with ZR § 72-21(b), that due to the site's unique physical conditions, there is no reasonable possibility that a development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the subject proposal will not substantially impair the appropriate use or development of adjacent properties and will not be detrimental to the public welfare, in accordance with ZR § 72-21(c); specifically, the applicant avers that the subject site has historically been developed with residential uses, that the subject block is primarily residential in character with only 1 conforming manufacturing use out of the total eighteen lots on the block located within an M1-1 zoning district with frontages on Taaffe Place, that the subject site is located approximately 118 feet immediately south of a New York City public school located on the same block and directly across Taaffe Place from a city park containing playgrounds and ball courts that runs the entire length of the block between Myrtle Avenue and Park Avenue that is located in an M1-1 zoning district; and

WHEREAS, the Board finds that the subject proposal will not alter the essential character of the neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant represents that the Board finds that the hardship claimed as grounds for the variance was not created by the owner or a predecessor in title in accordance with ZR § 72-21(d); and

WHEREAS, the applicant submits that the subject proposal is the minimum variance necessary to afford relief because it is the only scenario that provides a reasonable return; and

WHEREAS, accordingly, the Board finds that the subject proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement ("EAS") CEQR No. 16BSA016K, dated January 26, 2017; and

WHEREAS, the EAS documents that the project, as proposed, would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

# MINUTES

WHEREAS, by letter dated March 6, 2017, the New York City Department of Environmental Protection (“DEP”) states that it reviewed the January 2017 Remedial Action Plan (“RAP”) and the January 2017 Construction Health and Safety Plan (“CHASP”) and requested that the RAP incorporate a minimum of two (2) feet of clean fill/top soil that is imported from an approved facility/source and graded across for all landscaped/grass covered areas of the site not capped with concrete/asphalt, and upon the completion of clean fill/top soil investigation activities, the consultant submit a detailed clean soil report to DEP for review and approval prior to importation and placement on-site that includes, at a minimum, an executive summary, narrative of field activities, laboratory data and comparison of soil analytical results; and

WHEREAS, DEP additionally requested that, at the completion of the project, a Professional Engineer (P.E.) certified Remedial Closure Report indicating that all remedial requirements have been properly implemented be submitted to DEP for review and approval for the proposed project; and

WHEREAS, by letter dated August 17, 2017, DEP states that, based on its review of the air quality section of the EAS and subsequent Air Quality report and supported materials, the proposed project would not result in any potential for significant adverse impacts in regards to air quality; and

WHEREAS, by a report dated June 9, 2015, the New York City Landmarks Preservation Commission states that the subject site is of neither architectural nor archaeological significance; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

*Therefore, it is Resolved*, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 to permit, on a site located in an M1-1 zoning district, the development of a four-story plus cellar, eight unit Use Group 2 residential building, contrary to ZR § 42-00; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received November 15, 2017”-Fifteen (15) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum of 5,971 square feet of residential floor area (2.39 FAR) and a maximum of 8 dwelling units;

THAT upon completion of clean fill/top soil investigation activities, the applicant shall submit a detailed clean soil report to DEP for review and approval prior to importation and placement on-site that includes, at a minimum, an executive

summary, narrative of field activities, laboratory data and comparison of soil analytical results; and

THAT upon completion of remediation activities, a Professional Engineer certified Remedial Closure Report, indicating that all remedial requirements have been properly implemented be submitted to DEP for review and approval;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a certificate of occupancy shall be obtained within four (4) years;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, December 5, 2017.

## 2017-102-BZ

### CEQR #17-BSA-113K

APPLICANT – Sheldon Lobel, P.C., for Abraham Chehebar, owner.

SUBJECT – Application April 5, 2017 – Special Permit (§73-622) to permit the enlargement of a single-family residence, contrary to floor area requirements (ZR §23-41); perimeter wall height (ZR §23-631); proposed front yard setback (ZR §23-45); and side yards (ZR §23-461). R2X (Special Ocean Parkway District).

PREMISES AFFECTED – 2015 East 5<sup>th</sup> Street, Block 7108, Lot 116, Borough of Brooklyn.

### COMMUNITY BOARD #15BK

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta .....4

Negative: .....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated June 2, 2017, acting on Alteration Application No. 321460717, reads in pertinent part:

Proposed plans are contrary to ZR23-142 in that the proposed FAR exceeds the maximum permitted.

Proposed plans are contrary to ZR23-631 in that the proposed perimeter wall height exceeds the maximum permitted.

Proposed plans are contrary [t]o ZR23-461 in that the proposed side yard are . . . opposed to the required setbacks; and

WHEREAS, this is an application under ZR §§ 73-622

---

---

and 73-03 to permit, in an R2X zoning district in the Special Ocean Parkway District, the enlargement of an existing residence that does not comply with zoning regulations for floor area ratio ("FAR"), perimeter wall height and side yards, contrary to ZR §§ 23-142, 23-631 and 23-461; and

WHEREAS, a public hearing was held on this application on September 26, 2017, after due notice by publication in *The City Record*, and then to decision on December 5, 2017; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of East 5th Street, between Avenue S and Avenue T, in an R2X zoning district in the Special Ocean Parkway District, in Brooklyn; and

WHEREAS, the site has approximately 40 feet of frontage along East 5th Street, 100 feet of depth, 4,000 square feet of lot area and is occupied by a three-story, with cellar, detached residence; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single- or two-family detached or semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard* or perimeter wall

height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, inter alia, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge an existing detached single-family residence, as contemplated in ZR § 73-622; and

WHEREAS, the applicant proposes to enlarge the existing residence by increasing floor area from 3,400 square feet (0.85 FAR) to 4,582 square feet (1.1 FAR), maintaining the existing perimeter wall height of 21'-9" and maintaining the non-complying side yards with a width of 7'-5" to the north and 3'-5" to the south; and

WHEREAS, the applicant represents that, in the subject zoning district, floor area may not exceed 3,400 square feet (0.85 FAR) under ZR § 23-142, perimeter wall height may not exceed 21 feet under ZR § 23-631 and side yards must total 10 feet in width, each with a minimum width of two feet, under ZR § 23-461; and

WHEREAS, with respect to perimeter wall height, the applicant represents that the buildings adjacent to the subject

---

# MINUTES

---

site have existing, non-complying perimeter wall heights of 22'-8" and 22'-4"; and

WHEREAS, the applicant represents that the enlarged building will not alter the essential character of the neighborhood or district in which the building is located, nor impair the future use or development of the surrounding area; and

WHEREAS, in support of this contention, the applicant submitted an FAR study concluding that 22 residences within a 400-foot radius have FARs greater than 0.85, 15 of which have FARs that exceed 1.0, ranging from 0.85 FAR to 1.59 FAR; and

WHEREAS, the applicant further submitted a streetscape study demonstrating that the proposed perimeter wall height is within the character of neighboring residences, all but one of which along the streetscape have perimeter heights taller than that proposed by the applicant; and

WHEREAS, the applicant also provided a photographic study illustrating the built character of the neighborhood and historic Sanborn maps indicating that the subject building has had the same footprint since 1930 with the existing side and front yards; and

WHEREAS, based upon its review of the record and inspections of the site and surrounding neighborhood, the Board finds that the proposed building will not alter the essential character of the neighborhood or district in which the building is located, nor impair the future use or development of the surrounding area; and

WHEREAS, the applicant represents that the proposed enlargement of the existing building will be modest; and

WHEREAS, in response to questions from the Board at hearing, the applicant reduced the floor area of the proposed building to better coincide with other buildings on the subject block and corrected the calculations for perimeter wall height; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of bulk regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17BSA113K, dated April 5, 2017; and

WHEREAS, based upon its review of the record, the Board finds that the evidence supports the necessary findings under ZR § 73-622 and 73-03 and that the applicant has substantiated a basis for exercise of discretion to grant.

*Therefore it is Resolved*, that the Board of Standards

and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and make each and every one of the required findings under ZR § 73-622 and 73-03 to *permit*, in an R2X zoning district in the Special Ocean Parkway District, the enlargement of an existing residence that does not comply with zoning regulations for floor area ratio, perimeter wall height and side yards, contrary to ZR §§ 23-142, 23-631 and 23-461; *on condition* that all work and site conditions shall substantially conform to the drawings filed with this application marked "Received November 16, 2017"-Two (2) sheets and "December 5, 2017"-Fifteen (15) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: floor area shall not exceed 4,582 square feet (1.1 FAR), perimeter wall height shall not exceed 21'-9", side yards shall have minimum widths of 7'-5" to the north and 3'-5" to the south;

THAT all existing exterior walls and wall joists indicated to remain undisturbed on the Board-approved plans shall remain or the special permit is void;

THAT the above conditions shall be noted on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by December 5, 2021;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, December 5, 2017.

#### CEQR #18-BSA-057K

APPLICANT – NYC Mayor’s Office of Housing Recovery Operations, for Kerry Timmins, owner.

SUBJECT – Application November 9, 2017 – Special Permit (§64-92) to waive bulk regulations for the replacement of homes damaged/destroyed by Hurricane Sandy, on properties which are registered in the NYC Build it Back Program. R4-1 zoning district.

PREMISES AFFECTED – 19 Stanton Road, between Gunnison Court and Losee Terrace, Block 8800, Lot 94, Borough of Brooklyn.

### COMMUNITY BOARD #15BK

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative: .....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to permit, in an R4-1 zoning district, the reconstruction of a single-family detached residence in compliance with flood-resistant construction

---

# MINUTES

---

standards that does not comply with the zoning requirements for front yards, side yards, rear yards, open space and lot coverage, contrary to ZR §§ 23-45, 64-A351, 23-461(a), 64-A352, 23-47, 64-A353, 23-142, 64-A311; and

WHEREAS, a public hearing was held on this application on December 5, 2017, and then to decision on the same date; and

WHEREAS, this application is brought on behalf of the property owner by the Build It Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in furtherance of the City's effort to rebuild residences impacted by Superstorm Sandy expeditiously and effectively, the Board, pursuant to 2 RCNY § 1-14.2, waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1-05.1 (Objection Issued by the Department of Buildings); (2) 2 RCNY § 1-05.3 (Filing Period); (3) 2 RCNY § 1-05.4 (Application Referral); (4) 2 RCNY § 1-05.6 (Hearing Notice); (5) 2 RCNY § 1-05.7 (List of Affected Property Owners); (6) 2 RCNY § 1-09.4 (Owner's Authorization); and (7) 2 RCNY § 1-10.7 (Proof of Service for Application Referral and Hearing Notice); and

WHEREAS, the Board notes that the subject application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the west side of Stanton Road, between Losee Terrace and Gunnison Court, in an R4-1 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 24 feet of frontage along Stanton Road, 55 feet of depth, 1,320 square feet of lot area and is occupied by a single-family detached residence; and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 22, 2016, when, under BSA Cal. No. 2016-418-A, the Board granted a waiver of General City Law ("GCL") § 36 permitting the elevation or reconstruction of a single-family residence that does not front on a mapped street; and

WHEREAS, the waiver was conditioned, inter alia, upon the reconstructed residence having a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code; the residence being provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code; the underside of the exterior of the residence where the foundation is not closed having a floor assembly that provides a 2-hour fire resistance rating; and the height from grade plane to the highest windowsill leading to a habitable space not exceeding 32 feet; and

WHEREAS, the applicant now seeks a special permit, pursuant to ZR § 64-92, to allow the reconstruction of a two-story single-family detached residence with 13 feet of open space along the east lot line, 4 feet of open space along the south lot line, 8 feet of open space along the west lot line, 4 feet of open space along the north lot line, 575 square feet of open space and 56.5 percent lot coverage, contrary to

the zoning requirements for front yards, side yards, rear yards, open space and lot coverage; and

WHEREAS, at the subject site, front-yard, side-yard, rear-yard, open-space and lot-coverage requirements are set forth in ZR §§ 23-45, 64-A351, 23-461(a), 64-A352, 23-47, 64-A353, 23-142, 64-A311; and

WHEREAS, the subject site does not front a "street," as defined in ZR § 12-10, and is accessed, instead, by a private pathway, allowing ingress and egress to the surrounding public streets; and

WHEREAS, consequently the subject site lacks a "front lot line," a "front yard," a "rear lot line," a "rear yard" and "side yards," as those terms are defined in the same section and, therefore, proposes open space, in lieu of yards, along its lot lines and seeks waivers of the applicable yard regulations; and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments* and *enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Sections 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

- (a) that there would be a practical difficulty in complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;
- (b) that any modification of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, in accordance with ZR § 64-92(a), the need to reconstruct the existing residence, which, as it exists, is non-compliant with regulations for lot size, front

---

yards, rear yards, side yards, open space and lot coverage, creates practical difficulties in complying with flood-resistant construction standards without the modification of the yard, open-space and lot-coverage requirements and that waiving the same is the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the finding pursuant to ZR § 64-92(b) is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the residence is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed reconstruction satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18BSA057K, dated November 9, 2017.

*Therefore, it is Resolved*, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure and issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92 to *permit*, in an R4-1 zoning district, the reconstruction of a single-family detached residence in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards, side yards, rear yards, open space and lot coverage, contrary to ZR §§ 23-45, 64-A351, 23-461(a), 64-A352, 23-47, 64-A353, 23-142, 64-A311; *on condition* that all work shall substantially conform to the drawings filed with this application and marked "Received November 9, 2017"-Four (4) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: a minimum of 13 feet of open space along the east lot line, a minimum of 4 feet of open space along the south lot line, a minimum of 8 feet of open space along the west lot line, a minimum of 4 feet of open space along the north lot line, with exterior balconies, eaves, gutters and stairs permitted in the required open space, a minimum of 575 square feet of open space and a maximum of 56.5 percent lot coverage, as illustrated on the Board-approved plans;

THAT the building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code;

THAT the residence shall be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11

of the New York City Building Code;

THAT the underside of the exterior of the residence where the foundation is not closed shall have a floor assembly that provides a 2-hour fire resistance rating;

THAT the height from grade plane to the highest windowsill leading to a habitable space may not exceed 32 feet;

THAT this approval shall be limited to the Build It Back program;

THAT all DOB and related agency application(s) filed in connection with the authorize use and/or bulk shall be signed off by DOB and all other relevant agencies by December 5, 2021;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, December 5, 2017.

## 2017-302-BZ

### CEQR #18-BSA-062Q

APPLICANT – NYC Mayor's Office of Housing Recovery Operations, for Kenneth Rudden, owner.

SUBJECT – Application November 9, 2017 – Special Permit (§64-92) to waive bulk regulations for the replacement of homes damaged/destroyed by Hurricane Sandy, on properties which are registered in the NYC Build it Back Program. R4 zoning district.

PREMISES AFFECTED – 174A & 176A Beach 111<sup>th</sup> Street, Rockaway Park, westerly of intersection of Beach 111<sup>th</sup> Street and Ocean Promende, Block 16183, Lot 62, Borough of Queens.

### COMMUNITY BOARD #14Q

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative: .....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board's Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to permit, in an R4 zoning district, the development of two two-family detached residences in compliance with flood-resistant construction standards that does not comply with the zoning requirements for minimum required distance between buildings, contrary to ZR § 23-711; and

WHEREAS, a public hearing was held on this application on December 5, 2017, and then to decision on the same date; and

WHEREAS, this application is brought on behalf of

---

# MINUTES

---

the property owner by the Build It Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in furtherance of the City's effort to rebuild residences impacted by Superstorm Sandy expeditiously and effectively, the Board, pursuant to 2 RCNY § 1-14.2, waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1-05.1 (Objection Issued by the Department of Buildings); (2) 2 RCNY § 1-05.3 (Filing Period); (3) 2 RCNY § 1-05.4 (Application Referral); (4) 2 RCNY § 1-05.6 (Hearing Notice); (5) 2 RCNY § 1-05.7 (List of Affected Property Owners); (6) 2 RCNY § 1-09.4 (Owner's Authorization); and (7) 2 RCNY § 1-10.7 (Proof of Service for Application Referral and Hearing Notice); and

WHEREAS, the Board notes that the subject application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the east side of Beach 111 Street, between Rockaway Beach Boulevard and Ocean Promenade, in an R4 zoning district, in Queens; and

WHEREAS, the site has approximately 60 feet of frontage along Stanton Road, 100 feet of depth, 6,000 square feet of lot area and was formerly occupied by six single-family detached residences prior to Superstorm Sandy; and

WHEREAS, the applicant now seeks a special permit, pursuant to ZR § 64-92, to allow the development of two two-family detached residences with a distance of 11'-10" between the buildings, contrary to minimum required distance between buildings; and

WHEREAS, at the subject site, the requirement for minimum distance between buildings is set forth in ZR § 23-711; and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments* and *enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Sections 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

(a) that there would be a practical difficulty in complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant*

*construction standards*;

- (b) that any modification of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, in accordance with ZR § 64-92(a), the need to develop the two-family residences creates practical difficulties in complying with flood-resistant construction standards without the modification of the requirement for minimum distance between buildings and that waiving the same is the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the finding pursuant to ZR § 64-92(b) is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the residence is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed reconstruction satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18BSA062Q, dated November 20, 2017.

*Therefore, it is Resolved*, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure *and* issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92 to *permit*, in an R4 zoning district, the development of two two-family detached residences in compliance with flood-resistant construction standards that does not comply with the zoning requirements for minimum required distance between buildings, contrary to ZR § 23-711; *on condition* that all work shall substantially conform to the drawings filed with this application and marked "Received November 20, 2017"-Eight (8) sheets; and *on further condition*:

THAT the bulk parameters of the subject buildings

---

# MINUTES

---

shall be as follows: a minimum distance of 11'-10" shall be provided between the subject buildings, as illustrated on the Board-approved plans;

THAT each building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code;

THAT each building shall be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code;

THAT the underside of the exterior of each building where the foundation is not closed shall have a floor assembly that provides a two-hour fire resistance rating;

THAT the height from grade plane to the highest windowsill leading to a habitable space may not exceed 32 feet;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by December 5, 2021;

THAT this approval shall be limited to the Build It Back program;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk shall be signed off by DOB and all other relevant agencies by December 5, 2021;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, December 5, 2017.

Negative: .....0

Abstain: Commissioner Sheta.....1

**THE RESOLUTION –**

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and an extension of term of a variance, previously granted by the Board, which expired July 18, 2011; and

WHEREAS, a public hearing was held on this application on May 3, 2016, after due notice by publication in *The City Record*, with continued hearings on August 23, 2016, and October 17, 2017, and then to decision on December 12, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown, former Vice-Chair Hinkson and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 11, Queens, recommends disapproval of this application, citing concerns with maintenance of the site, the presence of debris, the absence of bollards, parking on the sidewalk and blocking traffic; and

WHEREAS, New York State Senator Tony Avella submitted testimony in opposition to this application; and

WHEREAS, Auburndale Improvement Association, Inc. submitted testimony submitted testimony apprising the Board of site conditions and provided evidence regarding the applicant’s compliance with conditions and safeguards required by the Board; and

WHEREAS, certain residents of the neighborhood appeared in opposition, citing concerns with maintenance of

the site and business operations; and

WHEREAS, the subject site is located on the northwest corner of Northern Boulevard and the Clearview Expressway, with additional frontage on 205th Street, partially in an R3-2 zoning district and partially in an R3-2 (C2-2) zoning district, in Queens; and

WHEREAS, the site has approximately 120 feet of frontage along Northern Boulevard, 240 feet of frontage along the Clearview Expressway, 80 feet of frontage along 205th Street, 16,283 square feet of lot area and is occupied by an automobile showroom with open display of new and used cars and an accessory parking lot; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 15, 1975, when, under the subject calendar number, the Board granted a variance to permit the discontinuance of an automotive service station, the extension of sales and display of new and used cars and the expansion of the accessory parking area into the residence district on condition that the variance be for a term of five (5) years, expiring July 15, 1980, that there be no further variance considered within the residence district and that parking be restricted to employees only; and

WHEREAS, on February 15, 1977, under the subject calendar number, the Board amended the variance to add that the lubricatorium and auto repairs in Use Group 16 may be omitted and auto showroom in Use Group 9 may be substituted therefore and corrected the term of years to be for five (5) years from the date of the amended resolution, expiring February 15, 1982, on condition that a new certificate of occupancy be obtained; and

WHEREAS, on July 13, 1982, under the subject calendar number, the Board granted an extension of term for five (5) years, expiring February 15, 1987, on condition that no cars shall be parked illegally on the sidewalk area on Northern Boulevard or on Clearview Expressway and that a new certificate of occupancy be obtained within one (1) year, by July 13, 1983; and

WHEREAS, on November 17, 1987, under the subject calendar number, the Board granted an extension of term for five (5) years, expiring February 15, 1992, for the automobile showroom and offices and denied an extension of term of the variance for that portion of the lot designated for employee parking on condition that the lot formerly designated for employee parking remain vacant, fenced and locked, unless the lot is used or developed for a conforming use, that the entire site be maintained free and clear of debris and graffiti, that no cars be parked on the sidewalk areas adjacent to the site, that there be no security dogs used on the site, that all dumpsters and refuse containers be kept closed and located on the site, that all of these conditions appear on the certificate of occupancy and that a new certificate of occupancy be obtained within one (1) year, by November 17, 1988; and

WHEREAS, on December 7, 1993, under the subject calendar number, the Board granted an extension of term for ten (10) years, expiring February 15, 2002, on condition that the curb cut and gate leading to the vacant portion of the lot be removed and maintained in compliance with the proposed

---

# MINUTES

---

drawings; and

WHEREAS, on July 18, 2006, under the subject calendar number, the Board granted an extension of term of the variance for five (5) years, expiring July 18, 2011, and amended the variance to permit the restoration of the previously approved accessory parking use to be limited to employee and customer parking on condition that a maximum of 22 automobiles be parked within the sale and display lot, that a maximum of 16 automobiles be parked within the accessory parking lot, that the use of the accessory parking lot be limited to employees and customers, that the accessory parking lot be locked and empty during non-business hours, that all exterior lighting shall be directed away from residences, that 3'-0" tall bollards be installed and maintained along the Northern Boulevard frontage of the site, that a 3'-0" tall wrought iron fence be installed and maintained along the two corners of the site and that the above conditions be listed on the certificate of occupancy; and

WHEREAS, the term of the variance having expired, the applicant now seeks an extension of term; and

WHEREAS, in addition, the applicant requests a waiver of the Board's Rules of Practice and Procedure to permit the filing for an extension of term more than two years after the expiration of the term; and

WHEREAS, in response to community concerns, the Board notes at the outset that an applicant's failure to comply with any of the Board's conditions and safeguards constitutes a violation of the Zoning Resolution that may result in the revocation of a building permit or certificate of occupancy or other appropriate enforcement action by the Department of Buildings; and

WHEREAS, in response to questions from the Board, the applicant submits that site improvements have been completed, including installation of an opaque acoustic fence, installation of new plantings, striping of the parking lot, a reduction in the number of spaces on site, replacement of the dumpster, installation of acoustic screens for HVAC equipment and removal of excess banners; and

WHEREAS, the applicant further represents that test driving of vehicles only occurs along Northern Boulevard, not in residential side streets, that inventory other than show models is stored off site, that preparation of vehicles for delivery occurs off site and that no car repairs occur at the subject site; and

WHEREAS, in response to community concerns, at hearing, the Board noted potential open issues involving broken asphalt and missing bollards; and

WHEREAS, the applicant speculated that bollards may have temporarily been removed during operations but noted that a condition that the bollards remain in place would be an appropriate condition should this application be granted, and the applicant further stated that it was unclear which asphalt was in disrepair but noted that some asphalt had been broken up to provide for landscaping at the site; and

WHEREAS, the Board finds that general conditions that asphalt and sidewalks be maintained would be

appropriate safeguards, given the amount of work that has already been performed to improve the site over the course of this application; and

WHEREAS, however, the Board notes that, because of the problematic history of the subject site, the term of this grant has been limited and that any future failure to comply with the Board's conditions shall be considered prior to any further extension of term; and

WHEREAS, nothing herein shall be understood to prevent any and all appropriate enforcement action by the Department of Buildings against the subject site should any non-compliance occur prior to the expiration of term; and

WHEREAS, based upon its review of the record and personal inspections of the site, the Board finds that the requested extension of term is appropriate with certain conditions and safeguards as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure and does hereby *reopen* and *amend* the resolution, dated July 15, 1975, so that as amended this portion of the resolution shall read: "to *grant* an extension of term for ten (10) years from the expiration of the last term, expiring July 18, 2021; *on condition* that all work and site conditions shall substantially conform to drawings filed with this application marked 'Received December 11, 2017'-Two (2) sheets; and *on further conditions*:

THAT the landscaping, fencing and 100-percent opaque acoustic fencing conditions along the residential lot lines shall be maintained in accordance with the Board-approved plans;

THAT the acoustic screening around the HVAC system shall be maintained in accordance with the Board-approved plans;

THAT the asphalt paving, sidewalks and striping shall be maintained and replaced as necessary;

THAT there shall be a daily cleaning of debris in and around the property;

THAT the site shall be maintained free of graffiti at all times;

THAT trash shall be stored exclusively in the dumpster area shown on the Board-approved plans;

THAT dumpsters shall be emptied three times per week;

THAT landscaping materials shall be replaced and trimmed as necessary to provide a dense screen at least six (6) feet high;

THAT the gate to the parking area shall be locked, except during business hours;

THAT there shall be no storage of cars for sale or car repair permitted on site;

THAT vehicle preparation prior to sale shall occur off site;

THAT cars shall be available for pickup by purchasers for no more than seven (7) hours;

THAT no overnight car storage shall be permitted;

THAT only 20 display cars shall be permitted on site;

THAT 16 parking spaces accessed by Clearview Expressway shall be permitted for employee and visitor

# MINUTES

parking only;

THAT business hours shall be limited to Monday to Thursday, 9:00 a.m. to 9:00 p.m., Friday and Saturday, 9:00 a.m. to 7:00 p.m., and Sunday, 11:00 a.m. to 5:00 p.m.;

THAT bollards shall be in place at all times except to remove or install cars;

THAT no business shall be conducted on the sidewalk;

THAT no illegal parking on the sidewalk;

THAT no test drives shall be permitted on residential side streets;

THAT all test drives may proceed on Northern Boulevard;

THAT besides the 20 display cars stored on site, no inventory shall be parked on Northern Boulevard;

THAT there shall be employed a site manager to police the site and ensure compliance with the Board's conditions and safeguards;

THAT the site manager shall provide and post a telephone number for complaints from neighbors;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by December 12, 2018;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted."

Adopted by the Board of Standards and Appeals, December 12, 2017.

## 36-95-BZ

APPLICANT – Rothkrug Rothkrug & Spector LLP, for 65-75 Owners Corp., owner; World Gym, Inc., lessee.

SUBJECT – Application December 5, 2014 – Extension of Term and Waiver (§72-01): to extend the term of a previous grant permitting a physical culture establishment (*World Gym*) within an existing cellar and one-story commercial building. C1-2/R3-1 zoning district.

PREMISES AFFECTED – 65-75 Woodhaven Boulevard aka 85-01 66<sup>th</sup> Avenue, Block 3139, Lot 1, Borough of Queens.

## COMMUNITY BOARD #6Q

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

Abstain: Commissioner Sheta.....1

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board's Rules of Practice and Procedure and an extension of term of a variance, previously granted by the Board, which expired September 16, 2002; and

WHEREAS, a public hearing was held on this application on April 25, 2017, after due notice by publication in *The City Record*, with a continued hearing on June 20, 2017, and then to decision on December 12, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 6, Queens, recommends disapproval of this application; and

WHEREAS, the subject site is located on the northeast corner of Woodhaven Boulevard and 66th Avenue, in an R3-1 (C1-2) zoning district, in Queens; and

WHEREAS, the site has approximately 143 feet of frontage along Woodhaven Boulevard, 41 feet of depth, 5,683 square feet of lot area and is occupied by a one-story, with cellar, commercial building originally designed and built as a conforming establishment for the sale of athletic equipment; and

WHEREAS, the Board has exercised jurisdiction over the subject site since September 16, 1997, when, under the subject calendar number, the Board granted a variance to permit a physical culture establishment ("PCE") for a term of five (5) years, expiring September 16, 2002, on condition that there be no change in ownership or operating control of the PCE without prior application to and approval from the Board, that the hours of operation be limited to Monday through Saturday, 6:00 a.m. to 11:00 p.m., and Sunday, 8:00 a.m. to 8:00 p.m., that the operator posts a sign, conspicuously displayed in the PCE, instructing patrons to park on Woodhaven Boulevard and not on the residential side streets, that the above conditions appear on the certificate of occupancy and that a certificate of occupancy be obtained within one (1) year, by September 16, 1998; and

WHEREAS, the term of the variance having expired, the applicant now seeks an extension of term; and

WHEREAS, in addition, the applicant requests a waiver of the Board's Rules of Practice and Procedure to permit the late filing of this application; and

WHEREAS, the applicant represents that the facility remains in operation with no changes to the hours of operation and with 10,742 square feet of floor space as follows: 5,440 square feet of floor space in the cellar and 5,279 square feet of floor area on the first floor; and

WHEREAS, in response to questions from the Board, the applicant provided additional information regarding accessibility, elevator maintenance, installation of the sprinkler system and parking instructions and clarified that no massage services are provided in the PCE; and

WHEREAS, the Board notes that, because of the period of time that the PCE has operated without a variance,

# MINUTES

the extension of term granted herein has been significantly reduced; and

WHEREAS, based upon its review of the record, the Board finds that an extension of term is appropriate with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *waive* its Rules of Practice and Procedure and *reopen* and *amend* the resolution, dated September 16, 1997, so that as amended this portion of the resolution shall read: “to *grant* an extension of term for twenty-four (24) months from the date of this grant, expiring December 12, 2019; *on condition* that all work, site conditions and operation of the site shall substantially conform to drawings filed with this application marked ‘Received June 2, 2017’- seven (7) sheets; and *on further condition*:

THAT the term of the variance shall be limited to twenty-four (24) months from the date of this grant, expiring December 12, 2019;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT the hours of operation shall be limited to Monday through Saturday, 6:00 a.m. to 11:00 p.m., and Sunday, 8:00 a.m. to 8:00 p.m.;

THAT the operator shall post a sign, conspicuously displayed in the PCE, instructing patrons to park on Woodhaven Boulevard and not on the residential side streets;

THAT minimum 3’-0” wide exit pathways shall be provided leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be installed in the entire PCE space, as indicated on the Board-approved plans, within twenty-four (24) months, by December 12, 2019;

THAT the PCE shall remain fully sprinklered, as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within twenty-four (24) months, by December 12, 2019;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the

Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, December 12, 2017.

## 223-07-BZ

APPLICANT – Bryan Cave LLP, for Bliss World LLC, owner.

SUBJECT – Application February 17, 2017 – Extension of Term of a previously approved Special Permit (§73-36) which permitted the operation of a physical culture establishment (*Bliss World*) on the third floor in an existing commercial building which expires on June 15, 2017. C5-3 Special Midtown District.

PREMISES AFFECTED – 12 West 57<sup>th</sup> Street, Block 1272, Lot 47, Borough of Manhattan.

## COMMUNITY BOARD #5M

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative: .....0

THE RESOLUTION –

WHEREAS, this is an application for an extension of a term of a previously granted special permit for a physical culture establishment (“PCE”), which expired on June 15, 2017; and

WHEREAS, a public hearing was held on this application on December 12, 2017, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 5, Manhattan, waived its recommendation for this application; and

WHEREAS, the subject site is located on the south side of West 57<sup>th</sup> Street, between Avenue of the Americas and Fifth Avenue, in a C5-3 zoning district and the Special Midtown District, in Manhattan; and

WHEREAS, the site has approximately 72 feet of frontage along West 57<sup>th</sup> Street, a depth of 100 feet, 7,230 square feet of floor area and is occupied by a ten-story commercial building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 8, 2008, when, under the subject calendar number, the Board granted a special permit, pursuant to ZR §§ 73-36 and 73-03, legalizing a physical culture establishment on the third floor of the subject building on condition that the term of the special permit expires on June 15, 2017, that there be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board, all massages be performed by New York State licensed massage therapists, the aforementioned conditions appear on the certificate of occupancy and fire safety

# MINUTES

measures are installed and/or maintained as shown on the Board-approved plans; and

WHEREAS, the previous term of the special permit having expired, the applicant requests the subject relief; and

WHEREAS, the applicant represents that there have been no changes to the floor plan or operator of the facility, Bliss Spa, as previously approved by the Board; and

WHEREAS, the applicant has satisfactorily demonstrated compliance with the conditions of the previous term and the Board finds that the circumstances warranting the original grant still obtain; and

WHEREAS, accordingly, the Board finds that a ten (10) year extension of the term of the special permit is appropriate, with the conditions set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated January 8, 2008, so that as amended this portion of the resolution shall read: “to permit an extension of the term of the special permit for a term of ten (10) years, expiring June 15, 2027, *on condition*

THAT the term of this grant shall expire on June 15, 2027;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages shall be performed by New York State licensed massage therapists;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT fire safety measures shall be installed and/or maintained as shown on the Board-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, December 12, 2017.

## 169-09-BZ

APPLICANT – Akerman, LLP, for St. George Gardens LLC, owner.

SUBJECT – Application August 9, 2017 – Extension of Time to Complete Construction of a previously approved Variance (§72-21) permitting the development of a multi-family residential building, contrary to floor area (§23-145), rear yard (§23-47), height and setback (§23-633), rear setback (§23-663), minimum distance between windows and lot lines (§23-861), and maximum number of dwelling units (§23-22) regulations which expired on August 23, 2015; Waiver of the Rules. R8 zoning district.

PREMISES AFFECTED – 186 Saint George’s Crescent, Block 3313, Lot 12, Borough of Bronx.

## COMMUNITY BOARD #1BX

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative: .....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and an extension of time to complete construction, which expired August 23, 2015; and

WHEREAS, a public hearing was held on this application on December 12, 2017, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the east side of Saint Georges Crescent, between East 206th Street and Van Cortland Avenue East, in an R8 zoning district, in the Bronx; and

WHEREAS, the site has approximately 71 feet of frontage along Saint Georges Crescent, depths varying from 39’-11” to 117’-6”, 7,016 square feet of lot area and is vacant; and

WHEREAS, the Board has exercised jurisdiction over the subject site since August 23, 2011, when, under the subject calendar number, the Board granted a variance to permit a ten-story residential building with 56 dwelling units, which does not comply with the underlying zoning regulations regarding the maximum permitted floor area ratio (“FAR”), minimum rear yard depth, minimum street wall setback, minimum rear yard line setback and minimum distance between legally required windows and side lot lines on condition that the following shall be the bulk parameters of the building: a maximum floor area of 46,750 sq. ft. (6.66 FAR), a base height of 77’-0”, a total height of 96’-10”, no rear yard along a portion of the northern rear lot line, a minimum front setback of 10’-0” above the base height of 77’-0”, no setback along the northern rear lot line, a minimum distance of 20’-4” between the windows located along the southeast side of the building and the southeastern lot line, and 56 dwelling units, as illustrated on the BSA-

# MINUTES

approved plans; that prior to the issuance of any building permit that would result in grading, excavation, foundation, alteration, building or other permit respecting the subject site which permits soil disturbance for the proposed project, the applicant or successor shall obtain from the New York City Landmarks Preservation Commission (“LPC”) a Notice to Proceed; and that prior to the issuance by DOB of a temporary or permanent Certificate of Occupancy, the applicant or successor shall obtain from LPC a Notice of Satisfaction; and

WHEREAS, the time to complete construction having expired, the applicant seeks an extension of time; and

WHEREAS, in addition, the applicant requests a waiver of the Board’s Rules of Practice and Procedure to permit the late filing of this application; and

WHEREAS, by letter dated October 28, 2014, and in accordance with the Restrictive Declaration, executed by St. George’s Crescent, LLC and recorded on July 13, 2011, against the subject site, LPC issued a Notice to Proceed with Archaeological Monitoring and Construction stating that portions of the site will be archaeologically monitored during construction; and

WHEREAS, based upon its review of the record, the Board finds that an extension of time to complete construction is appropriate with certain conditions as set forth below.

*Therefore it is Resolved*, that the Board of Standards and Appeals does hereby *waive* its Rules of Practice and Procedure and *reopen* and *amend* the resolution, dated August 23, 2011, so that as amended this portion of the resolution shall read: “to *grant* an extension of time to complete construction for four (4) years, expiring December 12, 2021; *on condition* that all work and site conditions shall substantially conform to the Board-approved plans; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area of 46,750 sq. ft. (6.66 FAR), a base height of 77’-0”, a total height of 96’-10”, no rear yard along a portion of the northern rear lot line, a minimum front setback of 10’-0” above the base height of 77’-0”, no setback along the northern rear lot line, a minimum distance of 20’-4” between the windows located along the southeast side of the building and the southeastern lot line, and 56 dwelling units, as illustrated on the Board-approved plans;

THAT prior to the issuance of any building permit that would result in grading, excavation, foundation, alteration, building or other permit respecting the subject site which permits soil disturbance for the proposed project, the applicant or successor shall obtain from the New York City Landmarks Preservation Commission (“LPC”) a Notice to Proceed;

THAT prior to the issuance by DOB of a temporary or permanent Certificate of Occupancy, the applicant or successor shall obtain from LPC a Notice of Satisfaction;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions shall appear on the

certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by December 12, 2021;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

## 235-15-A & 259-15-A

APPLICANT – Sheldon Lobel, P.C., for Richard Roel, owner.

SUBJECT – Applications October 7, 2015 & November 18, 2015 – Proposed construction of building that does not provide adequate frontage on a legally mapped street pursuant to Section 36 Article 3 of the General City Law. R2A zoning district.

PREMISES AFFECTED – 8 Cornell Lane, Block 8129, Lot 156, Borough of Queens.

### COMMUNITY BOARD #11Q

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3  
Negative: .....0  
Abstain: Commissioner Sheta.....1

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated September 8, 2015, acting on Application Nos. 401973575 and 402027374 reads in pertinent part:

Proposed/existing building does not satisfy the frontage or mapped street access requirements of Section 36 of the General City Law or Section 27-291 of the Administrative Code of the City of New York, referred to the BSA; and

WHEREAS, a public hearing was held on this application on March 7, 2017, after due notice by publication in *The City Record*, with a continued hearings on October 3, 2017, and to decision on December 12, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject lot is located on the west side of Cornell Lane approximately 290 feet northwest from the intersection with Northern Boulevard, in an R2A zoning district, in Queens; and

WHEREAS, the site has approximately 78 feet of frontage along Cornell Lane, a depth of 86 feet at the northern lot line and 96 feet at the southern lot line, 7,615 square feet of lot area and is occupied by a two-story plus cellar residence and accessory garage; and

WHEREAS, the applicant seeks the subject relief to legalize a one-story enlargement to second story of the residence and 484 square foot detached garage fronting Cornell Lane, which is not duly placed on the official map of the City of New York; and

WHEREAS, the applicant submits that the structures on the site comply with all zoning regulations applicable in the underlying zoning district; and

WHEREAS, Cornell Lane has a width of approximately

---

# MINUTES

---

13 feet and is accessible from Northern Boulevard, a mapped street paved to a width of approximately 80 feet; and

WHEREAS, Cornell Lane does not have sidewalks and parking on either side of the street is prohibited due to its narrowness; and

WHEREAS, the Fire Department states that it has no objection to the application and grants a waiver of a Section 503.2.10 of the New York City Fire Code—requiring that buildings fronting on a fire apparatus access road with an unobstructed width of less than 34 feet be fully sprinklered—on condition that the applicant secure and install a street sign in accordance with Section 505.2 of the New York City Fire Code in a conspicuous location identifying Cornell Lane at the intersection of Northern Boulevard and Cornell Lane; the Fire Department further clarifies that no hydrant is required on Cornell Lane because such installation would further reduce the usable roadway and inhibit fire operations; and

WHEREAS, the applicant represents that there are nine single- and two-family residences with frontage only on Cornell Lane, three of which have previously obtained General City Law waivers from the Board, and, in the absence of a Homeowners Agreement obliging residents of Cornell Lane to maintain the street and their properties in good condition, the Board conditioned the subject relief on the recordation of a restrictive declaration against the subject property requiring, among other things, the maintenance of the subject street frontage; and

WHEREAS, the Board has determined that the applicant has submitted adequate evidence to warrant approval of the application subject to certain conditions set forth herein.

*Therefore it is Resolved*, that the decision of the DOB dated September 8, 2015, acting on DOB Application Nos. 401973575 and 402027374, is modified by the power vested in the Board by Section 36 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked “Received September 14, 2017”-Two (2) sheet(s); that the proposal will comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT prior to an issuance of a certificate of occupancy, including a temporary certificate of occupancy, a restrictive declaration shall be recorded in the Office of the City Register in Queens County substantially conforming to the form and substance of the following:

DECLARATION made this \_\_\_ day of \_\_\_\_\_ 20\_\_ by Richard Roel, hereinafter referred to as the “Declarant,” located at 8 Cornell Lane, Queens, New York.

WHEREAS, the Declarant is the owner of certain land located in the City and State of New York, Borough of Queens, designated as Block 8129, Lot 156, as depicted on the Tax Map of the City of New York, hereinafter referred to as the “Subject Premises,” more particularly described by a metes and bounds description set forth in Schedule A annexed hereto and by this reference made a part

hereof;

WHEREAS, the Declarant has requested the New York City Board of Standards and Appeals (the “BSA”) act upon BSA Cal. Nos. 235-15-A & 259-15-A to legalize a building enlargement for a two-story residence that does not front on a final mapped street, contrary to Article III, Section 36 of the General City Law (“GCL”) filed under DOB Application Nos. 401973575 and 402027374; and WHEREAS, the BSA required Declarant to execute and file this restrictive declaration prior to obtaining a Certificate of Occupancy for the Subject Premises. NOW, THEREFORE, in consideration of BSA approval to legalize the enlargement, contrary to GCL § 36, Declarant does hereby declare that Declarant and his successors and/or assigns shall be legally responsible for operating and maintaining the Subject Premises in compliance with the following restrictions:

1. Declarant shall maintain the Subject Premises as illustrated on the BSA approved plans;
2. Declarant shall maintain the portion of Cornell Lane that fronts the Subject Premises in good repair and in a clean condition;
3. Declarant shall clean the street frontage of the Subject Premises so that any tree branches, snow and ice are promptly cleared;
4. This declaration may not be modified, amended or terminated without the prior written consent of the BSA;
5. The covenants set forth herein shall run with the land and be binding upon and inure to the benefit of the parties hereto and their respective heirs, legal representatives, successors and assigns;
6. Failure to comply with the terms of this declaration may result in the revocation of a building permit or Certificate of Occupancy as well as any other authorization or waiver granted by the BSA; and
7. This declaration shall be recorded at the city register’s office against the Subject Premises and title of the declaration shall be recorded on each temporary and permanent Certificate of Occupancy hereafter issued to any building located on the Subject Premises and in any deed for the conveyance thereof.

THAT a certificate of occupancy shall be obtained within four (4) years, by December 12, 2021;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by DOB;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

APPLICANT – Eric Palatnik, P.C., for Viktoriya Midyany, owner.

SUBJECT – Application October 24, 2014 – Special Permit (§73-622) for the enlargement of an existing single family home contrary to floor area, open space and lot coverage (ZR 23-141(b); side yards (ZR 23-461) and less than the required rear yard (ZR 23-47). R3-1 zoning district.

PREMISES AFFECTED – 1601 Oriental Boulevard, Block 8757, Lot 23, Borough of Brooklyn.

**COMMUNITY BOARD #15BK**

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: .....0

Abstain: Commissioner Sheta.....1

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated October 13, 2016, acting on DOB Application No. 320916648 reads in pertinent part:

1. ZR 23-142: Floor area is contrary to zoning regulations;
2. ZR 23-142: Proposed lot coverage is contrary to zoning regulations;
3. ZR 23-142: Proposed open space is contrary to zoning regulations;
4. ZR 23-45(a): Proposed front yard is contrary to zoning regulations;
5. ZR 23-461: Proposed side yard is contrary to zoning regulations; and

WHEREAS, this is an application under ZR § 72-21 to permit, within an R3-1 zoning district, the enlargement of an existing single family home that does not comply with floor area, lot coverage, open space, front yard and side yard regulations, contrary to ZR §§ 23-142, 23-45(a) and 23-461; and

WHEREAS, a public hearing was held on this application on January 31, 2017, after due notice by publication in *The City Record*, with continued hearings on March 21, 2017 and July 25, 2017, and then to decision on December 12, 2017; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the subject site and surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the northeast corner of Oriental Boulevard and Norfolk Street, in an R3-1 zoning district and a Zone AE Special Flood Hazard Area, in Brooklyn; and

WHEREAS, the site has approximately 25 feet of frontage along Oriental Boulevard, 200 feet of frontage

---

# MINUTES

---

along Norfolk Street, 2,500 square feet of lot area and is occupied by a one-story detached single-family residence; and

WHEREAS, the applicant proposes a two-story horizontal enlargement and a one-story vertical enlargement resulting in a residence with 2,397 square feet of floor area, a floor area ratio (“FAR”) of 0.95, 42 percent lot coverage, 1,454 square feet of open space, two front yards measuring 1’-1” and 15 feet and two side yards measuring 4’-6” and 31’-2”;

WHEREAS, at the subject site, a maximum FAR of 0.50 (1,250 square feet) is permitted, the maximum lot coverage permitted is 35 percent and a minimum of 1,625 square feet of open space is required pursuant to ZR § 23-142; two front yards at least 10 feet and 15 feet in depth are required pursuant to ZR § 23-45(a); and two sides yards of at least 5 feet and 20 feet are required pursuant to ZR § 23-461; and

WHEREAS, accordingly, the applicant seeks the requested relief; and

WHEREAS, the applicant states, pursuant to ZR § 72-21(a), that the narrowness of the lot, its corner location and the orientation of the existing detached residence on the lot are unique physical conditions that create practical difficulty and unnecessary hardship in developing the site in compliance with the underlying district regulations; and

WHEREAS, in support of this assertion, the applicant submitted a uniqueness study of corner lots located within 1,000 feet of the subject site in an R3-1 zoning district (the “Uniqueness Study Area”) demonstrating that, of the 22 other corner lots in the Uniqueness Study Area (not including the subject site), 5 corner lots (or 23 percent) have a width of less than 30 feet, 2 lots (or 9 percent) have a width of 25 feet, like the subject site and one of those lots obtained relief from the Board to permit the enlargement of the existing residence; and

WHEREAS, in addition, the applicant submits that the existing residence (which has 883 square feet of floor area, 36 percent lot coverage, 64 percent lot coverage, front yards measuring 25’-1” and 1’-1” and side yards measuring 4’-6” and 31’-2”) was constructed at the site in its current location and orientation in or around 1925 and prior to the 1961 Zoning Resolution, which rendered the building non-compliant with regards to minimum lot width, minimum lot area, front yard and side yard regulations, and that the existing building cannot be vertically enlarged without, at a minimum, increasing the degree of these existing non-compliances; further, the applicant asserts that an as-of-right residence at the subject site would be only 10 feet wide and too narrow to be uninhabitable; and

WHEREAS, in light of the foregoing, the Board finds that the narrowness of the lot, its corner location and orientation of the existing detached residence create unnecessary hardship and practical difficulty in developing the site in strict compliance with the underlying bulk provisions of the Zoning Resolution; and

WHEREAS, the Board has determined that because of the subject lot’s unique physical conditions, there is no

reasonable possibility that compliance with applicable zoning regulations will result in a habitable home, in satisfaction of ZR § 72-21(b); and

WHEREAS, the applicant states that the subject proposal will not alter the essential character of the neighborhood and, in support of that contention, submitted a study of the floor area ratios of single- or two-family residences within a 400 foot radius of the subject site and in an R3-1 zoning district (the “Neighborhood Study Area”) demonstrating that, of the 90 other residences in the Neighborhood Study Area, 77 (or 86 percent) have FARs of more than 0.50 and 19 (21 percent) have FARs between 0.90 and 1.15, including two residences located directly across Norfolk Street from the subject site; the applicant provided a lot coverage study demonstrating that 61 (68 percent) of residences in the Neighborhood Study Area have a lot coverage of greater than 35 percent and 43 (48 percent) of residences have lot coverage of between 41 percent and 59 percent; and

WHEREAS, the applicant additionally prepared a study of the side yard conditions on the subject block demonstrating that, of the two other corner lots on the same block located within an R3-1 zoning district, neither provides side yards compliant with ZR § 23-461 and, among the 54 interior lots occupied by residences—which, pursuant to ZR § 23-461, must provide two side yards, each at least 5 feet wide and having a total width of at least 13 feet—none have two side yards measuring a total of at least 13 feet, 43 (or 77 percent) are located on a side lot line and, thus, have only one side yard, and 31 (57 percent) have one side yard of at least 5 feet wide; and

WHEREAS, accordingly, the Board finds that the subject proposal will not alter the essential character of the neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare in satisfaction with ZR § 72-21(c); and

WHEREAS, the applicant submits, and the Board finds, that, per ZR § 72-21(d), the hardship was not created by the owner or a predecessor in title; and

WHEREAS, the applicant submits, and the Board finds, that the subject proposal is the minimum necessary to afford the owner relief pursuant to ZR § 72-21(e); and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 15BSA092K, dated October 24, 2014; and

*Therefore it is Resolved*, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR § 72-21 to permit, within an R3-1 zoning district, the enlargement of an existing single family home that does not comply with floor area, lot coverage, open space, front yards

---

# MINUTES

---

and side yards, contrary to ZR §§ 23-142, 23-45(a) and 23-461; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received November 28, 2017 – Fourteen (14) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the site: a maximum FAR of 0.95 (2,397 square feet of floor area), a maximum of 42 percent lot coverage, at least 1,454 square feet of open space, two front yards measuring at least 1’-1” and 15 feet and two side yards of at least 4’-6” and 31’-2”, as reflected on the BSA-approved plans;

THAT mitigation elements required pursuant to ZR § 64-61 shall be provided as determined by DOB;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a certificate of occupancy shall be obtained within four (4) years;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

### 2017-208-BZ

#### CEQR #17-BSA-141M

APPLICANT – Law Office of Jay Goldstein, for Perry Weitz, owner.

SUBJECT – Application June 9, 2017 – Special Permit (§73-36) to permit the operation of physical culture establishment (*Rumble Fitness*) on a portion of the cellar and first floor an existing building contrary to ZR §32-10. M1-5B NoHo Historic District.

PREMISES AFFECTED – 700 Broadway, Block 545, Lot 7501, Borough of Manhattan.

### COMMUNITY BOARD #2M

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative: .....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated May 12, 2017, acting on Alteration Application No. 123085589, reads in pertinent part:

“Proposed ‘Physical Culture Establishment’ (Fitness Studio) is not permitted As-Of-Right per section ZR 32-10”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, in an M1-5B zoning district, the operation of a physical culture establishment (“PCE”), contrary to ZR §§ 32-10; and

WHEREAS, a public hearing was held on this application on December 12, 2017, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Community Board 2, Manhattan, has no objection to this application; and

WHEREAS, the subject site is located on the northeast corner of Broadway and East 4th Street, in an M1-5B zoning district, in the NoHo Historic District, in Manhattan; and

WHEREAS, the site has approximately 73 feet of frontage along Broadway, 135 feet of frontage along East 4th Street, 9,920 square feet of lot area and is occupied by an eight-story, with cellar and sub-cellar, commercial

---

# MINUTES

---

building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
  - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
  - (ii) a swimming pool of a minimum 1,500 square feet; or
  - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
  - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04 and 73-36(b)(4), it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE occupies 6,288 square feet of floor space as follows: 3,100 square feet of floor space in the cellar, including locker rooms, a seating area, glove storage, a trainer room, trash storage and an office, and 3,188 square feet of floor area on the first floor, used for an entry area, reception, retail space, a fitness studio and audiovisual closet; and

WHEREAS, the PCE has been in operation as Rumble Fitness since August 2017; and

WHEREAS, the facility operates Monday through Friday, 5:30 a.m. to 10:00 p.m., and Saturday and Sunday, 6:30 a.m. to 7:00 p.m.; and

WHEREAS, the applicant represents that the PCE use is consistent with the mixed residential and commercial uses and character of the surrounding area, that the majority of its patrons are drawn from the immediate area and, therefore, walk to the premises or arrive by public transportation; and

WHEREAS, as to sound attenuation, the applicant submits that the studio is isolated from the adjacent structure with sheetrock and BATT insulation with isolated mat flooring and sealed penetrations at studio ceilings and partitions and that partitions have an STC rating of 60 and that flooring has an STC rating of 64; and

WHEREAS, accordingly, the Board finds that the PCE use is so located as to not impair the essential character or the future use or development of the surrounding area; and

WHEREAS, with regards to the use of the premises, the applicant states that the PCE provides facilities for classes, instruction and programs for physical improvement, specifically yoga; and

WHEREAS, the Board finds that the PCE use is consistent with those eligible, pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant submitted evidence that the PCE is fully sprinklered and that an approved fire alarm—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection to an FDNY-approved central station—has been installed in

# MINUTES

the entire PCE space; and

WHEREAS, on May 19, 2017, the New York City Landmarks Preservation Commission (“LPC”) issued a Certificate of No Effect approving alterations in conjunction with the subject application; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17BSA141M, dated September 1, 2017; and

WHEREAS, based upon its review of the record, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-36 and 73-03 and that the applicant had substantiated a basis to warrant exercise of discretion to grant; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated at the subject site without the special permit.

*Therefore it is Resolved*, that the Board of Standards and Appeals *issues* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to *permit*, in an M1-5B zoning district, the operation of a physical culture establishment (“PCE”), contrary to ZR §§ 32-10; *on condition* that all work, site conditions and operations at the site shall substantially conform to drawings filed with this application marked “Received June 9, 2017”-Four (4) sheets; and *on further condition*:

THAT the term of this grant shall be for ten (10) years, expiring August 1, 2027;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum 3’-0” wide exit pathways shall be provided leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be maintained in the entire PCE space and the PCE shall be fully sprinklered, as indicated on the Board-approved plans;

THAT sound attenuation shall be installed in the PCE

as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by December 12, 2018;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, December 12, 2017.

## 2017-311-BZ

### CEQR #18-BSA-069Q

APPLICANT – NYC Mayor’s Office of Housing Recovery Operations (HRO)

SUBJECT – Application December 7, 2017 – Special Permit (§64-92 & 64-A71) to waive bulk regulations for the replacement of homes damaged/destroyed by Hurricane Sandy, on properties which are registered in the NYC Build it Back Program. R3-1 zoning district.

PREMISES AFFECTED – 211 East 8<sup>th</sup> Road, Block 15458, Lot 8, Borough of Queens.

### COMMUNITY BOARD #4Q

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4  
Negative: .....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and a special permit, pursuant to ZR §§ 64-92 and 64-A71, to permit, in an R3A zoning district and the Special Coastal Risk District, the reconstruction of a two-family detached residence in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards and residential use, contrary to ZR §§ 64-A354 and 137-21; and

WHEREAS, a public hearing was held on this application on December 12, 2017, and then to decision on the same date; and

WHEREAS, this application is brought on behalf of the property owner by the Build It Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in furtherance of the City’s effort to

---

---

rebuild residences impacted by Superstorm Sandy expeditiously and effectively, the Board, pursuant to 2 RCNY § 1-14.2, waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1-05.1 (Objection Issued by the Department of Buildings); (2) 2 RCNY § 1-05.3 (Filing Period); (3) 2 RCNY § 1-05.4 (Application Referral); (4) 2 RCNY § 1-05.6 (Hearing Notice); (5) 2 RCNY § 1-05.7 (List of Affected Property Owners); (6) 2 RCNY § 1-09.4 (Owner's Authorization); and (7) 2 RCNY § 1-10.7 (Proof of Service for Application Referral and Hearing Notice); and

WHEREAS, the Board notes that the subject application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the northwest corner of East 8 Road and Lanark Road, in an R3A zoning district and the Special Coastal Risk District, in Queens; and

WHEREAS, the site has approximately 25 feet of frontage along East 8 Road, 100 feet of frontage along Lanark Road, 2,500 square feet of lot area and is occupied by a two-family detached residence; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 8, 2016, when, under BSA Cal. No. 2016-3325-A, the Board granted a waiver of General City Law ("GCL") § 35 permitting the elevation or reconstruction of a residence that lies within the bed of a mapped street; and

WHEREAS, the waiver was conditioned, inter alia, upon the reconstructed residence having a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code; the residence being provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code; the underside of the exterior of the residence where the foundation is not closed having a floor assembly that provides a 2-hour fire resistance rating; and the height from grade plane to the highest windowsill leading to a habitable space not exceeding 32 feet; and

WHEREAS, the applicant now seeks a special permit, pursuant to ZR § 64-92, to allow the reconstruction of a two-story two-family detached residence with front yard with a depth of 3 feet along Lanark Road, contrary to the zoning requirements for front yards; and

WHEREAS, at the subject site, zoning requirements for front yards are set forth in ZR § 64-A354; and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments and enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Sections 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70

(SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

- (a) that there would be a practical difficulty in complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;
- (b) that any modification of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

WHEREAS, in accordance with ZR § 64-92(a), the need to reconstruct the existing residence, which, as it exists, is non-compliant with yard regulations, creates practical difficulties in complying with flood-resistant construction standards without the modification of requirements for front yards and that waiving the same is the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify bulk regulations pertaining to height, so ZR § 64-92 is inapplicable; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the residence is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed reconstruction satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, in addition, the applicant seeks a special permit under ZR § 64-A71 to establish the non-conformance of two or more dwelling units existing at the subject site on October 28, 2012, to permit the vertical elevation or reconstruction of up to two dwelling units at the subject site; and

WHEREAS, the applicant submits that there were two dwelling units at the subject site on October 28, 2012; and

# MINUTES

WHEREAS, in support of this contention, the applicant provided evidence in the form of a flood insurance policy, utility bills, tax records and affidavits; and

WHEREAS, the Board credits the evidence in the record and finds that there were two dwelling units at the subject site on October 28, 2012; and

WHEREAS, accordingly, the Board finds that the evidence in the record supports establishing the non-conformance of two dwelling units at the subject site and that that the applicant has substantiated a basis to warrant exercise of discretion to grant under ZR § 64-A71; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18BSA069Q, dated December 7, 2011.

*Therefore, it is Resolved*, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure *and* issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR §§ 64-92 and 64-A71 to *permit*, in an R3A zoning district and the Special Coastal Risk District, the reconstruction of a two-family detached residence in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards and residential use, contrary to ZR §§ 64-A354 and 137-21; *on condition* that all work shall substantially conform to the drawings filed with this application and marked “Received December 7, 2017”-Six (6) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: a front yard with a depth of 3 feet along Lanark Road, as illustrated on the Board-approved plans;

THAT the building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code;

THAT the residence shall be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code;

THAT the underside of the exterior of the residence where the foundation is not closed shall have a floor assembly that provides a 2-hour fire resistance rating;

THAT the height from grade plane to the highest windowsill leading to a habitable space may not exceed 32 feet;

THAT this approval shall be limited to the Build It Back program;

THAT all DOB and related agency application(s) filed in connection with the authorize use and/or bulk shall be signed off by DOB and all other relevant agencies by December 12, 2021;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the

Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, December 12, 2017.

### CEQR #18-BSA-070K

APPLICANT – NYC Mayor’s Office of Housing Recovery Operations (HRO)

SUBJECT – Application December 7, 2017 – Special Permit (§64-92) to waive bulk regulations for the replacement of homes damaged/destroyed by Hurricane Sandy, on properties which are registered in the NYC Build it Back Program. R2 zoning district.

PREMISES AFFECTED – 18 Webers Court, Block 8815, Lot 138, Borough of Brooklyn.

### COMMUNITY BOARD #15BK

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4  
Negative: .....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to permit, in an R5 (C2-2) zoning district in the Special Sheepshead Bay District, the development of a single-family detached residence in compliance with flood-resistant construction standards that does not comply with the zoning requirements for side yards, height of ridge lines and waterfront yards, contrary to ZR §§ 23-461, 62-332, 64-A353 and 64-A36; and

WHEREAS, a public hearing was held on this application on December 12, 2017, and then to decision on the same date; and

WHEREAS, this application is brought on behalf of the property owner by the Build It Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in furtherance of the City’s effort to rebuild residences impacted by Superstorm Sandy expeditiously and effectively, the Board, pursuant to 2 RCNY § 1-14.2, waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1-05.1 (Objection Issued by the Department of Buildings); (2) 2 RCNY § 1-05.3 (Filing Period); (3) 2 RCNY § 1-05.4 (Application Referral); (4) 2 RCNY § 1-05.6 (Hearing Notice); (5) 2 RCNY § 1-05.7 (List of Affected Property Owners); (6) 2 RCNY § 1-09.4 (Owner’s Authorization); and (7) 2 RCNY § 1-10.7 (Proof of Service for Application Referral and Hearing Notice); and

WHEREAS, the Board notes that the subject application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the east side

---

of Webers Court, between Emmons Avenue and Sheepshead Bay, in an R5 (C2-2) zoning district in the Special Sheepshead Bay District, in Brooklyn; and

WHEREAS, the site has approximately 46 feet of frontage along Webers Court, 28 feet of depth, 1,645 square feet of lot area and is occupied by a single-family semi-detached residence; and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 22, 2016, when, under BSA Cal. No. 2016-446-A, the Board granted a waiver of General City Law (“GCL”) § 36 permitting the elevation or reconstruction of a single-family residence that does not front on a mapped street; and

WHEREAS, the waiver was conditioned, inter alia, upon the reconstructed residence having a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code; the residence being provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code; the underside of the exterior of the residence where the foundation is not closed having a floor assembly that provides a 2-hour fire resistance rating; and the height from grade plane to the highest windowsill leading to a habitable space not exceeding 32 feet; and

WHEREAS, the applicant now seeks a special permit, pursuant to ZR § 64-92, to allow the development of a two-story single-family detached residence with a side yard with a depth of 11 inches to the north, a zero lot line condition to the east, a ridge line with a height of 25’-2” and a waterfront yard with a depth of 3’11”, contrary to the zoning requirements for side yards, height of ridge lines and waterfront yards; and

WHEREAS, at the subject site, zoning requirements for side yards, height of ridge lines and waterfront yards are set forth in ZR §§ 23-461, 62-332, 64-A353 and 64-A36; and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments* and *enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Sections 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

(a) that there would be a practical difficulty in complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum

necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;

- (b) that any modification of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood’s potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

WHEREAS, in accordance with ZR § 64-92(a), the need to reconstruct the existing residence, which, as it exists, is non-compliant with yard regulations, creates practical difficulties in complying with flood-resistant construction standards without the modification of requirements for side yards, height of ridge lines and waterfront yards and that waiving the same is the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the applicant notes and the Board finds that the proposal includes a request to modify the maximum permitted height of a ridge line from 25 feet to 25’-2”;

WHEREAS, the Board finds that, under ZR § 64-92(b), the proposed modification of bulk regulations related to height by 2 inches is less than 10 feet in height or 10 percent of permitted height, whichever is greater; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the residence is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood’s potential development in accordance with flood-resistant construction standards; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed reconstruction satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18BSA070K, dated December 7, 2017.

*Therefore, it is Resolved*, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure and issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92 to *permit*, in an R5 (C2-2) zoning district in the Special Sheepshead Bay District, the development of a single-family detached residence in compliance with flood-resistant construction

---

# MINUTES

---

standards that does not comply with the zoning requirements for side yards, height of ridge lines and waterfront yards, contrary to ZR §§ 23-461, 62-332, 64-A353 and 64-A36; *on condition* that all work shall substantially conform to the drawings filed with this application and marked “Received December 7, 2017”-Four (4) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: a side yard with a minimum depth of 11 inches to the north, a zero lot line condition to the east, a ridge line with a maximum height of 25’-2” and a waterfront yard with a minimum depth of 3’11”, with obstructions permitted in the required yards, as illustrated on the Board-approved plans;

THAT the building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code;

THAT the residence shall be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code;

THAT the underside of the exterior of the residence where the foundation is not closed shall have a floor assembly that provides a 2-hour fire resistance rating;

THAT the height from grade plane to the highest windowsill leading to a habitable space may not exceed 32 feet;

THAT this approval shall be limited to the Build It Back program;

THAT all DOB and related agency application(s) filed in connection with the authorize use and/or bulk shall be signed off by DOB and all other relevant agencies by December 12, 2021;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, December 12, 2017.

### 133-13-BZ

#### CEQR #13-BSA-137X

APPLICANT – Sheldon Lobel, PC, for Evangelical Church Letting Christ Be known, Inc., owner.

SUBJECT – Application May 10, 2013 – Variance (§72-21) to permit the construction of a new two-story community facility (UG 4A house of worship) (*Evangelical Church*) building is contrary to rear yard (§24-33(b) & §24-36), side yard (§24-35(a)) and front yard (§25-34) zoning requirements. R4 zoning district.

PREMISES AFFECTED – 1915 Bartow Avenue, northwest corner of Bartow Avenue and Grace Avenue, Block 4799, Lot 16, Borough of Bronx.

#### COMMUNITY BOARD #12BX

**ACTION OF THE BOARD** – Application granted on condition.

#### THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5  
Negative:.....0

#### THE RESOLUTION –

WHEREAS, the decision of the Bronx Borough Commissioner, dated April 30, 2013, acting on Department of Buildings (“DOB”) Application No. 220201412, reads in pertinent part:

ZR Section 24-33(b) – the proposed building within the rear yard is contrary to the cited section in that it exceeds the height limitation for permitted obstructions;

ZR Section 24-35(a) – the proposed side yard is contrary to the cited section in that ten percent of the aggregate street walls is required (15 feet) [however] per the proposed plan, eight feet is indicated;

ZR Section 24-36 – the proposed rear yard does not comply with the minimum 30 feet required [because] the interior lot portion of the site is not eligible for the shallow lot provision, per ZR Section 24-37(a);

ZR Section 24-34 – proposed front yard is contrary to the stated section in that [a depth of] 15 feet [is required but] only ten feet [is provided]; and

WHEREAS, this is an application under ZR § 72-21, to permit, within an R4 zoning district, the construction of a two-story house of worship (Use Group 4A) that does not comply with the zoning regulations for rear yard, side yard, front yard, and permitted obstructions in rear yard, contrary to ZR §§ 24-33, 24-34, 24-35, and 24-36; and

WHEREAS, a public hearing was held on this application on September 17, 2013, after due notice by publication in the *City Record*, and then to decision on October

22, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan and Commissioner Ottley-Brown; and

WHEREAS, this application is brought on behalf of Evangelical Church Letting Christ Be Known (the “Church”), a not-for-profit institution; and

WHEREAS, Community Board 12, Bronx, recommends disapproval of this application, citing concerns about traffic and parking; and

WHEREAS, Councilmember Andy King testified in opposition to the proposal, citing concerns about traffic; and

WHEREAS, certain members of the surrounding community testified in opposition to the application, citing concerns about traffic and the requested yard waivers’ impacts on adjacent properties; and

WHEREAS, certain members of the surrounding community testified in support of the application; and

WHEREAS, the subject site is an irregular corner lot located on the northwest corner of the intersection of Grace Avenue and Bartow Avenue, within an R4 zoning district; and

WHEREAS, the site has approximately 100 feet of frontage along Bartow Avenue, approximately 322 feet of frontage along Grace Avenue, and a lot area of approximately 22,989 sq. ft.; and

WHEREAS, the applicant notes that the site has been vacant since at least 1983; and

WHEREAS, the applicant proposes to construct a two-story house of worship (Use Group 4A) with 12,388 sq. ft. of floor area (0.54 FAR) to accommodate the programmatic needs of the Church, which has been in existence for approximately 16 years; and

WHEREAS, the applicant represents that the proposed building will create the following non-compliances on the zoning lot: (1) the building will obstruct the rear yard for two stories and a height of 31’-0” (the maximum permitted height of this community facility building within the rear yard in this district is one story and 23’-0”, per ZR § 24-33(b)); (2) a rear yard with a depth of 8’-8” (a rear yard with a minimum depth of 30’-0” is required for the interior lot portion of the site, per ZR § 24-36); (3) two side yards with depths of 24’-2” and 10’-0” (the requirement, which is based on the width of the street wall, is two side yards with minimum depths of 15’-0”, per ZR § 24-35(a)); and (4) a front yard depth of 10’-0” (a front yard depth of 15’-0” is required, per ZR § 24-34); and

WHEREAS, the applicant represents that, since its founding, the Church has leased space at 2111 Starling Avenue, Bronx, a two-story building with approximately 3,976 sq. ft. of floor area; however, that building accommodates neither the Church’s current membership of 350 members, nor its projected growth; and

WHEREAS, the applicant states that the proposed building will include the following: (1) in the cellar, a community room, electrical and mechanical rooms, a cafeteria and serving area, and men’s and women’s restrooms; (2) on the first story, a lobby, a temple, a restroom, dressing area, and a pastor’s office; and (3) on the second story, two offices, a coat closet, storage, children’s chapel, and men’s and women’s

---

# MINUTES

---

restrooms; and

WHEREAS, the applicant notes that the community room will be used primarily to provide light meals to congregants after worship services; however, no catered affairs (such as wedding receptions) will be held at the Church; the applicant also states that the Church anticipates a capacity of approximately 300 congregants in the temple on the first story and approximately 100 congregants in the chapel on the second story; and

WHEREAS, the applicant represents that the irregular shape of the site—in particular its jagged western boundary—is a unique physical condition inherent to the zoning lot, which creates practical difficulties and unnecessary hardship in developing the site in strict conformance with underlying zoning regulations, per ZR § 72-21(a); and

WHEREAS, the applicant states that the jaggedness of the western boundary gives rise to no fewer than 13 adjoining rear and side lot lines (none of which is parallel to either Grace Avenue or Bartow Avenue) which results in an as-of-right footprint of only 5,653 sq. ft.; in contrast, a standard, rectangular lot with the site's lot area (22,989 sq. ft.) would yield an as-of-right footprint of 12,500 sq. ft.; the applicant notes that the proposed footprint is approximately 6,194 sq. ft., less than half the size that would be accommodated on a rectangular lot; and

WHEREAS, the applicant notes that although the site is adjacent to a lot with a similarly jagged boundary line, the adjacent lot is significantly larger and therefore would provide greater flexibility in development; further, while there are other lots with jagged lot lines within a 400-foot radius of the site, only the site and the immediately adjacent lot are vacant; and

WHEREAS, the applicant states that the following are the programmatic needs of the Church, which necessitate the requested waivers: (1) the increasing size of the congregation; and (2) the Church's expansive mission, which, includes spiritual outreach and creating support groups for local youth; and

WHEREAS, as to the increasing size of the congregation, the applicant states that the Church has 350 regular members and anticipates that it will have approximately 385 regular members when construction at the site is completed; and

WHEREAS, the applicant represents that the Church's existing facility cannot accommodate the Church's current membership and that an as-of-right building would be similarly inadequate; in particular, based on the as-of-right plans submitted by the applicant, the floor area of the building would decrease from the proposed 12,388 sq. ft. (0.54 FAR) to 9,184 sq. ft. (0.39); further, in the as-of-right scenario, the capacity of the temple on the first story is decreased from 300 congregants to 214 congregants and the capacity of the chapel on the second story is decreased from 100 congregants to 54 congregants; and

WHEREAS, as to the expansive mission of the Church, the applicant represents that an as-of-right facility would not provide the worship, classroom or community outreach space it requires to fulfill its wide-ranging spiritual and pedagogical objectives; and

WHEREAS, further, the Board acknowledges that the Church, as a religious institution, is entitled to significant deference under the law of the State of New York as to zoning and as to its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, specifically, as held in Westchester Reform Temple v. Brown, 22 NY2d 488 (1968), a religious institution's application is to be permitted unless it can be shown to have an adverse effect upon the health, safety, or welfare of the community, and general concerns about traffic and disruption of the residential character of a neighborhood are insufficient grounds for the denial of an application; and

WHEREAS, based upon the above, the Board finds that the irregular lot shape in combination with the programmatic needs of the Church create unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, since the Church is a non-profit institution and the variance is needed to further its non-profit mission, the finding set forth at ZR § 72-21(b) does not have to be made in order to grant the variance requested in this application; and

WHEREAS, the applicant represents that the variance, if granted, will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare, in accordance with ZR § 72-21(c); and

WHEREAS, the applicant represents that the neighborhood is characterized by its diversity: buildings range in height from one to five stories, and residential, commercial, and manufacturing uses are found within a 400-foot radius of the site; and

WHEREAS, the applicant notes that other nearby uses include a park, a large parking lot for a shopping center, gasoline stations, and the New England Thruway (Interstate 95); and

WHEREAS, the applicant notes that the proposed use is permitted as-of-right and that the proposal complies with the regulations regarding building height, setback, sky exposure plane, lot coverage, and parking; and

WHEREAS, the applicant also notes that at 0.54 FAR, the proposal is 27 percent of the maximum permitted floor area ratio for a community facility in the district (2.0 FAR); and

WHEREAS, as to the adjacent uses, the applicant notes that the site immediately to the west is vacant and significantly larger than the subject site; as such, it can be developed with as-of-right yards that will provide additional separation from the proposed building; further, the site immediately to the north is occupied by a three-story residential building, which will be, because of the odd shape of the side lot line, more than 35 feet from the proposed house of worship; therefore, the requested yard waivers will not impact the adjacent uses; and

WHEREAS, the applicant represents that, contrary to Community Board 12's assertions, the proposal will not adversely impact parking or traffic within the neighborhood; and

WHEREAS, specifically, the applicant states that

---

# MINUTES

---

although the Church expects the majority of congregants to walk or utilize public transportation, the proposal provides 22 off-street parking spaces, which is one more than the required 21 spaces; in addition, the applicant represents that there are a total of 18 on-street parking spaces available along Bartow Avenue and Grace Avenue; and

WHEREAS, as to traffic, the applicant states that it conducted a study of neighborhood traffic patterns and reconfigured the proposed entrances and site circulation in order to minimize congestion; the applicant also notes that services and worship activities will occur on weekday evenings and Sundays; as such, the Church's traffic will not conflict with school-related traffic; and

WHEREAS, finally, in response to Community Board 12's characterization of the proposal as inconsistent with recent down-zonings in the area, the applicant notes that the site has been zoned R4 since 1961; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant states that the hardship was not self-created and that no development that would meet the programmatic needs of the Church could occur on the existing lot; and

WHEREAS, accordingly, the Board finds that the hardship herein was not created by the owner or a predecessor in title, in accordance with ZR § 72-21(d); the applicant notes that the site was formed by the combination of historic tax lots 16, 20, 26, and 29, which were originally jagged and irregularly shaped; and

WHEREAS, in addition, the Board finds that the requested relief is the minimum necessary, per ZR § 72-21(e); and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR §72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No. 13BSA173X, dated May 9, 2013; and

WHEREAS, the EAS documents that the proposed project would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is resolved*, that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit, within an R4 zoning district, the construction of a two-story house of worship (Use Group 4A) that does not comply with the zoning regulations for rear yard, side yard, front yard, and permitted obstructions in rear yard, contrary to ZR §§ 24-33, 24-34, 24-35, and 24-36; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received September 3, 2013"– Ten (10) sheets; and *on further condition*;

THAT the following shall be the bulk parameters of the building: a maximum of 12,388 sq. ft. of floor area (0.54 FAR), a maximum building height of 31'-0", a rear yard depth of 8'-8", two side yards with depths of 24'-2" and 10'-0", and a front yard depth of 10'-0", as indicated on the BSA-approved plans;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 22, 2013.

## CORRECTION

This resolution adopted on February 4, 2014, under Calendar No. 154-13-BZ and printed in Volume 99, Bulletin No. 6, is hereby corrected to read as follows:

### 154-13-BZ

#### CEQR #13-BSA-139K

APPLICANT – Sheldon Lobel, P.C., for Ralph Avenue Associates, LLC, owner.

SUBJECT – Application May 14, 2013 – Variance (§72-21) to allow the construction of a retail building (UG 6), contrary to use regulations (§22-10). R5 zoning district.

PREMISES AFFECTED – 1054-1064 Bergen Avenue, bounded by Bergen Avenue to the north, Avenue K to the east, East 73rd Street to the south, and Ralph Avenue to the west, Block 8341, Lot (Tentative lot 135), Borough of Brooklyn.

#### COMMUNITY BOARD #18BK

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:..... 0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner of the Department of Buildings (“DOB”), dated May 10, 2013, acting on DOB Application No. 320688029, reads, in pertinent part:

Proposed commercial building cannot be built in R5 zone, per Section 22-00; and

WHEREAS, this is an application under ZR § 72-21, to permit, within an R5 zoning district, the construction of a one-story commercial building (Use Group 6), contrary to ZR § 22-00; and

WHEREAS, a public hearing was held on this application on October 29, 2013, after due notice by publication in the *City Record*, with continued hearings on December 10, 2013 and January 14, 2014, and then to decision on February 4, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 18, Brooklyn, recommends approval of the application; and

WHEREAS, the subject site includes all of Block 8341, which comprises Lots 100, 113, 118, 120, 121, and 125 and is bounded by Ralph Avenue, East 73rd Street, Bergen Avenue, and Avenue K; and

WHEREAS, the site, which is wholly within an R5 zoning district, has 237.76 feet of frontage along Ralph Avenue, 567.51 feet of frontage along East 73rd Street, 696.15 feet of frontage along Bergen Avenue, 200 feet of frontage along Avenue K, and a lot area of 127,535 sq. ft.; in addition, a sewer easement encumbers a portion of the site for the full

length of Ralph Avenue; and

WHEREAS, the site is occupied by six, three-story residential buildings with a total of 159,418 sq. ft. of floor area (1.25 FAR) and 144 dwelling units (affordable housing), and 167 parking spaces (the “Development”); 51 of the parking spaces are driveway spaces appurtenant to the buildings, 51 are within the buildings, and 65 are provided for-pay in an at-grade v-shaped parking lot in portions of Lots 118 and 121 along Ralph Avenue and Bergen Avenue (the “Parking Lot”); and

WHEREAS, the applicant represents that, in connection with this application, a new tax lot, Lot 135, will be formed within the site from the northwest portions of Lots 118 and 112; Lot 135 will have 162.16 feet of frontage along Bergen Avenue, 170.43 feet along Ralph Avenue, and approximately 16,500 sq. ft. of tax lot area; and

WHEREAS, the applicant states that the Development was completed around 2006 and included a partial build-out of three mapped but unbuilt public roadways (Bergen Avenue, Avenue K, and East 73rd Street); and

WHEREAS, the applicant notes that the Development was financed through the New York City Housing Development Corporation’s (“HDC”) New Housing Opportunities Program (“NewHOP”), with a required debt-service-coverage-ratio (“DSCR”) of 1.20, and in order to satisfy the DSCR for the site, the Development’s revenue stream included revenue from the Parking Lot; however, in 2011, the City widened Bergen Avenue and installed 70 angled, unmetered parking spaces; and

WHEREAS, accordingly, the applicant represents that revenue from the Parking Lot has sharply declined, the applicant’s ability to cover the 1.20 DSCR is in jeopardy, and, absent the requested relief, an affordable housing project is in danger of mortgage default; and

WHEREAS, therefore, in order to offset the lost revenue from the Parking Lot and to appropriately account for the unique hardships inherent in the original development of the site, the applicant proposes to construct on Lot 135 a one-story commercial building (Use Group 6) with 5,162 sq. ft. of floor area (0.04 FAR) and an accessory parking lot with 18 spaces; and

WHEREAS, because Use Group 6 is not permitted within the subject R5 zoning district, the applicant seeks a use variance; and

WHEREAS, the applicant states that, per ZR § 72-21(a), the following are unique physical conditions which create an unnecessary hardship in developing the site in conformance with applicable regulations: (1) the lack of adjacent sewer lines; (2) the existence of a sewer easement, which prohibits construction on the westernmost portion of the site; (3) the requirement to construct abutting public roadways; and (4) the historic use of a portion of the site for a dumping ground; and

WHEREAS, the applicant states that when the Development was constructed, the site lacked adjacent sewer lines along Bergen Avenue and East 73rd Street, and the nearest connectible sanitary sewer ran down Ralph Avenue, along the western portion of the site; as such, the developer had to construct an on-site private sewer line running the full length of Block 8341, as well as a pumping station with sewage

---

# MINUTES

---

grinders and an emergency generator, and 69 drywells for storm water management, at significant cost; and

WHEREAS, the applicant states that the costs associated with the construction of the sanitary and storm sewer systems were further increased by the existence of a 120-inch sewer main running parallel to Ralph Avenue and a related sewer easement, which extends for a depth of 60 feet into the site; such easement also constrained where the residential buildings could be located, making two of the six buildings further from the main than would have been required if there were no easement; and

WHEREAS, the applicant asserts that the site was also uniquely burdened by having to build out portions of mapped but unbuilt Bergen Avenue, Avenue K, and East 73rd Street; and

WHEREAS, finally, the applicant contends that illegal dumping at the site prior to the construction of the Development was a unique physical condition that created an unnecessary hardship in developing the site; in particular, when the site was originally acquired, it was an abandoned construction site with in-place foundations filled with dirt, debris, and garbage; accordingly, the site required considerable soil excavation and removal as well as special removal and disposal of the landfill-type garbage that had accumulated at the site; such operations increased construction costs beyond that which would have been typical for a similarly-sized project; and

WHEREAS, the Board finds that the site's lack of adjacent sewers, encumbrance by a sewer easement, lack of built-out abutting public roadways, and historic use as a dumping ground created an unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the applicant asserts that, per ZR § 72-21(b), there is no reasonable possibility that the development of the site in conformance with the Zoning Resolution will bring a reasonable return; and

WHEREAS, in particular, the applicant states that because the site was developed through HDC financing and the NewHOP program, it must adhere to the 1.20 DSCR while providing affordable housing at the site; as originally conceived, the Development's revenue—including the Parking Lot revenue—was sufficient to cover the DSCR; however, with the decline of the Parking Lot revenue due to the availability of free parking spaces along Bergen Avenue, the applicant states that it can no longer offset the premium costs for developing the site; and

WHEREAS, the applicant explored the feasibility of constructing an additional residential building on a portion of Lot 121, east of the sewer easement; in addition to requiring a variance for floor area (the site is already at the maximum permitted FAR of 1.25), a new residential building on the site would have too few units to satisfy NewHOP requirements; and

WHEREAS, therefore, the applicant states that only the proposal will generate the amount of revenue necessary to maintain the 1.20 DSCR and avoid a mortgage default; and

WHEREAS, in support of this statement, the applicant

submitted a financial analysis, which studied the Development's DSCR in light of the declining revenues of the Parking Lot and the projected revenues of the proposed commercial building; and

WHEREAS, the applicant concluded that the proposal will allow the Development to maintain the required DSCR, which in light of the unique financing of the Development, is tantamount to providing a positive rate of return; and

WHEREAS, at hearing, the Board directed the applicant to provide detailed information regarding: (1) the structure of its financing; and (2) its construction costs associated with the site's unique conditions; and

WHEREAS, in response, the applicant provided an itemized and annotated timeline of the Development's costs and financing, and a copy of its builder's pavement plan (depicting the extent of the roadway construction) and its site drainage plan (depicting the sanitary and storm sewer systems); and

WHEREAS, based upon its review of the applicant's financial analysis, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare, in accordance with ZR § 72-21(c); and

WHEREAS, the applicant states that the immediate area is characterized by a mix of low- to medium-density residential and commercial uses with some manufacturing/industrial uses, including a large water treatment facility across Bergen Avenue; and

WHEREAS, in support of this statement, the applicant submitted a land use map and photographs depicting the mixed-use nature of the neighborhood; based on the map, the proposed commercial building will be immediately adjacent to either parking areas or commercial (across Ralph Avenue) or industrial uses (across Bergen Avenue); and

WHEREAS, as to bulk, the applicant states that the proposed commercial building is smaller or comparable to other buildings (both residential and commercial) located along Ralph Avenue; and

WHEREAS, in addition, the applicant asserts that the bulk of the building is modest in comparison to what is permitted in the C2-2 district mapped directly across Ralph Avenue from the site; specifically, if the proposed building on Lot 135 were considered to be on its own zoning lot, as noted above, its lot area would be 16,031 sq. ft. and its FAR would be 0.32, which represents less than one-third of the 1.0 FAR permitted in a C2-2 district; and

WHEREAS, likewise, the applicant states that the proposed wall height of 18 feet is 12 feet less than the maximum permitted wall height (30 feet) in the C2-2 district; also, while there are no yard regulations for a commercial building in an R5 district, the building has a

---

# MINUTES

---

yard facing Bergen Avenue with a width of approximately five feet and a yard facing Ralph Avenue with a width of approximately 57 feet; further, there is a 40-foot separation between the proposed building and the nearest dwelling; and

WHEREAS, as to parking, the proposal would allocate 18 parking spaces for the commercial portion of the site and maintain 123 parking spaces for the residences, which is in accordance with ZR § 25-23 and would be in accordance with ZR § 36-21, if the commercial use were permitted; further, as noted above, Bergen Avenue has 70 angled parking spaces directly abutting the site; and

WHEREAS, therefore, the applicant asserts that the proposal is compatible with the surrounding neighborhood in terms of use and bulk, and will have no impact on parking; and

WHEREAS, the Board agrees that the character of the area is mixed-use, and finds that the introduction of a one-story commercial building and parking lot will not impact nearby conforming uses; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that, consistent with ZR § 72-21(d), the hardship herein was not created by the owner or a predecessor in title, but is rather a function of the site's unique physical conditions; and

WHEREAS, finally, the Board finds that the proposal is the minimum variance necessary to afford relief, as set forth in ZR § 72-21(e); and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an unlisted Action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No.13-BSA-139K, dated May 13, 2013; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

*Therefore it is Resolved*, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6

NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit, within an R5 zoning district, the construction of a one-story commercial building (Use Group 6), contrary to ZR § 22-00, *on condition* that any and all work will substantially conform to drawings filed with this application marked "Received September 18, 2013"– (6) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the proposed building: one story; a maximum of 5,162 sq. ft. of floor area (0.04 FAR); side yards with minimum depths of five feet and 57 feet; a maximum wall height of 18 feet; and accessory parking for 18 automobiles;

THAT no fewer than 141 parking spaces (123 accessory to residences and 18 accessory to the commercial building) will be provided at the site;

THAT signage will comply with C1 regulations;

THAT the above conditions will appear on the certificate of occupancy;

THAT substantial construction will be completed in accordance with ZR § 72-23;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 4, 2014.

**\*The resolution has been revised to correct the CEQR No. which read: CEQR #13-BSA-138K now reads: CEQR #13-BSA-139K. Corrected in Bulletin No. 51, Vol. 102, dated December 20, 2017.**
