If, before the effective date of an applicable amendment of this Resolution, a building permit has been lawfully issued, as set forth in paragraph (a) of Section 11-31, to a person with a possessory interest in a *zoning lot 1*, authorizing a minor development or a major development, such construction, if lawful in other respects, may be continued provided that:

- (a) in the case of a minor development, all work on foundations had been completed prior to such effective date; or
- (b) in the case of a major development, the foundations for at least one *building* had been completed prior to such effective date.

In the event that such required foundations have been commenced but not completed before such effective date, the building permit shall automatically lapse on the effective date and the right to continue construction shall terminate. An application to renew the building permit may be made to the Board of Standards and Appeals not more than 30 days after the lapse of such building permit. The Board may renew the building permit and authorize an extension of time limited to one

1 Words in italics refer to terms defined in Section 12-10 of the Zoning Resolution.

MINUTES

term of not more than six months to permit the completion of the required foundations, provided that the Board finds that, on the date the building permit lapsed, excavation had been completed and substantial progress made on foundations; and

WHEREAS, with respect to lawfully issued building permits, ZR § 11-31(a) states:

A lawfully issued building permit shall be a building permit which is based on an approved application showing complete plans and specifications, authorizes the entire construction and not merely a part thereof, and is issued prior to any applicable amendment to this Resolution. In case of dispute as to whether an application includes 'complete plans and specifications' as required by this Section, the Commissioner of Buildings shall determine whether such requirement has been met; and

WHEREAS, pursuant to ZR § 11-31(c)(1), a "minor development" includes, among other things, "construction of any single *building* which will be *non-conforming* or *non-complying* under the provisions of any applicable amendment to this Resolution"; and

WHEREAS, the applicant submits that the Proposed Development was rendered non-complying upon the Effective Date and is a "minor development" pursuant to ZR § 11-31(c)(1); that the permits for the Proposed Development were lawfully issued based on plans for the entirety of the development that went through full plan examination at DOB and were not self-certified; that the party to whom the permits were issued had a possessory interest in the Development Site at the time that they were issued; that excavation work at the Development Site commenced on May 22, 2017, and was completed as of October 30, 2017, with a brief interruption in work between June 30, 2017, and July 18, 2017, when a full stop work order was in effect at the Development Site; and that the required foundations were commenced, but not completed, on the Effective Date, thus, the permits lapsed as of the Effective Date, but substantial progress had been made on foundations by that date and, thus, they are entitled to the requested relief; and

WHEREAS, DOB's letter dated March 8, 2018, confirmed that the permits issued under New Building Application No. 121191423, which include the New Building Permit, were lawfully issued; and

WHEREAS, the Board notes that the DOB Permits were issued prior to the Effective Date and that the subject application, filed on December 20, 2017, was timely filed within 30 days of the Effective Date; and

WHEREAS, in support of the argument that excavation was completed by October 30, 2017, the applicant submitted photographs showing the nearly daily progression of excavation at the Development Site, affidavits from the construction manager and the geotechnical engineer and special inspector for support of

excavation, daily reports, site observation reports, an excavation log tracking the number of 25 cubic yard trucks and type of soil excavated from the site daily between July 21, 2017, and October 10, 2017, and carting invoices indicating the date, time, materials and quantities of materials delivered to the Development Site between June 5, 2017, and October 13, 2017; and

WHEREAS, that the applicant completed excavation prior to the Effective Date of the Zoning Amendment is not contested by any party appearing in opposition to this application; and

WHEREAS, with regards to the required foundations, the applicant clarifies that the foundation designed for the Proposed Development includes a 10 foot thick foundation mat slab connected to bedrock by 55 rock anchors, seven footings at the southern end of the Development Site bearing directly onto bedrock or soil, a concrete wall around the perimeter of the excavated Development Site ranging from 1 foot to 2'-6" thick, and various non-structural components including waterproofing and a topping slab to protect the rock anchors; and

WHEREAS, in support of their contention that the required foundations were commenced, but not completed, on the Effective Date, the applicant submitted color-coded markups of plans for the Proposed Development's foundations showing progress as of November 30, 2017, and a concrete pour log with invoices tracking the date and volume of concrete poured at the Development Site; and

WHEREAS, the color-coded markup indicated that, as of November 30, 2017, support of excavation work (soldier piles and lagging, underpinning piers and tiebacks) was installed, all 55 rock anchors were drilled and assembled, all seven of the footings had been completed and the elevator pit, 10 foot thick foundation mat slab and all of the shear walls had been poured at the Development Site; and

WHEREAS, the applicant additionally submits that, up to the Effective Date, work on the Proposed Development's foundation had been proceeding for 147 days, approximately 92 percent of the total 160 days scheduled for foundation construction, that 2,125 cubic yards of concrete², approximately 87 percent of the 2,433 total cubic yards of concrete allocated for the Proposed Development's foundation, had been poured, and, in terms of costs, 93 percent of the \$10,002,200 total cost of foundation work had been incurred at the Development Site; and

WHEREAS, by letter dated December 21, 2017, the applicant advised the Board that the November Stop Work Order had been partially rescinded on December 18 to allow for site-safety work at the Development Site and advised that none of the site-safety work completed would be counted for purposes of determining whether substantial

² This amount reflects a total of 2,166 cubic yards of concrete, minus 30 cubic yards of concrete the applicant acknowledges was poured after permitted hours on November 18, 2017, and 11 cubic yards of concrete poured after the issuance of the November Stop Work Order.

MINUTES

progress had been made on the Proposed Development's foundation on the Effective Date; and

WHEREAS, by letter dated March 30, 2018, the applicant stated that records in their control suggested that, in February 2016, while employed at Langan Engineering, the geotechnical engineer and special inspector for support of excavation for the Proposed Development, and prior to his appointment as a Board Commissioner, present Board Commissioner Dr. Nasr Sheta performed approximately one hour of work on a support of excavation design for a different project proposed at the Development Site by a prior owner; and

WHEREAS, in response to this disclosure by the applicant, by letter dated April 6, 2018, Opposition Counsel, appearing on behalf of the East River Fifties Alliance, requested Dr. Sheta's recusal from this application based on a likelihood that Dr. Sheta had "pre-existing perspectives with respect to Langan"; and

WHEREAS, at the public hearing on April 10, 2018, Board counsel remarked that Chapter 68 of the New York City Charter, the City's Conflict of Interest Law, does not have a pre-employment restriction for public servants, only looks to a public servant's current and future position and interests, therefore, as long as a public servant no longer retains an ownership interest in either their prior employer or projects on which they worked—neither of which Dr. Sheta retains with respect to Langan nor the now-abandoned formerly proposed development at the Development Site—the law does not prohibit public servants from participating in matters concerning prior employers or projects; and

WHEREAS, Opposition Counsel additionally requested that the applicant law firm appearing before the Board on this application be disqualified due to past and perhaps present work on behalf of the Mayor and the City of New York, which "would create the appearance of impropriety"; and

WHEREAS, at the April 10 public hearing, Board counsel also stated that as Opposition Counsel neither cites to any laws or rules necessitating the disqualification of the applicant nor alleges fraud or other misconduct committed by the applicant before the Board, it is not clear that the Board is the correct venue for such a claim; and

WHEREAS, with respect to the substance of the application, by separate letter dated March 30, 2018, Opposition Counsel alleged that an overwhelming majority of the work on the foundation was done in violation of New York City law and without lawful permits and, therefore, cannot be counted for purposes of establishing whether, pursuant to ZR § 11-331, substantial progress to the Proposed Development's foundation was made on the Effective Date; Opposition Counsel also stated that the Zoning Amendment deprived the Board of jurisdiction over this case; and

WHEREAS, specifically, Opposition Counsel contends that, in a rush to complete work on the foundation, the applicant closed the entirety of the subject block—East 58th Street, between First Avenue and Sutton Place—to

allow for a continuous pour of concrete at the Development site on Saturday, November 11, 2017, without seeking permission from the New York City Department of Transportation ("DOT"); that on Saturday, November 18, 2017, the applicant again improperly closed streets to continuously pour concrete at the Development Site and proceeded to work in excess of the hours of 7 a.m. to 6 p.m. permitted by the After Hours Permits, at least until 8:30 p.m.; and that the applicant unlawfully poured concrete on November 30, 2017, the Effective Date; and

WHEREAS, accordingly, Opposition Counsel submits that the 880 cubic yards of concrete poured on November 11, 893 cubic yards of concrete poured on November 18, 180 cubic yards poured on November 18 after 6 p.m., and 300 cubic yards of concrete poured on the Effective Date—a total of 2,253 cubic yards of concrete or 93 percent of the total cubic yardage the applicant allocated for the Proposed Development's foundation—was completed unlawfully and should be excluded from the Board's analysis for determining whether substantial progress was made in satisfaction of ZR § 11-331; and

WHEREAS, in response, the applicant submitted that the street was lawfully closed on November 11, 2017, and provided a copy of DOT Permit No. M02-2017313-E13 to close East 58th Street between First Avenue and Sutton Place on that date and that the concrete pour on November 18 proceeded in compliance with previously issued DOT Permit Nos. M02-2017305-B82, M02-2017305-B84 and M02-2017305-B85, which allowed the occupation of an 11 foot width of roadway adjacent to the south curb line directly in front of the Development Site and portions of the street in front of neighbors 426 East 58th Street and 434 East 58th Street; and

WHEREAS, by communication dated April 18, 2018, DOT's Deputy Director of Permit Management provided copies of the DOT Permit Nos. M02-2017313-E13, M02-2017305-B82, M02-2017305-B84 and M02-2017305-B85 (the "DOT Permits") to the Board confirming the issuance of these permits; and

WHEREAS, the applicant further represented that no violations were issued in connection with the alleged unlawful street closures and provided an executed contract for a New York Police Department Traffic Enforcement Agent to properly maintain the flow of traffic around the Development Site on November 18, 2017, which would not have been necessary had the street actually been closed, as well as an affidavit of a superintendent present at the Development Site on November 18, confirming that the street was, indeed, open that day, and attaching a photograph of the Development Site taken at approximately 9 a.m. showing a car driving down the streets and construction barriers located beyond the property line; and

WHEREAS, the applicant also averred that Opposition Counsel's claim that work proceeded at the Development Site until 8:30 p.m. on November 18 is unsupported by evidence and in fact, contrary to evidence submitted by the applicant, including site photographs, that the pour on that

MINUTES

day continued until 6:25 p.m. and that Opposition Counsel's claim that the Board does not consider work performed on the Effective Date in statutory vesting cases, like this one, is contrary to numerous cases in which the Board has expressly considered work performed on the effective date up until the approximate time of the City Council vote on the particular amendment; and

WHEREAS, nevertheless, in subsequent submissions, the applicant provided indexed tables, identifying the date of each concrete pour, the concrete pour ticket number, the pour start time, the pour finish time and the volume of concrete poured and a breakdown of the material and labor costs associated with work that occurred after 6 p.m. on November 18 and after 4:08 p.m. on November 30, the approximate time that the City Council voted to approve the Zoning Amendment; and

WHEREAS, the applicant also revised its calculations regarding the progress of construction on November 30, 2017, to deduct 22 cubic yards of concrete poured after 6 p.m. on November 18, 66 cubic yards of concrete poured after 4:08 p.m. on November 30 and the approximately \$31,000 in costs associated with these overages, including any demobilization after the concrete pours were complete; and

WHEREAS, the applicant now estimates that on the Effective Date, 2,078 cubic yards⁴, approximately 85 percent of the total amount allocated for the foundation, was poured and 93 percent of the total cost of the foundation had been incurred, which the applicant asserts, still constitutes substantial progress; and

WHEREAS, finally, the applicant submitted a version of the previously submitted color-coded markups of foundation work in place at the Development Site as of November 30, 2017, signed and sealed by project engineers certifying that the work in place complies with the requirements of all applicable codes and regulations, as well as affidavits from the construction manager, geotechnical engineer and general contractor affirming that all construction at the Development Site as of November 30, 2017, fully complied with, without deviation from, the drawing and permits approved by DOB; and

WHEREAS, the Board finds that Opposition Counsel's assertion that concrete pours on November 11 and November 18, 2017, were done without the permission of DOT is not supported by the evidence; the applicant has

provided valid DOT Permits allowing the closure of all or a portion of the street and the photographs submitted by Opposition Counsel, purporting to show cement trucks lined up on East 58th Street on November 11 and November 18, 2017, are undated, taken from unspecified location(s) and, therefore, of little probative value as to the condition of East 58th Street on those dates; and

WHEREAS, the Board also finds that where the approximate time of enactment of a Zoning Amendment can be ascertained, it may be used to permit the inclusion of lawful construction performed at a site until that time for purposes of showing substantial progress on foundations; and

WHEREAS, therefore, the Board finds that construction at the Development Site on Saturday, November 11, 2017, from 7 a.m. to 6 p.m. on Saturday, November 18, 2017, and until 4:08 p.m. on November 30, 2017, the most conservative estimate for the time at which the Zoning Amendment became effective, was conducted lawfully pursuant to valid permits and, thus, properly included in the applicant's submission with regards to "substantial progress"; and

WHEREAS, with regards to the allegation that the Board has no authority to consider the subject application, Opposition Counsel submits that on or about November 15, 2017, the New York City Planning Commission issued a draft of the Zoning Amendment that included a provision that would have vested construction of the Proposed Development pursuant to the DOB Permits, permitted the continuation of construction as-of-right and redefined the Effective Date for purposes of the applicability of ZR § 11-331 to one year after the Zoning Amendment's date of adoption meantime (the "Special Vesting Provision"⁵), but that such provision was removed by the City Council prior to vote with the intent of preventing the construction of the 64-story Proposed Development, therefore, in considering this application, the Board is improperly overriding the action of the legislative branch of New York City government; and

WHEREAS, in response to this argument, the applicant refutes Opposition Counsel's claim that City Council has already "legislatively addressed" the subject

⁵ The Special Vesting Provision, originally proposed as ZR § 23-67(c) and titled "Vesting modifications," read as follows:

In the event that a building permit has been issued authorizing construction pursuant to the regulations of this Resolution in effect prior to [date of adoption], and foundations were commenced, but not completed before [date of adoption], such construction may continue, provided that all foundations have been completed prior to [date of adoption + 1 year]. Such date shall be the effective date for applying the provisions of Section 11-332 (Extension of period to complete construction).

³ The applicant revised the amount of concrete poured in excess of the hours permitted on November 18, 2017, originally contained in its analysis, from 30 cubic yards to 22 cubic yards and increased the deduction of concrete poured after the Effective Date from 11 cubic yards to 66 cubic yards.

⁴ This amount reflects a total of 2,166 cubic yards of concrete, minus 22 cubic yards of concrete the applicant now calculates was poured after permitted hours on November 18, 2017, and 66 cubic yards of concrete poured after 4:08 p.m. on November 30, 2017.

MINUTES

application as incorrect as a matter of law and contradicted by the Zoning Amendment’s legislative record; and

WHEREAS, the applicant acknowledges that, while City Council did remove the Special Vesting Provision, City Council did not amend the Zoning Resolution to disturb ZR § 11-331 and cites to the transcript for the public hearing held on the Zoning Amendment before City Council’s Subcommittee on Zoning and Franchises (the “Subcommittee”) on November 20, 2017, wherein co-applicants for the Zoning Amendment, including a member of City Council, affirmed that ZR § 11-331 already provides an opportunity for the Proposed Development to vest by application to the Board and that the Special Vesting Provision was, thus, redundant and unnecessary in that it created a set of rules specific to and exclusively for the benefit of the Development Site; and

WHEREAS, in addition, the applicant submits a transcript of the Subcommittee meeting on the Zoning Amendment on November 21, 2017, at which the Councilmember Chair of the Subcommittee announced City Council’s modification of the Zoning Amendment text to remove the Special Vesting Provision “to cover a specific development” and acknowledged that the Proposed Development “continues to have the standard recourse already provided under the city’s existing zoning regulations to appeal to the BSA for more time to vest”; and

WHEREAS, the Board finds that the absence of the Special Vesting Provision from the Zoning Amendment did not extinguish the Board’s authority to consider the subject application pursuant to ZR § 11-331; and

WHEREAS, by letter dated April 9, 2018, Opposition Counsel suggested that the applicant is not entitled to invoke the vesting provisions of the Zoning Resolution because they had been fully aware of the pending application for a Zoning Amendment prior to acquiring the subject property, commenced construction anyway and raced to avoid having to comply with the Zoning Amendment; and

WHEREAS, in support of their contention that the Board should qualify such behavior as wrongful and, thus, deny the subject application, Opposition Counsel notes, *inter alia*, Board precedent in which the Board “disagreed that it is bound solely and completely by the language of ZR § 11-331 when reviewing applications made under this section,” (BSA Cal. No. 354-05-BZY (July 25, 2006); and

WHEREAS, further review of that resolution reveals that that statement was with regards to evidence that “impermissible development activity may have a direct nexus to the ability to complete excavation and make substantial progress on foundations prior to the zoning change,” specifically, that the Board can consider the credibility of an applicant’s submissions regarding substantial progress—in that case, the developer represented at hearings that mechanical demolition at the site had been limited to a single day, but time-stamped videos taken by neighbors directly contradicted this assertion and demonstrated that mechanical demolition had taken place at the site over several days; the Board, thus, concluded that

“to avoid such gamesmanship,” the Board “must have the latitude to evaluate on a case by case basis the effect, if any, that impermissible pre-excavation work at the site had on the ability to meet the technical thresholds set forth at ZR § 11-331”; and

WHEREAS, accordingly, the Board finds that the resolution cited by Opposition Counsel is, in fact, consistent with earlier resolutions issued by the Board in statutory vesting applications stating that arguments that a developer has acted in bad faith, sought to “beat the clock” by expediting excavation and foundation work, or attempted to undermine the hard work of the community in effecting a rezoning are irrelevant and may not be considered by the Board given the statutory framework of ZR § 11-331 and that where Opposition Counsel has failed, as they have here, to provide any convincing evidence that refutes the applicant’s submissions regarding the lawful progress made on the foundations up to the Effective Date or raise questions about the credibility of their representations to this Board, as the opposition did in BSA Cal. No. 354-05-BZY, the suggestion that the applicant “raced” to make substantial progress on the Proposed Development’s foundation is irrelevant to the subject inquiry; and

WHEREAS, Opposition Counsel additionally asserted that subsequent to the November Stop Work Order, DOB allowed foundation work to continue at the Development Site for an additional seven weeks, thereby allowing the applicant to “destroy the evidence with respect to the progress of the work prior to the Effective Date”; and

WHEREAS, the applicant adamantly denies this claim, asserting that there is substantial evidence in the record regarding the precise progress of construction at the Development Site as of the Effective Date, that they have never included any of the site-safety work completed after November 30, 2017,⁶ in their estimates of progress made on the Proposed Development’s foundation for purposes of statutory vesting and that Opposition Counsel’s credibility has been significantly and irreparably compromised “in light of the Opposition’s numerous intentional misrepresentations to the Board”; and

WHEREAS, the Board finds that the applicant has submitted substantial evidence regarding the conditions of the site as of the Effective Date—including multiple sets of observation reports, invoices, payment requisition slips and daily photographs of the Development Site—and that the applicant has appropriately omitted the additional site-safety work performed at the Development Site after November 30, 2017; and

WHEREAS, by e-mail dated April 23, 2018, as well as in oral testimony before the Board, Opposition Counsel expressed an intent to challenge the validity of the After Hour Permits issued by DOB on the basis that they were erroneously issued on the basis of public safety; and

6 The applicant submits that this work commenced on December 20, 2017, and was completed on January 31, 2018, a period of six (6) weeks.

MINUTES

WHEREAS, in response, the applicant states that the After Hour Permits were issued for legitimate public safety reasons and that no violations were issued to the Development Site, at any point during construction, for illegal after-hours work; and

WHEREAS, the Board notes that, pursuant to Section 666(6) of the New York City Charter, the Board is empowered to hear and decide appeals of “any order, requirement, decision or determination of the commissioner of buildings,” including, but not limited to, the issuance of After Hours Variance Permits, and that such applications must be filed at the Board within thirty (30) days of the date of the determination—in this case, the dates on which the After Hours Variance Permit were issued—pursuant to § 1-06.3(a) of the Board’s Rules of Practice and Procedure (2 R.C.N.Y. § 1-06.3(a)); and

WHEREAS, the proscribed period in which Opposition Counsel may have appealed the issuance of the After Hours Permits to the Board having lapsed, the Board declines to consider Opposition Counsel’s desire to now challenge the validity of the After Hours Permits through this application for statutory vesting; and

WHEREAS, by letter dated May 9, 2018, Opposition argued, for the first time, that ZR § 11-331 is not applicable at the subject site and the applicant may not seek relief pursuant to that Section because the Proposed Development’s foundation is already complete as a result of DOB’s permission to continue site safety related work for several weeks after the Effective Date and raised questions as to whether the applicant complied in all respects with preconditions of the DOT Permits; and

WHEREAS, the Board finds that the DOB Permits lapsed as a matter of law on November 30, 2017, under ZR § 11-331, thereafter prohibited the applicant from proceeding with construction under the DOB Permits absent a Board grant of the subject relief and, per the language of ZR § 11-331, a developer may request an extension of time so long as work on the foundation has been commenced but not completed *before* the effective date, therefore, the applicant appropriately seeks the subject relief; and

WHEREAS, the Board finds that it is immaterial that DOB permitted work to continue at the site in the interest of safely securing the work in place because none of that work was submitted by the applicant in satisfaction of ZR § 11-331 or considered by the Board in rendering its decision in this case; and

WHEREAS, with regards to the DOT Permits, the Board notes the absence of sufficient evidence to support Opposition Counsel’s claim that construction at the Development Site failed to comply with the conditions of the DOT Permits; and

WHEREAS, the Board has considered all of the remaining arguments of parties in opposition to this application and finds them to be without merit; and

WHEREAS, in light of the foregoing, the Board finds that the substantial amount of evidence in the record supports the facts that, on the Effective Date, excavation at

the Development Site had been completed and substantial progress—not including any construction completed absent valid permits—made on the Proposed Development’s foundation; and

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby *renew* New Building Permit No. 121191423-01-NB, as well as all related permits for various work types, either already issued or necessary to complete construction, and *grants* an extension of time to permit the completion of the required foundation for one term of six (6) months from the date of this decision, less the six (6) weeks during which work continued with DOB’s consent to complete site safety measures.

Adopted by the Board of Standards and Appeals, June 26, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated February 4, 2014, acting on Alteration Application No. 320589993, reads in pertinent part:

“Proposed change of use to school Use Group 3 in M1-2 zoning district, is contrary to section ZR 42-10”; and

WHEREAS, this is an application under ZR §§ 73-19 and 73-03 to permit, in an M1-2 zoning district, the operation of a school, contrary to ZR § 42-10; and

WHEREAS, this application has been brought on behalf of Bnos Square of Williamsburg (the “School”); and

WHEREAS, a public hearing was held on this application on October 28, 2014, after due notice by publication in *The City Record*, with continued hearings on January 6, 2015, April 14, 2015, and then closed on July 28, 2015. On December 6, 2016 the case was taken off-calendar. On September 19, 2017 the case was re-opened

and closed, and then to decision on June 26, 2018; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown, former Vice-Chair Hinkson and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 3, Brooklyn, recommends disapproval of this application, stating that the subject site is located in an M1-2 zoning district, that Home Depot is across the street, that a sanitation garage will be up the block and that financing for the subject building was for a house of worship; and

WHEREAS, the subject site is located on the east side of Spencer Street, between Myrtle Avenue and Willoughby Avenue, in an M1-2 zoning district, in Brooklyn; and

WHEREAS, the subject site has approximately 84 feet of frontage along Spencer Street, 100 feet of depth, 8,420 square feet of lot area and is occupied by a four-story, with cellar, community-facility building; and

WHEREAS, ZR 73-19 provides:

In C8 or M1 Districts, the Board of Standards and Appeals may permit *schools* which have no *residential* accommodations except *accessory* accommodations for a caretaker, provided that the following findings are made:

- (a) that within the neighborhood to be served by the proposed *school* there is no practical possibility of obtaining a site of adequate size located in a district wherein it is permitted as of right, because appropriate sites in such districts are occupied by substantial improvements;
- (b) that such *school* is located not more than 400 feet from the boundary of a district wherein such *school* is permitted as-of-right;
- (c) that an adequate separation from noise, traffic and other adverse effects of the surrounding *non-Residential Districts* is achieved through the use of sound-attenuating exterior wall and window construction or by the provision of adequate open areas along *lot lines* of the *zoning lot*; and
- (d) that the movement of traffic through the *street* on which the *school* is located can be controlled so as to protect children going to and from the *school*. The Board shall refer the application to the Department of Traffic for its report with respect to vehicular hazards to the safety of children within the block and in the immediate vicinity of the proposed site.

The Board may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by

MINUTES

ZR § 73-03; and

WHEREAS, the Board notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, as to the threshold issue of whether the School qualifies as a school for purposes of ZR § 73-19, the applicant represents that the School meets the ZR § 12-10 "school" definition because it provides full-time day instruction and a course of study that meets the requirements of Sections 3204, 3205 and 3210 of the New York State Education Law, a kindergarten and a child care service operating under a permit issued pursuant to the New York City Health Code; and

WHEREAS, further, the applicant submitted a copy of the School's Certificate of Filing for Article 43 School-Based Pre-School Instructional Program and accompanying letter from the New York City Department of Health ("DOH") as well as the School's Basic Educational Data System Code number; and

WHEREAS, with respect to ZR § 73-19(a), an applicant must demonstrate its inability to obtain a site for the development of a school within the neighborhood to be served, and with a size sufficient to meet the programmatic needs of the proposed school, within a district where the proposed school is permitted as-of-right; and

WHEREAS, the applicant submitted a detailed study of the School's programmatic needs, indicating that the School's preschool, elementary-school and middle-school divisions will relocate from the School's existing facility at 382 Willoughby Avenue, where the high-school division will remain, and that the subject building is necessary to accommodate approximately 500 students, consisting of two classes per grade for preschool through eighth grade; and

WHEREAS, the study further demonstrates that, in order to meet the School's educational program, the School requires a minimum of 25,000 square feet of floor area to allow for 21 classrooms, a computer room, library, gymnasium and lunch room; and

WHEREAS, thus, the applicant has demonstrated that its stated requirements related to size and configuration are justified by its programmatic needs; and

WHEREAS, the applicant represents that the School has conducted an exhaustive search for potential expansion sites but that there were no appropriate sites within a district where the School would be permitted as of right, including

nearby R6 and R7 zoning districts; and

WHEREAS, more specifically, the applicant states that 265 South 2nd Street was not financially feasible and was not in the subject neighborhood, that 139 Emerson Place was not financially feasible, that 45 Kosciuszko Street was not financially feasible, that 566 Dekalb Avenue was not financially feasible and that 276 Nostrand Avenue was limited in size and would require extensive construction to develop; and

WHEREAS, thus, the applicant maintains that the site search establishes that there is no practical possibility of obtaining a site of adequate size in a nearby zoning district where a school would be permitted as of right; and

WHEREAS, therefore, the Board finds that the requirements of ZR § 73-19(a) are met; and

WHEREAS, ZR § 73-19(b) requires an applicant to demonstrate that the proposed school is located no more than 400 feet from the boundary of a district in which such a school is permitted as of right; and

WHEREAS, the Applicant states that the subject building is located within 400 feet of the boundary of an R6B zoning district; and

WHEREAS, the Applicant submitted a radius diagram which reflects that the subject site is adjacent to an R6B zoning district; and

WHEREAS, therefore, the Board finds that the requirements of ZR § 73-19(b) are met; and

WHEREAS, ZR § 73-19(c) requires an applicant to demonstrate how it will achieve adequate separation from noise, traffic and other adverse effects of the surrounding non-residential district; and

WHEREAS, the applicant states that, with respect to noise, monitoring has been conducted at the subject site, that the results of the noise analysis met applicable noise-exposure guidelines, that no window-wall noise attenuation is required and that there would be no adverse impacts related to noise; and

WHEREAS, the applicant states that an industrial source screening analysis has been completed, that this emissions and dispersion analysis determined that surrounding emission sources do not have the potential for adverse impacts; and

WHEREAS, the applicant states that a central HVAC system will serve the subject building to ensure that a closed-window condition can be maintained during all periods of school operation; and

WHEREAS, the Board finds that the conditions surrounding the site and the proposed building's use will adequately separate the proposed school use from noise, traffic and other adverse effects of any of the uses within the surrounding M1-2 zoning district; thus, the Board finds that the requirements of ZR § 73-19(c) are met; and

WHEREAS, ZR § 73-19(d) requires an applicant to demonstrate how the movement of traffic through the street on which the proposed school will be located can be controlled so as to protect children traveling to and from the proposed school; and

MINUTES

WHEREAS, the applicant states that the Spencer Street is a one-way southbound street with a single moving lane and curbside loading and parking with two commercial warehouses located in close proximity to the subject site that generate truck traffic and loading activity using forklifts and “U boat” carts; and

WHEREAS, the applicant states that, in order to ensure the protection of children traveling to and from the School, all children should arrive and depart by school bus; and

WHEREAS, the applicant states that children will not be allowed to travel to or from the School unattended and will be escorted to and from school buses or accompanied by a parent or guardian; and

WHEREAS, the applicant states that children will travel to the School by private school buses, that a bus loading area will be provided in front of the subject building on Spencer Street in order to provide a safe and appropriate area for picking up and dropping off passengers without impeding the flow of traffic, that a school zone designations will be obtained from the New York City Department of Transportation (“DOT”) and added to the 84-foot frontage along Spencer Street to ensure that the curbside in front of the School will be available for school buses to drop off and pick up students during school hours; and

WHEREAS, the applicant states that school buses will be parked at a private parking lot located at 72 Nostrand Avenue, when not in use, for daytime and overnight parking; and

WHEREAS, the applicant states there will be staff monitors assigned to each bus and at the entrance to the School, that there will be a two-way radio system installed in the buses and the office to communicate with the designated dispatcher and transportation manager, that seven school buses will be used for transportation services with five in service at any time, that each bus route will be named by color in order to make the dismissal of students from the School more efficient with students assigned a different color based on the area in which they live; and

WHEREAS, the applicant states that the bus schedule for the School includes two morning arrival periods and three afternoon departure periods, that the first morning arrival period would begin at 8:15 a.m. with three 15-minute shifts at 8:15 a.m., 8:30 a.m. and 8:45 a.m., that the second morning arrival period would begin at 9:30 a.m. with three 15-minute shifts, that the first departure period would begin at 2:20 p.m. with three 15-minute shifts, that the second departure period would begin at 4:00 p.m. with two 15-minute shifts and that the third departure period would be at 5:00 p.m.;

WHEREAS, the Board finds that the above mentioned measures will control traffic so as to protect children going to and from the proposed school; and

WHEREAS, therefore, the Board finds that the requirements of ZR § 73-19(d) are met; and

WHEREAS, in response to the Board’s comments at hearing, the applicant clarified the School’s programmatic

needs with respect to occupancy of the lunch room, the proposed number of students and faculty and the number of offices; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 14BSA117K, dated June 22, 2018; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, by correspondence dated November 6, 2013, the New York City Landmarks Preservation Commission represents that no significant adverse impacts to architectural or archaeological resources would result from the proposed project; and

WHEREAS, by letter dated August 12, 2015, the New York City Department of Environmental Protection (“DEP”) states that the June 2015 Remedial Action Plan (“RAP”) and Construction Health and Safety Plan (“CHASP”) submitted by the Applicant’s consultant are acceptable on condition that the RAP and CHASP be revised to incorporate all DEP recommendations as listed in the letter; and

WHEREAS, DEP further stated that, at the completion of the project, a professional engineer-certified Remedial Closure Report shall be submitted to DEP for review and approval; and

WHEREAS, by letter dated December 30, 2015, the New York City Department of Environmental Protection (“DEP”) states that, based on the results of the revised Rooftop Play Area Noise analysis dated December 7, 2015, which include the potential impact of the playground on the nearest noise sensitive receptor, it was determined that the proposed project would not result in potential significant adverse noise impacts; and

WHEREAS, by letter dated June 21, 2018, DEP states that the proposed project would not result in any significant adverse air quality impact, that the air quality assessment included the analysis of potential air quality impacts from the proposed project on its surrounding area and potential

MINUTES

effects from nearby industrial sources on the proposed project; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-19 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR §§ 73-19 and 73-03 to *permit*, in an M1-2 zoning district, the operation of a school, contrary to ZR § 42-10; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked “Received August 14, 2015”-Eleven (11) sheets; and *on further condition*:

THAT a certificate of occupancy shall be obtained within four (4) years, by June 26, 2022;

THAT at the completion of the project, a professional engineer-certified Remedial Closure Report shall be submitted to the New York City Department of Environmental Protection for review and approval for the proposed project, which report shall indicate that all remedial requirements have been properly implemented, including installation of a vapor barrier and sub-slab depressurization system and transportation and disposal manifests for removal and disposal of soil in accordance with New York State Department of Environmental Conservation regulations;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 26, 2018.

CEQR #15-BSA-067Q

APPLICANT – Gerald J. Caliendo, RA, AIA, for Sharey Tefilah, owner.

SUBJECT – Application September 18, 2014 – Variance (§72-21 to permit the proposed three (3) story use group 4 Synagogue, school and Rabbi's office. R4 zoning district. PREMISES AFFECTED – 147-02 76th Road, Block 6686, Lot 1, Borough of Queens.

COMMUNITY BOARD #8Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision on behalf of the Queens Borough Commissioner, dated August 18, 2014, acting on Department of Buildings (“DOB”) Application No. 420161577 reads in pertinent part:

1. Proposed floor area exceeds maximum allowable contrary to ZR 24-11;
2. Proposed lot coverage is contrary to ZR 24-11;
3. Proposed front yard is contrary to ZR 24-34;
4. Proposed side yards are contrary to ZR 24-35; and

WHEREAS, this is an application under ZR § 72-21 to permit, on a site located in an R4 zoning district, the construction of a two-story plus cellar and basement Use Group 4 house of worship contrary to applicable bulk regulations pertaining to maximum floor area ratio, lot coverage, front yards and side yards set forth in ZR §§ 24-11, 24-34 and 24-35; and

WHEREAS, this application is filed on behalf of Shary Tefilah, a non-profit religious corporation, to facilitate the construction of a synagogue (the “Applicant”); and

WHEREAS, a public hearing was held on this application on February 28, 2017, after due notice by publication in *The City Record*, with continued hearings on August 15, 2017, and November 14, 2017, and then to decision on June 26, 2018; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 8, Queens, recommends approval of this application; and

WHEREAS, the subject site is located on the southeastern corner of 76th Road and 147th Street, in an R4 zoning district, in Queens; and

WHEREAS, the site has approximately 32 feet of frontage along 76th Street, 100 feet of frontage along 147th Street, 3,167 square feet of lot area and is occupied by a two story building having 1,237 square feet of floor area; and

MINUTES

WHEREAS, the Applicant proposes to demolish the existing building and construct a two-story plus cellar and basement community facility containing 6,928 square feet of floor area, a floor area ratio ("FAR") of 2.2, 76 percent lot coverage, a 12'-6" front yard along 76th Road, no front yard along 147th Street, a 10'-11" side yard parallel to 76th Road and no side yard along the lot line parallel to 147th Street; and

WHEREAS, at the subject site, a maximum of 6,334 square feet of floor area (2.0 FAR) and 60 percent lot coverage are permitted pursuant to ZR § 24-11, two front yards with a depth of at least 15 feet are required pursuant to ZR § 24-34 and two side yards of at least 10.81 feet are required pursuant to ZR § 24-35; and

WHEREAS, accordingly, the Applicant seeks the subject relief; and

WHEREAS, the Applicant submits that the proposed enlarged building is required to meet the needs of the burgeoning congregation, which, at 105 families, has already outgrown the existing space, and, accordingly, proposes a main sanctuary at the first floor with seating sufficient for 142 male and female congregants on the Sabbath and Jewish holidays, the days on which the building will reach maximum capacity; and

WHEREAS, the Applicant further submits that the subject proposal will provide sufficient space to fulfill the congregation's other needs, currently met through the rental of off-site facilities, which include spaces for prayer services, lectures, youth programming, Sunday and summer school education, a day care center and an office for the rabbi; and

WHEREAS, specifically, the Applicant additionally proposes a two classrooms, mechanical equipment and a refrigerated trash room in the cellar, a multi-purpose area with movable partitions and kitchen in the basement, and two classrooms and office space for the rabbi and his staff on the second floor; and

WHEREAS, the Applicant represents that prayer services are offered at the premises three times a day and lectures to groups of various sizes and ages; in particular, on the Sabbath and Jewish holidays, the multi-purpose room in the basement and the second floor classrooms will be utilized for youth programming, religious services and lectures; on Sundays, the cellar and basement classroom and multi-purpose areas will be used for Sunday schools for youth while the sanctuary on the first floor will be used, starting at 6:45 a.m., for prayer services and lectures and the second floor office spaces will be used by congregants conferring with the rabbi; on weekdays, the cellar and basement will be utilized by a daycare program for children of the congregation ages 2 to 5 while the first floor will host lectures and prayer services and the second floor will be used by the Rabbinical Court for meetings between the Rabbi and congregants; and during the summer months, the premises will be occupied by a summer study program for teen members of the congregation; and

WHEREAS, the Board acknowledges that the

Applicant, as a religious institution, is entitled to deference under the law of the State of New York as to zoning and its ability to rely upon programmatic needs to support the subject variance application; and

WHEREAS, specifically, as held in *Cornell University v. Bagnardi*, 68 NY2d 583 (1986), zoning boards must grant an educational or religious institution's application unless it can be shown to have an adverse effect on the health, safety or welfare of the community and general concerns about traffic and disruption are insufficient grounds for the denial of such applications; and

WHEREAS, based on the above, the Board finds that the Applicant's programmatic needs create unnecessary hardship and practical difficulty in developing the premises in compliance with the applicable zoning regulations; and

WHEREAS, the Applicant is a not-for-profit religious organization, the variance is needed to further its not-for-profit mission and, thus, the finding set forth in ZR § 72-21(b) need not be made in order to grant the variance requested in this application; and

WHEREAS, the Applicant submits that, pursuant to ZR § 72-21(c), the subject variance, if granted, will not substantially impair the appropriate use or development of adjacent properties and will not be detrimental to the public welfare; specifically, that the proposed community facility use is permitted as-of-right at the subject premises; that the building's location on the corner helps to mitigate the fact that it is slightly larger than surrounding buildings; that the absence of a side yard along the shared lot line with the adjacent property is consistent with the surrounding area, where the majority of building are either semi-detached or attached; and

WHEREAS, with regards to traffic, the Applicant submits that the proposal will have no impact on traffic in the neighborhood because the building will be at full capacity on the Sabbath and Jewish holidays, days on which the orthodox congregation will not drive and, thus, will not utilize on-street parking spaces; additionally, the Applicant provided a report demonstrating that all of the congregants live within one-quarter mile, an approximately 8 minute walk, of the premises and a survey concluding that almost all of the congregants arrive to the subject site by foot; and

WHEREAS, with regards to materials, the Applicant states that the exterior of all sides of the proposed building will be faced with 4-inch brick veneer, as shown on the Board-approved plans; and

WHEREAS, in light of the foregoing, the Board finds that the subject proposal will not alter the essential character of the neighborhood, nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Applicant represents and the Board finds that the hardship claimed as the grounds for his variance was not created by the owner or a predecessor in title in accordance with ZR § 72-21(d); and

WHEREAS, the Applicant submits that the subject proposal is the minimum variance necessary to afford relief

MINUTES

and, in support of that assertion, submitted plans showing (1) an as-of-right community facility at the premises that would be less than 9 feet wide and, thus, unable to accommodate the congregation's needs and (2) a lesser variance scenario in which the proposed building complies with underlying floor area and floor area ratio regulations, but reduces the occupancy of the multi-purpose room in the basement and the main sanctuary at the first floor; and

WHEREAS, the Board finds that the subject proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement ("EAS") CEQR No. 15-BSA-067Q, dated January 15, 2016; and

WHEREAS, the EAS documents that the project, as proposed, would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design; Natural Resources; Hazardous Materials; Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise, Public Health, Neighborhood Character; or Construction; and

WHEREAS, the New York City Landmark Preservations Commissioner ("LPC") conducted an environmental review of the site and reports that it has neither architectural nor archaeological significance; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 to permit, on a site located in an R4 zoning district, the construction of a two-story plus cellar and basement Use Group 4 house of worship contrary to applicable bulk regulations pertaining to maximum floor area ratio, lot coverage, front yards and side yards set forth in ZR §§ 24-11, 24-34 and 24-35, *on condition* that all work shall substantially conform to drawings filed with this application marked "Received June 7, 2018"-Eleven (11) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum of 6,928 square feet of floor area (2.2 FAR), maximum lot coverage of 76 percent, a front yard fronting 76th Road with a minimum depth of 12'-6", a front yard fronting 147th Street with a minimum depth of 0

feet, a side yard along the lot line parallel to 76th Road with a minimum width of 10'-11" and a side yard along the lot line parallel to 147th Street with a minimum width of 0 feet, as illustrated on the Board-approved plans;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a certificate of occupancy shall be obtained within four (4) years;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 26, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated October 13, 2016, acting on Alteration Application No. 321195121, reads in pertinent part:

1. ZR 23-142 The proposed lot coverage . . . is more than . . . permitted
2. ZR 23-142 The proposed open space . . . is less than . . . required
3. ZR 23-142(a) The proposed F.A.R. is in excess of . . . permitted
4. ZR 23-32 ZR 23-48 ZR 23-47 The proposed side yard #1 is less than . . . required The proposed side yard #2 is less than . . .

MINUTES

required The total side yards are less than . . . required The rear yard is less than . . . required; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03 to permit, in an R3-1 zoning district, the enlargement of an existing single-family detached residence that does not comply with zoning regulations for lot coverage, open space, floor area ratio, side yards and rear yards, contrary to ZR §§ 23-142, 23-32, 23-48 and 23-47; and

WHEREAS, a public hearing was held on this application on June 20, 2017, after due notice by publication in *The City Record*, with continued hearings on September 12, 2017, November 21, 2017, January 30, 2018, April 17, 2018, and June 19, 2018, and then to decision on June 26, 2018; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of Oxford Street, between Shore Boulevard and Oriental Boulevard, in an R3-1 zoning district, in a flood zone, in Brooklyn; and

WHEREAS, the subject site has approximately 25 feet of frontage along Oxford Street, 100 feet of depth, 2,500 square feet of lot area and is occupied by an existing single-family detached residence; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 5, 1985, when, under BSA Calendar Number 707-84-BZ, the Board granted a variance to permit a one-story vertical enlargement to a single-family residence that increases the degree of non-compliance with side yards, provides less than the required open space, creates a non-complying accessory parking space within the required front yard and with a balcony that encroaches into the rear yard and open space on condition that smoke detectors be installed on all levels and that said condition appear on the certificate of occupancy; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single- or two-family detached* or *semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be

granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached* or *semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins. Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, inter alia, ZR §§ 73-01 through 73-04; and

MINUTES

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge an existing detached single-family residence, as contemplated in ZR § 73-622; and

WHEREAS, the applicant proposes to enlarge the existing residence from lot coverage of 41 percent to 45 percent, open space from 59 percent to 55 percent, 1,465 square feet of floor area (0.58 FAR) to 2,635 square feet (1.05 FAR), side yards from depths of 5" to 3'-4" and 2'-9" to 2'-9" and a rear yard with a depth of 39'4" to 20'-8" at the first floor and 24'-8" at the second floor; and

WHEREAS, the applicant states that, at the subject site, lot coverage may not exceed 35 percent under ZR § 23-142, open space must be at least 35 percent under ZR § 23-142, floor area ratio may not exceed 0.60 under ZR § 23-142, side yards must have minimum widths of 5 feet and rear yards must have a minimum depth of 30 feet under ZR § 23-47; and

WHEREAS, the applicant represents that the proposed building as enlarged is consistent with the built character of the neighborhood; and

WHEREAS, in support of this contention, the applicant surveyed single- and two-family residences in the surrounding area, finding that there are 28 with lot coverage of 46 percent or greater, that there are 24 with 1.10 FAR or greater, that there are 21 residences on the subject block with rear yards shallower than 20 feet and that every residence on the subject block has at least one side yard with a width of less than 5 feet; and

WHEREAS, the applicant also submitted a photographic streetscape montage, a contextual streetscape illustration, aerial photographs and a photographic neighborhood study demonstrating that the proposed building will fit in with the built conditions of the surrounding area; and

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, the Board finds that the proposed building as enlarged will not alter the essential character of the neighborhood or district in which the subject building is located, nor impair the future use or development of the surrounding area; and

WHEREAS, in response to questions from the Board about the effect of the enlarged building on residences nearby, the applicant revised the building design to incorporate a setback at the second floor, increasing the rear yard depth to 24'8", and adding dormers at the attic level to improve the exterior aesthetics of the attic by lowering the ridge height and reducing the boiler room while increasing the attic's interior utility; and

WHEREAS, the applicant also clarifies that, had a special permit under ZR § 73-622 been available in 1985, only accessory parking would have been beyond the scope of ZR § 73-622 and that parking is not proposed to be located within the front yard; and

WHEREAS, the applicant submits that the subject site is located within a flood zone; and

WHEREAS, by Construction Code Determination dated May 22, 2018, DOB states that the request to determine that the proposed alteration complies with the applicable requirements of Appendix G of the 2014 New York City Building Code is approved on condition that the enclosed space below the Design Flood Elevation be useable solely for parking of vehicles, building access and storage and that wet-flood proofing in accordance with ASCE 24 be provided for each enclosed space below the DFE; and

WHEREAS, by Zoning Resolution Determination dated June 15, 2018, DOB states that the request to determine that the proposed alteration complies with the applicable requirements of Chapter 4 of Article VI of the Zoning Resolution is approved on condition that a certified survey be provided in order to verify the average curb level calculation under ZR § 64-334 and that, as the lowest occupiable floor is over 9 feet above curb level, two visual mitigation elements be provided in accordance with ZR § 64-61; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of bulk regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17-BSA-040K, dated November 9, 2016; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-622 and 73-03 to *permit*, in an R3-1 zoning district, the enlargement of an existing single-family detached residence that does not comply with zoning regulations for lot coverage, open space, floor area ratio, side yards and rear yards, contrary to ZR §§ 23-142, 23-32, 23-48 and 23-47; *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received June 26, 2018"-Seventeen (17) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: lot coverage shall not exceed 45 percent, open space shall be at least 55 percent, floor area shall not exceed 2,635 square feet (1.05 FAR), side yards shall have

MINUTES

minimum depths of 3'-4" and 2'-9" and the rear yard shall have minimum depths of 20'-8" at the first floor and 24'-8" at the second floor, as illustrated on the Board-approved plans;

THAT removal of existing joists or perimeter walls in excess of that shown on the Board-approved plans shall void the special permit;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by June 26, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 26, 2018.

302-14-BZ

APPLICANT – Rothkrug Rothkrug & Spector LLP, for Stanfordville, LLC, owner.

SUBJECT – Application November 10, 2014 – Special Permit (§73-125) to allow proposed ambulatory diagnostic or treatment health care facility in excess of 1500 sq. ft. in a two-story mixed use building. R3X zoning district.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated March 23, 2018, acting on Alteration Application No. 321191161, reads in pertinent part:

“As per 42-10 use (Physical Culture Establishment) is not permitted”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, in an M1-2/R6B zoning district and the Special Mixed Use District (MX-8), the legalization of a physical culture establishment on a portion of the first floor of the subject building, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on June 26, 2018, after due notice by publication in *The City Record*, and then to decision on June 26, 2018; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 1, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the north side of North 3rd Street, between Bedford Avenue and Driggs Avenue, in an M1-2/R6B zoning district and the Special Mixed Use District (MX-8), in Brooklyn; and

WHEREAS, the subject site has approximately 250 feet of frontage along North 3rd Street, 162 feet of frontage along Bedford Avenue, 150 feet of frontage along North 4th Street, 53,500 square feet of lot area and is occupied by a four-story residential building on Lot 5, a two-story commercial building on Lot 90 and a two-story, with mezzanine and penthouse, mixed-use commercial and residential building on Lot 9, in which the PCE is located on a portion of the first floor; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and

MINUTES

all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and

- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE occupies 3,405 square feet of floor space on a portion of the first floor, used for reception, retail, an office, restrooms, a cycling studio, lockers and shower rooms; and

WHEREAS, the PCE has been in operation as Flywheel since April 2017, with the following hours of operation: 6:00 a.m. to 9:00 p.m., daily; and

WHEREAS, the applicant represents that the PCE use is consistent with the vibrant mixed-use area in which it is located, that the PCE use is fully contained within the envelope of an existing building and that the subject site has pedestrian access to rapid transit facilities within the vicinity; and

WHEREAS, in addition, the applicant submits that sound attenuation measures—including partitions at the cycling studio isolated with two layers of 5/8” sheetrock in studio and two layers outside studio with glue and 4” sound-attenuated batt insulated, 4” isolated mat subfloor with neoprene isolators, fiberglass batting and perimeter isolation boards at all edges and penetrations at the studio ceiling and partitions sealed with mineral fiber insulation and caulked—have been provided within the space so as to not disturb other tenants in the building; and

WHEREAS, the Board finds that the PCE use is so located as not to impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE provides one group exercise rooms, used for instructional spinning classes; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant submitted evidence that the PCE is fully sprinklered and that an approved fire alarm—including area smoke detectors, manual pull stations at each required exist, local audible and visual alarms and connection to an FDNY-approved central station—has been installed in the entire PCE space; and

WHEREAS, by letter dated June 21, 2018, the Fire Department represents that it has no objection to this application; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18-BSA-091K, dated January 30, 2018; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-36 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated without a special permit.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 *to permit*, in an M1-2/R6B zoning district and the Special Mixed Use District (MX-8), the legalization of a physical culture establishment on a portion of the first floor of the subject building, contrary to ZR § 42-10; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked “Received March 27, 2018”-Three (3) sheets and “January 30, 2018”-Three (3) sheets; and *on further condition*:

THAT this grant shall be limited to a term of ten (10) years, expiring April 1, 2027;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum 3’-0” wide exit pathways shall be

MINUTES

maintained leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be maintained in the entire PCE space and the PCE shall remain fully sprinklered, as indicated on the Board-approved plans;

THAT sound attenuation shall be maintained in the PCE, as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by June 26, 2028;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 26, 2018.

2018-28-BZ

CEQR #18-BSA-102Q

APPLICANT – Rothkrug Rothkrug & Spector LLP, for 130-20 Farmers LLC, owner; Blink Farmers Boulevard, Inc. lessee.

SUBJECT – Application February 21, 2018 - Special Permit (§73-36) to permit the operation of a physical cultural establishment (*Blink Fitness*) to operate within a new commercial building to occupy a portion of the first floor and the entire second floor contrary to ZR §32-10. C2-3/R5D zoning district.

PREMISES AFFECTED – 130-20 Farmers Boulevard, Block 12542, Lot 3, Borough of Queens.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5
Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated February 5, 2018, acting on New

Building Application No. 421517264, reads in pertinent part:

“Proposed Physical Culture Establishment . . . is contrary to section 32-10 ZR”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, on a site partially in an R5D (C2-3) zoning district and partially in an R3X zoning district, the operation of a physical culture establishment on a portion of a first floor and second floor of a three-story, with cellar, commercial building under construction, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on June 26, 2018, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Community Board 12, Queens, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of Farmers Boulevard, between 130th Road, Merrick Boulevard and 131st Avenue, partially in an R5D (C2-3) zoning district and partially in an R3X zoning district in Queens; and

WHEREAS, the subject site has approximately 200 feet of frontage along Farmers Boulevard, 124 feet of frontage along 130th Road, 36 feet of frontage along Merrick Boulevard, 67 feet of frontage along 131st Avenue, 27,730 square feet of lot area and is vacant; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional

MINUTES

findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE will occupy 14,913 square feet of floor space as follows: 716 square feet of floor area on the first floor, used for accessible entry, and 14,197 square feet of floor area on the second floor, including a cardiovascular-fitness, stretching and weight-training areas, locker rooms, an office and a break room; and

WHEREAS, the PCE will operate as Blink Fitness, with the following hours of operation: Monday to Saturday, 5:30 a.m. to 11:00 p.m., and Sunday, 7:00 a.m. to 9:00 p.m.; and

WHEREAS, the applicant represents that the PCE use is consistent with the vibrant commercial area in which it is located, that the PCE use will be fully contained within the envelope of a new commercial development and that there are comparable commercial uses, including automobile

service stations, a car wash, restaurants, pharmacies and retail uses, within the vicinity; and

WHEREAS, in addition, the applicant submits that sound attenuation measures, including rubber flooring in activity areas and demising walls with batt insulation, will be provided within the space so as to ensure that the sound levels in other portions of the building will not exceed a maximum level of 45 dBA; and

WHEREAS, the Board finds that the PCE use is so located as not to impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE will provide facilities for classes, instruction and programs for physical improvement, body building, weight reduction and aerobics; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE will be fully sprinklered and that an approved fire alarm—including area smoke detectors, manual pull stations at each required exist, local audible and visual alarms and connection to an FDNY-approved central station—will be installed in the entire PCE space; and

WHEREAS, in response to the Board's comments at hearing, the applicant revised the drawings to reflect the zoning district boundary and that neither the PCE use nor accessory off-street parking is proposed to be located the portion of the subject site within an R3X zoning district; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18-BSA-102Q, dated February 22, 2018; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-36 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to *permit*,

MINUTES

on a site partially in an R5D (C2-3) zoning district and partially in an R3X zoning district, the operation of a physical culture establishment on a portion of a first floor and second floor of a three-story, with cellar, commercial building under construction, contrary to ZR § 32-10; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked "Received June 26, 2018"-Five (5) sheets; and *on further condition*:

THAT this grant shall be limited to a term of ten (10) years, expiring June 26, 2028;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum 3'-0" wide exit pathways shall be provided leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be installed in the entire PCE space and the PCE shall be fully sprinklered, as indicated on the Board-approved plans;

THAT sound attenuation shall be installed in the PCE, as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by June 26, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 26, 2018.

2017-131-BZ

APPLICANT – Sheldon Lobel, P.C., for Congregation Divrei Yoel, owner.

SUBJECT – Application April 18, 2018 – Variance (§72-21) to permit the construction of a mixed residential and community facility (*Congregation Divrei Yoel*) contrary to ZR §23-153 (Maximum Lot Coverage) and ZR §§24-36 & 23-47 (Required Rear Yards), and ZR 23-33(b) permitted obstructions in rear yard. R7A zoning district.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated February 28, 2017, acting on DOB Application No. 321184623 reads in pertinent part:

1. ZR 24-11: Proposed increase in floor area increases the degree of non-compliance;
2. ZR 23-662a: Proposed maximum base height of the street wall exceeds the maximum permitted;
3. ZR 23-662c: Proposed enlargement does not comply with the initial setback distance;
4. ZR 24-33: Proposed 2 story addition in the rear yard is not a permitted obstruction;
5. ZR 24-11: Proposed rear yard addition does not comply with lot coverage; and

WHEREAS, this is an application under ZR § 72-21 to permit, on a site partially located within an R6A zoning district and partially located within an R6B, the enlargement of a school that does not comply with the floor area, street wall base height, initial setback, rear yard and lot coverage regulations, contrary to ZR §§ 23-662, 24-11 and 24-33; and

WHEREAS, this application is filed on behalf of Mary McDowell Friends School (the “School”), a Quaker-affiliated school for students with learning disabilities; and

WHEREAS, the School has three campuses offering

instruction for students in kindergarten through 12th grade and a facility located at the subject site has accommodated kindergarten through 5th grade students since the late 1990s; and

WHEREAS, a public hearing was held on this application on July 11, 2017, after due notice by publication in *The City Record*, and then to decision on that date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the subject site and surrounding neighborhood; and

WHEREAS, Community Board 2, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the south side of Bergen Street, between Court Street and Smith Street, partially within an R6A zoning district and partially within an R6B zoning district, in Brooklyn; and

WHEREAS, the site has approximately 70 feet of frontage along Bergen Street, a depth of 100 feet, 7,000 square feet of lot area and is occupied by one three-story building with retail use on the ground floor and accessory school storage on the upper floors (18 Bergen Street) and one five-story building (20 Bergen Street) operated by the School; and

WHEREAS, the School proposes to demolish the existing three-story building at 18 Bergen Street, renovate and enlarge the existing 5-story building from 17,500 square feet of floor area to 25,959 square feet, a floor area ratio (“FAR”) of 3.71 and 83 percent lot coverage, including a one-story plus mezzanine 23 foot tall extension into the rear yard and an increase of the street wall base height from 60 feet to 62’-9” without a setback; and

WHEREAS, the applicant represents that demolition of the existing building at 18 Bergen Street is necessary because it is of frame construction, which poses structural challenges to its retention and renovation, and, further, its floors do not align with those in the existing school building located next door; demolition of the building also permits the proposed enlargement of the cellar space in the 20 Bergen Street building; and

WHEREAS, at the subject site, based on approximately 88.3 percent of the lot being located within an R6A zoning district and approximately 11.7 percent of the lot being located within an R6B zoning district, the maximum floor area permitted for a community facility is 20,160 square feet of floor area (2.88 FAR) pursuant to ZR § 24-11; the maximum base height permitted is 57’-8” pursuant to ZR § 23-622(a), after which a setback of at least 10 feet is required, pursuant to ZR 23-662(c); a maximum of 60 percent lot coverage is permitted pursuant to ZR § 24-11; and a portion of a building used for community facility uses in excess of one story and in any event 23 feet above curb level is prohibited as a permitted obstruction pursuant to ZR § 24-33; and

WHEREAS, because the proposed enlargement does not comply with the applicable bulk regulations in the subject zoning districts, the applicant seeks the requested

MINUTES

variance; and

WHEREAS, the School states that the waivers sought are necessary in order to meet its programmatic needs, specifically accommodating its current student body (129 students) and a modest increase estimated to be between 15 to 20 students in an adequate number of appropriately sized classrooms and breakout spaces critical for educating students with learning disabilities, an enlarged gymnasium, an enlarged lunchroom and an improved Quaker Meeting Room, which constitutes an essential part of the School's Quaker mission; and

WHEREAS, the School represents that the hallways of the building at 20 Bergen Street are currently utilized for instruction and that such locating is not conducive to distraction-free student instruction; that occupational therapy—a vital support service provided to students—is currently located in a cellar level space of a size inadequate to accommodate equipment that could be utilized to improve students' motor skills; that the existing classroom spaces for the School's STEAM (Science, Technology, Engineering, Art and Math) program are so undersized as to require classes to be split and taught in halves, leading to scheduling conflicts and inefficiencies; that the School's library, science and art classrooms are currently located in the basement without access to natural light and are too small to accommodate the storage of necessary related equipment, which are instead housed in mechanical closets and/or off-site locations; that the columns in the Meeting Room restrict view corridors and lead to distractions during Quaker Meetings, which are intended to be moments of silence, reflection and sharing; and that the undersized lunchroom prevents quality student interactions; and

WHEREAS, the School submits that the proposed enlargement will provide two additional classrooms; enlarge the lunch room from approximately 814 square feet of floor space to 1,325 square feet of floor space so as to accommodate a greater portion of the student body at one time; enlarge the existing undersized gymnasium from 511 square feet of floor space to 1,655 square feet of floor space to allow for sports instruction as well as room to seat the complete elementary school student body; provide an additional 307 square feet of floor space in the cellar for occupational therapy; provide 4 additional breakout spaces, containing approximately 922 square feet of floor area, adjacent to classrooms to allow for small group instruction; relocate the Meeting Room from a space interrupted by columns on the first floor of the existing school building to a column-less space in the proposed rear yard encroachment with a mezzanine; an enlarged library and computer lab; a new dedicated classroom for music instruction large enough for the storage of musical instruments and supplies; and additional administrative office space; and

WHEREAS, in response to Board questions regarding the proposed administrative space, a representative of the School testified at hearing that some administrators were relocated to another one of the School's campuses in order

to make room for additional classroom space at the subject site and that the additional administrative office space proposed herein is intended to allow those administrators to return to the subject site and for all of the school's administrative offices to again be located, more efficiently, at a single site; and

WHEREAS, in response to Board inquiry regarding the smaller size of the proposed Meeting Room as compared to the existing Meeting Room, the same School representative testified that while the proposed Meeting Room will not accommodate the entire student body, it is not the School's practice for the entire student body to utilize the Meeting Room at the same time and that the gym is, instead, utilized for school-wide general assemblies; and

WHEREAS, the Board acknowledges that the School, as an educational institution, is entitled to deference under the law of the State of New York as to zoning and its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, specifically, as held in *Cornell University v. Bagnardi*, 68 NY2d 583 (1986), an educational or religious institution's application is to be granted unless it can be shown to have an adverse effect on the health, safety or welfare of the community and general concerns about traffic and disruption of the residential character of the neighborhood are insufficient grounds for the denial of such application; and

WHEREAS, based on the above, the Board finds that the programmatic needs of the School create unnecessary hardship and practical difficulty in developing the premises in compliance with the applicable zoning regulations; and

WHEREAS, because the School is a not-for-profit organization and the variance is needed to further its not-for-profit mission, the finding set forth in ZR § 72-21(b) does not have to be made in order to grant the variance requested in this application; and

WHEREAS, the School represents that, pursuant to ZR § 72-21(c), the variance, if granted, will not alter the character of the neighborhood, impair the appropriate use or development of adjacent property, or be detrimental to the public welfare; and

WHEREAS, the applicant notes that Bergen Street has a mapped width of 75 feet and is, thus, a "wide street" as defined in ZR § 12-10; that a school use is permitted as-of-right in the subject zoning districts; that the surrounding neighborhood is characterized by buildings ranging from three-stories to five-stories with residential and ground floor retail uses; and that the proposed enlargement is consistent with the four- and five-story buildings on the subject block that have similar heights, including the existing School building at 20 Bergen; and

WHEREAS, the applicant also submitted a shadow study demonstrating that the proposed enlargement will have no or limited impact on the surrounding area; and

WHEREAS, with regards to traffic, the School submits

MINUTES

that 16-17 small buses transport students to and from the premises between 8 a.m. and 8:15 a.m. and 3 p.m. and 3:15 p.m., many of which have vacant seats and can, if necessary, accommodate the anticipated modest increase in student enrollment and, accordingly, the proposed enlargement will have no impact on traffic on Bergen Street; and

WHEREAS, the School represents that no food is prepared on-site, that students bring their own lunch and that food and waste refuse will be stored in the refrigerated perishable food trash storage space indicated on the proposed cellar floor plan before being placed at the curb prior to pick-up; and

WHEREAS, in light of the foregoing, the Board finds that the proposal will not alter the essential character of the surrounding neighborhood, nor impair the use or development of adjacent properties, and not be detrimental to the public welfare; and

WHEREAS, the School states that the practical difficulties herein complained of are inherent to its unique programming needs and were not caused by the owner of the site or a predecessor in title; and

WHEREAS, the Board finds that the hardship herein was not created by the School; and

WHEREAS, the School represents that, consistent with ZR § 72-21(e), the proposal represents the minimum variance needed to accommodate its programmatic needs; and

WHEREAS, the Board finds that this proposal is the minimum necessary to allow the School to fulfill its programmatic needs; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17-BSA-100K, dated March 2, 2017; and

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review, and makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit, on a site partially located within an R6A zoning district and partially located within an R6B, the enlargement of a school that does not comply with the floor area, street wall base height, initial setback, rear yard and lot coverage regulations, contrary to ZR §§ 23-662, 24-11 and 24-33; *on condition* that all work will substantially conform to drawings filed with this application marked "Received June 7, 2017"-Fifteen (15) sheets; and "Received July 12, 2017"- Three (3) sheets; for a total of Eighteen (18) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum of 25,959 square feet of floor area (3.71 FAR); a maximum of one-floor plus mezzanine

encroachment of the building in the rear rising to a maximum height of 23 feet; a maximum lot coverage of 83 percent; a maximum street wall base height of 62'-9" and no front setback, as indicated on the BSA-approved plans;

THAT the above conditions shall be listed on the Certificate of Occupancy;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a Certificate of Occupancy shall be obtained within four (4) years, by July 11, 2021;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portion related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 11, 2017.

***The resolution has been amended to correct the part which read:...** *square feet of floor area to 25,625 square feet, a floor area ratio ("FAR") of 3.66...* **now reads:...** *square feet of floor area to 25,959 square feet, a floor area ratio ("FAR") of 3.71....* **Corrected in Bulletin No. 27, Vol. 103, dated July 6, 2018.**

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure, an extension of term of a variance, previously granted by the Board, and an amendment to permit the enlargement of an existing gasoline service station (Use Group 16) and the conversion of the subject building to an accessory convenience store; and

WHEREAS, a public hearing was held on this application on March 27, 2018, after due notice by publication in *The City Record*, with a continued hearing on May 22, 2018, and then to decision on July 17, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 8, Queens, recommends approval of this application; and

WHEREAS, the subject site is located on the south side of Union Turnpike, between Grand Central Parkway and Main Street, in an R3-2 zoning district, in Queens; and

WHEREAS, the Board has exercised jurisdiction over the subject site since February 24, 1954, when, under the subject calendar number, the Board granted a variance to permit the erection and maintenance of a gasoline service station (lubritorium), auto wash (non-automatic), motor

vehicle repairs, storage and sale of accessories and office and to permit the parking of cars waiting to be serviced for a term of fifteen (15) years, expiring February 24, 1969, on condition that there be erected on all interior lot lines a brick masonry wall to a total height of not less than 5’-6”, properly coped and with no openings therein and except that such wall may be reduced to a height of 4’-0” within 10 feet of the Union Turnpike building line and that the balance of the subject site at the rear, not proposed to be included, remain unoccupied and be properly fenced and kept clean and neat with suitable landscaping; and

WHEREAS, on May 11, 1954, under the subject calendar number, the Board approved working plans as being in substantial accord with the requirements of its resolution on condition that the gasoline pumps be of a low approved type; and

WHEREAS, on May 7, 1957, under the subject calendar number, the Board amended the variance to allow that the number of gasoline storage tanks may be a total of 12 such approved tanks; and

WHEREAS, on February 18, 1969, under the subject calendar number, the Board granted an extension of term of ten (10) years, expiring February 24, 1979, on condition that the tall lighting mast on the easterly side of the subject site removed and that a new certificate of occupancy be obtained; and

WHEREAS, on May 7, 1974, under the subject calendar number, the Board amended the variance to allow minor modifications to the gasoline pumps; and

WHEREAS, on January 30, 1979, under the subject calendar number, the Board granted an extension of term of ten (10) years, expiring February 24, 1989, on condition that a new certificate of occupancy be obtained within one (1) year, by January 30, 1980; and

WHEREAS, on December 20, 1983, under the subject calendar number, the Board amended the variance to eliminate the uses of auto washing, lubrication, office, accessory sales and minor repairs with hand tools only, within the existing building, to add retail store (Use Group 6) with accessory parking and business signs and to change the front façade of the building on condition that the hours of operation for the retail store be restricted to 7:00 a.m. to 11:00 p.m., seven days per week, that all signs substantially comply with the C1 zoning district regulations, that all refuse be stored in containers within an enclosed area, that the subject site be swept daily and all litter and refuse be removed and that there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic; and

WHEREAS, on September 11, 1984, under the subject calendar number, the Board amended the variance to permit, in conjunction with a change to self-service pumps for the sale of gasoline in accordance with the condition of the resolution granted under BSA Calendar Number 489-84-A, the erection of a new 50’-0” x 50’-0” steel canopy, to add one additional gasoline pump island, to install new self-serve pumps and to change the office and sales area of the

MINUTES

accessory building to an attendant's office and office on condition that there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic; and

WHEREAS, on February 7, 1989, under the subject calendar number, the Board granted an extension of term of five (5) years, expiring February 24, 1994, and amended the variance to eliminate the three (3) approved repair bays and to install two (2) pits to provide a quick lube service, to enlarge the existing building so as to provide a waiting room for patrons, to change the interior layout of the accessory building and to eliminate a portion of the planting area along the easterly lot line on condition that the hours of operation be from 8:00 a.m. to 6:00 p.m., Monday through Saturday, and closed on Sunday, that there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic and that a new certificate of occupancy be obtained within one (1) year, by February 7, 1990; and

WHEREAS, on January 13, 1998, under the subject calendar number, the Board granted an extension of term of ten (10) years, expiring February 24, 2004, and amended the variance to indicate changes in the elevation of the front, east and west ends of the building on condition that there be no outdoor storage, that the landscaping be installed and maintained, that the buffer area be maintained free of debris, that the signs be limited to those shown on the Board-approved drawings, that the oil changing hours be limited to 8:00 a.m. to 6:00 p.m., Monday through Saturday, and closed Sunday, that the lighting be directed down and away from the residential properties, that the subject site be maintained graffiti free and that a new certificate of occupancy be obtained within one (1) year, by January 13, 1999; and

WHEREAS, on December 13, 2005, under the subject calendar number, the Board granted an extension of term of ten (10) years, expiring February 24, 2014, on condition that all landscaping be installed and maintained as indicated on the Board-approved plans, that the site be cleaned and maintained on a regular basis, that no more than 112 square feet of accessory business signage be permitted on the site and that the above conditions be listed on the certificate of occupancy; and

WHEREAS, the term having expired, the applicant now seeks a waiver of the Board's Rules of Practice and Procedure to allow the late filing of this application, an extension of term and an amendment to permit the enlargement of an existing gasoline service station (Use Group 16) and the conversion of the subject building to an accessory convenience store; and

WHEREAS, the applicant proposes to enlarge the subject building from 1,695 square feet of floor area to 2,347 square feet of floor area; and

WHEREAS, in response to community concerns about the reduction of the landscaped area, the Board directed the applicant to provide additional landscaping to the rear and east of the subject building; and

WHEREAS, the applicant also notes that the exterior

of the subject building will be stone cladding, lipped limestone cladding and concrete tile cladding, that the landscaping will consist of dense shrubbery, that the proposed convenience store constitutes an accessory use in accordance with DOB Technical Policy and Procedure Notice #10/99, that the spread of lighting at the subject site will not affect nearby residences and that illegal signage has been removed; and

WHEREAS, by letter dated June 27, 2018, the Fire Department states that it has no objection to this application; and

WHEREAS, based upon its review of the record, the Board has determined that the requested waiver of the Board's Rules of Practice and Procedure, extension of term and amendment are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *waive* the Rules of Practice and Procedure and *reopen* and *amend* the resolution, dated February 24, 1954, as amended through December 13, 2005, so that as amended this portion of the resolution shall read: "to *permit* an extension of term of ten (10) years, expiring February 24, 2024, and to *permit* the enlargement of an existing gasoline service station (Use Group 16) and the conversion of the subject building to an accessory convenience store; *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received June 27, 2018"-Seven (7) sheets; and *on further condition*:

THAT the term of this grant shall be for ten (10) years, expiring February 24, 2024;

THAT all landscaping shall be installed and maintained as indicated on the Board-approved plans;

THAT the site shall be cleaned and maintained on a regular basis;

THAT all signs shall substantially comply with the C1 zoning district regulations and shall be limited to those shown on the Board-approved drawings;

THAT there shall be no outdoor storage;

THAT the buffer area shall be maintained free of debris;

THAT the lighting shall be directed down and away from the residential properties;

THAT the subject site shall be maintained graffiti free;

THAT there shall be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by July 17, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered

MINUTES

approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, July 17, 2018.

166-12-A & 107-13-A

APPLICANT – NYC Board of Standards and Appeals.
SUBJECT – Application June 19, 2018 – Motion to review original Board decision.

PREMISES AFFECTED – 638 East 11th Street, Block 393, Lot(s) 25, 26, 27, Borough of Manhattan.

COMMUNITY BOARD #1M

ACTION OF THE BOARD – Resolution Reviewed, Revised and Re-issued.

THE VOTE –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5
Negative:0

THE RESOLUTION –

WHEREAS, at public hearing on June 19, 2018, the Board made a motion, for good cause pursuant to § 1-12.6 of the Board’s Rules of Practice and Procedure, to review its decision in the subject calendar numbers, dated October 17, 2017, issued March 8, 2018 (the “Resolution”), at its public hearing held on July 17, 2018; and

WHEREAS, the Board provided notice of the hearing to review the Resolution to the New York City Department of Buildings (“DOB”), which filed BSA Cal. No. 166-12-A, an application to revoke Certificate of Occupancy No. 103703226 issued to the subject premises (the “CO Revocation Appeal”) as well as a motion to reargue that application pursuant to § 1-12.4 of the Board’s Rules of Practice and Procedure (the “Rules”), and the representative of the owner of the premises (the “Appellant”), who filed BSA Cal. No. 107-13-A, an application to recognize a common law vested right to continue construction at the site subsequent to an amendment to the Zoning Resolution that excluded Use Group 4 medical offices from the list of permitted obstructions in the subject premises’ required rear yard (the “Common Law Vested Right Appeal”; together, the “Appeals”) as well as motions to reargue both BSA Cal. Nos. 166-12-A and 107-13-A under the same provision of the Board’s Rules; and

WHEREAS, the Board moved to review the Resolution after denying both DOB’s and the Appellant’s requests to reargue the Appeals on June 19, 2018¹; and

WHEREAS, at the executive session for the July 17

hearing, held on July 16, 2018, the Board discussed ways in which the Resolution could be amended to more specifically describe the Board’s determinations on the Appeals as well as clarify the steps by which DOB and the Appellant could ensure compliance of the premises with the Zoning Resolution and Building Code; and

WHEREAS, the Resolution has been reviewed, revised accordingly and re-issued separately from this decision; and

Therefore, it is Resolved, that the Board of Standards and Appeals amends the resolution issued under BSA Cal. Nos. 166-12-A and 107-13-A, dated October 17, 2017, as revised July 17, 2018.

Adopted by the Board of Standards and Appeals, July 17, 2018.

1 A single resolution was issued for those decisions under BSA Cal. Nos. 166-12-A and 107-13-A (June 19, 2018).

MINUTES

166-12-A & 107-13-A

APPLICANT – NYC Board of Standards and Appeals.
SUBJECT – Application June 19, 2018 – Review of Board decision adopted October 17, 2017, pursuant to §1-12.6 of Board’s Rule and §666(8) of the City Charter.
PREMISES AFFECTED – 638 East 11th Street, Block 393, Lot(s) 25, 26, 27, Borough of Manhattan.

COMMUNITY BOARD #1M

ACTION OF THE BOARD – Application for Common Law Vested Right Denied as to Rear Building (BSA Cal. No. 107-13-A) and Application for Revocation of Certificate of Occupancy Denied in Part as to Front Building and Granted in Part as to Rear Structure (BSA Cal. No. 166-12-A).

THE VOTE –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3
Negative:0
Abstain: Commissioner Sheta.....1
THE RESOLUTION –

WHEREAS, this site is the subject of two appeals before the Board: (1) an application filed by the First Deputy Commissioner of the New York City Department of Buildings (“DOB”), dated June 4, 2012, pursuant to New York City Charter §§ 645(b)(3)(e) and 666(6)(a) to revoke Certificate of Occupancy No. 103703226F issued for the site (the “CO Revocation Appeal”) and (2) an application seeking a determination that the owner of the premises (the “Appellant”) obtained the right to complete construction of the one-story plus cellar structure present at the site under the common law doctrine of vested rights (the “Vested Right Application,” collectively, the “Appeals”); and

WHEREAS, a public hearing was first held on the Appeals on November 26, 2013, after due notice by publication in *The City Record*, with continued hearings on January 28, 2014, March 31, 2015, November 15, 2016, January 31, 2017, and June 20, 2017, and then to decision on October 17, 2017; and

WHEREAS, Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, former Vice-Chair Hinkson and former Commissioner Montanez performed inspections of the site and the surrounding neighborhood; and

WHEREAS, the subject site is located on the south side of East 11th Street, between Avenue B and Avenue C, in an R8B residential zoning district, in Manhattan; and

WHEREAS, the site has approximately 75 feet of frontage along East 11th Street, a depth of 95 feet and 7,109 square feet of lot area; and

WHEREAS, DOB-approved plans represent that the site is occupied by a seven-story plus cellar mixed-use community facility and residential building located at the zoning lot’s “front lot line,” as such term is defined in ZR § 12-10 (the “Front Building”), and a one-story plus cellar community facility structure located at the zoning lot’s rear lot line and extending 20’-9” into the required 30-foot rear yard (the “Rear Structure,” together, the “Development”); and

WHEREAS, Certificate of Occupancy No. 103703226F describes a seven-story building with 36 dwelling units and a

floor-by-floor listing stating that there are medical offices in the cellar, first floor and first floor mezzanine and that there are apartments on the second to seventh floors duplexing to the seventh floor mezzanine, but there is no mention of the cellar and first floor community facility Rear Structure in the required rear yard, which is connected to the seven-story plus cellar Front Building by a bridge; and

WHEREAS, the Appellant submits that the site was previously comprised of tax lots 25, 26 and 27 (“Former Tax Lot 25”, “Former Tax Lot 26” and “Former Tax Lot 27”) located at 636, 638 and 640 East 11th Street, respectively; and

WHEREAS, Former Tax Lot 25 was previously occupied by a one-story residential building in the rear yard; Former Lot 26 was previously occupied by a five-story residential building and a three-story residential building in the rear yard; and Former Tax Lot 27 was previously occupied by a five-story residential building; and

FACTS

WHEREAS, on March 23, 2004, DOB issued an Alteration Type 2 (“Alt 2”) permit (the “Demolition Alt 2 Permit”) for work at the site described as follows:

DEMOLISH EXISTING FLOOR SLABS,
PARTITIONS CEILING AND DOORS
REMOVE

EXISTING STAIRS REMOVE REAR PORTION
OF BUILDING. INSTALL NEW OPENING IN
PANTRY [sic] WALL. REMOVE EXTERIOR
SIDE WALL TO THE 2ND FLOOR

existing party walls as shown on drawings filed herewith. No change in use or [sic] occupancy. Egress filed under Alt I #; and

WHEREAS, on March 30, 2004, an Alt 2 permit was issued for “Removal of building structures in [the] rear yard” of the site and additionally noted, “Main buildings to remain” (Permit No. 103745388, the “Rear Yard Alt 2 Permit”); and

WHEREAS, on April 21, 2004, an Alt 2 permit was issued to permit the installation of new foundations and footings for a new enlargement at the site (Permit No. 103744067, the “Foundation Permit”) and on May 21, 2004, DOB issued an Alteration Type I permit for a use identified as “J-2 Residential Apartment House” with a Schedule A indicating Use Group (“UG”) 4 “medical offices” at the cellar, first floor and first floor mezzanine level (Permit No. 103703226, the “Alt 1 Permit”); and

WHEREAS, at the time that the Alt 1 Permit was issued, ZR § 24-33(b) permitted a building or portion of a building used for community facility use at the subject site to be located within a required rear yard, provided that its height did not exceed one story or, in any event, 23 feet above curb level; and

WHEREAS, on May 27, 2004, a zoning lot description

1 Per ZR § 12-10, a “community facility” use is any use listed in Use Group 3 or 4. As further described in ZR § 22-14 (Use Group 4), Use Group 4 includes ambulatory diagnostic or treatment health care facilities, common referred to as “medical offices.”

MINUTES

and ownership statement describing the metes and bounds of the subject zoning lot (consisting of Former Tax Lot 25, Former Tax Lot 26 and Former Tax Lot 27) was recorded with the Office of the City Register; and

WHEREAS, on June 21, 2004, DOB issued a stop work order (ECB Violation No. 34440904N) for work contrary to approved plans filed under the Rear Yard Alt 2 Permit (the “Stop Work Order”); and

WHEREAS, on the same date, DOB issued a violation citing a failure to maintain an exterior building wall (ECB Violation No. 34440903L, the “Hazardous Conditions Violation”) and a preemptory vacate order for 640 East 11th Street, which stated:

Due to construction operations, the party wall foundation is cracked and separating from rear exterior wall. Rear masonry wall is bulging, cracked, and defective from the second story to roof. West exterior wall of adjacent property (638 East 11th Street) is bulging at the 5th story to roof which is creating a hazardous condition; and

WHEREAS, by letter dated July 20, 2004, DOB partially lifted the Stop Work Order to allow work to resume in accordance with the approved plans at 636 and 638 East 11th Street, but continued to prohibit any demolition, alteration or renovation at 640 East 11th Street; and

WHEREAS, on August 16, 2004, two violations were issued for an alleged failure to comply with the Stop Work Order and for work contrary to the plans filed under the Rear Yard Alt 2 Permit (ECB Violation No. 34451354L and ECB Violation No. 34451352H); and

WHEREAS, on September 1, 2004, DOB lifted the Stop Work Order as to 640 East 11th Street, allowing work to proceed as recommended in a letter from the structural engineer of record for the subject site, dated August 26, 2004, which included, among the list of items proposed to cure hazardous site conditions, work pursuant to the Foundation Permit, specifically, the pouring of “foundation walls on the east side of 636 vacant lot according to plan” and the completion of “foundation work in 638 and 640 according to approved plan, and continue foundation on 636 lot” (the “2004 Structural Engineer Letter”); and

WHEREAS, on September 9, 2004 (the “Effective Date”), an amendment to the Zoning Resolution was adopted that, among other things, modified the definition of permitted obstructions under ZR § 24-33 (the “ZR Amendment”), in relevant part, as follows:

(b) In any *rear yard* or *rear yard equivalent*:

[...]

Any *building* or portion of a *building* used for *community facility uses*, provided that the height of such *building* shall not exceed one *story*, nor in any event 23 feet above *curb level*. However, the following shall not be permitted obstructions:

(1) in all *residence districts*, any portion of a *building* containing rooms used for living or sleeping purposes, other than a room in

a hospital used for the care or treatment of patients;

(2) in R1, R2, R3A, R3X, R3-1, R4A, R4B or R4-1 Districts, any portion of a *building* used for any *community facility use*;

(3) in all *residence districts* not listed in paragraph (b)(2) of this Section, beyond one hundred feet of a *wide street*, any portion of a *building* used for a *community facility use* other than a *school*, house of worship, college or university, or hospital and related facilities;

[...]; and

WHEREAS, the subject site is located in a “residence district,” as defined in ZR § 12-10, beyond one hundred feet of a “wide street,” which, per ZR § 12-10, “is any *street* 75 feet or more in width”; and

WHEREAS, Appellant did not file an application with the Board, within 30 days of the Effective Date, seeking recognition of a statutory right, pursuant to ZR § 11-331 to complete construction under the Alt 1 permit; and

WHEREAS, a Certificate of Correction, dated December 7, 2004, reporting the completion of all work to cure the Hazardous Conditions Violation was submitted to DOB and approved on December 15, 2004; and

WHEREAS, on July 26, 2005, the Foundation Permit was signed off and, on July 15, 2008, Final Certificate of Occupancy No. 103703226F was issued indicating a total of 36 dwelling units in a seven-story building and UG 4 medical offices in the cellar, first floor and first floor mezzanine levels (the “CO”); and

WHEREAS, on December 31, 2008, DOB issued violations to the premises for (1) occupancy contrary to that allowed by the CO, specifically citing the conversion of 26 medical offices at the first floor and cellar levels into Class A apartments (ECB Violation No. 34758244R); (2) illegal use in a residential district, noting that, at the first floor and cellar levels, the residential floor area and lot coverage of the Development exceeded the maximum allowable in the zoning district and ordering the discontinuance of the illegal use (ECB Violation No. 34758243P); (3) the conversion of 14 medical offices at the first floor and 12 medical offices at the cellar level to Class A apartments (ECB Violation No. 34758241L); and (4) work without a permit, specifically the installation of showers in the medical offices located on the first floor and cellar levels (ECB Violation No. 34758242N); and

WHEREAS, on August 26, 2010, DOB again issued violations for (1) occupancy contrary to the CO, indicating that, based on the affidavit of New York City Councilwoman Rosie Mendez, medical offices at the first floor and cellar levels had been converted into Class A apartments (ECB Violation No. 34808444Y) and (2) illegal conversion of the first floor and cellar levels and illegal use in a residential district (ECB Violation No. 34808445X); and

MINUTES

WHEREAS, by letter dated February 3, 2012, DOB informed representatives of the Appellant that the CO was issued in error and that its underlying permit lapsed by operation of law on September 9, 2004, when the premises were rezoned; and

WHEREAS, on June 4, 2012, DOB filed the CO Revocation Appeal, BSA Cal. No. 166-12-A, alleging that the CO should not have been issued because the Alt 1 Permit, to which the CO is related, lapsed as a matter of law when foundations at the site were not completed by September 9, 2004, and the permit was not thereafter renewed by the Board pursuant to ZR § 11-331; and

WHEREAS, the Appellant filed the Vested Right Application on April 18, 2013; and

WHEREAS, the Appeals were first heard, in tandem, on November 26, 2013, and a continued hearing was scheduled by the Board for January 28, 2014; and

WHEREAS, in response to testimony given at the hearing held on November 26, 2013, that illegal conditions cited in the 2008 and 2010 ECB violations issued to the property remained outstanding, DOB conducted inspections of the premises on December 2, 5 and 9, 2013, and issued additional violations; and

WHEREAS, on December 2, 2013, DOB issued violations to the premises for (1) failure to comply with an order to correct conditions pursuant to a previous violation relating to the installation of showers in medical offices at the first floor and cellar levels of the site (ECB Violation No. 35032322R, relating back to ECB Violation No. 34758242N); (2) occupancy contrary to that allowed by the CO and DOB records, specifically, a temporary certificate of occupancy indicated medical offices at the cellar, first and second floors² of the Rear Structure, but the inspector observed exclusively residential occupancy with 14 Class A apartments, four of which had mezzanines (ECB Violation No. 35033408M); (3) failure to provide an unobstructed exit passageway, specifically, a second means of egress from the Rear Structure, which, the inspector observed, is a three-level building with residential occupancy (ECB Violation No. 35033409Y); and (4) work without permits, indicating that 100 percent of the work had been completed, but noting approximately 14 residential, Class A apartments, four with mezzanines, in three-level Rear Structure and that respondent has history of non-compliance (ECB Violation No. 35032321P); and

WHEREAS, the Board notes that, although the inspectors issuing the above-mentioned violations referred to the Rear Structure as the “rear building” and to residential occupancy in the cellar, first and second floors of the “rear building,” none of the temporary certificates of occupancy or

² DOB avers that, pursuant to ZR § 12-10, which defines a “story” as “that part of a building between the surface of a floor (whether or not counted for purposes of computing floor area ratio) and the ceiling immediately above,” the mezzanine in the Rear Structure constitutes a second “story.”

the CO distinguish the Front Building from the Rear Structure and that Temporary Certificates of Occupancy Nos. 103703226T005 through 103703226T007 and the CO generally describe a cellar, first floor and first floor mezzanine at the site; and

WHEREAS, on December 5, 2013, DOB issued a violation to premises for failure to maintain the Development, noting non-compliances with regards to fire safety (ECB Violation No. 35033407K) and on December 9, 2013, four violations were issued for additional non-compliances of the Development with the New York City Fire Code (ECB Violation Nos. 35008848L, 35008849N, 35008847J and 35008925X); and

WHEREAS, the hearing scheduled for January 28, 2014, as well as the next seven hearings, were adjourned at the Appellant’s and/or DOB’s request in order to permit the parties to resolve outstanding DOB objections relating to the premises and conclude the Appeals; and

WHEREAS, at the hearing held on March 31, 2015, DOB stated that the Appellant had made progress in addressing the outstanding objections, specifically, the Appellant had submitted revised plans for the Development showing the removal of the mezzanine from the Rear Structure as well as two means of egress, two issues DOB considered to be major objections; and

WHEREAS, on March 31, 2015, the Board removed the Appeals from the Board’s hearing calendar to allow the Appellant to resolve all outstanding issues with DOB such that DOB would withdraw the CO Revocation Appeal; and

WHEREAS, by letter dated May 4, 2016, DOB requested that the CO Revocation Appeal be returned to the Board’s calendar because of the Appellant’s seven-month delay in providing revised plans to address the final remaining DOB objection; DOB averred that to date, it had been unable to determine that the Alt 1 Permit had been validly issued; and

WHEREAS, by letter dated June 30, 2016, in response to DOB’s request to return the CO Revocation Appeal to the Board’s calendar, Appellant stated that the objection remained outstanding because of a missing planning sheet, which the Appellant provided on May 9, 2016, and the DOB plan examiner subsequently removed this final objection; accordingly, the Appellant requested that the Appeals remain off-calendar; and

WHEREAS, by letter dated July 12, 2016, DOB reported that an audit of the plans filed in connection with the Development prior to September 9, 2004, (the “2012 Audit”) had been completed, advised the Board that the Alt 1 Permit was, indeed, validly issued and requested that the Vested Right Application alone be returned to the Board’s calendar to determine if Appellant had obtained a vested right under the common law; DOB maintained its position, however, that the foundation of the Rear Structure was not complete prior to September 9, 2004, and requested that if the Appellant failed to further pursue the Vested Right Application, or if the Board denied it, the CO Revocation Appeal be returned to the Board’s hearing calendar; and

WHEREAS, the Appeals were re-calendared for a

MINUTES

continued hearing on September 20, 2016, but that hearing date was adjourned at the Appellant's request due to a scheduling conflict; continued hearings were subsequently held on November 15, 2016, January 31, 2017, June 20, 2017, and October 17, 2017, and both cases were then decided on that same date; and

WHEREAS, at the November 15 hearing, DOB stated that plans presented by the Appellant curing DOB's objections had been approved, enabling the 2012 Audit to be closed, but acknowledged that permits could not be issued and the construction to cure undertaken unless and until the Board recognized that the Appellant had acquired a common law vested right to complete the Rear Structure in the first instance; and

WHEREAS, at that hearing, the Board requested that the Appellant correct those violations that did not require DOB permits, namely, remove the residential uses from the areas of the Development indicated as medical office on the CO; and

WHEREAS, at the January 31 hearing, the Appellant informed the Board that four non-conforming residential occupancies remained in the Rear Structure, that ownership was engaged with discussions with those tenants to work out relocation, but that such relocation may take a number of months; and

WHEREAS, on April 20, 2017, Board Commissioners and staff visited the site with DOB and the Appellant's representatives to inspect the premises; and

WHEREAS, a hearing scheduled for May 2, 2017, was adjourned at the Appellant's request to allow time to comply with requests made by the Board in prior hearings, but at the May 1 Executive Session, the Chair stated that, at the April site inspection, the Board observed that two of the units in the Rear Structure remained occupied by residential tenants; that it was clear from observing window treatments and domestic furnishings that the first floor at the rear of the Front Building had been occupied by residential tenants contrary to DOB-approved plans; that areas in the Front Building indicated on plans as an accessory lounge, fitness room and medical office were each occupied by residential tenants; and that kitchens and bathrooms had been constructed in the Rear Structure contrary to DOB-approved plans; and

WHEREAS, the Chair requested that all of the spaces illegally occupied by residential tenants at the site be vacant by the next hearing and for the submission of an affidavit from the architect indicated on the title block of drawings approved by DOB attesting to whether they were hired to and indeed did conduct field observations of the site during the period of construction of the Development and whether the architect inspected the site prior to sign off and observed that the Development—particularly the areas on the cellar and first floor levels indicated as medical office—had been constructed pursuant to plans approved by DOB; and

WHEREAS, the architect instead provided a letter without a professional seal stating that the architect "recalled" that the Development was built according to DOB approved plans; and

WHEREAS, New York City Council Member Rosie Mendez submitted a letter and testified at hearings held on November 15, January 31, and June 20 in opposition to the Vested Right Application, stating that spaces indicated as UG 4 medical office on the CO at the site had been illegally occupied by residential tenants since at least January 2006 and that the premises never displayed signage indicating the presence of medical offices; and

WHEREAS, additionally, the Greenwich Village Society for Historic Preservation submitted letters and oral testimony in opposition to the Vested Right Appeal, stating that the Development has never been occupied fully in conformance with the CO; and

WHEREAS, DOB inspected the premises on June 15, 2017, and observed that all units in the Rear Structure and one duplex unit in the Front Building were unoccupied, but that two duplex units in the Front Building remained occupied; and

WHEREAS, on an October 12, 2017, inspection, DOB observed that all six units in the cellar and all six units on the first floor of the Rear Structure, were unoccupied, as were the three duplex units in the Front Building; and

WHEREAS, by letter dated October 13, 2017, the Appellant reported to the Board that the appliances and fixtures had been removed from all of the units inspected by DOB on October 12; and

STATUTORY AND COMMON LAW VESTED RIGHTS DOCTRINE

WHEREAS, when a restrictive amendment to the Zoning Resolution is enacted, a vested right can be acquired when, pursuant to a lawfully-issued permit, a property owner demonstrates a commitment to the purpose for which the permit was granted; and

WHEREAS, pursuant to ZR § 11-331, a property owner may continue construction subsequent to an applicable zoning change pursuant to a lawfully-issued building permit if, in the case of a "minor development," all work on foundations had been completed prior to such effective date or, in the case of a "major development," the foundations for at least one building has been completed prior to such effective date; and

WHEREAS, if the required foundation work has been commenced, but not completed, prior to the effective date of the amendment to the Zoning Resolution that rendered the project non-conforming or non-complying, the building permit will automatically lapse on the effective date and the right to continue construction will terminate; and

WHEREAS, however, the building permit may be renewed if an application is made to the Board to recognize the statutory right to continue construction pursuant to ZR § 11-331 within 30 days of the automatic lapse of the permit and the Board may grant such application upon finding that, at the date the building permit lapsed, excavation at the site had been completed and substantial progress on foundations had been made; and

WHEREAS, more than 30 days after the automatic lapse of a building permit due to an applicable zoning change, a property owner may apply to the Board seeking the recognition of a common law vested right to continue

MINUTES

construction pursuant to a permit lawfully-issued prior to that applicable zoning change, and the Board may grant such application, if: (1) the owner has undertaken substantial construction; (2) the owner has made substantial expenditures; and (3) serious loss will result if the owner is denied the right to proceed under the prior zoning; and

WHEREAS, specifically, as held in Putnam Armonk, Inc. v. Town of Southeast, 52 AD2d 10 (2d Dept. 1976), where a restrictive amendment to a zoning ordinance is enacted, the owner's rights under the prior ordinance are deemed vested "and will not be disturbed where enforcement [of new zoning requirements] would cause 'serious loss' to the owner," and "where substantial construction had been undertaken and substantial expenditures made prior to the effective date of the ordinance"; and

WHEREAS, notwithstanding this general framework, as discussed by the court in Kadin v. Bennett, 163 AD2d 308, 309 (2d Dept. 1990),

[T]here is no fixed formula which measures the content of all the circumstances whereby a party is said to possess 'a vested right'. Rather, it is a term which sums up a determination that the facts of the case render it inequitable that the State impede the individual from taking certain action; and

WHEREAS, however, even if the Board recognizes a common law vested right, there may be instances in which circumstances may have changed such that the City's interest in present zoning outweighs the property owner's vested right; and

WHEREAS, Putnam holds that the following factors are relevant in determining whether a common law vested right has lapsed: (1) abandonment, including the intent to abandon and an overt act, or some failure to act, implying that the owner neither claims nor retains any interest in the subject matter of the abandonment; (2) recoument by the owner of all or part of his financial expenditures on the property without completing construction; or (3) the extent to which considerations of public safety, health and welfare indicate that enforcement of present zoning regulations would provide an overriding benefit to the public, 52 AD2d at 15; and

APPELLANT'S POSITION

WHEREAS, the Appellant acknowledges that the ZR Amendment prohibited the medical office use and, both before and after the ZR Amendment, rooms used for living or sleeping purposes in the Rear Structure, but that neither the owner of the premises nor DOB noticed this change as to the medical offices and that it was not until receipt of a letter from DOB, dated February 3, 2012—alleging that the Alt 1 Permit lapsed by operation of law on September 9, 2004—that Appellant was on notice that the Rear Structure was contrary to applicable zoning regulations; and

WHEREAS, the Appellant states that the foundation of the Rear Structure was 100 percent complete by the Effective Date and, in support of this contention, submitted into the record a survey said to depict the extent of the work completed at the premises as of September 9, 2004 (the "Survey"); and

WHEREAS, accordingly, the Appellant submits that their right to complete construction at the site pursuant to the Alt 1 Permit vested by operation of law, specifically ZR § 11-331(b), which states that, in the case of a major development, a statutory right to complete construction vests if the foundations for at least one building has been completed prior to the effective date of the applicable amendment; and

WHEREAS, the Appellant states that the development of the subject site is considered a "major development"³ for purposes of ZR § 11-331(b) because it includes two or more "buildings," as that term was defined by the Zoning Resolution at the time of the Alt 1 Permit; therefore, because the foundations for the Rear Structure were complete as of the Effective Date, the Appellant's right to complete all construction on the site under the Alt 1 Permit vested pursuant to statute; and

WHEREAS, in the alternative, if the Board does not agree that the work under the Alt 1 Permit constitutes a "major development," the Appellant suggests that the facts nevertheless support a finding that the Appellant instead acquired a vested right to complete construction under the common law; and

WHEREAS, with regards to substantial construction, the Appellant directs the Board's attention to the permits issued for the site between March 24 and April 21, 2004, as well as the Survey; re-alleges that the foundations of the Rear Structure were 100 percent complete by September 9, 2004, and additionally submits into the record (1) an Affidavit from a concrete contractor, contracted to remove old foundations at the site and install rebar and concrete for the new foundation, stating that the foundation for the Rear Structure was completed "by the end of June 2004" and that all foundation work at the property, that is, including that for the Front Building, was completed "[b]y September 2004"; (2) a letter from Metropolis Group stating that the foundation work at the premises "was completed well before September 2004 since the project was in superstructure in September 2004 and could not have been in that phase of construction unless the foundations were complete" and that not obtaining sign-offs on the foundation work until after the Effective Date has no bearing on when the foundation work was actually completed by the Effective Date; (3) a letter, dated February 23, 2012, from a surveyor stating that when they visited the site on August 3, 2004, to mark out a proposed elevator shaft, their crew installed a mark "on the newly installed foundation of the building at the rear of the property" and, thus, the Rear Structure's foundations were "installed and completed as of August 4, 2004"; (4) photos from the site taken May 6, May 21, June 2 and June 15, 2004, showing the progress of the Rear Structure's foundation; (6) a letter, dated January 11, 2017, from the structural engineer of record for the

³ Zoning Resolution Section 11-31(c)(2) includes, among the definition of "major development" for purposes of statutory vesting, "construction of two or more *buildings* on a single *zoning lot* which will be *non-complying* under the provisions of any applicable amendment to this Resolution."

MINUTES

Development stating that, based on the Surveyor Letter and the structural engineer's own observation "that the foundations existed on or before August 26, 2004," the foundations for the Rear Structure were completed prior to the Effective Date; and (7) a letter, dated September 25, 2017, from the architect of the site from 2003 to 2005 interpreting the 2004 Structural Engineer Letter's observation that "there presently are timber braces from the first floor rear wall to the new foundation of the rear addition" to indicate that the new foundation of the Rear Structure was already built as of August 24, 2004, two days before the 2004 Structural Engineer's Letter, and stating that the recommendations made in the 2004 Structural Engineer's Letter regarding completion of foundations related to the Front Building only; and

WHEREAS, with regards to substantial expenditures, the Appellant avers that approximately \$1.25 million was spent on demolition, construction and restoration of the Front Building and Rear Structure prior to September 9, 2004, including approximately \$691,000 spent on the Rear Structure alone, out of a total estimated cost of \$6.7 million (19 percent); and

WHEREAS, the Appellant submits that substantial loss would result if no common law vested right was recognized by the Board because such a determination would require not only the complete demolition of the Rear Structure, but the "perpetual annual loss of income from the 12 medical offices of lost space estimated at \$296,808 for the first year"; and

WHEREAS, with regards to allegations that the Rear Structure was occupied contrary to the CO with residential tenants, the Appellant, by submission dated June 7, 2017, reported that residential tenants had been completely vacated from the Rear Structure and the rear units of the Front Building and reiterated that they believed that they had previously submitted evidence sufficient to support their argument that the foundation of the Rear Structure had been completed by September 9, 2004; and

WHEREAS, finally, Appellant requested that the CO Revocation Appeal be dismissed because DOB had not yet met their burden and proven that the Alt 1 Permit did not vest; a request to revoke the CO based on objections from an audit performed nine years after the issuance of the Alt 1 Permit and five years after the issuance of the CO was not properly before the Board because, *inter alia*, DOB failed to allow Appellant the opportunity to address and cure objections prior to the filing of the appeal; DOB's argument that certain objections were curable and others were not was arbitrary and such objections were issued in error; and DOB's issuance of the CO was further proof that construction vested under the Alt 1 Permit; and

DOB'S POSITION

WHEREAS, DOB initially asserted that the Alt 1 Permit "was not validly issued," and, therefore, the Appellant could not have attained a vested right to complete construction after September 9, 2004 (See Vil. Of Asharokan v. Pitassy, 119 AD2d 404, 417 (2d Dept 1986; see also Jayne Estates, Inc. v. Raynor, 22 NY2d 417, 422 (1968)); and

WHEREAS, DOB additionally submitted that the 2012

Audit revealed substantial and incurable errors—including violations of the Zoning Resolution and the Building Code—affecting life and safety that would require a substantial redesign of the Development for compliance; in particular, DOB identified the elevated exterior walkways on the Rear Structure as contrary to ZR §§ 23-44 and 24-33, the second story of the Rear Structure as an obstruction contrary to ZR § 24-33 and the absence of a second means of egress from both the Front Building and the Rear Structure as contrary to Sections 27-362 and 27-366 of the 1968 Building Code; and

WHEREAS, DOB additionally identified other objections discovered in the course of the 2012 Audit as potentially curable, but alleged that when all of the objections are considered in their totality, the objections render the Alt 1 Permit invalid; and

WHEREAS, therefore, DOB considered the question of whether foundations were complete prior to September 9, 2004, as irrelevant because a vested right cannot accrue where the construction upon which such right relies was completed pursuant to invalid permits; and

WHEREAS, upon completion of the 2012 Audit, DOB concluded that the Alt 1 Permit was, in fact, validly issued, but contested that foundations at the site had been completed and, thus, the Alt 1 Permit lapsed by operation of law on the Effective Date, citing, among other things, the facts that (1) the Stop Work Order issued for the site was not lifted in its entirety until September 1, 2004, eight days before the Effective Date; (2) the Foundation Permit was not signed off until July 26, 2005; (3) a Post-Approval Amendment for the Demolition Alt 2 Permit was not filed until on or about October 5, 2004; and (4) the Foundation Permit was renewed on March 10, 2005; and

WHEREAS, in support of their contention that the foundation was not complete by September 9, 2004, DOB identifies the following pieces of evidence: (1) the 2004 Structural Engineer Letter advising the owner that, among other things, foundation work at 638 and 640 East 11th Street be completed and foundation work at 636 East 11th Street should be continued; (2) the renewal of the Foundation Permit on March 10, 2005, six months after the Effective Date, and its ultimate signoff on July 26, 2005, ten months after the Effective Date; (3) the filing of a Post Approval Amendment to the Demolition Alt 2 Permit on October 5, 2004, with notations that had not previously appeared on drawings previously submitted with the Demolition Alt 2 Permit approved prior to the Effective Date stating "Existing foundation wall to be removed and replaced with new structural concrete wall...", "Underpin existing walls as req'd...", and "New struct. Walls as req'd...", suggesting that a month after the Effective Date, foundation walls still needed to be removed and new concrete walls constructed in their place; and (4) the Survey submitted by the Appellant reflecting conditions at the site on April 25, 2005, outlining the building under construction and a proposed elevator shaft, suggesting that the foundations of the Front Building at 638 and 640 East 11th Street may have been complete, but providing no evidence of any foundation walls or structure at

MINUTES

636 East 11th Street or a foundation for the Rear Structure; and

WHEREAS, DOB notes that the Stop Work Order was active at the premises at the time of the 2004 Structural Engineer's Letter, was lifted at 636 and 638 East 11th Street on the same day, but was not lifted at 640 East 11th Street until September 1, 2004, eight days before the Effective Date, leaving the Appellant with insufficient time to complete foundations at the site by that time; and

THE BOARD'S FINDINGS

WHEREAS, the Board accepts DOB's conclusion that the Alt 1 Permit was validly issued; and

WHEREAS, the Board finds that foundation work for the Development had been commenced prior to the Effective Date, but that the question of whether the Development is a "major development" or a "minor development" is irrelevant and, in any event, neither the Rear Structure foundation nor all work on foundations were completed at the site prior to the Effective Date and thus, the Alt 1 Permit lapsed pursuant to ZR § 11-331; and

WHEREAS, because the Appellant did not file an application to the Board within 30 days of the Effective Date to recognize a statutory right to continue construction at the site subsequent to the Effective Date, the Appellant did not obtain a statutory vested right to complete the construction of the Development; and

WHEREAS, however, the Board finds that the Appellant had undertaken substantial construction, made substantial expenditures in connection with the Alt 1 Permit and that serious loss would have resulted if the owner had been denied the right to proceed under the prior zoning; and

WHEREAS, thus, the Board recognizes that the Appellant had, indeed, acquired a common law vested right to complete the construction of the Development subsequent to the Effective Date; and

WHEREAS, the 2004 amendment to ZR § 24-33 exempted from the definition of "permitted obstruction," "any portion of a building" located in a residence district other than R1, R2, R3A, R3X, R3-1, R4A, R4B or R4-1, beyond 100 feet of a wide street "used for community facility use other than a school, house of worship, college or university, or hospital and related facilities;" and

WHEREAS, therefore, as of the Effective Date, the Rear Structure was rendered non-complying because its bulk, where such bulk contained medical offices, was not permitted in the required rear yard in an R8B residence district as a permitted obstruction; and

WHEREAS, because ZR § 24-33 makes references to uses that would render a portion of a building in the required rear yard at the subject site a "permitted obstruction," the Board finds that this provision is both a bulk and a use regulation, despite its location in Article II, Chapter 4, which is primarily devoted to bulk regulations applicable in a residence district, as opposed to Article II, Chapter 2, which is devoted to use regulations applicable in a residence district; and

WHEREAS, the Board makes note of the following list,

though not exhaustive, of use regulations found in the bulk provisions of the Zoning Resolution: ZR § 23-35 (Special Provisions for Zoning Lots Containing Certain Community Facility Uses in Lower Density Growth Management Areas) (requiring application of particular lot area and lot width regulations to zoning lots containing buildings used for ambulatory diagnostic or treatment health care facilities and child care service); ZR § 23-65(a) (Tower Regulations) (stating that tower-on-base bulk regulations are applicable where building contains more than 25 percent of its total floor area in residential use); ZR § 24-111 (Maximum Floor Area Ratio for Certain Community Facility Uses) (setting forth maximum floor area ratios for zoning lots occupied by philanthropic or non-profit institutions with sleeping accommodations and long-term care facilities); ZR § 33-012 (Special Provisions for Certain Community Facility Uses) (setting forth bulk provisions for buildings containing long-term care facilities or philanthropic or non-profit institutions with sleeping accommodations); ZR §§ 33-431 (In C1 or C2 Districts with Bulk Governed by Surrounding Residence District) and 33-432 (In Other Commercial Districts) (prohibiting commercial buildings or portions thereof occupied by non-residential uses listed in various Use Groups from exceeding certain heights or number of stories, whichever is less); ZR § 33-452 (Community Facility Buildings in C1 or C2 Districts When Mapped Within R7-2, R8, R9 or R10 Districts) (prohibiting any portion of a mixed-use commercial and community facility building occupied by commercial use from penetrating the sky exposure plane); and ZR § 35-33 (Location of Open Space) (permitting open space required for a residential building or residential portion of a mixed-us building to be located on the roof of buildings occupied by particular uses); and

WHEREAS, accordingly, as of the Effective Date, the Rear Structure was also rendered non-conforming because its proposed UG 4 medical office use was no longer included among the list of uses that would have rendered the Rear Structure a permitted obstruction; and

WHEREAS, the Board finds, based on the substantial evidence in the record, that neither the Rear Structure nor the first floor and cellar of the Front Building have been occupied by UG 4 medical offices since on or around December 31, 2008, the date of the first violations issued to the premises by DOB for occupancy contrary to the CO; and

WHEREAS, pursuant to Putnam, a vested right can lapse when such right has been abandoned either through an overt act or some failure to act that implies that the owner neither claims nor retains any interest in the subject matter of the development or when considerations of public safety, health and welfare indicate that the enforcement of present zoning regulations would provide an overriding benefit to the public; and

WHEREAS, the Board finds that ten years have lapsed since the time of the construction of the Development and circumstances have changed such that the City's interest in present zoning, to wit, legal occupancy of the premises, outweighs the property owner's vested right; and

MINUTES

WHEREAS, the Board also finds that the failure to occupy the UG 4 medical office space in the Rear Structure with UG 4 medical offices in the face of multiple years of attempted enforcement by DOB, both in the issuing of violations and the filing and prosecution of the CO Revocation Appeal, to be an overt act sufficient to constitute abandonment as contemplated in Putnam; and

WHEREAS, accordingly, the Board finds that the Appellant abandoned its right to occupy the Rear Structure with UG 4 medical offices; and

WHEREAS, as originally approved by DOB, the Rear Structure is both non-conforming and non-complying and should either be removed or made to conform with current zoning regulations; the Board notes that the Zoning Amendment specifically rendered UG 4 medical office use in the Rear Structure both non-complying and non-conforming; and

WHEREAS, the Board notes that Certificate of Occupancy No. 103703226F describes a seven-story building with 36 dwelling units and that the floor by floor listing of occupancies indicates medical offices in the cellar, first floor and first floor mezzanine levels and apartments on the second to seventh floors; that there is no mention of a structure in the required rear yard containing a cellar and a first floor level that is connected to the Front Building by a bridge; and, thus, an architect or other building professional tasked with discerning the actual location of the medical offices would be unable to do so upon reviewing Certificate of Occupancy No. 103703226F alone; and

WHEREAS, in its experience, the Board has seen certificates of occupancy that describe a myriad of other structures on a lot and limitations to their use and notes that some residential lots are issued certificates of occupancy that indicate the presence of both the residence and the accessory one-car garage on the lot; and

WHEREAS, accordingly, the Board finds that the subject site should have a certificate of occupancy that better describes the built condition of the subject site and the limitations on their use heretofore determined by the Board; and

Therefore, it is Resolved, that the application to recognize a common law vested right to complete construction under Permit No. 103703226, filed under BSA Cal. No. 107-13-A, is *denied* as to the Rear Building and that the application to revoke Certificate of Occupancy No. 103703226F, filed under BSA Cal. No. 166-12-A, is *denied in part* as to the Front Building and *granted in part* as to the Rear Structure, insofar as the UG 4 medical offices indicated on the cellar, first floor and mezzanine levels of the Rear Building are non-complying and non-conforming; and the parties are instructed to undertake the following actions:

The Appellant shall submit to the Department of Buildings plans sufficient to bring the Front Building and Rear Structure located at the subject site into full compliance with, *inter alia*, the Zoning Resolution and Building Code and DOB, upon finding that the plans cure existing objections including, but not limited to, the lack of a secondary means of

egress from the Front Building, shall issue permits for all necessary work;

Upon the satisfactory completion of all necessary work, the Department of Buildings shall issue a new certificate of occupancy or otherwise modify Certificate of Occupancy No. 103703226F to reflect that the subject site is occupied by a Front Building and a one-story plus cellar Rear Structure that relies on the Front Building for egress, access and fire and mechanical systems, but not for vertical circulation, separated from the Front Building by 24 feet and the rear wall of which is located at the rear lot line;

The new or modified certificate of occupancy shall maintain a listing of the uses permitted in the Front Building on a floor by floor basis and add, with regards to the Rear Structure, this portion of the building does not and shall not contain a mezzanine and that occupancy by UG 4 medical offices, rooms used for living or sleeping purposes, residential use or any other uses not specifically permitted under the permitted obstruction regulations set forth in ZR §§ 23-44 or 24-33, effective as of the date of this revised resolution, is prohibited;

The Appellant may elect, in the alternative, to demolish the Rear Structure, in which case the new or modified certificate of occupancy shall explicitly state that “one (1) building,” the Front Building, is present on the premises;

Certificate of Occupancy No. 103703226F remains valid with regards to the Front Building until such time as another, either new or modified, certificate of occupancy is issued in compliance with the aforementioned conditions;

The Board is not an enforcement agency and DOB, equipped as it is with the power to issue violations, criminal summonses and other aggressive, but legal, means, should use these means to require the property owner to make these essential corrections; and

Accordingly, nothing in this resolution shall be deemed to estop DOB from enforcing against the subject site as DOB may deem necessary, including, but not limited to, filing a new appeal with the Board (the Board shall not accept any further applications under the subject calendar numbers).

Adopted by the Board of Standards and Appeals, October 17, 2017.

Adopted by the Board of Standards and Appeals, as revised, July 17, 2018.

APPLICANT – Akerman, LLP for ROCK 34, Inc., owner.
SUBJECT – Application January 27, 2017 – Variance (§72-21) to permit the development of a three-story, three-family residential building on a narrow corner lot contrary to ZR §23-45 (front yard) and ZR §23-462 (a) (required side yards). R5 zoning district.

PREMISES AFFECTED – 107-17 34th Avenue, Block 1722, Lot 27, Borough of Queens.

COMMUNITY BOARD #3Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated June 23, 2017, acting on New Building Application No. 421332917, reads in pertinent part:

“Proposed front yard along 108th Street is less than required per ZR 23-45(a); . . . Proposed one side yard . . . is less than required per ZR 23-462”; and

WHEREAS, this is an application under ZR § 72-21 to permit, in an R5 zoning district, the development of a residential building that does not comply with zoning regulations for front yards and side yards, contrary to ZR § 23-45 and 23-462; and

WHEREAS, a public hearing was held on this application on April 10, 2018, after due notice by publication in *The City Record*, with continued hearings on May 8, 2018, and then to decision on July 17, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 3, Queens, recommends approval of this application on condition that two trees be located from the driveway, that the curb cut be widened to ensure safe parking, that the cellar not be used as an additional dwelling unit, that proper drainage be ensured in the parking area and that exterior security lighting be placed in a manner that will not be an obstruction to neighboring properties; and

WHEREAS, the subject site is located on the northwest corner of 34th Avenue and 108th Street, in an R5 zoning district, in Queens; and

WHEREAS, the subject site has approximately 25 feet of frontage along 34th Avenue, 100 feet of frontage along 108th Street, 2,500 square feet of lot area and is vacant; and

WHEREAS, the applicant proposes to develop a three-story, with cellar, three-family residential building with a front yard with a depth of 5 feet along 108th Street and a side yard with a depth of 3 feet along 34th Avenue; and

WHEREAS, the applicant states that, at the subject site, two front yards with minimum depths of 10 feet are required under ZR § 23-45 and that side yards must have minimum depths of 8 feet under ZR § 23-462; and

WHEREAS, the applicant states that the following are unique physical conditions that create practical difficulties in developing the site in compliance with the applicable regulations: the site’s being vacant, the narrow width of the subject site and the subject site’s status as a corner lot; and

WHEREAS, in support of the contention that these physical conditions are unique, the applicant studied the surrounding area, determining that the subject site is the only vacant, narrow corner lot in the study area with a width of 25 feet or less that is unimproved; and

WHEREAS, the applicant submitted evidence that the subject site has been vacant since the enactment of the Zoning Resolution, that all but three of the narrow corner lots within the study area were improved with buildings prior to the enactment of the Zoning Resolution and that those improved, narrow lots have non-complying yards; and

WHEREAS, the applicant notes that compliance with applicable regulations for side yards is impracticable because an as-of-right development would have a severely restricted building width of 7 feet—further constrained by the addition of a necessary interior staircase—that would not result in a functional residential building, thereby rendering the subject site virtually unusable; and

WHEREAS, the Board finds that the above unique physical conditions create practical difficulties or unnecessary hardship in complying strictly with applicable zoning regulations that are not created by general circumstances in the neighborhood or district; and

WHEREAS, the applicant states that the proposed variance will not alter the essential character of the neighborhood because the proposed three-story building is compatible in size and bulk with other residential buildings in the surrounding area, which is characterized by a mix of attached and detached one-, two- and three-story single-family residences, community facilities and retail use; and

WHEREAS, in support of this contention, the applicant surveyed yards in the vicinity, finding that all of the corner lots within the surrounding area have non-complying front yards; and

WHEREAS, the applicant further determined that nearly all of the residential buildings on the blocks fronting on 34th Avenue and 108th Street are similarly sized, two- or three-story multiple dwellings, some with ground floor retail; and

WHEREAS, the applicant notes that, all other corner lots with in the surrounding area, are occupied by buildings that do not comply with the two 10-foot front yard and two 8-foot side yard requirements; and

WHEREAS, with respect to adjacent properties, the applicant notes that the proposed building will not impair the use of such properties because of the distance between the proposed building and adjacent buildings; and

WHEREAS, in particular, the proposed building will

MINUTES

be located 13 feet from the adjacent building to the west and 32 feet from the adjacent building to the north; and

WHEREAS, in response to the Board's questions at hearing, the applicant submitted additional evidence demonstrating that the massing of the proposed building will fit in with the built character of the surrounding neighborhood; and

WHEREAS, in response to community concerns and as directed by the Board at hearing, the applicant submits that the two existing trees adjacent to and within the proposed driveway will be relocated, that the curb cut along 108th Street will have a width of 15 feet, which will provide sufficient space for vehicles to maneuver in and out of the parking area, that the drawings for the cellar indicate that there will be no living, sleeping or cooking in the cellar, that the parking area will have sufficient drainage as required for plan approval by the Department of Environmental Protection and the Department of Buildings and that all exterior security lighting will be placed in a manner that will not be an obstruction to neighboring properties by having all light fixture pointed downwards to minimize impacts to neighboring properties; and

WHEREAS, the Board finds that the proposed variance will not alter the essential character of the neighborhood or district in which the subject site is located; will not substantially impair the appropriate use or development of adjacent property; and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that the practical difficulties claimed have not been created by the owner or a predecessor in title because the subject site was owned separately and individually from all other properties on December 15, 1961; and

WHEREAS, in support of this contention, the applicant also searched records of property ownership, historic tax maps and other historic maps dating to 1914 illustrating the subject site with dimensions as it currently exists; and

WHEREAS, in response to questions from the Board at hearing, the applicant further submits that developing the subject site together with Lot 23, which was held in common ownership from 1991 to 1997, would not have alleviated the practical difficulties claimed because the irregular shape of a merged site would still have resulted in a residential development with an extremely narrow building width because of the applicable yard requirements; and

WHEREAS, the Board finds that the above practical difficulties or unnecessary hardship have not been created by the owner or by a predecessor in title; and

WHEREAS, the applicant states that the proposed variance is the minimum necessary to permit a productive use of the subject site; and

WHEREAS, the Board finds that the proposed variance is the minimum necessary to afford relief within the intent and purposes of the Zoning Resolution; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17BSA076Q, dated January 27, 2017; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR § 72-21 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR § 72-21 *permit*, in an R5 zoning district, the development of a residential building that does not comply with zoning regulations for front yards and side yards, contrary to ZR § 23-45 and 23-462; *on condition* that all work, operations and site conditions shall conform to drawings filed with this application marked "Received November 17, 2017"-Nine (9) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: there shall be a front yard with a minimum depth of 5 feet along 108th Street and a side yard with a minimum depth of 3 feet along 34th Avenue;

THAT the above condition shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by July 17, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 17, 2018.

2017-39-BZ

CEQR #17-BSA-084M

APPLICANT – Mango & Lacoviello, LLP, for UBA 90 Franklin LLC, owner; Tracy Anderson Method, lessee.

SUBJECT – Application February 8, 2017 – Special Permit (§73-36) to permit the legalization of the operation of a Physical Culture Establishment (*The Tracy Anderson Method*) to be operated within the cellar and ground floor with mezzanine of an existing building contrary to ZR §32-10. C6-2A (Tribeca East Historic District).

PREMISES AFFECTED – 271 Church Street, Block 175, Block 7504, Borough of Manhattan.

COMMUNITY BOARD #1M

ACTION OF THE BOARD – Application granted on

MINUTES

condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated July 31, 2017, acting on Alteration Application No. 122902868, reads in pertinent part:

“Proposed Physical Culture Establishment . . . is contrary to ZR 32-10”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, in a C6-2A zoning district, the legalization of a physical culture establishment, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on January 30, 2018, after due notice by publication in *The City Record*, with a continued hearing on May 8, 2018, and then to decision on July 17, 2018; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 1, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the northeast corner of Church Street and Franklin Street, in a C6-2A zoning district, in Manhattan; and

WHEREAS, the subject site has approximately 75 feet of frontage along Church Street, 75 feet of frontage along Franklin Street, 5,637 square feet of lot area and is occupied by a 17-story, with cellar and sub-cellar, mixed-use commercial and residential building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or

masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE occupies 5,242 square feet of floor space as follows: 692 square feet of floor area on the first floor, including a lobby area, juice bar, retail area and dining area, 205 square feet of floor area at the mezzanine level, including mechanical equipment, 3,093 square feet of floor space in the cellar, including fitness studios, and locker rooms with restrooms and showers, and 1,252 square feet of floor space in the sub-cellar, including a fitness studio and storage; and

MINUTES

WHEREAS, the PCE has been in operation as the Tracy Anderson Method since September 28, 2016, with the following hours of operation: 5:30 a.m. to 10:00 p.m., Monday through Friday, and 7:00 a.m. to 3:00 p.m., Saturday and Sunday; and

WHEREAS, the applicant represents that the PCE use is consistent with the vibrant commercial area in which it is located, that the PCE use is fully contained within the envelope of an existing building and that the PCE use does not attract any significant additional traffic to the surrounding area; and

WHEREAS, in addition, the applicant submits that sound attenuation measures, including two layers of gypsum wallboard on each side of metal studs with a sound-attenuation blanket and resilient under-layment padding beneath the flooring, have been provided within the space so as to not disturb other tenants in the building; and

WHEREAS, the Board finds that the PCE use is so located as not to impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE provides facilities for classes, instruction and programs for physical improvement; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant submitted evidence that the PCE is fully sprinklered and that an approved fire alarm—including area smoke detectors, manual pull stations at each required exist, local audible and visual alarms and connection to an FDNY-approved central station—has been installed in the entire PCE space; and

WHEREAS, by letter dated May 8, 2018, the Fire Department states that it has no objection to this application; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17-BSA-084M, dated February 8, 2017; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-36 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated without a special permit.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 *per*mit, in a C6-2A zoning district, the legalization of a physical culture establishment, contrary to ZR § 32-10; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked “Received March 20, 2018”-Eight (8) sheets; and *on further condition*:

THAT this grant shall be limited to a term of ten (10) years, expiring September 28, 2026;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum 3'-0" wide exit pathways shall be maintained leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be maintained in the entire PCE space and the PCE shall remain fully sprinklered, as indicated on the Board-approved plans;

THAT sound attenuation shall be maintained in the PCE, as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by July 17, 2018;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 17, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Deputy Borough
Commissioner, dated July 21, 2017, acting on Department of
Buildings Application No. 520304616 reads in pertinent part:

GCL 36; BC 501.3.1: The street giving access to
the proposed building is not duly placed on the
official map of the City of New York therefore:

- A) No certificate of occupancy can be issued
pursuant to Article 3, Section 36 of General
City Law;
- B) Proposed construction does not have at least
8% of the total perimeter of building fronting
directly upon a legally mapped street of
frontage space contrary to Sec 501.3.1 of the
2014 NYC Building Code; and

WHEREAS, this is an application to permit the
construction of three-story plus cellar Use Group 16 storage
facility with frontage solely on Richmond Terrace, an
improved street not duly placed on the official New York City
map, contrary to General City Law (“GCL”) § 36; and

WHEREAS, a public hearing was held on this
application on May 1, 2018, after due notice in *The City
Record*, with a continued hearing on June 26, 2018, and then
to decision on July 17, 2018; and

WHEREAS, Commissioner Ottley-Brown performed an
inspection of the site and the surrounding area; and

WHEREAS, Community Board 1, Staten Island,
recommends approval of this application; and

WHEREAS, the subject site is located on the east side of
Richmond Terrace, between Tompkins Court and Alaska
Street, in an M1-1 zoning district, on Staten Island; and

WHEREAS, the site has approximately 198 feet of
frontage along Richmond Terrace, 13 feet of frontage along
Tompkins Court, 46,634 square feet of lot are and is occupied
by a two-story Use Group 6 commercial building that is
proposed to be enlarged, both horizontally and vertically, and
converted to a three-story plus cellar Use Group 16 storage
facility; and

WHEREAS, the applicant submits that the proposed
enlargement and conversion will comply with all zoning
regulations applicable at the subject site, including those
relating to required parking spaces and loading berths, and
that the building will be fully sprinklered; and

WHEREAS, by letter dated November 30, 2017, the
Office of the Borough President of Staten Island states that an
Opinion of Dedication, dated June 6, 1944, was issued for
Richmond Terrace between Arlington Avenue and Broadway,
which includes the subject portion of Richmond Terrace,
declaring that Richmond Terrace between those boundaries
has been dedicated to the use of the public at widths varying
from about 41.25 feet to 80 feet; and

WHEREAS, a survey of the site submitted by the
applicant represents that Richmond Terrace is paved and has
an average width of approximately 29 feet along the frontage

of the subject site; and

WHEREAS, by letter dated September 26, 2017, the
New York City Department of Environmental Protection
(“DEP”) states that, based on DEP maps, there are 10-inch
and 24-inch diameter City water main, an 8-inch diameter
sanitary sewer and 84-inch diameter interceptor sewer in
Richmond Terrace between Tompkins Court and Alaska
Street; that the Latest Drainage Plan No: PRD-E, Sheet 3 of 3,
dated May 1973, shows two 10-inch diameter sanitary sewers,
a 24/30-inch diameter storm sewer and an 84-inch diameter
interceptor sewer in the bed of Richmond Terrace fronting the
subject site; that the proposed internal sanitary and storm
pipes will be constructed as per Site Connection Proposal
ID#5659, approved on September 15, 2017; that the applicant
has submitted a plan showing the proposed extension of the
existing development; that the owner will maintain the sewer
and water connections and they will not be maintained by the
City of New York; and that based on the above, DEP has no
objections to the subject application; and

WHEREAS, in addition, at the request of the Fire
Department, the applicant proposed a 12-foot gate along the
portion of the subject site fronting Tompkins Court for
emergency and Fire Department use only; and

WHEREAS, by letter dated April 30, 2018, the Fire
Department states that it has no objections to this application
on condition that the entire building development be fully
sprinklered; that the frontage space located at the main front
entrance have roadway markings indicating “NO STANDING
ANYTIME-FIRE ZONE”; that all Siamese connection
locations be maintained free from all obstructions and have a
serviceable hydrant within 100 feet; that an approved sign be
posted in the vicinity of the main front entrance indicating the
direction and distance to all Siamese locations; and that the
internal fire lane indicated on the approved plans have “NO
STANDING ANYTIME” signs posted in compliance with
New York City Fire Code Section 503.2.7.2.1 and this lane be
dedicated exclusively for emergency vehicle access with
approved signage posted at both entry points stating, “FDNY
USE ONLY”; and

WHEREAS, the Board has determined that the applicant
has submitted adequate evidence to warrant approval of the
application subject to certain conditions set forth herein.

Therefore it is Resolved, that the decision of the DOB
dated July 21, 2017, acting on DOB Application No.
520304616, is modified by the power vested in the Board by
Section 36 of the General City Law, and that this appeal is
granted, limited to the decision noted above; *on condition* that
construction shall substantially conform to the drawing filed
with the application marked “Received July 17, 2018”-One
(1) sheet; that the proposal will comply with all applicable
zoning district requirements; and that all other applicable laws,
rules, and regulations shall be complied with; and *on further
condition*:

THAT the proposed internal sanitary and storm pipes
shall be constructed as per Site Connection Proposal ID#5659,
approved by the New York City Department of Environmental
Protection (“DEP”) on September 15, 2017;

MINUTES

THAT the owner of the subject site shall maintain the sewer and water connections at the subject site, which shall not be maintained by the City of New York;

THAT the entire proposed development shall be fully sprinklered;

THAT the frontage space located at the main front entrance shall have roadway markings indicating "NO STANDING ANYTIME-FIRE ZONE," as indicated on the BSA-approved plans;

THAT all Siamese connection locations shall be maintained free from all obstructions and have a serviceable hydrant within 100 feet;

THAT an FDNY-approved sign shall be posted in the vicinity of the main front entrance indicating the direction and distance to all Siamese locations;

THAT the internal fire lane indicated on the approved plans shall have "NO STANDING ANYTIME" signs posted in compliance with New York City Fire Code Section 503.2.7.2.1 and the lane shall be dedicated exclusively for emergency vehicle access with approved signage posted at both entry points stating, "FDNY USE ONLY";

THAT a certificate of occupancy shall be obtained within four (4) years, by July 17, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by DOB;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 17, 2018.

2017-234-A

APPLICANT – Rothkrug Rothkrug & Spector LLP
SUBJECT – Application August 8, 2017 – Proposed construction of a self-storage facility not fronting a legally mapped street contrary to General City Law 36. M1-1 zoning district.

PREMISES AFFECTED – 266 Wild Avenue, Block 2645, Lot 1, Borough of Staten Island.

COMMUNITY BOARD #2SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5
Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Deputy Borough Commissioner, dated July 17, 2017, acting on Department of Buildings Application No. 520305875 reads in pertinent part:

GCL 36, BC 502.1: The street giving access to

proposed building is not duly placed on the official map of the City of New York therefore:

- A) No Certificate of Occupancy can be issued pursuant to Article 3, Section 36 of the General City Law;
- B) Proposed construction does not have at least 8 percent of the total perimeter of building(s) fronting directly upon a legally mapped street or frontage space contrary to section 502.1 of the 2014 NYC Building Code; and

WHEREAS, this is an application to permit the construction of four-story Use Group 16 storage facility with frontage only on Wild Avenue, an improved street not duly placed on the official New York City map, contrary to General City Law ("GCL") § 36; and

WHEREAS, a public hearing was held on this application on May 15, 2018, after due notice in *The City Record*, with a continued hearing on June 26, 2018, and then to decision on July 17, 2018; and

WHEREAS, Community Board 2, Staten Island, recommends disapproval of the subject application, commenting that the Community Board is opposed to construction that does not front on a legally mapped street; and

WHEREAS, the subject site is bound by Wild Avenue to the west, Dean Avenue to the east, Cartledge Avenue to the north and Walton Avenue to the south, and is located approximately 226 feet south of the southeastern corner of Wild Avenue and Beresford Avenue, in an M1-1 zoning district, on Staten Island; and

WHEREAS, neither Cartledge Avenue, Dean Avenue nor Walton Avenue are open, paved or improved streets; and

WHEREAS, the site has approximately 251 feet of frontage along Wild Avenue, 250 feet of frontage along Dean Avenue, 128,032 square feet of lot coverage and is currently vacant; and

WHEREAS, the applicant seeks the subject relief to develop a four-story Use Group 16 self-storage building that will front only on Wild Avenue, an existing street not duly placed on the official New York City map; and

WHEREAS, the applicant submits that the proposed development will comply with all zoning regulations applicable in the subject zoning district, including those relating to accessory parking and loading berths, and that the proposed building will be sprinklered in conformance with the New York City Fire Code; and

WHEREAS, by letter dated December 14, 2005, the Office of the Borough President of Staten Island states that an Opinion of Dedication was issued for a 60 feet wide portion of Wild Avenue between Walton Avenue and Beresford Avenue as in-use on November 17, 1925, but that while Dean Avenue and Walton Avenue each have a record width of 50 feet at the subject site, neither street has a final mapped width nor a title or opinion of dedication; and

WHEREAS, a survey of the site submitted by the applicant represents that Wild Avenue is paved to a width of approximately 38 feet at the subject location; and

MINUTES

WHEREAS, by letter dated July 17, 2018, the New York City Department of Environmental Protection (“DEP”) states that there is a 12 inch diameter city water main and 12 inch diameter sanitary sewer in Wild Avenue at the subject location, but that there are no sewers or water mains inside the subject lot; that the latest Drainage Plan dated October 8, 1924, showing the location, sizes and grades of a system of temporary sanitary sewers in Linoleumville in the Third Ward, shows 12 inch diameter sanitary sewer in the bed of Wild Avenue at the subject location; that the proposed sanitary and storm for the proposed structure will be discharged as per the certified Site Connection Proposal (SCP) ID # 6911, dated March 30, 2018, and that all sanitary, storm and water connections will be maintained by the owners of the subject site, not the City of New York, and on those bases, DEP has no objection the subject application.

WHEREAS, by communication dated July 16, 2018, the Fire Department states that the lanes around the building shown on the site plan submitted by the applicant are fire lanes and Fire Apparatus Access Roads pursuant to the New York City Fire Code and are therefore required to conform to the minimum standard for commercial occupancy, specifically, the lane at the front of the building must run parallel to it and be at least 30 feet wide; and

WHEREAS, the applicant subsequently revised the site plan to indicate a 30 foot by 30 foot unobstructed area at the front of the proposed building designated for Fire Department purposes and grass pavers to be installed at the landscaped area fronting Wild Avenue in order to allow for a wider drivable surface at the front of the proposed building; and

WHEREAS, the Board has determined that the applicant has submitted adequate evidence to warrant approval of the application subject to certain conditions set forth herein.

Therefore it is Resolved, that the decision of the DOB dated July 17, 2017, acting on DOB Application No. 520305875, is modified by the power vested in the Board by Section 36 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked “Received July 17, 2018”-One (1) sheet; that the proposal will comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT the proposed building shall be fully sprinklered;

THAT the proposed sanitary and storm for the proposed structure shall be discharged as per the certified Site Connection Proposal (SCP) ID # 6911, dated March 30, 2018;

THAT all sanitary, storm and water connections will be maintained by the owners of the subject site, not the City of New York, and on those bases;

THAT the 30 foot square area at the front of the proposed building be maintained open and unobstructed, as indicated on the Board-approved plans;

THAT grass pavers shall be installed and maintained as shown on the Board-approved plans;

THAT a certificate of occupancy shall be obtained

within four (4) years, by July 17, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by DOB;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 17, 2018.

Recused: Chair Perlmutter.....1

THE RESOLUTION –

WHEREAS, the building permit issued by the Department of Buildings (“DOB”) on September 27, 2017, under New Building Application No. 122887224 (the “Permit”), authorizes construction of a 55-story residential and community-facility building with 112 dwelling units and a total height of 668 feet (the “New Building”) by Amsterdam Avenue Redevelopment Associates, LLC (the “Owner”) on a development site with 110,794 square feet of lot area (the “Development Site”); and

WHEREAS, this is an appeal for interpretation under Section 72-11 of the Zoning Resolution of the City of New York (“ZR” or the “Zoning Resolution”) and Section 666(6)(a) of the New York City Charter, brought on behalf of the Committee for Environmentally Sound Development (“Appellant”), alleging errors in the Permit pertaining to (i) whether the Development Site complies with the Zoning Resolution’s “zoning lot” definition and (ii) whether ground-level open areas on the Development Site comply with the Zoning Resolution’s “open space” regulations; and

WHEREAS, for the reasons that follow, a majority of the Board denies this appeal; and

WHEREAS, a public hearing was held on this application on March 27, 2018, after due notice by

publication in *The City Record*, with a continued hearing on June 5, 2018, and then to decision on July 17, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 7, Manhattan, submitted testimony in support of this appeal, stating that the New Building is inappropriate and out of context with the surrounding neighborhood, that no rational person could view the Development Site as a single lot and that a significant portion of the open space claimed is unavailable to the public; and

WHEREAS, 170 West End Avenue Condominium (the “Condominium”), a residential condominium located on the subject block outside the bounds of the Development Site and represented by counsel in this appeal, states that it takes no position with respect to the issues presented in this appeal insofar as they do not implicate the Condominium’s accessory parking and that 26 off-street parking spaces located behind the New Building are lawful and permitted under the Zoning Resolution; and

WHEREAS, New York State Assemblymember Richard N. Gottfried and State Senator Brad Hoylman submitted testimony in support of this appeal, stating that the project fails to comply with the “zoning lot” definition because it is not comprised of whole tax lots and fails to comply with applicable “open space” regulations and that these compliance failures are an abuse of zoning regulations that render the New Building contextually out of scale; and

WHEREAS, New York State Assemblymember Linda B. Rosenthal, State Senator Brad Holyman and Comptroller Scott M. Stringer submitted testimony in support of this appeal, stating that creative interpretations of the Zoning Resolution slowly chip away at the quality of life and character of the City’s residential areas; and

WHEREAS, a majority of the New York City Council submitted testimony in support of this appeal, stating that divorcing zoning lots from the tax lots on a block makes ensuring compliance with the Zoning Resolution dramatically more difficult and that having zoning lot lines coincide with tax lot lines promotes clarity and transparency; and

WHEREAS, New York City Comptroller Scott M. Stringer submitted testimony in support of this appeal, stating that the Owner creatively interpreted the City’s zoning regulations to create a tower on the Upper West Side by merging various tax lots to create one zoning lot and by claiming the neighboring property’s open space as its own and that the City must do more to prevent the construction of inappropriately sited towers throughout the City and ensure that all development complies with the intent and letter of the law; and

WHEREAS, Manhattan Borough President Gale A. Brewer submitted testimony in support of this appeal, stating that interpreting the Zoning Resolution in such a way as to allow for the New Building is a mistake, makes for bad public policy and goes against the spirit and intent of the

MINUTES

Zoning Resolution; and

WHEREAS, New York City Council Member Helen Rosenthal submitted testimony in support of this appeal, stating that the Development Site runs counter to the most logical interpretation of the text of the Zoning Resolution in an unprecedented manner, that divorcing zoning lots from tax lot lines would make ensuring compliance with the Zoning Resolution dramatically more difficult and that the Development Site inappropriately counts inaccessible and unusable area as open space; and

WHEREAS, the American Institute of Architects New York Chapter submitted testimony in opposition to this appeal, stating that professionals that work on buildings, such as architects, need a predictable set of zoning rules in order to design and program buildings and that as-of-right zoning affords architects and their clients that predictability; and

WHEREAS, the Municipal Art Society of New York submitted testimony in support of this appeal, stating that the Development Site does not comply with the “zoning lot” definition because it contains two entire tax lots and small portions of four tax lots; and

WHEREAS, the Real Estate Board of New York submitted testimony in opposition to this appeal, stating that the City’s as-of-right framework embodied in the Zoning Resolution is meant to encourage predictability in an industry where financing needs predictability, especially when market conditions can be unpredictable, that the Permit was only granted after an exhaustive DOB review, including a rigorous audit, and that this appeal is based on a faulty interpretation of the Zoning Resolution; and

WHEREAS, the New York Building Congress submitted testimony in opposition to this appeal, stating that granting this appeal would be unprecedented and clearly stifle current and future investment, that the process for reviewing and approving the Permit was transparent and consistent with the City’s procedures and that two other buildings have been permitted to be built as-of-right on the same lot: 170 Amsterdam and 180 Amsterdam; and

WHEREAS, Landmark West! submitted testimony in support of this appeal, stating that the Permit is invalid because allowing the merger of portions of tax lots in order to take advantage of certain development rights relating to the merged lots is erroneous; and

WHEREAS, a practicing architect and planner submitted testimony in opposition to this appeal, stating that the Zoning Resolution regulates the real-estate industry in accordance with the City’s public and planning policies, that the key to its success has been the ability it gives owners and builders to proceed with as-of-right development, that the Department of City Planning invests substantial resources in evaluating and updating the Zoning Resolution both to reflect its evolving planning goals for the City and to correct errors and inconsistencies in the text and that City Planning takes action to legislatively clarify or amend the text when it disagrees with an interpretation; and

WHEREAS, PNC Real Estate submitted testimony in

opposition to this appeal, stating that zoning lot mergers have been considered “as of right” actions and that ensuring that the decisions of city government not be reversed is important to the lending and investment communities; and

WHEREAS, Association for a Better New York submitted testimony in opposition to this appeal, stating that upholding the Permit ensures a measure of predictability and confidence in the issuance of as-of-right building permits and that there is a consistent history of allowing partial zoning lot mergers; and

WHEREAS, the Sierra Club New York City Group submitted testimony in support of this appeal, stating that the Development Site does not comply with applicable “open space” requirements; and

WHEREAS, the West 68th Street Block Association Inc. submitted testimony in support of this appeal, stating that the New Building will have negative impacts on light, air, infrastructure and other quality-of-life necessities in the community; and

WHEREAS, West End Preservation Society submitted testimony in support of this appeal, stating that the Development Site does not comply with the “zoning lot” definition because it consists of portions of tax lots; and

WHEREAS, a planner submitted testimony in support of this appeal, stating that zoning lots are composed of one or more tax lots and that there is insufficient data on zoning lots; and

WHEREAS, the Board also received letters and heard testimony from neighbors, organizations and concerned members of the public in support of and in opposition to this appeal; and

BACKGROUND AND PROCEDURAL HISTORY

WHEREAS, the subject block is bounded by Amsterdam Avenue, West 66th Street, West End Avenue and West 70th Street; and

WHEREAS, the subject block includes five buildings located at 140 West End Avenue, 150 West End Avenue, 160 West End Avenue, 170 West End Avenue and 180 West End Avenue, which were developed on a single parcel of land; and

WHEREAS, said parcel of land was subdivided in April 1987 into two separate parcels: one improved with existing buildings and one unimproved (the “Parcel”); and

WHEREAS, the Parcel was merged in May 1987 with adjacent land parcels located at 162 Amsterdam Avenue, 170 Amsterdam Avenue and 200 West End Avenue, forming a larger parcel that was again enlarged in 2007 with land located at 200 Amsterdam Avenue to form a combined land parcel (the “Combined Land Parcel”); and

WHEREAS, in 2015, the Combined Land Parcel was subdivided to form two separate land parcels, the first of which was entitled “Zoning Lot 1” by the Declaration with Respect to Subdivision of Zoning Lot, City Register File No. 2015000209093, dated as of June 11, 2015 (the “Zoning Lot Declaration”); and

WHEREAS, the second land parcel, entitled “Zoning Lot 2” by the Zoning Lot Declaration, is the subject of this

MINUTES

appeal: the Development Site; and

WHEREAS, the Development Site is located on the west side of Amsterdam Avenue, between West 70th Street and West 66th Street, partially in an R8 (C2-5) zoning district and partially in an R8 zoning district, in Manhattan; and

WHEREAS, the Development Site has approximately 110,794 square feet of lot area, 153 feet of frontage along Amsterdam Avenue, 224 feet of frontage along West End Avenue, 100 feet of frontage along West 70th Street, 800 feet of depth and is improved with an existing 27-story building with work begun on the New Building; and

WHEREAS, on September 27, 2017, DOB issued the Permit to allow construction of the New Building on the Development Site in accordance with the DOB-approved plans (the "Plans"), and Appellant commenced this appeal on October 27, 2017; and

ZONING PROVISIONS

WHEREAS, ZR § 12-10 (italicized words in original to indicate defined terms) defines a "zoning lot" as follows:

A "zoning lot" is either:

- (a) a lot of record existing on December 15, 1961 or any applicable subsequent amendment thereto;
- (b) a tract of land, either unsubdivided or consisting of two or more contiguous lots of record, located within a single *block*, which, on December 15, 1961 or any applicable subsequent amendment thereto, was in single ownership;
- (c) a tract of land, either unsubdivided or consisting of two or more lots of record contiguous for a minimum of ten linear feet, located within a single *block*, which at the time of filing for a building permit (or, if no building permit is required, at the time of the filing for a certificate of occupancy) is under single fee ownership and with respect to which each party having any interest therein is a party in interest (as defined herein); or
- (d) a tract of land, either unsubdivided or consisting of two or more lots of record contiguous for a minimum of ten linear feet, located within a single *block*, which at the time of filing for a building permit (or, if no building permit is required, at the time of filing for a certificate of occupancy) is declared to be a tract of land to be treated as one *zoning lot* for the purpose of this Resolution. Such declaration shall be made in one written Declaration of Restrictions covering all of such tract of land or in separate written Declarations of Restrictions covering parts of such tract of land and which in the aggregate cover the entire tract of land comprising the *zoning lot*. Any Declaration of Restrictions or Declarations of

Restrictions which individually or collectively cover a tract of land are referred to herein as "Declarations". Each Declaration shall be executed by each party in interest (as defined herein) in the portion of such tract of land covered by such Declaration (excepting any such party as shall have waived its right to execute such Declaration in a written instrument executed by such party in recordable form and recorded at or prior to the recording of the Declaration). Each Declaration and waiver of right to execute a Declaration shall be recorded in the Conveyances Section of the Office of the City Register or, if applicable, the County Clerk's Office of the county in which such tract of land is located, against each lot of record constituting a portion of the land covered by such Declaration.

A *zoning lot*, therefore, may or may not coincide with a lot as shown on the official tax map of the City of New York, or on any recorded subdivision plat or deed.

Parcels within City-owned tracts of land located in Broad Channel within the boundaries of Community Board 14 in the Borough of Queens that were numerically identified for leasing purposes on maps filed in the Office of Borough President prior to December 15, 1961, may be considered as individual lots of record as of September 10, 1981.

- (e) For purposes of the provisions of paragraph (c) hereof:
 - (1) Prior to issuing a building permit or a certificate of occupancy, as the case may be, the Department of Buildings shall be furnished with a certificate issued to the applicant therefor by a title insurance company licensed to do business in the State of New York showing that each party having any interest in the subject tract of land is a party in interest (as defined herein); except that where the City of New York is a fee owner, such certificate may be issued by the New York City Law Department; and
 - (2) A "party in interest" in the tract of land shall include only (W) the fee owner thereof, (X) the holder of any enforceable recorded interest superior to that of the fee owner and which could result in such holder obtaining possession of all or substantially all of such tract of land, (Y) the holder of any enforceable recorded interest in all or substantially all of such tract of land which would be adversely affected by

MINUTES

- the development thereof and (Z) the holder of any unrecorded interest in all or substantially all of such tract of land which would be superior to and adversely affected by the development thereof and which would be disclosed by a physical inspection of the tract of land.
- (f) For purposes of the provisions of paragraph (d) hereof:
- (1) Prior to issuing a building permit or a certificate of occupancy, as the case may be, the Department of Buildings shall be furnished with a certificate issued to the applicant therefor by a title insurance company licensed to do business in the State of New York showing that each party in interest (excepting those parties waiving their respective rights to join therein, as set forth in this definition) has executed the Declaration and that the same, as well as each such waiver, have been duly recorded; except that where the City of New York is a fee owner, such certificate may be issued by the New York City Law Department;
 - (2) The Buildings Department, in issuing a building permit for construction of a *building or other structure* on the *zoning lot* declared pursuant to paragraph (d) above or, if no building permit is required, in issuing a certificate of occupancy for such *building or other structure*, shall accept an application for same from and, if all conditions for issuance of same are fulfilled, shall issue same to any party to the Declaration;
 - (3) By their execution and recording of a Declaration, the parties to the Declaration, and all parties who have waived their respective rights to execute such Declaration, shall be deemed to have agreed that no breach by any party to the Declaration, or any agreement ancillary thereto, shall have any effect on the treatment of the tract of land covered by the Declaration as one *zoning lot* for purposes of this Resolution and such tract of land shall be treated as one *zoning lot* unless such *zoning lot* is subdivided in accordance with the provisions of this Resolution; and
 - (4) A “party in interest” in the portion of the tract of land covered by a Declaration shall include only (W) the fee owner or owners thereof, (X) the holder of any enforceable recorded interest in all or

part thereof which would be superior to the Declaration and which could result in such holder obtaining possession of any portion of such tract of land, (Y) the holder of any enforceable recorded interest in all or part thereof which would be adversely affected by the Declaration, and (Z) the holder of any unrecorded interest in all or part thereof which would be superior to and adversely affected by the Declaration and which would be disclosed by a physical inspection of the portion of the tract of land covered by the Declaration.

A *zoning lot* may be subdivided into two or more *zoning lots*, provided that all resulting *zoning lots* and all *buildings* thereon shall comply with all of the applicable provisions of this Resolution. If such *zoning lot*, however, is occupied by a *non-complying building*, such *zoning lot* may be subdivided provided such subdivision does not create a new *non-compliance* or increase the degree of *non-compliance* of such *building*.

Where ownership of a *zoning lot* or portion thereof was effected prior to the effective date of this amendment, as evidenced by an attorney’s affidavit, any *development*, *enlargement* or alteration on such *zoning lot* may be based upon such prior effected ownership as then defined in the *zoning lot* definition of Section 12-10. Such prior leasehold agreements shall be duly recorded prior to August 1, 1978.

Prior to the issuance of any permit for a *development* or *enlargement* pursuant to this Resolution a complete metes and bounds of the *zoning lot*, the tax lot number, the block number and the ownership of the *zoning lot* as set forth in paragraphs (a), (b), (c) and (d) herein shall be recorded by the applicant in the Conveyances Section of the Office of the City Register (or, if applicable, the County Clerk’s Office) of the county in which the said *zoning lot* is located. The *zoning lot* definition in effect prior to the effective date of this amendment shall continue to apply to Board of Standards and Appeals approvals in effect at the effective date hereof; and

WHEREAS, ZR § 12-10 defines “open space,” in pertinent part, as follows:

“Open space” is that part of a *zoning lot*, including *courts* or *yards*, which is open and unobstructed from its lowest level to the sky and is accessible to and usable by all persons occupying a *dwelling unit* or a *rooming unit* on the *zoning lot*; and

WHEREAS, ZR § 25-64 provides, in relevant part: Restrictions on the use of open space for parking and driveways are set forth in this Section, in

MINUTES

accordance with the provisions of Section 23-12 (Permitted Obstructions in Open Space). . . .

- (c) In R6, R7, R8, R9 and R10 Districts without a letter suffix, driveways, private streets, open *accessory* off-street parking spaces, unenclosed *accessory* bicycle parking spaces or open *accessory* off-street loading berths may not use more than 50 percent of the required *open space* on any *zoning lot*. The provisions of this paragraph, (c), shall not apply to *Quality Housing buildings*; and

WHEREAS, ZR § 23-12 states, in relevant part: In the districts indicated, the following obstructions shall be permitted in any *open space* required on a *zoning lot*:

- (e) Driveways, private streets, open *accessory* off-street parking spaces, unenclosed *accessory* bicycle parking spaces or open *accessory* off-street loading berths, provided that the total area occupied by all these items does not exceed the percentages set forth in Section 25-64 (Restrictions on Use of Open Space for Parking); and

ISSUES PRESENTED

WHEREAS, there are two issues¹ in this appeal: (i) whether the Development Site complies with the Zoning Resolution's "zoning lot" definition and (ii) whether ground-level open areas on the Development Site comply with the Zoning Resolution's "open space" requirements; and

APPELLANT'S POSITION

WHEREAS, Appellant states that this appeal should be granted because the Development Site does not comply with the requirements of the "zoning lot" definition of ZR § 12-10 and because the ground-level open areas on the Development Site do not meet the "open space" definition and applicable zoning requirements under ZR §§ 12-10, 25-64 and 23-12; and

I. ZONING LOT

WHEREAS, Appellant states that the Development Site does not comply with the "zoning lot" definition because it does not consist of lots of record, meaning entire tax lots as shown on the official tax map of the City of New York; and

WHEREAS, Appellant states that paragraph (d) of the "zoning lot" definition requires that the lots to be merged by declaration into a single zoning lot must be "lots of record" and that "lot," "of record" and "lot of record" are undefined

¹ Appellant also requests revocation of the Permit; however, Appellant has not presented the Board with a timely, signed final determination from DOB refusing to revoke the Permit as required by the Board's Rules of Practice and Procedure. See 2 Rules of the City of New York ("RCNY") § 1-06.3(a). Furthermore, as discussed herein, Appellant has failed to demonstrate that the Permit violates any applicable provision of law, so the Board need not—and does not—consider revocation of the Permit in this appeal.

by the Zoning Resolution; and

WHEREAS, Appellant states that "lot of record" in subdivision (a) of the "zoning lot" definition means "a lot as shown on the official tax map" and that lots shown on the tax map are entire tax lots, the dimensions of which generally correspond with deeds of ownership recorded in the City Register's Office; and

WHEREAS, Appellant states that "of record" in subdivisions (b), (c) and (d) has the same meaning: tax lots shown on the official tax map; and

WHEREAS, Appellant states that the Development Site does not consist of a series of tax lots, but of disparate, isolated bits and pieces of tax lots strung together with narrow threads made up of other bits and pieces of lots; and

WHEREAS, Appellant states that portions of the various tax lots that make up the Development Site are not, themselves, "lots," as the term is used in the "zoning lot" definition; and

WHEREAS, Appellant states that the parts of the tax lots were also not "of record" prior to the creation of the Development Site and that, for something to be "of record," it must be recorded; and

WHEREAS, Appellant states that *609 Bayside Drive, Queens*, BSA Cal. No. 229-06-A (Jan. 13, 2009), identified by the Owner as supporting the Owner's position, is distinguishable from the Development Site because Breezy Point's lots were unique, were established prior to December 15, 1961, and does not stand for the proposition that a partial tax lot is a lot of record; and

WHEREAS, Appellant states that, for two or more lots to be declared a zoning lot, they must be contiguous for a minimum of 10 linear feet and they must be "lots of record" pursuant to paragraph (d) of the "zoning lot" definition; and

WHEREAS, Appellant states that the Development Site does not consist of "two or more lots of record" because the phrase "two or more" necessarily indicates that fractions of tax lots are not permitted under paragraph (d) of the "zoning lot" definition; and

WHEREAS, Appellant states that, because the Development Site is not composed of entire tax lots, it does not meet paragraph (d) of the "zoning lot" definition; and

WHEREAS, Appellant states that the Development Site is also not an "unsubdivided" "tract of land" because an unsubdivided tract of land is a single lot of record, meaning a single tax lot; and

WHEREAS, Appellant states that the Department of City Planning's *Zoning Handbook* translates "a tract of land, either unsubdivided or consisting of two or more lots of record . . . within a single *block*" from the Zoning Resolution into "plain English" as "a tract of land comprising a single tax lot or two or more adjacent tax lots within a block"²; and

² The disclaimer to the *Zoning Handbook* (2011) explicitly states that it "provides a brief overview of the zoning rules and regulations of New York City and is not intended to serve as a substitute for the actual regulations which are to

MINUTES

WHEREAS, Appellant concludes, therefore, that an “unsubdivided tract of land” is equivalent to a single lot of record, which is equivalent to a single tax lot; and

WHEREAS, Appellant states that the passing reference to “parts of tax lots” in a DOB Memorandum issued by Irving E. Minkin, P.E., Acting Commissioner, dated May 18, 1978 (the “Minkin Memorandum”), entered into the record by the Owner in this appeal, is unavailing because elsewhere it references “Tax Lot(s)” and states “as shown on the Tax Map of the City of New York”; and

WHEREAS, Appellant states that the phrase “parts of tax lots” does not appear in the “zoning lot” definition or anywhere else in the Zoning Resolution and that such language cannot be imported into the text by interpretation; and

WHEREAS, accordingly, Appellant states that, because the Development Site includes parts of tax lots, it is neither an “unsubdivided” “tract of land” nor does it “consist[] of two or more lots of record” and, accordingly, does not meet paragraph (d) of the “zoning lot” definition; and

II. OPEN SPACE

WHEREAS, Appellant states that ground-level open areas on the Development Site do not meet the “open space” definition and do not comply with zoning regulations for permitted obstructions; and

WHEREAS, Appellant states that the “odd bits, pieces and strips of open space” do not meet the “open space” definition because said areas are not “accessible to and usable by” residents of the Development Site; and

WHEREAS, Appellant states that ZR § 23-151 only provides for the quantity—not quality—of open space but that the ground-level open areas are not “usable” in any meaningful sense as the word is used in the “open space” definition, ZR § 12-10; and

WHEREAS, Appellant states that ZR § 78-52 gives indication of the intended use and purpose of required unobstructed open space by requiring that, in large-scale residential developments, “common open space” “shall include both active and passive recreation space providing a range of recreational facilities and activities” and “be landscaped”; and

WHEREAS, Appellant states that parking spaces³ and

be found in the Zoning Resolution The City disclaims any liability for errors that may be contained herein and shall not be responsible for any damages, consequential or actual, arising out of or in connection with the use of this information.”

³ Appellant also states that the existing parking spaces are not a joint facility under ZR § 25-52 that would be a permitted obstruction under ZR § 23-12. DOB states that the Plans neither reflect that accessory parking spaces are to be provided for the New Building nor propose or show existing open parking spaces on the Development Site. The Owner states that it is exploring the establishment of a joint parking facility in the rear yard area. However, the Board is only

driveways that exist on the Development Site “may be presumed” to be accessory parking for occupants of residential buildings located on the same block but not within the Development Site; and

WHEREAS, Appellant states that, because the existing parking spaces are accessory to and used by persons occupying dwelling units off the Development Site, said parking spaces cannot also be used by persons occupying dwelling units on the Development Site; and

WHEREAS, Appellant states that, although generally driveways and open accessory parking spaces are permitted obstructions in required open space under ZR §§ 23-12 and 25-64, portions of the driveways and parking spaces located on the Development Site are actually accessory to residential buildings off the Development Site, contrary to the “accessory use” definition in ZR § 12-10; and

WHEREAS, accordingly, Appellant states that the Development Site’s ground-level open areas do not comply with the Zoning Resolution’s “open space” requirements; and

DOB’S POSITION

WHEREAS, DOB states that this appeal should be denied because the Development Site meets DOB’s currently-in-effect “historical interpretation” of the “zoning lot” definition of ZR § 12-10 and because the ground-level open areas on the Development Site meet the “open space” definition and applicable zoning requirements of ZR §§ 12-10, 25-64 and 23-12; and

I. ZONING LOT

WHEREAS, DOB states that the Development Site complies with DOB’s currently-in-effect “historical interpretation” of paragraph (d) of the “zoning lot” definition because it complies with the Minkin Memorandum; and

WHEREAS, DOB states that the Minkin Memorandum is currently applicable to construction applications and that the Minkin Memorandum reflects a “longstanding, plausible, and consistent” interpretation of the “zoning lot” definition; and

WHEREAS, DOB states that the Minkin Memorandum summarizes the applicability of 1977 zoning amendments, which added paragraph (d) to the “zoning lot” definition, regarding what constitutes a zoning lot, and notes that the Minkin Memorandum states that “a single zoning lot, which may consist of one or more tax lots or parts of tax lots”; and

WHEREAS, DOB states that this interpretation that a zoning lot may consist of parts of tax lots is supported by the “zoning lot” definition of ZR § 12-10, which states that a zoning lot “may or may not coincide with a lot as shown on the official tax map of the City of New York”; and

WHEREAS, DOB states that, since a zoning lot has

considering the issues presented as they pertain to construction authorized by the Permit pursuant to the Plans approved for the New Building, which do not propose a joint facility.

MINUTES

not historically needed to coincide with a tax map, it seems that tax lots could be bifurcated by zoning lot lines⁴; and

WHEREAS, accordingly, DOB states that, while Appellant's proffered interpretation that zoning lots cannot include partial tax lots promotes clarity and transparency, the Development Site complies with DOB's currently-in-effect "historical interpretation" of paragraph (d) of the "zoning lot" definition; and

II. OPEN SPACE

WHEREAS, DOB states that, according to the Plans, the Development Site provides the required 77,643 square feet of open space for residents of the Development Site; and

WHEREAS, DOB states that ground-level open areas comply with the "open space" definition of ZR § 12-10

4 DOB submitted further testimony in support of a draft Buildings Bulletin, which is non-final, not in effect, not before the Board and beyond the scope of this appeal. See 2 RCNY § 1-06.3(a). In so doing, DOB states that the Minkin Memorandum is an erroneous interpretation of the "zoning lot" definition and that, because of a need to clarify the requirements for forming zoning lots, DOB is in the process of writing a Buildings Bulletin to set forth the administrative procedures and forms required to create and verify the formation of a zoning lot. DOB states that, under its not-in-effect "current interpretation," the Minkin Memorandum is erroneous because the "zoning lot" definition indicates that zoning lots cannot consist of partial tax lots, because partial tax lots cannot be lots "of record," because the evidence previously relied upon by DOB (that zoning lots can consist of partial tax lots) is erroneous and because interpreting zoning lots to only allow tax lots in the entirety makes for good public policy by promoting clarity and transparency. DOB states that "lots of record" refer only to complete tax lots because a Declaration of Restrictions must be recorded "against each lot of record constituting a portion of the land covered by such Declaration" under paragraph (d) of the "zoning lot" definition. DOB states that the 1961 "zoning lot" definition did permit zoning lots to contain partial tax lots, though the 1977 amendment added a requirement that zoning lots may only contain entire tax lots, that this explains the Minkin Memorandum's error, that the term "unsubdivided" refers to a single tax lot and that the "may or may not coincide" language reflects that a zoning lot may consist of two or more tax lots. However, nothing in the record indicates that what DOB describes as its "current interpretation" is currently in effect or being applied to applications for development or enlargement or that the Minkin Memorandum has been rescinded or superseded. To the contrary, statements in the record indicate that the Buildings Bulletin setting forth DOB's not-in-effect "current interpretation" is still in draft—not final—form. Accordingly, the Board considers this appeal with the understanding that, as represented by DOB, in issuing the Permit, DOB applied the Minkin Memorandum's interpretation to the Development Site.

because they will be "accessible to and usable by" residents of the Development Site; and

WHEREAS, DOB states that, contrary to Appellant's analogy to the "common open space" provision of ZR § 78-52, which requires "active and passive recreation space" for large-scale residential developments, the general "open space" definition, which is applicable to the Development Site, contains no such requirement; and

WHEREAS, DOB states that Appellant's analogies to ZR §§ 136-324 and 141-33 similarly fail because they contain specific requirements for "publicly accessible" open space and for "special" open space, which are distinct from the general definition of "open space"; and

WHEREAS, DOB states that driveways are permitted obstructions in required open space under ZR §§ 23-12 and 25-64; and

WHEREAS, DOB states that ZR § 25-64 adds the limitation that driveways and other specified permitted obstructions "may not use more than 50 percent" of the open space required; and

WHEREAS, DOB states that the Plans indicate that the Development Site's open space contains 12.6 percent permitted obstructions, which is less than the 50 percent maximum; and

WHEREAS, DOB states that Appellants would add the word "accessory" before word "driveways" in ZR §§ 23-12 and 25-64 but that neither provision states "accessory driveways," while providing that other obstructions (bicycle parking spaces, off-street loading berths and open off-street parking spaces) must be accessory, suggesting that driveways need not be "accessory" to qualify as permitted obstructions under ZR §§ 23-12 and 25-64; and

WHEREAS, DOB states that, according to the Plans, no accessory parking spaces are proposed for the New Building and that, to the extent parking spaces would be proposed in the rear yard of the New Building, the Plans would need to be revised to reflect their existence with their legality to be demonstrated by the Owner; and

WHEREAS, in response to questions from the Board at the first hearing regarding whether non-compliance with "open space" provisions would render the Permit invalid, DOB states that open space requirements must be satisfied at the time of permit issuance and during the final inspection prior to the issuance of a certificate of occupancy; and

WHEREAS, in response to questions from the Board at the second hearing regarding the status of the parking, DOB states that the parking in the Development Site's open space is lawful permitted parking accessory to 170 West End Avenue because the 26 parking spaces located on the Development Site were lawfully established prior to 1961 as accessory parking spaces serving 170 West End Avenue; and

WHEREAS, accordingly, DOB states that the Development Site's ground-level open areas comply with applicable "open space" requirements of ZR §§ 12-10, 25-64 and 23-12; and

OWNER'S POSITION

MINUTES

WHEREAS, the Owner states that this appeal should be denied because the Development Site, which includes parts of tax lots, meets the “zoning lot” definition of ZR § 12-10 and because ground-level open areas on the Development Site meet the “open space” definition and applicable zoning requirements of ZR §§ 12-10, 25-64 and 23-12; and

I. ZONING LOT

WHEREAS, the Owner states that the Development Site complies with paragraph (d) of the “zoning lot” definition because it is an unsubdivided tract of land that was “declared to be a tract of land to be treated as” a single zoning lot; and

WHEREAS, the Owner states that a “lot of record” may be something other than a tax lot and that a zoning lot may be an unsubdivided portion of land that does not correspond to lots of record; and

WHEREAS, the Owner states that the City’s first zoning regulations, the Building Zone Resolution (1916), as amended through 1960, originally defined “lot” as synonymous with a development plot—any plot of land that could or would be developed—and subsequently clarified its definition to be “a parcel or plot of ground which is or may be occupied by a building and accessory buildings including the open spaces required by this resolution”; and

WHEREAS, the Owner states that the reports *Plan for Rezoning the City of New York* (Oct. 1950) by Harrison, Ballard & Allen and *Zoning New York City: A Proposal for a Zoning Resolution for the City of New York Submitted to the City Planning Commission* (Aug. 1958) by Voorhees Walker Smith & Smith evince a clear distinction between zoning lots and tax lots intended to allow real-estate developers wide latitude and flexibility in distributing bulk across a parcel of land, delineated from surrounding parcels by the boundaries of a zoning lot, not a tax lot; and

WHEREAS, the Owner states that the comprehensive amendment to the Zoning Resolution (1961) codifies this flexibility while protecting the lawful status of existing buildings and of tracts of land that would be rendered non-complying by implementation of this comprehensive amendment; and

WHEREAS, the Owner states that, in *609 Bayside Drive, Queens*, BSA Cal. No. 229-06-A (Jan. 13, 2009), as upheld in *Golia v. Srinivasan*, 95 A.D.3d 628, 630 (N.Y. App. Div. 2012), treatment by DOB and by the Board of a plot of land in the Breezy Point Cooperative as a separate zoning lot distinct from the cooperative’s larger, single tax lot indicates that a partial tax lot can be a “lot of record” as referenced in the “zoning lot” definition; and

WHEREAS, the Owner states that, as added in 1977, paragraph (d) of the “zoning lot” definition allows for the complex assemblage of contiguous parcels of land to be declared a single zoning lot and does not contain any requirement that said parcels correspond to entire tax lots; and

WHEREAS, the Owner states that, as used in the “zoning lot” definition, an “unsubdivided” tract of land

refers to something other than a single lot of record and something other than two or more lots of record; and

WHEREAS, the Owner states that there are few, but scant, instances where the Zoning Resolution uses the term “tax lot” and that these references generally refer to recording requirements or perform a tracking function associated with (E) designations’ environmental restrictions; and

WHEREAS, the Owner states that the Minkin Memorandum indicates that a “single zoning lot . . . may consist of one or more tax lots or parts of tax lots” and that “boundaries of such zoning lot may or may not coincide with its comprising tax lots”; and

WHEREAS, the Owner states that tax lots and zoning lots serve different purposes: tax lots are established to identify owners to whom tax bills may be sent and zoning lots are delineated for applying zoning regulations to a parcel of land; and

WHEREAS, in response to questions from the Board at the first hearing regarding the meaning of “lot of record,” the Owner states that the more reasonable meaning of “lot of record” is either its historic and common meaning as a lot that, if located within the City of New York, has been recorded in the office of the City Register or as a lot shown on DOB’s records as available for development or already developed; and

WHEREAS, the Owner states that a memorandum issued by Department of City Planning Counsel William Valletta (Dec. 28, 1987) (the “Valletta Memorandum”) shows that “lot of record” does not equate to “tax lot” and that a zoning lot may contain a partial tax lot because it takes care to use general expressions such as “constituent parts of a zoning lot” and “the lot or its other constituent” when describing a lot of record, suggesting that tax lots are not the sole unit of measurement; and

WHEREAS, in response to questions from the Board at the second hearing regarding whether paragraph (d) of the “zoning lot” definition allows for parts of “lots of record,” the Owner states that a zoning lot may be composed of both whole and partial “lots of record,” even assuming that “lot of record” means a tax lot as used in paragraph (d) of the “zoning lot” definition because an “unsubdivided” “tract of land” can include a single whole “lot of record” or a combination of whole and partial “lots of record”; and

WHEREAS, accordingly, the Owner concludes that the Development Site complies with paragraph (d) of the “zoning lot” definition; and

II. OPEN SPACE

WHEREAS, the Owner states that the Development Site provides the required amount of open space because, as approved by DOB, the Development Site must provide a minimum of 77,642 square feet of open space, that 86,972 square feet of open space is provided by ground-level open areas and that the ground-level open areas comply with the “open space” definition of ZR § 12-10 because they will be “accessible to and usable by” residents of the Development Site; and

MINUTES

WHEREAS, the Owner refers to a private agreement between all parties in interest on the Development Site, which states that “all owners and permitted occupants of any buildings within the Combined Zoning Lot, a non-exclusive right of access to the Vacant Land Parcel, but only to the extent necessary for the Vacant Land Parcel to constitute ‘open space’ under the Zoning Resolution,” as evidence that occupants of the Development Site are assured access; and

WHEREAS, the Owner states that the ground-level open areas are usable, that ZR § 78-52, cited by Appellant, has no applicability to the Development Site since this provision only applies to large-scale residential developments and that there is no minimum dimension requirement applicable to the Development Site’s open space; and

WHEREAS, the Owner states that 16,157 square feet of the Development Site classified as open space (18.58 percent) is obstructed by driveways, which complies with the 50 percent maximum permitted by ZR §§ 25-64 and 23-12; and

WHEREAS, the Owner states that there are no open accessory off-street parking spaces obstructing the Development Site’s open space and that eliminating the disputed parking area (approximately 6,623 square feet) from the open space calculations would not reduce the Development Site’s open space below the 77,642 square feet required; and

WHEREAS, accordingly, the Owner states that ground-level open areas meet the “open space” definition of ZR § 12-10 and that obstructions within the Development Site’s open space are permitted under ZR §§ 25-64 and 23-12; and

DISCUSSION

WHEREAS, because this is an appeal for interpretation, pursuant to ZR § 72-11, the Board “may make such . . . determination as in its opinion should have been made in the premises in strictly applying and interpreting the provisions of” ZR §§ 12-10, 25-64 and 23-12; and

WHEREAS, however, a majority of the Board finds that Appellant has failed to demonstrate that the Development Site does not comply with the Zoning Resolution’s “zoning lot” definition, and the Board unanimously finds that Appellant has failed to demonstrate that ground-level open areas on the Development Site do not comply with the Zoning Resolution’s “open space” requirements; and

I. ZONING LOT

WHEREAS, a majority of the Board⁵ finds that the Development Site meets paragraph (d) of the “zoning lot” definition based upon the record in this appeal; and

WHEREAS, by structuring the “zoning lot” definition

with paragraphs (a)–(d) connected by “either . . . or,” the Zoning Resolution affords substantial flexibility in defining the boundaries a “zoning lot,” ZR § 12-10; and

WHEREAS, here, strictly applying and interpreting the “zoning lot” definition turns on whether the Development Site meets paragraph (d); and

WHEREAS, at the outset, the text of paragraph (d) states in part that a zoning lot is “a tract of land, either unsubdivided or consisting of two or more lots of record”; and

WHEREAS, in other words, paragraph (d) of the “zoning lot” definition requires that a zoning lot be an “unsubdivided” “tract of land” or a “tract of land” “consisting of two or more lots of record”; and

WHEREAS, this text provides neither definitions of the terms “tract of land,” “unsubdivided” or “lots of record” nor reference to “tax lots”; and

WHEREAS, however, as surface land, the Development Site is “land,” ZR § 12-10; and

WHEREAS, as discussed herein, a majority of the Board concludes that—based upon the record in this appeal—the Development Site is a “tract of land” that is “unsubdivided”⁶ for the purposes of the Zoning Resolution when considering the text with regard to the following: (a) the location and demarcation of the land in question; (b) the purposes of delineating of the land in question; (c) the assemblage and constituents of the land in question; (d) the evidence in the record; and (e) the position presented by a minority of the Board; and

A. Location and Demarcation

WHEREAS, the following pertinent part of the “zoning lot” definition relates to the location and demarcation of the land in question:

A “zoning lot” is . . . (d) a tract of land . . . located within a single block, which at the time of filing for a building permit . . . is declared to be a tract of land to be treated as one zoning lot for the purpose of this Resolution . . . Each Declaration . . . shall be recorded in the Conveyances Section of the Office of the City Register . . . against each lot of record constituting a portion of the land covered by such Declaration. . . .

[A] complete metes and bounds of the *zoning lot*, the tax lot number, the block number and the ownership of the *zoning lot* as set forth in paragraph[] . . . (d) herein shall be recorded by the applicant in the Conveyances Section of the Office of the City Register [(underlined emphasis added)]; and

WHEREAS, the Development Site is “land” “located

⁵ As indicated by the Board’s vote and as discussed further herein, a minority of the Board finds that the Development Site does not comply with the Zoning Resolution’s “zoning lot” definition.

⁶ Because a majority of the Board finds that the Development Site is an “unsubdivided” “tract of land” based on the record in this appeal, the Board expresses no opinion as to whether the Development Site “consist[s] of two or more lots of record contiguous for a minimum of ten linear feet,” ZR § 12-10.

MINUTES

within a single *block*,”⁷ ZR § 12-10, bounded by Amsterdam Avenue, West 66th Street, West End Avenue and West 70th Street, as illustrated on Zoning Map 8c,8 which map is incorporated into the Zoning Resolution; and

WHEREAS, the Development Site has been “declared to be a tract of land to be treated as one *zoning lot* for the purpose of this Resolution,” ZR § 12-10, as evidenced by the Zoning Lot Declaration; and

WHEREAS, the Zoning Lot Declaration contains a metes and bounds description of the Development Site, referred to therein as Zoning Lot 2, in Exhibit I:

Description of Zoning Lot 2

All those certain lots, pieces or parcels of land, situate, lying and being in the Borough of Manhattan, City, County and State of New York, Bounded and Described as follows:

Beginning at a point on the westerly side of Amsterdam Avenue, distant 100'5" (100.42') southerly from the corner formed by the intersection of the westerly side of Amsterdam Avenue and the southerly side of West 70th Street; running thence southerly along the westerly side of Amsterdam Avenue 152'8-7/8" (152.73'); thence westerly 110'; thence southerly 58'8-1/8" (58.67'); thence westerly 69'0-1/2" (69.04'); thence westerly, along the arc of a circle bearing to the left, having a radius of 63'9" (63.75'); thence northerly 65'10-3/4" (65.89'); thence westerly 164'; thence southerly 46'; thence westerly 46'; thence westerly 68'; thence southerly 172'4" (172.33'); thence easterly 68'; thence southerly 148'; thence westerly 68'; thence southerly 74'2" (74.17'); thence westerly 13'11" (13.92'); thence northerly 108'3" (108.25'); thence westerly 98'1" (98.08'); thence northerly 59'8" (59.67'); thence westerly 151'1" (151.08'); thence southerly 59'8" (59.76'); thence westerly 48'7" (48.58'); thence northerly 158'3-1/2" (158.29'); thence easterly 37'; thence southerly 60'10-1/2" (60.88'); thence easterly 162'8" (162.67'); thence northerly 60'10-1/2" (60.88'); thence easterly 98'1" (98.08'); thence northerly 164'; thence westerly 48'; thence thence northerly 18'11" (18.96'); thence westerly 179'9" (179.75'); thence southerly 12'11"; thence westerly 100'; thence northerly 223'10" (223.83'); thence easterly 100'; thence southerly 200'10" (200.83'); thence easterly 545'; thence northerly 120'5" (120.42'); thence easterly 155' to the westerly side of Amsterdam Avenue, the point or place of beginning; and

WHEREAS, the Zoning Lot Declaration defines Zoning Lot 2—that is, the Development Site—as “a zoning lot comprised of Tax Lots 133, 134, p/o 1101–1107 f/k/a 70; p/o 1201–1208 f/k/a 80; 1501–1672 f/k/a 65; p/o 1001–1007 f/k/a 1; p/o 1401–1405 f/k/a 30, and more particularly described on *Exhibit I*” above; and

WHEREAS, in the Property Data section, the Zoning Lot Declaration’s Recording and Endorsement Cover Page and continuation pages state the following: Lots 133 (Entire Lot), 134 (Entire Lot), 1001 (Partial Lot), 1002 (Partial Lot), 1003 (Entire Lot), 1004 (Partial Lot), 1005 (Partial Lot), 1006 (Partial Lot), 1007 (Partial Lot), 1401 (Partial Lot), 1402 (Partial Lot), 1403 (Partial Lot), 1404 (Partial Lot), 1101 (Partial Lot), 1102 (Partial Lot), 1103 (Partial Lot), 1104 (Partial Lot), 1105 (Partial Lot), 1106 (Partial Lot), 1107 (Partial Lot), 1201 (Partial Lot), 1201 (Partial Lot), 1203 (Partial Lot), 1204 (Partial Lot), 1205 (Partial Lot), 1206 (Partial Lot), 1207 (Partial Lot), 1208 (Partial Lot), 1501 (Partial Lot), 1502 (Partial Lot), 1503 (Partial Lot), 1504 (Entire Lot), 1505 (Partial Lot), 1506 (Partial Lot), 1507 (Partial Lot), 1508 (Partial Lot), 1509 (Partial Lot), 1509 (Partial Lot), 1510 (Partial Lot), 1511 (Partial Lot), 1512 (Partial Lot), 1513 (Partial Lot), 1514 (Partial Lot), 1515 (Partial Lot), 1516 (Partial Lot), 1517 (Partial Lot), 1518 (Partial Lot), 1519 (Partial Lot), 1520 (Partial Lot), 1521 (Partial Lot), 1522 (Partial Lot), 1523 (Partial Lot), 1524 (Partial Lot), 1525 (Partial Lot), 1526 (Partial Lot), 1527 (Partial Lot), 1528 (Partial Lot), 1529 (Partial Lot), 1530 (Partial Lot), 1531 (Partial Lot), 1532 (Partial Lot), 1533 (Partial Lot), 1534 (Partial Lot), 1535 (Partial Lot), 1536 (Partial Lot), 1537 (Partial Lot), 1538 (Partial Lot), 1539 (Partial Lot), 1540 (Partial Lot), 1541 (Partial Lot), 1542 (Partial Lot), 1543 (Partial Lot), 1544 (Partial Lot), 1545 (Partial Lot), 1546 (Partial Lot), 1547 (Partial Lot), 1548 (Partial Lot), 1549 (Partial Lot), 1550 (Partial Lot), 1551 (Partial Lot), 1552 (Partial Lot), 1553 (Partial Lot), 1554 (Partial Lot), 1555 (Partial Lot), 1556 (Partial Lot), 1557 (Partial Lot), 1558 (Partial Lot), 1559 (Partial Lot), 1560 (Partial Lot), 1561 (Partial Lot), 1562 (Partial Lot), 1563 (Partial Lot), 1564 (Partial Lot), 1565 (Partial Lot), 1566 (Partial Lot), 1567 (Partial Lot), 1568 (Partial Lot), 1569 (Partial Lot), 1570 (Partial Lot), 1571 (Partial Lot), 1572 (Partial Lot), 1573 (Partial Lot), 1574 (Partial Lot), 1575 (Partial Lot), 1576 (Partial Lot), 1577 (Partial Lot), 1578 (Partial Lot), 1579 (Partial Lot), 1580 (Partial Lot), 1581 (Partial Lot), 1582 (Partial Lot), 1583 (Partial Lot), 1584 (Partial Lot), 1585 (Partial Lot), 1586 (Partial Lot), 1587 (Partial Lot), 1588 (Partial Lot), 1589 (Partial Lot), 1590 (Partial Lot), 1591 (Partial Lot), 1592 (Partial Lot), 1593 (Partial Lot), 1594 (Partial Lot), 1595 (Partial Lot), 1596 (Partial Lot), 1597 (Partial Lot), 1598 (Partial Lot), 1599 (Partial Lot), 1600 (Partial Lot), 1601 (Partial Lot), 1602 (Partial Lot), 1603 (Partial Lot), 1604 (Partial Lot), 1605 (Partial Lot), 1606 (Partial Lot), 1607 (Partial Lot), 1608 (Partial Lot), 1609 (Partial Lot), 1610 (Partial Lot), 1611 (Partial Lot), 1612 (Partial Lot), 1613 (Partial Lot), 1614 (Partial Lot), 1615 (Partial Lot), 1616 (Partial

7 The Zoning Resolution defines a “block” as “a tract of land bounded by . . . streets.” ZR § 12-10.

8 The Zoning Resolutions defines “zoning maps” as “the maps incorporated into the provisions of this Resolution in accordance with the provisions of Section 11-14 (Incorporation of Maps).” ZR § 12-10.

Lot), 1617 (Partial Lot), 1618 (Partial Lot), 1619 (Partial Lot), 1620 (Partial Lot), 1621 (Partial Lot), 1622 (Partial Lot), 1623 (Partial Lot), 1007 (Partial Lot), 1625 (Partial Lot), 1626 (Partial Lot), 1627 (Partial Lot), 1628 (Partial Lot), 1629 (Partial Lot), 1630 (Partial Lot), 1631 (Partial Lot), 1632 (Partial Lot), 1633 (Partial Lot), 1634 (Partial Lot), 1635 (Partial Lot), 1636 (Partial Lot), 1637 (Partial Lot), 1638 (Partial Lot), 1639 (Partial Lot), 1640 (Partial Lot), 1641 (Partial Lot), 1642 (Partial Lot), 1643 (Partial Lot), 1644 (Partial Lot), 1645 (Partial Lot), 1646 (Partial Lot), 1647 (Partial Lot), 1648 (Partial Lot), 1649 (Partial Lot), 1650 (Partial Lot), 1651 (Partial Lot), 1007 (Partial Lot), 1653 (Partial Lot), 1654 (Partial Lot), 1655 (Partial Lot), 1656 (Partial Lot), 1657 (Partial Lot), 1658 (Partial Lot), 1659 (Partial Lot), 1660 (Partial Lot), 1661 (Partial Lot), 1662 (Partial Lot), 1663 (Partial Lot), 1007 (Partial Lot), 1665 (Partial Lot), 1666 (Partial Lot), 1667 (Partial Lot), 1669 (Partial Lot), 1671 (Partial Lot), 1672 (Partial Lot), 1405 (Partial Lot), 1007 (Partial Lot) and 1007 (Partial Lot); and

WHEREAS, accordingly, the Zoning Lot Declaration's Recording and Endorsement Cover Page and continuation pages indicate the Zoning Lot Declaration has been recorded in the Office of the City Register "against each lot of record constituting a portion of the land covered by such Declaration" in accordance with paragraph (d) of the "zoning lot" definition, ZR § 12-10; and

WHEREAS, contrary to assertions made by Appellant and DOB, it is unclear from the record in this appeal that the Zoning Lot Declaration cannot be recorded against "Partial [Tax] Lot[s]" in light of the Zoning Lot Declaration's Recording and Endorsement Cover Page and continuation pages; and

WHEREAS, the Zoning Lot Declaration's description of the Development Site corresponds to the Zoning Lot Description and Ownership Statement, City Register File No. 2017000053112, dated January 26, 2017, which contains "a complete metes and bounds of the *zoning lot*, the tax lot number[s], the block number and the ownership of the *zoning lot*," ZR § 12-10 (final paragraph of "zoning lot" definition); and

WHEREAS, contrary to assertions made by Appellant and DOB, it is unclear from the record in this appeal that the Zoning Lot Description and Ownership Statement cannot be recorded against "Partial [Tax] Lot[s]" in light of the Zoning Lot Description and Ownership Statement's Recording and Endorsement Cover Page and continuation pages; and

WHEREAS, accordingly, as set forth in the Zoning Lot Description and Ownership Statement, there is a single legal description with dimensions set forth in "metes and bounds" for the Development Site, which description has been recorded in the Office of the City Register, ZR § 12-10 (final paragraph of "zoning lot" definition); and

B. Purposes of Delineation

WHEREAS, turning again to ZR § 12-10, the following text pertains to the purposes of delineating of the land in question:

A "zoning lot" is . . . (d) a tract of land, either unsubdivided or consisting of two or more lots of record contiguous for a minimum of ten linear feet . . . , which . . . is declared to be a tract of land to be treated as one zoning lot for the purpose of this Resolution.

A *zoning lot*, therefore, may or may not coincide with a lot as shown on the official tax map of the City of New York, or on any recorded subdivision plat or deed [(underlined emphasis added)]; and

WHEREAS, as one specifically delineated land parcel, described by metes and bounds, the Development Site is "a" single "tract of land," ZR § 12-10; and

WHEREAS, no categorical rule appears in the provisions of the Zoning Resolution that a "tract of land" need be a tax lot; and

WHEREAS, the Zoning Lot Description and Ownership Statement indicates that the Development Site is a land assemblage involving multiple owners and multiple tax lot numbers; and

WHEREAS, the Zoning Lot Declaration indicates that, as a whole, the Development Site is "to be treated as one *zoning lot* for the purpose of" the Zoning Resolution, ZR § 12-10; and

WHEREAS, the Zoning Lot Declaration indicates that the Development Site has been subdivided from the Combined Land Parcel⁹ but, as a result of said subdivision,¹⁰ the Development Site in and of itself constitutes a single, unified tract of land; and

WHEREAS, the Zoning Resolution expressly provides that a zoning lot "may not"—and, in fact, the Development Site does not—"coincide" with a lot shown on the City's tax map, ZR § 12-10; and

WHEREAS, contrary to Appellant and DOB's assertions, there is no indication in the record in this appeal that the phrase "may not coincide" refers only to tax-lot boundaries traversing the interior of a zoning lot comprised of two or more complete, abutting tax lots sharing tax-lot boundaries, and there is no indication that a zoning lot's perimeter must—as opposed to "may," as stated in the text—"coincide" with tax-lot boundaries, ZR § 12-10; and

WHEREAS, there is no indication in the record in this appeal that the Zoning Resolution and the City's tax map serve the same purpose or that "not coincid[ing]" with tax-

⁹ The Board expresses no opinion as to the Combined Land Parcel, which is not before the Board in this appeal.

¹⁰ Consistent with the "zoning lot" definition, which states that zoning lots "may be subdivided into two or more *zoning* lots, provided that all resulting *zoning* lots and all buildings thereon shall comply with all of the applicable provisions of" the Zoning Resolution, nothing in the record indicates that the zoning-lot subdivision evinced by the Zoning Lot Declaration contravened any applicable zoning provision. Insofar as Appellant alleges such non-compliance with respect to applicable "open space" regulations, as discussed herein, the Board finds no merit in this contention.

MINUTES

lot boundaries prevents a tract of land from complying with paragraph (d) of the “zoning lot” definition; and

C. Assemblage and Constituents

WHEREAS, with respect to ZR § 12-10, the following part of the “zoning lot” definition relates to the assemblage and constituents of the land in question:

A “zoning lot” is . . . (d) a tract of land, either unsubdivided or consisting of two or more lots of record contiguous for a minimum of ten linear feet [(underlined emphasis added)]; and

WHEREAS, because of the either–or construction the text employs, the Development Site must be one of the following: “unsubdivided” or “consisting of two or more lots of record contiguous for a minimum of ten linear feet,” ZR § 12-10; and

WHEREAS, tax lots may, in some instances, be “lots of record” under the “zoning lot” definition, 11 ZR § 12-10; and

WHEREAS, however, it does not follow that all “lots of record” are tax lots or that only tax lots are “lots of record,” ZR § 12-10; and

WHEREAS, to the contrary, the Zoning Lot Declaration declares, in satisfaction of paragraph (d) of the “zoning lot” definition, that the Development Site is treated as one zoning lot for the purposes of the Zoning Resolution; and

WHEREAS, in so doing, the Zoning Lot Declaration indicates that the Development Site in and of itself constitutes, in the aggregate, a single tract of land with multiple owners and parties in interest, which tract is ultimately described by metes and bounds as one specifically delineated, unified land parcel; and

WHEREAS, based on the record in this appeal and consistent with paragraph (d) of the “zoning lot” definition, as a single land assemblage aggregated for the purpose of developing the New Building in compliance with the Zoning Resolution, the Development Site is itself—for the purposes of the Zoning Resolution—“unsubdivided” land, ZR § 12-10; and

D. Evidence

WHEREAS, considering all of the evidence in the record, the interpretation herein is consistent with the City’s longstanding administration of zoning lots; and

WHEREAS, the discussion herein is consistent with the Board’s own prior precedent in *609 Bayside Drive, Queens*, BSA Cal. No. 229-06-A (Jan. 13, 2009), as upheld in *Golia v. Srinivasan*, 95 A.D.3d 628, 630 (N.Y. App. Div. 2012), insofar as an “unsubdivided” “tract of land” is not necessarily governed by tax-lot boundaries and may refer to

a tract of land that traverses parts of tax lots, ZR § 12-10; although said appeal does not directly speak to the zoning-lot issue presented in this appeal, the Board had considered paragraph (a) of the “zoning lot” definition and interpreted the phrase “lot of record existing on December 15, 1961,” as including a separate, individually designated plot within the Breezy Point Cooperative that was part of a single, larger tax lot; and

WHEREAS, City Planning Commission Report No. N 0760226 ZRY (July 13, 1977) (the “CPC Report”), filed in connection with the text amendment that introduced paragraph (d) of the “zoning lot” definition, states: “[W]here two or more adjacent properties have a property interest, they shall jointly declare and record their parcels as a single zoning lot for development purposes” 12; and

WHEREAS, the CPC Report continues:

[A] single zoning lot can be created from adjacent, differently held *parcels* through the filing and recording of a declaration of single zoning lot status executed by all parties having a defined interest in the *parcels in question*, such recording of a declaration of single zoning lot status executed by all parties having a defined interest in the *parcels in question*, such recording to be against each tax lot constituting a portion of the land covered by such declaration and to be in the Office of the City Register. . . . The declaration would *declare the several parcels to be one zoning lot*, and this zoning lot would remain integral, notwithstanding any party’s breach of a provision of the declaration or any agreement ancillary thereto, until such time as the zoning lot is subdivided in accordance with existing zoning lot subdivision rules. These rules preclude any subdivision’s creating-noncompliance with any applicable provisions of the zoning. The recorded declaration will put all persons on notice that the *several parcels in question* have been constituted as one zoning lot (the recording of the declaration will eliminate the current problem of not being able to determine from the public record whether a building has been built in part on the basis of development rights applicable to land on which the building is not physically located). The amendment as proposed thus protects the City’s interest in avoiding overbuilding, and provides private parties with certainty based on which they can protect their own interest. When a declared

11 The Board need not and does not consider or address the various types of tax lots in this appeal. That said, the Department of Finance has recently released a three-dimensional digital tax map that visualizes air lots: tax lots floating above the ground in air space. As a point of comparison, the “zoning lot” definition is rooted to the ground with its “tract of land” verbiage. ZR § 12-10.

12 Although many of the arguments in this appeal discuss lots of record, the Board expresses no opinion as to whether the Development Site—as a “record[ed]” “lot,” City Planning Commission Report No. N 0760226 ZRY (July 13, 1977)—is itself a single lot of record since the pertinent part of paragraph (d) of the “zoning lot” definition instead uses “unsubdivided” “tract of land,” ZR § 12-10.

MINUTES

zoning lot has to be subdivided creating potential non-compliance, it is necessary to record a restrictive declaration constituting an enforceable covenant running with the land in perpetuity restricting all properties within each newly subdivided portion in accordance with the terms and agreement as originally set forth in the declared zoning lot [(emphasis added)]; and

WHEREAS, consistent with the CPC Report, the Development Site contains adjacent “parcels” that have been “jointly declare[d] and record[ed] . . . as a single zoning lot for development purposes,” *id.*; and

WHEREAS, by being recorded, the Zoning Lot Declaration “put[s] all persons on notice that the several parcels in question have been constituted as one zoning lot,” *id.*; and

WHEREAS, the Minkin Memorandum—while not conclusive insofar as the interpretation memorialized therein could conflict with the Zoning Resolution—states that “a single zoning lot . . . may consist of one or more tax lots or parts of tax lots,” and a majority of the Board credits this interpretation as being consistent with the “zoning lot” definition, as discussed herein; and

WHEREAS, in *A Survey of Transferable Development Rights Mechanisms in New York City* 5–6 (Feb. 26, 2015), the Department of City Planning states:

Zoning lot mergers . . . combine contiguous tax lots within a block, *eliminating lot lines for zoning purposes* and *allowing the free movement of floor area* within the merged zoning lot. . . .

Because ZLMs don’t otherwise allow for exceptions to bulk or other regulations, and because they don’t allow any buildings or developments that couldn’t happen as of right anyway, the city has not found it necessary to restrict or regulate ZLMs beyond the recording requirement and regulations to curb what might be considered extreme uses of the measure.

Regulation beyond that may prove problematic. *Tax lot lines reflect historic ownership patterns but typically do not relate to any land use purposes.* Restrictions on the ability to merge them into unified zoning lots would give *land use effect to tax lot lines*, often without an obvious underlying land use rationale. That may present legal and administrative difficulties [(emphasis added)]; and

WHEREAS, the interpretation herein would not “give land use effect to tax lot lines,” *id.*; and

WHEREAS, the Valletta Memorandum describes a zoning lot as “the essential building block on which the bulk calculations of the Zoning Resolution were intended to be calculated”; and

WHEREAS, according to the Plans, the zoning calculations for the New Building have been computed based on the Development Site; and

E. Minority Position

WHEREAS, a minority of the Board finds that the meaning of “lot of record” and its relationship to the Development Site is dispositive as to whether the Development Site complies with the “zoning lot” definition; and

WHEREAS, a minority of the Board notes that a “lot of record,” though undefined in the Zoning Resolution, is an entire tax lot; and

WHEREAS, a minority of the Board notes that, within the Borough of Manhattan, “of record” refers to being recorded with and maintained by the Office of the City Register; and

WHEREAS, a minority of the Board notes that the “zoning lot” definition itself uses “record” in a number of instances: “a written instrument executed by such party in recordable form and recorded at or prior to the recording of the Declaration,” “any recorded subdivision plat or deed,” “any enforceable recorded interest superior to that of the fee owner,” “any enforceable recorded interest in all or substantially all of such tract of land,” “any unrecorded interest in all or substantially all of such tract of land,” “the same, as well as each such waiver, have been duly recorded,” “their execution and recording of a Declaration,” “any enforceable recorded interest,” “the holder of any enforceable recorded interest,” any unrecorded interest,” “prior leasehold agreements shall be duly recorded” and “a complete metes and bounds of the *zoning lot*, the tax lot number, the block number and the ownership of the *zoning lot* as set forth in paragraphs (a), (b), (c) and (d) herein shall be recorded by the applicant in the Conveyances Section of the Office of the City Register (or, if applicable, the County Clerk’s Office) of the county in which the said *zoning lot* is located,” ZR § 12-10 (underlined emphasis added); and

WHEREAS, a minority of the Board notes that, in each instance, recording evinces the act of depositing an official document with the appropriate authority, which in the Borough of Manhattan is the City Register; and

WHEREAS, a minority of the Board notes, however, that “lot of record” as used in the “zoning lot” definition dates to 1961, before the “zoning lot” definition was amended to allow for the recording of declarations with respect to zoning lots; and

WHEREAS, a minority of the Board notes that there is no indication in the record in this appeal of any other instances of recording that would lead to the conclusion that “lots of record” does not refer to tax lots “as shown on the official tax map of the City of New York,” ZR § 12-10; and

WHEREAS, a minority of the Board notes that Appellant has demonstrated that, in 1961, there was no other formal record for any kind of land use and that the only form a “lot of record” could take was as a tax lot; and

WHEREAS, a minority of the Board notes that this interpretation is further evidenced by the requirement that, under paragraph (d), a zoning lot may “consist[] of two or more” tax lots and that such language contains no suggestion that a zoning lot may “consist[] of” parts of “two or more” tax lots; and

MINUTES

WHEREAS, a minority of the Board notes that, if a tract of land is “unsubdivided,” it cannot include parts of tax lots; and

WHEREAS, a minority of the Board notes that there is a connection between the purposes served by zoning lots and tax lots because, for decades, the City has required that newly created tax lots comply with all applicable zoning regulations under Section 11-203 of the Administrative Code of the City of New York; and

WHEREAS, a minority of the Board notes that interpreting the “zoning lot” definition to require whole tax lots and disallowing parts of tax lots furthers the City’s interest in ensuring zoning compliance; and

WHEREAS, a minority of the Board finds that, based upon the foregoing, the Minkin Memorandum sets forth an erroneous interpretation of the “zoning lot” definition that should no longer be followed because a “lot of record” is an entire tax lot; and

WHEREAS, accordingly, a minority of the Board finds that, because the Development Site includes partial tax lots, the Development Site does not comply with the “zoning lot” definition and that this appeal should be granted on that basis alone; and

Conclusion

WHEREAS, based upon the foregoing, a majority of the Board finds that, as a single land assemblage aggregated for the purpose of developing the New Building in compliance with the Zoning Resolution, the Development Site is an “unsubdivided” “tract of land,” consistent with paragraph (d) of the “zoning lot” definition; and

WHEREAS, accordingly, a majority of the Board finds no basis to grant this appeal with respect to Appellant’s assertion that the Development Site does not comply with the Zoning Resolution’s “zoning lot” definition; and

II. OPEN SPACE

WHEREAS, the Board unanimously finds that ground-level open areas on the Development Site comply with the Zoning Resolution’s “open space” requirements under ZR §§ 12-10, 25-64 and 23-12; and

WHEREAS, ZR § 12-10 defines “open space,” in pertinent part, as follows:

“Open space” is that part of a *zoning lot*, including *courts* or *yards*, which is open and unobstructed from its lowest level to the sky and is accessible to and usable by all persons occupying a *dwelling unit* or a *rooming unit* on the *zoning lot*. . . . ; and

WHEREAS, the Plans indicate that there will be ground-level open areas on the Development Site; and

WHEREAS, there is no basis to import requirements from non-applicable provisions in strictly applying and interpreting the text of the generally applicable “open space” definition; and

WHEREAS, the evidence in the record, including the Plans, which illustrate no physical barriers to the Development Site’s occupants, and a private agreement between parties in interest on the Development Site, assures

that these ground-level open areas are “accessible to and usable by” residential occupants of the Development Site; and

WHEREAS, the Board credits DOB’s testimony that an inspection will be performed prior to the issuance of a certificate of occupancy to ensure that actual conditions continue to conform to the Plans with respect to open space; and

WHEREAS, the Plans indicate that these ground-level open areas will be “open and unobstructed from its lowest level to the sky”; and

WHEREAS, the Board finds that these ground-level open areas on the Development Site meet the “open space” definition; and

WHEREAS, ZR § 25-64 provides, in relevant part: Restrictions on the use of open space for parking and driveways are set forth in this Section, in accordance with the provisions of Section 23-12 (Permitted Obstructions in Open Space). . . .

(d) In R6, R7, R8, R9 and R10 Districts without a letter suffix, driveways, private streets, open *accessory* off-street parking spaces, unenclosed *accessory* bicycle parking spaces or open *accessory* off-street loading berths may not use more than 50 percent of the required *open space* on any *zoning lot*. The provisions of this paragraph, (c), shall not apply to *Quality Housing buildings*; and

WHEREAS, ZR § 23-12 states, in relevant part: In the districts indicated, the following obstructions shall be permitted in any *open space* required on a *zoning lot*:

(f) Driveways, private streets, open *accessory* off-street parking spaces, unenclosed *accessory* bicycle parking spaces or open *accessory* off-street loading berths, provided that the total area occupied by all these items does not exceed the percentages set forth in Section 25-64 (Restrictions on Use of Open Space for Parking); and

WHEREAS, the Development Site’s ground-level open areas contain driveways; and

WHEREAS, the Plans indicate that not “more than 50 percent of the required *open space*” on the Development Site is used by driveways; and

WHEREAS, there is no basis to import the word “accessory” into these provisions where the text describes some permitted obstructions as “accessory” but not others; and

WHEREAS, the text does not describe driveways as “accessory”; and

WHEREAS, the Board finds that the driveways

13 Insofar as the record includes discussion of parking, the Board expresses no opinion because the Plans, under which the Permit was issued, do not reflect parking in the ground-level open areas.

MINUTES

located in the ground-level open areas are permitted obstructions under ZR §§ 25-64 and 23-12; and

WHEREAS, accordingly, the Board finds no basis to grant this appeal with respect to Appellant's assertion that the Development Site does not comply with the Zoning Resolution's "open space" requirements; and

CONCLUSION

WHEREAS, the Board has considered all of the arguments on appeal, but a majority of the Board finds them ultimately unpersuasive; and

WHEREAS, for the foregoing reasons, a majority of the Board finds that Appellant has failed to demonstrate that the Development Site does not comply with the Zoning Resolution's "zoning lot" definition, and the Board unanimously finds that Appellant has failed to demonstrate that ground-level open areas on the Development Site do not comply with the Zoning Resolution's "open space" requirements.

Therefore it is Resolved, that the permit issued by the Department of Buildings on September 27, 2017, under New Building Application No. 122887224, shall be and hereby is *upheld* and that this appeal shall be and hereby is *denied*.

Adopted by the Board of Standards and Appeals, July 17, 2018.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and an extension of the term of a variance, previously granted by the Board; and

WHEREAS, a public hearing was held on this application on November 15, 2016, after due notice by publication in *The City Record*, with continued hearings on October 31, 2017, January 23, 2018, February 27, 2018, and May 1, 2018, and then to decision on July 17, 2018; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and the surrounding neighborhood; and

WHEREAS, Community Board 6, the Bronx, has no objection to the subject application; and

WHEREAS, the Board was also in receipt of two letters in opposition to the subject application, citing the incompatibility of the subject use with the surrounding area, lack of sufficient landscaping to buffer the use from the surrounding residences and excessive lighting levels at the site that shine into nearby residential windows; and

WHEREAS, the subject site is located on the southeastern corner of East 182nd Street and Southern Boulevard in an R7-1 (C1-4) zoning district, in the Bronx; and

WHEREAS, the site has approximately 82 feet of frontage along East 182nd Street, 78 feet of frontage along Southern Boulevard, 6,945 square feet of lot area and is occupied by a gasoline service station, lubritorium, facility for car washing and motor vehicle repair, office and sales room and parking and storage of more than five (5) motor vehicles; and

WHEREAS, the Board has exercised jurisdiction over the subject site since April 21, 1959, when, under BSA Cal. No. 374-37-BZ, the Board granted a variance to permit the occupation of the subject site with a gasoline service station and lawful uses accessory thereto for a term of fifteen (15) years, expiring April 21, 1974, on condition that all

buildings, structures and other uses on the site at the time be entirely removed and the plot reconstructed and arranged as indicated on the approved plans; that the accessory building be of the design, arrangement and location indicated and faced with brick on the north, east and west sides and its rear wall on the lot line may be of brick or block painted, without windows; that there be no cellar in the accessory building; that the pumps be of a low approved type erected not nearer than 15 street to the street building line at any point; the number of gasoline storage tanks not exceed twelve 550 gallon approved tanks; the premises not occupied by accessory building and pumps be paved with concrete or asphalt; along the lot lines to the south and west where walls of adjoining buildings or wall of accessory building do not occur there be a woven wire chain link fence erected on a masonry base to a total height of not less than 5’-6”;

curb cuts be restricted to two 30 feet in width each to East 182nd Street and two of similar width to Southern Boulevard; signs be restricted to permanent signs on the façade of the accessory building and to the illuminated globes of the pumps, excluding all roof signs, temporary signs and advertising devices, but permitting the erection of a post standard within the building line at the intersection for supporting a sign which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend not more than 4 feet beyond the building line; that at such intersection there be maintained a block of concrete not less than 12 inches in height, extending for five feet along either street line from the intersection; that the sidewalk and curbing abutting the premises be constructed or repaired to the satisfaction of the Borough President; that portable fire-fighting appliances be maintained as the Fire Commissioner directs; that parking and storage of motor vehicles, so arranged as not to interfere with the servicing of the station, is permitted for a similar term; that there may be minor repairs with hand tools only maintained solely within the accessory building; no certificate of occupancy be issued for the premises until transfer of jurisdiction as to Crotona Parkway from the Department of Parks to the Borough President has been effected; and that all required permits be obtained and all work completed pursuant to then Section 22A Zoning Resolution; and

WHEREAS, the property had previously been the subject of two applications, filed under BSA Cal. No. 374-37-BZ: (1) an application under section 21 of the building zone resolution to permit in a business use district the conversion of occupancy of an existing building to a motor vehicle repair shop, which was denied by the Board in a resolution dated May 3, 1938; and (2) an application under sections 7f, 7i and 7h of the Zoning Resolution to permit, in a business use district, the conversion of an existing premises consisting of a carpenter shop, dwelling, 10-car metal garage, tire, battery and ignition service to a gasoline service station, lubritorium, car wash, minor motor repairs, parking and storage of cars, which was withdrawn pursuant to a resolution dated July 24, 1956; and

WHEREAS, on July 26, 1960, under BSA Cal. No.

MINUTES

374-37-BZ, the Board amended the 1959 variance resolution to permit a change in the size, shape and arrangement of the accessory building on the site in accordance with revised approved drawings, a change in the location of gasoline tanks, pump islands and pumps, a change in the width of the curb cuts on Southern Boulevard from 30 feet to 28 feet and to reduce the westerly curb cut on East 182nd Street to 28 feet, the eastern curb cut on East 182nd Street to remain 30 feet wide, and to extend the time to complete from the date of the amendment; and

WHEREAS, on January 14, 1964, under BSA Cal. No. 374-37-BZ, the Board further amended the resolution to amend the condition of the 1959 resolution regarding the issuance of a certificate of occupancy to the site so that, as amended, the portion reads: “that a new Certificate of Occupancy shall be issued for a term as heretofore permitted, to expire on April 21, 1974”; and

WHEREAS, on November 6, 1974, under BSA Cal. No. 374-37-BZ, the Board extended the term of the variance for ten (10) years, expiring November 6, 1984, on condition that the 1959 resolution, as amended through January 14, 1964, be complied with in all respects and a new certificate of occupancy be obtained; and

WHEREAS, on November 7, 1984, under BSA Cal. No. 374-37-BZ, the Board extended the term of the variance for a term of ten (10) years, expiring November 6, 1994, and amended the variance to legalize the elimination of one gasoline pump island fronting on East 182nd Street on condition that there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic, that the 1959 resolution, as amended through November 6, 1974, be complied with in all respects and that a new certificate of occupancy be obtained within one (1) year, by November 7, 1985; and

WHEREAS, the prior term having expired, the applicant now seeks a reinstatement of the variance, first issued in 1959, pursuant to ZR § 11-411; and

WHEREAS, ZR § 11-411 states:

Where no limitation as to the duration of the *use* *l* was imposed at the time of [the variance authorized by the Board of Standards and Appeals pursuant to the 1916 Zoning Resolution], such *use* may be continued. Where such *use* was authorized subject to a term of years, such *use* may be continued until the expiration of the term, and thereafter, the agency which originally authorized such *use* may, in appropriate cases, extend the period of continuance for one or more terms or not more than 10 years each. The agency may prescribe appropriate conditions and safeguards to minimize adverse effects of such *use* on the character of the neighborhood;

WHEREAS, in addition, because this application was filed more than 10 years after the expiration of the term, the

applicant requests a waiver, pursuant to § 1-14.2 of the Board’s Rules of Practice and Procedure (the “Board’s Rules”), of § 1-07.3(b)(4)(i) to permit the filing of this application; and

WHEREAS, § 1-07.3(b)(4)(i) of the Board’s Rules requires a demonstration by the applicant that the use has been continuous since the expiration of the term, that substantial prejudice would result without such a waiver and that the use permitted by the grant does not substantially impair the appropriate use and development of adjacent properties; and

WHEREAS, accordingly, the applicant provided Official Business Certificates issued to the subject site by the New York State Department of Motor Vehicles for public inspection station licenses and repair shop registration and certification that continuously cover the entire period of April 30, 1994, prior to the expiration of the term of the prior variance, through the date of the application; and

WHEREAS, the applicant additionally states that substantial prejudice would result without a waiver of the § 1-07.3(b)(4)(i) of the Board’s Rules because it would jeopardize a viable business that provides a vital service to the community and that the use does not substantially impair the appropriate use and development of adjacent properties; and

WHEREAS, over the course of public hearings, in response to concerns raised by letters received in opposition to this application, the Board requested the removal of extraneous signage at the premises, the addition of landscaping and sufficiently robust planter boxes to provide a dense planted buffer between the subject use and adjacent residential uses, the submission of a light spread diagram to show the effect of lighting present on the site on adjacent occupancies and the installation of light shields to prevent light spillage, that a trash enclosure be provided on site and illustrated on the plans; and

WHEREAS, in response, the applicant provided signage analyses demonstrating the site’s compliance with signage regulations applicable in a C1 zoning district; a landscaping detail for a new planter box with internal measurements of 31’-6” wide and 3’-6” deep located on the site’s southern lot line—the lot line at which a multi-family residential building is located adjacent to the site—and proposed to be planted with nine (9) emerald green arborvitae and evergreen groundcover; a light spread diagram demonstrating that lighting levels from the site decrease to approximately 0.25 foot candles as one moves towards the residential building located directly to the south of the site; and added a trash enclosure along the site’s eastern lot line; and

WHEREAS, based upon its review of the record, the Board has determined that the requested waiver of the Board’s Rules and reinstatement of the variance are appropriate with certain conditions as set forth below; and

WHEREAS, with regards to the request for an extension of the term, in light of the significant number of

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

public hearings held on this application, the Board finds that a term of five (5) years, expiring July 17, 2023, is appropriate so that the Board may evaluate, upon the expiration of the term, the condition of the site and any adverse effects on the surrounding area; and

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *waive* § 1-07.3(b)(4)(i) of the Board's Rules of Practice and Procedure and, pursuant to ZR § 11-411, reinstates and amends a previously-granted variance to permit, on a site located within an R7-1 (C1-4) zoning district, the operation of a gasoline service station and lawful uses accessory thereto *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received July 18, 2018"-Four (4) sheets; and *on further condition*:

THAT this grant shall be limited to a term of five (5) years, to expire on July 17, 2023;

THAT landscaping, as shown on the BSA-approved plans, shall be maintained and plantings replaced as necessary to comply with those plans;

THAT there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic;

THAT that the accessory building be of the design, arrangement and location indicated and faced with brick on the north, east and west sides and its rear wall on the lot line may be of brick or block painted, without windows;

THAT there be no cellar in the accessory building;

THAT the pumps be of a low approved type erected not nearer than 15 street to the street building line at any point;

THAT the number of gasoline storage tanks not exceed twelve 550 gallon approved tanks;

THAT the portions of the premises not occupied by accessory building and pumps be paved with concrete or asphalt;

THAT along the lot lines to the south and west where walls of adjoining buildings or wall of accessory building do not occur there be a woven wire chain link fence erected on a masonry base to a total height of not less than 5'-6";

THAT curb cuts shall be maintained as shown on the BSA-approved plans;

THAT signage shall comply with regulations applicable in a C1 zoning district;

THAT the parking and storage of motor vehicles on the site is permitted as long as the parked and storage does not interfere with the servicing of the station;

THAT minor repairs by hand tools only may be maintained solely within the accessory building;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by July 17, 2019;

THAT all conditions from prior resolutions, including those issued under BSA Cal. No. 374-37-BZ, not specifically waived by the Board remain in effect;

THAT the approved plans shall be considered

approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 17, 2018.

2016-4138-BZ

CEQR #16-BSA-092M

APPLICANT – Kramer Levin Naftalis & Frankel LLP, for 323 Sixth LLC, owner; IFC Center, lessee.

SUBJECT – Application March 16, 2016 – Variance (§72-21) for an enlargement of an existing motion picture theater (*IFC Center*) contrary to both use and bulk requirements. C1-5/R7-2 & R6 zoning district.

PREMISES AFFECTED – 323-27 Avenue of the Americas, Block 589, Lot(s) 19, 30, 31, Borough of Manhattan.

COMMUNITY BOARD #2M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision on behalf of the Borough Commissioner, dated December 11, 2017, acting on Department of Buildings Application No. 122507769 reads in pertinent part:

1. ZR 32-31: Proposed use group [8] (Theater) exceeds the 500 seats permitted by special permit in C1-5 zoning district;
2. ZR 32-421: Proposed use group 8 (theater) is limited to two stories in C1-5 zoning district;
3. ZR 33-431: Proposed use group 8 (theater) is limited to a height of 30 feet or two stories, whichever is less, in C1-5 zoning district;
4. ZR 33-283: Proposed enlargement encroaches in required rear yard equivalent of through lot portion of zoning lot;
5. ZR 32-421: Commercial use is not permitted above level of the first story ceiling in buildings occupied by Residential Use;
6. ZR 3[3]-121: Proposed commercial floor area exceeds 2.0 FAR Maximum in permitted C1-5 zoning district;
7. ZR 33-26: (C1 District) A rear yard with a depth of not less than 20 feet shall be provided at every rear lot line;
8. ZR 22-10: Propose use group 8 (theater) not permitted in R6 zoning district;
9. ZR 23-153: The proposed building exceeds

MINUTES

- the maximum floor area ratio permitted in the R6 district;
10. ZR 77-22: The proposed building exceeds the adjusted maximum floor area ratio permitted in the R6 district;
 11. ZR 23-532: The proposed building encroaches in the required rear yard equivalent of the through lot portion of the zoning lot;
 12. ZR 33-662: The proposed building exceeds the maximum base height and maximum building height for Quality Housing option buildings on narrow streets in R6 zoning district; and

WHEREAS, this is an application under ZR § 72-21 to permit, on a site located partially within an R6 zoning district and partially within a R7-2 (C1-5) zoning district and in the Greenwich Village Historic District Extension II, the enlargement of an existing motion picture theater contrary to use and bulk requirements set forth in ZR §§ 32-31, 32-421, 33-431, 33-283, 32-421, 33-121, 33-26, 22-10, 23-153, 77-22, 23-532 and 33-662: and

WHEREAS, this application is filed on behalf of IFC Theatres, LLC (“IFC” or the “Applicant”), the lessee of the premises; and

WHEREAS, a public hearing was held on this application on November 1, 2016, after due notice by publication in *The City Record*, with continued hearings on February 28, 2017, September 12, 2017, December 12, 2017, March 27, 2018, and May 15, 2018, and then to decision on July 17, 2018; and

WHEREAS, Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, former Vice-Chair Hinkson and former Commissioner Montanez performed inspections of the site and surrounding area; and

WHEREAS, the subject site is bound by Cornelia Street to the north and Avenue of the Americas to the south, partially within an R7-2 (C1-5) zoning district and partially within an R6 zoning district, in the Greenwich Village Historic District Extension II, in Manhattan; and

WHEREAS, the site is comprised of three interior tax lots, Lots 30 and 31, having approximately 75 feet of contiguous frontage along Avenue of the Americas and wholly located within an R7-2 (C1-5) zoning district, and Lot 19, having approximately 26 feet of frontage along Cornelia Street and partially located within an R7-2 (C1-5) zoning district and partially within an R6 zoning district; and

WHEREAS, the site has approximately 9,146 square feet of lot area; Lots 30 and 31 are occupied by a two-story plus cellar theater operated as the IFC Center and Lot 19 is currently vacant and utilized for accessory theater uses, including storage and parking; and

WHEREAS, the Board has exercised jurisdiction over this site since March 17, 2009, when, under BSA Cal. No. 319-08-BZ, the Board granted a special permit, pursuant to ZR § 73-201, to permit a 95-seat expansion of the existing Use Group 8 theater on condition that a 480 square foot

waiting area be provided in the lobby area of the ground floor, residual patron space be maintained at the cellar level, all applicable fire safety measures be complied with and all egress be as approved by Department of Buildings; and

WHEREAS, with this application, the Applicant initially proposed to enlarge the existing building from a five screen theater with 480 seats located solely on Lots 30 and 31, wholly located within an R7-2 (C1-5) zoning district, to an 11 screen theater with 948 seats, including an expansion of the use into a three-story plus cellar addition rising 60 feet to the top of the parapet on the portion of the zoning lot fronting Cornelia Street and located partially within an R7-2 (C1-5) zoning district and partially within an R6 zoning district; and

WHEREAS, by resolution dated July 26, 2016, Community Board 2, Manhattan, recommends denial of this application unless the submission is revised to reflect and respect the neighborhood context finding and does not seek to building a commercial building on a residential street; the final plan incorporates an interior staircase above the second floor of the main building; that the minimum variance be evaluated with respect the land without factoring a specific use preferred by the leaseholder; and

WHEREAS, Community Board 2 sent additional letters to the Board reiterating its preference for a residential development, rather than the enlargement of the existing theater, on the Cornelia Street frontage; and

WHEREAS, the Board received numerous letters and form objections from individuals, many of them residents of Cornelia Street, as well as organizations—including the Greenwich Village Society for Historic Preservation, the Central Village Block Association—in opposition to the proposal, citing concerns regarding the proposed addition of a commercial building on Lot 19 fronting Cornelia Street, a street they characterize as comprised of small independent businesses limited to the ground floor only with residential units above, and that, upon IFC Center vacating the site, the commercial landlord will redevelop the site with an offensive commercial use; and

WHEREAS, the Board was also in receipt of several form letters and hundreds of emails in support of the proposed expansion of the IFC Center at the subject site; and

WHEREAS, the Friends of Cornelia Street Coalition was represented by counsel that appeared with written submissions and in public hearings in opposition to the subject application to ensure that any expansion at the subject site is justified by ZR § 72-21, particularly with regards to the minimum variance; and

WHEREAS, in the course of hearings, and in response to comments and direction by the Board, the Applicant revised the proposal to enlarge the existing building to a four-story plus cellar 10 screen Use Group 8 theater with 941 seats as well as construct a four-story, four-unit residential building fronting Cornelia Street within a rear yard equivalent required for the through lot portion of the site; and

MINUTES

WHEREAS, the revised proposal includes 23,805 square feet of commercial floor area (21,191 square feet of commercial floor area within the portion of the site located in an R7-2 (C1-5) zoning district and 2,614 square feet of commercial floor area within the portion of the site located in an R6 zoning district); 3,881 square feet of residential floor area (410 square feet of residential floor area within the portion of the site located in an R7-2 (C1-5) zoning district and 3,471 square feet of residential floor area in the portion of the site located in an R6 zoning district); a total of 21,601 square feet of floor area within the portion of the site located in an R7-2 (C1-5) zoning district and 6,085 square feet of floor area within the portion of the site located in an R6 zoning district; no rear yard or rear yard equivalent, a base height and building height of 60 feet, without setback, at the Cornelia Street façade, which is located in an R6 zoning district, and a street wall height of 60 feet at the Avenue of the Americas façade, which is located in an R7-2 (C1-5) zoning district; and

WHEREAS, Use Group 8 theaters are prohibited within the portion of the site located in an R6 zoning district pursuant to ZR § 22-10; a maximum of 3,181 square feet of residential floor area is permitted within the portion of the site located in an R6 zoning district pursuant to ZR § 23-153 and a maximum of 4,691 square feet of total floor area is permitted on that same portion of the site pursuant to ZR § 77-22; Use Group 8 theaters are limited to 500 seats permitted by special permit within the portion of the site located in an R7-2 (C1-5) zoning district pursuant to ZR § 32-31; the maximum permitted floor area ratio ("FAR") for the portion of the site located within a R7-2 (C1-5) zoning district is 2.0 FAR (15,400 square feet) pursuant to ZR § 33-121, theaters are limited to a height of 30 feet or two stories, whichever is less, in the portion of the site located in an R7-2 (C1-5) zoning district pursuant to ZR §§ 32-421 and 33-431; commercial uses in Use Group 8, among others, are not permitted above the level of the first story ceiling in any building or portion of a building occupied on one or more of its upper stories by residential use pursuant to ZR § 32-42; a rear yard equivalent of 40 feet is required on the through lot portion of the site located in an R7-2 (C1-5) zoning district pursuant to ZR § 33-283; a rear yard equivalent of 60 feet is required on the through lot portion of the site located in an R6 zoning district pursuant to ZR § 23-532; a rear yard of at least 20 feet is required in the portion of the site located within an R7-2 (C1-5) zoning district pursuant to ZR § 33-26; and a maximum base height of 45 feet, an initial setback of 20 feet and a maximum building height of 55 feet are mandated by ZR § 23-662; and

WHEREAS, the Applicant seeks to construct the subject proposal in order to provide additional theaters and screens and lobby space sufficient to accommodate patrons, who currently congregate outside at the theater's Avenue of the Americas frontage, waiting to be seated in theaters; and

WHEREAS, the Applicant states that, pursuant to ZR § 72-21(a), the irregular shape of the lot, its split by a zoning district boundary line and the history of the development of

the site create practical difficulties and unnecessary hardship in developing the site in conformance with the zoning regulations applicable in the underlying zoning districts; and

WHEREAS, in particular, the applicant notes, in particular, that the site is split between zoning districts in which different use regulations are applicable and although 84 percent of the lot area of the subject site is located within an R7-2 (C1-5) zoning district and only 16 percent of the lot area of the subject site is located in an R6 zoning district, the location of the zoning district boundary line 37'-3" from the street line at the southern end of the site is greater than the 25 feet maximum set forth in ZR § 77-11 that would permit, as-of-right, the application of use regulations applicable in an R7-2 (C1-5) zoning district to the entirety of the zoning lot; and

WHEREAS, the site was originally developed with a two-story house of worship for the West Reformed Dutch Church and has been occupied, at least in part, by commercial uses since approximately 1893; in 1937 the building was converted into a motion picture theater, in 1961 the theater use became non-conforming, and in 2005, the theater was renovated to accommodate the IFC Center; and

WHEREAS, the Applicant asserts that the existing building is functionally obsolete as a movie theater, the purpose for which it was converted in 1937, in that its footprint and building are too small to accommodate the wide range of film content now available, sought out by theatergoers and provided, in large part, by IFC's competitors, independent theaters located in Manhattan that have between 800 and 1200 theater seats; as a result, the Applicant seeks the proposed enlargement in the rear of the site to facilitate an increase in the number of screens available at the subject site, improve theater layout and patron circulation and enable the site to realize a reasonable return; and

WHEREAS, the Applicant represents that an as-of-right horizontal expansion of the building is limited by the irregular shape of the site and angle at which the zoning district boundary line traverses the site, rendering a Use Group 8 theater as-of-right on one site and prohibited on the other, and that a vertical expansion would require the installation of an additional platform within the building to support the additional floors or, in the alternative, the construction of a new building; and

WHEREAS, based on the foregoing, the Board finds that the aforementioned unique physical conditions create unnecessary hardship and practical difficulties in developing the site in conformance with applicable zoning regulations; and

WHEREAS, with regards to ZR § 72-21(b), the applicant submits that there is no reasonable possibility that a conforming development at the subject site will bring a reasonable return and, in support that assertion, submitted financial analyses of the following development scenarios from the perspective of the property owner (rather than that of the applicant, a lessee): (1) an as-of-right five-story plus

cellar residential building with four studio apartments and 2,128 square feet of rentable residential floor area and maintenance of the existing building (“Scheme A”); (2) and as-of-right five-story plus cellar residential building with 2,128 square feet of rentable residential floor area and conversion of the existing building to retail with 11,473 square feet of rentable floor area (“Scheme 2A”); (3) a five-story plus cellar residential building with five dwelling units and 5,120 square feet of rentable residential floor area and conversion of the existing building with retail with 11,473 square feet of rentable floor area requiring waivers of ZR §§ 23-153, 23-532, 33-283, 23-662 and 23-71 (“Scheme 2B”); (4) a five-story plus cellar residential building with five dwelling units and 5,120 square feet of rentable residential floor area and conversion of the existing building to retail with 13,980 square feet of rentable floor area requiring waivers of ZR §§ 33-26, 33-283, 23-153, 23-532, 33-283, 23-662 and 23-71 (“Scheme 3A”); (5) a five-story plus cellar residential building with five dwelling units and 5,120 square feet of rentable residential floor area and conversion of the existing building to retail with 14,396 square feet of rentable floor area requiring waivers of ZR §§ 22-10, 33-26, 33-283, 23-153, 23-532, 33-283, 23-662 and 23-71 (“Scheme 3B”); (6) a five-story plus cellar residential building with five dwelling units and 5,120 square feet of rentable floor area and enlargement of the existing theater to 23,677 gross square feet, 9 theaters and 643 seats requiring waivers of ZR §§ 32-31, 32-421, 33-431, 33-26, 33-283, 23-153, 23-532, 33-283, 23-662 and 23-71 (“Scheme 4A”); (7) a five-story plus cellar residential building with five dwelling units and 5,120 square feet of rentable floor area and enlargement of the existing theater to 24,560 gross square feet, 9 theaters and 689 seats requiring waivers of ZR §§ 22-10, 32-31, 32-421, 33-431, 33-26, 33-283, 23-153, 23-532, 33-283, 23-662 and 23-71 (“Scheme 4B”); (8) a five-story plus cellar residential building with five dwelling units and 5,120 square feet of rentable floor area and enlargement of the existing theater to 33,950 gross square feet, 8 theaters and 840 seats requiring waivers of ZR §§ 32-31, 32-421, 33-431, 33-26, 33-283, 23-153, 23-532, 33-283, 23-662 and 23-71 (“Scheme 4C”); (9) a five-story plus cellar residential building with four two-bedroom dwelling units and 4,720 square feet of rentable floor area and enlargement of the existing theater to 32,148 gross square feet, 13 theaters and 838 seats requiring waivers of ZR §§ 22-10, 32-31, 32-421, 33-431, 33-26, 33-283, 23-153, 23-532, 33-283, 23-662 and 23-71 (“Scheme 5”); (10) enlargement of the existing theater to 30,052 gross square feet, 11 theaters and 927 seats requiring waivers of ZR §§ 22-10, 32-31, 32-421, 33-121, 33-431, 33-26 and 33-283 (“Scheme 6”); (11) a lesser variance residential building with 4,480 square feet of rentable residential floor area and an enlarged theater with 30,262 gross square feet, 10 theaters and 876 seats requiring waivers of ZR §§ 32-31, 32-421, 33-431, 33-283, 22-10, 23-153, 23-532, 23-662 and 77-22 (“Revised Scheme 4C”); (12) a lesser variance residential building with 1,638 square feet of rentable

residential floor area and an enlarged theater with 33,799 gross square feet, 11 theaters and 947 seats requiring waivers of ZR §§ 32-31, 32-421, 33-431, 33-283, 32-421, 22-10, 23-153, 77-22, 23-532 and 23-662 (“Revised Scheme 5” or “Scheme 4D”); (13) enlargement of the existing theater to 32,124 gross square feet, 11 theaters and 948 seats requiring waivers of ZR §§ 22-10, 32-31, 32-421, 33-121, 33-431 and 33-283 (“Revised Scheme 6”); (14) a lesser variance residential building with 4 dwelling units and an enlargement of the existing theater building to 30,197 gross square feet, 10 theaters and 898 seats requiring waivers of ZR §§ 32-31, 32-421, 33-431, 33-283, 22-10, 23-153, 23-532, 23-662 and 77-22 (“Scheme 4C.1”); (15) a lesser variance residential building with four dwelling units and an enlargement of the existing theater building to 33,339 gross square feet, 10 theaters and 941 seats (“Scheme 4D.1” or the “Subject Revised Proposal”)

WHEREAS, the analyses demonstrated that only Revised Scheme 6 and Scheme 4D.1 would provide a reasonable return; and

WHEREAS, based on the record, the Board finds that due to the site’s unique physical conditions, there is no reasonable possibility that a development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the Subject Revised Proposal will not alter the character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property and will not be detrimental to the public welfare in accordance with ZR § 72-21(c) because the residential building proposed to front Cornelia Street is compatible with that street’s mixed residential with commercial at the first floor character; and

WHEREAS, at hearing and in written testimony, members of the public, including neighbors of the subject site, expressed a preference for Scheme 4C.1 because of the larger residential units provided therein, but the Board notes both that that development scenario was deemed financially infeasible and that the comparatively smaller residential units in Scheme 4D.1 are typical of existing tenement and front-rear row houses commonly found in the area; and

WHEREAS, the Board finds that though Revised Scheme 6 also provides a reasonable return, Scheme 4D.1, with its provision of residential frontage on Cornelia Street while allowing for improved interior patron circulation in the portion of the development dedicated to theater use, is more consistent with the existing character of the neighborhood, and with Cornelia Street specifically, than Revised Scheme 6, which would provide for a commercial lobby and lounge in that location of the development; the Board further notes that, in this way Scheme 4D.1 is responsive to many of the community’s concerns regarding the development of the subject site; and

WHEREAS, accordingly, the Board finds that the requested relief will not alter the essential character of the neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare;

MINUTES

and

WHEREAS, the Board finds that the hardship claimed as grounds for the variance was not created by the owner or a predecessor in title in accordance with ZR § 72-21(d); and

WHEREAS, the applicant represents, and the Board finds, that the subject proposal is the minimum variance necessary to afford relief because it is the only scenario that would provide a reasonable return; and

WHEREAS, the Board has determined that the evidence in the record supports all of the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR, Part 617.4(b)(9); and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (“EAS”) CEQR No. 16BSA092M, dated July 10, 2018; and

WHEREAS, the EAS documents that the project, as proposed, would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, with regards to hazardous materials, by letter dated March 16, 2018, the New York City Department of Environmental Preservation (“DEP”) states that, upon completion of the clean fill/top soil investigation activities at the site, the Applicant’s consultant should submit a detailed clean soil report to DEP—including, at a minimum, an executive summary, narrative of the field activities, laboratory data, and comparison of soil analytical results (i.e., NYSDEC 6 NYCRR Part 375 Environmental Remediation Programs)—for review and approval prior to importation and placement on-site; and

WHEREAS, DEP additionally states that it finds the February 2018 Revised Remedial Action Plan (“RAP”) acceptable and requests that, at the completion of the project, a Professional Engineer certified Remedial Closure Report be submitted to DEP for review and approval indicating that all remedial requirements have been properly implemented (i.e., installation of vapor barrier; proper transportation/disposal manifests and certificates from impacted soils removed and properly disposed of in accordance with all NYSDEC regulations; and one foot of DEP approved certified clean fill/top soil capping requirement in any landscaped/grass covered areas not capped with concrete/asphalt, etc.); and

WHEREAS, by correspondence dated April 5, 2017 the New York City Department of Transportation (“DOT”) reviewed the draft EAS and detailed pedestrian analyses and determined that a detailed traffic analyses is not warranted; and

WHEREAS, subsequent to the DOT review the project parameters were modified to include less seats and a small residential component, not affecting DOT’s original determination; and;

WHEREAS, by correspondence dated May 29, 2018 the New York City Parks Department stated that they had no comments on the detailed shadows analysis; and

WHEREAS, by letter dated June 29, 2018, DEP states that they have reviewed the proposal for noise and determined that it would not result in any potential for significant adverse impacts in regards to noise; and

WHEREAS, the New York City Landmarks Preservation Commission (“LPC”) reviewed the proposal for archaeological and architectural significance and notes that all three tax lots are of both archaeological and architectural significance, that 323-325 and 327 Avenue of the Americans (Tax Lots 31 and 30) are individually LPC-designated landmarks and all three tax lots are within the LPC-designated and State and National Register listed South Village Historic District, therefore permits from the LPC Preservation Department are required for construction; and

WHEREAS, LPC additionally notes that its review of archaeological sensitivity models and historic maps indicate that there is potential for the recovery of remains from 19th century residential occupation of the site and the Dutch Reformed Church previously on the site and recommends that an archaeological documentary study be performed to clarify these initial findings; and

WHEREAS, the Applicant provided an Archaeological Phase IA Documentary Center and LPC recommends that, while LPC largely concurs with the conclusions, the study should be amended to consider whether remnants of a mikvah, that may have been associated with the synagogue shown in the 1895 Sanborn map, may be present either within Lot 30 or adjacent to it; and

WHEREAS the Applicant performed additional research to address the possible presence of a cemetery, the mikvah, and other archaeological features on one or more of the project lots and determined the proposed project would not result in any significant adverse effect to historic resources;

WHEREAS, LPC issued a Certificate of Appropriateness (COFA-19-25117) for work associated with the revised proposal on June 20, 2018, expiring June 12, 2024; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby issue a Type I Negative Declaration determination prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality

MINUTES

Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 to permit, on a site located partially within an R6 zoning district and partially within a R7-2 (C1-5) zoning district and in the Greenwich Village Historic District Extension II, the enlargement of an existing motion picture theater contrary to use and bulk requirements set forth in ZR §§ 32-31, 32-421. 33-431, 33-283, 32-421, 33-121, 33-26, 22-10, 23-153, 77-22, 23-532 and 33-662; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received June 25, 2018”-Eleven (11) sheets and “July 17, 2018”-Two (2) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the development: a maximum of 21,191 square feet of commercial floor area within the portion of the site located within an R7-2 (C1-5) zoning district; a maximum of 2,614 square feet of commercial floor area, a maximum of 3,471 square feet of residential floor area and a maximum of 6,085 square feet of total floor area within the portion of the site located within an R6 zoning district; a maximum base height of 60 feet, a maximum building height of 60 feet and a setback of at least 0 feet on the Cornelia Street frontage; a rear yard or rear yard equivalent of at least 0 feet; and a maximum of 941 theater seats; and

THAT upon completion of the clean fill/top soil investigation activities at the site, the Applicant’s consultant shall submit a detailed clean soil report to DEP—including, at a minimum, an executive summary, narrative of the field activities, laboratory data, and comparison of soil analytical results (i.e., NYSDEC 6 NYCRR Part 375 Environmental Remediation Programs)—for review and approval prior to importation and placement on-site;

THAT at the completion of the project, a Professional Engineer certified Remedial Closure Report be submitted to DEP for review and approval indicating that all remedial requirements have been properly implemented (i.e., installation of vapor barrier; proper transportation/disposal manifests and certificates from impacted soils removed and properly disposed of in accordance with all NYSDEC regulations; and one foot of DEP approved certified clean fill/top soil capping requirement in any landscaped/grass covered areas not capped with concrete/asphalt, etc.);

THAT the commercial occupancy at the site shall be maintained as a Use Group 8 theater;

THAT egress from the Use Group 8 theater onto Cornelia Street shall be for emergency purposes only;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a certificate of occupancy shall be obtained within four (4) years;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 17, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated November 3, 2017, acting on Alteration Application No. 520303500, reads in pertinent part:

“Proposed use as a physical culture establishment is not permitted and is contrary to ZR 32-31”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, on a site partially in an R3X (C2-2) zoning district and partially in an R3X (C1-2) zoning district, in the Special South Richmond Development District, the legalization of a physical culture establishment on a portion of the first floor of a two-story, with cellar, commercial building; and

WHEREAS, a public hearing was held on this application on July 17, 2018, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Community Board 3, Staten Island, recommends approval of this application; and

WHEREAS, the subject site is located on the northeast corner of Woodrow Road and Rossville Avenue, on a site partially in an R3X (C2-2) zoning district and partially in an R3X (C1-2) zoning district, in the Special South Richmond Development District, in Staten Island; and

WHEREAS, the subject site has approximately 246

MINUTES

feet of frontage along Woodrow Road, 181 feet of frontage along Rossville Avenue, 66,033 square feet of lot area and is occupied by a two-story, with cellar, commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are

made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE occupies 3,204 square feet of floor space on a portion of the first floor, used for reception, a fitness studio, an office, closets, showers and restrooms; and

WHEREAS, the PCE has been in operation as Orangetheory Fitness since June 2, 2017, with the following hours of operation: 4:45 a.m. to 9:00 p.m., daily; and

WHEREAS, the applicant represents that the PCE use is consistent with the vibrant mixed-use area in which it is located, that the PCE use is fully contained within the envelope of an existing building and that the PCE use will not attract any significant additional traffic to the surrounding area; and

WHEREAS, in addition, the applicant submits that sound attenuation measures, including rubber tiling, a suspended gypsum-board ceiling and soundproof demising walls, have been provided within the space so as to not disturb other tenants in the building; and

WHEREAS, the Board finds that the PCE use is so located as not to impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE provides multiple exercise rooms with instructional fitness classes for approximately 12 members at a time; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant submitted evidence that the PCE is fully sprinklered and that an approved fire alarm—including area smoke detectors, manual pull stations at each required exist, local audible and visual alarms and connection to an FDNY-approved central station—has been installed in the entire PCE space; and

MINUTES

WHEREAS, the Fire Department represents that it has no objection to this application; and

WHEREAS, in response to the Board's questions at hearing, the applicant represents that the entirety of the PCE use is located within the portion of the site in an R3X (C2-2) zoning district and that no portion of the PCE use is located within the portion of the site in an R3X (C1-1) zoning district, where PCE use is not permitted by special permit or as of right; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18-BSA-060R, dated February 26, 2018; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-36 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated without a special permit.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to *permit*, on a site partially in an R3X (C2-2) zoning district and partially in an R3X (C1-2) zoning district, in the Special South Richmond Development District, the legalization of a physical culture establishment on a portion of the first floor of a two-story, with cellar, commercial building, contrary to ZR § 32-31; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked "Received November 14, 2017"-Four (4) sheets; and *on further condition*:

THAT this grant shall be limited to a term of ten (10) years, expiring June 2, 2027;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum 3'-0" wide exit pathways shall be maintained leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central

station—shall be maintained in the entire PCE space and the PCE shall remain fully sprinklered, as indicated on the Board-approved plans;

THAT sound attenuation shall be maintained in the PCE, as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by July 17, 2019;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 17, 2018.

MINUTES

**REGULAR MEETING
TUESDAY MORNING, JULY 24, 2018
10:00 A.M.**

Present: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.

SPECIAL HEARINGS

551-37-BZ

APPLICANT – Eric Palatnik, P.C., for 91-23 LLC, owner.
SUBJECT – Application March 11, 2016 – Amendment (§11-413) to permit a change in use from an Automotive Repair Facility (UG 16B) to Automobile Sales (UG 16B). R1-2 zoning district.

PREMISES AFFECTED – 233-02 Northern Boulevard, Block 8166, Lot 20, Borough of Queens.

COMMUNITY BOARD #11Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5
Negative:0

THE RESOLUTION –

WHEREAS, this is an application for an amendment of a previously approved variance to permit a change in use from a Use Group 16B automobile repair facility to a Use Group 16B automobile sales facility; and

WHEREAS, a public hearing was held on this application on March 20, 2018, after due notice by publication in *The City Record*, with continued hearings on May 22, 2018, and July 24, 2018, and then to decision on July 24, 2018; and

WHEREAS, Community Board 11, Queens, recommends approval of this application with conditions, citing concerns that the operators of the property continue to park vehicles on the sidewalk and that a documented oil spill on the property may adversely affect adjacent parkland; and

WHEREAS, the Board was also in receipt of one letter and oral testimony in opposition to this application, citing concerns about the presence of large metal sealed barrels on the site, that a documented oil spill at the site was properly remediated; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the south side of Northern Boulevard, between the Alley Creek Shoreline and 234th Street, in an R1-2 zoning district, in Queens; and

WHEREAS, the site has approximately 104 feet of

frontage along Northern Boulevard, 9,492 square feet of lot area and is occupied by a Use Group 16B automobile repair facility; and

WHEREAS, the Board has exercised jurisdiction over the subject site since April 12, 1938, when, under the subject calendar number, the Board granted a variance permitting a gasoline service station for a term of five (5) years, expiring April 12, 1943, on condition that the plot be leveled substantially to the grade of Northern Boulevard, that the accessory building not exceed one story in height or 12 by 16 feet in area, that the premises for a depth of at least 50 feet southerly from Northern Boulevard be surfaced with cracked bluestone, properly bound and rolled, that the gasoline pumps not be erected closer to any street building line than 20 feet, that no automobile repair be carried on or any parking or storage of cars on the premises other than those being serviced, that entrances to the premises not exceed two from Northern Boulevard or entrance exceed 25 feet in width, that all required permits be obtained and all work involved completed within one (1) year; and

WHEREAS, on October 4, 1938, under the subject calendar number, the Board amended the resolution to require that the accessory building be constructed of incombustible materials, as indicated on the revised plans, and be of the portable type not exceeding an area of 1,000 square feet of ground area, that the building be set back for a depth of approximately 40 feet and the area between the front of the building and Northern Boulevard be surfaced with cracked bluestone, properly bound and rolled, or similar impervious paving, that the gasoline pumps not be closer than 15 feet to the building line of Northern Boulevard, that no portion of the curb cut nor splay for the same be located closer than three (3) feet to the side lot line, as extended at right angles to the street building line of Northern Boulevard, that signs be restricted to the illuminated globes of the pumps and to a fixed sign attached to the front façade of the accessory building, excluding all roof signs and temporary signs, but permitting the erection of a post standard within the building line near the intersection of the building lines of Northern Boulevard and 233rd Street, supporting a sign advertising only the brand of gasoline sold and permitting such sign to extend over the street building line for a distance of not more than five (5) feet, and that all permits required be obtained and all work involved completed by April 12, 1939; and

WHEREAS, on November 29, 1938, under the subject calendar number, the resolution was further amended to clarify that the accessory building may be constructed with metal frame and fiber board and stucco on metal lath on the exterior and 16 gauge metal on the interior, that the roof may be constructed of steel plates covered with fiber board and metal and approved roof surfacing, that all construction be of fireproof materials, except that the interior and exterior doors may be of wood and that the entire building may be constructed on a reinforced concrete mat of sufficient area and thickness satisfactory to the borough superintendent; and

MINUTES

WHEREAS, on March 2, 1943, under the subject calendar number, the Board granted an extension of the term of the variance for an additional five (5) years, expiring March 2, 1948, on condition that all permits required shall be obtained and all work involved completed within three (3) months; and

WHEREAS, on April 6, 1948, under the subject calendar number, the Board granted a further extension of the term of the variance for five (5) years, expiring April 6, 1953; and

WHEREAS, on November 25, 1952, under the subject calendar number, the Board granted an additional ten (10) year extension of the term of the variance, expiring November 25, 1962; and

WHEREAS, on October 31, 1961, under the subject calendar number, the Board permitted a change in use of the site from a gasoline service station and office to a gasoline service station and office, lubrication, accessory car wash (non-automatic), minor motor vehicle repairs with hand tools only and parking of more than 5 motor vehicles for a term of twenty (20) years, expiring October 31, 1981, permitted an extension of the yard area of the station and an increase to the size of the accessory building on condition that face brick be used for the entire exterior of the accessory building, that there be no windows in the south wall of the accessory building, that the 5'-6" brick wall is extended from the easterly lot line to the building on the adjoining property, that all debris be removed from the premises and that the sidewalks and curbs be put in condition satisfactory to the Borough President; and

WHEREAS, on November 13, 1963, under the subject calendar number, the Board granted a one (1) year extension of time to obtain permits and complete work, expiring November 13, 1964; and

WHEREAS, on January 14, 1964, under the subject calendar number, the Board amended the resolution to read, "that in the event the owner desires to reduce the area of the site and to enlarge the existing accessory building instead of constructing a new building, such changes shall be permitted," on condition that the work conform to revised drawings; and

WHEREAS, on July 20, 1965, under the subject calendar number, the Board granted a one (1) year extension of time to obtain permits and complete work, expiring July 20, 1966; and

WHEREAS, on February 8, 1966, under the subject calendar number, the Board amended the resolution to read, that in the event, the owner desires to omit the fence along the easterly lot line and to use a portion of the premises in conjunction with Lot 251, which is under the same ownership, to relocate the brand sign to the intersection of

Northern Boulevard and 233rd Street, and to replace the existing gasoline storage tanks with 12 new 550-gallon approved gasoline storage tanks, such changes shall be permitted; and

WHEREAS, on March 2, 1982, under the subject calendar number, the Board amended the resolution to extend the term of the variance for ten (10) years, expiring October 31, 1991, permit the deletion of one gasoline dispensing pump and the addition of fencing on condition that the existing solid aluminum fence along the rear lot line be extended to the east to meet with the existing fence of Lot 25, that the premises be maintained clean and free of debris at all times, that the owner prevent any oil or gasoline spillage from running off into the adjacent parkland and that the station be operated at all times in such a fashion so as to minimize traffic congestion and that a new certificate of occupancy be obtained within one (1) year; and

WHEREAS, on April 16, 1991, on a motion to restore the application to the subject calendar number for possible rescission of the 1961 variance, the Board voted to withdraw the motion after finding that the owner was in compliance with the terms of the variance; and

WHEREAS, on June 12, 1992, under the subject calendar number, the Board granted a five (5) year extension of the term of the variance, expiring October 31, 1996, on condition that there be no parking on the sidewalk, that there be no mobile signs on the sidewalk, that the fences be properly maintained and repaired when needed, that the property be maintained in substantial compliance with existing and proposed conditions and that a new certificate of occupancy be obtained within one (1) year; and

WHEREAS, on January 10, 1995, under the subject calendar number, the Board waived its Rules of Practice and Procedure and granted a thirty-one (31) month extension of time to obtain a certificate of occupancy; and

WHEREAS, on July 29, 1997, under the subject calendar number, the Board granted an additional extension of the term of the variance limited to five (5) years from July 15, 1997, expiring July 15, 2002, on condition that there be no sale or storage of vehicles, except cars awaiting service, that the premises be maintained in substantial compliance with the drawings and that a new certificate of occupancy be obtained within one (1) year; and

WHEREAS, on May 6, 2003, under the subject calendar number, the Board waived its Rules and amended the variance to extend the term of the variance an additional ten (10) years, expiring July 15, 2012, and allow the elimination of gas pumps from the premises on condition that the premises be maintained free of debris and graffiti, that any graffiti located on the premises be removed within 48 hours, that conditions appear on the certificate of occupancy and that fencing be repaired within 30 days and photographic evidence of the repair provided to the Board's Executive Director within that period; and

WHEREAS, on June 4, 2013, under the subject calendar number, the Board waived its Rules and granted another ten (10) year extension of term of the variance,

1 The Board has exercised jurisdiction over Block 8166, Lot 25, in Queens (233-20 Northern Boulevard) under BSA Cal. Nos. 447-48-BZ and 334-78-BZ since September 28, 1948, and October 4, 1978, respectively.

MINUTES

expiring July 15, 2022, on condition that all use and operations substantially conform to the Board-approved drawings, that the site be maintained free of debris and graffiti, that signage comply with C1 district regulations, that a new certificate of occupancy be obtained by November 21, 2013, and that all conditions from prior resolutions not specifically waived by the Board remain in effect; and

WHEREAS, the applicant now seeks an amendment of the variance to permit a change in use, within Use Group 16B, from automobile repair to automobile sales; and

WHEREAS, at hearing, the Board expressed concerns regarding the maintenance of the site, the compliance of the site with the Board's previous grants and the operation of the subject site in coordination with the adjacent lot immediately to the west, 233-20 Northern Boulevard Queens, Block 8166, Lot 25, which the Board exercises jurisdiction over under BSA Cal. Nos. 447-48-BZ and 334-78-BZ; and

WHEREAS, specifically, the Board requested assurance that gasoline tanks previously maintained on the site were disposed of legally and that a New York State Department of Environmental Conservation spill on the site was affirmatively closed and mandated that the site be cleaned of all debris, fencing replaced, the asphalt surface of the lot repaved, no cars be permitted to park on the sidewalk, tires be removed from the site and fencing be installed to separate the subject lot from the adjacent Lot 25; and

WHEREAS, the Board additionally requested that, though the adjacent site on Lot 25 is located a separate zoning lot, the shadow of that site be indicated on the plans submitted for approval for the subject site in order for future Boards to understand that they are, in fact, utilized in tandem; and

WHEREAS, in response to the Board's inquiry regarding environmental remediation at the site, the applicant provided a letter from a consultant engaged to dispose of the soil drums at the subject site indicating that such disposal was completed in accordance with all federal, state and local regulations as well as evidence that DEC Spill Number 1507917 was closed on October 16, 2017; and

WHEREAS, the applicant having expressed a willingness to complete such work in an expedited fashion, the Board finds that a one (1) year extension of the term of the variance is appropriate to enable the completion of work necessary to ensure compliance of the site with the conditions previously imposed by the Board, with certain conditions as set forth below; and

Therefore, it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated April 12, 1938, as amended through June 4, 2013, so that as amended this portion of the resolution reads: "to grant an extension of the term of the variance for a term of one (1) year from the date of this amended resolution, to expire on July 24, 2019, and to approve a change in use from Use Group 16B automobile repairs to Use Group 16B

automobile sales, *on condition* that all work and site conditions shall comply with drawings filed with this application marked "Received July 25, 2018-Seven (7) sheets; and *on further condition*:

THAT fencing shall be replaced as specified on the Board-approved plans and maintained so as to remain in a first-class condition;

THAT asphalt shall be resurfaced throughout the lot and all parking spaces shall be restriped, as specified on the Board-approved plans;

THAT the building shall be repaired, painted and maintained so as to remain in a first-class condition;

THAT the refuse enclosure be installed in the location indicated on the Board-approved plans;

THAT landscaping shall be installed as specified on the Board-approved plans and be replaced and maintained as necessary so as to remain in a first-class condition;

THAT all debris shall be removed from the premises and the sidewalks and curbs shall be installed in a condition satisfactory to the Borough President;

THAT the premises be maintained clean and free of debris and graffiti at all times;

THAT there shall be no parking on the sidewalk adjacent to the site;

THAT there shall be no mobile signs on the sidewalk adjacent to the site;

THAT any graffiti located on the premises shall be removed within 48 hours;

THAT all signage at the site shall comply with C1 district regulations;

THAT the above conditions shall appear on the certificate of occupancy;

THAT all conditions from prior resolution not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, July 24, 2018.

APPLICANT – Eric Palatnik, P.C., for Williamsbridge Road Realty Corp., owner.

SUBJECT – Application June 27, 2017 – Amendment of a previously approved variance which permitted the operation of an Automotive Service Station (UG 16B). The amendment seeks to convert the existing automotive service bay to an accessory convenience store; Extension of Time to Obtain a Certificate of Occupancy which expired on July 28, 2016; Waiver of the Board's rules. C2-4/R5D zoning district.

PREMISES AFFECTED – 2001 Williamsbridge Road aka 1131 Neil Avenue, Block 4306, Lot 20, Borough of Bronx.

COMMUNITY BOARD #11BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board's Rules of Practice and Procedure, amendment of a previously approved variance and an extension of time to obtain a certificate of occupancy, which expired on July 28, 2016, pursuant to a prior Board approval; and

WHEREAS, a public hearing was held on this application on May 22, 2018, after due notice by publication in *The City Record*, with a continued hearing on July 24, 2018, and then to decision on that date; and

WHEREAS, Community Board 11, the Bronx, recommended approval of this application; and

WHEREAS, the subject site is located on the northwestern corner of Williamsbridge Road and Neill Avenue, in an R5D (C2-4) zoning district, in the Bronx; and

WHEREAS, the site has approximately 100 feet of frontage along Williamsbridge Road, 100 feet of frontage along Neill Avenue, 10,000 square feet of lot area and is occupied by a gasoline service station; and

WHEREAS, the Board has exercised jurisdiction over the subject site since October 29, 1957, when, under the subject calendar number, the Board granted a variance to permit the occupation of the site as a gasoline service station and accessory uses for a term of fifteen (15) years, expiring October 29, 1972, on condition that all building and uses be removed and the premises leveled substantially to the grade of the abutting streets; the accessory building be located where shown, have no cellar and in all other respects comply with the requirements of the Building Code; the accessory building be faced with face brick on all four sides and have no windows or other openings on the lot line walls to the west or north; the toilet doors be arranged so as not to be contiguous; the gasoline service tanks be of a low approved typed erected not nearer than 15 feet to the street building lines of Williamsbridge Road and Neill Avenue; curb cuts be restricted to two on Williamsbridge Avenue and two on Neill

Avenue, each 30 feet in width; at the intersection there be erected and maintained a block of concrete not less than 12 inches in height extending for not less than 5 feet along either street building line from the intersection; from the accessory building along the northerly lot line to Williamsbridge Road there be erected a woven wire fence of the chain link type on a masonry base to a total height of not less than 5'-6" with substantial terminal posts at the building line; if there exists on such line a fence as required by the Board to be constructed by the adjoining gasoline station on lot 13, such fence if complying may serve both gasoline stations and no additional fence may be required on this lot line; on the westerly lot line from the accessory building to Neill Avenue there also be a woven wire fence on the chain link type on a masonry base to a total height of not less than 5'-6" with suitable terminating posts at the building line; portable firefighting appliances be maintained as the fire commissioner directs; the number of gasoline storage tanks not exceed ten 550 gallon approved tanks; the sidewalks and curbing abutting the site be constructed or restored to the satisfaction of the Borough President; signs be restricted to permanent signs attached to the façade of the accessory building facing Williamsbridge Road and the illuminated globes of the pumps, excluding all roof signs and temporary signs but permitting the erection at the building line at the intersection of a post standard for supporting a sign which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line where shown not more than 4 feet; where not occupied by accessory building and pumps, the unbuilt upon area be paved with concrete or asphalt paving; for a similar term repairing with hand tools only for adjustments may be maintained solely within the accessory building; parking of motor vehicles awaiting services may be provided as long as such parking is so located as not to interfere with the servicing of the station and that all permits required be obtained and all work completed and a certificate of occupancy obtained within the requirement of the Zoning Resolution; and

WHEREAS, on December 10, 1957, under the subject calendar number, the Board amended the resolution to permit the locating of the service bays nearer to Williamsbridge Road, namely 50 feet instead of 70 feet, as indicated on revised plans and so as to be not nearer the lot line than 20 feet and the side lot line to the north ten feet and to permit the space between the rear of the accessory building and the rear line fence to be used for the parking use as previously permitted, there be no windows constructed in the rear wall of the accessory building as relocated and that the prior resolution be complied with in all other respects; and

WHEREAS, on May 20, 1958, under the subject calendar number, the Board amended the resolution to allow a maximum of twelve, rather than ten, 550 gallon approved tanks at the site; and

WHEREAS, on June 17, 1958, under the subject calendar number, the Board amended the resolution to state that the accessory uses permitted at the site may include the sale of used cars, including in those areas where parking was

MINUTES

permitted by prior resolutions; and

WHEREAS, on December 2, 1958, under the subject calendar number, the Board granted extensions of time to obtain required permits, obtain a certificate of occupancy and complete work from the date of the revised resolution; and

WHEREAS, on January 9, 1973, under the subject calendar number, the Board extended the term of the variance for ten (10) years, expiring October 29, 1982, on condition that the amended resolution be complied with in all respects and a new certificate of occupancy be obtained; and

WHEREAS, on March 8, 1983, under the subject calendar number, the Board granted a ten (10) year extension of the term of the variance, expiring October 29, 1992, on condition that the station be operated at all times in such a fashion so as to minimize traffic congestion, that the amended resolution be complied with in all respects and a new certificate of occupancy be obtained within one (1) year, by March 8, 1984; and

WHEREAS, on July 18, 1995, under the subject calendar number, the Board amended the resolution to permit the erection of three new pump islands and the alteration to the existing accessory building to create an attendant's booth, extended the term of the variance for ten (10) years, expiring October 29, 2002, on condition that the gates be locked after hours, screening be provided in accordance with the approved plan, the premises be maintained in substantial compliance with the submitted drawings, the amended resolution be complied with in all respects and a new certificate of occupancy be obtained within one (1) year, by July 18, 1996; and

WHEREAS, on March 9, 1999, under the subject calendar number, the Board waived its Rules of Practice and Procedure and extended the time to obtain a certificate of occupancy to within 42 months of July 18, 1996; and

WHEREAS, on August 6, 2002, under the subject calendar number, the Board extended the term of the variance for ten (10) years, expiring August 6, 2012, and approved amendments to the previously approved plans to permit the elimination of the swing gates at the southwest corner of the site and on the north side of the property, the use of a countertop rather than a partition to separate the attendant's booth from the sales area and the maintenance of a vending machine and vacuum along the north side of the site on condition that the premises be maintained in substantial compliance with the approved plans; the hours of operation for the automobile vacuums be limited to 9 a.m. to 7 p.m., there be no change in use, ownership or lessee without Board approval; the conditions appear on the certificate of occupancy; and a new certificate of occupancy be obtained within one year, by August 6, 2003; and

WHEREAS, on October 28, 2003, under the subject calendar number, the Board granted an application to amend the resolution to permit the erection of a metal canopy at the site on condition that all work substantially conform to approved drawings, the premises be maintained free of debris and graffiti, any graffiti located on the premise be removed within 48 hours and conditions from prior resolutions appear

on the certificate of occupancy; and

WHEREAS, on July 28, 2015, under the subject calendar number, the Board waived its Rules of Practice and Procedure and reinstated the variance to permit the operation of a gasoline service station (Use Group 16) for a term of ten (10) years, expiring July 28, 2025, on condition that signage, fencing and landscaping be maintained in accordance with the approved plans, all conditions from prior resolutions not specifically waived remain in effect, the site be maintained free of debris and graffiti, the conditions be noted on the certificate of occupancy and that a certificate of occupancy be obtained by July 28, 2016; and

WHEREAS, the applicant time to have obtain a new certificate of occupancy having expired, the applicant seeks the subject relief; and

WHEREAS, the applicant additionally requests an amendment to the variance to permit the conversion of the existing automotive service bay to an accessory convenience store and a waiver, pursuant to § 1-14.2 of the Board's Rules of Practice and Procedure (the "Board's Rules"), of § 1-07.3(d)(2) of the Board's Rules to permit the filing of this application more than thirty (30) days after the expiration of the time to obtain a certificate of occupancy; and

WHEREAS, the applicant asserts that the propose convenience store complies with Department of Buildings' Technical Policy and Procedure Notice ("TPPN") 10/99 regarding retail convenience stores accessory to automotive service stations in Use Group 16 in that it is located on the same zoning lot as the service station, is contained within a completely enclosed building and has a total of 955 square feet of retail selling floor area, which is both less than 2,500 square feet or 25 percent of the zoning lot area (2,500 square feet); in addition, the applicant submits that the plans comply with the definition of "incidental alteration" set forth in ZR § 12-10 and is permitted pursuant to ZR § 11-412, specifically, that the proposed work to convert the space consists of minor alterations to the interior partitions and does not include a proposal to increase the floor area of the existing building; and

WHEREAS, based on the foregoing, the Board has determined that the requested amendments to the variance are appropriate with certain conditions as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals, *waives* § 1-07.3(d)(2) of the Board's Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated October 29, 1957, as amended through July 28, 2015, to permit the conversion of the existing automotive service bay to an accessory convenience store and an extension of time to obtain a certificate of occupancy, *on condition* that all work shall substantially conform to drawings, filed with this application marked "Received July 24, 2018"-Ten (10) sheets; and *on further condition*:

THAT a certificate of occupancy be obtained within one (1) year, by July 24, 2019;

THAT a trash enclosure shall be provided and maintained at the site as shown on the Board-approved plans;

THAT landscaping shall be provided at the site as indicated on the Board-approved plans and maintained and

MINUTES

replaced as necessary to be maintained in a first class condition;

THAT the site shall be maintained free of debris and graffiti;

THAT any graffiti located on the premises shall be removed within 48 hours;

THAT there shall be no change in use, ownership or lessee without Board approval;

THAT this site shall be operated at all times in such a fashion as to minimize traffic congestion;

THAT the above conditions shall be noted on the certificate of occupancy

THAT all conditions from prior resolutions not specifically waived by the Board shall remain in effect;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 24, 2018.

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure, an extension of the term of a variance, previously granted by the Board, which expired on October 4, 2008, and an amendment of the same; and

WHEREAS, a public hearing was held on this application on March 20, 2018, after due notice by publication in *The City Record*, with continued hearings on May 22, 2018, and July 24, 2018, and then to decision on July 24, 2018; and

WHEREAS, Community Board 11, Queens, recommends approval of this application with conditions, citing concerns that the operators of the property continue to

park vehicles on the sidewalk; and

WHEREAS, the Board was also in receipt of one letter and oral testimony in opposition to this application, citing concerns that remediation of a documented oil spill on an adjacent site was properly completed and the parking of unplatd vehicles on the public sidewalk and blocking access to the a nearby entrance Alley Pond Park; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the southwestern corner of Northern Boulevard and 234th Street, in an R1-2 zoning district, in Queens; and

WHEREAS, the site has approximately 248 feet of frontage long Northern Boulevard and 234th Street, 16,606 square feet of lot area and is occupied by an automobile showroom and repair shop; and

WHEREAS, the Board has exercised jurisdiction over the subject site since September 28, 1948, when, under BSA Calendar No. 447-48-BZ, the Board granted a variance permitting its use for the sale and display of more than 5 used cars for a term of five (5) years, expiring September 28, 1953, on condition that during the term of the variance, the premises would be occupied for no other use; that the plot be leveled substantially to the grade of surrounding streets and be surfaced with steam cinders or crushed bluestone; that a continuous woven wire type fence with anchored steel posts not less than 5 feet in height be installed on the interior lot lines; that, along the street building line of Northern Boulevard and Alley Pond Parkway, a fence be installed or there be installed on the lot line a cement curbing not less than 1 foot in height except for openings to Northern Boulevard and Alley Pond Parkway; that lighting for general illumination be on post standards with metal reflectors; that no non-conforming signs be installed; that during the variance term, no building be installed on the premises unless approved by the Board and that all permits be obtained and all work completed within one (1) year; and

WHEREAS, on June 7, 1949, under BSA Cal. No. 447-48-BZ, the Board amended the resolution to permit the construction on the premises, near the entrance, of a building solely for the use of the attendant of the lot, and for no other use, no more than one story high and no larger than 100 square feet in area; and

WHEREAS, on November 25, 1952, under BSA Cal. No. 447-48-BZ, the Board granted an extension of the term of the variance for an addition five (5) years, expiring November 25, 1957, on condition that all wok be completed and a certificate of occupancy be obtained within six (6) months; and

WHEREAS, on September 30, 1958, under BSA Cal. No. 447-48-BZ, the Board considered an application proposing the construction of a one-story extension to an existing one-story building used for sales display, storage and installation of auto seat covers, to be used for minor vehicle repairs limited to the installation and service of

MINUTES

mufflers and to use the unbuilt portion of the premises for patron parking and amended the resolution to add:

that in the event the owner desires to construct an extension of the building for similar use as the existing building, as previously permitted, and specifically for minor vehicle repairing to include also the installation of mufflers and tail pipes, that such construction and use may be permitted for a term of 10 years, and permitting the proposed parking of cars in connection with the use for a similar term; the amendment additionally extended the term of the variance permitting the sale and display of more than 5 used cars for an additional ten (10) years; and

WHEREAS, on November 12, 1958, under BSA Cal. No. 447-48-BZ, the Board amended the September 30, 1958, resolution to clarify that the term of the variance was for fifteen (15) years from the date of the amended resolution, expiring September 30, 1973; and

WHEREAS, on February 10, 1959, under BSA Cal. No. 447-48-BZ, the Board amended the resolution, only so far as it included reference to motor vehicle repair, so that it would read, "and specifically for minor motor vehicle repairing to including also the installation of mufflers and tailpipes and the use of an oxy-acetylene torch subject to a proper permit issued by the Fire Commissioner"; and

WHEREAS, on October 4, 1978, under the subject calendar number, the Board permitted, pursuant to ZR § 11-413, the enlargement of the lot area of a plot previously before the Board to include former tax lot 33 and the change in use of an existing automobile seat cover and incidental repair establishment into a tire sales establishment with installation services on condition that all repairs be done within the building, that the surface area of the signs be limited to 481 square feet maximum, that the special permit be limited to a term of ten (10) years, expiring October 4, 1988, and that substantial construction be completed within one (1) year; and

WHEREAS, on June 26, 1979, under the subject calendar number and subsequent to the receipt of a condition approval from Community Board 11, Queens, on June 19, 1979, the Board amended the resolution to permit "tire sales, installation and service Use Group 7, auto repair hand tools only limited to muffler and tail pipe installation and service with (oxy-acetylene torch), auto parts sales and accessory storage Use 6, auto radio and C.B. sales, and installation and service and that the total sign area shall be limited to 300 square feet"; and

WHEREAS, on September 18, 1979, the Board's June 26, 1979, resolution was corrected to reflect delete the words "limited to" with regards to the type of auto repair with hand tools permitted at the site; and

WHEREAS, on July 18, 1990, under the subject calendar number, the Board waived its Rules, extended the term of the variance for ten (10) years, expiring October 4, 1998, and amended the variance to legalize the additional

use of transmission installation and repair, permit the elimination of the tire sales establishment as well as changes to the interior layout, permit a change in the type of fencing to a six-foot high woven wire fence with 50 percent opaque slats and to eliminate the previously-approved landscaping at the rear on condition that any illuminated signs on the premises be off at 9 p.m., that the sidewalks be maintained and repaired where required, that striping be painted in the parking area, that steel barriers be installed at the building lines where appropriate, that the west side wall of the building be repainted to match the east side wall, that the rear fence be maintained and repaired where required, that the gate be kept locked during non-business hours, that there be no storage of parts or materials in the open area at any time, and that a new certificate of occupancy be obtained within one (1) year; and

WHEREAS, on March 2, 1993, under the subject calendar number, the Board granted a waiver of its Rules and amended the resolution to extend the time in which to obtain a new certificate of occupancy to within thirty-four (34) months from July 18, 1991; and

WHEREAS, on July 25, 2000, under the subject calendar number, the Board waived its Rules and granted an extension of the term of the variance, pursuant to ZR § 73-11, for a term of ten (10) years, expiring October 4, 2008, on condition that the premises be maintained free of debris and graffiti; that the use portable identification signs be kept indoors at night; that all signs be maintained in accordance with BSA approved plans; that all conditions appear on the certificate of occupancy and that a new certificate of occupancy be obtained within two (2) years; and

WHEREAS, the term of the variance having expired, the applicant seeks a ten (10) year extension of the term of the variance as well as an amendment to legalize changes to interior partitions and signage and the additional use of automobile sales; and

WHEREAS, additionally, the applicant requests a waiver, pursuant to § 1-14.2 of the Board's Rules of Practice and Procedure, of Rule § 1-07.3(b)(3)(ii) to permit the filing of this application more than two (2) years but less than ten (10) years after the expiration of the term; and

WHEREAS, at hearing, the Board expressed concerns regarding the maintenance of the site, outstanding ECB and DOB violations, the compliance of the site with the Board's previous grants and the operation of the subject site in coordination with the adjacent lot immediately to the west, 233-02 Northern Boulevard Queens, Block 8166, Lot 20, which the Board exercises jurisdiction over under BSA Cal. No. 551-37-BZ; and

WHEREAS, specifically, the Board observed that fencing at the site required replacement, asphalt required resurfacing and parking spaces required striping and requested that, though the adjacent site on Lot 20 is on a separate zoning lot, the shadow of that site be indicated on the plans approved in connection with the subject site in order for future Boards to understand that they are, in fact, utilized in tandem; and

MINUTES

WHEREAS, the applicant having expressed a willingness to complete such work in an expedited fashion, the Board finds that a one (1) year extension of the term of the variance is appropriate to enable the completion of work necessary to ensure compliance of the site with conditions previously imposed by the Board, with certain conditions as set forth below; and

Therefore, it is Resolved, that the Board of Standards and Appeals *waives* its Rule of Practice and Procedure, *reopens* and *amends* the resolution, dated October 4, 1978, as amended through July 25, 2000, so that as amended this portion of the resolution reads: “to grant an extension of the term of the variance for a term of one (1) year from the date of this amended resolution, to expire on July 24, 2019, and to approve an additional use of automobile sales, changes to interior partitions and signage *on condition* that all work and site conditions shall comply with drawings filed with this application marked “Received July 25, 2018-Seven (7) sheets; and *on further condition*:

THAT fencing shall be replaced as specified on the Board-approved plans and maintained so as to remain in a first-class condition;

THAT asphalt shall be resurfaced throughout the lot and all parking spaces shall be restriped, as specified on the Board-approved plans;

THAT the building shall be repaired, painted and maintained so as to remain in a first-class condition;

THAT the refuse enclosure be installed in the location indicated on the Board-approved plans;

THAT the premises shall be maintained free of debris and graffiti;

THAT any illuminated signs at the premises be off at 9 p.m.;

THAT the sidewalks shall be maintained and repaired where required;

THAT there be no storage of parts or materials in the open area at any time;

THAT all signs shall be maintained in accordance with the Board-approved plans;

THAT the above conditions shall appear on the certificate of occupancy;

THAT all conditions from prior resolution not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, July 24, 2018.

APPLICANT – Law Office of Fredrick A. Becker, for Plaza Tower, LLC, owner; TSI East 48 LLC dba New York Sports Club, lessee.

SUBJECT – Application May 1, 2017 – Extension of Term of a previously approved Special Permit (§73-36) which permitted the operation of a Physical Cultural Establishment (New York Sports Club) located on the sub-cellar and cellar levels with an entrance on the first floor in a 46-story commercial building which expired on February 13, 2017: Amendment to permit the a modification of the hours of operation: Waiver of the Rules. . C1-9 (TA), R8B and R10 zoning district.

PREMISES AFFECTED – 885 Second Avenue aka 1 Dag Hammarskjold Plaza, Block 1321, Lot 22, Borough of Manhattan.

COMMUNITY BOARD #6M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure, an extension of term of a previously granted special permit for a physical culture establishment (“PCE”), which expired on February 13, 2017, and an amendment of the same to change the hours of operation; and

WHEREAS, a public hearing was held on this application on July 24, 2018, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Vice-Chair Chanda performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 6, Manhattan, recommends approval of this application on condition that the term be limited to five (5) years pursuant to the Community Board’s standing policy to ensure more frequent feedback regarding the PCE’s operation from the surrounding community; and

WHEREAS, the subject site is located on the west side of Second Avenue, bound by East 48th Street to the north and East 47th Street to the south, partially within a C1-9 zoning district within the Special Transit Land Use District (TA), partially within an R8B zoning district and partially within an R10 zoning district, in Manhattan; and

WHEREAS, the site has approximately 201 feet of frontage along Second Avenue, 126 feet of frontage along East 48th Street, 275 feet of frontage along East 47th Street, 40,820 square feet of lot area and is occupied 46-story plus cellar and sub-cellar commercial building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since February 13, 2007, when, under the subject calendar number, the Board granted a special permit,

MINUTES

pursuant to ZR § 73-36, to permit the establishment of a physical culture establishment, operated by New York Sports Club located on portions of the cellar and sub-cellar of the existing 46-story commercial building for a term of ten (10) years, expiring February 13, 2017, on condition that there be no change in ownership or operating control of the PCE without prior application to and approval from the Board; the hours of operation be limited to: Monday through Thursday, 6:00 a.m. to 11:00 p.m., Friday, 6:00 a.m. to 9:00 p.m., and Saturday and Sunday, 9:00 a.m. to 7:00 p.m.; and massages only be performed by New York State licensed massage therapists; and

WHEREAS, during hearings on that previous application, the Board asked the applicant to confirm that the PCE would be located within the portion of the building which is in the C1-9 (TA) zoning district since the special permit is not available in either the R8B or R10 zoning district and the applicant responded by revising the site plans to illustrate that the PCE is confined to the portion of the site located within the C1-9 (TA) zoning district; and

WHEREAS, the previous term of the special permit having expired, the applicant requests the subject relief; and

WHEREAS, additionally, the applicant requests waivers, pursuant to § 1-14.2 of the Board's Rules of Practice and Procedure, of Rule § 1-07.3(b)(2) to permit the filing of this application less than two (2) years after the expiration of the term; and

WHEREAS, in satisfaction of Rule § 1-07.3(b)(2), the applicant represents that the PCE use has been continuous since the expiration of the term and substantial prejudice would result without the requested waiver; and

WHEREAS, the applicant represents that there has been no change in ownership or operator since the 2007 resolution, that New York Sports Club continues to operate the subject PCE and that the PCE continues to occupy 6,856 square feet of floor space in the cellar and 6,571 square feet of floor space on the sub-cellar of the subject building solely within the portion of the site located within the C1-9 (TA) zoning district; and

WHEREAS, however, the applicant represents that massage services are no longer being offered at the facility and the hours of operation of the PCE are now Monday through Thursday, 5:00 a.m. to 11:00 p.m., Friday, 5:00 a.m. to 10:00 p.m., and Saturday through Sunday, 8:00 a.m. to 8:00 p.m.; and

WHEREAS, accordingly, the applicant seeks an amendment of the subject PCE's hours of operation; and

WHEREAS, the applicant submitted affidavits from consultants contracted to conduct fire system safety inspections affirming that, at the time of inspection on/around May 16, 2018, the sprinkler and fire alarm systems in the subject PCE were operable and code-compliant; and

WHEREAS, pursuant to ZR § 73-03(f), the applicant has satisfactorily demonstrated compliance with the conditions of the previous term and the Board finds that the circumstances warranting the original grant still obtain; and

WHEREAS, accordingly, the Board finds that a ten (10) year extension of the term of the special permit is appropriate, with the conditions set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated February 13, 2007 so that as amended this portion of the resolution shall read: "to permit an extension of the term of the special permit for a term of ten (10) years, expiring February 13, 2027, *on condition* that all work and site conditions shall conform to drawings filed with this application "Received July 25, 2018" – Four (4) sheets; and *on further condition*:

THAT the term of this grant shall expire on February 13, 2027;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT the hours of operation shall be limited to: Monday through Thursday, 5:00 a.m. to 11:00 p.m., Friday 5:00 a.m. to 10:00 p.m., and Saturday through Sunday, 8:00 a.m. to 8:00 p.m.;

THAT a new certificate of occupancy shall be obtained within one year;

THAT the above conditions shall appear on the certificate of occupancy;

THAT an updated certificate of occupancy shall be obtained within one (1) year, by July 24, 2019;

THAT minimum three (3) foot wide exit pathways shall always be maintained unobstructed, including that from any gymnasium equipment;

THAT sprinklers and interior fire alarm system – including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, connection of the interior fire alarm and sprinklers to a FDNY-approved central station – shall be maintained throughout the PCE space as indicated on the Board-approved plans;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, July 24, 2018.

APPLICANT – Francis R. Angelino, Esq., for David Lowenfeld, owner; BBP Fitness, LLC, d/b/a Brick Crossfit NYC, lessee.

SUBJECT – Application November 17, 2016 – Extension of Term of a previously approved Special Permit (§73-36) permitting a physical culture establishment (Brick CrossFit) on the ground floor and cellar of an existing 10-story building which expires on November 20, 2016. C6-2A zoning district.

PREMISES AFFECTED – 257 West 17th Street, Block 767, Lot 7502, Borough of Manhattan.

COMMUNITY BOARD #4M

ACTION OF THE BOARD – Application Denied.

THE VOTE TO GRANT –

Affirmative:0

Negative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

THE RESOLUTION –

WHEREAS, this is an application for an extension of the term of a previously granted special permit for a physical culture establishment (“PCE”), which expired on November 20, 2016, and an amendment of the same to change the required hours of operation; and

WHEREAS, a public hearing was held on this application on July 24, 2018, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Community Board 4, Manhattan, deferred its recommendation with regards to the subject application in light of litigation still pending between the applicant PCE and residential tenants of the building in which it is located; and

WHEREAS, the Community Board 4 Chelsea Land Use Committee recommended disapproval of this application; and

WHEREAS, the subject site is located on the northern side of West 17th Street, between Eighth Avenue and Seventh Avenue, in a C6-2A zoning district, in Manhattan; and

WHEREAS, the site has approximately 127 feet of frontage along West 17th Street, 92 feet of depth, 11,688 square feet of lot area and is occupied by ten-story plus cellar mixed-use commercial and residential building; and

WHEREAS, the subject PCE occupies approximately 8,387 square feet of total floor space in the cellar (1,930 square feet) and ground floor (6,457 square feet) of the subject building and is operated at Brick Fitness; and

WHEREAS, the Board has exercised jurisdiction over the subject site since October 27, 2015, when, under the subject calendar number and after eleven (11) public hearings, the Board granted a special permit, pursuant to ZR §§ 73-36 and 73-03, legalizing the operation of a physical culture establishment on the ground floor and cellar levels of the existing building on condition that the term of the grant expires on November 20, 2016, there be no change in

ownership or operating control of the PCE without prior application to and approval from the Board, fire safety measures be installed and/or maintained as shown on the BSA-approved plans and that all Department of Buildings (“DOB”) and related agency application(s) filed in connection with the authorized use and/or bulk be signed off by DOB and all other relevant agencies by December 1, 2016 (the “2015 Resolution”); and

WHEREAS, in addition, the 2015 Resolution conditioned the grant on the PCE “strictly adher[ing]” to the following operational plan:

General Restrictions:

- The hours of operation of the PCE shall be Monday through Friday, from 5:15 a.m. to 9:00 p.m., and Saturday and Sunday, from 7:30 a.m. to 4:00 p.m., subject to programmatic limitations imposed as conditions herein;
- Under no circumstances are weight drops, from any height, permitted anywhere at the PCE premises outside of Classroom 1 and Classroom 3;
- The sound level from the music limiter throughout the entire PCE premises shall remain fixed to prevent the sound from the PCE from exceeding 73 dBA/83 dBC with the wall mounted volume control at the maximum level regardless of the source of the program;
- All weight lifting stations within the PCE must utilize Rogue pads placed on top of sound absorbing weight platforms, as indicated on the BSA-approved plans;

Ground Floor Restrictions:

- Under no circumstances are PCE staff or customers permitted to use barbells with a weight in excess of 115 lb. on the ground floor of the PCE premises;
- Under no circumstances are PCE staff or customers permitted to use medicine balls with a weight in excess of 20 lb. on the ground floor of the PCE premises;
- Under no circumstances are PCE staff or customers permitted to use kettlebells with a weight in excess of 45 lb. on the ground floor of the PCE premises;
- Under no circumstances are PCE staff or customers permitted to use dumbbells with a weight in excess of 45 lb. on the ground floor of the PCE premises;
- Under no circumstances may the activity of hitting a wall with a medicine ball (“Wall Ball”) be practiced on the ground floor of the PCE premises;
- All PCE activities on the ground floor of the subject building must be supervised by PCE faculty, and the PCE may not permit any open gym activities on the ground floor of the subject

MINUTES

building;

Classroom 1 (“Central Park”)

- The PCE may offer the following class in Classroom 1: “Functional Fitness,” a strength and skill class that incorporates weight training as well as skill exercises (gymnastics, including pull-ups, handstands, etc.) and metabolic conditioning;
 - Classroom 1 contains (and may not exceed) 16 weight-lifting stations, all of which must utilize Rogue pads placed on top of sound absorbing weight platforms, as indicated on BSA-approved plans;
 - Barbell movements incorporated into classes held within Classroom 1 are permitted but participants may not perform, nor may the PCE permit, drops of weights or weighted objects from any point higher than “waist height”;
 - Under no circumstances are weight drops, from any height, permitted in Classroom 1 (or elsewhere on the ground floor of the PCE premises) before 7:00 a.m. or after 9:00 p.m.;
 - Weight drops of any kind, of any weight, are prohibited at all times at that portion of Classroom 1 designated “G-2” on the BSA-approved plans;
 - No more than 18 attendees are permitted to attend any class offered within Classroom 1 at one time;
- Outside of scheduled classes, Classroom 1 (“Central Park”) is to remain empty and unused;

Classroom 2 (“East Village”)

- The PCE may offer the following classes in Classroom 2 (“East Village”): “BX Class,” which utilizes bodyweight exercises and calisthenics, and which incorporates medicine balls, kettlebells, and dumbbells; “Mobility Class,” which utilizes foam rollers, resistance bands, and yoga mats (and no weights or weighted objects); and “Yoga Class,” which utilizes yoga mats (and no weights or weighted objects);
- No more than 40 attendees are permitted to attend Yoga Class at one time;
- No more than 32 attendees are permitted to attend Mobility Class at one time;
- No more than 24 attendees are permitted to attend BX Class at one time;
- Outside of scheduled classes, Classroom 2 (“East Village”) is to remain empty and unused;
- Weight drops of any kind, of any weight, are prohibited within Classroom 2;

Cellar-Level Restrictions:

- Under no circumstances are PCE staff or customers permitted to use barbells with a weight in excess of 135 lb. in the cellar-level of the PCE premises;
- Under no circumstances are PCE staff or

customers permitted to use medicine balls with a weight in excess of 20 lb. in the cellar-level of the PCE Premises;

- Under no circumstances are PCE staff or customers permitted to use kettlebells with a weight in excess of 70 lb. in the cellar-level of the PCE premises;
- Under no circumstances are PCE staff or customer permitted to use dumbbells with a weight in excess of 45 lb. in the cellar-level of the PCE premises;

Classroom 3 (“Downtown”)

- The PCE may offer the following class in Classroom 3: “B Fit Class,” which includes warm-ups, skill/strength, and workout/High Intensity Interval Training; B Fit Class incorporates barbells, medicine balls, dumbbells and kettlebells, training with no weights in excess of 135 lb. permitted;
- “Overhead Drops” of weights or weighted objects is not permitted in Classroom 3 (“Downtown”) or elsewhere within the PCE premises;
- No more than 18 attendees are permitted to attend B Fit Class at one time;
- The PCE may permit “Open Gym” in Classroom 3, which is managed by PCE staff;

WHEREAS, unit owners in the subject building (referred to in the 2015 Resolution, along with others who opposed the application, as the “Opposition”) objected to the original application for a PCE special permit on the grounds that the subject PCE constituted a nuisance in that excessive noises and vibrations emanating from the PCE space and resulting from the PCE activity therein had been a regular and significant disturbance since the PCE began operating unlawfully at the site in July 2013; and

WHEREAS, in the 2015 Resolution, the Board noted that litigation filed in the Supreme Court of New York (*The Board of Managers of the 257 West 17th Street Condominiums v. 257 Associates Borrower LLC and BBP Fitness LLC d/b/a Brick New York*, Sup Ct, New York County, Index No. 160585/13) was pending at the time of the Board’s decision and that, pursuant to the Court’s Interim Temporary Restraining Order dated November 15, 2013, the PCE was required to use its best efforts to ensure that its patrons refrain from dropping weights and/or weighted objects on the floors and/or walls of the subject premises between the hours of 7:30 a.m. and 8:30 p.m., but that, notwithstanding this Order, opponents to the application maintained that the PCE continued to be a nuisance; and

WHEREAS, the 2015 Resolution continued:

[T]he Board notes that it has held an unprecedented number of public hearing on this application, and worked with acoustical engineers representing both the applicant PCE as well as the Opposition, to determine whether and to what extent the PCE can operate at the subject site

MINUTES

without constituting an unreasonable nuisance to the residential occupants of the subject building . . . ultimately, the Board directed the PCE and the Opposition to hire a third-party acoustical engineer to administer a Board-approved test of various activities within the PCE in order to determine the impact of such activities and the viability of the PCE at the site . . . based on the foregoing test and extensive review of the sound and vibration attenuation measures implemented at the subject premises, the Board has directed the PCE to adhere to a strict operational plan (the “Operational Plan”), which the Board makes a condition of its approval of the subject application . . . the Board has taken the unusual step of limiting the term of the subject approval to one year, commencing on November 20, 2015, so that the Board can evaluate, upon the expiration of the term, whether and to what extent the PCE adhered to the Operational Plan and whether and to what extent the Operational Plan adequately mitigated the noise and vibration complained of by the Opposition . . .

WHEREAS, the previous term of the special permit having expired, the applicant requests the subject relief, seeking a ten (10) year extension of the term and an amendment to the condition regarding hours of operations to reflect the subject PCE’s actual hours of operation (Monday through Friday, 5:30 a.m. to 9:00 p.m. and Saturday through Sunday, 8:30 a.m. to 4:00 p.m.); and

WHEREAS, the Board’s decisions with regards to applications for an extension of the term of the PCE special permits are guided by, *inter alia*, ZR § 73-03(f), which states:

On application for renewal of any such special permit authorized in this Chapter, the Board shall determine whether the circumstances warranting the original grant still obtain. In addition, the Board shall ascertain whether the applicant has complied with the conditions and safeguards theretofore described by the Board during the prior term. In the event that the Board shall find the applicant has been in substantial violation thereof, it shall deny the application for renewal; and

WHEREAS, Community Board 4’s Chelsea Land Use Committee, in its letter, dated July 10, 2018, informing the Board of its recommendation, noted a 2016 investigation of the PCE by residents of the subject building reporting the use of weights above the limits set forth in the 2015 Resolution (specifically, 175-, 205-, 235- and 325-pound weights), the failure to install the Rogue pads required pursuant to the 2015 Resolution and the dropping of weights from shoulder and overhead height; and

WHEREAS, by letter dated June 29, 2018, a representative for the owner of the subject building (the “Owner’s Representative”) requested denial of the

application “[b]ased on uncontroverted evidence that Brick routinely and openly violates the conditions imposed by the [2015 Resolution], and the disturbance and hardship suffered by the occupants of the Condominium as a consequence”; and

WHEREAS, the Owner’s Representative additionally submitted affidavits from two individuals engaged to investigate the subject PCE in late 2016 as well as photographic evidence purporting to show PCE patrons repeatedly lifting and dropping weights of up to 300 pounds in the subject PCE space without Rogue pads—resulting in noticeable sound and vibrations throughout the PCE space—in full view of PCE employees with no attempt by PCE employees to correct the patrons’ behavior; and

WHEREAS, an affidavit was also provided by a certified personal trainer (the “Affiant”) engaged by the owner of the subject building to review complaints by residents and compare them to video footage from the subject PCE in order to verify, if possible, the source of the complaint and whether the source was the result of a non-compliance with the 2015 Resolution and, in reviewing the surveillance videos of the facility that corresponded to the time and date of complaints made by building residents in April and May 2018, the Affiant created a log of those complaints (the “Complaint Log”), including the date, time and activities observed on the surveillance video, and submitted the Complaint Log to the Board; and

WHEREAS, the Complaint Log indicated that at the moments of particular complaints made by building residents—oftentimes, multiple complaints made over the course of a few minutes—patrons of the PCE were engaged in activities prohibited by the 2015 Resolution, including, *inter alia*, failing to drop weights onto Rogue pads, using weights in excess of 135 pounds and dropping weights from overhead heights; and

WHEREAS, at hearing, the representative of the subject PCE acknowledged that the private investigators did, indeed, observe activities at the PCE in late 2016 that did not comply with the 2015 Resolution and the owner testified that the PCE does not utilize the Rogue pads on the first floor because cross fit activities are no longer occurring and, thus, weight dropping was no longer occurring on that floor; and

WHEREAS, a trainer employed by the subject PCE also testified at hearing that the PCE allows its patrons to drop weights in classes held in the cellar because the PCE would otherwise lose a substantial number of patrons and that the business could not be maintained with a restriction that weights of 135 pounds or less cannot be dropped from waist height; and

WHEREAS, residents of the subject building provided additional oral testimony at hearing, stating that they have continuously complained about the subject PCE operating contrary to the 2015 Resolution and confirming that the time and date of complaints regarding noise and vibrations itemized in the Complaint Log do, in fact, correspond to activities in the subject PCE that do not comply with the

MINUTES

conditions of the 2015 Resolution; and

WHEREAS, the Board notes that the subject application does not include a request for an amendment to any of the conditions of the 2015 Resolution relating to the operation of the subject PCE's classes, i.e. the removal of conditions prohibiting the use of weights in excess of 135 pounds or weight drops in particular areas of the PCE space; and

WHEREAS, in light of the evidence presented, uncontroverted by the subject PCE's owner, trainer-employee and representative, that the subject PCE has failed to comply with the 2015 Resolution and, in so doing, elicited numerous complaints from residents of the building regarding its adverse effects—specifically noise and vibrations in their residential units resulting from the dropping of excessive weights from significant heights in the subject PCE space—the Board finds, pursuant to ZR § 73-03(f), that the subject PCE has been in substantial violation of the conditions and safeguards described the Board in the 2015 Resolution; and

WHEREAS, accordingly, a ten (10) year extension of the term of the subject special permit is inappropriate; and

Therefore, it is Resolved, that the application for an extension of the term of a special permit previously granted by the Board, pursuant to ZR §§ 73-36 and 73-03, is *denied*.

Adopted by the Board of Standards and Appeals, July 24, 2018.

341-43-BZ

APPLICANT – Seyfarth Shaw LLP, for SP HHF Sub B LLC, owner.

SUBJECT – Application April 13, 2018 – Extension of Term (§11-411) of a previously approved variance which permitted a storage warehouse (UG 16B) which expired on June 4, 2016; Waiver of the Board's Rules. C2-4, C2-3, R7A and R5 zoning district.

APPLICANT – Law Office of Jay Goldstein PLLC, for 87 Wythe Holdings LLC, owner; Will Bar LLC, lessee.

SUBJECT – Application October 16, 2017– Special Permit (§73-36) to allow the legalization of a physical culture establishment (*The Bar Method*) on a portion of the second floor of an existing building contrary to ZR §42-10. M1-2 zoning district.

PREMISES AFFECTED – 97 N 10th Street, Lot 2296, Lot 4, Borough of Brooklyn.

COMMUNITY BOARD #1BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Borough Commissioner, dated September 28, 2017, acting on Department of Buildings (“DOB”) Application No. 321647063, reads in pertinent part:

Proposed physical culture establishment in an M1-2 zoning district is contrary to Zoning Resolution section 42-10 and must be referred to the BSA; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, on a site located within an M1-2 zoning district, a physical culture establishment (“PCE”) on a portion of the second floor of an existing two-story plus mezzanine commercial building, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on July 24, 2018, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, the Board was in receipt of two (2) form letters in support of this application; and

WHEREAS, the subject site is a corner and through lot located on the north side of North 10th Street, bound by Wythe Avenue to the east and North 11th Street to the north, within an M1-2 zoning district in Brooklyn; and

WHEREAS, the site has approximately 225 feet of

MINUTES

frontage along North 10th Street, 200 feet of frontage along Wythe Avenue, 225 feet of frontage along North 11th Street, 45,000 square feet of lot area and is occupied by several buildings, including a two-story plus mezzanine commercial building in which the subject PCE is located; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, the applicant represents that, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each

of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant submitted evidence that the subject PCE occupies 3,131 square feet of floor area on the second floor with two exercise studios, an office, a staff room, locker rooms, and a reception area; and

WHEREAS, the applicant represents that the PCE has been in operation since July 2017 as The Bar Method with the following hours of operation: Monday through Sunday, 5:30 a.m. to 9:30 p.m.; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because it is located in a mixed residential and commercial area and that is heavily trafficked and will draw its patrons from the immediate area who will walk to the Premises; and

WHEREAS, the applicant represents that the studios are isolated from adjacent structures, have no neighboring spaces either beside them or above them, that sound mitigation measures installed in the subject PCE space include acoustical separations with an external STC rating of 61, sound attenuating flooring with an STC rating of 57 (specifically, the studios sit on a 1/8-inch neoprene mat with a 1/2-inch carpet underlayment and a 1/2-inch carpet, all over a 4-inch slab supported by a 4-inch brick barrel vaulting) and that all penetrations at the studio floor have been sealed with mineral fiber insulation and caulked; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant represents that the PCE contains facilities for the provision of physical fitness instruction classes that utilize ballet techniques and limited equipment, such as light free weights and small inflatable balls; and

WHEREAS, accordingly, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has

MINUTES

performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant states that sprinklers and a fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and a connection of the building’s interior Class E fire alarm to an FDNY-approved central station—are installed throughout the PCE space; and

WHEREAS, the applicant submits that the PCE is equipped with an automatic wet sprinkler system; and

WHEREAS, by letter dated July 20, 2018, the Fire Department confirms that an application had been filed with DOB and the Fire Department for a fire alarm system in the subject PCE and subsequently approved; that an inspection was performed for the fire alarm system, which covers the entire building and, while a letter of defect was issued to the building owner on June 15, 2018, the Fire Alarm Inspection Unit has been informed of these open items and will re-inspect the premises and issue appropriate violations orders after the owner has had sufficient time to complete the necessary repairs; that a new sprinkler and standpipe system was also installed, inspected and signed off by a licensed fire suppression contractor and that the Fire Department is responsible for inspecting these systems every five years, with the next inspection scheduled for July 2023; and that the Bureau of Fire Prevention units have been notified of this application and will take necessary actions if the fire suppression and fire alarm systems are not maintained; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood on account of its location in relationship to its neighbors and its limited size; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated at the premises without the special permit; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 18-BSA-042K, dated October 16, 2017; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to legalize, on a site located within an M1-2 zoning district, the operation of a physical culture

establishment in portions of the second floor level of an existing two-story plus mezzanine commercial building, contrary to ZR § 42-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received April 16, 2018 – Three (3) sheets and “Received October 16, 2017 – One (1) sheet and *on further condition*:

THAT the term of the PCE grant shall expire on July 1, 2027;

THAT the following sound attenuation measures shall be maintained as indicated on the Board-approved plans: all studio flooring is 1/8-inch neoprene matt with 1/2-inch carpet underlayment and 1/2-inch carpet with the entire assembly over a 4-inch slab supported by 4-inch brick barrel vaulting and with all penetrations at studio floor sealed with mineral fiber insulation and caulked;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance under Local Law 58/87 shall be as reviewed and approved by DOB;

THAT the existing fire alarm and sprinkler systems shall be maintained as indicated on the Board-approved plans;

THAT minimum 3 foot wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT a Certificate of Occupancy shall be obtained within one year, by July 24, 2019;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 24, 2018.

APPLICANT – Jay Goldstein, Esq., for Moshe and Pnina Arking, owners.

SUBJECT – Application March 6, 2018 – Special Permit (§73-622) to permit the enlargement of a one family home contrary to ZR §23-141 (FAR and Open Space); ZR §23-461 (a) (side yard) and ZR §23-47 (rear yard). R2 zoning district.

PREMISES AFFECTED – 1482 East 26th Street, Block 7679, Lot 87, Borough of Brooklyn.

COMMUNITY BOARD #14BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision on behalf of the Brooklyn Borough Commissioner, dated February 9, 2018, acting on Department of Buildings (“DOB”) Application No. 320910895 reads in pertinent part:

ZR 23-141: Proposed plans are contrary to ZR 23-141 in that the proposed floor area ratio (FAR) exceeds the permitted 50% and BSA special permit is required;

ZR 23-141: Proposed plans are contrary to ZR 23-141 in that the proposed open space ratio (OSR) is less than the required 150% and BSA special permit is required;

ZR 23-461(A): Proposed plans are contrary to ZR 23-461(A) in that the proposed side yards are less than the required 5’-0” and 13’-0”. BSA special permit is required;

ZR 23-47: Proposed plans are contrary to ZR 23-47 in that the proposed rear yard is less than 30’-0” and BSA special permit is required; and

WHEREAS, this is an application under ZR § 73-622 to permit, in an R2 zoning district, the enlargement of a semi-detached one-family dwelling that does not comply with the zoning requirements for floor area ratio, open space ratio, side yards and rear yards, contrary to ZR §§ 23-141, 23-461(a) and 23-47; and

WHEREAS, a public hearing was held on this application on July 24, 2018, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, the subject site is located on the west side of East 26th Street, between Avenue O and N, in an R2 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 21 feet of frontage, a depth of 100 feet, 2,121 square feet of lot area and is occupied by a semi-detached two-story one-family dwelling containing 1,232 square feet of floor area, a floor area ratio (“FAR”) of 0.58 and an open space ratio of 118 and a garage located in the rear yard; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single-* or *two-family detached* or *semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single-* or *two-family detached* or *semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building’s non-complying* perimeter wall facing the *street*, measured at the lowest

MINUTES

point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that this application located within an area in which the special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge the a semi-detached one-family residence, as contemplated by ZR § 73-622; and

WHEREAS, the applicant proposes to demolish the existing garage and enlarge the existing semi-detached dwelling with a two-story plus cellar extension at the rear, resulting in a dwelling with 1,978 square feet of floor area (0.93 FAR), an open space ratio of 55, 48 percent lot coverage and a 20 foot rear yard; and

WHEREAS, the proposed enlargement includes the horizontal extension of the existing non-complying zero foot southern side yard and 5'-2" side northern side yard and the applicant has submitted a 1930 Sanborn map of the immediate area, including the subject site, demonstrating that site was developed with a two-story semi-detached dwelling in approximately the same orientation as the site is occupied today and, thus, the non-complying side yards predated the 1961 Zoning Resolution and are legal non-compliances; and

WHEREAS, at the subject site, a maximum floor area ratio of 0.50 is permitted and a minimum open space ratio of 150.0 is required pursuant to ZR § 23-141; two side yards, each with a minimum required width of 5 feet and a minimum required total width of 13 feet, are required pursuant to ZR § 23-461(a); and a rear yard of at least 30 feet is required pursuant to ZR § 23-47; and

WHEREAS, the applicant provided an analysis of single- or two-family dwelling located within 400 feet of the subject premises within an R2 zoning district (the "Study Area") concluding that, of the 96 qualifying residences, 80 residences (83 percent) have an FAR of greater than 0.50, ranging from 0.57 to 1.20, and 11 residences (11 percent) have an FAR of 0.93 or greater and 19 residences (20 percent) have 48 percent lot coverage or greater; and

WHEREAS, with regards to the proposed rear yard, the applicant provided an analysis of the rear yard conditions on the subject block demonstrating that, of the 54 lots on the subject block, 26 lots (48 percent) have rear yards with a depth of less than 30 feet and 14 lots (26 percent) have rear yards with a depth of 20 feet or less, including the two lots

directly to the rear of the subject lot, which provide 20 foot rear yards that are further obstructed by accessory garages; and

WHEREAS, the Board notes that the proposed reduction in the rear yard to 20 feet at both the first and second stories is suitable at the subject site because the building typology, a semi-detached dwelling, otherwise prevents the enlargement of the existing dwelling and, further, that the proposed enlargement at the rear has a limited impact on the neighborhood character; and

WHEREAS, in light of the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622; and

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622 to permit, in an R2 zoning district, the enlargement of a one-family semi-detached dwelling that does not comply with the zoning requirements with regards to floor area ratio, open space ratio, side yards and rear yards, contrary to ZR § 23-141, 23-461(a) and 23-47; *on condition* that all work shall substantially conform to drawings as they apply to the objection above-noted, filed with this application and marked "Received May 4, 2018"—Fourteen (14) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area ratio of 0.93 (1,978 square feet of floor area), an open space ratio of at least 55, at least one side yard with a width of at least 5'-2" and a rear yard at least 20 feet in depth;

THAT the removal of exterior walls and/or joists in excess of those indicated on the BSA-approved plans is prohibited and shall void the special permit;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the special relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 24, 2018.

APPLICANT – NYC Mayors Office of Housing Recovery (HRO)

SUBJECT – Application July 11, 2018 – Special Permit (§64-92) to waive bulk regulations for the replacement of homes damaged/destroyed by Hurricane Sandy, on properties which are registered in the NYC Build it Back Program.R-4 zoning district.

PREMISES AFFECTED – 17 Abbey Court, Plumb Beach Channel Shoreline, Lois Avenue. Block 8845, Lot 1984. Borough of Brooklyn.

COMMUNITY BOARD #3BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92 to legalize, on a site within an R4 zoning district, the elevation of a single-family detached home in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards, rear yards, side yards and building height, contrary to ZR §§ 23-45, 23-52, 23-461, 64-A351, 64-A353, 64-A532 and 64-A36; and

WHEREAS, a public hearing was held on this application on July 24, 2018, and then to decision on the same date; and

WHEREAS, this application is brought on behalf of the property owner by the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in furtherance of the City’s effort to rebuilt homes impacted by Superstorm Sandy expeditiously and effectively, the Board, pursuant to 2 RCNY § 1-14.2, waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1-05.1 (Objection Issued by the Department of Buildings); (2) 2 RCNY § 1-05.3 (Filing Period); (3) 2 RCNY § 1-05.4 (Application Referral); (4) 2 RCNY § 1-05.6 (Hearing Notice); (5) 2 RCNY § 1-05.7 (List of Affected Property Owners); (6) 2 RCNY § 1-09.4 (Owner’s Authorization); and (7) 2 RCNY § 1-10.7 (Proof of Service for Application Referral and Hearing Notice); and

WHEREAS, the Board notes that the subject application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the west side of Abbey Court, south of Lois Avenue, in an R4 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 40 feet of frontage along Abbey Court, 1,800 square feet of lot area and is occupied by a single-family detached residence; and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments* and *enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Section 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

- (a) that there would be a practical difficulty in complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;
- (b) that any modifications of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood’s potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant now seeks a special permit, pursuant to ZR § 64-92 to legalize the elevation of the single-family residence to a height of 25’-2” from flood resistant construction elevation (“FRCE”), where Department of Buildings (“DOB”) previously approved a building height of 24 feet from FRCE, which qualifies the building as three-story rather than two-story, creates a non-compliance with regards to height regulations and results in an increase in the degree to which the existing front yard, side yards and rear yards at the subject site do not comply with underlying bulk regulations; and

WHEREAS, specifically, the subject site has a 4 foot front yard, a rear yard measuring 6’-8”, and two side yards measuring 3’-1” and 20 feet, but, at the subject site, a front yard of at least 10 feet is required pursuant to ZR §§ 23-45 and 64-A351), a rear yard of at least 10 feet is required pursuant to ZR § 23-52 and 64-A353 and two side yards, each with a width of at least 5 feet and with a combined

MINUTES

minimum width of 13 feet, are required pursuant to ZR §§ 23-461 and 64-A532; and

WHEREAS, additionally, a maximum height of 25 feet from FRCE is permitted pursuant to ZR § 64-A36; and

WHEREAS, in accordance with ZR § 64-92(a), the composition of the existing residence on the lot creates practical difficulties in complying with flood-resistant construction standards without the modification of requirements for front yards, rear yards, side yards and height and that waivers of the same are the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, pursuant to ZR § 64-92(b), the subject proposal does request a modification of bulk regulations related to height, but such request is to permit a height that exceeds the maximum permitted by 2 inches, which is both less than 10 feet in height and less than 10 percent of the permitted height as measured from FRCE (2.5 feet); and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the dwelling is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the neighborhood is characterized by single- and two-family detached residences and that the subject site is consistent with its essential character; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the subject application satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 19BSA004K, dated July 11, 2018; and

Therefore, it is Resolved, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure and issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92 to legalize, on a site within an R4 zoning district, the elevation of a single-family detached home in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards, rear yards, side yards and building height, contrary to ZR §§ 23-45, 23-52, 23-461, 64-A351, 64-A353, 64-A532 and 64-A36; *on condition* that all work shall substantially conform to the drawings filed with this application and marked "Received July 11, 2018"- Eight (8) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: a front yard with a minimum depth of 4 feet, a rear yard with a minimum depth of 6'-8", side yards with minimum widths of 3'-1" and 20 feet, and a maximum building height of 25'-2" above flood-resistant construction

elevation, as illustrated on the Board-approved plans;

THAT the building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code;

THAT the dwelling shall be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code;

THAT the underside of the exterior of the dwelling where the foundation is not closed shall have a floor assembly that provides a 2-hour fire resistance rating;

THAT the height from grade plane to the highest window-sill leading to a habitable space may not exceed 32 feet;

THAT this approval shall be limited to the Build it Back program;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk shall be signed off by DOB and all other relevant agencies within four (4) years;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 24, 2018.

APPLICANT – NYC Mayors Office of Housing Recovery (HRO)

SUBJECT – Application July 11, 2018 – Special Permit (§64-92) to waive bulk regulations for the replacement of homes damaged/destroyed by Hurricane Sandy, on properties which are registered in the NYC Build it Back Program.R3X zoning district.

PREMISES AFFECTED – 18 Neutral Avenue. Block 4093, Lot 9. Borough of Staten Island.

COMMUNITY BOARD #5SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board's Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92 to legalize, on a site within an R3X zoning district, the elevation of a single-family detached home in compliance with flood-resistant

MINUTES

construction standards that does not comply with the zoning requirements with regards to building height, contrary to ZR § 64-A36; and

WHEREAS, a public hearing was held on this application on July 24, 2018, and then to decision on the same date; and

WHEREAS, this application is brought on behalf of the property owner by the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in furtherance of the City's effort to rebuilt homes impacted by Superstorm Sandy expeditiously and effectively, the Board, pursuant to 2 RCNY § 1-14.2, waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1-05.1 (Objection Issued by the Department of Buildings); (2) 2 RCNY § 1-05.3 (Filing Period); (3) 2 RCNY § 1-05.4 (Application Referral); (4) 2 RCNY § 1-05.6 (Hearing Notice); (5) 2 RCNY § 1-05.7 (List of Affected Property Owners); (6) 2 RCNY § 1-09.4 (Owner's Authorization); and (7) 2 RCNY § 1-10.7 (Proof of Service for Application Referral and Hearing Notice); and

WHEREAS, the Board notes that the subject application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the west side of Neutral Avenue, west of Cedar Grove Avenue, in an R3X zoning district, on Staten Island; and

WHEREAS, the site has approximately 60 feet of frontage along Neutral Avenue, 60 feet of frontage along Ebbitts Street, 3,485 square feet of lot area and is occupied by a single-family detached residence; and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 22, 2016, when, under BSA Cal. No. 2016-788-A, the Board granted a waiver of General City Law ("GCL") § 36 permitting the elevation or reconstruction of a single-family residence that does not front on a mapped street; and

WHEREAS, the waiver was conditioned, *inter alia*, upon the elevated dwelling having a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code; the dwelling being provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code; the underside of the exterior of the dwelling where the foundation is not closed having a floor assembly that provides a 2-hour fire resistant rating; and the height from grade plane to the highest window-sill leading to a habitable space not exceeding 32 feet; and

WHEREAS, the applicant now seeks a special permit, pursuant to ZR § 64-92 to legalize the elevation of the single-family residence to a height of 25'-10" from flood resistant construction elevation ("FRCE"), where Department of Buildings ("DOB") previously approved a building height of 25'-2" from FRCE, which qualifies the building as three-story rather than two-story and creates a non-compliance with regards to height; and

WHEREAS, specifically, at the subject site, a maximum height of 25 feet from FRCE is permitted pursuant to ZR § 64-A36; and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments* and *enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Section 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

- (a) that there would be a practical difficulty in complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;
- (b) that any modifications of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, in accordance with ZR § 64-92(a), the inadvertent over-elevation of the existing residence on the lot creates practical difficulties in complying with flood-resistant construction standards without the modification of requirement for height and that a waiver of the same is the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, pursuant to ZR § 64-92(b), the subject proposal does request a modification of bulk regulations related to height, but such request is to permit a height that exceeds the maximum permitted by 10 inches, which is both less than 10 feet in height and less than 10 percent of the permitted height as measured from FRCE (2.5 feet); and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character

MINUTES

of the neighborhood in which the dwelling is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the neighborhood is characterized by single- and two-family detached residences and that the subject site is consistent with its essential character; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the subject application satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 19BSA005R, dated July 11, 2018; and

Therefore, it is Resolved, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure and issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92 to legalize, on a site within an R3X zoning district, the elevation of a single-family detached home in compliance with flood-resistant construction standards that does not comply with the zoning requirements with regards to building height, contrary to ZR § 64-A36; *on condition* that all work shall substantially conform to the drawings filed with this application and marked "Received July 11, 2018"- Eight (8) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: a maximum building height of 25'-10" above flood-resistant construction elevation, as illustrated on the Board-approved plans;

THAT the building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code;

THAT the dwelling shall be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code;

THAT the underside of the exterior of the dwelling where the foundation is not closed shall have a floor assembly that provides a 2-hour fire resistance rating;

THAT the height from grade plane to the highest window-sill leading to a habitable space may not exceed 32 feet;

THAT this approval shall be limited to the Build it Back program;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk shall be signed off by DOB and all other relevant agencies within four (4) years;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 24, 2018.

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board's Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92 to legalize, on a site within an R3X zoning district, the elevation of a single-family detached home in compliance with flood-resistant construction standards that does not comply with the zoning requirements with regards to front yards and rear yards, contrary to ZR §§ 23-45, 23-47, 23-52, 64-A351 and 64-A353; and

WHEREAS, a public hearing was held on this application on July 24, 2018, and then to decision on the same date; and

WHEREAS, this application is brought on behalf of the property owner by the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in furtherance of the City's effort to rebuilt homes impacted by Superstorm Sandy expeditiously and effectively, the Board, pursuant to 2 RCNY § 1-14.2, waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1-05.1 (Objection Issued by the Department of Buildings); (2) 2 RCNY § 1-05.3 (Filing Period); (3) 2 RCNY § 1-05.4 (Application Referral); (4) 2 RCNY § 1-05.6 (Hearing Notice); (5) 2 RCNY § 1-05.7 (List of Affected Property Owners); (6) 2 RCNY § 1-09.4 (Owner's Authorization); and (7) 2 RCNY § 1-10.7 (Proof of Service for Application Referral and Hearing Notice); and

MINUTES

WHEREAS, the Board notes that the subject application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the west side of Milbank Road, west of Cedar Grove Avenue, in an R3X zoning district, on Staten Island; and

WHEREAS, the site has approximately 40 feet of frontage along Milbank Road, 2,400 square feet of lot area and is occupied by a single-family detached residence; and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 22, 2016, when, under BSA Cal. No. 2016-1034-A, the Board granted a waiver of General City Law (“GCL”) § 36 permitting the elevation or reconstruction of a single-family residence that does not front on a mapped street; and

WHEREAS, the waiver was conditioned, *inter alia*, upon the elevated dwelling having a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code; the dwelling being provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code; the underside of the exterior of the dwelling where the foundation is not closed having a floor assembly that provides a 2-hour fire resistant rating; and the height from grade plane to the highest window-sill leading to a habitable space not exceeding 32 feet; and

WHEREAS, the applicant now seeks a special permit, pursuant to ZR § 64-92 to legalize the elevation of the single-family detached residence to a height of 16’-7” from flood-resistant construction elevation (“FRCE”), where the Department of Buildings (“DOB”) previously approved a building height of 15’-8” from FRCE, which increases the degree by which the existing 9’-4” front yard and 11’-4” rear yard do not comply with applicable bulk regulations; and

WHEREAS, at the subject site, a front yard measuring at least 10 feet deep is required pursuant to ZR §§ 23-45 and 64-A351 and a rear yard of at least 12’-6” is required pursuant to ZR §§ 23-47, 23-52 and 64-A353; and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments and enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Section 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

(a) that there would be a practical difficulty in

complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;

- (b) that any modifications of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood’s potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, in accordance with ZR § 64-92(a), the inadvertent over-elevation of the existing residence on the lot creates practical difficulties in complying with flood-resistant construction standards without the modification of requirements for front yards and rear yards and that waivers of the same are the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the finding pursuant to ZR § 64-92(b) is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the dwelling is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood’s potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the neighborhood is characterized by single- and two-family detached residences and that the subject site is consistent with its essential character; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the subject application satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 10BSA006R, dated July 11, 2018; and

Therefore, it is Resolved, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure and issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review, and

MINUTES

makes the required findings under ZR § 64-92 to legalize, on a site within an R3X zoning district, the elevation of a single-family detached home in compliance with flood-resistant construction standards that does not comply with the zoning requirements with regards to front yards and rear yards, contrary to ZR §§ 23-45, 23-47, 23-52, 64-A351 and 64-A353; *on condition* that all work shall substantially conform to the drawings filed with this application and marked “Received July 11, 2018”- Eight (8) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: a front yard with a minimum depth of 9’-4” and a rear yard with a minimum depth of 11’-4”, as illustrated on the Board-approved plans;

THAT the building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code;

THAT the dwelling shall be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code;

THAT the underside of the exterior of the dwelling where the foundation is not closed shall have a floor assembly that provides a 2-hour fire resistance rating;

THAT the height from grade plane to the highest window-sill leading to a habitable space may not exceed 32 feet;

THAT this approval shall be limited to the Build it Back program;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk shall be signed off by DOB and all other relevant agencies within four (4) years;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92 to legalize, on a site within an R4 zoning district, the elevation of a single-family detached home in compliance with flood-resistant construction standards that does not comply with the zoning requirements with regards to side yards and minimum required open area between buildings containing residences, contrary to ZR § 23-461; and

WHEREAS, a public hearing was held on this application on July 24, 2018, and then to decision on the same date; and

WHEREAS, this application is brought on behalf of the property owner by the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in furtherance of the City’s effort to rebuilt homes impacted by Superstorm Sandy expeditiously and effectively, the Board, pursuant to 2 RCNY § 1-14.2, waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1-05.1 (Objection Issued by the Department of Buildings); (2) 2 RCNY § 1-05.3 (Filing Period); (3) 2 RCNY § 1-05.4 (Application Referral); (4) 2 RCNY § 1-05.6 (Hearing Notice); (5) 2 RCNY § 1-05.7 (List of Affected Property Owners); (6) 2 RCNY § 1-09.4 (Owner’s Authorization); and (7) 2 RCNY § 1-10.7 (Proof of Service for Application Referral and Hearing Notice); and

WHEREAS, the Board notes that the subject application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the north side of State Road, east of Bayside Avenue, in an R4 zoning district, in Queens; and

WHEREAS, the site has approximately 24 feet of frontage along State Road, 2,347 square feet of lot area and is occupied by a single-family detached residence; and

WHEREAS, the applicant seeks a special permit, pursuant to ZR § 64-92 to legalize the elevation of the single-family detached residence to a height of 29’-1” from flood-resistant construction elevation (“FRCE”), where the Department of Buildings (“DOB”) previously approved a building height of 28 feet from FRCE, which increases the degree by which the existing 2’-10” and 4 feet side yards and 6’-8” open area between the subject building and the building containing residences located adjacent and to the west of the subject building do not comply with applicable bulk regulations; and

WHEREAS, at the subject site, two side yards, each with a minimum width of 5 feet and a minimum combined

MINUTES

width of 13 feet, are required pursuant to ZR § 23-461 and an open area with a minimum total width of 8 feet is required between buildings containing residents on adjacent zoning lots pursuant to ZR § 23-461(c); and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments* and *enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Section 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

- (a) that there would be a practical difficulty in complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;
- (b) that any modifications of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, in accordance with ZR § 64-92(a), the inadvertent over-elevation of the existing residence on the lot creates practical difficulties in complying with flood-resistant construction standards without the modification of requirements for side yards and minimum required open area between buildings containing residences and that waivers of the same are the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the finding pursuant to ZR § 64-92(b) is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character

of the neighborhood in which the dwelling is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the neighborhood is characterized by single- and two-family detached residences and that the subject site is consistent with its essential character; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the subject application satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92 to legalize, on a site within an R4A zoning district, the elevation of a single-family detached home in compliance with flood-resistant construction standards that does not comply with the zoning requirements with regards to rear yards and side yards, contrary to ZR §§ 23-47, 23-52 and 23-461; and

WHEREAS, a public hearing was held on this application on July 24, 2018, and then to decision on the same date; and

WHEREAS, this application is brought on behalf of the property owner by the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in furtherance of the City’s effort to rebuilt homes impacted by Superstorm Sandy expeditiously and effectively, the Board, pursuant to 2 RCNY § 1-14.2, waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1-05.1 (Objection Issued by the Department of Buildings); (2) 2 RCNY § 1-05.3 (Filing Period); (3) 2 RCNY § 1-05.4 (Application Referral); (4) 2 RCNY § 1-05.6 (Hearing Notice); (5) 2 RCNY § 1-05.7 (List of Affected Property Owners); (6) 2 RCNY § 1-09.4 (Owner’s Authorization); and (7) 2 RCNY § 1-10.7 (Proof of Service

for Application Referral and Hearing Notice); and

WHEREAS, the Board notes that the subject application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the east side of Beach 25th Street, between Deerfield Road and Camp Road, in an R4A zoning district, in Queens; and

WHEREAS, the site has approximately 29 feet of frontage along Beach 25th Street, 1,971 square feet of lot area and is occupied by a single-family detached residence; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 8, 2016, when, under BSA Cal. No. 2016-1722-A, the Board granted a waiver of General City Law Section 35 to permit the elevation or reconstruction of a single-family dwelling on a portion of the site that lies within the bed of a mapped street; and

WHEREAS, the waiver was conditioned, *inter alia*, upon the elevated dwelling having a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code; the dwelling being provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code; the underside of the exterior of the dwelling where the foundation is not closed having a floor assembly that provides a 2-hour fire resistant rating; and the height from grade plane to the highest window-sill leading to a habitable space not exceeding 32 feet; and

WHEREAS, the applicant now seeks a special permit, pursuant to ZR § 64-92 to legalize the elevation of the single-family detached residence to a height of 24’-11” from flood-resistant construction elevation (“FRCE”), where the Department of Buildings (“DOB”) previously approved a building height of 23’-11” feet from FRCE, which increases the degree by which the existing 5’-2” rear yard and 2’-5” and 4’-11” side yards do not comply with applicable bulk regulations; and

WHEREAS, at the subject site, a rear yard of at least 30 feet is required pursuant to ZR §§ 23-47 and 23-52 and two side yards, each with a minimum width of 2 feet and minimum combined width of 10 feet, are required pursuant to ZR § 23-461; and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments* and *enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Section 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other

MINUTES

applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

- (a) that there would be a practical difficulty in complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;
- (b) that any modifications of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, in accordance with ZR § 64-92(a), the inadvertent over-elevation of the existing residence on the lot and demolition of the existing brick veneer creates practical difficulties in complying with flood-resistant construction standards without the modification of requirements for rear yards and side yards and that waivers of the same are the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the finding pursuant to ZR § 64-92(b) is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the dwelling is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the neighborhood is characterized by single- and two-family detached residences and that the subject site is consistent with its essential character; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the subject application satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 19BSA008Q, dated July 11, 2018; and

Therefore, it is Resolved, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure and issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92 to legalize, on a site within an R4A zoning district, the elevation of a single-family detached home in compliance with flood-resistant construction standards that does not comply with the zoning requirements with regards to rear yards and side yards, contrary to ZR §§ 23-47, 23-52 and 23-461; *on condition* that all work shall substantially conform to the drawings filed with this application and marked "Received July 11, 2018"- Eight (8) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: a rear yard with a minimum depth of 5'-2" and two side yards with minimum widths of 2'-5" and 4'-11", as illustrated on the Board-approved plans;

THAT the building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code;

THAT the dwelling shall be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code;

THAT the underside of the exterior of the dwelling where the foundation is not closed shall have a floor assembly that provides a 2-hour fire resistance rating;

THAT the height from grade plane to the highest window-sill leading to a habitable space may not exceed 32 feet;

THAT this approval shall be limited to the Build it Back program;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk shall be signed off by DOB and all other relevant agencies within four (4) years;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 24, 2018.

APPLICANT – NYC Mayors Office of Housing Recovery (HRO)

SUBJECT – Application July 11, 2018 – Special Permit (§64-92) to waive bulk regulations for the replacement of homes damaged/destroyed by Hurricane Sandy, on properties which are registered in the NYC Build it Back Program.R3-2 zoning district.

PREMISES AFFECTED – 715 Cross Bay Boulevard, Noel Road, West 8th Road. Block 15133, Lot 23. Borough of Queens.

COMMUNITY BOARD #4M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92 to legalize, on a site within an R3A zoning district, the elevation of a single-family detached home in compliance with flood-resistant construction standards that does not comply with the zoning requirements with regards to front yards, rear yards and side yards, contrary to ZR §§ 23-45, 23-47, 23-461, 64-A351, 64-A353 and 64-A352; and

WHEREAS, a public hearing was held on this application on July 24, 2018, and then to decision on the same date; and

WHEREAS, this application is brought on behalf of the property owner by the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in furtherance of the City’s effort to rebuild homes impacted by Superstorm Sandy expeditiously and effectively, the Board, pursuant to 2 RCNY § 1-14.2, waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1-05.1 (Objection Issued by the Department of Buildings); (2) 2 RCNY § 1-05.3 (Filing Period); (3) 2 RCNY § 1-05.4 (Application Referral); (4) 2 RCNY § 1-05.6 (Hearing Notice); (5) 2 RCNY § 1-05.7 (List of Affected Property Owners); (6) 2 RCNY § 1-09.4 (Owner’s Authorization); and (7) 2 RCNY § 1-10.7 (Proof of Service for Application Referral and Hearing Notice); and

WHEREAS, the Board notes that the subject application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the west side of Cross Bay Boulevard, north of West 8th Road, in an R3A zoning district, in Queens; and

WHEREAS, the site has approximately 30 feet of frontage along Cross Bay Boulevard, 1,691 square feet of lot area and is occupied by a single-family residence; and

WHEREAS, the applicant seeks a special permit, pursuant to ZR § 64-92 to legalize the elevation of the single-family detached residence to a height of 17’-4” from flood-resistant construction elevation (“FRCE”), where the Department of Buildings (“DOB”) previously approved a building height of 16’-3” from FRCE, which increases the degree by which the existing 5 foot front yard, 11’-7” rear yard and side yards measuring 7 inches and 2’-7” do not comply with applicable bulk regulations; and

WHEREAS, at the subject site, a front yard measuring at least 10 feet is required pursuant to ZR §§ 23-45 and 64-A351, a rear yard with a minimum depth of 18 feet is required pursuant to ZR §§ 23-47 and 64-A353 and two side yards, each with a minimum width of 5 feet and a minimum combined width of 8 feet, are required pursuant to ZR § 23-461 and 64-A352; and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments* and *enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Section 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

- (a) that there would be a practical difficulty in complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;
- (b) that any modifications of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood’s potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, in accordance with ZR § 64-92(a), the inadvertent over-elevation of the existing residence on the

MINUTES

lot creates practical difficulties in complying with flood-resistant construction standards without the modification of requirements for front yards, rear yards and side yards and that waivers of the same are the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the finding pursuant to ZR § 64-92(b) is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the dwelling is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the neighborhood is characterized by single- and two-family detached residences and that the subject site is consistent with its essential character; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the subject application satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 19BSA009Q, dated July 11, 2018; and

Therefore, it is Resolved, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure and issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92 to legalize, on a site within an R3A zoning district, the elevation of a single-family detached home in compliance with flood-resistant construction standards that does not comply with the zoning requirements with regards to front yards, rear yards and side yards, contrary to ZR §§ 23-45, 23-47, 23-461, 64-A351, 64-A353 and 64-A352; *on condition* that all work shall substantially conform to the drawings filed with this application and marked "Received July 11, 2018"-Seven (7) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: a front yard with a minimum depth of 5 feet, a rear yard with a minimum depth of 11'-7" and side yards with minimum widths of 7 inches and 2'-7", as illustrated on the Board-approved plans;

THAT the building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code;

THAT the dwelling shall be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code;

THAT the underside of the exterior of the dwelling

where the foundation is not closed shall have a floor assembly that provides a 2-hour fire resistance rating;

THAT the height from grade plane to the highest window-sill leading to a habitable space may not exceed 32 feet;

THAT this approval shall be limited to the Build it Back program;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk shall be signed off by DOB and all other relevant agencies within four (4) years;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 24, 2018.

THE RESOLUTION –

WHEREAS, the decision on behalf of the Queens Borough Commissioner, dated July 11, 2017, acting on Department of Buildings (“DOB”) Application No. 420892323 reads in pertinent part:

ZR. 61-21 The proposed height for subject new building includes:

154’-2” Building Height

177’-2” Building Height with Bulkhead

211’-0” Above Mean Curb Sea Level (Based on Datum of 1988, NAVD 88)

That exceeds the maximum allowable height as per Section 61-21 of the NYC Zoning Resolution and requires a special permit from the BSA, pursuant to Section 73-66; and

WHEREAS, this is an application under ZR § 73-66 to permit, on a site located in an R6 (C2-2) zoning district, the construction of a building that exceeds the maximum height permitted in the vicinity of major airports, contrary to ZR § 61-21; and

WHEREAS, a public hearing was held on this application on March 6, 2018, after due notice by publication in *The City Record*, and then to decision on March 20, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 7, Queens, recommends approval of this application; and

WHEREAS, the subject site is located on the

northwest corner of 35th Avenue and Farrington Street, in an R6 (C2-2) zoning district, in Queens; and

WHEREAS, the site consists of two adjacent tax lots having approximately 165 feet of frontage along 35th Avenue, 255 feet of frontage along Farrington Street, 42,050 square feet of lot area and is currently vacant; and

WHEREAS, the applicant proposes to develop the site, which is located within the LaGuardia Airport Circling Approach Area, with a fifteen-story plus cellar and two sub-cellars mixed-use residential, community facility and commercial building (the “Development”) whose height would penetrate the surface of the airport approach district of the flight obstruction area of LaGuardia Airport, contrary to ZR § 61-21 and requests a special permit pursuant to ZR § 73-66; and

WHEREAS, ZR § 73-66 provides that:

The Board of Standards and Appeals may permit the construction, *enlargement*, or reconstruction of a *building or other structure* in excess of the height limits established under Section 61-21 (Restriction on Highest Projection of Building or Structure) or 61-22 (Permitted Projection Within any Flight Obstruction Area), provided that the applicant submits a site plan, with elevations, showing the proposed *building or other structure* in relation to such maximum height limits, and that the Board finds that such proposed *building or other structure*, *enlargement*, or reconstruction would not constitute a hazard (either under the existing layout of the airport or under any planned reorientation or lengthening of the airport runways) to the safety of the occupants of such proposed *building*, to other *buildings* in the vicinity or to the safety of air passengers, and would not disrupt established airways.

The Board shall refer the application to the Federal Aviation Administration for a report as to whether such construction will constitute a danger to the safety of air passengers or disrupt established airways; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, in support of this application, the applicant has submitted plans of the proposed Development with elevations and indicating the maximum height limits, plane of the approach surface and the maximum height approved by the Federal Aviation Administration (“FAA”); and

WHEREAS, regarding the Board’s determination

MINUTES

that such proposed building would not constitute a hazard, the Board notes that the FAA regulates the heights of buildings proximate to airports and, thus, the Board defers to the FAA's determination regarding any potential hazards posed by the subject proposed building; and

WHEREAS, the application was referred to the FAA, which issued a Determination of No Hazard to Air Navigation, issued April 2, 2015, under Aeronautical Study No. 2014-AEA-6294-OE, stating that the FAA's aeronautical study of the Development, conducted under the provisions of 49 U.S.C., Section 44718 and, if applicable, Title 14 of the Code of Federal Regulations, part 77, revealed that, at a maximum height of 211 feet above mean sea level ("AMSL"), the Development would have no substantial adverse effect on the safe and efficient utilization of the navigable airspace by aircraft or on the operation of air navigation facilities and would not be a hazard to air navigation provided that (1) the structure is marked/lighted in accordance with FAA Advisory circular 70/7460-1 K Change 2, Obstruction Marking and Lighting, red lights – Chapters 4,5(Red),&12; (2) FAA Form 7460-2, Notice of Actual Construction or Alteration, be e-filed any time the project is abandoned or within 5 days after the construction reaches its greatest height; (3) any changes in coordinates, heights, and frequencies or use of greater power will void the determination; (4) any future construction or alteration, including increase to heights, power, or the addition of other transmitters requires separate notice to the FAA; and (5) any failure or malfunction that lasts more than thirty (30) minutes and affects a top light or flashing obstruction light, regardless of its position, be reported immediately so a Notice to Airmen ("NOTAM") can be issued and reported again as soon as normal operation is restored (the "FAA Determination"); and

WHEREAS, accordingly, the maximum height of the Development approved by the FAA is 211 feet AMSL or 178 feet above ground level ("AGL"); and

WHEREAS, the Board notes that the elevations, as represented on the Development plans, demonstrate that the tallest point of the Development—the machine room roof—is located at 209.20 AMSL, less than 211 feet AMSL; and

WHEREAS, the Board notes that the obstruction standards referenced in the FAA Determination are similar, but not identical, to those found in the Zoning Resolution and that the maximum building height of 211 feet AMSL includes temporary construction equipment such as cranes, derricks, etc., which may be used during actual construction of the Development, but notes that such equipment shall not exceed 211 feet AMSL or 178 feet AGL and equipment that has a height greater than that would require separate notice to the FAA; and

WHEREAS, the FAA Determination states that it expires on October 2, 2016 unless, *inter alia*, construction is started (not necessarily completed) and FAA Form 7460-2, Notice of Actual Construction or Alteration, is received by the FAA's Southwest Regional Office Obstruction Evaluation Group; and

WHEREAS, construction of the Development began on October 15, 2015, and FAA Form 7460-2 was, Notice of Actual Construction, was filed with the FAA; and

WHEREAS, all conditions contained in the FAA Determinations have been adopted and incorporated into the Board's grant herein, therefore any act constituting a violation of the FAA Determination will necessarily violate the subject Resolution; and

WHEREAS, by letter dated July 31, 2017, the Port Authority of New York and New Jersey, which operates LaGuardia Airport, states that it agrees with the FAA Determination, requests that all conditions stated in the determination be followed and reiterates that separate studies must be submitted to the FAA for any equipment (i.e. cranes) that exceed 211 feet AMSL or 178 AGL and such studies should be filed at least 90-120 days prior to the start of operations; and

WHEREAS, based on the above, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit is outweighed by the advantages to be derived by the community; and

WHEREAS, the applicant states that the subject proposal will not interfere with any public improvement projects; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18BSA013Q dated August 15, 2017; and

WHEREAS, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-66 and 73-03; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under under ZR §§ 73-66 and 73-03, to permit, on a site located in an R6 (C2-2) zoning district, the construction of a building that exceeds the maximum height permitted in the vicinity of major airports, contrary to ZR § 61-21; *on condition* that all work shall substantially conform to the drawings filed with this application and marked "Received March 9, 2018"-Ten (10) sheets; and *on further condition*:

THAT the maximum height of the building, including all appurtenances, shall be as follows: 211 feet above mean seal level ("AMSL") or 178 above

MINUTES

ground level (“AGL”);

THAT the structure is marked/lighted in accordance with FAA Advisory circular 70/7460-1 K Change 2, Obstruction Marking and Lighting, red lights – Chapters 4,5(Red),&12;

THAT FAA Form 7460-2, Notice of Actual Construction or Alteration, be e-filed any time the project is abandoned or within 5 days after the construction reaches its greatest height;

THAT any changes in coordinates, heights, and frequencies or use of greater power will void this special permit;

THAT any future construction or alteration, including increase to heights, power, or the addition of other transmitters requires separate notice to the FAA;

THAT any failure or malfunction that lasts more than thirty (30) minutes and affects a top light or flashing obstruction light, regardless of its position, be reported immediately so a Notice to Airmen (“NOTAM”) can be issued and reported again as soon as normal operation is restored;

THAT temporary construction equipment shall not exceed the overall maximum permitted height of 211 feet AMSL or 178 AGL;

THAT any temporary construction equipment greater than 211 feet AMSL or 178 AGL shall require separate notice to the FAA;

THAT separate studies must be submitted to the FAA for any equipment (i.e. cranes) that exceed 211 feet AMSL or 178 AGL and such studies should be filed at least 90-120 days prior to the start of operations;

THAT substantial construction be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 20, 2018.

square feet... Corrected in Bulletin No. 31, Vol. 103, dated August 3, 2018.

***The resolution has been amended to correct the PREMISES AFFECTED Adding Lot 30. CEQR #19-BSA-015K

APPLICANT – NYC Mayor’s Office of Housing Recovery
SUBJECT – Application July 24, 2018 – Special Permit
(\$64-92) to waive bulk regulations for the replacement of
homes damaged/destroyed by Hurricane Sandy, on
properties which are registered in the NYC Build it Back
Program.R4 zoning district.

PREMISES AFFECTED – 24 Frank Court, Block 08900,
Lot 132, Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Application granted on
condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda,
Commissioner Ottley-Brown, Commissioner Sheta and
Commissioner Scibetta.....5

Negative.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the
Board’s Rules of Practice and Procedure and a special
permit, pursuant to ZR § 64-92, to permit, in an R4 zoning
district, the development of a detached three-story single-
family residence in compliance with flood-resistant
construction standards that does not comply with the zoning
requirements for front yards, contrary to ZR § 23-45; and

WHEREAS, this application is brought on behalf of
the property owner by the Build It Back Program, which was
created to assist New York City residents affected by
Superstorm Sandy; and

WHEREAS, in furtherance of the City’s effort to
rebuild homes impacted by Superstorm Sandy expeditiously
and effectively, the Board, pursuant to 2 RCNY § 1-14.2,
waives the following of its Rules of Practice and Procedure:
(1) 2 RCNY § 1-05.1 (Objection Issued by the Department
of Buildings), (2) 2 RCNY § 1-05.3 (Filing Period), (3) 2
RCNY § 1-05.4 (Application Referral), (4) 2 RCNY § 1-
05.6 (Hearing Notice), (5) 2 RCNY § 1-05.7 (List of
Affected Property Owners), (6) 2 RCNY § 1-09.4 (Owner’s
Authorization), and (7) 2 RCNY § 1-10.7 (Proof of Service
for Application Referral and Hearing Notice); and

WHEREAS, the Board notes that the subject
application is exempt from fees pursuant to 2 RCNY § 1-
09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the east side
of Frank Court, between Seba Avenue and Lois Avenue, in

an R4 zoning district, in Brooklyn; and

WHEREAS, the subject site has approximately 40 feet
of frontage along Frank Court, 45 feet of depth, 1,800
square feet of lot area and is occupied by a detached three-
story single-family residence; and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing
buildings in compliance with *flood-resistant
construction standards* and for *developments* and
enlargements in compliance with *flood-resistant
construction standards*, the Board of Standards
and Appeals may permit modification of Section
64-60 (DESIGN REQUIREMENTS), the *bulk*
regulations of Section 64-30, 64-40 (SPECIAL
BULK REGULATIONS FOR BUILDINGS
EXISTING ON OCTOBER 28, 2012) and 64-70
(SPECIAL REGULATIONS FOR NON-
CONFORMING USES AND NON-
COMPLYING BUILDINGS), as well as all other
applicable *bulk* regulations of the Zoning
Resolution, except *floor area ratio* regulations,
provided the following findings are made:

- (a) that there would be a practical difficulty in
complying with *flood-resistant construction
standards* without such modifications, and
that such modifications are the minimum
necessary to allow for an appropriate
building in compliance with *flood-resistant
construction standards*;
- (b) that any modifications of *bulk* regulations
related to height is limited to no more than
10 feet in height or 10 percent of permitted
height as measured from *flood-resistant
construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the
essential character of the neighborhood in
which the *building* is located, nor impair the
future use or development of the surrounding
area in consideration of the neighborhood’s
potential development in accordance with
flood-resistant construction standards.

The Board may prescribe appropriate conditions
and safeguards to minimize adverse effects on the
character of the surrounding area; and

WHEREAS, the applicant now seeks a special permit,
pursuant to ZR § 64-92, to allow the development of a
detached three-story single-family residence with a front
yard with a depth of 9.53 feet; and

WHEREAS, at the subject site, a front yard of at least
10 feet is required pursuant to ZR § 23-45; and

WHEREAS, in accordance with ZR § 64-92(a), the
need to reconstruct the existing residence creates practical
difficulties in complying with flood-resistant construction
standards without the modification of the front yard
requirements and that waiving the same is the minimum
necessary to allow for a building compliant with flood-
resistant construction standards; and

MINUTES

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the finding pursuant to ZR § 64-92(b) is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the dwelling is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 19BSA015K, dated July 24, 2018; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR § 64-92 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR § 64-92 to *permit*, in an R4 zoning district, the development of a detached three-story single-family residence in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards, contrary to ZR § 23-45; *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received July 24, 2018"-Three (3) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: the front yard shall have a minimum depth of 9.53 feet, as illustrated on the Board-approved plans;

THAT this approval shall be limited to the Build It Back program;

THAT DOB and related agency application(s) filed in connection with the authorized use or bulk shall be signed off by DOB and all other relevant agencies within four (4) years, by August 7, 2022;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 7, 2018.

SPECIAL ORDER CALENDARS

441-31-BZ

APPLICANT – Eric Palatnik, P.C., for Spartan Petroleum Corp., owner.

SUBJECT – Application October 27, 2017 – Extension of Term (§11-411) for the continued use of a Gasoline Service Station (*BP Amoco*) with accessory convenience store which expired on April 26, 2017. C2-2/R5 zoning district.

PREMISES AFFECTED – 7702 Flatlands Avenue, Block 8014, Lot 1, Borough of Brooklyn.

COMMUNITY BOARD #18BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta....4

Negative:0

Absent: Commissioner Sheta.....1

THE RESOLUTION –

WHEREAS, this is an application for an extension of term of a variance, previously granted by the Board; and

WHEREAS, a public hearing was held on this application on June 5, 2019, after due notice by publication in *The City Record*, and then to decision on August 7, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 18, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the southeast corner of Flatlands Avenue and East 77th Street, in an R5 (C2-3) zoning district, in Brooklyn; and

WHEREAS, the Board has exercised jurisdiction over the subject site since February 27, 1951, when, under the subject calendar number, the Board granted a variance to permit the erection and maintenance of a gasoline service station, lubricatorium, auto washing, sale of accessories and office for a term of fifteen (15) years, expiring February 27, 1966, on condition that the subject site be leveled substantially to the grade of Flatlands Avenue and East 77th Street, that the subject site be arranged with accessory building, tanks, pumps and planting as indicated on the Board-approved plans, that the portion to the south and north may be sloped from the street grade to the existing grade, that there be erected on the interior lot lines to the south and east a woven wire fence of the chain link type with anchored steel posts on a masonry foundation to a total height of not less than 5'-6", that along the street line of East 77th Street there be a similar fence erected for a distance of approximately 50 feet from the rear lot line, that the accessory building be arranged and designed substantially as indicated and in all other respects meet the requirements of the Building Code, that the balance of the subject site where proposed to be made level with the Flatlands Avenue grade, except where planting and pumps are shown, be surfaced

MINUTES

with concrete or bituminous paving, that the sidewalks and curbing around the subject site be constructed and maintained to the satisfaction of the Borough President, that the curb cuts not exceed three to Flatlands Avenue of a width, as shown on the Board-approved plans, and one curb cut to East 77th Street of the width shown, no portion of any curb cut to be nearer than 5 feet to any street or lot line as prolonged, that there be erected at the intersection within the building line a block of concrete, extending for 5 feet along either building line, not less than 12 inches in height, and which may be segmental in shape as shown on the Board-approved plans, that the number of gasoline storage tanks not exceed eight 550-gallon tanks, that pumps not be nearer than 10 feet from the base of the pumps to the street building line, that such portable fire-fighting appliances be maintained as the Fire Commissioner directs, that the planting area be protected with concrete curbing as shown and the plantings be of a suitable type, that the lift for greasing be of a hydraulic type, that signs be restricted to a permanent sign attached to the façade of the accessory building and to the illuminated globes of the pumps, excluding all roof and temporary signs, but permitting the erection within the plot at the intersection of a post standard for supporting a sign, which may be illuminated, that such sign not extend more than 4 feet beyond the building line and that all permits required be obtained and all work completed within one (1) year, by February 27, 1952; and

WHEREAS, on February 26, 1952, under the subject calendar number, the Board granted an extension of time to obtain permits and complete the work on condition that a certificate of occupancy be obtained within six (6) months, by August 26, 1952; and

WHEREAS, on April 28, 1953, under the subject calendar number, the Board granted an extension of time to obtain permits and complete the work on condition that all work be completed within three (3) months, by July 28, 1953, to obtain a new certificate of occupancy; and

WHEREAS, on May 3, 1966, under the subject calendar number, the Board granted an extension of term of ten (10) years, expiring May 3, 1976, on condition that a certificate of occupancy be obtained; and

WHEREAS, on January 22, 1974, under the subject calendar number, the Board amended the variance so that the accessory building may be altered as shown on the Board-approved plans; and

WHEREAS, on April 26, 1977, under the subject calendar number, the Board amended the variance and granted an extension of term on condition that this variance continue for a term of ten (10) years to April 26, 1987, on condition that the seeded area at the rear be clean and properly maintained at all times and that a new certificate of occupancy be obtained within one (1) year, by April 26, 1978; and

WHEREAS, on March 30, 1982, under the subject calendar number, the Board amended the variance so that this automotive service station may be changed to a "self-serve" station for the sale of gasoline and the continuation of

one service bay for a term of five (5) years, expiring April 26, 1987, to erect a new 24'-0" x 52'-0" canopy over the two existing gasoline pump islands, to install a new self-serve approved electronic pumps on existing islands and to alter the accessory building on condition that this station be operated at all times in such a fashion so as to minimize traffic congestion and that all work shall be completed within one (1) year, by March 30, 1983, and

WHEREAS, on March 30, 1982, under BSA Calendar Number 1012-81-A, the Board granted an administrative appeal to permit self-service pumps on condition that a trained attendant who possesses a certificate of fitness be on duty at all times when the station is open for business, that it be the attendant's duty to require the engine of any vehicle to be shut off before the start of the fuel operation, that it be the attendant's duty to prevent the dispensing of fuel into portable containers, that signs indicating "No Smoking," "Stop Your Engine," "It is Unlawful to Dispense Gasoline into Portable Containers" and "The Dispensing of Gasoline Shall Be Done by a Person Holding a Valid Drivers License or a Person 18 Years of Age or Older" be conspicuously posted in clear view of the customer at the dispensing island, that portable fire extinguishers be provided and in type, quantity and location acceptable to the fire Commissioner, that all dispensing devices and fire suppression systems be approved by the Board of Standards and Appeals and be installed in accordance with the requirements of the laboratory upon which the Board approval is based, that the suppression system be arranged in a manner so as to cover an area around each pump encompassed by a circle having a radius equal to the maximum extendable length of the hose and nozzle of said pump, that the installation and use of coin-operated dispensing devices for fuel be prohibited, that there be constant contact between the attendant in the control booth and the dispensing devices for fuel be prohibited, that there be constant contact between the attendant in the control booth and the dispensing island by means of a voice intercommunication system which shall be maintained in a proper operating condition at all times, that all controls, devices, fire suppression systems and fire fighting equipment be maintained in good operating order at all times, that a maintenance log be kept on the subject site as directed by the Fire Commissioner, that all dispensing nozzles be the automatic closing type without hold open latches, that a list of emergency procedures and instructions be conspicuously posted in the immediate vicinity of the attendant's principal control location, said instructions be at the direction of the Fire Commissioner, that the dispensing areas shall, at all times, be well lit for complete visual control, that the permit to operate this station be for a term of five (5) years, expiring March 30, 1987, that all of the conditions set forth in said resolution be conspicuously posted in the attendant's booth, that there be no servicing or repair of motor vehicles on the subject site, that mirrors be provided which insure that the person with the certificate of fitness in the control booth can readily see the people operating any of the self-service devices and that all repairs

MINUTES

be performed within the repair bay or in the interior; and

WHEREAS, on July 5, 1990, under the subject calendar number, the Board amended the variance to change the design and arrangement of the existing automotive service station, to permit the erection of a new steel canopy over three (3) new gasoline pump islands with new “MPD” self-serve pumps, to erect a new 8’ x 18’ kiosk, to demolish the existing accessory building and canopy and to erect a new 30’ x 60’ accessory building for accessory sales (Use Group 6) and storage, to add six (6) accessory parking spaces and to decrease the planting area along the southerly lot line and granted an extension of term of ten (10) years, expiring April 26, 1997, on condition that the landscaping shall be maintained and replaced when necessary as shown on the Board-approved plans, that there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic and that a new certificate of occupancy be obtained within one (1) year, by July 5, 1991; and

WHEREAS, on November 24, 1998, under the subject calendar number, the Board amended the variance to permit a retail convenience store and granted an extension of term of ten (1) years, expiring April 26, 2007, on condition that the sales area of the store shall be limited to 900 square feet, that all signs shall be maintained in accordance with the Board-approved plans, that the subject site remain graffiti free at all times, that no automotive repair or body work take place at the subject site, that other than as herein amended the resolutions above cited be complied with in all respects and that a new certificate of occupancy be obtained within one (1) year, by November 24, 1999; and

WHEREAS, on September 15, 2009, under the subject calendar number, the Board granted an extension of term of ten (10) years, expiring April 26, 2017, on condition that a new certificate of occupancy be obtained by March 15, 2010; and

WHEREAS, the term having expired, the applicant now seeks an extension; and

WHEREAS, the applicant states that no physical changes to the subject site are sought herein; and

WHEREAS, in response to questions from the Board at hearing, the applicant revised the drawings to reflect signage, to reflect a refuse enclosure, to show flowering annuals in the planter along the southerly lot line, to show that there is 8 feet from the subject building to the easterly lot line, to show 6-foot-high chain link fence gates with opaque slats at the northeast corner of the subject site for the storage of refuse; and

WHEREAS, the applicant submitted evidence that extraneous temporary signage had been removed, that landscaping has been planted and that a refuse enclosure has been installed; and

WHEREAS, by letter dated April 10, 2018, the New York State Department of Environmental Conservation (“DEC”) states that the applicant’s Monitoring Well Installation Work Plan dated November 28, 2017, and the Tank Excavation Assessment Report, dated June 23, 2017,

have been approved on condition that one more monitoring well be installed at the subject site in between the tank field and the subject building for a total of five (5) monitoring wells to be installed, that, during installation of the soil borings and monitoring wells, soil shall be sampled continuously with a PID, that soil samples to be collected at the groundwater interface and the interval exhibiting the highest PID reading and that, if no PID reading is found, then soil samples shall be collected at the groundwater interface; and

WHEREAS, by correspondence dated August 6, 2018, DEC represents that it has no objection to this application; and

WHEREAS, by letter dated July 27, 2018, the Fire Department states that it has no objection to this application; and

WHEREAS, based upon its review of the record, the Board has determined that the requested extension of term is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated February 27, 1951, as amended through September 15, 2009, so that as amended this portion of the resolution shall read: “to *permit* an extension of term of ten (10) years, expiring April 26, 2027; *on condition* that all work and site conditions shall conform to drawings filed with this application marked “Received August 8, 2018”-Six (6) sheets; and *on further condition*:

THAT the term of this grant shall be limited to ten (10) years, expiring April 26, 2027;

THAT the sales area of the store shall be limited to 988 square feet, as illustrated on the Board-approved plans;

THAT all signs shall be maintained in accordance with the Board-approved plans;

THAT the subject site shall remain graffiti free at all times;

THAT no automotive repair or body work shall take place at the subject site;

THAT the landscaping shall be maintained and replaced when necessary, as shown on the Board-approved plans;

THAT there shall be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic;

THAT the seeded area at the rear be clean and properly maintained at all times;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by August 7, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief

MINUTES

granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, August 7, 2018.

182-95-BZ

APPLICANT – Rothkrug & Spector LLP, for 2465 Broadway Associates LLC., owner.

SUBJECT – Application October 14, 2014 – Extension of Term of a previously granted Special Permit (§73-36) for the continued operation of a PCE (*Equinox Fitness Club*) which expires on November 1, 2015; Amendment to expand the PCE into the cellar and the full third floor; Waiver of the Rules. C4-6A/R8 zoning district.

PREMISES AFFECTED – 2465 Broadway, West side of Broadway, 50' south of southwest corner of intersection of Broadway and West 92nd Street, Block 01239, Lot 52, Borough of Manhattan.

COMMUNITY BOARD #7M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta....4

Negative:0

Absent: Commissioner Sheta.....1

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated October 10, 2014, acting on Alteration Application No. 100795917, reads in pertinent part:

“The proposed enlargement and extension of term of the physical culture establishment . . . is contrary to . . . Section [32]-10 of the NYC Zoning Resolution and must be referred back to the Board of Standards and Appeals”; and

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure, an extension of term of a special permit for a physical culture establishment (“PCE”), previously granted by the Board, and an amendment to allow the extension and relocation of the PCE use within the cellar and the third floor of a three-story, with cellar, commercial building; and

WHEREAS, a public hearing was held on this application on August 25, 2015, after due notice by publication in *The City Record*, with continued hearings on January 22, 2016, February 6, 2018, and, and then to decision on August 7, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 7, Manhattan,

recommends approval of this application; and

WHEREAS, the subject site is located on the southwest corner of Broadway and West 92nd Street, partially in a C4-6A zoning district and partially in an R8 zoning district, in Manhattan; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 18, 1997, when, under BSA Calendar Numbers 182-95-BZ and 183-95-BZ, the Board granted a special permit within portions of the cellars of two contiguous three- and two-story, with cellars, commercial buildings for a term of eight (8) years, expiring November 1, 2005, on condition that there be no change in ownership or operating control of the PCE without prior application to and approval from the Board, that the PCE comply with the provisions of the New York City Noise Code and the enclosures surrounding the roof-mounted HVAC and mechanical equipment be and be maintained in accordance with the Board-approved plans, that all individuals practicing massage at the subject site possess valid New York State Licenses for such practice which licenses shall be prominently displayed at the subject site, that the above conditions appear on the certificate of occupancy and that a certificate of occupancy be obtained within one (1) year, by March 18, 1998; and

WHEREAS, on September 26, 2000, under BSA Calendar Number 182-95-BZ, the Board amended the special permit to allow an expansion to the second floor of the subject building; and

WHEREAS, on September 26, 2006, under BSA Calendar Numbers 182-95-BZ and 183-95-BZ, the Board granted an extension of term of ten (10) years, expiring November 1, 2015, on condition that there be no change in ownership or operating control of the PCE without prior approval from the Board and that the above conditions appear on the certificate of occupancy; and

WHEREAS, the term having expired, the applicant now seeks a waiver of the Board’s Rules of Practice and Procedure to allow the early filing of this application, an amendment and an extension of term; and

WHEREAS, the applicant proposes an extension and relocation of the PCE use within the cellar and the third floor of the subject building; and

WHEREAS, the subject PCE occupies 24,038 square feet of floor space as follows: 9,790 of floor space in the cellar, 4,480 square feet of floor area on the first-floor mezzanine, 9,779 square feet of floor area on the second floor and the addition of 9,779 square feet of floor area on the third floor, including a group fitness studio, a spinning room, storage, an employee lounge and a strength- and cardiovascular-training area; and

WHEREAS, the applicant represents that there have been no changes to the operator of the facility, Equinox, as previously approved by the Board; and

WHEREAS, in response to questions from the Board at hearing, the applicant states that extension of the PCE use 25 feet into the R8 portion of the subject site is permitted pursuant to ZR § 73-52 and revised the drawings to reflect a

MINUTES

wall to keep vacant the portion of the cellar in the R8 zoning district beyond 25 feet; and

WHEREAS, the applicant has satisfactorily demonstrated compliance with the conditions of the previous term and the Board finds that the circumstances warranting the original grant still obtain; and

WHEREAS, based upon its review of the record, the Board has determined that the requested waiver of the Board's Rules of Practice and Procedure, amendment and extension of term is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *waive* the Rules of Practice and Procedure and *reopen* and *amend* the resolution, dated March 18, 1997, as amended through September 26, 2006, so that as amended this portion of the resolution shall read: "to *permit* the extension and relocation of the PCE use within the cellar and the third floor of the subject building and to *grant* an extension of term of ten (10) years, expiring November 1, 2025; *on condition* that all work, operations and site conditions shall conform to drawings filed with this application marked "Received July 20, 2018"-Six (6) sheets; and *on further condition*:

THAT the term of this grant shall be limited to ten (10) years, expiring November 1, 2025;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT the PCE shall comply with the provisions of the New York City Noise Code and the enclosures surrounding the roof-mounted HVAC and mechanical equipment shall be and shall be maintained in accordance with the Board-approved plans;

THAT all individuals practicing massage at the subject site possess valid New York State Licenses for such practice which licenses shall be prominently displayed at the subject site;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by August 7, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted."

Adopted by the Board of Standards and Appeals, August 7, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated March 13, 2017,¹ acting on Alteration Application No. 320870214, reads in pertinent part:

1. Proposed Floor Area Ratio (FAR) exceeds the maximum permitted pursuant to ZR Section 113-11, 23-141, 24-11.
2. Proposed Open Space Ratio (OSR) is less than minimum required pursuant to ZR Sections

1 The original DOB decision filed with this application is dated January 26, 2015, and has been superseded by the above decision.

MINUTES

113-11, 23-141, 24-11.

3. Proposed Lot Coverage exceeds the maximum permitted pursuant to ZR Sections 113-11, 23-141, 24-11.
4. Proposed front yard is less than front yard required pursuant to ZR Sections 113-12, 23-45.
5. Proposed side yards are less than side yards required pursuant to ZR Sections 113-11, 23-462(a).
6. Proposed rear yard is less than rear yard required pursuant to ZR Sections 113-11, 23-47.
7. Proposed height of perimeter wall exceeds maximum permitted 25' pursuant to ZR Sections 113-11/23-631(b);
8. Proposed sky exposure plane is exceeds required sloping planes to ridge lines on building elevations and sections per ZR 23-631(b)(1) through (5);
9. Proposed development provides less than required parking spaces as per ZR Sections 25-35 and 25-15; and

WHEREAS, this is an application under ZR §§ 72-21 for a variance to permit, in an R4 zoning district and the Special Ocean Parkway District, the construction of a community-facility building that does not comply with zoning regulations for floor area, open space, lot coverage, front yards, side yards, rear yards, wall height, sky exposure plane and parking, contrary to ZR §§ 113-11, 23-141, 24-11, 113-12, 23-45, 23-462(a), 23-47, 23-631(b), 25-35 and 25-15; and

WHEREAS, a public hearing was held on this application on March 28, 2017, after due notice by publication in *The City Record*, with a continued hearing on May 23, 2017, a continued hearing on July 25, 2017, an administrative adjournment on October 3, 2017, and a continued hearing on December 12, 2017; and

WHEREAS, by correspondence dated February 8, 2018, the applicant was notified that the continued hearing scheduled for February 27, 2018, was adjourned because no submission had been made; and

WHEREAS, the continued hearing on May 1, 2018, was administratively adjourned due to the applicant's failure to make any submission; and

WHEREAS, by letter dated May 1, 2018, the applicant was notified that, at the Board's review session on April 30, 2018, the Board expressed frustration regarding the lack of progress on the prosecution of this application, that the next scheduled hearing was set for August 7, 2018, with a submission date on July 18, 2018, and that failure to make a full submission with responses to all comments and questions posed by the Board may result in dismissal for failure to prosecute; and

WHEREAS, no submissions were made prior to the hearing on August 7, 2018, and no one appeared at the hearing on the applicant's behalf; and

WHEREAS, accordingly, due to the repeated failure of the application and its representatives to submit materials in support of this application, it must be dismissed in its entirety.

Therefore it is Resolved, that the application filed under BSA Calendar Number 20-15-BZ shall be and it hereby is *dismissed* for failure to prosecute.

Adopted by the Board of Standards and Appeals, August 7, 2018.

2016-4467-BZ
CEQR #17-BSA-053Q

APPLICANT – Davidoff Hutcher & Citron LLP, for Winston Network, Inc., c/o Outfront Media Inc., owner.

SUBJECT – Application December 16, 2016 – Variance (§72-21) to permit the legalization of an illuminated advertising sign contrary to ZR §22-35 (advertising signs not permitted in residential districts) and ZR §52-731.1 (non- conforming advertising signs in residential districts shall be terminated after 10 years from December 15, 1961).

R4 zoning district.

PREMISES AFFECTED – 69-25 Astoria Boulevard, Block 1001, Lot 21, Borough of Queens.

COMMUNITY BOARD #1Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, and Commissioner Scibetta...4

Absent: Commissioner Sheta.....1

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated May 2, 2017, acting on Sign Application No. 421342844, reads in pertinent part:

“Zoning Resolution Section 22-30: Advertising Signs Not Permitted in Residential District”

“Zoning Resolution Section 52-731: A non-conforming advertising sign in residential district shall be terminated after 10 years from Dec. 15, 1961”; and

WHEREAS, this is an application under ZR § 72-21 to permit, in an R4 zoning district, an indirectly illuminated advertising sign, contrary to ZR §§ 22-30 and 52-731; and

WHEREAS, a public hearing was held on this application on October 31, 2017, after due notice by publication in *The City Record*, with continued hearings on January 23, 2018, April 10, 2018, June 5, 2018, and then to decision on August 7, 2018; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 1, Queens, recommends approval of this application on condition that advertising remain in print form and not be digitized or electronic in any manner, that billboard lighting be

MINUTES

minimized and focused away from the residential area so as not to impact adjacent residences and that the east-facing billboard be reduced in overall size from 14'-00" x 48'-00" to 10'-6" x 36'-00"; and

WHEREAS, the subject site is located on the north side of Astoria Boulevard, between Hazen Street and 70th Street, in an R4 zoning district, in Queens; and

WHEREAS, the subject site has approximately 27 feet of frontage along Astoria Boulevard, between 35 and 45 feet of depth, 790 square feet of lot area and is occupied by a freestanding sign structure with a height of 38'-00" that supports one eastward, indirectly illuminated sign face displayed back to back with one westward, non-illuminated sign face; and

WHEREAS, the applicant originally proposed to maintain the subject sign structure with two advertising sign faces with the eastward, indirectly illuminated sign face measuring 10'-6" in height by 36'-00" in width and with the westward, non-illuminated sign face measuring 12'-00" in height by 25'-00" in width; and

WHEREAS, in response to community concerns and questions from the Board at hearing, the applicant revised this application by eliminating the westward sign face, by reducing the number of proposed light fixtures from six to three, by proposing the installation of light shields and by turning off all lighting by 1:00 a.m.; and

WHEREAS, the applicant now proposes to maintain the subject sign structure with one eastward advertising sign face measuring 10'-6" in height by 36'-00" in width to be indirectly illuminated by three light fixtures with light shields; and

WHEREAS, the applicant states that the subject site is beleaguered by unique physical conditions, including its small lot area, its irregular dimensions and its shallow depth, that create practical difficulties or unnecessary hardship in complying strictly with applicable zoning regulations; and

WHEREAS, in support of this contention, the applicant studied the surrounding area, determining that the subject site is the smallest and shallowest lot in the vicinity; and

WHEREAS, the applicant states that the above unique physical conditions limit the size and layout of any permitted residential development; and

WHEREAS, the applicant represents that an as-of-right development would consist of a three-story, one-family residence with 582 square feet of floor area (0.74 FAR); and

WHEREAS, the applicant represents that the lot has been in its current configuration since prior to December 15, 1961, and resulted from the construction of the Triborough Bridge and expansion of the Grand Central Parkway; and

WHEREAS, the Board finds that the above unique physical conditions create practical difficulties or unnecessary hardship in complying strictly with applicable zoning regulations that are not created by general circumstances in the neighborhood or district; and

WHEREAS, the applicant states that development in strict conformity with the Zoning Resolution would not

bring a reasonable return; and

WHEREAS, in support of this contention, the applicant supplied a financial feasibility study demonstrating that an as-of-right development—a three-story one-family residence with 582 square feet of floor area (0.74 FAR)—would not result in a reasonable return but that the proposed sign structure with one eastward advertising sign face would yield a modest return; and

WHEREAS, the Board finds that, because of the above unique physical conditions, there is no reasonable possibility that development in strict conformity with applicable zoning regulations would bring a reasonable return; and

WHEREAS, the applicant states that the proposed sign structure would not alter the essential character of the surrounding area; and

WHEREAS, in support of this contention, the applicant studied the surrounding area, finding that the subject site is surrounded by non-conforming commercial uses clustered along the five-block stretch of Astoria Boulevard between 49th Street and 73rd Street, that Astoria Boulevard is itself a well-traveled commercial thoroughfare, that to the west are a garden center and gasoline service station, that to the east are a restaurant, gasoline service station, a car wash, a florist and a transient motel; and

WHEREAS, the applicant states that there are residences to the rear of the subject site but notes that the westward advertising sign face, which would have faced said residences, is no longer proposed; and

WHEREAS, the applicant further states that illumination associated with the proposed sign structure has been reduced from the original proposal by reducing the number of proposed light fixtures from six to three, that light shields are proposed to be installed, that illumination of the proposed sign structure will cease by 1:00 a.m. and that no illumination will be directed towards residential areas; and

WHEREAS, the Board finds that the proposed variance will not alter the essential character of the neighborhood or district in which the subject site is located; will not substantially impair the appropriate use or development of adjacent property; and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that the above practical difficulties or unnecessary hardship do not constitute a self-created hardship; and

WHEREAS, the Board finds that the above practical difficulties or unnecessary hardship have not been created by the owner or by a predecessor in title; and

WHEREAS, the applicant states that the proposed variance is the minimum necessary to permit a productive use of the site, as reflected in the financial feasibility study; and

WHEREAS, in support of this contention, the financial feasibility study demonstrates that none of the following development scenarios would result in a reasonable return: a three-story, two-family residential building with 1,890 square feet of floor area (2.39 FAR) with two interior accessory parking spaces, an entry stair and mechanical

MINUTES

space on the first floor, with a one-bedroom apartment on the second floor and with a one-bedroom apartment on the third floor that would result in a substantial loss on investment; a two-story community-facility building with 1,580 square feet of floor area (2.0 FAR) with non-complying front, side and rear yards, with three enclosed parking spaces on the first floor and with approximately 790 square feet of office space that would result in a substantial loss on investment; a one-story commercial building for use as retail with 790 square feet of floor area (1.0 FAR) that would result in a substantial loss on investment; a four-story one-family residence with approximately 786 square feet of floor area (0.99 FAR) with one bedroom, one bathroom and a living area spread over two stories that would result in a substantial loss on investment; a two-story commercial building used for professional offices with 1,580 square feet of floor area (2.0 FAR) with two enclosed parking spaces on the first floor and two floors of office space above that would result in a substantial loss on investment; a two-story commercial building used for commercial retail on the first floor and professional offices on the second floor with 1,580 square feet of floor area (2.0 FAR) that would result in a substantial loss on investment; and a telecommunications installation that would not result in a reasonable return; and

WHEREAS, in response to questions from the Board, the applicant revised the proposed sign structure by eliminating the westward sign face, which results in a proposed sign structure that reflects the minimum variance necessary to afford relief; and

WHEREAS, the Board finds that the proposed variance is the minimum necessary to afford relief within the intent and purposes of the Zoning Resolution; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 17BSA053Q, dated June 29, 2017; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR

§ 72-21 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR § 72-21 to *permit*, in an R4 zoning district, an indirectly illuminated advertising sign, contrary to ZR §§ 22-30 and 52-731; *on condition* that all work, operations and site conditions shall conform to drawings filed with this application marked “Received May 16, 2018”-Three (3) sheets; and *on further condition*:

THAT all illumination of the advertising sign shall cease by 1:00 a.m.;

THAT the number of light fixtures indirectly illuminating the advertising sign shall be reduced from six to three with light shields installed to direct illumination away from residences;

THAT the sign structure shall support one advertising sign face measuring 10’-6” in height by 36’-00” in width, as illustrated on the Board-approved drawings;

THAT the above conditions shall appear on the permit;

THAT all work shall be completed and signed off within one (1) year, by October 31, 2019;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 7, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated July 17, 2018, acting on Alteration Application No. 123254691, reads in pertinent part:

Residential use not within 100 feet of a corner requires 30 foot rear yard pursuant to ZR 23-47. R8B portion of property (westernmost 25 feet) has a 25.2 to 28.8 foot rear yard with the following unpermitted obstructions pursuant to ZR 23-44: wall exceeding 8 feet in height, stairs to second story, balcony contrary to ZR 23-13. BSA approval is required.

Residential use requires 30 foot open space between rear windows of living rooms and property’s rear lot line, to provide for legal light and air pursuant to ZR 23-861. Westernmost 25 feet of building has rear-facing living room windows less than 30 feet from property’s rear lot line. BSA approval is required.

Maximum lot coverage in R8B district is 70 percent pursuant to ZR 23-153. R8B portion of building exceeds 70 percent of lot coverage. BSA approval is required.

R8B portion of property is within LH-1A district. Maximum base height and building height is 60 feet, pursuant to ZR 23-691. R8B portion of building exceeds 60 feet (no setbacks). BSA approval is required.

Building does not meet the requirements of ZR 23-692. BSA approval is required; and

WHEREAS, this is an application under ZR § 72-21 to permit, partially in an R10 zoning district in the Special Park Improvement District and partially in an R8B zoning district in the LH-1A Limited Height District, the conversion of the subject building to a single-family residence that does not comply with rear-yard, window-to-lot-line, lot-coverage and height-and-setback regulations, contrary to ZR §§ 23-47, 23-44, 23-861, 23-153, 23-691 and 23-692; and

WHEREAS, a public hearing was held on this application on April 10, 2018, after due notice by publication in *The City Record*, with a continued hearing on June 5, 2018, and then to decision on August 7, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner

Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 8, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on East 69th Street, between Park Avenue and Madison Avenue, partially in an R10 zoning district in the Special Park Improvement District and partially in an R8B zoning district in the LH-1A Limited Height District, in Manhattan; and

WHEREAS, the subject site has approximately 44 feet of frontage along East 69th Street, 104 feet of depth, 4,494 square feet of lot area and is occupied by a five-story, with cellar, mezzanine and penthouse, mixed-use commercial and residential building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since September 15, 1981, when, under BSA Calendar Number 307-81-BZ, the Board granted a variance to permit the conversion of the subject building from a school into a medical office building with an owner-occupied penthouse apartment for a term of ten (10) years, expiring September 5, 1991, on condition that the hours of operation be restricted to Monday to Friday, 9:00 a.m. to 5:00 p.m., and closed Saturday and Sunday, that there be no overnight accommodations for patients, that the penthouse be only owner-occupied and that an approved smoke detector, hardwired with a continuously charged battery, emergency light and self-contained alarm be installed in the residential apartment and in the public halls; and

WHEREAS, on April 19, 1983, under BSA Calendar Number 307-81-BZ, the Board amended the variance to decrease the floor area of the owner-occupied penthouse by approximately 700 square feet, eliminating one elevator and changing the interior layout; and

WHEREAS, on May 30, 1984, under BSA Calendar Number 307-81-BZ, the Board granted an extension of time to complete construction; and

WHEREAS, on May 21, 1985, under BSA Calendar Number 307-81-BZ, the Board granted an extension of time to complete construction; and

WHEREAS, on February 25, 1992, under BSA Calendar Number 307-81-BZ, the Board granted an extension of term of ten (10) years, expiring September 15, 2001, on condition that the hours of operation be changed to Monday to Friday, 8:00 a.m. to 6:00 p.m., and closed Saturday and Sunday, that the uses be limited to Use Group 6 uses and that a new certificate of occupancy be obtained within one (1) year, by February 25, 1993; and

WHEREAS, on April 9, 2002, under BSA Calendar Number 307-81-BZ, the Board granted an extension of term of ten (10) years, expiring September 15, 2011, on condition that a new certificate of occupancy be obtained within one (1) year, by April 9, 2003; and

WHEREAS, on June 7, 2011, the Board granted an extension of term of ten (10) years, expiring September 15, 2021; and

WHEREAS, the applicant proposes to convert the subject building to a single-family residence (Use Group 2)

MINUTES

by removing 25 feet of a one-story extension covering the entirety of the rear yard within the R8B zoning district, leaving the existing outer walls for privacy and constructing a stair and terrace connecting the remaining portion of the extension so that its roof can be used as outdoor space; and

WHEREAS, the applicant states that, as a result, the rear wall of the subject building will remain less than 30 feet from the rear lot line of the subject site and the remaining exterior walls and stair and terrace will not constitute permitted obstructions; and

WHEREAS, the applicant states that, at the subject site, there must be a minimum 30-foot rear yard, except for the portion of the subject site within 100 feet of a corner under ZR § 23-541, meaning that a 30-foot rear yard is required on the portion of the site in the R8B zoning district and on the .84-foot portion of the subject site in the R10 zoning district; however, the applicant proposes a rear yard with a depth of 29 feet at the first floor and depths of 25.2 to 28.8-feet on the upper floors with 14'-7" walls exceeding the 8-foot height permitted and the stair and terrace not constituting permitted obstructions under ZR § 23-44; and

WHEREAS, the applicant states that the rear-facing windows of the subject building must be 30 feet from the rear lot line under ZR § 23-861; however, the applicant proposes windows in the R8B zoning district between 25.2 and 28.8 feet from the rear lot line; and

WHEREAS, the applicant states that, in an R8B zoning district, under ZR § 23-153, the maximum permitted lot coverage is 70 percent; however, the applicant proposes lot coverage of 100 percent; and

WHEREAS, the applicant states that, under ZR § 23-691, in an R8B zoning district in the LH-1A Limited Height District, a building may rise 60 feet without setback; however, the street wall of the proposed building rises 69.59 feet without setback and the portion of the penthouse rises to a height of 86.43 feet; and

WHEREAS, the applicant states that, under ZR § 23-692, above a height equal to the width of the street on which the street wall fronts, a building cannot have a street wall less than 45 feet in width; however, East 69th Street has a width of 60 feet, and the proposed building has a street wall less than 45 feet in width above this 60-foot height limit; and

WHEREAS, the applicant states that there are unique physical conditions peculiar to and inherent in the subject site, namely that the subject building was constructed as a single-family residence in 1918, that in 1914 the subject building was converted to a school and the one-story extension was added, that, pursuant to a variance granted by the Board in 1981, the subject building has been used as medical offices with a residential penthouse for 35 years, that, because of the unique history of development, the subject building is unable to convert back to its original use as a single-family residence because the conversion would create non-compliances at the subject site; and

WHEREAS, the applicant states that, because of said unique physical conditions, complying with the rear-yard, window-to-lot-line and lot-coverage would require moving

the rear wall of the subject building, which would require sheering off the rear 1'-3" of the subject building at each of its floors and its rear-facing projecting bay windows and construction a new wall along the building's rear at a cost of approximately \$629,000 to reclaim less than 5, and in most areas less than 2, feet of rear-yard depth; and

WHEREAS, the applicant states that, to comply with rear-yard and lot-coverage requirements, it would be necessary to remove the 14'-7" walls along the western 25 feet of the rear lot line and along approximately 29 feet of the western lot line, which do not constitute rear-yard obstructions and cause the enclosed space to count as lot coverage, at a cost of approximately \$24,000; and

WHEREAS, the applicant states that, to comply with height-and-setback requirements, it would be necessary to remove the portion of the subject building above a height of 60 feet by removing a portion of the historic façade and almost 10 feet of the top of the subject building and its penthouse at a cost of approximately \$1.2 million; and

WHEREAS, the applicant states that the construction required to bring the subject building into strict compliance with the Zoning Resolution would cost more than \$1.8 million and would take approximately eight months; and

WHEREAS, the Board finds that the above unique physical conditions create practical difficulties or unnecessary hardship in complying strictly with applicable zoning regulations that are not created by general circumstances in the neighborhood or district; and

WHEREAS, the applicant states that, because the applicant proposes a single-family, owner-occupied residence, the Board need not find that, because of the above unique physical conditions, there is no reasonable possibility that strict conformity with applicable zoning regulations would bring a reasonable return; and

WHEREAS, the applicant states that the variance, if granted, would allow the preservation of a historic row house in its original form and would allow the subject building to be converted back to its original use as a single-family residence, which comports with the residential character of the neighborhood; and

WHEREAS, the applicant states that the subject building's current and proposed rear-yard and window-to-lot-line measurements are typical of the historic character of the surrounding area, noting that the subject building is one of eight residences with rear open space less than that required and that there are an additional seven residences on the subject block that also have smaller rear open space than required; and

WHEREAS, as to height, the applicant states that the subject building is proportionate to other buildings along the midblock of East 69th Street, many of which rise to 60 or 70 feet in height; and

WHEREAS, the Board finds that the proposed variance will not alter the essential character of the neighborhood or district in which the subject site is located; will not substantially impair the appropriate use or development of adjacent property; and will not be

MINUTES

detrimental to the public welfare; and

WHEREAS, the applicant states that the above practical difficulties or unnecessary hardship do not constitute a self-created hardship; and

WHEREAS, the Board finds that the above practical difficulties or unnecessary hardship have not been created by the owner or by a predecessor in title; and

WHEREAS, the applicant states that the proposed variance is the minimum necessary to permit the subject building to be converted back to use as a single-family residence; and

WHEREAS, the Board finds that the proposed variance is the minimum necessary to afford relief within the intent and purposes of the Zoning Resolution; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18BSA067M, received on November 27, 2017; and

WHEREAS, on August 1, 2018, the New York City Landmarks Preservation Commission issued a Certificate of Appropriateness for proposed work consisting of removing HVAC equipment and constructing a glazed and gray painted metal framed one-story addition (solarium) at the north side of the main roof of the subject building connected to an existing rooftop addition as well as raising the height of existing flues adjacent to the addition and installing a gray finished metal screen and mechanical equipment at the roof of the existing rooftop addition; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR § 72-21 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR § 72-21 to *permit*, partially in an R10 zoning district in the Special Park Improvement District and partially in an R8B zoning district in the LH-1A Limited Height District, the conversion of the subject building to a single-family residence that does not comply with rear-yard, window-to-lot-line, lot-coverage and height-and-setback regulations, contrary to ZR §§ 23-47, 23-44, 23-861, 23-153, 23-691 and 23-692; *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received July 16, 2018"-Twenty-Two (22) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: the rear yard shall have a minimum depth of 25.2 feet, windows shall be at least 25.2 feet to the rear lot line, lot coverage shall be a maximum of 100 percent, wall height shall not exceed 69.59 feet and total height shall not exceed 93.13 feet, as illustrated on the Board-approved plans;

THAT the above condition shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by August 7, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 7, 2018.

PREMISES AFFECTED – 43-12 50th Street, Block 138, Lot 25, Borough of Queens.

COMMUNITY BOARD #2Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta....4

Negative:0

Absent: Commissioner Sheta.....1

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure, an extension of time to complete construction and an extension of time to obtain a certificate of occupancy; and

WHEREAS, a public hearing was held on this application on July 17, 2018, after due notice by publication in *The City Record*, and then to decision on August 14, 2018; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the west side of 50th Street, between Roosevelt Avenue and 43rd Avenue and Queens Boulevard, in an R7A (C1-4) zoning district, in Queens; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 22, 2014, when, under the subject calendar number, the Board granted a variance to permit a physical culture establishment (“PCE”) for a term of ten (10) years, expiring July 22, 2024, on condition that there be no change in ownership or operating control of the PCE without prior application to and approval from the Board, that the hours of the physical culture establishment be limited to Monday through Friday, 5:30 a.m. to 12:00 a.m., Saturday, 7:00 a.m. to 9:00 p.m., and Sunday, 7:00 a.m. to 6:00 p.m.,

that all signage at the site comply with C1 zoning district regulations, that the above conditions appear on the certificate of occupancy and that a new certificate of occupancy be obtained within six (6) months, by January 22, 2015; and

WHEREAS, the time to complete construction and obtain a certificate of occupancy having expired, the applicant now seeks a waiver of the Board’s Rules of Practice and Procedure to allow the late filing of this application, an extension of time to complete construction and an extension of time to obtain a certificate of occupancy; and

WHEREAS, in response to questions from the Board, the applicant revised the drawings to reflect existing, extraneous signage and to note which signage will be removed after obtaining necessary permits from the Department of Buildings; and

WHEREAS, the applicant states that there is an operational fire alarm system installed at the subject site and that the PCE is fully sprinklered; and

WHEREAS, based upon its review of the record, the Board has determined that the requested waiver of the Board’s Rules of Practice and Procedure, extension of time to complete construction and extension of time to obtain a certificate of occupancy are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *waive* the Rules of Practice and Procedure and *reopen* and *amend* the resolution, dated July 22, 2014, so that as amended this portion of the resolution shall read: “to *permit* an extension of time to complete construction and to obtain a certificate of occupancy of two (2) years, expiring August 14, 2020; *on condition* that all work and site conditions shall conform to drawings filed with this application marked “Received August 3, 2018”- Four (4) sheets; and *on further condition*:

THAT the applicant shall return to the Board of Standards and Appeals in one (1) year, by August 14, 2019, for a compliance hearing to demonstrate that all of the Board’s conditions and safeguards have been complied with, including the removal of illegal signage;

THAT the term of this grant shall be limited to ten (10) years, expiring July 22, 2024;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT the hours of the physical culture establishment shall be limited to Monday through Friday, 5:30 a.m. to 12:00 a.m., Saturday, 7:00 a.m. to 9:00 p.m., and Sunday, 7:00 a.m. to 6:00 p.m.;

THAT all signage at the site shall comply with C1 zoning district regulations;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within two (2) years, by August 14, 2020;

THAT all conditions from prior resolutions not

MINUTES

specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, August 14, 2018.

7-57-BZ

APPLICANT – Edward Lauria, for Ruth Peres, owner.

SUBJECT – Application December 17, 2015 – Extension of Term (§11-411) of a previously granted variance for a gasoline service station and maintenance which expired September 20, 2015; Waiver of the Rules. R3-2 zoning district.

APPLICANT – SBP 69 Street, LLC/Favor J. Smith, Esq., for SBP 69th Street, LLC, owner.

SUBJECT – Application March 2, 2017 – Appeal of a determination of the New York City Fire Department that the subject property is in violation of §901.5 of the New York City Code. R8B zoning district.

PREMISES AFFECTED – 7 E 69th Street, Block 1384, Lot 11, Borough of Manhattan.

COMMUNITY BOARD #8M

ACTION OF THE BOARD – Appeal Denied.

THE VOTE TO GRANT –

Affirmative:0

Negative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta....4

Absent: Commissioner Sheta.....1

THE RESOLUTION –

WHEREAS, this is an appeal of a final determination from the New York City Fire Department’s Chief of Fire Prevention dated January 31, 2017 (the “Final Determination”), which reads in pertinent part:

The Fire Department is in receipt of your appeal, on behalf of SBP 69th Street LLC (“SBP”), of the above-referenced Violation Order (copy attached), issued on or about July 11, 2013, by an inspector with the Fire Alarm Inspection Unit of the Fire Department’s Bureau of Fire Prevention. For the reasons set forth below, the appeal is denied, except as to the direction to schedule a Fire Department inspection, which is granted.

The Violation Order was marked “TB-60” to indicate that the Fire Department received a notification (Fire Department TB-60 form) that the central station connection for the private fire alarm company monitoring of the sprinkler system at the above-referenced premises (“subject premises”) had been terminated.

The Violation Order directed the owner to remedy the violation by: (1) connecting the sprinkler system to an approved central station; (2) placing the fire alarm system in proper working order and maintaining it at all times; (3) submitting copy of monitoring contract; (4) provide documentation of action TB-60 assignment (a central station filing with the Fire Department registering the monitoring of the fire alarm system on the premises); . . .

SBP appeals from the Violation Order on the grounds that the subject premises is a single-family dwelling (as documented by Certificate of Occupancy No. 108778, dated February 5, 1996) and that there is no commercial activity at the premises. The Certificate of Occupancy attached to the appeal indicates (on its reverse) that a smoke detector and an automatic sprinkler system have been installed at the premises. SBP represents that

the smoke detector on the premises are [*sic*] fully functional. No representation is made with respect to the functionality of the sprinkler system.

The appeal attaches a New York City Department of Buildings (DOB) Building Information System (BIS) printout that references a 1986 “fire alarm” filing (#2908-86). The appeal attaches a second BIS printout indicating that the work associated with that filing relates to the installation of a sprinkler system at the subject premises. The appeal states that there have been no other relevant alterations to the subject premises.

The appeal does not clearly state why SBP believes the Violation Order was issued in error based on this set of facts. The Fire Department infers that SBP is asserting that no fire alarm system is required at the subject premises and accordingly SBP has not failed to maintain it by discontinuing the central station connection.

The record is unclear why a sprinkler system was installed in a single-family dwelling and why a central station connection was established instead of (or in addition to) installing a gong or other audible device at the premises in accordance with the Building Code. However, regardless of whether such a system and connection were installed voluntarily or required as part of some other work being done in the building, both the New York City Fire Code (FC) and New York City Building Code (BC) require that fire protection systems (which includes sprinkler systems and fire alarm systems) be maintained in good working order at all times. FC901.6 further provides that any fire protection system not in good working order must be repaired or replaced, or *where authorized by the Building Code*, removed from the premises. Section 901.3 of the Building Code provides that no person shall remove or modify any fire protection system installed or maintained under any provision of the Building Code or Fire Code without the approval of the New York City Department of Buildings (DOB). DOB consults the Fire Department with respect to such applications.

[. . .]

Upon a review of this record, the Fire Department concludes that the Violation Order was properly issued. SBP’s termination of the central station monitoring of its sprinkler system effectively disabled the transmitter, constituting an alteration of an approved sprinkler [*sic*] sprinkler/fire alarm system that rendered it not fully functional as originally approved. Such an alteration required DOB and Fire Department approval.

If SBP wishes to discontinue central station monitoring of its sprinkler/fire alarm system, it can file the appropriate applications requesting authorization to discontinue its central station

MINUTES

connection and addressing the issue of local activation notification in lieu of the central station connection. Alternatively, it can restore the central station connection and comply with the Violation Order. . . .; and

WHEREAS, a public hearing was held on this appeal on June 19, 2018, after due notice by publication in *The City Record*, with a continued hearing on August 14, 2018, and then to decision on that date; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, the Fire Department submitted materials and testimony in opposition to this application; and

WHEREAS, the subject site is located on the north side of East 69th Street, between Fifth Avenue and Madison Avenue, in an R8B zoning district, in the Upper East Side Historic District, in Manhattan; and

WHEREAS, the site has approximately 21 feet of frontage along East 69th Street, 100 feet of depth, 2,084 square feet of lot area and is occupied by a five-story plus cellar single-family dwelling; and

WHEREAS, this application is filed on behalf of the owner of the property (the "Appellant"); and

WHEREAS, on June 11, 2013, the Fire Department issued a violation order for the subject premises directing the Appellant to (1) connect the sprinkler system to an approved central station; (2) place the fire alarm system in proper working order and maintain such system at all time; (3) submit copies of monitoring contract; (4) provide documentation indicating active TB-60 assignment; and (5) schedule an inspection of the premises (the "Violation Order"); and

WHEREAS, the Fire Department filed a criminal information, dated March 11, 2014, alleging an offense at the premises under New York City Administrative Code § 15-223.1(a) and (b) predicated upon violations of Fire Code § 901.5 (Fire Code Fire Alarm Approval & Maintenance and Building Code Fire Alarm Systems) and referring to the 2013 violation order; and

WHEREAS, Section 901.5 of the Fire Code reads as follows:

901.5 Installation acceptance testing. Fire detection and alarm systems, fire extinguishing systems, private fire hydrant systems, yard hydrant systems, standpipe systems, fire pump systems, private fire service mains and all other fire protection systems and appurtenances thereto shall be subject to acceptance tests as set forth in the installation standards specified in this code. Where required by the construction codes, including the Building Code, this code or the rules, such tests shall be conducted, at the owner's risk, by his or her representative before a representative of the department; and

WHEREAS, the Appellant represents that they were served with the criminal information on May 21, 2015, and appealed the determination pursuant to Section 104-1 of the

Rules of the Fire Department of the City of New York by submission dated June 27, 2017 (the "FDNY Appeal"); and

WHEREAS, in the FDNY Appeal, the Appellant argued that the issuance of Certificate of Occupancy No. 108778 to the property, dated February 5, 1996, represented a tacit acknowledgement that the building, its uses and the systems contained therein, including the fire protection systems, met all applicable legal requirements, including Fire Code § 901.5; accordingly, the violation should be dismissed; and

WHEREAS, the Fire Department issued its decision on the FDNY Appeal by letter dated January 23, 2017; the letter was subsequently amended and reissued on January 31, 2017, and this appeal of that Final Determination followed; and

THE APPELLANT'S POSITION

WHEREAS, the Appellant argues that they acquired the premises on or around August 31, 2012; have made no changes to any systems at the subject premises, with the exception of a furnace, which was replaced and inspected; that the building maintains smoke detectors and an automatic sprinkler system in compliance with its certificate of occupancy, issued February 5, 1996; and that there is no legal requirement for a "fire alarm system" at the premises, as referenced in the Violation Order and the Final Determination; and

WHEREAS, regarding the history of the fire protection systems installed at the premises, the Appellant asserts that the Department of Buildings ("DOB") approved plans to install a sprinkler system at the subject premises on February 8, 1991; that an alarm lease for the premises, which included monitoring of the sprinkler system and a central office transmitter, was executed with a private central station alarm company on May 18, 1991 (the "Alarm Lease"); the Fire Department approved the installation of a sprinkler booster pump motor and controller and a central office connection to the sprinkler alarm-pump on January 3, 1992; the certificate of occupancy, indicating that a smoke detector and automatic sprinkler system were required and installed at the premises in compliance with applicable laws, was issued on February 5, 1996; and on or around September 4, 2012, the prior owner of the premises requested cancellation of the Alarm Lease; and

WHEREAS, the Appellant represents that the 1968 New York City Building Code (the "1968 BC"), the edition of the Building Code applicable to the existing building at the premises, does not require a sprinkler or fire alarm system in a single-family dwelling and that the 1996 certificate of occupancy does not indicate that a "fire alarm system and signal system" was required at the premises; and

WHEREAS, the Appellant submits that Section 902.1 of the Fire Code defines "fire alarm system" as "any system, including any interconnected fire alarm sub-system, of components and circuits arranged to monitor and annunciate the status of fire alarm or supervisory signal-initiating devices"; and

WHEREAS, the Appellant acknowledges that, pursuant to Section 1703.4(b) of the 1968 BC, a sprinkler alarm system is required when more than 36 sprinkler heads are located in any fire area or section and concedes that, according to the

MINUTES

plans, the existing building, which constitutes a single fire area, has 85 sprinkler heads “and was required to have a sprinkler alarm system, which would be connected to an approved central station,” but maintains that this requirement is contrary to Section 901.6.1 of the 2014 New York City Building Code, which “exempts single-family dwellings unconditionally, whether the system has 20, or 36, or 85 sprinkler heads”; and

WHEREAS, in addition, the Appellant asserts that the offense complained of—failure to maintain a connection between the sprinkler system and an approved central station—does not fit the Fire Code section cited in the Violation Order because the fire protection systems installed at the premises were approved, and thus passed installation acceptance tests, as evidenced by Fire Department’s January 3, 1992, Letter of Approval and DOB’s issuance of the certificate of occupancy in 1996; and

WHEREAS, finally, the Appellant represents that if the Final Determination is upheld and the installation of a new fire alarm system at the premises is required, the cost of installing such system, retaining relevant professionals and applying to DOB for a modification of the certificate of occupancy would cost in excess of \$20,000 and prove a significant hardship; and

FIRE DEPARTMENT’S POSITION

WHEREAS, the Fire Department clarifies that the Final Determination does not require the installation of a new “fire alarm system” at the subject premises, but, rather, the reconnection of the existing sprinkler system to a central monitoring system and that, in the alternative, the Appellant may make an application to DOB, in consultation with the Fire Department, to modify the sprinkler system to provide an alternative alarm notification device or system as a substitute for the central station connection; and

WHEREAS, the Fire Department further clarifies that a “fire alarm system,” as referenced in the Violation Order and the Final Determination, is a component of the “automatic sprinkler system” referenced on the building’s certificate of occupancy that enables central station monitoring of the sprinkler system by detecting water flow in the sprinkler system and sending a signal to a transmitter that transmits an alarm to a private fire alarm company’s central station, which then communicates the alarm to the Fire Department dispatcher; that a sprinkler system with more than 36 heads was installed at the premises and, thus, pursuant to Section 1703.4(b) of the 1968 BC, a “sprinkler alarm” system was additionally required at the premises; that the central monitoring component of the sprinkler system was discontinued contrary to the 1968 BC and the Section 901.6 of the Fire Code; that the central station notified the Fire Department of this discontinuance and the Violation Order followed, seeking the restoration of the connection; and

WHEREAS, the Fire Department asserts that the sprinkler system at the premises was designed and installed with central station monitoring as a necessary component and that the Fire Department’s 1992 Letter of Approval was conditioned on central station monitoring; and

WHEREAS, the Fire Department represents that the failure of the building’s certificate of occupancy to indicate that a “fire alarm system” was required and installed at the subject premises, in addition to an automatic sprinkler system, is not dispositive of such a requirement; that the Appellant does not dispute that the sprinkler system was installed at the premises with central station monitoring connection and, per records provided by the Appellant in the FDNY Appeal and submitted into the record for the subject application, application “FA 2908-86” was filed with DOB for a “fire alarm” at the subject premises on or around November 14, 1986, in addition to a permit for the installation of a “sprinkler system from basement to penthouse” at the subject premises, which was filed under DOB Job No. 100139495 on November 13, 1990; and

WHEREAS, the Fire Department concedes that DOB records do not indicate whether the sprinkler system and central station connection were installed on a voluntary basis or were required as a condition of DOB’s approval of another aspect of proposed work at the subject site, but notes that, the connection having been established, it may not be altered except in compliance with Section 901.6 of the Fire Code, which states:

901.6 Maintenance. Fire protection systems shall be maintained in good working order at all times. Any fire protection system that is not in good working order shall be repaired or replaced as necessary to restore such system to good working order, or, where authorized by the Building Code, removed from the premises; and

WHEREAS, the Fire Department represents that the subject offense raises significant public safety concerns, specifically, if the sprinkler system at the premises activates in response to a fire, the Fire Department may not be notified or such notification may be delayed because of absence of the connection to a central station and, even in the absence of a fire emergency, the discontinuance of the central station monitoring means that a malfunction of the sprinkler system could result in the continuous and surreptitious discharge of water at the premises for hours or even days without being noticed and cause significant damage to the property; and

DISCUSSION

WHEREAS, the Board notes that a “fire alarm system,” as referenced in the Final Determination, is more aptly described as a “sprinkler alarm,” which both parties concede was required to be installed at the subject premises pursuant to Section 1703.4(b) of the 1968 BC due to the provision of more than 36 sprinkler heads in a single fire area, because (1) the Fire Department’s clarification of the term “fire alarm system” (as referring to a device that detects water flow in the sprinkler system and transmits an alarm that is ultimately communicated to the Fire Department dispatcher) is consistent with the definition of “sprinkler alarm” set forth in Section 201.0 of the 1968 BC (“an apparatus constructed and installed so that a flow of water through the sprinkler system equal to, or greater than, that required for a single automatic sprinkler head will cause an alarm to be given”) and (2) Section 1703.4

MINUTES

of the 1968 BC explicitly requires the provision of a “sprinkler alarm system,” rather than a “fire alarm system,” when more than 36 heads are installed in any fire area or section; and

WHEREAS, the Board notes that Section 1703.11(b) of the 1968 BC additionally provides that, where the pressure from the city water main is insufficient, sprinkler booster pumps may be accepted provided that, among other things, such pumps:

[S]hall be maintained under approved automatic control with closed circuit supervisory attachment. The supervisory attachments shall be directly connected to an office where maintenance personnel are in attendance twenty-four hours a day; or, in lieu thereof, the supervisory attachment may be directly connected to the central station of an approved operating fire alarm company . . . ; and

WHEREAS, the Board finds that a sprinkler alarm system, as require pursuant to Section 1703.4(b) of the 1968 BC was, in fact, installed at the premises with a connection to a central station for monitoring, as evidenced by (1) the Fire Department’s January 3, 1992, Letter of Approval, covering a sprinkler booster pump motor and controller and central office connection to sprinkler alarm-pump; (2) the 1991 Alarm Lease for central station monitoring; and (3) the building’s 1996 certificate of occupancy, which indicates that an automatic sprinkler system was required and installed in compliance with applicable laws, such applicable laws including Section 1703.4(b) of the 1968 BC; and

WHEREAS, the Board additionally finds that such system, particularly the connection to a central office monitor, was required to be maintained pursuant to Section 1703.11(b) of the 1968 BC and Section 901.6 of the Fire Code, but that the system’s connection to a central station was discontinued on or around September 4, 2012, and the Appellant has not provided any evidence demonstrating that the disconnection and removal of the central station monitoring feature of the sprinkler alarm system was authorized by either of the applicable Codes; and

WHEREAS, the Board finds the Appellant’s argument that a sprinkler alarm system monitored by a central supervising station would not be required under the 2014 BC unavailing because the 1968 BC, not the 2014 BC, applied to the subject premises at the time a certificate of occupancy was issued on February 5, 1996, more than a decade prior to the 2014 BC, and that, regardless of whether a sprinkler alarm system was required for occupancy of the subject building as a single-family dwelling under the 1968 BC, once more than 36 sprinkler heads were installed within a fire area at the premises, a sprinkler alarm was required pursuant to Section 1703.11(b) of the 1968 BC and maintenance of the system was required pursuant to Section 901.6 of the Fire Code; and

Therefore, it is Resolved, that the instant appeal, seeking a reversal of the Fire Department decision dated January 31, 2017, is hereby denied.

Adopted by the Board of Standards and Appeals,

August 14, 2018.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, and Commissioner Scibetta.....4

Negative:0

Absent: Commissioner Sheta.....1

THE RESOLUTION –

WHEREAS, this is an application for waiver of certain of the Board’s Rules of Practice and Procedure and to allow for the elevation or reconstruction of a single-family home on a portion of a site that lies within the bed of a mapped street, contrary to General City Law (“GCL”) § 35; and

WHEREAS, a public hearing was held on this application on August 14, 2018, and then to decision on the same date; and

WHEREAS, this application is brought on behalf of the owner by the Mayor’s Office of Housing Recovery Operations (“HRO”) and the Build It Back Program, which was created to assist New York City residents affected by Hurricane Sandy; and

WHEREAS, in order to accept the application from HRO on behalf of the owner, and in furtherance of the City’s effort to rebuild homes impacted by Hurricane Sandy expeditiously and efficiently, the Board waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1-06.1(b) (Objection Issued by the Department of Buildings), (2) 2 RCNY § 1-06.2 (A Form), (3) 2 RCNY § 1-06.3(b) (Filing Period), (4) 2 RCNY § 1-06.4(b) (Application Referral), (5) 2 RCNY § 1-06.5(b) (Hearing Notice), (6) 2 RCNY § 1-09.1 (Application Form), and (7) 2 RCNY § 1-09.4 (Owner’s Authorization); and

WHEREAS, the Board notes that the subject application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the east side of Demerest Road, south of East 20th Road, within a C3A zoning district, in the Special Coastal Risk District, in Queens; and

WHEREAS, by letter dated July 26, 2018, the Department of Environmental Protection (“DEP”) states it has no objection to this application; and

WHEREAS, by letter dated February 14, 2018, the

MINUTES

Department of Transportation (“DOT”) states it has no objection to this application on condition that the proposal comply with the Department of Buildings’ requirements, including the Builders Pavement Plan; and

WHEREAS, by letter dated January 22, 2018, the Fire Department states that it has no objection to this application on condition that, where the curb-to-curb width of the street is less than 34 feet or where the building is set back more than 40 feet from the curb line: (1) the building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code; (2) the building will be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code; (3) the underside of the building, where the foundation is not completely closed, shall have a floor assembly that provides a 2-hour fire resistance rating; and (4) the height from grade plane to the highest window-sill leading to a habitable space may not exceed 32 feet; and

WHEREAS, the Fire Department further states that, in circumstances where the construction consists primarily of structural elevation and the Fire Department has determined that the home has been mostly repaired, with the exception of work associated with elevating the home, elevating and moving mechanical, electrical, and plumbing equipment, roof construction or other minor work associated with elevating the home in compliance with the New York City Building Code Appendix G, the Department of Buildings (“DOB”) may waive the requirement that the building has a sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code upon notice from the Fire Department; and

WHEREAS, the Board notes that pursuant to GCL §35, it may authorize construction within the bed of the mapped street subject to reasonable requirements; and

WHEREAS, the Board notes that pursuant to ZR § 72-01(g), the Board may waive bulk regulations where construction is proposed in part within the bed of a mapped street; such bulk waivers will be only as necessary to address non-compliances resulting from the location of construction within and outside of the mapped street, and the zoning lot will comply to the maximum extent feasible with all applicable zoning regulations as if the street were not mapped; and

WHEREAS, therefore, consistent with GCL § 35 and ZR § 72-01(g), the Board finds that applying the bulk regulations across the portion of the subject lot within the mapped street and the portion of the subject lot outside the mapped street as if the lot were unencumbered by a mapped street is both reasonable and necessary to allow the proposed construction; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *wave* the Rules of Practice and Procedure, and *authorizes* a waiver of GCL § 35 and also

waives the bulk regulations associated with the presence of the mapped but unbuilt street pursuant to Section 72-01(g) of the Zoning Resolution to grant this appeal *on condition* that the proposed elevation or reconstruction will comply with all applicable zoning district requirements; and that all other applicable laws, rules and regulations shall be complied with; and *on further condition*:

THAT the proposal shall comply with the Department of Buildings’ requirements, including the Builders Pavement Plan;

THAT if the curb-to-curb width of the street is less than 34 feet or if the building is set back more than 40 feet from the curb line: (1) the building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code, unless the Fire Department has notified DOB that the building is exempt; (2) the building will be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code; (3) the underside of the building, where the foundation is not completely closed, shall have a floor assembly that provides a 2-hour fire resistance rating; and (4) the height from grade plane to the highest window-sill leading to a habitable space may not exceed 32 feet;

THAT this approval shall be limited to the Build It Back program;

THAT this approval is limited to proposals for the elevation or reconstruction of previously existing structures and insofar as the applicant proposes, instead, to repair the building or other structure on the subject lot, this waiver shall be void as unnecessary;

THAT the applicant provide the Board with a full set of approved plans upon DOB’s issuance of a Certificate of Occupancy for the subject building or other structure;

THAT DOB will review and approve plans associated with the Board’s approval for compliance with the underlying zoning regulations as if the unbuilt portion of the street were not mapped; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 14, 2018.

Absent: Commissioner Sheta.....1

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated November 27, 2017, acting on New Building Application No. 520317639, reads in pertinent part:

“Proposed Eating and Drinking Establishment (Use Group 6) with an accessory drive through facility . . . is contrary to section 32-15 and requires a special permit”; and

WHEREAS, this is an application under ZR §§ 73-243 and 73-03 to permit, in an R3-2 (C1-2) zoning district, the operation of an eating or drinking place with accessory drive-through facilities, contrary to ZR § 32-15; and

WHEREAS, a public hearing was held on this application on June 19, 2018, after due notice by publication in *The City Record*, and then to decision on August 14, 2018; and

WHEREAS, Community Board 2, Staten Island, recommends approval of this application; and

WHEREAS, area residents submitted testimony in opposition to this application, citing concerns with traffic, garbage, noise, lighting and safety; and

WHEREAS, the subject site is located on the south side of Richmond Avenue, between Nome Avenue and Draper Place, in an R3-2 (C1-2) zoning district, on Staten Island; and

WHEREAS, the subject site has approximately 118 feet of frontage along Richmond Avenue, between 128 feet and 148 feet of depth, 16,032 square feet of lot area and is occupied by a one-story commercial building; and

WHEREAS, ZR § 73-243 provides:

In C1-1, C1-2 and C1-3 Districts, (except in Special Purpose Districts) the Board of Standards and Appeals may permit eating or drinking places (including those which provide musical entertainment but not dancing, with a capacity of

MINUTES

200 persons or less, and those which provide outdoor table service) with *accessory* drive-through facilities for a term not to exceed five years, provided that the following findings are made:

- (a) the drive-through facility contains reservoir space for not less than 10 automobiles;
- (b) the drive-through facility will cause minimal interference with traffic flow in the immediate vicinity;
- (c) the eating or drinking place with *accessory* drive-through facility fully complies with the *accessory* off-street parking regulations for the indicated zoning district, including provision of the required number of *accessory* off-street parking spaces for the indicated zoning district (for the purpose of this finding, the waiver provisions of Sections 36-231 and 36-232 shall be inapplicable);
- (d) the character of the commercially zoned *street* frontage within 500 feet of the subject premises reflects substantial orientation toward the motor vehicle, based upon the level of motor vehicle generation attributable to the existing *commercial uses* contained within such area and to the subject eating or drinking place (excluding the *accessory* drive-through facility portion);
- (e) the drive-through facility shall not have an undue adverse impact on *residences* within the immediate vicinity of the subject premises; and
- (f) there will be adequate buffering between the drive-through facility and adjacent *residential uses*.

In connection therewith, the Board may modify the requirement of Section 32-411 insofar as it relates to the *accessory* drive-through facility. The Board may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy

and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant states that the proposed eating or drinking place will have an ample parking lot designed for safe maneuvering and that the drive-through lane provides space for the queueing of a minimum of 10 vehicles without interfering with parking; and

WHEREAS, accordingly, the Board finds that the subject drive-through facility contains reservoir space for not less than 10 automobiles; and

WHEREAS, the applicant states that the subject site fronts on a section of Richmond Avenue with seven lanes of traffic and that the traffic lane closest the subject site is designated deceleration lane, ensuring that the drive-through facility will cause minimal interference with the flow of traffic; and

WHEREAS, accordingly, the Board finds that the subject drive-through facility will cause minimal interference with traffic flow in the immediate vicinity; and

WHEREAS, the applicant states that the proposed commercial building contains approximately 2,053 square feet of floor area, which requires seven off-street parking spaces, and that 16 off-street parking spaces are proposed (seven required parking spaces and nine permitted parking spaces); and

WHEREAS, the applicant states that the proposed parking lot has less than 18 parking spaces and less than 6,000 square feet of parking lot area, thereby rendering ZR §§ 37-91 and 37-922 inapplicable; and

WHEREAS, accordingly, the Board finds that the subject eating or drinking place with accessory drive-through facility fully complies with the accessory off-street parking regulations for the indicated zoning district, including provision of the required number of accessory off-street parking spaces for the indicated zoning district; and

WHEREAS, the applicant states that the subject site is surrounded by existing retail uses with parking lots and that there are bus routes along Richmond Avenue but no subway stations or trains in the vicinity; and

WHEREAS, accordingly, the Board finds that the character of the commercially zoned street frontage within 500 feet of the subject site reflects substantial orientation toward the motor vehicle, based upon the level of motor vehicle generation attributable to the existing commercial uses contained within such area and to the subject eating or drinking place (excluding the accessory drive-through facility portion); and

WHEREAS, the applicant states that the subject site is entirely surrounded by existing retail uses and that residences in the vicinity are separated from the subject site by other commercial uses; and

WHEREAS, the applicant states that there is no direct access from the subject site to streets that serve the residential area to the southeast; and

WHEREAS, accordingly, the Board finds that the

MINUTES

subject drive-through facility shall not have an undue adverse impact on residences within the immediate vicinity of the subject site; and

WHEREAS, the applicant states that the nearest residential use is approximately 130 feet from the rear lot line of the subject site and that safeguards are proposed to minimize any adverse effects on the character of the surrounding area; and

WHEREAS, the applicant proposes to provide a 7'-0" wide setback along the Richmond Avenue frontage of the subject site with planting consisting of 4'-0" high evergreen shrubs, that a planting strip is proposed along the entire length of the northeast lot line with planting of 3'-0" high evergreen shrubs, that a 6'-0" high opaque fence of a residential style and a planting strip will be provided along the rear lot line and that an ample planting area will be provided in the southeastern corner of the subject site with planting consisting of ground cover, evergreen bushes and deciduous trees; and

WHEREAS, in response to community concerns and questions from the Board at hearing, the applicant conducted a sound study with respect to the drive-through facility's menu board, finding that a decibel level of 54 decibels extends partly into an adjoining commercial parking lot's first row of vehicles, though the study did not account for any sound attenuation to be provided by the proposed fencing along the rear lot line; and

WHEREAS, the applicant represents that, because of the distance, any sound or light transmission from the drive-through facility's menu board or the lighting of the subject site will not be heard by or impact any residential use; and

WHEREAS, accordingly, the Board finds that there will be adequate buffering between the drive-through facility and adjacent residential uses; and

WHEREAS, in response to community concerns and the Board's questions at hearing, the applicant notes that, rather than being a retail destination, the subject eating or drinking establishment is a standalone establishment that relies upon "pass-by" traffic (rather than additional traffic) for business and will accordingly not generate any adverse traffic impacts; and

WHEREAS, the applicant states that the subject site will be further limited to vehicles in the righthand lane and that all vehicles entering and exiting the site will comport with the established flow of traffic, thereby having less of an impact on the existing street network; and

WHEREAS, the applicant states that, because of the number of parking space proposed, visitors to the site will be able to select between the drive-through facility and parking, which will ensure that the drive-through lane and associated queueing will be entirely accommodated within the bounds of the subject site; and

WHEREAS, the applicant states that the proposed hours of operation are as follows: Sunday to Thursday, 6:00 a.m. to 11:00 p.m., and Friday and Saturday, 6:00 a.m. to 11:00 p.m. with the drive-through facility open until 2:00 a.m.; and

WHEREAS, the applicant represents that the subject site will provide adequate lighting to ensure security of the subject site and that the proposed hours of operation will minimize the opportunity for loitering by closing the eating or drinking place overnight; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18-BSA-077R, dated December 22, 2017; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-243 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-243 and 73-03 to *permit*, in an R3-2 (C1-2) zoning district, the operation of an eating or drinking place with accessory drive-through facilities, contrary to ZR § 32-15; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked "Received June 28, 2018"-Seven(7) sheets; and *on further condition*:

THAT this grant shall be limited to a term of ten (10) years, expiring August 14, 2028;

THAT the above condition shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by August 14, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 14, 2018.

CEQR #18-BSA-112K

APPLICANT – Jay Goldstein, Esq., for David Janklowicz, owner.

SUBJECT – Application March 16, 2018 – Special Permit (§73-622) to permit the enlargement of a one family home contrary to ZR §23-141 (FAR and Open Space); ZR §23-461 (a) (side yard) and ZR §23-47 (rear yard). R2 zoning district.

PREMISES AFFECTED – 1238 East 29th Street, Block 7646, Lot 60, Borough of Brooklyn.

COMMUNITY BOARD #14BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta...4

Negative:0

Absent: Commissioner Sheta.....1

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated February 15, 2018, acting on Alteration Application No. 320910948, reads in pertinent part:

1. Proposed plans are contrary to ZR 23-141 in that the proposed floor area ratio (FAR) exceeds the permitted
2. Proposed plans are contrary to ZR 23-141 in that the proposed open space ratio (OSR) is less than the required
3. Proposed plans are contrary to ZR 23-461(A) in that the proposed side yards are less than the required
4. Proposed plans are contrary to ZR 23-47 in that the proposed rear yard is less than [required]; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03 to permit, in an R2 zoning district, the enlargement of an existing single-family detached residence that does not comply with zoning regulations for floor area, open space ratio, side yards and rear yards, contrary to ZR §§ 23-141, 23-461 and 23-47; and

WHEREAS, a public hearing was held on this application on June 26, 2018, after due notice by publication in *The City Record*, with continued hearing on August 14, 2018, and then to decision on the same date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of East 29th Street, between Avenue L and Avenue M, in an R2 zoning district, in Brooklyn; and

WHEREAS, the subject site has approximately 30 feet of frontage along East 29th Street, 100 feet of depth, 3,000 square feet of lot area and is occupied by an existing single-family detached residence; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single-* or *two-family detached* or *semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single-* or *two-family detached* or *semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter

MINUTES

wall facing the *street*, measured at the lowest point before a setback or pitched roof begins. Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, inter alia, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge an existing detached single-family residence, as contemplated in ZR § 73-622; and

WHEREAS, the applicant proposes to enlarge the existing residence from 2,117 square feet of floor area (0.71 FAR) to 2,776 square feet of floor area (0.93 FAR), decrease the open space ratio from 0.90 to 0.59, maintain side yards with a depth of 3'-8" to the south and with a depth of 6'-4" to the north and decrease the depth of the rear yard from 30 feet to 20 feet at the first and second floor; and

WHEREAS, the applicant states that, at the subject site, floor area may not exceed 1,500 square feet under ZR § 23-141, the open space ratio must be at least 1.50, side yards must have minimum depths of 8 feet and 5 feet under ZR § 23-461 and the rear yard must have a minimum depth of 30 feet under ZR § 23-47; and

WHEREAS, the applicant represents that the proposed building as enlarged is consistent with the built character of the neighborhood; and

WHEREAS, in support of this contention, the applicant surveyed single- and two-family residences in the surrounding area, finding that there are 17 residences with 0.90 FAR or greater and that 14 residences have rear yards with depths of 25 feet or less; and

WHEREAS, the applicant also submits that, on the subject block, an adjacent residence also has a rear yard with a depth of 20 feet at the first and second floor; and

WHEREAS, the applicant also submitted a rear yard study, lot coverage diagram, photographic streetscape montage and a photographic neighborhood study demonstrating that the proposed building will fit in with the building conditions of the surrounding area; and

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, the Board finds that the proposed building as enlarged will not alter the essential character of the neighborhood or district in which the subject building is located, nor impair the future use or development of the

surrounding area; and

WHEREAS, in response to questions from the Board at hearing about the effect of the enlarged building on residences nearby, the applicant removed the proposed enlargement of the attic and revised the slope of the proposed building's roof; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of bulk regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18BSA112K, dated March 19, 2018; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-622 and 73-03 to *permit*, in an R2 zoning district, the enlargement of an existing single-family detached residence that does not comply with zoning regulations for floor area, open space ratio, side yards and rear yards, contrary to ZR §§ 23-141, 23-461 and 23-47; *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received July 24, 2018"-thirteen (13) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: floor area shall be limited to 2,776 square feet (0.93 FAR), the open space ratio shall be at least 0.59, side yards shall have a minimum depth of 3'-8" to the south and a minimum depth of 6'-4" to the north and the rear yard shall have a minimum depth of 20 feet at the first and second floor, as illustrated on the Board-approved drawings;

THAT removal of existing joists or perimeter walls in excess of that shown on the Board-approved drawings shall void the special permit;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by August 14, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief

MINUTES

granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 14, 2018.

302-14-BZ

APPLICANT – Rothkrug Rothkrug & Spector LLP, for Stanfordville, LLC, owner.

SUBJECT – Application November 10, 2014 – Special Permit (§73-125) to allow proposed ambulatory diagnostic or treatment health care facility in excess of 1500 sq. ft. in a two-story mixed use building. R3X zoning district.

CALENDAR

REGULAR MEETING OCTOBER 11, 2018, 10:00 A.M.

NOTICE IS HEREBY GIVEN of a public hearing, Thursday morning, October 11, 2018, 10:00 A.M., at 22 Reade Street, Spector Hall, New York, N.Y. 10007, on the following matters:

SPECIAL ORDER CALENDAR

498-83-BZ

APPLICANT – Rampulla Associates Architects, for 2131 Hylan Holding, llc, owner.

SUBJECT – Application June 16, 2017 – Amendment of a previously approved Variance (§72-21) which permitted the enlargement of a then existing banquet hall into the residential portion of the lot and permitted accessory parking within the residential portion of the lot. The amendment seeks to demolish the existing building to permit the development of an As-of-Right commercial building retaining the accessory parking on the residential portion of the lot; Extension of Time to Obtain a Certificate of Occupancy; Waiver of the Rules. C8-1 & R3X (Lower Density Growth Management Area)

PREMISES AFFECTED – 2131 Hylan Boulevard, Block 3589, Lot 63, Borough of Staten Island.

COMMUNITY BOARD #2SI

247-09-BZ

APPLICANT – Kramer Levin Naftalis & Frankel, LLP, for Central Synagogue, owner.

SUBJECT – Application July 11, 2018 – Extension of Time to complete construction of a previously approved variance (§72-21) for the expansion of a UG4 community use facility (Central Synagogue), which expired on June 10, 2018. C5-2 & C5-2.5 (MiD) zoning district.

PREMISES AFFECTED – 123 East 55th Street, Block 1310, Lot 10, Borough of Manhattan.

COMMUNITY BOARD #5M

62-13-BZ

APPLICANT – Sheldon Lobel, P.C., for 2703 East Tremont LLC, owner; BXC Gates, LLC, lessee.

SUBJECT – Application March 23, 2018 – Extension of Term of a previously approved Special Permit (§73-243) which permitted the legalization of an eating and drinking establishment (Wendy's) with an accessory drive-through facility which expires on July 9, 2018. C1-2/R6 zoning district.

PREMISES AFFECTED – 2703 East Tremont Avenue, Blok 4076, Lot 12, Borough of Bronx.

COMMUNITY BOARD #10BX

123-13-BZ & 125-13-BZ

APPLICANT – Rothkrug Rothkrug & Spector, LLP, for 95-97 Grattan Street, LLC, owner.

SUBJECT – Application July 17, 2018 – Extension of Time to Complete Construction of a previously approved Variance (§72-21) to allow for a new seven-family residential development, contrary to use regulation ZR §42-00 which expired on June 24, 2018. M1-1 zoning district.

PREMISES AFFECTED – 95 & 97 Grattan Street, Block 3004, Lot 39, Borough of Brooklyn.
COMMUNITY BOARD #1BK

APPEALS CALENDAR

2017-318-A

APPLICANT – Rothkrug Rothkrug & Spector LLP, for Blue Print Metals, Inc., owner.

SUBJECT – Application October 11, 2018 – Proposed development of a one-story warehouse building (UG 16B) to be divided into six separate units not fronting on a mapped street contrary to General City Law §36. M3-1 (Special Richmond District).

PREMISES AFFECTED – 155 Johnson Street, Block 7207, Lot 283, Borough of Staten Island.

COMMUNITY BOARD #3SI

REGULAR MEETING OCTOBER 11, 2018, 1:00 P.M.

NOTICE IS HEREBY GIVEN of a public hearing, Thursday afternoon, October 11, 2018, 1:00 P.M., at 22 Reade Street, Spector Hall, New York, N.Y. 10007, on the following matters:

ZONING CALENDAR

COMMUNITY BOARD #6M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative.....0

Absent: Commissioner Scibetta and Commissioner Sheta...2

THE RESOLUTION –

WHEREAS, this is an application for an extension of term of a variance, previously granted by the Board; and

WHEREAS, a public hearing was held on this application on August 21, 2018, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Vice-Chair Chanda performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 6, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the south side of East 33rd Street, between Lexington Avenue and Fifth Avenue, in an R8B zoning district, in Manhattan; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 18, 1961, when, under the subject calendar number, the Board granted a variance to permit the erection of a four-story, with cellar, structure for use as an open type parking lot for a term of twenty (20) years, expiring July 18, 1981, on condition that the rear wall of the building be a masonry wall of a 3-hour fire construction except for a 20-foot opening and that a certificate of occupancy be obtained; and

WHEREAS, on December 11, 1978, under the subject

calendar number, the Board granted an extension of term of ten (10) years, expiring November 14, 1988, on condition that a new certificate of occupancy be obtained within one (1) year, by November 14, 1979; and

WHEREAS, on April 4, 1989, under the subject calendar number, the Board granted an extension of term of ten (10) years, expiring November 14, 1998, on condition that a new certificate of occupancy be obtained within one (1) year, by April 4, 1990; and

WHEREAS, on March 3, 1998, under the subject calendar number, the Board granted an extension of term of ten (10) years, expiring March 3, 2008, on condition that no signs be installed at the roof level of the subject site, that the site be maintained graffiti free and that a new certificate of occupancy be obtained within one (1) year, by March 3, 1999; and

WHEREAS, on January 29, 2008, under the subject calendar number, the Board granted an extension of term of ten (10) years, expiring March 3, 2018, on condition that the term be listed on the certificate occupancy, that signage comply with C1 zoning district regulations and that a revised certificate of occupancy be obtained by June 29, 2008; and

WHEREAS, on December 13, 2011, under the subject calendar number, the Board amended the variance to permit the change in use at the cellar level from a parking garage (Use Group 8) to an auto rental establishment (Use Group 8) and granted an extension of time to obtain a certificate of occupancy, expiring December 13, 2012, on condition that the hours of operation for the auto rental establishment use be limited to Monday to Friday, 7:30 a.m. to 7:30 p.m., Saturday, 7:30 a.m. to 3:00 p.m., and Sunday, 8:00 a.m. to 3:00 p.m., on condition that the above conditions be listed on the certificate of occupancy; and

WHEREAS, on April 16, 2013, under the subject calendar number, the Board granted an extension of time to obtain a certificate of occupancy, expiring October 16, 2014; and

WHEREAS, the term having expired, the applicant now seeks an extension; and

WHEREAS, the applicant states that no changes to the existing layout, operations or use of the parking garage are proposed herein; and

WHEREAS, in response to questions from the Board at hearing, the applicant states that lighting on the rooftop is shielded from adjacent residences and that barbed wire will be removed; and

WHEREAS, based upon its review of the record, the Board has determined that the requested extension of term is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated July 18, 1961, as amended through April 16, 2013, so that as amended this portion of the resolution shall read: “to *permit* an extension of term of ten (10) years, expiring March 3, 2028; *on condition* that all work and site conditions shall conform to drawings filed with this application marked “Received July 9, 2018” – Nine (9)

MINUTES

sheets; and *on further condition*:

THAT the term of the grant shall be limited to ten (10) years, expiring March 3, 2028;

THAT lighting on the rooftop of the subject building shall be directed away from residential windows and shall be shielded;

THAT barbed wire at the subject site shall be removed;

THAT the hours of operation for the auto rental establishment use shall be limited to Monday to Friday, 7:30 a.m. to 7:30 p.m., Saturday, 7:30 a.m. to 3:00 p.m., and Sunday, 8:00 a.m. to 3:00 p.m.;

THAT the site shall be maintained graffiti free;

THAT no signs shall be installed at the roof level of the subject site;

THAT signage shall comply with C1 zoning district regulations;

THAT the rear wall of the building shall be a masonry wall of a 3-hour fire construction except for a 20-foot opening;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by August 21, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, August 21, 2018.

40-06-BZ

APPLICANT – MP Design and Construction/Maria Maloney, for UDR 10 Hanover-LLC-Constantine Koukoulis, owner; 10 Hanover Sq Gym, LLC-Alex Reznik-Senior MGM Dir, lessee.

SUBJECT – Application June 9, 2017 – Extension of Term of a previously approved Special Permit (§73-36) which permitted the operation of a Physical Culture Establishment (Goldman-Sachs) on the cellar and sub-cellar levels in a 21-story mixed-use building which expired on August 22, 2016; Amendment to permit the change in operator to (Complete Body) and a change in hours of operation; Waiver of the Rules. C5-5 (LM) zoning district

PREMISES AFFECTED – 10 Hanover Sq (aka 4-12 Hanover Sq. 110-124 Pearl St, 76-88 Water Street), Block 31, Lot 1, Borough of Manhattan.

COMMUNITY BOARD #1M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown3

Negative.....0

Absent: Commissioner Sheta and Commissioner Scibetta...2

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure, an amendment and an extension of term of a special permit, previously granted by the Board; and

WHEREAS, a public hearing was held on this application on May 15, 2018, after due notice by publication in *The City Record*, and then to decision on August 21, 2018; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 1, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of Hanover Square, between Water Street and Pearl Street, in a C5-5 zoning district, in Manhattan; and

WHEREAS, the Board has exercised jurisdiction over the subject site since August 22, 2006, when, under the subject calendar number, the Board granted a special permit to allow the operation of a physical culture establishment (“PCE”) on the first floor, cellar and sub-cellar of the subject building for a term of ten (10) years, expiring August 22, 2016, on condition that there be no change in ownership or operating control of the PCE without prior application to and approval from the Board, that the hours of operation be limited to Monday to Thursday, 5:30 a.m. to 10:30 p.m., Friday, 5:30 a.m. to 9:00 p.m., and Saturday and Sunday, 8:00 a.m. to 9:00 p.m., that all massages be performed only by New York State licensed massage professionals, that the above conditions appear on the certificate of occupancy, that Local Law 58/87 compliance be as reviewed and approved by the Department of Buildings (“DOB”) and that fire safety measures be installed and maintained as shown on the Board-approved drawings; and

WHEREAS, the term having expired, the applicant now seeks a waiver of the Board’s Rules of Practice and Procedure to permit the late filing of this application, an amendment and an extension of term; and

WHEREAS, the applicant represents that there have been no changes to the floor plan, as previously approved by the Board; and

WHEREAS, the applicant states that the PCE has operated as Complete Body since June 15, 2012, with the following amended hours of operation proposed: Monday to Thursday, 5:00 a.m. to 10:00 p.m., Friday, 5:00 a.m. to 8:00 p.m., and Saturday and Sunday, 8:00 a.m. to 6:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and

MINUTES

issued a report which the Board has deemed to be satisfactory; and

WHEREAS, by letter dated August 17, 2018, the Fire Department states that it has no objection to this application on condition that the Schedule A be amended to reflect the physical culture establishment at the first floor, cellar and sub-cellar of the subject building and that the operating permit for public assembly be amended to reflect occupancy of the physical culture establishment; and

WHEREAS, the applicant has satisfactorily demonstrated compliance with the conditions of the previous term and the Board finds that the circumstances warranting the original grant still obtain; and

WHEREAS, based upon its review of the record, the Board has determined that the requested waiver of the Board's Rules of Practice and Procedure, amendment and extension of term are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *wave* the Rules of Practice and Procedure and *reopen* and *amend* the resolution, dated August 22, 2006, so that as amended this portion of the resolution shall read: "to *permit* an extension of term of ten (10) years, expiring August 22, 2026; *on condition* that all work, operations and site conditions shall conform to drawings filed with this application marked "Received August 20, 2018"-Nine (9) sheets; and *on further condition*:

THAT the term of this grant shall be limited to ten (10) years, expiring August 22, 2026;

THAT the Schedule A shall be amended to reflect the physical culture establishment at the first floor, cellar and sub-cellar of the subject building;

THAT the operating permit for public assembly shall be amended to reflect occupancy of the physical culture establishment;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT the hours of operation shall be limited to Monday to Thursday, 5:00 a.m. to 10:00 p.m., Friday, 5:00 a.m. to 8:00 p.m., and Saturday and Sunday, 8:00 a.m. to 6:00 p.m.;

THAT all massages shall be performed only by New York State licensed massage professionals;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by August 21, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT Local Law 58/87 compliance shall be as reviewed and approved by the Department of Buildings;

THAT fire safety measures shall be maintained as shown on the Board-approved drawings;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted."

Adopted by the Board of Standards and Appeals, August 21, 2018.

2-10-BZ

APPLICANT – Venable LLP, for The New York Eye and Ear Infirmary/Beth Israel Medical Center, owner.

SUBJECT – Application June 18, 2018 – Amendment of a previously approved Special Permit (§73-461) which permitted the enlargement of a community facility (New York Eye and Ear Infirmary) within the required rear yard equivalent, contrary to §33-283. The Amendment seeks the addition of Tax Lots 20 and 52 to the existing zoning lot currently consisting of lots 60, 1, 5, and 7. C1-6A/C1-7A zoning districts.

PREMISES AFFECTED – 315, 327 East 13th Street, 310, 300, 326 East 14th Street, 224 Second Avenue, Block 455, Lot(s) 60, 1, 5, 7, 20, 52, Borough of Manhattan.

COMMUNITY BOARD #3M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative.....0

Absent: Commissioner Scibetta and Commissioner Sheta...2

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated June 12, 2018, acting on Alteration Application No. 123395655, reads in pertinent part:

"The proposed plan is contrary to that approved by Board of Standards and Appeals cal. no.

2-10-BZ"; and

WHEREAS, this is an application for an amendment of a special permit, previously granted by the Board; and

WHEREAS, a public hearing was held on this application on August 21, 2018, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Community Board 3, Manhattan, waives its recommendation for this application; and

WHEREAS, the subject site is located on the south side of East 14th Street, between Second Avenue and First Avenue, partially in a C1-6A zoning district and partially in a C1-7A zoning district, in Manhattan; and

WHEREAS, the subject zoning lot has frontage along East 14th Street, frontage along Second Avenue, frontage

MINUTES

along East 13th Street, approximately 44,870 square feet of lot area and consists of Lots 60, 1, 5 and 7; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 2, 2010, when, under the subject calendar number, the Board granted a special permit to allow the enlargement of a nine-story community-facility building into the required rear yard equivalent of a through lot; and

WHEREAS, the applicant now seeks an amendment to merge Lots 52 and 20 into the subject zoning lot that currently consists of Lots 60, 1, 5 and 7, thereby increasing the lot area of the subject zoning lot from approximately 44,870 square feet to 61,441 square feet; and

WHEREAS, pursuant to ZR §§ 73-11, the Board may, in appropriate cases, permit an amendment of a special permit; and

WHEREAS, the applicant submits that the enlargement allowed by the subject special permit has since been constructed and that a certificate of occupancy has been obtained; and

WHEREAS, the applicant states that the proposed amendment would not alter the physical structure authorized by the subject special permit and would not disturb any of the Board's findings; and

WHEREAS, based upon its review of the record, the Board has determined that the requested amendment is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated March 2, 2010, so that as amended this portion of the resolution shall read: "to *permit* an amendment to merge Lots 52 and 20 into the subject zoning lot; *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received June 18, 2018"-Five (5) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as reflected on the Board-approved drawings;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by August 21, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted."

Adopted by the Board of Standards and Appeals, August 21, 2018.

163-13-BZ

APPLICANT – Eric Palatnik, P.C., for 39th Avenue Realty Management, LLC, owner.

SUBJECT – Application August 21, 2018 – Extension of Time to Complete Construction of a previously approved Special Permit (§73-44) permitting the reduction of parking spaces for the enlargement of a building containing Use Group 6 professional offices which expired on April 29, 2018. C4-2 zoning district.

PREMISES AFFECTED – 133-10 39th Avenue, Block 4973, Lot 12, Borough of Queens.

COMMUNITY BOARD #7Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative.....0

Absent: Commissioner Scibetta and Commissioner Sheta...2

THE RESOLUTION –

WHEREAS, this is an application for an extension of time to complete construction; and

WHEREAS, a public hearing was held on this application on August 21, 2018, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Vice-Chair Chanda performed an inspection of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the south side of 39th Avenue, between College Point Boulevard and Prince Street, in a C4-2 zoning district, in Queens; and

WHEREAS, the Board has exercised jurisdiction over the subject site since April 29, 2014, when, under the subject calendar number, the Board granted a special permit to allow a reduction in the required number of accessory parking spaces in connection with the enlargement of an existing office building (Use Group 6) from 28.75 spaces to 14.38 spaces on condition that there be no change in the use of the site without prior review and approval by the Board, that no certificate of occupancy may be issued if the use is changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-street radius, that the above conditions appear on the certificate of occupancy and that DOB confirms that the 14.38 accessory parking spaces authorized under this grant may be waived, in accordance with ZR §§ 36-31 and 36-231; and

WHEREAS, the time to complete construction having expired, the applicant now seeks an extension; and

WHEREAS, based upon its review of the record, the Board has determined that the requested extension of time to complete construction is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated April 29, 2014, so that as amended this portion of the

MINUTES

resolution shall read: “to *permit* an extension of time to complete construction of four (4) years, expiring April 29, 2022; *on condition*:

THAT there shall be no change in the use of the site without prior review and approval by the Board;

THAT no certificate of occupancy may be issued if the use is changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-street radius;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by April 29, 2022;

THAT DOB will confirm that the 14.38 accessory parking spaces authorized under this grant may be waived, in accordance with ZR §§ 36-31 and 36-231;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, August 21, 2018.

THE RESOLUTION –

WHEREAS, the decision on behalf of the Staten Island Borough Commissioner, dated April 10, 2015, acting on Department of Buildings (“DOB”) Application No. 520233998 reads in pertinent part:

1. GCL 35: Proposed construction located partly within the bed of a mapped street is contrary to Section 35 of the General City Law. Obtain Board of Standards and Appeals Approval.
2. ZR [107-461]: Proposed scope of work to building with existing bulk non-compliances will result with an increase of bulk non-compliances due to the location of such mapped street. Obtain Board of Standards and Appeals waiver pursuant to ZR 72-01(g); and

WHEREAS, this is an application to permit the enlargement of a two-family dwelling partially located within the bed of a mapped street, contrary to General City Law (“GCL”) § 36, and a waiver of bulk regulations necessary to address non-compliances resulting from the location of the development within and outside the improved streets, pursuant to ZR § 72-01(g); and

WHEREAS, a public hearing was held on this application on March 27, 2018, after due notice by publication in *The City Record*, with continued hearings on May 15, 2018, June 26, 2018, and August 21, 2018, and then to decision on that date; and

WHEREAS, Community Board 3, Staten Island, recommends disapproval of this application, stating that the proposed construction in the bed of Rossville Avenue will disrupt that heavily trafficked and major thoroughfare, that the proposal lacks adequate parking and that the site has been advertised as a day care center, not a two-family dwelling as represented in this application; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

MINUTES

WHEREAS, the subject site is located on the northwestern corner of Rossville Avenue and Poplar Avenue, in an R3-2 zoning district, in the Special South Richmond Development District (SRD), on Staten Island; and

WHEREAS, according to the New York City Tax Map and a survey of the site submitted by the applicant, the site is located within the street widening lines of both Rossville Avenue to a depth of approximately 15 feet and Poplar Avenue to a depth of approximately 11 feet; and

WHEREAS, the site has approximately 46 feet of frontage along Rossville Avenue, 89 feet of frontage along Poplar Avenue, 3,994 square feet of lot area and is occupied by a one-family, one-and-one-half story residential building partially located within mapped, but unbuilt, portions of both Rossville Avenue and Poplar Avenue; and

WHEREAS, in response to the Community Board's statements regarding the use of the site as a day care facility, the applicant acknowledged that the existing building was previously occupied as a day care, but stated that such use was terminated on October 18, 2017, and provided a letter from the New York State Department of Health and Mental Hygiene's Bureau of Child Care confirming a request to close the "Group Family Day Care Program" at the subject site on such date; and

WHEREAS, the applicant proposes to enlarge the existing dwelling into a two-family, two-story dwelling, maintaining the existing front yards, which measure approximately 4.74 feet to the subject property's southern lot line fronting Poplar Avenue and approximately 5 feet to the subject property's eastern lot line fronting Rossville Avenue; and

WHEREAS, at the subject site, front yards with a depth of at least 18 feet are required pursuant to ZR § 107-461; and

WHEREAS, GCL § 35 reads in pertinent part:

For the purpose of preserving the integrity of such official map or plan no permit shall hereby be issued for any building in the bed of any street or highway shown or laid out on such map or plan, provided, however, that is the land within such mapped street or highway is not yielding a fair return on its value to the owner, the board of appeals or other similar board in any city which has established such board having power to make variances or exception in zoning regulations shall have power in a specific case by the vote of a majority of its members to grant a permit for a building in such street or highway, or tend to cause a change of such official map or plan, and such board may impose reasonable requirements as a condition of granting such permit, which requirements shall inure to the benefit of the city; and

WHEREAS, with respect to the legal non-complying status of the existing front yard depths, the applicant provided a 1937 Sanborn maps of the immediate area evidencing a one-and-a-half story structure constructed on the subject site in approximately the same location as the existing structure, that

is, in the extreme southeastern corner of the site close to the intersection of Rossville and Poplar Avenues; and

WHEREAS, the applicant submits that the proposed enlargement will comply with all applicable regulations of the Zoning Resolution except those relating to minimum front yard depth and, thus, a waiver of ZR § 72-01(g) is required in addition to waiver of GCL § 35; and

WHEREAS, ZR § 72-01(g) reads in relevant part:

The Board of Standards and Appeals (referred to hereinafter as the Board) shall have the power, pursuant to the provisions of the New York City Charter and this Resolution, after public notice and hearing . . . to waive *bulk* regulations affected by unimproved *streets*¹ where a *development, enlargement* or alteration consists in part of construction within such *streets* and where such *development, enlargement* or alteration would be *non-complying* absent such waiver, provided the Board has granted a permit pursuant to Section 35 of the General City Law and has prescribed conditions which require the portion of the *development* or *enlargement* to be located within the unimproved *streets* to be compliant and conforming to the provision of this Resolution. Such bulk waivers shall only be as necessary to address *non-compliance* resulting from the location of the *development* or *enlargement* within and outside the unimproved *streets*, and the *zoning lot* shall comply to the maximum extent feasible with all applicable zoning regulations as if such unimproved *streets* were not mapped. . . .; and

WHEREAS, while the applicant originally proposed two off-street parking spaces, the proposal was subsequently revised to provide three off-street parking spaces in compliance with ZR § 25-22; and

WHEREAS, by letter dated July 23, 2015, the Fire Department states that it has neither objections nor recommendations with regards to this application; and

WHEREAS, by letter dated June 25, 2018, the New York City Department of Transportation ("DOT") states that, according to the Staten Island Borough President's Topographical Bureau, Rossville Avenue is mapped at a width of 50 feet on the City Map and has a Corporation Counsel Opinion of Dedication ("CCO"), dated June 22, 1982, for 35 to 40 feet as-in-use and Poplar Avenue is mapped at a width of 40 feet on the City Map and was deeded to the City of New York at that width; and

WHEREAS, DOT additionally states that the improvement of Rossville and Poplar Avenues at the subject location, which would involve the taking of a portion of the site, is not presently included in DOT's Capital Improvement Program, though this does not preclude a change in the program in the future; and

WHEREAS, by letter dated May 14, 2018, the New York City Department of Environmental Protection ("DEP")

1 Words in italics are defined terms per ZR § 12-10.

MINUTES

states that there is an existing 15 inch diameter sanitary sewer and a 12 inch diameter and 20 inch diameter City water main in the bed of Rossville Avenue between Veterans Road East and Poplar Avenue; there is an existing 10 inch diameter sanitary sewer and an 8 inch diameter water main the bed of Poplar Avenue between Rossville Avenue and Veterans Road East; that the Drainage Plan No: TD-5, Sheet 5 of 5 dated December 13, 1973, for the subject location calls for a 15 inch diameter sanitary sewer and 60 inch diameter storm sewer in the bed of Rossville Avenue between Veterans Road East and Poplar Avenue, and for the 10 inch diameter sanitary sewer and 18 inch diameter storm sewer in the bed of Poplar Avenue between Rossville Avenue and Veterans Road East; that the applicant has submitted a Topographical Survey, dated May 7, 2018, prepared by a licensed surveyor, showing the total width of 80 feet of Rossville Avenue, from which 41.1 of irregular record width will be available for the installation, maintenance and/or reconstruction of the future and existing sewers and water mains, the total width of 60 feet of Poplar Avenue, from which 40 feet of record width will be available for the installation, maintenance and/or reconstruction of the future and existing sewers and water mains; and based on the foregoing, that the agency has no objections to the subject application; and

WHEREAS, in accordance with GCL § 35 and ZR § 72-01(g), the Board finds that the applicant has submitted adequate evidence to warrant the approval of this application subject to certain conditions.

Therefore, it is Resolved, that the Board modifies the decision of the Queens Borough Commissioner, dated April 10, 2015, acting on Department of Buildings Application No. 520233998, by the power vested in it by Section 35 of the General City Law to grant this appeal, limited to the decision noted, and also waives ZR § 107-461 on account of the subject site's location within unbuilt, but mapped, portions of Rossville Avenue and Poplar Avenue, pursuant to ZR § 72-01(g), on condition that construction shall substantially conform to the drawings filed with the application marked "Received August 21, 2018"-Seven (7) sheets and "October 15, 2018"-One (1) sheet; and on further condition:

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk shall be signed off by DOB and all other relevant agencies by August 21, 2022;

THAT DOB shall review the plans approved herewith for compliance with all relevant provisions of the Zoning Resolution as if the unbuilt portions of Rossville Avenue and Poplar Avenue were not mapped;

THAT a revised Certificate of Occupancy shall be obtained within four (4) years, by August 21, 2022;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the

Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 21, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated December 5, 2016, acting on Alteration Application No. 120870156, reads in pertinent part:

“Proposed commercial FAR exceeds maximum permitted and is contrary to ZR 33-122”; and

WHEREAS, this is an application under ZR § 72-21 to permit, in a C5-1 zoning district and the Special Madison Avenue Preservation District, the conversion of the subject building into a commercial building that does not comply with zoning regulations for commercial floor area, contrary to ZR § 33-122; and

WHEREAS, a public hearing was held on this application on December 5, 2017, after due notice by publication in *The City Record*, with continued hearings on March 6, 2018, April 17, 2018, June 26, 2018, and then to

decision on August 21, 2018; and

WHEREAS, Vice-Chair Chanda performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 8, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the north side of East 61st Street, between Madison Avenue and Park Avenue, in a C5-1 zoning district and the Special Madison Avenue Preservation District, in Manhattan; and

WHEREAS, the subject site has approximately 15 feet of frontage along East 61st Street, 100 feet of depth, 1,506 square feet of lot area and is occupied by an existing six-story, with cellar, mixed-use commercial and residential building; and

WHEREAS, the applicant originally proposed to convert and enlarge the subject building into a commercial building with 9,038 square feet of commercial floor area (6.0 FAR); and

WHEREAS, in response to questions from the Board at hearing, the applicant reduced the massing and commercial floor area of the proposed building by providing 30-foot rear setbacks at the fifth and sixth stories; and

WHEREAS, the applicant now proposes to convert the subject building into a commercial building with 8,138 square feet of commercial floor area (5.40 FAR); and

WHEREAS, the applicant states that, at the subject site, a maximum of 6,025 square feet of commercial floor area (4.0 FAR) is permitted under ZR § 33-122; and

WHEREAS, the applicant states that there are unique physical conditions, including narrowness and smallness of lot size, that create practical difficulties or unnecessary hardship in complying strictly with the Zoning Resolution; and

WHEREAS, in support of this contention, the applicant studied the surrounding area, finding that only four other lots located in districts with similar bulk regulations have widths less than 17 feet, which reflects approximately 2 percent of the total lots surveyed; and

WHEREAS, the applicant further notes that, for an as-of-right mixed-use commercial and residential building, two separate means of egress with two entrances would be required, resulting in a substandard retail storefront with a width of 7'-7"; and

WHEREAS, the Board finds that the above unique physical conditions create practical difficulties or unnecessary hardship in complying strictly with applicable zoning regulations that are not created by general circumstances in the neighborhood or district; and

WHEREAS, the applicant states that there is no reasonable possibility that developing the subject site in strict conformity with the Zoning Resolution would bring a reasonable return; and

WHEREAS, in support of this contention, the applicant supplied a financial feasibility study demonstrating that an as-of-right development—consisting of a six-story, with cellar, mixed-use commercial and residential building—would result in a substantial loss on investment

MINUTES

but that the proposed commercial building would yield a modest return; and

WHEREAS, the Board finds that, because of the above unique physical conditions, there is no reasonable possibility that development in strict conformity with applicable zoning regulations would bring a reasonable return; and

WHEREAS, the applicant states that the six-story commercial building proposed would comport with the built environment of the surrounding area; and

WHEREAS, the applicant notes that, with the exception of two buildings on the subject block, the subject building is shorter than every other building in the vicinity, which range from approximately 60 feet in height to 200 feet in height; and

WHEREAS, the applicant states that both sides of the subject block are primarily occupied by fully commercial buildings, including office, hotel and retail buildings; and

WHEREAS, the applicant states that the surrounding area also features a vibrant range of commercial uses, large apartment houses with ground-floor retail and notable community facilities; and

WHEREAS, the Board finds that the proposed variance will not alter the essential character of the neighborhood or district in which the subject site is located; will not substantially impair the appropriate use or development of adjacent property; and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that the above practical difficulties or unnecessary hardship do not constitute a self-created hardship; and

WHEREAS, the Board finds that the above practical difficulties or unnecessary hardship have not been created by the owner or by a predecessor in title; and

WHEREAS, the applicant states that the proposed variance is the minimum necessary to permit a productive use of the site, as reflected in the financial feasibility study; and

WHEREAS, the Board finds that the proposed variance is the minimum necessary to afford relief within the intent and purposes of the Zoning Resolution; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR, Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment (“EAS”) CEQR No. 17BSA054M, received July 20, 2017; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, by correspondence dated February 16, 2017, the New York City Landmarks Preservation Commission (“LPC”) states that the site has neither architectural significance nor archaeological significance but that it is adjacent to the Upper East Side Historic District; and

WHEREAS, by correspondence dated June 23, 2017, LPC states that it has no objection to the construction protection plan dated June 23, 2017; and

WHEREAS, by letter dated October 18, 2017, the New York City Department of Environmental Protection states that the proposed project would not result in any significant adverse air quality impact; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR § 72-21 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type I Negative Declaration determination prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 to *permit*, in a C5-1 zoning district and the Special Madison Avenue Preservation District, the conversion of the subject building into a commercial building that does not comply with zoning regulations for commercial floor area, contrary to ZR § 33-122; *on condition* that all work and site conditions shall conform to drawings filed with this application marked “Received August 2, 2018”-Thirteen (13) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: there shall be a maximum of 8,138 square feet of commercial floor area (5.40 FAR), as illustrated on the Board-approved drawings;

THAT the above condition shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by August 21, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other

MINUTES

relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 21, 2018.

2017-228-BZ

CEQR #18-BSA-006Q

APPLICANT – Fox Rothschild LLP, for Charles B. Wang Community Health Center, Inc., owner.

SUBJECT – Application July 17, 2017 – Variance (§72-21) to permit the development of a 9-story community facility building (*Charles B. Wang Community Health Center*) contrary to ZR §33-25 (Side Yard); ZR §33-43 (Height and Setback) and ZR §36-21 (Required Parking). C4-2 zoning district.

PREMISES AFFECTED – 131-66 40th Road, 131-68 40th Road, 40-46 College Point Boulevard, Block 5060, Lot(s) 37, 42, Borough of Queens.

COMMUNITY BOARD #7Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4

Negative.....0

Absent: Commissioner Scibetta.....1

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated December 4, 2017, acting on New Building Application No. 421519271, reads in pertinent part:

“ZR 33-43: Proposed Building does not comply with height and setback requirement per ZR 33-43. Secure BSA’s approval.

ZR 36-21: Proposed Building does not provide sufficient parking spaces. Secure BSA’s approval”; and

WHEREAS, this is an application under ZR § 72-21 to permit, in a C4-2 zoning district, the development of a 6-story, with cellar, community-facility building that does not comply with zoning regulations for height and setback and parking, contrary to ZR §§ 33-43 and 36-21; and

WHEREAS, this application is brought on behalf of Charles B. Wang Community Health Center, Inc. (the “Educational Facility”); and

WHEREAS, a public hearing was held on this application on March 6, 2018, after due notice by publication in *The City Record*, with continued hearings on April 17, 2018, and June 26, 2018, and then to decision on August 21, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 7, Queens, recommends disapproval of this application, citing concerns with parking and traffic; and

WHEREAS, New York State Assembly Member Ron Kim submitted testimony in support of this application, stating that the proposed development would enhance the character of the neighborhood by fitting in with the built-up, medium-density mix of uses in the vicinity and that public transportation and off-site parking would accommodate patients; and

WHEREAS, the subject site is located on the south side of 40th Road, west of College Point Boulevard, in a C4-2 zoning district, in a flood zone, in Queens; and

WHEREAS, the subject site has approximately 168 feet of frontage along 40th Road, 27 feet of frontage along College Point Boulevard, 12,410 square feet of lot area and is occupied by two one-story buildings to be demolished; and

WHEREAS, the applicant originally proposed to develop a nine-story, with cellar, community-facility building that would not comply with zoning regulations for height and setback, side yards and parking; and

WHEREAS, in response to community concerns and questions from the Board at hearing, the applicant revised the proposed building to comply with requirements for side yards, to modify the design of the proposed building to better comport with the neighborhood’s built conditions and to increase the parking proposed from 34 parking spaces to 45 parking spaces; and

WHEREAS, the applicant now proposes to develop a six-story, with cellar, community-facility building with a front wall height of 85’-5” and an initial setback distance of 20’-0” along 40th Road, a front wall height of 30’-5” and initial setback distance of 15’-0” along College Point Boulevard and 45 parking spaces (36 self-park spaces, two of which are accessible, and 9 attended parking spaces); and

WHEREAS, the applicant states that, at the subject site, the maximum permitted front wall height before setback is the lesser of four stories or 60’-0” under ZR § 33-43 and that 199 parking spaces are required under ZR § 36-21; and

WHEREAS, the applicant states that there are unique physical conditions that create practical difficulties or unnecessary in complying with applicable zoning regulations, including the shallow depth of the subject site; and

WHEREAS, specifically, the applicant states that the shallow depth of the subject site affects the resulting building shape by yielding an inefficient floorplate that precludes the development of parking spaces on levels beyond the first and second floor, as vertical transportation to such additional parking levels would be infeasible, and that fails to accommodate the minimum of 10,000 square feet of contiguous single-story floorplates required to fulfill the programmatic needs of the Educational Facility; and

WHEREAS, the applicant states that, as part of the integrated curricular requirements of the CUNY School of Medicine Sophie Davis School of Biomedical Education, the Educational Facility enables medical students to perform required clinical work, comprised of clinical rotations, for credit toward a medical degree; and

MINUTES

WHEREAS, the applicant states that the requested waivers will facilitate floorplates large enough to accommodate the Educational Facility's particular programs planned to be housed in the proposed building, including two consecutive longitudinal clinically-oriented academic courses designed to meet the needs of fourth-year medical students with interactive lectures, small group learning formats, videotape-based sessions, role-playing tutorials, standardized patient tutorials and medical interviewing practice seminars in a full range of health service areas, including dental, mental health, internal medicine, family practice, women's health and pediatrics; and

WHEREAS, in further support of this contention, the applicant submitted a study of the Educational Facility's programmatic needs, determining that the Educational Facility's program requires sufficient floorplates to accommodate exam rooms and administrative space without unnecessary duplication, compliance with Patient-Centered Medical Home guidelines and increased administrative and exam room space for student training and observation, resulting in a minimum of 10,000 square feet of contiguous single-story footprint for each clinical floor and the administrative floor, allowing for approximately 16 exam and treatment rooms and waiting and support space per floor for a total of 48 exam rooms and 17 dental treatment stations, which cannot be accomplished absent relief from the Zoning Resolution's height and setback requirements; and

WHEREAS, the applicant further states that as-of-right development would be cost-prohibitive, would provide an insufficient number of floors with 10,000 square foot floorplates, would be unable to support an appropriate mix of exam rooms and support space and would be unable to accommodate the Educational Facility's six core services (dental, mental health, internal medicine, family practice, women's health and pediatrics) with only 42 exam rooms and 8 dental treatment stations; and

WHEREAS, the applicant states that development in conjunction with the issuance of a special permit under ZR § 73-44 would likewise fail to meet the Educational Facility's programmatic needs because it would be financially infeasible and includes identical, insufficient floorplates for clinical, dental and administrative floor layouts as the above as-of-right development; and

WHEREAS, in response to questions from the Board regarding the nursing and teamwork stations proposed, the applicant states that the 202 workstations include separate spaces for specific functions, including reception, health education, care management, consultation, medical student workstations, team workstations, nursing stations, staff offices and other administrative functions and that the 202 workstations are made possible by elimination of the side yard to comport with zoning requirements, which results in an increased in floorplate that allows administrative functions in close proximity to clinical programming; and

WHEREAS, the Board acknowledges that the Educational Facility, as an educational institution, is entitled

to deference under the law of the State of New York as to zoning and its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, specifically, as held in *Cornell University v. Bagnardi*, 68 N.Y.2d 583 (1986), a zoning board must grant an educational or religious institution's application unless it can be shown to have an adverse effect on the health, safety or welfare of the community and general concerns about traffic and disruption of the residential character of the neighborhood are insufficient grounds for the denial of such applications; and

WHEREAS, the Board finds that the Educational Facility's programmatic needs in conjunction with the above unique physical conditions create practical difficulties or unnecessary hardship in complying strictly with applicable zoning regulations that are not created by general circumstances in the neighborhood or district; and

WHEREAS, the applicant states that, because the Educational Facility is a non-profit organization and the proposed building is needed to further its programmatic mission, demonstrating that the proposed variance is necessary to realize a reasonable return from the subject site is unnecessary; and

WHEREAS, the applicant states that the proposed building has been designed to fit harmoniously with the character of the existing surrounding uses and built condition of the surrounding area and will not impair neighboring development nor be detrimental to the public welfare; and

WHEREAS, the applicant states that the use of the proposed building is consistent with the mixed-use and residential area, which includes multi-family residences, commercial, industrial and transportation uses; and

WHEREAS, the applicant states that the proposed building fits with the built character of the surrounding area, which includes three- to seven-story multi-family residences, 17-story residential towers immediately north and 10-story residences immediately to the east, indicating that the proposed building is comparable in size and scale to surrounding buildings; and

WHEREAS, the applicant states that the proposed 45-space parking facility will provide sufficient on-site parking to meet the parking demand of the Educational Facility and that the remainder of patients will access the proposed building by foot and public transportation; and

WHEREAS, the applicant states that the cellar will contain 18 self-park parking spaces and 9 attended parking spaces, to be utilized to the extent demand is greater than the self-park spaces available at the subject site, and that the first floor will contain 18 self-park parking spaces; and

WHEREAS, the applicant submits that the proposed building will not result in any significant adverse traffic or parking impacts, notwithstanding the proposed parking reduction, because the projected hourly parking demand for the proposed building peaks at 45 parking spaces from 11:00 a.m. to 12:00 p.m. on a weekday and 33 parking spaces from 2:00 p.m. to 3:00 p.m. on Saturday; and

MINUTES

WHEREAS, the applicant states that the majority of the proposed off-street parking spaces within the proposed building would be used to accommodate employees of the Educational Facility with most spaces occupied during peak times, that the curbside parking regulations in the area generally include limited one-hour metered parking, no-standing or no-parking zones and alternate-side parking to accommodate street cleaning; and

WHEREAS, the applicant states that, within the subject area, detailed surveys of on-street parking regulations and utilization levels reveal that there are between 402 and 712 legal on-street parking spaces in the vicinity, depending upon the time of day and days of the week, that existing utilization levels are approximately 79 percent (80 spaces available), 95 percent (32 spaces available), 95 percent (30 spaces available) during the weekday morning, midday and afternoon peak periods respectively; however, the applicant states that there is sufficient off-street parking available in the surrounding area with 1,000 unused parking spaces available during peak hours in a nearby garage and 40 to 50 parking spaces approximately 0.2 miles from the subject site that are available to the Educational Facility's visitors; and

WHEREAS, by letter dated May 23, 2018, Rkks Parking Inc. states that its parking facility located at 132-03 Sanford Avenue, approximately 0.2 miles from the subject site, typically has between 40 and 50 unused parking spaces available and that visitors to the Educational Facility would be permitted to park at said parking facility should there be unmet parking demand generated by the Educational Facility; and

WHEREAS, in response to community concerns and questions from the Board at hearing regarding parking at the subject site, the applicant increased the number of parking spaces proposed from 34 to 45 parking spaces to accommodate peak parking demand, revised the cellar plan to include a parking attendant room and 9 attended parking spaces and revised the first-floor plan to provide 18 self-park spaces with an additional 2 spaces achieved by eliminating portions of paved hardscapes; and

WHEREAS, the applicant states that a parking attendant will be present from 10:00 a.m. to 12:00 p.m. and 1:00 p.m. to 4:00 p.m. to accommodate demand greater than the 36 self-park spaces, that it is anticipated that the first-floor parking level will be filled first in the morning with the second-floor parking level made available and operated as an attended parking facility in the event that all 36 self-park spaces are filled when additional vehicles arrive; and

WHEREAS, in response to questions from the Board, the applicant revised the proposed building to extend the elevator to the cellar level and redesigned the pedestrian ramp into the building to increase ease of access by providing a minimal exterior slope to the entrance to the proposed building in conjunction with an interior ramp to eliminate turns in the ramp and accommodate the increase in elevation within the proposed building; and

WHEREAS, the applicant submits that, because the

subject site is located in a flood zone, the proposed building complies with all applicable flood regulations, including Article VI, Chapter 4, of the Zoning Resolution and Appendix G of the New York City Building Code; and

WHEREAS, the Board finds that the proposed variance will not alter the essential character of the neighborhood or district in which the subject site is located, will not substantially impair the appropriate use or development of adjacent property and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that the above practical difficulties or unnecessary hardship do not constitute a self-created hardship; and

WHEREAS, the Board finds that the above practical difficulties or unnecessary hardship have not been created by the owner or by a predecessor in title; and

WHEREAS, the applicant states that the proposed variance is the minimum necessary to permit a productive use of the site, as reflected in the above study of the Educational Facility's programmatic needs; and

WHEREAS, the Board finds that the proposed variance is the minimum necessary to afford relief within the intent and purposes of the Zoning Resolution; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 18BSA006Q, dated August 21, 2018 (the "EAS"); and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction Impacts; and

WHEREAS, by letter dated January 8, 2018, the Department of Environmental Protection ("DEP") recommends that an (E) designation for hazardous materials should be placed on the zoning map pursuant to Section 11-15 of the New York City Zoning Resolution for the subject property and states that the (E) designation shall ensure that testing and mitigation will be provided as necessary before any further development or soil disturbance; and

WHEREAS, an (E) designation (E-496) has been placed on the site for hazardous materials, and an environmental review by the New York City Office of Environmental Remediation ("OER") must be satisfied prior to the issuance of building permits to facilitate the construction of the proposed building; and

WHEREAS, by letter dated February 7, 2018, DEP states that the proposed project would not result in any significant adverse air quality or noise impacts; and

MINUTES

WHEREAS, by correspondence dated July 6, 2017, the New York City Landmarks Preservation Commission states the subject site has no archaeological significance; and

WHEREAS, by letter dated August 20, 2018, the New York City Department of Transportation (“DOT”) states that a detailed traffic analysis is not warranted as the 50-vehicle trip threshold for the weekday and Saturday peak hours will not be exceeded; that the applicant shall conduct a Post Occupancy Monitoring Study one (1) year after opening, which study will including a travel demand and modal split survey of the new facility to document the new facility’s actual trip-making characteristics; that the survey results and calculated trip-making factors shall be compared to those presented in the EAS and reviewed by DOT to validate the conclusions; that, if the actual trip-making exceeds that projected, the applicant shall perform additional LOS studies at DOT approved locations/pedestrian elements to identify potential traffic and pedestrian issues surrounding the new facility; that the applicant shall identify traffic and pedestrian improvements for DOT’s review and approval and shall submit all supporting documents; and that the applicant shall coordinate with DOT and be responsible for all costs associated with the transportation analysis and subsequent improvement measures that may be identified; and

WHEREAS, by correspondence dated January 24, 2018, the New York City Department of City Planning’s Waterfront and Open Space Division states that it finds that the actions will not substantially hinder the achievement of any Waterfront Revitalization Program (“WRP”) policy and hereby concurs that this action is consistent with WRP policies; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR § 72-21 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR § 72-21 to *permit*, in a C4-2 zoning district, the development of a 6-story, with cellar, community-facility building that does not comply with zoning regulations for height and setback and parking, contrary to ZR §§ 33-43 and 36-21; *on condition* that all work, operations and site conditions shall conform to drawings filed with this application marked “Received August 1, 2018”-Seventeen (17) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: a maximum front wall height of 85’-5” and minimum initial setback distance of 20’-0” along 40th Road, a maximum front wall height of 30’-5” and minimum initial setback distance of 15’-0” along College Point Boulevard, and 45 parking spaces (36 self-park spaces, two of which are accessible, and 9 attended parking spaces), as illustrated on the Board-approved drawings;

THAT an (E) designation (E-496) is placed on the site to ensure proper hazardous materials remediation;

THAT attended parking shall be provided at the cellar level Monday to Friday, from 10:00 a.m. to 4:00 p.m.;

THAT the applicant shall conduct a Post Occupancy Monitoring Study one (1) year after opening, which study shall including a travel demand and modal split survey of the new facility to document the new facility’s actual trip-making characteristics; the survey results and calculated trip-making factors shall be compared to those presented in the EAS and reviewed by DOT to validate the conclusions; if the actual trip-making exceeds that projected, the applicant shall perform additional LOS studies at Department of Transportation approved locations/pedestrian elements to identify potential traffic and pedestrian issues surrounding the new facility; the applicant shall identify traffic and pedestrian improvements for DOT’s review and approval and shall submit all supporting documents; and the applicant shall coordinate with DOT and be responsible for all costs associated with the transportation analysis and subsequent improvement measures that may be identified;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by August 21, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 21, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated April 25, 2017, acting on Alteration Application No. 123042340, reads in pertinent part:

“The proposed Physical Culture Establishment/Yoga Studio . . . is not permitted use as of right. A special permit is required from the Board of Standards and Appeals as per Section 32-31 . . . and 73-36 of the Zoning Resolutions”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, on a site partially in a C4-6A zoning district and partially in an R8B zoning district, the legalization of a physical culture establishment on portions

MINUTES

of the first floor and the second floor of the subject building; and

WHEREAS, a public hearing was held on this application on August 21, 2018, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Community Board 7, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the southeast corner of Broadway and West 70th Street, partially in a C4-6A zoning district and partially in an R8B zoning district, in Manhattan; and

WHEREAS, the subject site has approximately 113 feet of frontage along Broadway, 146 feet of frontage along West 70th Street, 12,040 square feet of lot area and is occupied by a 12-story, with cellar, mixed-use commercial and residential building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special

permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE has an entrance on the first floor and occupies 3,564 square feet of floor area on the second floor, including a reception area, two yoga studios, restrooms and showers; and

WHEREAS, the PCE has been in operation as CorePower Yoga since May 23, 2017, with the following hours of operation: Monday to Friday, 5:30 a.m. to 9:30 p.m., and Saturday and Sunday, 7:30 a.m. to 8:00 p.m.; and

WHEREAS, the applicant represents that the PCE use is consistent with the vibrant mixed-use area in which it is located, that the PCE use is fully contained within the envelope of an existing building and that the PCE use occupies less than one third of the floor area of the second floor; and

WHEREAS, in addition, the applicant states that sound attenuation measures have been provided within the space so as to not disturb other tenants in the building; and

WHEREAS, the Board finds that the PCE use is so located as not to impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE provides facilities for classes, instructions and programs for physical improvement; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-

MINUTES

36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant submitted evidence that the PCE is fully sprinklered; and

WHEREAS, in response to the Board's comments at hearing, the applicant represents that the entirety of the PCE use is located within a C4-6A zoning district; and

WHEREAS, on November 15, 2016, the New York City Landmarks Preservation Commission issued a Certificate of No Effect; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17-BSA-140M, dated August 31, 2017; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-36 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated without a special permit.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to *permit*, on a site partially in a C4-6A zoning district and partially in an R8B zoning district, the legalization of a physical culture establishment on portions of the first floor and the second floor of the subject building; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked "Received May 3, 2017"-Seven(7) sheets; and *on further condition*:

THAT this grant shall be limited to a term of ten (10) years, expiring May 23, 2027;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum 3'-0" wide exit pathways shall be maintained leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT the PCE shall remain fully sprinklered, as

indicated on the Board-approved plans;

THAT sound attenuation shall be maintained in the PCE;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by August 21, 2019;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 21, 2018.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta4

Negative.....0

Absent: Commissioner Scibetta.....1

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated November 17, 2017, acting on New Building Application No. 321191517, reads in pertinent part:

"ZR 42-00; ZR 42-12" "The proposed Use Group 3A School is not permitted . . . and Requires a Special Permit from the Board of Standards and Appeals"; and

WHEREAS, this is an application under ZR §§ 73-19 and 73-03 to permit, in an M1-2D zoning district, the operation of a school, contrary to ZR § 42-00; and

WHEREAS, this application is brought on behalf of the Brooklyn Prospect Charter School (the "School"), a public educational institution; and

MINUTES

WHEREAS, a public hearing was held on this application on May 15, 2018, after due notice by publication in *The City Record*, with a continued hearing on July 17, 2018, and then to decision on August 21, 2018; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 7, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the south side of 17th Street, between 3rd Avenue and 4th Avenue, in an M1-2D zoning district, in Brooklyn; and

WHEREAS, the subject site has approximately 60 feet of frontage along 17th Street, 120 feet of depth, 6,932 square feet of lot area and is occupied by two existing buildings to be demolished; and

WHEREAS, ZR § 73-19 provides:

In C8 or M1 Districts, the Board of Standards and Appeals may permit *schools* which have no *residential* accommodations except *accessory* accommodations for a caretaker, provided that the following findings are made:

- (a) that within the neighborhood to be served by the proposed *school* there is no practical possibility of obtaining a site of adequate size located in a district wherein it is permitted as of right, because appropriate sites in such districts are occupied by substantial improvements;
- (b) that such *school* is located not more than 400 feet from the boundary of a district wherein such *school* is permitted as-of-right;
- (c) that an adequate separation from noise, traffic and other adverse effects of the surrounding *non-Residential Districts* is achieved through the use of sound-attenuating exterior wall and window construction or by the provision of adequate open areas along *lot lines* of the *zoning lot*; and
- (d) that the movement of traffic through the *street* on which the *school* is located can be controlled so as to protect children going to and from the *school*. The Board shall refer the application to the Department of Traffic for its report with respect to vehicular hazards to the safety of children within the block and in the immediate vicinity of the proposed site.

The Board may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse

effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, as to whether the School qualifies as a school for purposes of ZR § 73-19, the applicant states that the School meets the ZR § 12-10 definition of “school” because it provides full-time day instruction and a course of study that meets the requirements of Sections 3204, 3205 and 3210 of the New York State Education Law; and

WHEREAS, further, the applicant submitted the School’s Charter certification documentation issued by the Board of Regents of the University of the State of New York and notes that the School’s academic school year mirrors the public school year with a minimum of 190 days of full-time instruction from 8:45 a.m. to 3:45 p.m. by New York State-certified teachers with a curriculum that offers special education, gifted classes and multiple foreign languages; and

WHEREAS, with respect to ZR § 73-19(a), an applicant must demonstrate its inability to obtain a site for the development of a school within the neighborhood to be served, and with a size sufficient to meet the programmatic needs of the school, within a district where the school is permitted as of right; and

WHEREAS, the applicant submitted an analysis of the School’s programmatic needs, determining that approximately 30,000 square feet are required for the School’s projected enrollment of 300 students; and

WHEREAS, in particular, the applicant states that the proposed eight-story building would allow for 16 total classrooms (11 standard classrooms, 3 science classrooms, an art room and a music rooms), that there would be a library, gymnasium, cafeteria, reading room and outdoor space with a full range of student support services, including counseling, guidance staff and a nurse’s office; and

WHEREAS, the applicant also submitted an hourly occupancy survey for the School’s classrooms for a typical school week with the school day starting at 8:45 a.m. and concluding at 3:45 p.m.; and

WHEREAS, thus, the applicant has demonstrated that its stated requirements related to size and configuration are justified by the School’s programmatic needs; and

WHEREAS, the applicant represents that the School has conducted an exhaustive search for potential expansion sites and that the School considered 22 sites, including extensive business negotiations, but that none of the sites were viable; and

WHEREAS, thus, the applicant maintains that the site search establishes that there is no practical possibility of

MINUTES

obtaining a site of adequate size in a nearby zoning district where a school would be permitted as of right; and

WHEREAS, accordingly, the Board finds that the requirements of ZR § 73-19(a) are met; and

WHEREAS, ZR § 73-19(b) requires an applicant to demonstrate that the proposed school is located no more than 400 feet from the boundary of a district in which such a school is permitted as of right; and

WHEREAS, the applicant states that the School is approximately 261 feet from an R8A zoning district boundary line, and notes that school uses are permitted as of right in R8A zoning districts; and

WHEREAS, the applicant submitted a radius diagram which reflects that the subject site is adjacent to an R8A zoning district; and

WHEREAS, accordingly, the Board finds that the requirements of ZR § 73-19(b) are met; and

WHEREAS, ZR § 73-19(c) requires an applicant to demonstrate how it will achieve adequate separation from noise, traffic and other adverse effects of the surrounding non-residential district; and

WHEREAS, the applicant states that the proposed building will incorporate sound-attenuation measures to ensure that interior noise levels will not exceed 45 dBA, including sound-absorbing mineral wool insulation in the exterior walls, batting between the studs of the interior wall with inoperable, double-paned windows tested for conforming acoustic values; and

WHEREAS, with respect to air quality, the applicant states that the proposed building's closed window condition would mitigate any possible air quality impact; and

WHEREAS, with respect to traffic, the applicant states that the proposed building is set back approximately 15 feet from the public sidewalk, thereby further separating students from the public street as they enter and exit the School and allowing for a safer queueing area at the front entrance, and the applicant notes that both adjacent intersections are signalized and deemed safe; and

WHEREAS, accordingly, the Board finds that the conditions surrounding the site and the Proposed Building's use will adequately separate the proposed school use from noise, traffic and other adverse effects of any of the uses within the surrounding M1-2D zoning district; thus, the Board finds that the requirements of ZR § 73-19(c) are met; and

WHEREAS, ZR § 73-19(d) requires an applicant to demonstrate how the movement of traffic through the street on which the school will be located can be controlled so as to protect children traveling to and from the school; and

WHEREAS, the applicant states that no significant impacts on traffic or pedestrian systems were found that would require mitigation but that the School proposed a 21 foot long student drop-off and pick-up zone on the south side of 17th Street immediately in front of the subject site with signage indicating "No Standing School Days 7 AM – 5 PM", that all vehicular drop-offs and pick-ups would be met by the School's staff to minimize curbside standing

time, that crossing guards would be placed at the intersection of 17th Street and 4th Avenue because of the concentration of public transportation to the east of the subject site and that personnel will be in place each time an ambulance enters or exits the subject site at 10:00 a.m. and 7:00 p.m. with a planter buffer placed between the School and ambulance bay; and

WHEREAS, the Board referred the application to the School Safety Engineering Office of the New York City Department of Transportation ("DOT"); and

WHEREAS, by letter dated March 15, 2017, DOT states that it has no objection to the proposed construction so long as, upon construction of the School, the School notifies DOT so that DOT can determine if traffic safety improvements or parking regulation changes are necessary; and

WHEREAS, the Board finds that the abovementioned measures will control traffic so as to protect children going to and from the proposed school; and

WHEREAS, therefore, the Board finds that the requirements of ZR § 73-19(d) are met; and

WHEREAS, in response to questions from the Board at hearing, the applicant removed the rear portion of the floor between the cellar and first floor to create a double-height cellar space in order to qualify as a rear yard permitted obstruction, removed the bathroom on the first floor to create additional lobby space and relocated the ambulance-corps outdoor deck to the second floor to eliminate any potential for interaction between the ambulance-corps staff and the School's students; and

WHEREAS, the applicant submitted further information about the operations of the ambulance corps proposed to be located within the proposed building, which has been designed to ensure total physical separation from the School; and

WHEREAS, the applicant also revised the drawings to reflect compliance with applicable construction codes and modified the design of the outdoor play area to reflect a barrier fence for noise mitigation; and

WHEREAS, the Board notes that the applicant shall apply to the Department of Buildings and Fire Department to consider the elimination of one of the fire egress routes that would allow the combination of, in the event of an emergency, the egress through one of those routes by the ambulance corps; and, should the Department of Buildings approve said elimination, it would be appropriate for the Board's staff to review associated changes to the Board-approved drawings as minor amendments pursuant to a request for a letter for substantial compliance filed in accordance with Section 1-12.11 of the Board's Rules of Practice and Procedure; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

MINUTES

WHEREAS, the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 18BSA064K, submitted August 21, 2018; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, by correspondence dated March 14, 2018 the Department of Environmental Protection (“DEP”) states that a Phase II Environmental Site Assessment is necessary to adequately identify/characterize the surface and subsurface soils of the property; and

WHEREAS, by correspondence dated June 13, 2018 the applicant requests that an (E) designation for hazardous materials be assigned for the premises to allow for the Phase II work to be done post-BSA approval due to scheduling, financial, and physical reasons; and

WHEREAS, by correspondence dated June 14, 2018, the Department of Environmental Protection states that it has no objection to the (E) designation for this project; and

WHEREAS, an (E) designation (E-495) has been placed on the site for hazardous materials, and an environmental review by the New York City Office of Environmental Remediation (“OER”) must be satisfied prior to the issuance of building permits to facilitate the construction of the proposed building; and

WHEREAS, by correspondence dated June 1, 2018, DEP states that the proposed project would not result in any significant adverse air quality; and

WHEREAS, by correspondence dated August 2, 2017, the New York City Landmarks Preservation Commission states the subject site has no archaeological significance; and

WHEREAS, by letter dated August 16, 2018, DOT states that the proposed action would not create any significant adverse traffic or pedestrian impacts; and

WHEREAS, by letter dated August 17, 2018, the New York City Department of Environmental Protection (“DEP”) states that the potential noise impacts from the outdoor area on the second floor of the proposed building were assessed during the hours of 8:00 a.m. to 4:00 p.m., assuming the outdoor area would be used as a playground for students, and concludes that the proposed outdoor area would not result in significant noise impact on nearby residential receptors; and

WHEREAS, no other significant effects upon the

environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-19 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR §§ 73-19 and 73-03 to *permit*, in an M1-2D zoning district, the operation of a school, contrary to ZR § 42-00; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked “Received August 21, 2018”-Twenty-three (23) sheets; and *on further condition*:

THAT an (E) designation (E-495) is placed on the site to ensure proper hazardous materials remediation;

THAT there shall be no lighting or amplified sounder permitted on the roof or on the third-floor terrace;

THAT the applicant shall apply to the Department of Buildings and Fire Department to consider the elimination of one of the fire egress routes that would allow the combination of, in the event of an emergency, the egress through one of those routes by the ambulance corps;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by August 21, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved drawings shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of drawings or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 21, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated February 27, 2018, acting on New Building Application No. 121192618, reads in pertinent part:

“Proposed Physical Culture Establishment (massage) at floors 5th floor . . . is not permitted as of right as per ZR 32-10”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, in an C6-4 zoning district and the Special Hudson Yards District, the operation of a physical culture establishment on portions of the first floor and fifth floor of the subject building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on August 21, 2018, after due notice by publication in *The City Record*, and then to decision on August 21, 2018; and

WHEREAS, Community Board 4, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the southeast corner of West 33rd Street and 11th Avenue, in an C6-4 zoning district and the Special Hudson Yards District, in Manhattan; and

WHEREAS, the subject site has approximately 175 feet of frontage along West 33rd Street, 189 feet of frontage along 11th Avenue, is part of a larger zoning lot with 570,000 square feet of lot area and is occupied by a 72-story mixed-use building under construction; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500

square feet; or

- (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
- (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE will have an entrance on the first floor and will occupy 4,554 square feet of floor area

MINUTES

on the fifth floor, including reception and retail, a waiting area, a salon, saunas, a meditation-pod room, treatment rooms, post-treatment pods, a relaxation room, showers, locker rooms, restrooms and a cryotherapy room; and

WHEREAS, the PCE will be a spa operated by Equinox Hotel, with the following hours of operation: 9:00 a.m. to 9:00 p.m., daily; and

WHEREAS, the applicant represents that the PCE use is consistent with the vibrant mixed-use area in which it is located, that the PCE use will be fully contained within the envelope of a new building and that the PCE use will not generate noise because of its focus on creating a relaxing environment; and

WHEREAS, the Board finds that the PCE use is so located as not to impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE will provide facilities for the practice of massage by New York State licensed masseurs and masseuses; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE will be fully sprinklered and that an approved fire alarm—including area smoke detectors, manual pull stations at each required exist, local audible and visual alarms and connection to an FDNY-approved central station—will be installed in the entire PCE space; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18-BSA-109M, dated March 13, 2018; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-36 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 *to permit*, in an C6-4 zoning district and the Special Hudson Yards

District, the operation of a physical culture establishment on portions of the first floor and fifth floor of the subject building, contrary to ZR § 32-10; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked “Received May 8, 2018”-Six (6) sheets; and *on further condition*:

THAT this grant shall be limited to a term of ten (10) years, expiring August 21, 2028;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages shall be performed only by New York State licensed massage therapists;

THAT minimum 3’-0” wide exit pathways shall be provided leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be installed in the entire PCE space and the PCE shall be fully sprinklered, as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by August 21, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 21, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated March 15, 2018, acting on Alteration Application No. 122760119, reads in pertinent part:

“Proposed ‘Physical Culture Establishment’ is not permitted As-Of-Right as per section ZR 32-10”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, in a C6-4.5 zoning district and the Special Midtown District, the operation of a physical culture establishment on portions of the first floor and cellar of the subject building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on August 21, 2018, after due notice by publication in *The City Record*, and then to decision on August 21, 2018; and

WHEREAS, Community Board 5, Manhattan, waives its recommendation for this application; and

WHEREAS, the subject site is located on the north side of West 45th Street, between Sixth Avenue and Fifth Avenue, in a C6-4.5 zoning district and the Special Midtown District, in Manhattan; and

WHEREAS, the subject site has approximately 81 feet of frontage along West 45th Street, 100 feet of depth, 8,158 square feet of lot area and is occupied by a 16-story, with cellar, commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by

New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

1. the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
2. the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and WHEREAS, the subject PCE will have an entrance on the first floor and will occupy 3,385 square feet of floor space in the cellar, including reception, a fitness studio, restrooms and showers; and

WHEREAS, the PCE will operate as Orange Theory Fitness, with the following hours of operation: Monday to Friday, 6:00 a.m. to 10:00 p.m., and Saturday and Sunday, 8:00 a.m. to 12:00 p.m.; and

MINUTES

WHEREAS, the applicant represents that the PCE use is consistent with the vibrant commercial area in which it is located, that the PCE use is fully contained within the envelope of an existing building and that the subject site has pedestrian access to rapid transit facilities within the vicinity; and

WHEREAS, in addition, the applicant submits that sound attenuation measures will be provided within the space so as to not disturb other tenants in the building; and

WHEREAS, the Board finds that the PCE use is so located as not to impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE will provide facilities for classes, instruction and programs for physical improvement and weight reduction; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE will be fully sprinklered and that an approved fire alarm—including area smoke detectors, manual pull stations at each required exist, local audible and visual alarms and connection to an FDNY-approved central station—will be installed in the entire PCE space; and

WHEREAS, by letter dated August 16, 2018, the Fire Department represents that it has no objection to this application; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Checklist Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18-BSA-120M, dated April 4, 2018; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-36 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to *permit*, in a C6-4.5 zoning district and the Special Midtown District, the operation of a physical culture establishment on portions

of the first floor and cellar of the subject building, contrary to ZR § 32-10; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked “Received April 6, 2018”- Six (6) sheets; and *on further condition*:

THAT this grant shall be limited to a term of ten (10) years, expiring August 21, 2028;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum 3’-0” wide exit pathways shall be provided leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be installed in the entire PCE space and the PCE shall be fully sprinklered, as indicated on the Board-approved plans;

THAT sound attenuation shall be installed in the PCE, as indicated on the Board-approved plans;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by August 21, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 21, 2018.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta4
Negative.....0

Absent: Commissioner Scibetta.....1

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated April 24, 2018, acting on Department of Buildings (“DOB”) Application No. 321732372 reads in pertinent part:

The proposed Use Group 3 school within an M1-6 zoning district is contrary to ZR 42-12 and therefore requires a special permit from the Board [sic] of Standards and Appeals pursuant [sic] to ZR 73-19; and

WHEREAS, this is an application for a special permit, pursuant to ZR § 73-19, to permit, on a zoning lot located in an M1-6 zoning district, the occupancy of a portion of the twelfth floor and the entirety of the second through fifth floors of an existing 12-story building with a Use Group 3 school contrary to applicable use regulations set forth in ZR § 42-12; and

WHEREAS, this application is filed on behalf of Brooklyn Laboratory Charter Schools (“BLCS” or the “Applicant”), a public charter school operator, to facilitate the development of a school facility for its middle school and high school students; and

WHEREAS, a public hearing was held on this application on August 14, 2018, after due notice by publication in *The City Record*, with a continued hearing on August 21, 2018, and then to decision on that date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 2, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is an entire tax block, bound by Sands Street to the south, Pearl Street to the west, Prospect Street to the north and Jay Street to the east, within an M1-6 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 172 feet of frontage along Sands Street, 100 feet of frontage along Pearl Street, 124 feet of frontage along Prospect Street, 113 feet of frontage along Jay Street, 14,800 square feet of lot area and is occupied by 12-story commercial building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since November 1, 1955, when, under BSA Cal. No. 735-55-BZ, the Board granted a variance of the manufacturing use, B area district regulations to permit the construction of required loading berths within 50 feet of a street intersection on condition that, in all other respects, the loading berths and building and occupancy shall comply with all laws, rules and regulations applicable thereto; and

WHEREAS, BLCS proposes to renovate the entirety of the second through fifth floors and a portion of the twelfth floor of the existing 12-story building to accommodate a Use

Group 3 school; and

WHEREAS, Use Group 3 schools are not permitted within the subject M1-6 zoning district as-of-right, pursuant to ZR § 42-10, et seq.; and

WHEREAS, accordingly, the Applicant seeks the subject relief; and

WHEREAS, ZR § 73-19 provides as follows:

In C8 or M1 Districts, the Board of Standards and Appeals may permit *schools* which have no *residential* accommodations except *accessory* accommodations for a caretaker, provided that the following findings are made:

- (a) that within the neighborhood to be served by the proposed *school* there is no practical possibility of obtaining a site of adequate size located in a district wherein it is permitted as of right, because appropriate sites in such districts are occupied by substantial improvements;
- (b) that such *school* is located not more than 400 feet from the boundary of a district wherein such *school* is permitted as-of-right;
- (c) that an adequate separation from noise, traffic and other adverse effects of the surrounding *non-Residential Districts* is achieved through the use of sound-attenuating exterior wall and window construction or by the provision of adequate open areas along *lot lines* of the *zoning lot*; and
- (d) that the movement of traffic through the *streets* on which the *school* is located can be controlled so as to protect children going to and from the *school*. The Board shall refer the application to the Department of Traffic for its report with respect to vehicular hazards to the safety of children within the block and in the immediate vicinity of the proposed site.

The Board may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, pursuant to ZR § 12-10, a “school” is, in pertinent part, “an institution providing full-time day instruction and a course of study that meets the requirements of Sections 3204, 3205 and 3210 of the New York State Education Law”; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is located in a zoning district in which a special permit pursuant to ZR § 73-19 is available and the Applicant represents that BLCS it is an institution providing full-time day instruction and a course of study that meets the requirements of the New York State Education Law in

MINUTES

accordance with the ZR § 12-10 definition of “school”; and

WHEREAS, specifically, the Applicant submitted the Initial Charter, executed with the Board of Regents of the State of New York, to establish the Brooklyn Laboratory Charter School, an independent public school established under the New York Charter Schools Act of 1998 (the “Act”), and authorizing the operation of a school in accordance with the Act, codified as Article 56 of the Education Law and Board of Regents of the State of New York approval of the merger and revisions to the charters of Brooklyn Laboratory Charter School and Brooklyn Laboratory Charter High School with Brooklyn Laboratory Charter School as the surviving education corporation under the amended name, “Brooklyn Laboratory Charter Schools,” effective July 1, 2017; and

WHEREAS, BLCS currently operates out of two locations, one occupied by 173 middle school students and a second occupied by 421 middle school and high school students; and

WHEREAS, BLCS proposes to relocate all of the students from its middle school only location and all of its high school students from its middle and high school location to the subject location, a total initial enrollment of 450 students in grades 6 through 12, which is anticipated to grow to 1,020 students within the next 5 years; and

WHEREAS, BLCS seeks to occupy a total of 60,402 gross square feet in the existing building with a Use Group 3 school (14,334 square feet on each of the second through fifth floors and 3,066 square feet on the twelfth floor); and

WHEREAS, the existing 12-story building is otherwise occupied by Use Group 6 office uses and a Use Group 6 eating or drinking establishment on the ground floor; and

WHEREAS, with regards to ZR § 73-19(a), BLCS states that it has searched for sites of adequate size within a zoning district that would have permitted a Use Group 3 school use as-of-right within the bounds of Community District 13, located close to public transportation within BLCS’ price range for over a year and asserts that there is no practical possibility of obtaining such a site; and

WHEREAS, as to ZR § 73-19(b), BLCS asserts that the subject site is located approximately 68 feet from an R6 zoning district in which a Use Group 3 school use is permitted as-of-right and, thus, the subject proposed Use Group 3 school is located not more than 400 feet from the boundary of a district wherein such school is permitted as-of-right; and

WHEREAS, in satisfaction of ZR § 73-19(c), the Applicant asserts that the proposed school is adequately separated from noise, traffic and other adverse effects of the surrounding manufacturing district; and

WHEREAS, the Applicant conducted a noise analysis and identified the dominant source of noise in the vicinity to be comprise of local vehicular traffic and the elevated subway lines on the Manhattan Bridge, immediately to the east of the site; and

WHEREAS, in order to ensure an interior noise level of 45 dBA acceptable for school use, the Applicant proposes to install additional attenuation at all facades of the subject building on the second, third, fourth, fifth and portions of the

twelfth floors BLCS proposes herein to occupy; specifically any building façade with frontage along Pearl Street must provide a minimum composite window/wall attenuation rating of 35 dBA, any building façade with frontage along Prospect Street must provide a minimum composite window/wall attenuation rating of 42 dBA, any building façade with frontage along Jay Street must provide a minimum composite window/wall attenuation rating of 50 dBA, and any building façade with frontage along Sands Street must provide a minimum composite window/wall attenuation rating of 33 dBA; and

WHEREAS, finally, with regards to ZR § 73-19(d), the Applicant states that, pursuant to a transportation analysis prepared by a consultant and based on standard CEQR criteria, transportation surveys of the surrounding commercial buildings and BLCS’s current students, among other things, the split of transportation modes utilized to access the site is anticipated to be as follows: 76 percent of students will arrive to the site by public transportation, 20 percent of students will arrive by foot and 4 percent will arrive by private vehicle; approximately 62 percent of teachers will arrive to the site by public transportation, approximately 28 percent will arrive by foot or bicycle and approximately 10 percent will arrive by private vehicle; and

WHEREAS, during arrival and dismissal, the Applicant states that school staff will be located in hallways of the Use Group 3 school space, street frontages of the building, nearby intersections and external Stair B—the stair case of the existing 12-story building exclusively dedicated to ingress and egress for the Use Group 3 school use to prevent the possibility of students commingling with stranger adults occupying other portions of the subject building—in order to ensure safe passage to the site; and

WHEREAS, with regards to the loading berth located at the site and the Applicant’s right to exclusively utilize external Stair B, the Applicant submitted an executed rider to its lease confirming BLCS’s exclusive use of Stair B as the primary means of ingress and egress between Sands Street and the second floor of the subject building and restricted use of the building’s loading dock by all occupants of the building between 7:45 a.m. and 8:30 a.m. and 3:45 p.m. and 4:30 p.m. Monday through Friday, other than on days in which school is not in session; and

WHEREAS, at hearing, the Board expressed concern regarding “restricted” use of the loading dock, rather than its full closure, during the proposed school’s hours of arrival and dismissal and, accordingly, conditions approval of this application on the presence of school staff and/or security personnel escorting students into and out of the building in order to protect them from potential loading dock activities and the Applicant’s pursuit of any available means to further restrict the use of the loading dock during arrival and departure times; and

WHEREAS, the rider additionally required that BLCS install, at its sole cost and expense, a vestibule or shed on Sands Street, with its sole entrance facing Jay Street, or an awning; and

MINUTES

WHEREAS, at hearing, the Board noted that the Applicant must acquire a revocable consent in order to install a vestibule or shed on a public street; and

WHEREAS, the Board referred the application to the New York City Department of Transportation (“DOT”) Division of Transportation Planning and Management and, by letter dated July 20, 2018, DOT requested that the Applicant investigate the feasibility of constructing a pull-out area for vehicles in the south curb of Prospect Street adjacent to the existing building to accommodate student pick-up and drop-off for students expected to arrive and depart by private vehicle and that, upon approval of the application and construction of the school, the Applicant notify DOT so that DOT can determine if traffic safety improvements or parking regulation changes are necessary; and

WHEREAS, the Applicant further asserts that additional pedestrian safety measures are proposed to be implemented in the immediate vicinity of the subject site in conjunction with DOT’s School Safety Division, including the installation of high visibility crosswalk safety measures at the intersections of Jay Street and Sands Street, Pearl Street and Sands Street and Pearl Street and Prospect Street, where high pedestrian activity is anticipated; the installation of “School Zone Ahead” signs at Sands Street between Jay Street and Pearl Street, Sands Street between Adams Street and Pearl Street and Prospect Street between Adams Street and Pearl Street; and the addition of school crossing guards at the north and east crosswalks at the intersection of Sands Street and Pearl Street, at the south crosswalk at the intersection of Prospect Street and Pearl Street and at the west crosswalk at the intersection of Sands Street and Jay Street; and

WHEREAS, in satisfaction of ZR § 73-03(a), the Applicant asserts that, under the conditions and safeguards imposed, the hazards or disadvantage to the community at large of this special permit at this particular site are outweighed by the advantages to be derived by the community by the grant of such special permit and, in accordance with ZR § 73-03(b), that the subject proposal will not interfere with any public improvement project in accordance with ZR § 73-03(b); and

WHEREAS, in light of the foregoing, the Board determines that the evidence in the records supports the findings required to be made under ZR §§ 73-19 and 73-03; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR, Part 617.4(b)(9); and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (“EAS”) CEQR No. 18BSA132K, received August 14, 2018 and

WHEREAS, the EAS documents that the project, as proposed, would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer

Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character or Construction; and

WHEREAS, the New York City Landmarks Preservation Commission reviewed the proposal and concludes that, while the subject site is of neither architectural nor archaeological significance, it is adjacent to the New York State and National Register listed Manhattan Bridge, but no adverse impacts are anticipated to the bridge as a result of this proposal, which does not involve new construction or in-ground excavation; and

WHEREAS, by letter dated July 31, 2018, the New York City Department of Environmental Protection (“DEP”) states that it finds the July 2018 Phase II investigation of the site for hazardous materials acceptable and, therefore, has no objection to the issuance of any remaining permits by DOB related to this project; and

WHEREAS, by letter dated August 13, 2018, DEP requested that the Air Quality section of the EAS be revised to indicate that the proposal will not include any operable windows, that fresh air would be provided from the existing air unit located on the roof and to include the screening analysis for elevated sources and the natural gas fired burner system of a nearby manufacturing use; DEP additionally requested that, with regard to noise, the school maintain an acceptable interior noise level of 45 dBA, that field noise measurements be provided as project backup material and that the Noise section of the EAS be revised to indicate that alternative means of ventilation are included in the proposed project; and

WHEREAS, the EAS includes attenuation requirements of 36 dBA of composite window/wall attenuation on any western-facing façade along Pearl Street, 43 dBA window/wall attenuation on any northern-facing façade along Prospect Street, 49 dBA window/wall attenuation on any eastern-facing façade along Jay Street, and 40 dBA window/wall attenuation on any southern-facing façade along Sands Street to maintain an interior noise level of 45 dBA or below; and

WHEREAS, with these revisions, DEP concludes that significant air quality and noise impacts from and on the proposed project are not anticipated; and

WHEREAS, the Applicant subsequently revised the EAS in accordance with DEP’s August 13, 2018, letter; and

WHEREAS, by letter dated August 13, 2018, DOT’s Division of Transportation Planning and Management state that, in light of DOT’s concerns, raised during the environmental review process, regarding the proximity of the building’s loading dock to the proposed school entrance, the Applicant has expressed a commitment to the following safety measures that would be incorporated into the Board’s resolution: (1) to ensure student safety, school staff would be stationed outside of the building during arrival and dismissal hours; (2) truck deliveries would be coordinated with building management to avoid truck loading/unloading during the school arrival and dismissal hours; (3) the Applicant will

MINUTES

notify the New York City Police Department to assign three school crossing school guards during the school arrival and dismissal hours stationed at the intersections of Sands Street and Pearl Street, Sands Street and Jay Street and Prospect Street and Pearl Street, and that on school days when crossing guards are not available, the Applicant will provide alternate means (i.e. school staff) to aid students crossing the streets during school arrival and dismissal hours; and (4) the Applicant will coordinate with School Safety and the Borough Engineer to install proposed "School Zone Ahead" signage on Prospect Street between Adams Street and Pearl Street, Sands Street between Jay Street and Pearl Street and on Sands Street between Adams Street and Pearl Street; and

WHEREAS, DOT states that base on its review of the EAS, DOT has concluded that the proposed project would not result in any adverse significant impact to analyzed pedestrian elements; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby issue a Type I Negative Declaration determination prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-19 and 73-03 to permit, in an M1-6 zoning district, the occupancy of a portion of the twelfth floor and the entirety of the second through fifth floors of an existing 12-story building with a Use Group 3 school contrary to applicable use regulations set forth in ZR § 42-12; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received August 14, 2018"-Twelve (12) sheets; and *on further condition*:

THAT school staff and/or security personnel shall escort students into and out of the building in order to protect them from potential loading dock activities;

THAT truck deliveries shall be coordinated with building management to avoid truck loading/unloading during the school arrival and dismissal hours; and

THAT to the extent that the school can further restrict the use of the loading dock during students' arrival and departure times, the school shall pursue such methods;

THAT the Applicant shall apply for a revocable consent to permit the construction of any structure required by the terms of its lease to protect and/or separate students from loading dock use;

THAT upon the completion of construction of the school, the Applicant shall notify DOT so that DOT can determine if traffic safety improvements or parking regulation changes are necessary;

THAT the Applicant shall notify the New York City Police Department to assign three school crossing school guards stationed at the intersections of Sands Street and Pearl Street, Sands Street and Jay Street and Prospect Street and Pearl Street during the school arrival and dismissal hours and, on school days when crossing guards are not available, the Applicant shall provide alternate means (i.e. school staff) to aid students crossing the streets during school arrival and dismissal hours;

THAT the Applicant shall coordinate with School Safety and the Borough Engineer to install proposed "School Zone Ahead" signage on Prospect Street between Adams Street and Pearl Street, Sands Street between Jay Street and Pearl Street and on Sands Street between Adams Street and Pearl Street;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a certificate of occupancy shall be obtained within four (4) years;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 21, 2018.

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board's Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92 to permit, on a site within an R4-1 zoning district, the development of a single-family

MINUTES

detached home in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards, side yards rear yards, open space and lot coverage, contrary to ZR §§ 23-45, 23-461(a), 23-47, 23-142, 64-A351, 64-A352, 64-A353 and 64-A311; and

WHEREAS, a public hearing was held on this application on August 21, 2018, and then to decision on the same date; and

WHEREAS, this application is brought on behalf of the property owner by the Build It Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in furtherance of the City's effort to rebuilt homes impacted by Superstorm Sandy expeditiously and effectively, the Board, pursuant to 2 RCNY § 1-14.2, waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1-05.1 (Objection Issued by the Department of Buildings); (2) 2 RCNY § 1-05.3 (Filing Period); (3) 2 RCNY § 1-05.4 (Application Referral); (4) 2 RCNY § 1-05.6 (Hearing Notice); (5) 2 RCNY § 1-05.7 (List of Affected Property Owners); (6) 2 RCNY § 1-09.4 (Owner's Authorization); and (7) 2 RCNY § 1-10.7 (Proof of Service for Application Referral and Hearing Notice); and

WHEREAS, the Board notes that the subject application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the west side of Stanton Road, between Gunnison Court and Losee Terrace, in an R4-1 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 25 feet of frontage along Stanton Road, 1,375 square feet of lot area and is occupied by a one-story single-family detached home, which encroaches its western lot line and is non-compliant with the applicable yard regulations; and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 22, 2016, when, under BSA Cal. No. 2016-426-A, the Board granted a waiver of General City Law ("GCL") § 36 permitting the elevation or reconstruction of a one-family dwelling that does not front on a mapped street; and

WHEREAS, the waiver was conditioned, *inter alia*, upon the dwelling having a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code; the dwelling being provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code; the underside of the exterior of the dwelling where the foundation is not closed having a floor assembly that provides a 2-hour fire resistance rating; and the height from grade plane to the highest window-sill leading to a habitable space not exceeding 32 feet; and

WHEREAS, the applicant now seeks a special permit, pursuant to ZR § 64-92, to allow the development of a three-story single-family detached dwelling set back 13 feet from the eastern lot line, 4.5 feet from the southern lot line, 10

feet from the western lot line and 4.5 feet from the northern lot line with an exterior stair to the east, an exterior stair to the west and a wheelchair lift to the east as proposed obstructions; and

WHEREAS, at the subject site, the minimum lot area required for a single-family detached residence is 2,375 square feet and the minimum lot width required is 25 feet, pursuant to ZR § 25-32; and

WHEREAS, yard requirements for the subject site are set forth as follows: minimum front yard depth requirements are set forth in ZR §§ 23-45 and 64-A351; side yard requirements are set forth in ZR § 23-461(a), and 64-A352; and rear yard requirements are set forth in ZR § 23-47 and 64-A353; and

WHEREAS, open area and lot coverage requirements for the subject site are set forth in ZR §§ 23-142 and 64-A311; and

WHEREAS, the requirement of an open area of at least 8 feet between residences on adjacent zoning lots set forth in ZR § 23-461(c) is waived at the site pursuant to ZR § 64-A352(c); and

WHEREAS, the subject site does not front a "street," as defined in ZR § 12-10, and is accessed, instead, by a private path having an average width of 4 feet, allowing from ingress and egress to the surrounding public streets; and

WHEREAS, consequently the subject site lacks a "front lot line," a "front yard," a "rear lot line," a "rear yard" and "side yards," as those terms are defined in the same section and, therefore, proposes open areas, in lieu of yards, along its lot lines and seeks waivers of the applicable yard regulations; and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments and enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Section 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

- (a) that there would be a practical difficulty in complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;
- (b) that any modifications of *bulk* regulations

MINUTES

- related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, in accordance with ZR § 64-92(a), the need to develop the residence, which, as it existed, was non-compliant with yard regulations, creates practical difficulties in complying with flood-resistant construction standards without the modification of the yard requirements and that waivers of the same is the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the finding pursuant to ZR § 64-92(b) is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the dwelling is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the surrounding neighborhood is a mixed density waterfront community that the majority of homes within a 200 foot radius of the subject site are one- and two-story detached bungalows, a significant number of which are also participating in the Build It Back program by being elevated or reconstructed; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed development satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 19BSA020K, dated August 6, 2018; and

Therefore, it is Resolved, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure and issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92 to permit, on a site within an R4-1 zoning district, the development of a single-family detached dwelling in compliance with flood-resistant construction standards that does not comply with

the zoning requirements for front yards, side yards rear yards, open space and lot coverage, contrary to ZR §§ 23-45, 23-461(a), 23-47, 23-142, 64-A351, 64-A352, 64-A353 and 64-A311; *on condition* that all work shall substantially conform to the drawings filed with this application and marked "Received August 6, 2018"- Five (5) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: set back 13 feet from the eastern lot line, 4.5 feet from the southern lot line, 10 feet from the western lot line and 4.5 feet from the northern lot line with an exterior stair to the east, an exterior stair to the west and a wheelchair lift to the east, as illustrated on the BSA-approved drawings;

THAT the building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code;

THAT the dwelling shall be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code;

THAT the underside of the exterior of the dwelling where the foundation is not closed shall have a floor assembly that provides a 2-hour fire resistance rating;

THAT the height from grade plane to the highest window-sill leading to a habitable space may not exceed 32 feet;

THAT this approval shall be limited to the Build It Back program;

THAT all DOB and related agency application(s) filed in connection with the authorize use and/or bulk shall be signed off by DOB and all other relevant agencies by August 21, 2022;

THAT the approved drawings shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 21, 2018.

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92 to permit, on a site within an R4-1 zoning district, the development of a single-family detached home in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards, side yards rear yards, open space and lot coverage, contrary to ZR §§ 23-45, 23-461(a), 23-47, 23-142, 64-A351, 64-A352, 64-A353 and 64-A311; and

WHEREAS, a public hearing was held on this application on August 21, 2018, and then to decision on the same date; and

WHEREAS, this application is brought on behalf of the property owner by the Build It Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in furtherance of the City’s effort to rebuilt homes impacted by Superstorm Sandy expeditiously and effectively, the Board, pursuant to 2 RCNY § 1-14.2, waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1-05.1 (Objection Issued by the Department of Buildings); (2) 2 RCNY § 1-05.3 (Filing Period); (3) 2 RCNY § 1-05.4 (Application Referral); (4) 2 RCNY § 1-05.6 (Hearing Notice); (5) 2 RCNY § 1-05.7 (List of Affected Property Owners); (6) 2 RCNY § 1-09.4 (Owner’s Authorization); and (7) 2 RCNY § 1-10.7 (Proof of Service for Application Referral and Hearing Notice); and

WHEREAS, the Board notes that the subject application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the east side of Stanton Road, between Gunnison Court and Losee Terrace, in an R4-1 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 25 feet of frontage along Stanton Road, 1,375 square feet of lot area and is occupied by a one-story single-family detached home, which is setback between 0.8 and 1.4 feet from the northern lot line, 14.1 feet from the eastern lot line, between 3.2 and 3.7 feet from the southern lot line, 0.2 feet from the western lot line and is non-compliant with the applicable yard regulations; and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 22, 2016, when, under BSA Cal. No. 2016-454-A, the Board granted a waiver of General City Law (“GCL”) § 36 permitting the elevation or reconstruction of a one-family dwelling that does not front on a mapped street; and

WHEREAS, the waiver was conditioned, *inter alia*, upon the dwelling having a fire sprinkler system in

accordance with Chapter 9 and Appendix Q of the New York City Building Code; the dwelling being provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code; the underside of the exterior of the dwelling where the foundation is not closed having a floor assembly that provides a 2-hour fire resistance rating; and the height from grade plane to the highest window-sill leading to a habitable space not exceeding 32 feet; and

WHEREAS, the applicant now seeks a special permit, pursuant to ZR § 64-92, to allow the development of a three-story single-family detached dwelling set back 13 feet from the western lot line, 4.5 feet from the northern lot line, 10 feet from the eastern lot line and 4.5 feet from the southern lot line with an exterior stair to the west, an exterior stair to the east and a wheelchair lift to the west as proposed obstructions; and

WHEREAS, at the subject site, the minimum lot area required for a single-family detached residence is 2,375 square feet and the minimum lot width required is 25 feet, pursuant to ZR § 25-32; and

WHEREAS, yard requirements for the subject site are set forth as follows: minimum front yard depth requirements are set forth in ZR §§ 23-45 and 64-A351; side yard requirements are set forth in ZR § 23-461(a), and 64-A352; and rear yard requirements are set forth in ZR § 23-47 and 64-A353; and

WHEREAS, open area and lot coverage requirements for the subject site are set forth in ZR §§ 23-142 and 64-A311; and

WHEREAS, the requirement of an open area of at least 8 feet between residences on adjacent zoning lots set forth in ZR § 23-461(c) is waived at the site pursuant to ZR § 64-A352(c); and

WHEREAS, the subject site does not front a “street,” as defined in ZR § 12-10, and is accessed, instead, by a private path having an average width of 4 feet, allowing from ingress and egress to the surrounding public streets; and

WHEREAS, consequently the subject site lacks a “front lot line,” a “front yard,” a “rear lot line,” a “rear yard” and “side yards,” as those terms are defined in the same section and, therefore, proposes open areas, in lieu of yards, along its lot lines and seeks waivers of the applicable yard regulations; and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments* and *enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Section 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70

MINUTES

(SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

- (a) that there would be a practical difficulty in complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;
- (b) that any modifications of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, in accordance with ZR § 64-92(a), the need to develop the residence, which, as it existed, was non-compliant with yard regulations, creates practical difficulties in complying with flood-resistant construction standards without the modification of the yard requirements and that waivers of the same is the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the finding pursuant to ZR § 64-92(b) is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the dwelling is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the surrounding neighborhood is a mixed density waterfront community that the majority of homes within a 200 foot radius of the subject site are one- and two-story detached bungalows, a significant number of which are also participating in the Build It Back program by being elevated or reconstructed; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed development satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 19BSA020K, dated August 6, 2018; and

Therefore, it is Resolved, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure and issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92 to permit, on a site within an R4-1 zoning district, the development of a single-family detached dwelling in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards, side yards rear yards, open space and lot coverage, contrary to ZR §§ 23-45, 23-461(a), 23-47, 23-142, 64-A351, 64-A352, 64-A353 and 64-A311; *on condition* that all work shall substantially conform to the drawings filed with this application and marked "Received August 6, 2018"- Five (5) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: set back 13 feet from the western lot line, 4.5 feet from the northern lot line, 10 feet from the eastern lot line and 4.5 feet from the southern lot line with an exterior stair to the west, an exterior stair to the east and a wheelchair lift to the west, as illustrated on the BSA-approved drawings;

THAT the building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code;

THAT the dwelling shall be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code;

THAT the underside of the exterior of the dwelling where the foundation is not closed shall have a floor assembly that provides a 2-hour fire resistance rating;

THAT the height from grade plane to the highest window-sill leading to a habitable space may not exceed 32 feet;

THAT this approval shall be limited to the Build It Back program;

THAT all DOB and related agency application(s) filed in connection with the authorize use and/or bulk shall be signed off by DOB and all other relevant agencies by August 21, 2022;

THAT the approved drawings shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 19BSA023K, dated August 10, 2018; and

Therefore, it is Resolved, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure, *issues* a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92 to *permit*, on a site within an R4-1 zoning district, the reconstruction of a

single-family residence in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards, side yards rear yards, open space and lot coverage, contrary to ZR §§ 23-45, 23-461(a), 23-47, 23-142, 64-A351, 64-A352, 64-A353 and 64-A311; *on condition* that all work shall substantially conform to the drawings filed with this application and marked "Received August 10, 2018"- Five (5) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: set back 19 feet from the northern lot line, set back 10 feet from the eastern lot line, set back 5 feet from the southern lot line and set back 10 feet from the western lot line with an exterior stair and landing to the north, an exterior stair and landing to the east and a roof overhang to the east, as illustrated on the BSA-approved plans;

THAT the building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code;

THAT the dwelling shall be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code;

THAT the underside of the exterior of the dwelling where the foundation is not closed shall have a floor assembly that provides a 2-hour fire resistance rating;

THAT the height from grade plane to the highest window-sill leading to a habitable space may not exceed 32 feet;

THAT this approval shall be limited to the Build It Back program;

THAT all DOB and related agency application(s) filed in connection with the authorize use and/or bulk shall be signed off by DOB and all other relevant agencies by August 21, 2022;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

COMMUNITY BOARD #2SI

ACTION OF THE BOARD – Application granted on

MINUTES

condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda and Commissioner Ottley-Brown.....3

Negative: Commissioner Sheta and Commissioner Scibetta.2

THE RESOLUTION –

WHEREAS, the decisions of the Staten Island Deputy Borough Commissioner, dated May 15, 2017, acting on Department of Buildings Application Nos. 520273285, 520273258, 520273276, 520273267, 520048948, 520048957 and 520048984 all read in pertinent part:

GCL 36; BC 502.1: The street giving access to the proposed building is not duly placed on the official map of the City of New York therefore:

- A) No certificate of occupancy can be issued pursuant to Article 3, Section 36 of General City Law;
- B) Proposed construction does not have at least 8% of the total perimeter of building fronting directly upon a legally mapped street of frontage space contrary to Sec 502.1 of the 2014 NYC Building Code; and

WHEREAS, this is an application to permit the construction of seven two-story plus basement single-family residences with frontage solely on Tupelo Court, a proposed street not duly placed on the official New York City map, contrary to General City Law (“GCL”) § 36; and

WHEREAS, a public hearing was held on these applications on February 13, 2018, after due notice in *The City Record*, with continued hearings on March 27, 2018, May 15, 2018, and July 17, 2018, and then to decision on September 13, 2018; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and the surrounding area; and

WHEREAS, Community Board 2, Staten Island, recommends disapproval of this application, as Community Board 2 reports that is always opposes construction that does not front on a legally mapped street; and

WHEREAS, by letter dated March 23, 2018, United States Congress member Daniel Donovan requests careful review of this application in light of the considerable opposition expressed by the Community Board and local civic associations; and

WHEREAS, by letter dated May 10, 2018, New York State Senator Andrew Lanza states that the subject applications are “extremely worrisome . . . as it would compound already important concerns” affecting the surrounding community, specifically overcrowding; and

WHEREAS, by letter dated May 11, 2018, Staten Island Borough President James Oddo states that he opposes the subject applications and requests that the Board require the mapping of Tupelo Court; and

WHEREAS, by letter dated July 10, 2018, Richmondtown and Clarke Avenue Civic Association (the “Civic Association”) states that the subject property is in a Special Natural Area district, designated as Class 1 freshwater wetlands and that further activity on the property would be in

legal conflict with all historical designations to date; and

WHEREAS, the Civic Association additionally states that the site is a “highly environmentally sensitive area” contiguous with the Richmond Creek Bluebelt and adjacent to a FEMA flood zone A and asserts that development of the property would contribute to accelerated water runoff compromising the limited capacity Bluebelt, would cause significant erosion and bursts of flooding, re-route natural drainage and severely limit the absorption of storm water and conflict with all post Hurricane Sandy agendas and recommendations undertaken by the City and State of New York; and

WHEREAS, the Board was also in receipt of dozens of letters and testimony from civic organizations (including the Coalition for Wetlands and Forests, the Preservation League of Staten Island and Protectors of Pine Oak Woods) and neighbors in opposition to this application, citing concerns about traffic, flooding, drainage, the subject site’s adjacency to the Richmond Creek Bluebelt, the destruction of forested wetland habitats and a preference that the subject premises be acquired for wetlands and open space; and

WHEREAS, the subject site is located on the north side of Richmond Road, between Aultman Avenue and Hitchcock Avenue, in an R1-2 zoning district, the Special Natural Area District and the Lower Density Growth Management Zone, on Staten Island; and

WHEREAS, by letter date July 28, 2017, the Office of the Borough President of Staten Island states that, at the subject location, the north side of Richmond Road is mapped from the east side of Aultman Avenue easterly to a point approximately 410 feet therefrom with a record width of between 50 and 60 feet, has a final mapped width of 100 feet, and recognized as in-use pursuant to an Opinion of Dedication for its full record width dated June 7, 1922, and that the north side of Richmond Road is mapped from a point approximately 410 feet east of Aultman Avenue easterly to the west side of Hitchcock Avenue with a record width of 100 feet, a final map width of 100 feet, with title vested to the City for the full record width of 100 feet as of December 1, 1965; and

WHEREAS, a survey provided by the applicant represents that, at the subject site, Richmond Road is mapped to a width of 100 feet as acquired by the City of New York; and

WHEREAS, the subject site consists of seven vacant tax lots without any frontage on a legally mapped street; and

WHEREAS, the tax lots are proposed to be accessed by Tupelo Court, an unmapped street that will be accessed from the northern side of Richmond Road and is proposed to be 38 feet wide, curb to curb, with a 3’-6” planting strip, 4-foot-wide sidewalks that will connect to the public sidewalks along Richmond Road, private street lighting and a new 8-inch water main and fire hydrants; and

WHEREAS, the subject tax lots are part of a larger development of 13 total residential buildings on 13 tax lots (the “Larger Development”), but the remaining six lots are not before the Board in this application because they have frontage on Richmond Road and, therefore, do not require

MINUTES

waivers of GCL § 36; and

WHEREAS, the applicant submits that the residences proposed on the subject tax lots will comply with all applicable zoning provisions including, but not limited to, those relating to minimum lot area; and

WHEREAS, the Board has exercised jurisdiction over tax lots 64, 66 and 68 since April 24, 2012, when, under BSA Cal. Nos. 208-10-A, 209-10-A and 210-10-A, respectively, the Board granted waivers of GCL § 35 to permit the proposed construction of a single-family home on each of the tax lots within the bed of a mapped street, on condition that construction substantially conform to drawings filed with the applications, the proposal comply with all applicable zoning district requirements and that all other applicable laws, rules and regulations be complied with, and on further condition that all necessary DEC and DEP approvals be obtained prior to the issuance of DOB permits; the necessary DCP review and authorization be obtained prior to the issuance of DOB permits; DOB review the proposed plans to ensure compliance with the relevant provisions of the Zoning Resolution and the approved plans be considered approved only for the portions related to the specific relief granted; and

WHEREAS, by letter dated March 20, 2012, the New York State Department of Environmental Conservation (“DEC”) states that a DEC freshwater wetlands (ECL Art. 24) permit was issued on June 10, 2010, (Application No. 2-6404-01121/00001) for the Larger Development, that the development and wetland preservation configuration on the site plan was deemed by DEC to be the minimum necessary to fulfil the statutory mandate of Article 24 of the Environmental Conservation Law to protect freshwater wetlands and their benefits to the public on the subject property; that the plan keeps portions of the beds of St. Andrews Road, Mace Street and Ascot Avenue, which are “paper streets” that include portions of the wetlands and regulated adjacent areas to the wetlands within their street beds, unbuilt in perpetuity to preserve and protect freshwater wetlands and their benefits; and that, as the final permit was issued more than 120 days prior, it is highly unlikely that DEC would revisit the decision to issue the permit; and

WHEREAS, by letter dated January 21, 2014, to the DOB Deputy Borough Commissioner of Staten Island, the New York City Department of City Planning (“DCP”) states that application N 130141 ZAR for authorizations pursuant to ZR §§ 105-421, 105-422 and 105-425 for modification of topographic features on Tier I sites, modification of steep slope and steep slope buffer and modification of botanic environment and tree preservation and planting requirements to facilitate the Larger Development was approved by the City Planning Commission (“CPC”) on December 4, 2013, subject to verification by DOB for compliance with all other applicable provisions of the Zoning Resolution; and

WHEREAS, in connection with the CPC approval, and in accordance with the CPC’s requirements, a Notice of Restrictions was recorded in the Office of the Richmond County Clerk on December 27, 2013, against 14 tax lots (Block 2260, Lots 24, 26, 28, 30, 3, 8, 4, 10, 60, 62, 64, 66,

68 and 36), including the subject tax lots, prohibiting development on tax lot 36, which constitutes approximately 64 percent of the total lot area and has been designated as the “NYC DEP Easement Area”; and

WHEREAS, the Board notes that many of the comments provided in opposition to this application regarding the subject site’s proximity to wetlands and suitability of its development were previously submitted to DCP and DEC in opposition to the applications made to those agencies regarding the Larger Development and that, while the original DEC freshwater wetlands permit was issued prior to Hurricane Sandy, CPC’s authorizations and the NYC DEP Easement Area were defined after Hurricane Sandy; and

WHEREAS, by letter dated August 8, 2017, the New York City Department of Environmental Protection (“DEP”) states that, based on DEP maps, there are 20 inch diameter City water main and an 18 inch diameter sanitary sewer in Richmond Road between Aultman Avenue and Hitchcock Avenue; no existing water mains or sewers are crossing the existing privately owned referenced lots (including Tupelo Court); that, as per the Department of Finance Tax Map, Tupelo Court is a proposed private easement on the subject tax lots; that the proposed internal sanitary and storm pipes will be constructed as per the Site Connection Proposal ID # 2140, approved on June 13, 2016, and proposed Internal Water Main (IWM) will be constructed as per IWM # IWR-05/17, approved on March 1, 2017, and will be maintained by the Homeowners Association; that sanitary and storm connections and service connections to the IWM, constructed in Tupelo Court, will be maintained by the Homeowners Association; that the internal sanitary, storm and IWM pipes and connections will not be maintained by the City of New York; and, based on the above, DEP has no objections to the subject application; and

WHEREAS, by letter dated April 9, 2018, the Fire Department states that it has no objections to the subject application and that the requirements of the Fire Department are as follows: the location of all hydrants shall be as indicated on the stamped plan; a minimum of two (2) No Parking signs complying with Fire Code 503.2.7.2 shall be posted within the cul-de-sac; the Homeowner’s Association shall be responsible for maintaining the cul-de-sac clear of any parked vehicles and will subject to enforcement action if not in compliance; all proposed residences shall be fully sprinklered; and two off-street parking spaces shall be provided for each residence; and

WHEREAS, the applicant provided a draft Homeowners Agreement for the Tupelo Homeowners Association, Inc., specifying that members and their guests are not allowed to park on the common street (Tupelo Court); that the maintenance, repair and replacement of the private roadways, sidewalks and landscaped area and street lights on the property, including snow removal, shall be the responsibility of and at the cost and expense of the Homeowners Association; and granting the Fire Department an easement across association property for the purpose of performing any duty necessary to carry out their function; and

MINUTES

WHEREAS, the applicant additionally submitted a draft Restrictive Declaration requiring compliance with the Fire Department requirements set forth in the April 9, 2018, letter and clarifying that the declarant is responsible for maintaining Tupelo Court in a good state of repair and cleanliness, including but not limited to maintaining the paved surfaces in good repair; maintaining street lights in good working order; assuring that street lights operate during hours of darkness; replacing street light when needed; plowing snow at such times as the accumulated snow falls in any 12-hour period exceeds two inches; maintaining any required storm and sanitary drainage systems in a clear, workable and efficient manner; and maintaining all required utilities located under the streets in good working order; and

WHEREAS, at hearing, Board Commissioners disagreed as to whether and/or how the Board should evaluate concerns regarding the subject development proposal's impact on the adjacent wetlands in an application for waivers of GCL § 36, particularly in light of the DEC and CPC approvals relating to the Larger Development; and

WHEREAS, in the course of public hearings on these applications, Board staff reached out to DEC in response to the extensive community concern regarding site drainage issues and flooding, forwarded a report on flood impacts anticipated to result from the proposed development provided to the Board by the Richmondtown and Clarke Avenue Civic Association and sought confirmation that the DEC freshwater wetlands permit is still valid; and

WHEREAS, in response, DEC confirmed that the freshwater wetlands permit is valid until June 9, 2020, that the report on flood impacts submitted to the Board did not reference the DEC permitted plans, making it difficult for DEC to provide comment, that only five of the 13 single-family residences proposed in the Larger Development are under DEC's jurisdiction and three are believed to be already constructed and a 60 foot deed restricted area of no disturbance was required between the wetland the developed area; and

WHEREAS, General City Law § 36(2), which relates to cities having a population of one million or more, states, in relevant part:

No certificate of occupancy shall be issued in such city for any building unless a street or highway giving access to such structure has been duly placed on the official map or plan, which street or highway, and any other mapped street or highway abutting such building or structure shall have been suitably improved to the satisfaction of the department of transportation of the city in accordance with standards and specifications approved by such department as adequate in respect to the public health, safety and general welfare for the special circumstances of the particular street or highway, or, alternately, unless the owner has furnished to the department of transportation of such city a performance bond naming the city as obligee, approved by such

department, to the full cost of such improvement as estimated by such department, or other security approved by such department, that such improvement will be completed within the time specified by such department. [. . .] Where the enforcement of the provisions of this section would entail practical difficulty or unnecessary hardship, and where the circumstances of the case do not require the structure to be related to existing or proposed streets or highways, the applicant for such a certificate of occupancy may appeal from the decision of the administrative officer having charge of the issuance of certificates of occupancy to the board of standards and appeals or other similar board of such city having power to make variances or exceptions in zoning regulations, and the same provisions are hereby applied to such appeals and to such board as are provided in cases of appeals on zoning regulations. The board may in passing on such appeal many any reasonable exception and issue the certificate of occupancy subject to conditions that will protect any future street or highway layout. [. . .]; and

WHEREAS, at an executive session, one Commissioner stated that an approval of the subject applications would not provide the same protections to the immediate area as a mapping of Tupelo Court by application to DCP; that the text of GCL § 36 does not explicitly include consideration of factors such as drainage; that developments like that proposed at the subject premises require contemplation of factors other than the integrity of the street grid; that the legislature did not intend for GCL § 36 waivers to be obtained in lieu of mapping actions; and that the applicant has failed to show practical difficulty or hardship, as required by the statute; and

WHEREAS, at hearing, the Commissioner opined that applications for waivers of GCL § 36 should be limited to one or two residences that do not front a mapped street and for which a mapping action would be an unnecessary hardship, but where, as here, the proposed development is larger in scale and the applicant is choosing to not front a mapped street, such applications are inappropriate; and

WHEREAS, a majority of the Board, however, finds that the requested waivers are appropriate for the scale of development proposed on the seven subject tax lots, that DEP and DEC have extensively reviewed the subject development with regards to flooding and its adjacency to wetlands and that further review of those topics is not contemplated by the text of GCL § 36; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant approval of the application subject to certain conditions set forth herein.

Therefore it is Resolved, that the decisions of the DOB dated May 15, 2017, acting on Department of Buildings Application Nos. 520273285, 520273258, 520273276, 520273267, 520048948, 520048957 and 520048984, are modified by the power vested in the Board by Section 36 of

MINUTES

the General City Law, and that these appeals are granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked "Received August 24, 2018"-Three (3) sheets; that the proposal will comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT the proposed residences shall fully comply with all applicable provisions of the Zoning Resolution;

THAT the proposed curbs and sidewalk on Tupelo Court shall maintain existing curb line;

THAT the private roadway, curbs and sidewalks within Tupelo Court shall conform to New York City Department of Transportation ("DOT") standards for public streets;

THAT prior to completion of construction, the building/developer shall retain a licensed engineer to inspect the construction of the private roadway, curbs and sidewalks for conformance to DOT standards for public streets and submit a letter to DOB to that effect;

THAT the height of the dwellings shall not exceed 35 feet above grade plane;

THAT interconnected smoke alarms shall be designed and installed in all dwellings in compliance with New York City Building Code Section 907.2.10;

THAT hydrants shall be located within 250 feet of the entrance to each dwelling unit and hydrants shall be on an eight-inch or greater water main;

THAT the location of all hydrants shall be as indicated on the stamped plan;

THAT a minimum of two (2) No Parking signs complying with Fire Code 503.2.7.2 shall be posted within the cul-de-sac;

THAT the Homeowner's Association shall be responsible for maintaining the cul-de-sac clear of any parked vehicles and will subject to enforcement action if not in compliance;

THAT all proposed residences shall be fully sprinklered;

THAT two off-street parking spaces shall be provided for each residence;

THAT the proposed internal sanitary and storm pipes shall be constructed as per the Site Connection Proposal ID # 2140, approved on June 13, 2016;

THAT the proposed Internal Water Main (IWM) shall be constructed as per IWM # IWR-05/17, approved on March 1, 2017;

THAT the proposed IWM shall be maintained by the Home Owners Association;

THAT sanitary and storm connections and service connections to the IWM, constructed in Tupelo Court, shall be maintained by the Home Owners Association;

THAT the internal sanitary, storm and IWM pipes and connections shall not be maintained by the City of New York;

THAT the sidewalks on Tupelo Court shall connect to and be contiguous with the public sidewalks on Richmond Road;

THAT a Homeowners Agreement shall be filed with the

State of New York and recorded in the Office of the City Register in Richmond County against the subject tax lots specifying that members and their guests are not allowed to park on the common street (Tupelo Court); that the maintenance, repair and replacement of the private roadways, sidewalks and landscaped area and street lights on the property, including snow removal, shall be the responsibility of and at the cost and expense of the Homeowners Association; and granting the Fire Department an easement across association property for the purpose of performing any duty necessary to carry out their function;

THAT the above conditions, the BSA Calendar Numbers and a cross-reference number and title of the restrictive declaration, described below, shall be recorded on any temporary and permanent certificate of occupancy hereafter issued to the subject sites;

THAT the restrictive declaration submitted in connection with this application shall be recorded in the Office of the City Register in Richmond County against the subject tax lots prior to the issuance of certificates of occupancy to provide notice to future owners of the proposed single-family residences of the obligations to maintain Tupelo Court;

THAT proofs of filing and recordation shall be provided to the Board;

THAT the record restrictive declaration shall substantially conform to the form and substance of the following:

DECLARATION made this _____, by FRANK MCERLEAN, hereinafter referred to as the "Declarant," with a principal office at 3902 Amboy Road, Staten Island, NY 10308.

WHEREAS, the Declarant is the fee owner of certain land located in the City and State of New York, Borough of Staten Island, designated as Block 2260 Lots 3, 4, 8, 10, 60, 62, 64, 66 and 68 on the Tax Map of the City of New York, hereinafter referred to as Parcel A (the "Subject Premises", more particularly described by a metes and bounds description set forth in Schedule A annexed hereto and by this reference made a part hereof;

WHEREAS, the Declarant has requested the New York City Board of Standards and Appeals (the "BSA") act upon BSA Cal. Nos. 2017-193-A through 199-A, Block 2260, Lots 4, 10, 60, 62, 64, 66 and 68 to appeal the decisions of the Staten Island Deputy Borough Commissioner, as follows pursuant to Article III, Section 36 of the General City Law, denying permits on the basis that the street giving access to the proposed buildings is not duly placed on the official map of the City of New York

WHEREAS, the BSA requires Declarant to execute and file this restrictive declaration against Block 2260 Lots 3, 4, 8, 10, 60, 62, 64, 66 and 68 prior to obtaining a certificate of occupancy for the subject premises.

NOW, THEREFORE, in consideration of BSA approval to allow the proposed construction of single-family residences not fronting on a legally mapped street, contrary to General City Law 36, Declarant does hereby declare that Declarant and his successors and/or assigns shall be legally responsible for operating and maintain the Subject Premises in compliance with the following restrictions of the Fire Department’s Letter of No Objection dated April 9, 2018, and that such compliance shall be subject to enforcement by the Fire Commissioner:

- The location of all hydrants shall be as indicated on the stamped plan;
- A minimum of two (2) No Parking signs complying with Fire Code 503.2.7.2 shall be posted within the cul-de-sac;
- The Homeowner’s Association shall be responsible for maintaining the cul-de-sac clear of any parked vehicles and will subject to enforcement action if not in compliance;
- All proposed residences shall be fully sprinklered;
- Two off-street parking spaces shall be provided for each residence.

FURTHER, in consideration of BSA approval to allow the proposed construction of single-family residences not fronting on a legally mapped street, contrary to General City Law § 36, Declarant does hereby declare an intent to form a Homeowners Association, file a homeowner’s agreement (“HOA”) with the State of New York and consents to the filings of an HOA being a condition of the BSA’s approval;

FURTHER, in consideration of BSA approval to allow the proposed construction of single-family residences not fronting on a legally mapped street, contrary to General City Law § 36, Declarant does hereby declare the Declarant and his successors and/or assigns shall maintain the street in a good state of repair and cleanliness, including but not limited to the following:

- a) Maintaining the paved surfaces of the street in good repair;
- b) Maintaining street lights in good working order;
- c) Assuring that street lights operate during hours of darkness;
- d) Replacing street lights when needed;
- e) Snow plowing at such times as the

accumulated snow fall in any 12-hour period exceeds two inches;

- f) Maintaining any required storm and sanitary drainage systems in a clear, workable and efficient manner;
- g) Maintaining all required utilities located under the street in good working order.
 1. This declaration may not be modified, amended or terminated without prior written consent of the BSA;
 2. The covenants set forth herein shall run with the land and be binding upon and inure to the benefit of the parties hereto and their respective heirs, legal representatives, successors and assigns;
 3. Failure to comply with the terms of this declaration may result in the revocation of a building permit or certificate of occupancy as well as any other authorization or waiver granted by the BSA;
 4. This declaration shall be recorded at the city register’s office against the Subject Premises and the cross-reference number and title of the declaration shall be recorded on each temporary and permanent certificate of occupancy hereafter issued to any building located on the Subject Premises and in any deed for the conveyance thereof.

IN WITNESS WHEREOF, Declarant has made and executed the foregoing restrictive declaration as of the date hereinabove written.

THAT certificates of occupancy shall be obtained within four (4) years, by September 13, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by DOB;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, September 13, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated July 18, 2018, acting on Alteration Application No. 321511636, reads in pertinent part:

“Official denial for submission to the Board of Standards and Appeals in regarding to the matters of;

1. ZR-142 – Floor Area
2. ZR-142 – Lot Coverage
3. ZR-142 – Open Space
4. ZR-631b – Perimeter Wall Height
5. ZR-23-47 – Rear Yard
6. ZR-23-461 – Side Yard”; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03 to permit, in an R3-2 zoning district, the enlargement of an existing single-family detached residence that does not comply with zoning regulations for floor area, lot coverage, open space, perimeter wall height, rear yards and side yards, contrary to ZR §§ 23-142, 23-631(b), 23-47 and 23-461; and

WHEREAS, a public hearing was held on this application on May 15 2018, after due notice by publication in *The City Record*, with a continued hearing on July 24, 2018, and then to decision on September 13, 2018; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application, stating that the proposed building would fit in with the character of the neighborhood; and

WHEREAS, the subject site is located on the west side of East 29th Street, between Quentin Avenue and Avenue P, in an R3-2 zoning district, in Brooklyn; and

WHEREAS, the subject site has approximately 50 feet

of frontage along East 29th Street, 100 feet of depth, 5,000 square feet of lot area and is occupied by an existing single-family detached residence; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single- or two-family detached* or *semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached* or *semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the

MINUTES

perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, inter alia, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge an existing detached single-family residence, as contemplated in ZR § 73-622; and

WHEREAS, in response to questions from the Board at hearing about the retention of existing building material, the applicant revised the drawings to reflect that adequate amounts of exterior walls will be retained at the exterior of the subject building and that adequate amount of floor joists will be retained; and

WHEREAS, the applicant proposes to enlarge the existing residence from 2,247 square feet of floor area (0.44 FAR) to 5,016 square feet of floor area (1.02 FAR), from 25 percent lot coverage to 40 percent, from 75 percent open space to 60 percent, maintaining a perimeter wall height of 23'-6", maintaining a rear yard with a depth of 23'-9" and maintaining side yards with a depth of 4'-1" to the north and a depth of 8'-9" to the south; and

WHEREAS, the applicant states that, at the subject site, floor area may not exceed 2,500 square feet (0.5 FAR) under ZR § 23-142, lot coverage may not exceed 35 percent under ZR § 23-142, open space must be at least 55 percent under ZR § 23-142, perimeter wall height may not exceed 21 feet under ZR § 23-631, rear yards must have depths of 30 feet under ZR § 23-47 and side yards must have minimum widths of five feet for a total width of 13 feet under ZR § 23-461; and

WHEREAS, the applicant represents that the proposed building as enlarged is consistent with the built character of the neighborhood; and

WHEREAS, in support of this contention, the applicant surveyed single- and two-family residences in the surrounding area, finding that there are 17 residences with more than 0.9 FAR, that there are 23 residences with lot coverage between 35 percent and 55 percent, that the adjacent residence has an equivalent perimeter wall height

and that 18 residences on the subject block have rear yards with depths of 25 feet or less; and

WHEREAS, the applicant also submitted a rear yard study, lot coverage diagram, photographic streetscape montage and a photographic neighborhood study demonstrating that the proposed building will fit in with the built conditions of the surrounding area; and

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, the Board finds that the proposed building as enlarged will not alter the essential character of the neighborhood or district in which the subject building is located, nor impair the future use or development of the surrounding area; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of bulk regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17-BSA-142K, dated June 9, 2017; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-622 and 73-03 to *permit*, in an R3-2 zoning district, the enlargement of an existing single-family detached residence that does not comply with zoning regulations for floor area, lot coverage, open space, perimeter wall height, rear yards and side yards, contrary to ZR §§ 23-142, 23-631(b), 23-47 and 23-461; *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received August 24, 2018"-Thirteen (13) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: a maximum of 5,016 square feet of floor area (1.02 FAR), maximum lot coverage of 40 percent, a minimum of 75 percent open space, a maximum perimeter wall height of 23'-6", a rear yard with a minimum depth of 23'-9" and side yards with a minimum depth of 4'-1" to the north and a minimum depth of 8'-9" to the south, as illustrated on the Board-approved drawings;

THAT removal of existing joists or perimeter walls in excess of that shown on the Board-approved plans shall void the special permit;

MINUTES

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by September 13, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, September 13, 2018.

2017-213-BZ

CEQR #17-BSA-146K

APPLICANT – Slater & Beckerman, P.C., for Dynamic Youth Community, Inc., owner.

SUBJECT – Application June 14, 2017 – Variance (§72-21) to permit the development of a 20-bed community residence and treatment facility (Use Group 3A) (*Dynamic Youth Community*) contrary to ZR §32-10 (contrary to use regulations); ZR §33-26 (rear yard regulations) and ZR §33-292 (district boundary yard regulations). C8-2 (Special Ocean Parkway District).

PREMISES AFFECTED – 1808 Coney Island Avenue, Block 6592, Lot 39, Borough of Brooklyn.

COMMUNITY BOARD #12BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated May 22, 2017, acting on New Building Application No. 321569655, reads in pertinent part:

“Proposed . . . does not conform to the use regulations of section 23-10 et seq. of the Zoning Resolution”

“Proposed . . . does not comply with rear yard regulations 33-26 of the zoning resolution”

“Proposed . . . does not comply with district boundary yard regulations of section 33-292 of the zoning resolution”; and

WHEREAS, this is an application under ZR § 72-21 to permit, in a C8-2 zoning district and the Special Ocean Parkway District, the development of a six-story, with cellar, community-facility building for use as a non-profit

institution with sleeping accommodations (Use Group 3), contrary to ZR §§ 23-10, 33-26 and 33-292; and

WHEREAS, this application is brought on behalf of Dynamic Youth Community, Inc. (the “Educational Facility”); and

WHEREAS, a public hearing was held on this application on March 27, 2018, after due notice by publication in *The City Record*, with continued hearings on May 22, 2018, June 5, 2018, July 24, 2018, and then to decision on September 13, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 12, Brooklyn, recommends approval of this application on condition that there be 24/7 security cameras, that there be a security guard posted at the subject site, that there be no more than 20 beds and that residents not congregate in front of the subject building; and

WHEREAS, by letter dated September 12, 2017, the New York City Department of Education submitted testimony in support of this application; and

WHEREAS, by letter dated August 14, 2017, New York State Assembly Member Steven H. Cymbrowitz submitted testimony in support of this application; and

WHEREAS, by letter dated September 12, 2017, New York State Senator Martin J. Golden submitted testimony in support of this application; and

WHEREAS, neighbors and organizations from the surrounding area submitted testimony, including more than 240 letters, in support and in opposition to this application; and

WHEREAS, the subject site is located on the west side of Coney Island Avenue, between Avenue N and Avenue O, in a C8-2 zoning district and the Special Ocean Parkway District, in Brooklyn; and

WHEREAS, the subject site has approximately 20 feet of frontage along Coney Island Avenue, 100 feet of depth, 2,000 square feet of lot area and is occupied by a two-story community facility building; and

WHEREAS, the applicant proposes to develop a six-story, with cellar, community-facility building for use as a non-profit institution with sleeping accommodations (Use Group 3) that has a rear yard with a depth of 0 feet at the first floor and between 11’-5” and 30 feet at the second through sixth floors; and

WHEREAS, the applicant states that, at the subject site, non-profit institutions with sleeping accommodations (Use Group 3) are not permitted under ZR § 23-10 and that rear yards must have a minimum depth of 20 feet under ZR § 33-26 and a minimum depth of 30 feet under ZR § 33-29; and

WHEREAS, the applicant states that, as part of the curricular requirements of the New York City Department of Education District 79 ReStart Academy, the Educational Facility provides educational services for students to improve academic skills in an environment integrated with

MINUTES

residential treatment services; and

WHEREAS, the applicant states that the requested waivers will facilitate floorplates large enough to accommodate the Educational Facility's particular programs planned to be housed in the proposed building, including spaces for classroom instruction, counseling and individual tutoring spaces, recreational space and sleeping accommodations for 20 students who will enroll in an on-site High School track or High School Equivalency track program; and

WHEREAS, in support of this contention, the applicant submitted a study of the Educational Facility's programmatic needs demonstrating that the Educational Facility will provide regular, direct educational instruction by licensed teachers within the proposed building, that adjacency to on-site sleeping accommodations is a critical component of the Educational Facility's educational program and that a complying development would fail to meet the Educational Facility's programmatic needs because of significant reductions in usable spaces within the building; and

WHEREAS, the Board acknowledges that the Educational Facility, as an educational institution, is entitled to deference under the law of the State of New York as to zoning and its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, specifically, as held in *Cornell University v. Bagnardi*, 68 N.Y.2d 583 (1986), a zoning board must grant an educational or religious institution's application unless it can be shown to have an adverse effect on the health, safety or welfare of the community and general concerns about traffic and disruption of the residential character of the neighborhood are insufficient grounds for the denial of such applications; and

WHEREAS, the Board finds that the Educational Facility's programmatic needs create practical difficulties or unnecessary hardship in complying strictly with applicable zoning regulations that are not created by general circumstances in the neighborhood or district; and

WHEREAS, the applicant states that, because the Educational Facility is a non-profit organization and the proposed building is needed to further its programmatic mission, demonstrating that the proposed variance is necessary to realize a reasonable return from the subject site is unnecessary; and

WHEREAS, the applicant states that the Educational Facility's proposed building will not alter the essential character of the immediate neighborhood or district; and

WHEREAS, in support of this contention, the applicant studied the surrounding area, finding that Coney Island Avenue includes a vibrant mix of uses, including local retail, community facilities, residences and automotive uses; and

WHEREAS, the applicant submits that the proposed building fits within the built character of the surrounding area, which includes buildings of similar or greater height than the conforming height proposed, and that the rear yard

of the proposed building is adjacent to a non-complying rear yard of analogous depth, a yard obstructed with a one-story structure and an automotive use; and

WHEREAS, in response to questions from the Board at hearing, the applicant states that the stair tower at the rear of the subject building cannot be reduced in size because of applicable laws requiring minimum dimensions and the Educational Facility's need to provide light and air to its sleeping accommodations; and

WHEREAS, the applicant submits that the Educational Facility will comply with all applicable laws and regulations, including those of the New York State Office of Alcoholism and Substance Abuse Services, by providing a compliant residential program with reintegration services (rather than stabilization and rehabilitation services, which are subject to different regulations), and notes that applicable regulations require the Educational Facility to provide educational services; and

WHEREAS, the applicant represents that the Educational Facility will provide safeguards, including overnight staff and security cameras and systems, to ensure the safety and security of its residents; and

WHEREAS, the applicant states that the proposed building will feature a closed window condition with a minimum of 35 dBA window-wall attenuation on all facades in order to maintain an interior noise level of 45 dBA and that the stair tower in the rear of the subject building is enclosed; and

WHEREAS, the applicant represents that the proposed building will be entirely clad in brick and that the proposed elevator will not require a machine room, thereby allowing for an elevator bulkhead that does not extend above the parapet atop the roof of the proposed building; and

WHEREAS, the Board finds that the proposed variance will not alter the essential character of the neighborhood or district in which the subject site is located; will not substantially impair the appropriate use or development of adjacent property; and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that the above practical difficulties or unnecessary hardship do not constitute a self-created hardship; and

WHEREAS, the Board finds that the above practical difficulties or unnecessary hardship have not been created by the owner or by a predecessor in title; and

WHEREAS, the applicant states that the proposed variance is the minimum necessary to permit a productive use of the site, as reflected in the Educational Facility's programmatic needs study; and

WHEREAS, the Board finds that the proposed variance is the minimum necessary to afford relief within the intent and purposes of the Zoning Resolution; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the

MINUTES

Final Environmental Assessment Statement CEQR No. 17BSA146K, dated September 10, 2018; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design; Natural Resources; Hazardous Materials; Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, by correspondence dated March 1, 2017, the New York City Landmarks Preservation Commission represents that no significant architectural or archaeological impacts are expected from the project; and

WHEREAS, by letter dated March 9, 2017, the New York State Office of Parks, Recreation and Historic Preservation states that the project will have no impact on archaeological or historic resources listed in or eligible for the New York State and National Registers of Historic Places; and

WHEREAS, by correspondence dated March 14, 2018, the Department of Environmental Protection (“DEP”) recommends that an (E) designation for hazardous materials be placed on the zoning map pursuant to Section 11-15 of the New York City Zoning Resolution for the subject property and states that the (E) designation shall ensure that testing and mitigation will be provided as necessary before any further development or soil disturbance; and

WHEREAS, an (E) designation (E-500) has been placed on the site for hazardous materials, and an environmental review by the New York City Office of Environmental Remediation (“OER”) must be satisfied prior to the issuance of building permits to facilitate the construction of the proposed building; and

WHEREAS, by letter dated September 4, 2018, the New York City Department of Environmental Protection (“DEP”) states that the proposed project would not result in potential significant adverse air quality impacts; and

WHEREAS, by letter dated September 7, 2018, DEP states that no significant noise impact is expected from the project; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR § 72-21 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality

Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR § 72-21 to *permit*, in a C8-2 zoning district and the Special Ocean Parkway District, the development of a six-story, with cellar, community-facility building for use as a non-profit institution with sleeping accommodations (Use Group 3), contrary to ZR §§ 23-10, 33-26 and 33-292; *on condition* that all work, operations and site conditions shall conform to drawings filed with this application marked “Received September 13, 2018”-Sixteen (16) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: a rear yard with a depth of 0 feet at the first floor and between 11’-5” and 30 feet at the second through sixth floors, as illustrated on the Board-approved drawings;

THAT the above condition shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by September 13, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, September 13, 2018.

2017-214-BZ CEQR #17-BSA-147K

APPLICANT – Eric Palatnik, P.C., for Mark Strimber, owner.

SUBJECT – Application June 16, 2017 – Special Permit (§73-622) to permit the enlargement of an existing single family home, contrary to floor area & open space (§23-141) and less than the required rear yard (§23-47). R2 zoning district.

PREMISES AFFECTED – 1459 East 24th Street, Block 7678, Lot 25, Borough of Brooklyn.

COMMUNITY BOARD #14BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated June 5, 2017, acting on Alteration Application No. 321186505, reads in pertinent part:

MINUTES

1. Proposed plans are contrary to ZR 23-141 in that the proposed Floor Area Ratio (FAR) exceeds the permitted
2. Proposed plans are contrary to ZR 23-141 in that the proposed Open Space Ratio (OSR) is less than the required
3. Proposed plans are contrary to ZR 23-47 in that the proposed Rear Yard is less than 30'-0"; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03 to permit, in an R2 zoning district, the enlargement of an existing single-family detached residence that does not comply with zoning regulations for floor area, open space ratio and rear yards, contrary to ZR §§ 23-141 and 23-47; and

WHEREAS, a public hearing was held on this application on March 20, 2018, after due notice by publication in *The City Record*, with a continued hearing on July 17, 2018, and then to decision on September 13, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of East 24th Street, between Avenue N and Olean Street, in an R2 zoning district, in Brooklyn; and

WHEREAS, the subject site has approximately 35 feet of frontage along East 24th Street, 100 feet of depth, 3,500 square feet of lot area and is occupied by an existing single-family detached residence; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single- or two-family detached or semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be

renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage, open space, floor area, side yard, rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins. Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, inter alia, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge an existing detached single-family residence, as contemplated in ZR § 73-622; and

WHEREAS, in response to questions from the Board at hearing about the retention of existing building material,

MINUTES

the applicant revised the drawings to reflect that adequate amounts of exterior walls will be retained at the exterior of the subject building and that adequate amount of floor joists will be retained; and

WHEREAS, the applicant proposes to enlarge the existing residence from 1,562 square feet of floor area (0.45 FAR) to 3,499 square feet of floor area (1.00 FAR), from an open space ratio of 1.68 to 0.52 and from a rear yard with a depth of 40'-6" to 20'-0" at the first and second floors to 23'-0" at the third floor; and

WHEREAS, the applicant states that, at the subject site, floor area may not exceed 1,750 square feet (0.50 FAR) under ZR § 23-141, open space ratio must be at least 1.50 under ZR § 23-141 and rear yards must have minimum depths of 30 feet under ZR § 23-47; and

WHEREAS, the applicant represents that the proposed building as enlarged is consistent with the built character of the neighborhood; and

WHEREAS, in support of this contention, the applicant surveyed single- and two-family residences in the surrounding area, finding that there are 12 residences with more than 1.0 FAR, that there are 17 residences with less than 0.60 open space ratio and that there are 14 rear yards with depths less than 30 feet, including a residence directly adjacent to the subject site with a 20-foot rear yard at the first and second floors; and

WHEREAS, the applicant also submitted a height study, rear yard study, floor area ratio diagram, open space diagram, lot coverage diagram, side yard diagram, photographic streetscape montage, a contextual streetscape illustration and a photographic neighborhood study demonstrating that the proposed building will fit in with the built conditions of the surrounding area; and

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, the Board finds that the proposed building as enlarged will not alter the essential character of the neighborhood or district in which the subject building is located, nor impair the future use or development of the surrounding area; and

WHEREAS, in response to questions from the Board at hearing about the effect of the enlarged building on residences nearby, the applicant reduced the proposed building's incursion into the rear yard by modifying the design of the proposed building; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of bulk regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the

proposed Type II action noted in the CEQR Checklist No. 17-BSA-147K, dated June 16, 2017; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-622 and 73-03 to *permit*, in an R2 zoning district, the enlargement of an existing single-family detached residence that does not comply with zoning regulations for floor area, open space and rear yards, contrary to ZR §§ 23-141 and 23-47; *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received September 13, 2018"-Thirteen (13) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: a maximum of 3,499 square feet of floor area (1.00 FAR), a minimum open space ratio of 0.52 and a rear yard with minimum depths of 20'-0" at the first and second floors and 23'-0" at the third floor, as illustrated on the Board-approved drawings;

THAT removal of existing joists or perimeter walls in excess of that shown on the Board-approved drawings shall void the special permit;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by September 13, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved drawings shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of drawings or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, September 13, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Borough Commissioner, dated December 27, 2016, acting on Department of Buildings (“DOB”) Application No. 421404796, reads in pertinent part:

ZR 42-31, ZR 73-36: Proposed use as a physical culture establishment, as defined by ZR 12-10 in zoning district M1-4D is contrary to ZR 42-10 and must be referred to the Board of Standards and Appeals for approval pursuant to ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, on a site located within an M1-4D zoning district, a physical culture establishment (“PCE”) on a portion of the first floor of an existing one-story non-storage garage and warehouse, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on September 13, 2018, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Community Board 5, Queens, states that it has no objection to this application; and

WHEREAS, the Board was in receipt of seven (7) form letters in support of this application; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the west side of Decatur Street, bounded by Cypress Avenue to the north and Wyckoff Avenue the south, within an M1-4D zoning

district in Queens; and

WHEREAS, the site has approximately 200 feet of frontage along Decatur Street, 100 feet of depth, 20,026 square feet of lot area and is occupied by a one-story building occupied in part by the subject PCE; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, the Board notes that, because no portion of the subject PCE is represented as being located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each

MINUTES

of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant submitted evidence that the subject PCE occupies 4,894 square feet of floor area on the ground floor; and

WHEREAS, the applicant represents that the PCE has been in operation since January 2015 as CrossFit with the following hours of operation: Monday through Friday, 6:00 a.m. to 9:30 p.m.; Saturday from 9:00 a.m. to 3:00 p.m.; Sunday 10:00 a.m. to 3:00 p.m.; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because the PCE is located in a manufacturing district, is adjacent to commercial and manufacturing uses in the subject building and surrounded by other manufacturing and commercial buildings, there are neither residential uses within the building nor adjacent to the premises, and the PCE has small classes, capped at eighteen participants, that fit well within the PCE space; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant represents that the PCE contains facilities for the provision of physical fitness instruction and weight loss classes that incorporate gymnastics, weight lifting and cardio exercises; and

WHEREAS, accordingly, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant submits that the subject building, including the PCE, is equipped with an automatic wet sprinkler system; and

WHEREAS, by letter dated September 7, 2018, the

Fire Department confirms that the subject premises have a sprinkler system, though the permit for such system has expired, that a test order was issued and that the premises owners scheduled a hydrostatic pressure test for February 20, 2019, and the Fire Department has no additional comments or recommendations relative to this application; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood on account of its membership is from the immediate neighborhood; members do not generally drive to the PCE; on-street parking is available on Decatur Street in front of the PCE with limited restrictions; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 17BSA072Q, dated January 24, 2017; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to legalize, on a site located within an M1-4D zoning district, a physical culture establishment on a portion of the first floor of an existing one-story non-storage garage and warehouse, contrary to ZR § 42-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “September 12, 2018”– Six (6) sheets; and *on further condition*:

THAT the term of the PCE grant shall expire on January 1, 2025;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance under Local Law 58/87 shall be as reviewed and approved by DOB;

THAT the existing sprinkler systems shall be maintained as indicated on the Board-approved plans;

THAT minimum 3 foot wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT a Certificate of Occupancy shall be obtained within one year, by September 13, 2019;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

MINUTES

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, September 13, 2018.

2018-61-BZ

CEQR #18-BSA-131K

APPLICANT – Jay Goldstein, Esq., for A Shamosh Realty, owner.

SUBJECT – Application April 27, 2018 – Special Permit (§73-36) to permit the operation of a Physical Cultural Establishment (*Goldfish Swim School*) within a portion of the first floor of an existing building contrary to ZR §42-10. M1-2 zoning district.

PREMISES AFFECTED – 620 Degraw Street, Block 427, Lot 21, Borough of Brooklyn.

COMMUNITY BOARD #6BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”) Examiner, dated April 16, 2018, acting on DOB Application No. 321679028, reads in pertinent part:

A Physical Culture use is not permitted, as of right, in an M1-2 Zoning District as per sections 42-10 and 73-36 of the Zoning Resolution; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, on a site located within an M1-2 zoning district, a proposed physical culture establishment (“PCE”) on a portion of the first floor of an existing one-story building, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on September 13, 2018, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, the Board was in receipt of two (2) form letters in support of this application; and

WHEREAS, Community Board 6, Brooklyn, recommends approval of this application on condition that the operator work with the adjacent business owners and the community board to help alleviate illegal parking, which affects deliveries in the area; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, the subject site is a lot located on the south side of Degraw Street, bound by 3rd Avenue and 4th Avenue, within an M1-2 zoning district in Brooklyn; and

WHEREAS, the site has approximately 155 feet of frontage along Degraw Street, 100 feet of depth, 15,500 square feet of lot area and is occupied by a one-story building, a portion of which will be dedicated to the proposed PCE; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, the applicant represents that, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be

MINUTES

- satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant submitted evidence that the subject PCE will occupy 9,133 square feet of floor area on the ground floor of the existing building with a three-lane swimming pool, changing rooms with showers, bathrooms, a viewing area, reception area, and offices; and

WHEREAS, the applicant represents that the PCE will operate as Goldfish Swim School with the following proposed hours of operation: Sunday 9:00 a.m. to 6:00 p.m.; Tuesday 3:30 p.m. to 7:00 p.m.; Wednesday and Thursday 9:00 a.m. to 7:00 p.m.; Friday 9:00 a.m. to 8:00 p.m.; and Saturday 9:00 a.m. to 3:00 p.m.; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because it is located entirely within a commercial building – the other tenant in the subject building is a Use Group 12A eating or drinking establishment with dancing – in an area surrounded primarily by commercial buildings; and

WHEREAS, the applicant represents that the proposed space is of slab on grade construction with a recessed concrete swimming pool, that, because the building is one-story, there are no tenants below or above the proposed PCE and that the occupancies adjacent to the space are an eating or drinking establishment with dancing to the west and a vacant lot to the east; and

WHEREAS, with regards to sound attenuation measures proposed for or already existing at the site, the applicant submits that the existing exterior wall of the subject building is 8-inch thick brick with 1/2-inch gypsum board on one face along the north, south and east lot lines with an STC rating of 53; the existing interior insulated metal stud demising wall between the PCE and adjacent eating or drinking establishment with dancing has an STC rating of 45; the spaces adjoining the demising wall between

the PCE and the eating or drinking establishment with dancing consist solely of changing rooms, bathrooms and a reception area; the pool, located at the western end of the subject building, is separated by a glazed interior partition and a distance of more than 35 feet; and that penetrations or openings in walls, partitions or floors for pipe sleeves, electric devices, etc. shall be packed, sealed, lined, back-plastered or otherwise isolated by sufficient mass to maintain those surfaces' respective STC ratings; and

WHEREAS, accordingly, the Board finds that the PCE will be so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant represents that the PCE contains facilities for the provision of physical fitness instruction, specifically classes that teach swimming and swim safety skills utilizing the proposed swimming pool, which has 1,875 square feet; and

WHEREAS, accordingly, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, by letter dated September 12, 2018, the Fire Department confirms that the premises are fully protected by an existing sprinkler system and that the Fire Department permit is current, but requires that a fire alarm be installed in the PCE space and that non-ammonia based fire extinguishers also be installed due to the fact that chemicals will be stored on the premises for the maintenance of the pool and the adjacent eating or drinking establishment with dancing has permits issued by the Fire Department for the storage of combustible and corrosive liquids; and

WHEREAS, the applicant represents that a fire alarm system – including area smoke detectors, manual pull stations at each required exit and local audible and visual alarms – will be installed in the entire PCE space; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood on account of its location in relationship to its neighbors and its limited size; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 18-BSA-131K, dated April 27, 2018; and

Therefore it is Resolved, that the Board of Standards

MINUTES

and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located within an M1-2 zoning district, the operation of a physical culture establishment in a portion of a one-story building, contrary to ZR § 42-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “April 27, 2018” – Four (4) sheets; and *on further condition*:

THAT the term of the PCE grant shall expire on September 13, 2028;

THAT the following sound attenuation measures shall be maintained as indicated on the Board-approved plans: exterior 8-inch brick independent wall with 1/2-inch gypsum board on one face along the north, south and east lot lines with an STC rating of 53; interior insulated metal stud demising wall between the PCE and adjacent eating and drinking establishment with dancing with an STC rating of 45; penetrations or openings in walls, partitions or floors for pipe sleeves, electric devices or similar shall be packed, sealed, lined, back-plastered or otherwise isolated by sufficient mass to maintain those surfaces’ respective STC ratings; and

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance under Local Law 58/87 shall be as reviewed and approved by DOB;

THAT the fire alarm – including area smoke detectors, manual pull stations at each required exit and local audible and visual alarms – shall be installed within the PCE space and sprinkler systems shall be maintained as indicated on the Board-approved plans;

THAT the non-ammonia-based fire extinguishers be provided as required by the New York City Fire Department; and

THAT minimum 3 foot wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT a Certificate of Occupancy shall be obtained within four (4) years, by September 13, 2022

THAT substantial construction, in accordance with the BSA-approved plans, shall be completed pursuant to ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not

related to the relief granted.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated April 1, 2016, acting on Alteration Application No. 321271413, reads in pertinent part:

1. Creates non-compliance with respect to the side yards by not meeting the minimum requirements of Section 23-461 of the Zoning Resolution.
2. Creates non-compliance with respect to the rear yard by not meeting the minimum requirements of Section 23-47 of the Zoning Resolution; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03 to *permit*, in an R5 zoning district, the enlargement of an existing detached residence that does not comply with zoning regulations for side yards and rear yards, contrary to ZR §§ 23-461 and 23-47; and

WHEREAS, a public hearing was held on April 25, 2017, after due notice by publication in *The City Record*, with continued hearings on June 20, 2017, August 15, 2017, October 31, 2017, January 9, 2018, and January 23, 2018, and then to decision on January 30, 2018; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of East 14th Street, between Avenue S and Avenue T, in an R5 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 40 feet of frontage, 100 feet of depth, 4,000 square feet of lot area and is occupied by a three-story, with cellar, two-family detached residence; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single- or two-family detached or semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and

- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage, open space, floor area, side yard, rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear*

MINUTES

yard is not located within 20 feet of the rear lot line; and

- (3) any enlargement resulting in a non-complying perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the enlarged building is adjacent to a single- or two-family detached or semi-detached residence with an existing non-complying perimeter wall facing the street. The increased height of the perimeter wall of the enlarged building shall be equal to or less than the height of the adjacent building's non-complying perimeter wall facing the street, measured at the lowest point before a setback or pitched roof begins. Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the enlarged building will not alter the essential character of the neighborhood or district in which the building is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, inter alia, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge an existing detached residence, as contemplated in ZR § 73-622; and

WHEREAS, the applicant originally proposed to convert the two-family residence to a single-family detached residence and to enlarge the subject building by reducing the rear yard from 23'-2" to 20'-0", maintaining the existing side yards with depths of 2'-6" and 8'1" increasing the floor area ratio ("FAR") from 0.59 (2,372 square feet of floor area) to 1.13 (4,507 square feet of floor area), decreasing open space from 70 percent to 51 percent and increasing the height of the proposed building from 36 feet to 40 feet; and

WHEREAS, in response to questions from the Board regarding the incursion of the enlarged building's rear yard and massing on the built character of the subject block and neighborhood, the applicant redesigned the proposed building to maintain the existing rear yard and to reduce the floor area and height while increasing open space; and

WHEREAS, the applicant also revised the drawings to clarify that the proposed building will be an enlargement of an existing building and submitted evidence of existing non-

compliances; and

WHEREAS, the applicant proposes to enlarge the subject building by maintaining the existing side yards with depths of 2'6" and 8'1" and maintaining the existing rear yard with a depth of 23'-2¾"; and

WHEREAS, the applicant represents that, at the subject site, side yards must have a minimum depth of 5 feet and 8 feet under ZR § 23-461 and rear yards must have a minimum depth of 30 feet under ZR § 23-47; and

WHEREAS, the applicant represents that the enlarged building proposed is consistent with the character of the neighborhood; and

WHEREAS, in support of this contention, the applicant surveyed properties in the surrounding area, finding that 10 properties have rear yards with depths less than 26 feet, eight of which have rear yards with depths less than 23'-3", and that the distances between most of the residences on the east side of East 14th Street are equal to or smaller than the existing conditions between the subject site and adjacent residences; and

WHEREAS, the applicant also submitted, among other evidence, a photographic streetscape illustrating that the proposed enlargement is in context with surrounding properties as well as a building-face width diagram, front yard diagram, streetscape study and lot coverage diagram; and

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, the Board finds that the proposed building as enlarged will not alter the essential character of the neighborhood or district in which the subject building is located, nor impair the future use or development of the surrounding area; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed bulk modifications is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 16BSA116K, dated May 2, 2016; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73 03 and that the applicant has substantiated

MINUTES

a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby issue a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§73-622 and 73-03 to *permit*, in an R5 zoning district, the enlargement of an existing detached residence that does not comply with zoning regulations for side yards and rear yards, contrary to ZR §§23-461 and 23-47; *on condition* that all work and site conditions shall substantially conform to drawings filed with this application marked “Received January 24, 2018”-Fifteen (15) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: side yards shall have minimum depths of 2’-6” and 8’1”, and the rear yard shall have a minimum depth of 23’-2¾”, as illustrated on the Board-approved plans;

THAT removal of existing joists or perimeter walls in excess of that shown on the Board-approved plans shall void the special permit;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by January 30, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 30, 2018.

***The resolution has been Amended. Corrected in Bulletin Nos. 36-38, Vol. 103, dated September 23, 2018.**

Carlo Costanza, Executive Director

MINUTES

**REGULAR MEETING
THURSDAY MORNING, SEPTEMBER 27, 2018
10:00 A.M.**

Present: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.

SPECIAL ORDER CALENDARS

341-43-BZ

APPLICANT – Seyfarth Shaw LLP, for SP HHF Sub B LLC, owner.

SUBJECT – Application April 13, 2018 – Extension of Term (§11-411) of a previously approved variance which permitted a storage warehouse (UG 16B) which expired on June 4, 2016; Waiver of the Board’s Rules. C2-4, C2-3, R7A and R5 zoning district.

PREMISES AFFECTED – 3319 Atlantic Avenue, Block 4145, Lot(s) 1, 13, 23, Borough of Brooklyn.

COMMUNITY BOARD #5BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and an extension of the term of a variance, previously granted by the Board; and

WHEREAS, a public hearing was held on this application on July 24, 2018, after due notice by publication in *The City Record*, and then to decision on September 27, 2018; and

WHEREAS, Commissioner Scibetta performed an inspection of the site and the surrounding neighborhood; and

WHEREAS, the subject site is comprised of three contiguous tax lots located on Block 4145: tax lot 1, located the northeastern corner of Atlantic Avenue and Euclid Avenue, within an R7A (C2-4) zoning district; tax lot 13, located immediately to the north and adjacent to tax lot 1, within an R7A zoning district; and tax lot 23, located immediately to the north and adjacent to tax lot 13, partially within an R5 zoning district and partially within an R5 (C2-3) zoning district, in Brooklyn; and

WHEREAS, tax lot 1 has approximately 156 feet of frontage along Atlantic Avenue, 142 feet of frontage along Euclid Avenue, 19,686 square feet of lot area and is occupied by a four-story warehouse; tax lot 13 is an L-shaped lot with approximately 70 feet of frontage along Euclid Avenue, 14,987 square feet of lot area and is partially occupied by a one-story warehouse and tax lot 23 is located

within the middle of Block 4145, has no frontage on any surrounding street, has a length of approximately 250 feet parallel to Euclid Avenue, 53 feet parallel to Atlantic Avenue, 13,235 square feet of lot area and is occupied by a one-story warehouse; and

WHEREAS, the Board has exercised jurisdiction over tax lot 1 site since January 4, 1944, when, under the subject calendar number, the Board granted a variance to permit, in a residence use district, the maintenance of extensions to an existing wet was laundry and accessory driveway, on condition that the buildings located on the lot not be further extended in height or area and only so long as the premises be maintained substantially as set forth; any trucks belonging to or used in connection with the laundry be stored when not in use, within the premises and not along the streets and when being supplied with gasoline be supplied within the lot; the existing fencing and shrubbery as proposed be maintained; the building and occupancy comply with all other laws, rules and regulations applicable thereto in all other respects; all permits required be obtained and all work completed within one (1) year from the date of the resolution; and

WHEREAS, on July 25, 1944, under the subject calendar number, the Board amended the 1944 variance resolution to permit extended building height and area only for necessary construction in connection with a new roof for the metal building as indicated on approved plans, and to extend the time to complete to one (1) year from the date of the amendment; and

WHEREAS, on November 12, 1947, under the subject calendar number, the Board further amended the resolution to permit accessory dry cleaning and add that the buildings on the site may be further extended for the proposed use as indicated on the revised plans with the location of gasoline pump and entrance relocated on condition that the building and occupancy comply with all laws, rules and regulations in all other respects, the boiler equipment be arranged that there not be undue smoke or gases from the chimney on the premises and such smoke reducing equipment be attached as to prevent undue smoke or gases and all permits required be obtained and all work completed within one (1) year; and

WHEREAS, on December 9, 1947, under the subject calendar number, the Board further amended the 1944 variance to permit further extension of the wet wash laundry consistent with revised plans and relocation of gasoline pumps and entrances on condition that the boiler equipment be arranged so that there be no undue smoke or gas from the chimney on the premises and such appliance be installed in connection with the heater and chimney as to prevent undue smoke or gas and all permits required be obtained and all work completed within one (1) year; and

WHEREAS, on November 23, 1948, and October 23, 1951, under the subject calendar number, the Board amended the 1944 variance to extend the time to complete construction for six (6) months from the dates of the respective amendments; and

WHEREAS, on September 24, 1957, under the subject

MINUTES

calendar number, the Board amended the resolution to permit the moving of an eight-inch wall to reduce the area used for garment storage as indicated on revised plans; and

WHEREAS, on May 12, 1959, under the subject calendar number, the Board granted a variance to permit the extension of a laundry with accessory dry cleaning, previously solely on tax lot 1, onto adjoining tax lots 13 and 23 – including the conversion of Building B, a one-story public garage located on tax lot 13 and the alteration of 55 one-car garages and one 2-car garage on tax lot 23 – with the addition of accessory laundry truck storage use and the extension of the Building B for accessory laundry storage use on condition that there be no connection to or use extending into the small garages and driveways on tax lot 23; the loading platform in the new public garage be along the south wall and extend 20 feet to the north to the office at Euclid Avenue front; there be a fire door through the brick walls to the garment rack part of the existing laundry to the south, said firewall to be protected by doors as required by the Building Code; the areas of the public garage not used for loading and unloading may be used for the Riteway Laundry trucks for storage; the garage building be continued and maintained as now existing in all other respects without any extension in area or height; portable fire-fighting appliances be maintained as the Fire Commissioner directs; the existing vehicular door in the north wall of the public garage opening on to the driveway of the individual garages on lot 23 be bricked up to a pedestrian doorway not exceeding 3 feet in width and 7 feet in height; this doorway be used for no other purpose but an emergency exit and not be used in any way in conjunction with the loading or unloading or in any otherwise in conjunction to the use of the garage or as accessory to the laundry on Atlantic Avenue; and all permits and a certificate of occupancy be obtained and all work completed within one (1) year; and

WHEREAS, on December 4, 1962, under the subject calendar number, the Board granted a variance, for a term of 25 years, expiring December 4 1987, to permit the conversion of a bank of 57 single-car public garages into laundry supplies and garment storage and the extension of the interior parking on condition that the work be done in accordance with drawings filed with the application; the passageway from Euclid Avenue and the door in the west wall of the storage space be used for emergency egress only; no manufacturing or work be done in the additional space; and all work to be completed and a certificate of occupancy obtained within one (1) year from the date of the resolution; and

WHEREAS, on July 9, 1963, under the subject calendar number, the Board amended the December 4, 1962, resolution by adding “that this variance shall not be deemed to prohibit the owner from altering any building on its premises, other than those affected by this resolution, in any manner permitted by the provisions of the Zoning Resolution than [sic] in effect; that the changes shown on the drawings marked Received May 29, 1963, 3 sheets, shall be permitted, including the construction of an archway to the

passage from Euclid Ave., with dimensions as shown, to prevent the entrance of other than a passenger car into the driveway, on condition that other than as herein amended the resolution above cited shall be complied with in all respects;” and

WHEREAS, on May 3, 1988, under the subject calendar number, the Board reopened and amended the variance to include tax lot 123, grant an extension of the term of the variance for ten (10) years, expiring December 4, 1997, on condition that the sidewalk and curb be restored as per revised approved plans and to extend the time to obtain a certificate of occupancy to one (1) year from the date of the amendment; and

WHEREAS, on June 4, 1996, under the subject calendar number, the Board permitted a change in occupancy of the site from a laundry establishment (Use Group 16) to storage warehouse (Use Group 16), removed tax lot 123 from the variance, and extended the term of the variance for ten (10) years, expiring June 4, 2006, on condition that the easement over tax lot 123 be maintained, the site be kept graffiti-free, the building have an automatic dry sprinkler system connected to a Fire Department approved central station, the revised drawings be substantially complied with and that a certificate of occupancy be obtained within one (1) year of the date of the amendment; and

WHEREAS, on September 26, 2006, under the subject calendar number, the Board extended the term of the variance for ten (10) years, expiring June 4, 2016, and amended the variance to permit modifications to the previously approved plans, specifically, the removal of a partition on the second floor and replacement of a chain link fence around the accessory parking area with masonry; and

WHEREAS, on June 12, 2007, the Board issued a letter stating that proposed changes at the site – the demolition of the two-story building portion on lot, construction of a four-story building in its place, relocation of the curb cut on Atlantic Avenue and the addition of a curb cut along Euclid Avenue – substantially complied with the Board’s prior grant and the Board had no objection to such changes; and

WHEREAS, the prior term having expired, the applicant now seeks an extension of the term of the variance, first issued in 1944, pursuant to ZR § 11-411; and

WHEREAS, ZR § 11-411 states:

Where no limitation as to the duration of the *use* was imposed at the time of [the variance authorized by the Board of Standards and Appeals pursuant to the 1916 Zoning Resolution], such *use* may be continued. Where such *use* was authorized subject to a term of years, such *use* may be continued until the expiration of the term, and thereafter, the agency which originally

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

authorized such *use* may, in appropriate cases, extend the period of continuance for one or more terms or not more than 10 years each. The agency may prescribe appropriate conditions and safeguards to minimize adverse effects of such *use* on the character of the neighborhood;

WHEREAS, in addition, because this application was filed less than 2 years after the expiration of the term, the applicant requests a waiver, pursuant to § 1-14.2 of the Board's Rules of Practice and Procedure (the "Board's Rules"), of § 1-07.3(b)(2) to permit the filing of this application; and

WHEREAS, § 1-07.3(b)(2) of the Board's Rules requires a demonstration by the applicant that the use has been continuous since the expiration of the term, and that substantial prejudice would result without such a waiver; and

WHEREAS, accordingly, the applicant provided utility company bills for the subject site from ConEdison continuously covering the entire period of May 2016, prior to the expiration of the previous term of the variance, through April 2018, the date of the application; and

WHEREAS, the applicant additionally states that substantial prejudice would result without a waiver of the § 1-07.3(b)(2) of the Board's Rules because it would jeopardize the ability of a 20-year-old established storage business to lawfully continue operations at the site and require, among other things, the return of all the customers' stored belongings; and

WHEREAS, at the public hearing, the Board requested the removal of the barbed wire at the site and inspection of the exterior walls of Building B, located on the landlocked tax lot 23 and surrounded by residential uses; and

WHEREAS, in response, the applicant provided photographs demonstrating the removal of the barbed wire and a letter from the applicant's architect attesting to his inspection of the exterior walls of Building B are in good condition and have no visual signs of structural damage; and

WHEREAS, based upon its review of the record, the Board has determined that the requested waiver of the Board's Rules and extension of the term of the variance are appropriate with certain conditions as set forth below; and

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *waive* § 1-07.3(b)(2) of the Board's Rules of Practice and Procedure and, pursuant to ZR § 11-411, *reinstates* and *amends* a previously-granted variance to permit, on a site located partially within an R7A (C2-4), partially within an R7A zoning district, partially within an R5 zoning district and partially within an R5 (C2-3) zoning district, the operation of a storage warehouse and lawful uses accessory thereto *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received April 20, 2018"-Seven (7) sheets; and *on further condition*:

THAT the term of this grant shall expire on June 4, 2026;

THAT annual inspections of the perimeter walls and

exterior walls of the buildings on the site – including and in particular those walls abutting residential zoning lot lines – shall be conducted and, in the case that any repairs (including but not limited to repointing) are required, permission from neighbors shall be obtained, as necessary, to perform such repairs and/or maintenance;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT a revised certificate of occupancy shall be obtained within one (1) year, by September 27, 2019;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdictional objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, September 27, 2018.

APPLICANT – Eric Palatnik, P.C., for Sandra Yetman, owner; BP Products North America Inc., lessee.

SUBJECT – Application October 8, 2015 – Extension of Term (§11-411) of a previously approved variance which permitted the operation of an Automotive Service Station (UG 16B) which expires on November 18, 2015. C2-4/R7-1 zoning district.

PREMISES AFFECTED – 691 East 149th Street, Block 2623, Lot 140, Borough of Bronx.

COMMUNITY BOARD #1BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for an extension of the term of a variance previously granted by the Board, which expired on November 18, 2015; and

WHEREAS, a public hearing was held on this application on July 19, 2016, after due notice by publication in *The City Record*, with continued hearings on September 27, 2016, March 7, 2017, January 9, 2018, May 15, 2018, June 26, 2018, August 7, 2018 and September 27, 2018, and then to decision on that date; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Scibetta, former Vice-Chair Hinkson, and former Commissioner Montanez performed inspections of the site and the surrounding neighborhood; and

MINUTES

WHEREAS, Community Board 1, the Bronx, recommended approval of the subject application; and

WHEREAS, the Board was also in receipt of 15 letters in opposition to the subject application, citing the incompatibility of the subject use with the surrounding area, poor maintenance of the site, and health concerns due to the nature and operation of the facility in a largely residential neighborhood; and

WHEREAS, the subject site is bound by East 149th Street to the south, Jackson Avenue to the east, and Trinity Avenue to the west, in an R7-1 (C2-4) zoning district, in the Bronx; and

WHEREAS, the site has approximately 208 feet of frontage along East 149th Street, 75 feet of frontage along both Jackson Avenue and Trinity Avenue, 15,600 square feet of lot area and is occupied by a gasoline service station and accessory convenience store kiosk; and

WHEREAS, the Board has exercised jurisdiction over the subject site since November 14, 1950, when, under the subject calendar number, the Board granted a variance to permit the occupation of the subject site with a proposed gasoline service station, auto washing, lubrication, office, and sale of auto accessories for a term of fifteen (15) years, expiring November 14, 1965, on condition that all buildings and uses on the premises be removed and the plot be leveled substantially to the grade of East 149th Street; the premises be arranged substantially as indicated on plans filed with the application; the accessory building be arranged substantially as indicated and for the uses shown and comply in all respects with the requirements of the Building Code; the front and two ends of the building be faced with face brick instead of enameled steel; the pumps be not nearer than ten (10) feet from their bases to the street building line; the number of gasoline storage tanks be restricted to eight (8) 550-gallon tanks; planting be maintained with curbing as indicated; a masonry wall be constructed on the side and rear lot lines not less than five (5) feet six (6) inches in height, except where there are adjoining buildings on the lot lines; curb cuts be restricted to three (3) to East 149th Street and one (1) to Jackson Avenue, each 30 feet in width; at the intersection within the building line of East 149th Street and Jackson Avenue there be constructed and maintained a block of concrete extending for a distance of five (5) feet from the intersection within the building line and to a height of not less than 12 inches, with such block of concrete permitted to be segmental in shape; sidewalks and curbing adjoining the premises be reconstructed or repaired to the satisfaction of the borough president; no curb cut be nearer than five (5) feet to any lot line as prolonged; where not occupied by accessory building, pumps, and planting, the balance of the premises be paved with concrete or bituminous paving; signs be restricted to a permanent sign attached to the façade of the building and to the illuminated globes of the pumps, excluding all roof signs and temporary signs, but permitting the erection within the plot near the intersection of East 149th Street and Jackson Avenue of a post standard to support a sign which may be illuminated, advertising only

the brand of gasoline on sale, permitting such sign to extend for a distance of not over four (4) feet beyond the building line; the accessory uses may include auto washing, lubritorium, office, and sale of auto accessories as proposed; such portable fire-fighting appliances be installed as the fire commissioner may direct; before plans are filed with the borough superintendent, working drawings in accordance with the terms of the resolution be submitted to the Board within six (6) months from the date of the resolution; and all permits required be obtained and all work completed within one (1) year from the date of approval of such plans; and

WHEREAS, on January 16, 1951, under the subject calendar number, the Board reopened the application and approved the plans as being in substantial compliance with the requirements of the resolution adopted on November 14, 1950; and

WHEREAS, on June 11, 1957, under the subject calendar number, the Board amended the variance to permit an increase in the maximum number of total gasoline storage tanks permitted at the site from eight (8) to twelve (12) 550-gallon tanks; and

WHEREAS, on October 19, 1965, under the subject calendar number, the Board extended the term of the variance for ten (10) years, expiring October 19, 1975, on condition that the November 14, 1950, resolution be otherwise complied with in all respects and that a certificate of occupancy be obtained; and

WHEREAS, on November 18, 1975, under the subject calendar number, the Board extended the term of the variance for ten (10) years, expiring November 18, 1985, and amended the resolution to omit required shrubbery from along the northerly and westerly lot lines, on condition that the resolution be complied with in all respects and a new certificate of occupancy be obtained; and

WHEREAS, February 24, 1976, under the subject calendar number, the Board amended the variance to permit the accessory use of minor adjustment or repair of motor vehicles with hand tools only in the automotive service station building, on condition that the resolution be otherwise complied with in all respects, and a new certificate of occupancy be obtained within one (1) year from the date of the amended resolution; and

WHEREAS, on January 19, 1988, under the subject calendar number, the Board extended the term of the variance for ten (10) years, expiring November 18, 1995, for the gasoline service station only, and amended the resolution to rectify the Board's record in order to show a change in the former use of the westerly portion of lot 140 (50 feet by 75 feet) from stores and residential dwellings to parking and storage of more than five (5) motor vehicles, on condition that there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic; the resolution otherwise be complied with in all respects; and a new certificate of occupancy be obtained within one (1) year from the date of the amended resolution; and

WHEREAS, on October 4, 1988, under BSA Cal. No. 452-88-A, the Board granted an appeal of the Borough

MINUTES

Superintendent's decision and permitted the proposed use of self-service gasoline pumps, contrary to Section 27-4081(b) of the Administrative Code, on condition that the permit to operate the station be limited to a term expiring on November 18, 1990; a trained attendant who possesses a Certificate of Fitness for the dispensing of gasoline or diesel fuel for motor fuel be on duty at all times to monitor the operation of the pumps and have no other duties while any self-service pump is in operation and be located in an enclosure separated from all other activities by partitions not less than seven (7) feet in height; it be the attendant's duty to require the engine of any vehicle be shut off before the start of the fuel operation, and to prohibit smoking within the immediate area of the fuel operation; it be the attendant's duty to prevent the dispensing of gasoline, diesel, or other motor vehicle fuel into portable containers; signs reading "NO SMOKING," "STOP YOUR ENGINE," "IT IS UNLAWFUL TO DISPENSE GASOLINE, DIESEL OR OTHER MOTOR VEHICLE FUEL INTO PORTABLE CONTAINERS," and "THE DISPENSING OF GASOLINE SHALL BE DONE BY A PERSON HOLDING A VALID DRIVERS LICENSE OR A PERSON 18 YEARS OF AGE OR OLDER," be conspicuously posted in clear view of the customer at the dispensing island; portable fire extinguishers be provided and, in type, quantity and location acceptable to the Fire Commissioner; all dispensing devices and fire suppression systems be approved by the Board and be installed in accordance with the requirements of the testing laboratory upon which the approval is based; the suppression system be arranged in a manner so as to cover an area around each pump encompassed by a circle having a radius equal to the maximum extendable length of the hose and nozzle of said pump and the gauges for the tanks serving the fire suppression system be positioned so as to be easily readable; the installation and use of coin-operated dispensing devices for fuel be prohibited; there be constant contact between the attendant in the control booth and the dispensing island by means of a voice intercommunication system maintained in a proper operating condition at all times; all controls, devices, fire suppression systems, and firefighting equipment be maintained in good operating order at all times; a maintenance log be kept on the premises as per direction of the Fire Commissioner; all dispensing nozzles be of the automatic closing type without hold open latches; a list of emergency procedures and instructions be conspicuously posted in the immediate vicinity of the attendant's principal control location, and said instructions be at the direction of the Fire Commissioner; the dispensing areas, at all times, be well lit for complete visual control; all of the conditions set forth in this resolution be conspicuously posted in the attendant's booth; there be no servicing or repair of motor vehicles on the premises; mirrors be provided which ensure that the person with the Certificate of Fitness in the control booth can readily see the people operating any of the self-service devices; manual switches be provided which actuate the fire suppression system and electrically disconnect the pumps, and that these switches be

located adjacent to each other and within five (5) feet of the console which controls the self-service operation; the gasoline station be operated in such a manner which minimizes traffic congestion; the windows and the glass panels of the control booth remain clear and unobstructed at all times; the building, equipment, devices, and controls substantially conform to plans filed with the application; substantial construction be completed within one (1) year from the date of the resolution; and all applicable laws, rules, and regulations be complied with; and

WHEREAS, also on October 4, 1988, under the subject calendar number, the Board amended the prior variance resolution, in accordance with the conditions of the resolution granted under BSA Cal. No. 452-88-A, to permit the erection of a new 28 feet by 90 feet steel canopy over three (3) new gasoline pump islands with new "MPD" self-service pumps; to demolish the existing building and erect a new seven (7) feet eight (8) inch by 15 feet eight (8) inch kiosk on the new center island; to install a three (3) by twelve (12) foot vending cabinet for three (3) vending machines; to eliminate all uses other than gasoline service station; to install a new ten (10) by ten (10) foot trash enclosure; to eliminate the parking lot thereby increasing the size of the gasoline service station and to eliminate the two (2) curb cuts located at the southwest corner of the premises, all in accordance with the revised plans of the proposed conditions submitted to the Board on condition that the two (2) parking spaces as shown on plan be for employees only; there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic; substantial construction be completed within one (1) year from the date of the amended resolution; and other than as herein amended, the resolution shall be complied with in all respects; and

WHEREAS, on June 23, 1992, under the subject calendar number, the Board amended the resolution to permit the erection of a one (1) story and cellar class 1C building (30 feet by 24 feet) with 720 square feet to be occupied as a convenience store on condition that the building conform to proposed conditions plans filed with the application; on condition that the resolution otherwise be complied with in all respects; and a certificate of occupancy be obtained within one (1) year from the date of the amended resolution; and

WHEREAS, on January 25, 1994, under the subject calendar number, the Board amended the resolution to permit the sub-division of a zoning lot, previously before the Board, by reducing the size of the gasoline service station on condition that the chain link fence and guard rail along the property line be installed and adequately maintained in compliance with the proposed plans submitted with the application; on condition that the resolution be complied with in all respects; and a new certificate of occupancy be obtained within one (1) year from the date of the amended resolution; and

WHEREAS, on May 20, 1997, under the subject calendar number, the Board waived its Rules of Practice and

MINUTES

Procedure and extended the term of the variance for ten (10) years, expiring November 18, 2005, on condition that the guardrail along the property line, fencing, and trash enclosure be maintained in accordance with the BSA approved plans; the signs be in accordance with the BSA approved plans; the premises be maintained in substantial compliance with the existing and proposed plans submitted with the application; the resolution otherwise be complied with in all respects; and a new certificate of occupancy be obtained within one (1) year from the date of the amended resolution; and

WHEREAS, on October 31, 2006, under the subject calendar number, the Board again waived its Rules of Practice and Procedure, extended the term of the variance for ten (10) years, expiring November 18, 2015, and amended the resolution to legalize modifications to the previously approved signage at the site on condition that the use substantially conform to plans filed with the application; accessory parking at the site be limited to two cars; there be no car sales at the site; a permanent fence without any opening be maintained between the site and tax lot 141 as indicated on the BSA approved plans; all conditions from prior resolutions not specifically waived by the Board remain in effect; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and the Department of Buildings ensures compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, the prior term having expired, the applicant now seeks an extension of the term of the variance, first issued in 1950, pursuant to ZR § 11-411; and

WHEREAS, ZR § 11-411 states:

Where no limitation as to the duration of the *use*2 was imposed at the time of [the variance authorized by the Board of Standards and Appeals pursuant to the 1916 Zoning Resolution], such *use* may be continued. Where such *use* was authorized subject to a term of years, such *use* may be continued until the expiration of the term, and thereafter, the agency which originally authorized such *use* may, in appropriate cases, extend the period of continuance for one or more terms or not more than 10 years each. The agency may prescribe appropriate conditions and safeguards to minimize adverse effects of such *use* on the character of the neighborhood;

WHEREAS, the Board notes that the use of the

westerly portion of the subject lot for storage and a parking lot was first permitted pursuant to an amendment to the subject variance on January 19, 1988, and though a public parking lot with a capacity of 150 spaces or less is now permitted at the subject site as-of-right pursuant to ZR § 32-17, it remains on the same zoning lot as the gasoline service station use (a use that is still not permitted at the subject site as-of-right pursuant to ZR § 32-25 and requires the extension of the term of the subject variance to continue operating), remains subject to the Board's jurisdiction and, thus, the Board maintains an interest in ensuring its satisfactory maintenance and compliance with all applicable laws and regulations; and

WHEREAS, several hearing dates on this application were adjourned to provide sufficient time for the applicant to explore subdividing the westerly portion of the lot onto its own zoning lot, thereby reducing the size of the zoning lot under the Board's jurisdiction under the subject calendar number, but the applicant ultimately decided to not pursue a zoning lot subdivision; and

WHEREAS, therefore, in response to concerns regarding the maintenance of the portion of the subject site utilized as a public parking lot, its compliance with conditions set forth in prior resolutions and the absence of the use on the subject site's certificate of occupancy (Certificate of Occupancy No. 200993826F, issued on June 17, 2009), the applicant installed landscaping at the site, removed graffiti, repaired the fencing surrounding this portion of the zoning lot, obtained a renewed Parking Lot License from the New York City Department of Consumer Affairs and provided evidence of having filed a Schedule A with the New York City Department of Buildings (Alteration Type I; DOB Job No. 220652817) to include "public parking for more than (5) cars," Use Group 8, on the site's certificate of occupancy; and

WHEREAS, in response to concerns from neighbors regarding potential open spills at the site, Board staff reviewed the subject site's spill history and provided the Board with a New York State Department of Environmental Conservation ("DEC") Spill Report (Spill No. 0109779) indicating that a spill occurred at the subject site on January 9, 2002, and that such spill was closed in or around August 10, 2017 (the "Spill Report"); and

WHEREAS, specifically, DEC's Spill Report states: Spill closed due to: natural attenuation of residual groundwater contamination evidences by reduction in on-site concentrations as well as minimal groundwater contamination across street from site in wells MW-7 and MW-12; removal of source USTs and piping, cleanup to the extent 'feasible' including cost effectiveness as per CP-51 guidance as undulating bedrock geology makes investigational and remedial activities to residual groundwater contamination not cost effective considering future use of site; site will remain a commercial gas station; inclusion on residual contamination cautionary close in Spill

1 There is no New York City Department of Finance tax map evidencing the existence of a tax lot 141 on the subject block and such reference is likely to the westerly portion of the subject lot utilized as a public parking lot.

2 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

Closure letter; site is not a 'threat to the wider community' as per DEC Central office guidance; and

WHEREAS, by letter dated July 27, 2018, the Fire Department stated that it had no objection to this application; and

WHEREAS, based upon its review of the record, the Board has determined that the extension of the term of the variance are appropriate with certain conditions as set forth below; and

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby, pursuant to ZR § 11-411, *reopens* and *amends* a previously-granted variance to permit, on a site located within an R7-1 (C2-4) zoning district, the operation of a gasoline service station and lawful uses accessory thereto *on condition* that all work and site conditions shall conform to plans filed with this application marked "Received December 21, 2017"-Six (6) sheets; and *on further condition*:

THAT this grant shall be limited to a term of ten (10) years, to expire on November 18, 2025;

THAT a revised certificate of occupancy indicating both Use Group 16B (automotive service station and attendants' booth (no repairs of any kind) and Use Group 8 (public parking for more than five (5) cars) uses at the site shall be obtained within one (1) year of the issuance of this resolution;

THAT accessory parking on the Use Group 16B portion of the site shall be limited to two (2) cars;

THAT there shall be no car sales at the site;

THAT a permanent fence without any openings shall be maintained between the two uses on the site;

THAT the site shall be cleaned and maintained;

THAT the placement and size of all signs shall be as indicated on the BSA-approved plans;

THAT all conditions from prior resolutions, including those issued under BSA Cal. No. 452-88-A, not specifically waived by the Board remain in effect;

THAT the above conditions shall appear on the certificate of occupancy;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, September 27, 2018.

COMMUNITY BOARD #11Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta, Commissioner Scibetta4

Negative: Chair Perlmutter1

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board's Rules of Practice and Procedure and, pursuant to ZR § 11-411, an extension of the term of a variance, previously granted by the Board, which will expire on November 3, 2018, an amendment to the same, pursuant to ZR § 11-413, to facilitate a change in use and an extension of time to obtain a certificate of occupancy, which expired on April 1, 2015; and

WHEREAS, specifically, the applicant seeks to change the use of the site from Use Group 16 automotive repair to Use Group 9 automobile and waivers, pursuant to § 1-14.2 of the Board's Rules of Practice Procedure, of Rule § 1-07.3(d)(2) to permit the filing of an application for an extension of time to obtain a certificate of occupancy more than thirty (30) days after the expiration of that time and Rule § 1-07.3(b)(2) to permit the filing of an application for an extension of term more than one (1) year before the expiration of the term; and

WHEREAS, a public hearing was held on this application on August 23, 2016, after due notice by publication in *The City Record*, with continued hearings on October 18, 2016, December 13, 2016, January 31, 2017, and September 12, 2017, and then to dismissal on November 21, 2017, for lack of prosecution; and

WHEREAS, after the Board's decision on November 21, 2017, the applicant pursued an appeal pursuant to New York Civil Practice Laws and Rules Article 78 ("Article 78") to annul the Board's decision (DLC Properties LLC v. Perlmutter, Sup Ct, Queens County (Index No. 668/2018)); and

WHEREAS, pursuant to a stipulation signed by the applicant and the City, dated March 16, 2018, the

MINUTES

application was remanded to the Board for a review of its decision, pursuant to § 1-12.6 of the Board's Rules of Practice and Procedure; and

WHEREAS, the subject site is located on the south side of Northern Boulevard, between 206th Street and Oceania Street, partially within an R4 zoning district and partially within an R6B (C2-2) zoning district, in Queens; and

WHEREAS, the site is a through lot with approximately 50 feet of frontage along Northern Boulevard, 50 feet of frontage along 45th Road, 10,000 square feet of lot area and is occupied by an automotive repair shop; and

WHEREAS, the Board has exercised jurisdiction over the subject property since December 13, 1955, when, under the subject calendar number, the Board granted a variance to permit the construction of a one-story building to be used for body and fender repair, auto repairs, car and motor washing, welding, painting and spraying in conjunction with the owner's premises at the northwest corner of 209th Street and Northern Boulevard and to permit the use of the unbuilt upon space at the rear for a term of five (5) years, expiring December 13, 1960, on condition that the space at the rear be leveled and surfaced; a woven wire fence be positioned along the interior lot lines and rear lot lines with no openings therein to the property at either side or to 45th Road; a close split sapling fence be attached to the woven wire fence to a total height of five feet six inches facing on the exterior; firefighting appliances be maintained as the Fire Commissioner directs; the building not be increased in height or area beyond that proposed; the sidewalk and curbing in front of the premises be restored or repaired to the satisfaction of the Borough President; one gasoline pump and one 550 gallon approved storage tank be installed within the building solely for use by the owner for cars being repaired; and there be no sign on the exterior of the building advertising sale or storage of gasoline; and

WHEREAS, on April 3, 1956, under the subject calendar number, the Board amended the resolution to state that, in the event the owner wished to rearrange the interior layout of the building by installing approved type paint and spray booth instead of building a paint and spray room, installing four additional skylights, making a total of six, and constructing a 5'-6" high masonry wall along the east and west lot lines where the building does not occur and along the 45th Road building line with a 10 foot wide sliding wood gate and a 3 foot wide exit door and to install a 15 foot wide curb cut on 45th Road, such changes may be made provided the requirements of the resolution be complied with in all other respects; and

WHEREAS, on June 26, 1956, under the subject calendar number, the Board further amended the resolution insofar as it referenced the building line fences, permitted the fences previously required on 45th Road to be changed from 5'-6" high masonry wall to 8 foot high chain link fence with posts 10 feet on center and permitted a similar gate to 45th Road as was permitted by the April 3, 1956, resolution;

and

WHEREAS, on March 12, 1957, under the subject calendar number, the Board amended the reference to the gasoline dispensing system in the December 13, 1955, resolution to permit two additional gasoline pumps to be installed within the building and two 550 gallon approved gasoline storage tanks to be installed outside the building for the sole use by the owner for cars being repaired; and

WHEREAS, on September 17, 1958, under the subject calendar number, the Board further amended the resolution to add, in addition to the uses previously permitted at the site, the purchase, sale and exchange of automotive vehicles and products, provided that such uses were not contrary to any specific law, and to omit the reference to the site being used in connection with the owner's premises at the northwest corner of 209th Street and Northern Boulevard; and

WHEREAS, on November 15, 1960, under the subject calendar number, the Board extended the term of the variance for five (5) years, expiring November 15, 1965, on condition that illegal signs be removed on both the Northern Boulevard and 45th Road frontages and that a new certificate of occupancy be obtained; and

WHEREAS, on November 3, 1965, under the subject calendar number, the Board extended the term of the variance for another term of five (5) years, expiring November 3, 1970, on condition that a certificate of occupancy be obtained; and

WHEREAS, on February 23, 1971, under the subject calendar number, the Board extended the term of variance for a term of ten (10) years, expiring November 3, 1980, on condition that a new certificate of occupancy be obtained; and

WHEREAS, on June 18, 1974, under the subject calendar number, the Board amended the resolution to allow the lot to be reduced in area and the building to be substantially altered as shown on revised drawings; and

WHEREAS, on January 27, 1981, under the subject calendar number, the Board amended the resolution to extend the term for five (5) years, expiring November 3, 1985, on condition that vehicular traffic entering and exiting on 45th Road be kept to a minimum; the rule against parking on the sidewalk on Northern Boulevard and 45th Road be enforced; the gate adjoining the property immediately to the east be removed; the existing fences in back of the property for its full length be restrung and repaired; the existing fence and gate fronting on 45th Road be screened on the inside with wooden slates 8 inches wide by 3 inches apart placed horizontally and all fences and wood slats be repainted every two years; and that a new certificate of occupancy be obtained within one year, by January 27, 1982; and

WHEREAS, on July 9, 1986, under the subject calendar number, the Board, upon receiving a sworn affidavit from the owners declaring that they would close the opening in the fence between the subject lot and Lots 47 and 48 and operate with the doors facing 45th Road closed, the Board amended the resolution to extend the term of the

MINUTES

variance for three (3) years, expiring November 3, 1988, on condition that the hours of operation be limited to 8:30 a.m. to 5:00 p.m. Monday through Friday, closed Saturday and Sunday; the rear overhead doors facing 45th Road be kept closed at all times during business hours except when cars enter or leave the building; there be no opening on the easterly lot line fence between the subject lot and Lot 48; the adjacent Lots 47 and 48 not be used in conjunction with the site; the ventilation systems shown on the plans be kept operating at all times during business hours; that no certificate of occupancy be issued until the ventilation system was installed and operational; and that a new certificate of occupancy be obtained within six months, by January 9, 1987; and

WHEREAS, on February 13, 1990, under the subject calendar number, the Board extended the term of the variance for five (5) years, expiring November 3, 1993, and legalized the elimination of the spray paint booth, the gasoline pump and the body and fender repair uses on condition that a new certificate of occupancy be obtained within one year, by February 13, 1991; and

WHEREAS, on June 7, 1994, under the subject calendar number, the Board extended the term of the variance for five (5) years, expiring November 3, 1998, on condition that a new certificate of occupancy be obtained within one year, by June 7, 1995; and

WHEREAS, on May 25, 1999, under the subject calendar number, the Board again extended the term of the variance for a term of ten (10) years, expiring November 3, 2008, and granted an amendment to the variance permitting the existing opening in the fence between the parking area of the subject site and the owner's property to the east on condition that no vehicles be parked on the sidewalk; the premises be kept clean of debris and graffiti; all landscaping be maintained in accordance with the BSA approved plans; all lighting be pointed away from residential uses and that a new certificate of occupancy be obtained with one (1) year, by May 25, 2000; and

WHEREAS, on March 6, 2001, under the subject calendar number, the Board amended the resolution to permit the construction of a second story on the existing commercial building, a total of 5,000 square feet, to be occupied as office and storage space, on condition that the office use be limited to 1960 square feet; that any changes to the office occupancy require approval from the BSA; the building not be accessible from 45th Road; all fencing and screening surrounding the premises be maintained; and that substantial work be completed within two years, by March 6, 2003; and

WHEREAS, on April 29, 2003, under the subject calendar number, the Board granted an extension of the time to obtain a certificate of occupancy for two (2) years, expiring April 29, 2005, on condition that the premises be maintained free of debris and graffiti and that any graffiti located on the premises be removed within 48 hours; and

WHEREAS, on February 13, 2007, under the subject calendar number, the Board granted another extension of

time for two (2) years on condition that substantial construction on the second story be completed by February 13, 2009; and

WHEREAS, on April 28, 2009, under the subject calendar number, the Board granted a third extension of time for three (3) years, on condition that substantial construction be completed by April 28, 2012; and

WHEREAS, on December 8, 2009, under the subject calendar number, the Board extended the term of the variance for ten (10) years, expiring November 3, 2018, and amended specific prior conditions to the grant, thereafter requiring that no spray-painting be performed on site; the gate remain closed and no access be provided from the site to 45th Road; no vehicles be parked on the sidewalk; the premises be maintained free of debris and graffiti; all lighting be directed away from residential uses; the hours of operation be limited to Monday through Friday, 8:00 a.m. to 6:00 p.m. and closed on weekends; and that a new certificate of occupancy be obtained by June 8, 2010; and

WHEREAS, on April 1, 2014, under the subject calendar number, the Board granted an extension of time to obtain a certificate of occupancy for one (1) year on condition that a certificate of occupancy be obtained by April 1, 2015; and

WHEREAS, the applicant filed the subject application, which was dismissed by the Board for lack of prosecution on November 21, 2017; and

WHEREAS, a public hearing was held for the review of the Board's decision on June 19, 2018, with continued hearings on July 17, 2018, and September 27, 2018, and then to decision on September 27, 2018; and

WHEREAS, the applicant submitted additional information for the Board's consideration of its decision in this application, including forms from several residents of 45th Road consenting to the change in use at the site proposed herein and the re-establishment of a curb cut on 45th Road; and

WHEREAS, the applicant proposes the following hours of operation: Monday to Thursday, 9:00 a.m. to 9:00 p.m., Friday, 9:00 a.m. to 7:00 p.m., Saturday 9:00 a.m. to 6:00 p.m., and Sunday, noon to 5:00 p.m.; and

WHEREAS, the use of the curb cut located on 45th Road was of significant concern to the Board as evidenced by prior resolutions, which have included as conditions restrictions on the subject site's use of 45th Road, but also due in part to Community Board 11, Queens', March 8, 2016, letter recommending approval of this application on condition that there be no road testing of vehicles on 45th Road, that the gate on 45th Road be locked at night after business hours and that all lights in the parking lot be directed away from residences; and

WHEREAS, the Board was also in receipt of a November 7, 2016, letter from Community Board 11, Queens stating that the Community Board agreed that an operational plan presented by the applicant for test drives out of the facility utilizing the 45th Road curb cut was preferable to driving cars through a showroom onto

MINUTES

Northern Boulevard; and

WHEREAS, member of the Board notes that the proposal is to change the use at the site to a less onerous use and that there are other auto-related businesses in the immediate area utilizing 45th Road for, among other things, the delivery of goods and the operational plan provided by the applicant states that the subject site would utilize the 45th Road curb cut for only three to five test drives a day; and

WHEREAS, another member of the Board expressed concerns about the utilization of 45th Road, located in a residential district, for the subject auto-related use and the applicant's representation that re-establishing the curb cut at 45th road is the only feasible option for facilitating test drives at the site when the property owner has voluntarily abandoned and fenced off other existing curb cuts at the site; and

WHEREAS, a majority of the Board finds that the relief requested herein pursuant to ZR §§ 11-411 and 11-413 is appropriate under certain conditions and safeguards to minimize any adverse effects upon the character of the surrounding area.

Therefore, it is Resolved, that the Board of Standards and Appeals waives §§ 1-07.3(d)(2) and § 1-07.3(b)(2) of the Board's Rules of Practice and Procedure, reopens and amends the resolution, dated December 13, 1955, as amended through April 1, 2014, so that as amended this portion of the resolution reads: "to grant a change in use from Use Group 16 automotive repair to Use Group 9 automotive sales, a ten (10) year extension of the term of the variance, expiring November 3, 2028, and a one (1) year extension of time to obtain a certificate of occupancy, expiring January 9, 2020; on condition that the use and operation of the site shall substantially conform to plans filed with this application marked "Received September 5, 2018"-Three (3) sheets; and on further condition:

THAT the term of the grant shall expire on November 3, 2028;

THAT no vehicles shall be parked on the sidewalk;

THAT the premises shall be maintained free of debris and graffiti;

THAT all lighting shall be directed away from residential uses;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number ("BSA Cal No 240-55-BZ"), shall be obtained by January 9, 2020;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals,

September 27, 2018.

170-96-BZ

APPLICANT – Eric Palatnik, P.C., for 8501 Flatlands Avenue Realty Corp., owner.

SUBJECT – Application March 23, 2018 – Extension of Term of a previously approved Variance (§72-21) which permitted the operation of an Automotive Repair Facility (UG 16B) expiring on April 21, 2018. C2-3/R5D zoning district.

PREMISES AFFECTED – 8501 Flatlands Avenue, Block 8006, Lot 7, Borough of Brooklyn.

COMMUNITY BOARD #18BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for an extension of the term of a variance, previously granted by the Board, which expired on April 21, 2018; and

WHEREAS, a public hearing was held on this application on July 24, 2018, after due notice by publication in *The City Record*, with a continued hearing on September 27, 2018 and then to decision on that date; and

WHEREAS, Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 18, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the northeast corner of the intersection of Flatlands Avenue and East 85th Street, in an R5D (C2-3) zoning district, in Brooklyn; and

WHEREAS, the site is comprised of two contiguous tax lots (tax lots 6 and 7) with approximately 90 feet of total frontage along Flatlands Avenue, tax lot 7 has approximately 100 feet of frontage along East 85th Street, the lots have 9,432 square feet of combined lot area and are occupied by a one-story plus mezzanine automobile repair facility (Use Group 16); and

WHEREAS, the Board has exercised jurisdiction over tax lot 7 (then tax lots 7 and 9) since October 13, 1948, when, under BSA Cal. No. 300-48-BZ, the Board granted a variance for a term of ten (10) years, expiring October 13, 1958, to permit, in a business use district, the erection and maintenance of a gasoline service station, automobile repair shop, lubritorium, and auto laundry on the same lot as an existing one-family frame dwelling and four-car concrete block garage on condition that the portion of the plot proposed for the gasoline service station be leveled to the grade of Flatlands Avenue; the accessory building comply with the Building Code requirements; any pumps erected be not nearer than ten (10) feet to the street building line; the balance of the plot where not occupied by the gasoline

MINUTES

station and existing four-car garage be paved with concrete or tarvia; a block of concrete, which may be segmental in shape, be erected within the building line near the intersection and extend for a distance of approximately five (5) feet from the intersection along either street and not less than 12 inches in height; the building on the premises be continued for residential use only and the garage in the rear not be occupied in connection with the gasoline station and be separated from the proposed accessory building by a masonry wall; the building and occupancy comply in all other respects with all laws, rules and regulations applicable thereto, including the requirements of the Zoning Resolution as to the area; no window be erected on the rear wall of the accessory building; the number of gasoline storage tanks be restricted to three (3) as proposed; signs be restricted to the requirements of the Zoning Resolution and limited to a permanent sign on the accessory building's façade below the parapet line and to the illuminated globes of the pumps, excluding all temporary signs and roof signs, but permitting within the building line at the intersection a post standard for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale and permitting it to extend beyond the building line for a distance of not more than four (4) feet; curb cuts be restricted to the existing 11 foot curb cut and a new 20 foot curb cut as shown to Flatlands Avenue and one (1) curb cut to East 85th Street be installed when the curbs are constructed; sidewalks be reconstructed to the satisfaction of the Borough President and curbs be constructed as he or she may require both along Flatlands Avenue and East 85th Street for the frontage of the premises; portable fire-fighting appliances be installed as the fire commissioner directs; minor repairs be by hand tools only; any equipment requiring a pit or lift for work or lubrication, when installed, be either of the hydraulic type or, if a pit is installed, be ventilated through the roof by a vent duct connected to an exhaust fan at the bottom of the pit; suitable fencing or walls be erected on the interior lot lines to the east between the accessory garage and the present building; and all permits required be obtained and all work completed within one (1) year from the date of the resolution; and

WHEREAS, on May 3, 1949, under BSA Cal. No. 300-48-BZ, the Board amended the variance to require the accessory building comply with the requirements of the Building Code and be arranged as proposed on the revised plans filed with the application, provided no closure doors be placed at the opening; and the greasing pit be ventilated by means of an exhaust fan approved for explosive occupancies with a duct through the roof; and

WHEREAS, on July 6, 1949, under BSA Cal. No. 300-48-BZ, the Board amended the variance, specifically a previous condition of the resolution regarding pits or lifts, to permit any equipment requiring a pit or lift for the work of lubrication, when installed, to be either of the hydraulic type or, if a pit is installed, be ventilated through the roof by vent ducts connected to an exhaust fan at the bottom of the pit and, in either event, to permit closure doors to be

constructed as indicated on revised plans filed with the application; on further condition that the existing exterior wall of the present four-car garage at the west be maintained as a separation between such four-car garage and the accessory building; and

WHEREAS, on January 24, 1950, under BSA Cal. No. 300-48-BZ, the Board amended the variance to permit the installation of three (3) additional 550-gallon gasoline storage tanks, as indicated on the revised plan, on condition that the resolution, as amended, be complied with in all other respects; and

WHEREAS, on May 29, 1951, under BSA Cal. No. 300-48-BZ, the Board amended the variance to restrict the number of gasoline storage tanks to eight (8) 550-gallon gasoline storage tanks; and

WHEREAS, on October 28, 1958, under BSA Cal. No. 300-48-BZ, the Board extended the term of the variance for a term of ten (10) years from the date of the amended resolution, expiring October 28, 1968; on condition that all permits, including a new certificate of occupancy, be obtained and all work completed within three (3) months of the amended resolution; and

WHEREAS, on June 23, 1959, under BSA Cal. No. 300-48-BZ, the Board extended the time to obtain a certificate of occupancy; and

WHEREAS, on March 13, 1962, under BSA Cal. No. 300-48-BZ, the Board granted an additional variance for a term of twenty (20) years, expiring March 13, 1982, to permit the erection of an extension to the existing gasoline service station accessory building; the installation of two gas pumps and accessory uses to include lubrication, minor auto repairs with hand tools only, storage room, office and sales, non-automatic car washing, and parking of motor vehicles awaiting service, on condition that the work be done in accordance with approved plans filed with this application; all laws, rules and regulations applicable be complied with; and permit be obtained, work done, and a certificate of occupancy obtained within one (1) year; and

WHEREAS, on May 11, 1982, under BSA Cal. No. 300-48-BZ, the Board amended the variance and extended the term for ten (10) years, expiring March 13, 1992, on condition that a five-foot six-inch high woven fence be installed along the easterly lot line as previously approved; there be no parking of motor vehicles on the sidewalk area and the station be operated at all times in such a fashion so as to minimize traffic congestion; the amended resolution be complied with in all respects; and a certificate of occupancy be obtained within one (1) year; and

WHEREAS, on July 6, 1983, under BSA Cal. No. 111-83-BZ, the Board permitted the enlargement of the existing gasoline service station through the addition of tax lot 6, on condition that all work substantially conform to approved plans filed with this application; all laws, rules and regulations applicable be complied with; and substantial construction be completed within four (4) years; and

WHEREAS, on April 21, 1998, under the subject calendar number, the Board granted a variance to permit a

MINUTES

change of use of the site to an automotive repair establishment (Use Group 16) limited to transmission repairs with no body nor fender work, and renovation and enlargement of the existing building for such use, on condition that all work substantially conform to approved plans filed with the application; the variance be limited to a term of ten (10) years to expire April 21, 2008; landscaping be provided and maintained in accordance with the BSA approved plans; the hours of operation for the automobile repair establishment be limited to 7:30 a.m. to 6:30 p.m. Monday through Saturday, closed on Sunday; the premises be maintained graffiti-free at all times; the curb cut along East 85th Street and the middle curb cut along Flatlands Avenue be eliminated; the above conditions appear on the certificate of occupancy; the development, as approved, be subject to verification by the Department of Buildings for compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under the jurisdiction of the Department; and substantial construction be completed within four (4) years;

WHEREAS, on November 18, 2008, under the subject calendar number, the Board amended the variance to permit the addition of office space in a mezzanine, and extended the term for ten (10) years to expire on April 21, 2018, on condition that all work substantially conform to the approved plans; all conditions from prior resolutions not specifically waived by the Board remain in effect; the site be maintained free of debris and graffiti; the above conditions appear on the certificate of occupancy; all signage comply with C1 zoning regulations; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdictional objection(s); and the Department of Buildings ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, the term of the variance having expired, the applicant seeks a twenty (20) year extension of the term of the variance; and

WHEREAS, pursuant to ZR §§ 72-01 and 72-22, the Board may, in appropriate cases, permit an extension of a term of the variance; and

WHEREAS, at the hearing, the Board expressed concerns regarding the illegal parking of vehicles on and around the subject site; and

WHEREAS, in response, the applicant represented that a security camera with 24-hour surveillance is currently monitoring the sidewalks; a “no parking” sign has been installed to indicate that parking is not permitted on the sidewalk; and an employee has been designated to monitor the sidewalk and ensure that there is no parking; and

WHEREAS, by letter dated September 20, 2018, the Fire Department stated that it had no objection to this application; and

Therefore, it is Resolved, that the Board of Standards and Appeals, *reopens* and *amends* the resolution, dated

April 21, 1998, as amended through November 18, 2008, so that as amended this portion of the resolution reads: “to grant an extension of the term of the variance for a term of twenty (20) years from the date of this amended resolution, to expire on September 27, 2038; and *on condition* that all work and site conditions shall conform to drawings filed with this application marked “Received July 6, 2018”-Four (4) sheets and *on further condition*:

THAT a security camera shall be installed and maintained with 24-hour surveillance to monitor the sidewalk;

THAT “No Parking” signs shall be installed and maintained on the exterior of the sidewalk fence;

THAT an employee shall be designated to ensure that motor vehicles do not park on the sidewalks at the site;

THAT the hours of operation for the automobile repair establishment shall be limited to 7:30 a.m. to 6:30 p.m. Monday through Saturday, closed on Sunday;

THAT the premises shall be maintained free of debris and graffiti;

THAT all signage shall comply with C1 zoning regulations;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a revised certificate of occupancy shall be obtained within one (1) year, by September 27, 2019; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, September 27, 2018.

MINUTES

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for an extension of term of a previously granted special permit for a physical culture establishment (“PCE”), which expired on May 13, 2018; and

WHEREAS, a public hearing was held on this application on September 27, 2018, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 7, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of Amsterdam Avenue, bound by West 77th Street to the north and West 76th Street to the south, partially located within a C2-7A zoning district and the Special Enhanced Commercial District 2 (EC-2) and partially located within a C4-6A zoning district and the Special Enhanced Commercial District 3 (EC-3), in Manhattan; and

WHEREAS, the site has approximately 179 feet of frontage along Amsterdam Avenue, 115 feet of frontage along West 77th Street, 100 feet of frontage along West 76th Street, and 28,863 square feet of lot area; and

WHEREAS, the site is occupied by a mixed-use residential and commercial building that rises to four stories, plus cellar and sub-cellar, and splits into a 13-story building (“Tower 1”) located on the northeastern most portion of the subject site and an 18-story building (“Tower 2”) located on the southwestern most portion of the site; and

WHEREAS, the subject PCE is located within portions of the cellar (20,116 square feet of floor space) and first and second floors (28,311 square feet of floor area) of the subject development; and

WHEREAS, the Board has exercised jurisdiction over the subject site since May 13, 2008, when, under the subject calendar number, the Board granted a special permit, pursuant to ZR § 73-36, to permit the establishment of a physical culture establishment, operated by Equinox Fitness located on portions of the cellar, first and second floors of the then-proposed 13- and 18- story mixed-use residential and commercial development at the subject site for a term of ten (10) years, expiring May 13, 2018, on condition that there be no change in ownership or operating control of the PCE without prior application to and approval from the Board; all massages be performed by New York State licensed massage therapists; a maximum interior noise level of 45 dBA be maintained between the PCE and adjacent residential use; the above conditions appear on the certificate of occupancy; Local Law 58/87 compliance be as reviewed and approved by DOB; fire safety measures be installed and/or maintained as shown on the Board-approved plans; prior to the issuance of any permits, DOB review the floor area and location of the PCE for compliance with all relevant commercial use regulations; sound attenuation

measures be installed and maintained in accordance with the approved plans; the approved plan be considered approved only for the portions related to the specific relief granted; and the Department of Buildings ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, on October 20, 2009, under the subject calendar number, the Board amended the resolution to permit extensions of the PCE use at the cellar and first floor, on condition that the use and operation of the site substantially conform to the approved plans filed with the application; there be no change in ownership or operating control of the PCE without prior application to and approval from the Board and that all conditions from prior resolutions not specifically waived by the Board remain in effect; and

WHEREAS, the previous term of the special permit having expired, the applicant requests the subject relief; and

WHEREAS, the applicant represents that there has been no change in ownership or operator since the 2008 resolution and that Equinox continues to operate the subject PCE, that the cellar level contains the entirety of the Pure Yoga space, men’s and women’s locker areas, yoga studio, reception areas and a lounge, as well as the women’s area, kids’ area, and treatment rooms for the Equinox facility; the first floor contains the entrances to both Equinox and Pure Yoga; and the second floor contains the Equinox exercise areas and men’s locker area; and

WHEREAS, the applicant submits that the Pure Yoga and Equinox facilities are operated separately with separate staffs, but have the same principals, which are the same as they were when the special permit was originally granted in 2008; that there has been no changes in the hours of operation, which were approved in 2008 to be Monday through Thursday, 5:30 a.m. to 11:00 p.m., Friday, 5:30 a.m. to 10:00 p.m., and Saturday and Sunday, 7:00 a.m. to 9:00 p.m., but not incorporated as a condition to the resolution; and that massage services continue to be provided by New York State-licensed massage therapists; and

WHEREAS, by letter dated September 26, 2018, the Fire Department stated that it had no objection to the application and confirmed that all FDNY permits for the fire alarm system and fire suppression system are current; and

WHEREAS, pursuant to ZR § 73-03(f), the applicant has satisfactorily demonstrated compliance with the conditions of the previous term and the Board finds that the circumstances warranting the original grant still obtain; and

WHEREAS, accordingly, the Board finds that a ten (10) year extension of the term of the special permit is appropriate, with the conditions set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated May 13, 2008, so that as amended this portion of the resolution shall read: “to permit an extension of the term of the special permit for a term of ten (10) years, expiring May 13, 2028, *on condition* that all work and site conditions shall conform to

MINUTES

drawings filed with this application marked “Received June 28, 2018”-Six (6) sheets; and *on further condition*:

THAT the term of this grant shall expire on May 13, 2028;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages shall be performed by New York State licensed massage therapists;

THAT a maximum interior noise level of 45 dBA shall be maintained between the PCE and adjacent residential use;

THAT minimum three (3) foot wide exit pathways to required exits shall always be maintained unobstructed, including that from any gymnasium equipment;

THAT sprinklers and interior fire alarm system – including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, connection of the interior fire alarm and sprinklers to a FDNY-approved central station – shall be maintained throughout the PCE space as indicated on the Board-approved plans;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a revised certificate of occupancy shall be obtained within one (1) year, by September 27, 2019;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, September 27, 2018.

2016-4255-BZ

APPLICANT – Eric Palatnik, P.C., for Mykhaylo Kadar, owner.

SUBJECT – Application September 16, 2016 – Special Permit (§73-622) for the enlargement of an existing single family home, contrary to floor area, open space and lot coverage (ZR §23-141); side yard (ZR §23-461); and rear yard (ZR §23-47). R3-1 zoning district.

PREMISES AFFECTED – 4801 Ocean Avenue, Block 8744, Lot 51, Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision on behalf of the Brooklyn Borough Commissioner, dated September 9, 2016, acting on Department of Buildings (“DOB”) Application No. 321431349 reads in pertinent part:

Proposed vertical enlargement to existing single-family house in R3-1 zoning district is non-compliant in regards to:

1. Proposed floor area ratio (FAR) is contrary to ZR 23-142;
2. Proposed lot coverage is contrary to ZR 23-142;
3. Proposed open space is contrary to ZR 23-142;
4. Proposed minimum side yard is contrary to ZR 23-461;
5. Proposed total side yards are contrary to ZR 23-461;
6. Proposed rear yard is contrary to ZR 23-47; and

Accordingly, project has to be referred to the Board of Standards and Appeals for a special permit review pursuant to ZR 73-622; and

WHEREAS, this is an application under ZR § 73-622 to permit, in an R3-1 zoning district, the enlargement of a detached one-family dwelling that does not comply with the zoning requirements for floor area ratio, lot coverage, open space, side yards and rear yards, contrary to ZR §§ 23-142, 23-461(a) and 23-47; and

WHEREAS, a public hearing was held on this application on October 17, 2017, after due notice by publication in *The City Record*, with a continued hearing on September 27, 2018, and then to decision on that date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the Board was also in receipt of three form letters in support of this application; and

WHEREAS, the subject site is located on the east side of Ocean Avenue, between Shore Boulevard and Hampton Avenue, in an R3-1 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 30 feet of frontage, a depth of 104 feet, 3,120 square feet of lot area and is occupied by a detached two-story one-family dwelling having 2,063 square feet of floor area, a floor area ratio (“FAR”) of 0.66, 39 percent lot coverage, 61 percent open space, two 5 foot wide side yards, a 27.8’ rear yard, and a garage located in the rear yard; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single-* or *two-*

MINUTES

family detached or *semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached* or *semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins. Above such height, the setback regulations

of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that this application located within an area in which the special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge the detached one-family residence, as contemplated by ZR § 73-622; and

WHEREAS, the applicant proposes to legalize a prior enlargement and further enlarge the existing detached dwelling by demolishing the garage roof access bridge, steps, and landing, extending the second floor, and constructing a new third floor, resulting in a dwelling with 2,840 square feet of floor area (0.91 FAR), but that will maintain 39 percent lot coverage, 61 percent open space, two 5 foot side yards and a 27.8' rear yard; and

WHEREAS, in addition, the applicant proposes to maintain the existing garage, but eliminate a swimming pool located in the rear yard; and

WHEREAS, the proposed enlargement includes a vertical and horizontal extension of the existing non-complying 5 foot side yards and the applicant has submitted a 1950 Sanborn map of the immediate area, including the subject site, demonstrating that the subject site was developed with a two-story semi-detached dwelling in approximately the same orientation as the site is occupied today and, thus, the non-complying side yards predated the 1961 Zoning Resolution and are legal non-compliances; and

WHEREAS, at the subject site, a maximum floor area ratio of 0.50 and maximum lot coverage of 35 percent are permitted and a minimum open space of 65 percent is required pursuant to ZR § 23-142; two side yards, each with a minimum required width of 5 feet and a minimum required total width of 13 feet, are required pursuant to ZR § 23-461(a); and a rear yard of at least 30 feet is required pursuant to ZR § 23-47; and

WHEREAS, the applicant provided an analysis of single- or two-family dwellings located within 400 feet of the subject premises within an R3-1 zoning district (the "Study Area") concluding that, of the 66 qualifying residences, 36 residences (55 percent) have an FAR of greater than 0.50, ranging from 0.51 to 0.91, including the property immediately at the rear and to the south of the subject site, which has an FAR of 0.91; and 16 (24 percent) residences have lot coverage greater than 35 percent; and

WHEREAS, with regards to the proposed rear yard, the

MINUTES

applicant provided an analysis of the rear yard conditions on the subject block demonstrating that, of the 18 other lots on the subject block occupied by single- or two-family dwellings, 8 lots (44 percent) have rear yards with a depth of less than 30 feet, with rear yards ranging in depth from 15 feet to 26 feet, and that all of the lots contiguous to the subject site also have accessory garages located in their rear yards, including the lot directly adjacent and to the south of the subject lot, which provides a 26 foot rear yard that is further obstructed by an accessory garage; and

WHEREAS, the applicant submitted a Construction Code Determination Form (Control Number 55042, the “CCD1”) and a Zoning Resolution Determination Form (Control Number 55043, the “ZRD1”) confirming compliance of the subject proposal with Appendix G of the NYC Building Code and ZR §§ 64-00 and 64-11; and

WHEREAS, the CCD1 and ZRD1 were approved by DOB on July 25, 2018, on condition that no work be performed in the existing cellar, the cellar area under the rear extension portion of the building to be legalized be backfilled to grade level, the total enlargement of floor area not be more than 1,112 square feet, and the proposed work complies with all other applicable sections of resolutions, codes, rules, regulations and laws; and

WHEREAS, the Board has made no findings as to whether the subject proposal complies with the CCD1 or ZRD1 and defers to the DOB with regards to the legal size of the subject enlargement; and

WHEREAS, the Board also defers to DOB with regards to whether the proposed exterior wall thickness and roof thickness are permitted obstructions in compliance with ZR § 23-621 and makes clear that it grants no waivers to excuse any non-compliance; and

WHEREAS, in light of the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622; and

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622 to permit, in an R3-1 zoning district, the enlargement of a one-family detached dwelling that does not comply with the zoning requirements with regards to floor area ratio, lot coverage, open space, side yards, and rear yards, contrary to ZR § 23-142, 23-461(a) and 23-47; *on condition* that all work shall substantially conform to drawings as they apply to the objection above-noted, filed with this application and marked “Received September 27, 2018”—Twenty-eight (28) sheets; and *on further condition:*

THAT the following shall be the bulk parameters of the building: a maximum floor area ratio of 0.91 (2,840 square feet of floor area); a maximum of 39 percent lot coverage; a minimum of 61 percent open space; two side yards, each with a minimum width of 5 feet, and a rear yard with a minimum depth of 27.8’, as illustrated on the Board-approved plans;

THAT this approval does not take a position with

respect to compliance of the proposed plans with the CCD1 (Control Number 55042) or ZRD1 (Control Number 55043) conditionally approved by DOB on July 25, 2018, and the Board defers to DOB to determine compliance of such plans;

THAT the removal of exterior walls and/or joists in excess of those indicated on the BSA-approved plans is prohibited and shall void the special permit;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the special relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, September 27, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated December 13, 2016, acting on Department of Buildings (“DOB”) Application No. 321462323 reads in pertinent part:

Proposed Use Group 3 school is not permitted in C8-2 zoning district, contrary to ZR 32-10 and requires a special permit from the Board of Standards and Appeals pursuant to ZR 73-19; and

WHEREAS, this is an application for a special permit, pursuant to ZR § 73-19, to permit, on a zoning lot located in a C8-2 zoning district, the operation of a Use Group (“UG”) 3 school for 147 children between the ages of six months and five years, contrary to ZR § 32-10, et seq.; and

WHEREAS, this application is filed on behalf of All My Children Daycare, a non-profit corporation that operates 14 day care and nurse school facilities in Manhattan, Queens and Brooklyn (the “Applicant”); and

WHEREAS, a public hearing was held on this application on May 1, 2018, after due notice by publication in *The City Record*, with a continued hearing on July 24, 2018, and then to decision on September 27, 2018; and

MINUTES

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 17, Brooklyn, recommends disapproval of the subject application citing concerns regarding the safety of small children in a building simultaneously occupied by adults with disabilities; environmental concerns due to the presence of an AutoZone immediately adjacent to the subject; the proximity of the subject site to a hotel believed to be converted to a homeless shelter and high traffic along Utica Avenue at the subject site; and

WHEREAS, the Board was also in receipt of two letters in support of the subject application and one letter in opposition, echoing similar concerns as Community Board 17, Brooklyn; and

WHEREAS, the subject site is located on the east side of Utica Avenue, between Rutland Road and Winthrop Street, in a C8-2 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 100 feet of frontage, a depth of 100 feet, 10,000 square feet of lot area and is occupied by a two-story commercial building; and

WHEREAS, the Applicant proposes to renovate the first floor to accommodate a total of six classrooms, bathrooms, a warming kitchen, administrative offices and a refrigerated trash storage area to be occupied by a day care center; and

WHEREAS, UG 3 schools are not permitted within C8-2 zoning districts as-of-right, pursuant to ZR § 32-10, et seq.; and

WHEREAS, accordingly, the Applicant seeks the subject relief; and

WHEREAS, ZR § 73-19 provides as follows:

In C8 or M1 Districts, the Board of Standards and Appeals may permit *schools* which have no *residential* accommodations except *accessory* accommodations for a caretaker, provided that the following findings are made:

- (a) that within the neighborhood to be served by the proposed *school* there is no practical possibility of obtaining a site of adequate size located in a district wherein it is permitted as of right, because appropriate sites in such districts are occupied by substantial improvements;
- (b) that such *school* is located not more than 400 feet from the boundary of a district wherein such *school* is permitted as-of-right;
- (c) that an adequate separation from noise, traffic and other adverse effects of the surrounding non-*Residential Districts* is achieved through the use of sound-attenuating exterior wall and window construction or by the provision of adequate open areas along *lot lines* of the *zoning lot*; and
- (d) that the movement of traffic through the

streets on which the *school* is located can be controlled so as to protect children going to and from the *school*. The Board shall refer the application to the Department of Traffic for its report with respect to vehicular hazards to the safety of children within the block and in the immediate vicinity of the proposed site.

The Board may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, a “school” is defined in ZR § 12-10 to include, in relevant part, “a child care service operating under a permit issued pursuant to Section 47.03 of the New York City Health Code”; and

WHEREAS, as a threshold matter, the Board notes that the subject site is located in a zoning district in which a special permit pursuant to ZR § 73-19 is available; and

WHEREAS, the Applicant represents that they are a child care service provider operating under a permit issued pursuant to Section 47.03 of the New York City Health Code and, in support of that contention, submitted permits issued by the New York City Department of Health and Mental Hygiene (“DHMH”) naming the Applicant as a permittee for pre-school programs conducted at 317 Rogers Avenue, Brooklyn (Permit No. 24878), 420 Lefferts Avenue, Brooklyn (Permit No. 25377), 739 East New York Avenue, Brooklyn (Permit No. 27477), 169-07 Jewel Avenue, Queens (Permit No. 6094), 83-10 188 Street, Queens (Permit No. 25177), 66-05 108 Street, Queens (Permit No. 27238), 110-15 164 Place, Jamaica (Permit No. 25917), 117-16 Sutphin Boulevard, Queens (Permit No. 25997), 97-30 Queens Boulevard, Rego Park (Permit No. 73958) and 101 West 85 Street, Manhattan (Permit No. 104018); and

WHEREAS, the Applicant represents that they are unable to provide a DHMH permit for the subject premises because, in order to obtain a permit, the building in which the school is located must have a CO indicating occupancy by a UG 3 school and the subject approval is a prerequisite to obtaining such CO because UG 3 schools are not permitted as-of-right at the subject site; and

WHEREAS, however, with regards to the subject site, the Applicant did provide an Inter-Departmental Memorandum from the DHMH Bureau of Child Care to the Deputy Brooklyn Borough Superintendent of DOB stating that, based on review of the first floor plan, the preschool program for 49 children ages from 24 months to 5 years old and infant/toddler program for 98 children ages from 6 months to 24 months appears to meet basic NYC Health Department, Health Code Requirements and shall be required to comply with article 47.03, 47.07 and 47.09; and

WHEREAS, with regards to ZR § 73-19(a), the Applicant states that they searched for sites having at least

MINUTES

8,000 square feet of lot area within the area to be served by the subject day care location—specifically, the area bounded by Eastern Parkway, Troy Avenue, Linden Boulevard, Kings Highway and Howard Avenue located in R7-1, R6, R5 and R4 zoning districts—and asserts that each of the 27 sites identified are occupied by active uses that preclude the location of the subject school program; and

WHEREAS, the Applicant represents that the rear lot line of the subject site is coincident with a district boundary line separating a C8-2 zoning district and a R6 zoning district, where a UG 3 school is permitted as-of-right, and submits that the subject site is, therefore, located not more than 400 feet from the boundary of district wherein a school is permitted as-of-right in satisfaction of ZR § 73-19(b); and

WHEREAS, the Applicant submits that the proposed UG 3 school is adequately separated from noise, traffic and other adverse effects of the surrounding commercial district; and

WHEREAS, the applicant conducted a noise analysis concluding that, due to the predominant source of noise being vehicular traffic along Utica Avenue, the windows at the front of the building must have noise attenuation of at least 31 dBA, that no noise attenuation is required at the rear windows, and that alternate means of ventilation should be provided to allow for a closed-window condition; and

WHEREAS, the applicant additionally submits that an outdoor play area proposed in the rear yard of the building, adjacent to the R6 zoning district boundary line, will be outfitted with two layers of acoustic fencing, will operate from 10 am to 4 pm on school days (while the school itself is proposed to operate from 8 am to 6 pm) and will not feature any lights or amplified noise; and

WHEREAS, with regards to ZR § 73-19(d), the Applicant submits that the arrival and dismissal of students at the site will be staggered, with 17 students arriving between 8 am and 9 am, 120 students arriving between 9 am and 10 am, 10 students arriving between 10 am and 11 am, 15 students will be dismissed between 12 pm and 1 pm, 15 students will be dismissed between 1 and 2 pm, 30 students will be dismissed between 2 pm and 3 pm, 30 students will be dismissed between 3 pm and 4 pm, 30 students will be dismissed between 4 pm and 5 pm and 27 students will be dismissed between 5 pm and 6 pm; and

WHEREAS, the Applicant estimates that approximately 50 percent of the children enrolled at the subject site will arrive at the site by foot with a parent or guardian, 10 percent of children will arrive by private transportation and 40 percent of children will arrive via two school buses; and

WHEREAS, additionally, the Applicant proposes to request a No Standing Zone from the New York City Department of Transportation (“DOT”) along the entirety of the subject building’s 100-foot frontage in order for private vehicles and the two school buses to park directly in front of the facility and not interfere with traffic and to have staff members stationed at the front of the building during arrivals and dismissals to monitor traffic, ensure the safe transfer of students into the school building and prohibit vehicles from

blocking traffic; and

WHEREAS, by letter dated May 14, 2018, DOT states that because the proposed school will have less than 250 students, it does not fall within School Safety’s jurisdiction, but requested that once the center is ready to begin operations, they should coordinate with the DOT Brooklyn Borough Engineer to determine if a loading zone is warranted; and

WHEREAS, in satisfaction of ZR § 73-03(a), the Applicant submits that, under the conditions and safeguard imposed, the hazards or disadvantages to the community at large of this special permit at this particular site are outweighed by the advantages to be derived by the community by the granting of such special permit because it will provide a new day care facility for the community, the use will be within an existing building and that the limited proposed hours of use of the play area will limit its impacts on the quiet and privacy of residential neighbors; and, in accordance with ZR § 73-03(b), that the subject proposal will not interfere with any public improvement project 1; and

WHEREAS, in response to the Community Board’s concerns, the Applicant confirms that the second floor of the subject building is occupied by an adult day care center, but that such use is accessed from a separate dedicated entrance and, thus, there will be no inadvertent co-mingling of children in the proposed day care center and adults attending or visiting the building’s second floor, but nevertheless revised the plans to relocate the primary entrance to the school to the opposite end of the building from the entrance for the second floor of the subject building; that the school will operate in a closed window condition with mechanical ventilation and that safeguards sufficient to protect the children from the high traffic volume present on Utica Avenue will be implemented by the school in the course of its operations; and

WHEREAS, in light of the foregoing, the Board determines that the evidence in the record supports the findings required to be made under ZR §§ 73-19 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (“EAS”) CEQR No. 17-BSA-063K, received September 26, 2018; and

WHEREAS, the EAS documents that the project, as

1 Subsections (c) through (g) of ZR § 73-03 are inapplicable to the subject application because there is no requirement under ZR § 73-19 for the Board to determine whether the special permit use is appropriately located in relation to the street system, as contemplated by ZR § 73-03(c); ZR § 73-19 is not one of the sections expressly named in ZR § 73-03(d); there is no term of years specified in ZR § 73-19 that would render ZR § 73-03(e) applicable; the subject application is not for a renewal of a special permit, as discussed in ZR § 73-03(f); and the subject application is not for an enlargement or extension of an existing use, as described in ZR § 73-03(g).

MINUTES

proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, by letter dated September 18, 2018, the New York City Department of Environmental Preservation (“DEP”) states that they have analyzed the Air Quality and Noise analyses prepared by the Applicant’s consultant and determined that the proposed project would not result in potential significant air quality impacts and, by letter dated September 20, 2018, DEP states that the proposed project would not result in potential significant adverse noise impacts; and

WHEREAS, by letter dated September 26, 2018, DEP states that they have reviewed the June 2018 Phase II Environmental Site Investigation and the September 2018 Remedial Action Plan (“RAP”) and Construction Health and Safety Plan (“CHASP”) prepared by the Applicant’s consultant and, based on their review of the submitted documentation, recommend that the Applicant be instructed that the handling, transportation and off-site disposal of all soil/fill material should be performed in accordance with all applicable New York State Department of Environmental Conservation (“NYSDEC”) regulations and that, as long as this information is incorporated into the RAP, DEP finds the September 2018 RAP and CHASP to be acceptable and requests that at the completion of the project, a Professional Engineer certified Remedial Closure Report—indicating that all remedial requirements have been properly implemented (i.e., installation of vapor barriers and SSDS, capping of rear yard, and transportation/disposal manifests for removal and disposal of soil in accordance with NYSDEC regulations)—be submitted to DEP for review and approval; and

WHEREAS, the Applicant submitted a revised RAP incorporating the recommendation contained in DEP’s September 26 letter; and

WHEREAS, by letter dated September 17, 2018, the Fire Department recommends that the first floor be fully sprinklered and that, because the premises currently has a fire alarm system designed for mercantile use, either a new fire alarm system should be installed, or the existing system should be upgraded for institutional use; and

WHEREAS, the Applicant has agreed to install an approved interior fire alarm—including a manual and automatic fire alarm system that activates the occupant notification system, an automatic smoke detection system, manual pull stations at each required exit, local audible and visual alarms and connection of the manual and automatic fire alarm system to an FDNY-approved central office connection—and automatic sprinkler system throughout the entire first floor and has included notes to that effect on the Board-approved plans; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-03 and 73-19 to permit, on a site located in a C8-2 zoning district, a Use Group 3 school contrary to ZR § 32-10, et seq.; *on condition* that all work shall substantially conform to drawings as they apply to the objections above noted and filed with this application marked “Received September 27, 2018”-Four (4) sheets; and *on further condition*:

THAT the handling, transportation and off-site disposal of all soil/fill material should be performed in accordance with all applicable New York State Department of Environmental Conservation (“NYSDEC”) regulations;

THAT, upon completion of the project, a Professional Engineer certified Remedial Closure Report—indicating that all remedial requirements have been properly implemented (i.e., installation of vapor barriers and SSDS, capping of rear yard, and transportation/disposal manifests for removal and disposal of soil in accordance with NYSDEC regulations)—be submitted to DEP for review and approval;

THAT an approved interior fire alarm—including a manual and automatic fire alarm system that activates the occupant notification system, an automatic smoke detection system, manual pull stations at each required exit, local audible and visual alarms and connection of the manual and automatic fire alarm system to an FDNY-approved central office connection—and automatic sprinkler system shall be installed throughout the entire first floor, as indicated on the Board-approved plans; and

THAT the rear yard fence shall have acoustic barriers consisting of two layers of acoustic fencing, as indicated on the Board-approved plans;

THAT panic hardware shall be installed on emergency doors to ensure emergency use only and proper separation between day care and upper floor;

THAT a minimum 31 dBA window wall noise attenuation shall be installed on the Utica Avenue ground floor façade;

THAT an alternative means of ventilation shall be provided to maintain a closed-window condition;

THAT a vapor barrier consisting of a 46 and 30-mil grace pre-pruf vapor barrier membrane (or equivalent) shall be installed in accordance with the specifications and locations detailed in the Remedial Action Plan;

THAT once the premises are ready to begin operations as a day care center, the Applicant shall coordinate with the

MINUTES

DOT Brooklyn Borough Engineer to determine if a loading zone is warranted;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a certificate of occupancy shall be obtained within four (4) years, by September 27, 2022, and shall cross-reference the subject calendar number (“BSA Cal. No. 2017-9-BZ”);

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, September 27, 2018.

124-13-BZ

APPLICANT – Rothkrug Rothkrug & Spector, LLP, for 95-97 Grattan Street, LLC, owner.

SUBJECT – Application July 17, 2018 – Extension of Time to Complete Construction of a previously approved Variance (§72-21) to allow for a new seven-family residential development, contrary to use regulation ZR §42-00 which expired on June 24, 2018. M1-1 zoning district.

PREMISES AFFECTED – 95 Grattan Street, Block 3004, Lot 39, Borough of Brooklyn.

COMMUNITY BOARD #1BK

ACTION OF THE BOARD – Granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for an extension of time to complete construction pursuant to a previously granted variance, which expired on June 24, 2018; and

WHEREAS, a public hearing was held on this application on October 11, 2018, after due notice by publication in *The City Record* and then to decision on that date; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown, and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the north side of Grattan Street, between Knickerbocker Avenue and Porter Avenue, in an M1-1 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 25 feet of frontage along Grattan Street, a depth of 100 feet, 2,500 square feet of lot area, and is vacant; and

WHEREAS, the Board has exercised jurisdiction over the subject site since June 24, 2014, when, under the subject calendar number, the Board granted a variance, pursuant to ZR § 72-21, to permit the construction of a Use Group 2 four-story plus cellar, seven unit multiple dwelling building

contrary to ZR § 42-00, on condition that the bulk parameters of the proposed building be as follows: a maximum floor area of 4,838 square feet (1.94 FAR), a maximum lot coverage of 54 percent, seven dwelling units, a minimum rear yard depth of 30'-0", and a maximum building height of 40'-0", as indicated on the approved plans filed with the application; the applicant submit to DEP a Remedial Closure Report consistent with the requirements identified in DEP's June 23, 2014, letter; DEP approve the Remedial Closure Report prior to the applicant obtaining a Certificate of Occupancy; substantial construction be completed within four (4) years, by June 24, 2018; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdictional objections; the approved plans be considered approved only for the portions related to the specific relief granted; and DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, by letter dated March 16, 2018, the Board accepted changes to the proposed plans—specifically a reconfiguration of the interior of the building to provide side-by-side floor through apartments, as opposed to front and back units, a reduction in cellar space, the relocation of a portion of the mechanical space from the cellar to the first floor, and a new proposed exterior design, with no change to floor area, the number of units, or the building envelope—as substantially compliant with the 2014 resolution; and

WHEREAS, pursuant to ZR § 72-23, a variance granted under the provisions of the Zoning Resolution automatically lapses if substantial construction, in accordance with the plans for which such variance was granted, has not been completed within four years from the date of granting such variance by the Board of Standards and Appeals; and

WHEREAS, accordingly, the time to substantially complete construction pursuant to the 2014 variance grant expired on June 24, 2018; and

WHEREAS, the time for substantial construction to have been completed having expired, the applicant seeks the subject relief; and

WHEREAS, the applicant represents that the commencement of construction at the site has been delayed by a change in ownership of the property resulting in the hiring of a new architect and a redesign of the proposed building, but represents that construction would begin at the site immediately upon the Board's grant of this application, pursuant to weather conditions; and

WHEREAS, in addition, the applicant represented that construction could be completed within two to two and a

MINUTES

half years from the date of grant; and

WHEREAS, at the hearing, members of the Board expressed concerns regarding the reason for the delay, whether any excavation had occurred, and whether there had been any soil disturbance; and

WHEREAS, the applicant stated the reasons for the delay in construction, and represented that no excavation had yet occurred at the site; and

WHEREAS, based upon its review of the record, the Board finds that a four (4) year extension of time to complete construction is appropriate with certain conditions, as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated June 24, 2014, so that, as amended, this portion of the resolution reads: “to grant a four (4) year extension of time to complete construction to June 14, 2022; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area of 4,838 square feet (1.94 FAR), maximum lot coverage of 54 percent, a maximum of seven dwelling units, a minimum rear yard depth of 30’-0”, and a maximum building height of 40’-0”, as indicated on the approved plans dated March 16, 2018;

THAT the applicant shall submit to DEP a Remedial Closure Report consistent with the requirements identified in DEP’s June 23, 2014 letter;

THAT DEP shall approve the Remedial Closure Report prior to obtaining a Certificate of Occupancy;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years;

THAT substantial construction shall be completed by June 14, 2022, as evidenced by an inspection and determination by the Department of Buildings;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, October 11, 2018.

WHEREAS, the decision on behalf of the Brooklyn Borough Commissioner, dated April 27, 2017, acting on Department of Buildings (“DOB”) Application No. 321195586 reads in pertinent part:

ZR 25-25, ZR 73-433: The proposed reduction of existing parking in both buildings on lot 19 block 1811 from 106 . . . parking spaces shall not be permitted unless approved by the Board of Standards and Appeals per section 25-25 and 73-43; and

WHEREAS, this is an application under ZR §§ 73-433 and 73-03 to permit, on a site located partially within an R6A zoning district, partially within an R6A (C2-4) zoning district, partially within an R6B zoning district and partially within an R6B (C2-4) zoning district, the waiver of 106 accessory off-street parking spaces required for two buildings located on the zoning lot containing income-restricted housing units, contrary to ZR § 25-25, et seq.; and

WHEREAS, a public hearing was held on this application on May 15, 2018, after due notice by publication in *The City Record*, with continued hearings on July 24, 2018, September 27, 2018, and then to decision on October 11, 2018; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed an inspection of the site and the surrounding neighborhood; and

WHEREAS, Community Board 3, Brooklyn, recommends approval of this application based on the low to moderate income-restricted units proposed herein; and

WHEREAS, the applicant also provided a letter from City Councilmember Robert Cornegy to the Commissioner of the New York City Department of Housing Preservation and Development (“HPD”) dated June 14, 2018, expressing his support for the subject development; and

WHEREAS, the subject site is bound by Quincy Street to the north, Marcus Garvey Boulevard to the east and Gates Avenue to the south, partially within an R6A zoning district, partially within an R6A (C2-4) zoning district, partially within an R6B zoning district and partially within an R6B (C2-4) zoning district, in Brooklyn; and

WHEREAS, the site has approximately 400 feet of frontage along Quincy Street, 200 feet of frontage along Marcus Garvey Boulevard, 625 feet of frontage along Gates Avenue, 102,500 square feet of lot area and is occupied by two six-story mixed-use buildings—the building located at 639-693 Gates Avenue is a residential and commercial building with 96 residential units and the building located at 504-534 Quincy Street is a residential and community facility building with 96 residential units

(the “Existing Buildings”)—and 106 accessory off-street parking spaces; and

WHEREAS, the applicant proposes to develop the accessory parking lot with a six-story residential building with 95 dwelling units that will be developed pursuant to a regulatory agreement with HPD following HPD’s Mixed Middle Income Program and made available to households earning between 40 percent and 100 percent of the area median income (“AMI”), one caretaker’s unit and 28 accessory off-street parking spaces (the “Proposed Development”); and

WHEREAS, ZR § 73-433 provides as follows: For *zoning lots* within the *Transit Zone* with *buildings* containing *income-restricted housing units* in receipt of a certificate of occupancy prior to March 22, 2016, the Board of Standards and Appeals may permit a waiver of, or a reduction in, the number of *accessory* off-street parking spaces required for such *income-restricted housing units* prior to March 22, 2016, provided that the Board finds that such waiver or reduction will:

- (a) facilitate an improved site plan;
- (b) facilitate the creation or preservation of affordable housing, where a *development* includes new *residential floor area* on the *zoning lot*;
- (c) not cause traffic congestion; and
- (d) not have undue adverse effects on residents, businesses or *community facilities* in the surrounding area, as applicable, including the availability of parking spaces for such *uses*.

Factors to be considered by the Board may include, without limitation, the use of the existing parking spaces by residents of the *zoning lot*, the availability of parking in the surrounding area and the proximity of public transportation. The Board may impose appropriate conditions and safeguard to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that the subject site is located within the “Transit Zone,” as defined in ZR § 12-10 and illustrated in Appendix I of the Zoning Resolution; and

WHEREAS, the applicant submits that the Existing Buildings located on the zoning lot contain “income-restricted housing units” as defined in ZR § 12-10; and

WHEREAS, ZR § 12-10 defines “income-restricted housing unit,” in pertinent part, to include:

Any dwelling unit for which the applicable number of required accessory off-street parking spaces was established pursuant to the provisions of Section 25-25 (Modification of Requirements

MINUTES

for Income-Restricted Housing Units, Affordable Independent Residences for Seniors or Other Government-Assisted Dwelling Units) as such Section existed between December 16, 1961, and March 22, 2016 . . .; and

WHEREAS, Certificate of Occupancy No. 21301280316F, issued November 1, 2006, reflects a six-story mixed-use community facility and residential building containing 96 dwelling units and open parking for 53 cars at 510 Quincy Street and Certificate of Occupancy No. 301278409T006, issued October 21, 2015, reflects a six-story mixed-use commercial and residential building containing 96 dwelling units and 53 parking spaces at 671 Gates Avenue 1; and

WHEREAS, the applicant submits that the 53 parking spaces provided for each of the Existing Buildings, a total of 106 parking spaces, were provided at the site pursuant to ZR § 25-25, as that section existed between December 16, 1961, and March 22, 2016 (the “Operative Period”), which required parking for 55 percent of public-assisted dwelling units; and

WHEREAS, accordingly, the Board finds that the subject site qualifies, as a threshold matter, for the requested relief; and

WHEREAS, with regards to ZR § 73-433(a), the applicant submits that the waiver requested herein will facilitate an improved site plan by replacing a largely underutilized surface parking lot—in which none of the current tenants of the zoning lot rent a space—with a more productive use, to wit, a six-story residential building with 95 units of income-restricted affordable dwelling units; and

WHEREAS, accordingly, the Board finds that the subject proposal facilitates an improved site plan in accordance with ZR § 73-433(a); and

WHEREAS, in support of the finding set forth in ZR § 73-433(b), the applicant represents that the Proposed Development will facilitate the creation of affordable housing because it will, in fact, increase the number of income-restricted housing units on the subject zoning lot, and that it will also facilitate the preservation of the income-restricted units located in the Existing Buildings by eliminating the costs associated with maintaining the surface parking lot; and

WHEREAS, the applicant submits that the proposed affordability breakdown of the units in the Proposed Development will follow HPD’s Mixed Middle Income Program, resulting in 3 units for tenants earning up to 40 percent of the area median income (“AMI”), 16 units for

tenants earning up to 50 percent AMI, 29 units for tenants earning up to 80 percent AMI and 47 units for tenants earning up to 100 percent AMI and that, should the development be financed accordingly, the Proposed Development would be subject to two regulatory agreements, an New York City Housing Development Corporation (“HDC”)/HPD Tax Credit Regulatory Agreement, which would restrict the range of affordability of the dwelling units as set forth above for a minimum of 30 years, and an HPD Article XI Regulatory Agreement, which would similarly restrict the range of affordability for a similar term; and

WHEREAS, at hearing, the Board noted the absence of an executed regulatory agreement mandating development of income-restricted units as described by the applicant and expressed concerns regarding the degree to which it could be certain that the Proposed Development would, indeed, provide income-restricted units; accordingly, the Board requested the execution and recordation of a restrictive declaration obligating the declarant to enter into a regulatory agreement with HPD and/or HDC prior to and as a condition of obtaining a certificate of occupancy, temporary or final, for the Proposed Development; and

WHEREAS, ZR § 73-433 specifically, and ZR §§ 73-01, 73-03, 73-04 generally, permit the Board to impose conditions and safeguards to the grant of a special permit to minimize any adverse effects on other property and the community at large; and

WHEREAS, with regards to the instant application, the Board notes that tenants of income-restricted dwelling units have lower rates of car ownership than tenants of market rate dwelling units and expressed concern that, should there be no regulatory agreement requiring the provision of income-restricted units, the 28 total parking spaces proposed at the site will prove wholly inadequate for its parking demand, resulting in more cars parking on surrounding streets; and

WHEREAS, in response to the Board’s request, the applicant provided the following draft restrictive declaration to record against the subject premise:

THIS DECLARATION OF RESTRICTIVE COVENANTS (the “Declaration”), dated this ___ day of ____, 2018, is entered into by WILLARD J. PRICE ASSOCIATES, LLC (the “Declarant”) a New York limited liability company having an office at c/o Proto Property Services LLC, 3441 Kingsbridge Avenue, 2nd Floor, Bronx, New York 10463.

WHEREAS, the Declarant is the fee owner of certain land located in the City and State of New York, Borough of Brooklyn, being known and designated as Block 1811, Lot 19 on the Tax Map of the City of New York, and more

1 A final certificate of occupancy (No. 301278409F), issued for the building located at 671 Gates Avenue on October 18, 2016, similarly reflects 96 dwelling units and 53 accessory parking spaces.

MINUTES

particularly described in Exhibit A annexed hereto and made a part hereof (the “Premises”); and

WHEREAS, the Premises are improved with two (2) six-story buildings (the “Existing Buildings”) containing one hundred nine-two (192) units of “publicly assisted housing”, as such term was defined in Section 25-25 of the New York City Zoning Resolution (“ZR”) in effect at the time the Existing Buildings were constructed, a surface parking lot containing one hundred six (106) accessory parking spaces (the “Existing Accessory Parking”) for the Existing Building in satisfaction of the parking requirements of ZR Section 25-25 in effect at the time the Existing Buildings were constructed, and other relevant improvements; and

WHEREAS, the Declarant desires to subdivide and convey a portion of the Premises, to be known and designated as Block 1811, Lot 70 on the Tax Map of the City of New York, and more particularly described in Exhibit B annexed hereto and made a part hereof (the “New Project Parcel”), to HP Astra Housing Development Fund Company, Inc., a New York not-for-profit corporation formed pursuant to Article XI of the New York Private Housing Finance Law (the “Nominee”), as nominee for The Astra At Gates Avenue, LLC, a New York limited liability company and affiliate of the Declarant (the “Company”, and together with the Nominee, the “New Project Owner”), which Company will own all beneficial right, title and interest in and to the New Project Parcel, as shall be more particularly set forth in a Declaration of Interest and Nominee Agreement (the “Nominee Agreement”) by and between the Nominee and the Company intended to be executed and recorded in the Office of the City Register of the City of New York (“City Register’s Office”) subsequent to this Declaration; and

WHEREAS, the Company intends to develop, construct, own, maintain and operate on the New Project Parcel an affordable multi-family apartment complex consisting of one (1) six-story building containing ninety-five (95) residential units for low and moderate income individuals and families (the “New Affordable Units”) plus one (1) superintendent’s unit, a surface parking lot containing twenty-eight (28) accessory parking spaces (the “New Accessory Parking”) and other related improvements (collectively, the “New Project”); and

WHEREAS, it is anticipated that the New York City Housing Development Corporation (“HDC”) and the New York City Department of Housing Preservation and Development (“HPD”) will provide a substantial portion for the construction and permanent financing for the New Project, and as a condition thereto HDC and HPD will require the New Project Owner to execute and record a Regulatory Agreement (the “Regulatory Agreement”) against the New Project Parcel imposing certain marketing, occupancy, and operating requirements on the New Project for a term of at least forty (40) years, including, without limitation, (A) rental restrictions ensuring that: (i) forty-eight (48) of the New Affordable Units will be affordable to tenants whose annual income is at or below eighty percent (80%) of the area median income for the New York metropolitan area, as determined from time to time, and as adjusted for family size (“AMI”); (ii) forty-seven (47) of the New Affordable Units will be affordable to tenants whose annual income is at or below one hundred percent (100%) of AMI; (iii) rent for the New Affordable Units will not exceed thirty percent (30%) of the AMI limitation for the applicable unit, except to the extent of any such unit receives HDC and HPD approved rental subsidy (including, without limitation, federal rental subsidy pursuant to the Section 8 housing choice voucher program, the Section 8 rental certificate program, the Section 8 project-based rental assistance program, or any successor programs under the United States Housing Act of 1937, as amended), in which case the rent shall not exceed the permitted rent under the applicable rent subsidy program; and (B) income restrictions limiting occupancy of the New Affordable Units to eligible tenants whose annual income, upon initial occupancy, does not exceed applicable HDC and HPD requirements (collectively, the “New Project Affordability Restrictions”); and

WHEREAS, the Existing Accessory Parking is situated on the New Project Parcel, prompting the Declarant to request, by application assigned BSA Cal. 2017-149-BZ, that the New York City Board of Standards and Appeals (the “Board”) grant a special permit pursuant to its authority under ZR Section 73-433, reducing the required accessory parking spaces for the Existing Building to zero (0) and permitting the demolition of the Existing Accessory Parking, in

MINUTES

order to facilitate the development of the New Project (the “Special Permit”); and

WHEREAS, in granting the Special Permit, the Board determines that: (1) the grant of the Special Permit is necessary to facilitate the Company’s development of the New Project on the New Project Parcel; and (2) the New Accessory Parking will satisfy the parking requirements applicable to the New Project; and

WHEREAS, the Board requires Declarant to execute and record this Declaration as a condition precedent to its grant of the Special Permit;

NOW THEREFORE, in consideration of the Board’s grant of the Special Permit, Declarant does hereby declare as follows:

1. The New Project Owner shall enter into the Regulatory Agreement on or before the date of “commencement of construction” (i.e., the date upon which excavation and construction of initial footings and foundations commenced in good faith) of the New Project, and shall provide to the Board a copy of the fully executed Regulatory Agreement, along with a State of Construction Affidavit, the form of which is attached hereto as Exhibit C, signed and sealed by the architect or engineer for the project.
2. Subject to, and in accordance with, the terms and conditions of the Regulatory Agreement, including without limitation, the New Project Affordability Restrictions, the New Affordable Units shall remain affordable for a period of forty (40) years from the Effective Date of this Declaration (as defined herein).
3. This Declaration shall take effect as of the date on which the Board grants the Special Permit (the “Effective Date”).
4. This Declaration may not be modified, amended or terminated without the prior written consent of the Board, except as otherwise expressly set forth herein.
5. The covenants and restrictions set forth herein shall run with the land and be binding upon and inure to the benefit of the Declarant, the New Project Owner, the Board and their respective heirs, legal representatives, successors and assigns.
6. Failure to comply with the terms of this Declaration may result in the revocation of a building permit or certificate of occupancy

for the New Project, as well as any authorization or waiver granted by the Board, including, without limitation, the Special Permit. Provided, however, that any failure to comply and resulting right to revoke or terminate under this Section 6 shall be subject, in all respects, to (i) the notice and cure rights set forth in the Regulatory Agreement, and (ii) any other rights provided by HDC and/or HPD to (a) the Company, (b) each mortgagee holding a mortgage against the New Project Parcel, and/or (c) any credit enhancer of such mortgage loan(s) to remedy and cure any defaults under the Regulatory Agreement.

7. This Declaration shall be recorded at the City Register’s Office against the Premises and the New Project Parcel and the City Register file number (CRFN) and title of this Declaration shall be set forth on each temporary and permanent certificate of occupancy hereafter issued to any buildings located on the Premises and the New Project Parcel, and in any deed for the conveyance thereof.
8. In the event that either the Company or the Declarant, with the prior written consent of (a) the other, (b) each mortgagee holding a mortgage against the New Project Parcel or the Premises, and (c) any credit enhancer of such mortgage loan(s), elects to abandon the Special Permit, this Declaration may be cancelled by the recordation of a Notice of Cancellation at the City Register’s Office against the Premises and the New Project Parcel, and upon the filing of such Notice of Cancellation, this Declaration shall automatically cease, extinguish and be void and of no further force or effect; and

WHEREAS, a copy of the executed restrictive declaration was subsequently provided to the Board; and

WHEREAS, the Board thus finds that the requested waiver, as applied to this proposal, which includes new residential floor area on the zoning lot, will facilitate the creation or preservation of affordable housing in satisfaction of ZR § 73-433(b); and

WHEREAS, with regards to ZR § 73-433(c) and (d), the applicant submits that the elimination of 106 parking spaces at the site will neither cause traffic congestion nor adversely affect residents, businesses or community facilities in the surrounding area because the site is particularly well served by public transportation; approximately 18 percent of low-income households within

MINUTES

the Transit Zone own cars; the existing surface parking lot is significantly underutilized and, based on a parking survey and analysis of photographs of the premises over time, the current demand for parking on the site by the Existing Buildings is a maximum of 5 spaces; the Zoning Resolution only requires the provision of 24 parking spaces in association with the Proposed Development, pursuant to ZR §§ 25-23 and 25-251, for the 47 units available to tenants earning up to 100 percent AMI and the Proposed Development provides 28 parking spaces; and surveys of available on-street parking spaces revealed that more than one hundred parking spaces are available within walking distance of the site on both weekends and weekdays; and

WHEREAS, accordingly, the Board finds that the requested waiver will not cause traffic congestion in accordance with ZR § 73-433(c) and will not adversely affect residents, businesses or community facilities in the surrounding area in accordance with ZR § 73-433(d); and

WHEREAS, finally, with regards to the findings of ZR § 73-03 (a) and (b)2, the applicant states that, with regards to ZR § 73-03(a), the redevelopment of an underutilized parking lot, creation of 95 income-restricted dwelling units in its place and preservation of the 192 income-restricted dwelling units in the Existing Buildings are advantages to be derived from the special permit that outweigh the hazards or disadvantage of the community at large of the proposed waiver of off-street accessory parking spaces; with regards to ZR § 73-03(b), the applicant affirms that there are no public improvement projects with which the Proposed Development will interfere; and

WHEREAS, in light of the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-433 and 73-03; and

WHEREAS, the subject project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (“EAS”) CEQR

2 Subsections (c) through (g) of ZR § 73-03 are inapplicable to the subject application because there is no requirement under ZR § 73-433 for the Board to determine whether the special permit use is appropriately located in relation to the street system, as contemplated by ZR § 73-03(c); ZR § 73-433 is not one of the sections expressly named in ZR § 73-03(d); there is no term of years specified in ZR § 73-433 that would render ZR § 73-433(e) applicable; the subject application is not for a renewal of a special permit, as discussed in ZR § 73-03(f); and the subject application is not for an enlargement or extension of an existing use, as described in ZR § 73-03(g).

No. 17BSA122K, dated September 7, 2018; and

WHEREAS, the EAS documents that the project, as proposed, would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitary Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, by letter dated February 13, 2018, the New York City Department of Environmental Protection (“DEP”) states that, with the proposed stack location of the HVAC system, the proposed project would not result in significant air quality impacts; and

WHEREAS, by letter dated April 27, 2018, DEP states that it has reviewed the February 2017 Environmental Assessment Statement, the January 2017 Phase I Environmental Site Assessment and the April 2018 Phase II Environmental Site Assessment Work Plan (“Work Plan”) and Health and Safety Plan (“HASP”) for the subject project submitted by the applicant’s consultant, recommends that Figure 2 in the Work Plan be revised to individually label the proposed sampling locations and that the name and phone number for an Alternate Site Health and Safety Officer be included in the HASP and that DEP finds the April 2018 Work Plan and HASP acceptable so long as the recommended information is incorporated and, further, that upon completion of investigation activities at the site, the applicant should submit a detailed Phase II report—including, at a minimum, an executive summary, narrative of the field activities, laboratory data and conclusions, comparison of soil, groundwater and soil vapor analytical results (i.e., New York State Department of Environmental Conservation (NYSDEC) 6 NYCRR Part 375, NYSDEC Water Quality Regulations and the New York State Department of Health’s October 2006 Guidance for Evaluating Soil Vapor Intrusion in the State of New York) updated site plans depicting sample locations, boring logs, and remedial recommendations, if warranted—to DEP for review and approval; and

WHEREAS, the applicant submitted a revised Work Plan and HASP incorporating the recommendations contained in DEP’s April letter; and

WHEREAS, by letter dated August 3, 2018, DEP states that it has reviewed the January 2018 Environmental Assessment Statement, the June 2018 Remedial Investigation Report (“Phase II”) and July 2018 Remedial Action Workplan (“RAP”) and Construction Health and Safety Plan (“CHASP”), recommends that for all areas, which will be landscaped or covered with grass (not capped), a minimum of two (2) feet of DEP approved clean

MINUTES

fill/top soil must be imported from an approved facility/source and graded across all landscaped/grass covered areas of the site not capped with concrete/asphalt, the clean fill/top soil be segregated at the source/facility, have qualified environmental personnel collect representative samples at a frequency of one (1) sample for every 250 cubic yards, analyze the samples for TCL VOCs by EPA Method 8260, SVOC's by EPA Method 8270, pesticides by EPA Method 8081, PCBs by EPA Method 8082, and TAL metals by a New York State Department of Health Environmental Laboratory Approval Program certified laboratory, compared to NYSDEC 6 NYCRR Part 375 Environmental Remediation Programs, upon completion of the clean fill/top soil investigation activities, the applicant submit a detailed clean soil report—including, at a minimum, an executive summary, narrative of the field activities, laboratory data, and comparison of soil analytical results (i.e., NYSDEC 6 NYCRR Part 375 Environmental Remediation Programs)—to DEP for review and approval prior to importation and placement on-site; that if any petroleum-impacted soils (which display petroleum odors and/or staining) are encountered during the excavation/grading activities, the impacted soils should be removed and properly disposed of in accordance with all NYSDEC regulations; that the handling, transportation, and off-site disposal of all soil/fill material be performed in accordance with all applicable NYSDEC regulations; the dust suppression must be maintained by the contractor during the excavating and grading activities at the site; that if de-watering into New York City storm/sewer rains will occur during the proposed construction, a New York City Department of Environmental Protection Sewer Discharge Permit must be obtained prior to the start of any de-watering activities at the site; and that DEP finds the June 2018 RAP and CHASP acceptable as long as the aforementioned information is incorporated into the RAP and that, at the completion of the project, a Professional Engineer (P.E.) certified Remedial Closure Report—indicating that all remedial requirements have been properly implemented (i.e. installation of vapor barrier, transportation/disposal manifests for removal and disposal of soil in accordance with NYSDEC regulations; and two feet of DEP approved certified clean fill/top soil capping requirement in any landscaped/grass covered areas not capped with concrete/asphalt, etc.)—should be submitted to DEP for review and approval for the proposed project; and

WHEREAS, the applicant subsequently submitted a revised RAP incorporating the recommendations contained in DEP's August letter; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the

proposed action will not have a significant adverse impact on the environment; and

WHEREAS, based upon its review of the record, the Board concludes that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-03 and 73-433; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-03 and 73-433 to permit, on a site located partially within an R6A zoning district, partially within an R6A (C2-4) zoning district, partially within an R6B zoning district and partially within an R6B (C2-4) zoning district, the waiver of 106 accessory off-street parking spaces required for two buildings located on the zoning lot containing income-restricted housing units, contrary to ZR § 25-25, et seq.; *on condition* that all work shall substantially conform to drawings as they apply to the objections above noted filed with this application marked "Received October 10, 2018"--forty-four (44) sheets; and *on further condition*:

THAT income-restricted dwelling units shall be provided and retained in the Proposed Development as described in the restrictive declaration and pursuant to a regulatory agreement with HPD;

THAT the applicant shall enter into a Regulatory Agreement, as defined in the restrictive declaration, on or before the date of "commencement of construction" (i.e., the date upon which excavation and construction of initial footings and foundations commenced in good faith) of the Proposed Development, and shall provide to the Board a copy of the fully executed Regulatory Agreement, along with a State of Construction Affidavit, the form of which is attached to the Regulatory Agreement as Exhibit C, signed and sealed by the architect or engineer for the project;

THAT subject to, and in accordance with, the terms and conditions of the Regulatory Agreement, including without limitation, restrictions regarding the acceptable range of affordability, the income-restricted units located in the Proposed Development shall remain affordable for a period of forty (40) years from the Effective Date of the restrictive declaration;

THAT the City Register file number (CRFN) and title of the restrictive declaration shall be set forth on each temporary and permanent certificate of occupancy hereafter

MINUTES

issued to any building located on the subject premises, and in any deed for the conveyance thereof;

THAT for all areas, which will be landscaped or covered with grass (not capped), a minimum of two (2) feet of DEP approved clean fill/top soil must be imported from an approved facility/source and graded across all landscaped/grass covered areas of the site not capped with concrete/asphalt, the clean fill/top soil be segregated at the source/facility, have qualified environmental personnel collect representative samples at a frequency of one (1) sample for every 250 cubic yards, analyze the samples for TCL VOCs by EPA Method 8260, SVOC's by EPA Method 8270, pesticides by EPA Method 8081, PCBs by EPA Method 8082, and TAL metals by a New York State Department of Health Environmental Laboratory Approval Program certified laboratory, compared to NYSDEC 6 NYCRR Part 375 Environmental Remediation Programs, upon completion of the clean fill/top soil investigation activities, the applicant submit a detailed clean soil report—including, at a minimum, an executive summary, narrative of the field activities, laboratory data, and comparison of soil analytical results (i.e., NYSDEC 6 NYCRR Part 375 Environmental Remediation Programs)—to DEP for review and approval prior to importation and placement on-site;

THAT if any petroleum-impacted soils (which display petroleum odors and/or staining) are encountered during the excavation/grading activities, the impacted soils should be removed and properly disposed of in accordance with all NYSDEC regulations;

THAT the handling, transportation, and off-site disposal of all soil/fill material be performed in accordance with all applicable NYSDEC regulations;

THAT dust suppression must be maintained by the contractor during the excavating and grading activities at the site;

THAT if de-watering into New York City storm/sewer rains will occur during the proposed construction, a New York City Department of Environmental Protection Sewer Discharge Permit must be obtained prior to the start of any de-watering activities at the site;

THAT at the completion of the project, the applicant shall submit a Professional Engineer (P.E.) certified Remedial Closure Report—indicating that all remedial requirements have been properly implemented (i.e. installation of vapor barrier, transportation/disposal manifests for removal and disposal of soil in accordance with NYSDEC regulations; and two feet of DEP approved certified clean fill/top soil capping requirement in any landscaped/grass covered areas not capped with concrete/asphalt, etc.)—to DEP for review and approval for the proposed project;

THAT the above conditions shall appear on the

certificate of occupancy;

THAT substantial construction shall be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 11, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated August 1, 2017, acting on Alteration Application No. 321509480, reads in pertinent part:

1. Proposed plans are contrary to Zoning Resolution Section 23-142 in that the proposed floor area ratio exceeds the maximum permitted.
2. Proposed plans are contrary to Zoning Resolution Section 23-142 in that the proposed open space is less than the minimum required.
3. Proposed plans are contrary to Zoning Resolution Section 23-142 in that the proposed lot coverage exceeds the

MINUTES

- maximum permitted,
4. Proposed plans are contrary to Zoning Resolution Section 23-461 in that the proposed side yards are less than the minimum required.
 5. Proposed plans are contrary to Zoning Resolution Section 23-47 in that the proposed rear yard is less than the minimum required.; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03 to permit, in an R4 zoning district, the enlargement of an existing single-family detached residence that does not comply with zoning regulations for floor area, open space, lot coverage, side yards and rear yards, contrary to ZR §§ 23-142, 23-461 and 23-47; and

WHEREAS, a public hearing was held on this application on August 7, 2018, after due notice by publication in *The City Record*, and then to decision on October 11, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of East 12th Street, between Gilmore Court and Shore Parkway, in an R4 zoning district, in Brooklyn; and

WHEREAS, the subject site has approximately 24 feet of frontage along East 12th Street, 70 feet of depth, 1,645 square feet of lot area and is occupied by an existing single-family detached residence; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single- or two-family detached or semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special

permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage, open space, floor area, side yard, rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins. Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The

MINUTES

Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, inter alia, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge an existing detached single-family residence, as contemplated in ZR § 73-622; and

WHEREAS, in response to questions from the Board at hearing about the retention of existing building material, the applicant revised the drawings to reflect that adequate amounts of exterior walls will be retained at the exterior of the subject building and that adequate amount of floor joists will be retained; and

WHEREAS, the applicant proposes to enlarge the existing residence from 976 square feet of floor area (0.59 FAR) to 2,254 square feet of floor area (1.36 FAR), reduce open space from 61 percent to 48 percent, increase lot coverage from 39 percent to 52 percent, maintain side yards with depths of ¾" to the north and 4'-10" to the south and reduce the rear yard from 33'-2" of depth to 20'-0" of depth; and

WHEREAS, the applicant states that, at the subject site, floor area may not exceed 1,481 square feet (0.90 FAR) under ZR § 23-142, open space must be at least 55 percent under ZR § 23-142, lot coverage may not exceed 45 percent under ZR § 23-142, side yards must have minimum depths of 5 feet under ZR § 23-461 and rear yards must have a minimum depth of 30 feet under ZR § 23-47; and

WHEREAS, the applicant represents that the proposed building as enlarged is consistent with the built character of the neighborhood; and

WHEREAS, in support of this contention, the applicant surveyed single- and two-family residences in the surrounding area, finding that there are 24 residences with more than 1.0 FAR, of which 11 have more than 1.30 FAR, that 14 residences have lot coverage equal to or greater than 52 percent and that there are six residences on the subject block with rear-yard depths less than 20 feet, including adjacent residences, while 10 residences also have garages or sheds obstructing their rear yards; and

WHEREAS, the applicant also submitted a photographic streetscape montage, a contextual streetscape illustration and a photographic neighborhood study demonstrating that the proposed building will fit in with the built conditions of the surrounding area; and

WHEREAS, based upon its review of the record and

inspections of the subject site and surrounding neighborhood, the Board finds that the proposed building as enlarged will not alter the essential character of the neighborhood or district in which the subject building is located, nor impair the future use or development of the surrounding area; and

WHEREAS, in response to questions from the Board at hearing about the effect of the enlarged building on residences nearby, the applicant reduced the proposed building's decreased the proposed floor area; and

WHEREAS, by determination dated May 25, 2018, DOB represents that it has no objection to the proposed building with respect to compliance with applicable flood regulations on condition that the subject structure be provided with wet flood proofed construction to at or above Design Flood Elevation with necessary notes for wet flood proofed construction to be added to the drawings; that crawl space below Design Flood Elevation be provided with flood vents to allow automatic entry and exit of flood water; and that the height of the building be measured from the Design Flood Elevation under ZR § 64-131; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of bulk regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18BSA028K, dated September 1, 2017; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-622 and 73-03 to *permit*, in an R4 zoning district, the enlargement of an existing single-family detached residence that does not comply with zoning regulations for floor area, open space, lot coverage, side yards and rear yards, contrary to ZR §§ 23-142, 23-461 and 23-47; *on condition* that all work and site conditions shall conform to drawings filed with

MINUTES

this application marked “Received October 11, 2018”-Fifteen (15) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: there shall be a maximum of 2,254 square feet of floor area (1.36 FAR), there shall be a minimum of 48 percent open space, there shall be a maximum of 52 percent lot coverage, side yards shall have minimum depths of ¾” to the north and 4’-10” to the south and the rear yard shall have a minimum depth of 20’-0”, as illustrated on the Board-approved plans;

THAT removal of existing joists or perimeter walls in excess of that shown on the Board-approved drawings shall void the special permit;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by October 11, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 11, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated August 16, 2017, acting on New Building Application No. 420840335, reads in pertinent part:

“The increase in the degree of non-compliance is contrary to Section ZR 52-41 ‘Increase floor area is an increase in the non-conformance use at proposed extensions at first floor.’”

“The proposed extension in the front yard is contrary to Section ZR 23-44 ‘Proposed extension is not a permitted obstruction in the front yard (Beach 130th Street)’.”

“The proposed extension in the front yard is contrary to Section ZR 23-45 ‘Minimum Required front yard is 15’-0” (Beach 130th Street).’”

“The proposed extensions are contrary to Section ZR 54-31, ‘Proposed extension in the front yard of commercial establishment in an R2 district creates new non-compliance in floor area.’”

“The proposed extensions . . . decrease the required open space, also the floor area created is contrary to Section ZR 23-14.’”; and

WHEREAS, this is an application under ZR § 72-21 to permit, in an R2 zoning district, the development of a three-story mixed-use commercial and residential building that does not comply with zoning regulations for non-conforming uses, front yards, floor area and open space, contrary to ZR §§ 52-41, 23-44, 23-45, 54-31 and 23-14; and

WHEREAS, a public hearing was held on this application on June 19, 2018, after due notice by publication in *The City Record*, with continued hearings on August 14, 2018, September 27, 2018, and then to decision on October 11, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 14, Queens, recommends approval of this application; and

WHEREAS, Queens Borough President Melinda Katz submitted testimony in support of this application; and

WHEREAS, City Council Member Eric Ulrich submitted testimony in support of this application; and

WHEREAS, the subject site is located on the northeast corner of Newport Avenue and Beach 130th Street, in an R2 zoning district, in Queens; and

WHEREAS, the subject site has approximately 100 feet of frontage along Newport Avenue, 100 feet of

MINUTES

frontage along Beach 130th Street, 10,000 square feet of lot area and is occupied by a three-story, with cellar, mixed-use residential and commercial building; and

WHEREAS, the applicant proposes a three-story, with cellar, mixed-use building for use as an eating or drinking establishment on the first floor and in the cellar with dwelling units on the second and third floors that has 8,217 square feet of floor area (0.82 FAR), 6,478 square feet of open space (0.79 OSR) and a front yard with a depth of 12 feet along Beach 130th Street; and

WHEREAS, the applicant represents that, at the subject site, the proposed uses and extensions are not permitted under ZR §§ 52-41 and 54-31, that front yards must have a minimum depth of 15 feet with specified permitted obstructions allowed under ZR §§ 23-45 and 23-44, that floor area may not exceed 5,000 square feet (0.5 FAR) under ZR § 23-14 and that open space must be a minimum of 7,500 square feet (150.0 OSR) under ZR § 23-14; and

WHEREAS, the applicant represents that there are unique physical conditions peculiar to and inherent in the subject site, including existing site improvements and the unique history of development, that create practical difficulties or unnecessary hardship in complying with applicable zoning regulations; and

WHEREAS, the applicant represents that, at the subject site, there was a building constructed as a boarding house and inn in 1918 and converted to a transient hotel and eating or drinking establishment by 1926, that rooming units in said building were converted to dwelling units by 1970, that said building was occupied continuously for use as an eating or drinking establishment until it was destroyed by Superstorm Sandy and subsequently reconstructed as the subject building, and that, because of the unique history of development, the subject building can no longer be used as an eating or drinking establishment because the active operation of substantially all the non-conforming uses at the subject site have been discontinued for more than two years and the conversion would create non-compliances at the subject site; and

WHEREAS, the applicant represents that complying with applicable zoning regulations would result in a single-family residence at the subject site but that, because of said unique physical conditions, it is impracticable to convert the subject building to such purpose; and

WHEREAS, the Board finds that the above unique physical conditions create practical difficulties or unnecessary hardship in complying strictly with applicable zoning regulations that are not created by general circumstances in the neighborhood or district; and

WHEREAS, the applicant represents that, because of the above unique physical conditions, there is no

reasonable possibility that development would result in a reasonable return; and

WHEREAS, in support of this contention, the applicant supplied a financial feasibility study demonstrating that an as-of-right development—consisting of a non-complying three-story, with cellar, single-family detached residence with 7,549 square feet of floor area (0.75 FAR)—would result in a substantial loss on investment but that the proposed mixed-use building would yield a modest return; and

WHEREAS, the Board finds that, because of the above unique physical conditions, there is no reasonable possibility that development in strict conformity with applicable zoning regulations would bring a reasonable return; and

WHEREAS, the applicant represents that the proposed variance would not alter the essential character of the neighborhood; and

WHEREAS, in support of this contention, the applicant surveyed the surrounding area, finding that there are a number of commercial establishments, multiple dwellings and two-family residences in the vicinity; and

WHEREAS, the applicant further submitted a floor-area study, a front-yard study, an open-space study, a photographic streetscape montage and maps indicating that the subject building is in keeping with the built conditions of the surrounding area; and

WHEREAS, the applicant states that, because the subject site is located in a flood zone, the subject building as proposed will comply with applicable flood regulations; and

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, the Board finds that the proposed variance will not alter the essential character of the neighborhood or district in which the subject site is located; will not substantially impair the appropriate use or development of adjacent property; and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that the above practical difficulties or unnecessary hardship do not constitute a self-created hardship; and

WHEREAS, the Board finds that the above practical difficulties or unnecessary hardship have not been created by the owner or by a predecessor in title; and

WHEREAS, the applicant represents that the proposed variance is the minimum necessary to permit a productive use of the site, as reflected in the financial feasibility study; and

WHEREAS, the Board finds that the proposed variance is the minimum necessary to afford relief within the intent and purposes of the Zoning Resolution; and

WHEREAS, the project is classified as an Unlisted

MINUTES

action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 18-BSA-033Q, dated October 10, 2018; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, by correspondence dated October 10, 2018, the Department of City Planning states that the project as proposed will not substantially hinder the achievement of any Waterfront Revitalization Program (“WRP”) policy and is consistent with the WRP policies; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR § 72-21 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR § 72-21 to *permit*, in an R2 zoning district, the development of a three-story mixed-use commercial and residential building that does not comply with zoning regulations for non-conforming uses, front yards, floor area and open space, contrary to ZR §§ 52-41, 23-44, 23-45, 54-31 and 23-14; *on condition* that all work, operations and site conditions shall conform to drawings filed with this application marked “Received “September 7, 2018”-Fifteen (15) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: a maximum of 8,217 square feet of floor area (0.82 FAR), a minimum of 6,478 square feet of open space (0.79 OSR) and a front yard with a minimum depth

of 12 feet along Beach 130th Street, as illustrated on the Board-approved drawings;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by October 11, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved drawings shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 11, 2018.

2018-46-BZ

APPLICANT – Law Office of Lyra J. Altman, for Jack Saideh, owner.

SUBJECT – Application March 27, 2018 – Special Permit (§73-622) to permit the enlargement of an existing single-family home, contrary to side yard requirements (§§23-461(c)) and creates non-compliance with respect to the wall height (§23-631(b)). R4 (Special Ocean Parkway Sub-District).

PREMISES AFFECTED – 2205 East 2nd Street, Block 7129, Lot 52, Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision on behalf of the Brooklyn Borough Commissioner, dated March 2, 2018, acting on Department of Buildings (“DOB”) Application No. 321636119 reads in pertinent part:

The proposed enlargement of an existing one family residence in an R4 SOPD Subdistrict) zoning district:

1. Creates non-compliance with respect to the side yard and by not meeting the minimum requirements of section 23-461(c) of the zoning resolution;
2. Creates non-compliance with respect to the wall height and is contrary to section 23-

MINUTES

631(b) of the Zoning Resolution; and

WHEREAS, this is an application under ZR § 73-622 to permit, in an R4 zoning district and the Special Ocean Parkway Sub-District, the enlargement of a detached one-family dwelling that does not comply with the zoning requirements for side yards and wall height, contrary to ZR §§ 23-461(c) and 23-631(b), which are made applicable to the subject site by ZR §§ 113-543 and 113-55 respectively; and

WHEREAS, a public hearing was held on this application on September 27, 2018, after due notice by publication in *The City Record*, with a continued hearing on October 11, 2018, and then to decision on that date; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of East 2nd Street, between Avenue U and Avenue V, in an R4 zoning district, in the Special Ocean Parkway Sub-District, in Brooklyn; and

WHEREAS, the site has approximately 40 feet of frontage, a depth of 100 feet, 4,000 square feet of lot area and is occupied by a detached one and one-half-story one-family dwelling containing 1,525 square feet of floor area, a floor area ratio ("FAR") of 0.38, side yards 3'-2.5" inches and 11'-6", a rear yard of 48' 9.5" feet, a perimeter wall height of 14'-6", building height of 19'-3", and a garage located in the rear yard; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single- or two-family detached or semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and

Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage, open space, floor area, side yard, rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins. Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and

MINUTES

guided by, *inter alia*, ZR §§ 73-01 through 73-04; and
WHEREAS, as a threshold matter, the Board notes that this application located within an area in which the special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge the a detached one-family residence, as contemplated by ZR § 73-622; and

WHEREAS, the applicant proposes to enlarge the existing detached dwelling by extending the dwelling into the rear yard, raising the floor beams on the second floor, and demolishing the existing garage and replacing it with a parking pad, resulting in a two-story dwelling with 5,075 square feet of floor area (1.27 FAR), a 20-foot rear yard, a perimeter wall height of 23'-6", and a total building height of 34'-11"; and

WHEREAS, the applicant proposes to maintain the 3'-2.5" northern side yard and reduce the southern side yard to 8 feet; and

WHEREAS, at the subject site, an open area of at least eight feet between buildings containing residences is required pursuant to ZR § 23-461(c) and the perimeter wall height is restricted to a maximum of 21 feet pursuant to ZR § 23-631(b); and

WHEREAS, the applicant provided an analysis of single- or two-family detached or zero lot line dwellings located within 400 feet of the subject premises within an R4 zoning district (the "Study Area") concluding that, of the 31 qualifying residences, 19 residences (61 percent) do not provide open space less of at least eight feet between buildings containing residences, including 8 residences (26 percent) that provide open space of three feet in width or less between buildings containing residences; and

WHEREAS, pursuant to ZR § 73-622(c)(3), an enlargement resulting in a non-complying perimeter wall height is permitted at the subject site if it is adjacent to a single- or two-family detached or semi-detached residence with an existing non-complying perimeter wall facing the street; and

WHEREAS, accordingly, the applicant represents that the heights of the perimeter walls facing the street of the two-family detached residence located immediately north of the subject site on tax lot 53 (2201 East 2nd Street) and the semi-detached two-family dwelling located immediately to the south of the subject site on tax lot 51 (2207 East 2nd Street) are 30'-1" and 24'-10" respectively, thus, the proposed perimeter wall height of 23'-6" is less than the height of each of the adjacent buildings' non-complying perimeter walls facing the street; and

WHEREAS, in light of the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622; and

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6

NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622 to permit, in an R4 zoning district and the Special Ocean Parkway Sub-District, the enlargement of a one-family detached dwelling that does not comply with the zoning requirements with regards to side yards and perimeter wall height contrary to ZR §§ 23-461(c) and 23-631(b); *on condition* that all work shall substantially conform to drawings as they apply to the objection above-noted, filed with this application and marked "Received October 2, 2018"— Fifteen (15) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a northern side yard with a width of 3'-2.5"; a southern side yard with a width of 8 feet; a perimeter wall height of 23'-6";

THAT the removal of exterior walls and/or joists in excess of those indicated on the BSA-approved plans is prohibited and shall void the special permit;

THAT a certificate of occupancy shall be obtained within four (4) years;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the special relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 11, 2018.

2018-49-BZ

APPLICANT – Law Office of Lyra J. Altman, for Solomon S. Salem, owner.

SUBJECT – Application April 2, 2018 – Special Permit (§73-622) to permit the enlargement of an existing single-family home, contrary to floor area, lot coverage and open space (ZR §23-142) and wall height (ZR §23-631-(b)) R2X (Special Ocean Parkway) zoning district.

PREMISES AFFECTED – 1919 East 5th Street, Block 6681, Lot 492, Borough of Brooklyn.

MINUTES

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated March 2, 2018, acting on Department of Buildings (“DOB”) Application No. 321636057 reads in pertinent part:

The proposed enlargement of the existing one family residence in an R2X zoning district:

1. Creates non-compliance with respect to floor area by exceeding the allowable floor area ratio and is contrary to Section 23-142 of the Zoning Resolution;
2. [. . .]
3. [. . .]
4. Creates non-compliance with respect to perimeter wall height of building and is contrary to Section 23-631(b) of the Zoning Resolution; and

WHEREAS, this is an application under ZR § 73-622 to permit, in an R2X zoning district and the Special Ocean Parkway District, the enlargement of a detached one-family dwelling that does not comply with the zoning requirements for floor area ratio and perimeter wall height contrary to ZR §§ 23-142 and 23-631(b); and

WHEREAS, a public hearing was held on this application on September 27, 2018 after due notice by publication in *The City Record*, with a continued hearing on October 11, 2018, and then to decision on that same date; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the Board was in receipt of one form letter in support of this application; and

WHEREAS, the subject site is located on the west side of East 5th Street, between Avenue R and Avenue S, in an R2X zoning district and the Special Ocean Parkway District, in Brooklyn; and

WHEREAS, the site has approximately 40 feet of frontage along East 5th Street, a depth of 100 feet, 4,000 square feet of lot area and is occupied by a detached one and one-half story plus cellar one-family dwelling containing 2,369 square feet of floor area, a floor area ratio (“FAR”) of 0.59, a front yard of 23’-7.5”, a rear yard of 19’-3”, side yards of 3’-10.25” and 8’-0.5”, a perimeter wall height of 13’-8”, building height of 28 feet, and a detached garage located in the rear yard; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single- or two-family detached or semi-detached*

residence within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage, open space, floor area, side yard, rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The

MINUTES

increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins. Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that this application located within an area in which the special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge the detached one-family residence, as contemplated by ZR § 73-622; and

WHEREAS, the applicant proposes to enlarge the existing detached dwelling by extending the dwelling into the rear yard and front yard, constructing a greenhouse on the first floor in the rear yard, and demolishing the existing garage and replacing it with a parking pad, resulting in a two-story plus attic and cellar dwelling with 5,108 square feet of floor area (1.28 FAR), a 20-foot rear yard, a 15-foot front yard, side yards with widths of 6'-2.75" and 3'-10.25", a perimeter wall height of 24 feet, and a total building height of 34'-11"; and

WHEREAS, at the subject site, a maximum of 0.85 FAR (3,400 square feet of floor area) or 1.02 FAR (4,080 square feet of floor area), including an increase in the permissible floor area ratio by 20 percent if such increase in floor area is located directly under a sloping roof that rises at least three and one half inches in vertical distance for each foot of horizontal distance and the structural headroom of such floor area is between five and eight feet, is permitted pursuant to ZR § 23-142 and a maximum perimeter wall height of 21 feet is permitted pursuant to ZR § 23-631(b); and

WHEREAS, the applicant provided an analysis of single- or two-family dwellings located within 400 feet of the subject premises within an R2X zoning district (the "Study Area") concluding that, of the 52 qualifying residences, 10 residences (19 percent) have an FAR greater than 1.02, ranging from 1.02 to 1.32, including the

residence located immediately to the south of the subject site, which has an FAR of 1.27; and

WHEREAS, with regards to the perimeter wall height, the applicant provided measurements of the properties located immediately adjacent to the subject premises demonstrating that the property located to the immediate south on tax lot 490, 1925 East 5th Street, is a single- or two-family detached residence with an existing non-complying perimeter wall facing the street with a height of 24 feet; and

WHEREAS, the Board notes that the subject application did not receive an objection with regards to the rear yard and, therefore, the Board has made no findings or granted any waivers with regards to the rear yard regulations applicable at the subject site; and

WHEREAS, in addition, the Board notes that the DOB shall determine whether the greenhouse proposed within the proposed 20 foot rear yard is permitted at the subject site as-of-right; and

WHEREAS, in light of the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622; and

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622 to permit, in an R2X zoning district and the Special Ocean Parkway District, the enlargement of a one-family detached dwelling that does not comply with the zoning requirements with regards to floor area ratio and perimeter wall height contrary to ZR §§ 23-142 and 23-631(b); *on condition* that all work shall substantially conform to drawings as they apply to the objection above-noted, filed with this application and marked "October 11, 2018"—Fifteen (15) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area ratio of 1.28 (4,080 square feet of floor area), a perimeter wall height of 24 feet, as illustrated on BSA-approved plans;

THAT the removal of exterior walls and/or joists in excess of those indicated on the BSA-approved plans is prohibited and shall void the special permit;

THAT DOB shall determine whether the greenhouse indicated on the BSA-approved plans is a permitted obstruction in the rear yard;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the special relief granted; and

THAT DOB shall ensure compliance with all other

MINUTES

applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 11, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated December 2, 2015, acting on Alteration Application No. 121186260, reads in pertinent part:

“Proposed change of partial cellar use to a physical cultural or health establishment as defined by ZR 12-10 is contrary to ZR 32-10”;
and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, partially in a C6-1 zoning district and partially in a C6-4 zoning district, in the Special Union Square District, the legalization of a physical culture establishment on a portion of the first floor and in the cellar of a nine-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on October 11, 2018, after due notice by publication in *The City Record*, and then to decision on October 11, 2018; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site

and surrounding neighborhood; and

WHEREAS, Community Board 5, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the northwest corner of Union Square West and East 14th Street, partially in a C6-1 zoning district and partially in a C6-4 zoning district, in the Special Union Square District, in Manhattan; and

WHEREAS, the subject site has approximately 52 feet of frontage along Union Square West, 117 feet of frontage along East 14th Street, 6,032 square feet of lot area and is occupied by a nine-story, with cellar, commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.;
and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or

MINUTES

addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE occupies 6,950 square feet of floor space as follows: 390 square feet of floor area on the first floor, used as an entrance, and 6,560 square feet of floor space in the cellar, including a reception area, fitness area with climbing ropes, pull-up bars and gymnastic rings, restrooms, recovery room and storage; and

WHEREAS, the PCE has been in operation as Reebok CrossFit Union Square since January 1, 2015, with the following hours of operation: Monday to Friday, 5:00 a.m. to 9:00 p.m., Saturday, 9:00 a.m. to 12:00 p.m., and closed Sunday; and

WHEREAS, the applicant represents that the PCE use is consistent with the vibrant mixed-use area in which it is located, that the PCE use is fully contained within the envelope of an existing building and that the subject site has pedestrian access to rapid transit facilities within the vicinity; and

WHEREAS, in addition, the applicant submits that sound attenuation measures, including one-inch thick acoustic board ceiling and floors constructed of ¾-inch rubber matting, two layers of ¾-inch plywood, ¾-inch resilient plastic and 3 inches of memory foam, have been provided within the space so as to not disturb other tenants in the building; and

WHEREAS, the applicant further notes that an operational plan has been implemented to supervise patrons' use of weights and provide instructions on permissible weight use to negate sound impacts; and

WHEREAS, the Board finds that the PCE use is so located as not to impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE provides facilities for classes and instruction for physical improvement, body building, weight reduction and aerobics; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant submitted evidence that the PCE is fully sprinklered and that an approved fire alarm—including area smoke detectors, manual pull stations at each required exist, local audible and visual alarms and connection to an FDNY-approved central station—has been installed in the entire PCE space; and

WHEREAS, by letter dated October 5, 2018, the Fire Department states that it has no objection to this application so long as a Public Assembly application be filed with the Department of Buildings prior to occupancy of the space, should the PCE be used for public assembly; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 16-BSA-063M, dated January 4, 2016; and

MINUTES

WHEREAS, on April 9, 2014, the New York City Landmarks Preservation Commission issued a Certificate of No Effect approving interior alterations at the first floor, including the construction of nonbearing partitions, fixtures and finishes and plumbing work; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-36 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated without a special permit.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to *permit*, partially in a C6-1 zoning district and partially in a C6-4 zoning district, in the Special Union Square District, the legalization of a physical culture establishment on a portion of the first floor and in the cellar of a nine-story commercial building, contrary to ZR § 32-10; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked “Received May 31, 2018”-Five (5) sheets; and *on further condition*:

THAT this grant shall be limited to a term of ten (10) years, expiring January 1, 2025;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum 3’-0” wide exit pathways shall be maintained leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be maintained in the entire PCE space and the PCE shall be fully sprinklered, as indicated on the Board-approved drawings;

THAT sound attenuation shall be maintained in the PCE, as indicated on the Board-approved drawings;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by October 11, 2019;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by

the Department of Buildings;

THAT the approved drawings shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of drawings or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 11, 2018.

WHEREAS, the decision of the Department of Buildings (“DOB”), dated October 12, 2017, acting on New Building Application No. 421318586, reads in pertinent part:

“Respectfully request this application be referred to the Board of Standards and Appeals for approval of a physical culture establishment as per ZR 32-31, and special permit pursuant to ZR 73.36”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, in an R5D (C4-2A) zoning district, the operation of a physical culture establishment on a portion of the first floor and cellar of a three-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on October 11, 2018, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Community Board 1, Queens,

MINUTES

recommends approval of this application; and

WHEREAS, the subject site is located on the north side of 31st Street, between 23rd Avenue and Ditmars Boulevard, in an R5D (C4-2A) zoning district, in Queens; and

WHEREAS, the subject site has approximately 125 feet of frontage along 31st Street, between 175 feet and 145 feet of depth, 35,217 square feet of lot area and is occupied by a one-story commercial building and a three-story, with cellar, commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such use is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such use contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the

application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and

- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE will occupy 12,623 square feet of floor space as follows: 1,072 square feet of floor area on the first floor, including an entrance and common lobby, and 11,551 square feet of floor space in the cellar, including a juice bar, gymnasium, locker rooms and restrooms; and

WHEREAS, the PCE will operate as The Rock Health and Fitness with the following hours of operation: Monday to Friday, 24 hours per day, and Saturday and Sunday, 6:00 a.m. to 10:00 p.m.; and

WHEREAS, the applicant represents that the PCE use is consistent with the vibrant commercial area in which it is located and that the PCE use is fully contained within the envelope of an existing building; and

WHEREAS, in addition, the applicant submits that sound attenuation measures, including 15-inch thermal and acoustical insulation and lightweight concrete, will be provided within the space so as to not disturb other tenants in the building; and

WHEREAS, the Board finds that the PCE use is so located as not to impair the essential character or the future use or development of the surrounding area; and

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated March 27, 2018, acting on Alteration Application No. 123177374, reads in pertinent part:

“Proposed ‘Physical Culture Establishment’ is not permitted As-Of-Right per section ZR 32-10”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, in a C5-3 zoning district and the Special Midtown District, the legalization of a physical culture establishment on a portion of the second floor of a 17-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on October 11, 2018, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Vice-Chair Chanda performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 5, Manhattan, waives its recommendation for this application; and

WHEREAS, the subject site is located on West 40th Street, between Sixth Avenue and Fifth Avenue, in a C5-3 zoning district and the Special Midtown District, in Manhattan; and

WHEREAS, the subject site has approximately 53 feet of frontage along the south side of West 40th Street, 99 feet of depth, 5,184 square feet of lot area and is occupied by a 17-story, with cellar, commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction,

- aerobics or martial arts; or
- (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE occupies 3,878 square

MINUTES

feet of floor area on the second floor as follows: a lobby and reception area, two yoga studios, a locker area and restrooms with showers; and

WHEREAS, the PCE has been in operation as CorePower Yoga since July 2018, with the following hours of operation: 5:30 a.m. to 10:00 p.m., daily; and

WHEREAS, the applicant represents that the PCE use is consistent with the vibrant mixed-use area in which it is located, that the PCE use is fully contained within the envelope of an existing commercial building and that the subject site has pedestrian access to rapid transit facilities within the vicinity; and

WHEREAS, in addition, the applicant submits that sound attenuation measures, including partitions isolated from adjacent structures with one layer of 5/8" sheetrock with glue and 3" sound attenuated batt insulation, flooring of 2-3/4" isolated mat subfloor panels with rubber isolators and mineral wool insulation, perimeter isolation boards at all edges, acoustically isolated ceilings using unibody molded rubber and steel bracket suspension clips with two layers of 5/8" sheetrock and 3" sound attenuated batt insulation, have been provided within the space so as to not disturb other tenants in the building; and

WHEREAS, the Board finds that the PCE use is so located as not to impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE provides group exercise rooms for instructional classes; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, the applicant submitted evidence that the PCE is fully sprinklered and that an approved fire alarm—including area smoke detectors, manual pull stations at each required exist, local audible and visual alarms and connection to an FDNY-approved central station—has been installed in the entire PCE space; and

WHEREAS, by letter dated October 6, 2018, the Fire Department states that it has no objection to this application on condition that the Schedule A be amended to reflect the occupancy of the space and that a Public Assembly application be filed, if necessary; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no

adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18-BSA-127M, dated April 24, 2018; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-36 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated without a special permit.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 *permit*, in a C5-3 zoning district and the Special Midtown District, the legalization of a physical culture establishment on a portion of the second floor of a 17-story commercial building, contrary to ZR § 32-10; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked "Received October 10, 2018"-Five (5) sheets; and *on further condition*:

THAT this grant shall be limited to a term of ten (10) years, expiring July 31, 2028;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum 3'-0" wide exit pathways shall be maintained leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be maintained in the entire PCE space and the PCE shall remain fully sprinklered, as indicated on the Board-approved drawings;

THAT sound attenuation shall be maintained in the PCE, as indicated on the Board-approved drawings;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

MINUTES

THAT a certificate of occupancy shall be obtained within one (1) year, by October 11, 2019;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved drawings shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of drawings or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 11, 2018.

2016-4238-BZ

APPLICANT – Qiang Su Ra, for 388 Broadway Owners LLC, owner; Eden Day Spa, lessee.

***CORRECTION**

This resolution adopted on July 17, 2018, under Calendar No. 2017-232-A and printed in Volume 103, Bulletin Nos. 28-30, is hereby corrected to read as follows:

2017-232-A

APPLICANT – Land Planning & Engineering, for Neil Simon SHS Richmond Terrace, LLC, owner.

SUBJECT – Application August 4, 2017 – Proposed retail public self-storage building not fronting on a legally mapped street pursuant to Section 36 Article 3 of the General City Law. M1-1 zoning district

PREMISES AFFECTED – 1632 Richmond Terrace, Block 187, Lot 42, Borough of Staten Island.

COMMUNITY BOARD #1SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Deputy Borough Commissioner, dated July 21, 2017, acting on Department of Buildings Application No. 520304616 reads in pertinent part:

GCL 36; BC 501.3.1: The street giving access to the proposed building is not duly placed on the official map of the City of New York therefore:

- A) No certificate of occupancy can be issued pursuant to Article 3, Section 36 of General City Law;
- B) Proposed construction does not have at least 8% of the total perimeter of building fronting directly upon a legally mapped street of frontage space contrary to Sec 501.3.1 of the 2014 NYC Building Code; and

WHEREAS, this is an application to permit the construction of three-story plus cellar Use Group 16 storage facility with frontage solely on Richmond Terrace, an improved street not duly placed on the official New York City map, contrary to General City Law (“GCL”) § 36; and

WHEREAS, a public hearing was held on this application on May 1, 2018, after due notice in *The City Record*, with a continued hearing on June 26, 2018, and then to decision on July 17, 2018; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and the surrounding area; and

WHEREAS, Community Board 1, Staten Island, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of Richmond Terrace, between Tompkins Court and Alaska Street, in an M1-1 zoning district, on Staten Island; and

WHEREAS, the site has approximately 198 feet of frontage along Richmond Terrace, 13 feet of frontage along Tompkins Court, 46,634 square feet of lot are and is occupied by a two-story Use Group 6 commercial building that is proposed to be enlarged, both horizontally and vertically, and converted to a three-story plus cellar Use Group 16 storage facility; and

WHEREAS, the applicant submits that the proposed enlargement and conversion will comply with all zoning regulations applicable at the subject site, including those relating to required parking spaces and loading berths, and that the building will be fully sprinklered; and

WHEREAS, by letter dated November 30, 2017, the Office of the Borough President of Staten Island states that an Opinion of Dedication, dated June 6, 1944, was issued for Richmond Terrace between Arlington Avenue and Broadway, which includes the subject portion of Richmond Terrace, declaring that Richmond Terrace between those boundaries has been dedicated to the use of the public at widths varying from about 41.25 feet to 80 feet; and

WHEREAS, a survey of the site submitted by the applicant represents that Richmond Terrace is paved and has an average width of approximately 29 feet along the frontage of the subject site; and

WHEREAS, by letter dated September 26, 2017, the New York City Department of Environmental Protection (“DEP”) states that, based on DEP maps, there are 10-inch and 24-inch diameter City water main, an 8-inch diameter sanitary sewer and 84-inch diameter interceptor sewer in Richmond Terrace between Tompkins Court and Alaska Street; that the Latest Drainage Plan No: PRD-E, Sheet 3 of 3, dated May 1973, shows two 10-inch diameter sanitary sewers, a 24/30-inch diameter storm sewer and an 84-inch diameter interceptor sewer in the bed of Richmond Terrace fronting the subject site; that the proposed internal sanitary and storm pipes will be constructed as per Site Connection Proposal ID#5659, approved on September 15, 2017; that the applicant has submitted a plan showing the proposed extension of the existing development; that the owner will maintain the sewer and water connections and they will not be maintained by the City of New York; and that based on the above, DEP has no objections to the subject application; and

WHEREAS, in addition, at the request of the Fire Department, the applicant proposed a 12-foot gate along the portion of the subject site fronting Tompkins Court for emergency and Fire Department use only; and

WHEREAS, by letter dated April 30, 2018, the Fire

MINUTES

Department states that it has no objections to this application on condition that the entire building development be fully sprinklered; that the frontage space located at the main front entrance have roadway markings indicating “NO STANDING ANYTIME-FIRE ZONE”; that all Siamese connection locations be maintained free from all obstructions and have a serviceable hydrant within 100 feet; that an approved sign be posted in the vicinity of the main front entrance indicating the direction and distance to all Siamese locations; and that the internal fire lane indicated on the approved plans have “NO STANDING ANYTIME” signs posted in compliance with New York City Fire Code Section 503.2.7.2.1 and this lane be dedicated exclusively for emergency vehicle access with approved signage posted at both entry points stating, “FDNY USE ONLY”; and

WHEREAS, the Board has determined that the applicant has submitted adequate evidence to warrant approval of the application subject to certain conditions set forth herein.

Therefore it is Resolved, that the decision of the DOB dated July 21, 2017, acting on DOB Application No. 520304616, is modified by the power vested in the Board by Section 36 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked “Received July 17, 2018”- One (1) sheet; that the proposal will comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT the proposed internal sanitary and storm pipes shall be constructed as per Site Connection Proposal ID#5659, approved by the New York City Department of Environmental Protection (“DEP”) on September 15, 2017;

THAT the owner of the subject site shall maintain the sewer and water connections at the subject site, which shall not be maintained by the City of New York;

THAT the entire proposed development shall be fully sprinklered;

THAT the frontage space located at the main front entrance shall have roadway markings indicating “NO STANDING ANYTIME-FIRE ZONE,” as indicated on the BSA-approved plans;

THAT all Siamese connection locations shall be maintained free from all obstructions and have a serviceable hydrant within 100 feet;

THAT an FDNY-approved sign shall be posted in the vicinity of the main front entrance indicating the direction and distance to all Siamese locations;

THAT the internal fire lane indicated on the approved plans shall have “NO STANDING ANYTIME” signs posted in compliance with New York City Fire Code

Section 503.2.7.2.1;

THAT a certificate of occupancy shall be obtained within four (4) years, by July 17, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by DOB;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 17, 2018.

TUESDAY MORNING, OCTOBER 23, 2018
10:00 A.M.**

Present: Chair Perlmutter, Vice-Chair Chanda,
Commissioner Ottley-Brown, Commissioner Sheta and
Commissioner Scibetta.

SPECIAL ORDER CALENDARS

7-57-BZ

APPLICANT – Edward Lauria, for Ruth Peres, owner.
SUBJECT – Application December 17, 2015 – Extension of
Term (§11-411) of a previously granted variance for a
gasoline service station and maintenance which expired
September 20, 2015; Waiver of the Rules. R3-2 zoning
district.

PREMISES AFFECTED – 2317 Ralph Avenue aka 2317-27
Ralph Avenue, Block 8364, Lot 34, Borough of Brooklyn.

COMMUNITY BOARD #18BK

ACTION OF THE BOARD – Granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda,
Commissioner Ottley-Brown, Commissioner Sheta and
Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the
Board’s Rules of Practice and Procedure, reopening and an
extension of term to a previously granted variance, which
expired on September 20, 2015; and

WHEREAS, a public hearing was held on this
application on August 8, 2017, after due notice by
publication in *The City Record*, with continued hearings on
October 17, 2017, March 20, 2018, April 17, 2018, and
October 23, 2018, and then to decision on that date; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-
Brown, and Commissioner Scibetta performed inspections of
the site and surrounding neighborhood; and

WHEREAS, Community Board 18, Brooklyn,
recommends disapproval of this application, stating that the
applicant has not been compliant with the terms of the prior
grant; and

WHEREAS, the subject site is located on the southeast
corner of the intersection of Ralph Avenue and Avenue M, in
an R3-2 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 100 feet of
frontage along Ralph Avenue, 110 feet of frontage along
Avenue M, 170 feet of frontage along East 65th Street,
18,706 square feet of area and is occupied by a one-story

automotive service station (Use Group 16B) with
convenience store and accessory automotive repairs; and

WHEREAS, the Board has exercised jurisdiction over
the subject site since July 23, 1957, when, under the subject
calendar number, the Board granted a variance for a term of
15 years, expiring July 23, 1972, to permit, on a premises
located partly in a business use district and partly in a
residential district, the erection and maintenance of a gasoline
service station and store building, as proposed in plans filed
with the application, on condition that the premises be
leveled substantially to the grade of abutting streets and
constructed and maintained as shown on such plans; the store
building comply with the requirements of the Building Code
therefor and occupy the space and location shown with a
space of 18 feet from the front wall of such building to the
building line of East 65th Street; the southerly portion of the
plot proposed to be occupied as a gasoline service station be
arranged as shown on such plans; the accessory building be
in compliance with the requirements of the Building Code,
have no cellar and be faced on all sides with face brick
agreeing with the walls of the store building; pumps be of a
low approved type, erected not nearer than 15 feet to Ralph
Avenue; curb cuts be restricted to two (2), 30 feet in width
each, on Ralph Avenue and one of similar width to Avenue
M, where shown; the number of gasoline storage tanks not
exceed ten (10) 550-gallon approved tanks; on the lot line to
the east from the accessory building to the building line of
Ralph Avenue there be erected a masonry wall not less than
five (5) feet six (6) inches high except it may be reduced to a
height of not less than four (4) feet six (6) inches within ten
(10) feet from the street building line; where not occupied by
accessory building, store and pumps, the premises be paved
with concrete or asphalt; such firefighting appliances be
maintained as the fire commissioner directs; signs for the
gasoline service station be restricted to those attached to the
façade of the accessory building and the illuminated globes of
the pumps, excluding all roof signs and temporary signs, but
permitting the erection at the intersection of Ralph Avenue
and Avenue M of a post standard for supporting a sign, which
may be illuminated, advertising only the brand of gasoline on
sale, which sign may extend not more than four (4) feet
beyond the building line; under section 7f there may be minor
repairing with hand tools only for adjustments maintained
solely within the accessory building; there may be parking of
motor vehicles within the gasoline station portion of the plot
so located as not to interfere with the servicing of the station;
and all permits required be obtained and all work completed
and a certificate of occupancy be obtained within one (1)
year; and

WHEREAS, on July 8, 1958, under the subject
calendar number, the Board granted an extension of time to
obtain permits and complete work and amended the variance
by adding that the accessory building may be changed in

MINUTES

shape as shown on revised plans submitted with the application, on condition that in all other respects the requirements of the resolution be complied with; all permits be obtained and all work completed by July 8, 1959; and

WHEREAS, on February 3, 1959, under the subject calendar number, the Board amended the variance by adding that in the event the owner desires to make minor changes in the requirements of the resolutions adopted on July 23, 1957, through July 8, 1958, such changes may be permitted only as to the following: there may be two (2) additional 550-gallon gasoline storage tanks, making a total of 12 such tanks; there may be one (1) 30-foot island on the Ralph Avenue frontage with five (5) pumps instead of two (2) islands with two (2) pumps, each as shown on approved plans submitted with the application; and there may be an additional curb cut 30 feet in width to Avenue M, where shown; and

WHEREAS, on November 10, 1959, under the subject calendar number, the Board extended the time to obtain permits, complete construction, and obtain a certificate of occupancy to November 10, 1969; and

WHEREAS, on July 12, 1960, under the subject calendar number, the Board amended the variance to permit the redesign, rearrangement, and construction of the gasoline station substantially as shown on approved plans filed with the application, on condition that the prior resolutions be complied with in all respects; and

WHEREAS, on November 29, 1960, under the subject calendar number, the Board extended the time to obtain permits, complete construction, and obtain a certificate of occupancy to November 29, 1961; and

WHEREAS, on March 13, 1962, under the subject calendar number, the Board extended the time to obtain permits, complete construction, and obtain a certificate of occupancy to March 13, 1962; and

WHEREAS, on April 23, 1963, under the subject calendar number, the Board extended the time to obtain permits and complete construction to April 23, 1964, and required applicant to obtain a certificate of occupancy; and

WHEREAS, on June 4, 1963, under the subject calendar number, the Board amended the variance to permit the installation of an additional pump island with two (2) approved gasoline pumps facing Avenue M, substantially as shown on approved plans submitted with the application, on condition that the amended resolution be otherwise complied with in all respects; and

WHEREAS, on May 23, 1972, under the subject calendar number, the Board granted a ten (10) year extension to the term of the variance, expiring July 23, 1982, on condition that other than as amended the resolution be complied with in all respects, and a new certificate of occupancy be obtained; and

WHEREAS, on September 30, 1980, under BSA Cal. No. 643-80-A, the Board granted an appeal permitting the

use and installation of self-service gasoline dispensing devices on condition that a trained attendant who possesses a Certificate of Fitness, as required by Section C19-73.0.b2 of the Fire Prevention Code, be on duty at all times when the station is open for business; it be the attendant's duty to require the engine of any vehicle be shut off before the start of the fuel operation, and to prohibit smoking within the immediate area of the fuel operation; it be the attendant's duty to prevent the dispensing of fuel into portable containers; signs reading "No Smoking," "Stop Your Engine," "It Is Unlawful to Dispense Gasoline Into Portable Containers," and "The Dispensing of Gasoline Shall be by a Person Holding a Valid Drivers License or a Person 18 years of age or older" be conspicuously posted in clear view of the customer at the dispensing island; portable fire extinguishers, acceptable to the Fire Commissioner, be located as indicated on filed plans; all dispensing devices and fire suppression systems be approved by the Board of Standards and Appeals; the suppression system be arranged in a manner so as to cover an area around each pump encompassed by a circle having a radius equal to the maximum extendable length of the hose and nozzle of said pump; the installation and use of coin-operated dispensing devices for fuel be prohibited; there be constant contact between the attendant in the control booth and the dispensing island by means of a voice intercommunication system which shall be maintained in a proper operating condition at all times; all controls, devices, fire suppression systems and fire fighting equipment be maintained in good operating order at all times; a maintenance log be kept on the premises as per direction of the Fire Commissioner; all dispensing nozzles be the automatic closing type without hold open latches; a list of emergency procedures and instructions be conspicuously posted in the immediate vicinity of the attendant's principal control location, said instructions be at the direction of the Fire Commissioner; the dispensing areas, at all times, be well lit for complete visual control; the permit to operate the station be for a term of five (5) years from the date of the approval, expiring September 30, 1985; all of the conditions set forth in the resolution be conspicuously posted in the attendant's booth; full sidewalks be provided along the East 65th Street frontage; screening along East 65th Street comply with Section 25-66(b) of the Zoning Resolution of the City of New York, such screening be maintained in good condition at all times; flood lights be directed down and away from adjoining residential properties; trees be planted along the East 65th Street frontage in accordance with the Department of Parks regulations; automobile repairs be limited to lubrication and minor repairs made with hand tools; parking of vehicles will be limited to those vehicles awaiting repairs; car washing be limited to non-automatic washing; the service station be operated so as to minimize traffic congestion; and full details relating to the building, equipment, devices and

MINUTES

controls as well as details relating to the conditions enumerated be submitted to the Board before a permit be issued; and

WHEREAS, also on September 30, 1980, under the subject calendar number, the Board extended the term of the variance for five (5) years, expiring September 30, 1985, and amended the variance to permit the construction of a canopy over the pump island and an attendant's booth within the existing office and sales space, and a change in the sale of gasoline to self-service, on condition that a full width sidewalk be installed along East 65th Street frontage, screening along East 65th Street comply with Section 25-66(b) of the Zoning Resolution; such screening be maintained in good condition at all times; flood lights be directed down and away from adjoining residential properties; trees be planted along the East 65th Street frontage in accordance with Department of Parks regulations; automobile repairs be limited to lubrication and repairs be made with hand tools only; parking of vehicles be limited to those automobiles awaiting repairs; car washing be limited to non-automatic washing; the existing structure (accessory building) be repaired and maintained to the condition that existed prior to the abandonment of the property; there be regular disposal of any garbage or debris on the premises; the station be operated in all times in such a fashion to minimize traffic congestion; no permit be issued until a plan is submitted to the Board for approval showing compliance with the resolution; all work be completed within one (1) year from the date of the amended resolution; and other than as amended the resolution be complied with in all respects; and

WHEREAS, on November 17, 1981, under the subject calendar number, the Board extended the time to complete construction to November 17, 1982, on condition that a six-(6) foot-high stockade fence be installed along East 65th Street frontage and the lot be properly maintained free of refuse at all times; and

WHEREAS, on March 1, 1983, under the subject calendar number, the Board reopened and amended the variance, co-terminous with BSA Cal. No. 643-80-A, to expire September 30, 1985, on condition that the station be maintained clean and free of debris at all times and that the station be operated at all times in such a fashion so as to minimize traffic congestion; the resolution be otherwise complied with in all respects; and a new certificate of occupancy be obtained within one (1) year; and

WHEREAS, also on March 5, 1985, under the subject calendar number, the Board reopened and extended the term of the variance for ten (10) years, expiring September 30, 1995, on condition that there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic, that other than as amended the resolution be complied with in all respects, and a new certificate of occupancy be obtained within one (1) year; and

WHEREAS, also on March 5, 1985, under BSA Cal. No. 643-80-A, the Board reopened and extended term of the resolution adopted on September 30, 1980, for five (5) years, expiring on September 30, 1990, on condition that the references in the resolution to the conditions be amended to include the following additional conditions: mirrors be provided which insure that the person with the certificate of fitness in the control booth can readily see the people operating any of the self-service devices; that manual switches be provided which actuate the fire suppression system and electrically disconnect the pumps, and that the switches be located adjacent to each other and within five (5) feet of the console which controls the self-service operation; the gasoline station be operated in such a manner that minimizes traffic congestion; the windows of the control booth remain clear and unobstructed at all times; the resolution be otherwise complied with in all respects; and a new certificate of occupancy be obtained within one (1) year; and

WHEREAS, on February 27, 1996, under the subject calendar number, the Board reopened and extended the term of the variance for ten (10) years, expiring September 30, 2005, on condition that street trees be replaced as necessary to comply with BSA-approved plans, the premises be maintained in substantial compliance with the existing and proposed drawings submitted with the application, that, other than as amended, the resolution be complied with in all respects and a new certificate of occupancy be obtained within one (1) year; and

WHEREAS, on February 28, 2006, under the subject calendar number, the Board reopened and extended the term of the variance for ten (10) years, expiring September 30, 2015, on condition that the use substantially conform to approved drawings submitted with the application; parking on site be for vehicles awaiting service only; the above conditions be listed on the certificate of occupancy; all conditions from prior resolutions not specifically waived by the Board remain in effect; all fencing and landscaping be installed and maintained as per the BSA-approved plans; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdictional objection(s) only; and the Department of Buildings ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, the term of the variance having expired, the applicant seeks a ten (10) year extension of the term of the variance, first issued in 1957, pursuant to ZR § 11-411; and

WHEREAS, the applicant additionally requests a waiver, pursuant to § 1-14.2 of the Board's Rules of Practice and

MINUTES

Procedure, of Rule § 1-07.3(b)(2) to permit the filing of this application less than two (2) years after the expiration of the term; and

WHEREAS, ZR § 11-411 states:

Where no limitation as to the duration of the *use* was imposed at the time of [the variance authorized by the Board of Standards and Appeals pursuant to the 1916 Zoning Resolution], such *use* may be continued. Where such *use* was authorized subject to a term of years, such *use* may be continued until the expiration of the term, and thereafter, the agency which originally authorized such *use* may, in appropriate cases, extend the period of continuance for one or more terms or not more than 10 years each. The agency may prescribe appropriate conditions and safeguards to minimize adverse effects of such *use* on the character of the neighborhood;

WHEREAS, the applicant represents that the accessory service building located at the premises was converted to a convenience store under Department of Buildings (“DOB”) Application No. 320084680; and

WHEREAS, at the hearing, the Board expressed concerns regarding the maintenance of the site, the presence of temporary structures and extraneous signage, status of environmental cleanup at the site, which has an E-designation (R-166), soil disturbance, and the accessory building’s compliance with DOB Technical Policy and Procedure Notice (“TPPN”) 10/99 (“Retail Convenience Stores Accessory to Automotive Service Stations Use Group 16”); and

WHEREAS, in response, the applicant restriped and resurfaced the asphalt at the site, added bumpers to parking spaces, installed new fencing, removed extraneous signage, installed landscaping and provided a New York State Department of Environmental Conservation Spill Closure Report dated May 7, 2018, stating that the July 7, 2008 spill case was closed because either: a) the records and data submitted indicate that the necessary cleanup and removal actions have been completed and no further remedial activities are necessary, or b) the case was closed for administrative reasons; and

WHEREAS, the applicant additionally stated that at 2,268 square feet, the accessory building, which is located on the same zoning lot as the service station, complies with TPPN 10/99; and

WHEREAS, by letter dated October 9, 2018, the Fire Department stated that it had no objection to this application; and

Therefore, it is Resolved, that the Board of Standards

and Appeals, *waives* Rule § 1-07.3(b)(2) of its Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated July 23, 1957, as amended through February 28, 2006, so that as amended this portion of the resolution reads: “to grant an extension of the term of the variance for a term of ten (10) years, to expire on September 30, 2025; and *on condition* that all work and site conditions shall conform to drawings filed with this application marked “Received September 21, 2017”-Two (2) sheets and March 30, 2018”-Two (2) sheets and *on further condition*:

THAT the term of this grant shall expire on September 30, 2025;

THAT the property shall be maintained graffiti-free at all times;

THAT fencing and landscaping shall be maintained as indicated on the Board-approved plans, and repaired and replaced as required so as to be maintained in good condition at all times;

THAT there shall be no signage at the site in excess if that indicated on the Board-approved plans;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions shall be indicated on the certificate of occupancy;

THAT a revised certificate of occupancy be obtained within one (1) year, by October 23, 2019;

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, October 23, 2018.

340-04-BZ

APPLICANT – Rothkrug Rothkrug & Spector LLP, for WG Staten Island Realty LLC, owner.

SUBJECT – Application February 9, 2018 – Amendment of a previously approved Variance (§72-21) which requested bulk variance to allow the construction of a drug store without the required parking contrary to Z.R. §§33-23(B) and 36-21. The amendment seeks to change the use from a drug store (UG6) PRC-B to a food store (UG 6) PRC-A. C4-1 zoning district.

PREMISES AFFECTED – 1579 Forest Avenue, Block 1053, Lot 149, Borough of Staten Island.

COMMUNITY BOARD #1SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

Commissioner Scibetta.....5
Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Deputy Borough Commissioner, dated January 10, 2018, acting on Department of Buildings (“DOB”) Application No. 520320000, reads in pertinent part:

Food stores located in a C4-1 zoning district with 2,000 or more square feet of floor area per establishment (PRC-A in Use Group 6) require 1 space per 100 square feet as per ZR 36-21;

Uses in PRC-B in Use Group 6 located in a C4-1 zoning district (PRC-B in UG 6) require 1 space per 150 square feet as per ZR 36-21;

Provided total number of spaces is contrary to ZR 36-21.

WHEREAS, this is an application to reopen and amend a variance, previously granted by the Board pursuant to ZR § 72-21, to permit a change in use from a Use Group (“UG”) 6 drug store (Parking Requirement Category- (“PRC”) B) to a UG 6 food store (PRC-A); and

WHEREAS, a public hearing was held on this application on August 14, 2018, after due notice by publication in *The City Record*, with a continued hearing on October 23, 2018, and then to decision on that date; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 1, Staten Island, recommends approval of this application on condition that the number of ADA-accessible parking spaces provided on the site be increased to three (3), the waiver issued be specific to the applicant-operator and that the refuse area proposed to be adjacent to Forest Avenue be relocated; and

WHEREAS, the site is located on the northeast corner of Forest Avenue and Crystal Avenue, in a C4-1 zoning district, on Staten Island; and

WHEREAS, the site has approximately 151 feet of frontage on Forest Avenue, 23,564 square feet of lot area, and is occupied by a two-story commercial building containing 11,057 square feet of floor area; and

WHEREAS, the Board has exercised jurisdiction over the subject since May 10, 2005, when, under the subject calendar number, the Board granted a variance, pursuant to ZR § 72-21, to permit the construction and maintenance of a UG 6 drugstore without the required parking, contrary to ZR § 36-21, on condition that all work substantially conform to approved drawings filed with the application, and on further condition that the premises be maintained free of debris and graffiti; any graffiti located on the premises be removed within 48 hours; all fencing and landscaping be installed and maintained as shown

on the BSA-approved plans; 381 parking spaces be provided at all times; the above conditions be noted on the certificate of occupancy; the approval be limited to relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; the approved plans be considered approved only for the portions related to the specific relief granted; the DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted; and

WHEREAS, the applicant now seeks an amendment to permit a change in use, from a UG 6 drug store (PRC-B) to a UG 6 food store (PRC-A), that results in an increase in the number of required parking spaces from 74 to 103, and therefore, requires an amendment of the previous grant to waive 29 additional parking spaces; and

WHEREAS, the applicant states that the proposed amendment would allow the subject site to be occupied because the site has been vacant since September 2015, when the prior tenant, a drug store, vacated and, other than the proposed grocery store, no other tenants have been identified; and

WHEREAS, the applicant represents that the proposed food store will be operated by “Top Tomato,” and will operate daily from 7:00 a.m. to 8:00 p.m.; and

WHEREAS, the applicant represents that the parking requirements of Top Tomato at the subject site will be satisfied with the existing 38 parking spaces and submits that the parking demands at the subject site are anticipated to be comparable to two (2) other Top Tomato locations, both located on Staten Island, of comparable size (10,975 square feet and 8,017 square feet) and each providing 35 accessory off-street parking spaces; and

WHEREAS, based on the applicant’s submission that the number of accessory off-street parking spaces provided at the subject premises is sufficient based on the operator’s other Staten Island locations, the Board adopts Community Board 1, Staten Island’s condition that the subject amendment be limited to the operation of the premises by Top Tomato; and

WHEREAS, over the course of the hearings, the Board raised concerns regarding sufficient landscaping and, in response to the comments provided by Community Board 1, Staten Island, the number of ADA-accessible parking spaces provided and the location and operation of the refuse staging area; and

WHEREAS, the applicant stated that the creation and

1The resolution incorrectly states that 39 parking spaces were to be provided on-site, but the plans approved in connection with the grant demonstrates the provision of 38 accessory off-street parking spaces at the premises.

MINUTES

maintenance of three (3), as opposed to two (2), accessible parking spaces would reduce the number of general parking spaces and would contribute to creating more congestion at the subject site; and

WHEREAS, regarding the refuse staging area, the applicant made the requested changes to the drawings in satisfaction of the Board's request demonstrating the proper location of the refuse lift to facilitate the transfer of refrigerated storage from the second floor to the curb at grade; and

WHEREAS, based upon its review of the record, the Board finds that an amendment to the variance to permit a UG 6 food store (PRC-A) is appropriate with certain conditions, as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated May 10, 2005, so that as amended this portion of the resolution shall read: "to permit a food store (UG 6) PRC-A, *on condition* that any and all work shall substantially conform to drawings as filed with this application, marked 'Received October 22, 2018'-Five (5) sheets and 'October 26, 2018-Two (2) sheets; and *on further condition*:

THAT this grant is specific to the operation of the UG 6 food store by Top Tomato;

THAT there shall be no change in operator of the UG 6 food store without prior application to and approval from the Board;

THAT 38 parking spaces shall be provided at all times;

THAT refuse shall be brought to the exterior refuse staging area immediately prior to pick-up and removal from the site;

THAT the premises shall be maintained free of debris and graffiti at all times;

THAT any graffiti located on the premises shall be removed within 48 hours;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT a revised certificate of occupancy shall be obtained within four (4) years of this amendment, by October 23, 2022;

THAT substantial construction, in accordance with Board-approved plans, shall be completed in accordance with ZR § 72-23;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not

related to the relief granted."

Adopted by the Board of Standards and Appeals, October 23, 2018.

APPLICANT – Patrick W. Jones, P.C., for 32 East 31st Street Corp., owner; Tone House, lessee.

SUBJECT – Application May 24, 2016 – Extension of Term of a previously granted Special Permit (§73-36) for the continued operation of Physical Culture Establishment (*Tone House*) which expired on April 25, 2016. C5-2 zoning district.

PREMISES AFFECTED – 32 East 31st Street, Block 860, Lot 55, Borough of Manhattan.

COMMUNITY BOARD #5M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision on behalf of the Manhattan Borough Commissioner, dated September 15, 2016, acting on Department of Buildings ("DOB") Application No. 122762073, reads in pertinent part:

Proposed extension of term, change in ownership, and amendment in type of a physical culture establishment must be referred to the Board of Standards and Appeals for approval pursuant to ZR 73-36 (Physical culture or health establishment); and

WHEREAS, this is an application for reopening, an extension of term of a previously granted special permit for a physical culture establishment ("PCE"), which expired on April 25, 2016, and an amendment to the same; and

WHEREAS, a public hearing was held on this application on October 23, 2018, after due notice by publication in *The City Record*, and then to decision on that same date; and

WHEREAS, the Board was in receipt of one (1) letter in support of this application; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown, and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the south side of East 31st Street between Madison Avenue and Park Avenue South, in a C5-2 zoning district, in Manhattan; and

WHEREAS, the site has approximately 45 feet of frontage along East 31st Street, 98 feet of depth, 4,444 square feet of lot area and is occupied by a 12 story plus cellar

MINUTES

commercial building; and

WHEREAS, the subject PCE is located on portions of the cellar (1,816 square feet), first floor (2,933 square feet) and mezzanine (563 square feet) of the existing building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since April 25, 2006, when, under the subject calendar number, the Board granted a special permit, pursuant to ZR § 73-36, to permit the legalization of a PCE located on the cellar level, first floor, and first floor mezzanine of an existing ten- (10) story commercial building on condition that all work substantially conform to approved plans filed with the application, and on further condition that the term of the grant be for ten (10) years, expiring April 25, 2016; there be no change in ownership or operating control of the PCE without prior application to and approval from the Board; the hours of operation be limited to 9:00 A.M. to 12:00 A.M., daily; all massages be performed only by New York State licensed massage professionals; the above conditions appear on the Certificate of Occupancy; Local Law 58/87 compliance be as reviewed and approved by DOB; fire safety measures be installed and/or maintained as shown on the Board-approved plans; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; the approved plans be considered approved only for the portions related to the specific relief granted; and the DOB ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, the previous term of the special permit having expired, the applicant requests the subject relief; and

WHEREAS, additionally, the applicant seeks an amendment to the PCE's special permit indicating a change to the ownership and operation operator of the subject PCE to "Tone House," a change in the hours of operation, and the elimination of massage services; and

WHEREAS, the applicant notes that it is not proposing to change the area occupied by the PCE within the existing building; and

WHEREAS, the applicant states, the PCE has been operating as "Tone House" since May 16, 2016, with the following hours of operation: Monday through Thursday, 4:30 a.m. to 10:30 p.m.; Friday, 4:30 a.m. to 9:00 p.m.; and, Saturday and Sunday, 7:00 a.m. to 7:00 p.m.; and

WHEREAS, the applicant represents that the PCE contains facilities for the provision of physical fitness with instructor-led classes that utilize mechanical rowers and sandbags, but no weights or powered exercise machines; and

WHEREAS, the applicant submits that, though the first floor of the PCE space is the only fitness area of the PCE and is not adjacent to any commercial spaces, which start on the

mezzanine level and second floor of the subject building, sound mitigation measures, including acoustical barriers, a sound delimiter for music, and padded floors have been installed in the PCE space; specifically: fiberglass insulation, acoustical sealants, gaskets, and caulk, and sound dampening sheet rock are installed in the ceiling, walls, doors, and pipe penetrations between the PCE space and commercial space on the second floor; and

WHEREAS, the applicant represents that an FDNY-approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exist, local audible and visual alarms, and connection of the interior fire alarm to an FDNY-approved central station—will be installed in the PCE space that already is protected by an approved wet sprinkler system; and

WHEREAS, by letter dated June 12, 2018, the Fire Department submitted a letter of no objection to the application and confirmed that the premises have sprinkler and standpipe connections that were inspected and tested satisfactory; and applications for the fire alarm system have been filed and inspected by the Bureau of Fire Prevention, Fire Alarm Inspection Unit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of term and amendment reflecting a change in operator, hours of operation, and services provided, are appropriate, with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated April 25, 2006, so that as amended this portion of the resolution shall read: "to permit an extension of the term of the special permit for a term of ten (10) years, expiring April 25, 2026, *on condition* that all work and site conditions shall conform to drawings filed with this application "April 30, 2018"-Thirteen (13) sheets; and *on further condition*:

THAT the term of this grant shall expire on April 25, 2026;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum three (3) foot wide exit pathways shall always be maintained unobstructed, including that from any gymnasium equipment;

THAT sprinklers and interior fire alarm system – including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, connection of the interior fire alarm and sprinklers to a FDNY-approved central station – shall be maintained throughout the PCE

MINUTES

space as indicated on the Board-approved plans;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a revised certificate of occupancy shall be obtained within one (1) year, by October 23, 2019;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, October 23, 2018.

177-14-BZ

APPLICANT – Rothkrug Rothkrug & Spector LLP for MADDD Properties LLC, owner; CF Flatbush LLC, lessee. SUBJECT – Application January 4, 2018 – Amendment of a previously approved Special Permit (§73-36) permitting the operation of a physical culture establishment (*Crossfit*) within portions of an altered building contrary to ZR §32-10. The amendment seeks to enlarge to use by 584 sq. ft. C4-4A/R6A zoning district.

PREMISES AFFECTED – 1038 Flatbush Avenue, Block 5125, Lot 60, Borough of Brooklyn.

COMMUNITY BOARD #14BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

THE RESOLUTION –

WHEREAS, this is an application for reopening and an amendment of a previously granted special permit for a physical culture establishment (“PCE”) to reflect a change in the interior layout of the PCE on the cellar level and first floor; and

WHEREAS, the decision of the Borough Commissioner, dated December 4, 2017, acting on DOB application No. 321531794, reads in pertinent part:

Proposed PCE in a C4-4/R6A zoning district is contrary to ZR § 32-10 and plans previously

approved by BSA under Cal. No. 177-14-BZ; and

WHEREAS, a public hearing was held on this application on October 23, 2018, after due notice by publication in *The City Record*, and then to decision on that date; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the site is located on the west side of Flatbush Avenue, between Regent Place and Beverly Road, partially in a C4-4A zoning district and partially in an R6A zoning district, in Brooklyn; and

WHEREAS, the site has approximately 80 feet of frontage on Flatbush Avenue, 7,407 square feet of lot area, and is occupied by a three- (3) story plus cellar commercial building in which the subject PCE is located; and

WHEREAS, the Board has exercised jurisdiction over the subject site since February 24, 2015, when, under the subject calendar number, the Board granted a special permit to permit the operation of a PCE on the cellar level, and first, second, and third floors of a three-story plus cellar commercial building on condition that all work substantially conform to approved plans filed with the application; the term of the PCE grant expire on February 24, 2025; there be no change in ownership or operating control of the PCE without prior application to and approval from the Board; all signage displayed at the site by the applicant conform to applicable regulations; the above conditions appear on the certificate of occupancy; accessibility compliance be as reviewed and approved by the Department of Buildings (“DOB”); fire safety measures be installed and/or maintained as shown on the Board-approved plans; all DOB and related agency application(s) filed in connection with the authorized use and/or bulk be signed off by DOB and all other relevant agencies by February 24, 2019; the approval be limited to the relief granted by the Board in response to specifically cited objection(s); the approved plans be considered approved only for the portions related to the specific relief granted; and, DOB ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, the applicant now seeks an amendment to permit modifications to the layout of the PCE on the cellar level, resulting in a reduction of floor space in the cellar, and an extension of the PCE on the first floor, resulting in an increase in floor area on the first floor; and

WHEREAS, the applicant represents that they seek the proposed amendment due to a change in the first-floor tenancy at the subject site allowing the PCE an opportunity to expand its occupancy within the premises; and

WHEREAS, specifically, the applicant proposes to

MINUTES

relocate the PCE space on the cellar level, reducing the floor space from 2,299 square feet to 2,189 square feet, and extend the PCE by 584 square feet at the first floor, increasing the floor area occupied on that floor from 4,518 square feet to 5,102 square feet; and

WHEREAS, as a result, the PCE will now occupy 2,189 square feet of floor space at the cellar level, 5,102 square feet of floor area at the first floor, 5,849 square feet of floor area at the second floor, and 5,068 square feet of floor area at the third floor; and

WHEREAS, the applicant represents that there have been no changes to the PCE with regards to the second floor or third floor space, the hours of operation, the operator, or the services provided; and

WHEREAS, at the hearing, the Board raised concerns regarding outstanding DOB violations and summonses issued to the premises; and

WHEREAS, in response, the applicant demonstrated proof of payment of the summonses; and

WHEREAS, the Board notes that, pursuant to the prior approval, all DOB and related agency applications filed in connection with the PCE use—including sign-off for the fire protection systems shown on the Board-approved plans—must be signed off by February 24, 2019, a date that has not yet passed; and

WHEREAS, based upon its review of the record, the Board finds that the requested amendment, permitting an extension of the PCE space on the first floor, is appropriate, with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated February 24, 2015, so that as amended the resolution reads: “to reflect a change in the interior layout of the PCE on the cellar level and first floor such that the PCE will now occupy 2,189 square feet of floor space at the cellar level, 5,102 square feet of floor area at the first floor, 5,849 square feet of floor area at the second floor, and 5,068 square feet of floor area at the third floor, *on condition* that any and all work shall substantially conform to drawings as they apply to the objection above noted, filed with this application marked ‘Received January 9, 2018’—three (3) sheets; and *on further condition*:

THAT all signage displayed at the site by the applicant shall conform to applicable regulations;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a revised certificate of occupancy shall be obtained within four (4) years, by October 23, 2022;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, October 23, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated July 25, 2018, acting on DOB Application No. 320913124, reads in pertinent part:

1. ZR 23-142: Proposed as-built revisions to plans result in a floor area ratio of 0.94 which is not in conformance with ZR 23-142 as to floor area ratio but is less than the conditions approved under BSA Cal. No. 322-14-BZ, which permitted a floor area ratio[] of 0.96. FLOOR AREA RATIO IS NOT COMPLYING;
2. ZR 23-142: Proposed as-built revisions to plans result in a lot coverage [of] 38% and reduce the open space to 3728 SF which are not in conformance with ZR 23-142 as to lot coverage (%) and open space and are not in conformance with conditions approved under BSA Cal. No. 322-14-BZ, which permitted a lot coverage of 37% and required 3780 SF of open space. LOT COVERAGE IS NOT COMPLYING
[. . .]; and

MINUTES

WHEREAS, this is an application for reopening and an amendment to a special permit, previously granted pursuant to ZR § 73-622, to legalize as-built conditions of a single-family residence that does not comply with the Board's grant; and

WHEREAS, a public hearing was held on this application on October 23, 2018, after due notice by publication in *The City Record*, and then to decision on that same date; and

WHEREAS, Community Board 15, Brooklyn, recommends disapproval of this application on the basis that the applicant did not construct pursuant to the Board-approved plans; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the west side of Coleridge Street, between Shore Boulevard and Hampton Avenue, in an R3-1 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 60 feet of frontage, a depth of 100 feet, 6,000 square feet of lot area and is occupied by a two-story plus attic single-family home with 5,685 square feet of floor area (0.94 FAR), 3,728 square feet of open space (62 percent), and 38 percent of lot coverage; and

WHEREAS, the Board has exercised jurisdiction over the subject site since December 1, 2015, when, under the subject calendar number, the Board granted a special permit, pursuant to ZR § 73-622, authorizing the enlargement of a single-family residence contrary to zoning requirements for floor area, lot coverage and open space set forth in ZR §§ 23-141 and 23-47 on condition that all work substantially conform to approved plans filed with the application and on further condition that the following be the bulk parameters of the building: a maximum floor area of 5,748 square feet (0.96 FAR), side yards of ten (10) feet and five (5) feet, a front yard with a minimum depth of 15 feet, a rear yard with a minimum depth of 26 feet, a maximum lot coverage of 37 percent, and a minimum open space of 63 percent (3,780 square feet), all as illustrated on the BSA-approved plans; the existing walls be retained; the elevation of the existing floors be shown on the plans; the demolition of the existing structure by more than 50 percent of the floor area not be permitted; the approval be limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s); the approved plans be considered approved only for the portions related to the specific relief granted; all DOB and related agency application(s) filed in connection with the authorized use and/or bulk be signed off by DOB and all other relevant agencies by December 1, 2019; and DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective

of the plan(s)configuration(s) not related to the relief granted; and

WHEREAS, the single-family residence was subsequently enlarged and while the enlarged residence maintains a 26-foot rear yard and contains 5,658 square feet of floor area (0.94 FAR), less than the maximum permitted by the 2015 approval, 62 percent of open space was provided on the site (3,728 square feet) and the lot coverage was increased to 38 percent; and

WHEREAS, the applicant represents that the increase in lot coverage and reduction in FAR will not alter the essential character of the neighborhood; and

WHEREAS, at hearing, the Board commented that the as-built condition would have been acceptable had they been proposed in the original application; in particular, the reduction of the depth of the structure increased the depth of the front yard by 10 inches and brought the structure more in line with its neighbors; and

WHEREAS, based on its review of the record, the Board finds that the requested amendment is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated December 1, 2015, so that as amended the resolution reads: "to permit the noted modifications, including the proposed decrease in floor area and open space, increase in lot coverage and maintenance of the non-complying rear yard, *on condition* that all work will substantially conform to drawings, filed with this application marked "Received August 9, 2018"—Nineteen (19) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area of 5,658 square feet (0.94 FAR), a minimum of 62 percent open space, a maximum of 38 percent lot coverage, and a rear yard with a minimum depth of 26 feet, all as illustrated on the BSA-approved plans;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT a Certificate of Occupancy shall be obtained by December 1, 2019;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 23, 2018.

THE RESOLUTION –

WHEREAS, this is an appeal, filed by the New York City Department of Buildings (“DOB”) pursuant to New York City Charter §§ 645(b)(3)(e) and 666(6)(a), seeking a revocation of Certificate of Occupancy No. 401501273, dated January 2, 2004, (the “CO”) issued for the subject premises; and

WHEREAS, the CO indicates that the premises are occupied by a two-story plus basement three-family residential building and accessory one car open parking; and

WHEREAS, DOB states that the CO is improper because it permits a three-family residence at the premises, contrary to the Board resolution issued under BSA Cal. No. 104-79-BZ, granting a variance of ZR § 23-462, which set forth side yard regulations applicable at the site, and permitting the erection of a two-story and basement, two-family dwelling on condition, *inter alia*, that a deed restriction limiting the occupancy to a two-family dwelling be filed and submitted to DOB prior to the issuance of a building permit and that the Certificate of Occupancy indicate the libre, page and date of recording of said covenant; and

WHEREAS, a public hearing was held on this application on September 26, 2017, after due notice by publication in *The City Record*, with continued hearings on January 23, 2018, May 1, 2018, and August 7, 2018, and then to decision on October 23, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, the site is located on the west side of 44th Street, between 25th Avenue and 28th Avenue, in an R5 zoning district, in Queens; and

WHEREAS, the site has approximately 25 feet of frontage, 100 feet of depth, 2,500 square feet of lot area and

is occupied by a two-story plus basement residential building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since June 19, 1979, when, under BSA Cal. No. 104-79-BZ, the Board granted a variance to permit the construction of a two-story and basement, two-family dwelling that encroached on the required side yard on condition that all work substantially conform to drawings filed with the application; a deed restriction limiting the occupancy to a two-family dwelling be filed and submitted to DOB prior to the issuance of a building permit; the certificate of occupancy indicate the libre, page and date of recording of said covenant; and that all laws, rules and regulations applicable be complied with and that substantial construction be completed within one year; and

WHEREAS, on April 1, 1980, Certificate of Occupancy No. 195262 was issued for the subject premises, indicating the presence of a two-story plus basement two-family dwelling and referencing, in a section titled, “Limitations and Restrictions,” BSA Cal. No. 104-79-BZ and a deed restriction recorded on reel 1180 page 748; and

WHEREAS, DOB asserts that in 2002, a registered architect filed an Alteration Type 1 application to convert the two-family dwelling into a three-family dwelling under DOB’s Professional Certification procedure, wherein he affirmed that the application was complete and in accordance with applicable laws and avoided a full plan examination by DOB prior to the application’s approval on September 10, 2002; and

WHEREAS, the CO was subsequently issued on January 2, 2004; and

WHEREAS, upon receiving a complaint from the Buildings Special Investigations Unit, the Queens Borough Office of the DOB performed an audit in December 2014 and issued a Notice of Objections for the Alteration Type 1 application on December 19, 2014 (the “Notice of Objections”); and

WHEREAS, the Notice of Objections reports, *inter alia*, an objection to the Alteration Type I with respect to ZR § 11-62 and states:

This application increased the number of dwelling units from 2 to 3. 104-79-BZ stipulates that the number of dwelling units in this premises shall be limited to two (2). This application failed to comply with the conditions stipulated in the variance granted by 104-79-BZ and may constitute the basis for revocation of the C of O; and WHEREAS, ZR § 11-62 reads, in pertinent part: 11-62 Failure to Comply with Special Permits, Variances, Authorizations or Certifications Failure to comply with any conditions or restrictions in special permits, variances,

MINUTES

authorizations or certifications granted under this Resolution shall constitute a violation of this Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy, or for revocation of such special permit, variance, authorization or certification, and for all other applicable remedies.

[. . .]; and

WHEREAS, DOB sent an Order of the Commissioner, dated December 26, 2014, (the “December Order”) to the owner of the subject site, reporting the competition of the audit of the Alteration Type 1 application and stating:

PURSUANT TO SECTION 28-209.1 OF THE ADMINISTRATIVE CODE OF THE CITY OF NEW YORK (AC), YOU ARE HEREBY ORDERED TO FILE AN ALTERATION TYPE 1 APPLICATION, OR FILE AT THE BOARD OF STANDARDS AND APPEALS TO MODIFY ITS RESOLUTION, WITHIN THIRTY (30) DAYS FROM THE DATE OF THIS LETTER TO REMOVE OR MODIFY THIS UNLAWFUL CONDITION, AS LISTED IN THE ATTACHED NOTICE OF OBJECTIONS.

FAILURE TO COMPLY WITH THIS ORDER MAY RESULT IN THE DPEARTMENT INITIATING AN APPLICATION AT THE BOARD OF STANDARDS AND APPEALS TO REVOKE THE CERTIFICATE OF OCCUPANCY AND/OR ENFORCEMENT ACTION FOR FAILURE TO COMPLY WITH A COMMISSIONSER’S ORDER; and

WHEREAS, by letter dated April 27, 2015, (the “April Letter”) DOB informed the property owner that to date, no response to the December Order had yet been received and again warned that failure to comply with the directions of the December Order within thirty (30) days of this latest letter may result in a DOB-initiated application at the Board to revoke the CO; and

WHEREAS, DOB states that the owner of the premises subsequently replied to the December Order and April Letter by letters dated April 20, 2015, and June 5, 2015, and, in the latter letter, represented that they would seek a variance from the Board to cure the objection; and

WHEREAS, DOB filed the subject application to revoke the CO on or around May 8, 2017, by which time the owner of the premises had failed to file either an application at the Board for an amendment of the variance or an application at DOB to convert the use of the premises to a one- or two-family dwelling in accordance with BSA Cal. No. 104-79-BZ; and

WHEREAS, pursuant to §§ 1-06.4(d) and 1-10.6 of the Board’s Rules of Practice and Procedure (the “Board’s Rules”), DOB forwarded a copy of the subject application to

the owner of the subject premises via United State Postal Service certified mail on or around May 10, 2017, and submitted proof of such referral to the Board, pursuant to § 1-10.7 of the Board’s Rules; and

WHEREAS, by letter to the Board dated June 8, 2017, a legal representative for the owner communicated, in response to DOB’s filing of the subject application, that the owner of the subject premises intended to amend the variance granted under BSA Cal. No. 104-79-BZ; and

WHEREAS, by letter to the Board received on August 28, 2017, a registered architect reported that an Alteration Type 1 application had been filed on August 16, 2017, to revert the building located on the premises to a two-family dwelling, in compliance with BSA Cal. No. 104-79-BZ and requested an adjournment of the first hearing on this application, scheduled for September 26, 2017; and

WHEREAS, at the September 26, 2017, hearing, DOB stated that it had no objection to the property owner’s request that the hearing be adjourned, reported that the Alteration Type 1 application filed on August 16 was approved on September 21 and an architect, appearing on behalf of the property owner, submitted that the scope of work necessary to revert the premises to a two-family dwelling included the removal of the stove in the basement and the capping of the gas line; and

WHEREAS, on July 25, 2018, DOB issued Certificate of Occupancy No. 421539543F (the “New CO”) for the subject premises indicating its occupancy with a two-story plus basement two-family residential dwelling and an accessory one car open parking, and by letter dated August 6, 2018, DOB requests withdrawal of the subject application; and

WHEREAS, the Board noted, however, that the New CO does not refer to BSA Cal. No. 104-79-BZ or the conditions of that grant, including, but not limited to, the indication of the libre, page and date of the deed restriction/covenant limiting the occupancy of the building to a two-family dwelling on the certificate of occupancy; and

WHEREAS, accordingly, the Board orders DOB to modify the New CO to include reference to BSA Cal. No. 104-79-BZ and the conditions contained therein; and

WHEREAS, the Board was in receipt of several letters from a neighbor in opposition to the property owner’s submission that the subject premises would be reverted to a two-family dwelling, alleging that the property owner intentionally altered the deed restriction and knowingly deceived both DOB and the Board in effort to occupy the existing building as a three-family dwelling contrary to both use regulations applicable in an R5 zoning district and the Board’s variance and notes, as evidence of this duplicity, five complaints made to DOB between December 2001 and April 2014 regarding the occupancy of the subject premises by more than two families (the “Opposition”); and

MINUTES

WHEREAS, the Opposition additionally requested that the subject site be limited to occupancy by a one-family dwelling, comply with ZR § 23-462 by providing an 8-foot-wide side yard and that DOB institute severe penalties and actions against the subject property owner; and

WHEREAS, the Board notes that the Opposition, in essence, opposes the Board's grant of a variance to the premises in 1979, which is not the subject of the present application, and, further, that failure to occupy the premises as indicated on the New CO, as ordered amended herein, and mandated in the 1979 variance, particularly as a residence for more than two families, may result in enforcement actions by DOB.

Therefore, it is resolved, that the Board of Standards and Appeals grants the request for withdrawal of the subject application for revocation of Certificate of Occupancy No. 401501273, dated January 2, 2004, issued to the subject premises without prejudice and orders the New York City Department of Buildings, pursuant to New York City Charter §§ 645(b)(3)(e) and 666(6)(a) to modify Certificate of Occupancy No. 421539543F to include a reference to "variance granted to permit two-family dwelling under BSA Cal. No. 104-79-BZ (June 19, 1979)" and a reference to the libre, page and date of the covenant restricting the occupancy of the subject premises to a two-family dwelling (i.e., "deed restriction recorded July 23, 1979, at reel 1180 page 748 limits occupancy of subject premises to two-family dwelling").

Adopted by the Board of Standards and Appeals, October 23, 2018.

2018-14-A

APPLICANT – NYC Department of Buildings, for Daniel Nelson, owner,

SUBJECT – Application January 31, 2018 – Application by the NYC Department of Buildings pursuant to New York City Charter §§ 645(b)(3)(e) and 666.6(a) to request that the NYC Board of Standards and Appeals revoke the Certificate of Occupancy No. 300859122 issued on May 5, 2000. R5 zoning district

PREMISES AFFECTED – 596 East 81st Street, Block 7959, Lot 90, Borough of Brooklyn.

COMMUNITY BOARD #18BK

ACTION OF THE BOARD – Application granted.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the certificate of occupancy issued by the Department of Buildings ("DOB") on May 5, 2000, under

Alteration Application No. 300859122 (the "Certificate of Occupancy"), reads in pertinent part:

BSMT . . . Zoning Use Group 2 . . . Ordinary Use Two (2) Family Dwelling; and

WHEREAS, this is an application under New York City Charter §§ 645(b)(3)(e) and 666(6)(a) to revoke the Certificate of Occupancy for identifying the lowest level of the subject building as a basement, for authorizing two dwelling units on such level and for failing to provide two means of egress from the front apartment; and

WHEREAS, a public hearing was held on this application on October 23, 2018, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

BACKGROUND

WHEREAS, the subject site is located on the south side of East 81st Street, between Foster Avenue and Farragut Road, in an R5 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 28 feet of frontage along East 81st Street, 100 feet of depth, 2,825 square feet of lot area and is occupied by a two-story, with cellar, residential building; and

WHEREAS, the subject building was constructed in 1965 as a two-story, with basement, two-family residence with a certificate of occupancy (No. 191340) issued on March 29, 1965, permitting a recreation room, boiler room and storage room in the cellar and one dwelling unit on each of the first and second floors; and

WHEREAS, the plans submitted in connection with the new-building application in 1963 reflect that the subject building's lowest level is located 4 feet below curb level, 3 feet above curb level and has a total height of 7 feet; and

WHEREAS, on May 5, 1999, Alteration Application No. 300859122 was filed to convert the subject building into a four-family residence and to add an 8-foot porch at the rear of the subject building pursuant to DOB's Professional Certification procedure and was approved on May 14, 1999; and

WHEREAS, the Certificate of Occupancy was issued on May 5, 2000, and this application was filed on February 1, 2018; and

DOB's POSITION

WHEREAS, DOB states that Multiple Dwelling Law ("MDL") § 4(37) defines a cellar as follows:

A "cellar" in a dwelling is an enclosed space having more than one-half of its height below the curb level; except that where every part of the building is set back more than twenty-five feet from a street line, the height shall be measured from the adjoining grade elevations calculated

MINUTES

from final grade elevations taken at intervals of ten feet around the exterior walls of the building. A cellar shall not be counted as a story; and

WHEREAS, DOB states that the original new-building plans from 1963 and inspection reports show that the lowest level of the subject building is an enclosed space with more than one half of its height below curb level; and

WHEREAS, DOB states that the lowest level of the subject building is a cellar under the Multiple Dwelling Law; and

WHEREAS, there is no indication that any application was filed to convert said cellar to a basement; and

WHEREAS, DOB states that the Certificate of Occupancy erroneously identifies the lowest level of the subject building as a basement instead of a cellar; and

WHEREAS, DOB states that, as a cellar, the lowest level may not be occupied for any purpose other than household storage and mechanical equipment or appliances; and

WHEREAS, DOB states that MDL § 170-a provides the following:

[A] dwelling, other than a frame dwelling, three stories or less in height erected after April eighteenth, nineteen hundred twenty-nine as a one or two-family dwelling may be converted to a multiple dwelling to be occupied by not more than three families in all, with a maximum occupancy of two families on each floor in a two story building and one family on each floor in a three story building, provided however that all the provisions of this article are complied with and provided further that . . . 6. The cellar shall not be used for any purpose other than household storage and mechanical equipment or appliances, and the cellar ceiling shall be fire-retarded; and

WHEREAS, DOB states that, because the Certificate of Occupancy authorizes the lowest level—a cellar—to be occupied as two dwelling units, the CO was issued contrary to MDL § 170-a(6); and

WHEREAS, DOB states that, because the Certificate of Occupancy authorizes a four-family occupancy, it is also in further violation of MDL § 170-a, which permits no more than three families to occupy a converted dwelling of three stories or less in height; and

WHEREAS, DOB states that, under MDL § 146, “[t]here shall be at least two means of egress from every apartment or suite. Such means shall be remote from each other”; and

WHEREAS, DOB states that, according to the plans filed with DOB, the front apartment in the cellar of the subject building does not have the required second means of egress; and

WHEREAS, accordingly, DOB states that the

Certificate of Occupancy is in violation of law and requests that it be revoked; and

OWNER’S POSITION

WHEREAS, the owner of the subject site has not appeared in this proceeding; and

WHEREAS, DOB represents that a process server made several attempts to serve the owner with DOB’s submissions at the subject address; and

WHEREAS, in April 2018, DOB sent the owner a notice of this application by certified mail, return receipt requested, to the subject address, though there was no confirmation of receipt; and

WHEREAS, in August and October 2018, the Board sent the owner notices of this application by certified mail and by regular mail to the subject address as well as other potential addresses listed in the records of the New York City Department of Finance; and

WHEREAS, accordingly, DOB represents—and the record reflects—that said owner has been “give[n] due notice” of this application, consistent with New York City Charter § 669 as well as the Board’s Rules of Practice and Procedure §§ 1-06.4(a)(1) and 1-06.5(a)(1); and

DISCUSSION

WHEREAS, under New York City Charter § 666(6), the Board is empowered “[t]o hear and decide appeals from and review . . . any order, requirement, decision or determination of” DOB in connection with the Multiple Dwelling Law, “by reversing or affirming in whole or in part, or modifying the order, regulation, decision or determination appealed from, and to make such order, requirement, decision or determination as in its opinion ought to be made in the premises”; and

WHEREAS, the Board credits DOB’s evaluation of the evidence in the record, including the designation of the lowest level of the subject building as a cellar under MDL § 4(37); and

WHEREAS, the Board also notes that photographs in the record corroborate the measurements indicated on the new-building drawings from 1963; and

WHEREAS, the Board finds that the Certificate of Occupancy is, accordingly, in violation of MDL §§ 4(37), 170-a and 146; and

WHEREAS, based upon its review of the record, the Board finds that the Certificate of Occupancy was invalidly issued and that DOB has substantiated a basis to warrant exercise of discretion.

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby *revoke* the certificate of occupancy issued by the Department of Buildings on May 5, 2000, under Alteration Application No. 300859122.

Adopted by the Board of Standards and Appeals, October 23, 2018.

THE RESOLUTION –

WHEREAS, the decision on behalf of the Manhattan Borough Commissioner, dated August 11, 2015, acting on Department of Buildings (“DOB”) Application No. 122269829, reads in pertinent part:

ZR 73-36: Provide BSA approval for physical cultural establishment. Proposed change of use to a physical cultural establishment as defined by ZR 12-10 is contrary to ZR 32-10 and must be referred to the Board of Standards and Appeals for approval pursuant to ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, on a site located within a C6-2 zoning district and the NoHo Historic District, a physical culture establishment (“PCE”) on a portion of the first floor of an existing 12-story mixed-use commercial and residential building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on November 14, 2017, after due notice by publication in *The City Record*, with continued hearings on May 1, 2018, August 7, 2018, and October 23, 2018, and then to decision on that same date; and

WHEREAS, Community Board 2, Manhattan, recommends approval of this application; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is bound by Mercer Street

MINUTES

to the west, Broadway to the east, West 4th Street to the north and West 3rd Street to the south, within a C6-2 zoning district and the NoHo Historic District, in Manhattan; and

WHEREAS, the site has approximately 209 feet of frontage along Mercer Street and Broadway, 200 feet along West 4th Street and West 3rd Street, 41,800 square feet of lot area, and is occupied by a 16-story mixed use commercial and residential building that has been designated by the New York Landmarks Preservation Commission as an individual landmark; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, the Board notes that, because no portion of the subject PCE is represented as being located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a

background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and

- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant submitted evidence that the subject PCE occupies 3,595 square feet of floor area on the first floor; and

WHEREAS, the applicant represents that the PCE has been in operation since October 16, 2015, as Haven Spa, with the following hours of operation: Monday, 12:00 p.m. to 7:00 p.m.; Tuesday, 11:00 a.m. to 7:00 p.m.; Wednesday and Thursday, 10:30 a.m. to 8:30 p.m.; Friday, 10:00 a.m. to 8:00 p.m.; Saturday, 10:00 a.m. to 7:00 p.m.; and Sunday, 10:00 a.m. to 6:00 p.m.; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because the PCE will maintain the historic character and unique architectural character of the neighborhood; also, while it is located in a district that is residential in character, it is anticipated that the residents of the area will use the PCE space to receive spa treatments, manicures, pedicures, cosmetic and hair treatments; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant represents that the PCE contains facilities for the provision of massage therapy and

MINUTES

cosmetic treatments and the applicant has submitted licenses for the subject PCE's New York State-licensed massage therapists, estheticians, cosmetologists and nail specialists; and

WHEREAS, accordingly, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant submits that an approved interior fire alarm system – including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, and a connection of the interior fire alarm system to an FDNY-approved central station – shall be installed within the PCE space, which is already equipped with a sprinkler system; and

WHEREAS, by letter dated October 6, 2018, the Fire Department confirms that agency records indicate that the subject premises have a combination standpipe sprinkler system, though the permit for such system has expired, the premises' owners have scheduled a hydrostatic pressure and flow test and the Fire Department has no additional comments or recommendations relative to this application; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood on account of its historic presence in the area and suggests that its clientele enjoy receiving spa services in an area close in proximity to their residences and businesses; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period in which the PCE has operated at the premises without a special permit; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 16-BSA-021M, dated August 24, 2015; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and

makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to legalize, on a site located within a C6-2 zoning district and the NoHo Historic District, a physical culture establishment on a portion of the first floor of an existing 16-story mixed-use commercial and residential building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "March 17, 2017"—Three (3) sheets; and *on further condition*:

THAT the term of the PCE grant shall expire on October 16, 2025;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT all services provided to which licensure by New York State is required (including, but not limited to, massage therapy, esthetics, cosmetology and nail services) shall be performed by individuals licensed by New York State to provide such respective service;

THAT accessibility compliance under Local Law 58/87 shall be as reviewed and approved by DOB;

THAT the existing sprinkler system shall be maintained as indicated on the Board-approved plans;

THAT an approved fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and a connection to an FDNY-approved central station, shall be installed within the PCE space;

THAT minimum 3-foot-wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT a Certificate of Occupancy shall be obtained within one year, by October 23, 2019;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 23, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated November 22, 2016, acting on Alteration Application No. 320613724, reads in pertinent part:

1. ZR 23-142(b) Proposed FAR exceeds maximum permitted
2. ZR 23-142 Proposed lot coverage (%) exceeds the maximum permitted
3. ZR 23-142 Proposed open space is less than the minimum required
4. ZR 23-48 The proposed vertical enlargement of the existing building with non complying side yards . . . does not provide the min of 5’ side yards
5. ZR 23-47 The proposed horizontal enlargement does not provide the minimum rear yard; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03 to permit, in an R3-1 zoning district, the enlargement of an existing single-family detached residence that does not comply with zoning regulations for floor area, lot coverage, open space, side yards and rear yards, contrary to ZR §§ 23-142, 23-48 and 23-47; and

WHEREAS, a public hearing was held on this application on January 23, 2018, after due notice by publication in *The City Record*, with continued hearings on April 17, 2018, June 19, 2018, August 14, 2018, and then to decision on October 23, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application, stating that the proposed building is a minimal request and fits within

applicable flood regulations; and

WHEREAS, the subject site is located on the north side of Oriental Boulevard, between Norfolk Street and Oxford Street, in an R3-1 zoning district, in Brooklyn; and

WHEREAS, the subject site has approximately 25 feet of frontage along Oriental Boulevard, 100 feet of depth, 2,500 square feet of lot area and is occupied by an existing single-family detached residence; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single- or two-family detached or semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage, open space, floor area, side yard, rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and

MINUTES

- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins. Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, inter alia, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge an existing detached single-family residence, as contemplated in ZR § 73-622; and

WHEREAS, in response to questions from the Board at hearing about the retention of existing building material, the applicant revised the drawings to reflect that adequate amounts of exterior walls will be retained at the exterior of the subject building and that adequate amounts of floor joists will be retained; and

WHEREAS, the applicant proposes to enlarge the existing residence from 1,522 square feet of floor area (0.62 FAR) to 2,147 square feet of floor area (0.89 FAR), increase lot coverage from 40 percent to 46 percent, decrease open space from 60 percent to 54 percent, maintain side yards with depths of 1'-2" to the west and 4'-8" to the east and reduce the rear yard to a depth of 20 feet; and

WHEREAS, the applicant states that, at the subject site, floor area may not exceed 1,500 square feet (0.60 FAR) under ZR § 23-142, lot coverage may not exceed 35 percent under ZR § 23-142, open space must be at least 65 percent under ZR § 23-142, side yards must have minimum depths of 5 feet under ZR § 23-48 and rear yards must have minimum depths of 30 feet under ZR § 23-47; and

WHEREAS, the applicant represents that the proposed

building as enlarged is consistent with the built character of the neighborhood; and

WHEREAS, in support of this contention, the applicant surveyed single- and two-family residences in the surrounding area, finding that there are 23 residences with more than 0.88 FAR, 22 residences with lot coverage in excess of 47 percent and 18 residences on the subject block with rear yards with depths less than 20 feet; and

WHEREAS, the applicant also submitted a height study, a side yard diagram, a photographic streetscape montage, and a photographic neighborhood study demonstrating that the proposed building will fit in with the built conditions of the surrounding area; and

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, the Board finds that the proposed building as enlarged will not alter the essential character of the neighborhood or district in which the subject building is located, nor impair the future use or development of the surrounding area; and

WHEREAS, by correspondence dated August 31, 2018, DOB states that it has no objection to the proposed building with respect to applicable flood regulations on condition that the number of flood vents required and provided be verified with nine flood vents to the exterior required but only eight shown on the drawings; that plumbing systems and components, including all plumbing fixtures, be located at or above the Design Flood Elevation and, where plumbing systems and components have openings below the Design Flood Elevation, the openings be protected with automatic backwater valves in accordance with ASCE 24; and that, in order to verify the average curb level height under ZR § 64-131, a certified survey be provided; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of bulk regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17BSA048K, dated December 2, 2016; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2)

MINUTES

of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-622 and 73-03 to *permit*, in an R3-1 zoning district, the enlargement of an existing single-family detached residence that does not comply with zoning regulations for floor area, lot coverage, open space, side yards and rear yards, contrary to ZR §§ 23-142, 23-48 and 23-47; *on condition* that all work and site conditions shall conform to drawings filed with this application marked “Received October 4, 2018”-Fifteen (15) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: there shall be a maximum of 2,147 square feet of floor area (0.89 FAR), lot coverage shall not exceed 46 percent, open space shall be a minimum of 54 percent, side yards shall have minimum depths of 1’-2” to the west and 4’-8” to the east and the rear yard shall have a minimum depth of 20 feet, as illustrated on the Board-approved plans;

THAT removal of existing joists or perimeter walls in excess of that shown on the Board-approved drawings shall void the special permit;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by October 23, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 23, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated October 20, 2017, acting on New Building Application No. 520313535, reads in pertinent part:

“Proposed commercial required on site parking spaces in the R3-1 residential portion of zoning lot is contrary to ZR 22-10”; and

WHEREAS, this is an application under ZR §§ 73-52 and 73-03 to permit, on a site partially in an R3-1 zoning district and partially in an R3-2 (C2-1) zoning district, a commercial use to extend into the remaining portion of the subject site, contrary to ZR § 22-10; and

WHEREAS, a public hearing was held on this application on October 23, 2018, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Commissioner Scibetta performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 1, Staten Island, recommends approval of this application; and

WHEREAS, the subject site is located on the north side of Forest Avenue, between Hamlin Place and Jewett Avenue, on a site partially in an R3-1 zoning district and partially in an R3-2 (C2-1) zoning district, in Staten Island; and

WHEREAS, the subject site has approximately 86 feet of frontage along Forest Avenue, between 228 feet and 163 feet of depth, 18,521 square feet of lot area and is vacant; and

WHEREAS, ZR § 73-52 provides:

Whenever a *zoning lot* existing in single ownership on December 15, 1961, or on the effective date of any applicable subsequent amendment to the *zoning maps* is divided by a boundary between two or more districts in which different *uses* are permitted, the Board of Standards and Appeals may permit a *use* which is a permitted *use* in the district in which more than 50 percent of the *lot area* of the *zoning lot* is located to *extend* not more than 25 feet into the remaining portion of the *zoning lot*, where such *use* is not a permitted *use*, provided that the following findings are made:

- (a) that, without any such extension, it would not be economically feasible to use or *develop* the remaining portion of the *zoning lot* for a permitted *use*; and
- (b) that such extension will not cause impairment of the essential character or the future use or development of the surrounding area.

Where such an extension of a *use* is permitted, the Board may permit the *bulk*, off-street parking and loading, and all other regulations of the district in which more than 50 percent of the *lot area* of the *zoning lot* is located, to apply for the distance, not exceeding 25 feet, that such *use* is permitted to *extend* into the remaining portion of the *zoning lot*. Any portion of the *zoning lot* beyond such distance shall be subject to all the regulations of the district in which it is located, and shall not be counted as *lot area* for a *building or other structure*, or portion thereof, used for such *extended use*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effect on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that

MINUTES

the subject site is divided by a boundary between two or more districts in which different uses are permitted; and

WHEREAS, the applicant proposes to develop the portion of the subject site located in an R3-2 (C2-1) zoning district with a one-story commercial building for use as an eating and drinking establishment (Use Group 6) with 14 accessory parking spaces, 8 of which are proposed to be located within portion of the site in an R3-1 zoning district; and

WHEREAS, the applicant represents that, in R3-1 zoning districts, commercial uses are not permitted under ZR § 22-10; and

WHEREAS, the applicant states that, without the proposed extension, it would not be economically feasible to develop the remaining portion of the subject site with a permitted use because the remaining portion of the subject site would be an irregular interior parcel, approximately 3,000 square feet in area, that would only have access to the street through the commercial portion of the subject site and because development fronting on Forest Avenue in the vicinity is entirely commercial; and

WHEREAS, the applicant further represents that, in an R3-1 zoning district, the minimum lot area for residential development is 3,800 square feet, which exceeds the 3,000 square feet of the subject site located in an R3-1 zoning district; and

WHEREAS, accordingly, the Board finds that, without the proposed extension, it would not be economically feasible to use or develop the remaining portion of the subject site for a permitted use; and

WHEREAS, the applicant states that the proposed extension would not impair the character or future use or development of the surrounding area because the extension would allow for accessory parking spaces for the proposed commercial building and would not affect the light or air of surrounding lots; and

WHEREAS, the applicant states that lots to the east and west of the subject site contain commercial uses, similar to the proposed use, and the only adjacent residence has a residential building fronting in a different direction that with approximately 90 feet of space from the proposed accessory parking; and

WHEREAS, the applicant notes that screening and planting are proposed for the northern portion of the subject site to ensure adequate separation from said residential use; and

WHEREAS, accordingly, the Board finds that the proposed extension will not cause impairment of the essential character or the future use or development of the surrounding area; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of use,

parking or bulk regulations at the subject site is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of use, parking or bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18BSA063R, submitted on June 2, 2018; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-52 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-52 and 73-03 to *permit*, on a site partially in an R3-1 zoning district and partially in an R3-2 (C2-1) zoning district, a commercial use to extend into the remaining portion of the subject site, contrary to ZR § 22-10; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked "Received November 20, 2017"-Four (4) sheets; and *on further condition*:

THAT a certificate of occupancy shall be obtained within four (4) years, by October 23, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 23, 2018.

CEQR #19-BSA-041R

APPLICANT – NYC Mayor’s Office of Housing Recovery Operation.

SUBJECT – Application October 15, 2018 – Special Permit (§64-92) to waive bulk requirements for the reconstruction of homes damaged/destroyed by Hurricane Sandy for a property registered in the NYC Build it Back Program. Waiver of minimum required side yards (ZR §§23-461(a) and 64-A352). R3X ZD

PREMISES AFFECTED – 59 Andrews Street, Block 3410, Lot 70, Borough of Staten Island.

COMMUNITY BOARD #5SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to legalize, on a site within an R3X zoning district, the elevation of a single-family detached home in compliance with flood-resistant construction standards that does not comply with the zoning requirement for side yards contrary to ZR § 64-A352(a); and

WHEREAS, a public hearing was held on this application on October 23, 2018, and then to decision on the same date; and

WHEREAS, this application is brought on behalf of the property owner by the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in furtherance of the City’s effort to rebuild homes impacted by Superstorm Sandy expeditiously and effectively, the Board, pursuant to 2 RCNY § 1-14.2, waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1-05.1 (Objection Issued by the Department of Buildings); (2) 2 RCNY § 1-05.3 (Filing Period); (3) 2 RCNY § 1-05.4 (Application Referral); (4) 2 RCNY § 1-05.6 (Hearing Notice); (5) 2 RCNY § 1-05.7 (List of Affected Property Owners); (6) 2 RCNY § 1-09.4 (Owner’s Authorization); and (7) 2 RCNY § 1-10.7 (Proof of Service for Application Referral and Hearing Notice); and

WHEREAS, the Board notes that the subject application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the east side of Andrews Street, between Olympia Boulevard and Quincy Avenue, in an R3X zoning district, on Staten Island; and

WHEREAS, the site has approximately 20 feet of

frontage along Andrews Street, 125 feet of depth, 2,500 square feet of lot area, and is occupied by a single-family detached residence; and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments and enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Section 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

- (a) that there would be a practical difficulty in complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;
- (b) that any modifications of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood’s potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant now seeks a special permit, pursuant to ZR § 64-92 to legalize the elevation of the single-family residence to a total height of 16 feet from flood resistant construction elevation (“FRCE”), where Department of Buildings (“DOB”) previously approved a building height of 14.8 feet from FRCE, which increases the degree of non-compliance of the existing side yards; and

WHEREAS, specifically, the subject site has a 1.7 foot side yard and a 2.8 foot side yard, measuring a total of 4.5 feet of side yards, but, at the subject site, two side yards, each with a minimum width of 3 feet and a minimum combined

MINUTES

width of 6 feet are required pursuant to ZR § 64-A352(a); and

WHEREAS, in accordance with ZR § 64-92(a), the applicant submits that the composition of the existing residence on the lot creates practical difficulties in complying with flood-resistant construction standards without the modification of requirements for side yards and that waivers of the same are the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the finding pursuant to ZR § 64-92(b) is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the dwelling is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the neighborhood is characterized by single- and two-family detached residences and that the subject site is consistent with its essential character; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the subject application satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 19BSA041R, dated October 15, 2018; and

Therefore, it is Resolved, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure and issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92 to legalize, on a site within an R3X zoning district, the elevation of a single-family detached home in compliance with flood-resistant construction standards that does not comply with the zoning requirements for side yards contrary to ZR § 64-A352(a); *on condition* that all work shall substantially conform to the drawings filed with this application and marked "Received October 15, 2018" -Seven (7) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: side yards with minimum widths of 1.7 feet and 2.8 feet, and a minimum combined total side yard width of 4.5 feet, as illustrated on the Board-approved plans;

THAT the building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code, unless the Fire Department has notified

DOB that the building is exempt from such requirement;

THAT the building shall be provided with interconnected smoke and carbon monoxide alarms, designed in accordance with Section 907.2.11 of the New York City Building Code;

THAT the underside of the exterior of the building where the foundation is not closed shall have a floor assembly that provides a 2-hour fire resistance rating;

THAT the height from grade plane to the highest window-sill leading to a habitable space may not exceed 32 feet;

THAT this approval shall be limited to the Build it Back program;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk shall be signed off by DOB and all other relevant agencies within four (4) years;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 23, 2018.

WHEREAS, the site has approximately 23 feet of frontage along Cross Bay Boulevard, 95 feet of frontage along East 7th Road, 2,524 square feet of lot area, and is occupied by a single-family detached residence and detached wood shed in the rear; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 8, 2016, when, under BSA Cal. No. 2016-3277-A, the Board granted a waiver of General City Law § 35 and also bulk regulations associated with the presence of the mapped but unbuilt street pursuant to ZR § 72-01(g) on condition that the proposed elevation or reconstruction comply with all applicable zoning district requirements; that all other applicable laws, rules and regulations be complied with; and on further condition that no building or other structure be constructed over an existing DEP-managed water or sewer main, as confirmed by a survey prepared by a New York State licensed land surveyor; if a proposed building or other structure is not within the exact footprint of the pre-Hurricane Sandy building or other structure being replaced or repaired, the proposed building or other structure may not be within 5 feet of a DEP-managed existing water or sewer main, as confirmed by a survey prepared by a New York State licensed land surveyor, unless

DEP has notified DOB that such limitation does not apply; if a proposed building or structure is within the exact footprint of the pre-Hurricane Sandy building or other structure being replaced or repaired, the proposed building or other structure may be within 5 feet of a DEP-managed existing water or sewer main, as confirmed by a survey prepared by a New York State licensed land surveyor; if a proposed building or other structure is not within the exact footprint of the pre-Hurricane Sandy building or other structure being replaced or repaired solely because of the addition of a new landing, lift, ramp, staircase and/or porch required to accommodate elevation of the proposed building or other structure, that portion of the proposed building or other structure that is within the exact footprint of the pre-Hurricane Sandy building or other structure may remain within 5 feet of a DEP-managed existing water or sewer main but such new landing, lift, ramp, staircase and/or porch may not be within 5 feet of a DEP-managed existing water or sewer main, as confirmed by a survey prepared by a New York State licensed land surveyor, unless DEP has notified DOB that such limitation does not apply; all buildings and other structures, including exterior stairs, be set back at least 5 feet from the front lot line of the property; if the curb-to-curb width of the street is less than 34 feet or the building is setback more than 40 feet from the curb line: (1) the building have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code, unless the Fire Department has notified DOB that the building is exempt; (2) the building be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code; (3) the underside of the building, where the foundation is not completely closed, have an exterior assembly that provides a 2-hour fire resistance rating; and (4) the height from grade plane to the highest window-sill leading to a habitable space may not exceed 32 feet; the approval be limited to the Build it Back program; the approval be limited to proposals for the elevation or reconstruction of previously existing structures and insofar as the applicant proposes, instead, to repair the building or other structure on the subject lot, the waiver be void as unnecessary; the applicant provide the Board with a full set of approved plans upon DOB's issuance of a Certificate of Occupancy for the subject building or other structure; DOB review and approve plans associated with the Board's approval for compliance with the underlying zoning regulations as if the unbuilt portion of the street were not mapped; and DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, ZR § 64-92 provides:

MINUTES

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments and enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Section 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

- (a) that there would be a practical difficulty in complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;
- (b) that any modifications of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant now seeks a special permit, pursuant to ZR § 64-92 to legalize the elevation of the single-family residence to a height of 25.3 feet from flood resistant construction elevation ("FRCE") and a perimeter wall height of 21.3 feet from FRCE, where Department of Buildings ("DOB") previously approved a building height of 24.6 feet from FRCE and a perimeter wall height of 19 feet, which creates a non-compliance with regards to height and increases the degree to which the existing front yards at the subject site do not comply with underlying bulk regulations; and

WHEREAS, specifically, the subject site has a 4.8 foot front yard at Cross Bay Boulevard, a 1 foot front yard at East 7th Road, but, at the subject site, a front yard of at least 10 feet is required pursuant to ZR §§ 23-45 and 64-A351; and

WHEREAS, additionally, a maximum perimeter wall

height of 19 feet and a maximum building height of 25 feet from FRCE is permitted pursuant to ZR § 64-A36; and

WHEREAS, in accordance with ZR § 64-92(a), the applicant submits that the composition of the existing residence on the lot creates practical difficulties in complying with flood-resistant construction standards without the modification of requirements for front yards and height and that waivers of the same are the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, pursuant to ZR § 64-92(b), the subject proposal does request a modification of bulk regulations related to height, but such request is to permit a height that exceeds the maximum permitted by 0.3 feet, which is both less than 10 feet in height and less than 10 percent of the permitted height as measured from FRCE (2.5 feet); and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the dwelling is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the neighborhood is characterized by single- and two-family residences, most of which are detached homes, and that the subject site is consistent with and contributes to the improvement of the essential character of the neighborhood; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the subject application satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 19BSA042Q, dated October 15, 2018; and

Therefore, it is Resolved, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure and issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92 to legalize, on a site within an R3A zoning district and the Special Coastal Risk District, the elevation of a single-family detached home in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards and building height, contrary to ZR §§ 23-45, 64-A351, and 64-A36; *on condition* that all work shall substantially conform to the drawings filed with this application and marked "Received October 15, 2018"- Three (3) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: a front yard with a minimum depth of 4.8 feet at Cross Bay Boulevard, a front yard with a minimum depth of

MINUTES

1 foot at East 7th Road, a maximum perimeter wall height of 21.3 feet above flood-resistant construction elevation, and a maximum building height of 25.3 feet above flood-resistant construction elevation, as illustrated on the Board-approved plans;

THAT the building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code, unless the Fire Department has notified DOB that the building is exempt from such requirement;

THAT the building shall be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code;

THAT the underside of the exterior of the building where the foundation is not closed shall have a floor assembly that provides a 2-hour fire resistance rating;

THAT the height from grade plane to the highest window-sill leading to a habitable space may not exceed 32 feet;

THAT this approval shall be limited to the Build it Back program;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk shall be signed off by DOB and all other relevant agencies within four (4) years;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 23, 2018.

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92 to legalize, on a site within an R3A zoning district and the Special Coastal Risk District, the elevation and rehabilitation of a single-family detached home in compliance with flood-resistant construction standards that does not comply with the zoning requirement for building height, contrary to ZR § 64-A36; and

WHEREAS, a public hearing was held on this application on October 23, 2018, and then to decision on the same date; and

WHEREAS, this application is brought on behalf of the property owner by the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in furtherance of the City’s effort to rebuild homes impacted by Superstorm Sandy expeditiously and effectively, the Board, pursuant to 2 RCNY § 1-14.2, waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1-05.1 (Objection Issued by the Department of Buildings); (2) 2 RCNY § 1-05.3 (Filing Period); (3) 2 RCNY § 1-05.4 (Application Referral); (4) 2 RCNY § 1-05.6 (Hearing Notice); (5) 2 RCNY § 1-05.7 (List of Affected Property Owners); (6) 2 RCNY § 1-09.4 (Owner’s Authorization); and (7) 2 RCNY § 1-10.7 (Proof of Service for Application Referral and Hearing Notice); and

WHEREAS, the Board notes that the subject application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the south side of East 8th Road, between Church Road and Walton Road, in an R3A zoning district and the Special Coastal Risk District, in Queens; and

WHEREAS, the site has approximately 75 feet of frontage along East 8th Road, 110 feet of depth, 8,250 square feet of lot area, and is occupied by a single-family detached residence and detached wood shed in the rear; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 8, 2016, when, under BSA Cal. No. 2016-3349-A, the Board granted a waiver of General City Law § 35 as well as bulk regulations associated with the presence of the mapped but unbuilt street pursuant to ZR § 72-01(g) on condition that the proposed elevation or reconstruction comply with all applicable zoning district requirements; that all other applicable laws, rules and regulations be complied with; and on further condition that no building or other structure be constructed over an existing

MINUTES

DEP-managed water or sewer main, as confirmed by a survey prepared by a New York State licensed land surveyor; if a proposed building or other structure is not within the exact footprint of the pre-Hurricane Sandy building or other structure being replaced or repaired, the proposed building or other structure may not be within 5 feet of a DEP-managed existing water or sewer main, as confirmed by a survey prepared by a New York State licensed land surveyor, unless DEP has notified DOB that such limitation does not apply; if a proposed building or structure is within the exact footprint of the pre-Hurricane Sandy building or other structure being replaced or repaired, the proposed building or other structure may be within 5 feet of a DEP-managed existing water or sewer main, as confirmed by a survey prepared by a New York State licensed land surveyor; if a proposed building or other structure is not within the exact footprint of the pre-Hurricane Sandy building or other structure being replaced or repaired solely because of the addition of a new landing, lift, ramp, staircase and/or porch required to accommodate elevation of the proposed building or other structure, that portion of the proposed building or other structure that is within the exact footprint of the pre-Hurricane Sandy building or other structure may remain within 5 feet of a DEP-managed existing water or sewer main but such new landing, lift, ramp, staircase and/or porch may not be within 5 feet of a DEP-managed existing water or sewer main, as confirmed by a survey prepared by a New York State licensed land surveyor, unless DEP has notified DOB that such limitation does not apply; all buildings and other structures, including exterior stairs, be set back at least 5 feet from the front lot line of the property; if the curb-to-curb width of the street is less than 34 feet or the building is setback more than 40 feet from the curb line: (1) the building have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code, unless the Fire Department has notified DOB that the building is exempt; (2) the building be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code; (3) the underside of the building, where the foundation is not completely closed, have an exterior assembly that provides a 2-hour fire resistance rating; and (4) the height from grade plane to the highest window-sill leading to a habitable space may not exceed 32 feet; the approval be limited to the Build it Back program; the approval be limited to proposals for the elevation or reconstruction of previously existing structures and insofar as the applicant proposes, instead, to repair the building or other structure on the subject lot, the waiver be void as unnecessary; the applicant provide the Board with a full set of approved plans upon DOB's issuance of a Certificate of Occupancy for the subject building or other structure; DOB review and approve plans associated with the Board's

approval for compliance with the underlying zoning regulations as if the unbuilt portion of the street were not mapped; and DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments and enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Section 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

- (a) that there would be a practical difficulty in complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;
- (b) that any modifications of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant now seeks a special permit, pursuant to ZR § 64-92 to legalize the elevation of the single-family residence to a height of 25.6 feet from flood resistant construction elevation ("FRCE") and a perimeter wall height of 20.6 feet, where Department of Buildings ("DOB") previously approved a building height of 23.8 feet from FRCE, which creates a non-compliance with regards to

MINUTES

height regulations; and

WHEREAS, a maximum perimeter wall height of 19 feet and a maximum building height of 25 feet from FRCE is permitted pursuant to ZR § 64-A36; and

WHEREAS, in accordance with ZR § 64-92(a), the applicant submits that the composition of the existing residence on the lot creates practical difficulties in complying with flood-resistant construction standards without the modification of requirements for height and that waivers of the same are the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, pursuant to ZR § 64-92(b), the subject proposal does request a modification of bulk regulations related to height, but such request is to permit a height that exceeds the maximum permitted by 0.6 feet, which is both less than 10 feet in height and less than 10 percent of the permitted height as measured from FRCE (2.5 feet); and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the dwelling is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the neighborhood is characterized by single- and two-family residences, most of which are detached homes, and that the subject site is consistent with and contributes to the improvement of the essential character of the neighborhood; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the subject application satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 19BSA043Q, dated October 15, 2018; and

Therefore, it is Resolved, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure and issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92 to legalize, on a site within an R3A zoning district and the Special Coastal Risk District, the elevation of a single-family detached home in compliance with flood-resistant construction standards that does not comply with the zoning requirements for building height, contrary to ZR § 64-A36; *on condition* that all work shall substantially conform to the drawings filed with this application and marked "Received October 15, 2018"- Five (5) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: a maximum perimeter wall height of 20.6 feet above flood-resistant construction elevation, and a maximum

building height of 25.6 feet above flood-resistant construction elevation, as illustrated on the Board-approved plans;

THAT the building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code, unless the Fire Department has notified DOB that the building is exempt from such requirement;

THAT the building shall be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code;

THAT the underside of the exterior of the building where the foundation is not closed shall have a floor assembly that provides a 2-hour fire resistance rating;

THAT the height from grade plane to the highest window-sill leading to a habitable space may not exceed 32 feet;

THAT this approval shall be limited to the Build it Back program;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk shall be signed off by DOB and all other relevant agencies within four (4) years;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant now seeks a special permit, pursuant to ZR § 64-92 to legalize the elevation of the single-family residence to a total height of 20 feet 6 inches from flood resistant construction elevation (“FRCE”), where Department of Buildings (“DOB”) previously approved a building height of 19 feet 8 inches from FRCE, which results in an increase in the degree to which the existing front yard and rear yard at the subject site do not comply with underlying bulk regulations; and

WHEREAS, specifically, the subject site has a 14 foot

MINUTES

10 inch front yard and a 12 foot 8 inch rear yard, but, at the subject site, a minimum front yard depth of 18 feet, and a minimum rear yard depth of 30 feet, are required pursuant to ZR §§ 23-45 and 23-47, respectively; and

WHEREAS, in accordance with ZR § 64-92(a), the applicant submits that the composition of the existing residence on the lot creates practical difficulties in complying with flood-resistant construction standards without the modification of requirements for front yards and rear yards and that waivers of the same are the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the finding pursuant to ZR § 64-92(b) is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the dwelling is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the neighborhood is characterized by single- and two-family residences, most of which are detached homes, and that the subject site is consistent with and contributes to the improvement of the essential character of the neighborhood; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the subject application satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 19BSA044Q, dated October 15, 2018; and

Therefore, it is Resolved, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure and issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92 to legalize, on a site within an R4 zoning district, the elevation of a single-family detached home in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards and rear yards contrary to ZR §§ 23-45 and 23-47; *on condition* that all work shall substantially conform to the drawings filed with this application and marked "Received October 15, 2018"- Seven (7) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: a minimum front yard depth of 14 feet 10 inches, and a minimum rear yard depth of 12 feet 8 inches, as illustrated on the Board-approved plans;

THAT the building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code, unless the Fire Department has notified DOB that the building is exempt from such requirement;

THAT the building shall be provided with interconnected smoke and carbon monoxide alarms, designed in accordance with Section 907.2.11 of New York City Building Code;

THAT the underside of the exterior of the building where the foundation is not closed shall have a floor assembly that provides a 2-hour fire resistance rating;

THAT the height from grade plane to the highest window-sill leading to a habitable space may not exceed 32 feet;

THAT this approval shall be limited to the Build it Back program;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk shall be signed off by DOB and all other relevant agencies within four (4) years;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

WHEREAS, a public hearing was held on this application on October 23, 2018, and then to decision on the same date; and

WHEREAS, this application is brought on behalf of the property owner by the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in furtherance of the City's effort to rebuild homes impacted by Superstorm Sandy expeditiously and effectively, the Board, pursuant to 2 RCNY § 1-14.2, waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1-05.1 (Objection Issued by the Department of Buildings); (2) 2 RCNY § 1-05.3 (Filing Period); (3) 2 RCNY § 1-05.4 (Application Referral); (4) 2 RCNY § 1-05.6 (Hearing Notice); (5) 2 RCNY § 1-05.7 (List of Affected Property Owners); (6) 2 RCNY § 1-09.4 (Owner's Authorization); and (7) 2 RCNY § 1-10.7 (Proof of Service for Application Referral and Hearing Notice); and

WHEREAS, the Board notes that the subject application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the west side of Roosevelt Walk, south of 6th Avenue/West End Avenue, in an R4 zoning district, in Queens; and

WHEREAS, the site has approximately 38 feet of frontage along Roosevelt Walk, 85 feet of depth, 3,194 square feet of lot area, and is occupied by a single-family detached residence with a detached frame shed in the rear; and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments* and *enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Section 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

(a) that there would be a practical difficulty in

complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;

- (b) that any modifications of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant now seeks a special permit, pursuant to ZR § 64-92 to legalize the elevation of the single-family residence to a total height of 23.3 feet from flood resistant construction elevation ("FRCE"), where Department of Buildings ("DOB") previously approved a building height of 22.4 feet from FRCE, which increases the degree of non-compliance of a front yard at the subject site; and

WHEREAS, specifically, the subject site has 14.7 feet of front yard depth at Roosevelt Walk, but, at the subject site, a minimum front yard depth of 18 feet is required pursuant to ZR § 23-45; and

WHEREAS, in accordance with ZR § 64-92(a), the applicant submits that the composition of the existing residence on the lot creates practical difficulties in complying with flood-resistant construction standards without the modification of requirements for front yards and that waivers of the same are the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the finding pursuant to ZR § 64-92(b) is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the dwelling is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the neighborhood is characterized by single- and two-family residences, most of which are detached homes, and that the subject site is

MINUTES

consistent with and contributes to the improvement of the essential character of the neighborhood; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the subject application satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 19BSA045Q, dated October 15, 2018; and

Therefore, it is Resolved, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure and issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92 to legalize, on a site within an R4 zoning district, the elevation of a single-family detached home in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards contrary to ZR § 23-45; *on condition* that all work shall substantially conform to the drawings filed with this application and marked “Received October 15, 2018”-Seven (7) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: a minimum front yard depth of 14.7 feet on Roosevelt Walk, as illustrated on the Board-approved plans;

THAT the building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code, unless the Fire Department has notified DOB that the building is exempt from such requirement;

THAT the building shall be provided with interconnected smoke and carbon monoxide alarms, designed in accordance with Section 907.2.11 of New York City Building Code;

THAT the underside of the exterior of the building where the foundation is not closed shall have a floor assembly that provides a 2-hour fire resistance rating;

THAT the height from grade plane to the highest window-sill leading to a habitable space may not exceed 32 feet;

THAT this approval shall be limited to the Build it Back program;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk shall be signed off by DOB and all other relevant agencies within four (4) years;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not

related to the relief granted.

Adopted by the Board of Standards and Appeals, October 23, 2018.

2018-162-BZ CEQR #19-BSA-046Q

APPLICANT – NYC Mayor’s Office of Housing Recovery Operation.

SUBJECT – Application October 15, 2018 – Special Permit (§64-92) to waive bulk requirements for the reconstruction of homes damaged/destroyed by Hurricane Sandy for a property registered in the NYC Build it Back Program. Waiver of minimum required side yards (ZR §§23-461(a) and 64-A352). R4 ZD.

PREMISES AFFECTED – 70 Bedford Avenue, Block 16350, Lot 300, Borough of Queens.

COMMUNITY BOARD #4Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to legalize, on a site within an R4 zoning district, the elevation of and reconstruction of a portion of a single-family detached home in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards and side yards contrary to ZR §§ 23-45 and 23-461(a), respectively; and

WHEREAS, a public hearing was held on this application on October 23, 2018, and then to decision on the same date; and

WHEREAS, this application is brought on behalf of the property owner by the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in furtherance of the City’s effort to rebuild homes impacted by Superstorm Sandy expeditiously and effectively, the Board, pursuant to 2 RCNY § 1-14.2, waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1-05.1 (Objection Issued by the Department of Buildings); (2) 2 RCNY § 1-05.3 (Filing Period); (3) 2 RCNY § 1-05.4 (Application Referral); (4) 2 RCNY § 1-05.6 (Hearing Notice); (5) 2 RCNY § 1-05.7 (List of Affected Property Owners); (6) 2 RCNY § 1-09.4 (Owner’s Authorization); and (7) 2 RCNY § 1-10.7 (Proof of Service for Application Referral and Hearing Notice); and

WHEREAS, the Board notes that the subject

MINUTES

application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is a through-lot located on the west side of Bedford Avenue, between West Market Street (12th Avenue) and Bayside, in an R4 zoning district, in Queens; and

WHEREAS, the site has approximately 28 feet of frontage along both Bedford Avenue and Beach 204th Street, 103 feet of depth, 2,884 square feet of lot area and is occupied by a single-family detached residence with a detached shed in the rear; and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments* and *enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Section 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

- (a) that there would be a practical difficulty in complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;
- (b) that any modifications of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant now seeks a special permit, pursuant to ZR § 64-92 to legalize the elevation of the single-family residence to a total height of 25.5 feet from flood

resistant construction elevation ("FRCE"), where Department of Buildings ("DOB") previously approved a building height of 24.6 feet from FRCE, and rehabilitation of the subject residence with regard to the demolition and replacement of the existing deck with a screened room on the second floor, results in an increase in the degree to which front yards and side yards at the subject site do not comply with underlying bulk regulations; and

WHEREAS, specifically, the subject site has of a front yard depth of 17.4 feet at Bedford Avenue, a front yard depth of 17.9 feet at Beach 204th Street, and two side yards measuring 4.6 feet and 5.1 feet, but, at the subject site, a minimum front yard depth of 18 feet is required pursuant to ZR § 23-45, and two side yards, each with a width of at least 5 feet and with a combined minimum width of 13 feet, are required pursuant to ZR § 23-461(a); and

WHEREAS, in accordance with ZR § 64-92(a), the applicant submits that the composition of the existing residence on the lot creates practical difficulties in complying with flood-resistant construction standards without the modification of requirements for front yards and side yards and that waivers of the same are the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the finding pursuant to ZR § 64-92(b) is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the dwelling is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the neighborhood is characterized by single- and two-family residences, most of which are detached homes, and that the subject site is consistent with and contributes to the improvement of the essential character of the neighborhood; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the subject application satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 19BSA046Q, dated October 15, 2018; and

Therefore, it is Resolved, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure and issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92 to legalize, on

MINUTES

a site within an R4 zoning district, the elevation and rehabilitation of a single-family detached home in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards and side yards contrary to ZR §§ 23-45 and 23-461(a) respectively; *on condition* that all work shall substantially conform to the drawings filed with this application and marked "Received October 15, 2018"-Eight (8) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: a front yard with a minimum depth of 17.4 feet on Bedford Avenue, a front yard with a minimum depth of 17.9 feet on Beach 204th Street, and side yards with minimum widths of 4.6 feet and 5.1 feet, as illustrated on the Board-approved plans;

THAT the building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code;

THAT the building shall be provided with interconnected smoke and carbon monoxide alarms, designed in accordance with Section 907.2.11 of the New York City Building Code;

THAT the underside of the exterior of the building where the foundation is not closed shall have a floor assembly that provides a 2-hour fire resistance rating;

THAT the height from grade plane to the highest window-sill leading to a habitable space may not exceed 32 feet;

THAT this approval shall be limited to the Build it Back program;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk shall be signed off by DOB and all other relevant agencies within four (4) years;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 23, 2018.

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to legalize, on a site within an R3A zoning district and the Special Coastal Risk District, the elevation a single-family detached home in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards contrary to ZR §§ 23-45 and 64-A351(a); and

WHEREAS, a public hearing was held on this application on October 23, 2018, and then to decision on the same date; and

WHEREAS, this application is brought on behalf of the property owner by the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in furtherance of the City’s effort to rebuild homes impacted by Superstorm Sandy expeditiously and effectively, the Board, pursuant to 2 RCNY § 1-14.2, waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1-05.1 (Objection Issued by the Department of Buildings); (2) 2 RCNY § 1-05.3 (Filing Period); (3) 2 RCNY § 1-05.4 (Application Referral); (4) 2 RCNY § 1-05.6 (Hearing Notice); (5) 2 RCNY § 1-05.7 (List of Affected Property Owners); (6) 2 RCNY § 1-09.4 (Owner’s Authorization); and (7) 2 RCNY § 1-10.7 (Proof of Service for Application Referral and Hearing Notice); and

WHEREAS, the Board notes that the subject application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the north side of East 6th Road, between West Street and Walton Road, in an R3A zoning district and the Special Coastal Risk District, in Queens; and

WHEREAS, the site has approximately 25 feet of frontage along East 6th Road, 100 feet of depth, 2,500 square feet of lot area and is occupied by a single-family detached residence with a detached frame shed in the rear; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 8, 2016, when, under BSA Cal. No. 2016-3706-A, the Board granted a waiver of General

MINUTES

City Law § 35 as well as bulk regulations associated with the presence of the mapped but unbuilt street pursuant to ZR § 72-01(g) on condition that the proposed elevation or reconstruction comply with all applicable zoning district requirements; that all other applicable laws, rules and regulations be complied with; and on further condition that no building or other structure be constructed over an existing DEP-managed water or sewer main, as confirmed by a survey prepared by a New York State licensed land surveyor; if a proposed building or other structure is not within the exact footprint of the pre-Hurricane Sandy building or other structure being replaced or repaired, the proposed building or other structure may not be within 5 feet of a DEP-managed existing water or sewer main, as confirmed by a survey prepared by a New York State licensed land surveyor, unless DEP has notified DOB that such limitation does not apply; if a proposed building or other structure is within the exact footprint of the pre-Hurricane Sandy building or other structure being replaced or repaired, the proposed building or other structure may not be within 5 feet of a DEP-managed existing water or sewer main, as confirmed by a survey prepared by a New York State licensed land surveyor; if a proposed building or other structure is not within the exact footprint of the pre- Hurricane Sandy building or other structure being replaced or repaired solely because of the addition of a new landing, lift, ramp, staircase and/or porch required to accommodate elevation of the proposed building or other structure, that portion of the proposed building or other structure that is within the exact footprint of the pre-Hurricane Sandy building or other structure may remain within 5 feet of a DEP-managed existing water or sewer main but such new landing, lift, ramp, staircase and/or porch may not be within 5 feet of a DEP-managed existing water or sewer main, as confirmed by a survey prepared by a New York State licensed land surveyor, unless DEP has notified DOB that such limitation does not apply; all buildings or other structures, including exterior stairs, not be constructed within a planned DEP Capital Project as indicated on the DDC's Damages Map and/or Acquisitions plan as of September 15, 2015; all buildings or other structures, including exterior stairs, not be constructed within a planned DOT Capital Project as indicated on the DDC's Damages Map and/or Acquisitions plan as of September 15, 2015, or as indicated in writing by the DDC; if the curb-to-curb width of the street is less than 34 feet or the building is setback more than 40 feet from the curb line: (1) the building have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code, unless the Fire Department has notified DOB that the building is exempt; (2) the building be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code; (3) the underside of the building, where the

foundation is not completely closed, have an exterior assembly that provides a 2-hour fire resistance rating; and (4) the height from grade plane to the highest window-sill leading to a habitable space not exceed 32'-0"; the approval be limited to the Build it Back program; the approval be limited to proposals for the elevation or reconstruction of previously existing structures and insofar as the applicant proposes, instead, to repair the building or other structure on the subject lot, the waiver be void as unnecessary; the applicant provide the Board with a full set of approved plans upon DOB's issuance of a Certificate of Occupancy for the subject building or other structure; DOB will review and approve plans associated with the Board's approval for compliance with the underlying zoning regulations as if the unbuilt portion of the street were not mapped; and DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments* and *enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Section 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

- (a) that there would be a practical difficulty in complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;
- (b) that any modifications of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's

MINUTES

potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant now seeks a special permit, pursuant to ZR § 64-92 to legalize the elevation of the single-family residence to a total height of 23 feet 2.16 inches from flood resistant construction elevation (“FRCE”), where Department of Buildings (“DOB”) previously approved a building height of 22 feet 8 inches from FRCE, increases the degree to which the front yards do not comply with the underlying bulk regulations; and

WHEREAS, specifically, the subject site has of a front yard depth of 7 feet 3 inches, but, at the subject site, a minimum front yard depth of 10 feet is required pursuant to ZR §§ 23-45 and 64-A351; and

WHEREAS, in accordance with ZR § 64-92(a), the applicant submits that the composition of the existing residence on the lot creates practical difficulties in complying with flood-resistant construction standards without the modification of requirements for front yards and that waivers of the same are the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the finding pursuant to ZR § 64-92(b) is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the dwelling is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood’s potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the neighborhood is characterized by single- and two-family residences, most of which are detached homes, and that the subject site is consistent with and contributes to the improvement of the essential character of the neighborhood; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the subject application satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 19BSA047Q, dated October 15, 2018; and

Therefore, it is Resolved, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure and issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review, and

makes the required findings under ZR § 64-92 to legalize, on a site within an R4 zoning district and the Special Coastal Risk District, the elevation and rehabilitation of a single-family detached home in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards and side yards contrary to ZR §§ 23-45 and 64-A351(a); *on condition* that all work shall substantially conform to the drawings filed with this application and marked “Received October 15, 2018”-Five (5) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: a front yard with a minimum depth of 7 feet 3 inches, as illustrated on the Board-approved plans;

THAT the building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code, unless the Fire Department has notified DOB that the building is exempt from such requirement;

THAT the building shall be provided with interconnected smoke and carbon monoxide alarms, designed in accordance with Section 907.2.11 of the New York City Building Code;

THAT the underside of the exterior of the building where the foundation is not closed shall have a floor assembly that provides a 2-hour fire resistance rating;

THAT the height from grade plane to the highest window-sill leading to a habitable space may not exceed 32 feet;

THAT this approval shall be limited to the Build it Back program;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk shall be signed off by DOB and all other relevant agencies within four (4) years;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 23, 2018.

APPLICANT – Akerman LLP, for James Marchetti, owner.
SUBJECT – Application November 17, 2016 – Extension of Term (§11-411) of a previously granted Variance permitting the operation of a UG16 Auto Body Repair Shop (*Carriage House*) with incidental painting and spraying which expired on October 18, 2016; Extension of Time to Obtain a Certificate of Occupancy which expired on October 18, 2012. Waiver of the Rules.C2-2/R4 zoning district.
PREMISES AFFECTED – 61-28 Fresh Meadow Lane, Block 6901, Lot 48, Borough of Queens.

COMMUNITY BOARD #8Q

ACTION OF THE BOARD – Granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta...4
Negative:0
Absent: Chair Perlmutter1

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure, reopening, an extension of the term of a variance, previously granted by the Board, which expired on October 18, 2016, an amendment of the same and an extension of time to obtain a certificate of occupancy, which expired on October 18, 2012; and

WHEREAS, a public hearing was held on this application on May 1, 2018, after due notice by publication in *The City Record*, with a continued hearing on October 30, 2018, and then to decision on the same date; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 8, Queens, recommends approval of this application on condition that the extension of term be limited to five (5) years and the operator submit a bi-annual report as to the status of the facility’s parking situation; and

WHEREAS, the subject site is located on the west side of Fresh Meadow Lane, between Horace Harding Expressway and 65th Avenue, in an R4(C2-2) zoning district, in Queens; and

WHEREAS, the site has approximately 67 feet of frontage, 93 feet of depth along the southern lot line, 84 feet of depth along the northern lot line, 5,126 square feet of lot area

and is occupied by a one-story automotive repair establishment (Use Group (“UG”) 16); and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 2, 1954, when, under the subject calendar number, the Board granted a variance to permit the construction and use of a one-story building for motor vehicle repairing, as indicated on approved plans filed with the application, for a term of five (5) years, expiring March 2, 1959, with parking and storage of motor vehicles awaiting service, on condition that the building comply in all other respects with all requirements of the Zoning Resolution and Building Code; there be no windows or other openings in the rear or side lot lines to the north and west in the space proposed for welding; any skylight in such room be located approximately 15 feet from the rear lot line; the balance of the premises where not occupied with the proposed building be paved with concrete or asphaltic paving; there be erected on the side lot lines a woven wire fence of the chain link type with anchored steel posts, not less than five (5) feet six (6) inches in height with substantial posts at the lot lines; curb cuts may be as proposed, not more than 20 feet in width and not nearer than five (5) feet to the side lot line as prolonged; sidewalks surrounding the premises be reconstructed or repaired to the satisfaction of the Borough President; such portable fire-fighting appliances be maintained within the building as the Fire Commissioner directs; and that all permits required be obtained and all work completed within one (1) year, by March 2, 1955, and a certificate of occupancy be obtained; and

WHEREAS, on March 29, 1955, under the subject calendar number, the Board extended the time to obtain permits and complete construction for one (1) year in light of the statement by the applicant that the plans had been approved by the Department of Housing and Buildings and the contract for construction had been let, and required all permits required be obtained and all work completed within one (1) year of the amended resolution, by March 29, 1956; and

WHEREAS, on April 21, 1959, under the subject calendar number, the Board extended the term of the variance for five (5) years, expiring April 21, 1964, and required all permits, including a new certificate of occupancy, be obtained and all work completed within six (6) months, by October 21, 1959; and

WHEREAS, on February 9, 1960, under the subject calendar number, the Board extended the time to obtain permits and complete construction for one (1) year, by February 9, 1961, and required a certificate of occupancy to be obtained; and

WHEREAS, on July 21, 1964, under the subject calendar number, the Board extended the term of the variance for five (5) years, expiring July 21, 1969, on condition that other than as amended the resolution be complied with in all respects and a certificate of occupancy be obtained; and

WHEREAS, on October 15, 1969, under the subject calendar number, the Board extended the term of the variance for ten (10) years, expiring July 21, 1979, on condition that

MINUTES

other than as amended the resolution be complied with in all respects, and a new certificate of occupancy be obtained; and

WHEREAS, on November 7, 1979, under the subject calendar number, the Board reopened and amended the March 2, 1954 resolution, as amended through October 15, 1969, to extend the term of the variance for ten (10) years, expiring November 7, 1989, on condition that the sidewalk area around the utility pole be repaired and the curb be repaired where required; other than as amended the resolution be complied with in all respects; and, a new certificate of occupancy be obtained within one (1) year, by November 7, 1980; and

WHEREAS, on March 24, 1987, under the subject calendar number, the Board reopened and amended the resolution, as amended through November 7, 1979, to extend the term of the variance for ten (10) years, expiring March 24, 1997, on condition that there be no more than 20 gallons of paint stored on the premises at any one time and there be no more than two (2) quarts of paint used in one day; other than as amended the resolution be complied with in all respects; and, a new certificate of occupancy be obtained within one (1) year, by March 24, 1988; and

WHEREAS, on January 13, 1998, under the subject calendar number, the Board reopened and amended the resolution, as amended through March 24, 1987, to extend the term of the variance for ten (10) years, expiring March 24, 2007, on condition that there be no outdoor lift located on the premises; sidewalks be adequately maintained; fencing and gates be maintained; signs be limited to those shown on the BSA-approved drawings; the premises be maintained graffiti free and in substantial compliance with the existing and proposed drawing submitted with the application; other than as amended the resolution be complied with in all respects; and, a new certificate of occupancy be obtained within one (1) year, by January 13, 1999; and

WHEREAS, on October 18, 2011, under the subject calendar number, the Board waived its Rules of Practice and Procedure, reopened and amended the resolution to extend the term of the variance for five (5) years, expiring October 18, 2016, and to extend the time to obtain a certificate of occupancy for one (1) year, expiring October 18, 2012, on condition that all spray painting on the site be limited to water-based paint; the hours of operation be limited to 8:00 a.m. to 5:00 p.m., daily; there be no parking of vehicles on the sidewalk; the site be maintained free of debris and graffiti; the above conditions be listed on the certificate of occupancy; a certificate of occupancy be obtained by October 18, 2012; all conditions from prior resolutions not specifically waived by the Board remain in effect; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and the DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, the prior term of the variance and time to obtain a certificate of occupancy having expired, the applicant seeks a ten (10) year extension of the term of the

variance, first issued in 1953, pursuant to ZR § 11-411, and an extension of time to obtain a certificate of occupancy; and

WHEREAS, ZR § 11-411 states:

Where no limitation as to the duration of the *use*¹ was imposed at the time of [the variance authorized by the Board of Standards and Appeals pursuant to the 1916 Zoning Resolution], such *use* may be continued. Where such *use* was authorized subject to a term of years, such *use* may be continued until the expiration of the term, and thereafter, the agency which originally authorized such *use* may, in appropriate cases, extend the period of continuance for one or more terms or not more than 10 years each. The agency may prescribe appropriate conditions and safeguards to minimize adverse effects of such *use* on the character of the neighborhood;

WHEREAS, in addition, because this application was filed less than two (2) years after the expiration of the term of the variance and more than one (1) year after the expiration of the time to obtain a certificate of occupancy, the applicant requests waivers, pursuant to § 1-14.2 of the Board's Rules of Practice and Procedure (the "Board's Rules"), of §§ 1-07.3(b)(2) and 1-07.3(d)(2) of the Board's Rules to permit the filing of this application; and

WHEREAS, over the course of the hearings, the Board expressed concerns regarding a tow truck operation at the subject site and the parking of tow trucks on the streets and surrounding neighborhood; and

WHEREAS, in response, the applicant represented that the tow truck operation is very limited, and the number of tow trucks was reduced from five (5) to two (2) tow trucks such that they can be parked on the subject site; and

WHEREAS, at the hearing, the Board discussed whether a five (5) year term would be more appropriate, such that this site could be monitored more closely;

WHEREAS, the applicant represented that they will return to Community Board 8, Queens, every two (2) years for Community Board approval in compliance with the Community Board's conditional approval recommendation with regards to this application; and

WHEREAS, the Board finds, in light of the applicant's representation, a ten (10) year term is appropriate in this case with certain conditions set forth below; and

WHEREAS, the Board also notes that, should the applicant be out of compliance with any of the conditions of this grant, members of the public, including the Community Board, may recommend that the applicant be brought before the Board on compliance, a procedure that may result in the revocation or modification of the variance pursuant to New York City Charter § 666(11), ZR § 11-62 and § 1-12.8 of the Board's Rules; and

WHEREAS, the applicant additionally seeks an amendment to the variance, first granted March 24, 1954, as

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

amended through October 18, 2011, as it relates to the hours of operation and the presence of a fence between the subject site and the adjacent tax lot 52; and

WHEREAS, pursuant to the BSA resolution dated October 18, 2011, the hours of operation of the facility at the premises were limited to 8:00 a.m. to 5:00 p.m., daily; and

WHEREAS, over the course of the hearings, the applicant stated that the hours of operation for the automotive repair establishment are Monday through Friday, 8:00 a.m. to 5:00 p.m.; Saturday, 8:00 a.m. to 3:00 p.m., and thus compliant with the 2011 extension of term, but the hours of operation for the towing operation are 24 hours a day, seven (7) days a week; and that the fence between the subject property and lot 52 was removed approximately 20 years ago because it is under the same ownership as the subject lot and, therefore, a fence separating the two is no longer required; and

WHEREAS, by letter dated April 30, 2018, the Fire Department stated that it had no objection to this application, and confirmed that the subject site is current with all applicable permits—including permits for the use of combustible gas, spray booth, and storage of paints, lacquer, and varnish—and was last inspected on February 22, 2018; and

WHEREAS, based on the foregoing, the Board has determined that the request to amend the previously granted variance, with regard to the hours of operation and removal of the fence, is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* Rules §§ 1-07.3(b)(2) and 1-07.3(d)(2) of its Rules of Practice and Procedure *reopens* and *amends* the resolution, dated March 23, 1954, as amended through October 18, 2011, so that as amended this portion of the resolution shall read: “to grant an extension of the term of the variance for a term of ten (10) years, to expire on October 18, 2026; and *on condition* that all work and site conditions shall conform to drawings filed with this application marked “March 15, 2018”-Five (5) sheets and *on further condition*:

THAT the term of this grant shall expire on October 18, 2026;

THAT the hours of operation of the automotive repair establishment shall be limited to 8:00 a.m. to 5:00 p.m., daily;

THAT the permitted hours of operation of the tow truck establishment are 24 hours per day, seven (7) days per week;

THAT the applicant shall return to the Community Board 8, Queens to demonstrate compliance of parking at the site with the approved plans and the Board’s resolution;

THAT all signage shall comply with the BSA-approved plans;

THAT the site shall remain free of debris and graffiti at all times;

THAT all spray painting on the site shall be limited to water-based paint;

THAT that there shall be no outdoor lift located on the premise;

THAT the sidewalks shall be adequately maintained;

THAT there shall be no parking of vehicles on the

sidewalk;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions and reference to this calendar number (“BSA Cal. No. 677-53-BZ”) shall appear on the certificate of occupancy;

THAT a certificate of occupancy be obtained within one (1) year, by October 30, 2019;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, October 30, 2018.

60-82-BZ

APPLICANT – Eric Palatnik, P.C., for BP Products North America, owner.

SUBJECT – Application July 20, 2016 – Extension of Term (§11-411) of a previously granted variance permitting the operation of an Automotive Service Station (UG 16B) which expired on July 7, 2016. C2-3/R7X zoning district.

THE RESOLUTION

WHEREAS, this is an application for an extension of the term of a variance, previously granted by the Board; and

WHEREAS, a public hearing was held on this application on May 22, 2018, after due notice by publication in *The City Record*, with continued hearings on August 21, 2018, and October 30, 2018, and then to decision on that date; and

WHEREAS, Community Board 2, Queens, recommends disapproval of this application due, in part, to concerns caused by the unsatisfactory operation of a car wash on the premises and traffic caused by the operation; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and the surrounding neighborhood; and

WHEREAS, the subject site is bound by Queens Boulevard to the south, 44th Avenue to the north, 60th Street to the west, and 61st Street to the east, in an R7X (C2-

MINUTES

3) zoning district, in Queens; and

WHEREAS, the site has approximately 200 feet of frontage on Queens Boulevard and 44th Avenue, 85 feet of frontage on 60th Street, 79 feet of frontage on 61st Street, 16,435 square feet of lot area, and is occupied by an automotive service station (UG 16) with accessory kiosk; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 24, 1953, when, under BSA Cal. No. 570-52-BZ, the Board granted a variance to permit, for a term of 15 years, expiring on March 24, 1968, the construction and operation of a gasoline service station, as indicated on approved plans filed with the application, on condition that all existing structures and uses be removed and the working area of the plot be leveled substantially to the grade of Queens Boulevard; the premises be arranged as indicated on revised approved plans filed with the application; the higher grade on 44th Avenue be protected with high dense screening planting, as proposed and as indicated, protected by a retaining wall and curb as thereon shown; such screening be seven (7) feet in height; the accessory building be of the design and arrangement as indicated without cellar; the façade of the building on all sides be of face brick; there be no roof signs or temporary signs; signs be restricted to a permanent sign attached to the façade of the accessory building facing Queens Boulevard and the illuminated globes of the pumps, but permitting the erection within the building lines of a post standard at either corner at 61st Street and 60th Street, as shown, for advertising the brand of gasoline on sale, but not extending beyond the building line more than four (4) feet; such signs may be illuminated; a block of concrete be installed and maintained within each intersection for a distance of five (5) feet and 12 inches in height; the number of gasoline tanks not exceed twelve (12) 550-gallon tanks; pumps be erected not nearer than 15 feet of the street building line of Queens Boulevard as shown; such pumps be of a low approved type; curb cuts be restricted to three (3) curb cuts to Queens Boulevard, each not over 35 feet in width and two similar curb cuts to 61st Street and 60th Street, located where shown; the sidewalks and curbing around the premises be restored or reconstructed to the satisfaction of the borough president; the accessory building be arranged, as shown, without cellar underneath, and comply in all other respects with the requirements of the Building Code; there may be minor repairing under section 7, subdivision i, with hand tools only carried on entirely within the accessory building for a similar term; there be under section 7, subdivision h, the parking of motor vehicles waiting to be serviced for a similar term; the balance of the premises where not occupied as accessory building, pumps and planting be paved with concrete or asphaltic pavement; the existing trees along the property along 44th Avenue be retained and kept in good condition and additional trees be planted so that trees be spaced not more than 25 feet apart to provide a uniform spacing with existing trees; there be no windows opening to 44th Avenue from the accessory building, except that any

openings provided may be filled with glass block as approved for exterior walls without ventilating sections; such portable firefighting appliances be maintained as the Fire Commissioner directs; and all permits be obtained and all work completed by March 24, 1954; and

WHEREAS, on June 15, 1954, under BSA Cal. No. 570-52-BZ, the Board amended the resolution to permit the existing pumps to continue at the distance from the building line as indicated on BSA-approved plans, on condition that the replacement of the existing pumps with new pumps be located as required in the resolution adopted on March 24, 1953; and

WHEREAS, on July 7, 1954, under BSA Cal. No. 570-52-BZ, the Board amended the resolution, adopted March 24, 1953, to permit the erection within the building lines of a post standard at each of the corners of 61st Street and 60th Street, and required that other than as amended the resolution be complied with in all respects; and

WHEREAS, on September 15, 1964, under BSA Cal. No. 570-52-BZ, the Board amended the resolution to permit the front and two sides of the accessory building to be faced with an approved type of porcelain enamel, substantially as shown on approved plans filed with the application, on condition other than as amended the resolution be complied with in all respects; and;

WHEREAS, on September 10, 1968, under BSA Cal. No. 570-52-BZ, the Board extended the term of the variance, granted on March 24, 1953, for a term of ten (10) years, expiring March 24, 1978, and required that other than as amended the resolution be complied with in all respects, and a new certificate of occupancy be obtained; and

WHEREAS, on November 25, 1969, under BSA Cal. No. 570-52-BZ, the Board amended the resolution to permit alterations to the premises as shown on approved plans filed with the application on condition that all signs comply with the provisions of the Zoning Resolution for a C1 district and that other than as amended the resolution be complied with in all respects; and

WHEREAS, on July 11, 1978, under BSA Cal. No. 570-52-BZ, the Board extended the term of the variance for ten (10) years, expiring July 11, 1988, and required that other than as amended the resolution be complied with in all respects, and a new certificate of occupancy be obtained within one (1) year, by July 11, 1979; and

WHEREAS, on July 7, 1982, under the subject calendar number, the Board permitted, in an R6 district, the reconstruction of an existing automotive service station with accessory uses previously before the Board into a gasoline and oil selling station without repair services, on condition that all work substantially conform to approved plans filed with the application; that the modification be limited to a term of 15 years, expiring July 7, 1997; there be no repair services performed on the station; the variance supersedes previously-approved BSA Cal. No. 570-52-BZ; the hours of operation be limited to from 6:00 a.m. to 12:00 a.m. Sunday through Thursday, and from 6:00 a.m. to 1:00 a.m. on Friday and Saturday; all trees on the premises and adjacent

MINUTES

sidewalk, and all plantings, be maintained and, when necessary, promptly replaced; screening be installed in accordance with submitted plans, on the portion of the premises where the existing building is to be demolished, six- (6) feet-high hemlocks be planted six (6) feet on center so as to provide a dense screen; in the existing planting area on 44th Avenue, additional six- (6) feet-high trees be planted so as to create dense screening; the station be operated at all times in such fashion so as to minimize traffic congestion; the Department of Buildings issue no permits until 31 days after the date of certification of the resolution; all laws, rules and regulations applicable be complied with; and that substantial construction be completed within four (4) years, by July 7, 1984; and

WHEREAS, on the same date, under BSA Cal. No. 61-82-A, the Board modified the decision of the Borough Superintendent and granted an application to use self-service pumps contrary to Section C19.73.0(b)2 of the New York City Fire Prevention Code on condition that a trained attendant who possesses a Certificate of Fitness be on duty at all times when the station is open for business; it be the attendant's duty to require the engine of any vehicle be shut off before the start of fuel operation and prohibit smoking within the immediate area of the fuel operation; it be the attendant's duty to prevent the dispensing of fuel into portable containers; signs reading, "NO SMOKING," "STOP YOUR ENGINE," "IT IS UNLAWFUL TO DISPENSE GASOLINE INTO PORTABLE CONTAINERS," and "THE DISPENSING OF GASOLINE SHALL BE DONE BY A PERSON HOLDING A VALID DRIVERS LICENSE OR A PERSON 18 YEARS OF AGE OR OLDER" be conspicuously posted in clear view of the customer at the dispensing island; portable fire extinguishers be provided and, in type, quantity and location, be acceptable to the Fire Commissioner; all dispensing devices and fire suppression systems be approved by the Board and be installed in accordance with the requirements of the laboratory upon which the approval is based; the suppression system be arranged in a manner so as to cover an area around each pump encompassed by a circle having a radius equal to the maximum extendable length of the hose and nozzle of said pump; the installation and use of coin-operated dispensing devices for fuel be prohibited; there be constant contact between the attendant in the control booth and the dispensing island by means of a voice intercommunication system that shall be maintained in a proper operating condition at all times; all controls, devices, fire suppression systems and firefighting equipment be maintained in good operating order at all times; a maintenance log be kept on the premises as per direction of the Fire Commissioner; all dispensing nozzles be of the automatic closing type without hold open latches; a list of emergency procedures and instructions be conspicuously posted in the immediate vicinity of the attendant's principal control location and said instructions be at the direction of the Fire Commissioner; the dispensing area be well lit for complete visual control at all times; the permit to operate

this station be for a term of five (5) years from the date of approval; all of the conditions of this resolution be conspicuously posted in the attendant's booth; there be no servicing or repair of motor vehicles on the premises; mirrors be provided that ensure that the person with the Certificate of Fitness in the control booth can readily see the people operating any of the further self-service devices and on further condition that the building, equipment, devices and controls conform to drawings filed with the application, substantial construction be completed within one (1) year and all applicable laws, rules and regulations be complied with; and

WHEREAS, on February 9, 1988, under BSA Cal. No. 61-82-A, the Board amended the resolution to grant an five (5) year extension of the term of the waiver, expiring July 7, 1992, on condition that a trained attendant with a Certificate of Fitness be on duty at all times to monitor the operation of the pumps and have no other duties while any self-service pump is in operation and be located in an enclosure separated from all other activities by partitions not less than seven (7) feet in height; the suppression system be arranged in a manner so as to cover an area around each pump encompassed by a circle having a radius equal to the maximum extendable length of the hose and nozzle of said pump and the gauges for the tanks serving the fire suppression system shall be positioned so as to be easily readable; manual switches be provided that actuate the fire suppression system and electrically disconnect the pumps and these switches be located adjacent to each other and within five (5) feet of the console that controls the self-service operation; the gasoline service station be operated in such a manner that minimizes traffic congestion; the windows and the glass panels of the control booth remain clear and unobstructed at all times; other than as amended the resolution be complied with in all respects and a new certificate of occupancy be obtained within one (1) year; and

WHEREAS, on September 28, 1999, under the subject calendar number, the Board waived its Rules of Practice and Procedure, reopened, extended the term of the variance for ten (10) years, expiring on July 7, 2007, and allowed 24-hour operation of the site on condition that the premises remain graffiti free at all times; all signs and landscaping be maintained in accordance with BSA approved plans; the premises be maintained in substantial compliance with the proposed drawings submitted with the application; other than as amended the resolution be complied with in all respects; and a new certificate of occupancy be obtained within one (1) year, by September 28, 2000; and

WHEREAS, on July 15, 2003, under the subject calendar number, the Board waived its Rules of Practice and Procedure and amended the resolution to permit a change in signage from a total of 129 square feet of illuminated signage to 65.5 square feet of illuminated signage and nine (9) square feet of non-illuminated signage for a total of 74.5 square feet of signage and extended the time to obtain a certificate of occupancy for two (2) years, by July 15, 2005, on condition that all work substantially conform to approved

MINUTES

plans filed with the application; the premises be maintained free of debris and graffiti; any graffiti located on the premises be removed within 48 hours; the above conditions and all conditions from prior resolutions appear on the certificate of occupancy; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and the Department of Buildings ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted; and

WHEREAS, on September 27, 2005, under the subject calendar number, the Board extended the time to obtain a certificate of occupancy for two (2) years, expiring July 15, 2007; and

WHEREAS, on March 13, 2007, under the subject calendar number, the Board extended the term of the variance for ten (10) years, expiring July 7, 2017, and extended the time to obtain a certificate of occupancy to December 13, 2007, on condition that the use substantially conform to approved plans filed with the application; the term of the grant expire on July 7, 2017; the above condition be listed on the certificate of occupancy; the fence around the site be repaired and maintained; shrubs be planted and maintained at the site; a certificate of occupancy be obtained within nine (9) months of the date of the grant; all conditions from prior resolutions not specifically waived by the Board remain in effect; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and the Department of Buildings ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted; and

WHEREAS, on November 24, 2009, under the subject calendar number, the Board waived its Rules of Practice and Procedure and extended the time to obtain a certificate of occupancy to November 24, 2011, on condition that the use and operation of the site complies with BSA-approved plans associated with the prior grant; and

WHEREAS, the prior term having expired, the applicant now seeks an extension of the term of the variance, first issued in 1953 under BSA Cal. No. 570-52-BZ, pursuant to ZR § 11-411; and

WHEREAS, ZR § 11-411 states:

Where no limitation as to the duration of the *use*²

1 The resolution incorrectly presents the term of the variance as July 7, 2006 and July 7, 2016. Review of the Board's history reflects that the prior term expired on July 7, 2007, pursuant to the resolution issued September 28, 1999, and, thus, was extended, by the March 2008 resolution, to July 7, 2017.

2 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

was imposed at the time of [the variance authorized by the Board of Standards and Appeals pursuant to the 1916 Zoning Resolution], such *use* may be continued. Where such *use* was authorized subject to a term of years, such *use* may be continued until the expiration of the term, and thereafter, the agency which originally authorized such *use* may, in appropriate cases, extend the period of continuance for one or more terms or not more than 10 years each. The agency may prescribe appropriate conditions and safeguards to minimize adverse effects of such *use* on the character of the neighborhood;

WHEREAS, at the public hearing, the Board raised concerns about the required landscaping, storage of trash, and the carwash operation, which was never approved by the Board, at the site; and

WHEREAS, in response, the applicant provided photographs demonstrating improved landscaping and fencing, as well as the removal of the carwash and associated water lines from the site; and

WHEREAS, by letter dated October 29, 2018, the Fire Department submitted a Letter of No Objection and stated that the automotive service station is current with its Fire Department permits for storage of combustible liquids, leak detection equipment, underground storage tank, and fire suppression (dry-chemical) system; and

WHEREAS, based upon its review of the record, the Board has determined that the requested waiver of the Board's Rules and extension of the term of the variance are appropriate with certain conditions as set forth below; and

Therefore it is Resolved, that the Board of Standards and Appeals *amends* the resolution, dated July 7, 1982, as amended through November 24, 2009, so that, as amended, this portion of the resolution reads "to grant an extension of the term of the variance for ten (10) years, expiring July 7, 2017; on condition that the use and operation of the site shall conform to drawings filed with this application marked "August 21, 2018"-Six (6) sheets; and *on further condition*:

THAT the term of this grant shall expire on July 7, 2027;

THAT landscaping shall be maintained as illustrated on the Board-approved plans and replaced as necessary;

THAT there shall be no banners or other signs permitted on the premises other than those shown on approved plans;

THAT the premises shall remain free of debris and graffiti;

THAT any graffiti located at the premises shall be removed within 48 hours;

THAT the above conditions shall be indicated on the certificate of occupancy;

THAT a revised certificate of occupancy shall be obtained within one (1) year;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by

MINUTES

the Board in response to specifically cited and filed DOB/other jurisdictional objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, October 30, 2018.

131-97-BZ

APPLICANT – Pryor Cashman LLP, for Ricky’s Bronx Property, LLC, owner; McDonald’s Corporation, lessee.

SUBJECT – Application June 29, 2016 – Amendment to re-instate and eliminate the term of a previously approved Variance (72-21) which permitted an eating and drinking establishment (UG 6) with an accessory drive-through facility, which expired on January 27, 2003; change the hours of operation, enlarge the existing building, and reduce the parking from 9 to 8 spaces; Waiver of the Rules. R1-2 zoning district.

PREMISES AFFECTED – 1600 Boston Road, Block 2967, Lot 42, Borough of Bronx.

COMMUNITY BOARD #3BX

ACTION OF THE BOARD – Granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta...4

Negative:0

Absent: Chair Perlmutter1

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure, an extension of the term of a variance previously granted by the Board, which expired on January 27, 2003, and an amendment of the same; and

WHEREAS, a public hearing was held on this application on July 17, 2018, after due notice by publication in *The City Record*, with continued hearings on September 13, 2018, and October 30, 2018, and then to decision on October 30, 2018; and

WHEREAS, the subject site is located on the southeastern corner of Boston Road and Seabury Place, in an R1-2 zoning district, in the Bronx; and

WHEREAS, the site has approximately 114 feet of frontage along Boston Road, 102 feet of frontage along Seabury Place, 12,917 square feet of lot area and is occupied by one-story eating and drinking establishment with accessory drive-through facilities; and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 27, 1998, when, under the subject calendar number, the Board granted a variance, pursuant to ZR § 72-21, to permit the replacement of an existing non-conforming eating and drinking establishment (Use Group (“UG”) 6), with a new eating and drinking establishment with accessory drive-through facilities (UG 6)

and accessory parking for ten (10) cars which does not conform to district use regulations, on condition that all work substantially conform to approved-plans filed with the application; fencing and landscaping be provided and maintained in accordance with BSA-approved plans; sidewalks and curb cuts be installed and maintained in accordance with BSA-approved plans; garbage pick-ups be limited to weekday daytime hours; signage be limited in accordance with BSA-approved plans; the hours of operation of the drive-through be limited to 7:00 a.m. to 11:00 p.m. Monday through Friday, and 7:00 a.m. to 12:00 a.m. Saturday and Sunday; the term of the variance be limited to five (5) years, to expire on January 27, 2003; security personnel be provided if necessary; the above conditions appear on the certificate of occupancy; the development, as approved, is subject to verification by the Department of Buildings (“DOB”) for compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under the jurisdiction of the Department; and substantial construction be completed within four (4) years, by January 27, 2002; and

WHEREAS, the term of the variance having expired, the applicant seeks a ten (10) year extension of the term of the variance as well as an amendment to permit changes to the hours of operation, enlarge the existing building, and reduce the number of parking spaces; and

WHEREAS, specifically, the applicant seeks an amendment to the variance to change the hours of operation to permit a 24-hour 7 days per week operation of the drive-through window; to enlarge the existing building horizontally by 249 square feet to meet ADA requirements; and, to reduce the number of parking spaces from nine (9) to eight (8); and

WHEREAS, the applicant represents that the additional square footage will require a redesign of the interior layout, but will not increase the number of seats in the restaurant and that, on average, only seven (7) parking spots are utilized during peak times; and

WHEREAS, additionally, the applicant requests a waiver, pursuant to § 1-14.2 of the Board’s Rules of Practice and Procedure, of Rule § 1-07.3(b)(4)(ii) to permit the filing of this application more than ten (10) years after the expiration of the term; and

WHEREAS, the applicant initially requested the elimination of the term, but in light of the Board’s concerns regarding the late filing of this application, evidence of extraneous signage on the premises contrary to the previously approved plans and the applicant’s submission that the drive-through facility currently operates in excess of the limited hours of operations set forth in the 1998 Resolution, the applicant subsequently revised the application to seek a ten (10) year term; and

1 The resolution states that ten (10) accessory parking spaces were permitted, but the approved plans indicate the provision of only nine (9) accessory parking spaces onsite.

MINUTES

WHEREAS, at hearing, the Board expressed concerns regarding number of reservoir spaces provided for the drive-through, non-conforming signage located at the site, the appearance of landscaping and the screening of noise and light from the subject site and drive-through menu board in proximity to the adjacent residential properties; and

WHEREAS, in response, the applicant provided detailed landscaping plans, a revised signage analysis showing compliance with C-1 zoning regulations and additional noise attenuation measures, specifically, the applicant's proposal includes installing noise reducing fences on the south and east lot lines, and four (4) planting zones around the subject site including six (6) to eight (8) feet tall evergreen shrubs; and

WHEREAS, additionally, at the September 13, 2018, public hearing, an adjoining residential neighbor and member of a local homeowner's association stated that the lighting is beneficial in that it provides lighting in their residential backyards, and that the applicant has been very responsive to the neighbors' concerns regarding the operation of the site; and

WHEREAS, the Board finds that a reinstatement and ten (10) year extension of the term of the variance, originally granted in 1998, and amendments to the variance with regard to the hours of operation, horizontal enlargement, and number of parking spaces are appropriate with conditions previously imposed by the Board and with certain conditions as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals waives Rule § 1-07.3(b)(4)(ii) of its Rules of Practice and Procedure, reopens and amends the resolution, dated January 27, 1998, so that as amended this portion of the resolution reads: "to grant an extension of the term of the variance for a term of ten (10) years from the date of this amended resolution, to expire on October 30, 2028, to permit a horizontal extension of 249 square feet, modify the hours of operation to permit 24-hour seven (7) days per week operation of the drive-through, and reduce the number of accessory off-street parking spaces to eight (8) on condition that all work and site conditions shall comply with drawings filed with this application marked "Received October 30, 2018"-Fourteen (14) sheets; and on further condition:

THAT landscaping and noise-reducing fencing shall be installed on-site in accordance with BSA-approved plans and maintained and replaced as needed;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years;

THAT all conditions from prior resolution not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the

Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, October 30, 2018.

197-05-BZ

APPLICANT – Law Offices of Marvin B. Mitzner LLC, for Broadway Realty LLC, owner.

SUBJECT – Application April 27, 2018 – Amendment of a previously approved variance (§72-21) which permitted the construction of an 11-story mixed-use building with ground floor commercial. The amendment seeking to permit a 4'9" by 28' bump out at the rear of the building; Extension of Time to Complete construction which expires on April 29, 2019. C6-1/R7 zoning district.

PREMISES AFFECTED – 813 Broadway, Block 563, Lot(s) 33 & 34, Borough of Manhattan.

COMMUNITY BOARD #2M

ACTION OF THE BOARD – Granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta...4

Negative:0

Absent: Chair Perlmutter1

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated June 8, 2018, acting on Department of Buildings ("DOB") Application No. 123238317, reads in pertinent part:

Plan filed for approval of amendment do not conform to the previously granted BSA resolution # 197-05-BZ; and

WHEREAS, this is an application for reopening, to amend a variance, previously granted by the Board pursuant to ZR § 72-21, and for an extension of time to complete construction, which expired on April 29, 2018; and

WHEREAS, a public hearing was held on this application on August 7, 2018, after due notice by publication in *The City Record*, with a continued hearing on September 27, 2018, and then to decision on October 30, 2018; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown, and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 2, Manhattan, states that it has no objection to the subject application; and

WHEREAS, the site is located on the west side of Broadway, between East 11th Street and East 12th Street, in a C6-1 zoning district, in Manhattan; and

WHEREAS, the site is comprised of two (2) tax lots with approximately 50 feet of frontage, 100 feet of depth and 5,029 square feet of lot area; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 1, 2008, when, under the subject calendar number, the Board granted a variance, pursuant to ZR § 72-21, to permit the construction of an 11-story mixed-

MINUTES

use building with ground floor commercial space and 40 dwelling units that does not comply with zoning regulations relating to residential floor area ratio (“FAR”), open space ratio, height, setback, and dwelling count, contrary to ZR §§ 23-142, 33-432, and 23-22, on condition that all work substantially conform to approved plans filed with the application; the total FAR of the development be limited to 6.0, with a residential FAR of 5.6 and a commercial FAR of 0.4; the street wall of the building be limited to a height of 129’-8” and the open space be limited to a minimum of 2,022 square feet (seven (7) percent open space ratio (“OSR”)); other bulk parameters of the building be as indicated on the BSA-approved plans; the interior layout and all existing requirements be as reviewed and approved by the Department of Buildings (“DOB”); the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; the approved plans be considered approved only for the portions related to the specific relief granted; the DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted; and

WHEREAS, on January 12, 2010, under the subject calendar number, the Board reopened and amended the resolution to permit the addition of a second elevator, a sub-cellar, and other related plan changes on condition that all work substantially conform to approved plans filed with the application; the residential FAR be limited to 5.6 and the commercial FAR be limited to 0.4; the use of the cellar be strictly limited to accessory storage associated with the first floor Use Group (“UG”) 6; the cellar not be generally accessible from the UG 6 use except for storage purposes; and all conditions from prior resolutions not specifically waived by the Board remain in effect; and

WHEREAS, on April 29, 2014, under the subject calendar number, the Board waived its Rules of Practice and Procedure and extended the time to complete construction to April 29, 2018, on condition that the use and operation of the site comply with BSA-approved plans associated with the prior grant; substantial construction be completed by April 29, 2018; and all conditions from the prior resolution not specifically waived by the Board remain in effect; and

WHEREAS, the applicant now seeks further amendment of the variance to permit a 2 foot by 28 foot bump out at the rear of the building, and additionally seeks an extension of time to complete construction; and

WHEREAS, the applicant represents that the proposed change to the plans was caused by a need for the building to comply with the 2014 NYC Building Code, which required a redesign of the stair width and larger elevators, and a construction accident at 809 Broadway, immediately adjacent to the premises, that damaged and partially collapsed the wall of the building located on tax lot 34, that requires the relocation of the building core; and

WHEREAS, the applicant represents that the proposed amendment to the variance will allow the dwelling units to

remain of similar size and value, as previously approved by the Board, with no change to the maximum FAR and floor area previously approved by the Board; and, a proposed partial rear extension will maintain the proposed complying 39’-9” rear yard; and

WHEREAS, over the course of the hearings, the Board noted that the proposed plans submitted with this application included additional detailing on the roof—including elevator and mechanical bulkheads—absent from the deductions approved in connection with the prior resolution and requested that the proposed plans be revised to remove errant floor area deductions and reduce the stair and elevator bulkheads; and

WHEREAS, the applicant made these requested changes in satisfaction of the Board’s request; and

WHEREAS, based on the foregoing, the Board finds that the requested amendment does not alter the Board’s findings made for the original variance, specifically, the proposed variance, as amended, continues to reflect the minimum variance, and has determined that the request to amend the 2008 Resolution to permit a bump out at the rear of the building is appropriate with certain conditions as set forth below; and

WHEREAS, the applicant is also requesting an extension of time to complete construction that expired on April 29, 2018; and

WHEREAS, the applicant represented that the delay in construction was due to a concrete blowout at the adjacent construction site in March 2016, causing a wall collapse at the subject site, resulting in difficulties in securing financing and stoppage of construction activities; and

WHEREAS, the applicant requested a two (2) year extension of time to complete construction; and

WHEREAS, the Board expressed concern that no construction activities have commenced yet on the site and that granting further extensions of time would allow for the completion of construction more than a decade after the original grant of the variance without vesting, thus, conditions this approval on it being the final approval for an extension of time to complete construction for the subject proposed development; and

WHEREAS, based upon its review of the record, the Board finds that a four (4) year extension of time to complete construction is appropriate with certain conditions, as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated July 1, 2008, as amended through April 29, 2014, so that as amended this portion of the resolution shall read: “to permit a 2 foot by 28 foot extension at the rear of the building, *on condition* that any and all work shall substantially conform to drawings as filed with this application, marked ‘Received October 18, 2018’ - Twenty-five (25) sheets; and *on further condition*:

THAT the total FAR of the development is limited to 6.0, with a maximum residential FAR of 5.6 and a maximum commercial FAR of 0.4;

THAT there shall be no change to the sellable floor area or FAR previously approved by the Board, as indicated on

MINUTES

BSA-approved plans;

THAT substantial construction shall be completed by April 29, 2022;

THAT the use of the cellar shall be strictly limited to accessory storage associated with the first floor Use Group 6 use;

THAT the cellar shall not be generally accessible from the Use Group 6 use except for storage purposes;

THAT no further extensions of time to complete construction of the subject development shall be granted by the Board;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years of this amendment;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, October 30, 2018.

35-09-BZ

APPLICANT – Kramer Levin Naftalis & Frankel LLP, for Direct Supply Co. Inc., owner.

SUBJECT – Application July 17, 2018 – Extension of Term (§11-411) of a previously approved variance which permitted the operation of a contractors’ establishment (UG 16B) which expires on June 9, 2019. R7A zoning district. PREMISES AFFECTED – 345-347 East 103rd Street, Block 1675, Lot(s) 21, 22, Borough of Manhattan.

COMMUNITY BOARD #11M

ACTION OF THE BOARD – Granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta...4

Negative:0

Absent: Chair Perlmutter1

THE RESOLUTION –

WHEREAS, this is an application an extension of the term of a variance, previously granted by the Board; and

WHEREAS, a public hearing was held on this application on October 30, 2018, after due notice by publication in *The City Record*, and then to decision on that same date; and

WHEREAS, by letter dated October 23, 2018, the Chair of Community Board 11, Manhattan, states that the Community Board supports the subject application; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and the surrounding neighborhood; and

WHEREAS, the subject site is comprised of two contiguous tax lots located on the north side of East 103rd Street, between First Avenue and Second Avenue, in an R7A zoning district, in Manhattan; and

WHEREAS, the site has approximately 50 feet of frontage along East 103rd Street, 101 feet of depth, 5,000 square feet of lot area and is occupied by a two-story contractors’ establishment; and

WHEREAS, the Board has exercised jurisdiction over the subject site since December 20, 1938 when, under BSA Cal. No. 958-38-BZ, the Board granted a variance to permit the use of part of an existing two-story building, formerly occupied with a stable in the cellar and first floor and residential dwelling above, to be used as a garage for more than five (5) cars, limited to the first story only, on condition that in all other respects, except as to zone use, the building comply with all laws, rules and regulations applicable thereto; no gasoline storage be maintained on the premises other than in tanks of cars; the cellar remain vacant except that that portion below the existing store may be used in conjunction therewith, provided that such portion of the cellar is separated from the balance of cellar with fireproof construction with no openings therein; and that all permits be obtained and all work be completed within one (1) year; and

WHEREAS, on June 20, 1950, under BSA Cal. No. 958-38-BZ, the Board amended the December 20, 1938, resolution, permitting a change of use on the first floor of the building to a motor vehicle repair shop, as indicated on approved plans filed with the application, for a term of five (5) years, on condition that in all other respects the resolution adopted by the Board on December 20, 1938, be complied with where not inconsistent with the amendment; in all other respects the building and occupancy comply with all laws, rules and regulations applicable thereto, except as modified by the Board; that such repair work be mainly with hand tools, precluding all heavy repair and the use of forge or anvil; and all permits required be obtained and all work completed within six (6) months from the date of the amended resolution; and

WHEREAS, on June 19, 1953, under BSA Cal. No. 958-38-BZ, the Board amended the resolution to permit the change in use of a portion of the first floor of the premises occupied by a store to a motor vehicle repair shop in conjunction with the adjoining building on Lot 21, previously permitted to be utilized as a motor vehicle repair shop in 1950, for a term of five (5) years from June 19, 1953, and to extend the time for such building from the date of this amended resolution for the use as proposed, and as indicated on approved plans filed with the application, and to permit the proposed occupancy in connection with the adjoining building for the same use under the same tenancy, on condition that the building not be increased in height or area; there not be any windows constructed on the side or

MINUTES

rear lot lines other than those then existing; the floor of the building be surfaced with concrete; the cellars under both buildings not be used except as stated; such portable firefighting appliances be maintained as the Fire Commissioner directs; all permits be obtained and all work completed within six (6) months from the date of the resolution and a certificate of occupancy be obtained; and

WHEREAS, on February 4, 1958, under BSA Cal. No. 958-38-BZ, the Board extended the term of the variance for five (5) years, expiring February 4, 1963, on condition that the resolution be otherwise complied with in all respects; and that all permits, including a new certificate of occupancy, be obtained and all work completed by February 4, 1959; and

WHEREAS, on May 24, 1966, under BSA Cal. No. 958-38-BZ, the Board extended the term of the variance for five (5) years, expiring May 24, 1971, and amended the resolution to permit the use of the premises as a contractor's establishment under Use Group 16, on condition that the resolution be otherwise complied with in all respects; and a certificate of occupancy be obtained; and

WHEREAS, on October 5, 1971, under BSA Cal. No. 958-38-BZ, the Board extended the term of the variance for five (5) years, expiring May 24, 1976, on condition that other than as amended the resolution be complied with in all respects and a new certificate of occupancy be obtained; and

WHEREAS, on March 1, 1977, under BSA Cal. No. 958-38-BZ, the Board reopened and extended the term of the variance for five (5) years, expiring March 1, 1982, on condition that other than as amended the resolution be complied with in all respects and a certificate of occupancy be obtained by March 1, 1978; and

WHEREAS, on June 9, 2009, under the subject calendar number, the Board reinstated the prior approval of a contractors' establishment (UG 16) and legalized and permitted the extension of the contractors' establishment to the second floor of the subject building, on condition that any and all work substantially conform to approved drawings filed with the application; the permit be for a term of ten years, to expire on June 9, 2019, the use be limited to an electrical, glazing, heating, painting, paper hanging, plumbing, roofing or ventilating contractor's establishment; the conditions be listed on the certificate of occupancy; a certificate of occupancy be obtained by December 9, 2009; all conditions from prior resolutions not specifically waived by the Board remain in effect; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; the approved plans be considered approved only for the portions related to the specific relief granted; and the Department of Buildings ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, on February 23, 2010, under the subject calendar number, the Board granted an 18-month extension

of time to obtain a certificate of occupancy, to expire on August 23, 2011, on condition that the use and operation of the site comply with BSA-approved plans associated with the prior grant; and on further condition that all conditions from prior resolutions not specifically waived by the Board remain in effect; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and the Department of Buildings ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted; and

WHEREAS, the prior term set to expire, the applicant now seeks an extension of the term of the variance, first issued in 1938, pursuant to ZR § 11-411; and

WHEREAS, ZR § 11-411 states:

Where no limitation as to the duration of the *use* was imposed at the time of [the variance authorized by the Board of Standards and Appeals pursuant to the 1916 Zoning Resolution], such *use* may be continued. Where such *use* was authorized subject to a term of years, such *use* may be continued until the expiration of the term, and thereafter, the agency which originally authorized such *use* may, in appropriate cases, extend the period of continuance for one or more terms or not more than 10 years each. The agency may prescribe appropriate conditions and safeguards to minimize adverse effects of such *use* on the character of the neighborhood;

WHEREAS, the applicant submitted Certificate of Occupancy No. 110008688F, issued to the subject site April 25, 2012, and represents that there has been no change in use of the site or of the built floor area; and

WHEREAS, based upon its review of the record, the Board has determined that the requested extension of the term of the variance are appropriate with certain conditions as set forth below; and

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution dated June 9, 2009, as amended through February 23, 2010, so that, as amended, this portion of the resolution reads "to grant an extension of the term of a variance permitting, on a site located within an R7A zoning district, the operation of a contractors' establishment for a term of ten (10) years, to expire on June 9, 2029, *on condition* that site conditions shall comply with BSA-approved plans associated with the prior grant, marked "Received August 29, 2018" —five (5) sheets"; and *on further condition*:

THAT the term of this grant shall expire on June 9, 2029;

THAT the use shall be limited to an electrical, glazing, heating, painting, paper hanging, plumbing, roofing or

MINUTES

ventilating contractor's establishment;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT a revised certificate of occupancy shall be obtained within one (1) year;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdictional objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted."

Adopted by the Board of Standards and Appeals, October 30, 2018.

309-09-BZ

APPLICANT – Eric Palatnik, P.C., for Yong Lin, owner.
SUBJECT – Application April 20, 2018 – Extension of Time to Complete Construction of a previously approved Variance (§72- 21) to permit construction of a four-story (three levels and a basement) eight-unit multiple dwelling that does not provide a required side yard, contrary to ZR § 23-51 which expired on May 3, 2015; Amendment to permit a height increase from an approved 34'-8" to 37'-8"; Waiver of the Rules. C2-3/R5 and R6A zoning districts.
PREMISES AFFECTED – 2173 65th Street, Block 5550, Lot 40, Borough of Brooklyn.

COMMUNITY BOARD #11BK

ACTION OF THE BOARD – Granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta...4

Negative:0

Absent: Chair Perlmutter1

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board's Rules of Practice and Procedure, reopening, an extension of time to complete construction pursuant to a previously granted variance, which expired on May 3, 2015, and an amendment to the same; and

WHEREAS, a public hearing was held on this application on September 13, 2018, after due notice by publication in *The City Record*, with a continued hearing on October 30, 2018, and then to decision on that date; and

WHEREAS, Community Board 11, Brooklyn, recommends approval of this application on condition that there be no commercial or community facility use at the subject site; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of

the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the north side of 65th Street, between Bay Parkway and 21st Avenue, partially in an R5 zoning district and partially in an R6A(C2-3) zoning district, in Brooklyn; and

WHEREAS, the site has approximately 24 feet of frontage, a depth of 100 feet, 2,400 square feet of lot area and is vacant; and

WHEREAS, the Board has exercised jurisdiction over the subject site since May 3, 2011, when, under the subject calendar number, the Board granted a variance, pursuant to ZR § 72-21, to permit the construction of a four- (4) story (three (3) levels and a basement) eight- (8) unit multiple dwelling that does not provide a required side yard, contrary to ZR § 23-51, on condition that any and all work substantially conform to approved plans filed with the application; the parameters of the proposed building be as follows: a maximum of 6,240 square feet of floor area (2.6 floor area ratio ("FAR")); a lot coverage of 65 percent; a rear yard with a minimum depth of 35'-0"; and a wall height and total height of 34'-8", as per the BSA-approved plans; the internal floor layouts on each floor of the proposed building be subject to DOB review and approval; there be no habitable room in the cellar; the approval be limited to the relief granted by the Board, in response to specifically cited and filed DOB/other jurisdiction objection(s) only; the approved plans be considered approved only for the portions related to the specific relief granted; significant construction proceed in accordance with ZR § 72-23; and the Department of Buildings ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, pursuant to ZR § 72-23, a variance granted under the provisions of the Zoning Resolution automatically lapses if substantial construction, in accordance with the plans for which such variance was granted, has not been completed within four (4) years from the date of granting such variance by the Board of Standards and Appeals; and

WHEREAS, accordingly, the time to substantially complete construction pursuant to the 2011 variance grant expired on May 3, 2015; and

WHEREAS, the time for substantial construction to have been completed having expired, the applicant seeks the subject relief; and

WHEREAS, the applicant additionally requests a waiver, pursuant to § 1-14.2 of the Board's Rules of Practice and Procedure, of Rule § 1-07.3(c)(3) to permit the filing of this application less than four (4) years after the expiration of the time to complete construction; and

WHEREAS, the applicant submits that the commencement of construction at the site has been delayed because the current owner purchased the property on October 24, 2014, seven (7) months before the required time to complete construction, and the owner could not develop construction plans, obtain permits, and complete substantial construction prior to the expiration of the grant; and

MINUTES

WHEREAS, in addition, the applicant stated their full commitment to building this development in a timely manner and represented that hardship would result should the owner not be allowed to construct pursuant to the Board's original grant; and

WHEREAS, based upon its review of the record, the Board finds that a four (4) year extension of time to complete construction is appropriate with certain conditions, as set forth below; and

WHEREAS, the applicant additionally requests an amendment to the variance, granted on May 3, 2011, as it relates to building height; specifically, the applicant seeks to increase the building's height from 34'-8" to 37'-4", by raising the basement level to grade; and

WHEREAS, the applicant states that, the increase in height to 37'-4" is compliant with ZR § 23-693, as it was amended after the original grant and now permits a building height of 45 feet as-of-right in this zoning district and, as such, would not increase the building's floor area, unit count, lot coverage, and would not require any additional waivers; and

WHEREAS, over the course of the hearings, the Board raised concerns regarding the degree of return the owner will enjoy as a result of the increase in height and whether this proposed building still meets the findings required for a variance, specifically, whether the proposal to replace studio units located in the basement, partially below grade, to one-bedroom units at grade provides more than a reasonable return pursuant to ZR § 72-21(b); and

WHEREAS, in response, the applicant stated that the elevator has been removed from the proposed building and it is now a walk-up, two (2) ADA-accessible apartments are located on the ground floor at grade, the cost savings associated with the removal of the elevator are balanced out by lower sales prices of the walk-up apartments and, thus, there is no change in the financial return; and

WHEREAS, based on the foregoing, the Board has determined that the request to amend the previously granted variance with regard to the building height is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* Rule § 1-07.3(c)(3) of its Rules of Practice and Procedure *reopens* and *amends* the resolution, dated May 3, 2011, so that as amended this portion of the resolution reads: "to grant a four (4) year extension of time to complete construction to October 30, 2022, *on condition* that all work shall substantially conform to drawings filed with this application marked "August 23, 2018"—Twelve (12) sheets; and *on further condition*:

THAT substantial construction shall be completed by to October 30, 2022, as evidenced by an inspection and determination by the Department of Buildings;

THAT the parameters of the proposed building shall be as follows: a maximum of 6,240 square feet of floor area (2.6 FAR); a maximum lot coverage of 65 percent; a rear yard with a minimum depth of 35 feet; and a maximum wall height and total height of 37 feet and four (4) inches, as per the BSA-approved plans;

THAT the above conditions shall be recorded on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, October 30, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Deputy Borough Commissioner, dated September 5, 2017, acting on Department of Buildings Application No. 520307659 reads in pertinent part:

GCL 36, BC 501.3.1: The street giving access to proposed building is not duly placed on the official map of the City of New York therefore:

- A) No Certificate of Occupancy can be issued pursuant to Article 3, Section 36 of General City Law;
- B) Proposed construction does not have at least 8% of the total perimeter of building fronting directly upon a legally mapped street of frontage space contrary to section 501.3.1 of the 2014 NYC Building Code; and

WHEREAS, this is an application to permit the construction of a one-story Use Group (“UG”) 17A warehouse building with frontage on Industrial Loop, a private paved street not duly placed on the official New York City map, contrary to General City Law (“GCL”) § 36; and

WHEREAS, a public hearing was held on this application on May 1, 2018, after due notice in *The City Record*, with continued hearings on June 19, 2018, August 14, 2018, and August 21, 2018, and then to decision on October 30, 2018; and

WHEREAS, Community Board No. 3, performed an inspection of the site and the surrounding area; and

WHEREAS, Community Board 3, Staten Island, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of Industrial Loop approximately 750 feet northwest of the intersection of Industrial Loop and Arthur Kill Road, in an M1-1 zoning district and the Special South Richmond Development District, on Staten Island; and

WHEREAS, the site has approximately 108 feet of frontage along Industrial Loop, 20,361 square feet of lot area

MINUTES

and is occupied by a one-story garage, two storage containers and three open lumber sheds, all of which will be demolished to facilitate the proposed development; and

WHEREAS, by letter dated September 19, 2017, the Office of the Staten Island Borough President states that Industrial Loop is a private road with no title or opinion of dedication to the City of New York; and

WHEREAS, the Office of the Staten Island Borough President waived any further comment with respect to this application; and

WHEREAS, by letter dated October 12, 2018, the New York City Department of Environmental Protection (“DEP”) states that there is an 8-inch diameter private water main in Industrial Loop to the north of Arthur Kill Road; there are no sewers in Industrial Loop at the subject location; no existing water mains or sewers are crossing the subject lot; the Storm Water and Sanitary Drainage Management Plan for South Richmond, Sheet 2 of 7, TD-7, dated March 27, 2003, does not show future sewers at the subject location; the applicant submitted a copy of the certified Site Connections Proposal SCP # 9576, Phase 17, which shows an 8-inch diameter sanitary connection and dry wells for storm discharge; that it is anticipated that the existing private water main and water connection to the private main and the proposed sanitary and storm drains as per the Site Connection Proposal will be maintained by the owners/members of the Arthur Kill Association and will not be maintained by the City of New York; and based on the above, DEP has no objection to the subject application; and

WHEREAS, the applicant provided a Declaration of maintenance, dated January 26, 1995, executed by the Arthur Kill Association, Ltd. (the “Declarant”), recorded at Reel 5901, Page 43-47, stating, *inter alia*, that an easement for ingress and egress was established for the benefit of the Declarant and all adjoining landowners pursuant to a Declaration of easement dated April 9, 1985, and recorded April 20, 1985, in Reel 41, page 6694-6704 and that the Declarant shall maintain the easement, including paving, repairing, surfacing, re-surfacing, snow removal, clearance of all debris and all work otherwise necessary to maintain the easement for ingress and egress; the Declarant agrees to maintain in good and effective working condition the fire hydrants, fire alarm system, the storm drainage system, electricity, telephone, natural gas and water lines; the Declarant indemnifies and holds harmless the City of New York against any claims that may result from the use, maintenance, inspection, repair and/or replacement of the street hydrants, fire alarm system, the storm drainage system, electricity, telephone, natural gas, water lines, and tree, sod and shrub planting as required by the City Planning Declaration, CPCN840612, paragraph “A,” approved August 11, 1993; and that the Declarant agrees that any conveyance by, for or on behalf of the Declarant, his heirs, successors or assigns shall contain a provision to obligate the grantee or heirs, successors or assigns of said Declarant to maintain the existing street, hydrants, fire alarm systems, storm drainage systems, electricity, telephone, natural gas, water lines and

tree, sod and shrub planting as required by City Planning Declaration, CPCN840612, paragraph “A”, approved August 11, 1993, and to indemnify and hold harmless the City of New York from any claims whatsoever which may arise from the failure to adequately maintain or use the existing street, hydrants, fire alarm system, and storm drainage system, electricity, telephone, natural gas, water lines and tree, sod and shrub planting as required by City Planning Declaration, CPCN840612, paragraph “A”, August 11, 1993; and

WHEREAS, the applicant submits that the proposed building will comply with all applicable zoning regulations, including but not limited to those relating to floor area, floor area ratio, lot coverage, open space, height and off-street accessory parking spaces, and be fully sprinklered; and

WHEREAS, the applicant states that Industrial Loop is paved to a width of approximately 38 feet and that the subject site will be accessed by a 20-foot curb cut; and

WHEREAS, at hearing, the Board expressed concerns regarding the absence of a sidewalk at the subject premises and requested that the proposed building be set back from the street in order to provide a continuous sidewalk along Industrial Loop; and

WHEREAS, in response, the applicant revised the plans to show a 5-foot wide sidewalk at the premises and continuity of the same with adjacent sidewalks; and

WHEREAS, the Board has determined that the applicant has submitted adequate evidence to warrant approval of the application subject to certain conditions set forth herein.

Therefore it is Resolved, that the decision of the Department of Buildings dated September 5, 2017, acting on DOB Application No. 520307659, is modified by the power vested in the Board by Section 36 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked “Received June 26, 2018”-Seven (7) sheets; that the proposal will comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT sidewalks shall be provided at the subject premises and be continuous with existing sidewalks on the immediately adjacent tax lots, as indicated on the Board-approved plans;

THAT Arthur Kill Association, Ltd. shall maintain the existing private water main, water connection to the private main and the proposed sanitary and storm drains as per the certified Site Connections Proposal SCP # 9576, Phase 17;

THAT the subject building be fully sprinklered, as indicated on the Board-approved plans;

THAT a certificate of occupancy, indicating this approval and calendar number (“BSA Cal. No. 2017-276-A”) shall be obtained within four (4) years, by October 30, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by DOB;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other

MINUTES

applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 30, 2018.

2017-282-A

APPLICANT – Law Office of Steven Simicich, for Lera Property Holdings, LLC, owner.

SUBJECT – Application May 22, 2018 – Proposed construction of three, two family detached buildings where one of the houses will not be fronting on a mapped street contrary to General City Law 36. R3X Special South Richmond District.

PREMISES AFFECTED – 148 Sprague Avenue, Block 7867, Lot 52, Borough of Staten Island.

COMMUNITY BOARD #3SI

ACTION OF THE BOARD – Granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta...4

Negative:0

Absent: Chair Perlmutter1

THE RESOLUTION –

WHEREAS, the decision of the Deputy Borough Commissioner, dated September 27, 2017, acting on Department of Buildings Application No. 520308532 reads in pertinent part:

GCL 36, BC 502.1: The street giving access to proposed building is not duly placed on the official map of the City of New York therefore:

(A) No Certificate of Occupancy can be issued pursuant to Article 3, Section 36 of General City Law;

(B) Proposed construction does not have at least 8% of the total perimeter of building(s) fronting directly upon a legally mapped street or frontage space contrary to section 502.1 of the 2014 NYC Building Code; and

WHEREAS, this is an application to permit the construction of a two-family detached residence on a site with frontage on Sprague Avenue, an improved street not duly placed on the official New York City map, contrary to General City Law (“GCL”) § 36; and

WHEREAS, a public hearing was held on this application on May 22, 2018, after due notice in *The City Record*, with a continued hearing on August 14, 2018, and then to decision on October 30, 2018; and

WHEREAS, Commissioner Scibetta performed an inspection of the site and the surrounding area; and

WHEREAS, Community Board 3, Staten Island, recommends disapproval of this application due to the reliance of the original submission on tandem parking at the site, the proposed residence’s reliance on a 200-foot-long driveway that must also be utilized by an adjacent residence, the

proposal of new private driveway easement and the applicant’s failure to obtain a utility pole plan confirming that any new utility poles would not interfere with an existing home on nearby Petunia Court; and

WHEREAS, the subject site is located on the east side of Sprague Avenue, between George Street and Keppel Avenue, in an R3X zoning district and the Special South Richmond Development District, on Staten Island; and

WHEREAS, the subject tax lot is a flag-shaped lot with approximately 21 feet of frontage along Sprague Avenue, a depth of 85 feet at the northern lot line, a depth of 199 feet at the southern lot line and 11,218 square feet of lot area; and

WHEREAS, the subject tax lot is the result of a subdivision of former tax lot 50, which was subdivided into three tax lots (Tax Lots 50, 52 and 53) and two zoning lots consisting of Tax Lots 52 and 53 (“Zoning Lot 1”) and Tax Lot 50 (“Zoning Lot 2”); and

WHEREAS, the applicant provided a subdivision diagram, stamped “Approval Accepted with Self Certification of Objection” on August 11, 2017, under DOB Job No. 520291899 showing the subdivision of former tax lot 50 into Zoning Lot 1, with 4,491 square feet of lot area, and Zoning Lot 2, having 15,290 square feet of lot area; and

WHEREAS, Tax Lots 50 and 53 are also proposed to be developed, each with one two-family residence, but as each of those tax lots have frontage on Sprague Avenue, the applicant has not requested any waivers GCL § 36 with regards to those lots; and

WHEREAS, by letter dated October 27, 2017, the Staten Island Office of the New York City Department of City Planning (“DCP”) communicated approval of applications for certification by the Chair of the City Planning Commission to DOB that sufficient school capacity exists to accommodate the total of six dwelling units proposed to be developed on Zoning Lot 1 and Zoning Lot 2 pursuant the ZR § 170-121 and the subdivision of former tax lot 50 into Zoning Lot 1 and Zoning Lot 2 pursuant to ZR § 107-8; and

WHEREAS, by letter dated November 16, 2017, the Office of the Staten Island Borough President states that Sprague Avenue at the subject site has a record width of 50 feet, does not appear on the final New York City map and is the subject of an Opinion of Dedication as-in-use for 50 feet dated May 20, 1998; and

WHEREAS, the applicant submits that the two-family residence proposed on the subject tax lot—and the two two-family residences total proposed on Zoning Lot 1—will comply with all applicable zoning regulations, including those relating to required yards, distance between buildings and parking spaces, and that the residence proposed on the subject tax lot will be fully sprinklered; and

WHEREAS, the applicant represents that the subject tax lot will be accessed from a curb cut on Sprague Avenue and a 20-foot easement, located wholly on the subject tax lot, which will provide access to the parking spaces provided for the four total units located on Zoning Lot 1 and widens to a width of 30 feet immediately in front of the subject proposed two-family residence; and

MINUTES

WHEREAS, by communication dated May 11, 2018, the Office of the Staten Island Borough President requested that the Board confirm unobstructed access to the subject tax lot from the nearest mapped street; that the Fire Department sign off on the applicability of the Fire Code with respect to the total distance from the nearest mapped street to the termination of the 20-foot-wide driveway accessing the structure from the unmapped street; that the Board address access to proposed garage structures pursuant to GCL § 36(2); that ingress and egress easement be memorialized in the resolution and recorded in the Office of the County Clerk; that the Staten Island Topographical Bureau's requirement to post house number signage along the Sprague Avenue frontage for the residence proposed on the subject tax lot be memorialized in the resolution to maximum public safety and emergency response times; and that the Board address the curb to curb pavement of Sprague Avenue to ensure that there will be no street cuts along unmapped streets being relied upon for additional access pursuant to the GCL § 36 exemption; and

WHEREAS, in response to those comments, the applicant submits that unobstructed access to the subject tax lot is provided from Hylan Boulevard, a mapped street located approximately 777 south of the subject tax lot along Sprague Avenue; cited a Fire Department signoff as confirmation of compliance of the proposed plans with the Fire Code; removed the proposed garage from the site plan and agreed to the easement being included in the resolution and to provide house number signage; and

WHEREAS, the Board confirms that the plans approved herein do not indicate access to the subject tax lot from any unmapped streets other than Sprague Avenue; and

WHEREAS, in response to the Community Board's comments regarding the proposal for two tandem parking spaces located in front of a one-car garage on the subject tax lot, for a total of three tandem parking spaces for a two-family residence, the applicant removed a one-car garage from the site plan for the subject tax lot, leaving two tandem parking spaces, and located a third parking space at the far eastern portion of the subject tax lot, directly adjacent and parallel to two parking spaces proposed on tax lot 53, located on the same zoning lot; and, concerning the Community's Board's comment regarding a utility pole plan, the applicant submits that all utilities will be run underground and, thus, no utility pole will be required for the subject development; and

WHEREAS, by letter date April 2, 2018, the New York City Department of Environmental Protection ("DEP") states that there is an 8 inch diameter City water main and a 10 inch diameter sanitary, 24 inch diameter and 30 diameter storm sewers in Sprague Avenue at the subject location; the drainage plan showing location, sizes and grades of sanitary and storm sewers in the Borough of Richmond, Sheet 3 of 6, shows future 10 inch diameter and 18 inch/21 inch diameter storm sewers in Sprague Avenue between Keppel Avenue and George Street; that the sanitary and storm for the residence proposed for the subject tax lot will be discharged as per the Self-Certified House Connection Proposal (HCP) ID #7430, dated November 21, 2017; that all sanitary storm and water

connections for the three two-family residences proposed on Tax Lots 50, 52 and 53 will be maintained by the owners and will not be maintained by the City of New York; and that based on the aforementioned, DEP has no objections to the subject application; and

WHEREAS, in response to the Board's request that the applicant provide an explanation, pursuant to GCL § 36(2), of how the enforcement of the provision "would entail practical difficulty or unnecessary hardship," the applicant submits that absent the requested relief, the subject two-family residence could not be constructed, despite Zoning Lot 1 being of sufficient size, under the Zoning Resolution, to accommodate two two-family residences, and that construction on the two-family residence located on tax lot 53 has already commenced, preventing the reconfiguration of the lot to accommodate two two-family residences that would not require waivers of GCL § 36; and

WHEREAS, the Board has determined that the applicant has submitted adequate evidence to warrant approval of the application subject to certain conditions set forth herein.

Therefore it is Resolved, that the decision of the Department of Buildings dated September 27, 2017, acting on DOB Application No. 520308532, is modified by the power vested in the Board by Section 36 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked "Received October 30, 2018"-One (1) sheet; that the proposal will comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT the residence shall be full sprinklered;

THAT a permanent easement shall be recorded permitting emergency vehicle access across all lots leading to the subject development;

THAT no parking shall be permitted at any time along the entire length of the driveway easement with signs posted as required in Fire Code Section 503.2.7.2;

THAT a formal restrictive declaration citing the parking restrictions shall be filed against the subject site;

THAT a sign shall be posted from Sprague Avenue at the entrance to the private driveway indicating the house number ("148 Sprague Avenue"), as indicated on the Board-approved plans;

THAT the residence shall comply with all applicable provisions of the Zoning Resolution, including, but not limited to, those relating to yards, distance between buildings and parking spaces;

THAT the sanitary and storm for the shall be discharged as per the Self-Certified House Connection Proposal (HCP) ID #7430, dated November 21, 2017;

THAT all sanitary storm and water connections shall be maintained by the owners and will not be maintained by the City of New York;

THAT prior to the issuance of any certificate of occupancy, including a temporary certificate of occupancy, a restrictive declaration shall be recorded in the Office of the

MINUTES

City Register in Richmond County against the subject tax lot substantially conforming to the form and substance of the following:

DECLARATION made this ____ day of _____ in the year 2018, by RANDY FRANZA, Member – LERA Property Holdings, LLC, hereinafter referred to as the “Declarant,” with a principal office at 4073 Victory Boulevard, Staten Island, NY 10314;

WHEREAS, the Declarant is the fee owner of certain land located in the City and State of New York, Borough of Staten Island, designated as Block 7867 Lot 52, on the Tax Map of the City of New York, hereinafter referred to as Parcel A (the “Subject Premises”), more particularly described by a metes and bounds description set forth in Schedule A annexed hereto and by this reference made a part hereof;

WHEREAS, the Declarant has requested the New York City Board of Standards and Appeals (the “BSA”) act upon BSA Cal. Nos. 2017-282-A, Block 7861 Lot 52, to appeal the decisions of the Staten Island Borough Commissioner, as follows pursuant to Article III, Section 36 of the General City Law, denying permits on the basis that the street giving access to the proposed building is not duly placed on the official map of the City of New York; and

WHEREAS, the BSA requires Declarant to execute and file this restrictive declaration against Block 7867 Lot 52 prior to obtaining a Certificate of Occupancy for the Subject Premises;

NOW, THEREFORE, in consideration of BSA approval to allow the proposed construction of a two-family residence not fronting on a legally mapped street, contrary to General City Law 36, Declarant does hereby declare that Declarant and his successors and/or assigns shall legally be responsible for operating and maintaining the Subject Premises in compliance with the following restrictions of the FDNY’s approved plan and Letter of No Objection dated October 30, 2017, and that such compliance shall be subject to enforcement by the Fire Commissioner;

FURTHER, in consideration of BSA approval to allow the proposed construction of a two-family residence not fronting on a legally mapped street, contrary to General City Law 36, Declarant does hereby declare that Declarant and his successors and/or assigns shall maintain the driveway easement in a good state of repair and cleanliness, including but not limited to the following:

- a) Maintaining the paved surfaces of the street in good repair;
- b) Maintaining street lights in good working order;
- c) Assuring that street lights operate during hours

of darkness;

- d) Replacing street lights when needed;
- e) Snow plowing at such times as the accumulated snow falls in any 12-hour period exceed two inches;
- f) Maintaining any required storm and sanitary drainage systems in a clear, workable and efficient manner;
- g) Maintaining all required utilities located under the driveway in good working order;

FURTHER, in consideration of BSA approval to allow the proposed construction of a two-family residence not fronting on a legally mapped street, contrary to General City Law 36, Declarant does hereby declare an easement declaration set forth in Schedule C to allow for access to parking required for the development on adjacent Lot 53, hereinafter referred to as Parcel B more particularly described by a metes and bounds description set forth in Schedule B annexed hereto and by this reference made a part hereof;

WHEREAS, a diagram marked Schedule D showing the two above referenced properties, the boundaries of each and a cross-hatched portion indicating the area of the driveway easement is attached hereto and made a part hereof, said driveway easement being more particularly described by a metes and bounds description set forth in Schedule C annexed hereto and by this reference made a part hereof;

NOW, THEREFORE, in consideration of the issuance by the BSA of a GCL 36 approval for the Subject Premises, Declarant does hereby declare, create, impose and establish the following:

1. The driveway easement shall be used to permit and enable present and future owners of said parcels, their heirs, guests and emergency service vehicles and assigns to pass over the lands of Parcel A for the purpose of ingress and egress to and from Parcel B, to and from Sprague Avenue and the front of said parcels for pedestrian, motor vehicle use and Fire Department access;
2. The driveway easement shall at all times be maintained and kept clear and unobstructed; the owner of Parcel A, their successors and assigns shall maintain the driveway at all times throughout the life of the proposed housing development; should the owner of Parcel A serviced by the driveway fail to repair, maintain or reconstruct the driveway, then the owner of Parcel B shall have the right, but not the obligation, to repair, maintain or reconstruct the driveway and the owner of Parcel A shall reimburse such owner for the cost thereof;
3. This declaration may not be modified,

MINUTES

amended or terminated without the prior written consent of the BSA;

4. The covenants set forth herein shall run with the land and be binding upon and inure to the benefit of the parties hereto and their respective heirs, legal representatives, successors and assigns;
5. Failure to comply with the terms of this declaration may result in the revocation of a building permit or Certificate of Occupancy as well as any other authorization or waiver granted by the BSA;
6. Premise identification signage shall be placed at the intersection of the driveway easement and Sprague Avenue;
7. Signs stating "No Parking Fire Access Road" shall be mounted on four-foot-high posts or fence along the perimeter of the driveway easement; and
8. This declaration shall be recorded at the City Register's/County Clerk's office against the Subject Premises and the cross-reference number and title of the declaration shall be recorded on each temporary and permanent certificate of occupancy hereafter issued to any building located on the subject premises and in any deed for the conveyance thereof;

THIS DECLARATION IS ONLY EFFECTIVE UPON APPROVAL BY THE BOARD OF STANDARDS AND APPEALS;

THAT a certificate of occupancy shall be obtained within four (4) years, by October 30, 2022, and shall cross-reference the subject calendar number ("BSA Cal. No. 2017-282") and the number and title of the above referenced filed declaration;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by DOB;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 30, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated April 15, 2015, acting on DOB Application No. 320597314, reads in pertinent part:

ZR 42-00: Proposed residential building Use Group 2 is not permitted as-of-right in an M1-1 zoning district as per ZR Section 42-00 and therefore requires a variance from the Board of Standards and Appeals pursuant to ZR Section 72-21; and

WHEREAS, this is an application under ZR § 72-21 to permit, on a site located in an M1-1 zoning district, the

MINUTES

development of a four-story plus cellar four-family residential building, contrary to ZR § 42-00; and

WHEREAS, a public hearing was held on this application on February 13, 2018, after due notice by publication in *The City Record*, with continued hearings on May 1, 2018, July 17, 2018, September 27, 2018, and then to decision on October 30, 2018; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 3, Brooklyn, recommends waived its review and recommendation of the subject proposal; and

WHEREAS, the subject site is located on the west side of Walworth Street, between Park Avenue and Myrtle Avenue, in an M1-1 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 25 feet of frontage along Walworth Street, depth of 100 feet, 2,500 square feet of lot area and is currently vacant; and

WHEREAS, the applicant proposes to develop the site with a four-story plus cellar Use Group 2 multi-family residence with four dwelling units, 5,602 square feet of floor area, a floor area ratio ("FAR") of 2.24, a base height of 43'-6" and a building height of 52'-6"; and

WHEREAS, at the subject site, residential use is not permitted pursuant to ZR § 42-00; and

WHEREAS, accordingly, the applicant seeks the subject relief; and

WHEREAS, the applicant submits that, pursuant to ZR § 72-21(a), the small size and narrow width of the site are unique physical conditions that create a practical difficulty and unnecessary hardship in developing the site in conformance with the underlying district regulations because the small footprint of the subject site renders it inadequate for modern manufacturing use; and

WHEREAS, the applicant submitted a study of 88 lots within 400 feet of the subject premises and an M1-1 zoning district, not including the subject site (the "Study Area"), demonstrating that 41 of the lots (approximately 47 percent) are owned and/or utilized in common with at least one other adjacent lot, 20 lots (approximately 23 percent) are wider and/or have greater lot area than the subject site; 19 lots (approximately 22 percent) are the same size or smaller than the subject site and occupied by non-conforming uses; 4 lots (approximately 5 percent) are the same size or smaller than the subject site and occupied by conforming uses; and 4 lots (approximately 5 percent) are the same size or smaller than the subject site and currently vacant; and

WHEREAS, the applicant submits that the small percentage of sites in the Study Area similar in size to the subject site developed with conforming uses, the predominant occupation of similarly sized sites in the Study Area with residential uses (19 out of 27, approximately 70 percent) evidences the unsuitability of the subject site for a conforming use; and

WHEREAS, in addition, the applicant states that the site was developed with a residential building as early as

1950s such building was demolished between 1965 and 1977, evidenced by historic Sanborn Maps submitted into the record, and the site has remained vacant since; and

WHEREAS, the Board finds that the small size and narrow width of the site are unique conditions that create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, in satisfaction of ZR § 72-21(b), the applicant states that there is no reasonable possibility that a conforming development at the site will bring a reasonable return and, in support of that contention, submitted a financial analysis for (1) an as-of-right one-story manufacturing development and (2) the subject proposal; and

WHEREAS, the financial analyses submitted with the application conclude that only the subject proposal will generate a reasonable return, approximately 5 percent, while the as-of-right development will result in a loss of approximately 64 percent of the projected development costs; and

WHEREAS, upon review of the applicant's submissions, the Board finds, in accordance with ZR § 72-21(b), that due to the site's unique physical conditions, there is no reasonable possibility that a development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant submits that the subject proposal will not substantially impair the appropriate use or development of adjacent properties and will not be detrimental to the public welfare in accordance with ZR § 72-21(c); specifically, the applicant's study evidences that the lots on either side of the subject site are currently or are in the process of being developed with educational institutes and that 13 of the 40 other lots located on the subject tax block (approximately 33 percent) and 11 of the 29 other lots with frontage along this block of Walworth Street (approximately 38 percent) are occupied by residential uses; and

WHEREAS, in response to the Board's concerns that the height of the building was inconsistent with building heights in the immediate area, the applicant revised the proposal by setting the fourth floor back from the street, reducing the bulk of the rooftop bulkhead and reducing the floor-to-floor, base and total building heights from 11'-4" to 10 feet, 48'-10" to 43'-6" and 57'-10" to 52'-6", respectively; and

WHEREAS, the Board finds that the subject proposal will neither alter the essential character of the neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant represents, and the Board finds, that the hardship claimed as grounds for the variance was not created by the owner or a predecessor in title in accordance with ZR § 72-21(d); and

WHEREAS, the applicant submits that the subject proposal is the minimum variance necessary to afford relief

MINUTES

because it is the only scenario that provides a reasonable return; and

WHEREAS, the Board finds that the subject proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (“EAS”) CEQR No. 15BSA196K, dated April 9, 2018; and

WHEREAS, the EAS documents that the project, as currently proposed, would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, by letter dated March 27, 2018, the New York City Department of Environmental Protection (“DEP”) states that it has reviewed the February 2018 Remedial Action Plan (“RAP”) and Construction Health and Safety Plan (“CHASP”) submitted by the applicant’s consultant and finds the February 2018 RAP and CHASP acceptable so long as the applicant removed/revised references in the February 2018 RAP to the Mayor’s Office of Environmental Remediation regarding submittals and, upon completion of the project, a Professional Engineer certified Remedial Closure Report—indicating that all remedial requirements have been properly implemented (i.e., installation of vapor barrier, transportation/disposal manifests for removal and disposal of soil in accordance with NYSDEC regulations, and two feet of DEP approved certified clean fill/top soil capping requirement in any landscaped/grass covered areas not capped with concrete/asphalt, etc.)—is submitted to DEP for review and approval; and

WHEREAS, the applicant subsequently provided a revised RAP from which references to the Mayor’s Office of Environmental Remediation regarding submittals had been excised; and

WHEREAS, DEP additionally reviewed the subject proposal with regards to air quality and noise and, by letter dated April 2, 2018, states that it has concluded that the proposed project would not result in any significant adverse impacts with regards to either; and

WHEREAS, the New York City Landmarks Preservation Commissioner (“LPC”) reviewed the proposal and indicated that the subject site is of neither architectural nor archaeological significance; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact

on the environment.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 to permit, on a site located in an M1-1 zoning district, the development of a four-story plus cellar Use Group 2 multi-family residential building with four dwelling units, contrary to ZR § 42-00; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received October 11, 2018”-Eight (8) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum of 5,602 square feet of residential floor area (2.24 FAR), a maximum base height of 43’-6”, a maximum building height of 52’-6” and a maximum of four dwelling units;

THAT balconies or window cages projecting onto the street shall not be permitted;

THAT no sleeping and/or cooking shall be permitted in the cellar;

THAT the cellar shall only be used as accessory to the dwelling units located above;

THAT upon completion of the project, a Professional Engineer certified Remedial Closure Report—indicating that all remedial requirements have been properly implemented (i.e., installation of vapor barrier, transportation/disposal manifests for removal and disposal of soil in accordance with NYSDEC regulations, and two feet of DEP approved certified clean fill/top soil capping requirement in any landscaped/grass covered areas not capped with concrete/asphalt, etc.)—shall be submitted to DEP for review and approval;

THAT substantial construction shall be completed pursuant to ZR § 72-21;

THAT a certificate of occupancy, indicating this approval and calendar number (“BSA Cal No 89-15-BZ”) shall be obtained with four (4) years;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 30, 2018.

THE RESOLUTION –

WHEREAS, the decision on behalf of the Queens Borough Commissioner, dated October 8, 2014, acting on Department of Buildings (“DOB”) Application No. 420944697, reads in pertinent part:

Respectfully request that the proposed ambulatory diagnostic or treatment health care facility (UG4) in excess of 1500 sq. ft. located in an R3X zoning district which is contrary to ZR 22-14 and requires a Special Permit from the Board of Standards and Appeals pursuant to ZR 73-125 be permitted; and

WHEREAS, this is an application under ZR § 73-125 and 73-03 to permit, in an R3X zoning district, the enlargement and conversion of a two-family dwelling to a Use Group (“UG”) 4 ambulatory diagnostic or treatment health care facility having 4,569 square feet of floor area, contrary to ZR § 22-14; and

WHEREAS, a public hearing was held on this application on July 12, 2016, after due notice by publication in *The City Record*, with continued hearings on September 13, 2016, November 1, 2016, February 28, 2017, May 16, 2017, August 22, 2017, October 31, 2017, January 23, 2018, April 17, 2018, June 26, 2018, August 14, 2018, August 21, 2018, and then to decision on October 30, 2018; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 11, Queens, expressed concerns regarding the number of exam rooms proposed at the premises, the sufficiency of the number of parking spaces provided; the sufficiency of landscaping at the site to buffer it from surrounding occupancies; the lack of ADA-compliance in the building; the reliance of access to the site from the narrower 45th Avenue;

WHEREAS, the subject site is located on the southwestern corner of Francis Lewis Boulevard and 45th Avenue, in an R3X zoning district, in Queens; and

WHEREAS, the site has approximately 80 feet of

frontage along Francis Lewis Boulevard, 74 feet of frontage along 45th Avenue, 6,087 square feet of lot area and is currently occupied by a two-story plus cellar two-family residential building; and

WHEREAS, the applicant proposes to enlarge the existing building, resulting in a two-story plus cellar and basement UG 4 ambulatory diagnostic or treatment health care facility building having 4,569 square feet of floor area; and

WHEREAS, at the subject site, UG 4 ambulatory diagnostic or treatment health care facilities are limited to a maximum of 1,500 square feet of floor area pursuant to ZR § 22-14; and

WHEREAS, accordingly, the applicant seeks the subject relief; and

WHEREAS, ZR § 73-125 reads, in pertinent part, as follows:

73-125

Ambulatory diagnostic or treatment health care facilities

In R3A, R3X, R3-1, R4A, R4B or R4-1 Districts, excluding *lower density growth management areas*, the Board of Standards and Appeals may permit ambulatory diagnostic or treatment health care facilities listed in Use Group 4, limited in each case to a maximum of 10,000 square feet of *floor area*, provided that the Board finds that the amount of open spaces and its distribution on the *zoning lot* conform to standards appropriate to the character of the neighborhood.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-00 et seq.; and

WHEREAS, the Board additionally notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit to minimize the adverse effects of the special permit upon other property and the community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board recognizes that the subject site is in an R3X zoning district, wherein a special permit pursuant to ZR § 73-125 is available; and

WHEREAS, the applicant originally proposed to maintain the two-family residential use, occupy a 3,979 square foot enlargement with the UG 4 ambulatory diagnostic or treatment health care facility and provide 12 off-street accessory parking spaces, including ten for the community facility use; and

WHEREAS, in the course of hearings, the Board

MINUTES

expressed concerns regarding the amount of open space provided on the lot and whether it was consistent with the amount of open space provided in the neighborhood in satisfaction of ZR § 73-125, particularly because a majority of the open space provided in the original proposal was covered by driveways and parking; the necessity and location of three proposed curb cuts; the existing residential occupancy being compromised by the bulk of the proposed enlargement; whether there was enough space on the site to support the proposed mixed uses, specifically, whether the site was large enough to allow for the maneuverability of cars into and out of the off-street accessory parking spaces, and whether the design of the façade of the 45th Avenue frontage of the enlargement was cohesive and consistent with neighborhood character; and

WHEREAS, in response to the Board's concerns and those raised by Community Board 11, the applicant revised the proposal to eliminate residential use at the site; reduced the size of the enlarged building from 6,086 square feet to 4,569 square feet of floor area; increased the number of off-street accessory parking spaces from 12 to 15 attended spaces; relocated 13 parking spaces from the open space surrounding the proposed enlargement to the basement; reoriented the building to be accessed solely from Francis Lewis Boulevard; eliminated one of the proposed curb cuts on 45th Avenue; added landscaping along each of the lot lines and around the enlargement to buffer the parking from surrounding residential uses; added a 6-foot-tall opaque wood fence along the southern and western edges of the site to prevent the future expansion of the parking area into areas intended to be landscaped; added street trees to the site plan 25 feet apart and 40 feet from the corner pursuant to New York City Department of Parks and Recreation's standards; and indicated that the façade of the building would be treated with brick veneer, a more appropriate material for the surrounding neighborhood; and

WHEREAS, with regard to ZR § 73-03(a), the applicant submits that the hazards or disadvantages to the community at large of the subject special permit use at the site are outweighed by advantages to be derived by the community by the grant of the special permit and that no adverse effects on the privacy, quiet, light and air in the neighborhood are foreseeable; and

WHEREAS, in relation to ZR § 73-03(b), the applicant state that the proposed enlargement and community facility use will not interfere with any public improvement project that is approved or pending before the City Council, Site Selection Board or City Planning Commission; and

WHEREAS, ZR § 73-03(c) through (g) are inapplicable to the subject application because ZR § 73-125 does not require the Board to determine whether the special permit use is appropriately located in relation to the street system as stated in ZR § 73-03(c); that ZR § 73-125 is not one of the sections expressly named in ZR § 73-03(d); there is no term of years specified in ZR § 73-125 that would render ZR § 73-03(e) applicable; the subject application is not for a renewal of a special permit, as contemplated in ZR § 73-03(f); and the subject application is not for an enlargement or extension of

an existing use, as described in ZR § 73-03(g); and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYC Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 15BSA110Q, dated November 10, 2014; and

WHEREAS, in light of the foregoing, the Board has determined that the that the evidence in the record supports the requisite findings pursuant to ZR § 73-125; and

WHEREAS, the Board further finds that the subject use will not alter the essential character of the surrounding neighborhood nor will it impair the future use and development of the surrounding area and that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR § 73-03.

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby issue a Type II determination under 6 NYCRR 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-125 and 73-03 to permit, in an R3X zoning district, the enlargement and conversion of a two-family dwelling to a Use Group 4 ambulatory diagnostic or treatment health care facility having 4,569 square feet of floor area, contrary to ZR § 22-14, *on condition* that all work shall substantially conform to drawings filed with this application marked "Received October 29, 2018"--Twelve (12) sheets; and *on further condition*:

THAT all signage at the site shall be limited to the pylon sign indicated on the approved plans;

THAT there shall be no signage along the 45th Avenue frontage of the subject site;

THAT the landscaping and fencing indicated on the approved plans shall be maintained and replaced as necessary;

THAT there shall be no parking permitted on the sidewalks;

THAT the 15 off-street accessory parking spaces shall be attended parking;

THAT the proposed curb cuts on the approved plans shall be as approved by the New York City Department of Buildings and/or the New York City Department of Transportation;

THAT no EFIS shall be utilized for any façade of the building;

THAT substantial construction shall be completed in accordance with ZR § 73-70;

THAT a certificate of occupancy, indicating this approval and the subject calendar number ("BSA Cal No 302-14-BZ"), shall be obtained within four (4) years;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s);

MINUTES

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 30, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Borough Commissioner, dated November 16, 2017, acting on Department of Buildings (“DOB”) Application No. 321679224, reads in pertinent part:

Proposed physical culture establishment in a C2-3/R5 zoning district (OP) district is contrary to Section 32-10 ZR and must be referred to the BSA pursuant to 73-36 ZR; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, on a site located partially in an R5 zoning district and partially in an R5/C2-3 zoning district and in the Special Ocean Parkway District and partially in the Special Ocean Parkway Subdistrict, a physical culture establishment (“PCE”) on the cellar level, basement, and mezzanine of a proposed commercial building consisting of a cellar, basement, and mezzanine level, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on August 7, 2018, after due notice by publication in *The City Record*, with a continued hearing on October 30, 2018, and then to decision on that same date; and

WHEREAS, Community Board 12, Brooklyn, recommends approval of this application; and

WHEREAS, the Board was in receipt of one (1) form letter in support of this application; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and

surrounding neighborhood; and

WHEREAS, the subject site is located on the east side of McDonald Avenue, between Avenue M and Avenue N, in a partially in an R5 zoning district and partially in an R5/C2-3 zoning district and in the Special Ocean Parkway District and partially in the Special Ocean Parkway Subdistrict, in Brooklyn; and

WHEREAS, the site has approximately 280 feet of frontage on McDonald Avenue, 112 feet of depth, 31,360 square feet of lot area, and is occupied by an existing one- (1) story commercial building on the northern portion of the lot, and will also be occupied by a proposed two- (2) story plus cellar commercial building in which the subject PCE will be located; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* 1 is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, the Board notes that, because no portion of the subject PCE is represented as being located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant submits that the proposed PCE will occupy 52,304 square feet of gross floor area at the subject site; 22,400 square feet of floor space on the cellar level with a restaurant, lounge areas, offices, storage rooms, changing rooms, locker rooms, bathrooms, a food prep room, and laundry room; 22,400 square feet of floor area on the basement floor with tanning rooms, baths, saunas, therapy rooms, a jacuzzi, and a 1,750 square foot large swimming pool; 3,304 square feet of floor area on the mezzanine with storage; and 267 square feet of floor area on the roof with access from the PCE to 37 accessory off-street parking spaces; and

WHEREAS, the applicant represents that the proposed PCE will operate as “World Spa” and will be open daily from 8:00 a.m. to 12:00 a.m.; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because the PCE will be located in a mixed-use commercial and residential area and fits with the essential character of the surrounding area; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant represents that the PCE will

facilities for practice of massage by New York State licensed masseurs or masseuses, as well as a 1,750 square foot large swimming pool; and

WHEREAS, accordingly, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant submits that the PCE space will be protected with a wet sprinkler system, and an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, and a connection of the interior fire alarm system to an FDNY-approved central station—will also be installed within the PCE space; and

WHEREAS, by letter dated July 27, 2018, the Fire Department submitted a letter of no objection to the application with conditions, stating that applications have been filed with the DOB and the status of the applications is as follows: Fire Alarm System (Alt. II 321780676) – application processed entire 2/15/18; Alteration Type II (Alt. II 321780667) – application processed entire 2/15/18; Place of Assembly (PA 321671268) – application has been pre-filed and not formally submitted to the DOB for review; the Fire Department requests that the Board direct the applicant to file the place of assembly application for review, and requests that the applicant fully submit the plans and applications with the DOB for review; once the application has been filed, the Licensed Public Place of Assembly Unit (LPPA) can track the approval process and issue any orders if an operating permit is not obtained from the DOB; Fire Prevention will assist the applicant of record for the fire alarm application for review and approval; and, once the plans have been approved, the fire alarm installer will be responsible for scheduling a test date with the Fire Alarm Inspection Unit (FAIU) in the Bureau of Fire Prevention; both LPPA and FAIU have been notified of the place of assembly and fire alarm application for the PCE and will issue any violation orders if approvals and permits are not obtained; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood on account that it will be located entirely within a commercial building and will be surrounded by other commercial properties; and the operator will turn off the rooftop lights when the PCE is not operating; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community and that the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as an Unlisted

MINUTES

action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Environmental Assessment Statement (“EAS”) Short Form CEQR No. 18-BSA-072K, received December 29, 2017; and

WHEREAS, the EAS documents that the project, as proposed, would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, on January 23, 2018, under Control No. 53303, the applicant obtained a DOB Zoning Resolution Determination Form (“ZRD1”) approval with conditions for consideration of the proposed site as a two- (2) story building with a basement and mezzanine for zoning purposes such that off-street parking spaces are permitted to be located on the roof over the basement portion of the proposed building, in compliance with ZR § 36-11, on condition that no parking space be located on the roof of the building directly above the mezzanine; all of the parking spaces be located within 30 feet in height from base plane elevation; and parapet walls be not more than four (4) feet in height from the roof level; and

WHEREAS, over the course of the public hearings, the Board raised concerns over the light spread of the rooftop parking illumination and the effect it may have on nearby residential properties; and

WHEREAS, in response, the applicant amended the plans to adjust the heights of the parapet wall and lights; and

WHEREAS, the Board notes that this is an application for a special permit pursuant to ZR §§ 73-36 and 73-03 to permit a PCE at the subject site and the Board is not granting any relief with regards to off-street accessory parking at the subject site; to the extent that the proposed off-street accessory rooftop parking is permitted at the site pursuant to all applicable regulations, the Board has instituted conditions pertaining to the maintenance of the parking lot—including a requirement that all rooftop lights be turned off when the PCE is closed, roll down gates be used to prevent access to the rooftop parking during off-hours and that parking be accessory to the PCE use only—as a part of this grant to protect the surrounding neighborhood and community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for

the special permit pursuant to ZR §§ 73-36 and 73-03 and that permitting the subject PCE space proposed on the cellar level, basement and mezzanine the proposed building, is appropriate, with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located partially in an R5 zoning district and partially in an R5/C2-3 zoning district and in the Special Ocean Parkway District and partially in the Special Ocean Parkway Subdistrict, a physical culture establishment on the cellar level, basement and mezzanine of the proposed commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received October 30, 2018”—Ten (10) sheets; and *on further condition*:

THAT the term of the PCE grant shall expire on October 30, 2028;

THAT the maximum permitted hours of operation shall be 8:00 a.m. to 12:00 a.m.;

THAT any change in hours of operation shall require application to and approval from the Board;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance under Local Law 58/87 shall be as reviewed and approved by DOB;

THAT a sprinkler system shall be installed and maintained as indicated on the Board-approved plans;

THAT an approved fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and a connection to an FDNY-approved central station—shall be installed and maintained within the PCE space;

THAT minimum 3-foot-wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT a place of assembly permit shall be obtained;

THAT rooftop lighting for the accessory parking shall be provided as per approved plans;

THAT the perimeter lights on the rooftop parking shall be located not higher than three (3) feet;

THAT the parking lot shall be striped;

THAT rooftop parking lights shall be turned off when the PCE is closed;

THAT a roll down gate, preventing access to the rooftop parking, shall be closed when the PCE is closed;

THAT parking on site shall be accessory to the PCE only;

THAT no parking space shall be located on the roof of the building directly above the mezzanine;

MINUTES

THAT all parking spaces shall be located within 30 feet in height from the base plane;

THAT parapet walls shall not be more than four (4) feet in height from the roof level;

THAT trash shall be stored in the refrigerated trash room and removed to the street only prior to pick up;

THAT any changes in hours shall require application to and approval from the Board;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy indicating the subject calendar number (“BSA Cal. No. 2017-314-BZ”) shall be obtained within four (4) years, by October 30, 2022;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 30, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Deputy Borough Commissioner, dated October 19, 2017, acting on Department of Buildings (“DOB”) Application No. 123048558, reads in pertinent part:

Proposed Physical Culture Establishment [as defined in section ZR 12-10] is not permitted as of right in C5-3 and C1-9 zoning districts and is contrary to section ZR 32-10

Use as the physical culture health establishment in C5-3 and C1-9 zoning districts shall comply with regulation of section ZR 32-31 (uses permitted by special permit of the Board of Standards and Appeals); and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, on a site located partially within a C5-3 zoning district and partially within a C1-9 zoning district, in the Special Midtown District, a physical culture establishment (“PCE”) on portions of the cellar floor and first floor of an existing 43-story plus cellar commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on October 30, 2018, after due notice by publication in *The City Record*, and then to decision on that

MINUTES

same date; and

WHEREAS, Community Board 6, Manhattan, waived review of this application; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown, and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the southeast corner of Third Avenue and East 40th Street, partially within a C5-3 zoning district and partially within a C1-9 zoning district, in the Special Midtown District, in Manhattan; and

WHEREAS, the site has approximately 198 feet of frontage along Third Avenue, 244 feet of frontage long East 39th Street, 246 feet of frontage along East 40th Street, 48,258 square feet of lot area, and is occupied by a 43-story plus cellar commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, the Board notes that, because no portion of the subject PCE is represented as being located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application

to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and

- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant submitted evidence that the subject PCE occupies 539 square feet of floor area in a portion of the first floor dedicated to reception and access to the cellar level and 5,225 square feet of floor area in a portion of the cellar with a fitness area for treadmills, rowing machines, weights, and various exercise equipment, a floor space for training, restrooms, changing rooms, showers, an office, laundry, storage, and mechanical rooms; and

WHEREAS, the applicant represents that the PCE has been in operation since March 1, 2018, as Orangetheory Fitness, with the following hours of operation: Monday through Thursday, 5:00 a.m. to 9:00 p.m.; Friday, 5:00 a.m. to 8:00 p.m.; Saturday, 7:00 a.m. to 1:00 p.m.; Sunday, 8:00 a.m. to 2:00 p.m.; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because the PCE is located in an area with a mix of retail stores, offices and eating and drinking establishments and there are two (2) other PCEs in the immediate vicinity; and

WHEREAS, the applicant represents that, though the PCE space is separated from commercial uses in the subject building, that start on the second floor of the subject building, by existing demising walls, sound mitigation measures, including insulated walls and ceiling, a rubber floor system under the fitness and weight areas, and interior signage instructing patrons against dropping or throwing

MINUTES

weights, have been installed in the portions of the cellar floor occupied by the PCE to mitigate any adverse impacts of the use to other building tenants; specifically: a spring isolated gypsum acoustic ceiling; 1/4-inch thick rubber flooring in the fitness area; 1.5-inch thick rubber flooring in the area where weights are used; and the sound system processor includes output processing capabilities programmed to limit the overall system volume and maintain uniform sound levels between music and the microphones; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant submits that the PCE contains facilities for the provision of physical fitness instruction, including weight training and physical training on exercise machines and equipment; and

WHEREAS, accordingly, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant submits that an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, and a connection of the interior fire alarm system to an FDNY-approved central station—is installed within the PCE space, which is already equipped with a sprinkler system; and

WHEREAS, by letter dated October 29, 2018, the Fire Department submitted a letter of no objection to the application and confirmed that the fire alarm and sprinkler systems in the PCE space have been permitted and inspected by units in the Bureau of Fire Prevention; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood on account of its location entirely within the first floor and cellar of a commercial building in a commercial zoning district and that its patrons will consist of people who live and/or work in the immediate area and, thus, will not result in any significant increase in pedestrian or vehicular traffic to the site; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period in which the PCE has operated at the premises without a special permit; and

WHEREAS, the project is classified as a Type II

action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 18-BSA-046M, dated October 27, 2017; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to legalize, on a site located partially within a C5-3 and partially within a C1-9 zoning district, in the Special Midtown District, a physical culture establishment on a portion of the cellar and first floor of an existing 43-story plus cellar commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received May 18, 2018”—Six (6) sheets; and *on further condition*:

THAT the term of the PCE grant shall expire on March 1, 2028;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance under Local Law 58/87 shall be as reviewed and approved by DOB;

THAT the existing sprinkler system shall be maintained as indicated on the Board-approved plans;

THAT an approved fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and a connection to an FDNY-approved central station—shall be maintained within the PCE space;

THAT minimum 3-foot-wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT a Certificate of Occupancy shall be obtained within one (1) year, by October 30, 2019;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 30, 2018.

CEQR #18-BSA-084M

APPLICANT – Cutrona Architecture, PLLC, for 306-308 East 126th Street, LLC, owner.

SUBJECT – Application January 17, 2018 – Special Permit (§73-50) to permit the development of a two-story automotive repair building (UG 16B) contrary to ZR §43-302 (building does not provide the required 30-ft’ rear yard coincidental to a residential zoning district. M1-2 zoning district.

PREMISES AFFECTED – 306-308 East 126th Street, Block 1802, Lot(s) 45, 46, Borough of Manhattan.

COMMUNITY BOARD #11M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta...4

Negative:0

Absent: Chair Perlmutter1

THE RESOLUTION –

WHEREAS, the decision of the Deputy Borough Commissioner, dated January 10, 2018, acting on Job Application No. 123165733, reads in pertinent part:

ZR 43-302, ZR 73-50: Required 30 feet in depth rear yard is not provided for the proposed new building (automotive repair Use Group 16) in M1-2 Manufacturing District which coincides with the rear lot line of the zoning lot in the adjoining R7-2 Residence District that is contrary to regulations of section ZR 43-302.

Special provisions of sections ZR 43-30 applying along district boundaries may be waived in appropriate cases by the Board of Standards and Appeals [section ZR 73-50]; and

WHEREAS, this is an application pursuant to ZR § 73-50 to waive the rear yard requirements of ZR § 43-302; and

WHEREAS, a public hearing was held on this application on October 30, 2018, after notice by publication in *The City Record*, and then to decision on that date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 11, Manhattan, states that it has no objection to the granting of this application; and

WHEREAS, the subject site is located on the south side of East 126th Street, between First Avenue and Second Avenue, in an M1-2 zoning district, in Manhattan; and

WHEREAS, the site is comprised of two adjacent tax lots having approximately 50 feet of frontage along East 126th Street, 100 feet of depth and 4,996 square feet of lot area; and

WHEREAS, Certificate of Occupancy No. 120733956F was issued for lot 45 on February 6, 2012, for Use Group (“UG”) 16C dead storage of motor vehicles; and

WHEREAS, ZR § 73-50 reads, in pertinent part, as follows:

73-50

SPECIAL PROVISIONS APPLYING ALONG DISTRICT BOUNDARIES

In appropriate cases, for *zoning lots* with single frontage, the Board of Standards and Appeals may permit primary business entrances, *show windows*, or *signs* not otherwise permitted under the provisions of Section 32-51 or 42-44 (Limitations on Business Entrances, Show Windows or Signs), provided that in no case shall any such primary business entrance, *show window* or *sign* be permitted within 10 feet of a *Residence District* boundary.

In addition, in appropriate cases, the Board may waive the requirements for *rear yards* or *side yards* set forth in Sections 33-29 or 43-40 (SPECIAL PROVISIONS APPLYING ALONG DISTRICT BOUNDARIES) or the requirements for *front yards* as set forth in Section 34-233 (Special provisions applying along district boundaries) [. . .]; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-00 et seq.; and

WHEREAS, ZR § 43-302 reads as follows:

43-302

Required yards along district boundary coincident with rear lot lines of two adjoining zoning lots
M1 M2 M3

In all districts, as indicated, along such portion of the *rear lot line* of a *zoning lot* in a *Manufacturing District* which coincides with a *rear lot line* of a *zoning lot* in an adjoining *Residence District*, an open area not higher than *curb level* and at least 30 feet in depth shall be provided within the *Manufacturing District*. Such an open area shall not be used for storage or processing of any kind; and

WHEREAS, the Board additionally notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit to minimize the adverse effects of the special permit upon other property and the community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board recognizes that the subject site is in an M1-2 zoning district and its rear lot line coincides with the rear lot line of an adjoining Residence District (an R7-2 zoning district) such

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

that ZR § 43-302 is applicable and a waiver pursuant to ZR § 73-50 is available; and

WHEREAS, the applicant proposes to develop the subject site with a two-story UG 16 automotive repair building constructed full to the rear lot line; and

WHEREAS, at the subject site, an open area at the rear at least 30 feet deep is required pursuant to ZR § 43-302; and

WHEREAS, accordingly, the applicant seeks the subject relief; and

WHEREAS, the applicant states that the lot located immediately adjacent to its rear, within an R7-2 zoning district, is occupied by an exit ramp of the Robert F. Kennedy Bridge, thus, the special permit requested herein is appropriate because the subject site is not located adjacent to a residential use at its rear that would benefit from a 30 foot deep rear yard; and

WHEREAS, the applicant additionally submits that the lot directly to the west of the subject site, tax lot 47 in an M1-2 zoning district, is occupied by a non-conforming multi-family residential building, that the lot directly to the east, tax lot 43, is occupied by an automotive repair shop and that directly across the street from the subject site is an MTA bus depot, thus, the proposed use, which is permitted at the site as-of-right pursuant to ZR § 42-12, is consistent with the surrounding area and will not adversely affect the privacy, light and air of the immediate neighborhood in satisfaction of ZR § 73-03(a); and

WHEREAS, with regards to the residential building located on adjacent tax lot 47, to the west, the applicant represents that the subject development will be constructed of block with interior finishings that will prevent the travel of noise and notes that the proposed building will not share a party wall with the adjacent residential building and will have windows only at the front wall and not at the rear or the sides to further reduce the potential for adverse noise effects; and

WHEREAS, the applicant additionally submits that any ventilation required for the UG 16 occupancy of the proposed building will be situated to be adjacent to the existing automotive repair shop located to the east of the subject site on tax lot 43, rather than to the west, adjacent to the existing non-conforming residential building; and

WHEREAS, the applicant states that no rear yard is proposed at the subject site to maximize the floor plate of the proposed occupancy and reduce the height of the building; and

WHEREAS, the applicant submits that the accessory parking provided on the second floor of the proposed building will not be open to the public, but, rather, serve as a convenience for patrons having to leave their cars at the facility for repairs; and

WHEREAS, with regards to ZR § 73-03(b), the applicant states that the proposed development will not interfere with any public improvement project approve or pending before the City Council, Site Selection Board or City Planning Commission; and

WHEREAS, with regards to ZR § 73-03(c), the applicant states that while ZR § 73-50 does not require a finding that the special permit is appropriately located in relation to the street system, it is not anticipated that the elimination of a rear yard requirement at the subject site will have any negative impact on the surrounding streets; and

WHEREAS, ZR § 73-03(d) through (g) are inapplicable to the subject application because ZR § 73-50 is not one of the sections expressly named in ZR § 73-03(d); there is no terms of years specified in ZR § 73-50 that would render ZR § 73-03(e) applicable; the subject application is not for a renewal of a special permit, as discussed in ZR § 73-03(f) and the subject application is not for an enlargement or extension of an existing use, as described in ZR § 73-03(g); and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18-BSA-084M, dated January 18, 2018; and

WHEREAS, in light of the foregoing, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-50 and 73-03 and that a waiver of ZR § 43-302, pursuant to ZR § 73-50, is appropriate at the subject site; and

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby issue a Type II determination under 6 NYCRR 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rule of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-50 and 73-03 to permit, in an M1-2 zoning district, the construction of a development that does not provide an open area not higher than curb level and at least 30 feet in depth at the rear lot line, which coincides with a rear lot line of a zoning lot in an adjoining Residence District, contrary to ZR § 43-302; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked “Received July 12, 2018”-Nine (9) sheets; and *on further condition*:

THAT the sound attenuation of the western wall of the building, directly adjacent to a non-conforming residential building located on tax lot 47, shall meet the New York City Department of Environmental Protection’s STC minimum performance standards;

THAT ventilation- and noise-emitting elements shall be installed to be closer to the conforming building located to the east of the subject site, tax lot 43, than to the non-conforming residential building located immediately to the west, on tax lot 47;

THAT if a spray booth is provided in the subject development, it shall be operated in compliance with all applicable regulations;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, indicating this approval and calendar number (“BSA Cal. No. 2018-5-BZ”), shall be obtained within four (4) years, by October 30,

MINUTES

2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 30, 2018.

2018-60-BZ

CEQR #18-BSA-130M

APPLICANT – Rothkrug Rothkrug & Spector LLP, for Diamondrock NY Lex Owner, LLC, owner; Crunch LLC, lessee.

SUBJECT – Application April 27, 2018 – Special Permit (§73-36) to permit the operation of a Physical Cultural Establishment (*Crunch*) in portions of the cellar and first floor of an existing 27 story commercial building §32-10. C6-6 and C6-4.5 (MID) Designated as an Individual Landmark Building.

PREMISES AFFECTED – 511 Lexington Avenue, Block 1302, Lot 51, Borough of Manhattan.

COMMUNITY BOARD #8M

ACTION OF THE BOARD – Granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta...4

Negative:0

Absent: Chair Perlmutter1

THE RESOLUTION –

WHEREAS, the decision on behalf of the Manhattan Borough Commissioner, dated March 27, 2018, acting on Department of Buildings (“DOB”) Application No. 122372388, reads in pertinent part:

Proposed physical culture establishment in a C6-6(MiD) and C6-4.5(MiD) is contrary to Sections 32-10 ZR and 81-10 ZR and requires a special permit from the Board of Standards and Appeals; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, on a site located partially within a C6-6 zoning district and partially within a C6-4.5 zoning district, and in the Special Midtown District, a physical culture establishment (“PCE”) in portions of the cellar floor and first floor of an existing 27-story plus cellar and sub-cellar commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on October 30, 2018, after due notice by publication in *The City Record*, and then to decision on that same date; and

WHEREAS, Community Board 6, Manhattan, recommended approval of this application for a term of five (5) years, as per their standing policy; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown, and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the southeast corner of Lexington Avenue and East 47th Street, partially within a C6-6 zoning district, partially within a C6-4.5 zoning district, and in the Special Midtown District, in Manhattan; and

WHEREAS, the site has approximately 100 feet of frontage along Lexington Avenue, 175 feet of depth, 17,523 square feet of lot area, and is occupied by a 27-story plus cellar and sub-cellar commercial building, occupied, in part, as a hotel that has been designated by the New York Landmarks Preservation Commission as an individual landmark; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, the Board notes that, because no portion of the subject PCE is represented as being located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

MINUTES

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant submitted evidence that the subject PCE occupies 240 square feet of floor area on the first floor and 13,500 square feet of floor space in the cellar with a fitness area for group training, treadmills, stationary bikes, elliptical machines, various exercise equipment, men's and women's locker rooms with restrooms and showers, an office, reception area, and storage rooms; and

WHEREAS, the applicant represents that the proposed PCE will operate as Crunch, with the following hours of operation: Monday through Friday, 5:00 a.m. to 11:00 p.m.; Saturday and Sunday, 7:00 a.m. to 9:00 p.m.; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because the PCE will provide a benefit to community members while preserving the character of the district and the existing landmarked building; and

WHEREAS, the applicant submits that, though the PCE space is not adjacent to any hotel rooms in the subject building, sound mitigation measures, including insulated walls and rubber flooring systems of varying thicknesses in exercise machine and weight areas, will be installed in the portions of the cellar floor occupied by the PCE to mitigate any adverse impacts of the use to other building tenants;

specifically: noise attenuation measures will be provided in the PCE space to ensure that sound levels, including sound emanating from any sound system, do not exceed the maximum interior noise level approved by New York City Department of Environmental Protection or other regulatory authority; music levels will be a maximum of 80dBa for code compliance; an electronic limiter/compressor will be integrated into the music system to ensure that compliant music levels are maintained, and the limiter's setting will be tuned depending on the extent of the noise mitigation provided in the gym; restrained bridge isolators will be used to support wall mounted speakers; subwoofers will be floor mounted atop neoprene waffle pads; and the weight racks will be freestanding and supported atop thicker gym floor tile; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant submits that the PCE contains facilities for the provision of physical fitness instruction, including weight training and physical training on exercise machines and equipment; and

WHEREAS, accordingly, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, by letter dated October 29, 2018, the Fire Department submitted a letter of no objection to the application and confirmed that applications for the fire alarm and sprinkler systems in the PCE space have been filed and are being inspected by units in the Bureau of Fire Prevention; and

WHEREAS, the applicant submits that an approved interior fire alarm system – including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, and a connection of the interior fire alarm system to an FDNY-approved central station – as well as a wet sprinkler system, will be installed within the PCE space; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood because it is anticipated that a majority of members will be local neighborhood residents and employees of nearby commercial uses, and it is anticipated that members will walk to the PCE; and

WHEREAS, on May 11, 2018, the New York City Landmarks Preservation, pursuant to Certificates of No Effect Numbers CNE-19-23834 and CNE-19-23835, both expiring May 11, 2022, permitted the installation of vinyl signs reflecting the name of the PCE and hours of operation and exterior alterations to the door of the facility as compliant with Title 63 of the Rules of the City of New York, Section 2-20(c) for signage installations; and

MINUTES

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 18-BSA-130M, dated April 30, 2018; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located partially within a C6-6 and partially within a C6-4.5 zoning district, and in the Special Midtown District, a physical culture establishment on a portion of the cellar and first floor of an existing 27-story plus cellar and sub-cellar commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received June 6, 2018”—Six (6) sheets; and *on further condition*:

THAT the term of the PCE grant shall expire on October 30, 2028;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance under Local Law 58/87 shall be as reviewed and approved by DOB;

THAT a sprinkler system shall be installed and maintained;

THAT an approved fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and a connection to an FDNY-approved central station—shall be installed within the PCE space;

THAT minimum 3-foot-wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT a Certificate of Occupancy shall be obtained within four (4) years, by October 30, 2022;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its

jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 30, 2018.

COMMUNITY BOARD #8M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board's Rules of Practice and Procedure, reopening and an extension of term to a previously granted special permit, which expired on January 28, 2016; and

WHEREAS, a public hearing was held on this application on May 16, 2017, after due notice by publication in *The City Record*, with continued hearings on July 18, 2017, May 1, 2018, and November 8, 2018, and then to decision on that date; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 8, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of Third Avenue, between East 91st Street and East 92nd Street, in a C2-8 zoning district, in Manhattan; and

WHEREAS, the site has approximately 202 feet of frontage on Third Avenue, 366 feet of depth, approximately 153,080 square feet of lot area, and is occupied by a multi-story mixed-use residential and commercial building; and

WHEREAS, the subject PCE is located within portions of the cellar (680 square feet) and the basement

(15,800 square feet) and first floor (15,420 square feet) of the subject building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 28, 1997, when, under the subject calendar number, the Board granted a special permit, pursuant to ZR § 73-36, to legalize the subject PCE on the cellar level and first floor of an existing mixed-use high rise development, on condition that all work substantially conform to approved plans filed with the application; there be no change in ownership or operating control of the PCE without prior application to and approval from the Board; the hours of operation be limited to Monday through Friday, 5:00 a.m. to 12:00 a.m., and Saturday and Sunday, 6:00 a.m. to 11:00 p.m.; noise levels generated by the PCE comply with the New York City Noise Control Code to minimize any potential impacts on the residents in the buildings; the special permit be limited to a term of nine (9) years, from January 28, 1997, to expire on January 28, 2006; the above conditions appear on the certificate of occupancy; the development, as approved, be subject to verification by the Department of Buildings (“DOB”) for compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under the jurisdiction of the Department; and, a certificate of occupancy be obtained within one (1) year, by January 28, 1998; and

WHEREAS, on February 2, 2010, under the subject calendar number, the Board waived its Rules of Practice and Procedure, reopened, permitted modifications to the layout of the PCE, extended the time to obtain a certificate of occupancy, and extended the term of the grant for ten (10) years, to expire on January 28, 2016, on condition that the use and operation of the site substantially conform to approved plans filed with the application; the above condition appear on the certificate of occupancy; a new certificate of occupancy be obtained by February 2, 2012; all conditions from prior resolutions not specifically waived by the Board remain in effect; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and, the DOB ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, the previous term of the special permit having expired, the applicant requests the subject relief; and

WHEREAS, the applicant additionally requests a waiver, pursuant to § 1-14.2 of the Board's Rules of Practice and Procedure, of Rule § 1-07.3(b)(2) to permit the filing of this application less than two (2) years after the expiration of the term; and

WHEREAS, the applicant represents that there has been no change in ownership or operation since the 1997

MINUTES

resolution and that New York Sports Club continues to operate the subject PCE; the hours of operation are now limited to Monday through Thursday, 5:00 a.m. to 11:00 p.m., Friday, 5:00 a.m. to 10:00 p.m., Saturday and Sunday, 7:00 a.m. to 9:00 p.m.; and, massage services continue to be provided; and

WHEREAS, over the course of the hearings, the Board expressed concern regarding the absence of a fire alarm system in the PCE space; and

WHEREAS, in response, the applicant stated that, while the premises is protected with a sprinkler system, a fire alarm system was not required in the PCE space under the prior grants; however, the applicant demonstrated they have engaged a fire alarm installer and documented their timeline and efforts to install the fire alarm system; and

WHEREAS, the applicant represents that interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, connection of the interior fire alarm and sprinklers to a FDNY-approved central station—will be maintained throughout the PCE space; and

WHEREAS, by letter dated November 1, 2018, the Fire Department stated that they have reviewed the subject application, the Fire Department's Licensed Public Place of Assembly Unit issued two (2) violation orders, for an operating permit and a Letter of Approval for the fire alarm system in the space, which will be enforced by criminal summonses for non-compliance; and, due to the lead time required to obtain an operating permit from the DOB and a sign-off from the Fire Department Fire Alarm Inspection Unit, the Fire Department recommends conditional approval of the application; and

WHEREAS, pursuant to ZR § 73-03(f), the applicant has satisfactorily demonstrated compliance with the conditions of the previous term and the Board finds that the circumstances warranting the original grant still obtain; and

WHEREAS, accordingly, the Board finds that a ten (10) year extension of the term of the special permit is appropriate, with the conditions set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals *waives* Rule § 1-07.3(b)(2) of its Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated January 28, 1997, as amended February 2, 2010, so that, as amended, this portion of the resolution reads: "to grant an extension of the term of the variance for a term of ten (10) years, to expire on January 28, 2026, *on condition* that the use and operation of the site shall conform to drawings filed with this application marked 'Received August 8, 2016 – Five (5) sheets; and *on further condition*:"

THAT the term of this grant shall expire on January 28, 2026;

THAT a public assembly permit shall be obtained expeditiously;

THAT the fire alarm system shall be signed-off within one (1) year, by November 8, 2019;

THAT minimum three (3) foot wide exit pathways to required exits shall always be maintained unobstructed, including that from any gymnasium equipment;

THAT sprinklers and interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, connection of the interior fire alarm and sprinklers to a FDNY-approved central station—shall be maintained throughout the PCE space as indicated on the Board-approved plans;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a revised certificate of occupancy referencing this approval and calendar number ("BSA Cal. No. 75-95-BZ") shall be obtained within one (1) year, by November 8, 2019;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, November 8, 2018.

24-96-BZ

Negative: Chair Perlmutter and Commissioner Scibetta ...2
THE RESOLUTION –

WHEREAS, the decisions of the Department of Buildings (“DOB”), dated February 23, 2017, acting on New Building Application Nos. 520290827, 520290836, 520290845, 520290854, 520290863, 520290872, 520290881, 520290890, 520290907, 520290916, 520290925, 520290934, 520290943, 520290952, 520290961, 520290970, 520290989, 520290998, 520291005, 520291014, 520291032, 520291041, 520291050, 520291069, 520291078, 520291087, 520291096, 520291158, 520291167, read in pertinent part:

“The street giving access to proposed building is not duly placed on the official map of the City of New York therefore ... No Certificate of Occupancy can be issued pursuant to Article 3, Section 36 of General City Law”; and

WHEREAS, these are applications under General City Law (“GCL”) § 36 to permit, in an R3X zoning district and the Special South Richmond Development District, the development of 29 two-family residences that do not front on a street duly placed on the official map of the City of New York (the “City Map”); and

MINUTES

WHEREAS, a public hearing was held on these applications on April 10, 2018, after due notice by publication in *The City Record*, with continued hearings on June 19, 2018, August 7, 2018, August 21, 2018, September 27, 2018, and October 23, 2018, and then to decision on November 8, 2018; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 3, Staten Island, generally recommends approval of these applications; and

WHEREAS, by letter dated April 12, 2018, Community Board 3 clarifies that it does not support tandem off-street parking for two-family residences, that no parking should be permitted on a 34-foot-wide road, that the street width should be modified to the standard width of 38 feet or each driveway should be a width that will accommodate two vehicles side by side in order to provide an unobstructed parking space and prevent illegal on-street parking and that homeowners' associations do not enforce parking restrictions, are not formed or become non-operational; and

WHEREAS, Staten Island Borough President James S. Oddo submitted testimony in opposition to these applications, including the following concerns: only 29 of 35 detached residences have been disapproved by the DOB, even though none of the 35 detached residences will be accessed primarily from a mapped street¹; constructing a large new development that is not part of the established street grid—one that could potentially create traffic problems or cause other adverse impacts to the community and the overtaxed Page Avenue retail corridor—presents no practical difficulty or unnecessary hardship; the Builders Pavement Plan claims that the existing topography, steep slopes and existing trees were being preserved, though the subject site has been cleared and grubbed; emergency response from a mapped street to the six detached residences not included in these applications is inadequate and will compromise the public health, safety and general welfare; the community is left with unimproved mapped streets and unmapped private roads that degrade the integrity of the City Map and affect the community's quality of life; and purchasers of the proposed residences will call the Borough President's office demanding that the City repair the subject streets and clear the snow from their driveways; and

WHEREAS, the subject site is located on the north side of Richmond Valley Road, between Madsen Avenue and Weiner Street, in an R3X zoning district and the Special South Richmond Development District, on Staten Island; and

WHEREAS, the subject site has approximately 875 feet of frontage along Richmond Valley Road, between 435 and 340 feet of depth, 272,575 square feet of lot area and is vacant; and

WHEREAS, the applicant proposes to develop 29 two-

family residences fronting on Torrice Loop and Frosinone Lane, which are not duly placed on the official map of the City of New York; and

WHEREAS, the applicant submits that the structures on the site will comply with all zoning regulations applicable in the underlying zoning district; and

WHEREAS, Torrice Loop and Frosinone Lane have proposed widths of approximately 34 feet and are accessible from Richmond Valley Road, a mapped street paved to a width of approximately 100 feet; and

WHEREAS, Torrice Loop and Frosinone Lane have sidewalks with widths of 4 feet, and parking on either side of the roadways will be prohibited due to their narrowness; and

WHEREAS, the Board notes that, pursuant to GCL § 36, it may authorize the development of buildings that do not front on a street duly placed on the City Map; and

WHEREAS, the applicant states that a proposed interior roadway plan for Torrice Loop and Frosinone Lane indicates that the interior roadway surface has been designed to match Department of Transportation ("DOT") standards for public streets that would be incorporated into a Builders Pavement Plan and that the roadway will also include street lighting, street signage and crosswalks designed to meet DOT standards for public streets; and

WHEREAS, the applicant states that DOB will review all plans for the proposed interior roadways for compliance with applicable laws as part of the standard construction application and approval process; and

WHEREAS, the applicant states that the submitted theoretical site plan demonstrates the lot configuration and buildings that could be developed at the subject site with all buildings fronting on a mapped street (Richmond Valley Road) and that the resulting development would yield infeasible single-family residences with over 10,000 square feet of floor area and lot depths of 167 to 207 feet, thereby resulting in unnecessary hardship in developing the site with conforming and complying buildings that front on a mapped street; and

WHEREAS, the applicant submits that the proposed homeowners' association has been approved by the New York State Attorney General's Office, including disclosures and budgeting with respect to the private roads and drainage system associated with future maintenance and repairs; and

WHEREAS, by letter dated September 8, 2014, the Department of City Planning ("DCP") states that the following applications were approved in connection with a proposed development of 35 two-family residences at the subject site: an application for certification of future subdivision from one zoning lot into 33 zoning lots, approved by the City Planning Commission on August 20, 2014 (No. N 140224 RCR); an application for certification by the Chair of the City Planning Commission that sufficient school capacity exists to accommodate 70 dwelling units at the subject site, approved on August 20, 2014 (No.

¹ DOB's interpretation and application of GCL § 36 to the other six residences is not before the Board under these applications.

MINUTES

N 140225 RCR), expiring September 3, 2015; and an application for authorization under ZR § 107-64 for the removal of trees and ZR § 107-65 for the modification of existing topography at the subject site, approved by the City Planning Commission on August 20, 2014 (No. N 140226 RAR); and

WHEREAS, by letter dated September 6, 2017, DCP states that an application for certification by the Chair of the City Planning Commission that sufficient school capacity exists to accommodate 68 dwelling units at the subject site (No. N 180022 RCR) was approved on August 30, 2017, expiring August 30, 2018; and

WHEREAS, by letter dated February 26, 2018, the Department of Environmental Protection (“DEP”) states that it has certified Site Connection Proposal applications for the subject site; and

WHEREAS, by letter dated January 4, 2014, the Fire Department states that it has no objection to the installation of new fire hydrants and water mains in connection with proposed development at the subject site on condition that the following requirements be met: hydrants shall be located within 250 feet of the entrance to each dwelling unit, and hydrants shall be on 8” or greater water mains; the height of the residence shall not exceed 35 feet above grade; under Fire Code Rule 503.7, “no parking” signage shall be installed and maintained at the entrance and along both sides of the fire access roads (the length of Torrice Loop and Frosinone Lane), where parking shall be prohibited, and “no parking” signage shall comply with the requirements of Fire Code Rule 503.7; and, for the subject development, which includes a 34-foot-wide fire apparatus access road, all buildings shall comply with the requirements of ZR § 26-21, which states that, where at least three accessory parking spaces are provided for every two dwelling units and no such spaces are located within the bed of a private road, the minimum width shall be 34 feet, as indicated on the FDNY-approved plan; and

WHEREAS, the applicant states that, prior to the issuance of any certificate of occupancy, a restrictive declaration will be recorded against the subject site to specify the following: that no parking shall be allowed along Torrice Loop or Frosinone Lane; that “no parking” signage shall be installed at the entrance to, and along the length of, Torrice Loop and Frosinone Lane; and that the homeowners’ association formed in conjunction with the proposed development (Torrice Loop Homeowners Association Inc.) shall be the entity responsible for any violations issued by the Fire Department for failure to adhere to said parking restrictions; and

WHEREAS, with respect to the retaining wall located at the subject site, the applicant provided support of excavation and retaining wall design plans and states that construction of the retaining wall was initiated after plans were approved and a permit issued by DOB under Alteration Application No. 520301511 and that the approved retaining wall was illustrated in approval documents issued by DCP in conjunction with applications approved for the removal of trees and modification of existing topography; and

WHEREAS, the applicant further states that, in response to community concerns, crack monitors were installed; that, during the monitoring process, work was halted by DOB within 20 feet of an adjacent site at 11 Butler Street but allowed to continue elsewhere on the subject site; and that the applicant is proposing amendments to the support of excavation and retaining wall plans, subject to approval by DOB, in order to provide permeation grouting of soil adjacent to the support of excavation wall that should fill any remaining voids and stabilize soil in the area, which reflects that the applicant is and will address any issues that arise during the course of construction; and

WHEREAS, with respect to drainage, the applicant states that, under its approval of the above application for modification of topography, the City Planning Commission found that modification would not cause unnecessary disturbance of drainage pattern in the surrounding area; that DEP approved a site connection plan for the proposed development, which includes drainage information; and that the subject site is positive pitch to Richmond Valley Road and the natural area near Mill Creek, south of the subject site; and

WHEREAS, a minority of the Board does not find that the applicant has substantiated a basis to warrant exercise of discretion or made any adequate attempt to address questions from commissioners regarding the appropriateness of applying GCL § 36 to the subject site; and

WHEREAS, at hearing, a minority of the Board expressed concerns with permitting a development of this size on a steeply sloping site when many approvals from other agencies are dated or have expired; and

WHEREAS, a minority of the Board further expressed concerns that, based on inspections of the site and surrounding area and testimony from Borough President Oddo, there are concerns with the practicability of ensuring the enforcement any safeguards and conditions imposed by the Board in the long term for a development of this size; and

WHEREAS, based upon its review of the record and inspections of the site and surrounding neighborhood, the Board has determined that these approvals are appropriate with certain conditions as set forth below and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby *modify* the decisions of the Department of Buildings dated February 23, 2017, acting on New Building Application Nos. 520290827, 520290836, 520290845, 520290854, 520290863, 520290872, 520290881, 520290890, 520290907, 520290916, 520290925, 520290934, 520290943, 520290952, 520290961, 520290970, 520290989, 520290998, 520291005, 520291014, 520291032, 520291041, 520291050, 520291069, 520291078, 520291087, 520291096, 520291158, 520291167, under the powers vested in the Board by Section 36 of the General City Law, to *permit*, in an R3X zoning district and the Special South Richmond Development District, the development of 29

MINUTES

two-family residences that do not front on a street duly placed on the official map of the City of New York; *on condition* that all work and site conditions shall conform to drawings filed with these applications marked "Received October 24, 2018"-One (1) sheet; and *on further condition*:

THAT prior to the issuance of any certificate of occupancy, including a temporary certificates of occupancy, restrictive declarations shall be recorded in the Office of the Richmond County Clerk against the properties substantially conforming to the form and substance of the following:

DECLARATION made this ____ day of _____ 2018 by Torrice Loop Homeowners Association Inc., hereinafter referred to as the "Declarant," located at 5655 Amboy Road, Staten Island, NY 10309.

WHEREAS, the Declarant is the homeowners association formed in conjunction with the development of certain land located in the City and State of New York, Borough of Staten Island, designated as Block 7577 Lots 39, 40, 41, 42, 43, 44, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 72, 73 as depicted on the Tax Map of the City of New York, hereinafter referred to as the "Subject Premises". WHEREAS, the Declarant has requested the New York City Board of Standards and Appeals (the "BSA") act upon BSA Cal. Nos. 2017-68 to 96-A to appeal the decisions of the Staten Island Borough Commissioner, under application numbers: 520290827, 520290836, 520290845, 520290854, 520290863, 520290872, 520290881, 520290890, 520290907, 520290916, 520290925, 520290934, 520290943, 520290952, 520290961, 520290970, 520290989, 520290998, 520291005, 520291014, 520291032, 520291041, 520291050, 520291069, 520291078, 520291087, 520291096, 520291158, 520291167 (the "Subject Applications"), pursuant to Article III, Section 36 of the General City Law, denying permits as a result of the Street giving access to the proposed buildings not being duly placed on the official map of the City of New York; and

WHEREAS, the BSA, requires Declarant to execute and file this restrictive declaration prior to obtaining a Certificate of Occupancy for each of the buildings constructed pursuant to the Subject Applications.

NOW, THEREFORE, in consideration of BSA approvals to allow the proposed construction of buildings not fronting on a legally mapped street, contrary to General City Law 36, Declarant does hereby declare that Declarant and his successors and/or assigns shall be legally responsible for operating and maintaining the private roadways to be known as Torrice Loop and Frosinone Lane within the Subject Premises in compliance with the parking conditions of the Fire Department of New York's letter of no objection dated January 4,

2014 as follows:

1. There shall be no parking of any vehicles on both sides and for the entire length of Torrice Loop and Frosinone Lane as depicted on approved plans associated with BSA Cal. Nos. 2017-68 to 96-A;
2. "NO PARKING" signs shall be installed and maintained at the entrance to, and along both sides of, Torrice Loop and Frosinone Lane pursuant to Fire Code requirements and specifications;
3. The Declarant shall be the entity that will be legally responsible for compliance, subject to enforcement actions of the Fire Commissioner, and Declarant consents to issue of tickets for parking violations on Torrice Loop and Frosinone Lane in the name of the homeowners' association.

With respect to this declaration:

1. This declaration may not be modified, amended or terminated without the prior written consent of the BSA;
2. This declaration is in addition to, and does not replace or revoke, requirements set forth in the declaration of covenants, restrictions, easements, charges and liens associated with the formation of the homeowners' association (Torrice Loop Homeowners Association Inc.) and recorded on July 31, 2018 with the Richmond County Clerk;
3. The covenants set forth herein shall run with the land and be binding upon and inure to the benefit of the parties hereto and their respective heirs, legal representatives, successors and assigns;
4. Failure to comply with the terms of this declaration may result in the revocation of a building permit or Certificate of Occupancy or any authorization or waiver granted by the BSA; and
5. This declaration shall be recorded at the Richmond County Clerk's office against the Subject Premises and the cross-reference number and title of the declaration shall be recorded on each temporary and permanent certificate of occupancy hereafter issued to any building located on the Subject Premises and in any deed for the conveyance thereof.

THIS DECLARATION IS ONLY EFFECTIVE UPON APPROVAL BY THE BOARD OF STANDARDS AND APPEALS OF THE APPLICATIONS FILED UNDER CAL. NOS. 201768 TO 96-A AND UPON SUBSEQUENT COMPLETION OF CONSTRUCTION AND ISSUE OF A CERTIFICATE OF OCCUPANCY PURSUANT TO SUCH APPROVALS, OTHERWISE THIS DECLARATION IS OF NO EFFECT.

MINUTES

IN WITNESS WHEREOF, Declarant has made and executed the foregoing restrictive declaration as of the date hereinabove written.

THAT hydrants shall be located within 250 feet of the entrance to each dwelling unit, and hydrants shall be on 8” or greater water mains; the height of the residence shall not exceed 35 feet above grade; under Fire Code Rule 503.7, “no parking” signage shall be installed and maintained at the entrance and along both sides of the fire access roads (the length of Torrice Loop and Frosinone Lane), where parking shall be prohibited, and “no parking” signage shall comply with the requirements of Fire Code Rule 503.7; and, for the subject development, which includes a 34-foot-wide fire apparatus access road, all buildings shall comply with the requirements of ZR § 26-21, which states that, where at least three accessory parking spaces are provided for every two dwelling units and no such spaces are located within the bed of a private road, the minimum width shall be 34 feet, as indicated on the FDNY-approved plan;

THAT the above conditions shall appear on the certificates of occupancy;

THAT certificates of occupancy, also indicating these approvals and calendar numbers (“BSA Cal No 2017-68-A through 2017-96-A”), shall be obtained within four (4) years, by November 8, 2022;

THAT these approvals are limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, November 8, 2018.

2018-63-A

APPLICANT – Fried Frank, LLP, for 25-30 Columbia Heights (Brooklyn), LLC, owner.

SUBJECT – Application May 1, 2018 – Interpretative Appeal of a final determination of the New York City Department of Buildings, set forth in the ZRD1 denial dated April 2, 2018 (Control No. 46921), denying a request for confirmation that existing signs are non-conforming and may be continued as accessory signs, with changes to subject matter, structural alterations, reconstruction, and replacement permitted pursuant to Article V, Chapter 2 of the New York City Zoning Resolution. M2-1 zoning district.

PREMISES AFFECTED – 30 Columbia Heights, Block 208, Lot 2, Borough of Brooklyn.

COMMUNITY BOARD #2BK

ACTION OF THE BOARD – Application granted.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated April 2, 2018, under Zoning Resolution Determination Control No. 46921 (the “Determination”), reads in pertinent part:

The request, to accept the submitted documentation as evidence that the three illuminated rooftop accessory/noncommercial signs at 30 Columbia Heights (the “30 Columbia Building”) are lawful non-conforming uses that may continue at the premises, is hereby denied.

[. . .]

To demonstrate that the installation of the Time and Temperature Sign and the Watchtower Sign were lawfully erected in 1961 at the 30 Columbia Building, the attorney submits the following evidence pertaining to the Watchtower Sign:

- (1) Two photographs of an excerpted portion of the Department of Buildings’ (the “Department”) Alteration (ALT) application ledger from 1961, showing an entry for Application No. 955 to erect a “roof sign” at the 30 Columbia Building. According to the ledger, Alteration Application No. 955 of 1961 was approved by the Department on May 16, 1961;
- (2) A copy of an excerpted portion of the Department’s application docket, describing the proposed work under Alteration Application No. 955 to “erect a roof sign” at the 30 Columbia Building. The copy of the docket indicates “E.R. Squibb & Sons” as the owner of the 30 Columbia Building;
- (3) A copy of a hand-copied plan, dated April 10, 1961, showing the proposed rooftop sign structure and signs;
- (4) Two photographs dated August 13, 1961 from the Thomas Airviews Archive, New York Historical Society showing the sign structure above the roof of the 30 Columbia

Building. As shown in both photographs, no signs are attached to the sign structure. In one of the photographs, a wall sign consisting of individual letters that spell “SQUIBB” is shown on 30 Columbia Building’s wester façade;

- (5) One photograph dated November 22, 1961 from Municipal Archives showing the sign structure above the roof of the 30 Columbia Building;
- (6) One photograph dated April 12, 1970 from the Thomas Airviews Archive, New York Historical Society showing the sign structure above the roof of the 30 Columbia Building. The copy on the sign structure is not visible in the photograph. The Time and Temperature Sign is visible in the photograph;
- (7) Six photographs, including the photographs’ corresponding information sheets, dated September 10, 1970 and “before September 30, 1970,” from the Watchtower Image Services System showing several workers installing the individual letters of the Watchtower Sign;
- (8) One photograph, including the photograph’s corresponding information sheet, dated September 10, 1970 from the Watchtower Image Services System showing the installed Watchtower Sign and the Time and Temperature Sign; and
- (9) One photograph circa 1988 taken by Robert Cameron from “Above New York” showing a structure above the roof of the 30 Columbia Building. The copy on the sign structure is not visible in the photograph.

As per the attorney’s submitted photographs of the Alteration application ledger, several Alteration application entries in the ledger show the names of inspectors with corresponding inspection dates, which are entered into the ledger only after the Alteration applications were issued work permits and after all work filed under the Alteration applications are completed. However, the ledger entry for Alteration Application No. 955 in 1961 does not show the name of the inspector, nor does the ledger indicate the date of the final inspection. As such, the entry for Alteration Application No. 955 in 1961 in the Department’s Alteration application ledger without the inspector’s name and inspection date only demonstrates that the Alteration Application was filed with the Department.

Therefore, sufficient evidence was not submitted by the attorney to support their claim that the 30 Columbia Building’s signs were installed pursuant to a valid Department-issued permit.

In addition, the hand-copied plan from April 10, 1961, which shows an approximately 44’-0” high by 87’-0” wide by 17’-6” deep frame structure above the roof of the 30 Columbia Building, does not show the NYS-licensed design professional’s

MINUTES

name, professional ink seal, and signature, nor does it show the Department's approval stamp, including the Alteration application number, on the back of the plan. As such, the attorney's submitted copy of the hand-copied plan does not demonstrate that it was approved by the Department.

According to the Department's website, Application No. ALT 955-61 was filed with the Department on April 10, 1961. According to the Department's application docket, E. R. Squibb and Sons were the owners of the 30 Columbia Building at the time of the ALT 955-61's filing. According to the attorney's submitted letter from Watchtower Bible and Tract Society of New York, Incorporated (the "Society") dated November 29, 1969, the Society informed its members, which are the Jehovah's Witnesses, that the Society purchased the "former Squibb property" on November 25, 1969. The letter, which does not state the addresses of the buildings in the former Squibb property, includes an undated photograph of the 30 Columbia Building that shows a roof sign consisting of six individual letters that spell "SQUIBB" (the "Squibb Sign") and above the sign appears to be a rectangular sign. Both signs in the photograph are supported by a frame structure above the roof of the 30 Columbia Building.

The attorney does not submit evidence of the date E. R. Squibb and Sons vacated the premises at the 30 Columbia Building before the Society purchased the building on November 25, 1969 and started to move into the premises. . . . In addition, ZR 52-61 states

If, for a continuous period of two years, either the nonconforming use of land with minor improvements is discontinued, or the active operation of substantially all the non-conforming uses in any building or other structure is discontinued, such land or building or other structure shall thereafter be used only for a conforming use.

If the accessory signs on the 30 Columbia Building discontinued for a continuous period of two years after E. R. Squibb and Sons vacated the building, the non-conforming Squibb Sign and the non-conforming Time and Temperature Signs must thereafter be used only for a conforming use pursuant to ZR 52-61.

At the time Application No. 955-61 was filed on April 10, 1961 to install a roof sign at the 30 Columbia Building, it was subject to the regulations in the 1916 Zoning Resolution, which did not impose restrictions regarding accessory signs. On December 15, 1961, the Zoning Resolution started to impose size and location restrictions to accessory signs. The attorney states that the letters of the "SQUIBB" sign were later changed to spell "WATCHTOWER" in 1970 and that the

change "did nothing to increase its surface area." The attorney further states that such change in the sign's text in "the absence of evidence of a permit for the modification of the [Watchtower Sign] in 1970 should not be a basis for a finding that the Sign is not non-conforming. However, in accordance with ZR 12-10's definition, "[a] 'non-conforming' use is any lawful use, whether of a building or other structure or of a zoning lot, which does not conform to any one or more of the applicable use regulations of the district in which it is located, either on December 15, 1961, or as a result of any subsequent amendment thereto." The term "lawful use," as it is utilized in ZR 12-10's definition for "non-conforming" use, is interpreted to mean any use which has been issued a permit under a Department-approved application. In addition, ZR 42-58 states that

In all districts, as indicated [including M2-1 Districts], a sign erected prior to December 13, 2000, shall have non-conforming use status pursuant to Sections 52-82 (Non-conforming Signs Other Than Advertising Signs) or 52-83 (Non-conforming Advertising Signs) with respect to the extent of the degree of non-conformity of such sign as of such date with the provisions of Sections 42-52, 42-53 and 42-54, where such sign shall have been issued a permit by the Department of Buildings on or before such date.

As the attorney fails to demonstrate that the Watchtower Sign and the Time and Temperature Signs, which were erected prior to December 13, 2000 on the roof of the 30 Columbia Building, were installed based on a Department-issued permit, the signs, which fail to comply with ZR 12-10's definition for "non-conforming" use and fail to comply with ZR 42-58, must thereafter be used only for a conforming use.

Based on the submitted documentation, the Department determined that the 30 Columbia Building's three accessory/non-commercial rooftop signs are not lawful non-conforming uses that may continue at the subject building. Therefore, the applicant's above stated request is hereby denied; and

WHEREAS, this is an appeal for interpretation under Section 72-11 of the Zoning Resolution of the City of New York ("ZR" or the "Zoning Resolution") and Section 666(6)(a) of the New York City Charter, brought on behalf of 25-30 Columbia Heights (Brooklyn), LLC ("Appellant"), alleging errors in the Determination pertaining to whether an existing rooftop accessory sign (the "Illuminated Sign") and existing back-to-back rooftop flashing signs with alternating displays of time and temperature (the "Flashing Signs") affixed to a single sign structure (collectively, the "Signs") are "non-conforming" accessory signs under ZR § 12-10, the use of which may be continued pursuant to ZR § 52-11 or structurally altered, reconstructed or replaced with new accessory signs pursuant to ZR § 52-82; and

WHEREAS, for the reasons that follow, the Board

MINUTES

grants this appeal; and

WHEREAS, a public hearing was held on this appeal on August 7, 2018, after due notice by publication in *The City Record*, with a continued hearing on October 23, 2018, and then to decision on November 8, 2018; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Brooklyn Borough President Eric L. Adams submitted testimony in support of this appeal, stating that the Signs have sat atop the subject building for more than 55 years as a highly visible and iconic presence along the Brooklyn waterfront; and

WHEREAS, the Brooklyn Heights Association submitted testimony in opposition to this appeal, stating that the new owners of the subject building should not be entitled to erect replacement signage when DOB has determined that the Signs had not received a permit for their installation; and

WHEREAS, the Downtown Brooklyn Partnership submitted testimony in support of this appeal, stating that the Signs have been an iconic presence along Brooklyn's waterfront for more than fifty-five years, visible to millions crossing the Brooklyn Bridge as they approached the borough, and that new signage of similar dimensions would reflect new investment and energy in the borough; and

WHEREAS, DOB and Appellant have been represented by counsel throughout this appeal; and

BACKGROUND AND PROCEDURAL HISTORY

WHEREAS, the subject site is located on the southwest corner of Columbia Heights and Doughty Street, in an M2-1 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 410 feet of frontage along Columbia Heights, 128 feet of frontage along Doughty Street, 470 feet of frontage along Furman Street, 67,494 square feet of lot area and is occupied by multiple buildings, including a twelve-story, with cellar, commercial building with a sign structure atop its roof (the "subject building"); and

WHEREAS, Edward Robinson Squibb Park is located to the south of the subject site, Hillside Dog Park is located to the east of the subject site, an R6 zoning district is located to the east and to the south of the subject site, the Brooklyn-Queens Expressway is located to the southeast of the subject site and the Brooklyn Bridge is located to the northeast of the subject site; and

WHEREAS, the Signs are located on the roof of the subject building with the Illuminated Sign facing west and with the Flashing Signs facing west and east; and

WHEREAS, the Signs were originally installed between August 13 and November 22, 1961, and the lettering of the Illuminated Sign was changed between November 25, 1969, and September 10, 1970, and was removed from the sign structure on December 6, 2017; and

WHEREAS, nothing in the record indicates that the Signs have been relocated or repositioned since their original installation, and it is undisputed that the Signs do not conform to sign regulations currently applicable to the subject site, *see* ZR §§ 42-50, 32-601; and

WHEREAS, a sheet from DOB's Alteration Application Ledger from 1961 (the "Ledger") states that Application No. 955 for a "roof sign" at the subject site was approved by an individual named Weeks on May 16, 1961; and

WHEREAS, there are no entries for any of the 35 applications listed under the Permits column in the Ledger, and the Permits sub-column entitled "Date" has application numbers re-stated rather than dates; and

WHEREAS, the Ledger has 32 blank fields under the Commenced column, 10 blank fields under the Completed column and Inspector at Completion column and 32 blank fields under the Remarks column; and

WHEREAS, a sheet from DOB's Alteration Docket dated April 10, 1961 (the "Docket"), shows Application No. 955 and describes the proposed work as "erect a roof sign" atop the 12-story building at the subject site with an estimated cost of \$20,000; and

WHEREAS, the Docket has a blank field under the Approved sub-column for Application No. 955 of 1961; and

WHEREAS, a sheet from DOB's Building Notice Docket dated June 13, 1951 (the "1951 BN Docket"), shows application numbers and descriptions for nine Building Notice applications but shows no entries under the Remarks column or its "APPD," "CMCD" or "CMPD" sub-columns; and

WHEREAS, a sheet from DOB's Building Notice Docket dated December 31, 1959 (the "1959 BN Docket"), shows application numbers and descriptions for seven Building Notice applications but shows only three dates total under the Remarks column with its "APPD," "CMCD" or "CMPD" sub-columns (out of a total of 21 fields); and

Whereas, a sheet from DOB's Electric Sign Docket dated April 10, 1961 (the "1961 ES Docket"), shows Electric Sign Application No. 229 for a lighted wall sign at the subject site; and

WHEREAS, on April 2, 2018, DOB issued the Determination, and Appellant commenced this appeal on May 1, 2018, seeking reversal of the Determination; and

ZONING PROVISIONS

WHEREAS, ZR § 12-10 (italicized words in original to indicate defined terms) defines "non-conformity," in part, as follows:

A "non-conforming" *use* is any lawful *use*, whether of a *building or other structure* or of a *zoning lot*, which does not conform to any one or more of the applicable *use* regulations of the district in which it is located, either on December 15, 1961 or as a result of any subsequent amendment thereto; and

WHEREAS, ZR § 52-81 states:

A *non-conforming sign* shall be subject to all the provisions of this Chapter relating to *non-conforming uses*, except as modified by the provisions of Sections 52-82 (Non-Conforming Signs other than Advertising Signs) and 52-83 (Non-Conforming Advertising Signs).

1 In response to questions from the Board at hearing, Appellant and DOB extensively briefed the applicability of

sign regulations to the Signs from their erection in 1961 until today.

MINUTES

A change in the subject matter represented on a *sign* shall not be considered a change of *use*; and WHEREAS, ZR § 52-11 states that “[a] *non-conforming use* may be continued, except as otherwise provided in this Chapter”; and

WHEREAS, ZR § 52-82 states:

Any *non-conforming sign*, except a *flashing sign* or a *sign* subject to the provisions of Section 52-734 (Non-conforming signs for adult establishments), and except any *advertising signs* may be structurally altered, reconstructed or replaced in the same location and position, provided that such structural alteration, reconstruction or replacement does not result in:

- (a) the creation of a new *non-conformity* or an increase in the degree of *non-conformity* of such *sign*;
- (b) an increase in the *surface area* of such *sign*;
- or
- (c) an increase in the degree of illumination of such *sign*.

However, any structural alteration, reconstruction or replacement of a *non-conforming sign accessory* to a *non-conforming use* shall be subject to the provisions of Section 52-31 (General Provisions).

To the extent that such structural alteration, reconstruction or replacement of *non-conforming signs* is permitted under the provisions of this Section, the provisions of the following Sections are modified:

Section 52-22 (Structural Alterations)

Sections 52-51 to 52-55, inclusive, relating to Damage or Destruction; and

ISSUE PRESENTED

WHEREAS, the issue in this appeal is whether the Signs are “non-conforming” accessory signs under ZR § 12-10, the use of which may be continued pursuant to ZR § 52-11 or structurally altered, reconstructed or replaced with new accessory signs in accordance with ZR § 52-82; and

WHEREAS, because the Board concludes that it is likely that all permits required for illuminated roof signs were issued for the erection of the Signs, the Board need not determine whether a non-conforming use must be established pursuant to a permit to be “lawful” under ZR § 12-10 and accordingly expresses no opinion as to such interpretation; and

APPELLANT’S POSITION

WHEREAS, Appellant states that the Signs were first installed between August and November 1961, as indicated by aerial photographs of the subject site, dated August 13, 1961, which show that erection of the sign structure had begun by that time, and by aerial photographs, dated November 22, 1961, which show that installation of the Signs had been completed; and

WHEREAS, Appellant states that there is substantial documentary evidence of permitting activity for the Signs in 1961, consistent with DOB’s permitting practices of the era; and

WHEREAS, Appellant states that an excerpted portion of DOB’s Ledger from 1961 shows Application No. 955 for

a “roof sign” at the subject site with an estimated cost of \$20,000 and contains a signature for Application No. 955 in the “Approved Signature” column, dated May 16, 1961, indicating that DOB approved the application, but that, like all the other listed applications on the page, there is no entry in the “Permit” column; and

WHEREAS, Appellant states that an excerpted portion of the Docket from 1961 describes the proposed work pursuant to Application No. 955 as “erect a roof sign” at the 12-story building at the subject site with an estimated cost of \$20,000; and

WHEREAS, Appellant states that a structural drawing for the “Proposed Roof Sign for E. R. Squibb & Sons,” dated April 10, 1961, “copied from print on file @ Brooklyn Bldg. Dept. [on] 1-16-70 by Tom Edward Book Watchtower Bible & Tract Society, Inc” (the “Structural Drawing”), contains elevations, sections, a plan and details for a roof sign that corresponds to the Signs in appearance, dimensions, arrangement of structural rails and original subject matter, describing two “time and temperature” signs and “15” letters reading ‘SQUIBB’ and also contains property, ownership and sign engineer information corresponding to the information provided in the Docket (“Proposed Roof Sign for E. R. Squibb & Sons division of Olin Mathieson Chemical Corp. at #18/30 Columbia Heights s.w. cor. Doughty St. B’k’lyn, N.Y. Artkraft Strauss Sign Corp. S. Oberwanger, Engr, N.Y.C. Apr. 10/61”); and

WHEREAS, Appellant states that DOB’s Buildings Information System lists “ALT 955-61,” filed on April 10, 1961, on its Actions page for the subject site; and

WHEREAS, Appellant states that the aforementioned evidence indicates that Application No. 955 was filed for a roof sign at 30 Columbia Heights on April 10, 1961, a few months before the Signs were installed; that the April 10, 1961, date of the Structural Drawing, the same date as the filing date for Application No. 955, shows that Application No. 955 was for the Signs; and that the Ledger contains a signature for Application No. 955 in the “Approval” column dated May 16, 1961, showing that DOB approved the application; and

WHEREAS, Appellant states that this indicates that the previous owner of the subject site followed DOB procedures by having its professional file an application and obtain approval for the Signs, and Appellant states that there is no record of any violation or other enforcement action by DOB at the time of installation—or since then—relating to a failure to comply with any laws or regulations; and

WHEREAS, Appellant states that contemporaneous evidence of DOB’s permitting practices in 1961 reflect incomplete and inconsistent recordkeeping; and

WHEREAS, in support of this contention, Appellant states that the Ledger reflects a blank “Permit” column for every application reflected on the Ledger—either an indication of poor recordkeeping or that permits for every application on the page were recorded elsewhere in DOB’s records; and

WHEREAS, Appellant states that docket entries from this era were often incomplete; and

WHEREAS, in support of this contention, Appellant furnished the 1951 BN Docket and the 1959 BN Docket; and

WHEREAS, Appellant states that not a single

MINUTES

application listed on the 1951 BN Docket has an entry under the columns for approval, commencement or completion; and

WHEREAS, Appellant states that, on the 1959 BN Docket, only a handful of dates were entered in columns for approval, commencement and completion; and

WHEREAS, Appellant states that, rather than reflecting that none of these applications were approved, the 1951 BN Docket and the 1959 BN Docket substantiate that docket entries were recorded by DOB haphazardly, and DOB's recordkeeping was often incomplete during this time; and

WHEREAS, Appellant further states that DOB's practice in 1961 was to issue all permits required for illuminated roof signs pursuant to a single umbrella application, which is consistent with the evidence in the record with respect to Application No. 955 for a "roof sign" at the subject site, approved on May 16, 1961; and

WHEREAS, Appellant submitted evidence that, in 1961, application materials for Application No. 964 of 1961 included separate permits for both an "entire roof sign" and a sign structure located at 42-25 21st Street, Queens (the "21st Street Sign"), and that the application materials were themselves permits; and

WHEREAS, Appellant submitted evidence that an electrical department log book maintained by Artkraft Strauss, one of New York City's preeminent sign designers and manufacturers whose records are archived, in part, at the New York Public Library, indicates that the 21st Street Sign was illuminated at construction with an entry dated January 17, 1962, showing the voltage and electric current specifications for each of the 21st Street Sign's illuminated letters; and

WHEREAS, Appellant submitted evidence that an underwriter's form by the New York Board of Fire Underwriters further indicates such illumination; and

WHEREAS, in response to DOB's assertions regarding the 1961 ES Docket and electric signs at 25 Columbia Heights, Brooklyn, Appellant states that no Electric Sign permit was required for the Signs because the Signs do not extend over any sidewalk and were not "[i]lluminated signs," defined under Section B26-5.2 of the New York City Building Code in effect in 1961 as "any sign[s] which extend[] over the sidewalk and which is illuminated by electricity or gas"; and

WHEREAS, accordingly, Appellant states that evidence in the record indicates that the Signs were erected pursuant to a permit issued by DOB before December 15, 1961; and

WHEREAS, in response to DOB's argument, raised during hearings, that Appellant had failed to prove continuity of both the Signs and the principal use of the site, Appellant states that the Signs—as lawfully established non-conforming uses—and their associated principal use have existed continuously from 1961 to 2017, as allowed by ZR § 52-11; and

WHEREAS, Appellant additionally points to DOB's Technical Policy and Procedure Notice ("TPPN") # 14/88, issued by DOB Assistant Commissioner George E. Berger to all Borough Superintendents on August 31, 1988, titled "Documentation in Support of Existing Use" that, though not specific to signage, makes reference to the ZR § 12-10

definition of "non-conforming use" and provides a guideline, in order of preference, for the acceptable documentation in support of such existing use for legalization or proof of continual nonconforming use, and such list does not include the submission of an issued permit:

- a) Records or documentation from any City Agency. Such records may include, but not be limited to, tax records, multiple dwelling registration cards, I cards form HPD and cabaret license.
- b) Records, bills, documentation from public utilities indicating name and address of business and time period bills cover.
- c) Any other documentation or bills indicating the use of the building, such as telephone ads, commercial trash hauler invoices, liquor licenses, etc.
- d) Only after satisfactory explanation or proof that the documentation pursuant to (a), (b), or (c) does not exist, affidavits regarding the use of a building will be accepted to support either an application for legalization or as proof concerning whether or not a prior non-conforming use was continual per ZR 52-61. However, where such affidavits are submitted, they may be accepted only after the Borough President has reviewed them with close scrutiny. If such affidavits are accepted, all other affected persons shall have an opportunity to respond to such affidavits; and

WHEREAS, Appellant states that the following evidence demonstrates the Signs' continuous use: aerial photographs, dated August 13, 1961, that show the Signs being erected; an aerial photograph, dated November 22, 1961, from the City's Municipal Archives that shows the Signs in place at the subject site; photographs dated September 10, 1970, that show the installation of new lettering for the Illuminated Sign; an aerial photograph, dated July 15, 1977, that shows the Signs; a photograph of the Signs published in 1988; a photograph of a can of red paint at the subject site with the labels "2003-20" and "DO NOT THROW AWAY! WATCHTOWER Neon Sign Paint"; photographs of extra fuses for the Signs, dated May 24, 2005; instructions entitled "30 CH Time and Temperature Sign Troubleshooting," dated May 3, 2006; an instructions manual on "Sequence of Operations" of the "30 CH Roof—Time and Temperature Sign," dated July 13, 2007; drawings entitled "PLC—Module Layout" and "Power Wiring" for a project entitled "30 CH Watchtower Sign Maintenance," dated June 8, 2009; a drawing entitled "Digital Inputs" for the "30 CH Watchtower Sign," dated December 21, 2009, July 19, 2012, and updated November 4, 2017; a drawing entitled "Power Wiring" for the "30 CH Watchtower Sign" dated December 21, 2009, and July 19, 2012; and Google Street View images of the Signs, taken from the Brooklyn—Queens Expressway, dated September 2007, September 2009, June 2011, June 2012, October 2012, September 2014, October 2014, August 2016, and September 2017; and

WHEREAS, in response to DOB's argument that there

MINUTES

is no evidence that the Signs were illuminated when installed in 1961, Appellant states that the following evidence demonstrates establishment and continuity of the Signs' illumination: evidence that DOB's practice in 1961 was to issue all permits required for illuminated roof signs pursuant to a single application, consistent with the evidence in the record with respect to Application No. 955 for a "roof sign" at the subject site, approved on May 16, 1961, and the above evidence regarding the 21st Street Sign; nighttime photographs of the Signs as they existed between 1961 and 1969 showing that the original lettering on the Signs were illuminated; and entries in Artkraft Strauss's electrical department log book from October to November 1961, which show the voltage and electric current specifications for each of the illuminated letters; and

WHEREAS, Appellant states that the following evidence demonstrates the continuity of the principal use of the subject building: a news article, dated March 30, 1968, entitled "Squibb Is Closing Brooklyn Plant," stating that "[t]he Squibb plant, on a 2.5-acre site centered at 25 Columbia Heights, now employs more than 800 people" and that the plant would close in "mid-1969"; a deed, dated November 25, 1969, from E. R. Squibb & Sons, Inc. to the Watchtower Bible and Tract Society of New York, Inc., recorded in the Office of the City Register, Kings County, at Reel 378, Page 1240 on November 29, 1969; a letter dated November 29, 1969, on the letterhead of the Watchtower Bible and Tract Society of New York, Inc., office of the president, which states, "We have begun using the buildings"; an article, dated January 1, 1970, entitled "Further Expansion at Watchtower Headquarters," which states, "On Columbia Heights, up the hill from the newly acquired properties, are the administrative offices and missionary school operated by Jehovah's Witnesses, as well as the residence for the more than 1,300 headquarters' personnel. These buildings fill a major part of three city blocks, and are all interconnected by underground tunnels"; an article, dated September 22, 1973, entitled "Expanded Facilities to Spread the Kingdom Message," which states, "In 1972 these presses used over 20,000 tons of paper—800 train carloads of 25 tons each"; a letter from 1978, which states, "We also invite you to tour our [Watchtower] shipping facilities located at 30 Columbia Heights. This tour takes about 20 minutes"; an article dated December 1, 1982, which states, "Then they crossed over the bridge (it can be seen in the photograph on page 24) connecting the 25 Columbia Heights Office Building with the buildings across the street. In this section [at 30 Columbia Heights] they visited the [Watchtower] Building Office, the Gilead School, the Carton-making Department, as well as the Paint and Upholstery Shop, Handbindery and Mechanical Maintenance"; an article, dated June 22, 1983, that describes spectators "gathered at windows of the adjacent 30 Columbia Heights building"; a yearbook of Jehovah's Witnesses from 1987, published in 1986, which states, "[B]uilding renovations in Brooklyn, New York, have included much work at 30 Columbia Heights and 360 Furman Street"; a yearbook of Jehovah's Witnesses from 1993, published in 1992, which states, "In the 30 Columbia Heights office building, the Construction Office is coordinating branch construction projects in some 50 lands, from Antigua to Zimbabwe"; a phone directory,

dated May 1999, listing uses at the subject site; elevator inspection and test reports for the subject building, dated May 18, 1989, June 14, 1989, August 30, 1989, July 23, 1990, December 20, 1990, July 16, 1991, July 18, 1991, August 12, 1991, June 3, 1992, June 8, 1992, August 11, 1992, May 21, 1993, May 28, 1993, December 17, 1993, March 24, 1994, September 15, 1994, August 22, 1995, December 26, 1995, December 28, 1995, June 5, 1996, April 3, 1997, July 17, 1997, September 1, 1997, December 4, 1997, April 21, 1998, May 5, 1998, May 19, 1998, August 24, 1998, December 15, 1998, June 3, 1999, November 16, 1999, November 24, 1999, May 12, 2000, May 17, 2000, October 16, 2000, October 19, 2000, October 25, 2000, April 13, 2001, April 20, 2001, March 12, 2002, March 25, 2002, March 26, 2002, April 1, 2002, December 18, 2002, December 19, 2002, December 20, 2002, April 21, 2003, March 22, 2004, April 7, 2004, April 19, 2004, October 22, 2004, November 16, 2004, April 25, 2005, June 16, 2005, June 28, 2005, September 30, 2005, November 2, 2005, November 28, 2005, May 4, 2006, May 8, 2006, May 12, 2006, May 17, 2006, August 7, 2006, March 5, 2007, March 22, 2007, April 24, 2007, May 9, 2007, May 29, 2007, May 7, 2008, August 24, 2010, and December 8, 2010, indicating the continued occupancy and maintenance of the subject building; Fire Department inspection records, dated December 21, 1994, December 21, 1996, and January 2, 2001, indicating the continued occupancy and maintenance of the subject building; correspondence from the Brooklyn Real Estate Office of the previous owner, dated March 28, 2017, listing annual inspections of cooling towers on November 12, 2001, November 1, 2002, December 15, 2003, October 11, 2004, October 27, 2005, November 1, 2006, November 19, 2007, October 31, 2008, November 1, 2009, November 1, 2010, November 1, 2011, October 1, 2012, November 1, 2013, November 1, 2014, November 1, 2015, and November 1, 2016, listing spring start-up service on April 1, 2001, April 15, 2002, April 1, 2013, April 1, 2004, April 11, 2005, April 1, 2006, April 1, 2007, April 1, 2008, April 1, 2009, April 1, 2010, April 1, 2011, April 1, 2012, April 1, 2013, April 1, 2014, April 1, 2015, and April 1, 2016, and other maintenance items occurring on July 4, 2008, and October 20, 2009, demonstrating continued occupancy and maintenance of the subject building; a yearbook of Jehovah's Witnesses, published in 2012, which states, "Day and night for more than 40 years, the 15-foot-tall red letters atop the world headquarters of Jehovah's Witnesses have been a familiar sight to residents of New York City, many of whom depend on the sign's useful display of the time and temperature"; a yearbook of Jehovah's Witnesses, published in 2015, which states, "On October 6, 2014, a trial arrangement for an English-language Internet television station called JW Broadcasting was launched. . . . Suitable space needed to be found. At the world headquarters of Jehovah's Witnesses in Brooklyn, New York, an ideal location was chosen in the 30 Columbia Heights building"; a lease between 25–30 Columbia Heights (Brooklyn), LLC and the Watchtower Bible and Tract Society of New York, Inc., dated August 3, 2016; and a Bargain and Sale Deed from the Watchtower Bible and Tract Society of New York, Inc. to 25–30 Columbia Heights (Brooklyn), LLC, dated August 3, 2016, and recorded in the Office of City Register,

MINUTES

Kings County, at CRFN 2016000277229 on August 11, 2016; and

WHEREAS, with regards to evidence of continuity, Appellant states that, as an owner-occupant of the subject building from approximately 1969 to 2017 and a non-profit organization, the previous owner has no records of leases to any third parties and, similarly, because the Signs were not advertising, there are no leases for their use or separate bills for their operation; and

WHEREAS, Appellant states that changing the subject matter of the individual letters of the Illuminated Sign with new letters of like size and illumination affixed to the existing sign structure would not constitute a “structural alteration, reconstruction or replacement” under ZR § 52-82; and

WHEREAS, Appellant produced a letter from a structural engineer indicating that the Signs’ rooftop sign structure, which supports the lettering of the Illuminated Sign, is and was capable of supporting changes to another word of similar total letter weight and that the Illuminated Sign’s letters themselves are not structural; and

WHEREAS, in the alternative, Appellant states that, assuming there is insufficient evidence that a permit was issued for the installation in the Signs in 1961 and that a permit was required for the modification of the lettering of the Illuminated Sign in 1970, the Signs are entitled to “non-conforming use” status under ZR § 12-10, which use may continue under ZR § 52-11—notwithstanding the language of ZR § 42-58 that “a *sign* erected prior to December 13, 2000, shall have *non-conforming use* status . . . where such *sign* shall have been issued a permit by the Department of Buildings on or before such date”; and

WHEREAS, Appellant states that ZR § 42-58 has no relevance to this appeal because, as interpreted by DOB, the requirement for the Signs to have obtained a permit to enjoy “lawful” non-conforming use status derives from the definition of “non-conformity” in ZR § 12-10; and

WHEREAS, accordingly, Appellant states that the Signs are lawfully “non-conforming” under ZR § 12-10, the use of which may be continued under ZR § 52-11 or structurally altered, reconstructed or replaced with new accessory signs pursuant to ZR § 52-82; and

DOB’S POSITION

WHEREAS, DOB states that there is evidence that that the Signs were erected without a permit in 1961 in violation of applicable laws, that the Signs are not non-conforming uses under ZR § 12-10, that use of the Signs may not continue under ZR § 52-11 and that the Signs may not be structurally altered, reconstructed or replaced under ZR § 52-82; and

WHEREAS, DOB states that, in accordance with comprehensive restraints placed on signs in manufacturing districts in 2001, ZR § 42-58 limits the protected “non-conforming use” status of signs located in manufacturing districts to signs that “shall have been issued a permit by the Department of Buildings . . . on or before” December 13, 2000; and

WHEREAS, DOB states that the evidence demonstrates that a permit was never issued and that the Signs were erected unlawfully; and

WHEREAS, DOB states that no copy of a permit for the Signs has been submitted by the Appellant to date; and

WHEREAS, DOB states that the location diagram on the Structural Drawing, allegedly a copy (hand-drawn in 1970) of a drawing submitted in 1961, indicates that the proposed placement of the Signs was at a location at least 243 feet south of Doughty Street; however, the Signs were erected on a different part of the subject building, approximately 57 feet south of Doughty Street, at least 186 feet from the location on the Structural Drawing; and

WHEREAS, DOB states that the Building Code required that all construction be performed in accordance with the approved plans for which a permit was issued and that the significantly different location of the Signs from that indicated on the Structural Drawings indicates that the Signs were not lawfully erected; and

WHEREAS, DOB states that the record does not include any direct evidence that a permit for the Signs was ever obtained or that construction was signed off; and

WHEREAS, DOB states that the Docket contains no notations or entries in the sub-columns denoting when an application is approved, commenced or completed, though there are dates for every other job on that page corresponding to at least one of those fields; and

WHEREAS, DOB states that, in other words, the Docket shows an application filed with no permit issued; and

WHEREAS, DOB states that the Ledger only indicates plan-examination approval and is not direct evidence of a permit but, even if evidence of a permit, the Ledger reflects a permit for a sign placed at a different location, indicating that the Signs were erected contrary to plans and accordingly unlawfully; and

WHEREAS, DOB states that the Ledger shows no notations or entries in the “Commenced,” “Completed” or “Inspector at Completion” columns, though there are dates in the “Completed” field for most other applications on the page, thereby indicating that Application No. 955 was never signed off; and

WHEREAS, DOB states that Section B26-13.0 of the New York City Building Code in effect in 1961 required that, before the issuance of a permit for an electric sign, an application needed approval by the Commissioner of Buildings as well as the Commissioner of Water Supply, Gas and Electricity; and

WHEREAS, DOB states that the absence of notations in the last column of the Docket suggests that approval of the Commissioner of Water Supply, Gas and Electricity was never received; and

WHEREAS, DOB states that there is no evidence that any Electric Sign application was ever submitted for the Signs in contrast to contemporaneous Electric Sign applications submitted for wall signs at 25 Columbia Heights, where the permits themselves demonstrate that the Department approved applications and issued corresponding permits after the processing fee was paid, the application was reviewed with objections issued and the Commissioner of Water Supply, Gas and Electricity approved the application; and

WHEREAS, DOB states that, during this time period, roof signs were required to have separate applications for sign structures (to demonstrate compliance with the Building Code) and for the signs themselves (to demonstrate conformity to the Zoning Resolution); that sign structures

MINUTES

required either an Alteration application or a Building Notice to be submitted; and that signs required Electric Sign applications and permits for illuminated signs and Sign applications and permits for non-illuminated signs, as corroborated by a sign at 465 Hamilton Avenue, Brooklyn (the “Hamilton Avenue Sign”); and

WHEREAS, DOB states that, in 1972, application materials for the Hamilton Avenue Sign, were filed under both Building Notice No. 4612 of 1971 to “erect sign support on roof” and Electric Sign Application No. 90 of 1972 for the “sign on structure of roof approved under B.N. 4612/71”; and

WHEREAS, with respect to Application No. 964 of 1961, for the 21st Street Sign, DOB states that this application and associated documents, which are incomplete, provide little insight because the permits were issued in connection with a Sign application, not an Alteration application (such as Application No. 955 of 1961 for the Signs); and

WHEREAS, DOB states that, because of the evidence of illegality, the Signs cannot be afforded a presumption of lawful establishment; and

WHEREAS, DOB states, in response to Appellant’s argument that a non-conforming use may be established absent a permit, that there is no support for a right to structurally alter, reconstruct or replace a non-conforming structure without a permit in light of ZR § 42-58, which explicitly requires a permit, and ZR § 12-10, which requires a non-conforming use to be “lawful”; and

WHEREAS, DOB states that, because the Signs were never issued a permit, the Signs are not non-conforming uses pursuant to ZR § 12-10, and their use may not be continued under ZR § 52-11; and

WHEREAS, DOB states that, given the size and weight of the lettering of the Illuminated Sign, which has a height in excess of 15 feet, the letters may not be altered under ZR § 52-21 or ZR § 52-81 because an alteration of the lettering would be a prohibited replacement or structural alteration, contrary to ZR § 52-82, and not a repair or “incidental alteration” under ZR § 52-21; and

WHEREAS, DOB states that photographs in the record indicate that the lettering of the Illuminated Sign was hoisted by more than ten people simultaneously when changed in 1970; and

WHEREAS, DOB states that the certificates of occupancy in the record do not confirm the lawfulness of the Signs because they state only that the subject building “conforms substantially to the approved plans and specifications and to the requirements of all applicable laws rules and regulations for the uses and occupancies specified herein,” and the Signs are not indicated on the certificates of occupancy; and

WHEREAS, DOB states that Appellant has not proven the continued active operation of the Sign’s accessory use; and

WHEREAS, DOB did not challenge, however, any evidence of continuity submitted by Appellant in response, so Appellant’s evidence of continuity is undisputed by DOB in this appeal; and

WHEREAS, accordingly, DOB states that the Signs are not lawfully “non-conforming” under ZR § 12-10, and their use must terminate; and

Discussion

WHEREAS, because this is an appeal for interpretation, pursuant to ZR § 72-11, the Board “may make such . . . determination as in its opinion should have been made in the premises in strictly applying and interpreting the provisions of” ZR §§ 12-10, 52-11 and 52-82; and

WHEREAS, based on DOB’s application records and other evidence presented in this appeal,² the Board concludes that it is reasonable to infer that the Signs were issued all permits required by DOB for illuminated roof signs when erected prior to December 15, 1961, and the Board finds that the Signs are lawfully “non-conforming” under ZR § 12-10 with their use permitted to continue under ZR § 52-11 and may be structurally altered, reconstructed or replaced with new accessory signs in accordance with ZR § 52-82; and

APPLICATION RECORDS

WHEREAS,, the Ledger, the Docket and the Structural Drawing indicate that Application No. 955 was filed for the Signs on the roof of the subject site on April 10, 1961; and

WHEREAS, the Ledger and the Docket—both of which contain erratic and incomplete entries—reflect incomplete and inconsistent recordkeeping on DOB’s part in 1961 with respect to construction applications; and

WHEREAS, the Ledger and the Docket do not themselves constitute affirmative evidence that no permit was issued for the Signs; and

WHEREAS, on the Ledger, there are no entries for any of the 35 applications listed under the Permits column, and the Permits sub-column entitled “Date” has application numbers re-stated rather than dates; and

WHEREAS, the Ledger has 32 blank fields under the Commenced column, 10 blank fields under the Completed column and Inspector at Completion column and 32 blank fields under the Remarks column; and

WHEREAS, on the Docket, none of the applications listed have three dates under the column entitled “Remarks” with the sub-columns “APPD,” “CMCD” and “CMPD”—approved, commenced and completed, respectively; and

WHEREAS, although the Ledger indicates that Application No. 955 of 1961 for the Signs was approved on May 16, 1961, the Docket shows no date under the Approved sub-column; and

WHEREAS, were one to assume that a blank field under the Approved sub-column on the Docket is affirmative evidence that an application was not approved, the Ledger and the Docket would be contradictory on their face; and

WHEREAS, contemporaneous proofs of DOB’s permitting practices in 1961 provided by Appellant further

² Consistent with DOB’s TPPN # 14/88, the record is replete with “Records or documentation from any City Agency,” including the Ledger and the Docket from DOB and photographs from the City’s Municipal Archives, which are “acceptable documentation in support of such existing use for legalization or proof of continual nonconforming use.” Because Appellant refers to DOB’s evidentiary standards as “wholly rational,” they are essentially undisputed, and this appeal ultimately turns on a fact-based evaluation of the record before the Board.

MINUTES

substantiate DOB's incomplete and inconsistent recordkeeping in 1961; and

WHEREAS, for instance, the 1959 BN Docket is mostly blank with respect to a column entitled "Remarks" with the sub-columns "APPD," "CMCD" and "CMPD"—approved, commenced and completed, respectively—which correspond to the columns on the Docket; and

WHEREAS, nearly all the Remarks column on the 1959 BN Docket is blank, with handwritten notations for two entries; and

WHEREAS, the Remarks column of the Docket for the Signs is similarly incomplete with no entry fully annotated with all three dates corresponding to approval, commencement and completion; and

WHEREAS, on the other hand, with respect to the Hamilton Avenue Sign presented by DOB and the 1951 BN Docket presented by Appellant, application materials from 19723 and recordkeeping materials from 1951 have little probative value with respect to DOB's permitting practices in 1961 because permitting practices may have changed over the course of 10 or 11 years; and

WHEREAS, accordingly, the incomplete and inconsistent recordkeeping reflected in the Ledger and the Docket is further corroborated by the 1959 BN Docket; and

WHEREAS, because of the facial contradiction between the Ledger and the Docket and the incomplete 1959 BN Docket, a blank field on the Docket can be ascribed to inconsistent recordkeeping on DOB's part in 1961, and it is implausible that a blank field on the Ledger or the Docket constitutes affirmative evidence that an event—such as application approval, permit issuance or completion of construction—did not occur; and

WHEREAS, the Ledger thus indicates that erection of the Signs was approved by DOB under Application No. 955 on May 16, 1961, but does not show that no permit was issued for the Signs; and

PERMITS

WHEREAS, notwithstanding that no copies of permits issued under Application No. 955 of 1961 appear in the record, the Board finds that it is likely that the Signs were issued all permits required for illuminated roof signs under Application No. 955 of 1961; and

WHEREAS, although the application materials themselves (besides the copy of drawings reproduced by hand in the Structural Drawings) for Application No. 955 of 1961 do not appear in the record, Appellant produced actual application materials for the 21st Street Sign, filed under Application No. 964 of 1961; and

WHEREAS, the application materials for the 21st Street Sign reflect that, in 1961, approved application materials themselves constituted permits for illuminated roof signs; and

WHEREAS, in further support of the inference that permits for the Signs were issued under Application No. 955 of 1961, both the Signs and the 21st Street sign were erected by the same sign company; and

WHEREAS, the evidence produced by Appellant with respect to the 21st Street Sign evinces that Artkraft Strauss erected the 21st Street Sign; and

WHEREAS, Artkraft Strauss was also hired by the previous owner of the subject site to erect the Signs in 1961, as reflected in the Structural Drawings: "Proposed Roof Sign for E. R. Squibb & Sons division of Olin Mathieson Chemical Corp. at #18/30 Columbia Heights s.w. cor. Doughty St. B'k'lyn, N.Y. Artkraft Strauss Sign Corp. S. Oberwanger, Engr, N.Y.C. Apr. 10/61"; and

WHEREAS, both the Signs and the 21st Street Sign are illuminated roof signs; and

WHEREAS, both the Signs and the 21st Street Sign are reflected in Artkraft Strauss's electrical department log books—indicating that Artkraft Strauss followed similar operating procedures with respect to the Signs and the 21st Street Sign; and

WHEREAS, application materials for the 21st Street Sign indicate that Artkraft Strauss obtained multiple permits under a single application, Application No. 964 of 1961, because the application materials for the 21st Street Sign indicate that the application materials were themselves permits; and

WHEREAS, the Ledger indicates that application materials for the erection of the Signs in conjunction with Application No. 955 were approved by DOB on May 16, 1961; and

WHEREAS, because Artkraft Strauss obtained all necessary permits for the 21st Street Sign, it is reasonable to infer that Artkraft Strauss would have followed similar procedures when erecting the Signs and would have obtained all necessary permits for the Signs; and

WHEREAS, nothing in the record indicates any violation or other enforcement action by DOB at the time of installation relating to the Signs' failure to comply with any laws or regulations—notwithstanding the Signs' illumination and prominent placement along the Brooklyn waterfront by the Brooklyn Bridge; and

WHEREAS, accordingly, a reasonable inference may be made that the Signs were issued all permits required for illuminated roof signs in conjunction with Application No. 955, as approved by DOB on May 16, 1961; and

WHEREAS, with respect to the location of the Signs, it is unclear from the record whether the schematic location diagram depicted in the Structural Drawing was the approved location pursuant to which a permit was issued in 1961 or whether the approved location would have been depicted on another sheet of the approved drawings in 1961; additionally, nothing in the record indicates that the location of the Signs as installed violated any specific provision of law in 1961 with respect to location so as to render the issuance of a permit invalid or that the Signs have been moved to a different location or position since their erection; and

WHEREAS, under subchapter B of Rule 49 (1 RCNY § 49-15), the DOB rule enacted to set forth procedures for registration of advertising signs by outdoor advertising companies, acceptable forms of evidence to establish the size and existence of a non-conforming sign as of the relevant date set forth in the Zoning Resolution to establish its lawful status "may include permits, sign-offs of applications after completion, photographs and leases

3 The City enacted a comprehensive amendment to the New York City Building Code in 1968—its first major revision since 1938. The effect of this 1968 enactment on DOB's permitting practices is unclear from the record in this appeal.

MINUTES

demonstrating that the non-conforming use existed prior to the relevant date,” 1 RCNY § 49-15(d)(15)(b); and

WHEREAS, additionally, under Rule 49, “permit applications, without other supporting documentation, are not sufficient to establish the non-conforming status of a sign,” 1 RCNY § 49-15(d)(15)(b); and

WHEREAS, Appellant is not an outdoor advertising company and, thus, cannot avail itself of Rule 49, but notes that there is no corresponding rule for non-outdoor advertising companies that would be available to the Appellant and that Rule 49 expressly contemplates the registration of both non-conforming advertising signs and non-conforming non-advertising, i.e., accessory, signs, 1 RCNY § 49-15(d)(5); and

WHEREAS, DOB’s TPPN # 14/88 is consistent with the approach in Rule 49 with regards to its acceptance of proofs other than a permit to establish legal non-conforming use; and

WHEREAS, accordingly, DOB’s position that failing to provide sufficient proof of the issuance of a permit forecloses non-conformity is not only different from the standard imposed on outdoor advertising companies under Rule 49—which permits the submission of photographs and leases, and does not necessarily require the production of a permit, to demonstrate non-conforming use—but imposes a higher standard for non-advertising signs in direct contravention of the public policy that aims to restrict advertising signage, which can pose a nuisance; and

WHEREAS, accordingly, based upon the foregoing, the Board concludes that it is likely that all permits required for illuminated roof signs were issued under Application No. 955 of 1961 for the erection of the Signs; and

NON-CONFORMITY

WHEREAS, the Board finds that the Signs were and are a “lawful” use of the rooftop sign structure at the subject site, “which does not conform to any one or more of the applicable *use* regulations of the district in which it is located, either on December 15, 1961 or as a result of any subsequent amendment thereto”—thereby meeting the definition of “non-conformity” under ZR § 12-10; and

WHEREAS, because the evidence in the record regarding continuity and accessory use of the Signs was unchallenged by DOB in this appeal, it is undisputed that use of the Signs has been continuous and accessory to a principal use at the subject site since 1961; and

WHEREAS, based upon the foregoing, the Board finds the Signs “may be continued” as lawful non-conformities accessory to a principal use at the subject site under ZR § 52-11 and, besides the Flashing Signs, “may be structurally altered, reconstructed or replaced in the same location and position” under ZR § 52-82; and

CONCLUSION

WHEREAS, the Board has considered all of DOB’s arguments on appeal but finds them ultimately unpersuasive with respect to the sole issue in this appeal; and

WHEREAS, for the foregoing reasons, the Board finds that the Signs are “non-conforming” accessory signs under ZR § 12-10, the use of which may be continued pursuant to ZR § 52-11 or structurally altered, reconstructed or replaced with new accessory signs in accordance with ZR § 52-82.

Therefore, it is Resolved, that the decision of the Department of Buildings, dated April 2, 2018, under Zoning

Resolution Determination Control No. 46921, shall be and hereby is *reversed* and that this appeal shall be and hereby is *granted*.

Adopted by the Board of Standards and Appeals, November 8, 2018.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated February 28, 2018, acting on Department of Buildings (“DOB”) Application No. 321435719 reads in pertinent part:

Obtain variance approval from the Board of Standards and Appeals for the following objections:

1. Proposed floor area ratio is contrary to ZR 113-51;
2. Proposed height is contrary to ZR 113-55 and ZR 23-631;
3. Proposed rear yard setback is contrary to ZR 113-544;
4. Proposed setback ratio is contrary to ZR 113-55 and ZR 23-631;
5. Proposed sky exposure plane is contrary to ZR 113-55 and ZR 23-631;
6. Proposed accessory off street parking spaces is contrary to ZR 113-561 and ZR 25-31;
7. Proposed minimum distance between legally required windows and lot lines is contrary to ZR 23-861; and

WHEREAS, this is an application under ZR § 72-21 to permit, on a site located within an R3-1 zoning district, the Special Ocean Parkway District and the Special Ocean Parkway Subdistrict, in Brooklyn, the construction of three-story, plus basement and cellar, Use Group (“UG”) 3 dormitory that does not comply with the zoning regulations

MINUTES

relating to floor area ratio, height, rear yard setback, sky exposure plane, accessory off-street parking spaces and minimum distance between legally required windows and lot lines, contrary to ZR §§ 23-631, 23-861, 25-31, 113-51, 113-544, 113-55 and 113-561; and

WHEREAS, this application is filed on behalf of Cheder, a non-profit educational institution (the “Applicant”); and

WHEREAS, the Applicant operates a UG 3 school and accessory dormitory building for approximately 226 high school and post-high school aged students, also known as Yeshiva Sholom Shachna, on the lot located immediately to the east of the premises (Lot 99) permitted pursuant to a variance granted by the Board, pursuant to ZR § 72-21 under BSA Cal. No. 54-06-BZ on February 27, 2007 (the “Adjacent School”); and

WHEREAS, Yeshiva Sholom Shachna is accredited by the Association of Advanced Rabbinical and Talmudic Schools, provides both secular and religious instruction and provides a four-year degree program that enables its students to obtain a bachelor’s degree in Talmudic Law; and

WHEREAS, a public hearing was held on this application on June 19, 2018, after due notice by publication in *The City Record*, with a continued hearing on August 14, 2018, and then to decision on November 8, 2018; and

WHEREAS, Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the subject site and surrounding neighborhood; and

WHEREAS, Community Board Community Board No. 12, Brooklyn, recommends approval of this application; and

WHEREAS, the Board was also in receipt of one letter in support and four letters in opposition the subject application, citing concerns regarding children playing on the roof and amplified noise, the substantial massing of the proposal blocking access to light and air, the lack of parking proposed at the site, which is needed to accommodate parents who visit their children at the site and arrive by car to bring food or pick up laundry and the utilization of public street furniture for bicycle parking and storage; and

WHEREAS, the subject site is located on the north side of Elmwood Avenue, between East 3rd Street and Ocean Parkway, in an R3-1 zoning district, the Special Ocean Parkway District and the Special Ocean Parkway Subdistrict, in Brooklyn; and

WHEREAS, the site has approximately 80 feet of frontage along Elmwood Avenue, a depth of 81 feet at the western lot line and 86 feet at the eastern lot line, 6,673 square feet of lot area and is occupied by a two-story plus cellar and basement building; and

WHEREAS, the Applicant proposes to occupy the site with a three-story, plus cellar and basement, building having 15,132 square feet of floor area, a floor area ratio (“FAR”) of 2.27, a front wall height of 27’-10.5”, total height of 37’-4.5”, a 15 foot rear yard, penetration of the sky exposure plane, a 15 foot setback above the front wall height of 27’-10.5” and zero accessory off-street parking spaces; and

WHEREAS, at the subject site, a maximum of 1.5 FAR

is permitted pursuant to ZR § 113-51; a setback in the perimeter wall is required above a maximum height of 21 feet above the base plane and compliance with a slope plane thereafter to meet at a ridge line of 35 feet are required pursuant to ZR §§ 113-55 and 23-631(b); one rear yard with a minimum depth of 20 feet is required pursuant to ZR § 113-544; one accessory off-street parking space is required for each 6 dormitory beds pursuant to ZR §§ 113-561 and 25-31; and the minimum distance between a legally required window and a rear or side lot line is 30 feet pursuant to ZR § 23-861; and

WHEREAS, accordingly, the Applicant seeks the subject relief to facilitate the development of a dormitory containing 30 rooms with 132 beds for students enrolled in the post-high school seminary program at the Adjacent School; and

WHEREAS, the Applicant submits that a building in full compliance with the Zoning Resolution would be two stories, plus basement and cellar, containing a total of 8 rooms and 31 dormitory beds; and

WHEREAS, the Applicant submits that approximately 90 percent of its post-high school students require dormitory beds and that the beds proposed in the subject application will be utilized in addition to the 30 beds that currently exist in the Adjacent School and have proven to be insufficient to meet student enrollment and demand, which is anticipated to double in the next three years to a total of 190 students; and

WHEREAS, the Applicant represents that the post-high school curriculum, in particular, requires the students to be completely dedicated to their studies and, accordingly, the locating of dormitories in close proximity to the Adjacent School—where the students attend all their classes and eat all their meals—is a programmatic need because without the subject proposal, many students would not choose to attend the Adjacent School; and

WHEREAS, the Board acknowledges that the Applicant, as an educational institution, is entitled to deference under the law of the State of New York as to zoning and its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, specifically, as held in *Cornell University v. Bagnardi*, 68 NY2d 583 (1986), an educational or religious institution’s application is to be granted unless it can be shown to have an adverse effect on the health, safety or welfare of the community and general concerns about traffic and disruption of the residential character of the neighborhood are insufficient grounds for the denial of such application; and

WHEREAS, based on the above, the Board finds that the Applicant’s programmatic needs create unnecessary hardship and practical difficulty in developing the premises in compliance with the applicable zoning regulations; and

WHEREAS, because the Applicant is a non-profit institution and the variance is needed to further its not-for-profit mission, the finding set forth in ZR § 72-21(b) does not have to be made to grant the variance requested in this application; and

WHEREAS, the Applicant represents that, pursuant to

MINUTES

ZR § 72-21(c), the variance, if granted, will not alter the character of the neighborhood, impair the appropriate use or development of adjacent property, or be detrimental to the public welfare, to wit, the subject proposal is similar in total height to the Adjacent School, which has a perimeter wall height of 35 feet, and shorter than several multi-family residential buildings in the immediate area; and

WHEREAS, the Applicant originally proposed a front wall and total height of 40'-8.25", without setback, and a total of 150 dormitory beds, but, in response to concerns raised by neighbors and the Board regarding the substantial massing of the proposal, the Applicant revised the proposal to reduce the floor-to-floor height of the second and third floors from more than 11 feet to 9'-6" and provide a 15 foot setback at a height of 27'-10.5", changes that reduced the number of dormitory beds in the proposed building by 18; and

WHEREAS, with regards to other concerns expressed by neighbors in both letters to and testimony before the Board, the Applicant states that there will be no access for students to the roof of the subject building, that students are not permitted to drive or keep a car at the premises and amended the plans to include a laundry room and bicycle parking in the cellar and rear yard; and

WHEREAS, with regards to the requested reduction of the required rear yard by 5 feet, the Applicant submits that the rear of the site abuts Long Island Rail Road tracks, which provide more than adequate separation between the rear of the subject building and the residential building on the other side of the tracks; that the Adjacent School, located on the lot to the immediate east of the premises, was approved with no rear yard and that the Applicant currently rents the building located on the lot to the immediate west of the premises, thus the reduced rear yard will not adversely affect any adjacent property; and

WHEREAS, considering the foregoing, the Board finds that the proposal will not alter the essential character of the surrounding neighborhood, nor impair the use or development of adjacent properties and not be detrimental to the public welfare; and

WHEREAS, the Applicant states that the practical difficulties complained of are inherent to its unique programming needs and were not caused by the owner of the site or a predecessor in title; and

WHEREAS, the Board finds that the hardship herein was not created by the Applicant; and

WHEREAS, the Applicant submits that, consistent with ZR § 72-21(e), the subject proposal represents the minimum variance needed to accommodate its programmatic needs; and

WHEREAS, the Board finds that this proposal is the minimum necessary to allow the Applicant to fulfill its programmatic needs; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement ("EAS") CEQR No. 17-BSA-136K, received March 12, 2018; and

WHEREAS, the EAS documents that the project, as proposed, would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historical and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, the New York City Landmarks Preservation Commission conducted an environmental review of the subject site and concluded that it was of neither architectural nor archaeological significance; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 to permit, on a site located within an R3-1 zoning district, the Special Ocean Parkway District and the Special Ocean Parkway Subdistrict, in Brooklyn, the construction of three-story, plus basement and cellar, Use Group ("UG") 3 dormitory that does not comply with the zoning regulations relating to floor area ratio, height, rear yard setback, sky exposure plane, accessory off-street parking spaces and minimum distance between legally required windows and lot lines, contrary to ZR §§ 23-631, 23-861, 25-31, 113-51, 113-544, 113-55 and 113-561; *on condition* that all work shall substantially conform to drawings as they apply to the objections above noted and filed with this application marked "Received November 8, 2018"-Fifteen (15) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum 15,132 square feet of floor area (2.27 FAR), a maximum front wall height of 27'-10.5", a minimum setback of 15 feet from the front wall above 27'-10.5", a maximum total height of 37'-4.5", a rear yard with a minimum depth of 15 feet and zero parking spaces;

THAT the above conditions shall be listed on the Certificate of Occupancy;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a Certificate of Occupancy, indicating this

MINUTES

approval and calendar number (“BSA Cal. No. 2017-201-BZ”) shall be obtained within four (4) years, by November 8, 2022;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portion related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, November 8, 2018.

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated December 6, 2017, acting on DOB Application No. 121192618, reads in pertinent part:

Proposed physical cultural establishment at floors “1st, 4th, 5th, and 6th,” including the outdoor roof terrace, in a C6-4 (HY) district is not permitted as of right as per ZR § 32-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, on a site located in an C6-4 zoning district and in the Special Hudson Yards District, a physical culture establishment (“PCE”) on portions of the first, fourth, fifth, and sixth floor, and fifth floor terrace, of a proposed 71-story mixed-use residential and commercial building, contrary to ZR § 32-10; and

WHEREAS, on August 21, 2018, the Board granted a special permit pursuant to ZR § 73-36 authorizing the operation of a physical culture establishment—a spa operated by Equinox Hotel—in portions of the first and fifth

floors of the subject building under BSA Cal. No. 2018-37-BZ for a term of ten (10) years, expiring August 21, 2028; and

WHEREAS, a public hearing was held on this application on August 14, 2018, after due notice by publication in *The City Record*, with a continued hearing on November 8, 2018, and then to decision on that same date; and

WHEREAS, Community Board 4, Manhattan, recommends approval of this application; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the southeast corner of West 33rd Street and 11th Avenue, in a C6-4 zoning district and in the Special Hudson Yards District, in Manhattan; and

WHEREAS, the site has approximately 228 feet of frontage on West 33rd Street, 234 feet of frontage on 11th Avenue, 50,167 square feet of lot area, and will be occupied by a 71-story mixed-use building in which the PCE will be located; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use I* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) permits a PCE located on the roof of a commercial building or commercial portion of a mixed-use building, provided the following findings are made:

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

- (1) that such *use* shall be an incidental part of a permitted *physical culture or health establishment* located within the same *commercial or mixed building*;
- (2) that such *use* shall be open and unobstructed to the sky;
- (3) that such *use* shall be located on a roof not less than 23 feet above *curb level*;
- (4) that the application for such *use* shall be made jointly by the owner of the *building* and the operator of such *physical culture or health establishment*; and
- (5) that the Board shall prescribe appropriate controls to minimize adverse impacts on the surrounding area, including but not limited to, requirements for the location, size and types of signs, limitations on the manner and/or hours of operation, shielding of floodlights, adequate screening, and the control of undue noise including the amplification of sound, music or voices;

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant submits that the proposed PCE will occupy 42,570 square feet of floor area at the subject site, with 770 square feet of floor area on the first floor with the PCE entrance, elevators, and a juice bar;

21,061 square feet of floor area on the fourth floor with a cycling studio, group fitness area, strength and cardio areas, a reception lobby, offices, and locker rooms; 18,136 square feet of floor area on the fifth floor with an indoor swimming pool, plunge pool and pool areas, areas for yoga and Pilates, a café, and an outdoor terrace with an outdoor swimming pool; and, 2,603 square feet of floor area on the sixth floor with a fitness area, cabanas, and office space; and

WHEREAS, the applicant represents that the proposed PCE will operate as “Equinox” with the following hours of operation: Monday through Friday, 5:00 a.m. to 11:30 p.m.; Saturday and Sunday, 7:00 a.m. to 10:00 p.m.; use of the outdoor terrace will be limited to PCE patrons and will operate from Memorial Day to October, from sunrise to 11:00 p.m.; and

WHEREAS, the applicant provided evidence that the PCE space will provide sound attenuation measures to ensure noise levels in other portions of the building do not exceed 45 dBA; specifically, the applicant proposes to maintain a closed window condition by providing an alternate means of ventilation; limiters will be used on any outdoor music equipment; floating floors and jack slab construction will be utilized in areas beneath the strength area, group fitness area, and cycling studio; and, the outdoor terrace will have a restricted season with limited hours, outdoor music and gatherings will be permitted only between 10:00 a.m. and 8:00 p.m.; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because the applicant anticipates the PCE will be an asset to the surrounding area and new Hudson Yards development; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant represents that the PCE will contain facilities for the provision of physical improvement utilizing exercise equipment, individual and group fitness training, and swimming pools; and

WHEREAS, accordingly, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the applicant states that the PCE use to be located on the roof portion of the subject site, a swimming pool and lounge area, is an incidental part of the PCE; is open and unobstructed to the sky; is not less than 23 feet above curb level; and, the applicant submitted affidavits demonstrating that this application has been made jointly by both the operator of the PCE and the owner of the building; and

WHEREAS, accordingly, the Board finds that the subject PCE use located on the fifth-floor terrace is consistent with those eligible pursuant to ZR § 73-36(b) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be

MINUTES

satisfactory; and

WHEREAS, the applicant submits that the PCE space will be protected with a wet sprinkler system and an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, and a connection of the interior fire alarm system to an FDNY-approved central station—will also be installed within the PCE space; and

WHEREAS, by letter dated November 7, 2018, the Fire Department states that an application for a Place of Assembly permit has been filed and is disapproved; several fire alarm applications have been filed and are currently disapproved; the building's fire suppression systems are currently being installed and have been inspected by the Bureau's Construction, Demolition and Abatement unit and found to be satisfactory; and, the Bureau of Fire Prevention recommends that the Board, in granting a special permit, add as a condition that the applicant obtains an operating permit for the place of assembly space, as well as an approval and sign-off for the fire alarm system; an inspector from the Licensed Public Place of Assembly unit will visit the space and will issue violation orders accordingly; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood on account that it is anticipated to draw its patronage from the surrounding area within walking distance of the PCE, and, beyond limiting the hours of use and amplification of noise on the fifth-floor terrace, the applicant proposes to integrate the lighting of the outdoor space into the exterior elements, such as the handrails, planters, swimming pool, and exterior trellis structure, and will utilize recessed floor lighting, limited wall fixtures and lanterns in seating areas; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community and that the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (“EAS”) CEQR No. 18BSA076M, received December 22, 2017; and

WHEREAS, the EAS documents that the project, as proposed, would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Activities; Open Space; Shadows; Historic and Cultural Resources; Urban Design; Natural Resources; Hazardous Materials; Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction Impacts; and

WHEREAS, an (E) designation (No. E-137) has been placed on the subject site for hazardous materials and noise

requiring alternate means of ventilation to maintain a closed window condition and specific window/window-wall attenuation that varies based on the distance of a particular floor from street level (i.e., for the commercial floor of the subject building, window/window-wall attenuation of 32 dB(A) from 0 to 100 feet above street level, window/window-wall attenuation of 28 dB(A) from 100 to 200 feet above street level and window/window-wall attenuation of 26 dB(A) from 201 to 400 feet above street level); and

WHEREAS, on April 7, 2015 a Notice To Proceed was issued by the Office of Environmental Remediation stating that the proposed remedial action plans submitted in connection with the E-designation on the site were acceptable;

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03 and that permitting the subject PCE space proposed on the first, fourth, fifth, and sixth floor, and fifth floor outdoor terrace of the subject building, is appropriate, with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located within a C6-4 zoning district and in the Special Hudson Yards district, a physical culture establishment on portions of the first, fourth, fifth, and sixth floor, and fifth floor outdoor terrace, of a proposed 71-story mixed-use commercial and residential building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “October 17, 2018”– Thirteen (13) sheets; and *on further condition*:

THAT the term of the PCE grant shall expire on November 8, 2028;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance under Local Law 58/87 shall be as reviewed and approved by DOB;

THAT the sprinkler system shall be installed and maintained as indicated on the Board-approved plans;

THAT an approved fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and a connection to an FDNY-approved central station—shall be installed and

MINUTES

maintained within the PCE space;

THAT minimum 3-foot-wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT a place of assembly permit shall be obtained;

THAT the fire alarm system shall be approved and signed off prior to the issuance of a certificate of occupancy;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy indicating the subject calendar number (“BSA Cal. No. 2017-321-BZ”) shall be obtained within four (4) years, by November 8, 2022;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, November 8, 2018.

APPLICANT – Jesse Masyr, Esq., Fox Rothschild LLP, for 11-02 37th Avenue LLC, owner; New York Black Car Operators’ Injury Compensation Fund, Inc., lessee.

SUBJECT – Application January 2, 2018 – Special Permit (§73-44) to permit the reduction of required accessory off-street parking spaces for a UG 6B office use (PRC-B1 parking category) contrary to ZR §44-21. M1-3 zoning district.

PREMISES AFFECTED – 11-02 37th Avenue, Block 361, Lot 18, Borough of Queens.

COMMUNITY BOARD #1Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated December 6, 2017, acting on New Building Application No. 421535002, reads in pertinent part:

“ZR 44-21 The number of accessory parking spaces provided for Use Group 6B office does not comply. Referred to BSA for a special permit pursuant to ZR 73-44”; and

WHEREAS, this is an application under ZR §§ 73-44 and 73-03 to permit, in an M1-3 zoning district, a reduction

in the number of accessory off-street parking spaces required for office use in parking requirement category B1 (Use Group 6), contrary to ZR § 44-21; and

WHEREAS, a public hearing was held on this application on August 21, 2018, after due notice by publication in *The City Record*, with a continued hearing on November 8, 2018, and then to decision on the same date; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 1, Queens, recommends disapproval of this application, stating that the proposed parking reduction would result in significant traffic impacts on the surrounding area, which has limited mass transit options; and

WHEREAS, residents of the surrounding area submitted testimony in opposition to this application, citing concerns with limited parking in the surrounding area; and

WHEREAS, the subject site is located on the southeast corner of 37th Avenue and 11th Street, in an M1-3 zoning district, in Queens; and

WHEREAS, the subject site has approximately 75 feet of frontage along 37th Avenue, 100 feet of frontage along 11th Street, 7,507 square feet of lot area and is occupied by a two-story manufacturing building to be demolished; and

WHEREAS, ZR § 73-44 provides, in pertinent part, that:

In the districts indicated, the Board of Standards and Appeals may permit a reduction in the number of *accessory* off-street parking spaces required by the provisions of Section 36-21 or 44-21 (General Provisions) for ambulatory diagnostic or treatment facilities listed in Use Group 4 and *uses* in parking requirement category B1 in Use Group 6, 7, 8, 9, 10, 11, 14 or 16 to the applicable number of spaces specified in the table set forth at the end of this Section, provided that the Board finds that occupancy by ambulatory diagnostic or treatment facilities listed in Use Group 4 or *uses* in parking category B1 is contemplated in good faith on the basis of evidence submitted by the applicant. In such a case the Board shall require that the certificate of occupancy issued for the *building* within which such *use* is located shall state that no certificate shall thereafter be issued if the *use* is changed to a *use* listed in parking category B unless additional *accessory* off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius.

* For ambulatory diagnostic or treatment facilities listed in Use Group 4, parking spaces required for number of square feet of *floor area* or *cellar* space, except *cellar* space used for storage; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, inter alia, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant proposes the develop the subject site with a five-story, with cellar and mezzanine, commercial building with approximately 33,318 square feet of floor area (4.44 FAR), approximately 22,041 square feet of which will be dedicated to traditional administrative office space and 7,418 square feet of which will be dedicated to a training facility that offers classes to professional drivers, with a total of 64 accessory off-street parking spaces; and

WHEREAS, the applicant states that, at the subject site, 111 accessory off-street parking spaces are required under ZR § 44-21, calculated at a rate of one space per 300 square feet of floor area; and

WHEREAS, pursuant to ZR § 73-44, the Board may reduce the required parking for office use in parking requirement category B1 (Use Group 6) at the subject site from one space per 300 square feet of floor area to one space per 600 square feet of floor area provided that the Board finds that such occupancy is contemplated in good faith; and

WHEREAS, the applicant submitted a commitment letter and an affidavit stating that the building will be occupied by office use in parking requirement category B1 (Use Group 6); and

WHEREAS, the applicant further states that any certificate of occupancy for the building will state that no subsequent certificate of occupancy may be issued if office use in parking requirement category B1 (Use Group 6) is changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius; and

WHEREAS, the Board finds the commitment letter and affidavit credible and that the applicant has submitted sufficient evidence of good faith in maintaining the proposed office use at the site; and

WHEREAS, in response to community concerns and at the Board's instruction, the applicant increase the number of parking spaces proposed from 54 parking spaces to 64 parking spaces; and

WHEREAS, in response to community concerns, the Board also directed the applicant to provide a parking

demand study (the "Parking Study") to analyze whether the proposed parking reduction would have any adverse impact on the surrounding area; and

WHEREAS, the Parking Study includes a parking demand analysis as well as an off-site parking availability study, determining that the proposed uses will generate a peak hour demand of a maximum of 27 parking spaces on typical weekdays (from 9:00 a.m. to 11:00 a.m.), 50 parking spaces on Wednesday (from 10:00 a.m. to 11:00 a.m.) and 50 parking spaces on weekends (between 10:00 a.m. and 3:00 p.m.)—leaving a minimum of 37 unoccupied parking spaces on a typical weekday and a minimum of 14 unoccupied parking spaces on Wednesdays and weekends; and

WHEREAS, the applicant notes that the Parking Study identifies the parking demand for the proposed building by forecasting the parking demand for the employees of the traditional administrative office use and training facility separately; that, for the traditional administrative office use, a survey was completed to determine the mode choices of current employees; that, for the training facility, parking demand was forecasted based on surveys conducted at an existing training facility approximately ½ mile south of the subject site; and that, even though recent trends indicate a reduction in automotive use, the Parking Study conservatively assumes that all future employees are at work during a typical weekday and that all classes in the training facility are attended at maximum capacity; and

WHEREAS, the applicant notes that the Parking Study also analyzes a generic office use in order to confirm that peak parking demand would be lower under a generic office use than the proposed use; that, under a generic office scenario, parking accumulation would peak with approximately 40 occupied spaces on a typical weekday and 7 occupied spaces on a typical Saturday; and that the use of the proposed building represents the worst-case parking scenario; and

WHEREAS, additionally, although finding that the proposed building would not generate demand for on-street parking space, the Parking Study also surveys the surrounding area to assess on-street parking capacity in the event that the parking demand for the proposed building exceeds capacity; and

WHEREAS, the Parking Study indicates that, during weekday mornings, there are approximately 171 on-street parking spaces available; that, during weekday midday, there are approximately 247 on-street parking spaces available; and that, during Saturday mornings, there are approximately 410 on-street parking spaces available; and

WHEREAS, the applicant states that, in response to questions from the community, the Parking Study includes a second survey of the surrounding area to confirm on-street parking capacity, finding that, during weekday mornings, there are approximately 133 on-street parking spaces available; that, during weekday midday, there are approximately 215 parking spaces available; and that, during evening periods, there are approximately 141 on-street parking spaces available; and

MINUTES

WHEREAS, the Parking Study concludes that, even during the peak parking demand and utilization periods, the 64 accessory off-street parking spaces proposed is sufficient to satisfy demand; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of parking regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of parking regulations will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 18BSA080Q, received November 5, 2018; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, by letter dated July 31, 2018, the New York City Department of Environmental Protection (“DEP”) states that the proposed project would not result in any potential for significant air quality or noise impacts; and

WHEREAS, by correspondence dated February 20, 2018, the New York City Landmarks Preservation Commission represents that there are no architectural or archaeological resources of concern at the subject site and that the proposed project would not result in significant adverse impacts to historic or cultural resources; and

WHEREAS, by correspondence dated May 16, 2018, the New York City Department of City Planning’s Waterfront and Open Space Division represents that the proposed project will not substantially hinder the achievement of any Waterfront Revitalization Program (“WRP”) policy and that this action is consistent with WRP policies; and

WHEREAS, by correspondence dated June 18, 2018, DEP states that a Phase II Environmental Site Assessment is necessary to adequately identify and characterize the surface and subsurface soils of the property; and

WHEREAS, by correspondence dated October 17, 2018, the applicant requests that an (E) designation for hazardous materials be assigned for the subject site to allow for the Phase II work to be done after Board approval due to physical, financial, and scheduling reasons; and

WHEREAS, by correspondence dated November 2, 2018, DEP states that it has no objection to the (E)

designation for this project; and

WHEREAS, an (E) designation (E-512) has been placed on the site for hazardous materials, and an environmental review by the New York City Office of Environmental Remediation (“OER”) must be satisfied prior to the issuance of building permits to facilitate the construction of the proposed building; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-44 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR §§ 73-44 and 73-03 to *permit*, in an M1-3 zoning district, a reduction in the number of accessory off-street parking spaces required for office use in parking requirement category B1 (Use Group 6), contrary to ZR § 44-21; *on condition* that all work and site conditions shall conform to drawings filed with this application marked “Received November 5, 2018”-Thirteen (13) sheets; and *on further condition*:

THAT the certificate of occupancy issued for the building within which the office use in parking requirement category B1 (Use Group 6) is located shall state that no certificate shall thereafter be issued if the Use Group 6 offices are changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius;

THAT an (E) designation (No. E-512) has been placed on the subject site for hazardous materials;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by November 8, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

APPLICANT – Law Office of Lyra J. Altman, for Laura Betesh and Isaac A. Cabasso, owners.

SUBJECT – Application January 16, 2018 – Special Permit (§73-622) for the enlargement of an existing single-family home contrary ZR §23-142 (floor area, open space and lot coverage); ZR §23-48 (side yards) and ZR §23-47 (rear yard). R4 zoning district.

PREMISES AFFECTED – 2213 East 13th Street, Block 7374, Lot 79, Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated December 19, 2017, acting on Department of Buildings (“DOB”) Application No. 321636011 reads in pertinent part:

The proposed enlargement of the existing one family residence in an R4 zoning district:

1. Creates non-compliance with respect to floor area by exceeding the allowable floor area ratio and is contrary to Section 23-142 of the Zoning Resolution;
2. Creates non-compliance with respect to the lot coverage and is contrary to Section 23-142 of the Zoning Resolution;
3. Creates non-compliance with respect to the side yards by not meeting the maximum requirement of Section 23-48 of the Zoning Resolution;
4. Creates non-compliance with respect to the rear yard by not meeting the minimum requirements of Section 23-47 of the Zoning Resolution;
5. Creates non-compliance with respect to the open space by not meeting the minimum requirements of Section 23-142 of the Zoning Resolution; and

WHEREAS, this is an application under ZR § 73-622 to permit, in an R4 zoning district, the enlargement of a detached one-family dwelling that does not comply with the zoning requirements for floor area ratio (“FAR”), open space, lot coverage, side yards, and rear yards contrary to ZR §§ 23-142, 23-48, and 23-47; and

WHEREAS, a public hearing was held on this application on August 14, 2018, after due notice by publication in *The City Record*, with a continued hearing on

August 21, 2018, and November 8, 2018, and then to decision on that date; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of East 13th Street, between Avenue V and Gravesend Neck Road, in an R4 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 25 feet of frontage, 100 feet of depth, 2,500 square feet of lot area and is occupied by a detached one-story plus cellar one-family dwelling containing 1,085 square feet of floor area (0.43 FAR), 43 percent of lot coverage, 57 percent of open space, two (2) side yards with widths of 2’-11.25” and 3’-5.25”, and a rear yard with a depth of 34’-4”; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single*1- or *two-family detached* or *semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

non-complying side yard and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;

- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins. Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that this application located within an area in which the special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge the detached one-family residence, as contemplated by ZR § 73-622; and

WHEREAS, the applicant proposes to enlarge the existing detached dwelling by horizontally extending the dwelling into the rear yard, constructing a front yard porch, and vertically enlarging the dwelling, resulting in a two-story plus attic and cellar dwelling with 3,106 square feet of floor area (1.24 FAR), 51 percent of lot coverage, 49 percent of open space, and a rear yard with a depth of 24'-11"; and

WHEREAS, the applicant proposes to maintain the two (2) existing side yards with depths of 2'-11.25" and 3'-5.25", and front yard of 6'-6"; and

WHEREAS, the proposed enlargement includes a vertical and horizontal extension of the two (2) existing non-complying side yards with widths of 2'-11.25" and 3'-5.25", and the applicant has submitted a 1929 Desk Atlas map of the immediate area, including the subject site, demonstrating that the subject site was developed with a semi-detached dwelling in approximately the same orientation as the site is occupied

today and, thus, the non-complying side yards predated the 1961 Zoning Resolution and are legal non-compliances; and

WHEREAS, at the subject site, a maximum of 0.75 FAR (1,875 square feet of floor area) or 0.9 FAR (2,250 square feet of floor area), including an increase in the permissible FAR by 20 percent if such increase in floor area is located directly under a sloping roof that rises at least three (3) and one half (1/2) inches in vertical distance for each foot of horizontal distance and the structural headroom of such floor area is between five (5) and eight (8) feet, a maximum of 45 percent lot coverage is permitted, and a minimum of 55 percent open space is required pursuant to ZR § 23-142, two (2) side yards, each with a minimum width of five (5) feet, are required pursuant to ZR § 23-48, and a minimum rear yard depth of 30 feet is required pursuant to ZR § 23-47; and

WHEREAS, the applicant provided an analysis of single- or two-family dwellings located within 400 feet of the subject premises within an R4 zoning district (the "Study Area") concluding that, of the 105 qualifying residences, 49 residences (47 percent) have an FAR greater than 0.75, and 37 residences (35 percent) have FARs ranging from 0.90 to 1.75; and

WHEREAS, with regards to lot coverage and open space, the applicant demonstrated that 60 residences (57 percent) within the Study Area have a lot coverage greater than 45 percent, ranging from 46 percent to 66 percent, and open space of less than 55 percent, ranging from 54 percent to 34 percent; and

WHEREAS, with regards to the proposed rear yard, the applicant provided an analysis of the rear yard conditions on the subject block demonstrating that, of the 43 other lots on the subject block occupied by single- or two-family dwellings, 12 lots (28 percent) have rear yards with a depth of less than 30 feet, with rear yards ranging in depth from 21 feet to 29 feet; and

WHEREAS, the applicant also submitted a photographic streetscape demonstrating that the proposed building will fit in with the built conditions of the surrounding area; and

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, the Board finds that the proposed building as enlarged will not alter the essential character of the neighborhood or district in which the subject building is located, nor impair the future use or development of the surrounding area; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of bulk regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18-BSA-083K, dated January 18, 2018; and

MINUTES

WHEREAS, in light of the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622 to permit, in an R4 zoning district, the enlargement of a detached one-family dwelling that does not comply with the zoning requirements floor area ratio, open space, lot coverage, side yards, and rear yards contrary to ZR §§ 23-142, 23-48, and 23-47; on condition that all work shall substantially conform to drawings as they apply to the objection above-noted, filed with this application and marked “October 18, 2018”—Nineteen(19) sheets; and on further condition:

THAT the following shall be the bulk parameters of the building: a maximum floor area ratio of 1.24 (3,106 square feet of floor area), a minimum of 49 percent open space, a maximum of 51 percent lot coverage, side yards with minimum widths of 2'-11.25" and 3'-5.25", and a rear yard with a minimum depth of 24'-11", as illustrated on BSA-approved plans;

THAT the removal of exterior walls and/or joists in excess of those indicated on the BSA-approved plans is prohibited and shall void the special permit;

THAT the above conditions shall be indicated on the certificate of occupancy;

THAT a certificate of occupancy indicating this approval and calendar number (“BSA Cal. No. 2018-4-BZ”) shall be obtained within four (4) years, by November 8, 2022;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the special relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, November 8, 2018.

CEQR #18-BSA-103K

APPLICANT – Law Office of Lyra J. Altman, for Brenda Zanziper and Yerachmiel Zanziper, owners.

SUBJECT – Application February 27, 2018 – Special Permit (§73-621) to permit the enlargement of an existing single-family home contrary to ZR §23-142 (floor area ratio, lot coverage and open space). R3-2 zoning district.

PREMISES AFFECTED – 1637 Madison Place, Block 7702, Lot 28, Borough of Brooklyn.

COMMUNITY BOARD #18BK

ACTION OF THE BOARD – Application granted on

condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated February 9, 2018, acting on Alteration Application No. 321191090, reads in pertinent part:

1. Proposed plans are contrary to ZR 23-142 in that the proposed Floor Area Ratio (FAR) exceeds the permitted .50 and BSA special permit is required.
2. Proposed plans are contrary to ZR 23-142 in that the proposed Lot Coverage is greater than the maximum permitted 35% and BSA special permit is required.
3. Proposed plans are contrary to ZR 23-142 in that the proposed Open space is less than the required minimum permitted 65% and BSA special permit is required; and

WHEREAS, this is an application under ZR §§ 73-621 and 73-03 to permit, in an R3-2 zoning district, the enlargement of an existing single-family residence that does not comply with zoning regulations for floor area, lot coverage and open space, contrary to ZR § 23-142; and

WHEREAS, a public hearing was held on this application on August 14, 2018, after due notice by publication in *The City Record*, with continued hearings on November 8, 2018, and then to decision on the same date; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 18, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of Madison Place, between Avenue P and Quentin Road, in an R3-2 zoning district, in Brooklyn; and

WHEREAS, the subject site has approximately 31 feet of frontage along Madison Place, 100 feet of depth, 3,100 square feet of lot area and is occupied by an existing single-family residence; and

WHEREAS, ZR § 73-621 provides that:

For a complying or *non-complying building* existing on December 15, 1961, or in R2X, R3, R4 or R5 Districts on June 30, 1989, and containing *residential uses*, the Board of Standards and Appeals may permit an *enlargement*, a change of *use* or (in the case of a *mixed building*) an *extension*, provided that such *enlargement*, change of *use* or *extension* shall not create any new *non-compliance* or increase the amount or degree of any existing *non-compliance* except as provided in this Section.

MINUTES

In the districts and for the *buildings* for which an *open space ratio* is required, the *open space ratio* permitted under this Section shall not be less than 90 percent of the *open space ratio* required under the applicable *bulk* regulations set forth in Article II or III of this Resolution. In the districts and for the *buildings* to which a maximum *lot coverage* applies, the maximum *lot coverage* permitted under this Section shall not exceed 110 percent of the maximum *lot coverage* permitted under the applicable *bulk* regulations set forth in Article II or III of this Resolution. In all districts, the *floor area ratio* permitted under this Section shall not exceed the *floor area ratio* permitted under such regulations by more than 10 percent. In R2X, R3 or R4 Districts, the additional *floor area* permitted pursuant to this Section may be computed using a base *floor area ratio* including the *floor area* permitted under a sloping roof with a structural headroom between five and eight feet when such space is provided in the *building*.

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, inter alia, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge an existing detached single-family residence that existed on June 30, 1989, as contemplated in ZR § 73-621; and

WHEREAS, in response to questions from the Board at hearing about the retention of existing building material, the applicant revised the drawings to reflect that adequate amounts of exterior walls will be retained at the exterior of the subject building and that adequate amounts of floor joists will be retained; and

WHEREAS, the applicant proposes to enlarge the existing residence from 1,432 square feet of floor area (0.46 FAR) to 2,045 square feet of floor area (0.66 FAR), increase lot coverage from 26 percent to 37 percent and decrease open space from 74 percent to 63 percent; and

WHEREAS, the applicant states that, under ZR § 23-142, at the subject site, floor area may not exceed 1,860 square feet (0.60 FAR), including the floor area permitted under a sloping roof, lot coverage may not exceed 35 percent and open space must be at least 65 percent; and

WHEREAS, the applicant represents that the proposed building as enlarged is consistent with the built character of the neighborhood; and

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of bulk regulations is outweighed by the advantages to be

derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18BSA103K, dated February 28, 2018; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-621 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-621 and 73-03 to *permit*, in an R3-2 zoning district, the enlargement of an existing single-family residence that does not comply with zoning regulations for floor area, lot coverage and open space, contrary to ZR § 23-142; *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received October 18, 2018"-Fifteen (15) sheets; and *on further condition:*

THAT the bulk parameters of the building shall be as follows: floor area shall be limited to 2,045 square feet (0.66 FAR), lot coverage shall not exceed 37 percent and open space shall be at least 63 percent, as illustrated on the Board-approved drawings;

THAT the maximum allowable floor area granted by the Board shall not exceed the floor area ratio permitted as of right, including the floor area permitted under a sloping roof, by more than 10 percent;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by November 8, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, November 8, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated June 7, 2017, acting on DOB Application No. 121324717, reads in pertinent part:

Proposed physical culture or health establishment in zoning district C4-7 is not permitted as of right. A special permit is required from the Board of Standards and Appeals as per ZR 32-10, ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, on a site located within a C4-7 zoning district, a physical culture establishment (“PCE”) on portions of the cellar level and first floor of an existing 45-story plus cellar and mezzanine mixed-use residential and commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on November 8, 2018, after due notice by publication in *The City Record*, and then to decision on that same date; and

WHEREAS, the Board was in receipt of one letter in support of this application; and

WHEREAS, Community Board 7, Manhattan, recommends approval of this application; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the subject site and surrounding neighborhood; and

WHEREAS, the subject site is located on the southwest corner of West End Avenue and West 61st Street, within a C4-7 zoning district, in Manhattan; and

WHEREAS, the site has approximately 260 feet of frontage along West End Avenue, 308 feet of frontage along West 61st Street, and is occupied by a 45-story plus cellar and mezzanine mixed-use residential and commercial building, in which the subject PCE is located; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use I* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, the applicant represents that, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

report from the Department of Investigation which the Board shall determine to be satisfactory; and

- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant submitted evidence that the subject PCE occupies 1,157 square feet of floor area on the first floor with a reception area, and 9,243 square feet of floor space on the cellar level with a climbing gymnasium area, fitness area, restrooms, changing area, and mechanical areas; and

WHEREAS, the applicant represents that the PCE has been in operation since August 18, 2018, as “Central Rock Gym” with the following hours of operation: Monday through Friday, 6:00 a.m. to 11:00 p.m.; and, Saturday and Sunday, 8:00 a.m. to 9:00 p.m.; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because the PCE has a minimal presence on the ground floor of the subject building, with a majority of its operations occurring in the cellar, many tenants in the building are members of the PCE, and the PCE expects to draw its patrons from the subject building and surrounding area; and

WHEREAS, the applicant represents that the PCE is located five (5) floors below the closest residential unit, does not utilize weights or exercise equipment, plays music at ambient noise levels, and provides 16-inch-thick “crash” mats in areas where climbers are not rope-assisted; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant represents that the PCE contains facilities for the provision of physical improvement through rope-assisted climbing, bouldering, and workouts utilizing pull-up bars and hangboards; and

WHEREAS, accordingly, the Board finds that the subject PCE use is consistent with those eligible pursuant to

ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant demonstrated that wet sprinkler system and a fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and a connection of the building’s interior fire alarm to an FDNY-approved central station—are installed throughout the PCE space; and

WHEREAS, by letter dated November 7, 2018, the Fire Department stated no objection to the application and confirmed that an application for a place of assembly permit has been filed and approved, but no operating permit issued; the fire alarm application is currently disapproved, pending a decision from the Board to permit the PCE; the building fire suppression system for the residential building has been inspected and was found to be satisfactory; there is currently one (1) fire alarm system for the residential building that has been inspected by the Department and a sign-off is pending; the PCE space will be required to have a fire alarm system for their space, which has to be tied back into the residential building fire alarm system; the Bureau of Fire Prevention recommends that the Board, in granting a special permit, add as a condition that the applicant obtains an operating permit for the PA space, as well as an approval and sign-off for the fire alarm system; and that an inspector from the Licensed Public Place of Assembly unit will be visiting the space and will issue violation orders accordingly;

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood on account of its location in the cellar level of the building and because it is operated to minimize any potential noise impacts; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated at the premises without the special permit; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 18-BSA-145M, dated August 2, 2018; and

WHEREAS, based upon its review of the record, the Board finds that the requested special permit, legalizing the PCE on the cellar level and first floor, is appropriate, with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR

MINUTES

Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to legalize, on a site located within a C4-7 zoning district, the operation of a physical culture establishment in portions of the cellar level and first floor of an existing 45-story plus cellar and mezzanine mixed-use residential and commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received August 2, 2018”—Four (4) sheets; and *on further condition*:

THAT the term of the PCE grant shall expire on August 18, 2028;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance under Local Law 58/87 shall be as reviewed and approved by DOB;

THAT the existing fire alarm and sprinkler systems shall be maintained as indicated on the Board-approved plans;

THAT minimum 3 foot wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the PCE’s fire alarm system shall be approved and signed-off prior to the issuance of the certificate of occupancy;

THAT a public assembly permit shall be obtained prior to the issuance of the certificate of occupancy;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by November 8, 2019;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, November 8, 2018.

CEQR #19-BSA-019K

APPLICANT – Rothkrug Rothkrug & Spector LLP, for North 10th Lofts LLC, owner; Unknown Baths LLC, lessee. SUBJECT – Application August 2, 2018 – Special Permit (§73-36) to permit the operation of a physical culture establishment (*The Bathhouse Spa*) on a portion of the cellar and first floor of an existing mixed use commercial and residential building contrary to ZR §42-10. M1-2/R6A (MX-8) zoning district.

PREMISES AFFECTED – 103 North 10th Street, Block 2296, Lot 7501, Borough of Brooklyn.

COMMUNITY BOARD #1BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision on behalf of the Department of Buildings (“DOB”), dated July 3, 2018, acting on DOB Application No. 321383089, reads in pertinent part:

Proposed physical cultural establishment in an M1-6/R6A zoning district (MX-8 Special District) is contrary to ZR § 42-10 and ZR § 123-20, and must be referred to the BSA; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, on a site located partially in an M1-2 zoning district and partially in an M1-6/R6A zoning district and Special Mixed Use District (MX-8), a physical culture establishment (“PCE”) on portions of the cellar level and first floor of an existing five- (5) story plus cellar mixed-use residential and commercial building, contrary to ZR §§ 42-10 and 123-20; and

WHEREAS, a public hearing was held on this application on November 8, 2018, after due notice by publication in *The City Record*, and then to decision on that same date; and

WHEREAS, the Board was in receipt of one (1) form letter in support of this application; and

WHEREAS, Community Board 1, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the northern corner of North 10th Street and Berry Street, partially in an M1-2 zoning district and partially in an M1-2/R6A zoning district and Special Mixed Use District (MX-8), in Brooklyn;

WHEREAS, the site has approximately 225 feet of frontage, 225 feet of depth, 45,000 square feet of lot area, and is occupied by several buildings;

WHEREAS, the is PCE to be located in a five- (5) story plus cellar mixed-use building located on the southernmost portion of the lot wholly located within an M2-6/R6A zoning district and Special Mixed Use District (MX-8); and

WHEREAS, ZR § 73-36(a) provides that in C1-8X,

C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use 1* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, the Board notes that, because no portion of the subject PCE is represented as being located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant submitted evidence that the subject PCE will occupy 3,360 square feet of floor area on the first floor with a reception area, dining and lounge area and lockers, and occupy 5,470 square feet of floor space on the cellar level with pools, treatment rooms, laundry, office space, and mechanical and utility rooms; and

WHEREAS, the applicant represents that the proposed PCE will operate as “The Bathhouse,” with the following hours of operation: Sunday through Thursday, 9:00 a.m. to 11:00 p.m.; and, Friday and Saturday, 9:00 a.m. to 2:00 p.m.; and

WHEREAS, the applicant states that, while it is not anticipated that the PCE will produce loud noise levels, sound abatement measures will be provided in the PCE space to ensure that the noise levels in other portions of the building do not exceed 45 dBA, including sound emanating from any sound system, if so installed, in the PCE space; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because the applicant anticipates the PCE will be an asset to the local community and will be located in an area characterized by similar mixed-use buildings with commercial establishments on the ground level; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant represents that the PCE will contain facilities for the provision physical improvement utilizing spa services including massage and bathing pools of various temperatures; and

WHEREAS, accordingly, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant submits that an approved wet sprinkler system and fire alarm system—including area

smoke detectors, manual pull stations at each required exit, local audible and visual alarms, and a connection of the interior fire alarm system to an FDNY-approved central station—will be installed within the PCE space; and

WHEREAS, by letter dated November 7, 2018, the Fire Department confirms that an application for a Place of Assembly permit and fire alarm system needs to be filed with the DOB prior to occupancy of the space; the current fire alarm system at the premises is for a residential and retail space and is not adequate for a PCE; a review of Fire Department records indicates that the premises has a standpipe and sprinkler system that was signed-off by the DOB in 2016, therefore the permits for the systems expires in June 2021; and, the Bureau of Fire Prevention recommends that the Board, in granting a special permit, add as a condition that the applicant files permits for a Place of Assembly and fire alarm system; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood on account of its location in the cellar level and ground floor of the premises and the applicant does not anticipate the PCE will generate any noise issues from its spa services; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, at the hearing, the Board expressed concern regarding whether the subject site was located within a flood plain; and

WHEREAS, in response, the applicant demonstrated, with a Federal Emergency Management Agency Flood Insurance Rate Map, that the existing building is not located within a flood plain; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 19-BSA-019K, dated August 7, 2018; and

WHEREAS, based upon its review of the record, the Board finds that the requested special permit, permitting the proposed PCE space on the cellar level and first floor, is appropriate, with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located partially in an M1-2 zoning district and partially in an M1-6/R6A zoning district and Special Mixed Use District (MX-8), a physical culture establishment on a portion of the cellar level and first floor of an existing five- (5) story plus cellar mixed-use commercial and residential building, contrary to

APPLICANT – NYC Mayor’s Office of Housing Recovery Operation.

SUBJECT – Application October 30, 2018 – Special Permit (§64-92) to waive bulk requirements for the reconstruction of homes damaged/destroyed by Hurricane Sandy for a property registered in the NYC Build it Back Program. Waiver of minimum required side yard (ZR 23-461), waterfront yard (62-332), planting requirement (23-451), visual mitigation (64-61). R3A Special Coastal Risk zoning district.

PREMISES AFFECTED – 43 West 12th Road, Block 15316, Lot 66, Borough of Queens.

COMMUNITY BOARD #

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to permit, on a site within an R3A zoning district and the Special Coastal Risk District, the reconstruction of a single-family detached dwelling in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yard planting, total side yards, waterfront yard, and visual mitigation, contrary to ZR §§ 23-451, 23-461(a), 62-332, and 64-61; and

WHEREAS, a public hearing was held on this application on November 8, 2018, and then to decision on the same date; and

WHEREAS, this application is brought on behalf of the property owner by the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in furtherance of the City’s effort to rebuild homes impacted by Superstorm Sandy expeditiously and effectively, the Board, pursuant to 2 RCNY § 1-14.2, waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1-05.1 (Objection Issued by the Department of Buildings); (2) 2 RCNY § 1-05.3 (Filing Period); (3) 2 RCNY § 1-05.4 (Application Referral); (4) 2 RCNY § 1-05.6 (Hearing Notice); (5) 2 RCNY § 1-05.7 (List of Affected Property Owners); (6) 2 RCNY § 1-09.4 (Owner’s Authorization); and (7) 2 RCNY § 1-10.7 (Proof of Service for Application Referral and Hearing Notice); and

WHEREAS, the Board notes that the subject application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the north side of West 12th Road, west of Cross Bay Boulevard, in an R3A zoning district and the Special Coastal Risk District, in Queens; and

WHEREAS, the site has approximately 25 feet of frontage along West 12th Road, 100 feet of depth and 2,500 square feet of lot area; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 8, 2018, when, under BSA Cal. No. 2016-3534-A, the Board waived its Rules of Practice and Procedure to grant a waiver of General City Law § 35 and bulk regulations associated with the presence of the mapped but unbuilt street pursuant to ZR § 72-01(g) on condition that the proposed elevation or reconstruction comply with all applicable zoning district requirements; no building or other structure be constructed over an existing Department of Environmental Protection- (“DEP”) managed water or sewer main, as confirmed by a survey prepared by a New York State licensed land surveyor; if a proposed building or other structure be not within the exact footprint of the pre-Hurricane Sandy building or other structure being replaced or repaired, the proposed building or other structure not be within 5 feet of a DEP-managed existing water or sewer main, as confirmed by a survey prepared by a New York State licensed land surveyor, unless DEP has notified the Department of Buildings (“DOB”) that such limitation does not apply; if a proposed building or other structure be within the exact footprint of the pre-Hurricane Sandy building or other structure being replaced or repaired, the proposed building or other structure may be within 5 feet of a DEP-managed existing water or sewer main, as confirmed by a survey prepared by a New York State licensed land surveyor; if a proposed building or other structure be not within the exact footprint of the pre-Hurricane Sandy building or other structure being replaced or repaired solely because of the addition of a new landing, lift, ramp, staircase and/or porch required to accommodate elevation of the proposed building or other structure, that portion of the proposed building or other structure that be within the exact footprint of the pre-Hurricane Sandy building or other structure may remain within 5 feet of a DEP-managed existing water or sewer main but such new landing, lift, ramp, staircase and/or porch not be within 5 feet of a DEP-managed existing water or sewer main, as confirmed by a survey prepared by a New York State licensed land surveyor, unless DEP has notified DOB that such limitation does not apply; all buildings or other structures, including exterior stairs, not be constructed within a planned DEP Capital Project as indicated on the Department of Design and Construction’s (“DDC”) Damages Map and/or Acquisitions plan as of September 15, 2015; all buildings or other structures, including exterior stairs, not be constructed within a planned DOT Capital Project as indicated on the DDC’s Damages Map and/or Acquisitions plan as of September 15, 2015, or as indicated in writing by the DDC; if the curb-to-curb width of the street be less than 34 feet or the building be setback more than 40 feet from the curb line: (1) the building have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code, unless the Fire Department has notified DOB that the building is exempt; (2) the building be provided with interconnected smoke and carbon

MINUTES

monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code; (3) the underside of the building, where the foundation be not completely closed, have an exterior assembly that provides a 2-hour fire resistance rating; and (4) the height from grade plane to the highest window-sill leading to a habitable space may not exceed 32'-0"; the approval be limited to the Build it Back program; the approval be limited to proposals for the elevation or reconstruction of previously existing structures and insofar as the applicant proposes, instead, to repair the building or other structure on the subject lot, the waiver be void as unnecessary; the applicant provide the Board with a full set of approved plans upon DOB's issuance of a Certificate of Occupancy for the subject building or other structure; DOB review and approve plans associated with the Board's approval for compliance with the underlying zoning regulations as if the unbuilt portion of the street were not mapped; and, DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings*¹ in compliance with *flood-resistant construction standards* and for *developments* and *enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Section 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

- (a) that there would be a practical difficulty in complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;
- (b) that any modifications of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's

potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant now seeks a special permit, pursuant to ZR § 64-92 to permit the reconstruction of a single-family residence above the design flood elevation that creates non-compliances with regards to front yard planting, waterfront yard, and visual mitigation, and increases the degree to which the pre-existing total side yards at the subject site do not comply with underlying bulk regulations; and

WHEREAS, specifically, the subject reconstruction has a front yard depth of ten (10) feet, 50 percent of which is utilized by the sidewalk and 40 percent will be utilized by the entryway stairs, leaving ten (10) percent of the front yard available for planting; but, at the subject site, a front yard with 25 percent in-ground planting is required pursuant to ZR § 23-451; and

WHEREAS, the subject reconstruction will maintain pre-existing side yards with widths of 1.9 feet and 4.1 feet but, at the subject site, a total side yard width of eight (8) feet is required pursuant to ZR § 23-461(a); and

WHEREAS, the subject reconstruction has a waterfront rear yard depth of 27 feet but, at the subject site, a waterfront yard depth of 30 feet is required pursuant to ZR § 62-332; and

WHEREAS, additionally, the subject reconstruction will have no visual mitigation elements but, at the subject site, at least two (2) visual mitigation elements (a porch, stair direction change, raised front yard, or trees or shrubs at least three (3) feet high) are required pursuant to ZR § 64-61; and

WHEREAS, in accordance with ZR § 64-92(a), the applicant submits that the composition of the existing placement on the lot creates practical difficulties in complying with flood-resistant construction standards without the modification of requirements for planting, total side yards, waterfront yards, and visual mitigation, and that waivers of the same are the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the finding pursuant to ZR § 64-92(b) is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the dwelling is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the neighborhood is characterized by single- and two-family residences, most of which are detached homes, and that the subject reconstruction will help facilitate and guide future

¹ Words in *italics* are defined by ZR §§ 12-10 and 64-11.

MINUTES

development in the area; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the subject application satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 19BSA052Q, dated October 30, 2018; and

WHEREAS, based upon its review of the record, the Board finds that the requested special permit, permitting the reconstruction of the single-family dwelling, is appropriate with certain conditions as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure and issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92 to permit, on a site within an R3A zoning district and the Special Coastal Risk District, the reconstruction of a single-family detached dwelling in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yard planting, total side yards, waterfront yard, and visual mitigation, contrary to ZR §§ 23-451, 23-461(a), 62-332, and 64-61; *on condition* that all work shall substantially conform to the drawings filed with this application and marked "Received October 30, 2018"- Eight(8) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: a minimum of ten (10) percent of front yard planting, side yards with minimum widths of 1.9 feet and 4.1 feet, a minimum waterfront rear yard depth of 27 feet, and a minimum of zero (0) visual mitigation elements, as illustrated on the Board-approved plans;

THAT the building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code, unless the Fire Department has notified DOB that the building is exempt from such requirement;

THAT the building shall be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code;

THAT the underside of the exterior of the building where the foundation is not closed shall have a floor assembly that provides a 2-hour fire resistance rating;

THAT the height from grade plane to the highest window-sill leading to a habitable space may not exceed 32 feet;

THAT this approval shall be limited to the Build it Back program;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk shall be signed off by DOB and all other relevant agencies within four (4) years;

THAT the approved plans shall be considered

approved only for the portions related to the specific relief granted;

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, November 8, 2018.

Carlo Costanza, Executive Director

MINUTES

**REGULAR MEETING
TUESDAY MORNING, NOVEMBER 20, 2018
10:00 A.M.**

Present: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.

SPECIAL ORDER CALENDARS

170-92-BZ

APPLICANT – Gerald J. Caliendo, RA, AIA, for Yeheskel Elias/Northern Boulevard Holding Corp., owner.

SUBJECT – Application August 9, 2017 – Extension of Term and amendment of a previously approved Variance (§72-21) which permitted the operation of an automotive laundry (UG 16B), expiring on December 7, 2018; Waiver of Rules. R1-2 zoning district.

PREMISES AFFECTED – 232-04 Northern Boulevard, Block 8165, Lot 23, Borough of Queens.

COMMUNITY BOARD #11Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure, an extension of the term of a variance, previously granted by the Board, which expired on December 7, 2018, and an amendment of the same; and

WHEREAS, a public hearing was held on this application on August 21, 2018, after due notice by publication in *The City Record*, with a continued hearing on November 20, 2018, and then to decision on the same date; and

WHEREAS, Community Board 11, Queens, and the Queens Borough President recommend approval of this application; and

WHEREAS, the Board was also in receipt of one letter in opposition to this application, citing concerns about the environmental impact the subject site has on Alley Pond Park and a nearby creek; and

WHEREAS, Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the south side of Northern Boulevard, between 234th Street and 231st Street, in an R1-2 zoning district, in Queens; and

WHEREAS, the site has approximately 73 feet of frontage along Northern Boulevard, a depth of 99 feet at the eastern lot line, a depth of 215 feet at the western lot line and is occupied by a Use Group (“UG”) 16 auto laundry;

and

WHEREAS, the Board has exercised jurisdiction over the subject site since December 7, 1993, when, under the subject calendar number, the Board granted a variance, pursuant to ZR § 72-21, permitting the construction of a UG 16 auto laundry contrary to district use regulations for a term of 25 years, expiring December 7, 2018, on condition that all drains be connected to an oil separator in accordance with the approved plans; landscaping be provided in accordance with the approved plans; a chain link gate be provided in accordance with the approved plans; signs be limited to two (2) parapet signs and one (1) pole in accordance with the approved plans; a water reclamation system that recycles 85 percent of the auto wash water be installed and maintained; and that no cars be parked or allowed to stand on the sidewalk; and

WHEREAS, the applicant now seeks a 25-year extension of the term of the variance as well as an amendment to omit the chain link gate and landscaping included as conditions of the prior grant, permit the maintenance of 268 square feet of signage, as indicated on the previously approved plans, and reflect the addition of a canopy at the site; and

WHEREAS, the Board notes that the site is adjacent to a park and that plans approved in connection with the 1993 variance grant indicate only, on the lot adjacent to the subject site at the rear, “continuous row of 3’-0” high hemlocks ‘as permitted’”, thus, it was an error to include the provision of landscaping as a condition of the prior grant and such condition is heretofore removed; and

WHEREAS, in addition, to permit the filing of this application more than one year before the expiration of the term, the applicant requests a waiver, pursuant to § 1-14.2 of the Board’s Rules of Practice and Procedure, of Rule § 1-07.3(b)(1); and

WHEREAS, at hearing, the Board expressed concerns as to whether the area under the canopy constituted “floor area” as defined in ZR § 12-10 and, in response, the applicant requested a reconsideration from the Department of Buildings (“DOB”); and

WHEREAS, in response to the applicant’s submission of site photographs and that the canvas canopy is a temporary structure made of canvas and aluminum tubing, has no permanent walls and is meant to shield the cars and workers from inclement weather, the Queens Borough Commissioner determined on October 29, 2018, that, based on the photos showing a free-standing canopy with no enclosure per ZR 12-10, “O.K. to accept the area covered by the canopy as ‘non zoning floor area’”; and

WHEREAS, with regards to the site’s compliance with the condition that a water reclamation system recycling 85 percent of the auto wash water be installed and maintained, the applicant provided a letter from the company that installed and currently maintains the water reclamation system at the subject site certifying that all water used for washing cars at the subject site goes through the water reclamation system; that 85 percent of the water Is recycled

MINUTES

after it is treated and filtered by a Cyclomat water reclamation and filtration system; that about 15 percent of the volume of water that is not recycled goes to the existing 18-inch sanitary sewer line on Northern Boulevard; that the water from that sanitary sewer line goes to the sewage treatment plant; that all car washing takes place within the enclosed building; and that there are existing trench drains at the site; and

WHEREAS, the applicant also provided details regarding the operation of the water reclamation system and states that the system is physically inspected by the installer and repaired, if necessary, ever six months and that no water from the site is discharged into Alley Pond Park or any other body of water; and

WHEREAS, with regards to the oil separator, the applicant submitted images of the separator and a letter from the plumbing company verifying that the oil separator was last inspected on October 2, 2018, and is in working condition; and

WHEREAS, with regards to signage, the applicant notes that the 268 square feet of signage currently at the site complies with the plans approved in connection with the 1993 variance, which state that 268 square feet of signage was proposed for the subject site; and

WHEREAS, based on the foregoing, the Board finds that the requested amendment does not disturb the Board's findings made for the original variance and determines that the request to amend the variance and extend its terms is appropriate with certain conditions as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals waives § 1-07.3(b)(1) of its Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated December 7, 1993, so that as amended this portion of the resolution reads: "to grant an extension of the term of the variance for a term of 25 years, expiring December 7, 2043, *on condition* that all work and site conditions shall comply with drawings filed with this application marked "Received October 31, 2018-Eight (8) sheets; and *on further condition*:

THAT all drains shall be connected to an oil separator in accordance with the Board-approved plans;

THAT the signs shall be limited to two (2) parapet signs and one (1) pole sign having a total of 268 square feet of surface area in accordance with the Board-approved plans;

THAT a water reclamation system that recycles 85 percent of the auto wash water shall be installed and maintained;

THAT no cars shall be parked or allowed to stand on the sidewalk;

THAT the term of this variance shall be limited to twenty-five (25) years;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a revised certificate of occupancy, indicating this approval and calendar number ("BSA Cal. No. 170-92-BZ"), shall be obtained within one (1) year;

THAT this approval is limited to the relief granted by

the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, November 20, 2018.

APPLICANT – NYC Department of Buildings, for Eighteen Properties, LLC, owner.

SUBJECT – Application February 14, 2018 – Request for a revocation, by the New York City Building's Department, of Certificate of Occupancy No. 301016898F issued for a four-story walk-up apartment building. R6B zoning district.

PREMISES AFFECTED – 255 18th Street, Block 873, Lot 69, Borough of Brooklyn.

COMMUNITY BOARD #7BK

ACTION OF THE BOARD – Appeal Granted.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an appeal, filed by the New York City Department of Buildings (“DOB”), pursuant to New York City Charter §§ 645(b)(3)(e) and 666(6)(a), to revoke Certificate of Occupancy No. 301016898F, dated September 18, 2013, (the “CO”) issued for the subject premises; and

WHEREAS, the CO indicates that the premises are occupied by a four-story plus cellar building classified as building occupancy group J-2 under the 1968 Building Code (“1968 BC”) with Use Group 16 occupancy (“ordinary use and non-combustible storage”) permitted on the cellar and a portion of the first floor, and Use Group 2 occupancy permitted on the first through fourth floors (two dwelling units on the first floor and nine dwelling units on each of the second through fourth floors); and

WHEREAS, DOB submits that the CO was improperly issued due to the unsafe physical condition of the building, its unsuitability for the uses authorized thereon and the fact that the building was not configured to accommodate the uses authorized on the CO at the time of its issuance; and

WHEREAS, specifically, DOB states that the building contains a dry sprinkler system that is unsuitable for residential occupancy; the first floor does not contain two dwelling units, as indicated on the CO; and the cellar is occupied by Use Group 9 artists’ studios, not Use Group 16 “ordinary use and non-combustible storage,” as indicated on the CO; and

WHEREAS, a public hearing was held on this application on October 11, 2018, after due notice by publication in *The City Record*, with a continued hearing on November 20, 2018, and then to decision on that date; and

WHEREAS, the site is located on the north side of 18th Street, between 5th Avenue and 6th Avenue, in an R6B zoning district, in Brooklyn; and

WHEREAS, the site has approximately 100 feet of frontage along 18th Street, a depth of 100 feet, 10,017 square feet of lot area and is occupied by a four-story plus

MINUTES

cellar building; and

PROCEDURAL HISTORY

WHEREAS, on August 5, 1999, Alteration Type 2 Application No. 300925934 was filed at the subject site for work on the second, third and fourth floors, specifically, to “construct interior partitions, install plumbing fixtures and related piping. All as shown on drawings. No change in use, egress or occupancy” (the “Alt 2 Application”); the application was self-certified and signed off by the architect on May 10, 2010; and

WHEREAS, on April 12, 2000, a second architect filed Alteration Type 1 Application No. 301016898 “to change use on 2nd, 3rd [and] 4th floor to dwelling units. No work to be performed under this application. All work filed under [the Alt 2 Application]” (the “Alt 1 Application”); and

WHEREAS, a Post Approval Amendment (“PAA”) for the Alt 1 Application was subsequently filed by the architect-applicant that filed the Alt 2 Application on October 5, 2000, (the “2000 PAA” or “Alt 1 Doc 2”) to “remo[ve] portion of rear wall, then construct new exterior walls as per plans”; DOB approved the application on October 30, 2000, and issued a permit on November 13, 2000, which expired on August 26, 2001 (the “Alt 1 Permit”); and

WHEREAS, the Alt 1 Permit was not renewed until August 16, 2012, the same day that a DOB inspector conducted a final construction inspection of the premises; and

WHEREAS, on October 19, 2012, DOB sent the owner of the premises (“Owner”) and the architect-applicant of the Alt 1 Application a Notice of Intent to Revoke Approval(s) and Permit(s) related to the Alt 1 Application (the “NOI”) and a Notice of Objections objecting to the indication, on the Alt 1 Application, that no work was to be performed and that all work had been filed under the Alt 2 Application; the introduction of a new applicant on the Alt 1 Application; the indication of an enlargement/repair of exterior and rear walls without a PW-2 for new work and the failure to provide plans, among other things; and

WHEREAS, on March 12, 2013, a PAA related to the Alt 1 Application was filed by the applicant-architect who filed the Alt 2 Application to answer the objections that accompanied the NOI (“Alt 1 Doc 3”) and on August 28, 2013, a PAA related to the Alt 1 Application was filed by the applicant-architect who originally filed that application to amend a PW1 Schedule A (“Alt 1 Doc 4”); and

WHEREAS, the CO was ultimately issued on September 13, 2013, under the Alt 1 Application, though DOB states that it has no record of any plans having accompanied either of the 2013 PAAs; and

WHEREAS, on March 29, 2017, DOB sent an Order of the Commissioner to the applicant-architect of the Alt 1 Application, pursuant to Section 28-208.1 of the Administrative Code of the City of New York and Section

646 of the New York City Charter, ordering the submission of a complete set of drawings for the Alt 1 Application within ten (10) business days; and

WHEREAS, DOB states that the materials submitted in response to that request included a drawing dated October 27, 2007, that had not been approved by DOB and microfiche copies of plans filed with DOB in April and October 2000, none of which reflected the as-built conditions of the building at the subject premises; and

WHEREAS, accordingly, by letter dated December 26, 2017, DOB notified the Owner that additional information was still required in connection with the Alt 1 Application demonstrating that the CO was properly issued; specifically, DOB inquired about a sprinklers application, a certificate of correction relating to ECB Notice of Violation No. 34925271H (dated February 15, 2012, the “2012 NOV”), which charged that the cellar of the building was being occupied as Use Group 9 artists’ studios contrary to the CO, and approved plans indicating Use Group 2 dwelling units on the first floor of the building (the letter stated that the only approved plans in DOB’s possession did not reflect dwelling units on that floor); and

WHEREAS, DOB states that a representative of the Owner met with DOB staff on January 23, 2018, regarding DOB’s remaining objections and this appeal was filed on February 14, 2018; and

WHEREAS, Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta, accompanied by Board staff and representatives for the Owner, DOB and the Fire Department, performed an inspection of the first floor and cellar of the subject building on September 14, 2018; and

WHEREAS, on October 12, 2018, prompted by testimony from residential tenants of the subject building at the October 11 public hearing, members of the Fire Department’s Bureau of Fire Prevention Task Force conducted a Fire and Life Safety inspection of the entirety of the building at the premises; and

WHEREAS, DOB states that on October 12, 2018, DOB vacated the first floor and cellar levels of the premises at the request of the Fire Department and issued several violations relating to the construction of unlawful partitions on those floors; and

WHEREAS, on October 24, 2018, a DOB inspector observed PVC gas piping, unlawful pursuant to Section 503.4.1 of the Fuel Gas Code, discharging out of an operable window and issued a Stop Work Order, ordering the disconnection of gas at the building; and

WHEREAS, on October 30, 2018, DOB conducted an inspection with the Board’s Compliance Officer, attorney for the tenants of the building, the attorney for the Owner and the Owner’s representatives; and

WHEREAS, a follow-up inspection was conducted by

MINUTES

Board Commissioners and staff, along with representatives from the Loft Board, DOB and elected officials, on November 14, 2018; and

WHEREAS, the Owner filed an application at DOB to modify the sprinklers in November 2018; and

WHEREAS, the Department of Buildings and the Owner were each represented by counsel for this appeal; and
DOB'S POSITION

WHEREAS, DOB submits that the CO, issued pursuant to approved plans dated August 3, 1999, and May 15, 2000, both filed under the Alt 1 Application and approved October 28, 2000, should never have been issued and must now be revoked; and

WHEREAS, specifically, DOB avers that the following irregularities support the revocation of the CO: (1) non-compliance of the building with Section 27-954(t) of the 1968 BC, which prohibits both automatic dry and dry non-automatic sprinklers in buildings and spaces in occupancy group J-2 with 4 or more dwelling units and not exceeding six stories or 75 feet in height, and Section 277(4) of the Multiple Dwelling Law ("MDL"), which requires a wet-pipe automatic sprinkler system in all areas occupied for manufacturing or commercial purposes and extended to and including public hallways and stairways coincidentally serving residential occupancies; (2) the absence of two dwelling units on the first floor of the building, as represented on the CO, the absence of plans depicting these units and any indication in the Alt 1 Application or Alt 2 Application that plumbing work or a change in use, respectively, were planned for the first floor; (3) occupancy of the cellar with Use Group 9 artists' studios, contrary to the CO, as evidenced by the 2012 NOV, issued prior to the issuance of the CO, and ECB Notice of Violation 35113975Z, dated December 15, 2016 (the "2016 NOV"), issued subsequent to the CO and (4) the absence of 5'-6" recesses in the back wall of the building as indicated on the plans dated August 3, 1999, and required under MDL § 277(7)(b)(i)(E), which states, "in no event shall the distance between [dwelling unit] windows and the rear lot line be less than five feet"; and

WHEREAS, though the plans dated August 3, 1999, indicate, under "Sprinkler Notes" on Drawing No. 3: "Entire building to be sprinklered. Sprinkler application to be filed under separate application," DOB states that it has no records of an associated sprinkler application for the subject premises; and

WHEREAS, DOB states that the presence of a dry sprinkler system is a Class I (Immediately Hazardous) violation that, standing alone, warrants the revocation of the CO; and

WHEREAS, DOB additionally submitted a set of plans dated August 3, 1999, associated with the Alt 2 Application, showing "Existing Storage, Trucking, Shipping

& Receiving (CO # 120140/48) (No Work Done Here)" on the first floor and nine artists' studios on each of the second through fourth floors; and

WHEREAS, accordingly, DOB states that the Alt 2 Application was incorrect in its statement that it would not result in a change in use, egress or occupancy; and

WHEREAS, DOB reiterates that department records reflect outstanding violations at the premises at the time of issuance of the CO (specifically, the 2012 NOV), that certificates of occupancy may not be issued when there are outstanding violations and that that fact additionally necessitates the revocation requested in this appeal; and

WHEREAS, DOB submits that non-compliances at the time of the issuance of the CO cannot be cured by work to correct those non-compliances performed after the CO was issued—the only remedy is to vacate the improperly issued CO, as requested herein, and replace it with a new certificate of occupancy; and

OWNER'S POSITION

WHEREAS, the Owner disputes that the CO did not reflect the as-built conditions of the building at the time of the final construction inspection and that any non-compliances with the CO are more suitably addressed by the issuance of violations and the Owner's correction or, in the alternative, a modified CO; and

WHEREAS, the Owner also disputes that the Alt 2 Application was intended to convert the building to Use Group 9 artists' studios and points to the absence, in the application itself, of any reference to "artist studios" and the express disclaimer, also contained in the application, that there was "No change in use, egress or occupancy" therein proposed; and

WHEREAS, the Owner states that, while the Alt 2 Application was self-certified by the applicant-architect, a Letter of Completion was issued by DOB, stating that the work under the Alt 2 Application was completed and signed off in the Building Information System on May 10, 2000, and that, based on the nature of the work filed on the application, a new certificate of occupancy was not required; and

WHEREAS, the Owner asserts that the PAA filed on March 12, 2013, (Alt 1 Doc 3) and plans associated therewith, were examined and approved by a DOB examiner on April 5, 2013, and that the PAA filed on August 28, 2013, (Alt 1 Doc 4) was examined and approved by a DOB examiner on September 3, 2013, in response to the NOI, and that DOB's failure to locate the plans approved with those PAAs does not lead to the conclusion that plans were not provided by the Owner's representatives, as required; and

WHEREAS, the Owner submits that all four of the objections to the issuance of the CO raised by DOB may be corrected and do not require the revocation of the CO; and

WHEREAS, specifically, the Owner states that, with

MINUTES

regards to the sprinklers installed at the building: the NOI, generated as the result of an audit of the Alt 1 Application in 2012, mentions neither a deficient sprinkler system nor the requirement of a wet-pipe automatic system; the 2013 PAAs filed in response to the NOI were reviewed and approved by DOB plan examiners; there have been no DOB or ECB violations issued on the basis of a non-compliant sprinkler system at the premises; the first mention of a need for a wet-pipe sprinkler system in the building came in the December 26, 2017, letter from DOB, four years after the approval of the Alt 2 Application; that DOB has neither identified the change in occupancy that prompted the requirement of a wet-pipe sprinkler system nor indicated how the installation of a wet-pipe automatic system at the premises would provide additional protection, MDL § 277 is not applicable at the site and that any non-compliance, which the Owner does not concede, will be remedied by Alteration Type 2 Application No. 340632042, filed on September 12, 2018, by the Owner to modify the existing sprinkler system to a wet-pipe automatic sprinkler system; and

WHEREAS, with regards to the absence of two dwelling units on the first floor, as indicated on the CO, the Owner submits that Schedule As for the Alt 1 Application filed on August 12, 2000, and August 28, 2013, both indicate dwelling units on the first floor of the building at the premises; while dwelling units do not presently exist on the first floor, there is evidence of construction having occurred on that floor (i.e. the installation of electrical outlets, cabling, pipes, patch work on the floors); meters located in the cellar demonstrate that utilities ran to dwelling units once located on the first floor; and the Owner plans to file the appropriate applications at DOB to “reinstall” the two dwelling units on the first floor; and

WHEREAS, with regards to the occupancy of the cellar, the Owner submits that while the 2012 NOV and 2016 NOV are still open and cite “art studios” on the first floor and cellar, the phrases “artist studio” and “ordinary use” are not defined in the Zoning Resolution; the cellar does not include living spaces; uses in Use Group 16 include crafts that artists may also be engaged in, including blacksmith’s shops, sign painting shops and carpentry, custom woodworking or custom furniture making shops, thus the artists’ studios located in the cellar are consistent with Use Group 16 uses; Use Group 16 use at the premises is non-conforming, thus, pursuant to ZR § 52-322, space previously dedicated to such use may be converted as-of-right to any use in Use Groups 6, 7B, 7C, 7D, 8, 9, 10, 11B or 14 or interchanged with Use Groups 11A or 17; that the use of the cellar space is appropriate and may require “the as of right amendment [to the CO] to include permitted alternate uses,” but that the subject application is excessive; and

WHEREAS, with regards to the absence of the 5’-6”

recesses in the rear wall of the building, the Owner reiterates that MDL § 277 does not apply at the subject site because the building is a fire-proof manufacturing building, but, if the Board were to determine that such section is, indeed, applicable at the premises, the Owner can pursue a variety of options—including setting the rear windows back from the property line and obtaining an easement legalizing the lot line windows—to cure this condition; and

ADDITIONAL SUBMISSIONS & TESTIMONY

WHEREAS, the Board was in receipt of 18 letters in support of this application, including 15 letters from tenants of the dwelling units at the site stating that they were surprised by the issuance of the CO, which they surmise to have been obtained by fraudulent means because there had been no work in the building prior to the issuance date and the CO fails to reflect the actual conditions of the building; they have had neither heat nor cooking gas in their units since May 2017; they have been utilizing plug-in heaters, which have caused multiple electrical shorts in the building and left tenants, who are responsible for paying electricity, with thousands of dollars in monthly electricity bills; the building has a long history of code violations and shoddy work, often performed without proper permits; that the building is not satisfactorily maintained, with recurring issues like a malfunctioning entry buzzer, a broken front door, unsanitary trash storage, leaky pipes, mold and “concrete walls” that are not insulated and freeze in the winter; that the landlord failed to abide by a settlement, reached with the tenants in October 2018 pursuant to a negotiation through the New York City Loft Board (the “Loft Board”), which obtained jurisdiction over the building on June 16, 2015, pursuant to 29 RCNY § 2-08(b)(2)(i)(D), to insulate and weatherproof dwelling unit walls prior to heat season; and that the landlord and building management’s consistent failure to address the building’s poor conditions is evidence of neglect and an absence of intention to ever address the objections raised in this appeal, thus, the Applicant should not be permitted more time to correct the non-compliances identified herein by the DOB; and

WHEREAS, tenants additionally complain about the lack of adequate fire safety in the building; the faulty aged electrical wiring in the building; the lack of proper ventilation in their units; cracks in exterior walls; and the removal, rather than repair, of the elevator after the roof of the stairwell and elevator shaft was blown off the building by a tornado in September 2010 and the landlord failed to attend to the condition for months; the tenants also provided photographs of their dwelling units, including mezzanines, rear windows located on the rear lot line, electric heaters, gas exhaust pipes punched through exterior walls venting onto sidewalks and adjacent properties, mold, ice on the interior walls and windows of their dwelling units and digital

MINUTES

thermometers registering interior temperatures of 50 degrees and below; and

WHEREAS, the Board was also in receipt of three letters from neighbors of the subject building, noting the building's poor physical condition, specifically, the accumulation of trash and graffiti at the exterior, the long-standing presence of a sidewalk shed without any other indicia of construction at the site, mold, loitering at the site and a crumbling façade; and

WHEREAS, tenants also appeared at public hearings and provided oral testimony in support of the application, averring that revocation of the CO would enable the proper operation and maintenance of the building for residential occupancy and questioning how a building, so obviously unfit for residential occupancy, could obtain a certificate of occupancy for such use; and

WHEREAS, specifically, the tenants submit that, if the CO is revoked, the building will return to the jurisdiction of the Loft Board, which would call the tenants and landlord to a narrative conference to finally resolve fire, gas, heat and other safety issues in the building; and

WHEREAS, letters from two separate registered architects who inspected the site separately on May 6, 2014, and September 23, 2016, were also submitted into the record; and

WHEREAS, an architect who inspected the site in 2014 ("Architect 1") states in his signed and sealed letter that during his visit, he visited 6 of the 29 dwelling units and the ground floor, which did not contain dwelling units; surveyed the existing conditions of the cellar, boiler room, public spaces, roof, building exterior and main staircase and observed that the building is built full to the lot lines on three sides; and

WHEREAS, Architect 1 also observed that the records on file at DOB relating to this building contain "bizarre irregularities"; specifically, he alleges that the architect of record for the site indicated on Alt 1 Doc 2 was different from the architect of record indicated on the Alt 1 Application and there was no record of a formal amendment permitting such change; that because an Alteration Type 2 Application can neither result in a change in use or occupancy of a building nor require a change to a certificate of occupancy, if the plans for the Alt 2 Application indicated residential use at the site, it should not have been approved by DOB; and that it would have been very difficult to remove a portion of the rear wall, as indicated in the 2000 PAA, of an occupied building and there was no evidence of this work having occurred at the premises; and

WHEREAS, Architect 1 alleged that the building does not comply with the requirements of the 1968 BC, the Multiple Dwelling Law or the Zoning Resolution for legal light and air in residential occupancies or DOB Technical Policy and Procedure Memo #9/93, which requires either

wire glass or sprinkler heads to be installed at all lot line windows; that the building contains serious fire hazards, including combustible construction at the cellar level, obstruction of means of egress and the absence of a 3-hour rated enclosure in the boiler room; and identified several non-compliances with applicable law of the 6 dwelling units he surveyed, including the absence of legally required windows, the presence of mezzanines that did not provide a minimum of 7 feet headroom and raised platforms that provided neither protective handrails nor sprinklers; the lack of legal mechanical ventilation in bathrooms; the presence of illegal wiring, open plumbing drains and unvented plumbing fixtures; and the presence of illegal gas space heaters; and

WHEREAS, Architect 1 stated that "[t]he most disturbing issue" in the subject building is the lack of legal windows for the dwelling units located at the rear, which have only lot line windows, and that this defect can only be cured by removing portions of the rear wall of the building to provide windows set back from the property line, thus, it is "abundantly clear" that the CO is "significantly flawed"; and

WHEREAS, an architect who inspected the premise in September 2016 ("Architect 2") states in his letter to the Board, which was neither signed nor sealed, that he investigated DOB filings for the site online, as well as observed conditions in the cellar, first floor, public stairs, roof and portions of the subject building exterior visible from the sidewalk and alleged that the Alt 2 Application was used to change the use and occupancy of the building contrary to the job description; the Alt 2 Application falsely states that the work involved would not result in a change in use or occupancy because it subdivided the second through fourth floors, whose legal use was for the manufacturing of burlap bags, into 27 spaces with three-piece bathrooms and dedicated gas meters, uses that were clearly not associated with the existing legal manufacturing use; the Alt 1 Application was a "clumsy attempt to legitimize" the subdivision of the second through fourth floors into dwelling units under the Alt 2 Application as evidenced by the timing of its filing one month prior to the sign off of the Alt 2 Application on May 10, 2000; the work of removing portions of the rear wall and constructing new exterior walls as indicated on Alt 1 Doc 2 was never performed, but the CO was, nevertheless, issued; 15 of the 27 dwelling units existing at the site on the second through fourth floors fail to provide legal windows in compliance with MDL § 277(7)(b)(i); the Alt 1 Application job description was misleading in its indication that no work was to be performed under the application; the renewal of the Alt 1 Application in 2011 after its expiration in 2001 made applicable Chapter 11 of the 2008 New York City Building Code ("2008 BC") and ANSI standards, meaning, among other things, that the elevator in the building must be

MINUTES

converted to an automatic passenger elevator, or, in the alternative, provide freight elevator service, to provide an accessible route to the building's dwelling units, but the elevator was dismantled under Job No. EBN2441/13 SO, approved by DOB on January 28, 2014; the building fails to comply with Quality Housing requirements set forth in Article II, Chapter 8 of the Zoning Resolution; interior bathrooms, toilets, kitchens and public hallways leading to the stairs lack required mechanical ventilation; refuse storage in the building does not comply with 2008 BC § 1213; and that there are 12 open ECB violations at the site, six of which existed prior to the issuance of CO and should have been corrected and removed prior to the issuance of the CO; and

WHEREAS, with regards to fire safety issues, Architect 2 stated that the dry valve system installed in the building must be removed and replaced with an automatic wet sprinkler system that complies with the 2008 BC; an automatic wet standpipe system must be installed pursuant to 2008 BC § 905.3.1 because the floor area on each floor of the building exceeds 10,000 square feet; a fire alarm and command center must be provided because there are more than 16 dwelling units in the building; lot line windows that are not fireproof self-closing must be provided with sprinkler protection and wire or tempered glass; smoke and carbon monoxide detectors must be provided throughout the building; the skylights at the top of the stairs are wire glass when they must be plain glass with wire screens over and under them, pursuant to MDL § 277(10); wood stud partitions throughout the building must be replaced with non-combustible construction; the gas meter room must be properly enclosed and vented; gas space heaters must be properly vented and supplied with fresh air from the exterior of the building; installation of gas ranges, hot water heaters and gas clothes dryers must be filed with DOB as a legalization; the refuse room must be properly separated from the egress hallway; and paths of egress on the first floor and cellar must be delineated, have adequate light and illuminated exit signs; and

WHEREAS, Architect 2 additionally remarked that the first floor and cellar of the building may be converted to legalize the Use Group 9 artists' studios located thereon, but such application has not yet been filed; and

WHEREAS, in response to the Owner's contention that the issuance of a Letter of Completion is conclusive with regards to the appropriateness of the Alt 2 Application filing, DOB states that the Letter of Completion cited by the Owner is undated, Letters of Completion are automatically generated, do not involve internal review by DOB personnel and any self-certified filing would have resulted in the creation of such letter; and

THE BOARD'S FINDINGS

WHEREAS, pursuant to § 28-118.17 of the

Administrative Code, the Commissioner of the Department of Buildings is authorized to request in writing that the Board "revoke, vacate, or modify a certificate of occupancy . . . whenever the certificate is issued in error . . ."; and

WHEREAS, the Board observes that, as of the date of the vote, there was an active stop work order on the property, 38 open ECB violations, 21 open DOB violations and approximately \$100,000 in penalties owed; and

WHEREAS, the record is devoid of any evidence that the first floor of the subject building was ever converted to residential use or evidence that the first floor was converted to residential occupancy and then converted back, and inspections of the premises reveal that half of the first floor is occupied by Use Group 9 artists' studios; and

WHEREAS, though that space could have been converted from Use Group 16 to Use Group 9 as-of-right, the CO does not reflect Use Group 9 occupancy, therefore, the CO was obviously improperly issued with regards to the first floor; and

WHEREAS, the Owner's argument that DOB has failed to identify a change in use of the building that could necessitate a change in the sprinklers installed at the subject is contrary to the evidence presented in this case, most notably, both Schedule As, filed on April 12, 2000, (Alt 1 Doc 1) and August 28, 2013, (Alt 1 Doc 4), which indicate proposed changes in use of the second, third and fourth floors from Use Group 16 offices and manufacturing of burlap bags, Use Group 16 storage and Use Group 16 manufacturing of burlap bags, respectively, to Use Group 2 dwelling units; and

WHEREAS, nevertheless, the Board is not convinced that the failure to provide a wet-pipe automatic sprinkler system in the building justifies revocation of the CO in its entirety, that such non-compliance may be cured, and that the Owner's intention to cure that defect is evidenced by the November 2018 filing to modify the sprinklers; and

WHEREAS, the Board finds, however, that the failure of the as-built conditions of the building to comply with the August 3, 1999, plans, specifically the 5'-6" recesses indicated (in both plan and section) in the rear wall of the building for the provision of legal light and air to the 15 dwelling units located at the rear of the building in compliance with MDL § 277(7)(b), is incurable absent significant construction that may require temporarily relocating tenants of those dwelling units; and

WHEREAS, the Board finds the Owner's argument that MDL § 277 does not apply at the subject site to also be contrary to the evidence, specifically the August 3, 1999, plans which, on Drawing 1, include handwritten notes regarding compliance with the various sub-parts of that section, including a note that, consistent with the 5'-6" recesses indicated to be constructed on floors two through four, the plans comply with MDL § 277(7)(b); and

MINUTES

WHEREAS, additionally, there is no evidence that such recesses did, in fact, exist at the time of the CO's issuance and were subsequently removed; and

WHEREAS, accordingly, the Board finds that the as-built conditions of the building at the subject premises do not presently conform to the plans upon which the issuance of the CO was based, nor did they comply at the time the CO was issued; thus, the CO was unlawfully issued and must be revoked.

Therefore, it is Resolved, that the application to revoke Certificate of Occupancy No. 301016898F is *granted*.

Adopted by the Board of Standards and Appeals, November 20, 2018.

2016-4330-A & 2016-4331-A

APPLICANT – Eric Palatnik, P.C., for 1671 Hylan Blvd. LLC, owner.

SUBJECT – Application November 14, 2016 – To permit the proposed development of a one family home, contrary to Article 3 Section 36 of the General City Law. R3X zoning district.

PREMISES AFFECTED – 16 & 19 Tuttle Street, Block 1481, Lot(s) 96 and 300, Borough of Staten Island

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated December 1, 2017, acting on

MINUTES

New Building Application No. 122378202, reads in pertinent part:

1. Proposed Street Wall Height and Setback is contrary to the provisions of Zoning Resolution Section 23-662.
2. Proposed total Zoning Floor Area permitted on the Zoning Lot exceeds the maximum Zoning Floor Area permitted by the provisions of the Zoning Resolution sections 35-31, 33-12, 22-00 and 23-153.
3. Proposed Inner court does not meet zoning requirements, pertaining to the minimum required area and minimum required dimensions, per the provisions of section 23-851.
4. Proposed ground floor commercial uses in Use Group 6 (ZR 32-15) are not permitted uses in the R6 district; and

WHEREAS, this is an application under ZR § 72-21 to permit, partially in an R6 zoning district and partially in an R6 (C2-6) zoning district, the development of a six-story mixed-used commercial and residential building that does not comply with zoning regulations for street wall height, floor area, inner courts and ground floor uses, contrary to ZR §§ 23-662, 35-31, 33-12, 22-00, 23-153, 23-851 and 32-15; and

WHEREAS, a public hearing was held on this application on May 22, 2018, after due notice by publication in *The City Record*, and then to decision on November 20, 2018; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 2, Manhattan, recommends approval of this application on the following conditions: that the Board confirm that 5.22 is the minimum FAR needed to produce a reasonable return on investment to the applicant; that the terms proposed in the January 13, 2016 letter and the January 19 and 20, 2016 correspondence be memorialized in the Board's resolution as consented to by the applicant, namely that the applicant will not rent any of the ground floor retail commercial space to any bars, cabarets or clubs, not have any retail commercial spaces smaller than 1,000 square feet in size and have no less than three different retail spaces in the commercial space, only one of which will be a full-service restaurant, which will not exceed 2,100 square feet; that, to preserve neighborhood architectural context, the windows be switched from tilt and turn to double-hung, the corner windows on the upper floors in the style of Frank Lloyd Wright be redesigned to resemble the other corner window treatments in the neighborhood, the windows above the residential entrance be resized to the proportions of the other windows on the

upper floors of the building and the ratio of glass to brick be decreased to more resemble the surrounding buildings; and that the design of the facade on Bedford Street be altered to reflect the smaller scale of that narrower street; and

WHEREAS, the subject site is located on the northwest corner of Carmine Street and Bedford Street, partially in an R6 zoning district and partially in an R6 (C2-6) zoning district, in Manhattan; and

WHEREAS, the subject site, as originally proposed, has approximately 75 feet of frontage along Carmine Street, 60 feet of frontage along Bedford Street, 5,249 square feet of lot area and is occupied by three existing buildings; and

WHEREAS, two adjacent lots, which were not originally part of the subject site, are held in common ownership with Lot 35; and

WHEREAS, in response to skepticism from the Board about whether including adjacent lots in the subject site would alleviate the applicant's alleged hardship, the applicant revised this application to include Lot 34 as part of the subject site, resulting in a lot with approximately 90 feet of frontage along Carmine Street, 60 feet of frontage along Bedford Street, 6,748 square feet of lot area and is occupied by four existing buildings; and

WHEREAS, at hearing, the Board discussed the configuration of the subject site, noting that by including Lot 34 the applicant eliminates any irregularity in shape and instead creates a rectangular lot that is suitable for development with nearly all of its frontage located in a commercial zoning district and with its remaining Bedford Street frontage suitable for residential development; and

WHEREAS, with respect to uniqueness, the Board further discussed that the applicant's studies of the surrounding area do not demonstrate that the subject site is uniquely burdened with respect to its split-lot condition; and

WHEREAS, with respect to the applicant's financial analysis, the Board noted, among other things, that the applicant failed to include income produced by the existing building on Lot 34 in examining whether as-of-right development on the subject site as reconfigured would realize a reasonable return and that there was no explanation for discrepancies in construction costs between as-of-right development and the proposed development; and

WHEREAS, lastly, the Board discussed whether the applicant was, in fact, seeking the highest and best use of the subject site rather than the minimum variance necessary to bring a reasonable return; and

WHEREAS, in response to community support for the proposed development, the Board notes that the Board may only grant a variance where it "make[s] each and every one" of five required findings under ZR § 72-21, and "each finding shall be supported by substantial evidence or other data considered by the Board in reaching its decision"; however, in this application, there was no such evidentiary

MINUTES

support based on the record and the Board’s inspections of the site and surrounding area; and

WHEREAS, by letter dated November 19, 2018, the applicant requests withdrawal of this application without prejudice.

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby *permit* withdrawal of this application without prejudice.

Adopted by the Board of Standards and Appeals, November 20, 2018.

CEQR #17-BSA-030M

APPLICANT – Sheldon Lobel, P.C., for Arwin 74th Street LLC, owner; Ripped Fit, lessee.

SUBJECT – Application October 24, 2016 – Special Permit (§73-36) to permit the operation a Physical Cultural Establishment (*Ripped Fitness*) on the first floor of an existing building. C1-9/R8B Zoning district.

PREMISES AFFECTED – 1432 2nd Avenue, Block 1449, Lot 3, Borough of Manhattan.

COMMUNITY BOARD #8M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated September 29, 2016, acting on Department of Buildings (“DOB”) Application No. 122720476, reads in pertinent part:

Proposed change of use to a physical culture establishment, as defined by ZR 12-10 is not permitted as of right in a C1-9 zoning district pursuant to ZR 32-10 and must be referred to the Board of Standards and Appeals for approval pursuant to ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, on a site located partially within a C1-9 zoning district and partially within an R8B zoning district, a physical culture establishment (“PCE”) on a portion of the first floor of an existing 33-story plus cellar and sub-cellar mixed-use commercial and residential building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on October 30, 2018, after due notice by publication in *The City Record*, with a continued hearing on November 20, 2018, and then to decision on that date; and

WHEREAS, Community Board 8, Manhattan,

recommends approval of this application; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the southeast corner of Second Avenue and East 75th Street, partially within a C1-9 zoning district and partially within an R8B zoning district, in Manhattan; and

WHEREAS, the site has approximately 162 feet of frontage along Second Avenue, 100 feet of frontage long East 74th Street, 200 feet of frontage along East 75th Street, 35,400 square feet of lot area, and is occupied by a 33-story plus cellar and sub-cellar mixed use commercial and residential building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* 1 is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, the Board notes that, because no portion of the subject PCE is represented as being located on the

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant submits that the subject PCE occupies 2,644 square feet of floor area on the first floor, entirely within the portion of the site and building located in a C1-9 zoning district with a fitness area for treadmills, floor space for training, men's and women's restrooms and showers, an office, and a reception area; and

WHEREAS, the applicant represents that the PCE has been in operation since November 2016, as "Ripped Fitness," operating daily from 6:00 a.m. to 8:00 p.m.; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because the PCE is located on a heavily trafficked commercial street with retail stores and eating and drinking establishments in commercial and mixed-use buildings, and the applicant anticipates that patrons will walk or use public-transportation to access the PCE; and

WHEREAS, though the PCE space is separated from residential uses in the subject building by the residential tenant play room, tenant exercise room, tenant laundry room, and mechanical equipment room, all of which are on the second floor above the PCE, sound mitigation measures, including a gypsum ceiling, padding, and a rubber and tile floor system under the treadmills, have been installed in the portions of the first floor occupied by the PCE to mitigate any adverse impacts of the use to other building tenants; specifically, the applicant has provided laminated wall finishes with rubber flooring on the walls, and a three-layer floor system comprised of rubber underlayment, gypsum concrete slab, and rubber flooring in the PCE space; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant submits that the PCE contains facilities for the provision of physical improvement with fitness instruction, including group-based treadmill training and personal physical training; and

WHEREAS, accordingly, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant submits that an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, and a connection of the interior fire alarm system to an FDNY-approved central station—has been installed within the PCE space; and

WHEREAS, by letter dated October 29, 2018, the Fire Department submitted a letter of no objection, confirming that the premises has a dry sprinkler system covering the parking garage, a standpipe system and residential sprinkler system covering the compactor room, and current Fire Department permits for said systems; and, requesting that the Board not have the applicant install a fire alarm and sprinkler system in the PCE space, as it is not a fire hazard load and therefore the systems are not required; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood on account of its location within a mixed-use building and compatibility with surrounding commercial eating and drinking and retail establishments; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

MINUTES

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period in which the PCE has operated at the premises without a special permit; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 17-BSA-030M, dated July 16, 2018.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to legalize, on a site partially located within a C1-9 zoning district and partially located within an R8B zoning district, a physical culture establishment on a portion of the first floor of an existing 33-story mixed-use commercial and residential building wholly located within a C1-9 zoning district, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received May 11, 2018”– Six (6) sheets; and *on further condition*:

THAT the term of the PCE grant shall expire on November 1, 2026;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance under Local Law 58/87 shall be as reviewed and approved by DOB;

THAT an approved fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and a connection to an FDNY-approved central station—shall be maintained within the PCE space;

THAT minimum 3-foot-wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy indicating this approval and calendar number (“BSA Cal. No. 2016-4272-BZ”) shall be obtained within one (1) year, by November 20, 2019;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the

applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, November 20, 2018.

APPLICANT – Gerald J. Caliendo, R.A., AIA, for Joseph G. Ciampa/Ciampa North Co., owner; Push Fitness Club, lessee.

SUBJECT – Application October 31, 2016 – Special Permit (§73-36) to permit the legalization of a physical cultural establishment (*Push Fitness Club*) located on the first floor, basement and mezzanine levels of the existing commercial building contrary to ZR §42-10. M1-1 zoning district.

PREMISES AFFECTED – 132-15 14th Avenue, Block 4012, Lot(s) 45 & 30, Borough of Queens.

COMMUNITY BOARD #7Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated October 7, 2016, acting on Department of Buildings (“DOB”) Application No. 420812892, reads in pertinent part:

Respectfully request denial for objections as stated for filing at the Board of Standards and Appeals. Proposed use as a Physical Culture Establishment, as defined by ZR 12-10, in an M1-1 zoning district, is contrary to ZR 42-10 and requires a Special Permit pursuant to ZR 73-36. Refer to the Board of Standards and Appeals for approval; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, on a site located within an M1-1 zoning district, a physical culture establishment (“PCE”) on portions of the basement, first, and mezzanine floors of an existing one- (1) story plus basement and mezzanine with accessory rooftop parking commercial building, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on May 15, 2018, after due notice by publication in *The City Record*, with continued hearings on July 24, 2018, and November 20, 2018, and then to decision on that date; and

MINUTES

WHEREAS, the Board was in receipt of one (1) form letter in support of this application; and

WHEREAS, Community Board 7, Queens, recommends approval of this application on condition that the owner provide reasonable accommodations for persons with disabilities in compliance with handicap accessibility; provide a canopy above all exterior handicap accessible entrances for protection while patrons are waiting; and, provide a door buzzer and camera to alert employees that patrons may be waiting at handicap accessible entrances; and

WHEREAS, Melinda Katz, Queens Borough President, recommends approval of this application; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the subject site and surrounding neighborhood; and

WHEREAS, the subject site is located on the north side of 14th Avenue, bound by 11th Avenue to the north, between 132nd Street and 133rd Place, within an M1-1 zoning district, in Queens; and

WHEREAS, the site has approximately 246 feet of frontage along 14th Avenue, 561 feet of frontage along 11th Avenue, 167,874 square feet of lot area and is occupied by a one- (1) story plus basement and mezzanine with accessory roof parking commercial building, in which the subject PCE is located; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use 1* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, the applicant represents that, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant submitted evidence that the subject PCE occupies approximately 1,681 square feet on the first floor with a juice bar, sales area, reception area and offices; 3,065 square feet on the mezzanine floor with a space for exercise machines, an exercise room, a trainer's

MINUTES

office, and storage; and, 8,751 square feet on the basement floor with spaces for exercise machines, spin cycling, a workout floor and free weights, and men's and women's locker rooms with saunas and showers; and

WHEREAS, the applicant represents that the PCE has been in operation since January 2013, as "Push Fitness Club" with the following hours of operation: Monday through Thursday, 4:30 a.m. to 12:00 a.m.; Friday, 4:30 a.m. to 11:00 p.m.; Saturday, 6:30 a.m. to 9:00 p.m.; and, Sunday, 7:30 a.m. to 8:00 p.m.; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because the PCE is located in a manufacturing district on a thoroughfare characterized by commercial retail establishments, offices, banks, manufacturing uses and mixed use buildings, and the PCE is located within a shopping center complex; the applicant represents that a majority of its members are local residents or employees who are within walking distance or use public transportation, and the members who drive are served by the existing 189 on-site rooftop accessory parking spaces; and

WHEREAS, the applicant submits that because the PCE is located in a commercial building in a retail area within a manufacturing zoning district and there are no residential uses at the subject site, no adverse noise impacts are anticipated; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant represents that the PCE contains facilities for classes, instruction and programs for the provision of physical improvement through personal training, kickboxing, and body building; and

WHEREAS, accordingly, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant demonstrated that a wet sprinkler system and a fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and a connection of the building's interior fire alarm to an FDNY-approved central station—are installed throughout the PCE space; and

WHEREAS, by letter dated November 17, 2018, the Fire Department states that it has no objection to the application; that inspections have been performed by various units in the Bureau of Fire Prevention; that violations were issued to test the sprinkler system (scheduled for December

11, 2018), obtain an operating permit for the Public Assembly space and obtain a "Letter of Approval" for fire alarm system; and that, if the Board grants the subject special permit application, the Bureau of Fire Prevention will enforce the Board's resolution and violations issued for this establishment; and

WHEREAS, over the course of the hearings, in response to Community Board concerns, the Board expressed concern over the installation of a handicap accessible wheelchair lift throughout the floors of the PCE space; and

WHEREAS, in response, the applicant produced an Alteration Type 2 application filed with the DOB, plans, and a proposal for the installation of the wheelchair lift; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood on account of its location in a commercial retail complex in a manufacturing district with existing accessory parking on-site; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated at the premises without the special permit; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 17-BSA-033Q, dated October 31, 2016; and

WHEREAS, based upon its review of the record, the Board finds that the requested special permit, legalizing the PCE on portions of the basement, first, and mezzanine floors, is appropriate, with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to legalize, on a site located within an M1-1 zoning district, the operation of a physical culture establishment in portions of the basement, first, and mezzanine floors of an existing one- (1) story plus basement and mezzanine with accessory roof parking commercial building, contrary to ZR § 42-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "July 2, 2018"-Fourteen (14) sheets; and

MINUTES

on further condition:

THAT the term of the PCE grant shall expire on January 1, 2023;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance under Local Law 58/87 shall be as reviewed and approved by DOB;

THAT the existing fire alarm and sprinkler systems shall be maintained as indicated on the Board-approved plans;

THAT minimum 3 foot wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT compliance with Fire Department sprinklering and fire alarm system requirements shall be made;

THAT a public assembly permit shall be obtained to the extent that it is required;

THAT a handicap accessibility wheelchair lift shall be installed;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by November 20, 2019;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, November 20, 2018.

THE RESOLUTION –

WHEREAS, the decision on behalf of the Queens Borough Commissioner of the Department of Buildings (“DOB”), dated December 2, 2016, acting on DOB Application No. 421320305, reads in relevant part:

A physical culture establishment, as defined by ZR 12-10, is not permitted in a C1-3/R4 Zoning district as-of-right pursuant to ZR 32-10 or by special permit pursuant to ZR 32-31. Refer to the Board of Standards and Appeals for approval; and

WHEREAS, this is an application under ZR § 72-21 to legalize, on a site located within an R4 (C1-3) zoning district, the operation of a physical culture establishment (“PCE”) contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on April 10, 2018, after due notice by publication in *The City Record*, with continued hearings on September 13, 2018, and November 20, 2018, and then to decision on that date; and

WHEREAS, performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 13, Queens, recommends approval of this application; and

WHEREAS, Queens Borough President, Melinda Katz, and New York City Councilmember Barry S. Grodenchik recommend approval of this application; and

WHEREAS, the Board was also in receipt of 33 form letters in support of approval of this application; and

WHEREAS, the subject site is bound by Jamaica Avenue to the south, Braddock Avenue to the southwest, 246th Street to the east and 245th Street to the west, within an R4 (C1-3) zoning district, in Queens; and

WHEREAS, the site has approximately 144 feet of frontage along Jamaica Avenue, 54 feet of frontage along Braddock Avenue, 76 feet of frontage along 246th Street, 70 feet of frontage along 245th Street, 15,513 square feet of lot area and is occupied by one-story plus cellar commercial building divided into seven commercial units; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 19, 1994, when, under BSA Cal. No. 12-94-BZ, the Board granted a special permit, pursuant to ZR § 73-36, permitting the locating of a PCE, operating as American Physique of Bellerose, in the cellar and on the first floor of an existing one-story plus cellar commercial building on the subject site, which was then located in an R4 (C2-2) zoning district, on condition that all work substantially conform to drawings approved by the Board;

MINUTES

there be no change in ownership or operating control of the PCE without prior application to and approval from the Board; the special permit be limited to a term of ten (10) year, expiring July 19, 2004; the conditions appear on the certificate of occupancy; the development, as approved, be subject to verification by DOB for compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under their jurisdiction; and substantial construction be completed in accordance with ZR § 73-30; and

WHEREAS, a subsequently filed application for a waiver of the Board's Rules of Practice and Procedure, an extension of the term of the special permit and an extension of time to obtain a certificate of occupancy was dismissed for lack of prosecution by the Board on August 18, 2009; and

WHEREAS, in or around June 2013, the subject site was rezoned to an R4 (C1-3) zoning district, wherein a special permit pursuant to ZR § 73-36 is not available; thus, the applicant seeks the subject relief; and

WHEREAS, the existing physical culture establishment, which continues to operate as American Physique of Bellerose, occupies 5,564 square feet of floor space in the cellar, including a free weight area, weight lifting machines and mechanical space, and 5,635 square feet of floor area on the first floor, which includes a reception area, a spin studio, an aerobics room, cardiovascular exercise equipment and office space; and

WHEREAS, the applicant submits that, pursuant to ZR § 72-21(a), the history of PCE use at the site since 1994 and the build-out of the commercial unit at the cellar and first floor levels of the subject site to accommodate the PCE are physical conditions that create a practical difficulty in complying with the existing zoning regulations because such compliance would require costly renovations to the commercial unit in which the PCE is now located and the current configuration of the space would further frustrate as-of-right uses; and

WHEREAS, the applicant submits that the PCE has continuously operated at the site since the special permit approval in 1994, despite the expiration of the special permit on July 19, 2004, and the rezoning in or around June 2013, and provided evidence of this continuity of use including building management records showing real estate taxes paid by the PCE in 1993/1994, 1997/1998 and 2005-2012; correspondence between the PCE and building management from 1997, 2002, 2003 and 2004; a page from the October 1999-September 2000 Queens Yellow Pages listing the subject site address as the location for "American Physique Fitness Club"; certificates of liability insurance for "American Physique of Bellerose, Inc.," located at the subject site address, for the policy periods of May 22, 2000, through May 22, 2001, May 22, 2001, through May 22,

2002; and photographs of the premises showing the presence of the PCE dated August 2016 and September 2017; and

WHEREAS, with regards to the hardship involved with configuring the space for an as-of-right use, the applicant notes that the cellar portion of the space has neither direct access to the street nor windows, making the space unappealing to retail tenants as sales space because of the lack of visibility; further, the floor space located in the cellar is not currently accessible from any other commercial unit located in the building, thus, conversion of the PCE space to an as-of-right use would require costly renovations; and

WHEREAS, in addition, the applicant states that the subject building is the only building within 1,000 feet subject to the 2013 rezoning rendered non-conforming and, therefore, unique; and

WHEREAS, the Board finds that the history of the use of the site, in part, as a PCE is a unique condition that creates unnecessary hardship and practical difficulty in developing the site in conformance with applicable zoning regulations; and

WHEREAS, in satisfaction of ZR § 72-21(b), the applicant states that there is no reasonable possibility that a conforming development at the site will bring a reasonable return and, in support of that contention, submitted a financial analysis for (1) an as-of-right commercial use (the "AOR Scenario") and (2) the subject legalization; and

WHEREAS, the financial analyses submitted with the application conclude that only the subject legalization will generate a reasonable return, approximately 0.3 percent, while the AOR Scenario would result in a loss of approximately 23 percent of the projected development costs; and

WHEREAS, upon review of the applicant's submissions, the Board finds, in accordance with ZR § 72-21(b), that due to the site's unique physical conditions, there is no reasonable possibility that a development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant submits that the subject legalization will not substantially impair the appropriate use or development or adjacent properties and will not be detrimental to the public welfare in accordance with ZR § 72-21(c); specifically, the PCE is wholly contained within an existing building on a busy commercial thoroughfare, has operated at the site continuously for over two decades and the PCE use is consistent with other commercial uses in the area—primarily small retail store—in that it serves neighbors living in its immediate vicinity; and

WHEREAS, the Board finds that the subject legalization will neither alter the essential character of the neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare;

MINUTES

and

WHEREAS, the applicant represents, and the Board finds, that the hardship claimed as grounds for the variance was not created by the owner or a predecessor in title in accordance with ZR § 72-21(d); and

WHEREAS, the applicant submits that the subject legalization is the minimum variance necessary to afford relief because it is the only scenario that provides a reasonable return; and

WHEREAS, the Board finds that the subject legalization is the minimum necessary to afford the owner relief; and

WHEREAS, by letter dated March 30, 2018, the Fire Department states that the fire alarm system at the subject site was inspected by members of the Bureau's Fire Alarm Inspection Unit; the existing sprinkler system tested satisfactory in a hydrostatic pressure test performed on May 17, 2017, and witnessed by the Fire Suppression Unit; and the Licensed Public Place of Assembly ("LPPA") Unit, responsible for the inspection of Public Assembly spaces, issued five criminal summons to the premises for occupying the space without a valid Public Assembly permit; accordingly, the Fire Department requests that the plans for the premises and the Public Assembly ("PA") Permit be reconciled to reflect the actual number of persons that can be accommodated in the PCE space and that an amended PA be filed prior to the Board vote; and

WHEREAS, the Fire Department also inquired as to whether the travel distance and egress plan were compliant with Fire Code; and

WHEREAS, the applicant subsequently revised the plans to indicate that the PCE space has an occupancy of 120 persons at the cellar and 75 persons at the first floor; the applicant also altered the egress plan to indicate both primary and secondary travel distances from the cellar to the first floor and out of the subject building; and

WHEREAS, by letter dated November 19, 2018, Fire Department states that no PA application had not yet been filed; that the LPPA Unit has visited the site and issued a violation order; and that, once a decision is rendered by the Board, units of the Bureau of Fire Prevention will be notified to perform the required re-inspection and enforce all orders, if not complied with; and

WHEREAS, accordingly, the Board has incorporated, as a condition of the grant, the curing of all outstanding Fire Department violation orders, the compliance with all inspection requirements and the obtaining of a PA permit; and

WHEREAS, in addition, the Board requested that the plans be amended to provide ADA access to the cellar of the PCE and the applicant revised the plans to provide an ADA-compliant lift; and

WHEREAS, the project is classified as an Unlisted

action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement ("EAS") CEQR No. 17-BSA-058Q, dated December 28, 2016; and

WHEREAS, the EAS documents that the project, as currently proposed, would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 to legalize, on a site located within an R4 (C1-3) zoning district, the operation of a physical culture establishment contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received November 1, 2018"-Nine (9) sheets; and *on further condition*:

THAT the handicapped lift shall be installed as indicated on the BSA-approved plans;

THAT the site shall cure all outstanding Fire Department violations orders, comply with Fire Department inspection requirements; and

THAT the fire alarm and sprinkler systems at the premises shall obtain Fire Department approval;

THAT an amended PA application shall be submitted as requested by the Fire Department and the appropriate PA permit obtained for the subject PCE space;

THAT a certificate of occupancy, indicating this approval and calendar number ("BSA Cal. No. 2016-4472-BZ") shall be obtained within one (1) year;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered

MINUTES

approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, November 20, 2018.

APPLICANT – Law Office of Lyra J. Altman, for Susan Nabet and Benjamin Nabet, owners.

SUBJECT – Application February 17, 2017 – Special Permit (§73-622) for the enlargement of an existing single family home contrary to floor area and open space (ZR §23-142); side yard (ZR §23-461) and less than the required rear yard (ZR §23-47). R2 zoning district.

PREMISES AFFECTED – 1052 East 22nd Street, Block 7585, Lot 77, Borough of Brooklyn.

COMMUNITY BOARD #14BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated February 1, 2017, acting on Department of Buildings (“DOB”) Application No. 321354618, reads in pertinent part:

1. Proposed plans are contrary to Zoning Resolution Section 23-141 in that the proposed floor area ratio exceeds the maximum permitted;
2. Proposed plans are contrary to Zoning Resolution Section 23-141 in that the proposed open space ratio is less than the minimum required;
3. Proposed plans are contrary to Zoning Resolution Section 23-461 in that the proposed side yard is less than the minimum required;
4. Proposed plans are contrary to Zoning Resolution Section 23-47 in that the proposed rear yard is less than the minimum required; and

WHEREAS, this is an application under ZR § 73-622 to permit, in an R2 zoning district, the enlargement of a detached

single-family dwelling that does not comply with the zoning requirements for floor area ratio (“FAR”), open space ratio, side yards and rear yards, contrary to ZR §§ 23-141, 23-461(a), and 23-47; and

WHEREAS, a public hearing was held on this application on August 21, 2018, after due notice by publication in *The City Record*, with a continued hearing on November 20, 2018, and then to decision on that same date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding area; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of East 22nd Street, between Avenue I and Avenue J, in an R2 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 40 feet of frontage, 100 feet of depth, 4,000 square feet of lot area, and is occupied by a two- (2) story plus cellar and attic detached single-family dwelling containing 2,800 square feet of floor area (0.7 FAR), an open space ratio of 0.96, a front yard depth of 26’-6.25”, two (2) side yards with widths of 3’-9” and 7’-9”, a rear yard with a depth of 19’-5” at the first floor and 23’-2” at the second floor, a perimeter wall height of 20’-9” and a total building height of 30’-6”; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement*¹ of an existing *single- or two-family detached* or *semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in

¹ Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that this application located within an area in which the special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge the detached one-family

residence, as contemplated by ZR § 73-622; and

WHEREAS, the applicant proposes to enlarge the existing dwelling with horizontal extensions in the front yard and side yard and increase the ceiling heights on each floor, resulting in a two- (2) story plus cellar and attic single-family detached dwelling with 4,016 square feet (1.00 FAR), an open space ratio of 0.59 (2,362 square feet of open space), a front yard with 15 feet of depth, two (2) side yards with widths of 3'-9" and 9'-1", a rear yard with a depth of 19'-5" at the first floor and 23'-2" at the second floor, a perimeter wall height of 22'-11" and a total building height of 35'; and

WHEREAS, specifically, the applicant states that the proposed enlargement would increase the floor area on the first floor from 1,318 square feet to 1,638 square feet, the second floor from 1,131 square feet to 1,585 square feet, and the attic from 352 square feet to 757 square feet; and

WHEREAS, the proposed enlargement includes a vertical and horizontal extension of the existing non-complying 3'-9" side yard and the applicant has submitted a Sanborn map of the immediate area, including the subject site, demonstrating that the subject site was developed with a semi-detached dwelling in approximately the same orientation as the site is occupied today and, thus, the non-complying side and rear yards predated the 1961 Zoning Resolution and is a legal non-compliance; and

WHEREAS, at the subject site, a maximum of 0.5 FAR (2,000 square feet of floor area) is permitted and a minimum open space ratio of 1.50 is required pursuant to ZR § 23-141; two (2) side yards each with minimum widths of 5 feet and total width of 13 feet are required pursuant to ZR § 23-461(a); and, a rear yard with a depth of 30 feet is required pursuant to ZR § 23-47; and

WHEREAS, the applicant provided an analysis of single- or two-family dwellings located within 400 feet of the subject premises within an R2 zoning district (the "Study Area") concluding that, of the 83 qualifying residences, 72 (87 percent) have an FAR of greater than 0.5, ranging from 0.51 FAR to 1.56 FAR, including three (3) dwellings located on the same social block as the subject premises, which have FARs of 1.0 or greater; and

WHEREAS, with regards to the proposed side yard, the applicant provided an analysis of the side yard conditions on the two blocks fronting on East 22nd Street, between Avenue I and Avenue J, two (2) of which are located in an R4 zoning district and one (1) of which is located partially in an R2 zoning district and partially in an R4 zoning district but subject to the same side yard regulations as the subject site pursuant to ZR § 23-461(a), demonstrating that, of the 30 other lots occupied by single- or two-family detached dwellings, 18 lots (60 percent) have side yards with a width of less than 5 feet, with widths ranging in width from 0 feet to 4 feet; and

WHEREAS, with regards to the proposed rear yard, the

MINUTES

applicant provided an analysis of rear yard conditions of the social block, three (3) of which are located in an R4 zoning district and one (1) of which is located partially in an R2 zoning district and partially in an R4 zoning district but subject to the same rear yard regulations as the subject site pursuant to ZR § 23-47, demonstrating that, of the 39 other lots occupied by single- or two-family dwellings, 30 lots (77 percent) have rear yards with a depth less than 30 feet, ranging from 0 feet to 29 feet, including the lot abutting the subject property at the rear and the adjacent lot to the south of the subject property, which have rear yards with depths of 20'-3" and 19 feet, respectively; and

WHEREAS, in light of the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 17-BSA-092K, dated February 17, 2017.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622 to permit, in an R2 zoning district, the enlargement of a one-family detached dwelling that does not comply with the zoning requirements with regards to floor area ratio, open space ratio, side yards, and rear yards, contrary to ZR §§ 23-141, 23-461(a), and 23-47; *on condition* that all work shall substantially conform to drawings as they apply to the objection above-noted, filed with this application and marked Received "November 20, 2018*"—Fourteen (14) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area ratio of 1.00 (4,016 square feet of floor area), a minimum open space ratio of 0.59 (2,362 square feet of open space), two (2) side yards with minimum widths of 3'-11" and 9'-1", and a rear yard with a minimum depth of 19'-5", as illustrated on BSA-approved plans;

THAT the removal of exterior walls and/or joists in excess of those indicated on the BSA-approved plans is prohibited and shall void the special permit;

THAT substantial construction shall be completed pursuant to ZR § 73-70;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, indicating this approval and calendar number ("BSA Cal. No. 2017-47-BZ") shall be obtained within four (4) years, by November 20, 2022;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other

jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the special relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, November 20, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated August 22, 2017, acting on Department of Buildings (“DOB”) Application No. 321545869, reads in pertinent part:

Proposed plans are contrary to:

ZR 23-141 . . . in that the propose floor area (F.A.R.) exceeds the maximum permitted;

ZR 23-141 in that the proposed open space ratio is less than the minimum required; and

WHEREAS, this is an application under ZR § 73-622 to permit, in an R2 zoning district, the enlargement of a detached single-family dwelling that does not comply with the zoning requirements for floor area ratio (“FAR”) and open space ratio contrary to ZR § 23-141; and

WHEREAS, a public hearing was held on this application on August 21, 2018, after due notice by publication in *The City Record*, with a continued hearing on November 20, 2018, and then to decision on that same date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the northeast corner of Avenue K and East 23rd Street, in an R2 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 60 feet of frontage along Avenue K, 100 feet of frontage along East 23rd Street, 6,000 square feet of lot area, and is occupied by a two (2) story plus attic and cellar single family dwelling containing 3,877 square feet of floor area (0.65 FAR), an open space ratio of 1.08 (4,193 square feet of open space), a front yard on Avenue K with 8.4 feet of depth, a front yard on East 23rd Street with 10.6 feet of depth, side yards with widths of 6.6 feet and 32.3 feet, and detached brick and stucco garage in the rear; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement*¹ of an existing *single-* or *two-family detached* or *semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the

following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single-* or *two-family detached* or *semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building’s non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins. Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development

¹ Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that this application located within an area in which the special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge the detached one-family residence, as contemplated by ZR § 73-622; and

WHEREAS, the applicant proposes to lower the cellar slab and enlarge the existing detached dwelling with horizontal extensions at the first, second, and attic floors, resulting in a two- (2) story plus attic and cellar dwelling with 5,904 square feet of floor area (0.98 FAR), an open space ratio of 0.57 (3,387 square feet of open space), a front yard with 8.4 feet of depth on Avenue K, a front yard with 10.6 feet of depth on East 23rd Street, and side yards with widths of five (5) feet and 20 feet; and

WHEREAS, specifically, the applicant states that the proposed enlargement would increase the floor area on the first floor from 1,807 square feet to 2,613 square feet, the second floor from 1,470 square feet to 2,018 square feet, and the attic from 600 square feet to 1,273 square feet; and

WHEREAS, at the subject site, a maximum of 0.5 FAR (3,000 square feet of floor area) is permitted and a minimum open space ratio of 1.50 is required pursuant to ZR § 23-141; and

WHEREAS, the applicant provided an analysis of single- or two-family dwellings located within 400 feet of the subject premises within an R2 zoning district (the “Study Area”) concluding that, of the 98 qualifying residences, 84 residences (86 percent) have an FAR of greater than 0.5, ranging from 0.51 to 1.14, and 11 residences (11 percent) have an FAR of 0.98 or greater; and

WHEREAS, with regards to open space, the applicant demonstrated that, within the Study Area, 95 residences (97 percent) have an open space ratio less than 1.50, ranging from 0.38 to 1.45; and

WHEREAS, the Board notes that the subject application did not receive objections with regards to the front yards and the Board has no authority under ZR § 73-622 to grant a waiver of front yard requirements; therefore, the Board has neither made any findings nor granted any waivers with regards to the front yard regulations applicable at the subject site; and

WHEREAS, in light of the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622; and

WHEREAS, this project is classified as a Type II action

pursuant to 6 NYCRR Part 617.6; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 18-BSA-032K, dated September 13, 2017.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622 to permit, in an R2 zoning district, the enlargement of a one-family detached dwelling that does not comply with the zoning requirements with regards to floor area ratio and open space ratio, contrary to ZR § 23-141; *on condition* that all work shall substantially conform to drawings as they apply to the objection above-noted, filed with this application and marked Received “November 1, 2018”—Thirteen (13) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area ratio of 0.98 (5,904 square feet of floor area), and a minimum open space ratio of 0.57 (3,387 square feet of open space), as illustrated on BSA-approved plans;

THAT the removal of exterior walls and/or joists in excess of those indicated on the BSA-approved plans is prohibited and shall void the special permit;

THAT substantial construction shall be completed pursuant to ZR § 73-70;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, indicating this approval and calendar number (“BSA Cal. No. 2017-266-BZ”) shall be obtained within four (4) years, by November 20, 2022;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the special relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, November 20, 2018.

THE RESOLUTION –

MINUTES

WHEREAS, the decision on behalf of the Manhattan Borough Commissioner, dated September 26, 2017, acting on Department of Buildings (“DOB”) Application No. 122891932, reads in pertinent part:

Proposed change of use to a physical culture establishment, as defined by ZR 12-10, is not permitted as of right in a C5-3 zoning district pursuant to ZR 32-10 and must be referred to the Board of Standards and Appeals for approval pursuant to ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, on a site located in a C5-3 zoning district and in the Special Midtown District, a physical culture establishment (“PCE”) on portions of the fourth floor of an existing 58-story plus cellar and sub-cellar mixed-use residential and commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on November 20, 2018, after due notice by publication in *The City Record*, and then to decision on that same date; and

WHEREAS, Vice-Chair Chanda performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 5, Manhattan, waived their recommendation for this application; and

WHEREAS, the subject site is located on the northwest corner of Fifth Avenue and West 36th Street, in a C5-3 zoning district and in the Special Midtown District, in Manhattan; and

WHEREAS, the site has approximately 132 feet of frontage on Fifth Avenue, 125 feet of frontage along West 36th Street, 16,351 square feet of lot area and is occupied by a 58-story plus cellar and sub-cellar mixed-use residential and commercial building, occupied, in part, as a Use Group 5 hotel on the fifth through twenty-sixth floors; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use*¹ is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts,

- tennis courts; or
- (ii) a swimming pool of a minimum 1,500 square feet; or
- (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
- (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, the Board notes that, because no portion of the subject PCE is represented as being located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy

¹ Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant submitted evidence that the subject PCE occupies 2,106 square feet of floor area on the fourth floor with individual treatment rooms, locker rooms with bathrooms, showers, saunas, steam rooms, and a reception area with a lounge; and

WHEREAS, the applicant represents that the subject PCE opened in April 2017, as “Chuan Body + Soul Spa,” operating daily from 10:00 a.m. to 8:00 p.m.; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because the spa occupies less than one (1) percent of the total square footage of the building and the applicant anticipates the spa will enhance the local area through providing mental and physical health benefits to hotel guests, residents, and members of the public; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant represents that the PCE will contain facilities for the provision of spa services including the practice of massage; and

WHEREAS, accordingly, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant submits that an approved wet sprinkler system and fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, and a connection of the interior fire alarm system to an FDNY-approved central station—are installed within the PCE space; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood on account of its location, wholly within the fourth floor of the existing building, its fit with the mixed-use character of the neighborhood and the physical and mental benefits to be derived from the spa services provided; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that

the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, by letter dated November 17, 2018, the Fire Department stated no objection to the application and confirmed that the building has a fire alarm, sprinkler and standpipe systems that have been tested satisfactory and have current permits; and

WHEREAS, at the hearing, the Board expressed concern regarding access to the PCE and the sharing of elevators by PCE patrons with residential tenants and hotel guests; and

WHEREAS, in response, the applicant explained that the PCE patrons will only access the PCE via the shared elevator, but residential tenants and hotel guests access other areas and floors of the building through keycards not available to PCE patrons; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated at the premises without the special permit; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 18-BSA-041M, dated February 8, 2018; and

WHEREAS, based upon its review of the record, the Board finds that the requested special permit, legalizing the PCE on the fourth floor, is appropriate, with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to legalize, on a site located within a C5-3 zoning district and in the Special Midtown District, a physical culture establishment on a portion of the fourth floor of an existing 58-story plus cellar and sub-cellar mixed-use commercial and residential building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “December 12, 2017”– Five (5) sheets; and *on further condition*:

THAT the term of the PCE grant shall expire on April 1, 2027;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT all services, included but not limited to massages and esthetics, shall be provided by individuals duly-licensed in New York State to perform such services;

THAT accessibility compliance under Local Law 58/87 shall be as reviewed and approved by DOB;

THAT the sprinkler system shall be maintained as

MINUTES

indicated on the Board-approved plans;

THAT an approved fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and a connection to an FDNY-approved central station—shall be maintained within the PCE space;

THAT minimum 3-foot-wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, indicating this approval and the subject calendar number (“BSA Cal. No. 2017-278-BZ”) shall be obtained within one (1) year, by November 20, 2019;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, November 20, 2018.

THE RESOLUTION –

WHEREAS, the decision on behalf of the Queens Borough Commissioner, dated June 6, 2018, acting on

Department of Buildings (“DOB”) Application No. 421544680, reads in pertinent part:

Proposed change of use from retail to physical culture establishment is contrary to Section ZR 42-10 and requires a special permit by the BSA, pursuant to Section ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, on a site located partially within an M1-2 zoning district, partially within an R4B, and partially within an R4B(C1-3), a physical culture establishment (“PCE”) on the cellar level of an existing two- (2) story plus mezzanine and cellar commercial building with accessory parking, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on November 20, 2018, after due notice by publication in *The City Record*, and then to decision on that same date; and

WHEREAS, the Board was in receipt of three (3) form letters in support of this application; and

WHEREAS, Community Board 5, Queens, recommends approval of this application; and

WHEREAS, Melinda Katz, Queens Borough President, recommends approval of this application; and

WHEREAS, the subject site is bound by Metropolitan Avenue to the north, 65th Lane to the west, the Long Island Rail Road to the south, and Rentar Plaza to the east, partially within an M1-2 zoning district, partially within an R4B, and partially within an R4B(C1-3), in Queens; and

WHEREAS, the site has approximately 1,270 feet of frontage along Metropolitan Avenue, 956,664 square feet of lot area, and is occupied by a two- (2) story plus mezzanine and cellar commercial building with accessory parking; and

WHEREAS, the subject PCE is proposed to be located on the cellar level in a portion of the building located wholly within the portion of the subject site located in an M1-2 zoning district;

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* 1 is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts,

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

- paddleball courts, racketball [*sic*] courts, tennis courts; or
- (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, the applicant represents that, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or

revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant submitted evidence that the subject PCE will occupy 27,265 square feet of floor space in the cellar with areas for exercise machines, free weights, and fitness instruction classes for yoga, aerobic dance, cardio, kickboxing, body sculpting, and spin cycling, men's and women's locker rooms with bathrooms and showers, a juice bar, storage, sales areas, a lobby and offices; and

WHEREAS, the applicant submits that the proposed PCE will operate as "Fit Nation Health Club" with the following hours of operation: Monday through Friday, 5:00 a.m. to 12:00 a.m.; Saturday and Sunday, 7:00 a.m. to 10:00 p.m.; and

WHEREAS, the applicant anticipates that the proposed PCE use will neither impair the essential character nor the future use or development of the surrounding area because it will be located on a heavily commercial thoroughfare in a commercial shopping mall complex and expects to draw a majority of its patronage from the local area residents and employees; and

WHEREAS, while the proposed PCE will be located on the cellar level of a commercial building in a major retail area in a manufacturing district, the applicant proposes to institute sound-attenuation measures in the PCE including rubber-encased free-weights and weight plates, and sound-attenuating flooring; specifically, the applicant plans to install high performance rubber floor tiles in weightlifting and training areas, artificial turf flooring in fitness areas, suspended hardwood flooring in the group fitness area, and all flooring in the PCE will be shock and sound absorbing; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant represents that the PCE contains facilities for classes, instruction and programs for the provision of physical improvement through personal training, fitness classes, and body building; and

WHEREAS, accordingly, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that an approved sprinkler system and fire alarm system—including area smoke detectors, manual pull stations at each required exit,

MINUTES

local audible and visual alarms and a connection of the building's interior fire alarm to an FDNY-approved central station—are installed throughout the PCE space; and

WHEREAS, by letter dated November 16, 2018, the Fire Department stated no objection to the application and confirmed that the subject building has a fire alarm, sprinkler (wet and dry) and standpipe systems that have been tested satisfactory and have current permits; and

WHEREAS, at the hearing, the Board raised concerns regarding the ability for individuals with mobility-impairment to access the PCE; and

WHEREAS, in response, the applicant demonstrated the accessible means of access to the PCE through a proposed new ramp, as well as the main entrance to the PCE which is also accessible; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood on account of its location on the cellar level of a commercial retail complex in a manufacturing district with existing accessory parking on-site, in an area well served by mass transit, and anticipates most members will walk or use public transportation to the PCE; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 18-BSA-065Q, dated August 28, 2018; and

WHEREAS, based upon its review of the record, the Board finds that the requested special permit, permitting the PCE on portions of the cellar level, is appropriate, with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located partially within an M1-2 zoning district, partially within an R4B, and partially within an R4B(C1-3), the operation of a physical culture establishment, wholly within the M1-2 zoning district portion of the building, in a portion of the cellar level of an existing two- (2) story plus mezzanine and cellar commercial building with accessory parking, contrary to ZR § 42-10; *on condition* that all work shall substantially conform to drawings filed with this application marked

“Received August 1, 2018”—Twelve (12) sheets; and *on further condition*:

THAT the term of the PCE grant shall expire on November 20, 2028;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance under Local Law 58/87 shall be as reviewed and approved by DOB;

THAT the existing fire alarm and sprinkler systems shall be maintained as indicated on the Board-approved plans;

THAT minimum 3 foot wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, indicating the subject approval and calendar number (“BSA Cal. No. 2017-305-BZ”), shall be obtained within four (4) years, by November 20, 2022;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, November 20, 2018.

CEQR #19-BSA-022M

APPLICANT – Sahn Ward Coschignano, PLLC, for 450 Partners LLC c/o Brookfield Properties, Inc., owner; Peloton Interactive, Inc., lessee.

SUBJECT – Application August 7, 2018 – Special Permit (§73-36) to permit the operation of a physical culture establishment (fitness facility) on a portion of the first and second floor of an existing building contrary to ZR §32-10. C6-4 Special Hudson Yards District.

PREMISES AFFECTED – 450 West 33rd Street, Block 729, Lot 9001 (aka Lot 1), Borough of Manhattan.

COMMUNITY BOARD #4M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision on behalf of the Department of Buildings (“DOB”), dated July 10, 2018, acting on DOB Application No. 121184725, reads in pertinent part:

Proposed physical cultural establishment is not permitted as-of-right in C6-4 zoning district per ZR 32-30, and therefore requires a special permit from the Board of Standards and Appeals pursuant to ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, on a site located in an C6-4 zoning district and in the Special Hudson Yards District, a physical culture establishment (“PCE”) on portions of the first and second floor of an existing 15-story plus cellar and mezzanine commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on November 20, 2018, after due notice by publication in *The City Record*, and then to decision on that same date; and

WHEREAS, Community Board 4, Manhattan, recommends approval of this application; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the southeast corner of West 33rd Street and Tenth Avenue, in a C6-4 zoning district in the Special Hudson Yards District, in Manhattan; and

WHEREAS, the site has approximately 302 feet of frontage, 455 feet of depth, 137,352 square feet of lot area, and is occupied by a 15-story plus cellar and mezzanine commercial building, in which the subject PCE is to be located; and

WHEREAS, the Board has exercised jurisdiction over the subject site since December 5, 1972, when, under BSA Cal. No. 590-72-A, the Board granted an appeal of the decision of the Fire Commissioner, of Order No. 72-1634, regarding the storage of gasoline and fueling of motor vehicles on site, on condition that the 15th floor substantially comply to the drawings marked “Received October 25, 1972,” one (1) sheet, and that all laws, rules and regulations be complied with; and

WHEREAS, on October 29, 1974, under BSA Cal. No. 148-74-A, the Board granted an appeal of the decision of the Fire Commissioner, of Violation Order B-930898, regarding stair re-entry requirements, on condition that re-entry be provided on the fifth, eighth, and twelfth floors of the premises, the building substantially conform to drawings marked “Received March 11, 1974—5 Sheets,” and all laws, rules and regulations be complied with; and

WHEREAS, on May 20, 1975, under BSA Cal. No. 148-74-A, the Board corrected its October 29, 1974 resolution to reflect re-entry to be provided on the fifth, eighth, and eleventh floors on condition that the building substantially conform to drawings marked “Received March 11, 1974—5 Sheets,” and all laws, rules and regulations be complied with; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use 1* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, the applicant represents that, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant represents that the proposed PCE will occupy 25,288 square feet of floor area at the subject site, comprised of 15,761 square feet of floor area on the first floor with a treadmill studio, spin cycling studio, rowing studio, a space for yoga, flex and auxiliary exercises, a lounge, locker rooms, bathrooms, showers, mechanical spaces, and reception; and, 9,527 square feet of floor area on

the second floor with an accessory retail showroom, a lounge, locker rooms with bathrooms and showers, mechanical spaces, and a laundry room; and

WHEREAS, the applicant submits that the proposed PCE will operate as “Peleton” with the following hours of operation: Monday through Friday, 5:30 a.m. to 9:45 p.m.; and, Saturday and Sunday, 7:00 a.m. to 8:00 p.m.; and

WHEREAS, the applicant provided evidence that the PCE space will provide sound mitigation measures to ensure a high level of noise isolation and vibration isolation; specifically, all of the studios will be constructed as boxes-within-boxes with floating concrete floor slabs on jack-up spring-isolators, isolated partitions, full-height secondary wall enclosures, noise-barrier ceilings, acoustic column enclosures, sound absorbing wall and ceiling treatments, rubber flooring, acoustically rated doors with a rating of STC 54+, and, minimized through-penetrations for ducts and lighting in the isolated ceiling; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because the PCE is compatible with the mixed-use nature of the neighborhood, which is characterized by offices, residences, industrial and utility, transportation, and mixed-use buildings, and the applicant does not anticipate the PCE to draw any additional traffic to the area; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant represents that the PCE will contain facilities for classes, instruction and programs for physical improvement utilizing instructed treadmill, spin cycle, and row machine exercises, and exercise classes; and

WHEREAS, accordingly, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant submits that the PCE space will be protected with a wet sprinkler system, and an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, and a connection of the interior fire alarm system to an FDNY-approved central station—will be installed within the PCE space; and

WHEREAS, by letter dated November 17, 2018, the Fire Department states that it has no objection to this application and confirmed that the building has fire alarm, sprinkler and standpipe systems, all of which were tested satisfactory and have current permits; an application for an

MINUTES

operating permit (PA 123456369) has been filed with the DOB and is awaiting approval pending the Board's decision; and, once granted, units of the Bureau of Fire Prevention will be notified and perform the required inspections; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood on account that it is located entirely within an existing building, and the proposed isolated acoustic construction will prevent sound and vibration from impacting adjoining tenants and properties; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 19-BSA-022M, dated August 9, 2018; and

WHEREAS, based upon its review of the record, the Board finds that the requested special permit, permitting the proposed PCE space on the first and second floor, is appropriate, with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located within a C6-4 zoning district and in the Special Hudson Yards district, a physical culture establishment on portions of the first, and second floor of an existing 15-story plus cellar and mezzanine commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked Received July 26, 2018"– Fourteen (14) sheets; and *on further condition*:

THAT the term of the PCE grant shall expire on November 20, 2028;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance under Local Law 58/87 shall be as reviewed and approved by DOB;

THAT the sprinkler system shall be installed and maintained as indicated on the Board-approved plans;

THAT an approved fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and a connection to an FDNY-approved central station—shall be installed and

maintained within the PCE space;

THAT minimum 3-foot-wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, indicating this approval and calendar number ("BSA Cal. No. 2018-133-BZ") shall be obtained within four (4) years, by November 20, 2022;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, November 20, 2018.

SPECIAL ORDER CALENDARS

24-96-BZ

APPLICANT – Rothkrug Rothkrug & Spector LLP, for Legaga LLC, owner.

SUBJECT – Application January 23, 2018 – Extension of Term (11-411) of a previously approved variance permitting the operation of an Eating and Drinking Establishment (*McDonald's*) which expired on October 7, 2017; Extension of Time to obtain a Certificate of Occupancy which expired on July 15, 2015; Waiver of the Rules. R7-2 zoning district. PREMISES AFFECTED – 213 Madison Street, Block 271, Lot 40, Borough of Manhattan.

COMMUNITY BOARD #3M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board's Rules of Practice and Procedure, reopening, an extension of term to a previously granted variance, which expired on October 7, 2017, and an extension of time to obtain a certificate of occupancy, which expired on July 15, 2015; and

WHEREAS, a public hearing was held on this application on August 7, 2018, after due notice by publication in *The City Record*, with a continued hearing on October 23, 2018, and then to decision on December 4, 2018; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the north side of Madison Street, between Rutgers Street and Jefferson Street, in an R7-2 zoning district, in Manhattan; and

WHEREAS, the site has approximately 26 feet of frontage, 100 feet of depth, 2,612 square feet of area and is occupied by a one-story plus cellar eating and drinking establishment (Use Group ("UG") 6); and

WHEREAS, the Board has exercised jurisdiction over

the subject site since April 19, 1955, when, under BSA Cal. No. 664-54-BZ, the Board granted a variance to permit, in a residence district, the construction and use of a one-story plus cellar retail store for a term of 15 years, expiring April 19, 1970, on condition that the building not be higher than proposed; that a rear yard of the depth shown be maintained at the rear; in all other respects the building and occupancy comply with all laws, rules and regulations applicable thereto; the use of such building and the cellar be as permitted in a local retail district; suitable fences be maintained along the lot lines at the rear and either side beyond the building; signs be restricted to such signs as would be permitted in a local retail district; and all permits required be obtained, including a certificate of occupancy and all work completed within one (1) year, by April 19, 1956; and

WHEREAS, on October 7, 1997, under the subject calendar number, the Board granted an application, pursuant to ZR § 11-411 to re-establish and extend the term of the expired variance, granted under BSA Cal. No. 664-54-BZ, which permitted a one-story retail store (UG6), on condition that all work substantially conform to drawings as they apply to the objections cited in the application; the term of the variance be limited to ten (10) years, to expire on October 7, 2007; a rear yard no less than 14'-2" in depth be provided in accordance with the BSA-approved plans, which yard will be maintained free and clear of debris and any other encroachments; the premises be maintained clean and free of graffiti; signage at the premises conform to C1 district regulations; the above conditions appear on the certificate of occupancy; the development, as approved, be subject to verification by the Department of Buildings for compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under the jurisdiction of the Department; and a certificate of occupancy be obtained within one (1) year, by October 7, 1996; and

WHEREAS, on November 18, 2008, under the subject calendar number, the Board waived its Rules of Practice and Procedure, approved an amendment to the variance legalizing a change in use from UG 6 retail store to a UG 6 eating and drinking establishment, and granted an extension of term for a period of ten (10) years, to expire on October 7, 2017, on condition that any and all use substantially conform to drawings as they apply to the objections cited in the application; a rear yard no less than 11 feet in depth be provided in accordance with BSA-approved plans, which yard will be maintained free and clear of debris and any other encroachments; the premises be maintained clean and free of graffiti; all signage comply with C1 district regulations; the above conditions be listed on the certificate of occupancy; a certificate of occupancy be obtained by May 18, 2009; all conditions from prior resolutions not specifically waived by the Board remain in effect; the approval be limited to the relief granted in response to specifically cited and filed DOB/other jurisdiction objection(s) only; the approved plans be considered

MINUTES

approved only for the portions related to the specific relief granted; and the Department of Buildings ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, on July 22, 2014, under the subject calendar number, the Board waived its Rules of Practice and Procedure, reopened, and granted an extension of time to obtain a certificate of occupancy, on condition that any and all use will substantially conform to drawings associated with the prior approval; the grant will expire on October 7, 2017; a rear yard no less than 11 feet in depth be provided in accordance with BSA-approved plan and be maintained free and clear of debris and any other encroachments; the premises be maintained clean and free of graffiti; all signage comply with C1 district regulations; the above conditions and all other relevant conditions from prior approvals will be listed on the certificate of occupancy; a certificate of occupancy be obtained by July 15, 2015; all conditions from prior resolutions not specifically waived by the Board remain in effect; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; the approved plans be considered approved only for the portions related to the specific relief granted; and the Department of Buildings ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, the term of the variance and the time to obtain a certificate of occupancy having expired, the applicant seeks an extension of the term of the variance and an extension of time to obtain a certificate of occupancy; and

WHEREAS, the applicant additionally requests waivers, pursuant to § 1-14.2 of the Board's Rules of Practice and Procedure, of Rules §§ 1-07.3(b)(2) and 1-07.3(d)(2) to permit the filing of this application less than two (2) years after the expiration of the term, and more than 30 days after the expiration of the time to obtain a certificate of occupancy; and

WHEREAS, the applicant represented that the use has been continuous since expiration of the term, no changes in operator, operation or structure are proposed or have occurred since expiration of the term, and the site is compliant with all prior conditions imposed by the Board, with the exception of the subject relief requested; and

WHEREAS, the applicant explained that the delay in compliance was due to an issue with a prior architect and a new professional has been retained to obtain a certificate of occupancy, and estimated that the certificate of occupancy would be obtained within six (6) months to one (1) year from the date of the grant; and

WHEREAS, pursuant to ZR §11-411, the Board may, in appropriate cases, permit an extension of a term of the variance previously authorized pursuant to the 1916 Zoning

Resolution; and

WHEREAS, over the course of the hearings, the Board expressed concerns regarding the presence of illegal flag signs and flag support structures on the front of the building; and

WHEREAS, in response, the applicant provided photographs to demonstrate that the flags and flag structures were removed; and

WHEREAS, by letter dated October 3, 2018, the Fire Department stated that it had no objection to this application and noted that a review of Fire Department records show that the operating permit for the rangehood system has expired, and recommends that the applicant have their client contact the Fire Department to renew the operating permit for their rangehood system; and the Fire Department will inform the Board once the permits have been updated; and

WHEREAS, the Board finds that the requested extension of term and extension of time to obtain a certificate of occupancy are appropriate, subject to conditions below.

Therefore, it is Resolved, that the Board of Standards and Appeals, *waives* its Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated October 7, 1997, as amended through July 22, 2014, so that as amended this portion of the resolution reads: "to grant an extension of the term of the variance for a term of ten (10) years, and an extension of time to obtain a certificate of occupancy; and *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received November 15, 2018"-Six (6) sheets; and *on further condition*:

THAT the term of this grant shall expire on October 7, 2027;

THAT the rear yard, which ranges in depth from 10'-10.5" to 11'-5.57", shall be maintained free and clear of debris and any other encroachments;

THAT the premises shall be maintained free of debris and graffiti;

THAT all signage shall comply with C1 zoning regulations;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy indicating this approval and calendar number ("BSA Cal. No. 24-96-BZ") shall be obtained within one (1) year, by December 4, 2019; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, December 4, 2018.

APPLICANT – Sheldon Lobel, P.C., for MHSP Walton Owner LLC, owner.

SUBJECT – Application October 27, 2017 –

Special Permit (§73-623) to permit development of a new, fourteen-story building with a gymnasium for the Mount Hope Community Center and approximately 103 affordable housing units developed under the Extremely Low and Low-Income Affordability (“ELLA”) financing program administered by the Department of Housing Preservation and Development (“HPD”).

The proposal is contrary to ZR §23-711 (distance of legally required windows) and ZR §23-622 (base and building heights).

Amendment of a previously approved Variance (§72-21) which permitted the construction of a four-story Use Group 4 community center facility contrary to underlying bulk regulations. The amendment seeks to allow for a modified design of the gymnasium building approved in the original variance. R8 zoning district.

PREMISES AFFECTED – 1761 Walton Avenue, Block 2850, Lot(s) 34, 38, 63 & 160, Borough of Bronx.

COMMUNITY BOARD #5BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated October 11, 2017, acting on New Building Application No. 220152607, reads in pertinent part:

“Proposed distance between the wall of the existing building and legally required windows in the proposed development is below the required distance of 50 feet contrary to ZR § 23-711.

“Proposed base height and building height exceed the maximum heights permitted pursuant to ZR § 23-662”; and

WHEREAS, this is an application under ZR §§ 73-623 and 73-03 to permit, in an R8 zoning district, the development of a fourteen-story, with cellar, mixed-use residential and community-facility building that does not comply with zoning regulations for window-wall distance and height, contrary to ZR §§ 23-711 and 23-662, and an application for an amendment to a variance, previously granted by the Board, to permit modifications to the design of the gymnasium building; and

WHEREAS, a public hearing was held on this

application on July 24, 2018, after due notice by publication in *The City Record*, with continued hearing on October 11, 2018, and then to decision on December 4, 2018; and

WHEREAS, Chair Perlmutter, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 5, Bronx, recommends approval of this application; and

WHEREAS, the subject site is located on the northeast corner of Townsend Avenue and East 175th Street, with frontage along the west side of Walton Avenue, in an R8 zoning district, in the Bronx; and

WHEREAS, the subject site has approximately 125 feet of frontage along Walton Avenue, 140 feet of frontage along Townsend Avenue, 100 feet of frontage along East 175th Street, 26,500 square feet of lot area and is occupied by a four-story community-facility building; and

Whereas, the Board has exercised jurisdiction over the subject site since January 9, 2007, when, under BSA Calendar Number 252-06-BZ, the Board granted a variance to permit the development of a four-story community-facility building (Use Group 4) on condition that the total floor area not exceed 41,985 square feet (1.58 FAR), as illustrated on the Board-approved drawings; and

Whereas, the applicant now seeks a special permit under ZR §§ 73-623 and 73-03 to permit the development of a fourteen-story, with cellar, mixed-use residential and community-facility building with a window-wall distance of 40 feet between the existing community-facility building and the third, fourth and fifth stories of the proposed building and with a base height of 100’-8” and a building height of 138’-0”;

and
Whereas, the applicant states that, at the subject site, a minimum window-wall distance of 50 feet is required under ZR § 23-711, and that a maximum base height of 85 feet and a maximum building height of 115 feet are permitted under ZR § 23-662; and

WHEREAS, ZR § 73-623 provides, in pertinent part:

Bulk modifications for certain Quality Housing buildings on irregular sites

For *developments* or *enlargements* of *Quality Housing buildings* in which at least 50 percent of the *dwelling units* are *income-restricted housing units*, or at least 50 percent of its total *floor area* is a *long-term care facility* or philanthropic or non-profit institution with sleeping accommodation, the Board of Standards and Appeals may modify the underlying *bulk* regulations, other than *floor area ratio*, provided that in no event shall such *building* height or the number of *stories* therein exceed those set forth in paragraph (b) of Section 23-664 (Modified height and setback regulations for certain Inclusionary Housing buildings or affordable independent residences for seniors), and provided that the Board finds that:

(a) there are physical conditions, including

MINUTES

irregularity, narrowness or shallowness of lot size or shape, or topographical features that create practical difficulties in complying with the *bulk* regulations for *Quality Housing buildings* and would adversely affect the *building* configuration or site plan;

- (b) the practical difficulties of developing on the *zoning lot* have not been created by the owner or by a predecessor in title;
- (c) the proposed modifications will not unduly obstruct access of light and air to adjoining properties or *streets*;
- (d) the proposed scale and placement of the *development* or *enlargement* relates harmoniously with the surrounding area; and
- (e) the requested modification is the least amount necessary to relieve such practical difficulties.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, inter alia, ZR §§ 73-01 through 73-04; and

WHEREAS, as a preliminary matter, the applicant represents that the proposed building would include affordable housing, namely that a minimum of 50 percent of the dwelling units in the proposed building would be income-restricted housing units, as contemplated by ZR § 73-623; and

WHEREAS, by letter dated January 17, 2018, the Department of Housing Preservation and Development (“HPD”) states that the proposed residential development at the subject site is in HPD’s pipeline and as proposed is consistent with the goals set forth in Housing New York; that, at closing, the proposed development will be made subject to a regulatory agreement with HPD through 2048, during which time the development’s 103 dwelling units (not including one superintendent’s unit) will remain subject to a legally binding restriction limiting rents through the Extremely Low and Low-Income Affordability (“ELLA”) financing program; and that at closing HPD may require the proposed development to include additional units to remain affordable in perpetuity in accordance with ELLA term sheet requirements; and

WHEREAS, in support of the applicability of the subject special permit and in response to questions from the Board at hearing, the applicant proposes to record a restrictive declaration against the property stating that at least 50 percent of the dwelling units will be income-restricted housing units, as defined in ZR § 12-10, prior to the issuance of the Board’s resolution; and

WHEREAS, the applicant states that there are physical conditions, including irregularity of lot shape, that create practical difficulties in complying with bulk regulations for Quality Housing Buildings and would adversely affect the configuration of the proposed building or site plan; and

WHEREAS, more particularly, the applicant states that complying with the bulk regulations would prevent development of a gymnasium but that the proposed bulk modifications would facilitate an improved site plan; and

WHEREAS, accordingly, the Board finds that the requirements of ZR § 73-623(a) are met; and

WHEREAS, the applicant states that the above practical difficulties of developing the subject site have not been created by the owner or predecessor in title; and

WHEREAS, the applicant states that, rather, the above practical difficulties stem from the physical conditions inherent in the subject site; and

WHEREAS, accordingly, the Board finds that the requirements of ZR § 73-623(b) are met; and

WHEREAS, the applicant states that the proposed bulk modifications would not unduly obstruct access to light and air to adjoining properties or streets; and

WHEREAS, the applicant notes that the proposed building would provide a rear yard with a depth of approximately 40 feet at the interior lot to ensure adequate light and air to adjacent properties and that the proposed building would comply with the modified height and setback regulations for affordable Quality Housing buildings under ZR § 23-664 to ensure adequate light and air to Walton Avenue; and

WHEREAS, in support of this contention, the applicant submitted a shadow analysis of the proposed building, concluding that the proposed building would not affect the vitality or usage of sunlight sensitive resources (two community gardens) in the vicinity and that there would be no significant adverse impacts from shadows resulting from the proposed bulk modifications; and

WHEREAS, the applicant further analyzed potential mobile source air quality impacts, concluding that the proposed bulk modifications would not result in any significant adverse impacts related to HVAC emissions, based upon the size of the proposed building and its distance from surrounding buildings of similar or greater height; and

WHEREAS, accordingly, the Board finds that the requirements of ZR § 73-623(c) are met; and

WHEREAS, the applicant states that the proposed scale and placement of the proposed building relates harmoniously with the surrounding area; and

WHEREAS, in support of this contention, the applicant studied the surrounding area, finding that it is characterized by medium-density apartment buildings and that the proposed building will be of similar use, appearance and bulk to adjacent uses on Walton Avenue; and

WHEREAS, with respect to height, the applicant studied heights in the surrounding area, finding that there are several buildings with heights ranging from 12 to 14 stories, including a new 13-story residential building located directly across the street, a 12-story building located less than one block east of the subject site and a 14-story building located less than one block east of the subject site; and

WHEREAS, accordingly, the Board finds that the requirements of ZR § 73-623(d) are met; and

MINUTES

WHEREAS, the applicant states that the proposed bulk modifications to window-wall distance and height are minimal and the minimum necessary to provide a gymnasium at the subject site; and

WHEREAS, accordingly, the Board finds that the requirements of ZR § 73-623(e) are met; and

WHEREAS, in response to questions from the Board at hearing, the applicant notes that the proposed basketball court in the gymnasium meets published design standards, including standard minimum-clearance ceiling height; and

WHEREAS, the applicant made changes to improve clearance to the basketball court and overall heights and layouts of the proposed building, including adding a dwelling unit to the second story and removing a dwelling unit from the third story, thereby dramatically improving the recreation room and access to the roof deck; and

WHEREAS, asked about the façade of proposed building, the applicant amended the drawings to reflect exterior building materials for the exterior of the proposed building, which would include cast stone, brick, stucco and precast concrete but not exterior insulation and finish system; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of bulk regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-623 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion; and

WHEREAS, additionally, the applicant seeks an amendment to the variance granted under BSA Calendar Number 252-06-BZ to permit modifications to the design of the previously approved gymnasium building; and

WHEREAS, pursuant to ZR §§ 72-01 and 72-22, the Board may, in appropriate cases, permit an amendment to a variance; and

WHEREAS, the applicant states that the proposed amendment would not implicate any additional provisions of the Zoning Resolution or increase the variances previously granted with respect to rear yard equivalents and rear yard encroachments; and

WHEREAS, the applicant states that the portions of the subject site under which the variances were granted would substantially maintain the same conditions with respect to the use of the gymnasium for indoor recreation, while the proposed amendment would facilitate minor modifications to the gymnasium design; and

WHEREAS, based upon its review of the record and the discussion herein, the Board has determined that the requested amendment is appropriate with certain conditions set forth below; and

WHEREAS, the project is classified an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment (“EAS”) CEQR No. 18BSA050X, dated November 12, 2018; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, by correspondence dated August 21, 2017, the New York City Landmarks Preservation Commission represents that the proposed project will not result in any significant architectural or archaeological impacts; and

WHEREAS, by letter dated July 31, 2018, the New York City Department of Environmental Protection (“DEP”) states that the proposed project will not result in significant noise impacts; and

WHEREAS, the development will use natural gas as the type of fuel for heating, ventilating and air conditioning to avoid any potential significant adverse air quality impacts; and

WHEREAS, by correspondence dated July 2, 2018, the New York City Department of Parks and Recreation represents that, regarding open space and shadows, it has no objection to this application; and

WHEREAS, by correspondence dated June 18, 2018, the New York City Department of City Planning represents that, with respect to potential impacts on community facilities, it has no objection to this application; and

WHEREAS, by correspondence dated July 31, 2018, DEP states that the Phase II Environmental Site Assessment and Health and Safety Plan for the proposed investigation are acceptable and requests that a detailed Phase II report be submitted to DEP for review and approval; and

WHEREAS, by correspondence dated October 4, 2018, the applicant requests that an (E) designation for hazardous materials be assigned to the subject site to allow for the Phase II work to be done after Board approval due to physical, financial and scheduling reasons; and

WHEREAS, by correspondence dated October 5, 2018, the Department of Environmental Protection states that it has no objection to assigning an (E) designation for this application; and

WHEREAS, an (E) designation (No. E-508) has been placed on the site for hazardous materials and an environmental review by the New York City Office of Environmental Remediation (“OER”) must be satisfied prior to the issuance of building permits to facilitate the

MINUTES

construction of the proposed building; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR §§ 73-623 and 73-03 *to permit*, in an R8 zoning district, the development of a fourteen-story, with cellar, mixed-use residential and community-facility building that does not comply with zoning regulations for window-wall distance and height, contrary to ZR §§ 23-711 and 23-662, and does hereby *reopen* and *amend* the resolution, dated January 9, 2007, under BSA Calendar Number 252-06-BZ, so that as amended this portion of the resolution shall read: “*to permit* modifications to the design of the previously approved gymnasium building”; *on condition* that all work and site conditions shall conform to drawings filed with this application marked “Received December 4, 2019”-Twenty (20) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: a minimum window-wall distance of 40 feet, a maximum base height of 100’-8”, a maximum building height of 138’-0” and community-facility floor area of no more than 41,985 square feet (1.58 FAR), as illustrated on the Board-approved drawings;

THAT an (E) designation (No. E-508) has been placed on the subject site for hazardous materials;

THAT the HVAC shall utilize natural gas;

That a minimum of 50 percent of dwelling units in the building shall remain income-restricted housing units for the life of the building;

THAT there shall be no lighting on the roof of the building except as necessary for security;

THAT access to the roof of the building shall be closed at dusk;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar numbers (“BSA Cal. Nos. 2017-289-BZ and 252-06-BZ”), shall be obtained within four (4) years, by December 4, 2022;

THAT a restrictive declaration shall be recorded against the property (City Register File No. 2019000014545) prior to the issuance of the Board’s resolution and shall substantially conform to the form and substance of the following:

THIS DECLARATION OF RESTRICTIVE COVENANTS (the “Declaration”), dated this _____ day of _____ ,

2018, is entered into by HP WALTON AVENUE HOUSING DEVELOPMENT FUND COMPANY, INC. (the “Declarant”), a New York not-for-profit corporation organized pursuant to Article XI of the Private Housing Finance Law of the State of New York and Section 402 of the Not-for-Profit Corporation Law of the State of New York, having its office at 242 West 36th Street, 3rd Floor, New York, New York 10018 and MOUNT HOPE COMMUNITY CENTER, INC., (the “Community Center”), a not-for-profit corporation formed pursuant to Section 102 of the New York State Not-for Profit Corporation Law, having an office at 2003-005 Walton Avenue, Bronx, New York 10453.

WHEREAS, the Declarant is the fee owner of certain land located in the City and State of New York, Borough of Bronx, being known and designated as Block 2850, Lot 63 on the Tax Map of the City of New York, and more particularly described in Exhibit A annexed hereto and made a part hereof (the “Premises”); and

WHEREAS, the Community Center is fee owner of certain land located in the City and State of New York, Borough of Bronx, being known and designated as Block 2850, Lots 34 and 38 on the Tax Map of the City of New York, and more particularly described in Exhibit B annexed hereto and made a part hereof (the “Community Facility Lot”); and

WHEREAS, the Premises is currently unimproved; and

WHEREAS, the Community Facility Lot is currently improved with a four-story community facility; and

WHEREAS, Declarant has requested by application assigned BSA Cal. Nos. 2017-289-BZ and 252-06-BZ, that the New York City Board of Standards and Appeals (the “Board”) grant (1) a special permit, under Section 73-623 of the New York City Zoning Resolution (“ZR”) (the “Special Permit”) to permit the development of a new, 14-story building with a gymnasium for the Mount Hope Community Center and approximately 103 affordable housing units contrary to ZR § 23-711 (distance of legally required windows) and ZR § 23-622 (base and building heights) and (2) an Amendment application of a previously approved variance which permitted the construction of a four-story Use Group 4 Community Facility contrary to underlying bulk regulations on the Community Facility Lot; and

WHEREAS, the special permit requires that the at least 50 percent of the “dwelling units” (as defined by ZR § 12-10) are “income-restricted housing units” (as defined by ZR § 12-10) or at least 50 percent of its total floor area is a “long-

MINUTES

term care facility” or philanthropic or non-profit institution with sleeping accommodations; and

WHEREAS, the grant of the Special Permit will facilitate the construction of a 14-story building (the “Proposed Building”) with 103 income-restricted housing units; and

WHEREAS, the Board requires Declarant to execute and record in the Office of the City Register of the City of New York this restrictive declaration prior to obtaining building permits for the Premises.

NOW THEREFORE, in consideration of the Board’s approval of the Special Permit, Declarant does hereby declare that the Declarant and its successors and/or assigns shall be legally responsible for compliance with the following restrictions:

1. At least 50% of the “dwelling units” (as defined by ZR § 12-10) in the Proposed Building must remain as “income-restricted housing units” (as defined by ZR § 12-10) for the life of the building;
2. Except as otherwise set forth herein, this Declaration may not be modified, amended, or terminated without the prior written consent of the Board;
3. The covenants set forth herein shall run with the land and be binding upon and inure to the benefit of the parties hereto and their respective heirs, legal representatives, successors and assigns;
4. Failure to comply with the terms of this declaration may result in the revocation of a building permit or Certificate of Occupancy as well as any other authorization or waiver granted by the Board, including but not limited to, the Special Permit; and
5. In the event that either (a) the Declarant elects to abandon the Special Permit or (b) the Premises becomes subject to a Regulatory Agreement with the New York City Department of Housing Preservation and Development or any other applicable agency of the City of New York or State of New York, this Declaration may be cancelled by the recordation of a Notice of Cancellation at the City Register’s Office against the Premises, and upon the filing of such Notice of Cancellation, this Declaration shall automatically cease, extinguish, and be void and of no further force or effect.

IN WITNESS WHEREOF, Declarant has made and executed this Declaration as of the date hereinabove written;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by

the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved drawings shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

THE RESOLUTION –

WHEREAS, the decision of the Deputy Borough Commissioner, dated June 6, 2017, acting on Department of Buildings (“DOB”) Application No. 121287099, reads in

MINUTES

pertinent part:

Physical Culture Establishment is not permitted as of right in zoning C6-1 district and is [] contrary to ZR 32-10. Approval from BSA for a special permit pursuant to ZR 73-36 is required; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, on a site located in a C6-1 zoning district and Special Little Italy District, a physical culture establishment (“PCE”) on portions of cellar and first floor of an existing five- (5) story plus cellar and mezzanine mixed-use residential and commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on August 7, 2018, after due notice by publication in *The City Record*, with a continued hearing on November 20, 2018, and then to decision on December 4, 2018; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, the Board was in receipt of three (3) form letters in support of this application and one (1) form letter in opposition to this application; and

WHEREAS, the Board was also forwarded several complaints directed to Community Board 2, Manhattan, regarding the excessive noise and vibration caused by the operation of this PCE; and

WHEREAS, Community Board 2, Manhattan, recommends disapproval of this application; and

WHEREAS, the subject site is located on the southwest corner of Spring Street and Bowery, in a C6-1 zoning district and Special Little Italy District, in Manhattan; and

WHEREAS, the site has approximately 101 feet of frontage on Spring Street, 25 feet of frontage on Bowery, 3,530 square feet of lot area, and is occupied by a five- (5) story plus cellar and mezzanine mixed-use residential and commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use1* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or

- (ii) a swimming pool of a minimum 1,500 square feet; or
- (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
- (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, the Board notes that, because no portion of the subject PCE is represented as being located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant submitted evidence that the

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

subject PCE occupies 115.5 square feet of floor area on the first floor with the entrance to the PCE and ADA lift to the cellar, and occupy 2,631 square feet of floor space on the cellar level with an instruction area, reception and men's and women's restrooms; and

WHEREAS, the applicant represents that the PCE began operation in March 2018, as "Hit House," with the following hours of operation: Monday through Friday, 7:00 a.m. to 8:30 p.m.; and, Saturday and Sunday, 9:30 a.m. to 5:00 p.m.; and

WHEREAS, the applicant submitted that, to minimize noise and vibration impacts from the activities of the PCE, a sound limiter will be used in connection with the amplified sound, in-wall sub-woofers have been encased in padding, and submitted flange details for rubber gasket padding installed on the exercise equipment to prevent and minimize impacts from vibrations; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because the PCE is located on a heavily travelled commercial street and the PCE is predominantly located within the cellar of an existing building in an area characterized by mixed-use buildings with ground floor retail uses; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant represents that the PCE will contain facilities for the provision physical improvement through martial arts, conditioning, and weight training; and

WHEREAS, accordingly, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant submits that an approved fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, and a connection of the interior fire alarm system to an FDNY-approved central station—will be installed within the PCE space that is already protected with a wet sprinkler system; and

WHEREAS, by letter dated June 30, 2018, the Fire Department has no objection to the subject application and confirmed that applications were filed with the DOB for the change of use (Alt. 1 121287099) and no application filed for a centrally monitored individually coded fire alarm system; the Fire Department requires a fire alarm system for the premises due to the construction of the building (Class 3 – non-fireproof structure) and that the occupancy (70 persons proposed) is located below grade; the Fire Department requests that an application be filed prior to the granting of this application; the Fire Department will assist the applicant in obtaining a review and approval of the fire

alarm application; once the plans have been approved, the fire alarm installer will be responsible for scheduling a test date with the Fire Alarm Inspection Unit in the Bureau of Fire Prevention; and, the premises are protected with a wet sprinkler system a hydrostatic pressure test was performed and tested satisfactory by the Department on May 31, 2018; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood on account of its location in the cellar level and ground floor of the premises and the applicant commits to work with the residential tenants to mitigate noise impacts from the PCE; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, at the hearing, the Board expressed concern regarding ADA access to the PCE for individuals with mobility impairment; and

WHEREAS, in response, the applicant submitted photographs demonstrating the installation of a doorbell system and two (2) signs directing individuals needing staff assistance to ring the doorbell or call a specified number for access to the PCE; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 18-BSA-003M, dated July 6, 2017; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period the PCE has been operating without a special permit; and

WHEREAS, based upon its review of the record, the Board finds that the requested special permit, legalizing the proposed PCE space on the cellar level and first floor, is appropriate, with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to legalize, on a site located in a C6-1 zoning district and the Special Little Italy District, a physical culture establishment on a portion of the cellar level and first floor of an existing five- (5) story plus cellar and mezzanine mixed-use residential and commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received October 31, 2018"—Five (5) sheets; and *on further condition*:

THAT the term of the PCE grant shall expire on March 1, 2028;

MINUTES

THAT an ADA-compliant sign at the entrance to the PCE at ADA-compliant height shall be installed and maintained in proper working order at all times to facilitate elevator access to the PCE by those individuals with mobility impairment;

THAT adjustments to equipment shall be made immediately upon the owner's/operator's receipt of a complaint by the neighbor of noise or vibration disturbance;

THAT a limiter shall be employed in connection with the sound system and shall be maintained at 75 percent when the sound system is at 100 percent;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance under Local Law 58/87 shall be as reviewed and approved by DOB;

THAT the sprinkler system shall be maintained as indicated on the Board-approved plans;

THAT an approved fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and a connection to an FDNY-approved central station—shall be installed and maintained within the PCE space;

THAT minimum 3-foot-wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy indicating this approval and calendar number ("BSA Cal. No. 2017-224-BZ") shall be obtained within one (1) year, by December 4, 2019;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, December 4, 2018.

APPLICANT – Law Office of Lyra J. Altman, for Stella Alfaks and Devi Alfaks, owners.

SUBJECT – Application November 27, 2017 – Special Permit (§73-622) to permit the enlargement of the existing single family home contrary to ZR §23-47 (rear yard) and §23-461(a) (side yard). R5 zoning district.

PREMISES AFFECTED – 1977 East 14th Street, Block 7293, Lot 56, Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated July 24, 2018, acting on Department of Buildings ("DOB") Application No. 321635995 reads in pertinent part:

The proposed enlargement of the existing one family residence in an R5 zoning district:

1. Creates non-compliance with respect to the rear yard and is contrary to Section 23-47 of the Zoning Resolution;
2. Creates non-compliance with respect to the side yard and is contrary to Section 23-461(a) of the Zoning Resolution; and

WHEREAS, this is an application under ZR § 73-622 to permit, in an R5 zoning district, the enlargement of a detached one-family dwelling that does not comply with the zoning requirements for rear yards and side yards, contrary to ZR §§ 23-47 and 23-461(a); and

WHEREAS, a public hearing was held on this application on September 27, 2018, after due notice by publication in *The City Record*, with a continued hearing on December 4, 2018, and then to decision on that date; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, the Board was in receipt of one (1) form letter in opposition to this application; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of East 14th Street, between Avenue S and Avenue T, in an R5 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 40 feet of frontage, 100 feet of depth, 4,000 square feet of lot area and is occupied by a detached two- (2) story plus cellar and attic one- (1) family dwelling, with one (1) parking space in the rear yard, containing 2,438 square feet of floor area (0.61 floor area ratio ("FAR")), a front yard with a depth of 19'-8.5", two (2) side yards with widths of 6'-11.5" and five (5)

MINUTES

feet and a combined total side yard width of 11'-11.5", a rear yard with a depth of 29'-10.5", a perimeter wall height of 21'-7" and a total building height of 36'-11"; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single*¹- or *two-family detached* or *semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single*- or *two-family*

detached or *semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that this application located within an area in which the special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge the detached one-family residence, as contemplated by ZR § 73-622; and

WHEREAS, the applicant proposes to enlarge the existing detached dwelling by horizontally extending the dwelling into the front yard and rear yard, vertically enlarging the dwelling, relocating the parking pad in the rear to a side yard, and constructing a 96 square foot shed, resulting in a three- (3) story plus cellar dwelling with 4,743 square feet of floor area (1.19 FAR) with 1,811 square feet on the first floor, 1,600 square feet on the second floor, and 1,236 square feet on the third floor, a front yard with a depth of ten (10) feet, which complies with underlying zoning requirements, and a rear yard with a depth of 20 feet; and

WHEREAS, the applicant proposes to maintain the existing two (2) side yards with widths of 6'-11.5" and five (5) feet, with a combined total side yard width of 11'-11.5"; and

WHEREAS, at the subject site, a rear yard with a depth of 30 feet is required pursuant to ZR § 23-47, and two (2) side yards, each with a minimum width of five (5) feet, and a combined total side yard width of 13 feet, are required pursuant to ZR § 23-461(a); and

WHEREAS, the proposed enlargement includes a vertical and horizontal extension of the two (2) existing non-complying side yards, and the Board notes that, pursuant to a 1920 Sanborn Map including the subject site provided by the applicant, the subject site was developed with a detached dwelling in approximately the same orientation as the site is occupied today and, thus, the non-complying side yards predated the 1961 Zoning Resolution and are legal non-compliances; and

WHEREAS, the applicant provided an analysis of rear

¹ Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

yard conditions on the subject block, demonstrating that, of the 31 other single- or two- (2) family dwellings located in an R5, 14 lots (45 percent) have rear yards with a depth of less than 30 feet, with rear yards ranging in depth from 28 feet to 13 feet, including the dwelling adjacent to the south of the subject site, which has a rear yard depth of 23'-2"; and

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, the Board finds that the proposed building as enlarged will not alter the essential character of the neighborhood or district in which the subject building is located, nor impair the future use or development of the surrounding area; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of bulk regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18-BSA-066K, dated November 27, 2017; and

WHEREAS, in light of the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622 to permit, in an R5 zoning district, the enlargement of a detached one-family dwelling that does not comply with the zoning requirements for rear yards and total side yards contrary to ZR §§ 23-47 and 23-461(a); *on condition* that all work shall substantially conform to drawings as they apply to the objection above-noted, filed with this application and marked "Received August 17, 2018"—Nineteen(19) sheets; and *on further condition:*

THAT the following shall be the bulk parameters of the building: a rear yard with a minimum depth of 20 feet and side yards with minimum depths of 6'-11.5" and 5 feet, as illustrated on BSA-approved plans;

THAT the removal of exterior walls and/or joists in excess of those indicated on the BSA-approved plans is prohibited and shall void the special permit;

THAT the above conditions shall be indicated on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number ("BSA Cal. No. 2017-306-BZ"), shall be obtained within four (4) years, by December 4, 2022;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other

jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the special relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, December 4, 2018.

APPLICANT – Francis R. Angelino, Esq., for One Hudson Park Inc., owner; Radiant Yoga Bet, LLC, lessee.

SUBJECT – Application August 4, 2016 – Special Permit (§73-36) to operate a physical culture establishment (*YogaSpark*) in the ground floor and cellar of an existing mixed use residential and commercial building. C6-2A (TMU) zoning district within the Tribeca West Historic District.

PREMISES AFFECTED – 158 Duane Street/16 Hudson Street, Block 144, Lot 1, Borough of Manhattan.

COMMUNITY BOARD #1M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Borough Commissioner dated, July 7, 2016, acting on Department of Buildings (“DOB”) Application No. 122400188, reads in pertinent part:

Proposed physical cultural establishment is not permitted as-of-right in C6-2A zoning district and is contrary to ZR 32-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, on a site located in a C6-2A zoning district and in the Special Tribeca Mixed-Use District and Special Tribeca West Historic District, a physical culture establishment (“PCE”) on portions of the cellar level and first floor of an existing six- (6) story plus cellar mixed-use residential and commercial building, contrary to ZR §§ 32-10; and

WHEREAS, a public hearing was held on this application on December 4, 2018, after due notice by publication in *The City Record*, and then to decision on that same date; and

WHEREAS, the Board was in receipt of one (1) form letter in support of this application; and

WHEREAS, Community Board 1, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the southeast corner of Hudson Street and Duane Street, in a C6-2A zoning district and in the Special Tribeca Mixed-Use District and Special Tribeca West Historic District, in Manhattan; and

WHEREAS, the site has approximately 199 feet of frontage on Hudson Street, 44 feet of frontage on Reade Street, 178 feet of frontage on West Broadway, and 134 feet of frontage on Duane Street, 16,026 square feet of lot area and is occupied by three (3) buildings;

WHEREAS, the PCE is to be located in a six- (6) story plus cellar mixed-use commercial and residential building located on the northern portion of the lot, with approximately 25 feet of frontage on Duane Street; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use 1* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, the Board notes that, because no portion of the subject PCE is represented as being located on the

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant submitted evidence that the subject PCE occupies 1,582 square feet of floor area on the first floor with a yoga studio, reception area, and ADA-accessible restroom, and 1,557 square feet of floor space on the cellar level with men's and women's locker rooms with restrooms and showers; and

WHEREAS, the applicant represents that the PCE opened January 1, 2017, as "YogaSpark," with the following hours of operation: Monday through Friday, 6:00 a.m. to 9:00 p.m.; and, Saturday and Sunday, 8:00 a.m. to 5:00 p.m.; and

WHEREAS, the applicant states that sound and vibration attenuating measures have been installed in the PCE space to minimize the impact of any noise or vibration caused by the PCE operation; specifically, the applicant has installed thermal/acoustic insulation for the floor to ceiling length of the full perimeter of the yoga studio, directly attached to a 12-inch masonry wall, and 12-inch thick thermal/acoustic mineral wool insulation batts on the ceiling of the yoga studio providing a total Sound Transmission Class rating of 60-65; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because the applicant anticipates the PCE will draw a majority of its patrons from the immediate neighborhood, which is well served by public transportation; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant represents that the PCE will contain facilities for the provision physical improvement utilizing hot yoga classes; and

WHEREAS, accordingly, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant submits that an approved wet sprinkler system is installed within the PCE space; and

WHEREAS, by letter dated November 29, 2018, the Fire Department has no objection to the application and confirms that the premises has a sprinkler fire suppression system that has been tested satisfactory and has current permits, and the PCE space does not require a fire alarm system; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood on account of its location in the cellar level and ground floor of an existing building and the applicant represents that they have been coordinating with the building landlord to minimize any noise and vibration impacts caused by the PCE; and

WHEREAS, by letter dated September 23, 2016, the New York City Landmarks Preservation Commission permitted changes to the exterior signage reflecting the name "YogaSpark;" and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 17-BSA-007M, dated August 4, 2016; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time the PCE has operated without a special permit; and

WHEREAS, based upon its review of the record, the Board finds that the requested special permit, legalizing the

MINUTES

PCE space on the cellar level and first floor, is appropriate, with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to legalize, on a site located in a C6-2A zoning district and in the Special Tribeca Mixed-Use District and Tribeca West Historic District, a physical culture establishment on a portion of the cellar level and first floor of an existing six- (6) story plus cellar mixed-use commercial and residential building, contrary to ZR §§ 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received June 29, 2016”– Three (3) sheets; and *on further condition*:

THAT the term of the PCE grant shall expire on January 1, 2027;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance under Local Law 58/87 shall be as reviewed and approved by DOB;

THAT the sprinkler system shall be maintained as indicated on the Board-approved plans;

THAT minimum 3-foot-wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy indicating this approval and calendar number (“BSA Cal. No. 2016-4236-BZ”) shall be obtained within one (1) year, by December 4, 2019;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, December 4, 2018.

2018-176-BZ

CEQR #19-BSA-058K

APPLICANT – NYC Mayor’s Office of Housing Recovery Operation.

SUBJECT – Application November 13, 2018 – Special Permit (§64-92) to waive bulk requirements for the reconstruction of homes damaged/destroyed by Hurricane Sandy for a property registered in the NYC Build it Back Program. R3A Special Coastal Risk zoning district. R4 zoning district.

PREMISES AFFECTED – 116 Dare Court, between Bartlett Place and Cyrus Avenue, Block 8914, Lot 414, Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to legalize, on a site within an R4 zoning district, the reconstruction of a single-family detached home in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards, side yards, total side yards, and rear yards contrary to ZR §§ 23-45, 23-461(a), and 23-52; and

WHEREAS, a public hearing was held on this application on December 4, 2018, and then to decision on the same date; and

WHEREAS, this application is brought on behalf of the property owner by the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in furtherance of the City’s effort to rebuilt homes impacted by Superstorm Sandy expeditiously and effectively, the Board, pursuant to 2 RCNY § 1-14.2, waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1-05.1 (Objection Issued by the Department of Buildings); (2) 2 RCNY § 1-05.3 (Filing Period); (3) 2 RCNY § 1-05.4 (Application Referral); (4) 2 RCNY § 1-05.6 (Hearing Notice); (5) 2 RCNY § 1-05.7 (List of Affected Property Owners); (6) 2 RCNY § 1-09.4 (Owner’s Authorization); and (7) 2 RCNY § 1-10.7 (Proof of Service for Application Referral and Hearing Notice); and

WHEREAS, the Board notes that the subject application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the east side of Dare Court, between Bartlett Place and Cyrus Avenue, in an R4 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 40 feet of frontage, 45 feet of depth, 1,800 square feet of lot area and

MINUTES

is occupied by a two- (2) story single-family detached residence; and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments* and *enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Section 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

- (a) that there would be a practical difficulty in complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;
- (b) that any modifications of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant now seeks a special permit, pursuant to ZR § 64-92 to legalize the reconstruction of the single-family residence that is compliant flood-resistant construction but, due to a deviation occurring when rebuilding the home to meet flood resistant construction elevation, created non-compliances with the zoning requirements for front yards, side yards and total side yards, and rear yards; and

WHEREAS, specifically, the subject site has a front yard with a depth of 10.4 feet, two (2) side yards with widths of 3.7 feet and 8.7 feet (12.4 feet of total side yards), and a rear yard with a depth of 9.2 feet, but, at the subject site, a minimum front yard depth of 18 feet is required pursuant to ZR § 23-45, two (2) side yards, each with a width of at least 5 feet and with a combined minimum width of 13 feet, are required pursuant to ZR § 23-461(a), and a rear yard with a

minimum depth of 10 feet is required pursuant to ZR § 23-52; and

WHEREAS, in accordance with ZR § 64-92(a), the applicant submits that the composition of the existing residence on the lot creates practical difficulties in complying with flood-resistant construction standards without the modification of requirements for front yards, side yards, total side yards, and rear yards and that waivers of the same are the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the finding pursuant to ZR § 64-92(b) is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the dwelling is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the neighborhood is characterized by single- and two- (2) family, mostly detached, residences; the home design follows the urban context of Dare Court and contributes to the improvement of the essential character of, and has a floor area ratio consistent with other homes in the neighborhood; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the subject application satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 19BSA058K, dated November 13, 2018; and

Therefore, it is Resolved, that the Board of Standards and Appeals *waives* §§ 1-05.1, 1-05.3, 1-05.4, 1-05.6, 1-09.4 and 1-10.7 of its Rules of Practice and Procedure and issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92 to legalize, on a site within an R4 zoning district, the reconstruction of a single-family detached home in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards, side yards, total side yards, and rear yards contrary to ZR §§ 23-45, 23-461(a), and 23-52; *on condition* that all work shall substantially conform to the drawings filed with this application and marked "Received December 3, 2018"-Four (4) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: a front yard with a minimum depth of 10.4 feet, two (2) side yards with minimum widths of 3.7 feet and 8.7 feet (a minimum of 12.4 feet of total side yards), and a rear yard with a minimum depth of 9.2 feet, as illustrated on the

MINUTES

Board-approved plans;

THAT the building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code;

THAT the building shall be provided with interconnected smoke and carbon monoxide alarms, designed in accordance with Section 907.2.11 of the New York City Building Code;

THAT the underside of the exterior of the building where the foundation is not closed shall have a floor assembly that provides a 2-hour fire resistance rating;

THAT the height from grade plane to the highest window-sill leading to a habitable space may not exceed 32 feet;

THAT this approval shall be limited to the Build it Back program;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk shall be signed off by DOB and all other relevant agencies within four (4) years;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, December 4, 2018.

MINUTES

**REGULAR MEETING
THURSDAY MORNING, DECEMBER 11, 2018
10:00 A.M.**

Present: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.

SPECIAL ORDER CALENDAR

48-10-BZ

APPLICANT – Ronald D. Victorio, R.A., for Guido Passarelli, owner; Campbell Fitness, lessee.

SUBJECT – Application August 28, 2017 – Amendment of a previously approved Special Permit (§73-36) which allowed a physical culture establishment (*Campbell Fitness*) in the cellar of a one-story commercial building contrary to ZR §42-10. The amendment seeks to expand the use to a portion of the first floor contrary to the previous approval. M1-1 zoning district/Special South Richmond District.

PREMISES AFFECTED – 2965 Veterans Road West, Block 7511, Lot 75, Borough of Staten Island.

COMMUNITY BOARD #3SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5
Negative:0

THE RESOLUTION –

WHEREAS, this is an application for reopening and an amendment of a previously granted special permit for a physical culture establishment (“PCE”) to permit an expansion of the PCE space to the first floor; and

WHEREAS, the decision of the Borough Commissioner, dated January 11, 2018, acting on Department of Buildings (“DOB”) Application No. 520232070, reads in pertinent part:

Proposed expansion of an existing physical culture establishment (refer to BSA Calendar No. 48-10-BZ) located in an M1-1 zoning district within the Special South Richmond Development District to include a portion of the first floor currently occupied as retail space is contrary to Section 42-10 of the NYC Zoning Resolution and requires a special permit from the Board of Standards and Appeals pursuant to Section ZR 73-36; and

WHEREAS, a public hearing was held on this application on December 11, 2018, after due notice by publication in *The City Record*, and then to decision on that date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, the site is located on the southeast corner of Veterans Road West and West Shore Parkway, in an M1-1 zoning district and in the Special South Richmond Development District, on Staten Island; and

WHEREAS, the site has approximately 123 feet of frontage on Veterans Road West, 196 feet of frontage on West Shore Parkway, 23,522 square feet of lot area, and is occupied by a two- (2) story commercial building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 13, 2010, when, under the subject calendar number, the Board granted a special permit to permit the operation of a PCE in the cellar level of a one- (1) story building on condition that all work substantially conform to plans filed with the application; the term of the grant expire on July 13, 2020; there be no change in ownership or operating control of the PCE without prior application to and approval from the Board; all massages be performed by New York State licensed massage therapists; the above conditions appear on the certificate of occupancy; fire safety measures be installed and/or maintained as shown on the Board-approved plans; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); the approved plans be considered approved only for the portions related to the specific relief granted; substantial construction be completed within four (4) years; the Department of Buildings ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, by letter dated January 12, 2017, the Board confirmed that a change in ownership from “Retro Fitness” to “Campbell Fitness,”¹ with no change to the approved drawings, was in substantial compliance with the Board’s July 13, 2010 grant and had no objection to the amendment, on condition that the DOB ensure compliance with all applicable provisions of the Zoning Resolution, Building Code or other relevant law; and

WHEREAS, the applicant now seeks an amendment to permit an expansion of the PCE to the first floor, resulting in an increase of 3,047 square feet of floor area²; and

1 The operator of the PCE is Campbell Fitness, doing business as Retro Fitness.

2 Sheet BSA-001 of the plans approved in association with this application lists the “current BSA” square footage of the

MINUTES

WHEREAS, the applicant represents that the proposed amendment would allow the PCE to provide a stretching and Pilates area; and

WHEREAS, specifically, the applicant proposes to expand into adjacent space on the first floor, maintaining the 11,805 square feet of floor space in the cellar, and increasing the floor area on the first floor from 331 square feet to 3,378 square feet of floor area; and

WHEREAS, based upon its review of the record, the Board finds that the requested amendment, permitting an extension of the PCE space on the first floor, is appropriate, with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated July 13, 2010, so that as amended the resolution reads: “to reflect a change in the interior layout of the PCE on first floor such that the PCE will now occupy 11,805 square feet of floor space at the cellar level and 3,378 square feet of floor area at the first floor, *on condition* that any and all work shall substantially conform to drawings as they apply to the objection above noted, filed with this application marked ‘Received December 7, 2018’—five (5) sheets; and *on further condition*:

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a revised certificate of occupancy indicating this approval and calendar number (“BSA Cal. No. 48-10-BZ”) shall be obtained within one (1) year, by December 11, 2019;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, December 11, 2018.

PCE as 3,047 square feet and erroneously omits the existing 331 square feet of floor area on the first floor.

933-28-BZ

APPLICANT – Gerard J. Caliendo, R.A., AIA, for RB Auto Repair/Roger Budhu, owner.

SUBJECT – Application October 16, 2015 – Extension of Term, Amendment & Waiver (11-413) for an extension of the term of a variance which permitted the operation of an automotive repair facility and gasoline service station (UG 16) and an Amendment for the legalization of the enlargement with an insulated corrugated metal enclosure. R5 zoning district.

PREMISES AFFECTED – 125-24 Metropolitan Avenue, Block 9271, Lot 4, Borough of Queens.

COMMUNITY BOARD #9Q

ACTION OF THE BOARD – Laid over to April 30, 2019, at 10 A.M., for continued hearing.

509-37-BZ

APPLICANT – Eric Palatnik, P.C., for Power Test Realty Company Limited Partnership, owner.

SUBJECT – Application May 4, 2018 – Amendment (§11-413) to permit the legalization of a change of use of a previously approved variance permitting an Automotive Service Station (UG 16B) to an Automotive Repair Facility (UG 16B). R3-1 zoning district.

PREMISES AFFECTED – 202-01 Rocky Hill Road aka 202-02 47th Avenue, Block 5561, Lot 10, Borough of Queens.

ACTION OF THE BOARD – Appeal denied.

THE VOTE TO GRANT –

Affirmative: Commissioner Scibetta1

Negative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta4

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated September 28, 2017, under Zoning Challenge and Appeal Form Control No. 50662 (the “Determination”), reads in pertinent part:

Your Zoning Challenge Appeal, received on July 3, 2017, per 1 Rules of the City of New York (“RCNY”) §101-15, is hereby denied.

This final determination confirms that the New York City Department of Buildings (the “Department”) has received and reviewed your zoning challenge appeal, filed pursuant to 1 RCNY § 101-15, the Department’s rule regarding public challenges of the Department’s zoning approval for New Building [A]pplication No. 121186518.

The new 31-story [sic] mixed-use building (the “subject building”) in a C1-9 zoning district will be occupied by a noncommercial art gallery in community facility Use Group 3 in the building’s first story and a total of 48 dwelling units in zoning Use Group 2, on floors 2 through 31. The challenger submits this zoning challenge appeal challenging two issues pertaining to the subject building, as follows:

(1) In the first issue of this zoning challenge, the challenger claims that the subject building’s zoning lot (composed solely of tax lot No. 37), which was created after three zoning lots (tax lot Nos. 37, 38 and 140) merged and reapportioned to the current two zoning lots (one consisting solely of tax lot No. 37 and another consisting solely of tax lot No. 138), must in fact be treated as a single zoning lot comprised of both tax lots (Nos. 37 and 138). The challenger alleges that

this is based on ZR 12-10(c)’s definition for “zoning lot,” which states that “[a] ‘zoning lot’ is ... (c) a tract of land, either unsubdivided or consisting of two or more lots of record contiguous for a minimum of 10 linear feet, located within a single block, which at the time of filing for a building permit (or, if no building permit is required, at the time of the filing for a certificate of occupancy) is under single fee ownership and with respect to which each party having any interest therein is a party in interest (as defined herein)” The challenger states that at the time of filing for a building permit on August 1, 2014, the two lots of record (tax lot Nos. 37 and 138) were in common ownership under 180 East 88th Street Realty LLC and that such lots of record de facto formed a single zoning lot in accordance with ZR 12-10(c)’s definition for “zoning lot.” The challenger further alleges that as a single zoning lot with street frontage along East 88th Street, the subject building’s northern front wall faces East 88th Street and is therefore subject to the height and setback provisions in ZR 35-10 (General Provisions), as modified in ZR 35-60 (Modification of Height and Setback Regulations). The challenger claims that the “developer/owner took some steps to immunize itself from the application of category (c) [in ZR 12-10’s definition for “floor area”]” by transferring ownership of tax lot 138 to Carnegie Green LLC, to which the challenger observed that “[b]oth grantor and grantee have the same address,” and that on December 27, 2015, 180 East 88th Street Realty LLC and not Carnegie Green LLC filed a zoning lot declaration for tax lot No. 138 as the owner. The challenger also notes the amount of activity in May 2017 in the Office of the City Register’s Automated City Register Information System in the NYC Department of Finance’s (“DOF”) website demonstrating the new building applicant’s efforts to separate tax lot Nos. 37 and 138 into two zoning lots. However, the fact that tracts of land consist of two or more lots of record under single fee ownership does not necessarily mean that such lots of record are automatically considered a single zoning lot under ZR 12-10(c). Unless action has been taken to declare the tracts of land as a single zoning lot, they are not considered one zoning lot. Rather, an affirmative action to develop the lots together, or the recording of a Declaration of Zoning Lot Restrictions, is required for such lots to become a single zoning

MINUTES

lot. In accordance with DOF's website, recent zoning Exhibits declaring tax lot Nos. 37 and 138 as separate zoning lots have been filed under City Register File Nos. ("CRFN") 2017000198269 and 2017000198271, respectively. The challenger does not submit evidence of zoning Exhibits filed at DOF for a single zoning lot comprised of tax lot Nos. 37 and 138. Unless the new building applicant files zoning Exhibits with the Office of the City Register declaring the tract of land comprised of tax lot Nos. 37 and 138 as a single zoning lot, or an application is filed to develop the lots together as a single zoning lot, each tax lot remains a separate zoning lot. As such, the subject building's northern façade that faces the adjacent zoning lot (tax lot No. 138) and does not face East 88th Street is not subject to the height and setback provisions in ZR 35-10, as modified in ZR 35-60.

Therefore, issue No. 1 in this applicant's challenge is hereby denied; and

WHEREAS, this is an appeal for interpretation under Section 72-11 of the Zoning Resolution of the City of New York ("ZR" or the "Zoning Resolution") and Section 666(6)(a) of the New York City Charter, brought on behalf of Carnegie Hill Neighbors, Inc. and Friends of the Upper East Side Historic District ("Appellants"), alleging errors in the Determination pertaining to whether the subdivision of a tract of land (the "Subdivision") contravenes the "zoning lot" definition of ZR § 12-10 by rendering inapplicable certain bulk regulations to the development of a new 32-story building (the "New Building") authorized by a building permit issued by DOB on October 27, 2016, under New Building Application No. 121186518 (the "Permit"); and

WHEREAS, for the reasons that follow, the Board denies this appeal; and

ZONING PROVISIONS

WHEREAS, Section 12-10 of the Zoning Resolution states in part:

"A *zoning lot* may be subdivided into two or more *zoning lots*, provided that all resulting *zoning lots* and all *buildings* thereon shall comply with all of the applicable provisions of this Resolution. If such *zoning lot*, however, is occupied by a *non-complying building*, such *zoning lot* may be subdivided provided such subdivision does not create a new *non-compliance* or increase the degree of *non-compliance* of such *building*" (emphasis in text of Zoning Resolution indicates defined terms); and

WHEREAS, zoning lots are bounded by lot lines, and buildings must be situated within the lot lines of a zoning

lot, *see* ZR § 12-10 (defining "lot line" and "building"); and

WHEREAS, Section 23-65(a) of the Zoning Resolution provides, in part, that Section 23-651 of the Zoning Resolution applies to a building that is "located on a *zoning lot* that fronts upon a *wide street* and is either within 125 feet from such *wide street* frontage along the short dimension of the *block* or within 100 feet from such *wide street* frontage along the long dimension of the *block*"¹; and

WHEREAS, Section 23-651 of the Zoning Resolution (the "Tower-on-a-Base regulations") states in pertinent part:

On a *wide street*, and on a *narrow street* within 125 feet of its intersection with a *wide street*, the *street wall* of the base shall occupy the entire *street* frontage of a *zoning lot* not occupied by existing *buildings*. At any height, at least 70 percent of the width of such *street wall* shall be located within eight feet of the *street line*, and the remaining 30 percent of such *street wall* may be recessed beyond eight feet of the *street line* to provide *outer courts* or balconies; and

WHEREAS, the Zoning Resolution does not define a street's "frontage," *id.*; and

WHEREAS, Section 12-10 of the Zoning Resolution defines "street wall" as a "wall or portion of a wall of a building facing a street"; and

WHEREAS, the Zoning Resolution does not define the term "facing," *id.*; and

WHEREAS, similarly, Section 23-692 of the Zoning Resolution (the "Sliver Law") contains height limits for narrow buildings, which apply to "portions of *buildings* with *street walls* less than 45 feet in width"; and

WHEREAS, the Sliver Law's height restrictions do not apply to street walls "located beyond 100 feet of a *street line*," ZR § 23-692(e)(2); and

WHEREAS, the Zoning Resolution defines a "street line" as "a *lot line* separating a *street* from other land," ZR § 12-10; and

BACKGROUND AND PROCEDURAL HISTORY

WHEREAS, the subject site is a tract of land located on the west side of Third Avenue, between East 87th Street and East 88th Street, partially in a C1-9 zoning district and partially in a C1-7 zoning district, in Manhattan; and

WHEREAS, the subject site is comprised of Tax Lots 32 and 37 ("Zoning Lot 1") and Tax Lot 138 ("Zoning Lot 2") on Block 1516 as shown on the official tax map of the City of New York; and

WHEREAS, Tax Lot 32 is located on the northwest corner of East 87th Street and Third Avenue, partially in a C1-9 zoning district and partially in a C1-7 zoning district,

1 Sections 23-65 and 23-651 of the Zoning Resolution are applicable to certain mixed-use buildings, such as the New Building, in C1-9 zoning districts, *see* ZR § 35-64.

MINUTES

with approximately 125 feet of frontage along East 87th Street, 101 feet of frontage along Third Avenue and 12,660 square feet of lot area, and is occupied by a six-story commercial building; and

WHEREAS, Tax Lot 37 is located on the west side of Third Avenue, between East 87th Street and East 88th Street, in a C1-9 zoning district, with approximately 39'-9" of frontage along Third Avenue, 100 feet of depth and 5,080 square feet of lot area, and is occupied by the New Building, which is under construction; and

WHEREAS, Tax Lot 138 is located on the south side of East 88th Street, between Lexington Avenue and Third Avenue, in a C1-9 zoning district, with approximately 22'-0" of frontage along East 88th Street, 10'-0" feet of depth and is vacant; and

WHEREAS, prior to 2014, former Tax Lot 140 was an existing zoning lot with 22 feet of frontage along East 88th Street, 100 feet of depth and was occupied by an existing building that has since been demolished; and

WHEREAS, by July 22, 2014, former Tax Lot 140 and former Tax Lot 38 were combined into a single tax lot (maintaining the designation as former Tax Lot 38) with frontage along East 88th Street and frontage along Third Avenue; and

WHEREAS, by November 25, 2014, former Tax Lot 138—with a depth of four feet, a width of 22 feet and frontage along East 88th Street—had been reapportioned from former Tax Lot 38, which then only had frontage along Third Avenue; and

WHEREAS, a zoning lot description and ownership statement along with a certification of parties in interest were recorded on December 20, 2014, stating that the newly configured Tax Lot 38 and newly configured Tax Lot 138 constituted a single zoning lot where all of the parties in interest were the same; and

WHEREAS, on February 24, 2015, DOB approved the Original Subdivision under Subdivision Improved Application No. 121192459, and DOB records indicate the "last action" on said application is "completed" on the same date²; and

WHEREAS, by February 27, 2015, a new zoning lot description and ownership statement and a certification of parties in interest had been recorded against Tax Lot 38, which excluded Tax Lot 138 (the "Original Subdivision")³;

2 The same DOB records also indicate an audit with the status "notice to revoke" as of May 25, 2016; however, the Board notes that nothing in the record indicates that the revocation of any approval under Subdivision Improved Application No. 121192459 has been effectuated.

3 Because Tax Lot 138's current depth of 10'-0" is the subject of the Determination, the Board considers this appeal with respect to the current configuration of Tax Lot

and

WHEREAS, by February 27, 2015, a declaration of zoning lot restrictions, a zoning lot description and ownership statement and a certification of parties in interest, which included waivers of declaration from all parties in interest, were recorded to merge Tax Lot 37, Tax Lot 38 and Tax Lot 32 into a single zoning lot; and

WHEREAS, by March 23, 2015, new Tax Lot 38 and former Tax Lot 37 had been combined into a single Tax Lot 38; and

WHEREAS, on May 24, 2017, Tax Lot 37 and Tax Lot 138 took on their current configuration by termination of the declaration of zoning lot restrictions and recordation of a new declaration; and

WHEREAS, on October 27, 2016, under New Building Application No. 121186518, DOB approved revised plans for the New Building, authorizing the Subdivision of the subject site into Zoning Lot 1 and Zoning Lot 2, and the Permit was issued on the same date; and

WHEREAS, because of the relocation of the lot line between former 4'-0" Tax Lot 138 and former Tax Lot 38, the Subdivision simultaneously effectuated two events: subdividing former Tax Lot 38 by removing a 6'-0" parcel and merging the former 4'-0" Tax Lot 138 with said 6'-0" parcel to assemble the current 10'-0" Tax Lot 138; and

WHEREAS, as currently configured, Tax Lot 138 has 10'-0" of depth and frontage along East 88th Street, and Tax Lot 37 has approximately 39'-9" of frontage along Third Avenue and is occupied by the New Building, which is under construction; and

WHEREAS, accordingly, Zoning Lot 2 (Tax Lot 138) is an intervening tract of land between the New Building and East 88th Street; and

WHEREAS, it is undisputed that the New Building complies with the Tower-on-a-Base regulations with respect to Third Avenue, upon which Zoning Lot 1 has a "street wall" and which the New Building's Third Avenue "street wall" faces, *see* ZR §§ 23-651 and 12-10 (definitions); and

WHEREAS, on September 28, 2017, DOB issued the Determination, and Appellants commenced this appeal on October 30, 2017, seeking reversal of the Determination; and

WHEREAS, a public hearing was held on this appeal on July 17, 2018, after due notice by publication in *The City Record*, with a continued hearing on October 30, 2018, and then to decision on December 11, 2018; and

WHEREAS, Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta

138. No appeal with respect to the Original Subdivision, creating a zoning lot with a depth of 4'-0", was filed with the Board, so the lawfulness of the Original Subdivision is not before the Board in this appeal.

MINUTES

performed inspections of the site and surrounding neighborhood; and

WHEREAS, the Department of City Planning submitted testimony in opposition to this appeal by letter dated October 18, 2018, which reads in pertinent part:

Three zoning issues were cited by the Appellant and the Department agrees with the interpretations set forth by DOB of the relevant zoning regulations in issuing the permit. . . .

The first two issues relate to zoning lots: when does a zoning lot get created and what is the required minimum size of a zoning lot in a commercial district? The definition of zoning lot in New York City Zoning Resolution (ZR) Section 12-10 sets forth in paragraphs (a) through (d) the conditions under which a zoning lot can be formed. However, it is established by interpretation, practice and documentation by previous Department Counsel that the provisions do not apply automatically to a collection of tax lots that meet any of these conditions. An affirmative action by the owners of the properties must be taken in seeking a permit or CO based on zoning calculations of the combined tax lots identified in the applications as the subject zoning lot. Therefore, the zoning lot for this development was created in the application for a building permit for this development. Since the zoning lot identified for development in such application does not incorporate adjoining tax lots, it is not part of the zoning lot for this development, regardless of the lots being owned by a single owner.

The second issue relates to whether there is in the ZR a required minimum zoning lot size. The ZR allows subdivision of zoning lots only if subdivided into two or more zoning lots. As a result, the interpretation of what constitutes a required minimum lot size in the designation of a zoning lot in commercial districts rests on the interpretation of the regulation in ZR 12-10 paragraphs (c) and (d) that establishes a minimum dimension of 10 contiguous feet required to merge adjoining tax lots to create a zoning lot. That is, in order for a tax lot to merge with another tax lot to create a zoning lot, the two tax lots must adjoin for 10 linear feet. By interpreting this regulation in the definition of zoning lot to apply to both the creation of a zoning lot from the subdivision of a tract of land as well as to the merger of formerly separate tax lots, DOB has applied a consistent approach to zoning lot dimensions. Such interpretation protects the intent

of the Zoning Resolution which is to allow for the use of the tax lot in future development and clearly not to alienate any land for the purpose of undermining zoning requirements.

The third issue raised by the Appellant is whether the height regulations of Section 23-692 (known as the “sliver rule”) applicable to “street walls” apply to the portion of the development on 1558 Third Avenue that is set back but visible from East 88[th] Street. The purpose of this rule is to limit the height of buildings on narrow lots fronting on the street. . . .

In order to make sense of this regulation, the building wall must be on a zoning lot that adjoins the street. Otherwise most walls of every building on a block could be determined to be “facing” a street and therefore could be subject to these height restrictions. This is not what was intended by this regulation and would be an absurd and extremely problematic outcome. The regulation also uses the term “fronts on a street” or “street frontage” (see zoning text*). In order to pinpoint the location of a street wall that “fronts on a street”, although not defined in the ZR, “fronting on a street” means that the building is on a zoning lot that adjoins the street, and the street wall is the wall of the building that is closest to and faces/fronts the street on such zoning lot. The applicability of this rule for buildings based on distance from the street even on zoning lots that adjoin the street is dealt with directly in ZR Section 23-692 paragraph (e) and with through lots where a building wall beyond 100 feet of a street on a zoning lot that adjoins a street is not required to comply with the sliver rule. Therefore, the Department agrees with DOB’s determination that the sliver rule applies to a building’s street wall facing a street only when it is on a zoning lot that fronts on or adjoins a street.

A related issue the Appellant raised concerns tower on a base regulations and their applicability to the portion of the zoning lot visible from East 88th Street. The development is in a C1-9 District where tower on a base is required for buildings on wide streets where more than 25 percent of the floor area is residential (pursuant to ZR Section 35-64 and the criteria in ZR Section 23-65(a)). The development complies with these regulations and places a tower on a base building on the portion of the zoning lot that fronts on Third Avenue. For the same reason as the sliver rules, these regulations do not apply on East 88th Street where the zoning lot does not front on or adjoin

MINUTES

the street.

The Department notes that given the complexity and enormous variety of land and existing buildings in the city, the ZR does not, and realistically cannot, anticipate and adjust the design outcome of every development, especially given the parallel complexity and intricacy of regulations in the ZR. The Department believes that DOB correctly interpreted the applicable ZR regulations and the development at 1558 3rd Avenue complies with the regulations as set forth [in] the ZR; and

WHEREAS, Community Board 8 submitted testimony in support of this appeal, stating that the developer created a small lot solely for the purpose of evading zoning regulations, that the Zoning Resolution is designed to maintain neighborhoods, provide predictability, foster community and allow the City to remain a livable, vital place for all residents and that allowing the Subdivision to form Zoning Lot 1 and Zoning Lot 2 would enable a taller building than otherwise permitted; and

WHEREAS, Manhattan Borough President Gale A. Brewer, New York State Senator Liz Krueger, New York State Assembly Member Richard N. Gottfried, City Council Member Benjamin J. Kallos, City Council Member Margaret Chin, City Council Member Barry Grodenchik, City Council Member I. Daneek Miller, City Council Member Bill Perkins, City Council Member Keith Powers, City Council Member Antonio Reynoso, City Council Member Donovan Richards and City Council Member Carlina Rivera submitted testimony in support of this appeal, stating that the Board should prohibit the creation of unbuildable lots designed to evade zoning regulations; and

WHEREAS, Manhattan Borough President Gale A. Brewer submitted testimony in support of this appeal, stating that subdividing out a small, unbuildable lot allows the Owner to circumvent the Sliver Law and the Tower-on-a-Base regulations and that permitting a practice of subdividing lots for no discernible reason other than bending rules could lead to greater administrative confusion and more unpredictable building forms; and

WHEREAS, City Council Member Benjamin J. Kallos submitted testimony in support of this appeal, stating that the Subdivision solely serves to evade applicable zoning regulations, that the New Building in reality still faces East 88th Street and that Zoning Lot 2 is actually an integral part of the New Building; and

WHEREAS, Appellants, DOB and the Owner have been represented by counsel throughout this appeal; and

ISSUES PRESENTED

WHEREAS, there are two issues in this appeal: (1) whether the Subdivision of the subject site into Zoning Lot 1 and Zoning Lot 2 contravenes the “zoning lot” definition of

ZR § 12-10 and (2) whether, if the Subdivision is valid, the New Building nevertheless has a “street wall” “facing” East 88th Street—notwithstanding the presence of an intervening tract of land (Zoning Lot 2) between the New Building and East 88th Street—that renders the Tower-on-a-Base regulations and the Sliver Law applicable to the New Building4; and

APPELLANTS’ POSITION

WHEREAS, Appellants represent that the Subdivision is not permitted and that, even assuming the Subdivision is permitted, the Tower-on-a-Base regulations and the Sliver Law still apply to the New Building with respect to East 88th Street; and

I. SUBDIVISION NOT PERMITTED

WHEREAS, Appellants submit that the Subdivision is not permitted because the owner’s sole purpose is to intentionally evade zoning regulations5 and that, in this appeal, no other justification for the Subdivision has been asserted; and

WHEREAS, Appellants state that the Zoning Resolution prohibits the creation of a new zoning lot that results in a non-compliance; and

WHEREAS, Appellants state that the clear intent of the ZR § 12-10 “zoning lot” definition is that a zoning lot subdivision should not be employed to evade other zoning provisions and that the plain language of the Zoning Resolution and its legislative history converge in expressing that the “zoning lot” definition was never intended to result in allowing creation of a small zoning lot for the clear purpose of avoiding compliance with zoning regulations; and

WHEREAS, Appellants submit that there is an implicit owner-intent test in the Zoning Resolution that, in order to effectuate the Zoning Resolution’s legislative intent, prohibits zoning lot subdivisions that solely seek to evade zoning regulations; and

WHEREAS, Appellants submit that, because Tax Lot 37 and Tax Lot 138 are owned by different entities with the same principals and the same addresses, the tract of land consisting of Tax Lot 37 and Tax Lot 138 should be treated

4 Though the Determination does not discuss the Sliver Law directly, the applicability of the Tower-on-a-Base regulations and the Sliver Law both involve the interpretation and application of the term “street wall,” and DOB has thoroughly briefed the applicability of the Sliver Law to the New Building in this appeal. Accordingly, this issue is appropriately before the Board.

5 It should be noted that this owner-intent test, which focuses on the intent of the property owner in pursuing a zoning lot subdivision, is a distinct argument from Appellants’ ancillary argument about the Zoning Resolution’s statement of legislative intent.

MINUTES

as a single zoning lot, *see* ZR § 12-10 (“zoning lot” definition), and the Subdivision is a sham; and

WHEREAS, Appellants submit that private easements covering part of Tax Lot 138 and the Offering Plan for the 180 East 88th Street Condominium, a private disclosure document to purchasers of condominiums, further evince that the Subdivision is a sham because the separate ownership of Tax Lot 37 and Tax Lot 138 is contrary to fact; and

WHEREAS, Appellants state that a sham zoning lot subdivision that is blatantly contrary to the statutory language and intent, that creates a zoning non-compliance and that leads to absurd results is unlawful; and

WHEREAS, Appellants state that there is no New York law precisely on point but that a sham zoning lot subdivision that violates substantive provisions of zoning is a nullity; and

WHEREAS, Appellants state that, analogous to the Subdivision in this appeal, courts have upheld the City’s enforcement against sham compliance with respect to advertising signs and adult establishments and that similarly the Subdivision should be voided in this appeal for circumventing the Zoning Resolution; and

WHEREAS, moreover, Appellants submit that it is implausible that Tax Lot 138 will ever be developed with a building because the New Building has been designed so that the New Building’s main entrance is located within the landlocked portion of Tax Lot 37 immediately next to Tax Lot 138 and that access to the entrance to the New Building will perforce be over Tax Lot 138; and

WHEREAS, furthermore, Appellants state that, although the Zoning Resolution does not by its terms prohibit unbuildable lots, Tax Lot 138 has no independent utility and that DOB does not approve the subdivision of unbuildable lots under DOB’s Operations Policy and Procedure Notice, entitled “Subdivision of Unimproved Properties,” dated October 24, 1991 (“OPPN # 30/92”) (“In the absence of [subdivision] review, a tax lot could be theoretically created that fails to meet the minimum requirements of law resulting in a tax lot which cannot be built in a complying or conforming manner.”); and

WHEREAS, Appellants further state that the Subdivision solely seeks to circumvent the Tower-on-a-Base regulations, which allow for a consistent street wall with abutting buildings, and the Sliver Law, which generally limits the height of a building less than 45 feet wide to the width of the street on which it faces; and

WHEREAS, additionally, Appellant states that DOB’s interpretation of the Zoning Resolution allowing such subdivisions would undermine much of the Zoning Resolution by allowing evasion of the street-wall continuity requirement as well as regulations regarding transparency regulations, designs standards for arcades and plazas,

parking wrap requirements and yard requirements; and

WHEREAS, Appellants state that the Subdivision should be treated as a sham that should be regarded as void because its purportedly separate ownership lacks substance, because Zoning Lot 2 is unbuildable and has no value and because its creation serves no other purpose than to evade the substantive requirements of the Zoning Resolution; and

WHEREAS, accordingly, Appellants submit that the Subdivision is not permitted because the sole purpose is to intentionally evade zoning regulations; and

WHEREAS, Appellants also submit that the Subdivision contravenes the explicit legislative intent of the Zoning Resolution; and

WHEREAS, Appellants state that C1 zoning districts are “designed to provide for local shopping and include a wide range of retail stores and personal service establishments which cater to frequently recurring needs. . . . The district regulations are designed to promote convenient shopping and the stability of retail development by encouraging continuous retail frontage and by prohibiting local service and manufacturing establishments which tend to break such continuity,” *see* ZR § 31-11; and

WHEREAS, Appellants state that commercial districts are established “to encourage the natural tendency of local retail development to concentrate in continuous retail frontage, to the mutual advantage of both consumers and merchants,” ZR § 31-00; and

WHEREAS, Appellants state that the legislative history confirms the intent of the clear language of these provisions in that the City Planning Commission developed the Tower-on-a-Base regulations specifically to reinforce the street wall scale: “[M]any blocks in neighborhoods with an established streetwall character have had this context eroded by towers that are set back from the streetline in plazas and rise without setback. . . . Recent high density residential development, particularly on the east side of Manhattan, has all too frequently been out of scale with its context. The streetwall scale and neighborhood context have been eroded as towers have become increasingly taller and thinner. This text change would create a new building form that would reinforce the established neighborhood character. . . . The plaza erodes the streetwall character of neighborhoods,” City Planning Commission Report No. N 940013 ZRM; and

WHEREAS, Appellants state that the New Building and approval of the Subdivision would disrupt the continuity of frontage and prevent the development of a potential retail site in direct violation of these provisions of the Zoning Resolution; and

WHEREAS, accordingly, Appellants submit that the Subdivision contravenes the legislative intent of the Zoning Resolution by eliminating continuous retail frontage; and

II. APPLICABILITY OF TOWER-ON-A-BASE REGULATIONS AND THE SILVER LAW

MINUTES

WHEREAS, notwithstanding the foregoing, Appellants submit that, even if the Board were to find the Subdivision lawful, the Tower-on-a-Base regulations and the Sliver Law would still apply to the New Building with respect to East 88th Street; and

A. Tower-on-a-Base Regulations

WHEREAS, Appellants submit that the Tower-on-a-Base regulations still apply to the New Building with respect to East 88th Street; and

WHEREAS, Appellants state that, under ZR § 23-651(b)(1)(i), “the *street wall* of the [*building*] base shall occupy the entire *street* frontage of a *zoning lot* not occupied by existing *buildings*” and that this provision applies along East 88th Street because the New Building “is located on a *zoning lot* that fronts upon a *wide street* and is either within 125 feet from such *wide street* frontage along the short dimension of the *block* or within 100 feet from such *wide street* frontage along the long dimension of the *block*,” ZR § 23-65; and

WHEREAS, Appellants state that these provisions apply to the New Building because the street wall of its base facing East 88th Street is within 125 feet of the intersection of Third Avenue and East 88th Street but that said street wall of the New Building’s base is not “located within eight feet of the *street line*,” ZR § 23-651(b)(1)(i); and

WHEREAS, Appellants state that the Zoning Resolution does not define the words “facing the street,” “on a narrow street” and “street frontage,” so the fact that Zoning Lot 1 purportedly does not itself abut East 88th Street is irrelevant because the Tower-on-a-Base regulations are still applicable to the New Building; and

WHEREAS, Appellants state that Tower-on-a-Base regulations were enacted because the City Planning Commission determined that “[t]he plaza erodes the streetwall character of neighborhoods”; that “many blocks in neighborhoods with an established streetwall character have had this context eroded by towers that are set back from the streetline in plazas and rise without setback. . . . Recent high density residential development, particularly on the east side of Manhattan, has all too frequently been out of scale with its context. The streetwall scale and neighborhood context have been eroded as towers have become increasingly taller and thinner. This [Tower-on-a-Base] text change would create a new building form that would reinforce the established neighborhood character,” City Planning Commission Report No. N 940013 ZRM at 2, 11, 12; and that “[t]he proposed combination of streetwall controls, floor area distribution, tower coverage and articulation credits work together to ensure a flexible building design which will enhance streetscapes, reinforce neighborhood character, and still allow for reasonable tower development,” City Planning Commission Report No. N 940013 ZRM at 7; and

WHEREAS, Appellants state that DOB’s

interpretation of these provisions could be used to negate the Tower-on-a-Base regulations entirely; and

WHEREAS, accordingly, Appellants submit that, even with the Subdivision, the Tower-on-a-Base regulations still apply to the New Building with respect to East 88th Street; and

B. Sliver Law

WHEREAS, Appellants state that the Sliver Law still applies to the New Building with respect to East 88th Street; and

WHEREAS, Appellants state that the Sliver Law sets stringent height limits “on portions of buildings with street walls less than 45 feet in width,” which limits extend back 100 feet from the street line, ZR § 23-692; and

WHEREAS, Appellants state that the plain language of the Sliver Law make them applicable to the New Building because they apply to “portions of buildings with street walls less than 45 feet in width,” ZR § 23-692, and the portion of the New Building that faces East 88th Street is 22 feet in width; and

WHEREAS, Appellants state that a “street wall” is a “wall or portion of a wall of a building facing a street,” ZR § 12-10; that a “street line” is a “lot line separating a street from other land,” ZR § 12-10; that a street wall is not necessarily along the street line, but only facing that line; and that a street wall can be more than 100 feet from a street line, *see* ZR § 23-692(e)(2); and

WHEREAS, Appellants state that the New Building is situated on a corner lot, so the maximum height of the portion of the New Building with street walls less than 45 feet in width is “the width of the widest street on which it fronts, or 100 feet, whichever is less,” ZR § 23-692; that the widest street on which the New Building fronts is Third Avenue, which is more than 100 feet in width; that the height of the portion of the New Building governed by the Sliver Law (the portion facing, and within 100 feet of, East 88th Street) cannot exceed 100 feet; and that as designed that portion of the New Building rises 32 stories and 623 feet in height—exceeding the 100-foot limit; and

WHEREAS, Appellants state that, under ZR § 23-692, the 100-foot height limit applies 100 feet southward from the street line along East 88th Street, which affects the portion of the New Building facing East 88th Street and within 100 feet of East 88th Street (approximately 1,200 square feet per floor); and

WHEREAS, accordingly, Appellants submit that, even with the Subdivision, the Sliver Law is applicable to the New Building with respect to East 88th Street; and

DOB’S POSITION

WHEREAS, DOB submits that the Subdivision is permitted and that, with the Subdivision, neither the Tower-on-a-Base regulations nor the Sliver Law applies to the New Building with respect to East 88th Street; and

MINUTES

I. SUBDIVISION PERMITTED

WHEREAS, DOB submits that the Subdivision is permitted because it complies with the Zoning Resolution's applicable subdivision regulations; and

WHEREAS, DOB states that the Subdivision does not create a non-compliance, as required by the ZR § 12-10 "zoning lot" definition; and

WHEREAS, DOB states that the configurations of Zoning Lot 1 and Zoning Lot 2 are proper because a zoning lot with a depth of 10 feet is permitted by the Zoning Resolution; and

WHEREAS, DOB states that the Zoning Resolution does not explicitly state the minimum dimensions for a zoning lot but that it would be absurd to interpret the Zoning Resolution such that any tract of land, regardless of its ability to be developed, could constitute a zoning lot; accordingly, DOB submits that a deeper analysis into the Zoning Resolution supports its position that a tract of land containing at least a 10-foot dimension adjacent to another zoning lot could be subdivided from a tract of land to form a valid zoning lot; and

WHEREAS, DOB states that it would also be absurd to not have a minimum zoning lot dimension because applicants could create 1-inch by 1-inch zoning lots, thereby creating many zoning lots in the City that could never be developed; and

WHEREAS, DOB states that zoning lot subdivisions require the resulting tracts of land to be developable zoning lots because a "zoning lot may be subdivided into two or more zoning lots, provided that all resulting zoning lots and all buildings thereon shall comply with all of the applicable provisions of this Resolution," ZR § 12-10; that each subdivided tract of land must be capable of being developed as its own zoning lot because zoning lots can only be formed "at the time of filing for a building permit," ZR § 12-10 ("zoning lot" definition); and that a zoning lot subdivision that results in a tract of land that cannot complete the requirements of forming a zoning lot (filing for a building permit to develop or enlarge) is not a permitted subdivision; and

WHEREAS, DOB states that, because a lot with a depth of four feet and a width of 22 feet would not be developable, it would therefore not be permitted⁶; and

WHEREAS, DOB states that, because zoning lots can consist of multiple lots of record contiguous for a minimum of 10 linear feet under paragraphs (c) and (d) of the ZR

§ 12-10 "zoning lot" definition, a 10-foot-deep dimension is permitted because that is the minimum dimension required for merging zoning lots; and

WHEREAS, DOB states that neither Zoning Lot 1 nor Zoning Lot 2 is undevelopable, so the Subdivision would meet an implicit developability test; and

WHEREAS, accordingly, based on the foregoing, DOB submits that the Subdivision complies with applicable zoning regulations and is therefore permitted; and

II APPLICABILITY OF TOWER-ON-A-BASE REGULATIONS AND THE SILVER LAW

WHEREAS, DOB submits that, with the Subdivision, neither the Tower-on-a-Base regulations nor the Silver Law apply to the New Building with respect to East 88th Street; and

A. Tower-on-a-Base Regulations

WHEREAS, DOB submits that, with the Subdivision, the Tower-on-a-Base regulations do not apply to the New Building with respect to East 88th Street because Zoning Lot 1, within which the New Building is constructed, has no frontage along East 88th Street, and the New Building has no street wall with respect to East 88th Street; and

WHEREAS, DOB states that the northern wall of the New Building is not subject to the Tower-on-a-Base regulations because they only apply to buildings on zoning lots that are adjacent to streets without any intervening land in between, *see* ZR §§ 23-65 and 23-651; and

WHEREAS, DOB states that, in particular, ZR § 23-65(a) states that it only applies to a building that "is located on a zoning lot that fronts upon a wide street and is either within 125 feet from such wide street frontage along the short dimension of the block or within 100 feet from such wide street frontage along the long dimension of the block"—in other words, the Tower-on-a-Base regulations only apply to buildings located on zoning lots that front upon a wide street; and

WHEREAS, DOB states that, because Zoning Lot 1 has no frontage along East 88th Street, the Tower-on-a-Base regulations do not apply to the New Building; and

WHEREAS, DOB states that the Tower-on-a-Base regulations were introduced to replace the previous tower-in-a-plaza regime; that studies had shown that tower-in-a-plaza designs often failed to produce the public benefit originally intended since plaza designs frequently discouraged public use; that City Planning Commission Report No. N 940013 ZRM indicates that the Tower-on-a-Base regulations were meant to "set a middle ground between contextual buildings and tower development"; and that "the height of residential towers and the effect of zoning lot mergers on building scale would become more predictable, resulting in buildings likely to range in height from 28 to 33 stories"; and

WHEREAS, DOB states that the Tower-on-a-Base

6 The Board notes that the issue of whether the Zoning Resolution contains an implicit developability test is not before the Board in this appeal, so the Board does not consider or reach any conclusion as to whether a zoning lot must be developable or whether there is an implicit minimum dimension for a zoning lot.

MINUTES

regulations emphasize the term “frontage,” which is tied to a zoning lot’s juxtaposition with a street and that City Planning Commission Report No. N 940013 ZRM frequently refers to the term “street line,” which is defined as “a *lot line* separating the *street* from other land,” ZR § 12-10; and

WHEREAS, DOB states that the New Building will contain 32 stories, which is directly in line with the above range envisioned by the City Planning Commission when enacting the Tower-on-a-Base regulations; and

B. Sliver Law

WHEREAS, DOB states that, with the Subdivision, the Sliver Law does not apply to the New Building with respect to East 88th Street; and

WHEREAS, DOB states that the northern wall of the proposed building is not subject to the Sliver Law, *see* ZR § 23-692; and

WHEREAS, DOB states that the northern wall of the proposed building is not a “street wall,” ZR § 12-10; and

WHEREAS, DOB states that City Planning Commission Report No. N 830112 ZRY, explaining the Sliver Law, supports DOB’s interpretation that “street walls” must front on streets; and

WHEREAS, DOB states that Appellant’s interpretation of ZR § 23-692 would lead to absurd results; and

WHEREAS, DOB states that the Sliver Law was introduced to prohibit excessive heights for narrow buildings on small lots which, by virtue of their small lot size, contained limited street frontage and that City Planning Commission Report No. N 830112 ZRY indicates that there had been an increase in high-rise buildings built on small lots with “lack of opportunity to assemble large construction sites”; and

WHEREAS, DOB states that the Sliver Law accomplishes this goal by limiting excessive heights for certain small frontage lots and that, although the term “frontage” is not defined in the Zoning Resolution, frontage is commonly understood to be tied to a lot’s juxtaposition to a street; and

WHEREAS, DOB states that Zoning Lot 1 is not the type of small zoning lot addressed by the Sliver Law and, more importantly, does not contain any narrow street frontage along East 88th Street because the zoning lot line ends ten feet south of East 88th Street; and

WHEREAS, accordingly, DOB submits that, with the Subdivision, neither the Tower-on-a-Base regulations nor the Sliver Law apply to the New Building with respect to East 88th Street; and

OWNER’S POSITION

WHEREAS, the Owner submits that the Subdivision is permitted and that, with the Subdivision, neither the Tower-on-a-Base regulations nor the Sliver Law apply to the New

Building with respect to East 88th Street; and

I. SUBDIVISION PERMITTED

WHEREAS, the Owner states that the Subdivision is permitted because it complies with the Zoning Resolution’s requirements for zoning lot subdivisions, because there is no applicable minimum lot size, because there is no owner-intent test and because common ownership does not create a de facto zoning lot; and

WHEREAS, with respect to requirements for zoning lot subdivisions, the Owner states that, in particular, the Zoning Resolution states that a “*zoning lot* may be subdivided into two or more *zoning lots*, provided that all resulting *zoning lots* and all *buildings* thereon shall comply with all of the applicable provisions of this Resolution,” ZR § 12-10; and

WHEREAS, the Owner states that the City Planning Commission Report, No. N 760226 ZRY, discussing the 1977 amendments to the Zoning Resolution’s “zoning lot” definition, notes that, under paragraph (d) of the revised definition, a zoning lot, once established, would remain in effect “until such time as the zoning lot is subdivided in accordance with existing zoning lot subdivision rules” and that “[t]hese rules preclude any subdivisions creating noncompliance with any applicable provisions of the zoning”; and

WHEREAS, the Owner states that neither the text of the “zoning lot” definition in ZR § 12-10 nor its legislative history provides any authority for disallowing a zoning lot subdivision based on speculation about a future development; and

WHEREAS, the Owner states that the Zoning Resolution’s standard for zoning lot subdivisions was met when the zoning exhibits required by the Zoning Resolution were recorded against the subject site and were accepted by DOB; and

WHEREAS, the Owner states that Tax Lot 37 and Tax Lot 138 were established as separate zoning lots under a declaration of zoning lot subdivision and restrictions, dated May 24, 2017, and recorded May 26, 2017; and

WHEREAS, the Owner states that, with regard to Tax Lot 37, a zoning lot declaration dated May 25, 2017, was recorded on May 26, 2017, at CRFN 2017000198267, declaring Tax Lot 37 and Tax Lot 32 to be a single zoning lot; and

WHEREAS, the Owner states that ZR § 71-00 obliges DOB to “administer and enforce” the Zoning Resolution, and New York City Charter § 645(d) states that the Commissioner of DOB “shall review and certify any proposed subdivision of a zoning lot with any building thereon, in order to ensure that the subdivision will not result in the violation of the applicable zoning laws”; and

WHEREAS, the Owner states that DOB expressly approved the Subdivision on June 13, 2017, pursuant to

MINUTES

Subdivision Improved Application No. 121203642, thereby confirming there were no zoning non-compliances created by the Subdivision; and

WHEREAS, accordingly, the Owner submits that the Subdivision complies with the Zoning Resolution's requirements for zoning lot subdivisions; and

WHEREAS, with respect to the applicability of a minimum lot size, the Owner states that, at the subject site, there is no minimum lot size for zoning lots that do not contain a residential building; that, in contrast, in residential zoning districts, no residential building is permitted on a zoning lot with a total lot area or lot width below explicitly stated minimums, *see* ZR §§ 23-32; and that, for instance, in R3 through R10 zoning districts, there are a minimum lot area of 1,700 square feet and a minimum width of 18 feet required for zoning lots containing residential buildings; and

WHEREAS, the Owner states that Appellants would have the Board impose an analogous—but nonexistent—minimum lot size requirement for an unimproved zoning lot; however, no such zoning provision exists; and

WHEREAS, the Owner states that there is no requirement in the Zoning Resolution that a zoning lot must be able to accommodate the development of a new building; and

WHEREAS, the Owner states that DOB's Operations Policy and Procedure Notice, entitled "Department of Buildings Documentation Required by Department of Finance for Final Tax Lots," dated December 9, 1992 ("OPPN # 30/92"), does not support the proposition that zoning lots must be buildable and instead states: "The Department of Finance does not require an applicant to submit evidence of the certification or approval of the subdivision (for example, a PW-1 or Certificate of Occupancy) from the Department of Buildings in order to obtain final tax lots for unimproved land"; and

WHEREAS, the Owner states that there is no logic to requiring that a tax lot be "buildable" where there is no obligation under the Zoning Resolution or any other provision of law that the tax lot actually be developed with buildings (rather than used to support an open use); and

WHEREAS, the Owner states that DOB's Operations Policy and Procedure Notice, entitled "Subdivision of Unimproved Properties," dated October 24, 1991 ("OPPN # 30/92"), has been superseded by OPPN # 30/92 and, in any event, requires no more than that tax lots resulting from a subdivision meet "the minimum requirements of law," which Tax Lot 138 does do since there is no requirement with respect to a minimum lot area; and

WHEREAS, the Owner states that, notwithstanding the absence of any buildability requirement, a new building that complies with the Zoning Resolution could be developed on Lot 138—specifically, a one-story commercial building for use as a coffee vendor, cellphone retailer, newsstand or

other similarly small retail establishment; and

WHEREAS, accordingly, the Owner submits that there is no minimum lot size or other implicit developability requirement that would prohibit the Subdivision; and

WHEREAS, with respect to Appellants' asserted owner-intent test, the Owner states that there is no basis in the Zoning Resolution for an implicit owner-intent test; and

WHEREAS, the Owner states that, contrary to Appellants' assertions about an owner-intent test, the Zoning Resolution permits a property owner to subdivide a zoning lot freely—provided that the subdivision does not result in any zoning non-compliance at the time it is made and provided that the proper legal instruments are recorded; and

WHEREAS, the Owner states that the Zoning Resolution employs an objective test for zoning lot subdivisions and that there is no basis in the "zoning lot" definition or elsewhere in the text of the Zoning Resolution for Appellants' asserted owner-intent test; and

WHEREAS, the Owner states that zoning lots are merged and subdivided in the City of New York repeatedly over time, as building patterns change and as old buildings make way for new buildings; that zoning lots, once established, are not set in stone and may be subdivided freely to accommodate new development, subject only to the Zoning Resolution's requirement that a zoning lot subdivision not create a noncompliance; and

WHEREAS, the Owner submits that Section 71-00 of the Zoning Resolution provides that DOB "shall administer and enforce" its provisions; and

WHEREAS, the Owner notes that Appellants cite no authority for the proposition that the Zoning Resolution instructs DOB to speculate about the future subjective intent of an applicant for subdivision approval or a building permit; and

WHEREAS, the Owner notes that, in administering and enforcing the Zoning Resolution with respect to subdivision or construction applications, DOB receives plans of existing zoning-lot configurations and plans of proposed zoning-lot configurations; and

WHEREAS, the Owner notes that Appellants cite no zoning provision instructing DOB to receive, investigate or analyze private, contractual arrangements—including offering plans—or indicating that such documents would be a proper basis for withholding approval of an application to subdivide a zoning lot or for refusing to issue a building permit; and

WHEREAS, the Owner submits that there is no requirement that a zoning lot ever be developed with a new building, considering that the Zoning Resolution permits open uses; and

WHEREAS, the Owner submits that any owner-intent test envisaged by Appellants would be impracticable—if not impossible—for DOB to implement as part of its review of

MINUTES

subdivision or construction applications; and

WHEREAS, the Owner states that the subject site has been subdivided in order to ensure the New Building's compliance with zoning regulations, as required by DOB; and

WHEREAS, the Owner states that Appellants cite no authority for the proposition that a zoning lot subdivision have a "legitimate land use purpose"; and

WHEREAS, accordingly, the Owner submits that there is no basis for an implicit owner-intent test; and

WHEREAS, with respect to whether common ownership creates a de facto zoning lot and Appellants' assertions about "sham" subdivisions, the Owner states that the Zoning Resolution does not automatically treat two adjacent parcels as a single zoning lot merely because they are in the same ownership and that therefore there is no basis for the Subdivision to be considered a sham; and

WHEREAS, the Owner states that considering the Subdivision a sham would violate the bedrock zoning principal that zoning be based on the characteristics of a particular property—not on the identity of the property owner; and

WHEREAS, accordingly, based upon the foregoing, the Owner submits that the Subdivision is permitted; and

II APPLICABILITY OF TOWER-ON-A-BASE REGULATIONS AND THE SILVER LAW

WHEREAS, the Owner submits that, with the Subdivision, neither the Tower-on-a-Base regulations nor the Sliver Law apply to the New Building with respect to East 88th Street; and

A. Tower-on-a-Base Regulations

WHEREAS, the Owner submits that the Tower-on-a-Base regulations do not apply to the New Building with respect to East 88th Street; and

WHEREAS, more specifically, the Owner states that the Tower-on-a-Base regulations, which are applicable along East 88th Street, do not apply to the New Building because the New Building does not have a street wall or a base built along East 88th Street; and

WHEREAS, the Owner states that the Tower-on-a-Base regulations only apply to a building that is "located on a *zoning lot* that fronts upon a *wide street* and is either within 125 feet from such *wide street* frontage along the short dimension of the *block* or within 100 feet from such *wide street* frontage along the long dimension of the *block*," ZR § 23-65(a), and require affected buildings to be built with street walls that are located within eight feet of the applicable street line, for 70 percent of their width; and

WHEREAS, the Owner states that, under ZR § 23-651, "On a *wide street*, and on a *narrow street* within 125 feet of its intersection with a *wide street*, the *street wall* of the base shall occupy the entire *street* frontage of a *zoning lot* not occupied by existing *buildings*. At any height, at least 70

percent of the width of such *street wall* shall be located within eight feet of the *street line*, and the remaining 30 percent of such *street wall* may be recessed beyond eight feet of the *street line* to provide *outer courts* or balconies"—which is, by its terms, only applicable to a zoning lot's "street frontage" and a "street wall" facing a "street line"; and

WHEREAS, the Owner states that the New Building complies with the Tower-on-a-Base regulations with respect to Third Avenue, upon which the Zoning Lot has a "street wall" and which the New Building's Third Avenue "street wall" faces, *see* ZR §§ 23-651 and 12-10 (definitions); and

WHEREAS, the Owner states that Appellants' urge an impossible result: because Zoning Lot 1 has no frontage on East 88th Street and because the depth of Zoning Lot 1 is 10 feet, the New Building's northern wall cannot be located within 8 feet of the street line along East 88th Street because to do so would situate the New Building on more than one zoning lot; and

WHEREAS, accordingly, the Owner submits that the Tower-on-a-Base regulations do not apply to the New Building with respect to East 88th Street; and

B. Sliver Law

WHEREAS, the Owner submits that the Sliver Law does not apply to the New Building with respect to East 88th Street; and

WHEREAS, more specifically, the Owner states that the Sliver Law does not apply to the New Building because Zoning Lot 1 has no street frontage on East 88th Street, and, more particularly, the New Building cannot have a "street wall" with regard to East 88th Street because its zoning lot does not have a "street line" on East 88th Street, as those terms are defined in ZR § 12-10; and

WHEREAS, the Owner states that the provisions of ZR § 23-692 apply to "portions of buildings with street walls less than 45 feet in width"; that ZR § 12-10 defines a "street wall" as a "wall or portion of a wall of a building facing a street"; and that the term "facing" is not defined in the Zoning Resolution; and

WHEREAS, the Owner states that zoning compliance for floor area, height and setback, yards and other regulations is measured based on the parameters of a zoning lot and that many regulations measure compliance with reference to a zoning lot's "street line," which is defined as "a lot line separating a street from other land" under ZR § 12-10; and

WHEREAS, the Owner states that it would be absurd to assert that the New Building faces East 88th Street when the zoning lot has no frontage on East 88th Street because it would subject a zoning lot to the height and setback regulations of each of the streets bounding the block on which it is located—regardless of the presence of any intervening lots, buildings or other structures located

MINUTES

between the zoning lot and the applicable street line; and

WHEREAS, the Owner states that the term “street wall” is only definable regarding a particular “street line,” and the Sliver Law’s restrictions do not apply to street walls “located beyond 100 feet of a street line,” ZR § 23-692(e)(2), a provision that is not comprehensible without regard to a specific street line; and

WHEREAS, the Owner states that, without reference to a particular street line, there is no reference point for measuring the width of the applicable street wall, but, even under Appellant’s asserted interpretation of the Sliver Law, the New Building’s street wall “facing” East 88th Street would be the entire northern wall of the New Building, which is 100 feet in width, and therefore not subject to the Sliver Law limitations on the height of a building less than 45 feet in width; and

WHEREAS, accordingly, the Owner submits that the Sliver Law does not apply to the New Building with respect to East 88th Street; and

DISCUSSION

WHEREAS, because this is an appeal for interpretation, under ZR § 72-11, the Board “may make such . . . determination as in its opinion should have been made in the premises in strictly applying and interpreting the provisions of” the Zoning Resolution; and

WHEREAS, the Board first considers whether the Subdivision, which splits the subject site into Zoning Lot 1 (with the New Building and frontage along Third Avenue) and into Zoning Lot 2 (with frontage along East 88th Street), is permitted by the Zoning Resolution’s applicable zoning lot subdivision regulations; and

WHEREAS, next, assuming the Subdivision is permitted, the Board considers whether the Tower-on-a-Base regulations and the Sliver Law still apply to the New Building with respect to East 88th Street; and

WHEREAS, based on the record in this appeal and as discussed herein, the Board finds that Appellants have failed to demonstrate that the Subdivision is invalid and that Appellants have failed to demonstrate that the Tower-on-a-Base regulations or the Sliver Law still apply to the New Building; and

WHEREAS, lastly, a minority of the Board finds that the Subdivision is not permitted by the Zoning Resolution and that this appeal should therefore be granted; and

I. SUBDIVISION PERMITTED

WHEREAS, the Board finds that Appellants have failed to demonstrate that the Subdivision does not comply with any provision of the Zoning Resolution taking into consideration legislative intent, the definition of a “zoning lot,” the lack of an owner-intent test and the absence of any developability issue in this appeal; and

A. Role of Legislative Intent

WHEREAS, the Zoning Resolution sets forth its

statement of legislative intent for regulations applicable in commercial zoning districts in Chapter 1 of Article III; and

WHEREAS, with respect to the general purposes of commercial zoning districts, Section 31-00 of the Zoning Resolution provides in pertinent part:

The Commercial Districts established in this Resolution are designed to promote and protect public health, safety and general welfare. These general goals include, among others, . . . (b) to provide appropriate space and, in particular, sufficient depth from a street, to satisfy the needs of modern local retail development, including the need for off-street parking spaces in areas to which a large proportion of shoppers come by automobile, and to encourage the natural tendency of local retail development to concentrate in continuous retail frontage, to the mutual advantage of both consumers and merchants; . . .

(i) to provide freedom of architectural design, in order to encourage the development of more attractive and economic building forms, within proper standards . . . and (k) to promote the most desirable use of land and direction of building development in accord with a well-considered plan, to promote stability of commercial development, to strengthen the economic base of the City, to protect the character of the district and its peculiar suitability for particular uses, to conserve the value of land and buildings, and to protect the City’s tax revenues; and

WHEREAS, Appellants’ arguments that “continuous retail frontage” would be negatively affected by the Subdivision and by the New Building are unpersuasive and unavailing, ZR §§ 31-00 and 31-11—especially considering that the New Building does not propose any retail use anywhere near East 88th Street and that the New Building has street-wall continuity along Third Avenue; and

WHEREAS, furthermore, nothing in the record indicates that “continuous retail frontage” would be impeded by this appeal in light of the developability of Tax Lot 138 as a one-story commercial building, suitable for use as a newsstand or other retail establishment that “cater[s] to frequently recurring needs,” ZR § 31-11; and

WHEREAS, the Board does favorably acknowledge Appellants’ citations to the Zoning Resolution’s stated purposes, which are part of the text of the Zoning Resolution; and

WHEREAS, however, Appellants assert that allowing the Subdivision and the New Building would undermine the Zoning Resolution’s stated purposes to such an extent as to constitute a rationale sufficient and specific enough to demand denial or revocation of the Permit; and

WHEREAS, in so insisting, Appellants essentially

MINUTES

treat the Zoning Resolution’s stated purposes—even those which are not relevant or applicable to the New Building—as conditions precedent to the approval of a subdivision application or issuance of a building permit; and

WHEREAS, the Board would not, as urged by Appellants, import into the Zoning Resolution’s statement of legislative intent any conditions precedent to the issuance of a building permit, and Appellants have cited no authority standing for the contrary; and

WHEREAS, reading the Zoning Resolution’s statement of legislative intent as a condition precedent to the issuance of a building permit would essentially eviscerate as-of-right development in the City, allowing the denial—or revocation—of a building permit wherever DOB determines that a particular building would not, for instance, be in the “general welfare,” ZR § 31-00, notwithstanding its compliance with explicitly applicable provisions of the Zoning Resolution; and

WHEREAS, besides being administratively untenable at a DOB plan-examination level, such a result and its attendant uncertainty would be in direct contravention of the Zoning Resolution’s own stated purposes, which seek “to promote stability” and “freedom of architectural design,” ZR § 31-00; and

WHEREAS, accordingly, the Board finds that the Zoning Resolution’s statements regarding legislative intent are not conditions precedent to the issuance of a building permit but rather to be read in harmony with the Zoning Resolution’s substantive requirements, found elsewhere in the zoning text and meant to effectuate the Zoning Resolution’s general purposes; and

B. “Zoning Lot” Definition

WHEREAS, the Zoning Resolution specifically provides, in the “zoning lot” definition, ZR § 12-10, the following in pertinent part:

A zoning lot may be subdivided into two or more zoning lots, provided that all resulting zoning lots and all buildings thereon shall comply with all of the applicable provisions of this Resolution. If such zoning lot, however, is occupied by a non-complying building, such zoning lot may be subdivided provided such subdivision does not create a new non-compliance or increase the degree of non-compliance of such building; and

WHEREAS, the Board notes that the “may” in the phrase “may be subdivided” is “permissive,” ZR § 12-01(c) (rules applying to zoning text); and

WHEREAS, the Zoning Resolution permissively allows subdividing a zoning lot “provided that all resulting zoning lots and all buildings thereon shall comply with all of the applicable provisions of this Resolution,” ZR § 12-10; and

WHEREAS, accordingly, Zoning Lot 1 and Zoning

Lot 2 must each—individually, rather than as an aggregate tract of land—comply with the Zoning Resolution after their subdivision into separate zoning lots, and any buildings located on Zoning Lot 1 and any buildings located on Zoning Lot 2 must also comply with the Zoning Resolution; and

WHEREAS, nothing in the record indicates the Zoning Resolution imposes a minimum lot area for commercial uses in the subject zoning districts; and

WHEREAS, the Board finds that the subject site has been subdivided into two zoning lots in accordance with the applicable subdivision provision in the ZR § 12-10 “zoning lot” definition—namely, that Zoning Lot 1 and Zoning Lot 2 “and all buildings thereon . . . comply with all of the applicable provisions” of the Zoning Resolution⁷; and

C. No Owner-Intent Test

WHEREAS, the Board finds no basis in the “zoning lot” definition or elsewhere in the text of the Zoning Resolution for Appellants’ asserted owner-intent test; and

WHEREAS, Section 71-00 of the Zoning Resolution provides that DOB “shall administer and enforce” its provisions; and

WHEREAS, Appellants cite no authority for the proposition that the Zoning Resolution instructs DOB to speculate about the future subjective intent of an applicant for subdivision approval or a building permit; and

WHEREAS, in administering and enforcing the Zoning Resolution with respect to subdivision or construction applications, DOB receives plans of existing zoning-lot configurations and plans of proposed zoning-lot configurations; and

WHEREAS, Appellants cite no zoning provision instructing DOB to receive, investigate or analyze private, contractual arrangements—including offering plans—or indicating that such documents would be a proper basis for withholding approval of an application to subdivide a zoning lot or for refusing to issue a building permit; and

WHEREAS, the Board notes that, in practice, zoning lot subdivisions often occur prior to the filing of New Building applications and apply to vacant lots or to zoning lots with one or more existing buildings to be demolished, and it may be months or years before construction drawings for a new building are filed—while subsequent zoning lot mergers with adjacent parcels not subject to the subdivision have taken place in the interim; and

WHEREAS, there is no requirement that a zoning lot subdivision be contemporaneous with—or even close in time to—the development of a new building; and

⁷ No party asserts in this appeal that the presence of a six-story commercial building on Tax Lot 32 creates a new non-compliance or increases the degree of any existing non-compliance with respect to the Subdivision.

MINUTES

WHEREAS, nor is there a requirement that a zoning lot ever be developed with a new building, considering that the Zoning Resolution permits open uses; and

WHEREAS, because there is no basis in the text of the Zoning Resolution for any owner-intent test as to zoning lot subdivisions, the Board expresses no opinion as to the analogy suggested by Appellants with respect to sham compliance with advertising-sign or adult-establishment regulations; and

WHEREAS, accordingly, the Board finds that, beyond having no basis in the text of the Zoning Resolution, any owner-intent test envisaged by Appellants would be impracticable—if not impossible—for DOB to implement as part of its review of subdivision or construction applications; and

D. No Developability Issue

WHEREAS, the Board notes that, because Zoning Lot 2 (Tax Lot 138) can support the development of a one-story commercial building, even if said development is unlikely to occur, whether the Zoning Resolution permits or prohibits zoning lot subdivisions that would create undevelopable tracts of land is purely hypothetical in this appeal; and

WHEREAS, because a theoretical subdivision that attempts to create an undevelopable zoning lot is not before the Board in this appeal, the Board need not—and does not, as Appellants asserts the Board must—consider whether the Zoning Resolution imposes an implicit developability requirement on the subdivision of zoning lots in this appeal; and

WHEREAS, additionally, though not before the Board, in light of the above discussion about the absence of any owner-intent test, it is unclear from the record that it would be possible or practicable to formulate or implement a developability requirement; and

E. Conclusion

WHEREAS, based upon the foregoing, the Board finds that the Subdivision is permitted by the Zoning Resolution in accordance with applicable subdivision regulations, *see* ZR § 12-10 (“zoning lot” definition); and

II APPLICABILITY OF TOWER-ON-A-BASE REGULATIONS AND THE SILVER LAW

WHEREAS, because the Board finds Appellants’ arguments that the Subdivision is not permitted by the Zoning Resolution unpersuasive, the Board next considers Appellants’ assertions that, even were the Subdivision valid, the Tower-on-a-Base regulations and the Sliver Law apply to the New Building with because the New Building purportedly has a street wall facing East 88th Street; and

WHEREAS, as discussed herein, the Board does not find the Tower-on-a-Base regulations or the Sliver Law applicable to the New Building with respect to East 88th Street; and

A. Tower-on-a-Base Regulations

WHEREAS, the Board finds that Appellants have failed to demonstrate that the Tower-on-a-Base regulations apply to the New Building with respect to East 88th Street, *see* ZR § 23-65; and

WHEREAS, Section 23-65 of the Zoning Resolution provides in pertinent part:

The Tower-on-a-Base regulations of Section 23-651 shall apply to any such *building* that:

- (1) contains more than 25 percent of its total *floor area* in *residential use*; and
- (2) is located on a *zoning lot* that fronts upon a *wide street* and is either within 125 feet from such *wide street* frontage along the short dimension of the *block* or within 100 feet from such *wide street* frontage along the long dimension of the *block*.

If a portion of such *building* is *developed* or *enlarged* with a tower the entire *zoning lot* shall be subject to the provisions of Section 23-651 (Tower-on-a-Base); and

WHEREAS, in other words, the Tower-on-a-Base regulations only apply to a zoning lot that “fronts” on a wide street, ZR § 23-65; and

WHEREAS, the Zoning Resolution does not define the term “front” but evinces through its provisions the relationship of a zoning lot to the surrounding street system as well as the adjacency intrinsic to the meaning of a zoning lot’s frontage; and

WHEREAS, a zoning lot is defined, in part, as “tract of land . . . located within a single *block*,” and a block is defined, in part, as “a tract of land bounded by . . . *streets*,” ZR § 12-10; and

WHEREAS, a zoning lot is accordingly defined with relation to the City’s street system, and, by virtue of its location within a block, a zoning lot may be “bounded by” one or more streets, ZR § 12-10; and

WHEREAS, here, Zoning Lot 1 has a lot line coincident with the westerly boundary of Third Avenue, which is more than 75 feet wide, and accordingly “fronts” on Third Avenue, a wide street, *see* ZR § 23-65; and

WHEREAS, because the New Building “contains more than 25 percent of its total *floor area* in *residential use*” and because Zoning Lot 1 “fronts upon” Third Avenue, all of Zoning Lot 1 is subject to the Tower-on-a-Base regulations, *see* ZR § 23-65; and

WHEREAS, however, the Tower-on-a-Base regulations do not apply to the New Building in the manner Appellants purport; and

WHEREAS, Section 23-651 of the Zoning Resolution states, in part:

[T]he *street wall* of the base shall occupy the entire *street* frontage of a *zoning lot* not occupied by existing *buildings*. . . . [T]he width of such

MINUTES

street wall shall be located within eight feet of the *street line*; and

WHEREAS, a “street line” is defined, in part, as “a *lot line* separating a *street* from other land,” ZR § 12-10—indicating that a zoning lot’s boundary may be coincident with the boundary of a street; and

WHEREAS, a “street wall” is defined as “a wall or portion of a wall of a *building* facing a street,” ZR § 12-10; and

WHEREAS, a “building” is defined, in part, as “any structure which . . . is located within the *lot lines* of a *zoning lot*,” ZR § 12-10; and

WHEREAS, just as zoning lots do not traverse streets, a building is confined to a zoning lot’s “lot lines”—defined as the “boundar[ies] of a *zoning lot*,” ZR § 12-10; and

WHEREAS, the Board finds that, because of the intervening tract of land between Zoning Lot 1 and East 88th Street, the New Building is not designed with “a wall or portion of a wall . . . facing” East 88th Street, ZR § 12-10; and

WHEREAS, the Board finds no merit in the assertion that any of the New Building’s walls or portions of walls face East 88th Street; and

WHEREAS, the Board notes that interpreting “facing” to disregard intervening buildings or other intervening tracts of land and to apply to every wall of a building would mean the building is “facing” in all directions, rendering every wall of a building a street wall, and nothing in the record indicates that the “street wall” definition is meant to—or should—apply in such a manner; and

WHEREAS, the Board finds that the New Building is not designed with “a wall or portion of a wall . . . facing” East 88th Street, ZR § 12-10, so the New Building is not designed with any “street wall” with respect to East 88th Street; and

WHEREAS, accordingly, the Board finds that Appellants have failed to demonstrate that the Tower-on-a-Base regulations apply to the New Building with respect to East 88th Street; and

B. Sliver Law

WHEREAS, the Board further finds that Appellants have failed to demonstrate that the Sliver Law applies to the New Building with respect to East 88th Street; and

WHEREAS, Section 23-692 of the Zoning Resolution (height limitations for narrow buildings or enlargements) states, in pertinent part:

[P]ortions of *buildings* with *street walls* less than 45 feet in width shall not be permitted above the following height[]: . . . 100 feet; and

WHEREAS, as discussed above, the Board finds that no portion of the New Building has a “street wall” with respect to East 88th Street since the New Building is not designed with any wall “facing” East 88th Street, ZR

§ 12-10, and Appellants’ urging otherwise is without merit; and

WHEREAS, furthermore, assuming for the sake of argument that Appellants’ asserted interpretation of the “street wall” definition applies, the Board finds that the New Building’s street wall “facing” East 88th Street would more appropriately be measured as the entire northern wall of the New Building, which is approximately 100 feet in width, so the New Building would not be subject to the Sliver Law’s limitations; and

WHEREAS, the Board finds that no height limit set forth in ZR § 23-692 applies to the New Building; and

WHEREAS, accordingly, the Board finds that Appellants have failed to demonstrate that the Sliver Law applies to the New Building with respect to East 88th Street; and

III. MINORITY POSITION

WHEREAS, a minority of the Board finds that the Subdivision is not permitted by the Zoning Resolution; and

WHEREAS, a minority of the Board finds that subdividing a zoning lot should not be permitted where the sole purpose is to intentionally evade zoning regulations and that, in this appeal, no other justification for the Subdivision has been asserted; and

WHEREAS, a minority of the Board finds it implausible that Tax Lot 138 will ever be developed with a building because the New Building has been designed so that the New Building’s main entrance is located within the landlocked portion of Tax Lot 37 immediately next to Tax Lot 138; and

WHEREAS, in particular, to enter the New Building, it appears that one must traverse Tax Lot 138, through a garden, past the concierge and mail room to the elevator bay; and

WHEREAS, on the other hand, the New Building has no concierge along Third Avenue and instead appears to have its service entrance with bicycle storage or package deliveries along Third Avenue; and

WHEREAS, because it does not appear that Tax Lot 138 will ever be developed separately from Tax Lot 37 and no justification for the Subdivision has been proffered other than the intentional evasion of zoning regulations, a minority of the Board finds that the Subdivision is not permitted; and

WHEREAS, therefore, a minority of the Board finds that this appeal should therefore be granted; and

CONCLUSION

WHEREAS, the Board has considered all of the arguments on appeal, but a majority of the Board finds them ultimately unpersuasive; and

WHEREAS, in response to concerns from Appellants and the community regarding the applicability of this site-specific appeal to the development of other buildings within the City, the Board notes that, while it has the power, among

MINUTES

other things, “to hear and decide appeals from and to review interpretations of this Resolution” under ZR § 72-01(a), the Board does not have the power to zone, *see* City Charter § 666; and

WHEREAS, accordingly, insofar as Appellants or members of the community take issue with provisions of the Zoning Resolution—or absence thereof—as enacted, that grievance falls outside the scope of the Board’s authority to review this appeal; and

WHEREAS, for the foregoing reasons, a majority of the Board finds that Appellant has failed to demonstrate that the Subdivision of the subject site into Zoning Lot 1 and Zoning Lot 2 contravenes applicable provisions for zoning lot subdivisions or that the Tower-on-a-Base regulations or the Sliver Law applies to the New Building with respect to East 88th Street.

Therefore, it is Resolved, that the decision of the Department of Buildings, dated September 28, 2017, under Zoning Challenge and Appeal Form Control No. 50662, shall be and hereby is *upheld* and that this appeal shall be and hereby is *denied*.

Adopted by the Board of Standards and Appeals, December 11, 2018.

The RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated May 8, 2017, acting on New Building Application No. 321310808, reads in pertinent part:

“[A]ccessory parking spaces proposed does not comply with the . . . spaces required per ZR 36-21”; and

WHEREAS, this is an application under ZR §§ 73-44 and 73-03 to permit, in an R6 (C1-3) zoning district, a reduction in the number of accessory off-street parking spaces required for an ambulatory diagnostic or treatment facility (Use Group 4), contrary to ZR § 36-21; and

WHEREAS, a public hearing was held on this application on March 6, 2018, after due notice by publication in *The City Record*, with continued a hearing on September 27, 2018, and then to decision on December 11, 2018; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 12, Brooklyn, recommends disapproval of this application, stating that the surrounding area is congested and suffers from a lack of parking and that the presence of a school across the street exacerbates the lack of parking; and

WHEREAS, the subject site is located on the southwest corner of Fort Hamilton Parkway and 54th Street, in an R6 (C1-3) zoning district, in Brooklyn; and

WHEREAS, the subject site has approximately 122 feet of frontage along Fort Hamilton Parkway, 100 feet of frontage along 54th Street, 11,168 square feet of lot area and

is vacant; and

WHEREAS, ZR § 73-44 provides, in pertinent part, that:

In the districts indicated, the Board of Standards and Appeals may permit a reduction in the number of *accessory* off-street parking spaces required by the provisions of Section 36-21 or 44-21 (General Provisions) for ambulatory diagnostic or treatment facilities listed in Use Group 4 and *uses* in parking requirement category B1 in Use Group 6, 7, 8, 9, 10, 11, 14 or 16 to the applicable number of spaces specified in the table set forth at the end of this Section, provided that the Board finds that occupancy by ambulatory diagnostic or treatment facilities listed in Use Group 4 or *uses* in parking category B1 is contemplated in good faith on the basis of evidence submitted by the applicant. In such a case the Board shall require that the certificate of occupancy issued for the *building* within which such *use* is located shall state that no certificate shall thereafter be issued if the *use* is changed to a *use* listed in parking category B unless additional *accessory* off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius.

**REDUCED ACCESSORY OFF-STREET
PARKING SPACES REQUIRED FOR
AMBULATORY DIAGNOSTIC
OR TREATMENT FACILITIES LISTED IN
USE GROUP 4 AND
COMMERCIAL USES IN PARKING

Parking Spaces Required

Per Number of Square

Feet on <i>Floor Area</i> *	Districts
1 per 400	C1-1 C2-1 C3 C4-1
1 per 600	C1-2 C2-2 C4-2 C8-1 M1-1 M1-2 M1-3 M2-1 M2-2 M3-1
1 per 800	C1-3 C2-3 C4-3 C7 C8-2

* For ambulatory diagnostic or treatment facilities listed in Use Group 4, parking spaces required for number of square feet of *floor area* or *cellar* space, except *cellar* space used for storage; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, inter alia, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant proposes to develop a six-

MINUTES

story, with cellar and two sub-cellars, community-facility building with 50,678 square feet of floor area (4.54 FAR), 7,045 square feet of cellar space for related medical office functions for a total of 57,723 square feet of community-facility floor space and 88 accessory off-street parking spaces; and

WHEREAS, the applicant originally proposed providing 65 off-street parking spaces accessory to the proposed ambulatory diagnostic or treatment facility use at the subject site; and

WHEREAS, in response to community concerns and questions from the Board at hearing, the applicant increased the number of proposed parking spaces from 65 to 88; and

WHEREAS, the applicant states that, at the subject site, 144 parking spaces are required for the proposed building under ZR § 36-21, calculated at a rate of one space per 400 square feet of floor area as well as cellar space not used for storage; and

WHEREAS, pursuant to ZR § 73-44, the Board may reduce the required parking for an ambulatory diagnostic or treatment facility (Use Group 4) at the subject site from one space per 400 square feet of floor area to one space per 800 square feet of floor area provided that the Board finds that such occupancy is contemplated in good faith; and

WHEREAS, the applicant submitted an affidavit stating that the building will be occupied by an ambulatory diagnostic or treatment facility (Use Group 4); and

WHEREAS, the applicant also submitted City Planning Commission Report No. C 140288 ZMK, in which it is noted that the rezoning of the subject site would facilitate the construction of the proposed building for use by the applicant as an ambulatory diagnostic or treatment facility (Use Group 4); and

WHEREAS, the applicant further states that any certificate of occupancy for the building will state that no subsequent certificate of occupancy may be issued if an ambulatory diagnostic or treatment facility (Use Group 4) is changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius; and

WHEREAS, the Board finds the affidavit credible and that the applicant has submitted sufficient evidence of good faith in maintaining the proposed ambulatory diagnostic or treatment facility use at the site; and

WHEREAS, in response to community concerns and at the Board's instruction, the applicant increased the number of parking spaces proposed from 65 parking spaces to 88 parking spaces accessory to the proposed ambulatory diagnostic or treatment facility use at the subject site; and

WHEREAS, in response to community concerns, the Board also directed the applicant to provide a parking demand and utilization study (the "Parking Study") to

analyze whether the proposed parking reduction would have any adverse impact on the surrounding area; and

WHEREAS, the Parking Study concludes that the parking capacity of the proposed building will be sufficient to accommodate the parking demand created by the proposed use at all times and that traffic will not be increased as a result of patrons circulating the neighborhood in search of parking—thereby ensuring that the proposed parking reduction would not have a negative impact on the adjacent businesses, residents or neighborhood; and

WHEREAS, specifically, the Parking Study finds that the proposed 88 accessory parking spaces would be sufficient to accommodate the parking demand generated by the proposed community-facility building,

WHEREAS, the Parking Study further finds that, when the garage is in operation, there will be between 14 and 59 available spaces most of the time and that, in the period after business hours, the garage will be empty; and

WHEREAS, the Parking Study finds that, using transportation planning factors based on data provided by the Department of Transportation ("DOT") to the Department of City Planning ("DCP"), parking demand would peak at 88 spaces from 9:00 a.m. to 11:00 a.m. on weekdays and 59 spaces at 11:00 a.m. on Saturdays and that the proposed 88 parking spaces would be sufficient to meet peak demand; and

WHEREAS, the Parking Study notes that, even during periods of peak usage, high turnover of parking spaces is anticipated because garage spaces customarily turn over rapidly; and

WHEREAS, the Parking Study also surveys the surrounding area for available on-street parking capacity, determining that there would be at least 99 on-street parking spaces available within one-quarter mile of the subject site at all times in the event that parking demand exceeds on-site capacity; and

WHEREAS, the applicant states that the configuration and operations of the garage will ensure that cars can enter and exit safely and efficiently with a two-lane entry and exit onto 54th Street, 10 queueing spaces for drop-offs and pick-ups, adequate lighting and sufficient directional signage indicating a designated stopping point and general safety measures—such as signage or mirrors—to prevent conflict between the garage, pedestrians and the local street network; and

WHEREAS, the applicant states that the parking garage will employ a robotically operated parking facility system (the "Automated Parking System") to systematically store and retrieve vehicles in a high-density racking structure without the use of vehicle storage pallets; and

WHEREAS, the applicant states that the Automated Parking System's parking and retrieval process, once a vehicle is placed in the entry-exit station, will be entirely

MINUTES

controlled by computer with two parking attendants available on any given shift to assist patrons who wish to have their vehicle stored as well as a cashier; and

WHEREAS, the applicant states that the Automated Parking System will be able to park and retrieve a vehicle in under three minutes and that no vibration or noise will be generated from the Automated Parking System because of its location below grade; and

WHEREAS, by letter dated September 19, 2018, the Fire Department states that it has no objection to this application so long as the applicant files plans for the Automated Parking System with the Fire Department and with the Office of Technical Certification and Research of the Department of Buildings for review and approval prior to the commencement of construction; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of parking regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of parking regulations will not interfere with any pending public improvement project; and

Whereas, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 17BSA134K, dated November 20, 2018; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, by correspondence dated August 29, 2018, DCP states that it has no objection to this application; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-44 and 73-03 and that the applicant has substantiated

a basis to warrant exercise of discretion.

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR §§ 73-44 and 73-03 BZ; *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received November 21, 2018"-Seventeen (17) sheets; and *on further condition*:

THAT plans for the automated parking system shall be filed with and approved by the Fire Department and the Office of Technical Certification and Research of the Department of Buildings prior to the commencement of construction;

THAT the certificate of occupancy issued for the building within which the ambulatory diagnostic or treatment facility (Use Group 4) is located shall state that no certificate shall thereafter be issued if the Use Group 4 ambulatory diagnostic or treatment facility are changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by December 11, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, December 11, 2018.

APPLICANT – Law Office of Fredrick A. Becker, for Garichi LLC, owner.

SUBJECT – Application February 7, 2018 – Re-instatement (§11-411) of a previously approved variance permitted retail uses which expired on June 18, 2001; Amendment (§11-411) to permit the enlargement of one of the existing buildings; Waiver of the Board’s Rules. R5 zoning district. PREMISES AFFECTED – 2250 Linden Boulevard, Block 4359, Lot(s) 1, 6, Borough of Brooklyn.

COMMUNITY BOARD #5BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

The RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice & Procedure, the reinstatement of a variance previously granted by the Board, which expired on June 18, 2001, and an amendment to the same; and

WHEREAS, a public hearing was held on this application on June 26, 2018, after due notice by publication in *The City Record*, with continued hearings on September 27, 2018, and December 11, 2018, and then to decision on that date; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 5, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the south side of Linden Boulevard, bound by Ashford Street and Cleveland Street, in an R5 zoning district, in Brooklyn; and

WHEREAS, the site is comprised of two (2) adjoining tax lots with approximately 200 feet of frontage on Linden Boulevard, 85 feet of frontage on Ashford Street, 105 feet of frontage on Cleveland Street, 19,000 square feet of lot area, and is occupied by two (2) one- (1) story retail stores (Use Group (“UG”) 6)—one (1) building located at the south east corner of Linden Boulevard and Ashford Street (the “Ashford Building”) identified on BSA-approved plans as “BLDG. B” and “BLDG. B1”, and one (1) building located at the southwest corner of Linden Boulevard and Cleveland Street (the “Cleveland Building”) identified on BSA-approved plans as “BLDG A” and “BLDG. A1”—with 19 accessory off-street parking spaces on-site; and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 16, 1951, when, under BSA Cal. No. 215-50-BZ, the Board granted a variance to permit the

construction of a building in a residence district to be used as a bowling alley, stores, and offices, for a term of ten (10) years, expiring January 16, 1961, on condition that the building in all other respects comply with all laws, rules and regulations applicable thereto and with all other provisions of the zoning resolution; no part of the building be erected within the proposed widening line of Ashford street; before plans are filed with the Department of Housing and Buildings complete working drawings be submitted to the Board for further consideration; such plans be filed within six (6) months from the date of the resolution and after approval, all permits be obtained and all work completed within one (1) year thereafter; and;

WHEREAS, on October 14, 1959, under BSA Cal. No. 215-50-BZ, the Board amended the resolution to permit the erection and maintenance of three (3) retail stores with accessory customer and employee parking, with the building occupying more than the permitted area and without the required setback, for a term of 21 years, expiring October 14, 1980, on condition that the work be done in accordance with drawings filed with the application; all laws, rules and regulations applicable be complied with; all permits, including a certificate of occupancy be obtained and all work completed within one (1) year, by October 14, 1960; and

WHEREAS, on June 28, 1960, under BSA Cal. No. 215-50-BZ, the Board amended the resolution to permit the façade of Building A1 to be redesigned and provided with a show window on Ashford Street, except that the Ashford Street side of the building be faced with face bricks instead of concrete blocks; a certificate of occupancy be issued upon the completion of Building A, and a separate certificate of occupancy be issued upon the completion of Building B, on condition that other than as amended, the resolution be complied with in all respects; and

WHEREAS, on November 29, 1960, under BSA Cal. No. 215-50-BZ, the Board amended the resolution to permit Building B2 to be reduced in size to a depth of 80 feet and constructed substantially as shown on revised drawings dated November 7, 1930, 3 sheets, on condition that other than as amended the resolution be complied with in all respects; and

WHEREAS, on April 25, 1961, under BSA Cal. No. 215-50-BZ, the Board amended the resolution to permit illuminated non-flashing signs on Building A, substantially as shown on revised drawings dated March 20, 1961, one (1) sheet, except that no sign be permitted on the Ashford Street side of the building on condition that other than as amended the resolution be complied with in all respects; and

WHEREAS, on July 18, 1961, under BSA Cal. No. 215-

1 Prior Board history references to “Building A” herein refer to the Ashford Building.

2 Prior Board history references to “Building B” herein refer to the Cleveland Building.

MINUTES

50-BZ, the Board amended the resolution to permit an illuminated non-flashing sign on the Linden Boulevard front of Building B substantially as shown on revised drawings dated June 14, 1961, one (1) sheet, on condition that other than as amended the resolution be complied with in all respects; and

WHEREAS, on May 27, 1980, under BSA Cal. No. 215-50-BZ, the Board reopened and amended the resolution to grant an extension of term for ten (10) years, expiring October 14, 1990, and required that other than as amended the resolution be complied with in all respects, and a new certificate of occupancy be obtained within one (1) year, by May 27, 1981; and

WHEREAS, on June 18, 1991, under BSA Cal. No. 288-90-BZ, the Board granted an extension of the term of the variance for the use of retail stores (UG 6) and the enlargement of the Cleveland Building which increases the degree of non-conformance on condition that all work substantially conform to drawings filed with the application; the special permit be limited to a term of ten (10) years, expiring June 18, 2001; all landscaping be in accordance with BSA approved plans and be maintained and replaced as necessary; all lighting be directed down and away from adjoining residences; all signs comply with C1 district regulations; the parking area be locked after business hours; the conditions appear on the certificate of occupancy; the development, as approved, be subject to verification by the Department of Buildings for compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under the jurisdiction of the Department; and substantial construction be completed within four (4) years; and

WHEREAS, the previous term having expired more than ten (10) years ago, the applicant seeks a reinstatement of the variance in accordance with ZR § 11-411 and Board Rule of Practice and Procedure § 1-05 *et seq.*; and

WHEREAS, in addition, the applicant seeks a waiver, pursuant to Board Rule of Practice and Procedure § 1-14.2, of Board Rule of Practice and Procedure § 1-07.3(b)(4)(i) to permit the filing of this application more than ten (10) years after the expiration of the most recent term; and

WHEREAS, pursuant to Board Rule of Practice and Procedure § 1-07.3(b)(4)(i), the applicant has demonstrated, with utility bills, leases, and directory listings for the subject site, that the use of both buildings has been continuous at the site since the expiration of the term on June 18, 2001, without a period of discontinuance for more than two (2) years; and

WHEREAS, over the course of the hearings, the Board raised concerns regarding the payment of Department of Buildings violations fines, the removal of a corrugated metal wall and restoration of the building material thereunder, and the relocation of improperly located vents which protrude over the sidewalk;

WHEREAS, in response, the applicant submitted proof of payment for the violations, and agreed to remove the corrugated metal located on Ashford Street, to paint the masonry material thereunder to match the color of the adjoining brick wall, and, if it is not masonry, to enclose the wall with exterior finish material that meets all code specifications for exterior fire-rated material/finish that is not of exterior insulation and finish system type, and to relocate the vents within the property line; and

WHEREAS, the applicant also seeks an amendment to the variance, first issued under BSA Cal. No. 215-50-BZ, as amended through BSA Cal. No. 288-90-BZ, to permit the enlargement of one (1) of the existing buildings, located on 2228 Linden Boulevard, Tax Lot 1, the Ashford Building; and

WHEREAS, pursuant to ZR § 11-412, the Board may permit the enlargement of a pre-existing non-conforming use, provided that it does not exceed 50 percent of the floor area of such building occupied by the use prior to December 15, 1961; and

WHEREAS, the applicant submitted evidence that, pursuant to the pre-1961 grants, the Cleveland Building contained 4,000 square feet of floor area, and the Ashford Building contained 4,697 square feet of floor area, thus, the Board has the authority, pursuant to ZR § 11-412, to permit the requested legalization of an additional 668 square feet of floor area in the Ashford Building (a 14 percent enlargement) because it constitutes less than 50 percent of the floor area of the building occupied by the subject use prior to December 15, 1961; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18-BSA-095K, dated February 8, 2018; and

WHEREAS, the Board finds that the reinstatement of the variance and amendment to permit enlargement of the building is appropriate with certain conditions set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals *waives* Rule § 1-07.3(b)(4)(i) of its Rules of Practice and Procedure, *reinstates* and *amends* the resolution, issued January 16, 1951, under BSA. Cal. No. 215-50-BZ, as amended through June 18, 1991, under BSA Cal. No. 288-90-BZ, so that as amended, this portion of the resolution reads: “to permit the 668 square foot enlargement of the Ashford Building, *on condition* that the use and operation of the site shall conform to drawings filed with this application marked ‘Received December 10, 2018’– Three (3) sheets; and *on further condition*:

THAT the Ashford Building shall have a maximum floor area of 5,365 square feet;

THAT prior to the issuance of the resolution, the corrugated metal on the extension on Ashford Street shall be removed and the masonry material underneath shall be

MINUTES

painted to match the color of the adjoining brick wall, and, if it is not masonry, the wall shall be enclosed with an exterior fire-rated finish/material that meets Building Code and is not exterior insulation and finish system, and vents protruding over the public sidewalk shall be relocated within the property prior to this resolution taking effect;

THAT all fencing shall include privacy stats;

THAT the gate along Cleveland Avenue shall be replaced with a permanent fence so as to prevent access to the property from Cleveland Avenue;

THAT the area behind the building shall be used as parking with access from Linden Boulevard only;

THAT one (1) street tree shall be installed on Cleveland Avenue, opposite from the entrance to the parking lot, to prevent access to the lot from Cleveland Avenue;

THAT the curb cut on Ashford Street shall be removed;

THAT all landscaping shall be in accordance with BSA approved plans and shall be maintained and replaced as necessary;

THAT all lighting shall be directed down and away from adjoining residences;

THAT all signs shall comply with the C1 district regulations;

THAT the parking area shall be locked after business hours;

THAT the above conditions appear on the certificate of occupancy;

THAT a certificate of occupancy indicating this approval and calendar number (“BSA Cal. No. 2018-18-BZ”) shall be obtained within one (1) year, by December 11, 2019;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, December 11, 2018.

2018-54-BZ

CEQR #18-BSA-124X

APPLICANT – Sheldon Lobel, P.C., for Dagny Enterprises LLC, owner; Civic Builders, Inc., lessee.

SUBJECT – Application April 16, 2018 – Special Permit (§73-19) to permit the construction of a charter school (UG 3) (Classical Charter School) contrary to ZR §32-10. C8-3 zoning district.

PREMISES AFFECTED – 761 Sheridan Avenue/757 Concourse Village West, Block 2458, Lot 124, Borough of Bronx.

COMMUNITY BOARD #4BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

The **RESOLUTION** –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated July 18, 2018, acting on New Building Application No. 220631608, reads in pertinent part:

“The proposed Use Group 3 School is not permitted within a C8-3 Zoning district, contrary to ZR 32-10 and therefore requires a special permit from the Board of Standards and Appeals pursuant to ZR 73-19”; and

WHEREAS, this is an application under ZR §§ 73-19 and 73-03 to permit, in a C8-3 zoning district, the operation of a school, contrary to ZR § 32-10; and

WHEREAS, this application has been filed on behalf of South Bronx Classical Charter School IV (the “School”), a public school; and

WHEREAS, a public hearing was held on this application on October 23, 2018, after due notice by publication in *The City Record*, with a continued hearing on December 11, 2018, and then to decision on the same date; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 4, Bronx, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of Concourse Village West, in a C8-3 zoning district, in the Bronx; and

WHEREAS, the subject site has approximately 179 feet of frontage along Concourse Village West, 127 feet of depth, 22,026 square feet of lot area and is occupied by a parking lot; and

WHEREAS, ZR § 73-19 provides:

MINUTES

In C8 or M1 Districts, the Board of Standards and Appeals may permit *schools* which have no *residential* accommodations except *accessory* accommodations for a caretaker, provided that the following findings are made:

- (a) that within the neighborhood to be served by the proposed *school* there is no practical possibility of obtaining a site of adequate size located in a district wherein it is permitted as of right, because appropriate sites in such districts are occupied by substantial improvements;
- (b) that such *school* is located not more than 400 feet from the boundary of a district wherein such *school* is permitted as-of-right;
- (c) that an adequate separation from noise, traffic and other adverse effects of the surrounding *non-Residential Districts* is achieved through the use of sound-attenuating exterior wall and window construction or by the provision of adequate open areas along *lot lines* of the *zoning lot*; and
- (d) that the movement of traffic through the *street* on which the *school* is located can be controlled so as to protect children going to and from the *school*. The Board shall refer the application to the Department of Traffic for its report with respect to vehicular hazards to the safety of children within the block and in the immediate vicinity of the proposed site.

The Board may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in

which the subject special permit is available; and

WHEREAS, as to the threshold issue of whether the School qualifies as a school for purposes of ZR § 73-19, the applicant states that the School meets the ZR § 12-10 definition of “school” because it provides full-time day instruction and a course of study that meets the requirements of Sections 3204, 3205 and 3210 of the New York State Education Law; and

WHEREAS, further, the applicant submitted a copy of the School’s application to the New York State Board of Regents, which approved the School’s application by letter dated August 15, 2017; and

WHEREAS, with respect to ZR § 73-19(a), an applicant must demonstrate its inability to obtain a site for the development of a school within the neighborhood to be served, and with a size sufficient to meet the programmatic needs of the school, within a district where the school is permitted as of right; and

WHEREAS, the applicant provided an assessment of the School’s programmatic needs, indicating that the School needs approximately 52,000 square feet of floor area; and

WHEREAS, accordingly, the applicant has demonstrated that its stated requirements related to size and configuration are justified by its programmatic needs; and

WHEREAS, the applicant submitted a report of its search for appropriate sites where the School would be permitted as of right (the “Site Search Report”); and

WHEREAS, the Site Search Report demonstrates that the applicant searched for an appropriate site for approximately one (1) year, taking into consideration the following criteria: affordability; providing an existing, standalone building of suitable size that could be renovated straightforwardly to provide adequate school facilities; and location close to transportation; and

WHEREAS, the Site Search Report indicates that the School considered the following locations: 352 East 149th Street (existing building would not be affordable); 2948 Third Avenue (existing building surrounded by retail uses not available to rent for school use); 2883 Third Avenue (space would not be available for the School’s exclusive use); 2887 Third Avenue (oddly configured and not suitable for a school building); 1980 Jerome Avenue (not affordable); 1311 Webster Avenue (located too near one of the School’s other locations), 1417 Webster Avenue (located too near one of the School’s other locations) and 1070 Southern Boulevard (incapable of being developed in a timely manner); and

WHEREAS, accordingly, the applicant maintains that the site search establishes that there is no practical possibility of obtaining a site of adequate size in a nearby zoning district where a school would be permitted as of right; and

WHEREAS, accordingly, the Board finds that the

MINUTES

requirements of ZR § 73-19(a) are met; and

WHEREAS, § 73-19(b) requires an applicant to demonstrate that the proposed school is located no more than 400 feet from the boundary of a district in which such a school is permitted as of right; and

WHEREAS, the applicant states that the subject site is located approximately 30 feet from an R8 zoning district to the east and 50 feet from an R8 zoning district to the west; and

WHEREAS, the applicant submitted a radius diagram that reflects that the subject site is within 400 feet of a residential zoning district; and

WHEREAS, accordingly, the Board finds that the requirements of ZR § 73-19(b) are met; and

WHEREAS, ZR § 73-19(c) requires an applicant to demonstrate how it will achieve adequate separation from noise, traffic and other adverse effects of the surrounding non-residential district; and

WHEREAS, the applicant states that the noise analysis conducted for this application indicates that the predominant noise source in the surrounding area is vehicular traffic; and

WHEREAS, the applicant states that the proposed building would incorporate a composite window-wall attenuation level of 28 dBA for all building facades through the use of insulated exterior walls and double-paned windows; and

WHEREAS, the Board finds that the conditions surrounding the site and the proposed building's use will adequately separate the proposed school use from noise, traffic and other adverse effects of any of the uses within the surrounding C8-3 zoning district; accordingly, the Board finds that the requirements of ZR § 73-19(c) are met; and

WHEREAS, ZR § 73-19(d) requires an applicant to demonstrate how the movement of traffic through the street on which the school will be located can be controlled so as to protect children traveling to and from the school; and

WHEREAS, the applicant states that the School would serve approximately 491 students and 46 staff members; and

WHEREAS, the applicant states that the transportation analysis conducted for this application indicates that approximately 55 percent of students in kindergarten through fourth grade and 25 percent of students in fifth through seventh grade would arrive by school bus, that approximately 30 percent of students in kindergarten through fourth grade, approximately 60 percent of students in fifth through seventh grade and 85 percent of students in eighth grade would arrive by public transportation or walking and that approximately 15 percent of students would arrive by private automobile—resulting in 9 projected staff vehicular trips and 69 projected vehicular trips (54 private-automobile and 15 school bus) for students; and

WHEREAS, the applicant states that a “no standing” zone with a width of 100 feet is proposed in front of the

subject site along of Concourse Village West for private automobiles to drop off and pick up students; and

WHEREAS, the applicant states that approximately 193 students would arrive and depart via six school buses; and

WHEREAS, the applicant states that a “no standing” zone with a width of 100 feet is proposed on the east side of Concourse Village West for school buses to drop off and pick up students; and

WHEREAS, the applicant states that the School would employ the following protocol with respect to arrivals and dismissals: the dean of students would greet students, buses and caregivers in mornings and afternoons; students would arrive beginning at 7:15 a.m. and would depart between 4:15 p.m. and 4:45 p.m. with staggered departures by grade level; at dismissal, teachers would escort students to designated areas in the gymnasium or cafeteria; bus attendants would escort students directly to and from school buses; and other staff escorts would take children to the “no standing” zone designated for private-automobile drop-offs and pick-ups, where attendants would be stationed to ensure authorization to release students to caregivers equipped with authorization badges; and

WHEREAS, the applicant states that the School would employ the following protocol with respect to vehicular staging, loading and unloading: a “no standing” zone is proposed on the west side of Concourse Village West in front of the School for private-automobile drop-offs and pick-ups with extended “no standing” hours proposed to be 7:00 a.m. to 5:00 p.m.; and

WHEREAS, the applicant states that the School would employ the following protocol with respect to school buses: the six buses transporting students would be staggered by approximately five minutes with each bus equipped with a wireless communication device to communicate to with on-site operations personnel; operations personnel would monitor logistics relating to school buses; the School would employ bus attendants on each bus to assist with dropping off and picking up students; and a “no standing” zone for school buses is proposed for the east side of Concourse Village West to ensure adequate separation of school buses and private automobiles during arrival and departure times; and

WHEREAS, the applicant states that the School would employ the following protocol with respect to private cars: the School would place an escort along the frontage adjacent to the “no standing” zones during arrival and departures; the escort would direct students dropped off by private car to the main entrance of the School, where the dean of students would be stationed; starting at 4:15 p.m., students would be led from the cafeteria or gymnasium to caregivers provided with authorization badges and electronic communications devices would be used by attendants to communicate with

MINUTES

faculty to request that a student be escorted from the cafeteria or gymnasium to the respective private automobile; and

WHEREAS, with respect to pedestrian safety, the applicant states that none of the nearby intersections qualify as high-crash locations and that safety measures to control the movement of traffic through the street on which the School is located would be implemented to the extent deemed appropriate by the Department of Transportation (“DOT”); and

WHEREAS, the applicant states that the School is well-served by public transportation and near numerous bus lines; and

WHEREAS, the Board referred the application to DOT’s School Safety Engineering Office; and

WHEREAS, by letter dated May 18, 2018, DOT states that the applicant should provide a table showing their multi-modal trip generate estimate, that the applicant should investigate the feasibility of installing a half-curb extension on the southeast corner of Concourse Village West and East 156th Street, on the Concourse Village West frontage, to improve student visibility at that corner and that, upon approval of this application and construction of the School, the School shall notify DOT’s School Safety Office to determine if traffic safety improvements or parking regulation changes are necessary; and

WHEREAS, by memorandum dated December 6, 2018, DOT, as an interested agency in the Board’s CEQR review of this application, makes the following recommendations which the Board hereby incorporates as conditions to this approval: in order to determine traffic and pedestrian conditions and recommend improvement measures before the School opens, the applicant shall perform traffic and pedestrian level of service (“LOS”) analyses up to four intersection as well as at pedestrian elements (i.e., sidewalks, crosswalks and corners) in the vicinity of the subject site to determine whether traffic generated by the project, compared to the No Action condition, results in potential traffic and pedestrian impacts based on CEQR criteria—and to provide improvement measures if warranted, which may include conversion from stop control to signalization up to four intersections or other improvement measures; the applicant shall submit for DOT review and approval a scope of work for the traffic study including travel demand assumptions based on the survey of the existing school and projected full occupancy of the new school, locations to be studied for traffic and pedestrian LOS and data collection (including 24-Hour Automatic Traffic Recorder counts, manual turning movement, vehicular classification and pedestrian counts including sidewalks and, at uncontrolled and mid-block crossings, intersection geometry including the verification of field signal timing and field observations including queue

lengths); the applicant shall submit a completed traffic study to DOT at least three (3) months prior to the opening of the School; and, when DOT approves the required studies and subsequent improvement measures, DOT will inform the Board that the conditions outlined in DOT’s memorandum, dated December 6, 2018, are complete; and

WHEREAS, the Board finds that the abovementioned measures will control traffic so as to protect children going to and from the proposed school; and

WHEREAS, accordingly, the Board finds that the requirements of ZR § 73-19(d) are met; and

WHEREAS, in response to questions from the Board regarding exterior building materials, the applicant submits that the proposed building would employ fiber cement cladding, an aluminum curtain wall, a precast trellis, precast columns, aluminum storefront windows and window trim to enhance the neighborhood’s built environment; and

WHEREAS, in response to the Board’s questions at hearing, the applicant provided further detail regarding the School’s search for an appropriate site in an as-of-right zoning district and the protocols the School would implement with respect to arrivals and departures; and

WHEREAS, in response to questions from the Board regarding whether caretakers would leave cars unattended in the “no standing” zone, the applicant clarified the above protocol to indicate that, upon arrival of a caretaker and display of said caretaker’s authorization badge, an attendant would communicate by electronic communications device to the cafeteria or gymnasium for the appropriate student to be escorted to the caretaker’s private automobile without needing the caretaker to exit the vehicle; and

WHEREAS, the applicant further states that the attendant would use a monitoring sheet to track students being picked up; and

WHEREAS, the applicant represents that the proposed building complies with all bulk regulations applicable in a C8-3 zoning district; however, the Board notes that it has not reviewed compliance with applicable bulk regulations, so the DOB must ensure that the proposed building complies in all respects with the bulk regulations of the Zoning Resolution; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has

MINUTES

documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 18BSA124X, dated December 10, 2018; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, by correspondence dated January 29, 2018, the Landmarks Preservation Commission (“LPC”) states that the subject site is directly adjacent to the State or National Register of Historic Places listed and LPC designated Grand Concourse Historic District and that a construction protection plan for the adjacent building (Block 2458, Lot 80) is required and shall be submitted to LPC for review and comment prior to the start of construction; and

WHEREAS, by letter dated August 24, 2018, the Department of Environmental Protection (“DEP”) states that it finds the July 2018 Remedial Action Plan and Construction Health and Safety Plan is acceptable with the following conditions: the applicant shall include an accident and injury report form in the CHASP; the applicant shall include the names and phone numbers of the site safety personnel (i.e., Project Manager, Site Supervisor, Site Health and Safety Officer and Alternate Site Health and Safety Officer) in the CHASP; and, at the completion of the project, a professional engineer-certified Remedial Closure Report shall be submitted to DEP for review and approval for the proposed project, which shall indicate that all remedial requirements have been properly implemented (i.e., installation of vapor barrier and sub-slab depressurization system (“SSDS”), transportation and disposal manifests for removal and disposal of soil in accordance with New York State Department of Environmental Conservation regulations and two feet of DEP-approved certified clean fill and top soil capping requirement in any landscaped or grass-covered areas not capped with concrete or asphalt, etc.); and

WHEREAS, revised Remedial Action Plan and Construction Health and Safety Plan were received on December 7, 2018 addressing DEP’s conditions; and

WHEREAS, by memorandum dated December 6, 2018, DOT, as an interested agency in the Board’s CEQR review of this application, makes the following recommendations which the Board hereby incorporates as conditions to this approval: in order to determine traffic and pedestrian conditions and recommend improvement measures before the School opens, the applicant shall perform traffic and pedestrian level of service (“LOS”)

analyses up to four intersection as well as at pedestrian elements (i.e., sidewalks, crosswalks and corners) in the vicinity of the subject site to determine whether traffic generated by the project, compared to the No Action condition, results in potential traffic and pedestrian impacts based on CEQR criteria—and to provide improvement measures if warranted, which may include conversion from stop control to signalization up to four intersections or other improvement measures; the applicant shall submit for DOT review and approval a scope of work for the traffic study including travel demand assumptions based on the survey of the existing travel school and projected full occupancy of the new school, locations to be studied for traffic and pedestrian LOS and data collection (including 24-Hour Automatic Traffic Recorder counts, manual turning movement, vehicular classification and pedestrian counts including sidewalks and, at uncontrolled and mid-block crossings, intersection geometry including the verification of field signal timing and field observations including queue lengths); the applicant shall submit a completed traffic study to DOT at least three (3) months prior to the opening of the School; and, when DOT approves the required studies and subsequent improvement measures, DOT will inform the Board that the conditions outlined in DOT’s memorandum, dated December 6, 2018, are complete; and

WHEREAS, by letter dated December 11, 2018, DEP states that, with the proposed restriction on the location of HVAC stacks to the area bounded by 35 feet from the rear lot line, 42 feet from the southern lot line, 32 feet from the northern lot line and the lot line fronting on Concourse Village West, the proposed project would not result in significant air quality impacts; and

WHEREAS, by letter dated December 11, 2018, DEP further states that, with the proposed installation of closed windows with minimum noise attenuation of 28 dBA (requiring an alternate means of ventilation), the proposed project would not result in significant noise impacts; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-19 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended,

MINUTES

and makes each and every one of the required findings under ZR §§ 73-19 and 73-03 to *permit*, in a C8-3 zoning district, the operation of a school, contrary to ZR § 32-10; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked “Received “December 11, 2018”-Ten (10) sheets; and *on further condition*:

THAT the building shall incorporate a composite window-wall attenuation level of 28 dBA for all building facades;

THAT the location of HVAC stacks shall be restricted to the area bounded by 35 feet from the rear lot line, 42 feet from the southern lot line, 32 feet from the northern lot line and the lot line fronting on Concourse Village West;

THAT a restrictive declaration covering the Department of Transportation’s conditions of approval shall be recorded against the subject site prior to the issuance of the Board’s resolution;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number (“BSA Cal No 2018-54-BZ”), shall be obtained within four (4) years, by December 11, 2022;

THAT because the subject site is directly adjacent to the State or National Register of Historic Places listed and Landmarks Preservation Commission (“LPC”) designated Grand Concourse Historic District, a construction protection plan for the adjacent building (Block 2458, Lot 80) is required and shall be submitted to LPC for review and comment prior to the start of construction;

THAT in order to determine traffic and pedestrian conditions and recommend improvement measures before the School opens, the applicant shall perform traffic and pedestrian level of service (“LOS”) analyses up to four intersection as well as at pedestrian elements (i.e., sidewalks, crosswalks and corners) in the vicinity of the subject site to determine whether traffic generated by the project, compared to the No Action condition, results in potential traffic and pedestrian impacts based on CEQR criteria—and to provide improvement measures if warranted, which may include conversion from stop control to signalization up to four intersections or other improvement measures; the applicant shall submit for Department of Transportation (“DOT”) review and approval a scope of work for the traffic study including travel demand assumptions based on the survey of the existing school and projected full occupancy of the new school, locations to be studied for traffic and pedestrian LOS and data collection (including 24-Hour Automatic Traffic Recorder counts, manual turning movement, vehicular classification and pedestrian counts including sidewalks and, at uncontrolled and mid-block crossings, intersection geometry including the verification of

field signal timing and field observations including queue lengths); the applicant shall submit a completed traffic study to DOT at least three (3) months prior to the opening of the School; and, when DOT approves the required studies and subsequent improvement measures, DOT will inform the Board that the conditions outlined in DOT’s memorandum, dated December 6, 2018, are complete;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, December 11, 2018.

THE RESOLUTION –

WHEREAS, the decision on behalf of the Borough Commissioner, dated October 3, 2017, acting on Department of Buildings (“DOB”) Application No. 102935512, reads in pertinent part:

ZR 32-00 & ZR 73-36 – Proposed physical establishment is not permitted ‘as of right’ as per ZR 73-36. Provide BSA approval; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, on a site located in a C6-4 zoning district, a physical culture establishment (“PCE”) on portions of the fourth, fifth, and sixth floors of an existing six- (6) story plus cellar commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on December 11, 2018, after due notice by publication in *The City Record*, and then to decision on that same date; and

WHEREAS, Vice-Chair Chanda performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 5, Manhattan, waived its recommendation of this application; and

WHEREAS, the subject site is located on the north side of West 32nd Street, between Broadway and Fifth Avenue, in a C6-4 zoning district, in Manhattan; and

WHEREAS, the site has approximately 48 feet of frontage, 99 feet of depth, 4,691 square feet of lot area, and is occupied by a six- (6) story plus cellar commercial building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since December 4, 2001, when, under BSA Cal. No. 148-01-BZ, the Board issued a special permit to permit the operation of a PCE (Use Group 9) located on the fourth and fifth floors of a six- (6) story building, on condition that all work substantially conform to plans filed with the application; there be no change in ownership or operating control of the PCE without prior application to and approval from the Board; fire protection measures, including a fire alarm system and a smoke detection system with both systems connected to a Fire Department-approved central station, be provided and maintained in accordance with the BSA-approved plans; the special permit be limited to a term of ten (10) years from the date of the grant; the above conditions appear on the certificate of occupancy; the development, as approved, be subject to verification by the DOB for compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under the jurisdiction of the Department; and substantial construction be completed in four (4) years; and

WHEREAS, by letter dated July 21, 2006, in response to a request by the applicant to amend the grant, the Board confirmed that the elimination of the fourth floor from the PCE does not affect the BSA-approved plans and had no objection to the removal of the fourth floor from the proposed plans for the PCE on condition that the DOB ensure compliance with all other applicable provisions of the Zoning Resolution, Building Code, or any other relevant law; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use 1* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts,

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

- tennis courts; or
- (ii) a swimming pool of a minimum 1,500 square feet; or
- (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
- (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, the Board notes that, because no portion of the subject PCE is represented as being located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy

and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant represents that the subject PCE occupies 10,154 square feet of floor area with 4,216 square feet of floor space on the fourth floor with a reception and waiting area, treatment rooms, saunas, steam rooms, scrubbing rooms, locker room, bathrooms, mechanical room, and utility room; 4,216 square feet of floor area on the fifth floor with a reception area, lounge and rest area, café, treatment rooms, scrub room, steam rooms, hot and cold tubs, saunas, lockers, mechanical room and utility room; and, 1,723 square feet of floor area on the sixth floor with massage rooms, scrub rooms, a shower room, and bathrooms; and

WHEREAS, the applicant submits that the PCE operates as “Juvenex Spa,” operating 24 hours per day, seven (7) days per week; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area by keeping with the commercial character of the neighborhood, draws a majority of its clientele from the immediate vicinity, and is well served by public transportation;

WHEREAS, the Board notes that the subject PCE continued to operate after the expiration of the prior special permit on December 4, 2011, and that no complaints regarding its operation during that time have been submitted into the record on this application; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant represents that the PCE will contain facilities for the practice of massage; and

WHEREAS, accordingly, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant submits that an approved fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, and a connection of the interior fire alarm system to an FDNY-approved central station—will be installed within the PCE space which is already protected by a wet sprinkler system; and

WHEREAS, by letter dated December 8, 2018, the Fire Department confirms that the premises is protected with a fire alarm and fire suppression systems, consisting of

MINUTES

standpipe and sprinkler protection, and those systems have current permits; and, the Fire Department has no objection to the application; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood on account of its location in an existing commercial building with no residential uses within; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, at the hearing, the Board expressed concern regarding whether the PCE massage therapists had current licenses to practice massage therapy; and

WHEREAS, in response, the applicant submitted current certificates evidencing licenses to practice massage therapy, esthetics, cosmetology; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 18-BSA-053M, dated November 2, 2017; and

WHEREAS, based upon its review of the record, the Board finds that the requested special permit, legalizing the PCE space on the fourth, fifth, and sixth floors, is appropriate, with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to legalize, on a site located in a C6-4 zoning district, a physical culture establishment on a portion of the fourth, fifth and sixth floors of an existing six- (6) story plus cellar commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “October 20, 2017”–Seven (7) sheets; and *on further condition*:

THAT the term of the PCE grant shall expire on December 11, 2028;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT all services provided by the PCE to which New York State licensure is required shall be performed by individuals licensed to perform such service;

THAT accessibility compliance under Local Law 58/87 shall be as reviewed and approved by DOB;

THAT the sprinkler system shall be maintained as

indicated on the Board-approved plans;

THAT an approved fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and a connection to an FDNY-approved central station—shall be maintained within the PCE space;

THAT minimum 3-foot-wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy indicating this approval and calendar number (“BSA Cal. No. 2017-293-BZ”) shall be obtained within four (4) years, by December 11, 2022;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, December 11, 2018.

THE RESOLUTION –

WHEREAS, the decision of the Borough Commissioner dated, August 20, 2018, acting on Department of Buildings (“DOB”) Application No. 123376872, reads in pertinent part:

Proposed yoga studio with showers is considered a Physical Culture Establishment which is not [. . .] permitted as-of-right per ZR 32-31. Secure BSA’s approval per ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, on a site located in a C6-4A zoning district and in Ladies’ Mile Historic District, a physical culture establishment (“PCE”) on a portion of the first floor of an existing 12-story plus cellar mixed-use residential and commercial building, contrary to ZR §§ 32-10; and

WHEREAS, a public hearing was held on this application on December 11, 2018, after due notice by publication in *The City Record*, and then to decision on that same date; and

WHEREAS, Community Board 5, Manhattan, waived its recommendation of this application; and

WHEREAS, the subject site is located on the south side of West 18th Street, between Avenue of the Americas and Fifth Avenue, in a C6-4A zoning district and Ladies’ Mile Historic District, in Manhattan; and

WHEREAS, the site has approximately 75 feet of frontage, 92 feet of depth, 6,900 square feet of lot area, and is occupied by a 12-story plus cellar mixed-use residential and commercial building;

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or

health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use 1* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, the Board notes that, because no portion of the subject PCE is represented as being located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made; and

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant submitted evidence that the proposed PCE will occupy 2,800 square feet of floor area on the first floor with a two (2) yoga studios, men's and women's changing rooms with showers and bathrooms, a lobby and a utility room; and

WHEREAS, the applicant represents that the proposed PCE will operate as "CorePower Yoga" with the following hours of operation: Monday through Friday, 5:30 a.m. to 9:00 p.m.; and, Saturday and Sunday, 8:00 a.m. to 6:30 p.m.; and

WHEREAS, the applicant states that, while it is not anticipated to create adverse noise impacts within the building or surrounding area, only light hand-weights, and no heavy weights or other equipment, will be utilized, and the PCE will employ a sound limiter on its sound system; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because the PCE use is compatible with the essential commercial character of the neighborhood, which is well served by public transportation, and expects to draw its patronage from the local residents and workforce; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant represents that the PCE will contain facilities for the provision physical improvement utilizing yoga classes; and

WHEREAS, accordingly, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and

issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, by letter dated December 8, 2018, the Fire Department has no objection to the application and confirms that the premises is protected by a fire suppression system, consisting of a combination standpipe and sprinkler, and the permit for such system is current; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood on account of its location on ground floor of an existing building and does not anticipate the PCE to create any adverse impacts on vehicular or pedestrian traffic; and

WHEREAS, on July 3, 2018, the New York City Landmarks Preservation Commission permitted alterations to the subject site, under Certificate of No Effect permit CNE-19-27886, and determined that the work, consisting of interior alterations at the cellar level and first floor, including the demolition and construction of nonbearing partitions and finishes, as well as mechanical, plumbing and electrical work, will have no effect on the significant protected features of the building; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 19-BSA-034M, dated September 18, 2018; and

WHEREAS, based upon its review of the record, the Board finds that the requested special permit, permitting the PCE space on the first floor, is appropriate, with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located in a C6-4A zoning district and Ladies' Mile Historic District, a physical culture establishment on a portion of the first floor of an existing 12-story plus cellar mixed-use commercial and residential building, contrary to ZR §§ 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "September 12, 2018"– Six (6) sheets; and *on further condition*:

THAT the term of the PCE grant shall expire on

MINUTES

December 11, 2028;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance under Local Law 58/87 shall be as reviewed and approved by DOB;

THAT the sprinkler system shall be maintained as indicated on the Board-approved plans;

THAT minimum 3-foot-wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy indicating this approval and calendar number (“BSA Cal. No. 2018-148-BZ”) shall be obtained within four (4) years, by December 1, 2022;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated February 15, 2018, acting on Alteration Application No. 320910948, reads in pertinent part:

1. Proposed plans are contrary to ZR 23-141 in that the proposed floor area ratio (FAR) exceeds the permitted
2. Proposed plans are contrary to ZR 23-141 in that the proposed open space ratio (OSR) is less than the required
3. Proposed plans are contrary to ZR 23-461(A) in that the proposed side yards are less than the required
4. Proposed plans are contrary to ZR 23-47 in that the proposed rear yard is less than [required]; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03 to permit, in an R2 zoning district, the enlargement of an existing single-family detached residence that does not comply with zoning regulations for floor area, open space ratio, side yards and rear yards, contrary to ZR §§ 23-141, 23-461 and 23-47; and

WHEREAS, a public hearing was held on this application on June 26, 2018, after due notice by publication in *The City Record*, with continued hearing on August 14,

2018, and then to decision on the same date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of East 29th Street, between Avenue L and Avenue M, in an R2 zoning district, in Brooklyn; and

WHEREAS, the subject site has approximately 30 feet of frontage along East 29th Street, 100 feet of depth, 3,000 square feet of lot area and is occupied by an existing single-family detached residence; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single- or two-family detached* or *semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area

MINUTES

between the building that is being enlarged and the side lot line;

- (2) any enlargement that is located in a rear yard is not located within 20 feet of the rear lot line; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins. Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, inter alia, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge an existing detached single-family residence, as contemplated in ZR § 73-622; and

WHEREAS, the applicant proposes to enlarge the existing residence from 2,117 square feet of floor area (0.71 FAR) to 2,776 square feet of floor area (0.93 FAR), decrease the open space ratio from 0.90 to 0.59, maintain side yards with a depth of 3'-8" to the north and with a depth of 6'-4" to the south and decrease the depth of the rear yard from 30 feet to 20 feet at the first and second floor; and

WHEREAS, the applicant states that, at the subject site, floor area may not exceed 1,500 square feet under ZR § 23-141, the open space ratio must be at least 1.50, side yards must have minimum depths of 8 feet and 5 feet under ZR § 23-461 and the rear yard must have a minimum depth of 30 feet under ZR § 23-47; and

WHEREAS, the applicant represents that the proposed building as enlarged is consistent with the built character of

the neighborhood; and

WHEREAS, in support of this contention, the applicant surveyed single- and two-family residences in the surrounding area, finding that there are 17 residences with 0.90 FAR or greater and that 14 residences have rear yards with depths of 25 feet or less; and

WHEREAS, the applicant also submits that, on the subject block, an adjacent residence also has a rear yard with a depth of 20 feet at the first and second floor; and

WHEREAS, the applicant also submitted a rear yard study, lot coverage diagram, photographic streetscape montage and a photographic neighborhood study demonstrating that the proposed building will fit in with the building conditions of the surrounding area; and

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, the Board finds that the proposed building as enlarged will not alter the essential character of the neighborhood or district in which the subject building is located, nor impair the future use or development of the surrounding area; and

WHEREAS, in response to questions from the Board at hearing about the effect of the enlarged building on residences nearby, the applicant removed the proposed enlargement of the attic and revised the slope of the proposed building's roof; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of bulk regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18BSA112K, dated March 19, 2018; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73 622 and 73 03 to permit, in an R2 zoning district, the enlargement of an existing single-family detached residence that does not comply with zoning regulations for floor area, open space ratio, side

MINUTES

yards and rear yards, contrary to ZR §§ 23-141, 23-461 and 23-47; *on condition* that all work and site conditions shall conform to drawings filed with this application marked “Received July 24, 2018”-thirteen (13) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: floor area shall be limited to 2,776 square feet (0.93 FAR), the open space ratio shall be at least 0.59, side yards shall have a minimum depth of 3’-8” to the north and a minimum depth of 6’-4” to the south and the rear yard shall have a minimum depth of 20 feet at the first and second floor, as illustrated on the Board-approved drawings;

THAT removal of existing joists or perimeter walls in excess of that shown on the Board-approved drawings shall void the special permit;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by August 14, 2022;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 14, 2018.

***The resolution has been Amended. Corrected in Bulletin No. 51, Vol. 103, dated December 21, 2018.**
