*** NO NEW CASE SCHEDULED***

Carlo Costanza, Executive Director

MINUTES

**REGULAR MEETING
TUESDAY MORNING, JANUARY 9, 2018
10:00 A.M.**

Present: Chair Perlmutter, Vice-Chair Chanda,
Commissioner Ottley-Brown, and Commissioner Sheta.

SPECIAL ORDER CALENDAR

206-61-BZ

APPLICANT – Carl A. Sulfaro, Esq., for Alrose 3039, LLC,
owner.

SUBJECT – Application July 14, 2016 – Extension of
Term (§11-411) for a previously approved variance which
permitted a six story office building (UG 6) which expired
on July 11, 2016. R8B zoning district.

PREMISES AFFECTED – 30 East 39th Street, Block 868,
Lot 49, Borough of Manhattan.

COMMUNITY BOARD #6M

ACTION OF THE BOARD – Application granted on
condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda,
Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for an extension of
term of a variance, previously granted by the Board, which
expired July 11, 2016; and

WHEREAS, a public hearing was held on this
application on January 9, 2018, after due notice by
publication in *The City Record*, and then to decision on the
same date; and

WHEREAS, Commissioner Ottley-Brown performed
an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 6, Manhattan,
recommends approval of this application on condition that
the applicant comply with the Board's condition that live
load not exceed 40 pounds per square foot with notices of
the restriction to be posted on each floor and that the term be
limited to five (5) years; and

WHEREAS, the subject site is located on the south
side of East 39th Street, between Madison Avenue and Park
Avenue, in an R8B zoning district, in Manhattan; and

WHEREAS, the site has approximately 20 feet of
frontage along East 39th Street, 99 feet of depth, 1,975
square feet of lot area and is occupied by a six-story, with
cellar, commercial building; and

WHEREAS, the Board has exercised jurisdiction over
the subject site since July 11, 1961, when, under the subject
calendar number, the Board granted a variance to permit for
a term of fifteen (15) years, expiring July 11, 1976, the
conversion of an existing building from residential use to
business offices on condition that a certificate of occupancy

be obtained; and

WHEREAS, on July 11, 1961, under BSA Calendar
Number 207-61-A, the Board granted an appeal regarding
compliance with the New York City Building Code on
condition that the floors be posted for a load of 40 pounds
per square foot, that the machinery be so distributed that the
40 pounds per square foot not be exceeded and that a
certificate of occupancy be obtained; and

WHEREAS, on July 6, 1976, under the subject
calendar number, the Board granted an extension of term for
ten (10) years, expiring July 11, 1986, on condition that a
new certificate of occupancy be obtained within one (1)
year, by July 6, 1977; and

WHEREAS, on February 2, 1988, under the subject
calendar number, the Board granted an extension of term for
ten (10) years, expiring July 11, 1996, on condition that a
new certificate of occupancy be obtained within one (1)
year, by February 2, 1989; and

WHEREAS, on February 2, 1988, under BSA
Calendar Number 207-61-A, the Board granted an
amendment to change the number of occupants per floor to
basement – four (4) persons, first floor – twelve (12)
persons, second floor – eight (8) persons, third floor – eight
(8) persons, fourth floor – ten (10) persons, fifth floor –
eight (8) persons and to change the interior layout on
condition that the forty (40) pounds per square foot live load
requirement by the Board be maintained where required (in
the computer room) by distributing the live load over a
larger area by using the proper materials; and

WHEREAS, on November 26, 1996, under the subject
calendar number, the Board granted an extension of term for
ten (10) years, expiring July 11, 2006, on condition that a
new certificate of occupancy be obtained within one (1)
year, by November 26, 1997; and

WHEREAS, on February 13, 1990, under the subject
calendar number, the Board granted an extension of time to
obtain a certificate of occupancy of twenty-four (24)
months, expiring February 2, 1991; and

WHEREAS, on June 3, 2008, under the subject
calendar number, the Board granted an extension of term for
ten (10) year years, expiring July 11, 2016, on condition that
the term be listed on the certificate of occupancy; and

WHEREAS, the term of the variance having expired,
the applicant seeks an extension; and

WHEREAS, Community Board 6, Manhattan, states
that the owner has complied with the Board's safeguards
through the years without issue but proposes a term of five
(5) years; and

WHEREAS, nothing in the record demonstrates that a
term of five (5) years would be more appropriate than a term
of ten (10) years; and

WHEREAS, based upon its review of the record, the
Board finds that the requested extension of term of ten (10)
years is appropriate with certain conditions as set forth
below and that the applicant had substantiated a basis to
warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards

MINUTES

and Appeals does hereby *reopen* and *amend* the resolution, dated July 11, 1961, as amended through June 3, 2008, so that as amended this portion of the resolution shall read: “to *grant* under ZR § 11-411 an extension of term of the variance for ten (10) years, expiring July 11, 2026, on condition that all work and site conditions shall substantially conform to drawings filed with this application marked ‘Received August 28, 2017’-Three (3) sheets; and *on further condition*:

THAT the term of this grant shall be for ten (10) years, expiring July 11, 2026;

THAT the floors shall be posted for a load of 40 pounds per square foot;

THAT the machinery shall be so distributed that the 40 pounds per square foot requirement shall not be exceeded;

THAT the 40 pounds per square foot live load requirement by the Board shall be maintained where required (in the computer room) by distributing the load over a larger area using the proper materials;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by January 9, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, January 9, 2018.

164-94-BZ

APPLICANT – Jeffrey Chester, Esq., for Tuckahoe Realty LLC., owner; LRHC Park Chester NY Ink., lessee.

SUBJECT – Application March 28, 2014 – Extension of Term of a previously approved Variance (§72-21) which permitted the operation of physical culture establishment (*Lucille Roberts*), which expired on March 1, 2014. C1-2/R6 zoning district.

PREMISES AFFECTED – 84 Hugh Grant Circle, Cross Bronx Expressway Sr. South, Block 3794, Lot 109, Borough of Bronx.

COMMUNITY BOARD #9BX

ACTION OF THE BOARD – Application withdrawn without prejudice.

THE VOTE TO WITHDRAW –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

Adopted by the Board of Standards and Appeals, January 9, 2018.

243-13-BZ

APPLICANT – Greenberg Traurig, LLP, for VS 125 LLC, owner.

SUBJECT – Application November 14, 2017 – Extension of Time to Complete Construction of a previously approved Variance (§72-21) permitting the construction of a mixed-use building, contrary to setback requirements (ZR §91-32), which expires on February. C5-5 (LM) zoning district.

PREMISES AFFECTED – 125 Greenwich Street aka 22 Thames Street, Block 51, Lot 14, Borough of Manhattan.

COMMUNITY BOARD #14M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative:0

Abstain: Commissioner Sheta.....1

THE RESOLUTION –

WHEREAS, this is an application for an extension of time to complete construction, which expires February 4, 2018; and

WHEREAS, a public hearing was held on this application on January 9, 2018, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the southeast corner of Greenwich Street and Thames Street, in a C5-5 zoning district and the Special Lower Manhattan District, in Manhattan; and

WHEREAS, the site has approximately 261 feet of frontage along Greenwich Street, 119 feet frontage along Thames Street, 125 feet of frontage along Trinity Place, 35,814 square feet of lot area and is occupied by a mixed-use building currently under construction; and

WHEREAS, the Board has exercised jurisdiction over the subject site since 1957, when, under BSA Calendar Number 847-56-A, the Board granted a variance of Section 271 of the Labor Law to permit a fire escape located on the north side of the existing building on Lot 14 to serve as a required second means of egress; and

WHEREAS, on February 4, 2014, under the subject calendar number, the Board granted a variance to permit a 70-story mixed-use commercial and residential building with 439 dwelling units and commercial use on the first and second floors, contrary to setback regulations, on condition that the bulk parameters of the proposed building be as follows: a maximum floor area of 536,835.5 square feet (14.99 FAR), 70 stories, 956.78 feet building height and

MINUTES

minimum setback of 10 feet on Greenwich Street and 13 feet on Thames Street; and

WHEREAS, by letter dated August 3, 2016, under the subject calendar, the Board allowed minor modifications to the Board-approved plans to permit a reduction in the total building height above curb level from 960.28 feet to 898.83 feet, a reduction in the highest residential floor above curb level from 815.28 feet to 814.72 feet, an adjustment in the floor area reflecting an increase in zoning floor area and a reduction in gross floor area reflecting a change in the building configuration and reduction in floor area deductions and a decrease in the number of dwelling units from 439 to 275; and

WHEREAS, the time to complete construction on the eve of expiration, the applicant seeks an extension; and

WHEREAS, the applicant represents that delays were caused by change in ownership, redesign of the building's program from rental to condominium and changed market conditions during the early stage of the development; and

WHEREAS, the applicant submitted evidence that construction at the subject site has been ongoing and that construction financing is secured to ensure continued work on the subject building; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to complete construction is appropriate with certain conditions set forth below and that the applicant had warranted a basis for exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated February 4, 2014, so that as amended this portion of the resolution shall read: "to *grant* an extension of time to complete construction for four (4) years, expiring February 4, 2022; *on condition* that all work and site conditions shall substantially conform to the Board-approved plans; and *on further condition*:

THAT the bulk parameters of the proposed building shall be as follows: a maximum floor area of 536,835.5 square feet (14.99 FAR), 70 stories, 956.78 feet building height and minimum setback of 10 feet on Greenwich Street and 13 feet on Thames Street, all as illustrated on the Board-approved plans;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by February 4, 2022;

THAT construction shall be completed within four (4) years, by February 4, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure

compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted."

Adopted by the Board of Standards and Appeals, January 9, 2018.

260-06-BZ

APPLICANT – J. Owen Zurhellen, II, for Charlton Cooperative Corp., owner; Tri Ippon LLC, lessee.

SUBJECT – Application March 17, 2017 – Extension of Term of a previously approved Special Permit (§73-36) permitted the operation of a Physical Cultural Establishment (*Oishi Judo Club*) on the first floor in a six-story (plus basement) building which expires on April 10, 2017. THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated December 2, 2015, acting on New Building Application No. 320624696, reads in pertinent part:

“ZR 42-00” “Proposed residential use . . . is not permitted”; and

WHEREAS, this is an application under ZR § 72-21 to permit, in an M1-1 zoning district, the development of a residential building that does not comply with applicable use regulations, contrary to ZR § 42-00; and

WHEREAS, a public hearing was held on this application on August 22, 2017, after due notice by publication in *The City Record*, with continued hearing on November 21, 2017, and then to decision on January 9, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 1, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the south side of Devoe Street, between Catherine Street and Morgan Avenue, in an M1-1 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 25 feet of frontage along Devoe Street, 131 feet of depth, 3,308 square feet of lot area and is vacant; and

WHEREAS, the applicant proposes to develop a three-story, with cellar, residential building that does not comply with applicable use regulations; and

WHEREAS, under ZR § 72-21(a), the applicant

represents that there are unique physical conditions inherent in the subject site that create practical difficulties or unnecessary hardship in complying with applicable use regulations; and

WHEREAS, specifically, the applicant states that the subject site is vacant and too narrow and undersized to accommodate modern manufacturing or commercial uses and that the site had historically been put to residential use; and

WHEREAS, the applicant further states that the subject site would be too narrow for transport vehicles to access an off-street loading berth within its bounds; and

WHEREAS, the applicant surveyed properties in the surrounding area, finding that nearby small, narrow lots of similar size to the subject site are occupied by residential uses while larger lots are occupied by conforming manufacturing and automotive uses; and

WHEREAS, the applicant represents that the subject site is also unique as to vacant lots in the vicinity since six of the seven vacant lots are held in common ownership with an adjacent lot, thereby providing those vacant lots the immediate potential for development on a larger tract of land as of right; and

WHEREAS, the applicant submitted historic maps, ranging from 1951 to 2007, indicating that the subject site had previously been put to residential use; and

WHEREAS, based upon its review of the record, the Board makes the finding required under ZR § 72-21(a); and

WHEREAS, as to ZR § 72-21(b), the applicant submits that, because of the foregoing physical conditions, there is no reasonable possibility that a conforming development would bring a reasonable return; and

WHEREAS, the applicant provided a financial feasibility study comparing an as-of-right one-story commercial development with the proposed building; and

WHEREAS, originally, the applicant analyzed an as-of-right one-story, with cellar, commercial development; and

WHEREAS, in response to comments from the Board at hearing regarding building inefficiencies created by construction of a cellar, the applicant amended its as-of-right commercial development to have one story without a cellar; and

WHEREAS, the Board also instructed that rental estimates in the financial feasibility study must be substantiated with appropriate comparables with narrative adjustments for time, location, age, zoning and physical characteristics, and the applicant revised the financial feasibility study accordingly; and

WHEREAS, the applicant states that, using the capitalization of income method, the estimated value of the as-of-right commercial development is approximately \$1,137,114 but that the estimated total development cost of the as-of-right commercial development, including site value, hard construction costs and soft construction costs, is \$1,471,523—a loss on investment of approximately \$334,409 (22.7 percent); and

WHEREAS, the applicant states that the estimated

MINUTES

value of the proposed building is approximately \$2,145,455 and that the estimated total development cost of the proposed building is \$1,976,968—a return on investment of approximately \$168,486 (8.5 percent); and

WHEREAS, based upon its review of the record, the Board makes the required finding under ZR § 72-21(b); and

WHEREAS, under ZR § 72-21(c), the applicant states that the variance will not alter the essential character of the surrounding area; and

WHEREAS, the applicant surveyed the surrounding area, studying land uses, building height and floor area ratio along with the built streetscape, and concludes that the proposed building is consistent with the residential character of the subject block and the residential character of the neighborhood to the north and west of the subject site; and

WHEREAS, in response to questions from the Board at hearing about the height and bulk of the proposed building, the applicant further represents that the proposed building complies with the bulk regulations applicable in the R6B zoning district located to the west across Catherine Street and that the proposed building will be consistent with the existing built character of residential buildings in the surrounding area; and

WHEREAS, the applicant submitted historic maps indicating that the subject site and surrounding area have been used for residential uses; and

WHEREAS, based upon its review of the record, the Board makes the required finding under ZR § 72-21(c); and

WHEREAS, the applicant states that the hardship herein was not created by the owner or a predecessor in title and is instead a function of the site's unique physical conditions; and

WHEREAS, in support of this contention, the applicant also analyzed the chain of title of the subject site and submits that the subject site has not been held in common ownership with adjacent tracts of land; and

WHEREAS, based upon its review of the record, the Board makes the required finding under ZR § 72-21(d); and

WHEREAS, under ZR § 72-21(e), the applicant represents that the subject proposal is the minimum variance necessary to afford relief because it complies with the zoning regulations applicable in the R6B zoning district located directly across Catherine Street, continues the historic use of the subject site and realizes only a modest return on investment; and

WHEREAS, based upon its review of the record, the Board makes the required finding under ZR § 72-21(e); and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 16BSA055K, dated January 3, 2018; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic

Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction Impacts; and

WHEREAS, by letter dated September 18, 2017, the New York City Department of Environmental Protection (“DEP”) states that the June 2016 Remedial Action Plan (“RAP”) and Construction Health and Safety Plan (“CHASP”) for the proposed project are acceptable as long as: the applicant, upon completion of the clean fill and top soil investigation activities (for imported soil or soil reused from the site to be used in the two feet clean soil cap), a detailed clean soil report shall be submitted to DEP for review and approval prior to importation or placement on-site; the report should include, at a minimum, an executive summary, narrative of the field activities, laboratory data and comparison of soil analytical results; the applicant shall include information fact sheets or Safety Data Sheets for potential contaminants of concern in Appendix C; the applicant shall include decontamination procedures both for individuals and equipment where there is potential for exposure; at the completion of the project, a Professional Engineer-certified Remedial Closure Report should indicate that all remedial requirements have been properly implemented (i.e., installation of vapor barrier and passive sub-slab depressurization, transportation–disposal manifests for removal and disposal of soil in accordance with applicable regulations and two feet of DEP-approved certified clean fill and top soil capping requirement in any landscaped or grass covered areas not capped with concrete or asphalt); and

WHEREAS, by letter dated January 2, 2018, DEP states that the proposed project would not result in any significant adverse air quality impact; and

WHEREAS, by correspondence dated July 8, 2015, the New York City Landmarks Preservation Commission (“LPC”) states that the subject site has no architectural or archaeological significance; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board finds that evidence in the record supports the findings required to be made under ZR § 72-21 and that the applicant had substantiated a basis to warrant exercise of discretion to grant.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended,

MINUTES

and make each and every one of the required findings under ZR § 72-21 to *permit*, in an M1-1 zoning district, the development of a residential building that does not comply with applicable use regulations, contrary to ZR § 42-00; *on condition that* all work and site conditions shall comply with the drawings filed with this application marked “Received October 25, 2017”-Ten (10) sheets; and *on further condition*:

THAT a certificate of occupancy shall be obtained within four (4) years, by January 9, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 9, 2018.

2016-4215-BZ

CEQR #16-BSA-124K

APPLICANT – Eric Palatnik, P.C., for Aleksandr S. Cherny, owner.

SUBJECT – Application June 8, 2016 – Special Permit (§73-622) to permit the enlargement of an existing single family home contrary to floor area, open space and lot coverage and providing less than the required rear yard (ZR 23-47). R3-1 zoning district.

PREMISES AFFECTED – 262 Exeter Street, Block 8742, Lot 6, Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO CLOSE –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated December 7, 2016, acting on Alteration Application No. 320909781, reads in pertinent part:

1. ZR 23-142. Proposed floor area exceeds the maximum allowed. Floor area ratio is not complying.
2. ZR 23-142. Proposed lot coverage exceeds the maximum allowed. Lot coverage is not complying.
3. ZR 23-142. The proposed open space does not meet requirement. Open space is not complying.

4. ZR 23-47. The proposed rear yard extends an existing non-compliance. Rear yard is not complying.

5. ZR 23-461(a). The proposed side yard extends an existing non-compliance. Side yard is not complying; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03 to permit, in an R3-1 zoning district, the enlargement of a single-family detached residence that does not comply with zoning regulations for floor area, lot coverage, open space, rear yards and side yards, contrary to ZR §§ 23-142, 23-47 and 23-461; and

WHEREAS, a public hearing was held on this application on July 25, 2017, after due notice by publication in *The City Record*, with continued hearing on October 17, 2017, and then to decision on January 9, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application, stating that it believes that the proposed enlargement is well within the guidelines of ZR § 73-622 because the existing residence is a small, one-story bungalow that is being elevated for flood resiliency; and

WHEREAS, the subject site is located on the west side of Exeter Street, south of Oriental Boulevard, in an R3-1 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 40 feet of frontage along Exeter Street, 100 feet of depth, 4,000 square feet of lot area and is occupied by a one-story, with cellar, detached residence; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single-* or *two-family detached* or *semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in

MINUTES

compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, inter alia, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge an existing detached single-family residence, as contemplated in ZR § 73-622; and

WHEREAS, the applicant proposes to fill in the cellar, remove illegal construction and add two floors and attic, thereby increasing the floor area ratio ("FAR") from 0.39

FAR (1,561 square feet of floor area) to 0.9 (3,522 square feet of floor area), increase lot coverage from 34.5 percent to 45 percent, decrease open space from 65.5 percent to 55 percent, increase the rear yard from 9'-11" to 20 feet in depth at the first floor and 24 feet at the second floor and attic and maintain the existing side yards of 4'-10" to the north and 6'-8" to the south; and

WHEREAS, the applicant represents that, at the subject site, floor area may not exceed 2,000 square feet (0.5 FAR) under ZR § 23-142, lot coverage may not exceed 35 percent under ZR § 23-142, Open Space Ratio must be at least 65 percent under ZR § 23-142, the rear yard must have a depth of at least 30 feet under ZR § 23-47 and side yards must have a total width of 13 feet, with each side yard having a minimum depth of 5 feet, under ZR § 23-461; and

WHEREAS, the applicant represents that the proposed enlargement complies with all applicable flood regulations, including but not limited to Appendix G of the New York City Building Code; and

WHEREAS, the applicant represents that the proposed enlargement is consistent with the character of the neighborhood; and

WHEREAS, in support of this contention, the applicant surveyed one- and two-family residences within the surrounding area, finding that 11 residences have 0.90 FAR or greater, ranging from 0.90 to 1.50 FAR, and finding that there are nine residences with lot coverages in excess of 45 percent; and

WHEREAS, the applicant also submitted a photographic streetscape study, aerial photo survey, contextual photos of the subject site and a rear yard study of the subject block demonstrating the presence of nine residences with rear yards with depths of 20 feet or less; and

WHEREAS, in response to questions from the Board regarding the effect of the rear yard incursion on adjacent residences, the applicant revised the drawings to reflect a rear yard with a depth of 24 feet at the second story and above; and

WHEREAS, with respect to the front yard, which is not within the scope of this application, the Department of Buildings must ensure that the parking space complies with ZR § 23-45(a) and other applicable regulations; and

WHEREAS, based upon its review of the record and its inspections of the site and surrounding area, the Board finds that the proposed building as enlarged will neither alter the essential character of the neighborhood or district in which the building is located nor impair the future use or development of the surrounding area; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed bulk modifications is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

MINUTES

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 16BSA124K, dated June 8, 2016; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-622 and 73-03 to permit, in an R3-1 zoning district, the enlargement of a single-family detached residence that does not comply with zoning regulations for floor area, lot coverage, open space, rear yards and side yards, contrary to ZR §§ 23-142, 23-47 and 23-461; *on condition* that all work and site conditions shall substantially conform to drawings filed with this application marked “Received January 9, 2018”-Twenty-two (22) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: there shall be a maximum of 3,522 square feet of floor area (0.9 FAR); lot coverage shall not exceed to 45 percent; open space shall be a minimum of 55 percent; the rear yard shall have minimum depths of 20 feet at the first floor and 24 feet at the second floor and attic and the side yards shall have minimum depths of 4’-10” to the north and 6’-8” to the south, as illustrated on the Board-approved plans;

THAT all existing exterior walls and wall joints indicated to remain undisturbed on the Board-approved plans shall remain or the special permit is void;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by January 9, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 9, 2018.

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4
Negative:0

WHEREAS, the decision of the Department of Buildings (“DOB”), dated March 20, 2017, acting on Alteration Application No. 321395227, reads in pertinent part:

1. Proposed plans are contrary to ZR 23-141 in that the proposed floor area ratio exceeds the maximum permitted.
2. Proposed plans are contrary to ZR 23-461 in that the proposed side yard is less than the minimum required.
3. Proposed plans are contrary to ZR 23-141 in that the proposed open space is less than the minimum required.
4. Proposed plans are contrary to ZR 23-631 in that the perimeter wall height exceeds the maximum permitted; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03 to permit, in an R3-2 zoning district, the enlargement of an existing residence that does not comply with zoning regulations for floor area ratio (“FAR”), side yards, open space and perimeter wall height, contrary to ZR §§ 23-141, 23-461, 23-631; and

WHEREAS, a public hearing was held on this application on October 3, 2017, after due notice by publication in *The City Record*, with a continued hearing on December 12, 2017, and then to decision on January 9, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the south side of Avenue R, between East 27th Street and East 28th Street, in an R3-2 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 33 feet of frontage along Avenue R, 100 feet of depth, 3,300 square feet of lot area and is occupied by an existing 2-story, with attic, detached single-family residence; and

MINUTES

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single-* or *two-family detached* or *semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single-* or *two-family detached* or *semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter

wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, inter alia, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge an existing detached single-family residence, as contemplated in ZR § 73-622; and

WHEREAS, the applicant proposed to enlarge the existing residence from 1,400 square feet of floor area (0.42 FAR) to 2,251 square feet of floor area (0.68 FAR), maintain the existing 3'-10" side yard, decrease the open space from 69.2 percent to 58.48 percent and increase the perimeter wall height from 20'-8" to 22'-0"; and

WHEREAS, the applicant represents that, at the subject site, floor area may not exceed 1,650 square feet (0.50 FAR) under ZR § 23-141, side yards must have a minimum depth of 5 feet under ZR § 23-461, minimum required open space must be at least 65 percent under ZR § 23-141 and the perimeter wall height may not exceed 21 feet under ZR § 23-631; and

WHEREAS, the applicant submits that the proposed building as enlarged is consistent with the essential character of the neighborhood; and

WHEREAS, in support of this contention, the applicant surveyed properties within the immediate area surrounding the subject site occupied by single- or two-family residences, finding that 29 residences have FARs in excess of 0.71, ranging from 0.75 FAR to 1.23 FAR; and

WHEREAS, in addition to the floor area study, the applicant also submitted a photographic streetscape study, lot coverage diagram and rear yard diagram to support that the enlarged building would not alter the neighborhood's character; and

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, the Board finds that the proposed building as enlarged will not alter the essential character of the neighborhood or district in which the subject building is located, nor impair the future use or development of the surrounding area; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the

MINUTES

community at large due to the proposed bulk modifications is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17BSA108K, dated July 24, 2017; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-622 and 73-03 to *permit*, in an R3-2 zoning district, the enlargement of an existing residence that does not comply with zoning regulations for floor area ratio, side yards, open space and perimeter wall height, contrary to ZR §§ 23-141, 23-461, 23-631; *on condition* that all work and site conditions shall substantially conform to drawings filed with this application marked “Received December 22, 2017”-Twelve (12) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: floor area shall be limited to a maximum of 2,251 square feet (0.68 FAR), side yards shall have minimum depths of 3’-10” and 8’-9”, there shall be a minimum of 58.48 percent open space and height of the perimeter wall shall be no more than 22’-0”, as illustrated on the Board-approved plans;

THAT all existing exterior walls and wall joists indicated to remain undisturbed on the Board-approved plans shall remain or the special permit is void;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by January 9, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or

configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 9, 2018.

2017-188-BZ

CEQR #17-BSA-131K

APPLICANT – Law Office of Lyra J. Altman, for Charles Ishay and David Ishay, owners.

SUBJECT – Application May 22, 2017– Special Permit (§73-622) to permit the enlargement of an existing single family home, contrary to floor area (§23-142); side yard requirements (§§23-461) and less than the required rear yard (§23-47). R5 (Special Ocean Parkway) zoning district.

PREMISES AFFECTED – 1727 Ocean Parkway, Block 6663, Lot(s) 82 & 83, Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, and Commissioner Ottley-Brown.....3

Negative:0

Abstain: Commissioner Sheta.....1

WHEREAS, the decision of the Department of Buildings (“DOB”), dated April 21, 2017, acting on Alteration Application No. 321358302, reads in pertinent part:

1. Creates non-compliance with respect to floor area by exceeding the allowable floor area ratio and is contrary to Section[] 23-142 of the Zoning Resolution.
2. Creates non-compliance with respect to the rear yard by not meeting the minimum requirements of Section 23-47 of the Zoning Resolution.
3. Creates non-compliance with respect to the side yards by not meeting the minimum requirements of Section 23-461 of the Zoning Resolution; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03 to permit, in an R5 zoning district and the Special Ocean Parkway District, the enlargement of two existing two-family detached residences into one two-family detached residence that does not comply with zoning regulations for floor area, rear yard and side yards, contrary to ZR §§ 23-142, 23-47 and 23-461; and

WHEREAS, a public hearing was held on this application on September 12, 2017, after due notice by publication in *The City Record*, with a continued hearing on October 31, 2017, and then to decision on January 9, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application, stating that it

MINUTES

believes that this application is well within the special permit guidelines; and

WHEREAS, the subject site is located on the east side of Ocean Parkway, between Quentin Road and Kings Highway, in an R5 zoning district and the Special Ocean Parkway District, in Brooklyn; and

WHEREAS, the site has approximately 51 feet of frontage along Ocean Parkway, 140 feet of depth, 7,070 square feet of lot area and is improved with two existing two-family detached residences; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single- or two-family detached or semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage, open space, floor area, side yard, rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-*

complying perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, inter alia, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge existing detached two-family residences, as contemplated in ZR § 73-622; and

WHEREAS, the applicant proposes to enlarge the existing residences from 5,634 square feet of floor area (0.80 FAR) to 9,858 square feet of floor area (1.39 FAR), decrease the rear yard from 41'-10" to depths of 20 feet at the first story, 25 feet at the second story and 30 feet at the third story and maintain the existing side yard with a width of 4'-9" to the north and increase the side yard to the south from 4'-4" to 4'-7"; and

WHEREAS, the applicant states that, at the subject site, floor area may not exceed 8,838 square feet (1.25 FAR) under ZR § 23-142, rear yards must have depths of 30 feet under ZR § 23-47 and side yards must have minimum widths of five feet for a total width of 13 feet under ZR § 23-461; and

WHEREAS, the applicant represents that the proposed building as enlarged is consistent with the built character of the neighborhood; and

WHEREAS, in support of this contention, the applicant surveyed single- and two-family residences in the surrounding area, finding that there are 18 residences with more than 1.40 FAR; and

WHEREAS, the applicant also submitted a rear yard study, lot coverage diagram, photographic streetscape montage, a contextual streetscape illustration and a photographic neighborhood study demonstrating that the

MINUTES

proposed building will fit in with the built conditions of the surrounding area; and

WHEREAS, because the front yard is beyond the scope of this application, the Department of Buildings must review and determine whether the porch proposed in the front yard is permitted under applicable regulations; and

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, the Board finds that the proposed building as enlarged will not alter the essential character of the neighborhood or district in which the subject building is located, nor impair the future use or development of the surrounding area; and

WHEREAS, in response to questions from the Board at hearing about the effect of the enlarged building on residences nearby, the applicant reduced the proposed building's incursion into the rear yard, decreased the proposed floor area and increased the amount of open space; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed bulk modifications is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17BSA131K, dated May 22, 2017; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-622 and 73-03 to *permit*, in an R5 zoning district and the Special Ocean Parkway District, the enlargement of two existing two-family detached residences into one two-family detached residence that does not comply with zoning regulations for floor area, rear yard and side yards, contrary to ZR §§ 23-142, 23-47 and 23-461; *on condition* that all work and site conditions shall substantially conform to drawings filed with this application marked "Received December 21, 2017"-Thirteen (13) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: floor area shall be limited to 9,858 square feet (1.39

FAR), the rear yard shall have minimum depths of 20 feet at the first story, 25 feet at the second story and 30 feet at the third story, and the side yards shall have minimum widths of 4'-9" to the north and 4'-7" to the south, as illustrated on the Board-approved plans;

THAT removal of existing joists or perimeter walls in excess of that shown on the Board-approved plans shall void the special permit;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by January 9, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 9, 2018.

CEQR #17-BSA-137M

APPLICANT – Sheldon Lobel, P.C., for 313 LLC, owner; Fuelsoul Group LLC dba Orangetheory Fitness, lessee.

SUBJECT – Application July 14, 2017 – Special Permit (§73-36) to permit the operation a Physical Cultural Establishment (*Orangetheory Fitness*) on a portion of the first floor of an existing building contrary to ZR §32-10. C6-4M Special Garment Center District.

PREMISES AFFECTED – 313-321 West 37th Street, Block 761, Lot 22, Borough of Manhattan.

COMMUNITY BOARD #4M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated June 20, 2017, acting on Alteration Application No. 122898926, reads in pertinent part:

"Proposed Physical Culture Establishment . . . is not permitted as of right . . . and is contrary to ZR 32-10"; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, in a C6-4M zoning district and the Special Garment Center District, the legalization of a physical culture establishment ("PCE") on the first floor,

MINUTES

contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on October 31, 2017, after due notice by publication in *The City Register*, and then to decision on January 9, 2018; and

WHEREAS, Community Board 4, Manhattan, recommends approval of this application, stating that it believes the PCE constitutes a well-run operation with minimal or no disturbance to the neighborhood and to the residential portion of the building within which the PCE is located; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the north side of West 37th Street, between Eighth Avenue and Ninth Avenue, in a C6-4M zoning district and the Special Garment Center District, in Manhattan; and

WHEREAS, the site has approximately 100 feet of frontage along West 37th Street, 99 feet of depth, 9,875 square feet of lot area and is occupied by a nine-story, with cellar, mixed-use commercial and residential building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the

commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE occupies 4,053 square feet of floor area on the first floor as follows: a lobby, reception area, office, changing rooms, toilets, showers, closets, and a fitness studio with treadmills and other exercise equipment; and

WHEREAS, the PCE has been in operation since October 13, 2017, as Orangetheory Fitness with the following hours of operation: 5:00 a.m. to 9:00 p.m., Monday through Thursday, 5:00 a.m. to 8:00 p.m., Friday, 7:00 a.m. to 1:00 p.m., Saturday, and 8:00 a.m. to 2:00 p.m., Sunday; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because it located entirely within the commercial first-floor space of a mixed-use building and that the surrounding area is characterized by a vibrant mix of compatible uses, such as hotels, offices, eating and drinking establishments and retail stores; and

WHEREAS, with regard to sound attenuation, the applicant submits that the PCE will feature a suspended, spring-isolated gypsum acoustic ceiling, insulated acoustic

MINUTES

demising walls and rubber flooring in the fitness studio with an additional layer of rubber flooring in the weights area; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant submits that the PCE contains facilities for the provision of physical fitness instruction, including group-based personal training; and

WHEREAS, the Board finds that the PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of a special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant submitted evidence indicating that sprinklers and fire alarm systems—including smoke detectors, manual pull stations, local audible and visual alarms and a connection to an FDNY-approved central station—are installed throughout the PCE space; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, the applicant represents that the PCE will not interfere with any public improvement projects; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated at the premises without the special permit; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 17-BSA-137M, dated June 7, 2017; and

WHEREAS, the Board finds that the evidence in record supports the findings required to be made under ZR §§ 73-36 and 73-03 and that the applicant had substantiated a basis for the exercise of discretion to grant.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 *to permit*, in a C6-4M zoning district and the Special Garment Center District, the legalization of a physical culture establishment on the first floor, contrary to ZR § 32-10; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked “Received July 14, 2017”-Five (5) sheets; and *on further condition*:

THAT the term of this grant shall be for ten (10) years,

expiring October 13, 2027;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum 3'-0" wide exit pathways shall be provided leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be maintained in the entire PCE space and the PCE shall remain fully sprinklered, as indicated on the Board-approved plans;

THAT sound attenuation shall be installed in the PCE as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by January 9, 2019;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 9, 2018.

2016-4181-BZ

APPLICANT – Law Office of Lyra J. Altman, for Alber Bukai and Subhi Bukai, owners.

SUBJECT – Application May 2, 2016 – Special Permit (§73-622) for the enlargement and conversion of an existing two family dwelling to a single family dwelling, contrary to side yards (ZR 23-461) and less than the required rear yard (ZR 23-47). R5 zoning district.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated May 6, 2016, acting on Alteration Application No. 123000019, reads in pertinent part:

“Proposed Physical Culture Establishment . . . is contrary to ZR 32-10”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, in a C6-3A zoning district, the legalization of a physical culture establishment (“PCE”) on the first floor and cellar, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on January 9, 2018, after due notice by publication in *The City Register*, and then to decision on the same date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the subject site and surrounding neighborhood; and

WHEREAS, Community Board 4, Manhattan, recommends approval of this application, stating that the PCE is a well-run operation with minimal or no disturbance to the neighborhood and to the rest of the building in which it is located; and

WHEREAS, the subject site is located on the north side of West 20th Street, between Sixth Avenue and Seventh Avenue, in a C6-3A zoning district, in Manhattan; and

WHEREAS, the subject site has approximately 46 feet of frontage along West 20th Street, 92 feet of depth, 4,206 square feet of lot area and is occupied by a five-story, with cellar, mixed-use commercial and residential building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

MINUTES

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE occupies a total of 3,023 square feet of floor space as follows: 1,710 square feet of floor area on the first floor, including a check-in area, fitness area with sleds, benches and other exercise equipment and a bathroom, and 1,313 square feet of floor space in the cellar, featuring locker rooms with restrooms, storage and a mechanical room; and

WHEREAS, the PCE has been in operation since March 2017 as F45 Training Flatiron with the following hours of operation: 5:00 a.m. to 9:00 p.m., Monday through Friday, 9:00 a.m. to 4:00 p.m., Saturday, and 10:00 a.m. to 12:00 p.m., Sunday; and

WHEREAS, the applicant represents that the PCE use is located entirely within an existing mixed-use building and consistent with the commercial character of the surrounding area, which is populated by a plethora of vibrant uses, including banks, restaurants, offices and retail space; and

WHEREAS, the applicant submits that sound attenuation measures have been provided within the PCE

space so as to not disturb other tenants in the building, including suspended ceilings with an STC rating of 60, double-layered partitions with batt insulation and an STC rating of 55 and rubber matting on cement floors; and

WHEREAS, the Board finds that the PCE is so located as to not impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE provides group-based personal training; and

WHEREAS, the Board finds that the PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of a special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant submitted evidence indicating that sprinklers and fire alarm systems—including smoke detectors, manual pull stations, local audible and visual alarms and a connection to an FDNY-approved central station—are installed throughout the PCE space; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17BSA089M, dated February 14, 2017; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-36 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion to grant; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated at the premises without the special permit.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and make each and every one of the required findings under ZR §§ 73-36 and 73-03 *to permit*, in a C6-3A zoning district, the legalization of a physical culture establishment on the first floor and cellar, contrary to ZR § 32-10; *on condition* that all work, site conditions and operations shall substantially conform to drawings filed with this application marked “Received December 28, 2017”-Seven (7) sheets; and *on further condition*:

MINUTES

THAT the term of this grant shall be for ten (10) years, expiring March 1, 2027;

Carlo Costanza, Executive Director

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages shall be performed only by New York State licensed massage professionals;

THAT minimum 3'-0" wide exit pathways shall be provided leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be maintained in the entire PCE space and the PCE shall remain fully sprinklered, as indicated on the Board-approved plans;

THAT sound attenuation shall be installed in the PCE as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by January 9, 2019;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 9, 2018.

332-14-BZ

SUBJECT – Application November 4, 2016 – Extension of Term of a Special permit (§73-36) which permitted the operation of a Physical Culture Establishment (*New York Health and Racquet Club*) which expired on October 6, 2016; Extension of Time to obtain a Certificate of Occupancy which expired on September 15, 2010; Waiver of the Rules. C6-6/C6-6.5 (MID) zoning district.

PREMISES AFFECTED – 110/12 West 56th Street, Block 1008, Lot 7501, Borough of Manhattan.

COMMUNITY BOARD #5M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure, an extension of term of a special permit, previously granted by the Board, which expired October 6, 2016, and an extension of time to obtain a certificate of occupancy; and

WHEREAS, a public hearing was held on this application on January 23, 2018, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding area; and

WHEREAS, Community Board 5, Manhattan, waives its recommendation for this application; and

WHEREAS, the subject site is located on the south side of West 56th Street, west of Avenue of the Americas, partially within a C6-6 zoning district and partially within a C6-6.5 zoning district, in the Special Midtown District, in Manhattan; and

WHEREAS, the site has approximately 75 feet of frontage along West 56th Street, 100 feet of depth, 7,531 square feet of lot area and is occupied by a 32-story, with cellar, mixed-use building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since October 6, 1981, when, under the subject calendar number, the Board granted a special permit to permit the change in use of an accessory health club to a physical culture establishment (“PCE”) for a term of five (5)

years, expiring October 6, 1986, on condition that the hours of operation be restricted to 7:30 a.m. to 10:00 p.m., Monday through Friday, and 10:00 a.m. to 6:00 p.m., Saturday and Sunday and that the special permit shall lapse with any change in ownership or control; and

WHEREAS, on December 2, 1986, under the subject calendar number, the Board granted an extension of term for ten (10) years, expiring October 6, 1996, replacing the condition that the special permit shall lapse with any change in ownership or control with the condition that there be no change in ownership or operating control without prior application to and approval from the Board and that a new certificate of occupancy be obtained within one (1) years, by December 2, 1987; and

WHEREAS, on October 31, 2000, under the subject calendar number, the Board granted an extension of term for ten (10) years, expiring October 6, 1996, on condition that a new certificate of occupancy be obtained within one (1) year, by October 31, 2001; and

WHEREAS, on September 15, 2009, under the subject calendar number, the Board granted an extension of term for a period of ten (10) years, expiring October 6, 2016, an extension of time to obtain a certificate of occupancy to September 15, 2010, and modified the PCE’s hours of operation to 5:30 a.m. to 11:00 p.m., Monday through Friday, and 8:00 a.m. to 10:00 p.m., Saturday and Sunday, on condition that the following sound attenuation measures be provided: (1) locked sound limiters on all classroom stereos; (2) one-inch thick dense rubber floor tiles throughout the gym; (3) two-inch thick fiberglass sound-insulating batting on the concrete slab of the ceiling of the highest floor occupied by the PCE; and (4) a ten-foot drop ceiling with acoustic ceiling tiles in the yoga studio and aerobic studio on the highest floor occupied by the PCE; that the above conditions be listed on the certificate of occupancy; and that a certificate of occupancy be obtained by September 15, 2010; and

WHEREAS, the term of the special permit having expired, the applicant now seeks an extension of term, an extension of time to obtain a certificate of occupancy and a waiver of the Board’s Rules of Practice and Procedure; and

WHEREAS, the applicant submits that the PCE continues to operate as New York Health and Racquet Club and abides by the following hours of operation: 5:30 a.m. to 11:00 p.m., Monday through Friday, and 8:00 a.m. to 10:00 p.m., Saturday and Sunday; and

WHEREAS, at hearing, the applicant explained that the hours of operation had been modified by the Board prior to granting the previous term, that the PCE is currently operating with fewer hours than those approved by the Board and that the applicant is not seeking to modify the hours of operation in this application; and

WHEREAS, the applicant represents that the PCE continues to use 22,581 square feet of floor area as follows: 5,193 square feet of floor space in the cellar, 4,963 square feet of floor area in the basement, 5,620 square feet of floor area on the first floor, 4,172 square feet of floor area on the

MINUTES

second floor, 3,585 square feet of floor area on the third floor, 747 square feet of floor area on the third-floor mezzanine, 2,831 square feet of floor area on the fourth floor and 663 square feet of floor area on fourth-floor mezzanine; and

WHEREAS, the applicant submits that approved fire alarm and sprinkler systems are installed throughout the PCE; and

WHEREAS, the Board notes that it has not received oral or written testimony in opposition to the continuation of the PCE use; and

WHEREAS, the Board finds that the circumstances warranting the original grant still obtain and that the applicant has substantially complied with the conditions and safeguards during the prior term; and

WHEREAS, based upon its review of the record, the Board finds that the requested relief is appropriate with certain conditions set forth below and that the applicant has substantiated a basis to warrant exercise of discretion to grant.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *waive* the Rules of Practice and Procedure and *reopen* and *amend* the resolution, dated October 6, 1981, as amended through September 15, 2009, so that as amended this portion of the resolution shall read: “to *grant* an extension of term for ten (10) years, expiring October 6, 2026, and an extension of time to obtain a certificate of occupancy for four (4) years, expiring; *on condition* that all work and site conditions shall comply with drawings filed with this application marked ‘Received August 21, 2017- Eleven (11) sheets; and *on further condition*:

THAT the term of this grant shall be for ten (10) years, expiring October 6, 2026;

THAT the following sound attenuation measures shall be provided: (1) locked sound limiters on all classroom stereos; (2) one-inch thick dense rubber floor tiles throughout the gym; (3) two-inch thick fiberglass sound-insulating batting on the concrete slab of the ceiling of the highest floor occupied by the PCE; and (4) a ten-foot drop ceiling with acoustic ceiling tiles in the yoga studio and aerobic studio on the highest floor occupied by the PCE; that the above conditions be listed on the certificate of occupancy;

THAT there shall be no change in ownership or operating control without prior application to and approval from the Board;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by January 23, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered

approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, January 23, 2018.

344-03-BZ

APPLICANT – Howard Goldman, for City of New York, owner; Nick’s Lobster House, lessee.

SUBJECT – Application August 12, 2015 – Application for an extension of term of the legalization of the reconstruction and extension of an existing building operating as an eating and drinking establishment in a C3 district, contrary to ZR 32-00. C3 zoning district.

PREMISES AFFECTED – 2777 Flatbush Avenue, Block 8591, Lot 980, Borough of Brooklyn.

COMMUNITY BOARD #18BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

THE RESOLUTION –

WHEREAS, this is an application under ZR §§ 73-03 and 73-242 for an extension of term of a special permit, previously granted by the Board, which expired July 12, 2015; and

WHEREAS, a public hearing was held on this application on June 20, 2017, after due notice by publication in *The City Record*, with continued hearings on August 22, 2017, and then to decision on January 23, 2018; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 18, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the north side of Flatbush Avenue, between Hendrickson Place and Belt Parkway, in a C3 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 93,525 square feet of lot area and is occupied by a one-story building used as an eating and drinking establishment as well as a parking lot; and

WHEREAS, the applicant represents that the subject site is owned by the City of New York; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 12, 2005, when, under the subject calendar number, the Board granted a special permit to permit a Use Group 6 eating and drinking establishment for a term of five (5) years, expiring July 12, 2010, on condition

MINUTES

that the site be maintained free of debris and graffiti, that any graffiti located on the site be removed within 48 hours, that the above conditions appear on the certificate of occupancy and that the Board did not waive any non-compliances with respect to the rear yard or signage requirements; and

WHEREAS, on July 12, 2005, under BSA Calendar Number 345-03-A, the Board granted an appeal under General City Law § 35 to permit reconstruction in the bed of a mapped street; and

WHEREAS, on December 7, 2010, under the subject calendar number, the Board granted an extension of term for five (5) years, expiring July 12, 2015, on condition that the term be listed on the certificate of occupancy; and

WHEREAS, the term of the special permit having expired, the applicant now seeks an extension; and

WHEREAS, the applicant states that the subject eating and drinking establishment suffered financial hardship as a result of Superstorm Sandy, which prevented reconstruction pursuant to the plans approved by the Board in 2010; and

WHEREAS, the applicant states that the hours of operation are Tuesday, Wednesday and Thursday, 2:00 p.m. to 10:00 p.m., and Friday and Saturday, 12:00 p.m. to 11:00 p.m., that refuse is stored on the northeast side of the building and picked up Monday and Thursday mornings and that there is parking for 110 vehicles; and

WHEREAS, in response to questions from the Board, the applicant removed extraneous signage and provided drawings illustrating remaining signage at the site; and

WHEREAS, the applicant represents that the lack of a rear yard constitutes a non-complying condition that has lawfully existed since the building was constructed in 1955; and

WHEREAS, by letter dated January 10, 2018, the New York City Department of Small Business Services (“SBS”) states that the lack of a rear yard is a lawful, non-complying condition that SBS approves the signage plans submitted by the applicant and that SBS recommends approval of this application; and

WHEREAS, the Board finds that the circumstances warranting the original grant still obtain and that the applicant has substantially complied with the conditions and safeguards during the prior term; and

WHEREAS, based upon its review of the record, the Board finds that an extension of term is appropriate with certain conditions set forth below and that the applicant has substantiated a basis to warrant exercise of discretion to grant.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated July 12, 2005, as amended December 7, 2010, so that as amended the resolution shall read: “to *grant* an extension of term for five (5) years, expiring July 12, 2020; *on condition* that all work, site conditions and operations shall substantially conform to the Board-approved plans; and *on further condition*:

THAT the term of this grant shall be for five (5) years,

expiring July 12, 2020;

THAT the site shall be maintained free of debris and graffiti;

THAT any graffiti located on the site shall be removed within 48 hours;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by January 23, 2022;

THAT the Board is not waiving any non-compliances with respect to the rear yard or signage requirements;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Small Business Services;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Small Business Services must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, January 23, 2018.

APPLICANT – Bryan Cave LLP, for City of New York, owner.

SUBJECT – Application October 6, 2017 – Extension of time to complete construction of a Special Permit (§73-64) to waive height and setback regulations (§33-432) for a community use facility (Fashion Institute of Technology) which expired on October 6, 2017. C6-2 zoning district.

PREMISES AFFECTED – 230-236 West 28th Street, Block 777, Lot(s) 1, 18, 37, Borough of Manhattan.

COMMUNITY BOARD #5M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative:0

Abstain: Commissioner Sheta.....1

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of time to complete construction pursuant to a previously granted special permit, which expired on October 6, 2017; and

WHEREAS, a public hearing was held on this application on January 23, 2018, after due notice by publication in *The City Record*, and then to decision on that date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

MINUTES

WHEREAS, this application has been filed on behalf of the Fashion Institute of Technology (“FIT”), a college of the State University of New York, a non-profit entity; and

WHEREAS, the subject site is located on the south side of West 28th Street, between Eighth Avenue and Ninth Avenue, in a C6-2 zoning district in Manhattan; and

WHEREAS, the Board has exercised jurisdiction over the subject site since October 6, 2009, when, under the subject calendar number, the Board granted a special permit, pursuant to ZR §§ 73-641 and 73-03 to permit the construction of a ten-story community facility building that does not comply with the zoning requirements for height, setback and sky exposure plane, contrary to ZR § 33-432 on condition that, *inter alia*, substantial construction be completed pursuant to ZR § 73-70, by October 6, 2013; and

WHEREAS, on January 28, 2014, under the subject calendar number, the Board granted a four-year extension of time to complete construction, which expired on October 6, 2017; and

WHEREAS, by letter dated January 26, 2018, the Board approved modifications to the plans approved in connection with the 2009 special permit grant as substantially compliant with that approval; and

WHEREAS, the time to complete construction having expired, the applicant seeks the subject relief; and

WHEREAS, the applicant submits that construction has yet to commence on the site due to a lack of funding, but anticipates obtaining full funding upon the New York State Legislature’s adoption of the State Executive budget in April 2018; the applicant expects to break ground on construction at the subject site shortly thereafter; and

WHEREAS, the applicant states that construction is anticipated to take three years with a certificate of occupancy obtained by the summer of 2021; and

WHEREAS, based upon its review of the record, the Board finds that a four (4) year extension of time to complete construction and obtain a certificate of occupancy is appropriate with certain conditions, as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated October 6, 2009, as amended through January 28, 2014, so that as amended this portion of the resolution reads: “to grant a four (4) year extension of time to complete construction to October 6, 2021; and *on further condition*:

THAT substantial construction shall be completed by October 6, 2021;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals,

January 23, 2018.

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4
Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and an extension of time to complete construction; and

WHEREAS, a public hearing was held on this application on **Error! Reference source not found.**, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, the subject site is located on the east side of **Error! Reference source not found.**, between Liberty Avenue and Glenmore Avenue, in an M1-4 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 400 feet of frontage along **Error! Reference source not found.**, 111 feet of frontage along Liberty Avenue and 111 feet of frontage along Glenmore Avenue, 44,500 square feet of lot area; and

WHEREAS, the Board has exercised jurisdiction over the subject site since June 7, 2011, when, under the subject calendar number, the Board granted a variance to permit the development of a mixed-use building with residential use on condition that the parameters of the proposed building be as follows: six stories, a total floor area of 148,165 square feet (3.33 FAR), a perimeter wall and total height of 57 feet, a rear yard with a depth of 83 feet and 24 parking spaces, as indicated on the Board-approved plans; that prior to the issuance of any building permit that would result in grading, excavation, foundation, alteration, building or other permit respecting the subject site which permits soil disturbance for the proposed project, the applicant or successor shall obtain from DEP a Notice to Proceed; that prior to the issuance by the Department of Buildings (“DOB”) of a temporary or permanent certificate of occupancy, the applicant or

MINUTES

successor shall obtain from DEP a Notice of Satisfaction; that window-wall noise attenuation and variable capacity air source heat recovery air-conditioning system as an alternate means of ventilation be provided in the proposed building as indicated on the Board-approved plans; that the internal floor layouts on each floor of the proposed building be as reviewed and approved by DOB; and

WHEREAS, by letter dated December 27, 2012, as revised January 2, 2013, the Board allowed minor modifications to the Board-approved plans, including reducing the number of apartments from 176 to 160 and providing 2,029 square feet of Use Group 6 commercial space on the ground floor; and

WHEREAS, by letter dated January 2, 2014, the Board authorized a change from New Building Application No. 320024709 to New Building Application No. 320593201 for the project; and

WHEREAS, by letter dated June 1, 2015, the Board allowed minor modifications to the Board-approved plans to allow the following the following changes to the site plan: the shift of the building 2'-2¾" from the Liberty Avenue lot line to accommodate a Department of Transportation bridge structure, reductions in the length of the Liberty Avenue wing, the Glenmore Avenue wing, reductions in the depth and width of the side yard and an increase in the length of the outer court; to allow the following changes to the cellar plan: redesign of the community facility and building services space in the cellar and inclusion of a superintendent's apartment and retail storage; to allow the following changes to the first floor: reconfiguration of the lobby and community facility and commercial space and reconfiguration of apartments to satisfy HPD requirements and accommodate a ramp and Long Island Rail Road footing; and to allow the following changes to the upper floors: reconfiguration of apartments to satisfy HPD requirements and accommodate a ramp, relocation of refuse areas and an increase in the building height by eight inches to accommodate the grade change along **Error! Reference source not found.**; on condition that DOB confirm that the floor area does not exceed the 148,165 square feet reflected in the original approval; and

WHEREAS, the time to complete construction expired, the applicant seeks a waiver of the Board's Rules of Practice and Procedure and an extension of time to complete construction; and

WHEREAS, by letter dated June 15, 2015, the New York City Office of Environmental Remediation states that it has approved the Remedial Action Work Plan dated April 2015 with Stipulation Letter dated May 11, 2015, under the City's Voluntary Cleanup Program; and

WHEREAS, the applicant submits that the development is approximately 75 percent complete and that the structure been constructed with interior work underway; and

WHEREAS, based upon its review of the record, the Board finds that a waiver of the Board's Rules of Practice and Procedure and an extension of time to complete

construction are appropriate with certain conditions set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *waive* the Rules of Practice and Procedure and *reopen* and *amend* the resolution, dated June 7, 2011, so that as amended this portion of the resolution shall read: "to *grant* an extension of time to complete construction for four (4) years, expiring January 23, 2022; *on condition* that all work and site conditions shall substantially conform to the Board-approved plans; and *on further condition*:

THAT the parameters of the proposed building shall be as follows: six stories, a total floor area of 148,165 square feet (3.33 FAR), a perimeter wall and total height of 57 feet, a rear yard with a depth of 83 feet and 24 parking spaces, as indicated on the Board-approved plans;

THAT window-wall noise attenuation and variable capacity air source heat recovery air-conditioning system as an alternate means of ventilation shall be provided in the proposed building, as indicated on the Board-approved plans;

THAT the above conditions shall be noted on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by January 23, 2022;

THAT prior to the issuance of any building permit that would result in grading, excavation, foundation, alteration, building or other permit respecting the subject site which permits soil disturbance for the proposed project, the applicant or successor shall obtain from DEP a Notice to Proceed;

THAT prior to the issuance by the Department of Buildings ("DOB") of a temporary or permanent certificate of occupancy, the applicant or successor shall obtain from DEP a Notice of Satisfaction;

THAT the internal floor layouts on each floor of the proposed building shall be as reviewed and approved by DOB;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted; and

THAT the Department of Buildings must confirm that the floor area does not exceed the 148,165 square feet reflected in the original approval, as illustrated on the Board-approved plans."

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated November 10, 2016, acting on Department of Buildings (“DOB”) Application No. 421258221 reads in pertinent part:

The proposed street extension has been mapped for 10 years but the city has yet to acquire title and is not duly placed on the official map of the City of New York therefore:

- A) No building permit can be issued pursuant to Section 35 of the General City Law;
- B) The land within the mapped street is not yielding a fair return to the property owner; and

WHEREAS, this is an application to permit the construction of a four-story three-family residential building within the bed of a mapped street, contrary to General City Law (“GCL”) § 35; and

WHEREAS, a public hearing was held on this application on January 9, 2018, after due notice by publication in *The City Record*, and then to decision on January 23, 2018; and

WHEREAS, Community Board 4, Queens recommends approval of this application; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the eastern side of 57th Avenue, between Van Horn Street and 85th Street, in an R6B zoning district, in Queens; and

WHEREAS, the site has approximately 37 feet of frontage along 57th Avenue and a depth of 100 feet; and

WHEREAS, this application is part of a series of applications for waivers of GCL § 35 for Lots 1, 2, 102, 24, 22 and 21 on the subject tax block (BSA Cal. No. 2016-4348-A through 2016-4353-A); and

WHEREAS, the applicant originally proposed to construct six four-story, three-family attached residential buildings—one building on each of Lots 1, 2, 102, 24, 22 and 21—within the bed of Haspel Street, a street mapped, but unbuilt, to a width of 50 feet; and

WHEREAS, by letter dated January 30, 2017, the Fire Department accepted the buildings proposed on Lots 1, 2 and 102 without objection, provided that the City had no intent of acquiring Haspel Street from 57th Avenue to 57th Road for public use, but objected to the buildings proposed on Lots 22 and 24, noting that they do not meet the requirements for Fire

Department Access; the Fire Department additionally requested that the building proposed on Lot 21 be fully sprinklered in accordance with Chapter 9 of the New York City Building Code; and

WHEREAS, in response, the applicant merged Lots 22 and 24 with Lot 21 to provide sufficient Fire Department access to the building proposed on that lot and withdrew the application for Lots 22 and 24 (BSA Cal. Nos. 2016-4352-A and 2016-4351-A, respectively); and

WHEREAS, the applicant provided a revised New York City Department of Finance Application for Mergers or Apportionments reapportioning former Lots 1, 101, 21 and 22 into, *inter alia*, Lots 1, 2, 102 and 21 and those lots were issued, effective July 19, 2017, though the New York City Tax Map has not yet been updated to reflect this reapportionment; and

WHEREAS, accordingly, the applicant now proposes three four-story, three-family attached residential buildings—one on each of Lots 1, 2 and 102—and a four-story ten-family residential building on Lot 21—within the bed of Haspel Street; and

WHEREAS, the subject site is also part of a larger development of eight attached buildings, four of which are not located within the bed of Haspel Street and, thus, do not require the relief requested herein; and

WHEREAS, the applicant represents that the proposed buildings will comply with all bulk regulations applicable in the underlying zoning districts; and

WHEREAS, at hearing, a Commissioner questioned the layout of the duplex residential units and whether they belied an attempt to circumvent requirements relating to parking or the provision of elevators, but acknowledged that the interior layouts of the proposed buildings are not before the Board in this application, which is concerned with the locating of buildings within the bed of mapped streets; accordingly, the Board makes no findings as to the compliance of the proposed buildings with the Zoning Resolution, Building Code, Administrative Code, or any other relevant laws under DOB’s jurisdiction and relies on DOB for such review and enforcement; and

WHEREAS, by letter dated January 4, 2017, the New York City Department of Transportation (“DOT”) states that, according to the Queens Borough President’s Topographical Bureau, Haspel Street between 57th Avenue and 57th Road is mapped at 50 feet, the City does not have title, that the subject lot is not presently included in DOT’s Capital Improvement Program, though this does not preclude a change in the program in the future, and that DOT does not have any objections to the proposed plan under the condition that the Fire Department does not have any objection to the proposed plan; and

WHEREAS, by letter dated September 12, 2017, the Fire Department requests that all proposed residences be fully sprinklered and that a hydrant be located within 250 feet of the main front entrance of each building; and

WHEREAS, in response, the applicant submitted revised plans indicating the location of hydrants and that all of

MINUTES

the proposed buildings will be sprinklered; and

WHEREAS, by communication dated January 22, 2018, the Fire Department states that, in light of the submission of a revised site plan illustrating that a Fire Department aerial ladder could reach the four-story building proposed for Lot 21, it has no further objections to the proposal; and

WHEREAS, by letter dated September 11, 2017, the New York City Department of Environmental Protection (“DEP”) states that, based on DEP maps, there are no existing sewers or water mains at the subject location, that the Amended Drainage Plan for the Sewerage District No: 25 (20) & 27 (11), dated January 10, 1930, for the subject site shows a 12 inch diameter combined sewer in the bed of Haspel Street between 57th Avenue and 57th Road and requested that the applicant provide a 35 foot wide sewer corridor in the bed of Haspel Street between 57th Avenue and 57th Road for the installation, maintenance and/or reconstruction of the future sewer or amend the drainage plan; and

WHEREAS, the applicant opted to work with DEP to amend the Amended Drainage Plan and the Board herein conditions the grant on DEP’s approval of an amendment to the drainage plan prior to the issuance of DOB permits for construction at the subject site; and

WHEREAS, the Board notes that pursuant to GCL § 35, it may authorize construction within the bed of the mapped street subject to reasonable requirements; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved, that the Board modifies the decision of the Queens Borough Commissioner, dated November 10, 2016, acting on Department of Buildings Application No. 421258221, by the power vested in it by Section 35 of the General City Law to grant this appeal, limited to the decisions noted above *on condition* that construction will substantially conform to the drawings filed with the application marked “Received January 9, 2018” – One (1) sheet; and *on further condition*:

THAT DEP shall approve an amended drainage plan for Haspel Street between 57th Avenue and 57th Road prior to the issuance of building permits by DOB;

THAT the building shall be fully sprinklered;

THAT a hydrant shall be located within 250 feet of the main front entrance of the building;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by January 23, 2022;

THAT DOB shall review the plans associated with the Board’s approval for compliance with all relevant provisions of the Zoning Resolution;

THAT to the extent required by DOB and/or DOT, a Builder’s Pavement Plan shall be filed and approved prior to the issuance of the Certificate of Occupancy;

THAT a Certificate of Occupancy be obtained within four (4) years, by January 23, 2022;

THAT this approval is limited to the relief granted by

the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 23, 2018.

2016-4349-A

APPLICANT – Sheldon Lobel, P.C., for Elmhurst Tower LLC, owner.

SUBJECT – Application December 2, 2016 – Proposed construction of a four-story, three family residential building partially within the bed of a mapped street, pursuant to Article 3 of General City Law 35. R6B zoning district.

PREMISES AFFECTED – 85-12 57th Avenue, Block 2882, Lot 2, Borough of Queens.

COMMUNITY BOARD #4Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated November 10, 2016, acting on Department of Buildings (“DOB”) Application No. 421258267 reads in pertinent part:

The proposed street extension has been mapped for 10 years but the city has yet to acquire title and is not duly placed on the official map of the City of New York therefore:

(A) No building permit can be issued pursuant to Section 35 of the General City Law;

(B) The land within the mapped street is not yielding a fair return to the property owner; and

WHEREAS, this is an application to permit the construction of a four-story three-family residential building partially within the bed of a mapped street, contrary to General City Law (“GCL”) § 35; and

WHEREAS, a public hearing was held on this application on January 9, 2018, after due notice by publication in *The City Record*, and then to decision on January 23, 2018; and

WHEREAS, Community Board 4, Queens recommends approval of this application; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the eastern side of 57th Avenue, between Van Horn Street and 85th

MINUTES

Street, partially within an R6B (C2-2) zoning district and partially within an R6B zoning district, in Queens; and

WHEREAS, the site has approximately 20 feet of frontage along 57th Avenue, a depth of 100 feet and 2,000 square feet of lot area; and

WHEREAS, this application is part of a series of applications for waivers of GCL § 35 for Lots 1, 2, 102, 24, 22 and 21 on the subject tax block (BSA Cal. No. 2016-4348-A through 2016-4353-A); and

WHEREAS, the applicant originally proposed to construct six four-story, three-family attached residential buildings—one building on each of Lots 1, 2, 102, 24, 22 and 21—within the bed of Haspel Street, a street mapped, but unbuilt, to a width of 50 feet; and

WHEREAS, by letter dated January 30, 2017, the Fire Department accepted the buildings proposed on Lots 1, 2 and 102 without objection, provided that the City had no intent of acquiring Haspel Street from 57th Avenue to 57th Road for public use, but objected to the buildings proposed on Lots 22 and 24, noting that they do not meet the requirements for Fire Department Access; the Fire Department additionally requested that the building proposed on Lot 21 be fully sprinklered in accordance with Chapter 9 of the New York City Building Code; and

WHEREAS, in response, the applicant merged Lots 22 and 24 with Lot 21 to provide sufficient Fire Department access to the building proposed on that lot and withdrew the application for Lots 22 and 24 (BSA Cal. Nos. 2016-4352-A and 2016-4351-A, respectively); and

WHEREAS, the applicant provided a revised New York City Department of Finance Application for Mergers or Apportionments reapportioning former Lots 1, 101, 21 and 22 into, *inter alia*, Lots 1, 2, 102 and 21 and those lots were issued, effective July 19, 2017, though the New York City Tax Map has not yet been updated to reflect this reapportionment; and

WHEREAS, accordingly, the applicant now proposes three four-story, three-family attached residential buildings—one on each of Lots 1, 2 and 102—and a four-story ten-family residential building on Lot 21—within the bed of Haspel Street; and

WHEREAS, the subject site is also part of a larger development of eight attached buildings, four of which are not located within the bed of Haspel Street and, thus, do not require the relief requested herein; and

WHEREAS, the applicant represents that the proposed buildings will comply with all bulk regulations applicable in the underlying zoning districts; and

WHEREAS, at hearing, a Commissioner questioned the layout of the duplex residential units and whether they belied an attempt to circumvent requirements relating to parking or the provision of elevators, but acknowledged that the interior layouts of the proposed buildings are not before the Board in this application, which is concerned with the locating of buildings within the bed of mapped streets; accordingly, the Board makes no findings as to the compliance of the proposed buildings with the Zoning Resolution, Building Code,

Administrative Code, or any other relevant laws under DOB's jurisdiction and relies on DOB for such review and enforcement; and

WHEREAS, by letter dated January 4, 2017, the New York City Department of Transportation ("DOT") states that, according to the Queens Borough President's Topographical Bureau, Haspel Street between 57th Avenue and 57th Road is mapped at 50 feet, the City does not have title, that the subject lot is not presently included in DOT's Capital Improvement Program, though this does not preclude a change in the program in the future, and that DOT does not have any objections to the proposed plan under the condition that the Fire Department does not have any objection to the proposed plan; and

WHEREAS, by letter dated September 12, 2017, the Fire Department requests that all proposed residences be fully sprinklered and that a hydrant be located within 250 feet of the main front entrance of each building; and

WHEREAS, in response, the applicant submitted revised plans indicating the location of hydrants and that all of the proposed buildings will be sprinklered; and

WHEREAS, by communication dated January 22, 2018, the Fire Department states that, in light of the submission of a revised site plan illustrating that a Fire Department aerial ladder could reach the four-story building proposed for Lot 21, it has no further objections to the proposal; and

WHEREAS, by letter dated September 11, 2017, the New York City Department of Environmental Protection ("DEP") states that, based on DEP maps, there are no existing sewers or water mains at the subject location, that the Amended Drainage Plan for the Sewerage District No: 25 (20) & 27 (11), dated January 10, 1930, for the subject site shows a 12 inch diameter combined sewer in the bed of Haspel Street between 57th Avenue and 57th Road and requested that the applicant provide a 35 foot wide sewer corridor in the bed of Haspel Street between 57th Avenue and 57th Road for the installation, maintenance and/or reconstruction of the future sewer or amend the drainage plan; and

WHEREAS, the applicant opted to work with DEP to amend the Amended Drainage Plan and the Board herein conditions the grant on DEP's approval of an amendment to the drainage plan prior to the issuance of DOB permits for construction at the subject site; and

WHEREAS, the Board notes that pursuant to GCL § 35, it may authorize construction within the bed of the mapped street subject to reasonable requirements; and

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

THE RESOLUTION:

WHEREAS, the decision of the Queens Borough Commissioner, dated November 10, 2016, acting on Department of Buildings (“DOB”) Application No. 421258203 reads in pertinent part:

The proposed street extension has been mapped for 10 years but the city has yet to acquire title and is not duly placed on the official map of the City of New York therefore:

A) No building permit can be issued pursuant to Section 35 of the General City Law;

B) The land within the mapped street is not yielding a fair return to the property owner; and

WHEREAS, this is an application to permit the construction of a four-story ten-family residential building partially within the bed of a mapped street, contrary to General City Law (“GCL”) § 35; and

WHEREAS, a public hearing was held on this application on January 9, 2018, after due notice by publication in *The City Record*, and then to decision on January 23, 2018; and

WHEREAS, Community Board 4, Queens recommends approval of this application; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the western side of 57th Road, approximately 200 feet southwest of that street’s intersection with Van Horn Street, in an R6B zoning district, in Queens; and

WHEREAS, the site has approximately 55 feet of frontage along 57th Avenue and a depth of 100 feet; and

WHEREAS, this application is part of a series of applications for waivers of GCL § 35 for Lots 1, 2, 102, 24, 22 and 21 on the subject tax block (BSA Cal. No. 2016-4348-A through 2016-4353-A); and

WHEREAS, the applicant originally proposed to construct six four-story, three-family attached residential buildings—one building on each of Lots 1, 2, 102, 24, 22 and 21—within the bed of Haspel Street, a street mapped, but unbuilt, to a width of 50 feet; and

WHEREAS, by letter dated January 30, 2017, the Fire Department accepted the buildings proposed on Lots 1, 2 and 102 without objection, provided that the City had no intent of acquiring Haspel Street from 57th Avenue to 57th Road for public use, but objected to the buildings proposed on Lots 22 and 24, noting that they do not meet the requirements for Fire Department Access; the Fire Department additionally requested that the building proposed on the subject site be fully sprinklered in accordance with Chapter 9 of the New York City Building Code; and

WHEREAS, in response, the applicant merged Lots 22 and 24 with the subject lot to provide sufficient Fire Department access to the building proposed on that lot and withdrew the application for Lots 22 and 24 (BSA Cal. Nos. 2016-4352-A and 2016-4351-A, respectively); and

WHEREAS, the applicant provided a revised New York City Department of Finance Application for Mergers or Apportionments reapportioning former Lots 1, 101, 21 and 22 into, *inter alia*, Lots 1, 2, 102 and 21 and those lots were issued, effective July 19, 2017, though the New York City Tax Map has not yet been updated to reflect this reapportionment; and

WHEREAS, accordingly, the applicant now proposes three four-story, three-family attached residential buildings—one on each of Lots 1, 2 and 102—and a four-story ten-family residential building on the subject site—within the bed of Haspel Street; and

MINUTES

WHEREAS, the subject site is also part of a larger development of eight attached buildings, four of which are not located within the bed of Haspel Street and, thus, do not require the relief requested herein; and

WHEREAS, the applicant represents that the proposed buildings will comply with all bulk regulations applicable in the underlying zoning districts; and

WHEREAS, at hearing, a Commissioner questioned the layout of the duplex residential units and whether they belied an attempt to circumvent requirements relating to parking or the provision of elevators, but acknowledged that the interior layouts of the proposed buildings are not before the Board in this application, which is concerned with the locating of buildings within the bed of mapped streets; accordingly, the Board makes no findings as to the compliance of the proposed buildings with the Zoning Resolution, Building Code, Administrative Code, or any other relevant laws under DOB's jurisdiction and relies on DOB for such review and enforcement; and

WHEREAS, by letter dated January 4, 2017, the New York City Department of Transportation ("DOT") states that, according to the Queens Borough President's Topographical Bureau, Haspel Street between 57th Avenue and 57th Road is mapped at 50 feet, the City does not have title, that the subject lot is not presently included in DOT's Capital Improvement Program, though this does not preclude a change in the program in the future, and that DOT does not have any objections to the proposed plan under the condition that the Fire Department does not have any objection to the proposed plan; and

WHEREAS, by letter dated September 12, 2017, the Fire Department requests that all proposed residences be fully sprinklered and that a hydrant be located within 250 feet of the main front entrance of each building; and

WHEREAS, in response, the applicant submitted revised plans indicating the location of hydrants and that all of the proposed buildings will be sprinklered; and

WHEREAS, by communication dated January 22, 2018, the Fire Department states that, in light of the submission of a revised site plan illustrating that a Fire Department aerial ladder could reach the four-story building proposed for the subject site, it has no further objections to the proposal; and

WHEREAS, by letter dated September 11, 2017, the New York City Department of Environmental Protection ("DEP") states that, based on DEP maps, there are no existing sewers or water mains at the subject location, that the Amended Drainage Plan for the Sewerage District No: 25 (20) & 27 (11), dated January 10, 1930, for the subject site shows a 12 inch diameter combined sewer in the bed of Haspel Street between 57th Avenue and 57th Road and requested that the applicant provide a 35 foot wide sewer corridor in the bed of Haspel Street between 57th Avenue and 57th Road for the installation, maintenance and/or reconstruction of the future sewer or amend the drainage plan; and

WHEREAS, the applicant opted to work with DEP to amend the Amended Drainage Plan and the Board herein conditions the grant on DEP's approval of an amendment to

the drainage plan prior to the issuance of DOB permits for construction at the subject site; and

WHEREAS, the Board notes that pursuant to GCL § 35, it may authorize construction within the bed of the mapped street subject to reasonable requirements; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved, that the Board modifies the decision of the Queens Borough Commissioner, dated November 10, 2016, acting on Department of Buildings Application No. 421258203, by the power vested in it by Section 35 of the General City Law to grant this appeal, limited to the decisions noted above *on condition* that construction will substantially conform to the drawings filed with the application marked "Received January 9, 2018" – One (1) sheet; and *on further condition*:

THAT DEP shall approve an amended drainage plan for Haspel Street between 57th Avenue and 57th Road prior to the issuance of building permits by DOB;

THAT the building shall be fully sprinklered;

THAT a hydrant shall be located within 250 feet of the main front entrance of the building;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by January 23, 2022;

THAT DOB shall review the plans associated with the Board's approval for compliance with all relevant provisions of the Zoning Resolution;

THAT to the extent required by DOB and/or DOT, a Builder's Pavement Plan shall be filed and approved prior to the issuance of the Certificate of Occupancy;

THAT a Certificate of Occupancy be obtained within four (4) years, by January 23, 2022;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 23, 2018.

2017-264-BZY

APPLICANT – Kenneth K. Lowenstein, for SLC2 Holdings, LLC, owner; Pestana New York East Side 39 LLC, lessee.

SUBJECT – Application September 7, 2017 – Extension of time (§11-331) to complete construction of a minor development commenced under the prior R6 zoning district. C5-3 (Special Midtown District).

MINUTES

PREMISES AFFECTED – 23 East 39th Street, north side of East 39th Street, Block 869, Lot 25, Borough of Manhattan.

COMMUNITY BOARD #5M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

THE RESOLUTION –

WHEREAS, this is an application under ZR § 11-331 to renew building permits and authorize an extension of time to permit, in a C5-3 zoning district and the East Midtown Subdistrict of the Special Midtown District, the completion of required foundations; and

WHEREAS, a public hearing was held on this application on January 9, 2018, after due notice by publication in *The City Record*, and then to decision on January 23, 2018; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the north side of East 39th Street, between Madison Avenue and Park Avenue, in a C5-3 zoning district and the East Midtown Subdistrict of the Special Midtown District, in Manhattan; and

WHEREAS, the subject site has approximately 25 feet of frontage along East 39th Street, 99 feet of depth, 2,369 square feet of lot area and is being developed with a 27-story, with cellar, hotel building; and

WHEREAS, in March 2017, the Department of Buildings (“DOB”) issued earthwork, foundation–earthwork, plumbing, standpipe-system, sprinkler-system, fence and new-building permits in conjunction with New Building Application No. 121192253 to allow the construction of a 27-story, with cellar, hotel building at the subject site; and

WHEREAS, effective August 9, 2017, pursuant to ZR § 81-621, a special permit is required to allow the development of a transient hotel in Use Group 5 within the newly established East Midtown Subdistrict; and

WHEREAS, the applicant states that, as a single building, the subject building constitutes a minor development under ZR § 11-31(c)(1)(i), which defines a minor development as “construction of any single *building* which will be *non-conforming* or *non-complying* under the provisions of any applicable amendment to this Resolution”; and

WHEREAS, the applicant states that the subject building permits automatically lapsed on August 9, 2017, because all work on foundations had not yet been completed prior to such effective date as required to continue construction as of right under ZR § 11-331; and

WHEREAS, within 30 days of the lapse of the subject building permit, the applicant filed this application; and

WHEREAS, the applicant represents that, as of August 1, 2017, all excavation work as well as shoring and wood

lagging had been completed; and

WHEREAS, the applicant submits that, by August 9, 2017, approximately 75 percent of work on foundation components, including steel reinforcing bars, framework laid in place to complete foundations and pouring and waterproofing concrete foundations, had been completed; and

WHEREAS, in support of this contention and in response to questions from the Board at hearing, the applicant submitted field reports, a construction narrative, affidavits, daily breakdowns of excavation and foundation work performed, photographs of construction progress and revised color-coded diagrams of work completed, in progress and yet to be started; and

WHEREAS, at hearing, the applicant clarified that, as stages of excavation were completed, foundation work was also undertaken from rear to front as indicated in photographs showing working being done concurrently; and

WHEREAS, in response to questions from the Board, the applicant represents that all work and site conditions have been undertaken in accordance with the New York City Construction Codes, the Zoning Resolution and other applicable laws; and

WHEREAS, the Board finds that the evidence in the record supports that, on the date the subject building permits lapsed, excavation had been completed and substantial progress made on foundations and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *renew* New Building Permit No. 121192253-01-NB, as well as all related permits for various work types, either already issued or necessary to complete construction, and *grants* an extension of time to permit the completion of the required foundations for one term of six (6) months from the date of this resolution, expiring August 7, 2018.

Adopted by the Board of Standards and Appeals, January 23, 2018.

SUBJECT – Application December 30, 2014 – Special Permit (§73-622) for the enlargement of an existing single family residence contrary to floor area and open space ratio (ZR 23-141), side yards (ZR 23-461) and less than the required rear yard (ZR 23-47). R2 & R4/C2-2 zoning district.

PREMISES AFFECTED – 2912 Avenue N, Block 7683, Lot 45, Borough of Brooklyn.

COMMUNITY BOARD #14BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated December 9, 2014, acting on Alteration Application No. 320864276, reads in pertinent part:

1. Proposed plans are contrary to Z.R. 23-141 in that the proposed floor area ratio exceeds the maximum permitted.
2. Proposed plans are contrary to Z.R. 23-141 in that the proposed open space ratio is less

than the minimum required.

3. Proposed plans are contrary to Z.R. 23-461 in that the proposed side yard is less than the minimum required; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03 to permit, partially in an R6 zoning district and partially in an R4 (C2-2) zoning district, the enlargement of a single-family residence that does not comply with zoning regulations for floor area ratio (“FAR”), open space and side yards, contrary to ZR §§ 23-141 and 23-461; and

WHEREAS, a public hearing was held on this application on January 9, 2018, after due notice by publication in *The City Record*, and then to decision on January 23, 2018; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the south side of Avenue N, between East 29th Street and Nostrand Avenue, partially in an R6 zoning district and partially in an R4 (C2-2) zoning district, in Brooklyn; and

WHEREAS, the site has approximately 35 feet of frontage along Avenue N, 100 feet of depth, 3,500 square feet of lot area and is occupied by an existing three-story, with cellar, single-family residence; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single-* or *two-family detached* or *semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-*

MINUTES

compliance, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins. Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, inter alia, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge existing detached two-family residences, as contemplated in ZR § 73-622; and

WHEREAS, the applicant originally proposed to enlarge the existing residence from 2,226 square feet of floor area (0.64 FAR) to 2,707 square feet of floor area (0.99 FAR), decrease open space from 99 percent to 56 percent, decrease the rear yard from 32'-5" to 24'-11", maintain the existing side yards with depths of 6'-11" and 0'-5" and increase the building height from 32 feet to 35 feet; and

WHEREAS, in response to questions from the Board,

the applicant modified the proposed building to decrease the height of the proposed building from 35 feet to 34 feet and increased the proposed rear yard from 24'-11" to 31'-5"; and

WHEREAS, the applicant proposes to enlarge the existing residence from 2,226 square feet of floor area (0.64 FAR) to 3,523 square feet of floor area (1.00 FAR), decrease open space from 99 percent to 56 percent, decrease the rear yard from 32'-5" to 31'-5" and maintain existing side yards with depths of 6'-11" and 0'-5"; and

WHEREAS, the applicant states that, at the subject site, floor area may not exceed 1,750 square feet (0.5 FAR) under ZR § 23-141, open space must be at least 1.50 under ZR § 23-141, a rear yard must have a minimum depth of 30 feet under ZR § 23-47 and side yards must have depths of 5'-0" under ZR § 23-461 and 6'-4" under ZR § 23-48; and

WHEREAS, the applicant represents that the proposed building as enlarged is consistent with the built character of the neighborhood; and

WHEREAS, in support of this contention, the applicant surveyed single- and two-family residences in the surrounding area, finding that 24 have 0.90 FAR or above, of which 20 have 1.0 FAR or above; and

WHEREAS, the applicant also submitted a study of rear yards and open space on the subject block as well as a photographic streetscape montage and a photographic neighborhood study demonstrating that the proposed building will fit in with the built conditions of the surrounding area; and

WHEREAS, the applicant provided a historic map from the 1930s indicating that the proposed side yards constitute lawful non-compliances; and

WHEREAS, in response to questions from the Board, the applicant revised the drawings to reflect that the proposed construction will sufficiently maintain the existing building on the second floor and to clarify that, in the attic, the floor layout and maximum floor area as well as the dormer shall be as reviewed and approved by DOB; and

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, the Board finds that the proposed building as enlarged will not alter the essential character of the neighborhood or district in which the subject building is located, nor impair the future use or development of the surrounding area; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed bulk modifications is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

MINUTES

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 15BSA135K, dated December 30, 2014; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-622 and 73-03 to *permit*, partially in an R6 zoning district and partially in an R4 (C2-2) zoning district, the enlargement of a single-family residence that does not comply with zoning regulations for floor area ratio (“FAR”), open space, and side yards, contrary to ZR §§ 23-141 and 23-461; *on condition* that all work and site conditions shall substantially conform to drawings filed with this application marked “Received January 18, 2018”-Twelve (12) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: floor area shall be limited to 3,523 square feet (1.00 FAR); open space shall be at least 56 percent; and side yards shall have minimum depths of 6’-11” and 0’-5”, as illustrated on the Board-approved plans;

THAT removal of existing joists or perimeter walls in excess of that shown on the Board-approved plans shall void the special permit;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by January 23, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 23, 2018.

2017-215-BZ

CEQR #17-BSA-148M

APPLICANT – Eric Palatnik, P.C., for 900 Third Avenue L.P., owner; MJM Boxing 3 LLC, lessee.

SUBJECT – Application December 12, 2017 – Special Permit (§73-36) to permit the legalization of a physical culture establishment (*Title Boxing Club*) located on a portion of the first and cellar floors of an existing thirty-six (36) story commercial use building contrary to ZR §32-10. C6-6 Special Midtown District.

PREMISES AFFECTED – 900 3rd Avenue, Block 1309, Lot 32, Borough of Manhattan.

COMMUNITY BOARD #4M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated May 26, 2017, acting on Alteration Application No. 121288837, reads in pertinent part:

“Proposed use . . . as a Physical Culture Establishment (PCE) is not permitted as of right . . . and is contrary to ZR Section 32-10”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, in a C6-6 zoning district and the Special Midtown District, the legalization of a physical culture establishment (“PCE”) on the first floor and cellar of the subject building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on December 12, 2017, after due notice by publication in *The City Record*, and then to decision on January 23, 2018; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 6, Manhattan, recommends approval of this application on condition that the term be limited to five (5) years, as is the Community Board’s standing policy to allow more frequent feedback from the surrounding community; and

WHEREAS, the subject site is located on the northwest corner of Third Avenue and East 54th Street, in a C6-6 zoning district and the Special Midtown District, in Manhattan; and

WHEREAS, the site has approximately 151 feet of frontage along Third Avenue, 120 feet of frontage along East 54th Street, 16,905 square feet of lot area and is occupied by a 36-story, with cellar and sub-cellar, commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term

MINUTES

not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, in response to the recommendation of Community Board 6 as to feedback from the surrounding community, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse

effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE occupies 5,274 square feet of floor space as follows: 48 square feet of floor area on the first floor, including an entry vestibule, and 4,943 square feet of floor space in the cellar, used for check-in, retail space, a consultation circle, bathrooms, boxing ring, free weights, heavy bag stand, storage room, closet and electrical room; and

WHEREAS, the PCE has been in operation as Title Boxing Club since May 15, 2017, with the following hours of operation: Monday, Wednesday and Friday, 6:30 a.m. to 9:15 p.m., Tuesday and Thursday, 5:30 a.m. to 9:15 p.m., and Saturday and Sunday, 9:30 a.m. to 1:30 p.m.; and

WHEREAS, the applicant represents that the PCE use is consistent with the vibrant commercial area in which it is located, that the PCE use is fully contained within the envelope of an existing building and that the subject site has pedestrian access to rapid transit facilities within the vicinity; and

WHEREAS, in addition, the applicant submits that sound attenuation measures, including suspended acoustic ceiling tiles, suspended gypsum board ceiling, 1"-thick rubber mat flooring and unfinished concrete slab, have been provided within the space so as to not disturb other tenants in the building; and

WHEREAS, the Board finds that the PCE use is so located as not to impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE provides boxing-based workouts designed to facility fat burning, cardiovascular health, muscle toning and wellness; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant submitted evidence that the PCE is fully sprinklered and that an approved fire alarm—including area smoke detectors, manual pull stations at each required exist, local audible and visual alarms and connection to an FDNY-approved central station—has been installed in the entire PCE space; and

WHEREAS, the Board finds that, under the conditions

MINUTES

and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17BSA148M, dated June 16, 2017 and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-36 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion; and

WHEREAS, in response to the recommendation of Community Board 6 to reduce the term of the special permit, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated without a special permit.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 *to permit*, in a C6-6 zoning district and the Special Midtown District, the legalization of a physical culture establishment, contrary to ZR § 32-10; *on condition* that all work, site conditions and operation shall substantially conform to drawings filed with this application marked “Received January 3, 2018”-Five (5) sheets; and *on further condition*:

THAT this special permit shall expire May 15, 2027;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum 3’-0” wide exit pathways shall be provided leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be maintained in the entire PCE space and the PCE shall remain fully sprinklered, as indicated on the Board-approved plans;

THAT sound attenuation shall be installed in the PCE as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by January 23, 2019;

THAT this approval is limited to the relief granted by

the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 23, 2018.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and an extension of term of a variance, previously granted by the Board, which expired March 23, 2016; and

WHEREAS, a public hearing was held on this application on November 21, 2017, after due notice by publication in *The City Record*, and then to decision on January 30, 2018; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 11, Queens, recommends approval of this application; and

WHEREAS, the subject site is located on the southwest corner of Horace Harding Expressway and Marathon Parkway, in an R3-2 (C1-2) zoning district, in Queens; and

WHEREAS, the subject site has approximately 142 feet of frontage along Horace Harding Expressway, 70 feet of frontage along Marathon Parkway, 13,900 square feet of lot area and is occupied by a one-story automotive service station; and

WHEREAS, on June 24, 1930, under the subject calendar number, the Board dismissed an application to permit the construction and maintenance of a garage for the storage of more than five motor vehicles and the installation of a gasoline service station for lack of prosecution; and

WHEREAS, on January 10, 1950, under the subject calendar number, the Board voted to reopen the application to permit the construction and maintenance of a gasoline service station, auto washing, lubrication, office and sale of auto accessories, with curb cuts on Horace Harding Boulevard, more than 25 feet from Marathon Parkway; and

WHEREAS, the Board has exercised jurisdiction over the subject site since June 13, 1950, when, under the subject calendar number, the Board granted a variance to permit the use of a portion of the subject site to be occupied as a gasoline service station for a term of fifteen (15) years, expiring June 13, 1965, on condition that all buildings and uses on such portion of the plot shall be removed and the plot shall be leveled substantially to the grade of Horace Harding Boulevard and shall be arranged as indicated on such plans and of the design as shown; that the accessory building shall be constructed of the materials as indicated and in all respects shall comply with the requirements of the Building Code that the boiler room shall be separated from the balance of the building by fireproof construction and shall be enterable only from the rear except that the ceiling of the boiler room may be fire retarded; that pumps shall not be erected with pump base not nearer than 10 feet to the building line; that pumps shall be of the low type, as approved by the Board; that curb cuts shall be restricted to three curb cuts from Horace Harding Boulevard, two 30 feet in width and one 20 feet in width and no curb cut to be nearer than five feet from the street building line of Marathon Parkway or the side lot line to the west as prolonged and one curb to Marathon Parkway not over 20 feet in width, to be constructed within 25 feet of the street building line; that at the rear of the subject site a retaining wall shall be maintained continuously across the rear of the property and to an average total height of not less than 5’-6”’; that planting areas shall be maintained with suitable planting, protected with curbing as indicated; that the number of gasoline storage tanks shall not exceed six 550-gallon tanks; that the balance of the subject site shall be paved with concrete or bituminous paving; that the sidewalks and curbing shall be constructed to the satisfaction of the Borough President; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that signs shall be restricted to a permanent sign attached to the façade of the accessory building and to the illuminated globes of the pumps, excluding all roof signs and all temporary signs but permitting the construction within the building line of a post standard for supporting a sign, which may be illuminated, and permitting such sign to extend beyond the building line for a distance of not more than 4 feet; and that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto, other than as modified by the Board under BSA Calendar Number 25-50-A; and

WHEREAS, on June 13, 1950, under BSA Calendar Number 25-50-A, the Board granted an appeal under General City Law § 35 to permit the portion of Marathon

MINUTES

Parkway as proposed to be widened to be occupied in conjunction with the balance of the plot as a gasoline station on condition that the portion to be widened shall be consolidated with the sidewalk along the subject site and shall not be occupied with any equipment and that in the event of the property within the proposed widening of Marathon Parkway being acquired by the City for street purposes that the award in condemnation shall be in an amount as determined by the court; and

WHEREAS, on March 23, 1954, under the subject calendar number, the Board amended a condition of the variance so that the number of gasoline storage tanks not exceed ten (10) 550 gallon tanks and that in all other respects the resolution be complied with; and

WHEREAS, on October 17, 1961, under the subject calendar number, the Board amended the variance to permit the enlargement in area and the construction of an extension to the existing gasoline service station building and uses to include the parking of more than five motor vehicles and minor repairs with hand tools for a term of fifteen (15) years, expiring October 17, 1976, on condition that any retaining walls required in connection with this work shall be constructed by the owner at his expense to the satisfaction of the Borough Superintendents and that a certificate of occupancy be obtained; and

WHEREAS, on October 30, 1962, under the subject calendar number, the Board granted an extension of time to complete construction and to obtain a certificate of occupancy, expiring October 30, 1963; and

WHEREAS, on September 15, 1970, under the subject calendar number, the Board amended the variance to permit the installation of one new 4,000-gallon approved type gasoline tank and the addition of one new pump to the two existing pump islands; and

WHEREAS, on March 23, 1976, under the subject calendar number, the Board granted an extension of term of ten (10) years, expiring October 17, 1986, on condition that a new certificate of occupancy be obtained; and

WHEREAS, on November 9, 1976, under the subject calendar number, the Board amended the variance so that Lots 658 and 659 be omitted from the description of the subject site and that the variance be limited to Lot 660 (formerly Lots 658, 659 and 660); and

WHEREAS, on December 1, 1987, under the subject calendar number, the Board granted an extension of term of ten (10) years, expiring March 23, 1996, on condition that there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic and that a new certificate of occupancy be obtained within one (1) year, by December 1, 1988; and

WHEREAS, on March 13, 1990, under the subject calendar number, the Board amended the variance to permit changing the design and arrangement of the existing automotive service station, constructing a new metal canopy over four (4) new gasoline pump islands with new "MPD" self-serve pumps, demolishing the existing building and to construct a new 8' x 16' kiosk and eliminating all uses other

than gasoline service station on condition that there be two (2) attendants on the subject site available from 7:00 a.m. to 6:00 p.m., to provide full service as requested, that the landscaping be maintained and replaced when necessary, that all signs comply with the C1 zoning district regulations and that there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic; and

WHEREAS, on May 9, 1995, under the subject calendar number, the Board amended the variance to permit the construction of a one-story accessory building to be occupied as a lubritorium, minor automobile repair establishment (hand tools only), with occasional (hand) car washing, office and sales/storage of auto accessories on condition that new fencing be installed and maintained in accordance with Board-approved plans, that concrete bumpers be provided in accordance with Board-approved plans and that a certificate of occupancy be obtained within one year, by May 9, 1996; and

WHEREAS, on May 27, 1998, under the subject calendar number, the Board granted an extension of term of ten (10) years, expiring March 23, 2006, on condition that a new certificate of occupancy be obtained within one (1) year, by May 27, 1999; and

WHEREAS, on March 14, 2000, under the subject calendar number, the Board granted an extension of time to obtain a certificate of occupancy of thirty-six (36) months, expiring May 27, 2001; and

WHEREAS, on August 8, 2006, under the subject calendar number, the Board granted an extension of term of ten (10) years, expiring March 23, 2016, on condition that the term appear on the certificate of occupancy and that DOB review all signage for compliance with C1-1 zoning district regulations; and

WHEREAS, the term of the variance having expired, the applicant now seeks an extension of term and a waiver of the Board's Rules of Practice and Procedure to permit the late filing of this application; and

WHEREAS, at hearing, the Board questioned the subject site's compliance with fencing, landscaping, concrete bumpers and sign regulations; and

WHEREAS, in response, the applicant submitted evidence demonstrating complying landscaping, fencing and walls, bumpers and dispensing islands; and

WHEREAS, the Board finds that the evidence in the record demonstrates that an extension of term and a waiver of the Board's Rules of Practice and Procedure are appropriate with certain conditions as set forth below and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *waive* the Rules of Practice and Procedure and *reopen* and *amend* the resolution dated June 13, 1950, as amended through August 8, 2006, so that as amended this portion of the resolution shall read: "*to permit* an extension of term for ten (10) years, expiring March 23, 2026; *on condition* that all work and site conditions shall

MINUTES

substantially conform to plans filed with this application marked 'Received January 12, 2018'-Six (6) sheets; and *on further condition:*

THAT the term of this grant shall be limited to ten (10) years, expiring March 23, 2026;

THAT landscaping, fencing and maintenance of the site shall be maintained and replaced when necessary, as illustrated on the Board-approved plans;

THAT there be two (2) attendants on the subject site available from 7:00 a.m. to 6:00 p.m., to provide full service as requested;

THAT all signs comply with the C1 zoning district regulations;

THAT there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic;

THAT concrete bumpers be provided in accordance with Board-approved plans;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by January 20, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted."

Adopted by the Board of Standards and Appeals, January 30, 2018.

APPLICANT – Rothkrug Rothkrug & Spector LLP, for 2009 Mermaid, LLC, owner.

SUBJECT – Application May 11, 2016 – Extension of Term of a previously approved Special Permit (§73-27) permitting the operation of funeral establishment (UG 7) which expired on May 12, 2014; Waiver of the Rules. C1-2/R5 zoning district.

PREMISES AFFECTED – 2009 Mermaid Avenue, Block 7018, Lot 42, Borough of Brooklyn.

COMMUNITY BOARD #13BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board's Rules of Practice and Procedure and an extension of term of a special permit, previously granted by the Board, which expired May 12, 2014; and

WHEREAS, a public hearing was held on this application on September 20, 2016, after due notice by publication in *The City Record*, with a continued hearing on October 17, 2017, and then to decision on January 30, 2018; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown, former Vice-Chair Hinkson and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 13, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the north side of Mermaid Avenue between West 20th Street and West 21st Street, in an R5 (C1-2) zoning district, in Brooklyn; and

WHEREAS, the subject site 1 has approximately 178 feet of frontage along Mermaid Avenue, 130 feet of frontage along West 20th Street, 35 feet of frontage along West 21st Street, 6,503 square feet of lot area and is occupied by a one-story commercial building; and

WHEREAS, under the subject calendar number, the Board previously denied applications to permit a proposed funeral establishment on July 16, 2002, and December 9, 2003; and

WHEREAS, pursuant to an order by the Supreme Court of the State of New York, Index No. 123/04, the Board has exercised jurisdiction over the subject site since May 12, 2004, when, under the subject calendar number, the Board granted a special permit to allow the construction of a one-story funeral establishment in Use Group 7 for a term of ten (10) years, expiring May 12, 2014, on condition that adequate landscaping and screening be installed to buffer the funeral home from any adjacent residential uses and that the above conditions appear on the certificate of occupancy; and

WHEREAS, the term having expired, the applicant now seeks a waiver of the Board's Rules of Practice and Procedure and an extension of term; and

WHEREAS, in response to questions from the Board, the applicant revised the drawings to reflect numbered parking spaces, dimension the access lane, note that any new signage will comply with regulations applicable to C1 zoning districts and designate the 6-foot-high decorative

1 The applicant proposes to subdivide tentative Lot 54—located at the northeast corner of Mermaid Avenue and West 21st Street, with 20 feet of frontage along Mermaid Avenue, 85 feet of frontage along West 21st Street and 1,700 square feet of lot area—from the subject zoning lot. The Board has no objection to such zoning-lot subdivision so long as the Department of Buildings ensures that all resulting zoning lots and all buildings thereon comply with all applicable provisions of the Zoning Resolution, Building Code and other laws, rules and regulations.

MINUTES

fence screening adjacent uses; and

WHEREAS, the applicant also submitted evidence that landscaping has been maintained with evergreen planting and provided further information regarding street trees; and

WHEREAS, the applicant has satisfactorily demonstrated compliance with the conditions of the previous term, and the evidence in the record indicates that the circumstances warranting the original grant still obtain; and

WHEREAS, the Board finds that the requested waiver and ten (10) year extension of term are appropriate, with the conditions set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *waive* the Rules of Practice and Procedure and *reopen* and *amend* the resolution, dated May 12, 2004, so that as amended this portion of the resolution shall read: “to *permit* an extension of term for ten (10) years, expiring May 12, 2024; *on condition* that all work and site conditions shall conform to drawings filed with this application marked ‘Received January 29, 2018’-Five (5) sheets; and *on further condition*:

THAT the term of this grant shall be for ten (10) years, expiring May 12, 2024;

THAT adequate landscaping and screening shall be installed to buffer the funeral home from any adjacent residential uses;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by January 30, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, January 30, 2018.

46-10-BZ

APPLICANT – Eric Palatnik, P.C., for 1401 Bay LLC, owner.

SUBJECT – Application November 5, 2015– Extension of Time to Complete Construction of an offsite parking lot to accommodate the required parking, which expires, November 15, 2015, located within a C4-2 zoning district. PREMISES AFFECTED – 1401 Sheepshead Bay Road, Block 7459, Lot 1, Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Application withdrawn.

THE VOTE TO WITHDRAW –

Affirmative: Chair Perlmutter, Vice Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for an extension of time to complete construction and obtain a certificate of occupancy pursuant to a previously granted special permit, which expired November 15, 2015; and

WHEREAS, a public hearing was held on this application on June 6, 2017, after due notice by publication in *The City Record*, with a continued hearing on August 8, 2017, and then to decision on January 30, 2018; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is a triangular corner lot bound by Sheepshead Bay Road to the south, East 14th Street to the west and Avenue Z to the north, in a C4-2 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 144 feet of frontage along Sheepshead Bay Road, 13 feet of frontage along East 14th Street and 125 feet of frontage along Avenue Z; and

WHEREAS, the Board has exercised jurisdiction over the subject site since November 15, 2011, when, under the subject calendar number, the Board granted a special permit, pursuant to ZR §§ 73-44 and 73-03, to permit the reduction in the required number of accessory parking spaces for an existing five-story plus cellar mixed-use residential, commercial and community facility building from 77 to 53, contrary to ZR § 36-21, on condition that, *inter alia*, there be no change in the operation of the site without prior review and approval by the Board; a minimum of eight parking spaces be provide in the accessory parking garage in the subject building; at least 45 parking spaces be provided in an accessory parking lot located at 2554 East 16th Street, Brooklyn and that all conditions of the grant appear on the certificate of occupancy for the subject site; and

WHEREAS, pursuant to ZR § 73-70, a special permit for a modification of bulk regulations automatically lapses if substantial construction in accordance with plans for which such permit was granted has not been completed within four (4) years from the date of granting such permit by the Board; and

WHEREAS, accordingly, substantial construction in connection with the special permit was required to have completed by November 15, 2015; and

WHEREAS, the applicant asserts that, while construction on the five-story mixed-use building on the subject site was completed prior to the Board’s grant, the accessory parking lot located at 2554 East 16th Street has not yet been constructed and no new certificate of occupancy has been obtained for the subject site indicating the Board’s grant; and

WHEREAS, accordingly, the applicant seeks the subject relief; and

MINUTES

WHEREAS, by letter dated August 6, 2017, the applicant requested withdrawal of the application; and

WHEREAS, at hearing on January 30, 2018, the applicant stated that all of the parking spaces required for the existing five-story mixed-use building located at the subject site will be provided on-site and at 2554 East 16th Street; and

WHEREAS, thus, the applicant requests withdrawal of this application because the site no longer requires relief from the accessory off-street parking requirements applicable in the underlying zoning district, including, but not limited to, ZR § 36-21; and

WHEREAS, pursuant to § 1-12.2 of the Board's Rules of Practice and Procedure, because the request for withdrawal was made prior to the close of the hearing on this application, the Board may permit withdrawal of the application without prejudice.

Therefore, it is Resolved, that the Board of Standards and Appeals accepts the withdrawal of this application without prejudice and the surrender of the special permit.

Adopted by the Board of Standards and Appeals, January 30, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated October 14, 2014, acting on DOB Application No. 520085185, reads in pertinent part:

1. ZR 51-00: Medical Office (Zoning Use Group-4) is not as-of-right use within existing R1-2 zoning district pursuant to ZR 22-14;
ZR 52-41: The proposed increase of required existing accessory parking spaces for 16 cars in previous R3-1 zoning district, per C of O #078925 (dated 08/07/1992) . . . increases the degree of existing non-conformance;
2. GCL 35: The proposed private front roadway that is located within existing Widening Line, to connect access driveways into the property is contrary to GCL 35; and

WHEREAS, this is an application under ZR § 72-21 to permit, on a site located in an R1-2 zoning district, the addition of five (5) accessory off-street parking spaces to a Use Group 4 ambulatory diagnostic or treatment health care facility, contrary to ZR §§ 22-14 and 52-41 (BSA Cal. No. 224-14-BZ), and construction within the bed of a mapped street, contrary to General City Law (“GCL”) § 35 (BSA Cal. No. 225-14-A); and

WHEREAS, a public hearing was held on this application on April 4, 2017, after due notice by publication in *The City Record*, with continued hearings on July 25, 2017, August 8, 2017, and January 23, 2018, and then to decision on January 30, 2018; and

WHEREAS, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 1, Staten Island, recommends disapproval of this application on the bases that the area was rezoned in order to limit density in the area, particularly with regards to ambulatory diagnostic or treatment health care facilities, and the applicant has not shown that the proposal would be the only development possible to provide a reasonable return nor would this proposal be in keeping with the existing character or the intended future development of the area; and

WHEREAS, the Staten Island Borough President James S. Oddo submitted letters in opposition to the subject application, stating that the approval of this application will adversely affect the quality of life for nearby residents, create additional traffic congestion along Victory Boulevard and set a precedent that vested zoning lots need not be restricted by the Zoning Resolution provisions relating to non-conforming uses set forth in Article V, particularly, that a non-conforming use can be expanded to include new lot area that this presently conforming and complying with applicable zoning regulations; and

WHEREAS, New York City Councilmember Steven Matteo submitted letters in opposition to the subject application, stating that the proposal is out of character with the 2004 text change to the Zoning Resolution that rezoned

the subject site, among others, to an R1-2 zoning district, a rezoning intended to ensure that the area be forever populated with detached homes and removed ambulatory diagnostic or treatment health care facilities from the list of as-of-right uses; and

WHEREAS, New York City Councilmember Debi Rose also submitted a letter in opposition to the subject application, stating that the Zoning Resolution does not permit the conversion of a conforming lot to a non-conforming lot and that an approval in this case would allow the expansion of existing ambulatory diagnostic or treatment health care facilities onto adjacent residential lots in order to provide parking; and

WHEREAS, the subject site is comprised of two former tax lots located on the south side of Victory Boulevard, between Little Clove Road and Slosson Avenue, in an R1-2 zoning district, in the Lower Density Growth Management Zone, on Staten Island; and

WHEREAS, the site has approximately 132 feet of frontage along Victory Boulevard, 45,394 square feet of lot area and is occupied by a one-story Use Group 4 ambulatory diagnostic or treatment health care facility (the “Health Care Facility”) with 16 accessory off-street parking spaces and a one-and-a-half story residential building; and

WHEREAS, the Health Care Facility is a legal non-conforming use, developed at the site as-of-right in 1982 when the subject site was an R3-1 zoning district and Certificate of Occupancy No. 078925 was issued for the site on August 7, 1992, for a one-story plus cellar Use Group 4 medical office with required accessory parking for 16 cars; and

WHEREAS, the site was most recently two separate tax lots—former lot 80, a flag lot with approximately 50 feet of frontage along Victory Boulevard (the “Flagpole Portion”), and former lot 81, a rectangular lot with approximately 82 feet of frontage along Victory Boulevard and a depth of 225 feet (the “Regular Portion”); and

WHEREAS, the applicant originally proposed to expand the Health Care Facility, located on the Regular Portion, demolish the existing one-and-a-half story residential building on the Flagpole Portion, and redevelop the Flagpole Portion with 28 off-street parking spaces accessory to the Health Care Facility; and

WHEREAS, the applicant asserts that the existing 16 parking spaces are inadequate for the Health Care Facility’s needs and that, was the Health Care Facility built today, subsequent to amendments to community facility bulk and use regulations effective as of 2004, the floor space in the cellar would be included in the calculation for required parking and 34 parking spaces would be required¹; and

WHEREAS, in response to opposition, the applicant revised the application to redevelop the Flagpole Portion with a 30 foot wide residential driveway and two detached one-family residential buildings to maintain its residential

¹ These text amendments also prohibited medical offices from locating in R1 zoning districts as-of-right.

MINUTES

use and alter the parking layout of the Regular Portion to provide a one-way drive around the existing one-story Health Care Facility building and five additional accessory parking spaces for a total of 21 accessory parking spaces on the Regular Portion; and

WHEREAS, the Board notes that it is not waiving any regulations with regards to the two residential buildings proposed for the Flagpole Portion and that such buildings are subject to Department of Buildings' approval for compliance with, among other things, the Zoning Resolution; and

WHEREAS, the Board additionally notes that the two residential buildings may require a waiver of Section 36 of the General City Law but such relief was not included in the subject application and, thus, not considered or granted by the Board; and

WHEREAS, in connection with this application, the applicant proposes to reapportion the site into three tax lots—one for each of the buildings on the site—but maintain a single zoning lot; and

WHEREAS, the applicant states that, pursuant to ZR § 72-21, the depth and limited frontage of the Flagpole Portion are unique physical conditions that create a practical difficulty and unnecessary hardship in developing the site in conformance with the underlying district regulations; and

WHEREAS, specifically, the applicant asserts that the Flagpole Portion, with a depth of 340 feet measured from its front lot line to rear lot line, and concave shape that results in the “pole” section being at its most narrow in the middle of the lot, renders access throughout the site, particularly from the street to the rear “flag” section, difficult and the lack of additional street access from the rear of the site further exacerbates this condition; and

WHEREAS, in support of this contention, the applicant submitted a study of sites located within 800 feet of the subject site within an R1 or R2 zoning district (the “Study Area”) concluding that, the Flagpole Portion of the subject site is the deepest lot in the Study Area that is neither a corner lot nor a through lot (noting also that the depth of the subject block—at 450 feet—is exceptional as compared to other blocks within the Study Area), and that, of the ten other concave lots in the Study Area, five are corner lots or through lots with multiple street frontages; one is part of a planned subdivision development; three are currently developed with complying residential developments similar in size and shape to surrounding homes and, thus, comparatively, less burdened by their concave shape than the Flagpole Portion, and one is held in common ownership with an adjacent lot that alleviates any shape-based hardship as evidenced by the fact that both lots are currently developed with residences; and

WHEREAS, accordingly, the Board finds that the depth and concave shape of the Flag Portion of the subject site are unique physical conditions that create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, in satisfaction of the (b) finding, the

applicant submits that there is no reasonable possibility that a development in strict conformity with the Zoning Resolution will bring a reasonable return and, in support of that contention, submitted a financial analysis for as-of-right residential developments on the Flagpole Portion consisting of (1) three detached single-family residences, each with 1,092 square feet of floor area plus 546 square feet of floor space in a basement (the “Three Family Scenario”) and (2) two detached single-family residences, each having 2,630 square feet of floor areas and 1,330 square feet of floor space in a basement (the “Two Family Scenario”); and

WHEREAS, the financial analyses submitted with the application conclude that both the Three Family Scenario and the Two Family Scenario result in a loss (17.1 percent and 10.9 percent, respectively), but the Two Family Scenario results in a less of a financial loss and is, therefore, more feasible; and

WHEREAS, the analyses include the construction of a roadway along the “pole” section of the Flagpole Portion in order to provide access to the residences located at the rear (in the “flag” section) of the site from the Victory Boulevard frontage in each Scenario and that this cost, particularly in the case of the Three Family Scenario, prevents either Scenario from realizing a positive return; and

WHEREAS, nevertheless, the applicant states that by merging the Flagpole Portion and the Regular Portion, the Regular Portion can take advantage, in part, of the enlarged width of the zoning lot to improve vehicular circulation around and provide additional parking spaces accessory to the Health Care Facility and that rent for medical offices located on that portion of the site can be increased by a nominal amount (\$5 per square foot) to enable the site, as a whole, to realize a positive return; and

WHEREAS, upon review of the applicant's submissions, the Board finds that, in accordance with ZR § 72-21(b), due to the site's unique physical conditions, there is no reasonable possibility that a development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant states that the subject proposal will not substantially impair the appropriate use or development of adjacent properties and will not be detrimental to the public welfare in accordance with ZR § 72-21(c); specifically, the applicant submits that the additional parking provided on the Regular Portion will reduce traffic and parking congestion along Victory Boulevard, a new drop off and pick up zone in the front of the Health Care Facility will allow ambulettes to access the site without blocking street traffic; that the development complies with applicable landscaping, fencing and lighting provisions in the Zoning Resolution and, thus, will shield adjacent neighbors from noise and light emanating from the subject site; and that, in response to concerns from the Community Board regarding the storage of refuse on the site, new refuse containers enclosed by a 6 foot high opaque masonry wall will be located at the southeast corner of the lot; and

MINUTES

WHEREAS, the Board additionally notes that the applicant is providing a 4 foot high fence and landscaping along the proposed tax line separating the Regular Portion from the Flagpole Portion so as to prevent “creep” by the parking accessory to the Health Care Facility into the 30 foot wide driveway proposed to provide access from Victory Boulevard to the two one-family residences proposed on the Flagpole Portion and, further, that the plan submitted by the applicant in response to a Board inquiry regarding the safe and efficient management of parking at the site has been incorporated as a condition of this grant; and

WHEREAS, accordingly, the Board finds that the subject proposal will not alter the essential character of the neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant represents, and the Board finds, that the hardship claimed as grounds for the variance was not created by the owner or a predecessor in title in accordance with ZR § 72-21(d); and

WHEREAS, to the contrary, the inclusion of the Flagpole Portion in the subject zoning lot improves, in part, the development conditions for the Regular Portion of the subject site, providing additional lot area in which the Regular Portion can improve vehicular maneuverability and the layout of the parking spaces; and

WHEREAS, the applicant submits that the subject proposal is the minimum variance necessary to afford relief because it is the only scenario that provides a reasonable return; and

WHEREAS, the Board finds that the subject proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (“EAS”) CEQR No. 15BSA066R, received September 15, 2014; and

WHEREAS, the EAS documents that the project, as proposed, would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design; Natural Resources; Hazardous Materials; Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, no significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, with regards to the relief requested pursuant to GCL § 35 due to the proposed location of a private roadway within the bed of Victory Boulevard, by

letter dated November 17, 2016, the New York City Department of Transportation states that the improvement of Victory Boulevard between Slosson Avenue and Little Cove Road, which would involve a taking of a portion of former lot 81 is not presently included in the DOT’s Capital Improvement Program, though a change in the capital program is not precluded in the future; and

WHEREAS, by letter dated December 30, 2015, the New York City Department of Environmental Protection (“DEP”) states that there are existing 12 inch diameter and 20 inch diameter water mains in the bed of Victory Boulevard at the subject site and also an existing 8 inch diameter sanitary sewer in the bed of Victory Boulevard between Slosson Avenue and Little Cove Road and, based on its review of site plans, which did not show any structures above or below ground within the widening line, DEP has no objections to this application; and

WHEREAS, the applicant represents that the two single-family residences will be fully sprinklered; and

WHEREAS, the Board notes that pursuant to GCL § 35, it may authorize construction within the bed of the mapped street subject to reasonable requirements and, accordingly, determines that the applicant has submitted adequate evidence to warrant a waiver of GCL § 35 under certain conditions.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 to permit, on a site located in an R1-2 zoning district, the addition of five (5) accessory off-street parking spaces to a Use Group 4 ambulatory diagnostic or treatment health care facility, contrary to ZR §§ 22-14 and 52-41 (BSA Cal. No. 244-14-BZ), and, further, modifies the decision of the Department of Buildings, dated October 14, 2014, acting on Department of Buildings Application No. 520085185, by the power vested in it by Section 35 of the General City Law to grant this appeal (BSA Cal. No. 225-14-A), limited to the decisions noted above, permitting a proposed private front roadway within the bed of a mapped street, *on condition* that all work shall substantially conform to drawings filed with this application marked “Received January 26, 2018”- Six (6) sheets; and *on further condition:*

THAT a maximum of 21 parking spaces shall be permitted accessory to the UG 4 ambulatory diagnostic or treatment health care facility; and

THAT no parking for the UG 4 ambulatory diagnostic or treatment health care facility shall be permitted on the site other than in the 21 parking spaces indicated on the BSA-approved plans;

THAT fencing and landscaping shall be provided as indicated on the BSA-approved plans, repaired and/or replaced as necessary to maintain them in a first class condition;

MINUTES

THAT no curbing of fencing shall be permitted in the driveway proposed for former lot 80, specifically along the proposed tax lot line separating the tax lots for the two single-family residences, as stated on the BSA-approved plans;

THAT cross easements shall be recorded against and for the benefit of each of the tax lots proposed to be created, one for each of the two proposed single-family residences, to provide both tax lots with full access to the full width of the 30 foot wide residential driveway and street frontage, as stated on the BSA-approved plans;

THAT the two single-family residents proposed on former lot 80 shall comply with all applicable provisions of the Zoning Resolution and any other applicable laws and codes;

THAT no waiver of General City Law § 36 has been granted by this application;

THAT parking on the portion of the lot dedicated to the UG 4 ambulatory diagnostic or treatment health care facility shall comply with the following parking management plan:

1. 1534 Victory Boulevard site ingress shall occur at the easterly driveway only;
2. 1534 Victory Boulevard site egress shall occur at the westerly driveway only;
3. Site circulation shall be clockwise;
4. Ambulette/paratransit vehicles shall discharge and collect patients in the northerly driveway aisle, parallel to Victory Boulevard, where no parking shall be designated or permitted;
5. The Parking Operations Manager shall be on premises during business hours to foster efficient site maneuverability, including but not limited to: maintaining a clear driveway throat, reducing queuing and congestion, and prohibiting unnecessary reverse maneuvers;
6. During instances when all off-street parking spaces are occupied, the Parking Operations Manager shall temporarily indicate to drivers that the lot is full and to use available on-street parking; and
7. The Parking Operations Manager shall maintain adequate traffic control devices (e.g., pavement markings and signs) and inform ownership when replacement of the same is required;

THAT the parking operations manager shall actively prevent double parking in front of the UG 4 ambulatory diagnostic or healthcare facility;

THAT the residential buildings on the site shall be fully sprinklered;

THAT substantial construction with respect to the variance (BSA Cal. No. 224-14-BZ) shall be completed pursuant to ZR § 72-23 and all DOB and related agency application(s) filed in connection with the roadway proposed to be located in the bed of Victory Boulevard (BSA Cal. No.

225-14-A) shall be signed off by DOB and all other relevant agencies by January 30, 2022;

THAT certificates of occupancy for all buildings at the site shall be obtained within four (4) years;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 30, 2018.

2016-4181-BZ CEQR #16-BSA-116K

APPLICANT – Law Office of Lyra J. Altman, for Alber Bukai and Subhi Bukai, owners.

SUBJECT – Application May 2, 2016 – Special Permit (§73-622) for the enlargement and conversion of an existing two family dwelling to a single family dwelling, contrary to side yards (ZR 23-461) and less than the required rear yard (ZR 23-47). R5 zoning district.

PREMISES AFFECTED – 1981 East 14th Street, Block 7293, Lot 54, Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4
Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated April 1, 2016, acting on Alteration Application No. 321271413, reads in pertinent part:

1. Creates non-compliance with respect to the side yards by not meeting the minimum requirements of Section 23-461 of the Zoning Resolution.
2. Creates non-compliance with respect to the rear yard by not meeting the minimum requirements of Section 23-47 of the Zoning Resolution; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03 to *permit*, in an R5 zoning district, the enlargement of an existing detached residence that does not comply with zoning regulations for side yards and rear yards, contrary to ZR §§ 23-461 and 23-47; and

WHEREAS, a public hearing was held on April 25, 2017, after due notice by publication in *The City Record*,

MINUTES

with continued hearings on June 20, 2017, August 15, 2017, October 31, 2017, January 9, 2018, and January 23, 2018, and then to decision on January 30, 2018; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of East 14th Street, between Avenue S and Avenue T, in an R5 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 40 feet of frontage, 100 feet of depth, 4,000 square feet of lot area and is occupied by a three-story, with cellar, two-family detached residence; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single- or two-family detached or semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area

between the *building* that is being *enlarged* and the *side lot line*;

- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, inter alia, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge an existing detached residence, as contemplated in ZR § 73-622; and

WHEREAS, the applicant originally proposed to convert the two-family residence to a single-family detached residence and to enlarge the subject building by reducing the rear yard from 23'-2" to 20'-0", maintaining the existing side yards with depths of 2'-6" and 8' 1" increasing the floor area ratio ("FAR") from 0.59 (2,372 square feet of floor area) to 1.13 (4,890 square feet of floor area), decreasing open space from 70 percent to 51 percent and increasing the height of the proposed building from 36 feet to 40 feet; and

WHEREAS, in response to questions from the Board regarding the incursion of the enlarged building's rear yard and massing on the built character of the subject block and neighborhood, the applicant redesigned the proposed building to maintain the existing rear yard and to reduce the floor area and height while increasing open space; and

WHEREAS, the applicant also revised the drawings to clarify that the proposed building will be an enlargement of an existing building and submitted evidence of existing non-compliances; and

MINUTES

WHEREAS, the applicant proposes to enlarge the subject building by maintaining the existing side yards with depths of 2'6" and 8'1" and maintaining the existing the rear yard with a depth of 23'-2"; and

WHEREAS, the applicant represents that, at the subject site, side yards must have a minimum depth of 5 feet and 8 feet under ZR § 23-461 and rear yards must have a minimum depth of 30 feet under ZR § 23-47; and

WHEREAS, the applicant represents that the enlarged building proposed is consistent with the character of the neighborhood; and

WHEREAS, in support of this contention, the applicant surveyed properties in the surrounding area, finding that 10 properties have rear yards with depths less than 26 feet, eight of which have rear yards with depths less than 23'-3", and that the distances between most of the residences on the east side of East 14th Street are equal to or smaller than the existing conditions between the subject site and adjacent residences; and

WHEREAS, the applicant also submitted, among other evidence, a photographic streetscape illustrating that the proposed enlargement is in context with surrounding properties as well as a building-face width diagram, front yard diagram, streetscape study and lot coverage diagram; and

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, the Board finds that the proposed building as enlarged will not alter the essential character of the neighborhood or district in which the subject building is located, nor impair the future use or development of the surrounding area; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed bulk modifications is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 16BSA116K, dated May 2, 2016; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City

Environmental Quality Review and makes each and every one of the required findings under ZR §§73-622 and 73-03 to *permit*, in an R5 zoning district, the enlargement of an existing detached residence that does not comply with zoning regulations for side yards and rear yards, contrary to ZR §§23-461 and 23-47; *on condition* that all work and site conditions shall substantially conform to drawings filed with this application marked "Received December 21, 2017"-Fifteen (15) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: side yards shall have minimum depths of 2'-6" and 8'1", and the rear yard shall have a minimum depth of 23'2", as illustrated on the Board-approved plans;

THAT removal of existing joists or perimeter walls in excess of that shown on the Board-approved plans shall void the special permit;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by January 30, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable pro-visions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 30, 2018.

APPLICANT – Rothkrug Rothkrug & Spector LLP, for 305 East 61st Street Group LLC, owner; Aqua Ancient Baths LLC, lessee.

SUBJECT – Application July 11, 2017 – Special Permit (§73-36) to permit the operation of Physical Culture Establishment (*Aqua Ancient Baths*) in portions of the cellar, basement and first floor of an existing building contrary to ZR §32-10. C2-5/R8B zoning district.

PREMISES AFFECTED – 306 East 61st Street, Block 1436, Lot 5, Borough of Manhattan.

COMMUNITY BOARD #8M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated June 20, 2017, acting on

MINUTES

Alteration Application No. 122829591, reads in pertinent part:

“Proposed change of use to a physical culture establishment as defined by ZR 12-10 is contrary to ZR 32-10”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, in an R8B (C2-5) zoning district, the operation of a physical culture establishment (“PCE”) on portions of the cellar, basement and first floor of the subject building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on January 23, 2018, after due notice by publication in *The City Record*, and then to decision on January 30, 2018; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 8, Manhattan, recommends disapproval of this application without stating a reason for disapproval; and

WHEREAS, the subject site is located on the north side of East 61st Street, between Second Avenue and First Avenue, within an R8B (C2-5) zoning district, in Manhattan; and

WHEREAS, the site has approximately 50 feet of frontage along East 61st Street, 125 feet of depth, 6,208 square feet of lot area and is occupied by a 11-story, with cellar, mixed-use commercial and residential building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional

findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE will occupy 9,149 square feet of floor space as follows: 4,404 square feet of floor area in the basement, including a reception area with entrance, bath areas, massage areas and offices, 3,122 square feet of floor area on the first floor, used for bath and massage areas, changing rooms, a hot tub and floating areas, and 1,623 square feet of floor space in the cellar, including mechanical rooms and utility rooms for baths located on upper levels; and

WHEREAS, the PCE will operate as Aire Ancient Baths with the following hours of operation: 9:00 a.m. to 11:00 p.m., seven days per week; and

WHEREAS, the applicant represents that the PCE use is consistent with the dynamic mixed-use area in which it is located, that the PCE use is fully contained within the

MINUTES

envelope of an existing building and that ground-level commercial use is typical of the surrounding area; and

WHEREAS, the applicant submits that the PCE will provide relaxation services that will not impose on residents' quiet enjoyment of their homes within the subject building; and

WHEREAS, the Board finds that the PCE is so located as not to impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE will be a spa facility offering massages and baths of varying temperatures to patrons; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, in response to questions from the Board at hearing, the applicant provided additional information about a different PCE operated by Aire Ancient Baths at 88 Franklin Street, Manhattan, by special permit granted under BSA Calendar Number 27-11-BZ; and

WHEREAS, the applicant represents that the PCE will be fully sprinklered and that an approved fire alarm—including area smoke detectors, manual pull stations at each required exist, local audible and visual alarms and connection to an FDNY-approved central station—will be installed in the entire PCE space; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18BSA004M, dated July 11, 2017; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-36 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to *permit*, in an R8B (C2-5) zoning district, the operation of a physical culture establishment on portions of the cellar, basement and first floor of the subject building, contrary to ZR § 32-10; *on*

condition that all work, site conditions and operation shall substantially conform to drawings filed with this application marked "Received September 29, 2017"-Five (5) sheets; and *on further condition*:

THAT the term of this grant shall be for ten (10) years, expiring January 30, 2028;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages shall be performed only by New York State licensed massage professionals;

THAT minimum 3'-0" wide exit pathways shall be provided leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be installed in the entire PCE space and the PCE shall be fully sprinklered, as indicated on the Board-approved plans;

THAT sound attenuation shall be installed in the PCE as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by January 30, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 30, 2018.

*CORRECTION

This resolution adopted on October 17, 2017, under Calendar No. 218-03-BZ and printed in Volume 102, Bulletin Nos. 42-43, is hereby corrected to read as follows:

218-03-BZ

APPLICANT – Akerman, LLP, for 19-80 Steinway LLC, owner.

SUBJECT – Application December 17, 2017 – Amendment of a previously approved Variance (§72-21) which permitted a nine-story mixed use building with residential, commercial and community facility uses contrary to Z.R. §42-00, §23-141 and §23-631. The amendment seeks to permit a reduction in the number of accessory parking spaces provided in the existing building's accessory garage from 219 spaces to 135 spaces. M1-1 zoning district.

PREMISES AFFECTED – 19-73 38th Street, Block 811, Lot 1, Borough of Queens.

COMMUNITY BOARD #1Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative:0

Abstain: Commissioner Sheta.....1

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated November 28, 2016, acting on New Building Application No. 401444923, reads in pertinent part:

“Proposed reduction in the number of parking spaces is contrary to BSA Cal. No. 218-03-BZ. Refer to BSA for approval”; and

WHEREAS, this is an application under ZR §§ 72-01 and 72-22 for an amendment of a variance previously granted by the Board to permit a reduction in the number of accessory parking spaces in a mixed-use development from 219 parking spaces to 135 parking spaces; and

WHEREAS, a public hearing was held on this application on October 17, 2017, after due notice by publication in *The City Record*, and then to decision on that same date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 1, Queens, recommends approval of this application on condition that the variance be reopened should a future need for additional parking arise; and

WHEREAS, Council Member Costa Constantinides submitted testimony in support of this application, citing the expense of car lifts for the mixed-use development at the site, part of which includes 100-percent affordable housing; and

WHEREAS, the subject site is located on the north

side of 20th Avenue, between 38th Street and Steinway Street, in an M1-1 zoning district, in Queens; and

WHEREAS, the site has approximately 300 feet of frontage along 38th Street, 200 feet of frontage along 20th Avenue, 300 feet of frontage along Steinway Street, 60,016 square feet of lot area and is occupied by a four-story, with cellar, mixed-use building with residential, commercial and community-facility uses; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 12, 2005, when, under the subject calendar number, the Board granted a variance to permit the development of a four-story mixed-used building with residential, commercial and community-facility uses and accessory parking, contrary to use regulations, on condition that the bulk parameters of the proposed building be 1.65 Floor Area Ratio total (99,258 square feet maximum total floor area, maximum residential floor area of 76,986 square feet, maximum community facility floor area of 2,521 square feet) with a maximum building height of 53 feet, that there be a maximum of 84 units, that a maximum of 219 parking spaces be provided in the accessory parking levels and that the interior layout, parking layout and all exiting requirements be as reviewed and approved by the Department of Buildings; and

WHEREAS, by letter dated September 20, 2006, under the subject calendar number, the Board allowed minor modifications to the Board-approved plans, including elimination of the cellar parking area, addition of approximately 74 parking stackers on the first floor, reconfiguration of the residential entrance and lobby, elimination of one store, reconfiguration of the elevator and stair plans and reduction of the number of dwelling units from 84 to 66; and

WHEREAS, by letter dated February 20, 2007, under the subject calendar number, the Board allowed minor modifications to the Board-approved plans, including reconfiguration of the vehicle entrance to the center of the building to provide vehicle access to the residential lobby and the parking garage, reduction of the number of curb cuts from six to two, reconfiguration of the elevator, stairs and corridors in order to divide the floors into two wings, reconfiguration of the cellar space and redesign of the façade; and

WHEREAS, by letter dated April 18, 2008, under the subject calendar number, the Board allowed minor modifications to the Board-approved plans, including increasing the number of dwelling units from 66 to 72; and

WHEREAS, by letter dated June 4, 2013, under the subject calendar number, the Board allowed minor modifications to the Board-approved plans, including an increase back to the originally approved 84 dwelling units with total residential floor area of 76,986 square feet, as originally approved; and

WHEREAS, the applicant now seeks to amend the variance to permit a reduction in the number of accessory parking spaces in the mixed-use development from 219 parking spaces to 135 parking spaces; and

WHEREAS, at hearing, in response to the concerns of

MINUTES

Community Board 1, Queens, the Board noted that the proposal to reopen the variance should parking needs in the community change presents administrative difficulties with monitoring; however, the Board finds that a condition restricting the term of the requested parking reduction to the life of the regulatory agreement submitted with this application—with the income mix presented or equivalent parking spaces—is an appropriate safeguard to address community concerns about future parking conditions, which are speculative at this time; and

WHEREAS, on February 4, 2016, the New York City Office of Environmental Remediation issued a notice of completion for the subject site stating that remediation requirements have been achieved; and

WHEREAS, accordingly, the Board finds that the applicant has submitted adequate evidence in support of this application and that an amendment is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated July 12, 2005, so that as amended this portion of the resolution shall read: “to *permit* a reduction in the number of accessory parking spaces in the mixed-use development from 219 parking spaces to 135 parking spaces; *on condition* that all work and site conditions shall substantially conform to drawings filed with this application marked ‘Received August 24, 2017’-Ten (10) sheets; and *on further condition*:

THAT the bulk parameters of the proposed building shall be as follows: a total Floor Area Ratio of 1.65 (99,258 square feet maximum total floor area); maximum residential floor area of 76,986 square feet; maximum community-facility floor area of 2,517; maximum commercial floor area of 19,632 square feet; and a maximum building height of 53 feet;

THAT there shall be a maximum of 84 dwelling units;

THAT a minimum of 135 parking spaces shall be provided at the subject site;

THAT the term of this grant shall be limited to (i) the life of the regulatory agreement, dated March 21, 2014, and submitted with this application, (ii) the life of any subsequent amended, renewed, extended or new regulatory agreement that restricts the dwelling units to a substantially similar income mix or, in the alternative, at least the number of accessory residential parking spaces required pursuant to the parking regulations applicable in the zoning district closest to the subject site permitting as-of-right residential use shall be provided on site;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by October 17, 2021;

THAT the interior layout, parking layout and all exiting requirements shall be as reviewed and approved by the Department of Buildings;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, October 17, 2017.

***The resolution has been amended to correct the conditions only. Corrected in Bulletin No. 6, Vol. 103, dated February 9, 2018.**

Carlo Costanza, Executive Director

MINUTES

**SPECIAL HEARING
TUESDAY MORNING, FEBRUARY 6, 2018
10:00 A.M.**

Present: Chair Perlmutter, Vice-Chair Chanda,
Commissioner Ottley-Brown, and Commissioner Sheta.

SPECIAL ORDER CALENDAR

146-79-BZ

APPLICANT – Rothkrug Rothkrug & Spector LLP, for Estate of Georgia Koufakis, owner.

SUBJECT – Application October 24, 2014 – Extension of term of a previously variance and an Amendment/Waiver: to permit a change in use to automotive sales (UG9) from automotive repair and parts installation(UG 16). C2-2(R3-2) district.

PREMISES AFFECTED – 210-11 Jamaica Avenue aka 210-01/21 Jamaica Avenue, Block 10543, Lot 3, Borough of Queens.

COMMUNITY BOARD #13Q

ACTION OF THE BOARD – Application withdrawn.

THE VOTE TO WITHDRAW –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure, an amendment and an extension of term of a variance, previously granted by the Board, which expired June 19, 1999; and

WHEREAS, a public hearing was held on this application on April 25, 2017, after due notice by publication in *The City Record*, with a continued hearing on February 6, 2018, and then to decision on that same date; and

WHEREAS, by letter dated February 1, 2018, the applicant requests to withdraw this application, stating that an application to reinstate the previous grant will be required and that the applicant plans to file a new application accordingly.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *permit* the withdrawal of this application.

Adopted by the Board of Standards and Appeals, February 6, 2018.

186-08-BZ

APPLICANT – Petrus fortune, P.E., for Followers of Jesus Mennonite Church, owners.

SUBJECT – Application November 19, 2014 – Extension of Time to Complete Construction of a previously approved Special Permit (§73-19) permitting the legalization and enlargement of a school (*Followers of Jesus Mennonite Church & School*) in a former manufacturing building, contrary to ZR §42-10, which expired on June 8, 2014; Waiver of the Rules. M1-1 zoning district.

PREMISES AFFECTED – 3065 Atlantic Avenue, north west corner of Atlantic Avenue and Shepherd Avenue, Block 03957, Lot 45, Borough of Brooklyn.

COMMUNITY BOARD #5BK

ACTION OF THE BOARD – Application withdrawn.

THE VOTE TO WITHDRAW –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and an extension of time to complete construction, which expired June 8, 2014; and

WHEREAS, a public hearing was held on this application on October 20, 2015, after due notice by publication in *The City Record*, with continued hearings on November 17, 2015, January 12, 2016, and April 5, 2016, and then to decision on February 6, 2018; and

WHEREAS, by correspondence dated February 2, 2018, the applicant request withdrawal of this application, stating that, as of May 2017, the subject site is located in an R8A zoning district and that a special permit is no longer necessary to establish a school at the subject site.

Therefore it is Resolved, that that Board of Standards and Appeals does hereby *permit* the withdrawal of this application.

Adopted by the Board of Standards and Appeals, February 6, 2018.

248-08-BZ

APPLICANT – New York City Board of Standards
OWNER – Joseph Alexander/New Covenant Christian Church, Inc.

SUBJECT – Application October 6, 2008 – Dismissal for Lack of Prosecution -- Variance (§72-21) to permit the development of a religious-based school and church, ontrary to floor area (§24-11), rear yard (§24-36), and parking (§25-31) regulations. R5 zoning district.

PREMISES AFFECTED – 3550 Eastchester Road, eastern side of Eastchester Road between Hicks Street and Needham Avenue, Block 4726, Lot 7, 36, 38, Borough of Bronx.

COMMUNITY BOARD #12BX

ACTION OF THE BOARD – Application withdrawn.

THE VOTE TO WITHDRAW –

MINUTES

Affirmative: Chair Perlmutter, Vice-Chair Chanda,
Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

THE RESOLUTION –

WHEREAS, this is an application under ZR § 72-21 to permit, in an R5 zoning district, the development of community-facility building for use as a school and house of worship that does not comply with zoning regulations for floor area ratio, rear yards and parking, contrary to ZR §§ 24-11, 24-36 and 25-31; and

WHEREAS, a public hearing was held on this application on January 24, 2012, after due notice by publication in *The City Record*, and then to decision on February 6, 2018; and

WHEREAS, by letter dated January 10, 2018, the applicant requests withdrawal of this application.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *permit* the withdrawal of this application.

Adopted by the Board of Standards and Appeals, February 6, 2018.

96-11-BZ

APPLICANT – Law Office of Marvin B. Mitzner, for 514-516 East 6th Street, owners.

SUBJECT – Application June 30, 2011 – Variance (§72-21) to legalize enlargements to an existing residential building, contrary to floor area (§23-145) and dwelling units (§23-22). R7B zoning district.

PREMISES AFFECTED – 514-516 East 6th Street, south side of east 6th Street, between Avenue A and Avenue B, Block 401, Lot 17, 18, Borough of Manhattan.

COMMUNITY BOARD #3M

ACTION OF THE BOARD – Application withdrawn.

THE VOTE TO WITHDRAW –

Affirmative: Chair Perlmutter, Vice-Chair Chanda,
Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

THE RESOLUTION –

WHEREAS, this is an application under ZR §§ 72-21 to permit, in an R7B zoning district, a residential building that does not comply with zoning regulations for floor area and dwelling units, contrary to ZR §§ 23-145 and 23-22; and

WHEREAS, a public hearing was held on this application on December 6, 2011, after due notice by publication in *The City Record*, with a continued hearing on June 12, 2012, and then to decision on February 6, 2018; and

WHEREAS, by letter dated February 2, 2018, the applicant requests withdrawal of this application in light of the grant of vested rights under BSA Calendar Number 125-11-A and the grant of an application under Multiple Dwelling Law § 310 under BSA Calendar Number 217-09-A.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *permit* the withdrawal of this

application.

Adopted by the Board of Standards and Appeals, February 6, 2018.

144-12-A

APPLICANT – Law Offices of Marvin Mitzner LLC, for 339 W 29th LLC, owners.

SUBJECT – Application May 3, 2012 – Appeal of the Multiple Dwelling Law pursuant to §310 to allow the enlargement to a five-story building, contrary to §171(2)(f). R8B zoning district.

PREMISES AFFECTED – 339 West 29th Street, north side of West 29th Street between Eighth and Ninth Avenues, Block 753, Lot 16, Borough of Manhattan.

COMMUNITY BOARD #4M

ACTION OF THE BOARD – Application withdrawn without prejudice.

THE VOTE TO WITHDRAW –

Affirmative: Chair Perlmutter, Vice-Chair Chanda,
Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

THE RESOLUTION –

WHEREAS, this is an application under Multiple Dwelling Law (“MDL”) § 310 to permit, in an R8B zoning district, the enlargement of a five-story multiple dwelling, contrary to MDL § 171(2)(f); and

WHEREAS, a public hearing was held on this application, on September 25, 2012, after due notice by publication in *The City Record*, with continued hearings on November 20, 2012, February 12, 2013, and April 23, 2013, and then to decision on February 6, 2018; and

WHEREAS, by letter dated February 2, 2018, the applicant requests withdrawal of this application, stating that it appears a final determination on a related application before the New York City Landmarks Preservation Commission will render this application unnecessary.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *permit* the withdrawal of this application without prejudice.

Adopted by the Board of Standards and Appeals, February 6, 2018.

286-12-BZ

APPLICANT – Eric Palatnik, P.C., for People of Destiny Ministries International, Inc., owners.

SUBJECT – Application October 15, 2012 – Variance (§72-21) to permit a vertical enlargement and conversion of an existing two-story automotive repair facility to a four-story UG 4A House of Worship (*People of Destiny Church*), contrary to coverage ratio (§24-11),. R6 zoning district.

PREMISES AFFECTED – 1925 Union Street, north side of Union Street between Portal Street and Ralph Avenue, Block 1399, Lot 82, Borough of Brooklyn.

COMMUNITY BOARD #8BK

ACTION OF THE BOARD – Application withdrawn.

MINUTES

THE VOTE TO WITHDRAW –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

THE RESOLUTION –

WHEREAS, this is an application under ZR § 72-21 to permit, in an R6 zoning district, the enlargement and conversion of an existing two-story automotive repair facility to a four-story house of worship that does not comply with zoning regulations for lot coverage, rear yards and parking, contrary to ZR §§ 24-11, 24-391 and 25-30; and

WHEREAS, a public hearing was held on this application, on June 22, 2014, after due notice by publication in *The City Record*, with continued hearings on December 16, 2014, and March 3, 2015, and then to decision on February 6, 2018; and

WHEREAS, by letter dated January 10, 2018, the applicant requests withdrawal of this application.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *permit* the withdrawal of this application.

Adopted by the Board of Standards and Appeals, February 6, 2018.

189-13-A

APPLICANT – Rothkrug Rothkrug & Spector, for Linwood Avenue Building Corp., owner.

SUBJECT – Application June 25, 2013 – Proposed building does not front on legally mapped street, contrary to Section 36 of the General City Law. R3-1 zoning district.

PREMISES AFFECTED – 20 Dea Court, south side of Dea Court, 101’ West of intersection of Dea Court and Madison Avenue, Block 3377, Lot 100, Borough of Staten Island.

COMMUNITY BOARD #2SI

ACTION OF THE BOARD – Application withdrawn.

THE VOTE TO WITHDRAW –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

THE RESOLUTION –

WHEREAS, this is an application under General City Law § 36 to permit, in an R3-1 zoning district, the construction of a three-story building not fronting on a mapped street; and

WHEREAS, a public hearing was held on this application, on June 24, 2014, after due notice by publication in *The City Record*, with continued a hearing on March 10, 2015, and then to decision on February 6, 2018; and

WHEREAS, by letter dated February 2, 2018, the applicant requests withdrawal of this application, stating that plans for the subject site are under review for an alternate development proposal.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *permit* withdrawal of this

application.

Adopted by the Board of Standards and Appeals, February 6, 2018.

204-14-BZ

APPLICANT – Sheldon Lobel, P.C., for Wythe Berry LLC, owner.

SUBJECT – Application August 25, 2014 – Special Permit (§73-44) for reduction of required off-street parking spaces for proposed ambulatory diagnostic or treatment health care facilities (UG 4A) and commercial office use (UG 6B listed in Use Group 4 and PRC-B1. M1-2 Zoning District.

PREMISES AFFECTED – 55 Wythe Avenue, between North 12th Street and North 13th Street, Block 2283, Lot 1, Borough of Brooklyn.

COMMUNITY BOARD #1BK

ACTION OF THE BOARD – Application withdrawn without prejudice.

THE VOTE TO WITHDRAW –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

THE RESOLUTION –

WHEREAS, this is an application under ZR §§ 73-44 and 73-03 to permit, in an M1-2 zoning district, a reduction of parking spaces for an ambulatory diagnostic or treatment facility in Use Group 4 and commercial office use in parking requirement category B1 in Use Group 6, contrary to ZR § 44-21; and

WHEREAS, a public hearing was held on this application, on March 31, 2015, after due notice by publication in *The City Record*, and then to decision on February 6, 2018; and

WHEREAS, by letter dated February 5, 2018, the applicant requests withdrawal of this application without prejudice.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *permit* the withdrawal of this application without prejudice.

Adopted by the Board of Standards and Appeals, February 6, 2018.

63-15-BZ

APPLICANT – Sheldon Lobel, P.C., for Sutton Owners Corporation, Inc., owner; Harriet Harkavy, Esq., lessee.

SUBJECT – Application March 23, 2015 – Variance (§72-21) to legalize the three existing enclosures of portions of the terrace of Unit PHC located on the penthouse floor of the premises. R10 zoning district.

PREMISES AFFECTED – 35 Sutton Place, corner through-lot with frontage on 59th Street between Sutton Place and Riverview Terrace, Block 01372, Lot 73, Borough of Manhattan.

COMMUNITY BOARD #6M

MINUTES

ACTION OF THE BOARD – Application withdrawn without prejudice.

THE VOTE TO WITHDRAW –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

THE RESOLUTION –

WHEREAS, this is an application under ZR § 72-21 to permit, in an R10 zoning district, the enclosures of portions of the terrace of Unit PHC on the penthouse floor of the subject building that do not comply with zoning regulations for permitted obstructions, floor area and height, contrary to ZR §§ 23-62, 23-145, 54-31, 23-633 and 23-692; and

WHEREAS, a public hearing was held on this application on December 15, 2015, after due notice by publication in *The City Record*, with a continued hearing on February 9, 2016, and then to decision on February 6, 2018; and

WHEREAS, by letter dated December 27, 2017, the applicant requests withdrawal of this application without prejudice.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *permit* the withdrawal of this application without prejudice.

Adopted by the Board of Standards and Appeals, February 6, 2018.

330-13-BZ

APPLICANT – Alexander Levkovich, for Dilshoda Nasriddinova, owner.

SUBJECT – Application December 31, 2013 – Special Permit (§73-622) for the legalization of an enlargement to an existing single family home contrary to floor area (ZR 23-141). R4-1 zoning district.

PREMISES AFFECTED – 2801 Brown Street, east side of Brown Street, 230’ south of intersection with Shore Parkway, Block 08800, Lot 0095, Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Application dismissed for lack of jurisdiction.

THE VOTE TO WITHDRAW –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

THE RESOLUTION –

WHEREAS, this is an application under ZR §§ 73-622 and 73-03 to permit, in an R4-1 zoning district, the enlargement of a single-family detached residence that does not comply with zoning regulations for floor area and rear yards, contrary to ZR §§ 23-141 and 64-A353; and

WHEREAS, a public hearing was held on this application, on October 16, 2015, after due notice by publication in *The City Record*, with continued hearings on April 12, 2016, June 2, 2016, July 19, 2016, and October 14, 2016, and then to decision on February 6, 2018; and

WHEREAS, the subject site is occupied by an existing

residence that has been vertically elevated or reconstructed as of right under ZR § 64-00; and

WHEREAS, under ZR §§ 64-A20 and 64-A30, no building that is vertically elevated or reconstructed may subsequently be enlarged under ZR § 73-622.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *dismiss* this application for lack of jurisdiction.

Adopted by the Board of Standards and Appeals, February 6, 2018.

350-12-BZ

APPLICANT – Sheldon Lobel, P.C., for Overcoming Love Ministries, owner.

SUBJECT – Application December 31, 2012 – Variance (§72-21) to permit the construction of an 11-story community facility/residential building, contrary to use regulations (§42-00). M3-1 zoning district.

PREMISES AFFECTED – 5 32nd Street, southeast corner of 2nd Avenue and 32nd Street, Block 675, Lot 1, Borough of Brooklyn.

COMMUNITY BOARD #7BK

ACTION OF THE BOARD – Dismissed for lack of jurisdiction.

THE VOTE TO DISMISS –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a variance, pursuant to ZR § 72-21, to permit the construction of an 11-story mixed-use community facility and residential building in an M3-1 zoning district, contrary use regulations applicable in the underlying district, specifically, ZR § 42-00; and

WHEREAS, the subject site is located on the northeast corner of 32nd Street and 2nd Avenue, in an M3-1 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 313 feet of frontage along 32nd Street, 109 feet of frontage along 2nd Avenue and 34,117 square feet of lot area; and

WHEREAS, a public hearing was held on June 17, 2014, after due notice by publication in *The City Record*, with continued hearings on August 19, 2014, March 24, 2015, March 31, 2015 and May 19, 2015, and then to decision on February 6, 2018; and

WHEREAS, by letter dated March 20, 2015, the New York City Economic Development Corporation states that, as the site is part of the Sunset Park Industrial Business Zone, residential and community facility use is inappropriate and contrary to city policy and requests that the application for a variance not be approved; and

WHEREAS, on May 19, 2015, the application was taken off the Board’s hearing calendar, at the applicant’s request; and

WHEREAS, by letter dated December 22, 2017, the applicant was informed that the application would be restored

MINUTES

to the calendar and a public hearing held on February 6, 2017; and

WHEREAS, ownership of the site was transferred from the United States of America pursuant to the McKinney-Vento Homeless Assistance Act to the applicant for homeless assistance purposes by deed recorded on January 5, 2012; and

WHEREAS, on October 2, 2015, a Notice of Reverter was recorded against the property by the United States of America, acting by and through the Secretary of Health and Human Services, demanding the re-conveyance of the premises to the United States of America on account of a "substantial breach" by the applicant for failing to place the property into use for the purposes conveyed within 36 months from the date of the deed; and

WHEREAS, accordingly, the property is no longer owned by the applicant of record and is, in fact, owned by the federal government; and

Therefore, it is Resolved, that the subject application is hereby dismissed for lack of jurisdiction.

Adopted by the Board of Standards and Appeals, February 6, 2018.

182-95-BZ

APPLICANT – Rothkrug & Spector LLP, for 2465 Broadway Associates LLC., owner.

SUBJECT – Application October 14, 2014 – Extension of Term of a previously granted Special Permit (§73-36) for the continued operation of a PCE (*Equinox Fitness Club*) which expires on November 1, 2015; Amendment to expand the PCE into the cellar and the full third floor; Waiver of the Rules. C4-6A/R8 zoning district.

PREMISES AFFECTED – 2465 Broadway, West side of Broadway, 50' south of southwest corner of intersection of Broadway and West 92nd Street, Block 01239, Lot 52, Borough of Manhattan.

COMMUNITY BOARD #7M

ACTION OF THE BOARD – Off-Calendar.

183-95-BZ

APPLICANT – Rothkrug & Spector LLP, for Haymes Broadway LLC, owner.

SUBJECT – Application October 14, 2014 – Extension of Term of a previously granted Special Permit (§73-36) for the continued operation of a PCE (*Equinox Fitness Club*) which expires on November 1, 2015; Amendment to expand the PCE into the cellar and the full third floor; Waiver of the Rules. C4-6A/R8 zoning district.

PREMISES AFFECTED – 2473 Broadway, southwest corner of intersection of Broadway and West 92nd Street, Block 01239, Lot 55, Borough of Manhattan.

COMMUNITY BOARD #7M

ACTION OF THE BOARD – Off-Calendar.

7-04-BZ

APPLICANT – Eric Palatnik, P.C., for Co-Op City BC, owner.

SUBJECT – Application November 7, 2016 – Extension of Time to Complete Construction of a UG4 Church/Community Outreach Center (*Co-Op City Baptist Church*) which expired August 19, 2011; Waiver of the Rules. R3A zoning district

PREMISES AFFECTED – 2208 Boller Avenue, Block 5135, Lot 1, Borough of the Bronx.

COMMUNITY BOARD #10BX

ACTION OF THE BOARD – Application Denied.

THE VOTE TO GRANT –

Affirmative:0

Negative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board's Rules of Practice and Procedure and an extension of time to complete construction pursuant to a previously granted variance, which expired on August 19, 2011; and

WHEREAS, a public hearing was held on May 23, 2017, after due notice by publication in *The City Record*, and granted on that same date; and

WHEREAS, no resolution was issued and the application was reopened at public hearing on February 6, 2018, and denied on that date due to a procedural defect; and

WHEREAS, the subject site is located on the northeast corner of Boller Avenue and Erskine Place, within an R3A zoning district, in the Bronx; and

WHEREAS, the site has approximately 40 feet of frontage along Boller Avenue, 190 feet of frontage along Erskine Place, 40 feet of frontage along Hunter Avenue, 7,661 square feet of lot area and is currently vacant; and

WHEREAS, the Board has exercised jurisdiction over the subject site since June 8, 2004, when, under the subject calendar number, the Board granted a variance, pursuant to ZR § 72-21 in what was then an R3-2 zoning district, to permit the construction of a church and community outreach center (Use Group 4) that does not comply with the zoning requirements for open space ratio, floor area ratio, height and setback and front and side yards, contrary to ZR §§ 24-11, 24-34, 24-35 and 24-521; and

WHEREAS, by letter dated January 23, 2006, the Board approved the removal of the sub-cellar from the plans approved in connection with the variance based on representation by the applicant's representative that unforeseen soil conditions and the significant costs associated with addressing them led the applicant to abandon the sub-cellar level of the proposed building; and

WHEREAS, on August 19, 2008, under the subject calendar number, the Board reopened the variance to grant a three (3) year extension of time to substantially complete construction pursuant to the 2004 variance, expiring August 19, 2011; and

WHEREAS, by letter dated November 18, 2016, the Board permitted modifications determined to be in substantial

MINUTES

compliance with the previously approved plans, including a reduction in the floor area of the proposed building, and noted that the applicant's time to complete substantial construction of the proposed building had expired; and

WHEREAS, the applicant presently seeks an extension of time to complete construction and, pursuant to § 1-14.2 of the Board's Rules of Practice and Procedure, a waiver of § 1-07.3(c)(4) of the Board's Rules to permit the filing of this application more than four (4) years after the expiration of the time to complete construction; and

WHEREAS, with regards to post-1961 variances, § 1-07.3(c)(4) of the Board's Rules also states:

Applications for an extension of time to complete construction for post-1961 variances or post-1961 special permits must be filed as a new variance or special permit on the BZ calendar; and

WHEREAS, because the variance for this site was granted after 1961 and this application was filed more than four (4) years after expiration of the time to complete construction, the subject application is inappropriate and a new variance application must be filed; and

WHEREAS, the applicant filed for a new variance at the subject site on August 17, 2017, and that application was assigned BSA Cal. No. 2017-244-BZ; and

Therefore, it is Resolved, that the subject application is hereby denied and the underlying variance has lapsed as a matter of law.

Adopted by the Board of Standards and Appeals, February 6, 2018.

Carlo Costanza, Executive Director

MINUTES

REGULAR MEETING TUESDAY MORNING, FEBRUARY 13, 2018 10:00 A.M.

Present: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.

SPECIAL ORDER CALENDAR

737-86-BZ

APPLICANT – Rampulla Associates Architects, LLP, for AGA, LLC., owner.

SUBJECT – Application June 30, 2017 – Extension of Term of a previously approved Variance (§72-21) which permitted the enlargement of an existing retail store (UG 6) which expired on June 2, 2017; R3-1 (Special Richmond District).

PREMISES AFFECTED – 3304 Amboy Road, Block 4964, Lot 1, Borough of Staten Island.

COMMUNITY BOARD # 3SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....3

Negative:0

Absent: Chair Perlmutter.....1

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure, an extension of the term of a variance, previously granted by the Board, which expired on June 2, 2017, and an extension of time to obtain a certificate of occupancy, which expired on July 10, 2008; and

WHEREAS, a public hearing was held on this application on December 12, 2017, after due notice by publication in *The City Record*, and then to decision on February 13, 2018; and

WHEREAS, Community Board 3, Staten Island, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of Amboy Road, between Buffalo Street and Hopkins Avenue, in an R3-1 zoning district, in the Special South Richmond Development District, on Staten Island; and

WHEREAS, the site has approximately 112 feet of frontage along Amboy Road, a depth of 91 feet at the southern end of the site and 141 feet at the northern end of the site and is occupied by a one-story retail store and 11 accessory parking spaces; and

WHEREAS, the Board has exercised jurisdiction over the subject site since June 2, 1987, when, under the subject calendar number, the Board granted a variance, pursuant to ZR § 72-21, to legalize, at site that was then located in an R3-2 zoning district, a one-story horizontal enlargement and the construction of an additional one-story enlargement of an existing one-story non-conforming Use Group 6 retail store

for a term of ten (10) years, expiring June 2, 1997, on condition that the hours of operation be limited to 8:00 a.m. to 9:00 p.m.; there be no open uses; all loading and unloading be done during business hours; all signs comply with C1 district regulations; the lot be kept clean and free of debris at all times; all outdoor lighting face down and away from adjoining residences; and all conditions appear on the certificate of occupancy; and

WHEREAS, on February 3, 1998, under the subject calendar number, the Board extended the term of the variance for a term of ten (10) years, expiring June 2, 1007, and amended the variance to permit the change in hours of operation to 6:00 a.m. to 11:00 p.m. Monday through Saturday and 7:00 a.m. to 11:00 p.m. on Sundays, on condition that the fencing and gates be maintained; signs be limited to those shown on the BSA-approved drawings; accessory parking be maintained in accordance with the BSA approved plans; the premises be maintained graffiti free and a new certificate of occupancy be obtained within one (1) year, by February 3, 1999; and

WHEREAS, on July 10, 2007, under the subject calendar number, the Board again extended the term of the variance for an addition ten (10) year term, expiring June 2, 2017, on condition that the hours outdoor seating to be limited to 7:00 a.m. to 7:00 p.m. Monday through Sunday on condition that all conditions be listed on the certificate of occupancy and all conditions from prior resolution not specifically waived by the Board remain in effect, including that a new certificate of occupancy be obtained within one (1) year of the amended resolution, by July 10, 2008; and

WHEREAS, the previous term having expired, the applicant seeks a 20 year extension of the term of the variance; and

WHEREAS, the applicant explains that a longer term is requested in order to obtain bank financing to facilitate site repairs, that a bank will only amortize a loan for the duration of the variance term, that, due to this fact, the owners of the site have had to pay for site improvements—including the re-stuccoing of the building more than a decade ago—out of pocket, and that many more improvements—including the repaving of the parking lot, replacement of interior flooring and replacement of the roof—will need to be made in the near future; and

WHEREAS, at hearing, the Board expressed a concern that in the future, the granting of a 20 year term at this time would make 20 year terms appear to be the rule when, in fact, they are the exception; and

WHEREAS, however, the Board also notes that it maintains the absolute discretion in setting the duration of future terms, if any, for the subject variance; and

WHEREAS, additionally, the applicant requests a waiver, pursuant to § 1-14.2 of the Board’s Rules of Practice and Procedure, of Rule § 1-07.3(d)(2) to permit the filing of this application more than one thirty (30) days after the expiration of the time to obtain a new certificate of occupancy; and

WHEREAS, at hearing the Board inquired about the

MINUTES

compliance of signage at the site with C1 signage regulations and requested that the applicant remove any excess signage; the Board additionally requested that the plans provided be revised to more accurately reflect site conditions—including the type, number and spacing of plantings, HVAC equipment, an ice box and a dumpster—and that debris, including an old fence, be removed from the site; and

WHEREAS, the applicant having satisfactorily addressed the Board’s concerns, the Board finds that a 20 year extension of the term of the variance is appropriate with certain conditions as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated June 2, 1987, as amended through July 10, 2007, so that as amended this portion of the resolution reads: “to grant an extension of the term of the variance for a term of twenty (20) years from the expiration of the last grant, to expire on June 2, 2037, *on condition* that all work and site conditions shall comply with drawings filed with this application marked ‘Received October 4, 2017- One (1) sheet; and *on further condition*:

THAT the term of this grant shall expire on June 2, 2037;

THAT the hours of operation shall be limited to 6:00 a.m. to 11:00 p.m. Monday through Saturday and 7:00 a.m. to 11:00 p.m. on Sundays;

THAT the hours of outdoor seating shall be limited to 7:00 a.m. to 7:00 p.m. Monday through Sunday;

THAT all loading and unloading be done during business hours;

THAT all signs comply with C1 district regulations;

THAT the lot be kept clean and free of debris at all times;

THAT the fencing and gates shall be maintained

THAT all outdoor lighting face down and away from adjoining residences;

THAT the accessory parking shall be maintained in accordance with the BSA-approved plans;

THAT the above conditions shall appear on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT a new certificate of occupancy be obtained within one (1) year;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, February 13, 2018.

173-95-BZ

APPLICANT – Rothkrug Rothkrug & Spector LLP, for 30 East 85th Street Company LLC, owner; Equinox Madison Avenue, Inc., lessee.

SUBJECT – Application July 12, 2017 – Extension of Term of a previously granted Special Permit (§73-36) for the continued operation of Physical Culture Establishment (Equinox) which expired on August 15, 2015; Waiver of the Rules. C5-1/R8B Special Madison Avenue Preservation District.

PREMISES AFFECTED – 30 East 85th Street, Block 1496, Lot 7501, Borough of Manhattan.

COMMUNITY BOARD #8M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....3

Negative:0

Absent: Chair Perlmutter.....1

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure, an extension of the term of a previously granted special permit for a physical culture establishment (“PCE”), which expired on August 15, 2015, and an amendment to the same to permit a change in operator of the PCE; and

WHEREAS, a public hearing was held on this application on December 5, 2017, after due notice by publication in *The City Record*, with a continued hearing on February 13, 2018, and then to decision on that date; and

WHEREAS, Vice-Chair Chanda and former Vice-Chair Hinkson performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 8, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located at the southwest corner of East 85th Street and Madison Avenue, partially within a C5-1 zoning district and the Special Madison Avenue Preservation District and partially within an R8B zoning district, in Manhattan; and

WHEREAS, the site has approximately 120 feet of frontage along East 85th Street, 142 feet of frontage along Madison Avenue and is occupied by a 30-story mixed-use residential and commercial building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 3, 1998, when, under the subject calendar number, the Board granted a special permit, pursuant to ZR § 73-36, legalizing an existing PCE on a portion of the first floor and the entire second floor of the subject building on conditions that there be no change in ownership or operating control of the PCE without prior application to and approval from the Board; locked tamper-proof sound controllers on the aerobics and house sound systems be maintained in order to minimize adverse noise impacts on the residential units in the building; aerobics’ instructors’ voice be non-amplified; all speakers be hung

MINUTES

from acoustically non-transmitting wires in accordance with BSA-approved plans; individual video systems with headphones and no external speakers be provided and maintained for each client in the cardio-vascular area in accordance with BSA-approved plans; all free weights be rubberized and maintained with rubberized or other sound attenuating materials; all weight machines be maintained with sound-attenuating springs; fire prevention measures be installed and maintained in accordance with BSA-approved plans; the hours of operation be limited to 6:00 a.m. to 11:00 p.m. Monday through Friday and 8:00 a.m. to 10:00 p.m. Saturday and Sunday; the aerobics room not be used before 7:00 a.m. Monday through Friday and not before 9:00 a.m. on Saturdays and Sundays; this special permit be limited to a term of ten (10) years from August 15, 1995, to expire on August 15, 2005; and a certificate of occupancy be obtained within one year; and

WHEREAS, on December 19, 2000, under the subject calendar number the Board waived its Rules of Practice and Procedure, reopened and amended the March 1998 resolution to grant a one year extension of time to obtain a certificate of occupancy, expiring December 19, 2001; and

WHEREAS, on August 8, 2006, under the subject calendar number, the Board granted a ten (10) year extension of term, expiring August 15, 2015, on condition that all conditions from prior resolutions not specifically waived by the Board remain in effect; and

WHEREAS, the previous term having expired, the applicant seeks the subject relief; and

WHEREAS, the applicant additionally requests a waiver, pursuant to § 1-14.2 of the Board's Rules of Practice and Procedure, of Rule § 1-07.3(b)(2) to permit the filing of this application less than two (2) years after the expiration of the term; and

WHEREAS, finally, the applicant requests an amendment of the resolution approving a change in the owner and operator of the PCE from David Barton Gym to Equinox as well as modifications to the interior layout; and

WHEREAS, the applicant represents that the hours of operation remain the same as was approved in 1998 and that an interior fire alarm and sprinklers are installed within the subject PCE space; and

WHEREAS, at hearing, the Board inquired as to whether the PCE was permitted within the portion of the building located in an R8-B zoning district, the district boundary for which is located 100 feet to the west of and parallel to Madison Avenue (an area approximately 20 wide by 102 feet deep), or whether, pursuant to ZR § 77-11, the use regulations applicable in a C5-1 zoning district may be applied to the entire zoning lot, thus permitting the PCE use in that portion of the building; and

WHEREAS, in response, the applicant provided plans for the subject building approved by the Department of Buildings on January 8, 1987, and indicating on the site plan, with regards to the portion of the building located in an R8-B zoning district, "R8B Treated As C5-1/R10 As Per 77-03 & 77-11;" and

WHEREAS, the applicant has satisfactorily demonstrated compliance with the conditions of the previous term and the Board finds that the circumstances warranting the original grant still obtain; and

WHEREAS, accordingly, the Board finds that a ten (10) year extension of the term of the special permit is appropriate, with the conditions set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated March 3, 1998, as amended through August 8, 2006, so that as amended this portion of the resolution shall read: "to permit an extension of the term of the special permit for a term of ten (10) years, expiring August 15, 2025, *on condition* that all work and site conditions shall comply with drawings filed with this application marked 'Received August 3, 2017-Five (5) sheets; and *on further condition*:

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT locked tamper-proof sound controllers on the aerobics and house sound systems shall be maintained in order to minimize adverse noise impacts on the residential units in the building;

THAT aerobics' instructors' voice shall be non-amplified; all speakers shall be hung from acoustically non-transmitting wires in accordance with BSA-approved plans;

THAT individual video systems with headphones and no external speakers shall be provided and maintained for each client in the cardiovascular area in accordance with BSA-approved plans;

THAT all free weights shall be rubberized and maintained with rubberized or other sound attenuating materials;

THAT all weight machines shall be maintained with sound-attenuating springs;

THAT the existing sprinklers and fire alarm systems shall be modified per the modifications to the interior layout, operational and maintained;

THAT the hours of operation shall be limited to 6:00 a.m. to 11:00 p.m. Monday through Friday and 8:00 a.m. to 10:00 p.m. Saturday and Sunday;

THAT the aerobics room shall not be used before 7:00 a.m. Monday through Friday and not before 9:00 a.m. on Saturdays and Sundays;

THAT this special permit shall be limited to a term of ten (10) years from August 15, 2015, to expire on August 15, 2025;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the Department of Buildings must ensure

MINUTES

compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, February 13, 2018.

53-09-BZ

APPLICANT – David Salamon, for Schenck Avenue LLC, owner.

SUBJECT – Application September 12, 2017 – Extension of Time to Complete Construction of a previously approved Variance (§72-21) for the construction of a three-family home on a vacant undersized lot. This application sought to vary floor area (§23-141); front yard (§23-45) side yard (§23-461) and parking (§25-161) which expired on January 12, 2014 pursuant to ZR §73-23; Waiver of Board’s Rules. R5 zoning district.

PREMISES AFFECTED – 540 Schenck Avenue, Block 4075, Lot 118, Borough of Brooklyn.

COMMUNITY BOARD #5BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....3
Negative:0
Absent: Chair Perlmutter.....1

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure, reopening and an extension of time to complete construction pursuant to a previously granted variance, which expired on January 12, 2014; and

WHEREAS, a public hearing was held on this application on February 13, 2018, after due notice by publication in *The City Record*, and then to decision on that date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the southwest corner of Schenck Avenue and Dumont Avenue, in an R5 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 20 feet of frontage along Schenck Avenue, 80 feet of frontage along Dumont Avenue, 1,600 square feet of lot area and is currently vacant; and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 10, 2010, when, under the subject calendar number, the Board granted a variance, pursuant to ZR § 72-21 to permit the construction of a three-story three-family home that does not comply with zoning requirements relating to lot area and front yards, contrary to ZR §§ 23-32, 23-33 and 23-45, on condition that the parameters of the proposed building be as follows: a maximum floor area of 1,980 square feet (1.25 FAR), a lot

coverage of approximately 41 percent, 940 square feet of open space, a side yard with a width of 37 feet along the western lot line, a front yard with a depth of 10 feet along the eastern lot line, a wall height of 30 feet, a total height of 30 feet, and parking for a minimum of three cars; the internal floor layouts on each floor of the proposed building be as reviewed and approved by the Department of Buildings (“DOB”); there be no habitable room in the cellar; and that significant construction proceed in accordance with ZR § 72-23, that is, by January 10, 2014; and

WHEREAS, the time for substantial construction to have been completed having expired, the applicant seeks the subject relief; and

WHEREAS, the applicant additionally requests a waiver, pursuant to § 1-14.2 of the Board’s Rules of Practice and Procedure, of Rule § 1-07.3(c)(3) to permit the filing of this application less than four (4) years after the expiration of the time to complete construction; and

WHEREAS, the applicant states that construction has yet to commence on the site because of difficulty in securing financing, but that financing at favorable interest rates has been secured; and

WHEREAS, at hearing, the Board noted that the last Board approval was prior to the 2014 revision to the New York City Building Code and the previously approved plans may require modifications to comply with that Code; and

WHEREAS, in response, the applicant states that they have already met with DOB to identify and address any Building Code issues; and

WHEREAS, nevertheless, the Board notes that this application is only with regards to extending the time in which to complete construction pursuant to the 2010 variance grant, the Board makes no findings nor grants any waivers with regards to Building Code compliance and no plans other than those previously approved by the Board in 2010 have been reviewed as part of this application; and

WHEREAS, based upon its review of the record, the Board finds that a four (4) year extension of time to complete construction is appropriate with certain conditions, as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated January 10, 2010, so that as amended this portion of the resolution reads: “to grant a four (4) year extension of time to complete construction to February 13, 2022; and *on further condition*:

THAT substantial construction shall be completed by February 13, 2022, as evidenced by an inspection and determination by the Department of Buildings;

THAT the parameters of the proposed building be as follows: a maximum floor area of 1,980 square feet (1.25 FAR), a lot coverage of approximately 41 percent, 940 square feet of open space, a side yard with a width of 37 feet along the western lot line, a front yard with a depth of 10 feet along the eastern lot line, a wall height of 30 feet, a total height of 30 feet, and parking for a minimum of three cars;

THAT the internal floor layouts on each floor of the proposed building be as reviewed and approved by the

MINUTES

Department of Buildings;

THAT there be no habitable room in the cellar;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, February 13, 2018.

21-10-BZ

APPLICANT – Law Office of Fredrick A. Becker, for Aquila Realty Company, Inc., owner; Hutch Restaurant Associates LP dba Burger Brother, lessee.

SUBJECT – Application October 13, 2015 – Extension of Term & Amendment (73-243) request an extension of the term of a previously granted special permit that legalized an eating and drinking establishment with a drive-through at the subject premises and an Amendment to approved hours of operation. C1-2/R4A zoning district.

PREMISES AFFECTED – 2801 Roebing Avenue aka 1590 Hutchinson River Parkway, Southeasterly corner of Roebing Avenue and Hutchinson River Parkway, Block 5386, Lot 1, Borough of Bronx.

COMMUNITY BOARD #10BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....3

Negative:0

Absent: Chair Perlmutter.....1

THE RESOLUTION –

WHEREAS, this is an application for an amendment to a previously granted special permit and an extension of term for the same, which expired on September 14, 2015; and

WHEREAS, a public hearing was held on this application on August 8, 2017, after due notice by publication in *The City Record*, with a continued hearing on December 12, 2017, and then to decision on February 13, 2018; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 10, Bronx, recommends approval of the subject application; and

WHEREAS, the subject site is located at the northeast corner of Roebing Avenue and Hutchinson River Parkway, in an R4 (C1-2) zoning district, in the Bronx; and

WHEREAS, the site has approximately 143 feet of frontage along Roebing Avenue, 99 feet of frontage along Hutchinson River Parkway, 12,483 square feet of lot area

and is occupied by a one-story eating and drinking establishment with a drive-through and accessory on-site parking; and

WHEREAS, the Board has exercised jurisdiction over the subject site since June 2, 1987, when, under BSA Cal. No. 473-86-BZ, the Board granted a special permit, pursuant to ZR § 73-243, legalizing the addition of a drive-through facility to an existing eating and drinking establishment for a term of five (5) years, expiring June 2, 1992, on several conditions; and

WHEREAS, on September 14, 2010, under the subject calendar number, the Board granted a special permit, pursuant to ZR §§ 73-243 and 73-03, permitting the operation of an accessory drive-through facility in conjunction with an as-of-right Use Group 6 easing and drinking establishment for a term of five (5) years, expiring September 14, 2015, on condition that the premises be maintained free of debris and graffiti; parking and queuing space for the drive-through be provided as indicated on the BSA-approved plans; all landscaping and/or buffering be maintained as indicated on the BSA-approved plans; exterior lighting be directed away from the nearby residential uses; all signage conform with the underlying C1 zoning district regulations and conditions appear on the certificate of occupancy; and

WHEREAS, the previous term having expired, the applicant seeks the subject relief; and

WHEREAS, the applicant additionally seeks an amendment to the resolution to permit a one-hour extension to the hours of operation on Friday and Saturday (to Sunday through Thursday, 6:00 a.m. to 2:00 a.m. and Friday and Saturday, 6:00 a.m. to 3:00 a.m.) and change the landscaping indicated on the 2010 BSA-approved plans to permit modifications to the planting areas at the southern edge of the site; and

WHEREAS, in light of the request to increase the hours of operation, the Board requested that the application send notification of the proposed amendment to neighbors located within 400 feet of the subject site; and

WHEREAS, the Board received one form objection citing the smell emanating from the site as nuisance; and

WHEREAS, the applicant states that the drive-through facility provides reservoir spaces sufficient for ten (10) cars in satisfaction of ZR § 73-243(a); that the drive-through facility will cause minimal, if any, interference with traffic flow in the immediate area in satisfaction of ZR § 73-243(b); that the 11 on-site accessory parking spaces comply with parking regulations in satisfaction of ZR § 73-243(c); that the character of the commercially-zoned street frontage within 500 feet of the site remains oriented towards motor vehicle traffic in compliance with ZR § 73-243(d); that the drive-through has operated at this site for decades without adverse impact on nearby residences in satisfaction of ZR § 73-243(e); and that the existing opaque chain link fencing between the subject site and the adjacent residential building is adequate buffering adequate in satisfaction of ZR § 73-243(f); and

MINUTES

WHEREAS, in accordance with ZR § 73-03(f), the Board finds the circumstances warranting the original grant still maintain and that the applicant has complied with the conditions and safeguards theretofore described by the Board during the prior term; and

WHEREAS, therefore, the Board finds that the requested five (5) year extension of term for the subject special permit, amendment to the hours of drive-through facility and modifications to the previously approved plans are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated September 14, 2010, so that as amended this portion of the resolution reads: “to permit the extension of the term of the special permit for an additional five years from September 14, 2015, to expire on September 14, 2020; *on condition* that all work and site conditions shall comply with drawings filed with this application marked ‘Received January 25, 2018’-Seven (7) sheets; and *on further condition*:

THAT the term of this grant shall expire on September 14, 2020;

THAT the premises shall be maintained free of debris and graffiti;

THAT parking and queuing space for the drive-through shall be provided as indicated on the BSA-approved plans;

THAT all landscaping and/or buffering shall be maintained as indicated on the BSA-approved plans;

THAT exterior lighting shall be directed away from the nearby residential uses;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a new certificate of occupancy shall be obtained within one (1) year;

THAT all signage shall comply with the underlying C1 zoning district regulations;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, February 13, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Department of
Buildings (“DOB”), dated April 14, 2014, acting on DOB
Application No. 320595450 reads in pertinent part:

1. ZR 23-141(a): Proposed floor area is more
than permitted and contrary to ZR 23-141(a);
2. ZR 23-141(a): Proposed open space ratio is
less than required and contrary to ZR 23-

MINUTES

141(a); and

WHEREAS, the Board notes that since the filing of this application, the Zoning Resolution has been amended and the text formerly found at ZR § 23-141(a), setting forth the maximum floor area ratio and minimum required open space ratio permitted in an R2 zoning district, is now simply found in ZR § 23-141; thus, the Board treats the citation to ZR § 23-141(a) in DOB's objection as a citation to ZR 23-141; and

WHEREAS, this is an application under ZR § 73-622 to permit, in an R2 zoning district, the proposed enlargement of an existing single-family residence that does not comply with the zoning requirements for floor area and open space ratio, contrary to ZR § 23-141; and

WHEREAS, a public hearing was held on this application on September 16, 2014, after due notice by publication in *The City Record*, with a continued hearing on October 28, 2014; and

WHEREAS, at the hearing scheduled for March 3, 2015, the application was marked off the Board's calendar due to the applicant's request for the adjournment of the four preceding hearings, scheduled for December 9, 2014, January 13, 2015, February 3, 2015, and March 3, 2015; and

WHEREAS, the application was returned to the Board's hearing calendar for continued hearings on December 6, 2016, and February 13, 2018, with four additional continued hearings adjourned at the applicant's request in the interim, and then to decision on February 13, 2018; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown, former Vice-Chair Hinkson and former Commissioner Montanez performed inspections of the site and the surrounding neighborhood; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the southwest corner of Bedford Avenue and Avenue M, in an R2 zoning district, in Brooklyn; and

WHEREAS, the site consists of four consecutive tax lots with approximately 170 feet of frontage along Bedford Avenue, 100 feet of frontage along Avenue M and 17,000 square feet of lot area; and

WHEREAS, each of the four tax lots is occupied by a two-story plus attic dwelling with a garage in the rear yard; and

WHEREAS, the applicant proposes to demolish the existing two-story plus attic structures located on tax lots 48, 50 and 52 and enlarge the two-story plus attic single-family residence located on tax lot 45, which has a total of 3,371 square feet of floor area, a floor area ratio ("FAR") of 0.67 and an open space ratio of 99 percent; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single-* or *two-family detached* or *semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by

- (c) Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single-* or *two-family detached* or *semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins. Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the

MINUTES

neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge an existing detached single-family residence, as contemplated by ZR § 73-622; and

WHEREAS, the applicant originally proposed to merge three full tax lots (Lots 45, 48 and 50) and a portion of a fourth tax lot (Lot 52) into a single zoning lot with 160 feet of frontage along Bedford Avenue and 16,000 square feet of total lot area, demolishing the residences located on Lots 48, 50 and 52 and enlarging the existing two-story plus attic single-family residence located on Lot 45 into a residence with 14,560 square feet of floor area, 0.91 FAR, 8,318 square feet of open space, an open space ratio of 57 percent and a 21'-11" rear yard, contrary to zoning requirements for FAR, open space ratio and rear yards; and

WHEREAS, the applicant now proposes to merge the entirety of Lots 45, 48, 50 and 52 into a single zoning lot with 170 feet of frontage along Bedford Avenue and 17,000 square feet of total lot area, demolishing the residences located on Lots 48, 50 and 52 and enlarging the single-family residence located on Lot 45 into a residence with 12,459 square feet of floor area, 0.73 FAR, 9,897 square feet of open space, an open space ratio of 79.4 and a 30 foot rear yard, contrary to zoning requirements for FAR and open space ratio; and

WHEREAS, at the subject site, a maximum FAR of 0.50 (8,500 square feet of floor area) and an open space ratio of 150.0 are required pursuant to ZR § 23-141; and

WHEREAS, the proposed building is additionally proposed to provide 42 percent lot coverage, a building footprint of 7,103 square feet, a 15'-1" front yard fronting Bedford Avenue and a 17'-11" front yard on Avenue M, a building wall width of 144'-1" on the Bedford Avenue frontage (85 percent of the frontage) and a building width of 79'-10" on the Avenue M frontage (80 percent of the frontage); and

WHEREAS, the applicant submitted an analysis of single- or two-family dwellings located within 400 feet of the subject premises within an R2 zoning district (the "Study Area") concluding that, of the 99 residences in the Study Area, excluding the subject lots, 80 (81 percent) have an FAR of more than 0.50 and 20 (20 percent) have an FAR of 0.73 or greater; and 97 (98 percent) have an open space ratio of less than 150.00 and 25 (25 percent) have an open space ratio of 79.4 or less; and

WHEREAS, the Board acknowledges that 13 of the residences in the Study Area (13 percent) have obtained

special permits pursuant to ZR § 73-622 and constructed enlargements pursuant to those grants, including a residence located directly across Bedford Avenue from the subject site that obtained a special permit in 2003 for an enlargement that resulted in dwelling with an FAR of 1.02, 5,088 square feet of floor area and an open space ratio of 29.0, as claimed by the subject applicant's consultant, but unverified by the Board¹; and

WHEREAS, with regards to the consistency of the subject proposal with the existing streetscape, however, a majority of the Board finds that the subject proposal is oversized as compared to its neighbors and, thus, alters its essential character; in particular, the building wall of the proposed enlargement is taller and several times longer along its Bedford Avenue frontage than its neighbors on that block, measuring approximately 144'-1" (85 percent of its frontage) where every other residence with frontage on Bedford Avenue within the Study Area has a building wall ranging from 17 to 66 feet wide occupying between 50 and 90 percent of their total lot frontage; and

WHEREAS, this conclusion is further evidenced by the applicant's additional analyses of the floor area, building width, building width as a percentage of lot frontage, building footprint, front yard depth, lot area, lot width/frontage and lot coverage of the 99 dwellings located within the Study Area; and

WHEREAS, these analyses demonstrate that, with regards to floor area, 4 dwellings in the Study Area (4 percent) have more than 5,000 square feet of floor area; with regards to building width, zero dwellings have a width equal to or greater than 144'-1" and one dwelling (1 percent) has a width greater than or equal to 79'-10"; with regards to the widths of dwellings as a percentage of their lot frontage, 7 lots (7 percent) are occupied by dwellings that take up 80 percent or more of their lot frontage and 2 lots (2 percent) are occupied by dwellings with a width of 85 percent or more of their lot frontage; with regards to building footprint, zero dwellings have a building footprint of 7,103 square feet or greater; with regards to front yard depth, 47 dwellings (47 percent) have at least one front yard with a depth of 15'-1" or less; with regards to lot area, 8 dwellings (8 percent) are located on lots having 5,000 square feet of lot area or greater and one lot (1 percent) has more than 10,000 square feet of lot area; with regards to lot width/frontage, 12 lots (12 percent) have 100 feet of frontage or more and zero dwellings are on lots having frontage equal to or greater than 170 feet; and with regards to lot coverage, 11 dwellings (11 percent) have lot coverage of 42 percent or greater; and

WHEREAS, one Board Commissioner states, however, that the subject proposal is within the limits of special permits previously granted by the Board, the only difference being that the subject zoning lot is larger; and

¹ The Board's resolution for that special permit, granted under BSA Cal. No. 31-03-BZ (July 22, 2003), is silent with regards to the FAR and open space ratio permitted by that grant.

MINUTES

WHEREAS, the Board acknowledges that the subject site, comprised of multiple tax lots, is atypically large for the immediate area—there is only one other property within the Study Area (1 percent) with a lot area of more than 10,000 square feet—and a majority of the Board identifies this fact as one that distinguishes this application from the 13 other special permit applications previously granted by the Board and constructed within the Study Area, all which are located on lots with lot areas of between 3,000 square feet and 8,363 square feet and frontages between 37.5 feet and 100 feet; and

WHEREAS, the Board notes that, as evidenced by the 1997 City Planning Commission Report for the New York City Department of City Planning’s (“DCP”) application to, among other things, add ZR § 73-622 to the Zoning Resolution (N 970203 ZRY, December 22, 1997, the “1997 CPC Report”), the purpose of the special permit was to provide owners of residences developed prior to the adoption of the 1961 Zoning Resolution the opportunity to enlarge those homes, many of which were rendered legal non-compliances by the 1961 Zoning Resolution, in order to house growing families or meet contemporary living standards in a manner that is consistent with the surrounding neighborhood; and

WHEREAS, specifically, the 1997 CPC Report cites the “need for an alternative method [to a variance or a special permit pursuant to ZR § 73-621] for allowing for the upgrading of an aging housing stock,” which was “designed for life styles that have significantly changed over time”; the special permit was intended to enable the construction of “additional bathrooms, upgraded kitchens, family rooms and additional bedrooms that necessitate major structural changes to existing homes,” which was theretofore thwarted by the Zoning Resolution and resulted in “much of the housing stock remaining unimproved and many households leaving the city who might otherwise have stayed”; and

WHEREAS, the 2016 City Planning Commission Report on the application submitted by Community Board 10, Brooklyn, to remove Community District 10 from applicability under ZR § 73-622 (N 160377 ZRK, September 12, 2016, the “2016 CPC Report”) reiterates that the original intent of the special permit “was to provide a means for growing families to add a bedroom, bathroom or extend a kitchen, within certain limitations, that would allow the enlargement consistent with the existing neighborhood character”; and

WHEREAS, the 1997 CPC Report also references a comprehensive review of zoning regulations affecting residential developments in R3, R4 and R5 districts being prompted by “a surge in the demolition of sound single and two-family detached and semi-detached homes and their replacement with bulky, often attached three story buildings that were not in context with the surrounding area”; and

WHEREAS, the Board notes that while the subject proposal is not an “attached” building, it is premised on the demolition of three two-family residences and the construction, in their place, of an enlargement that the

majority of the Board finds is not in context with the surrounding area and may serve as precedent for a renewed surge in the demolition of “sound single and two-family detached and semi-detached homes” and their replacement with large residences constructed across multiple tax lots, similar to the one herein proposed, via the subject special permit, which was not created for such purpose; and

WHEREAS, in light of the foregoing, the Board has determined that the evidence in the record does not support the findings required to be made under ZR § 73-622.

Therefore it is Resolved, that the subject application is hereby denied.

Adopted by the Board of Standards and Appeals, February 13, 2018.

330-14-BZ

APPLICANT – Law Office of Lyra J. Altman, for Jack Guindi, owner.

SUBJECT – Application December 30, 2014 – Special Permit (73-622) for the enlargement of an existing two family home to be converted into a single family home contrary to floor area, lot coverage and open space (ZR 23-141); side yards (ZR 23-461); perimeter wall height (ZR 23-263) and less than the required minimum rear yard (ZR23-47); R3-2 zoning district.

PREMISES AFFECTED – 1746 East 21st Street, Block 6783, Lot 18, Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....3

Negative:0

Absent: Chair Perlmutter.....1

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated November 20, 2015, acting on DOB Application No. 320914702 reads in pertinent part:

1. ZR 23-141(b): The proposed floor area exceeds the maximum .50 FAR permitted; contrary to ZR 23-141(b);
2. ZR 23-141(b): The proposed lot coverage exceeds the maximum permitted lot coverage of 35 percent; contrary to ZR 23-141(b);
3. ZR 23-141(b): The proposed open space is less than the minimum required 65 percent; contrary to ZR 23-141(b);
4. ZR 23-461(a): The proposed side yards are less than the minimum required width of (5) feet and minimum combined width of (13) feet; contrary to ZR 23-461(a);
5. ZR 23-47: The proposed rear yard depth is less than the minimum required (30) feet; contrary to ZR 23-47;
6. ZR 23-631(b): The proposed perimeter wall

MINUTES

exceeds the maximum permitted height of (21) feet; contrary to ZR 23-631(b); and

WHEREAS, the Board notes that since the filing of this application, the Zoning Resolution has been amended and the text formerly found at ZR § 23-141, setting forth the maximum floor area ratio, minimum required open space and maximum lot coverage permitted in an R3-2 zoning district, is now found in ZR § 23-142; thus the Board treats the citation to ZR § 23-141 in DOB's objection as a citation to ZR § 23-142; and

WHEREAS, this is an application under ZR § 73-622 to permit, in an R3-2 zoning district, the proposed conversion of a two-family residence to a single-family residence and enlargement of the same that does not comply with the zoning requirements for floor area, lot coverage, open space, side yards, rear yard and perimeter wall height, contrary to ZR §§ 23-142, 23-461(a), 23-47 and 23-631(b); and

WHEREAS, a public hearing was held on this application on March 28, 2017, after due notice by publication in *The City Record*, with continued hearings on May 23, 2017 and June 27, 2017, and then to decision on February 13, 2018; and

WHEREAS, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and the surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommended approval of this application; and

WHEREAS, the subject site is located on the west side of East 21st Street, between Avenue P and Quentin Road, in an R3-2 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 40 feet of frontage along East 21st Street, a depth of 100 feet and 4,000 square feet of lot area; and

WHEREAS, the site is occupied by two story plus cellar and attic detached two-family residence with 2,534 square feet of floor area, a floor area ratio ("FAR") of 0.63, 75 percent open space, 25 percent open space, side yards measuring 4'-3" and 4'-9.5", a 49'-10" rear yard and an existing perimeter wall height of 23'-11.5"; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single- or two-family detached or semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of

Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage, open space, floor area, side yard, rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which

MINUTES

the subject special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge an existing detached two-family residence, as contemplated by ZR § 73-622; and

WHEREAS, the applicant originally proposed an extension at the rear that would result in a residence with 4,343 square feet of floor area, 1.09 FAR and a rear yard of 20 feet at all levels; and

WHEREAS, in response to the Board's comments regarding the maintenance of sufficient floor joists and walls for the proposal to constitute an "enlargement" of an "existing" residence for the purposes of the special permit and the neighborhood character study, which illustrated that adjacent property owners have compliant rear yards and the building located at the rear of this site has a rear yard with a depth of 35 feet, the applicant revised the proposal and now proposes to convert the existing two-family residence to a single-family residence and enlarge the residence with a two-story plus cellar and attic extension at the rear resulting in a residence with 4,209 square feet of floor area, 1.05 FAR, 46 percent lot coverage, 54 percent open space, side yards measuring 4'-3" and 4'-9.5", a rear yard of 20 feet at the first floor and 25 feet at the second floor and attic, and a perimeter wall with a height of 22'-5.75"; and

WHEREAS, at the subject site, a maximum FAR of 0.50 is permitted, maximum lot coverage of 35 percent is permitted and at least 65 percent open space is required pursuant to ZR § 23-142; two side yards, each with a minimum width of five feet and a combined total width of at least 13 feet, are required pursuant to ZR § 23-461(a); a rear yard with a depth of not less than 30 feet is required pursuant to ZR § 23-47; and a maximum perimeter wall height of 21 feet is permitted pursuant to ZR § 23-47(b); and

WHEREAS, the applicant provided a 1930 Sanborn map of the area demonstrating that since at least that time, the subject site has been occupied by a dwelling in substantially the same location on the zoning lot as the existing dwelling and that, therefore, the existing side yard widths are legal non-compliances; and

WHEREAS, the applicant submitted an analysis of single- or two-family dwellings located within 400 feet of the subject premises within an R3-2 zoning district (the "Study Area") concluding that, of the 40 residences in the Study Area, excluding the subject site, 31 (78 percent) have more than 35 percent lot coverage and less than 65 percent open space; and

WHEREAS, for purposes of evaluating the floor area and FAR herein proposed, the applicant submitted an analysis of single- or two-family dwellings on the subject tax block (Block 6783) and the tax block located immediately to the east (Block 6784) located in an R3-2 zoning district concluding that, of those 37 residences, 30 (81 percent) have FARs greater than 0.50 (between 0.52 and 1.15 FAR); and

WHEREAS, with regards to the proposed rear yard conditions, the applicant submitted an analysis of the rear yard conditions on subject tax block demonstrating that, among the 12 single- or two-family residences on the subject

tax block located in an R3-2 zoning district, two (17 percent) have rear yards with a depth of less than 30 feet (their rear yards measure 27 feet and 28 feet); and

WHEREAS, finally, with regards to the perimeter wall height, the applicant submits that the proposed perimeter wall height is more than a foot lower than the existing non-complying perimeter wall; and

WHEREAS, in light of the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622, to permit, in an R3-2 zoning district, the proposed conversion of a two-family residence to a single-family residence and enlargement of the same that does not comply with the zoning requirements for floor area, lot coverage, open space, side yards, rear yard and perimeter wall height, contrary to ZR §§ 23-142, 23-461(a), 23-47 and 23-631(b); *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received June 8, 2017"-Seven (7) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area ratio of 1.04 (4,209 square feet of floor area), a maximum lot coverage of 46 percent, at least 54 percent open space, side yards measuring at least 4'-3" and 4'-9.5", a rear yard of at least 20 feet at the first floor and at least 25 feet at the second floor and attic levels and a maximum perimeter wall height of 22'-5.75", as illustrated on the BSA-approved plan; and

THAT all existing exterior walls and wall joists indicated to remain undisturbed on the BSA-approved plans shall remain or the special permit is void;

THAT the filling in of the double height space in the attic above the master bedroom shall render the special permit void;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the special relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 13, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated December 19, 2017, acting on Department of Buildings (“DOB”) Application No. 321040743 reads in pertinent part:

1. Proposed F.A.R. of .98 and O.S.R. of .58 constitute an increase in the degree of the existing non-compliance contrary to Sec. 23-141 of the NYC Zoning Resolution;
2. Proposed horizontal enlargement provides less than the required rear yard contrary to Sec. 23-47 of the N.Y.C. Zoning Resolution;
3. The proposed horizontal enlargement provides less than the minimum required side yard contrary to Sec. 23-461 of the N.Y.C. Zoning Resolution; and

WHEREAS, this is an application under ZR § 73-622 to permit, in an R2 zoning district, the proposed enlargement of a single-family detached residence that does not comply with the zoning requirements for floor area ratio, open space ratio, side yards and rear yards, contrary to ZR §§ 23-141, 23-461 and 23-47; and

WHEREAS, a public hearing was held on this application on October 17, 2017, after due notice by publication in *The City Record*, with a continued hearing on January 30, 2018, and then to decision on February 13, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding area; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of East 27th Street, between Avenue M and Avenue N, in an R2 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 40 feet of frontage along East 27th Street, a depth of 100 feet and 4,000 square feet of lot area; and

WHEREAS, the site is occupied by a three-story plus

basement and attic single-family detached residence with 3,869 square feet of floor area, a floor area ratio (“FAR”) of 0.97, an existing open space ratio of 76, side yards measuring 9’-9” and 3’-11” and a rear yard with a depth of 32’-7”; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single- or two-family detached or semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage, open space, floor area, side yard, rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing

MINUTES

the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge an existing detached single-family residence, as contemplated by ZR § 73-622; and

WHEREAS, the applicant originally proposed a one-story plus basement enlargement resulting in 5,153 square feet of floor area, 1.29 FAR, an open space ratio of 45 and a 20 foot rear yard at the first floor; and

WHEREAS, at hearing, the Board requested a reduction in the degree of the enlargement and the applicant revised the proposal; and

WHEREAS, the applicant now proposes to enlarge the existing residence with a one-story plus basement enlargement resulting in a dwelling with 3,941 square feet of floor area, 0.99 FAR, an open space ratio of 58 percent, side yards with widths of 9'-9" and 3'-11" and a 20 foot rear yard at the first floor with 36 foot rear yards at all levels above; and

WHEREAS, the proposed floor area was reduced, in part, by lowering the floor-to-ceiling height of the basement beneath the existing dwelling to 6'-10" so as to create a cellar, instead, and floor space that is exempt from floor area calculations; and

WHEREAS, the Board makes no finding as to whether the lowering of the floor-to-ceiling height in this manner is compliant with the Zoning Resolution or the applicable New York City Building Code and defers to the Department of Buildings regarding the characterization of this space; and

WHEREAS, regardless of DOB's determination as to the correct characterization of the cellar/basement space, the maximum FAR permitted for the subject dwelling by this grant shall be limited to 0.99 FAR; and

WHEREAS, at the subject site, a maximum FAR of 0.50 is permitted and a minimum open space ratio of 150.0 is required pursuant to ZR § 23-141; two side yards totaling at least 13 feet and a minimum width of 5 feet each are required

pursuant to ZR § 23-461(a) and a rear yard with a depth of not less than 30 feet is required pursuant to ZR § 23-47; and

WHEREAS, the applicant provided a historical Sanborn map and 1940 tax photograph of the site to demonstrate that the subject building existed at the site in substantially the same location on the zoning lot prior to adoption of the 1961 Zoning Resolution and, thus, the existing side yards are legal non-compliances; and

WHEREAS, the applicant submitted an analysis of single- or two-family dwellings located within 400 feet of the subject premises located within an R2 zoning district (the "Study Area") concluding that, of the 133 dwellings in the Study Area, excluding the subject site, 98 dwellings (74 percent) have an FAR greater than 0.50 and, of those 98 dwellings, 30 dwellings (31 percent) have an FAR greater than 0.92; and

WHEREAS, in light of the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622, to permit, in an R2 zoning district, the proposed enlargement of a single-family detached residence that does not comply with the zoning requirements for floor area ratio, open space ratio, side yards and rear yards, contrary to ZR §§ 23-141, 23-461 and 23-47; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received February 5, 2018"-Eighteen (18) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area ratio of 0.99 (3,941 square feet of floor area), a minimum open space ratio of 58, side yards with widths of at least 9'-9" and 3'-11" and a rear yard of at least 20 feet at the first story and at least 30 feet at the second story and above, as illustrated on the BSA-approved plan; and

THAT all existing exterior walls and wall joists indicated to remain undisturbed on the BSA-approved plans shall remain or the special permit is void;

THAT DOB shall make the determination as to the proper characterization of the lowest floor of the residence as a cellar or basement for purposes of the inclusion of that floor space in floor area calculations, but under no circumstance shall the maximum floor area ratio of the subject building be in excess of 0.99; and

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the special relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its

MINUTES

jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 13, 2018.

CEQR #17-BSA-046Q

APPLICANT – Law Office of Vincent L. Petraro, PLLC, for Flushing Point Holding, LLC, owner.

SUBJECT – Application November 23, 2016 – Special Permit (§73-66) to permit the construction of a new building in excess of the height limits established under ZR 61-21. C4-2 zoning district.

PREMISES AFFECTED – 131-02 40th Road, Block 5066, Lot(s) 110-150, Borough of Queens.

COMMUNITY BOARD #7Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....3

Negative:0

Absent: Chair Perlmutter.....1

THE RESOLUTION –

WHEREAS, the decision on behalf of the Queens Borough Commissioner, dated November 14, 2016, acting on Department of Buildings (“DOB”) Application No. 421374845 reads in pertinent part:

The proposed building height exceeds the maximum height limitation by the Flight Obstruction map of La Guardia airport as per Sect. ZR 6[1]-20 [et seq.] . . . ; and

WHEREAS, this is an application under ZR § 73-66 to permit, on a site located within a C4-2 zoning district, the construction of a building that exceeds the maximum height permitted in the vicinity of major airports, contrary to ZR § 61-21; and

WHEREAS, a public hearing was held on this application on July 18, 2017, after due notice by publication in *The City Record*, with a continued hearing on October 3, 2017, and then to decision on February 13, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the subject site and neighborhood; and

WHEREAS, Community Board 7, Queens, recommends approval of this application; and

WHEREAS, the subject site is an irregularly shaped lot comprised of two adjacent tax lots (Lot 110 and Lot 150) located at the termination of 40th Road, west of College Point Boulevard, to the east of the Van Wyck Expressway and to the north of Long Island Railroad tracks, within a C4-2 zoning district, in Queens; and

WHEREAS, a Zoning Lot Description, recognizing the merger of the two lots, was filed with the New York City Department of Finance on November 30, 2017; and

WHEREAS, the site has approximately 116,157 square

feet of lot area and is currently occupied by a two-story building; and

WHEREAS, the applicant proposes to redevelop the site, which is located within the LaGuardia Airport Flight Obstruction Area, with two residential buildings (the “North Tower” and “South Tower”) and one commercial building (the “Hotel Center”, collectively, the “Development”) whose heights penetrate transitional surfaces within the Airport Approach District, contrary to ZR § 61-21, and requests a special permit, pursuant to ZR § 73-66, to permit their construction; and

WHEREAS, ZR § 73-66 provides that:

The Board of Standards and Appeals may permit the construction, *enlargement*, or reconstruction of a *building or other structure* in excess of the height limits established under Section 61-21 (Restriction on Highest Projection of Building or Structure) or 61-22 (Permitted Projection Within any Flight Obstruction Area), provided that the applicant submits a site plan, with elevations, showing the proposed *building or other structure* in relation to such maximum height limits, and that the Board finds that such proposed *building or other structure, enlargement*, or reconstruction would not constitute a hazard (either under the existing layout of the airport or under any planned reorientation or lengthening of the airport runways) to the safety of the occupants of such proposed *building*, to other *buildings* in the vicinity or to the safety of air passengers, and would not disrupt established airways.

The Board shall refer the application to the Federal Aviation Administration for a report as to whether such construction will constitute a danger to the safety of air passengers or disrupt established airways; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, in support of this application, the applicant has submitted a site plan showing the proposed Development with elevations, the maximum as-of-right height permitted at the site and the maximum obstruction height approved by the Federal Aviation Administration (“FAA”); and

WHEREAS, regarding the Board’s determination that such proposed building would not constitute a hazard, the Board notes that the FAA regulates the heights of buildings within proximity to airports and that, because the subject site is located within the flight obstruction area for LaGuardia Airport, the Board defers to the FAA’s determinations regarding the any potential hazards posed by the proposed building; and

WHEREAS, the application was referred to the FAA, which issued sixteen (16) Determination of No Hazard to Air Navigation, dated January 11, 2018, under Aeronautical Study Nos. 2017-AEA-13064-OE, 2017-AEA-13065-OE,

MINUTES

2017-AEA-13066-OE, 2017-AEA-13067-OE, 2017-AEA-13068-OE, 2017-AEA-13069-OE, 2017-AEA-13070-OE, 2017-AEA-13071-OE, 2017-AEA-13072-OE, 2017-AEA-13073-OE, 2017-AEA-13074-OE, 2017-AEA-13075-OE, 2017-AEA-13076-OE, 2017-AEA-13077-OE, 2017-AEA-13078-OE and 2017-AEA-13079-OE, stating that the FAA's aeronautical study of the Development, conducted under the provisions of 49 U.S.C., Section 44718 and, if applicable, Title 14 of the Code of Federal Regulations, part 77, revealed that, at a maximum height of 228 above mean sea level ("AMSL"), the Development would have no substantial adverse effect on the safe and efficient utilization of the navigable airspace by aircraft or by the operation of air navigation facilities and not be a hazard to air navigated provided that (1) all structures are marked and lighted in accordance with FAA Advisory circular 70/7460-1 L Change 1, Obstruction Marking and Lighting, red lights – Chapters 4,5(Red),&12; and (2) any failure or malfunction that lasts more than thirty (30) minutes and affects a top light or flashing obstruction light, regardless of its position, should be reported immediately so a Notice to Airmen ("NOTAM") can be issued and reported against as soon as normal operation is restored (the "FAA Determinations"); and

WHEREAS, accordingly, the maximum building heights approved by the FAA are 228 feet AMSL or 216 feet above ground level ("AGL"); and

WHEREAS, the Board notes that the elevations, as represented on the plans, of the highest points on the North Tower, South Tower and Hotel Center are 225'-1" AMSL, 225'-1" AMSL and 225'-7" AMSL respectively, all of which are less than 228 feet AMSL; and

WHEREAS, the Board notes that the obstruction standards referenced in the FAA Determinations are similar, but not identical, to those found in the Zoning Resolution and that the maximum building heights of 228 feet AMSL includes temporary construction equipment such as cranes, derricks, etc., which may be used during actual construction of the structure, but notes that equipment shall not exceed the overall height of 228 feet AMSL and any temporary construction equipment of greater height would require separate notice to the FAA; and

WHEREAS, the FAA Determinations further require that (1) FAA Form 7460-2, Notice of Actual Construction or Alteration, be e-filed any time the project is abandoned or (a) at least ten (10) days prior to start of construction and (b) within five (5) days after the construction reaches its greatest height; (2) any changes in coordinates, heights and frequencies or use of greater power, except those frequencies specified in the Colo Void Clause Coalition; Antenna System Co-Location; Voluntary Best Practices, effective November 21, 2007, voids the determination; (3) any future construction or alteration, including increase to heights, power or the addition of other transmitters, requires separate notice to the FAA; and (4) cranes to be used for the project be e-filed with the FAA at least 60-90 days prior to exceeding the greatest structure AGL height to prevent

construction delays; and

WHEREAS, the FAA Determinations expire on July 11, 2019, unless (a) the construction is started (not necessarily completed) and FAA Form 7460-2, Notice of Actual Construction or Alteration, is received by the FAA; (b) extended, revised or terminated by the issuing office; (c) construction is subject to the licensing authority of the Federal Communications Commission ("FCC") and an application for a construction permit has been filed; and

WHEREAS, all conditions contained in the FAA Determinations have been adopted and incorporated into the Board's grant herein, therefore any act constituting a violation of the FAA Determination will necessarily violate the subject Resolution; and

WHEREAS, by letter, the Port Authority of New York and New Jersey, which operates LaGuardia Airport, requests that all conditions stated in the FAA Determinations be followed; and

WHEREAS, based on the above, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit is outweighed by the advantages to be derived by the community; and

WHEREAS, the applicant states that the subject proposal will not interfere with any public improvement projects; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17BSA046Q, dated November 23, 2016; and

WHEREAS, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-66 and 73-03; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under under ZR §§ 73-66 and 73-03, to permit, on a site located in a C4-2 zoning district, the construction of buildings that exceed the maximum height limits around airports, contrary to ZR § 61-21; *on condition* that all work will substantially conform to the drawings filed with this application and marked "Received January 24, 2018"-fifteen (15) sheets; and *on further condition*:

THAT the maximum height of all buildings, including all appurtenances, shall be as follows: 228 feet AMSL or 216 feet AGL;

THAT all structures shall be marked and lighted in accordance with FAA Advisory circular 70/7460-1 L Change 1, Obstruction Marking and Lighting, red lights – Chapters 4,5(Red),&12;

THAT any failure or malfunction that lasts more than thirty (30) minutes and affects a top light or flashing obstruction light, regardless of its position, shall be reported immediately so a Notice to Airmen ("NOTAM") can be

MINUTES

issued and reported against as soon as normal operation is restored;

THAT temporary construction equipment shall not exceed the overall height of 228 feet AMSL or 216 feet AGL;

THAT any temporary construction equipment greater than 228 feet AMSL or 216 feet AGL in height shall require separate notice to the FAA;

THAT FAA Form 7460-2, Notice of Actual Construction or Alteration, shall be e-filed any time the project is abandoned or (a) at least ten (10) days prior to start of construction and (b) within five (5) days after the construction reaches its greatest height;

THAT any changes in coordinates, heights and frequencies or use of greater power, except those frequencies specified in the Colo Void Clause Coalition; Antenna System Co-Location; Voluntary Best Practices, effective November 21, 2007, shall void this special permit;

THAT any future construction or alteration, including increase to heights, power or the addition of other transmitters, shall require separate notice to the FAA;

THAT cranes to be used for the project be e-filed with the FAA at least 60-90 days prior to exceeding the greatest structure AGL height to prevent construction delays;

THAT substantial construction be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 13, 2017.

CALENDAR

REGULAR MEETING MARCH 27, 2018, 10:00 A.M.

NOTICE IS HEREBY GIVEN of a public hearing, Tuesday morning, March 27, 2018, 10:00 A.M., at 22 Reade Street, Spector Hall, New York, N.Y. 10007, on the following matters:

SPECIAL ORDER CALENDAR

436-53-BZ

APPLICANT – Sheldon Lobel, P.C., for RNA Turnpike Realty LLC, owner.

SUBJECT – Application January 13, 2016 – Extension of Term (§11-411) of a variance permitting the operation of an Automotive Service Station (UG 16B) which expired on February 24, 2014; Amendment (§11-412) to permit the enlargement of the existing building and to permit the conversion of the repair bays to an accessory convenience store; Waiver of the Rules. R3-2 zoning district.

PREMISES AFFECTED – 141-50 Union Turnpike, Block 6634, Lot 34, Borough of Queens.

COMMUNITY BOARD #8Q

393-59-BZ

APPLICANT – Sheldon Lobel, P.C., for Peter Ciardullo, owner; Richard Finkelstein, lessee.

SUBJECT – Application January 5, 2016 – Extension of Term (11-411) for an extension of term of the previously granted variance to a convenience store, pump island and metal canopies for a term of ten years which expired January 15, 2012 and a waiver of the Rules.

PREMISES AFFECTED – 1945 Bartow Avenue aka 2801 Edison Avenue, Block 4800, Lot 29, Borough of Bronx.

COMMUNITY BOARD #12BX

138-87-BZ

APPLICANT – Carl A. Sulfaro, Esq., for Philip Cataldi Trust #2, owner.

SUBJECT – Application August 3, 2017 – Extension of Term (§11-411) of a previously approved variance which permitted the operation of car rental facility (UG 8C) which expired on January 12, 2013; Amendment to permit changes to the interior layout and to the exterior of the building; Waiver of the Rules. C2-2/R2 zoning district.

PREMISES AFFECTED – 218-36 Hillside Avenue, Block 10678, Lot 14, Borough of Queens.

COMMUNITY BOARD #13Q

60-90-BZ

APPLICANT – Michael DeRuvo, R.A., for Nissim Kaley, owner.

SUBJECT – Application June 9, 2016 – Extension of Term of a previously granted Special Permit (§73-211) for the continued use of a Gasoline Service Station (Citgo) and Automotive Repair Shop which expired on February 25, 2016; Waiver of the Rules. C2-1/R3X zoning district.

PREMISES AFFECTED – 525 Forest Avenue, Block 148, Lot 29, Borough of Staten Island.

COMMUNITY BOARD #1SI

40-06-BZ

APPLICANT – MP Design and Construction/Maria Maloney, for UDR 10 Hanover-LLC-Constantine Koukoulis, owner; 10 Hanover Sq Gym, LLC-Alex Reznik-Senior MGM Dir, lessee.

SUBJECT – Application June 9, 2017 – Extension of Term of a previously approved Special Permit (§73-36) which permitted the operation of a Physical Culture Establishment (Goldman-Sachs) on the cellar and sub-cellar levels in a 21-story mixed-use building which expired on August 22, 2016; Amendment to permit the change in operator to (Complete Body) and a change in hours of operation; Waiver of the Rules. C5-5 (LM) zoning district.

PREMISES AFFECTED – 10 Hanover Sq (aka 4-12 Hanover Sq. 110-124 Pearl St, 76-88 Water Street), Block 31, Lot 1, Borough of Manhattan.

COMMUNITY BOARD #1M

APPEALS CALENDAR

102-15-A

APPLICANT – Eric Palatnik, P.C., for Kathleen Spezio, owner.

SUBJECT – Application May 11, 2015 – Proposed enlargement of a building located partially within the bed of mapped unbuilt street, pursuant Article 3 Section 35 of the General City Law and waiver under ZR 72-10-(g) . R3-2/SRD zoning district.

PREMISES AFFECTED – 1088 Rossville Avenue, Block 7067, Lot 1, Borough of Staten Island.

COMMUNITY BOARD #3SI

2017-285-A

APPLICANT – Rosenberg Estis, P.C., for Committee for Environmental Sound Development/ Amsterdam Avenue Redevelopment Associates, LLC, owner.

SUBJECT – Application October 26, 2017 – Application pursuant to Section 666.7(a) of the New York City Charter and Section 1-06 of the Board of Standards and Appeals (the “Board” or “BSA”) Rules of Practice and Procedure, to request that the Board revoke building permit No.

CALENDAR

122887224-01-NB (the "Permit"), issued by the New York City Department of Buildings ("DOB") on September 27, 2017. The application seeks to demonstrate that the permit is not a validly issued building permit because the purported "zoning lot" of which the Development Site is purported to be a part, does not comply with the requirements of the definition of a zoning lot in Zoning Resolution Section 12-10.

PREMISES AFFECTED – 200 Amsterdam Avenue, Block 1158, Lot 133, Borough of Manhattan.

COMMUNITY BOARD #7M

**REGULAR MEETING
MARCH 27, 2018, 1:00 P.M.**

NOTICE IS HEREBY GIVEN of a public hearing, Tuesday afternoon, March 27, 2018, 1:00 P.M., at 22 Reade Street, Spector Hall, New York, N.Y. 10007, on the following matters:

ZONING CALENDAR

2017-8-BZ

APPLICANT – Sheldon Lobel, P.C., for Academic Leadership Charter School, owner.

SUBJECT – Application January 9, 2017 – Variance (§72-21) to permit the construction of a new school (UG 3) (*Academic Leadership Charter School*) contrary to ZR §24-11 (Maximum Allowable Lot Coverage), ZR §24-522 (Heights and Setbacks) and ZR §2436 (Rear Yard). R6 zoning district.

PREMISES AFFECTED – 356-362 East 139th Street, Block 2301, Lot(s) 12, 13, 14, 15, Borough of Bronx.

COMMUNITY BOARD #1BX

2017-191-BZ

APPLICANT – Sheldon Lobel, P.C., for EMPSRGGREENE, LLC, owner.

SUBJECT – Application May 25, 2017 – Variance (§72-21) to permit the legalization of retail (Use Group 6) on the cellar and ground floors of an existing building contrary to ZR §42-14(D)(2)(b). M1-5B (SoHo Cast Iron Historic District).

PREMISES AFFECTED – 47 Greene Street, Block 475, Lot 50, Borough of Manhattan.

10:00 A.M.**

Present: Chair Perlmutter, Vice-Chair Chanda,
Commissioner Ottley-Brown, and Commissioner Sheta.

SPECIAL ORDER CALENDAR

172-97-BZ

APPLICANT – Sheldon Lobel, P.C., for Oceana Holding Corp., owner.

SUBJECT – Application August 28, 2017 – Re-Hearing of a previously approved Variance (§72-21) which permitted the conversion of a portion of the subject building from theater use (UG8) to catering hall (UG 9) which was denied on December 9, 2003. Upon request for an Extension of Term; Amendment to legalize the change in use of a portion of the ground floor from catering hall (UG 9) to a supermarket (UG 6). The remainder of the building remains subject to a variance granted pursuant to BSA calendar number: 530-32-BZ. C1-3/R6 & R6 zoning district.

PREMISES AFFECTED – 1029 Brighton Beach Avenue, Block 8709, Lot 60, Borough of Brooklyn.

COMMUNITY BOARD #13BK

ACTION OF THE BOARD – Application for rehearing denied.

THE VOTE –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a rehearing of an application previously denied by the Board and for an amendment to permit, partially in an R6 zoning district and partially in an R6 (C1-3) zoning district, a supermarket in Use Group 6, an enlargement in commercial floor area and an elimination of term; and

WHEREAS, a public hearing was held on this application on February 27, 2018, after due notice by publication in *The City Record*, and then to decision on the same day; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, the Board has exercised jurisdiction over the subject site since December 6, 1932, when, under BSA Calendar Number 530-32-BZ, the Board granted a variance to permit the extension of a proposed commercial building for use as a theater on condition that the portion of the building extending into the residential use district be of similar design to the balance of the building—face brick with panels; that the lot line wall to the north be un-

punctured and also of face brick with panels, that there be no openings from the building in the 10-foot portion extending into the residential use area except windows and that there be no advertising signs of any nature or description within the residence use portion of the site; and

WHEREAS, on January 11, 2000, under the subject calendar number, the Board granted a variance to permit the conversion of the first floor and mezzanine of the existing building from a theater in Use Group 8 to a banquet hall in Use Group 9 for a term of two (2) years, expiring January 11, 2002, on condition that within 120 days from the date of grant the owner provide a traffic study report to the Board and the Board's environmental staff and accordingly provide a plan to the Board for mitigation of any adverse traffic or parking conditions resulting from the findings of said report, that said traffic study be conducted at a high occupancy peak period when all uses at the site are operating concurrently, that any proposed mitigation plan be subject to the Board approval, that a copy of the traffic study report and proposed mitigation plan be provided to the local community board and civic associations for comment, that the lease of the off-site parking facility be in full effect at all times during the term of the variance, that the site remain graffiti free at all times and that the above referenced conditions appear on the new certificate of occupancy; and

WHEREAS, on December 9, 2003, under the subject calendar number, the Board denied an extension of term of the variance, finding that the applicant had been given considerable opportunity to complete this application, that no satisfactory progress had been made, in that the applicant failed to timely submit requested items, namely a detailed signage analysis and detailed operating plans, and that the items submitted were insufficient to warrant granting an extension of term; and

WHEREAS, the extension of term of the variance denied, the applicant now requests rehearing pursuant to the Board's Rules of Practice and Procedure; and

WHEREAS, the applicant states that there has been a material change in plans or circumstances by proposing to change from a banquet hall in Use Group 9 to a supermarket in Use Group 6; and

WHEREAS, the Board questions whether it would be appropriate to grant the requested rehearing regarding a variance that has not existed since 2002 and was thereafter denied—especially in light of the failure to comply with conditions of the previous grant related to the banquet hall in Use Group 9; and

WHEREAS, at hearing, the Board noted that the applicant may file a new application with the requisite application forms and fees.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *deny* this application.

Adopted by the Board of Standards and Appeals, February 27, 2018.

MINUTES

356-04-BZ

APPLICANT – Kramer Levin Naftalis & Frankel, LLP, for R & F 55th Street Commercial Owner LLC, owner.

SUBJECT – Application November 10, 2016 – Extension of Term of a previously approved Special Permit (§73-36) permitting the operation of a Physical Cultural Establishment (*The Core Club*) which expired on June 7, 2015; Waiver of the Rules. C5-2.5 (MID) zoning district.

PREMISES AFFECTED – 60 East 55th Street, Block 1290, Lot(s) 1103 and 1104, Borough of Manhattan.

COMMUNITY BOARD #5M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure, an extension of term of a special permit, previously granted by the Board, which expired June 7, 2015, and an amendment to extend the hours of operation and to allow minor interior alterations; and

WHEREAS, a public hearing was held on this application on February 13, 2018, after due notice by publication in *The City Record*, and then to decision on February 27, 2018; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 5, Manhattan, waives its recommendation for this application; and

WHEREAS, the subject site is located on the south side of East 55th Street, between Madison Avenue and Park Avenue, in a C5-2.5 zoning district and the Special Midtown District, in Manhattan; and

WHEREAS, the Board has exercised jurisdiction over the subject site since June 7, 2005, when, under the subject calendar number, the Board granted a special permit to allow a physical culture establishment (“PCE”) to be located in portions of the cellar and first floor and on the third, fourth and sixth floors of a 41-story mixed-use building for a term of ten (10) years, expiring June 7, 2015, on condition that all massages be performed only by New York State licensed massage therapists, that there be no change in ownership or operating control of the PCE without prior application to and approval from the Board, that the hours of operation be limited to Monday through Sunday, 7:00 a.m. to 11:00 p.m., and that the above conditions appear on the certificate of occupancy; and

WHEREAS, the term of the special permit having expired, the applicant now seeks a waiver of the Board’s Rules of Practice and Procedure to permit the filing of this application more than one year but less than two years after the expiration of term, an extension of term and an amendment to extend the hours of operation and allow minor interior alterations to the PCE space; and

WHEREAS, the applicant states that the PCE continues to operate as Core Club 55th Street, LLC, with a total of 17,409 square feet of floor area as follows: 533 square feet of floor space in the cellar, 3,020 square feet of floor area on the first floor, 5,686 square feet of floor area on the third floor, 5,505 square feet of floor area on the fourth floor and 3,198 square feet of floor area on the sixth floor; and

WHEREAS, at the Board’s request, the applicant submitted evidence that a full sprinkler system and a Class C fire alarm system have been installed throughout the PCE and that massages are performed only by New York State licensed massage therapists; and

WHEREAS, the Board finds that the circumstances warranting the original grant still obtain and that the applicant has complied with the conditions and safeguards during the prior term; and

WHEREAS, the Board finds that the requested waiver, extension of term and amendment are appropriate with certain conditions set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *waive* the Rules of Practice and Procedure and *reopen* and *amend* the resolution, dated June 7, 2005, so that as amended this portion of the resolution shall read: “to *permit* an extension of term for ten (10) years, expiring June 7, 2015; *on condition* that all work, site conditions and operations shall substantially conform to drawings filed with this application marked ‘Received November 15, 2017’-Six (6) sheets; and *on further condition*:

THAT this grant shall be limited to a term of ten (10) years, expiring June 7, 2025;

THAT all massages shall be performed only by New York State licensed massage therapists;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT the hours of operation shall be limited to Monday through Sunday, 5:30 a.m. to 11:00 p.m.;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by February 27, 2019;

THAT all signage shall comply with signage regulations applicable in a C5-2.5 zoning district in the Special Midtown District;

THAT Local Law 58/87 compliance shall be as reviewed and approved by the Department of Buildings;

THAT a full sprinkler system and a Class C fire alarm system shall be maintained throughout the PCE, as indicated on the Board-approved plans;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered

MINUTES

approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, February 27, 2018.

97-08-BZ

APPLICANT – Eric Palatnik P.C., for Yismach Moshe of Williamsburgh, Inc., owner.

SUBJECT – Application March 10, 2015 – Compliance Hearing.

PREMISES AFFECTED – 84 Sanford Street, between Park Avenue and Myrtle Avenue, Block 01736, Lot 0014, Borough of Brooklyn.

COMMUNITY BOARD #3BK

ACTION OF THE BOARD – Application withdrawn from the compliance calendar.

THE VOTE TO WITHDRAW –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

THE RESOLUTION –

WHEREAS, the subject premises is subject to a special permit, granted pursuant to ZR § 73-19, on March 16, 2010, under the subject calendar number; and

WHEREAS, on March 8, 2016, under the subject calendar number, the Board granted an application for an extension of time to obtain a certificate of occupancy, allowing the applicant until March 8, 2018, to obtain a certificate of occupancy; and

WHEREAS, a condition of that approval was:

THAT the applicant shall regularly monitor the operation of its SSD system and provide the Board with monitoring reports every six months; and

WHEREAS, accordingly, the monitoring reports were required to be submitted to the Board on or around September 8, 2016, March 8, 2017, and September 8, 2017; and

WHEREAS, a single monitoring report, dated November 10, 2016, was received by Board staff subsequent to the 2016 approval and it was reviewed in consultation with the New York City Office of Environmental Remediation; Board staff provided the applicant with comments on that report and requested that the next scheduled report address those comments; and

WHEREAS, a second report was never received by Board Staff and, on September 21, 2017, Board counsel apprised both the owner of record and the applicant of record of the overdue SSD system reports and requested that a response to the letter and/or the outstanding reports be submitted to the Board by October 1, 2017; and

WHEREAS, no such response was made and on October 16, 2017, the Board made a motion to hold a compliance hearing on the subject application; and

WHEREAS, a public hearing was held on this application on December 5, 2017, after due notice to the owner of record and applicant of record by notice dated October 30, 2017, with a continued hearing on February 27, 2018, and then to decision on that date; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed visits of the site and the surrounding area; and

WHEREAS, notice of hearing was provided to the subject site’s owner and applicant of record and in advance of the first hearing, the applicant submitted a Field Inspection Report stating that an onsite inspection of the sub-slab depressurization system (the “SSDS”) was performed on October 30, 2017, that the SSDS alarms and ventilation were operating, there were no indoor air exceedances and that the quality of the indoor air matched that of the outdoor air, indicating that there are no indoor air intrusion sources; and

WHEREAS, at hearing, the Board recommended that the owner of record enter into an agreement with a consultant to regularly monitor the SSDS until such time that testing is no longer required; and

WHEREAS, the applicant provided an executed proposal for engineering services to conduct indoor air testing and inspect the SSDS simultaneously at the site every six (6) months, starting March 15, 2018; the proposal states that, if the agreement is canceled, the vendor will notify the Board within 30 days and also that a request for termination of the SSDS will be made to the Board following compliance with applicable New York State Department of Health guidelines for indoor air intrusion prevention; and

Therefore it is Resolved, that the Board of Standards and Appeals finds that the applicant has submitted adequate documentation demonstrating substantial compliance with the Board’s prior grant and that the application to rescind the variance is withdrawn from the Compliance Calendar; *on condition*:

THAT indoor air testing and SSDS inspections shall be conducted simultaneously at the site every six (6) months, starting March 15, 2018, and provide the Board with monitoring reports every six (6) months;

THAT, pursuant to the executed agreement for testing and inspection submitted to the Board, if the agreement is canceled, the vendor shall notify that Board that they are no longer monitoring the site within 30 days;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect.

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated December 4, 2015, acting on Alteration Application No. 520253092, reads in pertinent part:

“Proposal to continue to occupy premises as a Gasoline Service Station (UG16) ... is not permitted”; and

WHEREAS, this is an application under ZR §§ 73-211 and 73-03 to permit, in an R2 (C2-1) zoning district, the operation of an automotive service station; and

WHEREAS, a public hearing was held on this application on March 28, 2017, after due notice by publication in *The City Record*, with continued hearings on June 6, 2017, October 31, 2017, and January 9, 2018, and then to decision on February 27, 2018; and

WHEREAS, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 1, Staten Island, recommends approval of this application with certain conditions: removing small curb cut on Seneca Avenue at rear of the subject site, providing planting along the subject building on Seneca Avenue, providing higher curbs along the perimeter of the subject site, requesting that the Department of Transportation (“DOT”) extend the right turn lane from Clove Road along Victory Boulevard to Seneca Avenue, providing adequate distance for the large Seneca Avenue curb cut from accessible corner ramps on Victory Boulevard and reducing the height of the proposed sign from 38 feet to 20 feet; and

WHEREAS, Staten Island Borough President James S. Oddo submitted testimony in opposition to this application, citing concerns related to traffic and pedestrian safety; and

WHEREAS, the subject site is located on the southeast corner of Victory Boulevard and Seneca Avenue, in an R2 (C2-1) zoning district in Staten Island; and

WHEREAS, the subject site has approximately 135 feet of frontage along Victory Boulevard, 94 feet of frontage along Seneca Avenue, 13,347 square feet of lot area and is occupied by a one-story commercial building used as a food store; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 14, 1961, when, under BSA Calendar Number 826-60-BZ, the Board granted a variance to permit the reconstruction of a present legal gasoline station, including minor auto repairs with hand tools only, non-automatic car wash, service and store rooms, office and parking for more than five motor vehicles awaiting service on condition that there be a 5'-6" high brick wall constructed from the southwest corner of the altered accessory building out to the Seneca Avenue building line, that sidewalks and curb cuts be provided to the satisfaction of the Borough President and that all work be completed a certificate of occupancy obtained; and

WHEREAS, on March 14, 1961, under BSA Calendar Number 827-60-A, the Board granted an appeal under General City Law § 35 to permit the construction of two gasoline pumps on a concrete island, curb cuts and post standard and sign within the bed of a mapped street on condition that all of the requirements cited in the resolution, adopted under BSA Calendar Number 826-60-BZ be complied with and that a certificate of occupancy be obtained; and

WHEREAS, on December 20, 1977, under BSA Calendar Number 826-60-BZ, the Board amended the variance to change the occupancy of bays to food store (Use Group 6) and to install new store front on condition that there be no auto repairs or lubrication of vehicles done at the subject site; and

WHEREAS, on June 19, 1979, under BSA Calendar Number 826-60-BZ, the Board amended the variance to permit interior changes of food store, the closing of the overhead door on the Seneca Avenue side of the building, revised store front and the re-arrangement of pump islands and pumps; and

WHEREAS, the applicant states that operation of the gasoline service station approved under BSA Calendar Number 826-60-BZ was discontinued in 1997; and

WHEREAS, ZR 73-211 provides:

In any C2, C4, C6 or C7 District whose longer dimension is 375 feet or more (exclusive of land in *streets*), the Board of Standards and Appeals may permit *automotive service stations*, provided that the following findings are made:

- (a) that the site for such *use* has a minimum area of 7,500 square feet; and
- (b) that the site for any such *use* which is not located on an arterial highway or a major *street* has a maximum area of 15,000 square feet.

The Board shall prescribe the following conditions:

- (1) that any facilities for lubrication, minor

MINUTES

- repairs or washing are located within a *completely enclosed building*;
- (2) that the site is so designed as to provide reservoir space for five waiting automobiles within the *zoning lot* in addition to spaces available within an enclosed lubritorium or at the pumps;
 - (3) that entrances and exits are so planned that, at maximum expected operation, vehicular movement into or from the *automotive service station* will cause a minimum of obstruction on *streets* or sidewalks;
 - (4) that, along any *rear lot line* or *side lot line* adjoining a *Residence District*, the *zoning lot* is screened, as the Board may prescribe, by either of the following methods:
 - (i) a strip at least four feet wide, densely planted with shrubs or trees at least four feet high at the time of planting and which are of a type which may be expected to form a year-round dense screen at least six feet high within three years; or
 - (ii) a wall or barrier or uniformly painted fence of fire-resistant material at least six feet high, but not more than eight feet above finished grade. Such wall, barrier, or fence may be opaque or perforated, provided that not more than 50 percent of its face is open; and
 - (5) that *signs*, other than *advertising signs*, shall be subject to the applicable district *sign* regulations, provided that:
 - (i) in C2 Districts, the provisions of Sections 32-642 (Non-illuminated signs) and 32-643 (Illuminated non-flashing signs) shall be modified to permit non-*illuminated* or *illuminated non-flashing signs* with a total *surface area* not exceeding 150 square feet on any *zoning lot*; and
 - (ii) the provisions set forth in Section 32-652 (Permitted projection in all other Commercial Districts) may be modified in accordance with the provisions of Section 73-212 (Projection of accessory signs).

The Board may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, and to protect *residential zoning lots* which are adjoining or across the *street*.

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to

the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the Board finds that the subject site has a minimum area of 7,500 square feet; and

WHEREAS, the applicant states that the subject site is not located on an arterial highway or major street; and

WHEREAS, because the subject site is not located on an arterial highway or a major street, the Board finds that the subject site has a maximum area of 15,000 square feet; and

WHEREAS, the applicant submits that no facilities for lubrication, minor repairs or washing are proposed; that the subject site provides sufficient space to allow for reservoir space for a minimum of five automobiles waiting to use proposed gasoline pumps; that no changes are proposed to the current access to the subject site, which allows for minimum obstruction on streets or sidewalks and that, as a corner lot, vehicles have multiple options to enter the site, minimizing obstruction on streets or sidewalks that could occur due to limited access; that no lot lines of the subject site adjoin a residential district; and that total surface area of signage at the subject site will not exceed 150 square feet; and

WHEREAS, the applicant states that the existing convenience store will be reduced in size and will comply with DOB Technical Policy and Procedure Notice 10/99, rendering the convenience store an accessory use to the proposed automotive service station; and

WHEREAS, in response to community concerns and questions from the Board, the applicant proposes to reduce the number of proposed gasoline pumps from three pumps to two pumps, thereby improving circulation within the subject site, to eliminate diesel gasoline to restrict service to passenger vehicles, to remove a proposed additional curb cut on Seneca Avenue, to reduce the width of the remaining curb cut on Seneca Avenue, to repair of the curb along Seneca Avenue, to provide planting along Seneca Avenue with two additional street trees and screening of the delivery ramp and to reduce the height of signage to be below 25 feet; and

WHEREAS, the applicant provided a car-overflow plan to accommodate reservoir space for a minimum of five automobiles and provided a pedestrian study indicating that pedestrian traffic along Victory Boulevard is low, with most pedestrians traveling near the existing retail, restaurants and bus stops and indicating that existing and anticipated

MINUTES

pedestrian traffic will remain low; and

WHEREAS, the applicant submitted a light-spread diagram and proposes additional evergreen landscaping with grass and street trees, an acoustical screen for the rooftop HVAC equipment, additional fencing with screening; and

WHEREAS, the applicant further proposes that the fencing be aluminum, rather than chain link, and indicates that the building wall will be stucco; and

WHEREAS, the applicant revised the circulation plan to show a pass-through lane surrounding the two proposed gasoline pumps, thereby allowing internal circulation of vehicles with the existing sidewalk; and

WHEREAS, the applicant revised the plans to include proposed “no left turn” signage for the easternmost curb cut on Victory Boulevard, to remove the center curb cut on Victory Boulevard, to indicate bollards to be installed at the property lone on Victory Boulevard to provide additional safety for pedestrians and to ensure that the Builders Pavement Plan and legality of curb cuts shall be as reviewed and approved by DOB; and

WHEREAS, the Board takes no position as to the location and legality of the curb cuts at the subject site, which shall be subject to review and approval by DOB and DOT; and

WHEREAS, in response to Borough President Oddo’s concerns regarding public safety and traffic, the Board finds that a term of fifteen (15) years will serve as an impetus for the subject site to remain in compliance with the Board’s grant since substantial violation of the Board’s conditions and safeguards will result in the denial of an application for an extension of term; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed automotive service station is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed automotive service station will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 16BSA064R, received October 26, 2016; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design; Natural Resources; Hazardous Materials; Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction Impacts; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-211 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR §§ 73-211 and 73-03 to *permit*, in an R2 (C2-1) zoning district, the operation of an automotive service station; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked “Received February 27, 2018”-Seven (7) sheets; and *on further condition*:

THAT this grant shall be limited to a term of fifteen (15) years, expiring February 27, 2033;

THAT all curb cuts shall be as reviewed and approved by the Department of Transportation and the Department of Buildings for compliance with applicable laws, rules and regulations; however, any change to the location of curb cuts shall void this special permit;

THAT no diesel gasoline shall be provided at the subject site;

THAT there shall be a maximum of two (2) gasoline pumps at the subject site, as illustrated on the Board-approved drawings;

THAT bollards shall be installed along Victory Boulevard to protect pedestrians, as illustrated on the Board-approved plans;

THAT 6’-0” fencing shall be installed to protect adjoining residences, as illustrated on the Board-approved plans;

THAT all lighting shall be directed away from adjoining properties;

THAT as to the accuracy of the site plan in comparison to the Damage and Acquisition Map, the Board defers to the Department of Transportation and the Department of Buildings;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years by February 27, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

MINUTES

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 27, 2018.

2016-4329-A

APPLICANT – Richard G. Leland, for Baychester Retail III LLC, owner.

SUBJECT – Application November 10, 2016 – Administrative appeal challenging the Department of Buildings' final determination dated October 25, 2016, to permit the installation of 54 individual signs at the subject property. C7 zoning district.

PREMISES AFFECTED – 2001 Bartow Avenue, Block 5141, Lot 101, Borough of Bronx.

COMMUNITY BOARD #10BX

ACTION OF THE BOARD – Appeal denied.

THE VOTE TO GRANT –

Affirmative:0

Negative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

THE RESOLUTION –

WHEREAS, the determination of the Department of Buildings (“DOB”), dated October 7, 2016, acting on Alteration Application No. 220543561 the (“Determination”), reads in pertinent part:

The request to allow the filing of multiple signs on each surface of a monopole advertising sign structure is denied.

BSA 35-15-A adopted May 3, 2016 denied the request to consider a sign surface assembly of multiple LED video screens as multiple signs in large part by concluding that the video screen assembly is held up by a unifying structure. While

the newly proposed ‘grid’ holding the individual video screens differs from the ‘structure’ used for the sign assemblage considered in the BSA case ultimately, the newly proposed ‘grid’ is part of a monopole i.e.: every part of the grid that holds up the individual LED screens is held up by forces that ‘travel’ down to the monopole which holds up the entire grid. Therefore, independent of the particular formation of the ‘grid’ the structure holding up the individual LED screens must be considered one structure and following the BSA opinion each flat surface assembly of video screens is [to] be considered one sign; and

WHEREAS, this is an appeal for interpretation under Section 72-11 of the Zoning Resolution of the City of New York (“ZR”) and Section 666(6)(a) of the New York City Charter, brought on behalf of Baychester Retail III LLC (“Appellant”), alleging errors in the Determination pertaining to two vertical planes, each comprised of 27 illuminated light-emitting diode (“LED”) video screens (the “Subject Displays”), proposed to be placed on structural frames, consisting of vertical and horizontal supports, uprights, cross-arms and rods (the “Structural Frames”), atop a monopole (together with the Subject Displays and the Structural Frames, as a whole, the “Subject Structure”) adjacent to the New England Thruway, a designated arterial highway; and

WHEREAS, on May 3, 2016, the Board denied an appeal regarding the subject site and an identically arranged array of two vertical planes of 27 illuminated LED video screens (the “Original Assembly”) for failing to comply with surface-area restrictions under BSA Calendar Number 35-15-A (the “Original Appeal”); and

WHEREAS, the Supreme Court of the State of New York upheld the Original Appeal in *Baychester Retail III LLC v. Bd. of Standards & Appeals of City of New York*, No. 157091/2016 (N.Y. County 2017); and

WHEREAS, this appeal was filed on November 10, 2016; and

WHEREAS, a public hearing was held on this application on March 21, 2017, after due notice by publication in *The City Record*, with continued hearings on May 23, 2017, October 3, 2017, and December 12, 2017, and then to decision on February 27, 2018; and

WHEREAS, Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, the New York City Department of City Planning (“DCP”) submitted testimony recommending denial of this appeal because, based upon DCP’s review of the Zoning Resolution’s sign provisions for commercial districts, the “surface area (of a sign)” definition of ZR § 12-10 and research into the advertising sign regulations adopted in 1961 and subsequently amended, in one instance in 1980, in response to the federal Highway Beautification Act, the Subject Displays exceed the surface area permitted

MINUTES

near an arterial highway; and

WHEREAS, Community Board 10, Bronx, recommends denial of this appeal, stating that existing illuminated signs at the subject site shine directly into Co-op City apartments, thereby diminishing residents' health and quality of life; the Community Board additionally questions the proximity of the Subject Displays to adjacent highways, their compliance with the federal Highway Beautification Act and requests that the Board review and take into account the effect that the Subject Displays would have on the health and quality of life of the residents of Co-op City; and

WHEREAS, Council Member Andy King submitted testimony stating that residents of Co-op City "do not deserve the nuisance" of illuminated signage that "substantially interferes with the ability of neighboring residents to use and enjoy their own properties" and expressing concerns that the Subject Displays will "expos[e] residents and [the] neighborhood to even more LED light, at all times of day and night, than they already experience from the existing [illuminated] signs"; and

WHEREAS, Congressman Eliot Engel submitted testimony in opposition to this appeal, stating that existing illuminated signs at the subject site "shine brightly during all hours of the day and night, making it difficult to sleep" for residents of Co-op City, and that the existing signs "are a nuisance that should not be permitted"; and

WHEREAS, in connection with concerns about three existing LED signs at the subject site, which, along with a large portion of the monopole intended to support the subject of this appeal, were installed sometime between December 2017 and January 2018, the Board received a 52-page petition signed by approximately 500 area residents opposing the installation of the Subject Displays and requesting removal of the recently-installed existing LED signs; and

WHEREAS, the Board clarified at hearing and explicitly states now that the three existing LED signs are not the subject of this appeal; and

WHEREAS, DOB and Appellant have been represented by counsel throughout this appeal; and

BACKGROUND

WHEREAS, the subject site is located on the northeast corner of Bartow Avenue and Baychester Avenue, in a C7 zoning district, in the Bronx; and

WHEREAS, the site has approximately 140 feet of frontage along Bartow Avenue, 145 feet of frontage along Baychester Avenue, 20,488 square feet of lot area and is improved with a one-story commercial building under construction, a triple-faced LED sign on a monopole, a double-faced LED sign on a monopole and a portion of the monopole intended to support the Structural Frames and the Subject Displays, all of which were constructed or installed in late 2017 or early 2018; and

WHEREAS, Appellant represents that the subject site

is 287 feet from the New England Thruway,¹ an arterial highway designated by the City Planning Commission pursuant to ZR §§ 32-66 and 42-55; and

WHEREAS, Appellant represents that the Subject Displays are 322 feet from the New England Thruway²; and

WHEREAS, the Subject Displays are approximately 500 feet from Co-op City; and

WHEREAS, Co-op City is a residential development designed to house approximately 55,000 residents in approximately 39 buildings in order to "provide an attractive, pleasant, stimulating, and aesthetically satisfying living environment," City Planning Commission, Report No. CP-18831, 339 (May 12, 1965); and

WHEREAS, the Subject Displays include 54 LED video screens for the display of advertisements to be supported by a 195-foot-high monopole, ranging in diameter from 12'-6" to 9'-2"; and

WHEREAS, the Subject Displays' 54 LED video screens are arranged on two vertical planes, back-to-back at an acute, V-shaped angle, each consisting of 27 LED video screens facing north and south, each spaced 12 inches apart, each measuring approximately 9,164 square feet and each with a total width of 97'-6" and a total height of 91'-6"; and

WHEREAS, the Subject Displays are each attached to the monopole by the Structural Frames,³ which consist of vertical and horizontal supports, uprights, cross-arms and rods; and

ZONING RESOLUTION

WHEREAS, in 1940, the City Planning Commission determined that "[b]illboards and signs not only dominate our business streets . . . but they take advantage of every opportunity to crowd in upon public places, established and maintained by public funds, including civic centers, parks, and especially express highways and bridge approaches," *see* Major Reports of the City Planning Commission, 85 (1940); and

WHEREAS, in response to the overcrowding of areas adjacent to public highways with signs and billboards, since 1940, the City has regulated commercial advertising signs

1 The New England Thruway is under the jurisdiction of the New York State Thruway Authority. *See* N.Y. Pub. Auth. Law §§ 356, 361-a. Nothing in the record indicates that Appellant has complied with any relevant advertising-device regulations of the Thruway Authority, though the Board need not determine the extent of their applicability since the Subject Displays contravene the Zoning Resolution, as discussed herein.

2 In this appeal, the Board has not considered the exact distance of the Subject Structure from the New England Thruway beyond approximating the distance as 322 feet, as presented by the Appellant and, in the course of BSA hearings, uncontroverted by DOB, and nothing herein shall be read as a determination as to such distance.

3 The Board notes that the term "structural frame" is undefined in the Zoning Resolution but is a term of art in the field of engineering.

MINUTES

adjacent to arterial highways in order to promote the City's twin goals of advancing aesthetic values and improving traffic safety. *See Infinity Outdoor, Inc. v. City of New York*, 165 F. Supp. 2d 403, 406–11 (E.D.N.Y. 2001); *see also Clear Channel Outdoor, Inc. v. City of New York*, 594 F.3d 94, 99–100 (2d Cir. 2010); *Mogul Media, Inc. v. City of New York*, No. 16 CIV. 9794 (PAE), 2017 WL 6594223, at *1–2 (S.D.N.Y. Dec. 22, 2017) (appeal pending); and

WHEREAS, in 1980, the Zoning Resolution was amended to incorporate federal and state highway-beautification standards for existing advertising signs “because local zoning controls are more stringent than standards set forth in the federal HBA,” City Planning Commission, Report No. N 790718 ZRY, 1 (Jan. 30, 1980)⁴; and

WHEREAS, in its 1980 report, the City Planning Commission further stated:

“By the term advertising sign the Commission intends to include both the message and the structure. Therefore, the relevant dimensions are those of the entire sign, not just the message area. If a sign structure built between 1968 and 1979 is 60 feet in height and 100 feet in length it is not grandfathered by the zoning text amendment even if the message area measures only 25 feet by 25 feet,” *id.* at 2; and

WHEREAS, under ZR § 12-10, a “sign” is “a structure or any part thereof, or is attached to . . . a *building or other structure*” (emphasis in original indicating defined term); and

WHEREAS, under ZR § 12-10, a commercial “advertising sign” is a “*sign that directs attention to a business, profession, commodity, service or entertainment conducted, sold, or offered elsewhere than upon the same zoning lot and is not accessory to a use located on the zoning lot*” (emphasis in original); and

WHEREAS, ZR § 12-10 defines a sign’s “surface area” as follows:

The “surface area” of a *sign* shall be the entire area within a single continuous perimeter enclosing the extreme limits of writing, representation, emblem, or any figure of similar character, together with any material or color forming an integral part of the display or used to differentiate such *sign* from the background against which it is placed. In any event, the supports or uprights on which such *sign* is

supported shall not be included in determining the *surface area* of a *sign*.

When two *signs* of the same shape and dimensions are mounted or displayed back-to-back and parallel on a single free-standing structural frame, only one of such *signs* shall be included in computing the total *surface area* of the two *signs*.

When a double-faced *sign* projects from the wall of a *building*, and its two sides are located not more than 28 inches apart at the widest point and not more than 18 inches apart at the narrowest point, and display identical writing or other representation, the *surface area* shall include only one of the sides. Any additional side of a multi-faced *sign* shall be considered as a separate *sign* for purposes of computing the total *surface area* of the *sign*; and

WHEREAS, under ZR § 32-63, “*advertising signs* are permitted subject to the applicable provisions of . . . Section 32-64 (Surface Area and Illumination Provisions) [and] Section 32-66 (Additional Regulations for Signs Near Certain Parks and Designated Arterial Highways) . . .”; and

WHEREAS, ZR § 32-64 states in pertinent part: No *illuminated sign* shall have a degree or method of illumination which exceeds standards established by the Department of Buildings by rule pursuant to the City Administrative Procedure Act. Such standards shall ensure that illumination on any *illuminated sign* does not project or reflect on *residences, loft dwellings or joint living-work quarters for artists* so as to interfere with the reasonable use and enjoyment thereof. Nothing herein shall be construed to authorize a *sign with indirect illumination* to arrange an external artificial source of illumination so that direct rays of light are projected from such artificial source into *residences, loft dwellings or joint living-work quarters for artists*; and

WHEREAS, under ZR § 32-644, “*illuminated or flashing signs* with total *surface areas* not exceeding those shown in the following table are permitted: . . . C7 No restrictions as to size”; and

WHEREAS, under ZR § 32-662, “[b]eyond 200 feet from such arterial highway or *public park*, an *advertising sign* shall be located at a distance of at least as many linear feet therefrom as there are square feet of *surface area* on the face of such *sign*”; and

PUBLIC AUTHORITIES LAW

WHEREAS, under N.Y. Public Authorities Law § 361-a,⁵ “the erection or maintenance of any advertising device located within six hundred sixty feet of the nearest

4 Compliance with the federal Highway Beautification Act required the City’s enforcement against the plethora of then-illegal arterial advertising signs—an inordinately costly endeavor—so existing illegal advertising signs were granted lawful non-conforming use status so long as they complied with federal and state highway-beautification standards. *See* City Planning Commission, Report No. N 790718 ZRY, 1 (Jan. 30, 1980).

5 The Board requested at hearing that Appellant and DOB brief the applicability of this Public Authorities Law provision to the Subject Displays.

MINUTES

edge of the right-of-way of the thruway without a written permit therefor granted by the authority pursuant to this section is prohibited,” “[e]xcept as otherwise provided in this section”; and

PROCEDURAL HISTORY

WHEREAS, in the Original Appeal, Appellant sought redress from a DOB determination that a monopole supporting 54 illuminated LED video screens constituted a single sign and that such sign must comply with the arterial-advertising restrictions of ZR § 32-622; and

WHEREAS, on May 3, 2016, after five public hearings and much deliberation on a voluminous administrative record, the Board denied the Original Appeal finding that, among other things, an assembly made up of 54 illuminated LED video screens mounted on two vertical planes, each comprised of 27 LED video screens, mounted on opposite sides of a monopole (the “Original Assembly”) constituted at least one advertising sign, “the surface area of which greatly exceed[ed] that which is permitted at its location”; and

WHEREAS, on March 13, 2017, in *Baychester Retail III LLC*, the Supreme Court of the State of New York upheld the Board’s resolution in the Original Appeal; and

WHEREAS, Supreme Court concluded that the Board’s determination that 27 LED video screens arranged along a vertical plane on the Original Assembly constituted a single sign that, when measured in the aggregate, exceeded the surface area restrictions of ZR § 32-662 was rational and supported by substantial evidence; and

WHEREAS, Supreme Court referred to the “surface area (of a sign)” definition in ZR § 12-10 and found that one must consider that part of the entire structure which constitutes a “sign” and distinguish such “sign” from the “support”; and

WHEREAS, Supreme Court determined that the 27 LED video screens were “mounted” and “displayed back to back . . . on a single free-standing structural frame” and must be measured as a whole, not individually, based upon only one of the Original Assembly’s two vertical planes; and

WHEREAS, Supreme Court affirmed the Board’s calculation of the Original Assembly’s surface area “in and of itself,” “distinct from the monopole support”; and

WHEREAS, Supreme Court noted that “measurements of the support structure were not included in determining the surface area of the signs atop of the structure”; and

WHEREAS, Supreme Court found the Board’s resolution “buttressed by the fact that there is a single pole that supports the 54 purported individual panels”; and

WHEREAS, on October 7, 2016, DOB issued the Determination, and Appellant commenced this appeal on November 10, 2016, seeking reversal of the Determination; and

ISSUE PRESENTED

WHEREAS, this appeal concerns whether the Subject Displays are located at a distance of at least as many linear

feet from the New England Thruway as there are square feet of surface area on the Subject Displays as required by ZR § 32-662; and

APPELLANT’S POSITION

WHEREAS, Appellant argues that, in the Original Appeal, the Board determined that the configuration of the structural frame onto which 27 LED video screens were to be mounted constituted a single sign, hence the surface area of that sign, at 9,164 square feet, exceeded the maximum permissible surface area of 322 square feet, but that, in this appeal, the design of the Structural Frames renders the 54 LED video screens individual signs of less than 322 square feet each; and

WHEREAS, Appellant asserts that the structural frame rejected by the Board in the Original Appeal, which, it argues, hung all of the LED video screens off of one interconnected structural grid, is in this appeal, an array of supports, uprights, cross-arms and rods, each of which is attached independently to the monopole, creating 54 individual signs and sign structures mounted to a monopole that comply with ZR § 32-662; and

WHEREAS, in the Original Appeal, Appellant submitted a set of alternate drawings (“Exhibit K”) showing that a reconfiguration of the structural frame that placed each LED video screen on a separate structural arm extending horizontally from the monopole would be no different visually from the Original Assembly, which DOB, and later the Board, had rejected; and

WHEREAS, in the Original Appeal, comparing Exhibit K to the Original Assembly, Appellant entitled Exhibit K “A Distinction without a Difference” and stated that Exhibit K offered no visual difference in the appearance of the Original Assembly’s 27 LED video screens when seen from the front; and

WHEREAS, in response to questions posed by the Board, Appellant concedes that the Subject Displays are configured in a virtually identical manner to Exhibit K, which was presented to the Board in the Original Appeal; and

WHEREAS, in this appeal, Appellant states that DOB’s application of the Board’s determination in the Original Appeal to the Subject Displays contradicts the Board’s interpretation of the applicable zoning provisions; and

WHEREAS, Appellant states that this appeal concerns multiple structures affixed to a monopole, which design is similar to other sign structures that DOB has determined to be comprised of multiple signs because separate armatures support individual signs on a monopole; and

WHEREAS, Appellant states that DOB requires separate construction applications and separate sign permits⁶ where there are gaps between signage and where signs are supported on separate structures attached to a

⁶ The Board notes that the New York City Construction Codes, not the Zoning Resolution, govern applications for construction. *See* Admin. Code §§ 28-104.1, 28-105.4.5.

MINUTES

common monopole; and

WHEREAS, Appellant states that the screens on the Subject Displays are neither parallel nor back-to-back; and

WHEREAS, Appellant states that each horizontal tubular steel arm does not ever touch or support any other screen, similar to the multi-faced signs located at 352 West 13th Street and 620 Eleventh Avenue; and

WHEREAS, accordingly, Appellant argues that each of the 54 LED video screens is a separate sign with less than 322 square feet of surface area that complies with ZR § 32-662; and

DOB'S POSITION

WHEREAS, having reviewed the Subject Displays under the standards set forth in BSA Calendar Number 35-15-A, DOB issued the Determination, finding that the proposed 'grid' is part of a monopole i.e.: every part of the grid that holds up the individual LED screens is held up by forces that 'travel' down to the monopole which holds up the entire grid. Therefore, independent of the particular formation of the 'grid' the structure holding up the individual LED screens must be considered one structure and following the BSA opinion each flat surface assembly of video screens is [to] be considered one sign; and

WHEREAS, DOB states that, as with the Original Assembly, the Subject Displays' LED video screens will be placed on armatures that extend out from the monopole, making up a single grid-like structure, and that the placement of multiple LED video screens on series of horizontal armature supports connected to—and supported by—a monopole, but not connected to more than one screen or to each other, is an immaterial deviation from the Original Assembly's structural grids; and

WHEREAS, DOB states that this appeal does not concern LED video screens supported by separate ground-supported monopoles and disputes Appellant's characterization of the Subject Displays' arms as separate structures when they are all supported by a monopole and connected by vertical supports; and

WHEREAS, DOB states that, similar to the Original Assembly, the design and arrangement of LED video screens along vertical planes indicate that the Subject Displays' vertical planes are to be perceived as a whole and are meant to be considered as such; and

WHEREAS, DOB states that the similarity, if not identicalness, of the Subject Displays to the Original Assembly was demonstrated by Appellant's own visual representations of the two proposed sign structures in the Original Appeal; and

WHEREAS, DOB states that the LED video screens on the Subject Displays will display pictorial representations or other figures of similar character and will be attached to a structure, be used to advertise and will be visible from outside a building, thereby meeting the sign definition of ZR § 12-10; and

WHEREAS, DOB states that the "extreme limits" of

representation takes into account the totality of representation by multiple LED video screens on the Subject Displays; and

WHEREAS, DOB states that, unlike multi-faced signs at 352 West 13th Street and 620 Eleventh Avenue in Manhattan, the Subject Displays have a smaller degree of separation between panels, is not surrounded by open sky on three sides and is supported by a single grid connected to and supported by a monopole; and

WHEREAS, accordingly, DOB argues that the Subject Displays do not comply with ZR § 32-662 as it is located nearer the New England Thruway than its surface area of 9,164 square feet allows; and

DISCUSSION

WHEREAS, comparing the Subject Displays to the Original Assembly, the Board finds that the manner by which the LED video screens are attached is ultimately "a distinction without a difference," as Appellant noted in the Original Appeal; and

WHEREAS, the Board notes at the outset that, although Appellant states that the Subject Displays now comply with the Zoning Resolution, Appellant has not rearranged the Original Assembly and has instead slightly modified the design of the structural frames onto which the Original Assembly would be mounted—modifications which Appellant described in the Original Appeal as "a distinction without a difference" when comparing the modified frame to the frame to which the Original Assembly was mounted; and

WHEREAS, in the Original Appeal, the Board found that the Original Assembly was attached to a single freestanding pole "structure," and the Board finds that the Subject Displays are attached to a single freestanding pole "structure," ZR § 12-10 (defining "sign"); and

WHEREAS, in the Original Appeal, the Board found that connected to the Original Appeal's monopole were gridded structural frames made up of vertical and horizontal supports, uprights, cross-arms and rods, and the Board finds that connected to this appeal's monopole are the Structural Frames, which are gridded and made up of vertical and horizontal supports, uprights, cross-arms and rods; and

WHEREAS, in the Original Appeal, the Board found that connected to the Original Appeal's gridded structural frames were 54 LED video screens, which made up the Original Assembly, and the Board finds that connected to this appeal's Structural Frames are 54 LED video screens, which make up the Subject Displays; and

WHEREAS, in the Original Appeal, the Board found that the Original Assembly's 54 LED video screens were arranged along two vertical planes, each measuring approximately 97'-6" in width and 91'-6" in height, and the Board finds that the Subject Displays' 54 LED video screens are arranged along two vertical planes, each measuring approximately 97'-6" in width and 91'-6" in height; and

WHEREAS, in the Original Appeal, the Board found that the Original Assembly constituted at least one sign, and

MINUTES

the Board finds that the Subject Displays constitute two signs⁷; and

WHEREAS, in the Original Appeal, the Board found that 27 of the Original Assembly's LED video screens were "mounted" and "displayed . . . on a single free-standing structural frame," and the Board finds that 27 of the Subject Displays' LED video screens are "mounted" and "displayed . . . on a single free-standing structural frame," ZR § 12-10 (defining "surface area (of a sign)"); and

WHEREAS, in the Original Appeal, the Board found that the Original Assembly's 27 LED video screens were designed to display "writing, representation, emblem, or any figure of similar character," and the Board finds that the Subject Displays' 27 LED video screens are designed to display "writing, representation, emblem, or any figure of similar character," *id.*; and

WHEREAS, in the Original Appeal, the Board found that the "extreme limits of . . . representation" on the Original Assembly took into account all 27 of the LED video screens mounted and displayed along each vertical plane,⁸ and the Board finds that the "extreme limits of . . . representation" on the Subject Displays take into account all 27 of the LED video screens mounted and displayed along each vertical plane, *id.*; and

WHEREAS, in the Original Appeal, the Board found no indication that "single continuous perimeter" referred to a continuous physical perimeter in examining the Original Assembly's vertical planes—that is, the perimeter of each individual LED video screen—and the Board finds no indication that "single continuous perimeter" refers to a continuous physical perimeter in examining the Subject Displays, *id.*; and

WHEREAS, in the Original Appeal, the Board found that the "single continuous perimeter enclosing the extreme limits of . . . representation" on the Original Assembly was a continuous line drawn around all 27 of the LED video screens located on a vertical plane, and the Board finds that the "single continuous perimeter enclosing the extreme limits of . . . representation" on the Subject Displays is a continuous line drawn around all 27 of the LED video

screens located on each vertical plane of the Subject Displays, *id.*; and

WHEREAS, in the Original Appeal, the Board found that the "entire area within" the continuous line drawn around the Original Assembly's 27 LED video screens exceeded 322 square feet, and the Board finds that the "entire area within" the continuous line drawn around the Subject Displays' 27 LED video screens exceeds 322 square feet, *id.*; and

WHEREAS, in the Original Appeal, the Board found that said area constituted the "surface area" of the Original Assembly, and the Board finds that such area constitutes the "surface area" of the Subject Displays, *id.*; and

WHEREAS, in the Original Appeal, the Board did not include "the supports or uprights" in calculating the surface area of the vertical planes on the Original Assembly, and the Board does not include "the supports or uprights" in calculating the surface area of the Subject Displays; and

WHEREAS, in the Original Appeal, the Board found that, contrary to ZR § 32-662, the Original Assembly was not located at a distance of at least as many linear feet from the New England Thruway as there were square feet of surface area on either of the Original Assembly's vertical planes, and the Board finds that, contrary to ZR § 32-662, the Subject Displays are not located at a distance of at least as many linear feet from the New England Thruway as there are square feet of surface area on either of the Subject Displays' vertical planes; and

WHEREAS, in response to questions raised at hearing, Appellant states that, consistent with N.Y. Public Authorities Law § 361-a (restriction and regulation of advertising devices), no permit from the New York State Thruway Authority is necessary to construct or maintain an advertising device adjacent to the New England Thruway, citing a letter from the Thruway Authority's records access officer; and

WHEREAS, DOB states that it has not required the approval of a state agency as a prerequisite for the issuance of a sign permit in proximity to an arterial highway and presented a letter from the Thruway Authority's general counsel stating that "the Thruway Authority will continue to defer to the City of New York for permitting of advertising devices within City limits"; and

WHEREAS, the Board need not determine the applicability of N.Y. Public Authorities Law § 361-a in this appeal or of the Thruway Authority's advertising-device regulations promulgated thereunder; and

WHEREAS, the Board further notes that, in the Original Appeal, a minority of the Commissioners expressed a concern about whether it would be permissible to reconfigure the Original Assembly by mounting each LED video screen to an individual structure; however, the Board explicitly stated in the Original Appeal that it was not reaching a determination as to any signage assembly other than the Original Assembly; and

WHEREAS, the Board reiterates that the Subject Displays' LED video screens are not mounted to individual

⁷ The Subject Displays are "attached to . . . a *building or other structure*," are "used to . . . advertise" and are "visible from outside a *building*." ZR § 12-10 (defining "sign"). Hence, both of the Subject Displays' vertical planes are signs. Were the Subject Displays arranged "back to back and parallel," "only one" of the Subject Displays would "be included in computing the total *surface area* of the two signs." ZR § 12-10 (defining "surface area (of a sign)").

⁸ In the resolution for the Original Appeal, under BSA Calendar Number 35-15-A, the Board incorrectly stated that the LED video screens were arranged on back-to-back and parallel vertical planes. The planes of the Original Assembly were actually arranged back-to-back at an acute angle, just like the Subject Displays; however, this distinction was immaterial to the Original Assembly's non-compliance with ZR § 32-662.

MINUTES

structures as Appellant alleges; rather, the Board finds that they are mounted to the Structural Frames, which are part of the Subject Structure—an individual structure; and

WHEREAS, the Board again finds that it would not be appropriate in this appeal for the Board to render a determination as to other signage assemblies, including those located at 352 West 13th Street and 620 Eleventh Avenue in Manhattan, and that this appeal only pertains to the Subject Displays; and

WHEREAS, consistent with the Board’s resolution in the Original Appeal, the Board finds that the Subject Displays would be a clear hazard to motorists on the New England Thruway and, by virtue of its size, degree of illumination and, due to its close proximity to Co-op City, a potentially significant nuisance to area residents; and

WHEREAS, the Board notes that ZR § 32-64 specifically prohibits signage illumination from projecting or reflecting on residences “so as to interfere with the reasonable use and enjoyment thereof”; and

WHEREAS, the Board credits the testimony in the record from residents of Co-op City, elected officials and other stakeholders that the Subject Displays would interfere with residents’ quality of life in Co-op City—supporting the Board’s concern about the negative land-use impacts posed by the Subject Displays; and

CONCLUSION

WHEREAS, the Board has considered all of Appellant’s arguments on appeal but finds them ultimately unpersuasive; and

WHEREAS, for the foregoing reasons, the Board finds that DOB appropriately determined that, contrary to ZR § 32-662, the Subject Displays are not located at a distance of at least as many linear feet from the New England Thruway as there are square feet of surface area on the Subject Displays.

Therefore it is Resolved, that the determination of the Department of Buildings, dated October 7, 2016, acting on Alteration Application No. 220543561, shall be and hereby is *upheld* and that this appeal shall be and hereby is *denied*.

Adopted by the Board of Standards and Appeals, February 27, 2018.

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure, an amendment and an extension of term of a variance, previously granted by the Board; and

WHEREAS, a public hearing was held on this application on August 15, 2017, after due notice by publication in *The City Record*, with continued hearings on November 14, 2017 and January 23, 2018, and then to decision on March 6, 2018; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 12, Bronx, recommends approval of this application; and

WHEREAS, the Board has exercised jurisdiction over the subject site since November 26, 1968, when, under the subject calendar number, the Board granted a variance to permit, at an existing coal and oil establishment, structural alterations to the silos to provide storage rooms at grade for a term of five (5) years, expiring November 26, 1976; and

WHEREAS, on February 26, 1974, under the subject calendar number, the Board granted an extension of term of five (5) years, expiring February 26, 1979, on condition that a new certificate of occupancy be obtained; and

WHEREAS, on June 26, 1979, under the subject calendar number, the Board granted an extension of term of

five (5) years, expiring June 26, 1984, and amended the variance to permit a one-story masonry extension to be used for truck garages and the removal of silos on condition that a new certificate of occupancy be obtained within one (1) year, by June 26, 1980; and

WHEREAS, on February 13, 1985, under the subject calendar number, the Board granted an extension of term of five (5) years, expiring June 26, 1989, on condition that all conditions enumerated in the affidavit from the owner marked “Received February 5, 1985,” be complied with, that the hours of operation be from 8:00 a.m. to 6:00 p.m. Monday through Friday only, with no business operations on weekends or holidays, except for the ingress and egress of the owner’s trucks and that a new certificate of occupancy be obtained within one (1) year, by February 13, 1986; and

WHEREAS, on October 24, 1989, under the subject calendar number, the Board granted an extension of term of four (4) years, expiring June 26, 1992, on condition that there be no parking and storage of trucks in the open area at any time, that there be no storage of any materials in the open area at any time and that the hours of operation be from 8:00 a.m. to 6:00 p.m. Monday through Friday only, with no business operations on weekends or holidays, except for the ingress and egress of the owner’s trucks and that a new certificate of occupancy be obtained within one (1) year, by October 24, 1990; and

WHEREAS, on October 18, 1994, under the subject calendar number, the Board granted an extension of term of five (5) years, expiring June 26, 1997, on condition that a new certificate of occupancy be obtained within one (1) year, by October 18, 1995; and

WHEREAS, on March 3, 1998, under the subject calendar number, the Board granted an extension of term of 68 months, expiring June 26, 2003, on condition that a new certificate of occupancy be obtained within one (1) year, by March 3, 1999; and

WHEREAS, the term of the variance having expired, the applicant now seeks an extension of term, an amendment and a waiver of the Board’s Rules of Practice and Procedure to allow the late filing of this application; and

WHEREAS, the applicant proposes to amend the variance to allow the storage of agricultural materials in an open area adjacent to the railroad; and

WHEREAS, at hearing, the Board requested additional information regarding the boundaries of the subject site with regard to potential residences nearby, clarification as to the proposed site plan, the potential effect of agricultural materials and the appropriateness of additional landscaping and screening; and

WHEREAS, in response, the applicant updated the site plan and provided evidence of new perimeter landscaping to buffer the subject site from nearby residences; and

WHEREAS, the applicant represents that the open area proposed to be used for the storage of agricultural materials is as far as feasible from adjacent residences and that the landscaping and distance will prevent potential adverse effects on residences; and

MINUTES

WHEREAS, based upon its review of the record, the Board has determined that the requested extension of term, amendment and waiver are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *waive* the Rules of Practice and Procedure and *reopen* and *amend* the resolution, dated November 26, 1968, as amended through March 3, 1998, so that as amended this portion of the resolution shall read: “to *permit* an amendment to the variance to permit open storage of agricultural materials on a portion of the subject site adjacent to the railroad tracks and an extension of term of ten (10) years, expiring March 6, 2028; *on condition* that all work and site conditions shall conform to drawings filed with this application marked “Received February 14, 2018”- Three (3) sheets; and *on further condition*:

THAT the term of this grant shall be for ten (10) years, expiring March 6, 2028;

THAT there shall be no parking or storage of trucks in the open area at any time;

THAT there shall be no storage of any materials in the open area at any time, except that there may be storage of agricultural materials, which shall be limited to the area within 50 feet of the western lot line, adjacent to the railroad tracks;

THAT the hours of operation shall be limited to 8:00 a.m. to 6:00 p.m., Monday through Friday only, with no business operations on weekends or holidays, except for the ingress and egress of the owner’s trucks;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by March 6, 2019;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, March 6, 2018.

143-01-BZ

APPLICANT – Law Offices of Marvin B. Mitzner, LLC, for Thomas R. Birchard, owner.

SUBJECT – Application February 21, 2017 – Amendment of a previously approved Variance (§72-21) which permitted the legalization of a veterinary clinic (Use Group 6B) located at the cellar level contrary to Z.R. §22-00 which expired on November 12, 2007 and to permit the legalization of the enlargement of the use into the front, eastern unit on the first floor; Extension of Time to Obtain a Certificate of Occupancy which expired on November 12, 2003; Waiver of the Rules. R8B zoning district.

PREMISES AFFECTED – 348 East 9th Street, Block 450, Lot 28, Borough of Manhattan.

COMMUNITY BOARD #3M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated January 20, 2017, acting on Alteration Application No. 122813278, reads in pertinent part:

“Proposed Veterinarian’s Office in R8B zoning district is not permitted pursuant to ZR 22-10”; and

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure, an extension of time to obtain a certificate of occupancy, an amendment and an extension of term of a variance, previously granted by the Board, which expired November 12, 2007; and

WHEREAS, a public hearing was held on this application on March 6, 2018, after due notice by publication in *The City Record*, and then to decision on March 6, 2018 same date; and

WHEREAS, Community Board 3, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the south side of East 9th Street, between Second Avenue and First Avenue, in an R8B zoning district, in Manhattan; and

WHEREAS, the site has approximately 25 feet of frontage along East 9th Street, 94 feet of depth, 2,348 square feet of lot area and is occupied by a six-story, with cellar and sub-cellar, mixed-use commercial and residential building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since November 12, 2002, when, under the subject calendar number, the Board granted a variance to permit the operation of a veterinary office in Use Group 6B located at the cellar level on condition that the first floor of the subject site revert to a conforming use within one (1) year, by November 12, 2003, that there be no boarding of animals at the subject site, that the term of the grant be for five (5) years, expiring November 12, 2007, that the above

MINUTES

conditions appear on the certificate of occupancy and that a certificate of occupancy be obtained within one (1) year, by November 12, 2003; and

WHEREAS, the time to obtain a certificate of occupancy and term of the variance having expired, the applicant now seeks an extension of time to obtain a certificate of occupancy and an extension of term of the variance as well an waiver of the Board's Rules of Practice and Procedure to allow the late filing of this application; and

WHEREAS, in addition, the applicant proposes an amendment of the variance to permit a portion of the first floor to be used as a veterinary office in Use Group 6B; and

WHEREAS, in response, the Board directed the applicant to demonstrate that the proposed amendment does not implicate the findings of ZR § 72-21; and

WHEREAS, the applicant states that there are unique physical conditions—the unusually low ceiling height in the cellar, history of use as a veterinary hospital and interior layout of the existing building—at the subject site that create practical difficulties or unnecessary hardship; and

WHEREAS, the applicant also submitted a financial feasibility study demonstrating that there is no reasonable possibility that as-of-right development of the cellar and first floor would bring a reasonable return; and

WHEREAS, the applicant states that the proposed amendment will not alter the essential character of the neighborhood or district, noting that prevalence of ground-floor commercial uses in the vicinity and the historic use of the subject site, fully enclosed within the building, for medical-related uses; and

WHEREAS, the applicant states that the size of the cellar and arrangement of space within the building have not been created by the owner or a predecessor in title; and

WHEREAS, the applicant states that the financial feasibility study further demonstrates that the proposed amendment represents the minimum variance necessary to afford relief; and

WHEREAS, at hearing, the applicant provided evidence that residential tenants in the building support this application and have not been adversely affected by the operation of a veterinary office within the subject building; and

WHEREAS, based upon its review of the record, the Board has determined that the requested waiver of the Board's Rules of Practice and Procedure, extension of time to obtain a certificate of occupancy, amendment and extension of term of a variance are appropriate with certain conditions as set forth below; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the veterinary office has operated without a variance.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *wave* the Rules of Practice and Procedure and *reopen* and *amend* the resolution, dated November 12, 2002, so that as amended this portion of the resolution shall read: “to *permit* an extension of time to obtain a certificate of occupancy, an amendment and an

extension of term of fifteen (15) years, expiring November 12, 2022; *on condition* that all work and site conditions shall conform to the Board-approved plans; and *on further condition*:

THAT the term of this grant shall be limited to fifteen (15) years, expiring November 12, 2022;

THAT the use permitted by this grant shall be limited to a veterinary office in Use Group 6B;

THAT there shall be no boarding of animals at the subject site;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by March 6, 2019;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, March 6, 2018.

197-08-BZ

APPLICANT – Law Office of Jay Goldstein, for Carroll Gardens Realty, LLC, owner.

SUBJECT – Application March 6, 2018 – Extension of Time to Complete Construction of a previously approved Variance (§72-21) to permit a four-story and penthouse residential building. The proposal was contrary to ZR Sections 23-141 (Floor Area, FAR & Open Space Ratio), 23-22 (Number of Dwelling Units), 23-45 (Front Yard), 23-462 (Side Yard), and 23-631 (Wall Height) which expired on March 16, 2014; Waiver of the Rules. R4 district.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board's Rules of Practice and Procedure and an extension of time to complete construction; and

WHEREAS, a public hearing was held on this application on March 6, 2018, after due notice by

MINUTES

publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the northeast corner of Troy Avenue and Carroll Street, in an R4 zoning district, in Brooklyn; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 16, 2010, when, under the subject calendar number, the Board granted a variance to permit a five-story, with penthouse, residential building with 34 dwelling units and 35 accessory parking spaces on condition that the bulk parameters of the building be a maximum of five (5) stories, including penthouse, a maximum of 34 dwelling units, a total height of 54'-6", a street-wall height of 44'-6", a floor area of 48,342 square feet (3.0 FAR), one front yard with a depth of 6'-0", one side yard with a width of 6'-0", a lot coverage of 72 percent, a minimum of 35 parking spaces, all as illustrated on the Board-approved plans; that the parking layout be as approved by the Department of Buildings; and that no temporary or permanent certificate of occupancy be issued by the Department of Buildings or accepted by the applicant or successor until the Department of Environmental Protection issues a Notice of Satisfaction; and

WHEREAS, on June 18, 2013, under the subject calendar number, the Board amended the variance to allow for the reduction in the number of dwelling units from 34 to 26 and the number of parking spaces from 35 to 32 and the associated redesign; and

WHEREAS, by letter dated July 14, 2016, under the subject calendar number, the Board permitted minor changes to the Board-approved plans to allow for better vehicle maneuvering and ease maintenance of the building's mechanicals; and

WHEREAS, by letter dated July 14, 2016, under the subject calendar number, the Board states that it has no objection to the portrayal of yards on the Board-approved plans or to the use of Quality Housing deductions to achieve deductions shown on the Board-approved plans; and

WHEREAS, the time to complete construction having expired, the applicant now seeks an extension and a waiver of the Board's Rules of Practice and Procedure to allow the late filing of this application; and

WHEREAS, based upon its review of the record, the Board has determined that the requested extension of time to complete construction and waiver of the Board's Rules of Practice and Procedure are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *waive* the Rules of Practice and Procedure and *reopen* and *amend* the resolution, dated March 16, 2010, as amended through, on June 18, 2013, so that as amended this portion of the resolution shall read: "to *permit* a waiver of the Board's Rules of Practice and Procedure and an extension of time to complete construction by four (4) years, expiring June 18, 2021; *on condition* that

all work and site conditions shall conform to the Board-approved plans; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: a maximum of five (5) stories, including penthouse, a maximum of 26 dwelling units, a total height of 54'-6", a street-wall height of 44'-6", a floor area of 48,342 square feet (3.0 FAR), one front yard with a depth of 6'-0", one side yard with a width of 6'-0", a lot coverage of 72 percent, a minimum of 32 parking spaces, all as illustrated on the Board-approved plans;

THAT the parking layout shall be as approved by the Department of Buildings;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by June 18, 2021;

THAT no temporary or permanent certificate of occupancy be issued by the Department of Buildings or accepted by the applicant or successor until the Department of Environmental Protection issues a Notice of Satisfaction;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted."

Adopted by the Board of Standards and Appeals, March 6, 2018.

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure, an amendment and an extension of term of a variance, previously granted by the Board; and

WHEREAS, a public hearing was held on this application on August 15, 2017, after due notice by publication in *The City Record*, with continued hearings on November 14, 2017 and January 23, 2018, and then to decision on March 6, 2018; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 12, Bronx, recommends approval of this application; and

WHEREAS, the Board has exercised jurisdiction over the subject site since November 26, 1968, when, under the subject calendar number, the Board granted a variance to permit, at an existing coal and oil establishment, structural alterations to the silos to provide storage rooms at grade for a term of five (5) years, expiring November 26, 1976; and

WHEREAS, on February 26, 1974, under the subject calendar number, the Board granted an extension of term of five (5) years, expiring February 26, 1979, on condition that a new certificate of occupancy be obtained; and

WHEREAS, on June 26, 1979, under the subject calendar number, the Board granted an extension of term of five (5) years, expiring June 26, 1984, and amended the variance to permit a one-story masonry extension to be used for truck garages and the removal of silos on condition that a new certificate of occupancy be obtained within one (1) year, by June 26, 1980; and

WHEREAS, on February 13, 1985, under the subject calendar number, the Board granted an extension of term of five (5) years, expiring June 26, 1989, on condition that all conditions enumerated in the affidavit from the owner marked “Received February 5, 1985,” be complied with, that the hours of operation be from 8:00 a.m. to 6:00 p.m. Monday through Friday only, with no business operations on weekends or holidays, except for the ingress and egress of the owner’s trucks and that a new certificate of occupancy be obtained within one (1) year, by February 13, 1986; and

WHEREAS, on October 24, 1989, under the subject calendar number, the Board granted an extension of term of four (4) years, expiring June 26, 1992, on condition that there be no parking and storage of trucks in the open area at any time, that there be no storage of any materials in the open area at any time and that the hours of operation be from 8:00 a.m. to 6:00 p.m. Monday through Friday only, with no business operations on weekends or holidays, except for the ingress and egress of the owner’s trucks and that a new certificate of occupancy be obtained within one (1) year, by October 24, 1990; and

WHEREAS, on October 18, 1994, under the subject calendar number, the Board granted an extension of term of five (5) years, expiring June 26, 1997, on condition that a new certificate of occupancy be obtained within one (1) year, by October 18, 1995; and

WHEREAS, on March 3, 1998, under the subject calendar number, the Board granted an extension of term of 68 months, expiring June 26, 2003, on condition that a new certificate of occupancy be obtained within one (1) year, by March 3, 1999; and

WHEREAS, the term of the variance having expired, the applicant now seeks an extension of term, an amendment and a waiver of the Board’s Rules of Practice and Procedure to allow the late filing of this application; and

WHEREAS, the applicant proposes to amend the variance to allow the storage of agricultural materials in an open area adjacent to the railroad; and

WHEREAS, at hearing, the Board requested additional information regarding the boundaries of the subject site with regard to potential residences nearby, clarification as to the proposed site plan, the potential effect of agricultural materials and the appropriateness of additional landscaping and screening; and

WHEREAS, in response, the applicant updated the site plan and provided evidence of new perimeter landscaping to

MINUTES

buffer the subject site from nearby residences; and

WHEREAS, the applicant represents that the open area proposed to be used for the storage of agricultural materials is as far as feasible from adjacent residences and that the landscaping and distance will prevent potential adverse effects on residences; and

WHEREAS, based upon its review of the record, the Board has determined that the requested extension of term, amendment and waiver are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *waive* the Rules of Practice and Procedure and *reopen* and *amend* the resolution, dated November 26, 1968, as amended through March 3, 1998, so that as amended this portion of the resolution shall read: “to *permit* an amendment to the variance to permit open storage of agricultural materials on a portion of the subject site adjacent to the railroad tracks and an extension of term of ten (10) years, expiring March 6, 2028; *on condition* that all work and site conditions shall conform to drawings filed with this application marked “Received February 14, 2018”- Three (3) sheets; and *on further condition*:

THAT the term of this grant shall be for ten (10) years, expiring March 6, 2028;

THAT there shall be no parking or storage of trucks in the open area at any time;

THAT there shall be no storage of any materials in the open area at any time, except that there may be storage of agricultural materials, which shall be limited to the area within 50 feet of the western lot line, adjacent to the railroad tracks;

THAT the hours of operation shall be limited to 8:00 a.m. to 6:00 p.m., Monday through Friday only, with no business operations on weekends or holidays, except for the ingress and egress of the owner’s trucks;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by March 6, 2019;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, March 6, 2018.

2017-254-A & 2017-255-A

APPLICANT – Eric Palatnik, P.C., for Ottavio Savo, owner.

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and an extension of term of a variance, previously granted by the Board; and

WHEREAS, a public hearing was held on this application on February 27, 2018, after due notice by publication in *The City Record*, and then to decision on March 6, 2018; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 11, Queens, recommends approval of this application on condition that the parking-lot lights be directed away from residential uses and that the parking-lot gate be locked at night; and

WHEREAS, Queens Borough President Melinda Katz recommends approval of this application on condition that lighting be directed away from nearby residences and that the gates to the parking lot be locked when the bank is closed; and

WHEREAS, Auburndale Improvement Association, Inc. submitted testimony in support of this application, stating that there are no serious complaints about the subject site; and

MINUTES

WHEREAS, the subject site is located on the southwest corner of Francis Lewis Boulevard and 32nd Avenue, in an R2A zoning district, in Queens; and

WHEREAS, the Board has exercised jurisdiction over the subject site since November 10, 1959, when, under BSA Calendar Number 81-54-BZ, the Board granted a variance to permit the extension of the accessory parking of the bank patrons' and employees' cars for a term of twenty (20) years, expiring November 10, 1979, on condition that there be a hedge planted on the Utopia Parkway front between the building line and the inner edge of the sidewalk and that a certificate of occupancy be obtained; and

WHEREAS, on June 2, 1981, under BSA Calendar Number 81-54-BZ, the Board granted an extension of term of the variance of ten (10) years, expiring November 10, 1989, on condition that the lot comply with the Building Department rules and regulations for parking lots and that a new certificate of occupancy be obtained within one (1) year, by June 2, 1982; and

WHEREAS, on January 29, 1991, under BSA Calendar Number 81-54-BZ, the Board granted an extension of term of the variance of ten (10) years, expiring November 10, 1999, on condition that a new certificate of occupancy be obtained; and

WHEREAS, the term of the variance having expired, the applicant now seeks an extension; and

WHEREAS, additionally, because this application was filed more than 10 years after the expiration of term, the applicant requests a waiver of the Board's Rules of Practice and Procedure and submitted evidence that the commercial accessory parking use has been continuous since the expiration of term, that substantial prejudice would result without such a waiver and that the use does not substantially impair the appropriate use and development of adjacent properties; and

WHEREAS, at hearing, in response to concerns raised by a nearby resident, the Board questioned whether there would be a drive-through window at the subject site; and

WHEREAS, in response, the applicant clarified that no drive-through window was proposed but that there is a walk-up ATM on the Francis Lewis Boulevard side of the subject building; and

WHEREAS, the applicant also revised the drawings to indicate the number of parking spaces, clarified lighting of the subject site, indicated signage on the site plan, submitted landscaping plans with a plant schedule and provided further information documenting continuity; and

WHEREAS, the applicant further clarified that no lighting was proposed for the parking lot and notes the presence of barrier gates controlling access to the parking lot; and

WHEREAS, the applicant states that the ATM is available for use 24 hours per day, seven days per week but that there will be no overnight parking permitted; and

WHEREAS, based upon its review of the record, the Board has determined that the requested waiver and extension of term are appropriate with certain conditions as

set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *waive* the Rules of Practice and Procedure and *reopen* and *amend* the resolution, dated November 10, 1959, as amended through January 29, 1991, so that as amended this portion of the resolution shall read: "to *permit* an extension of term of ten (10) years, expiring March 6, 2028; *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received February 27, 2018"-Eight (8) sheets; and *on further condition*:

THAT the term of this grant shall be limited to ten (10) years, expiring March 6, 2028;

THAT there shall be a hedge planted on the Utopia Parkway front between the building line and the inner edge of the sidewalk;

THAT the lot shall comply with the Building Department rules and regulations for parking lots;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by March 6, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted."

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated October 11, 2017, acting on Alteration Application No. 321621189, reads in pertinent part:

“A physical culture use is not permitted, as of right, . . . as per Section 32-10 and 73-36 of the Zoning Resolution”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, in an R6B (C2-4) zoning district, the operation of a physical culture establishment (“PCE”), contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on March 6, 2018, after due notice by publication in *The City Record*, and then to decision on March 6, 2018; and

WHEREAS, Community Board 1, Brooklyn, recommends approval of this application;

WHEREAS, the subject site is located on Grand Street, between Roebling Street and Havemeyer Street, in an R6B (C2-4) zoning district, in Brooklyn; and

WHEREAS, the subject site has approximately 25 feet of frontage along Grand Street, 100 feet of depth, 2,500 square feet of lot area and is occupied by a four-story, with cellar, mixed-use commercial and residential building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X,

C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that, pursuant to ZR §

MINUTES

73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE will occupy 3,722 square feet of floor space as follows: 2,500 square feet of floor area on the first floor, including a juice bar, exercise room and restrooms, and 1,222 square feet of floor space in the cellar, used for storage; and

WHEREAS, the PCE will operate as F45 with the following hours of operation: Monday through Friday, 5:30 a.m. to 9:00 p.m., and Saturday and Sunday, 8:00 a.m. to 6:00 p.m.; and

WHEREAS, the applicant represents that the PCE use is consistent with the vibrant mixed-use area in which it is located, that the PCE use is fully contained within the envelope of an existing building and that the surrounding area is characterized by ground-floor commercial uses, including retail stores and restaurants, along with compatible residential uses; and

WHEREAS, in addition, the applicant submits that sound attenuation measures will be provided within the space so as to not disturb other tenants in the building or adjacent buildings; and

WHEREAS, the Board finds that the PCE use is so located as not to impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE will operate as a high-intensity training-circuit fitness studio with classes that include a comprehensive body-enhancing workout in a small-class environment; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE is fully sprinklered and that an approved fire alarm—including area smoke detectors, manual pull stations at each required exist, local audible and visual alarms and connection to an FDNY-approved central station—will be installed in the entire PCE space; and

WHEREAS, in response to the Board's comments at hearing, the applicant provided additional information

regarding the programming of the PCE's circuit-based workouts and further represents that signage will comply with the applicable zoning regulations; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18BSA045K dated October 26, 2017; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-36 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to *permit*, in an R6B (C2-4) zoning district, the operation of a physical culture establishment ("PCE"), contrary to ZR § 32-10; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked "Received October 26, 2017"-One (1) sheet and "March 6, 2018"-Three (3) sheets; and *on further condition*:

THAT this grant shall be limited to a term of ten (10) years, expiring March 6, 2028;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum 3'-0" wide exit pathways shall be provided leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be installed in the entire PCE space and the PCE shall be fully sprinklered, as indicated on the Board-approved plans;

THAT sound attenuation shall be installed in the PCE, as indicated on the Board-approved plans;

THAT local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained

MINUTES

with four (4) years, by March 6, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable pro-visions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 6, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated January 27, 2017, acting on Department of Buildings (“DOB”) Application No. 321511440 reads in pertinent part:

1. Proposed plans are contrary to ZR 23-141 in that the proposed floor area ratio (FAR) exceeds the permitted 0.50;
2. Proposed plans are contrary to ZR 23-141 in that the proposed open space ratio (OSR) is less than the required 150%;
3. Proposed plans are contrary to ZR 23-461(a) in that the straight line extension of the North side yard results in a side yard with less than the required minimum 5’-0”;
4. Proposed plans are contrary to ZR 23-47 in that the proposed rear yard is less than 30’-0”;

WHEREAS, this is an application under ZR § 73-622 to permit, in an R2 zoning district, the proposed enlargement of a two-story plus cellar and attic detached single-family residence that does not comply with the zoning requirements for floor area ratio, open space ratio, side yards and rear yards, contrary to ZR §§ 23-141, 23-461(a) and 23-47; and

WHEREAS, a public hearing was held on this application on September 12, 2017, after due notice by publication in *The City Record*, with a continued hearing on November 21, 2017, and then to decision on the same date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application on condition that the proposed side entrance and two window wells be eliminated

from the proposal; and

WHEREAS, in addition, the Board was in receipt of one letter in support and two letters in objection to the subject application; the objectors raised concerns about the small size of the lot and ability to accommodate the proposed enlargement, that the proposal is out of scale and does not match the style of adjacent properties and repeated the Community Board’s request that the side entrance and two window wells be eliminated from the proposal; and

WHEREAS, the subject site is located on the east side of East 28th Street, between Avenue K and Avenue L, in an R2 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 27 feet of frontage along East 28th Street, a depth of 100 feet and 2,700 square feet of lot area; and

WHEREAS, the site is occupied by a two-story plus cellar and attic detached single-family home with 1,425 square feet of floor area, a floor area ratio (“FAR”) of 0.53, an open space ratio of 132, a rear yard measuring 35’-2 3/8”, side yards measuring 3’-9 5/8” and 7’-2 3/8” and a garage in the rear yard; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single-* or *two-family detached* or *semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard*

MINUTES

or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge an existing detached single-family residence, as contemplated by ZR § 73-622; and

WHEREAS, the applicant proposes to remove the garage located in the rear yard and enlarge the existing residence with two-story plus attic extensions into both the southern side yard and rear yard and an additional one-story addition in the rear yard resulting in a dwelling with 2,684 square feet of floor area, 0.99 FAR, an open space ratio of 53, a 20 foot rear yard at the first story and 27 foot rear yard at the second story and attic levels and side yards measuring 3'-9 5/8" and 5'-2 3/8"; and

WHEREAS, the applicant initially proposed, in addition, a one-story greenhouse in the rear yard, a stoop and two window wells in the northern side yard; and

WHEREAS, in response to concerns raised by the Community Board and comments from the Board that the window wells were located very close to the property line and an adjacent driveway and that the proposed greenhouse further reduced the proposed 20 foot rear yard, the applicant revised the plans to remove those aspects of the proposal and a neighbor who had previously submitted a letter in opposition to the proposal confirmed in testimony provided at public hearing and the reasons for his objections were no longer applicable; and

WHEREAS, at the subject site, a maximum FAR of 0.50 is permitted and an open space ratio of at least 150.0 is required pursuant to ZR § 23-141; two side yards totaling at least 13 feet and a minimum width of 5 feet each are required pursuant to ZR § 23-461(a); and a rear yard of at least 30 feet is required pursuant to ZR § 23-47; and

WHEREAS, additionally, pursuant to ZR § 23-48, because the subject lot is narrower than the minimum lot width for single-family detached residences located in R2 zoning districts set forth in ZR § 23-32 and the applicant submitted evidence that the subject site was owned separately and individually from all other adjoining tracts of land on December 15, 1961, and on the date of application for a building permit, the required total width of the side yards may be reduced as-of-right to 8'-8", but each side yard must have a minimum width of five feet; and

WHEREAS, with regards to the existing non-complying 3'-9 5/8" northern side yard, which is proposed to be maintained, the applicant submitted Sanborn maps demonstrating that a building was located at the site in substantially the same location as the existing building since at least 1930, prior to the 1961 Zoning Resolution; and

WHEREAS, the applicant submitted an analysis of single- or two-family dwellings located within 400 feet of the subject premises located within an R2 zoning district (the "Study Area") concluding that, of the 109 residences in the Study Area, excluding the subject site, 106 residences (97 percent) has an open space ratio of less than 150 and 25 residences (23 percent) have open space ratios of less than 60; 98 residences (90 percent) have FARs of greater than 0.50 and 29 (27 percent) have FARs of 0.90 or greater; and, of the 41 residences on the subject tax block, 17 residences (41 percent) have rear yards with a depth of less than 30 feet, 9 residences (22 percent) have rear yards 20 feet in depth or less and 32 residences (78 percent) have garages located in the rear yards, including 10 residences (24 percent) that also have rear yards less than 30 feet deep, effectively decreasing their rear yard depths; and

WHEREAS, in light of the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622. *Therefore it is Resolved*, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622, to permit, in an R2 zoning district, the proposed enlargement of a two-story plus

MINUTES

cellar and attic detached single-family residence that does not comply with the zoning requirements for floor area ratio, open space ratio, side yards and rear yards, contrary to ZR §§ 23-141, 23-461(a) and 23-47; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked “Received November 21, 2017”-Eleven (11) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area ratio of 0.99 (2,684 square feet of floor area), a minimum open space ratio of 53, a rear yard of at least 20 feet at the first story and at least 27 feet at the second story and attic levels, and side yards measuring at least 3’-9 5/8” and 5’-2 3/8”, as illustrated on the BSA-approved plan; and

THAT all existing exterior walls and wall joists indicated to remain undisturbed on the BSA-approved plans shall remain or the special permit is void;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the special relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, November 21, 2017.

***The resolution has been amended to correct part of the condition which read:...a minimum open space ratio of 56,... now reads:...a minimum open space ratio of 53,.... Corrected in Bulletin No. 11, Vol. 103, dated March 16, 2018.**

SUBJECT – Application March 7, 2016 – Extension of Term of a previously approved Variance (§72-21) which permitted an enlargement contrary to side yard regulations and community facility (UG 4) on the ground and cellar floors and commercial offices (UG 6) in the garage which expired on March 5, 2016. R4B zoning district.

PREMISES AFFECTED – 144-02 Jewel Avenue, Block 6642, Lot 2, Borough of Queens.

COMMUNITY BOARD #8Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta4

Negative:0

Abstain: Commissioner Scibetta.....1

THE RESOLUTION –

WHEREAS, this is an application for an extension of term of a variance, previously granted by the Board; and

WHEREAS, a public hearing was held on this application on August 23, 2016, after due notice by publication in *The City Record*, with continued hearings on November 1, 2016, January 24, 2017, September 26, 2017, and January 30, 2018, and then to decision on March 20, 2018; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown, former Vice-Chair Hinkson and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 8, Queens, recommends approval of this application; and

WHEREAS, the subject site is located on the southeast corner of Jewel Avenue and Main Street, in an R4B zoning district, in Queens; and

WHEREAS, the site has approximately 20 feet of frontage along Jewel Avenue, 100 feet of frontage along Main Street, 2,000 square feet of lot area and is occupied by a two-story, with cellar, mixed-use community-facility and commercial building; and

WHEREAS, the Board has exercised jurisdiction over

the subject site since March 5, 1996, when, under the subject calendar number, the Board granted a variance to permit the change in use to a community facility (Use Group 4) on the ground floor and cellar with professional offices (Use Group 6B) on the second floor and an enlargement of the building to connect a proposed office (Use Group 6B) in the garage for a term of twenty (20) years, expiring March 5, 2016, on condition that emergency lighting be provided in the cellar in accordance with the Board-approved plans, that signs be limited to those specified on the Board-approved plans, that the second floor and garage be used solely for a Use Group 6B use and that the above conditions appear on the certificate of occupancy; and

WHEREAS, the term having expired, the applicant now seeks an extension; and

WHEREAS, in response to questions from the Board at hearing, the applicant clarified that use of the subject building is ambulatory diagnostic or treatment health care facility (Use Group 4) at the cellar and first floor and professional offices (Use Group 6B) at the second floor, as illustrated on the Board-approved plans; and

WHEREAS, the applicant represents that, contrary to the certificate of occupancy, there is no retail use at the subject site and that signage complies with the Board-approved plans; and

WHEREAS, the applicant represents that all medical samples awaiting pickup are stored within the property line of the subject site; and

WHEREAS, the applicant submitted evidence that the site has been maintained, including painting of the façade, that the waste enclosure located on public property has been removed and that the restroom on the first floor is accessible; and

WHEREAS, based upon its review of the record, the Board has determined that the requested extension of term is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated March 5, 1996, so that as amended this portion of the resolution shall read: “to *permit* an extension of term of twelve (12) years, expiring March 5, 2028; *on condition* that all work and site conditions shall conform to drawings filed with this application marked “Received February 28, 2018”- Eight (8) sheets; and *on further condition*:

THAT the term of this grant shall be for twelve (12) years, expiring March 5, 2028;

THAT use of the building shall be as follows: ambulatory diagnostic or treatment health care facility (Use Group 4) at the cellar and first floor and professional offices (Use Group 6B) at the second floor, as illustrated on the Board-approved plans;

THAT there shall be no retail use permitted at the subject site;

THAT hours of operation shall be limited to the following: 8:00 a.m. to 6:00 p.m., Monday through Friday, and 8:00 a.m. to 3:00 p.m., Saturday or Sunday;

THAT emergency lighting shall be provided in the

MINUTES

cellar in accordance with the Board-approved plans;
THAT signs shall be limited to those specified on the Board-approved plans;

THAT the above conditions shall appear on the certificate of occupancy;

THAT an amended certificate of occupancy shall be obtained within four (4) years, by March 20, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, March 20, 2018.

APPLICANT – Alan J. Sigman, for Twi-light Roller Skating Rink, Inc., owner.

SUBJECT – Application April 17, 2017 – Extension of Term of a previously approved Variance (§72-21) which permitted the use of banquet hall (catering establishment) (UG9) which expired on December 10, 2016; Waiver of the Rules. C1-3/R5B & R3A zoning districts.

PREMISES AFFECTED – 205-35 Linden Boulevard, Block 11078, Lot 1, Borough of Queens.

COMMUNITY BOARD #12Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and an extension of term of a variance, previously granted by the Board; and

WHEREAS, a public hearing was held on this application on March 20, 2018, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 12, Queens, recommends approval of this application; and

WHEREAS, Council Member I. Daneek Miller submitted testimony in support of this application, stating that the subject establishment is an important civic resource

in the neighborhood; and

WHEREAS, State Senator Leroy G. Comrie submitted testimony in support of this application, stating that the subject establishment has proven itself a valued part of the community and a vital commodity for residents; and

WHEREAS, Assistant Principal Teresa Davis-Wilkinson of P.S. 136, Queens, submitted testimony in support of this application, stating that the subject establishment is spotless and a wonderful resource for the community; and

WHEREAS, Hollis Local Development Corporation submitted testimony in support of this application, stating that the subject establishment is not only a physical enhancement to the commercial corridor but also an economic one; and

WHEREAS, the subject site is located on the northeast corner of Linden Boulevard and 205th Street, partially in an R5B (C1-3) zoning district and partially in an R3A zoning district, in Queens; and

WHEREAS, the Board has exercised jurisdiction over the subject site since December 10, 1996, when, under the subject calendar number, the Board granted a variance to permit the change in use from stores (Use Group 6) and supermarket (Use Group 6) to stores (Use Group 6) and catering establishment (Use Group 9) for a term of ten (10) years, expiring December 10, 2006, on condition that the subject site be maintained free of graffiti, that landscaping and fencing at the parking area in the rear be maintained in accordance with the Board-approved plans, that the catering establishment comply with the New York City Noise Code, that the hours of operation be limited to 12:00 p.m. to 3:00 p.m. and 8:00 p.m. to 1:30 a.m., Monday through Friday, and 9:00 a.m. to 1:30 a.m., Saturday and Sunday, and that the above conditions appear on the certificate of occupancy; and

WHEREAS, on December 11, 2007, the Board amended the variance to permit the enlargement of the banquet hall (Use Group 9) and granted an extension of term of ten (10) years, expiring December 10, 2016, on condition that attended parking be provided during hours of operation and when functions are scheduled, from 5:00 p.m. Friday until the close of business Sunday and that the above conditions appear on the certificate of occupancy; and

WHEREAS, the term of the variance having expired, the applicant now seeks an extension and a waiver of the Board’s Rules of Practice and Procedure to allow the late filing of this application; and

WHEREAS, the applicant proposes to change the hours of operation from 9:00 a.m. to 1:30 a.m. daily to 8:30 a.m. to 1:30 a.m. daily; and

WHEREAS, by letter dated March 19, 2018, the Fire Department states that, based upon its review of this application and its records, it has no objection to this application; and

WHEREAS, by letter dated September 5, 2018, the New York City Department of Environmental Protection issued a Letter of No Objection; and

MINUTES

WHEREAS, based upon its review of the record, the Board has determined that the requested waiver and extension of term are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *waive* the Rules of Practice and Procedure and *reopen* and *amend* the resolution, dated December 10, 1996 as amended through December 11, 2007, so that as amended this portion of the resolution shall read: “to *permit* an extension of term of ten (10) years, expiring December 10, 2026; *on condition* that all work and site conditions shall conform to drawings filed with this application marked “Received December 18, 2017”-Six (6) sheets; and *on further condition*:

THAT the term of this grant shall be for ten (10) years, expiring December 10, 2026;

THAT the hours of operation shall be limited to 8:30 a.m. to 1:30 a.m. daily;

THAT the subject site shall be maintained free of graffiti;

THAT landscaping and fencing at the parking area in the rear shall be maintained in accordance with the Board-approved plans;

THAT the banquet hall (Use Group 9) shall comply with the New York City Noise Code;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by March 20, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, March 20, 2018.

216-07-BZ

APPLICANT – Rothkrug Rothkrug & Spector LLP, for 1429 Second Avenue Associated LLC, owner; Equinox 74th Street, Inc., lessee.

SUBJECT – Application November 14, 2017 – Extension of Term of a previously approved Special Permit (§73-36) permitting the operation of physical culture establishment (Equinox) on all five levels of a mixed-use building which expires on January 8, 2018. C1-9 district.

PREMISES AFFECTED – 255 East 74th Street, Block 1429, Lot 7502, Borough of Manhattan.

COMMUNITY BOARD #8M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for an extension of term of a special permit, previously granted by the Board; and

WHEREAS, a public hearing was held on this application on March 20, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 8, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the northwest corner of East 74th Street and Second Avenue, in a C1-9 zoning district, in Manhattan; and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 8, 2008, when, under the subject calendar number, the Board granted a special permit to allow the operation of a physical culture establishment (“PCE”) on portions of the first and second floors of the subject building for a term of ten (10) years, expiring January 8, 2018, on condition that there be no change in ownership or operating control of the PCE without prior application to and approval from the Board, that all massages be performed by New York State licensed massage therapists and that the above conditions appear on the certificate of occupancy; and

WHEREAS, the term having expired, the applicant now seeks an extension; and

WHEREAS, the applicant represents that there have been no changes to the floor plan or operator of the facility, Equinox, as previously approved by the Board; and

WHEREAS, in response to questions from the Board at hearing, the applicant submits that signage complies with applicable zoning regulations; and

WHEREAS, by letter dated March 20, 2018, the Fire Department states that it has no objection to this application; and

WHEREAS, the applicant has satisfactorily demonstrated compliance with the conditions of the previous term and the Board finds that the circumstances warranting the original grant still obtain; and

WHEREAS, based upon its review of the record, the Board has determined that the requested extension of term is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated January 8, 2008, so that as amended this portion of the resolution shall read: “to *permit* an extension of term of ten (10) years, expiring January 8, 2028; *on condition* that all

MINUTES

work and site conditions shall conform to drawings filed with this application marked “Received November 14, 2017”-Six (6) sheets; and *on further condition:*

THAT the term of this grant shall be for ten (10) years, expiring January 8, 2028;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages shall be performed by New York State licensed massage therapists;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by March 20, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT fire safety measures shall be installed and/or maintained as shown on the Board-approved plans;

THAT prior to the issuance of any permits, DOB shall review the floor area and location of the PCE for compliance with all relevant commercial use regulations;

THAT sound attenuation measures shall be installed and maintained in accordance with the Board-approved plans;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, March 20, 2018.

Negative:0

Abstain: Commissioner Scibetta.....1

THE RESOLUTION –

WHEREAS, this is an application for an extension of time to complete construction and an amendment to a variance, previously granted by the Board; and

WHEREAS, a public hearing was held on this application on January 23, 2018, after due notice by publication in *The City Record*, and then to decision on March 20, 2018; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 2, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of Tenth Avenue, between West 13th Street and West 14th Street, in an M1-5 zoning district, in Manhattan; and

WHEREAS, the Board has exercised jurisdiction over the subject site since May 13, 2014, when, under the subject calendar number, the Board granted a variance to permit the construction of a ten-story commercial building that does not comply with zoning regulations for rear yards, height and setback on condition that the bulk parameters of the building be a maximum height of 175 feet to the roof of the tenth floor, a maximum total height of 199 feet, including rooftop mechanicals and a maximum total floor area of 117,705 square feet (5.0 FAR), that, prior to the issuance by the Department of Buildings of permits for demolition of the buildings on the site, the New York City Landmarks Preservation Commission will have reviewed and approved a scope of work for Historic American Building Survey (“HABS”) documentation and reviewed the design of the proposed building, that an (E) designation (E-334) is placed on the subject site to ensure proper hazardous materials remediation and that, prior to the issuance by the Department of Buildings of permits that involve any soil disturbance, the applicant will receive approvals from the Office of Environmental Remediation (“OER”) for the hazardous materials remediation plan and construction-related health and safety plan; and

WHEREAS, by letter dated August 12, 2016, the Board permitted minor changes to the Board-approved plans; and

WHEREAS, the time to complete construction having expired, the applicant now seeks an extension of time to complete construction and an amendment; and

WHEREAS, the applicant proposes to change the Board’s condition requiring approval of the HABS scope and design review by LPC from prior to demolition to prior to issuance of a certificate of occupancy and proposes modifications to the Board-approved plans; and

WHEREAS, on October 15, 2015, OER issued a Notice to Proceed, which states that the applicant has filed a Hazardous Materials remedial action work plan that is acceptable to OER and has prepared a Construction Health

MINUTES

and Safety Plan for implementation on the subject project; and

WHEREAS, by letter dated March 16, 2018, the New York City Landmarks Preservation Commission states that it has reviewed the revised design and finds that it is largely consistent with the design previously reviewed by LPC with only minor changes and that LPC does not object to the HABS sign-off or the revised building review's occurring prior to the issuance of a temporary certificate of occupancy; and

WHEREAS, based upon its review of the record, the Board has determined that the requested extension of time to complete construction and amendment are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated May 13, 2014, so that as amended this portion of the resolution shall read: "to *permit* an extension of time to complete construction by four (4) years, expiring May 13, 2022, and an amendment to the variance to allow modification of a condition and changes to the Board-approved plans; *on condition* that all work and site conditions shall conform to drawings filed with this application marked 'Received February 2, 2018'-Twenty-Two (22) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: a maximum height of 175 feet to the roof of the tenth floor, a maximum total height of 199 feet, including rooftop mechanicals and a maximum total floor area of 117,705 square feet (5.0 FAR);

THAT prior to the issuance by the Department of Buildings of a temporary certificate of occupancy, the New York City Landmarks Preservation Commission will have reviewed and approved a scope of work for Historic American Building Survey ("HABS") documentation and reviewed the design of the proposed building;

THAT an (E) designation (E-334) is placed on the subject site to ensure proper hazardous materials remediation;

THAT prior to the issuance by the Department of Buildings of permits that involve any soil disturbance, the applicant will receive approvals from the Office of Environmental Remediation ("OER") for the hazardous materials remediation plan and construction-related health and safety plan;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by May 13, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted."

Adopted by the Board of Standards and Appeals, March 20, 2018.

PREMISES AFFECTED – 2501-2509 Avenue K aka 3211 Bedford Avenue, Block 7607, Lot(s) 6 & 8, Borough of Brooklyn.

COMMUNITY BOARD #14BK

ACTION OF THE BOARD – Laid over to May 15, 2018, at 10 A.M., for adjourned hearing.

217-96-BZ

APPLICANT – Eric Palatnik, P.C., for Silverbell Investment Co., Inc., owner; Enterprise Rent-A-Car, lessee.
SUBJECT – Application October 27, 2017 – Extension of Term of a previously approved Variance (§72-21) which permitted the operation of a car rental facility (*Enterprise Rent-A-Car*) (Use Group 8) which expired on October 7, 2017. C1-2 (R2) zoning district.

PREMISES AFFECTED – 165-01 Northern Boulevard, Block 5340, Lot 8, Borough of Queens.

COMMUNITY BOARD #7Q

ACTION OF THE BOARD – Laid over to May 15, 2018, at 10 A.M., for continued hearing.

187-08-BZ

APPLICANT – Sheldon Lobel, P.C., for Congregation & Yeshiva Maschzikei Hadas, owner.

SUBJECT – Application April 22, 2016 – Amendment to a variance (§72-21) to allow a five-story school (*Congregation & Yeshiva Maschzikei Hadas*). The application seeks to increase the zoning lot contrary to the previous Board approval. M1-2/R6B zoning district.

PREMISES AFFECTED – 1247 38th Street, Block 5295, Lot(s) 52 & 109, Borough of Brooklyn.

COMMUNITY BOARD #12BK

ACTION OF THE BOARD – Laid over to May 15, 2018, at 10 A.M., for continued hearing.

APPEALS CALENDAR

205-15-A thru 214-15-A

APPLICANT – Rothkrug Rothkrug & Spector LLP, for Atid Development LLC, owner.

SUBJECT – Application August 31, 2015 – Proposed development of two-story, one family dwelling with accessory parking space that are proposed to be located within the bed of mapped but unbuild 129th Avenue & Hook Creek Boulevard, contrary to Article 3 of the General City Law, Section 35 located within an R2 zoning district.

PREMISES AFFECTED – 128-60 to 128-76 Hook Creek Boulevard and 128-63 to 128-75 Fortune Way, Block 12887, Lot(s) 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, Borough of Queens.

COMMUNITY BOARD #12Q

ACTION OF THE BOARD – Laid over to June 5, 2018, at 10 A.M., for continued hearing.

MINUTES

238-15-A thru 243-15-A

APPLICANT – Jeffrey Geary, for Ed Sze, owner.
SUBJECT – Application October 8, 2015 – Proposed construction of buildings that do not front on a legally mapped street pursuant to Section 36 Article 3 of the General City Law. R3-1 zoning district.
PREMISES AFFECTED – 102-04, 08, 12, 16, 20, 24 Dunton Court, Block 14240, Lot(s) 1306, 1307, 1308, 1309, 1310, 1311, Borough of Queens.

COMMUNITY BOARD #14Q

ACTION OF THE BOARD – Laid over to June 5, 2018, at 10 A.M., for continued hearing.

2016-2-A

APPLICANT – Rothkrug Rothkrug & Spector LLP, for Vincent Theurer, owner.
SUBJECT – Application January 4, 2016 – Appeal seeking determination that the Department of Buildings improperly denied an application for a permit for construction of cabana based on erroneous determination that the cabana should be considered a dwelling unit and not an accessory structure, requiring compliance with minimum required distance between buildings (ZR 23-711(f)) and minimum distance between lot lines and building walls (ZR 23-881) in the lower density growth management area. R1-1(NA-1).
PREMISES AFFECTED – 74 Buttonwood Road, Block 877, Lot 32, Borough of Staten Island.

COMMUNITY BOARD #2SI

ACTION OF THE BOARD – Laid over to May 22, 2018, at 10 A.M., for continued hearing.

2016-4330-A & 2016-4331-A

APPLICANT – Eric Palatnik, P.C., for 1671 Hylan Blvd. LLC, owner.
SUBJECT – Application November 14, 2016 – To permit the proposed development of a one family home, contrary to Article 3 Section 36 of the General City Law. R3X zoning district.
PREMISES AFFECTED – 16 & 19 Tuttle Street, Block 1481, Lot(s) 96 and 300, Borough of Staten Island

COMMUNITY BOARD #1SI

ACTION OF THE BOARD – Laid over to June 26, 2018, at 10 A.M., for continued hearing.

2017-30-A

APPLICANT – Eric Palatnik, P.C., for 1671 Hylan Boulevard LLC, owner.
SUBJECT – Application January 27, 2017 – To permit the proposed development of a one family home, contrary to Article 3 Section 36 of the General City Law. R3X zoning district.
PREMISES AFFECTED – 16 Garage Tuttle Street, Block 1481, Lot 96, Borough of Staten Island.

COMMUNITY BOARD #1SI

ACTION OF THE BOARD – Laid over to June 26, 2018, at 10 A.M., for continued hearing.

2017-226-A

APPLICANT – Eric Palatnik, P.C., for 1671 Hylan Boulevard, LLC, owner.
SUBJECT – Application July 11, 2017 – Proposed construction of a one-family home not fronting a legally mapped street contrary to General City Law 36. R3X zoning district.
PREMISES AFFECTED – 18 Tuttle Street, Block 1481, Lot 92, Borough of Staten Island.

COMMUNITY BOARD # 1SI

ACTION OF THE BOARD – Laid over to June 26, 2018, at 10 A.M., for continued hearing.

Abstain: Commissioner Scibetta.....1

THE RESOLUTION –

WHEREAS, the decision on behalf of the Queens Borough Commissioner, dated July 11, 2017, acting on Department of Buildings (“DOB”) Application No. 420892323 reads in pertinent part:

ZR. 61-21 The proposed height for subject new building includes:

- 154’-2” Building Height
- 177’-2” Building Height with Bulkhead
- 211’-0” Above Mean Curb Sea Level (Based on Datum of 1988, NAVD 88)

That exceeds the maximum allowable height as per Section 61-21 of the NYC Zoning Resolution and requires a special permit from the BSA, pursuant to Section 73-66; and

WHEREAS, this is an application under ZR § 73-66 to permit, on a site located in an R6 (C2-2) zoning district, the construction of a building that exceeds the maximum height

MINUTES

permitted in the vicinity of major airports, contrary to ZR § 61-21; and

WHEREAS, a public hearing was held on this application on March 6, 2018, after due notice by publication in *The City Record*, and then to decision on March 20, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 7, Queens, recommends approval of this application; and

WHEREAS, the subject site is located on the northwest corner of 35th Avenue and Farrington Street, in an R6 (C2-2) zoning district, in Queens; and

WHEREAS, the site has approximately 165 feet of frontage along 35th Avenue, 235 feet of frontage along Farrington Street, 38,775 square feet of lot area and is currently vacant; and

WHEREAS, the applicant proposes to develop the site, which is located within the LaGuardia Airport Circling Approach Area, with a fifteen-story plus cellar and two sub-cellars mixed-use residential, community facility and commercial building (the "Development") whose height would penetrate the surface of the airport approach district of the flight obstruction area of LaGuardia Airport, contrary to ZR § 61-21 and requests a special permit pursuant to ZR § 73-66; and

WHEREAS, ZR § 73-66 provides that:

The Board of Standards and Appeals may permit the construction, *enlargement*, or reconstruction of a *building or other structure* in excess of the height limits established under Section 61-21 (Restriction on Highest Projection of Building or Structure) or 61-22 (Permitted Projection Within any Flight Obstruction Area), provided that the applicant submits a site plan, with elevations, showing the proposed *building or other structure* in relation to such maximum height limits, and that the Board finds that such proposed *building or other structure, enlargement*, or reconstruction would not constitute a hazard (either under the existing layout of the airport or under any planned reorientation or lengthening of the airport runways) to the safety of the occupants of such proposed *building*, to other *buildings* in the vicinity or to the safety of air passengers, and would not disrupt established airways.

The Board shall refer the application to the Federal Aviation Administration for a report as to whether such construction will constitute a danger to the safety of air passengers or disrupt established airways; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, in support of this application, the applicant has submitted plans of the proposed Development

with elevations and indicating the maximum height limits, plane of the approach surface and the maximum height approved by the Federal Aviation Administration ("FAA"); and

WHEREAS, regarding the Board's determination that such proposed building would not constitute a hazard, the Board notes that the FAA regulates the heights of buildings proximate to airports and, thus, the Board defers to the FAA's determination regarding any potential hazards posed by the subject proposed building; and

WHEREAS, the application was referred to the FAA, which issued a Determination of No Hazard to Air Navigation, issued April 2, 2015, under Aeronautical Study No. 2014-AEA-6294-OE, stating that the FAA's aeronautical study of the Development, conducted under the provisions of 49 U.S.C., Section 44718 and, if applicable, Title 14 of the Code of Federal Regulations, part 77, revealed that, at a maximum height of 211 feet above mean sea level ("AMSL"), the Development would have no substantial adverse effect on the safe and efficient utilization of the navigable airspace by aircraft or on the operation of air navigation facilities and would not be a hazard to air navigation provided that (1) the structure is marked/lighted in accordance with FAA Advisory circular 70/7460-1 K Change 2, Obstruction Marking and Lighting, red lights – Chapters 4,5(Red),&12; (2) FAA Form 7460-2, Notice of Actual Construction or Alteration, be e-filed any time the project is abandoned or within 5 days after the construction reaches its greatest height; (3) any changes in coordinates, heights, and frequencies or use of greater power will void the determination; (4) any future construction or alteration, including increase to heights, power, or the addition of other transmitters requires separate notice to the FAA; and (5) any failure or malfunction that lasts more than thirty (30) minutes and affects a top light or flashing obstruction light, regardless of its position, be reported immediately so a Notice to Airmen ("NOTAM") can be issued and reported again as soon as normal operation is restored (the "FAA Determination"); and

WHEREAS, accordingly, the maximum height of the Development approved by the FAA is 211 feet AMSL or 178 feet above ground level ("AGL"); and

WHEREAS, the Board notes that the elevations, as represented on the Development plans, demonstrate that the tallest point of the Development—the machine room roof—is located at 209.20 AMSL, less than 211 feet AMSL; and

WHEREAS, the Board notes that the obstruction standards referenced in the FAA Determination are similar, but not identical, to those found in the Zoning Resolution and that the maximum building height of 211 feet AMSL includes temporary construction equipment such as cranes, derricks, etc., which may be used during actual construction of the Development, but notes that such equipment shall not exceed 211 feet AMSL or 178 feet AGL and equipment that has a height greater than that would require separate notice to the FAA; and

WHEREAS, the FAA Determination states that it

MINUTES

expires on October 2, 2016 unless, *inter alia*, construction is started (not necessarily completed) and FAA Form 7460-2, Notice of Actual Construction or Alteration, is received by the FAA's Southwest Regional Office Obstruction Evaluation Group; and

WHEREAS, construction of the Development began on October 15, 2015, and FAA Form 7460-2 was, Notice of Actual Construction, was filed with the FAA; and

WHEREAS, all conditions contained in the FAA Determinations have been adopted and incorporated into the Board's grant herein, therefore any act constituting a violation of the FAA Determination will necessarily violate the subject Resolution; and

WHEREAS, by letter dated July 31, 2017, the Port Authority of New York and New Jersey, which operates LaGuardia Airport, states that it agrees with the FAA Determination, requests that all conditions stated in the determination be followed and reiterates that separate studies must be submitted to the FAA for any equipment (i.e. cranes) that exceed 211 feet AMSL or 178 AGL and such studies should be filed at least 90-120 days prior to the start of operations; and

WHEREAS, based on the above, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit is outweighed by the advantages to be derived by the community; and

WHEREAS, the applicant states that the subject proposal will not interfere with any public improvement projects; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18BSA013Q dated August 15, 2017; and

WHEREAS, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-66 and 73-03; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-66 and 73-03, to permit, on a site located in an R6 (C2-2) zoning district, the construction of a building that exceeds the maximum height permitted in the vicinity of major airports, contrary to ZR § 61-21; *on condition* that all work shall substantially conform to the drawings filed with this application and marked "Received March 9, 2018"-Ten (10) sheets; and *on further condition*:

THAT the maximum height of the building, including all appurtenances, shall be as follows: 211 feet above mean seal level ("AMSL") or 178 above ground level ("AGL");

THAT the structure is marked/lighted in accordance with FAA Advisory circular 70/7460-1 K Change 2, Obstruction Marking and Lighting, red lights – Chapters 4,5(Red),&12;

THAT FAA Form 7460-2, Notice of Actual Construction or Alteration, be e-filed any time the project is abandoned or within 5 days after the construction reaches its greatest height;

THAT any changes in coordinates, heights, and frequencies or use of greater power will void this special permit;

THAT any future construction or alteration, including increase to heights, power, or the addition of other transmitters requires separate notice to the FAA;

THAT any failure or malfunction that lasts more than thirty (30) minutes and affects a top light or flashing obstruction light, regardless of its position, be reported immediately so a Notice to Airmen ("NOTAM") can be issued and reported again as soon as normal operation is restored;

THAT temporary construction equipment shall not exceed the overall maximum permitted height of 211 feet AMSL or 178 AGL;

THAT any temporary construction equipment greater than 211 feet AMSL or 178 AGL shall require separate notice to the FAA;

THAT separate studies must be submitted to the FAA for any equipment (i.e. cranes) that exceed 211 feet AMSL or 178 AGL and such studies should be filed at least 90-120 days prior to the start of operations;

THAT substantial construction be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 20, 2018.

THE RESOLUTION –

WHEREAS, the decision on behalf of the Queens Borough Commissioner, dated August 2, 2017, acting on Department of Buildings (“DOB”) Application No. 421025982 reads in pertinent part:

The proposed height of the building exceeds the maximum allowable height as per section 61-21 of the NYC Zoning Resolution and requires a special permit from the BSA, pursuant to section 73-66; and

WHEREAS, this is an application under ZR § 73-66 to permit, on a site located in an R6 (C2-2) zoning district, the construction of a building that exceeds the maximum height permitted in the vicinity of major airports, contrary to ZR § 61-21; and

WHEREAS, a public hearing was held on this application on March 6, 2018, after due notice by publication in *The City Record*, and then to decision on March 20, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 7, Queens, recommends approval of this application; and

WHEREAS, the subject site is located on the northeast corner of 35th Avenue and Prince Street, in an R6 (C2-2) zoning district, in Queens; and

WHEREAS, the site has approximately 208 feet of frontage along 35th Avenue, 260 feet of frontage along Prince Street, 43,147 square feet of lot area and is currently vacant; and

WHEREAS, the applicant proposes to develop the site, which is located within the inner section of the approach surface for a runway located at LaGuardia Airport, with a 16-story mixed use residential, community facility and commercial building (the “Development”) whose height will penetrate the surface of the airport approach district of the flight obstruction area of LaGuardia Airport, contrary to ZR § 61-21, and requests a special permit pursuant to ZR § 73-66; and

WHEREAS, ZR § 73-66 provides that:

The Board of Standards and Appeals may permit the construction, *enlargement*, or reconstruction of a *building or other structure* in excess of the height limits established under Section 61-21 (Restriction on Highest Projection of Building or Structure) or 61-22 (Permitted Projection Within any Flight Obstruction Area), provided that the applicant submits a site plan, with elevations, showing the proposed *building or other structure* in relation to such maximum height limits, and that the Board finds that such proposed *building or other structure, enlargement*, or reconstruction

would not constitute a hazard (either under the existing layout of the airport or under any planned reorientation or lengthening of the airport runways) to the safety of the occupants of such proposed *building*, to other *buildings* in the vicinity or to the safety of air passengers, and would not disrupt established airways.

The Board shall refer the application to the Federal Aviation Administration for a report as to whether such construction will constitute a danger to the safety of air passengers or disrupt established airways; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, in support of this application, the applicant has submitted plans of the proposed Development with elevations and indicating the maximum height limits and maximum height approved by the Federal Aviation Administration (“FAA”); and

WHEREAS, regarding the Board’s determination that such proposed building would not constitute a hazard, the Board notes that the FAA regulates the heights of buildings proximate to airports and, thus, the Board defers to the FAA’s determination regarding any potential hazards posed by the subject proposed building; and

WHEREAS, the application was referred to the FAA, which issued five (5) Determinations of No Hazard to Air Navigation, three on issued February 9, 2016, under Aeronautical Study Nos. 2015-AEA-6328-OE, 2015-AEA-6330-OE and 2015-AEA-6331-OE (the “2016 Determinations”), and two issued on June 19, 2017, under Aeronautical Study Nos. 2017-AEA-5842-OE and 2017-AEA-5843-OE (the “2017 Determinations,” and, collectively, the “FAA Determinations”), stating that the FAA’s aeronautical study of the Development, conducted under the provisions of 49 U.S.C., Section 44718 and, if applicable, Title 14 of the Code of Federal Regulations, part 77, revealed that, at maximum heights of 211 feet above mean sea level (“AMSL”) at its highest point, 201 feet AMSL at the southeastern corner of the roof, 196 feet AMSL at the northeastern corner of the roof, and 191 feet AMSL at each of the northwestern and southwestern corners of the roof, the Development would have no substantial adverse effect on the safe and efficient utilization of the navigable airspace by aircraft or on the operation of air navigation facilities and not be a hazard to air navigation provided that (1) the Development is marked/lighted in accordance with FAA Advisory circular 70/7460-1 L, Obstruction Marking and Lighting, red lights – Chapters 4,5(Red),&12; (2) any failure or malfunction that lasts more than thirty (30) minutes and affects a top light or flashing obstruction light, regardless of its position, should be reported immediately so a Notice to Airmen (“NOTAM”) can be issued and reported again as soon as normal operation is restored; (3) FAA Form 7460-2, Notice of Actual Construction or Alteration, be e-filed any time the

MINUTES

project is abandoned or (a) at least ten (10) days prior to start of construction (7460-2, Part 1) and (b) within five (5) days after the construction reaches its greatest height (7460-2, Part 2); (4) any changes in coordinates, heights and frequencies or use of greater power voids the determination; and (5) any future construction or alteration, including increase to heights, power, or the addition of other transmitters, requires separate notice to the FAA; and

WHEREAS, accordingly, the maximum height of the Development approved by the FAA is 211 feet AMSL or 179 feet above ground level (“AGL”) at its highest point, 201 feet AMSL or 169 feet AGL at the southeastern corner of the roof, 196 feet AMSL or 164 feet AGL at the northeastern corner of the roof and 191 feet AMSL or 159 feet AGL at the northwestern and southwestern corners of the roof; and

WHEREAS, the Board notes that, according to the plans of the Development provided by the applicant, the highest point of the Development is located at 205.87 feet AMSL at its highest point, 195.87 feet AMSL at the southeastern corner of the roof, 195.87 feet at the northeastern corner of the roof and 189.54 feet at the northwestern and southwestern corners of the roof, which are all lower than the applicable maximum heights approved by the FAA; and

WHEREAS, the Board notes that the obstruction standards referenced in the FAA Determinations are similar, but not identical, to those found in the Zoning Resolution and that the maximum building heights approved include temporary construction equipment such as cranes, derricks, etc., which may be used during actual construction of the Development, but notes that such equipment shall not exceed the applicable maximum heights approved by the FAA and any equipment that has any greater height would require separate notice to the FAA; and

WHEREAS, the 2016 Determinations state that they expire on August 9, 2017, unless, *inter alia*, it is extended, revised or terminated by the issuing office; and

WHEREAS, the FAA extended the effective period of the 2016 Determinations to February 2, 2019, unless otherwise extended, revised or terminated by the issuing office; and

WHEREAS, the 2017 Determinations state that they expire on December 19, 2018, unless (a) construction is started (not necessarily completed) and FAA Form 7460-2, Notice of Actual Construction or Alteration, is received by the FAA; (b) extended, revised or terminated by the issuing office; (c) the construction is subject to the licensing authority of the Federal Communications Commission (“FCC”) and an application for a construction permit has been filed; and

WHEREAS, all conditions contained in the FAA Determinations have been adopted and incorporated into the Board’s grant herein, therefore any act constituting a violation of the FAA Determinations will necessarily violate the subject Resolution; and

WHEREAS, by letter dated July 31, 2017, the Port

Authority of New York and New Jersey, which operates LaGuardia Airport, states that it agrees with the FAA determinations, requests that all conditions in the determinations be followed and reiterates that separate studies must be submitted to the FAA for any equipment (i.e. cranes) that exceed the overall heights described in the determinations prior to any construction and such studies should be filed at least 90-120 days prior to the start of operations; and

WHEREAS, based on the above, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit is outweighed by the advantages to be derived by the community; and

WHEREAS, the applicant states that the subject proposal will not interfere with any public improvement projects; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18BSA014Q, dated August 15, 2017; and

WHEREAS, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR § 73-66 and 73-03; and

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under under ZR §§ 73-66 and 73-03, to permit, on a site located in an R6 (C2-2) zoning district, the construction of a building that exceeds the maximum height permitted in the vicinity of major airports, contrary to ZR § 61-21; *on condition* that all work shall substantially conform to the drawings filed with this application and marked “Received March 9, 2018”-Five (5) sheets; and *on further condition*:

THAT the maximum height of the building, including all appurtenances, shall be as follows: 211 feet above mean seal level (“AMSL”) or 179 feet above ground level (“AGL”) at its highest point, 201 feet AMSL or 169 feet AGL at the southeastern corner of the roof, 196 feet AMSL or 164 feet AGL at the northeastern corner of the roof and 191 feet AMSL or 159 feet AGL at the northwestern and southwestern corners of the roof;

THAT the structure is marked/lighted in accordance with FAA Advisory circular 70/7460-1 L, Obstruction Marking and Lighting, red lights – Chapters 4,5(Red),&12;

THAT any failure or malfunction that lasts more than thirty (30) minutes and affects a top light or flashing obstruction light, regardless of its position, should be reported immediately so a Notice to Airmen (“NOTAM”) can be issued and reported again as soon as normal operation is restored

THAT FAA Form 7460-2, Notice of Actual Construction or Alteration, be e-filed any time the project is abandoned or (a) at least ten (10) days prior to start of

MINUTES

construction (7460-2, Part 1) and (b) within five (5) days after the construction reaches its greatest height (7460-2, Part 2);

THAT any changes in coordinates, heights and frequencies or use of greater power voids the determination;

THAT any future construction or alteration, including increase to heights, power, or the addition of other transmitters, requires separate notice to the FAA;

THAT temporary construction equipment shall not exceed the applicable maximum heights approved by the FAA and set forth herein;

THAT any temporary construction equipment that exceeds the applicable maximum heights approved shall require separate notice to the FAA;

THAT separate studies must be submitted to the FAA for any equipment (i.e. cranes) that exceed the applicable maximum heights approved prior to any construction and such studies should be filed at least 90-120 days prior to the start of operations;

THAT substantial construction be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 20, 2018.

MINUTES

**REGULAR MEETING
TUESDAY MORNING, MARCH 27, 2018
10:00 A.M.**

Present: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.

SPECIAL ORDER CALENDAR

62-96-BZ

APPLICANT – Law Office of Fredrick A. Becker, for 200 Madison Owner LLC, owner; TSI East 36 LLC dba New York Sports Club, lessee.

SUBJECT – Application April 12, 2017 – Extension of Term of a previously granted Special Permit (§73-36) for the operation of a physical culture establishment (*New York Sports Club*) which expired on February 4, 2017; Waiver of the Rules. C5-2 zoning district.

PREMISES AFFECTED – 200 Madison Avenue, Block 865, Lot 14, Borough of Manhattan.

COMMUNITY BOARD #5M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for waivers of the Board’s Rules of Practice and Procedure, an extension of term of a previously granted special permit for a physical culture establishment (“PCE”), which expired on February 4, 2017, and an extension of time to obtain a certificate of occupancy, which expired on February 23, 2011; and

WHEREAS, a public hearing was held on this application on December 12, 2017, after due notice by publication in *The City Record*, and then to decision on March 27, 2018; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, the subject site is bound by Madison Avenue to the east, East 36th Street to the north and East 35th Street to the south, in a C5-2 zoning district, in Manhattan; and

WHEREAS, the site has approximately 198 feet of frontage along Madison Avenue, 220 feet of frontage along East 36th Street, 195 feet of frontage along East 35th Street, 41,000 square feet of lot area and is occupied 25-story plus cellar commercial building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since February 4, 1997, when, under the subject calendar number, the Board granted a special permit,

pursuant to ZR § 73-36, legalizing an existing physical culture establishment located in a portion of the cellar, first floor and mezzanine of the existing commercial building for a term of ten (10) years, expiring February 4, 2007, on condition that there be no change in ownership or operating control of the PCE without prior application to and approval from the Board; and

WHEREAS, on January 10, 2006, under the subject calendar number, the Board waived its Rules of Practice and Procedure and amended the resolution to reflect an enlargement of the PCE space on the first floor and a change in ownership and operating control of the PCE on condition that a new certificate of occupancy be obtained within one (1) year, by January 10, 2007, and all conditions from prior resolutions not specifically waived by the Board remain in effect; and

WHEREAS, on February 23, 2010, under the subject calendar number, the Board again waives its Rules of Practice and Procedure and amended the resolution to extend the term of the special permit for ten (10) years, expiring February 4, 2017, on condition that a certificate be obtained by February 23, 2011; there be no change in ownership or operating control of the PCE without prior application to and approval from the Board and all conditions from prior resolutions not specifically waived by the Board remain in effect; and

WHEREAS, the previous term of the special permit having expired, the applicant requests the subject relief; and

WHEREAS, additionally, the applicant requests waivers, pursuant to § 1-14.2 of the Board’s Rules of Practice and Procedure, of Rule § 1-07.3(b)(2) to permit the filing of this application less than two (2) years after the expiration of the term and Rule § 1-07.3(d)(2) to permit this filing more than (30) days after the expiration of the time to obtain a new certificate of occupancy; and

WHEREAS, in satisfaction of Rule § 1-07.3(b)(2), the applicant represents that the PCE use has been continuous since the expiration of the term and substantial prejudice would result without the requested waiver; and

WHEREAS, the applicant states that there has been no change in ownership or operator since the 2006 amended resolution, that New York Sports Club continues to operate the subject PCE and that the PCE continues to occupy 16,175 square feet of floor space in the cellar, 8,924 square feet of floor area on the first floor and 1,365 square feet of floor area on the mezzanine of the subject building; and

WHEREAS, however, massage services are no longer being offered at the facility; and

WHEREAS, the applicant represents that the hours of operation of the PCE are Monday through Thursday, 5:30 a.m. to 10:00 p.m., Friday, 5:30 a.m. to 9:00 p.m., and Saturday through Sunday, 8:00 a.m. to 8:00 p.m.; and

WHEREAS, the applicant states that the PCE is fully sprinklered and that a fire alarm system has been installed and is operational within the PCE space; and

WHEREAS, the applicant has satisfactorily demonstrated compliance with the conditions of the previous

MINUTES

term, with the exception of obtaining a certificate of occupancy, which this application seeks to cure, and the Board finds that the circumstances warranting the original grant still obtain; and

WHEREAS, accordingly, the Board finds that a ten (10) year extension of the term of the special permit is appropriate, with the conditions set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals reopens and amends the resolution, dated February 4, 1997, as amended through February 23, 2010, so that as amended this portion of the resolution shall read: "to permit an extension of the term of the special permit for a term of ten (10) years, expiring February 4, 2027, on condition that all work and site conditions shall conform to drawings filed with this application marked "Received March 19, 2018"- Five (5) sheets; and on further condition:

THAT the term of this grant shall expire on February 4, 2027;

THAT a new certificate of occupancy shall be obtained within one year;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT the above conditions shall appear on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, March 27, 2018.

143-07-BZ

APPLICANT – Law Office of Fredrick A. Becker, for Chabad House of Canarsie, Inc., owner.

SUBJECT – Application December 28, 2016 – Extension of Time to complete construction of an approved variance (§72-21) to permit the construction of a three-story and cellar synagogue (*Chabad House of Canarsie*), which expired on December 4, 2016. R2 zoning district.

PREMISES AFFECTED – 6404 Strickland Avenue, Block 8633, Lot 1, Borough of Brooklyn.

COMMUNITY BOARD #18BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta5
Negative:0

THE RESOLUTION –

WHEREAS, this is an application for an extension of time to complete construction and an amendment; and

WHEREAS, a public hearing was held on this application on December 5, 2017, after due notice by publication in *The City Record*, with continued a hearing on February 13, 2018, and then to decision on March 27, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 18, Brooklyn, recommends denial of this application, stating without providing evidence that there will be negative land-use effects in the neighborhood from traffic and noise and noting that there are several other houses of worship and schools in the vicinity; and

WHEREAS, the subject site is located on the southeast corner of Strickland Avenue and East 64th Street, in an R2 zoning district, in Brooklyn; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 22, 2008, when, under the subject calendar number, the Board granted a variance to permit the construction of a three-story, with cellar, house of worship with accessory school (Use Group 4), which does not comply with the requirements for side yards, floor area and floor area ratio, front wall height, sky exposure plane and parking on condition that the proposed house of worship have floor area of 9,197 square feet, an FAR of 1.53, a front wall height of 39'-0" on Strickland Avenue and 30'-0" on East 64th Street, front yards of 15'-0" on Strickland Avenue and 6'-0" on East 64th Street, a side yard of 3'-0" on the eastern lot line and one parking space, that any change in ownership or use of the building shall be as reviewed and approved by the Board and that the aforementioned condition be noted on the approved plans and on the certificate of occupancy; and

WHEREAS, on December 4, 2012, under the subject calendar number, the Board granted an extension of time to complete construction of four (4) years, expiring December 4, 2016, on condition that substantial construction be completed by December 4, 2016; and

WHEREAS, the time to complete construction having expired, the applicant now seeks an extension and an amendment to permit the construction of a three-story, without cellar, house of worship with a lower height; and

WHEREAS, in response to community concerns and questions from the Board, the applicant provided additional information indicating that entry to the building has been designed to minimize potential traffic effects, that the roof is not intended for use as a play area, and that windows will feature sound attenuation; and

WHEREAS, the applicant further altered the plans to demonstrate that bulkheads have been lowered to minimize visual impact, to remove elevator to the roof, replace chain-link fencing with metal fencing and indicate that the subject building will comply with regulations applicable in flood

MINUTES

zones; and

WHEREAS, based upon its review of the record and inspections of the site and surrounding area, the Board has determined that the requested extension of time to complete construction and amendment are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated July 22, 2008, as amended through December 4, 2012, so that as amended this portion of the resolution shall read: “to *permit* an extension of time to complete construction of four (4) years, expiring March 27, 2022, and an amendment permit the construction of a three-story, without cellar, house of worship with a lower height; *on condition* that all work and site conditions shall conform to drawings filed with this application marked “Received March 28, 2018”-Fourteen (14) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be limited to the following: a maximum floor area of 9,197 square feet, a maximum FAR of 1.53, a maximum front wall height of 39’-0” on Strickland Avenue and 30’-0” on East 64th Street, minimum front yards of 15’-0” on Strickland Avenue and 6’-0” on East 64th Street, a minimum side yard of 3’-0” on the eastern lot line and one parking space;

THAT any change in ownership or use of the building shall be as reviewed and approved by the Board;

THAT the above conditions shall appear on the approved plans and the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by March 27, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, March 27, 2018.

Abstain: and Commissioner Scibetta.....1

THE RESOLUTION –

WHEREAS, the determination of the First Deputy Commissioner dated January 10, 2017, acting on Department Buildings Job No. 200852050 (Zoning Resolution Determination Reference Number 29292) (the “Final Determination”), reads in pertinent part:

The request to allow within each adjoining waterfront zoning lot two buildings with each building abutting the rear lot line and abutting one other building in the adjoining zoning lot is hereby denied.

As shown in the submitted plans, two adjoining waterfront lots, located within the R3-1 District, have common rear lot lines segmented into three parts which separate the two zoning lots with one segment, starting from the shoreline, running parallel between Casler Place and Dare Place (‘Segment No. 1’), connecting with the second segment (‘Segment No. 2’) . . . connecting with the third segment (‘Segment No. 3’) which runs parallel between Casler Place and Dare Place, and terminating at the side lot lines of the two adjoining zoning lots. Located within the northern zoning lot (‘Zoning Lot A’) is an existing single-family residence converted to a two-family residence (‘Building No. 1’), located on the easterly portion of Zoning Lot A within lot no. 489, and a second building, a new building consisting of a two-family residence (‘Building No. 2’), located on the westerly portion of Zoning Lot A within lot no. 487; located within the southern zoning lot (‘Zoning Lot B’) are two new buildings consisting of a two-family residence (the new building located on the westerly portion of Zoning Lot B in lot no. 500 is identified as ‘Building No. 3’ and the new building located on the easterly portion of Zoning Lot B in lot no. 488 is identified as ‘Building No. 4’). Within Zoning Lot A, Building No. 1 abuts the rear lot line at Segment No. 1 and abuts Building No. 4 located in the adjoining Zoning Lot B and Building No. 2, located within Zoning Lot A, abuts the rear lot line at Segment No. 3 and abuts Building No. [3], located in the adjoining Zoning Lot B.

[. . .]

Each of the three common lot line segments separating the two adjoining zoning lots are ‘rear lot lines,’ as defined in ZR 12-10, which states that ‘[a] ‘rear lot line is any lot line of a zoning lot except a front lot line, which is parallel or within 45 degrees of being parallel to, and does not intersect, any street line bounding such zoning

MINUTES

lot.’ In addition, the two adjoining zoning lots, located within the waterfront area, which have a boundary at grade coincident with the shoreline are located within ‘waterfront blocks,’ as defined in ZR 62-11, and are subject to the bulk regulations under ZR 62-30. . . . The applicant claims that the three rear lot line segments form a single continuous rear lot line that intersects the shoreline and that, pursuant to ZR 62-11, such continuous rear lot line would be deemed a side lot line. With the common lot line segments forming a continuous side lot line, the applicant claims that all four buildings, located within Zoning Lots A and B, abutting such continuous side lot line, are ‘semi-detached’ buildings meeting the definition under ZR 12-10 and that all such two-family semi-detached residences would be permitted uses within the R3-1 District, pursuant to ZR 22-00. . . .

However, a more significant issue requires the compliance with the provisions under ZR 23-891 pertaining to zoning lots with two or more buildings. The two adjoining zoning lots, each having a boundary at grade coincident with the shoreline, meets the definition for ‘waterfront zoning lot,’ pursuant to ZR 62-11 within Article VI, Chapter 2 (Special Regulations Applying in the Waterfront Area). ZR 62-13 states that ‘[t]he regulations of all other Chapters of this Resolution are applicable, except as superseded, supplemented or modified by the provisions of this Chapter.’ One applicable section in the ZR not superseded, supplemented or modified by the provisions of Article VI, Chapter 2 is ZR 23-891 from Article II, Chapter 3. ZR 23-891 shall apply for both adjoining Zoning Lots A and B each containing at least two buildings which states that ‘[a]n open area shall be provided adjacent to the rear wall of each such building or building segment.’ For the purposes of ZR 23-891, the section states that ‘...the ‘rear wall’ shall be the wall opposite the wall of each building or building segment that faces a street or private road.’ The two buildings, located within Zoning Lot A, and the two buildings, located within Zoning Lot B, require the provision of an open area adjacent to the rear wall of each building or building segment such that the width of each open area shall be equal to the width of each building or building segment, the depth of each open area shall be at least 30 ft., measured perpendicular to each rear wall, and no such open area shall serve more than one building or building segment, pursuant to ZR 23-891(a). As shown in the submitted plans, each building within Zoning Lots A and B with the rear exterior walls abutting the lot line is not provided with the required open

areas and is not in compliance with ZR 23-891; and

WHEREAS, this is an appeal for interpretation under ZR § 72-11 and New York City Charter § 666(6)(a) that (1) particular lot line segments at the subject site constitute a “side lot line,” rather than a “rear lot line,” and the buildings abutting at that lot line each meet the Zoning Resolution definition of a “semi-detached building” and (2) ZR § 23-891 is inapplicable because the buildings are located on “waterfront zoning lots” subject to the provisions of ZR § 62-00, *et seq.* (Special Regulations Applying in the Waterfront Area); and

WHEREAS, a public hearing was held on this appeal on November 14, 2017, after due notice by publication in *The City Record*, with a continued hearing on February 13, 2018, and then to decision on March 27, 2018; and

WHEREAS, Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is comprised of six (6) adjacent tax lots located west of Pennyfield Avenue—two fronting Dare Place (Lots 487 and 489), three fronting Casler Place (Lots 500, 488 and 491) and one with frontage on both Dare Place and Casler Place (Lot 492)—bound by Dare Place to the north, Casler Place to the south and Eastchester Bay to the west, in an R3-1 zoning district and a Lower Density Growth Management Zone, in the Bronx; and

WHEREAS, this appeal is brought on behalf of the owners in fee of the subject site (the “Appellant”); and

WHEREAS, the Department of Buildings (the “Department” or “DOB”) was represented by counsel seeking affirmance of the Final Determination and denial of this appeal; and

WHEREAS, the Board was in receipt of testimony and seven letters in opposition to this appeal raising concerns regarding, *inter alia*, the location of the high water mark at the site, the applicability of FEMA regulations, illegal construction, the narrowness of the Casler Place roadbed and the lack of on-street parking space; and

WHEREAS, the Board notes that these concerns are not pertinent to the issues on appeal, are more suitably pursued with by seeking action by other New York City Agencies and/or by filing a court action and that at the February 13 hearing, an attorney for the Appellant testified that these concerns are, indeed, the subject of a proceeding pending in the New York Supreme Court; and

PROCEDURAL HISTORY

WHEREAS, the BSA has exercised jurisdiction over Lot 487 (3094 Dare Place) and Lot 488 (3093 Casler Place) on Block 5529 in the Bronx since September 27, 2005, when, under BSA Cal. No. 235-04-A and 236-04-A, the Board granted waivers of General City Law § 35 to permit construction of two-story dwellings on those lots within the bed of a mapped, but unimproved street (Whitehead Place) on condition that the development comply with all applicable provisions of the Zoning Resolution,

MINUTES

Administrative Code and any other relevant laws under DOB jurisdiction and there be no construction of any type within the right of way of Dare Place; and

WHEREAS, DOB New Building (“NB”) Permit No. 200852032-01-NB for the construction of a two-family residence on Lot 487 was first issued on October 25, 2006 (referred to as “Building No. 2” in the Final Determination); and

WHEREAS, Building No. 2, which fronts Dare Place, abuts a two-family residence located on Lot 500, a lot located immediately to the south and fronting Casler Place (referred to as “Building No. 3” in the Final Determination”), which was constructed pursuant to DOB NB Permit No. 200852041-01-NB, first issued on October 25, 2006; and

WHEREAS, on February 4, 2010, a Zoning Lot Description and Ownership Statement was recorded in the Office of the City Register of the City of New York (City Register File No. 2010000040181) describing Lots 487 and 500 as a single zoning lot (“Zoning Lot X”); and

WHEREAS, DOB NB Permit No. 200852050-01-NB for the construction of a two-family residence on Lot 488 was first issued on December 12, 2006 (referred to as “Building No. 4” in the Final Determination); and

WHEREAS, Building No. 4, which fronts Casler Place, abuts a two-family residence located on Lot 489, a lot located immediately to the north and fronting Dare Place (referred to as “Building No. 1” in the Final Determination); and

WHEREAS, in or around October 2010, the Appellant states that the DOB applications for construction of Building No. 2, Building No. 3 and Building No. 4 were audited by DOB Technical Affairs, at which time DOB noted that Building No. 2 and Building No. 3 did not qualify as “semi-detached buildings” because they were both located on the same zoning lot, Zoning Lot X, and, by definition, “semi-detached buildings” must be located on adjoining zoning lots and abut along a side lot line; and

WHEREAS, no formal objection was issued by DOB, but in an attempt to resolve the issue, the Appellant proposed a reconfiguration of Zoning Lot X: one zoning lot consisting of Lots 489, 487 and the northern half of Lot 492 on which Building No. 1 and Building No. 2 sit (referred to as “Zoning Lot A” in the Final Determination), and a second zoning lot consisting of Lots 500, 488, 491 and the southern half of Lot 492 on which Building No. 3 and Building No. 4 sit (referred to as “Zoning Lot B” in the Final Determination); and

WHEREAS, on October 10, 2013, the Appellant submitted an internal appeal to DOB of a denial of a Zoning Resolution Determination issued on August 2, 2013 (ZRD1 Control No. 29292, the “ZRD1”), requesting a determination that the zoning lot line separating Zoning Lot A from Zoning Lot B is a “side lot line” and Building No. 2 and Building No. 3 and Building No. 1 and Building No. 4, respectively, each meet the Zoning Resolution definition of “semi-detached buildings”; and

WHEREAS, on March 20, 2014, DOB First Deputy Commissioner Thomas J. Fariello, RA, denied the appeal (the “2014 Denial”); and

WHEREAS, applications to appeal an agency final determination must be filed at the Board within thirty (30) days from the date of the determination, pursuant to § 1-06.3(a) of the Board’s Rules of Practice and Procedure (the “Rules”); and

WHEREAS, an appeal of the 2014 Denial was not timely filed and on or around December 20, 2016, the Appellant resubmitted the ZRD1 to DOB Technical Affairs to obtain a renewed determination for purposes of appealing the decision to the Board; and

WHEREAS, on January 10, 2017, DOB First Deputy Commissioner Fariello reissued the 2014 Denial and this appeal application was timely filed, pursuant to § 1-06.3(a), on January 26, 2017; and

ISSUES PRESENTED

WHEREAS, the two issues in this appeal are whether (1) the lot line segments separating Zoning Lot A and Zoning Lot B are “side lot lines” or “rear lot lines” and, thus, Building Nos. 1, 2, 3 and 4 meet the Zoning Resolution definition of “semi-detached buildings” and (2) an open area with a depth of at least 30 feet perpendicular to the rear wall of each of the four buildings is required at this site pursuant to ZR § 23-891 where Zoning Lots A and B are waterfront zoning lots; and

WHEREAS, at the subject site, residential uses are limited to single- or two-family detached or semi-detached residences, pursuant to ZR § 22-12, thus, if the four buildings do not qualify as “semi-detached buildings,” they are contrary to applicable use regulations; and

WHEREAS, similarly, if ZR § 23-891 is applicable at the site, Building Nos. 1, 2, 3 and 4 do not comply with applicable bulk regulations; and

DISCUSSION

(1) WHETHER BUILDING NOS. 1, 2, 3 AND 4 ARE “SEMI-DETACHED BUILDINGS”

WHEREAS, pursuant to ZR § 12-10:

A “front lot line” is a *street line* 1;

[. . .]

A “rear lot line” is any *lot line* of a *zoning lot* except a *front lot line*, which is parallel to or within 45 degrees of being parallel to, and does not intersect, any *street line* bounding such *zoning lot*;

[. . .]

A “side lot line” is any *lot line* which is not a *front lot line* or a *rear lot line*;

[. . .]

A “street line” is a *lot line* separating a *street* from other land; and

WHEREAS, “semi-detached building” is defined in ZR § 12-10 as “a *building* that *abuts* only one other

1 Words in italics are terms defined in Section 12-10 of the New York City Zoning Resolution.

MINUTES

building, other than an *attached building*, on an adjoining *zoning lot* along only one *side lot line* and which is surrounded on all other sides by *yards*, other open areas or *street lines*"; and

WHEREAS, a "waterfront block" or "waterfront zoning lot" is defined in ZR § 62-11, in relevant part, as "a *block* or *zoning lot* in the *waterfront area* having a boundary at grade coincident with or seaward of the *shoreline*"; and

WHEREAS, with regards to rear lot lines of waterfront zoning lots, ZR § 62-331(a) states, "Any *rear lot line* of a *waterfront zoning lot* that intersects the *shoreline* shall be deemed to be a *side lot line* and be subject to *side yard* regulations"; and

WHEREAS, the Appellant asserts that because the lot line segments separating Zoning Lots A and B intersect the shoreline, they constitute a "side lot line" pursuant to ZR § 62-331(a) and, thus, all four buildings meet the Zoning Resolution definition of "semi-detached buildings"; and

WHEREAS, the Department reasserts the Final Determination's conclusion that the common lot line segments separating Zoning Lot A and B are "rear lot lines," and, therefore, the buildings constructed thereon do not meeting the ZR § 12-10 definition of "semi-detached building" because they do not abut "along only one *side lot line*"; and

WHEREAS, pursuant to § 1-12.1 of the Board's Rules of Practice and Procedure, an application must receive three (3) affirmative votes to be granted; and

WHEREAS, fewer than three (3) members of the Board agree with the Appellant's assertion that these lot line segments are "side lot lines" and that the four buildings are "semi-detached"; and

WHEREAS, two Board Commissioners find that the four buildings meet the ZR § 12-10 definition of "semi-detached building," though one member acknowledges that if the common lot line segments separating Zoning Lots A and B constituted a "rear lot line," the four buildings would not qualify as "semi-detached buildings"; and

WHEREAS, one Board Commissioner finds that the common lot line segments are a single side lot line, but that the buildings, nevertheless, do not qualify as "semi-detached buildings" because graphics associated with semi-detached buildings in the Zoning Resolution always show such buildings fronting on the same street, whereas Building Nos. 2 and 3 and Building Nos. 1 and 4 front different streets; and

WHEREAS, one Board Commissioner finds that the answer to the second question on appeal renders this question immaterial because the applicability of the requirement for an open area pursuant to ZR § 23-891 makes "semi-detached buildings" in the configuration presented by Building Nos. 2 and 3 and Building Nos. 1 and 4 at the subject site physically impossible; and

WHEREAS, accordingly, Appellant's appeal of the determination that these common lot line segments are "rear lot lines" and that the four buildings at the subject site do not meet the Zoning Resolution's definition of "semi-detached building" is denied and the Board finds that Building Nos. 1,

2, 3 and 4 are contrary to the use regulations set forth in ZR § 22-12; and

(2) APPLICABILITY OF ZR § 23-891 TO ZONING LOTS A AND B

WHEREAS, the "waterfront area" is defined in ZR § 12-10 as "the geographical area comprising all *blocks* between the pierhead line and a line 800 feet landward from the *shoreline*"; and

WHEREAS, a "rear yard" is defined in ZR § 12-10 as "a *yard* extending for the full length of a *rear lot line*"; and

WHEREAS, with regards to rear yards, ZR § 62-332 states in relevant part:

62-332

Rear yards and waterfront yards

Rear yard regulations shall be inapplicable on *waterfront zoning lots*. In lieu thereof, a *waterfront yard* shall be provided along the entire length of the *shoreline*, bulkhead or stabilized natural shore, whichever is furthest landward . . . ; and

WHEREAS, with regards to the open area requirements for residences, ZR § 23-891 reads, in pertinent part, as follows:

23-891

In R1 through R5 Districts

R1 R2 R3 R4 R5

In the districts indicated, except R4B and R5B Districts, the provisions of this Section shall apply to all *zoning lots* with two or more *buildings* or *building segments* containing *residences*. All such *buildings* or *building segments* shall provide open areas in accordance with this Section. Only those obstructions set forth in Section 23-44 (Permitted Obstructions in Required Yards or Rear Yard Equivalents) shall be allowed, except that parking spaces, whether enclosed or unenclosed, and driveways, shall not be permitted within such open areas.

(a) An open area shall be provided adjacent to the rear wall of each such *building* or *building segment*. For the purposes of this Section, the "rear wall" shall be the wall opposite the wall of each *building* or *building segment* that faces a *street* or *private road*. The width of such open area shall be equal to the width of each *building* or *building segment*, and the depth of such open area shall be at least 30 feet when measured perpendicular to each rear wall. No such open areas shall serve more than one *building* or *building segment*. . . ; and

WHEREAS, a "waterfront yard" is defined in ZR § 62-11 as "that portion of a *waterfront zoning lot* extending open and unobstructed from the lowest level to the sky along the entire length of the *shoreline*, stabilized natural shore, bulkhead or water edge of a *platform*, as applicable, for a depth or width as set forth in this Chapter"; and

MINUTES

WHEREAS, the Appellant contends that because Zoning Lots A and B are waterfront lots consistent with the provisions of Article VI, Chapter 2 of the Zoning Resolution (Special Regulations Applying the Waterfront Area), neither zoning lot is required to provide a rear yard pursuant to ZR § 62-332; and

WHEREAS, accordingly, the Appellant concludes that ZR § 23-891 conflicts with ZR § 62-332 because ZR § 23-891 requires an open area at least 30 feet deep adjacent to the rear wall of each building or building segment on each of Zoning Lots A and B, while ZR § 62-332 renders rear yard regulations inapplicable on Zoning Lots A and B and, “in lieu thereof,” requires a waterfront yard; applying both provisions at the subject site, therefore, results in the required provision of both a waterfront yard and an open area where ZR § 62-33 is clear that a waterfront yard is to be provided instead of a rear yard; and

WHEREAS, because of that alleged conflict, the Appellant contends that ZR § 62-332 controls and ZR § 23-891 is inapplicable to Zoning Lots A and B because of ZR § 62-13, which reads, in pertinent part, as follows:

62-13

Applicability of District Regulations

The regulations of all other Chapters of this Resolution are applicable, except as superseded, supplemented or modified by the provisions of this Chapter. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control. . . .; and

WHEREAS, the Appellant contends further that ZR § 23-891 conflicts with the intent of open area regulations applicable to waterfront zoning lots set forth in ZR § 62-50 (General Requirements for Visual Corridors and Waterfront Public Access Areas), which, as the Appellant contends, requires visual corridors in lieu of open areas, though the Appellant concedes that ZR § 62-50 is not applicable to developments comprised of single- or two-family residences within detached, semi-detached or zero lot line buildings on zoning lots less than 10,000 square feet in any district, such as the subject site; and

WHEREAS, accordingly, Appellant asserts that no open areas between Building Nos. 2 and 3 or Building Nos. 1 and 4 are required pursuant to ZR § 23-891 because the open area requirement set forth therein conflicts with ZR § 62-332, and, according to ZR § 62-13, in the event of a conflict, provisions in Article VI, Chapter 2 control (i.e. ZR § 62-332), therefore, no rear yard is required on Zoning Lots A and B and, thus, the buildings may legally abut at the common lot line segments separating Zoning Lots A and B, which the Appellant states is a side lot line pursuant to ZR § 62-331; and

WHEREAS, the Department asserts that ZR § 23-891 is, indeed, applicable at the subject site and, thus, Building Nos. 2 and 3 and Building Nos. 1 and 4 cannot abut as the Appellant proposes and must each have separate open area of at least 30 feet adjacent to their respective rear walls; and

WHEREAS, the Department states that the Appellant appears to interpret ZR § 23-891 as a rear yard requirement that, therefore, directly conflicts with ZR § 62-332, but the Department asserts that each provision deals with different defined terms—ZR § 23-891 relates to open areas adjacent to “rear walls,” a term that is defined specifically for the purposes of interpreting ZR § 23-891, and is concerned with the orientation of a building in relation to the street, while ZR § 62-332 relates to “rear yards” (defined in ZR § 12-10 in terms of a “lot line” and “zoning lot”) and is concerned with the orientation of the zoning lot in relation to the street—and, thus, are not in conflict; specifically, the Department contests that it is possible for waterfront zoning lots, on which rear yards are not required pursuant to ZR § 62-332, to nevertheless provide open areas of at least 30 feet in depth adjacent to the rear walls of buildings or building segments located thereon and notes that the text of ZR § 23-891 purposefully utilizes the phrase “rear wall” and omits references to “rear yard” or “rear lot line” in order to highlight that the open area requirement set forth therein exists regardless of whether a rear yard is otherwise required on the a zoning lot; and

WHEREAS, additionally, the Department contends that the Appellant’s argument that ZR § 23-891 is inconsistent with the spirit of Article VI, Chapter 2 and a preference therein for visual corridors is misplaced—specifically, where the plain language of the provisions is clear and unambiguous, as the Department asserts the language of ZR §§ 23-891 and 62-332 area here, there is no need to look elsewhere to divine intent; and

WHEREAS, at the first public hearing, the Board requested that the parties address the threshold question of whether Zoning Lots A and B are, indeed, “waterfront zoning lots” pursuant to ZR § 62-11 and requested that the Appellant provide information regarding the orientation of other buildings in the surrounding area to determine whether the subject development is consistent with existing developments in the subject waterfront area and shed light on the applicability of ZR § 23-891 to waterfront zoning lots; and

WHEREAS, in response, the Appellant provided a waterfront site plan and cross-section of Zoning Lots A and B illustrating their relationship to the shoreline and a study of the Throgs Neck area waterfront illustrating that the majority of residences in the area, built prior to the currently applicable zoning regulations, are detached with little space between their rear walls; that most buildings on waterfront zoning lots in the area have rear walls facing the shoreline and open areas fronting the water, but notes that, with the exception of Dare Place, Casler Place and Wissman Avenue, the remaining streets in the area run parallel to the shoreline, surmises that the waterfront zoning regulations of Article VI, Chapter 2 were based on an assumption that all waterfront zoning lots would front streets running parallel to the shorelines, thus, waterfront zoning lots fronting streets running perpendicular to the shoreline (as Zoning Lots A and B do) were never anticipated and, thus, it is not

MINUTES

inconceivable that ZR §§ 23-891 and 62-332 would conflict under limited circumstances, as the Appellant suggests they do here; and

WHEREAS, the Department states that the Appellant's study of the area was of no probative value as to the applicability of ZR § 23-891 on waterfront zoning lots because none of the developments illustrated therein contain buildings in the same configuration as those on the subject development; the Department additionally draws attention to Appellant's concession that many of the residential developments studied were constructed prior to the applicability of current zoning regulations and further states that the zoning lots included in the study do, in fact, comply with ZR § 23-891 because a complying open area is provided adjacent to the rear walls of the buildings constructed thereon, and such open areas are naturally oriented towards the shoreline because of the buildings' configurations on their respective lots; and

WHEREAS, in further submissions, the Appellant argued that the open area requirements of the Zoning Resolution were introduced to ensure adequate open areas on zoning lots that were not required to provide rear yards, such as corner lots, thus, the requirement of a waterfront yard under ZR § 62-332 is intended to operate in the same fashion as an open area requirement—that is, as a replacement for a rear yard—and, further, that the waterfront wall of a building on a waterfront zoning lot is intended to be treated as the building's "rear wall"; and

WHEREAS, the Appellant continues that this interpretation is consistent with other provisions in the Zoning Resolution, including ZR § 23-49(a), which reads in relevant part as follows:

23-49

Special Provisions for Side Lot Line Walls

R3-1 R3-2 R4 R5

In the districts indicated, except R4A and R5A Districts, a *building* containing *residences* may:

(a) *abut an existing building* located along a *side lot line* . . . provided that the walls of the *building* containing *residences* and walls of the existing *building* shall *abut* for a length equal to or greater than one half of the distance between the *street wall line* and *rear wall line* of the existing *building*.

(b) [. . .]

For such *buildings* containing *residences*, the *side yard* requirements shall be waived along the *side lot line* of the *zoning lot* coincident with the *abutting buildings* and one *side yard* shall be provided along any *side lot line* of the *zoning lot* without an *abutting building* with a width of at least eight feet in R3-1, R3-2, R4 or R5 districts, and four feet in R4-1, R4B or R5B Districts.; and

WHEREAS, the Appellant asserts that ZR § 23-49(a) implies that the front and rear walls are perpendicular to the walls abutting the side lot lines and, since the lot lines of Zoning Lots A and B that intersect the shoreline are

considered "side lot lines" pursuant to ZR § 62-331(a), ZR § 23-49(a) implies that the "rear wall" is the wall of the building that fronts the water and is perpendicular to the street, not parallel to the street as "rear wall" is defined in ZR § 23-891's; and

WHEREAS, in response to this argument, the Department asserts that ZR § 23-49, unlike ZR § 23-891, does not define "rear wall" and, instead, uses the term "rear wall line," which is defined in ZR § 12-10 as follows:

A "rear wall line" is that portion of a line drawn parallel to a *front wall line* at a distance equal to the greatest depth between the rear wall of a *building* and the *front lot line*, from which, when viewed directly from above, lines perpendicular to a *street wall line* may be drawn; and

WHEREAS, the Department suggests that it is evident from the definition of "rear wall line," which references "front lot line" and "street wall line," that ZR § 23-49(a), like ZR § 62-332, is related to the orientation of the zoning lot in relation to the street and therefore cannot conflict with ZR § 23-891, which is related to the orientation of buildings with regards to the street; further, the Department asserts that nothing in ZR § 23-49 or the ZR § 12-10 definition of "rear wall line" suggests that the rear wall of a building can be anything other than the wall opposite the wall that faces the street; and

WHEREAS, the Board accepts that Zoning Lots A and B are "waterfront zoning lots," and three (3) members of the Board find that ZR §§ 23-891 and 62-332 do not conflict, that ZR § 23-891 is applicable to Zoning Lots A and B and that the current configuration of Building Nos. 2 and 3 and Building Nos. 1 and 4 do not provide the open area required thereunder; and

WHEREAS, a majority of the Board also agrees that the walls at which Building No. 2 abuts Building No. 3 and at which Building No. 1 abuts Building No. 4—walls that are opposite the walls of each of those buildings that face a street—are the "rear walls" of those buildings and, thus, each building must provide its own open area adjacent to each of those walls at least 30 feet in depth pursuant to ZR § 23-891; and

WHEREAS, a majority of the Board agrees with the Department that "open area" and "rear yard" are distinct terms that regulate different aspects of a development's bulk and, thus, an open area required pursuant to ZR § 23-891 is not in conflict with ZR § 62-332, which exempts waterfront lots from rear yard regulations, because it is an "open area," which is defined in relation to a "rear wall," and not a "rear yard," which is defined in relation to a "rear lot line"; and

WHEREAS, one member of the Board finds that ZR § 23-891 is inapplicable to Zoning Lots A and B because if it were to apply, it would prohibit semi-detached buildings on these zoning lots as they are currently configured, where semi-detached buildings are otherwise permitted in R3-1 zoning districts as-of-right and notes that such finding is limited to waterfront zoning lots on streets, like Dare Place and Casler Place, that are perpendicular to the shoreline; and

MINUTES

CONCLUSION

WHEREAS, the Board has considered all of the Appellant's arguments on appeal and a majority finds them to be without merit; and

WHEREAS, for the foregoing reasons, the Board finds that (1) the abutting buildings on Zoning Lots A and B are not "semi-detached buildings" consistent with the ZR § 12-10 definition and (2) ZR § 23-891 is applicable to the subject site and open areas measuring a minimum of 30 feet in depth are required adjacent to the rear walls of the buildings; and

Therefore it is Resolved, that the determination of the Department of Buildings, dated January 10, 2017, acting on Department Buildings Job No. 200852050 shall be and hereby is *upheld* and that this appeal shall be and hereby is *denied*.

Adopted by the Board of Standards and Appeals, March 27, 2018.

102-15-A

APPLICANT – Eric Palatnik, P.C., for Kathleen Spezio, owner.

SUBJECT – Application May 11, 2015 – Proposed enlargement of a building located partially within the bed of mapped unbuilt street, pursuant Article 3 Section 35 of the General City Law and waiver under ZR 72-10-(g) . R3-2/SRD zoning district.

PREMISES AFFECTED – 1088 Rossville Avenue, Block 7067, Lot 1, Borough of Staten Island.

COMMUNITY BOARD #3SI

ACTION OF THE BOARD – Laid over to May 15, 2018, at 10 A.M., for continued hearing.

2017-103-A

APPLICANT – Law Office of Steven Simicich, for Lera Property Holdings, LLC, owner.

SUBJECT – Application April 7, 2017 – Proposed construction of a single family residential building not fronting on a legally mapped street pursuant to Section 36 Article 3 of the General City Law. R3A zoning district
PREMISES AFFECTED – 3924 Victory Boulevard, Block 2620, Lot 126, Borough of Staten Island.

COMMUNITY BOARD #2SI

ACTION OF THE BOARD – Laid over to April 10, 2018, at 10 A.M., for continued hearing.

2017-193-A thru 2017-199-A

APPLICANT – Eric Palatnik, P.C., for Frank McErlean, owner.

SUBJECT – Application May 26, 2017 – Proposed construction of a commercial building not fronting on a legally mapped street pursuant to Section 36 Article 3 of the General City Law. R1-2 zoning district.

PREMISES AFFECTED – 9, 10, 11, 12, 14, 15, and 17

Tulepo Court, Block 2260, Lot(s) 4, 10, 60, 62, 64, 66, 68, Borough of Staten Island.

COMMUNITY BOARD #2SI

ACTION OF THE BOARD – Laid over to May 15, 2018, at 10 A.M., for continued hearing.

2017-285-A

APPLICANT – Rosenberg Estis, P.C., for Committee for Environmental Sound Development/ Amsterdam Avenue Redevelopment Associates, LLC, owner.

SUBJECT – Application October 26, 2017 – Application pursuant to Section 666.7(a) of the New York City Charter and Section 1-06 of the Board of Standards and Appeals (the "Board" or "BSA") Rules of Practice and Procedure, to request that the Board revoke building permit No. 122887224-01-NB (the "Permit"), issued by the New York City Department of Buildings ("DOB") on September 27, 2017. The application seeks to demonstrate that the permit is not a validly issued building permit because the purported "zoning lot" of which the Development Site is purported to be a part, does not comply with the requirements of the definition of a zoning lot in Zoning Resolution Section 12-10.

PREMISES AFFECTED – 200 Amsterdam Avenue, Block 1158, Lot 133, Borough of Manhattan.

COMMUNITY BOARD #7M

ACTION OF THE BOARD – Laid over to June 5, 2018, at 10 A.M., for continued hearing.

Abstain: Commissioner Scibetta.....1

THE RESOLUTION –

WHEREAS, the decision of the Department of

MINUTES

Buildings (“DOB”), dated March 23, 2018, acting on Application No. 121189864 reads in pertinent part:

1. ZR 24-552: Proposed UG3 development does not comply with rear setback;
2. ZR 24-36: Proposed UG 3 development does not provide required rear yard for an interior lot;
3. ZR 24-382: Proposed UG 3 development within R7-2 does not comply with required rear yard equivalent for a through lot;
4. ZR 24-522: Proposed UG 3 development within R7-2 does not comply with height and setback;
5. ZR 25-631: Proposed number and size of curb cuts within R7-2 is not compliant; proposed uninterrupted curb spaces between curb cuts is not compliant; and

WHEREAS, this is an application under ZR § 72-21 to permit, on a zoning lot partially located within an R7-2 zoning district and partially located within a C1-8X zoning district, the construction of a 10-story community facility contrary to applicable bulk regulations pertaining to rear setback, rear yards, rear yard equivalents, front wall height and setback and curb cuts set forth in ZR §§ 24-552, 24-36, 24-382, 24-522 and 25-631; and

WHEREAS, this application is filed on behalf of the Marymount School of New York, a non-profit private school for girls (“Marymount”), to enable the construction of a facility for Marymount’s Upper Middle School and Upper School divisions, which serve the 6th through 12th grades; and

WHEREAS, a public hearing was held on this application on September 12, 2017, after due notice by publication in *The City Record*, with continued hearings on December 5, 2017 and February 13, 2018, and then to decision on March 27, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 11, Manhattan recommends disapproval of the originally proposed 12-story building based on its location mid-block and fears that it will cause injury to neighbors by depriving adjacent streets and residential windows of light and air; the Community Board further opposed the proposal because it does not provide “sufficient community benefit” to mitigate its “deleterious effects” on the district; and

WHEREAS, the Board was in receipt of thirteen letters in support of the proposal and ten letters in opposition, citing concerns about noise, the height of the building, negative impacts the construction will have on adjacent buildings and neighborhood traffic, an increase in automobile traffic and the request for a waiver of residential open space and the reduced access of nearby residences to light; and

WHEREAS, the Board notes that some of the concerns raised about the subject proposal—particularly noise and

traffic attributed to construction and a reduction in neighboring residences’ access to light—would exist if the site was developed with an as-of-right building that complied with all applicable zoning regulations and that in the course of hearings, *infra*, the open space waiver was eliminated from the proposal and the proposed total building height was reduced; and

WHEREAS, New York City Councilmember Ben Kallos initially submitted two letters and gave public testimony in opposition to the proposal on the basis that the application failed to make the necessary findings of ZR § 72-21, including that the height of the proposed building was inconsistent with neighborhood character, however, in a letter dated, December 5, 2017, Councilmember Kallos expressed his support for the revised application, noting the reduction in building height and commitments from the school to keep an open line of communication with neighbors during the construction process and to develop programs for East Harlem residents; and

WHEREAS, in addition, a representative for the Board of Directors of 112-114 East 98th Street Housing Development Fund Corporation, a cooperative located adjacent to the site (the “Co-op”), submitted letters and testimony in opposition to the proposal, citing concerns about increased traffic on East 98th Street, that the proposed building will block the Co-op’s lot line windows, the proposed building’s cantilever over a portion of the Co-op’s building and requesting that the Co-p’s residents be given access to the rooftop open space; and

WHEREAS, in response to these concerns, the applicant submits that it is actually the Co-op building that encroaches onto the subject site and, further, the cantilever visible on the plans is not the subject of any waivers, specifically floor area; that the traffic concerns raised by the Co-op are based on a traffic study that does not comply with the CEQR Technical Manual, as the applicant’s analyses have and are so required; and that Marymount is willing to address any traffic issues operationally if/as they arise; and

WHEREAS, the Board notes that any debate between the applicant and the Co-op as to encroachments and/or cantilevers is more suitably the subject of civil action and that the presence of windows in a lot line wall does not prohibit development on a neighboring lot that would require the windows be bricked over or otherwise blocked; and

WHEREAS, the subject site is comprised of three contiguous tax lots (Lots 7, 13 and 16; collectively, the “Zoning Lot”) having approximately 255 feet of frontage along the south side of East 98th Street, 202 feet of frontage along the west side of Lexington Avenue and a total of 205 feet of non-continuous frontage on the north side of East 97th Street, partially located within an R7-2 zoning district and partially located within a C1-8X zoning district, in Manhattan; and

WHEREAS, a Declaration of Zoning Lot Restrictions noticing the consolidation of these lots (formerly tax lots 7, 8, 11, 12, 13, 14, 15, 16, 57, 60, 61, 63, 65 and 66 on Block

MINUTES

1625) as one zoning lot for the purpose of and in accordance with the provisions of the Zoning Resolution (CRFN 2007000556713) was filed with the New York Department of Finance Office of the City Register on November 7, 2007; and

WHEREAS, the subject site has approximately 46,417 square feet of total lot area; and

WHEREAS, Lot 7, located fully in an R7-2 zoning district and comprised of an interior lot with frontage on East 98th Street only and a through lot with frontage on both East 97th Street and East 98th Street, contains a paved athletic field currently utilized by Marymount, Lot 13, wholly located in a C1-8X zoning district, is occupied by a five-story mixed-use residential and commercial building and Lot 16, which is partially located within an R7-2 zoning district and partially located within a C1-8X zoning district, is occupied by an 18-story mixed-use residential and commercial building; and

WHEREAS, the subject building is proposed to replace the paved athletic field on Lot 7 (the "Proposed Site"); and

WHEREAS, the applicant represents that a total of 352,172 square feet of floor area is permitted on the Zoning Lot: in the C1-8X portion of the Zoning Lot, a maximum of 181,650 square feet of residential floor area is permitted pursuant to ZR § 23-153, a maximum of 181,650 square feet of community facility floor area is permitted pursuant to ZR § 33-123 and a maximum of 40,366 square feet of commercial floor area is permitted pursuant to ZR § 33-123; and in the R7-2 portion of the Zoning Lot, a maximum of 89,459 square feet of residential floor area is permitted pursuant to ZR § 23-151, and a maximum of 170,522 square feet of community facility floor area is permitted pursuant to ZR § 24-11; and

WHEREAS, the two buildings currently occupying Lots 13 and 16 utilize a total of 179,999 square feet of floor area (166,195 square feet of residential floor area and 13,804 square feet of commercial floor area) within the C1-8X portion of the Zoning Lot and 60,362 square feet of residential floor area in the R7-2 portion of the Zoning Lot; and

WHEREAS, the applicant submits that 1,651 square feet of community facility floor area within the C1-8X portion of the Zoning Lot and 110,160 square feet of community floor area within the R7-2 portion of the Zoning Lot remain undeveloped, but that no developable residential floor area remains within the R7-2 portion of the Zoning Lot; and

WHEREAS, the applicant originally proposed to develop the Proposed Site with a 12-story community facility building containing 92,168 square feet of floor area with a floor area ratio ("FAR") of 3.5, a 27'-8" rear yard on the interior portion of the Proposed Site, a 35 foot rear yard equivalent at the East 97th Street frontage and a 23'-6" rear yard equivalent at the East 98th Street frontage at a height of 68'-3" on the through lot portion of the Proposed Site, a 99'-9" front wall without setback on the East 98th Street

frontage, two curb cuts on the East 98th Street frontage 11 feet apart, one with a width of 15 feet, and the provision of some of the open space required for the residential floor area located on the Zoning Lot on the portion of the Zoning Lot located in a C1-8X zoning district, contrary to ZR §§ 24-36, 24-382, 24-522, 25-631 and 23-151; and

WHEREAS, at hearing the Board requested that the open space waiver request be eliminated because the waiver was related to and for the benefit of the residential floor area already located on the Zoning Lot, not the proposed community facility, and, because Marymount was relying on the deference extended to educational institutions under New York State case law, all waivers are required to be related to the development entitled to that deference; and

WHEREAS, the Board additionally suggested alterations to the bulk of the proposal, including the introduction of double-loaded corridors and the elimination of a plaza proposed at the East 97th Street frontage to increase the efficiency of the proposed building; and

WHEREAS, the applicant subsequently revised the application and now proposes to develop the Proposed Site with a ten-story community facility building containing 109,960 square feet of floor area with 4.2 FAR and an overall height of 180'-6" (including rooftop mechanical equipment), a front wall height of 151'-6" on the East 98th Street frontage, a 28 foot rear yard on the interior portion of the Proposed Site, a rear yard equivalent of 33 feet at a height of 60 feet along the East 97th Street frontage and no rear yard equivalent along the East 98th Street frontage on the through lot portion of the Proposed Site, no rear setback from the rear yard line of the interior lot portion of the Proposed Site at a height of 125 feet, no front setback above 60 feet and penetration of the sky exposure plane at the fifth floor and above on the East 98th Street frontage; and

WHEREAS, the applicant additionally proposes to maintain two existing curb cuts on the East 98th Street frontage of the Zoning Lot and relocate the non-complying western curb cut to be 11 feet away from the east curb cut and reduce its width from approximately 34 feet to 15 feet; and

WHEREAS, with regards to open space, the applicant now proposes to provide 7,772 square feet of open space required for the residential floor area on the Zoning Lot on the roof of the proposed building, within an R7-2 zoning district and accessible by residents of the Zoning Lot by a dedicated roof access passageway and elevator on the East 98th Street frontage, and no longer requires a waiver of ZR § 23-151; and

WHEREAS, Marymount submits that the rooftop open space may be utilized, from time to time, by students accompanied by school faculty, but that students will not be permitted to access the roof while it is being utilized by residential tenants of the Zoning Lot; further, the elevator providing access to the roof to residential tenants of the Zoning Lot will be programmed to bypass other floors of the proposed building and a security system, with visual monitors and voice communication, will be utilized to

MINUTES

ensure that tenants do not mix with students; and

WHEREAS, the Board makes no finding as to whether the open space provided on the roof of the proposed building complies with all applicable zoning regulations, including, but not limited to, ZR § 24-164, but notes that no waiver of the open space requirement generated by the residential floor area on the Zoning Lot, or waiver of residential lot coverage, has been contemplated or granted with this application; and

WHEREAS, the proposed building will house Marymount's approximately 420 upper middle school (grades six through eight) and upper school students (grades nine through 12), along with 125 administrative, faculty and support staff, and allow Marymount to consolidate its school, currently spread out over three facilities, one of which is leased and located across East 97th Street from the Proposed Site, into two facilities, relocate the upper school students from their current facility, located on Fifth Avenue between East 83rd Street and East 84th Street (the "Fifth Avenue Campus") and the upper middle school students from the leased facility; the proposed building will also be Marymount's first purpose-built facility and provide much needed program space—including a gymnasium with a regulation-sized basketball court, a performance theater with a fly system and rehearsal spaces for Marymount's 37 dramatic and musical performances staged each year, music classrooms, a chapel large enough to accommodate a full school division and a designated dining room—that its existing facilities cannot accommodate and necessitated rented space in 28 other facilities for Marymount's athletic and performing arts needs, 13 of which will no longer be needed following completion of the proposed building; and

WHEREAS, the proposed building will include physical education and athletic facilities, IT offices and mechanical spaces in three floors below grade (sub cellar 2, sub cellar 1 and the cellar); the ground floor will feature entrance lobbies from both East 97th and East 98th Streets, administrative offices, Marymount's digital fabrication laboratory workshop known as the "Fab Lab," an adjacent STEAM (science, technology, engineering, arts and mathematics) workspace and the separate passageway and elevator dedicated to providing residential tenants of the Zoning Lot access to the rooftop open space; a 333-seat performing arts theater, two music rooms and specialty music and drama classrooms and support offices will be located on the second and third floors; a portion of the fourth floor will be open to the second and third floors below to accommodate the theater fly space and the remainder of the floor will be occupied by four upper middle school classrooms, academic support offices and a mechanical room; the kitchen and dining services, sized to seat approximately 300 persons, will all be consolidated on the fifth floor; the chapel, which is used for, among other things, morning mass, individual prayer and weekly chapel for each grade of students will be located on the sixth floor along with a music room, to be utilized by the school's chorus, instrumental ensemble, chamber choir, concert

choir, and others, and administrative offices; six upper middle school classrooms will be located on the seventh floor, along with a reading room utilized by students for independent study and research assignments, a common study space and a faculty office; the eighth and ninth floors will contain a total of six upper school classrooms, an art studio and four science labs, which will be shared by upper middle and upper school students, common study space and offices for faculty and school administrators; and on the tenth floor will be seven upper school classrooms and offices; and

WHEREAS, at the subject site, a rear yard of at least 30 feet at the rear lot line of the interior lot portion of the Proposed Site is required pursuant to ZR § 24-36; an open area with a minimum depth of 60 feet midway between the two street line frontages, two open areas at least 30 feet deep adjoining and extending along the full length of each street line or an open area adjoining and extending along the full length of each side lot line with a minimum width of 30 feet from each side lot line is required as a rear yard equivalent on the through lot portion of the Proposed Site pursuant to ZR § 24-382; a 20 foot set back from the rear yard line of the interior lot portion of the Proposed Site is required 125 feet above yard level pursuant to ZR § 24-552; a 20 foot front setback is required at 60 feet or six stories, whichever is less, above the street line on the East 98th Street frontage and compliance with the sky exposure plane above that height is required pursuant to ZR § 24-522; and two curbs with a maximum width of 12 feet, including splays, and at least 60 feet apart are permitted pursuant to ZR § 25-631(e); and

WHEREAS, accordingly, the applicant seeks the subject relief; and

WHEREAS, Marymount submits that the requested waivers will facilitate floorplates large enough to accommodate the particular programs planned to be housed in the proposed building, to wit, the performing arts space, gymnasium and dining room, as well as enable the necessary departmental adjacencies and provide for adequate interior circulation; and

WHEREAS, the Board acknowledges that Marymount, as an educational institution, is entitled to deference under the law of the State of New York as to zoning and its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, specifically, as held in *Cornell University v. Bagnardi*, 68 NY2d 583 (1986), a zoning board must grant an educational or religious institution's application unless it can be shown to have an adverse effect on the health, safety or welfare of the community and general concerns about traffic and disruption of the residential character of the neighborhood are insufficient grounds for the denial of such applications; and

WHEREAS, based on the above, the Board finds that Marymount's programmatic needs create unnecessary hardship and practical difficulty in developing the premises in compliance with the applicable zoning regulations; and

MINUTES

WHEREAS, Marymount is a non-profit educational institution and the variance is needed to further its not-for-profit mission and, thus, the finding set forth in ZR § 72-21(b) need not be made in order to grant the variance requested in this application; and

WHEREAS, Marymount submits that, pursuant to ZR § 72-21(c), the subject variance, if granted, will not substantially impair the appropriate use or development of adjacent properties and will not be detrimental to the public welfare; specifically, that the immediate area is predominantly defined by the Park Avenue Tunnel, a depressed railroad right of way that runs from East 97th Street to East 102nd Street, and a high proportion of superblocs and block-long institutions, that the proposed building will fill a gap in the street wall on the East 98th Street frontage and that the majority of students will utilize the East 97th Street frontage to access the site; and

WHEREAS, Marymount conducted a survey and projected that approximately 18 percent of students will arrive to the site by private car, 13 percent will arrive by car service, 6 percent will arrive in one of the two school operated shuttles and the remaining 63 percent of students will arrive by public transportation or on foot; as for departures, approximately 9 percent will depart by private car, 9 percent will depart by car service and 11 percent will depart in one of the two school operated shuttles; and

WHEREAS, in response to public testimony regarding the traffic impacts of the proposed building, Marymount asserts that one or more school staff will manage drop-offs and pick-ups with two-way radios, a dedicated school parking zone will be located at the East 97th Street frontage to allow cars to access the site without blocking traffic, the loading dock will serve only up to two trucks per hour in any peak hour and the curb cut relocated to align with the loading dock will not affect the operation of the other existing cut or have any adverse impact on vehicular queuing, traffic or safety on East 98th Street; and

WHEREAS, by letter dated October 2, 2017, the New York City Department of Transportation's ("DOT") Division of Transportation Planning and Management states that it finds the proposed plans to be acceptable and requests that Marymount notify DOT upon construction so that DOT can determine if traffic safety improvements or parking regulation changes are necessary; and

WHEREAS, with regards to concerns about noise generated by use of the rooftop open space, Marymount submits that noise-generating activities—i.e. amplified music, barbecues, tenant parties and any active recreational activities—will be prohibited in the space and notes that residential windows to the immediate east or west of the Proposed Site will not have a direct line of site to the rooftop open space and that, while windows of a residential building located at 1510 Lexington Avenue may have a line of site to the rooftop open space, those windows are more than 40 feet away, thus, the open space does not have the potential to result in substantially increased noise levels in adjacent residences; and

WHEREAS, in light of the foregoing, the Board finds that the subject proposal will not alter the essential character of the neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant represents, and the Board finds, that the hardship claimed as ground for the variance was not created by the owner or a predecessor in title in accordance with ZR § 72-21(d); and

WHEREAS, Marymount submits that the subject proposal is the minimum variance necessary to afford relief and, in support of that assertion, submitted plans for an as-of-right 13-story building set back approximately 60 feet from the East 97th Street frontage, set back 34 feet from the East 98th Street frontage above the first floor and rise to a total height of 231'-9" feet (including rooftop mechanical equipment (the "AOR Scenario")); and

WHEREAS, Marymount represents that despite rising to a height of nearly 50 feet taller than the proposed building, the narrower floorplates of the AOR Scenario would prevent the inclusion of both the performance theater and the regulation-sized gymnasium, reduce the size of the chapel, require that the kitchen and dining facilities be located on different floors, necessitate additional vertical circulation space (and travel time) in the building and overall decreasing the efficiency of the building and its programming space; and

WHEREAS, the Board finds that the subject proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement ("EAS") CEQR No. 16BSA059M, dated February 12, 2018; and

WHEREAS, the EAS documents that the project, as proposed, would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise, Public Health, Neighborhood Character; or Construction; and

WHEREAS, the New York City Landmarks Preservation Commission ("LPC") conducted an environmental review of the Proposed Site and reports that it has neither architectural nor archaeological significance, but notes that it is in radius of sites eligible for National Register Listing and New York City Landmark Designation, to wit, the New York Public Library's 96th Street Branch, which is eligible for LPC, New York State and National Register Listings, and St. Francis de Sales Roman Catholic Church, which is eligible for New York State and National Register Listings; and

MINUTES

WHEREAS, by communication dated September 12, 2017, the New York City Parks Department states that it has no comments of substance with regards to the shadow analyses of the proposed building; and

WHEREAS, the New York City Department of Environmental Preservation (“DEP”), by letter dated January 31, 2018, concludes that the proposal would not result in any significant adverse air quality impact; and

WHEREAS, on February 1, 2018, DEP states that it has reviewed the Noise Memorandum prepared by the applicant’s consultant and concluded that the proposed project would not result in any significant adverse noise impact; and

WHEREAS, with regards to hazardous materials, by letter dated February 9, 2018, DEP states that it finds the January 2018 Remedial Action Plan (“RAP”) and Construction Health and Safety Plan (“CHASP”) submitted by the applicant to be acceptable, but recommended that, with regards to the RAP, the clean fill should be tested at the facility/source at a frequency of one (1) sample for every 250 (not 500) cubic yards and that, upon completion of the clean fill/top soil investigation activities, the applicant’s consultant should submit a detailed clean soil report—including, at a minimum, an executive summary, narrative of the field activities, laboratory data, and comparison of soil analytical results (i.e., NYSDEC 6 NYCRR Part 375 Environmental Remediation Programs)—to DEP for review and approval prior to importation and placement on-site; additionally, DEP requests that at the completion of the project, a Professional Engineer (P.E.) certified Remedial Closure report indicating that all remedial requirements (i.e., installation of vapor barrier, proper transportation/disposal manifests and certificates from impacted soils removed and properly disposed of in accordance with all NYSDEC regulations; and two feet of DEP approved certified clean fill/top soil capping requirement in any landscaped/grass covered areas not capped with concrete/asphalt, etc.) have been properly implemented be submitted to DEP for review and approval; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 to permit, on a zoning lot partially located within an R7-2 zoning district and partially located within a C1-8X zoning district, the construction of a 10-story community facility building contrary to applicable bulk regulations pertaining to rear setback, rear yards, rear

yard equivalents, front wall height and setback and curb cuts set forth in ZR §§ 24-552, 24-36, 24-382, 24-522 and 25-631, *on condition* that all work shall substantially conform to drawings filed with this application marked “Received March 7, 2018—Twenty-seven (27) sheets, and March 27, 2018—Three (3) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a rear setback of at least 0 feet from the rear yard line of the interior lot portion of the Proposed Site above a height of 125 feet; a minimum 28 foot rear yard on the interior lot portion of the Proposed Site, a rear yard equivalent of at least 33 feet at a height of 60 feet along the East 97th Street frontage and a rear yard equivalent of at least 0 feet along the East 98th Street frontage on the through lot portion of the Proposed Site; a maximum front wall height of 151’-6” without setback fronting on East 98th Street;

THAT this grant does not include a waiver of applicable zoning regulations with regards to residential open space or residential lot coverage;

THAT school staff shall manage drop offs and pick-ups by placing cones within a portion of the dedicated school parking zone to reserve curb space and shall move along parents or for-hire vehicles so as to not block traffic;

THAT a maximum of four school operated shuttles (two in the morning and two in the afternoon) shall access the site daily for student drop offs and pick-ups;

THAT residential tenants of the Zoning Lot shall access the elevator to the roof terrace of the proposed building via key card linked to the school’s security system;

THAT elevator controls shall be programmed to only allow express travel to the roof terrace level and ground level stops when in use by a residential tenant of the Zoning Lot;

THAT security cameras at the ground floor entrance, elevator cab and roof terrace level shall enable visual monitoring by school security staff;

THAT school faculty and staff shall be notified by security staff when the roof terrace is in use by residential tenants of the Zoning Lot;

THAT students shall not be permitted to use the roof terrace unaccompanied;

THAT clean fill should be tested at the facility/source at a frequency of one (1) sample for every 250 (not 500) cubic yards;

THAT upon completion of the clean fill/top soil investigation activities, the applicant’s consultant should submit a detailed clean soil report—including, at a minimum, an executive summary, narrative of the field activities, laboratory data, and comparison of soil analytical results (i.e., NYSDEC 6 NYCRR Part 375 Environmental Remediation Programs)—to the New York City Department of Environmental Protection for review and approval prior to importation and placement on-site;

THAT at the completion of the project, a Professional Engineer (P.E.) certified Remedial Closure report indicating that all remedial requirements (i.e., installation of vapor

MINUTES

barrier, proper transportation/disposal manifests and certificates from impacted soils removed and properly disposed of in accordance with all NYSDEC regulations; and two feet of DEP approved certified clean fill/top soil capping requirement in any landscaped/grass covered areas not capped with concrete/asphalt, etc.) have been properly implemented be submitted to DEP for review and approval;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a certificate of occupancy shall be obtained within four (4) years;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 27, 2018.

2016-4218-BZ

CEQR No. 16-BSA-128K

APPLICANT – Sheldon Lobel, P.C., for 79 Narrows LLC, owner.

SUBJECT – Application June 15, 2016 – Special Permit (§73-622) for the enlargement of an existing single family home contrary to maximum permitted floor area (ZR 23-141), required open space (ZR 23141) and required side yards (23-48). R2 zoning district.

PREMISES AFFECTED – 66 79th Street, Block 5976, Lot 20, Borough of Brooklyn.

COMMUNITY BOARD #10BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta4

Negative:0

Abstain: Commissioner Scibetta1

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated June 1, 2017, acting on Alteration Application No. 321400202, reads in pertinent part:

The proposed enlargement exceeds the permitted Floor Area Ratio permissible pursuant to Z. R. Section 23-141.

The proposed Open Space Ratio is less than Open Space Ratio required by Z. R. Section 23-141.

The proposed enlargement increases the degree of non-compliance of the easterly side yard both vertically and horizontally at the rear of the house

per Z. R. Section 23-48; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03 to permit, in an R2 zoning district and the Special Bay Ridge District, the enlargement of an existing two-family detached residence that does not comply with zoning regulations for floor area ratio, open space ratio and side yards, contrary to ZR §§ 23-141 and 23-48; and

WHEREAS, a public hearing was held on this application on October 17, 2017, after due notice by publication in *The City Record*, with a continued hearing on January 23, 2018, and then to decision on March 27, 2018; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 10, Brooklyn, recommends disapproval of this application, citing concerns with occupancy of the residence by the owner’s family¹ as well as floor area, height and overall volume of the enlarged residence proposed; and

WHEREAS, the subject site is located on the south side of 79th Street, between Narrows Avenue and Colonial Road, in an R2 zoning district and the Special Bay Ridge District, in Brooklyn; and

WHEREAS, the subject site has approximately 33 feet of frontage along 79th Street, 140 feet of depth, 4,582 square feet of lot area and is occupied by an existing two-family detached residence; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single-* or *two-family detached* or *semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be

¹ The Board refuses to consider the owner’s private affairs in this application, which regards whether bulk modifications allowing the enlargement of an existing residence are appropriate in light of the built character of the surrounding area.

MINUTES

renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, inter alia, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge an existing two-family detached residence, as contemplated in ZR § 73-622; and

WHEREAS, the applicant proposes to enlarge the existing residence from 2,412 square feet of floor area (0.53

FAR) to 4,178 square feet of floor area (0.91 FAR), decrease the open space ratio from 140 to 74 and maintain the existing side yard with a width of 3'-10" to the east; and

WHEREAS, the applicant submitted evidence in the form of historic maps demonstrating that the existing side yard is an existing non-compliance; and

WHEREAS, the applicant states that, at the subject site, floor area may not exceed 2,291 square feet (0.50 FAR) under ZR § 23-141, open space ratio must be at least 150 under ZR § 23-141 and enlargement in non-complying side yards cannot increase the degree of non-compliance under ZR § 23-48; and

WHEREAS, the applicant represents that the proposed building as enlarged is consistent with the built character of the neighborhood; and

WHEREAS, in support of this contention, the applicant surveyed single- and two-family residences in the surrounding area, finding that there are a number of residences with more than 0.91 FAR and that only four of 114 lots have complying open space ratios, with the majority having open space ratios less complying than 74; and

WHEREAS, the applicant also submitted a study of roof heights, a photographic streetscape montage, contextual streetscape illustrations and a photographic neighborhood study demonstrating that the proposed building, including its height, will fit in with the built conditions of the surrounding area; and

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, the Board finds that the proposed building as enlarged will not alter the essential character of the neighborhood or district in which the subject building is located, nor impair the future use or development of the surrounding area; and

WHEREAS, in response to concerns raised by the Board and the community, the applicant scaled back the massing of the proposed building by eliminating the second floor balcony, redesigning the front windows and reducing the pitch of the roof to remain in character with adjacent residences; and

WHEREAS, the Board notes that the proposed rear yard will have a complying depth of 47'-8", thereby visually mitigating the additional bulk atop the enlarged building; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of bulk regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No.

MINUTES

16-BSA-128K, dated June 15, 2016; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-622 and 73-03

to *permit*, in an R2 zoning district and the Special Bay Ridge District, the enlargement of an existing two-family detached residence that does not comply with zoning regulations for floor area ratio, open space *ratio* and side yards, contrary to ZR §§ 23-141 and 23-48; *on condition* that all work and site conditions shall conform to drawings filed with this application marked “Received March 8, 2018”-Nineteen (19) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: there shall be a maximum of 4,178 square feet of floor area (0.91 FAR), open space ratio shall be at least 74 and the side yard to the east shall have a minimum width of 3’-10”, as illustrated on the Board-approved plans;

THAT removal of existing joists or perimeter walls in excess of that shown on the Board-approved plans shall void the special permit;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by March 27, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 27, 2018.

COMMUNITY BOARD #7Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, and Commissioner Sheta.....4

Negative:0

Abstain: Commissioner Scibetta.....1

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated September 22, 2017, acting on Alteration Application No. 420859814, reads in pertinent part:

Use Group 16 not permitted in residential district. ZR 22.

The enlargement increased the degree of non conforming use of the building. ZR 22, ZR 52.

Floor area exceeds the allowable. ZR 23-141.

Front yard provided is deficient. ZR 23-45.

Side yard provided is deficient. ZR 23-46.

Provide green front yard. ZR 23-451; and

WHEREAS, this is an application under ZR § 72-21 to permit, in an R4A zoning district, the enlargement of a non-complying, non-conforming one-story commercial building used as an automotive service station (Use Group 16) that does not comply with zoning regulations for use, floor area, front yards, side yards and green front yards, contrary to ZR §§ 22-00, 52-00, 23-141, 23-45, 23-46 and 23-451; and

WHEREAS, a public hearing was held on this application on March 6, 2018, after due notice by publication in *The City Record*, and then to decision on March 27, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 7, Queens, recommends approval of this application; and

WHEREAS, Queens Borough President Melinda R. Katz submitted testimony in support of this application; and

WHEREAS, Council Member Paul A. Vallone submitted testimony in support of this application; and

WHEREAS, the subject site is located on the southwest corner of 20th Avenue and 125th Street, in an R4A zoning district, in Queens; and

WHEREAS, the subject site has approximately 100 feet of frontage along 20th Avenue, 30 feet of frontage along 125th Street, 2,997 square feet of lot area and is occupied by

MINUTES

a one-story commercial building enlarged with two shed additions used as an automotive service station (Use Group 16); and

WHEREAS, the applicant proposes to enlarge the subject building used as an automotive service station (Use Group 16) by increasing floor area from 1,009 square feet (0.33 FAR) to 2,579 square feet (0.86 FAR), decreasing the depths of front yards from 3.1 feet to 1.3 feet along 20th Avenue and from 48 feet to 1.7 feet along 125th Street, decreasing the depths of side yards from 2 feet to 0.7 feet to the south and from 10 feet to 1 foot to the west and waiving planting requirements for green front yards; and

WHEREAS, the applicant represents that, at the subject site, floor area may not exceed 2,248 square feet (0.75 FAR) under ZR § 23-141, front yards must have minimum depths of 10 feet under ZR § 23-45, side yards must have minimum depths of two feet with a minimum distance of 8 feet required from adjacent buildings under ZR § 23-46 and 75 square feet of 425 square feet of area in the front yards must be planted under ZR § 23-451; and

WHEREAS, the applicant submits that there are unique physical conditions—history of development, narrowness and shallowness of the subject site—inherent in and peculiar to the subject site; and

WHEREAS, the applicant states that the subject building was constructed in 1926 and has been used for automotive-related use since 1952, rendering the subject automotive service station a non-conforming use; and

WHEREAS, the applicant states that, because of the narrowness and shallowness of the subject site, as-of-right residential development in compliance with regulations applicable to corner lots would result in a building width of 13 feet with a depth of 70 feet in order to provide two front yards with depths of 10 feet and side yards with depths of 8 feet and 20 feet; and

WHEREAS, the applicant notes that an as-of-right residential development would have two stories with interiors 11 feet in width and a railroad-style layout caused by the required minimum 8-foot dimension for habitable rooms; and

WHEREAS, the applicant notes that, on corner lots in the immediate area, there are nine non-residential land uses, five of which are located on lots in excess of 3,000 square feet, one appears to be a residential and one vacant, leaving one other property out of 688 properties that is a commercial business operating on a corner lot of less than 3,000 square feet; and

WHEREAS, the Board finds that the above unique physical conditions create practical difficulties or unnecessary hardship in complying strictly with applicable zoning regulations that are not the result of general circumstances in the neighborhood or district; and

WHEREAS, the applicant states that development in strict conformity with applicable zoning regulations would not result in a reasonable return; and

WHEREAS, in support of this contention, the applicant submitted a financial feasibility study

demonstrating that the existing legal conditions, without additions to the subject building, and an as-of-right development of a new, two-family residential development would both result in negative returns but that the proposed enlargement would result in a reasonable return; and

WHEREAS, the Board finds that, because of the above unique physical conditions, there is no reasonable possibility that as-of-right development would bring a reasonable return; and

WHEREAS, the applicant states that the proposed enlargement would not alter the essential character of the neighborhood or district in which the subject site is located; and

WHEREAS, the applicant notes that there are a number of non-conforming commercial and industrial uses in the vicinity; and

WHEREAS, the applicant surveyed properties in the surrounding area, determining that 44 percent of lots have floor area ratios ranging from 0.75 FAR to 1.60 FAR, 22 percent have non-complying building types such as attached or semi-attached structures, 61 percent have non-complying front yards, 27 percent have non-complying side yards; and

WHEREAS, the Board finds that the enlargement proposed will not alter the essential character of the neighborhood or district, will not substantially impair the appropriate use or development of adjacent property and will not be detrimental to the public welfare; and

WHEREAS, the Board finds that the practical difficulties or unnecessary hardship have not been created by the owner or by a predecessor in title; and

WHEREAS, the applicant represents that, based upon its financial feasibility study, the enlargement proposed represents the minimum necessary to bring a reasonable return; and

WHEREAS, the Board finds that the variance proposed represents the minimum necessary to afford relief; and

WHEREAS, by letter dated October 11, 2017, the New York City Department of Design and Construction states that it has started reconstruction and replacement of sewer and water main work adjacent to the subject site and that private improvements have been constructed in front of the subject site on City-owned property; and

WHEREAS, in response to the Board's questions at hearing, the applicant clarified that the subject site is not in common ownership with any adjacent tract of land, revised the financial feasibility study as directed and represented that encroachments onto City-owned property will be removed; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 7BSA138Q, dated September 7, 2017; and

WHEREAS, the EAS documents that the project as

MINUTES

proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction Impacts; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR § 72-21 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR § 72-21 to *permit*, in an R4A zoning district, the enlargement of a non-complying, non-conforming one-story commercial building used as an automotive services station (Use Group 16) that does not comply with zoning regulations for use, floor area, front yards, side yards and green front yards, contrary to ZR §§22-00, 52-00, 23-141, 23-45, 23-46 and 23-451; *on condition* that all work, operations and site conditions shall conform to drawings filed with this application marked “Received June 7, 2018”- Three (3) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: floor area shall be a maximum of 2,579 square feet (0.86 FAR); front yards shall have minimum depths of 1.3 feet along 20th Avenue and 1.7 feet along 125th Street side yards shall have minimum depths of 0.7 feet to the south and 1 foot to the west, as indicated on the Board-approved plans;

THAT the trash enclosure shall be relocated within the boundaries of the subject site;

THAT the sidewalk adjacent to the subject site shall be repaired in coordination with the reconstruction and replacement of sewer and water main work by the New York City Department of Design and Construction;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by March 27, 2019;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief

granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 27, 2018.

COMMUNITY BOARD #10M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, and Commissioner Sheta.....4

Negative:0

Abstain: Commissioner Scibetta.....1

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated March 23, 2018, acting on Alteration Application No. 104522508, reads in pertinent part:

“The proposed Use Group 12A Eating and Drinking Establishment is contrary to Zoning Resolution Section 32-21, as it is not permitted within a C4 zoning district where such use is within 100 feet of a Residence District boundary”; and

WHEREAS, this is an application under ZR §§ 73-244 and 73-03 to permit, in a C4-4A zoning district and the Special 125th Street District, the operation of an eating or drinking establishment within 100 feet from the boundary of a residential zoning district, contrary to ZR § 32-21; and

WHEREAS, a public hearing was held on this application on February 27, 2018, after due notice by publication in *The City Record*, with a continued hearing on March 27, 2018, and then to decision on the same date; and

WHEREAS, Community Board 10, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the southeast corner of Lenox Avenue and West 126th Street, in a C4-4A zoning district and the Special 125th Street District, in Manhattan; and

WHEREAS, the subject site has approximately 100

MINUTES

feet of frontage along Lenox Avenue, 85 feet of frontage along West 126th Street, 8,493 square feet of lot area and is occupied by a three-story, with cellar, commercial building; and

WHEREAS, ZR § 73-244 provides that:

In C2, C3, C4*, C6-4**, M1-5A, M1-5B, M1-5M and M1-6M Districts, the Special Hudson Square District and the *Special Tribeca Mixed Use District*, the Board of Standards and Appeals may permit eating or drinking establishments with entertainment and a capacity of more than 200 persons or establishments of any capacity with dancing, for a term not to exceed three years, provided that the following findings are made:

- (a) that a minimum of four square feet of waiting area within the *zoning lot* shall be provided for each person permitted under the occupant capacity as determined by the New York City Building Code. The required waiting area shall be in an enclosed lobby and shall not include space occupied by stairs, corridors or restrooms. A plan shall be provided to the Board to ensure that the operation of the establishment will not result in the gathering of crowds or the formation of lines on the *street*;
- (b) that the entrance to such *use* shall be a minimum of 100 feet from the nearest *Residence District* boundary;
- (c) that such *use* will not cause undue vehicular or pedestrian congestion in local *streets*;
- (d) that such *use* will not impair the character or the future use or development of the surrounding residential or mixed use neighborhoods;
- (e) that such *use* will not cause the sound level in any affected conforming *residential use, joint living-work quarters for artists or loft dwelling* to exceed the limits set forth in any applicable provision of the New York City Noise Control Code; and
- (f) that the application is made jointly by the owner of the *building* and the operators of such eating or drinking establishment.

The Board shall prescribe appropriate controls to minimize adverse effects on the character of the surrounding area, including, but not limited to, location of entrances and operable windows, provision of sound-lock vestibules, specification of acoustical insulation, maximum size of establishment, kinds of amplification of musical instruments or voices, shielding of flood lights, adequate screening, curb cuts or parking.

Any violation of the terms of a special permit may be grounds for its revocation.

* In C4 Districts where such *use* is within 100 feet from a *Residence District* boundary

** In C6-4 Districts mapped within that portion of Community District 5, Manhattan, bounded by West 22nd Street, a line 100 feet west of Fifth Avenue, a line midway between West 16th Street and West 17th Street, and a line 100 feet east of Sixth Avenue; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, inter alia, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant proposes to legalize the subject eating or drinking establishment located in the cellar of the subject building; and

WHEREAS, the applicant represents that the subject eating or drinking establishment operates with the following hours of operation: 6:00 p.m. to 1:00 a.m., Thursday, 6:00 p.m. to 4:00 a.m., Friday and Saturday, and 10:00 a.m. to 2:00 p.m., Sunday; and

WHEREAS, the applicant represents that the total occupancy of the cellar level is limited to 200 persons and that there are two waiting areas with 860 square feet of floor space, which is more than the 800 square feet required for 200 persons; and

WHEREAS, the Board finds that the subject eating or drinking establishment will provide a minimum of four square feet of waiting area within the zoning lot for each person permitted under the occupant capacity determined by the New York City Building Code; and

WHEREAS, the applicant states that the entrance to the cellar level of the subject building is located 126 feet from the nearest boundary of a residential zoning district; and

WHEREAS, the Board finds that the entrance to the subject eating or drinking establishment is a minimum of 100 feet from the nearest boundary of a residential zoning district; and

WHEREAS, the applicant states that most patrons of the existing eating or drinking establishment on the first floor of the subject building take public transportation or arrive by foot and that the proposed layout of the subject eating or drinking establishment provides a separate lobby entrance and two cellar waiting areas designed to foster the movement of patrons out of the street system and into the cellar; and

WHEREAS, the Board finds that the subject eating or drinking establishment will not cause undue vehicular or pedestrian congestion in local streets; and

WHEREAS, the applicant submitted a land-use survey demonstrating that the surrounding area includes a vibrant mix of commercial and residential uses, including restaurants and other commercial uses; and

WHEREAS, the Board finds that the subject eating or drinking establishment will not impair the character or the future use or development of the surrounding mixed use neighborhood; and

MINUTES

WHEREAS, the applicant states that the subject eating or drinking establishment complies with the New York City Noise Code and is located entirely within the cellar of a completely enclosed building; and

WHEREAS, the applicant submitted a noise study indicating that no additional action would be necessary for compliance but recommending that the applicant seal the existing entry doors to the subject building to reduce the potential transmission of noise to the street; and

WHEREAS, the applicant provided evidence that said repairs to the doors have been completed; and

WHEREAS, the Board finds that the subject eating or drinking establishment will not cause the sound level in any affected conforming residential use to exceed applicable limits set forth in the New York City Noise Control Code; and

WHEREAS, the applicant has submitted authorizations from the building owner as well as the operator of the subject eating or drinking establishment; and

WHEREAS, the Board finds that this application is made jointly by the building owner of and the operators of the subject eating or drinking establishment; and

WHEREAS, in response to the Board's comments at hearing, the applicant clarified the hours of operation and provided evidence that the subject eating or drinking establishment would not adversely affect other tenants in the subject building; and

WHEREAS, by letter dated March 21, 2018, the Fire Department states that it has no objection to this application provided that a module be installed in the fire alarm panel to turn off all power to any musical instruments should the fire alarm system be activated on any floor; that no curtains or drapery, in areas of the subject eating or drinking establishment, be hung to obscure the view of an exit passageway; that, in the cellar, a rated wall of one-hour be constructed to separate the corridor and exit passageway with any doors installed being of similar rating to the rated wall; that the total number of customers, staff and performers be listed on the plans with total number of occupants not to exceed 200 persons; that, along exit passageway corridors outside of the subject eating or drinking establishment space, all shelving and obstructions be removed and such corridor be maintained cleared at all times with any storage cabinets installed along said corridor being of a rated cabinet and accepted by DOB with a minimum clear distance between the cabinets and corridor walls determined by the New York City Building Code for public assembly occupancy; that additional exit signs be installed along all exit passageways to better direct occupants to the means of egress; that, in the large waiting area, the door leading to the exit passageway protrudes its full width into the passage way with the door recessed into a large holding room so that, in the event of an evacuation, the door will not reduce the width of the passageway; that all security personnel employed by the subject eating or drinking establishment, during performances, hold an F-03 Certificate of Fitness "Indoor Place of Assembly Safety

Personnel," issued by the Fire Department; and

WHEREAS, in response, the applicant amended the plans to reflect the Fire Department's recommended fire-safety measures; and

WHEREAS, by letter dated March 26, 2018, the Fire Department represents that, based upon its review of this application for egress and fire safety as well as an inspection of the subject site, it has no objection to this application; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR Part 617.4(b)(9); and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement ("EAS") CEQR No. 18BSA016M, dated November 16, 2017; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction Impacts; and

WHEREAS, by letter dated December 22, 2017, the New York City Department of Environmental Protection states that the proposed project would not result in any potential for significant adverse impacts with regard to noise; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-244 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type I Negative Declaration determination prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-244 and 73-03 to *permit*, in a C4-4A zoning

MINUTES

district and the Special 125th Street District, the operation of an eating or drinking establishment within 100 feet from the boundary of a residential zoning district, contrary to ZR § 32-21; *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received "March 27, 2018 – Two (2) sheets; and *on further condition*:

THAT the term of this grant shall be for three (3) years, expiring March 27, 2021;

THAT the above condition shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by March 27, 2019;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 27, 2018.

1-96-BZ

APPLICANT – New York City Board of Standards and Appeals.

SUBJECT – Application August 2, 2016 – Amendment for an extension of an existing school building to add 3rd and 4th floors. R5 zoning district.

Commissioner Scibetta5
Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of
Buildings (“DOB”), dated October 12, 2017, acting on New
Building Application No. 320916041, reads in pertinent
part:

“Proposed physical culture establishment
[(“PCE”)] is not permitted as of right . . . as per
ZR 32-10”; and

WHEREAS, this is an application under ZR §§ 73-36
and 73-03 to permit, in a C6-4 zoning district and the
Special Downtown Brooklyn District, the operation of a
physical culture establishment on the first floor and in the
cellar of the subject building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this
application on March 27, 2018 after due notice by
publication in *The City Record*, and then to decision on
March 27, 2018; and

WHEREAS, Community Board 2, Brooklyn, waives
its recommendation for this application; and

WHEREAS, the subject site is located on the east side
of Bond Street, between Livingston Street and
Schermerhorn Street, in a C6-4 zoning district and the
Special Downtown Brooklyn District, in Brooklyn; and

WHEREAS, the subject site has approximately 172
feet of frontage along Bond Street, 201 feet of frontage
along Livingston Street, 298 feet of frontage along

MINUTES

Schermerhorn Street, 50,025 square feet of lot area and is occupied by a twenty-five story, with cellar, mixed-use commercial and residential building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE will occupy 43,192 square feet of floor space as follows: 16,022 square feet of floor area on the first floor, including an entry lobby, management office, sales area, social area, café, play room, open workout area, cardiovascular-fitness area, pool, hot tub, lavatory, mechanical room and filter room, and 27,170 square feet of floor space in the cellar, including group fitness, a cycling room, locker rooms, steam rooms, saunas, a Pilates room, yoga room, open fitness area and a weight-lifting area; and

WHEREAS, the PCE will operate as Chelsea Piers, with the following hours of operation: 5:00 a.m. to 11:00 p.m., Monday through Thursday; 5:00 a.m. to 10:00 p.m., Friday; and 8:00 a.m. to 9:00 p.m., Saturday and Sunday; and

WHEREAS, the applicant represents that the PCE use is consistent with the vibrant mixed-use area in which it is located, that the PCE use will be fully contained within the envelope of the subject building and that the PCE use will not result in significant impacts on traffic; and

WHEREAS, in addition, the applicant submits that sound attenuation measures—including rubber flooring in all areas where free weights, cardiovascular-exercise machines and weight machines are located, dense acoustical arresting ceiling below overhead slabs and hung ceilings with acoustical ceiling tiles—will be provided within the space so as to ensure that sound levels in the building do not exceed a maximum interior noise level of 45 dBA, including sound emanating from any sound system installed; and

WHEREAS, the applicant further states that all HVAC units, pumps and fans will be installed on spring isolators and the housings will be constructed of insulated walls; and

WHEREAS, the applicant notes that all free weights and weight machines will be located in the cellar, two stories below the nearest residential units, and that the PCE will train its staff to instruct patrons that there shall be no dropping of free weights or barbells permitted in the PCE; and

WHEREAS, the Board finds that the PCE use is so

MINUTES

located as not to impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE will provide a swimming pool with facilities for fitness classes, including yoga, Pilates and cycling, and open fitness areas for body building, weight reduction and aerobic exercise; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE will be fully sprinklered and that an approved fire alarm—including area smoke detectors, manual pull stations at each required exist, local audible and visual alarms and connection to an FDNY-approved central station—will be installed in the entire PCE space; and

WHEREAS, in response to the Board's comments at hearing, the applicant detailed the proposed sound-attenuation measures on the plans and clarified that there will be no dropping of weights allowed in the PCE; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No.18BSA043K, dated January 10, 2018 and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction Impacts; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-36 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 *to permit*, in a C6-4 zoning district and the Special Downtown Brooklyn District, the operation of a physical culture establishment on the first floor and in the cellar of the subject building, contrary to ZR § 32-10; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked "Received March 27, 2018"- Ten (10) sheets; and *on further condition*:

THAT this grant shall be limited to a term of ten (10) years, expiring March 27, 2028;

THAT there shall be no dropping of free weights or barbells permitted in the PCE, and the PCE shall train staff to instruct patrons accordingly;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum 3'-0" wide exit pathways shall be provided leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be installed maintained in the entire PCE space and the PCE shall be fully sprinklered, as indicated on the Board-approved plans;

THAT sound attenuation shall be installed in the PCE, as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by March 27, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 27, 2018.

COMMUNITY BOARD #2M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4
Negative:0
Abstain: Commissioner Scibetta.....1

THE RESOLUTION –

WHEREAS, this is an application for an extension of term of a special permit, previously granted by the Board; and

WHEREAS, a public hearing was held on this application on September 26, 2017, after due notice by publication in *The City Record*, with continued hearings on November 21, 2017, and January 9, 2018, and then to decision on April 10, 2018; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and
WHEREAS, Community Board 2, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the southeast corner of Charlton Street and Greenwich Street, in an M1-6 zoning district and the Special Hudson Square District, in Manhattan; and

WHEREAS, the Board has exercised jurisdiction over the subject site since April 12, 1955, when, under BSA Calendar Number 763-54-A, the Board granted a variance of the Labor Law on condition that one primary means of exit be maintained in accordance with the requirements therefore, that a second means of egress consisting of an exterior fire escape on Greenwich Street be constructed with

counterbalanced stair to street and that this variance continue only so long as the building is occupied substantially as it was and the number of occupants per floor not exceed the number shown and that the occupancy per floor not exceed the capacity of the primary means of exit, that the interior fire alarm and fire drills be maintained, that the building not be increased in height or area and that the additional exit from the cellar and cellar stair enclosure be maintained as proposed; and

WHEREAS, on June 10, 1980, when, under BSA Calendar Number 1092-79-BZ, the Board granted a variance to permit, in an existing six-story building, the conversion of all floors above the first floor from lofts into a multiple dwelling on condition that a smoke detector with a self-contained alarm be installed in each apartment, that the existing sprinkler system be permanently retained and properly maintained, that a fire alarm station, connected to a manual alarm station that can be heard throughout the building, be installed on each floor, that 25 percent of the roof area be allocated for tenant recreation space, that all residential window openings be equipped with approved double glazed windows or with an arrangement of two operable glazed windows installed so as to reduce street traffic noise in the proposed apartments and that, if the method of sound attenuation that is proposed has not received an approval for general use from the Board, the installation not be made until details have been submitted to the Board for approval accompanied by an evaluation of the effectiveness of the proposal from an acoustical engineer; and

WHEREAS, on April 10, 2007, the Board granted a special permit to allow the operation of a physical culture establishment (“PCE”) on a portion of the first floor of a six-story, with cellar, mixed-use residential and commercial building for a term of ten (10) years, expiring April 10, 2017, on condition that there be no change in ownership or operating control of the PCE without prior application to and approval from the Board, that the hours of operation be limited to Monday through Friday, 9:00 a.m. to 9:00 p.m., and Saturday, 9:00 a.m. to 3:00 p.m., that sound attenuation measures be installed and maintained as indicated on the Board-approved plans, that the above conditions appear on the certificate of occupancy and that fire safety measures be installed and maintained as shown on the Board-approved plans; and

WHEREAS, on March 8, 2016, under BSA Calendar Number 1092-79-BZ, the Board amended the variance to permit the zoning-lot merger of the subject site with contiguous parcels on Block 597 in Manhattan and associated modifications to the Board-approved site plan on condition that the zoning calculations, including any transfer of development rights, be subject to DOB’s review and approval and be in full compliance with underlying bulk regulations, that the site remain subject to the Board’s jurisdiction, including modifications to buildings on the subject site and that all conditions from the prior resolution not specifically waived by the Board remain in effect; and

MINUTES

WHEREAS, the term having expired, the applicant now seeks an extension; and

WHEREAS, the applicant represents that there have been no changes to the floor plan or operator of the facility, Oishi Judo Club, as previously approved by the Board; and

WHEREAS, the applicant has satisfactorily demonstrated compliance with the conditions of the previous term and the Board finds that the circumstances warranting the original grant still obtain; and

WHEREAS, based upon its review of the record, the Board has determined that the requested extension of term is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated April 10, 2007, so that as amended this portion of the resolution shall read: “to *permit* an extension of term of ten (10) years, expiring April 10, 2027; *on condition* that all work and site conditions shall conform to drawings filed with this application marked “Received June 14, 2017”-Four (4) sheets; and *on further condition*:

THAT the term of the special permit shall be for ten (10) years, expiring April 10, 2027;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT the hours of operation shall be limited to Monday through Friday, 9:00 a.m. to 9:00 p.m., and Saturday, 9:00 a.m. to 3:00 p.m.;

THAT sound attenuation measures shall be maintained as indicated on the Board-approved plans;

THAT fire safety measures shall be installed and maintained as shown on the Board-approved plans;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by April 10, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, April 10, 2018.

214-00-BZ

APPLICANT – Sheldon Lobel, P.C., for Zaliv, LLC, owner.
SUBJECT – Application November 13, 2015 – Extension of Term of a previously approved Special Permit (73-242) which permitted the operation of an eating and drinking establishment (UG 6) which expired on November 16, 2015; Extension of Time to Obtain a Certificate of Occupancy which expired on March 20, 2013; Waiver of the Rules. C3 zoning district.

PREMISES AFFECTED – 2761 Plumb 2nd Street, Block 8841, Lot 500, Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta4

Negative:0

Abstain: Commissioner Scibetta.....1

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated November 4, 2015, acting on Alteration Application No. 302221619, reads in pertinent part:

“The continued use as an Eating and Drinking Establishment is not permitted . . . pursuant to Zoning Resolution Section 32-15”; and

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure, an extension of time to obtain a certificate of occupancy, an amendment and an extension of term of a special permit, previously granted by the Board; and

WHEREAS, a public hearing was held on this application on September 20, 2016, after due notice by publication in *The City Record*, with continued hearings on December 13, 2016, January 31, 2017, and April 4, 2017, and then to decision on April 10, 2018; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown, former Vice-Chair Hinkson and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the northeast corner of Plumb 2nd Street and Harkness Avenue, in a C3 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 134 feet of frontage along Plumb 2nd Street, 353 feet of frontage along Harkness Avenue, 37,450 square feet of lot area and is occupied by a one-story, with mezzanine, commercial building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since May 27, 1980, when, under BSA Calendar Number 1233-79-BZ, the Board granted a variance to permit the construction of a two-story enlargement to an existing wholesale and retail fish-packing establishment; and

WHEREAS, on June 14, 1981, under BSA Calendar

MINUTES

Number 1233-79-BZ, the Board granted an extension of time to complete construction; and

WHEREAS, on December 1, 1987, under BSA Calendar Number 233-86-BZ, the Board granted a special permit to allow a one-story enlargement of the subject building to include a new eating and drinking establishment with incidental music (Use Group 6) and modification of the accessory business sign regulations for a term of five (5) years, expiring December 1, 1992, on condition that the hours of operation for the restaurant be limited to 11:30 a.m. to 12:00 a.m., Sunday to Thursday, and 11:30 a.m. to 3:00 a.m., Friday and Saturday, and that the above conditions appear on the certificate of occupancy; and

WHEREAS, on December 1, 1987, under BSA Calendar Number 734-86-A, the Board granted an appeal under General City Law § 35 to permit the construction of part of the subject building and accessory parking in the bed of a mapped street; and

WHEREAS, on April 26, 1994, under BSA Calendar Number 733-86-BZ, the Board granted an extension of term of the special permit of five (5) years, expiring December 1, 1997, on condition that a new certificate of occupancy be obtained within one (1) year, by April 26, 1995; and

WHEREAS, on March 26, 2002, under the subject calendar number, the Board granted a special permit for the operation of an eating or drinking establishment for a term of five (5) years, expiring March 26, 2007, on condition that the subject site remain graffiti free at all times, that the hours of operation for the Use Group 6A eating or drinking establishment be limited to 11:30 a.m. to 12:00 a.m., Sunday to Thursday, and 11:30 a.m. to 3:00 a.m., Friday and Saturday, that landscaping be maintained in accordance with the Board-approved plans, that the maximum occupancy be 200 persons, that the above conditions appear on the certificate of occupancy and that a new certificate of occupancy be obtained within one (1) year, by March 26, 2003; and

WHEREAS, on July 10, 2007, under the subject calendar number, the Board granted an extension of term of five (5) years, expiring March 26, 2012, and amended the special permit to allow modifications to the site, including the addition of a cooler trailer and walk-in box, which are required by the New York City Department of Health and Mental Hygiene regulations, for use by the fish-packing establishment and the eating or drinking establishment on condition that the term appear on the certificate of occupancy and that a new certificate of occupancy be obtained by April 10, 2008; and

WHEREAS, on November 16, 2010, under the subject calendar number, the Board granted an extension of term of five (5) years, expiring November 16, 2015, on condition that the term appear on the certificate of occupancy and that a certificate of occupancy be obtained within one (1) year, by November 16, 2011; and

WHEREAS, the term having expired, the applicant now seeks a waiver of the Board's Rules of Practice and Procedure to permit the late filing of this application, an

extension of time to obtain a certificate of occupancy, an amendment and an extension of term; and

WHEREAS, the applicant proposes to construct a canopy over the existing loading berth; and

WHEREAS, the applicant submits that there will be 10,432 square feet of floor area used by the subject eating or drinking establishment and a total of 96 parking spaces with 79 on-site spaces and 17 off-site spaces; and

WHEREAS, the applicant seeks to modify the hours of operation as follows: 11:00 a.m. to 1:00 a.m., Sunday to Thursday, and 11:00 a.m. to 3:00 a.m., Friday and Saturday; and

WHEREAS, in response to questions from the Board, the applicant removed a chain-link fence, submitted evidence that maintenance of the fence and trash receptacle has improved and provided a parking maneuverability plan; and

WHEREAS, regarding pedestrian safety, the applicant represents that painted pedestrian-safety lines, a pedestrian walkway and bumpers are provided; and

WHEREAS, the applicant has satisfactorily demonstrated compliance with the conditions of the previous term and the Board finds that the circumstances warranting the original grant still obtain; and

WHEREAS, based upon its review of the record, the Board has determined that the requested waiver of the Board's Rules of Practice and Procedure, extension of time to obtain a certificate of occupancy, amendment and extension of term are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *waive* the Rules of Practice and Procedure and *reopen* and *amend* the resolution, dated March 26, 2002, as amended through November 16, 2010, so that as amended this portion of the resolution shall read: "to *permit* an extension of time to obtain a certificate of occupancy, an amendment and an extension of term of five (5) years, expiring November 16, 2020; *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received March 23, 2018"-Seven (7) sheets; and *on further condition*:

THAT the term of this grant shall be for five (5) years, expiring November 16, 2020;

THAT all required parking spaces shall be located within the property lines of the subject site or across the street, as indicated on the Board-approved plans;

THAT an off-site parking restrictive declaration, as reviewed and approved by the Department of Buildings, shall be recorded prior to issuance of a permit;

THAT the hours of operation for the Use Group 6A eating or drinking establishment shall be limited to 11:00 a.m. to 1:00 a.m., Sunday to Thursday, and 11:00 a.m. to 3:00 a.m., Friday and Saturday;

THAT landscaping shall be maintained in accordance with the Board-approved plans;

THAT the maximum occupancy shall be 200 persons;

THAT the above conditions shall appear on the

MINUTES

certificate of occupancy;

THAT a certificate of occupancy shall be obtained by November 16, 2020;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, April 10, 2018.

35-10-BZ

APPLICANT –Sheldon Lobel, P.C., for Torath Haim Ohel Sara, owner.

R4 zoning district.

PREMISES AFFECTED – 144-11 77th Avenue, between Main Street and 147th Street, Block 6667, Lot 45, Borough of Queens.

COMMUNITY BOARD #8Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta4

Negative:0

Abstain: Commissioner Scibetta.....1

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated September 18, 2014, acting on New Building Application No. 420113308, reads in pertinent part:

1. The term of B.S.A. calendar # 35-10-BZ dated 03/22/2010 for obtain final certificate of occupancy is already expired on 03/08/2012. New approval from B.S.A. is required prior to approval of P.A.A.
2. As per B.S.A. calendar the relief is only granted to the previous ownership only. Any change in ownership will require new approval from B.S.A.; and

WHEREAS, this is an application for a waiver of the

Board’s Rules of Practice and Procedure, an extension of time to obtain a certificate of occupancy and an amendment to a variance, previously granted by the Board; and

WHEREAS, a public hearing was held on this application on March 31, 2015, after due notice by publication in *The City Record*, with continued hearings on April 21, 2015, June 2, 2015, July 28, 2015, April 5, 2016, and January , and then to decision on April 10, 2018; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown, former Vice-Chair Hinkson and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 8, Queens, recommends denial of this application; and

WHEREAS, the subject site is located on the north side of 77th Avenue, between Main Street and 147th Street, in an R4 zoning district, in Queens; and

WHEREAS, the site has approximately 40 feet of frontage along 77th Avenue, 100 feet of depth, 4,000 square feet of lot area and is occupied by a three-story, with cellar, community-facility building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 8, 2011, when, under the subject calendar number, the Board granted a variance to permit a community-facility building that does not comply with regulations for side yards, rear yards, front yards and parking on condition that the building parameters be a floor area of 7,265 square feet (1.84 FAR), a front yard with a minimum depth of 13’-0”, a side yard with a minimum width of 8’-0” along the western lot line, a side yard with a minimum width of 5’-0” along the eastern lot line, a rear yard with a minimum depth of 7’-0” at the first and second floor and 26’-3” at the third floor and two accessory parking spaces, as indicated on the Board-approved plans; that any change in control or ownership of the building requires the prior approval of the Board; that the use be limited to a house of worship (Use Group 4); that no commercial catering take place at the subject site; that the above conditions be listed on the certificate of occupancy; and that a new certificate of occupancy be obtained by March 8, 2012; and

WHEREAS, the time to obtain a certificate of occupancy having expired, the applicant now seeks a waiver of the Board’s Rules of Practice and Procedure to permit the late filing of this application, an extension of time to obtain a certificate of occupancy and an amendment; and

WHEREAS, the applicant proposes changes to the Board-approved plans to facilitate modifications to stairwells and ramps to comply with egress requirements as well as the addition of an elevator for accessibility; and

WHEREAS, the applicant also proposes interior modifications as follows: in the cellar, changes in layout of two restrooms and mechanical space; on the first floor, a reduction in occupancy from 169 to 150 persons and changes in the lobby’s configuration; on the second floor, the addition of a stairwell and changes to the restroom layout; and, on the third floor, the addition of a stairwell and

MINUTES

changes to the restroom layout; and

WHEREAS, the applicant proposes to change control of the house of worship to Torath Haim Ohel Sara, a non-profit religious corporation; and

WHEREAS, in response to questions from the Board, the applicant submits that there will be decorative fencing and landscaping at the front of the subject site and that a fire alarm and sprinkler system will be installed in the building; and

WHEREAS, based upon its review of the record, the Board has determined that the requested waiver of the Board's Rules of Practice and Procedure, extension of time to obtain a certificate of occupancy and amendment are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated March 8, 2011, so that as amended this portion of the resolution shall read: "to *permit* an extension of time to obtain a certificate of occupancy and an amendment to comply with egress and accessibility requirements along with interior modifications, including a reduction in occupancy and reconfiguration of the lobby, and a change in control of the subject building; *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received March 21, 2018"-Ten (10) sheets; and *on further condition*:

THAT the building shall remain vacant under the vacate order until the building has been signed off by the Department of Buildings and Fire Department for occupancy;

THAT the bulk parameters of the building shall be as follows: a floor area of 7,345 square feet (1.84 FAR), a front yard with a minimum depth of 13'-0", a side yard with a minimum width of 8'-0" along the western lot line, a side yard with a minimum width of 5'-0" along the eastern lot line, a rear yard with a minimum depth of 7'-0" at the first and second floor and 26'-3" at the third floor and two accessory parking spaces, as indicated on the Board-approved plans;

THAT any change in control or ownership of the building requires the prior approval of the Board;

THAT the use shall be limited to a house of worship (Use Group 4);

THAT no commercial catering shall take place at the subject site;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by April 10, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted."

Adopted by the Board of Standards and Appeals, April 10, 2018.

APPLICANT – Eric Palatnik, P.C., for Dasueram LLC, owner.

SUBJECT – Application November 28, 2017 – Extension of Term (§11-411) of a previously approved variance permitting the operation of a (UG 16B) storage warehouse in the cellar, used in conjunction with a (UG 17B) factory on the first floor which expired on November 25, 2017. R7-1 zoning district.

PREMISES AFFECTED – 1982 Crotona Parkway, Block 3121, Lot 11, Borough of Bronx.

COMMUNITY BOARD #6BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for an extension of term of a variance, previously granted by the Board; and

WHEREAS, a public hearing was held on this application on April 10, 2018, after due notice by publication in *The City Record*, and then to decision on April 10, 2018; and

WHEREAS, the subject site is located on the east side of Crotona Parkway, between East 178th Street and East Tremont Avenue, in an R7-1 zoning district, in the Bronx; and

WHEREAS, the Board has exercised jurisdiction over the subject site since February 10, 1948, when, under the subject calendar number, the Board granted a variance to permit the change in occupancy from storage garage to non-storage garage and factory for a term of five (5) years, expiring February 10, 1953, on condition that the windows at the rear be made fireproof self-closing, that the ramp serving the basement be separated from the balance of the first floor by fireproof construction with no openings therein between the cellar and the first floor, that the boiler room be in compliance with the code therefor and be entered only from the exterior, that such portable fire-fighting appliances be maintained as the Fire Commissioner directs, that the building not be increased in height or area, that all signs on the building be restricted to one sign as shown and that the variance shall continue only so long as the first floor is occupied for the factory use as proposed; and

WHEREAS, on January 6, 1953, under the subject

MINUTES

calendar number, the Board granted an extension of term of five (5) years, expiring January 6, 1958, on condition that a certificate of occupancy be obtained within six (6) months, by July 6, 1953; and

WHEREAS, on January 29, 1963, under the subject calendar number, the Board amended the variance to permit the cellar to be used as a warehouse in conjunction with the factory on the first floor and granted an extension of term of five (5) years, expiring January 29, 1968, on condition that a certificate of occupancy be obtained; and

WHEREAS, on July 7, 1964, under the subject calendar number, the Board amended the variance so that the secondary means of exit from the cellar may be relocated to the north side of the building, leading to East 178th Street through the yard of the adjoining multiple dwelling on condition that copies of the easement agreement covering this exit be filed with the Board, the Department of Buildings and the County Clerk's Office to ensure that unobstructed egress be maintained; and

WHEREAS, on February 27, 1968, under the subject calendar number, the Board amended the variance to permit alterations to the building and granted an extension of term of five (5) years, expiring January 29, 1973, on condition that a new certificate of occupancy be obtained; and

WHEREAS, on March 6, 1973, under the subject calendar number, the Board granted an extension of term of five (5) years, expiring March 6, 1978, on condition that a new certificate of occupancy be obtained; and

WHEREAS, on April 11, 1978, under the subject calendar number, the Board granted an extension of term of five (5) years, expiring April 11, 1983, on condition that the façade of the building be painted or cleaned and that a certificate of occupancy be obtained within one (1) year, by April 11, 1979; and

WHEREAS, on July 12, 1983, under the subject calendar number, the Board granted an extension of term of five (5) years, expiring April 11, 1988, on condition that a new certificate of occupancy be obtained; and

WHEREAS, on July 5, 1988, under the subject calendar number, the Board granted an extension of term of ten (10) years, expiring April 11, 1998, on condition that a new certificate of occupancy be obtained within one (1) year, by July 5, 1989; and

WHEREAS, on November 25, 1997, under the subject calendar number, the Board granted an extension of term of ten (10) years, expiring November 25, 2007, on condition that a new certificate of occupancy be obtained within one (1) year, by November 25, 1998; and

WHEREAS, on January 29, 2008, under the subject calendar number, the Board granted an extension of term of ten (10) years, expiring November 25, 2017, on condition that the term appear on the certificate of occupancy; and

WHEREAS, the term of the variance having expired, the applicant now seeks an extension; and

WHEREAS, by letter dated March 30, 2018, the Fire Department states that it has no objection to this application; and

WHEREAS, based upon its review of the record, the Board has determined that the requested extension of term is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated February 10, 1948, as amended through January 29, 2008, so that as amended this portion of the resolution shall read: "to *permit* an extension of term of ten (10) years, expiring November 25, 2027; *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received November 28, 2017"-One (1) sheet; and *on further condition*:

THAT the term of this grant shall be for ten (10) years, expiring November 25, 2027;

THAT the windows at the rear shall be fireproof self-closing;

THAT the ramp serving the basement shall be separated from the balance of the first floor by fireproof construction with no openings therein between the cellar and the first floor;

THAT the boiler room shall be in compliance with the code therefor and be entered only from the exterior;

THAT such portable fire-fighting appliances be maintained as the Fire Commissioner directs;

THAT the building shall not be increased in height or area;

THAT all signs on the building shall be restricted to one sign as shown on the Board-approved plans;

THAT copies of the easement agreement covering the secondary means of exit from the cellar, leading to East 178th Street through the yard of the adjoining multiple dwelling, shall be filed with the Board, the Department of Buildings and the County Clerk's Office to ensure that unobstructed egress be maintained;

THAT the façade of the building shall be maintained painted or cleaned;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by April 10, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted."

Adopted by the Board of Standards and Appeals, April 10, 2018.

THE RESOLUTION –

WHEREAS, the decisions of the Department of Buildings (“DOB”), dated May 7, 2015, acting on New Building Application Nos. 520233266, 520233257 and 520233275, read in pertinent part:

“Attached building within R2 zoning district is contrary to Section 22-00 (ZR)”;

and
WHEREAS, the decision of DOB, dated May 7, 2015, acting on New Building Application No. 520233257, regarding Lot 97, also reads in pertinent part:

“Front yard along Broad Street is contrary to Section 23-45 (ZR)”;

and
WHEREAS, this is an application under ZR § 72-21 to permit, in an R2 zoning district and the Special Hillside Preservation District, the development of three attached residences that do not comply with zoning regulations for use, contrary to ZR § 22-00, with one that does not comply with zoning regulations for front yards, contrary to ZR § 23-45; and

WHEREAS, a public hearing was held on this application on January 24, 2017, after due notice by publication in *The City Record*, with continued hearings on April 4, 2017, September 12, 2017, December 5, 2017, and February 13, 2018 and then to decision on April 10, 2018; and

WHEREAS, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 1, Staten Island, recommends denial of this application, citing concerns with flooding, neighborhood character and the minimum variance necessary to afford relief; and

WHEREAS, Borough President James S. Oddo submitted testimony, citing concerns with traffic safety; and

WHEREAS, the subject site is located on the west side of Van Duzer Street, at the intersection with Broad Street, in an R2 zoning district and the Special Hillside Preservation

MINUTES

District, in Staten Island; and

WHEREAS, the subject site has approximately 50 feet of frontage along Van Duzer Street, 300 feet of depth, 14,755 square feet of lot area and is vacant; and

WHEREAS, the applicant proposes to develop three attached residences, each with one front yard with a depth of 15 feet; and

WHEREAS, the applicant submits that, under ZR § 22-00, attached residences are not permitted at the subject site and that, under ZR § 23-45, the residence proposed on Lot 97 requires two front yards with depths of 15 feet each; and

WHEREAS, the applicant states that there are unique physical conditions—including steeply sloped topography, its ratio of depth to width and its status as a corner lot—that create unnecessary hardship or practical difficulties in developing the site as of right; and

WHEREAS, in support of this contention, the applicant surveyed properties in the surrounding area, finding that there are 26 vacant lots on the west side of Van Duzer Street, three of which have no access to a street, 13 of which are at least twice as large as the subject site, 14 of which have access from the top of Grymes Hill that would not require grading for construction and five of which are owned by non-profit preservation organizations; and

WHEREAS, the applicant states that the above unique physical conditions trigger additional open area or yard requirements because of the subject site's relation to Broad Street, thereby preventing use of the rear of the subject site; and

WHEREAS, the applicant states that approximately 92 percent of the subject site is steeply sloped, which affects development at the subject site because of the amount of excavation required and additional construction costs associated with the installation of retaining walls; and

WHEREAS, the Board finds that the above unique physical conditions create practical difficulties or unnecessary hardship in complying strictly with applicable zoning regulations that are not created by general circumstances in the neighborhood or district; and

WHEREAS, the applicant states that, because of the above unique physical conditions, an as-of-right development would not bring a reasonable return; and

WHEREAS, in support of this contention, the applicant supplied a financial feasibility study demonstrating that an as-of-right development—consisting of one detached residence—would result in a substantial loss on investment but that the proposed attached residences would yield a modest return; and

WHEREAS, the Board finds that, because of the above unique physical conditions, there is no reasonable possibility that development in strict conformity with applicable zoning regulations would bring a reasonable return; and

WHEREAS, the applicant states that the proposed development will not alter the character of the surrounding area because Van Duzer Street is a heavily traveled roadway, that there are a mix of commercial, single-family

and multi-family residential uses in the vicinity, that detached single-family residences to the rear of the subject site will not be affected by the proposed development because of the grade change, that across Broad Street there is a development of attached residences fronting private streets, that across Van Duzer Street there are a number of attached residences and that there is a large development of multiple dwellings two blocks from the subject site along Broad Street; and

WHEREAS, in response to community concerns regarding traffic safety at the intersection of Broad Street, the Board directed the applicant to revise the proposed site plan so that a driveway within the mapped, but unbuilt, portion of Broad Street would provide access to the subject site; and

WHEREAS, the applicant states that vehicles would access the site, park in the cellars of the proposed residences and exit the site without backing out onto Van Duzer Street; and

WHEREAS, the Board finds that the proposed variance will not alter the essential character of the neighborhood or district in which the subject site is located; will not substantially impair the appropriate use or development of adjacent property; and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that the above practical difficulties or unnecessary hardship do not constitute a self-created hardship; and

WHEREAS, the Board finds that the above practical difficulties or unnecessary hardship have not been created by the owner or by a predecessor in title; and

WHEREAS, the applicant states that the proposed variance is the minimum necessary to permit a productive use of the site, as reflected in the financial feasibility study; and

WHEREAS, the Board finds that the proposed variance is the minimum necessary to afford relief within the intent and purposes of the Zoning Resolution; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 15BSA211R, dated April 2, 2018; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, by correspondence dated February 15, 2017, the New York City Landmarks Preservation

MINUTES

Commission states that the project site contains no potential for archaeological resources and that no adverse impacts to historic and cultural resources from the proposed action would be expected; and

WHEREAS, by correspondence dated January 3, 2017, the New York City Department of Environmental Protection states that a search revealed no air quality permits; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR § 72-21 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR § 72-21 to *permit*, in an R2 zoning district and the Special Hillside Preservation District, the development of three attached residences that do not comply with zoning regulations for use, contrary to ZR § 22-00, with one that does not comply with zoning regulations for front yards, contrary to ZR § 23-45 ; *on condition* that all work, operations and site conditions shall conform to drawings filed with this application marked “Received April 3, 2018”-Thirteen (13) sheets; and *on further condition*:

THAT the bulk parameters of the building on Lot 97 shall be as follows: a front yard with a minimum depth of 0’-0” along Broad Street, as illustrated on the Board-approved plans;

THAT the above condition shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by April 10, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 10, 2018.

2017-190-BZ

CEQR #17-BSA-132Q

APPLICANT – Fox Rothschild LLP, for Catherine Sheridan Housing Development Fund Company, Inc., owner.

SUBJECT – Application May 25, 2017 – Variance (§72-21) to permit the development of a 7-story building containing 92 affordable independent residences for seniors and a ground floor senior center contrary to ZR §§23-155 & 24-11 (maximum permitted FAR); ZR §24-33 (permitted obstruction in the required rear yards) and ZR §23-622 (maximum height and setbacks). R6B zoning district.

PREMISES AFFECTED – 23-11 31st Road, Block 569, Lot 17, Borough of Queens.

COMMUNITY BOARD #1Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

Abstain: Commissioner Scibetta.....1

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated September 7, 2017, acting on Application No. 420659638 reads in pertinent part:

1. ZR 23-155 [...]: Proposed Building does not comply with maximum permitted floor area ratio per ZR 23-155 [...] and requires approval from the BSA;
2. [...]
3. ZR 23-662: Proposed Building does not comply with maximum height and setback regulations per ZR 23-662 and requires approval from the BSA; and

WHEREAS, this is an application pursuant to ZR § 72-21 to permit, on a site located within an R6B zoning district, the construction of a six-story Use Group 2 affordable independent residence for seniors (“AIRS”) that does not comply with the zoning regulations relating to floor area ratio and maximum height and set back, contrary to ZR §§ 23-155 and 23-662; and

WHEREAS, this application is filed on behalf of Catherine Sheridan Housing Development Fund Company, Inc. (the “Applicant”), a subsidiary of Catholic Charities Progress of Peoples Development Corporation, the non-profit developer of affordable housing for its parent entity, Catholic Charities Brooklyn and Queens (“Catholic Charities”); and

WHEREAS, Catholic Charities—whose mission is to provide housing and shelter for low-income families, single adults, the elderly and special needs populations supported by social services—has developed over 3,500 units of social service integrated low-income and senior housing in Brooklyn and Queens since 1975 that it operates through subsidiaries; and

WHEREAS, a public hearing was held on this application on September 26, 2017, after due notice by

MINUTES

publication in *The City Record*, with continued hearings on January 30, 2018, and March 20, 2018, and then to decision on April 10, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the subject site and surrounding neighborhood; and

WHEREAS, Community Board 1, Queens, recommends approval of this application; and

WHEREAS, by letters dated June 20, 2017, and January 23, 2018, New York City Councilmember Costa Constantinides expressed his support of this application, noted that the “demand for affordable housing has reached a fever pitch” and reported that in his four years in office, the number one constituent request he has received, especially from seniors, is for more affordable housing; and

WHEREAS, Councilmember Constantinides also stated that, according to 2016 estimates, approximately 20,000 seniors are seeking affordable housing in the subject City Council District, that the average waiting period for senior affordable housing is 7 years and opined that the City must act quickly to meet the housing needs of its growing senior population; and

WHEREAS, by letter dated January 8, 2018, the Service Employees International Union (“SEIU”) 32BJ, a labor union representing building service workers in New York City, stated that, while they have no objection to the subject proposal, they oppose the expansion of the *Cornell Doctrine*, discussed further below; and

WHEREAS, by letter dated January 26, 2018, LiveOn NY, an organization that advocates for policy changes furthering the interests of senior centers and agencies, expressed its support for this application, particularly with respect to the proposal to include social service space in the building, which, they said, “demonstrates true recognition of what seniors need to age and thrive in their community, as most seniors desire to do”; and

WHEREAS, the Board was also in receipt of three form letters in support of the application and one form letter in opposition, citing a concern that the proposed height of the building will block neighbors’ views; and

WHEREAS, the subject site is located on the northeast corner of 31st Road and 23rd Street, in an R6B zoning district, in Queens; and

WHEREAS, the site has approximately 250 feet of frontage along 31st Road, 87 feet of frontage along 23rd Street, 25,576 square feet of lot area and is currently vacant; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 19, 1977, when, under BSA Cal. No. 237-77-BZ, the Board granted a special permit, pursuant to ZR § 73-451, allowing the construction and maintenance of an off-site parking facility accessory to a multiple dwelling located at 31-41 23rd Street (Block 568, Lot 12), Queens, on condition that the parking facility be restricted to parking accessory to the multiple dwelling building located at 31-41 23rd Street; there be no building constructed at the site; that the lot be held in single

ownership with 31-41 23rd Street, to which the parking was accessory; and that substantial construction be completed within one year; and

WHEREAS, by letter dated October 12, 2017, a letter of substantial compliance was issued permitting a change in use of the multiple dwelling located at 31-41 23rd Street from Use Group 2 Class “A” multiple dwelling units and Use Group 4 community facility to Use Group 2 AIRS, a use permitted as-of-right at the subject site and for which, pursuant to ZR § 25-252, no accessory off-street parking spaces are required; accordingly, the special permit granted to the subject site was surrendered; and

WHEREAS, at the subject site, a maximum floor area ratio of 2.20 (56,267 square feet of floor area) is permitted pursuant to ZR § 23-155; a maximum base height of 40 feet and a maximum building height of 50 feet are required pursuant to ZR § 23-662(a); and, above the maximum base height, setbacks of at least 15 feet are required from both 31st Road and 23rd Street pursuant to ZR § 23-662(c)(1); and

WHEREAS, the Applicant proposes to redevelop the site with a six-story building containing 92 units of affordable independent residences for seniors, plus one superintendent’s unit for a total of 93 units, 74,274 square feet of floor area including 6,328 square feet of accessory space on the ground floor for the provision of social and welfare services primarily for the senior residents, a floor area ratio (“FAR”) of 2.90 and a building height of 61’-8” with no setback from either 31st Road or 23rd Street; and

WHEREAS, accordingly, the Applicant seeks an increase in the FAR permitted at the site by 0.70, an 18,007 square foot increase in the residential floor area permitted, a 21’-8” increase in the maximum base height permitted, an 11’-8” increase in the maximum building height permitted and a waiver of the required 15 foot setbacks; there are no density regulations applicable to AIRS units and, thus, no waiver of density has been requested; and

WHEREAS, the Applicant submits that the waivers are required to overcome a high water table that precludes the provision of a cellar and to facilitate the development of a building that will be in context with the neighborhood as well as to provide a sufficient number of affordable residences for seniors in a single development project that satisfies public financing criteria and related regulatory and policy guidelines; and

WHEREAS, primarily, however, the Applicant relies on an extension of the deference afforded educational and religious institutions under the law of the State of New York as to zoning, known as the *Cornell Doctrine*, that obviates the need for the Board to find a “unique physical condition,” as set forth in ZR § 72-21(a), to not-for-profit affordable developers seeking bulk waivers to facilitate the development of projects that provide 100 percent affordable housing to low-income earners for the life of the building; and

WHEREAS, *Cornell University v. Bagnardi*, 68 NY2d 583 (1986) holds that, while zoning boards retain discretion,

MINUTES

educational or religious institutions' land use applications are generally to be granted unless they can be shown to have a net negative impact on the health, safety or welfare of the community, though general concerns about traffic and disruption of the residential character of the neighborhood, for instance, are insufficient grounds upon which to deny such applications; and

WHEREAS, the Applicant submitted a thorough analysis of the origins of the *Cornell Doctrine* demonstrating a natural link between public policies aimed at protecting houses of worship and schools and those aimed at facilitating the development of housing for low-income earners, seniors and the formerly homeless; and

WHEREAS, in particular, the Applicant asserts that the provision of affordable housing, much like that of educational institutions and houses of worship, is in furtherance of the public health, safety, welfare and morals and a fundamental interest of the state, as evidenced by a 1965 amendment to the New York State Constitution that authorized the legislature to provide for "low rent housing and nursing home accommodations for persons of low income as defined by law," New York Constitution, article XVIII, § 1; and

WHEREAS, the Applicant submits that both New York City and State have long recognized the importance of accessibility to safe and high-quality affordable housing, as further evidenced by the New York State Tenement House Act of 1901, which banned the construction of dark and poorly ventilated tenement buildings and required that newly constructed tenement buildings be built with outward facing windows in every room, open courtyards, indoor toilets and fire safeguards; the Multiple Dwelling Law of 1929, which established proper housing standards requiring sufficient light, air, sanitation and protection from fire hazards essential to the public welfare; the New York City Housing Authority, created in 1934 to provide housing for low- and moderate-income residents and currently the largest public housing authority in North America; the Mitchell-Lama Housing Program, created by the New York State Legislature in 1955 to provide affordable rental and cooperative housing to moderate- and middle-income residents; and the Loft Law, an article of the Multiple Dwelling Law enacted in 1982 requiring residential conversions of commercial and manufacturing buildings to comply with minimum housing standards in order to ensure the health and safety of the buildings' residential tenants; and

WHEREAS, in the 1980s, the federal government expanded the availability and use of Section 8 Housing Choice Vouchers, utilized by very low-income families, the elderly and the disabled to acquire safe housing in the private housing market, and introduced the Low-Income Housing Tax Credit program, which gives state and local agencies authority to issue tax credits for costs associated with the acquisition, rehabilitation or construction of rental housing for low-income earners, while New York City Mayor Edward Koch's administration initiated and enforced

tax foreclosures on properties that were one year or more in tax arrears in an effort to increase public revenue after the fiscal crisis of 1977—an act that made the City of New York the largest owner of land within the City of New York with title to more than 100,000 vacant and partly occupied apartments—and eventually designated \$5.1 billion in city and federal funds to rebuild entire neighborhoods as part of Koch's Ten-Year Affordable Housing Plan (1986-1996); and

WHEREAS, in the 1990s, New York City Mayors David Dinkins and Rudolph Giuliani's administrations extended the City's commitment to Mayor Koch's affordable housing plan, which led to the rehabilitation and development of over 180,000 units between 1987 and 2000; and

WHEREAS, New York City Mayor Michael Bloomberg's administration also made commitments to creating and preserving affordable housing with the New Housing Marketplace Plan (July 2003), which originally committed \$3.4 billion to build and preserve 68,000 affordable housing units by 2008, but doubled its goal in February 2006 with \$7.5 billion dedicated to build and preserve 165,000 affordable housing units over the next ten years; and

WHEREAS, in 2014, current New York City Mayor Bill de Blasio introduced the Housing New York, a five-borough ten-year plan aiming to create and preserve 200,000 affordable housing units by 2024 through, among other initiatives, encouraging the development of affordable housing on underutilized public and private sites, promoting housing for seniors and the formerly homeless and creating the Mandatory Inclusionary Housing program, which, per ZR § 24-92, was "established to promote the creation and preservation of housing for residents with varied incomes in redeveloping neighborhoods and to enhance neighborhood diversity and thus to *promote the general welfare*," (emphasis added) and requires that a certain proportion of new housing developed in connection with certain zoning actions be permanently affordable; and

WHEREAS, in spite of these professed policy goals, the Applicant asserts that the City of New York is in the midst of an affordable housing crisis due to, among other things, incredible population growth; a demand for low- and moderate-income affordable housing units that outpaces the supply of those units and, relatedly, a rise in residential rents that outpaces income growth; the steady decrease in the number of rent controlled and rent stabilized (collectively, "rent regulated") units; and the aversion of residents located near proposed low-income affordable housing developments to such projects out of fear that such developments will decrease area property values and adversely affect the neighborhood's quality of life, a response that often leads to the abandonment of those projects; and

WHEREAS, the Applicant notes that the New York City Rent Guidelines Board, charged with establishing rent increases for the dwelling units subject to the Rent Stabilization Law, found that, since 1994, nearly 250,000

MINUTES

units of rental housing have been removed from rent regulation protection, resulting in a net loss of 16 percent of the total stock of rent regulated affordable housing units from 1994 to 2012; in addition, many buildings, for which the regulatory requirement to be available at affordable rents has expired, have opted out of affordability programs and opted, instead, to pursue market rate or homeownership options, leading to a loss of another 68,000 units of affordable housing from the four largest subsidy programs; and

WHEREAS, in Queens, in particular, the Applicant submits that the fair market monthly rent for a two-bedroom unit in 2016 necessitated an hourly wage of \$30.21 to be considered affordable, but the estimated hourly wage in the area was, in fact, \$17.49, and in the neighborhood of Astoria, in Queens, rents in the area have increased by 26.7 percent from 2000 to 2010-2014 (compared to a 0.7 percent increase during the previous decade) while the average household income in Astoria has increased by only 5 percent in that same period, demonstrating the chasm between wages and housing affordability in New York City; and

WHEREAS, the Applicant emphasizes that the crisis has disproportionately affected New York City's senior residents, 60 years and older, a growing demographic that often relies on a fixed income and nearly one-third of which currently pay more than 50 percent of their income on housing; and

WHEREAS, in furtherance of their submission that the provision of affordable housing for low-income earners is generally, like education and free exercise of religion, in furtherance of the public health, safety, welfare and morals, the Applicant notes that when residents have to spend a large percentage of their income on housing, less money is available for those residents' other basic living needs like food or healthcare, which can lead to negative health outcomes, particularly for seniors; the insufficient supply of low-income affordable housing also results in overcrowded housing and familial instability, necessitating frequent moves and increases in the rate of homelessness; and

WHEREAS, the Applicant submits that providing low-income affordable housing units sufficient to meet the demand, thereby meeting residents' most basic need for shelter, enables residents to more actively participate in the local economy, acquire other life essentials like nutritious food and medicine, access more stable employment opportunities and altogether improves residents' quality of life; and

WHEREAS, when such housing is provided by mission-based not-for-profit institutions, in particular, the Applicant avers that these positive outcomes are more assured because of the developer's focus on the residents rather than financial profit and because the mission of the not-for-profit housing developer is to build, manage and maintain affordable housing and not package it for resale or for the building's future "upside" potential, as would be the goal for a for-profit developer; and

WHEREAS, the Applicant submits that additional

methods of facilitating the development of affordable housing for low-income residents, such as the proposed extension of the *Cornell* Doctrine herein, are necessary to close the gap between the supply and demand for low-income affordable housing since, unlike market rate or mixed-income (market rate units combined with affordable units at varying degrees of affordability) housing development projects, low-income affordable housing can only be developed in reliance on government grants and subsidies and on adequate unit counts that facilitate economies of scale; and

WHEREAS, in the letter expressing their opposition to this expansion of the *Cornell* Doctrine, SEIU 32BJ states that there is no precedent for the expansion of the doctrine to cover affordable housing, that New York State courts have rejected efforts to expand the doctrine to buildings owned by religious and educational institutions "that are used for auxiliary purposes," and that the extension of the doctrine would create a "slippery slope," specifically, in allowing deference to for-profit developments in much the same way that educational deference under the *Cornell* Doctrine is available to both publically- and privately-funded schools; and

WHEREAS, while the Board recognizes that the record does not reflect any instance in which New York State courts have declined to extend or apply the *Cornell* Doctrine to a 100 percent low-income affordable housing development, the Board notes instances in which New York State courts have applied the doctrine with the flexibility and factual specificity inherent in land use decisions including *Matter of Unitarian Universalist Church of Central Nassau v. Shorten*, 63 Misc 2d 978 (Sup Ct Nassau County 1970) (ruling that a day care center housed in an existing church, but operated by a separate non-profit corporation, was religious activity protected by the First Amendment because it shared a site with a house of worship and did not require a special permit, the application for which was denied, both because the Village zoning ordinance necessitating the special permit conflicted with and hindered State law and policy that favored the creation of facilities suitable for the care of pre-school and primary school aged children); *McGann v. Village of Old Westbury*, 186 Misc 2d 661 (Sup Ct Nassau County 2000) *affd* 293 AD2d 581 (2d Dept 2002) (off-site Roman Catholic cemetery constituted a "religious use" entitled to deference based on, among other things, evidence that cemeteries are places of worship in their own right in Roman Catholic theology); *East Hampton Library v. Zoning Board of Appeals of Village of East Hampton*, 31 Misc 3d 1231(A), 2011 NY Slip Op 50921(U) (Sup Ct Suffolk County 2011) (land use applications filed to facilitate a library operated by the University of the State of New York were entitled to educational deference both because the library was chartered by an institute of higher education and because it provided numerous instructional programs, classes, lectures and lessons, which are all educational in nature); and

WHEREAS, the Board additionally notes instances in

MINUTES

which the Board, itself, has extended the *Cornell* Doctrine to permit the enlargement of hospitals associated with degree-granting educational institutions, including New York Presbyterian Hospital (BSA Cal. No. 325-12-BZ) (June 11, 2013), Mount Sinai Hospital (BSA Cal No. 170-13-BZ) (September 10, 2013), Memorial Hospital for Cancer and Allied Diseases (BSA Cal. No. 183-11-BZ) (June 19, 2012), and St. Barnabas Hospital (BSA Cal. No. 246-08-BZ) (May 19, 2009); and

WHEREAS, with regards to SEIU 32BJ’s argument that the courts have rejected efforts to expand the *Cornell* Doctrine to buildings owned by religious and educational institutions put to “auxiliary purposes,” the Board notes that in the cases cited by SEIU 32BJ on that point, the extension of deference was denied because there was no nexus between the reason for the deference (i.e. education and/or the free exercise of religion) and the actual use of the development seeking the deference; and

WHEREAS, in *People v. Kalayjian*, 76 Misc 2d 1097 (Sup Ct App Term 2d Dept 1973), the court found that a four-family dwelling occupied by members of the American Orthodox Catholic Church, but in which no religious services were conducted, did not constitute a religious use under the applicable zoning ordinance; and

WHEREAS, similarly, in *Bright House Horizon v. Zoning Board*, 121 Misc 2d 703 (Sup Ct Monroe County 1983), the court ruled that the Zoning Board of Appeals of the Town of Henrietta (the “Henrietta ZBA”) justifiably found that a health care and residential facility proposed by a non-profit corporation on behalf of the Church of First Christ Science, which was proposed to use Christian Science beliefs in lieu of traditional medical care, was not a permitted use in the subject district—which permitted churches as-of-right, but did not define the term “church”—where the proposed use did not qualify as a “church” because its purpose was not public worship, an activity typically associated with a church according to Webster’s New International Dictionary, Third Edition, but, instead, was a nursing facility intended to provide skilled nursing care for those seeking healing through Christian Science; further, the facility was not accessory to a church because it was across the street from the local Christian Science Church, not on the same lot as required for an “accessory use” under the Town Code; and

WHEREAS, in its affirmance of the Henrietta ZBA’s denial of deference to the development, the court states, “[t]he constitutional protection afforded all religions and religious beliefs is not hindered by the law’s refusal to mandate zoning approval of every institution solely because it is sponsored or operated by a religious organization in accordance with its beliefs. . . . It is the proposed use of the land, not the religious nature of the organization, which must control,” 121 Misc.2d at 709; and

WHEREAS, in contrast, the *Cornell* Doctrine is herein proposed to be extended to facilitate the construction of 100 percent low-income affordable housing developments in order to address the currently high demand for such housing

and the subject application is for a 100 percent low-income affordable housing development therefore, there is the nexus between the rationale for the deference and the proposed use of the subject property that was missing in both *Kalayjian* and *Bright House Horizon* and, accordingly, the Board finds those cases distinguishable and that they do not undermine the Applicant’s argument for deference; and

WHEREAS, finally, with regards to SEIU 32BJ’s argument that an extension of deference in this case will cause a “slippery slope,” the Board disagrees, clarifies that the application of the *Cornell* Doctrine to private educational institutions is not the result of a “slippery slope,” but, rather, based on the explicit language of the case law articulating the doctrine, including *Cornell*, which cites earlier New York Court of Appeals and Appellate Division decisions for the proposition that “schools, public, parochial and private, by their very nature, singularly serve the public’s welfare and morals,” 68 NY2d at 593 (emphasis added), and *East Hampton Library*, where the court states that “[e]ven private institutions are entitled to deferential treatment as long as they carry out the educational mission of the State, as they have the same beneficial effect upon the general welfare of the community as public schools,” 31 Misc.3d 1231(A), 2011 NY Slip Op 50921(U) at *3; and

WHEREAS, as clarified by the court in *East Hampton Library*, it is the entity’s furtherance of the State’s defined public purpose that entitles that entity to deferential treatment—hence, if deference were applied, as here suggested, where an affordable housing emergency has been declared, the solutions for which are set forth in a myriad of state-sponsored initiatives aimed at creating and preserving housing units for low-income earners, that deference should be extended only to those development projects that would fulfill this stated public purpose and dedicate 100 percent of their dwelling units to low-income earners for the life of the developments; the deference would decidedly not apply to developments that would dilute the stated public purpose by housing fewer low-income households in the project, or housing such households for a limited term of years, or as part of a project primarily aimed at providing additional market rate units; and

WHEREAS, the Board finds no support in the record for SEIU 32BJ’s argument that this extension of the *Cornell* Doctrine will result in deference being granted to market-rate housing developments, mixed-income housing developments, or to 100 percent low-income projects that are not maintained as such for the life of the building, since the stated affordable housing emergency does not encompass market-rate units; and

WHEREAS, the Board notes that the purpose of the extension of the *Cornell* Doctrine in the context of facilitating the development of housing units affordable for extremely low-, very low- and low-income earners is that in the absence of the requested bulk waivers, the Applicant is unable to provide enough units to make the development financially viable and will ultimately create zero affordable housing units; mixed-income housing developments, in

MINUTES

contrast, utilize market rate and moderate-income housing units to subsidize the low-income units, often obviating any need for government assistance in the form of financial subsidies or zoning relief; and

WHEREAS, thus, the Board finds that its cabining of the extension of the *Cornell* Doctrine to facilitate only the development of 100 percent low-income affordable housing for the life of the development will not create a slippery slope because the extension is so narrowly defined both in terms of the use for which it may be applied and the emergency the deference is meant to address—the crisis-level insufficiency of housing units in New York City that are actually affordable for low-income earners; and

WHEREAS, according to the Association for Neighborhood and Housing Development (“ANHD”), an umbrella organization of 100 not-for-profit affordable housing development groups serving New York City, in 2015, extremely low- to low-income earners (those earning 10-100 percent area median income (“AMI1”)) made up 67 percent of New York City’s population with extremely low-income earners (those earning 10-30 percent AMI) constituting 27 percent of New York City’s population overall, very low- to low-income earners (those earning 40-80 percent AMI) making up 30 percent of New York City’s population overall and low moderate-income earners (those earning 90-100 percent AMI) making up only approximately 9 percent of New York City’s population overall; and

WHEREAS, thus, extremely low- to low-income residents, 57 percent of New York City’s residents, suffer the most from the housing crisis and developments proposed to provide low-income affordable housing are most often subjected to strong opposition by existing residents, in much the same way that protectionist residents oppose houses of worship and educational facilities²; and

WHEREAS, the Board recognizes the natural link between the public policy initiatives that have been put in place over decades by various levels of government aimed at supporting and defending religious and educational institutions and the development of buildings designed to facilitate those institutions’ goals and that similar public

1 As of the date of this decision, the income bands (expressed as a percentage of AMI) that qualify as extremely low-, very low- and low-income earners as expressed here, courtesy of ANHD, are consistent with those that qualify for such designation by the U.S. Department of Housing and Urban Development (“HUD”) and the New York City Department of Housing Preservation and Development (“HPD”).

2 This phenomenon is noted by the court in *Cornell* in its discussion of how the advent of the automobile and the growth and diversification of religious and educational institutions brought a host of new problems to residential areas and caused neighbors to view the construction of a new school “with distrust and concern that it would unnecessarily bring people from other communities into the neighborhood” 68 NY2d at 593.

policy initiatives have been aimed at housing the homeless and the underprivileged and encouraging the provision of affordable housing; and

WHEREAS, the Board acknowledges that the provision of affordable housing, especially low-income housing that is truly affordable, has been a major priority for New York City, State and federal administrations; and

WHEREAS, however, the Board finds unequivocally, that to prevent abuse—i.e. reliance on the *Cornell* Doctrine to facilitate projects that include any amount of market rate housing and/or less than 100 percent affordable housing for low-income persons for the life of the building—the extension of the doctrine must be restricted to (1) not-for-profit entities, (2) with an extensive history of developing and managing 100 percent low-income affordable housing, (3) for developments with restricted rents that are, in their entirety, targeted to extremely low-, very low- and low-income earners, (4) that will remain rent-restricted to such earners for the life of the development; and

WHEREAS, specifically, the Board states that the expansion of the *Cornell* Doctrine considered herein would not be available for projects that will not remain 100 percent affordable for the life of the development (i.e. are only required to remain affordable subject to a termed regulatory agreement) or to for-profit developers where only a portion of the development will qualify as low-income affordable housing; and

WHEREAS, in addition, the Board finds that the expansion of the *Cornell* Doctrine, for cases like the subject application is one way to respond to the clear housing emergency presently facing New York City; and

WHEREAS, in this case the Applicant has a very long history of developing and managing 100 percent affordable housing for low-income New Yorkers and its primary focus as an institution is in providing and maintaining this kind of low-income housing; it is also important that under Catholic Charities’ mandate, the housing will remain affordable for the life of the development, otherwise bulk variances would not be appropriate because they last for the life of the building; and

WHEREAS, therefore, for all of the reasons set forth herein, the Board finds that it is appropriate to extend the *Cornell* Doctrine to the subject application as proposed herein; and

WHEREAS, because the Board finds that the Applicant, as a not-for-profit developer of 100 percent low-income affordable housing to be kept affordable to low-income earners for the life of the development, is entitled to deference similarly afforded to educational and religious institutions under the law of the State of New York as to zoning, the Applicant is able to rely on its programmatic needs in support of the subject variance application; and

WHEREAS, as with religious and educational institutions, not-for-profit entities that wish to avail themselves of this extension of the *Cornell* Doctrine to not-for-profit 100 percent low-income housing developments will be required to demonstrate that the waivers requested

MINUTES

are directly related to the public policy goal justifying the expansion and the entity's programmatic needs—to wit, the provision of 100 percent low-income housing units—and that the waivers requested are the minimum necessary to ensure a viable project that meets State and City requirements for subsidies; and

WHEREAS, the subject application originally proposed a development with 19 parking spaces and a seven-story building having a total height of 71 feet, with 92 AIRS units and an additional 7,972 square feet of floor area for a Use Group 4 senior center open to the general public on the ground floor, and requested additional waivers of the rear yard and permitted obstruction requirements applicable to the site, set forth in ZR §§ 23-47 and 24-33, to permit a portion of the public senior center to obstruct the required rear yard, and a waiver of ZR § 24-11 to allow the exceedance of the maximum floor area ratio permitted for a community facility use in a residential district; and

WHEREAS, while the Board acknowledges that parking spaces and a community center may be desirable at the site, such uses are neither required under zoning nor mandated by the Applicant's program with regards to providing affordable housing for low-income earners—the parking spaces were proposed for staff of the proposed community center and residents of the proposed building who may retain access to a vehicle and appreciate the convenience of parking on-site and the community center was proposed in order to fill a neighborhood need for gathering spaces for seniors; and

WHEREAS, further, the Applicant has not demonstrated a practical difficulty or unnecessary hardship resulting from a unique physical condition at the site that could support the grant of additional waivers to support a programmatic preference that falls outside of the provision of affordable housing for low-income seniors; and

WHEREAS, accordingly, the Applicant revised the proposal to eliminate the on-site parking spaces and Use Group 4 community center, eliminating the request for a waiver of ZR § 24-33, and providing a required 30 foot rear yard, eliminating the waiver for ZR § 23-47; and

WHEREAS, the subject proposal instead provides 6,328 square feet of accessory space on the ground floor for the provision of accessory social and welfare facilities and recreation space primarily for the senior residents of the subject building; and

WHEREAS, pursuant to the definition of “Affordable independent residence for seniors” in ZR § 12-10, the proposed building must provide floor space in an amount of not less than four percent of the total floor area for “related *accessory* social and welfare facilities primarily for residents” (emphasis in original to indicate a term defined elsewhere in ZR § 12-10) of the subject building; and

WHEREAS, in addition, pursuant to ZR § 28-21, the building must provide recreation space equal to at least 3.3 percent of the total residential floor area; and

WHEREAS, the accessory recreation, social and welfare facilities space proposed herein constitutes

approximately 8.5 percent of the total residential floor area in the building, slightly more than the 7.3 percent accessory recreation, social and welfare facilities space required pursuant to ZR §§ 12-10 and 28-21 combined, consisting of a large multi-purpose indoor recreation space, a kitchen, computer room, social service office, fitness room, art room and library; and

WHEREAS, the Applicant states that these facilities are necessary because, over its 40 year history, the Applicant has observed that low-income and formerly homeless seniors require more space and resources for the provision of social support and services; and

WHEREAS, the space is comparable to spaces provided in other of the Applicant's facilities in Brooklyn, which host fitness classes, computer classes, art classes, health screenings, bingo nights, lectures on topics such as insurance, chronic disease management and tenant rights, and will host similar programming with the goal of providing a safe and convenient environment in which the tenants can maintain their independence, interact with neighbors and build a supportive community; and

WHEREAS, among the social services provided to residents of Catholic Charities' developments generally are development and youth services, literacy and job training, food and nutrition programs, health care and mental health services, senior services, disability services, homeless services and substance abuse programs; and

WHEREAS, Catholic Charities submits that, by providing opportunities for socialization, educational programs and nutritional meals on-site, its senior residents are able to maintain their independence as well as their health and realize a higher quality of life; and

WHEREAS, the Applicant states that the subject proposed building has been designed based on their experience in developing low-income senior housing, particularly with regards to the size, layout and programming of the accessory space on the ground floor, which the Applicant anticipates to have to accommodate not only the building tenants and their visitors, but also the caregivers that work with approximately 50 percent of those tenants, an estimate based on the Applicant's observations at four other facilities they operate in Brooklyn and Queens, and also provide the additional resources required for the 30 percent of its tenants who will be formerly homeless seniors; and

WHEREAS, the Applicant asserts that an as-of-right development at the site, consisting of 64 units instead of the 92 proposed in this application, is untenable because buildings with such low low-income affordable unit counts are unlikely to be funded and, without such funding, built; additionally, by constructing more units, the Applicant is able to obtain government funding from additional sources and, thus, develop a 100 percent affordable supportive housing project for low-income seniors at the site; and

WHEREAS, the Applicant's consultant asserted at hearing that the per unit cost of the as-of-right development at the site is exceptionally high and fails to meet the income-

MINUTES

to-expense ratio that makes obtaining financing for the development—and thus, its eventual construction and operation—possible; and

WHEREAS, in support of this contention, by letter dated March 19, 2018, the New York City Department of Housing Preservation and Development’s (“HPD”) Division of Special Needs Housing states that “the assumptions made in the Financing Memorandum” prepared by the Applicant’s consultant, “support the [A]pplicant’s assertion that the proposed 93-unit building is the most viable option among the options studied” for the subject site; and

WHEREAS, based on the above, the Board finds that because the subject proposal is a 100 percent low-income housing development that will remain affordable to low-income households for the life of the building, that the project is proposed to be developed by an experienced not-for-profit developer and because the waivers requested are directly related to the public policy goal of the provision of 100 percent low-income housing units, the subject proposal is entitled to deference under the herein expanded *Cornell Doctrine*, hence no finding of unique physical conditions, unnecessary hardship or practical difficulty pursuant to ZR § 72-21(a) need be found; and

WHEREAS, because the Applicant is a not-for-profit organization and the variance is needed to further its mission, the finding set forth in ZR § 72-21(b) need not be made in order to grant the variance request in this application; and

WHEREAS, the Applicant states that, pursuant to ZR § 72-21(c), the variance, if granted, will not alter the character of the neighborhood, impair the appropriate use or development of adjacent property or be detrimental to the public welfare; and

WHEREAS, specifically, the Applicant asserts that the proposed AIRS building is consistent with the surrounding area, which is residential in character, with a mix of multi-family elevator and walk-up buildings along with one- and two-family dwellings; additionally, another Catherine Sheridan AIRS facility, an 11-story, 97 foot tall building, is located immediately across 31st Road from the subject site at 31-41 23rd Street; in terms of the bulk of surrounding buildings, the Applicant states that the majority of buildings in the immediate area have four to six-stories and the proposed, at six-stories and 61’-8” total height, is comparable in height to existing buildings located immediately to the north and east of the subject site and, thus, will not impede those developments’ access to light and air; and

WHEREAS, in support of these contentions, the Applicant submitted a height study, photographic streetscape montage, contextual streetscape illustrations and an aerial photographic neighborhood study demonstrating that the proposed AIRS building befits the built conditions of the immediate area; and

WHEREAS, the Applicant submitted a Construction Code Determination Form to DOB requesting a confirmation of the proposed development’s compliance

with applicable sections of the 2014 New York City Building Code’s (“BC”) Appendix G, titled Flood-Resistant Construction; and

WHEREAS, by decision dated April 3, 2018, DOB determined that the proposal complies with the applicable requirements of Appendix G on condition that: prior to permit approval, the plan examiner shall verify that the final construction documents demonstrate compliance with Appendix G; the Applicant confirms that the slab on grade construction complies with BC G301.2 and shall be designed and constructed to resist the loads and load combinations specified in Appendix G and ASCE 24; the Applicant updates the reference regarding compliance with plumbing and sanitary systems to ASCE 24 Chapter 8, not Chapter 7; the Applicant confirms that the use of any fill will be placed, compacted and sloped to minimize shifting, slumping and erosion during the rise and fall of flood water in accordance with ASCE 24; and that the Applicant shall indicate that an elevation certificate is required prior to sign-off as part of the flood zone compliance special inspection; and

WHEREAS, the Applicant additionally submitted a Zoning Resolution Determination Form to DOB requesting confirmation of the proposed development’s compliance with applicable sections of Article VI, Chapter 4 of the Zoning Resolution, titled Special Regulations Applying in Flood Hazard Areas; and

WHEREAS, by decision dated April 3, 2018, DOB determined that the proposal complies with the applicable requirements of ZR § 64-00, et seq., on condition that prior to permit approval, the plan examiner verifies that the final construction documents demonstrate compliance with Appendix G of the 2014 NYC Building Code; and

WHEREAS, in light of the foregoing, the Board finds that the proposal will not alter the essential character of the surrounding neighborhood, nor impair the use or development of adjacent properties and not be detrimental to the public welfare; and

WHEREAS, the practical difficulties complained of are inherent to the developmental challenges of providing 100 percent low-income affordable housing units at the site, accordingly, the Board finds that the hardship herein was not created by the owner of the site or a predecessor in title in satisfaction of ZR § 72-21(d); and

WHEREAS, the Applicant represents that, consistent with ZR § 72-21(e), the subject proposal represents the minimum variance needed to accommodate its programmatic needs; and

WHEREAS, the Applicant relies on its experience as a developer of affordable housing in Brooklyn and Queens to assert that the provision of 92 AIRS units plus one superintendent’s units, as proposed herein, is the minimum required to secure the necessary financing and meets its programmatic goal to efficiently provide social services and 100 percent affordable housing for low-income seniors in accordance with HPD design guidelines; and

WHEREAS, the Board notes that the Applicant

MINUTES

originally proposed a seven-story building having a total height of 71 feet, an additional 7,972 square feet of floor area for a community facility use open to the general public on the first floor and requested additional waivers of ZR §§ 23-47, 24-33 and 24-11; and

WHEREAS, HPD reviewed the proposed development plans and financing memorandum prepared on behalf of the Applicant and, by letter dated March 19, 2018, confirmed that the plans generally comply with HPD standards for developments of this type; and

WHEREAS, the Board finds that this proposal is the minimum necessary to allow the Applicant to fulfill its programmatic needs; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Environmental Assessment Statement Short Form CEQR No. 17BSA132Q, dated February 28, 2018; and

WHEREAS, the EAS documents that the project as proposed would not have significant impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, the New York City Landmarks Preservation Commission reviewed the subject proposal and concluded that the subject site is of neither architectural nor archaeological significance; and

WHEREAS, by letter dated July 12, 2017, the New York City Department of Environmental Protection (“DEP”) states that based on the results of the air quality analysis, it was determined that the development proposed herein would not result in any potential for significant adverse impacts with regards to air quality; and

WHEREAS, by letter dated January 2, 2018, DEP states that it has determined that the proposed project will not result in any potential for significant adverse impacts with regards to noise; and

WHEREAS, the New York City Department of City Planning reviewed the project for consistency with the policies and intent of the New York City Waterfront Revitalization Program (“WRP”) under WRP #17-124 and concluded that the action is consistent with and will not substantially hinder the achievement of any WRP policies; and

WHEREAS, the New York City Department of Parks reviewed the proposal with regards to open space and in response to Parks comments citing the lack of open space in

the neighborhood, the Applicant included a description of the on-site recreation amenities proposed and how these meet the needs of the residents; and

WHEREAS, an “E” designation (E-468) has been placed on the site for hazardous materials; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR § 72-21 to permit, on a site located in an R6B zoning district, the construction of a six-story Use Group 2 affordable independent residence for seniors that does not comply with the zoning regulations relating to floor area ratio and maximum height and set back, contrary to ZR §§ 23-155 and 23-662; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received March 19, 2018”—Nine (9) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum of 74,274 square feet of floor area, a maximum floor area ratio of 2.90, a maximum base height and maximum building height of 61’-8” and a setback of at least 0 feet from 31st Road and a setback of at least 0 feet from 23rd Street, as indicated on the BSA-approved plans;

THAT the subject building be developed as 100 percent housing for seniors affordable for those in the 60 percent AMI and lower income range;

THAT this variance grant is exclusively for the benefit of the subject Applicant, Catherine Sheridan Housing Development Fund Company, Inc., a subsidiary of Catholic Charities Progress of Peoples Development Corporation, the non-profit developer of affordable housing for its parent entity, Catholic Charities Brooklyn and Queens;

THAT this grant may not be transferred to another developer without the express consent of the Board, which developer must also be an experienced not-for-profit low-income housing developer;

THAT the building, once constructed, shall remain affordable at the 60 percent AMI and lower income range for the life of the building;

THAT the façades, landscaping and site furnishings, as shown on the BSA-approved plans, shall be maintained in good condition and repaired and replaced as necessary to meet that criteria;

THAT prior to DOB permit approval, the plan examiner shall verify that the final construction documents demonstrate compliance with Appendix G of the 2014 NYC Building Code;

MINUTES

THAT the Applicant shall confirm that the slab on grade construction complies with BC G301.2 and shall be designed and constructed to resist the loads and load combinations specified in Appendix G and ASCE 24;

THAT the Applicant shall update the reference regarding compliance with plumbing and sanitary systems to ASCE 24 Chapter 8, not Chapter 7;

THAT the Applicant shall confirm that the use of any fill will be placed, compacted and sloped to minimize shifting, slumping and erosion during the rise and fall of flood water in accordance with ASCE 24;

THAT the Applicant shall indicate that an elevation certificate is required prior to sign off as part of the flood zone compliance special inspection;

THAT an E designation (E-468) is placed on the site to ensure proper hazardous materials remediation;

THAT the project shall use natural gas as the fuel type for the HVAC system;

THAT the above conditions shall be listed on the Certificate of Occupancy;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a Certificate of Occupancy shall be obtained within four (4) years, by April 10, 2022;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portion related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 10, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated August 1, 2017, acting on Alteration Application No. 122911171, reads in pertinent part:

“Proposed Physical Culture Establishment [as defined in section ZR 12-10] is not permitted as of right . . . and is contrary to section ZR 32-10”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, in a C6-2 zoning district, the operation of a physical culture establishment on portions of the first floor and cellar of the subject building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on April 10, 2018, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Community Board 2, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of Greenwich Street, between Christopher Street, Washington Street and Barrow Street, in a C6-2 zoning district, in Manhattan; and

WHEREAS, the subject site has approximately 290

MINUTES

feet of frontage along Greenwich Street, 239 feet of frontage along Christopher Street, 214 feet of frontage along Washington Street, 208 feet of frontage along Barrow Street, 54,020 square feet of lot area and is occupied by an 11-story, with cellar, mixed-use commercial and residential building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since December 14, 1993, when, under BSA Calendar Number 42-93-BZ, the Board granted a special permit to allow the operation of a physical culture establishment (“PCE”) for a term of ten (10) years, expiring December 14, 2003, on condition that there be no change in ownership or operating control of the PCE without prior application to and approval from the Board; that the hours of operation be limited to between 6:00 a.m. to 10:00 p.m. and that the above conditions appear on the certificate of occupancy; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special

permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE will occupy 12,450 square feet of floor space as follows: 7,160 square feet of floor area on the first floor, including reception with retail space, a tread studio, a flex studio, control rooms and a technical production closet, and 5,290 square feet of floor space in the cellar, including locker rooms, a laundry room, storage, mechanical space, dressing room, a pantry without cooking, offices and a conference room; and

WHEREAS, the PCE will operate as Peloton with the following hours of operation: 5:30 a.m. to 10:00 p.m., Monday to Friday, and 7:00 a.m. to 7:00 p.m., Saturday and Sunday; and

WHEREAS, the applicant represents that the PCE use is consistent with the mixed-use area in which it is located, that the PCE use is fully contained within the envelope of an existing building and that the PCE will not interfere with access to the residential portion of the subject building; and

WHEREAS, in addition, the applicant submits that sound attenuation measures will be provided within the PCE space as follows: an isolated floating 4-inch concrete floor slab on jack-up spring isolators; internal isolated partitions consisting of two layers of gypsum board, batt insulation and 1-inch core-board build on the isolated slab; a full-height secondary wall enclosure consisting of two layers of gypsum board on independent studs built on the structural slab; a

MINUTES

noise barrier ceiling consisting of spring isolation hangers supporting a ceiling composed of 6-inch batt insulation, 1-inch core board, batt insulation, two layers of gypsum board and 2-inch acoustic theater board panels; acoustic column enclosures built onto the isolated floor of similar construction as the isolated partitions; sound-absorbing wall and ceiling treatment; 15-millimeter rubber floor finish material; and acoustic doors with an STC rating of 50 or more; and

WHEREAS, the Board finds that the PCE use is so located as not to impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE will provide classes for instruction and programs for physical improvement, including group fitness classes consisting of treadmill-based workouts as well as floor-based cardiovascular, strength, stretching and yoga workouts; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE will be fully sprinklered and that an approved fire alarm—including area smoke detectors, manual pull stations at each required exist, local audible and visual alarms and connection to an FDNY-approved central station—will be installed in the entire PCE space; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17BSA148M, dated June 16, 2017 and

WHEREAS, on September 29, 2017, the New York City Landmarks Preservation Commission (“LPC”) issued a Certificate of No Effect approving interior alteration at the ground floor and cellar of the shopfront at the northeast corner of the building; and

WHEREAS, on December 6, 2017, LPC issued an Authorization to Proceed for the installation of storefront infill and signage at the subject site; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-36 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards

and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 *to permit*, in a C6-2 zoning district, the operation of a physical culture establishment on portions of the first floor and cellar of the subject building, contrary to ZR § 32-10; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked “Received August 30, 2017”-Fourteen (14) sheets; and *on further condition*:

THAT this grant shall be limited to a term of ten (10) years, expiring April 10, 2028;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum 3'-0" wide exit pathways shall be provided leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be installed in the entire PCE space and the PCE shall be fully sprinklered, as indicated on the Board-approved plans;

THAT sound attenuation shall be installed in the PCE, as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by April 10, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 10, 2018.

COMMUNITY BOARD #8M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and an extension of term of a variance, previously granted by the Board; and

WHEREAS, a public hearing was held on this application on April 17, 2018, after due notice by publication in *The City Record*, and then to decision on April 17, 2018; and

WHEREAS, Community Board 8, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the north side of East 62nd Street, between Madison Avenue and Park Avenue, in an R8B zoning district and the Upper East Side Historic District, in Manhattan; and

WHEREAS, the site has approximately 35 feet of frontage along East 62nd Street, 100 feet of depth, 3,515 square feet of lot area and is occupied by a five-story, with cellar, mixed-use commercial and community facility building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 23, 1946, when, under the subject calendar number, the Board granted a variance to permit the building to be occupied as a private estate office for a term of ten (10) years, expiring July 23, 1956, on condition that the building not be increased in height or area, that the front

of the building be reconstructed as proposed and constructed of face brick, stone trimmings and ornamental iron and the interior may be altered and rearranged as indicated, that upon the termination of the variance the building be used for a use conforming in a residential zoning district and the former use as a stable or garage not be restored, that any sign constructed on the building be restricted to a small bronze nameplate at the entrance doorway, complying as to size with the requirements for signs in residential zoning districts and that all work be completed within one (1) year, by July 23, 1947; and

WHEREAS, on September 24, 1946, under the subject calendar number, the Board amended the variance so that, in the event the owner desires to construct the first floor of the building for a depth of approximately 71 feet, such construction may be permitted; and

WHEREAS, on May 8, 1956, under the subject calendar number, the Board granted an extension of term of ten (10) years, expiring May 8, 1966, on condition that a new certificate of occupancy be obtained; and

WHEREAS, on September 13, 1966, under the subject calendar number, the Board granted an extension of term of five (5) years, expiring September 13, 1971, on condition that a certificate of occupancy be obtained; and

WHEREAS, on October 5, 1971, under the subject calendar number, the Board granted an extension of term of five (5) years, expiring September 13, 1976, on condition that a new certificate of occupancy be obtained; and

WHEREAS, on October 5, 1976, under the subject calendar number, the Board granted an extension of term of ten (10) years, expiring October 5, 1986, on condition that a new certificate of occupancy be obtained; and

WHEREAS, on December 16, 1986, under the subject calendar number, the Board granted an extension of term of ten (10) years, expiring October 5, 1996, on condition that a new certificate of occupancy be obtained; and

WHEREAS, on November 1, 1994, under the subject calendar number, the Board amended the variance to delete the condition that occupancy of the building be limited to the use as a private estate office and for no other purpose and to instead permit commercial occupancy (Use Group 6B only) and granted an extension of term of ten (10) years, expiring November 1, 2004, on condition that occupancy be limited to a single use, that the use be solely limited to Use Group 6B office use and that a new certificate of occupancy be obtained within one (1) year, by November 1, 1995; and

WHEREAS, on March 1, 2005, under the subject calendar number, the Board amended the variance to permit a complying addition to the building to be occupied by a conforming community-facility use and granted an extension of term of ten (10) years, expiring November 1, 2014, on condition that commercial floor area of the subject site be limited to 5,905 square feet (1.68 FAR), that there be no accessory business signage at the subject site and that the above conditions appear on the certificate of occupancy; and

WHEREAS, by letter dated August 28, 2006, under the subject calendar number, the Board approved minor

MINUTES

modifications to the Board-approved plans to add a non-structural, non-load-bearing roof to three existing walls in the rear yard to house community facility use, increasing floor area by 1,019 square feet in compliance with applicable zoning regulations, with no changes proposed to any commercial portions of the subject building; and

WHEREAS, by letter dated June 12, 2014, under the subject calendar number, the Board approved minor modifications to the Board-approved plans to permit the construction of a mezzanine within the existing community facility portion of the building, increasing community facility floor area by 191 square feet in compliance with applicable zoning regulations; and

WHEREAS, the term of the variance having expired, the applicant now seeks a waiver of the Board's Rules of Practice and Procedure to allow the late filing of this application and an extension of term; and

WHEREAS, based upon its review of the record, the Board has determined that the requested waiver of the Board's Rules of Practice and Procedure and extension of term are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated July 23, 1946, as amended through March 1, 2005, so that as amended this portion of the resolution shall read: "to *permit* an extension of term of ten (10) years, expiring November 1, 2024; *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received October 28, 2016"-Eleven (11) sheets; and *on further condition*:

THAT the term of this grant shall be for ten (10) years, expiring November 1, 2024;

THAT commercial floor area shall be limited to 5,905 square feet (1.68 FAR);

THAT there shall be no accessory business signage at the subject site;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by April 17, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted."

Adopted by the Board of Standards and Appeals, April 17, 2018.

789-45-BZ

APPLICANT – Vassalotti Associates Architects, LLP, for Woodside 56, LLC, owner; Leemilt's Petroleum, Inc., lessee.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated April 27, 2015, acting on New

Building Application No. 320958308, reads in pertinent part:

“Proposed development of Use Group 6 building is contrary to ZR Section 24-11 (floor area and lot coverage), . . . ZR Section 24-34 (front yard), and ZR 25-31 (parking spaces) and proposed Use Group 6 local retail and office uses are contrary to ZR Section 22-00”; and

WHEREAS, this is an application under ZR § 72-21 to permit, in an R4 zoning district, the development of a three-story mixed-use commercial and community-facility building that does not comply with zoning regulations for floor area, lot coverage, front yards, parking and use, contrary to ZR §§ 24-11, 24-34, 25-31 and 22-00; and

WHEREAS, a public hearing was held on this application on March 21, 2017, after due notice by publication in *The City Record*, with continued hearings on June 20, 2017, August 15, 2017, November 14, 2017 and February 27, 2017, and then to decision on April 17, 2018; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends disapproval of this application, citing concerns with neighborhood character, given the presence of single- and two-family residences in the area, the potential for parking issues and the friendliness of the owner to residents; and

WHEREAS, New York State Senator Martin J. Golden submitted testimony in opposition to this application, citing concerns with neighborhood character and parking; and

WHEREAS, New York State Assembly Member Helen E. Weinstein submitted testimony in opposition to this application, concurring with concerns regarding neighborhood character and parking; and

WHEREAS, New York State Assembly Member Steven H. Cymbrowitz submitted testimony in opposition to this application, citing concerns with higher-density development in relation to neighborhood character, parking capacity, inadequate site maintenance by the owner and environmental contamination at the subject site; and

WHEREAS, the subject site is located on Avenue Z, between East 22nd Street, Jerome Avenue and East 21st Street, in an R4 zoning district, in Brooklyn; and

WHEREAS, the subject site has approximately 200 feet of frontage along Avenue Z, 58 feet of frontage along East 21st Street, 203 feet of frontage along Jerome Avenue, 22 feet of frontage along East 22nd Street, 7,965 square feet of lot area and is occupied by a one-story commercial building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since December 9, 1958 when, under BSA Calendar Number 1423-39-BZ, the Board granted a variance to permit the site to be occupied by a gasoline service

MINUTES

station, lubritorium, car wash, minor auto repairs, office and sales and storage for a term of fifteen (15) years, expiring December 9, 1973; and

WHEREAS, subsequently, the Board amended and extended the variance at various times; and

WHEREAS, on February 22, 1995, under BSA Calendar Number 1423-39-BZ, the Board granted an extension of term of ten (10) years, expiring December 9, 2003, on condition that there be no parking of vehicles on the sidewalks, that the subject site remain graffiti-free and that a new certificate of occupancy be obtained within one (1) year, by February 22, 1996; and

WHEREAS, on July 12, 2011, under BSA Calendar Number 118-10-BZ, the Board reinstated and amended the variance to permit the change in use from gasoline service station to automotive repair station for a term of five (5) years, expiring July 12, 2016, on condition that fencing and landscaping be installed in conformance with the Board-approved plans, that no auto sales or auto painting take place on the subject site, that the site only be accessed from Avenue Z, that all lighting be directed downward and away from adjacent residences, that the site be maintained free of debris and graffiti, that all signage comply with C1 zoning district regulations, that the hours of operation be limited to Monday through Saturday, 8:00 a.m. to 7:00 p.m., and closed Sunday, and that the above conditions appear on the certificate of occupancy; and

WHEREAS, originally, the applicant proposed to develop a four-story mixed-used commercial and community-facility building with no parking spaces; and

WHEREAS, in response to community concerns and questions from the Board, the applicant reduced the massing of the proposed development by reducing the height, floor area and number of stories and by adding parking; and

WHEREAS, the applicant now proposes to develop a three-story mixed-use commercial and community-facility building with 21,234 square feet of floor area (2.67 FAR), lot coverage of 100 percent, street wall height of 34'-10", no front yards, six parking spaces and use for retail in Use Group 6 on the first floor, professional offices in Use Group 6 on the second floor and medical offices in Use Group 4 on the third floor; and

WHEREAS, the applicant represents that, at the subject site, 15,929 square feet of floor area (2.00 FAR) is permitted for community facility use under ZR § 24-11, lot coverage may not exceed 60 percent under ZR § 24-11, front yards must have minimum depths of 15 feet under ZR § 24-34, 60 parking spaces are required under ZR § 25-31 and use for retail and professional offices in Use Group 6 are not permitted under ZR § 22-00; and

WHEREAS, the applicant states that there are unique physical conditions—the size and irregular trapezoidal-shape of the lot with four street frontages and subsurface soil contamination created by historic commercial use of the site—that create practical difficulties or unnecessary hardship in developing the subject site as of right; and

WHEREAS, the applicant states that the trapezoidal

shape and street frontages are unique physical conditions, and, in support of this contention, the applicant studied neighboring properties, finding that there are five trapezoidal blocks created by diagonal intersections but that the subject site is the only such site with four street frontages; and

WHEREAS, in comparison to the site directly west of the subject site, the applicant states that said site is more than twice as large as the subject site and located in an R7A zoning district, where there are less strict yard requirements and a higher floor area ratio; and

WHEREAS, the applicant also illustrated that an as-of-right development would have a width of 24 feet, tapered to 12 feet, with extremely small floor plates; and

WHEREAS, the applicant states that the historic use of the subject site as an automotive service station has caused subsurface soil contamination with significant remediation costs and that the Phase I Environmental Site Assessment concludes that the potential for low levels of soil and groundwater contamination at the subject site may require proper characterization and disposal at the time of construction, that there is a potential need for a vapor mitigation system in future buildings at the subject site due to subsurface ground conditions, that there is a possible presence of soil contamination around the 55-gallon fuel oil underground storage tank, which was closed in place in 2001, that there is a possible presence of soil contamination around the two underground hydraulic lift units in the subject building and that there is a possible presence of asbestos-containing building materials or lead-based paints in the existing building at the subject site; and

WHEREAS, the Board finds that the above unique physical conditions create practical difficulties or unnecessary hardship in complying strictly with applicable zoning regulations that are not created by general circumstances in the neighborhood or district; and

WHEREAS, the applicant states that, because of the above unique physical conditions, as-of-right development of the subject site would not provide a reasonable return; and

WHEREAS, in support of this contention, the applicant supplied a financial feasibility study demonstrating that as-of-right development—consisting of a three-story community facility with seven open parking spaces—would result in a substantial loss on investment but that the proposed three-story mixed-use building with six enclosed parking spaces would yield a modest return; and

WHEREAS, the Board finds that, because of the above unique physical conditions, there is no reasonable possibility that development in strict conformity with applicable zoning regulations would bring a reasonable return; and

WHEREAS, the applicant states that the proposed development will not alter the essential character of the neighborhood because its bulk and use are consistent with surrounding neighborhood characteristics; and

WHEREAS, the applicant submitted a neighborhood-character study, including area maps indicating that, while

MINUTES

there are residential uses in the surrounding area, Avenue Z also serves as the neighborhood's main shopping area with commercial uses lining the street for several blocks from the subject site; and

WHEREAS, the applicant further represents that the proposed commercial uses of retail and professional offices are consistent with the vibrant mix of uses in the surrounding area, including retail stores such as a drug store, convenience store, laundromat, hair salon and restaurant, and notes that professional offices keep limited daytime hours of operation, do not create noise, fumes or emissions and would be adequately separated from residences by the open areas provided by the surrounding streets with an entrance along Avenue Z, directly across from retail uses rather than residences; and

WHEREAS, the applicant's study further finds that, within the surrounding area, there are buildings of similar and greater heights to the proposed development, including multiple residential buildings that rise more than 60 feet in height and a community facility with a height of approximately 50 feet, where the proposed development has a height of 34'-10", which complies with applicable zoning regulations, and that nine building had lot coverages at or above 75 percent; and

WHEREAS, the applicant also studied parking demand and concluded that the proposed development will result in a peak parking demand of 41 parking spaces, which can be accommodated by parking spaces provided at the subject site as well as the 354 on-street parking spaces within the surrounding area; and

WHEREAS, the applicant states that, in order to protect the surrounding area, there will be air monitoring during all soil disturbance activity to safeguard against fugitive dust and volatile organic contaminants and that these safeguards will be performed under a community air monitoring plan to be included in the Remedial Action Plan, should one be required based on the results of the Phase II Environmental Site Assessment; and

WHEREAS, the applicant also proposes to plant street trees around the entirety of the subject site as a buffer and visual amenity to the surrounding area; and

WHEREAS, the Board finds that the proposed variance will not alter the essential character of the neighborhood or district in which the subject site is located; will not substantially impair the appropriate use or development of adjacent property; and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that the above practical difficulties or unnecessary hardship do not constitute a self-created hardship; and

WHEREAS, the Board finds that the above practical difficulties or unnecessary hardship have not been created by the owner or by a predecessor in title; and

WHEREAS, the applicant states that the proposed variance is the minimum necessary to permit a productive use of the site, as reflected in the financial feasibility study; and

WHEREAS, specifically, the financial feasibility study examined multiple alternate development scenarios—including a three-story commercial office building with ground floor retail and no parking, a three-story office building with first-floor retail and six parking space and a three-story residential building with first-floor retail and six parking spaces—determining that none would result in a reasonable return on investment; and

WHEREAS, the Board finds that the proposed variance is the minimum necessary to afford relief within the intent and purposes of the Zoning Resolution; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 15BSA206K, received April 16, 2018; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design; Natural Resources; Hazardous Materials; Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction Impacts; and

WHEREAS, by correspondence dated August 10, 2017, the New York City Landmarks Preservation Commission represents that it has no objection to this application; and

WHEREAS, by letter dated November 14, 2017, the New York City Department of Environmental Protection ("DEP") states DEP finds the November 2017 RAP and CHASP for the proposed project acceptable; and

WHEREAS, DEP further states that it has no objection to this application on condition that, at completion of the project, a Remedial Closure Report certified by a professional engineer shall be submitted to DEP for review and approval and shall indicate that all remedial requirements have been properly implemented, including installation of vapor barrier and transportation-disposal manifests for removal and disposal of soil in accordance with New York State Department of Environmental Contamination regulations; and

WHEREAS, by correspondence dated March 2, 2018, the New York City Department of City Planning's Waterfront and Open Space Division states that it finds that the actions will not substantially hinder the achievement of any Waterfront Revitalization Program ("WRP") policy and hereby concurs that this action is consistent with the WRP policies; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact

MINUTES

on the environment; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR § 72-21 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR § 72-21 to *permit*, in an R4 zoning district, the development of a three-story mixed-use commercial and community-facility building that does not comply with zoning regulations for floor area, lot coverage, front yards, parking and use, contrary to ZR §§ 24-11, 24-34, 25-31 and 22-00; *on condition* that all work, operations and site conditions shall conform to drawings filed with this application marked “Received April 6, 2018”-Fourteen (14) sheets; and *on further condition*:

THAT the parameters of the building shall be as follows: a maximum floor area of 21,234 square feet (2.67 FAR), a maximum lot coverage of 100 percent, no front yards, six parking spaces, use for retail in Use Group 6 on the first floor and professional offices in Use Group 6 on the second floor, as illustrated on the Board-approved plans;

THAT the subject structure shall be provided with dry flood proofed construction to at or above Design Flood Elevation;

THAT temporary flood shields shall be provided for doors and windows with openings at or below Design Flood Elevation;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by April 17, 2022;

THAT the proposed work shall comply with all other applicable sections of codes, rules, regulations and laws;

THAT at completion of the project, a Remedial Closure Report certified by a professional engineer shall be submitted to the New York City Department of Environmental Protection for review and approval and shall indicate that all remedial requirements have been properly implemented, including installation of vapor barrier and transportation-disposal manifests for removal and disposal of soil in accordance with New York State Department of Environmental Contamination regulations;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other

relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 17, 2018.

APPLICANT – Sheldon Lobel, P.C., for 230 Boerum LLC, owner.

SUBJECT – Application April 15, 2016 – Variance (§72-21) to permit the construction of a residential building contrary to ZR §§42-00 & 42-10. M1-1 zoning district.

PREMISES AFFECTED – 230 Boerum Street, Block 3082, Lot 19, Borough of Brooklyn.

COMMUNITY BOARD #1BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated March 27, 2016, acting on Department of Buildings Application No. 321316795 reads in pertinent part:

ZR 42-00: The property is located in M1-1 zoning district, and therefore no residential occupancy and use is permitted; and

WHEREAS, this is an application under ZR § 72-21 to permit, on a site located in an M1-1 zoning district, the development of a four-story plus penthouse Use Group 2 multi-family residential building, contrary to ZR § 42-00; and

WHEREAS, a public hearing was held on this application on September 26, 2017, after due notice by publication in *The City Record*, with continued hearings on December 12, 2017, March 20, 2018, and April 17, 2018, and then to decision on April 17, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections on the site and surrounding neighborhood; and

WHEREAS, Community Board 1, Brooklyn, recommends disapproval of this application because of the size of the proposal, which the Community Board is concerned will set a precedent for larger developments in the area, and the lack of affordable units; and

WHEREAS, the subject site is located on the south of Boerum Street, between Bushwick Avenue and White Street, in an M1-1 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 25 feet of frontage along Boerum Street, a depth of 88 feet, 2,188 square feet of lot area and is currently vacant; and

WHEREAS, the applicant proposes to develop the site with a four-story plus penthouse Use Group 2 multi-family

MINUTES

residence with eight dwelling units, 4,811 square feet of floor area, a floor area ratio (“FAR”) of 2.2 and a building height of 40 feet; and

WHEREAS, pursuant to ZR § 42-00, residential use is not permitted within an M1-1 zoning district and, thus, the applicant seeks the subject relief; and

WHEREAS, the applicant states that, pursuant to ZR § 72-21(a), the small size, narrow width and vacancy of the site are unique physical conditions that create a practical difficulty and unnecessary hardship in developing the site in conformance with the underlying district regulations; and

WHEREAS, the applicant submitted a study of 46 lots located within 400 feet of the subject premises and an M1-1 zoning district demonstrating that five lots (11 percent) have 2,188 square feet of lot area or less, are vacant and are not held in common ownership with adjacent lots and 24 lots (52 percent) are developed with non-conforming residential uses; and

WHEREAS, at hearing, the Board noted that all five of these lots are located on the subject block of Boerum Street, east of Bushwick Place, and requested that the applicant expand the study area; and

WHEREAS, the applicant submitted a study of 80 lots located within 800 feet of the subject premises and an M1-1 zoning district showing that eight lots (10 percent) have 2,188 square feet of lot area or less, are vacant and are not held in common ownership with adjacent lots; and

WHEREAS, the applicant states that the small footprint of the subject site is inadequate for modern manufacturing use, which is further illustrated by the fact that the site has remained vacant since the demolition of residential buildings on the site more than 20 years ago; and

WHEREAS, accordingly, the Board finds that the small size, narrow width and vacancy of the site are unique physical conditions that create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, in satisfaction of ZR § 72-21(b), the applicant submits that there is no reasonable possibility that a conforming development at the subject site will bring a reasonable return and, in support of that contention, submitted a financial analysis for (1) a one-story as-of-right industrial building (the “AOR Development”) and (2) the subject proposal; and

WHEREAS, the financial analyses submitted with the application conclude that only the subject proposal will generate a reasonable return, approximately 1 percent, which the AOR Development will result in a loss of more than 73 percent of the projected development costs; and

WHEREAS, upon review of the applicant’s submissions, the Board finds that, in accordance with ZR § 72-21(b), that due to the site’s unique physical conditions, there is no reasonable possibility that a development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant submits that the subject proposal will not substantially impair the appropriate use or

development of adjacent properties and will not be detrimental to the public welfare in accordance with ZR § 72-21(c); specifically, the applicant avers that the subject portion of Boerum Street east of Bushwick Place is primarily characterized by non-conforming residential use—of the 35 lots on this portion of Boerum Street, 24 lots (69 percent) are developed, at least in part, with non-conforming residential uses, including each of the lots on either side of the subject lot, thus the development of the subject premise with a residential use would be compatible with the subject social block of Boerum Street; and

WHEREAS, the applicant originally proposed a building with a total height of 45 feet, but revised the proposal in response to comments by the Board and the Community Board to reduce the height of the building to 40 feet so as to be more consistent with the height of the residential buildings on the lots located immediately adjacent to and on either side of the subject premises; and

WHEREAS, in response to concerns from the Board regarding the use of EFIS or a synthetic stucco system, an unattractive and easily damaged material, on the exterior of the proposed building, the applicant submits that stucco will only be utilized at the back and sides of the subject building and the front will be comprised of a metal panel and glass system; and

WHEREAS, in addition, the applicant clarified that the front wall of the proposed building will be located no closer to the street line than the closest street wall of an existing adjacent building on an adjoining zoning lot so as to maintain a consistent street wall; and

WHEREAS, the Board finds that the subject proposal will not alter the essential character of the neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant represents and the Board finds that the hardship claimed as grounds for the variance was not created by the owner or a predecessor in title in accordance with ZR § 72-21(d); and

WHEREAS, the applicant submits that the subject proposal is the minimum variance necessary to afford relief because it is the only scenario that provides a reasonable return; and

WHEREAS, accordingly, the Board finds that the subject proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (“EAS”) CEQR No. 16BSA108K, dated April 16, 2018; and

WHEREAS, the EAS documents that the project, as currently proposed, would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban

MINUTES

Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, by letter dated March 29, 2018, the New York City Department of Environmental Protection (“DEP”) states that February 2018 Remedial Action Plan (“RAP”) and Construction Health and Safety Plan (“CHASP”) submitted by the applicant’s consultants are acceptable and requests that, at the completion of the project, a Professional Engineer certified Remedial Closure Report indicating all remedial requirements have been properly implemented (i.e., installation of vapor barrier; transportation/disposal manifests for removal and disposal of soil in accordance with NYSDEC regulations; and two feet of DEP approved certified clean fill/top soil capping requirement in any landscaped/grass covered areas not capped with concrete/asphalt, etc.) be submitted to DEP for review and approval; and

WHEREAS, by a separate letter dated April 2, 2018, DEP states that an assessment of facilities within a 400 foot radius of the subject site showed that nearby industrial uses would not exceed applicable impact thresholds and that the proposed project would not result in significant air quality impacts; and

WHEREAS, with respect to noise, DEP states that the proposed project does not require any noise attenuation beyond the typical window wall construction and that the proposed project would not result in a significant noise impact; and

WHEREAS, the New York City Landmarks Preservation Commission (“LPC”) reviewed the proposal and noted that, while the site is adjacent to an industrial complex located at 221 McKibbin Street on the New York State and National Registers, the subject site is of neither architectural nor archaeological significance; and

WHEREAS, in light of the subject site’s adjacency to a landmarked property, the Board conditions the subject grant on the compliance of all construction on the site with DOB’s Technical Policy and Procedure Notice (“TPPN”) 10/88 titled, in part, Procedures for the Avoidance of Damage to Historic Structures Resulting from Adjacent Construction; and

WHEREAS, the New York City Department of Parks reviewed the shadow analysis for the subject proposal and concluded that the analysis was satisfactory; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6

NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 to permit, on a site located in an M1-1 zoning district, the development of a four-story plus penthouse Use Group 2 multi-family residential building with eight dwelling units, contrary to ZR § 42-00; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received January 18, 2018” – fourteen (14) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum of 4,811 square feet of residential floor area (2.2 FAR) and a maximum of eight dwelling units;

THAT upon the completion of the project, a Professional Engineer certified Remedial Closure Report indicating all remedial requirements have been properly implemented (i.e., installation of vapor barrier; transportation/disposal manifests for removal and disposal of soil in accordance with NYSDEC regulations; and two feet of DEP approved certified clean fill/top soil capping requirement in any landscaped/grass covered areas not capped with concrete/asphalt, etc.) shall be submitted to DEP for review and approval;

THAT all construction on the site shall comply with DOB’s Technical Policy and Procedure Notice (“TPPN”) 10/88 titled, in part, Procedures for the Avoidance of Damage to Historic Structures Resulting from Adjacent Construction;

THAT substantial construction shall be completed pursuant to ZR § 72-21;

THAT a certificate of occupancy shall be obtained with four (4) years;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 17, 2018.

Abstain: Commissioner Scibetta.....1

THE RESOLUTION –

WHEREAS, the decision of the Bronx Borough Commissioner, dated June 27, 2016, acting on Department of Buildings (“DOB”) Application No. 220428320 reads in pertinent part:

1. [. . .]
2. Provide proof of compliance for maximum permitted height and setback. As per Z.R. 33-432, the maximum permitted street wall height in the C8-1 is 35 ft. for community facility buildings in commercial districts with a 20 ft. setback requirement. [. . .]
3. Provide proof of compliance for required parking. As per Z.R. 36-21, the requirements for a House of Worship in a C8-1 zoning district require 1 parking space per 15 persons. The proposed application requires 40 parking spaces and 0 parking spaces are being provided on the site; and

WHEREAS, this is an application under ZR § 72-21 to permit, on a site located in a C8-1 zoning district, the construction of a three story, plus cellar, Use Group 4 House of Worship contrary to applicable bulk regulations pertaining to front wall height and setback and parking set forth in ZR §§ 33-432 and 36-21; and

WHEREAS, this application is filed on behalf of the Muslim American Society of Upper New York, a non-profit religious organization (the “Muslim American Society” or “Applicant”) to enable the construction of a mosque; and

WHEREAS, a public hearing was held on this application on November 14, 2017, after due notice by publication in *The City Record*, with continued hearings on January 30, 2018, and March 6, 2018, and then to decision on April 17, 2018; and

WHEREAS, Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 11, Bronx,

recommends approval of this application; and

WHEREAS, the Board was also in receipt of approximately 23 letters in support of the proposal and five letters in opposition, citing concerns regarding parking; and

WHEREAS, the subject site is located on the east side of Amethyst Street, between Rhinelander Avenue and Sagamore Street, in a C8-1 zoning district, in the Bronx; and

WHEREAS, the site was formerly comprised of four contiguous tax lots (Former Tax Lots 11, 12, 13 and 14) that have been merged into a single lot (Lot 11) pursuant to an Application for Mergers and Apportionments filed with the New York City Department of Finance and approved as of March 6, 2014, although the New York City Tax Map has not yet been updated to reflect this merger; and

WHEREAS, the site has approximately 100 feet of frontage along Amethyst Street, a depth of 95 feet, 9,500 square feet of floor area and is occupied by two two-story plus basement structures on Former Tax Lots 11 and 14, while Former Tax Lots 12 and 13 are vacant; and

WHEREAS, the Applicant proposes to demolish the existing buildings and construct a three-story plus cellar building containing 22,756 square feet of floor area (2.39 FAR) that provides a 15 foot setback from the front wall and penetrates the sky exposure plane and provides zero parking spaces; and

WHEREAS, at the subject site, a setback of 20 feet at the front wall height of 35 feet or three stories, whichever is less, for a community facility and conformance to the sky exposure plane above that height are required pursuant to ZR § 33-432 and one parking space per 15 person-rated capacity of the facility’s largest room of assembly, in this case, 40 spaces, is required pursuant to ZR § 36-21; and

WHEREAS, accordingly, the Applicant seeks the subject relief; and

WHEREAS, the Muslim American Society submits that its existing mosque, located approximately three blocks away and to the southwest of the subject site at 702 Rhinelander Avenue (Block 4050, Lot 39), a two-story plus basement building having a capacity of approximately 110 persons including an office for the Imam, is inadequate in size to meet the needs of its existing congregation, which often overflows onto the sidewalks during Friday prayer services and Muslim holidays; and

WHEREAS, the Applicant states that the existing mosque hosts five daily prayers from dawn to approximately an hour and a half after sunset, prayer sessions on Friday afternoons attended by approximately 475 congregants on a regular basis and attracting up to 800 congregants on Muslim holidays, Quran and Arabic classes for children and adults, tutoring services for neighborhood children, Muslim and non-Muslim alike, and limited marriage counseling and ceremony services, but such programming is compromised by the limited space available at the existing location; and

WHEREAS, the mosque proposed herein will accommodate all of the congregants in a single Friday prayer session, provide much needed space for the other programming currently offered at the existing mosque,

MINUTES

enabling multiple programs to occur simultaneously, as well as provide designated community spaces, a library for Arabic and Islamic studies and recreation space for congregants, particularly children; and

WHEREAS, specifically, the proposed facility will be comprised of an open hall with a maximum occupancy of 350 persons for community gatherings, men's restroom, refrigerated storage (food is not proposed to be prepared on site, but food will be brought onto the site from nearby halal food vendors, necessitating this space for food waste) and seven classrooms for the after-school tutoring services and well as Quran and Arabic classes offered on weekday afternoons and weekends; a lobby and the main prayer area for male congregants with a maximum occupancy of 596 persons and office on the first floor; a secondary main prayer area for female congregants with a maximum occupancy of 356 persons, women's restrooms and four additional classrooms on the second floor; a recreation area with a maximum occupancy of 358 persons for youth activities, a conference room for community group meetings, men's and women's restrooms and room for storage on the third floor; and

WHEREAS, the Board acknowledges that the Muslim American Society, as a religious institution, is entitled to deference under the law of the State of New York as to zoning and its ability to rely upon programmatic needs to support the subject variance application; and

WHEREAS, specifically, as held in *Cornell University v. Bagnardi*, 68 NY2d 583 (1986), zoning boards must grant an educational or religious institution's application unless it can be shown to have an adverse effect on the health, safety or welfare of the community and general concerns about traffic and disruption are insufficient grounds for the denial of such applications; and

WHEREAS, based on the above, the Board finds that the Muslim American Society's programmatic needs create unnecessary hardship and practical difficulty in developing the premises in compliance with the applicable zoning regulations; and

WHEREAS, the Muslim American Society is a not-for-profit religious organization, the variance is needed to further its not-for-profit mission and, thus, the finding set forth in ZR § 72-21(b) need not be made in order to grant the variance requested in this application; and

WHEREAS, the Applicant submits that, pursuant to ZR § 72-21(c), the subject variance, if granted, will not substantially impair the appropriate use or development of adjacent properties and will not be detrimental to the public welfare; specifically, that though no activities will occur outside of the proposed building, the following sound attenuation measures will be incorporated into the construction of the proposed mosque so as to ameliorate any adverse noise effects on neighbors: thick exterior walls, airspace in interior partition walls to be filled with sound absorbing blankets, no windows on the side elevations, minimal use of windows (relying, instead on an air conditioning system), windows with noise reduction of at

least 25 dBA and solid, rather than hollow, exterior doors; and

WHEREAS, with regards to the request for a parking waiver, the Applicant has submitted transportation surveys showing that approximately 29 percent of congregants travel to the existing mosque by automobile, often carpooling with an average of 3 congregants in each car, 9 percent travel by subway or bus and the remaining 62 percent walk; the Applicant additionally submitted a traffic analysis concluding that, based on the surveyed modal splits and full occupancy of the main prayer room, the peak parking demand will be 58 parking spaces (29 percent of 596 persons divided by 3 persons, on average, per vehicle) and that there is an adequate number of available on-street parking spaces on surrounding streets during the peak period of Fridays between 12:00 p.m. and 2:00 p.m.; and

WHEREAS, in addition, more than twenty congregants attended the Board's January 30 hearing and indicated, by show of hands, that they walk to prayers at the existing mosque and the Board heard testimony from congregants that Islam considers those that travel to the mosque by foot to be rewarded more than those who travel to the mosque by automobile; and

WHEREAS, nevertheless, the Board conditions this approval on the Applicant utilizing a site manager to manage parking and drop offs at the site to ensure that the operation of the proposed mosque does not adversely impact the surrounding area; and

WHEREAS, with regards to the finish of the proposed building, the Board expressed concern that the sides and rear of the building were proposed to be unfinished concrete block, an unattractive material inappropriate for a stately religious building, and the Applicant revised the drawings to indicate that the façade will be made up of brick, brick veneer, split-faced block and stone veneer; and

WHEREAS, in light of the foregoing, the Board finds that the subject proposal will not alter the essential character of the neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Applicant represents and the Board finds that the hardship claimed as the grounds for this variance was not created by the owner or a predecessor in title in accordance with ZR § 72-21(d); and

WHEREAS, the Muslim American Society submits that the subject proposal is the minimum variance necessary to afford relief and, in support of that assertion, submitted plans for an as-of-right three-story plus cellar building containing 10,570 square feet of floor area (1.11 FAR) and 16 parking spaces and states that such development would be inadequate to accommodate its programmatic needs; among other things, the provision of accessory parking spaces on the lot significantly reduces the floorplate of the building and results in a main prayer room with a maximum capacity of only 215 persons, less than half of the 475 persons, on average, who attend Friday afternoon prayer sessions; and

MINUTES

WHEREAS, the Board finds that the subject proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (“EAS”) CEQR No. 17BSA005X, dated March 15, 2018; and

WHEREAS, the EAS documents that the project, as proposed, would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise, Public Health, Neighborhood Character; or Construction; and

WHEREAS, an “E” designation (E-473) has been placed on the site for hazardous materials and an environmental review by the New York City Office of Environmental Remediation (“OER”) must be satisfied prior to the issuance of building permits to facilitate construction of the proposed building; and

WHEREAS, by letter dated December 8, 2017, the New York City Department of Environmental Preservation states that the proposed project would not result in any significant adverse air quality or noise impacts; and

WHEREAS, the New York City Landmarks Preservation (“LPC”) conducted an environmental review of the subject site and reports that the site is neither architectural nor archaeological significant; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 to permit, on a site located in a C8-1 zoning district, the construction of a three story, plus cellar, Use Group 4 House of Worship contrary to applicable bulk regulations pertaining to front wall height and setback and parking set forth in ZR §§ 33-432 and 36-21, *on condition* that all work shall substantially conform to drawings filed with this application marked “Received March 30, 2018”—Fifteen (15) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a front setback of at least 15 feet above a 35

foot front wall, obstructions penetrating the sky exposure plane and at least zero parking spaces, as indicated on the BSA-approved plans;

THAT an E designation (E-473) is placed on the site to ensure proper hazardous materials remediation;

THAT the façade materials shall be brick, brick veneer, split faced block and stone veneer, as shown on the BSA-approved plans;

THAT no unfinished concrete block or EIFS shall be permitted on a visible façade of the building;

THAT a site manager shall be utilized to manage parking and drop offs at the site to deter double and triple parking and ensure that travel lanes remain unobstructed;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a certificate of occupancy shall be obtained within four (4) years;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 17, 2018.

APPLICANT – Walter T. Gorman, P.E.P.C., for Power Test Realty Company Limited Partnership, owner; Capitol Petroleum Group, lessee.

SUBJECT – Application January 25, 2017 – Re-Instatement (§11-411) previously approved variance which permitted the operation of an Automotive Service Station (UG 16B) (Mobile) with accessory uses which expired on March 19, 2004; Waiver of the Rules. R3A zoning district.

PREMISES AFFECTED – 1400 Bay Street aka 5 Fingerboard Road, Block 2864, Lot 57, Borough of Staten Island.

COMMUNITY BOARD #1SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated January 11, 2017, acting on Alteration Application No. 520229592, reads in pertinent part:

MINUTES

“The proposed Use Group (16B) for gasoline service station with accessory uses . . . is not permitted as of right as per (ZR 22-00)”;

WHEREAS, this is an application for a reinstatement of a variance, previously granted by the Board; and

WHEREAS, a public hearing was held on this application on August 8, 2017, after due notice by publication in *The City Record*, with continued hearings on October 17, 2017, and January 9, 2018, and then to decision on April 17, 2018; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 1, Staten Island, recommends approval of this application; and

WHEREAS, the subject site is located on the northwest corner of Bay Street and Fingerboard Road, in an R3A zoning district, on Staten Island; and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 6, 1959, when, under BSA Calendar Number 960-57-BZ, the Board granted a variance to permit the subject site to be occupied as a gasoline service station for a term of fifteen (15) years, expiring January 6, 1974, on condition that the accessory building be constructed 30 feet by 40 feet and set against the north lot line, that there be five pumps on one island and three on another, all of a low approved type, that gasoline storage tanks not exceed twelve 550-gallon approved tanks, that there may be three curb cuts to Fingerboard Road and one curb cut to Bay Street, all of the size and location shown on the Board-approved plans, that along the westerly lot line there be constructed a woven wire fence of the chain link type not less than 5’-6” in height, including a masonry base, that along the northerly lot line, where the rear wall of the accessory building does not occur, there be constructed a concrete retaining wall, that there may be a post standard for supporting a sign, which may be illuminated, constructed at the intersection of the building line of Bay Street and the future widening line of Fingerboard Road, that at such intersection there be constructed a block of concrete not less than twelve inches in height and extending for a distance of five feet along either building line, that the site where not occupied by accessory building and pumps be surfaced with concrete or asphaltic pavement, that signs be limited to the signs shown on the front elevations of the Board-approved plans, that the accessory building be of face brick on all four sides and without cellar, that all temporary signs or advertising devices be excluded, that there may be for a similar term minor repairing with hand tools only for adjustments maintained solely within the accessory building, that there may be parking of cars so parked as not to interfere with the servicing of the station, that such portable fire-fighting appliances be maintained as the Fire Commissioner requires and that a certificate of occupancy be obtained; and

WHEREAS, on January 6, 1959, under BSA Calendar Number 342-58-A, the Board granted an appeal under General City Law § 35 to permit the curb cuts and

driveways to be constructed within the bed of a mapped street on condition that such space as is included in the proposed street widening be paved and sidewalk and curbing construction and that upon acquisition of such space by the City for street widening recompense to the owner be in amount as determined by the court; and

WHEREAS, on October 6, 1959, under BSA Calendar Number 960-57-BZ, the Board amended the variance so that there may be two curb cuts on Fingerboard Road and two curb cuts on Bay Street, that the westerly curb cut on Fingerboard Road be located twenty feet from the westerly property line, that there may be one pump island on Fingerboard Road and one on Bay Street, that the building may be located 45 feet back of the Bay Street property line, that at the corner there may be constructed a post standard supporting a sign, which may be illuminated and extending not more than four feet beyond the building line, that this sign be relocated to the new building line after the widening of Fingerboard Road and that waste oil and fuel oil tanks may be relocated; and

WHEREAS, on October 6, 1959, under BSA Calendar Number 324-58-A, the Board amended the appeal to permit the rearrangement of curb cuts and sign; and

WHEREAS, on January 5, 1960, under BSA Calendar Number 960-57-BZ, the Board granted an extension of time to complete construction on condition that a certificate of occupancy be obtained; and

WHEREAS, on June 23, 1970, under BSA Calendar Number 960-57-BZ, the Board amended the variance to revise the Board-approved plans on condition that signs be limited to those permitted in a C1 zoning district and that a copy of the original resolution, as amended, and a certified copy of the drawings as approved by the Board be permanently posted in the office of this automotive service station; and

WHEREAS, on March 19, 1974, under BSA Calendar Number 960-57-BZ, the Board granted an extension of term of ten (10) years, expiring March 19, 1984, on condition that a new certificate of occupancy be obtained; and

WHEREAS, on July 3, 1984, under BSA Calendar Number 960-57-BZ, the Board granted an extension of term of ten (10) years, expiring March 19, 1994, on condition that there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic and that a new certificate of occupancy be obtained; and

WHEREAS, on August 8, 1995, under BSA Calendar Number 960-57-BZ, the Board amended the variance to permit the alteration of the existing sales office to create an attendant’s area and the construction of a new metal canopy over two new concrete pump islands and granted an extension of term of ten (10) years, expiring March 19, 2004, on condition that the site remain graffiti free, that there be no outdoor repair work at the site and that a new certificate of occupancy be obtained within one (1) year, by August 8, 1996; and

WHEREAS, the term of the variance having expired, the applicant now seeks a waiver of the Board’s Rules of

MINUTES

Practice and Procedure to permit the late filing of this application and a reinstatement of the variance; and

WHEREAS, the applicant has sufficiently demonstrated that the use of the gasoline service station has been continuous since the expiration of term, that substantial prejudice would result were this application denied and that the gasoline service station does not substantially impair the appropriate use and development of adjacent properties; and

WHEREAS, the applicant further submits that there are no changes or additions proposed for the gasoline service station, that continuation of the gasoline service station will not result in any on-site traffic congestion, that the gasoline service station has existed compatibly with the surrounding neighborhood for decades, that all lighting will be directed downward and away from residential uses, that there will be no parking of cars on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic and that all vehicle repairs take place entirely within the service building; and

WHEREAS, in response to questions from the Board, the applicant submitted evidence that fencing and landscaping have been installed, that dead cars, the boat, extraneous trash receptacles and extraneous banners have been removed, that the refuse area is fully enclosed and that lighting will not adversely affect residential uses in the vicinity; and

WHEREAS, based upon its review of the record, the Board has determined that the requested reinstatement is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated January 6, 1959, as amended through August 8, 1995, so that as amended this portion of the resolution shall read: “to *permit* a reinstatement of the variance for a term of ten (10) years, expiring April 17, 2028; *on condition* that all work and site conditions shall conform to drawings filed with this application marked “Received April 17, 2018”-Six (6) sheets; and *on further condition*:

THAT the term of this grant shall be for ten (10) years, expiring April 17, 2028;

THAT no banners or signs shall be permitted in excess of those shown on the Board-approved plans;

THAT there shall be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic;

THAT parking shall be limited to cars awaiting service;

THAT no dead storage of motor vehicles (Use Group 16) shall be permitted;

THAT fencing and landscaping shall be repaired and replaced as necessary to maintain the subject site in an aesthetically pleasing condition;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by April 17, 2019;

THAT all conditions from prior resolutions not

specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, April 17, 2018.

2017-100-BZ

CEQR #17-BSA-111M

APPLICANT – Friedman & Gotbaum LLP by Shelly S. Friedman, Esq., for Trustees of the Spence School, Inc., owner.

SUBJECT – Application April 4, 2017 – Special Permit (§73-19) to allow for a Use Group 3 school use (*The Spence School*) contrary to ZR §32-31 (Use Regulations); Variance (§72-21) to permit the development of the building contrary to ZR §33-292 (Proposed building extends 30 ft. into the required open area) and ZR §33-26 (Proposed building extends 20 ft. into the required rear yard. C8-4 zoning district.

PREMISES AFFECTED – 412 East 90th Street, Block 1569, Lot 35, Borough of Manhattan.

COMMUNITY BOARD #8M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated March 27, 2017, acting on Application No. 121191352 reads in pertinent part:

1. ZR 32-31, ZR 73-19: Use Group 3 is not permitted in a C8-4 district. BSA Special Permit required.
2. ZR 33-292: New building extends into required 30 ft open area contrary to Zoning Resolution. BSA Variance required.
3. ZR 33-26: New building extends into 20 ft rear yard contrary to Zoning Resolution. BSA Variance required.; and

WHEREAS, this is an application for a special permit, pursuant to ZR § 73-19, and a variance, pursuant to ZR § 72-21, to permit, on a zoning lot located in a C8-4 zoning district, the construction of a Use Group 3 school contrary to applicable use regulations set forth in ZR § 32-31 and

MINUTES

applicable open area and rear yard regulations set forth in ZR § 33-292 and 33-26; and

WHEREAS, this application is filed on behalf of the Trustees of the Spence School, Inc., a non-profit private educational institution for young women (“Spence” or the “Applicant”) to facilitate the construction of a new educational and athletic facility; and

WHEREAS, a public hearing was held on this application on November 21, 2017, after due notice by publication in *The City Record*, with continued hearings on March 6, 2018 and April 10, 2018, and then to decision on April 17, 2018; and

WHEREAS, Vice-Chair Chanda performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 8, Manhattan, recommends approval of this application; and

WHEREAS, New York City Council Member Benjamin J. Kallos recommends approval of this proposal with the understanding that Spence will provide access to the subject proposed school building to students from nearby P.S. 151 and P.S. 527 for their physical education curricula during school day hours at no cost to those schools; and

WHEREAS, the subject site is located on the south side of East 90th Street, between First Avenue and York Avenue, in a C8-4 zoning district, in Manhattan; and

WHEREAS, the site has approximately 149 feet of frontage along East 90th Street, a depth of 101 feet, 15,005 square feet of lot area and is occupied by a two-story parking garage that, the Applicant notes, is built to the rear lot line without a rear yard or an open area and is proposed to be demolished to facilitate the development proposed herein; and

WHEREAS, the rear lot line of the subject site is coincident with a zoning district boundary line that separates a C8-4 zoning district and an R8B zoning district; and

WHEREAS, the subject site is located within walking distance of Spence’s main school buildings, located at 22 East 91st Street and 17 East 90th Street, which house the school’s fifth through twelfth grades (the “Main Building”), and its lower school building, located at 56 East 93rd Street (the “Lower School”); and

WHEREAS, Spence proposes to construct a six-story building measuring 93 feet to the top of the mechanical bulkhead containing 53,974 square feet of zoning floor area, a floor area ratio of 3.60, built to the rear lot line to a height of 29 feet with a rear yard having a depth of 20 feet above that height; and

WHEREAS, at the subject site, schools without living or sleeping accommodations are permitted by special permit of the Board pursuant to ZR §§ 32-31 and 73-19, an open area at curb level at least 30 foot in depth is required pursuant to ZR § 33-292 and a rear yard of at least 20 feet is required pursuant to ZR § 33-26; and

WHEREAS, accordingly, the Applicant seeks the subject relief; and

WHEREAS, ZR § 73-19 provides as follows:

In C8 or M1 Districts, the Board of Standards and

Appeals may permit *schools* which have no *residential* accommodations except *accessory* accommodations for a caretaker, provided that the following findings are made:

- (a) that within the neighborhood to be served by the proposed *school* there is no practical possibility of obtaining a site of adequate size located in a district wherein it is permitted as of right, because appropriate sites in such districts are occupied by substantial improvements;
- (b) that such *school* is located not more than 400 feet from the boundary of a district wherein such *school* is permitted as-of-right;
- (c) that an adequate separation from noise, traffic and other adverse effects of the surrounding non-*Residential Districts* is achieved through the use of sound-attenuating exterior wall and window construction or by the provision of adequate open areas along *lot lines* of the *zoning lot*; and
- (d) that the movement of traffic through the *streets* on which the *school* is located can be controlled so as to protect children going to and from the *school*. The Board shall refer the application to the Department of Traffic for its report with respect to vehicular hazards to the safety of children within the block and in the immediate vicinity of the proposed site.

The Board may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is located in a zoning district in which a special permit pursuant to ZR § 73-19 is available and the Applicant represents that Spence meets the ZR § 12-10 definition of “school”; and

WHEREAS, with regards to § 73-19(a), Spence states that it has searched for sites of adequate size within a zoning district that would have permitted a Use Group 3 school use as-of-right within the bounds of Community Board 8 and the lower half of Community Board 11 since 2011 and ultimately identified three such sites, including the subject site, within Spence’s price range—one was subject to a zoning lot development agreement that would not have accommodated all of the school’s required programming and the other was purchased by another institution; and

WHEREAS, Spence submits that between losing one potential site to another purchaser and acquiring the subject site in 2011, they continued to monitor real estate listings for appropriate sites, but did not identify an alternative to the

MINUTES

subject site that would permit the proposed use as-of-right; and

WHEREAS, accordingly, the Board finds that, within the neighborhood to be served, there is no practical possibility of obtaining a site of adequate size located in a district wherein it is permitted as of right in satisfaction of ZR § 73-19(a); and

WHEREAS, the Board acknowledges that the rear lot line of the subject site is coincident with a zoning district boundary line separating a C8-4 zoning district and an R8B zoning district, in which a Use Group 3 school without living or sleeping accommodation is permitted as of right, and that the subject site has a depth of 101 feet, accordingly, the proposed building is located not more than 400 feet from the boundary of a district wherein it would be permitted as-of-right as required under ZR § 73-19(b); and

WHEREAS, as to ZR § 73-19(c), Spence asserts, and the Board finds, that the window and sound-attenuating exterior walls of the proposed building will be constructed so as to ensure adequate separation from noise, traffic and other adverse effects of the surrounding C8-4 zoning district and achieve an interior noise level of 45 dBA L10(1) or lower; and

WHEREAS, this application has been referred to the New York City Department of Transportation (“DOT”) Division of School Safety for review, as required in ZR § 73-19, and, by letter dated November 6, 2017, DOT states that it finds the proposed plans acceptable and requested that upon approval of the application and construction of the school, DOT be notified so that they can determine if traffic safety improvements or parking regulation changes are necessary; and

WHEREAS, in addition, Spence represents that the two intersections closest to the site—at East 90th Street and York Avenue to the east and East 90th Street and First Avenue to the west—are signalized crossings with crosswalks allowing for safe access to the site; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-19; and

WHEREAS, the applicant additionally seeks a variance, pursuant to ZR § 72-21, waiving open area and rear yard requirements set forth in ZR §§ 33-292 and 33-26; and

WHEREAS, the subject building is proposed in order to address deficiencies in Spence’s existing physical plant with regards to spaces for earth sciences and ecological studies, athletic and dance programs; specifically, the proposed building will house a gymnasium large enough to accommodate regulation-sized basketball, volleyball and badminton courts, nine squash courts (the minimum required for school team competitions), locker rooms, a new Eco-Lab including a greenhouse, planting terrace, classroom and teaching kitchen, a multipurpose space to serve as the home of the school’s dance department as well as provide an alternative venue for the school’s drama productions, readings, chamber music recitals, film screenings and lectures, and a student study center; and

WHEREAS, the building is proposed to include

mechanical space in the cellar, a gymnasium with spectator seating in retractable bleachers on the first floor; a viewing area, spectator seating in fixed bleachers and a training room on the second floor (approximately half of which is also open to the gymnasium below); four double-height squash courts, team rooms and a study center on the third floor; five double-height squash courts, double-height squash spectator seating and locker rooms on the fourth floor; a double-height multi-purpose space and restrooms on the fifth floor (much of which is also open to the fourth floor below); and a classroom, teaching kitchen, office, greenhouse and roof top garden on the sixth floor; and

WHEREAS, Spence submits that it relies on 34 off-site venues in four boroughs for its various athletic programs and that the long travel time to off-campus venues frustrates scheduling in an already highly scheduled academic day; Spence also represents that the proposed building will enable the school to reduce their demand for off-site venues by approximately 30 percent; and

WHEREAS, the proposed building will substantially augment the school’s existing on-campus athletic facilities, which are comprised of two non-regulation sized gymnasias (one each in the Main Building and the Lower School Building), a 300 square foot gymnasium in the Main Building utilized for the storage of athletic equipment, a 300 square foot yoga and cycling room in the Main Building, a 1,000 square foot storage room in the gymnasium in the Lower School Building equipped with physical education equipment, and improvised storage spaces; and

WHEREAS, in response to Board inquiry as to whether the gymnasium in the proposed facility is duplicative of the two existing gymnasias, Spence states that the existing gymnasias are utilized for physical education classes, which are mandated by state law for every grade level, their uses is incorporated into the daily school day curriculum, thus they must be located proximate to the primary academic program facilities; further, Spence states that the existing gymnasias lack the necessary height clearances and size for team competition; and

WHEREAS, additionally, Spence states, that both the Main Building and Lower School Building are located mid-block within an R8 zoning district, have been designated as individual landmarks by the New York City Landmarks Preservation Commission (“LPC”) and are located within the Expanded Carnegie Hill Historic District; thus, any alteration of the existing gymnasias to provide the regulation-sized facilities of the subject proposal would likely be in excess of the maximum applicable bulk regulations, require waivers of the Zoning Resolution and have a remote likelihood of LPC approval; and

WHEREAS, in response to Board inquiry as to why the Eco-Lab could not be accommodated elsewhere within Spence’s existing physical plant, Spence states, again, that its existing individually landmarked building would require significant and visible alterations in order to accommodate the elevator and stair bulkheads necessary to provide full access to the roof; and

MINUTES

WHEREAS, Spence submits that, in addition to addressing these spatial deficiencies, the proposed building and the regulation-sized courts accommodated therein will enable Spence to host “home” games and competitions like its peer schools; help Spence students qualify for athletics-based college recruitment and financial assistance, which rely on games played on regulation-sized courts; and enable Spence to offer summer camp programs to the greater community; Spence additionally reports that it intends to work with local public schools P.S. 151 and P.S. 527 (the “Public Schools”), which lack their own gymnasias, to provide those schools with access to the proposed gymnasium during specified times; and

WHEREAS, Spence submits that the requested waivers will facilitate floorplates large enough to enable the combination of several different athletic spaces having significant volumetric demands into a single building with efficient circulation; and

WHEREAS, the Board acknowledges that Spence, as an educational institution, is entitled to deference under the law of the State of New York as to zoning and its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, specifically, as held in *Cornell University v. Bagnardi*, 68 NY2d 583 (1986), a zoning board must grant an educational or religious institution’s application unless it can be shown to have an adverse effect on the health, safety or welfare of the community and general concerns about traffic and disruption of the residential character of the neighborhood are insufficient grounds for the denial of such applications; and

WHEREAS, based on the above, the Board finds that Spence’s programmatic needs create unnecessary hardship and practical difficulty in developing the premises in compliance with the applicable zoning regulations; and

WHEREAS, Spence is a non-profit educational institution and the variance is needed to further its non-profit mission and, thus, the finding set forth in ZR § 72-21(b) need not be made in order to grant the variance requested in this application; and

WHEREAS, Spence submits that, pursuant to ZR § 72-21(c), the subject variance, if granted, will not substantially impair the appropriate use or development of adjacent properties and will not be detrimental to the public welfare; specifically that the first two floors of the proposed building will replace an existing two-story parking garage that is currently built to the rear lot line to a height of between 22 and 25 feet above grade and provides neither a 30 foot open area above curb level at the zoning district boundary line nor a 20 foot rear yard, thus the proposed building, built to a height of 29 feet above grade, will substantially mimic existing conditions at the site with regards to incursions in the rear yard; and

WHEREAS, in addition, the immediate area, particularly the subject block of East 90th Street, is primarily residential in character—some residential buildings having commercial on their lower floors—with the

exception of a parking facility located immediately to the east of the site, a commercial building across East 90th Street from the subject site and industrial and commercial uses located mid-block on East 91st Street, thus the community facility use will be consistent with the existing character of the neighborhood; and

WHEREAS, the Applicant states that the proposed building will operate six days a week between approximately 6:00 a.m. and 9:30 p.m. and expects peak activity to occur from 3:00 p.m. to the early evening hours; Spence states that the school will provide shuttle bus service to the site from its other buildings for grades K-5, that its students, faculty and staff will generally travel to the subject site by foot, spectators are expected to travel to the site by foot or public transportation and that, of teams from other schools visiting to play games at the facility, 66 percent are expected to use public transportation to access and depart the site and 34 percent are expected to arrive and depart by foot; and

WHEREAS, during hearing, the Board expressed concerns regarding the potentially simultaneous use of the athletic, music, dance and classroom spaces in the proposed facility, including the Public Schools’ use of the gymnasium for physical education, will adversely affect vehicular and pedestrian traffic networks existing in the immediate area; and

WHEREAS, in response, Spence states that, even including the trips to the site from the Public Schools, there will be no significant adverse pedestrian impacts for the sidewalk analysis location during the midday peak hour of 1:00 p.m. to 2:00 p.m., the time during which the last possible public school group visiting the facility for physical education would be departing the facility by foot; and

WHEREAS, further, Spence states that simultaneous use of the various spaces in the proposed facility will be minimal: that the only uses of the facility during school day hours of 8:15 a.m. to 3:00 p.m. will be in the Eco-Lab and the Public Schools’ use of the gymnasium between the hours of 8:45 a.m. and 1:00 p.m.; that the Athletics Director will develop a schedule of home and away games to minimize scheduling any two sports programs to play home games at the proposed facility on the same afternoon and, on occasions when two home games are scheduled in the same afternoon, the games will be staged to prevent simultaneous arrivals and departure; and that the squash courts will never be used by other schools during the school day because sports are not scheduled during the day in order to not interfere with academic classes; and

WHEREAS, the Board was in receipt of four letters in opposition to the proposal and testimony from a representative of a nearby condominium located on East 90th Street, expressing concerns regarding the existing congested conditions on East 90th Street, the incompatibility of a school use with a commercial zoning district, noise associated with construction of the proposal, noise associated with the school on evenings and weekends once it is in operation, the height of the school and its likelihood to

MINUTES

decrease accessible daylight to certain properties; and

WHEREAS, by letter dated April 10, 2018, DOT states that, based on the Level 1 (Trip Generation) screening assessment performed by the Applicant's consultant following the CEQR Technical Manual guidelines and indicating that the subject proposal would generate fewer than 50 vehicle trip-ends during the weekday AM and PM peak hours because the majority of arrivals to the facility are expected by foot or school-provided shuttle bus, the agency agrees with the Board that a detailed traffic analysis is not necessary; and

WHEREAS, the Board notes that the subject use is permitted in a C8-4 zoning district pursuant to special permit upon satisfying certain findings and, those findings having been satisfactorily made in this case, the subject proposal is not, in fact, an incompatible use at the subject site in the subject zoning district; and

WHEREAS, with regards to concerns about noise due to construction of the subject proposal and the loss of light to nearby buildings, the Board notes that as-of-right construction at the site would also contribute to noise in the area and block certain buildings' access to sunlight and also that the height of the building is permitted as-of-right; with regards to concerns that, once in operation, the subject facility will have noise impacts, the Board notes that the Applicant has represented that the mechanical systems for the facility will meet all applicable noise regulations of the New York City Noise Code and the Buildings Code and, thus, not have the potential to result in a significant increase in noise levels at any nearby noise receptors, that the proposal itself will not introduce a new noise receptor and, therefore, the proposal would not have the potential to result in any significant adverse noise impacts; and

WHEREAS, in light of the foregoing, the Board finds that the subject proposal will not alter the essential character of the neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant represents, and the Board finds, that the hardship claimed as grounds for the variance was not created by the owner or a predecessor in title in accordance with ZR § 72-21(d); and

WHEREAS, Spence submits that the subject proposal is the minimum variance necessary to afford relief and, in support of that assertion, submitted plans for an as-of-right eight-story building with a total height of over 126 feet that can provide the multipurpose space, a regulation-sized gymnasium for basketball, volleyball and badminton and nine squash courts, but provides a gymnasium that is too narrow to accommodate two regulation-sized volleyball courts, as the proposed facility can, rendering it unsuitable for volleyball tournaments; does not provide adequate viewing areas or spectator seating for the squash courts or the gymnasium, respectively; prevents necessary program space adjacencies in the building, i.e., necessitates the relocation of team rooms from adjacent to the gymnasium on the first and second floors to the third floor, which will

promote the mixing of different event populations and pose operational, as well as scheduling complexities; splits the locations of the Eco-Lab classroom and the Eco-lab greenhouse and garden onto different floors; reduces the size of the exterior plant area adjacent to the Eco-Lab on the building roof by more than half; requires a greater amount of, yet less efficient, vertical circulation; and, at more than 30 feet taller than the proposed building, will have a greater impact on the light and air available to its immediate neighbors; and

WHEREAS, the Board finds that the subject proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement ("EAS") CEQR No. 17BSA111M, dated April 13, 2018; and

WHEREAS, the EAS documents that the project, as proposed, would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, LPC conducted an archaeological review of the subject site and determined that it was of no archaeological significance; and

WHEREAS, by communication dated September 21, 2017, the Waterfront and Open Space Division of the New York City Department of City Planning ("DCP") states that they completed review of the proposed project for consistency with the policies and intent of the New York City Waterfront Revitalization Program ("WRP") under WRP # 17-127 and finds that the action will not substantially hinder the achievement of any WRP policy and is, thereby, consistent with those policies; and

WHEREAS, by letter dated February 27, 2018, the New York City Department of Environmental Protection ("DEP") states that DEP finds the Revised November 2017 Remedial Action Plan ("RAP") submitted by the Applicant's consultant acceptable on condition that the RAP be revised to require that the clean fill used at the site (if required) be tested at the facility/source at a frequency of one (1) sample for every 250 (not 500) cubic yards; and

WHEREAS, DEP further requested that, at the completion of the project, a Professional Engineer-certified Remedial Closure Report—indicating that all remedial requirements have been properly implemented (i.e., installation of vapor barrier; proper transportation/disposal manifests and certificates from impacted soils removed and properly disposed of in accordance with all NYSDEC regulations; and two feet of DEP approved certified clean

MINUTES

fill/top soil capping requirement in any landscaped/grass covered areas not capped with concrete/asphalt; etc.)—be submitted to DEP for review and approval; and

WHEREAS, on March 2, 2018, the Applicant submitted a revised RAP indicating that “any new at grade landscaped portions of the Site would have a ‘soil cap’ consisting of two feet of imported clean fill, i.e., tested at the source facility . . . at a frequency of one composite sample per 250 cubic yards,” as requested by DEP; and

WHEREAS, by letter dated March 21, 2018, DEP’s Bureau of Environmental Planning and Analysis states that the subject proposal would not result in significant air quality impacts; and

WHEREAS, by letter dated April 10, 2018, DOT agrees with the Board that a detailed traffic analysis is not necessary; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-19 and 72-21, to permit, on a zoning lot located in a C8-4 zoning district, the construction of a Use Group 3 school building contrary to applicable use regulations set forth in ZR § 32-31 and applicable open area and rear yard regulations set forth in ZR § 33-292 and 33-26, *on condition* that all work shall substantially conform to drawings filed with this application marked “Received November 9, 2017”-Twenty (20) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a rear yard of at least 0 feet to a maximum height of 29 feet, an open area at the rear lot line, which is coincidental with a zoning district boundary line, of at least 0 feet to a maximum height of 29 feet, above such height a rear yard and open area at least 20 feet in depth will be provided, as illustrated on the Board-approved plans;

THAT Spence shall contact DOT School Safety Division upon construction of the school in order for DOT to determine if traffic safety improvements or parking regulation changes are necessary;

THAT at the completion of the project, a Professional Engineer-certified Remedial Closure Report—indicating that all remedial requirements have been properly implemented (i.e., installation of vapor barrier; proper transportation/disposal manifests and certificates from impacted soils removed and properly disposed of in accordance with all NYSDEC regulations; and two feet of DEP approved certified clean fill/top soil capping

requirement in any landscaped/grass covered areas not capped with concrete/asphalt; etc.)—shall be submitted to DEP for review and approval;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a certificate of occupancy shall be obtained within four (4) years;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 17, 2018.

2017-205-BZ

CEQR #17-BSA-139X

APPLICANT – Benjamin Stark, Esq., Slater & Beckerman, P.C., for United Services Housing Development Fund Corporation, owner.

SUBJECT – Application June 8, 2017 – Variance (§72-21) to permit the conversion of the former Sgt. Joseph E. Muller U.S. Army Reserve Center into a 90-bed Use Group 3A non-profit institution with sleeping accommodations contrary to ZR §42-10. M1-1 zoning district.

PREMISES AFFECTED – 555 Nereid Avenue, Block 5065, Lot 1, Borough of Bronx.

COMMUNITY BOARD #12BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decisions of the Department of Buildings (“DOB”), dated May 11, 2017, acting on Application No. 220211893 reads in pertinent part:

ZR 42-10: Proposed Community Facility use group 3A is prohibited in a M1-1 district does not conform to the use regulations of the Zoning Resolution and must be referred to BSA [. . .]; and

WHEREAS, this is an application under ZR § 72-21 to permit, on a site located in an M1-1 zoning district, the conversion of an existing building into a Use Group (“UG”) 3A non-profit institution with sleeping accommodations, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this

MINUTES

application on January 23, 2018, after due notice by publication in *The City Record*, with continued hearings on February 27, 2018, and April 10, 2018, and then to decision on April 17, 2018; and

WHEREAS, Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 12, the Bronx, recommends approval of this application; and

WHEREAS, New York City Council Member Andrew Cohen submitted a letter in support of the application; and

WHEREAS, the Board was also in receipt of three form objections in opposition to the proposal, citing a decline in safety and cleanliness of the area due to residents of an existing homeless shelter on Bronx Boulevard and a preference that the subject site be developed as a community center for neighborhood services or affordable housing; and

WHEREAS, the subject site is located on the northeastern corner of Nereid Avenue and Bullard Avenue, in an M1-1 zoning district, in the Bronx; and

WHEREAS, the site has approximately 96 feet of frontage along Nereid Avenue, 264 feet of frontage along Bullard Avenue, a mapped but unimproved street, 24,755 square feet of lot area and is occupied by a four-story building previously owned and operated by the United States government as the Sgt. Joseph E. Muller United States Army Reserve Center (the "Muller Building"); and

WHEREAS, this application is filed on behalf of United Services Housing Development Fund Corporation, a wholly owned subsidiary of The Doe Fund, a non-profit organization that provides transitional work programs, educational and vocational training, individual counseling and supportive housing services to individuals with histories of homelessness, incarceration and substance abuse (the "Applicant" or "Doe Fund"); and

WHEREAS, the Applicant proposes to convert the Muller Building into a UG 3A non-profit institution with sleeping accommodations to provide permanent supportive housing for formerly homeless adults and provide an off-street parking area accessory to this site at 4449 Bronx Boulevard (Block 5065, Lot 53, the "Muller Parking Site," together with the subject site, the "Muller Sites"); and

WHEREAS, at the subject site, such use is not permitted pursuant to ZR § 42-10; and

WHEREAS, accordingly, the Applicant seeks the subject relief; and

WHEREAS, the Applicant filed a separate application, under BSA Cal. No. 2017-206-BZ, for a variance to permit the development of 4449 Bronx Boulevard with off-street parking accessory to the herein proposed development, contrary to ZR § 42-10; and

WHEREAS, the two cases were heard together, but separate resolutions have been issued for each under their respective calendar numbers; and

WHEREAS, the Doe Fund states that a series of legal limitations on the use of the Muller Sites constitute a unique

physical condition sufficient to satisfy ZR § 72-21(a) and additionally asserts that practical difficulties and unnecessary hardship have resulted from their reliance, in good faith, on the City of New York (the "City") committing financial support to the Doe Fund for a conversion of the Muller Sites to as-of-right UG 5 transient accommodations on the subject site with accessory off-street parking on the Muller Parking Site and the City's subsequent reversal on that commitment; and

WHEREAS, the Doe Fund entered into a legally binding agreement with the City and the New York City Department of Homeless Services ("DHS"), effective February 16, 2012, for the redevelopment of the Muller Sites under the Defense Base Closure and Realignment Act of 1990 and the Base Closure Community Redevelopment and Homeless Assistance Act of 1994 (the "LBA"); and

WHEREAS, the Doe Fund also entered into an operating agreement with DHS, dated February 16, 2012 (the "DHS Contract"), to redevelop the Muller Sites with a transitional residence for at least 200 homeless adults and operate and maintain the transitional residence by providing, among other things, transitional housing and support services including assessment and orientation, transitional housing, education and independent living skills preparation, permanency services, substance abuse treatment, financial management, personal responsibility, health care and recreation ("Homeless Services"); and

WHEREAS, the LBA required, among other things, that the City request that the Department of the Army, one of three military departments within the United States Department of Defense, convey the Muller Sites to the Doe Fund by quitclaim deed at no cost to the Doe Fund; that the Doe Fund deliver Homeless Services in accordance with the DHS Contract; that the Doe Fund not change the scope of the services provided at the site without the express written consent of the City, which would not be unreasonably withheld or delayed; and that the Doe Fund execute and cause to be recorded a restrictive covenant against the subject site in favor of the City restricting its future use or disposition to "a facility to be used to provide services for homeless adults or such other Homeless Assistance (defined below) use as reasonably determined by the City for a period of thirty (30) years from the date of execution of the Deed"; and

1 In a later section, the LBA defines "Homeless Assistance" as "any eligible activity, program or service that has been delineated or defined by the following laws and regulations: 24 C.F.R. §§ 576.21, 583.100, 582.100, 582.325 (Emergency Shelter Grants, Supportive Housing and Shelter Plus Care Programs); Section IV.A. of the Notice of Allocations, Application Procedures, and Requirements for the Homelessness Prevention and Rapid Re-Housing Program Grantees under the American Recovery and Reinvestment Act of 2009, or any other federal, state or local law program designed to prevent homelessness or transition those who are homeless into permanent housing."

MINUTES

WHEREAS, the Muller Sites were transferred to the Applicant from the federal government, acting by and through the United States Army Corps of Engineers, by quitclaim deed, executed September 18, 2013; and

WHEREAS, on September 20, 2013, in consideration of the funds to be provided by the City pursuant to the DHS Contract, the Doe Fund executed a Declaration of Restrictive Covenant on the subject site in favor of the City restricting the use and maintenance of the property “as a facility to be used to provide services for homeless adults, or such other Homeless Assistance use” for thirty (30) years (the “Covenant”); and

WHEREAS, the Covenant was subsequently recorded against the subject property, as required by the LBA, on December 29, 2014; and

WHEREAS, DOB approved Job No. 220211893 “for the conversion of an existing building to a mixed use transient hotel” at the subject site on December 5, 2014, and issued Alteration Type I Permit No. 220211893-01-AL on March 19, 2015; and

WHEREAS, the Doe Fund states that they utilized public funding provided pursuant to the DHS Contract for the renovation of the Muller Building to a UG 5 transient occupancy use, a use permitted as-of-right at the subject site, and that construction was commenced shortly after the issuance of DOB permits; and

WHEREAS, in or around February 2016, the Applicant states that the City revoked public funding for the conversion, by which point more than \$9 million, approximately 63 percent of the total anticipated construction costs, had been expended at the Muller Sites; and

WHEREAS, by notice dated November 4, 2016, the New York City Department of Social Services (“DSS”) informed the Doe Fund of the City’s election to terminate the DHS Contract; a subsequent letter from DSS, dated May 25, 2017, explained that funding was terminated “because the City of New York is no longer providing funding for The Doe Fund’s operation of a *transitional* shelter (Use Group 5 transient occupancy use)” (emphasis added) and stated that the City, instead, intended “to provide funding for the construction and operation of supportive housing, once Doe submits technically viable proposals for such funding”; and

WHEREAS, the supportive, non-transient housing use referenced in the 2017 letter from DSS, for which it was stated the City alternatively intended to provide funding, and accessory uses thereto have never been permitted as-of-right at the Muller Sites, which, since December 5, 1961, have been located within an M1-1 zoning district; and

WHEREAS, the Doe Fund submits that the organization primarily relies on public funding sources for its housing programs and that it cannot complete the conversion of the Muller Sites or maintain future operations because the City has changed its policy with regards to providing funding for an as-of-right conversion to transient occupancy; further, the Doe Fund states that it cannot fulfill its legal obligations under the Covenant, which was entered

into, in part, on reliance on the City’s promise to provide the necessary funding and requires the Doe Fund to provide Homeless Services including housing, without seeking the relief sought herein and obtaining a zoning waiver to permit UG 3A use at the subject site; and

WHEREAS, the Doe Fund represents that since the termination of the DHS Contract, it has sought capital funding for the subject proposal, including from the New York City Department of Housing Preservation and Development (“HPD”), and was issued an emergency loan from the Fund for the City of New York, sponsored by HPD, to support the Doe Fund’s operating expenses and fund pre-development activities associated with the development of the Muller Sites; and

WHEREAS, by letter dated February 13, 2018, HPD states that it received a proposal from the Applicant requesting funds for the subject development and that it is the intention of HPD to provide development financing subject to availability for this project if it meets certain guidelines and requirements; and

WHEREAS, the Board notes that New York State courts have recognized that property owners may invoke the principle of good faith reliance in the context of a variance application when they have made expenditures towards construction performed pursuant to, for instance, a building permit that is later revoked due to a non-compliance that existed at the time the permit was issued, and such reliance resulted in a unique hardship, thereby serving as a substitute for the uniqueness finding set forth in ZR § 72-21(a); and

WHEREAS, in *Jayne Estates, Inc. v. Raynor*, 22 N.Y.2d 417 (1968), the Court of Appeals determined that the expenditures made by a property owner in reliance on permits deemed to be invalid were suitably considered in an application for a variance, particularly with regards to the (a) finding, in which an applicant must allege “unnecessary hardship,” because (1) the property owner acted in good faith and (2) there was no reasonable basis upon which the property owner could have been charged with constructive notice of the permit’s invalidity; and

WHEREAS, in *Pantelidis v. Board of Standards and Appeals*, 10 N.Y.3d 846 (2008), the Court of Appeals, in a limited opinion, held that it was appropriate for the New York State Supreme Court to have conducted a good faith reliance hearing, rather than remand the case to the Board, to determine whether the property owner could claim reliance in the context of an Article 78 proceeding to overturn the Board’s denial of a variance application; the Court established that the Board should conduct such a hearing and that good faith reliance is relevant to the variance analysis; and

WHEREAS, in *Woods v. Srinivasan*, 108 A.D.3d 412 (1st Dep’t 2013) *lv to appeal denied*, 22 N.Y.3d 859 (2014), the Appellate Division found that, where the issue was whether construction documents and plans complied with the applicable side lot line requirements, DOB, rather than the property owner, was in the best position to avoid the erroneous issuance of the permit; accordingly, the Appellate

MINUTES

Division found that the owner had relied in good faith on DOB's permit issuance and remanded the matter to the Board to consider whether petitioner satisfied the remaining elements required for a variance; and

WHEREAS, the Board notes that the body of case law that addresses good faith reliance and a property owner's ability to establish detrimental reliance that can be introduced in a variance application is limited to those instances where there is a unique history of approvals from high-level municipal officials—the Village Board of Trustees in *Jayne Estates* and a DOB Borough Commissioner in *Pantelidis*—on the precise matter at issue; and

WHEREAS, accordingly, the Board identifies the findings for good faith reliance under the common law as: (1) that approvals were obtained and later revoked based on a circumstance that existed when the approvals were first granted; (2) that the approval process included an inquiry into the issue that would subsequently be the basis for the reversal of the approval; (3) that the owner could not have anticipated the reversal of the approval in light of municipal assurances to the contrary; and (4) that construction was performed and expenditures were made subsequent to the issuance of the approvals; and

WHEREAS, in this case, (1) Doe Fund entered into agreements with the City, pursuant to which the Covenant was recorded against the subject site restricting its use to Homeless Services for thirty (30) years, and the City not only subsequently terminated the funding to be provided under those agreements, rendering the Doe Fund unable to comply with the Covenant with an as-of-right plan to redevelop the Muller Sites for transient occupancy with off-street parking accessory thereto, but also agreed to provide funding for a redevelopment that could not be accomplished as-of-right and would require a variance; (2) the LBA, to which the City was a party, made explicit reference to the DHS Contract, which made the Doe Fund responsible for “renovating the [Muller Building] into a *transitional residence*” (emphasis added), “maintaining the *transitional residence*” (emphasis added) and “providing *transitional housing and support services*” (emphasis added), thus, the City was on notice that the Muller Sites were to be redeveloped as a UG 5 transient occupancy with accessory off-street parking use; (3) the Doe Fund, having recorded the Covenant, obtained DOB permits and commenced construction, could not have anticipated the City terminating the DHS Contract and its obligations to provide funding, on which the Doe Fund so heavily relied; and (4) more than \$9 million was expended on converting the Muller Sites subsequent to the execution of the LBA and DHS Contract and the Doe Fund's recordation of the Covenant; and

WHEREAS, the Doe Fund represents that the City's reversal with regards to providing funding for redevelopment of the Muller Sites for transient occupancy necessitates a near complete demolition of the construction heretofore completed because the proposed use requires entirely new layouts; specifically, whereas the UG 5

conversion was comprised of common sleeping rooms, bathrooms and lounge areas on the second and third floors and offices, meeting rooms, a lecture hall and a common dining area with a commercial kitchen on the first floor and in the basement, the subject proposal for UG 3A use necessitates construction of individual studio apartments, each with their own kitchens and bathrooms, on all four floors of the Muller Building with a multipurpose room and counseling offices on the first floor, and the only completed room that can be retained is a lecture hall constructed in the basement; and

WHEREAS, in response to Board inquiry as to whether housing is a necessary component of the redevelopment of the Muller Sites, the Doe Fund asserts that redevelopment of the Muller Building without a housing component is not viable because there is neither public nor political support, and therefore no public funding available, for such a facility; and

WHEREAS, in response to Board inquiry as to whether the proposed UG 3A and accessory off-street parking use of the Muller Sites is permitted pursuant to the Covenant and LBA, New York City Law Department submitted a letter, dated February 16, 2018, stating that both the LBA and the Covenant permit the property “to be used to provide supportive housing as currently contemplated by HPD and Doe Fund”; and

WHEREAS, in granting the subject relief, the Board makes no determination as to whether the UG 3A facility proposed herein satisfies the restrictions on the subject site set forth in the LBA and/or Covenant; and

WHEREAS, accordingly, the Board finds that the applicant has made all of the findings required to establish their good faith reliance on the execution of the LBA and DHS Contract—specifically, their recording of the Covenant in satisfaction of requirements set forth in the LBA and over \$9 million in construction costs—in satisfaction of ZR § 72-21(a); and

WHEREAS, the Doe Fund is a non-profit institution and the variance is needed to further its non-profit mission and thus, the finding set forth in ZR § 72-21(b) need not be made in order to grant the variance requested in this application; and

WHEREAS, the Doe Fund submits that, pursuant to ZR § 72-21(c), the subject variance, if granted, will not substantially impair the appropriate use or development of adjacent properties and will not be detrimental to the public welfare; specifically that the immediate area is dominated by three large institutional developments—a facility associated with Montefiore Medical Center located immediately east of the subject site on Nereid Avenue, a center for the New York City Department of Homeless Services located across Nereid Avenue from the subject site and the subject property, which has historically been used as an Army Reserve Center—and, therefore, similar to the proposed use and the footprint and envelope of the existing building will remain; and

WHEREAS, further east of the site and across Bronx

MINUTES

Boulevard are a C8-1 zoning district, comprised of mixed-use residential and commercial, manufacturing and parking facilities, and an R5 zoning district, comprised of primarily residential uses; immediately to the west of the site, across the mapped but unbuilt portion of Bullard Avenue, are railroad tracks for freight and Metro North trains and the Bronx River; and

WHEREAS, by letter dated April 12, 2018, the New York City Department of Environmental Protection (“DEP”) concludes that, upon review of revised air quality analysis and noise analysis backup materials from the Applicants consultants, the subject proposal would not result in any significant adverse air quality or noise impacts; and

WHEREAS, the Board finds that the subject proposal will not alter the essential character of the neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Applicant represents that the Board finds that the hardship claimed as grounds for the variance was not created by the owner or a predecessor in title in accordance with ZR § 72-21(d); and

WHEREAS, the Doe Fund submits, and the Board finds, that the subject proposal is the minimum variance necessary to afford relief; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (“EAS”) CEQR No. 17BSA139X, dated April 16, 2018; and

WHEREAS, the EAS documents that the project, as proposed, would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, by communication dated January 18, 2018, the Waterfront and Open Space Division of the New York City Department of City Planning (“DCP”) states that they completed review of the project for consistency with the policies and intent of the New York City Waterfront Revitalization Program (“WRP”) under WRP # 17-184 and finds that the action will not substantially hinder the achievement of any WRP policy and is, thereby, consistent with those policies; and

WHEREAS, by letter dated March 28, 2018, as part of its hazardous materials impact review, DEP states that they find the March 2018 Work Plan and Health and Safety Plan (“HASP”) submitted by the Applicant’s consultants acceptable and requests that, upon completion of investigation activities, the Applicant submit a detailed Phase II report—including, at a minimum, an executive

summary, narrative of the field activities, laboratory data and conclusions, comparison of indoor and outdoor air analytical results to New York State Department of Health’s October 2006 Guidance for Evaluating Soil Vapor Intrusion in the State of New York, updated site plans depicting sample locations and remedial recommendations, if warranted—to DEP for review and approval; and

WHEREAS, the Applicant proposed to complete air quality testing once the building is fully enclosed and the HVAC systems are fully functional and submit the results to DEP prior to obtaining any certificate of occupancy, including a temporary CO; and

WHEREAS, by communication dated March 29, 2018, DEP states that it agrees with the proposal to conduct air quality testing once the building is fully enclosed and has no objection to such testing being a condition of this approval; and

WHEREAS, by letter April 12, 2018, DEP states that the proposed project would not result in any significant air quality and noise impacts as outlined in the air quality and noise analyses found in the EAS; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 to permit, on a site located in an M1-1 zoning district, the conversion of an existing building into a Use Group 3A non-profit institution with sleeping accommodations, contrary to ZR § 42-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received January 4, 2018”-Eight (8) sheets and “April 3, 2018”-One (1) sheet; and *on further condition*:

THAT air quality testing shall be conducted once the building is fully enclosed and the HVAC systems are fully functional according to the March 2018 Work Plan and HASP;

THAT the Phase II report be submitted to DEP for review and approval prior to obtaining any certificate of occupancy, including a temporary CO;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a certificate of occupancy shall be obtained within four (4) years;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved

MINUTES

only for the portions related to the specific relief granted; and
THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 17, 2018.

2017-206-BZ

CEQR #17-BSA-139X

APPLICANT – Benjamin Stark, Esq., Slater & Beckerman, P.C., for United Services Housing Development Fund Corporation, owner.

SUBJECT – Application June 8, 2017 – Variance (§72-21) to permit the development of a 23-space open parking area accessory to a proposed 90-bed Use Group 3A non-profit institution with sleeping accommodations contrary to ZR §42-10 filed under BSA Calendar Number 2017-205-BZ. M1-1 zoning district.

PREMISES AFFECTED – 4449 Bronx Boulevard, Block 5065, Lot 53, Borough of Bronx.

COMMUNITY BOARD #12BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5
Negative:0

THE RESOLUTION –

WHEREAS, the decisions of the Department of Buildings (“DOB”), dated June 5, 2017, acting on Application No. 220151671 reads in pertinent part:

ZR 42-10: Proposed off[-]street parking accessory for UG 3A non[-]profit with sleeping accommodations in a Manufacturing district M1-1, does not conform to the use regulations of ZR 42-10 of the Zoning Resolution and must be referred to the BSA; and

WHEREAS, this is an application under ZR § 72-21 to permit, on a site located in an M1-1 zoning district, the development of an open parking area accessory to a Use Group (“UG”) 3A non-profit institution with sleeping accommodations, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on January 23, 2018, after due notice by publication in *The City Record*, with continued hearings on February 27, 2018, and April 10, 2018, and then to decision on April 17, 2018; and

WHEREAS, Chair Perlmutter, Vice-Chair Chanda Commissioner Ottley-Brown and Commissioner Sheta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 12, the Bronx, recommends approval of this application; and

WHEREAS, New York City Council Member Andrew Cohen submitted a letter in support of the application; and

WHEREAS, the Board was also in receipt of three form objections in opposition to the proposal, citing a decline in safety and cleanliness of the area due to residents of an existing homeless shelter on Bronx Boulevard and a preference that the subject site be developed as a community center for neighborhood services or affordable housing; and

WHEREAS, the subject site is located on the west side of Bronx Boulevard, between Nereid Avenue and East 239th Street, in an M1-1 zoning district, in the Bronx; and

WHEREAS, the site has approximately 80 feet of frontage along Bronx Boulevard, a depth of 140 feet, 11,224 square feet of lot area and was previously used as a parking lot accessory to the Sgt. Joseph E. Muller United States Army Reserve Center (the “Muller Building”), located at 555 Nereid Avenue (Block 5065, Lot 1; the “Muller Building Site”; together with the subject site, the “Muller Sites”); and

WHEREAS, this application is filed on behalf of United Services Housing Development Fund Corporation, a wholly owned subsidiary of The Doe Fund, a non-profit organization that provides transitional work programs, educational and vocational training, individual counseling and supportive housing services to individuals with histories of homelessness, incarceration and substance abuse (the “Applicant” or “Doe Fund”); and

WHEREAS, the Applicant proposes to develop the subject site with an open parking area with 23 spaces accessory to a UG 3A non-profit institution with sleeping accommodations; and

WHEREAS, at the subject site, such use is not permitted pursuant to ZR § 42-10; and

WHEREAS, accordingly, the Applicant seeks the subject relief; and

WHEREAS, the Applicant filed a separate application, under BSA Cal. No. 2017-205-BZ, for a variance to permit the conversion of the Muller Building into a UG 3A non-profit institution with sleeping accommodations to provide permanent supportive housing for formerly homeless adults, to which the subject site will be accessory; and

WHEREAS, the two cases were heard together, but separate resolutions have been issued for each under their respective calendar numbers; and

WHEREAS, the Doe Fund states that a series of legal limitations on the use of the Muller Sites constitute a unique physical condition sufficient to satisfy ZR § 72-21(a) and additionally asserts that practical difficulties and unnecessary hardship have resulted from their reliance, in good faith, on the City of New York (the “City”) committing financial support to the Doe Fund for a conversion of the Muller Sites to as-of-right UG 5 transient accommodations (on the Muller Building Site) with accessory off-street parking located on the subject site and the City’s subsequent reversal on that commitment; and

WHEREAS, the Doe Fund entered into a legally binding agreement with the City and the New York City

MINUTES

Department of Homeless Services (“DHS”), effective February 16, 2012, for the redevelopment of the Muller Sites under the Defense Base Closure and Realignment Act of 1990 and the Base Closure Community Redevelopment and Homeless Assistance Act of 1994 (the “LBA”); and

WHEREAS, the Doe Fund also entered into an operating agreement with DHS, dated February 16, 2012 (the “DHS Contract”), to redevelop the Muller Sites with a transitional residence for at least 200 homeless adults and operate and maintain the transitional residence by providing, among other things, transitional housing and support services including assessment and orientation, transitional housing, education and independent living skills preparation, permanency services, substance abuse treatment, financial management, personal responsibility, health care and recreation (“Homeless Services”); and

WHEREAS, the LBA required, among other things, that the City request that the Department of the Army, one of three military departments within the United States Department of Defense, convey the Muller Sites to the Doe Fund by quitclaim deed at no cost to the Doe Fund; that the Doe Fund deliver Homeless Services in accordance with the DHS Contract; that the Doe Fund not change the scope of the services provided at the site without the express written consent of the City, which would not be unreasonably withheld or delayed; and that the Doe Fund execute and cause to be recorded a restrictive covenant against the Muller Building Site in favor of the City restricting its future use or disposition to “a facility to be used to provide services for homeless adults or such other Homeless Assistance (defined below)¹ use as reasonably determined by the City for a period of thirty (30) years from the date of execution of the Deed”; and

WHEREAS, the Muller Sites were transferred to the Applicant from the federal government, acting by and through the United States Army Corps of Engineers, by quitclaim deed, executed September 18, 2013; and

WHEREAS, on September 20, 2013, in consideration of the funds to be provided by the City pursuant to the DHS Contract, the Doe Fund executed a Declaration of Restrictive Covenant on the Muller Building Site in favor of the City restricting the use and maintenance of the property “as a facility to be used to provide services for homeless adults, or such other Homeless Assistance use” for thirty

¹ In a later section, the LBA defines “Homeless Assistance” as “any eligible activity, program or service that has been delineated or defined by the following laws and regulations: 24 C.F.R. §§ 576.21, 583.100, 582.100, 582.325 (Emergency Shelter Grants, Supportive Housing and Shelter Plus Care Programs); Section IV.A. of the Notice of Allocations, Application Procedures, and Requirements for the Homelessness Prevention and Rapid Re-Housing Program Grantees under the American Recovery and Reinvestment Act of 2009, or any other federal, state or local law program designed to prevent homelessness or transition those who are homeless into permanent housing.”

(30) years (the “Covenant”); and

WHEREAS, the Covenant was subsequently recorded against the Muller Building Site, as required by the LBA, on December 29, 2014; and

WHEREAS, DOB approved Job No. 220211893 “for the conversion of an existing building to a mixed use transient hotel” at the Muller Building Site on December 5, 2014, and issued Alteration Type I Permit No. 220211893-01-AL on March 19, 2015; and

WHEREAS, the Doe Fund states that they utilized public funding provided pursuant to the DHS Contract for the renovation of the Muller Building to a UG 5 transient occupancy use, a use permitted as-of-right at the Muller Building Site, and that construction was commenced shortly after the issuance of DOB permits; and

WHEREAS, in or around February 2016, the Applicant states that the City revoked public funding for the conversion, by which point more than \$9 million, approximately 63 percent of the total anticipated construction costs, had been expended at the Muller Sites; and

WHEREAS, by notice dated November 4, 2016, the New York City Department of Social Services (“DSS”) informed the Doe Fund of the City’s election to terminate the DHS Contract; a subsequent letter from DSS, dated May 25, 2017, explained that funding was terminated “because the City of New York is no longer providing funding for The Doe Fund’s operation of a *transitional* shelter (Use Group 5 transient occupancy use)” (emphasis added) and stated that the City, instead, intended “to provide funding for the construction and operation of supportive housing, once Doe submits technically viable proposals for such funding”; and

WHEREAS, the supportive, non-transient housing use referenced in the 2017 letter from DSS, for which it was stated the City alternatively intended to provide funding, and accessory uses thereto have never been permitted as-of-right at the Muller Sites, which, since December 5, 1961, have been located within an M1-1 zoning district; and

WHEREAS, the Doe Fund submits that the organization primarily relies on public funding sources for its housing programs and that it cannot complete the redevelopment of the Muller Sites or maintain future operations because the City has changed its policy with regards to providing funding for an as-of-right conversion to transient occupancy; further, the Doe Fund states that it cannot fulfill its legal obligations under the Covenant, which was entered into, in part, on reliance on the City’s promise to provide the necessary funding and requires the Doe Fund to provide Homeless Services without seeking the relief sought herein and obtaining a zoning waiver to permit off-street parking accessory to the UG 3A use at the subject site; and

WHEREAS, the Doe Fund represents that since the termination of the DHS Contract, it has sought capital funding for the subject proposal, including from the New York City Department of Housing Preservation and Development (“HPD”), and was issued an emergency loan

MINUTES

from the Fund for the City of New York, sponsored by HPD, to support the Doe Fund’s operating expenses and fund pre-development activities associated with the development of the Muller Sites; and

WHEREAS, by letter dated February 13, 2018, HPD states that it received a proposal from the Applicant requesting funds for the subject development and that it is the intention of HPD to provide development financing subject to availability for this project if it meets certain guidelines and requirements; and

WHEREAS, the Board notes that New York State courts have recognized that property owners may invoke the principle of good faith reliance in the context of a variance application when they have made expenditures towards construction performed pursuant to, for instance, a building permit that is later revoked due to a non-compliance that existed at the time the permit was issued, and such reliance resulted in a unique hardship, thereby serving as a substitute for the uniqueness finding set forth in ZR § 72-21(a); and

WHEREAS, in *Jayne Estates, Inc. v. Raynor*, 22 N.Y.2d 417 (1968), the Court of Appeals determined that the expenditures made by a property owner in reliance on permits deemed to be invalid were suitably considered in an application for a variance, particularly with regards to the (a) finding, in which an applicant must allege “unnecessary hardship,” because (1) the property owner acted in good faith and (2) there was no reasonable basis upon which the property owner could have been charged with constructive notice of the permit’s invalidity; and

WHEREAS, in *Pantelidis v. Board of Standards and Appeals*, 10 N.Y.3d 846 (2008), the Court of Appeals, in a limited opinion, held that it was appropriate for the New York State Supreme Court to have conducted a good faith reliance hearing, rather than remand the case to the Board, to determine whether the property owner could claim reliance in the context of an Article 78 proceeding to overturn the Board’s denial of a variance application; the Court established that the Board should conduct such a hearing and that good faith reliance is relevant to the variance analysis; and

WHEREAS, in *Woods v. Srinivasan*, 108 A.D.3d 412 (1st Dep’t 2013) *lv to appeal denied*, 22 N.Y.3d 859 (2014), the Appellate Division found that, where the issue was whether construction documents and plans complied with the applicable side lot line requirements, DOB, rather than the property owner, was in the best position to avoid the erroneous issuance of the permit; accordingly, the Appellate Division found that the owner had relied in good faith on DOB’s permit issuance and remanded the matter to the Board to consider whether petitioner satisfied the remaining elements required for a variance; and

WHEREAS, the Board notes that the body of case law that addresses good faith reliance and a property owner’s ability to establish detrimental reliance that can be introduced in a variance application is limited to those instances where there is a unique history of approvals from high-level municipal officials—the Village Board of

Trustees in *Jayne Estates* and a DOB Borough Commissioner in *Pantelidis*—on the precise matter at issue; and

WHEREAS, accordingly, the Board identifies the findings for good faith reliance under the common law as: (1) that approvals were obtained and later revoked based on a circumstance that existed when the approvals were first granted; (2) that the approval process included an inquiry into the issue that would subsequently be the basis for the reversal of the approval; (3) that the owner could not have anticipated the reversal of the approval in light of municipal assurances to the contrary; and (4) that construction was performed and expenditures were made subsequent to the issuance of the approvals; and

WHEREAS, in this case, (1) Doe Fund entered into agreements with the City, pursuant to which the Covenant was recorded against the Muller Building Site restricting its use to Homeless Services for thirty (30) years, and the City not only subsequently terminated the funding to be provided under those agreements, rendering the Doe Fund unable to comply with the Covenant with an as-of-right plan to redevelop the Muller Sites for transient occupancy with off-street parking accessory thereto, but also agreed to provide funding for a redevelopment that could not be accomplished as-of-right and would require a variance; (2) the LBA, to which the City was a party, made explicit reference to the DHS Contract, which made the Doe Fund responsible for “renovating the [Muller Building] into a *transitional* residence” (emphasis added) “maintaining the *transitional* residence” (emphasis added) and “providing *transitional* housing and support services” (emphasis added), thus, the City was on notice that the Muller Sites were to be redeveloped as a UG 5 transient occupancy with accessory off-street parking use; (3) the Doe Fund, having recorded the Covenant, obtained DOB permits and commenced construction, could not have anticipated the City terminating the DHS Contract and its obligations to provide funding, on which the Doe Fund so heavily relied; and (4) more than \$9 million was expended on converting the Muller Sites subsequent to the execution of the LBA and DHS Contract and the Doe Fund’s recordation of the Covenant; and

WHEREAS, the Doe Fund represents that the City’s reversal with regards to providing funding for redevelopment of the Muller Sites for transient occupancy necessitates a near complete demolition of the construction heretofore completed because the proposed UG 3A use requires entirely new layouts in the Muller Building; specifically, whereas the UG 5 conversion was comprised of common sleeping rooms, bathrooms and lounge areas on the second and third floors and offices, meeting rooms, a lecture hall and a common dining area with a commercial kitchen on the first floor and in the basement, the proposal for UG 3A use necessitates construction of individual studio apartments, each with their own kitchens and bathrooms, on all four floors of the Muller Building with a multipurpose room and counseling offices on the first floor, and the only completed room that can be retained is a lecture hall

MINUTES

constructed in the basement; and

WHEREAS, in response to Board inquiry as to whether housing is a necessary component of the redevelopment of the Muller Sites, the Doe Fund asserts that redevelopment of the Muller Building without a housing component is not viable because there is neither public nor political support, and therefore no public funding available, for such a facility; and

WHEREAS, in response to Board inquiry as to whether the proposed UG 3A and accessory off-street parking use of the Muller Sites is permitted pursuant to the Covenant and LBA, New York City Law Department submitted a letter, dated February 16, 2018, stating that both the LBA and the Covenant permit the property “to be used to provide supportive housing as currently contemplated HPD and Doe Fund”; and

WHEREAS, accordingly, the Board finds that the applicant has made all of the findings required to establish their good faith reliance on the execution of the LBA and DHS Contract—specifically, their recording of the Covenant in satisfaction of requirements set forth in the LBA and over \$9 million in construction costs—in satisfaction of ZR § 72-21(a); and

WHEREAS, the Doe Fund is a non-profit institution and the variance is needed to further its non-profit mission and thus, the finding set forth in ZR § 72-21(b) need not be made in order to grant the variance requested in this application; and

WHEREAS, the Doe Fund submits that, pursuant to ZR § 72-21(c), the subject variance, if granted, will not substantially impair the appropriate use or development of adjacent properties and will not be detrimental to the public welfare; specifically, that the proposed open parking provided at the site is consistent with its historic use as parking accessory to the Army Reserve Center and that the context and impacts of parking accessory to the proposed UG 3A use is identical to the context and impacts of parking accessory to a UG 5, or other as-of-right, use; and

WHEREAS, additionally, there are several parking lots located on the subject block of Bronx Boulevard, including one directly across the street from the subject site; and

WHEREAS, the Board finds that the subject proposal will not alter the essential character of the neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Applicant represents that the Board finds that the hardship claimed as grounds for the variance was not created by the owner or a predecessor in title in accordance with ZR § 72-21(d); and

WHEREAS, the Doe Fund submits, and the Board finds, that the subject proposal is the minimum variance necessary to afford relief; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the

Final Environmental Assessment Statement (“EAS”) CEQR No. 17BSA139X., dated April 16, 2018;; and

WHEREAS, the EAS documents that the project, as proposed, would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, by communication dated January 18, 2018, the Waterfront and Open Space Division of the New York City Department of City Planning (“DCP”) states that they completed review of the project for consistency with the policies and intent of the New York City Waterfront Revitalization Program (“WRP”) under WRP # 17-184 and finds that the action will not substantially hinder the achievement of any WRP policy and is, thereby, consistent with those policies; and

WHEREAS, by letter dated March 28, 2018, DEP states that they find the March 2018 Work Plan and Health and Safety Plan (“HASP”) submitted by the Applicant’s consultants acceptable and requests that, upon completion of investigation activities, the Applicant submit a detailed Phase II report—including, at a minimum, an executive summary, narrative of the field activities, laboratory data and conclusions, comparison of indoor and outdoor air analytical results to New York State Department of Health’s October 2006 Guidance for Evaluating Soil Vapor Intrusion in the State of New York, updated site plans depicting sample locations and remedial recommendations, if warranted—to DEP for review and approval; and

WHEREAS, the Applicant proposed to complete air quality testing once the building is fully enclosed and the HVAC systems are fully functional and submit the results to DEP prior to obtaining any certificate of occupancy, including a temporary CO; and

WHEREAS, by communication dated March 29, 2018, as part of its hazardous materials impact review, DEP states that it agrees with the proposal to conduct air quality testing once the building is fully enclosed and has no objection to such testing being a condition of this approval; and

WHEREAS, by letter dated April 12, 2018, the New York City Department of Environmental Protection (“DEP”) concludes that, upon review of revised air quality analysis and noise analysis backup materials from the Applicants consultants, the subject proposal would not result in any significant adverse air quality or noise impacts; and

WHEREAS, no other significant effects upon the environmental that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, by letter April 12, 2018, DEP states that the proposed project would not result in any significant air quality and noise impacts as outlined in the air quality and noise analyses found in the EAS; and

MINUTES

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 to permit, on a site located in an M1-1 zoning district, the development of an open parking facility accessory to a Use Group 3A non-profit institution with sleeping accommodations, contrary to ZR § 42-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received January 4, 2018”-Eight (8) sheets and “April 3, 2018”-One (1) sheet; and *on further condition*:

THAT air quality testing shall be conducted once the building is fully enclosed and the HVAC systems are fully functional according to the March 2018 Work Plan and HASP;

THAT the Phase II report be submitted to DEP for review and approval prior to obtaining any certificate of occupancy, including a temporary CO;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a certificate of occupancy shall be obtained within four (4) years;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 17, 2018.

CEQR #17-BSA-149X

APPLICANT – Sheldon Lobel, P.C., for Safeguard Chemical Corp., owner; Civic Builders, Inc., lessee.

SUBJECT – Application July 16, 2017 – Special Permit (§73-19) to permit a school (UG 3) (*Rosalyn Yalow Charter School*) within an existing two-story manufacturing building contrary to ZR §42-10. M1-2 zoning district.

PREMISES AFFECTED – 411 Wales Avenue, Block 2574, Lot 82, Borough of Bronx.

COMMUNITY BOARD #1BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated January 25, 2018, acting on Alteration Application No. 220595005, reads in pertinent part:

“The proposed Use Group 3 School is not permitted . . . , contrary to ZR 42-12”; and

WHEREAS, this is an application under ZR §§ 73-19 and 73-03 to permit, in an M1-2 zoning district, the operation of a school, contrary to ZR § 42-12; and

WHEREAS, this application has been filed in conjunction with Neighborhood Charter School: Bronx (the “School”); and

WHEREAS, a public hearing was held on this application on March 20, 2018, after due notice by publication in *The City Record*, and then to decision on April 17, 2018; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 1, Bronx, recommends approval of this application; and

WHEREAS, the subject site is located on the south side of East 144th Street, between Concord Avenue and Wales Avenue, in an M1-2 zoning district, in the Bronx; and

WHEREAS, the subject site has approximately 200 feet of frontage along East 144th Street, 63 feet of frontage along Concord Avenue, 100 feet of frontage along Wales Avenue, 32,498 square feet of lot area and is occupied by a two-story, with cellar, manufacturing building; and

WHEREAS, ZR § 73-19 provides:

In C8 or M1 Districts, the Board of Standards and Appeals may permit *schools* which have no *residential* accommodations except *accessory* accommodations for a caretaker, provided that the following findings are made:

- (a) that within the neighborhood to be served by the proposed *school* there is no practical possibility of obtaining a site of adequate size located in a district wherein it is permitted as of right, because appropriate sites in such districts are occupied by substantial improvements;
- (b) that such *school* is located not more than 400 feet from the boundary of a district wherein such *school* is permitted as-of-right;
- (c) that an adequate separation from noise, traffic and other adverse effects of the surrounding non-*Residential Districts* is achieved through the use of sound-attenuating exterior wall and window construction or by the provision of adequate open areas along *lot lines* of the *zoning lot*; and

MINUTES

- (d) that the movement of traffic through the *street* on which the *school* is located can be controlled so as to protect children going to and from the *school*. The Board shall refer the application to the Department of Traffic for its report with respect to vehicular hazards to the safety of children within the block and in the immediate vicinity of the proposed site.

The Board may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a preliminary matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, as to the threshold issue of whether the School qualifies as a school for purposes of ZR § 73-19, the applicant states that the School meets the ZR § 12-10 definition of “school” because it provides full-time day instruction and a course of study that meets the requirements of Sections 3204, 3205 and 3210 of the New York State Education Law; and

WHEREAS, further, the applicant submitted copies of the School’s application, the School’s New York State Board of Regents Authorization and the School’s Certificate of Existence; and

WHEREAS, with respect to ZR § 73-19(a), an applicant must demonstrate its inability to obtain a site for the development of a school within the neighborhood to be served, and with a size sufficient to meet the programmatic needs of the school, within a district where the school is permitted as of right; and

WHEREAS, the applicant states that, at full capacity, the School would serve 620 students at the elementary and middle school level with approximately 102 staff members; and

WHEREAS, the applicant submits that the School has conducted an exhaustive search for potential sites using the following criteria: availability for rent; affordability; providing an existing, stand-alone building of suitable size that can be renovated to provide adequate educational

facilities; and proximity to public transportation; and

WHEREAS, additionally, the applicant considered other properties as follows: 415 Concord Avenue (property too small), 500 East 132nd Street (school space above industrial warehouse), 441 Southern Boulevard (property too small) and 798 Southern Boulevard (not within neighborhood to be served); and

WHEREAS, the applicant maintains that the site search establishes that there is no practical possibility of obtaining a site of adequate size in a nearby zoning district where a school would be permitted as of right; and

WHEREAS, therefore, the Board finds that the requirements of ZR § 73-19(a) are met; and

WHEREAS, ZR § 73-19(b) requires an applicant to demonstrate that the proposed school is located no more than 400 feet from the boundary of a district in which such a school is permitted as of right; and

WHEREAS, the applicant states that the subject building is approximately one block from an R7-1 zoning district boundary line and that the subject site is within 400 feet of said R7-1 zoning district, and notes that school uses are permitted as of right in R7-1 zoning districts; and

WHEREAS, the applicant submitted a radius diagram which reflects that the subject site is adjacent to an R7-1 zoning district; and

WHEREAS, therefore, the Board finds that the requirements of ZR § 73-19(b) are met; and

WHEREAS, ZR § 73-19(c) requires an applicant to demonstrate how it will achieve adequate separation from noise, traffic and other adverse effects of the surrounding non-residential district; and

WHEREAS, the applicant submits that a composite window-wall sound attenuation level of 28 dBA will be required to mitigate noise sources and that the newly insulated exterior walls would provide an STC rating above 40 with double-paned windows that would meet the sound attenuation level of 28 dBA; and

WHEREAS, the Board finds that the conditions surrounding the site and the Proposed Building’s use will adequately separate the proposed school use from noise, traffic and other adverse effects of any of the uses within the surrounding M1-2 zoning district; thus, the Board finds that the requirements of ZR § 73-19(c) are met; and

WHEREAS, ZR § 73-19(d) requires an applicant to demonstrate how the movement of traffic through the street on which the school will be located can be controlled so as to protect children traveling to and from the school; and

WHEREAS, the applicant submits that the School would serve approximately 620 students, who would arrive primarily by school bus or by public transportation or walking with some dropped off by private automobile; and

WHEREAS, the applicant states that approximately nine school buses would carry a total of approximately 310 students and that, to avoid traffic congestion related to dropping off and picking up students, two “no standing” zones are proposed to ensure that movement of through traffic would not be obstructed and that students arriving and

MINUTES

department with caregivers by private vehicles would not cross the street mid-block; and

WHEREAS, the applicant states that the “no standing” zone along East 144th Street would be designated for school buses to provide elementary students direct and safe access to the School’s main entrance and that the Wales Avenue “no standing” zone would allow for private car drop offs and pickups and would replace two existing curb cuts; and

WHEREAS, the applicant further submitted an operational plan detailing a protocol for dropping off and pickup up students, whereby an administrator would be stationed in front of the main entrance during arrival to ensure children arrive and depart safely from the subject building, team leaders equipped with walkie-talkies would stand on Wales Avenue and East 144th Street to oversee the proposed “no standing” zones and escort students into the building and crossing guards would be located at adjacent intersections; and

WHEREAS, the operational plan clarifies that pedestrians would likely arrive from the north or west of the subject site along a designated safe pedestrian route, that the nearest subway station is approximately one block east of the subject site, that most arrivals by public bus would walk from the transit stops to the west; and

WHEREAS, the applicant states that, with the School’s operational plan, the School will provide two “no standing” zones, adequate ingress and egress, bus staging, staggered arrivals and departures and pedestrian safety measures, such as escorts to oversee arrivals and departures as well as crossing guards, to ensure that the School would have minimal transportation-related impacts; and

WHEREAS, the Board referred the application to the School Safety Engineering Office of the Department of Transportation (“DOT”); and

WHEREAS, by letter dated March 15, 2017, DOT states that the existing curb cuts along the School’s Wales Avenue frontage should be removed as they will no longer be necessary; and

WHEREAS, the Board finds that the abovementioned measures will control traffic so as to protect children going to and from the proposed school; and

WHEREAS, therefore, the Board finds that the requirements of ZR § 73-19(d) are met; and

WHEREAS, in response to the Board’s comments at hearing, the applicant clarified that no students would be arriving after 7:35 a.m.; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an

environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 17BSA149X, dated April 11, 2018; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction Impacts; and

WHEREAS, by letters dated May 25, 2017, and January 9, 2018, the New York City Landmarks Preservation Commission states that the project site is not a location of architectural or archaeological significance; and

WHEREAS, by letter dated March 6, 2018, the Department of Environmental Protection (“DEP”) states that based on the submitted backup materials and analysis, it was determined that the proposed project would not result in potential significant adverse noise impacts; and

WHEREAS, by letter dated April 13, 2018, DOT states that, though no safety or operational improvements were identified under Level 1 and Level 2 screening assessments for the projected pedestrian and vehicular trips, the applicant will perform a follow-up traffic and pedestrian monitoring plan within six (6) months of the School’s opening and within six (6) months of full occupancy to verify the travel demand assumptions used to project pedestrian and vehicular trips, assess pedestrian safety and circulation and recommend improvement measures, if warranted; that the applicant would submit for DOT’s review and approval a scope-of-work for the traffic monitoring plan including travel demand and mode choice surveys, pedestrian and traffic data collection and analysis and a signal warrant analysis, if warranted; that data collection would include 24-hour automatic traffic recorder counts, manual turning movement counts, vehicular classification counts, pedestrian counts including at uncontrolled and mid-block crossings, intersection geometry including the verification of field signal timing and field observations including queue lengths; that the applicant will conduct pedestrian and vehicular levels-of-service analyses and safety assessment and identify improvement measures, if warranted; that the applicant will be responsible for all costs associated with the monitoring plan as well as any subsequent measures requiring capital improvements including traffic signals and curb extensions; that the applicant will submit all of the required drawings as per AASHTO and DOT specifications and requirements for DOT review and approval; and that DOT will participate in the review process relating to all future modifications to geometric alignment, striping and signage during the preliminary and final design phases; and

WHEREAS, by letter dated March 21, 2018, DEP

MINUTES

concur with the March 12, 2018, memorandum's recommendation prepared on behalf of the applicant that an (E) designation for hazardous materials be placed on the zoning map pursuant to ZR § 11-15 for the subject site and states that the (E) designation shall ensure that testing and mitigation will be provided as necessary before any further development or soil disturbance; and

WHEREAS, further hazardous materials assessment should be coordinated through the Office of Environmental Remediation; and

WHEREAS, by letter dated April 13, 2018, DEP states that, with the proposed (E) designation language restricting operable windows at certain locations of the subject building, the project would not result in a potential significant air quality impact; and

WHEREAS, an (E) designation (No. 475) has been assigned to the subject site; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-19 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR §§ 73-19 and 73-03 to *permit*, in an M1-2 zoning district, the operation of a school, contrary to ZR § 42-12; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked "Received March 29, 2018"-Eleven (11) sheets; and *on further condition*:

THAT the second floor, until occupied by Neighborhood Charter School: Bronx, shall only be occupied by a middle school or high school;

THAT drop off times for school buses shall only be from 7:00 a.m. to 7:35 a.m. and pickup times for school buses shall only be from 3:50 p.m. to 4:15 p.m.;

THAT intersection mitigation measures shall be implemented as follows: at the intersection of Wales Avenue and Saint Mary's Street, there shall be a crossing guard to correspond with peak arrival and departure hours, there shall be, to the extent deemed appropriate by the Department of Transportation, two stop signs to control vehicles on Wales Avenue and there shall be an enhanced crosswalk painted on the northern leg of the intersections; at the intersection of Wales Avenue and East 144th Street, there shall be a crossing guard employed to correspond with peak arrival and departure hours; at the intersection of Concord Avenue and

East 144th Street, there shall be a crossing guard employed, there shall be, to the extent deemed appropriate by the Department of Transportation, two stop signs to control vehicles traveling on East 144th Street and an enhanced crosswalk on the eastern leg of the intersection;

THAT monitoring of level of service shall occur prior to occupancy of building and shall include other monitoring as required by the Department of Transportation as follows: the applicant shall perform a follow-up traffic and pedestrian monitoring plan within six (6) months of the School's opening and within six (6) months of full occupancy to verify the travel demand assumptions used to project pedestrian and vehicular trips, assess pedestrian safety and circulation and recommend improvement measures, if warranted; that the applicant shall submit for DOT's review and approval a scope-of-work for the traffic monitoring plan including travel demand and mode choice surveys, pedestrian and traffic data collection and analysis and a signal warrant analysis, if warranted; that data collection shall include 24-hour automatic traffic recorder counts, manual turning movement counts, vehicular classification counts, pedestrian counts including at uncontrolled and mid-block crossings, intersection geometry including the verification of field signal timing and field observations including queue lengths; that the applicant shall conduct pedestrian and vehicular levels-of-service analyses and safety assessment and identify improvement measures, if warranted; that the applicant shall be responsible for all costs associated with the monitoring plan as well as any subsequent measures requiring capital improvements including traffic signals and curb extensions; that the applicant shall submit all of the required drawings as per AASHTO and DOT specifications and requirements for DOT review and approval; and that DOT will participate in the review process relating to all future modifications to geometric alignment, striping and signage during the preliminary and final design phases;

THAT sub-slab, vapor-barrier and closed-window conditions shall be implemented as required by the Office of Environmental Remediation in accordance with (E) designation requirements;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by April 17, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, April

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated November 16, 2017, acting on New Building Application No. 320992155, reads in pertinent part:

“The proposed physical culture establishment [(‘PCE’)] is not permitted as-of-right . . . per ZR Section 32-10”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, in a C4-4A zoning district, the operation of a physical culture establishment on portions of the first, second and third floors of the subject building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on April 17, 2018, after due notice by publication in *The City Record*, and then to decision on April 17, 2018; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the northeast corner of Kings Highway and East 16th Street, in a C4-4A zoning district, in Brooklyn; and

WHEREAS, the subject site has approximately 179 feet of frontage along Kings Highway, 108 feet of frontage along East 16th Street, 17,880 square feet of lot area and is being developed with a new five-story commercial building;

and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by

MINUTES

ZR § 73-03; and

WHEREAS, the Board notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE will occupy 16,539 square feet of floor space as follows: 2,337 square feet of floor area on the first floor, including a reception area, mechanical massage chairs, spa, tanning and mechanical hydro massage, 1,613 square feet of floor area on the second floor, used as exercise areas, and 12,589 square feet of floor area on the third floor, including exercise areas with cardiovascular equipment and weight-lifting areas and locker rooms; and

WHEREAS, the PCE will operate as Planet Fitness, with the following hours of operation: 24 hours per day, seven days per week; and

WHEREAS, the applicant represents that the PCE use is consistent with the vibrant commercial area in which it is located, that the PCE use will be fully contained within the envelope of a new commercial building and that there are a variety of retail uses, offices, and multiple dwellings in the vicinity; and

WHEREAS, in addition, the applicant submits that sound attenuation measures, including demising walls insulated with flexible fiberglass and acoustic rubber-tile flooring, will be provided within the space so as to not disturb other tenants in the building; and

WHEREAS, the Board finds that the PCE use is so located as not to impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE will provide classes and instruction for physical improvement, body building, weight reduction and aerobics; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE will be fully sprinklered and that an approved fire alarm—including area smoke detectors, manual pull stations at each required exist, local audible and visual alarms and

connection to an FDNY-approved central station—will be installed in the entire PCE space; and

WHEREAS, in response to the Board's comments at hearing, the applicant clarified the above fire safety measures on the plans, explained that the massage chairs offered in the PCE will be mechanical and that no massages will be offered on-site by persons and represents that the subject building will be entirely commercial; and

WHEREAS, the applicant also states that signage at the subject site will be illuminated, not flashing; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18-BSA-075K, dated December 18, 2017; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-36 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to *permit*, in a C4-4A zoning district, the operation

of a physical culture establishment on portions of the first, second and third floors of the subject building, contrary to ZR § 32-10; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked "Received April 17, 2018"-Nine (9) sheets; and *on further condition*:

THAT this grant shall be limited to a term of ten (10) years, expiring April 17, 2028;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum 3'-0" wide exit pathways shall be provided leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be installed in the entire PCE space and the PCE shall be fully sprinklered, as indicated on the Board-approved plans;

THAT sound attenuation shall be installed in the PCE,

MINUTES

as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by April 17, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 17, 2018.

CEQR #18-BSA-114Q

APPLICANT – NYC Mayor's Office of Housing Recovery Operations (HRO)

SUBJECT – Application March 26, 2018 – Special Permit (§64-92) to waive bulk regulations for the replacement of homes damaged/destroyed by Hurricane Sandy, on properties which are registered in the NYC Build it Back Program. R3-A zoning district.

PREMISES AFFECTED – 47 West 14th Road, Block 15318, Lot 66. Borough of Queens.

COMMUNITY BOARD #14Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board's Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to permit, in an R3A zoning district and the Special Coastal Risk District, the development of a detached two-story residence in compliance with flood-resistant construction standards that does not comply with the zoning requirements for waterfront yards and visual mitigation elements, contrary to ZR §§ 64-A332, 64-A353 and 64-61; and

WHEREAS, this application is brought on behalf of the property owner by the Build It Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in furtherance of the City's effort to rebuild homes impacted by Superstorm Sandy expeditiously

and effectively, the Board, pursuant to 2 RCNY § 1-14.2, waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1-05.1 (Objection Issued by the Department of Buildings), (2) 2 RCNY § 1-05.3 (Filing Period), (3) 2 RCNY § 1-05.4 (Application Referral), (4) 2 RCNY § 1-05.6 (Hearing Notice), (5) 2 RCNY § 1-05.7 (List of Affected Property Owners), (6) 2 RCNY § 1-09.4 (Owner's Authorization), and (7) 2 RCNY § 1-10.7 (Proof of Service for Application Referral and Hearing Notice); and

WHEREAS, the Board notes that the subject application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the north side of West 14 Road, west of Cross Bay Boulevard, in an R3A zoning district and the Special Coastal Risk District, in Queens; and

WHEREAS, the subject site has approximately 25 feet of frontage along West 14 Road, 100 feet of depth, 2,500 square feet of lot area and is occupied by a detached two-story residence; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 8, 2016, when, under BSA Cal. No. 2016-3615-A, the Board granted a waiver of General City Law § 35 to permit construction of a building on a portion of a site that lies within the bed of a mapped street; and

WHEREAS, the waiver was conditioned, *inter alia*, upon no building or other structure being constructed over an existing DEP-managed water or sewer main; no building or other structure being within 5 feet of a DEP-managed existing water or sewer main; any new landing, lift, ramp, staircase and/or porch required to accommodate elevation of the proposed building not being within 5 feet of a DEP-managed existing water or sewer main; if the curb-to-curb width of the street is less than 34 feet or the building is setback more than 40 feet from the curb line, the building having a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code, the provision of an interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 or the New York City Building Code, the underside of the building having an exterior assembly with a 2-hour fire resistance rating where the foundation is not completely closed, and the height from grade plane to the highest window-sill leading to a habitable space not exceeding 32 feet; and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments* and *enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Section 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70

MINUTES

(SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

- (a) that there would be a practical difficulty in complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;
- (b) that any modifications of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant now seeks a special permit, pursuant to ZR § 64-92, to allow the development of a detached two-story residence with a waterfront yard with a depth of 12'-10" and one visual mitigation element; and

WHEREAS, the applicant represents that, at the subject site, a waterfront yard must have a minimum depth of 18'-6" under ZR §§ 64-A332 and 64-A353, and two visual mitigation elements are required under ZR § 64-61; and

WHEREAS, in accordance with ZR § 64-92(a), the need to reconstruct the existing residence creates practical difficulties in complying with flood-resistant construction standards without the modification of the regulations for waterfront yards and visual mitigation elements, and waiving the same is the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the finding pursuant to ZR § 64-92(b) is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the residence is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the proposal will

not alter the essential character of the neighborhood in which the residence is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18BSA114Q, dated March 26, 2018; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR § 64-92 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR § 64-92 to *permit*, in an R3A zoning district and the Special Coastal Risk District, the development of a detached two-story residence in compliance with flood-resistant construction standards that does not comply with the zoning requirements for waterfront yards and visual mitigation elements, contrary to ZR §§ 64-A332, 64-A353 and 64-61; *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received April 16, 2018" one (1) sheet and "Received March 26, 2018"-Eight (8) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: a waterfront yard with a minimum depth of 12'-10" and one (1) visual mitigation element;

THAT this approval shall be limited to the Build It Back program;

THAT DOB and related agency application(s) filed in connection with the authorized use or bulk shall be signed off by DOB and all other relevant agencies within four (4) years, by April 17, 2022;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 17, 2018.

City Law (“GCL”) § 35 to permit the elevation or reconstruction of the existing one-family home on a portion of a site that lies within the bed of a mapped street; and

WHEREAS, the waiver was conditioned, *inter alia*, upon no building or other structure being constructed over an existing DEP-managed water or sewer main; no building or other structure being within 5 feet of a DEP-managed existing water or sewer main; any new landing, lift, ramp, staircase and/or porch required to accommodate elevation of the proposed building not being within 5 feet of a DEP-managed existing water or sewer main; if the curb-to-curb width of the street is less than 34 feet or the building is setback more than 40 feet from the curb line, the building having a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code, the provision of an interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 or the New York City Building Code, the underside of the building having an exterior assembly with a 2-hour fire resistance rating where the foundation is not completely closed, and the height from grade plane to the highest window-sill leading to a habitable space not exceeding 32 feet; and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments* and *enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Section 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

- (a) that there would be a practical difficulty in complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;
- (b) that any modifications of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood’s

potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant now seeks a special permit, pursuant to ZR § 64-92, to allow the development of a two-story one-family residence with a front yard with a depth of 10’-2”, side yards with widths of 3’-0” and total width of 6’-0”, a rear yard with a depth of 10’-0” and no visual mitigation elements; and

WHEREAS, at the subject site, a front yard must have a minimum depth of 15’-0” under ZR § 23-45, side yards must have minimum widths of 5’-0” under ZR § 23-461 and must total 10’-8” under ZR §§ 23-48 and 64-A352, a rear yard must have a minimum depth of 12’-0” under ZR §§ 23-47 and 64-A353 and one visual mitigation element is required under ZR § 64-61; and

WHEREAS, in accordance with ZR § 64-92(a), the need to reconstruct the existing residence creates practical difficulties in complying with flood-resistant construction standards without the modification of requirements for front yards, side yards, rear yards and visual mitigation elements because of the shallowness and narrowness of the subject site and the need to develop an accessible residence, and waiving the same is the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the finding pursuant to ZR § 64-92(b) is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the dwelling is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood’s potential development in accordance with flood-resistant construction standards; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18BSA116R, dated March 26, 2018; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR § 64-92 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR § 64-92 to *permit*, in an R3-1 zoning district, the development of a detached two-story one-family residence in compliance with flood-resistant

MINUTES

construction standards that does not comply with the zoning requirements for front yards, side yards, rear yards and visual mitigation elements, contrary to ZR §§ 23-45, 23-48, 64-A352, 23-461, 23-47, 64-A353 and 64-61; *on condition* that all work and site conditions shall conform to drawings filed with this application marked “Received April 16, 2018” one (1) sheet and “Received March 26, 2018”-Seven (7) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: the front yard shall have a minimum depth of 10’-2”, side yards shall have minimum widths of 3’-0” and a minimum total width of 6’-0” and the rear yard shall have a minimum depth of 10’-0”, as illustrated on the Board-approved plans;

THAT this approval shall be limited to the Build It Back program;

THAT DOB and related agency application(s) filed in connection with the authorized use or bulk shall be signed off by DOB and all other relevant agencies within four (4) years, by April 17, 2022;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 17, 2018.

COMMUNITY BOARD #8BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and an extension of term of a variance, previously granted by the Board; and

WHEREAS, a public hearing was held on this application on September 13, 2016, after due notice by publication in *The City Record*, with continued hearings on January 31, 2017, March 28, 2017, and January 30, 2018, and then to decision on May 1, 2018; and

WHEREAS, Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, former Vice-Chair Hinkson and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 8, Bronx, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of Bailey Avenue, between Albany Crescent, Heath Avenue and Summit Place, partially in an R4A zoning district and partially in an R6 zoning district, in the Bronx; and

WHEREAS, the site has approximately 75 feet of frontage along Bailey Avenue, 65 feet of frontage along Heath Avenue, 10,544 square feet of lot area and is occupied by a parking lot; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 26, 1962, when, under BSA Calendar Number 1966-61-BZ, the Board granted a variance

to permit the extension of an existing multiple dwelling accessory parking lot for more than five motor vehicles for a term of ten (10) years, expiring March 26, 1973, on condition that a hedge 3 feet wide be planted along the Heath Avenue front just inside the fence, that the lot be paved with clean cinders or gravel treated with a binder and rolled for proper drainage, that proper bumpers be provided around the perimeter where cars are to be parked, that no signs be used except as called for by the Department of Licenses, that if any lighting is provided it be directed to the interior of the lot away from adjacent streets and properties, that if any retaining walls are required in connection with the subject site they be constructed by the owner of the subject site at the owner’s expense to the satisfaction of the Department of Buildings and that a certificate of occupancy be obtained within one (1) year, by March 26, 1963; and

WHEREAS, on April 18, 1978, under BSA Calendar Number 1966-61-BZ, the Board amended the variance so that the parking lot for 35 passenger motor vehicles accessory to the multiple dwellings on Lots 15 and 17 be changed to a public parking lot for a term of six (6) months, expiring October 18, 1978, on condition that a full width sidewalk be installed along Bailey Avenue frontage, that upon completion of the work required the applicant submit to the Board new photographs showing that the work has been completed further and that based upon the approval of this submission the Board will extend the term of the variance for an additional five (5) years; and

WHEREAS, on July 30, 1985, under BSA Calendar Number 1966-61-BZ, the Board granted an extension of term of five (5) years, expiring December 5, 1988, on condition that the parking lot and sidewalks be maintained clean and free of weeds at all times, that the fences on Heath Avenue and Bailey Avenue be 50 percent opaque and that a new certificate of occupancy be obtained within one (1) year, by July 30, 1986; and

WHEREAS, on March 23, 1999, under the subject calendar number, the Board granted an extension of term of ten (10) years, expiring March 23, 2009, on condition that fencing and screening be provided and maintained in accordance with the Board-approved plans, that landscaping be provided and maintained in accordance with the Board-approved plans, that all lighting be positioned down and away from nearby residential uses, that the subject site be maintained clean and free of graffiti, that the above conditions appear on the certificate of occupancy and that a certificate of occupancy be obtained within one (1) year, by March 23, 2000; and

WHEREAS, the term having expired, the applicant now seeks a waiver of the Board’s Rules of Practice and Procedure to allow the late filing of this application and an extension of term; and

WHEREAS, the applicant submits that the use has been continuous since expiration and that substantial prejudice would result without a waiver of the Board’s Rules of Practice and Procedure; and

WHEREAS, in response to questions from the Board

MINUTES

at hearing, the applicant provided evidence of improved site conditions, including replaced fencing, perimeter landscaping and plantings, and demonstrated that lighting is directed away from residential uses; and

WHEREAS, the applicant also submitted an operational plan detailing the mission, hours of operation, staffing, fee structure and maintenance plan for the subject site; and

WHEREAS, the applicant provided evidence that parking spaces had been repainted with parking curbs installed and that the sidewalk had been repaired; and

WHEREAS, based upon its review of the record, the Board has determined that the requested waiver of the Board's Rules of Practice and Procedure and extension of term are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *wave* the Rules of Practice and Procedure and *reopen* and *amend* the resolution, dated March 23, 1999, so that as amended this portion of the resolution shall read: "to *permit* an extension of term of ten (10) years, expiring May 1, 2028; *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received April 25,2018"- Five (5) sheets; and *on further condition*:

THAT there shall be monthly parking only with no transient parking permitted;

THAT the subject site shall be maintained clean and free of debris and graffiti, including the area along Heath Avenue;

THAT landscaping, planting, surface paving and striping shall be maintained and replaced as necessary in accordance with the Board-approved plans;

THAT fencing and screening shall be provided and maintained in accordance with the Board-approved plans;

THAT all lighting shall be positioned down and away from nearby residential uses;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by May 1, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted."

Adopted by the Board of Standards and Appeals, May 1, 2018.

97-07-BZ

APPLICANT – Law Office of Fredrick A. Becker, for Atlas Park LLC, owner; TSI Glendale, LLC dba New York Sports Club, lessee.

SUBJECT – Application April 13, 2017 – Extension of Term of a previously approved Special Permit (§73-36) permitting the operation of a Physical Cultural Establishment (*New York Sports Club*) on the second floor of a two-story commercial building within a commercial mall complex which expired on December 31, 2016; Amendment to request a change in the hours of operation; Waiver of the Board's rules. M1-1 zoning district.

PREMISES AFFECTED – 80-16 Cooper Avenue, Block 3810, Lot 350, Borough of Queens.

COMMUNITY BOARD #5Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board's Rules of Practice and Procedure, an amendment and an extension of term of a special permit, previously granted by the Board; and

WHEREAS, a public hearing was held on this application on December 5, 2017, after due notice by publication in *The City Record*, and then to decision on May 1, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 5, Queens, recommends approval of this application; and

WHEREAS, Borough President Melinda Katz submitted testimony in support of this application; and

WHEREAS, the subject site is located on the southeast corner of Cooper Avenue and 80th Street, in an M1-1 zoning district, in Queens; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 17, 2007, when, under the subject calendar number, the Board granted a special permit to allow the operation of a physical culture establishment ("PCE") on portions of the first and second floors of a building within a commercial mall complex for a term expiring December 31, 2016, on condition that there be no change in ownership or operating control of the PCE without prior application to and approval from the Board, that the hours of operation be limited to Monday through Friday, 6:00 a.m. to 9:00 p.m., and Saturday and Sunday, 8:00 a.m. to 7:00 p.m., that massages only be performed by New York State licensed massage therapists, that the above conditions appear on the certificate of occupancy, that Local Law 58/87 compliance be as reviewed and approved by DOB and that fire safety measures be installed and maintained as shown on

MINUTES

the Board-approved plans; and

WHEREAS, the term having expired, the applicant now seeks a waiver of the Board's Rules of Practice and Procedure to permit the late filing of this application, an amendment to a condition of the Board's grant and an extension of term; and

WHEREAS, the applicant represents that there have been no changes to the floor plan or operator of the facility, New York Sports Club, as previously approved by the Board; and

WHEREAS, the applicant proposes to change the hours of operation as follows: Monday through Thursday, 5:30 a.m. to 11:00 p.m., Friday, 5:30 a.m. to 10:00 p.m., and Saturday and Sunday, 8:00 a.m. to 8:00 p.m.; and

WHEREAS, by letter dated April 19, 2018, the Fire Department states that it has no objection to this application, noting that the subject site is current with all applicable permits for the fire suppression system (standpipe, sprinkler and dry values) and fire alarm system, but that Public Assembly Application No. 402661794 must be amended to reflect an occupant load for the space of 538 persons; and

WHEREAS, the applicant has satisfactorily demonstrated compliance with the conditions of the previous term and the Board finds that the circumstances warranting the original grant still obtain; and

WHEREAS, based upon its review of the record, the Board has determined that the requested waiver of the Board's Rules of Practice and Procedure, amendment and extension of term are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated, so that as amended this portion of the resolution shall read: "to *permit* an extension of term of ten (10) years, expiring December 31, 2026, and an amendment to the hours of operation; *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received September 5, 2017"-Six (6) sheets; and *on further condition*:

THAT the term of this grant shall be limited to ten (10) years, expiring December 31, 2026;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT the hours of operation shall be limited to Monday through Thursday, 5:30 a.m. to 11:00 p.m., Friday, 5:30 a.m. to 10:00 p.m., and Saturday and Sunday, 8:00 a.m. to 8:00 p.m.;

THAT massages shall only be performed by New York State licensed massage therapists;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by May 1, 2022;

THAT Local Law 58/87 compliance shall be as reviewed and approved by the Department of Buildings;

THAT fire safety measures shall be maintained as

shown on the Board-approved plans;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted."

Adopted by the Board of Standards and Appeals, May 1, 2018.

THE VOTE TO DISMISS –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated January 20, 2015, acting on Application No. 320597939 reads in pertinent part:

1. ZR25-23: Provide accessory parking spaces

MINUTES

per this ZR section equal to at least 50% of the number of dwelling units or obtain a waiver from the BSA under ZR73-46; and

WHEREAS, this is an application under ZR § 73-46 to permit, on a site located within an R6B zoning district, the waiver of accessory off-street parking spaces required for additional dwelling units created by conversions, contrary to ZR § 25-23; and

WHEREAS, a public hearing was held on this application on February 28, 2017, after due notice by publication in *The City Record*, with the continued hearings scheduled for May 16, 2017, and August 8, 2017, adjourned at the applicant's request and the administrative adjournment of a continued hearing scheduled for February 27, 2018, due to the applicant's failure to make any submission; and

WHEREAS, at the Executive Session held on February 26, 2018, Executive Session, the Board remarked that the administrative adjournment of the next day's hearing on this application marked the third consecutive adjournment of this application, that it would be the last adjournment granted by the Board and failure to submit materials in advance of the next scheduled hearing could result in the dismissal of the application for failure to prosecute; and

WHEREAS, the applicant's representative was observed to be in attendance at that Executive Session and to have heard the Board's remarks regarding potential dismissal; and

WHEREAS, a continued hearing was then set for May 1, 2018, with a submission date of April 11; and

WHEREAS, no submissions were made in advance of the hearing scheduled for May 1, 2018, and no one appeared at that hearing on the applicant's behalf; and

WHEREAS, accordingly, due to the repeated failure of the applicant and its representatives to submit materials in support of this application, it must be dismissed in its entirety.

Therefore, it is Resolved, that the application filed under BSA Cal. No. 25-15-BZ is hereby dismissed for failure to prosecute.

Adopted by the Board of Standards and Appeals, May 1, 2018.

1-96-BZ

APPLICANT – New York City Board of Standards and Appeals.

COMMUNITY BOARD #5M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated February 16, 2017, acting on Alteration Application No. 122773169, reads in pertinent part:

“Proposed ‘Physical Culture Establishment’ is not permitted As-Of-Right as per section ZR 32-10”;
and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, partially in a C6-4A zoning district and partially in a C4-5A zoning district, the legalization of a physical culture establishment on a portion of the first floor of the subject building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on May 8, 2018, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Vice-Chair Chanda performed and inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 5, Manhattan, waives its recommendation for this application; and

WHEREAS, the subject site is located on the northeast corner of Park Avenue South and East 27th Street, partially in a C6-4A zoning district and partially in a C4-5A zoning district, in Manhattan; and

WHEREAS, the subject site has approximately 99 feet of frontage along Park Avenue South, 167 feet of frontage along East 27th Street, 16,458 square feet of lot area and is occupied by a twelve-story, with cellar, commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each

MINUTES

of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE will occupy 5,469 square feet of floor area on the first floor, including reception, a fuel bar, a flex lab, a fitness area with benches, treadmills and weights, lockers, changing rooms, showers, laundry and a utility closet; and

WHEREAS, the PCE has been in operation as Barry's Bootcamp since October 2016, with the following hours of operation: 5:00 a.m. to 11:00 p.m. daily; and

WHEREAS, the applicant represents that the PCE use is consistent with the vibrant mixed-use area in which it is located, that the PCE use is fully contained within the envelope of an existing building and that the PCE use is compatible with the commercial, multiple-family, and mixed-use buildings in the vicinity of the subject site; and

WHEREAS, in addition, the applicant submits that sound attenuation measures, including a suspended, spring-isolated gypsum acoustic ceiling, insulated walls, columns and conduits and an isolated flooring system with a 1"-thick layer of acoustic rubber tile flooring, have been provided within the space so as to not disturb other tenants in the building; and

WHEREAS, the Board finds that the PCE use is so located as not to impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE provides classes and instructions for physical improvement, body building, weight reduction and aerobics; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE is fully sprinklered and that an approved fire alarm—including

area smoke detectors, manual pull stations at each required exist, local audible and visual alarms and connection to an FDNY-approved central station—has been installed in the entire PCE space; and

WHEREAS, by letter dated May 7, 2018, the Fire Department represents that it has no objection to this application; and

WHEREAS, in response to comments from the Board, the applicant provided notice of this application to tenants in the subject building; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17BSA103M, dated March 13, 2017; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-36 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated without a special permit.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to *permit*, partially in a C6-4A zoning district and partially in a C4-5A zoning district, the legalization of a physical culture establishment on a portion of the first floor of the subject building, contrary to ZR § 32-10; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked "Received May 4, 2018"-Five (5) sheets; and *on further condition*:

THAT this grant shall be limited to a term of ten (10) years, expiring October 31, 2026;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum 3'-0" wide exit pathways shall be maintained leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be installed and maintained in the entire PCE

MINUTES

space and the PCE shall be and remain fully sprinklered, as indicated on the Board-approved plans;

THAT sound attenuation shall be installed and maintained in the PCE, as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by May 8, 2019;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 8, 2018.

2017-130-BZ

CEQR #17-BSA-114Q

APPLICANT – Rothkrug Rothkrug & Spector, for 47-01 LASAL Associates, owner; Crossfit Sunnyside, lessee.

\SUBJECT – Application April 13, 2017 – Special Permit (§73-36) to permit the legalization of a physical culture establishment (*Crossfit Sunnyside*) within an existing commercial building. M1-1 zoning district.

PREMISES AFFECTED – 47-01 Barnett Avenue, Block 142, Lot 238, Borough of Queens.

COMMUNITY BOARD #2Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated March 20, 2017, acting on Alteration Application No. 420658595, reads in pertinent part:

“Proposed use, ‘physical culture or health establishment’, is not permitted as of right in M1-1 district”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, in an M1-1 zoning district, the legalization of a physical culture establishment occupying the entirety of the subject building; and

WHEREAS, a public hearing was held on this

application on May 8, 2018, after due notice by publication in *The City Record*, and then to decision on May 8, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 2, Queens, recommends approval of this application; and

WHEREAS, the subject site is located on the north side of Barnett Avenue, between 43rd Street and 48th Street, in an M1-1 zoning district, in Queens; and

WHEREAS, the subject site has approximately 88 feet of frontage along Barnett Avenue, 39 feet of depth, 3,240 square feet of lot area and is occupied by a one-story commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application

MINUTES

to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and

- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE occupies 3,240 square feet of floor area on the first floor, including a seating area, offices, restrooms, a stretching area with workout plates, a lifting area with weights, jerk boxes and medicine balls, rowers and storage; and

WHEREAS, the PCE has been in operation as CrossFit Sunnyside since October 2016, with the following hours of operation: Monday to Friday, 6:00 a.m. to 10:00 p.m., Saturday, 8:00 a.m. to 2:00 p.m., and Sunday, 9:00 a.m. to 3:00 p.m.; and

WHEREAS, the applicant represents that the PCE use is consistent with the vibrant area in which it is located and that the PCE use is fully contained within the envelope of an existing building; and

WHEREAS, in addition, the applicant submits that sound attenuation measures, including rubber mat flooring, have been provided within the space; and

WHEREAS, the Board finds that the PCE use is so located as not to impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE contains facilities for classes, instruction and programs for physical improvement, body building, weight reduction and aerobics; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, by letter dated May 7, 2018, the Fire Department represents that it has no objection to this application and that providing a sprinkler system and a fire alarm system is not required for the subject building; and

WHEREAS, in response to the Board's comments at hearing, the applicant clarified that the PCE occupies the entirety of the subject building with no other tenants present; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17BSA114Q, dated April 13, 2017; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-36 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated without a special permit.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to *permit*, in an M1-1 zoning district, the legalization of a physical culture establishment occupying the entirety of the subject building; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked "Received January 2, 2018"-Six (6) sheets; and *on further condition*:

THAT this grant shall be limited to a term of ten (10) years, expiring October 31, 2026;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum 3'-0" wide exit pathways shall be maintained leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT sound attenuation shall be maintained in the PCE, as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as

MINUTES

approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by May 8, 2019;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 8, 2018.

2017-299-BZ

CEQR No. 18-BSA-059Q

APPLICANT – Duane Morris LLP by Jon Popin, for Douglaston Shopping Center Owner LLC, owner.

SUBJECT – Application November 14, 2017– Variance (§72-21) to permit the increase the degree of non-conformance of the a presently existing non-conforming shopping center by adding 15,181 square feet of retail floor area; adding approximately 1,116.10 square feet of signage and eliminate 101 parking spaces. R4 zoning district.

PREMISES AFFECTED – 242-02 61st Avenue, Block 8286, Lot 185, Borough of Queens.

COMMUNITY BOARD #11Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION:

WHEREAS, the decision of the Department of Buildings (“DOB”), acting on Application No. 421397884 reads in pertinent part:

1. Proposed increase in the degree of a non-conforming shopping center located within an R4 Zoning District by the creation of 15,181 square feet of floor area for a UG 6 Hardware Store which shall result in the elimination of 101 shopping center parking spaces (of the required 1,265 shopping center parking spaces pursuant to prior variance, Cal #259-08-BZ) is contrary to Section 52-41 ZR. Referral to the BSA is required;
2. Proposed increase of [. . .] signage in connection with the change in use to a UG

6 Hardware Store within a non-conforming shopping center does not conform to the regulations of accessory signs applicable to a C1 District, contrary to Section 52-31 ZR. Referral to the BSA is required; and

WHEREAS, this is an application under ZR § 72-21 to permit, on a site located in an R4 zoning district, the enlargement of a pre-existing non-conforming commercial Use Group 6 building and an additional 718.1 square feet of accessory signage, contrary to ZR §§ 52-41 and 52-31; and

WHEREAS, a public hearing was held on this application on April 10, 2018, after due notice by publication in *The City Record*, with a continued hearing on May 8, 2018, and then to decision on that date; and

WHEREAS, Vice Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding area; and

WHEREAS, Community Board 11, Queens, recommends approval of this application on condition that “Not A Truck Route” signage be added to the entrances of the nearby Cross Island Parkway, Grand Central Parkway, Marathon Parkway, Douglaston Parkway and Little Neck Parkway; and

WHEREAS, Queens Borough President Melinda Katz recommends approval of this application on condition that the applicant work with the New York City Department of Transportation to determine whether signage suggested by the Community Board is needed and where it should be located; and

WHEREAS, New York City Councilmember Barry S. Grodenchik submitted a letter in support of the subject application because it will enable the filling of a large vacancy in the decades-old shopping center located at the subject site and mitigate the threat that that vacancy has posed to surrounding businesses; and

WHEREAS, the Board was also in receipt of eight form letters of objection to the subject application raising issues with the reduction in parking spaces at the subject site, the potential for the proposal to increase traffic in the area and the potential for nuisance due to permitting the requested addition of accessory signage at the site; and

WHEREAS, the subject site is located on the south side of the intersection of Douglaston Parkway and 61st Avenue, in an R4 zoning district, in Queens; and

WHEREAS, the site has approximately 564,297 square feet of lot area and is occupied by the Douglaston Plaza Shopping Center, which consists of four buildings: (1) a one-story plus cellar and sub-cellar shopping center building developed principally to contain one large format department store but also previously occupied by a movie theater in the sub-cellar level (the “Main Building”); (2) a one-story building located at the sub-cellar level of the site occupied by a supermarket (the “Supermarket Building”); (3) a one-story building located on the sub-cellar level of the site occupied by local retailers; and (4) a one-story building located on the cellar level of the site occupied by an eating and drinking establishment; and

MINUTES

WHEREAS, the applicant represents that the shopping center was built pursuant to plans approved prior to the 1961 Zoning Resolution and the designation of the surrounding area as an R4 zoning district and went into service in 1965 as a legal non-conforming use subject to Article V of the Zoning Resolution; and

WHEREAS, the Board has exercised jurisdiction over the subject site since October 19, 1982, when, under BSA Cal. No. 323-82-BZ, the Board granted a variance to permit the installation of a business sign in excess of the maximum permissible surface area and height above curb level regulations on condition that the sign not be illuminated later than 10 p.m.; and

WHEREAS, on January 4, 1983, under BSA Cal. No. 370-82-BZ, the Board granted a variance permitting the conversion of retail space in the Main Building to a seven-theater multiplex cinema (Use Group 8) for a term of fifteen (15) years, expiring January 4, 1998, on condition that a minimum of three security personnel be assigned at all times after 10:00 p.m. to direct incoming and exiting vehicular traffic along designated routes to minimize impacts on adjacent residential areas and to perform normal security functions in the general area; trailers be added to all film showings with appropriate graphics advising patrons of the proper exit routes for their vehicles; signs and screening be provided as indicated on plans; all movie showings cease no later than 12:00 midnight on weekdays and Sundays and 1:00 a.m. on Friday and Saturday evenings; the area surrounding the theaters be kept well-lit and free of debris and graffiti at all times; all lighting be directed away from adjacent residential areas; there be no showing of X-rated or pornographic films; all signs and screening be installed prior to the initial operation of the theaters; the door on the fence on 65th Avenue be kept closed and locked at sunset each evening to discourage theater patrons from parking on that street and entering the premises via that door; application to and approval from the Board be secured prior to any change in ownership or lease of the property or lessee of the seven cinema theater; an affidavit attesting to the continuing compliance with the terms and conditions of the variance be filed yearly with the Board and the Chairperson of Community Board 11, Queens, commencing one year from the grant of the application; and that all conditions appear on the certificate of occupancy; and

WHEREAS, on November 8, 1991, under BSA Cal. No. 335-91-BZY, the Board recognized a statutory vested right to complete construction at the site that had commenced prior to an amendment to the Zoning Resolution that rendered the development non-compliant and granted a two (2) year extension of time to complete construction, expiring June 30, 1993; and

WHEREAS, on June 2, 1998, under BSA Cal. No. 370-82-BZ, the Board amended the variance for the multiplex cinema and extended the term for an additional twenty (20) years, expiring January 4, 2018, on condition that all other aspects of the prior resolution be complied with in all respects and a new certificate of occupancy be

obtained within one (1) year, by June 2, 1999; and

WHEREAS, on May 16, 2000, October 16, 2001, November 18, 2003, under BSA Cal. No. 370-82-BZ, the Board reopened the variance to permit extensions of time to obtain a certificate of occupancy, the latest of which expired November 16, 2005, and was granted on condition that the premises be maintained free of debris and graffiti and that any graffiti located on the premises be removed within 48 hours; and

WHEREAS, by letter dated September 10, 2008, the Board approved a change in ownership of the property and a change in lessee of the multiplex theater, previously approved under BSA Cal. No. 370-82-BZ; and

WHEREAS, on July 14, 2009, under BSA Cal. No. 259-08-BZ, the Board granted a variance permitting the enlargement of the pre-existing non-conforming Supermarket Building contrary to ZR § 52-41 on condition that that building have a maximum floor area of 57,701 square feet and that there be a minimum total of 1,265 parking spaces for the shopping center; all signage comply with C1 zoning district parameters; the use of the building be limited to a Use Group 6 supermarket; that all lighting be directed away from residences; and that these conditions be stated on the certificate of occupancy; and

WHEREAS, on March 15, 2011, under BSA Cal. No. 259-08-BZ, the Board amended the resolution to increase the permitted surface area of accessory signage for the supermarket due to size of the supermarket being more than 57,000 square feet and the unique topography of the site, which results in limited sight lines and street visibility necessitating signage in excess of that permitted pursuant to C1 zoning district regulations; and

WHEREAS, the applicant now seeks a variance to permit the enlargement of non-conforming Use Group 6 space in Main Building by 15,181 square feet of floor area, contrary to ZR § 52-41, an increase in the degree of the subject zoning lot's non-conformance with accessory signage regulations to allow 702 square feet of additional accessory signage (for a total of 4,237 square feet of accessory signage on the zoning lot), contrary to ZR § 52-31, and the elimination of 101 of the shopping center's 1,265 total parking spaces (98 spaces will be eliminated from the sub-cellar, 11 parking spaces will be eliminated from the first floor and 8 parking spaces will be added to the cellar level), contrary to the resolution issued at the subject site under BSA Cal. No. 259-08-BZ, which required a minimum of 1,265 accessory parking spaces; and

WHEREAS, the applicant states, that, pursuant to ZR § 72-21(a), the obsolescence of the Main Building, particularly the sub-cellar level, creates practical difficulties and unnecessary hardship in developing the subject site in conformance with the zoning regulations applicable in the underlying district; and

WHEREAS, specifically, the applicant states that the steep slope of the property, in particular the presence of a hill rising several hundred feet above grade along the eastern lot line of the property that obstructs the eastern exposure of

MINUTES

the Main Building; the development of the shopping center on the site as a multilevel structure with access to both its highest (first floor) and lowest (sub-cellar) levels from different streets; and the sub-cellar's location below and behind the cellar level parking platform, far below the grade of 61st Avenue and Douglaston Parkway results in the sub-cellar level being virtually invisible from both within the shopping center and from surrounding streets and, accordingly, adversely impacts its functionality for retail; and

WHEREAS, the applicant submits that use of the Main Building generally and its sub-cellar level in particular is further compromised by poor vehicular circulation and wayfinding on the site that makes the sub-cellar level difficult to find and the limited number of parking spaces available directly in front of its entrances and exits, conditions that are both due to the topography of the sloping lot and configuration of the shopping center's parking platforms and buildings resulting therefrom; the consolidation of the loading area for multiple levels of the Main Building at the rear of the sub-cellar level that makes scheduling deliveries and operating the berths efficiently and effectively difficult when the Main Building is occupied by multiple tenants; the inability to locate an additional loading area on the cellar level because of the lack of vehicular circulation space at the rear of the Main Building at this level and the poor loadbearing capacity of the cellar level, which hinders its ability to support the weight of truck deliveries; low floor to floor heights, the result of aligning the levels of the shopping center with street access points on the steeply sloped site; and column spans that are too narrow and a concrete slab in the sub-cellar with a loadbearing capacity too low to properly accommodate modern Use Group 6 uses—to wit, warehouse retail stores in which there is no distinction between sales and storage areas and merchandise is displayed in large vertical stacks; and

WHEREAS, the applicant submits that modern Use Group 6 uses, which have come into popularity since the construction of the shopping center several decades ago, also require floor to floor heights of at least 22 feet for display and merchandise storage purposes, column spans of at least 40 feet by 48 feet and a live load capacity of at least 150 pounds per square foot, but in the sub-cellar of the Main Building, the floor to floor height is 15'-8", the column grid is 24 feet by 28 feet and the live load capacity is 100 pounds per square foot; the sub-cellar is, thus, functionally obsolete and additional floor area is required to offset the volumetric limitations of the existing sub-cellar level and accommodate a modern Use Group 6 retailer; and

WHEREAS, the applicant underscores that the Main Building was developed to house a large department store, a retail format that has been significantly impacted by a changing retail climate and the rising cost of real estate and increasingly closing their stores located in shopping centers; and

WHEREAS, in April 2017, the most recent department store tenant of the Main Building vacated its space in the

Main Building citing poor sales, leaving approximately 50 percent of the building's floor area vacant; and

WHEREAS, notwithstanding the aforementioned deficiencies of the site and the Main Building, the applicant submits that the space is unlikely to be filled by another department store because of the subject shopping center's proximity to other, more successful retail corridors, some of which may already contain a location for that department store; and

WHEREAS, because the Main Building is a legal non-conforming building, uses within may be changed only to a use that conforms with the underlying R4 zoning district or a use listed in Use Group 6 pursuant to ZR § 54-34, but such uses, argues the applicant, typically rely on visibility from the street and pass-by traffic and look for spaces that are convenient and inviting to patrons, thus, the sub-cellar level of the Main Building, as currently configured, is sub-optimal for these uses; and

WHEREAS, the applicant has sought to fill the Main Building vacancy with multiple Use Group 6 tenants, including one home improvement center (Use Group 6 hardware store) solely located in the sub-cellar level; and

WHEREAS, the applicant submits that the deficiencies of the Main Building are less acutely felt by a home improvement center because such use relies less on impulse shoppers and being proximate to related retail uses; in addition, home improvement centers are destinations—that is, specifically sought out by their customers, which include people in various building trades—and thus do not rely on visibility from grade; and

WHEREAS, the applicant states that the most recent tenant of the sub-cellar, a multiplex consisting of seven theaters, a small café, a refreshment stand and video game area, has not been updated and is in substantially the same configuration as it was in 1983, is undersized as compared to contemporary movie theaters, that the physical constraints of the sub-cellar would not allow it to be renovated to install the stadium seating common to modern multiplexes and, even if it would, the larger stadium seats would further reduce the total capacity of the already undersized movie theater, thus the maintenance of a cinema use in this location is untenable; and

WHEREAS, with regards to signage, the applicant states that the topography of the site and configuration of buildings and parking level that resulted make wayfinding at the site particularly difficult and the maximum of 450 square feet of total signage permitted at the site pursuant to ZR § 52-31 insufficient for practical purposes; the applicant asserts that the existing 3,519 square feet of accessory signage at the site includes accessory signage located above grade at the cellar level of the Main Building identifying its former large format department store tenant, signage that was sufficient for that tenant at that time because they occupied the entire building, but now that the department store tenant has vacated and levels of the Main Building will be leased to multiple tenants, including one tenant located in the sub-cellar level only, additional accessory signage is

MINUTES

required in light of the aforementioned unique site conditions that render the sub-cellar level virtually invisible; and ; and

WHEREAS, based on the foregoing, the Board finds that the obsolescence of the Main Building create unnecessary hardship and practical difficulties in developing the site in conformance with applicable zoning regulations; and

WHEREAS, with regards to ZR § 72-21(b), the applicant submits that there is no reasonable possibility that a conforming development at the subject site will bring a reasonable return and, in support of that assertion, submitted a financial analysis of (1) the reconfiguration and renovation of all three levels of the Main Building to accommodate multiple Use Group 6 retail tenants in the recently vacated department store space on all three levels (the “AOR Scenario”) and (2) the subject proposal, including the occupation of the sub-cellar and additionally requested floor area by a single tenant, demonstrating that only the subject proposal would provide a reasonable return; and

WHEREAS, to wit, the financial analyses concludes that the AOR Scenario would generate a project loss of approximately 30.7 percent (\$67.6 million), while the subject proposal would yield a return of approximately 4.6 percent of the project cost (\$10.2 million); and

WHEREAS, upon review of the applicant’s submissions, the Board finds that, due to the site’s unique physical conditions, there is no reasonable possibility that a development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposal will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property and will not be detrimental to the public welfare in accordance with ZR § 72-21(c) because the subject shopping center has been an existing legal non-conforming use at this location for over 50 years, that occupancy of the Main Building with Use Group 6 retail uses, as proposed herein, is consistent with its historic use and that the full occupancy of the Main Building (facilitated by the herein requested enlargement that would enable the building to accommodate modern Use Group 6 uses and prevent tens of thousands of square feet of floor area from remaining vacant) is in the best interest of both the surrounding neighborhood and nearby businesses because it will maximize nearby residents’ access to a variety of goods and bring additional patrons to the site; and

WHEREAS, with regards to parking at the site, the applicant analyzed whether the occupancy of the sub-cellar with a single warehouse retail use, and removal of 101 parking spaces, would adversely impact the availability of parking space at the site and determined that during weekdays, 43 percent of all parking spaces at the shopping center would be utilized and during weekends, peak parking utilization would be 93 percent, therefore, the proposed action would not adversely impact the availability of parking spaces at the subject shopping center; and

WHEREAS, with regards to potential transportation impacts, the applicant represents that nearby intersections were analyzed and it was determined that, with the proposed, traffic operations would continue to operate at the existing or better levels of service during midday, afternoon and Saturday peak hours and three intersections experienced delays limited to several seconds on early weekday mornings, but such delays could be alleviated by time signal changes; and

WHEREAS, by memo dated May 8, 2018, the New York City Department of Transportation (“DOT”) corroborates the applicant’s representation that a traffic levels of service analysis was conducted for the weekday morning, midday, afternoon and Saturday midday peak hours at seven intersections along Douglaston Parkway, including three driveways that lead into the subject site, and the following project-related improvements were identified during the weekday morning and afternoon peak hours at three locations: (1) Douglaston Parkway and LIE North Service Road—reallocate one second of green time from westbound phase to northbound/southbound phase during the morning peak hour; (2) Douglaston Parkway and LIE South Service Road—modify offset from 10 to 8 second during the afternoon peak hour; and (3) Douglaston Parkway and 61st Avenue—modify offset from 50 to 52 second during the afternoon peak hour; and

WHEREAS, DOT further confirms that a parking accumulation analysis was conducted and it was determined that the projected parking demand would be accommodated within the shopping center and requests that six months prior to completion and operation of the enlarged shopping center, the applicant inform DOT of this fact in writing so that DOT may determine the feasibility and implementation of the proposed traffic improvements; and

WHEREAS, at hearing, the Board questioned whether there was an alternative truck circulation route to the Main Building that would avoid the southwestern corner of the site, at which the adjacent uses are residential, and not require trucks to drive around so many parked cars; and

WHEREAS, in response, the applicant’s parking engineer stated that the truck circulation route herein proposed is the existing truck route to the Main Building; that the adjacent residential units were constructed contemporaneously with the subject shopping center and, thus, those neighbors are accustomed to trucks circulating in the southwestern corner of the subject site; and that an alternative route circulating only within the northern half of the site is impossible because of insufficient turnaround space at the rear of the Main Building and narrow distance between columns in the parking levels that impedes the maneuverability of tractor trailers; and

WHEREAS, by letters dated April 3, 2018, the Fire Department alerted the Board to numerous violations and criminal summonses issued to the subject site in reference to the fire suppression system (standpipe and sprinkler) and fire alarm system and informed the Board that the applicant retained a contractor to initiate the repairs necessary to cure

MINUTES

those violations; and

WHEREAS, at the May 8 hearing, the Fire Department informed the Board that the applicant's contractor anticipated completing the work necessary to cure the outstanding violations and being ready for Fire Department inspection by August 31, 2018 and requested that such schedule be incorporated into this resolution as a condition of the Board's decision; the Fire Department additionally requested that, should all violations relating to the fire suppression not be cured by that time, the Board call the subject application in for a compliance hearing pursuant to § 1-12.8 of the Board's Rules of Practice and Procedure in September 2018; and

WHEREAS, with regards to the additional signage proposed, the applicant states that some of the newly proposed signage faces Douglaston Parkway or is buried below the sub-cellar level and is, thus, not visible from nearby residential buildings and others are indistinguishable from the existing large signage identifying other retailers in the subject shopping center; and

WHEREAS, accordingly, the Board finds that the requested relief will not alter the essential character of the neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship claimed as grounds for the variance was not created by the owner or a predecessor in title in accordance with ZR § 72-21(d); and

WHEREAS, the applicant represents that the subject proposal is the minimum variance necessary to afford relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Environmental Assessment Statement Short Form CEQR No. 18BSA059Q, dated May 8, 2018; and

WHEREAS, the EAS documents that the project as proposed would not have significant impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, the New York City Landmarks Preservation ("LPC") reviewed the subject proposal and concluded that the subject site is of no architectural or archaeological significance; and

WHEREAS, DOT reviewed the subject proposal with regards to transportation and concluded that improvements

could be implemented at three intersections along Douglaston Parkway to ensure that the enlargement proposed herein would not adversely affect traffic operations in the area; and

WHEREAS, DOT additionally reviewed the subject proposal with regards to parking and concluded that the projected parking demand would be accommodated on-site; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR § 72-21 to permit, on a site located in an R4 zoning district, the enlargement of a pre-existing non-conforming commercial building (Use Group 6) and an additional 718.1 square feet of accessory signage, contrary to ZR §§ 52-41 and 52-31, *on condition* that all work will substantially conform to drawings filed with this application marked "Received May 8, 2018"-eighteen (18) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the subject site: a minimum of 387 parking spaces at the sub-cellar level, 511 parking spaces at the cellar level, a minimum of 266 parking space on the first floor level (a minimum of 1,164 total parking spaces); a maximum of 190,145 square feet of floor area on the sub-cellar level, 126,016 square feet of floor area on the cellar level and 11,680 square feet of floor area on the first floor level (a maximum of 327,841 square feet of total floor area); and a maximum total of 4,237.35 square feet of accessory signage, as indicated on the Board-approved plans;

THAT DOB shall confirm if placement of accessory signage located within the same zoning lot complies with applicable accessory signage regulations of the Zoning Resolution;

THAT the portion of the fence on the southern end of the site that backs onto adjacent residential rear yards shall be replaced;

THAT six (6) months prior to completion and operation of the enlarged shopping center, the applicant shall inform the New York City Department of Transportation of this fact in writing, at which time DOT will determine the feasibility and implementation of the proposed improvements;

THAT the dry valve system that serves the dry standpipe system, the dry standpipe system and the dry sprinkler system that serves the parking deck shall be installed, tested and inspected and signed off by Fire

MINUTES

Department by August 31, 2018, and failure to do so shall result in the hearing of this item on the Board's Compliance calendar, pursuant to §1-12.8 of the Board's Rules of Practice and Procedure, in September 2018;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a revised certificate of occupancy shall be obtained within four (4) years;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 8, 2018.

2018-17-BZ

APPLICANT – Fox Rothschild LLP, for Hylan Plaza 1339, LLC, owner; Fitness International, LLC, lessee.

SUBJECT – Application February 7, 2018 – Special Permit (§73-36) to permit the operation of a physical culture establishment (*LA Fitness*) to occupy 37,583 sq. ft. within a shopping center contrary to ZR §32-10. C4-1 zoning district.

PREMISES AFFECTED – 2600 Hylan Boulevard, Block 3969, Lot 1, Borough of Staten Island.

COMMUNITY BOARD #2SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated January 30, 2018, acting on New Building Application No. 520305928, reads in pertinent part:

“Proposed Physical Culture Establishment is not permitted as-of-right in a C4-1 zoning district per ZR 32-10”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, in a C4-1 zoning district, the operation of a physical culture establishment on the second floor of the subject building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on May 8, 2018, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Commissioner Ottley-Brown performed

an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 2, Staten Island, recommends approval of this application; and

WHEREAS, the subject site is located on the north side of Ebbitts Street, between Hylan Boulevard and Mill Road, in a C4-1 zoning district, in Staten Island; and

WHEREAS, the subject site has approximately 711 feet of frontage along Hylan Boulevard, 1,189 feet of frontage along Ebbitts Street, 930 feet of frontage along Mill Road, 1,033,946 square feet of lot area and is being developed as a shopping center with three existing commercial buildings and the construction of three new commercial buildings; and

WHEREAS, the subject building will be a two-story commercial building located at the northwest corner of Ebbitts Street and Mill Road with the PCE proposed for a portion of the second floor; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special

MINUTES

permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE will occupy 37,828 square feet of floor area on the second floor, including exercise areas for aerobics, functional training and cycling, a swimming pool, saunas, locker rooms and restrooms; and

WHEREAS, the PCE will operate as LA Fitness, with the following hours of operation: 24 hours per day, seven days per week; and

WHEREAS, the applicant represents that the PCE use is consistent with the vibrant commercial shopping center in which it is located and that the PCE use will be located on the second floor and fully contained within the envelope of the subject building; and

WHEREAS, in addition, the applicant submits that sound attenuation measures, including rubber flooring, a split isolation slab, a dense acoustical-arresting ceiling installed below overhead slabs and hung ceilings with acoustical ceiling tiles, will be provided within the space so as to not disturb adjacent retail uses; and

WHEREAS, the Board finds that the PCE use is so located as not to impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE will provide classes such as aerobics, cycling, step, yoga and other types of personal training, open areas for weight training and cardiovascular exercise and a swimming pool;

and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE will be fully sprinklered and that an approved fire alarm—including area smoke detectors, manual pull stations at each required exist, local audible and visual alarms and connection to an FDNY-approved central station—will be installed in the entire PCE space; and

WHEREAS, by letter dated May 7, 2018, the Fire Department represents that it has no objection to this application; and

WHEREAS, in response to the Board's comments at hearing, the applicant clarified that the PCE use will be located entirely on the second floor of the subject building; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the project is part of The Boulevard at Hylan Plaza project that is classified as a Type I action pursuant to 6 NYCRR Part 617.4; and

WHEREAS, the City Planning Commission, as lead agency of The Boulevard at Hylan Plaza application, has conducted an environmental review of a proposed PCE use of similar size to the proposed action before the Board and has documented relevant information about the project in the Final Environmental Impact Statement (FEIS) CEQR No. 17DCP031R, dated May 12, 2017; and

WHEREAS, an (E) designation (No. E-414) has been placed on the subject site for hazardous materials Phase I and Phase II testing protocol and window-wall attenuation and alternate ventilation; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-36 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *adopt* the findings of the Notice of Completion of the FEIS prepared by the City Planning Commission in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to *permit*, in a C4-1 zoning district,

MINUTES

the operation of a physical culture establishment on the second floor of the subject building, contrary to ZR § 32-10; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked “Received April 3,2018”- Eight (8) sheets; and *on further condition*:

THAT this grant shall be limited to a term of ten (10) years, expiring May 8, 2028;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum 3’-0” wide exit pathways shall be provided leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be installed in the entire PCE space and the PCE shall be fully sprinklered, as indicated on the Board-approved plans;

THAT sound attenuation shall be installed in the PCE, as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by May 8, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 8, 2018.

ACTION OF THE BOARD – Application withdrawn from the compliance calendar.

THE VOTE TO WITHDRAW –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the Board has exercised jurisdiction over the subject site since February 15, 1956, when, under BSA Calendar No. 415-55-BZ, the Board granted a variance to permit parking within the residential area in connection with an automobile showroom in a local retail district on condition that all uses on the premises be removed; along the west, south and east lines, and along the portion of the street line of Northern Boulevard a woven wire fence of the chain link type on a masonry base to a total height of not less than 5'-6" be erected; planting areas be maintained, with curbing not less than 10 inches in height for protection and such planting to the south and east be dense planting with sizable trees so as to act as complete screen for Hanford Street and the residential property to the south and such planting be continued within the three foot strip as shown along Northern Boulevard with suitable planting of suitable dense hedge type which need not exceed five feet in height; the entrance of the premises be by means of three curb cuts, one toward the easterly end, one toward the westerly end and one toward the center; usual servicing for the Chevrolet Agency may occur on site; one gasoline pump and one 550 gallon tank may be located within the building for the owner's use only; parking space permitted for a term of twenty (20) years be graded with clean gravel or steam cinders and treated with a binder and properly rolled; the areas in front of the building, to the east of the showroom, be properly planted; motor vehicle entrances to the building

be paved with concrete; the sidewalk and curbing around the premises be constructed or restored to the satisfaction of the Borough President; signs be restricted to permanent signs attached to the building as may be permitted in a local retail district; no roof signs or temporary signs; a neat sign be attached to the entrance stating, with reference to the parking proposed on the plot, that the use of such parking is for private use only and not for public parking; repairing be done by approved tools and under license issued by the Fire Commissioner for such repair work and servicing requiring license; the space below the general grade of the building that opens toward the west and proposed to be used for servicing be maintained with windows and required ventilation; the building be faced with light face brick on all sides; a system for the elimination of obnoxious gases be maintained, exhausting away from the residence district; and fire equipment be installed as the Fire Commissioner requires; and

WHEREAS, on February 13, 1957, under BSA Calendar No. 415-55-BZ, the Board amended its resolution to permit two 550 gallon lubricating tanks and one 550 gallon oil tank for the lubrication system of cars to be located at the site; and

WHEREAS, on May 1, 1962, under BSA Cal. No. 415-55-BZ, the Board granted a variance to permit in a local retail and residence use district, at an existing auto showroom with service of new and used cars and trucks, car conditioning, storage and sale of parts with auto repairs as previously granted by the Board, and open parking, the erection of a one-story extension for car conditioning and roof parking extending into the residence portion of premises which would encroach on the required rear and side yards on condition that the work be done in accordance with drawings filed with the application and on further condition that the walls of the new extension above the grade of the lot be constructed of face brick; and

WHEREAS, on July 21, 1964, under the subject calendar number, the Board granted a variance, pursuant to ZR § 72-21, to permit the construction of a one- and two-story enlargement to an existing auto showroom and service station previously granted by the Board on condition that the building conform to plans filed with the application, that the elevations of the new extension including the concrete block screen shall be submitted to the Chairman of the Board for approval before being sent to the Department of Buildings, that the planting on Alameda Avenue and Hanford Street called for in the original grant be put in good condition and maintained; and a certificate of occupancy be obtained within one year; and

WHEREAS, on November 17, 1964, under the subject calendar number, the Board amended its resolution to allow the owner to change the arrangement of the ramp from Northern Boulevard and the entrance, exit and curb-cut facilities on 234th Street, and to provide additional roof parking over the southerly portion of the new extension; and

WHEREAS, on May 11, 1965, under the subject calendar number, the Board granted a one year extension of

MINUTES

time to obtain permits, complete construction and obtain a certificate of occupancy, expiring May 11, 1966; and

WHEREAS, on December 7, 1965, under the subject calendar number, the Board amended the resolution to state that, in the event the owner desires to redesign and rearrange the building, including a reduction in the floor area previously permitted, such changes are permitted on condition that the work be done in accordance with revised drawings submitted in connection with the application; and

WHEREAS, on January 4, 1967, under the subject calendar number, the Board granted a one year extension of time, until January 4, 1968, to complete construction and obtain a certificate of occupancy and an amendment of the resolution to permit the reduction in area and rearrangement of the building and the premises as shown on accompanying BSA-approved plans; and

WHEREAS, on January 16, 1968, under the subject calendar number, the Board granted a one year extension of time, until January 4, 1969, to complete construction in view of the applicant's statement that a building permit had been obtained and work was in progress; and

WHEREAS, by letter dated August 30, 1991, the Board approved interior alterations, including raising the elevation of the floor by 4 feet, and the widening of a rear entrance by 4 feet at the eastern end of the existing building (from 5 feet to 9 feet); and

WHEREAS, on November 4, 2013, the applicant filed an applicant for an amendment of the variance granted under the subject calendar number to enlarge the existing showroom and add a parking deck to the existing auto dealership; and

WHEREAS, the applicant failed to respond to the Board's requests for additional information or make any progress towards bring the site into compliance with the conditions of the Board's previous grants over the course of nearly three years of public hearings, including seven hearings scheduled but subsequently adjourned at the applicant's request, and, on April 25, 2017, the application was dismissed for failure to prosecute on April 25, 2017, and, on the same date, the Board made a motion to hold a compliance hearing, pursuant to § 1-12.8 of the Board's Rules of Practice and Procedure, which was scheduled for September 12, 2017; and

WHEREAS, in particular, the Board noted that the premises was plagued with excess signage, parking on the sidewalks, a temporary trailer and landscaping insufficient to buffer the commercial use from neighboring residential uses; and

WHEREAS, a public hearing with regards to compliance was held on September 12, 2017, after due notice to the owner of record and applicant of record, with continued hearings on January 23, 2018, and May 15, 2018, and then to decision on May 15, 2018; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown, former Vice-Chair Hinkson and former Commissioner Montanez performed inspections of the site and the surrounding area; and

WHEREAS, the applicant planted a total of 16 trees along Hanford Street and Alameda Avenue and installed additional landscaping to buffer the site and its commercial use from its residential neighbors; installed bollards along the Northern Boulevard frontage of the site to discourage parking on the sidewalks; removed excess pylon signage; and removed the temporary trailer; and

WHEREAS, with regards to a 10 foot wide planting strip along the southeastern lot line of the subject site shared with an adjacent residential property required pursuant to previously approved plans, the applicant states that the space, though owned by the applicant, is utilized with the applicant's consent by the residential neighbor as a driveway and for storage and the neighbor prefers the continuation of this use; and

WHEREAS, the applicant provided an affidavit read, understood and agreed to by the residential neighbor to that effect; and

WHEREAS, the Board acknowledges that the requirement of a 10 foot wide planting strip at that location was proposed as a benefit to that neighbor and concedes the neighbor's preference for the maintenance of that area as-is; and

Therefore it is Resolved, that the Board of Standards and Appeals finds that the applicant has submitted adequate documentation demonstrating substantial compliance with the Board's prior grant and that the application is withdrawn from the Compliance Calendar; *on condition*:

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect.

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 15, 2018.

217-96-BZ

APPLICANT – Eric Palatnik, P.C., for Silverbell Investment Co., Inc., owner; Enterprise Rent-A-Car, lessee.
SUBJECT – Application October 27, 2017 – Extension of Term of a previously approved Variance (§72-21) which permitted the operation of a car rental facility (*Enterprise Rent-A-Car*) (Use Group 8) which expired on October 7, 2017. C1-2 (R2) zoning district.

PREMISES AFFECTED – 165-01 Northern Boulevard, Block 5340, Lot 8, Borough of Queens.

COMMUNITY BOARD #7Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5
Negative:0

MINUTES

THE RESOLUTION –

WHEREAS, this is an application for an extension of term of a variance, previously granted by the Board; and

WHEREAS, a public hearing was held on this application on January 30, 2018, after due notice by publication in *The City Record*, with a continued hearing on March 20, 2018, and then to decision on May 15, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 7, Queens, recommends approval of this application on condition that motion-sensor lighting be added to the building's exterior to stay lit from sunset to 12:00 a.m. and that the residential streets not be used for overflow parking; and

WHEREAS, Borough President Melinda Katz submitted testimony in support of this application on condition that vehicles not be parked or stored on the nearby residential streets or sidewalks and that the subject site and sidewalks be well maintained and clean and free of debris; and

WHEREAS, the Auburndale Improvement Association submitted testimony, citing concerns with the parking or standing of vehicles on the sidewalk, with maneuverability within the boundaries of the subject site, with the retaining wall at the rear of the site and with the absence of street trees; and

WHEREAS, the subject site is located on the northeast corner of Northern Boulevard and 165th Street, in an R2 (C1-2) zoning district, in Queens; and

WHEREAS, the Board has exercised jurisdiction over the subject site since October 7, 1997, when, under the subject calendar number , the Board granted a variance to permit a car rental facility with outdoor storage of rental cars (Use Group 8) located in a portion of a one-story commercial building for a term of ten (10) years, expiring October 7, 2007, on condition that screening and fencing be maintained in accordance with the Board-approved plans, that signage be limited in accordance with the Board-approved plans, that there be no parking on the sidewalks or double parking of rental cars in front of or adjacent to the subject site, that there be no vacuuming, washing or other preparing of vehicles at the subject site and the outdoor lot be used exclusively for the parking of cars, that the above conditions appear on the certificate of occupancy and that a certificate of occupancy be obtained within one (1) year, by October 7, 1998; and

WHEREAS, on January 12, 2010, the Board granted an extension of term of ten (10) years, expiring October 7, 2017, on condition that signage comply with C1 zoning district regulations, that a “no left turn” sign be installed on the subject site in accordance with the Board-approved plans, that all landscaping be provided and maintained in accordance with the Board-approved plans, that the subject site be maintained free of debris and graffiti, that the above conditions appear on the certificate of occupancy and that a new certificate of occupancy be obtained by July 12, 2010;

and

WHEREAS, the term of the variance having expired, the applicant now seeks an extension; and

WHEREAS, in response to community concerns, the Board directed the applicant to provide a detailed operational plan to address lighting, maintenance and parking issues at the subject site; and

WHEREAS, in response to questions from the Board, the applicant states that the retaining wall is the property of the adjacent site and that there are 17 spaces available for rental vehicles and three parking spaces for customers; and

WHEREAS, the applicant further states that a replacement street tree application has been submitted; and

WHEREAS, based upon its review of the record, the Board has determined that the requested extension of term is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated October 7, 1997, as amended through January 12, 2010, so that as amended this portion of the resolution shall read: “to *permit* an extension of term of ten (10) years, expiring October 7, 2027; *on condition* that all work and site conditions shall conform to drawings filed with this application marked “Received May 15, 2018”-Four (4) sheets; and *on further condition*:

THAT the term of this grant shall be for ten (10) years, expiring October 7, 2027;

THAT security cameras shall be installed to monitor the parking lot and the interior office space 24 hours per day, seven days per week;

THAT an attendant shall monitor both the parking lot and sidewalk area in front of the subject site during normal business hours to ensure that parking is left available to returning customers and to ensure no vehicle parks on the curb or stops on the sidewalks while driving into the subject site; in the event this does happen, the vehicle shall be removed immediately;

THAT the timer setting on the parking lot's light shall be adjusted so that one security light shall remain on throughout the night;

THAT three parking spaces be reserved for customer parking in order to ensure that customers park within the fenced lot on the subject site;

THAT the hours of operation shall be limited as follows: 7:30 a.m. to 6:00 p.m., Monday to Friday, and 9:00 a.m. to 1:00 p.m., Saturday and Sunday;

THAT landscaping shall be maintained on a monthly basis, or as needed, whichever is more frequent; such maintenance shall include keeping the subject site free and clean of all debris and removing weeds from the subject site as well as atop the retaining wall;

THAT lighting shall be provided by the existing light fixtures on the subject site;

THAT lighting shall be adjusted throughout the year so as to turn lights on prior to sunset and turn lights off shortly after sunrise;

THAT lighting shall be maintained by regularly

MINUTES

checking the functionality of the equipment and based upon employee feedback working at the facility on a daily basis;

THAT lighting repairs shall be made as quickly as possible;

THAT signage shall comply with C1 zoning district regulations;

THAT a “no left turn” sign shall be maintained on the subject site in accordance with the Board-approved plans;

THAT all landscaping shall be provided and maintained in accordance with the Board-approved plans;

THAT the subject site shall be maintained free of debris and graffiti;

THAT screening and fencing shall be maintained in accordance with the Board-approved plans;

THAT signage shall be limited in accordance with the Board-approved plans;

THAT there shall be no parking on the sidewalks or double parking of rental cars in front of or adjacent to the subject site;

THAT there shall be no vacuuming, washing or other preparing of vehicles at the subject site and the outdoor lot be used exclusively for the parking of cars;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by May 15, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, May 15, 2018.

180-05-BZ

THE RESOLUTION –

WHEREAS, this is an application for an amendment to a special permit, granted pursuant to ZR § 73-36, and an extension of the term of the same, which expired on February 28, 2016; and

WHEREAS, a public hearing was held on this application on March 21, 2017, after due notice by publication in *The City Record*, with continued hearings on September 12, 2017, and January 9, 2018, and then to decision on May 15, 2018; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and former Vice-Chair Hinkson performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the northeast corner of Third Avenue and East 85th Street, partially within a C2-8A zoning district and partially within an R8B zoning district, in Manhattan; and

WHEREAS, the site has approximately 77 feet of frontage along Third Avenue, 125 feet of frontage along East 85th Street and is occupied by a four-story plus basement commercial building known as the Yorkville Bank Building and designated by the New York City Landmarks Preservation Commission as an individual landmark; and

WHEREAS, the Board has exercised jurisdiction over the subject site since February 28, 2006, when, under the subject calendar number, the Board granted a special permit, pursuant to ZR § 73-36, legalizing a physical culture establishment (“PCE”) with a total floor area of 26,666 square feet, located on all floors of the four-floor plus mezzanine and basement commercial building contrary to ZR § 32-10, for a term of ten (10) years, expiring February 28, 2016, on condition that there be no change in ownership or operating control of the PCE without prior application to and approval from the Board; that the PCE’s hours of operation be limited to Monday through Thursday, 5:30 a.m. to 11:00 p.m., Friday 5:30 a.m. to 10:00 p.m., and Saturday and Sunday 8:00 a.m. to 9:00 p.m.; that all massages be performed only by practitioners with valid and current New York State massage licenses; that the conditions appear on the certificate of occupancy, that a certificate of occupancy be obtained within one year of the grant; that fire safety measures, including a sprinkler system, be installed and maintained; that an interior fire alarm system be provided; that the Department of Buildings (“DOB”) review the rear yard encroachment and confirm that it is a permitted obstruction in the R8B portion of the lot; and that the owner take appropriate remedial action, as directed by DOB, if DOB determines that the encroachment is unlawful; and

WHEREAS, the previous term having expired, the applicant seeks an extension of the term for an additional ten (10) years as well as an amendment to change the hours of

MINUTES

operation; and

WHEREAS, a portion of the subject lot and the subject PCE are located within an R8B zoning district, where the PCE special permit is not available, and, in hearing, the Board questioned whether the Board had authority to grant the special permit application; and

WHEREAS, the Board notes that, pursuant to ZR § 77-11, on a zoning lot existing on December 15, 1961, divided by a boundary between districts in which different uses are permitted, the use regulations applicable to the district in which more than 50 percent of the lot area of the zoning lot is located may apply to the entire zoning lot, provided that the greatest distance from the mapped district boundary to the lot line of the zoning lot in the district in which less than 50 percent of its area is located, measured perpendicular to the mapped district boundary, does not exceed 25 feet; and

WHEREAS, however, a Zoning Lot Description and Ownership Statement was recorded in the Office of the City Register of the City of New York against the subject site on May 5, 2006, (Document ID 2006020100489002) describing the subject site was, along with Tax Lots 45, 46, 47, 48 and 4 on Block 1531 a single zoning lot; and

WHEREAS, on September 19, 2006, a second Zoning Lot Description and Ownership Statement was recorded against the subject site (Document ID 2006091401180002) describing the subject site and Tax Lots 4, 6, 43, 45, 46, 47 and 48 on Block 1531 as a single zoning lot (the "Zoning Lot"); and

WHEREAS, prior to the merger of the subject lot with adjacent tax lots, ZR § 77-11 permitting the extension of the PCE use into the portion of the zoning lot located within an R8B zoning district, but, because the Zoning Lot was created subsequent to December 15, 1961, and the distance from the district boundary line to the lot line of the Zoning Lot is now greater than 25 feet, ZR § 77-11 is inapplicable to the subject site and a use permitted in the portion of the lot located in a C2-8A zoning district cannot be applied to the entire zoning lot; and

WHEREAS, ZR § 77-12 states that whenever a zoning lot is divided by a boundary between districts in which different uses are permitted and the provisions of ZR § 72-11 do not apply, the applicable use regulations for each district shall apply except as provided in ZR §§ 73-42 or 73-52; and

WHEREAS, neither ZR § 73-42, which permits the expansion of a conforming use into a district where such use is not permitted, nor ZR § 73-52, which permits modifications to zoning lots divided by district boundaries where the zoning lot existed in single ownership on December 15, 1961, are applicable at the subject site and, thus, the applicable use regulations for C2-8A zoning districts and R8B zoning districts apply to the respective portions of the subject lot located in each of those zoning districts pursuant to ZR § 77-12 and the subject PCE is not permitted in the portion of the subject building located in an

R8B zoning district; and

WHEREAS, accordingly, the Board questioned its authority to grant this applicant and extend the term of the PCE which occupies a portion of a building located in an R8B zoning district, where the PCE special permit is not available pursuant to ZR § 73-36; and

WHEREAS, the applicant requested withdrawal of this application and represents that an application for a variance at the subject site will be pursued instead; and

WHEREAS, the request for withdrawal was made prior to the close of the public hearing on this application, thus, pursuant to § 1-12.2 of the Board's Rules of Practice and Procedure, the Board may permit withdrawal of the application without prejudice.

Therefore, it is Resolved, that the Board of Standards and Appeals accepts the withdrawal of this application without prejudice.

Adopted by the Board of Standards and Appeals, May 15, 2018.

45-08-BZ

APPLICANT – Rampulla Associates Architects, for 65 Androvetta Street, LLC, owner.

SUBJECT – Application April 25, 2018 – Extension Time to Complete Construction of Variance (§72-21) to construct a new four-story, 81-unit age restricted residential facility which expired on May 19, 2017. M1-1 (Area M), SRD & SGMD zoning district.

PREMISES AFFECTED – 55 Androvetta Street, Block 7407, Lot(s) 1, 80, 82 (Ten. 1), Borough of Staten Island.

COMMUNITY BOARD #3SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board's Rules of Practice and Procedure and an extension of time to complete construction; and

WHEREAS, a public hearing was held on this application on May 15, 2018, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, the Board has exercised jurisdiction over the subject site since May 19, 2009, when, under the subject calendar number, the Board granted a variance to permit a three-story residential building (Use Group 2) restricted to adults aged 55 and over, with 81 dwelling units, cellar-level community facility use and 81 accessory parking spaces on condition that the following be the parameters of the building: a floor area of 75,952 square feet (0.61 FAR), a street wall height of 39'-0" and a total building height of 39'-0", that the occupancy of the building be limited to

MINUTES

persons 55 years of age or older, in accordance with applicable provisions of the Housing for Older Persons Act requirements, that all other Housing for Older Persons Act requirements be complied with for the life of the building, that the above conditions be listed on the certificate of occupancy, that a Builder's Pavement Plan be filed and approved by the Department of Transportation prior to the issuance of a building permit, that administrative certifications be obtained from the City Planning Commission as required by ZR §§ 107-64 (removal of trees), 107-65 (modification of topography) and 107-23 (school seats) prior to the issuance of a building permit, that the issuance of a building permit be conditioned on securing approval by the Department of Health ("DOH") of a sewer pump station and force main and by the Department of Environmental Protection ("DEP") of the latter as well as of a storm water discharge plan, that issuance of a building permit be conditioned on the issuance by the Department of Environmental Conservation ("DEC") of a Freshwater Wetlands Adjacent Area Permit for the exaction of Kreisler Street, that the issuance of any building permit that would result in grading, excavation, foundation, alteration, building or other permit respecting the subject site which permits soil disturbance for the Project, the applicant or its successor be conditioned on the issuance of Notices to Proceed from the Landmarks Preservation Commission ("LPC") and DEP, that the issuance of any building permit for further construction on the subject site be conditioned on the securing of a Notice of Objection or a Notice of Satisfaction from DEP, as applicable, and either a Notice of No Objection after field Work, or a Notice of No Objection, as applicable, from the LPC, that all fencing and landscaping be installed and maintained as indicated on the Board-approved plans and that the issuance of a temporary certificate of occupancy be conditioned on the issuance of a Final Notice of Satisfaction by the LPC and a Notice of Satisfaction from DEP; and

WHEREAS, on August 13, 2013, under the subject calendar number, the Board granted an extension of time to complete construction, expiring May 19, 2017; and

WHEREAS, the time to complete construction having expired, the applicant now seeks an extension of time and a waiver of the Board's Rules of Practice and Procedure to allow the late filing of this application; and

WHEREAS, based upon its review of the record, the Board has determined that the requested waiver of the Board's Rules of Practice and Procedure and extension of time to complete construction are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *waive* the Rules of Practice and Procedure and *reopen* and *amend* the resolution, dated May 19, 2009, as amended through August 13, 2013, so that as amended this portion of the resolution shall read: "to permit an extension of time to complete construction of four (4) years, expiring May 19, 2021; *on condition* that all work, site conditions and operations shall conform to the Board-

approved plans; and *on further condition*:

THAT the following shall be the parameters of the building: a floor area of 75,952 square feet (0.61 FAR), a street wall height of 39'-0" and a total building height of 39'-0";

THAT the occupancy of the building shall be limited to persons 55 years of age or older, in accordance with applicable provisions of the Housing for Older Persons Act requirements;

THAT all other Housing for Older Persons Act requirements shall be complied with for the life of the building;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a Builder's Pavement Plan shall be filed and approved by the Department of Transportation prior to the issuance of a building permit;

THAT administrative certifications shall be obtained from the City Planning Commission as required by ZR §§ 107-64 (removal of trees), 107-65 (modification of topography) and 107-23 (school seats) prior to the issuance of a building permit;

THAT the issuance of a building permit shall be conditioned on securing approval by the Department of Health of a sewer pump station and force main and by the Department of Environmental Protection of the latter as well as of a storm water discharge plan;

THAT issuance of a building permit shall be conditioned on the issuance by the Department of Environmental Conservation of a Freshwater Wetlands Adjacent Area Permit for the exaction of Kreisler Street;

THAT the issuance of any building permit that would result in grading, excavation, foundation, alteration, building or other permit respecting the subject site which permits soil disturbance for the Project, the applicant or its successor shall be conditioned on the issuance of Notices to Proceed from the Landmarks Preservation Commission and DEP;

THAT the issuance of any building permit for further construction on the subject site shall be conditioned on the securing of a Notice of Objection or a Notice of Satisfaction from DEP, as applicable, and either a Notice of No Objection after field Work, or a Notice of No Objection, as applicable, from the LPC;

THAT all fencing and landscaping shall be installed and maintained as indicated on the Board-approved plans;

THAT the issuance of a temporary certificate of occupancy shall be conditioned on the issuance of a Final Notice of Satisfaction by the LPC and a Notice of Satisfaction from DEP;

THAT a certificate of occupancy shall be obtained within four (4) years, by May 15, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered

MINUTES

approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, May 15, 2018.

187-08-BZ

APPLICANT – Sheldon Lobel, P.C., for Congregation & Yeshiva Maschzikei Hadas, owner.

SUBJECT – Application April 22, 2016 – Amendment to a variance (§72-21) to allow a five-story school (Congregation & Yeshiva Maschzikei Hadas). The application seeks to increase the zoning lot contrary to the previous Board approval. M1-2/R6B zoning district.

PREMISES AFFECTED – 1247 38th Street, Block 5295, Lot(s) 52 & 109, Borough of Brooklyn.

COMMUNITY BOARD #12BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated March 26, 2016, acting on Alteration Application No. 3202269925, reads in pertinent part:

“Proposed maximum Floor Area Ratio (FAR), Community Facility, is contrary to ZR 24-11”

“Proposed maximum Lot Coverage, Community Facility, is contrary to ZR 24-11”

“Proposed Rear Yards, Community Facility, is contrary to ZR 24-36”

“Proposed Rear Yards Equivalent, Community Facility, is contrary to ZR 24-382”

“Proposed Base Height of Front wall, Community Facility, is contrary to ZR 23-633 / 24-522”

“Proposed Building Height, Community Facility, is contrary to ZR 23-633”

“Proposed Initial setback of Front wall, Community Facility, is contrary to ZR 23-633(b)”; and

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure, an amendment of a variance, previously granted by the Board, to permit a five-story, with cellar and subcellar, community-facility building for use as a school that does not comply with zoning regulations for floor area, lot coverage, rear yards, rear yard equivalent, base height, building height and initial setback, contrary to ZR §§ 24-11, 24-36, 24-382, 23-633,

24-522, 23-633, and an extension of time to complete construction; and

WHEREAS, a public hearing was held on this application on June 6, 2017, after due notice by publication in *The City Record*, with continued hearings on August 22, 2017, November 14, 2017, January 30, 2018, and March 20, 2018, and then to decision on May 15, 2018; and

WHEREAS, Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 12, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the north side of 38th Street and south side of 37th Street, between 12th Avenue and 13th Avenue, partially in an M1-2/R6B zoning district and partially in an M1-2/R6A zoning district, in the Special Mixed Use District – 12, in Borough Park in Brooklyn; and

WHEREAS, the site has approximately 160 feet of frontage along 38th Street, 160 feet of frontage along 37th Street, 200 feet of depth, 31,706 square feet of lot area and is occupied by a community-facility building under construction; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 16, 2010, when, under the subject calendar number, the Board granted a variance to permit a five-story community-facility building for use as a school that does not comply with applicable use regulations on condition that the following shall be the bulk parameters of the proposed building: five stories, a floor area of 99,200 square feet (4.1 FAR), a lot coverage of 80 percent, a total height of 60’-0”, and a rear yard with a minimum depth of 15’-0”, as reflected on the Board-approved plans; that any change in the use, occupancy, or operator of the school requires review and approval by the Board; that no commercial catering use shall take place on site; that no temporary or permanent Certificate of Occupancy shall be issued by DOB or accepted by the applicant or successor until DEP shall have issued a Notice of Satisfaction; that 30 dBA of window-wall noise attenuation shall be provided in the proposed building; and

WHEREAS, on December 6, 2011, the Board amended the variance to allow the addition of a subcellar, changes to the interior layout of the cellar, first floor and fifth floor and bulk modifications to the proposed building on condition that the following be the bulk parameters of the proposed building: five stories, a maximum floor area of 102,360 square feet (4.25 FAR), a maximum lot coverage of 83 percent, a maximum base height of 55’-0” with a setback of 10’-0” above the base height, a maximum total height of 70’-0”, and a rear yard with a minimum depth of 15’-0”, as illustrated on the BSA-approved plans; and

WHEREAS, the time to complete construction having expired, the applicant now seeks a waiver of the Board’s Rules of Practice and Procedure to allow the late filing of this application, an amendment and an extension of time to

MINUTES

complete construction; and

WHEREAS, the applicant seeks to expand the subject site to include Lot 52, increasing the lot area of the subject site from approximately 24,056 square feet to approximately 31,076 square feet; and

WHEREAS, the applicant now proposes to develop a five-story building with a total floor area of 114,954 square feet (3.62 FAR), lot coverage of 73 percent, a base height of 55'-0", total height of 70'-0", a rear yard of 50'-0", a rear yard equivalent of 50'-0" and an initial setback of 10'-0" at the fifth floor; and

WHEREAS, the applicant states that the requested modifications are necessary to accommodate the programmatic needs of a school; and

WHEREAS, in support of this contention, the applicant submits that the subcellar will include a lunch room and kitchen; the cellar will include a multipurpose room, to be used as a banquet hall (Use Group 9) in the evenings, kitchen and lobbies; the mezzanine will include mechanical space; the first floor will include classrooms, an arts-and-crafts room and Head Start offices; the second floor will include preschool classrooms, first- and second-grade classrooms, special-education rooms, a library and a resource room; the third floor will include classrooms, computer rooms, special-education rooms, a library and a resource room; the fourth floor will include classrooms, computer rooms, special-education rooms, a library and a resource room; and the fifth floor will include a study hall, classrooms and resource rooms; and

WHEREAS, in response to questions from the Board, the applicant amended the drawings to reflect (E) designation requirements, show proposed curb cuts, proposed use of Lot 109 as parking for cars and bus drop offs, the addition of a wheelchair lift, calculations for safe areas, clarification as to the dual use of the cellar for use as an accessory multipurpose room and a banquet hall in Use Group 9; and

WHEREAS, the applicant also made revisions to the proposed parking plans to accommodate bus drop offs and parking for 15 cars during the day and valet parking of 38 cars during the evening on Lot 109; the parking of 5 buses and valet parking for 26 cars at 1138 36th Street; and valet parking for 55 cars at 1147 37th Street; and

WHEREAS, in response to questions from the Board about the massing of the proposed building, the applicant revised the proposed building to reflect a setback with a depth of 10 feet at the fifth floor and submitted evidence that illegally installed steel within the 10-foot setback had been removed; and

WHEREAS, the applicant represents that an automatic fire alarm and sprinkler system will be installed throughout the building and connected to an FDNY-approved central station; and

WHEREAS, the applicant submitted a detailed security plan including a door and hardware schedule, a door signage plan, a security fixtures plan and an egress routes plan; and

WHEREAS, by letter dated September 30, 2017, the Department of Housing Preservation and Development ("HPD") states that it consents to the use of Lot 109 as a bus drop off for students attending the subject school and valet parking for events held in the evening in the subject building; and

WHEREAS, by letter dated April 11, 2017, the Department of Transportation's School Safety Unit states that it has no objections to this application so long as it is notified of the school's opening to determine if traffic safety improvements or parking regulation changes are necessary; and

WHEREAS, by letter dated April 24, 2018, the Fire Department states that it has no objection to this application; and

WHEREAS, the Board conducted an environmental review of the underlying action and documented relevant information about the project in the Final Environmental Assessment Statement ("EAS") CEQR No. 09BSA006K, dated July 10, 2008; and

WHEREAS, the applicant provided the Board with a Technical Memorandum dated August 4, 2017, updating the July 10, 2008 EAS; the Technical Memorandum states that neither the project nor the proposed modification thereto would result in any significant adverse environmental impact; and

WHEREAS, by letter dated August 14, 2017, the Department of Environmental Protection states that it finds the July 2017 Remedial Closure Report acceptable and that it has no objection to the issuance of any permits by DOB; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board notes that the amendments proposed, pertaining to floor area, lot coverage, rear yards, rear yard equivalent, base height, building height and initial setback, relate solely to the use of the subject building by a school (Use Group 3) and are unrelated to any use of the cellar and mezzanine by a banquet hall (Use Group 9); and

WHEREAS, based upon its review of the record, the Board has determined that the requested waiver of the Board's Rules of Practice and Procedure, amendment and extension of time to complete construction are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *waive* the Rules of Practice and Procedure and *reopen* and *amend* the resolution, dated March 16, 2010, as amended through December 6, 2011, so that as amended this portion of the resolution shall read: "to *permit* a five-story, with cellar and subcellar, community-facility building for use as a school that does not comply with zoning regulations for floor area, lot coverage, rear yards, rear yard equivalent, base height, building height and initial setback, contrary to ZR §§ 24-11, 24-36, 24-382, 23-633, 24-522, 23-633, and an extension of time to complete construction of four (4) years, expiring May 15, 2022; *on*

MINUTES

condition that all work and site conditions shall conform to drawings filed with this application marked “Received April 26, 2018”-Twenty-one (21) sheets; and *on further condition*:

THAT no activities of the banquet hall shall be permitted in the main school lobby, the lunch room or the cellar other than those areas specifically labeled in the cellar and mezzanine level as Use Group 9 on the Board-approved plans;

THAT the bulk parameters of the building shall be as follows: a total floor area of 114,954 square feet (3.62 FAR), lot coverage of 73 percent, a base height of 55’-0”, total height of 70’-0”, a rear yard of 50’-0” and 0’-0”, a rear yard equivalent of 50’-0” and an initial setback of 10’-0” at the fifth floor, as indicated on the Board-approved plans;

THAT this site is the subject of Board of Standards and Appeals Calendar Number 187-08-BZ;

THAT any changes to the proposed project shall require prior approval by the Board of Standards and Appeals;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by May 15, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, May 15, 2018.

247-08-BZ

APPLICANT – Eric Palatnik, P.C., for 3454 Star Nostrand LLC, owner.

SUBJECT – Application March 25, 2016 – Extension of Term of a previously approved Special Permit (§73-243) to permit the operation of an accessory drive-thru facility to an eating and drinking establishment (Popeye’s), which expired on May 12, 2014; Waiver of the Rules. C1-2/R4 zoning district.

PREMISES AFFECTED – 3454 Nostrand Avenue, Block 7362, Lot 10, Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and

Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and an extension of term of a special permit, previously granted by the Board; and

WHEREAS, a public hearing was held on this application on February 27, 2018, after due notice by publication in *The City Record*, with continued hearings on May 15, 2018, and then to decision on the same date; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of Nostrand Avenue, between Gravesend Neck Road and Avenue V, in an R4 (C1-2) zoning district, in Brooklyn; and

WHEREAS, the site has approximately 49 feet of frontage along Nostrand Avenue, 52 feet of frontage along Gravesend Neck Road, 6,567 square feet of lot area and is occupied by a one-story commercial building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since May 12, 2009, when, under the subject calendar number, the Board granted a special permit for the operation of an accessory drive-through facility in connection with an as-of-right eating or drinking establishment (Use Group 6) for a term of five (5) years, expiring May 12, 2014, on condition that the site be maintained free of debris and graffiti, that parking and queuing space for the drive-through be provided as indicated on the Board-approved plans, that all landscaping or buffering be maintained as indicated on the Board-approved plans, that exterior lighting be directed away from adjacent residential uses, that the above conditions appear on the certificate of occupancy and that signage conform with the underlying C1 zoning district regulations; and

WHEREAS, the term having expired, the applicant now seeks a waiver of the Board’s Rules of Practice and Procedure to permit the late filing of this application and an extension of term; and

WHEREAS, the applicant states that the drive-through facility has not had an undue adverse impact on residences within the immediate vicinity and that adequate buffering between the drive-through facility is in place; and

WHEREAS, the applicant submits that visual screening and sound attenuation are provided, including a noise-barrier wall system with a height of six feet along the perimeter of the site to the south and west, dense plantings with widths of at least four feet and heights of four feet have been maintained along the south and southwest perimeter and setbacks separate adjacent residences from the drive-through facility; and

WHEREAS, the applicant submitted evidence that sound levels from the menu board are within an appropriate range; and

MINUTES

WHEREAS, the applicant submits that exterior lighting has been directed away from adjacent residences and that signage complies with C1 zoning district regulations; and

WHEREAS, the applicant states that the hours of operation are as follows: the dining room is open from 10:00 a.m. to 12:00 a.m., Sunday to Thursday, and 10:00 a.m. to 1:00 a.m., Friday and Saturday; and the drive through is open 10:00 a.m. to 1:00 a.m., Sunday to Thursday, and 10:00 a.m. to 2:00 a.m., Friday and Saturday; and

WHEREAS, in response to questions from the Board, the applicant submits that the door to the refuse area will be reinstalled; and

WHEREAS, the applicant has satisfactorily demonstrated compliance with the conditions of the previous term and the Board finds that the circumstances warranting the original grant still obtain; and

WHEREAS, based upon its review of the record, the Board has determined that the requested waiver of the Board's Rules of Practice and Procedure and extension of term are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *waive* the Rules of Practice and Procedure and *reopen* and *amend* the resolution, dated May 12, 2009, so that as amended this portion of the resolution shall read: "to *permit* an extension of term of five (5) years, expiring May 12, 2019; *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received April 24, 2018"-Five (5) sheets; and *on further condition*:

THAT the term of this grant shall be for five (5) years, expiring May 12, 2019;

THAT the site shall be maintained free of debris and graffiti;

THAT parking and queuing space for the drive-through shall be provided as indicated on the Board-approved plans;

THAT all landscaping or buffering be maintained as indicated on the Board-approved plans;

THAT exterior lighting be directed away from adjacent residential uses;

THAT signage shall conform with the underlying C1 zoning district regulations;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by May 15, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure

compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted."

Adopted by the Board of Standards and Appeals, May 15, 2018.

933-28-BZ

APPLICANT – Gerard J. Caliendo, R.A., AIA, for RB Auto Repair/Roger Budhu, owner.

SUBJECT – Application October 16, 2015 – Extension of Term, Amendment & Waiver (11-413) for an extension of the term of a variance which permitted the operation of an automotive repair facility and gasoline service station (UG 16) and an Amendment for the legalization of the enlargement with an insulated corrugated metal enclosure. APPLICANT – Carl A. Sulfaro, Esq., for 2912 Realty, LLC, owner; A & AM Diagnostic Service Centers, Inc., lessee.

SUBJECT – Application July 19, 2016 – Extension of Term (§11-411) of a previously approved variance permitting the operation of an Automotive Service Station (UG 16B) which expired on October 7, 2015; Waiver of the Rules. R3X zoning district.

PREMISES AFFECTED – 200-01 47th Avenue, Block 5559, Lot 75, Borough of Queens.

COMMUNITY BOARD #11Q

ACTION OF THE BOARD – Laid over to July 24, 2018, at 10 A.M., for adjourned hearing.

413-50-BZ

APPLICANT – Eric Palatnik, P.C., for Sandra Yetman, owner; BP Products North America Inc., lessee.

SUBJECT – Application October 8, 2015 – Extension of Term (§11-411) of a previously approved variance which permitted the operation of an Automotive Service Station (UG 16B) which expires on November 18, 2015. C2-4/R7-1 zoning district.

PREMISES AFFECTED – 691 East 149th Street, Block 2623, Lot 140, Borough of Bronx.

COMMUNITY BOARD #1BX

ACTION OF THE BOARD – Laid over to June 26, 2018, at 10 A.M., for continued hearing.

MINUTES

634-84-BZ

APPLICANT – Law Office of Lyra J. Altman, for Kol Israel Congregation and Center, owner.

SUBJECT – Application June 3, 2016 – Amendment of a previously approved Variance (§72-21) which permitted the erection of a two (2) story and cellar community facility (UG 4) building which provided less than the required front yard and required parking. The amendment seeks to permit the enlargement of the synagogue (*Kol Israel Congregation & Center*) contrary to floor area, lot coverage, open space and accessory off-street parking. R2 zoning district.

PREMISES AFFECTED – 2501-2509 Avenue K aka 3211 Bedford Avenue, Block 7607, Lot(s) 6 & 8, Borough of Brooklyn.

COMMUNITY BOARD #14BK

ACTION OF THE BOARD – Laid over to May 22, 2018, at 10 A.M., for continued hearing.

40-06-BZ

APPLICANT – MP Design and Construction/Maria Maloney, for UDR 10 Hanover-LLC-Constantine Koukoulis, owner; 10 Hanover Sq Gym, LLC-Alex Reznik-Senior MGM Dir, lessee.

SUBJECT – Application June 9, 2017 – Extension of Term of a previously approved Special Permit (§73-36) which permitted the operation of a Physical Culture Establishment (Goldman-Sachs) on the cellar and sub-cellar levels in a 21-story mixed-use building which expired on August 22, 2016; Amendment to permit the change in operator to (Complete Body) and a change in hours of operation; Waiver of the Rules. C5-5 (LM) zoning district

PREMISES AFFECTED – 10 Hanover Sq (aka 4-12 Hanover Sq. 110-124 Pearl St, 76-88 Water Street), Block 31, Lot 1, Borough of Manhattan.

COMMUNITY BOARD #1M

ACTION OF THE BOARD – Laid over to June 26, 2018, at 10 A.M., for continued hearing.

65-13-BZ

APPLICANT – Eric Palatnik, P.C., for Israel Rosenberg, owner.

SUBJECT – Application October 27, 2017 – Amendment of a previously approved Variance (§72-21) which permitted the construction of a three-story multiple dwelling (Use Group 2), contrary to ZR §42-00. The amendment seeks to permit an on-site parking space at the cellar level contrary to the previous Board approval. M1-1 & M1-2/R6A Special Mixed MX-4 district.

PREMISES AFFECTED – 123 Franklin Avenue, Block 1899, Lot 9, Borough of Brooklyn.

COMMUNITY BOARD #3BK

Affirmative:.....0

Negative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....4

Abstain: Commissioner Sheta.....1

THE RESOLUTION –

WHEREAS, the Notice of Sign Registration Rejection of the Brooklyn Borough Commissioner, dated September 12, 2016, acting on DOB-Issued Sign Identification No. 30023701, OAC No. 1018 (the “Final Determination”), reads in pertinent part:

The Department of Buildings is in receipt of additional documentation submitted in response to the Notice of Rescission Letter from the Sign Enforcement Unit and in connection with the application for registration of the above-referenced sign. Unfortunately, we find this documentation inadequate to support the registration of the sign and as such, the sign is rejected from registration.

The sign was registered with a surface area of 1820 sq. ft. Thus, compliance with ZR 42-55(c)(1) is required. On February 2, 2016, we received various aerial photographs in support of your registration claim. This documentation is insufficient proof that the sign structure complies with the provisions of ZR 42-55(c)(1). We note that the sign structure does not appear in the 1951, 1961, 1968, or 1970 photos that were submitted; and

WHEREAS, this is an appeal for interpretation under ZR § 72-11 and New York City Charter § 666(6)(a) as to whether a sign at the subject location complies with ZR § 42-55(c)(1); and

WHEREAS, a public hearing was held on this appeal on August 8, 2017, after due notice by publication in *The City Record*, with a continued hearing on January 9, 2018, and then to decision on May 15, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is an interior through lot located on the west side of Prince Street, between Concord Street and Tillary Street, in a C6-2 zoning district, in

MINUTES

Brooklyn; and

WHEREAS, the premises were located in an M1-1 zoning district until August 19, 2003, when they were rezoned to be within a C6-2 zoning district; and

WHEREAS, the site has approximately 86 feet of frontage along Prince Street, 67 feet of frontage along Gold Street and is occupied by 13-story building; and

WHEREAS, an indirectly illuminated advertising sign is located on a structure rising above the parapet wall at the eastern façade of the existing building, fronting Prince Street, at a height of 125 feet from curb to the top of both the sign and the sign structure, both of which measure 26 feet high by 70 feet long and have an area of 1,820 square feet (the “Signage”); and

WHEREAS, the Signage is located 203 feet from and within view of the Brooklyn Queens Expressway (the “BQE”), an arterial highway as designated in Appendix H of the Zoning Resolution; and

WHEREAS, this appeal is brought on behalf of Lamar Advertising of Penn, LLC, an outdoor advertising sign company registered with the City of New York (OAC # 1018) and lessee of the Signage (the “Appellant”); and

WHEREAS, the Department of Buildings (the “Department” or “DOB”) was represented by counsel seeking affirmance of the Final Determination and denial of this appeal; and

PROCEDURAL HISTORY

WHEREAS, as a registered outdoor advertising company, the Appellant is required to submit an inventory of signs it operates that are located within 900 feet and within view of an arterial highway designated as such in Appendix H of the Zoning Resolution; and

WHEREAS, because the Signage is located within 900 feet of an arterial highway, the BQE, it was required to be included in the Applicants sign inventory; and

WHEREAS, by correspondence dated August 13, 2009, in accordance with Chapter 49 of Title 1 of the Rules of the City of New York (“Rule 49”), a representative for the Appellant submitted an inventory of its signage and requested that DOB recognize the legal non-complying and non-conforming status of the Signage pursuant to ZR § 52-83; and

WHEREAS, in connection with that request, the representative provided: (1) the property profile of the premises on DOB’s Building Information System (“BIS”) indicating three electric sign (“ES”) applications on April 26, 1980 (ES No. 93-30-042880), April 28, 1980 (ES No. 93-30-04288), and in 1985 (ES No. 162-85); (2) a copy of the page from the DOB Docket Book describing ES application No. 162-85 as filed against the subject block and lot to “Rehabilitate existing sign”; and (3) a 2009 survey confirming that that the Signage is located 203 feet from the BQE and, thus, not within 200 feet of it; and

WHEREAS, the Appellant additionally provided DOB with a May 23, 1978, photograph of the premises evidencing a sign located at the roof of the eastern frontage of the premises fronting Prince Street; and

WHEREAS, DOB initially issued an approval notice for the Signage and assigned it Sign Identification Number 30023701, but by letter dated August 5, 2013, DOB provided a Notice of Sign Identification Number Rescission alerting the Appellant that the Department had conducted additional research in connection with the registration application for the Signage and requested “demonstrat[ion] that such sign maybe properly registered at its current surface area within 45 days of this notice or such sign shall be subject to enforcement”; and

WHEREAS, by letter dated November 6, 2013, Appellant’s representative responded to the notice, referencing documents previously submitted to DOB—including the reference to ES 93-30, the May 23, 1978 photograph of the premises and the DOB Docket Book log entry describing an application for the rehabilitation of the Signage—and including an additional photograph of the site from July 1968 purporting to show compliance of the Signage with ZR § 42-55(c) and that the Signage was, thus, properly registered; and

WHEREAS, by communication with DOB dated February 2, 2016, representatives of the Appellant additionally provided copies of photographs from November 1958, March 1961 and July 1970 purportedly confirming the presence of the Signage at the premises and noted, additionally, that per the November 1958 photo, the Signage existed at the premises during the period of construction of the BQE; and

WHEREAS, on September 12, 2016, DOB issued the Final Determination; and

WHEREAS, on October 11, 2016, the Appellant filed the subject appeal; and

APPLICABLE SECTIONS OF THE ZONING RESOLUTION

WHEREAS, pursuant to ZR § 32-63, advertising signs are prohibited in a C6-2 zoning district; and

WHEREAS, with regards to signs located in M1 zoning districts, the prior zoning designation of the subject site, ZR § 42-55(a) through (c) read as follows:

42-55

Additional Regulations for Signs Near Certain Parks and Designated Arterial Highways

M1 M2 M3

In all districts, as indicated, the provisions of paragraphs (a), (b) and (c), or paragraph (d) of this Section, shall apply for *signs*¹ near designated arterial highways or certain *public parks*.

(a) Within 200 feet of an arterial highway or a *public park* with an area of one-half acre or more, *signs* that are within view of such arterial highway or *public park* shall be subject to the following provisions:

(1) no permitted *sign* shall exceed 500

1 Words in italics are terms defined in Section 12-10 of the New York City Zoning Resolution.

MINUTES

- square feet of *surface area*; and
- (2) no *advertising sign* shall be allowed; nor shall an existing *advertising sign* be structurally altered, relocated or reconstructed.
- (b) Beyond 200 feet from such arterial highway or *public park*, the *surface area* of such *signs* may be increased one square foot for each linear foot such sign is located from the arterial highway or *public park*.
- (c) The more restrictive of the following shall apply:
 - (1) any *advertising sign* erected, structurally altered, relocated or reconstructed prior to June 1, 1968, within 660 feet of the nearest edge of the right-of-way of an arterial highway, whose message is visible from such arterial highway, shall have legal *non-conforming use* status pursuant to Section 52-83 (Non-conforming Advertising Signs), to the extent of its size existing on May 31, 1968; or
 - (2) any *advertising sign* erected, structurally altered, relocated or reconstructed between June 1, 1968, and November 1, 1979, within 660 feet of the nearest edge of the right-of-way of an arterial highway, whose message is visible from such arterial highway, and whose size does not exceed 1,200 square feet in *surface area* on its face, 30 feet in height and 60 feet in length, shall have legal *non-conforming use* status pursuant to Section 52-83, to the extent of its size existing on November 1, 1979. All *advertising signs* not in conformance with the standards set forth herein shall terminate; and

WHEREAS, ZR § 52-83 states in relevant part: 52-83

Non-Conforming Advertising Signs

In all *Manufacturing Districts*, or in C1, C2, C4, C5-4, C6, C7 or C8 Districts, except as otherwise provided in Sections 32-66 or 42-55 (Additional Regulations for Signs Near Certain Parks and Designated Arterial Highways), any *non-conforming advertising sign* except a *flashing sign* may be structurally altered, reconstructed or replaced in the same location and position, provided that such structural alteration, reconstruction or replacement does not result in:

- (a) the creation of a new *non-conformity* or an increase in the degree of *non-conformity* of such *sign*;
 - (b) an increase in the *surface area* of such *sign*;
- or

- (c) an increase in the degree of illumination of such *sign*; and

WHEREAS, an “advertising sign” is defined in ZR § 12-10 as “a *sign* that directs attention to a business, profession, commodity, service or entertainment conducted, sold or offered elsewhere than upon the same *zoning lot* and is not *accessory* to a *use* located on the *zoning lot*”; and

WHEREAS, “accessory” has the same meaning as “accessory use,” which pursuant to ZR § 12-10,

- (a) is a *use* conducted on the same *zoning lot* as the principal *use* to which it is related (whether located within the same or an *accessory building or other structure*, or as an *accessory use* of land) [. . .]; and
- (b) is a *use* which is clearly incidental to, and customarily found in connection with, such principal *use*; and
- (c) is either in the same ownership as such principal *use*, or is operated and maintained on the same *zoning lot*, substantially for the benefit or convenience of the owners, occupants, employees, customers, or visitors of the principal *use*; and

WHEREAS, a “non-conforming” use is defined, in ZR § 12-10, as “any lawful *use*, whether of a *building or other structure* or of a *zoning lot*, which does not conform to any one or more of the applicable *use* regulations of the district in which it is located, either on December 15, 1961, or as a result of any subsequent amendment thereto”; and

DISCUSSION

WHEREAS, Appellant argues that the Signage was legally established at the subject site prior to June 1, 1968, and asserts that DOB has been provided with documentation sufficient to establish that the Signage is a legal non-conforming use—to wit, references to a 1980 electric sign permit (ES 93-30) and photographs of the area from November 1958, March 1961, July 1968, July 1970 and May 23, 1978, purporting to show the Signage present at the premises; and

WHEREAS, additionally, the Appellant asserts that there has not been a discontinuance of the advertising use of the Signage for two or more years and that the Signage predates the construction of the BQE, the nearby arterial highway that renders ZR § 42-55 applicable at the site and appearing in the November 1958 photograph as under construction, thus, the Signage is grandparented, need not comply with ZR § 42-55(c)(1) and should be analyzed in terms of its compliance with the non-arterial highway signage regulations (that is, sign regulations generally applicable in an M1 zoning district); and

WHEREAS, alternatively, the Appellant suggests that the grandparenting provisions of ZR § 42-55(c) were intended to create a mechanism through which to legalize advertising signs unlawfully erected pursuant to permits issued for accessory signs—a regular advertising industry practice dating back to the 1940s—and, therefore, ZR § 42-55(c)(1) does not apply at the subject site because the

MINUTES

Signage was not erected unlawfully pursuant to accessory sign permits; and

WHEREAS, as a further alternative, if ZR § 42-55 is, indeed, applicable at the subject site, the Appellant suggests that the Signage, located within 660 feet of the BQE, has been present at the premises since prior to June 1, 1968, and, thus, is a legal-non-conforming use to the extent of its size on May 31, 1968, pursuant to ZR § 42-55(c)(1); and

WHEREAS, in the course of their prosecution of this appeal, the Appellant provided excerpts from the Appellant's 2003 Billboard Lease Agreements for the Signage and a 2011 Ground Lease for Outdoor Advertising Space as additional evidence establishing the legal non-conforming status of the Signage; and

WHEREAS, DOB states that to the extent that the Signage existed at the premises prior to August 19, 2003, when the site was rezoned from an M1-1 zoning district to a C6-2 zoning district, ZR § 42-552 does apply at the subject site and prohibits the Signage, having 1,820 square feet of surface area, from being located within 2023 feet of the BQE; and

WHEREAS, while ZR § 42-55(c)(1) confers legal non-conforming status, pursuant to ZR § 52-83, to advertising signs located within 660 feet of an arterial highway that existed prior to June 1, 1968, to the extent of their size as of May 31, 1968, DOB argues that the evidence provided by the Appellant does not support Appellant's conclusion that an advertising sign of any size, let alone one with 1,820 square feet of surface area, existed at the premises on May 31, 1968, thus, the Signage is unable to qualify as a legal non-conforming use pursuant to ZR § 42-55(c)(1); and

WHEREAS, specifically, DOB points to the November 1958 and March 1961 photographs submitted by the Appellant, which show the subject premises, but no evidence of signage at and projecting above the parapet on the eastern façade of the building, as the Signage does today; in addition, other photographs of the premises submitted by the Appellant (from July 1968, July 1970 and May 23, 1978) were taken *after* May 31, 1968, and, thus, cannot be relied upon to establish the existence and dimensions of any sign at the premises on, or even prior to, May 31, 1968; and

WHEREAS, DOB notes that the May 23, 1978, photograph shows the Signage on a structure sitting on the parapet and rising above the building roof, but asserts that that photograph, having been taken nearly a decade after the

applicable date, provides no evidence that the Signage was erected prior to June 1, 1968; and

WHEREAS, DOB additionally states that other documentation submitted by the Appellant to DOB in support of the legal non-conforming status of the Signage was insufficient pursuant to subparagraph (d)(15)(b) of Rule 49-15, which provides a list of documents acceptable as evidence of the existence and size of a non-conforming sign included in a sign inventory; and

WHEREAS, Rule 49-15(d)(15) reads as follows:

(15) With respect to each sign that has been identified in the sign inventory as a non-conforming sign, the following additional information shall be included with the registration application:

a. [...]

b. Evidence that the non-conforming sign existed and the size of the sign that existed as of the relevant date set forth in the Zoning Resolution to establish its lawful status. Acceptable evidence may include permits, sign-offs of applications after completion, photographs and leases demonstrating that the non-conforming use existed prior to the relevant date. Affidavits, Department cashier's receipts and permit application without other supporting documentation are not sufficient to establish the non-conforming status of a sign. The submitted evidence must specifically establish the non-conforming aspect of the sign. For example, where evidence is submitted to establish that a sign is a non-conforming advertising sign, proof that the sign was erected, but that does not establish that it was advertising, will not be sufficient.

[. . .]; and

WHEREAS, DOB submits that the Appellant only provided references to 1980s ES permit *applications*, specifically evidence that applications for such permits were made, not necessarily that they were issued, and provided neither issued permits nor ES permit application sign-offs, either of which would explicitly comply with Rule 49-15(d)(15)(b); and

WHEREAS, additionally, like the 2003 and 2011 leases, DOB states that references to permit applications made in the 1980s do not "[e]vidence that the non-conforming sign existed and the size of the sign that existed *as of the relevant date*" (emphasis added) as required under Rule 49-15(d)(15)(b), which is June 1, 1968; and

WHEREAS, finally, DOB points out that the 2011 ground lease states that it is "limited to the ground space immediately below the sign structure to be erected" at the site, indicating that the sign structure was not present on the building at the time the lease was executed, and that the evidence presented by the Appellant fails to address whether the signage established at the site prior to June 1, 1968, was accessory—that is, related to the principal use on the zoning

2 Prior to the addition of ZR § 42-55 to the Zoning Resolution on February 27, 2001, ZR § 42-53 regulated advertising signs in Manufacturing districts and contained the same limitations with regards to advertising signs located proximate to an arterial highway or public park.

3 DOB consistently states that the Signage is located 202 feet from the BQE while the Appellant assert that the Signage is 203 feet away. The Board made no determination as to the precise distance of the Signage from the BQE and references the distances cited by the parties only to accurately reflect their arguments.

MINUTES

lot, clearly incidental to the principal use on the zoning lot and either in the same ownership as the principal use or operated and maintained substantially for the benefit or convenience of the owners, occupants, employees, customers, or visitors of the principal use—or advertising, which it is required to be for ZR § 42-55(c)(1) to be applicable; and

WHEREAS, in response, the Applicant concedes that the sign depicted in the May 23, 1978, photograph is not the same signage that appears in the November 1958 photograph and that the Signage “is not configured in the same manner as that depicted in the pre-1978 photographs,” but insists that the building at the site had signage wrapping around all four of its sides at its parapet wall since at least 1958, that the pre-1978 photographs “reveal signage wrapping around all sides at the top of the building,” and that the square footage of that signage around the parapet, in the aggregate, was greater than the 1,820 square feet of the current Signage; and

WHEREAS, additionally, the Applicant asserts that advertising signage established at the premises could be structurally altered, reconstructed or replaced pursuant to ZR § 42-55(c)(1) and still be eligible for legal non-conforming status provided that it was structurally altered, reconstructed or replaced prior to June 1, 1968; and

WHEREAS, DOB agrees that the July 1970 photograph evidences an assemblage of words approximating a sign along the parapet of the building (generally, the “Parapet Type”), but asserts that that photograph, taken more than two years after the relevant date, does not provide evidence that the Signage as it exists today—that is, on a free-standing sign structure attached to the parapet and projecting over the roof—was present at the site prior to June 1, 1968; and

WHEREAS, even if the Parapet Type existed prior to June 1, 1968, and qualified as a legal non-conforming use pursuant to ZR § 42-55(c)(1), a conclusion for which DOB states there is no evidence, DOB submits that it could only be altered, reconstructed or replaced in the same location and position, meaning the parapet wall, pursuant to ZR § 52-83, and since the Signage as it presents today is not in the same location and position as the Parapet Type, it does not qualify as a legal non-conforming sign pursuant to ZR §§ 42-55(c)(1) and 52-83; and

WHEREAS, in response, the Appellant submits that a 1940 tax photo of the premises depicts the Parapet Type as a sign for J. Arthur Kennedy & Sons Inc. (“Kennedy”), a warehouse and stevedore business; that Kennedy is listed as having a business presence at the subject site in the 1950 Brooklyn telephone directory; that Kennedy is not listed at the premises in either the 1957 or 1967 Brooklyn telephone directory; and that the text on the parapet in 1958, which the Appellant asserts is visible in the November 1958 photograph, is for Kennedy, thus, the Board should conclude that a sign for Kennedy at the premises in 1950 was accessory to Kennedy’s tenancy, but when Kennedy left the premises—potentially as early as 1957, as late as 1967 and,

in either event, prior to June 1, 1968—the Kennedy Parapet Type became an advertising sign; and

WHEREAS, the Appellant notes that the dates of the referenced Brooklyn telephone directories are significant because they are all prior to May 31, 1968, thus establishing that the Parapet Type was an advertising sign erected prior to June 1, 1968, and is entitled to legal non-conforming use to the extent of size on May 31, 1968; and

WHEREAS, the Appellant further argues that the current position of the Signage resulted from a structural alteration, reconstruction or replacement of the pre-1968 Parapet Type that was consistent with ZR § 52-83 because the Signage is in the same location and position as the Parapet Type—the Signage remains “at and above the parapet” and “at the top of the building” as the Parapet Type was—and the current Signage contains less surface area than the Parapet Type; and

CONCLUSION

WHEREAS, pursuant to ZR § 12-10, a “non-conforming use” is one that “does not conform to any one or more of the applicable *use* regulations of the district in which it is located, either on December 15, 1961, or as a result of any subsequent amendment thereto”; and

WHEREAS, if the Signage existed at the subject site while the site was within an M1-1 zoning district and prior to the completion of the BQE, the amendment of Appendix H to the Zoning Resolution designating the BQE as an “arterial highway” rendered the Signage “non-conforming” because the Signage was larger than the maximum surface area permitted at the subject site pursuant to ZR § 42-55(b) (previously ZR § 42-53), a use regulation applicable in M1-1 zoning districts; and

WHEREAS, in order for the Signage to have *legal* non-conforming status, however, either ZR § 42-55(c)(1) or (c)(2) must apply; and

WHEREAS, the Board finds no indication in the text of ZR § 42-55(c) (or ZR § 42-53) that limits its applicability to those advertising signs unlawfully erected pursuant to permits for accessory signs, as the Appellant suggests; and

WHEREAS, additionally, the Board finds that ZR § 42-55(c)(2) is inapplicable in this case because the surface area of the Signage exceeds 1,200 square feet; and

WHEREAS, accordingly, to succeed in this appeal, the Appellant must submit evidence sufficient to show that the Signage was (1) erected, structurally altered, relocated or reconstructed prior to June 1, 1968, (2) within 660 feet of the nearest edge of the right-of-way of an arterial highway with a message visible from such arterial highway, pursuant to ZR § 42-55(c)(1); and

WHEREAS, the parties concede that the Signage is located within 660 feet of the nearest edge of the right-of-way of an arterial highway, in this case, the BQE, thus, the only question for the Board is whether the Signage was erected, structurally altered, relocated or reconstructed prior to June 1, 1968, and, if so, the size of the Signage on May 31, 1968; and

WHEREAS, the Board has reviewed the materials

MINUTES

submitted by the Appellant in support of its argument and finds that it fails to support Appellant's argument that any advertising sign, let alone the Signage specifically, was erected, structurally altered, reconstructed or replaced at the site prior to June 1, 1968; and

WHEREAS, the Board finds that the photographs of the premises from November 1958, March 1961 and July 1968 fail to show any advertising sign at the premises, particularly at the eastern façade of the existing building, fronting Prince Street, the same location as the Signage; and

WHEREAS, the Board discovered a 1934 photograph of the premises in which text on the parapet refers to "The Thomas & Norris Co. Corrugated Paper," a company that appears to have had a factory at the premises, and, though the Board disagrees that the Parapet Type is sufficiently legible in the November 1958, March 1961 and July 1968 photographs to discern its precise content, the Board credits the Appellant's assertion that the Parapet Type existed at the site prior to 1968; and

WHEREAS, the Board finds, however, that the Parapet Type, to the extent that it was a sign, was accessory to a principal use of the site, not an advertising sign and, thus, cannot be grandparented pursuant to ZR § 42-55(c), which relates only to advertising signs; and

WHEREAS, the Board finds the Appellant's argument that the Parapet Type, which Appellant concedes was accessory to Kennedy's occupancy at the site in 1950, was converted to an advertising sign prior to 1968 to be unsupported by the evidence because nothing was submitted with regards to what the Parapet Type read in 1968, rather the Appellant simply assumes that the Parapet Type continued to refer to Kennedy long after Kennedy allegedly vacated the premises; and

WHEREAS, the Board acknowledges that text is suggested, but illegible, on the eastern face, at least, of the parapet wall in the July 1970 photograph, but notes that that text is located directly on the building's parapet, not on a freestanding sign structure attached to the parapet like the current Signage, and is located in a different position and has different dimensions than the Signage presently at the premises; and

WHEREAS, the Board notes that the first photograph provided by the Appellant that shows the Signage on a structure that starts at the parapet and rises above the roof of the premises, as the Signage does today, is dated May 23, 1978, nearly a decade after the date on which the Signage is required to have existed in order to qualify for legal non-conforming use status pursuant to ZR § 42-55(c)(1); and

WHEREAS, additionally, the Board agrees with DOB that the 21st century leases and references to 1980s ES permit applications provided by the Appellant fail to establish the existence of the any signage at the premises at all prior to June 1, 1968, let alone the Signage in its current location and at its current dimensions, and that none of the proof submitted is conclusive with regards to whether a sign, if so erected, was an advertising sign *prior to* June 1, 1968; and

WHEREAS, with regards to the ES permit applications, in particular, the Board finds that it is impossible to conclude from the references provided that the permits were issued or signed-off, if the permit applications were specifically related to the Signage rather than another sign or signs located elsewhere on the subject building and too late in time to prove that a sign of any kind was present anywhere on the subject building prior to June 1, 1968; and

WHEREAS, the Board disagrees with the Appellant's assertion that the "alteration, reconstruction or replacement" that resulted in the Signage's current configuration complied with ZR § 52-83 because the Signage is not located on the parapet, as the Parapet Type was, instead it is located on a freestanding sign structure that sits *on top of* the parapet and it is indirectly illuminated, whereas the Parapet Text is not alleged to have ever been illuminated, directly or indirectly; and

WHEREAS, thus, even if the Board were to find that the Parapet Type was a legal non-conforming advertising sign under ZR § 42-55(c)(1), the Signage as it appears today is in a different location, in a different position and more illuminated than the Parapet Type contrary to ZR § 52-83 and, therefore, the Signage would not qualify as a legal non-conforming advertising sign; and

WHEREAS, additionally, because the Board finds that no advertising sign was erected, structurally altered, relocated or reconstructed at the premises prior to June 1, 1968, the Board cannot reach the question of the size of that sign on May 31, 1968; and

WHEREAS, the Board has considered all of the Appellant's remaining arguments on appeal and finds them to be without merit; and

Therefore, it is Resolved, that the determination of the Department of Buildings, dated September 12, 2016, acting on DOB-Issued Sign Identification No. 30023701, OAC No. 1018 shall be and hereby is *upheld* and that this appeal shall be and hereby is *denied*.

Adopted by the Board of Standards and Appeals, May 15, 2018.

102-15-A

APPLICANT – Eric Palatnik, P.C., for Kathleen Spezio, owner.

SUBJECT – Application May 11, 2015 – Proposed enlargement of a building located partially within the bed of mapped unbuilt street, pursuant Article 3 Section 35 of the General City Law and waiver under ZR 72-10-(g) . R3-2/SRD zoning district.

Abstain: Commissioner Scibetta.....1

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated September 2, 2016, acting on Alteration Application No. 121371256, reads in pertinent part:

“Proposed Physical Culture Establishment . . . is not permitted pursuant to ZR 32-10”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, in a C6-2A zoning district, the legalization of a physical culture establishment on the second and third floors of the subject building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on May 23, 2017, after due notice by publication in *The City Record*, with continued a hearing on February 13, 2018, and then to decision on May 15, 2018; and

WHEREAS, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 1, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the east side

MINUTES

of Church Street, between Franklin Street and White Street, in a C6-2A zoning district, in Manhattan; and

WHEREAS, the subject site has approximately 25 feet of frontage along Church Street, 75 feet of depth, 1,875 square feet of lot area and is occupied by a five-story, with cellar, mixed-use commercial and residential building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a

special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE occupies approximately 2,500 square feet of floor area as follows: 1,300 square feet of floor area on the second floor, including a reception area, a yoga studio, a restroom and a locker room with showers, and 1,200 square feet of floor area on the third floor, used for a yoga studio, restrooms and a locker room with showers; and

WHEREAS, the PCE has been in operation as Lyons Den Power Yoga since 2013, with the following hours of operation: 5:30 a.m. to 9:00 p.m., Monday through Friday, and 7:00 a.m. to 8:00 p.m., Saturday and Sunday; and

WHEREAS, the applicant represents that the PCE use is consistent with the vibrant commercial area in which it is located, that the PCE use is fully contained within the envelope of an existing building, that the PCE use will not create congestion in front of the subject building and that no weights, heavy equipment or loud music are involved in the operation of the subject PCE; and

WHEREAS, in addition, the applicant submits that sound attenuation measures, including a sound limiter on the PCE's music system and two layers of sheetrock on the ceiling, have been provided within the space so as to not disturb other tenants in the building; and

WHEREAS, the Board finds that the PCE use is so located as not to impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE provides classes, instruction and programs for physical improvement; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be

MINUTES

satisfactory; and

WHEREAS, the applicant submitted evidence that the PCE is fully sprinklered; and

WHEREAS, by letter dated May 10, 2018, the Fire Department states that it has no objection to this application on condition that the closet constructed in the exit passageway at the third floor be removed, that all doors along the exit passageway on the second and third floors be self-closing fire-rated doors to remain in the closed position at all times with door stoppers to be removed, that access to the fire escape remain unobstructed at all times and that Class 2-A fire extinguishers be installed on the second and third floors within the PCE to remain visible and accessible at all times; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17-BSA-023M, dated October 3, 2016; and

WHEREAS, on October 31, 2016, the New York City Landmarks Preservation Commission issued a Certificate of No Effect to permit interior alterations at the second and third floors, including the demolition and construction of non-bearing partitions and finishes, as well as plumbing and electrical work; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-36 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated without a special permit.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to *permit*, in a C6-2A zoning district, the legalization of a physical culture establishment on the second and third floors of the subject building, contrary to ZR § 32-10; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked "Received February 28, 2017"-Nine (9) sheets; and *on further condition*:

THAT this grant shall be limited to a term of ten (10) years, expiring May 15, 2028;

THAT the closet constructed in the exit passageway at the third floor shall be removed;

THAT all doors along the exit passageway on the second and third floors shall be self-closing fire-rated doors to remain in the closed position at all times with door stoppers to be removed;

THAT access to the fire escape shall remain unobstructed at all times;

THAT Class 2-A fire extinguishers shall be installed on the second and third floors within the physical culture establishment to remain visible and accessible at all times;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum 3'-0" wide exit pathways shall be maintained leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT the PCE shall remain fully sprinklered;

THAT sound attenuation shall be maintained in the PCE;

THAT Local Law 58/87 shall be complied with as approved by the Department of Buildings;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by May 15, 2019;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 15, 2018.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

MINUTES

Abstain: Commissioner Scibetta.....1

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated September 30, 2016, acting on Alteration Application No. 321195194, reads in pertinent part:

“The proposed FAR . . . exceeds the maximum permitted . . . ; contrary to ZR 23-142.”

“The proposed lot coverage . . . exceeds the maximum permitted . . . ; contrary to ZR 23-142.”

“The proposed open space . . . is less than the minimum required . . . ; contrary to ZR 23-142.”

“Proposed Side Yard is Contrary to ZR 23-461(a)”; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03 to permit, in an R3-1 zoning district, the enlargement of an existing two-family detached residence that does not comply with zoning regulations for floor area ratio, lot coverage, open space and side yards, contrary to ZR §§ 23-142 and 23-461; and

WHEREAS, a public hearing was held on this application on July 18, 2017, after due notice by publication in *The City Record*, with continued hearings on February 13, 2018, and April 17, 2018, and then to decision on May 15, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the northeast corner of Hampton Avenue and Amherst Street, in an R3-1 zoning district, in Brooklyn; and

WHEREAS, the subject site has approximately 44 feet of frontage along Hampton Avenue, 100 feet of frontage along Amherst Street, 4,367 square feet of lot area and is occupied by an existing two-family detached residence; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single- or two-family detached or semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and

paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, inter alia, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

MINUTES

WHEREAS, the Board notes further that the subject application seeks to enlarge an existing detached two-family residence, as contemplated in ZR § 73-622; and

WHEREAS, the applicant proposes to convert the subject building to a single-family residence and enlarge the existing residence from 1,951 square feet of floor area (0.63 FAR) to 4,117 square feet of floor area (0.94 FAR), increase lot coverage from 34 percent to 41 percent, decrease open space from 67 percent to 60 percent and maintain the existing side yards with depths of 3'-0" and 25'-6"; and

WHEREAS, the applicant states that, at the subject site, floor area may not exceed 2,183 square feet (0.50 FAR) under ZR § 23-142, lot coverage may not exceed 35 percent under ZR § 23-142, open space must be a minimum of 65 percent under ZR § 23-142 and side yards must have minimum widths of five feet for a total width of 13 feet under ZR § 23-461; and

WHEREAS, the applicant represents that the proposed building as enlarged is consistent with the built character of the neighborhood; and

WHEREAS, in support of this contention, the applicant surveyed single- and two-family residences in the surrounding area, finding that there are 28 residences with an FAR of 0.9 or greater and there are 23 residences with lot coverage of 40 percent or greater; and

WHEREAS, the applicant also submitted a height study, a photographic streetscape montage, a contextual streetscape illustration, a study of neighborhood architectural styles and a photographic neighborhood study demonstrating that the proposed building will fit in with the built conditions of the surrounding area; and

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, the Board finds that the proposed building as enlarged will not alter the essential character of the neighborhood or district in which the subject building is located, nor impair the future use or development of the surrounding area; and

WHEREAS, in response to the Board's questions at hearing, the applicant amended the drawings to reflect that adequate amounts of existing building material will be retained and to reduce the massing of the proposed building by revising the design of the front, reducing attic space and decreasing the building height; and

WHEREAS, at hearing, the applicant represented that the proposed building will comply with all regulations applicable in flood zones, compliance with which will be as reviewed and approved by the Department of Buildings, and the Board reiterates that no flood-related regulations have been waived herein; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of bulk regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk

regulations will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17BSA029K, dated November 3, 2016; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-622 and 73-03 to *permit*, in an R3-1 zoning district, the enlargement of an existing two-family detached residence that does not comply with zoning regulations for floor area ratio, lot coverage, open space and side yards, contrary to ZR §§ 23-142 and 23-461; *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received April 27, 2018"-Eleven (11) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: a maximum of 4,117 square feet of floor area (0.94 FAR), a maximum lot coverage of 41 percent, a minimum of 60 percent of open space and side yards with minimum depths of 3'-0" and 25'-6", as illustrated on the Board-approved plans;

THAT removal of existing joists or perimeter walls in excess of that shown on the Board-approved plans shall void the special permit;

THAT flood regulations, including Article 6, Chapter 4, of the Zoning Resolution and Appendix G of the New York City Building Code, as applicable, shall be complied with as reviewed and approved by the Department of Buildings;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by May 15, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 15, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated January 25, 2017, acting on Alteration Application No. 321422108, reads in pertinent part:

1. Proposed FAR exceeds the maximum permitted FAR . . . contrary to ZR 23-141.
2. Proposed open space ratio is less than the minimum required . . . contrary to ZR 23-141.
3. Proposed rear yard is less than the required . . . contrary to ZR 23-47; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03 to permit, in an R2 zoning district, the enlargement of an existing residence that does not comply with zoning regulations for floor area ratio, open space ratio and rear yards, contrary to ZR §§ 23-141 and 23-47; and

WHEREAS, a public hearing was held on this application on March 20, 2018, after due notice by publication in *The City Record*, with a continued hearing on May 15, 2018, and then to decision on the same date; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of East 28th Street, between Avenue L and Avenue M, in an R2 zoning district, in Brooklyn; and

WHEREAS, the subject site has approximately 60 feet of frontage along East 28th Street, 100 feet of depth, 6,000 square feet of lot area and is occupied by an existing two-story, with cellar, two-family residence; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an enlargement of an existing single- or two-family detached or semi-detached residence within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such enlargement may create a new non-compliance, or increase the amount or degree of any existing non-compliance, with the applicable bulk regulations for lot coverage, open space, floor area, side yard, rear yard or perimeter wall height regulations, provided that:

- (1) any enlargement within a side yard shall be limited to an enlargement within an existing non-complying side yard and such enlargement shall not result in a decrease in the existing minimum width of open area between the building that is being enlarged and the side lot line;
- (2) any enlargement that is located in a rear yard is not located within 20 feet of the rear lot line; and
- (3) any enlargement resulting in a non-complying perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the enlarged building is adjacent to a single- or two-family detached or semi-detached residence with an existing non-complying perimeter wall facing the street. The increased height of the perimeter wall of the enlarged building shall be equal to or less than the height of the adjacent building’s non-complying perimeter wall facing the street, measured at the lowest point before a setback or pitched roof begins. Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

MINUTES

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, inter alia, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge an existing residence, as contemplated in ZR § 73-622; and

WHEREAS, the applicant proposes to convert the existing two-family residence to single-family use and to enlarge from 2,978 square feet of floor area (0.50 FAR) to 6,025 square feet of floor area (1.0 FAR), decrease open space from 4,355 square feet (146 OSR) to 3,309 square feet (55 OSR) and decrease the depth of the rear yard from 45'-3" to 24'-6" at the first story and 25'-10" at the second story; and

WHEREAS, the applicant states that, at the subject site, floor area may not exceed 3,000 square feet (0.5 FAR) under ZR § 23-141, there must be a minimum of 4,500 square feet of open space (150 OSR) under ZR § 23-141 and rear yards must have minimum depths of 30 feet under ZR § 23-47; and

WHEREAS, the applicant represents that the proposed building as enlarged is consistent with the built character of the neighborhood; and

WHEREAS, in support of this contention, the applicant surveyed single- and two-family residences in the surrounding area, finding that there are 12 residences with at least 1.0 FAR and that there are 10 residences with open space ratios less than or equal to 55 percent; and

WHEREAS, the applicant submitted a rear yard study indicating that at least 37 percent of the subject block has non-complying rear yards and that 12 residences have rear yard depths of 24'-6" or less, and the applicant notes that there are 35 garages or sheds located in rear yards on the subject block, including in the rear yards of the residences immediately adjacent to the subject site; and

WHEREAS, the applicant also submitted a building width study, photographic streetscape montage, a radius diagram and a photographic neighborhood study demonstrating that the proposed building will fit in with the built conditions of the surrounding area; and

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, the Board finds that the proposed building as enlarged will not alter the essential character of the neighborhood or district in which the subject building is located, nor impair the future use or development of the

surrounding area; and

WHEREAS, in response to questions from the Board at hearing, the applicant revised the drawings to indicate that sufficient amounts of existing building will be retained during construction, reduced the perimeter wall height and total height of the proposed building; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of bulk regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17BSA097K, dated February 23, 2017; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-622 and 73-03 to *permit*, in an R2 zoning district, the enlargement of an existing residence that does not comply with zoning regulations for floor area ratio, open space ratio and rear yards, contrary to ZR §§ 23-141 and 23-47; *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received May 15, 2018"-Twenty-one (21) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: floor area shall be limited to 6,025 square feet (1.00 FAR), there shall be at least 3,309 square feet of open space (55 OSR) and the rear yard shall have minimum depths of 24'-6" at the first story and 25'-10" at the second story, as illustrated on the Board-approved plans;

THAT removal of existing joists or perimeter walls in excess of that shown on the Board-approved plans shall void the special permit;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by May 15, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure

MINUTES

compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 15, 2018.

COMMUNITY BOARD #12BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and an extension of term of a variance, previously granted by the Board; and

WHEREAS, a public hearing was held on this application on March 27, 2018, after due notice by publication in *The City Record*, and then to decision on May 22, 2018; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 12, Bronx, recommends approval of this application; and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 5, 1960, when, under the subject calendar number, the Board granted a variance to permit for a term of fifteen (15) years, expiring January 5, 1975, the construction and maintenance of a gasoline service station, with accessory motor vehicle repair shop using hand tools only, non-automatic car wash, office and sales and parking of cars awaiting service, on condition that the two floodlight towers be eliminated, that the brand sign be stationary with non-flashing illumination and not be more than ten square feet in area, that the trees along Edson Avenue be planted between the sidewalk and the curb and that the door to the men’s toilet be moved so that the entrance to the toilet is from the interior of the building; and

WHEREAS, on May 3, 1960, under the subject calendar number, the Board amended to variance so that the easterly curb cut on Bartow Avenue be measured from a perpendicular to the Bartow Avenue building line, that the accessory building be relocated into the corner of the lot and that the stationary, non-flashing illuminated sign at the intersection not project more than four feet beyond the building line and be of a type and size shown on the Board-approved plans; and

WHEREAS, on March 18, 1975, under the subject calendar number, the Board granted an extension of term of ten (10) years, expiring March 18, 1985, on condition that two trees be planted along Edson Avenue in compliance with the Board’s resolution and in accordance with the rules and regulations of the Department of Parks and that a new certificate of occupancy be obtained; and

WHEREAS, on June 25, 1995, under the subject calendar number, the Board granted an extension of term of ten (10) years, expiring March 18, 1995, on condition that there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic and that a new certificate of occupancy be obtained within one (1) year, by June 25, 1986; and

WHEREAS, on September 12, 1995, under the subject calendar number, the Board amended the variance to remove a portion of the existing building, create a convenience store and attendant’s area in the remaining portion, install a new steel canopy over four new concrete pump islands with MPG pumps and delete the condition that two trees be planted along Edson Avenue and granted an extension of term of ten (10) years, expiring March 18, 2005, on condition that curb cuts comply with the Board-approved plans and that a new certificate of occupancy be obtained within one (1) year, by September 12, 1996; and

WHEREAS, on November 12, 2002, under the subject calendar number, the Board granted an extension of term of ten (10) years, expiring January 15, 2012, on condition that there be no sale of vehicles at the subject site at any time, that there be no parking on the sidewalk, that the site be maintained graffiti-free at all times, that all signage comply with regulations applicable in C2 zoning districts and that the above conditions appear on the certificate of occupancy; and

WHEREAS, the term having expired, the applicant now seeks an extension and a waiver of the Board’s Rules of Practice and Procedure to permit the late filing of this application; and

WHEREAS, by letter dated August 4, 2011, the New York State Department of Environment Conservation states that it has closed NYSDEC Spill Case No. 9510442 and that all existing monitoring wells associated with said spill case should be properly closed; and

WHEREAS, in response to questions posed by the Board at hearing, the applicant provided photographic evidence indicating continuity of use, removed excess signage, submitted a light-spread diagram and amended the drawings to reflect the presence of an ice box at the subject

MINUTES

site; and

WHEREAS, based upon its review of the record, the Board has determined that the requested waiver of the Board's Rules of Practice and Procedure and extension of term are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *waive* the Rules of Practice and Procedure and *reopen* and *amend* the resolution, dated January 5, 1960, as amended through November 12, 2002, so that as amended this portion of the resolution shall read: "to *permit* an extension of term of ten (10) years, expiring January 15, 2022; *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received May 22, 2018"-Six (6) sheets; and *on further condition*:

THAT there shall be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic;

THAT curb cuts shall comply with the Board-approved plans;

THAT there shall be no sale of vehicles at the subject site at any time;

THAT the site shall be maintained graffiti-free at all times;

THAT all signage shall comply with regulations applicable in C2 zoning districts;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by January 15, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted."

Adopted by the Board of Standards and Appeals, May 22, 2018.

CEQR #02-BSA-021K

APPLICANT – Law Office of Lyra J. Altman, for Kol Israel Congregation and Center, owner.

SUBJECT – Application June 3, 2016 – Amendment of a previously approved Variance (§72-21) which permitted the erection of a two (2) story and cellar community facility (UG 4) building which provided less than the required front yard and required parking. The amendment seeks to permit the enlargement of the synagogue (*Kol Israel Congregation & Center*) contrary to floor area, lot coverage, open space and accessory off-street parking. R2 zoning district.

PREMISES AFFECTED – 2501-2509 Avenue K aka 3211 Bedford Avenue, Block 7607, Lot(s) 6 & 8, Borough of Brooklyn.

COMMUNITY BOARD #14BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

Abstain: Commissioner Scibetta.....1

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated May 5, 2016, acting on Alteration Application No. 321358295, reads in pertinent part:

1. Creates non-compliance with respect to floor area by exceeding the allowable floor area ratio and is contrary to section 24-11 of the zoning resolution.
2. Creates non-compliance with respect to the lot coverage and open space and is contrary to section 24-11 of the zoning resolution.
3. Creates non-compliance with respect to parking by not meeting the minimum requirements of section 25-31 of the zoning resolution; and

WHEREAS, this is an application for an amendment of a variance, previously granted by the Board, to permit the enlargement of an existing community-facility building that does not comply with zoning regulations for floor area, lot coverage, open space and parking, contrary to ZR §§ 24-11 and 25-31; and

WHEREAS, a public hearing was held on this application on October 3, 2017, after due notice by publication in *The City Record*, with continued hearings on December 12, 2017, and May 15, 2018, and then to decision on May 22, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the northeast corner of Avenue K and Bedford Avenue, in an R2 zoning district, in Brooklyn; and

MINUTES

WHEREAS, the Board has exercised jurisdiction over the subject site since December 19, 1972, when, under BSA Calendar Number 610-72-A, on Lot 8, the Board granted an administrative appeal to permit a change of occupancy of the first floor from a one family and dentist's office to a house of worship; and

WHEREAS, on January 29, 1974, under BSA Calendar Number 477-73-A, on Lot 8, the Board granted an administrative appeal superseding the prior appeal to permit the change of the first floor and cellar from a one family and dentist's office to a house of worship and meeting room; and

WHEREAS, on March 12, 1985, under the subject calendar number, on Lot 8, the Board granted a variance to permit a two-story, with cellar, community-facility building with less than the required front yard and without the required parking on condition that existing street trees be safeguarded during construction and maintained thereafter, that smoke detectors be installed in the cellar and that the above conditions appear on the certificate of occupancy; and

WHEREAS, the applicant proposes to increase the lot area of the subject site and to construct a two-story, with cellar, enlargement to the existing building that increases the floor area from 3,300 square feet (0.55 FAR) to 9,430 square feet (0.94 FAR), increases lot coverage from 58 percent to 64 percent, maintains the existing front yard depth of 7'-8" along Bedford Avenue, decreases the existing front yard depth of 15'-2" to 15'-0" along Bedford Avenue for the proposed enlargement, increases side yards from 7'-7" to 8'-0" and 8'-2" to 8'-6" for the proposed enlargement and maintain no parking spaces; and

WHEREAS, the applicant represents that, at the subject site, floor area may not exceed 5,000 square feet (0.5 FAR) under ZR § 24-11, lot coverage may not exceed 60 percent under ZR § 24-11, front yards must have depths of at least 15'-0" under ZR § 24-34, side yards must have depths of 8'-0" under ZR § 24-35, and 47 parking spaces are required under ZR § 25-31; and

WHEREAS, the applicant submits that the enlargement is required by the programmatic needs of the existing house of worship located at the subject site because of the size of the congregation, the frequency of religious services, educational programming and accessibility; and

WHEREAS, the applicant states that the house of worship does not propose to lease, license or grant any other permission to use the subject building for the operation of a business engaged in serving food or beverages for functions, occasions or events; and

WHEREAS, the applicant states that the proposed enlargement would not increase traffic because the enlargement proposed would incorporate services currently provided in an off-site building to be relocated to the subject site; and

WHEREAS, in response to questions from the Board, the applicant clarified the occupancy of the subject building, clarified the height of elevator and stair bulkheads, added materials to the elevations and clarified the sound-attenuation measures proposed; and

WHEREAS, the applicant further proposes to add dense shrubbery and wrought-iron fencing around the subject site and removed a series of doors leading to the side yard; and

WHEREAS, the Board conducted an environmental review of the underlying action and documented relevant information about the project in the Final Environmental Assessment Statement ("EAS") CEQR No. 02-BSA-021K, dated May 18, 2018; and

WHEREAS, by correspondence dated May 18, 2018, the New York City Landmarks Preservation Commission represents that it has reviewed this application for architectural and archeological significance and has no objection to this application; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, based upon its review of the record, the Board has determined that the requested amendment is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated December 19, 1972, as amended through March 12, 1985, so that as amended this portion of the resolution shall read: "to *permit* to increase the lot area of the subject site and to construct a two-story, with cellar, enlargement to the existing building; *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received May 22, 2018"-Twenty-Two (22) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: a maximum floor area of 9,430 square feet (0.94 FAR); a minimum lot coverage of 64 percent; front yards with minimum depths of 7'-8" along Bedford Avenue for the proposed enlargement and 15'-0" along Bedford Avenue for the proposed enlargement; side yards with minimum depths of 8'-0" and 8'-6" for the proposed enlargement and no parking spaces, as indicated on the Board-approved plans;

THAT existing street trees shall be safeguarded during construction and maintained thereafter;

THAT smoke detectors shall be maintained in the cellar;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by May 22, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other

MINUTES

relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, May 22, 2018.

APPLICANT – Michael DeRuvo, R.A., for Nissim Kalev, owner.

SUBJECT – Application June 9, 2016 – Extension of Term of a previously granted Special Permit (§73-211) for the continued use of a Gasoline Service Station (Citgo) and Automotive Repair Shop which expired on February 25, 2016; Waiver of the Rules. C2-1/R3X zoning district.

PREMISES AFFECTED – 525 Forest Avenue, Block 148, Lot 29, Borough of Staten Island.

COMMUNITY BOARD #ISI

ACTION OF THE BOARD – Application Dismissed.

THE VOTE TO DISMISS –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and an extension of the term of a special permit, previously granted by the Board pursuant to ZR § 73-211, which expired on February 26, 2016; and

WHEREAS, a public hearing was held on this application on March 27, 2018, after due notice by publication in *The City Record*, with a continued hearing on May 22, 2018, and then to decision on that date; and

WHEREAS, Community Board 1, Staten Island, recommends approval of this application; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the subject site and surrounding area; and

WHEREAS, the subject site is located on the north side of Forest Avenue, between Davis Avenue and North Mada Avenue, in an R3X (C2-1) zoning district, on Staten Island; and

WHEREAS, the site has approximately 117 feet of frontage along Forest Avenue, 13,126 square feet of lot area and is occupied by an automotive service station and eight accessory parking spaces; and

WHEREAS, the Board has exercised jurisdiction over the subject site since May 25, 1937, when, under BSA Cal. No. 385-36-BZ, the Board granted a variance to permit the extension of an existing gasoline selling station on condition that the plot shall not exceed in depth 84 feet on the easterly lot line and 99 feet on the westerly lot line; that the existing building be removed; that the accessory building be located at least 55 feet back from the street line of Forest Avenue; that the accessory building not exceed one-story in height and be arranged for car washing room, lubricating room, office and accessory stores and be constructed of fireproof materials except that the roof beams, roof boarding, window frames and

sash, door frames and doors may be of wood, provided the ceiling throughout is fire-retarded in accordance with the rules of the Board and the roof is weather surfaced with non-flammable materials and the boiler room is enclosed in fireproof material and enterable only from the exterior of the building; that the design of the accessory building be in accordance with the front elevation drawing and be constructed on all sides of Colonial red face brick with stone or stained brick trimmings with natural cement or white mortar joints and trim painted and maintained cream colored; that the portion of the plot to the north of the accessory building be cement paved or paved with Coprovia or blue stone properly bound and rolled except for areas for planning along the side lot lines and in the center along the street line of Forest Avenue, which areas shall be planted with suitable shrubbery and other plant material and be maintained at all times; that these areas shall be protected with concrete curbing; that gasoline pumps be erected as indicated on revised plans, no pumps to be erected nearer than 20 feet from the street building line of Forest Avenue, these pumps to be erected and spaced in three islands; that there be no more than two entrances to the premises, one on either side of the center planted island at the street line; that advertising be restricted to the illuminated globes of the pumps and permanent flat signs attached to the front of the accessory building and to a post standard within the building line near the center of the property for supporting a sign advertising only the brand of gasoline on sale and permitting the sign to extend beyond the building line for a distance of not more than 5 feet, excluding all temporary signs and roof signs; that the balance of the premises not paved be covered with cracked blue stone; that there be erected on the interior side lot lines a substantial woven wire or painted wood jacket fence to be continued from the front of the accessory building to either side of the lot line with a gate on either side; that additional planting be maintained at the corners and toward the center of the accessory building at the front; that all materials on any additional installation of tanks be new material; that no portable gasoline tanks be used on or from the premises; that no repairing of cars shall be carried on and no parking of cars other than those being serviced; and that all permit be obtained and all work completed within one year, by May 25, 1938; and

WHEREAS, on February 26, 1991, under the subject calendar number, the Board granted a special permit, pursuant to ZR § 73-211, permitting an enlargement in lot area and improvement of the existing automotive service station for a term of ten (10) years, expiring February 26, 2001, on condition that plantings be maintained and replaced as needed and conditions appear on the certificate of occupancy; and

WHEREAS, on October 5, 2010, under the subject calendar number, the Board waives its Rules of Practice and Procedure and amended the resolution to extend the term of the special permit for a period of fifteen (15) years, expiring February 26, 2016, on condition that all conditions from the prior resolution not specifically waived by the Board remain in effect; and

MINUTES

WHEREAS, the previous term having expired, the applicant seeks the subject relief, including a waiver of § 1-07.3(b)(2) of the Board's Rules of Practice and Procedure to permit the filing of this application less than two (2) years after the expiration of the term; and

WHEREAS, the subject application was filed with the Board on June 9, 2016, and a Notice of Comments was issued by Board Staff on August 1, 2016; and

WHEREAS, no response to the Notice of Comments was received by the Board within a year and a letter, dated September 6, 2017, was sent to the applicant at the address indicated on the application informing them that failure to respond within 30 days would result in dismissal of the application (the "Dismissal Warning Letter"); and

WHEREAS, no submission was received by the Board in response to the Dismissal Warning Letter and, by letter dated October 10, 2017, the application was dismissed; and

WHEREAS, by letter dated October 12, 2017, the applicant requested a 30 day extension of time to respond to the Notice of Comments, stating that the Dismissal Warning had been sent to an email address that is infrequently used and was, thus, received too late; and

WHEREAS, the extension of time was granted, the applicant provided a response to the Notice of Comments by submission dated November 16, 2017, and an initial hearing was subsequently scheduled for February 13, 2018; and

WHEREAS, by letter dated February 12, 2018, the applicant requested that that hearing be postponed because of an unforeseen accident that prevented the applicant from attending the hearing or finding anyone to appear in their place; and

WHEREAS, the initial hearing was postponed to March 27, 2018, but the applicant did not appear at that hearing and, instead, sent a representative to take notes; and

WHEREAS, a continued hearing was scheduled for May 22, 2018, and the applicant was required to submit responses to the Board's comments from the March 26, 2018 executive session by May 2, 2018; and

WHEREAS, no submission was received by the Board by May 2, 2018, and the applicant did not appear at the May 22 hearing; and

WHEREAS, due to the repeated failure of the applicant to submit materials in support of this application, the application must be dismissed in its entirety.

Therefore, it is Resolved, that the application filed under BSA Cal. No. 60-90-BZ is hereby dismissed for failure to prosecute and the special permit granted at the subject site under the subject calendar number, pursuant to ZR § 73-211, has lapsed, effective February 26, 2016.

Adopted by the Board of Standards and Appeals, May 22, 2018.

65-13-BZ

APPLICANT – Eric Palatnik, P.C., for Israel Rosenberg, owner.

SUBJECT – Application October 27, 2017 – Amendment of a previously approved Variance (§72-21) which permitted the construction of a three-story multiple dwelling (Use Group 2), contrary to ZR §42-00. The amendment seeks to permit an on-site parking space at the cellar level contrary to the previous Board approval. M1-1 & M1-2/R6A Special Mixed MX-4 district.

PREMISES AFFECTED – 123 Franklin Avenue, Block 1899, Lot 9, Borough of Brooklyn.

COMMUNITY BOARD #3BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated October 12, 2017, acting on New Building Application No. 320704519, reads in pertinent part:

"ZR 42-00 The proposed use group 2A is not permitted as of right, BSA approved the use and bulk under BSA Calendar #65-13-BZ"

"ZR 73-41 Proposed parking space requires BSA approval because it was not approved under the BSA Calendar #65-13-BZ"; and

WHEREAS, this is an application for an amendment of a variance, previously granted by the Board, to permit one parking space within the proposed building; and

WHEREAS, a public hearing was held on this application on March 6, 2018, after due notice by publication in *The City Record*, with a continued hearing on May 15, 2018, and then to decision on May 22, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 3, Brooklyn, recommends disapproval of this application, citing concerns with curb cuts and the location of the parking space within the building; and

WHEREAS, the subject site is located on the east side of Franklin Avenue, between Park Avenue and Myrtle Avenue, partially in an M1-1 zoning district and partially in an M1-2/R6A zoning district in the Special Mixed Use District, in Brooklyn; and

WHEREAS, the site has approximately 38 feet of frontage along Franklin Avenue, 123 feet of depth, 4,613 square feet of lot area and is occupied by a three-story, with cellar, residential building under construction; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 24, 2015, when, under the subject calendar number, the Board granted a variance to

MINUTES

permit the construction of a three-story multiple dwelling (Use Group 2) on condition that that the following be the bulk parameters of the building: a maximum floor area of 8,991 square feet (1.95 FAR), five dwelling units, a minimum lot coverage of 65 percent, a minimum rear yard depth of 36'-0", and a maximum building height of 38'-0", as indicated on the BSA-approved plans; that the layouts of the dwelling units be as reviewed and approved by DOB; that all DOB and related agency application(s) filed in connection with the authorized use and/or bulk be signed off by DOB and all other relevant agencies by March 24, 2019; and that a permit not be issued for any grading, excavation, foundation or other permit which involves soil disturbance until, pursuant to the Restrictive Declaration, the LPC has issued to DOB, as applicable, either a Notice of No Objection, Notice to Proceed, Notice of Satisfaction, or Final Notice of Satisfaction; and

WHEREAS, the applicant proposes to add an enclosed parking space, accessed by a curb cut, to the proposed building in the cellar; and

WHEREAS, the applicant submitted a financial feasibility study indicating that the proposed addition of a parking space would produce no change to the economic viability of the proposed building because overall development costs would remain constant with the slight cost increase from site preparation for access to the parking space to be offset by cost savings associated with producing a smaller amount of finished interior residential space in the cellar and because the added value expected from the parking space would be offset by the reduction in building-wide residential amenity area in the cellar; and

WHEREAS, the applicant submits that that the proposed curb cut is lawful and states that an objection from DOB related to the curb cut has been resolved; and

WHEREAS, in response to concerns raised by Community Board 3, the Board notes that nothing herein shall be deemed to waive any regulation specifically pertaining to the proposed curb cut or parking space, and DOB must ensure that the proposed curb cut and parking space comply with the Zoning Resolution, with the New York City Construction Codes and with all other applicable regulations; and

WHEREAS, in response to questions from the Board at hearing, the applicant revised the plans to remove the internal staircase from the residential unit on the first floor to the cellar; and

WHEREAS, by letter dated August 6, 2015, the New York City Landmarks Preservation Commission ("LPC") issued a Notice of No Objection, which states that it concurs with the findings of the End of Fieldwork Memorandum dated July 30, 2015, stating that no significant archaeological resources were recovered during archaeological testing and recommending that no further archaeological work is needed for the site, but noting that the final archaeological report shall be reviewed and approved by LPC prior to the issuance of any temporary or permanent certificate of occupancy; and

WHEREAS, based upon its review of the record, the Board has determined that the requested amendment is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated March 24, 2015, so that as amended this portion of the resolution shall read: "to *permit* one parking space within the proposed building; *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received May 18, 2018"-Ten (10) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area of 8,991 square feet (1.95 FAR), five dwelling units, a minimum lot coverage of 65 percent, a minimum rear yard depth of 36'-0", and a maximum building height of 38'-0", as indicated on the Board-approved plans;

THAT the layouts of the dwelling units shall be as reviewed and approved by the Department of Buildings;

THAT all Department of Buildings and related agency application(s) filed in connection with the authorized use and/or bulk shall be signed off by the Department of Buildings and all other relevant agencies by May 22, 2022;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by May 22, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT a permit shall not be issued for any grading, excavation, foundation or other permit which involves soil disturbance until, pursuant to the Restrictive Declaration, the LPC has issued to DOB, as applicable, either a Notice of No Objection, Notice to Proceed, Notice of Satisfaction, or Final Notice of Satisfaction;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted."

Adopted by the Board of Standards and Appeals, May 22, 2018.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5
Negative:0

THE RESOLUTION –

WHEREAS, the decisions of the Deputy Borough Commissioner, dated July 25, 2017, acting on Application

Nos. 520251067 and 520251076 read in pertinent part: GCL 36, BC 502.1: The street giving access to proposed building is not duly placed on the official map of the City of New York therefore:

- A) No Certificate of Occupancy can be issued pursuant to Article 3, Section 36 of General City Law
- B) Proposed construction does not have at least 8% of the total perimeter of building(s) fronting directly upon a legally mapped street or frontage space contrary to section 502.1 of the 2014 NYC Building Code; and

WHEREAS, a public hearing was held on this application on March 6, 2018, after due notice in *The City Record*, with continued hearings on May 15, 2018 and May 22, 2018, and then to decision on May 22, 2018; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 3, Staten Island, recommended disapproval of the subject application and, in the supplement to their recommendation report raised concerns regarding the location of parking spaces, their likelihood to prompt illegal parking on the private road and overdevelopment of the immediate area; and

WHEREAS, the subject lots are two of a total of four lots reapportioned from Former Tax Lot 24, located on the eastern side of Arbutus Avenue, between Christine Court and Denise Court, in an R3X zoning district and the Special South Richmond Development District, on Staten Island; and

WHEREAS, the subject lots are vacant and separated from Arbutus Avenue by Tax Lots 25 and 26, have no frontage on Arbutus Avenue and are accessed from Arbutus Avenue by a proposed 30 foot wide easement; and

WHEREAS, Tax Lot 27 has approximately 52,294 square feet of lot area and Tax Lot 24 has approximately 17,450 square feet of lot area; and

WHEREAS, the applicant seeks the subject relief to develop each of Tax Lot 24 and 27 with one two-family residence that do not front directly upon a legally mapped street; and

WHEREAS, the applicant submits that the proposed dwellings will comply with all zoning regulations applicable in the subject zoning district, including those relating to planting, landscaping and parking; and

WHEREAS, in particular, three off-street parking spaces are provided for each of the two-family residences (a two-car tandem parking garage and one exterior parking space on Tax Lot 27 and a one-car garage and two exterior tandem parking spaces on Tax Lot 24) in compliance with ZR § 25-22(b); and

WHEREAS, in addition, the site requires certifications from the New York City Planning Commission with regards to school seats, subdivision and designated open space, but any modification to the proposal necessary to obtain those certifications will require an amendment to this grant; and

WHEREAS, the Office of the Borough President of Staten Island states, per letter to the Board dated February 8, 2018, that Arbutus Avenue, from the north side of Hyland

MINUTES

Boulevard to the south side of Amboy Road, has a record width of 50 feet and was the subject of an Opinion of Dedication, dated March 8, 1985, for a width of between 18 feet and 37 feet; and

WHEREAS, the subject lots are located approximately 991 feet southeast of Amboy Road, a mapped and improved street; and

WHEREAS, by letter dated May 19, 2016, the Fire Department states that it has no objection to the subject proposal on condition that the proposed dwellings be fully sprinklered, that signage stating "FDNY Grass Surface Supports Apparatus" be installed as indicated on the FDNY-approved plan with dimensions and layout in accordance with Fire Code Section 503.2.7.2.1, and that there shall be no parking anytime anywhere along the entire length of the apparatus access road beginning at Arbutus Avenue and No Parking signs shall be posted on both sides of the roadway approximately every 75 feet in accordance with Fire Code Section 503.2.7.2.1; and

WHEREAS, the Board echoed the Community Board's concern regarding the applicant's choice to provide tandem parking spaces leading to residents opting to park instead, for convenience sake, within the designated easement area, but recognized that tandem parking is permitted as-of-right; and

WHEREAS, the applicant provided a draft Homeowners Agreement Declaration, to be filed against Tax Lots 25 and 26, which front Arbutus Avenue, in addition to the subject lots that obligates the Arbutus Woods Homeowners Association Inc. to, *inter alia*, maintain the 30 foot wide access easement/fire apparatus access road from Arbutus Avenue and post signage on either side of the easement indicating that no parking is permitted; and

WHEREAS, the applicant additionally submitted a restrictive declaration, to be filed against the subject lots, incorporating the Fire Department's conditions, including the prohibition of parking along the fire apparatus road, referencing the Homeowners Agreement Declaration and highlighting the obligation to maintain the 30 foot wide access easement/fire apparatus access road from Arbutus Avenue in a good state of repair; and

WHEREAS, the filing of both the Homeowners Agreement Declaration and restrictive declaration prior to the issuance of any certificate of occupancy for the subject lots has been incorporated as a condition to this approval; and

WHEREAS, by letter dated April 30, 2018, the New York City Department of Environmental Protection ("DEP") states that, based on agency maps, there are 12 inch diameter and 20 inch diameter City water mains and an 18 inch diameter sanitary sewer in Arbutus Avenue at the subject location and that no existing water mains, existing or future sewers are crossing the existing lot; DEP further states that the proposed sanitary and storm for the subject development will be discharged as per the Certified Site Connection Proposal ID #6290, dated August 14, 2017, the proposed water connection will be discharged as per Internal Water Main IWR-24/17, and all sanitary, storm and water connections will be maintained by the Homeowners Association and will not be

maintained by the City of New York and, based on those conditions, DEP has no objections to the subject application; and

WHEREAS, the Board has determined that the applicant has submitted adequate evidence to warrant approval of the application subject to certain conditions set forth herein.

Therefore it is Resolved, that the decision of the DOB dated July 25, 2017, acting on DOB Application Nos. 520251067 and 520251076, is modified by the power vested in the Board by Section 36 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked "Received February 9, 2018"-One (1) sheet; that the proposal will comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT the proposed dwellings shall be fully sprinklered;

THAT signage stating "FDNY Grass Surface Supports Apparatus" shall be installed as indicated on the FDNY-approved plan with dimensions and layout in accordance with Fire Code Section 503.2.7.2.1;

THAT there shall be no parking anytime anywhere along the entire length of the apparatus access road beginning at Arbutus Avenue and No Parking signs shall be posted on both sides of the roadway approximately every 75 feet in accordance with Fire Code Section 503.2.7.2.1;

THAT prior to an issuance of a certificate of occupancy, including a temporary certificate of occupancy, a restrictive declaration shall be recorded in the Office of the City Register in Queens County against Tax Lots 24 and 27 substantially conforming to the form and substance of the following:

DECLARATION made this _____, by OTTAVIO SAVO, hereinafter referred to as the "Declarant," with a principal office at 953 Edgegrove Avenue, Staten Island NY, 10309.

WHEREAS, the Declarant is the fee owner of certain land located in the City and State of New York, Borough of Staten Island, designated as Block 6523 Lots 24 and 27 on the Tax Map of the City of New York, hereinafter referred to as Parcel A (the "Subject Premises"), more particularly described by a metes and bounds description set forth in Schedule A annexed hereto and by this reference made a part hereof.

WHEREAS, the Declarant has requested the New York City Board of Standards and Appeals (the "BSA") act upon BSA Cal. Nos. 2017-254-A and 2017-255-A, Block 6523 Lots 27 and 24, to appeal the decisions of the [Staten Island] Borough Commissioner, as follows pursuant to Article III, Section 36 of the General City Law, denying permits on the basis that the street giving access to the proposed buildings is not duly placed on the official map of the City of New York.

MINUTES

BSA CAL. NUMBER	BLOCK NUMBER	LOT NUMBER	ADDRESS	DOB JOB NUMBER
2017-254-A	6523	27	115 Arbutus Avenue	520251067
2017-255-A	6523	24	117 Arbutus Avenue	520251076

; and

WHEREAS, the BSA requires Declarant to execute and file this restrictive declaration prior to obtaining a Certificate of Occupancy for the subject premises.

NOW, THEREFORE, in consideration of BSA approval to allow the proposed construction of [two] family residences not fronting on a legally mapped street, contrary to General City Law 36, Declarant does hereby declare that Declarant and his successors and/or assigns shall [be] legally responsible for operating and maintaining the Subject Premises in compliance with the following restrictions of the FDNY's letter of "no objection" on May 19, 2016, and that such compliance shall be subject to enforcement by the Fire Commissioner.

- *The proposed buildings must be fully sprinklered;*
- *Signage shall be installed as indicated on the approved plan stating: "FDNY Grass Surface Supports Apparatus." The sign dimensions and layout shall be in accordance with Fire Code Section 503.2.7.2.1;*
- *There shall be NO PARKING ANYTIME anywhere along the entire length of the apparatus access road beginning at Arbutus Avenue. No Parking Signs shall be posted on both sides of the roadway approximately every 75 feet in accordance with Fire Code 503.2.7.2.1.*

FURTHER, in consideration of BSA approval to allow the proposed construction of [two] family residences not fronting on a legally mapped street, contrary to General City Law 36, Declarant does hereby declare an intent to form a Homeowners' Agreement ("HOA"), file the HOA with the State of New York, and consents to the creation of an HOA being a condition of the BSA's approval.

FURTHER, in consideration of BSA approval to allow the proposed construction of [two] family residences not fronting on a legally mapped street, contrary to General City Law 36, Declarant does hereby declare that Declarant and his successors and/or assigns shall maintain the street in a good state of repair and cleanliness, including but not limited to the following:

- a) *Maintaining the paved surfaces of the street in good repair;*
- b) *Maintaining street lights in good working order;*
- c) *Assuring that street lights operate during*

hours of darkness;

- d) *Replacing street lights when needed;*
- e) *Snow plowing at such times as the accumulated snow falls in any 12-hour period exceed two inches;*
- f) *Maintaining any required storm and sanitary drainage systems in a clear, workable and efficient manner;*
- g) *Maintaining all required utilities located under the streets in good working order, to the extent they are not maintained by public utilities or municipal agencies.*

This declaration may not be modified, amended or terminated without the prior written consent of the BSA;

1. The covenants set forth herein shall run with the land and be binding upon and inure to the benefit of the parties hereto and their respective heirs, legal representatives, successors and assigns;
2. Failure to comply with the terms of this declaration may result in the revocation of the building permit or Certificate of Occupancy as well as any other authorization or waiver granted by the BSA; and
3. This declaration shall be recorded at the city register's office against the Subject Premises and the cross-reference number and title of the declaration shall be recorded on each temporary and permanent certificate of occupancy hereafter issued to any building located on the subject premises and in any deed for the conveyance thereof.

THIS DECLARATION IS ONLY EFFECTIVE UPON APPROVAL BY THE BOARD OF STANDARDS AND APPEALS

THAT prior to an issuance of a certificate of occupancy, including a temporary certificate of occupancy, a Homeowners Agreement Declaration of Covenants, Restrictions, Easements, Charges and Liens shall be filed against Tax Lots 27 and 24 obligating the Arbutus Woods Homeowners Association, Inc. to, *inter alia*, maintain the 30 foot wide access easement/fire apparatus access road, draining system sewers, and/or storm sewer pipes, drywells and detention tanks; maintain, repair and replace the access easement/fire apparatus road water main, paving, curbs, signage, grass-pavers, lighting and fire hydrants and any utilities in connection therewith; and post No Parking Signs approximately every 75 feet in accordance with the New York City Fire Code;

THAT the recording information for the restrictive declaration and Homeowners Agreement Declaration shall be referenced on all certificates of occupancy, including temporary certificates of occupancy;

THAT the proposed sanitary and storm for the subject development shall be discharged as per the Certified Site Connection Proposal ID #6290, dated August 14, 2017;

MINUTES

THAT the proposed water connection shall be discharged as per Internal Water Main IWR-24/17;

THAT all sanitary, storm and water connections shall be maintained by the Homeowners Association and will not be maintained by the City of New York;

THAT any modifications to the proposal required in order to obtain school seat, subdivision and/or designated open areas certifications from by the New York City Planning Commission shall require an amendment to this grant;

THAT a certificate of occupancy shall be obtained within four (4) years, by May 22, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by DOB;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 22, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated May 21, 2014, acting on Alteration Application No. 104070586, reads in pertinent part:

“Proposed use as a physical culture establishment,

MINUTES

as defined by ZR 12-10, is contrary to ZR 32-10”;
and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, in a C1-9 zoning district, the legalization of a physical culture establishment on portions of the first floor and cellar of the subject building, contrary to ZR § 12-10; and

WHEREAS, a public hearing was held on this application on August 15, 2017, after due notice by publication in *The City Record*, with continued hearings on November 14, 2017, and January 30, 2018, and then to decision on May 22, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 8, Manhattan, recommends disapproval of this application, citing concerns with signage, noise and vibrations; and

WHEREAS, a resident of the subject building provided testimony in opposition to this application, citing concerns with noise and vibrations; and

WHEREAS, the subject site is located on the southwest corner of East 93rd Street and Third Avenue, in a C1-9 zoning district, in Manhattan; and

WHEREAS, the subject site has approximately 69 feet of frontage along East 93rd Street, 76 feet of frontage along Third Avenue, 5,224 square feet of lot area and is occupied by a five-story, with cellar, mixed-use commercial and residential building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i)

through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE occupies 2,277 square feet of floor area as follows: 2,277 square feet of floor area on the first floor, including a reception area, bicycle spinning area, locker room and restrooms, and space in the cellar, used for storage, laundry and a restroom; and

WHEREAS, the PCE has been in operation as Crank since December 2012 with the following hours of operation: Monday to Friday, 6:00 a.m. to 9:30 p.m., and Saturday and Sunday, 7:00 a.m. to 7:00 p.m.; and

WHEREAS, the applicant represents that the PCE use is consistent with the vibrant commercial area in which it is located, that the PCE use is fully contained within the envelope of an existing building and that the PCE's patrons

MINUTES

are residents of the surrounding area who arrive by foot or public transit; and

WHEREAS, in addition, the applicant submits that sound attenuation measures have been provided within the space so as to not disturb other tenants in the building or the surrounding neighborhood; and

WHEREAS, the Board finds that the PCE use is so located as not to impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE provides facilities for training and the use of equipment for spinning classes; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant submitted evidence that the PCE is fully sprinklered and that an approved fire alarm—including area smoke detectors, manual pull stations at each required exist, local audible and visual alarms and connection to an FDNY-approved central station—has been installed in the entire PCE space; and

WHEREAS, in response to questions from the Board at hearing and community concerns, the applicant revised the drawings to reflect compliance of signage with applicable zoning regulations and conducted studies of noise and vibration impacts by two independent consultants as well as daily logs testing the efficacy of installed sound-attenuation measures and demonstrating a precipitous drop in noise-related complaints further indicating acceptable acoustic levels; and

WHEREAS, the applicant also revised the proposal to reflect the installation of enhanced sound-attenuation measures to isolate the PCE from other uses in the building, including a decoupled ceiling hung furring strips and vibrating clips with one layer of ½” insulation board and one layer of two-pound mass vinyl and ½” medium density foam, gypsum board to the rear wall laminated with ½” sheetrock, vibrating brackets for speakers’ attachment to walls and limiters inline for sound system set so that music cannot exceed noise-code levels; and

WHEREAS, the applicant states that, in response to text messages from the resident of the subject building during the course of hearings, the volume on the PCE’s speaker system was reduced to decrease sound levels further and represents that it has not and will not be increased; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not

interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 14BSA160M, dated May 30, 2014; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-36 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion; and

WHEREAS, the Board notes that the term of this grant has been significantly reduced to reflect the period of time that the PCE has operated without a special permit.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 *to permit*, in a C1-9 zoning district, the legalization of a physical culture establishment on portions of the first floor and cellar of the subject building, contrary to ZR § 12-10; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked “Received January 30, 2018”-Ten (10) sheets; and *on further condition*:

THAT this grant shall be limited to a term of ten (10) years, expiring December 31, 2022;

THAT sound levels shall be kept down so as not to disturb tenants in the subject building and complaints regarding sound levels shall be responded to immediately;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum 3’-0” wide exit pathways shall be maintained leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be maintained in the entire PCE space and the PCE shall remain fully sprinklered, as indicated on the Board-approved plans;

THAT sound attenuation shall be maintained in the PCE, as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by May 22, 2019;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered

MINUTES

approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 22, 2018.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

Abstain: Commissioner Scibetta.....1

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated September 27, 2016, acting on Department of Buildings (“DOB”) Application No. 302309605 reads in pertinent part:

Alteration 302309605 Type 1 for premises located at 1223 67 street Brooklyn, NY 11219, Block 5760 Lot 70 Community Board 10 in R5 ZD was filed on 3/21/2007

The zoning District was changed after filing on 7/2/5/2007 from R5 to R4-1

The Application was approved on 11/29/2007 and permit was issued on 4/11/2008

On 6/5/2013 after 5 years from obtaining the permit, it was discovered that the zoning District was changed from R5 to R4-1 ZD on 7/25/2007 after filing the Application and before obtaining approval and permit.

The Application consequently was revoked on 6/5/2013. After all work almost completed.

An Application has been filed with the BSA under calendar number 234-15-BZ for the modification of Bulk Regulations as per Sec 73-60, Sec 73-62, and Sec 73-622 of the Zoning Resolution to permit an enlargement of a single or two family detached or semi detached Residence in R4-1 ZD, in community Board 10, Brooklyn NY in order to

rescind the approval and permit revocation.

[One] waiver[] [is] being sought in this application; Floor area (ZR 23-141); and

WHEREAS, the Board notes that since the filing of this application, the Zoning Resolution has been amended and the text formerly found in ZR § 23-141, setting forth the maximum floor area regulations in an R4-1 zoning district, is now found in ZR § 23-142; thus, the Board treats the citation to ZR § 23-141 in DOB’s objection as a citation to ZR § 23-142; and

WHEREAS, this is an application under ZR § 73-622 to legalize, in an R4-1 zoning district, the enlargement and conversion of a one-family detached residence to a two-family detached residence that does not comply with the zoning requirements for floor area, contrary to ZR § 23-142; and

WHEREAS, a public hearing was held on this application on March 7, 2017, after due notice by publication in *The City Record*, with continued hearings on May 16, 2017, July 18, 2017, October 3, 2017, February 27, 2018, and May 15, 2018, and then to decision on May 22, 2018; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and the surrounding neighborhood; and

WHEREAS, Community Board 10, Brooklyn, waived its recommendation with regards to the subject application, but stated, in a letter dated December 22, 2015, that, while they believe that the unique circumstances that led to this application, partially detailed in the DOB objection, were not directly caused by the owner, the community board neither approves of nor supports the ZR § 73-622 special permit process and is in the process of removing itself from community boards in which the special permit is available; and

WHEREAS, on October 7, 2016, ZR § 73-622 was amended to remove Community Board 10, Brooklyn, from list of areas in which the special permit is available and this calendar number was explicitly referenced in subparagraph (c) as an application that could, nevertheless be granted a special permit; and

WHEREAS, the subject site is located on the north side of 67th Street, between 12th Avenue and 13th Avenue, in an R4-1 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 40 feet of frontage along 67th Street, a depth of 1,000 feet and 4,000 square feet of lot area; and

WHEREAS, the site is occupied by a detached two-family residence containing 4,307 square feet of floor area and a floor area ratio (“FAR”) of 1.1; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single-* or *two-family detached* or *semi-detached residence* within the following areas:

(a) Community Districts 11 and 15, in the

MINUTES

- Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
 - (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached* or *semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building*

will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that this application is explicitly referenced in ZR § 73-622(c) as one for which the subject special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to legalize the enlargement of what was previously a detached one-family residence, as contemplated by ZR § 73-622; and

WHEREAS, the applicant originally also requested a waiver of ZR § 23-631(b) with regards to the perimeter wall height of the enlargement, but such a waiver was unavailable pursuant to ZR § 73-622(c)(3) because the enlarged residence on the subject site is not adjacent to residences with existing non-complying perimeter walls facing the street and, thus, the maximum permissible perimeter wall height for the enlarged building is 25 feet, as measured from the base plane, pursuant to ZR § 23-631(b); and

WHEREAS, accordingly, this grant is with regards to floor area ratio in excess of the maximum permitted pursuant to ZR § 23-142, which, at the subject site, is 0.75 FAR (3,000 square feet of floor area); and

WHEREAS, the Board has made no finding as to the compliance of the existing enlargement with applicable zoning regulations relating to front yards, permitted obstructions in yards, front or side yard setbacks, perimeter wall height or maximum building height and setbacks and grants no waivers from those regulations; and

WHEREAS, the applicant provided the Board with drawings of the maximum allowable zoning envelope at the subject site and full sets of drawings for two options fitting within that allowable envelope; only one set has been approved by the Board in connection with this application, but the Board notes that should the applicant choose to pursue the other option presented to and reviewed by the Board and not approved herein, such approval may be accomplished by letter amendment, pursuant to § 1-12.11 of the Board's Rules of Practice and Procedure; and

WHEREAS, the applicant provided an analysis of single- or two-family dwellings located within 400 feet of the subject premises within an R4-1 zoning district (the "Study Area") concluding that, of the 19 qualifying residences in the Study Area, 16 (84 percent) have an FAR of greater than 0.75, ranging from 0.89 FAR to 1.5 FAR, including two residences with an FAR of 1.407 located immediately adjacent and to the west of the subject site; and

WHEREAS, in light of the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

MINUTES

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622, to legalize, in an R4-1 zoning district, the enlargement and conversion of a one-family detached residence to a two-family detached residence that does not comply with the zoning requirements for floor area, contrary to ZR § 23-142; *on condition* that all work shall substantially conform to drawings as they apply to the objection above-noted, filed with this application and marked “Received May 22, 2018”-Thirteen (13) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area ratio of 1.1 (4,307 square feet of floor area), as illustrated on the BSA-approved plans;

THAT should the applicant decide to pursue the other building form option presented to and reviewed by the Board but not approved herein, such approval may be accomplished by letter amendment, pursuant to § 1-12.11 of the Board’s Rules of Practice and Procedure;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the special relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 22, 2018.

111-15-BZ

APPLICANT – Eric Palatnik, P.C., for 98 Third Avenue Realty LLC c/o Bill Wolf Petroleum Corporation, owner.

SUBJECT – Application October 3, 2017 – Variance (§72-21) to permit a six-story mixed use building with ground floor commercial space and residential space on the upper floors a contrary to ZR section 42-00. M1-2 zoning district. PREMISES AFFECTED – 98 Third Avenue, Block 388, Lot 31, Borough of Brooklyn.

Abstain: Commissioner Scibetta.....1

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated June 5, 2017, acting on Application No. 121190549 reads in pertinent part:

1. ZR 23-153: The proposed lot coverage exceeds the maximum permitted as per ZR section 23-153;
2. ZR 23-47: The proposed rear yard is deficient. A 30’-0” rear yard is required as per ZR 23-47; and

WHEREAS, this is an application under ZR § 72-21 to permit, on a site located within a C6-3A zoning district, the construction of a seven-story plus cellar residential building that does not comply with the underlying regulations pertaining to lot coverage and rear yards, contrary to ZR §§ 23-153 and 23-47; and

WHEREAS, a public hearing was held on this application on March 7, 2017, after due notice by publication in *The City Record*, with continued hearings on June 6, 2017, August 22, 2017, October 31, 2017, January 30, 2018, and March 27, 2018, and then to decision on May 22, 2018; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding area; and

WHEREAS, the applicant initially proposed to construct a 10-story building at the premises, necessitating a waiver of ZR § 23-692, commonly referred to as the “Sliver Law,” which limits the height of portions of buildings with street walls less than 45 feet in width; and

WHEREAS, Community Board 4, Manhattan, recommended denial of the original proposal, but voted to recommend approval for a building of eight-stories; in its recommendation, the Community Board questioned whether there are, in fact, unique conditions at the site, whether the variance requested was the minimum necessary and whether the proposed height of the building was consistent with character of the immediate area, particularly the six-story and seven-story buildings located on either side of the subject lot; and

MINUTES

WHEREAS, by letter dated August 5, 2016, New York State Senator Brad Hoylman expressed his support for the Community Board's recommendation of an eight-story residential building at the subject site, in lieu of the originally proposed ten-story building; and

WHEREAS, by letter dated April 28, 2017, New York City Councilmember Corey Johnson expressed his support for an eight-story plus cellar residential building at the premises; and

WHEREAS, counsel appeared in opposition to this application on behalf of a neighbor of the subject site, alleging that the site suffered from no unique physical condition to justify the granting of a variance and that the original proposal for a ten-story building was too tall; and

WHEREAS, the subject site is located on the south side of West 19th Street, between Sixth Avenue and Seventh Avenue, in a C6-3A zoning district, in Manhattan; and

WHEREAS, the site has approximately 26 feet of frontage along West 19th Street, depth of 92 feet, 2,242 square feet of lot area and is vacant; and

WHEREAS, the site was previously developed with a four-story plus cellar mixed-use residential and commercial building that was demolished in early 2017; and

WHEREAS, the applicant originally proposed a ten-story plus cellar residential building containing nine dwelling units, 16,052 square feet of floor area, a floor area ratio ("FAR") of 7.16 and a total height of 100 feet requiring a waiver of ZR § 23-692, known as the "Sliver Law," but, in the course of hearings, revised the proposal to eliminate the request for a waiver of the Sliver Law and, instead, construct a seven-story plus cellar residential building containing seven dwelling units, 13,268 square feet of floor area, 5.92 FAR and a total height of 67 feet; and

WHEREAS, in light of the revised proposed, opposition counsel notified the Board, in a letter dated January 9, 2018, that their client wished to withdraw their opposition, but reserved the right to again oppose the application should future revisions increase the height of the proposed building; and

WHEREAS, the proposed building will provide a 22 foot rear yard and 78 percent lot coverage; and

WHEREAS, at the subject site, a rear yard of at least 30 feet is required pursuant to ZR § 23-47 and maximum lot coverage of 70 percent is permitted pursuant to ZR § 23-153; and

WHEREAS, the applicant states that, pursuant to ZR § 72-21(a), the narrow, irregular shape—specifically the width of the site, which tapers from the front lot line, where it is approximately 26 feet wide, to the rear lot line, at which the lot is approximately 22 feet wide—and shallow depth of the lot create practical difficulties and unnecessary hardship in developing the site in conformance with the zoning regulations applicable in the underlying zoning district; and

WHEREAS, in support of this contention, the applicant provided the Board with a study of lots located within 400 feet of the premises and within a C6-2 or C6-3 zoning district (the "Study Area") concluding that, of the 59

total lots in the Study Area excluding the subject site, 14 lots (24 percent) have a lot width of 26 feet or less, 4 lots (7 percent) have a lot width of 22 feet or less, 10 lots (17 percent) contain 2,242 square feet of lot area or less and 38 lots (64 percent) have a depth of 92 feet or less; and

WHEREAS, the applicant submits that the narrow width, shallow depth and shape of the lot reduces the proportion of usable interior space and results in inefficient residential unit layouts and floor plates that are disproportionately occupied by the elevator core and mechanical equipment; and

WHEREAS, based on the foregoing, the Board finds that the aforementioned unique physical conditions create unnecessary hardship and practical difficulties in developing the site in conformance with applicable zoning regulations; and

WHEREAS, with regards to ZR § 72-21(b), the applicant submits that there is no reasonable possibility that a conforming development at the subject site will bring a reasonable return and, in support of that assertion, submitted a financial analysis of (1) an as-of-right six-story building with six residential dwelling units and 4.54 FAR (the "AOR Scenario") and (2) the subject proposal, demonstrating that only the subject proposal would provide a reasonable return; and

WHEREAS, based upon a review of the applicant's submissions, and the Board's independent analysis of the costs provided—specifically, to reduce costs attributed to construction cost line items that the Board found to be inappropriately considered for purposes of this application—the Board finds that, due to the site's unique physical conditions, there is no reasonable possibility that a development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposal will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property and will not be detrimental to the public welfare in accordance with ZR § 72-21(c) because several sites in the surrounding areas have non-complying rear yard and lot coverage conditions, including the lot located immediately to the west of the subject lot on West 19th Street, which has an 11 foot deep rear yard, and the two lots located immediately to the east of the subject site, which are both developed fully to their rear lot lines, and the massing of the proposed building is comparable to the massing of the buildings located on immediately adjacent lots; and

WHEREAS, the Board finds that the requested relief will not alter the essential character of the neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship claimed as grounds for the variance was not created by the owner or a predecessor in title in accordance with ZR § 72-21(d); and

WHEREAS, the applicant represents, and the Board finds, that the subject proposal is the minimum variance

MINUTES

necessary to afford relief; and

WHEREAS, the Board has determined that the evidence in the record supports all of the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Environmental Assessment Statement Short Form CEQR No. 16BSA120M, dated December 2, 2016; and

WHEREAS, the EAS documents that the project as proposed would not have significant impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, by letter dated June 26, 2017, the New York City Department of Environmental Protection (“DEP”) recommends that, at the completion of the project, a Professional Engineer certified Remedial Closure Report indicating that all remedial requirements have been properly implemented (i.e., proper transportation/disposal manifests and certificates from impacted soils removed and properly disposed of in accordance with all NYSDEC regulations; proof of installation of engineering control system; and two feet of DEP approved certified clean fill/top soil capping requirement in any landscaped/grass covered areas not capped with concrete/asphalt, etc.), be submitted to DEP for review and approval; and

WHEREAS, by letter dated February 9, 201[8], the New York City Department of Environmental Protection (“DEP”) states that they have reviewed the subject proposal for air quality and had no additional comments; and

WHEREAS, the New York City Landmarks Preservation Commission (“LPC”) reviewed the subject proposal and concluded that, while the subject site is of no architectural or archaeological significance, it is located within 400 feet of an LPC designated historic district (the Ladies’ Mile Historic District) and a site listed on the National Register of Historic Places; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended,

and makes each and every one of the required findings under ZR § 72-21 to permit, on a site located within a C6-3A zoning district, the construction of a seven-story plus cellar residential building that does not comply with the underlying regulations pertaining to lot coverage and rear yards, contrary to ZR §§ 23-153 and 23-47, *on condition* that all work shall substantially conform to drawings filed with this application marked “Received May 3, 2018”--sixteen (16) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: maximum lot coverage of 78 percent, a rear yard with a minimum depth of 22 feet, as illustrated on the Board-approved plans;

THAT upon the completion of the project, a Professional Engineer certified Remedial Closure Report indicating that all remedial requirements have been properly implemented (i.e., proper transportation/disposal manifests and certificates from impacted soils removed and properly disposed of in accordance with all NYSDEC regulations; proof of installation of engineering control system; and two feet of DEP approved certified clean fill/top soil capping requirement in any landscaped/grass covered areas not capped with concrete/asphalt, etc.) shall be submitted to DEP for review and approval;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a certificate of occupancy shall be obtained within four (4) years;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 22, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated February 1, 2018, acting on Alteration Application No. 421347590, reads in pertinent part:

“The proposed additional Culture Establishment . . . is not permitted pursuant to ZR 32-10”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, in an R3-2 (C2-3) zoning district, the operation of a physical culture establishment, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on May 22, 2018, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Community Board 13, Queens, recommends approval of this application; and

WHEREAS, the subject site is located on the southeast corner of Springfield Boulevard and 113th Avenue, in an R3-2 (C2-3) zoning district, in Queens; and

WHEREAS, the subject site has approximately 103 feet of frontage along Springfield Boulevard, 96 feet of frontage along 113th Avenue, 10,819 square feet of lot area and is occupied by a two-story commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or

health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and

MINUTES

community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE will occupy 15,311 square feet of floor space as follows: 5,820 square feet of floor area at the first story, including areas used cardiovascular equipment, and 9,491 square feet of floor space in the cellar, used for free-weight and circuit-training areas, locker rooms and restrooms; and

WHEREAS, the PCE will operate as Retro Fitness, with the following hours of operation: Monday to Friday, 5:00 a.m. to 12:00 a.m., and Saturday and Sunday, 7:00 a.m. to 7:00 p.m.; and

WHEREAS, the applicant represents that the PCE use is consistent with the vibrant mixed-use area in which it is located and that the PCE use is fully contained within the envelope of an existing commercial building; and

WHEREAS, in addition, the applicant submits that the building envelope and interior demising walls are designed to minimize sound transmission so that noise levels in adjoining spaces and outside the building will not exceed 45 dBA; and

WHEREAS, the Board finds that the PCE use is so located as not to impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE will provide facilities for classes, instruction and programs for physical improvement and weight reduction; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE will be fully sprinklered and that an approved fire alarm—including area smoke detectors, manual pull stations at each required exist, local audible and visual alarms and connection to an FDNY-approved central station—will be installed in the entire PCE space; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not

interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18BSA048Q, dated October 30, 2017; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-36 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 *permit*, in an R3-2 (C2-3) zoning district, the operation of a physical culture establishment, contrary to ZR § 32-10; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked “Received October 30, 2017”-Five (5) sheets; and *on further condition*:

THAT this grant shall be limited to a term of ten (10) years, expiring May 22, 2028;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum 3'-0" wide exit pathways shall be provided leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be installed in the entire PCE space and the PCE shall be fully sprinklered, as indicated on the Board-approved plans;

THAT sound attenuation shall be installed in the PCE, as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by May 22, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

CEQR #18-BSA-056

APPLICANT – Laurent Fromigue – Caudalie Washington St LLC, for 817-33 Washington Street, LLC, owner; Caudalie USA LLC, lessee.

SUBJECT – Application November 9, 2017 – Special Permit (§73-36) to operate a physical culture establishment (*Caudalie*) within an existing building contrary to ZR §42-10. M1-5 zoning district, Gansevoort Market Historic District.

PREMISES AFFECTED – 817-33 Washington Street, Block 644, Lot 33, Borough of Manhattan.

COMMUNITY BOARD #2M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated November 1, 2017, acting on Alteration Application No. 123064735, reads in pertinent part:

“Proposed Physical Culture Establishment [as defined in section ZR 12-10] is not permitted as of right in M1-5 Zoning Districts and is contrary to section ZR 42-10”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, in an M1-5 zoning district and the Gansevoort Market Historic District, the operation of a physical culture establishment, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on May 22, 2018, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 2, Manhattan, recommends approval of this application, stating that the use is compatible with the commercial nature of the surrounding area and will not create an increase in vehicular or pedestrian traffic or interfere with any approved or pending public improvement projects and that no portion of the PCE is located on the rooftop of the subject building, the entrance is appropriately located on a wide street and the PCE has no potential hazards or disadvantages that will adversely affect the privacy, quiet, light or air within the neighborhood; and

WHEREAS, the subject site is located on the east side of Washington Street, between Little West 12th Street and Gansevoort Street, in an M1-5 zoning district and the Gansevoort Market Historic District, in Manhattan; and

WHEREAS, the subject site has approximately 19 feet

of frontage along Washington Street, 60 feet of depth, 1,720 square feet of lot area and is occupied by a two-story, with cellar, commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

MINUTES

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE will occupy 1,655 square feet of floor space as follows: 1,020 square feet of floor area on the first floor, including a sales area, wine bar, treatment rooms, office and restroom, and 635 square feet of floor space in the cellar, used for storage; and

WHEREAS, the PCE will operate as Caudalie with the following hours of operation: Monday to Friday, 11:00 a.m. to 8:00 p.m., Saturday, 11:00 a.m. to 7:00 p.m., and Sunday, 11:00 a.m. to 6:00 p.m.; and

WHEREAS, the applicant represents that the PCE use is consistent with the vibrant mixed-use area in which it is located, that the PCE use is fully contained within the envelope of an existing building and that the primary entrance to the PCE is situated on a wide street and will neither impede nor inhibit vehicular or pedestrian flow; and

WHEREAS, the Board finds that the PCE use is so located as not to impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE will provide facilities for the practice of massage by New York State licensed massage therapists and that said facilities promote overall natural wellness, health and fitness; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that an approved fire alarm—including area smoke detectors, manual pull stations at each required exist, local audible and visual alarms and connection to an FDNY-approved central station—will be installed in the entire PCE space; and

WHEREAS, the Fire Department states that it has no objection to this application; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the

community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18BSA056, dated February 15, 2018; and

WHEREAS, on July 14, 2017, on August 22, 2017, and on September 6, 2017, the New York City Landmarks Preservation Commission (“LPC”) issued Certificates of No Effect (Nos. CNE-19-11602, CNE-19-11543 and CNE-19-16406) stating that the proposed work will have no effect on significant protected features of the building; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-36 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 *to permit*, in an M1-5 zoning district and the Gansevoort Market Historic District, the operation of a physical culture establishment, contrary to ZR § 42-10; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked “Received February 15, 2018”-Four (4) sheets; and *on further condition*:

THAT this grant shall be limited to a term of ten (10) years, expiring May 22, 2028;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages shall be performed only by New York State licensed massage therapists;

THAT minimum 3’-0” wide exit pathways shall be provided leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be provided in the entire PCE space, as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by May 22, 2019;

THAT this approval is limited to the relief granted by

MINUTES

the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 22, 2018.

190-15-BZ

APPLICANT – Francis R. Angelino, Esq., for Carmine Limited, owner.

SUBJECT – Application August 19, 2015 – Variance (§72-21) to propose a new six-story and bulkhead mixed building with ground floor commercial use and residential use on the upper floors located partially within a R6 zoning district and a C2-6 zoning district.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated September 19, 2017, acting on New Building Application No. 520270313, reads in pertinent part:

“The street giving access to proposed building is not duly placed on the official map of the City of

MINUTES

New York therefore . . . No Certificate of Occupancy can be issued pursuant to Article 3, Section 36 of the General City Law”; and

WHEREAS, this is an application under General City Law (“GCL”) § 36 to permit construction of a two-story two-family residence that does not front on a mapped street; and

WHEREAS, a public hearing was held on this application on February 13, 2018, after due notice by publication in *The City Record*, with continued hearings on April 10, 2018 and May 22, 2018, and then to decision on June 5, 2018; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 3, Staten Island, recommends approval of this application; and

WHEREAS, the subject site is located on the south side of Victory Boulevard, between Towers Lane and Simmons Lane, in an R3A zoning district, in Staten Island; and

WHEREAS, the site has approximately 68 feet of frontage along Victory Boulevard, 256 feet of depth, 14,336 square feet of lot area and is vacant; and

WHEREAS, the applicant proposes to develop three two-story two-family residence, two of which front Victory Boulevard, which is duly placed on the official map of the City of New York, and one of which fronts on a private driveway and is the subject of this application; and

WHEREAS, the applicant submits that the buildings proposed for the subject site comply with all zoning regulations applicable in the underlying zoning district, including restrictions on the use of open space for parking under ZR § 25-64; and

WHEREAS, the private driveway has a width of approximately 30 feet in front of the subject building and 20 feet approaching the subject building and is accessible from Victory Boulevard, paved to a width of approximately 34 feet; and

WHEREAS, the private driveway does not have sidewalks, and parking on either side of the private driveway is prohibited due to its narrowness; and

WHEREAS, by letter dated November 15, 2017, the Fire Department states that it has no objection to this application on condition that the proposed two-family residence be fully sprinklered as indicated on the approved plans, that there be no parking throughout the entire apparatus access road way and frontage space with “no parking” signage posted as required by the New York City Fire Code and indicated on the approved plans, that an illuminated sign be mounted at the location indicated on the approved plan identifying the address for the proposed residence and that the location of the proposed new fire hydrant be installed as indicated on the approved plans; and

WHEREAS, by letter dated January 9, 2018, the Department of Environmental Protection states that it has no objection to this application; and

WHEREAS, based upon its review of the record, the

Board has determined that this approval is appropriate with certain conditions as set forth below and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *modify* the decision of the Department of Buildings dated September 19, 2017, acting on New Building Application No. 520270313, under the powers vested in the Board by Section 36 of the General City Law, to *permit* construction of a two-story two-family residence that does not front on a mapped street; *on condition* that all work and site conditions shall conform to drawings filed with this application marked “Received March 21, 2018”-One (1) sheet; and *on further condition*:

THAT the driveway restrictive declaration shall be recorded against the properties in the County Clerk’s Office prior to the issuance of any certificate of occupancy, including a temporary certificate of occupancy, and shall substantially conform to the form and substance of the following:

DECLARATION, made this _____ of _____, 2018, by LERA Property Holdings LLC hereinafter referred to as the “Declarant”, having an office at 4366B Victory Blvd., Staten Island, New York, New York 10314.

WHEREAS, the Declarant is the fee owner of certain land located in the City and State of New York, Borough of Staten Island, designated as Block 2620 Lot 125 on the Tax Map of the City of New York, hereinafter referred to as the Master Parcel, more particularly described by a metes and bounds description set forth in Exhibit A annexed hereto and by reference made a part hereof;

WHEREAS, the Declarant intends to divide the property and create three new lots to be designated as lots 124, 125 and 126 as more particularly described by the individual lot metes and bounds descriptions set forth in Exhibit B, B-1 and B-2 annexed hereto and by this reference made a part hereof;

WHEREAS, the Declarant is desirous of creating a driveway for the purposes of permitting and enabling present and future owners of the three newly created lots, their heirs, successors and assigns to pass over the lands of all lots for the purpose of ingress and egress to and from Victory Boulevard which lies at the front of said parcels for pedestrian and motor vehicle use;

WHEREAS, the Declarant has requested the New York City Board of Standards and Appeals (the “BSA”) to act upon BSA Cal. No. 2017-103-A for approval to construct a two-family residence that does not front on a final mapped street, contrary to Article III, Section 26 of the General City Law (“GCL”) (DOB Application No. 520270313); and WHEREAS, the BSA requires Declarant to execute and file this restrictive declaration prior

MINUTES

to obtaining a Certificate of Occupancy for the subject application; and

WHEREAS, a diagram marked Exhibit C showing the three above referenced properties, the boundaries of each and a cross-hatched portion indicating the area of the driveway (the "20" Wide Private Driveway Easement) is attached hereto, and make a part hereof, said Private Driveway Easement being more particularly described by a metes and bounds description set forth in Exhibit D annexed hereto and by this reference made a part hereof; and

WHEREAS, the Declarant has created the Triumph Way Homeowners Association to act as the vehicle through which the Declarant and the subsequent lot owners maintain and repair the private easement area and enforce restrictions on the use of such easement.

NOW, THEREFORE, in consideration of BSA approval of construction of a two-family residence not fronting on a legally mapped street, contrary to Article III, Section 36 of the GCL, Declarant does hereby declare, impose and establish the following:

1. The Private Driveway Easement shall be used to permit and enable present and future owners of said parcels, their heirs and assigns to pass over the lands of lots 124, 125 and 126 for the purpose of ingress and egress to and from Victory Boulevard and the front of said parcels for pedestrian and motor vehicle access;
2. The Private Driveway Easement shall at all times be maintained and kept clear and unobstructed;
3. No parking is permitted on the Private Driveway Easement pursuant to Fire Code Section 503.2.7;
4. Signage for the Easement must be provided and maintained by the Triumph Way Homeowners Association pursuant to Fire Code Section 503.2.7.2.1;
5. This declaration may not be modified, amended or terminated without the prior written consent of the BSA;
6. The covenants set forth herein shall run with the land and shall be binding upon and inure to the benefit of the parties hereto and their respective heirs, legal representatives, successors and assigns;
7. Failure to comply with the terms of this declaration may result in the revocation of a building permit or certificate of occupancy; and
8. This declaration shall be recorded at the Office of the Staten Island County Clerk against the Master Parcel and subsequent

subdivisions of the Master Parcel (the "Affected Parcels") and the cross reference number and title of the declaration shall be recorded on each temporary and permanent certificate of occupancy hereafter issued to buildings located on the Affected Parcels and in any deed for the conveyance therefor.

This declaration is only effective upon approval by the BSA of the application filed under BSA Cal. No. 2017-103-A and upon subsequent completion of construction and issuance of a certificate of occupancy pursuant to such approval; otherwise, this declaration is of no effect;

THAT homeowners shall maintain the roadways, "no parking" signs and striping;

THAT all sanitary, storm-sewer and water connections constructed, including in the private easement driveway, shall be maintained by the owners or homeowners association and will not be maintained by the City of New York;

THAT the proposed two-family residence shall be fully sprinklered as indicated on the approved plans;

THAT there shall be no parking throughout the entire apparatus access road way and frontage space;

THAT "no parking" signage shall be posted as required by the New York City Fire Code and indicated on the approved plans;

THAT an illuminated sign shall be mounted at the location indicated on the approved plans identifying the address for the proposed residence;

THAT the location of the proposed new fire hydrant shall be installed as indicated on the approved plans;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by June 5, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 5, 2018.

MINUTES

2017-218-A

APPLICANT – Law Office of Steven Simicich, for Leonard Censi, owner.

SUBJECT – Application June 20, 2017 – Proposed single family detached residential building which is within the unbuilt portion of the mapped street, contrary to General City Law 35. R3A zoning district.

PREMISES AFFECTED – 35 Howe Street, Block 302, Lot 19, Borough of Staten Island.

COMMUNITY BOARD #1SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated May 22, 2017, acting on New Building Application No. 520288885, reads in pertinent part:

“Proposed one family building within the bed of a mapped street is contrary to Article III, Section 35 of the General City Law”; and

WHEREAS, this is an application under General City Law (“GCL”) § 35 to permit construction of a three-story single-family residence within the bed of a mapped, but unimproved, street; and

WHEREAS, a public hearing was held on this application on February 13, 2018, after due notice by publication in *The City Record*, with continued hearings on April 10, 2018 and May 22, 2018, and then to decision on June 5, 2018; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 1, Staten Island, recommends approval of this application; and

WHEREAS, a resident of an adjacent property submitted testimony, citing concerns with a retaining wall on adjacent lots; and

WHEREAS, the subject site is located on the north side of Howe Street, west of Bement Avenue, partially in an R2 zoning district and partially in an R3X, in Staten Island; and

WHEREAS, the site has approximately 56 feet of frontage along Howe Street, 104 feet of depth, 5,638 square feet of lot area and is vacant; and

WHEREAS, the site is located within the bed of North Burgher Avenue, mapped, but unimproved, street; and

WHEREAS, the applicant proposes to construct a two-story, with basement, single-family residence within the bed of North Burgher Avenue; and

WHEREAS, the Board notes that, pursuant to GCL § 35, it may authorize construction within the bed of the mapped street subject to reasonable requirements; and

WHEREAS, the applicant submits that the proposed

development complies with all applicable zoning regulations, including requirements for side yards and distance between buildings under ZR § 23-46, and will provide two parking spaces; and

WHEREAS, by letter dated July 11, 2017, the Fire Department states that it has no objection to this application on condition that the proposed residence be fully sprinklered, that a hydrant be located within 250 feet of the main front entrance and that two off-street parking spaces be provided; and

WHEREAS, by letter dated April 5, 2018, the New York City Department of Environmental Protection (“DEP”) represents that it has no objection to this application on condition that a 35-foot-wide sewer corridor easement in the bed of the mapped North Burgher Avenue between Howe Street and Bosworth Street be required for the installation, maintenance or reconstruction of the future and existing sewers and water main; and

WHEREAS, by letter dated May 7, 2018, the New York City Department of Transportation (“DOT”) states that the improvement of North Burgher Avenue, which would involve the taking of a portion of the subject site, is not presently included in DOT’s Capital Improvement Program and that the applicant shall consult with DOT at the time when the guardrail at the end of Howe Street must be relocated; and

WHEREAS, in response to questions from the Board, the applicant reduced the width of the proposed building to provide 28 feet of width, 21’-8” of which is within the subject site, to North Burgher Avenue, should said mapped street or sewer be constructed at some future time; and

WHEREAS, in response to community concerns regarding a retaining wall on adjacent sites, the Board notes that this matter is not within the Board’s purview on this application but that DOB will ensure that the proposed construction complies with all applicable laws, rules and regulations; and

WHEREAS, based upon its review of the record, the Board has determined that this approval is appropriate with certain conditions as set forth below and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *modify* the decision of the Department of Buildings, dated May 22, 2017, acting on New Building Application No. 520288885, under the powers vested in the Board by Section 35 of the General City Law, to *permit* construction of a three-story single-family residence within the bed of a mapped, but unimproved, street; *on condition* that all work and site conditions shall conform to drawings filed with this application marked “Received May 21, 2018”-One (1) sheet; and *on further condition*:

THAT a certificate of occupancy shall be obtained within four (4) years, by June 5, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

MINUTES

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated April 22, 2016, acting on Alteration Application No. 321007272, reads in pertinent part:

“Use and enlargement to the existing building to accommodate the Existing Use Group 3 Yeshiva is contrary to ZR Section 42-00”; and

WHEREAS, this is an application brought on behalf of Congregation Machna Shalva (the “School”) under ZR §§ 73-19 and 73-03 to permit, in an M1-1 zoning district, the operation of a school, contrary to ZR § 42-00; and

WHEREAS, a public hearing was held on this application on July 25, 2017, after due notice by publication in *The City Record*, with continued hearings on November 14, 2017, February 27, 2018, and April 17, 2018, and then to decision on June 5, 2018; and

WHEREAS, Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 11, Brooklyn, recommends approval of this application on condition that the School ensure that adequate employee parking existing, that buses not be stored in front of the subject site during

MINUTES

school hours, that dismissal of students be staggered to prevent buses and cars from stacking and that, upon dismissal, only the amount of buses that can be accommodated curbside be brought onto the block to prevent queueing and blocked traffic; and

WHEREAS, the subject site is located on the south side of 62nd Street, between 14th Avenue and 15th Avenue, in an M1-1 zoning district, in Brooklyn; and

WHEREAS, the subject site has approximately 208 feet of frontage along 62nd Street, 163 feet of frontage along 15th Avenue, 33,010 square feet of lot area and is occupied by a four-story, with cellar, commercial building; and

WHEREAS, ZR 73-19 provides:

In C8 or M1 Districts, the Board of Standards and Appeals may permit *schools* which have no *residential* accommodations except *accessory* accommodations for a caretaker, provided that the following findings are made:

- (a) that within the neighborhood to be served by the proposed *school* there is no practical possibility of obtaining a site of adequate size located in a district wherein it is permitted as of right, because appropriate sites in such districts are occupied by substantial improvements;
- (b) that such *school* is located not more than 400 feet from the boundary of a district wherein such *school* is permitted as-of-right;
- (c) that an adequate separation from noise, traffic and other adverse effects of the surrounding *non-Residential Districts* is achieved through the use of sound-attenuating exterior wall and window construction or by the provision of adequate open areas along *lot lines* of the *zoning lot*; and
- (d) that the movement of traffic through the *street* on which the *school* is located can be controlled so as to protect children going to and from the *school*. The Board shall refer the application to the Department of Traffic for its report with respect to vehicular hazards to the safety of children within the block and in the immediate vicinity of the proposed site.

The Board may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the

building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the subject site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, as to the threshold issue of whether the School qualifies as a school for purposes of ZR § 73-19, the applicant states that the School meets the ZR § 12-10 definition of “school” because it provides full-time day instruction and a course of study that meets the requirements of Sections 3204, 3205 and 3210 of the New York State Education Law; and

WHEREAS, further, the applicant submitted a study supporting the School’s compliance with the New York State Education Law and detailing the School’s curriculum and required attendance policies; and

WHEREAS, by letter dated January 29, 2018, the New York State Department of Education’s Office of Religious and Independent Schools states that the School is recognized as a nonpublic school; and

WHEREAS, with respect to ZR § 73-19(a), an applicant must demonstrate its inability to obtain a site for the development of a school within the neighborhood to be served, and with a size sufficient to meet the programmatic needs of the school, within a district where the school is permitted as-of-right; and

WHEREAS, the applicant submitted a study of the School’s programmatic needs demonstrating that the School will enroll students in preschool, elementary, middle and high school and accordingly needs approximately 105,000 square feet of floor area, including uses as classrooms, play areas, library space, specialty classrooms, a gymnasium, lunchrooms and administrative spaces; and

WHEREAS, thus, the Applicant has demonstrated that its stated requirements related to size and configuration are justified by its programmatic needs; and

WHEREAS, the Applicant represents that the School has conducted an exhaustive search for potential expansion sites using the following criteria: (1) suitability of the site for the School’s educational use; (2) the size (lots with areas of 10,000 square feet of lot area and lots unoccupied with substantial improvements) and configuration of available space; (3) the ability of the property owner to timely prepare the site for the School’s use; and (4) availability for sale; and

WHEREAS, the Applicant represents that the School considered 6 sites within the subject neighborhood to be served by the School located in commercial or residential districts where the school use is permitted as-of-right, including: (1) 5822 16th Avenue; (2) 5911 16th Avenue; (3) 1560 60th Avenue; (4) 6607 New Utrecht Avenue; and (6) 1301 65th Street; and

WHEREAS, thus, the applicant maintains that the site

MINUTES

search establishes that there is no practical possibility of obtaining a site of adequate size in a nearby zoning district where a school would be permitted as-of-right; and

WHEREAS, therefore, the Board finds that the requirements of ZR § 73-19(a) are met; and

WHEREAS, ZR § 73-19(b) requires an applicant to demonstrate that the proposed school is located no more than 400 feet from the boundary of a district in which such a school is permitted as of right; and

WHEREAS, the Applicant submitted a radius diagram which reflects that the subject building is within 400 feet of an R6A zoning district and an R5 zoning district; and

WHEREAS, therefore, the Board finds that the requirements of ZR § 73-19(b) are met; and

WHEREAS, ZR § 73-19(c) requires an applicant to demonstrate how it will achieve adequate separation from noise, traffic and other adverse effects of the surrounding non-residential district; and

WHEREAS, the applicant states that an April 2015 Phase I Environment Site Assessment there is possibility for site contamination from former manufacturing, printing, dry cleaning and equipment maintenance operations in the subject building; the presence of urban or historic fill at the subject site; and the possible presence of asbestos containing building materials or lead based paints in the subject site and that, therefore, a Remedial Action Work Plan will be completed to ensure that no significant adverse impacts associated with hazardous materials would occur as a result of the proposed actions; and

WHEREAS, the applicant states that the Indoor Air Quality survey concluded that no volatile organic compounds were detected in the air at concentrations above the applicable New York State Department of Health Air Guidelines Values or above the range of anticipated background levels, and the indoor air quality was found to be within acceptable standards and guidelines; therefore, no significant adverse hazardous materials impacts are anticipated as a result of the proposed actions; and

WHEREAS, the applicant state states that, based on field observations of the existing arrival and dismissal pedestrian operations, the School would not have a significant adverse impact on pedestrian travel; and

WHEREAS, the applicant states no existing large combustion sources, such as power plants or cogeneration facilities were identified within 1,000 feet of the subject site and that no odor producing facility was identified within 1,000 feet of the subject site; and

WHEREAS, the applicant states that a screening analysis for carbon monoxide and particulate matter associated with on-street traffic indicated a detailed analysis was unwarranted, and, therefore, no significant air quality impacts are expected as a result of the proposed action; and

WHEREAS, the applicant states that, based on a field survey and online search within 400 feet of the subject site, no significant air quality impacts were predicted from auto body facilities to the subject site; and

WHEREAS, the applicant states that, based on the

results of noise monitoring, window repair and replacement to improve window-wall attenuation will be provided for the subject building to provide an additional 9.5 dB of attenuation for frontages facing the street and an addition 10.5 dB of attenuation for facades facing the subject line; and

WHEREAS, the Board finds that the conditions surrounding the site and the Proposed Building's use will adequately separate the proposed school use from noise, traffic and other adverse effects of any of the uses within the surrounding M1-1 zoning district; thus, the Board finds that the requirements of ZR § 73-19(c) are met; and

WHEREAS, ZR § 73-19(d) requires an applicant to demonstrate how the movement of traffic through the street on which the school will be located can be controlled so as to protect children traveling to and from the school; and

WHEREAS, the Board referred the application to the School Safety Engineering Office of the Department of Transportation ("DOT"); and

WHEREAS, by letter dated November 28, 2017, DOT states that it has no objection to this application and that the School should notify DOT so that DOT may determine if traffic safety improvements or parking regulation changes would be necessary; and

WHEREAS, the applicant submitted a parking space lease agreement indicating that there will be 24 parking spaces for school buses available at 1453 62nd Street, Brooklyn; and

WHEREAS, the Board finds that the abovementioned measures will control traffic so as to protect children going to and from the proposed school; and

WHEREAS, therefore, the Board finds that the requirements of ZR § 73-19(d) are met; and

WHEREAS, in response to the Board's questions at hearing, the applicant revised the parking lot lease agreement to reflect that bus parking will be available as long as the School is in operation under this special permit at the subject site, installed an acoustic fence at the rooftop play area, clarified ownership of the subject site, confirmed that fire alarm and sprinkler systems have been installed with all electrical wiring and installation of fixtures done in accordance with the New York City Construction Codes and made substantial progress curing outstanding violations; and

WHEREAS, by letter dated May 17, 2018, the Fire Department states there are three (3) outstanding violation orders for the subject site that shall be cured as follows: that the applicant shall obtain approval of Public Assembly No. 321621786 from DOB; that the fire alarm system shall be inspected by the Fire Department and signed off and that a new certificate of occupancy shall be obtained after the alteration application is amended and signed off by DOB; that the alteration application shall be amended to show all the uses for each floor as shown on the Board-approved plans; that a new Public Assembly application shall be filed or the existing one be amended to show the public assembly spaces on the first and fourth floors; and

WHEREAS, the Board finds that, under the conditions

MINUTES

and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 16BSA043K, dated May 29, 2018; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design; Natural Resources; Hazardous Materials; Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction Impacts; and

WHEREAS, by letter dated March 23, 2018, the Department of Environmental Protection (“DEP”) states that, based upon its review of the January 2018 Construction Health and Safety Plan, the proposed renovation work will be protective of the on-site workers, the surrounding community and the environment and accordingly has no objection to the proposed action; and

WHEREAS, by letter dated April 25, 2018, DEP states that it was determined that the proposed project would not result in any potential for significant adverse impacts in regards to air quality; and

WHEREAS, by letter dated April 25, 2018, DEP also states that, based on the results of Noise analysis performed as for the City Environmental Quality Review Technical Manual, it was determined that the proposed project would not result in any potential for significant adverse impacts in regards to Noise on condition that a composite window-wall noise attenuation of 28 dBA shall be required for all proposed building facades, that an alternative means of ventilation shall be required and shall be incorporated into building design and construction and that the proposed roof top play area shall be equipped with a 10-foot acoustic fence; and

WHEREAS, by letter dated April 26, 2018, the Department of Transportation states that, following Level 1 (Trip Generation) and Level 2 (Trip Assignment) screening assessments, a pedestrian levels of service analysis was performed at two sidewalks which are projected to operate at an acceptable level of service under the Action condition and would not create any significant adverse impacts and that a detailed traffic level of service analysis is not warranted as the proposed action would generate fewer than 50 trip-ends during any given hour; and

WHEREAS, no other significant effects upon the

environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-19 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR §§ 73-19 and 73-03 to *permit*, in an M1-1 zoning district, the operation of a school, contrary to ZR § 42-00; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked “Received February 7, 2018”-Nine (9) sheets; and *on further condition*:

THAT a composite window-wall noise attenuation of 28 dBA shall be required for all proposed building facades; an alternative means of ventilation shall be required and shall be incorporated into building design and construction; and the proposed rooftop play area shall be equipped with a 10-foot acoustic fence;

THAT no on-street bus parking shall be permitted adjacent to the subject site;

THAT all buses shall return to the parking lot located at 1453 62nd Street, Brooklyn, immediately upon picking up and dropping off students at the School;

THAT failure to maintain off-street parking spaces shall void the special permit;

THAT adequate employee parking existing;

THAT buses shall not be stored in front of the subject site during school hours;

THAT dismissal of students shall be staggered to prevent buses and cars from stacking;

THAT upon dismissal, only the amount of buses that can be accommodated curbside shall be brought onto the block to prevent queuing and blocked traffic;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by June 5, 2019;

THAT there are three (3) outstanding violation orders issued by the Fire Department for the subject site that shall be cured as directed by the Fire Department, described as follow: that the applicant shall obtain approval of Public Assembly No. 321621786 from DOB; that the fire alarm system shall be inspected by the Fire Department and signed off and that a new certificate of occupancy shall be obtained after the alteration application is amended and signed off by DOB; that the alteration application shall be amended to show all the uses for each floor as shown on the Board-

MINUTES

approved plans; that a new Public Assembly application shall be filed or the existing one shall be amended to show the public assembly spaces on the first and fourth floors;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 5, 2018.

APPLICANT – Law Office of Lyra J. Altman, for Beverly Paneth and Michael Paneth, owners.

SUBJECT – Application November 1, 2016 – Special Permit (73-622) for the enlargement of an existing single family home contrary to floor area, lot coverage and open space (ZR 23-141); side yard requirements (ZR 23-461 & ZR 23-48) and less than the minimum rear yard (ZR 23-47). R2 zoning district.

PREMISES AFFECTED – 1074 East 24th Street, Block 7605, Lot 76, Borough of Brooklyn.

COMMUNITY BOARD #14BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated October 7, 2016, acting on Alteration Application No. 321065431, reads in pertinent part:

1. Proposed plans are contrary to Zoning Resolution Section 23-141 in that the proposed floor area ratio exceeds the maximum permitted.
2. Proposed plans are contrary to Zoning Resolution Section 23-141 in that the proposed open space ratio is less than the minimum required.
3. Proposed plans are contrary to Zoning Resolution Sections 23-461 and 23-48 in that the proposed side yards are less than the minimum required.
4. Proposed plans are contrary to Zoning Resolution Section 23-47 in that the

proposed rear yard is less than the minimum required; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03 to permit, in an R2 zoning district, the enlargement of an existing two-story, with cellar, single-family detached residence that does not comply with zoning regulations for floor area ratio, open space ratio, side yards and rear yards, contrary to ZR §§ 23-141, 23-461, 23-48 and 23-47; and

WHEREAS, a public hearing was held on this application on October 3, 2017, after due notice by publication in *The City Record*, with continued hearings on January 23, 2018, March 27, 2018, and May 22, 2018, and then to decision on June 5, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of East 24th Street, between Avenue J and Avenue K, in an R2 zoning district, in Brooklyn; and

WHEREAS, the subject site has approximately 38 feet of frontage along East 24th Street, 100 feet of depth, 3,750 square feet of lot area and is occupied by an existing two-story, with cellar, single-family detached residence; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single-* or *two-family detached* or *semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-*

MINUTES

compliance, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge an existing detached single-family residence, as contemplated in ZR § 73-622; and

WHEREAS, the applicant proposes to enlarge the existing residence from 2,146 square feet of floor area (0.57 FAR) to 3,785 square feet of floor area (1.00 FAR), reduce the open space ratio from 65 percent to 54 percent, maintain side yards with depths of 4'-0" and 7'-4" and reduce the rear yard from 35'-5" to 22'-0"; and

WHEREAS, the applicant states that, at the subject site, floor area may not exceed 1,875 square feet (0.50 FAR) under ZR § 23-141, the open space ratio must be at least 150

percent under ZR § 23-141, side yards must have depths of at least 5'-0" and 7'-4" under ZR §§ 23-461 and 23-48 and the rear yard must have a minimum depth of 30 feet under ZR § 23-47; and

WHEREAS, the applicant represents that the proposed building as enlarged is consistent with the built character of the neighborhood; and

WHEREAS, in support of this contention, the applicant surveyed single- and two-family residences in the surrounding area, finding that there are there are 21 residences with 1.0 FAR or greater, there are at least five residences on East 24th Street with open space ratios equal to or lower than 54 percent; and

WHEREAS, the applicant further studied rear yards in the area indicating that 81 percent of the residences on the subject block have non-complying rear yards, that there are 17 residences with rear yards with depths less than or equal to 22 feet and that 27 residences have garages or sheds located in the rear yard; and

WHEREAS, the applicant also submitted photographic streetscape montage, radius diagram and a photographic neighborhood study demonstrating that the proposed building will fit in with the built conditions of the surrounding area; and

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, the Board finds that the proposed building as enlarged will not alter the essential character of the neighborhood or district in which the subject building is located, nor impair the future use or development of the surrounding area; and

WHEREAS, in response to questions from the Board at hearing about the effect of the enlarged building on residences nearby, the applicant reduced the proposed building's incursion into the rear yard, decreased the proposed floor area, removed the open terrace at the rear of the attic and revised the angle of the roof's rear portion; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of bulk regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17-BSA-037K, dated November 1, 2016; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination

MINUTES

under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-622 and 73-03 to *permit*, in an R2 zoning district, the enlargement of an existing two-story, with cellar, single-family detached residence that does not comply with zoning regulations for floor area ratio, open space ratio, side yards and rear yards, contrary to ZR §§ 23-141, 23-461, 23-48 and 23-47; *on condition* that all work and site conditions shall conform to drawings filed with this application marked “Received May 29, 2018”-Seventeen (17) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: a maximum of 3,785 square feet of floor area (1.00 FAR), a minimum open space ratio of 54 percent, side yards with minimum depths of 4’-0” and 7’-4” and a rear yard with a minimum depth of 22’-0”, as illustrated on the Board-approved plans;

THAT removal of existing joists or perimeter walls in excess of that shown on the Board-approved plans shall void the special permit;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by June 5, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 5, 2018.

CEQR #17-BSA-130X

APPLICANT – John M. Marmora, Esq. c/o K & L Gates LLP, for 3680 Tremont Realty, owner; McDonald’s USA, LLC, lessee.

SUBJECT – Application May 22, 2017 – Special Permit (§73-243) to allow for an eating and drinking establishment (UG 6) (*McDonald's*) with an accessory drive-through facility contrary to ZR §32-15. C1-2/R4-1 zoning district.

PREMISES AFFECTED – 3660 East Tremont Avenue, Block 5543, Lot 86, Borough of Bronx.

COMMUNITY BOARD #10BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta and

Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Bronx Borough Commissioner, dated November 15, 2017, acting on Department of Buildings (“DOB”) Application No. 220575161, reads:

Special Use Permit pursuant to Z.R. Sections 73-243 and 32-31 to permit an eating and drinking establishment with accessory drive through in C1-2 (in R4-1) Zoning District and proposed use is contrary to ZR 32-15; and

WHEREAS, this is an application under ZR §§ 73-243 and 73-03, to permit, on a site located within an R4-1 (C1-2) zoning district, a Use Group (“UG”) 6 eating or drinking establishment contrary to ZR § 32-15; and

WHEREAS, a public hearing was held on this application on March 20, 2018, after due notice by publication in *The City Record*, with continued hearing on May 22, 2018, and then to decision on June 5, 2018; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the subject site and neighborhood; and

WHEREAS, Community Board 10, the Bronx, recommends approval of this application; and

WHEREAS, by separate letter, Community Board 10 states that it is supportive of this application and is anxious for the proposed redevelopment of the subject site because it will help alleviate traffic congestion in the area; and

WHEREAS, the Board notes that the subject proposal was the result of a substantial amount of outreach to Community Board 10, that, at the request of the Board, the applicant sent supplemental notice of the May 22 hearing to neighbors located within 500 feet of the property; and

WHEREAS, New York City Councilmember Mark Gjonaj submitted a letter in support of this application, stating that the proposed redevelopment will have numerous benefits, “including the amelioration of a problematic traffic issue on Philip Avenue”; and

WHEREAS, the subject site is located on the southeast corner of East Tremont Avenue and Philip Avenue, in an R4-1 (C1-2) zoning district, in the Bronx; and

WHEREAS, the site has approximately 152 feet of frontage along East Tremont Avenue, 94 feet of frontage along Philip Avenue, 15,758 square feet of lot area and is occupied by a one-story eating or drinking establishment with a drive-through facility; and

WHEREAS, the applicant proposes to demolish the existing eating or drinking establishment and construct a new eating or drinking establishment with a drive-through facility; and

WHEREAS, ZR § 73-243 reads as follows:

In C1-1, C1-2 and C1-3 Districts, (except in Special Purpose Districts) the Board of Standards and Appeals may permit eating or drinking places (including those which provide musical entertainment but not dancing, with a capacity of 200 persons or less, and those which provide

MINUTES

outdoor table service) with accessory drive-through facilities for a term not to exceed five years, provided that the following findings are made:

- (a) the drive-through facility contains reservoir space for not less than 10 automobiles;
- (b) the drive-through facility will cause minimal interference with traffic flow in the immediate vicinity;
- (c) the eating or drinking place with *accessory* drive-through facility fully complies with the *accessory* off-street parking regulations for the indicated zoning district, including provision of the required number of *accessory* off-street parking spaces for the indicated zoning district (for the purpose of this finding, the waiver provisions of Sections 36-231 and 36-232 shall be inapplicable);
- (d) the character of the commercially zoned *street* frontage within 500 feet of the subject premises reflects substantial orientation toward the motor vehicle, based upon the level of motor vehicle generation attributable to the existing *commercial uses* contained within such area and to the subject eating or drinking place (excluding the *accessory* drive-through facility portion);
- (e) the drive-through facility shall not have an undue adverse impact on *residences* within the immediate vicinity of the subject premises; and
- (f) there will be adequate buffering between the drive-through facility and adjacent *residential uses*.

In connection therewith, the Board may modify the requirement of Section 32-411 (In C1, C5, C6-5 or C6-7 Districts) insofar as it relates to the *accessory* drive-through facility. The Board may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, the site plan submitted by the applicant indicates that the proposed drive-through facility provides reservoir space sufficient for 10 vehicles in satisfaction of ZR § 73-243(a); and

WHEREAS, the applicant represents that the proposed redevelopment of the site will substantially improve the conditions of the existing drive-through facility, which utilizes Philip Avenue, a residential street, for queuing for the drive-through during peak times, relocating the one-story eating and drinking establishment from a portion of the site closest to the intersection to the southeastern corner of the site, which will allow for the site itself to fully accommodate

a queue of at least 10 vehicles; and

WHEREAS, in addition, the applicant submitted a transportation assessment for the proposal in accordance with the CEQR technical Manual, March 2014 methodologies concluding that, in comparison to the existing restaurant, the subject proposal would, among other things, improve the efficiency of the operation of the drive-through by replacing the traditional drive-through with a tandem drive-through with two menu boards; increase the distance between the drive-through egress driveway and full-movement site driveway located on East Tremont Avenue; and improve pedestrian circulation on site by providing additional elements, including an ADA compliant curb ramp and sidewalk areas; and

WHEREAS, in satisfaction of ZR § 73-243(c), the applicant submits that 10 off-street parking spaces are required at the site pursuant to ZR § 36-21 and that 12 off-street parking spaces are provided at the site, therefore, the proposed redevelopment complies with applicable accessory off-street parking regulations; and

WHEREAS, the applicant represents that the existing site exhibits a substantial orientation toward the motor vehicle, as required by ZR § 73-243(d), and in support of that contention submits that a majority of traffic to the site during peak hours is vehicular and accounts for between 70 percent of vehicular site traffic during the Saturday peak hour (1:00 p.m. to 2:00 p.m.) and 75 percent of vehicular site traffic during the weekday morning peak hour (8:00 a.m. to 9:00 a.m.); additionally, the applicant submits that the portion of East Tremont Avenue at which the subject site is located, is classified as an Urban Minor Arterial and a designated Local Truck Route, that numerous commercial uses, including some with drive-through facilities, are located on the eastern side of East Tremont Avenue and that the orientation of the area toward the motor vehicle is consistent with the lack of subway service in the immediate area; and

WHEREAS, with regards to the potential for the proposal to have an undue adverse impact on residences located within the immediate vicinity of the subject premises, the applicant states that the proposed redevelopment of the site mitigates the adverse impacts of the existing eating or drinking establishment by improving onsite and drive-through circulation, relocating the parking area and trash enclosure from the southwestern portion of the property to the portion of the site closest to the corner of Philip Avenue and East Tremont Avenue, installing new fencing and additional landscaping along the western property line, which the site shares with a residential property and controlling the drive-through menu board speakers with an Automatic Volume Control system, which calibrates the volume of the speaker to the level of the ambient noise; and

WHEREAS, with regards to buffering, the applicant proposes a 5 foot wide planted buffer strip along the western property line and a 6 foot board-on-board fence to sufficiently buffer any visual or noise impacts of the

MINUTES

proposed drive-through facility and submitted a landscaping plan illustrating such measures; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-243 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board as conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 17BSA130X, dated February 14, 2018; and

WHEREAS, the EAS documents that the project, as proposed, would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR §§ 73-243 and 73-03 to permit, on a site located within an R4-1 (C1-2) zoning district, a Use Group (“UG”) 6 eating or drinking establishment contrary to ZR § 32-15; *on condition* that all work, site conditions and operations shall conform to drawing filed with this application marked “Received May 25, 2018”—ten (10) sheets and “Received June 5, 2018”—two (2) sheets; and *on further condition*:

THAT the term of this grant shall expire on June 5, 2021;

THAT parking and queuing space for the drive-through facility shall be provided as indicated on the BSA-approved plans;

THAT all landscaping and/or buffering shall be maintained as indicated on the BSA-approved plans;

THAT all signage, including directional signage, shall

comply with applicable zoning district regulations;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by June 5, 2021;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 5, 2018.

2017-221-BZ

APPLICANT – Eric Palatnik, P.C., for Spartan Petroleum Corp., owner.

SUBJECT – Application June 30, 2017 – Re-Instatement (§11-411) of previously approved variance which permitted the operation of an Automotive Service Station (UG 16B) which expired on July 13, 2009; Waiver of the Rules. C1-2/R5 zoning district.

PREMISES AFFECTED – 1781 Bay Ridge Parkway, Block 6215, Lot 47, Borough of Brooklyn.

COMMUNITY BOARD #11BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative:0

Abstain: Commissioner Scibetta.....1

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and procedure and a reinstatement of a variance, previously granted by the Board; and

WHEREAS, a public hearing was held on this application on February 13, 2018, after due notice by publication in *The City Record*, with a continued hearing on April 17, 2018, and then to decision on June 5, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 11, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the northeast corner of Bay Ridge Parkway and 18th Avenue, in an R5 (C1-2) zoning district, in Brooklyn; and

WHEREAS, the Board has exercised jurisdiction over the subject site since September 25, 1956, when, under BSA Calendar Number 862-55-BZ, the Board granted a variance for a term of fifteen (15) years, expiring September 25, 1971, on condition that all buildings and uses on site not intended to be retained be removed and the site be levelled

MINUTES

substantially to the grade of the adjoining streets; that the accessory building have no cellar and be constructed and arranged and of the proposed design as shown on the Board-approved plans and in all other respects comply with the requirements of the Building Code; that the accessory building be faced with face brick on all sides except that the rear wall may be of common brick, except that wood may be used on the gable ends, as shown, properly backed by masonry; that the roof surfacing be of asphalt shingles; that along the lot line to the north where walls of adjoining buildings do not occur there be a masonry wall agreeing with the brick used on the exterior of the accessory building not less than 2 feet in height above which be a steel picket fence to a total height of not less than 5'-6"; that a similar wall and fence be along the westerly zoning lot line to Bay Ridge Parkway with suitable terminating post; that pumps be of a low approved type erected not nearer than 15 feet to the street building lines of Bay Ridge Parkway and 18th Avenue; that there may be not over 12 approved gasoline storage tanks each of 550-gallon capacity; that a planting area be maintained where shown along the westerly zoning line and along the north lot line with suitable planting material and protected with concrete curbing not less than 8 inches in height and 6 inches in width; that the balance of the site where not occupied by the accessory building and planting and pumps be paved with concrete or asphaltic pavement; that curb cuts to Bay Ridge Parkway, as shown, each 30 feet in width and two curb cuts to 18th Avenue, as shown, with no portion of any curb cut nearer than 5 feet to any lot line as prolonged; that the sidewalks and curbing abutting the subject site be repaired or restored to the satisfaction of the Borough President; that signs be restricted to a permanent sign attached to the façade of the accessory building and to the illuminated globes of the pumps, excluding all roof signs and temporary signs but permitting the erection of a post standard for supporting a sign, which may be illuminated, permitting such sign to extend beyond the building line of Bay Ridge Parkway for a distance of not more than 4 feet; that such portable fire-fighting appliances be maintained within the accessory building as the Fire Commissioner shall direct; that any curb cut or showroom window herein proposed may be permitted; that parking of motor vehicles awaiting service may be permitted on the open portion of the plot provided such motor vehicles are parked where there will be no interference with the servicing of the station; and

WHEREAS, on February 29, 1972, under BSA Calendar Number 862-55-BZ, the Board granted an extension of term of ten (10) years, expiring September 25, 1981; and

WHEREAS, on February 2, 1982, under BSA Calendar Number 862-55-BZ, the Board granted an extension of term of ten (10) years, expiring September 25, 1991, and amended the variance to permit the elimination of one gasoline pump from the existing gasoline pump island fronting on Bay Ridge Parkway and to eliminate the shrubbery at the north lot line, extending from the accessory

building to the 18th Avenue building line, on condition that the station be operated at all times in such a fashion as to minimize traffic congestion and that a new certificate of occupancy be obtained within one (1) year, by February 2, 1983; and

WHEREAS, on August 8, 1989, under BSA Calendar Number 862-55-BZ, the Board amended the variance to permit a change in the design and arrangement of the existing automotive service station; to erect a new steel canopy over three (3) new gasoline pump islands with new "MPD" self-serve pumps; to reduce the size of the accessory buildings; to erect a new kiosk; to eliminate the planted area located along the northerly lot line; to eliminate all uses other than gasoline service station on condition that the station be maintained clean and free of graffiti and debris at all times; that the landscaping be densely planted with evergreen shrubs or trees at least four feet high at the time of the planting and which are of a type which may be expected to form a year-round dense screen at least 6 feet high within three years and be maintained and replaced when necessary; and that there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic; and

WHEREAS, on April 28, 1992, under BSA Calendar Number 862-55-BZ, the Board granted an extension of term of ten (10) years, expiring September 25, 2001, on condition that there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic and that a new certificate of occupancy be obtained within one (1) year, by April 28, 1993; and

WHEREAS, on March 11, 1997, under BSA Calendar Number 862-55-BZ, the Board granted an extension of time to obtain a certificate of occupancy of fifty-nine (59) months; and

WHEREAS, on July 13, 1999, under BSA Calendar Number 862-55-BZ, the Board granted an extension of term of ten (10) years, expiring July 13, 1999, and amended the variance to permit the replacement of the existing storage building located on the northwest perimeter of the site and a kiosk under the canopy, with the erection of a 784 square foot convenience store, the addition of one new pump island to be located where the kiosk to be removed now sits, the addition of three parking spaces and the removal of two existing curb cuts, located on 18th Avenue on condition that the site remain graffiti free at all times, that no vehicles be parked on sidewalks, that all signs be maintained in accordance with the Board-approved plans and that a new certificate of occupancy be obtained within one (1) year, by July 13, 2000; and

WHEREAS, the term having expired, the applicant now seeks a waiver of the Board's Rules of Practice and Procedure to allow the late filing of this application and a reinstatement of the variance; and

WHEREAS, the applicant submits that there are no proposed changes to the site and that the convenience store is an accessory use to the gasoline service station; and

WHEREAS, in response to questions from the Board,

MINUTES

the applicant represents that new landscaping and a light shield atop of the light fixture at the rear of the subject site have been installed; that the site has been cleaned with debris removed and grass trimmed; that signs were removed from the fence adjacent to residences; that parking stripes have been repainted; and that slats on the fence have been repaired; and

WHEREAS, based upon its review of the record, the Board has determined that the requested waiver of the Board's Rules of Practice and Procedure and reinstatement are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *waive* the Rules of Practice and Procedure and *reopen* and *amend* the resolution, dated September 25, 1956, as amended through July 13, 1999, under BSA Calendar Number 862-55-BZ, so that as amended this portion of the resolution shall read: "to permit an extension of term of ten (10) years, expiring June 5, 2028; on condition that all work and site conditions shall conform to drawings filed with this application marked "Received March 30, 2018"-Six (6) sheets; and on further condition:

THAT the term of this grant shall be for ten (10) years, expiring June 5, 2028;

THAT landscaping, fencing, slatting and the trash enclosure shall be maintained and replaced as necessary;

THAT landscaping shall be densely planted with evergreen shrubs or trees at last four feet high at the time of the planting and which are of a type which may be expected to form a year-round dense screen at least 6 feet high within three years and be maintained and replaced when necessary so as to shield adjacent properties;

THAT the site shall remain graffiti free at all times;

THAT there shall be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic;

THAT all signs shall be maintained in accordance with the Board-approved plans;

THAT the station be maintained clean and free of graffiti and debris at all times;

THAT the station be operated at all times in such a fashion as to minimize traffic congestion;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by June 5, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other

relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted."

Adopted by the Board of Standards and Appeals, June 5, 2018.

2017-259-BZ

CEQR #18-BSA-027K

APPLICANT – Eric Palatnik, P.C., for Yisrael Grafstein, owner.

SUBJECT – Application September 1, 2017 – Special Permit (§73-622) for the enlargement of an existing single family home contrary to floor area, open space and lot coverage (ZR §23-142); less than the required rear yard (ZR §23-47); and the proposed perimeter wall height exceeds 21'-0" contrary to (ZR §23-631(b)). R3-2 zoning district.

PREMISES AFFECTED – 1760 East 28th Street, Block 6810, Lot 29, Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated April 19, 2018, acting on Alteration Application No. 321194122, reads in pertinent part:

1. Proposed plans are contrary to Z.R. 23-141(b) in that the proposed Floor Area Ratio (FAR) exceeds the permitted
2. Proposed plans are contrary to Z.R. 23-141(b) in that the proposed Open Space is less than the required
3. Proposed plans are contrary to Z.R. 23-141(b) in that the proposed lot coverage exceeds the maximum required
4. Proposed plans are contrary to Z.R. 23-47 in that the proposed rear yard is less than [required]
5. Proposed plans are contrary to Z.R. 23-631(b) in that the perimeter wall exceeds [maximum]
6. Proposed plans are contrary to Z.R. 23-461(b) in that the side yard is less than [required]; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03 to permit, in an R3-2 zoning district, the enlargement of an existing two-story, with cellar, single-family semi-detached residence that does not comply with zoning regulations for floor area, open space, lot coverage, rear yards, perimeter wall height and side yards, contrary to ZR §§ 23-141(b), 23-47, 23-631(b) and 23-461(b); and

WHEREAS, a public hearing was held on this

MINUTES

application on April 10, 2018, after due notice by publication in *The City Record*, and then to decision on June 5, 2018; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application, stating that the proposed enlargement is modest; and

WHEREAS, the subject site is located on the west side of East 28th Street, between Quentin Road and Avenue R, in an R3-2 zoning district, in Brooklyn; and

WHEREAS, the subject site has approximately 27 feet of frontage along East 28th Street, 100 feet of depth, 2,650 square feet of lot area and is occupied by an existing two-story, with cellar, single-family semi-detached residence; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single- or two-family detached or semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage, open space, floor area, side yard, rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area

between the *building* that is being *enlarged* and the *side lot line*;

- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and

- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, inter alia, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge an existing semi-detached single-family residence, as contemplated in ZR § 73-622; and

WHEREAS, the applicant proposes to enlarge the existing residence from 1,680 square feet of floor area (0.63 FAR) to 2,730 square feet of floor area (1.03 FAR), decrease open space from 66 percent to 47 percent, increase lot coverage from 34 percent to 53 percent, decrease the depth of the rear yard from 37'-5" to 20'-0", maintain a perimeter wall height of 22'-1" and maintain a side yard with a depth of 4'-6"; and

WHEREAS, the applicant states that, at the subject site, floor area may not exceed 1,500 square feet (0.50 FAR) under ZR § 23-141(b), there must be at least 65 percent open space under ZR § 23-141(b), lot coverage may not exceed 35 percent under ZR § 23-141(b), rear yards must have a minimum depth of 30 feet under ZR § 23-47, perimeter wall heights may not exceed 21 feet under ZR § 23-631(b) and side yards must have a minimum depth of 8 feet under ZR § 23-461(b); and

WHEREAS, the applicant represents that the proposed

MINUTES

building as enlarged is consistent with the built character of the neighborhood; and

WHEREAS, in support of this contention, the applicant surveyed single- and two-family residences in the surrounding area, finding that there are seven residences with more than 1.0 FAR, six residences with lot coverages of 50 percent or more, five residences with side yards with less than or equal to 5 feet of depth and 13 residences on the subject block with rear yards with less than or equal to 23 feet of depth; and

WHEREAS, the applicant also submitted a photographic streetscape montage and a photographic neighborhood study demonstrating that the proposed building will fit in with the built conditions of the surrounding area; and

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, the Board finds that the proposed building as enlarged will not alter the essential character of the neighborhood or district in which the subject building is located, nor impair the future use or development of the surrounding area; and

WHEREAS, in response to questions from the Board at hearing about the effect of the enlarged building on residences nearby, the applicant reduced the proposed building's incursion into the rear yard above the first floor and decreased the proposed floor area; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of bulk regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18-BSA-027K, dated September 1, 2017; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-622 and 73-03 to *permit*, in an R3-2 zoning district, the enlargement of an existing two-story, with cellar, single-family semi-detached residence that does not comply with zoning regulations for floor area, open space, lot coverage, rear yards, perimeter wall height and side yards, contrary to ZR §§ 23-141(b), 23-47, 23-631(b) and 23-461(b); *on condition* that all work and site

conditions shall conform to drawings filed with this application marked "Received May 18, 2018"-Eleven (11) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: floor area shall be limited to 2,730 square feet (1.03 FAR), there shall be a minimum of 47 percent open space, lot coverage may not exceed 53 percent, the rear yard shall have a minimum depth of 20 feet, perimeter wall height shall not exceed 22'-1" and the side yard shall have a minimum width of 4'-6", as illustrated on the Board-approved plans;

THAT removal of existing joists or perimeter walls in excess of that shown on the Board-approved plans shall void the special permit;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by June 5, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 5, 2018.

2017-213-BZ

APPLICANT – Slater & Beckerman, P.C., for Dynamic Youth Community, Inc., owner.

SUBJECT – Application June 14, 2017 – Variance (§72-21) to permit the development of a 20-bed community residence and treatment facility (Use Group 3A) (*Dynamic Youth Community*) contrary to ZR §32-10 (contrary to use regulations); ZR §33-26 (rear yard regulations) and ZR §33-292 (district boundary yard regulations). C8-2 (Special Ocean Parkway District).

PREMISES AFFECTED – 1808 Coney Island Avenue, Block 6592, Lot 39, Borough of Brooklyn.

COMMUNITY BOARD #12BK

ACTION OF THE BOARD – Laid over to July 24, 2018, at 10 A.M., for continued hearing.

2017-308-BZ

APPLICANT – Greenberg Traurig by Jay A. Segal, for East Side Homestead LLC, owner.

SUBJECT – Application November 29, 2017 – Variance (§72-21) to permit the conversion of an existing building, subject to a previous Board approval which permitted medical offices with a residential penthouse to be used as a single-family residence contrary to ZR §23-47 (Rear Yard); ZR §23-44 (rear yard obstruction); ZR §23-861 (open space between rear windows and property's rear lot line; ZR §23-153 (lot coverage) and ZR §23-691 (maximum base height and building height). R8B/LH-1A, R10 Special Park Improvement District. Upper East Side Historic District.

PREMISES AFFECTED – 50 East 69th Street, an interior lot located on the south side of East 69th Street, on the block bounded by East 69th Street, Park Avenue, East 68th Street and Madison Avenue. Block 1383, Lot 40. Borough of Manhattan.

COMMUNITY BOARD #8M

ACTION OF THE BOARD – Laid over to August 7, 2018, at 10 A.M., for adjourned hearing.

MINUTES

REGULAR MEETING JUNE 5, 2018, 1:00 P.M.

NOTICE IS HEREBY GIVEN of a public hearing, Tuesday afternoon, June 5, 2018, 1:00 P.M., at 22 Reade Street, Spector Hall, New York, N.Y. 10007, on the following matters:

ZONING CALENDAR

2017-294-BZ

CEQR #18-BSA-054Q

APPLICANT – Rothkrug Rothkrug & Spector LLP, for Theater Building Enterprise LLC, owner; Blink Myrtle Avenue, Inc., lessee.

SUBJECT – Application November 3, 2017 – Special Permit (§73-36) to operate a physical culture establishment (*Blink*) within an existing building contrary to ZR §32-10. C4-3A zoning district, NYC Landmarked Ridgewood Theater.

PREMISES AFFECTED – 55-27 Myrtle Avenue, Block 3451, Lot 7, Borough of Queens.

COMMUNITY BOARD #5Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated December 4, 2017, acting on New Building Application No. 420648829, reads in pertinent part:

“The proposed Physical Culture Establishment is not permitted as of right . . . per ZR 32-10”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, in a C4-3A zoning district, the operation of a physical culture establishment on a portion of the first floor and cellar of a five-story building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on June 5, 2018, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Community Board 5, Queens, recommends approval of this application so long as the PCE be properly soundproofed and the owner comply with applicable requirements of the New York City Landmarks Preservation Commission (“LPC”) for the subject site; and

WHEREAS, Queens Borough President Melinda Katz submitted testimony in support of this application so long as soundproofing sufficient to contain potential noise impacts be installed and the owner maintain the landmarked façade

in good repair and appearance as specified by LPC; and

WHEREAS, the subject site is located on the north side of Myrtle Avenue, between Madison Street and Cypress Avenue, in a C4-3A zoning district, in Queens; and

WHEREAS, the subject site has approximately 41 feet of frontage along Myrtle Avenue, 159 feet of frontage along Madison Street, 100 feet of frontage along Cypress Avenue, 17,746 square feet of lot area and is occupied by the Ridgewood Theatre Building, a five-story, with cellar, mixed-use commercial and residential building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a

MINUTES

report from the Department of Investigation which the Board shall determine to be satisfactory; and

- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE will occupy 14,138 square feet of floor space as follows: 10,558 square feet of floor area on the first floor, including a reception area and spaces for cardiovascular equipment, weight-lifting exercises and stretching, and 4,943 square feet of floor space in the cellar, including locker rooms; and

WHEREAS, the PCE will operate as Blink, with the following hours of operation: Monday to Saturday, 5:30 a.m. to 11:00 p.m., and Sunday, 7:00 a.m. to 9:00 p.m.; and

WHEREAS, the applicant represents that the PCE use is consistent with the vibrant commercial area in which it is located and that the PCE use is fully contained within the envelope of an existing building; and

WHEREAS, in addition, the applicant submits that sound attenuation measures, including rubber flooring and demising walls with batt insulation, will be provided within the space so as to not disturb residents in the subject building; and

WHEREAS, the Board finds that the PCE use is so located as not to impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE will provide facilities for classes, instruction and programs for physical improvement, body building, weight reduction and aerobics; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be

satisfactory; and

WHEREAS, the applicant represents that the PCE will be fully sprinklered and that an approved fire alarm—including area smoke detectors, manual pull stations at each required exist, local audible and visual alarms and connection to an FDNY-approved central station—will be installed in the entire PCE space; and

WHEREAS, the Fire Department represents that it has no objection to this application; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18-BSA-054Q, dated November 8, 2017; and

WHEREAS, on June 12, 2014, LPC issued a Certificate of No Effect (No. CNE-15-8856) stating that proposed work will have no effect on significant protected features of the subject building, which is an individual landmark; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-36 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to *permit*, in a C4-3A zoning district, the operation of a physical culture establishment on a portion of the first floor and cellar of a five-story building, contrary to ZR § 32-10; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked “Received November 8, 2017”-Six (6) sheets; and *on further condition*:

THAT this grant shall be limited to a term of ten (10) years, expiring June 5, 2028;

THAT the ceiling and walls of the physical culture establishment shall be sound attenuated to prevent the transmittal of noise and vibration to residents above the physical culture establishment;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum 3'-0" wide exit pathways shall be provided leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—

MINUTES

including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be installed in the entire PCE space and the PCE shall be fully sprinklered, as indicated on the Board-approved plans;

THAT sound attenuation shall be installed in the PCE, as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by June 5, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 5, 2018.

2018-11-BZ

CEQR #18-BSA-090M

APPLICANT – Law Office of Jay Goldstein, for SM 1495 LLC, owner; Rumble Fitness LLC, lessee.

SUBJECT – Application January 26, 2018 – Special Permit (§73-36) to permit the operation of a physical cultural establishment (*Rumble Fitness*) within 5 stories and cellar of an existing building contrary to ZR §32-10. C1-9 zoning district.

PREMISES AFFECTED – 1495 3rd Avenue, Block 1530, Lot 3, Borough of Manhattan.

COMMUNITY BOARD #8M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Deputy Borough Commissioner, dated December 28, 2017, acting on Department of Buildings (“DOB”) Application No. 121227467 reads in pertinent part:

ZR 32-10, 73-36: BSA: Proposed ‘Physical Culture Establishment’ is not permitted As-Of-Right per section ZR 32-10 and is referred to the Board of Standards and Appeals for a special

permit under ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, on a site located in a C1-9 zoning district, the establishment of a physical culture establishment (“PCE”) within the entirety of the cellar level, first, second, fourth and fifth floors and a portion of the third floor of an existing five-story plus cellar building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on June 5, 2018, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Community Board 8, Manhattan, recommends approval of this application; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the subject site and surrounding neighborhood; and

WHEREAS, the subject site is located on the east side of Third Avenue, between East 84th Street and East 85th Street, in a C1-9 zoning district, in Manhattan; and

WHEREAS, the site has approximately 26 feet of frontage along Third Avenue, a depth of 100 feet, 2,575 square feet of lot area and is occupied by a five-story plus cellar building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in

MINUTES

certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE will occupy 2,868 square feet of floor space in the cellar, 2,537 square feet of floor area on the first floor, 2,337 square feet of floor area on the second floor, 1,590 square feet of floor area on the third floor, 2,337 square feet of floor area on the fourth floor and 1,565 square feet of floor area on the fifth floor of the existing building at the site; and

WHEREAS, utilities, storage and men's locker rooms and saunas will be located in the cellar, a reception area and private training room will be located on the first floor, the entire second and fourth floors will each be dedicated to one fitness studio, the third floor will be comprised of women's locker rooms and saunas and the fifth floor will contain accessory offices; and

WHEREAS, the PCE will be operated as Rumble Fitness with the following proposed hours of operation: Monday through Friday, 5:30 a.m. to 10:00 p.m., and Saturday through Sunday, 7:00 a.m. to 7:30 p.m.; and

WHEREAS, the applicant represents that the proposed PCE use will neither impair the essential character nor the future use or development of the surrounding area because the surrounding area includes residential, manufacturing, commercial and community facility uses and, thus, trafficked by retail customers as well as a residents and commercial tenants, many of whom may frequent the subject PCE; and

WHEREAS, the remainder of the third floor of the subject building, not occupied by the proposed PCE, will be occupied by an accessory beauty salon, a use compatible with the proposed PCE use; and

WHEREAS, the applicant submits that the fitness studios on the second and fourth floors and the private training room on the first floor will be isolated with acoustical partitions, isolating those rooms from adjacent structure with two layers of 5/8" sheetrock in studio and two layers outside the studio and four-inch sound attenuated batt insulation; all flooring at the studio will be four-inch isolated mat subfloor with neoprene isolators, fiberglass batting and perimeter isolation boards at all edges; all penetrations at studio ceilings and partitions will be sealed with mineral fiber insulation and caulked; and acoustical separation materials will have STC ratings of 60 at the partitions and 64 at the flooring; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the PCE will provide high intensity training and boxing instruction in group fitness studios utilizing free weights and a training bag, thus containing facilities for classes, instruction and programs for physical improvement; and

WHEREAS, the Board finds that the proposed PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant submits that the PCE space will be equipped with sprinklers and a class E interior fire alarm including area smoke detectors, manual pull stations, local audible and visual alarms and a connection to an FDNY-approved central station; and

WHEREAS, by letter dated May 29, 2018, the Fire Department states that applications have been file with DOB for the fire alarm system and removal and installation of new sprinkler system at the subject site, work has been permitted, is currently in progress and is being inspected by the Bureau of Fire Prevention, Construction, Demolition and Abatement Unit, who have been notified of this application, and that the agency has no additional comments or recommendations relative to this application; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the

MINUTES

PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, the applicant represents that the PCE will not interfere with any public improvement projects; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed action under CEQR Checklist No. 18-BSA-090M, dated March 9, 2018; and

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located within a C1-9 zoning district, the establishment of a physical culture establishment in the entirety of the cellar level, first, second, fourth and fifth floors and a portion of the third floor of an existing five-story plus cellar building, contrary to ZR §32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received January 30, 2018”-Three (3) sheets and “March 9, 2018”-Five (5) sheets; and *on further condition*:

THAT this special permit shall be for a term of ten (10) years, expiring June 5, 2028;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT minimum three feet wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT an approved class E fire alarm system—including area smoke detectors, manual pull stations at each require exit, local audible and visual alarms and a connection to an FDNY-approved central station—shall be installed in the entire PCE space;

THAT a sprinkler system shall be installed and maintained within the entire PCE space;

THAT accessibility compliance under Local Law 58/87 shall be as reviewed and approved by DOB;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June

5, 2018.

2018-92-BZ

CEQR #18-BSA-137Q

APPLICANT – NYC Mayor's Office of Housing Recovery Operations (HRO)

SUBJECT – Application May 22, 2018 – Special Permit (§64-92) to waive bulk requirements for the reconstruction of homes damaged/destroyed by Hurricane Sandy for a property registered in the NYC Build it Back Program. Waiver of minimum required side yard (ZR 23-461). R4 zoning district.

PREMISES AFFECTED – 213 Bayside Avenue, Block 16340, Lot 50. Borough of Queens.

COMMUNITY BOARD #14Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to permit, in an R4 zoning district, the development of a single-family residence in compliance with flood-resistant construction standards that does not comply with the zoning requirements for side yards, contrary to ZR § 23-461; and

WHEREAS, this application is brought on behalf of the property owner by the Build It Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in furtherance of the City’s effort to rebuild homes impacted by Superstorm Sandy expeditiously and effectively, the Board, pursuant to 2 RCNY § 1-14.2, waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1-05.1 (Objection Issued by the Department of Buildings), (2) 2 RCNY § 1-05.3 (Filing Period), (3) 2 RCNY § 1-05.4 (Application Referral), (4) 2 RCNY § 1-05.6 (Hearing Notice), (5) 2 RCNY § 1-05.7 (List of Affected Property Owners), (6) 2 RCNY § 1-09.4 (Owner’s Authorization), and (7) 2 RCNY § 1-10.7 (Proof of Service for Application Referral and Hearing Notice); and

WHEREAS, the Board notes that the subject application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the south side of Bayside Avenue, east of Roxbury Boulevard, in an R4 zoning district, in Queens; and

WHEREAS, the subject site has approximately 22 feet of frontage along Bayside Avenue, 110 feet of depth, 2,490 square feet of lot area and is occupied by a single-family residence; and

WHEREAS, ZR § 64-92 provides:

MINUTES

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments* and *enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Section 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

- (a) that there would be a practical difficulty in complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;
- (b) that any modifications of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant now seeks a special permit, pursuant to ZR § 64-92, to allow the development of a single-family residence with side yards measuring 3'-1" to the east, 5'-0" to the west and a total width of 8'-1"; and

WHEREAS, the applicant submits that the existing residence is non-complying as to lot area, lot width and side yards; and

WHEREAS, at the subject site, side yards with a combined width of at least 13 feet, each with a width of at least 5 feet, are required pursuant to ZR § 23-461; and

WHEREAS, in accordance with ZR § 64-92(a), the composition of the existing residence on the lot and relocation of the septic tank to comply with New York State Department of Environmental Conservation restrictions create practical difficulties in complying with flood-resistant construction standards without the modification of requirements for side yards, and waiving the same is the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the applicant notes that the proposed development reduces the degree to which the residence does not comply with applicable bulk regulations, specifically, it improves the existing yards' minimum dimension and increases distance between buildings for emergency access; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the finding pursuant to ZR § 64-92(b) is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the dwelling is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the neighborhood is characterized by single- and two-family detached residences and that the proposal improves the existing side yard condition thus, makes a positive contribution to the existing neighborhood fabric, especially in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18BSA137Q, dated May 22, 2018; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR § 64-92 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR § 64-92 to *permit*, in an R4 zoning district, the development of a single-family residence in compliance with flood-resistant construction standards that does not comply with the zoning requirements for side yards, contrary to ZR § 23-461; *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received May 22, 2018"-Four (4) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: side yards shall have minimum widths of 3'-1" to the east, 5'-0" to the west and a minimum total width of 8'-1", as illustrated on the Board-approved plans;

THAT this approval shall be limited to the Build It Back program;

THAT DOB and related agency application(s) filed in connection with the authorized use or bulk shall be signed off by DOB and all other relevant agencies within four (4) years, by June 5, 2022;

MINUTES

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 5, 2018.

2018-93-BZ

CEQR #18-BSA-138K

APPLICANT – NYC Mayor's Office of Housing Recovery Operations (HRO)

SUBJECT – Application May 22, 2018 – Special Permit (§64-92) to waive bulk requirements for the reconstruction of a home damaged/destroyed by Hurricane Sandy for a property registered in the NYC Build it Back Program. Waiver of the minimum required front yard regulations of ZR 23-45 and ZR 64-A351, waiver of the minimum required side yard regulations of ZR 23-461 and ZR 64-A352. R4 zoning district.

PREMISES AFFECTED – 7 Bevy Court, Between Everett Avenue and Florence Avenue. Block 8925, Lot 266. Borough of Brooklyn.

COMMUNITY BOARD #15M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board's Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to permit, in an R4 zoning district, the development of a detached single-family residence in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards and side yards, contrary to ZR §§ 23-45- and 23-461; and

WHEREAS, this application is brought on behalf of the property owner by the Build It Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in furtherance of the City's effort to rebuild homes impacted by Superstorm Sandy expeditiously and effectively, the Board, pursuant to 2 RCNY § 1-14.2, waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1-05.1 (Objection Issued by the Department of Buildings), (2) 2 RCNY § 1-05.3 (Filing Period), (3) 2 RCNY § 1-05.4 (Application Referral), (4) 2 RCNY § 1-05.6 (Hearing Notice), (5) 2 RCNY § 1-05.7 (List of Affected Property Owners), (6) 2 RCNY § 1-09.4 (Owner's

Authorization), and (7) 2 RCNY § 1-10.7 (Proof of Service for Application Referral and Hearing Notice); and

WHEREAS, the Board notes that the subject application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the south side of Bevy Court, between Florence Avenue and Everett Avenue, in an R4 zoning district, in Brooklyn; and

WHEREAS, the subject site has approximately 34 feet of frontage along Bevy Court, 53 feet of depth, 1,785 square feet of lot area and is occupied by a detached single-family residence; and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments* and *enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Section 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

- (a) that there would be a practical difficulty in complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;
- (b) that any modifications of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant now seeks a special permit, pursuant to ZR § 64-92, to allow the development of a single-family detached residence with a front yard measuring approximately 8.8 feet and side yards with widths measuring 4.8 feet to the west, 8.4 feet to the east and a total width of 13.2 feet; and

MINUTES

WHEREAS, at the subject site, a front yard of at least 10 feet is required pursuant to ZR § 23-45 and side yards with a total width of at least 13 feet, each with a width of at least 5 feet, are required pursuant to ZR § 23-461; and

WHEREAS, in accordance with ZR § 64-92(a), the need to reconstruct the existing residence creates practical difficulties in complying with flood-resistant construction standards without the modification of the requirements for front yards and side yards, and waiving the same is the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the applicant notes that shifting of the residence on the lot during construction resulted in deviations of 0.1 feet to the right and 1.2 feet forward on the lot, creating the proposed yard conditions; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the finding pursuant to ZR § 64-92(b) is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the dwelling is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the neighborhood is characterized by single- and two-family detached residences and that the proposal improves the existing side yard condition thus, makes a positive contribution to the existing neighborhood fabric, especially in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18BSA138K, dated May 22, 2018; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR § 64-92 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR § 64-92 to *permit*, in an R4 zoning district, the development of a detached single-family residence in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards and side yards, contrary to ZR §§ 23-45- and 23-461; *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received May 22, 2018"-Three (3) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: the front yard shall have a minimum depth of 8.8 feet, and the side yards shall have minimum widths of 4.8 feet to the west and 8.4 feet to the south with a minimum total width of 13.2 feet, as illustrated on the Board-approved plans;

THAT this approval shall be limited to the Build It Back program;

THAT DOB and related agency application(s) filed in connection with the authorized use or bulk shall be signed off by DOB and all other relevant agencies within four (4) years, by June 5, 2022;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 5, 2018.

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and an extension of term of a variance, previously granted by the Board; and

WHEREAS, a public hearing was held on this application on April 17, 2018, after due notice by publication in *The City Record*, with a continued hearing on June 5, 2018, and then to decision on June 19, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 2, Queens, recommends approval of this application on condition that there be no parking of vehicles on the street, that there be no blocking of pedestrian access, that the site be maintained free of debris and graffiti and that the canopy lighting be directed down and away from residences; and

WHEREAS, the subject site is located on the south side of Broadway, between 56th Street and 57th Street, partially in an M1-1 zoning district and partially in an R5 zoning district, in Queens; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 16, 1946, when, under the subject calendar number, the Board granted a variance to permit the construction and maintenance of a gasoline service station,

lubratorium and automotive laundry on certain conditions; and

WHEREAS, on February 4, 1947, under the subject calendar number, the Board approved plans as in substantial compliance with the requirements of the Board’s resolution adopted July 16, 1946, on condition that all work be completed within one (1) year, by February 4, 1948; and

WHEREAS, on February 25, 1948, under the subject calendar number, the Board granted an extension of time to obtain permits and complete construction; and

WHEREAS, February 23, 1949, under the subject calendar number, the Board granted an extension of time to complete construction; and

WHEREAS, on May 15, 1956, under the subject calendar number, the Board granted an extension of term of ten (10) years, expiring May 15, 1966, and an extension of time to complete construction on condition that a new certificate of occupancy be obtained within six (6) months, by November 15, 1956; and

WHEREAS, on July 12, 1966, under the subject calendar number, the Board amended the variance to include minor auto repairs with hand tools only, storage and sales of automotive accessories and the parking of cars awaiting service and granted an extension of term of ten (10) years, expiring July 12, 1976, on condition that a certificate of occupancy be obtained; and

WHEREAS, on July 13, 1976, under the subject calendar number, the Board granted an extension of term of ten (10) years, expiring July 13, 1986, on condition that sidewalks in front of the subject site on 56th Street and 57th Street be paved for their full width in compliance with the specifications of the Department of Highways and that a new certificate of occupancy be obtained within one (1) year, by July 13, 1977; and

WHEREAS, on March 10, 1986, under the subject calendar number, the Board granted an extension of term of ten (10) years, expiring July 13, 1996, on condition that the landscaping be maintained and replaced when necessary, that the fence be repaired and maintained in good order at all times, that the dumpster be located on the subject site and covered at all times, that the station be maintained clean and free of debris at all times and that a new certificate of occupancy be obtained within one (1) year, by March 10, 1987; and

WHEREAS, on May 27, 1998, under the subject calendar number, the Board amended the variance to permit the installation of a metal canopy over two concrete pump islands and granted an extension of term of ten (10) years, expiring July 13, 2006, on condition that the wooden fence along the southerly lot line be installed and adequately maintained, that the planting area along the 57th Street side of the subject site be restored and maintained in accordance with the Board-approved plans, that the fencing surrounding the planted areas be removed, that the dumpster be located in accordance with the Board-approved plans, that the accessory business signs be in accordance with the Board-approved plans, that all light be directed down and away

MINUTES

from residences, that the canopy lighting not exceed the Board-approved drawings, that the parking be for cars awaiting service, that the site be maintained graffiti free and in accordance with the Board-approved plans and that a new certificate of occupancy be obtained within one (1) year, by May 27, 1999; and

WHEREAS, on January 11, 2000, under the subject calendar number, the Board granted an extension of time to obtain a certificate of occupancy; and

WHEREAS, on January 10, 2012, under the subject calendar number, the Board granted an extension of term of ten (10) years, expiring July 13, 2016, and an extension of time to obtain a certificate of occupancy of one (1) year, expiring January 10, 2013, on condition that the site be maintained free of debris and graffiti, that there be no parking of cars on the sidewalk and all on-site parking be in accordance with the Board-approved plans, that all signage comply with C1 zoning district regulations, that the above conditions appear on the certificate of occupancy and that a new certificate of occupancy be obtained by January 10, 2013; and

WHEREAS, the term having expired, the applicant now seeks a waiver of the Board's Rules of Practice and Procedure to permit the late filing of this application and an extension of term; and

WHEREAS, in response to questions from the Board, the applicant submitted a revised lighting plan to reflect lower wattage lighting and evidence that the fence and wall have been repaired; and

WHEREAS, by letter dated May 30, 2018, the Fire Department states that it has no objection to this application; and

WHEREAS, based upon its review of the record, the Board has determined that the requested waiver of the Board's Rules of Practice and Procedure and extension of term are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *waive* the Rules of Practice and Procedure and *reopen* and *amend* the resolution, dated July 16, 1946, as amended through January 10, 2012, so that as amended this portion of the resolution shall read: "to *permit* an extension of term of ten (10) years, expiring July 13, 2026; *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received May 3, 2018"-Two (2) sheets and "June 15, 2018"-One (1) sheet; and *on further condition*:

THAT the term of this grant shall be limited to ten (10) years, expiring July 13, 2026;

THAT there shall be no parking of vehicles on the street;

THAT there shall be no blocking of pedestrian access;

THAT the site shall be maintained free of debris and graffiti at all times;

THAT the canopy lighting shall be directed down and away from residences;

THAT intensity of the bulbs shall be reduced to

achieve 0 foot candles at the property line;

THAT there shall be no parking of cars on the sidewalk and all on-site parking shall be in accordance with the Board-approved plans;

THAT all signage shall comply with C1 zoning district regulations;

THAT the wooden fence along the southerly lot line shall be adequately maintained;

THAT the planting area along the 57th Street side of the subject site shall be maintained in accordance with the Board-approved plans;

THAT the dumpster shall be located in accordance with the Board-approved plans;

THAT the accessory business signs shall be in accordance with the Board-approved plans;

THAT all light shall be directed down and away from residences;

THAT the canopy lighting shall not exceed the Board-approved drawings;

THAT the parking shall be for cars awaiting service;

THAT the fence shall be maintained in good order at all times;

THAT the dumpster shall be located on the subject site and covered at all times;

THAT sidewalks in front of the subject site on 56th Street and 57th Street shall be paved for their full width in compliance with the specifications of the Department of Transportation;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by June 19, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted."

Adopted by the Board of Standards and Appeals, June 19, 2018.

APPLICANT – Klein Slowik PLLC, for St. George Tower & Grill Owners Corp., owner; St. George Health & Racquet Associates LLC, lessee.

SUBJECT – Application June 20, 2017 – Extension of Term of a previously approved Variance (§72-21) which permitted the operation of a Physical Cultural Establishment (*Eastern Athletic Club*) which expired on July 3, 2014; Waiver of the Rules. R7-1 (Limited Height Special Purpose District) (Brooklyn Heights Historic District).

PREMISES AFFECTED – 43 Clark Street aka 111 Hicks Street, Block 231, Lot 19, Borough of Brooklyn.

COMMUNITY BOARD #2BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5
Negative.....0

THE RESOLUTION –

WHEREAS, this is an application for an extension of term of a variance, previously granted by the Board; and

WHEREAS, a public hearing was held on this application on May 8, 2018, after due notice by publication in *The City Record*, and then to decision on June 19, 2018; and

WHEREAS, Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 2, Brooklyn, waives its recommendation for this application; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 3, 1979, when, under the subject calendar number, the Board granted a variance to permit, in conjunction with the conversion of an existing hotel into a multiple dwelling, the use of the ballroom and pool area as a physical culture establishment (“PCE”) without the required accessory parking on condition that the term be limited to fifteen (15) years, expiring July 3, 1994, and that the hours of operation be limited to from 8:00 a.m. to 11:00 p.m., seven days per week; and

WHEREAS, on October 31, 1995, under the subject calendar number, the Board amended the variance to permit the dance and martial arts facilities on the second floor of the building as part of the physical culture establishment and reflect the name of the current operator of the establishment and granted an extension of term of ten (10) years, expiring July 3, 2004, on condition that a new certificate of occupancy be obtained within one (1) year, by October 31, 1996; and

WHEREAS, on January 23, 2007, under the subject calendar number, the Board amended the variance to allow minor modifications, including reconfiguration of the cellar space, relocation of the basement-level shop, offices and child care area, enlargement and relocation of the stairs, reconfiguration of the first-floor sports courts and reconfiguration of the second-floor spectator area and

granted an extension of term of ten (10) years, expiring July 3, 2024, on condition that there be no change in ownership or operating control of the PCE without prior approval from the Board and that the above conditions appear on the certificate of occupancy; and

WHEREAS, the term having expired, the applicant now seeks a waiver of the Board’s Rules of Practice and Procedure to permit the late filing of this application and an extension of term; and

WHEREAS, the applicant represents that there have been no changes to the floor plan or operator of the facility, Eastern Athletic Club, as previously approved by the Board; and

WHEREAS, in response to questions from the Board, the applicant clarified that the PCE occupies 76,394 square feet of floor space as follows: 557 square feet of floor space in the sub-cellar, 23,406 square feet of floor space in the cellar, 26,156 square feet of floor area in the basement, 14,292 square feet of floor area on the first floor, 8,053 square feet of floor area on the second floor, 3,035 square feet of floor area on the fourth floor and 895 square feet of floor area on the fifth floor; and

WHEREAS, by letter dated May 4, 2018, and stated at hearing, the Fire Department represents that it has no objection to this application; and

WHEREAS, based upon its review of the record, the Board has determined that the requested waiver of the Board’s Rules of Practice and Procedure and extension of term are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *waive* the Rules of Practice and Procedure and *reopen* and *amend* the resolution, dated July 3, 1979, as amended through January 23, 2007, so that as amended this portion of the resolution shall read: “to *permit* an extension of term of ten (10) years, expiring July 3, 2024; *on condition* that all work, site conditions and operations shall conform to the Board-approved plans; and *on further condition*:

THAT the term of this grant shall be limited to ten (10) years, expiring July 3, 2024;

THAT the hours of operation shall be limited to from 8:00 a.m. to 11:00 p.m., seven days per week;

THAT there shall be no change in ownership or operating control of the PCE without prior approval from the Board;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by June 19, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

MINUTES

granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, June 19, 2018.

175-05-BZ

APPLICANT – Sheldon Lobel, P.C., for 18-24 Luquer Street Realty, LLC, owner.

SUBJECT – Application February 16, 2018 – Extension of Time to Complete Construction of a previously approved Variance (§72-21) to construct a four-story multiple dwelling with accessory parking which expired on January 9, 2015; Waiver of the Rules. M1-1 zoning district.

PREMISES AFFECTED – 18-24 Luquer Street, Block 520, Lot 13, Borough of Brooklyn.

COMMUNITY BOARD #6BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5
Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure, reopening and an extension of time to complete construction pursuant to a previously granted variance, which expired on January 25, 2015; and

WHEREAS, a public hearing was held on this application on May 8, 2018, after due notice by publication in *The City Record*, with a continued hearing on June 19, 2018, and then to decision on that date; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the south side of Luquer Street, between Columbia Street and Hicks Street, in an M1-1 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 85 feet of frontage along Luquer Street, a depth of 100 feet, 8,500 square feet of lot area and is vacant; and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 9, 2007, when, under the subject calendar number, the Board granted a variance, pursuant to ZR § 72-21, to permit the construction of a three-story plus cellar residential building contrary to ZR § 42-00 on condition that the parameters of the proposed building be as follows: three stories, 14,025 square feet of floor area (1.65 FAR), a street wall and total height of 34 feet, a rear yard of 30 feet, a front yard of 15 feet, 12 dwelling units and 12 parking spaces; and

WHEREAS, also on January 9, 2007, a Restrictive Declaration was filed in the Office of the City Register of the City of New York against the subject site (Document ID 2007010400585001) to address potential hazardous material impacts relating to the variance application and requiring the fee owner of the site to, *inter alia*, (1) restrain from submitting applications for grading, excavation, foundation, alteration, building or other permits for soil disturbance to Department of Buildings (“DOB”) until the New York City Department of Environmental Protection (“DEP”) has issued a Notice of No Objection, Notice to Proceed, Notice of Satisfaction or Final Notice of Satisfaction and (2) refrain from submitting an application to DOB for a temporary or permanent certificate of occupancy reflecting a change in use group at the site until DEP has issued a Notice of No Objection, Notice of Satisfaction or Final Notice of Satisfaction; and

WHEREAS, pursuant to ZR § 72-23, a variance granted under the provisions of the Zoning Resolution automatically lapses if substantial construction, in accordance with the plans for which such variance was granted, has not been completed within four years from the date of granting such variance by the Board of Standards and Appeals; and

WHEREAS, accordingly, the time to substantially complete construction pursuant to the 2007 variance grant expired on January 9, 2011; and

WHEREAS, on January 25, 2011, under the subject calendar number, the Board granted a four (4) year extension of time to complete construction, expiring January 9, 2015, on condition that the fence located along the eastern lot line be repaired by April 25, 2011 and that all conditions from prior resolutions not specifically waived by the Board remain in effect; and

WHEREAS, the time for substantial construction to have been completed having expired, the applicant seeks the subject relief; and

WHEREAS, the applicant additionally requests a waiver, pursuant to § 1-14.2 of the Board’s Rules of Practice and Procedure, of Rule § 1-07.3(c)(3) to permit the filing of this application less than four (4) years after the expiration of the time to complete construction; and

WHEREAS, the applicant submits that the commencement of construction at the site has been delayed by difficulties in obtaining necessary financing, but represents that financing has been secured and construction would begin at the site immediately upon the Board’s grant of this application; and

WHEREAS, in addition, the applicant provided an estimated timeline for construction, concluding that the development could be completed within two and a half years from the date of grant; and

WHEREAS, in hearing, members of the Board expressed concerns regarding the lack of progress at the site in the 11 years since the variance grant and suggested that the subject application be filed as a new variance application; and

WHEREAS, other member of the Board stated that the character of the subject block has remained the same since the 2007 variance grant, that real estate financing was, in fact,

MINUTES

difficult to obtain at that time and that the applicant's submission of a construction timeline evidences an intention to develop the site pursuant to the plans approved by the Board in 2007 in short order; and

WHEREAS, the Board agreed, however, that this should be the final extension of time granted for the subject to facilitate construction pursuant to the 2007 variance and, though the applicant has requested an extension of only two and a half years, the Board finds it prudent to grant this final extension for four (4) years from the date of grant to ensure timely completion of the approved development; and

WHEREAS, additionally, the Board requested that the applicant review the 2007 plans approved by the Board for compliance with the 2014 New York City Building Code to ensure that no amendments to those plans are required in addition to an extension of time; and

WHEREAS, the applicant's architect submitted an analysis of the modifications required for the project to comply with the 2014 New York City Building Code and concluded that all necessary modifications can be made without amending the envelope of the previously approved building and, thus, no amendment to the previously approved variance was required; and

WHEREAS, with regards to compliance with conditions of prior resolutions, the applicant provided photos showing that the fence located on the eastern lot line was repaired as required by the 2011 resolution, but was unable to provide any evidence of compliance with the Restrictive Declaration; and

WHEREAS, the Board incorporates the requirements of the Restrictive Declaration as conditions of the subject grant to ensure that such Restrictive Declaration is, in fact, complied with in the course of developing the subject site; and

WHEREAS, based upon its review of the record, the Board finds that a four (4) year extension of time to complete construction is appropriate with certain conditions, as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated January 9, 2007, as amended through January 25, 2011, so that as amended this portion of the resolution reads: "to grant a four (4) year extension of time to complete construction to June 19, 2022; and *on further condition*:

THAT substantial construction shall be completed by June 19, 2022, as evidenced by an inspection and determination by the Department of Buildings;

THAT the parameters of the proposed building be as follows: three stories, 14,025 square feet of floor area (1.65 FAR), a street wall and total height of 34 feet, a rear yard of 30 feet, a front yard of 15 feet, 12 dwelling units and 12 parking spaces;

THAT the development shall comply with the 2014 New York City Building Code;

THAT the Restrictive Declaration filed against the subject site shall be complied with in all respects, including but not limited to the following restrictions and obligations:

- (a) Declarant covenants and agrees that no application for grading, excavation,

foundation, alteration, building or other permit respecting the Subject Property which permits soil disturbance shall be submitted to or accepted from the Department of Buildings (the "DOB") by the Declarant until DEP has issued to DOB, as applicable, either a Notice of No Objection . . . , a Notice to Proceed . . . , a Notice of Satisfaction . . . or a Final Notice of Satisfaction

- (b) Declarant further covenants and agrees that no application for a temporary or permanent Certificate of Occupancy that reflects a change in use group respecting the Subject Property shall be submitted to or accepted from DOB by the Declarant until DEP has issued to DOB, as applicable, either a Notice of No Objection . . . , a Notice of Satisfaction . . . or a Final Notice of Satisfaction;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, June 19, 2018.

68-91-BZ

APPLICANT – Eric Palatnik, P.C., for MUKTI 223 LLC, owner.

SUBJECT – Application November 3, 2017 – Amendment (§11-412) of an approved variance which permitted the operation of an automotive service station (UG 16B) with accessory uses. Amendment seeks to permit the enlargement of the existing building and conversion from accessory repair bays to convenience store; the addition of a new storefront, two (2) canopies over the gasoline pump island, and modification of islands and gasoline pumps. R5D/C1-2 & R2A zoning district.

PREMISES AFFECTED – 223-15 Union Turnpike, Block 7780, Lot 1, Borough of Queens.

COMMUNITY BOARD #11Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated October 6, 2017, acting on

MINUTES

Alteration Application No. 421011185, reads in pertinent part:

“Continued use of the gasoline service station, and reduction in the number of service bays to enlarge the convenience store, is contrary to the BSA grant under application number 68-91-BZ and not permitted as-of-right”; and

WHEREAS, this is an application for an amendment to a variance, previously granted by the Board, to allow the enlargement of the accessory convenience store, two canopies over the gasoline pump island and modifications to islands and gasoline pumps; and

WHEREAS, a public hearing was held on this application on June 19, 2018, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 11, Queens, recommends approval of this application, stating that exterior lighting should be directed away from adjacent residences; and

WHEREAS, Queens Borough President Melinda Katz submitted testimony in support of this application; and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 13, 1942, when, under BSA Calendar Number 150-41-BZ, the Board granted a variance to permit the construction and maintenance of a gasoline service station for a term of ten (10) years, expiring January 13, 1952; and

WHEREAS, on July 20, 1943, under BSA Calendar Number 150-41-BZ, the Board granted an extension of time to complete construction; and

WHEREAS, on July 17, 1945, under BSA Calendar Number 150-41-BZ, the Board granted an extension of time to complete construction; and

WHEREAS, on October 1, 1946, under BSA Calendar Number 150-41-BZ, the Board granted an extension of time to complete construction and amended the variance to allow modifications to the distance from the building line for brand signs; and

WHEREAS, on July 11, 1950, under BSA Calendar Number 150-41-BZ, the Board amended the variance so that, in the event the new owner, the Gulf Oil Corporation, desires to extend the gasoline service station to the north, such extension of building and uses may be permitted for a term of fifteen (15) years, expiring July 11, 1965, on condition that the design of the building and the arrangement of the subject site are as indicated on the Board-approved plans and that the landscaping of the area be maintained properly protected with curbing, except that there be maintained on the lot lines to the south, west and north, a masonry wall agreeing with the masonry of the accessory building and properly coped to a height of not less than 5'-6" above the existing grade, except that such wall may be reduced to a height of 4'-6" within 10 feet of the Springfield

Boulevard building line, that the proposed accessory building extension comply with the requirements of the Building Code in all other respects and no cellar be constructed thereunder, that the greasing equipment be by hydraulic lifts only, that minor repairing may be permitted, provided such work is done within the accessory building and by hand tools only, that the portion of the subject site to the north where indicated may be used for parking of cars to be serviced or having been serviced for a term of fifteen (15) years, that the additional curb cuts may be constructed, but not exceeding 30 feet in width each, that additional pumps may be erected, provided same are not nearer than 15 feet to the street building line and are of the parkway type similar to the ones installed, that six (6) additional 550-gallon gasoline storage tanks may be installed, that the roof of the accessory building be surfaced with natural slate shingles, that such portable fire-fighting appliances be installed as the fire commissioner directs, that signs be restricted to the permanent sign attached to the façade of the accessory building, that there may be erected an additional post standard toward the northerly end within the building line, which sign may be illuminated and may extend over the building line for a distance of not more than 4 feet, that new sidewalks and curbs be constructed around the subject site on Union Turnpike and Springfield Boulevard, where approved concrete sidewalks and stone curbing do not already exist and that a new certificate of occupancy be obtained; and

WHEREAS, on July 17, 1951, under BSA Calendar Number 150-41-BZ, the Board granted an extension of time to complete construction; and

WHEREAS, on October 13, 1965, under BSA Calendar Number 150-41-BZ, the Board granted an extension of term of ten (10) years, expiring October 13, 1975, on condition that a certificate of occupancy be obtained; and

WHEREAS, on November 5, 1975, under BSA Calendar Number 150-41-BZ, the Board granted an extension of term of ten (10) years, expiring November 5, 1985, on condition that a new certificate of occupancy be obtained; and

WHEREAS, on May 19, 1992, under the subject calendar number, the Board reinstated the variance for a term of five (5) years, expiring May 19, 1997, on condition that there be no parking of cars on the sidewalk, that landscaping be installed and maintained in accordance with the Board-approved plans, that there be no outdoor storage at the subject site, that the rear overhead door of the subject site be kept closed except for the removal of vehicles to minimize noise impacts on the adjacent residential uses, that the hours when motor vehicles may be repaired on the subject site be limited to Monday through Friday, 7:00 a.m. to 7:00 p.m., and Saturday, 7:00 a.m. to 12:00 p.m., to minimize noise and vehicular impacts on the adjacent residential uses, that work on motor vehicles be solely performed inside the service bays of the subject building, that all site lighting be directed downward and away from

MINUTES

adjacent residential uses and that the above conditions appear on the certificate of occupancy; and

WHEREAS, on June 28, 1994, under the subject calendar number, the Board granted an extension of time to complete construction of fourteen (14) months from July 19, 1995; and

WHEREAS, on March 2, 1999, under the subject calendar number, the Board granted an extension of term of five (5) years, expiring May 19, 2002, on condition that a new certificate of occupancy be obtained within one (1) year, by March 2, 2000; and

WHEREAS, on September 10, 2002, under the subject calendar number, the Board granted an extension of term of ten (10) years, expiring May 19, 2012, and amended the variance to permit the conversion of a portion of the automotive service building to an accessory convenience store and the installation of an aboveground anti-freeze tank on condition that the site be maintained graffiti-free at all times, that all automotive repair work be limited to Monday to Saturday, 8:00 a.m. to 7:00 p.m., and closed on Sunday, that there be no parking of automobiles on the sidewalk at any time, that there be no self-service coin-operated car wash machines on the subject site, that the hours of operation for the automobile vacuums be limited to 9:00 a.m. to 7:00 p.m. and that the above conditions appear on the certificate of occupancy; and

WHEREAS, on March 12, 2013, under the subject calendar number, the Board granted an extension of term of ten (10) years, expiring May 19, 2022, and amended the variance to permit minor interior changes, including partition and layout changes to the interior of the accessory convenience store and relocation of the exterior door, and to permit automotive repair service on Sunday, on condition that the signage on the site comply with C1 district regulations, that the hours of operation be limited to Monday through Saturday, 7:00 a.m. to 7:00 p.m., and Sunday, 8:00 a.m. to 4:00 p.m., that the above conditions appear on the certificate of occupancy and that a new certificate of occupancy be obtained by March 12, 2014; and

WHEREAS, on September 16, 2014, under the subject calendar number, the Board granted an extension of time to obtain a certificate of occupancy to March 12, 2015; and

WHEREAS, the applicant now proposed to amend the variance to allow the enlargement of the accessory convenience store, two canopies over the gasoline pump island and modifications to islands and gasoline pumps; and

WHEREAS, in response to questions from the Board, the applicant clarified the use of the trailer on the subject site and submits that landscaping will be maintained in accordance with the Board-approved plans; and

WHEREAS, based upon its review of the record, the Board has determined that the requested amendment is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated January 13, 1942, as amended through September 16, 2014, so that as amended this portion of the resolution shall

read: “to *permit* the enlargement of the accessory convenience store, two canopies over the gasoline pump island and modifications to islands and gasoline pumps; *on condition* that all work and site conditions shall conform to drawings filed with this application marked “Received April 24, 2018”-Eighteen (18) sheets; and *on further condition*:

THAT the term of this grant shall be limited to ten (10) years, expiring May 19, 2022;

THAT all site lighting shall be directed downward and away from adjacent residential uses;

THAT the signage on the site shall comply with C1 district regulations;

THAT the hours of operation shall be limited to Monday through Saturday, 7:00 a.m. to 7:00 p.m., and Sunday, 8:00 a.m. to 4:00 p.m.;

THAT the site shall be maintained graffiti-free at all times;

THAT there shall be no parking of automobiles on the sidewalk at any time;

THAT there shall be no self-service coin-operated car wash machines on the subject site;

THAT there shall be no parking of cars on the sidewalk;

THAT landscaping shall be installed and maintained in accordance with the Board-approved plans;

THAT there shall be no outdoor storage at the subject site;

THAT the rear overhead door of the subject site shall be kept closed except for the removal of vehicles to minimize noise impacts on the adjacent residential uses;

THAT work on motor vehicles shall be performed solely inside the service bays of the subject building,

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by June 19, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, June 19, 2018.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5
Negative:0

THE RESOLUTION –

WHEREAS, these are two requests for re-argument of two applications previously heard and decided by the Board; and

WHEREAS, by submission dated April 6, 2018, the New York City Department of Buildings (“DOB”) filed an application, pursuant to § 1-12.4 of the Board’s Rules of Practice and Procedure, to reargue BSA Cal. No. 166-12-A, an application DOB filed with the Board to revoke Certificate of Occupancy No. 103703226, issued to the subject premises (the “CO Revocation Appeal”), which the Board granted with regards to the Use Group 4 medical offices in a one-story plus cellar structure located at the premises’ rear lot line (the “Rear Structure”) only; and

WHEREAS, by submission dated April 9, a representative of the owner of the premises (“Appellant”) filed an application, pursuant to § 1-12.4 of the Board’s Rules of Practice and Procedure, to reargue both the CO Revocation Appeal and BSA Cal. No. 107-13-A, an application filed with the Board to recognize a common law vested right to continue construction at the site subsequent to an amendment to the Zoning Resolution that excluded Use Group 4 medical offices from the list of permitted obstructions in the subject premises’ required rear yard (the “Common Law Vested Right Appeal”; together, the “Appeals”), which the Board recognized, but found had been abandoned, pursuant to Putnam Armonk, Inc. v. Town of Southeast, 52 AD2d 10 (2d Dept 1976), when the space was continuously occupied, contrary to law, by residential tenants; and

WHEREAS, DOB argued that the Board’s partial revocation of the certificate of occupancy, as stated in the resolution issued for both applications (the “Resolution,” BSA Cal. Nos. 166-12-A & 107-13-A) (October 17, 2017)1), was not supported by the text of the Zoning Resolution and failed to address issues affecting not only the rear portion of the premises, but the premises in its entirety; and

WHEREAS, DOB argued that the denial of the Common Law Vested Right Appeal was legally inconsistent with the Board’s decision in the CO Revocation Appeal; that the abandonment of a non-conforming use was irrelevant to the subject premises, where the issue was, instead, non-

compliance; and that, because outstanding objections remain at the premises, including the absence of a second means of egress from the front portion, the certificate of occupancy at issue could not be considered lawfully issued and must be revoked in its entirety; and

WHEREAS, the Appellant also argued that the Board was in error in determining that the vested right had been abandoned where the issue at the site was the non-complying, rather than non-conforming, Rear Structure and suggested that the Board reverse its decision in the Common Law Vested Right Appeal and stay further disposition of the CO Revocation Appeal to permit DOB to issue permits so that the Appellant may cure the outstanding objections and DOB may ultimately issue a new certificate of occupancy; and

WHEREAS, a public hearing was held on this application on June 5, 2018, after due notice by publication in *The City Record*, and then to decision on June 15, 2018; and

WHEREAS, § 1-12.4 of the Board’s Rules of Practice and Procedure states, in relevant part:

The Board will not grant a request to reargue a case which was denied, dismissed, or approved unless the applicant shows that the Board misapprehended the relevant facts or misapplied any controlling principals of law, including the Zoning Resolution; and

WHEREAS, the Board disagrees with both DOB and the Appellant that it misapplied the relevant facts in its decision on the Appeals—the CO Revocation Appeal was pending at the Board for four years and the Common Law Vested Right Appeal was pending at the Board for three years, with several hearings, written submissions and oral testimony from both DOB and the Appellant in which either party could have identified and/or cleared up any factual errors or explained shifting approaches; and

WHEREAS, however, at hearing, the Board suggested that DOB’s application to reargue the CO Revocation Appeal, which the Board understood to heavily rely on DOB’s procedural difficulties in enforcing the Board’s decision on the Appeals (i.e. ensuring that the objections at the site are actually cured where the premises has a valid certificate of occupancy), may be better suited as a request for rehearing, pursuant to § 1-12.5 of the Board’s Rules of Practice and Procedure; and

WHEREAS, § 1-12.5 of the Board’s Rules of Practice and Procedure states, in relevant part:

The Board will not grant a request to rehear a case which was denied, dismissed, or withdrawn with prejudice unless: (1) substantial new evidence is submitted that was not available at the time of the initial hearing, (2) there is a material change in plans or circumstances, or (3) an application is filed under a different jurisdictional provision of the law; and

WHEREAS, the Board proposed that DOB’s procedures constituted substantial new evidence not

1 The resolution was released on March 8, 2018.

MINUTES

available at the time of the initial hearings in accordance with that section; and

WHEREAS, the Appellant objected to the recasting of DOB's application for a re-argument as one for rehearing, arguing that DOB's information regarding the difficulties in enforcement at the site was not, in fact, new—all of that information had been provided in the underlying record for the Appeals—and reiterated Appellant's proposal that the Board reverse its decision with regards to the Common Law Vested Right Appeal and allow the Appellant and DOB to cure the violations at the site that DOB states render Certificate of Occupancy No. 103703226 invalidly issued; and

WHEREAS, in light of the Appellant's objection, the Board agrees that DOB's application for re-argument should remain as filed; and

WHEREAS, the Board additionally disagrees that it misapplied any controlling principals of law in its decision on the Appeals—neither DOB nor the Appellant identified a provision of law that the Board's Resolution misapplied; the Board relied on Putnam in its determination that the vested right to occupy the Rear Structure with Use Group 4 medical office use had been abandoned, and such case was submitted into the Record and cited by the Appellant in the Common Law Vested Right Appeal; the Appellant had acknowledged in the course of the hearings on the Appeals that the Common Law Vested Right Appeal was with regards to the Rear Structure only because the building located at the front of the premises was not rendered non-complying by amendment to the Zoning Resolution; DOB's history of issuing temporary certificates of occupancy to the site that did not mention the Rear Structure or Use Group 4 medical offices and the Board's knowledge of lots throughout the city with certificates of occupancy that explicitly note the presence of multiple structures thereon (i.e. one (1) dwelling and a one (1) accessory garage) supported the Board's determination that Certificate of Occupancy No. 103703226 could be modified without having to be revoked in its entirety; additionally, the Board has the authority to modify, in addition to set aside or vacate, certificates of occupancy pursuant to § 645(b)(3)(e) of the New York City Charter; and

WHEREAS, however, the Board notes that, in reviewing the Resolution, there are clauses that could be modified to clarify the Board's rationale and provide greater guidance to the Appellant and DOB as to how to move forward; and

WHEREAS, accordingly, and having found good cause, the Board made and granted a motion to review the Resolution, pursuant to § 1-12.6 of the Board's Rules of Practice and Procedure; and

WHEREAS, that section provides that, In accordance with § 666(8) of the Charter, the Board may, for good cause, on its own motion at a public hearing, review any decision that it has made and may reverse or modify such decision but no such review will prejudice the rights of any

person who has in good faith acted thereon before it is reversed or modified; and

WHEREAS, the date for review of decision was set for July 17, 2018; and

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby *deny* the Department of Buildings' application to reargue BSA Cal. No. 166-12-A, *deny* the Appellant's application to reargue both BSA Cal. Nos. 166-12-A and 107-13-A; and *grant* the Board's motion to review its decision in BSA Cal. Nos. 166-12-A and 107-13-A, dated October 17, 2017, at public hearing on July 17, 2018.

Adopted by the Board of Standards and Appeals, June 19, 2018.

2017-48-A

APPLICANT – Akeeb Shekoni, for Nigerian Muslim Community of Staten Island, owner; Hamzat Kabiawu, lessee.

SUBJECT – Application February 17, 2017 – Proposed construction located within the bed of a mapped street, contrary to General City Law 35. R3A Zoning District.

PREMISES AFFECTED – 36 Hardy Street, Block 638, Lot(s) 44,46,47,49, Borough of Staten Island.

COMMUNITY BOARD #1SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Staten Island Deputy Borough Commissioner, dated May 23, 2017, acting on Department of Buildings (“DOB”) Application No. 520256767 reads in pertinent part:

GCL 35: Proposed construction within the bed of a mapped street is contrary to Article III, Section 35 of the General City Law. Therefore, refer to the Board of Standards and Appeals for review; and

WHEREAS, this is an application to permit the enlargement and conversion of existing buildings into a Use Group 4 house of worship within the bed of a mapped street, contrary to General City Law (“GCL”) § 35; and

WHEREAS, a public hearing was held on this application on April 17, 2018, after due notice by publication in *The City Record*, with a continued hearing on June 5, 2018, and then to decision on June 19, 2018; and

WHEREAS, Community Board 1, Staten Island, recommended approval of this application; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is comprised of four contiguous tax lots located at the southwest corner of Hardy Street and Waverly Place, in an R3A zoning district, on Staten

MINUTES

Island; and

WHEREAS, an Application for Mergers or Apportionments for the merger of Tax Lots 44, 46, 47 and 49 on Block 638 on Staten Island into Tentative Tax Lot 44 was approved by the New York City Department of Finance on January 25, 2016, though the New York City Tax Map has not yet been updated to reflect this merger; and

WHEREAS, the site has approximately 100 feet of frontage along Hardy Street, 100 feet of frontage along Waverly Place and 10,000 square feet of lot area; and

WHEREAS, Tax Lots 44 and 46 are occupied by a two-story one-family residence partially located within a mapped but unbuilt portion of Waverly Place and Tax Lots 47 and 49 are occupied by a two-story Use Group 4 house of worship; and

WHEREAS, by letter dated April 10, 2017, the New York City Department of Transportation (“DOT”) states that, according to the Staten Island Borough President’s Topographical Bureau, Waverly Place at the subject premise is mapped for 50 feet and the City has no title and that the improvement of Waverly Place at this location, which would involve the taking of a portion of block 638, Tax Lots 44, 46, 47 and 49 on Block 638 is not presently included in DOT’s Capital Improvement Program, though changes in the program in the future are not precluded; and

WHEREAS, the applicant proposes to connect the two existing buildings and convert the resulting enlargement into a Use Group 4 house of worship; and

WHEREAS, the applicant represents that the enlargement does not increase the degree to which the existing structure presently on Tax Lots 44 and 46 encroaches the mapped but unbuilt portion of Waverly Place and that the proposed enlargement will comply with all bulk regulations applicable in the underlying zoning district; and

WHEREAS, the site plan indicates a new 20 foot wide curb cut on Waverly Place and 11 off-street accessory parking spaces, but the Board makes no findings as to the compliance of the proposed curb cut and number of parking spaces provided with applicable rules and regulations, including but not limited to the Zoning Resolution, and grants no waivers that may be necessary to facilitate the construction of that curb cut or permit a reduction in the number of parking spaces required for the proposed development; and

WHEREAS, by letter dated May 25, 2018, the New York City Department of Environmental Protection (“DEP”) states that there are a 10” diameter (dia.) sanitary sewer and an 8” dia. City water main in the bed of Waverly Place at the subject premises; that Drainage Plan #PRD-2D, Sheet 4 of 9, dated November 21, 1973, shows 10”Dia. Sanitary and 15”Dia. Storm sewers in the bed of Waverly Place between Hardy Street and Targee Street and, in light of a Plot Plan submitted by the applicant proposing a 35 foot DEP utility easement with the minimum available width of 27 feet at the narrowest point inside of Tentative Tax Lot 44 for the installation, maintenance and/or reconstruction of the future and existing sewers and water main, DEP has no objections to the proposed application; and

WHEREAS, by letter dated July 27, 2017, the Fire Department states that it has no objection to the subject proposal on condition that it be fully sprinklered, a hydrant be located within 200 feet of the Siamese connection, a hydrant be located within 250 feet of the main front entrance and that all parking spaces be provided as required by the Zoning Resolution; and

WHEREAS, the Board notes that pursuant to GCL § 35, it may authorize construction within the bed of the mapped street subject to reasonable requirements; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore, it is Resolved, that the Board modifies the decision of the Staten Island Borough Commissioner, dated May 23, 2017, acting on Department of Buildings Application No. 520256767, by the power vested in it by Section 35 of the General City Law to grant this appeal, limited to the decision noted above *on condition* that construction shall substantially conform to the drawings filed with the application marked “Received June 14, 2018”-One (1) sheet; and *on further condition*:

THAT a 35 foot DEP utility easement with the minimum available width of 27 feet at the narrowest point shall be provided inside of Tentative Tax Lot 44 for the installation, maintenance and/or reconstruction of the future and existing sewers and water main, as indicated on the BSA-approved plans;

THAT the subject development shall be fully sprinklered;

THAT the new curb cut proposed on Waverly Place shall be as approve by DOT and/or DOB;

THAT a fire hydrant shall located within 200 feet of the Siamese connection and 250 feet of the main entrance;

THAT all roadways shall be paved to the requirements of DOT;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by June 19, 2022;

THAT DOB shall review the plans approved herewith for compliance with all relevant provisions of the Zoning Resolution;

THAT to the extent required by DOB and/or DOT, a Builder’s Pavement Plan shall be filed and approved prior to the issuance of the Certificate of Occupancy;

THAT a Certificate of Occupancy be obtained within four (4) years, by June 19, 2022;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related

280-13-BZ

CEQR #14-BSA-050Q

APPLICANT – Sheldon Lobel, P.C., for CA Plaza, LLC, owner.

SUBJECT – Application July 19, 2013 – Special Permit (§73-44) to permit the reduction of required parking for ambulatory diagnostic or treatment facility (Use Group 4) contrary to ZR §36-21. Special Permit (§73-36) to permit a physical culture establishment (PCE) within a portion of the proposed building. C4-2 & C4-3 zoning districts.

PREMISES AFFECTED – 36-18 Main Street, Block 4971, Lot 16, Borough of Queens.

COMMUNITY BOARD #7Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated September 12, 2013, acting on New Building Application No. 401816923, reads in pertinent part:

“Proposed physical culture establishment . . . use is contrary to ZR 32-10

Insufficient required parking spaces provided contrary to ZR 36-21”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, partially in a C4-2 zoning district and partially in a C4-3 zoning district, the operation of a physical culture establishment on portions of the second, third and fourth floors of the subject building, contrary to ZR § 32-10, and under ZR §§ 73-44 and 73-03 to permit a reduction in the number of accessory off-street parking spaces required for an ambulatory diagnostic or treatment facility (Use Group 4), contrary to ZR § 36-21; and

WHEREAS, a public hearing was held on this application on April 17, 2018, after due notice by publication in *The City Record*, and then to decision on June

MINUTES

19, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 7, Queens, recommends approval of this application on condition that the owner request from the New York City Department of Transportation (“DOT”) a traffic light and study for the intersection of 36th Avenue and Prince Street, that an in-depth study and re-evaluation of egress at the ramp and entrance and U-turn at the interior island be performed and that a zoning study be performed to consider instituting parking requirements similar to the requirements in C4-4 zoning districts; and

WHEREAS, New York State Senator Tony Avella submitted testimony in opposition to this application, stating that a reduction in parking would present an inconvenience to area residents; and

WHEREAS, the subject site is located on the west side of Main Street, between Northern Boulevard and 37th Avenue, partially in an C4-2 zoning district and partially in a C4-3 zoning district, in Queens; and

WHEREAS, the subject site has approximately 74 feet of frontage along Main Street, 151 feet of frontage along Prince Street, 35,858 square feet of lot area and is occupied by 14-story, with cellar and sub-cellar, mixed-use commercial and community-facility building under construction; and

WHEREAS, the Board has exercised jurisdiction over the subject site since June 13, 1939, when, under BSA Cal. No. 642-39-A, the Board granted an appeal and modified the decision of the borough superintendent of buildings to permit the installation of a sign exceeding 30 square feet and extending more than 25 feet above the sidewalk on a one-story building on condition that no additional sign be constructed on the building; and

WHEREAS, on May 11, 1948, under BSA Cal. No. 213-48-A, the Board varied the Labor Law to permit the arrangement of doors and bars on windows contrary to Sections 271 and 272 of that law for a one-story building utilized for the rolling and plating of precious metals as well as offices for 10 persons; and

WHEREAS, on June 27, 2017, when, under BSA Calendar Number 2017-61-BZ, the Board granted a special permit to allow the construction of a building that exceeds the maximum height limits around airports on condition that the maximum height of the building, including all appurtenances, be 216 feet AMSL, 214.90 feet NAVD 88 or 213.25 feet Queens Datum, that the proposed building be marked or lighted utilizing red lights, as required by the FAA, at all times, that FAA Form 7460-2, Notice of Actual Construction or Alteration, be e-filed any time the provide is abandoned or within five (5) days after the construction reaches its greatest height, that the FAA be kept apprised as to the status of the development at the site, warning that any failure to respond to periodic FAA inquiries could invalidate the FAA Determination, that any construction that requires

the use of a crane or cranes for the structure should be e-filed with the FAA at least 90-120 days prior to crane operations exceeding the structures’ AMSL height with a lift plan, jump schedule, crane specification documents and marking and lighting plan attached to ensure expeditious FAA evaluation, that no temporary construction equipment may exceed a height of 216 feet AMSL, that any temporary construction equipment having a height greater than 216 feet AMSL or any future construction or alteration, including increase to heights, power or the addition of other transmitters, requires separate notice to the FAA; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or

MINUTES

corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and

- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE will occupy 25,830 square feet of floor area as follows: 1,702 square feet of floor area on the second floor, including reception, a waiting area and shoe lockers, 17,372 square feet of floor area on the third floor, including massage rooms, showers, locker rooms, saunas, a pool, a sleeping room, an ice room, a television room, charcoal, coal, crystal and salt rooms, a lounge area and restrooms, and 6,756 square feet of floor area on the fourth floor, including a hot tub area, activity area, media area, kitchen, juice bar, dining area and bathrooms; and

WHEREAS, the PCE will be operated by Prince Plaza Corp., with the following hours of operation: 6:00 a.m. to 12:00 a.m., daily; and

WHEREAS, the applicant represents that the PCE use is consistent with the vibrant commercial area in which it is located, that the PCE use will be fully contained within the envelope of the subject building and that there are a number of other PCEs within the vicinity; and

WHEREAS, the Board finds that the PCE use is so located as not to impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE will operate as a spa with facilities for the practice of massage by New York State licensed massage therapists; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and

issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE will be fully sprinklered and that an approved fire alarm—including area smoke detectors, manual pull stations at each required exist, local audible and visual alarms and connection to an FDNY-approved central station—will be installed in the entire PCE space; and

WHEREAS, in response to the Board’s comments at hearing, the applicant clarified that the PCE use will not be located on the roof of the subject building; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, ZR § 73-44 provides, in pertinent part, that:

In the districts indicated, the Board of Standards and Appeals may permit a reduction in the number of *accessory* off-street parking spaces required by the provisions of Section 36-21 or 44-21 (General Provisions) for ambulatory diagnostic or treatment facilities listed in Use Group 4 and *uses* in parking requirement category B1 in Use Group 6, 7, 8, 9, 10, 11, 14 or 16 to the applicable number of spaces specified in the table set forth at the end of this Section, provided that the Board finds that occupancy by ambulatory diagnostic or treatment facilities listed in Use Group 4 or *uses* in parking category B1 is contemplated in good faith on the basis of evidence submitted by the applicant. In such a case the Board shall require that the certificate of occupancy issued for the *building* within which such *use* is located shall state that no certificate shall thereafter be issued if the *use* is changed to a *use* listed in parking category B unless additional *accessory* off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius.

* For ambulatory diagnostic or treatment facilities listed in Use Group 4, parking spaces required for number of square feet of *floor area* or *cellar space*, except *cellar space used* for storage; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, inter alia, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, pursuant to ZR § 73-44, the Board may reduce the required parking for an ambulatory diagnostic or treatment facility (Use Group 4) at the subject site from one space per 300 square feet of floor area to one space per 600 square feet of floor area in the C4-2 zoning district and one space per 400 square feet to one space per 800 square feet within the C4-3 zoning district provided that the Board finds that such occupancy is contemplated in good faith; and

WHEREAS, the applicant submitted an affidavit stating that the building will be occupied by an ambulatory diagnostic or treatment facility (Use Group 4); and

WHEREAS, the applicant further states that any certificate of occupancy for the building will state that no subsequent certificate of occupancy may be issued if an ambulatory diagnostic or treatment facility (Use Group 4) is changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius; and

WHEREAS, the Board finds the affidavit credible and that the applicant has submitted sufficient evidence of good faith in maintaining the proposed ambulatory diagnostic or treatment facility use at the site; and

WHEREAS, in response to community concerns regarding parking in the area, the applicant provided a parking demand analysis demonstrating that there would be a peak parking demand of 126 spaces on weekdays from 10:00 a.m. to 11:00 a.m. and 183 spaces on a weekend from 1:00 p.m. to 2:00 p.m., fewer than the 260 total parking spaces proposed; and

WHEREAS, in response to the Board's comments at hearing, the applicant revised the drawings to reflect reservoir spaces, egress, valet drop-off areas and pedestrian safe zones; and

WHEREAS, the applicant states there will be no pedestrian circulation through the middle of the garage because all persons wishing to access the Main Street tower will enter the garage, exit their vehicle at the valet drop-off area in front of the valet booths and proceed into the building by way of the pedestrian safe zone and because all persons wishing to access the Prince Street tower will enter the drop-off zone and exit their vehicle with the valet attendant then parking the car in the garage; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of parking regulations is outweighed by the advantages to be

derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of parking regulations will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 14-BSA-050Q, dated March 21, 2018; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-36, 73-44 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to *permit*, partially in an C4-2 zoning district and partially in a C4-3 zoning district, the operation of a physical culture establishment on portions of the second, third and fourth floors of the subject building, contrary to ZR § 32-10, and under ZR §§ 73-44 and 73-03 to *permit* a reduction in the number of accessory off-street parking spaces required for an ambulatory diagnostic or treatment facility (Use Group 4), contrary to ZR § 36-21; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked "Received June 19, 2018"-Twenty-Six (26) sheets; and *on further condition*:

THAT operation of the physical culture establishment shall be limited to a term of ten (10) years, expiring June 19, 2028;

THAT no physical culture establishment or spa use shall be permitted on the roof of the fourth floor;

THAT all massages shall be performed only by New

MINUTES

York State licensed massage therapists;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum 3'-0" wide exit pathways shall be provided leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be installed in the entire PCE space and the PCE shall be fully sprinklered, as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT no certificate of occupancy shall hereafter be issued if the ambulatory diagnostic or treatment facility (Use Group 4) is changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by June 19, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 19, 2018.

214-14-A

APPLICANT – Sheldon Lobel, P.C., for Fernando Fernandez, owner.

SUBJECT – Application September 3, 2014 – An application to permit construction within the bed of a mapped street, contrary to General City Law (“GCL”) § 35. R5 zoning district. Compliance BZ.

PREMISES AFFECTED – 50-11 & 50-15 103rd Street, 103-10 & 103-16 Alstyn Avenue, Block 1930, Lot 50, Borough of Queens.

COMMUNITY BOARD #4Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda,

Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision on behalf of the Queens Borough Commissioner, dated August 14, 2014, acting on Department of Buildings (“DOB”) Application No. 420899246 reads in pertinent part:

Proposed New Building project are located in City Mapped Street (Christie Avenue) obtain BSA variance as per Section 35 of General City Law; and

WHEREAS, this is an application to permit construction within the bed of a mapped street, contrary to General City Law (“GCL”) § 35; and

WHEREAS, a public hearing was held on this application on May 2, 2017, after due notice by publication in *The City Record*, with a continued hearing on July 18, 2017, and then to decision on June 19, 2018; and

WHEREAS, a companion application for a variance, pursuant to ZR § 72-21, was filed for the subject premises, requesting waivers with regards to front yard and parking regulations set forth in ZR §§ 23-45 and 25-23 to facilitate the development of the site with four three-story, three-family residential building segments; that application was assigned BSA Cal. No. 215-14-BZ; and

WHEREAS, the two applications were heard by the Board in tandem, but, in the course of hearings, the applicant modified the proposed development to instead construct a single three-story multi-family residential building fully compliant with all applicable sections of the Zoning Resolution and requested withdrawal of the variance application, which was granted by the Board in a separate resolution; and

WHEREAS, Community Board 4, Queens, recommends denial of this application, citing the failure of the applicant to maintain the property in a safe and sanitary condition; and

WHEREAS, the Board was additionally in receipt of one form letter of support for the subject application and five form objections, citing concerns about overdevelopment and the lack of parking in the area; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is a triangular lot located at the southeastern corner of 103rd Street and Alstyn Avenue, in an R5 zoning district, in Queens; and

WHEREAS, the site has approximately 113 feet of frontage along 103rd Street, 161 feet of frontage along Alstyn Avenue and 6,669 square feet of lot area; and

WHEREAS, a portion of the site is located within a mapped, but unbuilt, section of Christie Avenue; and

WHEREAS, the site is currently occupied by a one-story detached garage, a two-and-a-half story residential building, a one-story attached commercial building and two unfinished three-story, three-family residential building segments, all of which the applicant now proposes to demolish in order to

MINUTES

redevelop the site with one three-story multi-family residential building with 12 rental dwelling units that will be partially located in the portion of the site that is located within a mapped, but unbuilt section of Christie Avenue; and

WHEREAS, the applicant submits that the proposed multi-family residential building will be fully sprinklered and comply with all applicable regulations of the Zoning Resolution; and

WHEREAS, by letter dated February 11, 2016, the New York City Department of Environmental Protection (“DEP”) states that there are no existing sewers or water mains in the bed of Christie Avenue at the subject location; that the Amended Drainage Plan, No: 24 (23), dated December 30, 1919, for the subject location calls for a future 12 inch diameter combined sewer in the bed of Christie Avenue between Alstyn Avenue and 103rd Street; that the only lots that would benefit from the future 12 inch diameter combined sewer in Christie Avenue are Lots 18 and 50, which are fronting the existing combined sewer; that the City has no title to the portion of Christie Avenue at the subject site and Christie Avenue is not open at the subject location; and, thus, the agency has no objections to the subject application; and

WHEREAS, by letter dated January 27, 2017, the New York City Department of Transportation (“DOT”) states that Christie Avenue at the subject location is mapped at a 60 foot width on the Final City Map; that the City has no title to the street at this location; that the improvement of Christie Avenue at this location would involve a taking of a portion of the subject site, which is not presently included in DOT’s Capital Improvement Program, but requested that an existing utility pole along 103rd Street be depicted in the proposed site plan and that the proposed curb cut along 103rd Street be located at seven feet away from the utility pole; and

WHEREAS, the applicant subsequently revised the site plan to indicate the utility pole along 103rd Street and located the new proposed curb cut along 103rd Street 11 feet away from that utility pole, in compliance with DOT’s requests; and

WHEREAS, the Board notes that pursuant to GCL § 35, it may authorize construction within the bed of a mapped street subject to reasonable requirements; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore, it is Resolved, that the Board modifies the decision of the Queens Borough Commissioner, dated August 14, 2014, acting on Department of Buildings Application No. 420899246, by the power vested in it by Section 35 of the General City Law to grant this appeal, limited to the decision noted above *on condition* that construction shall substantially conform to the drawings filed with the application marked “Received May 31, 2018”-One (1) sheet; and *on further condition*:

THAT the subject development shall be fully sprinklered;

THAT all new curb cuts shall be as approved by DOT and/or DOB;

THAT all DOB and related agency application(s) filed

in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by June 19, 2022;

THAT DOB shall review the plans approved herewith for compliance with all relevant provisions of the Zoning Resolution;

THAT a Certificate of Occupancy shall be obtained within four (4) years, by June 19, 2022;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 19, 2018.

ACTION OF THE BOARD – Application Withdrawn.

THE VOTE TO WITHDRAW –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision on behalf of the Queens Borough Commissioner, dated August 14, 2014, acting on Department of Buildings (“DOB”) Application No. 420899246 reads in pertinent part:

1. The subject project buildings not provided adequate Front Yards and contrary to ZR 23-45a;
2. Such proposed 12 dwelling units development not provided adequate number of parking contrary to ZR 25-23; and

WHEREAS, this is an application, pursuant to ZR § 72-21, to permit, on a site located in an R5 zoning district, the construction of four three-story, three-family residential building segments contrary to the front yard and parking regulations set forth in ZR §§ 23-45 and 25-23; and

WHEREAS, a public hearing was held on this

MINUTES

application on May 2, 2017, after due notice by publication in The City Record, with a continued hearing on July 18, 2017, and then to decision on June 19, 2018; and

WHEREAS, a companion application for a waiver of General City Law (“GCL”) § 35 to permit construction with the bed of a mapped street, was filed for the subject premises and assigned BSA Cal. No. 214-14-A; and

WHEREAS, the two application were heard by the Board in tandem, but separate resolution have been issued; and

WHEREAS, Community Board 4, Queens, recommends denial of this application; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, by letter dated May 30, 2018, the applicant requested withdrawal of this application and stated that they planned to proceed only with the GCL § 35 application in order to construct a single three-story multi-family building that is fully compliant with all applicable sections of the Zoning Resolution; and

WHEREAS, pursuant to § 1-12.2 of the Board’s Rules of Practice and Procedure, because the request for withdrawal was made prior to the close of the hearing on this application, the Board may permit withdrawal of the application without prejudice.

Therefore, it is Resolved, that the Board of Standards and Appeals accepts the withdrawal of this application without prejudice and the surrender of the special permit.

Adopted by the Board of Standards and Appeals, June 19, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated September 30, 2016, acting on Alteration Application No. 321192160, reads in pertinent part:

“The proposed NUMBER of parking spaces is less than the amount of parking required; contrary to 44-21”; and

WHEREAS, this is an application under ZR §§ 73-44 and 73-03 to permit, in an M3-1 zoning district, a reduction in the number of accessory off-street parking spaces required for office use in parking requirement category B1 (Use Group 6), contrary to ZR § 44-21; and

WHEREAS, a public hearing was held on this application on September 26, 2017, after due notice by publication in *The City Record*, with continued hearings on May 22, 2018, and June 5, 2018, and then to decision on June 19, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 1, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the northwest corner of Johnson Avenue and Bogart Street, in an M3-1 zoning district, in Brooklyn; and

WHEREAS, the subject site has approximately 525 feet of frontage along Johnson Avenue, 202 feet of frontage along Bogart Street, 130,592 square feet of lot area and is occupied by a three-story, with cellar, commercial building; and

WHEREAS, ZR § 73-44 provides, in pertinent part, that:

In the districts indicated, the Board of Standards and Appeals may permit a reduction in the number of *accessory* off-street parking spaces required by the provisions of Section 36-21 or 44-21 (General Provisions) for ambulatory diagnostic or treatment facilities listed in Use Group 4 and

MINUTES

uses in parking requirement category B1 in Use Group 6, 7, 8, 9, 10, 11, 14 or 16 to the applicable number of spaces specified in the table set forth at the end of this Section, provided that the Board finds that occupancy by ambulatory diagnostic or treatment facilities listed in Use Group 4 or *uses* in parking category B1 is contemplated in good faith on the basis of evidence submitted by the applicant. In such a case the Board shall require that the certificate of occupancy issued for the *building* within which such *use* is located shall state that no certificate shall thereafter be issued if the *use* is changed to a *use* listed in parking category B unless additional *accessory* off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius.

REDUCED ACCESSORY OFF-STREET
PARKING SPACES REQUIRED FOR
AMBULATORY DIAGNOSTIC
OR TREATMENT FACILITIES LISTED IN
USE GROUP 4 AND
COMMERCIAL USES IN PARKING
REQUIREMENT CATEGORY B1

Parking Spaces Required Per Number of Square Feet on <i>Floor Area</i> *	Districts
1 per 400	C1-1 C2-1 C3 C4-1
1 per 600	C1-2 C2-2 C4-2 C8-1 M1-1 M1-2 M1-3 M2-1 M2-2 M3-1
1 per 800	C1-3 C2-3 C4-3 C7 C8-2

* For ambulatory diagnostic or treatment facilities listed in Use Group 4, parking spaces required for number of square feet of *floor area* or *cellar* space, except *cellar* space *used* for storage; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, inter alia, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, pursuant to ZR § 73-44, the Board may reduce the required parking for office use in parking requirement category B1 (Use Group 6) at the subject site from one space per 300 square feet of floor area to one space per 600 square feet of floor area provided that the Board finds that such occupancy is contemplated in good faith; and

WHEREAS, the applicant submitted an affidavit stating that the building will be occupied by office use in parking requirement category B1 (Use Group 6); and

WHEREAS, the applicant further states that any certificate of occupancy for the building will state that no subsequent certificate of occupancy may be issued if office use in parking requirement category B1 (Use Group 6) is

changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius; and

WHEREAS, the Board finds the affidavit credible and that the applicant has submitted sufficient evidence of good faith in maintaining the proposed ambulatory diagnostic or treatment facility use at the site; and

WHEREAS, the applicant states that the 279 accessory off-street parking spaces proposed comply with all applicable zoning regulations with 216 parking spaces provided in stackers and 63 parking spaces provided at floor level; and

WHEREAS, the applicant represents that, at peak times between 7:00 a.m. to 10:00 a.m. and 4:00 p.m. to 7:00 p.m., Monday to Friday, the 279 accessory off-street parking spaces proposed will be sufficient to accommodate peak demand, with 138 spaces to remain empty at peak parking accumulation; and

WHEREAS, the applicant states that most visitors and employees will walk or take the subway to the proposed building; and

WHEREAS, the applicant states that, for retail use, parking accumulation will peak at 18 spaces, from 4:00 p.m. to 6:00 p.m., Monday to Friday, that, for office use, parking accumulation will peak at 128 spaces, from 10:00 a.m. to 11:00 a.m. and 2:00 p.m. to 3:00 p.m., Monday to Friday, and that total parking accumulation will peak at 141 occupied spaces, from 10:00 a.m. to 11:00 a.m., Monday to Friday; and

WHEREAS, in response to the Board's comments at hearing, the applicant revised the garage layout to ensure pedestrian safety between vehicle drop off and existing the garage by relocating the pedestrian path to provide a 48-inch-wide clear path to the passenger elevator free of columns and stackers; and

WHEREAS, the applicant submitted an operational plan for the ramp leading to the garage to ensure that drivers will not drop off their cars at the nine reservoir spaces located on the ramp and that drivers will not drive into the garage using the outbound lane of the ramp; and

WHEREAS, the proposed operational plan indicates that inbound traffic will be prevented in the outbound lane by implementing a stop sign and stop bar the entrance to Johnson Avenue, yellow striping between the inbound and outbound lanes, directional arrows on the inbound and outbound lanes and overhead signals at the entrance to the garage with one green signal over the inbound lane stating "Enter" and one red signal over the outbound lane stating "Do Not Enter"; and

WHEREAS, the applicant further states that reservoir spaces on the ramp to the second floor garage are not necessarily required to serve as drop off spaces but can rather serve as holding spaces for vehicles with drivers and notes that the parking garage has been designed to provide 14 reservoir spaces to ensure that there be no spillback on Johnson Avenue; and

MINUTES

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of parking regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of parking regulations will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 17BSA034K, dated May 25, 2018; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction Impacts; and

WHEREAS, by letter dated July 20, 2017, the New York City Department of Environmental Protection (“DEP”) states that the project would not result in significant air quality or noise impacts; and

WHEREAS, by letter dated May 30, 2018, DEP states that the April 2018 Remedial Action Work Plan and the February 2018 Construction Health and Safety Plan are acceptable on condition that the manufacturer’s specifications of the proposed vapor barrier system be included in the RAP and submitted to DEP for review and approval prior to installation; that suspected asbestos-containing material, lead-based paint and polychlorinated biphenyls may be present in the on-site structure that must be properly removed or managed prior to the start of the construction activities and disposed of in accordance with all federal, state and local regulations; and that the name and phone number for an alternate Site Health and Safety Officer be included in the CHASP; that at the completion of the project, a professional engineer-certified Remedial Closure Report be submitted to DEP for review and approval for the proposed project, indicating that all remedial requirements have been properly implemented (i.e., installation of the vapor barrier, proper transportation and disposal manifests and certificates from impacted soils removed and properly disposed of in accordance with all New York State Department of Environmental Conservation regulations and 2 feet of DEP-approved certified clean fill or top soil capping requirement in any landscaped or grass-covered areas not capped with concrete or asphalt, etc.); and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact

Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-44 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR §§ 73-44 and 73-03 to *permit*, in an M3-1 zoning district, a reduction in the number of accessory off-street parking spaces required for office use in parking requirement category B1 (Use Group 6), contrary to ZR § 44-21; *on condition* that all work and site conditions shall conform to drawings filed with this application marked “Received June 8, 2018”-Sixteen (16) sheets; and *on further condition*:

THAT no certificate of occupancy shall hereafter be issued if the Use Group 6 offices are changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by June 19, 2022;

THAT the manufacturer’s specifications of the proposed vapor barrier system shall be included in the Remedial Action Work Plan and submitted to DEP for review and approval prior to installation;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 19, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated March 13, 2018, acting on Alteration Application No. 120653505, reads in pertinent part:

“ZR 24-11 The building exceeds the maximum lot coverage.”

“ZR 24-35(b) The building does not provide the minimum required side yard.”

“ZR 24-33 The proposed exterior stair is not a permitted obstruction in a required yard.”; and

WHEREAS, this is an application under ZR § 72-21 to permit, in an R8 zoning district, the enlargement of a house of worship that does not comply with zoning regulations for lot coverage, side yards and permitted obstructions, contrary to ZR § 24-11, 24-35 and 24-33; and

WHEREAS, a public hearing was held on this application on June 19, 2018, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 10, Manhattan, recommends approval of this application on condition that they maintain the safety of the subject site and explore the possibility of employing a night security guard; and

WHEREAS, the subject site is located on the northeast corner of Edgecombe Avenue and West 136th Street, in an R8 zoning district, in Manhattan; and

WHEREAS, the subject site has approximately 40 feet of frontage along Edgecombe Avenue, 90 feet of frontage along West 136th Street, 3,600 square feet of lot area and is occupied by a four-story, with cellar, residential building and a four-story, with cellar, community-facility building used as a house of worship; and

WHEREAS, the applicant proposes to enlarge the existing house of worship into the adjacent residential building, thereby converting the two buildings into a single building with lot coverage of 96 percent, a side yard with a depth of 4’-1” along West 136th Street and an exterior stair obstructing a required yard; and

WHEREAS, the applicant represents that, at the subject site, lot coverage may not exceed 75 percent under ZR § 24-11, side yards must have minimum depths of 0 feet or 8 feet under ZR § 24-35 and exterior stairs are not permitted obstructions in required yards under ZR § 24-33; and

MINUTES

WHEREAS, the applicant states that enlargement of the existing house of worship is necessary because the growing congregation and multiple community-outreach programs can no longer be housed in the existing building; and

WHEREAS, the applicant submits that, absent the proposed variance, the house of worship would face significant design issues, that the first floor could be built out, though the second floor could not, that this would significantly impair or completely block sightlines for members of the congregation in the balcony, that it would also create an asymmetrical and unbalanced sanctuary space, contrary to the religious services held at the center of the house of worship; and

WHEREAS, the applicant states that providing the required side yard would also create an asymmetrical building because the enlargement on the corner lot could not be flush with the existing building on the interior lot and that the proposed exterior stairway is necessary as a second means of egress; and

WHEREAS, the Board acknowledges that the house of worship is entitled to deference under the law of the State of New York as to zoning and its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, specifically, as held in *Cornell University v. Bagnardi*, 68 NY2d 583 (1986), a zoning board must grant an educational or religious institution's application unless it can be shown to have an adverse effect on the health, safety or welfare of the community and general concerns about traffic and disruption of the residential character of the neighborhood are insufficient grounds for the denial of such applications; and

WHEREAS, the Board finds that the programmatic needs of the house of worship create practical difficulties or unnecessary hardship in complying strictly with applicable zoning regulations that are not created by general circumstances in the neighborhood or district; and

WHEREAS, because the house of worship is a not-for-profit corporation, the Board need not find no reasonable possibility of realizing a reasonable return; and

WHEREAS, the applicant states that the proposed variance will not alter the essential character of the neighborhood or district in which the subject site is located and that there will be virtually no effect on surrounding properties; and

WHEREAS, in support of this contention, the applicant studied the character of the neighborhood, finding that the enlargement only affects the adjacent property's side yard, which has bricked-up lot-line windows, and that the bulk of the proposed building is contextual with the surrounding streetscape; and

WHEREAS, the Board finds that the proposed variance will not alter the essential character of the neighborhood or district in which the subject site is located; will not substantially impair the appropriate use or development of adjacent property; and will not be

detrimental to the public welfare; and

WHEREAS, the applicant states that the above practical difficulties or unnecessary hardship do not constitute a self-created hardship; and

WHEREAS, the Board finds that the above practical difficulties or unnecessary hardship have not been created by the owner or by a predecessor in title; and

WHEREAS, the applicant states that the proposed variance is the minimum necessary to permit a productive use of the site, as reflected in the programmatic needs presented by the house of worship; and

WHEREAS, the Board finds that the proposed variance is the minimum necessary to afford relief within the intent and purposes of the Zoning Resolution; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17BSA069M, dated May 3, 2017; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR § 72-21 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR § 72-21 to *permit*, in an R8 zoning district, the enlargement of a house of worship that does not comply with zoning regulations for lot coverage, side yards and permitted obstructions, contrary to ZR § 24-11, 24-35 and 24-33; *on condition* that all work, operations and site conditions shall conform to drawings filed with this application marked "Received April 6, 2018"-Twelve (12) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: maximum lot coverage of 96 percent, a side yard with a minimum depth of 4' -1" along West 136th Street and an exterior stair as a permitted obstruction in the required yard, as illustrated on the Board-approved plans;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by June 19, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated April 14, 2014, acting on DOB Application No. 320595450 reads in pertinent part:

1. ZR 23-141(a): Proposed floor area is more than permitted and contrary to ZR 23-141(a);
2. ZR 23-141(a): Proposed open space ratio is less than required and contrary to ZR 23-141(a); and

WHEREAS, the Board notes that since the filing of this application, the Zoning Resolution has been amended and the text formerly found at ZR § 23-141(a), setting forth the maximum floor area ratio and minimum required open space ratio permitted in an R2 zoning district, is now simply found in ZR § 23-141; thus, the Board treats the citation to ZR § 23-141(a) in DOB’s objection as a citation to ZR 23-141; and

WHEREAS, this is an application under ZR § 73-622 to permit, in an R2 zoning district, the proposed enlargement of an existing single-family residence that does not comply with the zoning requirements for floor area and open space ratio, contrary to ZR § 23-141; and

WHEREAS, a public hearing was held on this application on September 16, 2014, after due notice by publication in *The City Record*, with a continued hearing on October 28, 2014; and

WHEREAS, at the hearing scheduled for March 3, 2015, the application was marked off the Board’s calendar due to the applicant’s request for the adjournment of the four preceding hearings, scheduled for December 9, 2014, January 13, 2015, February 3, 2015, and March 3, 2015; and

WHEREAS, the application was returned to the Board’s hearing calendar for continued hearings on December 6, 2016,

and February 13, 2018, with four additional continued hearings adjourned at the applicant’s request in the interim, and then to decision on February 13, 2018; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown, former Vice-Chair Hinkson and former Commissioner Montanez performed inspections of the site and the surrounding neighborhood; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the southwest corner of Bedford Avenue and Avenue M, in an R2 zoning district, in Brooklyn; and

WHEREAS, the site consists of four consecutive tax lots with approximately 170 feet of frontage along Bedford Avenue, 100 feet of frontage along Avenue M and 17,000 square feet of lot area; and

WHEREAS, each of the four tax lots is occupied by a two-story plus attic dwelling with a garage in the rear yard; and

WHEREAS, the applicant proposes to demolish the existing two-story plus attic structures located on tax lots 48, 50 and 52 and enlarge the two-story plus attic single-family residence located on tax lot 45, which has a total of 3,371 square feet of floor area, a floor area ratio (“FAR”) of 0.67 and an open space ratio of 99 percent; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single- or two-family detached* or *semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

MINUTES

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing non-complying side yard and such enlargement shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins. Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge an existing detached single-family residence, as contemplated by ZR § 73-622; and

WHEREAS, the applicant originally proposed to merge three full tax lots (Lots 45, 48 and 50) and a portion of a fourth tax lot (Lot 52) into a single zoning lot with 160 feet of frontage along Bedford Avenue and 16,000 square feet of total lot area, demolishing the residences located on Lots 48,

50 and 52 and enlarging the existing two-story plus attic single-family residence located on Lot 45 into a residence with 14,560 square feet of floor area, 0.91 FAR, 8,318 square feet of open space, an open space ratio of 57 percent and a 21'-11" rear yard, contrary to zoning requirements for FAR, open space ratio and rear yards; and

WHEREAS, the applicant now proposes to merge the entirety of Lots 45, 48, 50 and 52 into a single zoning lot with 170 feet of frontage along Bedford Avenue and 17,000 square feet of total lot area, demolishing the residences located on Lots 48, 50 and 52 and enlarging the single-family residence located on Lot 45 into a residence with 12,459 square feet of floor area, 0.73 FAR, 9,897 square feet of open space, an open space ratio of 79.4 and a 30 foot rear yard, contrary to zoning requirements for FAR and open space ratio; and

WHEREAS, at the subject site, a maximum FAR of 0.50 (8,500 square feet of floor area) and an open space ratio of 150.0 are required pursuant to ZR § 23-141; and

WHEREAS, the proposed building is additionally proposed to provide 42 percent lot coverage, a building footprint of 7,103 square feet, a 15'-1" front yard fronting Bedford Avenue and a 17'-11" front yard on Avenue M, a building wall width of 144'-1" on the Bedford Avenue frontage (85 percent of the frontage) and a building width of 79'-10" on the Avenue M frontage (80 percent of the frontage); and

WHEREAS, the applicant submitted an analysis of single- or two-family dwellings located within 400 feet of the subject premises within an R2 zoning district (the "Study Area") concluding that, of the 99 residences in the Study Area, excluding the subject lots, 80 (81 percent) have an FAR of more than 0.50 and 20 (20 percent) have an FAR of 0.73 or greater; and 97 (98 percent) have an open space ratio of less than 150.00 and 25 (25 percent) have an open space ratio of 79.4 or less; and

WHEREAS, the Board acknowledges that 13 of the residences in the Study Area (13 percent) have obtained special permits pursuant to ZR § 73-622 and constructed enlargements pursuant to those grants, including a residence located directly across Bedford Avenue from the subject site that obtained a special permit in 2003 for an enlargement that resulted in dwelling with an FAR of 1.02, 5,088 square feet of floor area and an open space ratio of 29.0, as claimed by the subject applicant's consultant, but unverified by the Board1; and

WHEREAS, with regards to the consistency of the subject proposal with the existing streetscape, however, a majority of the Board finds that the subject proposal is oversized as compared to its neighbors and, thus, alters its essential character; in particular, the building wall of the

1 The Board's resolution for that special permit, granted under BSA Cal. No. 31-03-BZ (July 22, 2003), is silent with regards to the FAR and open space ratio permitted by that grant.

MINUTES

proposed enlargement is taller and several times longer along its Bedford Avenue frontage than its neighbors on that block, measuring approximately 144'-1" (85 percent of its frontage) where every other residence with frontage on Bedford Avenue within the Study Area has a building wall ranging from 17 to 66 feet wide occupying between 50 and 90 percent of their total lot frontage; and

WHEREAS, this conclusion is further evidenced by the applicant's additional analyses of the floor area, building width, building width as a percentage of lot frontage, building footprint, front yard depth, lot area, lot width/frontage and lot coverage of the 99 dwellings located within the Study Area; and

WHEREAS, these analyses demonstrate that, with regards to floor area, 4 dwellings in the Study Area (4 percent) have more than 5,000 square feet of floor area; with regards to building width, zero dwellings have a width equal to or greater than 144'-1" and one dwelling (1 percent) has a width greater than or equal to 79'-10"; with regards to the widths of dwellings as a percentage of their lot frontage, 7 lots (7 percent) are occupied by dwellings that take up 80 percent or more of their lot frontage and 2 lots (2 percent) are occupied by dwellings with a width of 85 percent or more of their lot frontage; with regards to building footprint, zero dwellings have a building footprint of 7,103 square feet or greater; with regards to front yard depth, 47 dwellings (47 percent) have at least one front yard with a depth of 15'-1" or less; with regards to lot area, 8 dwellings (8 percent) are located on lots having 5,000 square feet of lot area or greater and one lot (1 percent) has more than 10,000 square feet of lot area; with regards to lot width/frontage, 12 lots (12 percent) have 100 feet of frontage or more and zero dwellings are on lots having frontage equal to or greater than 170 feet; and with regards to lot coverage, 11 dwellings (11 percent) have lot coverage of 42 percent or greater; and

WHEREAS, one Board Commissioner states, however, that the subject proposal is within the limits of special permits previously granted by the Board, the only difference being that the subject zoning lot is larger; and

WHEREAS, the Board acknowledges that the subject site, comprised of multiple tax lots, is atypically large for the immediate area—there is only one other property within the Study Area (1 percent) with a lot area of more than 10,000 square feet—and a majority of the Board identifies this fact as one that distinguishes this application from the 13 other special permit applications previously granted by the Board and constructed within the Study Area, all which are located on lots with lot areas of between 3,000 square feet and 8,363 square feet and frontages between 37.5 feet and 100 feet; and

WHEREAS, the Board notes that, as evidenced by the 1997 City Planning Commission Report for the New York City Department of City Planning's ("DCP") application to, among other things, add ZR § 73-622 to the Zoning Resolution (N 970203 ZRY, December 22, 1997, the "1997

CPC Report"), the purpose of the special permit was to provide owners of residences developed prior to the adoption of the 1961 Zoning Resolution the opportunity to enlarge those homes, many of which were rendered legal non-compliances by the 1961 Zoning Resolution, in order to house growing families or meet contemporary living standards in a manner that is consistent with the surrounding neighborhood; and

WHEREAS, specifically, the 1997 CPC Report cites the "need for an alternative method [to a variance or a special permit pursuant to ZR § 73-621] for allowing for the upgrading of an aging housing stock," which was "designed for life styles that have significantly changed over time"; the special permit was intended to enable the construction of "additional bathrooms, upgraded kitchens, family rooms and additional bedrooms that necessitate major structural changes to existing homes," which was theretofore thwarted by the Zoning Resolution and resulted in "much of the housing stock remaining unimproved and many households leaving the city who might otherwise have stayed"; and

WHEREAS, the 2016 City Planning Commission Report on the application submitted by Community Board 10, Brooklyn, to remove Community District 10 from applicability under ZR § 73-622 (N 160377 ZRK, September 12, 2016, the "2016 CPC Report") reiterates that the original intent of the special permit "was to provide a means for growing families to add a bedroom, bathroom or extend a kitchen, within certain limitations, that would allow the enlargement consistent with the existing neighborhood character"; and

WHEREAS, the 1997 CPC Report also references a comprehensive review of zoning regulations affecting residential developments in R3, R4 and R5 districts being prompted by "a surge in the demolition of sound single and two-family detached and semi-detached homes and their replacement with bulky, often attached three story buildings that were not in context with the surrounding area"; and

WHEREAS, the Board notes that while the subject proposal is not an "attached" building, it is premised on the demolition of three two-family residences and the construction, in their place, of an enlargement that the majority of the Board finds is not in context with the surrounding area and may serve as precedent for a renewed surge in the demolition of "sound single and two-family detached and semi-detached homes" and their replacement with large residences constructed across multiple tax lots, similar to the one herein proposed, via the subject special permit, which was not created for such purpose; and

WHEREAS, in light of the foregoing, the Board has determined that the evidence in the record does not support the findings required to be made under ZR § 73-622.

Therefore it is Resolved, that the subject application is hereby denied.

Adopted by the Board of Standards and Appeals, February 13, 2018.

CALENDAR

REGULAR MEETING AUGUST 7, 2018, 10:00 A.M.

NOTICE IS HEREBY GIVEN of a public hearing, Tuesday morning, August 7, 2018, 10:00 A.M., at 22 Reade Street, Spector Hall, New York, N.Y. 10007, on the following matters:

SPECIAL ORDER CALENDAR

103-79-BZ

APPLICANT – Akerman, LLP, for The 1989 Anthony Denicker Trust, owner.

SUBJECT – Application March 27, 2018 – Amendment of a previously approved Variance (§72-21) which permitted the development of a two-family residence contrary to side yard requirements. The amendment seeks to modify the Board’s prior approval to allow a conversion of the building from a two-family residence to a three-family residence contrary to ZR §23-49 and to request a termination of a Board condition that required a recorded declaration describing the use of the site as a two-family residence. R5 zoning district.

PREMISES AFFECTED – 25-30 44th Street, Block 702, Lot 56, Borough of Queens.

COMMUNITY BOARD #1Q

24-96-BZ

APPLICANT – Rothkrug Rothkrug & Spector LLP, for Legaga LLC, owner.

SUBJECT – Application January 23, 2018 – Extension of Term (11-411) of a previously approved variance permitting the operation of an Eating and Drinking Establishment (*McDonald’s*) which expired on October 7, 2017; Extension of Time to obtain a Certificate of Occupancy which expired on July 15, 2015; Waiver of the Rules. R7-2 zoning district.

PREMISES AFFECTED – 213 Madison Street, Block 271, Lot 40, Borough of Manhattan.

COMMUNITY BOARD #3M

280-01-BZ

APPLICANT – Akerman LLP, for S & M Enterprises, owner.

SUBJECT – Application June 7, 2018 – Extension of Time to complete construction for a previously approved variance (§72-21) to permit a mixed-use building which expired on May 7, 2018. C1-9 zoning district.

PREMISES AFFECTED – 663-673 Second Avenue & 241-249 East 36th Street, Block 917, Lot(s) 21, 24-30, 32, 34, Borough of Manhattan.

COMMUNITY BOARD #6M

197-05-BZ

APPLICANT – Law Offices of Marvin B. Mitzner LLC, for Broadway Realty LLC, owner.

SUBJECT – Application April 27, 2018 – Amendment of a previously approved variance (§72-21) which permitted the construction of an 11-story mixed-use building with ground floor commercial. The amendment seeking to permit a 4’9” by 28’ bump out at the rear of the building; Extension of Time to Complete construction which expires on April 29, 2019. C6-1/R7 zoning district.

PREMISES AFFECTED – 813 Broadway, Block 563, Lot(s) 33 & 34, Borough of Manhattan.

COMMUNITY BOARD #2M

193-05-BZ

APPLICANT – Patrick W. Jones, P.C., for 32 East 31st Street Corp., owner; Tone House, lessee.

SUBJECT – Application May 24, 2016 – Extension of Term of a previously granted Special Permit (§73-36) for the continued operation of Physical Culture Establishment (*Tone House*) which expired on April 25, 2016. C5-2 zoning district.

PREMISES AFFECTED – 32 East 31st Street, Block 860, Lot 55, Borough of Manhattan.

COMMUNITY BOARD #5M

141-06-BZ

APPLICANT – Eric Palatnik, P.C., for Congregation Tefiloh Ledovid, owner.

SUBJECT – Application April 20, 2018 – Extension of Time to Complete Construction of a previously approved Variance (§72-21) permitting the construction of a House of Worship (*Congregation Tefiloh Ledovid*) UG 3) contrary to underlying bulk requirements which expired on March 12, 2017; Waiver of the Board’s Rules. R5 zoning district.

PREMISES AFFECTED – 2084 60th Street, Block 5521, Lot 42, Borough of Brooklyn.

COMMUNITY BOARD #12BK

APPEALS CALENDAR

2017-59-A

APPLICANT – Eric Palatnik, P.C., for Yuriy Prakhin, owner.

SUBJECT – Application March 3, 2017 – Proposed enlargement of a one family home to a one family home with attic and community facility (UG 3) day care not fronting on a legally mapped street, contrary to General City Law 36. R3-1 zoning district.

PREMISES AFFECTED – 3857 Oceanview Avenue, Block 6955, Lot 5, Borough of Brooklyn.

COMMUNITY BOARD #13BK

CALENDAR

2018-63-A

APPLICANT – Fried Frank, LLP, for 25-30 Columbia Heights (Brooklyn), LLC, owner.

SUBJECT – Application May 1, 2018 – Interpretative Appeal of a final determination of the New York City Department of Buildings, set forth in the ZRD1 denial dated April 2, 2018 (Control No. 46921), denying a request for confirmation that existing signs are non-conforming and may be continued as accessory signs, with changes to subject matter, structural alterations, reconstruction, and replacement permitted pursuant to Article V, Chapter 2 of the New York City Zoning Resolution. M2-1 zoning district.

PREMISES AFFECTED – 30 Columbia Heights, Block 208, Lot 2, Borough of Brooklyn.

COMMUNITY BOARD #2BK

REGULAR MEETING AUGUST 7, 2018, 1:00 P.M.

NOTICE IS HEREBY GIVEN of a public hearing, Tuesday afternoon, August 7, 2018, 1:00 P.M., at 22 Reade Street, Spector Hall, New York, N.Y. 10007, on the following matters:

ZONING CALENDAR

263-15-BZ

APPLICANT – Rothkrug Rothkrug & Spector LLP, for Seshadri and Prema Das (Lot 29) & Premast Management (Lot 32), owners.

SUBJECT – Application December 4, 2015 – Special Permit (§73-126) to allow a medical office, contrary to bulk regulations (§22-14). R3X zoning district.

PREMISES AFFECTED – 45/47 Little Clove Road, Block 662, Lot(s) 29 & 32, Borough of Staten Island.

COMMUNITY BOARD #1SI

2017-224-BZ

APPLICANT – Tuttle Yick LLP, for Two Spring Associates LLC, owner.

SUBJECT – Application July 6, 2017– Special Permit (§73-36) to operate a physical culture establishment (*HitHouse*) within an existing building contrary to ZR §32-10. C6-1 Special Little Italy District.

PREMISES AFFECTED – 2-4 Spring Street, Block 478, Lot 22, Borough of Manhattan.

COMMUNITY BOARD #2M

2017-260-BZ

APPLICANT – Law Office of Lyra J. Altman, for BIF Realty LLC by Jak Farhi, owner.

SUBJECT – Application September 1, 2017 – Special Permit (§73-622) for the enlargement of an existing single family home contrary to floor area, open space and lot coverage (ZR §23-142); less than the required rear yard (ZR §23-47); and less than the required side yards (ZR §23-461). R4 zoning district.

PREMISES AFFECTED – 2672 East 12th Street, Block 7455, Lot 87, Borough of Brooklyn.

COMMUNITY BOARD #15BK

2017-277-BZ

APPLICANT – Law Office of Lyra J. Altman, for Freddi Baranoff & Edward Baranoff, owners.

SUBJECT – Application October 12, 2017 – Special Permit (§73-622) to permit the enlargement of an existing single-family residence contrary to ZR §23-141 (Floor Area Ratio and Open Space); and ZR §23-47 (Rear Yard). R2 zoning district.

PREMISES AFFECTED – 1022 East 23rd Street, Block 7604, Lot 52, Borough of Brooklyn.

COMMUNITY BOARD #14BK

2017-314-BZ

APPLICANT – Eric Palatnik, P.C., for 1571 Holding LLC, owner; 1571 Development LLC, lessee.

SUBJECT – Application December 12, 2017 – Special Permit (§73-36) to permit the operation of a Physical Cultural Establishment contrary to ZR §32-10. C2-3/R5 (Special Ocean Parkway District).

PREMISES AFFECTED – 1571 McDonald Avenue, Block 6564, Lot 60, Borough of Brooklyn.

COMMUNITY BOARD #12BK

2018-121-BZ

APPLICANT – NYC Mayor’s Office of Housing Recovery
SUBJECT – Application July 24, 2018 – Special Permit (§64-92) to waive bulk regulations for the replacement of homes damaged/destroyed by Hurricane Sandy, on properties which are registered in the NYC Build it Back Program. R4 zoning district.

PREMISES AFFECTED – 24 Frank Court, Block 08900, Lot 132, Borough of Brooklyn.

COMMUNITY BOARD #15BK

MINUTES

**REGULAR MEETING
TUESDAY MORNING, JUNE 26, 2018
10:00 A.M.**

Present: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.

SPECIAL ORDER CALENDARS

530-32-BZ

APPLICANT – Sheldon Lobel, P.C., for Oceana Holding Corp., owner.

SUBJECT – Application March 23, 2018 – Amendment (§§11-412 & 11-413) of a previous granted variance to legalize a change in use of a portion of the ground floor of the existing building, from a UG9 banquet hall to UG6 supermarket, and to permit a minor interior enlargement in commercial floor area. C1-3/R6 zoning district.

PREMISES AFFECTED – 1029 Brighton Beach Avenue, Block 8709, Lot 60, Borough of Brooklyn.

COMMUNITY BOARD #13BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application, pursuant to ZR §§ 11-41 and 11-413, for an amendment to a variance, previously granted by the Board, to legalize a change in use and increase in commercial floor area of a portion of the ground floor of an existing building; and

WHEREAS, a public hearing was held on this application on June 26, 2018, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, the application was submitted to Community Board 7, Manhattan, in or around March 2018, but the Board was not in receipt of a recommendation regarding this application; and

WHEREAS, the subject site is located on the northeast corner of Brighton Beach Avenue and Brighton 11th Street, partially within an R6 (C1-3) zoning district and partially within an R6 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 133 feet of frontage along Brighton Beach Avenue, 273 feet of frontage along Brighton 11th Street, 22,620 square feet of lot area and is occupied by a two-story plus cellar building constructed as a theater; and

WHEREAS, the Board has exercised jurisdiction over the subject site since December 6, 1932, when, under the subject calendar number, the Board granted a variance to permit the approximately ten foot extension of a theater from a business district into a residence district on condition that the portions of the building extending into the residential use district be of similar design to the balance of the building— face brick with panels, that the lot line wall to the north be unpunctured and also of face brick with panels, that there be no openings from the building in the ten foot portion extending into the residential use area except windows and that there be no advertising signs within the residence use portion of the premises; and

WHEREAS, on January 11, 2000, under BSA Cal. No. 172-97-BZ, the Board granted a new variance, pursuant to ZR § 72-21, permitting the conversion of the first floor and mezzanine of the existing building from a theater to a Use Group 9 catering establishment for a term of two (2) years, expiring January 11, 2002, on condition that a traffic study report be provided within 120 days of the grant, the lease of an off-site parking facility remain in full effect at all times of the variance and the premises remain graffiti free at all times; and

WHEREAS, on December 9, 2003, under BSA Cal. No. 172-97-BZ, the Board denied an extension of the term of the variance, finding that the items submitted by the applicant were insufficient to warrant a grant of the requested relief; and

WHEREAS, the applicant now proposes to legalize the change in use of a portion of the first floor of the existing building to a Use Group 6 supermarket, pursuant to ZR § 11-413, and an amendment to the variance to reflect a conversion of 2,223 square feet of residential floor area within a portion of the zoning lot located completely within an R6 (C1-3) zoning district to Use Group 6 office, which is permitted as-of-right in a C1-3 zoning district pursuant to ZR § 32-15; and

WHEREAS, no alterations to the building envelope have been proposed and the total floor area of the building remains at 50,530 square feet (2.23 FAR); and

WHEREAS, pursuant to ZR § 11-41:

Whenever under the provisions of the 1916 Zoning Resolution as amended, either the Board of Standards and Appeals or the City Planning Commission with the approval of the Board of Estimate or the City Council, has authorized any *use* located in a district in which it is not permitted as-of-right by issuing a variance, exception or permit, such existing *use* established pursuant to such grant may be continued, changed, *extended*, *enlarged* or structurally altered only as provided in this Section or in Article VII, Chapter 3 or 4, provided that the lot area of the *zoning lot* occupied by such *use* is not increased; and

WHEREAS, ZR § 11-413 states:

Such *use* may be changed to a conforming *use* and in appropriate cases the authorizing agency may

1 Words/terms in italics refer to terms defined in Section 12-10 of the Zoning Resolution.

MINUTES

permit such *use* to be changed to another *non-conforming use* which would be permitted under the provisions applicable to *non-conforming uses* as set forth in Sections 52-31 to 52-36, inclusive, relating to Change of Non-Conforming Use, provided that the authorizing agency finds that such change of *use* will not impair the essential character or the future use or development of the surrounding area; and

WHEREAS, pursuant to ZR § 52-34, in all residence districts, non-conforming uses listed in Use Group 6, 7, 8, 9, 10, 11B, 12, 13, 14 or 15 may be changed only to a conforming use or to a use listed in Use Group 6, and, pursuant to ZR § 52-36, in C1 districts, among others, non-conforming uses listed in Use Group 7, 8, 9, 10, 11B, 12, 13, 14 or 15 may be changed to a conforming use, of which Use Group 6 is one pursuant to ZR § 32-15; and

WHEREAS, in response to Board questions as to whether a parking analysis was required, the applicant argues that such an analysis is unnecessary because the conversion of a portion of the first floor to Use Group 6 would be permitted as-of-right were the subject site not under the Board's jurisdiction; and

WHEREAS, based on its review of the record, the Board has determined that the request to legalize the change in use on a portion of the first floor of the existing building to a Use Group 6 supermarket and an amendment of the plans to reflect Use Group 6 offices on the second floor mezzanine in a portion of the building located in an R6 (C1-3) zoning district is appropriate with certain conditions as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the Resolution, dated December 6, 1932, so that as amended this portion of the resolution shall read: "to legalize the conversion of the first floor to a Use Group 6 supermarket and an amendment of the Board-approved plans to reflect the conversion of 2,223 square feet of residential floor area to Use Group 6 office space on the second floor mezzanine; *on condition* that all work shall substantially conform to drawings as filed with this application, marked "Received March 28, 2018"- Seven (7) sheets; and *on further condition*:

THAT a new Certificate of Occupancy shall be obtained within one (1) year;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, June 26, 2018.

APPLICANT – Judith M. Gallent, Esq., for 568 Broadway Property LLC, owner.

SUBJECT – Application March 21, 2017 – Extension of Term of a previously granted Special Permit (§73-36) which permitted the operation of a Physical Cultural Establishment (Bliss Spa) located on portions of the second and third floors of an eleven-story mixed use building which expired on April 1, 2017. M1-5B zoning district (SoHo Cast Iron Historic District).

PREMISES AFFECTED – 568 Broadway, Block 511, Lot 1, Borough of Manhattan.

COMMUNITY BOARD #2M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for an extension of term of a special permit, previously granted by the Board, for a physical culture establishment (“PCE”) and an amendment to permit a change in the hours of operation and a change in ownership; and

WHEREAS, a public hearing was held on this application on June 26, 2018, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 2, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the northeast corner of Broadway and Prince Street, in an M1-5B zoning district, in Manhattan; and

WHEREAS, the Board has exercised jurisdiction over the subject site since August 7, 2001, when, under the subject calendar number, the Board granted a special permit to allow a PCE on portions of the second and third floors of an eleven-story mixed-use building for a term of ten (10) years, expiring April 1, 2007, on condition that there be no change in ownership or operating control of the PCE without prior application to and approval from the Board, that fire protection measures, including an automatic wet sprinkler system, a fire alarm system and a smoke detection system with all three systems connected to a Fire Department-approved central station, be provided and maintained in accordance with the Board-approved plans, that the hours of operation be limited to Monday to Friday, 8:30 a.m. to 8:30 p.m., Saturday, 9:00 a.m. to 6:30 p.m., and closed Sunday and that the above conditions appear on the certificate of occupancy; and

WHEREAS, on July 14, 2009, under the subject calendar number, the Board granted an extension of term of ten (10) years, expiring April 1, 2017, and an extension of

time to obtain a certificate of occupancy to January 14, 2010, on condition that there be no change in ownership or operating control of the PCE without prior application to and approval from the Board; and

WHEREAS, the term having expired, the applicant now seeks an extension of term and an amendment to permit a change in the hours of operation and a change in ownership; and

WHEREAS, the applicant represents that the PCE continues to occupy 8,408 square feet of floor area as follows: 4,131 square feet of floor area on the second floor, including treatment rooms, vanity, shower, sauna, dressing, lounge and locker-room areas as well as entry, retail and reception areas, and 4,277 square feet of floor area on the third floor, including treatment rooms, vanity, shower, sauna, dressing, lounge and locker-room areas as well as reception, offices and a staff locker room; and

WHEREAS, the applicant proposes to change the hours of operation from Monday to Friday, 8:30 a.m. to 8:30 p.m., Saturday, 9:00 a.m. to 6:30 p.m., and closed Sunday to Monday to Sunday, 9:00 a.m. to 9:00 p.m.; and

WHEREAS, the applicant proposes to change ownership of the PCE from Bliss World LLC to OSW Soho LLC; and

WHEREAS, the applicant has satisfactorily demonstrated compliance with the conditions of the previous term, and the Board finds that the circumstances warranting the original grant still obtain; and

WHEREAS, based upon its review of the record, the Board has determined that the requested extension of term and amendment are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated August 7, 2001, as amended through July 14, 2009, so that as amended this portion of the resolution shall read: “to *permit* an extension of term of ten (10) years, expiring April 1, 2027, and changes in the hours of operation and ownership; *on condition* that all work and site conditions shall conform to drawings filed with this application marked “Received August 31, 2017”-Two (2) sheets; and *on further condition*:

THAT the term of this grant shall be limited to ten (10) years, expiring April 1, 2027;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT fire protection measures, including an automatic wet sprinkler system, a fire alarm system and a smoke detection system with all three systems connected to a Fire Department-approved central station, shall be provided and maintained in accordance with the Board-approved plans;

THAT the hours of operation shall be limited to Monday to Sunday, 9:00 a.m. to 9:00 p.m.;

THAT the above conditions shall appear on the certificate of occupancy;

MINUTES

THAT a certificate of occupancy shall be obtained within four (4) years, by June 26, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, June 26, 2018.

169-98-BZ

APPLICANT – Robert J. Stahl for Herbert D. Freeman, Albany Crescent Holding, LLC, owner.

SUBJECT – Application April 10, 2015 – Extension of Term (§11-411) of a previously approved variance permitting the operation of an Automotive Service Station (UG 16B) which expired on July 20, 2009; Amendment (§11-413) to permit a change of use to Automotive Repair Facility (UG 16B); Waiver of the Rules. C2-3/R6 zoning district.

PREMISES AFFECTED – 3141 Bailey Avenue, Block 3267, Lot 38, Borough of Bronx.

COMMUNITY BOARD #8BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and an extension of term of a variance, previously granted by the Board; and

WHEREAS, a public hearing was held on this application on September 13, 2016, after due notice by publication in *The City Record*, with continued hearings on May 16, 2017, August 22, 2017, November 14, 2017, January 30, 2018, And March 27, 2018, and then to decision on June 26, 2018; and

WHEREAS, Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, former Vice-Chair Hinkson and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 8, Bronx, recommends approval of this application; and

WHEREAS, the Board has exercised jurisdiction over the subject site since June 23, 1953, when, under BSA

Calendar Number 375-33-BZ, the Board granted a variance to permit a gasoline service station for a term of fifteen (15) years, expiring June 23, 1968, on condition that all buildings and uses on the subject site be removed and the site be leveled substantially to the grade of Bailey Avenue and be arranged and constructed and designed as indicated on the Board-approved plans, including the planting areas, as indicated, that the walls with steel pickets be erected on the lot lines or off the lot lines, as indicated on such revised plan with masonry piers, that the accessory building have no cellar and in all other respects comply with all requirements of the Building Code therefor and be faced with face brick on all sides and of a design with gable roof as shown, that the number of gasoline storage tanks no exceed six 550-gallon tanks, that the pumps be of an approved low type and erected not nearer than 10 feet to the street building line, that curb cuts be restricted to two curb cuts to Bailey Avenue only, one 40 feet in width and one 30 feet in width, that the subject site where not occupied by accessory building, pumps and planting be paved with concrete or asphaltic pavement, that signs be restricted to a permanent sign attached to the front of the accessory building facing Bailey Avenue and to the illuminated globes of the pumps, excluding all roof signs and all temporary signs but permitting the erection within the building line near the intersection of West 233rd Street and Bailey Avenue of one post standard for supporting a sign which may be illuminated and permitting such sign to extend beyond the building line for a distance of not more than 4 feet, that the intersection within the building line there be erected a block of concrete not less than 12 inches in height and extending for a distance of not less than 5 feet along either building line, that a similar block of concrete be constructed at the southerly end where shown, that such portable fire-fighting appliances be maintained as the Fire Commissioner requires and that before plans are filed with the borough superintendent, complete working drawings including a detailed design of the building be submitted for further consideration of the Board within six (6) months, by December 23, 1953; and

WHEREAS, on or about August 26, 1953, under BSA Calendar Number 375-33-BZ, the Board approved working drawings as being in substantial compliance with the requirements of the resolution; and

WHEREAS, on July 16, 1953, under BSA Calendar Number 375-33-BZ, the Board granted an extension of term of ten (10) years, expiring June 23, 1978, on condition that planting along Albany Crescent be restored and maintained, that trees be planted along the Albany Crescent frontage in accordance with the rules and regulations of the Department of Parks and that a new certificate of occupancy be obtained; and

WHEREAS, on November 21, 1978, under BSA Calendar Number 375-33-BZ, the Board granted an extension of term of ten (10) years, expiring June 23, 1988, on condition that a full-width sidewalk be installed along the West 233rd Street and Albany Crescent frontages , that the

MINUTES

sidewalk be repaired where required, that there be no parking of cars on the sidewalk area and that a new certificate of occupancy be obtained within one (1) year, by November 21, 1979; and

WHEREAS, on July 20, 1999, under the subject calendar number, the Board granted a reinstatement of the variance for a term of ten (10) years, expiring July 20, 2009, on condition that signage be provided in accordance with the Board-approved plans, that the hours of operation be limited to 8:00 a.m. to 8:00 p.m. with no repair work on Sunday, that fencing and screening be provided in accordance with the Board-approved plans, that lighting be provided in accordance with the Board-approved plans and be positioned down and away from adjacent residential uses and that the above conditions appear on the certificate of occupancy; and

WHEREAS, the term having expired, the applicant now seeks a waiver of the Board's Rules of Practice and Procedure to permit the late filing of this application and an extension of term; and

WHEREAS, by letter dated March 23, 2018, the Fire Department states that it has no objection to this application; and

WHEREAS, in response to questions from the Board, the applicant submitted evidence of spruced-up plantings, resurfaced paving and newly installed 8-foot-high fencing with slats and clarified the plans with respect to trees, the gate and lighting; and

WHEREAS, because of the state of the subject site witnessed by the Board, a term of two (2) years is appropriate to ensure continued compliance with the Board's conditions; and

WHEREAS, based upon its review of the record, the Board has determined that the requested waiver of the Board's Rules of Practice and Procedure and extension of term are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *waive* the Rules of Practice and Procedure and *reopen* and *amend* the resolution, dated July 20, 1999, so that as amended this portion of the resolution shall read: "to *permit* an extension of term of two (2) years, expiring June 26, 2020; *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received February 14, 2018"-Nine (9)sheets; and *on further condition*:

THAT the term of this grant shall be limited to two (2) years, expiring June 26, 2020;

THAT the curbing around the planting area shall be made fixed, permanent and durable;

THAT the landscaping, paving and fencing shall be maintained and replaced as necessary to maintain an aesthetically pleasing appearance;

THAT signage shall comply with C1 zoning district regulations and in accordance with the Board-approved plans;

THAT the hours of operation shall be limited to 8:00

a.m. to 8:00 p.m. with no repair work on Sunday;

THAT fencing and screening shall be provided in accordance with the Board-approved plans,

THAT lighting shall be provided in accordance with the Board-approved plans and be positioned down and away from adjacent residential uses;

THAT a full-width sidewalk be maintained along the West 233rd Street and Albany Crescent frontages;

THAT the sidewalk be repaired where required;

THAT there shall be no parking of cars on the sidewalk area;

THAT planting along Albany Crescent shall be maintained;

THAT trees shall be maintained along the Albany Crescent frontage in accordance with the rules and regulations of the Department of Parks;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by June 26, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted."

Adopted by the Board of Standards and Appeals, June 26, 2018.

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the

MINUTES

Board's Rules of Practice and Procedure and an extension of term of a variance, previously granted by the Board; and

WHEREAS, a public hearing was held on this application on February 13, 2018, after due notice by publication in *The City Record*, with continued hearings on May 1, 2018, and then to decision on June 26, 2018; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, the Board has exercised jurisdiction over the subject site since May 7, 1957, when, under BSA Calendar Number 754-56-BZ, the Board granted a variance to permit the unbuilt upon portion of the subject site at the rear to be occupied for the parking of employees' and patrons' cars, without charge, and for parking by other persons in the neighborhood who desire such parking, at a rate to be established for a term of five (5) years, expiring May 7, 1962, on condition that such portion of the subject site be leveled substantially to the grade of Walton Avenue and the plot surfaced with clean gravel or steam cinders treated with a binder and properly rolled, that the extension of the present building formerly used as an oven be removed, that fences of the woven wire chain link type be erected on all lot lines not less than 5'-6" in height, that entrance be maintained at Walton Avenue only with curb cut opposite not exceeding 15 feet, that at the entrance at the building line there be gates of similar construction and suitable bumpers maintained at all points for protection of the wall and building, that there may be a sign attached to the fence near the entrance which shall not extend over the building line, shall not be illuminated and shall not exceed 15 square feet in area, that such portable fire-fighting appliances be maintained as the Fire Commissioner directs, that any differences in grade be maintained by means of slopes which shall be properly paved, or by retaining walls and that a certificate of occupancy be obtained within six (6) months, by November 7, 1957; and

WHEREAS, on November 6, 1957, under BSA Calendar Number 754-56-BZ, the Board amended the variance to permit as proposed the unbuilt upon portion of the subject site to be occupied for the parking and storage of motor vehicles of the pleasure car type only as indicated on the Board-approved plans; and

WHEREAS, on January 9, 1962, under BSA Calendar Number 754-56-BZ, the Board granted an extension of term of five (5) years, expiring January 9, 1967, on condition that a new certificate of occupancy be obtained; and

WHEREAS, on February 15, 1967, under BSA Calendar Number 754-56-BZ, the Board granted an extension of term of five (5) years, expiring February 15, 1972, on condition that a certificate of occupancy be obtained; and

WHEREAS, on May 2, 1972, under BSA Calendar Number 754-56-BZ, the Board granted an extension of term of five (5) years, expiring February 15, 1977, on condition that a new certificate of occupancy be obtained; and

WHEREAS, on October 26, 1993, under the subject calendar number, the Board granted a reinstatement of the

variance to permit a non-transient parking lot (Use Group 8) for a term of ten (10) years, expiring October 26, 2003, on condition that the site be maintained free of graffiti and debris, that the parking lot be paved in accordance with Building Code § 27-479, that street trees and fencing be provided and maintained in accordance with the Board-approved plans, that all lights be directed downward and away from adjacent residential uses, that if signs are provided for the parking lot, such signs be limited to 15 square feet and that the above conditions appear on the certificate of occupancy; and

WHEREAS, on April 27, 2004, under the subject calendar number, the Board granted an extension of term of ten (10) years, expiring October 26, 2013, on condition that the number of parking spaces on the site shall be limited to a maximum of 25, of which 11 spaces shall be made available for rental to neighborhood people as indicated on the previous certificate of occupancy, that the parking layout be approved by the Department of Buildings and that the above conditions appear on the certificate of occupancy; and

WHEREAS, the term having expired, the applicant now seeks a waiver of the Board's Rules of Practice and Procedure to permit the late filing of this application and an extension of term; and

WHEREAS, in response to questions from the Board, the applicant submitted evidence that the use has been continuous, that lighting levels are low along the perimeter, that plantings have been installed, that the fences are in place and that fewer than 10 percent of the visitors to the site access the commercial retail and eating or drinking establishment by personal vehicle; and

WHEREAS, based upon its review of the record, the Board has determined that the requested waiver of the Board's Rules of Practice and Procedure and extension of term are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *waive* the Rules of Practice and Procedure and *reopen* and *amend* the resolution, dated October 26, 1993, as amended through April 27, 2004, so that as amended this portion of the resolution shall read: "to *permit* an extension of term of ten (10) years, expiring October 26, 2023; *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received April 12, 2018"-One (1) sheet; and *on further condition*:

THAT the term of this grant shall be limited to ten (10) years, expiring October 26, 2023;

THAT landscaping shall be maintained and replaced as necessary to create a dense buffer zone;

THAT fencing shall be maintained;

THAT the number of parking spaces on the site shall be limited to a maximum of 25, of which 11 spaces shall be made available for rental to neighborhood people as indicated on the previous certificate of occupancy;

WHEREAS, this is an application for recognition of a common law vested right and reinstatement of Alteration Permit No. 320526347 to facilitate the enlargement of a four-story residential building compliant with R7-1 zoning regulations applicable at the subject site prior to its rezoning in September 2013; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and the surrounding area; and

WHEREAS, a public hearing was held on this application on February 28, 2017, after due notice by publication in *The City Record*; and

WHEREAS, at that hearing, the Board remarked that construction at the site did not appear to comply with the plans approved by the Department of Buildings prior to the rezoning, that evidence in the record was insufficient to substantiate the progress of construction at the site as of the rezoning date and that costs cited for purposes of establishing substantial expenditures were inconsistent and unsupported by back up, such as cancelled checks; and

WHEREAS, continued hearings were scheduled for May 16, 2017, August 8, 2017, and November 14, 2017, but those hearings were adjourned at the applicant’s request; and

WHEREAS, continued hearings scheduled for February 27, 2018, and May 1, 2018, were administrative adjourned due to the applicant’s failure to make timely submissions; and

WHEREAS, at the Executive Session on April 31, 2018, the Board noted that the May 1 hearing would constitute the fifth consecutive adjournment and that nothing had been submitted into the record on this application since 2017; and

WHEREAS, Board staff sent a letter to the applicant and their legal representative, dated May 1, 2018, stating that a failure to make a complete submission on June 6, 2018, and/or to appear at the continued hearing scheduled for June 26, 2018, could result in denial of the application or its dismissal for failure to prosecute; and

WHEREAS, no materials were submitted on this

application on June 6 and at the Executive Session on June 25, 2018, the Board expressed frustration with the applicant’s lack of responsiveness to the hearing process and the Board’s intention to decide the case on the merits; and

WHEREAS, after the review session, the applicant requested withdrawal of this application; and

WHEREAS, § 1-12.2 of the Board’s Rules of Practice and Procedure states, in relevant part:

The Board may consider a request to withdraw an application made by the applicant at any time before the Board’s final determination.

If the request to withdraw is made before the hearing has been closed, the Board may permit withdrawal without prejudice upon request; and

WHEREAS, though the request for withdrawal was made prior to the hearing on this application being closed, the request was not specifically made for a withdrawal without prejudice and the Board finds withdrawal with prejudice on the refiling of a future application for the same relief to be appropriate in this case; and

Therefore, it is Resolved, that the Board of Standards and Appeals accepts the withdrawal of this application with prejudice on the refiling of a future application for the same relief.

Adopted by the Board of Standards and Appeals, June 26, 2018.

2017-320-BZY

APPLICANT – Kramer Levin Naftalis & Frankel LLP by Gary Tarnoff, for Sutton 58 Holding Company, LLC, owner.
SUBJECT – Application December 19, 2017 – Proposed extension of time to complete construction for a minor development pursuant to ZR §11-331 to renew building permits lawfully issued before November 30, 2017, the date of the modified tower-on-a-base regulation, to complete the required foundation of a proposed 64-story residential apartment building. R10 zoning district.

PREMISES AFFECTED – 428-432 East 58th Street, Block 1369, Lot 34, Borough of Manhattan.

COMMUNITY BOARD #6M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application under ZR § 11-331 to renew building permits and authorize an extension of time for the completion of the foundation of a minor development under construction; and

WHEREAS, a public hearing was held on this application on April 10, 2018, after due notice by publication in *The City Record*, with a continued hearing on June 19, 2018, and then to decision on June 26, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 6, Manhattan, recommends denial of this application; and

WHEREAS, New York City Councilmembers Ben Kallos and Keith Powers, New York State Senator Elizabeth Krueger, Manhattan Borough President Gale Brewer and U.S. Congresswoman Carolyn Maloney submitted testimony in opposition to this application stating, among other things, that After Hours Variance Permits issued to the site were invalid, that the applicant was able to pour a substantial amount of concrete at the site by closing the street without necessary permits, that work continued at the site after the effective date of the applicable zoning amendment, burying the evidence of what progress had actually been made by that date and, because ZR § 11-331 is designed to protect owners of real estate from unforeseen zoning challenges, it is not applicable in this case where the applicant acquired the property with knowledge of a zoning amendment that would render the development non-complying; these arguments are discussed more fully below; and

WHEREAS, the Board was also in receipt of more than 30 letters and hours of testimony in opposition to this application from individuals and organizations alike, including from the Friends of the Upper East Side Historic Districts, the Municipal Art Society of New York and the East River Fifties Alliance, an association of residents who

live in the vicinity of the subject site who were represented in these proceedings by counsel (“Opposition Counsel”); and

WHEREAS, the subject site is located on the south side of East 58th Street, between Sutton Place and First Avenue, in an R10 zoning district, in Manhattan; and

WHEREAS, the site is comprised of ten (10) tax lots and has approximately 261 feet of frontage along East 58th Street, 112 feet of frontage along East 57th Street and 37,501 square feet of lot area; and

WHEREAS, a Confirmatory Declaration of Zoning Lot Restrictions describing these lots as a single zoning lot (the “Zoning Lot”) was recorded with the Office of the City Register of the City of New York on February 17, 2017 (Document ID 2017021601077003); and

WHEREAS, the Zoning Lot is occupied by a 16-story residential building on Lot 19, a four-story mixed-use residential community facility building on Lot 22, a six-story residential building on Lot 29, a four-story single-family residence on Lot 129, a five-story multi-family residential building on Lot 30, a six-story multi-family residential building on Lot 31, a six-story multi-family residential building on Lot 33, a five-story multi-family residential building on Lot 36 and a six-story multi-family residential building on Lot 37; and

WHEREAS, the applicant proposes to develop Lot 34 (the “Development Site”), which was previously occupied by three residential buildings, with a 64-story residential building that cantilevers over portions of adjacent tax lots and rises to a height of 847’-4”, measured to the top of the elevator overrun (the “Proposed Development”); and

WHEREAS, the New York City Department of Buildings (“DOB”) issued permits to the Development Site for construction equipment and fencing (Permit No. 121191423-EQ-FN, the “Fencing Permit”) on April 28, 2017, and issued permits for excavation (Permit No. 121191423-01-FO-EA, the “Excavation Permit”) and foundation work (Permit No. 121191423-01-FO, “the Foundation Permit”) on May 1, 2017; the Excavation Permit and Foundation Permit were reissued on August 25, 2017, to update the name of the Development Site’s site safety manager; and

WHEREAS, also on May 1, 2017, DOB issued an Alteration Type 2 permit for a temporary dry fire standpipe riser (Permit No. 140603434-01-EW-SD, the “Standpipe Permit”); and

WHEREAS, on September 27, 2017, DOB issued an Alteration Type 2 permit for underground plumbing piping (Permit No. 121770146-01-PL, the “Plumbing Permit”); and

WHEREAS, on October 3, 2017, DOB issued a New Building permit for the Proposed Development (Permit No. 121191423-01-NB, the “New Building Permit”); and

WHEREAS, on October 13, 2017, DOB issued a plumbing permit for the installation of new mechanical ductwork and air conditioning unit (Permit No. 121191423-05-PL, the “NB Plumbing Permit”, collectively, with the Fencing Permit, Excavation Permit, Foundation Permit,

MINUTES

Standpipe Permit, Plumbing Permit and New Building Permit, the “DOB Permits”); and

WHEREAS, on October 30, 2017, DOB approved a post-approval amendment to the New Building Permit to add two additional floors within the previously approved envelope of the Proposed Development; and

WHEREAS, in addition, DOB issued a total of fourteen (14) After Hours Work Variance Permits under Application No. 121191423 permitting work at the Development Site on Saturdays as follows: (A) three (3) After Hour Variance Permits for “excavation, drilling, installation of support of excavation, rebar placement, concrete placement, trucking, formwork and associated form work, safety carpentry, safety protection and equipment maintenance” on the cellar and first floor levels valid from 9:00 a.m. to 5:00 p.m. on June 3, 2017, June 10, 2017, June 17, 2017, June 24, 2017, and July 1, 2017; (B) two (2) After Hour Variance Permits for excavation, drilling, installation of support of excavation, rebar placement, concrete placement, trucking, form work and associated form work, safety carpentry, safety protection and equipment maintenance plus “underpinning work” for the cellar, first through 62nd floors and roof level valid from 9:00 a.m. to 5:00 p.m. on July 22, 2017, July 29, 2017, August 5, 2017, and August 12, 2017; (C) four (4) After Hour Variance Permits for excavation, drilling, installation of support of excavation, rebar placement, concrete placement, trucking, form work and associated form work, safety carpentry, safety protection and equipment maintenance, underpinning work plus “rock chopping” at the cellar, first through 62nd floors and roof level valid from 9:00 a.m. to 5:00 p.m. on August 19, 2017, August 26, 2017, September 2, 2017, September 9, 2017, September 16, 2017, September 23, 2017, September 30, 2017, and October 7, 2017; (D) one (1) After Hour Variance Permit for excavation, drilling, installation of support of excavation, rebar placement, concrete placement, trucking, formwork and associated form work, safety carpentry, safety protection and equipment maintenance, underpinning work and rock chopping plus “use of crane (CN# 0733/17), lifting equipment and building materials” valid from 9:00 a.m. to 5:00 p.m. on October 14, 2017 and October 21, 2017; (E) three (3) After Hour Variance Permits for “rebar & concrete placement, trucking, formwork & associated work, safety carpentry, safety protection & equipment maintenance and use of crane (CN# 0733/17). Lifting equipment and building materials” at the cellar, roof and first through 62nd floors valid from 9:00 a.m. to 5:00 p.m. on October 28, 2017, and November 4, 2017, and from 7:00 a.m. to 6:00 p.m. on November 11, 2017, and November 18, 2017; (F) one (1) After Hour Variance Permit, again for “rebar & concrete placement, trucking, formwork & associated work, safety carpentry, safety protection & equipment maintenance and use of crane (CN# 0733/17). Lifting equipment and building materials,” but valid at the cellar, first through 64th floors and roof level from 9:00 a.m. to 5:00 p.m. on November 25, 2017, and December 2, 2017 (collectively, the “After Hour Permits”);

and

WHEREAS, effective November 30, 2017 (the “Effective Date”), several sections of the Zoning Resolution were amended to modify the bulk regulations applicable within R10 zoning districts located in Community District 6 east of First Avenue and north of East 51st Street in Manhattan, including the Development Site; the revised sections apply a modified version of tower-on-a-base regulations to zoning lots fronting on narrow streets beyond 125 feet of a wide street on 10 blocks roughly defined by the Ed Koch Queensboro Bridge to the north, First Avenue to the west, East 51st Street to the south and the East River to the east (the “Zoning Amendment”); and

WHEREAS, the Zoning Amendment rendered the Proposed Development non-complying in several respects, including with regards to maximum permitted floor area and building height; and

WHEREAS, at approximately 5 p.m. on November 30, 2017, DOB posted a full stop work order at the Development Site under the New Building Permit’s Application Number (the “November Stop Work Order”); the DOB inspector noted that 80 percent of the Proposed Development’s foundation had been completed at the time; and

WHEREAS, the applicant now seeks the recognition of a statutory vested right to complete construction of the Proposed Development pursuant to ZR § 11-331; and

WHEREAS, ZR § 11-331 reads as follows:

11-331

Right to construct if foundations completed
