M1-1/R5 zoning district.

PREMISES AFFECTED – 56-02/56-20 Broadway, south east corner of 56<sup>th</sup> Street, Block 1195, Lot 44, Borough of Queens.

**COMMUNITY BOARD #2Q**

APPEARANCES –

For Applicant: Omair Khanzada.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

**THE RESOLUTION** –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, an extension of term, and an extension of time to obtain a certificate of occupancy for a previously granted variance for a gasoline service station; and

WHEREAS, a public hearing was held on this application on November 15, 2011 after due notice by publication in *The City Record*, with a continued hearing on December 13, 2011, and then to decision on January 10, 2012; and

WHEREAS, Community Board 2, Queens, recommends disapproval of this application; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, the site is located on the south side of Broadway between 56<sup>th</sup> Street and 57<sup>th</sup> Street, partially within an M1-1 zoning district and partially within an R5 zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 16, 1946 when, under the subject calendar number, the Board granted a variance to permit the

site to be occupied by a gasoline service station for a term of ten years; and

WHEREAS, subsequently, the grant has been amended and the term extended by the Board at various times; and

WHEREAS, on May 27, 1998, the Board granted an extension of term for a period of ten years, which expired on July 13, 2006; a condition of the grant was that a certificate of occupancy be obtained by May 27, 1999; and

WHEREAS, subsequently, the Board granted several extensions of time to obtain a certificate of occupancy; most recently, on February 4, 2003, the Board granted a two-year extension of time to obtain a certificate of occupancy, to expire on February 4, 2005; and

WHEREAS, the applicant states that a new certificate of occupancy has not been obtained due to internal operating changes at Getty; and

WHEREAS, the applicant now seeks an additional ten-year extension of term and an extension of time to obtain a certificate of occupancy; and

WHEREAS, pursuant to ZR § 11-411, the Board may permit an extension of term; and

WHEREAS, at hearing, the Board raised concerns about the open Fire Department violations issued in 2007 and 2008 for failure to conduct a test for the newly installed fire suppression system, the layout of on-site parking and the parking of cars on the sidewalk, and compliance with C1 district signage regulations; and

WHEREAS, in response, the applicant submitted (1) a letter from the Fire Department stating that it approved the installation of a fire suppression system at the site on February 19, 2008, (2) affidavits from the owner and operator stating that all on-site parking will be in accordance with the layout approved by the Board and that there will be no parking permitted on the sidewalk, and (3) a sign chart reflecting that the signage on the site complies with C1 district regulations; and

WHEREAS, the applicant also submitted photographs reflecting that, since the Board's last grant, new landscaping has been planted along the 57<sup>th</sup> Street side of the site and the fencing along the 56<sup>th</sup> Street side of the site has been replaced; and

WHEREAS, based upon the above, the Board finds that the requested extension of term and extension of time are appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated July 16, 1946, so that as amended this portion of the resolution shall read: "to extend the term for ten years from July 13, 2006, to expire on July 13, 2016, and to grant a one-year extension of time to obtain a certificate of occupancy, to expire on January 10, 2013; *on condition* that all use and operations shall substantially conform to plans filed with this application marked 'September 26, 2011'-(5) sheets; and *on further condition*:

THAT the term of the grant shall expire on July 13, 2016;

THAT the site shall be maintained free of debris and graffiti;

# MINUTES

THAT there shall be no parking of cars on the sidewalk and all on-site parking shall be in accordance with the BSA-approved plans;

THAT all signage on the site shall comply with C1 district regulations;

THAT the above conditions shall be reflected on the certificate of occupancy;

THAT a new certificate of occupancy shall be obtained by January 10, 2013;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (DOB Application No. 420372340)

Adopted by the Board of Standards and Appeals January 10, 2012.

-----

## 593-69-BZ

APPLICANT – Eric Palatnik, P.C., for Metro New York Dealer Stations, LLC, owner.

SUBJECT – Application May 27, 2011 – Amendment (§11-413) to convert automotive repair bays to an accessory convenience store at an existing gasoline service station (*Shell*). C2-2/R5 zoning district.

PREMISES AFFECTED – 108-01 Atlantic Avenue, Between 108<sup>th</sup> and 109<sup>th</sup> Street. Block 9315, Lot 23, Borough of Queens.

## COMMUNITY BOARD #9Q

APPEARANCES –

For Applicant: Eric Palatnik.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment to a previously granted variance for an automotive service station with accessory uses, pursuant to ZR § 11-413; and

WHEREAS, a public hearing was held on this application on August 16, 2011 after due notice by publication in *The City Record*, with a continued hearing on September 20, 2011, October 25, 2011 and December 6, 2011, and then to decision on January 10, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 9, Queens, recommends approval of this application; and

WHEREAS, the site is located on a through lot bounded

by 108<sup>th</sup> Street to the west, Atlantic Avenue to the south, and 109<sup>th</sup> Street to the east, within a C2-2 (R5) zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 1, 1949 when, under BSA Cal. No. 866-48-BZ, the Board granted a variance to permit the premises to be occupied by an automotive service station with accessory uses; and

WHEREAS, on February 10, 1970, under the subject calendar, the Board permitted the enlargement of the lot area and the reconstruction of the automotive service station with accessory uses, pursuant to ZR § 11-412; and

WHEREAS, subsequently, the grant was amended by the Board at various times; and

WHEREAS, most recently, on September 26, 1989, the Board granted an amendment to permit a change in the design of the accessory building and the canopy; and

WHEREAS, the applicant now seeks an amendment to permit the conversion of the accessory automotive repair bays on the site to an accessory convenience store; and

WHEREAS, at hearing, the Board directed the applicant to establish that the proposed accessory convenience store complies with Technical Policy and Procedure Notice (TPPN) # 10/99; and

WHEREAS, the Board notes that TPPN # 10/99 provides that a retail convenience store located on the same zoning lot as a gasoline service station will be deemed accessory if: (i) the accessory convenience store is contained within a completely enclosed building; and (ii) the accessory convenience store has a maximum retail selling space of 2,500 square feet or 25 percent of the zoning lot area, whichever is less; and

WHEREAS, the applicant submitted plans reflecting that that the proposed convenience store will be located entirely within the enclosed building, and that it will provide a total of 2,010 sq. ft. of retail selling space, which is less than 2,500 square feet or 25 percent of the zoning lot area; and

WHEREAS, thus, the Board notes that the convenience store meets the criteria set forth in TPPN # 10/99; and

WHEREAS, pursuant to ZR § 11-413, the Board may grant a change in use; and

WHEREAS, based upon its review of the record, the Board finds the requested amendment to the approved plans is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated February 10, 1970, so that as amended this portion of the resolution shall read: “to permit the conversion of the accessory automotive repair bays to an accessory convenience store pursuant to ZR § 11-413; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked “Received December 15, 2011”–(4) sheets; and *on further condition*:

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other

---

jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (DOB Application No. 420343300)

Adopted by the Board of Standards and Appeals January 10, 2012.

## 271-71-BZ

APPLICANT – Sheldon Lobel, P.C., for Plaza 400 Owners Corp., owner

SUBJECT – Application October 11, 2011 – Extension of Term for the continued use of transient parking in a residential apartment building which expired on July 6, 2011; waiver of the rules. R10/C1-5 zoning district.

PREMISES AFFECTED – 400 East 56<sup>th</sup> Street, corner of First Avenue, Block 1367, Lot 1, Borough of Manhattan.

### COMMUNITY BOARD #6M

APPEARANCES –

For Applicant: Jordan Most.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, and an extension of term for a previously granted variance for a transient parking garage, which expired on July 6, 2011; and

WHEREAS, a public hearing was held on this application on December 6, 2011, after due notice by publication in *The City Record*, and then to decision on January 10, 2012; and

WHEREAS, Community Board 6, Manhattan, recommends approval of this application; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the subject premises is located on the east side of First Avenue between East 55<sup>th</sup> Street and East 56<sup>th</sup> Street, partially within an R10 zoning district and partially within a C1-5 (R10) zoning district; and

WHEREAS, the site has approximately 200 feet of frontage on First Avenue, 232 feet of frontage on East 55<sup>th</sup> Street and East 56<sup>th</sup> Street, and a total lot area of approximately 46,795 sq. ft.; and

WHEREAS, the site is occupied by a 39-story residential building; and

WHEREAS, the cellar, sub-cellar and second sub-cellar are occupied as a 301-space accessory parking garage; and

WHEREAS, on July 6, 1971, under the subject calendar

number, the Board granted a variance pursuant to Section 60(3) of the Multiple Dwelling Law to permit a maximum of 95 surplus parking spaces to be used for transient parking, for a term of five years; and

WHEREAS, subsequently, the grant was amended and the term extended at various times; and

WHEREAS, most recently, on April 17, 2001, the Board granted a ten-year extension of term, which expired on July 6, 2011; and

WHEREAS, the applicant now requests an additional extension of the term; and

WHEREAS, the applicant submitted a photograph of the sign posted onsite, which states building residents’ right to recapture the surplus parking spaces; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of term is appropriate with certain conditions set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens*, and *amends* the resolution having been adopted on July 6, 1971, so that, as amended, this portion of the resolution shall read: “to permit the extension of the term of the grant for an additional ten years from July 6, 2011, to expire on July 6, 2021; *on condition:*

THAT this term shall expire on July 6, 2021;

THAT all residential leases shall indicate that the spaces devoted to transient parking can be recaptured by residential tenants on 30 days notice to the owner;

THAT a sign providing the same information about tenant recapture rights be located in a conspicuous place within the garage, permanently affixed to the wall;

THAT the above conditions and all relevant conditions from the prior resolutions shall appear on the certificate of occupancy;

THAT the layout of the parking lot shall be as approved by the Department of Buildings;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (DOB Application No. 102804011)

Adopted by the Board of Standards and Appeals, January 10, 2012.

## 280-98-BZ

APPLICANT – Rampulla Associates Architects, LLP, for MARS Holding, LLC, owner.

SUBJECT – Application November 1, 2011– Extension of Time to obtain a Certificate of Occupancy for a Variance (§72-21) for the continued operation of a UG4 dental office which expired on June 15, 2011. R2 zoning district.

PREMISES AFFECTED – 2936 Hylan Boulevard, east side of Hylan Boulevard, 100’ north of Isabella Avenue, Block 4015, Lot 14, Borough of Staten Island.

### COMMUNITY BOARD #3SI

APPEARANCES –

For Applicant: Stephanie.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5  
Negative:.....0

**THE RESOLUTION** –

WHEREAS, this is an application for an extension of time to obtain a certificate of occupancy, which expired on June 15, 2011; and

WHEREAS, a public hearing was held on this application on December 13, 2011 after due notice by publication in *The City Record*, and then to decision on January 10, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan and Commissioner Hinkson; and

WHEREAS, the site is located on the east side of Hylan Boulevard, 100 feet north of Isabella Avenue, within an R2 zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since February 8, 2000 when, under the subject calendar number, the Board granted a variance to permit the extension of a dentist office use (identified as Use Group 6), formerly operated as a home occupation, into a portion of the building occupied by residential use, in what was then an R3-2 zoning district; the site was rezoned to R2 in 2005; and

WHEREAS, on June 15, 2010, the Board granted an amendment which permitted: (1) the elimination of the term; (2) the removal of the exterior access ramp and installation of an elevator to service the basement and first floor; (3) the modification of the parking layout; (4) the modification of the basement space to eliminate the garage, create a new patient waiting room, reception area and administrative office, and to relocate the employee lounge and redesign the existing bathroom; and (5) the redesign of the first floor to eliminate the waiting room, reception area and records room to be replaced by new patient rooms; and

WHEREAS, a condition of the grant was that a new certificate of occupancy be obtained by June 15, 2011; and

WHEREAS, most recently, on May 9, 2011, the Board issued a letter acknowledging that the owner did not wish to implement the modifications to the site approved under the

June 15, 2010 amendment, and requesting that the Department of Buildings (“DOB”) issue a certificate of occupancy to the applicant based on the plans originally approved by the Board on February 8, 2000; and

WHEREAS, the applicant states that DOB subsequently issued an objection directing the owner to get approval from the Board because the time to obtain a certificate of occupancy has expired; and

WHEREAS, the applicant states that a new certificate of occupancy has not been obtained due to financing issues, and the applicant has not completed the construction approved in association with the prior amendment; and

WHEREAS, accordingly, the applicant requests a 16-month extension of time to obtain a certificate of occupancy; and

WHEREAS, based upon the above, the Board finds that the requested extension of time is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *reopens*, and *amends* the resolution, dated February 8, 2000, so that as amended this portion of the resolution shall read: “to grant an extension of time to obtain a certificate of occupancy for 16 months from the date of this resolution, to expire on May 10, 2013; *on condition* that all use and operations shall substantially conform to plans approved by the Board under the original grant of February 8, 2000, marked “Received October 16, 1998”-(14) sheets and “July 8, 1999”-(1) sheet; and on further condition:

THAT a new certificate of occupancy shall be obtained by May 10, 2013;

THAT the owner shall not commence construction pursuant to the plans approved by the Board on June 15, 2010 (marked “Received May 25, 2010” - (6) sheets) without prior application to and approval from the Board;

THAT all conditions from the prior resolutions not specifically waived by the Board remain in effect;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (DOB Application No. 520027051)

Adopted by the Board of Standards and Appeals January 10, 2012.

## 255-00-BZ

APPLICANT – Sheldon Lobel, P.C., for Full Gospel New York Church, owner.

SUBJECT – Application August 12, 2011 – Amendment to a variance (§72-21) to permit a change of use on the 2nd and 3rd floors of the existing building at the premises from UG4

# MINUTES

house of worship to UG3 school. M1-1/M2-1 zoning district.

PREMISES AFFECTED – 130-30 31<sup>st</sup> Avenue, north side of 31<sup>st</sup> Avenue, between College Point Boulevard and Whitestone Expressway, block 4360, Lot 1, Borough of Queens.

## COMMUNITY BOARD #7Q

### APPEARANCES –

For Applicant: Jordan Most.

**ACTION OF THE BOARD** – Application granted on condition.

### THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

### THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment to a previously granted variance for a house of worship (Use Group 4); and

WHEREAS, a public hearing was held on this application on December 6, 2011 after due notice by publication in *The City Record*, and then to decision on January 10, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 7, Queens, recommends approval of this application; and

WHEREAS, this application was brought on behalf of Full Gospel New York Church (“Full Gospel Church”), a not-for-profit religious entity; and

WHEREAS, the site is located on the north side of 31<sup>st</sup> Avenue, between the Whitestone Expressway service road and College Point Boulevard, partially within an M1-1 zoning district and partially within an M2-1 zoning district; and

WHEREAS, the site has 348 feet of frontage on 31<sup>st</sup> Avenue, a depth of 600 feet, and a total lot area of 208,803 sq. ft.; and

WHEREAS, the subject site is occupied by a nine-story (including penthouse) mixed-use building with a house of worship (Use Group 4) at the cellar level, first floor, fourth floor and penthouse; a school (Use Group 3) at the second and third floors; and commercial offices (Use Group 6) at the fifth through eighth floors; and

WHEREAS, the Board has exercised jurisdiction over the subject site since August 4, 1998 when, under BSA Cal. No. 181-97-BZ, the Board granted a variance to permit the use of the cellar through fourth floor and penthouse of the existing building as a church, community center, and accessory offices; and

WHEREAS, on June 27, 2001, under the subject calendar number, the Board permitted the enlargement of the sanctuary, the construction of an accessory gymnasium, and modifications to the interior partitions; and

WHEREAS, subsequently, on May 23, 2002 and July 18, 2007, respectively, the Board issued letters of substantial compliance approving interior modifications at the site; and

WHEREAS, the applicant now seeks an amendment to legalize the conversion of the second and third floors of the subject building from a house of worship (Use Group 4) to a school (Use Group 3); and

WHEREAS, the applicant states that the school is operated as Promise Christian Academy, which was originally affiliated with Full Gospel Church; and

WHEREAS, the applicant states that the subject building is located on an extremely large zoning lot with the tower portion (where the school is located) being at least 70 feet from the nearest lot line; as a result, the surrounding commercial and storage uses do not have any adverse impacts on the proposed school use; and

WHEREAS, the applicant states that the school has a total of 154 students in pre-kindergarten through eighth grades, with 25 faculty and staff members; and

WHEREAS, the applicant further states that 80 percent of students arrive to the school by car and 20 percent arrive by shuttle vans; no students walk to the school; and

WHEREAS, as to faculty, the applicant states that 75 percent of the school’s faculty arrive by car and 25 percent arrive by public bus; and

WHEREAS, the applicant represents that the zoning lot, with an area of 208,803 sq. ft., has sufficient on-site space to accommodate all traffic generated by staff and students being dropped off/picked up from the school; and

WHEREAS, the applicant states that the subject site has 330 on-site parking spaces, with 131 reserved for the business office uses on the fifth through eighth floors, and 40 spaces along the front portion of the site dedicated exclusively for school use during the week; and

WHEREAS, accordingly, the applicant states that the school will not have any adverse traffic impacts on the surrounding street network; and

WHEREAS, based upon its review of the record, the Board finds the requested amendment to the approved plans is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated June 27, 2001, so that as amended this portion of the resolution shall read: “to permit the conversion of the second and third floors from a house of worship (Use Group 4) to a school (Use Group 3); *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked “Received November 22, 2011”–(9) sheets; and *on further condition*:

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the

## 302-01-BZ

APPLICANT – Deirdre A. Carson, Esq., for Creston Avenue Realty, LLC, owner.

SUBJECT – Application October 12, 2011 – Extension of Time to obtain a Certificate of Occupancy for a variance for the continued use of a parking facility accessory to commercial use which expired on April 23, 2033; waiver of the rules. R8 zoning district.

PREMISES AFFECTED – 2519-2525 Creston Avenue, between East 190<sup>th</sup> and 191<sup>st</sup> Streets, Block 3175, Lot 26, Borough of Bronx.

## COMMUNITY BOARD #7BX

APPEARANCES –

For Applicant: Randell Minor.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening, a waiver of the Rules of Practice and Procedure, and an extension of time to obtain a certificate of occupancy, which expired on April 23, 2003; and

WHEREAS, a public hearing was held on this application on December 6, 2011 after due notice by publication in *The City Record*, and then to decision on January 10, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, the site is located on the southwest corner of Creston Avenue and East 191<sup>st</sup> Street, partially within an R8 zoning district and partially within a C4-4 zoning district; and

WHEREAS, on December 7, 1948, under BSA Cal. No. 861-48-BZ, the Board granted a variance to permit the site to be used for the parking of more than five motor vehicles, for a term of two years; and

WHEREAS, subsequently, the grant was amended and the term extended at various times, until its expiration on January 10, 1988; and

WHEREAS, on April 23, 2002, under the subject calendar number, the Board reestablished the expired variance pursuant to ZR § 11-411, to permit an accessory parking facility for commercial use at the site, for a term of ten years; a condition of the grant was that a new certificate of occupancy be obtained by April 23, 2003; and

WHEREAS, the applicant states that a certificate of occupancy has not been obtained due to miscommunication between the owner and operator of the site; and

WHEREAS, the applicant now requests a six-month extension of time to obtain a certificate of occupancy; and

WHEREAS, based upon the above, the Board finds that the requested extension of time is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens*, and *amends* the resolution, dated April 23, 2002, so that as amended this portion of the resolution shall read: “to grant an extension of time to obtain a certificate of occupancy for six months from the date of this resolution, to expire on July 10, 2012; *on condition*:

THAT a new certificate of occupancy shall be obtained by July 10, 2012;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (DOB Application No. 200683590)

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application from the Fire Commissioner, requesting to modify the certificate of occupancy of the subject premises to reflect a requirement for an automatic wet sprinkler system throughout all stairways and public hallways of the subject building; and

---

# MINUTES

---

WHEREAS, the Fire Commissioner proposes to issue the following order to the property owner:

You are hereby directed and required to comply with the following order within (30) days.

Install an approved automatic wet sprinkler system throughout all stairways and public halls arranged and equipped as per the Building Code of the City of New York, Administrative Code Chapter 1, Section 28.101.1 and Title 28 Chapter 9, Section BC 903.

Authority: NYC Fire Code Chapter 9, Title 29, Section FC 901.4.3 of the Administrative Code, and Chapter 19 Sections 487 and 488 of the NYC Charter the building arranged and equipped as per Title 27, Chapter 1, and Subchapter 17 of the NYC Administrative Code.

Note: Plans shall be filed with and approved by the Department of Buildings before work commences; and

WHEREAS, a public hearing was held on this application on November 22, 2011, after due notice by publication in the *City Record*, and then to decision on January 10, 2012; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Ottley-Brown; and

WHEREAS, the subject premises is located on the east side of Ninth Avenue, between West 18<sup>th</sup> Street and West 19<sup>th</sup> Street, within a C2-6A zoning district; and

WHEREAS, the subject site is occupied by a six-story residential building with retail use on the ground floor and accessory uses at the cellar; and

WHEREAS, the current Certificate of Occupancy Number 91134 (the "Current CO") reflects the use of the building as a Class A Multiple Dwelling with a Use Group 6 store on the ground floor; and

WHEREAS, the Current CO indicates that sprinklers are installed in the building; however, the Fire Department notes that while an automatic wet sprinkler system is installed throughout the ground floor retail use and in the cellar, there is no sprinkler system installed on any of the residential floors (floors two through six); and

WHEREAS, the Fire Department performed an inspection of the building on May 28, 2008 and submitted a Sprinkler System Recommendation Report for the subject site which explained the need for the proposed automatic wet sprinkler system throughout the stairways and public halls of the upper floors; and

WHEREAS, the Fire Department asserts that the proposed modification to the Current CO is necessary in the interest of public safety because fire protection within the subject building is deemed inadequate; and

WHEREAS, specifically, the Fire Department states that an automatic wet sprinkler system is required throughout the stairways and public halls for the following reasons: (1) the subject building is a residential building with more than four units with a single means of egress, as the backyard is inaccessible from the front of the building; (2) the tight

wraparound stairwell constrains access to the upper floors and interior fire attack with stretching fire lines; (3) the Fire Department cannot ladder the building from the ground floor because access is severely limited at the rear and front of the building due to setbacks located at the upper floors, isolated balconies, and a lack of parapets from adjacent buildings; and (4) because egress from the upper floors is constrained, there is substantial risk of injury to residents in case of fire; and

WHEREAS, pursuant to Fire Code § 901.4.3, the Fire Department requests to modify the certificate of occupancy to reflect that an automatic wet sprinkler system be installed in the stairways and public hallways of the upper floors of the building; and

WHEREAS, the owner testified at hearing and provided a letter, dated May 31, 2011, agreeing to install a sprinkler configuration, in consultation with DOB, which would satisfy the Fire Department's requirements; and

WHEREAS, based on the above, the Board agrees with the Fire Department that, given the use and construction of the building, its requirement for automatic sprinklers throughout all stairways and public hallways in the building is appropriate; and

WHEREAS, the Board finds that the installation of an automatic wet sprinkler system, as requested by the Fire Department, supports the Fire Department's goals to protect life and property at the premises in the event of fire; and

WHEREAS, the Board notes that the ultimate configuration of the sprinkler system may differ from what the Fire Department initially requested, but it will be approved by DOB and the Fire Department prior to installation; and

WHEREAS, accordingly, the Board supports a modification to the certificate of occupancy to reflect that an automatic wet sprinkler system be maintained throughout all stairways and public halls in the subject building.

*Therefore it is Resolved* that the application of the Fire Commissioner, dated April 19, 2011, seeking the modification of Certificate of Occupancy No. 91134 is hereby granted.

Adopted by the Board of Standards and Appeals, January 10, 2012.

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated March 30, 2011, acting on Department of Buildings Application No. 420299910, reads in pertinent part:

Provided parking space contrary to ZR 36-21; and

WHEREAS, this is an application under ZR §§ 73-44 and 73-03, to permit, within a C4-2 zoning district, a reduction in the required number of accessory parking spaces for a mixed-use residential/office/community facility building from 99 to 69, contrary to ZR § 36-21; and

WHEREAS, a public hearing was held on this application on December 6, 2011, after due notice by publication in The City Record, and then to decision on January 10, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 7, Queens, recommends approval of this application; and

WHEREAS, the subject site is located on the north side of 40<sup>th</sup> Road, between Main Street and Prince Street, within a C4-2 zoning district; and

WHEREAS, the site has 95 feet of frontage on 40<sup>th</sup>

---

# MINUTES

---

Road, a depth of 100 feet, and a total lot area of 9,500 sq. ft.; and

WHEREAS, the site is occupied by a ten-story and mezzanine mixed-use residential/commercial/community facility building, with a total floor area of 43,301 sq. ft., and 84 accessory valet parking spaces located at the cellar, sub-cellar and second floor; and

WHEREAS, the applicant states that the subject building is currently occupied by the following uses: (1) 37 accessory valet parking spaces at the sub-cellar level; (2) retail space (Use Group 6) and 28 accessory valet parking spaces at the cellar level; (3) retail space (Use Group 6) and a residential lobby (Use Group 2) on the first floor; (4) 19 accessory valet parking spaces on the second floor; (5) office and retail space (Use Group 6) on the third floor; (6) ambulatory diagnostic treatment facility space (Use Group 4) and retail space (Use Group 6) on the fourth floor; (7) retail space (Use Group 6) on the fifth floor; and (8) residential space (Use Group 2) on floors six through ten; and

WHEREAS, the applicant represents that the required number of accessory off-street parking spaces for the current use of the subject building pursuant to ZR § 36-21 is 83; thus, the existing 84 accessory off-street parking spaces at the site comply with the parking requirements of the Zoning Resolution; and

WHEREAS, the applicant now proposes to: (1) reduce the number of accessory valet parking spaces at the second floor from 19 to four, and to convert the remainder of the second floor to office space (Use Group 6); (2) convert the existing retail space at the third, fourth and fifth floors to office space (Use Group 6); and (3) convert 735 sq. ft. of the first floor from lobby space servicing retail use to lobby space servicing office use (Use Group 6); and

WHEREAS, the applicant states that with the conversion of a portion of the retail space and a portion of the space designated for accessory parking to office space, the floor area of the building will increase from 43,301 sq. ft. to 45,078 sq. ft., and the parking requirement for the building will increase; and

WHEREAS, the applicant represents that the portions of the building proposed to be converted to office space are currently vacant; and

WHEREAS, pursuant to ZR § 73-44, the Board may, in the subject C4-2 zoning district, grant a special permit that would allow a reduction in the number of accessory off-street parking spaces required under the applicable ZR provision, for ambulatory diagnostic or treatment facilities and the noted Use Group 6 office use in the parking category B1; in the subject zoning district, the Board may reduce the required parking from one space per 300 sq. ft. of floor area to one space per 600 sq. ft. of floor area; and

WHEREAS, pursuant to ZR § 36-21 the total number of required parking spaces for all uses at the site is 99; and

WHEREAS, the applicant represents that the proposed 69 parking spaces are sufficient to accommodate the parking demand generated by the use of the site; and

WHEREAS, the applicant notes that 7,548 sq. ft. of

floor space in the building is occupied by retail space and 18,922 sq. ft. of floor area in the building is occupied by residential space, which are not in parking category B1 and therefore the associated 32 required spaces have been excluded from the calculations for the requested reduction in parking; and

WHEREAS, the applicant states that the remaining approximately 20,108 sq. ft. of floor area at the site will be occupied either by ambulatory diagnostic or treatment facility space or professional offices, which are eligible for the parking reduction under ZR § 73-44; at a rate of one required parking space per 300 sq. ft. of floor area, 67 parking spaces are required for these uses; and

WHEREAS, accordingly, the total number of parking spaces which are eligible under the special permit is 67; as noted, the special permit allows for a reduction from one space per 300 sq. ft. of floor area to one space per 600 sq. ft. of floor area, which would reduce the required parking for these uses to 34 spaces; and

WHEREAS, as noted, an additional 32 parking spaces are required for the portions of the building occupied by retail and residential space, which are not eligible for the special permit; and

WHEREAS, thus, a total of 66 parking spaces are required for the uses on the site; and

WHEREAS, the applicant proposes to provide 69 accessory valet parking spaces on the subject site; and

WHEREAS, the applicant notes that the proposed total of 69 accessory parking spaces would provide three more spaces than the minimum of 66 required under the special permit; and

WHEREAS, ZR § 73-44 requires that the Board must determine that the ambulatory diagnostic or treatment facility and Use Group 6 use in the B1 parking category are contemplated in good faith; and

WHEREAS, the applicant has submitted an affidavit from the owner of the premises stating that the use of the second through fifth floors as Use Group 6 professional offices and ambulatory diagnostic and treatment facility space is contemplated in good faith; and

WHEREAS, in addition, the applicant states that any Certificate of Occupancy for the building will state that no subsequent Certificate of Occupancy may be issued if the use is changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-street radius; and

WHEREAS, the Board finds that the applicant has submitted sufficient evidence of good faith in maintaining the noted uses at the site; and

WHEREAS, however, while ZR § 73-44 allows the Board to reduce the required accessory parking, the Board requested an analysis about the impact that such a reduction might have on the community in terms of available on-street parking; and

WHEREAS, in response, the applicant submitted a trip generation and parking analysis, which reflects that there is a peak parking demand for only 35 parking spaces from all

# MINUTES

uses in the subject building combined; and

WHEREAS, the parking analysis provided by the applicant further reflects that, throughout the course of the day, there are between 35 and 241 available on-street parking spaces within the immediate vicinity of the site, in addition to three municipal parking facilities located within a one-quarter mile radius of the site; and

WHEREAS, based upon this study, the Board agrees that the accessory parking space needs can be accommodated even with the parking reduction; and

WHEREAS, based upon the above, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-44 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 11BSA080Q, dated April 12, 2011; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved*, that the Board of Standards and Appeals issues a Negative Declaration under 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-44 and 73-03 to permit, within a C4-2 zoning district, a reduction in the required number of accessory parking spaces for a mixed-use residential/commercial/community facility building from 99 to 69, contrary to ZR § 36-21; on condition that all work shall substantially conform to drawings as they apply to the objections above noted filed with this application marked "Received April 12, 2011" – eleven (11) sheets, and on further condition:

THAT there shall be no change in the operation of the site without prior review and approval by the Board;

THAT a minimum of 69 parking spaces shall be

provided in the subject building;

THAT no certificate of occupancy may be issued if the use is changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-street radius;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT the layout and design of the accessory parking lot shall be as reviewed and approved by the Department of Buildings;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 10, 2012.

**THE RESOLUTION** –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated April 28, 2011, acting on Department of Buildings Application No. 320273048, reads in pertinent part:

The proposed floor area ratio exceeds the permitted maximum floor area ratio and is contrary to ZR § 23-141(a).

The proposed open space ratio is less than the minimum required open space ratio and is contrary to ZR §23-141(a).

---

# MINUTES

---

The proposed rear yard is less than the required minimum rear yard and is contrary to ZR §23-47; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03, to permit, in an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio ("FAR"), open space ratio, and rear yard, contrary to ZR §§ 23-141 and 23-47; and

WHEREAS, a public hearing was held on this application on September 27, 2011, after due notice by publication in *The City Record*, with continued hearings on November 1, 2011 and November 22, 2011, and then to decision on January 10, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of East 29<sup>th</sup> Street, between Avenue N and Kings Highway, within an R2 zoning district; and

WHEREAS, the site consists of a double tax lot (Lot 60), with 65 feet of frontage on East 29<sup>th</sup> Street, a depth of 100 feet, and a lot area of 6,500 sq. ft.; and

WHEREAS, the site is currently occupied by two two-story single-family homes situated 13.3 feet apart from each other; 1430 East 29<sup>th</sup> Street is located on the north side of the lot, and 1432 East 29<sup>th</sup> Street is located on the south side of the lot; and

WHEREAS, the two single-family homes on the subject site have a total combined floor area of 3,002 sq. ft. (0.46 FAR); and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant proposes to enlarge the house located at 1432 East 29<sup>th</sup> Street and substantially demolish the house located at 1430 East 29<sup>th</sup> Street; and

WHEREAS, the applicant seeks an increase in the floor area from 3,002 sq. ft. (0.46 FAR) to 6,289 sq. ft. (0.97 FAR) across the entire site; the maximum permitted floor area is 3,250 sq. ft. (0.50 FAR); and

WHEREAS, the applicant proposes to provide an open space ratio of 49 percent (150 percent is the minimum required); and

WHEREAS, the proposed enlargement will provide a rear yard with a depth of 20'-0" (a minimum rear yard depth of 30'-0" is required); and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, and will not impair the future use or development of the surrounding area; and

WHEREAS, the applicant submitted an FAR table and map identifying 13 homes in the surrounding area that were enlarged pursuant to the special permit under ZR §73-622; and

WHEREAS, the applicant states that the 13 special

permit homes identified have FARs between 0.75 and 1.25, with 11 of the 13 homes having an FAR equal to or greater than the proposed 0.97; and

WHEREAS, the applicant notes that six of the 13 homes identified in the study are also double-wide, similar to the proposed home; and

WHEREAS, the applicant also submitted a residential FAR survey identifying 27 homes and apartment buildings in the immediate vicinity of the site with FARs greater than the proposed 0.97, including a multifamily building with an FAR of 2.36 and 84 residential units located at the southern end of the subject block; and

WHEREAS, at hearing, the Board raised concerns about the applicant's original proposal, which proposed a cellar extending beyond the footprint of the first floor, contrary to the Department of Buildings' ("DOB") position and the Board's decision pursuant to BSA Cal. No. 14-11-A, and which proposed to maintain the existing non-complying front yard with a depth of 11'-6" based on the location of the front wall of the home at 1430 East 29<sup>th</sup> Street, which is being substantially demolished; and

WHEREAS, in response, the applicant submitted revised plans reflecting that the size of the cellar has been reduced in accordance with the Board's decision in BSA Cal. No. 14-11-A, and that the northern portion of the front yard (corresponding with the 1430 East 29<sup>th</sup> Street home) will provide a complying depth of 15'-0"; the southern portion of the front yard (corresponding with the 1432 East 29<sup>th</sup> Street home) will maintain the existing non-complying front yard depth of 11'-6"; and

WHEREAS, the Board also raised concerns about the attic floor height, the proposed home's compliance with the planting requirement of ZR § 23-451, and the amount of the existing homes being retained; and

WHEREAS, in response, the applicant submitted revised plans which reflect that the attic ceiling clearance height was reduced from 7'-11" to 7'-10" and the roof ridge was reduced by five inches, note that all open porches and landscaping requirements are subject to DOB approval, and clearly depict the portions of the existing home being retained; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03.

*Therefore it is resolved,* that the Board of Standards and Appeals issues a Type II determination under 6

# MINUTES

N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, within an R2 zoning district, the enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio, open space ratio, and rear yard, contrary to ZR §§ 23-141 and 23-47; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked “Received November 17, 2011”-(12) sheets and “December 27, 2011”-(1) sheet; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area of 6,289 sq. ft. (0.97 FAR); a minimum open space ratio of 49 percent; a front yard with a minimum depth of 11’-6” at the southern portion of the site; and a rear yard with a minimum depth of 20’-0”, as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT DOB shall review and approve compliance with the planting requirements under ZR § 23-451;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 10, 2012.

## 74-11-BZ

### CEQR #11-BSA-102R

APPLICANT – James Chin & Associates, LLC, for 1058 Forest Avenue Associates, owners.

SUBJECT – Application May 25, 2011 – Variance (§72-21) to allow the conversion of a community facility building for office use, contrary to use regulations. R3-2 & R-2 zoning district.

PREMISES AFFECTED – 1058 Forest Avenue, southeast intersection of Forest Avenue and Manor Road in West Brighton, Block 315, Lot 29, Borough of Staten Island.

### COMMUNITY BOARD #1SI

APPEARANCES –

For Applicant: James Chin.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and

Commissioner Montanez .....5  
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Staten Island Borough Commissioner, dated May 13, 2011, acting on Department of Buildings Application No. 520065438, reads in pertinent part:

Uses in use Group 6B are not permitted as-of-right in a R3-2 and R2 district and are contrary to section 32-15 Zoning Resolution and therefore referred to Board of Standards and Appeals; and

WHEREAS, this is an application under ZR § 72-21, to permit, partially within an R3-2 zoning district and partially within an R2 zoning district, the change of use of an existing one-story building from school (Use Group 3) to office (Use Group 6B), which does not conform to district use regulations, contrary to ZR § 22-00; and

WHEREAS, a public hearing was held on this application on September 27, 2011 after due notice by publication in *The City Record*, with continued hearings on November 1, 2011 and December 6, 2011, and then to decision on January 10, 2012; and

WHEREAS, the site and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Montanez; and

WHEREAS, Community Board 1, Staten Island, recommends approval of this application; and

WHEREAS, the subject site is located on the southeast corner of the intersection of Forest Avenue and Manor Road, partially within an R3-2 zoning district and partially within an R2 zoning district; and

WHEREAS, the site has approximately 100 feet of frontage on Forest Avenue and 154 feet of frontage on Manor Road, with a total lot area of 15,400 sq. ft.; and

WHEREAS, the site is currently occupied by a one-story commercial building currently occupied by a school (Use Group 3), with a floor area of 4,860 sq. ft. (0.32 FAR); and

WHEREAS, on July 25, 1961, under BSA Cal. No. 566-61-BZ, the Board granted a use variance to permit the construction of a one-story office building with accessory parking on the site; and

WHEREAS, the Board also granted a companion application on July 25, 1961, under BSA Cal. No. 567-61-A, to permit the installation of curb cuts on Forest Avenue and Manor Road located within the bed of a mapped street, contrary to General City Law Section 35; and

WHEREAS, on July 7, 2004, the Board issued a letter stating that it had no objection to the change of use of the site from office (Use Group 6) to school (Use Group 3), which is permitted as-of-right in the subject zoning districts; and

WHEREAS, the applicant now proposes to revert the use of the subject building to office use (Use Group 6); and

WHEREAS, the applicant states that although the original variance expired in 1981, the subject building was used continuously for office use from 1962 through 2004; and

WHEREAS, because the prior variance has expired and commercial use is not permitted in the subject zoning districts, the applicant seeks a use variance to permit the proposed Use Group 6 use; and

---

# MINUTES

---

WHEREAS, the applicant states that the following are unique physical conditions which create unnecessary hardship and practical difficulties in developing the site with a complying development: (1) the history of use of the site as a professional office building; (2) the obsolescence of the subject building for conforming use; and (3) the presence of two street widening easements and the need for two front yards on the site; and

WHEREAS, as to the history of use of the site, the applicant states that, pursuant to the Board's grant under BSA Cal. No. 566-61-BZ, the subject building was constructed specifically for office use in 1962; and

WHEREAS, the applicant submitted a certificate of occupancy dated August 15, 1962, reflecting that the building was occupied by office use at that time, and submitted a timeline reflecting that the building was continuously occupied by office use until 2004; and

WHEREAS, the applicant states that although the office use of the site was discontinued in 2004, the floor plan of the subject building remained the same; and

WHEREAS, the applicant further states that while the certificate of occupancy from 2005 lists the use of the site as a school (Use Group 3), the use has remained more akin to an office use; and

WHEREAS, specifically, the applicant states that the tenant that has occupied the site since 2004 is a not-for-profit organization that provides programs for people with autism, including individual consulting services for students; and

WHEREAS, the applicant states that although the use is classified as a school, the layout of the building remains consistent with a typical small office building, with a number of small offices which are well suited for the one-on-one counseling and teaching; and

WHEREAS, the applicant notes that the existing building is in good condition and was configured for commercial use, and that no significant changes are anticipated for the proposed office use; and

WHEREAS, the applicant represents that the current tenant, which is classified as a Use Group 3 school but operates more like a Use Group 6 office, is unique, and that the subject building is obsolete for a typical conforming use; and

WHEREAS, specifically, the applicant states that the subject building, which lacks a cellar or basement, is too small to accommodate the typical facilities classified in Use Groups 3 or 4; and

WHEREAS, the applicant further states that the existing 11 parking spaces would be insufficient to meet the demand created by staff and visitors of such facilities; and

WHEREAS, the applicant notes that the use of the site as a school or day care facility would also be hampered by the lack of a play area on the site, which is required to meet the educational standards established by the New York State Department of Education; and

WHEREAS, as to the presence of the street widening easements, the applicant states that there is a 21'-0" by 100'-0" street widening easement along the Forest Avenue frontage and a 6.27'-0" by 133'-0" street widening easement along the Manor Road frontage; and

WHEREAS, the applicant states that the street widening easements occupy a total of 2,934 sq. ft., or 19 percent of the site, and reduce the buildable area from 15,400 sq. ft. to 12,466 sq. ft.; and

WHEREAS, the applicant further states that, because the site is a corner lot, two front yards are required; a front yard with a depth of 10'-0" is required along Forest Avenue, and a front yard with a depth of 15'-0" is required along Manor Road; and

WHEREAS, the applicant states that an as-of-right development would be required to set the front yards back from the widening lines on both streets, further reducing the buildable area on the site and impeding the construction of a new conforming building on the site; and

WHEREAS, the Board is not persuaded by the assertions of obsolescence or that the street widening easements constitute unique conditions that create practical difficulty or unnecessary hardship; and

WHEREAS, however, based upon the above, the Board finds that the history of development of the site is a unique condition which creates unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the applicant submitted a feasibility study which analyzed: (1) a conforming scenario consisting of the existing one-story 4,860 sq. ft. building occupied by community facility (Use Group 3) use; (2) an alternative conforming scenario consisting of one detached single-family home and two semi-detached single-family homes; (3) an alternative conforming scenario consisting of a three-story 14,580 sq. ft. community facility building (Use Group 4); and (4) the subject one-story building occupied by office use (Use Group 6); and

WHEREAS, the study concluded that the conforming scenarios would not result in a reasonable return, but that the proposed building would realize a reasonable return; and

WHEREAS, based upon the above, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict compliance with zoning will provide a reasonable return; and

WHEREAS, the applicant represents that the proposal will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant represents that the surrounding area is occupied by a mix of residential, commercial, and community facility uses; and

WHEREAS, the applicant notes that, prior to 2004, the subject building was occupied by an office use continuously for more than 40 years; and

WHEREAS, the applicant submitted a 400-ft. radius diagram which reflects that there is a two-story office building located immediately adjacent to the east of the site, and a two-story office building located directly across from the site, on Forest Avenue; and

WHEREAS, as to bulk, the applicant states that there are

# MINUTES

no changes proposed to the envelope of the subject one-story building, which has existed on the subject site for nearly 50 years, and that the floor area of 4,860 sq. ft. (0.32 FAR) is considerably below the maximum density for the subject zoning lot; and

WHEREAS, at hearing, the Board directed the applicant to reduce the proposed hours of operation for the office use, provide landscaping on the site, provide a garbage enclosure on the site, and comply with C1 district signage regulations; and

WHEREAS, in response, the applicant states that the hours of operation for the proposed office use will be Monday through Friday, from 9:00 a.m. to 7:00 p.m., and closed on weekends, and submitted revised plans reflecting that landscaping will be provided on the site, a garbage enclosure will be located at the southeast corner of the site, and that the signage will comply with C1 district regulations; and

WHEREAS, based upon the above, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title, but is the result of the site's unique physical conditions; and

WHEREAS, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, based upon the above, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted Action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 11BSA102R dated September 2, 2011; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration under 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit, on a site partially within an R3-2 zoning

district and partially within an R2 zoning district, the change of use of an existing one-story building from school (Use Group 3) to office (Use Group 6B), which does not conform to district use regulations, contrary to ZR § 22-00; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received December 27, 2011" – six (6) sheets; and *on further condition*:

THAT the following are the bulk parameters of the proposed building: a total floor area of 4,860 sq. ft. (0.32 FAR); and 11 accessory parking spaces, as indicated on the BSA-approved plans;

THAT signage on the site shall comply with C1 district regulations;

THAT landscaping shall be planted and maintained in accordance with the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 10, 2012.

approval for the proposed physical culture establishment as per ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located in a C5-2A zoning district within the Special Downtown Brooklyn District, the operation of a physical culture establishment (“PCE”) on the first floor of a five-story mixed-use commercial/residential building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on December 6, 2011, after due notice by publication in *The City Record* and then to decision on January 10, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the north side of Remsen Street, between Clinton Street and Court Street, in a C5-2A zoning district within the Special Downtown Brooklyn District; and

WHEREAS, the subject site is occupied by a five-story mixed-use commercial/residential building; and

WHEREAS, the proposed PCE will occupy 4,355 sq. ft. of floor area, comprising the entire first floor of the building; and

WHEREAS, the PCE will be operated as Massage Envy Spa; and

WHEREAS, the proposed hours of operation for the PCE are: Monday through Friday, from 9:00 a.m. to 10:00 p.m.; Saturdays, from 9:00 a.m. to 7:00 p.m.; and Sundays, from 10:00 a.m. to 6:00 p.m.; and

WHEREAS, the applicant represents that the services at the PCE include facilities for the practice of massage by New York State licensed masseurs and masseuses; and

WHEREAS, the applicant states that the Special Downtown Brooklyn District regulations do not restrict the use of the first floor of the subject building for the proposed PCE use; and

WHEREAS, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No. 12BSA005K, dated July 12, 2011; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved* that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site located in a C5-2A zoning district within the Special Downtown Brooklyn District, the operation of a physical culture establishment on the first floor of a five-story mixed-use commercial/residential building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received October 26, 2011 - (1) sheet and “Received November 14, 2011 - (1) sheet and *on further condition*:

THAT the term of this grant shall expire on January 10, 2022;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

### CEQR #12-BSA-021M

APPLICANT – Eric Palatnik, P.C., for 335 Madison Avenue LLC, owner, Madison Spa Castle, Inc., lessee.

SUBJECT – Application September 7, 2011 – Special Permit (ZR §73-36) to allow the operation of a physical culture establishment (*Spa Castle*). C5-3 zoning district.

PREMISES AFFECTED – 335 Madison Avenue, corner of Madison Avenue and East 43rd Street. Block 1278, Lot 20, Borough of Manhattan.

### COMMUNITY BOARD #5M

APPEARANCES –

For Applicant: Eric Palatnik.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Otley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

**THE RESOLUTION** –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated August 10, 2011, acting on Department of Buildings Application No. 120764645, reads in pertinent part:

Proposed physical culture establishment is not permitted in a C5-3 zoning district and requires special permit by the Board of Standards and Appeals as per Zoning Resolution Section 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located in a C5-3 zoning district within the Special Midtown District, the operation of a physical culture establishment (“PCE”) in the sub-cellar and portions of the cellar and the first floor of a 29-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on November 22, 2011, after due notice by publication in *The City Record*, with a continued hearing on December 13, 2011 and then to decision on January 10, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez and Commissioner Otley-Brown; and

WHEREAS, Community Board 5, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of Madison Avenue between 43<sup>rd</sup> Street and 44<sup>th</sup> Street, in a C5-3 zoning district within the Special Midtown District;

and

WHEREAS, the subject site is occupied by a 29-story commercial building; and

WHEREAS, on April 28, 1987, under BSA Cal. No. 977-86-BZ, the Board granted a special permit to permit the operation of a PCE at the cellar, sub-cellar, and first floor of the subject building; and

WHEREAS, the applicant notes that the term for the previously-approved PCE at the subject site expired in 2007 and the PCE is no longer in operation; and

WHEREAS, the applicant now proposes a PCE that will occupy 521 sq. ft. of floor area on the first floor of the building, with an additional 29,775 sq. ft. of floor space located at the cellar and sub-cellar; and

WHEREAS, the PCE will be operated as Spa Castle; and

WHEREAS, the proposed hours of operation for the PCE are 6:00 a.m. to 12:00 a.m., daily; and

WHEREAS, the applicant represents that the services at the PCE include facilities for the practice of massage by New York State licensed masseurs and masseuses; and

WHEREAS, the applicant states that the Special Midtown District regulations do not restrict the use of the sub-cellar, cellar or first floor of the subject building for the proposed PCE use; and

WHEREAS, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No. 12BSA021M, dated September 7, 2011; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and

Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site located in a C5-3 zoning district within the Special Midtown District, the operation of a physical culture establishment at the sub-cellar and portions of the cellar and first floor of a 29-story commercial building, contrary to ZR § 32-10; on condition that all work shall substantially conform to drawings filed with this application marked "Received November 7, 2011" - (5) sheets, and on further condition:

THAT the term of this grant shall expire on January 10, 2022;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages shall be performed by New York State licensed massage therapists;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT fire safety measures shall be installed and/or maintained as shown on the Board-approved plans;

THAT substantial construction shall be completed in accordance with ZR §73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 10, 2012.

### COMMUNITY BOARD #14BK

#### APPEARANCES –

For Applicant: Yosef Gottdiener.

**ACTION OF THE BOARD** – Application granted on condition.

#### THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

#### THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated March 29, 2011, acting on Department of Buildings Application No. 320275910, reads in pertinent part:

“Proposed extension of an existing one family dwelling is contrary to:

ZR Sec 23-141 Floor Area Ratio

ZR Sec 23-141 Open Space Ratio

ZR Sec 23-47 Required Rear Yard

ZR Sec 23-46 & 23-48 Required Side Yard;” and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03, to permit, in an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio (“FAR”), open space ratio, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, 23-48 and 23-47; and

WHEREAS, a public hearing was held on this application on June 21, 2011 after due notice by publication in *The City Record*, and then to decision on July 26, 2011; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan and Commissioner Montanez; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of East 26<sup>th</sup> Street, between Avenue M and Avenue N, within an R2 zoning district; and

WHEREAS, the subject site has a total lot area of 3,000 sq. ft., and is occupied by a single-family home with a floor area of 2,111 sq. ft. (0.70 FAR); and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 2,111 sq. ft. (0.70 FAR) to 2,940 sq. ft. (0.98 FAR); the maximum permitted floor area is 1,500 sq. ft. (0.50 FAR); and

WHEREAS, the applicant proposes to provide an open space ratio of 64 percent (150 percent is the minimum required); and

WHEREAS, the applicant proposes to maintain the existing side yard along the southern lot line with a width of 3’-2¼” (a minimum width of 5’-0” is required for each side yard) and the existing side yard along the northern lot line with a width of 6’-11¾”;

WHEREAS, the proposed enlargement will provide a rear yard with a depth of 23’-4¼” (a minimum rear yard depth of 30’-0” is required); and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, and will not impair the future use or development of the surrounding area; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03.

*Therefore it is resolved*, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, within an R2 zoning district, the enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio, open space ratio, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, 23-48 and 23-47; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked “Received May 26, 2011”-(11) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area of 2,940 sq. ft. (0.98 FAR); an open space ratio of 64 percent; a side yard with a minimum width of 3’-2¼” along the southern lot line; a side yard with a minimum width of 6’-11¾” along the northern lot line; and a rear yard with a minimum depth of 23’-4¼”;

# MINUTES

as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 26, 2011.

**\*The resolution has been revised to correct the DOB Application No. which read: “320214193” now reads: “320275910”, and to amend the clause, which read in part.: “2,929 sq. ft. (0.98 FAR)...” now reads: “2,940 sq. ft. (0.98 FAR)...”. Corrected in Bulletin Nos. 1-3, Vol. 97, dated January 18, 2012.**

APPLICANT – Law Office of Fredrick A. Becker, for Rivkie Weingarten and Nachum Weingarten, owners.

SUBJECT – Application May 16, 2011 – Special Permit (§73-622) for enlargement of existing single family home, contrary to floor area, lot coverage and open space (§23-141); rear yard (§23-47) and side yard (§23-461). R3-2 zoning district.

PREMISES AFFECTED – 1636 East 23<sup>rd</sup> Street, between Avenue P and Quentin Road, Block 6785, Lot 20, Borough of Brooklyn.

### COMMUNITY BOARD #15BK

APPEARANCES –

For Applicant: Lyra J. Altman.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated April 15, 2011, acting on Department of Buildings Application No. 320281510, reads in pertinent part:

“Proposed floor area is contrary to ZR 23-141.

Proposed open space ratio is contrary to ZR 23-141.

Proposed lot coverage is contrary to ZR 23-141.

Proposed rear yard is contrary to ZR 23-47.

Proposed side yard is contrary to ZR 23-461(a);”

and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03, to permit, in an R3-2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area, open space ratio, lot coverage, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461 and 23-47; and

WHEREAS, a public hearing was held on this application on August 16, 2011, after due notice by publication in *The City Record*, and then to decision on September 13, 2011; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan and Commissioner Montanez; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of East 23<sup>rd</sup> Street, between Avenue P and Quentin Road, within an R3-2 zoning district; and

WHEREAS, the subject site has a total lot area of

---

# MINUTES

---

4,000 sq. ft., and is occupied by a single-family home with a floor area of 1,660 sq. ft. (0.42 FAR); and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 1,660 sq. ft. (0.42 FAR) to 3,987 sq. ft. (1.0 FAR); the maximum permitted floor area is 2,000 sq. ft. (0.50 FAR); and

WHEREAS, the applicant proposes to provide an open space ratio of 50 percent (65 percent is the minimum required); and

WHEREAS, the applicant proposes to provide lot coverage of 50 percent (35 percent is the maximum permitted); and

WHEREAS, the applicant proposes to maintain the existing side yard along the southern lot line with a width of 4¼" (a minimum width of 5'-0" is required for each side yard) and to provide a side yard with a width of 5'-6½" along the northern lot line; and

WHEREAS, the proposed enlargement will provide a rear yard with a depth of 20'-0" (a minimum rear yard depth of 30'-0" is required); and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, and will not impair the future use or development of the surrounding area; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03.

*Therefore it is resolved*, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, within an R3-2 zoning district, the enlargement of a single-family home, which does not comply with the zoning requirements for floor area, open space ratio, lot coverage, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461 and 23-47; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received August 25, 2011"-(12) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of

the building: a maximum floor area of 3,987 sq. ft. (1.0 FAR); an open space ratio of 50 percent; lot coverage of 50 percent; a side yard with a minimum width of 4¼" along the southern lot line; a side yard with a minimum width of 5'-6½" along the northern lot line; and a rear yard with a minimum depth of 20'-0", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, September 13, 2011.

**\*The resolution has been revised to correct the filing date and to amend the width clause, which read in part: ...4'-1¼"... now reads: ...4¼"... Corrected in Bulletin Nos. 1-3, Vol. 97, dated January 18, 2012.**

APPLICANT – Sheldon Lobel, P.C., for Mr. Ilyaho Choueka, owner.

SUBJECT – Application June 8, 2011 – Special Permit (§73-622) for the enlargement of an existing single family home, contrary to floor area (§23-141); side yard (§23-461); rear yard (§23-47) regulations. R5 zoning district.

PREMISES AFFECTED – 2020 Homecrest Avenue, west side of Homecrest Avenue, 165’ south of Avenue T, Block 7316, Lot 13, Borough of Brooklyn.

### COMMUNITY BOARD #15BK

APPEARANCES –

For Applicant: Nora Martins.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5  
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated June 7, 2011, acting on Department of Buildings Application No. 3197918, reads:

ZR 23-141 – Proposed floor area exceeds permitted.

ZR 23-461 – Proposed side yard is less than required minimum.

ZR 23-47 – Proposed rear yard is less than required minimum; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03, to permit, within an R5 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area, side yards, and rear yard contrary to ZR §§ 23-141, 23-461, and 23-47; and

WHEREAS, a public hearing was held on this application on September 13, 2011, after due notice by publication in *The City Record*, with continued hearings on October 25, 2011 and November 22, 2011, and then to decision on December 13, 2011 and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of Homecrest Avenue, south of Avenue T within an R5 zoning district; and

WHEREAS, the subject site has a lot area of 3,414 sq. ft. and is occupied by a single-family home with 1,761 sq. ft.

of floor area (0.52 FAR); and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 1,761 sq. ft. (0.52 FAR) to 4,604 sq. ft. (1.35 FAR); the maximum permitted floor area is 4,268 sq. ft. (1.25 FAR); and

WHEREAS, the applicant proposes to provide one side yard with a width of 5’-0” and to maintain the pre-existing non-complying side yard with a width of 4’-5” (side yards with a total width of 13’-0” and a minimum width of 5’-0” each are required); and

WHEREAS, the applicant proposes to provide a rear yard with a depth of 20’-0” (a rear yard with a minimum depth of 30’-0” is required); and

WHEREAS, the Board initially asked the applicant to provide a side yard with a width of 8’-0”, rather than 5’-0” so that the proposal could more closely comply with the requirement for a total width of 13’-0” for both side yards; and

WHEREAS, in response, the applicant asserted that the text of ZR § 73-622 permits the proposed side yards; and

WHEREAS, specifically, the relevant text at ZR § 73-622(1) states that

Any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*; and

WHEREAS, the applicant asserts that its proposal to maintain one pre-existing non-complying side yard and to provide one complying side yard with a width of 5’-0” is consistent with the special permit text as it would not decrease the minimum width within the non-complying side yard; and

WHEREAS, further, the applicant considers the unique conditions of the subject site, which include a lot depth of 85 feet (opposed to the standard 100 feet) and adjacency to a non-complying multi-family building which does not provide a front yard, but does provide a side yard with a width of 10’-0” along the shared lot line; and

WHEREAS, the applicant also asserts that a side yard with a width of 5’-0” is consistent with the character of the neighborhood; and

WHEREAS, the Board considered the applicant’s request to provide a side yard with a width of 5’-0” as its complying yard and agrees that it is appropriate in the subject case; and

WHEREAS, the Board finds that it has jurisdiction, pursuant to ZR § 73-622 to approve the reduction of a complying side yard to a width of 5’-0”; and

WHEREAS, the Board notes that its conclusion is compatible with other side yard provisions in the Zoning Resolution such as ZR § 23-49 which allows property owners in certain residential zoning districts and under certain circumstances to build directly along one side lot line

---

# MINUTES

---

as long as a side yard with a width of at least 8'-0" is provided along the other side lot line, resulting in a failure to meet the total required width of 13'-0"; and

WHEREAS, generally, in consideration of the side yard requirements, including those set forth at ZR § 23-49, the Board finds a complying side yard with a width of 8'-0" to be the required complying side yard when the second side yard has a non-complying width less than 5'-0"; and

WHEREAS, however, the Board notes that a side yard with a width of 5'-0" is, on its own, a complying side yard condition; and

WHEREAS, the Board also notes that other side yard provisions, such as ZR § 23-49, already allow for the reduction of the side yard total to a width less than 13'-0"; and

WHEREAS, the Board notes that the reduction of the complying side yard from 8'-0" to 5'-0" may be warranted in certain cases and when there is compliance with all of the special permit findings; and

WHEREAS, the Board is persuaded that the site and surrounding conditions in the subject case are distinguishable from other cases with standard lot depths of 100 feet, which allow for a larger building footprint, and thus finds that the special permit findings, including that the proposal is compatible with the character of the neighborhood, are met; and

WHEREAS, in conclusion, the Board finds that when one side yard has a non-complying width of less than 5'-0", it would require that the second side yard have a width of at least 8'-0" except in certain instances when a second side yard with a width of less than 8'-0" but at least 5'-0" would be appropriate; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03.

*Therefore it is resolved,* that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622 and 73-03, to permit, within an R5 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area, side yards, and rear yard contrary to ZR §§ 23-141, 23-461, and 23-47; *on condition* that all work shall substantially

conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received October 13, 2011"- (9) sheets; and *on further condition:*

THAT the following shall be the bulk parameters of the building: a maximum floor area of 4,604 sq. ft. (1.35 FAR); side yards with minimum widths of 4'-5" and 5'-0", and a rear yard with a minimum depth of 20'-0" as illustrated on the BSA-approved plans;

THAT DOB shall review and approve compliance with the planting requirements under ZR § 23-451;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, December 13, 2011.

Negative:.....0

**THE RESOLUTION** –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated May 25, 2011, acting on Department of Buildings Application No. 320269669, reads:

1. Contrary to ZR 23-141 in that the proposed floor area exceeds the maximum permitted.
2. Contrary to ZR 23-141 in that the proposed open space ratio is less than the minimum required.
3. Contrary to ZR 23-141 in that the proposed lot coverage exceeds the maximum permitted.
4. Contrary to ZR 23-631 in that the perimeter wall height exceeds the maximum permitted.
5. Contrary to ZR 23-461 in that the proposed side yards are less than the minimum required; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03, to permit, within an R3-2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area, lot coverage, open space ratio, perimeter wall height, and side yards contrary to ZR §§ 23-141, 23-631, and 23-461; and

WHEREAS, a public hearing was held on this application on November 1, 2011, after due notice by publication in *The City Record*, with continued hearings on November 22, 2011 and December 6, 2011, and then to decision on December 13, 2011 and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the southwest corner of Avenue S and East 23<sup>rd</sup> Street within an R3-2 zoning district; and

WHEREAS, the subject site has a total lot area of 3,000 sq. ft. and is occupied by a single-family home with 1,946 sq. ft. of floor area (0.65 FAR); and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 1,946 sq. ft. (0.65 FAR) to 3,027 sq. ft. (1.01 FAR); the maximum permitted floor area is 1,500 sq. ft. (0.50 FAR); and

WHEREAS, the applicant proposes to provide a lot coverage of 42 percent (35 percent is the maximum permitted); and

WHEREAS, the applicant proposes to provide an open space ratio of 58 percent (65 percent is the minimum required); and

WHEREAS, the applicant proposes to maintain a perimeter wall with a height of 22'-0", which is a pre-existing non-compliance; and

WHEREAS, the applicant proposes to provide one side yard with a width of 20'-0" and to maintain the pre-existing non-complying side yard with a width of 1'-6"; and

WHEREAS, the Board raised concerns about whether the proposed height and setback comply with zoning district regulations and are confined to the permitted building envelope; and

WHEREAS, in response, the applicant provided axonometric drawings to confirm that the proposal (other than the pre-existing non-complying perimeter wall height) did not exceed the permitted building envelope; and

WHEREAS, the Board determined that the axonometric drawings were not conclusive and stated that DOB should confirm full compliance; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated September 16, 2011, acting on Department of Buildings Application No. 120803746, reads, in pertinent part:

1. Certain changes to existing plazas are not in greater accordance with the standards set forth in ZR 37-70, and therefore certification by the Chair of the City Planning Commission cannot be obtained, contrary to the requirements of ZR 37-625.
2. Proposed passenger drop-off and a driveway are located within and within 10 feet of arcade, contrary to ZR 37-80.
3. Proposed planters and seating are located within arcades beneath a height of 12 feet, contrary to ZR 37-80; and

WHEREAS, this is an application under ZR § 72-21, by NYU Langone Medical Center to permit, on a site in a C1-9/C1-9 Transit Land Use District (TA) zoning district, the modification to existing plazas and arcades including the introduction of a driveway and other obstructions, contrary to ZR §§ 37-625 and 37-80; and

WHEREAS, a public hearing was held on this application on November 22, 2011, after due notice by publication in the *City Record*, and then to decision on December 13, 2011; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan,

---

# MINUTES

---

Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 6, Manhattan, recommends approval of the application with the recommendation that the Medical Center post signage and paint curbs and the drop-off driveway to make it clear that there is no parking or standing and that the Medical Center employ a concierge to help direct vehicles; and

WHEREAS, this application is brought on behalf of the NYU Langone Medical Center (the "Medical Center"); and

WHEREAS, the site is located on a through lot with frontage on East 38<sup>th</sup> Street and East 37<sup>th</sup> Street, between Third Avenue and Second Avenue within a C1-9/C1-9 (TA) zoning district; and

WHEREAS, the site is part of a single zoning lot with the adjacent site at 221 East 37<sup>th</sup> Street (Block 918, Lot 14) (the "Zoning Lot"); and

WHEREAS, the adjacent site is owned by Verizon New York and is occupied with a nine-story building constructed in 1912 and subsequently enlarged pursuant to a bulk variance (BSA Cal. No. 304-38-BZ), because it exceeds floor area and height regulations; and

WHEREAS, the adjacent building is not proposed to be changed and is not part of the subject application except that it shares the subject Zoning Lot; and

WHEREAS, the Building has a plaza and arcade on East 37<sup>th</sup> Street (the "South Plaza" and "South Arcade") and a plaza and arcade on East 38<sup>th</sup> Street (the "North Plaza" and "North Arcade"); and

WHEREAS, NYU owns a condominium interest in the building (the "Building") for the benefit of the Medical Center, which will occupy 13 of the 24 non-mechanical floors of the Building for use as an Ambulatory Care Center; and

WHEREAS, Verizon owns a condominium interest in the Building and occupies the portions that are not occupied by the Medical Center; the current certificate of occupancy lists all floors above the first floor as offices and/or mechanical equipment (Use Group 6); and

WHEREAS, the Building was developed in the mid-1960s pursuant to the 1961 Zoning Resolution's plaza regulations, which allowed bonusable plazas with broad standards about dimensions and openness to the sky; arcades were subject to standards similar to those in effect today, including minimum dimensions and that they be open along their entire length; and

WHEREAS, pursuant to ZR § 37-625, design changes to existing plazas may be made only upon certification by the Chair of the City Planning Commission that such changes would result in a plaza that is in greater accordance with the public plaza standards set forth in ZR § 37-70; and

WHEREAS, the subject variance is required because some of the proposed design changes to the plazas, including the driveway, canopy, and baffle wall, would result in new non-compliances or increased degrees of non-compliance with the public plaza standards and therefore require a waiver of the ZR § 37-625 certification requirement and because the proposed driveway, planters, and movable seating do not comply with the arcade standards of ZR § 37-80 and also require waivers; and

WHEREAS, the Department of City Planning (DCP) has reviewed the changes and supports the plan submitted with this application as Drawings A-02.00 through A-026.00 and L-001.00 through L-520.00; and

WHEREAS, by letter dated September 14, 2001, DCP Counsel stated that a certification under ZR § 37-625 is unavailable for the proposed changes and that it would be appropriate to seek a variance from the Board to waive the requirement that the design changes must be in greater accordance with the public plaza standards and that a certification be obtained; and

WHEREAS, the applicant has acknowledged that the proposed passenger drop-off and driveway located within, and within ten feet of, the North Arcade is the Medical Center's primary need which triggers the remainder of the non-compliances (ZR § 37-80); and

WHEREAS, the applicant has identified the following specific non-compliances which necessitate the variance for the North Plaza: (1) the proposed driveway and passenger drop-off are not permitted obstructions (ZR § 37-726(d)); (2) the proposed canopy exceeds the area, projection, and height limitations for permitted obstructions (ZR § 37-726(c)); (3) more than 50 percent of the sidewalk frontage area is obstructed, and no portion of the unobstructed area has a width of at least eight feet (ZR § 37-721(a)); (4) the circulation paths at their narrowest points are five feet in width, less than the minimum eight feet required (ZR § 37-723); and (5) there are fewer than four trees (ZR § 37-742); and

WHEREAS, the applicant has identified the following specific non-compliances which necessitate the variance for the South Plaza: (1) the proposed baffle wall within the South Plaza is not a permitted obstruction and obstructs the visibility of the major portion of the plaza (ZR §§ 37-726 and 37-715); (2) less than 50 percent of the trees are planted flush at grade (ZR § 37-742); (3) the lawns at the west end exceed a height of six inches above the plaza surface (ZR § 37-742); and (4) permitted obstructions including planting beds and walls and expanded seating exceed 40 percent of the plaza area (ZR § 37-726(b)); and

WHEREAS, the Board agrees with DCP that this case, involving the modification of plaza and arcade conditions for a non-profit institution is a rare example of when a variance is an appropriate means of modifying a site under CPC's jurisdiction and there is limited applicability of such practice; and

WHEREAS, further, the Board notes that the proposed modifications are within the spirit of the plaza and arcade text; and

WHEREAS, the Medical Center proposes to occupy the building with its Ambulatory Care programs including the following: (1) the first floor and mezzanine will be occupied primarily by registration and pre-admission testing; (2) the 11<sup>th</sup> and 12<sup>th</sup> floors will be occupied by Dermatology; (3) the 13<sup>th</sup> floor will be occupied by Dialysis, Nephrology, and Hyperbaric services; (4) the 15<sup>th</sup> through 17<sup>th</sup> floors will be occupied by Rusk Home, a rehabilitation program; the 18<sup>th</sup> and 19<sup>th</sup> floors will be occupied primarily by the Cancer Center and Infusion; (5) the 20<sup>th</sup> floor will be occupied by Clinical Services; (6) the 22<sup>nd</sup> floor will be occupied by Clinical Labs;

---

# MINUTES

---

(7) the 23<sup>rd</sup> floor will be occupied by Endoscopy; and (8) the 2<sup>nd</sup> and 24<sup>th</sup> floors will be occupied by Infrastructure; and

WHEREAS, the applicant states that the following are the programmatic needs of the Medical Center: (1) to provide reasonable access to the building for Ambulatory Care Center patients who are visit the building for out-patient services but who may be frail and have mobility impairment; and (2) to enhance the open space environment for patients and the community; and

WHEREAS, the applicant states the following existing conditions limit the ability of the building to satisfy the Medical Center's programmatic needs: (1) the existing plazas and arcades designed nearly 50 years ago provide minimal amenities and landscaping; (2) both plazas have significant change in grade which impede access (the South Plaza is approximately four feet above the sidewalk, requiring a flight of stairs and a portion of the North Plaza is located 2'-6" below the sidewalk, requiring steps); (3) critical components of the Building's infrastructure and Verizon's facilities are located within the cellar, which precludes a re-grading of the South Plaza; (4) there is a distance of 56 feet between the North Plaza and the main entrance at East 38<sup>th</sup> Street; and (5) an existing exhaust vent faces the South Plaza and discharges large volumes of hot air from Verizon's generators, negatively affecting its habitability; and

WHEREAS, additionally, the applicant notes that there are unique vehicular traffic conditions adjacent to the site including that a portion of East 38<sup>th</sup> Street is a heavily used access route to the Queens-Midtown Tunnel ant that MTA buses use the lane in front of the buildings; and

WHEREAS, the applicant states that the noted physical constraints preclude the Medical Center from occupying the site in compliance with applicable zoning regulations in a way that would satisfy its primary programmatic needs of providing the Ambulatory Care Center's patients with appropriate and reasonable access to the building and enhancing the plazas and arcades to provide an improved environment for patients and community members; and

WHEREAS, in order to meet its programmatic needs, the applicant seeks a variance pursuant to ZR § 72-21; and

WHEREAS, the applicant identifies the following insufficiencies of a design that is fully compliant with zoning regulations: (1) the requirement to climb stairs and travel a distance of 56 feet between the main entrance and the East 38<sup>th</sup> Street curb; (2) the use of the East 38<sup>th</sup> Street curb lane for patient drop-off/pick-up would exacerbate existing traffic congestion, increase waiting times, and conflict with MTA bus use; and (3) the existing minimal amenities and landscaping is barren and uninviting; and

WHEREAS, the applicant asserts that, in contrast, the proposal will improve the site conditions and allow it to accommodate the Medical Center's programmatic needs; and

WHEREAS, the applicant proposes the following improvements to the plazas and arcades: (1) the North Plaza will include a driveway and canopy to create a convenient all-weather drop-off/pick-up area providing frail, elderly, and/or mobility-impaired patients with appropriate access;

(2) an accessible pedestrian ramp in the North Plaza will provide access from the sidewalk to the entrance and an ADA-lift will be installed within the South Plaza to provide access; (3) varied landscaping and seating will be introduced to the plazas to create a more inviting environment for patients and community members, a landscape buffer will separate pedestrians from traffic; (4) the South Plaza will have broad seating terraces and benches and a shaded tree-lined area; (5) a green-screen baffle wall within the South Plaza will protect the adjacent plaza from hot air emitted by the building's exhaust vent, which would improve the environment for landscaping; (6) the plazas will include improved lighting, public information signage, and bicycle racks; (7) the plazas will be resurfaced; and (8) a trellis will be installed in the South Arcade to provide shade and planters and seating will be added; and

WHEREAS, the applicant states that the following conditions which create non-compliances or increase the degree of existing non-compliance are necessitated by the Medical Center's programmatic needs; and

WHEREAS, specifically, the applicant states that the proposed driveway, passenger drop-off, and canopy, which are not permitted plaza obstructions, are needed to provide the Ambulatory Care Center's frail and mobility-impaired patients with immediate, protected access to the building from ambulances and other vehicles; and

WHEREAS, the applicant states that the configuration of the driveway, though designed with the minimum dimensions necessary to accommodate patient vehicles, constrains circulation paths within the plaza to widths of approximately five feet (at least one circulation with a width of eight feet is required) and the presence of the driveway contributes to the obstruction of the plaza's sidewalk frontage, and it limits the width of the access areas along this frontage to less than eight feet (the sidewalk obstruction is required to be limited to 50 percent of the sidewalk frontage and at least one unobstructed portion is to have a width of at least eight feet); and

WHEREAS, the applicant states that other modifications are necessitated by the goal of providing an appropriate and welcoming entry and departure for patients and of improving the open space experience for the community; and

WHEREAS, towards those goals, the applicant proposes the following: (1) the North Plaza will be planted with low greenery instead of trees to allow maximum access to sunlight (the text requires trees within the plaza); (2) the baffle wall will block hot air emitted from generators (the text prohibits such obstructions and requires visibility of the major portion of the plaza); (3) less than 50 percent of the trees within the South Plaza will be planted flush at grade because of existing below-grade conditions and the lawns would exceed a height of six inches above the plaza to allow a planting berm for trees; (4) new seating and landscape features within the South Plaza, which along with existing permitted obstructions exceed 40 percent of the plaza area, will significantly improve the plaza environment; and (5) the planters and movable seating in the South Arcade will make the area more inviting (the text requires that an arcade be unobstructed to a height of 12 feet); and

# MINUTES

---

WHEREAS, the Board acknowledges that the Medical Center, as an educational institution, is entitled to significant deference under the law of the State of New York as to zoning and as to its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, specifically, as held in Cornell Univ. v. Bagnardi, 68 N.Y.2d 583 (1986), an educational institution's application is to be permitted unless it can be shown to have an adverse effect upon the health, safety, or welfare of the community, and general concerns about traffic, and disruption of the residential character of a neighborhood are insufficient grounds for the denial of an application; and

WHEREAS, the Board finds that the Medical Center's programmatic needs are legitimate, and agrees that the proposed modifications are necessary to address its needs, given the site's current limitations; and

WHEREAS, accordingly, based upon the above, the Board finds that the limitations of the current site, when considered in conjunction with the programmatic needs of the Medical Center, create unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, since the Medical Center is a nonprofit educational institution and the variance is needed to further its non-profit mission, the finding set forth at ZR § 72-21(b) does not have to be made in order to grant the variance requested in this application; and

WHEREAS, the applicant represents that the variance, if granted, will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant represents that the land uses surrounding the site are characterized by a mix of mid- and high-rise residential and mixed-use buildings, with commercial buildings to the north and medical and other institutional uses to the south and east; and

WHEREAS, the applicant asserts that the proposal will not alter the scale or envelope of the Building; and

WHEREAS, the applicant asserts that the proposal will enhance the open space to the benefit of the community by introducing landscaping, comfortable seating, and art to the plazas and arcades; and

WHEREAS, the applicant asserts that the design changes would transform the plazas and arcades from their current inaccessible and uninviting appearance to lush and diverse public spaces which are comfortable and aesthetically pleasing; and

WHEREAS, the applicant notes that the proposal has been reviewed by DCP to ensure that the plazas and arcades are as consistent as possible with the public policies served by the ZR's current design standards; and

WHEREAS, the applicant states that the proposed driveway within the North Plaza would reduce vehicular traffic congestion in the area around the Zoning Lot by replacing on-street patient drop-off/pick-up and reducing lane-changing maneuvers; and

WHEREAS, the applicant asserts that the driveway

will have little effect on pedestrians as pedestrian volumes on the block are relatively low for the area; and

WHEREAS, the applicant has agreed to employ a concierge to help direct vehicles and to keep the site well-lit; and

WHEREAS, the applicant asserts that the proposal will serve the goals of the 197-a Plan for the Eastern Section of Community District 6, including increasing the amount of useful public open space in the district; maintaining the character of the neighborhood while accommodating "specialized non-residential uses such as Bellevue/NYU Hospitals;" and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant states that the hardship was not self-created, and that no proposal that would meet the programmatic needs of the Medical Center could occur given the existing conditions; and

WHEREAS, accordingly, the Board finds that the hardship herein was not created by the owner; and

WHEREAS, as to the minimum variance, the applicant states that it designed the driveway with the minimum dimensions necessary to satisfy the Medical Center's programmatic need for a patient drop-off area and that the curb cuts are of the minimum width to accommodate the turning radii of ambulances and other large medical transport vehicles, and the 22-ft. width of the internal driveway area is the minimum needed for two vehicle lanes – one for patient drop-offs/pick-ups and one for passing; and

WHEREAS, further, the applicant asserts that the dimensions of the canopy relate to those of the driveway and the existing arcade and were calculated to provide an adequate amount of weather protection for patients; and

WHEREAS, the applicant states that the other non-complying modifications to the plazas and arcades are the minimum necessary to enhance the open space environment for patients and community members within the design constraints created by the existing building; and

WHEREAS, the Board finds that the requested relief is the minimum necessary to allow the Medical Center to fulfill its programmatic needs; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Sections 617.6(h) and 617.2(h) of 6NYCRR; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 12BSA026M, dated September 15, 2011; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions;

---

---

Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

*Therefore it is Resolved* that the Board of Standards and Appeals issues a Negative determination, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit, on a site in a C1-9/C1-9 Transit Land Use District (TA) zoning district, the modification to existing plazas and arcades including the introduction of a driveway and other obstructions, contrary to ZR §§ 37-625 and 37-80, *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked “Received November 18, 2011”–eighteen (18) sheets; and *on further condition*:

THAT any change in control or ownership of the Medical Center’s condominium interest be reviewed and approved by the Board;

THAT the Medical Center will provide a full-time concierge who will help direct vehicles in the driveway;

THAT the above-noted conditions be noted on the certificate of occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT construction shall proceed in accordance with ZR § 72-23; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, December 13, 2011.

**\*The resolution has been revised to amend a whereas clause, which read in part: *WHEREAS, the applicant has agreed to comply...* and now reads: *WHEREAS, the applicant has agreed to employ a concierge to help direct vehicles and to keep the site well-lit; and* and to removed part of the 2<sup>nd</sup> condition. Corrected in Bulletin Nos. 1-3, Vol. 97, dated January 18, 2012.**

New Case Filed Up to January 24, 2012

-----

## 4-12-BZ

432-440 Park Avenue, northwest corner of Park Avenue and East 56th Street., Block 1292, Lot(s) 33,43,45,46, Borough of **Manhattan, Community Board: 05**. Special Permit (§73-36) to permit the operation of a physical culture establishment. C5-3/C5-2.5 (MID) zoning district. C5-3/C5-2.5(MiD district).

-----

## 5-12-BZ

812 Dahill Road, northwest corner of Dahill Road and 19th Avenue, Block 5445, Lot(s) 39, Borough of **Brooklyn, Community Board: 12**. Variance (§72-21) to permit an addition of a third floor to an existing residential building (two family) in an R5 district (Borough Park-optional provisions for certain R5 and R6 districts in Brooklyn) is contrary to ZR 23-146 © Front Yards, ZR 23-146 (d) Side Yards. R5-Boro Park district.

-----

## 6-12-BZ

39-06 52nd Street, Block 128, Lot(s) 39, 40, Borough of **Queens, Community Board: 02**. Variance (§72-21) to permit 3 family construction and attic to existing 3 family building. R-4 district.

-----

## 7-12-BZ

419 West 55th Street, between 9th and 10th Avenues., Block 1065, Lot(s) 21, Borough of **Manhattan, Community Board: 04**. This application is filed pursuant to Z.R.§73-36, as amended to request a special permit to allow the proposed physical culture establishment ("PCE") a spinning center in a C6-2/R8 zoning district. C6-2/R8 district.

-----

## 8-12-BZ

705 Gravesend Neck Road, north side of Gravesend Neck Road between 7th Street and East 8th Street., Block 7159, Lot(s) 39, Borough of **Brooklyn, Community Board: 15**. This application is filed pursuant to ZR§73-622, as amended, to request a special permit to allow the enlargement of a single family residence located in a residential (R4) zoning district in the Special Ocean Parkway District. R4(OP) district.

-----

## 9-12-BZ

186 Girard Street, corner of Oriental Boulevard and Girard Street, Block 8749, Lot(s) 278, Borough of **Brooklyn, Community Board: 15**. Special Permit (§73-622) to permit the enlargement of an existing single family home and to vary ZR23-141 with respect to floor area ratio. R3-1 district.

-----

## 10-12-BZ

114-01 95th Avenue, northeast corner of 95th Avenue and 114th Street, Block 9400, Lot(s) 37, Borough of **Queens, Community Board: 9**. Application filed to permit legalization of an existing cellar and two story, two-family detached dwelling that does not provide two required front yards contrary to ZR§23-45, and does not provide a required side yard per ZR§23-461. R5 district.

-----

## 11-12-BZ

3599 Bedford Avenue, East side of Bedford Avenue between Avene N and Avenue O., Block 7679, Lot(s) 13, Borough of **Brooklyn, Community Board: 14**. This application is filed pursuant to ZR§ 73-622, as amended, to request a special permit to allow the legalization of an enlargement to a single family residence located in a residential (R2) zoning district. R2 district.

-----

## 12-12-BZ

100 Varick Street, located on the east side of Varick Street, between Broome and Watts Streets, Block 477, Lot(s) 35 &42(tent.35), Borough of **Manhattan, Community Board: 02**. This application seeks variances of ZR Sections 42-10, 43-43 & 44-43 (pursuant to ZR Sections 72-01 & 72-01) to facilitate the construction of a new, 14-story residential building with ground floor retail in an M1-6 district.

-----

## 13-12-BZ

22-21 33rd Street, East side of 33rd, 200' south of corner formed by the intersection of Ditmars Boulevard and 33rd Street., Block 832, Lot(s) 22, Borough of **Queens, Community Board: 1**. New vertical and horizontal enlargement of 1-story on top of the existing building and 2 stories rear extension. Change the use from 2-family house to community facility as new place of Worship (Mosque). R5B district.

-----

## 15-12-A

29-01 Borden Avenue, bounded by Newton Creek, Borden Avenue, Hunters Point Avenue, 30th Street., Block 292, Lot(s) 1, Borough of **Queens, Community Board: 4**. Appeal from determination of Queens Borough Commissioner of the Department of Buildings (1) establishment of non-conforming accessory sign as before February 27, 2001 and (2) proof that discontinuance of accessory use in connection with a sign at the subject property did not occur for a period of two or more years. M3-1 Zoning district. M3-1 district.

-----

---

# DOCKET

---

**16-12-BZ**

148 Nostrand Avenue, northwest corner of Nostrand Avenue and Willoughby Avenue., Block 1753, Lot(s) 42, 53, Borough of **Brooklyn, Community Board: 3**. Special Permit pursuant to ZR§73-19 to allow for school to be located within a M1-2 zoning district, contrary to ZR§42-00. M1-2 zoning district. M1-2 district.

-----

**17-12-A**

409 Seabreeze Walk, north side of Seabreeze Walk, Block 16350, Lot(s) 400, Borough of **Queens, Community Board: 14**. Proposed building not fronting a mapped street contrary to Art 3 Sect. 36 GCL and Sect 27-291 Admin. Code of City of New York. The building is in the bed of a mapped street contrary to Art. 3 Sect 35 of the General City Law. Private disposal system in the bed of a mapped street contrary to D.O.B. policy. R4 zoning district. R4 district.

-----

**18-12-A**

377 Bayside Avenue, Block 16340, Lot(s) 50, Borough of **Queens, Community Board: 15**. Proposed building and site not fronting a mapped street contrary to Art. 3 Sect. 36 GCL and Sect. C27-291 of Admin. Code. R4 Zoning District. R4 district.

-----

**DESIGNATIONS: D-Department of Buildings; B.BK.-Department of Buildings, Brooklyn; B.M.-Department of Buildings, Manhattan; B.Q.-Department of Buildings, Queens; B.S.I.-Department of Buildings, Staten Island; B.BX.-Department of Building, The Bronx; H.D.-Health Department; F.D.-Fire Department.**

---

# CALENDAR

---

**FEBRUARY 7, 2012, 10:00 A.M.**

**NOTICE IS HEREBY GIVEN** of a public hearing, Tuesday morning, February 7, 2012, 10:00 A.M., at 40 Rector Street, 6<sup>th</sup> Floor, New York, N.Y. 10006, on the following matters:

-----

## **SPECIAL ORDER CALENDAR**

### **348-75-BZ**

APPLICANT – Eric Palatnik, P.C., for Moises A. Villa Delgado, owner.

SUBJECT – Application October 31, 2011 – Waiver of the Rules of Practice and Procedure and an extension of the term of the variance.

PREMISES AFFECTED – 1050 Forest Avenue, between Manor Road and Raymond Place, Block 315, Lot 39, Borough of Staten Island.

**COMMUNITY BOARD #1SI**

-----

### **135-01-BZ**

APPLICANT – Rothkrug Rothkrug & Spector, LLP, for Go Go Leasing Corp., owner.

SUBJECT – Application November 29, 2011 – Extension of Term (§11-411) of a previously approved variance which permitted a high speed auto laundry (Use Group 16B) which expired on October 30, 2011. C1-2(R5) zoning district.

PREMISES AFFECTED – 1815/17 86<sup>th</sup> Street, 78'-8.3" northwest 86<sup>th</sup> Street and New Utrecht Avenue, Block 6344, Lot 69, Borough of Brooklyn.

**COMMUNITY BOARD #11BK**

-----

### **148-10-BZ**

APPLICANT – Eric Palatnik, P.C., for Giselle E. Salamon, owner.

SUBJECT – Application June 23, 2011 – Amendment (§73-622) for the enlargement of an existing single family home. This application seeks to vary open space and floor area (§23-141) and less than the required rear yard (§23-47) and side yard (23-461) in an R3-2 zoning district.

PREMISES AFFECTED – 1559 East 29<sup>th</sup> Street, between Avenue P and Kings Highway, Block 7690, Lot 20, Borough of Brooklyn.

**COMMUNITY BOARD #15BK**

-----

**APPEALS CALENDAR**

### **149-11-A thru 151-11-A**

APPLICANT – Sheldon Lobel, P.C., for Eastern 7 Inc., owner.

SUBJECT – Application September 16, 2011 – Application filed pursuant to New York City Charter Sections 666.7 to vary the prohibition against construction within 30' of the street line of Eastern Parkway as set forth in Administrative Code Section 18-112 and cited in New York City Building Code Section 3201.3.1, to allow the construction of three 2-family homes at the premises. R6 zoning district.

PREMISES AFFECTED – 1789, 1793 & 1797 St. John's Place, northeast corner of intersection formed by St. John's Place and Eastern Parkway, Block 1471, Lot 65, 67, 68, Borough of Brooklyn.

**COMMUNITY BOARD #16BK**

-----

### **161-11-A**

APPLICANT – Quinn McCabe, LLP, for Britton Property, Inc., owner.

SUBJECT – Application October 14, 2011 – Appeal seeking to vacate a Stop Work Order and rescind revocation of building permits based on lack of adjacent property owner authorization. R7B Zoning District.

PREMISES AFFECTED – 82-20 Britton Avenue, east side of Britton Avenue between Broadway and Layton Street, Block 1517, Lot 3, Borough of Queens.

**COMMUNITY BOARD #4Q**

-----

**FEBRUARY 7, 2012, 1:30 P.M.**

**NOTICE IS HEREBY GIVEN** of a public hearing, Tuesday afternoon, February 7, 2012, at 1:30 P.M., at 40 Rector Street, 6<sup>th</sup> Floor, New York, N.Y. 10006, on the following matters:

-----

## **ZONING CALENDAR**

### **104-11-BZ**

APPLICANT – Eric Palatnik, P.C., for Leonard Gamss, owner.

SUBJECT – Application July 25, 2011 – Special Permit (§73-622) for the Legalization of an enlargement to an existing single family home, contrary to floor area, lot coverage and open space (§23-141(b)) and less than the required rear yard (§23-47). R3-2 zoning district.

PREMISES AFFECTED – 1936 East 26<sup>th</sup> Street, between Avenues S and T, Block 7304, Lot 21, Borough of Brooklyn.

APPLICANT – Stuart A. Klein, for Ascot Properties Ltd., owner; Gold’s Gym, lessee.

SUBJECT – Application October 6, 2011 – Extension of Term of a special permit (§73-36) for the continued operation of a physical culture establishment (*Gold's Gym*) which expired on November 1, 2011. C6-5 zoning district. PREMISES AFFECTED – 250 West 54<sup>th</sup> Street, between Broadway and 8<sup>th</sup> Avenue, Block 1025, Lot 54, Borough of Manhattan.

**COMMUNITY BOARD #5M**

APPEARANCES –

For Applicant: Christopher Slowik

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5  
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of the term of a previously granted special permit for a physical culture establishment (“PCE”), which expired on November 1, 2011; and

WHEREAS, a public hearing was held on this application on December 13, 2011, after due notice by publication in *The City Record*, and then to decision on January 24, 2012; and

WHEREAS, the site and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, the PCE is located on the south side of West 54<sup>th</sup> Street between Broadway and Eighth Avenue, in a C6-5 zoning district within the Theater Subdistrict of the Special Midtown District; and

WHEREAS, the PCE occupies a total of approximately 20,000 sq. ft. of floor area in portions of the first, second and third floor of a 12-story commercial building; and

WHEREAS, the PCE is operated as Gold’s Gym; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 28, 2009 when, under the subject calendar number, the Board granted a special permit to legalize a PCE in the subject building for a term of ten years from the date it began operating, to expire on November 1, 2011; and

WHEREAS, the applicant now seeks to extend the term of the special permit for an additional ten years; and

WHEREAS, based upon its review of the record, the Board finds the requested extension of term is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *reopens and amends* the resolution, as adopted on July 28, 2009, so that as amended this portion of the resolution shall read: “to extend the term for a period of ten years from November 1, 2011, to expire on November 1, 2021, *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked ‘Received October 6, 2011’-(5) sheets and ‘November 22, 2011’-(1) sheet; and *on further condition*:

THAT the term of this grant shall expire on November 1, 2021;

THAT the above condition shall be listed on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.” (DOB Application No. 110405491)

Adopted by the Board of Standards and Appeals, January 24, 2012.

**141-66-BZ**

APPLICANT – The Law Office of Fredrick A. Becker, for Rising Wolf Garage LLC, owner.

SUBJECT – Application June 29, 2011 – Extension of Term of a previously granted Variance (§72-21) for the continued operation of a UG 8 motor vehicle storage facility (*Rising Wolf Motorcycle Parking Garage*) which expired on July 1, 2010; Amendment to enclose open parking area; and Waiver of the Rules. APPLICANT – Beach Haven Group, LLC, for MTA/SBRW, lessee.

SUBJECT – Application January 26, 2011 – Proposed reconstruction of a tennis club located within the bed of a mapped street (Atwater Court and Colby Court), contrary to General City Law Section 35. R5 zoning district.

PREMISES AFFECTED – 2781 Shell Road, Atwater Court bounded by Shell Road and West 3<sup>rd</sup> Street, Colby Court bounded by Bokee Court and Atwater Court, Block 7232, Lot 1, 70, Borough of Brooklyn.

### COMMUNITY BOARD #13BK

APPEARANCES – None.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

**THE RESOLUTION** –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated December 28, 2010, acting on Department of Buildings Application No. 320178874, reads in pertinent part:

“Proposed construction or development in the bed of final mapped street is contrary to Section 35 of the General City Law and must be referred to the Board of Standards and Appeals;” and

WHEREAS, this is a proposal for the upgrade and reconfiguration of a non-commercial tennis club (Use Group 4), consisting of the construction of 14 tennis courts covered by temporary dome structures rising to a maximum height of 40 feet, a one-story club house building, and approximately 26 accessory parking spaces, within the bed of two mapped streets, Atwater Court and Colby Court, within an R5 zoning district; and

WHEREAS, a public hearing was held on this application on January 10, 2012 after due notice by publication in the *City Record*, and then to decision on January 24, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez and Commissioner Ottley-Brown; and

WHEREAS, by letter dated September 22, 2011, the Fire Department states that it has reviewed the subject proposal and has no objections; and

WHEREAS, by letter dated March 10, 2011, the Department of Transportation (“DOT”) states that it has reviewed the subject proposal and has no objections; and

WHEREAS, DOT states that the applicant’s property is not included in the agency’s ten-year capital plan; and

WHEREAS, by letter dated February 8, 2011, the Department of Environmental Protection (“DEP”) states that: (1) there are no existing City sewers within the referenced location; (2) there is an existing eight-inch diameter City water main in mapped Colby Court between Shore Parkway and mapped Atwater Court and an existing eight-inch diameter City water main in mapped Atwater Court between West Third Street and mapped Colby Court; and (3) City Drainage Plan No. 1316B reflects for a future ten-inch diameter sanitary sewer and 12-inch diameter storm sewer to be installed in mapped Colby Court between Shore Parkway and mapped Atwater Court and for a future ten-inch diameter sanitary sewer and 12-inch diameter storm sewer in mapped Atwater Court between Shell Road and mapped Colby Court; and

WHEREAS, DEP further states that it requires the applicant to submit a revised survey/plan showing the following: (1) the width of the mapped portion of Colby Court between Bokee Court and Avenue Z and the width of the mapped portion of Atwater Court between Shell Road and mapped Colby Court; (2) the distance from the easterly lot line to the end cap of the eight-inch diameter City water main in mapped Atwater Court; (3) a 33-ft. wide sewer corridor in the bed of mapped Colby Court between mapped Bokee Court and mapped Atwater Court for the installation, maintenance and/or reconstruction of the future ten-inch diameter sanitary sewer, 12-inch diameter storm sewer and the existing eight-inch diameter City water main; and (4) a 32-ft. wide sewer corridor in the bed of mapped Atwater Court between Shell Road and mapped Colby Court for the installation, maintenance and/or reconstruction of the future ten-inch diameter sanitary sewer and 12-inch diameter storm sewer; and

WHEREAS, in response to DEP’s request, the applicant submitted a drawing to DEP which shows: (1) a 35-ft. wide sewer corridor in the mapped Colby Court between mapped Bokee Court and mapped Atwater Court; (2) a 35-ft. wide sewer corridor in the bed of mapped Atwater Court between mapped Shell Road and mapped Colby Court; (3) that new valves will be installed on the eight-inch diameter water main lines 18 inches from the curb line in the sidewalk area; and (4) that maintenance of the existing water main inside the property will be the responsibility of the owner; and

WHEREAS, by letter dated November 22, 2011, DEP states that it reviewed the revised drawing and that it has no further objections, provided a Deed Restriction Document stating that the parcels cannot be sold separately be recorded in the City Register and submitted to the Brooklyn Records office prior to the issuance of a connection permit; and

WHEREAS, in response, the applicant submitted a Deed Restriction Document recorded in the City Register, stating: (1) the applicant is responsible for the cost of the maintenance of the water mains located beneath Colby Court and Atwater Court; (2) DEP shall have access to the sewer corridor; and (3) the applicant cannot sell or otherwise transfer the parcels individually; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

*Therefore it is Resolved* that the decision of the Brooklyn

# MINUTES

Borough Commissioner, dated December 28, 2010, acting on Department of Buildings Application Nos. 320178874 is modified by the power vested in the Board by Section 35 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked "Received January 10, 2012" – (1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT DOB shall review the proposed plans to ensure compliance with all relevant provisions of the Zoning Resolution; and

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 24, 2012.

-----

## 170-11-A & 171-11-A

APPLICANT – Randy M. Mastro of Gibson, Dunn & Crutcher, LLP, for Win Restaurant Equipment and Supply Corporation, owner; Fuel Outdoor, LLC, lessee.

SUBJECT – Application October 28, 2011– Appeal seeking a common law vested right for a sign under the prior zoning regulations, which were amended on February 27, 2001. M1-5B

PREMISES AFFECTED – 318 Lafayette Street, north west corner of Houston and Lafayette Streets, Block 522, Lot 24, Borough of Manhattan.

#### APPEARANCES –

For Applicant: Trevis D. Lenkner.

**ACTION OF THE BOARD** – Appeal granted.

#### THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

#### THE RESOLUTION –

WHEREAS, this is an appeal requesting a Board determination that the owner of the premises has obtained the right to maintain two advertising signs under the common law doctrine of vested rights; and

WHEREAS, a public hearing was held on this application on December 13, 2011, after due notice by publication in *The City Record* and then to decision on January 24, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-

Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the site is located on a through lot on the north side of Houston Street with frontage on Crosby Street and Lafayette Street; and

WHEREAS, the site is occupied by a five-story commercial building and the Houston Street and Lafayette Street facades are each occupied by one indirectly illuminated vinyl advertising sign (respectively, the "South Sign" and "East Sign"); and

WHEREAS, the applicant proposes to maintain the two advertising signs (the "Signs"); and

WHEREAS, the subject site is currently located and was at all relevant times located within an M1-5B zoning district; as of the June 29, 1999 Landmark Preservation Commission's (LPC) designation, the site is within the Noho Historic District; and

WHEREAS, the Signs comply with the former M1-5B zoning district parameters, specifically with respect to sign size, height, and illumination; and

WHEREAS, however, on February 27, 2001 (the "Enactment Date"), the City Council voted to adopt amendments to the Article IV, Chapter 2 of the Zoning Resolution to impose restrictions on height, size, and illumination of advertising signs in certain M1-5B zoning districts, including the subject zoning district; and

WHEREAS, accordingly, the Signs do not comply with current zoning regulations; and

WHEREAS, the applicant asserts that it maintained the Signs, pursuant to permits issued in 1999, until 2006 when the Department of Buildings (DOB) audited both applications, issued zoning and Code objections, and notified the applicant of its intent to revoke the permits; and

WHEREAS, following a series of meetings regarding the Signs and permits, on February 22, 2011, DOB issued final determinations that included the determination that both sign permits lapsed because work was not completed as of the Enactment Date; DOB also stated: "2/27/01, the effective date of the text amendment governing advertising signs, the construction authorized by the permit(s) was not completed because the sign[s] that w[ere] constructed . . . failed to conform to the approved plans"; and

WHEREAS, accordingly, the applicant filed two companion appeals, pursuant to BSA Cal. Nos. 29-11-A and 30-11-A, challenging DOB's determination that both sign permits lapsed on the Enactment Date in 2001; DOB asserted that the permits lapsed because the applicant failed to complete construction in accordance with the approved plans as required under ZR § 11-332; and

WHEREAS, the companion appeal applications are adjourned pending the outcome of the subject vesting applications, which the applicant filed for alternative relief; the applicant stated that it will withdraw the appeals if it succeeds in establishing the vesting criteria; and

WHEREAS, as a threshold matter in determining this appeal, the Board must find that the construction was conducted pursuant to valid permits; and

WHEREAS, the applicant states that on June 10, 1999,

---

# MINUTES

---

DOB issued permits for two indirectly illuminated signs at 318 Lafayette Street: Permit No. 101997706 (the "East Sign Permit") and Permit No. 101997699 (the "South Sign Permit") (together, the "Sign Permits"), authorizing the installation of two indirectly illuminated advertising signs pursuant to M1-5B sign regulations in effect at that time; and

WHEREAS, the plans associated with the South Sign Permit reflect a horizontal dimension of 60 feet, a vertical dimension of 70 feet, a surface area of 4,200 sq. ft., and indirect illumination; and

WHEREAS, the plans associated with the East Sign Permit reflect a horizontal dimension of 40 feet, a vertical dimension of 55 feet, a surface area of 2,200 sq. ft., and indirect illumination; and

WHEREAS, the Board notes that the DOB plans (form PW1) for the South Sign Permit were attached to the application for the East Sign Permit (and vice versa) and asked the applicant to explain the discrepancy; and

WHEREAS, in response, the applicant explained that it was an administrative error traced to the small cartographic legend on each permit application which has a directional arrow pointing to the incorrect building wall; and

WHEREAS, further, the applicant states that the Sign Permits and plans reflect the proper dimensions and wall designations with just the wrong directional arrow in the legend; and

WHEREAS, DOB determined that the Sign Permits lapsed by operation of law on the Enactment Date because the plans did not comply with the new sign regulations and the applicant did not affirmatively establish its vested rights between the Enactment Date and DOB's 2011 final determination on the matter; and

WHEREAS, however, by letter dated January 19, 2012, DOB states that the Sign Permits were lawfully issued, authorizing installation of the Signs prior to the Enactment Date; and

WHEREAS, DOB stated at hearing in the associated appeal applications that it would allow the approved sign plans to be corrected to reflect the as-built conditions through a post-approval amendment and that such a correction would not disturb its determination that the permits were lawfully issued and thus valid; and

WHEREAS, DOB and the applicant agree that the as-built Signs were installed contrary to plan, as discussed below in more detail; the applicant asserts and has provided evidence to support its assertion that the Signs' dimensions have remained the same since their installation; this has not been contested nor has the continuity status of the Signs since the Enactment Date; and

WHEREAS, the Board has reviewed the record and agrees that the Sign Permits were lawfully issued to the owner of the subject premises prior to the Enactment Date; and

WHEREAS, the Board notes that when work proceeds under a valid permit, a common law vested right to continue construction after a change in zoning generally exists if: (1) the owner has undertaken substantial construction; (2) the owner has made substantial expenditures; and (3) serious loss will result if the owner is denied the right to proceed under the prior

zoning; and

WHEREAS, specifically, as held in Putnam Armonk, Inc. v. Town of Southeast, 52 A.D.2d 10 (2d Dept. 1976), where a restrictive amendment to a zoning ordinance is enacted, the owner's rights under the prior ordinance are deemed vested "and will not be disturbed where enforcement [of new zoning requirements] would cause 'serious loss' to the owner," and "where substantial construction had been undertaken and substantial expenditures made prior to the effective date of the ordinance"; and

WHEREAS, however, notwithstanding this general framework, as discussed by the court in Kadin v. Bennett, 163 A.D.2d 308 (2d Dept. 1990) "there is no fixed formula which measures the content of all the circumstances whereby a party is said to possess 'a vested right'. Rather, it is a term which sums up a determination that the facts of the case render it inequitable that the State impede the individual from taking certain action"; and

WHEREAS, as to substantial construction, first the applicant notes that the construction of the South Sign varies from the approved plans in that the installed South Sign has a horizontal dimension of 76 feet (versus 60 feet reflected on the plans), a vertical dimension of 55 feet (versus 70 feet reflected on the plans), and a surface area of 4,180 sq. ft. (versus 4,200 sq. ft. reflected on the plans); the approved and as-built conditions both have a height of approximately 72'-8"; and

WHEREAS, the applicant notes that the construction of the East Sign varies from the approved plans in that the installed East Sign has a horizontal dimension of 46 feet (versus 40 feet reflected on the plans), a vertical dimension of 30 feet (versus 55 feet reflected on the plans), and a surface area of 1,380 sq. ft. (versus 2,200 sq. ft. reflected on the plans); the approved and as-built conditions both have a height of approximately 60 feet; and

WHEREAS, due to the fact that the approved and as-built conditions differ, for the purposes of the vesting analysis, the applicant identified the portions of the as-built signs and sign hardware and lighting fixtures which fit within the parameters of the approved signs; and

WHEREAS, accordingly, because of the variation, the applicant did not credit the entirety of the as-built signs towards its substantial construction analysis, but only the portions of the as-built signs which overlap with the approved signs and would have been a part of the signs if installed in full accordance with the approved plans; and

WHEREAS, the applicant states that prior to the Enactment Date, the owner had completed the following work within the parameters of the approved South Sign: a sign area with a horizontal dimension of 60 feet, a vertical dimension of 55 feet, and a surface area of 3,300 sq. ft.; when compared against the South Sign reflected on the approved plans, the amount of work completed is 78.6 percent of the 4,200 sq. ft. sign; and

WHEREAS, additionally, the applicant states that it installed eight of the eight light fixtures (100 percent); and 27 of 50 required mounting clips (54 percent) required for

---

# MINUTES

---

the installation of the approved South Sign; and

WHEREAS, the applicant notes that it installed two additional lighting fixtures for the South Sign, but only credited the eight which would be required to illuminate the sign as reflected on the approved plans; and

WHEREAS, the applicant states that prior to the Enactment Date, the owner had completed the following work within the parameters of the approved East Sign: a sign area with a horizontal dimension of 40 feet, a vertical dimension of 30 feet, and a surface area of 1,200 sq. ft.; when compared against the East Sign reflected on the approved plans, the amount of work completed is 54.5 percent of the 2,200 sq. ft. sign; and

WHEREAS, additionally, the applicant states that it installed six of the six light fixtures (100 percent); and 25 of 43 required mounting clips (58 percent) required for the installation of the approved East Sign; and

WHEREAS, the applicant states that it derived percentages by examining what portion of the current sign hardware falls within the dimensions of the signs if they had been constructed pursuant to permit specifications; and

WHEREAS, in support of the assertion that the Signs were installed after the permit issuance on June 10, 1999 and prior to the Enactment Date, the applicant submitted the following evidence: photographs taken by LPC prior to June 1999 (to establish the Signs were not yet in place prior to the permit issuance); a photograph taken in late 1999, which show that the Signs were installed; a photograph taken between February and May 2000 to show the Signs were installed; an aerial survey from June 20, 2000 to show that the Signs were installed; and a photograph from August 5, 2000 to show that the Signs were installed; and

WHEREAS, the applicant also submitted (1) an affidavit from an employee of the sign company who oversaw permitting, installation, and maintenance of signs from 1999 to 2006 asserting that the Signs were completed as seen and described and have been maintained accordingly; (2) a copy of 1998 DOB Bureau of Electrical Control permits to perform electrical work; and (3) communication from a sign installation company from 1997, which describes the installation of exterior electrical fixtures, consistent with what was installed to illuminate the Signs; and

WHEREAS, the Board has reviewed the representations as to the amount and type of work completed before the Enactment Date and the documentation submitted in support of these representations, and agrees that it establishes that substantial work was performed; and

WHEREAS, the Board concludes that the total amount of work completed when measured as a percentage of the total amount of work required to complete the approved signs achieves the level of substantial construction; and

WHEREAS, as to expenditure, the applicant states that the principal expenditures to construct the Signs are planning, hardware, and labor expenses; and

WHEREAS, the applicant states that prior to the Enactment Date, the owner expended \$26,250 on materials and installation for the South Sign and \$18,500 on materials and

installation for the East Sign; and

WHEREAS, as proof of the expenditures, the applicant has submitted an affidavit from the sign company representative who oversaw the work attesting to the industry standards for such a project in 1999; and

WHEREAS, the applicant provided additional figures in its analysis including: (1) the amount of expenditures incurred for work within the permitted sign dimensions: \$19,817.90 for the South Sign and \$16,055.50 for the East Sign and (2) the total expenditures necessary to complete the approved signs: \$24,985 for the South Sign and \$20,055.46 for the East Sign; and

WHEREAS, the applicant concluded that the percentage of expenditures incurred relative to the total expenditures necessary to complete the approved signs are: \$19,817.90/\$24,985 or 79.3 percent for the South Sign and \$16,055.50/\$20,055.46 or 80.1 percent for the East Sign; and

WHEREAS, the Board considers the amount of expenditures significant when compared with the total required costs; and

WHEREAS, again, the Board's consideration is guided by the percentages of expenditure cited by New York courts considering how much expenditure is needed to vest rights under a prior zoning regime; and

WHEREAS, as to serious loss, the Board considers not only whether certain improvements and expenditures could not be recouped under the new zoning, but also considerations such as the diminution in income that would occur if the new zoning were imposed and the reduction in value between the proposal and that which would be permitted under the new zoning; and

WHEREAS, the applicant notes that the current zoning regulations and the LPC's jurisdiction not in effect at the time of the Sign Permits' issuance present considerable constraints; and

WHEREAS, the applicant states that if the owner is not permitted to vest under the former zoning, the Signs' surface area would decrease from the existing 4,180 sq. ft. for the South Sign and 1,380 sq. ft. for the East Sign to a maximum surface area of between 500-750 sq. ft., depending on whether they maintain their indirect illumination and other accessory signage at the site; but, in any event, the total surface area of indirectly illuminated advertising signage on the site may not exceed 1,418.75 sq. ft.; and

WHEREAS, in addition to the reduction in surface area, by zoning, the applicant asserts that LPC would only approve a painted sign of a maximum of 20 percent the size of the wall on the south wall and no sign would be permitted on the east wall due to the presence of windows; neither sign would be permitted to be indirectly illuminated as they are now; and

WHEREAS, in support of these assertions, the applicant submitted a letter dated October 7, 2005 from LPC, which details the restrictions it imposes on signs within historic districts; and

WHEREAS, by letter dated April 23, 2003 and

# MINUTES

introduced into the record for the companion appeal applications, LPC states that it accepts that the Signs were established prior to the historic district designation and, thus, LPC approval is not required; and

WHEREAS, all parties agree that if vesting is not established, the property owner would be subject to LPC approval; and

WHEREAS, in sum, the applicant asserts that a painted, non-illuminated sign with a surface area of 750 sq. ft. would be permitted on the south wall and no sign would be permitted on the east wall; and

WHEREAS, as to economic loss, the applicant states that it currently receives \$40,381.28 per month for the South Sign and \$8,500 per month for the East Sign for a monthly total of \$48,881.28; and

WHEREAS, the applicant estimates the rent under current regulations to be \$2,500 for the South Sign and \$0 for the East Sign for a monthly total of \$2,500; the applicant estimates that the monthly loss would be \$46,381.28 and that the monthly and annual percentage loss would be 95 percent; and

WHEREAS, the applicant included lease agreements to support its assertions as to the current income and an affidavit from the sign company to support the projections for the expected income for complying signs; and

WHEREAS, the Board agrees that the constraints on complying signs, coupled with the loss of income, constitutes a serious economic loss, and that the evidence submitted by the applicant supports this conclusion; and

WHEREAS, in sum, the Board has reviewed the representations as to the work performed, the expenditures made, and serious loss, and the supporting documentation for such representations, and agrees that the applicant has satisfactorily established that a vested right to maintain the Signs had accrued to the owner of the premises as of the Enactment Date.

*Therefore it is Resolved* that this appeal made pursuant to the common law doctrine of vested rights requesting a reinstatement of Permit Nos. 101997706 and 101997699, as well as all related permits for various work types, either already issued or necessary to obtain final DOB approval, is granted for two years from the date of this grant.

Adopted by the Board of Standards and Appeals, January 24, 2012.

Negative:.....0

**THE RESOLUTION –**

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated May 25, 2011, acting on Department of Buildings Application No. 320297059, reads in pertinent part:

Proposed plans are contrary to ZR 23-141(a) in that the proposed floor area ratio (FAR) exceeds the permitted 50%.

Proposed plans are contrary to ZR 23-141(a) in that the proposed open space ratio (OSR) is less than the required 150%.

Plans are contrary to ZR 23-461(a) in that the existing minimum side yard is less than the required minimum 5'-0".

Proposed plans are contrary to ZR 23-47 in that the proposed rear yard is less than 30'-0"; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03, to permit, in an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio ("FAR"), open space ratio, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461 and 23-47; and

WHEREAS, a public hearing was held on this application on November 22, 2011, after due notice by

publication in *The City Record*, with a continued hearing on December 13, 2011, and then to decision on January 24, 2012; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Montanez; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of East 26<sup>th</sup> Street, between Avenue M and Avenue N, within an R2 zoning district; and

WHEREAS, the subject site has a total lot area of 3,000 sq. ft., and is occupied by a single-family home with a floor area of 1,863 sq. ft. (0.62 FAR); and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 1,863 sq. ft. (0.62 FAR) to 2,994 sq. ft. (1.0 FAR); the maximum permitted floor area is 1,500 sq. ft. (0.50 FAR); and

WHEREAS, the applicant proposes to provide an open space ratio of 58 percent (150 percent is the minimum required); and

WHEREAS, the applicant proposes to maintain the existing side yard along the southern lot line with a width of 3'-0", and to provide a side yard along the northern lot line with a width of 6'-8" (two side yards with a minimum width of 5'-0" each, and a total width of 13'-0", are required); and

WHEREAS, the applicant states that pursuant to ZR § 23-48, four inches may be subtracted from the minimum combined side yard regulations for every foot by which the lot width is less than the required minimum width of 40'-0"; therefore, since the subject lot has a width of 30'-0", the required total width of the side yards can be reduced by 3'-4" from 13'-0", to the proposed width of 9'-8"; and

WHEREAS, the Board notes that, as required by ZR § 23-48(b), the applicant submitted deeds and other evidence establishing that the subject zoning lot was owned separately and apart from all other adjoining tracts of land, both on December 15, 1961 and on the date of the application for a building permit; and

WHEREAS, the proposed enlargement will provide a rear yard with a depth of 20'-0" (a minimum rear yard depth of 30'-0" is required); and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, and will not impair the future use or development of the surrounding area; and

WHEREAS, the applicant submitted a chart and an area map reflecting that there are at least seven homes within a 200-ft. radius of the site with an FAR of 1.0 or greater, including five homes located on the subject block; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

# MINUTES

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, within an R2 zoning district, the enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio, open space ratio, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461 and 23-47; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received November 9, 2011"-(11) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area of 2,994 sq. ft. (1.0 FAR); a minimum open space ratio of 58 percent; a side yard with a minimum width of 3'-0" along the southern lot line; a side yard with a minimum width of 6'-8" along the northern lot line; and a rear yard with a minimum depth of 20'-0", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT DOB shall review and approve compliance with the planting requirements under ZR § 23-451;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 24, 2012.

## 106-11-BZ

### CEQR #12-BSA-006Q

APPLICANT – Sheldon Lobel, P.C., for Tag Court Square, LLC, owner; Long Island City Fitness Group, LLC, owner.

SUBJECT – Application August 2, 2011 – Special Permit (§73-36) to allow the operation of a physical culture establishment (*Planet Fitness*). M1-5/R7-3/Long Island City zoning district.

PREMISES AFFECTED – 27-28 Thomson Avenue, triangular zoning lot with frontages on Thomson Street and Court Square, adjacent to Sunnyside Yards. Block 82, Lots 7501 (1001), Borough of Queens.

### COMMUNITY BOARD #2Q

APPEARANCES –

For Applicant: Josh Rinesmith.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated July 12, 2011, acting on Department of Buildings Application No. 420348270, reads in pertinent part:

Proposed change of use to a physical culture establishment is contrary to ZR Section 32-10 and must be referred to the BSA for approval pursuant to ZR Section 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located in an M1-5/R7-3 zoning district within the Queens Plaza Subdistrict of the Special Long Island City District, the operation of a physical culture establishment ("PCE") in a portion of the first floor of an eight-story mixed-use residential/commercial condominium building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on October 18, 2011, after due notice by publication in *The City Record*, with a continued hearing on December 13, 2011, and then to decision on January 24, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Queens, states that it has no objection to this application; and

WHEREAS, the subject site is a triangular-shaped corner lot located between Thomson Avenue and Court Square in an M1-5/R7-3 zoning district within the Queens Plaza Subdistrict of the Special Long Island City District; and

WHEREAS, the site has 517 feet of frontage on Thomson Avenue, 376 feet of frontage on Court Square, and a total lot area of 76,785 sq. ft.; and

WHEREAS, the subject site is occupied by an eight-

---

# MINUTES

---

story mixed-use residential / commercial condominium building; and

WHEREAS, the proposed PCE will occupy 15,966 sq. ft. of floor area on a portion of the first floor; and

WHEREAS, the PCE will be operated as Planet Fitness; and

WHEREAS, the proposed PCE will be open 24 hours per day, seven days per week; and

WHEREAS, the applicant represents that the services at the PCE include facilities for instruction and programs for physical improvement; and

WHEREAS, the applicant states that the Special Long Island City District and Queens Plaza Subdistrict regulations do not prohibit the use of the first floor of the subject building for the proposed PCE use; and

WHEREAS, at hearing, the Board directed the applicant to clarify the sound attenuation measures proposed for the PCE and confirm that the use will not adversely affect the residential apartments located above the PCE space; and

WHEREAS, in response, the applicant submitted revised plans and a report from a sound engineer stating that airborne and structureborne sound attenuation measures will be installed that meet or exceed the Noise Control Code limits, and which will reduce the noise transmission levels from the PCE to the residential apartments above to a level of 7 dBA above the ambient noise level during overnight hours; and

WHEREAS, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No. 12BSA006Q, dated August 2, 2011; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows;

Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved* that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site located in an M1-5/R7-3 zoning district within the Queens Plaza Subdistrict of the Special Long Island City District, the operation of a physical culture establishment on a portion of the first floor of an eight-story mixed-use residential/commercial condominium building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received December 5, 2011" - (4) sheets, and *on further condition*:

THAT the term of this grant shall expire on January 24, 2022;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages shall be performed by New York State licensed massage therapists;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT sound attenuation measures shall be installed in the PCE as shown on the Board-approved plans;

THAT fire safety measures shall be installed and/or maintained as shown on the Board-approved plans;

THAT substantial construction shall be completed in accordance with ZR §73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 24, 2012.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

**THE RESOLUTION** –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated August 8, 2011, acting on Department of Buildings Application No. 320325028, reads in pertinent part:

Proposed plans are contrary to ZR 23-141 in that the proposed floor area exceeds the maximum permitted.

Proposed plans are contrary to ZR 23-141 in that the proposed open space ratio is less than the minimum required.

Proposed plans are contrary to ZR 23-141 in that the proposed lot coverage exceeds the maximum permitted.

Proposed plans are contrary to ZR 23-461 in that the proposed side yard is less than the minimum required.

Proposed plans are contrary to ZR 23-47 in that the proposed rear yard is less than the minimum required; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03, to permit, in an R3-2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area, open space ratio, lot coverage, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461 and 23-47; and

WHEREAS, a public hearing was held on this application on December 13, 2011, after due notice by publication in *The City Record*, and then to decision on January 24, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan and Commissioner Montanez; and

WHEREAS, Community Board 15, Brooklyn,

recommends approval of this application; and

WHEREAS, the subject site is located on the west side of East 23<sup>rd</sup> Street, between Avenue R and Avenue S, within an R3-2 zoning district; and

WHEREAS, the subject site has a total lot area of 4,000 sq. ft., and is occupied by a single-family home with a floor area of 2,127 sq. ft. (0.53 FAR); and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 2,127 sq. ft. (0.53 FAR) to 3,964 sq. ft. (0.99 FAR); the maximum permitted floor area is 2,000 sq. ft. (0.50 FAR); and

WHEREAS, the applicant proposes to provide an open space ratio of 61 percent (150 percent is the minimum required); and

WHEREAS, the applicant proposes to provide a lot coverage of 42 percent (35 percent is the maximum permitted); and

WHEREAS, the applicant proposes to maintain the existing side yard along the northern lot line with a width of 4'-3 5/16", and to maintain the existing side yard along the southern lot line with a width of 8'-10 1/2" (two side yards with minimum widths of 5'-0" each are required); and

WHEREAS, the proposed enlargement will provide a rear yard with a depth of 20'-0" (a minimum rear yard depth of 30'-0" is required); and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, and will not impair the future use or development of the surrounding area; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03.

*Therefore it is resolved*, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, within an R3-2 zoning district, the enlargement of a single-family home, which does not comply with the zoning requirements for floor area, open space ratio, lot coverage, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461 and 23-47; *on condition*

**529-52-BZ**

APPLICANT – Alfonso Duarte, P.E., for Alacorn-Mordini Enterprises Inc., owner.

SUBJECT – Application June 7, 2011 – Extension of Term (§11-411) of a variance permitting automotive repair (UG 16B) with accessory uses which expired on May 9, 2011. C2-3/R6 zoning district.

PREMISES AFFECTED – 77-11 Roosevelt Avenue, north west corner Roosevelt Avenue & 78<sup>th</sup> Street. Block 1288, Lot 39. Borough of Queens.

**COMMUNITY BOARD #3Q**

APPEARANCES –

For Applicant: Alfonso Duarte.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of the term of a previously granted variance to permit the use of the lot for auto repair with accessory uses and the parking and storage of motor vehicles, which expired on May 9, 2011; and

WHEREAS, a public hearing was held on this application on October 18, 2011, after due notice by publication in *The City Record*, with continued hearings on November 22, 2011 and January 10, 2012, and then to decision on January 31, 2012; and

WHEREAS, Community Board 3, Queens, recommends approval of this application, with the following conditions: (1) that the application reflect the operation’s primary use as a parking lot; (2) the lighting on the 78<sup>th</sup> Street side of the site is upgraded; (3) the 78<sup>th</sup> Street and Roosevelt Avenue frontages are maintained free of debris and graffiti; (4) all perimeter sidewalk snow accumulation be removed in an expeditious manner; (5) the sidewalk fronting Roosevelt Avenue be repaired and the tar covered area be replaced with cement; (6) all outstanding Department of Buildings (“DOB”) violations be addressed; and (7) the grant be limited to a term of five years; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and

Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the northwest corner of Roosevelt Avenue and 78<sup>th</sup> Street, within a C2-3 (R6) zoning district; and

WHEREAS, the site is occupied by an automobile repair building with accessory uses and a parking lot for the parking and storage of motor vehicles; and

WHEREAS, on May 9, 1961, under the subject calendar number, the Board granted a variance to permit the construction of a gasoline service station, lubritorium, non-automatic auto wash, office, sale of accessories, minor repairs with hand tools only, safety inspection station, parking, ground sign and parking and storage of motor vehicles, for a term of ten years; and

WHEREAS, the variance was subsequently amended and extended at various times; and

WHEREAS, most recently, on June 17, 2003, the Board granted a ten-year extension of term, and an amendment to permit a change in use to auto repair with lubritorium, non-automatic car wash, office, sale of accessories, minor repairs with hand tools only, safety inspection station, parking, ground sign and parking and storage of motor vehicles, which expired on May 9, 2011; and

WHEREAS, the applicant now requests an additional ten-year term; and

WHEREAS, pursuant to ZR § 11-411, the Board may permit an extension of term; and

WHEREAS, at hearing, the Board directed the applicant to provide landscaping and remove the debris from the rear of the building; and

WHEREAS, in response, the applicant submitted revised plans and photographs reflecting that shrubs have been planted along the northern lot line and the debris has been removed from the rear of the building; and

WHEREAS, in response to the concerns raised by the Community Board, the applicant submitted an affidavit from the owner stating that the sidewalk fronting Roosevelt Avenue will be repaired and the tar covered area will be replaced with cement, any debris and graffiti that accumulates will be removed from the site, and any snow that accumulates will be removed from the sidewalks; and

WHEREAS, the applicant states that the DOB violations will be resolved prior to obtaining a new certificate of occupancy; and

WHEREAS, the applicant further states that the 78<sup>th</sup> Street side of the site has sufficient lighting directed to the interior of the lot, and submitted photographs reflecting the lighting provided on the site; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of term is appropriate with certain conditions set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *reopens* and *amends* the resolution having been adopted on May 9, 1961, so that, as amended, this portion of the resolution shall read: “to permit the extension of the term of the grant for an additional ten years from May 9, 2011, to expire on May 9, 2021; *on condition* that all use and operations shall substantially conform to plans filed with this application

# MINUTES

marked 'Received June 7, 2011'-(2) sheets and 'December 13, 2011'-(1) sheet; and *on further condition:*

THAT this term shall expire on May 9, 2021;

THAT the sidewalk fronting Roosevelt Avenue shall be repaired and the tar covered area shall be replaced with cement prior to the issuance of a certificate of occupancy;

THAT the site shall be maintained free of debris and graffiti;

THAT any graffiti located on the site shall be removed within 48 hours;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a new certificate of occupancy shall be obtained by January 31, 2013;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB Application No. 401457286)

Adopted by the Board of Standards and Appeals, January 31, 2012.

-----

## 321-63-BZ

APPLICANT – Greenberg Traurig, LLP by Jay A. Segal, Esq., for Verizon New York, Inc., owner; 1775 Grand Concourse LLC, lessee.

SUBJECT – Application October 13, 2011 – Amendment of a special permit (§73-65) which permitted the construction of an 8-story enlargement of a telephone exchange building.

The Amendment seeks to permit Use Groups 6A, 6B and 6C, pursuant to §122-10. R8/Special Grand Concourse Preservation District.

PREMISES AFFECTED – 1775 Grand Concourse, west side of the Grand Concourse at the southeast intersection of Walton Avenue and East 175<sup>th</sup> Street, Block 282, Lot 1001-1004, Borough of Bronx.

## COMMUNITY BOARD #5BX

APPEARANCES –

For Applicant: Jay Segal.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

**THE RESOLUTION** –

WHEREAS, this is an application for a reopening and an amendment to a previously granted special permit for the construction of a Use Group 6D telephone exchange building; and

WHEREAS, a public hearing was held on this application on December 6, 2011 after due notice by

publication in *The City Record*, with a continued hearing on January 10, 2012, and then to decision on January 31, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 5, Bronx, recommends approval of this application with the certain conditions, including: (1) all signage comply with ZR § 122-20; (2) the main entrance, lobby, elevators and revolving doors respect the historical design of the building; (3) retail establishments not operate on a 24 hour basis; and (4) all Grand Concourse retail store deliveries be in compliance with Department of Transportation regulations to avoid traffic congestion and unnecessary double parking on the Grand Concourse; and

WHEREAS, the site is bounded by the Grand Concourse to the east, East 175<sup>th</sup> Street to the north, and Walton Avenue to the west, in an R8 zoning district within the Special Grand Concourse Preservation District; and

WHEREAS, the site has approximately 201 feet of frontage on the Grand Concourse, 265 feet of frontage on East 175<sup>th</sup> Street, 190 feet of frontage on Walton Avenue, and a total lot area of 44,288 sq. ft.; and

WHEREAS, the applicant notes that the building is situated such that it contains street level frontage on portions of its first story (on Walton Avenue and East 175<sup>th</sup> Street) and on a portion of its fourth story (on the Grand Concourse); thus, the building has five stories at or above the level of the Grand Concourse and three stories below the level of the Grand Concourse; and

WHEREAS, the subject site is occupied by an eight-story building with the following uses listed on the certificate of occupancy: Use Group 6D telephone exchange at the first, second, third, fifth and sixth floors, Use Group 4 hospital-related office facilities for the Bronx Lebanon Hospital Center (“Bronx Lebanon”) at the fourth floor, and Use Group 6 offices for the New York City Human Resources Administration (“HRA”) at the seventh and eighth floors; and

WHEREAS, the applicant states that the building is currently vacant except for the continued use of the Use Group 6D telephone exchange use on the second and third floors, and portions of the cellar and first floor; and

WHEREAS, the Board has exercised jurisdiction over the subject site since 1926 when, under BSA Cal. No. 358-26-BZ, the Board granted a variance to permit the construction of a telephone exchange building on the subject site, which at the time was split-zoned between a business district and a residence district; and

WHEREAS, on June 11, 1963, under the subject calendar number, the Board granted a special permit under ZR § 73-65, to permit the construction of an eight-story enlargement to the existing building, which extended the footprint of the building from approximately 50 percent of the zoning lot to approximately 85 percent of the zoning lot; and

WHEREAS, on March 17, 1987, the Board granted an amendment to permit the fourth story of the building to be

---

# MINUTES

---

used as Use Group 4 hospital related office facilities only for Bronx Lebanon; and

WHEREAS, most recently, on January 6, 1988, the Board granted an amendment to permit the seventh and eighth stories of the building to be used for Use Group 6 offices only for HRA; and

WHEREAS, the applicant now seeks an amendment to permit the following uses: (1) boiler room, storage and telephone exchange equipment at the cellar; (2) an attended accessory group parking facility for 100 cars and open accessory parking for up to ten vehicles, a loading berth and ten to 18 bicycle spaces at the first floor; (3) telephone exchange use at the second and third floors; (4) retail, office and/or limited community facility use at the fourth floor; and (5) office and/or limited community facility use at the fifth through eighth floors; and

WHEREAS, the applicant represents that, if not for the existence of the subject special permit, all of the proposed use changes would be allowed as-of-right under the Zoning Resolution; and

WHEREAS, specifically, the applicant states that ZR § 52-34 would allow the conversion of any portion of the building to the proposed limited community facility use as a conforming use in the R8 district, and ZR § 122-10(c) would allow the portions of the building used for Use Group 6D telephone exchange uses on or before July 1, 1981, which constituted the entire building, to be converted to offices; and

WHEREAS, the applicant further states that the fourth story could be converted to retail use as-of-right because its location at street level on the Grand Concourse qualifies it as a “ground floor” pursuant to ZR § 122-10(c); and

WHEREAS, by letter dated December 5, 2011, the Department of City Planning confirms that the term “ground floor” in ZR § 122-10(c) is interpreted in the subject case to include the frontage along the Grand Concourse; and

WHEREAS, subject to a private agreement with the landlord, the applicant states that the community facility uses within the building will be limited to the following uses without sleeping accommodations: (1) colleges or universities, including professional schools but excluding business college or trade schools; (2) museums or non-commercial art galleries but not libraries; (3) schools; (4) ambulatory diagnostic or treatment health care facilities, limited to public, private, for-profit or not-for-profit medical, health and mental health care facilities licensed by the State of New York, or a facility in which patients are diagnosed or treated by health care professionals, licensed by the State of New York or by persons under the supervision of such licensee for medical, health or mental health conditions, and where such patients are ambulatory rather than admitted (such facilities shall not include the practice of veterinary medicine, physical culture or health establishments, ophthalmic dispensing, abortion clinics or drug treatment facilities); (5) non-profit or voluntary hospitals and related facilities without overnight admission, but not animal hospitals; (6) philanthropic or non-profit

institutions without sleeping accommodations; and (7) welfare centers; and

WHEREAS, the applicant represents that allowing the vacant portions of the building to be occupied by general offices or limited community facility uses would facilitate the re-tenanting of these spaces; and

WHEREAS, the applicant notes that the fourth, seventh, and eighth floors were previously permitted to be occupied by office use pursuant to amendments granted by the Board, but that the restriction of the space to particular tenants (Bronx Lebanon and HRA, respectively) resulted in the current vacancy of these spaces; and

WHEREAS, the applicant states that, even though no requirement for accessory off-street parking is triggered by the proposed use changes, the number of new parking spaces proposed (100 in addition to up to ten existing spaces within the open area south of the building) is consistent with general parking principles in the Zoning Resolution; and

WHEREAS, the applicant agreed to comply with the above-mentioned conditions stipulated by the Community Board; and

WHEREAS, at hearing, the Board raised concerns about whether the proposal reflected a sufficient number of loading berths, whether the anticipated number of truck deliveries to the retail space on the site would be compatible with traffic patterns, the operation of the proposed garage, and whether the signage complies with the underlying district regulations; and

WHEREAS, in response, the applicant states that if the subject site were located in a commercial district, two loading berths would be required for the building, but one loading berth is sufficient for the subject building because: (1) the ground floor will not generate a need for loading, as it will be used as a parking garage; (2) the second and third floors will continue to be used as a telephone exchange, which will have a dedicated entrance on Walton Avenue (adjacent to the remaining loading berth) through which most loading requirements will be handled; (3) the fourth floor retail loading will be from the Grand Concourse level (during non-business hours only) instead of from the loading berth, as it will be easier to perform loading activities for the retail spaces directly from the Grand Concourse level rather than from the loading berth at the rear of the building several floors below the retail spaces; and (4) floors five through eight, which are proposed for office use and collectively contain approximately 145,000 sq. ft., will only generate a requirement for one loading berth; and

WHEREAS, the Board raised questions about the effect loading would have on the operation of the bike lane on Grand Concourse; and

WHEREAS, in response, the applicant states that it will put a provision in the lease requiring loading for the retail space to occur only at night, when there is minimal bicycle traffic; and

WHEREAS, as to the anticipated number of truck deliveries to the retail space, the applicant submitted a letter from the owner stating that similar size stores in comparable

# MINUTES

locations estimate six deliveries a day by parcel size trucks to restock the space; and

WHEREAS, as to the operation of the garage, the applicant states that it is proposing an accessory garage with spaces available to tenants and their invitees; and

WHEREAS, as to signage, the applicant states that all signs will comply with the Special Grand Concourse Preservation District regulations, pursuant to ZR § 122-20; and

WHEREAS, based upon its review of the record, the Board finds the requested amendment to the approved plans is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated June 11, 1963, so that as amended this portion of the resolution shall read: “to permit the proposed modifications to the previously-approved plans; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked ‘Received October 13, 2011’–(13) sheets and ‘November 22, 2011’–(3) sheets; and *on further condition*:

THAT all signage shall comply with the Special Grand Concourse Preservation District regulations, pursuant to ZR § 122-20;

THAT any retail uses on the site shall not operate on a 24-hour basis;

THAT vehicle loading will be limited to the hours of 7:00 p.m. through 7:00 a.m. and such condition will be reflected on all retail leases;

THAT the community facility uses within the building shall not include sleeping accommodations and shall be limited to the uses indicated on the BSA-approved plans;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (DOB Application No. 220143146)

Adopted by the Board of Standards and Appeals January 31, 2012.

## 188-96-BZ

APPLICANT – Mitchell S. Ross, Esq., for 444 Soundview Services Stations, Incorporated c/o William McCombs, owner; Scott Greco, lessee.

SUBJECT – Application June 22, 2010 – Extension of Term (§11-411) of a variance for the continued operation of a Gasoline Service Station (*Gulf*) with accessory convenience store which expired January 6, 2008; Waiver of the rules. R5 zoning district.

PREMISES AFFECTED – 444 Soundview Avenue, north

side of Soundview Avenue and west of Underhill Avenue, Block 3498, Lot 51, Borough of Bronx.

## COMMUNITY BOARD #9BX

APPEARANCES –

For Applicant: Mitchell Ross.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5  
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, an extension of term for a gasoline service station (Use Group 16) with accessory convenience store, which expired on January 6, 2008; and

WHEREAS, a public hearing was held on this application on July 12, 2011, after due notice by publication in *The City Record*, with continued hearings on September 27, 2011, November 15, 2011, December 13, 2011 and January 10, 2012, and then to decision on January 31, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 9, Bronx, recommends approval of this application; and

WHEREAS, the site occupies the entirety of Block 5743, bounded by 169<sup>th</sup> Street to the west, 18<sup>th</sup> Avenue to the north, Utopia Parkway to the east, and 20<sup>th</sup> Avenue to the south, within a C1-2 (R3-2) zoning district; and

WHEREAS, the site is a triangular-shaped lot located on the corner of Underhill Avenue and Soundview Avenue, within an R5 zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since May 3, 1955 when, under BSA Cal. No. 38-42-BZ, the Board granted a variance to permit the construction of a gasoline service station, lubritorium, non-automatic auto wash, storage and sales of accessories, and office, for a term of 15 years; and

WHEREAS, subsequently, the grant was amended and the term extended at various times, until its expiration in October 1990; and

WHEREAS, on January 6, 1998, under the subject calendar number, the Board granted an application under ZR § 11-411 to re-establish the expired variance for a gasoline service station and to convert the accessory repair bays and auto washing area to an accessory convenience store, for a term of ten years, which expired on January 6, 2008; and

WHEREAS, the applicant now seeks an additional extension of the term; and

WHEREAS, pursuant to ZR § 11-411, the Board may permit an extension of term; and

WHEREAS, at hearing, the Board directed the applicant to restore the concrete ramp at the entrance to the convenience store, remove excess signage from the site, and clarify the number of vacuum stations on the site; and

# MINUTES

WHEREAS, in response, the applicant submitted photographs reflecting that the concrete ramp has been refurbished at the entrance to the convenience store and excess signage has been removed, submitted a signage analysis reflecting that the site complies with C1 district signage regulations, and submitted revised plans reflecting that there are two vacuum stations on the site, one located at the southwest corner of the accessory convenience store and one located on the south side of the Underhill Avenue frontage; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of term is appropriate with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals waives the Rules of Practice and Procedure, reopens, and amends the resolution, dated January 6, 1998, so that as amended this portion of the resolution shall read: "to extend the term for a period of ten years from January 6, 2008, to expire on January 6, 2018; on condition that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked 'Received January 10, 2011'-(1) sheet and 'January 18, 2012'-(1) sheet; and on further condition:

THAT the term of this grant shall expire on January 6, 2018;

THAT the site shall be maintained free of debris and graffiti;

THAT all signage on the site shall comply with C1 district regulations;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect; and

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted." (DOB Application No. 220056392 )

Adopted by the Board of Standards and Appeals, January 31, 2012.

## 332-98-BZ

APPLICANT – Sheldon Lobel, P.C., for Workmen’s Circle MultiCare Center, owner.

SUBJECT – Application September 20, 2011 – Amendment to a previously granted Variance (§72-21) for an enlargement to an existing nursing home (*Workmen’s Circle MultiCare*). R5 zoning district.

PREMISES AFFECTED – 3155 Grace Avenue, entire block bounded by Burke, Grace, Hammersley and Ely Avenues, Block 4777, Lot 2, 57, Borough of Bronx.

## COMMUNITY BOARD #12BX

APPEARANCES –

For Applicant: Jordan Most.

**ACTION OF THE BOARD** – Application granted on condition.

## THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5  
Negative:.....0

## THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment to a previously granted variance for a seven-story nursing home building (Use Group 3); and

WHEREAS, a public hearing was held on this application on November 22, 2011 after due notice by publication in *The City Record*, with a continued hearing on January 10, 2012, and then to decision on January 31, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Ottley-Brown; and

WHEREAS, this application is submitted on behalf of the Workman’s Circle Home and Infirmary (“Workman’s”), a non-profit entity; and

WHEREAS, the subject site occupies the entire block bounded by Burke Avenue on the north, Grace Avenue on the east, Hammersley Avenue on the south and Ely Avenue on the west, within an R5 zoning district; and

WHEREAS the site has a total lot area of 108,956 sq. ft. and is currently occupied by a seven-story, 524-bed nursing home building (Use Group 3) with a floor area of 232,657 sq. ft. (2.14 FAR); and

WHEREAS, on July 24, 1959, under BSA Cal. No. 270-59-BZ, the Board granted a variance to permit the construction of a six-story nursing home which exceeded the maximum permitted height; and

WHEREAS, on April 13, 1999, under the subject calendar number, the Board granted a variance to permit the proposed enlargement of the existing nursing home building (Use Group 3), which did not comply with zoning regulations related to front yard, height and setback, and floor area; and

WHEREAS, most recently, on March 17, 2009, the Board granted a one-year extension of time to complete construction and obtain a certificate of occupancy; and

WHEREAS, the applicant states that construction was completed within the extended time period and a final certificate of occupancy has been obtained; and

WHEREAS, the applicant now requests an amendment to enlarge a small portion of the building to develop an accessory dialysis facility available to the patients of the existing nursing home building as well as to outside patients with dialysis needs; and

WHEREAS, specifically, the applicant proposes to create the accessory dialysis facility by: (1) reallocating underutilized floor area in the existing building that is currently designated for administrative services use; and (2) in-filling the building’s 1,825 sq. ft. southernmost court, which is adjacent to the aforementioned administrative services space; and

WHEREAS, the applicant notes that, in addition to the Board’s grant, the Workman’s building is also subject to a special permit granted by the City Planning Commission (“CPC”); and

# MINUTES

WHEREAS, the applicant states that, along with the subject application, it is concurrently seeking approval to modify the prior special permit granted by the CPC to reflect the requested bulk modification to the building; and

WHEREAS, the applicant states that the minor enlargement represents an increase in floor area from 232,657 sq. ft. (2.14 FAR) to 234,482 sq. ft. (2.15 FAR), or a 0.68 percent increase in floor area; and

WHEREAS, the applicant further states that no other bulk non-compliances are created or increased by the proposed enlargement; and

WHEREAS, the applicant states that the proposed in-fill of the court will not be visible from the street; and

WHEREAS, the applicant states that the proposed dialysis facility will have approximately 18 treatment rooms and is expected to operate on a dual shift basis, treating patients from 6:00 a.m. to 2:00 p.m., and then from 2:00 p.m. to 7:00 p.m.; and

WHEREAS, at hearing, the Board questioned whether there was sufficient parking to accommodate the proposed dialysis facility; and

WHEREAS, in response, the applicant submitted a parking survey which reflects that, of the 120 parking spaces located on the perimeter of the subject block, 35 spaces were available at the time of the survey; and

WHEREAS, the applicant states that there are also 32 on-site parking spaces at the site, located in two parking areas; the parking area located at the intersection of Ely and Burke Avenues can accommodate 24 vehicles and is generally used by employees, and the parking area located mid-block adjacent to the main entrance toward the southern end of Ely Avenue can accommodate eight vehicles and is generally available for visitor parking; and

WHEREAS, the applicant represents that the proposed dialysis facility is expected to generate very little parking demand, as nearly all patients are expected to arrive by ambulette or companion; therefore, the on-site parking combined with the approximately 30 percent of on-street parking spaces available on a typical weekday will be sufficient to accommodate the patients who require parking; and

WHEREAS, based upon its review of the record, the Board finds that the requested amendment is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated April 13, 1999, so that as amended this portion of the resolution shall read: “to permit the noted modifications to the plans; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked “Received September 20, 2012”–(4) sheets; and *on further condition*:

THAT prior to the issuance of a building permit, the applicant shall obtain approval for the proposed modification from the City Planning Commission;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other

jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (DOB Application No. 220137377)

Adopted by the Board of Standards and Appeals, January 31, 2012.

## 156-03-BZ

APPLICANT – Goldman Harris LLC, for Northern RKO LLC, owner.

SUBJECT – Application November 30, 2011 – Extension of Time to Complete Construction of a Variance (§72-21) for the construction of a 17-story mixed-use commercial/community facility/residential building which expires on January 12, 2012. R6/C2-2 zoning district.

PREMISES AFFECTED – 135-35 Northern Boulevard, north side of intersection of Main Street and Northern Boulevard. Block 4958, Lots 48, 38. Borough of Queens.

## COMMUNITY BOARD #7Q

APPEARANCES –

For Applicant: Vivien R. Krieger.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of time to complete construction of a previously granted variance to permit, within a C2-2 (R6) zoning district, the construction of a 16-story mixed-use commercial/community facility/residential building, which expired on January 12, 2012; and

WHEREAS, a public hearing was held on this application on January 10, 2012 after due notice by publication in *The City Record*, and then to decision on January 31, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, certain members of the community provided testimony raising concerns about the application, including the security and protection of the landmarked property, and whether the appropriate approvals were secured from the Federal Aviation Administration (“FAA”); and

WHEREAS, the subject site is located on the north side of Northern Boulevard, between Prince Street and Farrington Street, within a C2-2 (R6) zoning district; and

WHEREAS, the Board has exercised jurisdiction over the site since December 13, 2005 when, under the subject calendar number, the Board granted a variance to permit the

# MINUTES

proposed development of a 200-unit, 17-story mixed-use commercial/community facility/residential building, with ground level retail, second floor community facility space, and 229 accessory parking spaces in a three-level below-grade parking garage; and

WHEREAS, on May 29, 2007, the Board issued a letter of substantial compliance permitting the following changes to the proposal: (1) the elimination of one floor, reducing the building to 16 stories with an average floor to ceiling height of 10'-2" instead of 9'-4"; (2) the expansion of the footprint of floors seven through 16 to redistribute the floor area from the floor that has been eliminated; (3) the modification of the size of certain units; and (4) the redesign of the inner courts; and

WHEREAS, on January 12, 2010, the Board granted an extension of time to complete construction for a term of two years, to expire on January 12, 2012; and

WHEREAS, most recently, on July 12, 2011, the Board granted an amendment to permit the following modifications to the previously-approved plans: (1) an increase in the number of dwelling units from 200 to 357; (2) a reduction in the average unit size from 1,437 sq. ft. to 787 sq. ft.; (3) an increase in the number of accessory parking spaces from 229 to 385; (4) a 6,503 sq. ft. reduction in the residential floor area (from 287,313 sq. ft. to 280,810 sq. ft.) and a corresponding 6,503 sq. ft. increase in the commercial floor area (from 10,957 sq. ft. to 17,460 sq. ft.) through the addition of a retail mezzanine between the first and second floors; (5) the relocation of the community facility space from the second floor to the third floor; (6) a reduction in the depth of the rear yard from 31'-5" to 30'-0"; and (7) a reduction in the initial setback distance from 20'-0" to 15'-0"; and

WHEREAS, substantial construction was to be completed by January 12, 2012, in accordance with ZR § 72-23; and

WHEREAS, the applicant states that due to funding delays, additional time is necessary to complete the project; thus, the applicant now requests a four year extension of time to enable the owner to secure financing and complete construction; and

WHEREAS, the applicant submitted a letter from the Landmarks Preservation Commission dated June 24, 2011, stating that the Certificate of Appropriateness issued for the building has been extended to June 12, 2014, and that the amended Certificate of Appropriateness reflects the changes requested and subsequently approved by the Board on July 12, 2011; and

WHEREAS, the applicant notes that the prior FAA Determination of No Hazard to Air Navigation expired in 2008, and submitted an updated FAA Determination of No Hazard to Air Navigation, approving the proposed building on December 13, 2011; and

WHEREAS, in response to the concerns raised at hearing about the security of the site, the applicant submitted photographs reflecting that a fence has been installed around the perimeter of the building; and

WHEREAS, based upon its review of the record, the

Board finds that the requested extension of time to complete construction is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated December 13, 2005, so that as amended this portion of the resolution shall read: "to grant an extension of the time to complete construction for a term of four years, to expire on January 31, 2016; *on condition:*

THAT substantial construction shall be completed by January 31, 2016;

THAT FAA approval must be in effect at the time DOB issues a building permit;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted." (DOB Application No. 401622669)

Adopted by the Board of Standards and Appeals, January 31, 2012.

## \*CORRECTION

This resolution adopted on January 10, 2012, under Calendar No. 255-00-BZ and printed in Volume 97, Bulletin Nos. 1-3, is hereby corrected to read as follows:

## 255-00-BZ

APPLICANT – Sheldon Lobel, P.C., for Full Gospel New York Church, owner.

SUBJECT – Application August 12, 2011 – Amendment to a variance (§72-21) to permit a change of use on the 2nd and 3rd floors of the existing building at the premises from UG4 house of worship to UG3 school. M1-1/M2-1 zoning district.

PREMISES AFFECTED – 130-30 31<sup>st</sup> Avenue, north side of 31<sup>st</sup> Avenue, between College Point Boulevard and Whitestone Expressway, block 4360, Lot 1, Borough of Queens.

### COMMUNITY BOARD #7Q

APPEARANCES –

For Applicant: Jordan Most.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment to a previously granted variance for a house of worship (Use Group 4); and

WHEREAS, a public hearing was held on this application on December 6, 2011 after due notice by publication in *The City Record*, and then to decision on January 10, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 7, Queens, recommends approval of this application; and

WHEREAS, this application was brought on behalf of Full Gospel New York Church (“Full Gospel Church”), a not-for-profit religious entity; and

WHEREAS, the site is located on the north side of 31<sup>st</sup> Avenue, between the Whitestone Expressway service road and College Point Boulevard, partially within an M1-1 zoning district and partially within an M2-1 zoning district; and

WHEREAS, the site has 348 feet of frontage on 31<sup>st</sup> Avenue, a depth of 600 feet, and a total lot area of 208,803 sq. ft.; and

WHEREAS, the subject site is occupied by a nine-story (including penthouse) mixed-use building with a house of worship (Use Group 4) at the cellar level, first floor, fourth floor and penthouse; a school (Use Group 3) at the second and third floors; and commercial offices (Use Group 6) at the fifth through eighth floors; and

---

# MINUTES

---

WHEREAS, the Board has exercised jurisdiction over the subject site since August 4, 1998 when, under BSA Cal. No. 181-97-BZ, the Board granted a variance to permit the use of the cellar through fourth floor and penthouse of the existing building as a church, community center, and accessory offices; and

WHEREAS, on June 27, 2001, under the subject calendar number, the Board permitted the enlargement of the sanctuary, the construction of an accessory gymnasium, and modifications to the interior partitions; and

WHEREAS, subsequently, on May 23, 2002 and July 18, 2007, respectively, the Board issued letters of substantial compliance approving interior modifications at the site; and

WHEREAS, the applicant now seeks an amendment to legalize the conversion of the second and third floors of the subject building from a house of worship (Use Group 4) to a school (Use Group 3); and

WHEREAS, the applicant states that the school is operated as Promise Christian Academy, which was originally affiliated with Full Gospel Church; and

WHEREAS, the applicant states that the subject building is located on an extremely large zoning lot with the tower portion (where the school is located) being at least 70 feet from the nearest lot line; as a result, the surrounding commercial and storage uses do not have any adverse impacts on the proposed school use; and

WHEREAS, the applicant states that the school has a total of 154 students in pre-kindergarten through eighth grades, with 25 faculty and staff members; and

WHEREAS, the applicant further states that 80 percent of students arrive to the school by car and 20 percent arrive by shuttle vans; no students walk to the school; and

WHEREAS, as to faculty, the applicant states that 75 percent of the school's faculty arrive by car and 25 percent arrive by public bus; and

WHEREAS, the applicant represents that the zoning lot, with an area of 208,803 sq. ft., has sufficient on-site space to accommodate all traffic generated by staff and students being dropped off/picked up from the school; and

WHEREAS, the applicant states that the subject site has 330 on-site parking spaces, with 131 reserved for the business office uses on the fifth through eighth floors, and 40 spaces along the front portion of the site dedicated exclusively for school use during the week; and

WHEREAS, accordingly, the applicant states that the school will not have any adverse traffic impacts on the surrounding street network; and

WHEREAS, based upon its review of the record, the Board finds the requested amendment to the approved plans is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated June 27, 2001, so that as amended this portion of the resolution shall read: "to permit the conversion of the second and third floors from a house of worship (Use Group 4) to a school (Use Group 3); *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and

marked "Received November 22, 2011"-(10) sheets; and *on further condition*:

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted." (DOB Application No. 400227642)

Adopted by the Board of Standards and Appeals January 10, 2012.

**\*The resolution has been revised to correct the Plans Dates which read: "Received November 22, 2011"-(9) sheets" now reads: "Received November 22, 2011"-(10) sheets. Corrected in Bulletin No. 6, Vol. 97, dated February 8, 2012.**

# MINUTES

## \*CORRECTION

This resolution adopted on December 13, 2011, under Calendar No. 89-11-BZ and printed in Volume 96, Bulletin No. 51, is hereby corrected to read as follows:

### 89-11-BZ

APPLICANT – Law Office of Fredrick A. Becker, for Annie and Kfir Ribak, owners.

SUBJECT – Application June 23, 2011 – Special Permit (§73-622) for the enlargement of an existing single family home, contrary to floor area, open space and lot coverage (§23-141); side yards (§23-461) and perimeter wall height (§23-631). R3-2 zoning district.

PREMISES AFFECTED – 2224 Avenue S, south west corner of Avenue S and East 23<sup>rd</sup> Street, Block 7301, Lot 9, Borough of Brooklyn.

### COMMUNITY BOARD #15BK

APPEARANCES –

For Applicant: Lyra J. Altman.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

**THE RESOLUTION** –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated May 25, 2011, acting on Department of Buildings Application No. 320269669, reads:

1. Contrary to ZR 23-141 in that the proposed floor area exceeds the maximum permitted.
2. Contrary to ZR 23-141 in that the proposed open space ratio is less than the minimum required.
3. Contrary to ZR 23-141 in that the proposed lot coverage exceeds the maximum permitted.
4. Contrary to ZR 23-631 in that the perimeter wall height exceeds the maximum permitted.
5. Contrary to ZR 23-461 in that the proposed side yards are less than the minimum required; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03, to permit, within an R3-2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area, lot coverage, open space ratio, perimeter wall height, and side yards contrary to ZR §§ 23-141, 23-631, and 23-461; and

WHEREAS, a public hearing was held on this application on November 1, 2011, after due notice by publication in *The City Record*, with continued hearings on November 22, 2011 and December 6, 2011, and then to decision on December 13, 2011 and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner

Ottley-Brown; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the southwest corner of Avenue S and East 23<sup>rd</sup> Street within an R3-2 zoning district; and

WHEREAS, the subject site has a total lot area of 3,000 sq. ft. and is occupied by a single-family home with 1,946 sq. ft. of floor area (0.65 FAR); and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 1,946 sq. ft. (0.65 FAR) to 3,027 sq. ft. (1.01 FAR); the maximum permitted floor area is 1,500 sq. ft. (0.50 FAR); and

WHEREAS, the applicant proposes to provide a lot coverage of 43 percent (35 percent is the maximum permitted); and

WHEREAS, the applicant proposes to provide an open space ratio of 57 percent (65 percent is the minimum required); and

WHEREAS, the applicant proposes to maintain a perimeter wall with a height of 22'-0", which is a pre-existing non-compliance; and

WHEREAS, the applicant proposes to provide one side yard with a width of 20'-0" and to maintain the pre-existing non-complying side yard with a width of 1'-6"; and

WHEREAS, the Board raised concerns about whether the proposed height and setback comply with zoning district regulations and are confined to the permitted building envelope; and

WHEREAS, in response, the applicant provided axonometric drawings to confirm that the proposal (other than the pre-existing non-complying perimeter wall height) did not exceed the permitted building envelope; and

WHEREAS, the Board determined that the axonometric drawings were not conclusive and stated that DOB should confirm full compliance; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of

---

# MINUTES

---

the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622 and 73-03, to permit, within an R3-2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area, lot coverage, open space ratio, perimeter wall height, and side yards contrary to ZR §§ 23-141, 23-631, and 23-461; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked “Received November 9, 2011”-(8) sheets and “November 30, 2011”-(2) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area of 3,027 sq. ft. (1.01 FAR); a lot coverage of 43 percent; an open space ratio of 57 percent; a maximum perimeter wall height of 22 feet; and side yards with widths of 20’-0” and 1’-6”, as illustrated on the BSA-approved plans;

THAT DOB shall review that the height and setback comply with all regulations related to the permitted building envelope;

THAT DOB shall review and approve compliance with the planting requirements under ZR § 23-451;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, December 13, 2011.

**\*The resolution has been revised to correct the lot coverage from 42 percent to 43 percent and the open space ratio from 58 percent to 57 percent.. Corrected in Bulletin No. 6, Vol. 97, dated February 8, 2012.**

# MINUTES

**REGULAR MEETING  
TUESDAY MORNING, FEBRUARY 7, 2012  
10:00 A.M.**

Present: Chair Srinivasan, Vice-Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez.

**SPECIAL ORDER CALENDAR**

**737-65-BZ**

APPLICANT – Sheldon Lobel, P.C., for Yorkshire Towers Company Successor II, L.P., owner.

SUBJECT – Application November 3, 2011 – Extension of Term permitting the use of 50 surplus tenant parking spaces, within an accessory garage, for transient parking, pursuant to §60 (3) of the Multiple Dwelling Law, which expired on November 3, 2010; Waiver of the Rules. C2-8 (TA), C2-8 and R8B zoning district.

PREMISES AFFECTED – 301-329 East 86<sup>th</sup> Street, corner through lot fronting on East 86<sup>th</sup> Street, East 87<sup>th</sup> Street and Second Avenue. Block 1549, Lot 1. Borough of Manhattan.

**COMMUNITY BOARD #8M**

APPEARANCES –

For Applicant: Jordan Most.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, and an extension of term for a previously granted variance for a transient parking garage, which expired on November 3, 2010; and

WHEREAS, a public hearing was held on this application on January 10, 2012, after due notice by publication in *The City Record*, and then to decision on February 7, 2012; and

WHEREAS, Community Board 8, Manhattan, recommends approval of this application; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the subject premises is bounded by East 86<sup>th</sup> Street to the south, Second Avenue to the west, and East 87<sup>th</sup> Street to the north, partially within a C2-8 zoning district, partially within a C2-8A zoning district within the Special Transit Land Use District, and partially within an R8B zoning district; and

WHEREAS, the site has approximately 320 feet of frontage on East 86<sup>th</sup> Street, 200 feet of frontage on Second

Avenue, 300 feet of frontage on East 87<sup>th</sup> Street, and a total lot area of approximately 62,965 sq. ft.; and

WHEREAS, the site is occupied by a 21-story (including penthouse) residential building with ground floor office and retail use; and

WHEREAS, the cellar and sub-cellar are occupied as a 168-space accessory parking garage; and

WHEREAS, on November 3, 1965, under the subject calendar number, the Board granted a variance pursuant to Section 60(3) of the Multiple Dwelling Law to permit a maximum of 50 surplus parking spaces to be used for transient parking, for a term of 15 years; and

WHEREAS, subsequently, the grant was amended and the term extended at various times; and

WHEREAS, most recently, on June 19, 2001, the Board granted a ten-year extension of term, which expired on November 3, 2010; and

WHEREAS, the applicant now requests an additional extension of the term; and

WHEREAS, the applicant submitted a photograph of the sign posted onsite, which states building residents' right to recapture the surplus parking spaces; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of term is appropriate with certain conditions set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens*, and *amends* the resolution having been adopted on November 3, 1965, so that, as amended, this portion of the resolution shall read: "to permit the extension of the term of the grant for an additional ten years from November 3, 2010, to expire on November 3, 2020; *on condition* that all use and operations shall substantially conform to plans filed with this application marked Received 'November 3, 2011'-(3) sheets; and *on further condition*:

THAT this term will expire on November 3, 2020;

THAT all residential leases must indicate that the spaces devoted to transient parking can be recaptured by residential tenants on 30 days notice to the owner;

THAT a sign providing the same information about tenant recapture rights must be located in a conspicuous place within the garage, permanently affixed to the wall;

THAT the above conditions and all relevant conditions from the prior resolutions will appear on the certificate of occupancy;

THAT the layout of the parking lot will be as approved by the Department of Buildings;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

(DOB Application No. 11068)

Adopted by the Board of Standards and Appeals, February 7, 2012.

**624-68-BZ**

APPLICANT – Rothkrug Rothkrug & Spector, LLP, for MMT Realty Associates LLC, owner.

SUBJECT – Application June 7, 2011 – Extension of Term of a Variance (§72-21) to permit wholesale plumbing supply (UG16), stores and office (UG6) which expired on January 13, 2011; Extension of Time to obtain a Certificate of Occupancy and waiver of the rules. R3-2 zoning district.

PREMISES AFFECTED – 188-07 Northern Boulevard, north side of Northern Boulevard between Utopia Parkway and 189<sup>th</sup> Street, Block 5364, Lots 1, 5, 7, Borough of Queens.

**COMMUNITY BOARD #11Q**

APPEARANCES –

For Applicant: Todd Dale.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5  
Negative:.....0

**THE RESOLUTION** –

WHEREAS, this is an application for a reopening, a waiver, an extension of term for the continued use of the site as a wholesale plumbing supply business (Use Group 16) and commercial uses (Use Group 6), which expired on January 13, 2011, and an extension of time to obtain a certificate of occupancy; and

WHEREAS, a public hearing was held on this application on September 13, 2011, after due notice by publication in *The City Record*, with continued hearings on October 18, 2011 and November 22, 2011, and then to decision on February 7, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 11, Queens, recommends disapproval of this application; and

WHEREAS, the Auburndale Improvement Association provided testimony noting concerns about the operation of the site and noted that it concurs with the Community Board’s zoning committee that if the application is granted, the conditions of prior Board approvals should remain as well as additional conditions, which include that (1) trucks must pull into the yard fully and not block the sidewalk; (2) trucks must not double park on Northern Boulevard; (3) the sign for North Shore Plumbing Supply should be repaired; (4) the fence should be repaired; (5) the storage of pipes should be cleaned up and removed from view on Northern Boulevard; (6) the signs advertising the florist must be scaled back; and (7) planters must be maintained on 189<sup>th</sup> Street; and

WHEREAS, the site is located on the north side of Northern Boulevard between 189<sup>th</sup> Street and Utopia Parkway, within an R3-2 zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since November 13, 1968 when, under the subject calendar number, the Board granted a variance to permit the construction of a two-story enlargement to an existing building occupied as a wholesale plumbing supply business, stores, and office space; and

WHEREAS, subsequently, the grant has been amended and the term extended by the Board at various times; and

WHEREAS, most recently, on November 26, 2002, the Board granted an extension of term for ten years from the expiration of the prior grant, to expire on January 13, 2011; and

WHEREAS, the applicant now requests an additional ten-year extension of term; and

WHEREAS, the applicant also requests an extension of time to obtain a certificate of occupancy; and

WHEREAS, at hearing, the Board questioned whether the site was in compliance with the previously-approved signage and directed the applicant to respond to Auburndale Improvement Association’s concerns including traffic safety, landscaping, and debris at the rear of the site; and

WHEREAS, in response, the applicant stated that it will comply with all of Auburndale Improvement Association’s conditions and, more specifically: (1) removed non-compliant signage and stated that it will comply with C1 district regulations; (2) provided photographs of the replanted planters on 189<sup>th</sup> Street; (3) removed debris and graffiti; (4) repaired the lock and chain that secure the refuse area; and (5) will provide a traffic monitor to direct trucks entering and leaving the site and making deliveries; and

WHEREAS, the applicant states that it will maintain the site in compliance with all requested conditions; and

WHEREAS, based upon the above, the Board finds that a reduced extension of term for five years and a one-year extension of time to obtain a certificate of occupancy are appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated November 13, 1968, so that as amended this portion of the resolution shall read: “to extend the term for five years from the date of the grant, to expire on February 7, 2017 and to allow a one-year extension of time to obtain a certificate of occupancy; *on condition* that all use and operations shall substantially conform to plans filed with this application marked Received ‘June 7, 2011’-(1) sheet and ‘December 2, 2011’-(2) sheets; and *on further condition*:

THAT the term of the grant will expire on February 7, 2017;

THAT the site will be maintained clean of debris and graffiti;

THAT all lighting will be directed downward and away from adjacent residences;

THAT all landscaping will be maintained as reflected on the Board-approved plans;

THAT there will be no parking on the sidewalks;

# MINUTES

THAT all signage will be maintained in accordance with the BSA-approved plans;

THAT trucks must pull into the yard fully, must not block the sidewalk, and must not double park on Northern Boulevard;

THAT a sign will be maintained directing customers of North Shore Plumbing Supply not to block the sidewalk;

THAT the businesses will provide a parking monitor to guide trucks making deliveries and entering and exiting the site in a manner to secure the safety of the sidewalk;

THAT the above conditions will be listed on the certificate of occupancy;

THAT a new certificate of occupancy will be obtained by February 7, 2013;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (N.B. 836/68)

Adopted by the Board of Standards and Appeals February 7, 2012.

## 742-70-BZ

APPLICANT – Rothkrug Rothkrug & Spector, LLP, for 830 Bay Street, LLC, owner.

SUBJECT – Application May 27, 2011 – Extension of Term of a Variance (§72-21) for the continued operation of an automotive service station which expired on May 18, 2011; Extension of Time to obtain a Certificate of Occupancy which expired on February 26, 2009 and waiver of the rules. C1-1/R3-2 zoning district.

PREMISES AFFECTED – 830 Bay Street, southwest corner of Bay Street and Vanderbilt Avenue. Block 2836, Lot 15, Borough of Staten Island.

## COMMUNITY BOARD #1SI

APPEARANCES –

For Applicant: Todd Dale.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5  
Negative:.....0

**THE RESOLUTION** –

WHEREAS, this is an application for a reopening, an extension of term, and an extension of time to obtain a certificate of occupancy for an automotive repair and gasoline service station; and

WHEREAS, a public hearing was held on this application on July 26, 2011, after due notice by publication in

*The City Record*, with continued hearings on September 13, 2011, October 18, 2011 and November 22, 2011, and then to decision on February 7, 2012; and

WHEREAS, the site and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Staten Island, recommends disapproval of this application, citing concerns that the certificate of occupancy has not been obtained and the operator has not complied with the conditions from previous grants; and

WHEREAS, the site is located on the southwest corner of Bay Street and Vanderbilt Avenue, within a C1-1 (R3-2) zoning district; and

WHEREAS, the site is occupied by an automotive service station with accessory uses; and

WHEREAS, the applicant states that only the automotive repair use is currently operating at the site, but that it intends to reinstitute the gasoline station operations at the site as soon as possible; and

WHEREAS, the Board has exercised jurisdiction over the site since May 18, 1971 when, under the subject calendar number, the Board granted a variance to permit the construction of an automotive service station with accessory uses at the site, for a term of ten years; and

WHEREAS, subsequently, the grant was amended and the term extended by the Board at various times; and

WHEREAS, most recently, on February 26, 2008, the Board granted an extension of term and an amendment to permit the use of a storage trailer adjacent to the repair building, which expired on May 18, 2011; a condition of the grant was that a certificate of occupancy be obtained by February 26, 2009; and

WHEREAS, the applicant now seeks an additional extension of term and an extension of time to obtain a certificate of occupancy; and

WHEREAS, at hearing, the Board directed the applicant to revise the site plan to reflect that one of the curb cuts along Bay Street has been removed, plant landscaping in accordance with the previously approved plans, and repave the site; and

WHEREAS, in response, the applicant submitted a revised site plan reflecting that the northernmost curb cut on Bay Street has been removed, and submitted photographs reflecting that evergreen trees and bushes have been planted adjacent to the neighboring residence along the western border of the site and in the planter at the northeast corner of the site, in accordance with the previously-approved plans; and

WHEREAS, as to the repaving of the site, the applicant submitted a fuel tank installation plan which reflects that new fuel tanks will be installed in April 2012 in anticipation of the reinstatement of the gasoline station operations, and that the site will be repaved immediately following the installation of the new fuel tanks; and

WHEREAS, the applicant states that installation of the fuel tanks is expected to take approximately 60 days; and

WHEREAS, the applicant submitted an affidavit from the owner stating that the site will be repaved upon completion

# MINUTES

of the fuel tank installation, and in any event the site will be repaved prior to June 30, 2012; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of term and extension of time are appropriate with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals reopens, and amends the resolution, as adopted May 18, 1971, so that as amended this portion of the resolution shall read: "to extend the term for ten years from the expiration of the prior grant, to expire on May 18, 2021, and to grant an extension of time to obtain a certificate of occupancy for one year from the date of this grant, to expire on February 7, 2013; on condition:

THAT the term will expire on May 18, 2021;

THAT the site will be maintained free of debris and graffiti;

THAT all landscaping will be planted and maintained per the BSA-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT a new certificate of occupancy will be obtained by February 7, 2013;

THAT the asphalt on the site must be repaved by June 30, 2012;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect; and

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted." (DOB Application No. 500901688)

Adopted by the Board of Standards and Appeals, February 7, 2012.

## APPEALS CALENDAR

### 118-11-A

APPLICANT – Joseph A. Sherry, for Breezy Point Cooperative Inc., owner; Jean Scanlon, lessee.

SUBJECT – Application August 18, 2011 – Proposed building not fronting a mapped street, contrary General City Law 36, and in the bed of a mapped street, contrary to General City Law 35, with a private disposal system in the bed of a mapped street contrary to Department of Buildings’ policy.

PREMISES AFFECTED – 811 Liberty Lane, Block 16350, Lot 300, Borough of Queens.

### COMMUNITY BOARD #14Q

APPEARANCES – None.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5  
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated July 26, 2012, acting on Department of Buildings Application No. 420326686, reads in pertinent part:

- A1- The site is located partially in the bed of a mapped street therefore no permit or Certificate of Occupancy can be issued as per Art. 3 Sect. 35 of the General City Law
- A2- The site and building is not fronting on an official mapped street therefore, no permit or Certificate of Occupancy can be issued as per Art. 3, Sect. 36 of the General City Law; also no permit can be issued since proposed construction does not have at least 8% of total perimeter of building fronting directly upon a legally mapped street or frontage space and therefore contrary to Section C27-291 (C26-401.1) of the Administrative Code of the City of New York .
- A3- The private disposal system is in the bed of a mapped street contrary to Department of Buildings policy; and

WHEREAS, a public hearing was held on this application on January 24, 2012, after due notice by publication in the *City Record*, and then to decision on February 7, 2012; and

WHEREAS, by letter dated February 2, 2012 the Fire Department states that it has no objection to the subject proposal, with the condition that the entire building be fully sprinklered in conformance with the sprinkler provisions of Fire Code § 503.8.2, Local Law 10/99, and Reference Standard 17-2B of the Building Code; and

WHEREAS, the applicant submitted plans reflecting that the building will be fully sprinklered in accordance with the Fire Department’s request; and

WHEREAS, by letter dated August 30, 2011, the Department of Environmental Protection states that it has no objection to the subject proposal; and

WHEREAS, by letter dated November 2, 2011, the Department of Transportation (“DOT”) states that it has no objection to the subject proposal; and

WHEREAS, DOT states that the subject lot is not currently included in the agency’s Capital Improvement Program; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

*Therefore it is Resolved* that the decision of the Queens Borough Commissioner, dated July 26, 2011, acting on Department of Buildings Application No. 420326686, is modified by the power vested in the Board by Section 35 and Section 36 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked “Received January 24, 2012”-one (1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT DOB shall review the proposed plans to ensure compliance with all relevant provisions of the Zoning Resolution;

THAT the building will be fully sprinklered in accordance with the BSA-approved plans;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 7, 2012.

**THE RESOLUTION –**

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated March 25, 2011, acting on Department of Buildings Application No. 310101047, reads in pertinent part:

Proposed number of accessory parking spaces for the building at the premises is less than the number of parking spaces required by ZR Section 36-21; and

WHEREAS, this is an application under ZR §§ 73-44 and 73-03, to permit, within a C1-3 (R6) zoning district, a reduction in the required number of accessory parking spaces for a mixed-use community facility/commercial building from 231 to 177, contrary to ZR § 36-21; and

WHEREAS, a public hearing was held on this application on August 16, 2011, after due notice by publication in The City Record, with continued hearings on September 13, 2011, October 18, 2011, November 22, 2011 and January 10, 2012, and then to decision on February 7, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, City Council Member David G.

Greenfield and New York State Assemblymember William Colton provided testimony in opposition to the application; and

WHEREAS, Community Board 12, Brooklyn, recommended disapproval of the application; and

WHEREAS, the Neighbors for the Preservation and Development of Brooklyn Southwest, represented by counsel, provided testimony in opposition to the proposal stating concerns that (1) the applicant does not meet the requirements of the special permit including that it act in good faith, (2) there is a discrepancy between the required number of parking spaces set forth in the as-of-right approval and the proposal for a reduction before the Board, (3) there are flaws in the parking studies and the calculation of parking demand, and (4) any reduction in parking will negatively impact the surrounding area; and

WHEREAS, certain members of the community provided oral testimony in opposition to this application, citing concerns with its effect on parking in the surrounding neighborhood due to high parking demand associated with three area schools and existing parking demands; and

WHEREAS, the subject site is located on a through lot with frontage on Bay Parkway, 61<sup>st</sup> Street, and 60<sup>th</sup> Street, within a C1-3 (R6) zoning district; and

WHEREAS, the site is under construction with an as-of-right mixed-use community facility/commercial building, pursuant to DOB approval; and

WHEREAS, the applicant initially proposed a nine-story mixed-use community facility/commercial building with 93,920 sq. ft. of floor area and 120 accessory parking spaces, which required a reduction from the required 231 parking spaces (four for commercial use and 227 for community facility use); and

WHEREAS, at the Board's direction and after several iterations, the applicant now proposes a nine-story mixed-use community facility/commercial building with 92,304 sq. ft. of floor area (90,837 sq. ft. for community facility use and 1,467 sq. ft. for commercial use) and 177 accessory parking spaces with a program as follows: (1) 57 parking spaces in the cellar (including 18 stackers); (2) UG 6 commercial use and UG 4 community facility use on the first floor; (3) 48 parking spaces on the second floor; (4) 72 parking spaces on the third floor; and (5) community facility use on the fourth through ninth floors; and

WHEREAS, the initial proposal reflected an attended parking lot without stackers and the current proposal reflects an attended parking lot with stackers; and

WHEREAS, pursuant to ZR § 73-44, the Board may, in the subject C1-3 (R6) zoning district, grant a special permit that would allow a reduction in the number of accessory off-street parking spaces required under the applicable ZR provision, for ambulatory diagnostic or treatment facilities in the parking category B1; in the subject zoning district, the Board may reduce the required parking from one space per 400 sq. ft. of floor area to one space per 800 sq. ft. of floor area; and

WHEREAS, pursuant to ZR § 36-21 the total number of required parking spaces for all uses at the site is 231; and

---

# MINUTES

---

WHEREAS, the applicant represents that the proposed 177 parking spaces are sufficient to accommodate the parking demand generated by the use of the site; and

WHEREAS, the applicant notes that 1,467 sq. ft. of floor area in the building is occupied by commercial space, which is not in parking category B1 and therefore the associated four required spaces have been excluded from the calculations for the requested reduction in parking; and

WHEREAS, the applicant states that the remaining 90,837 sq. ft. of floor area at the site will be occupied by ambulatory diagnostic or treatment facility space, which is eligible for the parking reduction under ZR § 73-44; at a rate of one required parking space per 400 sq. ft. of floor area, 227 parking spaces are required for this use; and

WHEREAS, accordingly, the total number of parking spaces which are eligible under the special permit is 227; as noted, the special permit allows for a reduction from one space per 400 sq. ft. of floor area to one space per 800 sq. ft. of floor area, which would reduce the required parking for these uses to 114 spaces; and

WHEREAS, as noted, an additional four parking spaces are required for the 1,467 sq. ft. of floor area occupied by commercial space, which is not eligible for the special permit; and

WHEREAS, thus, the special permit allows for a reduction to a total of 118 parking spaces on the site; and

WHEREAS, the applicant notes that the proposed total of 177 accessory parking spaces would provide 59 more spaces than the minimum of 118 required under the special permit; and

WHEREAS, ZR § 73-44 requires that the Board must determine that the ambulatory diagnostic or treatment facility use in the B1 parking category is contemplated in good faith; and

WHEREAS, the applicant states that the facility will be occupied by existing ambulatory diagnostic facilities currently operating in the area, including those associated with Maimonides Hospital, who are waiting to move to the site and who have committed to lease 52,650 sq. ft. of the building; the remaining floor area is anticipated to be used and restricted to similar ambulatory diagnostic uses; and

WHEREAS, in addition, the applicant states that any Certificate of Occupancy for the building will state that no subsequent Certificate of Occupancy may be issued if the use is changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-street radius; and

WHEREAS, the Board finds that the applicant has submitted sufficient evidence of good faith in maintaining the noted uses at the site; and

WHEREAS, however, while ZR § 73-44 allows the Board to reduce the required accessory parking, the Board requested an analysis about the impact that such a reduction might have on the community in terms of available on-street parking; and

WHEREAS, in response to the community's concerns about parking demand, the applicant asserts that its studies

reflect a peak parking demand of 131 cars, and the proposed 173 spaces for community facility use provide an excess of 42 parking spaces, or 32 percent more than is required to satisfy the peak parking demand; and

WHEREAS, the applicant asserts that the onsite parking will be able to accommodate the facility's parking demand and will not create a demand for curbside or other off-site parking; and

WHEREAS, in support of this assertion, the applicant submitted a parking demand analysis into the record; and

WHEREAS, the applicant notes that its parking demand analysis was based on Institute of Transportation Engineers (ITE) traffic standards to establish the number of person trips to the site, which reflects 317 person trips during peak periods; and

WHEREAS, however, the applicant notes that to establish the number of people who would drive to the site, it performed a parking demand survey from the existing facilities to be relocated to the site, which reflected that 38 percent of patients and employees would drive to the site daily; and

WHEREAS, the applicant then applied the 38 percent to the ITE data and found that the peak parking demand would be 121 spaces, which is a revision of a prior determination of 131 spaces due to a failure to account for the overlap of 75 percent of patients of one of the building's programs (RadNet) to other programs in the building; and

WHEREAS, the applicant notes that if it were to use its survey data, rather than the adjusted ITE data and apply it to the entire building, the peak parking demand would be 143 spaces; and

WHEREAS, the applicant derives the more conservative 143 spaces by noting that, based on surveys of the existing offsite facilities, 151 people (93 patients and 58 staff) will drive to the site to visit the practices occupying 52,650 sq. ft. of the already leased space; the applicant extrapolated that the remaining portions of the building not already leased will be occupied by tenants with similar travel characteristics and thus, for the additional 38,187 sq. ft. of community facility space, the result would be 139 additional daily driving trips (91 patients and 48 staff); and

WHEREAS, the applicant's analysis resulted in a conclusion that 151 trips (based on the survey) and 139 trips (based on extrapolation) amount to 290 daily vehicle trips, consisting of 184 patient and 106 staff trips; and

WHEREAS, the applicant asserts that patient visits will have an anticipated duration of two hours and will be spread across the course of a ten-hour day from 8:00 a.m. to 6:00 p.m.; and

WHEREAS, the applicant concludes that the proposed 173 spaces would accommodate the peak parking demand under either the ITE or parking survey of existing facilities methodologies as the adjusted ITE analysis reflects a peak parking demand of 121 parking spaces for community facility use, or 52 fewer spaces than the proposed, and the parking survey analysis reflects a demand of 143 parking spaces, or 30 fewer than the proposed; and

WHEREAS, during the hearing process, the Board

---

# MINUTES

---

directed the applicant to explore redesign of the parking facilities to maximize utility and to eliminate any non-essential space (such as the cafeteria) in the cellar to allow for additional parking; and

WHEREAS, in response, the applicant stated that the first floor cannot be re-designed since it will be occupied by MRI equipment which, due to its sensitivity and size must be located on the first floor so that it can be serviced and moved through a portion of removable façade; and

WHEREAS, the applicant has met with DOB to review the maneuverability and other parking calculations and has maximized the number of stackers, which it will reserve for employee use; and

WHEREAS, in response to questions about maximum parking space occupancy, the applicant confirmed DOB's requirement for 200 sq. ft. per car and 153 sq. ft. per car for the second car in a stacker; and

WHEREAS, accordingly, after the redesign of the cellar space and removal of all nonessential spaces, the applicant states that DOB would not approve any more spaces and/or stackers than the 57 proposed for the cellar and the corresponding numbers on the second and third floor; and

WHEREAS, based upon the applicant's revised analysis and current parking layout, the Board agrees that the accessory parking space needs can be accommodated even with the parking reduction; and

WHEREAS, in response to the opposition's concerns that the surveys which analyze the number of people coming to the site by car versus public transportation may not be comparable to the proposed location, the applicant noted that public transportation access to the subject site, including two buses (B6 and B9) within one block of the site, two subways (F and N) approximately one-third of a mile from the site, and four buses (B4, B11, B8, and B82) within .6 to .91 miles from the site, is better than that of the existing sites studied in the transportation surveys; and

WHEREAS, accordingly, the applicant asserts that the car versus public transportation assumptions it applied to the proposed site are conservative since based on areas with less access to public transportation; and

WHEREAS, the applicant also notes that it will be providing a bicycle storage room and states that it will encourage bicycle use and carpooling; and

WHEREAS, the applicant also states that it approached several potential off site locations for parking, and was unable to find any willing to provide parking spaces to the facility; and

WHEREAS, in response to the opposition's questions about different DOB approvals, the Board notes that DOB has approved as-of-right plans, which allow the applicant to continue construction, in contrast to the proposed plans before the Board which will allow for the as-of-right plans to be amended; and

WHEREAS, the Board notes that 231 spaces are required for the proposed building and that a smaller building was approved at DOB, which requires only 206 parking spaces; the waiver request is from 231 spaces (less

the four spaces for commercial use); and

WHEREAS, the Board notes that the special permit allows for a reduction in parking by 50 percent and that the current proposal for 173 spaces for community facility use reflects a reduction of 54 spaces or approximately 24 percent; and

WHEREAS, the Board notes that the proposed use is as-of-right and the reduction is less than half the maximum reduction contemplated by the special permit; and

WHEREAS, accordingly, the Board finds that the proposed use will not have an adverse impact on the community, will not interfere with any public improvement project, and will not interfere with the existing street system; and

WHEREAS, based upon the above, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-44 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 11BSA087K, dated July 11, 2011; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved*, that the Board of Standards and Appeals issues a Negative Declaration under 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-44 and 73-03 to permit, within an C1-3 (R6) zoning district, a reduction in the required number of accessory parking spaces for a mixed-use community facility/commercial building from 231 to 177, contrary to ZR § 36-21; on condition that all work shall substantially conform to drawings as they apply to the objections above noted filed with this application marked "Received February 1, 2012"- twenty-two ( 22 ) sheets, and on further condition:

# MINUTES

THAT there will be no change in the operation of the site without prior review and approval by the Board;

THAT a minimum of 177 parking spaces will be provided in the accessory parking garage in the subject building;

THAT no certificate of occupancy will be issued if the use is changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-street radius;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT the layout and design of the accessory parking lot will be as reviewed and approved by the Department of Buildings;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 7, 2012.

## 166-11-BZ

### CEQR #12-BSA-035M

APPLICANT – Ellen Hay/Wachtel & Masyr LLP, for Roc Le Triomphe Associates LLC, owners; Crunch LLC, lessee. SUBJECT – Application October 24, 2011 – Special Permit (§73-36) to continue the operation of the Physical Culture Establishment (*Crunch Fitness*). C2-8 (TA) zoning district. PREMISES AFFECTED – 1109 Second Avenue, aka 245 East 58<sup>th</sup> Street, west side of Second Avenue between East 58<sup>th</sup> and East 59<sup>th</sup> Streets, Block 1332, Lot 29, Borough of Manhattan.

### COMMUNITY BOARD #6M

APPEARANCES –

For Applicant: Ellen Hay.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5  
Negative:.....0

**THE RESOLUTION** –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated October 12, 2011, acting on Department of Buildings Application No. 120857260, reads in pertinent part:

Proposed Physical Culture establishment is not permitted as per ZR 73-36 unless granted special

permits by the Board of Standards and Appeals as per ZR 32-31; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located in an C2-8 zoning district within the Special Transit Land Use District (TA), the operation of a physical culture establishment (“PCE”) in a portion of the first floor, cellar, and sub-cellar of a 29-story mixed-use residential/commercial building, contrary to ZR § 32-31; and

WHEREAS, a public hearing was held on this application on January 10, 2012, after due notice by publication in *The City Record*, and then to decision on February 7, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Collins, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 6, Manhattan, states that it has no objection to this application; and

WHEREAS, the subject site located on the west side of Second Avenue between East 58<sup>th</sup> Street and East 59<sup>th</sup> Street in a C2-8 zoning district within the Special Transit Land Use District (TA); and

WHEREAS, the subject site is occupied by a 29-story mixed-use residential/commercial building with residential use on the fourth through 29<sup>th</sup> floors and commercial use on the sub-cellar, cellar, first, and second levels; and

WHEREAS, the Board first approved the PCE on July 22, 1997, pursuant to BSA Cal. No. 195-96-BZ, for a term of ten years which expired on October 1, 2006; and

WHEREAS, the site is also the subject of a City Planning special permit for the building pursuant to ZR § 74-95, which was modified to allow for the PCE and associated signage; and

WHEREAS, the PCE occupies 36,119 sq. ft. of floor space on portions of the sub-cellar, cellar, and first floor levels; and

WHEREAS, the PCE is operated as Crunch Fitness; and

WHEREAS, the PCE operates Monday through Thursday 5:00 a.m. to 11:00 p.m.; Friday 5:00 a.m. to 10:00 p.m.; and Saturday and Sunday from 7:00 a.m. to 9:00 p.m.; and

WHEREAS, the applicant represents that the services at the PCE include facilities for instruction and programs for physical improvement; and

WHEREAS, the applicant states that commercial and accessory residential uses on the second and third floor separate and, thus serve as a buffer between, the PCE on the first floor from the residential use on the fourth floor and above; and

WHEREAS, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

# MINUTES

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No. 12BSA035M, dated October 19, 2011; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved* that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site located in an C2-8 zoning district within the Special Transit Land Use District (TA), the operation of a physical culture establishment in a portion of the first floor, cellar, and sub-cellar of a 29-story mixed-use residential/commercial building, contrary to ZR § 32-31; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received October 20, 2011"- (5) sheets, and *on further condition*:

THAT the term of this grant will expire on February 7, 2012;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages must be performed by New York State licensed massage therapists;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance will be as

reviewed and approved by DOB;

THAT sound attenuation measures must be installed in the PCE as shown on the Board-approved plans;

THAT fire safety measures must be installed and/or maintained as shown on the Board-approved plans;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 7, 2012.

## \*CORRECTION

This resolution adopted on January 24, 2012, under Calendar No. 128-11-BZ and printed in Volume 97, Bulletin Nos. 4-5, is hereby corrected to read as follows:

### 128-11-BZ

#### CEQR #12-BSA-010K

APPLICANT – Law Office of Fredrick A. Becker, for Levana Pinhas and David Pinhas, owners.

SUBJECT – Application August 31, 2011 – Special Permit (§73-622) for the enlargement of an existing single family home contrary to floor area, open space and lot coverage (§23-141); side yard (§23-461) and less than the required rear yard (§23-47). R3-2 zoning district.

PREMISES AFFECTED – 1860 East 23<sup>rd</sup> Street, west side of East 23<sup>rd</sup> Street, between Avenue R and Avenue S, Block 6828, Lot 31, Borough of Brooklyn.

#### COMMUNITY BOARD #15BK

#### APPEARANCES –

For Applicant: Lyra J. Altman.

**ACTION OF THE BOARD** – Application granted on condition.

#### THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

#### THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated August 8, 2011, acting on Department of Buildings Application No. 320325028, reads in pertinent part:

Proposed plans are contrary to ZR 23-141 in that the proposed floor area exceeds the maximum permitted.

Proposed plans are contrary to ZR 23-141 in that the proposed open space ratio is less than the minimum required.

Proposed plans are contrary to ZR 23-141 in that the proposed lot coverage exceeds the maximum permitted.

Proposed plans are contrary to ZR 23-461 in that the proposed side yard is less than the minimum required.

Proposed plans are contrary to ZR 23-47 in that the proposed rear yard is less than the minimum required; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03, to permit, in an R3-2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area, open space ratio, lot coverage, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461 and 23-47; and

WHEREAS, a public hearing was held on this application on December 13, 2011, after due notice by publication in *The City Record*, and then to decision on January 24, 2012; and

WHEREAS, the premises and surrounding area had

site and neighborhood examinations by Chair Srinivasan and Commissioner Montanez; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of East 23<sup>rd</sup> Street, between Avenue R and Avenue S, within an R3-2 zoning district; and

WHEREAS, the subject site has a total lot area of 4,000 sq. ft., and is occupied by a single-family home with a floor area of 2,127 sq. ft. (0.53 FAR); and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 2,127 sq. ft. (0.53 FAR) to 3,964 sq. ft. (0.99 FAR); the maximum permitted floor area is 2,000 sq. ft. (0.50 FAR); and

WHEREAS, the applicant proposes to provide an open space ratio of 61 percent (65 percent is the minimum required); and

WHEREAS, the applicant proposes to provide a lot coverage of 42 percent (35 percent is the maximum permitted); and

WHEREAS, the applicant proposes to maintain the existing side yard along the northern lot line with a width of 4'-3 5/16", and to maintain the existing side yard along the southern lot line with a width of 8'-10 1/2" (two side yards with minimum widths of 5'-0" each are required); and

WHEREAS, the proposed enlargement will provide a rear yard with a depth of 20'-0" (a minimum rear yard depth of 30'-0" is required); and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, and will not impair the future use or development of the surrounding area; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03.

*Therefore it is resolved*, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, within an R3-2 zoning district, the enlargement of a single-family home, which

---

# MINUTES

---

does not comply with the zoning requirements for floor area, open space ratio, lot coverage, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461 and 23-47; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked “Received November 16, 2011”-(7) sheets and “January 11, 2012”-(2) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area of 3,964 sq. ft. (0.99 FAR); a minimum open space ratio of 61 percent; a maximum lot coverage of 42 percent; a side yard with a minimum width of 4’-3 5/16” along the northern lot line; a side yard with a minimum width of 8’-10 ½” along the southern lot line; and a rear yard with a minimum depth of 20’-0”, as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT DOB shall review and approve compliance with the planting requirements under ZR § 23-451;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 24, 2012.

**\*The resolution has been revised to correct the 10<sup>th</sup> WHEREAS, which read in part: “...open space ratio of 61 percent (150 percent is the minimum required)...” now reads: “...open space ratio of 61 percent (65 percent is the minimum required)...”. Corrected in Bulletin No. 7, Vol. 97, dated February 15, 2012.**

**REGULAR MEETING  
TUESDAY MORNING, FEBRUARY 14, 2012  
10:00 A.M.**

Present: Chair Srinivasan, Vice-Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez.

**SPECIAL ORDER CALENDAR**

**141-66-BZ**

APPLICANT – The Law Office of Fredrick A. Becker, for Rising Wolf Garage LLC, owner.

SUBJECT – Application June 29, 2011 – Extension of Term of a previously granted Variance (§72-21) for the continued operation of a UG 8 motor vehicle storage facility (*Rising Wolf Motorcycle Parking Garage*) which expired on July 1, 2010; Amendment to enclose open parking area; and Waiver of the Rules. R7-2 zoning district.

PREMISES AFFECTED – 338 East 9<sup>th</sup> Street, Block 450, Lot 23, Borough of Manhattan.

**COMMUNITY BOARD #3M**

APPEARANCES –

For Applicant: Fredrick A. Becker.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown and Commissioner Montanez.4

Negative:.....0

Absent: Commissioner Hinkson.....1

**THE RESOLUTION** –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a re-opening, an extension of term of a previously granted variance to permit the construction of a one-story building for use as a garage (Use Group 8), and an amendment to permit an enlargement of the previously approved building; and

WHEREAS, a public hearing was held on this application on January 24, 2012, after due notice by publication in *The City Record*, and then to decision on February 14, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Collins, Commissioner Hinkson, and Commissioner Montanez; and

WHEREAS, Community Board 3, Manhattan, states that it takes no action regarding this application; and

WHEREAS, the subject site is located on the south side of East 9<sup>th</sup> Street between First Avenue and Second Avenue, within an R8B zoning district; and

WHEREAS, the site has 25 feet of frontage on East 9<sup>th</sup> Street and a total lot area of 2,125 sq. ft.; and

WHEREAS, the site is currently occupied by a one-story building operated as a garage for the parking of motorcycles, with a total floor area of 2,125 sq. ft. (1.0 FAR); and

WHEREAS, the Board has exercised jurisdiction over

the subject site since May 24, 1966 when, under the subject calendar number, the Board granted a variance under ZR § 72-21 to permit the construction of a one-story building for use as a garage (Use Group 8), with the sale of used cars (Use Group 16) and parking in the open area, for a term of ten years; and

WHEREAS, subsequently, the grant has been amended and the term extended by the Board at various times; and

WHEREAS, most recently, on October 31, 2000, the Board granted a ten-year extension of term, which expired on July 1, 2010; and

WHEREAS, the applicant now requests an additional ten-year extension of term; and

WHEREAS, the applicant states that the lot is now exclusively used for the parking of motorcycles (Use Group 8); and

WHEREAS, the applicant also requests an amendment to legalize an increase in floor area of the building from 1,075 sq. ft. (0.51 FAR) to 2,125 sq. ft. (1.0 FAR); and

WHEREAS, the applicant states that the floor area was increased by enclosing the front area of the site to provide a safer area for the storage of motorcycles; and

WHEREAS, specifically, the applicant represents that there had been incidents of vandalism in the open area at the front of the site, and that enclosing the open area has made the site safer, quieter, and cleaner, while resulting in no visual impact on nearby buildings; and

WHEREAS, the applicant notes that the previous grant allowed the front area of the site to be used for the parking and storage of motor vehicles, and therefore the enclosure of the front area does not increase the actual amount of space being used for parking on the site; and

WHEREAS, the Board notes that the proposed FAR of 1.0 is significantly less than the maximum permitted FAR in the subject R8B zoning district of 4.0; and

WHEREAS, based upon the above, the Board finds the requested extension of term and amendments are appropriate, with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, as adopted on May 24, 1966, so that as amended this portion of the resolution shall read: “to extend the term for a period of ten years from July 1, 2010, to expire on July 1, 2020, and to permit the noted modifications to the previous grant; *on condition* that all use and operations shall substantially conform to plans filed with this application marked Received ‘January 30, 2012’-(2) sheets; and *on further condition*:

THAT the term of this grant will expire on July 1, 2020;

THAT the above condition will be listed on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect and will be listed on the certificate of occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings will ensure compliance with all other applicable provisions of the Zoning

# MINUTES

Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.” (DOB Application No. 120720899)

Adopted by the Board of Standards and Appeals, February 14, 2012.

-----

## 248-75-BZ

APPLICANT – Alfonso Duarte, P.E., for 444 East 86<sup>th</sup> Street Owners Corp., owner; Quick Park, lessee.

SUBJECT – Application August 8, 2011 – Extension of Term permitting the use of a maximum of 50 transient parking spaces within an accessory garage granted by the Board pursuant to §60 (3) of the Multiple Dwelling Law, which expired on October 14, 2010; Waiver of the Rules. R8B, R10 and C1-5 zoning districts.

PREMISES AFFECTED – 1621 York Avenue, aka 436 East 86<sup>th</sup> Street, west side of York Avenue, Block 1565, Lot 29, Borough of Manhattan.

## COMMUNITY BOARD #8M

### APPEARANCES –

For Applicant: Alfonso Duarte.

**ACTION OF THE BOARD** – Application granted on condition.

### THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown and Commissioner Montanez.4

Negative:.....0

Absent: Commissioner Hinkson.....1

### THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, and an extension of term for a previously granted variance for a transient parking garage, which expired on October 14, 2010; and

WHEREAS, a public hearing was held on this application on December 13, 2011, after due notice by publication in *The City Record*, with a continued hearing on January 24, 2012, and then to decision on February 14, 2012; and

WHEREAS, Community Board 8, Manhattan, recommends approval of this application; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the subject premises is an irregular-shaped lot with approximately 143 feet of frontage on the south side of East 86<sup>th</sup> Street and 50 feet of frontage on the west side of York Avenue, partially within an R10 zoning district, partially within an R10A zoning district, and partially within a C1-5 (R10A) zoning district; and

WHEREAS, the site is occupied by a 37-story residential building; and

WHEREAS, the cellar and a portion of the first floor are occupied by a 126-space accessory parking garage; and

WHEREAS, on October 14, 1975, under the subject

calendar number, the Board granted a variance pursuant to Section 60(3) of the Multiple Dwelling Law to permit a maximum of 50 surplus parking spaces on the first floor to be used for transient parking, for a term of 15 years; and

WHEREAS, subsequently, the grant was amended and the term extended at various times; and

WHEREAS, most recently, on September 12, 2000, the Board granted a ten-year extension of term, which expired on October 14, 2010; and

WHEREAS, the applicant now requests an additional extension of the term; and

WHEREAS, the applicant submitted a photograph of the sign posted onsite, which states building residents’ right to recapture the surplus parking spaces; and

WHEREAS, at hearing, the Board directed the applicant to clarify the signage and hours of operation of the site; and

WHEREAS, in response, the applicant submitted a revised plan and signage analysis reflecting that the signage complies with C1 district signage regulations except that the illuminated sign projects six inches beyond the maximum permitted projection across the street line; and

WHEREAS, the applicant states that the illuminated sign is the only sign that is visible to motorists travelling in either direction along York Avenue, since the garage entrance is otherwise hidden from motorists’ view; and

WHEREAS, the applicant states that the hours of operation for the garage are as follows: Monday through Wednesday, from 6:00 a.m. to 12:00 a.m.; Thursday and Friday, from 6:00 a.m. to 2:00 a.m.; and Saturday and Sunday, from 7:00 a.m. to 2:00 a.m.; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of term is appropriate with certain conditions set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens*, and *amends* the resolution having been adopted on October 14, 1975, so that, as amended, this portion of the resolution shall read: “to permit the extension of the term of the grant for an additional ten years from October 14, 2010, to expire on October 14, 2020; *on condition* that all use and operations shall substantially conform to plans filed with this application marked Received ‘August 8, 2011’- (2) sheets; and *on further condition*:

THAT this term will expire on October 14, 2020;

THAT all residential leases must indicate that the spaces devoted to transient parking can be recaptured by residential tenants on 30 days notice to the owner;

THAT a sign providing the same information about tenant recapture rights must be located in a conspicuous place within the garage, permanently affixed to the wall;

THAT all signage will be in accordance with the BSA-approved plans;

THAT the above conditions and all relevant conditions from the prior resolutions will appear on the certificate of occupancy;

THAT the layout of the parking lot will be as approved by the Department of Buildings;

THAT this approval is limited to the relief granted by the

# MINUTES

Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB Application No. 102824650)

Adopted by the Board of Standards and Appeals, February 14, 2012.

## 58-10-BZ

APPLICANT – Sheldon Lobel, P.C., for Eckford II Realty Corp., owner; Quick Fitness, lessee.

SUBJECT – Application November 30, 2011 – Extension of Time to obtain a Certificate of Occupancy of a Special Permit (§73-36) for the operation of a Physical Culture Establishment (*Quick Fitness*) which expired on August 3, 2011. M1-2/R6A zoning district.

PREMISES AFFECTED – 16 Eckford Street, east side of Eckford Street, between Engert Avenue and Newton Street, Block 2714, Lot 1, Borough of Brooklyn.

### COMMUNITY BOARD #1BK

APPEARANCES –

For Applicant: Richard Lobel and Joshua Rinesmith.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown and Commissioner Montanez.4

Negative:.....0

Absent: Commissioner Hinkson.....1

**THE RESOLUTION** –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, and an extension of time to obtain a certificate of occupancy, which expired on August 3, 2011; and

WHEREAS, a public hearing was held on this application on January 24, 2012, after due notice by publication in *The City Record*, and then to decision on February 14, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Montanez; and

WHEREAS, the site is located on the east side of Eckford Street, between Engert Avenue and Newton Street, in an M1-2/R6A zoning district within the MX-8 Special Mixed-Use District; and

WHEREAS, the site is a single zoning lot occupied by three buildings: (1) a three-story mixed-use industrial/commercial building located on the northwestern portion of the lot (22 Eckford Street); (2) a one-story industrial building located on the northeastern portion of the lot (20 Eckford Street); and (3) a one-story commercial building located on the southern portion of the lot (16 Eckford Street); and

WHEREAS, the PCE occupies a total floor area of 4,710 sq. ft. on the first floor of the building located at 16 Eckford Street; and

WHEREAS, the PCE is operated as Quick Fitness; and

WHEREAS, on August 3, 2010 when, under the subject calendar number, the Board granted a special permit pursuant to ZR § 73-36, to permit the operation of a PCE on a 4,710 sq. ft. portion of the first floor of the building located at 16 Eckford Street, for a term of ten years; and

WHEREAS, a condition of the grant was that a certificate of occupancy be obtained by August 3, 2011; and

WHEREAS, the applicant now seeks an extension of time to obtain a certificate of occupancy; and

WHEREAS, the applicant states that a certificate of occupancy was not obtained due to delays in obtaining approval and permits for the installation of the PCE’s sprinkler system; and

WHEREAS, the applicant further states that it has since obtained approval of the sprinkler system and a permit has been issued; and

WHEREAS, based upon its review of the record, the Board finds the requested extension of time to obtain a certificate of occupancy is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated August 3, 2010, so that as amended this portion of the resolution shall read: “to grant an extension of time to obtain a certificate of occupancy, to expire on February 14, 2013; *on condition*:

THAT a certificate of occupancy shall be obtained by February 14, 2013;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the

# MINUTES

Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (DOB Application No. 320134662)

Adopted by the Board of Standards and Appeals, February 14, 2012.

**THE RESOLUTION** –

WHEREAS, the decision of the Brooklyn Borough Superintendent, dated November 18, 2010, acting on Department of Buildings Application No. 320225626 reads, in pertinent part:

Proposed development is contrary to the following sections of the ZR and therefore requires approval from the NYC BSA:

FAR, ZR Section 43-122

Use Group, ZR Section 42-11

Wall Height, ZR Section 43-43

Total Height, ZR Section 43-43

Number of stories, ZR Section 43-43

Rear Yard, ZR Section 43-26

Setback, ZR Section 43-43

Sky Exposure Plane, ZR Section 43-43; and

WHEREAS, this is an application for a variance pursuant to ZR § 72-21 to permit, on a site within an M1-1 zoning district, the construction of a six-story Use Group 3 school, which does not conform to district use regulations or comply with relevant bulk regulations, contrary to ZR §§ 42-11, 43-122, 43-26, and 43-43; and

WHEREAS, a public hearing was held on this application on September 20, 2011, after due notice by publication in *The City Record*, with continued hearings on November 15, 2011 and December 13, 2011, and then to decision on February 14, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 3, Brooklyn, states that it takes no action regarding this application; and

WHEREAS, City Councilmember Stephen T. Levin recommends approval of this application; and

WHEREAS, State Assemblymember Joseph R. Lentol recommends approval of this application; and

WHEREAS, this application is brought on behalf of the Williamsburg Infant and Early Childhood Development Center, Inc. (“WIEDC”), a not-for-profit educational entity; and

WHEREAS, the subject site is located on the south side of Park Avenue, between Kent Avenue and Franklin Avenue, within an M1-1 zoning district; and

WHEREAS, the site has 120 feet of frontage on Park Avenue, a depth of approximately 89’-5”, and a total lot area of approximately 10,730 sq. ft.; and

WHEREAS, the site is currently vacant; and

WHEREAS, the applicant proposes to construct a six-story and cellar school building on the site; and

WHEREAS, the proposed use is not permitted in the subject M1-1 zoning district and the proposed bulk exceeds the complying building envelope for a conforming use, thus the applicant seeks a variance for the proposed building; and

WHEREAS, the applicant originally proposed to construct a six-story building with a floor area of 48,621 sq. ft. (4.5 FAR), a wall height of 73’-0”, and a total height of 87’-6”; and

WHEREAS, at the direction of the Board, the applicant revised its proposal and provided interim proposals that maintained the floor area of 48,621 sq. ft. (4.5 FAR) and the wall height of 73’-0”, but reduced the total height to 85’-6” and then 82’-10”, before further revising the plans to reflect the current proposal; and

WHEREAS, the current proposal reflects the following non-compliances: a floor area of 48,621 sq. ft. (25,752 sq. ft. is the maximum permitted); an FAR of 4.5 (2.4 FAR is the maximum permitted); a wall height of 68’-4” (the maximum permitted wall height is 30’-0”); a total height of 80’-0” (as governed by the sky exposure plane); a setback of 15’-0” above the fifth floor (a minimum setback of 20’-0” is required above a height of 30’-0”); a rear yard with a depth of 15’-0” above the first floor (a rear yard with a minimum depth of 20’-0” is required); and encroachment into the sky exposure plane; and

WHEREAS, the proposal provides for the following uses: (1) a therapeutic pool, changing room, large occasion room, kitchen, building services, and storage at the cellar; (2) a drop off area, reception area, lobby, staff daycare room, therapy rooms, classrooms, and offices at the first floor; (3)

---

# MINUTES

---

therapy rooms, classrooms, and offices at the second floor; (4) therapy rooms, classrooms, teacher's lounge, rabbi's office, and a children's pantry and bakery at the third floor; (5) therapy rooms, classrooms, a staff lounge, indoor and outdoor play areas, and offices at the fourth floor; (6) therapy rooms, classrooms, a staff lounge, and offices at the fifth floor; (7) service coordination suites, offices, and conference rooms at the sixth floor; and (8) a playground on the roof; and

WHEREAS, the applicant states that the following are the primary programmatic needs of WIEDC: (1) accommodating the current enrollment while allowing for future growth; (2) relieving overcrowded classroom conditions; (3) providing sufficient space for the special needs students and the associated staff and therapy equipment; and

WHEREAS, the applicant represents that the WIEDC has been located at its current facility at 22 Middleton Street since December 2004, and has expanded over that time from a small number of students to the current enrollment of 190 students; and

WHEREAS, the applicant states that the existing building is no longer adequate to accommodate WIEDC's current and projected enrollment; and

WHEREAS, the applicant states that the existing building contains approximately 18,000 sq. ft. of floor area, which is inadequate to provide the space necessary to meet the therapy and education requirements of the special needs students; and

WHEREAS, specifically, the applicant states that WIEDC services students that are at the most extreme end of the disabled spectrum, and providing adequate education and therapy for the students requires significantly more space than is needed for other children; and

WHEREAS, the applicant represents that of the current enrollment of 190 students, only 140 can be accommodated in the existing building, while the additional 50 students are educated off-site; and

WHEREAS, the applicant further represents that the therapy rooms in the existing building are too small to accommodate the specialized equipment needed or the methods used in the therapy sessions, and that many of the offices in the existing building are forced to double as therapy rooms; and

WHEREAS, the applicant states that the existing building lacks space for families of the children to come and meet with the therapists, social workers, and teachers, which is encouraged to occur many times per week, given the students' need for 24-hour attention; and

WHEREAS, the applicant further states that the existing building's recreation areas are also deficient, as the indoor play area lacks space for any therapeutic play equipment, and the outdoor play area is in a courtyard adjacent to residential units, and therefore does not provide sufficient privacy for the students; and

WHEREAS, the applicant states that there is currently a waiting list for the subject school, and WIEDC seeks to increase its enrollment to 272 students for the proposed facility; and

WHEREAS, the proposed building will allow WIEDC to accommodate its current enrollment as well as its

projected enrollment of approximately 272 students through the use of both formal classroom space and separate therapy space to accommodate the varying needs of the students; and

WHEREAS, the applicant states that there are a total of 20 proposed classrooms on floors two through five which are all substantially similar in size, ranging from 549 sq. ft. to 661 sq. ft. to accommodate six to 12 students in each room; and

WHEREAS, the applicant represents that there are six types of classrooms proposed which reflect the six core programs necessary to meet the specific needs of the students, and the standard per square foot measurement used in the classrooms is dependent upon the type of classroom: (1) Early Intervention Classrooms will be located at the first floor for children up to three years old, and will occupy a total of 1,013 sq. ft., at an average of 63 sq. ft. per child; (2) Individual Support Classrooms for children aged two through six will be located at the second and third floors and will occupy a total of 2,217 sq. ft., at an average of 93 sq. ft. per child; (3) Medium Functioning Classrooms for children aged two through six will be located at the second and third floors and will occupy a total of 2,356 sq. ft., at an average of 69 to 92 sq. ft. per child; (4) High Functioning Classrooms for children aged two through six will be located at the second and third floors and will occupy a total of 2,407 sq. ft., at an average of 65 sq. ft. to 67 sq. ft. per child; (5) Individual Support Classrooms for children aged six and above will be located at the fourth and fifth floors and will occupy a total of 2,471 sq. ft., at an average of 75 sq. ft. to 106 sq. ft. per child; and (6) Medium Functioning Classrooms for children aged six and over will be located at the fourth and fifth floors and will occupy a total of 2,386 sq. ft., at an average of 47 sq. ft. to 53 sq. ft. per child; and

WHEREAS, in addition to the classrooms, the applicant states that the first floor will include a speech room and a large therapy room that will accommodate ten students; and

WHEREAS, the applicant further states that there are therapy suites at the second and third floor which will accommodate 30 students, and consist of occupational therapy, speech therapy rooms, a therapist's office, and a sensory integration space all centered around a larger therapy room, which will allow for individual therapy as well as larger group therapy on an as needed basis and simultaneously; and

WHEREAS, the applicant states that there are also large therapy suites on the fourth and fifth floor which are designed exclusively for group therapy sessions; and

WHEREAS, the applicant further states that an 18'-0" by 30'-0" therapeutic pool will be located at the cellar to be utilized in therapy sessions and can accommodate five children at once, including wheelchairs, walkers, and water therapy equipment; and

WHEREAS, in addition to the proposed student enrollment, the applicant states that the programmatic operations of the school require more staff than that of a conventional school, resulting in even more spatial demands upon the proposed facility; and

WHEREAS, specifically, the applicant states that WIEDC has a programmatic need to provide a total of 55 teachers and paraprofessional support staff that comes on an as-needed basis to accommodate the proposed 272 students; and

---

# MINUTES

---

WHEREAS, the applicant states that the above-mentioned uses are based on simultaneous student occupancy of all classrooms, therapy rooms, speech rooms, and the pool, and will accommodate the proposed 272 students; and

WHEREAS, the applicant states that the remaining spaces in the proposed building are non-simultaneous uses, including a gym, play areas, speech therapy areas, a day care room, computer rooms, and play grocery store and banking areas, none of which can be readily adapted back and forth to accommodate multiple uses; and

WHEREAS, the applicant represents that a further programmatic need of the school is to provide a first floor drop off area that is off-street and allows for a safe and protected area for student drop-off and pickup to occur, as it can take several minutes for the students to get in or out of a vehicle; and

WHEREAS, the applicant states that the remainder of the first floor includes a reception and waiting area, and a family lounge to address the need for close family involvement; and

WHEREAS, the applicant further states that outdoor play areas will be located at the roof and fourth floor, and these areas will be supervised and enclosed and allow for the difference in the type of play between the older or more functioning students and those that are younger or may require more specialized play; and

WHEREAS, the applicant represents that the requested floor area, height, setback, and rear yard waivers are necessary to accommodate the space needs associated with the projected student body; and

WHEREAS, the applicant represents that the proposed height waiver is necessary to accommodate certain therapeutic equipment on each floor, specifically the sensory integration swing platforms, which are integral aspects to the therapy process and require a floor-to-ceiling height of 10'-6" (not including additional space required for duct space above the ceiling) to provide the necessary clearance for the swing platforms; and

WHEREAS, the applicant further represents that the waivers for height, setback, and encroachment into the sky exposure plane are also necessary to provide uniform floor plates on the second through fifth floors, in order to provide sufficient space to accommodate the students, staff, and specialized therapy equipment required or the school; and

WHEREAS, the Board notes that the applicant could have applied for a special permit for the subject site pursuant to ZR § 73-19 which would authorize the proposed use in the subject M1-1 zoning district, but a variance would still be required to construct the proposed building due to the requested bulk waivers; and

WHEREAS, the applicant submitted evidence in support of its claim that it could satisfy the findings required for the special permit under ZR § 73-19, to allow for a school within an M1-1 zoning district; and

WHEREAS, however, the applicant notes that the special permit would allow for a maximum FAR of 2.4 for the proposed school, which is not sufficient to meet WIEDC's programmatic needs; and

WHEREAS, the applicant submitted plans based on what

would be permitted pursuant to the special permit, which reflect a four-story building with 25,748 sq. ft. of floor area (2.4 FAR), a wall height of 23'-6", a total height of 46'-6", a rear yard with a depth of 20'-0", and a front setback with a depth of 20'-0"; and

WHEREAS, the applicant states that the building permitted pursuant to the special permit would yield sufficient space for only 154 students, which is well below the proposed enrollment of 272 students, and does not even satisfy the current enrollment of 190 students; and

WHEREAS, the applicant submitted a comparison chart reflecting the services which would be lost if the school were constructed pursuant to the special permit, which includes classrooms, therapy rooms, speech rooms, service coordination suites, a food prep room, restroom facilities, offices, the indoor play area, one outdoor play area, a nurse's office, and a reception area, among other spaces; and

WHEREAS, accordingly, the applicant states that only the proposed variance building can accommodate WIEDC's projected enrollment and satisfy the programmatic needs and space requirements of the school's special needs students; and

WHEREAS, the Board acknowledges that the school, as an educational institution, is entitled to significant deference under the law of the State of New York as to zoning and as to its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, specifically, as held in Cornell Univ. v. Bagnardi, 68 N.Y.2d 583 (1986), an educational institution's application is to be permitted unless it can be shown to have an adverse effect upon the health, safety, or welfare of the community, and general concerns about traffic, and disruption of the residential character of a neighborhood are insufficient grounds for the denial of an application; and

WHEREAS, based upon the above, the Board finds that the limitations of the existing zoning, when considered in conjunction with the programmatic needs of the school, creates unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, the applicant need not address ZR § 72-21(b) since the school is a not-for-profit organization and the proposal is in furtherance of its not-for-profit mission; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant submitted a 400-ft. radius diagram reflecting that the surrounding area is characterized by a mix of residential, community facility, commercial, and manufacturing uses; and

WHEREAS, as noted above, the proposed use is permitted by special permit under ZR § 73-19, which the applicant states is an acknowledgement that the use itself can be compatible with surrounding uses in the M1-1 zoning district; and

WHEREAS, the applicant notes that the proposed use would also be permitted as-of-right in the MX4/M1-2/R6A zoning district which is located approximately one block to the

---

# MINUTES

---

northeast of the site; and

WHEREAS, the applicant states that there are also residential uses located on the subject block, including immediately adjacent to the rear of the site, and to the east of the site on Lots 35, 38, and 39; and

WHEREAS, as to bulk, the applicant states that the proposed height of 80'-0" is contextual with the building located on Lot 39 of the subject block with a height of 60'-0", as well as several other five-story buildings in the surrounding area; and

WHEREAS, the applicant submitted a building height comparison study which reflects that the proposed height is comparable to several other buildings in the vicinity of the site; and

WHEREAS, the Board notes that the building is set back 15'-0" above the fifth floor along Park Avenue, which will reduce the visual impact of the building height when viewed from the street; and

WHEREAS, the applicant states that the size of the proposed building will not have a detrimental impact on surrounding uses, as the adjacent lot to the west is used to store moving vans and the proposed building will provide a 15'-0" rear yard setback above the first floor, which will provide a buffer between the proposed building and the adjacent building to the south, thereby providing access to natural light in the proposed classrooms and minimizing any impact of the proposed building on the adjacent building to the south; and

WHEREAS, the applicant represents that no adverse traffic impacts will result from the proposed legalization and enlargement, as the school will have an off-street pickup and drop-off area for school vans and private vehicles at the first floor of the building; and

WHEREAS, the applicant states that the school has a total of 12 vans which can accommodate 15 students each, and that four vans can park in the drop-off area at a given time; thus, 60 students can arrive in each shift; and

WHEREAS, accordingly, the Board finds that this action will neither alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant states that the hardship was not self-created and that no development in conformance with zoning would meet the programmatic needs of the school at the site; and

WHEREAS, accordingly, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, as noted above, the applicant originally proposed to construct a six-story building with a wall height of 73'-0" and a total height of 87'-6"; and

WHEREAS, at the direction of the Board, the applicant revised its proposal and provided interim plans which maintained the wall height of 73'-0" but reduced the total height to 85'-6" and then to 82'-10", before further revising the proposal to reflect the current proposal with a wall height of 68'-4" and a total height of 80'-0"; and

WHEREAS, accordingly, the Board finds the requested

waivers to be the minimum necessary to meet the programmatic needs of the school and to construct a building that is compatible with the character of the neighborhood; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement ("EAS") 11BSA045K, dated February 7, 2012; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the New York City Department of Environmental Protection's (DEP) Bureau of Environmental Planning and Analysis reviewed the project for potential hazardous materials air quality and noise impacts; and

WHEREAS, DEP reviewed and accepted the January 2012 Remedial Action Plan and Construction Health and Safety Plan; and

WHEREAS, DEP requested that a Remedial Closure Report be submitted to DEP for review and approval upon completion of the proposed project; and

WHEREAS, DEP reviewed the applicant's stationary source and mobile source air quality screening analysis and determined that the proposed project is not anticipated to result in significant air quality impacts; and

WHEREAS, DEP reviewed the results of noise monitoring, which determined that a window-wall noise attenuation rating of 31 dBA (OITC) and an alternate means of ventilation be provided for the proposed building; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved* that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit, on a site within an M1-1 zoning district, the construction of a Use Group 3 school, which does not conform with applicable zoning use regulations or comply with relevant

# MINUTES

bulk regulations, contrary to ZR §§ 42-11, 43-122, 43-43, and 43-26, *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked “Received February 13, 2012” – Three (3) sheets and “Received February 8, 2012” – Thirteen (13) sheets; and *on further condition*:

THAT the following are the bulk parameters of the proposed building: six stories, a floor area of 48,621 sq. ft. (4.5 FAR); a wall height of 68’-4”; a total height of 80’-0”; a front setback of 15’-0” above the fifth floor; a rear yard with a depth of 15’-0” above the first floor; and encroachment into the sky exposure plane, as reflected on the BSA-approved plans;

THAT any change in the use, occupancy, or operator of the school requires review and approval by the Board;

THAT DOB shall not issue a Certificate of Occupancy until the applicant has provided documentation of DEP’s approval of the Remedial Closure Report; and

THAT the proposed project shall include a window/wall attenuation rating of 31 dBA (OITC), an alternate means of ventilation to maintain an interior noise level of 45 dBA, and a closed window condition; and

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT substantial construction be completed in accordance with ZR § 72-23;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 14, 2012.

**73-11-BZ  
CEQR #11-BSA-101R**

APPLICANT – Rampulla Associates Architects, for Tora Development, LLC, owners.

SUBJECT – Application May 26, 2011 – Variance (§72-21) to allow a three-story, 87-unit residential building, contrary to use regulations of (§32-11), height (§23-631) and parking (§25-23) regulations. C3A/SRD zoning district.

PREMISES AFFECTED – 70 Tennyson Drive, north side Tennyson Drive, between Nelson Avenue and Cleveland Avenue, Block 5212, Lot 70, Borough of Staten Island.

**COMMUNITY BOARD #2SI**

APPEARANCES –

For Applicant: Philip Rampulla.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collin, Commissioner Ottley-Brown and Commissioner Montanez.4

Negative:.....0

Absent: Commissioner Hinkson.....1

THE RESOLUTION –

WHEREAS, the decision of the Staten Island Borough Commissioner, dated November 10, 2011, acting on Department of Buildings Application No. 520060246, reads in pertinent part:

Proposed three (3) story eighty seven (87) unit residential building contrary to use regulations (Section ZR 32-11)

Height (Section ZR 23-631) and parking (Section ZR 25-23) in C3A zoning district is contrary to (Section 34-01); and

WHEREAS, this is an application under ZR § 72-21, to permit, in a C3A zoning district within the Special South Richmond Development District (“SSRDD”) in a Lower Density Growth Management Area (“LDGMA”), a three-story residential building (UG 2), with 87 dwelling units and 114 accessory parking spaces, which is contrary to ZR §§ 32-11 and 34-01; and

WHEREAS, a public hearing was held on this application on November 1, 2011, after due notice by publication in the *City Record*, with a continued hearing on December 6, 2011, and then to decision on January 24, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson and Commissioner Montanez; and

WHEREAS, Community Board 2, Staten Island, recommended disapproval of the original iteration of this application, citing concerns with the size and bulk of the project as originally proposed, its effect on the surrounding neighborhood character, and that the site does not suffer from unique physical conditions; and

WHEREAS, City Council Member Vincent M. Ignizio recommended disapproval of the original iteration of this application; and

WHEREAS, Staten Island Borough President James P. Molinaro recommends approval of the current application, with the following conditions: (1) all portions of Tennyson Drive be developed to the full mapped width of the street, with sidewalks and planting strips provided; (2) public dedication areas should include all land within the mapped bed of Tennyson Drive; (3) a Declaration of Public Use be filed with the Builder’s Pavement Plan application, guaranteeing pedestrian and vehicle access to all portions of the public dedication areas at all times; and (4) the Department of Transportation (“DOT”) render an opinion regarding parking and lighting considerations proximate to existing intersections; and

WHEREAS, a member of the community provided oral testimony in opposition to this application; and

WHEREAS, the subject premises is an irregular-shaped lot located on the north side of the mapped but unbuilt Tennyson Drive, between Nelson Avenue and Cleveland Avenue, in a C3A zoning district within the SSRDD and in a LDGMA; and

WHEREAS, the site is also located adjacent to the northwest of Seaside Wildlife Nature Park, which opened in 2009 and consists of 21 acres along the Great Kills Harbor

---

# MINUTES

---

waterfront; and

WHEREAS, the site has approximately 468 feet of frontage along Nelson Avenue, 723 feet of frontage along the mapped but unbuilt Tennyson Drive, 101 feet of frontage along Cleveland Avenue, 456 feet of frontage along Fitzgerald Avenue, and 45 feet of frontage along Morris Place, with a total lot area of 177,791 sq. ft.; and

WHEREAS, the applicant notes that a 57,103 sq. ft. portion of the subject lot is located in the bed of an unbuilt portion of Tennyson Drive; as a result the buildable area for the subject lot is reduced to 120,681 sq. ft. because as-of-right development is limited to the area outside the bed of the mapped but unbuilt Tennyson Drive; and

WHEREAS, on September 28, 1999, under BSA Cal. No. 60-99-A, the Board granted an application for the site to permit construction of a two-story, 100 unit residential building and restaurant which complied with the underlying zoning requirements but required a waiver of General City Law § 35 for construction partially in the bed of a mapped street, Tennyson Drive; and

WHEREAS, on September 1, 2005, the Board issued a letter of substantial compliance permitting an amendment to the approval from a two-story building to a three-story building, with a reduction in the portion of the building being constructed in the bed of the mapped street; and

WHEREAS, the applicant notes that on July 27, 2005, the subject site was rezoned from a C3 zoning district (with an R3-2 residential equivalent) to a C3A zoning district (with an R3A residential equivalent), in which the previously-approved residential development is not permitted as-of-right; and

WHEREAS, the applicant states that the subject site remains vacant; and

WHEREAS, the applicant initially proposed a four-story, 100-unit residential building (UG 2) with accessory parking for 100 vehicles, a floor area of 114,777 sq. ft. (0.645 FAR), a street wall height of 48'-0", a total building height of 58'-0", and which would not have opened the portion of Tennyson Drive located within the subject zoning lot and connected it to the existing street grid; and

WHEREAS, during the hearing process, the building height, floor area and number of units were reduced and the number of parking spaces increased at the direction of the Board and in response to concerns raised by the Community Board, Borough President, City Council and members of the community; and

WHEREAS, the applicant also revised its proposal to build out the portion of Tennyson Drive located within the zoning lot to its full mapped width and connect it to the existing street grid; thus, the current proposal does not contemplate construction in the bed of the mapped street and therefore will comply with General City Law § 35; and

WHEREAS, the applicant now proposes a three-story, 87-unit residential building with accessory parking for 114 vehicles, a floor area of 106,311 sq. ft. (0.597 FAR), and a height of 38'-2"; and

WHEREAS, the applicant states that the owner proposes to limit the occupancy of the building to adults age 55 and over; and

WHEREAS, the applicant further states that the proposed building will comply with the Housing for Older Persons Act ("HOPA"), a federal program that allows for such older adult housing projects; and

WHEREAS, the applicant states that the subject C3A zoning district limits Use Group 2 residential development to detached single- and two-family homes; therefore a use variance is requested for the proposed building; and

WHEREAS, the applicant further states that, pursuant to ZR § 34-01, the subject C3A zoning district has an R3A residential equivalent such that R3A district bulk provisions govern the subject site, and the proposed building therefore has the following non-compliances: a height of 38'-2" (a maximum height of 35'-0" is permitted); and 114 accessory parking spaces (a minimum of 131 accessory parking spaces are required); and

WHEREAS, because the proposed building does not conform to the use provisions of the C3A zoning district and does not comply with the bulk provisions related to street wall height and required parking, the applicant requests a variance to permit the proposed building; and

WHEREAS, the applicant states that the following unique physical conditions create unnecessary hardship and practical difficulties in developing the site with a complying development: (1) the presence of a mapped but unbuilt street on the subject lot; (2) poor subsurface soil conditions; (3) the lack of sanitary sewers; and (4) the irregular shape of the lot; and

WHEREAS, as to the mapped but unbuilt street, the applicant states that 57,103 sq. ft. of the subject lot is located in the bed of the unbuilt Tennyson Drive; therefore, approximately 32 percent of the 177,791 sq. ft. lot is within the bed of Tennyson Drive and cannot be developed; and

WHEREAS, the applicant represents that, although the 57,103 sq. ft. of lot area located in the bed of Tennyson Drive cannot be built upon, the Department of Buildings ("DOB") allows the portion of a zoning lot located in a mapped but unbuilt street to be included as lot area, such that the permitted floor area is calculated based on the total lot area of 177,791 sq. ft.; and

WHEREAS, however, the applicant states that the required yards and setbacks must be taken outside of the mapped but unbuilt street, and therefore the location of the street inhibits the ability of the site to realize its full development potential; and

WHEREAS, specifically, the applicant states that an as-of-right residential development on the site is limited to 24 two-family, three-story detached homes, which is unable to utilize the floor area generated by the portion of the lot located within the bed of Tennyson Drive; and

WHEREAS, as to the uniqueness of this condition, the applicant submitted a 400-ft. radius diagram which reflects that the subject site is the only zoning lot in the surrounding area which contains a mapped but unbuilt street; and

WHEREAS, as to the subsurface conditions on the site, the applicant states that the site has poor underlying soil conditions and is located within three different flood zones, all of which preclude the use of conventional foundation systems;

---

# MINUTES

---

and

WHEREAS, the applicant submitted an engineer's report which stated that, based on soil borings performed at the site, the existing soil strata comprises a layer of fill which varies in thickness from three feet to 16.5 feet, followed by a layer of inorganic clayey silts with thickness varying from three feet to nine feet, followed by a layer of organic clayey silts with a thickness of four feet, and finally a layer of sand to the depth of 47 feet; and

WHEREAS, the engineer's report further states that the site has a high water table, ranging from five feet to nine feet below grade; and

WHEREAS, the applicant states that the site is located within three flood zones: (1) Zone AE affects 70 percent of the proposed development area and represents a special flood hazard area that is subject to 100-year flood in any given year, and has a base flood elevation of 11 feet, which is five feet above the mean site elevation; (2) Zone X affects 29 percent of the proposed development area and represents a 0.2 percent annual chance of flood; and (3) Zone VE affects approximately one percent of the proposed development area, and represents a coastal flood zone with wave action hazard and has a base flood elevation of 12 feet; and

WHEREAS, the applicant states that, due to the location of the subject zoning lot within three flood zones, certain regulatory requirements apply to any development on the site, based on Federal Emergency Management Agency ("FEMA") site classifications; and

WHEREAS, specifically, the applicant states that 71 percent of the site is occupied by flood zones which require that foundations be designed, constructed, and anchored to prevent flotation, collapse and lateral movement, and which either prohibit or recommend against the use of structural fill or solid concrete foundations; and

WHEREAS, the applicant states that the FEMA regulations for the flood zones in which the site is located, in conjunction with the high water table and poor underlying soil conditions which have the potential for foundation settlement, make conventional foundation systems of reinforced concrete spread footings inappropriate; and

WHEREAS, specifically, the engineer's report states that the foundation system for any development on the site would consist of timber piles driven approximately 30 feet below grade; and

WHEREAS, the engineer's report further states that future sewer lines for both the as-of-right and proposed development would be supported on a timber pile system in order to eliminate potential sewer line damage risks due to soil erosion, soil settlement, flooding, and the high water table; and

WHEREAS, the applicant states that this approach would greatly increase the number of piles for the as-of-right development (consisting of 24 two-family three-story homes), due to the required network of mains and laterals, while the proposed condominium building would require significantly fewer piles since only one line would be used to connect the sewer main; and

WHEREAS, specifically, the applicant states that the as-of-right two-family residential development would require a

total of 696 piles at a cost of \$688,674, as compared to a total of 444 piles at a cost of \$444,486 for the proposed condominium building, a difference of \$244,188; and

WHEREAS, as to the uniqueness of these conditions, the applicant states that the majority of other zoning lots in the surrounding area do not suffer from these conditions, and DOB records indicate that semi-detached and attached houses located to the northwest of the site have acceptable soil conditions for conventional concrete foundations; and

WHEREAS, the applicant states that the lack of sanitary sewers at the subject site is another unique condition which makes as-of-right development of the site infeasible; and

WHEREAS, the applicant states that the subject site has frontage on Nelson Avenue, Cleveland Avenue, Fitzgerald Avenue, Morris Place, and Tennyson Drive, and that while there are interceptor sewers located in Nelson Avenue and Tennyson Drive, individual house sewers are not permitted to connect to an interceptor sewer; and

WHEREAS, the applicant further states that the only sanitary sewer available for connection is a ten-inch sanitary sewer located in Cleveland Avenue, and this condition necessitates the installation of a common internal sanitary sewer which increases the costs for any as-of-right residential development; and

WHEREAS, the applicant represents that the lack of sanitary sewers, which precludes individual house connections and forces the use of a common internal sanitary sewer, is a unique condition which is not shared by any other lot in the surrounding area; and

WHEREAS, as to the irregular shape of the site, the applicant states that the subject site has frontage on five separate streets yet is triangular in appearance; and

WHEREAS, the applicant further states that a large portion of the site's Tennyson Drive frontage is curved, which increases the irregularity of the lot; and

WHEREAS, the applicant represents that the irregular shape of the lot significantly impedes the development potential of the site; and

WHEREAS, specifically, the applicant states that despite the frontage on five separate streets, as-of-right development consisting of 24 two-family three-story homes would require the construction of a new private street, in order to provide access to certain homes located on the interior portion of the lot, which would further reduce the development potential of the site; and

WHEREAS, the applicant submitted as-of-right plans reflecting that the shallowness of the northeastern portion of the site further inhibits the as-of-right development potential of the site; and

WHEREAS, based upon the above, the Board finds that the aforementioned unique physical conditions, when considered in the aggregate, create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the applicant initially submitted a feasibility study analyzing the following scenarios: (1) an as-of-right development with 24 detached, two-family, three-story homes with built-in garage; and (2) the originally proposed four-story

---

# MINUTES

---

100 unit condominium building with a floor area of 114,777 sq. ft. (0.645 FAR) and 100 accessory parking spaces; and

WHEREAS, the feasibility study concluded that the as-of-right development would not realize a reasonable return, but that the proposed development would realize a reasonable return; and

WHEREAS, during the course of the hearing process, the Board directed the applicant to revise the proposed scenario and analyze a lesser variance scenario which complied with all bulk regulations of the Zoning Resolution; and

WHEREAS, in response, the applicant submitted a revised feasibility study which analyzed the current three-story 87 unit condominium building with a floor area of 106,311 sq. ft. (0.597 FAR) and 114 accessory parking spaces, and provided a lesser variance scenario consisting of 36 non-conforming attached three-story single-family townhouses which complied with all bulk regulations of the R3A residential equivalent zoning district; and

WHEREAS, the revised feasibility study concluded that the lesser variance scenario would not realize a reasonable return but that the revised proposed scenario would realize a reasonable return; and

WHEREAS, based upon its review of the applicant's submissions, the Board has determined that, because of the subject site's unique physical conditions, there is no reasonable possibility that development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant initially provided a 400-foot radius diagram indicating that the surrounding area is characterized by a mix of residential and commercial development; and

WHEREAS, the radius diagram submitted by the applicant reflects that a 90-unit townhouse development is located directly southwest of the site across Nelson Avenue, the 60-unit three- and four-story age-restricted Port Regalle condominium building is located directly south of the site on the opposite side of Tennyson Drive, and a mix of townhouses and semi-detached homes are located to the northwest of the site; and

WHEREAS, the applicant states that the proposed height of 38'-2" exceeds the maximum permitted height of 35'-0" by only 3'-2", and that when measured from the final grade rather than the base plane, the height is only 35'-11"; and

WHEREAS, the applicant submitted a height study diagram reflecting that the height of the proposed building is less than that of the Port Regalle residential development located to the south of the site across Tennyson Drive, which has a maximum height of 42'-0"; and

WHEREAS, the applicant states that the Seaside Wildlife Nature Park is located immediately adjacent to the southeast of the site and the proposed building is setback 45 feet to 60 feet from the Fitzgerald Avenue frontage to the northwest of the

site, which will ensure that the bulk of the proposed building does not negatively impact the surrounding uses; and

WHEREAS, the applicant also submitted a street parking diagram which indicates that the portions of both Tennyson Drive and Nelson Avenue located within the subject site will be opened and improved to their full width; and

WHEREAS, the applicant states that a total of approximately 63 new on-street parking spaces will be created on both sides of Tennyson Drive, and approximately 18 new on-street parking spaces will be provided on the northeast side of Nelson Avenue; and

WHEREAS, the applicant further states that the 100 accessory off-street parking spaces proposed for the subject building, in combination with the approximately 81 new on-street parking spaces that will be created on Tennyson Drive and Nelson Avenue, provide sufficient parking for the project and ensure that the proposed building will not have a negative impact on parking in the surrounding neighborhood; and

WHEREAS, the applicant represents that opening Tennyson Drive to its full width and connecting it to the existing street grid will also improve traffic conditions in the surrounding area; and

WHEREAS, the applicant further represents that restricting the occupancy of the proposed building to persons aged 55 or older will minimize the traffic generated from the site because fewer residents of the proposed building will have automobiles than if the occupancy of the building was not age-restricted; and

WHEREAS, in response to the concerns raised by the Borough President, the applicant states that it has agreed to build out the portion of Tennyson Drive located within the subject zoning lot to the full mapped street width, provide sidewalks and planting strips along Tennyson Drive, include all land within the mapped bed of Tennyson Drive as public dedication areas, and file a Declaration of Public Use with the Office of the County Clerk under the Builder's Pavement Plan application to guarantee pedestrian and vehicle access to all portions of the public dedication areas at all times; and

WHEREAS, the applicant notes that in its letter recommending approval of the subject proposal, the Borough President stated that opening Tennyson Drive to its full mapped width will better serve the community's needs for a contiguous roadway, and the new roadway and attendant sidewalks will provide ample curbside parking spaces and pedestrian connections to the adjacent Seaside Wildlife Nature Park; and

WHEREAS, the applicant notes that the subject C3A zoning district contemplates certain types of residential use, and the proposed building complies with all bulk requirements of the R3A equivalent district, aside from height and parking; and

WHEREAS, based upon its review of submitted maps and photographs and its inspection, the Board agrees that the proposed building's use, height, bulk and design are compatible with that of other buildings in the neighborhood; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent

---

# MINUTES

---

properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship was not created by the owner or a predecessor in title, but is due to the unique conditions of the subject site; and

WHEREAS, as noted above, the applicant initially proposed a four-story 100-unit building with a floor area of 114,777 sq. ft. (0.645 FAR), a street wall height of 48'-0", a total height of 58'-0", and 100 accessory parking spaces; and

WHEREAS, in response to concerns raised by the Borough President, City Council, and members of the community, and at the request of the Board, the applicant revised its proposal during the hearing process by reducing the number of stories from four to three, reducing the height of the building to 38'-2", reducing the number of units from 100 to 87, reducing the floor area from 114,777 sq. ft. (0.645 FAR) to 106,311 sq. ft. (0.597 FAR), increasing the number of parking spaces from 100 to 114, and agreeing to open Tennyson Drive and provide an additional 81 on-street parking spaces along Tennyson Drive and Nelson Avenue; and

WHEREAS, the applicant asserts, and the Board agrees, that the waiver associated with the proposed building represents the minimum variance; and

WHEREAS, accordingly, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No. 11BSA101R, dated February 13, 2012; and

WHEREAS, the New York State Department of Environmental Conservation ("DEC") is reviewing an application for a tidal wetland adjacent area permit for the proposed development; and

WHEREAS, as a condition of approving the permit, DEC may require measures including but not limited to pervious sidewalks and parking areas, planting of native trees and shrubs, and storm water management with hydrodynamic separators; and

WHEREAS, the New York City Landmarks Preservation Commission ("LPC") reviewed the project for potential archaeological impacts and requested that an archaeological documentary study (Phase IA) be submitted for review and approval; and

WHEREAS, a Restrictive Declaration for an archaeological study was executed on January 18, 2012 and filed for recording on January 19, 2012; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the

environment.

*Therefore it is Resolved* that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit, in a C3A zoning district within the Special South Richmond Development District ("SSRDD") in a Lower Density Growth Management Area ("LDGMA"), a three-story residential building (UG 2), with 87 dwelling units and 114 accessory parking spaces, which is contrary to ZR §§ 32-11 and 34-01, *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received February 10, 2012" – Nine (9) sheets; and *on further condition*:

THAT the following shall be the parameters of the proposed building: three stories; 87 units; a floor area of 106,311 sq. ft. (0.597 FAR); a height of 38'-2"; and accessory parking for 114 vehicles, as illustrated on the BSA-approved plans;

THAT the occupancy of the building shall be limited to persons 55 years of age or older, in accordance with applicable provisions of the Housing for Older Persons Act requirements;

THAT all other Housing for Older Persons Act requirements shall be complied with for the life of the proposed building;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT a Builder's Pavement Plan shall be filed and approved by DOT prior to the issuance of a building permit;

THAT a Declaration of Public Use guaranteeing pedestrian and vehicle access to all portions of the mapped bed of Tennyson Drive shall be filed with the Office of the County Clerk under the Builder's Pavement Plan;

THAT administrative certifications shall be obtained from the City Planning Commission as required by ZR §§107-64 (removal of trees), 107-65 (modification of topography) and 107-23 (school seats) prior to the issuance of a building permit;

THAT a permit shall not be issued for any grading, excavation, foundation or other permit which involves soil disturbance until the DEC has issued a tidal wetland adjacent area permit;

THAT a permit shall not be issued for any grading, excavation, foundation or other permit which involves soil disturbance until, pursuant to the Restrictive Declaration, the LPC has issued to DOB, as applicable, either a Notice of No Objection, Notice to Proceed, Notice of Satisfaction, or Final Notice of Satisfaction;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT construction shall be substantially completed in accordance with the requirements of ZR § 72-23;

THAT this approval is limited to the relief granted by

# MINUTES

the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 14, 2012.

## 115-11-BZ

APPLICANT – Law Office of Fredrick A. Becker, for Thomas Schick, owner.

SUBJECT – Application August 15, 2011 – Special Permit (§73-622) for the enlargement of an existing single family residence contrary to floor area and open space (§23-141); side yard (§23-461) and less than the required rear yard (§23-47). R-2 zoning district.

PREMISES AFFECTED – 1110 East 22<sup>nd</sup> Street, between Avenue J and Avenue K, Block 7603, Lot 62, Borough of Brooklyn.

## COMMUNITY BOARD #14BK

### APPEARANCES –

For Applicant: Lyra J. Altman.

**ACTION OF THE BOARD** – Application granted on condition.

### THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collin, Commissioner Ottley-Brown and Commissioner Montanez.4

Negative:.....0

Absent: Commissioner Hinkson.....1

### THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated July 14, 2011, acting on Department of Buildings Application No. 320311998, reads in pertinent part:

Proposed floor area is contrary to ZR 23-141.

Proposed open space ratio is contrary to ZR 23-141.

Proposed side yard is contrary to ZR 23-461(a).

Proposed rear yard is contrary to ZR 23-47; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03, to permit, in an R2 zoning district, the proposed enlargement and partial legalization of a single-family home, which does not comply with the zoning requirements for floor area, open space ratio, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461 and 23-47; and

WHEREAS, a public hearing was held on this application on November 1, 2011, after due notice by publication in *The City Record*, with continued hearings on December 6, 2011 and January 24, 2012 and then to decision on February 14, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Montanez; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of East 22<sup>nd</sup> Street, between Avenue K and Avenue J, within an R2 zoning district; and

WHEREAS, the subject site has a total lot area of 5,000 sq. ft., and is occupied by a single-family home with a floor area of 3,855 sq. ft. (0.77 FAR); and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant states that while the portion of the home that protrudes into the rear yard appears to be part of the original building, it is requesting a legalization for that portion of the home because the outline of the existing home does not match the historical Sanborn Maps; and

WHEREAS, the applicant seeks an increase in the floor area from 3,855 sq. ft. (0.77 FAR) to 3,974 sq. ft. (0.80 FAR); the maximum permitted floor area is 2,500 sq. ft. (0.50 FAR); and

WHEREAS, the applicant proposes to provide an open space ratio of 77 percent (150 percent is the minimum required); and

WHEREAS, the applicant proposes to maintain the existing side yard along the northern lot line with a width of 3'-3½" and to maintain the existing side yard along the southern lot line with a width of 8'-5" (two side yards with minimum widths of 5'-0" and a combined width of 13'-0" are required); and

WHEREAS, the proposed enlargement will provide a rear yard with a depth of 20'-0" (a minimum rear yard depth of 30'-0" is required); and

WHEREAS, at hearing, the Board directed the applicant to clarify which portions of the home are being legalized and to identify those portions as new construction; and

WHEREAS, in response, the applicant submitted revised plans identifying that only the portion of the home which is not shown on the historical Sanborn Maps (consisting of the existing protrusion into the rear yard) is being legalized; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, and will not impair the future use or development of the surrounding area; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03.

# MINUTES

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, within an R2 zoning district, the enlargement and partial legalization of a single-family home, which does not comply with the zoning requirements for floor area, open space ratio, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461 and 23-47; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received January 31, 2012"-(12) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 3,974 sq. ft. (0.80 FAR); a minimum open space ratio of 77 percent; a side yard with a minimum width of 3'-3½" along the northern lot line; a side yard with a minimum width of 8'-5" along the southern lot line; and a rear yard with a minimum depth of 20'-0", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 14, 2012.

## 121-11-BZ

### CEQR #12-BSA-014M

APPLICANT – The Law Office of Fredrick A. Becker, for Convent Avenue Baptist Church, owners.

SUBJECT – Application August 22, 2011 – Variance to legalize a two story and basement rear yard enlargement to a church (*Convent Avenue Baptist Church*), contrary to permitted rear yard regulations (§24-33), and lot coverage (§24-11). R7-2 zoning district.

PREMISES AFFECTED – 351 Convent Avenue, aka 420 West 145<sup>th</sup> Street and 418 West 145<sup>th</sup> Street, southeast corner of Convent Avenue and West 145<sup>th</sup> Street, Block 2050, Lot 42 & 47, Borough of Manhattan.

### COMMUNITY BOARD #9M

APPEARANCES –

For Applicant: Fredrick A. Becker and William Nance.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collin, Commissioner Ottley-Brown and Commissioner Montanez.4

Negative:.....0

Absent: Commissioner Hinkson.....1

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated August 18, 2011, acting on Department of Buildings Application No. 120649735, reads:

1. Proposed lot coverage exceeds the permitted by section. (ZR 24-11, ZR 24-17)
2. Proposed two-story portion exceeding 23'-0" in height on lot portion beyond 100'-0" of corner that coincides with a rear lot line of an adjoining zoning lot violated 30'-0" rear yard requirement of ZR 24-361 and is not permitted obstruction pursuant to ZR 24-33; and

WHEREAS, this is an application for a variance pursuant to ZR § 72-21, to permit, on a site within an R7-2 zoning district within the Hamilton Heights/Sugar Hill Historic District, the legalization of an enlargement to a church building (Use Group 4), which does not comply with lot coverage and rear yard regulations, contrary to ZR §§ 24-11, 24-17, 24-33, and 24-361; and

WHEREAS, a public hearing was held on this application on December 13, 2011, after due notice by publication in *The City Record*, with a continued hearing on January 14, 2012, and then to decision on February 14, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 9, Manhattan, recommends approval of the application; and

WHEREAS, certain members of the community provided testimony in opposition to the proposal, citing concerns about there being excessive noise associated with the musical program during certain periods; and

WHEREAS, this application is brought on behalf of the Convent Avenue Baptist Church, a non-profit religious entity (the "Congregation"); and

WHEREAS, the subject site is located on the southwest corner of Convent Avenue and West 145<sup>th</sup> Street, within an R7-2 zoning district within the Hamilton Heights/Sugar Hill Historic District; and

WHEREAS, the site has 99'-11" of frontage on Convent Avenue, 133'-6" of frontage on West 145<sup>th</sup> Street, and a total lot area of approximately 13,338 sq. ft.; and

WHEREAS, the site is currently occupied by a historic church and an adjacent former townhouse used in conjunction with the church; Tax Lot 42 is occupied by the church and Tax Lot 47 is occupied by the townhouse; together, the buildings have a floor area of 20,617 sq. ft.

WHEREAS, the Congregation has occupied the site since 1942; first it occupied the historic church building (Lot 42) and then it acquired the adjacent townhouse (Lot 47); and

WHEREAS, the applicant states that in the early 1970s, the Congregation acquired a third building (at Convent Avenue

---

# MINUTES

---

and West 144<sup>th</sup> Street) to accommodate its education program (the "Education Building"); it is on a separate zoning lot and is not part of the subject application; and

WHEREAS, the Education Building, however, allowed for the ADA accessibility to the sanctuary with the construction of a connection between the Education Building and the sanctuary; prior to that time, the sanctuary was not ADA accessible as it is located many steps above the sidewalk with a grand entrance on Convent Avenue at the second story level as viewed from West 145<sup>th</sup> Street which has a significant slope in an easterly direction from Convent Avenue; and

WHEREAS, the applicant states that it built a connection between the Education Building and the sanctuary building to provide accessibility to the sanctuary building to all congregants; and

WHEREAS, the applicant states that if the enlargement had a maximum height of 23 feet and were one story, it would be a permitted obstruction and not result in lot coverage or rear yard non-compliance; and

WHEREAS, however, the enlargement, completed in the mid-1980s, was built to two stories and a height of 26'-10" and, therefore violates lot coverage and rear yard regulations; and

WHEREAS, the applicant now seeks to legalize the non-complying rear enlargement; and

WHEREAS, the applicant notes that the Congregation also proposes to construct a separate 1,921 sq. ft. elevator and stair addition to the south of the church building along Convent Avenue, which will provide preferable ADA access to the sanctuary; and

WHEREAS, the applicant states that the proposed elevator and stair addition is permitted as-of-right, and the subject application is only necessary to legalize the existing non-complying rear enlargement; and

WHEREAS, the applicant states that the second story of the enlargement, which exceeds the area which would allow it to be a permitted obstruction, is occupied by the prayer room/multi-function room, which is needed to accommodate the Congregation's programmatic needs; and

WHEREAS, specifically, the applicant states that the following are the primary programmatic needs of the Congregation which necessitate the requested variance: (1) to have a small space for prayer, choir practice, or Bible study so that it could be accommodated somewhere other than the sanctuary or the basement, which are not intended for everyday activities and are not conducive to small groups or limited activities and (2) to build the prayer room/multi-function room in the same footprint as the first floor of the rear enlargement which is occupied by two deacon's rooms; and

WHEREAS, the applicant states that activities such as prayer groups, choir practice and Bible study are all uses which are traditionally found in connection with a religious facility, and the Congregation has a programmatic need to provide space for such activities; and

WHEREAS, the applicant represents that the Congregation's programmatic needs could not have been accommodated elsewhere in the existing buildings and that the rear enlargement provides the necessary deacon's rooms, and

prayer room/multi-function room, while also serving as a connection between the Education Building and the sanctuary building; and

WHEREAS, the applicant states that there is no other viable location for the prayer room/multi-function room in the church buildings, as aside from the sanctuary and the kitchen and dining space in the basement, the only other rooms consist of an administrative office, the Pastor's office, and the Pastor's conference room, none of which can accommodate prayer groups, choir practice, Bible study, and the other activities that take place in the prayer room/multi-function room; and

WHEREAS, the applicant further states that the sanctuary has a specific use and is not intended for every day activity, and therefore is also incompatible for the services that take place in the prayer room/multi-function room; and

WHEREAS, the applicant states that the Congregation also had a programmatic need to connect the Education Building to the sanctuary, so as to provide access to the sanctuary for the entire Congregation, and to provide space for the deacon's rooms, which was accomplished through the construction of the basement and first-story portion of the subject addition which houses the two deacon's rooms and provides a connection between the Education Building and the sanctuary; and

WHEREAS, the applicant represents that, although the basement and first story of the subject addition would have been permitted as-of-right, construction of the second floor satisfied the Congregation's additional programmatic need of providing the prayer room/multi-function room space as efficiently as possible, by constructing it simultaneously with and on the same footprint as the two deacon's rooms; and

WHEREAS, the applicant states that the requested waivers enable the Congregation to legalize the rear yard addition and maintain the religious uses accommodated on the second floor; and

WHEREAS, the Board acknowledges that the Congregation, as a religious institution, is entitled to significant deference under the law of the State of New York as to zoning and as to its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, specifically, as held in Westchester Reform Temple v. Brown, 22 NY2d 488 (1968), a religious institution's application is to be permitted unless it can be shown to have an adverse effect upon the health, safety, or welfare of the community, and general concerns about traffic and disruption of the residential character of a neighborhood are insufficient grounds for the denial of an application; and

WHEREAS, the Board notes that the applicant provided evidence of the Congregation's status as a non-profit religious institution; and

WHEREAS, based upon the above, the Board finds that the programmatic needs of the Congregation create unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations; and

---

# MINUTES

---

WHEREAS, the applicant need not address ZR § 72-21(b) since the Congregation is a not-for-profit organization and the proposed development will be in furtherance of its not-for-profit mission; and

WHEREAS, the applicant represents that the enlargement does not alter the essential character of the neighborhood, does not substantially impair the appropriate use or development of adjacent property, and is not detrimental to the public welfare; and

WHEREAS, the applicant submitted a 400-ft. radius diagram reflecting that the surrounding area is characterized by a mix of residential and community facility uses; and

WHEREAS, the applicant states that that the proposed/existing use and floor area are permitted as-of-right in the subject zoning district and only the lot coverage and rear yard encroachment generated by the rear enlargement are contrary to zoning district regulations; and

WHEREAS, as noted above, the applicant states that if the enlargement had a maximum height of 23 feet and were one story, it would be a permitted obstruction and not result in lot coverage non-compliance; and

WHEREAS, however, because the enlargement was built to two stories and a height of 26'-10", it violates lot coverage and rear yard regulations; and

WHEREAS, the radius diagram submitted by the applicant reflects that the subject block is predominated by buildings that are four stories or greater, and therefore the 26'-10" height of the subject rear enlargement is lower than that of all of the surrounding buildings; and

WHEREAS, the applicant states that the rear enlargement is separated from adjacent buildings due to its location at the rear of the church building and in between the church building and the Education Building; and

WHEREAS, the applicant notes that the subject rear enlargement has been in existence at the site for approximately three decades; and

WHEREAS, the Board notes that the subject enlargement is currently only minimally visible from the Convent Avenue frontage, and after construction of the zoning compliant elevator and stair addition the rear enlargement will not be visible from any street; and

WHEREAS, at hearing, the Board directed the applicant to respond to the community members concerns regarding excessive noise from the Congregation's music program; and

WHEREAS, in response, the applicant states that it had discussions with the affected community members and has agreed to keep all windows in the second floor prayer room/multi-function room closed during choir practice; and

WHEREAS, the applicant also submitted a letter from a consultant stating that it conducted noise monitoring at the site while choir practice was ongoing, which concluded that with a closed-window condition during choir practice and with choir practice ending by 10:00 p.m., there would be no adverse effect and the noise would not exceed City noise guidelines in the surrounding residences; and

WHEREAS, the applicant represents that the proposal will not affect the historical integrity of the subject property; and

WHEREAS, the applicant submitted a Certificate of No Effect from the Landmarks Preservation Commission ("LPC") approving work associated with the rear enlargement at the time of its construction, dated March 2, 1989; and

WHEREAS, the applicant also submitted a Certificate of Appropriateness from LPC approving work associated with the proposed elevator and stair addition, dated December 15, 2011; and

WHEREAS, accordingly, the Board finds that this action will neither alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant states that the hardship was not self-created and that no development that would meet the programmatic needs of the Congregation could occur on the existing lot; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, the Board notes that the building complies with all bulk and use regulations, with the exception of the height and lot coverage of the rear enlargement; and

WHEREAS, accordingly, the Board finds the requested waivers to be the minimum necessary to afford the Congregation the relief needed both to meet its programmatic needs and to occupy a building that is compatible with the character of the neighborhood; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.12 (a) and 617.5; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) 12BSA014M, dated February 9, 2012; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved* that the Board of Standards and Appeals issues a Type I Negative Declaration determination prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review

# MINUTES

and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit, on a site within an R7-2 zoning district within the Hamilton Heights/Sugar Hill Historic District, the legalization of an enlargement to a church building (Use Group 4), which does not comply with lot coverage and rear yard regulations, contrary to ZR §§ 24-11, 24-17, 24-33, and 24-361, *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received January 20, 2012"—Eight (8) sheets and "Received February 13, 2012"—One (1) sheet; and *on further condition*:

THAT the rear enlargement which connects the sanctuary and the Education Building will be limited to two stories and a maximum height of 26'-10", as reflected on the approved plans;

THAT any change in control or ownership of the building requires the prior approval of the Board;

THAT the use will be limited to a house of worship (Use Group 4);

THAT the windows in the second floor prayer room/multi-function room must remain closed at all times during choir practice and other musical activities;

THAT there will be no choir practice or other musical activities after 10:00 p.m.;

THAT the above conditions will be listed on the certificate of occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 14, 2012.

#### **APPEARANCES** –

For Applicant: Elizabeth Safian.

**ACTION OF THE BOARD** – Application granted on condition.

#### **THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

#### **THE RESOLUTION** –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure; an extension of term, which expired on December 9, 2005; an extension of time to obtain a certificate of occupancy, which expired on January 19, 2000; an amendment to allow for the subdivision of the lot; and an amendment to allow changes in use within Use Group 16 and from Use Group 16 to Use Group 6 on a portion of the site; and

WHEREAS, a public hearing was held on this application on November 25, 2008 after due notice by publication in *The City Record*, with continued hearings on January 13, 2009, February 10, 2009, April 21, 2009, June 23, 2009, August 11, 2009, and September 22, 2009, and then to decision on November 17, 2009; and

WHEREAS, the site and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 5, Brooklyn, recommends approval of this application; and

WHEREAS, the site is located on the northwest corner of Linden Boulevard and Euclid Avenue, within an R5 zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since November 1, 1960, when, under the subject calendar number, the Board granted a variance to permit the construction of a gasoline service station with

accessory uses for a term of 15 years; and

WHEREAS, subsequently, the grant has been amended and the term extended by the Board at various times; and

WHEREAS, the grant was most recently extended on January 19, 1999 for a term of ten years from the expiration of the prior grant, to expire on December 9, 2005; the grant also allowed for the legalization of an enlargement of the accessory building for use as a convenience store; and

WHEREAS, the applicant represents that an extension of term and a certificate of occupancy were not obtained in a timely manner due to administrative oversight; and

WHEREAS, pursuant to ZR § 11-411, the Board may permit an extension of term; and

WHEREAS, the applicant seeks an amendment to (1) subdivide the lot, (2) permit a change in use from a gasoline service station (Use Group 16) to automotive repair establishment (Use Group 16) and (3) permit a change in use from accessory Use Group 16 to Use Group 6 for the existing convenience store; and

WHEREAS, with regard to the subdivision of the lot, the applicant submitted (1) site plans, which reflect the proposed configuration of the subject site and the adjacent lots; and (2) proof of ownership of the lots; and

WHEREAS, based on its review of the lot configuration, use of the site, and visual inspection of the site, the Board does not find that such a change, which would result in a substandard, irregularly-shaped lot is appropriate; and

WHEREAS, at hearing, the Board stated that it would not consider any of the proposed amendments or requested extensions until the applicant had demonstrated good faith efforts to remedy the poor site conditions; and

WHEREAS, specifically, the Board directed the applicant to improve the conditions of the site, including (1) remove the portion of the one-story frame enlargement to the existing building, which is not reflected on the BSA-approved plans; (2) improve site conditions, which includes the removal of graffiti, any signs not approved by the Board, and debris; (3) repair and install new fencing; and (4) re-pave the parking lot; and

WHEREAS, in response, the applicant submitted (1) evidence that the property owner has engaged an architect and applied for permits to demolish the existing enlargement to the building, which is contrary to the prior Board approvals; (2) photographs of the site, which reflect the removal of graffiti, the non-complying billboard, and debris; and (3) photographs of improved fence conditions; and

WHEREAS, the applicant also submitted a letter from the project architect stating that the removal of the one-story frame enlargement to the western side of the building would not compromise the structure of the remaining building; and

WHEREAS, the applicant proposes to re-pave the parking lot; and

WHEREAS, the Board accepts the submitted evidence as verification that the applicant is pursuing the required site improvements in good faith; and

---

# MINUTES

---

WHEREAS, with regard to the proposed change in use from a gasoline station to an automotive repair establishment, the Board has determined that the change in use from one Use Group 16 use to another Use Group 16 use is appropriate; and

WHEREAS, the Board notes that the applicant must comply with all Department of Environmental Protection requirements associated with the termination of the gasoline service station use at the site; and

WHEREAS, with regard to the applicant's request to change the designation of the existing convenience store from an accessory Use Group 16 use to a Use Group 6 use, the Board has determined that this is appropriate; and

WHEREAS, pursuant to ZR § 11-413, the Board may grant a request for a change in use from one non-conforming use to another non-conforming use which would be permitted under ZR § 52-31; and

WHEREAS, based upon the above, the Board denies the applicant's request to subdivide the lot, but finds that the other requested amendments are appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens*, and *amends* the resolution, dated November 1, 1960, so that as amended this portion of the resolution shall read: "to extend the term for ten years from December 9, 2005, to expire on December 9, 2015; to grant an extension of time to obtain a certificate of occupancy to May 17, 2010, and to permit the noted use changes and site modifications; *on condition* that the use and operation shall substantially conform to the previously approved drawings; and *on further condition*:

THAT the term of the grant shall expire on December 9, 2015;

THAT a certificate of occupancy shall be obtained by May 17, 2010;

THAT Department of Environmental Protection approval shall be obtained for any work associated with the termination of the gasoline service station use at the site;

THAT the site shall be maintained free of debris;

THAT all graffiti shall be removed within 48 hours;

THAT all signage shall comply with C1 zoning district sign regulations;

THAT all fencing shall be maintained in good condition;

THAT the parking lot shall be paved and maintained in good condition;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

This resolution adopted on November 9, 2010, under Calendar No. 395-60-BZ and printed in Volume 95, Bulletin Nos. 45-46, is hereby corrected to read as follows:

### 395-60-BZ

APPLICANT – Sheldon Lobel, P.C., for Ali A. Swati, owner.

SUBJECT – Application June 17, 2010 – Extension of Time to obtain a Certificate of Occupancy for a previously granted Automotive Repair Shop and Convenience Store use which expired on May 17, 2010. R-5 zoning district.

PREMISES AFFECTED – 2557-2577 Linden Boulevard, north side of Linden Boulevard, between Euclid Avenue and Pine Street, Block 4461, Lot 27, Borough of Brooklyn.

### COMMUNITY BOARD #5M

APPEARANCES –

For Applicant: Carly Bradley.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of time to obtain a certificate of occupancy, which expired on May 17, 2010; and

WHEREAS, a public hearing was held on this application on July 27, 2010 after due notice by publication in *The City Record*, with continued hearings on August 24, 2010, September 14, 2010, and October 26, 2010, and then to decision on November 9, 2010; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan and Commissioner Montanez; and

WHEREAS, the subject site is located on the northwest corner of Linden Boulevard and Euclid Avenue, within an R5 zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since November 1, 1960 when, under the subject calendar number, the Board granted a variance to permit the construction of a gasoline service station with accessory uses, for a term of 15 years; and

WHEREAS, subsequently, the grant has been amended and the term extended by the Board at various times; and

WHEREAS, on January 19, 1999, the Board granted an extension of term and an amendment to allow for the legalization of an enlargement of the accessory building for use as a convenience store; and

WHEREAS, most recently, on November 17, 2009, the Board granted an extension of term, to expire December 9, 2015, an extension of time to obtain a certificate of occupancy, which expired on May 17, 2010, and an

amendment to allow the change in use of portions of the site from Use Group 16 to Use Group 6; and

WHEREAS, the applicant now requests an additional extension of time to obtain a new certificate of occupancy; and

WHEREAS, the applicant states that a new certificate of occupancy was not obtained within the allotted time period because the Department of Environmental Conservation (“DEC”) required the applicant to conduct soil testing at the site, which showed that the soil and groundwater are contaminated and must be remediated; and

WHEREAS, the applicant states that DEC has directed the owner to excavate the existing blacktop to remove the contaminated soil and install observation wells to monitor ground water contamination, which must be performed prior to obtaining a new certificate of occupancy; and

WHEREAS, the applicant states that in order to remediate the contaminated soil the owner has hired an environmental consultant to perform the work and will also apply for a city grant under the Brownfield Incentive Grant Program; and

WHEREAS, at hearing, the Board questioned whether the applicant had implemented the site improvement conditions from the prior grant, including the removal of a one-story frame enlargement from the existing building which is not reflected on the BSA-approved plans, the removal of graffiti, and the repaving of the parking lot; and

WHEREAS, in response, the applicant submitted photographs reflecting that the graffiti has been removed from the site, and states that, due to the need to excavate the site in connection with the soil remediation, the demolition of the enlargement of the building and the repaving of the parking lot will take place after the remediation work required by DEC is complete; and

WHEREAS, based upon the above, the Board finds that the requested extension of time is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated November 1, 1960, so that as amended this portion of the resolution shall read: “to permit an extension of time to obtain a certificate of occupancy, to expire on November 9, 2012; *on condition* that the use and operation of the site shall substantially conform to the previously approved plans; and *on further condition*:

THAT a new certificate of occupancy shall be obtained by November 9, 2012;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (DOB Application No. 302265536)

This resolution adopted on January 31, 2012, under Calendar No. 321-63-BZ and printed in Volume 97, Bulletin No. 6, is hereby corrected to read as follows:

### **321-63-BZ**

**APPLICANT** – Greenberg Traurig, LLP by Jay A. Segal, Esq., for Verizon New York, Inc., owner; 1775 Grand Concourse LLC, lessee.

**SUBJECT** – Application October 13, 2011 – Amendment of a special permit (§73-65) which permitted the construction of an 8-story enlargement of a telephone exchange building.

The Amendment seeks to permit Use Groups 6A, 6B and 6C, pursuant to §122-10. R8/Special Grand Concourse Preservation District.

**PREMISES AFFECTED** – 1775 Grand Concourse, west side of the Grand Concourse at the southeast intersection of Walton Avenue and East 175<sup>th</sup> Street, Block 282, Lot 1001-1004, Borough of Bronx.

### **COMMUNITY BOARD #5BX**

#### **APPEARANCES** –

For Applicant: Jay Segal.

**ACTION OF THE BOARD** – Application granted on condition.

#### **THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

#### **THE RESOLUTION** –

WHEREAS, this is an application for a reopening and an amendment to a previously granted special permit for the construction of a Use Group 6D telephone exchange building; and

WHEREAS, a public hearing was held on this application on December 6, 2011 after due notice by publication in *The City Record*, with a continued hearing on January 10, 2012, and then to decision on January 31, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 5, Bronx, recommends approval of this application with the certain conditions, including: (1) all signage comply with ZR § 122-20; (2) the main entrance, lobby, elevators and revolving doors respect the historical design of the building; (3) retail establishments not operate on a 24 hour basis; and (4) all Grand Concourse retail store deliveries be in compliance with Department of Transportation regulations to avoid traffic congestion and

unnecessary double parking on the Grand Concourse; and

WHEREAS, the site is bounded by the Grand Concourse to the east, East 175<sup>th</sup> Street to the north, and Walton Avenue to the west, in an R8 zoning district within the Special Grand Concourse Preservation District; and

WHEREAS, the site has approximately 201 feet of frontage on the Grand Concourse, 265 feet of frontage on East 175<sup>th</sup> Street, 190 feet of frontage on Walton Avenue, and a total lot area of 44,288 sq. ft.; and

WHEREAS, the applicant notes that the building is situated such that it contains street level frontage on portions of its first story (on Walton Avenue and East 175<sup>th</sup> Street) and on a portion of its fourth story (on the Grand Concourse); thus, the building has five stories at or above the level of the Grand Concourse and three stories below the level of the Grand Concourse; and

WHEREAS, the subject site is occupied by an eight-story building with the following uses listed on the certificate of occupancy: Use Group 6D telephone exchange at the first, second, third, fifth and sixth floors, Use Group 4 hospital-related office facilities for the Bronx Lebanon Hospital Center (“Bronx Lebanon”) at the fourth floor, and Use Group 6 offices for the New York City Human Resources Administration (“HRA”) at the seventh and eighth floors; and

WHEREAS, the applicant states that the building is currently vacant except for the continued use of the Use Group 6D telephone exchange use on the second and third floors, and portions of the cellar and first floor; and

WHEREAS, the Board has exercised jurisdiction over the subject site since 1926 when, under BSA Cal. No. 358-26-BZ, the Board granted a variance to permit the construction of a telephone exchange building on the subject site, which at the time was split-zoned between a business district and a residence district; and

WHEREAS, on June 11, 1963, under the subject calendar number, the Board granted a special permit under ZR § 73-65, to permit the construction of an eight-story enlargement to the existing building, which extended the footprint of the building from approximately 50 percent of the zoning lot to approximately 85 percent of the zoning lot; and

WHEREAS, on March 17, 1987, the Board granted an amendment to permit the fourth story of the building to be used as Use Group 4 hospital related office facilities only for Bronx Lebanon; and

WHEREAS, most recently, on January 6, 1988, the Board granted an amendment to permit the seventh and eighth stories of the building to be used for Use Group 6 offices only for HRA; and

WHEREAS, the applicant now seeks an amendment to permit the following uses: (1) boiler room, storage and telephone exchange equipment at the cellar; (2) an attended accessory group parking facility for 100 cars and open accessory parking for up to ten vehicles, a loading berth and ten to 18 bicycle spaces at the first floor; (3) telephone exchange use at the second and third floors; (4) retail, office and/or limited community facility use at the fourth floor; and

---

# MINUTES

---

(5) office and/or limited community facility use at the fifth through eighth floors; and

WHEREAS, the applicant represents that, if not for the existence of the subject special permit, all of the proposed use changes would be allowed as-of-right under the Zoning Resolution; and

WHEREAS, specifically, the applicant states that ZR § 52-34 would allow the conversion of any portion of the building to the proposed limited community facility use as a conforming use in the R8 district, and ZR § 122-10(c) would allow the portions of the building used for Use Group 6D telephone exchange uses on or before July 1, 1981, which constituted the entire building, to be converted to offices; and

WHEREAS, the applicant further states that the fourth story could be converted to retail use as-of-right because its location at street level on the Grand Concourse qualifies it as a “ground floor” pursuant to ZR § 122-10(c); and

WHEREAS, by letter dated December 5, 2011, the Department of City Planning confirms that the term “ground floor” in ZR § 122-10(c) is interpreted in the subject case to include the frontage along the Grand Concourse; and

WHEREAS, subject to a private agreement with the landlord, the applicant states that the community facility uses within the building will be limited to the following uses without sleeping accommodations: (1) colleges or universities, including professional schools but excluding business college or trade schools; (2) museums or non-commercial art galleries but not libraries; (3) schools; (4) ambulatory diagnostic or treatment health care facilities, limited to public, private, for-profit or not-for-profit medical, health and mental health care facilities licensed by the State of New York, or a facility in which patients are diagnosed or treated by health care professionals, licensed by the State of New York or by persons under the supervision of such licensee for medical, health or mental health conditions, and where such patients are ambulatory rather than admitted (such facilities shall not include the practice of veterinary medicine, physical culture or health establishments, ophthalmic dispensing, abortion clinics or drug treatment facilities); (5) non-profit or voluntary hospitals and related facilities without overnight admission, but not animal hospitals; (6) philanthropic or non-profit institutions without sleeping accommodations; and (7) welfare centers; and

WHEREAS, the applicant represents that allowing the vacant portions of the building to be occupied by general offices or limited community facility uses would facilitate the re-tenanting of these spaces; and

WHEREAS, the applicant notes that the fourth, seventh, and eighth floors were previously permitted to be occupied by office use pursuant to amendments granted by the Board, but that the restriction of the space to particular tenants (Bronx Lebanon and HRA, respectively) resulted in the current vacancy of these spaces; and

WHEREAS, the applicant states that, even though no requirement for accessory off-street parking is triggered by the proposed use changes, the number of new parking

spaces proposed (100 in addition to up to ten existing spaces within the open area south of the building) is consistent with general parking principles in the Zoning Resolution; and

WHEREAS, the applicant agreed to comply with the above-mentioned conditions stipulated by the Community Board; and

WHEREAS, at hearing, the Board raised concerns about whether the proposal reflected a sufficient number of loading berths, whether the anticipated number of truck deliveries to the retail space on the site would be compatible with traffic patterns, the operation of the proposed garage, and whether the signage complies with the underlying district regulations; and

WHEREAS, in response, the applicant states that if the subject site were located in a commercial district, two loading berths would be required for the building, but one loading berth is sufficient for the subject building because: (1) the ground floor will not generate a need for loading, as it will be used as a parking garage; (2) the second and third floors will continue to be used as a telephone exchange, which will have a dedicated entrance on Walton Avenue (adjacent to the remaining loading berth) through which most loading requirements will be handled; (3) the fourth floor retail loading will be from the Grand Concourse level (during non-business hours only) instead of from the loading berth, as it will be easier to perform loading activities for the retail spaces directly from the Grand Concourse level rather than from the loading berth at the rear of the building several floors below the retail spaces; and (4) floors five through eight, which are proposed for office use and collectively contain approximately 145,000 sq. ft., will only generate a requirement for one loading berth; and

WHEREAS, the Board raised questions about the effect loading would have on the operation of the bike lane on Grand Concourse; and

WHEREAS, in response, the applicant states that it will put a provision in the lease requiring loading for the retail space to occur only at night, when there is minimal bicycle traffic; and

WHEREAS, as to the anticipated number of truck deliveries to the retail space, the applicant submitted a letter from the owner stating that similar size stores in comparable locations estimate six deliveries a day by parcel size trucks to restock the space; and

WHEREAS, as to the operation of the garage, the applicant states that it is proposing an accessory garage with spaces available to tenants and their invitees; and

WHEREAS, as to signage, the applicant states that all signs will comply with the Special Grand Concourse Preservation District regulations, pursuant to ZR § 122-20; and

WHEREAS, based upon its review of the record, the Board finds the requested amendment to the approved plans is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated June 11, 1963, so that as amended this portion of the resolution shall read: “to permit the proposed modifications to the previously-approved plans; *on condition* that all work shall substantially

# MINUTES

conform to drawings as they apply to the objections above-noted, filed with this application and marked 'Received October 13, 2011'-(13) sheets and 'November 22, 2011'-(3) sheets; and *on further condition:*

THAT all signage shall comply with the Special Grand Concourse Preservation District regulations, pursuant to ZR § 122-20;

THAT all retail uses on the site shall not operate on a 24-hour basis;

THAT vehicle loading for retail uses from Grand Concourse will be limited to the hours of 7:00 p.m. through 7:00 a.m. and such condition will be reflected on all retail leases;

THAT the community facility uses within the building shall not include sleeping accommodations and shall be limited to the uses indicated on the BSA-approved plans;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted." (DOB Application No. 220143146)

Adopted by the Board of Standards and Appeals January 31, 2012.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated March 25, 2011, acting on Department of Buildings Application No. 310101047, reads in pertinent part:

Proposed number of accessory parking spaces for the building at the premises is less than the number of parking spaces required by ZR Section 36-21; and

WHEREAS, this is an application under ZR §§ 73-44 and 73-03, to permit, within a C1-3 (R6) zoning district, a reduction in the required number of accessory parking spaces for a mixed-use community facility/commercial building from 231 to 177, contrary to ZR § 36-21; and

WHEREAS, a public hearing was held on this application on August 16, 2011, after due notice by publication in The City Record, with continued hearings on September 13, 2011, October 18, 2011, November 22, 2011 and January 10, 2012, and then to decision on February 7, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, City Council Member David G. Greenfield and New York State Assemblymember William Colton provided testimony in opposition to the application; and

WHEREAS, Community Board 12, Brooklyn, recommended disapproval of the application; and

WHEREAS, the Neighbors for the Preservation and

---

# MINUTES

---

Development of Brooklyn Southwest, represented by counsel, provided testimony in opposition to the proposal stating concerns that (1) the applicant does not meet the requirements of the special permit including that it act in good faith, (2) there is a discrepancy between the required number of parking spaces set forth in the as-of-right approval and the proposal for a reduction before the Board, (3) there are flaws in the parking studies and the calculation of parking demand, and (4) any reduction in parking will negatively impact the surrounding area; and

WHEREAS, certain members of the community provided oral testimony in opposition to this application, citing concerns with its effect on parking in the surrounding neighborhood due to high parking demand associated with three area schools and existing parking demands; and

WHEREAS, the subject site is located on a through lot with frontage on Bay Parkway, 61<sup>st</sup> Street, and 60<sup>th</sup> Street, within a C1-3 (R6) zoning district; and

WHEREAS, the site is under construction with an as-of-right mixed-use community facility/commercial building, pursuant to DOB approval; and

WHEREAS, the applicant initially proposed a nine-story mixed-use community facility/commercial building with 93,920 sq. ft. of floor area and 120 accessory parking spaces, which required a reduction from the required 235 parking spaces (four for commercial use and 231 for community facility use); and

WHEREAS, at the Board's direction and after several iterations, the applicant now proposes a nine-story mixed-use community facility/commercial building with 92,304 sq. ft. of floor area (90,837 sq. ft. for community facility use and 1,467 sq. ft. for commercial use) and 177 accessory parking spaces with a program as follows: (1) 57 parking spaces in the cellar (including 18 stackers); (2) UG 6 commercial use and UG 4 community facility use on the first floor; (3) 48 parking spaces on the second floor; (4) 72 parking spaces on the third floor; and (5) community facility use on the fourth through ninth floors; and

WHEREAS, the initial proposal reflected an attended parking lot without stackers and the current proposal reflects an attended parking lot with stackers; and

WHEREAS, pursuant to ZR § 73-44, the Board may, in the subject C1-3 (R6) zoning district, grant a special permit that would allow a reduction in the number of accessory off-street parking spaces required under the applicable ZR provision, for ambulatory diagnostic or treatment facilities in the parking category B1; in the subject zoning district, the Board may reduce the required parking from one space per 400 sq. ft. of floor area to one space per 800 sq. ft. of floor area; and

WHEREAS, pursuant to ZR § 36-21 the total number of required parking spaces for all uses at the site is 231; and

WHEREAS, the applicant represents that the proposed 177 parking spaces are sufficient to accommodate the parking demand generated by the use of the site; and

WHEREAS, the applicant notes that 1,467 sq. ft. of floor area in the building is occupied by commercial space, which is not in parking category B1 and therefore the

associated four required spaces have been excluded from the calculations for the requested reduction in parking; and

WHEREAS, the applicant states that the remaining 90,837 sq. ft. of floor area at the site will be occupied by ambulatory diagnostic or treatment facility space, which is eligible for the parking reduction under ZR § 73-44; at a rate of one required parking space per 400 sq. ft. of floor area, 227 parking spaces are required for this use; and

WHEREAS, accordingly, the total number of parking spaces which are eligible under the special permit is 227; as noted, the special permit allows for a reduction from one space per 400 sq. ft. of floor area to one space per 800 sq. ft. of floor area, which would reduce the required parking for these uses to 114 spaces; and

WHEREAS, as noted, an additional four parking spaces are required for the 1,467 sq. ft. of floor area occupied by commercial space, which is not eligible for the special permit; and

WHEREAS, thus, the special permit allows for a reduction to a total of 118 parking spaces on the site; and

WHEREAS, the applicant notes that the proposed total of 177 accessory parking spaces would provide 59 more spaces than the minimum of 118 required under the special permit; and

WHEREAS, ZR § 73-44 requires that the Board must determine that the ambulatory diagnostic or treatment facility use in the B1 parking category is contemplated in good faith; and

WHEREAS, the applicant states that the facility will be occupied by existing ambulatory diagnostic facilities currently operating in the area, including those associated with Maimonides Hospital, who are waiting to move to the site and who have committed to lease 52,650 sq. ft. of the building; the remaining floor area is anticipated to be used and restricted to similar ambulatory diagnostic uses; and

WHEREAS, in addition, the applicant states that any Certificate of Occupancy for the building will state that no subsequent Certificate of Occupancy may be issued if the use is changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-street radius; and

WHEREAS, the Board finds that the applicant has submitted sufficient evidence of good faith in maintaining the noted uses at the site; and

WHEREAS, however, while ZR § 73-44 allows the Board to reduce the required accessory parking, the Board requested an analysis about the impact that such a reduction might have on the community in terms of available on-street parking; and

WHEREAS, in response to the community's concerns about parking demand, the applicant asserts that its studies reflect a peak parking demand of 131 cars, and the proposed 173 spaces for community facility use provide an excess of 42 parking spaces, or 32 percent more than is required to satisfy the peak parking demand; and

WHEREAS, the applicant asserts that the onsite parking will be able to accommodate the facility's parking

---

# MINUTES

---

demand and will not create a demand for curbside or other off-site parking; and

WHEREAS, in support of this assertion, the applicant submitted a parking demand analysis into the record; and

WHEREAS, the applicant notes that its parking demand analysis was based on Institute of Transportation Engineers (ITE) traffic standards to establish the number of person trips to the site, which reflects 317 person trips during peak periods; and

WHEREAS, however, the applicant notes that to establish the number of people who would drive to the site, it performed a parking demand survey from the existing facilities to be relocated to the site, which reflected that 38 percent of patients and employees would drive to the site daily; and

WHEREAS, the applicant then applied the 38 percent to the ITE data and found that the peak parking demand would be 121 spaces, which is a revision of a prior determination of 131 spaces due to a failure to account for the overlap of 75 percent of patients of one of the building's programs (RadNet) to other programs in the building; and

WHEREAS, the applicant notes that if it were to use its survey data, rather than the adjusted ITE data and apply it to the entire building, the peak parking demand would be 143 spaces; and

WHEREAS, the applicant derives the more conservative 143 spaces by noting that, based on surveys of the existing offsite facilities, 151 people (93 patients and 58 staff) will drive to the site to visit the practices occupying 52,650 sq. ft. of the already leased space; the applicant extrapolated that the remaining portions of the building not already leased will be occupied by tenants with similar travel characteristics and thus, for the additional 38,187 sq. ft. of community facility space, the result would be 139 additional daily driving trips (91 patients and 48 staff); and

WHEREAS, the applicant's analysis resulted in a conclusion that 151 trips (based on the survey) and 139 trips (based on extrapolation) amount to 290 daily vehicle trips, consisting of 184 patient and 106 staff trips; and

WHEREAS, the applicant asserts that patient visits will have an anticipated duration of two hours and will be spread across the course of a ten-hour day from 8:00 a.m. to 6:00 p.m.; and

WHEREAS, the applicant concludes that the proposed 173 spaces would accommodate the peak parking demand under either the ITE or parking survey of existing facilities methodologies as the adjusted ITE analysis reflects a peak parking demand of 121 parking spaces for community facility use, or 52 fewer spaces than the proposed, and the parking survey analysis reflects a demand of 143 parking spaces, or 30 fewer than the proposed; and

WHEREAS, during the hearing process, the Board directed the applicant to explore redesign of the parking facilities to maximize utility and to eliminate any non-essential space (such as the cafeteria) in the cellar to allow for additional parking; and

WHEREAS, in response, the applicant stated that the

first floor cannot be re-designed since it will be occupied by MRI equipment which, due to its sensitivity and size must be located on the first floor so that it can be serviced and moved through a portion of removable facade; and

WHEREAS, the applicant has met with DOB to review the maneuverability and other parking calculations and has maximized the number of stackers, which it will reserve for employee use; and

WHEREAS, in response to questions about maximum parking space occupancy, the applicant confirmed DOB's requirement for 200 sq. ft. per car and 153 sq. ft. per car for the second car in a stacker; and

WHEREAS, accordingly, after the redesign of the cellar space and removal of all nonessential spaces, the applicant states that DOB would not approve any more spaces and/or stackers than the 57 proposed for the cellar and the corresponding numbers on the second and third floor; and

WHEREAS, based upon the applicant's revised analysis and current parking layout, the Board agrees that the accessory parking space needs can be accommodated even with the parking reduction; and

WHEREAS, in response to the opposition's concerns that the surveys which analyze the number of people coming to the site by car versus public transportation may not be comparable to the proposed location, the applicant noted that public transportation access to the subject site, including two buses (B6 and B9) within one block of the site, two subways (F and N) approximately one-third of a mile from the site, and four buses (B4, B11, B8, and B82) within .6 to .91 miles from the site, is better than that of the existing sites studied in the transportation surveys; and

WHEREAS, accordingly, the applicant asserts that the car versus public transportation assumptions it applied to the proposed site are conservative since based on areas with less access to public transportation; and

WHEREAS, the applicant also notes that it will be providing a bicycle storage room and states that it will encourage bicycle use and carpooling; and

WHEREAS, the applicant also states that it approached several potential off site locations for parking, and was unable to find any with available parking spaces; and

WHEREAS, in response to the opposition's questions about different DOB approvals, the Board notes that DOB has approved as-of-right plans, which allow the applicant to continue construction, in contrast to the proposed plans before the Board which will allow for the as-of-right plans to be amended; and

WHEREAS, the Board notes that 231 spaces are required for the proposed building and that a smaller building was approved at DOB, which requires only 206 parking spaces; the waiver request is from 231 spaces (less the four spaces for commercial use); and

WHEREAS, the Board notes that the special permit allows for a reduction in parking by 50 percent and that the current proposal for 173 spaces for community facility use reflects a reduction of 54 spaces or approximately 24

---

# MINUTES

---

percent; and

WHEREAS, the Board notes that the proposed use is as-of-right and the reduction is less than half the maximum reduction contemplated by the special permit; and

WHEREAS, accordingly, the Board finds that the proposed use will not have an adverse impact on the community, will not interfere with any public improvement project, and will not interfere with the existing street system; and

WHEREAS, based upon the above, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-44 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 11BSA087K, dated July 11, 2011; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved*, that the Board of Standards and Appeals issues a Negative Declaration under 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-44 and 73-03 to permit, within an C1-3 (R6) zoning district, a reduction in the required number of accessory parking spaces for a mixed-use community facility/commercial building from 231 to 177, contrary to ZR § 36-21; on condition that all work shall substantially conform to drawings as they apply to the objections above noted filed with this application marked "Received February 1, 2012"-twenty-two ( 22 ) sheets, and on further condition:

THAT there will be no change in the operation of the site without prior review and approval by the Board;

THAT a minimum of 177 parking spaces will be provided in the accessory parking garage in the subject

building;

THAT no certificate of occupancy will be issued if the use is changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-street radius;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT the layout and design of the accessory parking lot will be as reviewed and approved by the Department of Buildings;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 7, 2012.

**\*The resolution has been revised to correct the required parking spaces and the community facility use in the 11<sup>th</sup> WHEREAS, which read: "...231 parking spaces and 227 for community facility use..." now reads: "...235 parking spaces and 231 for community facility use..." , and to amend the clause in the 48<sup>th</sup> WHEREAS. Corrected in Bulletin No. 8, Vol. 97, dated February 22, 2012.**

## \*CORRECTION

This resolution adopted on February 7, 2012, under Calendar No. 166-11-BZ and printed in Volume 97, Bulletin No. 7, is hereby corrected to read as follows:

### 166-11-BZ

#### CEQR #12-BSA-035M

APPLICANT – Ellen Hay/Wachtel & Masyr LLP, for Roc Le Triomphe Associates LLC, owners; Crunch LLC, lessee. SUBJECT – Application October 24, 2011 – Special Permit (§73-36) to continue the operation of the Physical Culture Establishment (*Crunch Fitness*). C2-8 (TA) zoning district. PREMISES AFFECTED – 1109 Second Avenue, aka 245 East 58<sup>th</sup> Street, west side of Second Avenue between East 58<sup>th</sup> and East 59<sup>th</sup> Streets, Block 1332, Lot 29, Borough of Manhattan.

#### COMMUNITY BOARD #6M

##### APPEARANCES –

For Applicant: Ellen Hay.

**ACTION OF THE BOARD** – Application granted on condition.

##### THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5  
Negative:.....0

##### THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated October 12, 2011, acting on Department of Buildings Application No. 120857260, reads in pertinent part:

Proposed Physical Culture establishment is not permitted as per ZR 73-36 unless granted special permits by the Board of Standards and Appeals as per ZR 32-31; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located in an C2-8 zoning district within the Special Transit Land Use District (TA), the operation of a physical culture establishment (“PCE”) in a portion of the first floor, cellar, and sub-cellar of a 29-story mixed-use residential/commercial building, contrary to ZR § 32-31; and

WHEREAS, a public hearing was held on this application on January 10, 2012, after due notice by publication in *The City Record*, and then to decision on February 7, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Collins, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 6, Manhattan, states that it has no objection to this application; and

WHEREAS, the subject site located on the west side of Second Avenue between East 58<sup>th</sup> Street and East 59<sup>th</sup> Street in a C2-8 zoning district within the Special Transit Land Use District (TA); and

WHEREAS, the subject site is occupied by a 29-story

mixed-use residential/commercial building with residential use on the fourth through 29<sup>th</sup> floors and commercial use on the sub-cellar, cellar, first, and second levels; and

WHEREAS, the Board first approved the PCE on July 22, 1997, pursuant to BSA Cal. No. 195-96-BZ, for a term of ten years which expired on October 1, 2006; and

WHEREAS, the site is also the subject of a City Planning special permit for the building pursuant to ZR § 74-95, which was modified to allow for the PCE and associated signage; and

WHEREAS, the PCE occupies 36,119 sq. ft. of floor space on portions of the sub-cellar, cellar, and first floor levels; and

WHEREAS, the PCE is operated as Crunch Fitness; and

WHEREAS, the PCE operates Monday through Thursday 5:00 a.m. to 11:00 p.m.; Friday 5:00 a.m. to 10:00 p.m.; and Saturday and Sunday from 7:00 a.m. to 9:00 p.m.; and

WHEREAS, the applicant represents that the services at the PCE include facilities for instruction and programs for physical improvement; and

WHEREAS, the applicant states that commercial and accessory residential uses on the second and third floor separate and, thus serve as a buffer between, the PCE on the first floor from the residential use on the fourth floor and above; and

WHEREAS, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No. 12BSA035M, dated October 19, 2011; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure;

Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

dated February 22, 2012.

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved* that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site located in an C2-8 zoning district within the Special Transit Land Use District (TA), the operation of a physical culture establishment in a portion of the first floor, cellar, and sub-cellar of a 29-story mixed-use residential/commercial building, contrary to ZR § 32-31; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received October 20, 2011"- (5) sheets, and *on further condition*:

THAT the term of this grant will expire on February 7, 2022;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages must be performed by New York State licensed massage therapists;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT sound attenuation measures must be installed in the PCE as shown on the Board-approved plans;

THAT fire safety measures must be installed and/or maintained as shown on the Board-approved plans;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 7, 2012.

**\*The resolution has been revised to correct the term of this grant which read: "February 7, 2012"... now reads: "February 7, 2022". Corrected in Bulletin No. 8, Vol. 97,**

APPLICANT – Vassalotti Associates Architects, LLP, for Aranoff Family Limited Partnership, owners.

SUBJECT – Application September 7, 2011 – Extension of Term (§11-411) for the continued operation of a Gasoline Service Station (*British Petroleum*) which expired on August 7, 2011; Extension of Time to obtain a Certificate of Occupancy which expired on February 7, 2002. C1-2/R4 zoning district.

PREMISES AFFECTED – 146-15 Union Turnpike, northwest corner of Union Turnpike and 147<sup>th</sup> Street, Block 6672, Lot 80, Borough of Queens.

**COMMUNITY BOARD #8Q**

APPEARANCES –

For Applicant: Todd Dale.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

**THE RESOLUTION** –

WHEREAS, this is an application for a re-opening, an extension of term of a previously granted variance to permit the operation of a gas station, which expired on August 7, 2011 and an extension of time to obtain a certificate of occupancy; and

WHEREAS, a public hearing was held on this application on January 10, 2012, after due notice by publication in *The City Record*, with a continued hearing on January 31, 2012, and then to decision on February 28, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 8, Queens, recommends approval of this application; and

WHEREAS, the subject site is located on the northwest corner of Union Turnpike and 147<sup>th</sup> Street, within a C1-2 (R4) zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since October 1, 1957 when, under the subject calendar number, the Board granted a variance to permit the construction of a gasoline service station with car wash, lubrication, and minor repairs with hand tools for a term of 15

years; and

WHEREAS, subsequently, the grant has been amended and the term extended by the Board at various times; and

WHEREAS, most recently, on August 7, 2001, the Board granted a ten-year extension of term, which expired on August 7, 2011; and

WHEREAS, one of the conditions of the resolution was that a new certificate of occupancy be obtained by February 7, 2003 (18 months from the date of the August 7, 2001 approval); and

WHEREAS, the applicant states that it did not obtain a new certificate of occupancy due to change in management; and

WHEREAS, the applicant now requests an additional ten-year extension of term and time to obtain a certificate of occupancy; and

WHEREAS, pursuant to ZR § 11-411, the Board may permit an extension of term; and

WHEREAS, at hearing, the Board raised concerns about the landscaping plan and compliance with C1 district signage regulations; and

WHEREAS, in response, the applicant stated that (1) it will complete landscaping during warmer weather; and (2) that it has removed signage on the light poles in order comply with C1 district signage regulations; and

WHEREAS, the applicant provided photographs that reflect the removal of the signage; and

WHEREAS, based upon the above, the Board finds the requested extension of term and extension of time to obtain a certificate of occupancy, with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated October 1, 1957, so that as amended this portion of the resolution shall read: “to extend the term for ten years from August 7, 2011, to expire on August 7, 2021, and to grant a one-year extension of time to obtain a certificate of occupancy, to expire on February 28, 2013; *on condition* that all use and operations shall substantially conform to plans filed with this application marked ‘January 20, 2012’-(3) sheets; and *on further condition*:

THAT the term of the grant will expire on August 7, 2021;

THAT the site will be maintained free of debris and graffiti;

THAT landscaping will be maintained as reflected on the Board-approved plans;

THAT all signage on the site will comply with C1 district regulations;

THAT the above conditions will be reflected on the certificate of occupancy;

THAT a new certificate of occupancy will be obtained by February 28, 2012;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the

# MINUTES

Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (N.B. 956/1957)

Adopted by the Board of Standards and Appeals February 28, 2012.

## 611-76-BZ

APPLICANT – Vassalotti Associates Architects, LLP, for Capitol One Bank, owner.

SUBJECT – Application November 15, 2011 – Extension of Term of a Variance (§72-21) for the continued operation of an off-site accessory parking facility for a bank (*Capitol One*) which expires on February 15, 2012. R4 zoning district.

PREMISES AFFECTED – 43-17/21 214<sup>th</sup> Place, east side 161.24’ north of Northern Boulevard, Block 6301, Lot 9, 10, 11, Borough of Queens.

## COMMUNITY BOARD #11Q

APPEARANCES –

For Applicant: Todd Dale.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5  
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of term of a variance for an off-site accessory parking facility for a bank, which expired on February 15, 2012; and

WHEREAS, a public hearing was held on this application on January 31, 2012, after due notice by publication in *The City Record*, and then to decision on February 28, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 11, Queens, recommends approval of this application with the following conditions that: (1) there be no parking on the sidewalk; (2) the premises be kept clean of debris and graffiti; (3) all conditions appear on the certificate of occupancy; (4) a new certificate of occupancy be obtained within one year from the date of the resolution; and (5) a sign be installed on the gate with an emergency contact number; and

WHEREAS, the site is located on the east side of 214<sup>th</sup> Place, 161 feet north of Northern Boulevard, within an R4 zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since February 15, 1977 when, under the subject calendar number, the Board granted a variance to permit the construction of an off-site accessory parking

facility for a bank, that extends into the R4 zoning district; and

WHEREAS, subsequently, the grant was amended by the Board at various times; and

WHEREAS, most recently, on May 21, 2002, the Board granted a ten-year extension of term to expire on February 15, 2012; and

WHEREAS, at hearing, the Board asked the applicant to address the Community Board’s concerns including the security of the parking lot after hours as well as its own observation about insufficient landscaping; and

WHEREAS, in response, the applicant stated that (1) it will comply with all of the Community Board’s conditions; (2) specifically, it will lock the gate after business hours and add a sign to the gate with an emergency phone number for access; and (3) it will complete landscaping during warmer weather; and

WHEREAS, based upon its review of the record, the Board finds the requested ten-year extension of term is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated February 15, 1977, so that as amended this portion of the resolution shall read: “to grant a ten-year extension of term from February 15, 2012 to February 15, 2022; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked ‘Received November 15, 2012’–(1) sheet; and *on further condition*:

THAT the term of the grant will expire on February 15, 2022;

THAT the site will be maintained free of debris and graffiti;

THAT landscaping will be maintained as reflected on the Board-approved plans;

THAT there be no parking on the sidewalk;

THAT the gate be locked after business hours;

THAT a sign be installed and maintained on the gate, with an emergency contact telephone number;

THAT the above conditions will be reflected on the certificate of occupancy;

THAT a new certificate of occupancy will be obtained by February 28, 2013;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect; and

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (Alt. 893-74)

Adopted by the Board of Standards and Appeals February 28, 2012.

APPLICANT – Slater & Beckerman, LLP, for 148 Jamaica Avenue Co., LLC, owner.

SUBJECT – Application November 4, 2011 – Extension of Term of a Special Permit (§73-42) for the continued operation of a one story UG6 commercial building (*Key Food*); an amendment to eliminate the restriction on hours of operation. C4-2A/R6B zoning district.

PREMISES AFFECTED – 32-11/32-21 Newton Avenue, northwest corner of Newton Avenue and 33<sup>rd</sup> Street, Block 619, Lot 1, Borough of Queens.

### COMMUNITY BOARD #1Q

APPEARANCES –

For Applicant: Stefanie Marczzi.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of term of a special permit for a supermarket, which will expire on June 23, 2012, and an amendment to remove the restriction on the hours of operation; and

WHEREAS, a public hearing was held on this application on January 31, 2012, after due notice by publication in *The City Record*, and then to decision on February 28, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Queens, recommends approval of this application with the following conditions: (1) the applicant comply with the prior approval except the proposed new time of operation; (2) truck deliveries not take place from 7:00 to 10:00 a.m. and 4:00 to 7:00 p.m.; and (3) during deliveries truck engines be turned off; and

WHEREAS, the site is located on the northwest corner of Newton Avenue and 33<sup>rd</sup> Street, partially within a C4-2A and partially within an R6B zoning district; and

WHEREAS, the Board has exercised jurisdiction over the site since July 23, 1957 when, under BSA Cal. No. 60-37-BZ, it granted a variance to allow, partially within a commercial district and partially within a residential district, a parking lot with more than three cars; and

WHEREAS, subsequently, the grant was amended by the Board at various times; and

WHEREAS, on June 23, 1987, under the subject calendar number, the Board granted a special permit to allow a one-story horizontal enlargement of a commercial building within what was then partially a C1-2 (R6) and partially an R6 zoning district; and

WHEREAS, subsequently, on October 22, 2002, the Board granted an extension of the term to expire on June 23, 2012; and

WHEREAS, the site is occupied by a supermarket (*Key Food*) with accessory parking; and

WHEREAS, as to the hours of operation, the applicant states that it intends to operate the supermarket from 7:00 a.m. to 11:00 p.m. Monday to Saturday and from 8:00 a.m. to 10:00 p.m. on Sunday; and

WHEREAS, however, the applicant seeks to eliminate the restriction on hours as the sole public entrance to the supermarket is on Newton Avenue, entirely within a C4-2A zoning district where the use is permitted as of right, and the use with extended hours is compatible with surrounding uses; and

WHEREAS, at hearing, the Board inquired about the condition and use of the parking lot, which is adjacent to residential use; and

WHEREAS, in response, the applicant stated that the parking lot is only used by employees, lights are pointed down and away from residential use, and there is an opaque fence which provides screening; and

WHEREAS, additionally, the applicant stated that there are no late night or early morning deliveries; and

WHEREAS, based upon its review of the record, the Board finds the requested ten-year extension of term and the elimination of the hours restriction is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated June 23, 1987, so that as amended this portion of the resolution shall read: “to grant a ten-year extension of term from June 23, 2012 to June 23, 2022; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked ‘Received November 4, 2011’-(4) sheets and ‘January 17, 2012’-(1) sheet; and *on further condition*:

THAT the term of the grant will expire on June 23, 2022;

THAT the site will be maintained free of debris and graffiti;

THAT truck engines be turned off during deliveries;

THAT the above conditions will be reflected on the certificate of occupancy;

THAT a new certificate of occupancy will be obtained by February 28, 2013;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (DOB App. No. 420463581)

SUBJECT – Application September 15, 2011 – Extension of Term for a previously granted Special Permit (§73-36) for a Physical Culture Establishment (*Graceful Services*) which expired on September 26, 2011; Extension of Time to obtain a Certificate of Occupancy which expired on April 20, 2005; and an Amendment to legalize an increase in floor area; and Waiver of the Rules. C2-8 (TA) zoning district.

PREMISES AFFECTED – 1097 Second Avenue, west side of Second Avenue, 40' south of East 58<sup>th</sup> Street, Block 1331, Lot 126, Borough of Manhattan.

## COMMUNITY BOARD #6M

APPEARANCES –

For Applicant: Patrick W. Jones.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

**THE RESOLUTION** –

WHEREAS, this is an application for an extension of term for the continued operation of a physical culture establishment (PCE), which expired on September 26, 2011, and an extension of time to obtain a certificate of occupancy, which expired on April 20, 2005; and

WHEREAS, a public hearing was held on this application on November 22, 2011, after due notice by publication in *The City Record*, with a continued hearing on January 31, 2012, and then to decision on February 28, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the PCE is located on the west side of Second Avenue, south of East 58<sup>th</sup> Street, within a C2-8 zoning district within the Special Transit Land Use District (TA); and

WHEREAS, the subject site at 1097 Second Avenue is located adjacent to another PCE space at 1095 Second Avenue to which it is connected; a special permit for the adjacent space was granted by the Board in 2006 pursuant to BSA Cal. No. 40-05-BZ and follows the same term expiration as the subject case; the Board granted an extension of term for the companion application on the same date; and

WHEREAS, the PCE occupies approximately 952 sq. ft. on the second floor of a four-story mixed-use commercial/residential building; and

WHEREAS, the PCE is operated as Graceful Services; and

WHEREAS, the Board has exercised jurisdiction over the subject site since April 20, 2004 when, under the subject calendar number, the Board granted a special permit for the legalization of a PCE to expire on September 26, 2011; and

WHEREAS, a condition of the grant was that a certificate of occupancy be obtained by April 20, 2005; and

WHEREAS, the applicant now requests a ten-year extension of term and an extension of time to obtain a certificate of occupancy; and

WHEREAS, in consultation with the Fire Department, the applicant agrees to install hard-wired smoke detectors with battery backup; and

WHEREAS, accordingly, the applicant revised the plans to identify the location of the smoke detectors; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of term and extension of time to obtain a certificate of occupancy are appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *re-opens* and *amends* the resolution, as adopted on April 20, 2004, so that as amended this portion of the resolution shall read: “to extend the term of the special permit for ten years from September 26, 2011 to September 26, 2021 and to extend the time to obtain a certificate of occupancy to February 28, 2013, *on condition* that all work shall substantially conform to drawings filed with this application marked ‘Received January 19, 2012’-(9) sheets; and *on further condition*:

THAT the term of the grant will expire on September 26, 2021;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT a certificate of occupancy must be obtained by February 28, 2013;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.” (DOB Application No. 103523457)

For Applicant: Gary Tarnoff.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated November 10, 2011, acting on Department of Buildings Application No. 120824073 reads, in pertinent part:

Proposed to convert an 18-story office building to a Use Group 5 transient hotel is not permitted, as such conversion will not comply with the minimum width and area of inner court requirements of MDL Section 26(7). Legally required windows open onto an existing inner court that also does not comply with MDL Section 26(7).

Legally required windows open onto an existing rear yard that does not comply with MDL Section 26(5) and ZR Section 33-261; and

WHEREAS, this is an application pursuant to Multiple Dwelling Law ("MDL") § 310, to vary court and rear yard requirements in order to allow for the proposed conversion of the subject building from office use (Use Group 6) to a transient hotel (Use Group 5), contrary to the court requirements of MDL § 26(7) and the rear yard requirements of

---

# MINUTES

---

MDL § 26(5) and ZR § 33-261; and

WHEREAS, a public hearing was held on this application on January 31, 2012, after due notice by publication in *The City Record*, and then to decision on February 28, 2012; and

WHEREAS, the site and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the southeast corner of Broadway and Maiden Lane, within a C5-5 zoning district within the Special Lower Manhattan District; and

WHEREAS, the site has 76.63 feet of frontage along Broadway, 110.88 feet of frontage along Maiden Lane, and a total lot area of 9,066 sq. ft.; and

WHEREAS, the site is occupied by an 18-story office building with ground floor retail space; and

WHEREAS, the applicant states that the existing building was constructed in 1903 and has a pre-existing non-complying floor area of 151,033.5 sq. ft. (16.6 FAR); the maximum permitted floor area is 135,988.5 sq. ft. (15.0 FAR); and

WHEREAS, the applicant proposes to convert the existing building to a transient hotel with 261 hotel units on the fourth through 18<sup>th</sup> floors, and retail uses on the first through third floors (the "Proposed Hotel"), which is a permitted use in the underlying zoning district but does not comply with the court requirements of MDL § 26(7) or the rear yard requirements of MDL § 26(5) and ZR § 33-261; and

WHEREAS, the applicant proposes to make extensive alterations to the interior of the building in order to provide the Proposed Hotel with 261 hotel units, but notes that all work will be carried out within the existing building envelope and will not result in any enlargement of the existing building or an increase in its floor area; and

WHEREAS, the Board notes that pursuant to MDL § 4(9), transient hotels are considered "class B" multiple dwellings; therefore the Department of Buildings ("DOB") has determined that the proposed hotel use must comply with the relevant provisions of the MDL; and

WHEREAS, pursuant to MDL § 30(2), every room in a multiple dwelling must have one window opening directly upon a street or upon a lawful yard, court or space above a setback located on the same lot as that occupied by the multiple dwelling; and

WHEREAS, the applicant states that, of the 261 hotel units in the Proposed Hotel, 171 units will have required windows that open onto a street, 75 units will have required windows that open onto an existing court with a width of 28.5 feet and a depth ranging from approximately 30 feet to 31.5 feet located at the rear of the building (the "Court"), and 15 units will have required windows that open onto an existing rear yard with a width of 7.5 feet and a depth of 39.5 feet located at the southeast corner of the site (the "Rear Yard"); and

WHEREAS, pursuant to MDL § 4(32), the Court is considered an "inner court;" and

WHEREAS, MDL § 26(7) states that, except as

otherwise provided in the Zoning Resolution, (1) an inner court shall have a minimum width of four inches for each one foot of height of such court and (2) the area of such inner court shall be twice the square of the required width of the court, but need not exceed 1,200 sq. ft. so long as there is a horizontal distance of at least 30 feet between any required living room window opening onto such court and any wall opposite such window; and

WHEREAS, the applicant states that the Court has a height of 214 feet and pursuant to MDL § 26(7), would therefore be required to have a width of at least 71.3 feet; consequently, the 28.5-ft. width of the Court does not comply with the minimum width requirement; and

WHEREAS, the applicant further states that the Court has an area of 886 sq. ft., which does not equal twice the square of the required width of a complying court and is less than 1,200 sq. ft., and, accordingly, will not comply with the applicable minimum area requirement of MDL § 26(7); and

WHEREAS, as to the Rear Yard, MDL § 26(5) sets forth requirements for rear yards "except as otherwise provided in the [Z]oning [R]esolution;" and

WHEREAS, ZR § 33-261 provides that, for corner lots such as the subject site, the portion of a side lot line beyond 100 feet from the street line that it intersects shall be considered a rear lot line and a rear yard with a minimum depth of 20 feet shall be provided where the rear lot line coincides with an adjoining rear lot line; therefore, a rear yard with a minimum depth of 20 feet and a minimum width of 10.5 feet is required at the southeast corner of the site; and

WHEREAS, the applicant states that the Rear Yard, with a depth of 39.5 feet and a width of 7.5 feet, complies with the required depth of 20 feet but does not comply with the required width of 10.5 feet under ZR § 33-261, and therefore violates MDL § 26(5); and

WHEREAS, pursuant to MDL § 310(2)(a), the Board has the authority to vary or modify certain provisions of the MDL for multiple dwellings that existed on July 1, 1948, provided that the Board determines that strict compliance with such provisions would cause practical difficulties or unnecessary hardships, and that the spirit and intent of the MDL are maintained, public health, safety and welfare are preserved, and substantial justice is done; and

WHEREAS, as noted above, the subject building was constructed in 1903; therefore the building is subject to MDL § 310(2)(a); and

WHEREAS, specifically, MDL § 310(2)(a) empowers the Board to vary or modify provisions or requirements related to: (1) height and bulk; (2) required open spaces; (3) minimum dimensions of yards or courts; (4) means of egress; and (5) basements and cellars in tenements converted to dwellings; and

WHEREAS, the Board notes that MDL § 26(7) specifically relates to the minimum dimensions of courts and MDL § 26(5) specifically relates to the minimum dimensions of rear yards; therefore the Board has the power to vary or modify the subject provisions pursuant to MDL § 310(2)(a)(3); and

WHEREAS, the applicant represents that practical difficulty and unnecessary hardship would result from strict compliance with the MDL; and

---

# MINUTES

---

WHEREAS, the applicant notes that the proposed conversion of the existing building to hotel use will require extensive and costly interior alterations to the building in order to convert its existing office uses into a modern, code-compliant hotel, as well as the construction of a required loading dock; and

WHEREAS, the applicant states that, in order for all of the hotel units in the Proposed Hotel to have windows that open onto a street or a lawful yard or court, as required by MDL § 30(2), significant portions of the building would have to be demolished and significant modifications to the layout of the Proposed Hotel would have to be made; and

WHEREAS, the applicant submitted two alternate plans for a complying hotel (designated as Schemes B and C); and

WHEREAS, in the Scheme B design, portions of the existing building would have to be demolished in order to create a court with an area of 1,227 sq. ft. to comply with MDL § 26(7), and hotel units at the eastern end of the building would have to be reconfigured so that none of the hotel units have required windows that open onto the non-complying Rear Yard; and

WHEREAS, the applicant states that, under Scheme B, the demolished floor area would be offset through the construction of a new 19<sup>th</sup> floor at the top of the building, which would contain ten hotel units; however, the Scheme B design would still yield only 241 hotel units as compared to the 261 hotel units in the Proposed Hotel; and

WHEREAS, the Scheme C design is similar to the Scheme B design in that it would create a complying court through a significant amount of building demolition and it would reconfigure the hotel units so that none of the units have required windows that open onto the non-complying Rear Yard; however, in Scheme C a 19<sup>th</sup> floor would not be added to the existing building, and the resultant hotel building would yield only 231 hotel units as compared to the 261 hotel units in the Proposed Hotel; and

WHEREAS, the applicant submitted a letter from a consulting engineer describing the structural work that would be required in order to create the complying court shown in the Scheme B and Scheme C drawings; and

WHEREAS, specifically, the letter submitted by the applicant reflects that the work required to create the complying court would include (1) installation of new transfer and connecting beams at the underside of the fourth floor; (2) installation of new steel columns from the fourth floor to the roof; (3) welding stiffener plates to the existing beam webs at each floor; (4) demolition of existing floor slabs from the fifth floor to the roof; (5) installation of new steel beams at each floor; (6) installation of new floor slabs from the fifth floor to the roof; (7) demolition of existing exterior masonry walls from the fourth floor to the roof; (8) removal of the existing steel framing within the enlarged court and construction of a new exterior façade; and (9) shoring and bracing of the existing building throughout the construction; and

WHEREAS, the applicant also submitted a cost summary prepared by the construction manager, which estimates the total costs and costs per hotel unit for the Proposed Hotel and Schemes B and C; and

WHEREAS, the cost summary submitted by the applicant reflects that, due to the additional work required under Schemes B and C, the per-unit cost of Scheme B would exceed the per-unit cost of the Proposed Hotel by more than \$27,000, while the per-unit cost of Scheme C would exceed the per-unit cost of the Proposed Hotel by more than \$21,000; and

WHEREAS, the applicant also submitted an estimate of the revenues that would be generated by the Proposed Hotel and Schemes B and C, which reflects that the Scheme B and C designs, which provide fewer hotel units, would generate substantially lower annual revenues than the Proposed Hotel; and

WHEREAS, at hearing, the Board questioned whether there is a separate requirement that a minimum distance of 30 feet be maintained between a legally required window and an opposite facing window or wall and, if so, whether such a requirement would necessitate an additional waiver; and

WHEREAS, in response, the applicant states that apart from MDL § 26(7), there is no separate provision of the MDL that imposes a 30-ft. window-to-wall or window-to-window requirement for the subject building, and therefore MDL §§ 26(7) and 26(5) are the only sections of the MDL that need to be varied; and

WHEREAS, based on the above, the Board agrees that the applicant has established a sufficient level of practical difficulty and unnecessary hardship in complying with the requirements of the MDL; and

WHEREAS, the applicant states that the requested variance of MDL §§ 26(7) and 26(5) is consistent with the spirit and intent of the MDL, and will preserve public health, safety and welfare, and substantial justice; and

WHEREAS, specifically, the applicant states that the existing building is more than 100 years old and is obsolete for modern office uses; and

WHEREAS, the applicant notes that the subject site is a corner lot and the majority of hotel units will have required windows that open onto either Maiden Lane or Broadway, thereby complying with the requirements of the MDL; and

WHEREAS, the applicant states that 75 hotel units will have windows that open onto the Court, which has an area of 886 sq. ft.; and

WHEREAS, the applicant represents that, although the Court does not meet the requirements of MDL § 26(7), the occupants of these hotel units will still receive ample light and air, as all of the required windows that open onto the Court will be located 28.5 feet from an opposite facing wall, which very nearly complies with the 30-ft. window-to-wall requirement of MDL § 26(7), and the Court lies directly adjacent to another three-sided court with an area of 479 sq. ft. that is formed by the 15-story building located immediately to the south, such that the two adjacent open areas, in effect, form a single court with an area of 1,364 sq. ft., which would exceed the 1,200 sq. ft. requirement of MDL § 26(7); and

WHEREAS, the applicant states that only 15 of the units in the Proposed Hotel, one on each hotel floor, will have required windows that open onto the Rear Yard, which has an area of 296 sq. ft.; and

WHEREAS, the applicant represents that, although the

# MINUTES

Rear Yard does not meet the requirements of MDL § 26(5) and ZR § 33-261, it has a greater than required depth of 39.5 feet and a minimally non-complying width of 7.5 feet, and as such the area of the Rear Yard is substantially greater than the area of a required rear yard; and

WHEREAS, the applicant further states that the southeast corner of the Rear Yard abuts a building with a height of only two stories, while the units in the Proposed Hotel will be located on floors four through 18; thus, a significant amount of light and air will reach the Rear Yard and the hotel units that face it; and

WHEREAS, based on the above, the Board finds that the proposed variance to the court requirements of MDL § 26(7) and the rear yard requirements of MDL § 26(5) and ZR § 33-261 will maintain the spirit and intent of the MDL, preserve public health, safety and welfare, and ensure that substantial justice is done; and

WHEREAS, accordingly, the Board finds that the Appellant has submitted adequate evidence in support of the findings required to be made under MDL § 310(2)(a) and that the requested variance of the court requirements of MDL § 26(7) and the rear yard requirements of MDL § 26(5) and ZR § 33-261 is appropriate, with certain conditions set forth below.

*Therefore it is Resolved*, that the decision of the Manhattan Borough Commissioner, dated November 10, 2011, is modified and that this appeal is granted, limited to the decision noted above, on condition that construction shall substantially conform to the plans filed with the application marked, "Received December 8, 2011" - five (5) sheets; and on further condition:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed Department of Buildings objections related to the MDL;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 28, 2012.

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough  
Commissioner, dated April 8, 2011, acting on Department of  
Buildings Application No. 420166938, reads in pertinent part:

Proposed use is contrary to ZR 22-13.

Proposed floor area is contrary to ZR 23-141 and  
24-111.

Proposed required side setback for tall buildings  
in low bulk districts is contrary to ZR 24-551; and

WHEREAS, this is an application under ZR § 72-21, to  
permit, within an R2 zoning district, the construction of a two-  
and three-story yeshiva and dormitory building (Use Group 3)  
which does not conform to the underlying use regulations and  
does not comply with zoning requirements related to floor area  
and side setback, contrary to ZR §§ 22-13, 23-141, 24-111, and  
24-551; and

WHEREAS, a public hearing was held on this  
application on September 20, 2011, after due notice by  
publication in the *City Record*, with continued hearings on  
October 25, 2011, December 6, 2011, and January 24, 2012,  
and then to decision on February 28, 2012; and

WHEREAS, the premises and surrounding area had site  
and neighborhood examinations by Chair Srinivasan, Vice-  
Chair Collins, Commissioner Hinkson, Commissioner

---

# MINUTES

---

Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 14, Queens, recommended disapproval of an earlier iteration of the application; and

WHEREAS, Queens Borough President Helen Marshall recommended disapproval of an earlier iteration of the application, citing concerns that the building would be out of scale with the character of the surrounding neighborhood and the increased pedestrian and vehicular traffic that would be generated by the community facility; and

WHEREAS, City Councilmember James Sanders, Jr. provided testimony expressing support for the yeshiva but opposition to the proposed dormitory use based on concerns with the number of beds in the facility, parking, and the impact on the rising water table in the surrounding area; and

WHEREAS, representatives of the Bayswater Civic Association and certain members of the community provided testimony in opposition to this application (hereinafter, the "Opposition"), raising the following primary concerns: (1) the incompatibility of the proposed facility with the surrounding neighborhood; (2) the potential for increased traffic; (3) insufficient parking in the area; (4) the potential for excessive noise generated by the students residing in the dormitory rooms; (5) the proposal otherwise does not satisfy the findings of ZR § 72-21; (6) the proposed use does not qualify for educational deference; and (7) there are problems with the Board's process; and

WHEREAS, certain members of the community provided testimony in support of this application; and

WHEREAS, the application is brought on behalf of Yeshiva Zichron Aryeh (the "Yeshiva"), a not for profit educational institution; and

WHEREAS the site is located on the west side of Bay 25<sup>th</sup> Street between Bayswater Avenue and Healy Avenue, within an R2 zoning district; and

WHEREAS, the site consists of an irregularly-shaped lot with approximately 95 feet of frontage on Bay 25<sup>th</sup> Street and a total lot area of 35,819 sq. ft.; and

WHEREAS, the site is currently vacant; and

WHEREAS, the proposed dormitory use is not permitted in the subject R2 zoning district and the proposed bulk exceeds the complying building envelope for a conforming use, thus the applicant seeks a variance for the proposed building; and

WHEREAS, the applicant proposes to construct a three-story yeshiva and dormitory building with the following complying parameters: lot coverage of 35.5 percent (a maximum lot coverage of 55 percent is permitted); a roof height of 39'-6" (as governed by sky exposure plane regulations); a front yard with a depth of 63'-8 11/16" (a front yard with a minimum depth of 15'-0" is required); two side yards with minimum widths of 13'-4" each (two side yards with minimum widths of 8'-0" each are required); a rear yard with a depth of 30'-0" (a rear yard with a minimum depth of 30'-0" is required); and 28 accessory off-street parking spaces (a minimum of 27 spaces are required); and

WHEREAS, however, the proposed building results in the following non-compliances: a floor area of 35,476 sq. ft. (the maximum permitted floor area is 17,909.6 sq. ft. ); an FAR

of 0.99 (the maximum permitted FAR is 0.50); a side setback of 15'-0" above a height of 35'-0" along the northern side of the building (a minimum side setback of 24'-4 1/16" is required); and a side setback of 15'-0" above a height of 35'-0" along the southern side of the building (a minimum side setback of 25'-0 15/16" is required); and

WHEREAS, the applicant originally proposed a building with a floor area of 39,286 sq. ft. (1.1 FAR), side setbacks of 14'-6" each, a roof height of 44'-6", and 13 accessory off-street parking spaces, which would have necessitated an additional waiver for less than the minimum number of required parking spaces; and

WHEREAS, however, in response to concerns raised by the Board and the Opposition, the applicant revised the proposal several times during the course of the hearing process, ultimately reducing the degree of non-compliance as to floor area and side setback, reducing the roof height of the building to 39'-6", and providing a complying number of parking spaces; and

WHEREAS, the applicant states that the proposed building provides the following uses: (1) a gymnasium, dining room, pool, dairy kitchen, meat kitchen, and mechanical rooms at the sub-cellar level; (2) a synagogue, exercise room, music room, mechanical room, and storage at the cellar level; (3) a science laboratory, computer room, classrooms, and offices at the first floor; (4) a Bais Medrash, library, classrooms, and offices at the second floor; and (5) a student lounge, laundry room, and 15 dormitory rooms at the third floor; and

WHEREAS, the applicant states that the following are the primary programmatic needs of the Yeshiva: (1) accommodating the current enrollment while allowing for future growth; and (2) providing an on-site dormitory to allow for an integrated living and learning environment; and

WHEREAS, the applicant states that the Yeshiva provides education from high school (grades nine through 12) through graduate school and currently operates out of several separate buildings in the surrounding neighborhood, which combine to accommodate its enrollment of 135 students with 49 students in dormitory rooms, and approximately 30 staff members; and

WHEREAS, the applicant represents that there are also many students on a waiting list for the Yeshiva; and

WHEREAS, the applicant states that the Yeshiva's existing facilities have been unable to keep up with the needs of the student body and they have been renting additional space in a number of buildings in the surrounding neighborhood; and

WHEREAS, the applicant represents that for the past two years the existing dormitory buildings the Yeshiva rents have been at capacity, and the Yeshiva is in the process of finding additional space for dormitories for the current school year; and

WHEREAS, in addition to the difficulties posed by operating the Yeshiva out of multiple buildings scattered throughout the neighborhood, the applicant states that the existing facilities are deficient for the following reasons: the existing dining area is not large enough to accommodate the entire student body; the kitchen does not have adequate space to prepare the necessary amount of food; the main college study hall building is a rented facility that is shared with a

---

# MINUTES

---

synagogue, such that they do not always have access to the space; there is a lack of office space; and two classes currently have to meet in the hallway due to space constraints; and

WHEREAS, the applicant represents that the Yeshiva anticipates increasing its enrollment within the next two years to 220 students, with 45 associated staff members; and

WHEREAS, the applicant states that in order to accommodate the student population and provide a program that will meet their needs, the Yeshiva requires six high school classrooms, four undergraduate/graduate classrooms, a library, science laboratory, a computer room, prayer space, physical education space, and dormitory space; and

WHEREAS, during the hearing process, the Board asked the applicant to explain the need for the proposed dormitory rooms, which the applicant claims are a component of the programmatic needs; and

WHEREAS, in response, the applicant states that the dormitory rooms are necessary to meet the programmatic needs of the Yeshiva due to the rigorous and intensive course of study followed by the students; and

WHEREAS, specifically, the applicant states that the high school portion of the Yeshiva provides a dual curriculum in which each student must complete a full course load of secular studies and a full course load of religious studies, which extends into the evening hours and necessitates sleeping accommodations be provided for certain students; and

WHEREAS, the applicant further states that undergraduate students begin their day with morning prayers at 7:45 a.m., followed by a day filled with classes and studying until their final evening prayer begins at 10:00 p.m., with breaks only provided for meals; and

WHEREAS, the applicant states that between the end of evening prayers and the beginning of morning prayers is approximately nine hours, and in this limited time the students must sleep, complete any remaining studies, and prepare for their day; and

WHEREAS, the applicant represents that because of this schedule students require immediate access to their living areas in order to make effective use of the limited time they have outside of classes and study sessions; and

WHEREAS, the applicant further represents that locating the Yeshiva and the dormitories in the same building is integral to the students learning due to the unbroken continuance of focus that occurs when the students do not leave the facility, and this immersion allows the students to more fully devote themselves to both their religious and secular studies without distractions; and

WHEREAS, the applicant also submitted a list of other yeshivas that provide dormitory beds for their students in comparable facilities; and

WHEREAS, the applicant represents that a complying building at the site would not provide an adequate amount of space for the current number of students and faculty or for the anticipated growth in enrollment; and

WHEREAS, specifically, the applicant submitted plans for a complying building which would result in the elimination of two high school classrooms, one graduate classroom, the science laboratory, the Bais Medrash, and all 15 dormitory

rooms; and

WHEREAS, the applicant also submitted plans for a lesser variance scenario which would request the use waiver but comply with all bulk requirements; and

WHEREAS, the applicant states that the lesser variance scenario would result in the elimination of the Bais Medrash, all graduate classrooms, a science room and eight dormitory rooms, and would not provide a sufficient amount of space to meet the needs of the Yeshiva; and

WHEREAS, the applicant states that the requested floor area and side setback waivers are necessary to accommodate the space needs associated with the projected student body, and the use waiver is necessary to provide dormitory space within the proposed building; and

WHEREAS, as to the floor area, the applicant states that without the floor area waiver approximately half of the proposed floor area would be lost, and the resultant building would be inadequate to provide sufficient classroom or program space to meet the needs of the Yeshiva; and

WHEREAS, as to the side setbacks, the applicant states that the setback waivers are required to achieve floor plates that accommodate the necessary number of beds in the dormitory, as without such waivers the Yeshiva could not provide the 58 beds necessary to accommodate the projected enrollment; and

WHEREAS, as to the use waiver, the applicant notes that it could have applied for a special permit for the subject site pursuant to ZR § 73-122 which would authorize the proposed dormitory use in the subject R2 zoning district, but a variance would still be required to construct the proposed building due to the requested bulk waivers; and

WHEREAS, the applicant submitted evidence in support of its claim that it could satisfy the findings required for the special permit under ZR § 73-122, provided the Board allowed the dormitory FAR to be calculated independently of the FAR for the remainder of the building; and

WHEREAS, the applicant states that only the proposed variance building can accommodate the Yeshiva's projected enrollment and satisfy the programmatic needs and space requirements of its students; and

WHEREAS, based upon the above, the Board agrees that the cited programmatic needs are legitimate and have been documented with substantial evidence; and

WHEREAS, the Board acknowledges that the Yeshiva, as an educational institution, is entitled to significant deference under the law of the State of New York as to zoning and as to its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, specifically, as held in Cornell Univ. v. Bagnardi, 68 N.Y.2d 583 (1986), an educational institution's application is to be permitted unless it can be shown to have an adverse effect upon the health, safety, or welfare of the community, and general concerns about traffic, and disruption of the residential character of a neighborhood are insufficient grounds for the denial of an application; and

WHEREAS, based upon the above, the Board finds that the limitations of the existing zoning, when considered in conjunction with the programmatic needs of the Yeshiva, creates unnecessary hardship and practical difficulty in

---

# MINUTES

---

developing the site in compliance with the applicable zoning regulations; and

WHEREAS, the applicant need not address ZR § 72-21(b) since the Yeshiva is a not-for-profit organization and the proposal is in furtherance of its not-for-profit mission; and

WHEREAS, the applicant represents that the variance, if granted, will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant notes that the use of the site as a yeshiva is permitted as-of-right in the subject R2 zoning district, and dormitory use is permitted in the subject R2 zoning district by special permit under ZR § 73-122, which the applicant states is an acknowledgment that the use itself can be compatible with surrounding uses in the R2 zoning district; and

WHEREAS, the applicant submitted a 400-ft. radius diagram which reflects that the surrounding area is characterized predominantly by single-family homes ranging in height from one-and-one-half to three stories; and

WHEREAS, accordingly, the applicant states that the height of the proposed two- and three-story building complies with the underlying district regulations and will fit within the character of the surrounding neighborhood; and

WHEREAS, the applicant further states that the proposed building will comply with all yard requirements for a community facility building in the subject R2 district, and the building will be significantly set back from the street, providing a front yard with a depth of 63'-8 11/16", more than four times the depth required in the underlying zoning district; and

WHEREAS, the applicant notes that the building is also designed to be lower in the front, with a front setback of more than 30 feet above the second floor, to make the building more consistent with the character of the surrounding neighborhood; and

WHEREAS, the applicant further notes that the building will also be screened from surrounding residences by providing a significant amount of landscaping around the perimeter of the site and in the front yard to create a break in the façade; and

WHEREAS, as noted above, the Opposition made a number of arguments and observations regarding the instant application; and

WHEREAS, as to the Opposition's argument that the scale of the building is out of context with the surrounding neighborhood, the applicant notes that the subject site is larger than the surrounding developed properties and can support a building that is larger than other buildings in the immediate vicinity; and

WHEREAS, the applicant further states that the proposed building complies with all underlying bulk regulations aside from FAR and side setbacks, and that the complying height and yards, in conjunction with the buffering provided by the proposed landscaping result in a building that fits within the context of the surrounding neighborhood; and

WHEREAS, further, the Board finds that the applicant has credibly established that the proposed dormitory use and the requested bulk waivers are necessary to provide a facility that can satisfy the Yeshiva's programmatic needs; and

WHEREAS, as to the Opposition's concerns about traffic impact, the applicant notes that the proposed building will serve an existing yeshiva that already operates in the surrounding area, and states that the increased enrollment at the proposed building will not result in a significant impact on transit or pedestrian traffic; and

WHEREAS, the applicant provided a survey analyzing the anticipated difference in vehicle trips between the current operation of the Yeshiva and the operation under the proposed building, which indicates that of the 265 students and staff at the proposed facility, 58 students will live in the dormitory rooms and will not travel to or from the site, and it is anticipated that of the remaining 207 students and staff, 77 people will walk, 75 people will drive, 40 people will arrive by school van, 14 people will be dropped off/picked up, and one person will arrive by public transportation; and

WHEREAS, the applicant states that the anticipated transportation to and from the site does not exceed the thresholds listed in the CEQR manual, and therefore the proposed use will not result in a significant impact on traffic; and

WHEREAS, as to the Opposition's concerns regarding parking, the Board notes that the applicant revised its plans to provide 28 parking spaces, which complies with the requirements of the Zoning Resolution; and

WHEREAS, as to the Opposition's concern that the students residing at the proposed facility will create excessive noise in the predominantly residential area, the applicant states that noise attenuation will be achieved by insulating the exterior walls of the building and installing double pane low E windows equipped with shades; and

WHEREAS, the applicant states that the proposed building will also be screened from adjacent residences by providing landscaping around the perimeter and in front of the building, and minimizing exterior lighting by utilizing directional fixtures focused on the site and short post lighting in lieu of large pylon lighting when feasible; and

WHEREAS, the Opposition also made other arguments as to the Board's findings, process, and educational deference, which the Board has considered and does not find persuasive; and

WHEREAS, accordingly, the Board finds that this action will neither alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant states that the hardship was not self-created and that no development in conformance with zoning would meet the programmatic needs of the Yeshiva at the site; and

WHEREAS, accordingly, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, accordingly, the Board finds the requested waivers to be the minimum necessary to meet the programmatic needs of the Yeshiva and to construct a building that is compatible with the character of the neighborhood; and

WHEREAS, as noted above, the applicant originally

# MINUTES

proposed to construct a building with a floor area of 39,286 sq. ft. (1.1 FAR), a roof height of 44'-6", and 13 accessory off-street parking spaces; and

WHEREAS, in response to concerns raised by the Board and the Opposition during the course of the hearing process, the applicant reduced the size of the building in terms of FAR, height, and side setbacks, in order to create a more compatible building envelope, and revised the parking layout to provide a complying number of accessory parking spaces; and

WHEREAS, therefore, the Board agrees that the requested relief is the minimum necessary to allow the Yeshiva to fulfill its programmatic needs; and

WHEREAS, in sum, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to Sections 617.6(h) and 617.2(h) of 6NYCRR; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 11BSA082Q, dated January 6, 2012; and

WHEREAS, the EAS documents show that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved* that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit, within an R2 zoning district, the construction of a three-story yeshiva and dormitory building which does not conform to the underlying use regulations and does not comply with zoning requirements related to floor area and side setback, contrary to ZR §§ 22-13, 23-141, 25-111, and 24-551, *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received January 25, 2012" – (12)

sheets; and *on further condition*:

THAT the following will be the bulk parameters of the proposed building: a floor area of 35,476 sq. ft. (0.99 FAR); a side setback of 15'-0" above a height of 35'-0" along the northern side of the building; a side setback of 15'-0" above a height of 35'-0" along the southern side of the building; a roof height of 39'-6"; lot coverage of 35.5 percent; a front yard with a depth of 63'-8 11/16"; two side yards with minimum widths of 13'-4" each; a rear yard with a depth of 30'-0"; and 28 accessory off-street parking spaces, as reflected on the BSA-approved plans;

THAT any change in the use, occupancy, or operator of the school requires review and approval by the Board;

THAT no commercial catering is permitted within the building or on-site;

THAT the occupancy of the dormitory will be limited to 58 beds;

THAT landscaping will be provided and maintained as indicated on the BSA-approved plans;

THAT all exterior lighting will be directed downward and away from adjacent residential uses;

THAT the exterior walls of the building will be insulated and double pane low E windows will be installed;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT substantial construction be completed in accordance with ZR §72-23;

THAT the approved plans be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 28, 2012.

## 66-11-BZ

### CEQR #11-BSA-096K

APPLICANT – Jesse Masyr, Wachtel & Masyr LLP, for Whole Foods Market Group, owner.

SUBJECT – Application May 13, 2011 – Variance (§72-21) to permit a UG6 food store (*Whole Foods*) larger than 10,000 square feet, contrary to use regulations (§42-12). M2-1 zoning district.

PREMISES AFFECTED – 172-220 Third Street, block bounded by 3<sup>rd</sup> Street, 3<sup>rd</sup> Avenue, 4<sup>th</sup> Street Basin and Gowanus Canal, Block 978, Lot 1, 7, 16, 19, 23, 30, 32, Borough of Brooklyn.

### COMMUNITY BOARD #6BK

APPEARANCES –

For Applicant: Jerry Johnson.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins,

Commissioner Ottley-Brown, Commissioner Hinkson and  
Commissioner Montanez .....5  
Negative:.....0

## THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough  
Commissioner, dated May 10, 2011, acting on Department of  
Buildings Application No. 301923346, reads in pertinent part:

Food store (UG 6) greater than 10,000 sf in an M2-1  
district is not permitted pursuant to Section ZR 42-  
12, referred to the Board of Standards and Appeals  
for determination; and

WHEREAS, this is an application under ZR § 72-21, to  
permit, in an M2-1 zoning district, the construction of a two-  
story food store (Use Group 6) in excess of 10,000 sq. ft.,  
which does not conform to district use regulations, contrary to  
ZR § 42-12; and

WHEREAS, a public hearing was held on this  
application on December 13, 2011 after due notice by  
publication in *The City Record*, with a continued hearing on  
January 24, 2012, and then to decision on February 28, 2012;  
and

WHEREAS, the site and surrounding area had site and  
neighborhood examinations by Chair Srinivasan, Vice-Chair  
Collins, Commissioner Hinkson, Commissioner Montanez,  
and Commissioner Ottley-Brown; and

WHEREAS, Community Board 6, Brooklyn,  
recommends approval of this application, with the following  
conditions: (1) a follow-up traffic study be conducted within  
a three-quarter mile radius of the site one year after the store  
opens; (2) the food store closes by 10:00 p.m.; and (3) the  
Third Avenue and 3<sup>rd</sup> Street frontages be treated with  
windows to create a more inviting design and encourage  
pedestrian traffic; and

WHEREAS, City Council Member Sara M. Gonzalez  
provided testimony in support of this application; and

WHEREAS, City Council Member Diana Reyna  
provided testimony expressing concern about the effect of  
the proposed development on industrial uses in the  
surrounding area; and

WHEREAS, the applicant submitted a letter from  
Borough President Marty Markowitz in support of the  
proposed food store; and

WHEREAS, representatives of the Brooklyn Chamber  
of Commerce and the Gowanus Alliance provided testimony  
in support of this application; and

WHEREAS, representatives of the Gowanus Canal  
Community Advisory Group provided testimony expressing  
its concern that the proposal be executed in a manner that is  
compatible with the Environmental Protection Agency’s  
(“EPA”) Superfund cleanup process, and requesting that the  
Board postpone its decision until the EPA releases its  
decision for the Gowanus Canal cleanup program; and

WHEREAS, representatives of the Gowanus Canal  
Conservancy provided testimony requesting that the  
applicant take measures to ensure that the development of  
the site is consistent with the character of the Gowanus  
neighborhood and the goals the City has identified for the  
development of the waterfront in its Vision 2020

Comprehensive Waterfront Plan; and

WHEREAS, representatives of the Gowanus Institute,  
the Gowanus Canal Conservancy, the Friends and Residents  
of Greater Gowanus, the Southwest Brooklyn Industrial  
Development Corporation, the Sierra Club, and certain  
members of the community provided oral and written  
testimony in opposition to this proposal (hereinafter, the  
“Opposition”); and

WHEREAS, the Opposition raised the following  
primary concerns: (1) the proposal does not satisfy the  
findings of ZR § 72-21, primarily because the site is not  
unique, the site could realize a reasonable return without the  
requested variance, and the proposed food store in excess of  
10,000 sq. ft. would alter the character of the neighborhood;  
(2) the proposed food store will be detrimental to the  
surrounding manufacturing and artistic community; (3) the  
proposed food store will not create the quantity or quality of  
jobs that could be created by an as-of-right manufacturing  
use; (4) the proposal will increase traffic in the surrounding  
neighborhood; and (5) the proposal has the potential to  
disrupt the EPA’s cleanup program for the Gowanus Canal;  
and

WHEREAS, the subject site is located on an irregularly-  
shaped lot comprising the entire block bounded by Third  
Avenue to the east, 3<sup>rd</sup> Street to the north, the 4<sup>th</sup> Street Basin to  
the south, and the Gowanus Canal to the west, within an M2-1  
zoning district; and

WHEREAS, the site is a single zoning lot comprising  
seven tax lots (tax lots 1, 7, 16, 19, 23, 30 and 32), with  
approximately 337 feet of frontage along Third Avenue, 635  
feet of frontage along 3<sup>rd</sup> Street, 666 feet of frontage along the  
4<sup>th</sup> Street Basin, and 175 feet of frontage along the Gowanus  
Canal, with a total lot area of 185,163 sq. ft.; and

WHEREAS, the site is currently a primarily vacant lot,  
with the exception of a two-story former office building with a  
floor area of 2,940 sq. ft. (.02 FAR) constructed in 1872-1873  
which is designated as an individual New York City Landmark  
(the “Landmark Building” or “the Landmark Building Site”) located on a portion of tax lot 7 at the corner of 3<sup>rd</sup> Street and  
Third Avenue; and

WHEREAS, the applicant proposes to construct a two-  
story building to be occupied by a food store (Use Group 6)  
with a floor area of 56,470 sq. ft. (0.30 FAR) and a rooftop  
greenhouse (Use Group 17) with a floor area of 19,400 sq. ft.  
(0.10 FAR), for a total floor area of 75,870 sq. ft. (0.41 FAR),  
and with 246 accessory off-street parking spaces; and

WHEREAS, the applicant states that the proposed  
building will be located on the northeast corner of the site  
adjacent to the east and south sides of the Landmark Building  
Site; and

WHEREAS, the applicant further states that the proposed  
building will provide loading docks on the Third Avenue  
frontage and a waterfront public access area along the entire  
waterfront edge of the property adjacent to the 4<sup>th</sup> Street  
Basin/Gowanus Canal (the “Shore Public Walkway”), which  
will require a separate application at the Department of City  
Planning (“DCP”); and

WHEREAS, although the proposed building’s FAR

---

# MINUTES

---

would be permitted for a conforming use, the applicant seeks a use variance because food stores in excess of 10,000 sq. ft. are not permitted in the subject M2-1 zoning district; and

WHEREAS, the applicant states that the following are unique physical conditions which create unnecessary hardship and practical difficulties in developing the site in conformance with the underlying zoning regulations: (1) there is significant soil contamination on the site; (2) the site consists of poor load bearing soils; (3) the site has a high water table; (4) there is a significant amount of water frontage on the site; and (5) there are varying elevations on the site; and

WHEREAS, as to the contamination on the site, the applicant states that the site was historically developed with noxious industrial uses which have resulted in significant soil contamination at the site; and

WHEREAS, the applicant notes that the subject site is the only property within the existing M2-1 district to be included within the New York State Department of Conservation's ("DEC") Brownfield Cleanup Program due to the prior contamination on the site, which is a clean-up program designed to ensure that contaminated sites are cleaned up under governmental oversight utilizing remedies that are protective of human health and the environment; and

WHEREAS, the applicant notes that the Gowanus Canal has been placed on the EPA's Superfund National Priorities List, which is a federal program designed to locate, investigate, and clean up the most environmentally hazardous sites nationwide; and

WHEREAS, the applicant states that the Phase I and Phase II Environmental Site Assessments found evidence of contamination and underground storage tanks on tax lots 1, 7, 16 and 19, with less severe soil contamination on tax lots 23, 30 and 32; and

WHEREAS, the applicant further states that due to the presence of contamination, significant remedial actions have been or will be undertaken at the site, including: (1) removal and off-site disposal of underground storage tanks; (2) excavation and off-site disposal of contaminated soil; (3) construction and maintenance of a composite cover system consisting of a demarcation barrier beneath a two-ft. thick cover layer of clean crushed rock to prevent human exposure to the remaining contaminated soil at the site; and (4) installation of a chemical vapor barrier and slab pressurization system for the proposed building; and

WHEREAS, the applicant states that it will execute and record an Environmental Easement to restrict land use and prevent future exposure to contamination remaining at the site by (1) limiting the use and development of the property to commercial/industrial use; (2) complying with a DEC-approved Site Management Plan; (3) restricting the use of ground water as a source of potable or process water; and (4) requiring the property owner to complete and submit a periodic certification of industrial and engineering controls to DEC; and

WHEREAS, the applicant further states that it will develop and implement a Site Management Plan for long term management of remaining contamination as required by the Environmental Easement, which includes plans for: (1) institutional and engineering controls; (2) monitoring; (3)

operation and maintenance; and (4) reporting; and

WHEREAS, the applicant represents that the above-mentioned remedial actions required to clean up the contamination on the site result in significant premium costs for any development on the site; and

WHEREAS, as to the poor load bearing soil on the site, the applicant submitted a geotechnical report stating that soil borings taken at the site reflect that the soil is composed of urban fill to depths of seven to 29 feet below the ground surface, with eight to 26 feet of organic deposits below the urban fill layer consisting of organic silt and clay with shells, fibers, and peat observed, and a layer of sand and silt and sand and gravel below the organic deposits; and

WHEREAS, the geotechnical report further states that bedrock was not encountered in any of the borings; and

WHEREAS, the applicant states that the uncontrolled fill and organic deposits are not suitable for support of the building loads, necessitating deep pile foundations which must penetrate the poor surface soils to transfer the building loads to the underlying sand and gravel; and

WHEREAS, the geotechnical report recommends a foundation system for the subject site that consists of driven friction piles extending into competent soils below the organic stratum, with drilled piles within 30 feet of the Landmark Building; and

WHEREAS, the applicant states that the specialized foundation system consisting that is necessitated by the poor soil conditions significantly increases the cost of any development on the site; and

WHEREAS, as to the high water table, the geotechnical report reflects that groundwater across the site ranges from an elevation of 4.8 feet to 7.1 feet, and the site is within the 100-year flood zone; and

WHEREAS, the applicant states that these conditions would result in significant dewatering costs associated with the as-of-right food store development, which consists of a building limited to 10,000 sq. ft. of food store floor area above grade with an additional 39,000 sq. ft. of floor space located below grade; and

WHEREAS, specifically, the geotechnical report states that the as-of-right design with a cellar at or below the flood zone would require waterproofing, floodproofing, and a foundation designed to resist uplift forces; and

WHEREAS, the geotechnical report further states that continuous dewatering would be necessary for the as-of-right food store in order to bring the groundwater down to a level sufficiently below subgrade and to permit proper compaction of the subgrade prior to the placement of foundation concrete, and that due to the subsurface contamination on the site, an on-site treatment system will be necessary to treat and remove groundwater before it is discharged to the Gowanus Canal/4<sup>th</sup> Street Basin; and

WHEREAS, the applicant notes that the proposed building will avoid the costs associated with the high water table and location within the 100-year flood zone by setting the building eight feet above the 100-year flood elevation; as a result, the applicant is unable to locate any floor space in the cellar, where it would not contribute to floor area calculations;

---

# MINUTES

---

and

WHEREAS, as to the amount of water frontage on the site, the applicant states that site is located immediately adjacent to the Gowanus Canal to the west and the 4<sup>th</sup> Street Basin to the south, with a total of 860 linear feet of water frontage; and

WHEREAS, the applicant states that there are increased development costs along the waterfront from Third Avenue to 3<sup>rd</sup> Street including the construction and maintenance of the required Shore Public Walkway, which provides public access to 860 linear feet of water frontage, and the removal of 300 linear feet of deteriorating bulkhead and its replacement with DEC-mandated soft shoreline (rip rap); and

WHEREAS, as to the need to replace a portion of the bulkhead, the applicant states that approximately 300 feet of the 4<sup>th</sup> Street Basin/Gowanus Canal frontage nearest the Third Avenue bridge contained a non-functioning bulkhead, and this portion of the site was determined to be a tidal wetlands adjacent area, requiring a DEC permit to develop the site; and

WHEREAS, the applicant further states that the DEC Tidal Wetlands Permit requires the creation of a 15-ft. rip rap slope to replace the non-functional bulkhead along the waterfront; the applicant notes that a temporary rip rap slope has already been created and the final slope will be constructed during the construction of the proposed building; and

WHEREAS, the applicant represents that the 15-ft. rip rap slope also restricts the development of the site by pushing the area where the southern side of the building can be located by an additional 15-ft. to the north, thus reducing the lot area for the footprint of the building; and

WHEREAS, accordingly, the applicant states that there are significant costs associated with any development on the site due to its large size and the extent of water frontage on the site; and

WHEREAS, as to the change in elevation across the site, the applicant states that there is a grade change of approximately 12 feet from the southeast corner of the site to the northwest corner of the site; and

WHEREAS, specifically, the applicant states that the elevations on the site range from approximately eight feet near the 3<sup>rd</sup> Street bridge to approximately 20 feet near the Third Avenue bridge; and

WHEREAS, the applicant states that the site is bounded by streets on the north and east sides and a public waterway on the south and west sides and it abuts two bridges, the Third Avenue bridge that spans above and over the end of the 4<sup>th</sup> Street Basin and the 3<sup>rd</sup> Street bridge and gatehouse, a drawbridge spanning over the Gowanus Canal, and that these bridges and the grade elevations along the streets abutting the site and the Gowanus Canal result in the substantial grade change of approximately 12 feet across the site; and

WHEREAS, the applicant states that the location of the bridges contributes to the unique grading of the site because the Third Avenue bridge (located to the southeast of the site) is high relative to the canal while the 3<sup>rd</sup> Street bridge (located to the northwest of the site) is low relative to the canal; and

WHEREAS, the applicant further states that the location of the bridges is significant due to the additional construction

costs associated with constructing near the bridge structures, and because the style of the bridge on Third Avenue is one of the reasons the elevations of the street at that location are so high relative to the surrounding area; and

WHEREAS, the applicant represents that the site conditions require that the building be located on the eastern end of the zoning lot, as the western end of the site cannot accommodate the building because loading and deliveries would not be permitted on the south and west sides due to water frontage, the 3<sup>rd</sup> Street bridge approach would preclude the use of the western end of 3<sup>rd</sup> Street, and loading and deliveries would conflict with the pedestrian and vehicular use if located in front of the building; and

WHEREAS, the applicant states that the 12-ft. elevation change also results in significant site planning and development challenges that contribute to the hardships on the site, as the building's finished floor elevation must be located near the high point of the site along Third Avenue to provide the required loading docks and proper deliveries, the site must then be graded appropriately to provide ADA compliant waterfront access for the Shore Public Walkway along the site's 860 feet of water frontage, and the interior of the site must also be graded to provide proper vehicular access to the parking area and pedestrian access to the front of the store; and

WHEREAS, the applicant states that the elevation differential is significant because it greatly increases the costs of the as-of-right food store development on the site; and

WHEREAS, specifically, the applicant states that the need to locate the building on the eastern side of the site requires the excavation of 16,712 cubic yards of soil for the as-of-right food store development because that scenario includes 39,000 sq. ft. of floor space located below grade while the other development scenarios do not locate floor space below grade; and

WHEREAS, the applicant further states that conducting the excavation on a site in the Brownfields Cleanup Program adds a significant premium to such work; and

WHEREAS, the applicant represents that the change in elevations on the site also results in the need for sheeting and shoring to support the surrounding streets, the cost of which is increased by the additional depth that results from locating the building on the eastern side of the site; and

WHEREAS, as to the uniqueness of the aforementioned physical conditions, the applicant submitted a land use map and chart which analyze the existing FAR, lot area, water frontage, occupancy, environmental contamination, groundwater elevation, adjacency to bridges, and elevation changes of 44 sites located along the canal in the subject M2-1 district; and

WHEREAS, the land use map reflects that, within the study area, the subject site is the only full block site that is primarily vacant, bounded on two sides by the Gowanus Canal/4<sup>th</sup> Street Basin, adjacent to two bridges with different elevations, occupied by a vacant landmark structure, and part of the Brownfields Cleanup Program; and

WHEREAS, the evidence submitted by the applicant reflects that 26 of the sites in the study area are underbuilt (defined by the study as sites developed with less than 25 percent of the permitted FAR); the subject site is significantly

---

# MINUTES

---

underbuilt with an FAR of .02; and

WHEREAS, the applicant states that of the 26 underbuilt sites analyzed, only one site had a greater percentage of its site perimeter occupied by water frontage than the subject site at 46.9 percent; and

WHEREAS, the applicant further states that the unusually high percentage of water frontage along the site's perimeter results in a high water table occupying a significant portion of the site; and

WHEREAS, the applicant represents that the high water table results in increased construction costs for the as-of-right food store, due to the dewatering costs associated with excavating for the below grade space; and

WHEREAS, in contrast, the proposed project would minimize construction costs related to the high water table as it would be located entirely above-grade, and its footprint is located at the northeast corner of the site, away from much of the water frontage; and

WHEREAS, as to the soil contamination on the site, the applicant represents that while other sites in the surrounding area have environmental contamination, the subject site is the only one in the M2-1 district that has been accepted into the Brownfield Cleanup Program due to prior contamination and has a cleanup that is regulated by DEC at significant expense; and

WHEREAS, the applicant further represents that the large size and the extent of water frontage exacerbate the hardships on the site due to the significant amount of lot area subject to environmental remediation and cleanup and the increased development costs along the waterfront from Third Avenue to 3<sup>rd</sup> Street; and

WHEREAS, as to the uniqueness of the elevation differentials and adjacency to bridges, the applicant provided an analysis of all the elevations applicable to properties abutting the canal and adjacent to bridges; and

WHEREAS, the analysis reflects that those properties abutting one bridge had differentiations in curb level averaging 2.5 feet while the only other property abutting two bridges had a differential of 1.2 feet, significantly less than the elevation differential of 12 feet on the subject site; and

WHEREAS, based upon the above, the Board finds that the aforementioned unique physical conditions, when considered in the aggregate, create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the applicant submitted a feasibility study which analyzed: (1) a seven-story as-of-right warehouse building with a floor area of 348,580 sq. ft.; (2) a two-story as-of-right warehouse building with a floor area of 196,716 sq. ft.; (3) an as-of-right food store with 10,000 sq. ft. of floor area located at the first floor, a 20,000 sq. ft. rooftop greenhouse, and an additional 39,000 sq. ft. of floor space located below grade, and with 258 accessory parking spaces; (4) a two-story as-of-right retail building with a floor area of 61,898 sq. ft. and with 224 accessory parking spaces; (5) a lesser variance scenario consisting of a one-story food store with 43,534 sq. ft. of floor area and 235 accessory parking spaces; and (6) the proposed two-story food store with 55,870 sq. ft. of floor area

located on the first and second floor, a 20,000 sq. ft. rooftop greenhouse, and with 246 accessory parking spaces; and

WHEREAS, the study concluded that the conforming and lesser variance scenarios would not result in a reasonable return, but that the proposed building would realize a reasonable return; and

WHEREAS, at hearing, the Board directed the applicant to analyze whether an as-of-right manufacturing use would be viable at the site; and

WHEREAS, in response, the applicant submitted a supplemental feasibility study which included (1) an as-of-right seven-story active manufacturing building with a floor area of 348,580 sq. ft.; and (2) an as-of-right two-story active manufacturing building with a floor area of 196,716 sq. ft.; and

WHEREAS, the revised study concluded that neither of the supplemental manufacturing scenarios would realize a reasonable return; and

WHEREAS, throughout the course of the hearing process, the Opposition contended that that the subject site is not unique and that the site could realize a reasonable return without the requested variance; and

WHEREAS, as noted above, the applicant has submitted sufficient evidence to establish that there are unique physical conditions on the site which result in unnecessary hardship and that development of the proposed food store is necessary to realize a reasonable return on the site; and

WHEREAS, accordingly, the Board has determined that because of the subject site's unique physical conditions, there is no reasonable possibility that development in strict compliance with zoning will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that the subject site is located in the Gowanus section of Brooklyn, an industrial area located between the more residential neighborhoods of Park Slope to the east, Carroll Gardens to the west, and Boerum Hill to the north, and the subject area is currently characterized by industrial properties, old factory and storage buildings, and the Gowanus Canal and its series of basins/extensions; and

WHEREAS, the applicant represents that the Gowanus area has experienced development pressure to redevelop for mixed uses and outdoor recreation in recognition of the Gowanus Canal as a unique waterfront resource, and while the designation of the Gowanus Canal as a Federal Superfund Site has lessened development pressure, the overall outlook for the long term future of this area is as a mixed-use community; and

WHEREAS, the applicant notes that a food store (Use Group 6) is a permitted use in the subject M2-1 zoning district, and it is only the proposed size in excess of 10,000 sq. ft. that requires a variance; further, the proposed rooftop greenhouse (Use Group 17) complies with bulk and use regulations; and

WHEREAS, the applicant further notes that a similarly sized food store could be developed on the subject site as-of-right, however, a significant portion of the building would have to be located below grade which would significantly increase

---

# MINUTES

---

construction costs; and

WHEREAS, the Board notes that a conforming commercial or manufacturing use would be entitled to an as-of-right floor area of 370,326 sq. ft. (2.0 FAR) on the site; therefore, although the subject M2-1 zoning district limits the size of food stores to a maximum of 10,000 sq. ft. of floor area, the proposed building, with a total floor area of 75,870 sq. ft. (0.41 FAR), is significantly below the bulk that is permitted on the site; and

WHEREAS, the applicant states that the building is designed as a mix of one- and two-story components with a hydroponic greenhouse located on the roof, and that the proposed building will be faced with repurposed brick to provide a more natural aged patina that will be in context with the existing industrial area; and

WHEREAS, the applicant further states that the proposed building will be located on the northeast corner of the site adjacent to the east and south sides of the Landmark Building Site, and the portions of the building immediately adjacent to the Landmark Building Site are setback to provide more distinctive views of the landmark from the street; and

WHEREAS, the applicant notes that the Shore Public Walkway will provide public access to 860 feet of the Gowanus Canal and 4<sup>th</sup> Street Basin which was previously inaccessible; and

WHEREAS, although the applicant is not seeking any bulk waivers for the proposal, the applicant notes that if the underlying M2-1 district bulk regulations were applied to the proposal, the bulk parameters would be well below the district maximums (as discussed above), but additional zoning relief would be required for the proposed parking and parking area design; and

WHEREAS, as to the parking, the applicant states that the proposal provides 246 accessory off-street parking spaces, and that 292 spaces would be required for the proposed building if the food store was permitted as-of-right; and

WHEREAS, the applicant submitted a traffic analysis which demonstrates that at peak weekday hours a maximum demand of 204 spaces is anticipated and at peak weekend hours a maximum demand of 166 spaces is anticipated; thus, the proposed 246 parking spaces are sufficient to meet the projected parking demand; and

WHEREAS, as to the parking area design, the applicant notes that in 2007 the City Planning Commission (“CPC”) adopted regulations for parking lots designed for commercial and community facility developments, which require open parking areas to comply with special screening and planting requirements for sustainable drainage design and beautification measures; and

WHEREAS, the applicant states that the special features of the subject site, including the location in the waterfront area with a tidal wetlands adjacent area, the elevation differentials, and other design requirements such as the Shore Public Walkway make it infeasible to provide the parking lot design in strict compliance with the CPC regulations while maintaining the proposed number of parking spaces; and

WHEREAS, accordingly, the applicant states that certain aspects of the parking area design, such as the planter sizes, the

buffer area design with respect to drainage requirements, and the location of fencing deviate from the regulations, but that the modifications will not impact the viability of the planting areas for sustaining trees and shrubbery per the CPC guidelines; and

WHEREAS, the applicant notes that following the January 24, 2012 action of the Landmarks Preservation Commission (“LPC”) which modified the boundaries of its 2006 designation of the Landmark Building Site, LPC review and approval of the proposal is not required; and

WHEREAS, by letter dated January 25, 2012, LPC confirmed that its review and approval of the proposal is not required; and

WHEREAS, during the hearing process, the Opposition raised arguments that the proposed food store in excess of 10,000 sq. ft. will have a detrimental impact on existing uses in the surrounding area, will not maximize job creation, will increase traffic concerns, and will disrupt the EPA’s cleanup of the Gowanus Canal; and

WHEREAS, as to the Opposition’s arguments regarding job creation, the applicant states that the site is currently vacant and employs only security guards, that the application materials demonstrate that no new manufacturing developments are viable, and that the proposed food store will provide employment opportunities to the local population on a site that currently sits fallow; and

WHEREAS, specifically, the applicant states that the proposed food store will create 300 construction jobs and approximately 450 new jobs when complete and fully staffed, 80 percent of which will be full time; and

WHEREAS, in response to the concerns raised about the proposal’s impact on traffic, the applicant submitted a traffic analysis which identified a series of measures that will be implemented to ensure that the proposed food store will not have a negative impact on the surrounding traffic network; and

WHEREAS, specifically, the applicant states that the proposed improvements, which were approved by the New York City Department of Transportation (“DOT”) on January 9, 2012, include the installation of a traffic signal at the intersection formed by 3<sup>rd</sup> Street and the driveway to the site, signal timing shifts at surrounding intersections, lane restriping, and the addition of new directional signage; and

WHEREAS, as to the Opposition’s arguments regarding the proposal’s impact on the Gowanus Canal and the EPA’s cleanup of the site, the applicant states that the site is regulated by DEC, all development plans have been reviewed and approved by DEC and DEP, and all work will be performed in accordance with DEC permits; thus, the proposed development will have no impact on the EPA’s cleanup of the site; and

WHEREAS, finally, in response to the Opposition’s contention that the proposed food store will have a detrimental effect on the existing industrial and artistic communities in the area, the applicant notes that food stores are permitted as-of-right in the subject M2-1 district, and represents that development of the proposed food store will be a benefit to the surrounding area, as it will provide fresh produce, meat and other grocery items to an area experiencing mixed-use growth and will service the nearby established residential neighborhoods; and

---

# MINUTES

---

WHEREAS, the Board has considered the Opposition's concerns related to the proposal's effect on traffic, environmental cleanup, and the overall neighborhood character, but was not persuaded by these arguments given the measures taken by the applicant to address the traffic and environmental concerns and to otherwise ensure that the proposal will not have a negative impact on the surrounding area; and

WHEREAS, based upon the above, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title, but is the result of the site's unique physical conditions; and

WHEREAS, as noted above, food stores (Use Group 6) are permitted as-of-right in the subject M2-1 zoning district up to a floor area of 10,000 sq. ft., the proposed building is well below the maximum permitted FAR for a conforming use in the district, and the proposal would comply with all other bulk regulations for a conforming use aside from parking; and

WHEREAS, accordingly, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, based upon the above, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as a Type I Action pursuant to 6 NYCRR, Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 11-BSA-096K dated February 13, 2012; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the New York City Department of Environmental Protection's ("DEP") Bureau of Environmental Planning and Analysis has reviewed the project for potential hazardous materials, infrastructure and natural resources impacts; and

WHEREAS, DEP reviewed and accepted the September 2011 Remedial Action Plan and the Construction Health and Safety Plan for lots 23, 30 and 32 of the subject site; and

WHEREAS, DEP requested that a Remedial Closure Report for lots 23, 30 and 32 be submitted to DEP for review and approval upon completion of the proposed project; and

WHEREAS, the applicant entered into a Brownfield Cleanup Agreement with the DEC in March 2005 for the

remainder of the site (lots 16, 19 and a portion of lots 1 and 7); and

WHEREAS, the applicant has completed the remediation work described in the DEC-approved Remedial Work Plan and a final engineering report has been prepared; and

WHEREAS, DEP requires that the proposed project use Best Management Practices in designing and constructing the on-site stormwater management infrastructure as found in the New York Standards and Specifications for Erosion and Sediment Control, and the New York State Stormwater Management Design Manual; and

WHEREAS, the project site includes a classified DEC-regulated tidal wetland along the bank of the 4<sup>th</sup> Street Basin; and

WHEREAS, DEC issued a Tidal Wetlands and Protection of Waters permit in 2009 ("2009 DEC permit") for the proposed project; and

WHEREAS, the applicant will seek a minor modification to the 2009 DEC permit to conform the permit's scope of work with the proposal under the variance application; and

WHEREAS, as previously noted, the applicant has proposed traffic improvement measures, including the installation of a traffic signal at the intersection formed by 3<sup>rd</sup> Street and the driveway to the site, signal timing shifts at surrounding intersections, lane restriping, and the addition of new directional signage; and

WHEREAS, in a January 9, 2012 letter, DOT identifies all of the proposed measures and notes that the improvements appear reasonable and feasible; and

WHEREAS, DOT will participate in the review process relating to all future modifications to geometric alignment, striping and signage during the preliminary and final design phases as well as the design installation of the new traffic signal; and

WHEREAS, DOT notes in its January 9, 2012 letter that the applicant is committed to holding discussions with Verizon regarding resolving potential safety and operational issues with the existing entrance to the Verizon facility on Third Street and the proposed entrance to Whole Foods on Third Street; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved*, that the Board of Standards and Appeals issues a Type I Declaration under 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit, in an M2-1 zoning district, the construction of a two-story food store (Use Group 6) in excess of 10,000 sq. ft., which does not conform to district use regulations, contrary to ZR § 42-12; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received February 8, 2012" – (19) sheets; and *on further condition*:

THAT the following are the bulk parameters of the

# MINUTES

proposed building: a maximum total floor area of 75,870 sq. ft. (0.41 FAR), with a Use Group 6 floor area of 56,470 sq. ft. (0.30 FAR) and a Use Group 17 floor area of 19,400 sq. ft. (0.10 FAR); and a minimum of 246 accessory parking spaces, as indicated on the BSA-approved plans;

THAT a permit shall not be issued for any grading, excavation, foundation or other permit which involves soil disturbance until the City Planning Commission has issued a certification for waterfront public access pursuant to ZR § 62-811;

THAT a permit shall not be issued for any grading, excavation, foundation or other permit which involves soil disturbance until the DEC has issued a modified Tidal Wetlands and Protections of Waters permit;

THAT a Temporary Certificate of Occupancy ("TCO") shall not be issued until DEP has approved the Remedial Closure Report;

THAT a TCO shall not be issued until DEC has issued a Certificate of Completion for remediation under the Brownfield Cleanup Program;

THAT the applicant is responsible for all costs associated with the design and construction of all traffic improvement measures proposed in the EAS, including the new traffic signal, consistent with the customary and standard DOT practice;

THAT the applicant will submit to DOT at least six months in advance of completion of the project all of the required drawings/designs relating to the improvements identified in DOT's January 9, 2012 letter;

THAT if the boundaries of the Landmark Building Site are changed by any action subsequent to the Board's approval, the applicant must seek any required review and approval from the Landmarks Preservation Commission and any resultant requirement for modification to the plans from the Board;

THAT construction shall proceed in accordance with ZR § 72-23;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 28, 2012.

## 137-11-BZ

### CEQR #12-BSA-023K

APPLICANT – Slater & Beckerman, LLP, for 455 Carroll Street LLC, owner.

SUBJECT – Application September 7, 2011 – Variance (§72-21) to allow the conversion of the second floor and second floor mezzanine from manufacturing and commercial

uses to residential use, contrary to §42-10. M1-2 zoning district.

PREMISES AFFECTED – 455 Carroll Street, mid-block on the north side of Carroll Street between Nevins Street and Third Avenue, Block 447, Lot 47, Borough of Brooklyn.

### COMMUNITY BOARD #6BK

APPEARANCES –

For Applicant: Stefanie Marazzi.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated August 16, 2011, acting on Department of Buildings Application No. 320284385, reads in pertinent part:

Proposed UG 2 residential use in an M1-2 zoning district is contrary to Section 42-00 of the Zoning Resolution; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site within an M1-2 zoning district, the legalization of the residential use on the second floor and second floor mezzanine of a two-story manufacturing building, which is contrary to ZR § 42-00; and

WHEREAS, the building will maintain a conforming use on the first floor and has a total floor area of 9,580 sq. ft. (2.4 FAR) and a street wall and total height of 28 feet; and

WHEREAS, a public hearing was held on this application on November 22, 2011 after due notice by publication in the *City Record*, with a continued hearing on January 10, 2012, and then to decision on February 28, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 6, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the north side of Carroll Street between Nevins Street and Third Avenue; and

WHEREAS, the site has a lot area of approximately 4,000 sq. ft.; and

WHEREAS, the site is currently occupied by a two-story building; the first floor and first floor mezzanine are occupied by a conforming manufacturing use and the second floor and second floor mezzanine are occupied by non-conforming residential use; and

WHEREAS, because the applicant proposes to legalize the Use Group 2 dwelling unit, a variance is required; and

WHEREAS, the applicant represents that the following are unique physical conditions, which create practical difficulties and unnecessary hardship in developing the subject

---

# MINUTES

---

lot in conformity with applicable regulations: (1) the second floor is narrow and irregularly-shaped and has an inadequate live load; (2) the narrow staircase and the absence of an elevator; (3) the absence of a loading berth; and (4) the small size of the lot and its location on a narrow street among residential uses; and

WHEREAS, as to the second floor's configuration, the applicant asserts that it is irregularly-shaped with undersized floor plates and has an insufficient live load, which cannot accommodate modern manufacturing uses; and

WHEREAS, the applicant states that the 4,000 sq. ft. floor plate is an insufficient size, particularly since it is diminished by the staircase to the second floor mezzanine and surrounding partitions; and

WHEREAS, further, the applicant notes that the second floor has a live load capacity of 60 and therefore does not meet the live load capacity of 120 set forth in the Certificate of Occupancy; and

WHEREAS, the applicant submitted an engineer's statement that renovating the second floor to meet a live load capacity of 125 as required by the Building Code for light manufacturing would require significant expenditure; and

WHEREAS, as to the internal circulation, the applicant represents that the absence of an elevator and the narrow staircase do not accommodate the efficient transfer of materials and machinery between floors; and

WHEREAS, specifically, the applicant states that the stairway to the second floor has a width of only 5'-2" and opens onto the street by a standard-size door and that an interior door is oriented 90 degrees from the staircase; and

WHEREAS, the applicant states that if it were to change the second floor use to a conforming Use Group 6 commercial office, it would be required to install an elevator to meet ADA accessibility regulations; and

WHEREAS, as to the absence of a loading berth, the applicant states that Carroll Street is a one-way, narrow, primarily residential street with parking on both sides, which requires that loading must take place on the sidewalk and street and would thus obstruct vehicular and pedestrian traffic; and

WHEREAS, as to the location and size of the building, the applicant states that the subject block is occupied primarily by residential use in a neighborhood bounded by the Gowanus Canal and far from commercial office districts which support commercial use; and

WHEREAS, the applicant states that the floor area of the second floor (4,000 sq. ft.) and second floor mezzanine (1,200 sq. ft.), while too small for a manufacturing use would be a large amount of office space in what is predominantly a residential area and would therefore not be marketable; and

WHEREAS, as to the uniqueness of the conditions, the applicant performed a lot use and width analysis which reflects that the site is the only two-story completely conforming commercial or industrial building within a one to two block radius with a width of 40 feet or less, that is adjacent to residential use on both sides; and

WHEREAS, the applicant states that the analysis

evaluated the lot width and use of the 443 lots bounded by Sackett Street, Fourth Avenue, Bond Street, and Third Street, which is almost equivalent to the area in the Department of City Planning's Rezoning Proposal for the Gowanus; and

WHEREAS, the applicant represents that within the study area, there are only four similarly-situated two-story manufacturing buildings with a width of 40 feet or less, which amounts to 0.9 percent of the total buildings; and

WHEREAS, the applicant asserts that the four other buildings can be distinguished based on location on a wider street, being part of assemblage sites, adjacency to other conforming uses, and/or having better vehicular access; and

WHEREAS, based upon the above, the Board finds that the aforementioned unique physical conditions create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the applicant asserts that because of its unique physical conditions, there is no possibility that the use of the property in conformance with applicable use regulations will bring a reasonable return to the owner; and

WHEREAS, the applicant submitted a feasibility study analyzing a conforming industrial use, a conforming mixed-use industrial/commercial use, and the existing/proposed mixed-use industrial/residential use; and

WHEREAS, the applicant concluded that only the proposed use would realize a reasonable return; and

WHEREAS, the applicant submitted evidence that the prior owner had unsuccessfully attempted to market the building for a conforming use; and

WHEREAS, based upon its review of the feasibility study, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict conformance with applicable use requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that the buildings surrounding the property are predominantly residential; and

WHEREAS, the applicant notes that the proposed residential use is consistent with the character of the area, which includes many other residential uses, including the adjacent residential buildings and others on the subject block; and

WHEREAS, in support of the above statements, the applicant submitted a land use map, showing the various uses in the immediate vicinity of the site; and

WHEREAS, based upon its review of the submitted land use map and its site inspection, the Board agrees that the area includes a significant amount of residential use, and finds that the introduction of one dwelling unit will not impact nearby conforming uses nor negatively affect the area's character; and

WHEREAS, the applicant notes that the existing

# MINUTES

building envelope and floor area will be maintained; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title, but is rather a function of the pre-existing unique physical conditions cited above; and

WHEREAS, the Board finds that the proposal to maintain the conforming use on the first floor and to legalize one dwelling unit on the second floor is the minimum necessary to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to Sections 617.6(h) and 617.2(h) of 6 NYCRR; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 12BSA023K, dated February 22, 2012; and

WHEREAS, the EAS documents indicate that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the New York City Department of Environmental Protection's (DEP) Bureau of Environmental Planning and Analysis reviewed the project for potential hazardous materials impacts; and

WHEREAS, DEP reviewed and accepted the February 2012 Remedial Action Plan and Construction Health and Safety Plan; and

WHEREAS, DEP requested that a Remedial Closure Report be submitted to DEP for review and approval upon completion of the proposed project; and

WHEREAS, DEP reviewed and accepted the February 2012 Remedial Closure Report; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved* that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the

New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit the legalization of the residential use on the second floor and second floor mezzanine of a two-story manufacturing building, which is contrary to ZR § 42-00 *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received September 7, 2011" – four (4) sheets; and *on further condition*:

THAT the following are the bulk parameters of the building total floor area of 9,580 sq. ft., with a maximum Use Group 2 floor area of 5,200 sq. ft. and one residential unit, as indicated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 28, 2012.

## 175-11-BZ

APPLICANT – Raymond H. Levin, for Clinton Park Holdings, LLC, owners.

SUBJECT – Application November 10, 2011 – Special Permit (§73-36) to permit a physical culture establishment (*Mercedes House*). C6-3X (Clinton Special District).

PREMISES AFFECTED – 550 West 54<sup>th</sup> Street, aka 770 11<sup>th</sup> Avenue, bounded by 11<sup>th</sup> Avenue, West 54<sup>th</sup> Street, 10<sup>th</sup> Avenue and West 53<sup>rd</sup> Street, Block 1082, Lot 1, Borough of Manhattan.

## COMMUNITY BOARD #4M

APPEARANCES –

For Applicant: Raymond Levin.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated January 4, 2012, acting on Department of Buildings Application No. 104856942, reads in pertinent part:

A Physical Culture Establishment is not a permitted as-of-right use in a C6-3X zoning

---

# MINUTES

---

district; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located in a C6-3X zoning district within the Special Clinton District (CL), the operation of a physical culture establishment (“PCE”) on the fourth floor of a 32-story mixed-use residential/commercial building, contrary to ZR § 32-30; and

WHEREAS, a public hearing was held on this application on January 31, 2012, after due notice by publication in *The City Record*, and then to decision on February 28, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 4, Manhattan recommends approval of the application with the following conditions: (1) that there be a pricing structure which would make membership affordable to all residents of the subject building and (2) that the applicant provide community-based programming for community members; and

WHEREAS, the subject site located bounded by 11<sup>th</sup> Avenue, West 53<sup>rd</sup> Street, 10<sup>th</sup> Avenue, and West 54<sup>th</sup> Street in a C6-3X zoning district within the Special Clinton District (CL); and

WHEREAS, the subject site will be occupied by a 32-story mixed-use residential/commercial building, which is currently under construction and is known as Mercedes House; and

WHEREAS, the PCE will occupy 28,151 sq. ft. of floor space primarily on the fourth floor; and

WHEREAS, the PCE will be self-operated by the developer Two Trees Management Company; and

WHEREAS, the PCE is expected to operate Monday through Friday 5:30 a.m. to 11:00 p.m.; Saturday 7:00 a.m. to 9:00 p.m.; and Sunday from 8:00 a.m. to 8:00 p.m.; and

WHEREAS, the applicant represents that the services at the PCE include facilities for instruction and programs for physical improvement; and

WHEREAS, the applicant states that the new construction will include noise abatement to ensure that the sound level does not exceed a maximum interior level of 45 dba, as established by the New York City Department of Environmental Protection; and

WHEREAS, the applicant proposes to install acoustical separation between the PCE and the residential use and to include a Sound Transmission Class and Impact Isolation Class rating of 50 between floors which will be achieved through an eight-inch concrete slab with resilient underlayment as well as other measures; and

WHEREAS, the applicant states that it is considering the potential to comply with the Community Board’s conditions, but cannot commit to any such plan currently; and

WHEREAS, the Board notes that it does not require the applicant to comply with the conditions that are beyond the scope of its review of the special permit application; and

WHEREAS, the Board finds that this action will

neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR Part 617.4; and

WHEREAS, the Board adopts the findings of the Final Environmental Impact Statement (FEIS) (07DCP071M); and

WHEREAS, the FEIS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved* that the Board of Standards and Appeals adopts the FEIS’s findings prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site located in an C6-3X zoning district within the Special Clinton District (CL), the operation of a physical culture establishment on the fourth floor of a 32-story mixed-use residential/commercial building, contrary to ZR § 32-30; *condition* that all work shall substantially conform to drawings filed with this application marked “Received February 13, 2012”- (2) sheets and “Received January 6, 2012”-(1) sheet, and *on further condition*:

THAT the term of this grant will expire on February 28, 2022;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages must be performed by New York State licensed massage therapists;

# MINUTES

THAT the above conditions will appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT sound attenuation measures must be installed in the PCE as shown on the Board-approved plans;

THAT fire safety measures must be installed and/or maintained as shown on the Board-approved plans;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 28, 2012.

#### APPEARANCES –

For Applicant: Jordan Most.

**ACTION OF THE BOARD** – Application granted on condition.

#### THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5  
Negative:.....0

#### THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, an extension of the term of a previously granted variance for an automotive dealership with accessory repairs (Use Group 16B), and an extension of time to obtain a certificate of occupancy; and

WHEREAS, a public hearing was held on this application on July 12, 2011 after due notice by publication in *The City Record*, with continued hearings on August 23, 2011, September 27, 2011 and October 25, 2011, and then to decision on December 6, 2011; and

WHEREAS, Community Board 11, Queens, recommends approval of this application, with the following conditions: (1) the term of the grant be limited to five years; (2) the lessee submit a report to the Community Board every six months detailing their compliance with the conditions of the grant; (3) lighting be installed; (4) all cars awaiting service be parked on-site and all work be performed on-site; (5) the fencing be repaired and graffiti removed; (6) the landscaping be maintained; (7) “grass” slats be installed in the chain link fence; (8) after-hour tow trucks turn off engines and flashing lights when on the property; (9) the hours of operation remain as previously approved; and (10) workers on the site not be allowed to barbecue or play excessively loud music; and

WHEREAS, Queens Borough President Helen Marshall recommends approval of this application, with similar conditions as stipulated by the Community Board;

and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the site is located on the north side of the Northern Boulevard between 217<sup>th</sup> Street and 218<sup>th</sup> Street, partially within a C2-2 (R6B) zoning district, and partially within an R3X zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 24, 1962 when, under BSA Cal. No. 1875-61-BZ, the Board granted a variance to permit, in conjunction with the construction of a one-story and basement building for use as an authorized car agency, accessory auto repairs and the use of the open area for sales and service of new and used cars and the parking of more than five vehicles; and

WHEREAS, on November 4, 1987, under the subject calendar number, the Board granted a special permit pursuant to ZR § 11-412, to allow the expansion of the outdoor parking area of the automobile showroom and service facility, for a term of three years; and

WHEREAS, subsequently, the grant was amended and the term extended by the Board at various times; and

WHEREAS, most recently, on December 13, 2005, the Board granted a five-year extension of the term and an amendment to permit an increase from a maximum of 72 parking spaces to a maximum of 82 parking spaces on the site, which expired on November 4, 2010; and

WHEREAS, the applicant now seeks a ten-year extension of term, and an extension of time to obtain a certificate of occupancy; and

WHEREAS, pursuant to ZR § 11-411, the Board may permit an extension of term; and

WHEREAS, as to the conditions stipulated by the Community Board and the Queens Borough President, the applicant requests that the Board extend the term for a full ten years, and permit an extension of the hours of operation for the showroom portion of the site; and

WHEREAS, specifically, the applicant proposes to increase the hours of operation for the showroom to Monday through Friday, from 9:00 a.m. to 9:00 p.m., Saturday, from 9:00 a.m. to 6:00 p.m., and Sunday, from 9:00 a.m. to 5:00 p.m.; the hours of operation for the automotive service use would remain Monday through Thursday, from 8:00 a.m. to 7:00 p.m., Friday, from 8:00 a.m. to 6:00 p.m., Saturday, from 8:00 a.m. to 3:00 p.m., and closed on Sundays; and

WHEREAS, the applicant submitted a table reflecting the hours of operation for other automobile dealerships along Northern Boulevard, which reflects that the proposed extension of the hours of operation for the showroom is consistent with the hours for similar uses in the surrounding area; and

WHEREAS, the applicant agreed to comply with the remaining conditions proposed by the Community Board and the Borough President; and

WHEREAS, at the Board’s direction, the applicant submitted a contract with a fencing company for the removal

# MINUTES

and replacement of damaged fencing and cinder block walls on the site, and submitted photographs reflecting that said work has commenced on the site; and

WHEREAS, based upon the above, the Board finds that the requested extension of term and extension of time are appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated November 4, 1987, so that as amended this portion of the resolution shall read: “to extend the term for a period of ten years from November 4, 2010, to expire on November 4, 2020, and to grant a one-year extension of time to obtain a certificate of occupancy, to expire on December 6, 2012; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked “Received September 14, 2011”-(1) sheet; and *on further condition*:

THAT the term of the grant shall expire on November 4, 2020;

THAT the site shall be maintained free of debris and graffiti;

THAT lighting shall be installed in accordance with the BSA-approved plans;

THAT all cars awaiting service shall be parked on-site and all work shall be performed on-site;

THAT fencing and landscaping shall be maintained as indicated on the BSA-approved plans;

THAT tow trucks arriving after business hours shall turn off engines and flashing lights while on the site;

THAT the hours of operation for the showroom shall be Monday through Friday, from 9:00 a.m. to 9:00 p.m., Saturday, from 9:00 a.m. to 6:00 p.m., and Sunday, from 9:00 a.m. to 5:00 p.m.; and the hours of operation for the automotive service use shall be Monday through Thursday, from 8:00 a.m. to 7:00 p.m., Friday, from 8:00 a.m. to 6:00 p.m., Saturday, from 8:00 a.m. to 3:00 p.m., and closed on Sundays;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained by December 6, 2012;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (DOB Application No. 402140875)

Adopted by the Board of Standards and Appeals December 6, 2011.

**\*The resolution has been revised to add Approved Plans. Corrected in Bulletin Nos. 9-10, Vol. 97, dated March 8, 2012.**

## \*CORRECTION

This resolution adopted on October 25, 2011, under Calendar No. 230-10-BZ and printed in Volume 96, Bulletin No. 44, is hereby corrected to read as follows:

### 230-10-BZ

APPLICANT – Eric Palatnik, P.C., for Leonid Fishman, owner.

SUBJECT – Application December 17, 2010 – Special Permit (§73-622) for the enlargement of a single family home, contrary to open space, lot coverage and floor area (§23-141(b)) and perimeter wall height (§23-631(b)). R3-1 zoning district.

PREMISES AFFECTED – 177 Kensington Street, Oriental Boulevard and Kensington Street, Block 8754, Lot 78, Borough of Brooklyn.

### COMMUNITY BOARD #15BK

APPEARANCES –

For Applicant: Todd Dale.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated November 19, 2010, acting on Department of Buildings Application No. 320202721, reads:

“The proposed horizontal and vertical enlargement of the existing one family residence in an R3-1 zoning district:

1. Creates a new non-compliance with respect to lot coverage and is contrary to Section 23-141(b) of the Zoning Resolution (ZR).
2. Creates a new non-compliance with respect to floor area and is contrary to Section 23-141(b) ZR.
3. Creates a new non-compliance with respect to open space and is contrary to Section 23-141(b) ZR.
4. Creates a new non-compliance with respect to perimeter wall height and is contrary to Section 23-631(b) ZR;” and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03, to permit, within an R3-1 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area, lot coverage, open space, and perimeter wall height, contrary to ZR §§ 23-141 and 23-631; and

WHEREAS, a public hearing was held on this application on May 24, 2011, after due notice by publication in *The City Record*, with continued hearings on July 12, 2011, August 16, 2011 and September 27, 2011, and then to decision on October 25, 2011 and

WHEREAS, the premises and surrounding area had

---

# MINUTES

---

site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 15, Brooklyn, recommends disapproval of this application; and

WHEREAS, representatives of the Manhattan Beach Community Group provided written and oral testimony in opposition to this application; and

WHEREAS, certain members of the community provided written and oral testimony in opposition to this application; and

WHEREAS, collectively, the parties who submitted testimony in opposition to this application are the "Opposition;" and

WHEREAS, the Opposition raised the following primary concerns: (1) the proposed FAR, perimeter wall height, and front yard depth are out of context with the surrounding area; and (2) the proposed side yard balcony along the northern side of the home is not permitted; and

WHEREAS, the subject site is located on the east side of Kensington Street, between Shore Boulevard and Oriental Boulevard, within an R3-1 zoning district; and

WHEREAS, the subject site has a total lot area of 6,000 sq. ft., and is occupied by a single-family home with a floor area of 2,547 sq. ft. (0.42 FAR); and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 2,547 sq. ft. (0.42 FAR) to 5,760 sq. ft. (0.96 FAR); the maximum permitted floor area is 3,000 sq. ft. (0.50 FAR); and

WHEREAS, the applicant initially proposed to increase the floor area to 6,114 sq. ft. (1.02 FAR); and

WHEREAS, in response to concerns raised by the Board and the Opposition, the applicant provided an interim proposal which reduced the proposed floor area to 5,974 sq. ft. (1.0 FAR); at the Board's direction the applicant further reduced the floor area to the current proposal of 5,760 sq. ft. (0.96 FAR); and

WHEREAS, the applicant proposes to provide a lot coverage of 46 percent (35 percent is the maximum permitted); and

WHEREAS, the applicant proposes to provide 3,234 sq. ft. of open space (3,900 sq. ft. of open space is the minimum required); and

WHEREAS, the applicant proposes to provide a perimeter wall height of 22'-1" (a maximum perimeter wall height of 21'-0" is permitted); and

WHEREAS, the Board notes that the special permit under ZR § 73-622 allows a perimeter wall height to exceed the permitted height in an R3-1 zoning district, provided that the perimeter wall height is equal to or less than the perimeter wall height of an adjacent single- or two-family detached or semi-detached residence with an existing non-complying perimeter wall facing the street; and

WHEREAS, in support of the requested waiver for perimeter wall height, the applicant provided a

streetscape and a survey establishing that the adjacent home to the north, 173 Kensington Street, has a perimeter wall height of 23'-8"; and

WHEREAS, therefore, the applicant represents that the perimeter wall of the proposed home matches the existing non-complying perimeter wall height of the adjacent home and falls within the scope of the special permit; and

WHEREAS, the Board has determined that the applicant has submitted sufficient information to establish that the proposed home may match the pre-existing perimeter wall height of the adjacent home, which exceeds 21'-0"; and

WHEREAS, the Opposition contends that the proposed home is out of context with the surrounding neighborhood because the FAR is excessive; and

WHEREAS, as noted above, the applicant originally proposed a home with a floor area of 6,114 sq. ft. (1.02 FAR), but revised its plans to reflect the current floor area of 5,760 sq. ft. (0.96 FAR) in response to concerns raised by the Board and the Opposition; and

WHEREAS, the applicant submitted a survey of homes within a 400-ft. radius of the site, which indicates that there are at least ten homes within the surrounding area with FARs that exceed the proposed 0.96 FAR; and

WHEREAS, the applicant also submitted a survey of homes within an expanded study area bounded by Oriental Boulevard to the south, Falmouth Street to the west, Hampton Avenue/Shore Boulevard to the north and Pembroke Street to the east, which reflected that 57 homes within the study area have FARs which exceed 0.95 FAR, and 21 homes within the study area have floor areas which exceed 5,000 sq. ft.; and

WHEREAS, the Opposition contends that the methodology of the applicant's FAR study is flawed because it relies on the Primary Land Use Tax Lot Output ("PLUTO") for its FAR data, and there are inaccuracies in the PLUTO database; and

WHEREAS, the Board recognizes that the PLUTO data may have errors, however, it finds that the database can still be relied on to provide a general sense of the FARs in the surrounding neighborhood; and

WHEREAS, the Board notes that the PLUTO database is maintained by the Department of City Planning, and is relied upon for various land use studies; and

WHEREAS, the Opposition contends that the proposed front yard with a depth of 15'-0" is out of context with the surrounding area, which predominantly provides front yards with depths of at least 18'-0", and that the shallower front yard will block light and air to adjacent homes; and

WHEREAS, the Board notes that the proposed front yard depth of 15'-0" is in compliance with the underlying R3-1 zoning district regulations, and is therefore permitted as-of-right; and

WHEREAS, the Opposition also raised concerns about the proposed balcony along the northern side of the home; and

WHEREAS, in response, the applicant revised its

---

# MINUTES

---

plans to reflect the removal of the subject balcony; and

WHEREAS, at hearing, the Board questioned how much of the existing home is being retained; and

WHEREAS, in response, the applicant submitted revised plans which indicate that portions of the existing cellar, first floor, and second floor walls, and portions of the floor joists at the first floor and second floor will remain; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03.

*Therefore it is resolved,* that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622 and 73-03, to permit, within an R3-1 zoning district, the enlargement of a single-family home, which does not comply with the zoning requirements for floor area, lot coverage, open space, and perimeter wall height, contrary to ZR §§ 23-141 and 23-631; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received October 12, 2011"-(13) sheets and "October 19, 2011"-(1) sheet; and *on further condition:*

THAT the following shall be the bulk parameters of the building: a maximum floor area of 5,760 sq. ft. (0.96 FAR); a maximum lot coverage of 46 percent; a minimum of 3,234 sq. ft. of open space; and a maximum perimeter wall height of 22'-8", as illustrated on the BSA-approved plans;

THAT no balconies shall be permitted along the north side of the home;

THAT DOB shall review and approve compliance with the planting requirements under ZR § 23-451;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure

compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 25, 2011.

**\*The resolution has been revised to correct the sq. ft. in the 17<sup>th</sup> WHEREAS which read: "4,466 sq. ft." now reads: "3,900 sq. ft.", and to amend the clause, in the 1<sup>st</sup> condition which read in part..: "42 percent..." now reads: "46 percent...". Corrected in Bulletin Nos. 9-10, Vol. 97, dated March 8, 2012.**

# MINUTES

**REGULAR MEETING  
TUESDAY MORNING, MARCH 6, 2012  
10:00 A.M.**

Present: Chair Srinivasan, Vice-Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez.

**SPECIAL ORDER CALENDAR**

**352-69-BZ**

APPLICANT – Sheldon Lobel, P.C., for Dr. Alan Burns, owner.

SUBJECT – Application September 29, 2011 – Extension of Term (§72-21) of a Variance for the continued operation of a UG16 animal hospital (*Brooklyn Veterinary Hospital*) which expired on September 30, 1999; Waiver of the Rules. R6B zoning district.

PREMISES AFFECTED – 411 Vanderbilt Avenue, east side of Vanderbilt Avenue between Greene and Gates Avenue, Block 1960, Lot 28, Borough of Brooklyn.

**COMMUNITY BOARD #2BK**

APPEARANCES –

For Applicant: Jordan Most.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5  
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening, a waiver, and an extension of term for the continued use of the site as an animal hospital (Use Group 16), which expired on September 30, 1999; and

WHEREAS, a public hearing was held on this application on January 10, 2012, after due notice by publication in *The City Record*, with a continued hearing February 7, 2012, and then to decision on March 6, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Brooklyn, recommends approval of this application; and

WHEREAS, the site is located on the east side of Vanderbilt Avenue between Greene Avenue and Gates Avenue, within an R6B zoning district; and

WHEREAS, the site has 55 feet of frontage on Vanderbilt Avenue, a depth of 70 feet, and a total lot area of 3,861 sq. ft.; and

WHEREAS, the site is occupied by a two-story building with an animal hospital (Use Group 16) at the first floor and residential use above; and

WHEREAS, the Board has exercised jurisdiction over the subject site since September 30, 1969 when, under the subject calendar number, the Board granted a variance to permit the change in occupancy of an existing one-story building from a machine shop and electrical repair shop to an animal hospital, for a term of ten years; and

WHEREAS, subsequently, the grant has been amended and the term extended by the Board at various times; and

WHEREAS, most recently, on June 12, 1990, the Board granted an amendment to legalize changes to the interior design and layout and the construction of an open storage shed in the rear yard, and an extension of term for ten years from the expiration of the prior grant, to expire on September 30, 1999; and

WHEREAS, the applicant now requests an additional ten-year extension of term; and

WHEREAS, at hearing, the Board directed the applicant to provide evidence in support of its representation that the subject animal hospital has been operating continuously on the site since the Board's last extension of term grant in 1990; and

WHEREAS, in response, the applicant submitted (1) an affidavit from the owner stating that he has worked at or owned the site since 1995 and the animal hospital use has operated continuously since that time; (2) W-2 forms for tax years 1995 and 1996 reflecting the current owner was employed by the animal hospital during those years; (3) copies of deeds reflecting the transfer in interest to the current owner of the site; and (4) an affidavit stating that the applicant researched the business telephone numbers maintained at the subject site from 1990 to the present and that The Cole's Cross Reference Directory showed that the animal hospital maintained an operating phone line at the site since 1990; and (5) photographs of the relevant pages from the Cole's directory; and

WHEREAS, the Board finds that the evidence submitted by the applicant is sufficient to establish that the animal hospital has operated continuously at the site since the Board's last extension of term grant in 1990; and

WHEREAS, the Board also raised questions regarding the use of the kennels at the rear of the site and whether overnight care for animals is provided at the site, which may result in noise during the overnight hours; and

WHEREAS, in response, the applicant states that the kennels at the rear of the site are only used temporarily when cleaning the interior of the site; and

WHEREAS, the applicant further states that typically animals that require overnight treatment are transferred to a separate facility, and animals are only kept at the site overnight if their status is critical and transfer to another facility could jeopardize their health, which only occurs once every four to six weeks; and

WHEREAS, the applicant further states that when overnight treatment is required at the site, the animals are monitored by one of the animal hospital's veterinary technicians, who resides in one of the upstairs apartments; and

# MINUTES

WHEREAS, since animals are rarely kept for overnight treatment at the site, the applicant states that the noise during the overnight hours has not been an issue; and

WHEREAS, based upon the above, the Board finds that the requested ten-year extension of term is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated September 30, 1969, so that as amended this portion of the resolution shall read: “to extend the term for ten years from the date of the grant, to expire on March 6, 2022; *on condition* that all use and operations shall substantially conform to plans filed with this application marked Received ‘September 29, 2011’-(4) sheets; and *on further condition*:

THAT the term of the grant will expire on March 6, 2022;

THAT the above condition will be reflected on the certificate of occupancy;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (Alt. 632-69)

Adopted by the Board of Standards and Appeals March 6, 2012.

-----

## 548-79-BZ

APPLICANT – Bryan Cave LLP, for 249 West 29 Owners Corp.

SUBJECT – Application December 2, 2011 – Amendment of a previously approved variance (§72-21) which permitted residential use (UG2) on floors 3 through 15. Application seeks to legalize residential use on the 2nd floor, contrary to use regulations §42-481. M1-6D zoning district.

PREMISES AFFECTED – 247-251 West 29<sup>th</sup> Street, north side of West 29<sup>th</sup> Street, 170’ east of 8<sup>th</sup> Avenue, Block 779, Lot 10, 12, Borough of Manhattan.

## COMMUNITY BOARD #5M

### APPEARANCES –

For Applicant: Margery Perlmutter.

**ACTION OF THE BOARD** – Application granted on condition.

### THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

### THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment to a previously granted variance which permitted

the conversion of all floors above the second floor of a 15-story commercial and manufacturing building to residential use, contrary to ZR § 42-00; and

WHEREAS, a public hearing was held on this application on February 14, 2012, after due notice by publication in *The City Record*, and then to decision on March 6, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 5, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the north side of West 29<sup>th</sup> Street between Seventh Avenue and Eighth Avenue, within an M1-6D zoning district; and

WHEREAS, the applicant notes that the site was formerly located within an M1-5 zoning district, but on September 21, 2011, the City Council rezoned the site to M1-6D; and

WHEREAS, the site has 75 feet of frontage on West 29<sup>th</sup> Street, a depth of 100 feet, and a lot area of 7,500 sq. ft.; and

WHEREAS, the site is occupied by a 50-ft. wide 15-story building at 249 West 29<sup>th</sup> Street (the “249 Building”) and an adjoining 25-ft. wide, two-story building at 247 West 29<sup>th</sup> Street (the “247 Building”) (together, the “Building”); and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 15, 1980 when, under the subject calendar number, the Board granted a variance pursuant to ZR § 72-21, which permitted the conversion of all floors above the second floor of the commercial and manufacturing building to residential use, contrary to ZR § 42-00; and

WHEREAS, subsequently, the grant was amended on several occasions to permit changes in the number of dwelling units on certain floors, changes to the interior layout of the Building, and the addition of a greenhouse on the exterior balcony of the tenth floor; and

WHEREAS, the applicant now seeks to amend the grant to permit the further conversion of the three commercial units on the second floor to residential use; and

WHEREAS, the applicant states that the original variance requested conversion of the second floor of the Building, which at the time was occupied by an active conforming use, to residential as well, however the Board excluded the second floor from the variance approval; and

WHEREAS, the applicant states that in the years since the variance was granted, the owners of the three units on the second floor have had difficulty finding long-term replacement tenants, and all of the commercial spaces on the second floor are now occupied as live-work spaces; and

WHEREAS, the applicant represents that converting the second floor to residential use is necessary to provide a reasonable return because the owners are unlikely to find commercial tenants for the second floor units for the following reasons: (1) the floor plates and size of the units at the second floor are too small to be attractive to many manufacturing or commercial uses; (2) the layout of the second floor imposes hardships on the suitability and marketability of that floor for

---

# MINUTES

---

conforming uses; and (3) there is only one lobby and elevator for both the residential and commercial tenants, which creates access, egress, and security issues; and

WHEREAS, as to the physical structure of the Building, the applicant states that the Building has small floor plates with units containing less than 2,100 sq. ft. each, and are too small to accommodate the types of commercial and manufacturing uses that operate in the surrounding area; and

WHEREAS, the Board notes that the unique building conditions, which support the findings for the original variance for the third through 15<sup>th</sup> floors, namely that those floors were not viable for a conforming use due to the building's inadequate floor plates, there was a lack of interest in such spaces for commercial use, and the decline of the manufacturing sector in the area that led to extensive vacancies, also apply to the second floor; and

WHEREAS, as to the layout of the second floor, the applicant notes that the second floor of the 249 Building is 50 feet wide and approximately 88 feet deep (4,400 sq. ft.), and is occupied by two of the second floor units, while the second floor of the 247 Building is 25 feet wide and approximately 88 feet deep (2,210 sq. ft.), and is occupied by one of the second floor units; and

WHEREAS, the applicant states that for structural reasons there is a four-ft. wide penetration through the party wall that connects the 249 Building and the 247 Building, which separates the first and second floors of the Building into two parts; and

WHEREAS, the applicant further states that the opening in the party wall to allow access between the 247 Building and the 249 Building is limited by structural considerations, so it is not possible to treat the two portions as a single contiguous 6,610 sq. ft. space, which would be more marketable for conforming uses; and

WHEREAS, the applicant states that the elevator and stair cores, which occupy approximately 1,120 sq. ft., are located in the 249 Building and are the only means of access to the unit in the 247 Building; and

WHEREAS, the applicant represents that installing separate stairs and an elevator in the 247 Building solely to access one unit would be cost prohibitive and would significantly reduce the size of the retail space on the first floor, further reducing the Building's revenue; and

WHEREAS, as to the access issues, the applicant states that there is only one passenger elevator, while the freight elevator is manually operated and there is no full-time elevator operator on staff because it is cost prohibitive; and

WHEREAS, the applicant states that because visitors and employees of the commercial tenants at the second floor cannot use the manual freight elevator and there is no full-time elevator operator, commercial and residential tenants must share a common lobby and elevator, which results in an inappropriate mixing of public and private occupancies that poses a significant security risk to residential tenants; and

WHEREAS, the applicant represents that modification of the existing service corridor to provide separate, 36-inch wide clear access into the building by commercial tenants and their guests would require redirecting service risers and flues, re-

purposing a portion of the existing disused elevator shaft into a lobby area in order to be ADA-accessible, and converting the existing freight elevator from manual to automatic which would cost in excess of \$415,000; and

WHEREAS, as noted above, the subject site was rezoned from an M1-5 zoning district to an M1-6D zoning district on September 21, 2011; and

WHEREAS, the applicant states that in M1-6D zoning districts, ZR § 42-481 permits residential use in existing buildings where the building to be converted contains less than 40,000 sq. ft. of floor area; and

WHEREAS, however, the applicant notes that the Building contains approximately 62,500 sq. ft. of floor area and therefore is not eligible for as-of-right residential conversion pursuant to ZR § 42-481; and

WHEREAS, the applicant represents that the recent rezoning of the site to M1-6D reflects that residential uses are consistent with the surrounding neighborhood, which is characterized by a mix of manufacturing, commercial and residential uses; and

WHEREAS, pursuant to ZR §§ 72-01 and 72-22, the Board may permit an amendment to an existing variance; and

WHEREAS, based upon its review of the evidence, the Board finds that the requested amendment is appropriate, with certain conditions set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated January 15, 1980, so that as amended this portion of the resolution shall read: "to permit the noted modification to the plans to reflect the conversion of the second floor to residential use, contrary to ZR § 42-481; *on condition* that all work shall substantially conform to drawings filed with this application and marked "Received December 2, 2011"- (4) sheets; and *on further condition*:

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

(DOB Application No. 120883491)

Adopted by the Board of Standards and Appeals, March 6, 2012.

**THE RESOLUTION** –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated August 25, 2011, acting on Department of Buildings Application No. 320292811, reads in pertinent part:

- ZR 23-141(b) Proposed floor area exceeds permitted
- ZR 23-141(b) Proposed lot coverage exceeds permitted
- ZR 23-141 Proposed open space is less than required
- ZR 23-47 Proposed rear yard is less than

required

ZR 23-461 Proposed side yard is less than required; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03, to permit, in an R4 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area, open space, lot coverage, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461 and 23-47; and

WHEREAS, a public hearing was held on this application on October 18, 2011, after due notice by publication in *The City Record*, with continued hearings on November 22, 2011, January 10, 2012 and February 7, 2012, and then to decision on March 6, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of East 2<sup>nd</sup> Street, between Avenue W and Gravesend Neck Road, within an R4 zoning district; and

WHEREAS, the subject site has a total lot area of 4,000 sq. ft., and is occupied by a single-family home with a floor area of 2,970 sq. ft. (0.74 FAR); and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 2,970 sq. ft. (0.74 FAR) to 4,969 sq. ft. (1.24 FAR); the maximum permitted floor area is 3,000 sq. ft. (0.75 FAR); and

WHEREAS, the applicant proposes to provide an open space of 51 percent (55 percent is the minimum required); and

WHEREAS, the applicant proposes to provide lot coverage of 49 percent (45 percent is the maximum permitted); and

WHEREAS, the applicant proposes to maintain the existing side yard along the northern lot line with a width of 3’-1¼” (a minimum width of 5’-0” is required for each side yard) and to provide a side yard with a width of 8’-0” along the southern lot line; and

WHEREAS, the proposed enlargement will provide a rear yard with a depth of 20’-0” (a minimum rear yard depth of 30’-0” is required); and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, and will not impair the future use or development of the surrounding area; and

WHEREAS, the Board notes that the applicant’s original proposal stated that the proposed home had a floor area of 4,545 sq. ft. (1.15 FAR); and

WHEREAS, the applicant states that, in response to concerns raised by the Board during the hearing process, the applicant discovered that one of the proposed dormers encroached into the sky exposure plane, requiring a redesign of

---

# MINUTES

---

the attic and roof to ensure compliance; and

WHEREAS, the applicant represents that, after redesigning the attic floor plan the architect recalculated the floor area for the home and included certain walled-off areas of the attic not previously counted in the zoning calculations, pursuant to recent DOB policies regarding calculation of attic floor area, which resulted in a change in the floor area from 4,545 sq. ft. (1.15 FAR) to 4,969 sq. ft. (1.24 FAR); and

WHEREAS, the applicant states that, although the floor area is higher than what was originally proposed, the overall envelope of the home has actually been reduced, and is smaller than that approved by the Community Board; and

WHEREAS, the applicant performed a survey which reflected that there are 20 homes out of 657 homes within a 1,000-ft. radius of the site that have a floor area in excess of the proposed 4,969 sq. ft.; and

WHEREAS, the applicant states that three other homes on the subject block were enlarged pursuant to the special permit under ZR § 73-622, and that the subject homes had FARs of 1.22, 1.32 and 1.34, respectively, and therefore the proposed FAR of 1.24 is consistent with the nature of residential development in the surrounding area; and

WHEREAS, the applicant notes that a block like the subject block entirely within an R4 zoning district may be eligible for the predominantly built-up regulations, which include an increased floor area of 1.35 FAR as-of-right, but because the existing front yard of 9'-4¾" does not satisfy the minimum depth of 18'-0", the predominantly built-up area regulations cannot be applied to the subject site, thus the floor area request is required; and

WHEREAS, during the course of the hearing process, the Board directed the applicant to clarify whether the lowest floor is properly classified as a cellar or a basement; and

WHEREAS, in response, the applicant submitted revised plans reflecting that the lowest floor fits the definition of a cellar and is therefore excluded from floor area calculations; and

WHEREAS, at the Board's direction the applicant also submitted revised plans that clearly depict which portions of the home are being retained, and note that the proposed parking spaces are subject to Department of Buildings ("DOB") approval; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to

be made under ZR §§ 73-622 and 73-03.

*Therefore it is resolved,* that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, within an R4 zoning district, the enlargement of a single-family home, which does not comply with the zoning requirements for floor area, open space, lot coverage, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461 and 23-47; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received January 27, 2012"-(14) sheets; and *on further condition:*

THAT the following shall be the bulk parameters of the building: a maximum floor area of 4,969 sq. ft. (1.24 FAR); lot coverage of 49 percent; an open space of 51 percent; a front yard with a minimum depth of 9'-4¾"; a side yard with a minimum width of 3'-1¼" along the northern lot line; a side yard with a minimum width of 8'-0" along the southern lot line; and a rear yard with a minimum depth of 20'-0", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 6, 2012.

## THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins,  
Commissioner Ottley-Brown, Commissioner Hinkson and  
Commissioner Montanez .....5  
Negative:.....0

## THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough  
Commissioner, dated April 26, 2011, acting on Department  
of Buildings Application No. 320297541, reads in pertinent  
part:

The proposed horizontal and vertical enlargement  
of the existing one family residence in an R3-1  
zoning district:

1. Creates a new non-compliance with respect to  
lot coverage and is contrary to Section 23-  
141(b) of the Zoning Resolution (ZR).
2. Creates a new non-compliance with respect to  
floor area and is contrary to Section 23-141(b)  
ZR.
3. Creates a new non-compliance with respect to  
open space and is contrary to Section 23-  
141(b) ZR; and

WHEREAS, this is an application under ZR §§ 73-622  
and 73-03, to permit, in an R3-1 zoning district, the  
proposed enlargement of a single-family home, which does  
not comply with the zoning requirements for floor area,  
open space, and lot coverage, contrary to ZR § 23-141; and

WHEREAS, a public hearing was held on this  
application on January 10, 2012, after due notice by  
publication in *The City Record*, with a continued hearing on  
February 14, 2012, and then to decision on March 6, 2012;  
and

WHEREAS, the premises and surrounding area had  
site and neighborhood examinations by Chair Srinivasan,  
Commissioner Montanez, and Commissioner Ottley-Brown;  
and

WHEREAS, Community Board 15, Brooklyn,  
recommends approval of this application; and

WHEREAS, the Manhattan Beach Community Group  
provided testimony in opposition to the proposal, citing  
concerns about (1) neighborhood character, (2) the accuracy  
of the data used to establish neighborhood context, (3)  
whether the lowest level is a basement, or a cellar, and (4)  
whether the architectural plans are complete; and

WHEREAS, the subject site is located on the east side  
of Exeter Street, between Hampton Street and Oriental  
Boulevard, within an R3-1 zoning district; and

WHEREAS, the subject site has a total lot area of  
5,824 sq. ft., and is occupied by a single-family home with a  
floor area of 2,087 sq. ft. (0.36 FAR); and

WHEREAS, the premises is within the boundaries of a  
designated area in which the subject special permit is  
available; and

WHEREAS, the applicant seeks an increase in the  
floor area from 2,087 sq. ft. (0.36 FAR) to 5,373 sq. ft. (0.92  
FAR); the maximum permitted floor area is 3,494 sq. ft.  
(0.60 FAR); and

WHEREAS, the applicant proposes to provide an open

space of 3,656 sq. ft. (the minimum required open space is  
3,786 sq. ft.); and

WHEREAS, the applicant proposes to provide lot  
coverage of 37 percent (35 percent is the maximum  
permitted); and

WHEREAS, the applicant proposes complying side  
yards with widths of 8'-9 ½" and 5'-0" and to provide a  
complying rear yard with a depth of 30'-6"; and

WHEREAS, the applicant represents that the proposed  
building will not alter the essential character of the  
neighborhood, and will not impair the future use or  
development of the surrounding area; and

WHEREAS, at hearing, the Board directed the applicant  
to (1) provide an FAR analysis of homes in the surrounding  
area and (2) provide a survey which reflects the height of the  
home's floors; and

WHEREAS, in response, the applicant provided an FAR  
analysis which includes photographs of and bulk conditions for  
larger homes within a 400-ft. radius of the site; and

WHEREAS, as to the accuracy of the data, the applicant  
states that it cross-referenced the PLUTO data against DOB  
filings to identify any conflicting information; and

WHEREAS, the study reflects that there are 25 homes  
within a 400-ft. radius of the site with FAR that exceeds zoning  
district regulations, five homes with floor area between 4,000  
to 5,000 sq. ft., and four homes with floor area greater than  
5,000 sq. ft.; and

WHEREAS, the applicant notes that the Manhattan  
Beach Community Group's suggested methodology of  
establishing FAR - taking building dimensions supplied by the  
Department of Finance (DOF) and multiplying it by the  
number of floors – has the same flaws as taking the actual floor  
area supplied by the DOF, since the DOF is the source for both  
data sets; and

WHEREAS, accordingly, the applicant asserts that by  
cross-referencing with DOB filings, it has reduced the amount  
of acknowledged inaccuracies in the data, which are similarly  
present in Manhattan Beach's examples; and

WHEREAS, the Board notes that the data sources may  
contain flaws, but finds that the applicant's analysis, which  
includes photographs of the study homes and cross-referencing  
DOB filings, satisfies its request to provide information about  
the FAR of homes in the area and notes that there are flaws  
with the Manhattan Beach Community Group's alternative  
data; and

WHEREAS, the Board notes that the proposal includes  
all of the required yards and complies with all other bulk  
regulations other than minimal non-compliance with lot  
coverage and open space; and

WHEREAS, the Board also notes that it has made visits  
to the subject site and to the surrounding area to observe the  
built conditions and neighborhood character; and

WHEREAS, the applicant provided a survey, which  
reflects that more than half of the height of the lowest level is  
below grade and thus it is a cellar, rather than a basement, for  
zoning purposes; and

WHEREAS, the Board has reviewed the survey but notes  
that DOB will review the entire building, including the lowest

# MINUTES

level, to verify floor area calculations; and

WHEREAS, the Board notes that if DOB determines that the lowest level is a basement and, thus, contributes to the building's floor area, the proposal will not comply with the 5,373 sq. ft. (0.92 FAR) reflected on the plans and will need to be revised; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03.

*Therefore it is resolved*, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, in an R3-1 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area, open space, and lot coverage, contrary to ZR § 23-141; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received November 30, 2011"-(14) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area of 5,373 sq. ft. (0.92 FAR); a minimum open space of 3,656 sq. ft., and a maximum lot coverage of 37 percent, as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 6, 2012.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated August 16, 2011, acting on Department of Buildings Application No. 320329881, reads in pertinent part:

1. Proposed plans are contrary to ZR 23-141 in that the proposed floor area ratio exceeds the maximum permitted;
2. Proposed plans are contrary to ZR 23-141 in that the proposed open space ratio is less than the minimum required.
3. Proposed plans are contrary to ZR 23-461 in that the proposed side yards are less than the minimum required.
4. Proposed plans are contrary to ZR 23-47 in that the proposed rear yard is less than the minimum required; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03, to permit, in an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area, open space, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461 and 23-47; and

WHEREAS, a public hearing was held on this application on January 10, 2012, after due notice by publication in *The City Record*, with continued hearings on January 31, 2012 and February 14, 2012, and then to decision on March 6, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of Bedford Avenue, between Avenue N and Avenue O,

-----

---

# MINUTES

---

within an R2 zoning district; and

WHEREAS, the subject site has a total lot area of 4,000 sq. ft., and is occupied by a single-family home with a floor area of 3,466.43 sq. ft. (0.87 FAR); and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 3,466.43 sq. ft. (0.87 FAR) to 4,163.28 sq. ft. (1.04 FAR); the maximum permitted floor area is 2,000 sq. ft. (0.50 FAR); and

WHEREAS, the applicant proposes to provide an open space ratio of 50.66 percent (150 percent is the minimum required); and

WHEREAS, the applicant proposes to maintain the existing side yard along the northern lot line with a width of 3'-0" (a minimum width of 5'-0" is required for each side yard) and to provide a side yard with a width of 8'-0" along the southern lot line; and

WHEREAS, the proposed enlargement will maintain the portion of the rear yard with an existing depth of 17'-11" and provide a rear yard with a depth of 23'-8" for the new portion of the building (a minimum rear yard depth of 30'-0" is required); and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, and will not impair the future use or development of the surrounding area; and

WHEREAS, at hearing, the Board directed the applicant to review the covered terrace to confirm that it does not contribute to floor area and to review the front dormer for compliance with the parameters of the building envelope; and

WHEREAS, in response, the applicant provided revised plans which note that the terraces are subject to DOB approval and reduced the width of the front dormer; and

WHEREAS, the applicant submitted a study of FARs in the area which reflects that there are 11 homes on adjacent blocks between Avenue N and Avenue O with FAR in excess of 1.0 and concludes that the proposed FAR is compatible with the neighborhood character; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6

N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, within an R2 zoning district, the enlargement of a single-family home, which does not comply with the zoning requirements for floor area, open space, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461 and 23-47; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received January 19, 2012"-(12) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area of 4,163.28 sq. ft. (1.04 FAR); an open space ratio of 50.66 percent; a side yard with a minimum width of 3'-0" along the northern lot line; a side yard with a minimum width of 8'-0" along the southern lot line; and a rear yard with minimum depths ranging from 17'-11" to 23'-8", as illustrated on the BSA-approved plans;

THAT DOB shall review and approve all balconies and terraces;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 6, 2012.

## THE RESOLUTION –

WHEREAS, the decision of the Queens Borough  
Commissioner, dated September 12, 2011, acting on  
Department of Buildings Application No. 420480125, reads  
in pertinent part:

Proposed physical culture establishment is not  
permitted as of right and requires a special permit  
from the NYC BSA pursuant to ZR Section 73-  
36; and

WHEREAS, this is an application under ZR §§ 73-36  
and 73-03, to permit, on a site located within a C4-1 (R5)  
zoning district, the operation of a physical culture  
establishment (PCE) on a portion of the first floor and cellar  
of a one-story commercial building, contrary to ZR § 32-10;  
and

WHEREAS, a public hearing was held on this  
application on January 24, 2012, after due notice by  
publication in *The City Record*, with a continued hearing on  
February 14, 2012 and then to decision on March 6, 2012;  
and

WHEREAS, the premises and surrounding area had  
site and neighborhood examinations by Chair Srinivasan,  
Commissioner Hinkson, and Commissioner Montanez; and

WHEREAS, Community Board 7, Queens,  
recommends approval of this application; and

WHEREAS, the subject site is located on the corner of  
26<sup>th</sup> Avenue and Bell Boulevard, within a C4-1 (R5) zoning  
district; and

WHEREAS, the subject site has a total lot area of  
604,500 sq. ft. and is occupied by the Bay Terrace shopping  
center; and

WHEREAS, the applicant states that the shopping  
center comprises multiple buildings on the subject site and  
that the proposed PCE will occupy a single storefront in a  
one-story multi-storefront commercial building located  
along 26<sup>th</sup> Avenue; and

WHEREAS, the proposed PCE will occupy 1,609 sq. ft.  
of floor area on the first floor, with an additional 460 sq. ft. of  
floor space located in the cellar; and

WHEREAS, the PCE will be operated as High  
Performance Taekwondo Studio; and

WHEREAS, the proposed hours of operation for the  
PCE are: Monday through Saturday, from 1:00 p.m. to 9:00  
p.m.; and closed on Sunday; and

WHEREAS, the applicant represents that the services  
at the PCE include facilities for instruction and programs for  
physical improvement; and

WHEREAS, the Board finds that this action will  
neither 1) alter the essential character of the surrounding  
neighborhood; 2) impair the use or development of adjacent  
properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has  
performed a background check on the corporate owner and  
operator of the establishment and the principals thereof, and  
issued a report which the Board has determined to be

satisfactory; and

WHEREAS, the PCE will not interfere with any  
pending public improvement project; and

WHEREAS, the Board finds that, under the conditions  
and safeguards imposed, any hazard or disadvantage to the  
community at large due to the proposed special permit use is  
outweighed by the advantages to be derived by the  
community; and

WHEREAS, therefore, the Board has determined that  
the evidence in the record supports the requisite findings  
pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted  
action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental  
review of the proposed action and has documented relevant  
information about the project in the Final Environmental  
Assessment Statement, CEQR No. 12BSA031Q, dated  
October 3, 2011; and

WHEREAS, the EAS documents that the operation of  
the PCE would not have significant adverse impacts on Land  
Use, Zoning, and Public Policy; Socioeconomic Conditions;  
Community Facilities and Services; Open Space; Shadows;  
Historic Resources; Urban Design and Visual Resources;  
Neighborhood Character; Natural Resources; Hazardous  
Materials; Waterfront Revitalization Program; Infrastructure;  
Solid Waste and Sanitation Services; Energy; Traffic and  
Parking; Transit and Pedestrians; Air Quality; Noise;  
Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the  
environment that would require an Environmental Impact  
Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed  
action will not have a significant adverse impact on the  
environment.

*Therefore it is Resolved* that the Board of Standards and  
Appeals issues a Negative Declaration prepared in accordance  
with Article 8 of the New York State Environmental  
Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the  
Rules of Procedure for City Environmental Quality Review  
and Executive Order No. 91 of 1977, as amended, and makes  
each and every one of the required findings under ZR §§ 73-36  
and 73-03, to permit, on a site located within a C4-1 (R5)  
zoning district, the operation of a physical culture  
establishment on a portion of the first floor and cellar of a  
one-story commercial building, contrary to ZR § 32-10; *on  
condition* that all work shall substantially conform to  
drawings filed with this application marked “Received  
December 13, 2011- (5) sheets; and *on further condition*:

THAT the term of this grant shall expire on March 6,  
2022;

THAT there shall be no change in ownership or  
operating control of the physical culture establishment  
without prior application to and approval from the Board;

THAT all massages shall be performed by New York  
State licensed massage therapists;

THAT the above conditions shall appear on the  
Certificate of Occupancy;

THAT fire safety measures shall be installed and/or

**THE RESOLUTION** –

WHEREAS, the decision of the Queens Borough Commissioner, dated January 27, 2012, acting on Department of Buildings Application No. 420497439, reads in pertinent part:

The subject property to be used as a physical culture establishment is contrary to Section ZR 42-10 and requires a special permit from the NYC BSA pursuant to Section 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located within an M1-1 zoning district, the operation of a physical culture establishment (PCE) on a portion of the first floor of a one-story warehouse building, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on January 31, 2012, after due notice by publication in *The City Record*, with a continued hearing on February 14, 2012, and then to decision on March 6, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 5, Queens, recommends approval of this application, with the following conditions: (1) the sidewalk along Otto Road be repaired; and (2) a grass strip be planted along the curbline, adjacent to the street trees; and

WHEREAS, the subject site is located on the north side of Otto Road, between 66<sup>th</sup> Street and 66<sup>th</sup> Place, within an M1-1 zoning district; and

WHEREAS, the subject site has a total lot area of 130,150 sq. ft. and is occupied by a one-story warehouse building; and

WHEREAS, the proposed PCE will occupy 21,109 sq. ft. of floor area on a portion of the first floor and mezzanine of the one-story warehouse building located on the site; and

WHEREAS, the PCE will be operated as Retro Fitness; and

WHEREAS, the proposed hours of operation for the PCE are 6:00 a.m. to 12:00 a.m., daily; and

WHEREAS, the applicant represents that the services at the PCE include facilities for instruction and programs for physical improvement; and

WHEREAS, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, in response to concerns raised by the Board, the applicant submitted plans clarifying that pedestrian access to the site will be achieved through a striped pedestrian way leading from the entrance to the site on Otto Street to the entrance to the PCE at the south side of the building; and

WHEREAS, in response to the issues raised by the Community Board, the applicant states that it will repair the sidewalk along Otto Road during its renovation of the building for PCE use; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant

# MINUTES

information about the project in the Final Environmental Assessment Statement, CEQR No. 12BSA043Q, dated October 13, 2011; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved* that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site located within an M1-1 zoning district, the operation of a physical culture establishment on a portion of the first floor and mezzanine of a one-story warehouse building, contrary to ZR § 42-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received November 30, 2011" - (3) sheets and "Received February 22, 2012" - (1) sheet and *on further condition*:

THAT the term of this grant will expire on March 6, 2022;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages must be performed by New York State licensed massage therapists;

THAT the sidewalk along Otto Road will be repaired;

THAT the site will be maintained free of debris and graffiti;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT substantial construction will be completed in accordance with ZR §73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the

Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated November 4, 2011, acting on Department of Buildings Application No. 320350758, reads in pertinent part:

- Proposed plans are contrary to ZR 23-141 in that the proposed building exceeds the maximum permitted floor area ratio of .50.
- Proposed plans are contrary to ZR 23-141 in that the proposed open space ratio is less than the minimum required open space of 150.
- Proposed plans are contrary to ZR 23-47 in that the proposed rear yard is less than the minimum required rear yard of 30 feet; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03, to permit, in an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio, open space, and rear yard, contrary to ZR §§ 23-141 and 23-47; and

WHEREAS, a public hearing was held on this application on February 14, 2012, after due notice by publication in *The City Record*, and then to decision on March 6, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 14, Brooklyn,

# MINUTES

recommends approval of this application; and

WHEREAS, the subject site is located on the east side of East 23<sup>rd</sup> Street, between Avenue I and Avenue J, within an R2 zoning district; and

WHEREAS, the subject site has a total lot area of 4,600 sq. ft., and is occupied by a single-family home with a floor area of 2,698.36 sq. ft. (0.59 FAR); and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 2,698.36 sq. ft. (0.59 FAR) to 4,621.53 sq. ft. (1.01 FAR); the maximum permitted floor area is 2,300 sq. ft. (0.50 FAR); and

WHEREAS, the applicant proposes to provide an open space ratio of 53.8 percent (150 percent is the minimum required); and

WHEREAS, the proposed enlargement will provide a rear yard with a depth of 20'-0" (a minimum rear yard depth of 30'-0" is required); and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, and will not impair the future use or development of the surrounding area; and

WHEREAS, at hearing, the Board raised concerns about whether the rear terrace should be included in floor area calculations and whether the applicant was permitted to add a second curb cut; and

WHEREAS, the Board noted that the terrace and curb cut conditions were subject to DOB review and approval and that it was not approving either condition absent DOB's review and approval; and

WHEREAS, accordingly, the Board directed the applicant to note on its building plans that the terrace and curb cut were subject to DOB review; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, in an R2 zoning district, the proposed enlargement of a single-family home, which does

not comply with the zoning requirements for floor area ratio, open space, and rear yard, contrary to ZR §§ 23-141 and 23-47; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received December 5, 2011"-(9) sheets, "February 21, 2012"-(1) sheet and "March 6, 2012"-(1) sheet; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 4,621.53 sq. ft. (1.01 FAR); an open space ratio of 53.8 percent; and a rear yard with a depth of 20'-0", as illustrated on the BSA-approved plans;

THAT the attic floor area will be limited to 726.29 sq. ft.;

THAT DOB will review the terraces and porches for compliance;

THAT DOB will review the addition of a second curb cut for compliance;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 6, 2012.

## THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated December 6, 2011, acting on Department of Buildings Application No. 120879399, reads in pertinent part:

Proposed residential use on floors 2-6 not permitted in an M1-6 district; contrary to ZR Section 42-10; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site within an M1-6 zoning district, the conversion of the second through sixth floors of a six-story commercial building to residential use, which is contrary to ZR § 42-00; and

WHEREAS, a public hearing was held on this application on February 7, 2012 after due notice by publication in the *City Record*, and then to decision on March 6, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Manhattan, recommends approval of the application, but states that it favors retaining the second floor as commercial space for the current tenant, a jazz cultural center, which it deems to be a valuable resource for the community; and

WHEREAS, the subject site is an irregular L-shaped lot located near the southeast corner of the intersection of Spring Street and Hudson Street, within an M1-6 zoning district; and

WHEREAS, the site has 28 feet of frontage on Spring Street, 19.5 feet of frontage on Hudson Street, and a total lot area of 4,225 sq. ft.; and

WHEREAS, the site is occupied by a six-story L-shaped commercial building with a floor area of 24,054 sq. ft. (5.69 FAR); and

WHEREAS, the applicant states that the subject lot and building wrap around a vacant corner lot (Lot 9) which is owned by the Port Authority of New York and New Jersey (the "Port Authority") and is used as a parking lot; and

WHEREAS, the applicant further states that an approach ramp to the Holland Tunnel runs directly beneath the subject building, for which there is an approximately 35-ft. wide subsurface easement that runs across the middle of the subject site (the "Tunnel Easement"); and

WHEREAS, the applicant states that the building is currently partially vacant, with an eating and drinking establishment (Use Group 6) at the first floor and offices (Use Group 6) that are currently 50 percent vacant above; and

WHEREAS, the applicant proposes to convert the second through sixth floors of the building from commercial to residential use, with the first floor continuing to be occupied by a conforming commercial use; and

WHEREAS, the applicant states that the proposed building will have one loft dwelling unit on each of floors two through six, for a total of five dwelling units; and

WHEREAS, because residential use is not a permitted use in the subject M1-6 zoning district, the subject variance application was filed; and

WHEREAS, on March 14, 2000, under BSA Cal. No.

145-99-BZ, the Board denied a previous variance application to permit the conversion of the second through sixth floors of the subject building to residential use, finding that the applicant failed to establish that there were practical difficulties or unnecessary hardship in complying with the use provisions, primarily because "floors two through six were at or near full occupancy" and "the offices seemed to be functioning well;" and

WHEREAS, subsequently, the applicant filed a request for a rehearing of the previously denied variance application pursuant to Section 1-10(e) of the Board's Rules of Practice and Procedure, and on May 24, 2011, under BSA Cal. No. 145-99-BZ, the Board granted the applicant's request for a rehearing, finding that the applicant had identified substantial evidence which supports the conclusion that there has been a material change in circumstances since the 1999 application; and

WHEREAS, accordingly, the applicant subsequently filed the subject variance application; and

WHEREAS, the applicant represents that the following are unique physical conditions, which create practical difficulties and unnecessary hardship in developing the subject lot in conformity with applicable regulations: (1) the small and narrow size of the site and building, and its irregular L-shape; and (2) the proximity of the Holland Tunnel approach ramp and the presence of the Tunnel Easement on the site; and

WHEREAS, the applicant notes that the site is a 4,225 sq. ft. L-shaped parcel with 28 feet of frontage on Spring Street and only 19.5 feet of frontage on Hudson Street, and that if each side of the property were considered a separate lot, the Spring Street side would be a 2,470 sq. ft. lot and the Hudson Street side would be a 1,775 sq. ft. lot; and

WHEREAS, the applicant states that the two sides of the building are connected at the rear for only 15 contiguous linear feet and because the building is not built full to the rear lot lines, the footprint is even smaller than the lot size, at 4,009 sq. ft., with the Spring Street side of the building having a floor area of 2,254 sq. ft. and the Hudson Street side of the building having a floor area of 1,755 sq. ft.; and

WHEREAS, the applicant further states that while the floor plates of the building are small and narrow, due to the width of the exterior brick walls of the building, the interior space is even more constrained with an interior wall-to-wall dimension of only 24 feet on the Spring Street side of the building and 15.5 feet on the Hudson Street side of the building; thus, the usable floor area on each floor of the building is approximately 3,169 sq. ft.; and

WHEREAS, the applicant states that because of its small, narrow and irregular shape, the building has an unusually high ratio of exterior walls to usable interior space, with approximately 1.4 sq. ft. of exterior wall to each sq. ft. of usable interior space; and

WHEREAS, the applicant further states that the shape of the building also results in a disproportionate share of the interior floor area being devoted to core functions, including elevators, stairways and bathrooms, as approximately 990 sq. ft. of the second through sixth floors are occupied by such core functions, representing 24.7 percent of each floor's gross floor

---

# MINUTES

---

area and 28.4 percent of each floor's usable interior space; and

WHEREAS, the applicant states that the small, narrow and irregular shape of the site and the building result in awkward floor plates that are inefficient and unattractive to modern office or manufacturing users; and

WHEREAS, as to the Subsurface Easement, the applicant states that an approach ramp to the Holland Tunnel is located nine feet below the cellar of the subject building, and as a result the 35-ft. wide Tunnel Easement runs across the middle of the site; and

WHEREAS, the applicant notes that there is no cellar in the middle portion of the building due to the tunnel approach and the Tunnel Easement, and that Port Authority regulations prohibit the installation of piles in close proximity to the tunnel approach; and

WHEREAS, the applicant states that, as a result of the lack of a cellar and the inability to install piles, it is not feasible to enlarge the building or redevelop the site to utilize more or all of the 10.0 FAR allowed for conforming uses in the subject M1-6 zoning district; and

WHEREAS, as to the uniqueness of the aforementioned physical conditions, the applicant provided a radius diagram and land use map which reflects that the subject site is the only property in the surrounding area that is small, narrow and L-shaped, and located directly above the Holland Tunnel approach; and

WHEREAS, the applicant states that returning the building to a conforming industrial use would require a major investment to upgrade the building's systems (including elevators and electrical) to industrial capacity, and that even if such investment were made, the building would not be feasible for industrial use due to the small, oddly-shaped floor plates that would not be suitable for a modern industrial use; and

WHEREAS, the applicant notes that when the owner purchased the property in 1990 in its previous configuration as a warehouse with offices, the building was vacant because it had been unable to attract any industrial tenants; and

WHEREAS, the applicant represents that the building would be even less able to attract industrial tenants today because the character of the area has materially changed from being primarily industrial to being primarily a mix of office and residential uses; and

WHEREAS, the applicant states that the small and irregular floor plates also make the building inefficient and unattractive for modern office uses; and

WHEREAS, the applicant represents that since the time of the original variance application in 1999, the number and frequency of vacancies in the building's office units have continually increased as more and newer offices have become available within the surrounding neighborhood; and

WHEREAS, the applicant submitted a table reflecting that, as of the date of the subject application, eight and one-half of the building's 17 office units (50 percent) are vacant, representing 55.8 percent of the rentable office floor space and 43.3 percent of the office rent roll; and

WHEREAS, the applicant states that two additional units, after having been vacant for an extended period of time, are occupied by family members of the owner, paying nominal

rents on a week-to-week basis until such time as a tenant can be found to lease the unit; if these two units are also counted as vacant, the resulting ten and one-half vacant units would represent 61.8 percent of all units, 61.5 percent of the rentable office floor space, and 47.4 percent of the office rent roll; and

WHEREAS, the applicant represents that conversion of the building to a conforming community facility use is also infeasible; and

WHEREAS, the applicant states that, of the permitted Use Group 4A community facility uses, most are not-for-profit and/or religious and therefore the only one for which a reasonable return might be possible is an ambulatory diagnostic or treatment health care facility; however, for the same reasons that the building is unsuitable for modern conforming industrial and office use, it would be inefficient and therefore infeasible for a modern health care facility; and

WHEREAS, specifically, the applicant states that providing the necessary ADA-compliant vertical and horizontal circulation, bathrooms, patient examining rooms, and offices for a modern health care facility would not be possible within the constraints of the building's narrow floor plates; and

WHEREAS, based upon the above, the Board finds that the aforementioned unique physical conditions, when considered in the aggregate, create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the applicant asserts that because of its unique physical conditions, there is no reasonable possibility that the development of the property in conformance with the use will bring a reasonable return to the owner; and

WHEREAS, the applicant submitted a feasibility study which analyzed (1) the continued use of the building as a six-story conforming office building with a variety of small office suites on floors two through six and ground floor retail use, and (2) the proposed use of the building as a six-story mixed-use building with retail use and a small residential lobby on the ground floor and a total of five residential units (one unit per floor) on floors two through six; and

WHEREAS, the feasibility study concluded that the conforming office scenario would not realize a reasonable return, but that the proposed building would realize a reasonable return; and

WHEREAS, based upon its review of the feasibility study, the Board has determined that because of the subject building's unique physical conditions, there is no reasonable possibility that development in strict conformance with applicable use requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed use will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that the immediate area is characterized predominantly by a mix of residential and commercial uses; and

WHEREAS, the applicant states that the surrounding neighborhood has undergone significant changes since the

---

# MINUTES

---

time of the Board's denial of the original variance application; and

WHEREAS, as to the Hudson Square area's office space market, the applicant states that nearly 2.6 million square feet of formerly industrial floor area in the surrounding area has been converted to modern office use and identifies the following industrial buildings which have been converted to commercial office space since the 1999 application: One Hudson Square (a 16-story, 993,903 sq. ft. building); 304 Hudson Street (an eight-story, 230,000 sq. ft. building); 326 Hudson Street (a 23-story, 345,621 sq. ft. building); 348 Hudson Street (a nine-story, 259,000 sq. ft. building); and 341 Hudson Street (a 17-story, 797,000 sq. ft. building); and

WHEREAS, additionally, the applicant identifies the Business Incubator at 160 Varick Street, a City-subsidized facility for small businesses, which is currently at full capacity with 35 businesses; and

WHEREAS, as to the neighborhood context, the applicant cites to several rezonings in the neighborhood which have taken place since the 1999 denial, which include (1) the 2003 Hudson Square Rezoning, which rezoned a portion of the area, just west of the site from M1-6 and M2-4 zoning districts to a C6-2A zoning district, which permits residential use as-of-right; (2) the 2006 North Tribeca Rezoning, which rezoned a four-block area south of Canal Street from M1-5 to C6-2A and C6-3A, which permits residential uses as-of-right; and (3) the 2010 North Tribeca Rezoning, which rezoned the remaining M1-5 area to C6-2A; and

WHEREAS, the applicant states that the Hudson Square and North Tribeca rezonings have led to several residential conversions and the construction of new residential buildings at sites including: 300 Spring Street, 505 Greenwich Street, 255 Hudson Street, and 479 Greenwich Street; and

WHEREAS, the applicant cites to additional actions such as a proposed Hudson Square Special District, which would allow for more residential use in the area; and Board use variances between 2005 and 2007, which have allowed for residential use within M1-5 and M1-6 zoning districts in the area; and

WHEREAS, the applicant represents that the above-mentioned factors reflect that the surrounding area is characterized by a mixed-use area of primarily commercial and residential uses, and that the proposed conversion of floors two through six of the building to create five loft dwelling units will not alter the essential character of the neighborhood; and

WHEREAS, the applicant notes that the proposed conversion of the second through sixth floors will be confined to the existing building envelope and will not result in any additional floor area; and

WHEREAS, the applicant represents that the existing conforming commercial use on the first floor will remain and is compatible with the mix of uses in the area; and

WHEREAS, the applicant represents that the proposed conversion meets the light and air requirements of the Multiple

Dwelling Law; and

WHEREAS, at hearing, the Board questioned whether the proposed residential loft units complied with the requirements of the Building Code with respect to distance from a required means of egress; and

WHEREAS, in response, the applicant states that the Building Code requires the proposed residential loft building to have an automatic sprinkler system, two means of egress, and a maximum travel distance between any point in a dwelling unit to a means of egress of 200 feet for a sprinklered building; and

WHEREAS, the applicant submitted revised plans reflecting that an automatic sprinkler system will be installed in the building, and states that two means of egress will be provided for the residential loft units by the "scissor" stairs (a pair of criss-crossing stairs) located on the Spring Street side of the building, and the maximum travel distance to a means of egress in the building is approximately 105 feet; and

WHEREAS, as to the Community Board's request that the second floor of the building remain commercial space to accommodate the jazz cultural center tenant, the applicant notes that a Stipulation of Settlement dated July 7, 2010 by the Civil Court, orders the jazz cultural center to vacate the site due to over \$50,000 in rent arrears; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title, but is rather a function of the existing unique physical conditions cited above; and

WHEREAS, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to Sections 617.6(h) and 617.2(h) of 6 NYCRR; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 12BSA049M, dated February 18, 2012; and

WHEREAS, the EAS documents show that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

# MINUTES

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved* that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit, on a site within an M1-6 zoning district, the conversion of the second through sixth floors of a six-story commercial building to residential use, which is contrary to ZR § 42-00; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received March 5, 2012" – twelve (12) sheets; and *on further condition*:

THAT the following are the bulk parameters of the building: six stories; 20,045 sq. ft. (4.74 FAR) of residential floor area on the second through sixth floors, 4,009 sq. ft. (0.95 FAR) of commercial floor area on the first floor, a total floor area of 24,054 sq. ft. (5.69 FAR); and five dwelling units, as indicated on the BSA-approved plans;

THAT substantial construction be completed in accordance with ZR § 72-23; and

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 6, 2012.

## 21-11-BZ

APPLICANT – Eric Palatnik, P.C., for 1810-12 Voorhies Avenue, LLC, owner.

SUBJECT – Application February 28, 2011 – Special Permit (§73-44) to permit the reduction in required parking for an ambulatory or diagnostic treatment facility. C1-2/R4 zoning district.

PREMISES AFFECTED – 1810 Voorhies Avenue, south side of Voorhies Avenue, between East 19<sup>th</sup> Street and Sheepshead Bay Road, Block 8772, Lot 3, Borough of Brooklyn.

### COMMUNITY BOARD #15BK

APPEARANCES –

For Applicant: Todd Dale.

**ACTION OF THE BOARD** – Laid over to May 8, 2012, at 1:30 P.M., for continued hearing.

## 112-11-BZ

APPLICANT – Eric Palatnik, P.C., for Louis N. Petrosino, owner.

SUBJECT – Application August 9, 2011 – Variance (§72-21) to legalize the extension of the use and enlargement of the zoning lot of a previously approved scrap metal yard (UG 18), contrary to §32-10. C8-1 zoning district.

PREMISES AFFECTED – 2994/3018 Cropsey Avenue, southwest corner of Bay 54<sup>th</sup> Street. Block 6947, Lot 260. Borough of Brooklyn.

### COMMUNITY BOARD #13BK

APPEARANCES –

For Applicant: Todd Dale.

**ACTION OF THE BOARD** – Laid over to April 24, 2012, at 1:30 P.M., for continued hearing.

## 177-11-BZ

APPLICANT – Rothkrug Rothkrug & Spector, LLP, for St Anns ABH Owner LLC, owners.

SUBJECT – Application November 16, 2011 – Special Permit (§73-36) to permit a physical culture establishment (*Blink Fitness*) within portions of an existing building. C2-3(R7X) zoning district.

PREMISES AFFECTED – 601 East 156<sup>th</sup> Street, aka 800 St. Ann's Avenue, north east corner of East 156<sup>th</sup> Street and St. Ann's Avenue, Block 2618, Lot 7501, Borough of Bronx.

New Case Filed Up to March 20, 2012  
-----

## 51-12-A

46 Tioga Walk, East of Beach 216 Street, 45' north of 6th Avenue, Block 16350, Lot(s) 400, Borough of **Queens, Community Board: 14**. The proposed re-construction of the existing building is located on a site where the building lies partially in the bed of a mapped Beach 216 Street as per Art.3 Sect.#35 of the GCL and contrary to the Department of Building policy. The proposed upgrade of the private disposal system is not located in the bed of a mapped street. R4 district.  
-----

## 52-12-A

35 Janet Lane, north of Janet Lane, east of Beach 203 Street., Block 16350, Lot(s) 400, Borough of **Queens, Community Board: 14**. The proposed re-construction of the existing building is located on a site where the building lies in the bed of a mapped street as per Art 3 Sect. 35 of the GCL, is not fronting a mapped street as per Art 3 Sect. 36 GCL and contrary to the Department of Buildings policy. The proposed upgrade of the private disposal system is located in the bed of a mapped street. R4 district.  
-----

## 53-12-BZ

1232 East 27th Street, west side of East 27th Street, between Avenue L and Avenue M., Block 7644, Lot(s) 59, Borough of **Brooklyn, Community Board: 14**. This application is filed pursuant to Z.R.§73-622, as amended to request a special permit to allow the enlargement of a single family residence located in a residential (R2) zoning district. R2 district.  
-----

## 54-12-BZ

65-39 102nd Street, north side of 102nd Street,northeast corner of 66th Avenue, Block 2130, Lot(s) 14, Borough of **Queens, Community Board: 6**. Construction of a new four story community facility (Use Group4) and residential building (Use Group 2) with three dwellings units in an R5 zoning district. R5 district.  
-----

## 55-12-BZ

762 Wythe Avenue, corner of Penn Street, Wythe Avenue and Rutledge Street, Block 2216, Lot(s) 19, Borough of **Brooklyn, Community Board: 1**. Application to legalize the existing use group 3 religious based not for profit school which is contrary to ZR§42-00 and therefore requires a special permit from the NYC BSA. M1-2 district.  
-----

## 56-12-BZ

168 Norfolk Street, located between Shore Boulevard and Oriental Boulevard, Block 8756, Lot(s) 25, Borough of **Brooklyn, Community Board: 15**. The premises is improved with an existing residential structure (single family home) which is a two story dwelling without a cellar, the requested approval seeks permission to enlarge the existing single family residential structure in accordance with the provisions of Z.R.§73-622. R3-1 district.  
-----

## 57-12-BZ

2670 East 12th Street, between Shore Parkway and Gilmore Court., Block 7455, Lot(s) 85, Borough of **Brooklyn, Community Board: 15**. This application is filed pursuant to Z.R.§73-622, as amended to request a Special Permit to enlarge a one-story dwelling in a residential zonig district (R4) and to vary the lot coverage, floor area, open space, rear yard and side yard requirements of the zoning resolution. R4 district.  
-----

## 58-12-BZ

3960 Bedford Avenue, west side of Bedford Avenue between Avenue R and Avenue S., Block 6830, Lot(s) 30, Borough of **Brooklyn, Community Board: 15**. Special Permt (ZR 73-622) for the enlargement of an existing single family home contrary to floor area, lot coverage and opens space (23-141); side yards (23-461); less than the required rear yard (23-47). R3-2 zoning district. R3-2 district.  
-----

## 59-12-BZ

240-27 Depew Avenue, north side of Depew Avenue, 106.23' east of 40th Avenue., Block 8103, Lot(s) 25, Borough of **Queens, Community Board: 11**. **NOTICE IS HEREBY GIVEN** of a public hearing, Tuesday morning, April 3, 2012, 10:00 A.M., at 40 Rector Street, 6<sup>th</sup> Floor, New York, N.Y. 10006, on the following matters:

-----

## **SPECIAL ORDER CALENDAR**

### **319-53-BZ**

APPLICANT – Ficara & Associates, P.C., by Majed El Jamal, for 22<sup>nd</sup> Street Realty LLC, owner.

SUBJECT – Application August 16, 2011 – Pursuant to (ZR 11-411) an Extension of Term for the continued operation of an Automotive Repair Shop with no body work which expired on January 31, 2011; Waiver of the Rules. R-5 zoning district.

PREMISES AFFECTED – 1135 East 222<sup>nd</sup> Street, northwest corner of Eastchester Road, Block 4900, Lot 12, Borough of Bronx.

**COMMUNITY BOARD #12BX**

-----

### **808-55-BZ**

APPLICANT – Sheldon Lobel, P.C., for 35 Bell Realty Inc., owner; Cumberland Farms, Inc., lessee.

SUBJECT – Application February 14, 2012 – Pursuant to ZR 11-411 for an Extension of Term for the continued operation of a gasoline service station (*Gulf*) with accessory convenience store which expired on March 27, 2012; Waiver of the Rules. C2-2/R4 zoning district.

PREMISES AFFECTED – 35-04 Bell Boulevard, southwest corner of the intersection formed by Bell Boulevard and 35<sup>th</sup> Avenue, Block 6169, Lot 6, Borough of Queens.

**COMMUNITY BOARD #11Q**

-----

### **64-96-BZ**

APPLICANT – Vassalotti Associates Architects, LLP, for Michael Koloniaris and Nichol Koloniaris, owners.

SUBJECT – Application January 10, 2012 – Extension of Term for the continued operation of a UG16B automotive repair shop (*Meniko Autoworks, Ltd.*) which expired on December 11, 2011. C1-2/R3A zoning district.

PREMISES AFFECTED – 148-20 Cross Island Parkway, East south of 14<sup>th</sup> Avenue, Block 4645, Lot 3, Borough of Queens.

**COMMUNITY BOARD #7Q**

-----

### **256-02-BZ**

APPLICANT – Goldman Harris LLC, for 160 Imlay Street Real Estate, owner.

SUBJECT – Application February 10, 2012 – Extension of Time to Complete Construction of a previously granted Variance (72-21) for the development of a vacant six story manufacturing building, and the addition of three floors, for residential UG2 which expired on March 18, 2012. M2-1 zoning district.

PREMISES AFFECTED – 160 Imlay Street, bounded by Imlay, Verona and Commerce Streets and Atlantic Basin.

**COMMUNITY BOARD #6BK**

-----

## **APPEALS CALENDAR**

### **173-11-A**

APPLICANT – Rothkrug Rothkrug & Spector, LLP, for Southside Manhattan View LLC, owner.

SUBJECT – Application November 7, 2011 – Appeal seeking determination that the owner of the premises has acquired a common law vested rights to complete construction under the prior R4 zoning. R4-1 Zoning district.

PREMISES AFFECTED – 68-10 58<sup>th</sup> Avenue, south side of 58<sup>th</sup> Avenue, 80' east of intersection of 58<sup>th</sup> Avenue and Brown Place, Block 2777, Lot 11, Borough of Queens.

**COMMUNITY BOARD #5Q**

-----

### **25-12-A**

APPLICANT – Slater & Beckerman, LLP for F.B Capital Inc., owners

SUBJECT – Application February 2, 2012 – Appeal challenging a Department of Buildings determination that an illegal non complying residential portion of a building in the required rear yard may be reconstructed pursuant to ZR §54-41. R8B Zoning District.

PREMISES AFFECTED – 110 East 70<sup>th</sup> Street, south side of East 70<sup>th</sup> Street, between Park Avenue and Lexington Avenue, block 1404, Lot 67, Borough of Manhattan.

**COMMUNITY BOARD #8M**

-----

### **27-12-A**

APPLICANT – Greenberg Traurig, LLP, for F.B. Capital, LLC, owner.

SUBJECT – Application February 6, 2012 – Appeal challenging a Department of Buildings determination that the reconstruction of a building that did not solely contain a one family residence and had more than 75% of the floor area demolished is contrary to ZR Section 54-41. R8B (LH-1A) Zoning District.

PREMISES AFFECTED – 110 East 70<sup>th</sup> Street, north side of East 70<sup>th</sup> Street, 125' east of Park Avenue and 260' west of Lexington Avenue, Block 1404, Lot 67, Borough of Manhattan.

## REGULAR MEETING TUESDAY MORNING, MARCH 20, 2012 10:00 A.M.

Present: Chair Srinivasan, Vice-Chair Collins,  
Commissioner Hinkson and Commissioner Montanez.  
Absent: Commissioner Ottley-Brown.

-----

### SPECIAL ORDER CALENDAR

#### 11-93-BZ

APPLICANT – Sheldon Lobel, P.C., for Jovkiss Management, LLC, owner; East Manor Restaurant, lessee.  
SUBJECT – Application November 1, 2011 – Extension of Time to obtain a Certificate of Occupancy for a UG6 Eating and Drinking Establishment (*Eastern Pavilion Chinese Restaurant*) which expired on October 5, 2011. C2-2/R3-2 zoning district.

PREMISES AFFECTED – 46-45 Kissena Boulevard, northeast corner of the intersection formed by Kissena Boulevard and Laburnum Avenue, Block 5208, Lot 32, Borough of Queens.

#### COMMUNITY BOARD #7Q

APPEARANCES –

For Applicant: Nora Martins.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Hinkson and Commissioner Montanez .....4

Negative:.....0

Absent: Commissioner Ottley-Brown.....1

**THE RESOLUTION** –

WHEREAS, this is an application for a reopening and an extension of time to obtain a certificate of occupancy for the operation of a restaurant (Use Group 6) in a C2-2 (R3-2) zoning district, which expired on October 5, 2011; and

WHEREAS, a public hearing was held on this application on December 13, 2011, after due notice by publication in the City Record, with continued hearings on January 24, 2012 and February 28, 2012, and then to decision on March 20, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the site is located on the northeast corner of Kissena Boulevard and Laburnum Avenue, within a C2-2 (R3-2) zoning district; and

WHEREAS, the subject site has a total lot area of 40,830 sq. ft.; and

WHEREAS, the site is occupied by a one-story building operated as a restaurant (Use Group 6); and

WHEREAS, the Board has exercised jurisdiction over the subject site since May 6, 1958 when, under BSA Cal. No. 788-57-BZ, the Board granted a variance to permit the

construction of a one-story storage garage and motor vehicle repair shop, with two gasoline dispensing pumps, for a term of 20 years; and

WHEREAS, subsequently, the grant has been amended by the Board at various times; and

WHEREAS, on March 15, 1994, under the subject calendar number, the Board granted a special permit under ZR § 11-413 to permit the change of use from motor vehicle storage and repair to an eating and drinking establishment with accessory parking, for a term of ten years, which expired on March 15, 2004; and

WHEREAS, most recently, on October 5, 2010, the Board granted a ten-year extension of term from the expiration of the prior grant, to expire on March 15, 2014, and an amendment pursuant to ZR § 11-412 to permit certain modifications to the building that fit within the ZR § 12-10 definition of “incidental alterations,” including the modification of internal partitions on the ground floor, the addition of an open overhang at the rear of the building, and the replacement of the building façade; a condition of the grant was that a certificate of occupancy be obtained by October 5, 2011; and

WHEREAS, the applicant now requests an extension of time to obtain a certificate of occupancy; and

WHEREAS, the Board notes that, while certain modifications to the building were permitted in the October 5, 2010 grant, the Board determined that it did not have the authority to grant the other building modifications the applicant proposed to legalize, including the construction of a two-story enlargement at the rear of the building, the construction of a glass enclosure used for storage on the northern side of the building, and the construction of bulkheads providing roof access, because the Board had previously permitted a new non-conforming use on the site pursuant to ZR § 11-413 in the March 15, 1994 grant, and ZR § 11-412 states that “no structural alterations, extensions or enlargements shall be authorized for a new-non-conforming use authorized under the provisions of Section 11-413 (Change of use);” and

WHEREAS, accordingly, the Board directed the applicant to remove the enlargement located at the rear of the building, the glass enclosure, and the bulkhead, as these areas contributed to floor area and were therefore impermissible enlargements under ZR § 11-412; and

WHEREAS, the applicant states that subsequent to the Board’s grant, the two-story enlargement at the rear of the building and the rooftop bulkheads have been removed, but that a permit had not been obtained to remove the glass enclosure; and

WHEREAS, at hearing, the Board directed the applicant to remove the glass enclosure on the northern side of the building and to remove the storage trailer and refrigerator unit that have been added to the rear of the site since the Board’s prior grant; and

WHEREAS, in response, the applicant submitted photographs reflecting the removal of the glass enclosure, the storage trailer and the refrigerator unit; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time is appropriate with certain conditions as set forth below.

# MINUTES

Therefore it is Resolved, that the Board of Standards and Appeals reopens and amends the resolution, as adopted on March 15, 1994, to grant a one-year extension of time to obtain a certificate of occupancy, to expire on March 20, 2013; on condition that the use and operation of the site shall comply with BSA-approved plans associated with the prior grant; and on further condition:

THAT use of the site shall be limited to a restaurant (Use Group 6) with accessory parking;

THAT all signage shall comply with C2 zoning district regulations;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT a new certificate of occupancy shall be obtained by March 20, 2013;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

(DOB Application No. 400475776)

Adopted by the Board of Standards and Appeals, March 20, 2012.

-----

## 11-01-BZ

APPLICANT – Vassalotti Associates Architects, LLP, for P.J. Christy, Inc., owner.

SUBJECT – Application August 8, 2011 – Extension of Term for a gasoline service station (BP British Petroleum) which expired on August 7, 2011 and Extension of Time to obtain a Certificate of Occupancy which expired on July 26, 2006. C1-2/R5 zoning district.

PREMISES AFFECTED – 586/606 Conduit Boulevard, Pitkin Avenue and Autumn Avenue on the west, Block 4219, Lot 1, Borough of Brooklyn.

### COMMUNITY BOARD #5BK

APPEARANCES –

For Applicant: Todd Dale.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Hinkson and Commissioner Montanez .....4

Negative:.....0

Absent: Commissioner Ottley-Brown.....1

**THE RESOLUTION** –

WHEREAS, this is an application for a reopening, an extension of term for a gasoline service station (Use Group 16) with an accessory convenience store, and an extension of time to obtain a certificate of occupancy; and

WHEREAS, a public hearing was held on this application on January 24, 2012, after due notice by publication in *The City Record*, with a continued hearing on February 28, 2012, and then to decision on March 20, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Montanez; and

WHEREAS, Community Board 5, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is a triangular-shaped lot comprising the entirety of Block 4219, bounded by Conduit Boulevard to the north, Pitkin Avenue to the south, and Autumn Avenue to the west, within a C1-2 (R5) zoning district; and

WHEREAS, the site has 177 feet of frontage along Conduit Boulevard, 159 feet of frontage along Pitkin Avenue, 96.5 feet of frontage along Autumn Avenue, and a total lot area of 9,144 sq. ft.; and

WHEREAS, the Board has exercised jurisdiction over the subject site since May 23, 1961 when, under BSA Cal. No. 535-60-BZ, the Board granted a variance to permit the construction of a gasoline service station, lubricatorium, minor auto repairs, car washing, utility room, office, sales, ground sign, and parking and storage of motor vehicles, for a term of 15 years; and

WHEREAS, subsequently, the grant was amended and the term extended at various times, until its expiration on May 23, 1991; and

WHEREAS, on August 7, 2001, under the subject calendar number, the Board granted an application under ZR § 11-411 to re-establish the expired variance for a gasoline service station with accessory uses, and to convert the existing automotive repair facility and offices into an accessory convenience store, for a term of ten years; a condition of the grant was that a new certificate of occupancy be obtained by August 7, 2002; and

WHEREAS, on July 26, 2005, the Board granted a one-year extension of time to complete construction and obtain a certificate of occupancy; and

WHEREAS, the applicant now seeks an additional extension of the term and an extension of time to obtain a certificate of occupancy; and

WHEREAS, pursuant to ZR § 11-411, the Board may permit an extension of term; and

WHEREAS, the applicant notes that subsequent to the Board's most recent grant, it obtained a temporary certificate of occupancy, which expired on November 10, 2011; and

WHEREAS, at hearing, the Board directed the applicant to confirm that the signage on the site complies with the underlying C1 district signage regulations; and

WHEREAS, in response, the applicant submitted a signage analysis reflecting that the site complies with C1 district signage regulations; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of term and extension of time are appropriate with certain conditions as set forth below.

# MINUTES

Therefore it is Resolved that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated August 7, 2001, so that as amended this portion of the resolution shall read: “to extend the term for a period of ten years from August 7, 2011, to expire on August 7, 2021, and to grant a one-year extension of time to obtain a certificate of occupancy, to expire on March 20, 2013; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked ‘Received January 5, 2012’-(1) sheet and ‘March 20, 2012’-(1) sheet; and *on further condition*:

THAT the term of this grant will expire on August 7, 2021;

THAT all signage on the site will comply with C1 district regulations;

THAT the above conditions will be reflected on the certificate of occupancy;

THAT a new certificate of occupancy will be obtained by March 20, 2013;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect; and

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (DOB Application No. 301092715)

Adopted by the Board of Standards and Appeals, March 20, 2012.

-----

## 327-04-BZ

APPLICANT – Sheldon Lobel, P.C., for Beth Gavriel Bukharian Congregation, owner.

SUBJECT – Application June 5, 2009 – Amendment to a Variance (§72-21) to increase the size of an existing Synagogue and School (*Beth Gavriel*) and alter the facade. R1-2 zoning district.

PREMISES AFFECTED – 66-35 108<sup>th</sup> Street, east side of 108<sup>th</sup> Street, east side of 108<sup>th</sup> Street, between 66<sup>th</sup> Road and 67<sup>th</sup> Avenue, Block 2175, Lot 1, Borough of Queens.

## COMMUNITY BOARD #6Q

APPEARANCES –

For Applicant: Nora Martins.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Hinkson and Commissioner Montanez .....4

Negative:.....0

Absent: Commissioner Ottley-Brown.....1

**THE RESOLUTION** –

WHEREAS, this is an application for an amendment to a previously approved variance for the enlargement of a building occupied by a synagogue and religious school, within an R1-2

zoning district; and

WHEREAS, a public hearing was held on this application on January 31, 2012, after due notice by publication in *The City Record*, with a continued hearing on February 28, 2012, and then to decision on March 20, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 6, Queens, states that it has no objection to this application; and

WHEREAS, the subject site is located on the east side of 108<sup>th</sup> Street, between 66<sup>th</sup> Road and 67<sup>th</sup> Avenue, within an R1-2 zoning district; and

WHEREAS, this application is submitted on behalf of Beth Gavriel Bukharian Congregation (the “Synagogue”); and

WHEREAS, the Board has exercised jurisdiction over the subject site since June 7, 2005 when, under the subject calendar number, the Board granted a variance to permit the enlargement of an existing building occupied by both a synagogue and a religious school, which did not comply with the underlying zoning regulations for floor area, front yard, height, and setback, contrary to ZR §§ 24-11, 24-34, 24-521, and 24-551; and

WHEREAS, on September 15, 2009, the Board granted an extension of time to complete construction and obtain a certificate of occupancy, to expire on September 15, 2012; and

WHEREAS, the applicant states that the enlargement approved in the 2005 grant consisted of (1) the addition of a first and second floor above the existing basement on the south side of the building, to provide additional classrooms for the school, and (2) the addition of a cellar, basement, first, and second floor enlargement to the north side of the building, to provide a gymnasium at the cellar level, to relocate the synagogue to the basement and first floor level, and to provide a study hall and library at the second floor; and

WHEREAS, the applicant further states that the building, as previously approved, had the following parameters: a floor area of 27,820 sq. ft. (1.39 FAR) (the maximum permitted floor area is 10,000 sq. ft. (0.50 FAR)); three front yards with depths of 27’-0” along the southern lot line, 15’-0” along the western lot line, and 10’-0” along the northern lot line (three front yards with minimum depths of 15’-0” each are required); a side yard with a width of 8’-0” along the eastern lot line (a side yard with a minimum width of 8’-0” is required); a height of 33’-2”, and encroachment into the sky exposure plane; and

WHEREAS, the applicant now requests an amendment to permit the extension of the enlargement at the cellar level, the creation of a sub-cellar, changes to the interior layout of the proposed enlargement at the cellar, basement, first, and second floor levels, and the modification of the proposed building facade; and

WHEREAS, specifically, the applicant proposes to: (1) split the approved double-height gymnasium on the north side of the building into two levels (a sub-cellar and cellar), with the sub-cellar containing a recreation area/indoor playground and storage room, and the cellar containing a general purpose room/school cafeteria and accessory kitchen; (2) extend the

---

# MINUTES

---

cellar level along the west side of the existing building and underneath the existing basement on the south side of the existing building, with the new proposed cellar space occupied by a mikvah, an accessory synagogue kitchen, and bathrooms; (3) replace the auditorium/lunchroom on the basement level with an accessory synagogue dining room; (4) alter the layout of the women's balcony on the first floor to provide a better view of the main synagogue below; (5) add a conference room, remove the resource room, and rearrange the storage rooms, offices, and bathrooms at the first floor to provide six classrooms and one computer room rather than the approved five classrooms; (6) replace the approved library and study hall at the second floor with three study rooms with movable walls; and (7) change the façade on the proposed enlarged building; and

WHEREAS, the applicant represents that the proposed amendment is necessary to meet the programmatic needs of the Synagogue, as the mikvah is an important programmatic need of an Orthodox synagogue, and the closest existing mikvah in the surrounding area is located in Flushing, Queens; and

WHEREAS, the applicant states that the division of the double-height cellar gymnasium into a sub-cellar level recreation area and a cellar level general purpose room/school cafeteria satisfies both the school's programmatic need for recreation and cafeteria space, and the Synagogue's programmatic need for a separate dining room by enabling the basement space previously approved for a lunchroom/auditorium to be used for an accessory synagogue dining room; and

WHEREAS, the applicant further states that the programmatic needs of the school are essentially the same as those specified in the Board's 2005 grant, and that the proposed amendment provides a more efficient layout, allowing for the addition of a computer room and a classroom; and

WHEREAS, the applicant states that the additional floor space proposed by this amendment (approximately 12,300 sq. ft.) does not contribute to floor area because it is located below grade on the sub-cellar and cellar levels, and that the proposed enlarged building, as amended, actually provides a slightly smaller floor area of 27,393 sq. ft. (1.37 FAR) than the previously approved building, and maintains the same height and yard dimensions; accordingly, no new waivers are required by the proposed amendment; and

WHEREAS, the applicant further states that the proposed amendment does not trigger any additional parking requirements beyond the six previously-approved spaces; and

WHEREAS, the applicant states that the anticipated pedestrian and vehicular traffic will not significantly differ from the conditions anticipated pursuant to the 2005 grant, as the majority of families in the congregation live within walking distance of the synagogue and are obligated to walk to services for reasons of religious observance on the Sabbath and holidays; and

WHEREAS, the applicant further states that attendance at the daily services and evening lectures is very limited, with only 20-25 attendees at daily morning services and ten to 15 attendees at the evening lectures

WHEREAS, the applicant further states that

approximately 95 percent of the students arrive and depart the school by school bus, and students are only dropped off or picked up by car on rare occasions when they are arriving late or need to leave early; and

WHEREAS, the applicant notes that the mikvah has a separate entrance from 67<sup>th</sup> Avenue, and it is only anticipated to be used by approximately ten women daily because religious observance dictates that women can only use the mikvah beginning 30 minutes past sundown for a duration of one hour; and

WHEREAS, at hearing, the Board directed the applicant to provide additional landscaping on the site; and

WHEREAS, in response, the applicant submitted revised plans reflecting that landscaping will be provided along the 66<sup>th</sup> Road frontage and partially along the side lot line; and

WHEREAS, based upon the above, the Board finds that the requested amendments to the variance are appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals reopens and amends the resolution, as adopted on June 7, 2005, so that as amended this portion of the resolution shall read: "to permit the noted modifications to the approved plans; *on condition* that the use shall substantially conform to drawings as filed with this application, marked 'Received December 9, 2011'– (12) sheets and 'February 14, 2012'–(1) sheet; and *on further condition*:

THAT landscaping will be provided and maintained as indicated on the BSA-approved plans;

THAT substantial construction will be completed by March 20, 2016, in accordance with ZR § 72-23;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted." (DOB Application No. 401994828)

Adopted by the Board of Standards and Appeals, March 20, 2012.

## APPEALS CALENDAR

### 659-76-A

APPLICANT –Walter T. Gorman, P.E., for Daniel and Lauren Mirkin, owners.

SUBJECT – Application November 15, 2011 – Amendment to an approved Appeal to the Building Code to continue a UG 4 second floor occupancy in a wood frame structure which expired on November 9, 2011. C1-3 /R5B zoning district.

PREMISES AFFECTED – 253 Beach 116<sup>th</sup> Street, west side, 240' south of Newport Avenue, Block 16212, Lot 19, Borough of Queens.

## COMMUNITY BOARD #14Q

APPEARANCES –

For Applicant: John Ronan.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Hinkson and Commissioner Montanez .....4

Negative:.....0

Absent: Commissioner Ottley-Brown.....1

THE RESOLUTION –

WHEREAS, this is an application for an amendment of a previously granted appeal which legalized the occupancy of a non-profit institution within the second-floor of a wood frame building, to permit the elimination the term and removal of the limitation that the second floor be occupied by a non-profit use; and

WHEREAS, a public hearing was held on this application on February 28, 2012 after due notice by publication in *The City Record*, and then to decision on March 20, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Ottley-Brown; and

WHEREAS, the site is located on the west side of Beach 116<sup>th</sup> Street, between Newport Avenue and Rockaway Beach Boulevard, within a C1-3 (R5B) zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since November 9, 1976 when, under BSA Cal. No. 659-76-A, the Board granted an appeal of a decision by the Department of Buildings (“DOB”), to legalize the second story occupancy of the existing wood frame building by a non-profit institution, for a term of five years; and

WHEREAS, subsequently, the grant was extended and amended by the Board on various occasions; and

WHEREAS, most recently, on January 8, 2002, the Board extended the term for a period of ten years from the expiration of the prior grant, to expire on November 9, 2011; and

WHEREAS, the applicant now requests an amendment to permit the elimination of the term, and the removal of the limitation that the second floor be occupied by a non-profit institution; and

# MINUTES

WHEREAS, the applicant states that the owner of the subject building is an optometrist who maintains his professional office (Use Group 6) at the first floor, and receives a modest supplement to his income when he is able to lease the space on the second floor; and

WHEREAS, the applicant further states that the primary use of the building, as professional offices (Use Group 6) is permitted as-of-right in the subject zoning district, and that use of the second floor will be limited to Use Group 4 uses because there would be a maximum FAR of 1.0 if a Use Group 6 tenant occupied the second floor (the FAR for the subject building is 1.35); and

WHEREAS, the applicant represents that the elimination of the term is warranted because it will mitigate the financial burden on the owner of returning to the Board periodically to continue his longstanding practice at this site; and

WHEREAS, the applicant notes that significant fire safety measures have been installed in the building, including smoke detectors, a fire alarm and signal system, and an automatic sprinkler system; and

WHEREAS, at hearing, the Board raised concerns that the current certificate of occupancy does not reflect that there is a fire alarm installed at the site; and

WHEREAS, in response, the applicant states that the new certificate of occupancy will clarify all of the fire safety measures that have been implemented on the site; and

WHEREAS, by letter dated February 7, 2012, the Fire Department states that it has no objections to this application; and

WHEREAS, the applicant submitted photographs and a signage analysis reflecting that the awning at the site has been removed and replaced with complying signage; and

WHEREAS, based upon its review of the record, the Board finds that the requested amendments are appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *reopens* and *amends* the resolution, as adopted on November 9, 1976, so that as amended this portion of the resolution shall read: “to permit the elimination of the term of the grant and the removal of the requirement that the second floor be occupied by a non-profit institution; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked “Received November 15, 2012”-(2) sheets; and *on further condition*:

THAT all fire safety measures will be reflected on the certificate of occupancy;

THAT a new certificate of occupancy will be obtained by March 20, 2013;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of

plan(s)/configuration(s) not related to the relief granted.” (DOB App. No. 401242277)

Adopted by the Board of Standards and Appeals, March 20, 2012.

## 243-09-BZY

APPLICANT – Mirza M. Rahman, for South Jamaica Property, LLC, owner.

SUBJECT – Application December 2, 2011 – Extension of Time (§11-332) to complete construction of a minor development and obtain a Certificate of Occupancy commenced under the prior R6 Zoning district. R4-1 Zoning district.

PREMISES AFFECTED – 87-12 175<sup>th</sup> Street, corner of 175<sup>th</sup> Street and Warwick, Block 9830, Lot 32, Borough of Queens.

## COMMUNITY BOARD #12Q

APPEARANCES – None.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Hinkson and Commissioner Montanez .....4  
Negative:.....0

Absent: Commissioner Ottley-Brown.....1

THE RESOLUTION –

WHEREAS, this is an application under ZR § 11-332, to permit an extension of time to complete construction and obtain a certificate of occupancy for a minor development currently under construction at the subject site; and

WHEREAS, a public hearing was held on this application on February 28, 2012, after due notice by publication in *The City Record*, and then to decision on March 20, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the southwest corner of 175<sup>th</sup> Street and Warwick Crescent, in an R4-1 zoning district; and

WHEREAS, the subject site has 39 feet of frontage along 175<sup>th</sup> Street, a depth of 110 feet, and a total lot area of 5,427 sq. ft.; and

WHEREAS, the site is proposed to be developed with a seven-story mixed-use residential/community facility building (the “Building”); and

WHEREAS, the Building is proposed to have a total floor area of 20,394 sq. ft. (3.75 FAR); and

WHEREAS, the development complies with the former R6 zoning district parameters; and

WHEREAS, however, on September 10, 2007 (hereinafter, the “Enactment Date”), the City Council voted to adopt The Jamaica Plan Rezoning, which rezoned the site from R6 to R4-1; and

WHEREAS, on April 25, 2007, New Building Permit No. 402527262-01-NB (hereinafter, the “New Building

---

# MINUTES

---

Permit”) was issued by the Department of Buildings (“DOB”) permitting construction of the Building; and

WHEREAS, as of the Enactment Date, the applicant had obtained permits for the development and had completed 100 percent of its foundations, such that the right to continue construction was vested pursuant to ZR § 11-331, which allows DOB to determine that construction may continue under such circumstances; and

WHEREAS, however, only two years are allowed for completion of construction and to obtain a certificate of occupancy; and

WHEREAS, on December 8, 2009, the Board granted a two-year extension of time to complete construction and obtain a certificate of occupancy for the proposed development, pursuant to ZR § 11-332; and

WHEREAS, accordingly, because the two-year time limit has expired and construction is still ongoing, the applicant seeks relief pursuant to ZR § 11-30 *et seq.*, which sets forth the regulations that apply to a reinstatement of a permit that lapses due to a zoning change; and

WHEREAS, first, the Board notes that ZR § 11-31(c)(1) defines construction such as the proposed development, which involves the construction of a single building which is non-complying under an amendment to the Zoning Resolution, as a “minor development”; and

WHEREAS, for a “minor development,” an extension of time to complete construction, previously authorized under a grant for an extension made pursuant to ZR § 11-331, may be granted by the Board pursuant to ZR § 11-332; and

WHEREAS, ZR § 11-332 reads, in pertinent part: “[I]n the event that construction permitted in Section 11-331 (Right to construct if foundations completed) has not been completed and a certificate of occupancy including a temporary certificate of occupancy, issued therefore within two years after the effective date of any applicable amendment . . . the building permit shall automatically lapse and the right to continue construction shall terminate. An application to renew the building permit may be made to the Board of Standards and Appeals not more than 30 days after the lapse of such building permit. The Board may renew such building permit for two terms of not more than two years each for a minor development . . . In granting such an extension, the Board shall find that substantial construction has been completed and substantial expenditures made, subsequent to the granting of the permit, for work required by any applicable law for the use or development of the property pursuant to the permit.”; and

WHEREAS, as a threshold issue, the Board must determine that proper permits were issued, since ZR § 11-31(a) requires: “[F]or the purposes of Section 11-33, relating to Building Permits Issued Before Effective Date of Amendment to this Resolution, the following terms and general provisions shall apply: (a) A lawfully issued building permit shall be a building permit which is based on an approved application showing complete plans and specifications, authorizes the entire construction and not merely a part thereof, and is issued prior to any applicable amendment to this Resolution. In case of dispute as to whether an application includes “complete plans and specifications” as required in this Section, the

Commissioner of Buildings shall determine whether such requirement has been met.”; and

WHEREAS, the Board finds that, as discussed in the initial vesting determination on December 8, 2009, the Permit was lawfully issued to the owner of the subject premises prior to the Enactment Date; and

WHEREAS, turning to the substantive findings of ZR § 11-332, the Board notes that there is no fixed standard in an application made under this provision as to what constitutes substantial construction or substantial expenditure in the context of new development; and

WHEREAS, the Board also observes that the work to be measured under ZR § 11-332 must be performed after the issuance of the permit; and

WHEREAS, similarly, the expenditures to be assessed under ZR § 11-332 are those incurred after the permit is issued; and

WHEREAS, as is reflected below, the Board only considered post-permit work and expenditures, as submitted by the applicant; and

WHEREAS, the Board further notes that any work performed after the two-year time limit to complete construction and obtain a certificate of occupancy cannot be considered for vesting purposes; accordingly, only the work performed as of December 8, 2011 has been considered; and

WHEREAS, in written statements and testimony, the applicant represents that, since the issuance of the New Building Permit, substantial construction has been completed and substantial expenditures were incurred; and

WHEREAS, the Board notes that on December 8, 2009, when it granted the first extension of time to complete construction pursuant to ZR § 11-332, the applicant had established that the following work had been completed on the site: 30 percent of the superstructure; 20 percent of the steel work and stairs; 15 percent of the masonry; and three percent of the plumbing work; and

WHEREAS, the applicant represents that, since the time of the initial grant, it has completed: 100 percent of the superstructure; 100 percent of the steel work and stairs; 100 percent of the masonry; 100 percent of the metal joists, deck, and concrete slab; 75 percent of the framing and sheetrock; 74 percent of the doors and windows; 66 percent of the plumbing work; 61 percent of the mechanical ventilation; 44 percent of the electrical work; and 14 percent of the air conditioning units; and

WHEREAS, in support of this statement, the applicant has submitted the following: a construction schedule detailing the work completed since the issuance of the New Building Permit and since the initial extension of time under ZR § 11-332; a breakdown of the construction costs by line item and percent complete; copies of cancelled checks; invoices; and photographs of the building’s interior and exterior; and

WHEREAS, the Board has reviewed all documentation and agrees that it establishes that the aforementioned work was completed subsequent to the issuance of the valid permit; and

WHEREAS, as to costs, the Board notes that on December 8, 2009, when it granted the first extension of

# MINUTES

time to complete construction pursuant to ZR § 11-332, the applicant had established that the total expenditure paid for the development was \$352,315, or 15 percent, of the \$2,336,238 cost to complete; and

WHEREAS, the applicant represents that it has spent an additional \$1,047,306 since the initial grant, and that the cost to complete the project has risen to \$2,360,104; and

WHEREAS, thus, the applicant represents that the total expenditure paid for the development is now \$1,399,621, or 59 percent of the \$2,360,104 cost to complete; and

WHEREAS, as noted, the applicant has submitted copies of cancelled checks and invoices; and

WHEREAS, the applicant contends that this percentage constitutes a substantial expenditure sufficient to satisfy the finding in ZR § 11-332; and

WHEREAS, based upon its review of all the submitted evidence, the Board finds that substantial construction was completed and that substantial expenditures were made since the issuance of the permits; and

WHEREAS, therefore, the Board finds that the applicant has adequately satisfied all the requirements of ZR § 11-332, and that the owner is entitled to the requested reinstatement of the New Building Permit, and all other permits necessary to complete the proposed development; and

WHEREAS, accordingly, the Board, through this resolution, grants the owner of the site a two-year extension of time to complete construction, pursuant to ZR § 11-332; and

*Therefore it is Resolved* that this application made pursuant to ZR § 11-332 to renew Building Permit No. 402527262-01-NB, as well as all related permits for various work types, either already issued or necessary to complete construction, is granted, and the Board hereby extends the time to complete the proposed development and obtain a certificate of occupancy for one term of two years from the date of this resolution, to expire on March 20, 2014.

Adopted by the Board of Standards and Appeals, March 20, 2012.

Absent: Commissioner Ottley-Brown.....1

**THE RESOLUTION** –

WHEREAS, the decisions of the Staten Island Borough Commissioner, dated July 8, 2011 and July 14, 2011, acting on Department of Buildings Application Nos. 520047075, 520047084, 520047066, and 520047057, read in pertinent part:

All uses on the ground floor located in a C1-1 within R3-1 district is limited to non-residential uses as per section 32-433 of the NYC Zoning Resolution; and

WHEREAS, this is an application under ZR § 72-21, to permit, in a C1-1 (R3-1) zoning district, the construction of four semi-detached two-story single-family homes (Use Group 2) which do not conform to the district use requirement that the ground floors be limited to non-residential uses, contrary to ZR § 32-433; and

WHEREAS, a public hearing was held on this application on January 31, 2012 after due notice by publication in *The City Record*, with a continued hearing on February 28, 2012, and then to decision on March 20, 2012; and

WHEREAS, the site and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Staten Island,

---

# MINUTES

---

recommends approval of this application; and

WHEREAS, the subject site is located on the east side of Hett Avenue, between New Dorp Lane and Beacon Place, within a C1-1 (R3-1) zoning district; and

WHEREAS, the site consists of four tax lots, each with 25 feet of frontage on Hett Avenue, a depth of 100 feet, and a lot area of 2,500 sq. ft.; and

WHEREAS, the site is currently vacant; and

WHEREAS, the applicant proposes to construct four semi-detached, two-story, single-family homes, each with a floor area of 1,500 sq. ft. (0.60 FAR) and two off-street parking spaces; and

WHEREAS, because residential use is not permitted on the ground floor in the subject C1-1 (R3-1) zoning district, the applicant seeks a use variance to permit the proposed ground floor residential use; and

WHEREAS, the applicant states that the following are unique physical conditions which create unnecessary hardship and practical difficulties in developing the site in full compliance with zoning regulations: (1) the absence of a storm sewer connection; (2) the high water table; and (3) the location on a narrow, one-way street that terminates 100 feet from the site; and

WHEREAS, as to the lack of a storm sewer connection, the applicant states that commercial development would require a storm sewer extension which would not be necessary for residential development; and

WHEREAS, the applicant submitted a letter from an engineering consultant stating that the Department of Environmental Protection ("DEP") would require the extension of the existing 15-inch storm sewer located at the corner of Hett Avenue and New Dorp Lane for a mixed-use development on the site because the storm sewer is within 200 feet from the subject property and the development would have commercial occupancies; and

WHEREAS, the letter from the engineering consultant further states that the extension of the storm sewer would require the installation of approximately 180 linear feet of private sewer in the city street to front the property, which would add approximately \$180,000 to development costs; and

WHEREAS, as to the high water table, the applicant submitted boring tests that reflect a ground water table at a depth of only seven to eight feet; and

WHEREAS, the applicant states that the high water table makes it more difficult to construct and maintain dry cellars; and

WHEREAS, the applicant further states that the potential absence of cellars adversely affects the commercial development due to the lack of storage space that could be provided, and because raising the ground floor to allow for construction of a cellar or basement for a non-residential use would necessitate the installation of ADA accessible ramps, significantly increasing the cost of construction, and would increase the height of the overall building, limiting the residential occupancy on the upper floors; and

WHEREAS, the applicant notes that raising the ground floor to allow for construction of a cellar would actually be beneficial for residential development, as it accommodates a

driveway and garage without a steep change in grade, and allows for windows at the cellar level; and

WHEREAS, as to the site's location, the applicant states that Hett Avenue is a 50-ft. wide, one-way street which terminates 100 feet north of the subject site at New Dorp Lane; and

WHEREAS, the applicant represents that the low volume of traffic and residential character on the mid-block inhibits the commercial use of the site; and

WHEREAS, the applicant further states that Hylan Boulevard, a major commercial arterial, is located only a few blocks to the west of the site, which contributes to the lack of demand for commercial use at this mid-block, residential location; and

WHEREAS, the applicant notes that the City Council approved modifications to the Lower Density Growth Management regulations in January 2011, to allow first floor residential enlargements to existing residential buildings and first floor residential use located on the "side street" frontage of corner lots that include commercial frontage on a primary commercial street (such residential use being permitted a minimum of 30 feet from the corner); and

WHEREAS, the applicant represents that these modifications reflect an acknowledgement of the difficulty of providing first floor commercial uses on properties located on side streets that are distant from primary commercial streets, and creates an unusual situation in which a completely residential section could be constructed immediately adjacent to the north of the site on the lot which fronts on both New Dorp Lane and Hett Avenue, provided it was located more than 30 feet from the intersection; and

WHEREAS, the applicant notes that the subject site is located in a small C1-1 commercial overlay that extends 200 feet from New Dorp Lane over the course of two-and-one-half blocks, and there are only four commercial uses within the commercial overlay (all fronting on New Dorp Lane), while all of the interior lots within the commercial overlay are occupied solely by residential uses; and

WHEREAS, the applicant represents that the majority of commercial overlays in the vicinity of the site have a depth of only 100 feet, and if the subject C1-1 commercial overlay had a depth of 100 feet instead of 200 feet, the proposed ground floor residential use would be permitted as-of-right; and

WHEREAS, the applicant states that the only other commercial overlays in the surrounding area with a depth of 200 feet are predominantly mapped over tax lots that exceed 100 feet in depth, and appear to have been purposely mapped to reflect the existing commercial lots and development, while the subject commercial overlay does not contain a lot with a depth greater than 103 feet, and therefore the extension of the commercial overlay 200 feet from New Dorp Lane was unnecessary; and

WHEREAS, the applicant submitted a letter from a real estate broker describing the failed efforts to market the property for mixed-use development for several months, despite the fact that there were complete plans ready for filing with the Department of Buildings for four mixed-use buildings with ground floor commercial use; and

---

# MINUTES

---

WHEREAS, the Board finds that the aforementioned unique physical conditions, when considered in the aggregate, create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the applicant submitted a feasibility study which analyzed: (1) an as-of-right mixed-use development consisting of four attached three-story mixed-use buildings with ground floor commercial use and residential use above; (2) an alternative as-of-right mixed-use development consisting of four attached, three-story mixed-use buildings with ground floor medical use space and residential use above; and (3) the proposed development consisting of four semi-detached two-story single-family homes; and

WHEREAS, the study concluded that neither of the as-of-right scenarios would result in a reasonable return, but that the proposed building would realize a reasonable return; and

WHEREAS, based upon the above, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict compliance with zoning will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant represents that the surrounding area is characterized predominantly by one- to three-story residential buildings; and

WHEREAS, the applicant submitted a 400-ft. radius diagram which reflects that the surrounding area contains exclusively residential uses with the exception of four sites which contain commercial uses within mixed-use buildings fronting on New Dorp Lane, which is the primary east/west thoroughfare in the neighborhood; and

WHEREAS, the applicant states that the proposed buildings comply with all bulk requirements within the C1-1 (R3-1) zoning district, and that the only non-conformance relates to the residential use of the first floor; and

WHEREAS, based upon the above, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title, but is the result of the site's unique physical conditions; and

WHEREAS, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, based upon the above, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an unlisted action pursuant to pursuant to 6 NYCRR, Part 617; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental

Assessment Statement (EAS) CEQR No. 12BSA008R, dated August 8, 2011; and

WHEREAS, the EAS documents show that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved*, that the Board of Standards and Appeals issues a Negative Declaration under 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit, on a site within a C1-1 (R3-1) zoning district, the proposed construction of four semi-detached two-story single-family homes (Use Group 2) which do not conform to the district use requirement that the ground floors be limited to non-residential uses, contrary to ZR § 32-433; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received December 22, 2011"- ten (10) sheets; and *on further condition*:

THAT the following are the bulk parameters for each of the four proposed semi-detached buildings: a total floor area of 1,500 sq. ft. (0.60 FAR); a wall height of 26'-0"; a total height of 35'-0"; and two off-street parking spaces, as indicated on the BSA-approved plans;

THAT construction shall proceed in accordance with ZR § 72-23;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 20, 2012.

Negative:.....0

Absent: Commissioner Ottley-Brown.....1

**THE RESOLUTION** –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated September 26, 2011, acting on Department of Buildings Application No. 320243544, reads in pertinent part:

Proposed physical culture establishment in a C4-4A zoning district is contrary to Section 32-10 ZR and requires a special permit from the BSA (73-36 ZR); and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located in a C4-4A zoning district, the operation of a physical culture establishment (PCE) at a portion of the first floor and the entire second and third floor of a three-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on December 13, 2011, after due notice by publication in *The City Record*, with a continued hearing on February 28, 2012, and then to decision on March 20, 2012; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Montanez; and

WHEREAS, the subject site is an irregular-shaped through lot bounded by Hillel Place to the north, Nostrand Avenue to the east, and Campus Road to the south, within a C4-4A zoning district; and

WHEREAS, the site has 31.2 feet of frontage on Hillel Place, 120 feet of frontage on Nostrand Avenue, 55.1 feet of frontage on Campus Road, and a total lot area of 12,234 sq. ft.; and

WHEREAS, the subject site is currently vacant; and

WHEREAS, the applicant proposes to construct a three-story commercial building on the site, with the proposed PCE occupying 15,981 sq. ft. of floor area on a portion of the

first floor and the entire second and third floors; and

WHEREAS, the PCE will be operated as Blink Fitness; and

WHEREAS, the applicant states that the hours of operation for the proposed PCE will be: Monday through Saturday, from 5:30 a.m. to 11:00 p.m.; and Sunday, from 7:00 a.m. to 9:00 p.m.; and

WHEREAS, the applicant represents that the services at the PCE include facilities for instruction and programs for physical improvement; and

WHEREAS, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No. 12BSA030K, dated October 10, 2011; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

THE RESOLUTION –

WHEREAS, the decision of the Bronx Borough Commissioner, dated November 14, 2011, acting on Department of Buildings Application No. 220147801, reads in pertinent part:

Proposed physical culture establishment in a C2-3 (R7X) zoning district is contrary to ZR 32-10, and requires a special permit from the Board of Standards and Appeals pursuant to ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located in a C2-3 (R7X) zoning district, the operation of a physical culture establishment (PCE) at a portion of the cellar and first floor of an 11-story mixed-use commercial/residential building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on February 7, 2012, after due notice by publication in *The City Record*, with a continued hearing on March 6, 2012, and then to decision on March 20, 2012; and

WHEREAS, Community Board 1, Bronx, waived the hearing for this application; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Ottley-Brown; and

WHEREAS, the subject site consists of several tax lots combined into a single zoning lot bounded by East 159<sup>th</sup> Street to the north, Eagle Avenue to the east, East 156<sup>th</sup> Street to the south, and St. Ann’s Avenue to the west; and

WHEREAS, the applicant states that the subject site was rezoned in 2008 from M1-1 to C2-3 (R7X) to permit development of St. Ann’s Terrace, a multi-building, mixed-use, New York Housing Partnership development, which includes 641 mixed-income rental units, 50,000 sq. ft. of commercial space, and underground parking for up to 459 spaces; and

WHEREAS, the applicant further states that the proposed PCE will be located within a portion of the building known as 601 East 156<sup>th</sup> Street, an 11-story mixed-use commercial/ residential building; and

WHEREAS, the proposed PCE will occupy 13,645 sq. ft. of floor area at the first floor, with an additional 2,722 sq. ft. of floor space located in the cellar; and

WHEREAS, the PCE will be operated as Blink Fitness; and

WHEREAS, the applicant states that the hours of operation for the proposed PCE will be: Monday through Saturday, from 5:30 a.m. to 11:00 p.m.; and Sunday, from 7:00 a.m. to 9:00 p.m.; and

WHEREAS, the applicant represents that the services at the PCE include facilities for instruction and programs for physical improvement; and

WHEREAS, at hearing, the Board directed the applicant to clarify the sound attenuation measures proposed for the PCE and to confirm that the use will not adversely

---

# MINUTES

---

affect the residential apartments located above the PCE space; and

WHEREAS, in response, the applicant submitted revised plans reflecting that the noise abatement measures that will be provided at the cellar and first floor to ensure that the maximum interior noise level of 45 dBA in the residential portions of the building is not exceeded will include, but will not be limited to: (1) background music in general workout areas will be from low volume speakers mounted to mitigate sound vibration; (2) thick rubber floor tiles will be located in all workout areas to absorb any impact noise from the equipment being dropped; and (3) all mechanical equipment will be located in insulated rooms; and

WHEREAS, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No. 12BSA041X, dated November 14, 2011; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved* that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance

with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site located in a C2-3 (R7X) zoning district, the operation of a physical culture establishment at a portion of the cellar and first floor of an 11-story mixed-use commercial/residential building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received March 2, 2012" - (4) sheets, and *on further condition*:

THAT the term of this grant will expire on March 20, 2022;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages must be performed by New York State licensed massage therapists;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

This resolution adopted on February 14, 2012, under Calendar No. 248-75-BZ and printed in Volume 97, Bulletin No. 8, is hereby corrected to read as follows:

### 248-75-BZ

APPLICANT – Alfonso Duarte, P.E., for 444 East 86<sup>th</sup> Street Owners Corp., owner; Quick Park, lessee.

SUBJECT – Application August 8, 2011 – Extension of Term permitting the use of a maximum of 50 transient parking spaces within an accessory garage granted by the Board pursuant to §60 (3) of the Multiple Dwelling Law, which expired on October 14, 2010; Waiver of the Rules. R8B, R10 and C1-5 zoning districts.

PREMISES AFFECTED – 1621 York Avenue, aka 436 East 86<sup>th</sup> Street, west side of York Avenue, Block 1565, Lot 29, Borough of Manhattan.

### COMMUNITY BOARD #8M

APPEARANCES –

For Applicant: Alfonso Duarte.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown and Commissioner Montanez.....4

Negative:.....0

Absent: Commissioner Hinkson.....1

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, and an extension of term for a previously granted variance for a transient parking garage, which expired on October 14, 2010; and

WHEREAS, a public hearing was held on this application on December 13, 2011, after due notice by publication in *The City Record*, with a continued hearing on January 24, 2012, and then to decision on February 14, 2012; and

WHEREAS, Community Board 8, Manhattan, recommends approval of this application; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the subject premises is an irregular-shaped lot with approximately 143 feet of frontage on the south side of East 86<sup>th</sup> Street and 50 feet of frontage on the west side of York Avenue, partially within an R10 zoning district, partially within an R10A zoning district, and partially within a C1-5 (R10A) zoning district; and

WHEREAS, the site is occupied by a 37-story residential building; and

WHEREAS, the cellar and a portion of the first floor are occupied by a 126-space accessory parking garage; and

WHEREAS, on October 14, 1975, under the subject calendar number, the Board granted a variance pursuant to

---

# MINUTES

---

Section 60(3) of the Multiple Dwelling Law to permit a maximum of 50 surplus parking spaces on the first floor to be used for transient parking, for a term of 15 years; and

WHEREAS, subsequently, the grant was amended and the term extended at various times; and

WHEREAS, most recently, on September 12, 2000, the Board granted a ten-year extension of term, which expired on October 14, 2010; and

WHEREAS, the applicant now requests an additional extension of the term; and

WHEREAS, the applicant submitted a photograph of the sign posted onsite, which states building residents' right to recapture the surplus parking spaces; and

WHEREAS, at hearing, the Board directed the applicant to clarify the signage and hours of operation of the site; and

WHEREAS, in response, the applicant submitted a revised plan and signage analysis reflecting that the signage complies with C1 district signage regulations except that the illuminated sign projects six inches beyond the maximum permitted projection across the street line; and

WHEREAS, the applicant states that the illuminated sign is the only sign that is visible to motorists travelling in either direction along York Avenue, since the garage entrance is otherwise hidden from motorists' view; and

WHEREAS, the applicant states that the hours of operation for the garage are as follows: Monday through Wednesday, from 6:00 a.m. to 12:00 a.m.; Thursday and Friday, from 6:00 a.m. to 2:00 a.m.; and Saturday and Sunday, from 7:00 a.m. to 2:00 a.m.; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of term is appropriate with certain conditions set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens*, and *amends* the resolution having been adopted on October 14, 1975, so that, as amended, this portion of the resolution shall read: "to permit the extension of the term of the grant for an additional ten years from October 14, 2010, to expire on October 14, 2020; *on condition* that all use and operations shall substantially conform to plans filed with this application marked Received 'August 8, 2011'-(2) sheets and Received 'January 10, 2012'-(1) sheet; and *on further condition*:

THAT this term will expire on October 14, 2020;

THAT all residential leases must indicate that the spaces devoted to transient parking can be recaptured by residential tenants on 30 days notice to the owner;

THAT a sign providing the same information about tenant recapture rights must be located in a conspicuous place within the garage, permanently affixed to the wall;

THAT all signage will be in accordance with the BSA-approved plans;

THAT the above conditions and all relevant conditions from the prior resolutions will appear on the certificate of occupancy;

THAT the layout of the parking lot will be as approved by the Department of Buildings;

THAT this approval is limited to the relief granted by the

Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted." (DOB Application No. 102824650)

Adopted by the Board of Standards and Appeals, February 14, 2012.

**\*The resolution has been revised to add Approved Plans dated 'Received January 10, 2012'. Corrected in Bulletin Nos. 12-13, Vol. 97, dated March 29, 2012.**

## \*CORRECTION

This resolution adopted on March 6, 2012, under Calendar No. 548-79-BZ and printed in Volume 97, Bulletin No. 11, is hereby corrected to read as follows:

### 548-79-BZ

APPLICANT – Bryan Cave LLP, for 249 West 29 Owners Corp.

SUBJECT – Application December 2, 2011 – Amendment of a previously approved variance (§72-21) which permitted residential use (UG2) on floors 3 through 15. Application seeks to legalize residential use on the 2nd floor, contrary to use regulations §42-481. M1-6D zoning district.

PREMISES AFFECTED – 247-251 West 29<sup>th</sup> Street, north side of West 29<sup>th</sup> Street, 170' east of 8<sup>th</sup> Avenue, Block 779, Lot 10, 12, Borough of Manhattan.

### COMMUNITY BOARD #5M

#### APPEARANCES –

For Applicant: Margery Perlmutter.

**ACTION OF THE BOARD** – Application granted on condition.

#### THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

#### THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment to a previously granted variance which permitted the conversion of all floors above the second floor of a 15-story commercial and manufacturing building to residential use, contrary to ZR § 42-00; and

WHEREAS, a public hearing was held on this application on February 14, 2012, after due notice by publication in *The City Record*, and then to decision on March 6, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 5, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the north side of West 29<sup>th</sup> Street between Seventh Avenue and Eighth Avenue, within an M1-6D zoning district; and

WHEREAS, the applicant notes that the site was formerly located within an M1-5 zoning district, but on September 21, 2011, the City Council rezoned the site to M1-6D; and

WHEREAS, the site has 75 feet of frontage on West 29<sup>th</sup> Street, a depth of 100 feet, and a lot area of 7,500 sq. ft.; and

WHEREAS, the site is occupied by a 50-ft. wide 15-story building at 249 West 29<sup>th</sup> Street (the “249 Building”) and an adjoining 25-ft. wide, two-story building at 247 West 29<sup>th</sup> Street (the “247 Building”) (together, the “Building”); and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 15, 1980 when, under the subject

calendar number, the Board granted a variance pursuant to ZR § 72-21, which permitted the conversion of all floors above the second floor of the commercial and manufacturing building to residential use, contrary to ZR § 42-00; and

WHEREAS, subsequently, the grant was amended on several occasions to permit changes in the number of dwelling units on certain floors, changes to the interior layout of the Building, and the addition of a greenhouse on the exterior balcony of the tenth floor; and

WHEREAS, the applicant now seeks to amend the grant to permit the further conversion of the three commercial units on the second floor to residential use; and

WHEREAS, the applicant states that the original variance requested conversion of the second floor of the Building, which at the time was occupied by an active conforming use, to residential as well, however the Board excluded the second floor from the variance approval; and

WHEREAS, the applicant states that in the years since the variance was granted, the owners of the three units on the second floor have had difficulty finding long-term replacement tenants, and all of the commercial spaces on the second floor are now occupied as live-work spaces; and

WHEREAS, the applicant represents that converting the second floor to residential use is necessary to provide a reasonable return because the owners are unlikely to find commercial tenants for the second floor units for the following reasons: (1) the floor plates and size of the units at the second floor are too small to be attractive to many manufacturing or commercial uses; (2) the layout of the second floor imposes hardships on the suitability and marketability of that floor for conforming uses; and (3) there is only one lobby and elevator for both the residential and commercial tenants, which creates access, egress, and security issues; and

WHEREAS, as to the physical structure of the Building, the applicant states that the Building has small floor plates with units containing less than 2,100 sq. ft. each, and are too small to accommodate the types of commercial and manufacturing uses that operate in the surrounding area; and

WHEREAS, the Board notes that the unique building conditions, which support the findings for the original variance for the third through 15<sup>th</sup> floors, namely that those floors were not viable for a conforming use due to the building’s inadequate floor plates, there was a lack of interest in such spaces for commercial use, and the decline of the manufacturing sector in the area that led to extensive vacancies, also apply to the second floor; and

WHEREAS, as to the layout of the second floor, the applicant notes that the second floor of the 249 Building is 50 feet wide and approximately 88 feet deep (4,400 sq. ft.), and is occupied by two of the second floor units, while the second floor of the 247 Building is 25 feet wide and approximately 88 feet deep (2,210 sq. ft.), and is occupied by one of the second floor units; and

WHEREAS, the applicant states that for structural reasons there is a four-ft. wide penetration through the party wall that connects the 249 Building and the 247 Building, which separates the first and second floors of the Building into two parts; and

---

# MINUTES

---

WHEREAS, the applicant further states that the opening in the party wall to allow access between the 247 Building and the 249 Building is limited by structural considerations, so it is not possible to treat the two portions as a single contiguous 6,610 sq. ft. space, which would be more marketable for conforming uses; and

WHEREAS, the applicant states that the elevator and stair cores, which occupy approximately 1,120 sq. ft., are located in the 249 Building and are the only means of access to the unit in the 247 Building; and

WHEREAS, the applicant represents that installing separate stairs and an elevator in the 247 Building solely to access one unit would be cost prohibitive and would significantly reduce the size of the retail space on the first floor, further reducing the Building's revenue; and

WHEREAS, as to the access issues, the applicant states that there is only one passenger elevator, while the freight elevator is manually operated and there is no full-time elevator operator on staff because it is cost prohibitive; and

WHEREAS, the applicant states that because visitors and employees of the commercial tenants at the second floor cannot use the manual freight elevator and there is no full-time elevator operator, commercial and residential tenants must share a common lobby and elevator, which results in an inappropriate mixing of public and private occupancies that poses a significant security risk to residential tenants; and

WHEREAS, the applicant represents that modification of the existing service corridor to provide separate, 36-inch wide clear access into the building by commercial tenants and their guests would require redirecting service risers and flues, repurposing a portion of the existing disused elevator shaft into a lobby area in order to be ADA-accessible, and converting the existing freight elevator from manual to automatic which would cost in excess of \$415,000; and

WHEREAS, as noted above, the subject site was rezoned from an M1-5 zoning district to an M1-6D zoning district on September 21, 2011; and

WHEREAS, the applicant states that in M1-6D zoning districts, ZR § 42-481 permits residential use in existing buildings where the building to be converted contains less than 40,000 sq. ft. of floor area; and

WHEREAS, however, the applicant notes that the Building contains approximately 62,500 sq. ft. of floor area and therefore is not eligible for as-of-right residential conversion pursuant to ZR § 42-481; and

WHEREAS, the applicant represents that the recent rezoning of the site to M1-6D reflects that residential uses are consistent with the surrounding neighborhood, which is characterized by a mix of manufacturing, commercial and residential uses; and

WHEREAS, pursuant to ZR §§ 72-01 and 72-22, the Board may permit an amendment to an existing variance; and

WHEREAS, based upon its review of the evidence, the Board finds that the requested amendment is appropriate, with certain conditions set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated January 15, 1980, so that as amended this portion of the resolution shall

read: "to permit the noted modification to the plans to reflect the conversion of the second floor to residential use, contrary to ZR § 42-481; *on condition* that all work shall substantially conform to drawings filed with this application and marked 'Received December 2, 2011'-(3) sheets; and *on further condition*:

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted." (DOB Application No. 120883491)

Adopted by the Board of Standards and Appeals, March 6, 2012.

**\*The resolution has been revised to correct Approved Plans which read: 'Received December 2, 2011'-(4) sheets now reads: 'Received December 2, 2011'-(3) sheets. Corrected in Bulletin Nos. 12-13, Vol. 97, dated March 29, 2012.**

## REGULAR MEETING TUESDAY MORNING, MARCH 27, 2012 10:00 A.M.

Present: Chair Srinivasan, Vice-Chair Collins,  
Commissioner Ottley-Brown, Commissioner Hinkson and  
Commissioner Montanez.

### SPECIAL ORDER CALENDAR

#### 118-53-BZ

APPLICANT – Issa Khorasanchi, for Henry R. Jenet,  
owner.

SUBJECT – Application October 24, 2011 – Extension of  
Term (§11-411) for continued operation of UG6 retail stores  
which expired on December 7, 2011. R4 zoning district.

PREMISES AFFECTED – 106-57/61 160<sup>th</sup> Street, east side  
of 160<sup>th</sup> Street, 25' north of intersection of 107<sup>th</sup> Avenue and  
160<sup>th</sup> Street, Block 10128, Lot 50, Borough of Queens.

#### COMMUNITY BOARD #12Q

#### APPEARANCES –

For Applicant: Issa Khorasanchi.

**ACTION OF THE BOARD** – Application granted on  
condition.

#### THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins,  
Commissioner Ottley-Brown, Commissioner Hinkson and  
Commissioner Montanez .....5

Negative:.....0

#### THE RESOLUTION –

WHEREAS, this is an application for a reopening and  
an extension of the term for a previously granted variance  
for the operation of Use Group 6 retail stores; and

WHEREAS, a public hearing was held on this  
application on January 10, 2012, after due notice by  
publication in *The City Record*, with a continued hearing on  
February 28, 2012, and then to decision on March 27, 2012;  
and

WHEREAS, Community Board 12, Queens,  
recommends approval of this application; and

WHEREAS, the premises and surrounding area had  
site and neighborhood examinations by Chair Srinivasan,  
Commissioner Hinkson, Commissioner Montanez, and  
Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the east side of  
160<sup>th</sup> Street, between 107<sup>th</sup> Avenue and South Road, within an  
R4 zoning district; and

WHEREAS, the Board has exercised jurisdiction over  
the site since June 19, 1953 when, under the subject calendar  
number, the Board granted a variance to permit the  
construction and maintenance of a building occupied by retail  
stores (Use Group 6) with a loading and unloading area and a  
curb cut at the rear of the building, within a residence use  
district, for a term of 20 years; and

WHEREAS, subsequently, the grant was amended and  
the term extended at various times; and

WHEREAS, most recently, on August 6, 2002, the Board  
granted a ten-year extension of term, which expired on  
December 7, 2011; and

WHEREAS, the applicant now seeks an additional ten-  
year extension of the term; and

WHEREAS, pursuant to ZR § 11-411, the Board may  
permit an extension of term; and

WHEREAS, at hearing, the Board directed the applicant  
to repair the damaged fence at the rear of the site, to clarify  
whether the advertisements in the windows of the building are  
permitted and whether the parking in the rear of the site  
obstructs loading and unloading operations, and to confirm that  
the site is in compliance with the condition from the prior grant  
that a sign be posted at the rear of the building regarding Fire  
Department access; and

WHEREAS, in response, the applicant submitted  
photographs reflecting that the fence at the rear of the site has  
been repaired and the advertisements have been removed from  
the windows, and submitted an affidavit from the owner stating  
that the parking area in the rear of the building is only used for  
the parking of four cars on a daily basis; and

WHEREAS, the applicant also submitted a photograph  
reflecting that a sign is posted at the rear of the building  
alerting the Fire Department that the building is accessed  
through two steel plate doors approximately ten feet apart, in  
compliance with the conditions from the previous grant; and

WHEREAS, based upon the above, the Board finds  
that the requested extension of term is appropriate with  
certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and  
Appeals *reopens* and *amends* the resolution, dated June 19,  
1953, so that as amended this portion of the resolution shall  
read: “to extend the term for ten years from December 7,  
2011, to expire on December 7, 2021; *on condition* that all  
use and operations shall substantially conform to plans filed  
with this application marked ‘Received November 28,  
2011’-(1) sheet and ‘March 26, 2012’-(1) sheet; and *on  
further condition*:

THAT the term of the grant will expire on December 7,  
2021;

THAT parking at the rear of the site be limited to a  
maximum of four cars;

THAT the site will be maintained free of debris and  
graffiti;

THAT the above conditions will appear on the certificate  
of occupancy;

THAT all conditions from prior resolution not  
specifically waived by the Board remain in effect; and

THAT the Department of Buildings must ensure  
compliance with all other applicable provisions of the  
Zoning Resolution, the Administrative Code and any other  
relevant laws under its jurisdiction irrespective of plan(s)  
and/or configuration(s) not related to the relief granted.”  
(DOB App. No. 420375347)

Adopted by the Board of Standards and Appeals March  
27, 2012.

## APPEALS CALENDAR

### 15-11-A

APPLICANT – Slater & Beckerman, LLP, for 1239 Operating Corporation, owner.

SUBJECT – Application February 10, 2011 – Appeal challenging the Department of Building's determination that a non-illuminated advertising sign and structure is not a legal non-conforming advertising sign pursuant to ZR §52-00. C6 zoning district.

PREMISES AFFECTED – 860 Sixth Avenue, through lot on the north side of West 30<sup>th</sup> Street, between Broadway and Avenue of the Americas, Block 832, Lot 1. Borough of Manhattan.

### COMMUNITY BOARD #5M

APPEARANCES –

For Applicant: Neil Weisbard.

**ACTION OF THE BOARD** – Appeal granted

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an appeal of a final determination, issued by the Manhattan Borough Commissioner of the Department of Buildings (“DOB”) on January 12, 2011 (the “Final Determination”), brought by the property owner (the “Appellant”); and

WHEREAS, the Final Determination states, in pertinent part:

Request to legalize non-conforming flex faced advertising sign is denied. The evidence submitted as outlined in the attached request letter does not support the legal existence of the proposed advertising sign use when such signs became prohibited with the change of the zoning district to C6; and

WHEREAS, a public hearing was held on this appeal on August 23, 2011 after due notice by publication in *The City Record*, with a continued hearing on February 14, 2012, and then to decision on March 27, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on a lot bounded by Sixth Avenue to the west, West 30<sup>th</sup> Street to the south, and Broadway to the east, within a C6-4X zoning district; and

WHEREAS, the site is occupied by three buildings, including a 16-story building fronting on both Broadway and Sixth Avenue (the “Building”) with four non-illuminated advertising signs, including one located on the western portion of the south wall (the “Sign”), which is the subject of this appeal; and

WHEREAS, the Sign consists of a replaceable non-illuminated fabric wall sign hanging from a sign structure made up of two approximately two-inch wide galvanized steel angle irons (the “Sign Structure”), with an area of approximately 2,660 sq. ft. and; the Sign is hung from the Sign Structure using “J” hooks and thin steel cables; and

WHEREAS, prior to October 25, 1995, the site was located entirely within an M1-6 zoning district, in which the Sign would be permitted as-of-right; and

WHEREAS, however, the site was rezoned from an M1-6 zoning district to a C6-4X zoning district on October 25, 1995 (or the “Rezoning Date”), in which the Sign is not permitted as-of-right; and

### PROCEDURAL HISTORY

WHEREAS, on March 20, 2007, DOB performed an inspection of the site and issued several Environmental Control Board (“ECB”) violations to the operator of the Sign, including

# MINUTES

a violation for an impermissible advertising sign in a C6-4X zoning district pursuant to ZR § 32-63 and a violation for a sign on display without a permit pursuant to Administrative Code § 27-147;

WHEREAS, following the issuance of the ECB violations, a hearing was held on February 7, 2008, and on April 8, 2008 an Administrative Law Judge found the Appellant in violation (the “ECB Decision”); and

WHEREAS, the Appellant states that since the date of the ECB Decision it has been working to obtain a determination from DOB that the Sign is legally non-conforming; and

WHEREAS, specifically, following the ECB Decision, the Appellant submitted several letters to DOB seeking a determination that the Sign is permitted to remain at the site as a legal, non-conforming sign, and on June 24, 2010 submitted a Zoning Resolution Determination Form (“ZRD1”) to the Manhattan Borough Office requesting a determination that (1) the Sign was lawfully established in, or prior to, September 1961, (2) the Sign constituted a conforming use from the date of its establishment to 1995, when the zoning changed from an M1-6 to a C6-4X zoning district, and (3) that since the Sign’s use has not been discontinued for a continuous period of two or more years it is legally non-conforming and, therefore, may be maintained or altered, pursuant to the Zoning Resolution; and

WHEREAS, on August 12, 2010, the Manhattan Borough Commissioner issued a determination denying the ZRD1 request; and

WHEREAS, on November 12, 2010, the Appellant submitted a similar ZRD1 request to DOB’s Technical Affairs Unit, which resulted in DOB’s issuance of the Final Determination; and

## RELEVANT ZONING RESOLUTION PROVISIONS

### ZR § 12-10 (Definitions)

Non-conforming, or non-conformity

A “non-conforming” #use# is any lawful #use#, whether of a #building or other structure# or of a #zoning lot#, which does not conform to any one or more of the applicable #use# regulations of the district in which it is located, either on December 15, 1961 or as a result of any subsequent amendment thereto. . .

\* \* \*

### ZR § 52-11 (Continuation of Non-Conforming Uses)

General Provisions

A #non-conforming use# may be continued, except as otherwise provided in this Chapter; and

\* \* \*

### ZR § 52-61 (Discontinuance)

General Provisions

If, for a continuous period of two years, either the #nonconforming use# of #land with minor improvements# is discontinued, or the active operation of substantially all the #non-conforming uses# in any #building or other structure# is discontinued, such land or #building or other structure# shall thereafter be used only for a

conforming #use#. Intent to resume active operations shall not affect the foregoing . . . ; and

## THE APPLICABLE STANDARD FOR NON-CONFORMING USES

WHEREAS, DOB and the Appellant agree that the site is currently within a C6-4X zoning district and that the Sign is not permitted as-of-right within the zoning district; and

WHEREAS, accordingly, in order to establish the affirmative defense that the non-conforming signs are permitted to remain, the Appellant must meet the Zoning Resolution’s criteria for a “non-conforming use” as defined at ZR § 12-10; and

WHEREAS, ZR § 12-10 defines “non-conforming” use as “any lawful use, whether of a *building or other structure* or of a tract of land, which does not conform to any one or more of the applicable use regulations of the district in which it is located, either on December 15, 1961 or as a result of any subsequent amendment thereto”; and

WHEREAS, additionally, the Appellant must comply with ZR § 52-61 (*Discontinuance, General Provisions*) which states that: “[i]f, for a continuous period of two years, either the *non-conforming use of land with minor improvements* is discontinued, or the active operation of substantially all the *non-conforming uses* in any *building or other structure* is discontinued, such land . . . shall thereafter be used only for a conforming use”; and

WHEREAS, accordingly, DOB asserts that as per the Zoning Resolution, the Appellant must establish that the use was lawfully established before it became unlawful, by zoning, on October 25, 1995 and it must have continued without any two-year period of discontinuance since then; and

WHEREAS, thus, the Board notes that the standard to apply to the subject sign is (1) the sign existed lawfully as of October 25, 1995, and (2) that the use did not change or cease for a two-year period since then. See ZR §§ 12-10, 52-61; and

## APPELLANT’S POSITION

- Lawful Establishment

WHEREAS, the Appellant states that a sign has existed on the western portion of the south wall of the site since at least August 1930, originally as a painted advertising sign; and

WHEREAS, the Appellant further states that in, or prior to, September 1961, the painted sign was converted to an approximately 2,660 sq. ft. replaceable non-illuminated fabric wall sign, at which time the Sign Structure was installed to support the Sign; and

WHEREAS, the Appellant represents that at the time the Sign Structure was installed and the Sign was converted from a painted sign to a replaceable fabric sign, the Zoning Resolution allowed non-illuminated advertising wall signs at the site, with no restrictions on size or height, and the Building Code did not require a permit for the installation of the Sign and Sign Structure; and

WHEREAS, the Appellant notes that Article 2 of the 1938 Building Code, which was in effect in September 1961, regulated the use of signs and contained no provision requiring a permit for the installation of a non-illuminated wall sign; and

WHEREAS, specifically, the Appellant states that the

---

# MINUTES

---

only provisions which referenced the issuance of permits were those relating to ground and roof signs (Section 26-9.0 of the 1938 Building Code) and illuminated signs (Section 26-13.0 of the 1938 Building Code), which specifically stated “permits required” and “issue of permits,” respectively; however, the provision relating to “signs on walls” (Section 26-12.0 of the 1938 Building Code), which would have regulated the Sign and Sign Structure, contained no mention of permits; and

WHEREAS, the Appellant notes that DOB initially argued that a permit was required for the installation of the Sign since the 1938 Building Code; however, DOB subsequently amended its position to concede that the 1938 Building Code did not require permits for non-illuminated wall signs or sign structures, and that permits were not required for a non-illuminated wall sign the size of the Sign until the enactment of the 1968 Building Code; and

WHEREAS, in support of its assertion that the Sign and Sign Structure were lawfully established as of September 1961, the Appellant submitted (1) a September 1961 photograph of the Sign, (2) a letter from the President of Skyviews Survey Inc, a professional photographer, concluding that the September 1961 photograph shows that the Sign cast a shadow which could only result from a physical structure, and that the Sign consisted of a canvas material hung from a physical structure, rather than a painted sign; (3) an affidavit from the Vice President of Service Sign Erectors stating that the company installed advertising copy on the Sign Structure from 1961 to 2008 (the “Service Sign Erectors Affidavit”); and (4) an affidavit from the President of Allied Outdoor Advertising, stating that the company owned and controlled the Sign and Sign Structure prior to 1961, when the Seagrams advertising copy (pictured in the September 1961 photograph) was located on the Sign Structure, until 1993; and

WHEREAS, accordingly, the Appellant states that it has established that the Sign and Sign Structure were installed as of September 1961, prior to the enactment of the 1968 Building Code, when a permit first would have been required for such installation; and

WHEREAS, the Appellant submitted the following evidence in support of the existence of the Sign and Sign Structure as of the October 25, 1995 rezoning date: (1) a June 1995 aerial photograph of the Sign and accompanying letter of authentication; (2) a November 25, 2009 letter from the president of Skyviews Survey Inc., a professional photographer, in support of the June 1995 aerial photograph depicting the existence of the Sign; (3) a February 2, 1995 invoice from Service Sign Erectors (the “Service Sign Erectors Invoice”) which states “[i]nstalled Cellular One ad copy”; (4) the Service Sign Erectors Affidavit, which states that the company installed a “Cellular One” flexface vinyl sign onto the Sign Structure on February 2, 1995; and (4) an affidavit from a nearby retailer, stating that he personally witnessed the Sign on September 7, 1995; and

WHEREAS, the Appellant also submitted evidence of the continuous existence of the Sign between September 1961 and October 25, 1995, but states that because the sign was lawfully established before a permit was required in 1968, and because the Sign did not become non-conforming until October

25, 1995, the ZR § 52-61 requirement that there be no two-year discontinuance of the use of the Sign did not apply until October 25, 1995; and

WHEREAS, therefore, the Appellant concludes that the Sign and Sign Structure were lawfully established prior to the enactment of the 1968 Building Code and were in existence as of the October 25, 1995 rezoning date; and

- Continuity of the Sign

WHEREAS, the Appellant submitted photographs, leases, invoices, accounting statements, tax documents, copies of checks, certificates of liability insurance, and letters as primary evidence to establish the continuity of use of the Sign and Sign Structure since at least October 25, 1995; and

WHEREAS, the Appellant also submitted 11 affidavits from local retailers and the owner of the site, in support of the continuous use and existence of the Sign and Sign Structure, each attesting to personally witnessing the continued existence of the Sign since the Rezoning Date, with occasional changes in the subject matter being advertised (the “Affidavits”); and

WHEREAS, as noted above, in support of the existence of the Sign as of the Rezoning Date, the Appellant submitted: (1) the June 1995 aerial photograph of the Sign and accompanying letter of authentication; (2) the November 25, 2009 letter in support of the June 1995 aerial photograph depicting the existence of the Sign; (3) the Service Sign Erectors Invoice; (4) the Service Sign Erectors Affidavit; (5) an affidavit from a nearby retailer, stating that he personally witnessed the Sign on September 7, 1995, and from such date continuously until 2008 with occasional changes in the subject matter being advertised; and (6) the remaining Affidavits; and

WHEREAS, in support of the existence of the Sign in 1996, the Appellant submitted: (1) a letter dated September 9, 1996 from Continental Outdoor, Inc., (“Continental Outdoor”), then-lessee of the Sign and Sign Structure, regarding the payment of monthly rent for September 1996 and stating that “our installers will need roof access to install ad copy during the first week of October”; and (2) the Affidavits; and

WHEREAS, in support of the existence of the Sign in 1997, the Appellant submitted: (1) an August 3, 1997 aerial photograph of the Sign and an accompanying letter of authentication; (2) a lease for the Sign and Sign Structure, dated July 16, 1997, between the owner and Continental Outdoor, for a term of five years (the “1997 Lease”); (3) a copy of a check, dated September 15, 1997, for the monthly rent for the Sign and Sign Structure for September 15, 1997 to October 14, 1997; and (4) the Affidavits; and

WHEREAS, in support of the existence of the Sign in 1998, the Appellant submitted: (1) the 1997 Lease; (2) a letter from Eller Media Company, dated May 19, 2000, stating that it had been assigned the 1997 Lease on or about June 1998; and (3) the Affidavits; and

WHEREAS, in support of the existence of the Sign in 1999, the Appellant submitted: (1) an October 1999 photograph of the Sign and an accompanying letter of authentication; (2) an invoice from the owner’s management company, indicating the payment of rents from April 1999 to October 1999; (3) the 1997 Lease; and (4) the Affidavits; and

WHEREAS, in support of the existence of the Sign in

---

# MINUTES

---

2000, the Appellant submitted: (1) a photograph of the Sign dated between January 1, 2000 and February 29, 2000 and an accompanying letter of authentication; (2) a photograph of the Sign dated between March 1, 2000 and April 30, 2000 and an accompanying letter of authentication; (3) a sublease for the Sign and Sign Structure dated June 23, 2000, between the owner and Eller Media Co., for a term of ten years (the "2000 Sublease"); (4) an addendum to the 1997 Lease, dated June 23, 2000; (5) copies of a check, dated June 21, 2000, for the monthly rent of the Sign and Sign Structure; (6) a letter from the owner's management company, dated June 22, 2000, acknowledging receipt of the June 21, 2000 rent check; and (7) the Affidavits; and

WHEREAS, in support of the existence of the Sign in 2001, the Appellant submitted: (1) copies of checks and accounting statements for the monthly rent of the Sign and Sign Structure; (2) a letter from Eller Media Co., the tenant in possession of the sign space, stating that it changed its name to Clear Channel Outdoor, Inc., ("Clear Channel"); (3) a certificate of liability insurance, dated March 30, 2001, for the Sign and Sign Structure; (4) a letter from Clear Channel, dated September 4, 2001, regarding the payment of monthly rent of the Sign and Sign Structure for September 2001; (5) the 2000 Sublease; and (6) the Affidavits; and

WHEREAS, in support of the existence of the Sign in 2002, the Appellant submitted: (1) a 1099 – Miscellaneous Income Statement reflecting income received for the Sign and Sign Structure; (2) a letter from Clear Channel, dated May 15, 2002, amending the terms of the 1997 Lease; (3) a letter from Clear Channel, dated November 15, 2002, regarding the payment of monthly rent of the Sign and Sign Structure for October 2002; (4) the 2000 Sublease; and (5) the Affidavits; and

WHEREAS, in support of the existence of the Sign in 2003, the Appellant submitted: (1) copies of checks from Clear Channel for monthly rent of the Sign and Sign Structure; (2) accounting statements from Clear Channel, indicating monthly rent payments; (3) a certificate of liability insurance dated April 2, 2003 for the Sign and Sign Structure; (4) the 2000 Sublease; and (5) the Affidavits; and

WHEREAS, in support of the existence of the Sign in 2004, the Appellant submitted: (1) copies of checks from Clear Channel for monthly rent of the Sign and Sign Structure; (2) accounting statements from Clear Channel, indicating monthly rent payments; (3) a certificate of liability insurance dated October 26, 2004 for the Sign and Sign Structure; (4) the 2000 Sublease; and (5) the Affidavits; and

WHEREAS, in support of the existence of the Sign in 2005, the Appellant submitted: (1) copies of checks from Clear Channel for monthly rent of the Sign and Sign Structure; (2) accounting statements from Clear Channel, indicating monthly rent payments; (3) a 1099 – Miscellaneous Income Statement reflecting income received for the Sign and Sign Structure; (4) the 2000 Sublease; and (5) the Affidavits; and

WHEREAS, in support of the existence of the Sign in 2006, the Appellant submitted: (1) accounting statements from Clear Channel, indicating monthly rent payments; (2) the 2000 Sublease; and (3) the Affidavits; and

WHEREAS, in support of the existence of the Sign in 2007, the Appellant submitted: (1) accounting statements from Clear Channel, indicating monthly rent payments; (2) ECB violations issued by DOB on March 20, 2007, relating to the use of the Sign and Sign Structure; (3) a certificate of liability insurance dated October 29, 2007 for the Sign and Sign Structure; (4) the 2000 Sublease; and (5) the Affidavits; and

WHEREAS, in support of the existence of the Sign in 2008, the Appellant submitted: (1) accounting statements from Clear Channel, indicating monthly rent payments; (2) the 2000 Sublease; and (3) the Affidavits; and

WHEREAS, as noted above, the Appellant also submitted evidence of the continuous existence of the Sign dating back to 1961, but states that because the sign was lawfully established before a permit was required in 1968, and because the Sign did not become non-conforming until the Rezoning Date, the ZR § 52-61 requirement that there be no two-year discontinuance of the use of the Sign did not apply until the October 25, 1995; and

WHEREAS, based on the above, the Appellant contends that it has established that the Sign has been continuously in existence since at least October 25, 1995; and

## THE DEPARTMENT OF BUILDINGS' ARGUMENTS

WHEREAS, DOB asserts that (1) the Appellant failed to show that the Sign was established as a lawful, non-conforming use prior to the October 25, 1995 change in zoning, which prohibited the sign and (2) even if the Appellant could establish that the Sign was established as a lawful, non-conforming use, the Appellant failed to establish that such use continued without an impermissible change or interruption of that use for a period of two years or more; and

WHEREAS, DOB cites to ZR § 52-11 for the requirement that non-conforming uses are permitted to continue except as otherwise provided in Article V, Chapter 2 and that ZR § 52-61 requires that "[I]f for a continuous period of two years . . . the active operation of substantially all the non-conforming uses in any building or other structure is discontinued, such land or building or other structure shall thereafter be used only for a conforming use;" and

WHEREAS, DOB also cites to ZR § 51-00 for the legislative intent and purpose of regulations governing non-conforming uses and to support its position that non-conforming uses are disfavored under the Zoning Resolution and public policy demands strict control and the elimination of such uses; ZR § 51-00 states that "the regulations governing non-conforming uses set forth [in this Chapter] are therefore adopted in order to provide a gradual remedy for existing undesirable conditions resulting from such incompatible non-conforming uses..." and

- Lawful Establishment

WHEREAS, as to the lawful establishment, DOB notes that, per ZR § 12-10, the Appellant must first establish that the Sign existed lawfully on October 25, 1995, the date the zoning district changed from M1-6 to C6-4X; and

WHEREAS, DOB notes that if a use is not established lawfully, it is not a non-conforming use and must be discontinued; and

WHEREAS, as noted above, DOB initially asserted that

---

# MINUTES

---

the Appellant failed to establish that the Sign was lawfully established prior to the Rezoning Date because a permit has been required to install an advertising sign since 1938; and

WHEREAS, however, DOB subsequently revised its position to note that the Appellant correctly states that the 1938 Building Code did not require permits for non-illuminated wall signs and that a permit for a non-illuminated wall sign of the Sign's size only required a permit as of the enactment of the 1968 Building Code; and

WHEREAS, DOB stated that the evidence indicates that sometime between December 15, 1961 and October 25, 1995, the Sign and Sign Structure were removed and therefore, any installation of a sign after the removal (if post-1968) would have required a lawfully issued permit in order to establish the lawful, non-conforming use of the Sign as required by the Zoning Resolution; and

WHEREAS, DOB based its assertion on the fact that the Appellant failed to produce a permit for the Sign prior to October 25, 1995; DOB states that it has searched its records and could not find evidence of a permit, but that the burden remains on the Appellant to provide evidence that the Sign was lawfully constructed in order to be considered a non-conforming use; and

WHEREAS, DOB asserts that the evidence established that neither the Sign nor a Sign Structure existed at the site on August 30, 1994, based on a photograph dated August 30, 1994 (the "1994 Photograph") that it concludes reflects the absence of the Sign and Sign Structure; further, DOB cites to a September 16, 2009 letter from the Appellant's prior counsel which states that a Marlboro sign at the site was removed in 1991, and the next evidence to reflect its replacement was a lease dated July 16, 1997 between the owner and a sign company; and

WHEREAS, DOB asserts that the Appellant fails to establish that the sign was lawfully established prior to August 30, 1994 since once the Sign Structure was removed as early as 1991 and as late as August 30, 1994, a permit was required for any sign structure constructed after the August 30, 1994 photograph was taken; and

WHEREAS, on the lawfulness of the sign, DOB concludes that any sign structure installed at the site after August 30, 1994 (when there was admittedly an absence of a Sign) could only be lawfully established with a DOB-issued sign permit; and

WHEREAS, DOB states that evidence of a sign structure prior to December 15, 1961 is not relevant in this case because a sign could have lawfully existed at the site up until October 25, 1995, but a permit would be required to lawfully establish such a use since the enactment of the 1968 Building Code if the sign was removed after 1968 and work was commenced to install a new sign structure; and

WHEREAS, DOB also states that the evidence to prove that the Sign was lawfully established after August 30, 1994 is irrelevant since once the Sign was removed, it could only be lawfully established with a valid permit and, thus, an affidavit indicating that a Cellular One sign was installed at the site on February 2, 1995 is irrelevant particularly since the invoice does not indicate where at the site the sign was installed and an

associated aerial photograph with a letter from a photographer is not relevant or persuasive as it is not clear enough to indicate whether or not a sign exists at the location in question; and

WHEREAS, DOB concludes that based on the evidence indicating that sometime between December 15, 1961 and October 25, 1995, the Sign and Sign Structure were removed and a permit was never obtained for installation of a new sign structure, DOB determines that the Sign was not lawfully established and therefore cannot be considered a lawful non-conforming use; and

- Continuity of the Sign

WHEREAS, DOB states that even if the Appellant established the Sign was a lawful non-conforming use, its evidence of continuity fails to satisfy the Technical Policy and Procedure Notice 14/1988 (the "TPPN"), which sets forth the guidelines for DOB's review of whether a non-conforming use has been continuous; and

WHEREAS, DOB states that if the Board were to accept that the Sign was lawfully established, it still became non-conforming on October 25, 1995 and cannot have been subject to any discontinuance of a period of two years or longer since that time; and

WHEREAS, DOB cites to the TPPN guidelines which include the following types of evidence: (1) Item (a): City agency records; (2) Item (b): records, bills, documentation from public utilities; (3) Item (c): other documentation of occupancy including ads and invoices; and (4) Item (d): affidavits; and

WHEREAS, DOB notes other forms of evidence including sign permits, which are given substantial weight; other government records, recorded documents and utility bills, generally considered high value evidence; and photographic evidence, which is also given substantial weight; and

WHEREAS, in contrast, DOB states that uncorroborated testimonial evidence that a sign was lawfully established or has existed continuously is not considered sufficient because testimony may be tainted by memory lapses, bias, and misperception; similarly, it states that leases and other contracts that are not corroborated by independently verifiable evidence may not be sufficient because they can be fabricated or materially altered and because they do not demonstrate the actual existence of a sign; and

WHEREAS, DOB finds that the Appellant failed to satisfy the guidelines of the TPPN for acceptable documentation in support of proof of continuous non-conforming use as it did not provide any records issued by a city agency, public utility bills or other TPPN Item (b) records; and

WHEREAS, DOB concludes that the only evidence that the Appellant has provided can be categorized as TPPN Item (c) and (d) evidence –photographs, leases, and affidavits - and that it is insufficient to establish that the Sign has continued without an impermissible change or interruption of that use for a period of two years or more; and

## APPELLANT'S RESPONSE TO DEPARTMENT OF BUILDINGS' ARGUMENTS

WHEREAS, in response to DOB's position that the Sign and Sign Structure were removed sometime between the enactment of the 1968 Building Code and the Rezoning Date,

---

# MINUTES

---

and therefore a lawfully issued permit would be required to establish the non-conforming use of the Sign, the Appellant states that the Sign Structure has never been replaced with a new structure<sup>1</sup> and therefore a permit is not required to establish the non-conforming use of the Sign; and

WHEREAS, the Appellant states that between 1961 and 2008, the replaceable advertising copy of the Sign was changed numerous times by installing the new advertising copy directly on the Sign Structure, which was specifically designed for the use of replaceable advertising copy; and

WHEREAS, the Appellant notes that Section 27-177 of the 1968 Building Code provided, in relevant part, that “the changing of copy on an existing permitted sign, specifically designed for the use of replaceable copy, and repair of an existing permitted sign, not involving structural changes, shall not require a new permit;” and

WHEREAS, accordingly, the Appellant contends that the changing of the Sign’s replaceable copy on the Sign Structure, which would not require structural changes to the Sign Structure, did not require a permit; and

WHEREAS, in support of its claim that the Sign Structure has never been replaced, the Appellant submitted the February 2, 1995 Service Sign Erectors Invoice, from a licensed sign erector, which states “[i]nstalled Cellular One ad copy;” and

WHEREAS, the Appellant asserts that the invoice reflects that an advertising sign copy was installed on the existing Sign Structure on February 2, 1995, and that if structural work were to be performed, the invoice would have indicated such work; and

WHEREAS, the Appellant submitted an affidavit from the Vice President of Service Sign Erectors stating that the company installed signs on the subject building from about 1961 through 2008, that any and all changes to the advertising copy were installed on the Sign Structure, and that the Sign Structure, as shown in the photograph from April 8, 2010, appears to be the same Sign Structure that the replaceable advertising copy was installed on from 1961 through 2008; and

WHEREAS, the Appellant also submitted an affidavit from the President of Allied Outdoor Advertising, the owner of the Sign Structure from prior to 1961 through 1993, stating that during the time Allied owned and controlled the Sign and Sign Structure, any and all changes to the advertising copy of the Sign were installed on the existing Sign Structure; and

WHEREAS, in response to the Board’s request to provide evidence of standard industry practice related to the replacement of a sign structure, the Appellant submitted an affidavit from the Vice President of Lamar Advertising Company, which has more than 100 years of corporate history and more than 155,000 outdoor advertising sign structures nationwide, which states:

---

<sup>1</sup> As described infra, the appellant notes that the bottom angle-iron of the Sign Structure was removed when the Sign was enlarged after the Rezoning Date, because it would have caused damage to the vinyl sign copy, but that pursuant to New York State case law the use of the Sign, as it existed on the Rezoning Date, may be continued.

It is not industry standard to remove an angle-iron designed for replaceable advertising copy, for the following reasons:

- (1) the physical attributes of an angle-iron make it unlikely that it was replaced with a new angle-iron;
- (2) an angle-iron is extremely durable and resistant to the elements, and is designed to maintain its structural stability;
- (3) there have been no advancements in the technology of angle-irons which would encourage their replacement;
- (4) the cost of removal of an angle-iron and to restore the exterior wall, approximately \$5,000, would far outweigh the salvage value of the angle-iron, less than \$50;
- (5) building owners want to continue to generate advertising revenue from the sign structure and therefore not motivated to remove it; and

WHEREAS, in response to DOB’s argument that the 1994 Photograph indicates the absence of a sign or sign structure as of August 30, 1994, the Appellant contends that the 1994 Photograph is insufficient to establish that the Sign Structure was replaced with a new structure; and

WHEREAS, the Appellant argues that while the 1994 Photograph may show the absence of an advertising copy at that time, the aerial photograph was shot at great distance, is of low resolution, and is too grainy to clearly indicate the absence of sign structure; and

WHEREAS, the Appellant states that the Sign Structure’s galvanized steel angle irons are approximately two inches thick, while the wall of the subject building is 216 feet in height; thus, the ratio of thickness of the angle-iron to the height of the wall is 1:1,300, and therefore an extremely high resolution camera with a powerful zoom lens would be required to clearly indicate the absence of a sign structure; and

WHEREAS, the Appellant notes that it submitted a June 1995 photograph reflecting that the Sign and Sign Structure existed as of that date, as well as the Service Sign Erectors Invoice, indicating that the advertising copy was replaced on the Sign Structure in February 1995; therefore the Sign and Sign Structure existed on the site after the 1994 Photograph and prior to the Rezoning Date, and DOB has submitted no evidence in support of its contention that the Sign Structure was ever removed; and

WHEREAS, the Appellant argues that, even if the Sign Structure had been replaced with a new structure after 1968, such work would not have required a permit; and

WHEREAS, specifically, the Appellant contends that the replacement of the angle-iron would have constituted a “minor alteration” or an “ordinary repair” pursuant to the 1968 Building Code, and such work would not have required a permit prior to the enactment of Local Law 14 of 2001, which created an exception to the permit exemption of “ordinary repairs,” which arguably would apply to the replacement of an angle-iron; and

WHEREAS, the Appellant contends that even if the Sign Structure was replaced with a new structure after 1968, and

---

# MINUTES

---

even if the replacement had required a permit, the legal non-conforming status of the Sign would have been unaffected, pursuant to the prevailing New York State case law; and

WHEREAS, the Appellant cites to Matter of Cinelli Family Ltd. Partnership v. Scheyer, 50 A.D.3d 1136 (2d Dept. 2008) and City of New York v. Victory Van Lines, 69 A.D.2d 605 (2d Dept. 1979) for the proposition that the courts of the State of New York have recognized the right to maintain a legal non-conforming use established in full conformance with zoning, despite a failure to obtain a required permit; and

WHEREAS, accordingly, the Appellant contends that because the Sign was initially established in full conformance with zoning, the holdings in Matter of Cinelli Family Ltd. Partnership and Victory Van Lines indicate that the use of the Sign may be continued even if the angle-iron was replaced without a permit; and

WHEREAS, the Appellant notes that the size of the Sign prior to the Rezoning Date was approximately 2,660 sq. ft. and it was located on the upper half of the western portion of the south wall; and

WHEREAS, the Appellant states that after the Rezoning Date an enlarged sign was installed on the top angle-iron of the Sign Structure, and the bottom angle-iron of the Sign Structure was removed when the Sign was enlarged because it would have caused damage to the vinyl sign copy; and

WHEREAS, the Appellant argues that although the Sign was enlarged after the Rezoning Date without a permit, pursuant to New York State case law the use of the Sign, as it existed on the Rezoning Date, may be continued; and

WHEREAS, specifically, the Appellant cites to Costa v. Callahan, 41 A.D.3d 1114 (3d Dept. 2007), in which the Appellate Division determined that a junkyard, which was established when the use was conforming, could be continued despite an "impermissible extension of use," and held that a lawfully established non-conforming use is permitted to continue at its "levels" as of the effective date of the zoning map amendment; and

WHEREAS, accordingly, the Appellant argues that based on the prevailing case law, the Sign is permitted to continue at the site as it existed prior to the Rezoning Date, such that the Appellant is authorized to restore the Sign to its size on the Rezoning Date, and to obtain permits to reconstruct the lower structure to accommodate such sign; and

## CONCLUSION

WHEREAS, the Board agrees that the Appellant has met its burden of establishing that the Sign was lawfully established prior to October 25, 1995 and has been in continuous use, without any two-year interruption since that date; and

WHEREAS, specifically, the Board finds the evidence submitted by the Appellant sufficient to establish that: (1) the Sign was lawfully established in, or prior to, September 1961, before a permit was required pursuant to the 1968 Building Code; (2) the Sign Structure has not been removed or replaced since the enactment of the 1968 Building Code; (3) replacing advertising copy on the existing Sign Structure did not require a permit pursuant to the 1968 Building Code; and (4) the use of the Sign has been continuous since October 25, 1995, without any two-year interruption since that date; and

WHEREAS, as to the evidence submitted by the Appellant to establish the continuous use of the Sign since the Rezoning Date, the Board notes that the Appellant provided evidence in the form of photographs, leases, invoices, accounting statements, tax documents, copies of checks, certificates of liability insurance, and letters, and that some combination of this evidence was provided for each year beginning from 1995 (when the Sign became non-conforming) until 2008 (when the ECB Decision was issued) without any gaps; and

WHEREAS, the Board notes that, in addition to the evidence noted above, covering each year from the Rezoning Date until the date of the ECB Decision, the Appellant also submitted 11 affidavits from individuals stating that they personally witnessed the continued existence of the Sign from prior to the Rezoning Date until 2008; and

WHEREAS, the Board agrees with the Appellant that the 1994 Photograph does not establish that the Sign Structure was removed at that time, as the aerial photograph is shot from a great distance away and at a low resolution, such that the presence or absence of a sign structure is not discernable, and therefore the 1994 Photograph is insufficient to rebut the evidence submitted by the Appellant in support of the continued existence of the Sign Structure; and

WHEREAS, the Board notes that while the 1994 Photograph indicates that there was no advertising copy installed at the time the photograph was taken, it finds that the Appellant established that advertising copy could be replaced on the Sign Structure without a permit pursuant to 1968 Building Code Section 27-177, and that the other evidence submitted by the Appellant, including the Service Sign Erectors Invoice indicating that the advertising copy was replaced on February 2, 1995 and the June 1995 photograph reflecting that the Sign and Sign Structure were installed as of that date, is sufficient to establish that the Sign and Sign Structure existed on the site after the 1994 Photograph and prior to the Rezoning Date; and

WHEREAS, as to the enlargement of the Sign after the Rezoning Date, the Board agrees that, despite the impermissible extension of the use, the Appellant is permitted to restore the Sign to its lawfully established dimensions as they existed prior to the Rezoning Date; and

WHEREAS, in sum, the Board concludes as follows: the Appellant has established that the Sign was lawfully established prior to October 25, 1995, and that the Sign has been in continuous use from October 25, 1995 until the ECB Decision.

*Therefore it is Resolved* that this appeal, challenging a Final Determination issued on January 12, 2011, is granted.

Adopted by the Board of Standards and Appeals, March 27, 2012.

three, two-family homes within 30'-0" of the street line of Eastern Parkway, contrary to Administrative Code §18-112 and New York City Building Code §3201.3.1. R6 zoning district.

PREMISES AFFECTED – 1789, 1793 & 1797 St. John’s Place, northeast corner of intersection formed by St. John’s Place and Eastern Parkway, Block 1471, Lot 65, 67, 68, Borough of Brooklyn.

## COMMUNITY BOARD #16BK

APPEARANCES –

For Applicant: Jordan Most.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5  
Negative:.....0

**THE RESOLUTION** –

WHEREAS, the decisions of the Brooklyn Borough Commissioner, dated August 17, 2011, acting on Department of Buildings Application Nos. 320153114, 320153472, and 320153481 read, in pertinent part:

New York City Administrative Code Title 18. It is unlawful for buildings or other erections except porches, plazas, fountains and statuary to remain or at any time to be placed upon any of the lots fronting upon Eastern Parkway, from Washington Avenue easterly to the extension of Eastern Parkway to Bushwick Avenue, within 30 feet from the lines or sides of such streets respectively; and

WHEREAS, this is an application pursuant to New York City Charter §§ 666(6) and 666(7), to vary the prohibition against construction within 30 feet of the street line of Eastern Parkway as set forth in Administrative Code § 18-112 and cited at New York City Building Code § 3201.3.1, to allow for the construction of three three-story two-family residential buildings, within an R6 zoning district, contrary to the Administrative Code and Building Code; and

WHEREAS, a public hearing was held on this application on February 7, 2012, after due notice by publication in *The City Record*, with a continued hearing on March 6, 2012, and then to decision on March 27, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the site is an irregular triangular-shaped lot located on the northeast corner of the intersection formed by St. John’s Place and the Eastern Parkway Extension, within an R6 zoning district; and

WHEREAS, the site comprises three tentative tax lots (lots 65, 67, and 68), with a total of 89 feet of frontage to the north on the Eastern Parkway Extension, 105 feet of frontage to the south on St. John’s Place, and a lot area of 2,522 sq. ft.; and

WHEREAS, the site is currently vacant; and

WHEREAS, the applicant proposes to construct three

three-story two-family residential buildings on the site with a total floor area of 5,865 sq. ft.; the building on tentative tax lot 65 is proposed to have a floor area of 1,642 sq. ft., the building on tentative tax lot 67 is proposed to have a floor area of 1,702 sq. ft., and the building on tentative tax lot 68 is proposed to have a floor area of 2,521 sq. ft.; and

WHEREAS, the Administrative Code § 18-112 – Restrictions on Eastern Parkway - (the “Eastern Parkway Restriction”) prohibits construction within 30 feet of the street line of Eastern Parkway, and Building Code § 3201.3.1 – Restrictions on Construction and Projections on Certain Streets, Parkways, Boardwalks, and Beaches – references and requires the enforcement of the Eastern Parkway Restriction of Administrative Code § 18-112; and

WHEREAS, the applicant states that because the proposal reflects construction within 30 feet of the street line on the Eastern Parkway Extension, which is specifically included in the Eastern Parkway Restriction, the subject relief is required; and

WHEREAS, the applicant represents that the proposed buildings comply with all zoning and Building Code regulations, except for the Eastern Parkway Restriction; and

WHEREAS, the Board notes that it has authority to hear appeals of final determinations of the Department of Buildings, as set forth in Charter § 666(6) and that the basis for the subject application is a final determination from the Department of Buildings, with objections that cite to the Administrative Code and the Building Code; and

WHEREAS, the applicant does not contest the Department of Buildings’ interpretation of the cited Administrative Code and Building Code provisions, or assert that the objections are unwarranted or contrary to law; and

WHEREAS, instead, the subject application seeks a modification of the Administrative Code’s Eastern Parkway Restriction and the related Building Code provision, pursuant to the Board’s authority under Charter § 666(7); and

WHEREAS, if all other requirements of Charter § 666 are met, including the subject matter and source of the final determination, the Board may grant a modification pursuant to Charter § 666(7), if it finds that (1) there are practical difficulties or unnecessary hardship in the way of carrying out the strict letter of the law; (2) the spirit of the law shall be observed; (3) public safety shall be secured; (4) substantial justice is done; and (5) if the Housing Maintenance Code is varied it shall be limited to the extent permitted by the code and only in the manner provided for in it; and

WHEREAS, as to the practical difficulties and hardship, the applicant represents that the site’s irregular shape and shallow depth constrain development of the premises; and

WHEREAS, specifically, the applicant states that the site is triangularly shaped with a maximum through lot depth of only 56 feet, and that the application of the 30-ft. setback requirement precludes any realistic development on the site; and

WHEREAS, the applicant submitted drawings reflecting that the 30-ft. setback area required by the Eastern Parkway Restriction would leave behind a buildable portion of the site that consists of a triangular shaped area approximately 43 feet

---

# MINUTES

---

by 26 feet by 50 feet, with a total area of only 555 sq. ft.; and

WHEREAS, the applicant states that the small size and irregular shape of the buildable portion of the site makes any development of the site in compliance with the Eastern Parkway Restriction infeasible; and

WHEREAS, the Board agrees that due to the irregular shape and shallow depth of the lot the applicant has established that there are practical difficulties in constructing a building that complies with the Eastern Parkway Restriction and the Building Code; and

WHEREAS, as to the spirit of the law, the applicant represents that the purpose of the Eastern Parkway Restriction, which the City adopted in 1888, and the Building Code, which reinforces it, was to create a park-like setting over the several miles of the western portion of Eastern Parkway; and

WHEREAS, the applicant notes that the portions of Eastern Parkway, west of Ralph Avenue, were built in compliance with the Eastern Parkway Restriction; and

WHEREAS, in contrast, the applicant represents that the area surrounding the site along the Eastern Parkway Extension does not have an established context of Eastern Parkway Restriction compliance; and

WHEREAS, specifically, the applicant notes that the entire Eastern Parkway Extension, beginning at Ralph Avenue and spanning west to Bushwick Avenue, reflects that a majority of the lots are occupied by buildings constructed within 30 feet of the Eastern Parkway Extension, contrary to the Eastern Parkway Restriction; and

WHEREAS, the applicant submitted a study which analyzed the compliance of the lots along the Eastern Parkway Extension from Ralph Avenue to St. Marks Place with the 30-ft. setback requirement of the Eastern Parkway Restriction; and

WHEREAS, the study reflected that 84 of the 94 developed lots in the study area, or 89 percent, do not comply with the 30-ft. setback requirement; and

WHEREAS, the applicant also submitted a Department of Finance tax map which reflects that there are five blocks along the Eastern Parkway Extension in the vicinity of the site with building footprints that are either built to the lot line or nearly to it; and

WHEREAS, the applicant notes that the proposed construction would also continue the existing streetwall along the Eastern Parkway Extension on the subject block; and

WHEREAS, the applicant submitted a streetscape and survey reflecting that the proposed buildings will line up with the adjacent buildings on the subject block; and

WHEREAS, the Board agrees with the applicant that although the Eastern Parkway Restriction includes the Eastern Parkway Extension, that the Extension, with a number of lots with shallow depths in the 40-ft. range, and a distance from the western park blocks, was not the focus for the Eastern Parkway Restriction; and

WHEREAS, additionally, the Board notes the existing condition along the Eastern Parkway Extension, which is occupied by a stock of buildings that date back 100 years or more lacks any context for a 30-ft. setback; and

WHEREAS, accordingly, the Board finds that the proposed construction within the 30-ft. setback does not

conflict with the spirit of the law; and

WHEREAS, as to public safety, the applicant states that the proposed construction, but for the Eastern Parkway Restriction, is completely as-of-right, and will comply with all procedures and requirements of the Department of Buildings ("DOB"), thereby ensuring that public safety will be secured; and

WHEREAS, the Board agrees that the proposed project will not interfere with public safety; and

WHEREAS, as to substantial justice, the applicant notes that the majority of the sites along the Eastern Parkway Extension have been developed without 30-ft. setbacks and, thus, the requirement of compliance with the Eastern Parkway Restriction would make development on the site infeasible and would create a serious economic loss; and

WHEREAS, accordingly, the Board concurs that substantial justice is maintained; and

WHEREAS, the Board notes that the applicant does not seek a variance of the Housing Maintenance Code and, thus, that finding is not relevant to the subject application; and

WHEREAS, additionally, the Board notes that, according to the applicant, the proposal will be in full compliance with all other provisions of the Administrative Code and the Building Code, as well as the Multiple Dwelling Law, and the Zoning Resolution; and

WHEREAS, the Board finds that the applicant has submitted adequate evidence in support of the findings required to be made under Charter § 666(7) and varies Administrative Code § 18-112; the Board notes that the variance of the Eastern Parkway Restriction addresses the non-compliance with Building Code § 3201.3.1, by reference; and

WHEREAS, in reaching this determination, the Board notes that its finding is based on the unique facts related to the physical conditions of the site as presented in the instant application, and that this decision does not have general applicability to any pending or future Board application.

*Therefore it is Resolved*, that the decisions of the Brooklyn Borough Commissioner, dated August 17, 2011, are modified and that this application is granted, limited to the decision noted above, on condition that construction shall substantially conform to the plans filed with the application marked, "Received December 30, 2011" - nine (9) sheets; and on further condition:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 27, 2012.

**THE RESOLUTION –**

WHEREAS, the decision of the Manhattan Borough Commissioner, dated December 21, 2011, acting on Department of Buildings Application No. 120628776, reads in pertinent part:

“Proposed physical culture establishment is not permitted as of right in a C5-2.5 & C5-3 district as per ZR 32-10;” and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located within the Special Midtown District (MID), partially within a C5-2.5 and partially within a C5-3 zoning district, the operation of a physical culture establishment (PCE) on portions of the first and fourth floors and the entire sixth and seventh floors of a proposed 82-story mixed-use residential/commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on March 6, 2012, after due notice by publication in *The City Record*, and then to decision on March 27, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Collins, Commissioner Hinkson, and Commissioner Montanez; and

WHEREAS, Community Board 5, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is an irregularly shaped lot located on the northwest corner of Park Avenue and East 56<sup>th</sup> Street, with a mid-block portion that fronts on both East 56<sup>th</sup> Street and East 57<sup>th</sup> Street, in the Special Midtown District (MID), partially within a C5-2.5 and partially within a C5-3 zoning district; and

WHEREAS, the applicant proposes to construct an 82-story mixed-use residential/ commercial building at the site; and

WHEREAS, the PCE will occupy a total of approximately 20,660 sq. ft. of floor area on portions of the first and fourth floors, and the entire sixth and seventh floors; and

WHEREAS, the PCE will be operated by the Wright Fit; and

WHEREAS, the applicant represents that the services at the PCE will include facilities for instruction and programs for physical improvement; and

WHEREAS, the hours of operation for the proposed PCE will be 6:00 a.m. to 10:00 p.m., daily; and

WHEREAS, the applicant represents that the proposed PCE meets the requirements in ZR § 81-13 for a special permit use in the Special Midtown District (MID); and

WHEREAS, specifically, the applicant states that the proposed PCE use is consistent with other retail uses within the Special Midtown District (MID) and will provide a desirable amenity to the neighborhood; and

WHEREAS, as a result, the applicant states that the subject PCE use will strengthen the business core of Midtown Manhattan by improving working and living environments and will promote a desirable use of land and building development in accordance with the District Plan for Midtown wherein the value of land is conserved and tax revenue is protected; and

WHEREAS, accordingly, the Board finds that the proposed special permit use is consistent with the purposes and provisions of ZR § 81-00; and

WHEREAS, at hearing, the Board directed the applicant to address the sound attenuation measures that will be provided in the proposed PCE; and

WHEREAS, in response, the applicant states that residential occupancy of the proposed building will begin at the 14<sup>th</sup> floor, and therefore there will be significant separation between the proposed PCE and any residential uses in the building; and

WHEREAS, the applicant also submitted revised plans reflecting that the seventh floor will provide a six-inch floating concrete floor above the ten-inch structural concrete slab, in order to provide sound attenuation for the PCE equipment located on that floor; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions

---

# MINUTES

---

and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No. 12BSA064M, dated January 11, 2012; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved* that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site located within the Special Midtown District (MID), partially within a C5-2.5 and partially within a C5-3 zoning district, the operation of a physical culture establishment on portions of the first and fourth floors and the entire sixth and seventh floors of a proposed 82-story mixed-use residential/commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received March 13, 2012"- (7) sheets, and *on further condition*:

THAT the term of this grant will expire on March 27, 2022;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages must be performed by New York State licensed massage therapists;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the BSA-approved plans;

THAT sound attenuation measures will be provided as shown on the BSA-approved plans;

THAT the proposed building will be reviewed by DOB for compliance with all bulk regulations of the Zoning Resolution;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 27, 2012.

## SPECIAL ORDER CALENDAR

### 348-75-BZ

APPLICANT – Eric Palatnik, P.C., for Moises A. Villa Delgado, owner.

SUBJECT – Application October 31, 2011 – Extension of the term of an approved variance that expired on March 9, 1996 to allow for a UG 16 animal hospital, contrary to use regulations. Waiver of the Rules. R3-2 zoning district

PREMISES AFFECTED – 1050 Forest Avenue, between Manor Road and Raymond Place, Block 315, Lot 39, Borough of Staten Island.

### COMMUNITY BOARD #1SI

APPEARANCES –

For Applicant: Todd Dale.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening, a waiver, and an extension of term for the continued use of the site as an animal hospital (Use Group 16), which expired on March 9, 1996; and

WHEREAS, a public hearing was held on this application on February 7, 2012, after due notice by publication in *The City Record*, with a continued hearing on March 20, 2012, and then to decision on April 3, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Staten Island, recommends approval of this application; and

WHEREAS, the site is located on the south side of Forest Avenue between Manor Road and Raymond Place, partially within an R3-2 zoning district and partially within an R2 zoning district; and

WHEREAS, the site is an irregularly shaped lot with 75 feet of frontage on Forest Avenue, a depth ranging from 247 feet to 266 feet, and a total lot area of 20,805 sq. ft.; and

WHEREAS, the site consists of a three-story building occupied by an animal hospital (Use Group 16) with an accessory caretaker’s apartment; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 9, 1976 when, under the subject calendar number, the Board granted a variance to permit a one-story enlargement to an existing two-story building occupied as an animal hospital with an accessory caretaker’s apartment, for a term of five years; and

WHEREAS, subsequently, the grant has been amended and the term extended by the Board at various times; and

WHEREAS, most recently, on June 10, 1986, the Board granted a ten-year extension of term, which expired on March 9, 1996; and

WHEREAS, the applicant now requests an additional ten-year extension of term; and

WHEREAS, in support of its representation that the animal hospital has been operating continuously at the site since the expiration of the Board’s prior grant in 1996, the applicant initially submitted annual invoices for the animal hospital from 1996 through 2010; and

WHEREAS, at hearing, the Board directed the applicant to provide evidence in support of the use of the site as an animal hospital since 2010; and

WHEREAS, in response, the applicant submitted additional invoices which document the continuous use of the site as an animal hospital from the period from 2010 through 2012; and

WHEREAS, the Board finds that the evidence submitted by the applicant is sufficient to establish that the animal hospital has operated continuously at the site since the expiration of the Board’s prior extension of term grant in 1996; and

WHEREAS, the Board also directed the applicant to provide screening around the dumpster and questioned the location of the greenhouse that is shown on the previously-approved plans; and

WHEREAS, in response, the applicant submitted revised plans reflecting that a fence with a height of four feet will be installed to screen the dumpster area, and represents that the greenhouse that was depicted in the previously-approved plans was never constructed on the site; and

WHEREAS, based upon the above, the Board finds that the requested ten-year extension of term is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated March 9, 1976, so that as amended this portion of the resolution shall read: “to extend the term for ten years from the date of the grant, to expire on April 3, 2022; *on condition* that all use and operations shall substantially conform to plans filed with this application marked ‘Received March 6, 2012’- eight (8) sheets; and *on further condition*:

THAT the term of the grant will expire on April 3, 2022;

THAT the above condition will be reflected on the certificate of occupancy;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

# MINUTES

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (Alt. 129-75)

Adopted by the Board of Standards and Appeals April 3, 2012.

## 286-00-BZ

APPLICANT – Law Offices of Mitchell S. Ross, for Whitewall Properties II, LLC, owner; New York Health and Racquet Club, lessee.

SUBJECT – Application January 27, 2012 – Extension of Term of a Special Permit (§73-36) for a physical culture establishment (*New York Health and Racquet Club*) located on the first and second floors of a 20-story mixed-use building, which expired on March 27, 2011; Waiver of the Rules. C6-3A/C6-4M zoning district.

PREMISES AFFECTED – 60 West 23<sup>rd</sup> Street, northeast corner of Sixth Avenue and West 23<sup>rd</sup> Street, Block 824, Lot 11, Borough of Manhattan.

### COMMUNITY BOARD #5M

#### APPEARANCES –

For Applicant: Mitchell S. Ross.

**ACTION OF THE BOARD** – Application granted on condition.

#### THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5  
Negative:.....0

#### THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, and an extension of the term of a previously granted special permit for a physical culture establishment (“PCE”), which expired on March 27, 2011; and

WHEREAS, a public hearing was held on this application on March 20, 2012, after due notice by publication in *The City Record*, and then to decision on April 3, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 5, Manhattan, states that it has no objection to this application; and

WHEREAS, the PCE is located on a corner through lot bounded by West 22<sup>nd</sup> Street to the south, Sixth Avenue to the west, and West 23<sup>rd</sup> Street to the north, partially within a C6-3A zoning district and partially within a C6-4M zoning district; and

WHEREAS, the PCE occupies a total of 38,798 sq. ft. of floor area on the first and second floor of a 20-story mixed-use

commercial/residential building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 27, 2001 when, under the subject calendar number, the Board granted a special permit for a PCE in the subject building for a term of ten years, which expired on March 27, 2011; and

WHEREAS, the applicant now seeks to extend the term of the special permit for an additional ten years; and

WHEREAS, based upon its review of the record, the Board finds the requested extension of term is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, as adopted on March 27, 2001, so that as amended this portion of the resolution shall read: “to extend the term for a period of ten years from March 27, 2011, to expire on March 27, 2021, *on condition* that the use and operation of the site shall comply with BSA-approved plans associated with the prior grant; and *on further condition*:

THAT the term of this grant shall expire on March 27, 2021;

THAT the above condition shall be listed on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.” (DOB Application No. 101962814)

Adopted by the Board of Standards and Appeals, April 3, 2012.

---

# MINUTES

---

Commissioner Ottley-Brown, Commissioner Hinkson and  
Commissioner Montanez .....5  
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment to modify the previously approved plans for an enlargement of an existing single family home; and

WHEREAS, a public hearing was held on this application on February 7, 2012, after due notice by publication in *The City Record*, with a continued hearing on March 20, 2012, and then to decision on April 3, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of East 29<sup>th</sup> Street, between Avenue P and Kings Highway, within an R3-2 zoning district; and

WHEREAS, on November 23, 2010, under the subject calendar number, the Board granted a special permit, pursuant to ZR § 73-622, to permit the enlargement of an existing single-family home, which resulted in non-compliances as to floor area ratio (“FAR”), open space ratio, rear yard, and side yards; and

WHEREAS, the applicant now seeks an amendment to correct the calculations related to FAR, open space, lot coverage, and side yard, and to include an additional waiver for the perimeter wall height; and

WHEREAS, specifically, the applicant seeks to correct the calculations it provided for the prior approval, to reflect: (1) a reduction in the floor area from 2,414 sq. ft. (0.86 FAR) to 2,308 sq. ft. (0.83 FAR); an increase in the open space from 1,490 sq. ft. (53 percent) to 1,540 sq. ft. (55 percent); (3) a decrease in the lot coverage from 1,310 sq. ft. (47 percent) to 1,236 sq. ft. (45 percent); and (4) an increase in the width of the side yard along the northern lot line from 3’-0” to 3’-6”;

and (4) an increase in the width of the side yard along the northern lot line from 3’-0” to 3’-6”;

WHEREAS, the applicant notes that all of the requested corrections reduce the degree of non-compliance approved in the original grant; and

WHEREAS, the applicant also requests an amendment to reflect the correct perimeter wall height of 22’-5” (a maximum perimeter wall height of 21’-0” is permitted); and

WHEREAS, the Board notes that the special permit under ZR § 73-622 allows a perimeter wall height to exceed the permitted height in an R3-2 zoning district, provided that the perimeter wall height is equal to or less than the perimeter wall height of an adjacent single- or two-family detached or semi-detached residence with an existing non-complying perimeter wall facing the street; and

WHEREAS, in support of the requested waiver for perimeter wall height, the applicant provided a streetscape establishing that the adjacent home to the north, 1555 East 29<sup>th</sup> Street, has a perimeter wall height of 22’-5”;

and

WHEREAS, therefore, the applicant represents that the perimeter wall of the proposed home matches the existing non-complying perimeter wall height of the adjacent home and falls

within the scope of the special permit; and

WHEREAS, the Board has determined that the applicant has submitted sufficient information to establish that the proposed home may match the pre-existing perimeter wall height of the adjacent home, which exceeds 21’-0”;

and

WHEREAS, the applicant represents that no other changes are proposed; and

WHEREAS, accordingly, the Board finds that the requested change is within the scope of the original grant and does not affect the required special permit findings; and

WHEREAS, based upon its review of the record, the Board finds that the proposed amendment is appropriate, with the conditions set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated November 23, 2010, so that as amended this portion of the resolution shall read: “to permit the noted modifications to the BSA-approved plans; *on condition* that all work and site conditions shall comply with drawings marked “Received February 21, 2012”– (11) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area of approximately 2,308 sq. ft. (0.83 FAR); a minimum open space of 55 percent; a maximum lot coverage of 45 percent; a maximum perimeter wall height of 22’-5”;

a side yard with a minimum width of 3’-6” along the northern lot line; and a rear yard with a minimum depth of 20’-0”, as illustrated on the BSA-approved plans

THAT all conditions from the prior resolution not specifically waived by the Board shall remain in effect; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (DOB Application No. 320155880)

Adopted by the Board of Standards and Appeals, April 3, 2012.

## THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5  
Negative:.....0

## THE RESOLUTION –

WHEREAS, this is an appeal requesting a Board determination that the owner of the premises has obtained the right to complete construction of a three-story three-family residential building under the common law doctrine of vested rights; and

WHEREAS, a public hearing was held on this application on December 13, 2011, after due notice by publication in *The City Record*, with continued hearings on February 28, 2012 and March 20, 2012, and then to decision on April 3, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the site is located on 176<sup>th</sup> Street between Jamaica Avenue and 90<sup>th</sup> Avenue and has a lot area of 5,280 sq. ft.; and

WHEREAS, the applicant proposes to develop the site with a three-story three-family residential building (Use Group 2), with approximately 10,623 sq. ft. of floor area (1.72 FAR) (the “Building”); and

WHEREAS, the applicant states that the subject site is one of five tax lots (comprising two zoning lots) that were planned to be developed with a total of five three-story, three-family residential buildings; and

WHEREAS, the applicant notes that the Board previously granted an extension of time to complete construction pursuant to ZR § 11-332 for the other four buildings (BSA Cal. Nos. 283-09-BZY through 286-09-BZY); and

WHEREAS, the applicant further notes that two of the adjacent buildings for which the Board granted an extension of time to complete construction under BSA Cal. Nos. 283-09-BZY through 286-09-BZY are located on the subject zoning lot (the “Adjacent Buildings”); and

WHEREAS, on October 7, 2008, under BSA Cal. No. 230-07-BZY, the Board denied an application for an extension of time to complete construction for the subject building pursuant to ZR § 11-331, predicated on the Department of Buildings’ (“DOB”) determination that the permit was invalid; and

WHEREAS, specifically, the Board found that, pursuant to DOB’s determination, the applicant did not meet the ZR § 11-331 threshold requirement that the “building permit has been lawfully issued” prior to the effective date of the amendment to the Zoning Resolution; and

WHEREAS, the applicant represents that it has since resolved all objections to the permit with DOB, and now seeks a determination that the owner has obtained the right to complete construction pursuant to the common law doctrine of vested rights; and

WHEREAS, the subject premises is currently located

within an R4-1 zoning district, but was formerly located within an R6 zoning district; and

WHEREAS, on July 5, 2007, DOB issued New Building Permit No. 402568431-01-NB (the “NB Permit”) for the Building; and

WHEREAS, however, on September 10, 2007 (the “Enactment Date”), the City Council voted to adopt the Jamaica Rezoning, which rezoned the site to R4-1, as noted above; and

WHEREAS, because the site is now within an R4-1 district, the Building would not comply with the new zoning restrictions; and

WHEREAS, as a threshold matter in determining this appeal, the Board must find that the construction was conducted pursuant to valid permits; and

WHEREAS, the Board notes that, as discussed in its denial of BSA Cal. No. 230-07-BZY, DOB revoked the NB Permit on June 17, 2008 based on an outstanding objection concerning the noncompliance of the plans with the required dimensions of an inner court; and

WHEREAS, the applicant states that it has since resolved all objections pertaining to the inner court, and DOB has submitted an Objection sheet dated February 4, 2009, indicating that the objection related to the inner court (ZR § 23-85) has been removed; and

WHEREAS, by letter dated November 3, 2011, DOB rescinded the permit revocation; and

WHEREAS, by letter dated November 10, 2011, DOB states that the NB Permit was lawfully issued, authorizing construction of the Building prior to the Enactment Date; and

WHEREAS, the Board has reviewed the record and agrees that the NB Permit was lawfully issued to the owner of the subject premises prior to the Enactment Date; and

WHEREAS, the Board notes that when work proceeds under a valid permit, a common law vested right to continue construction after a change in zoning generally exists if: (1) the owner has undertaken substantial construction; (2) the owner has made substantial expenditures; and (3) serious loss will result if the owner is denied the right to proceed under the prior zoning; and

WHEREAS, specifically, as held in Putnam Armonk, Inc. v. Town of Southeast, 52 A.D.2d 10 (2d Dept. 1976), where a restrictive amendment to a zoning ordinance is enacted, the owner’s rights under the prior ordinance are deemed vested “and will not be disturbed where enforcement [of new zoning requirements] would cause ‘serious loss’ to the owner,” and “where substantial construction had been undertaken and substantial expenditures made prior to the effective date of the ordinance”; and

WHEREAS, however, notwithstanding this general framework, as discussed by the court in Kadin v. Bennett, 163 A.D.2d 308 (2d Dept. 1990) “there is no fixed formula which measures the content of all the circumstances whereby a party is said to possess ‘a vested right’. Rather, it is a term which sums up a determination that the facts of the case render it inequitable that the State impede the individual from taking certain action”; and

---

# MINUTES

---

WHEREAS, as to substantial construction, the applicant states that prior to the Enactment Date, the owner had completed the following work at the site: 100 percent of the excavation work and approximately 35 percent of the foundation work, including the pouring of concrete for footings and foundation walls; and

WHEREAS, in support of this assertion, the applicant submitted the following evidence: a foundation plan, construction contracts, an affidavit from the owner, concrete pour tickets, and photographs of the site showing the amount of work completed prior to the Enactment Date; and

WHEREAS, the Board has reviewed the representations as to the amount and type of work completed before the Enactment Date and the documentation submitted in support of these representations, and agrees that it establishes that substantial work was performed; and

WHEREAS, the Board concludes that, given the size of the site, and based upon a comparison of the type and amount of work completed in this case with the type and amount of work discussed by New York State courts, a significant amount of work was performed at the site during the relevant period; and

WHEREAS, as to expenditure, the Board notes that unlike an application for relief under ZR § 11-30 *et seq.*, soft costs and irrevocable financial commitments can be considered in an application under the common law and accordingly, these costs are appropriately included in the applicant's analysis; and

WHEREAS, the applicant states that prior to the Enactment Date, the owner expended \$32,273, including hard and soft costs and irrevocable commitments, out of \$250,000 budgeted for construction of the Building; and

WHEREAS, as proof of the expenditures, the applicant has submitted construction contracts, copies of cancelled checks, invoices, and accounting tables; and

WHEREAS, thus, the expenditures up to the Enactment Date represent approximately 13 percent of the projected total cost; and

WHEREAS, the Board considers the amount of expenditures significant, both for a project of this size, and when compared with the development costs; and

WHEREAS, again, the Board's consideration is guided by the percentages of expenditure cited by New York courts considering how much expenditure is needed to vest rights under a prior zoning regime; and

WHEREAS, as to serious loss, the Board considers not only whether certain improvements and expenditures could not be recouped under the new zoning, but also considerations such as the diminution in income that would occur if the new zoning were imposed and the reduction in value between the proposed building and the building permitted under the new zoning; and

WHEREAS, the applicant states that if the owner is not permitted to vest under the former R6 zoning it would be impossible to develop the remainder of the zoning lot without demolishing the Adjacent Buildings, which are located on the subject zoning lot; and

WHEREAS, accordingly, the applicant represents that the inability to vest under the former R6 zoning would result

in the loss of the entire Building; and

WHEREAS, the Board agrees that the inability to construct any building on the subject zoning lot under the R4-1 regulations without demolishing the Adjacent Buildings, constitutes a serious economic loss, and that the evidence submitted by the applicant supports this conclusion; and

WHEREAS, in sum, the Board has reviewed the representations as to the work performed, the expenditures made, and serious loss, and the supporting documentation for such representations, and agrees that the applicant has satisfactorily established that a vested right to complete construction of the Buildings had accrued to the owner of the premises as of the Enactment Date.

*Therefore it is Resolved* that this appeal made pursuant to the common law of vested rights requesting a reinstatement of New Building Permit No. 402568431-01-NB, as well as all related permits for various work types, either already issued or necessary to complete construction and obtain a certificate of occupancy, is granted for two years from the date of this grant.

Adopted by the Board of Standards and Appeals, April 3, 2012.

**THE RESOLUTION** –

WHEREAS, the decision of the Queens Borough Commissioner, dated September 13, 2011, acting on Department of Buildings Application No. 401400239, reads in pertinent part:

1. Proposed commercial use for portion of lot 41 in R5 district (parking @ cellar) is contrary to ZR Section 22-00;
2. Proposed parking contrary to ZR Section 36-21; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site located partially within a C1-2 (R6) zoning district, a C2-3 (R6) zoning district, a C1-2 (R7A) zoning district, and an R5 zoning district, a two-story and mezzanine commercial building with an accessory parking garage at the cellar level, which does not comply with the zoning regulations for use or parking, contrary to ZR §§ 22-00 and 36-21; and

WHEREAS, a public hearing was held on this application on January 11, 2011, after due notice by publication in the *City Record*, with continued hearings on April 12, 2011, August 16, 2011, September 27, 2011 and December 13, 2011, and then to decision on April 3, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 4, Queens, recommended conditional approval of a prior iteration of the application, described below, which requested additional waivers related to bulk; and

WHEREAS, City Council Member Daniel Dromm recommends approval of this application; and

WHEREAS, a member of the community provided oral testimony in opposition to the prior iteration of the application; and

WHEREAS, the site is located on an irregularly-shaped through lot with 200 feet of frontage on Queens Boulevard to the south, 170 feet of frontage on Broadway to the east, and 150 feet of frontage on Reeder Street to the west, with a total lot area of 35,564 sq. ft.; and

WHEREAS, the site is located within four separate zoning districts: (1) 25,904 sq. ft. of the site is within a C1-2 (R6) zoning district; (2) 5,844 sq. ft. of the site is within a C2-3 (R6) zoning district; (3) 3,582 sq. ft. of the site is within an R5 zoning district; and (4) 233.5 sq. ft. of the site is within a C1-2 (R7A) zoning district; and

WHEREAS, the site comprises two tax lots; Lot 41, which comprises the western portion of the site at the corner of Reeder Street and Queens Boulevard, is occupied by a one-story eating and drinking establishment (a Wendy's restaurant) which is proposed to be demolished; and Lot 28 which comprises the eastern portion of the site at the corner of Broadway and Queens Boulevard, is currently vacant; and

WHEREAS, the applicant submitted a report from a title company which states that, according to Department of Finance records, there have been no changes to the tax map since 1961 and therefore the dimensions of the lots have remained the same since that time; and

WHEREAS, the applicant proposes to construct a two-story and mezzanine commercial building with a floor area of 63,894 sq. ft. (1.80 FAR), with retail (Use Group 6) at the first floor and a food store (Use Group 6) at the first floor mezzanine and second floor, a height of 48 feet, and 111 accessory parking spaces (and 11 queuing spaces) at the cellar level; and

WHEREAS, the proposal will have the following non-complying parameters: 111 accessory parking spaces (and 11 queuing spaces) (the minimum number of accessory parking spaces required for the proposed building is 264); and accessory parking located in the R5 portion of the site (commercial use is not permitted in the R5 district); and

WHEREAS, the applicant initially proposed a five-story commercial building with a floor area of 121,339 sq. ft. (3.41 FAR), a total height of 88 feet, and 251 accessory parking spaces, to be occupied by Use Group 6 retail use at the first, second, and third floors, and accessory parking at the cellar, fourth, and fifth floors; and

WHEREAS, the original proposal complied with the required number of parking spaces under ZR § 36-21, but necessitated a use variance for the portion of the building

---

# MINUTES

---

located in the R5 district, and necessitated bulk waivers associated with floor area, lot coverage, front yard, side yard, rear yard, height, and parking located more than 23'-0" above curb level; and

WHEREAS, the Board expressed concern about the size of the proposed building and the extent of the requested variance, and directed the applicant to revise the application to provide the maximum number of parking spaces within a building that complied with the underlying bulk regulations; and

WHEREAS, in response, the applicant revised the application to provide an interim proposal for a two-story and mezzanine commercial building with a 91-space (and nine queuing spaces) accessory parking garage at the cellar level located entirely within the commercial portion of the zoning lot; the interim proposal complied with all underlying zoning regulations with the exception of the minimum number of parking spaces; and

WHEREAS, in response to additional concerns raised by the Board regarding the number of parking spaces provided, the applicant revised the plans to reflect the subject proposal, which extends the cellar level accessory parking garage into the R5 portion of the zoning lot, thereby providing 20 additional parking spaces but triggering the need for the requested use waiver; and

WHEREAS, because the proposed accessory commercial parking is not permitted within the R5 portion of the site and because the building does not provide the required number of accessory parking spaces, the applicant requests the subject variance; and

WHEREAS, the applicant states that the following are unique physical conditions which create an unnecessary hardship in developing the site in conformance with applicable regulations: (1) the presence of an MTA subway tunnel below the site; (2) the high water table at the site; (3) the location within four different zoning districts; and (4) the irregular shape of the site; and

WHEREAS, as to the presence of the MTA subway tunnel, the applicant submitted an engineer's report which states that an MTA subway tunnel easement runs beneath the northeast corner of the subject site; and

WHEREAS, the applicant states that the subway tunnel is a "cut and cover" style tunnel, and is therefore located very close to the surface, and there is a subway station (the Grand Avenue – Newtown station) located directly below the site; and

WHEREAS, the applicant represents that there are practical difficulties associated with developing directly over the subway tunnel and subway station; and

WHEREAS, specifically, the applicant states that the portion of the proposed underground parking structure adjacent to the subway tunnel easement must be designed to safely support all of the imposed loads so as to protect the existing subway structure; and

WHEREAS, the applicant notes that the presence of the subway tunnel and easement also requires the owner to file plans with the MTA and to comply with all restrictions placed on the work, as the MTA will not allow any potential for disturbance of the existing subway structure; and

WHEREAS, the engineer's reports submitted by the applicant states that, due to the existing subway tunnel, a temporary soil bracing system will be required for the proposed excavation to achieve the planned parking level bottom (mat foundation slab), and that heavy steel HP Soldier Piles supported by steel walers, raker bracing, and wood lagging should be installed along the entire perimeter of the proposed excavation site so that the building would bypass the tunnel; and

WHEREAS, the applicant states that the location of the subway tunnel and subway station preclude the use of a portion of the site for underground parking or for cellar floor area, and therefore the proposed underground parking structure must be located to the west of the subway easement, which is approximately 15 feet away from the subway tunnel foundation wall; and

WHEREAS as to the high water table on the site, the engineer's report submitted by the applicant states that the soil borings performed on the site encountered groundwater at depths ranging from 9'-0" to 11'-6" below grade, and groundwater is expected to be encountered during the excavation for the construction of the proposed building and foundations; and

WHEREAS, the engineer's report states that, due to the location of the groundwater, extensive temporary and permanent site dewatering will be required for the entire site; and

WHEREAS, the engineer's report further states that possible dewatering methods would include well points, deep wells, sumps and pumps, and that the dewatering must be evaluated to ensure that it will not adversely affect the structural stability and possible settlement of the adjacent buildings and the underground subway structure; and

WHEREAS, the applicant states that the shallow groundwater on the site makes the construction of a sub-cellar for additional parking cost prohibitive; and

WHEREAS, as to the location of the zoning district boundaries, the applicant states that the site is located within four separate zoning districts and while the majority of the site is located within commercial zoning districts, there is a 3,582 sq. ft. portion located at the northwest corner of the site, comprising approximately ten percent of the site, which is entirely within an R5 zoning district; and

WHEREAS, the applicant states that the site is also irregularly shaped, as the lot has three separate frontages with an irregular angle at the intersection of Queens Boulevard and Reeder Street, and the rear of the site includes a rectangular protrusion which results in the lot having a total of ten sides; and

WHEREAS, the applicant represents that the irregular shape of the site, and the location of the zoning district boundaries result in design constraints which contribute to the hardship of constructing an as-of-right building on the site; and

WHEREAS, the Board is not persuaded by the assertions of unnecessary hardship or practical difficulty caused by the zoning lot boundaries or the irregular shape of the site, and finds that the size of the lot, at 35,564 sq. ft., is large enough to compensate for such conditions; and

---

# MINUTES

---

WHEREAS, however, based upon the above, the Board finds that the location of the subway tunnel and the high water table are unique conditions which, when considered in the aggregate, create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the applicant submitted a feasibility study analyzing the following scenarios: (1) an as-of-right scenario consisting of a three-story and mezzanine commercial building with 59,300 sq. ft. of rentable retail space and a total of 227 parking spaces with 117 below grade spaces and 110 above grade spaces; (2) an identical as-of-right scenario with the ground floor raised two feet above grade (and a corresponding decrease in the height of the cellar level); (3) an as-of-right retail scenario consisting of a four-story commercial building with 46,594 sq. ft. of rentable retail space and a total of 174 parking spaces, located above grade; and (4) the proposed two-story and mezzanine commercial building with retail (Use Group 6) at the first floor, a food store (Use Group 6) at the first floor mezzanine and second floor, and 111 accessory parking spaces (and 11 queuing spaces) in the cellar; and

WHEREAS, the applicant concluded that the proposed scenario was the only scenario of the four analyzed that would realize a reasonable return; and

WHEREAS, at hearing, the Board directed the applicant to analyze a lesser variance scenario consisting of the addition of 32 parking stackers to the accessory cellar level garage to increase the number of parking spaces provided at the site; and

WHEREAS, in response, the applicant provided a revised financial analysis which concluded that the lesser variance scenario would not realize a reasonable return because the introduction of 32 parking stackers and the need for additional ceiling height to accommodate the stackers significantly impacts the below grade sub-surface costs; and

WHEREAS, based upon its review of the submissions, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed development will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the Board notes that the modified proposal only seeks to reduce the number of required parking spaces and to allow a portion of the accessory parking lot to be located within the R5 zoning district; and

WHEREAS, the applicant states that the proposed retail space and food store are located entirely within the commercial portion of the zoning lot and are permitted as-of-right, and that the cellar level accessory garage is permitted as-of-right on all but the 3,582 sq. ft. portion of the site located within an R5 zoning district, which only accounts for approximately ten percent of the total lot area; and

WHEREAS, the applicant further states that the proposed accessory parking garage within the R5 portion of the site will be located entirely below grade, and the R5 portion of the site

will consist of a landscaped area above grade; and

WHEREAS, accordingly, the applicant represents that the proposed use of the R5 portion of the site for below grade accessory commercial parking will not have any negative impacts on the surrounding neighborhood; and

WHEREAS, as to the reduction in parking, the applicant states that the proposed building provides sufficient parking to accommodate the anticipated parking demand at the site; and

WHEREAS, the applicant submitted a traffic study which concluded that the proposed building would require a total of 48 parking spaces during the weekday peak parking demand time periods and 99 parking spaces during the Saturday peak parking demand time periods, and therefore the 111 on-site parking spaces (and 11 queuing spaces) proposed for the site will be adequate to accommodate the parking demand for the proposal; and

WHEREAS, the applicant represents that parking demand will also be lessened because the site is well served by mass transit, as the Grand Avenue/Newtown stop on the M and R subway lines is located at the subject intersection, and both Queens Boulevard and Broadway are serviced by MTA bus routes; and

WHEREAS, based upon the above, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title, but is rather a function of the pre-existing unique physical conditions cited above; and

WHEREAS, as discussed above, the applicant initially requested a five-story commercial building with a floor area of 121,339 sq. ft. (3.41 FAR), a total height of 88 feet, and 251 accessory parking spaces, which complied with the required number of parking spaces under ZR § 36-21, but necessitated a use variance for the portion of the building located in the R5 district, and necessitated bulk waivers associated with floor area, lot coverage, front yard, side yard, rear yard, height, and parking located more than 23'-0" above curb level; and

WHEREAS, in response to concerns raised by the Board, the applicant revised its plans on several occasions, ultimately providing the subject proposal significantly reducing the size of the building and eliminating the previously requested bulk waivers; and

WHEREAS, the Board directed the applicant to revise the applicant to eliminate the request for a reduction in the required number of parking spaces; and

WHEREAS, accordingly, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant

# MINUTES

information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 10BSA050Q, dated March 29, 2012; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the New York City Landmarks Preservation Commission (“LPC”) reviewed the project for potential archaeological impacts and requested that an archaeological documentary study (Phase IA) be submitted for review and approval; and

WHEREAS, a Restrictive Declaration for an archaeological study was executed on March 16, 2012 and filed for recording on March 21, 2012; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved* that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit, on a site located partially within a C1-2 (R6) zoning district, a C2-3 (R6) zoning district, a C1-2 (R7A) zoning district, and an R5 zoning district, a two-story and mezzanine commercial building with an accessory parking garage at the cellar level, which does not comply with the zoning regulations for use or parking, contrary to ZR §§ 22-00 and 36-21, *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked “Received November 1, 2011” – ten (10) sheets, and *on further condition*:

THAT the following shall be the bulk parameters of the building: a floor area of 63,894 sq. ft. (1.80 FAR), a height of 48 feet, and 111 accessory parking spaces (and 11 queuing spaces) at the cellar level, as indicated on the BSA-approved plans;

THAT landscaping will be planted and maintained as per the BSA-approved plans;

THAT a permit shall not be issued for any grading, excavation, foundation or other permit which involves soil disturbance until, pursuant to the Restrictive Declaration, the LPC has issued to DOB, as applicable, either a Notice of No Objection, Notice to Proceed, Notice of Satisfaction, or Final Notice of Satisfaction;

THAT substantial construction will proceed in accordance with ZR § 72-23;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 3, 2012.

## THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated December 15, 2011, acting on Department of Buildings Application No. 320371414, reads in pertinent part:

Proposed physical culture establishment is not permitted as-of-right in C4-3 zoning district pursuant to ZR Section 32-10 and therefore requires a special permit from the Board of Standards and Appeals as per ZR Section 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located in a C4-3 zoning district, the operation of a physical culture establishment (PCE) on the first, second, and third floors of a three-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on March 20, 2012, after due notice by publication in *The City Record*, and then to decision on April 3, 2012; and

WHEREAS, Community Board 4, Brooklyn, recommends approval of this application; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the east corner of the intersection formed by Broadway and Sumner Place, within a C4-3 zoning district; and

WHEREAS, the site is a corner lot with 75 feet of frontage on Broadway, 150 feet of frontage on Sumner Place, and a total lot area of 12,500 sq. ft.; and

WHEREAS, the applicant proposes to occupy 18,705 sq. ft. of floor area on the first, second, and third floors; and

WHEREAS, the PCE will be operated as Planet Fitness; and

WHEREAS, the applicant states that the hours of operation for the proposed PCE will be 24 hours a day, seven days a week; and

WHEREAS, the applicant represents that the services at the PCE include facilities for instruction and programs for physical improvement; and

WHEREAS, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the

community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No. 12BSA044K, dated December 1, 2011; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved* that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit on a site located in a C4-3 zoning district, the operation of a physical culture establishment (PCE) on the first, second, and third floors of a three-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received February 9, 2012” - (6) sheets, and *on further condition*:

THAT the term of this grant will expire on April 3, 2022;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages must be performed by New York State licensed massage therapists;

THAT the site will be maintained free of graffiti;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the proposed building will be reviewed by DOB for compliance with all bulk regulations of the Zoning Resolution;

# MINUTES

THAT substantial construction will be completed in accordance with ZR §73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 3, 2012.

Negative:.....0

#### THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated December 2, 2011, acting on Department of Buildings Application No. 420482524, reads in pertinent part:

Proposed physical culture establishment is not permitted as of right in C4-3 zoning district pursuant to ZR Section 32-10 and therefore requires a special permit from the Board of Standards and Appeals per ZR Section 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located in a C4-3 zoning district, the operation of a physical culture establishment (PCE) at a portion of the first floor and the entire second floor of a two-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on February 28, 2012, after due notice by

publication in *The City Record*, with a continued hearing on March 20, 2012, and then to decision on April 3, 2012; and

WHEREAS, Community Board 5, Queens, recommends approval of this application, with the condition that the site be kept free of graffiti; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the intersection formed by Wyckoff Avenue, Myrtle Avenue, and Palmetto Street, within a C4-3 zoning district; and

WHEREAS, the site has approximately 115 feet of frontage on Wyckoff Avenue, 14 feet of frontage on Myrtle Avenue, 123 feet of frontage on Palmetto Street, and a total lot area of 16,205 sq. ft.; and

WHEREAS, the subject site is currently occupied by a two-story commercial building; and

WHEREAS, the proposed PCE will occupy a total of 17,385 sq. ft. of floor area on a portion of the first floor and the entire second floor; and

WHEREAS, the PCE will be operated as Planet Fitness; and

WHEREAS, the applicant states that the proposed PCE will operate 24 hours per day, seven days per week; and

WHEREAS, the applicant represents that the services at the PCE include facilities for instruction and programs for physical improvement; and

WHEREAS, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No.12BSA060K, dated December 29, 2011; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions;

Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved* that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site located in a C4-3 zoning district, the operation of a physical culture establishment at a portion of the first floor and the entire second floor of a two-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received February 14, 2012"-(4) sheets, and *on further condition*:

THAT the term of this grant will expire on April 3, 2022;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages must be performed by New York State licensed massage therapists;

THAT the site will be maintained free of graffiti;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the proposed building will be reviewed by DOB for compliance with all bulk regulations of the Zoning Resolution;

THAT substantial construction will be completed in accordance with ZR §73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April

3, 2012.

Absent: Commissioner Ottley-Brown.....1

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated September 26, 2011, acting on Department of Buildings Application No. 320243544, reads in pertinent part:

Proposed physical culture establishment in a C4-4A zoning district is contrary to Section 32-10 ZR and requires a special permit from the BSA (73-36 ZR); and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located in a C4-4A zoning district, the operation of a physical culture establishment (PCE) at a portion of the first floor and the entire second and third floor of a three-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on December 13, 2011, after due notice by publication in *The City Record*, with a continued hearing on February 28, 2012, and then to decision on March 20, 2012; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Montanez; and

WHEREAS, the subject site is an irregular-shaped through lot bounded by Hillel Place to the north, Nostrand Avenue to the east, and Campus Road to the south, within a C4-4A zoning district; and

WHEREAS, the site has 31.2 feet of frontage on Hillel Place, 120 feet of frontage on Nostrand Avenue, 55.1 feet of

frontage on Campus Road, and a total lot area of 12,234 sq. ft.; and

WHEREAS, the subject site is currently vacant; and

WHEREAS, the applicant proposes to construct a three-story commercial building on the site, with the proposed PCE occupying 15,981 sq. ft. of floor area on a portion of the first floor and the entire second and third floors; and

WHEREAS, the PCE will be operated as Blink Fitness; and

WHEREAS, the applicant states that the hours of operation for the proposed PCE will be: Monday through Saturday, from 5:30 a.m. to 11:00 p.m.; and Sunday, from 7:00 a.m. to 9:00 p.m.; and

WHEREAS, the applicant represents that the services at the PCE include facilities for instruction and programs for physical improvement; and

WHEREAS, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No. 12BSA030K, dated October 10, 2011; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Jeff Mulligan, Executive Director*

# MINUTES

**REGULAR MEETING  
TUESDAY MORNING, APRIL 24, 2012  
10:00 A.M.**

Present: Chair Srinivasan, Vice-Chair Collins,  
Commissioner Ottley-Brown, Commissioner Hinkson and  
Commissioner Montanez.

**SPECIAL ORDER CALENDAR**

**389-37-BZ**

APPLICANT – The Law Office of Fredrick A. Becker, for  
Rosemarie Fiore and George Fiore.

SUBJECT – Application February 22, 2012 – Extension of  
Time to obtain a Certificate of Occupancy of previously  
granted variance for the operation of a UG8 parking lot  
which expired on May 11, 2011; waiver of the Rules.  
R5/C1-2 zoning district.

PREMISES AFFECTED – 31-08 to 31-12 45<sup>th</sup> Street,  
southwest corner of 45<sup>th</sup> Street and 31<sup>st</sup> Avenue, Block 710,  
Lot 1, Borough of Queens.

**COMMUNITY BOARD #1Q**

APPEARANCES –

For Applicant: Fredrick A. Becker.

**ACTION OF THE BOARD** – Application granted on  
condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins,  
Commissioner Ottley-Brown, Commissioner Hinkson and  
Commissioner Montanez .....5  
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the  
Rules of Practice and Procedure, a reopening, and an  
extension of time to obtain a certificate of occupancy for a  
previously granted variance for the operation of a Use  
Group 8 parking lot; and

WHEREAS, a public hearing was held on this  
application on March 27, 2012, after due notice by  
publication in *The City Record*, and then to decision on April  
24, 2012; and

WHEREAS, the premises and surrounding area had a  
site and neighborhood examination by Chair Srinivasan; and

WHEREAS, the subject site is located on the southwest  
corner of 45<sup>th</sup> Street and 31<sup>st</sup> Avenue, within a C1-2 (R5)  
zoning district; and

WHEREAS, the site is occupied by an open parking lot;  
and

WHEREAS, the Board has exercised jurisdiction over  
the site since April 5, 1938 when, under the subject calendar  
number, the Board granted a variance to permit the parking and  
storage of more than five motor vehicles on the site, for a term  
of two years; and

WHEREAS, subsequently, the grant was amended and  
the term extended at various times; and

WHEREAS, most recently, on May 11, 2010, the Board

granted a ten-year extension of term, to expire on June 13,  
2018 and an amendment to remove the condition requiring a  
financial analysis examining the feasibility of residential use at  
the site; a condition of the grant was that a certificate of  
occupancy be obtained by May 11, 2011; and

WHEREAS, the applicant now seeks an additional  
extension of time to obtain a certificate of occupancy; and

WHEREAS, the applicant represents that it was unable to  
obtain a certificate of occupancy within the stipulated time in  
part due to procedural issues at the Department of Buildings;  
and

WHEREAS, based upon the above, the Board finds  
that the requested extension of time to obtain a certificate of  
occupancy is appropriate with certain conditions as set forth  
below.

*Therefore it is Resolved* that the Board of Standards and  
Appeals *waives* the Rules of Practice and Procedure, *reopens*  
and *amends* the resolution, dated April 5, 1938, so that as  
amended this portion of the resolution shall read: “to extend  
the time to obtain a certificate of occupancy to April 24,  
2013; *on condition* that the use and operation of the site shall  
comply with the BSA-approved plans associated with the  
prior grant; and *on further condition*:

THAT the term of the grant shall expire on June 13,  
2018;

THAT the site shall be maintained free of debris and  
graffiti;

THAT the above conditions shall appear on the  
certificate of occupancy;

THAT a new certificate of occupancy shall be obtained  
by April 24, 2013;

THAT all conditions from prior resolution not  
specifically waived by the Board remain in effect; and

THAT the Department of Buildings must ensure  
compliance with all other applicable provisions of the  
Zoning Resolution, the Administrative Code and any other  
relevant laws under its jurisdiction irrespective of plan(s)  
and/or configuration(s) not related to the relief granted.”  
(DOB Application No. 410230245)

Adopted by the Board of Standards and Appeals April  
24, 2012.

**764-56-BZ**

APPLICANT – Alfonso Duarte, P.E., for Anthony Panvini,  
owner.

SUBJECT – Application December 2, 2011 – Extension of  
Term (§11-411) of a variance permitting the operation of an  
automotive service station (UG 16B) with accessory uses  
and the sale of used cars (UG 16B), which expires on  
October 22, 2012. C1-2/R3-2 zoning district.

PREMISES AFFECTED – 200-05 Horace Harding  
Expressway, north side between Hollis Ct., Boulevard and  
201<sup>st</sup> Street, Block 741, Lot 325,000.00, Borough of  
Queens.

**COMMUNITY BOARD #11Q**

APPEARANCES –

For Applicant: Alfonso Duarte.

# MINUTES

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

**THE RESOLUTION** –

WHEREAS, this is an application for a re-opening and an extension of term of a previously granted variance to permit the operation of a gasoline service station with accessory uses and the sale of cars, which will expire on October 22, 2012; and

WHEREAS, a public hearing was held on this application on February 14, 2012, after due notice by publication in *The City Record*, with a continued hearing on March 20, 2012, and then to decision on April 24, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 11, Queens, recommends approval of this application, with the following conditions: (1) there be no parking on the sidewalk; (2) the site be maintained free of debris and graffiti; (3) all graffiti be removed within 48 hours; (4) all signs be maintained in accordance with the BSA-approved plans; (5) the sale of only five used cars be permitted; (6) all conditions appear on the certificate of occupancy; and (7) a new certificate of occupancy be obtained within one year from the date of the grant; and

WHEREAS, Queens Borough President Helen Marshall recommends approval of this application, subject to the conditions stipulated by the Community Board; and

WHEREAS, the subject site is located on a corner through lot bounded by 201<sup>st</sup> Street to the east, the Horace Harding Expressway to the south, and Hollis Court Boulevard to the west, within a C1-2 (R3-2) zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since October 22, 1957 when, under the subject calendar number, the Board granted a variance to permit the construction of a gasoline service station with accessory uses, for a term of 15 years; and

WHEREAS, subsequently, the grant has been amended and the term extended by the Board at various times; and

WHEREAS, most recently, on December 17, 2002, the Board granted a ten-year extension of term, which expires on October 22, 2012, and an amendment to permit the sale of used cars; and

WHEREAS, the applicant now requests an additional ten-year extension of term; and

WHEREAS, pursuant to ZR § 11-411, the Board may permit an extension of term; and

WHEREAS, at hearing, the Board raised concerns about the site’s compliance with C1 district signage regulations; and

WHEREAS, in response, the applicant submitted revised plans and a signage analysis reflecting that the site complies with C1 district signage regulations; and

WHEREAS, based upon the above, the Board finds the requested extension of term is appropriate, with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated October 22, 1957, so that as amended this portion of the resolution shall read: “to extend the term for ten years from October 22, 2012, to expire on October 22, 2022; *on condition* that all use and operations shall substantially conform to plans filed with this application marked ‘Received January 31, 2012’- (2) sheets and ‘April 3, 2012’-(1) sheet; and *on further condition*:

THAT the term of the grant will expire on October 22, 2022;

THAT the site will be maintained free of debris and graffiti;

THAT any graffiti identified on the site will be removed within 48 hours;

THAT all signage on the site will comply with C1 district regulations;

THAT a maximum of five parking spaces on the site be utilized for the sale of used cars;

THAT the above conditions will be reflected on the certificate of occupancy;

THAT a new certificate of occupancy will be obtained by April 24, 2013;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals April 24, 2012.

## THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment to a previously granted variance for an automotive service station with accessory uses (Use Group 16); and

WHEREAS, a public hearing was held on this application on February 28, 2012 after due notice by publication in *The City Record*, with a continued hearing on March 27, 2012, and then to decision on April 24, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 4, Queens, states that it has no objection to this application; and

WHEREAS, the site is located on a corner through lot bounded by Horace Harding Expressway to the south, Granger Street to the west, and 108<sup>th</sup> Street to the east, within a C2-2 (R6) zoning district; and

WHEREAS, the subject site is occupied by an automotive service station with accessory uses; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 2, 1971 when, under the subject calendar number, the Board granted a special permit to allow the reconstruction of an existing automotive service station with accessory uses; and

WHEREAS, subsequently, the grant was amended by the Board on various occasions; and

WHEREAS, most recently, on March 23, 1999, the Board granted an amendment to permit the conversion of an existing building to a convenience store, the removal of two existing pump islands to be replaced with five new pump islands and canopy, and the discontinuance of the automotive repair use; and

WHEREAS, the applicant states that the owner did not pursue the modifications permitted under the 1999 grant, and now requests an amendment to allow the site to revert to its use and operation prior to the 1999 grant; and

WHEREAS, at hearing, the Board directed the applicant to clarify how the site operates and whether it is in compliance with the conditions from prior grants; and

WHEREAS, in response, the applicant submitted an operation plan reflecting that the site consists of a gasoline service station and snack shop which operate 24 hours per day, and an automotive repair shop which operates Monday through Friday, from 8:00 a.m. to 6:00 p.m., Saturday, from 8:00 a.m. to 5:00 p.m., and closed on Sunday; and

WHEREAS, the applicant also submitted compliance charts reflecting that the site is in compliance with all relevant conditions from prior Board grants; and

WHEREAS, at hearing, the Board also questioned whether the applicant could eliminate any of the curb cuts on the site; and

WHEREAS, in response, the applicant submitted a circulation plan and states that in order to move vehicles safely and quickly off the site so that on-site congestion can be avoided, it is necessary to dedicate one of the Horace Harding Expressway curb cuts exclusively for exiting

traffic, and that if the owner had to eliminate one of the five curb cuts on the site it might not be able to dedicate one curb cut solely for egress; and

WHEREAS, based upon its review of the record, the Board finds the requested amendment to the approved plans is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated March 2, 1971, so that as amended this portion of the resolution shall read: “to permit the noted modifications to the approved plans; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked ‘Received January 24, 2012’–(6) sheets; and *on further condition*:

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (DOB Application No. 420344130)

Adopted by the Board of Standards and Appeals April 24, 2012.

## 172-86-BZ

APPLICANT – Sheldon Lobel, P.C., for Clearview Mortgage Bank Corporation, owner.

SUBJECT – Application November 4, 2011 – Extension of Term of an approved Variance (§72-21) which permitted the construction of a two-story UG6 professional office building which expires on March 31, 2012. R2 zoning district.

PREMISES AFFECTED – 256-10 Union Turnpike, south side of Union Turnpike between 256<sup>th</sup> and 257<sup>th</sup> Streets, Block 8693, Lot 14, Borough of Queens.

## COMMUNITY BOARD #13Q

### APPEARANCES –

For Applicant: Nora Martins.

**ACTION OF THE BOARD** – Application granted on condition.

### THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

## THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of the term for a previously granted variance for the construction of a two-story professional office building (Use Group 6); and

WHEREAS, a public hearing was held on this application on February 28, 2012, after due notice by

# MINUTES

publication in *The City Record*, with a continued hearing on March 27, 2012, and then to decision on April 24, 2012; and

WHEREAS, Community Board 13, Queens, states that it has no objection to this application; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the south side of Union Turnpike, between 256<sup>th</sup> Street and 257<sup>th</sup> Street, within an R2 zoning district; and

WHEREAS, the Board has exercised jurisdiction over the site since March 31, 1987 when, under the subject calendar number, the Board granted a variance to permit the construction of a two-story professional office building (Use Group 6) within an R2 zoning district, for a term of 15 years; and

WHEREAS, on January 7, 2003, the Board granted a ten-year extension of term, which expired on March 31, 2012; and

WHEREAS, the applicant now seeks an additional ten-year extension of the term; and

WHEREAS, at hearing, the Board questioned whether the signage at the site complies with C1 district regulations; and

WHEREAS, in response, the applicant submitted a signage analysis which reflects that the signage on the site complies with C1 district regulations and

WHEREAS, based upon the above, the Board finds that the requested extension of term is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated March 31, 1987, so that as amended this portion of the resolution shall read: "to extend the term for ten years from March 31, 2012, to expire on March 31, 2022; *on condition* that all use and operations shall substantially conform to plans filed with this application marked 'Received November 4, 2011'-(5) sheets and 'April 10, 2012'-(1) sheet; and *on further condition*:

THAT the term of the grant will expire on March 31, 2022;

THAT all conditions from prior resolution not specifically waived by the Board remain in effect; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted." (DOB App. No. 400227447)

Adopted by the Board of Standards and Appeals April 24, 2012.

## 162-95-BZ & 163-95-BZ

APPLICANT – Sheldon Lobel, P.C., for Salvatore Bonavita, owner; Pelham Bay Fitness Group, LLC, lessee.

SUBJECT – Application April 3, 2011 – Extension of Term to permit the continued operation of a Physical Cultural Establishment (*Planet Fitness*) which expired on July 30, 2006; Amendment to increase the floor area of the establishment. Waiver of the rules. C2-4/R6 and R7-1 zoning district.

PREMISES AFFECTED – 3060 & 3074 Westchester Avenue, Southern side of Westchester Avenue between Mahan Avenue and Hobart Avenue. Block 4196, Lots 9, 11 & 13, Borough of Bronx.

## COMMUNITY BOARD #10BX

APPEARANCES –

For Applicant: Nora Martins.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, an extension of the term of previously granted special permits for a physical culture establishment ("PCE"), which expired on July 30, 2006, and an amendment to legalize the extension of the PCE space; and

WHEREAS, a public hearing was held on this application on January 31, 2012, after due notice by publication in *The City Record*, with a continued hearing on March 27, 2012, and then to decision on April 24, 2012; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Ottley-Brown; and

WHEREAS, Community Board 10, Bronx, raised concerns with parking at the site and the proposed 24-hour operation of the PCE, and recommends approval of this application, on condition that (1) there be accessory off-street attendant parking for 25 motor vehicles; and (2) the hours of operation be limited to 6:00 a.m. to midnight, seven days per week; and

WHEREAS, the PCE is located on the southeast side of Westchester Avenue, between Mahan Avenue and Hobart Avenue, partially within a C2-4 (R6) zoning district and partially within a C2-4 (R7-1) zoning district; and

WHEREAS, the site comprises three separate tax lots (Lots, 9, 11, and 13) occupied by two adjoining one-story and mezzanine commercial buildings; the 3060 Westchester Avenue building is located on Lot 9, and the 3074 Westchester Avenue building is located on Lot 11 and a portion of Lot 13; and

WHEREAS, the applicant states that the buildings have an opening between them and the subject PCE operates in both buildings; and

WHEREAS, the PCE currently occupies a combined

---

# MINUTES

---

total of 17,212 sq. ft. of floor area on the first floors and mezzanines of the two buildings (8,551 sq. ft. of floor area in the 3060 Westchester Avenue building and 8,661 sq. ft. of floor area in the 3074 Westchester Avenue building); and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 30, 1996 when, under the subject calendar numbers, the Board granted special permits for a PCE in the subject buildings for a term of ten years, which expired on July 30, 2006; and

WHEREAS, the applicant now seeks to extend the term of the special permits for an additional ten years; and

WHEREAS, the applicant also requests an amendment to legalize the extension of the PCE space within the 3060 Westchester Avenue building (BSA Cal. No. 162-95-BZ); and

WHEREAS, the applicant states that at the time of the Board's original approval, the southeast corner of the first floor and the corridor along the western wall of the 3060 Westchester Avenue building were used by the PCE's owners as an office (Use Group 6) and the mezzanine space directly above the office area was unused, such that the total combined floor area of the PCE was 14,334 sq. ft.; and

WHEREAS, the applicant now seeks to legalize the conversion of the first floor office area and unused mezzanine area in the 3060 Westchester Avenue building to PCE use, accounting for approximately 2,900 sq. ft. of additional PCE floor area, for a combined total floor area of 17,212 sq. ft.; and

WHEREAS, the applicant notes that the PCE now operates as Planet Fitness (formerly Gold's Gym) but that the owner and operator of the PCE has not changed; and

WHEREAS, in response to the concerns raised by the Community Board, the applicant states that it provides an attended parking lot for the PCE's patrons with a maximum capacity of 25 vehicles, and states that it will station the parking attendant outdoors in the parking lot during the PCE's peak hours of operation, in order to maneuver vehicles as needed in the lot; and

WHEREAS, as to the Community Board's concerns regarding the proposed 24-hour operation of the PCE, the applicant states that the owners of the subject PCE have been operating at this site since 1996 and have maintained the current 24-hour operation at this location since 2001, and that the PCE's hours of operation have not altered the character of the neighborhood; and

WHEREAS, the applicant notes that a 24-hour automotive service station is located directly across Westchester Avenue from the site, and unlike the automotive service station, the PCE is located entirely within an enclosed building; and

WHEREAS, the applicant acknowledges that past noise complaints at the site resulted from the loitering of patrons in the parking lot during the overnight hours, but states that the PCE has taken the following measures to address these concerns: (1) installed signs in the parking area and building advising members to be respectful of their neighbors when arriving and leaving the PCE; (2) instructed the staff to monitor the parking area and street in front of the building to ensure patrons are not loitering before or after using the PCE; (3) installed security cameras in the parking area to enable staff to

better monitor the lot; (4) instituted a policy where PCE membership is subject to revocation if members create noise problems for the neighbors; and (5) instructed staff to document and refer any complaints from neighbors to the attention of the PCE's Director of Operations, who has attended Community Board meetings and provided personal contact information to the Community Board members and residents; and

WHEREAS, in order to prevent the PCE's hours of operation from adversely affecting the adjoining residential neighbors, the applicant has also agreed to close the PCE's parking lot from the hours of 12:00 a.m. through 6:00 a.m.; and

WHEREAS, the applicant submitted revised plans reflecting the installation of a gate at the parking lot's entrance, which the applicant states will be closed by the PCE's staff during the overnight hours; and

WHEREAS, accordingly, the Board finds that the applicant has submitted sufficient evidence to establish that the proposed 24-hour operation of the PCE will not have a negative impact on the surrounding neighborhood, but the Board will limit the term to two years in order to monitor the effectiveness of the PCE's operating conditions designed to address the concerns raised by the community; and

WHEREAS, based upon its review of the record, the Board finds that a two-year extension of term and amendment are appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, as adopted on July 30, 1996, so that as amended this portion of the resolution shall read: "to extend the term for a period of two years from the date of this grant, to expire on April 24, 2014, and to permit the noted modifications to the BSA-approved plans, *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received April 10, 2012"--(5) sheets; and *on further condition*:

THAT the term of this grant shall expire on April 24, 2014;

THAT accessory off-street attendant parking for 25 motor vehicles will be provided on the site;

THAT the parking lot will be closed between the hours of 12:00 a.m. and 6:00 a.m.;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted." (DOB Application No. 101962814)

Adopted by the Board of Standards and Appeals, April 24, 2012.

THE RESOLUTION –

WHEREAS, the decisions of the Staten Island Borough Commissioner, dated February 13, 2012, acting on Department of Buildings Application Nos. 520048948, 520048957, 520048984, 520048975, and 520048966 read in pertinent part:

Proposed construction of a one family residence building within bed of a mapped street is contrary to General City Law 35 and not permitted; and

WHEREAS, this is an application to permit the proposed construction of five single-family homes located within the bed of a mapped street, contrary to Section 35 of the General City Law; and

WHEREAS, a public hearing was held on this application on January 24, 2012, after due notice by publication in the *City Record*, with continued hearings on February 28, 2012 and March 27, 2012, and then to decision on April 24, 2012; and

WHEREAS, Community Board 2, Staten Island, recommends disapproval of this application; and

WHEREAS, New York State Assembly Member Michael J. Cusick provided written testimony in opposition to this application; and

WHEREAS, New York State Assembly Member Louis R. Tobacco provided written testimony in opposition to this application; and

WHEREAS, New York State Senator Andrew J. Lanza provided written testimony requesting that the Board review the environmental and transportation issues associated with this application; and

WHEREAS, United States Congress Member Michael G. Grimm provided written testimony in opposition to this

---

# MINUTES

---

application; and

WHEREAS, New Yorkers for Parks provided written testimony in opposition to this application; and

WHEREAS, representatives of the Richmondtown and Clarke Avenue Civic Association and the Grasmere Civic Association provided oral and written testimony in opposition to this application (collectively, the "Opposition"); and

WHEREAS, the Opposition raised the following primary concerns: (1) the proposal is in a freshwater wetlands area; (2) an environmental assessment should be performed on the site; (3) the proposal could cause increased flooding in the area; (4) the applicant has not satisfied the findings pursuant to ZR § 72-21; (5) the proposal creates potential zoning non-compliances; (6) the proposal must be reviewed by the Department of City Planning ("DCP"); and (7) there is insufficient parking for the project on the surrounding streets; and

WHEREAS, the subject site consists of 296,208 sq. ft. of lot area bounded by St. Andrews Road to the north and Richmond Road to the south, in an R1-2 zoning district within the Special Natural Area Zoning District; and

WHEREAS, the applicant notes that 59,520 sq. ft. of lot area is Freshwater Wetland, 157,135 sq. ft. of lot area is Freshwater Wetland Adjacent Area, and the remaining 79,533 sq. ft. of lot area is unregulated; and

WHEREAS, the applicant proposes to construct 13 single family homes on the site, with four of the homes fronting on Richmond Road and nine of the homes accessed by Tupelo Court, a newly created private street; and

WHEREAS, the applicant states that three of the homes are proposed to be constructed in the bed of a mapped street known as Mace Street, and two of the homes are proposed to be constructed in the bed of a mapped street known as Ascot Avenue; accordingly, the applicant seeks a waiver of Section 35 of the General City law for the construction of five homes in the bed of a mapped street; and

WHEREAS, the other eight homes in the proposed development do not require a waiver of Section 35 of the General City Law, and therefore are not included in the subject application; and

WHEREAS, by letter dated January 12, 2011, the Department of Transportation ("DOT") states that it has reviewed the project and has no objections; and

WHEREAS, DOT states that the applicant's property is not included in the agency's ten-year capital plan; and

WHEREAS, by letter dated September 26, 2011, the Department of Environmental Protection ("DEP") states that the Amended Drainage Plan No. D-3 (R-2)/D-4 (R-1), dated March 17, 2005, does not show any future sewers in the portions of mapped Mace Street and mapped Ascot Avenue at issue, but does show stabilized outlets at the intersection of Mace Street and mapped Call Street which will discharge storm flow into the referenced property; and

WHEREAS, DEP further states that, based on the June 28, 2011 map submitted by the applicant, which shows the DEP easement area which will be available to accept the storm flow discharge from the above-mentioned stabilized outlets, and based on the easement document submitted by the applicant for the portion of the property not to be developed on

lot 36, it has no objections to the proposed application; and

WHEREAS, by letter dated December 7, 2010, the Fire Department states that it objects to the construction of any buildings within the bed of a mapped street (including the construction of the proposed homes in the bed of Ascot Avenue and Mace Street) because such streets should be opened in order to improve emergency response in the area; and

WHEREAS, in response, the applicant states that it made a good faith attempt to utilize and open the existing mapped but unbuilt streets on the site, however, the New York State Department of Environmental Conservation ("DEC") would not allow the existing streets on the site to be opened because they are within Freshwater Wetland and Freshwater Wetland Adjacent Area; and

WHEREAS, the applicant submitted a letter from DEC dated March 20, 2012 which states that it issued a freshwater wetlands permit for the construction of 13 single family homes on the site, which keeps portions of the beds of St. Andrews Road, Mace Street, and Ascot Avenue unbuilt in perpetuity to preserve and protect freshwater wetlands and their benefits, and the street beds will not be opened and developed on the property controlled by the terms of the cited DEC permit; and

WHEREAS, by letter dated March 6, 2012, the Fire Department states that it reviewed the proposed site plan and all conditions relative to building access roads are in compliance with the 2008 Fire Code; and

WHEREAS, accordingly, the Board acknowledges the stated policy of the Fire Department that all mapped streets be opened, but finds that the applicant has submitted sufficient evidence to warrant approval of the proposed construction based on the inability to open the mapped but unbuilt streets on the site due to the requirements of the DEC freshwater wetlands permit, in conjunction with the Fire Department's acknowledgment that the proposed Tupelo Court will fully comply with the 2008 Fire Code; and

WHEREAS, in response to the concerns raised by the Opposition regarding the construction within the Freshwater Wetlands, flooding, and the need to undergo an environmental assessment of the site, the applicant notes that more than half of the site is being preserved in its natural state, the proposed construction will only take place within the Freshwater Wetlands Adjacent Area and not within the Freshwater Wetlands, and that DEC issued a freshwater wetlands permit for the proposed construction, which incorporated an environmental review that followed SEQR regulations; and

WHEREAS, in response to the Opposition's claim that the proposal does not satisfy the findings of ZR § 72-21 and that it creates potential zoning non-compliances, the Board notes that the findings under ZR § 72-21 are not applicable to an application under Section 35 of the General City Law, and that all issues related to zoning on the site are subject to review and approval by the Department of Buildings; and

WHEREAS, as to the Opposition's contention that the proposal must be reviewed by DCP, the applicant submitted a letter from DCP stating that the proposed project will require Special Natural Area District authorizations and review by the City Planning Commission, but that the project requires a

---

# MINUTES

---

Board determination before an application can be filed with DCP; and

WHEREAS, in response to the Opposition's concerns regarding a lack of parking, the applicant notes that off-street parking spaces will be provided for the proposed homes, the proposed Tupelo Court will be built out to a width of 38 feet such that parking can be provided on that street, and Richmond Road will be widened so that additional parking can be provided on that street; and

WHEREAS, while the Board recognizes the concerns expressed by the Opposition, such considerations are not part of an application to permit construction within the bed of a mapped street under Section 35 of the General City Law, and therefore are not subject to the Board's review; and

WHEREAS, the Board notes that the construction must comply with all requirements of the Zoning Resolution; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

*Therefore it is Resolved* that the decisions of the Staten Island Borough Commissioner, dated May 10, 2010, acting on Department of Buildings Application Nos. 520048948, 520048957, 520048984, 520048975, and 520048966, is modified by the power vested in the Board by Section 35 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked "Received March 20, 2012" – (3) sheets; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT all necessary DEC and DEP approvals must be obtained prior to the issuance of DOB permits;

THAT the necessary DCP review and authorization must be obtained prior to the issuance of DOB permits;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT DOB shall review the proposed plans to ensure compliance with all relevant provisions of the Zoning Resolution;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 24, 2012.

Negative:.....0

**THE RESOLUTION –**

WHEREAS, the decision of the Queens Borough  
Commissioner, dated August 15, 2011, acting on  
Department of Buildings Application No. 420301015, reads  
in pertinent part:

ZR 44-21: The proposed number of accessory  
parking spaces for Use Group 6B offices (PRC  
B1) and Use Group 9A Catering Establishment  
(PRC-B1) does not comply with 1 space per 300  
square feet requirement. This requires a reduction  
in parking spaces from BSA as per ZR 73-44; and

WHEREAS, this is an application under ZR §§ 73-44  
and 73-03, to permit, within an M1-3 zoning district, a  
reduction in the required number of accessory parking  
spaces for a mixed-use commercial/manufacturing building  
from 381 to 195, contrary to ZR § 44-21; and

WHEREAS, a public hearing was held on this  
application on February 28, 2012, after due notice by  
publication in The City Record, with continued hearings on  
January 10, 2012, February 28, 2012 and March 27, 2012  
and then to decision on April 24, 2012; and

WHEREAS, the premises and surrounding area had  
site and neighborhood examinations by Chair Srinivasan,  
Commissioner Hinkson, Commissioner Montanez, and  
Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Queens,  
recommends approval of this application; and

WHEREAS, the subject site is located on a corner  
through lot bounded by 29<sup>th</sup> Street to the north, Review  
Avenue to the west, and 30<sup>th</sup> Street to the south, in an M1-3  
zoning district within the Long Island City Industrial  
Business Zone; and

WHEREAS, the site has a width of 125 feet, a depth of  
230 feet, and a total lot area of 28,750 sq. ft.; and

WHEREAS, the site is currently vacant; and

WHEREAS, the applicant proposes to construct a 16-  
story mixed-use commercial/ manufacturing building, with a  
total floor area of 143,734 sq. ft. (5.0 FAR), and a 195-space  
attended accessory parking garage; and

WHEREAS, specifically, the applicant states that the  
proposed building will be occupied by the following uses:  
(1) 139 accessory attended parking spaces at the cellar level;  
(2) contractor storage and staging (Use Group 17A) and 11  
accessory attended parking spaces at the first floor; (3) 45  
accessory attended parking spaces at the second floor; (4)  
office space (Use Group 6B) at the third through 15<sup>th</sup> floors;  
and (5) catering space (Use Group 9A) at the 16<sup>th</sup> floor; and

WHEREAS, the applicant initially proposed a building  
with a 150-space accessory garage, based on the exclusion  
of certain floor area in the building from the parking  
calculations; and

WHEREAS, at the direction of the Board, the  
applicant revised its parking calculations to include all  
eligible floor area within the building, resulting in the  
revised proposal which provides an accessory garage with  
195 attended spaces; and

WHEREAS, pursuant to ZR § 73-44, the Board may,  
in the subject M1-3 zoning district, grant a special permit  
that would allow a reduction in the number of accessory off-  
street parking spaces required under the applicable ZR  
provision, for the noted Use Group 6 office use and Use  
Group 9 catering use in the parking category B1; in the  
subject zoning district, the Board may reduce the required  
parking from one space per 300 sq. ft. of floor area to one  
space per 600 sq. ft. of floor area; and

WHEREAS, pursuant to ZR § 44-21 the total number  
of required parking spaces for all uses at the site is 381; and

WHEREAS, the applicant represents that the proposed  
195 parking spaces are sufficient to accommodate the  
parking demand generated by the use of the site; and

WHEREAS, the applicant notes that 16,937 sq. ft. of  
floor space in the building is occupied by contractor storage  
and staging space (Use Group 17A), which is not in parking  
category B1 and therefore the associated eight required  
spaces have been excluded from the calculations for the  
requested reduction in parking; and

WHEREAS, the applicant states that 112,026 sq. ft. of  
floor area at the site will be occupied either by professional  
offices (Use Group 6) or catering space (Use Group 9),  
which are eligible for the parking reduction under ZR § 73-  
44; at a rate of one required parking space per 300 sq. ft. of  
floor area, 373 parking spaces are required for these uses;  
and

---

# MINUTES

---

WHEREAS, accordingly, the total number of parking spaces which are eligible under the special permit is 373; as noted, the special permit allows for a reduction from one space per 300 sq. ft. of floor area to one space per 600 sq. ft. of floor area, which would reduce the required parking for these uses to 187 spaces; and

WHEREAS, as noted, an additional eight parking spaces are required for the portions of the building occupied by contractor storage and staging space (Use Group 17A), which are not eligible for the special permit; and

WHEREAS, thus, a total of 195 parking spaces are required for the uses on the site; and

WHEREAS, the applicant proposes to provide 195 accessory attended parking spaces on the subject site; and

WHEREAS, ZR § 73-44 requires that the Board must determine that the Use Group 6 and Use Group 9 use in the B1 parking category are contemplated in good faith; and

WHEREAS, the applicant submitted a letter stating that the commercial space in the proposed building will be utilized solely as Use Group 6 office space and Use Group 9 catering space in parking category B1; and

WHEREAS, the applicant notes that the owner of the site, Navillus Contracting, is intended to be the tenant for all of the contractor space and approximately one-third of the office space in the building; and

WHEREAS, in addition, the applicant states that any Certificate of Occupancy for the building will state that no subsequent Certificate of Occupancy may be issued if the use is changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-street radius; and

WHEREAS, the Board finds that the applicant has submitted sufficient evidence of good faith in maintaining the noted uses at the site; and

WHEREAS, however, while ZR § 73-44 allows the Board to reduce the required accessory parking, the Board requested an analysis about the impact that such a reduction might have on the community in terms of the parking demand on the site; and

WHEREAS, in response, the applicant submitted a parking analysis based on transit and auto usage where 50 percent of employees utilized mass transit (and 50 percent utilized cars), which yielded an expected average parking demand of 1.5 spaces per 1,000 sq. ft., resulting in a peak parking demand of 167 spaces for the office and manufacturing space within the building; accordingly, the parking analysis concluded that the proposed 195 spaces is adequate to meet the parking demand at the site and provides a comfortable margin in the event that the actual demand exceeds the projected demand; and

WHEREAS, the parking analysis also indicated that the catering establishment would have a peak demand of 75 vehicles, and because the catering establishment would be more active in evening and weekend periods when there would be no parking demand from the office and manufacturing uses, the 195 spaces provided at the site are sufficient to accommodate this demand; and

WHEREAS, at hearing, the Board raised concerns regarding the potential for the catering facility to be used simultaneously with the office and manufacturing uses, thereby creating a shortage of on-site parking; and

WHEREAS, in response, the applicant states that, in order to avoid a shortage of on-site parking when the office and manufacturing portions of the building are fully occupied, the catering facility will not operate between the hours of 8:00 a.m. and 6:00 p.m. from Monday through Friday, except on state and federal holidays; and

WHEREAS, at hearing, the Board also inquired about whether stackers could be installed on the second floor, given its height of 25 feet, to provide additional parking; and

WHEREAS, in response, the applicant stated that it plans to install stackers in the future if the building reaches greater occupancy and the demand for parking increases, but currently there is not a demand for more parking than the proposed so the applicant seeks to avoid incurring additional costs until it is necessary to do so; the applicant notes that the second floor design can accommodate a significant number of additional spaces, if required; and

WHEREAS, based upon the above, the Board agrees that the accessory parking space needs can be accommodated even with the parking reduction; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-44 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 12SBA013Q, dated August 11, 2011; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved*, that the Board of Standards and Appeals issues a Negative Declaration under 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City

# MINUTES

Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-44 and 73-03 to permit, within an M1-3 zoning district, a reduction in the required number of accessory parking spaces for a mixed-use commercial/manufacturing building from 381 to 195, contrary to ZR § 44-21; on condition that all work shall substantially conform to drawings as they apply to the objections above noted filed with this application marked "Received February 14, 2012" – fifteen (15) sheets, and on further condition:

THAT there shall be no change in the operation of the site without prior review and approval by the Board;

THAT a minimum of 195 parking spaces shall be provided in the subject building;

THAT no certificate of occupancy may be issued if the use is changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-street radius;

THAT the catering facility will not operate Monday through Friday between the hours of 8:00 a.m. and 6:00 p.m., except on state and federal holidays;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT the layout and design of the accessory parking lot shall be as reviewed and approved by the Department of Buildings;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all of applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 24, 2012.

## 167-11-BZ

### CEQR #12-BSA-036X

APPLICANT – Eric Palatnik, P.C., for White Castle System, Inc., owner.

SUBJECT – Application October 20, 2011 – Special Permit (§73-243) to allow for an eating and drinking establishment (UG 6) with an accessory drive-through facility. C1-2/R5 zoning district.

PREMISES AFFECTED – 1677 Bruckner Boulevard, Fiely Avenue through to Metcalf Avenue, Block 3721, Lot 1, Borough of Bronx.

### COMMUNITY BOARD #9BX

APPEARANCES –

For Applicant: Eric Palatnik.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

**THE RESOLUTION** –

WHEREAS, the decision of the Bronx Borough Commissioner, dated September 23, 2011, acting on Department of Buildings Application No. 220135510, reads in pertinent part:

“Proposed reconstruction of 3,190 sq. ft. restaurant with drive-thru, 3 curb cuts, 37 parking spaces and installation of associated signage (Menu Board) in a C1-2 in R5 zoning district requires a special permit from the BSA;” and

WHEREAS, this is an application under ZR §§ 73-243 and 73-03, to permit, on a site within a C1-2 (R5) zoning district, the reconstruction of an accessory drive-through facility in conjunction with an as-of-right eating and drinking establishment (Use Group 6), contrary to ZR § 32-15; and

WHEREAS, a public hearing was held on this application on February 28, 2012, with a continued hearing on March 27, 2012, and then to decision on April 24, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 9, Bronx, recommends approval of this application; and

WHEREAS, a community member provided testimony complaining that passersby use a portion of the site for inappropriate conduct which is incompatible with adjacent residential uses; and

WHEREAS, the subject site is located on a corner through lot bounded by Metcalf Avenue to the west, Bruckner Boulevard to the north, and Fteley Avenue to the east, within a C1-2 (R5) zoning district; and

WHEREAS, the subject site has a total lot area of 52,421 sq. ft. and is currently occupied by a White Castle restaurant with a floor area of 2,755 sq. ft. (.051 FAR) and 56 parking spaces; and

WHEREAS, the Board has exercised jurisdiction over the subject site since November 25, 1986 when, under BSA Cal. No. 278-86-BZ, the Board granted a special permit for the addition of a drive-through facility accessory to an eating and drinking establishment (Use Group 6), for a term of five years; and

WHEREAS, subsequently, the term was extended by the Board at various times; and

WHEREAS, most recently, on December 4, 2001, the Board granted an extension of term, which expired on November 26, 2011; and

WHEREAS, the applicant now seeks to demolish the existing eating and drinking establishment with accessory drive-through on the site and to reconstruct a new eating and drinking establishment with accessory drive-through with a floor area of 3,190 sq. ft. (.058 FAR) and 37 parking spaces;

---

# MINUTES

---

and

WHEREAS, under ZR § 73-243, the applicant must demonstrate that: (1) the drive-through facility provides reservoir space for not less than ten automobiles; (2) the drive-through facility will cause minimal interference with traffic flow in the immediate vicinity; (3) the eating and drinking establishment with accessory drive-through facility complies with accessory off-street parking regulations; (4) the character of the commercially-zoned street frontage within 500 feet of the subject premises reflects substantial orientation toward the motor vehicle; (5) the drive-through facility will not have an undue adverse impact on residences within the immediate vicinity; and (6) there will be adequate buffering between the drive-through facility and adjacent residential uses; and

WHEREAS, the applicant submitted a site plan indicating that the drive-through facility provides reservoir space for a ten-car queue; and

WHEREAS, the applicant represents that the facility will cause minimal interference with traffic flow in the immediate vicinity of the subject site; and

WHEREAS, in support of this representation, the applicant submitted a vehicle circulation drawing reflecting that the site will provide a total of three curb cuts, with two curb cuts located on Fteley Avenue and a curb cut allowing for a right turn only onto Bruckner Boulevard to ensure that the drive-thru facility will cause minimal interference with traffic flow in the surrounding area; and

WHEREAS, the applicant represents that the facility fully complies with the accessory off-street parking regulations for the C1-2 (R5) zoning district; and

WHEREAS, specifically, the applicant states that a minimum of ten parking spaces are required pursuant to ZR § 32-21, and a total of 37 accessory off-street parking spaces will be provided at the site; and

WHEREAS, the applicant represents that the facility conforms to the character of the commercially zoned street frontage within 500 feet of the subject premises, which reflects substantial orientation toward the motor vehicle; and

WHEREAS, in support of this representation the applicant submitted a radius diagram reflecting that the site is located between the Bruckner Expressway and the Bronx River Parkway, a heavily trafficked intersection, and that there are approximately five gasoline stations within one mile of the site and at least two other eating and drinking establishments with drive-through facilities in the surrounding area (located at 1600 Bruckner Boulevard and 1851 Bruckner Boulevard); and

WHEREAS, the applicant represents that the drive-through facility will not have an undue adverse impact on residences within the immediate vicinity of the subject premises; and

WHEREAS, the applicant represents that the fact that the proposed drive-through facility has operated at this site without complaints since 1986, when the Board granted the original special permit, is evidence that it does not have an adverse impact on residences in the surrounding area; and

WHEREAS, the applicant states that all of the curb cuts on the site will be located on Bruckner Boulevard and Fieley Avenue, thereby avoiding the creation of any undue adverse

impact on the residences on Metcalf Avenue; and

WHEREAS, the applicant further states that the menu board speaker will face away from the neighboring residential uses and will be located 190'-9" from the nearest residential area, which is more than 90'-0" further from the residential area than the existing speaker, while the proposed drive-through window will be located 159'-0" from the nearest residential area, which is approximately 50'-0" further from the residential area than the existing drive-through; and

WHEREAS, the applicant also submitted a lighting plan reflecting that all lighting on the site will be directed downward and away from the neighboring residential properties; and

WHEREAS, the applicant represents that adequate buffering between the drive-through facility and adjacent residential uses is provided; and

WHEREAS, specifically, the applicant submitted revised plans reflecting that it will maintain the opaque fence along the rear of the site with a height of six feet, replace the existing chain-link fence along Metcalf Avenue with a decorative fence with a height of four feet which will be set back five feet from the street line, and provide a landscape buffer along the property line, in accordance with ZR § 37-921; and

WHEREAS, at hearing, the Board questioned whether the site is in compliance with C1 district signage regulation; and

WHEREAS, in response, the applicant states that the signage on the site has been reduced to a maximum height of 25 feet, and submitted a signage analysis reflecting that the site is now in compliance with C1 district regulations; and

WHEREAS, the applicant seeks to maintain the existing 24 hours per day, seven days per week operation of the site; and

WHEREAS, in response to the complaint regarding inappropriate conduct at the site, the applicant represents that the area at issue is fenced off and the issue is not caused by customers or employees of the subject site; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-243 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 12BSA036X dated October 18, 2011; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources;

# MINUTES

Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

*Therefore it is Resolved* that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-243 and 73-03 to permit, on a site within a C1-2 (R5) zoning district, the operation of an accessory drive-through facility in conjunction with an as-of-right eating and drinking establishment (Use Group 6), contrary to ZR § 32-15; *on condition* “that all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked ‘Received April 17, 2012- eight (8) sheets; and *on further condition*:

THAT the term of this grant will expire on April 24, 2017;

THAT the premises will be maintained free of debris and graffiti;

THAT parking and queuing space for the drive-through will be provided as indicated on the BSA-approved plans;

THAT all landscaping and/or buffering will be maintained as indicated on the BSA-approved plans;

THAT exterior lighting will be directed away from the nearby residential uses;

THAT all signage will conform with the underlying C1 zoning district regulations;

THAT the above conditions will appear on the certificate of occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, April 24, 2012.

**THE RESOLUTION** –

WHEREAS, the decision of the Queens Borough Commissioner, dated April 8, 2011, acting on Department of Buildings Application No. 420166938, reads in pertinent part:

Proposed use is contrary to ZR 22-13.

Proposed floor area is contrary to ZR 23-141 and 24-111.

Proposed required side setback for tall buildings in low bulk districts is contrary to ZR 24-551; and

WHEREAS, this is an application under ZR § 72-21, to permit, within an R2 zoning district, the construction of a two- and three-story yeshiva and dormitory building (Use Group 3) which does not conform to the underlying use regulations and does not comply with zoning requirements related to floor area and side setback, contrary to ZR §§ 22-13, 23-141, 24-111, and 24-551; and

WHEREAS, a public hearing was held on this application on September 20, 2011, after due notice by publication in the *City Record*, with continued hearings on October 25, 2011, December 6, 2011, and January 24, 2012, and then to decision on February 28, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 14, Queens, recommended disapproval of an earlier iteration of the application; and

WHEREAS, Queens Borough President Helen Marshall

recommended disapproval of an earlier iteration of the application, citing concerns that the building would be out of scale with the character of the surrounding neighborhood and the increased pedestrian and vehicular traffic that would be generated by the community facility; and

WHEREAS, City Councilmember James Sanders, Jr. provided testimony expressing support for the yeshiva but opposition to the proposed dormitory use based on concerns with the number of beds in the facility, parking, and the impact on the rising water table in the surrounding area; and

WHEREAS, representatives of the Bayswater Civic Association and certain members of the community provided testimony in opposition to this application (hereinafter, the “Opposition”), raising the following primary concerns: (1) the incompatibility of the proposed facility with the surrounding neighborhood; (2) the potential for increased traffic; (3) insufficient parking in the area; (4) the potential for excessive noise generated by the students residing in the dormitory rooms; (5) the proposal otherwise does not satisfy the findings of ZR § 72-21; (6) the proposed use does not qualify for educational deference; and (7) there are problems with the Board’s process; and

WHEREAS, certain members of the community provided testimony in support of this application; and

WHEREAS, the application is brought on behalf of Yeshiva Zichron Aryeh (the “Yeshiva”), a not for profit educational institution; and

WHEREAS the site is located on the west side of Bay 25<sup>th</sup> Street between Bayswater Avenue and Healy Avenue, within an R2 zoning district; and

WHEREAS, the site consists of an irregularly-shaped lot with approximately 95 feet of frontage on Bay 25<sup>th</sup> Street and a total lot area of 35,819 sq. ft.; and

WHEREAS, the site is currently vacant; and

WHEREAS, the proposed dormitory use is not permitted in the subject R2 zoning district and the proposed bulk exceeds the complying building envelope for a conforming use, thus the applicant seeks a variance for the proposed building; and

WHEREAS, the applicant proposes to construct a three-story yeshiva and dormitory building with the following complying parameters: lot coverage of 35.5 percent (a maximum lot coverage of 55 percent is permitted); a roof height of 39’-6” (as governed by sky exposure plane regulations); a front yard with a depth of 63’-8 11/16” (a front yard with a minimum depth of 15’-0” is required); two side yards with minimum widths of 13’-4” each (two side yards with minimum widths of 8’-0” each are required); a rear yard with a depth of 30’-0” (a rear yard with a minimum depth of 30’-0” is required); and 28 accessory off-street parking spaces (a minimum of 27 spaces are required); and

WHEREAS, however, the proposed building results in the following non-compliances: a floor area of 35,476 sq. ft. (the maximum permitted floor area is 17,909.6 sq. ft.); an FAR of 0.99 (the maximum permitted FAR is 0.50); a side setback of 15’-0” above a height of 35’-0” along the northern side of the building (a minimum side setback of 24’-4 1/16” is required); and a side setback of 15’-0” above a height of 35’-0” along the southern side of the building (a minimum side

---

# MINUTES

---

setback of 25'-0 15/16" is required); and

WHEREAS, the applicant originally proposed a building with a floor area of 39,286 sq. ft. (1.1 FAR), side setbacks of 14'-6" each, a roof height of 44'-6", and 13 accessory off-street parking spaces, which would have necessitated an additional waiver for less than the minimum number of required parking spaces; and

WHEREAS, however, in response to concerns raised by the Board and the Opposition, the applicant revised the proposal several times during the course of the hearing process, ultimately reducing the degree of non-compliance as to floor area and side setback, reducing the roof height of the building to 39'-6", and providing a complying number of parking spaces; and

WHEREAS, the applicant states that the proposed building provides the following uses: (1) a gymnasium, dining room, pool, dairy kitchen, meat kitchen, and mechanical rooms at the sub-cellar level; (2) a synagogue, exercise room, music room, mechanical room, and storage at the cellar level; (3) a science laboratory, computer room, classrooms, and offices at the first floor; (4) a Bais Medrash, library, classrooms, and offices at the second floor; and (5) a student lounge, laundry room, and 15 dormitory rooms at the third floor; and

WHEREAS, the applicant states that the following are the primary programmatic needs of the Yeshiva: (1) accommodating the current enrollment while allowing for future growth; and (2) providing an on-site dormitory to allow for an integrated living and learning environment; and

WHEREAS, the applicant states that the Yeshiva provides education from high school (grades nine through 12) through graduate school and currently operates out of several separate buildings in the surrounding neighborhood, which combine to accommodate its enrollment of 135 students with 49 students in dormitory rooms, and approximately 30 staff members; and

WHEREAS, the applicant represents that there are also many students on a waiting list for the Yeshiva; and

WHEREAS, the applicant states that the Yeshiva's existing facilities have been unable to keep up with the needs of the student body and they have been renting additional space in a number of buildings in the surrounding neighborhood; and

WHEREAS, the applicant represents that for the past two years the existing dormitory buildings the Yeshiva rents have been at capacity, and the Yeshiva is in the process of finding additional space for dormitories for the current school year; and

WHEREAS, in addition to the difficulties posed by operating the Yeshiva out of multiple buildings scattered throughout the neighborhood, the applicant states that the existing facilities are deficient for the following reasons: the existing dining area is not large enough to accommodate the entire student body; the kitchen does not have adequate space to prepare the necessary amount of food; the main college study hall building is a rented facility that is shared with a synagogue, such that they do not always have access to the space; there is a lack of office space; and two classes currently have to meet in the hallway due to space constraints; and

WHEREAS, the applicant represents that the Yeshiva anticipates increasing its enrollment within the next two years

to 220 students, with 45 associated staff members; and

WHEREAS, the applicant states that in order to accommodate the student population and provide a program that will meet their needs, the Yeshiva requires six high school classrooms, four undergraduate/graduate classrooms, a library, science laboratory, a computer room, prayer space, physical education space, and dormitory space; and

WHEREAS, during the hearing process, the Board asked the applicant to explain the need for the proposed dormitory rooms, which the applicant claims are a component of the programmatic needs; and

WHEREAS, in response, the applicant states that the dormitory rooms are necessary to meet the programmatic needs of the Yeshiva due to the rigorous and intensive course of study followed by the students; and

WHEREAS, specifically, the applicant states that the high school portion of the Yeshiva provides a dual curriculum in which each student must complete a full course load of secular studies and a full course load of religious studies, which extends into the evening hours and necessitates sleeping accommodations be provided for certain students; and

WHEREAS, the applicant further states that undergraduate students begin their day with morning prayers at 7:45 a.m., followed by a day filled with classes and studying until their final evening prayer begins at 10:00 p.m., with breaks only provided for meals; and

WHEREAS, the applicant states that between the end of evening prayers and the beginning of morning prayers is approximately nine hours, and in this limited time the students must sleep, complete any remaining studies, and prepare for their day; and

WHEREAS, the applicant represents that because of this schedule students require immediate access to their living areas in order to make effective use of the limited time they have outside of classes and study sessions; and

WHEREAS, the applicant further represents that locating the Yeshiva and the dormitories in the same building is integral to the students learning due to the unbroken continuance of focus that occurs when the students do not leave the facility, and this immersion allows the students to more fully devote themselves to both their religious and secular studies without distractions; and

WHEREAS, the applicant also submitted a list of other yeshivas that provide dormitory beds for their students in comparable facilities; and

WHEREAS, the applicant represents that a complying building at the site would not provide an adequate amount of space for the current number of students and faculty or for the anticipated growth in enrollment; and

WHEREAS, specifically, the applicant submitted plans for a complying building which would result in the elimination of two high school classrooms, one graduate classroom, the science laboratory, the Bais Medrash, and all 15 dormitory rooms; and

WHEREAS, the applicant also submitted plans for a lesser variance scenario which would request the use waiver but comply with all bulk requirements; and

WHEREAS, the applicant states that the lesser variance

---

# MINUTES

---

scenario would result in the elimination of the Bais Medrash, all graduate classrooms, a science room and eight dormitory rooms, and would not provide a sufficient amount of space to meet the needs of the Yeshiva; and

WHEREAS, the applicant states that the requested floor area and side setback waivers are necessary to accommodate the space needs associated with the projected student body, and the use waiver is necessary to provide dormitory space within the proposed building; and

WHEREAS, as to the floor area, the applicant states that without the floor area waiver approximately half of the proposed floor area would be lost, and the resultant building would be inadequate to provide sufficient classroom or program space to meet the needs of the Yeshiva; and

WHEREAS, as to the side setbacks, the applicant states that the setback waivers are required to achieve floor plates that accommodate the necessary number of beds in the dormitory, as without such waivers the Yeshiva could not provide the 58 beds necessary to accommodate the projected enrollment; and

WHEREAS, as to the use waiver, the applicant notes that it could have applied for a special permit for the subject site pursuant to ZR § 73-122 which would authorize the proposed dormitory use in the subject R2 zoning district, but a variance would still be required to construct the proposed building due to the requested bulk waivers; and

WHEREAS, the applicant submitted evidence in support of its claim that it could satisfy the findings required for the special permit under ZR § 73-122, provided the Board allowed the dormitory FAR to be calculated independently of the FAR for the remainder of the building; and

WHEREAS, the applicant states that only the proposed variance building can accommodate the Yeshiva's projected enrollment and satisfy the programmatic needs and space requirements of its students; and

WHEREAS, based upon the above, the Board agrees that the cited programmatic needs are legitimate and have been documented with substantial evidence; and

WHEREAS, the Board acknowledges that the Yeshiva, as an educational institution, is entitled to significant deference under the law of the State of New York as to zoning and as to its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, specifically, as held in Cornell Univ. v. Bagnardi, 68 N.Y.2d 583 (1986), an educational institution's application is to be permitted unless it can be shown to have an adverse effect upon the health, safety, or welfare of the community, and general concerns about traffic, and disruption of the residential character of a neighborhood are insufficient grounds for the denial of an application; and

WHEREAS, based upon the above, the Board finds that the limitations of the existing zoning, when considered in conjunction with the programmatic needs of the Yeshiva, creates unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, the applicant need not address ZR § 72-21(b) since the Yeshiva is a not-for-profit organization and the proposal is in furtherance of its not-for-profit mission; and

WHEREAS, the applicant represents that the variance, if granted, will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant notes that the use of the site as a yeshiva is permitted as-of-right in the subject R2 zoning district, and dormitory use is permitted in the subject R2 zoning district by special permit under ZR § 73-122, which the applicant states is an acknowledgment that the use itself can be compatible with surrounding uses in the R2 zoning district; and

WHEREAS, the applicant submitted a 400-ft. radius diagram which reflects that the surrounding area is characterized predominantly by single-family homes ranging in height from one-and-one-half to three stories; and

WHEREAS, accordingly, the applicant states that the height of the proposed two- and three-story building complies with the underlying district regulations and will fit within the character of the surrounding neighborhood; and

WHEREAS, the applicant further states that the proposed building will comply with all yard requirements for a community facility building in the subject R2 district, and the building will be significantly set back from the street, providing a front yard with a depth of 63'-8 11/16", more than four times the depth required in the underlying zoning district; and

WHEREAS, the applicant notes that the building is also designed to be lower in the front, with a front setback of more than 30 feet above the second floor, to make the building more consistent with the character of the surrounding neighborhood; and

WHEREAS, the applicant further notes that the building will also be screened from surrounding residences by providing a significant amount of landscaping around the perimeter of the site and in the front yard to create a break in the façade; and

WHEREAS, as noted above, the Opposition made a number of arguments and observations regarding the instant application; and

WHEREAS, as to the Opposition's argument that the scale of the building is out of context with the surrounding neighborhood, the applicant notes that the subject site is larger than the surrounding developed properties and can support a building that is larger than other buildings in the immediate vicinity; and

WHEREAS, the applicant further states that the proposed building complies with all underlying bulk regulations aside from FAR and side setbacks, and that the complying height and yards, in conjunction with the buffering provided by the proposed landscaping result in a building that fits within the context of the surrounding neighborhood; and

WHEREAS, further, the Board finds that the applicant has credibly established that the proposed dormitory use and the requested bulk waivers are necessary to provide a facility that can satisfy the Yeshiva's programmatic needs; and

WHEREAS, as to the Opposition's concerns about traffic impact, the applicant notes that the proposed building will serve an existing yeshiva that already operates in the surrounding area, and states that the increased enrollment at the proposed building will not result in a significant impact on

---

# MINUTES

---

transit or pedestrian traffic; and

WHEREAS, the applicant provided a survey analyzing the anticipated difference in vehicle trips between the current operation of the Yeshiva and the operation under the proposed building, which indicates that of the 265 students and staff at the proposed facility, 58 students will live in the dormitory rooms and will not travel to or from the site, and it is anticipated that of the remaining 207 students and staff, 77 people will walk, 75 people will drive, 40 people will arrive by school van, 14 people will be dropped off/picked up, and one person will arrive by public transportation; and

WHEREAS, the applicant states that the anticipated transportation to and from the site does not exceed the thresholds listed in the CEQR manual, and therefore the proposed use will not result in a significant impact on traffic; and

WHEREAS, as to the Opposition's concerns regarding parking, the Board notes that the applicant revised its plans to provide 28 parking spaces, which complies with the requirements of the Zoning Resolution; and

WHEREAS, as to the Opposition's concern that the students residing at the proposed facility will create excessive noise in the predominantly residential area, the applicant states that noise attenuation will be achieved by insulating the exterior walls of the building and installing double pane low E windows equipped with shades; and

WHEREAS, the applicant states that the proposed building will also be screened from adjacent residences by providing landscaping around the perimeter and in front of the building, and minimizing exterior lighting by utilizing directional fixtures focused on the site and short post lighting in lieu of large pylon lighting when feasible; and

WHEREAS, the Opposition also made other arguments as to the Board's findings, process, and educational deference, which the Board has considered and does not find persuasive; and

WHEREAS, accordingly, the Board finds that this action will neither alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant states that the hardship was not self-created and that no development in conformance with zoning would meet the programmatic needs of the Yeshiva at the site; and

WHEREAS, accordingly, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, accordingly, the Board finds the requested waivers to be the minimum necessary to meet the programmatic needs of the Yeshiva and to construct a building that is compatible with the character of the neighborhood; and

WHEREAS, as noted above, the applicant originally proposed to construct a building with a floor area of 39,286 sq. ft. (1.1 FAR), a roof height of 44'-6", and 13 accessory off-street parking spaces; and

WHEREAS, in response to concerns raised by the Board and the Opposition during the course of the hearing process,

the applicant reduced the size of the building in terms of FAR, height, and side setbacks, in order to create a more compatible building envelope, and revised the parking layout to provide a complying number of accessory parking spaces; and

WHEREAS, therefore, the Board agrees that the requested relief is the minimum necessary to allow the Yeshiva to fulfill its programmatic needs; and

WHEREAS, in sum, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to Sections 617.6(h) and 617.2(h) of 6NYCRR; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 11BSA082Q, dated January 6, 2012; and

WHEREAS, the EAS documents show that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved* that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit, within an R2 zoning district, the construction of a three-story yeshiva and dormitory building which does not conform to the underlying use regulations and does not comply with zoning requirements related to floor area and side setback, contrary to ZR §§ 22-13, 23-141, 25-111, and 25-551; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received January 25, 2012" – (12) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the proposed building: a floor area of 35,476 sq. ft. (0.99 FAR); a side setback of 15'-0" above a height of 35'-0" along the northern side of the building; a side setback of 15'-0" above a

# MINUTES

height of 35'-0" along the southern side of the building; a roof height of 39'-6"; lot coverage of 35.5 percent; a front yard with a depth of 63'-8 11/16"; two side yards with minimum widths of 13'-4" each; a rear yard with a depth of 30'-0"; and 28 accessory off-street parking spaces, as reflected on the BSA-approved plans;

THAT any change in the use, occupancy, or operator of the school requires review and approval by the Board;

THAT no commercial catering is permitted within the building or on-site;

THAT the occupancy of the dormitory will be limited to 58 beds;

THAT landscaping will be provided and maintained as indicated on the BSA-approved plans;

THAT all exterior lighting will be directed downward and away from adjacent residential uses;

THAT the exterior walls of the building will be insulated and double pane low E windows will be installed;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT substantial construction be completed in accordance with ZR §72-23;

THAT the approved plans be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 28, 2012.

This resolution adopted on March 27, 2012, under Calendar No. 4-12-BZ and printed in Volume 97, Bulletin No. 14, is hereby corrected to read as follows:

### 4-12-BZ

#### CEQR #12-BSA-064M

APPLICANT – Kramer Levin Naftalis & Frankel, LLP, for 56<sup>th</sup> and Park (NY) Owner, LLC.

SUBJECT – Application January 11, 2012 – Special Permit (§73-36) to permit the operation of a physical culture establishment (*The Wright Fit*). C5-3/C5-2.5 (MID) zoning district.

PREMISES AFFECTED – 432-440 Park Avenue, northwest corner of Park Avenue and East 56<sup>th</sup> Street, Block 1292, Lot 33, 43, 45, 46, Borough of Manhattan.

#### COMMUNITY BOARD #5M

APPEARANCES –

For Applicant: Gary R. Tarnoff.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated December 21, 2011, acting on Department of Buildings Application No. 120628776, reads in pertinent part:

“Proposed physical culture establishment is not permitted as of right in a C5-2.5 & C5-3 district as per ZR 32-10;” and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located within the Special Midtown District (MID), partially within a C5-2.5 and partially within a C5-3 zoning district, the operation of a physical culture establishment (PCE) on portions of the first and sixth floors and the entire seventh and ninth floors of a proposed 82-story mixed-use residential/commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on March 6, 2012, after due notice by publication in *The City Record*, and then to decision on March 27, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Collins, Commissioner Hinkson, and Commissioner Montanez; and

WHEREAS, Community Board 5, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is an irregularly shaped lot located on the northwest corner of Park Avenue and East 56<sup>th</sup> Street, with a mid-block portion that fronts on both East 56<sup>th</sup> Street and East 57<sup>th</sup> Street, in the Special Midtown District (MID), partially within a C5-2.5 and partially within

---

# MINUTES

---

a C5-3 zoning district; and

WHEREAS, the applicant proposes to construct an 82-story mixed-use residential/ commercial building at the site; and

WHEREAS, the PCE will occupy a total of approximately 20,660 sq. ft. of floor area on portions of the first and sixth floors, and the entire seventh and ninth floors; and

WHEREAS, the PCE will be operated by the Wright Fit; and

WHEREAS, the applicant represents that the services at the PCE will include facilities for instruction and programs for physical improvement; and

WHEREAS, the hours of operation for the proposed PCE will be 6:00 a.m. to 10:00 p.m., daily; and

WHEREAS, the applicant represents that the proposed PCE meets the requirements in ZR § 81-13 for a special permit use in the Special Midtown District (MID); and

WHEREAS, specifically, the applicant states that the proposed PCE use is consistent with other retail uses within the Special Midtown District (MID) and will provide a desirable amenity to the neighborhood; and

WHEREAS, as a result, the applicant states that the subject PCE use will strengthen the business core of Midtown Manhattan by improving working and living environments and will promote a desirable use of land and building development in accordance with the District Plan for Midtown wherein the value of land is conserved and tax revenue is protected; and

WHEREAS, accordingly, the Board finds that the proposed special permit use is consistent with the purposes and provisions of ZR § 81-00; and

WHEREAS, at hearing, the Board directed the applicant to address the sound attenuation measures that will be provided in the proposed PCE; and

WHEREAS, in response, the applicant states that residential occupancy of the proposed building will begin at the 14<sup>th</sup> floor, and therefore there will be significant separation between the proposed PCE and any residential uses in the building; and

WHEREAS, the applicant also submitted revised plans reflecting that the seventh floor will provide a six-inch floating concrete floor above the ten-inch structural concrete slab, in order to provide sound attenuation for the PCE equipment located on that floor; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that

the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No. 12BSA064M, dated January 11, 2012; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved* that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site located within the Special Midtown District (MID), partially within a C5-2.5 and partially within a C5-3 zoning district, the operation of a physical culture establishment on portions of the first and sixth floors and the entire sixth and ninth floors of a proposed 82-story mixed-use residential/commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received March 13, 2012"- (7) sheets, and *on further condition*:

THAT the term of this grant will expire on March 27, 2022;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages must be performed by New York State licensed massage therapists;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the BSA-approved plans;

THAT sound attenuation measures will be provided as shown on the BSA-approved plans;

THAT the proposed building will be reviewed by

---

# MINUTES

---

DOB for compliance with all bulk regulations of the Zoning Resolution;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 27, 2012.

**\*The resolution has been revised to correct the part which read...portions of the first and fourth floors and the entire sixth and seventh floors... now reads...portions of the first and sixth floors and the entire seventh and ninth floors.... Corrected in Bulletin Nos. 16-18, Vol. 97, dated May 3, 2012.**

# MINUTES

## REGULAR MEETING TUESDAY MORNING, MAY 1, 2012 10:00 A.M.

Present: Chair Srinivasan, Vice-Chair Collins,  
Commissioner Ottley-Brown, Commissioner Hinkson and  
Commissioner Montanez.

### SPECIAL ORDER CALENDAR

#### 21-01-BZ

APPLICANT – Troutman Sanders, LLP, for Mattone Group  
Jamaica Co., LLC, owner; Bally's Total Fitness of Greater  
New York, lessee.

SUBJECT – Application January 23, 2012 – Extension of  
Term of a special permit (§73-36) for the continued  
operation of a physical culture establishment (*Bally Total  
Fitness*) which expired on May 22, 2011. C6-3 (DJ) zoning  
district.

PREMISES AFFECTED – 159-02 Jamaica Avenue, 160<sup>th</sup>  
Street, Block 10100, Lot 1, Borough of Queens.

#### COMMUNITY BOARD #12Q

APPEARANCES – None.

**ACTION OF THE BOARD** – Application granted on  
condition.

#### THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins,  
Commissioner Ottley-Brown, Commissioner Hinkson and  
Commissioner Montanez .....5

Negative:.....0

#### THE RESOLUTION –

WHEREAS, this is an application for a reopening and an  
extension of the term of a previously granted special permit for  
a physical culture establishment (“PCE”), which expired on  
May 22, 2011; and

WHEREAS, a public hearing was held on this  
application on March 27, 2012, after due notice by publication  
in *The City Record*, and then to decision on May 1, 2012; and

WHEREAS, the premises and surrounding area had a site  
and neighborhood examination by Commissioner Hinkson; and

WHEREAS, Community Board 12, Queens,  
recommends approval of this application; and

WHEREAS, the subject building occupies the entirety of  
Block 10100, bounded by Jamaica Avenue to the north, 160<sup>th</sup>  
Street to the east, Archer Avenue to the south, and Parsons  
Boulevard to the west, in a C6-3 zoning district within the  
Special Downtown Jamaica District; and

WHEREAS, the PCE occupies a total of 24,014 sq. ft. of  
floor area on the first and second floors of a three-story  
commercial building on the site; and

WHEREAS, the Board has exercised jurisdiction over the  
subject site since May 22, 2001 when, under the subject  
calendar number, the Board granted a special permit for a PCE  
in the subject building for a term of ten years, which expired on  
May 22, 2011; and

WHEREAS, the applicant now seeks to extend the term

of the special permit for an additional ten years; and

WHEREAS, based upon its review of the record, the  
Board finds the requested extension of term is appropriate with  
certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and  
Appeals *reopens* and *amends* the resolution, as adopted on  
May 22, 2001, so that as amended this portion of the resolution  
shall read: “to extend the term for a period of ten years from  
May 22, 2011, to expire on May 22, 2021, *on condition* that  
the use and operation of the site shall substantially conform  
to plans filed with this application marked “Received  
January 23, 2012”-(4) sheets; and *on further condition*:

THAT the term of this grant will expire on May 22, 2021;

THAT the above condition will be listed on the certificate  
of occupancy;

THAT all conditions from prior resolutions not  
specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the  
Board in response to specifically cited and filed DOB/other  
jurisdiction objection(s) only;

THAT the Department of Buildings must ensure  
compliance with all other applicable provisions of the Zoning  
Resolution, the Administrative Code, and any other relevant  
laws under its jurisdiction irrespective of  
plan(s)/configuration(s) not related to the relief granted.”

(DOB Application No. 400910065)

Adopted by the Board of Standards and Appeals, May 1,  
2012.

#### 256-02-BZ

APPLICANT – Goldman Harris LLC, for 160 Imlay Street  
Real Estate, owner.

SUBJECT – Application February 10, 2012 – Extension of  
Time to Complete Construction of a previously granted  
Variance (§72-21) for the re-use of a vacant six story  
manufacturing building, and the addition of three floors, for  
residential (UG2) use, which expired on March 18, 2012.  
M2-1 zoning district.

PREMISES AFFECTED – 160 Imlay Street, bounded by  
Imlay, Verona and Commerce Streets and Atlantic Basin,  
Block 515, Lot 75, Borough of Brooklyn.

#### COMMUNITY BOARD #6BK

APPEARANCES –

For Applicant: Engene Travors.

**ACTION OF THE BOARD** – Application granted on  
condition.

#### THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins,  
Commissioner Ottley-Brown, Commissioner Hinkson and  
Commissioner Montanez .....5

Negative:.....0

#### THE RESOLUTION –

WHEREAS, this is an application for a reopening and  
an extension of time to complete construction of a  
previously granted variance to permit the conversion of an  
existing six-story industrial building to residential use; and

WHEREAS, a public hearing was held on this

# MINUTES

application on April 3, 2012, after due notice by publication in *The City Record*, and then to decision on May 1, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Montanez; and

WHEREAS, the subject site is located on the west side of Imlay Street between Commerce Street and Verona Street, within an M2-1 zoning district; and

WHEREAS, the Board has exercised jurisdiction over the site since December 23, 2003 when, under the subject calendar number, the Board granted a variance to permit the conversion of an existing vacant six-story industrial building to residential use, contrary to § 42-00; and

WHEREAS, the Board notes that, pursuant to ZR § 72-23, a variance automatically lapses if substantial construction in accordance with the approved plans is not completed within four years from the date of the variance; however, if judicial proceedings have been instituted to review the Board's decision, the four-year lapse period commences upon the date of entry of the final order in such proceedings, including appeals; and

WHEREAS, the applicant notes that judicial proceedings were instituted to review the Board's decision in the subject case (In the Matter of Red Hook/Gowanus Chamber of Commerce v. New York City Board of Standards and Appeals, et. al., Index No. 2308/04); and

WHEREAS, the applicant submitted a Decision and Order from the Appellate Division dated March 18, 2008, which denied the amended petition and dismissed the proceeding for failure to join a necessary party; and

WHEREAS, the applicant states that the March 18, 2008 Decision and Order has not been appealed and constitutes a final order in the proceeding for the purposes of ZR § 72-23; and

WHEREAS, accordingly, the four-year lapse period for the variance commenced on March 18, 2008, and substantial construction was to be completed by March 18, 2012; and

WHEREAS, the applicant states that due to financing delays and additional delays related to the subject litigation, additional time is necessary to complete the project; thus, the applicant now requests an extension of time to complete construction; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to complete construction is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated December 23, 2003, so that as amended this portion of the resolution shall read: "to grant an extension of the time to complete construction for a term of four years, to expire on May 1, 2016; *on condition:*

THAT substantial construction shall be completed by May 1, 2016;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the

Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

(DOB Application No. 301396790)

Adopted by the Board of Standards and Appeals, May 1, 2012.

## 77-05-BZ

APPLICANT – Wachtel & Masyr, LLP, for Jack Ancona, owner.

SUBJECT – Application February 21, 2012 – Extension of Time to Complete Construction of a previously granted Variance (§72-21) to permit the construction of a 12-story mixed use building, containing residential (UG2) and retail uses (UG6) which expired on February 28, 2010; waiver of the Rules. M1-6 zoning district.

PREMISES AFFECTED – 132 West 26<sup>th</sup> Street, between Avenue of the Americas and Seventh Avenue, Block 801, Lot 60, Borough of Manhattan.

## COMMUNITY BOARD #4M

APPEARANCES – None.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, and an extension of time to complete construction of a previously granted variance to permit the construction of a 12-story mixed-use residential/retail building, which expired on February 28, 2010; and

WHEREAS, a public hearing was held on this application on March 27, 2012, after due notice by publication in *The City Record*, and then to decision on May 1, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, and Commissioner Hinkson; and

WHEREAS, the subject site is located on the south side of West 26<sup>th</sup> Street between Sixth Avenue and Seventh Avenue, within an M1-6 zoning district; and

WHEREAS, the Board has exercised jurisdiction over the site since February 28, 2006 when, under the subject calendar number, the Board granted a variance to permit the proposed construction of a 12-story mixed-use building with commercial use on the first and second floors and residential use above, contrary to ZR § 42-00; and

WHEREAS, substantial construction was to be completed by February 28, 2010, in accordance with ZR § 72-

# MINUTES

23; and

WHEREAS, the applicant states that due to financing delays, additional time is necessary to complete the project; thus, the applicant now requests an extension of time to complete construction; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to complete construction is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens*, and *amends* the resolution, dated February 28, 2006, so that as amended this portion of the resolution shall read: "to grant an extension of the time to complete construction for a term of four years, to expire on May 1, 2016; *on condition*:

THAT substantial construction shall be completed by May 1, 2016;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

(DOB Application No. 104039728)

Adopted by the Board of Standards and Appeals, May 1, 2012.

**45-07-A**

APPLICANT – Eric Palatnik, P.C., for Debra Wexelman, owner.

SUBJECT – Application July 20, 2011 – Extension of time to complete construction, which expired on July 10, 2011, in accordance with a previously approved common law vested rights application for a two-story and attic mixed-use residential and community facility building. R4-1 zoning district.

PREMISES AFFECTED – 1472 East 19<sup>th</sup> Street, between Avenue O and Avenue N, Block 6756, Lot 36, Borough of Brooklyn.

**COMMUNITY BOARD #14BK**

APPEARANCES –

For Applicant: Eric Palatnik.

**ACTION OF THE BOARD** – Application granted.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5  
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment to a previous grant to permit an extension of time to complete construction and obtain a certificate of occupancy for a prior Board determination that the owner of the premises obtained the right to complete construction of a two-story mixed-use residential/community facility building under the common law doctrine of vested rights; and

WHEREAS, a public hearing was held on this appeal on January 10, 2012, after due notice by publication in *The City*

# MINUTES

*Record*, with continued hearings on February 14, 2012 and March 27, 2012, and then to decision on May 1, 2012; and

WHEREAS, the site was inspected by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the site is located on the west side of East 19<sup>th</sup> Street, between Avenue N and Avenue O, and has a lot area of 3,500 sq. ft.; and

WHEREAS, the owner proposes to construct a two-story mixed-use residential/community facility building with a floor area of 5,500 sq. ft. (1.49 FAR) and a height of 39'-2"; and

WHEREAS, the subject site was formerly located within an R6 zoning district; and

WHEREAS, the proposed building complies with the former zoning district parameters; and

WHEREAS, however, on April 5, 2006 (hereinafter, the "Rezoning Date"), the City Council voted to adopt the "Midwood Rezoning," which rezoned the site to R4-1; and

WHEREAS, the building does not comply with the R4-1 district parameters as to the maximum permitted floor area, FAR, or height; and

WHEREAS, because DOB did not find that work was completed as of the Rezoning Date, the applicant filed a request to continue construction pursuant to the common law doctrine of vested rights; and

WHEREAS, on July 10, 2007, the Board determined that, as of the Rezoning Date, the owner had undertaken substantial construction and made substantial expenditures on the project, and that serious loss would result if the owner was denied the right to proceed under the prior zoning, such that the right to continue construction was vested under the common law doctrine of vested rights; and

WHEREAS, the Board granted the applicant four years to complete construction and obtain a certificate of occupancy, which expired on July 10, 2011; and

WHEREAS, accordingly, the applicant is now seeking an extension of time to complete construction and obtain a certificate of occupancy; and

WHEREAS, the applicant states that the building was not completed by the stipulated date due to financing delays, including the contractor for the project going out of business; and

WHEREAS, the applicant submitted evidence of its attempts to obtain a new contractor and its efforts to market the property; and

WHEREAS, at hearing, the Board directed the applicant to repair the fence at the site and provide evidence of general site cleanup; and

WHEREAS, in response, the applicant submitted photographs reflecting that the fence has been repaired and the site has been cleaned up; and

WHEREAS, the Board has reviewed the evidence and determined that an extension of time is warranted; and

WHEREAS, accordingly, the Board, through this resolution, grants the owner of the site a two-year extension of time to complete construction; and

*Therefore it is Resolved* that this application to renew

DOB Permit No. 302041261, as well as all related permits for various work types, either already issued or necessary to complete construction, is granted, and the Board hereby extends the time to complete the proposed development and obtain a certificate of occupancy for two years from the date of this resolution, to expire on May 1, 2014.

Adopted by the Board of Standards and Appeals, May 1, 2012.

## 122-11-A

APPLICANT – Rothkrug Rothkrug & Spector, LLP, for Mitchell Pacifico, owner.

SUBJECT – Application August 23, 2011 – Proposed construction of a one family dwelling located partially within the bed of a mapped street, contrary to General City Law Section 35. R3-1 Zoning District.

PREMISES AFFECTED – 5 Bement Avenue, southeast corner of Bement Avenue and Richmond Terrace, Block 150, Lot 4, Borough of Staten Island.

### COMMUNITY BOARD #1SI

APPEARANCES –

For Applicant: Todd Dale.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Staten Island Borough Commissioner, dated February 22, 2012, acting on Department of Buildings Application No. 520070299, reads in pertinent part:

Proposed construction of a one family residence building partially within the bed of a mapped street is contrary to General City Law and not permitted.

Therefore referred to the Board of Standards and Appeals for approval; and

WHEREAS, this is an application to permit the construction of a single-family home in the bed of a mapped street, Richmond Terrace, contrary to Section 35 of the General City Law; and

WHEREAS, a public hearing was held on this application on March 27, 2012, after due notice by publication in the *City Record*, and then to closure and decision on May 1, 2012; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Chair Srinivasan, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Staten Island, recommends approval of this application, with conditions; and

WHEREAS, by letter dated April 3, 2012, the Fire Department states that it has no objection to the proposal; and

WHEREAS, by letter dated October 14, 2011, the Department of Environmental Protection ("DEP") states that

# MINUTES

the applicant submitted a site plan which shows the 100'-0" total width of Richmond Terrace, from which approximately 49'-0" in the narrowest part of the street will be available for the existing 12-inch diameter and 20-inch diameter City water mains and the 66-inch diameter interceptor sewer, also for the installation, maintenance, and/or reconstruction of the future ten-inch diameter sanitary sewers, 48-inch diameter storm sewer, and 84-inch diameter interceptor sewer; and

WHEREAS, DEP further states that the site plan shows the 80'-0" total width of Bement Avenue, 60'-0" of which will be available for the existing 12-inch diameter sanitary sewer, 4'-0" by 2'-4" storm sewer and an eight-inch diameter City water main, also for the installation, maintenance, and/or reconstruction of the future ten-inch diameter sanitary sewer, 48-inch diameter storm sewer and 4'-0" by 2'-6" storm sewer; and

WHEREAS, DEP states that, based upon the above, it has no objection to the subject proposal; and

WHEREAS, by letter dated December 23, 2011, the Department of Transportation ("DOT") states that the subject lot is not currently included in the agency's Capital Improvement Program, but requires that any construction that may involve sidewalks must conform to the standards set by the Americans with Disabilities Act ("ADA"); and

WHEREAS, in response, the applicant states that any construction that involves sidewalks will conform to ADA standards; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

*Therefore it is Resolved* that the decision of the Staten Island Borough Commissioner, dated February 22, 2012, acting on Department of Buildings Application No. 520070299, is modified by the power vested in the Board by Section 35 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked "Received March 23, 2012"- (1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT any construction that involves sidewalks will conform to ADA standards;

THAT DOB shall review the proposed plans to ensure compliance with all relevant provisions of the Zoning Resolution;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May

1, 2012.

-----

## 161-11-A

APPLICANT – Quinn McCabe, LLP, for Britton Property, Inc., owner.

SUBJECT – Application October 14, 2011 – Appeal seeking to vacate a Stop Work Order and rescind revocation of building permits issued for failure to obtain authorization from the adjacent property owner. R7B Zoning District.

PREMISES AFFECTED – 82-20 Britton Avenue, east side of Britton Avenue between Broadway and Layton Street, Block 1517, Lot 3, Borough of Queens.

## COMMUNITY BOARD #4Q

APPEARANCES –

For Applicant: Christopher P. McCabe and Britton Properties.

**ACTION OF THE BOARD** – Application granted.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....

Negative:.....5

THE RESOLUTION –

WHEREAS, the subject appeal comes before the Board in response to a Final Determination dated September 19, 2011 by the Queens Borough Commissioner of the Department of Buildings ("DOB") (the "Final Determination"), with respect to DOB Application No. 410067653; and

WHEREAS, the Final Determination states, in pertinent part:

By letter dated December 6, 2010, pursuant to Section 28-104.2.10 and 28-105.10 of the Administrative Code of the City of New York ("AC") the APPROVAL(S) AND PERMIT(S) IN CONNECTION WITH THE ABOVE-REFERENCED APPLICATION WERE REVOKED.

As of this date, the Department has not received sufficient information to demonstrate that the approval(s) and permit(s) should not be revoked; and

WHEREAS, a public hearing was held on this appeal on February 7, 2012, after due notice by publication in *The City Record*, with a continued hearing on March 20, 2012, and then to decision on May 1, 2012; and

WHEREAS, the site had visits by Chair Srinivasan, Vice-Chair Collins, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the appeal is filed on behalf of the property owner who contends that DOB's denial was erroneous (the "Appellant"); and

WHEREAS, DOB and the Appellant have been represented by counsel throughout this appeal; and

WHEREAS, the adjacent property owner at 82-22 Britton Avenue (the "Neighbor" or "Neighbors") has provided written and oral testimony in opposition to the appeal; and

WHEREAS, the subject site (the "Site") is located on the

---

# MINUTES

---

east side of Britton Avenue, between Broadway and Layton Street, within an R7B zoning district; and

WHEREAS, the Site is occupied by a six-story mixed-use commercial/residential building (the "Building") and its southern side yard abuts the Neighbors' northern side yard (the "Side Yard"); and

WHEREAS, the Appellant contests DOB's decision (1) to revoke Permit No. 410067653 (the "Permit") to construct the Building which was completed at the time of the revocation, (2) to issue objections related to the construction, which include the requirement that the Appellant obtain the Neighbor's consent in order to remove the objections, and (3) to issue a stop work order against the fully completed construction based upon an alleged trespass upon the Neighbor's property; and

WHEREAS, the Appellant requests that DOB (1) rescind the permit revocation, (2) vacate its objections, and (3) vacate the stop work order because: the Appellant claims it did not trespass upon the Neighbor's property because the Neighbor provided written and oral consent to use the side yard; the stop work order was improper where the Building was completed and there was no work being performed at the time the stop work order was issued; even if Appellant trespassed upon the Neighbor's property, DOB's actions are contrary to the authority set forth at BSA Cal. Nos. 152-08-A and 11-08-A (23<sup>rd</sup> Street, Manhattan, the "High Line Case") because the Building's foundation and the Building were completed and because neither the site nor the Neighbor's property rely upon shoring for support; DOB has discretion to apply alternate penalties more appropriate to the alleged violation; and the Neighbors should be stopped from seeking relief due to their failure to timely complain about the shoring until after it was completed; and

## PROCEDURAL HISTORY

WHEREAS, the Appellant purchased the site on February 12, 2008; and

WHEREAS, on March 3, 2008, the Appellant and the Neighbor entered into an agreement entitled the "Side Yard Agreement," which states:

This is an agreement between the owner of 82-22 Britton Ave and the owner of 82-20 Britton Ave in Elmhurst that the owner of 82-22 would allow the owner of 82-20 to use their side yard including fencing their side yard during the construction period and at the completion of the construction the owner of 82-20 will pave a new concrete side yard for the owner of 82-22; and

WHEREAS, in March 2008, DOB approved the shoring drawings; and

WHEREAS, on May 12, 2008, DOB issued the Permit to perform the work included in the shoring drawings; and

WHEREAS, as to the shoring, the Appellant states that the shoring drawings identify shoring that was designed to support the side yard between the Site and the Neighbor's property; and

WHEREAS, the Appellant states that shoring comprises steel I-beam soldier piles and wood lagging and that the soldier beams extend into the Side Yard by a maximum of six inches

at each soldier pile below grade level; and

WHEREAS, in August 2008, the Appellant represents that the foundation was installed and the shoring no longer provided any support for the Building or for the Side Yard, rather the lateral forces of the soil under the Side Yard were transferred to the foundation wall of the Building; and

WHEREAS, the Appellant asserts that the shoring became a vestige that served and continues to serve no useful purpose; and

WHEREAS, the Appellant states that in December 2009, the Neighbor allegedly made a complaint to DOB asserting that shoring trespassed into the Side Yard; and

WHEREAS, on March 18, 2010, DOB issued an intent to revoke the permit and objections; the objections contain two items, both of which relate to the extension of shoring onto the Neighbor's property, without the consent of the owner; the objections state as follows:

The Shoring detail submitted by the applicant on Plan #S-4 indicates the location of the soldier piles to be placed beyond the property line and also the soil/structure on the adjacent property will be disturbed which needs to be protected per B.C. 1031.

Any work on the adjoining premises requires permission/consent to enter the owner of the adjoining property as per B.C. 27-1026; and

WHEREAS, the Appellant states that at the time the intent to revoke the permit and objections were issued, the Building was completed; the Appellant submitted a photograph of the completed Building; and

WHEREAS, on December 6, 2010, DOB revoked the Permit after several meetings between the Appellant and DOB; and

WHEREAS, the Appellant's structural engineering consultant states that the shoring cannot be safely removed because such removal would cause damage to the site and the Neighbor's property; and

WHEREAS, in 2010, the Appellant commenced an Article 78 proceeding against DOB entitled In the Matter of Britton Property, Inc. v. New York City Department of Buildings (Supreme Court, Queens County) (Index No. 292250/10) in which Appellant sought an order requiring DOB to rescind the revocation of the Permit and the stop work order; and

WHEREAS, by order dated May 6, 2011, the court denied Appellant's case based upon the Appellant's failure to exhaust administrative remedies; and

WHEREAS, the Neighbors commenced an action against the Appellant in 2009, Amelia Arcamone-Makinano, et al., v. Britton Property, Inc. et al. (Supreme Court, Queens County) (Index No. 32984/09) in which they asserted causes of action against the Appellant for (1) injunctive relief ordering Appellant to remove the shoring, enjoining any trespass on the Neighbor's property, authorizing Neighbor to remove temporary fence, and enjoining Appellant from seeking a Certificate of Occupancy for the Building or obtaining permits for the Building; (2) ejectment seeking the removal of the shoring; (3) recourse for the alleged diminution of value of the

---

# MINUTES

---

Neighbors' property; and (4) trespass; and

WHEREAS, on December 11, 2009, the Neighbor obtained a temporary restraining order against the Appellant which the court discontinued by order dated February 4, 2010, in which the court expressly discontinued the prior order but maintained that the Appellant not trespass on the Neighbor's property; and

WHEREAS, on February 22, 2010, the court issued a preliminary injunction which (1) enjoins the Appellant from trespassing on the Neighbors' property, (2) requires the removal of a construction fence on the Neighbors' property; and (3) restricts the Appellant from transferring ownership of the Building or individual units during the pendency of the Supreme Court action; and

## THE APPELLANT'S POSITION

### - There is No Legal Basis for the Stop Work Order

WHEREAS, the Appellant asserts that there is not any legal basis for DOB to issue a stop work order against the entire project; and

WHEREAS, the Appellant cites to Building Code (BC) § 26-118 (*General Provisions, Stop Work notices and orders*) which provides that DOB may issue a stop work order only when work is being performed in violation of the provisions of any law, rule, or regulation enforceable by DOB; and

WHEREAS, the Appellant states that no work was being performed "in violation of the provisions of any law, rule or regulation enforceable by" DOB because the shoring work had already been completed and was buried in the foundation of the Building; and

WHEREAS, accordingly, the Appellant asserts that DOB was not authorized by BC § 26-118 to issue the stop work order and objections with respect to any work at the site; and

WHEREAS, the Appellant asserts that because the shoring and construction on the Building were complete, the stop work order, objections, and revocation were not issued for work that was "being performed," but rather for work that had already been performed; and

WHEREAS, the Appellant cites to its structural engineering consultant's affidavit that (1) the project no longer relies upon the shoring; (2) the shoring was performed competently and safely; and (3) the lateral forces exerted by the soil under the Neighbor's property are supported entirely by the Building's foundation wall and not by the shoring and, as such, the shoring is no longer useful; and

### - The Neighbors Granted Consent

WHEREAS, the Appellant asserts that the Side Yard Agreement and purported oral consent reflects the Neighbor's consent for the shoring; and

WHEREAS, the Appellant asserts that the Side Yard Agreement is broad and does not restrict the installation of the shoring; and

WHEREAS, the Appellant asserts that (1) DOB's claim that it does not have the authority to interpret the Side Yard Agreement is without any merit since no interpretation is necessary and (2) the existence of litigation between the parties does not preclude the Board from determining that consent was granted to the Appellant with respect to the use of the Side

Yard based upon the language of the Side Yard Agreement; and

WHEREAS, the Appellant asserts that DOB improperly interpreted the Side Yard Agreement by determining that the Side Yard Agreement did not constitute one of the forms of written consent that DOB accepts in cases where work is to be performed on an adjacent site; and

WHEREAS, the Appellant asserts that by determining that the Side Yard Agreement does not fit within DOB's understanding of an acceptable form of consent, DOB interpreted the Side Yard Agreement in favor of the Neighbors; and

WHEREAS, in response to DOB's assertion that its actions reflect its interest in maintaining the status quo, the Appellant states that the status quo is not maintained since all work is complete and the effect of the revocation of the permit and issuance of objections is that the Appellant is subject to reduced leverage in negotiations with the Neighbors; and

WHEREAS, the Appellant asserts that DOB's rejection of the Side Yard Agreement is improper given that DOB does not provide guidance to building permit applicants as to what constitutes consent to perform necessary shoring or underpinning work under an adjacent property; and

WHEREAS, the Appellant asserts that DOB's stated policy to only accept a signed Plan/Work Application (PW1) form or a letter or other written statement authorizing the applicant to file the application is not codified anywhere; and

### - Prior Board Authority and DOB Actions for Similar Projects

WHEREAS, the Appellant asserts that DOB's actions are arbitrary and capricious as they are contrary to the Board's decisions and DOB's own actions in several cases; and

WHEREAS, the Appellant cites to the condition in the High Line Case that the new building no longer relied upon the earth retention work for support because the lateral forces exerted by the soils under the adjacent site were supported entirely by the new foundation wall and not the earth retention work and the removal of the earth retention system would have damaged the adjacent building; and

WHEREAS, the Appellant notes that in the High Line Case, the property owner was permitted to proceed despite the fact that he had not obtained consent from the adjacent neighbor for the earth retention work; and

WHEREAS, the Appellant asserts that there is not a distinction between the High Line Case and the subject case where shoring was for an earth retention system and that once the Building's foundation was installed, the shoring no longer provided any support for the Building or for the side yard of the Neighbor's site, or the Neighbor's home; and

WHEREAS, the Appellant also cites to a DOB approval at 238 West 74<sup>th</sup> Street, Manhattan, in which the property owner underpinned the adjacent site without the consent of the adjacent property owner and DOB issued objections to the property owner based upon the alleged failure to obtain the adjacent owner's consent; and

WHEREAS, the Appellant asserts that in the West 74<sup>th</sup> Street case, DOB permitted the property owner to continue construction and only precluded the property owner from

---

# MINUTES

---

installing any further encroachments on the adjacent site; and

WHEREAS, the Appellant also cites to a DOB approval at 755 Bedford Avenue, Brooklyn where DOB denied the adjacent neighbor's request to revoke permits due to damage during construction; and

WHEREAS, the Appellant states that pursuant to BC § 28-207.2 (*Criminal Judicial Proceedings, Stop work orders*), DOB does not have the authority to issue the stop work order because the BC provides discretion that "[w]henver the commissioner finds that any building work is being executed in violation of the provisions of this code . . . the commissioner or his or her authorized representative may issue a stop work order;" and

WHEREAS, the Appellant reads the text to say that an issuance of a stop work order is only proper where work is being performed in violation of the Code and all of its work had concluded; and

WHEREAS, the Appellant asserts that the High Line Case is on point because the only reason the two separate permits (one for foundation and one for the building) were relevant there was because the building had only been completed to the foundation and the Board determined that the prospective work could proceed; the Appellant also asserts that the Board held that the work performed under the new building permit could proceed because no additional work was required under the shoring permit and because the work to be performed under the new building permit was not reliant upon the shoring work; and

- DOB has Discretion to Apply Alternative Penalties

WHEREAS, the Appellant asserts that DOB has discretion to apply alternative penalties which are more appropriate to the severity of the Appellant's violations; and

WHEREAS, specifically, pursuant to BC §§ 26-116 (*General Provisions, Contents of notices and orders*) and 26-125 (*General Provisions, Violations of building laws: punishments, penalties; penalty*) DOB has the discretion to punish an alleged violation by requesting "the corporation counsel to institute legal proceedings to restrain, correct or abate such violation" and to punish any violations by a fine or through civil action; and

WHEREAS, the Appellant asserts that DOB would be within its discretion to require Appellant to pay a fine with respect to violations; additionally, if it is found that the Appellant did trespass on the Neighbors' site, then the Neighbors are entitled to pursue their claim against the Appellant directly for any damages; and

WHEREAS, the Appellant notes that the Neighbor already commenced an action against the Appellant seeking damages for trespass; and

WHEREAS, the Appellant asserts that there is no reason for DOB to issue the stop work order and objections in an effort to enforce the Neighbor's rights, rather than issuing a fine against the Appellant and allowing the parties to resolve their respective claims in court; and

- Neighbors Complaint was Untimely and They Should be Estopped from Seeking Relief

WHEREAS, the Appellant asserts that the Neighbors did

not file a complaint regarding the shoring until December 2009, which was approximately 19 months after the shoring was completed and after the Building was completed; and

WHEREAS, the Appellant cites to the doctrine of laches, citing to the Appellate Division which stated "where neglect in promptly asserting a claim for relief causes prejudice to one's adversary, such neglect operates as a bar to a remedy" Save the Pine Bush v. New York State Dept of Env'tl Conservation, 289 A.D.2d 562 (N.Y. 3<sup>rd</sup> Dept 2001) citing Matter of Stockdale v Hughes, 189 A.D. 2d 1065, 1067 (N.Y. 3<sup>rd</sup> Dept 1993); and

WHEREAS, the Appellant asserts that the Neighbors' delay in issuing their complaint until construction was complete eliminates the possibility of redesigning the Building to limit the earth retention work to the Appellant's property; and

- Equitable Relief

WHEREAS, the Appellant asserts that there are unique circumstances to the matter which require that relief be granted in equity because the Appellant asserts that an administrative agency's determination can be overturned where it is so "disproportionate to the offense as to be shocking to one's sense of fairness," citing Featherstone v. Franco, 95 N.Y. 2d 550, 550 (N.Y. 2000); and

WHEREAS, the Appellant asserts that if the appeal is not granted, it will be unable to obtain a Certificate of Occupancy and the Building will stand vacant which is a result that is disproportionate to the alleged offense and would also be a detriment to the community; and

WHEREAS, the Appellant cites to Charter § 666(7) for the Board's authority to vary or modify a rule or regulation when there are practical difficulties or unnecessary hardship caused by carrying out the strict letter of the law; and

WHEREAS, the Appellant asserts that it should be able to apply for a Temporary Certificate of Occupancy or a Certificate of Occupancy; and

## DOB'S POSITION

- Building Code Non-Compliance

WHEREAS, DOB states that the building application which includes shoring of the Neighbors' home without consent from the Neighbors is contrary to the terms of BC §§ 27-140 (*Approval of Plans, Applicant*), 27-142 (*Approval of Plans, Applicant's Statement*) and 27-151 (*Permits, Applicant*) and the associated permit was properly revoked because the construction documents propose construction on the Neighbors' property without the Neighbors' consent; and

WHEREAS, DOB states that BC § 27-140 requires that all applications be accompanied by a signed statement of the owner stating that the applicant is authorized to make the application and that a signed statement by the applicant stating that he or she is authorized to make the application be submitted with the application; and

WHEREAS, DOB states that it received a letter dated December 15, 2009 from the Neighbors which stated that work under the Permit improperly encroached on their property; and

WHEREAS, DOB states that drawings S-1 and S-4 associated with the Permit show shoring consisting of steel I-beams and timber lagging on both adjoining properties but that the Permit application form PW1 is only signed by the

---

# MINUTES

---

Appellant and not by the Neighbors; and

- Memorandum and Case Law

WHEREAS, DOB asserts that its permit revocation is consistent with a DOB memorandum dated May 8, 1984 (the "1984 Memo") which states that when an owner notifies DOB in writing that it did not authorize the filing of an application, DOB may revoke the approval and permit regardless of the status of the work; the purpose and procedure is to stop all ongoing work in order to preserve the conditions at the time the owner alerts DOB that it did not agree to the work while the parties attempt to resolve the dispute; and

WHEREAS, DOB cites to the Board's decision in BSA Cal. No. 480-83-A, which led to the Bun & Burger v. New York Dept of Buildings, 111 A.D.2d 140 (1<sup>st</sup> Dept 1985) litigation and which found that until owner's authorization is granted, DOB can find that the permit must be revoked because the Code's requirement for authorization has not been satisfied; and

WHEREAS, in the cited case, DOB notes that the Board also stated that DOB may properly revoke the building permit when there is a dispute over the right to perform work and that DOB should defer to the courts for an adjudication of the parties' rights; and

- The Side Yard Agreement

WHEREAS, DOB states that it does not have authority to interpret private agreements and cannot treat the Side yard Agreement as an expression of consent for the permitted work under the Administrative Code; and

WHEREAS, DOB states that it is the courts' role to interpret the agreement and there has not been a determination yet about whether there was consent to the permitted work in accordance with the Code; and

WHEREAS, DOB asserts that applicants who perform construction without an owner's consent to do the work proceed at their own risk and cannot fault DOB's filing procedures, which allow for a single application for work on both sides of a property line, for failure to comply with the Administrative Code; and

- Prior Board Cases and Other Underpinning Cases

WHEREAS, DOB distinguishes the High Line Case from the subject case and finds that the Board's decision in the High Line Case does not control; and

WHEREAS, DOB finds that in the High Line Case, the appellant challenged DOB's issuance of stop work orders under a new building permit and a shoring permit after DOB received a written complaint that the appellant performed shoring work pursuant to a shoring permit at the adjacent site without permission of the adjacent owner; and

WHEREAS, DOB states that the Board upheld the stop work order against the shoring permit given the absence of the owner's consent, but determined that the stop work order under the new building permit was improper; and

WHEREAS, DOB notes that in the High Line Case, the Board found that DOB's imposition of the stop work order was inappropriate because (1) the new building permit was separate from the shoring permit; (2) the new building permit was not structurally dependent on the shoring work; and (3) the work

under the new building permit was located entirely on the appellant's property and the adjacent owner's consent was not required for its performance; and

WHEREAS, DOB states that the High Line Case can be distinguished from the subject case because in the subject case, the new building work and shoring work are under a single permit and the new building work is not located solely on the Appellant's property; and

WHEREAS, DOB states that the distinction between the separate permits in the High Line Case and the single permit in the subject case is a meaningful one; and

WHEREAS, in response to the Board's questions at hearing, DOB provided additional testimony on distinctions between the subject case and other claims of underpinning without consent; and

WHEREAS, as to 238 West 74<sup>th</sup> Street, Manhattan, DOB states that the project design initially proposed work on the neighbor's property and then was amended to relocate all work within the property lines; and

WHEREAS, DOB states that under the revised plans, the owner of 238 West 74<sup>th</sup> Street satisfied all applicable laws without reliance on work performed on the neighbor's property and, accordingly, DOB could sign off on the work without concern that doing so might sanction a trespass; and

WHEREAS, DOB states that in the subject case there has not been a change in the design and the work proposed in the construction documents relies on shoring that was mandated by the Code and performed on the Neighbors' property allegedly without consent; and

WHEREAS, DOB states that it cannot approve shoring work if there is a reasonable risk or likelihood that it is erroneously approving work that unlawfully encroaches on the Neighbors' property; and

WHEREAS, as to 3585 Greystone Avenue, Bronx, DOB distinguishes it from the subject case in that it states that it did not find a written complaint in its records from the neighbor; and

WHEREAS, as to 123 87<sup>th</sup> Street, Brooklyn (BSA Cal. No. 221-10-A), DOB states that it raised an objection to the application upon receipt of the neighbor's complaint and a court determination that there was an encroachment onto the adjacent property; and

WHEREAS, further, in 87<sup>th</sup> Street, DOB states that it advised the owner that the objection would not be removed until either the court's findings were overturned or the encroachment was removed, a position it finds to be consistent with its position in the subject case; and

WHEREAS, in response to the Board's inquiry about why DOB did not merely issue violations instead of revoking the permit, DOB states that the Appellant would have a defense in pointing out that the permit expressly authorizes that work; and

WHEREAS, DOB cites to BC § 27-1032 which requires that the sides of all excavations five feet or greater in depth or height measured from the level of the adjacent ground surface to the deepest point of the excavation must be protected and maintained by shoring, bracing, sheeting, sheet piling or by other retaining structures; further, the required shoring must be

---

# MINUTES

---

indicated on the approved plans, the shoring work must be performed in accordance with the plans and must be signed off by DOB in order for a new building to comply with the Code; and

WHEREAS, DOB states that the shoring work is represented on the approved new building plans and those plans cannot now be amended to exclude the shoring work for the purpose of proceeding with work solely on the Appellant's property in order to circumvent the owner authorization requirement; and

WHEREAS, DOB states that it does not have the power to grant equitable relief by judging a complaint of lack of authorization to be untimely or a neighbor's refusal to grant consent to be unreasonable; and

WHEREAS, further, DOB states that it does not have the legal authority to waive the requirement for authorization based on an equitable determination; and

WHEREAS, in response to the Board's inquiry about what form of evidence of owner's authorization DOB accepts to demonstrate compliance with the applicable Administrative Code provisions, DOB states that it accepts (1) the adjacent owner's signature added to the PW1: Plan/Work Application form for the new building permit or (2) a letter or other written statement authorizing the applicant to file the application; and

WHEREAS, DOB adds that the adjacent owner can also specify that authority is given only for work proposed in the application that is to be performed on the neighbor's property; and

WHEREAS, in the alternate, DOB states that a separate PW1 for shoring or underpinning may be signed only by the adjacent owner and filed by the applicant on the adjacent owner's property; and

WHEREAS, DOB states that the subject application is flawed because it did not include a signature, letter or other statement, or a separate PW1 and therefore was not properly authorized in accordance with BC §§ 27-140, 27-142, and 27-151; and

WHEREAS, in response to the Board's question about whether it was in fact interpreting the Side Yard Agreement submitted by the Appellant even though its policy is that it does not interpret private agreements for the purpose of determining a party's right to perform construction work on a neighbor's property, DOB states that it has not interpreted the meaning of the Side Yard Agreement but rather determined that the agreement is not a signed statement of the owner saying that the applicant is authorized to make the application; and

WHEREAS, DOB states that a court may determine that the Side Yard Agreement is an expression of the Neighbors' consent but it is beyond DOB's jurisdiction to make such a finding; and

## THE APPELLANT'S SUPPLEMENTAL RESPONSE

WHEREAS, as to the 1984 Memo, the Appellant distinguishes the facts in that the memo addresses authorization in a landlord-tenant context which is not applicable to the subject facts; and

WHEREAS, further, the Appellant finds that the memo identifies a policy pursuant to which DOB would "stop all ongoing work in order to preserve the conditions [of the

premises]" and which is irrelevant since there was not any ongoing work at the site to stop as it was 100 percent complete; and

WHEREAS, the Appellant also disagrees with DOB's reliance on Bun & Burger because that case addresses ongoing work performed by a lessee without the fee owner's permission; and

WHEREAS, in response to the Neighbors' assertion that the Preliminary Injunction reflects a decision on the encroachment question, the Appellant states that it does not constitute a final determination as to whether the Appellant had consent to install the shoring partially under the Neighbors' property; and

WHEREAS, the Appellant asserts that the Preliminary Injunction granted only the following relief: (1) to enjoin the Appellant from trespassing on the Neighbors' property; (2) to remove the construction fence on the Neighbors' property; and (3) to restrict the Appellant from transferring the Building or its individual units during the pendency of the action in court; and

WHEREAS, the Appellant notes that the court expressly refused to grant the portion of the Neighbors' motion for a preliminary injunction seeking the removal of the I-beams and identified such relief as "the ultimate relief sought;" and

WHEREAS, the Appellant states that the issues before DOB and before the court are distinct and that remedies in the two forums are not reliant on each other; and

WHEREAS, the Appellant asserts that DOB fails to distinguish the West 74<sup>th</sup> Street project where it is not disputed that unauthorized underpinning was installed under the adjacent building and never removed; and

WHEREAS, the Appellant also asserts that DOB fails to distinguish the Greystone Avenue project which the Appellant finds to also involve an adjacent owner's complaint about unauthorized underpinning and which did not result in the revocation of the permit or the issuance of a stop work order; and

WHEREAS, the Appellant also distinguishes the 87<sup>th</sup> Street case in that it began as a zoning dispute and DOB's refusal to approve the owner's application only arose after the court determined that a trespass existed; and

WHEREAS, the Appellant suggests that DOB modify its PW1 form to include a checkbox to indicate whether shoring work will be performed on a neighbor's property; and

## THE OPPOSITION'S ARGUMENTS

### - Absence of Authorization

WHEREAS, the Neighbor asserts that DOB acted prudently in stopping construction in order to protect public safety; and

WHEREAS, the Neighbor represents that the Appellant falsely states that the Neighbor consented orally and in writing to the encroachment on their property; and

WHEREAS, the Neighbor states that the approved plans misrepresented the facts by falsely stating the Appellant had consent to encroach; and

### - The Encroachment is Not *de minimis*

WHEREAS, the Neighbor contests the Appellant's claim that encroachment only extends approximately 6 inches into the side yard and states that based on a survey dated December

---

# MINUTES

---

9, 2009 which shows one beam crossing the property line by 7.75 inches the Appellant's prior attorney conceded to the encroachment; and

WHEREAS, further, the Neighbor states that a court-ordered inspection resulted in an October 20, 2011 survey which showed that 18 underground I-beams cross the property line by approximately 11 inches along a 100-ft. span; and

- Prior Board Cases

WHEREAS, the Neighbor states that the Board has a history of denying appeals challenging DOB decisions requiring owner authorization; and

WHEREAS, specifically, the Neighbor addresses the High Line Case and decides that it is not analogous to the subject case because in the subject case, the Appellant, while working with one permit, constructed on the Neighbors' property without consent, causing a continuous trespass and compromising the foundation of the Neighbors' home as a result of the unlawful taking of their property; and

WHEREAS, the Neighbor states that issues of permanent and significant encroachment and damages to soil and structure which were to be protected during shoring, were not raised in the High Line Case; and

WHEREAS, the Neighbor states that contrary to the Appellant's claim, they did not comply with BC § 27-1031 (requiring protection of adjoining structures during excavation) or with BC § 27-1026, in that the foundation wall for the adjacent property was left exposed during the shoring and is currently exposed; and

WHEREAS, the Neighbor provided evidence such as photographs and affidavits from construction consultants to support its claim that there was damage to its property and home associated with the construction of the Building; and

WHEREAS, additionally, the Neighbor cites to (1) BSA Cal. No. 221-10-A (123 87th Street, Brooklyn) as a decision that concerns owner's authorization for completed construction where there was a court action on the matter, such as the subject case; (2) BSA Cal. No. 154-10-A (540 Bedford Avenue, Brooklyn) which discusses the requirement to reiterate owner authorization throughout construction to safeguard against completing construction without owner's authority and in which the Board approved DOB's policy of maintaining the status quo pending resolution of the dispute; and (3) BSA Cal. No. 132-10-A (105 West 72nd Street, Manhattan) which addressed the requirement for owner authorization as important to public safety and in which the Board referenced the Bun & Burger decision, which the Neighbor finds to support the arguments for denying the subject application; and

- Court Actions

WHEREAS, the Neighbor asserts that in the litigation associated with this case, the Supreme Court acknowledged that remedial work may be necessary on both properties if removal of the I-beams takes place, and prohibited the Appellant from transferring its property during the pendency of the action; the Appellate Division upheld the injunction issued by the Supreme Court, finding that the Neighbors "demonstrated a likelihood of success on the merits of their trespass cause of action;" and

WHEREAS, the Neighbor asserts that a report from the

Appellant's engineer submitted during litigation noted that the encroaching shoring beams "can and should be removed after all foundation work is completed;" thus, the Neighbors assert that DOB is correct to maintain the status quo until the matter is settled, since there is a possibility of removing the I-beams; and

WHEREAS, the Neighbor asserts that the Board is collaterally estopped from hearing this application because the issues have been adjudicated in court; and

## CONCLUSION

WHEREAS, the Board recognizes that the BC § 27-1031 (*Excavation Operations, General Requirements*) requires that property owners shore adjacent sites and buildings during construction; and

WHEREAS, the Board looked to BC §§ 27-1026 (*Protection of Adjoining Property, General*) and 27-1031 which serve as the basis for DOB's actions being appealed and finds that neither sets forth the requirement for an adjacent owner's authorization to install shoring as § 27-1031 requires shoring and underpinning of adjacent properties (which was completed) and § 27-1026 requires permission to enter the adjacent property to inspect during construction and demolition; and

WHEREAS, DOB asserts that the Appellant did not comply with the owner's authorization requirement of BC §§ 27-140 and 27-142; however, the Board notes that BC § 27-140 requires the applicant to provide authorization from the owner – a signed document stating that the applicant is authorized to make the application and does not speak to instances where there is shoring work on an adjacent site with a different owner; BC § 27-142 states that an applicant must provide a signed statement that they are authorized to make an application, but again does not speak to instances where there is shoring work on an adjacent site with a different owner; and

WHEREAS, accordingly, the Board does not find that any of the Code provisions that DOB cites give direction to property owners in the context of shoring an adjacent property or direct DOB to revoke permits and issue stop work orders when there is a question about authorization; and

WHEREAS, the Board also notes that the PW1 form does not provide any direction on how to ensure that multiple authorizations are obtained when multiple owners are involved or when work is performed on multiple zoning lots; the PW1 form only contemplates work to be performed on the zoning lot under the control of the applicant; and

WHEREAS, the Board distinguishes the facts contemplated in the 1984 Memo which it finds pertains to lessees and property owners (as was the case in Bun & Burger); the Board understands DOB's position that it is being consistent with the memo, but the Board does not find any basis for a requirement to follow a memo that is so factually distinct from the subject matter; and

WHEREAS, the Board does not find that the facts of Bun & Burger or the 1984 Memo are relevant to the subject facts since they involve disputes over who the single authorizing party is on one site, do not involve the common construction practice of shoring, and do not involve adjacent properties; all of those facts are relevant to the subject case; and

---

# MINUTES

---

WHEREAS, the Board notes that the Neighbors' consent is not required for any remaining work to be performed, as the Appellant represents that all work is complete; and

WHEREAS, even if the Board were to accept DOB's assertion that it has not interpreted the Side Yard Agreement but has simply determined that the document is not among the documents it accepts, the Board is concerned that there is no codified practice or instruction about what documents would be sufficient and the construction application does not provide a place for the applicant to acknowledge an encroachment; and

WHEREAS, accordingly, the Board does not see the basis for DOB's decision to revoke the permits and issue a stop work order, which are both discretionary actions; and

WHEREAS, the Board asserts that given the density of New York City, the shoring requirement is carried out throughout the City with great frequency; and

WHEREAS, the Board does agree with DOB that there is a public policy goal for requiring shoring and a public policy goal for requiring authorization to implement shoring on an adjacent property; and

WHEREAS, however, the Board finds that there is not currently a clear mechanism for property owners to establish owner's authorization; and

WHEREAS, the Board does not take a position as to the meaning of the Side Yard Agreement and leaves that interpretation to the courts; and

WHEREAS, the Board acknowledges DOB's practice of stopping construction when there is a complaint from a neighbor about lack of authorization, but it does not see that in this instance where work has already been completed that issuing a stop work order is a necessary remedy; and

WHEREAS, the Board supports the general principle of preserving the status quo so that no further damages are incurred, but, in the subject case, the construction has all been performed and the court has ordered that there not be any transfer in the Building's ownership, so the Board does not see the basis for exercising discretion to completely halt the project; and

WHEREAS, the Board finds that an interim resolution, while the court determines the question of authorization and while the Appellant is precluded from transferring the Building's ownership, is more reasonable than DOB's actions; and

WHEREAS, the Board requested that DOB provide examples of forms of owner's authorization that are accepted and DOB did not provide any examples; and

WHEREAS, the Board agrees with the Appellant that there is not any distinction between the 74<sup>th</sup> Street example and the subject facts as both involve situations where the encroachment on the adjacent site remains; and

WHEREAS, the Board does not see any basis to allow an applicant to change construction drawings to reflect a condition other than what is built in order to resolve the authorization question, as was done in 74<sup>th</sup> Street; the Board finds such practice to perpetuate a fiction; and

WHEREAS, further, the Board notes that DOB will not allow the Appellant to revise the drawings or file a separate shoring and new building permit; and

WHEREAS, the Board finds that DOB has the discretion not to issue a stop work order, particularly when there is no work being performed and has the discretion not to revoke the permit, both of which are more reasonable actions given the facts; and

WHEREAS, the Board finds that (1) DOB does not have a practice that puts property owners on notice for how to effectuate authorization for shoring cases; (2) the 1984 Memo is not applicable to the facts and DOB is not governed by it; (3) if DOB accepts other forms of owner's authorization beside the signature on the form, then it should be clear what is accepted so that it is not in the position of determining whether it is interpreting an agreement or rejecting it based on apparent flaws; and (4) if DOB's position is that it does not interpret agreements, then it should wait for the court to decide the meaning of the Side Yard Agreement before revoking the Permit; and

WHEREAS, the Board suggests that DOB establish a clear policy and procedure for construction work that requires either temporary or permanent shoring infrastructure on adjacent sites and to codify the form of consent that is required and acceptable to DOB; and

*Therefore it is Resolved* that the Board grants the appeal to the extent of reversing the permit revocation and stop work order which are based on an outstanding question of owner's authorization, but the Board does not direct DOB to eliminate its objections or to issue a Certificate of Occupancy.

Adopted by the Board of Standards and Appeals, May 1, 2012.

**THE RESOLUTION –**

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated December 7, 2011, acting on Department of Buildings Application No. 320310230, reads in pertinent part:

1. Proposed enlargement increases the degree of non-compliance of an existing building with respect to floor area ratio, which is contrary to ZR Section 23-141(b)
2. Proposed enlargement increases the degree of non-compliance of an existing building with respect to open space and lot coverage, which are contrary to ZR Section 23-141(b)
3. Proposed enlargement increases the degree of non-compliance of an existing building with respect to a side yard less than 5’-0”, which is contrary to ZR Section 23-461(a) & 23-48;
4. Proposed enlargement results in a rear yard of less than 30 feet, which is contrary to ZR Section 23-47; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03, to permit, in an R3-2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio

(“FAR”), open space, lot coverage, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, 23-47, and 23-48; and

WHEREAS, a public hearing was held on this application on March 6, 2012 after due notice by publication in *The City Record*, with a continued hearing on April 3, 2012, and then to decision on May 1, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of East 21<sup>st</sup> Street, between Avenue S and Avenue T, within an R3-2 zoning district; and

WHEREAS, the subject site has a total lot area of 2,500 sq. ft., and is occupied by a single-family home with a floor area of 1,505 sq. ft. (0.60 FAR); and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 1,505 sq. ft. (0.60 FAR) to 2,625 sq. ft. (1.05 FAR); the maximum permitted floor area is 1,250 sq. ft. (0.50 FAR); and

WHEREAS, the applicant proposes to provide an open space of 44.5 percent (65 percent is the minimum required); and

WHEREAS, the applicant proposes to provide a lot coverage of 55.5 percent (35 percent is the maximum permitted); and

WHEREAS, the applicant proposes to maintain the existing side yard along the northern lot line with a width of 2’-6 ½” (a minimum width of 5’-0” is required for each side yard) and to provide a side yard with a width of 5’-5 ½” along the southern lot line; and

WHEREAS, the proposed enlargement will provide a rear yard with a depth of 20’-0” (a minimum rear yard depth of 30’-0” is required); and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, and will not impair the future use or development of the surrounding area; and

WHEREAS, the applicant submitted a study of FARs in the area which reflects that there are at least two homes within two blocks of the site in the subject R3-2 zoning district with FARs in excess of 1.0, and concludes that the proposed FAR is compatible with the neighborhood character; and

WHEREAS, at hearing, the Board directed the applicant to confirm that the proposed bay windows on the south side of the home would provide sufficient clearance for automobiles driving to and from the parking space at the rear of the site; and

WHEREAS, in response, the applicant submitted revised plans which reflect that there will be at least six feet of clearance below each of the bay windows on the south side of the proposed home, which the applicant represents is sufficient clearance for passing automobiles; and

# MINUTES

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03.

*Therefore it is resolved*, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, within an R3-2 zoning district, the enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio, open space, lot coverage, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, 23-47, and 23-48; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received March 20, 2012"-(10) sheets and "April 16, 2012"-(3) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area of 2,625 sq. ft. (1.05 FAR); an open space of 44.5 percent; lot coverage of 55.5 percent; a side yard with a minimum width of 2'-6 1/2" along the northern lot line; a side yard with a minimum width of 5'-5 1/2" along the southern lot line; and a rear yard with a minimum depth of 20'-0", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 1, 2012.

**THE RESOLUTION** –

WHEREAS, the decisions of the Staten Island Borough Commissioner, dated February 13, 2012, acting on Department of Buildings Application Nos. 520048948, 520048957, 520048984, 520048975, and 520048966 read in pertinent part:

Proposed construction of a one family residence building within bed of a mapped street is contrary to General City Law 35 and not permitted; and

WHEREAS, this is an application to permit the proposed construction of five single-family homes located within the bed of a mapped street, contrary to Section 35 of the General City Law; and

WHEREAS, a public hearing was held on this application on January 24, 2012, after due notice by publication in the *City Record*, with continued hearings on February 28, 2012 and March 27, 2012, and then to decision on April 24, 2012; and

WHEREAS, Community Board 2, Staten Island, recommends disapproval of this application; and

WHEREAS, New York State Assembly Member Michael J. Cusick provided written testimony in opposition to this application; and

WHEREAS, New York State Assembly Member Louis R. Tobacco provided written testimony in opposition to this application; and

WHEREAS, New York State Senator Andrew J. Lanza provided written testimony requesting that the Board review the environmental and transportation issues associated with this application; and

WHEREAS, United States Congress Member Michael G. Grimm provided written testimony in opposition to this application; and

WHEREAS, New Yorkers for Parks provided written testimony in opposition to this application; and

WHEREAS, representatives of the Richmondtown and Clarke Avenue Civic Association and the Grasmere Civic Association provided oral and written testimony in opposition to this application (collectively, the “Opposition”); and

WHEREAS, the Opposition raised the following primary concerns: (1) the proposal is in a freshwater wetlands area; (2) an environmental assessment should be performed on the site; (3) the proposal could cause increased flooding in the area; (4) the applicant has not satisfied the findings pursuant to ZR § 72-21; (5) the proposal creates potential zoning non-compliances; (6) the proposal must be reviewed by the Department of City Planning (“DCP”); and (7) there is insufficient parking for the project on the surrounding streets; and

WHEREAS, the subject site consists of 296,208 sq. ft. of lot area bounded by St. Andrews Road to the north and Richmond Road to the south, in an R1-2 zoning district within the Special Natural Area Zoning District; and

WHEREAS, the applicant notes that 59,520 sq. ft. of lot area is Freshwater Wetland, 157,135 sq. ft. of lot area is Freshwater Wetland Adjacent Area, and the remaining 79,533 sq. ft. of lot area is unregulated; and

WHEREAS, the applicant proposes to construct 13 single family homes on the site, with four of the homes fronting on Richmond Road and nine of the homes accessed by Tupelo Court, a newly created private street; and

WHEREAS, the applicant states that three of the homes are proposed to be constructed in the bed of a mapped street known as Mace Street, and two of the homes are proposed to be constructed in the bed of a mapped street known as Ascot Avenue; accordingly, the applicant seeks a waiver of Section 35 of the General City law for the construction of five homes in the bed of a mapped street; and

WHEREAS, the other eight homes in the proposed development do not require a waiver of Section 35 of the General City Law, and therefore are not included in the subject application; and

WHEREAS, by letter dated January 12, 2011, the Department of Transportation (“DOT”) states that it has reviewed the project and has no objections; and

WHEREAS, DOT states that the applicant’s property is not included in the agency’s ten-year capital plan; and

WHEREAS, by letter dated September 26, 2011, the Department of Environmental Protection (“DEP”) states that the Amended Drainage Plan No. D-3 (R-2)/D-4 (R-1), dated March 17, 2005, does not show any future sewers in the portions of mapped Mace Street and mapped Ascot Avenue at issue, but does show stabilized outlets at the intersection of Mace Street and mapped Call Street which will discharge storm flow into the referenced property; and

WHEREAS, DEP further states that, based on the June 28, 2011 map submitted by the applicant, which shows the DEP easement area which will be available to accept the storm flow discharge from the above-mentioned stabilized outlets, and based on the easement document submitted by the applicant for the portion of the property not to be developed on lot 36, it has no

---

# MINUTES

---

objections to the proposed application; and

WHEREAS, by letter dated December 7, 2010, the Fire Department states that it objects to the construction of any buildings within the bed of a mapped street (including the construction of the proposed homes in the bed of Ascot Avenue and Mace Street) because such streets should be opened in order to improve emergency response in the area; and

WHEREAS, in response, the applicant states that it made a good faith attempt to utilize and open the existing mapped but unbuilt streets on the site, however, the New York State Department of Environmental Conservation (“DEC”) would not allow the existing streets on the site to be opened because they are within Freshwater Wetland and Freshwater Wetland Adjacent Area; and

WHEREAS, the applicant submitted a letter from DEC dated March 20, 2012 which states that it issued a freshwater wetlands permit for the construction of 13 single family homes on the site, which keeps portions of the beds of St. Andrews Road, Mace Street, and Ascot Avenue unbuilt in perpetuity to preserve and protect freshwater wetlands and their benefits, and the street beds will not be opened and developed on the property controlled by the terms of the cited DEC permit; and

WHEREAS, by letter dated March 6, 2012, the Fire Department states that it reviewed the proposed site plan and all conditions relative to building access roads are in compliance with the 2008 Fire Code; and

WHEREAS, accordingly, the Board acknowledges the stated policy of the Fire Department that all mapped streets be opened, but finds that the applicant has submitted sufficient evidence to warrant approval of the proposed construction based on the inability to open the mapped but unbuilt streets on the site due to the requirements of the DEC freshwater wetlands permit, in conjunction with the Fire Department’s acknowledgment that the proposed Tupelo Court will fully comply with the 2008 Fire Code; and

WHEREAS, in response to the concerns raised by the Opposition regarding the construction within the Freshwater Wetlands, flooding, and the need to undergo an environmental assessment of the site, the applicant notes that more than half of the site is being preserved in its natural state, the proposed construction will only take place within the Freshwater Wetlands Adjacent Area and not within the Freshwater Wetlands, and that DEC issued a freshwater wetlands permit for the proposed construction, which incorporated an environmental review that followed SEQR regulations; and

WHEREAS, in response to the Opposition’s claim that the proposal does not satisfy the findings of ZR § 72-21 and that it creates potential zoning non-compliances, the Board notes that the findings under ZR § 72-21 are not applicable to an application under Section 35 of the General City Law, and that all issues related to zoning on the site are subject to review and approval by the Department of Buildings; and

WHEREAS, as to the Opposition’s contention that the proposal must be reviewed by DCP, the applicant submitted a letter from DCP stating that the proposed project will require Special Natural Area District authorizations and review by the City Planning Commission, but that the project requires a

Board determination before an application can be filed with DCP; and

WHEREAS, in response to the Opposition’s concerns regarding a lack of parking, the applicant notes that off-street parking spaces will be provided for the proposed homes, the proposed Tupelo Court will be built out to a width of 38 feet such that parking can be provided on that street, and Richmond Road will be widened so that additional parking can be provided on that street; and

WHEREAS, while the Board recognizes the concerns expressed by the Opposition, such considerations are not part of an application to permit construction within the bed of a mapped street under Section 35 of the General City Law, and therefore are not subject to the Board’s review; and

WHEREAS, the Board notes that the construction must comply with all requirements of the Zoning Resolution; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

*Therefore it is Resolved* that the decisions of the Staten Island Borough Commissioner, dated May 10, 2010, acting on Department of Buildings Application Nos. 520048948, 520048957, 520048984, 520048975, and 520048966, is modified by the power vested in the Board by Section 35 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked “Received March 20, 2012” – (2) sheets; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT all necessary DEC and DEP approvals must be obtained prior to the issuance of DOB permits;

THAT the necessary DCP review and authorization must be obtained prior to the issuance of DOB permits;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT DOB shall review the proposed plans to ensure compliance with all relevant provisions of the Zoning Resolution;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 24, 2012.

**\*The resolution has been revised to correct the Plans Dates which read: ... “ Received March 20, 2012” – (3) sheets”... now reads: ... “ Received March 20, 2012” – (2) sheets”. Corrected in Bulletin No. 19, Vol. 97, dated May 9, 2012.**

**SPECIAL ORDER CALENDAR**

**442-42-BZ**

APPLICANT – Eric Palatnik, P.C., for Cropsey-20th Avenue Corp, owner.

SUBJECT – Application November 17, 2011 – Amendment (§11-412) to enlarge an existing gasoline service station (*Shell*) and legalize the conversion of repair bays to an accessory convenience store. R-5 zoning district.

PREMISES AFFECTED – 2001/2011 Cropsey Avenue, northeast corner of 20<sup>th</sup> Avenue and Cropsey Avenue, Block 6442, Lot 5, Borough of Brooklyn.

**COMMUNITY BOARD #11BK**

APPEARANCES –

For Applicant: Trevis Savage.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment to permit certain modifications to the site; and

WHEREAS, a public hearing was held on this application on March 20, 2012 after due notice by publication in *The City Record*, with a continued hearing on April 24, 2012, and then to decision on May 8, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 11, Brooklyn, recommends approval of this application; and

WHEREAS, the site is located on the northeast corner of 20<sup>th</sup> Avenue and Cropsey Avenue, within an R5 zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since September 29, 1942 when, under the subject calendar number, the Board granted a variance to permit the extension and reconstruction of an existing gasoline service station; and

WHEREAS, subsequently, the grant has been amended and the term extended by the Board at various times; and

WHEREAS, most recently, on March 1, 2005, the Board granted an amendment pursuant to ZR § 11-412 to permit an extension of the canopy to connect to the existing building and an alteration of the signage at the site; and

WHEREAS, the applicant now seeks an amendment to (1) legalize the conversion of the accessory automotive repair bays to an accessory convenience store, (2) permit the enlargement of the convenience store building from 1,816 sq. ft. to approximately 2,396 sq. ft., (3) relocate the dumpster enclosure to the rear of the site, (4) remove the existing clothing bins from southeast corner of the site, and (5) reduce the number of parking spaces at the site; and

WHEREAS, the Board notes that Technical Policy and Procedure Notice (TPPN) # 10/99, provides that a retail convenience store located on the same zoning lot as a gasoline service station will be deemed accessory if: (i) the accessory convenience store is contained within a completely enclosed building; and (ii) the accessory convenience store has a maximum retail selling space of 2,500 sq. ft. or 25 percent of the zoning lot area, whichever is less; and

WHEREAS, the applicant represents that the proposed convenience store is located within an enclosed building and has a retail selling space of less than 2,500 sq. ft. or 25 percent of the zoning lot area; and

WHEREAS, at hearing, the Board questioned whether the proposal, which reduced the total number of parking spaces on the site from 11 to seven, provides sufficient parking for the convenient store use; and

WHEREAS, in response, the applicant submitted revised plans reflecting an increase in the total number of parking spaces on the site from seven to nine, and submitted a letter from a parking consultant stating that the proposal provides a sufficient number of parking spaces to accommodate the demand generated by the convenience store; and

WHEREAS, the applicant states that the coin-operated car wash and vacuum will be removed from the site, in accordance with the Board’s previous grant; and

WHEREAS, pursuant to ZR § 11-412, the Board may grant a request for changes to the site; and

WHEREAS, at hearing, the Board directed the applicant to confirm that the signage on the site complied with C1 district regulations; and

WHEREAS, in response, the applicant submitted a signage analysis reflecting that the signage on the site complies with C1 district regulations; and

WHEREAS, based upon its review of the record, the Board finds the requested extension of term and amendment to the approved plans are appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *amends* the resolution, dated September 29, 1942, so that as amended this portion of the resolution shall read: “to permit the noted site modifications; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked ‘Received April 10, 2012’–(7) sheets; and *on further condition*:

THAT all signage will comply with C1 zoning district

# MINUTES

regulations;

THAT landscaping will be provided and maintained in accordance with the BSA-approved plans;

THAT all lighting will be directed downward and away from adjacent residential uses;

THAT the above conditions will appear on the certificate of occupancy;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (DOB Application No. 320350810)

Adopted by the Board of Standards and Appeals May 8, 2012.

-----

## 1259-79-BZ

APPLICANT – Sheldon Lobel, P.C., for 29 West 26<sup>th</sup> Street, LLC c/o Madison Realty Capital, L.P., owner.

SUBJECT – Application December 15, 2011 – Extension of Time to Complete Construction of a Variance (§72-21) to convert the fourth and sixth floors of an existing building from manufacturing lofts to residential use which expired on April 27, 2011; Extension of Time to obtain a Certificate of Occupancy which expired on October 27, 2011; waiver of the Rules. M1-6 zoning district.

PREMISES AFFECTED – 29 West 26<sup>th</sup> Street, north side of West 26<sup>th</sup> Street, 350’ east of 6<sup>th</sup> Avenue, Block 828, Lot 16, Borough of Manhattan.

### COMMUNITY BOARD #5M

APPEARANCES –

For Applicant: Nora Martins.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

**THE RESOLUTION** –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, an extension of time to complete the conversion of a portion of a seven-story building from manufacturing use to residential use, and an extension of time to obtain a certificate of occupancy; and

WHEREAS, a public hearing was held on this application on March 20, 2012 after due notice by publication in *The City Record*, with a continued hearing on April 24, 2012, and then to decision on May 8, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the north side of West 26<sup>th</sup> Street, between Broadway and the Avenue of the Americas, within an M1-6 zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 8, 1980 when, under the subject calendar number, the Board granted a variance pursuant to ZR § 72-21, to permit the conversion of all floors above the first floor from manufacturing lofts into a multiple dwelling; and

WHEREAS, subsequently, the time to complete construction was extended at various times; and

WHEREAS, most recently, on October 27, 2009, the Board granted a two-year extension of time to complete construction and obtain a certificate of occupancy, which expired on October 27, 2011; and

WHEREAS, the applicant states that the second, third, fifth, and seventh floors of the subject building have been converted to residential use pursuant to the Board’s grant, but that the fourth and sixth floors are still in the process of being converted to residential use, and a certificate of occupancy for the building has yet to be obtained; and

WHEREAS, the applicant represents that construction has not been completed due to change in ownership of the building, which was not completed until June 2011, and delays encountered at the Department of Buildings (“DOB”) regarding sprinkler system requirements; and

WHEREAS, thus, the applicant now requests a four-year extension of time to complete construction and obtain a certificate of occupancy; and

WHEREAS, at hearing, the Board raised concerns about the outstanding violations at the site and directed the applicant to provide justification for its request for a four-year extension of time; and

WHEREAS, in response, the applicant submitted a letter from the contract vendee explaining the steps they will take after closing title to address the outstanding Environmental Control Board and DOB violations at the site; and

WHEREAS, the applicant also submitted a timeline which notes the estimated date for the completion of construction and obtaining a certificate of occupancy and details the various approvals to be obtained, work to be done, and violations to be resolved; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to complete construction is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens*, and *amends* the resolution, dated July 8, 1980, so that as amended this portion of the resolution shall read: “to grant a four-year extension of time to complete construction and obtain a certificate of occupancy, to expire on May 8, 2016; *on condition*:

THAT construction will be completed and a certificate of occupancy obtained by May 8, 2016;

# MINUTES

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB Application No. 100561429)

Adopted by the Board of Standards and Appeals, May 8, 2012.

-----

## 997-84-BZ

APPLICANT – Akerman Senterfitt, for 222 Union Associates, owner; Central Parking System of New York, Inc., lessee.

SUBJECT – Application February 6, 2012 – Extension of Time to obtain a Certificate of Occupancy for an existing six story public parking garage with an automobile rental establishment which expired on June 4, 2008; waiver of the rules. R6A zoning district.

PREMISES AFFECTED – 800 Union Street, southside of Union Street between 6<sup>th</sup> and 7<sup>th</sup> Avenues, Block 957, Lot 29, Borough of Brooklyn.

## COMMUNITY BOARD #6BK

### APPEARANCES –

For Applicant: Jessica A. Loeser.

**ACTION OF THE BOARD** – Application granted on condition.

### THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

### THE RESOLUTION –

WHEREAS, this is an application for a reopening, a waiver of the Rules of Practice and Procedure, and an extension of time to obtain a certificate of occupancy, which expired on June 4, 2008; and

WHEREAS, a public hearing was held on this application on Mach 6, 2012 after due notice by publication in *The City Record*, with a continued hearing on April 3, 2012, and then to decision on May 8, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the site is located on the south side of Union Street between Sixth Avenue and Seventh Avenue, within an R6A zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since 1929 when, under BSA Cal. No. 271-29-BZ, the Board granted a variance to permit the construction of a six-story building to be occupied by a parking garage and gasoline station; and

WHEREAS, in 1959, under BSA Cal. No. 490-59-BZ, the Board granted a variance to permit the change of use of the building to manufacturing and storage of incombustibles; and

WHEREAS, on September 10, 1985, under the subject calendar number, the Board permitted the change of use of the building to a public parking garage and automobile rental establishment, pursuant to ZR § 11-413, for a term of ten years; and

WHEREAS, subsequently, on May 14, 1996, the grant was extended for an additional ten-year term; and

WHEREAS, most recently, on December 4, 2007, the Board granted an amendment, pursuant to ZR § 11-412, to legalize an increase in the number of parking spaces from 149 to 237, including 20 parking spaces for rental cars on the second floor, and granted an additional ten-year extension of term; and

WHEREAS, a condition of the grant was that a new certificate of occupancy be obtained by June 4, 2008; and

WHEREAS, the applicant states that a certificate of occupancy has not been obtained due to miscommunication between the owner and operator of the site; and

WHEREAS, the applicant now requests an extension of time to obtain a certificate of occupancy; and

WHEREAS, at hearing, the Board directed the applicant to confirm that the site is in compliance with the previous grant, and questioned whether the signage at the site complied with C1 district regulations; and

WHEREAS, in response, the applicant submitted photographs reflecting that the stackers have been relocated to the cellar level and that the capacity of the garage has been reduced in accordance with the previous grant; and

WHEREAS, as to the signage on the site, the applicant submitted a revised sign elevation drawing which reflects the removal of certain non-complying signs and the relocation of certain signs to complying heights; and

WHEREAS, the applicant states that scaffolding which has recently been installed at the site currently blocks access to the signage, and therefore requests that it be permitted to bring the signage into compliance after the scaffolding is removed, in approximately six months; and

WHEREAS, based upon the above, the Board finds that the requested extension of time is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens*, and *amends* the resolution, dated September 10, 1985, so that as amended this portion of the resolution shall read: “to grant an extension of time to obtain a certificate of occupancy for one year from the date of this resolution, to expire on May 8, 2013; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked ‘Received May 3, 2012’-(1) sheet; and *on further condition*:

THAT this grant will expire on September 10, 2015;

THAT all signage on the site will be as indicated on the BSA-approved plans;

THAT the above conditions will be listed on the

# MINUTES

certificate of occupancy;

THAT a new certificate of occupancy will be obtained by May 8, 2013;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (Alt. 863/84)

Adopted by the Board of Standards and Appeals May 8, 2012.

-----

## 203-07-BZ

APPLICANT – Sheldon Lobel, P.C., for Gastar Inc., owner.  
SUBJECT – Application December 30, 2011 – Amendment to a previous variance (§72-21) which allowed for the construction of a mixed use building, contrary to floor area and open space regulations. The amendment requests changes to the interior layout which would decrease medical office space, increase the number of dwelling units from 28 to 36, and increase parking from 58 to 61 spaces. R6/C2-2 zoning district.

PREMISES AFFECTED – 137-35 Elder Avenue, northwest corner of Main Street and Elder Avenue. Block 5140, Lot 40. Borough of Queens.

## COMMUNITY BOARD #7Q

APPEARANCES –

For Applicant: Nora Martins.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5  
Negative:.....0

**THE RESOLUTION** –

WHEREAS, this is an application for a reopening and an amendment to a previously granted variance for a 12-story mixed-use commercial/community facility/residential building; and

WHEREAS, a public hearing was held on this application on March 20, 2012 after due notice by publication in *The City Record*, with a continued hearing on April 24, 2012, and then to decision on May 8, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 7, Queens, recommends approval of this application, with the following conditions: (1)

the owner ensures that the existing underground oil/gas tanks are legally removed and the soil is remediated; and (2) the parking plan be reviewed for compliance with zoning, height, and width; and

WHEREAS, the site is located on the northeast corner of Main Street and Elder Avenue; and

WHEREAS, the site is partially within an R6 zoning district and partially within an R6/C2-2 zoning district and has a total lot area of 9,632 sq. ft.; and

WHEREAS, the site has 348 feet of frontage on 31<sup>st</sup> Avenue, a depth of 600 feet, and a total lot area of 208,803 sq. ft.; and

WHEREAS, on August 25, 2009, under the subject calendar number, the Board granted a variance to permit the construction of a 12-story mixed-use commercial/community facility/residential building which did not comply with the underlying zoning regulations for floor area ratio (“FAR”) and open space, contrary to ZR § 23-142; and

WHEREAS, the applicant now requests an amendment to permit changes to the interior layout of the proposed building, including an increase in the number of dwelling units and parking spaces, an increase in the commercial floor area, a decrease in the community facility floor area, and modifications to the floor-to-ceiling heights that result in a slight increase in the building height; and

WHEREAS, specifically, the applicant seeks to increase the number of dwelling units from 26 units to 36 units and to provide a corresponding increase in the number of accessory parking spaces, from 58 spaces to 61 spaces; and

WHEREAS, the applicant states that the additional ten dwelling units are created by rearranging the interior layout on the fourth through tenth floors to create four dwelling units on each floor instead of three, and converting the two approved 11<sup>th</sup> and 12<sup>th</sup> floor duplexes into four single-floor units; the proposed residential floor area remains the same as the floor area approved by the Board pursuant to the original variance (33,292 sq. ft.); and

WHEREAS, the applicant further states that the additional number of parking spaces required by the proposed increase in dwelling units will be accommodated by installing stackers in the cellar and second floor parking garages; and

WHEREAS, the applicant notes that the proposed 61 parking spaces includes the required 55 parking spaces and six required queuing spaces; and

WHEREAS, the applicant states that the floor-to-ceiling heights of the cellar, first, and second floors have been adjusted to accommodate the stackers (which require overhead clearance of 10’-0”), resulting in a 1’-0” increase in the total building height, from 137’-11” to 138’-11”;

WHEREAS, the applicant notes that the proposed height remains within the building envelope that is permitted as-of-right; and

WHEREAS, the applicant also seeks a slight increase in the commercial floor area on the ground floor from 6,820 sq. ft. to 7,040 sq. ft., due to a redesigned elevator core

---

# MINUTES

---

which was relocated to reduce the distance from the street entrance to the elevators, and a slight decrease in the community facility floor area from 4,850 sq. ft. to 4,149 sq. ft., due to the enlargement of the second floor parking garage to accommodate the additional parking spaces; and

WHEREAS, the applicant states that the proposed amendments will not adversely affect the surrounding neighborhood, as only ten additional dwelling units are proposed and required parking will be provided within the building; and

WHEREAS, the applicant further states that no increase in the approved residential floor area or decrease in the approved residential open space is requested; and

WHEREAS, in response to the Community Board's concerns regarding environmental remediation, the applicant states that its environmental consultant is working with the New York State Department of Environmental Conservation ("DEC") to determine the extent and scope of work necessary to remediate the soil at the site, that DEC requested the submission of a Remedial Action Work Plan ("RAWP"), and that upon approval of the RAWP it will undertake the necessary soil remediation measures simultaneously with the commencement of construction at the site; and

WHEREAS, as to the Community Board's concerns regarding the proposed parking plan, the applicant submitted revised plans which reflect the proposed parking stackers at the second and cellar floors, and the adjusted floor-to-ceiling heights of the cellar, first, and second floors to accommodate the stackers; and

WHEREAS, the Board notes that the proposed parking plan is subject to DOB review and approval for compliance with the Zoning Resolution and Building Code, and any other applicable requirements; and

WHEREAS, based upon its review of the record, the Board finds the requested amendment to the approved plans is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated August 25, 2009, so that as amended this portion of the resolution shall read: "to permit the noted modifications to the previously-approved plans; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received April 26, 2012"-- eleven (11) sheets; and *on further condition*:

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

(DOB Application No. 402635403)

Adopted by the Board of Standards and Appeals May 8, 2012.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated February 1, 2012, acting on Department of Buildings Application No. 420515632, reads in pertinent part:

A1- The street giving access to the existing building to be altered is not duly placed on the map of the City of New York. Therefore:

- a) A Certificate of Occupancy may not be issued as per Article 3, Section 36 of the General City Law; and
- b) Existing dwelling to be altered does not have at least 8% of the total perimeter of the building fronting directly upon a legally mapped street or frontage space is contrary to Section 27-291 of the Administrative Code.

A2- The proposed upgrade of the private disposal system is in the bed of the service lane contrary to the Department of Building policy; and

WHEREAS, a public hearing was held on this application on May 8, 2012, after due notice by publication in the *City Record*, and then to decision on the same date; and

WHEREAS, by letter dated May 8, 2012 the Fire Department states that it has no objection to the subject proposal, with the condition that the entire building be fully sprinklered in conformance with the sprinkler provisions of Fire Code § 503.8.2, Local Law 10/99, and Reference Standard 17-2B of the Building Code; and

WHEREAS, the applicant submitted plans reflecting that the building will be fully sprinklered and interconnected smoke alarms will be installed in accordance with the Fire Department's request; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

*Therefore it is Resolved* that the decision of the Queens Borough Commissioner, dated February 1, 2012, acting on Department of Buildings Application No. 420515632, is modified by the power vested in the Board by Section 36 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked "Received February 9, 2012"-one (1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other

For Applicant: Gary Lenhart.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated March 1, 2012, acting on Department of Buildings Application No. 420513171, reads in pertinent part:

- A1- The proposed reconstruction of the existing building located on a site where the building and lot are located partially in the bed of a mapped street therefore no permit or Certificate of Occupancy can be issued as per Art. 3 Sect. 35 of the General City Law.
- A2-The private upgrade of the private disposal system is not in the bed of a mapped street; and

WHEREAS, a public hearing was held on this application on May 8, 2012, after due notice by publication in the *City Record*, and then to decision on the same date; and

WHEREAS, by letter dated April 26, 2012 the Fire Department states that it has no objection to the subject proposal, with the condition that the entire building be fully sprinklered in conformance with the sprinkler provisions of

Fire Code § 503.8.2, Local Law 10/99, and Reference Standard 17-2B of the Building Code; and

WHEREAS, the applicant submitted plans reflecting that the building will be fully sprinklered and interconnected smoke alarms will be installed in accordance with the Fire Department's request; and

WHEREAS, by letter dated March 21, 2012, the Department of Environmental Protection states that it has no objection to the subject proposal; and

WHEREAS, by letter dated April 25, 2012, the Department of Transportation ("DOT") states that it has no objection to the subject proposal; and

WHEREAS, DOT states that the subject lot is not currently included in the agency's Capital Improvement Program; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

*Therefore it is Resolved* that the decision of the Queens Borough Commissioner, dated March 1, 2012, acting on Department of Buildings Application No. 420513171, is modified by the power vested in the Board by Section 35 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked "Received March 7, 2012 - one (1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT DOB will review the proposed plans to ensure compliance with all relevant provisions of the Zoning Resolution;

### 22-12-BZ

#### CEQR #12-BSA-072M

APPLICANT – Francis R. Angelino, Esq., for Lerad Company, owner.

SUBJECT – Application February 1, 2012 – Special Permit (§73-36) to allow the enlargement of an existing Physical Culture Establishment (*SoulCycle*).

PREMISES AFFECTED – 1470 Third Avenue, northwest corner of East 83<sup>rd</sup> Street and Third Avenue, Block 1512, Lot 33, Borough of Manhattan.

#### COMMUNITY BOARD #8M

APPEARANCES –

For Applicant: Francis R. Angelino.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated January 24, 2012, acting on Department of Buildings Application No. 120178253, reads in pertinent part:

Proposed enlargement to existing ‘Physical Culture Establishment’ is not permitted as-of-right in C1-9 zoning district. This use is contrary to Section 32-10 ZR. Requires a special permit from the Board of Standards and Appeals; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a C1-9 zoning district, the extension of an existing physical culture establishment (“PCE”) on a portion of the first floor and cellar of a six-story mixed-use commercial/residential building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on April 3, 2012 after due notice by publication in *The City Record*, and then to decision on May 8, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Collins, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 8, Manhattan, recommends approval of this application; and

---

# MINUTES

---

WHEREAS, the subject site is located on the northwest corner of East 83<sup>rd</sup> Street and Third Avenue, within a C1-9 zoning district; and

WHEREAS, the site is occupied by a six-story mixed-use commercial/residential building; and

WHEREAS, on May 25, 2010, under BSA Cal. No. 20-10-BZ, the Board granted a special permit pursuant to ZR § 73-36 for the establishment of a PCE to occupy a total of 1,480 sq. ft. of floor area on a portion of the first floor of the subject building; and

WHEREAS, the applicant now seeks to expand the PCE to include an additional 1,945 sq. ft. of floor area on the first floor of the subject building (for a total PCE floor area of 3,425 sq. ft.), with additional floor space located in a portion of the cellar; and

WHEREAS, the applicant states that a new special permit is required because the proposed PCE extension increases the existing PCE floor area by more than 50 percent; and

WHEREAS, the PCE is operated as Soul Cycle; and

WHEREAS, the proposed hours of operation are: Monday through Friday, from 6:00 a.m. to 9:00 p.m.; and Saturday and Sunday, from 7:30 a.m. to 7:30 p.m.; and

WHEREAS, the applicant represents that the services at the PCE include facilities for instruction and programs for physical improvement; and

WHEREAS, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 17.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No. 12BSA072M, dated January 28, 2012; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous

Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved* that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site within a C1-9 zoning district, the extension of a physical culture establishment on a portion of the first floor and cellar of an existing six-story commercial/residential building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received April 11, 2012" - four (4) sheets; and *on further condition*:

THAT the term of this grant shall expire on May 8, 2022;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all signage shall comply with C1 district regulations;

THAT all massages shall be performed by New York State licensed massage therapists;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT fire safety measures shall be installed and/or maintained as shown on the Board-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 8, 2012.

## \*CORRECTION

This resolution adopted on May 1, 2012, under Calendar No. 256-02-BZ and printed in Volume 97, Bulletin No. 19, is hereby corrected to read as follows:

### 256-02-BZ

APPLICANT – Goldman Harris LLC, for 160 Imlay Street Real Estate, owner.

SUBJECT – Application February 10, 2012 – Extension of Time to Complete Construction of a previously granted Variance (§72-21) for the re-use of a vacant six story manufacturing building, and the addition of three floors, for residential (UG2) use, which expired on March 18, 2012. M2-1 zoning district.

PREMISES AFFECTED – 160 Imlay Street, bounded by Imlay, Verona and Commerce Streets and Atlantic Basin, Block 515, Lot 75, Borough of Brooklyn.

### COMMUNITY BOARD #6BK

#### APPEARANCES –

For Applicant: Eugene Travers.

**ACTION OF THE BOARD** – Application granted on condition.

#### THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Otley-Brown, Commissioner Hinkson and Commissioner Montanez .....5  
Negative:.....0

#### THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of time to complete construction of a previously granted variance to permit the conversion of an existing six-story industrial building to residential use; and

WHEREAS, a public hearing was held on this application on April 3, 2012, after due notice by publication in *The City Record*, and then to decision on May 1, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Montanez; and

WHEREAS, the subject site is located on the west side of Imlay Street between Commerce Street and Verona Street, within an M2-1 zoning district; and

WHEREAS, the Board has exercised jurisdiction over the site since December 23, 2003 when, under the subject calendar number, the Board granted a variance to permit the conversion of an existing vacant six-story industrial building to residential use, contrary to § 42-00; and

WHEREAS, the Board notes that, pursuant to ZR § 72-23, a variance automatically lapses if substantial construction in accordance with the approved plans is not completed within four years from the date of the variance; however, if judicial proceedings have been instituted to review the Board's decision, the four-year lapse period commences upon the date of entry of the final order in such proceedings, including appeals; and

WHEREAS, the applicant notes that judicial proceedings were instituted to review the Board's decision in the subject

case (In the Matter of Red Hook/Gowanus Chamber of Commerce v. New York City Board of Standards and Appeals, et. al., Index No. 2308/04); and

WHEREAS, the applicant submitted a Decision and Order from the Appellate Division dated March 18, 2008, which denied the amended petition and dismissed the proceeding for failure to join a necessary party; and

WHEREAS, the applicant states that the March 18, 2008 Decision and Order has not been appealed and constitutes a final order in the proceeding for the purposes of ZR §72-23; and

WHEREAS, accordingly, the four-year lapse period for the variance commenced on March 18, 2008, and substantial construction was to be completed by March 18, 2012; and

WHEREAS, the applicant states that due to financing delays and additional delays related to the subject litigation, additional time is necessary to complete the project; thus, the applicant now requests an extension of time to complete construction; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to complete construction is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated December 23, 2003, so that as amended this portion of the resolution shall read: “to grant an extension of the time to complete construction for a term of four years, to expire on May 1, 2016; *on condition:*

THAT substantial construction shall be completed by May 1, 2016;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (DOB Application No. 301396790)

Adopted by the Board of Standards and Appeals, May 1, 2012.

**\*The resolution has been revised to correct the APPEARANCES – For Applicant which read: “Eugene Travers” now reads: “Eugene Travers”. Corrected in Bulletin No. 20, Vol. 97, dated May 16, 2012.**

## \*CORRECTION

This resolution adopted on April 24, 2012, under Calendar No. 206-10-A thru 210-10-A and printed in Volume 97, Bulletin Nos. 16-18, is hereby corrected to read as follows:

### 206-10-A thru 210-10-A

APPLICANT – Philip L. Rampulla, for Island Realty Associate, LLC, owner.

SUBJECT – Application November 1, 2010 – Proposed construction of a single family home located within the bed of a mapped street, contrary to General City Law Section 35 and §72-01-(g). R1-2 zoning district.

PREMISES AFFECTED – 3399, 3403, Richmond Road and 14, 15, 17 Tupelo Court, Block 2260, Lot 24, 26, 64, 66, 68, Borough of Staten Island.

### COMMUNITY BOARD #2SI

APPEARANCES –

For Applicant: Philip L. Rampulla.

**ACTION OF THE BOARD** – Applications granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5  
Negative:.....0

**THE RESOLUTION** –

WHEREAS, the decisions of the Staten Island Borough Commissioner, dated February 13, 2012, acting on Department of Buildings Application Nos. 520048948, 520048957, 520048984, 520048975, and 520048966 read in pertinent part:

Proposed construction of a one family residence building within bed of a mapped street is contrary to General City Law 35 and not permitted; and

WHEREAS, this is an application to permit the proposed construction of five single-family homes located within the bed of a mapped street, contrary to Section 35 of the General City Law; and

WHEREAS, a public hearing was held on this application on January 24, 2012, after due notice by publication in the *City Record*, with continued hearings on February 28, 2012 and March 27, 2012, and then to decision on April 24, 2012; and

WHEREAS, Community Board 2, Staten Island, recommends disapproval of this application; and

WHEREAS, New York State Assembly Member Michael J. Cusick provided written testimony in opposition to this application; and

WHEREAS, New York State Assembly Member Louis R. Tobacco provided written testimony in opposition to this application; and

WHEREAS, New York State Senator Andrew J. Lanza provided written testimony requesting that the Board review the environmental and transportation issues associated with this application; and

WHEREAS, United States Congress Member Michael G. Grimm provided written testimony in opposition to this application; and

WHEREAS, New Yorkers for Parks provided written testimony in opposition to this application; and

WHEREAS, representatives of the Richmondtown and Clarke Avenue Civic Association and the Grasmere Civic Association provided oral and written testimony in opposition to this application (collectively, the “Opposition”); and

WHEREAS, the Opposition raised the following primary concerns: (1) the proposal is in a freshwater wetlands area; (2) an environmental assessment should be performed on the site; (3) the proposal could cause increased flooding in the area; (4) the applicant has not satisfied the findings pursuant to ZR § 72-21; (5) the proposal creates potential zoning non-compliances; (6) the proposal must be reviewed by the Department of City Planning (“DCP”); and (7) there is insufficient parking for the project on the surrounding streets; and

WHEREAS, the subject site consists of 296,208 sq. ft. of lot area bounded by St. Andrews Road to the north and Richmond Road to the south, in an R1-2 zoning district within the Special Natural Area Zoning District; and

WHEREAS, the applicant notes that 59,520 sq. ft. of lot area is Freshwater Wetland, 157,135 sq. ft. of lot area is Freshwater Wetland Adjacent Area, and the remaining 79,533 sq. ft. of lot area is unregulated; and

WHEREAS, the applicant proposes to construct 13 single family homes on the site, with four of the homes fronting on Richmond Road and nine of the homes accessed by Tupelo Court, a newly created private street; and

WHEREAS, the applicant states that three of the homes are proposed to be constructed in the bed of a mapped street known as Mace Street, and two of the homes are proposed to be constructed in the bed of a mapped street known as Ascot Avenue; accordingly, the applicant seeks a waiver of Section 35 of the General City law for the construction of five homes in the bed of a mapped street; and

WHEREAS, the other eight homes in the proposed development do not require a waiver of Section 35 of the General City Law, and therefore are not included in the subject application; and

WHEREAS, by letter dated January 12, 2011, the Department of Transportation (“DOT”) states that it has reviewed the project and has no objections; and

WHEREAS, DOT states that the applicant’s property is not included in the agency’s ten-year capital plan; and

WHEREAS, by letter dated September 26, 2011, the Department of Environmental Protection (“DEP”) states that the Amended Drainage Plan No. D-3 (R-2)/D-4 (R-1), dated March 17, 2005, does not show any future sewers in the portions of mapped Mace Street and mapped Ascot Avenue at issue, but does show stabilized outlets at the intersection of Mace Street and mapped Call Street which will discharge storm flow into the referenced property; and

WHEREAS, DEP further states that, based on the June 28, 2011 map submitted by the applicant, which shows the DEP easement area which will be available to accept the storm flow discharge from the above-mentioned stabilized outlets, and based on the easement document submitted by the applicant for the portion of the property not to be developed on lot 36, it has no

---

# MINUTES

---

objections to the proposed application; and

WHEREAS, by letter dated December 7, 2010, the Fire Department states that it objects to the construction of any buildings within the bed of a mapped street (including the construction of the proposed homes in the bed of Ascot Avenue and Mace Street) because such streets should be opened in order to improve emergency response in the area; and

WHEREAS, in response, the applicant states that it made a good faith attempt to utilize and open the existing mapped but unbuilt streets on the site, however, the New York State Department of Environmental Conservation (“DEC”) would not allow the existing streets on the site to be opened because they are within Freshwater Wetland and Freshwater Wetland Adjacent Area; and

WHEREAS, the applicant submitted a letter from DEC dated March 20, 2012 which states that it issued a freshwater wetlands permit for the construction of 13 single family homes on the site, which keeps portions of the beds of St. Andrews Road, Mace Street, and Ascot Avenue unbuilt in perpetuity to preserve and protect freshwater wetlands and their benefits, and the street beds will not be opened and developed on the property controlled by the terms of the cited DEC permit; and

WHEREAS, by letter dated March 6, 2012, the Fire Department states that it reviewed the proposed site plan and all conditions relative to building access roads are in compliance with the 2008 Fire Code; and

WHEREAS, accordingly, the Board acknowledges the stated policy of the Fire Department that all mapped streets be opened, but finds that the applicant has submitted sufficient evidence to warrant approval of the proposed construction based on the inability to open the mapped but unbuilt streets on the site due to the requirements of the DEC freshwater wetlands permit, in conjunction with the Fire Department’s acknowledgment that the proposed Tupelo Court will fully comply with the 2008 Fire Code; and

WHEREAS, in response to the concerns raised by the Opposition regarding the construction within the Freshwater Wetlands, flooding, and the need to undergo an environmental assessment of the site, the applicant notes that more than half of the site is being preserved in its natural state, the proposed construction will only take place within the Freshwater Wetlands Adjacent Area and not within the Freshwater Wetlands, and that DEC issued a freshwater wetlands permit for the proposed construction, which incorporated an environmental review that followed SEQR regulations; and

WHEREAS, in response to the Opposition’s claim that the proposal does not satisfy the findings of ZR § 72-21 and that it creates potential zoning non-compliances, the Board notes that the findings under ZR § 72-21 are not applicable to an application under Section 35 of the General City Law, and that all issues related to zoning on the site are subject to review and approval by the Department of Buildings; and

WHEREAS, as to the Opposition’s contention that the proposal must be reviewed by DCP, the applicant submitted a letter from DCP stating that the proposed project will require Special Natural Area District authorizations and review by the City Planning Commission, but that the project requires a

Board determination before an application can be filed with DCP; and

WHEREAS, in response to the Opposition’s concerns regarding a lack of parking, the applicant notes that off-street parking spaces will be provided for the proposed homes, the proposed Tupelo Court will be built out to a width of 38 feet such that parking can be provided on that street, and Richmond Road will be widened so that additional parking can be provided on that street; and

WHEREAS, while the Board recognizes the concerns expressed by the Opposition, such considerations are not part of an application to permit construction within the bed of a mapped street under Section 35 of the General City Law, and therefore are not subject to the Board’s review; and

WHEREAS, the Board notes that the construction must comply with all requirements of the Zoning Resolution; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

*Therefore it is Resolved* that the decisions of the Staten Island Borough Commissioner, dated May 10, 2010, acting on Department of Buildings Application Nos. 520048948, 520048957, 520048984, 520048975, and 520048966, is modified by the power vested in the Board by Section 35 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked “Received March 20, 2012” – (2) sheets; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT all necessary DEC and DEP approvals must be obtained prior to the issuance of DOB permits;

THAT the necessary DCP review and authorization must be obtained prior to the issuance of DOB permits;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT DOB shall review the proposed plans to ensure compliance with all relevant provisions of the Zoning Resolution;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 24, 2012.

**\*The resolution has been revised to correct the Plans Dates which read: ... “ Received March 20, 2012” – (3) sheets”... now reads: ... “ Received March 20, 2012” – (2) sheets”. Corrected in Bulletin No. 19, Vol. 97, dated May 9, 2012.**

**JUNE 12, 2012, 10:00 A.M.**

**NOTICE IS HEREBY GIVEN** of a public hearing, Tuesday morning, June 12, 2012, 10:00 A.M., at 40 Rector Street, 6<sup>th</sup> Floor, New York, N.Y. 10006, on the following matters:

-----  
**SPECIAL ORDER CALENDAR**

**313-77-BZ**

APPLICANT – Goldman Harris LLC, for Gilsey House, owner.

SUBJECT – Application April 13, 2012 – Amendment to a previously granted Variance (§72-21) for the conversion of a manufacturing building to residential occupancy with a duplex penthouse structure which was never built. The proposal is to construct a substantially smaller, one-story penthouse with a roof top deck enlargement that is entirely within the approved envelope. M1-6 zoning district.

PREMISES AFFECTED – 1200 Broadway, southeast corner of West 29<sup>th</sup> Street and Broadway, Block 831, Lot 20, Borough of Manhattan.

**COMMUNITY BOARD #5M**  
-----

**292-55-BZ**

APPLICANT – Alfonso Duarte, for Narkeet Property Inc., owner.

SUBJECT – Application April 2, 2012 – Application to extend term of variance and to waive the Rules of Practice and Procedure. R3-2 zoning district.

PREMISES AFFECTED – 239-15 Jamaica Avenue, northwest corner of 240<sup>th</sup> Street, Block 8001, Lot 1, Borough of Queens.

**COMMUNITY BOARD #13Q**  
-----

**163-04-BZ**

APPLICANT – Rothkrug Rothkrug & Spector LLP, for Mylaw Realty Corporation, owner; Crunch Fitness, lessee.

SUBJECT – Application April 30, 2012 – Extension of Time to obtain a Certificate of Occupancy of a previously approved Special Permit (73-63) for the operation of a Physical Culture Establishment (*Crunch Fitness*) which expired on April 24, 2011; Waiver of the Rules. R7A (C2-4) zoning district.

## SPECIAL ORDER CALENDAR

### 808-55-BZ

APPLICANT – Sheldon Lobel, P.C., for 35 Bell Realty Inc., owner; Cumberland Farms, Inc., lessee.

SUBJECT – Application February 14, 2012 – Extension of Term (§11-411) for the continued operation of a gasoline service station (*Gulf*) with accessory convenience store which expired on March 27, 2012; Waiver of the Rules. C2-2/R4 zoning district.

PREMISES AFFECTED – 35-04 Bell Boulevard, southwest corner of the intersection formed by Bell Boulevard and 35<sup>th</sup> Avenue, Block 6169, Lot 6, Borough of Queens.

### COMMUNITY BOARD #11Q

APPEARANCES –

For Applicant: Lisa Lee.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown and Commissioner Hinkson.....4

Absent: Commissioner Montanez.....1

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a re-opening, and an extension of term of a previously granted variance to permit the operation of a gasoline service station with accessory uses, which expired on March 27, 2011; and

WHEREAS, a public hearing was held on this application on April 3, 2012, after due notice by publication in *The City Record*, with a continued hearing on May 1, 2012, and then to decision on May 15, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 11, Queens, recommends approval of this application, but requests that measures be taken to improve the on-site traffic circulation; and

WHEREAS, the subject site is located on the southwest corner of Bell Boulevard and 35<sup>th</sup> Avenue, within a C2-2 (R4) zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since April 3, 1956 when, under the subject calendar number, the Board granted a variance to permit the construction of a gasoline service station with accessory uses, for a term of 15 years; and

WHEREAS, subsequently, the grant has been amended and the term extended by the Board at various times; and

WHEREAS, most recently, on March 27, 2001, the Board granted a ten-year extension of term, which expired on March 27, 2011; and

WHEREAS, the applicant now requests an additional ten-year extension of term; and

WHEREAS, pursuant to ZR § 11-411, the Board may permit an extension of term; and

WHEREAS, at hearing, the Board raised concerns about the metal shed located at the rear of the site; and

WHEREAS, in response, the applicant states that the shed has been located behind the service station building for approximately 14 years, and that it is used for the storage of miscellaneous items related to the upkeep of the site; and

WHEREAS, the applicant submitted a photograph reflecting that the shed is the same height as the masonry wall on the site and therefore cannot be seen by the adjacent property owner; and

WHEREAS, the applicant also submitted revised plans in response to the Community Board’s concerns about on-site traffic circulation, which reflect (1) the installation of “No Parking” signs along the southeast lot line, and (2) the re-stripping of the parking area to increase the number of parking spaces from two to three; and

WHEREAS, based upon the above, the Board finds the requested extension of term is appropriate, with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated April 3, 1956, so that as amended this portion of the resolution shall read: “to extend the term for ten years from March 27, 2011, to expire on March 27, 2021; *on condition* that all use and operations shall substantially conform to plans filed with this application marked ‘Received April 17, 2012’- (5) sheets; and *on further condition*:

THAT the term of the grant will expire on March 27, 2021;

THAT the site will be maintained free of debris and graffiti;

THAT the above conditions will be reflected on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals May 15, 2012.

## 188-78-BZ

APPLICANT – Eric Palatnik, P.C., for Anthony Berardi, owner.

SUBJECT – Application August 4, 2011 – Amendment (§11-413) to a previously granted Variance (§72-21) to add (UG16) automobile body with spray painting booth and automobile sales to an existing (UG16) automobile repair and auto laundry. R5 zoning district.

PREMISES AFFECTED – 8102 New Utrecht Avenue, southwest corner of New Utrecht Avenue and 81<sup>st</sup> Street, Block 6313, Lot 31, Borough of Brooklyn.

### COMMUNITY BOARD #11BK

APPEARANCES –

For Applicant: Eric Palatnik.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins,

Commissioner Ottley-Brown and Commissioner Hinkson.....4

Absent: Commissioner Montanez.....1

Negative:.....0

**THE RESOLUTION** –

WHEREAS, this is an application for a reopening and an amendment to a previously granted variance for an automobile repair shop and auto laundry (Use Group 16), pursuant to ZR § 11-413; and

WHEREAS, a public hearing was held on this application on January 24, 2012 after due notice by publication in *The City Record*, with continued hearings on February 28, 2012 and April 24, 2012, and then to decision on May 15, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 11, Queens, recommends approval of this application with the conditions that (1) there be no double parked vehicles, and (2) all bodywork be conducted inside of the building; and

WHEREAS, the applicant submitted letters from New York City Council Member Vincent J. Gentile and New York State Assembly Member Peter J. Abate, Jr. in support of this application; and

WHEREAS, the site is located on the southwest corner of New Utrecht Avenue and 81<sup>st</sup> Street, within an R5 zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since 1929 when, under BSA Cal. No. 280-29-BZ, the Board granted a variance to permit the construction of a gasoline station repair shop and automobile laundry at the site; and

WHEREAS, on July 18, 1978, under the subject calendar number, the Board permitted the construction of a one-story enlargement to the accessory structure on the site and the change of use to an automobile repair shop, pursuant to ZR §§ 11-412 and 11-413; and

WHEREAS, most recently, on February 27, 1979, the Board granted an amendment to permit a change in the

dimensions of the previously-approved one-story enlargement; and

WHEREAS, the applicant now seeks an amendment to permit the site to be used for car sales and auto body work (Use Group 16), in addition to its existing use as an automobile repair shop (Use Group 16); and

WHEREAS, specifically, the applicant states that the addition of auto body work will allow the owner to repair dents, scratches, and other external damages, as well as add a spray paint booth for the spray painting of cars; and

WHEREAS, the applicant notes that it withdrew a prior application for the subject amendment submitted on April 1, 2010, in order to comply with the conditions of the Board's previous resolution and in response to the Board's request that the owner cleanup the site; and

WHEREAS, the applicant states that following the withdrawal of the prior application, the owner has undertaken the following measures to clean and upgrade the site: (1) the interior and exterior of the entire facility has been repainted; (2) the chain-link fence has been removed; (3) all garbage and debris has been cleared; (4) the graffiti has been removed; (5) curb bumpers have been provided on the lot; and (6) flower pots have been placed around the site; and

WHEREAS, the applicant initially proposed to maintain the existing automobile laundry use and to use all five parking spaces on the site for used car sales; and

WHEREAS, in response to concerns raised by the Board regarding the lack of space on the site for both a spray paint booth and used car sales in addition to the existing automobile repair shop and automobile laundry use, the applicant revised its proposal to remove the automobile laundry use at the site and to reduce the number of parking spaces for used car sales to two, with the other three spaces reserved for cars awaiting repair; and

WHEREAS, the applicant also submitted revised plans reflecting the elimination of the curb cut on 81<sup>st</sup> Street and the replacement of the curb, and submitted a circulation plan reflecting the anticipated circulation pattern at the site; and

WHEREAS, at hearing, the Board raised concerns about the proposed location of the spray paint booth in the southeast corner of the building, adjacent to residential uses; and

WHEREAS, in response, the applicant submitted revised plans reflecting the relocation of the spray paint booth to the southwest corner of the site and the corresponding relocation of the proposed exhaust for the spray paint booth, which will be oriented to vent away from the adjacent residential uses; and

WHEREAS, the applicant notes that the spray paint booth will only use water-based paints, and submitted the specifications for the proposed spray paint booth, which will comply with all Federal Occupational Safety and Health Administration and National Fire Protection Association regulations and be installed to comply with all Fire and Building Code requirements; and

WHEREAS, the applicant states that the hours of operation will be reduced to Monday through Friday, from

# MINUTES

8:00 a.m. to 5:00 p.m., Saturday, from 8:00 a.m. to 1:00 p.m., and closed on Sunday; the previously-approved hours of operation were Monday through Saturday, from 8:00 a.m. to 6:00 p.m.; and

WHEREAS, in response to the concerns raised by the Community Board, the applicant states that all auto body work will be conducted inside the enclosed building; and

WHEREAS, pursuant to ZR § 11-413, the Board may grant a change in use; and

WHEREAS, based upon its review of the record, the Board finds the requested amendment to the approved plans is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated July 18, 1978, so that as amended this portion of the resolution shall read: “to permit the conversion of the existing automobile repair shop and automobile laundry to an automobile repair shop with automobile body work and used car sales pursuant to ZR § 11-413; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked ‘Received May 2, 2012’ –(6) sheets; and *on further condition*:

THAT the term of this grant will expire on May 15, 2017;

THAT there will be no double-parked vehicles at the site;

THAT all body work will take place inside the enclosed building;

THAT a maximum of two parking spaces be utilized for the sale of used cars;

THAT the site be maintained free of debris and graffiti;

THAT the hours of operation will be Monday through Friday, from 8:00 a.m. to 5:00 p.m., Saturday, from 8:00 a.m. to 1:00 p.m., and closed on Sunday;

THAT all signage will comply with C1 district regulations;

THAT the above conditions will appear on the certificate of occupancy;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (DOB Application No. 310092020)

Adopted by the Board of Standards and Appeals May 15, 2012.

SUBJECT – Application February 2, 2012 – Appeal challenging a determination by the Department of Buildings not to revoke the permit associated with the reconstruction of a building, which includes construction in the required rear yard and does not comply with the requirements of ZR §54-41. R8B (LH-1A) Zoning District.

PREMISES AFFECTED – 110 East 70<sup>th</sup> Street, south side of East 70<sup>th</sup> Street, between Park Avenue and Lexington Avenue, block 1404, Lot 67, Borough of Manhattan.

## COMMUNITY BOARD #8M

APPEARANCES –

For Applicant: Stefanie Marazzi

**ACTION OF THE BOARD** – Appeal Denied.

THE VOTE TO GRANT –

Affirmative: .....0

Negative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown and Commissioner Hinkson.....4

Absent: Commissioner Montanez.....1

THE RESOLUTION –

WHEREAS, the subject appeal comes before the Board in response to the determination of the Manhattan Borough Commissioner of the Department of Buildings (“DOB”), dated January 6, 2012 (the “Final Determination”), to uphold its Intent to Revoke Approval and Permit Letter associated with Permit No. 110169406 (the “Permit”), for the construction of a building at the subject site (the “Building”); and

WHEREAS, the Final Determination reads, in pertinent part:

The Department has reviewed the information you provided and, as further described below, has determined that you have not sufficiently demonstrated that Objection 1, 2, and 4 should be removed.

The Department has determined that Objection Nos. 1, 2, and 4 should not be removed because the plans filed with the Job Application are not in compliance with Section 54-41 of the Zoning Resolution (the “ZR”). Certificate of Occupancy No. 110596 states that the building contained a Use Group 2 one-family residence and a Use Group 4 community facility medical office. The building was non-complying because the medical office and a portion of the residence were located in the required rear yard of the Premises and exceeded lot coverage limitation. The building

1 (Footnote from the original) In your December 19, 2011 letter you also indicate that Objection No. 3 has been resolved with a filing of a Post Approval Amendment (“PAA”). As of the date of this letter, this Objection has not been resolved because the Department has not reviewed the PAA and an appointment has not yet been made with the Department to address the Objection.

---

# MINUTES

---

contained a one family “residence” and therefore, only the residential portion of the building may be reconstructed per Section 54-41 of the ZR, given that more than 75% of the building was demolished.

Per Section 54-41 of the ZR, a one family “residence” may be reconstructed provided that the reconstruction does not create a new non-compliance or increase the pre-existing degree of non-compliance with the applicable bulk regulations. Per Section 12-10 of the ZR, a “residence” is one or more dwelling units including common spaces. Therefore, the portion of the building containing the Use Group 2 “residence” may be reconstructed but the portion of the building containing the Use Group 4 medical office cannot be reconstructed pursuant to Section 54-41 of the ZR. However, such space may be constructed to the extent permitted by the underlying district regulations and used for any use permitted in the zoning district.

Although the objections cannot be removed, in compliance with a Temporary Restraining Order entered on December 22, 2011 by the Honorable Eileen A. Rakower in *FB Capital, Inc. V. NYC Department of Buildings and Robert L. LiMandri*, Index No. 1114312/11, the Department is not, at this time, revoking the Permit; and

WHEREAS a public hearing was held on this application on April 3, 2012, after due notice by publication in *The City Record*, and then to decision on May 15, 2012; and

WHEREAS, the appeal was filed on behalf of the owners of 112 East 70<sup>th</sup> Street (the “Appellant”) who are neighbors to the subject site; and

WHEREAS, a separate appeal application was filed by the owners of the subject building (the “Owners”) and was heard concurrently and decided on the same day, pursuant to BSA Cal. No. 27-12-A; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commission Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the south side of East 70<sup>th</sup> Street, between Park Avenue and Lexington Avenue, within an R8B zoning district within Limited Height District 1A; and

WHEREAS, the subject site has a width of 19’-10”, a depth of 100’-5”, and a total lot area of approximately 1,991.6 sq. ft.; and

WHEREAS, the site is occupied by a five-story (including penthouse) building with a basement, a cellar, and a sub-cellar; and

WHEREAS, the Building has the following parameters: a total floor area of 7,536 sq. ft. (3.78 FAR), with 6,406 sq. ft. of residential floor area and 1,130 sq. ft. of community facility (doctor’s office) floor area, a lot coverage of 84 percent, and a total height of 60’-0”; and

WHEREAS, a three-story portion of the Building

(portions of the basement, first floor, and second floor) encroaches into the required 30’-0” rear yard to varying degrees; an L-shaped portion of the basement designated for doctor’s office use encroaches a total of approximately 395.6 sq. ft. into the rear yard, including a 110 sq. ft. one-story portion at the northeast corner of the basement; an approximately 9’-2” by 30’-0” portion of the first floor encroaches into the rear yard; and an approximately 9’-2” by 21’-7” portion of the second floor encroaches into the rear yard; and

WHEREAS, the Building was issued a Certificate of Occupancy No. 110596 on December 3, 1996, which states:

Cellar – Boiler Room, Storage  
Basement – Comm. – Doctor’s Office, Res. –  
Entry Hall to Dwelling Above  
1<sup>st</sup> Floor – Res. – ¼ Dwelling Unit  
2<sup>nd</sup> Floor – Res. – ¼ Dwelling Unit  
3<sup>rd</sup> Floor – Res. – ¼ Dwelling Unit  
4<sup>th</sup> Floor – Res. – ¼ Dwelling Unit  
One (1) Family Dwelling; and

WHEREAS, at the time of the issuance of the Certificate of Occupancy, the doctor’s office and a portion of the residential use were located within the 30-ft. rear yard; at that time, a doctor’s office was a permitted encroachment into the required rear yard, but zoning text changes have rendered the encroachment non-complying; and

WHEREAS, DOB appeared and made submissions in opposition to this appeal; and

WHEREAS, the Owners of the subject building provided testimony in opposition to this appeal; and

## PROCEDURAL HISTORY

WHEREAS, in May 2008, the Owners filed an Alteration Type 1 application (No. 110169406) to renovate the Building and to change the doctor’s office use on the basement floor to residential use; and

WHEREAS, on April 20, 2009, DOB approved the Alteration Type 1 application and on May 8, 2009 issued the Permit; and

WHEREAS, subsequently, the Owners filed and DOB approved post approval amendments and other construction requirements; and

WHEREAS, during the following months and years, DOB received several complaints from the Appellant stating that the project did not comply with zoning regulations, which led DOB to audit the plans and at various times revoke the permits, issue stop work orders, and rescind same; and

WHEREAS, on December 6, 2011, DOB issued a notice of intent to revoke with a final version of audit objections, which state that (1) only the residential portion of the building may be reconstructed given that 75 percent of the building was demolished (ZR § 54-41), (2) construction of a community facility in the rear yard is not a permitted obstruction, (3) demonstrate that a change of use from doctor’s office to residential use complies with ZR regulations for change of use and bulk (ZR § 24-33), and (4) the proposed lot coverage exceeds 70 percent, contrary to

# MINUTES

ZR § 24-11; and

WHEREAS, the Owners demolished the majority of the Building and reconstructed it with the same non-complying conditions that existed prior to the demolition, which include the one- and three-story encroachments into the required 30-ft. rear yard and lot coverage in excess of what is permitted by zoning district regulations; and

WHEREAS, the Owners seek to maintain the entire Building with all non-complying conditions, which it asserts are legally non-complying and were reconstructed pursuant to the provisions set forth at ZR § 54-41; and

WHEREAS, the Owners state that it would have preferred residential use on the basement level but that DOB only identified the issue of the increase in the degree of non-compliance of the Building's court after the extension was demolished, and required the return to a doctor's office use so that the Appellant could retain the envelope of the building already approved and permitted; and

WHEREAS, after DOB issued audit objections which form the basis of the Final Determination, the Owners brought a proceeding in New York State Supreme Court entitled Matter of FB Capital v. New York City Department of Buildings, Index No. 114312/11 to prevent DOB from revoking the building permits for the portion of the application related to the residence and requiring it to continue inspections and issue a Temporary Certificate of Occupancy; and

WHEREAS, the court issued a temporary restraining order preventing DOB from revoking the permits pending decision on the merits of the petition; and

WHEREAS, the Owners assert that the Building has been constructed as follows: the 395.6 sq. ft. of basement level encroaching in the rear yard includes approximately 285.6 sq. ft. beneath the residential portion of the Building constructed in 1922 and 110 sq. ft. in a separate one-story portion constructed in 1996 (when zoning allowed for doctor's office use to encroach into the rear yard and such encroachment would have been complying); and

## RELEVANT ZONING RESOLUTION PROVISIONS

### ZR Section 12-10

*Residence, or residential* (italicized text adopted on 9/9/04, subsequently amended as reflected in the non-italicized text below)

A "residence" is a #building# or part of a #building# containing #dwelling units# or #rooming units#, including one-family or two-family houses, multiple dwellings, boarding or rooming houses, or #apartment hotels#. However, #residences# do not include:

- (a) such transient accommodations as #transient hotels#, #motels# or #tourist cabins#, or #trailer camps#;
- (b) #non-profit hospital staff dwellings#; or
- (c) student dormitories, fraternity or sorority student houses, monasteries or convents, sanitariums, nursing homes, or other living or sleeping accommodations in #community facility buildings# or portions of #buildings#

*used for #community facility uses#.*

- (d) in a #mixed building#, that part of the #building# used for any non-#residential uses#, except #accessory# to #residential uses#.

"Residential" means pertaining to a #residence#.

\* \* \*

Residence, or residential (2/2/11)

A "residence" is one or more #dwelling units# or #rooming units#, including common spaces such as hallways, lobbies, stairways, laundry facilities, recreation areas or storage areas. A #residence# may, for example, consist of one-family or two-family houses, multiple dwellings, boarding or rooming houses, or #apartment hotels#. However, #residences# do not include:

- (a) such transient accommodations as #transient hotels#, #motels# or #tourist cabins#, or #trailer camps#;
- (b) #non-profit hospital staff dwellings#; or
- (c) student dormitories, fraternity or sorority student houses, monasteries or convents, sanitariums, nursing homes, or other living or sleeping accommodations in #community facility buildings# or portions of #buildings# used for #community facility uses#.

"Residential" means pertaining to a #residence#.

\* \* \*

Single-family residence (2/2/11)

A "single-family residence" is a #building# containing only one #dwelling unit#, and occupied by only one #family#.

\* \* \*

ZR Section 54-41

Permitted Reconstruction

If a #non-complying building or other structure# is damaged or destroyed by any means, including any demolition as set forth in this Section, to the extent of 75 percent or more of its total #floor area#, such #building# may be reconstructed only in accordance with the applicable district #bulk# regulations, except in the case of a one- or #two-family residence#, such #residence# may be reconstructed provided that such reconstruction shall not create a new #non-compliance# nor increase the pre-existing degree of #non-compliance# with the applicable #bulk# regulations. If the extent of such damage or destruction is less than 75 percent, a #non-complying building# may be reconstructed provided that such reconstruction shall not create a new #non-compliance# nor increase the pre-existing degree of #non-compliance# with the applicable #bulk# regulations; and

## THE ISSUES ON APPEAL

WHEREAS, the Appellant seeks a determination that the encroachment of the Building located in the required

---

# MINUTES

---

rear yard must be removed and may not be reconstructed pursuant to ZR § 54-41 and that DOB has failed to properly enforce the provisions of ZR § 54-41 by allowing such reconstruction; and

WHEREAS, the Appellant requests that the Board revoke the Permit and determine that the portions of the Building located in the rear yard must be removed and may not be reconstructed pursuant to ZR § 54-41; and

WHEREAS, the Appellant states that it disagrees with the portion of the Final Determination stating that the “residential portion of the building may be reconstructed” in the required rear yard, for the following reasons: (1) the Building is a mixed-use residential and community facility building which may not benefit from the reconstruction exception of ZR § 54-41 which allows for reconstruction after 75 percent of the floor area has been demolished, (2) the Building is not a single-family home and, thus, its non-complying conditions cannot be reconstructed nor can conditions that increase the degree of non-compliance, and (3) the Building was illegally enlarged in the 1960s or 1970s and therefore is not a lawful “non-complying building” as defined in ZR § 12-10 and therefore may not take advantage of the reconstruction provisions of ZR § 54-41; and

## I. THE CLASSIFICATION OF THE BUILDING

WHEREAS, the Appellant asserts that the Building is a mixed-use residence and community facility building which may not benefit from the reconstruction exception of ZR § 54-41 which allows for a “one- or two-family residence” to be reconstructed provided it does not create a new non-compliance or increase the degree of non-compliance with bulk regulations; and

WHEREAS, the Appellant asserts that because it does not fit within the exemption for one- or two-family residences, it can only be constructed pursuant to current zoning district regulations; and

WHEREAS, the Appellant asserts that once 75 percent of a non-complying mixed-use residential building (and not a single-family home) is demolished, it is not covered by ZR § 54-41; and

WHEREAS, the Appellant asserts that because the Building contains a doctor’s office in the basement, per the 1996 Certificate of Occupancy, and a dwelling unit on the first through fourth floors it may not be classified as a “single-family residence” as defined at ZR § 12-10; and

WHEREAS, the Appellant asserts that a “single-family residence” contains only one dwelling unit and is occupied by only one family; and

WHEREAS, the Appellant asserts that any other interpretation of a “single-family residence” would result in an absurd outcome such as a mixed commercial and residential building with only one dwelling unit being characterized as a “single-family residence;” and

WHEREAS, DOB contends that the Appellant incorrectly interprets the ZR § 12-10 definition of “single-family residence” (“a building containing only one dwelling unit, and occupied by only one family”) for the proposition that ZR § 54-41 should not apply to the reconstruction of the Building; and

WHEREAS, DOB asserts that, contrary to the Appellant’s claim, the Building does meet the definition of a “single-family residence,” as a “single-family residence” is a building that contains one dwelling unit and may contain other non-residential uses; and

WHEREAS, DOB adds that the 1996 Certificate of Occupancy reflects that the building contained a “Res.” single-family residence and a “Comm.” doctor’s office, and although the 1996 Certificate of Occupancy did not indicate the use groups associated with the particular uses, DOB interprets the permissible uses in the Building to be a Use Group 2 residential single-family residence and a Use Group 4 community facility medical office; and

WHEREAS, however, DOB disagrees with the Appellant that the inclusion of the community facility use prohibits the classification of the Building as a single-family residence; and

WHEREAS, DOB disagrees with the Owner that the entire Building is a residence which may be reconstructed after more than 75 percent of its floor area has been demolished, pursuant to ZR § 54-41; and

WHEREAS, DOB notes that ZR § 54-41 uses the term “one-family residence”<sup>1</sup> rather than “single-family residence,” and because the definition of “residence” specifically uses the term “dwelling units” and specifically excludes the word “building,” only that portion of the Building containing the one-family residence (i.e., the dwelling unit), including the non-complying residence located in the rear yard, may be reconstructed pursuant to ZR § 54-41; and

WHEREAS, the Owner cites to and agrees with DOB’s statement that “a ‘single-family residence’ is a building that contains one ‘dwelling unit’ and may contain other non-residential uses;” however, the Owner disagrees with DOB’s assertion that there is a distinction between “single-family residence” and “one-family residence,” the term used in ZR § 54-41; and

WHEREAS, the Owner states that if the Building is a “single-family residence” as DOB agrees, then it is also a “one-family residence,” because, contrary to DOB’s position, the two terms have the same meaning; and

WHEREAS, the Owner states that the use of the two terms within the ZR and the meaning attributed to them does not support the conclusion that there is any distinction between them; and

WHEREAS, accordingly, the Owner asserts that if DOB has admitted that a single-family residence may contain uses other than a dwelling unit and there is no basis to distinguish between a “single-family residence” and a “one-family residence,” DOB must conclude that the Owner’s construction of ZR § 54-41 is correct and the entire Building may be reconstructed; and

## II. THE PORTION OF THE BUILDING TO BE RECONSTRUCTED

WHEREAS, regardless of the classification of the

---

<sup>1</sup> “One-family residence” is not a defined term under ZR § 12-10.

---

# MINUTES

---

Building, the Appellant challenges DOB's assertion that any part of the basement encroachment in the rear yard may be reconstructed for residential use because it finds that such construction increases the degree of non-compliance; and

WHEREAS, the Appellant questions DOB's statement on the record that the portion of the Building occupied by residential use may be reconstructed but that the portion of the Building occupied by community facility use can only be constructed to the extent permitted by the underlying district regulations; and

WHEREAS, the Appellant notes that the underlying district regulations do not allow residential buildings as permitted obstructions in the rear yard and that once the community facility portion of the Building is removed, the Building is residential and governed by residential bulk regulations which prohibit virtually any enclosed use in the rear yard; and

WHEREAS, the Appellant asserts that any reconstruction of the community facility portion would be contrary to ZR § 54-41 and would increase the degree of non-compliance of the rear yard; and

WHEREAS, the Appellant asserts that the reconstruction of the basement level community facility would reflect an increase in the degree to which the yard is obstructed, contrary to ZR § 23-44, which does not allow residential buildings as a permitted obstruction in required rear yards; and

WHEREAS, the Appellant cites to the ZR § 12-10 definition of "yard" as part of a zoning lot "extending open and unobstructed from the lowest level to the sky along the entire length of a lot line. . ."; and

WHEREAS, the Appellant contends that if the community facility space in the basement were demolished, the yard would be "obstructed" above the basement level but unobstructed at the basement level which is a lesser degree of non-compliance thus, allowing reconstruction of the lowest level would allow for a new obstruction and increase the degree of non-compliance contrary to ZR § 54-41; and

WHEREAS, DOB asserts that the non-complying residential portion of the Building located in the rear yard may be reconstructed because ZR § 54-41 permits reconstruction of the residential portion of a one-family residence that has been demolished in excess of 75 percent; and

WHEREAS, based on the language of ZR § 54-41 and the ZR § 12-10 definitions of "residence" and "dwelling unit" from the February 2, 2011 Key Terms Clarification Text Amendment, DOB determined that only the portion of the Building containing the Use Group 2 residence (the dwelling unit including common spaces) may be reconstructed, while the portion of the Building containing the Use Group 4 doctor's office cannot be reconstructed because it is a community facility, not a "dwelling unit," and therefore not a "residence;" and

WHEREAS, however, DOB finds that the space formerly occupied by the doctor's office below the residence may be constructed since construction in that space would not increase the existing degree of non-compliance or create

a new non-compliance; and

WHEREAS, by letter dated April 26, 2012, the Department of City Planning (DCP) states that it supports DOB's response to the Appellant and agrees with DOB's interpretation of the meaning of ZR § 54-41's reference to "residence;" and

WHEREAS, specifically, DCP states that "such 'residence'" as used in ZR § 54-41 refers to the residential portion of a building that contains one or more dwelling units; and

WHEREAS, DCP states that prior to the Key Terms Text Amendment, the definition of "residence" referred to dwelling units or rooming units and following the amendment, the definition of "residence" was modified to include common spaces such as hallways and lobbies; and

WHEREAS, DCP asserts that the purpose of the change was to clarify that the common areas of a residential building are considered residential and that the change was not substantive as it was consistent with DOB's prior interpretations and practices; and

WHEREAS, DCP states that its reading is consistent with the intent of ZR § 54-41 to grant individual home owners a special exception to the general prohibition upon reconstruction of non-complying buildings which have been damaged or destroyed in excess of 75 percent of the floor area; and

WHEREAS, DCP asserts that a public policy goal is served by allowing owners of one- and two-family homes to reconstruct their dwelling space and that such public policy does not logically extend to the reconstruction of non-complying non-residential space; and

WHEREAS, accordingly, DCP concludes that ZR § 54-41 only allows for the reconstruction of non-complying portions of one and two family residences occupied by dwelling units and not non-residential uses; and

WHEREAS, in response, the Appellant wrote a letter to DCP requesting it clarify whether the reconstruction of the portion of the Building formerly occupied by the doctor's office beneath the residential use may be reconstructed or whether it reflects an increase in the degree of noncompliance and may not; and

WHEREAS, the Appellant's position is that allowing the reconstruction of the non-complying portion of the Building formerly occupied by the doctor's office to be occupied by any use will increase the degree of non-compliance in the rear yard, contrary to ZR §§ 54-41 and 23-44; and

WHEREAS, the Appellant asserts that allowing for reconstruction of the basement would allow for an obstruction at the basement level in addition to the obstructions on the residential first and second floors, which reflects an increased degree of non-compliance over just rebuilding the first and second floors and leaving the basement level open; and

WHEREAS, the Owner disagrees with DOB and DCP that the reference to "such 'residence'" in ZR § 54-41 refers only to the dwelling units in the one- or two-family residence since "residence" is a defined term and not

---

# MINUTES

---

synonymous with “dwelling unit;” and

WHEREAS, the Owner asserts that the definition of residence is intended to reference entire buildings rather than just the dwelling unit components as evidenced by the inclusion of the language “including one-family and two-family houses, multiple dwellings, boarding or rooming houses, or apartment hotels,” all of which are “buildings” that may contain not only residences but other uses; and

WHEREAS, the Owner maintains its position that the Building is a single-family residence and, accordingly, can be reconstructed in full pursuant to ZR § 54-41; and

### III. THE LEGALITY OF THE CONSTRUCTION

WHEREAS, the Appellant asserts that ZR § 54-41 only permits reconstruction of lawfully non-complying buildings and the Building is not a lawful “non-complying” building and may not benefit from the reconstruction provisions of ZR § 54-41; and

WHEREAS, the Appellant cites to the ZR § 12-10 definition of a non-complying building as “any lawful building which does not comply with any one or more of the applicable district bulk regulations either on December 15, 1961 or as a result of a subsequent amendment thereto;” and

WHEREAS, the Appellant asserts that to be “lawful,” the non-complying bulk must have complied with zoning when constructed; and

WHEREAS, the Appellant asserts that the extension in the rear yard was enlarged illegally when such enlargement would not have been permitted by zoning except for a one-story portion not exceeding 23 feet in height used for community facility use in the rear yard; and

WHEREAS, the Appellant asserts that the extension in the rear yard was enlarged to a two-story and basement brick extension sometime between 1967 and 1979 and, thus, is an illegal enlargement; and

WHEREAS, the Appellant asserts that no plans were filed with DOB for approval of the enlargement, which would not have been permitted pursuant to zoning regulations in effect at that time; and

WHEREAS, the Appellant asserts that the 1916 Zoning Resolution required a rear yard at the lowest level with a depth of at least ten percent of the depth of the lot, but not more than ten feet in depth and that 40 percent of the rear yard could be occupied by a building 18 feet above curb level; and

WHEREAS, the Appellant notes that since 1961, the Zoning Resolution has required a 30-ft. rear yard in residential zoning districts and therefore any residential enlargement within such rear yard would have been prohibited (ZR § 23-47); and

WHEREAS, however, the Appellant notes that the 1961 Zoning Resolution permitted a one-story community facility use not exceeding 23 feet in height as a permitted obstruction in the rear yard (ZR § 24-33 (b)) until 2009 when the ZR was amended to prohibit such obstruction beyond 100 feet of a wide street, any portion of a community facility building in a rear yard unless it is used for a “school, house of worship, college or university, or hospital and related facilities” (ZR § 24-33(b)(3)); and

WHEREAS, the Appellant relies on an Amendment K to the survey dated May 14, 1979 as evidence that the encroachment in the rear yard was constructed after the 1963 Certificate of Occupancy was issued; and

WHEREAS, the Appellant asserts that the second-story enlargement at the rear yard is not rendered legal by the fact that it was shown on the plans underlying the 1996 Certificate of Occupancy; and

WHEREAS, the Appellant cites to DOB job applications from 1905, 1922, 1948, a 1955 Sanborn Map, and a survey as amended from 1947-2007 as evidence that the Building’s rear enlargement occurred after 1961 when the zoning prohibited residential construction in the rear yard; and

WHEREAS, the Appellant asserts that historic documents reflect that there was only a two-story addition in the rear yard prior to 1961 and that after 1961, the zoning was amended to prohibit any further enlargements in the rear yard, and therefore the construction of the third story was illegal; and

WHEREAS, the Appellant makes the following assertions: (1) in 1905, the Building was enlarged with a one-story and basement extension in the rear yard, to a depth of 59 feet per a 1905 DOB job application; (2) in 1922, the two-story extension was extended horizontally toward the rear lot line resulting in a depth of 99 feet at the basement and first story, per a 1922 DOB job application; (3) the 1947 survey (the “Survey”) reflects a one-story and basement brick extension in the rear yard; (4) in 1948, there was “no change” to the size of the Building, as reflected on the 1948 Certificate of Occupancy; (5) the 1955 Sanborn Map shows a rear yard extension of only two stories; and (6) the 1979 survey amendment shows that between 1967 and 1979, a third story was added to the rear yard extension; and

WHEREAS, as to the authoritative weight to be given to the survey, the Appellant asserts that the Survey was prepared by a licensed surveyor and is the type upon which government agencies, licensed architects, and engineers rely; and

WHEREAS, the Appellant asserts that the Survey’s Amendment K reflects that between June 15, 1967 and May 15, 1979 the one-story and basement brick extension was enlarged to a two-story and basement brick extension and the building increased in height; and

WHEREAS, the Appellant asserts that such an increase in volume and height was prohibited by ZR §§ 23-44 and 23-47 after 1961; and

WHEREAS, on the point of legality, the Appellant concludes that the third story in the rear yard is illegal and thus the Building is not a non-complying building permitted to be demolished and reconstructed pursuant to ZR § 54-41; and

WHEREAS, the Appellant asserts that the 1996 Certificate of Occupancy is not dispositive as to the legality of the third story in part because since the Building was demolished, the Certificate of Occupancy issued in 1996 is no longer in effect and should have no relevance to DOB’s application of ZR § 54-41; and

---

# MINUTES

---

WHEREAS, the Appellant asserts that the rear ten feet of the third story of the building reflected in the plans underlying the 1996 Certificate of Occupancy was illegal under both the 1916 and 1961 zoning and could never have been lawfully built; and

WHEREAS, the Appellant finds that the Owners removal of that portion of the third story in its 2008 plans is an admission to its illegality; and

WHEREAS, as to the Appellant's claim that an illegal rear yard enlargement was constructed in violation of ZR § 24-33 sometime between 1963 and 1979, and is therefore not a lawful non-compliance, DOB finds that there is insufficient evidence to demonstrate the illegality of the rear yard enlargement; and

WHEREAS, DOB notes that the demolition and construction plans approved by DOB for the 1996 Certificate of Occupancy indicate the existence of a doctor's office and residential space in the required rear yard prior to the issuance of the 1996 Certificate of Occupancy; and

WHEREAS, DOB cites to New York City Charter Section 645(b)(3)(e), which requires that "every certificate of occupancy shall, unless and until set aside, vacated or modified by the board of standards and appeals or a court of competent jurisdiction, be and remain binding and conclusive on all agencies and officers of the city...;" and

WHEREAS, DOB contends that, since the 1996 Certificate of Occupancy has not been vacated or modified by the Board or a court of competent jurisdiction, DOB is unable to deem that the 1996 Certificate of Occupancy, which included plans indicating the existence of the rear yard enlargement, was issued in error; and

WHEREAS, DOB states that the Appellant's sole evidence that the rear yard enlargement is not a lawful non-compliance is the Survey containing notations from 1947 through 2007, including a visual examination dated May 14, 1979 labeled as "K," and based on DOB's review of the Survey, as well as the following records for the Building: a 1905 Job Application, a 1922 Job Application, a 1948 Job Application, a 1954 Building Notice, a 1955 Sanborn Map, a 1963 Alteration Job Application, the 1963 Certificate of Occupancy, the 1996 Certificate of Occupancy, and a 2005 Sanborn Map, it is unable to conclude that the rear yard enlargement was not constructed lawfully; and

WHEREAS, DOB states that it is also unable to conclude that the rear yard enlargement was not constructed lawfully because the Department records and additional information submitted by the Appellant do not contain enough information to sufficiently demonstrate when and at what heights the rear yard enlargement was constructed; and

WHEREAS, specifically, DOB states that the measurements and information included in the 1905 Job Application, the 1922 Job Application, the 1948 Job Application, the 1955 Sanborn Map, the 1963 Job Application, the 2005 Sanborn Map, and the Survey containing numerous notations from 1947 through 2007 do not provide the Department with sufficient evidence to reasonably and conclusively determine that the 1996 Certificate of Occupancy was issued in error; therefore,

pursuant to New York City Charter Section 645(b)(3)(e), the Department must abide by the lawfulness of the 1996 Certificate of Occupancy, which included the then-existing enlargement in the rear yard; and

WHEREAS, the Owner asserts that the Appellant has misread the requirements of the 1916 Zoning Resolution; specifically, the Owner asserts that as of the time of the 1948 Certificate of Occupancy, the Building was within a zoning district that required a rear yard at its lowest level that was not more than ten feet in depth and up to 40 percent of the yard could be occupied by a building 18 feet above curb level; and

WHEREAS, additionally, the Owner asserts that because the lot was back to back with another lot with a rear yard with insufficient depth, the depth of the rear yard was not required to be greater at any given level than the average depth of the rear yards directly back to back with it at such level; and

WHEREAS, the Owner asserts that the Union Club is directly behind the Building and is built to the lot line at its entire ground story which is as tall as the ceiling of the Building's second-story extension; and

WHEREAS, accordingly, the Owner asserts that there is not any merit to the contention that the extensions illegally encroached into a required rear yard; and

WHEREAS, the Owner rejects the Appellant's assertion that the Survey shows that the Building was illegally enlarged sometime after the enactment of the 1961 Zoning Resolution by the addition of a second story since the Appellant has no personal knowledge of these facts and rely solely upon a notation on an update of a survey of the Building from 1979; and

WHEREAS, the Owner asserts that there are certain conditions on the Survey known not to be accurate and that such discrepancies suggest that the various parties conducting the surveys may not have confirmed complete accuracy; and

WHEREAS, the Owner stated on record that the Survey itself is hearsay as the individuals who observed the site and made notations on the Survey are not present to speak to their contents, but acknowledges that the Board is not required to follow the Rules of Evidence and may consider such evidence; and

WHEREAS, the Owner asserts that there was physical evidence, documented in photographs, that the extension had existed in its current configuration prior to 1961 including the remainder of the fire escape system running from the roof of the second story; and

## THE QUESTION OF STANDING

WHEREAS, the Owner asserts that the Appellant lacks standing to appear in opposition to the Owner's appeal or to pursue their own appeal since they cannot claim to have suffered any diminution in the value of their property as a result of the rebuilding; and

WHEREAS, the Owner cites to the Court of Appeals in Sun-Brite Car Wash, Inc. v. Board of Zoning and Appeals of the Town of North Hempstead, 69 N.Y.2d 406, 414 (1978) for the principle that "it is reasonable to assume that,

---

# MINUTES

---

when the use changes, a person with property located in the immediate vicinity of the subject property will be adversely affected in a way different from the community at large” and that an allegation of close proximity “may give rise to an inference of damage or injury;” and

WHEREAS, the Owner asserts that the Appellant cannot assert any such harm and that the status of neighbor does not in and of itself warrant standing, when there is not injury; and

WHEREAS, the Owner also asserts that the Appellant cannot attack the certificates of occupancy which are under the jurisdiction of DOB who possesses the sole authority to issue and seek revocation of certificates of occupancy; and

WHEREAS, the Owner asserts that members of the public, purchasers of property, and lenders may rely on the conditions of a building embodied in a certificate of occupancy as complying with law; and

WHEREAS, the Appellant contends that as the adjacent neighbor, it is aggrieved by non-complying and illegal construction at the site; and

WHEREAS, the Appellant cites to Sun-Brite Car Wash for the proposition that it is “affected in a way different from the community at large” due to its proximity to the construction which does not comply with zoning district regulations; and

## CONCLUSION

WHEREAS, the Board is not persuaded by the Appellant’s assertions that (1) the Building is not a single-family home; (2) the reconstruction of the basement beneath the residential use increases the degree of non-compliance contrary to ZR § 54-41; and (3) the Building was illegally enlarged; and

WHEREAS, as to the classification of the Building, the Board agrees with the Owner and DOB that the Building is a single-family residence notwithstanding its former occupancy by a community facility use as well as a residence; and

WHEREAS, the Board agrees with the Owner that single-family residence and one-family residence have the same meaning; and

WHEREAS, the Board disagrees with DOB and does not find that there is a meaningful distinction between a “single-family residence” as defined at ZR § 12-10 and a “one-family residence” (as referenced at ZR § 54-41); and

WHEREAS, however, the Board agrees with DOB that the Building may be a single-family residence and also restricted by the provisions of ZR § 54-41 that only allow for the reconstruction of the Building’s “residence” (and not the entire Building) after the demolition of more than 75 percent of the Building’s floor area; and

WHEREAS, accordingly, the Board finds that ZR § 54-41’s allowance for the reconstruction of a residence within a one-family residence is warranted by the text and the intent of the Zoning Resolution with regard to single-family/one-family residences; and

WHEREAS, as to the portion of the Building to be reconstructed, the Board agrees with DOB’s position that the reconstruction of the area below the residential space

may be reconstructed as it does not increase the degree of non-compliance since the non-complying rear yard encroachment on the first and second stories establishes the extent of non-compliance and the rear yard is obstructed by the legal residential space both by footprint and by height; and

WHEREAS, as to the legality of the enlargement in the rear yard, the Board agrees with DOB and the Owner that there is not sufficient evidence to establish the illegality of the encroachment in the rear yard; and

WHEREAS, specifically, the Board finds the Appellant’s reference to historic DOB records to be inconclusive at best and finds that the 1955 Sanborn map is so imprecise that any clear understanding of what existed at that time based on it is illusory; and

WHEREAS, the Board agrees that the 1996 Certificate of Occupancy must be relied on until disturbed by DOB and that DOB appropriately asserts that it does not have any basis to question or seek to overturn it; and

WHEREAS, as to the Survey, the Board finds that it too is unclear and that it cannot form the basis to overturn the Certificate of Occupancy particularly in light of the fact that its drafters are not available to decipher the 60 years’ worth of notations and speak to what was actually observed at the site; and

WHEREAS, the Board accepts the Survey as an appropriate form of evidence but does not find that it alone can support the Appellant’s assertions as to illegality; and

WHEREAS, as to standing, the Board disagrees with the Owner and finds that the Appellant satisfies the requirements of an aggrieved party and does have standing to prosecute the appeal; however, the Board agrees with the Owner that the Appellant does not have standing to seek the revocation of the Certificate of Occupancy; and

WHEREAS, accordingly, the Board is not persuaded by the Appellant’s assertions that no portion of the enlargement in the rear yard can be reconstructed; and

*Therefore it is resolved* that, based upon the conclusions stated above, the Board denies the appeal seeking a reversal of the Final Determination of the Department of Buildings, dated January 6, 2012.

Adopted by the Board of Standards and Appeals, May 15, 2012.

Negative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown and Commissioner Hinkson.....4

Absent: Commissioner Montanez.....1

### THE RESOLUTION –

WHEREAS, the subject appeal comes before the Board in response to the determination of the Manhattan Borough Commissioner of the Department of Buildings (“DOB”), dated January 6, 2012 (the “Final Determination”), to uphold its Intent to Revoke Approval and Permit Letter associated with Permit No. 110169406 (the “Permit”), for the construction of a building at the subject site (the “Building”); and

WHEREAS, the Final Determination reads, in pertinent part:

The Department has reviewed the information you provided and, as further described below, has determined that you have not sufficiently demonstrated that Objection 1, 2, and 4 should be removed.

The Department has determined that Objection Nos. 1, 2, and 4 should not be removed because the plans filed with the Job Application are not in compliance with Section 54-41 of the Zoning Resolution (the “ZR”). Certificate of Occupancy No. 110596 states that the building contained a Use Group 2 one-family residence and a Use Group 4 community facility medical office. The building was non-complying because the medical office and a portion of the residence were located in the required rear yard of the Premises and exceeded lot coverage limitation. The building contained a one family “residence” and therefore, only the residential portion of the building may be reconstructed per Section 54-41 of the ZR, given that more than 75% of the building was demolished.

Per Section 54-41 of the ZR, a one family “residence” may be reconstructed provided that the reconstruction does not create a new non-compliance or increase the pre-existing degree of non-compliance with the applicable bulk regulations. Per Section 12-10 of the ZR, a “residence” is one or more dwelling units including common spaces. Therefore, the portion

of the building containing the Use Group 2 “residence” may be reconstructed but the portion of the building containing the Use Group 4 medical office cannot be reconstructed pursuant to Section 54-41 of the ZR. However, such space may be constructed to the extent permitted by the underlying district regulations and used for any use permitted in the zoning district.

Although the objections cannot be removed, in compliance with a Temporary Restraining Order entered on December 22, 2011 by the Honorable Eileen A. Rakower in *FB Capital, Inc. v. NYC Department of Buildings and Robert L. LiMandri*, Index No. 1114312/11, the Department is not, at this time, revoking the Permit; and

WHEREAS a public hearing was held on this application on April 3, 2012, after due notice by publication in *The City Record*, and then to decision on May 15, 2012; and

WHEREAS, this appeal is brought on behalf of the owners of the subject property (the “Appellant”); and

WHEREAS, a separate appeal application was filed by the owners of 112 East 70<sup>th</sup> Street (the “Adjacent Neighbor”) and was heard concurrently and decided on the same day, pursuant to BSA Cal. No. 25-12-A; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commission Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the south side of East 70<sup>th</sup> Street, between Park Avenue and Lexington Avenue, within an R8B zoning district within Limited Height District 1A; and

WHEREAS, the subject site has a width of 19’-10”, a depth of 100’-5”, and a total lot area of approximately 1,991.6 sq. ft.; and

WHEREAS, the site is occupied by a five-story (including penthouse) building with a basement, a cellar, and a sub-cellar; and

WHEREAS, the Building has the following parameters: a total floor area of 7,536 sq. ft. (3.78 FAR), with 6,406 sq. ft. of residential floor area and 1,130 sq. ft. of community facility (doctor’s office) floor area, a lot coverage of 84 percent, and a total height of 60’-0”; and

WHEREAS, a three-story portion of the Building (portions of the basement, first floor, and second floor) encroaches into the required 30’-0” rear yard to varying degrees; an L-shaped portion of the basement designated for doctor’s office use encroaches a total of approximately 395.6 sq. ft. into the rear yard, including a 110 sq. ft. one-story portion at the northeast corner of the basement; an approximately 9’-2” by 30’-0” portion of the first floor encroaches into the rear yard; and an approximately 9’-2” by 21’-7” portion of the second floor encroaches into the rear yard; and

WHEREAS, the Building was issued Certificate of Occupancy No. 110596 on December 3, 1996, which states:

Cellar – Boiler Room, Storage

Basement – Comm. – Doctor’s Office, Res. – Entry

1 (Footnote from the original) In your December 19, 2011 letter you also indicate that Objection No. 3 has been resolved with a filing of a Post Approval Amendment (“PAA”). As of the date of this letter, this Objection has not been resolved because the Department has not reviewed the PAA and an appointment has not yet been made with the Department to address the Objection.

Hall to Dwelling Above

1<sup>st</sup> Floor – Res. – ¼ Dwelling Unit

2<sup>nd</sup> Floor – Res. – ¼ Dwelling Unit

3<sup>rd</sup> Floor – Res. – ¼ Dwelling Unit

4<sup>th</sup> Floor – Res. – ¼ Dwelling Unit

One (1) Family Dwelling; and

WHEREAS, at the time of the issuance of the Certificate of Occupancy, the doctor's office and a portion of the residential use were located within the 30-ft. rear yard; at that time, a doctor's office was a permitted encroachment into the required rear yard, but zoning text changes have rendered the encroachment non-complying; and

WHEREAS, DOB appeared and made submissions in opposition to this appeal; and

WHEREAS, the Adjacent Neighbor provided testimony in opposition to this appeal; and

## PROCEDURAL HISTORY

WHEREAS, in May 2008, the Appellant filed an Alteration Type 1 application (No. 110169406) to renovate the Building and to change the doctor's office use on the basement floor to residential use; and

WHEREAS, on April 20, 2009, DOB approved the Alteration Type 1 application and on May 8, 2009 issued the Permit; and

WHEREAS, subsequently, the Appellant filed and DOB approved post approval amendments and other construction requirements; and

WHEREAS, during the following months and years, DOB received several complaints from the Adjacent Neighbor stating that the project did not comply with zoning regulations, which led DOB to audit the plans and at various times revoke the permits, issue stop work orders, and rescind same; and

WHEREAS, on December 6, 2011, DOB issued a notice of intent to revoke with a final version of audit objections, which state that (1) only the residential portion of the building may be reconstructed given that 75 percent of the building was demolished (ZR § 54-41), (2) construction of a community facility in the rear yard is not a permitted obstruction, (3) demonstrate that a change of use from doctor's office to residential use complies with ZR regulations for change of use and bulk (ZR § 24-33), and (4) the proposed lot coverage exceeds 70 percent, contrary to ZR § 24-11; and

WHEREAS, the Appellant demolished the majority of the Building and reconstructed it with the same non-complying conditions that existed prior to the demolition, which include the one- and three-story encroachments into the required 30-ft. rear yard and lot coverage in excess of what is permitted by zoning district regulations; and

WHEREAS, the Appellant seeks to maintain the entire Building with all non-complying conditions, which it asserts are legally non-complying and were reconstructed pursuant to the provisions set forth at ZR § 54-41; and

WHEREAS, the Appellant states that it would have preferred residential use on the basement level but that DOB only identified the issue of the increase in the degree of non-

compliance of the Building's court after the extension was demolished, and required the return to a doctor's office use so that the Appellant could retain the envelope of the building already approved and permitted; and

WHEREAS, after DOB issued audit objections which form the basis of the Final Determination, the Appellant brought a proceeding in New York State Supreme Court entitled Matter of FB Capital v. New York City Department of Buildings, Index No. 114312/11 to prevent DOB from revoking the building permits for the portion of the application related to the residence and requiring it to continue inspections and issue a Temporary Certificate of Occupancy; and

WHEREAS, the court issued a temporary restraining order preventing DOB from revoking the permits pending decision on the merits of the petition; and

WHEREAS, the Appellant asserts that the Building has been constructed as follows: the 395.6 sq. ft. of basement level includes approximately 285.6 sq. ft. beneath the residential portion of the Building constructed in 1922 and 110 sq. ft. in a separate one-story portion constructed in 1996 (when zoning allowed for doctor's office use to encroach into the rear yard and such encroachment would have been complying); and

## RELEVANT ZONING RESOLUTION PROVISIONS

### ZR Section 11-338

Building permits issued before February 2, 2011  
If a building permit has been lawfully issued on or before February 2, 2011, authorizing "other construction" as set forth in paragraph (c)(3) of Section 11-31 (General Provisions), construction pursuant to such permit may continue pursuant to the regulations governing such construction prior to the adoption of N110090(A) ZRY (Key Terms Clarification zoning text amendment) until February 2, 2012.

However, this Section shall not apply to "other construction" subject to Sections 23-692 (Height limitations for narrow buildings or enlargements) or 109-124 (Height and setback regulations).

\* \* \*

### ZR Section 12-10

*Residence, or residential* (italicized text adopted on 9/9/04, subsequently amended as reflected in the non-italicized text below)

A "residence" is a #building# or part of a #building# containing #dwelling units# or #rooming units#, including one-family or two-family houses, multiple dwellings, boarding or rooming houses, or #apartment hotels#. However, #residences# do not include:

(a) such transient accommodations as #transient hotels#, #motels# or #tourist cabins#, or #trailer camps#;

(b) #non-profit hospital staff dwellings#; or

(c) student dormitories, fraternity or sorority student houses, monasteries or convents, sanitariums, nursing homes, or other living

---

# MINUTES

---

or sleeping accommodations in #community facility buildings# or portions of #buildings# used for #community facility uses#.

- (d) in a #mixed building#, that part of the #building# used for any non-#residential uses#, except #accessory# to #residential uses#.

"Residential" means pertaining to a #residence#.

\* \* \*

Residence, or residential (as amended on 2/2/11) A "residence" is one or more #dwelling units# or #rooming units#, including common spaces such as hallways, lobbies, stairways, laundry facilities, recreation areas or storage areas. A #residence# may, for example, consist of one-family or two-family houses, multiple dwellings, boarding or rooming houses, or #apartment hotels#. However, #residences# do not include:

- (a) such transient accommodations as #transient hotels#, #motels# or #tourist cabins#, or #trailer camps#;
- (b) #non-profit hospital staff dwellings#; or
- (c) student dormitories, fraternity or sorority student houses, monasteries or convents, sanitariums, nursing homes, or other living or sleeping accommodations in #community facility buildings# or portions of #buildings# used for #community facility uses#.

"Residential" means pertaining to a #residence#.

\* \* \*

Single-family residence (2/2/11)

A "single-family residence" is a #building# containing only one #dwelling unit#, and occupied by only one #family#.

\* \* \*

ZR Section 54-41

Permitted Reconstruction

If a #non-complying building or other structure# is damaged or destroyed by any means, including any demolition as set forth in this Section, to the extent of 75 percent or more of its total #floor area#, such #building# may be reconstructed only in accordance with the applicable district #bulk# regulations, except in the case of a one- or #two-family residence#, such #residence# may be reconstructed provided that such reconstruction shall not create a new #non-compliance# nor increase the pre-existing degree of #non-compliance# with the applicable #bulk# regulations. If the extent of such damage or destruction is less than 75 percent, a #non-complying building# may be reconstructed provided that such reconstruction shall not create a new #non-compliance# nor increase the pre-existing degree of #non-compliance# with the applicable #bulk# regulations; and

## THE ISSUES ON APPEAL

WHEREAS, the Appellant seeks for the Board to

review the DOB interpretations which form the basis for its Final Determination and have led to the revocation of the Permit and DOB's refusal to issue a certificate of occupancy for the Building; and

WHEREAS, the Appellant's primary challenges are to DOB's conclusion that (1) the Building cannot be reconstructed in its entirety and only the portion of the Building formerly occupied by residential use or beneath residential use can be reconstructed within the meaning of ZR § 54-41 because the Building included a non-residential use, (2) the definition of residence limits the portions of the Building that can be reconstructed, and (3) more than 75 percent of the Building's floor area was demolished as contemplated by ZR § 54-41 and, thus, the Building in its entirety cannot be reconstructed; and

### I. THE CLASSIFICATION OF THE BUILDING

WHEREAS, the Appellant's position is that the entire Building is a one-family residence and may be demolished to the extent of 75 percent or more of its total floor area and reconstructed under the provisions of ZR § 54-41; and

WHEREAS, the Appellant asserts that ZR § 54-41 allows for one- and two-family homes to be entirely demolished and rebuilt; and

WHEREAS, the Appellant asserts that the Building in its entirety is a one-family residence within the meaning of ZR § 54-41 and, thus, both the portions that are identified as residential on the 1996 Certificate of Occupancy and the portions identified as community facility on the 1996 Certificate of Occupancy can be rebuilt in full; and

WHEREAS, the Appellant asserts that a one-family residence (the term used at ZR § 54-41) and a single-family residence (a term defined at ZR § 12-10) have the same meaning and include the entire Building; and

WHEREAS, the Appellant asserts that multiple City agencies have characterized the Building as a one-family residence; it was built as and occupied as a one- or two-family residence until 1963; and the relevant ZR definitions in effect at the time of the 2009 application approval support the conclusion that the entire Building is a one-family residence, with a doctor's office; and

WHEREAS, the Appellant asserts that the doctor's office in the basement represents less than 15 percent of the floor area in the Building and the portion of the doctor's office in the rear yard represents 395.6 sq. ft. of floor area; and

WHEREAS, the Appellant relies on the 1996 Certificate of Occupancy and the text of the ZR, both as it existed at the time of the Permit issuance and since the Key Terms Clarification Text Amendments were adopted on February 2, 2011; and

WHEREAS, as to the 1996 Certificate of Occupancy, the Appellant states that it notes that the Building is a "ONE (1) FAMILY DWELLING;" and

WHEREAS, the Appellant asserts that the Certificate of Occupancy characterization is binding on DOB pursuant to New York City Charter § 645(b)(3)(e) and that buildings in the vicinity of the site with a similar mix of uses are identified as one- or two-family dwellings; and

---

# MINUTES

---

WHEREAS, the Appellant states that the ZR does not define the term “one-family residence” used in ZR § 54-41; and

WHEREAS, instead, the Appellant refers to the Zoning Resolution definition of “residence, single-family” in effect at the time of the Permit’s issuance as “a ‘building’ containing only one ‘dwelling unit,’ and occupied by only one ‘family;’” and

WHEREAS, the Appellant asserts that the word “only” modifies the adjective “one” rather than the verbs “containing” and “occupied” such that a single-family residence may contain uses other than a dwelling unit occupied by one family as only the number of dwelling units and families is limited by the word “only;” and

WHEREAS, the Appellant asserts that there is ambiguity associated with the term “one-family residence” and that the ambiguity must be resolved in favor of the property owner; and

WHEREAS, the Appellant asserts that there is a clear legislative intention of favoring homeowners evident in ZR § 54-41 as well as the principle that the ZR be construed in favor of the property owner. See, e.g. Matter of Toys “R” Us v. Silva, 89 N.Y.2d 411, 421 (1996); and Matter of Allen v. Adami, 39 N.Y.2d 275, 277 (1976); and

WHEREAS, accordingly, the Appellant asserts that it proposes to occupy the Building as a one-family residence within the meaning of ZR § 54-41, the Building was appropriately reconstructed after demolition, and the Board should thus grant the appeal and vacate the Final Determination; and

WHEREAS, DOB’s position is that although the Building meets the ZR § 12-10 definition of “single-family residence” (unchanged by the Key Terms Text Amendments), it does not meet the definition of one-family residence within the context of ZR § 54-41 to the extent that the whole Building is not permitted to be reconstructed, but only the portion containing the “residence;” and

WHEREAS, DOB asserts that based on the language of ZR § 54-41, and the definitions of “residence” and “dwelling unit,” only the portion of the building containing the “residence” that is the “dwelling unit” including common spaces may be reconstructed; and

WHEREAS, DOB asserts that the one-story non-complying portion of the Building formerly occupied by the doctor’s office and located in the required rear yard may not be reconstructed because ZR § 54-41 only permits reconstruction of the residential portion of the one-family residence and because it is a community facility, not a “dwelling unit,” and therefore, not a “residence”; and

WHEREAS, DOB notes that the one-story portion of the Building formerly occupied by the doctor’s office and within the required rear yard is non-compliant because pursuant to ZR § 24-33, the doctor’s office is not a permitted obstruction in the required rear yard and the portion of the Building occupied by residential use within the required rear yard became non-compliant because a “residence” is not a permitted obstruction pursuant to ZR § 23-44; and

WHEREAS, DOB states that the space formerly

occupied by the doctor’s office below the “residence” may be reconstructed since the construction in that space would not increase the existing degree of non-compliance; and

WHEREAS, DOB asserts that the residential exception in ZR § 54-41 does not apply to the building containing “such ‘residence’” but rather to the “residence” (dwelling units) within the building; and

WHEREAS, DOB asserts that if the intent were for the whole building to be covered by the exception, the text would state that such *building* may be reconstructed rather than that such *residence* may be reconstructed; and

WHEREAS, DOB states that to allow for reconstruction of an entire non-complying building just because it contained one dwelling unit is contrary to the intent and could lead to absurd results; and

WHEREAS, DOB asserts that it has always applied the ZR § 12-10 definition of residence to refer only to the residential use within a building and not to include residential use and other uses such as community facility uses, commercial uses, or manufacturing uses; and

WHEREAS, DOB states that the words “or part of a ‘building’” in the pre-Key Terms definition of residence are used to describe a building with multiple uses and used to identify that only those “part(s) of a building” with dwelling units should be considered a “residence”; and

WHEREAS, DOB asserts that there would not be any purpose to include the term “part of a ‘building’” in the definition of “residence” if, as the Appellant argues, the term “residence” were to refer to the entire building no matter which additional uses were located in the building; and

WHEREAS, DOB concludes that the Appellant must amend its plans to remove the basement level portion of the community facility in the required rear yard that consists of the one-story doctor’s office which is not located beneath the non-complying residential portion of the Building (approximately 110 sq. ft.) and the plans must be amended to either replace the community facility portion of the Building beneath the non-complying residential space with residential use or reconstruct that portion of the building to the extent permitted by district bulk regulations; and

WHEREAS, DOB states that to the extent the residential space at the first and second floors may be reconstructed as non-complying residential space in the rear yard, residential space may also be located beneath such non-complying space without creating a new non-compliance or increasing the degree of non-compliance; and

WHEREAS, DOB states that if the Appellant removes the one-story portion of the Building and amends its plans to indicate that the portion of the Building in the required rear yard at basement level beneath the non-complying residential space would be constructed as residential space, it could approve the plans and lift the zoning objections; and

WHEREAS, the Adjacent Neighbor’s position is that the reconstruction provisions of ZR § 54-41 do not apply since the Building is a mixed residence and community facility building, rather than a single-family residence, and it was demolished in excess of 75 percent; and

---

# MINUTES

---

WHEREAS, the Adjacent Neighbor contends that because the Building was occupied by two uses – residential and community facility – it is not a single-family residence and cannot benefit from the more permissive reconstruction provisions of ZR § 54-41 applicable to single-family residences and, thus, can only be constructed in full compliance with current zoning regulations; and

WHEREAS, the Adjacent Neighbor asserts that the Building does not meet a clear and unambiguous definition of “single-family residence” because it includes a community facility; and

WHEREAS, accordingly, the Adjacent Neighbor asserts that the Building can only be reconstructed in accordance with the bulk regulations for a new building in the underlying R8B zoning district; and

WHEREAS, the Adjacent Neighbor asserts that ZR § 12-10 defines “single-family residence” as a building that contains *only* one dwelling unit (to the exclusion of other uses) and *only* one family (to the exclusion of other occupants) and that the “only” modifies “containing” and “occupied”; and

WHEREAS, the Adjacent Neighbor states that the Appellant’s interpretation of “single-family residence” to include buildings with multiple uses would lead to absurd results such as the identification of a largely commercial building with a single dwelling unit as constituting a “single-family residence” eligible for the favorable reconstruction exception set forth at ZR § 54-41; and

WHEREAS, the Adjacent Neighbor’s position is that allowing the reconstruction of the non-complying portion of the Building formerly occupied by the doctor’s office to be occupied by any use will increase the degree of non-compliance in the rear yard, contrary to ZR §§ 54-41 and 23-44; and

WHEREAS, the Adjacent Neighbor asserts that allowing for reconstruction of the basement would allow for an obstruction at the basement level in addition to the obstructions on the residential second and third floors, which reflects an increased degree of non-compliance over just rebuilding the second and third floors and leaving the basement level open; and

## II. DEFINITION OF RESIDENCE

WHEREAS, the Appellant cites to the ZR § 54-41 text that states “except in the case of a one- or ‘two-family residence’ such ‘residence’ may be reconstructed” and asserts that the “such ‘residence’” refers back to the whole one- (or two-) family residence which may, accordingly, be reconstructed in its entirety; and

WHEREAS, the Appellant asserts that not only does “such ‘residence’” mean the entire building but that “residence,” as defined at ZR § 12-10 also is interpreted to include the entire building; and

WHEREAS, the Appellant asserts that the definition in effect at the time the Permit was issued supports its more inclusive reading of “residence;” and

WHEREAS, the Appellant notes that on February 2, 2011, the ZR was amended through the Key Terms Clarification Text Amendment and the definition of

residence at ZR § 12-10 was amended to state that a residence is “one or more dwelling units”; and

WHEREAS, the Appellant asserts that DOB acted inappropriately by applying the February 2, 2011 definition of residence to its interpretation of “such ‘residence’” in ZR § 54-41; and

WHEREAS, the Appellant asserts that the meaning of the old definition and the new definition are different as the new definition isolates the dwelling unit component of the building from the rest of the building where the prior definition does not; and

WHEREAS, the Appellant cites to ZR § 11-338 which states that if a building permit was issued on or before February 2, 2011 authorizing “other construction,” the construction may continue under the old regulations until February 2, 2012 and, thus DOB should not use a provision of law not yet applicable to characterize the alteration of the Building as illegal; and

WHEREAS, the Appellant maintains that ZR § 11-338 grandfathers construction that was permitted under the pre-amendment regulations and disagrees with DOB’s assertion that because the definition of “residence” is identified as a “modification” on City Planning’s table associated with the amendments, rather than a “clarification,” the Appellant may not rely on the pre-existing ZR text where it was inconsistent with DOB “interpretation and practice;” and

WHEREAS, the Appellant asserts that the pre-amendment text is relevant because: (1) DOB approved the plans which were clear on their face and there is no evidence of DOB interpretation or practice that is inconsistent with the prior text; (2) ZR § 11-338 does not distinguish among the amendments and does not say that applicants may only rely on the regulations that are clarifications and not modifications; and (3) DOB’s assertion that the change was a modification, rather than a clarification suggests that there was formerly a different meaning; and

WHEREAS, the Appellant also asserts that the need to modify or clarify the definition of “residence,” suggests that there was a recognition that the definition was unclear and ambiguous; and

WHEREAS, the Appellant represents that it filed for a certificate of occupancy on December 20, 2011 and that DOB rejected its application, in part based on the current definitions, on January 6, 2012; and

WHEREAS, the Appellant asserts that the definition of “single-family residence” remains unchanged but that “residential building” has been changed to include that a “residential building is a building used only for a residential use;” and

WHEREAS, the Appellant asserts that if it had been intended that the definition of “single-family residence” be limited to buildings containing only residential uses, then the Key Terms Text would have included an amendment of the single family residence definition to state that a single family residence is a “residential building” only containing one dwelling unit and only occupied by one family; and

WHEREAS, DOB cites to the definitions of “residence” and “dwelling unit” in effect as of February 2,

---

# MINUTES

---

2011; and

WHEREAS, DOB asserts that it properly invokes the Key Terms Text Amendment definitions since the purpose of the amendment was to clarify the intent of the ZR in relation to the terms “development” and “building” and its purpose includes that “the definition of ‘residence, or residential,’ will be modified to specify that it is one or more dwelling units, and includes ‘common spaces such as hallways, lobbies, stairways, laundry facilities, recreation areas or storage areas.’ Paragraph (d) will be deleted as redundant;” and

WHEREAS, accordingly, DOB asserts that the amendment was not a substantive change to the definition but rather a clarification and modification to make the wording of the definition of “residence,” among others, consistent with DOB’s interpretation and practice; and

WHEREAS, however, DOB asserts that the use of the Key Terms definition of “residence” is proper because it does not reflect a substantive change to the meaning that DOB has always used for “residence;” and

WHEREAS, DOB asserts that the Key Terms definition clarifies how DOB has always interpreted the definition of “residence” to mean dwelling units and common spaces; and

WHEREAS, in the alternate, DOB asserts that the pre-amendment definition of “residence” does not support the Appellant’s claim that the entire Building should be classified as a one-family “residence;” and

WHEREAS, by letter dated April 26, 2012, the Department of City Planning (DCP) states that it supports DOB’s response to the Appellant and agrees with DOB’s interpretation of the meaning of ZR § 54-41’s reference to “residence;” and

WHEREAS, specifically, DCP states that “such ‘residence’” as used in ZR § 54-41 refers to the residential portion of a building that contains one or more dwelling units; and

WHEREAS, DCP states that prior to the Key Terms Text Amendment, the definition of “residence” referred to dwelling units or rooming units and following the amendment, the definition of “residence” was modified to include common spaces such as hallways and lobbies; and

WHEREAS, DCP asserts that the purpose of the change was to clarify that the common areas of a residential building are considered residential and that the change was not substantive as it was consistent with DOB’s prior interpretations and practices; and

WHEREAS, DCP states that its reading is consistent with the intent of ZR § 54-41 to grant individual home owners a special exception to the general prohibition upon reconstruction of non-complying buildings which have been damaged or destroyed in excess of 75 percent of the floor area; and

WHEREAS, DCP asserts that a public policy goal is served by allowing owners of one- and two-family homes to reconstruct their dwelling space and that such public policy does not logically extend to the reconstruction of non-complying non-residential space; and

WHEREAS, accordingly, DCP concludes that ZR § 54-41 only allows for the reconstruction of non-complying portions of one- and two-family residences occupied by dwelling units and not non-residential uses; and

WHEREAS, the Appellant disagrees with DOB and DCP that the reference to “such ‘residence’” in ZR § 54-41 refers only to the dwelling units in the one- or two-family residence since “residence” is a defined term and not synonymous with “dwelling unit;” and

WHEREAS, the Appellant asserts that the definition of residence is intended to reference entire buildings rather than just the dwelling unit components as evidenced by the inclusion of the language “including one-family and two-family houses, multiple dwellings, boarding or rooming houses, or apartment hotels,” all of which are “buildings” that may contain not only residences but other uses; and

WHEREAS, the Appellant disagrees with DOB and DCP and asserts that the new definition of residence reflects a material change from the old definition because the original definition requires the consideration of a building and the new definition does not address buildings, but rather dwelling units; and

WHEREAS, the Appellant compares the beginning of the original definition:

A “residence” is a *building* or a part of a *building* containing *dwelling units* or *rooming units*, including one-family or two-family houses, multiple dwellings, boarding or rooming houses or *apartment hotels*

With the beginning of the new definition:

A “residence” is one or more *dwelling units* or *rooming units*, including common spaces such as hallways, lobbies, stairways, laundry facilities, recreation or storage areas; and

WHEREAS, the Appellant asserts that the purpose of the amendment was to remove the reference to “buildings” in the definition of “residence” and to redirect the focus to dwelling units and that reflects a material change of language and meaning; and

WHEREAS, the Appellant asserts that the fact that DOB did not raise the issue with the Appellant earlier including through the plan audit process, reflects its position that the text is not clear or self-evident and DOB has not had a consistent approach to the question of what constitutes a residence for the purposes of the exception set forth at ZR § 54-41; and

WHEREAS, the Appellant concludes that since zoning regulations are in derogation of common law property rights, they must be interpreted in the light most favorable to the property owner particularly since the fact that the modification to the text confirms that the text was ambiguous and subject to misapplication in its pre-2011 form; and

### III. THE EXTENT OF DEMOLITION

WHEREAS, the Appellant’s position is that the Building was not demolished to an extent of 75 percent or more at any one time and, thus, can be reconstructed in its entirety pursuant to ZR § 54-41; and

---

# MINUTES

---

WHEREAS, as to the extent of demolition, the Appellant asserts that at no time during demolition was more than 75 percent of the Building's floor area removed and that all floor area that was removed was replaced in its original location; and

WHEREAS, the Appellant asserts that the language of ZR § 54-41 is vague and imprecise as to what constitutes "damage or destruction" and over what period of time the owner's right to rebuild will be divested; and

WHEREAS, the Appellant asserts that all of its construction was performed within the historic building envelope and involved replacement of historic building materials with modern equivalents and that at no time was the aggregate floor area demolished to more than 72.5 percent of the Building's total floor area; and

WHEREAS, the Appellant asserts that the absence of direction on the timing parameters of demolition allows for a demolition sequencing like what was performed; and

WHEREAS, the Appellant asserts that an interpretation of ZR § 54-41 which does not allow for phased demolition leads to a harsh result; and

WHEREAS, the Appellant asserts that DOB has interpreted ZR § 54-41 to allow for phased demolition and has provided examples to support the assertion that DOB has allowed greater than 75 percent demolition at other sites; and

WHEREAS, the Appellant asserts that it relied on DOB's examination and approval of the plans that detailed the scope of the demolition and its sequence and asserts that DOB concluded that the proposal was consistent with ZR § 54-41; and

WHEREAS, the Appellant asserts that ZR § 54-41 is vague as to whether demolition is cumulative over time or has some other meaning and that such vagueness is potentially unconstitutional; and

WHEREAS, accordingly, the Appellant asserts that, because less than 75 percent of the Building was demolished at any one time, the whole non-complying Building may be reconstructed; and

WHEREAS, DOB's position is that the Building was demolished to an extent of 75 percent or more; and

WHEREAS, DOB asserts that the limitation set forth in ZR § 54-41 that demolition can not exceed 75 percent or more of the floor area of a non-complying building would be rendered meaningless if property owners could avoid it simply by phasing development as the Appellant suggests; and

WHEREAS, DOB states that the plans filed with the job application indicate that approximately 90 percent of the total floor area of the Building would be demolished and, thus, the Appellant's assertion that the requirements of ZR § 54-41 are not applicable because only 72.5 percent of the Building's total floor area was demolished at any one moment is without merit since the plans filed indicate almost a complete demolition of the total floor area of the non-complying Building; and

WHEREAS, DOB rejects the Appellant's assertion that the type of damage or destruction contemplated by ZR §

54-41 is not tied to the reconstruction in-kind of the Building but rather to the rearrangement of floor area in an altered building; DOB relies on the plain meaning of ZR § 54-41 which specifically includes demolition work as a type of "destruction" and specifically uses the ZR term "floor area" to measure what must be demolished to trigger the limits; and

WHEREAS, DOB asserts that the ZR does not make any distinction between demolition and replacement in-kind and demolition that involves the rearrangement of floor area; and

WHEREAS, the Adjacent Neighbor asserts that more than 75 percent of floor area was demolished pursuant to a single DOB job application and therefore the Building may be reconstructed only in accordance with the current bulk regulations, regardless of whether demolition was phased; and

WHEREAS, the Adjacent Neighbor asserts that the Appellant demolished 92 percent of the Building's floor area pursuant to a single DOB job application and therefore "may be reconstructed only in accordance with the applicable district bulk regulations" pursuant to ZR § 54-41; and  
THE BOARD'S ANALYSES

WHEREAS, the Board has carefully considered all arguments provided into the record; and

WHEREAS, as to the first issue regarding the classification of the Building, the Board agrees with the Appellant's and DOB's position that the Building is a single-family residence which is a building in its entirety that contains only one dwelling unit or is occupied by only one family but may contain or be occupied by other uses; and

WHEREAS, the Board agrees with the Appellant's position that the reference to a one-family residence in ZR § 54-41, has no material difference from a single-family residence and that while a one-family residence is not a defined term, it is interchangeable with the definition of a single-family residence; and

WHEREAS, the Board notes that throughout the ZR, there are several references to "one- or two-family residences" and/or "single- or two-family residences"; further that two-family residence (unlike one-family residence) is a defined term that parallels the definition of single-family residence; and

WHEREAS, the Board further notes that there is no rational basis to distinguish between single-family residence and a one-family residence under ZR § 54-41, particularly since the provisions also apply to a two-family residence; and

WHEREAS, the Board concludes that the Building in its entirety is both a single-family residence and one-family residence under the meaning of ZR § 54-41; and

WHEREAS, as to the second issue regarding the definition of residence, as a threshold matter, the Board is not persuaded by DCP and DOB's assertion that the applicable definition of "residence" is the current post-Key Terms Text Amendment definition; and

WHEREAS, the Board agrees with the Appellant that

---

# MINUTES

---

ZR § 11-338 does not make a distinction between clarifications and modifications and simply sets forth that if the permit was issued prior to February 2, 2011 and construction was completed prior to February 2, 2012, the permit may continue pursuant to the prior regulations; and

WHEREAS, accordingly, the Board finds that since the Permit was issued prior to February 3, 2011 and construction was completed prior to February 2, 2012, it is appropriate to apply the pre-Key Terms Text Amendment definition of “residence;” and

WHEREAS, however, the Board agrees with DOB that neither the 2004 nor 2011 definition of “residence” supports the Appellant’s conclusion that ZR § 54-41 allows for the entire Building, rather than just the residence, to be reconstructed; and

WHEREAS, as to the ZR § 12-10 definition of “residence,” the Board recognizes the Department of City Planning (DCP) as the drafters of and authority on the Zoning Resolution and agrees with DCP and DOB that the text is appropriately read to give distinct meanings to “a building” or “part of a building” and that statutory interpretation principles require that there be meaning to all words in the statute; and

WHEREAS, the Board finds that if it were to accept the Appellant’s assertion that a building only partially occupied by a residential use is a residence then there is no meaning for “or part of a building containing dwelling units” within the definition; and

WHEREAS, the Board concludes that the portion of the definition that more closely fits the Building is “part of a building containing dwelling units” rather than that it is a building (which partially contains dwelling units and partially contains community facility use); and

WHEREAS, the Board notes that within the definition of residence, there are two other references to portions/parts of the building: at paragraphs (c) and (d) and those both have meaning as well; for example at paragraph (c) a distinction is made between community facility buildings and portions of buildings used for community facility uses such that a building with only a portion of it occupied by community facility uses is not a community facility building or there would be no reason to identify the two kinds of buildings (community facility buildings and buildings with portions that contain community facility use); and

WHEREAS, similarly, the Board notes that in paragraph (d), mixed buildings are divided into sections that include the part used for residential purposes and the part used for non-residential purposes; and

WHEREAS, the Board notes that the definition has three references to portions/parts of buildings, so it seems clear that there is meaning to the distinct uses that occupy portions of a building and that the building and the portion of the building used for a particular use are not interchangeable; and

WHEREAS, because the Board finds that only the portion of the Building occupied by residential use is a “residence” for the purposes of applying ZR § 54-41, only those portions of the Building may be reconstructed once

more than 75 percent of the Building has been demolished; and

WHEREAS, as to the third issue regarding whether 75 percent or more was demolished: the Board agrees with DOB that ZR § 54-41 does not contemplate phased construction as the Appellant suggests and that because more than 75 percent of the Building was demolished, only the residence can be reconstructed; and

WHEREAS, the Board is not persuaded that the Appellant’s two examples of DOB construction approvals reflect a practice of interpreting ZR § 54-41 to allow phased construction; and

WHEREAS, the Board agrees with DOB that the 75 percent limit would not have any meaning if property owners, particularly within a single job application and pursuant to a single permit, were able to avoid the restriction simply by phasing construction; and

WHEREAS, further, the Board notes that it is difficult to communicate such phased development on building plans or to enforce it out in the field; and

## CONCLUSION

WHEREAS, the Board notes that, in the end, the only element of the Building upon which the Appellant and DOB disagree is whether the 110 sq. ft. one-story encroachment in the rear yard is permitted pursuant to the terms of ZR § 54-41 and can remain; and

WHEREAS, the Board notes that although there are several other matters that the Appellant and DOB dispute, those matters do not affect the outcome of the Building except with regards to the one-story encroachment; and

WHEREAS, the Board agrees with DOB that a modification of the Building to reflect (1) the removal of the 110 sq. ft. one-story encroachment in the rear yard formerly occupied by community facility use and (2) a residential use within the portion of the basement beneath the two-story encroachment in the rear yard reflects construction that is consistent with the restrictions of ZR § 54-41; and

WHEREAS, the Board agrees with DOB that the one-story portion of the Building formerly occupied only by the doctor’s office should not have been reconstructed since: (1) it is not a residence and (2) its construction increases the degree of non-compliance as to encroachment in the rear yard and lot coverage; and

WHEREAS, the Board concludes that the portion of the basement below the first- and second-story residential use can be reconstructed since it does not increase the degree of non-compliance because the first and second story establish a greater degree of non-compliance, given their height above grade, than the basement (which is within the footprint of the first story); and

WHEREAS, the Board accepts DOB’s position that the re-built basement portion of the Building can only be occupied by residential use since the residence is the only use to be reconstructed; and

WHEREAS, the Board is not persuaded by the Appellant’s assertions that (1) the text is ambiguous and (2) DOB’s interpretation is contrary to the intent of the Zoning Resolution; and

# MINUTES

WHEREAS, therefore, the Board finds that DOB properly objects to the current construction plans and agrees that the Appellant should modify the proposal to reflect (1) the removal of the one-story (approximately 110 sq. ft.) encroachment into the rear yard and (2) the inclusion of residential use within the entire three-story encroachment into the rear yard; and

*Therefore it is resolved* that, based upon the conclusions stated above, the Board denies the appeal seeking a reversal of the Final Determination of the Department of Buildings, dated January 6, 2012.

Adopted by the Board of Standards and Appeals, May 15, 2012.

Absent: Commissioner Montanez.....1

Negative:.....0

#### THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated July 13, 2011, acting on Department of Buildings Application No. 420287870, reads in pertinent part:

The proposed physical culture establishment, in the M1 zoning district, is not a permitted as-of-right use, as per Sec. 42-10 ZR, and is referred to the Board of Standards and Appeals for a special permit, pursuant to Sec. 73-36 ZR; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site in an M1-1 zoning district within the Special College Point District, the operation of a physical culture establishment (“PCE”) in eight of the existing 12 two-story attached commercial buildings on the site, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on March 20, 2012 after due notice by publication in *The City Record*, with a continued hearing on April 24, 2012, and then to decision on May 15, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 7, Queens,

recommends disapproval of this application, citing concerns about (1) the vacancy of some of the buildings on the site, (2) the need for additional foundation work including extensive piling, and (3) the difficulty of obtaining a reasonable return on the site; and

WHEREAS, Queens Borough President Helen Marshall recommended disapproval of this application, citing concerns regarding: (1) the ability of the proposed number of parking spaces to accommodate the increased parking demand generated by the proposed PCE; and (2) the inadequacy of the attended parking plan; and

WHEREAS, New York State Senator Tony Avella provided written testimony in support of the application; and

WHEREAS, the subject site is located on the northwest corner of the Whitestone Expressway service road and 31<sup>st</sup> Avenue, in an M1-1 zoning district within the Special College Point District; and

WHEREAS, the site has approximately 265 feet of frontage on 31<sup>st</sup> Avenue, 200 feet of frontage on the Whitestone Expressway, and a lot area of 107,284 sq. ft.; and

WHEREAS, the site is occupied by 12 two-story attached commercial buildings (each with a current certificate of occupancy for Use Group 16 warehouse use on the first floor and Use Group 6 office use on the second floor) with a total floor area of approximately 75,560 sq. ft., and an accessory parking lot located to the rear of the existing buildings; and

WHEREAS, the applicant proposes to consolidate and alter the seven westernmost buildings and the second floor of the eighth westernmost building (the first floor of that building will remain as warehouse use) to accommodate the proposed PCE; and

WHEREAS, the applicant also proposes to make alterations to the existing buildings to convert them to the proposed PCE use, and to construct a new first story mezzanine for a lounge area, roof deck, and spa pool; and

WHEREAS, the applicant states that the proposed alterations and enlargements will increase the total floor area at the site from approximately 75,560 sq. ft. to 78,266 sq. ft.; and

WHEREAS, the PCE will be operated as New York Spa; and

WHEREAS, the proposed hours of operation are: 6:00 a.m. to 12:00 a.m., daily; and

WHEREAS, the applicant represents that the services at the PCE include facilities for instruction and programs for physical improvement, as well as facilities for the practice of massage by New York State licensed masseurs and masseuses; and

WHEREAS, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

---

# MINUTES

---

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the applicant states that the Special College Point District regulations do not restrict the use of the site for the proposed PCE; and

WHEREAS, in response to the concerns raised by the Borough President, and at the direction of the Board, the applicant filed a Zoning Resolution Determination Form (“ZRD1”) with the Department of Buildings (“DOB”) for review of the proposed attended parking scheme; and

WHEREAS, the applicant submitted the ZRD1 which reflects that DOB reviewed the attendant parking arrangement and approved the layout without conditions; and

WHEREAS, in response to the Borough President’s concern regarding a lack of parking spaces, the applicant states that the proposed PCE use and the existing warehouse and office uses on the site require a total of 148 parking spaces, and that in addition to the proposed 140 open accessory attended parking spaces located in the accessory parking lot at the rear of the site, the proposal provides for eight new enclosed parking spaces in the remaining warehouse buildings, and one parking space in the PCE; thus, there will be a total of 149 on-site parking spaces for the site; and

WHEREAS, the Board acknowledges the concerns raised by the Community Board, but notes that such considerations are not relevant to the required findings under ZR § 73-36; and

WHEREAS, at hearing, the Board questioned whether landscaping was required for the site; and

WHEREAS, in response, the applicant states that landscaping is not required pursuant to the Zoning Resolution, but that it will provide a 3’-0” wide landscaped buffer and a metal fence with a height of 6’-0” around the perimeter of the site; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 17.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No. 12BSA003Q, dated July 6, 2011; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure;

Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved* that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site in an M1-1 zoning district within the Special College Point District, the operation of a physical culture establishment (“PCE”) in eight of the existing 12 two-story attached commercial buildings on the site, contrary to ZR § 42-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received January 19, 2012” - Nine (9) sheets; and *on further condition*:

THAT the term of this grant will expire on May 15, 2022;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages must be performed by New York State licensed massage therapists;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT fire safety measures must be installed and/or maintained as shown on the Board-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 15, 2012.

### CEQR #12-BSA-040K

APPLICANT – Eric Palatnik, P.C., for Alla Lubimor, owner.

SUBJECT – Application November 14, 2011 – Special Permit (§73-622) for the enlargement of an existing single family home, contrary to lot coverage and floor area (§23-141(b)); side yards (§23-461(a)) and less than the required rear yard (§23-47). R3-1 zoning district.

PREMISES AFFECTED – 150 Norfolk Street, between Oriental and Shore Boulevard, Block 8756, Lot 19, Borough of Brooklyn.

### COMMUNITY BOARD #15BK

#### APPEARANCES –

For Applicant: Eric Palatnik.

**ACTION OF THE BOARD** – Application granted on condition.

#### THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown and Commissioner Hinkson.....4

Absent: Commissioner Montanez.....1

Negative:.....0

#### THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated October 25, 2011, acting on Department of Buildings Application No. 320398636, reads in pertinent part:

The proposed horizontal and vertical enlargement of the existing one-family residence in an R3-1 zoning district:

1. Creates a new non-compliance with respect to lot coverage and is contrary to Section 23-141(b) of the Zoning Resolution (ZR).
2. Creates a new non-compliance with respect to floor area and is contrary to Section 23-141(b) ZR.
3. Creates a new non-compliance with respect to rear yard and is contrary to Section 23-47 ZR.
4. Increases the degree of non-compliance with respect to the side yard(s) and is contrary to Sections 23-461(a) ZR and 54-31(ZR); and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03, to permit, in an R3-1 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area, lot coverage, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, 23-47, and 54-31; and

WHEREAS, a public hearing was held on this application on February 14, 2012 after due notice by publication in *The City Record*, with continued hearings on March 20, 2012 and April 24, 2012, and then to decision on May 15, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, a representative of the Madison-Marine-Homecrest Civic Association testified in opposition to this application, citing concerns with the effect of the proposed enlargement on the character of the surrounding neighborhood; and

WHEREAS, the subject site is located on the west side of Norfolk Street, between Shore Boulevard and Oriental Boulevard, within an R3-1 zoning district; and

WHEREAS, the subject site has a total lot area of 3,074 sq. ft., and is occupied by a single-family home with a floor area of 783 sq. ft. (0.26 FAR); and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 783 sq. ft. (0.26 FAR) to 3,003 sq. ft. (0.98 FAR); the maximum permitted floor area is 1,537 sq. ft. (0.50 FAR); and

WHEREAS, the applicant proposes to provide a lot coverage of 49 percent (35 percent is the maximum permitted); and

WHEREAS, the applicant proposes to maintain the existing side yard along the northern lot line with a width of 0'-11", and to maintain the existing side yard along the southern lot line with a width of 4'-10" (two side yards with a minimum width of 5'-0" and 8'-0", respectively, are required); and

WHEREAS, the proposed enlargement will provide a rear yard with a depth of 24'-3" (a minimum rear yard depth of 30'-0" is required); and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, and will not impair the future use or development of the surrounding area; and

WHEREAS, the applicant submitted a study of FARs in the area which reflects that there are numerous homes in the vicinity of the site with FARs that exceed 1.0; and

WHEREAS, the applicant also submitted a streetscape of the homes immediately surrounding the site; and

WHEREAS, at hearing, the Board directed the applicant to provide an extended streetscape and revise the analysis of the homes included in the streetscape to only reflect the legal conditions of the homes; and

WHEREAS, in response, the applicant provided a revised streetscape and analysis, which reflects that the street on which the site is located consists of detached single-family homes that range in height from one to three stories, and that the proposed enlargement (which complies with the underlying zoning district regulations related to height) is consistent with the character of the surrounding homes; and

WHEREAS, the applicant also submitted an analysis indicating that at least eight homes along Norfolk Street between Oriental Boulevard and Shore Boulevard have been granted special permits pursuant to ZR § 73-622 in the past ten years, and that the subject homes were all granted FARs ranging from 0.94 to 1.0; and

WHEREAS, the Board notes that the evidence submitted by the applicant included some erroneous information which

# MINUTES

the Board has not relied on; rather, the Board relies on its own review of its prior grants pursuant to ZR § 73-622 as well as the site visits conducted by the members of the Board; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, at hearing, the Board questioned how the cellar will be constructed without disturbing the existing exterior walls; and

WHEREAS, in response, the applicant submitted a letter and drawings from its engineering consultant detailing how the proposed cellar will be constructed while retaining the existing exterior walls; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03.

*Therefore it is resolved,* that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, within an R3-1 zoning district, the enlargement of a single-family home, which does not comply with the zoning requirements for floor area, lot coverage, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, 23-47, and 54-31; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received January 26, 2012"-(12) sheets; and *on further condition:*

THAT the following shall be the bulk parameters of the building: a maximum floor area of 3,003 sq. ft. (0.98 FAR); lot coverage of 49 percent; a side yard with a minimum width 0'-11" along the northern lot line; a side yard with a minimum width of 4'-10" along the southern lot line; and a rear yard with a minimum depth of 24'-3", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure

compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 15, 2012.

### COMMUNITY BOARD #15BK

APPEARANCES –

For Applicant: Richard Lobel.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins,

Commissioner Ottley-Brown and Commissioner Hinkson.....4

Absent: Commissioner Montanez.....1

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated December 28, 2011, acting on Department of Buildings Application No. 320405931, reads in pertinent part:

1. Proposed plans are contrary to ZR § 23-141(b) in that the proposed floor area ratio (FAR) exceeds the maximum permitted.
2. Proposed plans are contrary to ZR § 23-461(b) in that the proposed side yard is less than the minimum required; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03, to permit, in an R4 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio ("FAR") and side yards, contrary to ZR §§ 23-141 and 23-461; and

WHEREAS, a public hearing was held on this application on March 20, 2012, after due notice by publication in *The City Record*, with a continued hearing on April 24, 2012, and then to decision on May 15, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the east side

---

# MINUTES

---

of East 28<sup>th</sup> Street, between Avenue S and Avenue T, within an R4 zoning district; and

WHEREAS, the subject site has a total lot area of 2,000 sq. ft., and is occupied by a single-family home with a floor area of 2,063 sq. ft. (1.03 FAR); and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 2,063 sq. ft. (1.03 FAR) to 2,458 sq. ft. (1.23 FAR); the maximum permitted floor area is 1,500 sq. ft. (0.75 FAR); and

WHEREAS, the applicant proposes to maintain the existing side yard along the southern lot line with a width of 4'-6" (a minimum width of 8'-0" is required); and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, and will not impair the future use or development of the surrounding area; and

WHEREAS, the applicant notes that the adjacent home to the south of the site, at 1915 East 28<sup>th</sup> Street, is a three-story single-family home with a floor area of 4,591 sq. ft. (2.3 FAR); and

WHEREAS, the applicant further notes that at least three other homes in the vicinity of the site were enlarged pursuant to the special permit under ZR §73-622, and that the subject homes had FARs of 1.22, 1.30, and 1.34, respectively, and therefore the proposed FAR of 1.23 is consistent with the nature of residential development in the surrounding area; and

WHEREAS, the applicant notes that a block like the subject block entirely within an R4 zoning district may be eligible for the predominantly built-up regulations, which include an increased floor area of 1.35 FAR as-of-right, but because the existing front yard of 4'-6" does not satisfy the minimum depth of 10'-0", the predominantly built-up area regulations cannot be applied to the subject site, thus the floor area request is necessary; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR

§§ 73-622 and 73-03, to permit, within an R4 zoning district, the enlargement of a single-family home, which does not comply with the zoning requirements for FAR and side yards, contrary to ZR §§ 23-141 and 23-461; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received April 9, 2012"- (9) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area of 2,458 sq. ft. (1.23 FAR); a front yard with a depth of 4'-6"; a side yard with a minimum width of 4'-6" along the southern lot line; no side yard along the northern lot line; and a rear yard with a depth of 31'-9", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 15, 2012.

## \*CORRECTION

This resolution adopted on September 13, 2011, under Calendar No. 259-06-BZ and printed in Volume 96, Bulletin Nos. 36-38, is hereby corrected to read as follows:

### 259-06-BZ

APPLICANT – Fredrick A. Becker, for Ahi Ezer Congregation, owner.

SUBJECT – Application July 11, 2011 – Extension of Time to Complete Construction of a previously granted Variance (§72-21) for the enlargement of an existing one and two-story synagogue which expired on June 12, 2011. R-5 (OP) zoning district.

PREMISES AFFECTED – 1885-1891 Ocean Parkway, northeast corner of Ocean Parkway and Avenue S, Block 6682, Lot 60, Borough of Brooklyn.

### COMMUNITY BOARD #15BK

APPEARANCES –

For Applicant: Lyra Altman.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Otley-Brown, Commissioner Hinkson and Commissioner Montanez.....5

Negative:.....0

**RESOLUTION** –

WHEREAS, this is an application for a reopening and an extension of time to complete construction of a previously granted variance to permit, in an R5 zoning district within the Special Ocean Parkway District, the enlargement of an existing one- and two-story synagogue, which expired on June 12, 2011; and

WHEREAS, a public hearing was held on this application on August 16, 2011, after due notice by publication in *The City Record*, and then to decision on September 13, 2011; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson and Commissioner Montanez; and

WHEREAS, the subject site is located on the northeast corner of Ocean Parkway and Avenue S, in an R5 zoning district within the Special Ocean Parkway District; and

WHEREAS, the Board has exercised jurisdiction over the site since June 12, 2007 when, under the subject calendar number, the Board granted a variance to permit the proposed enlargement of an existing one- and two-story synagogue, which does not comply with applicable zoning requirements for floor area ratio, open space, lot coverage, side yards, front yards, wall height, setback, sky exposure plane, parking and landscaping, contrary to ZR §§ 23-141(b), 23-464, 23-662, 113-12, 23-45, 23-631, 25-18, 25-31 and 113-30; and

WHEREAS, substantial construction was to be completed by June 12, 2011, in accordance with ZR § 72-23; and

WHEREAS, the applicant states that due to financing

delays, construction has not yet commenced on the site and additional time is necessary to complete the project; thus, the applicant now requests an extension of time to complete construction; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to complete construction is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated June 12, 2007, so that as amended this portion of the resolution shall read: “to grant an extension of the time to complete construction for a term of four years, to expire on June 12, 2015; *on condition*:

THAT substantial construction shall be completed by June 12, 2015;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (DOB Application No. 302146997)

Adopted by the Board of Standards and Appeals, September 13, 2011.

**\*The resolution has been revised to correct the Block No. which read: “Block 682”... now reads: Block 6682”. Corrected in Bulletin No. 21, Vol. 97, dated May 23, 2012.**

## \*CORRECTION

This resolution adopted on May 18, 2010, under Calendar No. 220-08-BZ and printed in Volume 95, Bulletin No. 21, is hereby corrected to read as follows:

### 220-08-BZ

#### CEQR #09-BSA-056K

APPLICANT – Moshe M. Friedman, for Samuel Jacobowitz, owner.

SUBJECT – Application August 28, 2008 – Variance (§72-21) to permit the enlargement of a non-conforming one-family dwelling, contrary to §42-10. M1-1 zoning district. PREMISES AFFECTED – 95 Taaffe Place, east side, 123'-3.5" south of intersection of Taaffe Place and Park Avenue, Block 1897, Lot 23, Borough of Brooklyn.

#### COMMUNITY BOARD #3BK

**ACTION OF THE BOARD** – Application granted on condition.

#### THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5  
Negative:.....0

#### THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Superintendent, dated August 30, 2007, acting on Department of Buildings Application No. 310020410 reads, in pertinent part:

“Proposed...one (1) family dwelling (UG 2) in the subject M1-1 district is contrary to ZR 42-10, and must be referred to the Board of Standards and Appeals;” and

WHEREAS, this is an application under ZR § 72-21 to permit, within an M1-1 zoning district, the construction of a three-story and basement single-family home, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on August 18, 2009, after due notice by publication in the *City Record*, with continued hearings on December 15, 2009, March 23, 2010 and April 27, 2010, and then to decision on May 18, 2010; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Council Member Letitia James provided testimony in support of this application; and

WHEREAS, the site is located on the east side of Taaffe Place between Park Avenue and Myrtle Avenue, within an M1-1 zoning district; and

WHEREAS, the subject site has a width of 25 feet, a depth of 87 feet, and a total lot area of 2,129 sq. ft.; and

WHEREAS, the site is occupied by a non-conforming two-story single-family home located at the rear of the property with a floor area of 1,534 sq. ft. (0.72 FAR) (the “Existing Home”), which is proposed to be demolished; and

WHEREAS, the applicant represents that the current residential use has existed without interruption since approximately 1887, and is therefore a legal non-conforming use; and

WHEREAS, the applicant proposes to build a three-story and basement single-family home with a floor area of 4,678 sq. ft. (2.19 FAR); and

WHEREAS, the applicant initially proposed a two-story and basement home which covered nearly the entire lot, with a floor area of approximately 5,236 sq. ft. (2.46 FAR), a total height of 48'-0", and a rear yard with a depth of 1'-2"; and

WHEREAS, the Board notes that the applicant's original proposal did not include the square footage located in the basement towards the floor area calculations, and listed the floor area as 3,462 sq. ft. (1.63 FAR), but that when the basement is included the proposal had a floor area of 5,236 sq. ft. (2.46 FAR); and

WHEREAS, at hearing, the Board directed the applicant to reduce the size of the proposed home and to include the basement in the floor area calculations; and

WHEREAS, in response, the applicant revised its plans to the current proposal for a three-story and basement home with a floor area of 4,678 sq. ft. (2.19 FAR) including the basement, a total height of 39'-2 1/2", and a rear yard with a depth of 34'-9 3/4"; and

WHEREAS, residential use is not permitted in the M1-1 district; therefore, the applicant seeks a variance to permit the non-conforming use; and

WHEREAS, the applicant states that the following are unique physical conditions which create an unnecessary hardship in developing the site in conformance with applicable regulations: (1) the small size of the lot; and (2) the obsolescence of the existing building; and

WHEREAS, as to the lot's size, the applicant states that the lot has a width of 25 feet and a depth of 87 feet; and

WHEREAS, the applicant represents that the 25-ft. width of the subject site is too narrow to accommodate a building with a loading dock or adequately sized floor plates to support a commercial or manufacturing use; and

WHEREAS, as to the uniqueness of this condition, the applicant submitted a land use map indicating that all conforming developments in the surrounding area are located on lots with widths exceeding that of the subject site; and

WHEREAS, the applicant represents that many lots in the area also have a greater depth than the subject site, and that any conforming development on the site would be undersized due to the site's shallow depth in conjunction with its narrow width; and

WHEREAS, the Board notes that while the surrounding area includes several lots of similar size, such lots are primarily occupied by residential uses; and

WHEREAS, however, unlike other such lots occupied by residential buildings, the applicant represents that the Existing Home is obsolete for its intended purpose and therefore must be demolished; and

WHEREAS, as to the functional obsolescence of the Existing Home, the applicant represents that it is no longer suitable for residential use due to its age, construction, floor

---

# MINUTES

---

plate, floor-to-ceiling heights, size, and structural condition; and

WHEREAS, the applicant further represents that the above-mentioned features of the Existing Home make it similarly unsuitable for any conforming use; and

WHEREAS, the applicant states that the Existing Home was built prior to 1887; and

WHEREAS, the applicant submitted a certificate of occupancy which reflects that the subject site was occupied by a single-family home on July 7, 1961, and states that the single-family home was also recorded on an 1887 Sanborn map; and

WHEREAS, the applicant submitted a report by a consulting engineer (the "Engineer's Report"), which stated that the existing building cannot be renovated or rehabilitated for residential use due to its poor structural condition; and

WHEREAS, specifically, the Engineer's Report found that the Existing Home has the following structural problems: (1) substandard floor-to-ceiling heights, as the second floor of the building has a floor-to-ceiling height of only 7'-3"; and (2) lot line windows which are incapable of providing legal light and ventilation; and

WHEREAS, the Engineer's Report also noted conditions reflecting the general deterioration of the Existing Home, such as damage to the walls and ceiling, portions of the flooring have buckled, the roofing membrane is unsatisfactory, and the wood studs are deteriorated; and

WHEREAS, the Engineer's Report concluded that the Existing Home was built to obsolete standards which are inconsistent with modern building requirements and would necessitate demolition to meet current Building Code requirements; and

WHEREAS, the applicant notes that the existing home is also set back on the lot such that there is an oversized front yard and no rear yard, which is out of context with the other buildings on the subject block, all of which are situated closer to the street line; and

WHEREAS, the Board agrees that the home is obsolete to be re-used, and notes that demolition of the building results in a clear site that nevertheless is unique due to its narrowness and shallow depth; and

WHEREAS, based upon the above, the Board finds that the aforementioned unique physical conditions, when considered in the aggregate, create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the applicant submitted a feasibility study that analyzed a conforming manufacturing building with a total floor area of 2,129 sq. ft.; and

WHEREAS, the feasibility study concluded that the conforming scenario would not realize a reasonable return, and that the requested variance is necessary to develop the site with a habitable home; and

WHEREAS, based upon the above, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict conformance with zoning district regulations will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed

building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant represents that the surrounding area is a mix of residential, commercial, and manufacturing uses; and

WHEREAS, the applicant states that the proposed residential use is consistent with the character of the area, which includes many residential buildings; and

WHEREAS, in support of the above statements, the applicant submitted a 400-ft. radius diagram showing the various uses in the vicinity of the site, which indicates that a number of residential buildings are located in the area surrounding the subject site; and

WHEREAS, specifically, the radius diagram reflected that residential buildings are located directly adjacent to the site on both the north and south sides and to the rear of the site; and

WHEREAS, the Board agrees that there is a context for residential use in the area and finds that the introduction of a single-family home will not impact nearby conforming uses; and

WHEREAS, as to bulk, the applicant notes that the proposed 2.19 FAR is within the zoning district parameters of the adjacent R6 district and that no bulk waivers are requested; and

WHEREAS, the applicant submitted a neighborhood study indicating that a number of the smaller residential buildings on the subject block have floor areas larger than the proposed home and FARs ranging between 2.2 and 2.36; and

WHEREAS, the neighborhood study also reflected that at least seven residential buildings on the subject block have heights of 44'-0" or greater; and

WHEREAS, the applicant notes that the proposal also provides a 34'-9 3/4" rear yard, which is consistent with the adjacent R6 zoning district, which requires a rear yard with a minimum depth of 30'-0"; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, accordingly, the Board finds that the hardship herein was not created by the owner or a predecessor in title, but is due to the unique conditions of the site; and

WHEREAS, as noted above, the applicant initially proposed a two-story and basement home with a floor area of approximately 5,236 sq. ft. (2.46 FAR), a total height of 48'-0", and a rear yard with a depth of 1'-2"; and

WHEREAS, during the course of the hearing process, and at the Board's direction, the applicant revised its plans to provide the current proposal for a three-story and basement home with a floor area of 4,678 sq. ft. (2.19 FAR), a total height of 39'-2 1/2", and a rear yard with a depth of 34'-9 3/4"; and

WHEREAS, at hearing, the Board questioned the amount of relief being requested, specifically with regards to the size of the home; and

WHEREAS, in response, the applicant noted that the size

---

# MINUTES

---

of the home is similar to the size of two-family or multiple dwellings that would be economically feasible; and

WHEREAS, in support of this assertion, the applicant provided additional analysis related to the feasibility of a similarly sized two-family home; and

WHEREAS, accordingly, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (“EAS”) 09BSA056K, dated June 25, 2008; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the New York City Department of Environmental Protection’s (“DEP”) Bureau of Environmental Planning and Assessment has reviewed the project for potential hazardous materials; and

WHEREAS, DEP has reviewed the April 2008 Phase I Environmental Site Assessment report and May 2009 Construction Health and Safety Plan and finds them acceptable and has concluded that the construction and use of the site will not result in significant adverse hazardous materials impacts; and

WHEREAS, DEP concluded that the proposed project will not result in a significant adverse hazardous materials impact provided that a Remedial Closure Report certified by a professional engineer is submitted to DEP for approval and issuance of a Notice of Satisfaction; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved* that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit, within an M1-1 zoning district, the construction of a

three story and basement single-family home, which is contrary to ZR § 42-10, *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked “Received April 15, 2010”– (10) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the proposed building: three stories and basement, a maximum floor area of 4,678 sq. ft. (2.19 FAR); a total height of 39’-2 ½”; and a rear yard with a depth of 34’-9 ¾”, as shown on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT construction shall proceed in accordance with ZR § 72-23; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 18, 2010.

**\*The resolution has been Amended. Corrected in Bulletin No. 21 Vol. 97, dated May 23, 2012.**

## \*CORRECTION

This resolution adopted on January 24, 2012, under Calendar No. 128-11-BZ and printed in Volume 97, Bulletin Nos. 4-5, is hereby corrected to read as follows:

### 128-11-BZ

#### CEQR #12-BSA-010K

APPLICANT – Law Office of Fredrick A. Becker, for Levana Pinhas and David Pinhas, owners.

SUBJECT – Application August 31, 2011 – Special Permit (§73-622) for the enlargement of an existing single family home contrary to floor area, open space and lot coverage (§23-141); side yard (23-461) and less than the required rear yard (§23-47). R3-2 zoning district.

PREMISES AFFECTED – 1860 East 23<sup>rd</sup> Street, west side of East 23<sup>rd</sup> Street, between Avenue R and Avenue S, Block 6828, Lot 31, Borough of Brooklyn.

#### COMMUNITY BOARD #15BK

APPEARANCES –

For Applicant: Lyra J. Altman.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Otley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

**THE RESOLUTION** –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated August 8, 2011, acting on Department of Buildings Application No. 320325028, reads in pertinent part:

Proposed plans are contrary to ZR 23-141 in that the proposed floor area exceeds the maximum permitted.

Proposed plans are contrary to ZR 23-141 in that the proposed open space ratio is less than the minimum required.

Proposed plans are contrary to ZR 23-141 in that the proposed lot coverage exceeds the maximum permitted.

Proposed plans are contrary to ZR 23-461 in that the proposed side yard is less than the minimum required.

Proposed plans are contrary to ZR 23-47 in that the proposed rear yard is less than the minimum required; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03, to permit, in an R3-2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area, open space ratio, lot coverage, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461 and 23-47; and

WHEREAS, a public hearing was held on this application on December 13, 2011, after due notice by publication in *The City Record*, and then to decision on January 24, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan and Commissioner Montanez; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of East 23<sup>rd</sup> Street, between Avenue R and Avenue S, within an R3-2 zoning district; and

WHEREAS, the subject site has a total lot area of 4,000 sq. ft., and is occupied by a single-family home with a floor area of 2,127 sq. ft. (0.53 FAR); and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 2,127 sq. ft. (0.53 FAR) to 3,964 sq. ft. (0.99 FAR); the maximum permitted floor area is 2,000 sq. ft. (0.50 FAR); and

WHEREAS, the applicant proposes to provide an open space ratio of 57 percent (65 percent is the minimum required); and

WHEREAS, the applicant proposes to provide a lot coverage of 43 percent (35 percent is the maximum permitted); and

WHEREAS, the applicant proposes to maintain the existing side yard along the northern lot line with a width of 4'-3 5/16", and to maintain the existing side yard along the southern lot line with a width of 8'-10 1/2" (two side yards with minimum widths of 5'-0" each are required); and

WHEREAS, the proposed enlargement will provide a rear yard with a depth of 20'-0" (a minimum rear yard depth of 30'-0" is required); and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, and will not impair the future use or development of the surrounding area; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03.

*Therefore it is resolved*, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, within an R3-2 zoning

---

district, the enlargement of a single-family home, which does not comply with the zoning requirements for floor area, open space ratio, lot coverage, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461 and 23-47; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked “Received November 16, 2011”-(7) sheets and “January 11, 2012”-(2) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area of 3,964 sq. ft. (0.99 FAR); a minimum open space ratio of 57 percent; a maximum lot coverage of 43 percent; a side yard with a minimum width of 4’-3 5/16” along the northern lot line; a side yard with a minimum width of 8’-10 ½” along the southern lot line; and a rear yard with a minimum depth of 20’-0”, as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT DOB shall review and approve compliance with the planting requirements under ZR § 23-451;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 24, 2012.

**\*The resolution has been revised to correct the open space ratio and lot coverage, which read in part: “...open space ratio of 61 percent and lot coverage of 42 percent...” now reads: “...open space ratio of 57 percent and lot coverage of 43 percent...”. Corrected in Bulletin No. 21, Vol. 97, dated May 23, 2012.**

**REGULAR MEETING  
TUESDAY MORNING, JUNE 5, 2012  
10:00 A.M.**

Present: Chair Srinivasan, Vice-Chair Collins,  
Commissioner Ottley-Brown, Commissioner Hinkson and  
Commissioner Montanez.

**SPECIAL ORDER CALENDAR**

**820-67-BZ**

APPLICANT – Willy C. Yuin, R.A., for Rick Corio, Pres.  
Absolute Car, owner.

SUBJECT – Application October 28, 2011 – Extension of  
Term of an approved Variance (§72-21) for the operation of  
a automotive repair shop (UG16) which expired on  
November 8, 2011. R-3A zoning district.

PREMISES AFFECTED – 41Barker Street, east side of  
414.19' south Woodruff Lane, Block 197, Lot 34, Borough  
of Staten Island.

**COMMUNITY BOARD #1SI**

APPEARANCES – None.

**ACTION OF THE BOARD** – Application granted on  
condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins,  
Commissioner Ottley-Brown, Commissioner Hinkson and  
Commissioner Montanez .....5  
Negative:.....0

**THE RESOLUTION** –

WHEREAS, this is an application for a re-opening and  
an extension of term of a previously granted variance to permit  
the operation of an automotive repair shop (Use Group 16),  
which expired on November 8, 2011; and

WHEREAS, a public hearing was held on this  
application on February 14, 2012, after due notice by  
publication in *The City Record*, with continued hearings on  
March 20, 2012, May 1, 2012, and then to decision on June 5,  
2012; and

WHEREAS, the premises and surrounding area had site  
and neighborhood examinations by Chair Srinivasan,  
Commissioner Montanez, and Commissioner Ottley-Brown;  
and

WHEREAS, Community Board 1, Staten Island,  
recommends approval of this application; and

WHEREAS, the subject site is located on the east side of  
Barker Street, between Castleton Avenue and Woodruff Lane,  
within an R3A zoning district; and

WHEREAS, the Board has exercised jurisdiction over  
the subject site since November 13, 1945 when, under BSA  
Cal. No. 248-39-BZ, the Board granted a variance to permit the  
site to be used as an automobile repair shop, for a term of five  
years; and

WHEREAS, subsequently, the grant was amended and  
the term extended by the Board at various times; and

WHEREAS, on October 31, 1967, under the subject

calendar number, the Board granted a variance to permit the  
continuation of the existing automobile repair shop which had  
expired on February 21, 1961, for a term of five years; and

WHEREAS, subsequently, the grant was amended and  
the term extended by the Board at various times; and

WHEREAS, most recently, on August 6, 2002, the Board  
granted a ten-year extension of term, which expired on  
November 8, 2011; and

WHEREAS, the applicant now requests an additional  
ten-year extension of term; and

WHEREAS, pursuant to ZR § 11-411, the Board may  
permit an extension of term; and

WHEREAS, at hearing, the Board questioned whether  
the applicant had a permit from the Department of  
Environmental Protection (“DEP”) for the spray booth at the  
site; and

WHEREAS, in response, the applicant submitted a  
Certificate of Operation for the spray booth from DEP,  
which expires on July 19, 2015; and

WHEREAS, based upon the above, the Board finds the  
requested extension of term is appropriate, with certain  
conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and  
Appeals *reopens* and *amends* the resolution, dated October 31,  
1967, so that as amended this portion of the resolution shall  
read: “to extend the term for ten years from November 8,  
2011, to expire on November 8, 2021; *on condition* that the  
use and operation of the site shall comply with the BSA-  
approved plans associated with the prior grant; and *on  
further condition*:

THAT the term of the grant will expire on November 8,  
2021;

THAT the site will be maintained free of debris and  
graffiti;

THAT the above conditions will be reflected on the  
certificate of occupancy;

THAT all conditions from prior resolutions not  
specifically waived by the Board remain in effect; and

THAT the Department of Buildings must ensure  
compliance with all other applicable provisions of the  
Zoning Resolution, the Administrative Code and any other  
relevant laws under its jurisdiction irrespective of plan(s)  
and/or configuration(s) not related to the relief granted.”  
(DOB Application No. 520080867)

Adopted by the Board of Standards and Appeals June 5,  
2012.

**305-00-BZ**

APPLICANT – Robert A. Caneco, for Robert Gullery,  
owner.

SUBJECT – Application April 16, 2012 – Extension of  
Time to obtain a Certificate of Occupancy for a previously  
approved Variance (§72-21) for the continued operation of a  
UG8 parking lot which expired on January 15, 2004; waiver  
of the Rules. R3-1 zoning district.

PREMISES AFFECTED – 268 Adams Avenue, south side  
of Adams Avenue between Hylan Boulevard and Boundary

# MINUTES

Avenue, Block 3672, Lot 14, Borough of Staten Island.

## COMMUNITY BOARD #2SI

APPEARANCES – None.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

**THE RESOLUTION** –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, and an extension of time to obtain a certificate of occupancy, which expired on January 15, 2004; and

WHEREAS, a public hearing was held on this application on May 1, 2012 after due notice by publication in *The City Record*, and then to decision on June 5, 2012; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Montanez; and

WHEREAS, the site is located on the south side of Adams Avenue between Hylan Boulevard and Boundary Avenue, within an R3-1 zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 15, 2002 when, under BSA Cal. No. 305-00-BZ, the Board granted a variance to permit a parking lot (Use Group 8), contrary to ZR § 22-10; a condition of the grant was that a certificate of occupancy be obtained by January 15, 2004; and

WHEREAS, the applicant notes that the variance for the subject parking lot was granted in conjunction with a variance under BSA Cal. No. 304-00-BZ to permit the enlargement of an existing auto repair center at 2044 Hylan Boulevard, which triggered the need for additional parking; and

WHEREAS, the applicant states that a certificate of occupancy has not been obtained for the parking lot because the owner did not install lighting at the site in accordance with the BSA-approved plans and the requirements of the Building Code; and

WHEREAS, the applicant now requests an extension of time to obtain a certificate of occupancy; and

WHEREAS, the applicant states that prior to obtaining a certificate of occupancy the owner will install lighting in the parking lot in accordance with the BSA-approved plans; and

WHEREAS, based upon the above, the Board finds that the requested extension of time is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals waives the Rules of Practice and Procedure, reopens, and amends the resolution, dated January 15, 2002, so that as amended this portion of the resolution shall read: “to grant an extension of time to obtain a certificate of occupancy for one year from the date of this resolution, to expire on June 5, 2013; on condition that the use and operation of the site shall

comply with the BSA-approved plans associated with the prior grant; and on further condition::

THAT lighting will be installed in the parking lot in accordance with the BSA-approved plans;

THAT a new certificate of occupancy will be obtained by June 5, 2013;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (DOB Application No. 500429253)

Adopted by the Board of Standards and Appeals June 5, 2012.

## 395-04-BZ

APPLICANT – Moshe M. Friedman, P.E., for Congregation Imrei Yehudah, owner; Meyer Unsdrofer, lessee.

SUBJECT – Application April 3, 2012 – Extension of Time to Complete Construction of a previously approved variance (§72-21) for the construction of a UG4 synagogue which expired on November 1, 2011; Extension of Time to obtain a Certificate of Occupancy which expired on November 1, 2009; waiver of the Rules. R5 zoning district.

PREMISES AFFECTED – 1232 54<sup>th</sup> Street, southwest side 242’6” southeast of the intersection formed by 54<sup>th</sup> Street and 12<sup>th</sup> Avenue, Block 5676, Lot 17, Borough of Brooklyn.

## COMMUNITY BOARD #12BK

APPEARANCES –

For Applicant: Tzvi Friedman.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

**THE RESOLUTION** –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, and an extension of time to complete construction of a previously granted variance to permit the construction of a Use Group 4 synagogue, which expired on November 1, 2009; and

WHEREAS, a public hearing was held on this application on May 1, 2012, after due notice by publication in *The City Record*, and then to decision on June 5, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Collins, Commissioner Hinkson, and Commissioner Montanez; and

WHEREAS, this application is brought on behalf of

# MINUTES

Congregation Imrei Yehudah, a non-profit entity; and

WHEREAS, the subject site is located on the west side of 54<sup>th</sup> Street, between 12<sup>th</sup> Avenue and New Utrecht Avenue, within an R5 zoning district; and

WHEREAS, the Board has exercised jurisdiction over the site since November 1, 2005 when, under the subject calendar number, the Board granted a variance to permit the construction of a new synagogue and rectory, including a rabbi's apartment and a sexton's apartment (Use Group 4), with non-compliances as to floor area, lot coverage, front wall and sky exposure plane, side and front yards, and parking; and

WHEREAS, on April 17, 2007, the Board granted an amendment to permit the addition of a second floor mezzanine connected to the synagogue on the first floor to accommodate women congregants, and other interior layout modifications; and

WHEREAS, substantial construction was to be completed by November 1, 2009, in accordance with ZR § 72-23; and

WHEREAS, the applicant states that due to financing delays, additional time is necessary to complete the project; thus, the applicant now requests an extension of time to complete construction and obtain a certificate of occupancy; and

WHEREAS, the applicant also requests to modify the plans to permit minor changes to the interior layout of the site; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to complete construction and obtain a certificate of occupancy, and the requested modifications to the plans, are appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens*, and *amends* the resolution, dated November 1, 2005, so that as amended this portion of the resolution shall read: "to grant an extension of the time to complete construction and obtain a certificate of occupancy for a term of four years, to expire on June 5, 2016, and to permit the noted modifications to the BSA-approved plans; *on condition* that the use and operation of the site shall comply with the BSA-approved plans associated with the prior grant; and *on further condition*:

THAT substantial construction shall be completed and a certificate of occupancy obtained by June 5, 2016;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

(DOB Application No. 301860706)

Adopted by the Board of Standards and Appeals, June 5, 2012.

## APPEALS CALENDAR

### 154-11-A

APPLICANT – Eric Palatnik, for Atlantic Outdoor Advertising, Inc., owner.

SUBJECT – Application October 3, 2011 – Appeal seeking reversal of a Department of Buildings’ determination that the non-illuminated sign located on top the building of the site is not a legal non-conforming advertising sign that may be maintained and altered. M1-9 zoning district.

PREMISES AFFECTED – 23-10 Queens Plaza South, between 23<sup>rd</sup> Street and 24<sup>th</sup> Street, Block 425, Lot 5, Borough of Queens.

## COMMUNITY BOARD #2Q

APPEARANCES –

For Applicant: Eric Palatnik.

**ACTION OF THE BOARD** – Appeal Denied.

THE VOTE TO GRANT –

Affirmative: .....0

Negative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

THE RESOLUTION –

WHEREAS, the subject appeal comes before the Board in response to the determination of the Borough Commissioner of the Department of Buildings (“DOB”), dated September 23, 2011, to deny the approval of Application No. 420469415, for a sign at the subject site (the “Final Determination”); and

WHEREAS, the Zoning Resolution Determination Form (“ZRD1”) (dated June 3, 2010) attached to the Final Determination reads, in pertinent part:

1. As per documentation submitted, it is established that the relationship between the sign and the use of the zoning lot (building owned by Electrical Realty Corp) for which the sign was erected in 1936 to be considered as an accessory business sign.
2. No other evidence of legal use of an advertising sign prior to 1961 was submitted. Proposed conversion to an advertising sign

---

# MINUTES

---

shall comply with Zoning and Building Code regulations.

Please note that, existing non-conforming accessory roof sign that existed prior to 12/15/1961 can be restored to previous non-compliance if evidence demonstrates that no discontinuance for a period of two years from 1936 onwards has occurred as per ZR 52-61; and

WHEREAS a public hearing was held on this application on April 24, 2012, after due notice by publication in *The City Record*, with a continued hearing on May 15, 2012, and then to decision on June 5, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located within 200 feet of the approach to the Ed Koch Queensboro Bridge between 23<sup>rd</sup> Street and 24<sup>th</sup> Street, within an M1-9/R9 zoning district within the Special Long Island City Mixed Use District; and

WHEREAS, the site is occupied by a five-story factory building formerly occupied by Eagle Electric Manufacturing Company (“Eagle Electric”) (the “Building”) with an indirectly illuminated rooftop sign with the dimensions of 25’-0” by 78’-0” and a surface area of 1,950 sq. ft. (the “Sign”); and

WHEREAS, the Sign occupies the western edge of the roof of the Building, facing west on Queens Plaza South; and

WHEREAS, this appeal is brought on behalf of the lessee of the Sign (the “Appellant”); and

WHEREAS, the Appellant seeks a reversal of DOB’s determination that the Sign is an accessory business sign and therefore not permitted to be used as an advertising sign based on Appellant’s contention that the Sign is a non-conforming advertising sign; and

WHEREAS, DOB appeared and made submissions in opposition to this appeal; and

## PROCEDURAL HISTORY

WHEREAS, the Appellant asserts that the Sign was constructed in 1936 by Eagle Electric; and

WHEREAS, the Appellant asserts that Eagle Electric operated a manufacturing facility for electrical products at the site but the Building is currently vacant; and

WHEREAS, as evidenced by photographs, the Sign reflected the company name and slogans including “Since 1920 We’ve been in your home” and “Perfection is not an Accident;” and

WHEREAS, the Appellant asserts that since 1999 the Sign has been leased to a sign company which has used it as an advertising sign for different products not related to the site; and

WHEREAS, by determinations of the Queens Borough Commissioner in 2001 and 2002, the Sign was determined to be an accessory sign; specifically, the Borough Commissioner wrote: “[i]t is my determination based on the evidence submitted, to consider the sign in question a

business sign” and “It is the determination that the sign is grandfathered as an accessory business sign. The sign may not be converted to an advertising sign;” and

WHEREAS, on May 6, 2010, the Appellant again sought a Zoning Resolution Determination from DOB about whether the Sign is an advertising sign; and

WHEREAS, on June 3, 2010, DOB denied the request, which included the following determination: “. . . that the relationship between the Sign and the use of the zoning lot [established the sign] as an accessory business sign;” and

WHEREAS, on August 9, 2011, the Appellant filed a permit application (Job No. 420469415) to “chang[e] wording on existing roof-top accessory business sign;” and

WHEREAS, on September 23, 2011, DOB denied the request based on the June 3, 2010 DOB determination that the existing sign was an “accessory,” rather than an “advertising” sign; and

## RELEVANT STATUTORY PROVISIONS

### *ZR § 12-10 Definitions*

Accessory use, or accessory (2/2/11)

An "accessory use":

- (a) is a #use# conducted on the same #zoning lot# as the principal #use# to which it is related (whether located within the same or an #accessory building or other structure#, or as an #accessory use# of land), except that, where specifically provided in the applicable district regulations or elsewhere in this Resolution, #accessory# docks, off-street parking or off-street loading need not be located on the same #zoning lot#; and
- (b) is a #use# which is clearly incidental to, and customarily found in connection with, such principal #use#; and
- (c) is either in the same ownership as such principal #use#, or is operated and maintained on the same #zoning lot# substantially for the benefit or convenience of the owners, occupants, employees, customers, or visitors of the principal #use#.

When "accessory" is used in the text, it shall have the same meaning as #accessory use#.

\* \* \*

Sign, advertising (4/8/98)

An "advertising sign" is a #sign# that directs attention to a business, profession, commodity, service or entertainment conducted, sold, or offered elsewhere than upon the same #zoning lot# and is not #accessory# to a #use# located on the #zoning lot#.

\* \* \*

*ZR § 42-55 Additional Regulations for Signs Near Certain Parks and Designated Arterial Highways*

. . . (c) The more restrictive of the following shall apply:

- (1) any #advertising sign# erected, structurally altered, relocated or reconstructed prior to

---

# MINUTES

---

June 1, 1968, within 660 feet of the nearest edge of the right-of-way of an arterial highway, whose message is visible from such arterial highway, shall have legal #non-conforming use# status pursuant to Section 52-83 (Non-Conforming Advertising Signs), to the extent of its size existing on May 31, 1968; and

## THE ACCESSORY SIGN VS. ADVERTISING SIGN ANALYSIS

WHEREAS, the Appellant contends that the Final Determination should be reversed because (1) the Sign was lawfully-established in 1936 as an advertising sign as defined by ZR § 12-10 and may therefore be maintained as a legal non-conforming advertising sign pursuant to ZR § 42-55(c)(1), (2) the Sign was never used in an accessory manner, as evidence by its positioning and advertising content, and (3) the Sign is a legal non-conforming advertising sign that has existed without being discontinued and may be maintained and altered pursuant to ZR § 52-83; and

WHEREAS, the Appellant relies in part on the definitions for “advertising sign” and “accessory use” set forth at ZR § 12-10 and in part on the purpose and intent of the Sign, which are conditions not addressed in the definitions; and

WHEREAS, as noted above, ZR § 12-10 defines an advertising sign as “a #sign# that directs attention to a business, profession, commodity, service or entertainment conducted, sold, or offered elsewhere than upon the same #zoning lot# and is not #accessory# to a #use# located on the #zoning lot#;” and

WHEREAS, the Appellant asserts that the Sign is an advertising sign because it directed attention to several Eagle Electric products (including fuses and light switches) that were sold elsewhere than the Site and, thus, meets the advertising sign definition since it directs attention to a commodity sold or offered somewhere other than upon the same zoning lot; and

WHEREAS, in further support of its claim that the Sign was established as and always was an advertising sign, the Appellant looks to the purpose, function, and intent of the Sign; and

WHEREAS, the Appellant asserts that the Sign never generated attention to a use within the site; and

WHEREAS, the Appellant asserts that the Sign’s purpose was to direct attention to Eagle Electric’s products sold elsewhere and the Sign was not directing anyone to purchase the electrical parts shown on the Sign (or any other parts) at the Building; and

WHEREAS, the Appellant also cites to the location of the Sign above the Building, visible to drivers on the Queensboro Bridge as opposed to passersby on the street, which presented a unique opportunity to promote the Eagle Electric brand; and

WHEREAS, the Appellant states that the position and display of the Sign were designed strictly for advertising purposes including its location on top of the Building, where

it is not visible from the streets adjacent to the site; and

WHEREAS, the Appellant states that the Sign did not include the Building address or directional cues leading visitors to the site; and

WHEREAS, further, the Appellant contrasts the Sign with accessory business signs which target drivers and facilitate access; and

WHEREAS, in support of its assertions regarding the intent of the Sign, the Appellant submitted letters from a former Eagle Electric employee and from consultants with expertise in New York City advertising; and

WHEREAS, one consultant stated that the Eagle Electric sign reflected a larger marketing campaign and the craftsmanship that went into the Sign exceeded that of a typical accessory sign; and

WHEREAS, the Appellant disagrees with DOB and finds that a sign can be both advertising and accessory; and notes that the ZR does not define “accessory sign”; and

WHEREAS, the Appellant asserts that the Sign does not satisfy the paragraph (a) portion of the ZR § 12-10 definition of “accessory use,” because although the Eagle Electric sign was located on the same zoning lot as the principal use of the site for the Eagle Electric factory, the Sign was not an accessory use since there was never a sufficient causal connection between the Building and Sign to form the requisite principal-accessory relationship; and therefore the Sign is not restricted from being an advertising sign;

WHEREAS, the Appellant states that in order to establish an accessory use, the accessory use must be so connected to the principal use that if the principal use were removed, the accessory use would no longer serve any logical purpose; and

WHEREAS, the Appellant cites to Matter of 7-11 Tours Inc. v. Board of Zoning Appeals of the Town of Smithtown, 90 A.D.2d 486 (2d Dept. 1982) citing Lawrence v. Zoning Bd. of Appeals of Town of North Branford, 158 Conn. 509, 512-513 (1969) for the principle that an accessory use must not be just subordinate to the primary use but also concomitant; and

WHEREAS, the Appellant states that the cessation of Eagle Electric’s operations in the Building did not eliminate the utility of the Sign and, accordingly, the Sign was not dependent upon the operation of the business; and

WHEREAS, the Appellant asserts that the Sign is not “clearly incidental to and customarily found in connection” with the manufacturing use of the Building as per paragraph (b) of the ZR § 12-10 definition of “accessory use”; and

WHEREAS, the Appellant asserts that the language “clearly incidental to” in paragraph (b) of the definition requires that a sign and a business cannot be separated from each other and that the Sign without the business would not serve any purpose; and

WHEREAS, the Appellant cites to the example of the McDonald’s golden arches as being “clearly incidental” to the McDonald’s restaurant in that, the Appellant asserts, the purpose of the sign is to attract customers to a specific location and not to advertise the McDonald’s brand; and

---

# MINUTES

---

WHEREAS, the Appellant states that there was no relationship between the use of the Building and the Sign because the Sign could logically remain in its location regardless of the use of the Building; and

WHEREAS, secondly, the Appellant asserts that the Sign was not of the kind that is “customarily found in connection with” the use of the Building because such a sign would not have been installed if the Building were not located in view of such a significant amount of vehicular and train traffic; and

WHEREAS, the Appellant asserts that because the Sign’s design and large size can be distinguished from other signs on the roofs of other buildings in the vicinity, it does not meet the condition of being customarily found; and

WHEREAS, the Appellant cites to other Eagle Electric signs on other nearby Eagle Electric buildings which it finds to be examples of accessory signs because they are customarily found on buildings; and

WHEREAS, however, the Appellant concedes that the requirement set forth at paragraph (c) of the “accessory use” definition is met in that the Sign and Building were in common ownership and on the same zoning lot; and

WHEREAS, as to the continued use of the Sign, the Appellant asserts that pursuant to ZR § 42-55(c)(1) an advertising sign in an M1 district displayed within 660 feet of an arterial highway prior to June 1, 1968 may be granted non-conforming status as to its size; the text was adopted in 2001 rendering advertising signs non-conforming; and

WHEREAS, the Appellant asserts that the Sign was constructed in 1936 and is within 660 feet of the Queensboro Bridge and therefore should be deemed a non-conforming advertising sign pursuant to ZR § 42-55(c)(1); and

WHEREAS, the Appellant asserts that the Sign may be structurally altered as a non-conforming sign within a manufacturing district; and

WHEREAS, the Appellant states that under ZR § 52-83, any sign deemed as a non-conforming advertising sign under ZR § 42-55(c)(1) may be altered, reconstructed, or replaced provided there is no increase in the degree of non-conformity; and

WHEREAS, finally, the Appellant asserts that DOB’s current position is inconsistent with its previous determinations that the Sign was an advertising sign; and

WHEREAS, the Appellant cites to two prior Board cases to support its assertion that DOB and the Board have viewed similar signs as advertising signs; the first case is the Newport Cigarette sign (BSA Cal. No. 45-96-A), which involved a site occupied by a gasoline service station and a Use Group 6 retail store with a sign advertising Newport cigarettes that had a dimension of 48’-0” by 14’-0” located on a sign structure that extended 62’-0” off the ground facing an arterial highway; DOB and the Board rejected it as an accessory sign, finding that “the sign [was] larger than the store itself” and that to be accessory, a sign must be “directing attention to the business on the zoning lot, as opposed to the sale of the product generally”; and

WHEREAS, the Appellant draws a parallel between

the Sign and the Newport sign in that both are large signs elevated above the site that do not direct attention to the lot, do not provide information to direct drivers to the premises, are not readily visible to those in the immediate vicinity, face only the arterial highway and refer to products generally sold throughout the City, and do not direct attention to the business on the zoning lot as opposed to the sale of the product generally; and

WHEREAS, secondly, the Appellant cites to the New York Post case (BSA Cal. No. 90-99-A) in which there was a 50’-0” by 25’-0” sign on the upper side of a six-story building owned by the New York Post; the sign included a photograph of the New York Life Building with text “Humanity is our cornerstone/New York Life” and at the bottom of the photograph “as advertised in the New York Post;” and

WHEREAS, the Appellant asserts that the Eagle Electric sign is similar to the New York Post sign since the mention of Eagle Electric is insufficient to determine that the sign directs a viewer to the zoning lot; and

WHEREAS, the Appellant also points to the Pepsi sign in Long Island City, which remains and is identified as an advertising sign despite the cessation of Pepsi operations at the site; and

WHEREAS, lastly, the Appellant cites to Contest Promotions-NY v. NYC Department of Buildings, Sup. Ct. NY County, October 15, 2010, Rakower, J., Index No. 112333/10, for the principle that the court affirmed that the contest promotion signs were accessory business signs because they reflected “a contest that’s being held within the business” (p. 122); the Appellant distinguished the subject facts in which one could not participate in an activity referenced on the Sign at the site as there were not any electrical parts for sale at the subject lot and there was no possibility for a person to manufacture his or her own parts at the site; and

## DOB’s POSITION

WHEREAS, DOB makes the following primary points to support its position that the Sign is an accessory sign: (1) an advertising sign was never lawfully established; and (2) the advertising sign has not been shown to have existed without discontinuance; and

WHEREAS, as to the classification of the Sign, DOB asserts that the ZR § 12-10 definitions of advertising sign and accessory use establish the necessary distinctions between the two classifications of signs; and

WHEREAS, DOB identifies the distinction as accessory signs direct attention to activity *on* the zoning lot and advertising signs direct attention to activity *off* the zoning lot; and

WHEREAS, DOB notes that advertising signs have been prohibited at the site since June 28, 1940 (see 1916 ZR, Art. V § 21-B), were prohibited per the 1961 ZR § 42-53, and remain prohibited under the current zoning as set forth at ZR § 42-55; and

WHEREAS, DOB notes that accessory signs were permitted at the site under the 1916 Zoning Resolution and are permitted today, with certain limitations; and

---

# MINUTES

---

WHEREAS, DOB states that it found in 2001, 2002, 2010, and 2011 that to the extent the Sign was established at the site in the 1930s, it was a legal accessory sign; and

WHEREAS, DOB states that the Appellant conceded that only the Eagle Electric sign existed at the site as of the establishment of the Sign and that one sign could not simultaneously establish an accessory and an advertising sign because the establishment of one by definition precludes establishment of the other; and

WHEREAS, accordingly, DOB concludes that an advertising sign did not exist at the site as of June 28, 1940 and cannot exist today; and

WHEREAS, DOB states that the Eagle Electric sign was accessory because it was “located on” and “directed attention to” the “*same* zoning lot” as the Eagle Electric manufacturing facility and the fact that customers may not have visited the site is irrelevant; and

WHEREAS, DOB notes that there is not any exception for a sign that does not directly invite customers to transact retail business on the lot nor for a sign that does not identify the address of the business identified by the sign; and

WHEREAS, finally, the Appellant asserts that it is irrelevant whether the Sign was “intended” to build brand recognition or expand the business’ image; and

WHEREAS, DOB states that the Sign could not have been an advertising sign since it was located on the same lot as Eagle Electric; and

WHEREAS, DOB states that the Sign was established as an accessory sign and remained as such until its removal; however, since it was removed prior to February 27, 2001, any accessory sign at the site is subject to the restrictions of ZR §§ 42-53 through 42-55 which limit the size of such signs to 500 sq. ft. of surface area; and

WHEREAS, DOB states that even if it accepted a single undated photograph to cover the period from 1936 to 1999 to establish that the Sign existed at the site from December 15, 1961 to 1999, the only other evidence of there being an advertising sign at the site for the subsequent 12 years is six photographs dated July 16, 2011, reflecting a Lexus automobile advertising sign; and

WHEREAS, additionally, as to the decision in Contest Promotions-NY, LLC v. NYC Department of Buildings, Sup. Ct, NY County, October 15, 2010, Rakower, J., Index No. 112333/10, DOB asserts that the Appellant’s reliance is misplaced; and

WHEREAS, DOB states that the case involved a challenge to a DOB interpretation that certain proposed signs were advertising, rather than accessory and it does not have any relevance to the facts of the subject appeal; additionally, the Appellate Division reversed Judge Rakower’s decision on March 6, 2012 citing that the property owner had failed to exhaust administrative remedies; and

## THE SIGN’S CONTINUITY

WHEREAS, as to continuity, the Appellant asserts that the presence of the Sign has been continuous and obvious; and

WHEREAS, the Appellant asserts that DOB has

acknowledged that the Sign was installed in 1936; and

WHEREAS, the Appellant’s evidence to establish the Sign’s continuity through 2000 includes a letter from a former Eagle Electric employee which addresses the Sign’s presence in the 1940s; an artist’s statement that she viewed the Sign in 1989 and 2000; and the complexity of the Sign’s construction which includes painted metal, neon, and illumination; and

WHEREAS, the Appellant cites to DOB’s acknowledgment that where a sign contains the same copy over a period of time, substantial weight may be given to an argument of continuity; and

WHEREAS, the Appellant did not submit additional photographs of the Sign’s continuity but rested on the prominent location and the fact that the Sign would have been difficult to dismantle and reassemble; and

WHEREAS, as to the use since 2000, the Appellant submitted invoices and contracts from the Sign Company since it took control of the Sign in 1999; and

WHEREAS, the Board notes that the Appellant could restore the Sign to the non-conforming accessory dimensions if it has not been discontinued for more than two years, however the Appellant concedes that the Eagle Electric sign has been removed and an accessory sign has not been installed on the site for more than two years; thus, an accessory sign can no longer be installed at the formerly permitted dimensions; and

WHEREAS, as to the question of continuity, DOB states that even if the Sign were deemed to be advertising rather than accessory, the Appellant has not established that such sign existed on December 15, 1961 (the relevant date for the Sign being protected as a non-conforming use) and has continued without an interruption of two or more years pursuant to ZR § 52-61; and

WHEREAS, DOB states that the evidence submitted – one photograph of the Sign from the period of 1936 to 1999 and an affidavit from an Eagle Electric employee - fails to satisfy its standards as summarized in Technical Policy and Procedure Notice 14/1998; and

## CONCLUSION

WHEREAS, the Board agrees with DOB that the Sign was established as an accessory sign as it meets the ZR § 12-10 definition of accessory use and fails to meet the ZR § 12-10 definition of advertising sign; and

WHEREAS, the Board finds that the Sign meets the criteria of “accessory” because at its establishment and through its removal, the Sign was (1) “a use conducted on the same zoning lot as the principal use to which it is related;” (2) “clearly incidental to and customarily found in connection with such principal use;” and (3) “in the same ownership as such principal use or is operated and maintained on the same zoning lot;” and

WHEREAS, the Board disagrees with the Appellant that only the third condition is met as the Sign was a use conducted on the same zoning lot as the related principal use (the manufacturing business) and the Board also finds that a sign identifying the specific business on the site is clearly incidental to and customarily found throughout New York

---

# MINUTES

---

City and beyond; and

WHEREAS, the Board finds it misguided for the Appellant to assert that there was no relationship between the use of the Building and the Sign as a sign for a business that operates on the site most certainly has a relationship to the business on the site; and

WHEREAS, the Board finds that the ZR § 12-10 definition of “advertising sign” is clear that the two classifications of signs are mutually exclusive as the definition clearly states that an advertising sign is “not accessory to a use located on the zoning lot;” and

WHEREAS, the Board does not find any basis to evaluate the purpose, function, and intent of the Sign when the definition is clear and unambiguous; and

WHEREAS, the Board notes that lack of visibility to passersby and a retail function or the complexity of sign construction and its message are not elements of the definition and cannot lead to a conclusion that the Sign was intended to advertise rather than to be accessory; and

WHEREAS, the Board asserts that by the Appellant’s reasoning that patrons be able to visit sites in order for the signs to be considered accessory, no manufacturing business could have an accessory sign and all signs on manufacturing buildings would be considered advertising signs; the text does not support such a conclusion; and

WHEREAS, the Board asserts that there would be many fewer accessory signs if one of the conditions for an advertising sign is that if a sign remains after the associated business ceases the sign still serves a purpose; by that reasoning, any time a business has multiple locations, the argument could be made that the associated sign is not accessory because the business could leave and the sign could still serve a purpose of advertising other branches of the business or the brand, generally; and

WHEREAS, the Board is not persuaded by the Appellant’s distinction between the Sign and accessory business signs located at different Eagle Electric buildings; to the contrary, the Board finds the Sign is similar in size, location and copy, including the slogan, as the other signs which the Appellant concedes are accessory business signs; and

WHEREAS, neither is the Board persuaded by the Appellant’s McDonald’s example in that the McDonald’s sign would serve the purpose of promoting the McDonald’s brand absent the restaurant as is the case with businesses with multiple branches; a sign established as an accessory use to a principal business use may very well still provide a purpose after the business ceases to operate at the site; in fact, the Board finds that the McDonald’s signs are a good comparison in that they generally do not include addresses or instructions for how to access the site and can be seen as vehicles for brand recognition, and yet, they are most often accessory signs to the restaurant on site; and

WHEREAS, the Board distinguishes the two prior Board cases the Appellant cites;

WHEREAS, specifically, in its decision in the Newport case, the Board noted that the sign was larger than the store, and that when a sign directs attention to a product

generally sold throughout the City, the sign must be designed so that it is clear that it is “accessory” to and directing attention to the business on the zoning lot as opposed to the sale of the product generally; and

WHEREAS, the Board further notes that DOB considered a variety of factors in determining that the large Newport advertising sign was not accessory to the convenience store; two of the primary factors were that (1) such a large sign, which is larger than the store itself does not satisfy the accessory requirement that the sign be incidental to the primary use and (2) it was not satisfied that such a sign was “customarily found” in connection with a comparable type of retail store; additionally, the Board agreed with DOB’s interpretation “that a sign may refer to a product rather than a business name, where the business at the site is readily identified by the product;” such a conclusion was not possible in the Newport example for a store which sold many products, but fits well for Eagle Electric as the business at the site was readily identified by the products reflected on the Sign; and

WHEREAS, as to the New York Post example, the New York Post sought to have the sign recognized as an accessory business sign since it referenced the newspaper which was published in the subject building but DOB determined that it was an advertising sign because the citation to the New York Post was not the focus of the sign; and

WHEREAS, the Board notes that in the New York Post example the sign’s primary purpose was to advertise the New York Life Company (and was not directly related to the principal newspaper business on the site), a business and product available elsewhere than the zoning lot and that the mention of the New York Post at the bottom of the sign did not suffice to extinguish the advertising nature of the sign, within the ZR § 12-10 definition; and

WHEREAS, the Board does not find the identification of the Pepsi sign as an advertising sign to be dispositive that the Eagle Electric sign is also an advertising sign; further, the Board notes that the Appellant does not seek to maintain the Eagle Electric sign after the cessation of the Eagle Electric operations at the site, but the Appellant has rather changed the Sign to advertise products and businesses which do not now nor ever did occupy the site, unlike the Pepsi sign which remains as a vestige after the cessation of the Pepsi business at the site; and the Board is not persuaded by the nexus argument and finds that there was a nexus between the Pepsi sign and the Pepsi business formerly at the site; and

WHEREAS, as to the question of continuity, the Board finds that since the threshold matter of the classification of the Sign is not met, it is not necessary to address whether there has been any two-year discontinuous of the Sign; and

WHEREAS, the Board finds that the Appellant has failed to provide evidence that the Sign was established as an advertising sign prior to 1940 and, thus, is not eligible for legal non-conforming status as an advertising sign today; and

WHEREAS, based on the limited evidence in the

# MINUTES

record, the Board finds that the Sign was established as an accessory sign likely in 1936 and that its status as an accessory sign eligible for the pre-2001 accessory sign regulations ceased at the Appellant's admitted 1999 removal of the Eagle Electric sign; and

WHEREAS, therefore, the Board finds that DOB properly rejected the Appellant's application to change the copy of the Sign because it is an accessory sign.

Therefore it is resolved that the subject appeal, seeking a reversal of the Final Determination of the Department of Buildings, dated September 23, 2011, is hereby denied.

Adopted by the Board of Standards and Appeals, June 5, 2012.

-----

## 173-11-A

APPLICANT – Rothkrug Rothkrug & Spector, LLP, for Southside Manhattan View LLC, owner.

SUBJECT – Application November 7, 2011 – Appeal seeking a determination that the owner of the premises has acquired a common law vested right to complete construction under the prior R4 zoning. R4-1 Zoning district.

PREMISES AFFECTED – 68-10 58<sup>th</sup> Avenue, south side of 58<sup>th</sup> Avenue, 80' east of intersection of 58<sup>th</sup> Avenue and Brown Place, Block 2777, Lot 11, Borough of Queens.

## COMMUNITY BOARD #5Q

### APPEARANCES –

For Applicant: Todd Dale.

**ACTION OF THE BOARD** – Appeal granted.

### THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

### THE RESOLUTION –

WHEREAS, this is an appeal requesting a Board determination that the owner of the premises has obtained the right to complete the enlargement of a mixed-use residential/commercial building under the common law doctrine of vested rights; and

WHEREAS, a public hearing was held on this appeal on April 3, 2012, after due notice by publication in *The City Record*, with a continued hearing on May 1, 2012, and then to decision on June 5, 2012; and

WHEREAS, the site was inspected by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 5, Queens, recommended disapproval of the original iteration of this application, because it did not provide off-street parking for the eight apartment units; and

WHEREAS, the site is located on the south side of 58<sup>th</sup> Avenue between Brown Place and 69<sup>th</sup> Street, within an R4-1 zoning district; and

WHEREAS, the site has 80 feet of frontage on 58<sup>th</sup> Avenue, a depth of 100 feet, and a total lot area of 8,000 sq. ft.; and

WHEREAS, the applicant proposes to construct a three-story (including basement) horizontal enlargement consisting of six apartment units to the existing 4,722 sq. ft. two-story mixed-use residential/commercial building, and to convert the second floor of the existing building into two apartment units, resulting in a total of eight apartment units and a total floor area of 10,782 sq. ft. (1.35 FAR); and

WHEREAS, the subject site was formerly located within an R4 zoning district; and

WHEREAS, the proposed mixed-use building complies with the former R4 zoning district parameters; and

WHEREAS, however, on July 29, 2009 (hereinafter, the "Rezoning Date"), the City Council voted to adopt the Middle Village, Glendale and Maspeth Rezoning, which rezoned the site to R4-1; and

WHEREAS, the proposed building does not comply with the R4-1 district parameters as to floor area and density; and

WHEREAS, as a threshold matter in determining this appeal, the Board must find that the construction was conducted pursuant to a valid permit; and

WHEREAS, the Board notes that Alteration Permit No. 401996337-01-AL (the "Permit"), which authorized the proposed enlargement of the building and conversion of the second floor of the existing building pursuant to R4 zoning district regulations was issued on August 8, 2005; and

WHEREAS, the Board notes that, as of the Rezoning Date, the applicant had obtained permits for the development and had completed 100 percent of their foundations, such that the right to continue construction was vested pursuant to ZR § 11-331, which allows DOB to determine that construction may continue under such circumstances; and

WHEREAS, however, only two years are permitted for the completion of construction and to obtain a certificate of occupancy; and

WHEREAS, in the event that construction permitted by ZR § 11-331 has not been completed and a certificate of occupancy has not been issued within two years of a rezoning, ZR § 11-332 allows an application to be made to the Board not more than 30 days after its lapse to renew such permit; and

WHEREAS, the applicant states that construction was not completed and a certificate of occupancy was not obtained within two years of the Rezoning Date; and

WHEREAS, accordingly, the applicant is seeking an extension of time to complete construction and obtain a certificate of occupancy; and

WHEREAS, the Board notes that the applicant failed to file an application to renew the Permit pursuant to ZR § 11-332 within 30 days of its lapse on July 29, 2011, and is therefore requesting additional time to complete construction and obtain a certificate of occupancy under the common law; and

WHEREAS, by letter dated February 29, 2012, the Department of Buildings ("DOB") states that the Permit was lawfully issued, authorizing construction of the proposed Building prior to the Rezoning Date; and

WHEREAS, the Permit lapsed by operation of law on the Rezoning Date because the plans did not comply with the new R4-1 zoning district regulations and DOB determined that the required work had not been completed; and

---

# MINUTES

---

WHEREAS, thus, the Board finds that the Permit was validly issued by DOB to the owner of the subject premises and was in effect until its lapse by operation of law on the Rezoning Date; and

WHEREAS, in response to the Community Board's concerns regarding the lack of parking, the applicant states that the approved plans failed to indicate parking spaces that would be required pursuant to ZR § 25-23 under the R4 zoning; and

WHEREAS, the applicant submitted a reconsideration request from DOB reflecting that DOB approved the applicant's proposal to amend the plans to provide four accessory off-street parking spaces at the site, in compliance with ZR § 25-23; and

WHEREAS, assuming that valid permits had been issued and that work proceeded under them, the Board notes that a common law vested right to continue construction generally exists where: (1) the owner has undertaken substantial construction; (2) the owner has made substantial expenditures; and (3) serious loss will result if the owner is denied the right to proceed under the prior zoning; and

WHEREAS, the applicant cites to Putnam Armonk, Inc. v. Town of Southeast, 52 A.D.2d 10, 15 (2d Dept. 1976) for the proposition that where a restrictive amendment to a zoning ordinance is enacted, the owner's rights under the prior ordinance are deemed vested "and will not be disturbed where enforcement [of new zoning requirements] would cause 'serious loss' to the owner," and "where substantial construction had been undertaken and substantial expenditures made prior to the effective date of the ordinance;" and

WHEREAS, however, notwithstanding this general framework, the court in Kadin v. Bennett, 163 A.D.2d 308 (2d Dept. 1990) found that "there is no fixed formula which measures the content of all the circumstances whereby a party is said to possess 'a vested right.' Rather, it is a term which sums up a determination that the facts of the case render it inequitable that the State impede the individual from taking certain action;" and

WHEREAS, as to substantial construction, the applicant states that as of the two year anniversary of the Rezoning Date, the owner had completed approximately 90 percent of all work on the site, including: 100 percent of excavation, backfill, drywell installation, footing, waterproofing, structural frame installation, interior demolition, exterior walls, insulation, water and sewer mains, and windows; and

WHEREAS, the applicant states that the only remaining work on the site consists of interior finishing work, installation of roofs and gutters, and exterior landscaping and parking areas; and

WHEREAS, the applicant submitted the following evidence to support its assertions regarding completed work: affidavits from the architect and project manager; construction schedules; and photographs of the site; and

WHEREAS, the Board concludes that, based upon a comparison of the type and amount of work completed in the instant case with the type and amount of work found by New York State courts to support a positive vesting determination, a

significant amount of work was performed at the site prior to the rezoning, and that said work was substantial enough to meet the guideposts established by case law; and

WHEREAS, as to expenditure, the Board notes that unlike an application for relief under ZR § 11-30 et seq., soft costs and irrevocable financial commitments can be considered in an application under the common law; accordingly, these costs are appropriately included in the applicant's analysis; and

WHEREAS, the applicant states that prior to the two year anniversary of the Rezoning Date, the owner expended \$1,056,260, including hard and soft costs and irrevocable commitments, or 86 percent out of approximately \$1,227,800 budgeted for the entire enlargement; and

WHEREAS, as proof of the expenditures, the applicant has submitted expense charts and affidavits from the architect; and

WHEREAS, at hearing, the Board questioned the basis for the cost estimates in the expense charts; and

WHEREAS, in response, the applicant submitted a letter from the architect stating that the cost estimates in the expense chart are based on industry standards used when filing the proposed work with DOB based on figures on the 2010 National Construction Estimator by Craftsman Book Company, as well as over 30 years of professional experience in the field of architecture and construction; and

WHEREAS, the Board considers the amount of expenditures significant, both in and of itself for a project of this size, and when compared against the total development costs; and

WHEREAS, again, the Board's consideration is guided by the percentages of expenditure cited by New York courts considering how much expenditure is needed to vest rights under a prior zoning regime; and

WHEREAS, as to serious loss, the Board considers not only whether certain improvements and expenditures could not be recouped under the new zoning, but also considerations such as the diminution in income that would occur if the new zoning were imposed and the reduction in value between the proposed building and the building permitted under the new zoning; and

WHEREAS, the applicant contends that the loss of the \$101,049 associated with pre-Rezoning Date project costs that would result if this appeal were denied is significant; and

WHEREAS, the applicant states that if required to build in accordance with the new zoning, the owner would be limited to a maximum of 0.75 FAR (0.90 with attic bonus) and a maximum density of a one- or two-family semi-detached home; and

WHEREAS, the applicant states that complying with the R4-1 district regulations would therefore require the demolition of the completed enlargement and the reconstruction of a two-family home on that portion of the site (in conjunction with the existing two-story mixed-use building) to reduce the occupancy from eight dwelling units to three dwelling units, and from an FAR of 1.35 to 0.75; and

WHEREAS, the applicant submitted a letter from a demolition company stating that the estimated cost for the

# MINUTES

demolition work that would be required for the site to comply with R4-1 zoning, would be approximately \$298,000; and

WHEREAS, the applicant submitted a letter from a real estate broker stating that the estimated rental income for the entire site under R4-1 district regulations would be \$6,800 per month (\$4,200 for two three bedroom dwelling units, \$1,400 for a first floor commercial space, and \$1,200 for the second floor apartment); and

WHEREAS, the letter from the real estate broker estimated that the monthly rental income for the proposed building would be \$14,450; therefore, compliance with the R4-1 district regulations would result in a loss of \$7,650 in monthly rental income; and

WHEREAS, the Board agrees that the need to demolish portions of the existing building, redesign, the limitations of any complying construction, and the loss of actual expenditures and outstanding fees that could not be recouped constitute, in the aggregate, a serious economic loss, and that the supporting data submitted by the applicant supports this conclusion; and

WHEREAS, in sum, the Board has reviewed the representations as to the work performed, the expenditures made, the serious loss projected, and the supporting documentation for such representations, and agrees that the applicant has satisfactorily established that a vested right to complete construction had accrued to the owner of the premises as of the two year anniversary of the Rezoning Date.

*Therefore it is Resolved* that this appeal made pursuant to the common law doctrine of vested rights requesting a reinstatement of DOB Permit No. 401996337-01-AL, as well as all related permits for various work types, either already issued or necessary to complete construction and obtain a certificate of occupancy, is granted for two years from the date of this grant.

Adopted by the Board of Standards and Appeals, June 5, 2012.

## 19-12-A

APPLICANT – Goldman Harris LLC, for 38-30 28<sup>th</sup> Street, LLC, owner.

SUBJECT – Application January 30, 2012 – Appeal seeking a common law vested right to continue development commenced under the prior zoning district. M1-2/R5B/LIC zoning district.

PREMISES AFFECTED – 38-30 28<sup>th</sup> Street, between 38<sup>th</sup> and 39<sup>th</sup> Avenues. Block 386, Lot 27. Borough of Queens.

### COMMUNITY BOARD #1Q

APPEARANCES –

For Applicant: Vivien R. Krieger.

**ACTION OF THE BOARD** – Appeal granted.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an appeal requesting a Board determination that the owner of the premises has obtained the right to complete construction of an eight-story hotel building under the common law doctrine of vested rights; and

WHEREAS, a public hearing was held on this application on May 1, 2012, after due notice by publication in *The City Record*, and then to decision on June 5, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Queens, recommends approval of this application; and

WHEREAS, the site is located on the west side of 28<sup>th</sup> Street between 38<sup>th</sup> Avenue and 39<sup>th</sup> Avenue; and

WHEREAS, the site has 25 feet of frontage on 28<sup>th</sup> Street, a depth of approximately 98 feet, and a total lot area of 2,450 sq. ft.; and

WHEREAS, the applicant proposes to develop the site with an eight-story, 16-room hotel building with a floor area of 12,250 sq. ft. (5.0 FAR) (the “Building”); and

WHEREAS, the subject site is currently located in an M1-2/R5B zoning district within the Special Long Island City District (“LIC”), but was formerly located within an M1-3D zoning district; and

WHEREAS, the Building complies with the former M1-3D zoning district parameters, specifically with respect to floor area and street wall height; and

WHEREAS, however, on October 7, 2008 (the “Rezoning Date”), the City Council voted to adopt the Dutch Kills Rezoning, which rezoned the site to M1-2/R5B (LIC) zoning district, as noted above; and

WHEREAS, the Building does not comply with the M1-2/R5B (LIC) zoning district parameters; and

WHEREAS, as a threshold matter in determining this appeal, the Board must find that the construction was conducted pursuant to valid permits; and

WHEREAS, the applicant states that Alteration Building Permit No. 402232534-01-AL was issued in July 16, 2007 (the “Permit”), authorizing the development of an eight-story hotel building pursuant to M1-3D zoning district regulations; and

WHEREAS, the Board notes that, as of the Rezoning Date, the applicant had obtained permits for the development and had completed 100 percent of their foundations, such that the right to continue construction was vested pursuant to ZR § 11-331, which allows DOB to determine that construction may continue under such circumstances; and

WHEREAS, however, only two years are permitted for the completion of construction and to obtain a certificate of occupancy; and

WHEREAS, in the event that construction permitted by ZR § 11-331 has not been completed and a certificate of occupancy has not been issued within two years of a rezoning, ZR § 11-332 allows an application to be made to the Board not more than 30 days after its lapse to renew such permit; and

WHEREAS, the applicant states that construction was not completed and a certificate of occupancy was not obtained

---

# MINUTES

---

within two years of the Rezoning Date; and

WHEREAS, accordingly, the applicant is seeking an extension of time to complete construction and obtain a certificate of occupancy; and

WHEREAS, the Board notes that the applicant failed to file an application to renew the Permit pursuant to ZR § 11-332 within 30 days of its lapse on October 7, 2010, and is therefore requesting additional time to complete construction and obtain a certificate of occupancy under the common law; and

WHEREAS, by letter dated February 29, 2012, DOB states that the Permit was lawfully issued, authorizing construction of the Building prior to the Rezoning Date; and

WHEREAS, the Board has reviewed the record and agrees that the Permit was lawfully issued to the owner of the subject premises prior to the Rezoning Date; and

WHEREAS, the Board notes that when work proceeds under a valid permit, a common law vested right to continue construction after a change in zoning generally exists if: (1) the owner has undertaken substantial construction; (2) the owner has made substantial expenditures; and (3) serious loss will result if the owner is denied the right to proceed under the prior zoning; and

WHEREAS, specifically, as held in Putnam Armonk, Inc. v. Town of Southeast, 52 A.D.2d 10 (2d Dept. 1976), where a restrictive amendment to a zoning ordinance is enacted, the owner's rights under the prior ordinance are deemed vested "and will not be disturbed where enforcement [of new zoning requirements] would cause 'serious loss' to the owner," and "where substantial construction had been undertaken and substantial expenditures made prior to the effective date of the ordinance"; and

WHEREAS, however, notwithstanding this general framework, as discussed by the court in Kadin v. Bennett, 163 A.D.2d 308 (2d Dept. 1990) "there is no fixed formula which measures the content of all the circumstances whereby a party is said to possess 'a vested right'. Rather, it is a term which sums up a determination that the facts of the case render it inequitable that the State impede the individual from taking certain action"; and

WHEREAS, as to substantial construction, the Board notes that DOB determined that the applicant had completed 100 percent of its foundation prior to the Rezoning Date, such that the right to continue construction had vested pursuant to ZR § 11-331; and

WHEREAS, the applicant states that, in addition to completing all excavation and foundation work, as of the two year anniversary of the Rezoning Date the applicant had completed approximately 30 percent of the total construction work, including 100 percent of the metal superstructure, 100 percent of the scissor stairs, 98 percent of the metal deck work, 90 percent of the concrete slab work, 86 percent of the fire proofing work, 85 percent of the standpipe work, 50 percent of the elevator work, 50 percent of the concrete block work, 50 percent of the exterior insulation and waterproofing, 20 percent of the interior insulation, ten percent of the exterior brick work, and five percent of the plumbing, sprinkler, and electrical work; and

WHEREAS, in support of this assertion, the applicant submitted the following evidence: a construction log, construction contracts, an affidavit from the construction manager, and photographs of the site showing the amount of work completed prior to the two year anniversary of the Rezoning Date; and

WHEREAS, the applicant states that certain work continued on the site after the two year anniversary of the Rezoning Date; and

WHEREAS, the Board notes that all of the work performed on or after the two year anniversary of the Rezoning Date has been discounted from the substantial construction analysis; and

WHEREAS, the Board has reviewed the representations as to the amount and type of work completed before the two year anniversary of the Rezoning Date and the documentation submitted in support of these representations, and agrees that it establishes that substantial work was performed; and

WHEREAS, the Board concludes that, given the size of the site, and based upon a comparison of the type and amount of work completed in this case with the type and amount of work discussed by New York State courts, a significant amount of work was performed at the site during the relevant period; and

WHEREAS, as to expenditure, the Board notes that unlike an application for relief under ZR § 11-30 *et seq.*, soft costs and irrevocable financial commitments can be considered in an application under the common law and accordingly, these costs are appropriately included in the applicant's analysis; and

WHEREAS, the applicant states that the owner expended \$3,250,978, including hard and soft costs and irrevocable commitments, out of \$3,699,800 budgeted for the entire project; and

WHEREAS, as proof of the expenditures, the applicant has submitted construction contracts, copies of cancelled checks, invoices, and accounting tables; and

WHEREAS, in relation to actual construction costs, the applicant specifically notes that the owner had paid or contractually incurred \$2,873,030.07 for the work performed at the site as of the two year anniversary of the Rezoning Date; and

WHEREAS, the applicant further states that the owner paid an additional \$377,947.93 in soft costs related to the work performed at the site as of the two year anniversary of the Rezoning Date; and

WHEREAS, thus, the expenditures up to the two year anniversary of the Rezoning Date represent approximately 88 percent of the projected total cost; and

WHEREAS, the Board considers the amount of expenditures significant, both for a project of this size, and when compared with the development costs; and

WHEREAS, again, the Board's consideration is guided by the percentages of expenditure cited by New York courts considering how much expenditure is needed to vest rights under a prior zoning regime; and

WHEREAS, as to serious loss, the Board considers not only whether certain improvements and expenditures could not be recouped under the new zoning, but also

# MINUTES

considerations such as the diminution in income that would occur if the new zoning were imposed and the reduction in value between the proposed building and the building permitted under the new zoning; and

WHEREAS, the applicant states that if the owner is not permitted to vest under the former M1-3D zoning, the floor area would decrease from the proposed 12,250 sq. ft. (5.0 FAR) to a maximum realizable floor area of 4,900 sq. ft. (2.0 FAR), representing a loss of 7,350 sq. ft. of floor area, and the street wall height would have to be reduced from its current height of approximately 80 feet to a maximum street wall height of 60 feet; and

WHEREAS, the applicant further states that in order to comply with the M1-2/R5B (LIC) district parameters, the owner would have to demolish the top five floors, which would eliminate 12 of the 16 proposed hotel rooms; and

WHEREAS, the applicant represents that the resulting four room hotel building would not be viable; and

WHEREAS, the Board agrees that the reduction in floor area of the Building, coupled with the loss of expenditures and outstanding fees that could not be recouped and the need to demolish and redesign, constitutes a serious economic loss, and that the evidence submitted by the applicant supports this conclusion; and

WHEREAS, in sum, the Board has reviewed the representations as to the work performed, the expenditures made, and serious loss, and the supporting documentation for such representations, and agrees that the applicant has satisfactorily established that a vested right to complete construction of the Buildings had accrued to the owner of the premises as of the two year anniversary of the Rezoning Date.

*Therefore it is Resolved* that this appeal made pursuant to the common law of vested rights requesting a reinstatement of Alteration Permit No. 402232534-01-AL, as well as all related permits for various work types, either already issued or necessary to complete construction and obtain a certificate of occupancy, is granted for two years from the date of this grant.

Adopted by the Board of Standards and Appeals, June 5, 2012.

APPEARANCES – None.

**ACTION OF THE BOARD** – Appeal granted.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and

Commissioner Montanez .....5  
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an appeal requesting a Board determination that the owner of the premises has obtained the right to complete construction of a five-story residential building under the common law doctrine of vested rights; and

WHEREAS, a public hearing was held on this application on May 1, 2012, after due notice by publication in *The City Record*, and then to decision on June 5, 2012; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Chair Srinivasan; and

WHEREAS, the site is located on the south side of 38<sup>th</sup> Avenue between 112<sup>th</sup> Street and 114<sup>th</sup> Street; and

WHEREAS, the site has 50 feet of frontage on 38<sup>th</sup> Avenue, a depth of 125 feet, and a total lot area of 6,250 sq. ft.; and

WHEREAS, the applicant proposes to develop the site with a five-story residential building with 14 condominium units (the “Building”); and

WHEREAS, the subject site is currently located within an R5A zoning district, but was formerly located within an R6 zoning district; and

WHEREAS, the Building complies with the former R6 zoning district parameters, specifically with respect to floor area; and

WHEREAS, however, on March 24, 2009 (the “Rezoning Date”), the City Council voted to adopt the North Corona 2 Rezoning, which rezoned the site to R5A, as noted above; and

WHEREAS, the Buildings does not comply with the R5A zoning district parameters; and

WHEREAS, as a threshold matter in determining this appeal, the Board must find that the construction was conducted pursuant to a valid permit; and

WHEREAS, the applicant states that New Building Permit No. 402159132-01-NB was issued on May 11, 2006 (the “New Building Permit”), authorizing the development of a five-story residential building pursuant to R6 zoning district regulations; and

WHEREAS, the Board notes that as of the Rezoning Date the owner had obtained a permit for the development and had completed 100 percent of its foundation, such that the right to continue construction was vested pursuant to ZR § 11-331, which allows the Department of Buildings (“DOB”) to determine that construction may continue under such circumstances; and

WHEREAS, however, only two years are allowed for completion of construction and to obtain a certificate of occupancy; and

WHEREAS, in the event that construction permitted by ZR § 11-331 has not been completed and a certificate of occupancy has not been issued within two years of a rezoning, ZR § 11-332 allows an application to be made to the Board not more than 30 days after its lapse to renew such permit; and

WHEREAS, the applicant states that construction of the proposed building was completed, but a certificate of occupancy was not obtained within two years of the Rezoning

---

---

Date; and

WHEREAS, accordingly, the applicant is seeking an extension of time to complete construction and obtain a certificate of occupancy; and

WHEREAS, the Board notes that the applicant failed to file an application to renew the New Building Permit pursuant to ZR §11-332 within 30 days of its lapse on March 24, 2011 and is therefore requesting additional time to complete construction under the common law and obtain a certificate of occupancy; and

WHEREAS, by letter dated May 25, 2012 DOB stated that the New Building Permit was lawfully issued, authorizing construction of the Buildings prior to the Rezoning Date; and

WHEREAS, the Board has reviewed the record and agrees that the New Building Permit was lawfully issued to the owner of the subject premises prior to the Rezoning Date; and

WHEREAS, the Board notes that when work proceeds under a valid permit, a common law vested right to continue construction after a change in zoning generally exists if: (1) the owner has undertaken substantial construction; (2) the owner has made substantial expenditures; and (3) serious loss will result if the owner is denied the right to proceed under the prior zoning; and

WHEREAS, specifically, as held in Putnam Armonk, Inc. v. Town of Southeast, 52 A.D.2d 10 (2d Dept. 1976), where a restrictive amendment to a zoning ordinance is enacted, the owner's rights under the prior ordinance are deemed vested "and will not be disturbed where enforcement [of new zoning requirements] would cause 'serious loss' to the owner," and "where substantial construction had been undertaken and substantial expenditures made prior to the effective date of the ordinance"; and

WHEREAS, however, notwithstanding this general framework, as discussed by the court in Kadin v. Bennett, 163 A.D.2d 308 (2d Dept. 1990) "there is no fixed formula which measures the content of all the circumstances whereby a party is said to possess 'a vested right'. Rather, it is a term which sums up a determination that the facts of the case render it inequitable that the State impede the individual from taking certain action"; and

WHEREAS, as to substantial construction, the Board notes that DOB determined that the applicant had completed 100 percent of its foundation prior to the Rezoning Date, such that the right to continue construction had vested pursuant to ZR § 11-331; and

WHEREAS, the applicant states that since DOB vested the New Building Permit under ZR § 11-331, the owner has completed all construction on the Building and the only work that remained before obtaining a certificate of occupancy was the sprinkler sign off; and

WHEREAS, in support of the assertion that the owner has undertaken substantial construction, the applicant submitted the following evidence: a construction timeline, copies of cancelled checks, and photographs of the Building; and

WHEREAS, the Board has reviewed the representations as to the amount and type of work completed before the two

year anniversary of the Rezoning Date and the documentation submitted in support of these representations, and agrees that it establishes that substantial work was performed; and

WHEREAS, the Board concludes that, given the size of the site, and based upon a comparison of the type and amount of work completed in this case with the type and amount of work discussed by New York State courts, a significant amount of work was performed at the site during the relevant period; and

WHEREAS, as to expenditure, the Board notes that unlike an application for relief under ZR § 11-30 et seq., soft costs and irrevocable financial commitments can be considered in an application under the common law and accordingly, these costs are appropriately included in the applicant's analysis; and

WHEREAS, the applicant states that the owner has expended \$1,967,992, including hard and soft costs and irrevocable commitments, out of \$1,967,992 budgeted for the entire project, or 100 percent of the total cost of the Building; and

WHEREAS, as proof of the expenditures, the applicant has submitted expense charts and copies of cancelled checks; and

WHEREAS, the Board considers the amount of expenditures significant, both for a project of this size, and when compared with the development costs; and

WHEREAS, again, the Board's consideration is guided by the percentages of expenditure cited by New York courts considering how much expenditure is needed to vest rights under a prior zoning regime; and

WHEREAS, as to serious loss, the Board considers not only whether certain improvements and expenditures could not be recouped under the new zoning, but also considerations such as the diminution in income that would occur if the new zoning were imposed and the reduction in value between the proposed building and the building permitted under the new zoning; and

WHEREAS, the applicant states that if the owner is not permitted to vest under the former R6 zoning, the floor area would decrease from the proposed 12,498.5 sq. ft. (2.0 FAR) to a maximum realizable floor area under the R5A zoning district of 6,874 sq. ft. (1.10 FAR); and

WHEREAS, accordingly, the applicant states that complying with the R5A district regulations would result in the loss of approximately 5,625 sq. ft. of floor area, requiring extensive demolition of the completed building; and

WHEREAS, the applicant further states that the loss of floor area as a result of the rezoning would reduce the overall value of the project by approximately \$1,968,750; and

WHEREAS, the Board agrees that the reduction in floor area of the Building, coupled with the cost of demolition and the loss of expenditures and outstanding fees that could not be recouped and the need to redesign, constitutes a serious economic loss, and that the evidence submitted by the applicant supports this conclusion; and

WHEREAS, in sum, the Board has reviewed the representations as to the work performed, the expenditures

# MINUTES

made, and serious loss, and the supporting documentation for such representations, and agrees that the applicant has satisfactorily established that a vested right to complete construction of the Buildings had accrued to the owner of the premises as of the two year anniversary of the Rezoning Date.

*Therefore it is Resolved* that this appeal made pursuant to the common law of vested rights requesting a reinstatement of New Building Permit No. 402159132-01-NB, as well as all related permits for various work types, either already issued or necessary to complete construction and obtain a certificate of occupancy, is granted for two years from the date of this grant.

Adopted by the Board of Standards and Appeals, June 5, 2012.

APPLICANT – Khalid M. Azam, Esq., owner.

SUBJECT – Application October 5, 2010 – Variance (§72-21) to permit the legalization of a three-family building, contrary to side yard zoning requirements (§23-462(c)). R6B zoning district.

PREMISES AFFECTED – 40-29 72<sup>nd</sup> Street, between Roosevelt Avenue and 41<sup>st</sup> Avenue, Block 1304, Lot 16, Borough of Queens.

#### COMMUNITY BOARD #2Q

APPEARANCES – None.

**ACTION OF THE BOARD** – Application Denied.

THE VOTE TO GRANT –

Affirmative: .....0

Negative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated September 3, 2010, acting on Department of Buildings Application No. 401711073, reads in pertinent part:

“Proposed side yard from ground level and up is contrary to section 23-462(c) ZR. A minimum of an eight foot separation is required from side lot line and building wall;” and

WHEREAS, this is an application under ZR § 72-21, to permit, in an R6B zoning district, the legalization of an existing five-story (including penthouse) three-family residential

building that does not provide the required side yard, contrary to ZR § 23-462(c); and

WHEREAS, a public hearing was held on this application on May 1, 2012, after due notice by publication in *The City Record*, and then to decision on June 5, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Queens, recommends approval of this application; and

WHEREAS, the site is located on the east side of 72<sup>nd</sup> Street, between Roosevelt Avenue and 41<sup>st</sup> Avenue, within an R6B zoning district; and

WHEREAS, the zoning lot has a width of approximately 25'-0", a depth ranging from 106'-4" to 109'-0", and a total lot area of 2,692 sq. ft.; and

WHEREAS, the site is occupied by a five-story (including penthouse) three-family residential building with a side yard with a width of 4'-0" above the first floor along the northern lot line, and no side yard along the southern lot line; and

WHEREAS, the Board notes that pursuant to ZR § 23-462(c), no side yards are required but if an open area extending along a side lot line is provided at any level, it must have a minimum width of 8'-0"; and

WHEREAS, because the existing building provides a 4'-0" side yard above the first floor along the northern lot line, the applicant seeks the subject variance; and

WHEREAS, the Board notes that the variance application was filed on October 5, 2010; and

WHEREAS, on November 3, 2010, Board staff issued a Notice of Comments to the applicant, requesting additional information; and

WHEREAS, the Notice of Comments informed the applicant that failure to respond in a timely manner could lead to the dismissal of the application for lack of prosecution; and

WHEREAS, the Board did not receive any subsequent response from the applicant; and

WHEREAS, accordingly, the Board placed the matter on the February 14, 2012 dismissal calendar; and

WHEREAS, the applicant appeared at the February 14, 2012 hearing and submitted a written request for additional time to respond to the Board's Notice of Comments; and

WHEREAS, accordingly, the Board removed the application from the dismissal calendar and granted the applicant additional time to respond to the Notice of Comments; and

WHEREAS, the applicant now seeks a variance of the side yard requirement based on the practical difficulty and unnecessary hardship, which it represents result from reliance in good faith on DOB's approval of a "Request for Reconsideration" regarding the subject side yard non-compliance; and

WHEREAS, the applicant sets forth the following timeline for the approval and construction process: (1) on August 18, 2003, DOB approved an application for construction of the subject building based on professionally

---

# MINUTES

---

certified plans; (2) on October 4, 2005, after the building was substantially constructed, DOB audited the plans and issued objections, including Objection No. 9, for non-compliance with the side yard regulations of ZR § 23-462(c); (3) on May 15, 2006 the applicant submitted a “Request for Reconsideration of Objection No. 9” to DOB, proposing to address the non-compliance by extending the first floor of the building to the side lot line; (4) on May 16, 2006 the Chief Engineer of DOB’s Queens Borough Office approved the reconsideration request, stating “OK to accept that the proposed first floor will be built from side lot line to side lot line (with no side yard provided) provided that drawings will be revised to reflect the same;” (5) on August 16, 2006, the Chief Engineer updated its approval of the reconsideration request, stating “Second, third and fourth floors will remain the same;” (6) the applicant revised the drawings based upon the approved reconsideration and extended the first floor to the side lot line, thereby eliminating the 4’-0” side yard at the first floor; (7) DOB subsequently conducted a special audit, at which time it again raised an objection regarding non-compliance with side yard regulations under ZR § 23-462(c); (8) on June 4, 2010 the Queens Borough Commissioner denied the applicant’s reconsideration request regarding the side yard non-compliance with ZR § 23-462(c), stating “Denied. Contrary to 23-462(c) in that any level open space shall be provided as 8’;” and

WHEREAS, the Board notes that New York State courts have recognized that property owners may invoke the good faith reliance principle when they have made expenditures towards construction that was performed pursuant to a building permit, which is later revoked due to non-compliance that existed at the time of the permit issuance; the principle is raised within the variance context when applicants assert that the reliance creates a unique hardship and seek to substitute it for the customary uniqueness finding under ZR § 72-21(a); and

WHEREAS, in Jayne Estates, Inc. v. Raynor, 22 N.Y.2d 417 (1968), the Court of Appeals determined that the expenditures the property owner made in reliance on the invalid permit should be considered in the variance application because: (1) the property owner acted in good faith, (2) there was no reasonable basis with which to charge the property owner with constructive notice that it was building contrary to zoning, and (3) the municipal officials charged with carrying out the zoning resolution had granted repeated assurances to the property owner; and

WHEREAS, more recently, in Pantelidis v. Board of Standards and Appeals, 10 N.Y.3d 846, 889 N.E.2d 474, 859 N.Y.S.2d 597 (2008), the Court of Appeals, in a limited opinion, held that it was appropriate that the state Supreme Court had conducted a good faith reliance hearing, to determine whether the property owner could claim reliance, rather than remanding the case to the Board to do so in the context of an Article 78 proceeding to overturn the Board’s denial of a variance application; the Court established that the Board should conduct such a hearing and that good faith reliance is relevant to the variance analysis; and

WHEREAS, the Board notes, however, that the body of cases, which address the good faith reliance principle and a property owner’s ability to establish detrimental reliance which

can be introduced into a variance application, is limited to those where there is a unique history of approvals from high-level municipal officials (including the Village Board of Trustees in Jayne and DOB’s Borough Commissioner in Pantelidis) after a series of meetings on the precise matter at issue, rather than merely a review and approval by one DOB examiner; and

WHEREAS, the Board identifies the key questions that have emerged in the good faith reliance inquiry as: (1) whether the permit was void on its face; (2) whether there was any way the applicant could have known about the invalidity of the permit; and (3) whether there were multiple municipal assurances of validity; and

WHEREAS, the applicant contends that it satisfies the criteria for a finding of good faith reliance based on DOB’s approval of its “Request for Reconsideration of Objection No. 9” on May 16, 2006 and August 16, 2006, as it revised the plans and extended out the first floor to the side lot line in reliance on DOB’s approval; and

WHEREAS, however, the Board finds that the applicant has not met the standard to establish that a hardship was incurred due to good faith reliance on DOB’s approval; and

WHEREAS, ZR § 23-462(c) provides, in pertinent part, that in R6B zoning districts, “no *side yards* are required. However, if any open area extending along a *side lot line* is provided at any level, it shall measure at least eight feet wide for the entire length of the *side lot line*”; and

WHEREAS, the Board considers the text of ZR § 23-462(c) to be unambiguous, and therefore the applicant had constructive notice that the text applied to the subject site; and

WHEREAS, the Board notes that the applicant has given no justification as to why the architect, filing under the Professional Certification Program, determined that a side yard with a width of 4’-0” would be permitted under ZR § 23-462(c); and

WHEREAS, the Board further notes that the applicant has not provided evidence that there were multiple municipal assurances of validity; rather, the applicant relies on a single reconsideration issued by the Chief Engineer of the Queens Borough Office; and

WHEREAS, significantly, the reconsideration relied upon by the applicant was not issued until May 16, 2006 (and updated August 16, 2006), after construction of the building with a 4’-0” side yard along the northern lot line was substantially complete; and

WHEREAS, the Board finds that a claim of good faith reliance cannot be supported where the municipal determination which forms the basis of the applicant’s alleged good faith reliance was not issued until after the construction was complete; and

WHEREAS, further, the applicant has acknowledged that the only construction that was performed in reliance upon the 2006 reconsideration was the extension of the first floor of the building to the side lot line, which merely consisted of the addition of a one-story covered passageway along the side of the building; and

WHEREAS, the Board notes that the applicant made a

# MINUTES

supplemental argument that ZR § 23-462(c) does not apply to the subject building because the first floor has been extended to the side lot line, and the 4'-0" wide open area along the northern lot line above the first floor is not, by definition, a side yard, because it is not open from the lowest level of the building to the sky; and

WHEREAS, the Board considers the applicant's argument, which challenges DOB's interpretation of ZR § 23-462(c), to be outside the scope of an application for a variance; however, the Board also disagrees with the applicant's interpretation of ZR § 23-462(c), given that the text refers to "an open area extending along the side lot line...at any level," and therefore clearly contemplates the 4'-0" wide open area along the side lot line above the first floor of the subject building; and

WHEREAS, for all of the reasons set forth above, the Board finds that the applicant has failed to meet the finding set forth at ZR § 72-21(a); and

WHEREAS, since the application fails to meet the findings set forth at ZR § 72-21(a) its variance request must be denied; and

WHEREAS, because the Board finds that the application fails to meet the findings set forth at ZR § 72-21(a), as modified by the good faith reliance doctrine, which is a threshold finding that must be met for a grant of a variance, the Board declines to address the other findings.

*Therefore it is Resolved* that the decision of the Queens Borough Commissioner, dated September 3, 2010, acting on Department of Buildings Application No. 401711073, is sustained and the subject application is hereby denied.

Adopted by the Board of Standards and Appeals, June 5, 2012.

### CEQR #12-BSA-009K

APPLICANT – Eric Palatnik, P.C., for Louis N. Petrosino, owner.

SUBJECT – Application August 9, 2011 – Variance (§72-21) to legalize the extension of the use and enlargement of the zoning lot of a previously approved scrap metal yard (UG 18), contrary to §32-10. C8-1 zoning district.

PREMISES AFFECTED – 2994/3018 Cropsey Avenue, southwest corner of Bay 54<sup>th</sup> Street. Block 6947, Lot 260. Borough of Brooklyn.

### COMMUNITY BOARD #13BK

APPEARANCES –

For Applicant: Eric Palatnik.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5  
Negative:.....0

**THE RESOLUTION** –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated July 29, 2011, acting on Department of

Buildings Application No. 320126458, reads in pertinent part:

The proposed use of scrap metal yard, UG 18, in a C8-1 zoning district is contrary to Section 32-10 of the Zoning Resolution; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site located in a C8-1 zoning district, the enlargement of the zoning lot for a scrap metal yard (Use Group 18) and the legalization of the enlargement to the existing one-story warehouse building on the site, which does not conform to district use regulations, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on January 31, 2012, after due notice by publication in *The City Record*, with continued hearings on March 6, 2012 and April 24, 2012, and then to decision on June 5, 2012; and

WHEREAS, the site and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 13, Brooklyn, recommends approval of this application; and

WHEREAS, City Council Member Domenic M. Recchia, Jr. recommends approval of this application; and

WHEREAS, the subject site is located on the southwest corner of Cropsey Avenue and Bay 54<sup>th</sup> Street, within a C8-1 zoning district; and

WHEREAS, the site consists of a single lot (Lot 260) with a total lot area of 34,527 sq. ft., formed by two previously separate lots: (1) former Lot 260, an irregularly shaped lot bounded by Bay 54<sup>th</sup> Street to the north, Cropsey Avenue to the east, and the Coney Island Creek to the south, with a lot area of 24,903 sq. ft.; and (2) former Lot 8900, a narrow, irregularly-shaped lot adjacent to the west of former Lot 260, with a width of approximately 40 feet, a depth of approximately 220 feet, and a lot area of 9,624 sq. ft.; and

WHEREAS, the site is currently occupied by a scrap metal yard (Use Group 18); and

WHEREAS, the Board has exercised jurisdiction over the former Lot 260 portion of the site since March 2, 1965 when, under BSA Cal. No. 1069-64-BZ, the Board granted a variance to permit, at an existing scrap metal yard, the construction of a one-story building for the storage of scrap metal within an R4 zoning district, for a term of ten years; and

WHEREAS, subsequently, the grant was amended and the term extended on various occasions; and

WHEREAS, on December 2, 1980, under BSA Cal. No. 703-80-BZ, the Board granted a variance to permit the enlargement of the existing scrap metal storage building into the required front yard at the site, for a term of ten years; and

WHEREAS, subsequently, the grant was amended and the term extended at various times; and

WHEREAS, most recently, on July 25, 2000, the Board granted an extension of the term, which expired on December 2, 2010; and

WHEREAS, the Board notes that the applicant initially sought to file an application for an extension of term and an amendment to legalize the 822.5 sq. ft. enlargement of the existing one-story warehouse building on the site, however, the

---

# MINUTES

---

Board directed the applicant to file a new variance application because the applicant also seeks to enlarge the zoning lot; and

WHEREAS, the applicant states that, since the time of the most recent grant, the owner acquired former Lot 8900, which was created by the City in 2004 from a mapped, unbuilt street known as West 19<sup>th</sup> Street; and

WHEREAS, the applicant submitted a copy of the "Agreement, Deed of Cession and Grant of Easement" reflecting that former Lot 8900 was conveyed from the City to the owner in 2005; and

WHEREAS, the applicant notes that there is a 17'-6" wide sewer easement running along the west side of former Lot 8900 from Bay 54<sup>th</sup> Street southward to the bulkhead at the edge of Coney Island Creek; and

WHEREAS, the applicant states that the sewer easement prohibits permanent structures of any kind (other than a fence) from being constructed on the easement; and

WHEREAS, the applicant now seeks to enlarge the zoning lot occupied by the scrap metal storage yard to include former Lot 8900, and to legalize the 822.5 sq. ft. enlargement of the existing one-story warehouse building on the site; and

WHEREAS, because an increase in the degree of the existing non-conforming manufacturing use is not permitted in the C8-1 zoning district, the applicant seeks a variance for the site; and

WHEREAS, the applicant states that the following are unique physical conditions which create unnecessary hardship and practical difficulties in developing the site with a complying development: (1) the history of use of the site; (2) the existence of the sewer easement along a significant portion of former Lot 8900; and (3) the narrow size and configuration of former Lot 8900; and

WHEREAS, the applicant notes that the scrap metal yard has been located on the site for over 45 years and was the subject of two prior variance applications before the Board, which originally permitted the use to be established in the prior R4 zoning district, and later permitted the enlargement of the non-conforming use on the site; and

WHEREAS, the prior variances granted by the Board found that there were unique conditions on the site which created practical difficulties and unnecessary hardship in developing the site as a conforming use; and

WHEREAS, the applicant states that it now merely seeks to enlarge the existing building by 822.5 sq. ft. and to enlarge the zoning lot by incorporating former Lot 8900 located immediately to the west of the zoning lot, and that otherwise the conditions on the site have not changed since the Board's prior grants; and

WHEREAS, the applicant notes that former Lot 8900 has been historically vacant, as it was created from a portion of the mapped but unbuilt street known as West 19<sup>th</sup> Street; and

WHEREAS, as to the existence of a sewer easement on former Lot 8900, the applicant states that the mapped but unbuilt West 19<sup>th</sup> Street had a width of 80 feet and included a 35-ft. wide sewer easement running down its center; former Lot 8900 was created by the City in 2004 and consists of the eastern half of West 19<sup>th</sup> Street, which includes 17'-6" of the sewer easement; and

WHEREAS, the applicant states that, as noted above, former Lot 8900 was deeded to the subject owner in 2005 and the applicant submitted an "Agreement, Deed of Cession and Grant of Easement," which reflects that no permanent structure of any kind (other than a fence) can be constructed within the easement area; and

WHEREAS, the applicant states that as a result of the easement, the buildable portion of former Lot 8900 has an average width of only 24 feet, which severely limits the viability of the lot for commercial use independent of former Lot 260; and

WHEREAS, specifically, the applicant states that as a result of the easement, any conforming building on former Lot 8900 would be difficult to configure into a functional layout due to the narrow buildable width and significant depth of the site, and could accommodate a building with a floor area of only 4,458 sq. ft.; and

WHEREAS, as to the configuration of the site the applicant states that the only public street frontage provided on former Lot 8900 is the 44-ft. wide span along Bay 54<sup>th</sup> Street, located along the northern lot line of the site; and

WHEREAS, the applicant notes that, due to the easement which occupies nearly half of former Lot 8900, only approximately 26 feet of the frontage along Bay 54<sup>th</sup> Street can be built upon, and therefore the layout of a conforming use at the site would be extremely inefficient, with a 26-ft. wide building entrance leading to a building that could extend to a depth of nearly 200 feet; and

WHEREAS, the applicant states that Bay 54<sup>th</sup> Street is a dead end street with only the existing scrap metal yard and a Home Depot located along the southern side of the street; and

WHEREAS, the applicant further states that former Lot 8900 is set back from the street line of Bay 54<sup>th</sup> Street and the fence of the existing scrap metal facility on former Lot 260 blocks the view of former Lot 8900 from Cropsey Avenue; as a result, a conforming commercial use on former Lot 8900 would have almost no public visibility, which would further inhibit its viability as a conforming use; and

WHEREAS, the Board finds that the aforementioned unique physical conditions, when considered in the aggregate, create unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, the applicant initially submitted a feasibility study analyzing the following scenarios: (1) an as-of-right development over the entire 34,527 sq. ft. site, consisting of an 11,306 sq. ft., one-story retail building with accessory parking; and (2) the proposed use of the entire site for the existing scrap metal yard use; and

WHEREAS, the feasibility study concluded that the as-of-right development would not realize a reasonable return, but that the proposed development would realize a reasonable return; and

WHEREAS, at hearing, the Board directed the applicant to revise the proposed scenario to include a smaller as-of-right commercial building on former Lot 8900; and

WHEREAS, in response, the applicant submitted a revised feasibility study which analyzed (1) an as-of-right

---

# MINUTES

---

scenario consisting of a 2,821 sq. ft. retail building on former Lot 8900 considered in conjunction with the existing scrap metal yard on former Lot 260; and (2) an as-of-right 2,821 sq. ft. retail building on former Lot 8900 considered in isolation from the existing scrap metal yard; and

WHEREAS, the revised feasibility study concluded that neither of the scenarios featuring the smaller retail building on former Lot 8900 would realize a reasonable return; and

WHEREAS, based upon its review of the applicant's submissions, the Board has determined that, because of the subject site's unique physical conditions, there is no reasonable possibility that development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed variance will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant submitted a 400-ft. radius diagram which reflects that the surrounding area is characterized by a mix of commercial, manufacturing, and residential uses; and

WHEREAS, the applicant states that the enlargement of the existing scrap metal yard is imperceptible from Cropsey Avenue and is only visible from the Home Depot site which is immediately adjacent to the west; and

WHEREAS, the applicant further states that the only change that is visible from the adjacent Home Depot site is the location of the fence, which will be relocated 22 feet to the west of its current location, and which will be increased in length from 187 feet to 255 feet; and

WHEREAS, the applicant notes that the increased length of the fence is located entirely at the southern end of the site and will only be noticeable from the southern end of parking lot at the Home Depot site; and

WHEREAS, the applicant states that the enlargement of the existing building is located entirely on the former Lot 260 portion of the site and solely consists of an 822.5 sq. ft. enlargement to the one-story warehouse structure to provide an enclosure that protects the existing electrical framework and generator from the elements; and

WHEREAS, the applicant represents that neither the enlargement to the building nor the enlargement of the zoning lot will result in the use of any additional equipment on the site or the creation of any additional noise, vibrations or other disturbances on the site; and

WHEREAS, the applicant notes that the secluded location of former Lot 8900 will help ensure that the enlargement of the zoning lot will not result in any visual impact on the community; and

WHEREAS, at hearing, the Board directed the applicant to (1) provide an operational plan for the scrap metal yard; (2) remove the graffiti from the site; (3) demonstrate compliance with the condition from the prior grant that scrap piles be kept below the height of the fence; (4) repair the damaged portions of the fencing; and (5) provide landscaping along the western lot line; and

WHEREAS, in response, the applicant submitted an operational plan which states that: (1) the hours of operation will be Monday through Friday, from 7:00 a.m. to 5:00 p.m., Saturday, from 7:00 a.m. to 3:00 p.m., and closed on Sunday; (2) the hours of crane operation will be Monday through Friday, from 8:00 a.m. to 4:30 p.m. and Saturday, from 8:00 a.m. to 3:00 p.m., and the crane will be operated in conformance with Reference Standard RS 19-2; (3) an estimated 30 to 50 trucks travel through the site each day; (4) a rodent control plan certified by a registered New York State exterminator is in effect at the site; (5) all vehicles are parked within the fenced-in portion of the site; (6) all vibrations and sounds emitted from the site comply with M-1 district regulations; (7) all graffiti on the external walls of the site will be promptly painted over; (8) the scrap metal pile will be maintained so as not to exceed the height of the fence; and (9) weekly inspections will be conducted at the site to ensure compliance with the operational plan, specifically with regards to graffiti removal, maintenance of the scrap metal pile, and maintenance of the fence and surrounding sidewalk area; and

WHEREAS, the applicant also submitted photographs reflecting that the existing graffiti has been removed from the site, the scrap metal piles have been reduced so that they do not exceed the height of the fence, and the damaged portions of the fence have been repaired; and

WHEREAS, as to the landscaping on the site, the applicant states that the area along the western lot line where the Board directed the applicant to provide evergreen trees is owned by Home Depot, and not the applicant; and

WHEREAS, the applicant states that it has contacted Home Depot for their approval to provide the proposed plantings, but have not received any response; and

WHEREAS, the applicant submitted an affidavit from the owner stating that it will use its best efforts in pursuing the requested landscaping with Home Depot; and

WHEREAS, based upon the above, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title, but is the result of the site's unique physical conditions; and

WHEREAS, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, based upon the above, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an unlisted action pursuant to 6 NYCRR, Part 617.12 and 617.4; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved*, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR § 72-21 and grants a

# MINUTES

variance to permit, on a site located in a C8-1 zoning district, the enlargement of the zoning lot for a scrap metal yard (Use Group 18) and the legalization of the enlargement to the existing one-story warehouse building on the site, which does not conform to district use regulations, contrary to ZR § 32-10; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received April 12, 2012"- (5) sheets and *on further condition*:

THAT the term of this grant shall expire on June 5, 2022;

THAT the site will be maintained free of debris and graffiti;

THAT the scrap metal piles will be maintained so as not to exceed the height of the fence;

THAT the hours of operation will be Monday through Friday, from 7:00 a.m. to 5:00 p.m., Saturday, from 7:00 a.m. to 3:00 p.m., and closed on Sunday;

THAT the hours of crane operation will be Monday through Friday, from 8:00 a.m. to 4:30 p.m. and Saturday, from 8:00 a.m. to 3:00 p.m.;

THAT the crane will be operated in conformance with Reference Standard RS 19-2;

THAT a rodent control plan certified by a registered New York State exterminator will be kept in effect at the site;

THAT all vehicles will be parked within the fenced-in portion of the site;

THAT all vibrations and sounds emitted from the site comply with M-1 district regulations;

THAT signage shall be as indicated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 5, 2012.

## 169-11-BZ

### CEQR #12-BSA-038K

APPLICANT – Eric Palatnik, P.C., for Shlomo Vizgan, owner.

SUBJECT – Application October 27, 2011– Special Permit (§73-622) to allow the enlargement of an existing single family home, contrary to floor area, lot coverage and open space (§23-141(b)); side yards (§23-461(a)) and less than the required rear yard (§23-47). R-4 zoning district.

PREMISES AFFECTED – 2257 East 14<sup>th</sup> Street, between Avenue V and Gravesend Neck Road, Block 7375, Lot 48, Borough of Brooklyn.

### COMMUNITY BOARD #15BK

APPEARANCES –

For Applicant: Eric Palatnik.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

**THE RESOLUTION** –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated October 19, 2011, acting on Department of Buildings Application No. 320379602, reads in pertinent part:

1. Proposed enlargement increases the degree of non-compliance of an existing building with respect to floor area ratio, which is contrary to ZR Section 23-141.
2. Proposed enlargement increases the degree of non-compliance of an existing building with respect to open space and lot coverage which is contrary to ZR Section 23-141.
3. Proposed enlargement results in two side yards less than 5 feet and the total of both side yards less than 13 feet, which is contrary to ZR Section 23-461(a).
4. Proposed enlargement results in a rear yard of less than 30 feet, which is contrary to ZR Section 23-47; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03, to permit, in an R4 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio ("FAR"), open space, lot coverage, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, and 23-47; and

WHEREAS, a public hearing was held on this application on February 28, 2012, after due notice by publication in *The City Record*, with continued hearings on April 3, 2012 and May 1, 2012, and then to decision on June 5, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of East 14<sup>th</sup> Street, between Avenue V and Gravesend Neck Road, within an R4 zoning district; and

WHEREAS, the subject site has a total lot area of 2,500 sq. ft., and is occupied by a single-family home with a floor area of 1,098.5 sq. ft. (0.44 FAR); and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 1,098.5 sq. ft. (0.44 FAR) to 3,406 sq. ft. (1.36 FAR); the maximum permitted floor area is 2,250 sq. ft. (0.75 FAR); and

---

# MINUTES

---

WHEREAS, the applicant proposes to provide an open space of 46.5 percent (55 percent is the minimum required); and

WHEREAS, the applicant proposes to provide a lot coverage of 53.5 percent (45 percent is the maximum permitted); and

WHEREAS, the applicant proposes to maintain the existing side yard along the southern lot line with a width of 3'-10 ¾", and to maintain the existing side yard along the northern lot line with a width of 2'-7 ½" (a minimum width of 5'-0" is required for each side yard, with a minimum total width of 13'-0"); and

WHEREAS, the proposed enlargement will provide a rear yard with a depth of 20'-0" (a minimum rear yard depth of 30'-0" is required); and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, and will not impair the future use or development of the surrounding area; and

WHEREAS, the applicant submitted a survey of 44 homes with FARs greater than 0.8 within 400 feet of the site, of which 36 had FARs exceeding 1.0; and

WHEREAS, the applicant notes that the homes with the greatest FARs in the study area are those located within 100 feet of the site, which includes at least ten homes with FARs ranging from 1.59 to 1.80, all of which are greater than the FAR of the proposed home; and

WHEREAS, at hearing, the Board directed the applicant to remove the dormers from the proposed home, as they are not permitted in the subject R4 zoning district pursuant to ZR § 23-621; and

WHEREAS, in response, the applicant submitted revised plans which removed the dormers from the proposed home; and

WHEREAS, at hearing, the Board also questioned whether the front steps to the porch were permitted to encroach onto the sidewalk, whether the proposed landscaping complied with ZR § 23-451, and whether the proposed accessory off-street parking space is permitted in the front yard; and

WHEREAS, in response, the applicant states that the front steps to the porch are permitted to encroach 18 inches onto City property pursuant to Building Code § 27-31, that the landscaping complies with ZR § 23-451, and that the proposed accessory off-street parking space is permitted in the front yard; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03.

*Therefore it is resolved,* that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, within an R4 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for FAR, open space, lot coverage, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, and 23-47; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received May 21, 2012"-(12) sheets; and *on further condition:*

THAT the following will be the bulk parameters of the building: a maximum floor area of 3,406 sq. ft. (1.36 FAR); a minimum open space of 46.5 percent; a maximum lot coverage of 53.5 percent; a front yard with a depth of 10'-0"; a side yard with a minimum width of 3'-10¾" along the southern lot line; a side yard with a minimum width of 2'-7½" along the northern lot line; and a rear yard with a minimum depth of 20'-0", as illustrated on the BSA-approved plans;

THAT DOB will review and approve compliance with the planting requirements of ZR § 23-451;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 5, 2012.

## \*CORRECTION

This resolution adopted on April 24, 2012, under Calendar No. 764-56-BZ and printed in Volume 97, Bulletin Nos. 16-18, is hereby corrected to read as follows:

### 764-56-BZ

APPLICANT – Alfonso Duarte, P.E., for Anthony Panvini, owner.

SUBJECT – Application December 2, 2011 – Extension of Term (§11-411) of a variance permitting the operation of an automotive service station (UG 16B) with accessory uses and the sale of used cars (UG 16B), which expires on October 22, 2012. C1-2/R3-2 zoning district.

PREMISES AFFECTED – 200-05 Horace Harding Expressway, north side between Hollis Ct., Boulevard and 201<sup>st</sup> Street, Block 741, Lot 325,000.00, Borough of Queens.

### COMMUNITY BOARD #11Q

APPEARANCES –

For Applicant: Alfonso Duarte.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a re-opening and an extension of term of a previously granted variance to permit the operation of a gasoline service station with accessory uses and the sale of cars, which will expire on October 22, 2012; and

WHEREAS, a public hearing was held on this application on February 14, 2012, after due notice by publication in *The City Record*, with a continued hearing on March 20, 2012, and then to decision on April 24, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 11, Queens, recommends approval of this application, with the following conditions: (1) there be no parking on the sidewalk; (2) the site be maintained free of debris and graffiti; (3) all graffiti be removed within 48 hours; (4) all signs be maintained in accordance with the BSA-approved plans; (5) the sale of only five used cars be permitted; (6) all conditions appear on the certificate of occupancy; and (7) a new certificate of occupancy be obtained within one year from the date of the grant; and

WHEREAS, Queens Borough President Helen Marshall recommends approval of this application, subject to the conditions stipulated by the Community Board; and

WHEREAS, the subject site is located on a corner through lot bounded by 201<sup>st</sup> Street to the east, the Horace Harding Expressway to the south, and Hollis Court Boulevard to the west, within a C1-2 (R3-2) zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since October 22, 1957 when, under the subject calendar number, the Board granted a variance to permit the construction of a gasoline service station with accessory uses, for a term of 15 years; and

WHEREAS, subsequently, the grant has been amended and the term extended by the Board at various times; and

WHEREAS, most recently, on December 17, 2002, the Board granted a ten-year extension of term, which expires on October 22, 2012, and an amendment to permit the sale of used cars; and

WHEREAS, the applicant now requests an additional ten-year extension of term; and

WHEREAS, pursuant to ZR § 11-411, the Board may permit an extension of term; and

WHEREAS, at hearing, the Board raised concerns about the site's compliance with C1 district signage regulations; and

WHEREAS, in response, the applicant submitted revised plans and a signage analysis reflecting that the site complies with C1 district signage regulations; and

WHEREAS, based upon the above, the Board finds the requested extension of term is appropriate, with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated October 22, 1957, so that as amended this portion of the resolution shall read: “to extend the term for ten years from October 22, 2012, to expire on October 22, 2022; *on condition* that all use and operations shall substantially conform to plans filed with this application marked ‘Received January 31, 2012’- (2) sheets and ‘April 2, 2012’-(1) sheet; and *on further condition*:

THAT the term of the grant will expire on October 22, 2022;

THAT the site will be maintained free of debris and graffiti;

THAT any graffiti identified on the site will be removed within 48 hours;

THAT all signage on the site will comply with C1 district regulations;

THAT a maximum of five parking spaces on the site be utilized for the sale of used cars;

THAT the above conditions will be reflected on the certificate of occupancy;

THAT a new certificate of occupancy will be obtained by April 24, 2013;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals April 24, 2012.

date, which read: ... 'April 3, 2012'-(1) sheet. now reads:  
... 'April 2, 2012'-(1) sheet. Corrected in Bulletin Nos. 22-  
24, Vol. 97, dated June 14, 2012.

## \*CORRECTION

This resolution adopted on May 8, 2012, under Calendar No. 203-07-BZ and printed in Volume 97, Bulletin No. 20, is hereby corrected to read as follows:

### 203-07-BZ

APPLICANT – Sheldon Lobel, P.C., for Gastar Inc., owner.  
SUBJECT – Application December 30, 2011 – Amendment to a previous variance (§72-21) which allowed for the construction of a mixed use building, contrary to floor area an open space regulations. The amendment requests changes to the interior layout which would decrease medical office space, increase the number of dwelling units from 28 to 36, and increase parking from 58 to 61 spaces. R6/C2-2 zoning district.

PREMISES AFFECTED – 137-35 Elder Avenue, northwest corner of Main Street and Elder Avenue. Block 5140, Lot 40. Borough of Queens.

### COMMUNITY BOARD #7Q

APPEARANCES –

For Applicant: Nora Martins.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment to a previously granted variance for a 12-story mixed-use commercial/community facility/residential building; and

WHEREAS, a public hearing was held on this application on March 20, 2012 after due notice by publication in *The City Record*, with a continued hearing on April 24, 2012, and then to decision on May 8, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 7, Queens, recommends approval of this application, with the following conditions: (1) the owner ensures that the existing underground oil/gas tanks are legally removed and the soil is remediated; and (2) the parking plan be reviewed for compliance with zoning, height, and width; and

WHEREAS, the site is located on the northeast corner of Main Street and Elder Avenue; and

WHEREAS, the site is partially within an R6 zoning district and partially within an R6/C2-2 zoning district and has a total lot area of 9,632 sq. ft.; and

WHEREAS, on August 25, 2009, under the subject calendar number, the Board granted a variance to permit the construction of a 12-story mixed-use commercial/community facility/residential building which did not comply with the underlying zoning regulations for

---

# MINUTES

---

floor area ratio ("FAR") and open space, contrary to ZR § 23-142; and

WHEREAS, the applicant now requests an amendment to permit changes to the interior layout of the proposed building, including an increase in the number of dwelling units and parking spaces, an increase in the commercial floor area, a decrease in the community facility floor area, and modifications to the floor-to-ceiling heights that result in a slight increase in the building height; and

WHEREAS, specifically, the applicant seeks to increase the number of dwelling units from 26 units to 36 units and to provide a corresponding increase in the number of accessory parking spaces, from 58 spaces to 61 spaces; and

WHEREAS, the applicant states that the additional ten dwelling units are created by rearranging the interior layout on the fourth through tenth floors to create four dwelling units on each floor instead of three, and converting the two approved 11<sup>th</sup> and 12<sup>th</sup> floor duplexes into four single-floor units; the proposed residential floor area remains the same as the floor area approved by the Board pursuant to the original variance (33,292 sq. ft.); and

WHEREAS, the applicant further states that the additional number of parking spaces required by the proposed increase in dwelling units will be accommodated by installing stackers in the cellar and second floor parking garages; and

WHEREAS, the applicant notes that the proposed 61 parking spaces includes the required 55 parking spaces and six required queuing spaces; and

WHEREAS, the applicant states that the floor-to-ceiling heights of the cellar, first, and second floors have been adjusted to accommodate the stackers (which require overhead clearance of 10'-0"), resulting in a 1'-0" increase in the total building height, from 137'-6" to 138'-6"; and

WHEREAS, the applicant notes that the proposed height remains within the building envelope that is permitted as-of-right; and

WHEREAS, the applicant also seeks a slight increase in the commercial floor area on the ground floor from 6,820 sq. ft. to 7,040 sq. ft., due to a redesigned elevator core which was relocated to reduce the distance from the street entrance to the elevators, and a slight decrease in the community facility floor area from 4,850 sq. ft. to 4,149 sq. ft., due to the enlargement of the second floor parking garage to accommodate the additional parking spaces; and

WHEREAS, the applicant states that the proposed amendments will not adversely affect the surrounding neighborhood, as only ten additional dwelling units are proposed and required parking will be provided within the building; and

WHEREAS, the applicant further states that no increase in the approved residential floor area or decrease in the approved residential open space is requested; and

WHEREAS, in response to the Community Board's concerns regarding environmental remediation, the applicant states that its environmental consultant is working with the New York State Department of Environmental Conservation

("DEC") to determine the extent and scope of work necessary to remediate the soil at the site, that DEC requested the submission of a Remedial Action Work Plan ("RAWP"), and that upon approval of the RAWP it will undertake the necessary soil remediation measures simultaneously with the commencement of construction at the site; and

WHEREAS, as to the Community Board's concerns regarding the proposed parking plan, the applicant submitted revised plans which reflect the proposed parking stackers at the second and cellar floors, and the adjusted floor-to-ceiling heights of the cellar, first, and second floors to accommodate the stackers; and

WHEREAS, the Board notes that the proposed parking plan is subject to DOB review and approval for compliance with the Zoning Resolution and Building Code, and any other applicable requirements; and

WHEREAS, based upon its review of the record, the Board finds the requested amendment to the approved plans is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated August 25, 2009, so that as amended this portion of the resolution shall read: "to permit the noted modifications to the previously-approved plans; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received April 26, 2012"- eleven (11) sheets; and *on further condition*:

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted." (DOB Application No. 402635403)

Adopted by the Board of Standards and Appeals May 8, 2012.

**\*The resolution has been revised to correct part of the SUBJECT which read: ... "dwelling units from 28 to 36..." now reads: ... "dwelling units from 26 to 36", to remove the 7<sup>th</sup> WHEREAS; and the part of the building height which read: "from 137'-11" to 138'-11"... now reads: "from 137'-6" to 138'-6". Corrected in Bulletin Nos. 22-24, Vol. 97, dated June 14, 2012.**

**JULY 10, 2012, 10:00 A.M.**

**NOTICE IS HEREBY GIVEN** of a public hearing, Tuesday morning, July 10, 2012, 10:00 A.M., at 40 Rector Street, 6<sup>th</sup> Floor, New York, N.Y. 10006, on the following matters:

-----  
**SPECIAL ORDER CALENDAR**

**365-79-BZ**

APPLICANT – Kevin B. McGrath c/o Phillips Nizer LLP, for 89-52 Queens LLC, owner.  
SUBJECT – Application February 21, 2012 – Amendment to a prior variance which allowed for a hospital to be built contrary to bulk regulations. The hospital is now proposed to be used for commercial, community facility and residential uses. R6B/C1-2 zoning district.  
PREMISES AFFECTED – 90-02 Queens Boulevard, Hoffman Drive and Queens Boulevard, block 2857, Lot 36, Borough of Queens.  
**COMMUNITY BOARD #4Q**

-----

**25-89-BZ**

APPLICANT – Kevin B. McGrath c/o Phillips Nizer LLP, for St. John's Garage LLC, owner.  
SUBJECT – Application February 23, 2012 – Amendment to prior variance which allowed for an accessory parking garage to be built for a hospital to be used for accessory parking for community facility, commercial and residential uses which will now occupy that former hospital. R6B/C1-2 zoning district.  
PREMISES AFFECTED – 58-04 Hoffman Drive, 58<sup>th</sup> Avenue and Hoffman Drive, Block 2860, Lot 16, Borough of Queens.  
**COMMUNITY BOARD #4Q**

-----

**337-90-BZ**

APPLICANT – Sheldon Lobel, P.C., for Giuseppe LaSorsa, owner.  
SUBJECT – Application April 26, 2012 – Extension of Term (§11-411) of a previously approved variance which permitted an automotive repair establishment (UG 16B) and a two-story mixed-use building with retail (UG 6) and residential (UG 2) which will expire on June 2, 2012. C1-3/R5D zoning district.  
PREMISES AFFECTED – 1415-17 East 92<sup>nd</sup> Street, northeast corner of the intersection formed by East 92<sup>nd</sup> Street and Avenue L, Block 8238, Lot 9, Borough of Brooklyn.  
**COMMUNITY BOARD #18BK**

-----

**51-06-BZ**

APPLICANT – Sheldon Lobel, P.C., for Rivoli Realty Corporation, owner.  
SUBJECT – Application February 4, 2010 – Amendment of variance (§72-21) which permitted, in a C1-2/R2 zoning district, the operation of a Physical Culture Establishment (PCE) contrary to ZR §32-00, and the legalization of an existing dance studio (Use Group 9), contrary to ZR §32-18.  
The amendment seeks to enlarge the PCE to occupy 1,072 sf of the first floor and amend the resolution to reflect a change in ownership of the PCE.  
PREMISES AFFECTED – 188-02/22 Union Turnpike, Located on the south side of Union Turnpike between 188th and 189th Streets, Block 7266, Lot 1, Borough of Queens.  
**COMMUNITY BOARD #1Q**

# MINUTES

**REGULAR MEETING  
TUESDAY MORNING, JUNE 12, 2012  
10:00 A.M.**

Present: Chair Srinivasan, Vice-Chair Collins,  
Commissioner Ottley-Brown, Commissioner Hinkson and  
Commissioner Montanez.

-----  
**SPECIAL ORDER CALENDAR**

**196-49-BZ**

APPLICANT – Walter T. Gorman, P.E., for 1280 Allerton Avenue Realty Corp., owner; Don-Glo Auto Service Center, lessee.

SUBJECT – Application February 14, 2012 – Extension of Term of an approved variance for the continued operation of a gasoline service station (*Sunoco*) which expired on September 30, 2005; Amendment for the addition of a lift in the service building and an air tower and car vacuum on the site. R4 zoning district.

PREMISES AFFECTED – 1280 Allerton Avenue, south west corner of Wilson Avenue. Block 4468, Lot 43. Borough of Bronx.

**COMMUNITY BOARD #11BX**

APPEARANCES –

For Applicant: Chetram Budhu.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

**THE RESOLUTION** –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, an extension of term, and an amendment to a previously granted variance for a gasoline service station; and

WHEREAS, a public hearing was held on this application on April 24, 2012 after due notice by publication in *The City Record*, with a continued hearing on May 15, 2012, and then to decision on June 12, 2012; and

WHEREAS, Community Board 11, Bronx, recommends approval of this application; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the site is located on a corner through lot bounded by Bouck Avenue to the west, Allerton Avenue to the north, and Wilson Avenue to the east, within an R4 zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since April 11, 1950 when, under the subject calendar number, the Board granted a variance to permit the

site to be occupied by a gasoline service station for a term of 15 years; and

WHEREAS, subsequently, the grant has been amended and the term extended by the Board at various times; and

WHEREAS, most recently, on December 22, 1998, the Board granted an extension of term for a period of ten years, which expired on September 30, 2005; and

WHEREAS, the applicant now seeks an additional ten-year extension of term; and

WHEREAS, pursuant to ZR § 11-411, the Board may permit an extension of term; and

WHEREAS, the applicant also requests an amendment to the previous grant to reflect the addition of a third automobile lift in the service building, the addition of an air tower and car vacuum tower at the northwest corner of the site, and an increase in the hours of operation for gasoline sales; and

WHEREAS, as to the hours of operation, the applicant states that the previously-approved hours of operation are 6:00 a.m. to 12:00 a.m., daily, for the gasoline service station, and Monday through Saturday, from 8:00 a.m. to 5:00 p.m., and Sunday, from 10:00 a.m. to 3:00 p.m. for the auto repair shop; and

WHEREAS, the applicant proposes to increase the hours of operation for the gasoline service station to 24 hours, daily, and to change the hours of operation for the auto repair shop to Monday through Saturday, from 8:00 a.m. to 5:00 p.m., and closed on Sunday; and

WHEREAS, the applicant states that permitting the subject gasoline service station to operate on a 24-hour basis will enable it to compete with the many existing gasoline service stations within the City that operate on a 24-hour basis; and

WHEREAS, at hearing, the Board raised concerns about an open Fire Department violation for failure to have certificates of fitness for dispensing gasoline and failure to display an annual fire permit; and

WHEREAS, in response, the applicant submitted copies of the certificates of fitness for individuals who dispense gasoline at the station, and submitted a copy of the annual fire permit which is displayed at the station; and

WHEREAS, based upon the above, the Board finds that the requested extension of term and extension of time are appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated April 11, 1950, so that as amended this portion of the resolution shall read: “to extend the term for ten years from September 30, 2005, and to permit the noted modifications to the previously-approved plans; *on condition* that all use and operations shall substantially conform to plans filed with this application marked ‘Received February 14, 2012’-(6) sheets; and *on further condition*:

THAT the term of the grant will expire on September 30, 2015;

THAT the hours of operation for the gasoline service

# MINUTES

station will be 24 hours, daily;

THAT the hours of operation for the auto repair shop will be Monday through Saturday, from 8:00 a.m. to 5:00 p.m., and closed on Sunday;

THAT the above conditions will be reflected on the certificate of occupancy;

THAT a new certificate of occupancy will be obtained by June 12, 2013;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (DOB Application No. 220166120)

Adopted by the Board of Standards and Appeals June 12, 2012.

-----

## 849-49-BZ

APPLICANT – Greenberg Traurig, LLP, by Jay A. Segal, Esq., for Directors of Guild of America, Inc., owner.

SUBJECT – Application February 29, 2012 – Extension of Term of a previously granted Variance (§72-21) for the continued use of a motion picture theater which expired on January 31, 2012. C5-3(MID) zoning district.

PREMISES AFFECTED – 110 West 57<sup>th</sup> Street, southside of 57<sup>th</sup> Street, between 6<sup>th</sup> and 7<sup>th</sup> Avenues, Block 1009, Lot 40, Borough of Manhattan.

### COMMUNITY BOARD #5M

APPEARANCES –

For Applicant: Randall Minor.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of the term for a previously granted variance for the operation of a motion picture theater (Use Group 8) at the site; and

WHEREAS, a public hearing was held on this application on May 15, 2012, after due notice by publication in *The City Record*, and then to decision on June 12, 2012; and

WHEREAS, Community Board 5, Manhattan, recommends approval of this application; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the south side of West 57<sup>th</sup> Street, between Avenue of the Americas and Seventh Avenue, within a C5-3 zoning district; and

WHEREAS, the site is occupied by a seven-story

commercial building with a 4,110 sq. ft. portion of the first floor operated as a motion picture theater (Use Group 8); and

WHEREAS, the Board has exercised jurisdiction over the site since March 28, 1950 when, under the subject calendar number, the Board granted a variance to permit the use of a portion of the first floor as a motion picture theater (Use Group 8), for a term of 21 years; and

WHEREAS, subsequently, the grant was amended and the term extended at various times; and

WHEREAS, most recently, on September 30, 2003, the Board granted a ten-year extension of term, which expired on January 31, 2012; and

WHEREAS, the applicant now seeks an additional ten-year extension of the term; and

WHEREAS, pursuant to ZR § 11-411, the Board may permit an extension of term; and

WHEREAS, based upon the above, the Board finds that the requested extension of term is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated March 28, 1950, so that as amended this portion of the resolution shall read: “to extend the term for ten years from January 31, 2012, to expire on January 31, 2022; *on condition* that the use and operation of the site shall comply with the BSA-approved plans associated with the prior grant; and *on further condition*:

THAT the term of the grant will expire on January 31, 2022;

THAT all conditions from prior resolution not specifically waived by the Board remain in effect; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (DOB App. No. 103455976)

Adopted by the Board of Standards and Appeals June 12, 2012.

-----

## 749-65-BZ

APPLICANT – Sheldon Lobel, P.C., for Henry Koch, owner.

SUBJECT – Application April 9, 2012 – Extension of Time to obtain a Certificate of Occupancy for a previously granted Variance (§72-21) for the continued operation of a UG16 Gasoline Service Station (*Getty*) which expired on March 8, 2012.

PREMISES AFFECTED – 1820 Richmond Road, southeast corner of Richmond Road and Stobe Avenue, Block 3552, Lot 39, Borough of Staten Island.

### COMMUNITY BOARD #2SI

APPEARANCES –

For Applicant: Emily Laskodi.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

# MINUTES

Affirmative: Chair Srinivasan, Vice Chair Collins,  
Commissioner Ottley-Brown, Commissioner Hinkson and  
Commissioner Montanez .....5  
Negative:.....0

## THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of time to obtain a certificate of occupancy, which expired on March 8, 2012; and

WHEREAS, a public hearing was held on this application on May 8, 2012, after due notice by publication in *The City Record*, and then to decision on June 12, 2012; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Montanez; and

WHEREAS, Community Board 2, Staten Island, recommends approval of this application; and

WHEREAS, the site is located on the southeast corner of Richmond Road and Stobe Avenue, within an R3X zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since November 3, 1965 when, under the subject calendar number, the Board granted a variance to permit the reconstruction and rehabilitation of an automotive service station with accessory uses, for a term of 15 years; and

WHEREAS, subsequently, the grant has been amended and the term extended by the Board at various times; and

WHEREAS, most recently, on March 8, 2011, the Board granted an extension of term for ten years from the expiration of the prior grant, to expire on November 3, 2020, and an extension of time to obtain a certificate of occupancy, which expired on March 8, 2012; and

WHEREAS, the applicant now requests an additional extension of time to obtain a certificate of occupancy; and

WHEREAS, the applicant states that a new certificate of occupancy was not obtained by the stipulated date due to delays at the Department of Buildings; and

WHEREAS, based upon the above, the Board finds that the requested extension of time is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated November 3, 1965, so that as amended this portion of the resolution shall read: “to grant an extension of time to obtain a certificate of occupancy to June 12, 2013; *on condition* that the use and operation of the site shall comply with the BSA-approved plans associated with the prior grant; and *on further condition*:

THAT a new certificate of occupancy will be obtained by June 12, 2013;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)

and/or configuration(s) not related to the relief granted.”  
(DOB Application No. 520045816)

Adopted by the Board of Standards and Appeals June 12, 2012.

## 136-01-BZ

APPLICANT – Eric Palatnik, P.C., for Cel Net Holdings Corp., owner.

SUBJECT – Application April 20, 2012 – Extension of Time to complete Construction and obtain a Certificate of Occupancy for a previously granted Variance (§72-21) which permitted non-compliance in commercial floor area and rear yard requirements which expired on March 21, 2012. M1-4/R-7A zoning district.

PREMISES AFFECTED – 11-11 44<sup>th</sup> Drive, north side of 44<sup>th</sup> Drive between 11<sup>th</sup> Street and 21<sup>st</sup> Street, Block 447, Lot 13, Borough of Queens.

## COMMUNITY BOARD #2Q

APPEARANCES –

For Applicant: Todd Dale.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins,  
Commissioner Ottley-Brown, Commissioner Hinkson and  
Commissioner Montanez .....5  
Negative:.....0

## THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of time to complete construction and obtain a certificate of occupancy for a previously granted variance; and

WHEREAS, a public hearing was held on this application on May 15, 2012, after due notice by publication in *The City Record*, and then to decision on June 12, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan and Commissioner Hinkson; and

WHEREAS, the subject site is located on the north side of 44<sup>th</sup> Drive, between 11<sup>th</sup> Street and 21<sup>st</sup> Street, within an M1-4 (R7A) zoning district; and

WHEREAS, on June 11, 2002, the Board granted an application under ZR § 72-21, to permit, in an M1-4 zoning district, an increase in floor area for a wholesale office with accessory storage (Use Group 10) and the legalization of the existing encroachment into the rear yard; and

WHEREAS, substantial construction was to be completed by June 11, 2006 in accordance with ZR § 72-23; and

WHEREAS, on March 28, 2006, the Board granted an extension of time to complete construction and obtain a certificate of occupancy, to expire on March 28, 2008; and

WHEREAS, on January 12, 2010, the Board granted an extension of time to complete construction and obtain a certificate of occupancy, which expired on July 12, 2010, and an amendment to the approved plans to reflect that the previously-approved enlargement had been eliminated and that the total floor area of the proposed building will remain at

# MINUTES

31,784 sq. ft.; and

WHEREAS, most recently, on September 21, 2010, the Board granted an extension of time to complete construction and obtain a certificate of occupancy, to expire on March 21, 2012; and

WHEREAS, the applicant now requests an additional extension of time to complete construction and obtain a certificate of occupancy; and

WHEREAS, the applicant states that since the Board's prior grant of an extension of time the owner has made substantial expenditures toward completing the project, totaling \$427,359.04, which included substantial improvements to the structure, mechanical systems, fireproofing and sprinklering, and interior of the building; and

WHEREAS, in support of the work performed on the site since the prior grant, the applicant submitted expense reports reflecting the expenditures made on construction, and photographs of the work completed on the site; and

WHEREAS, the applicant states that approximately 90 percent of the work is complete at the site, and requests a one-year extension of time to complete construction, consisting of minor interior carpentry, painting, and carpeting, and to obtain a certificate of occupancy; and

WHEREAS, based upon the above, the Board finds that the requested extension of time is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated June 11, 2002, so that as amended this portion of the resolution shall read: "to permit an extension of time to complete construction and obtain a certificate of occupancy, to expire on June 12, 2013; *on condition* that the use and operation of the site shall substantially conform to the previously approved plans; and *on further condition*:

THAT substantial construction will be completed and a certificate of occupancy obtained by June 12, 2013;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

(DOB Application No. 400849748)

Adopted by the Board of Standards and Appeals, June 12, 2012.

THE RESOLUTION –

---

# MINUTES

---

WHEREAS, this is an appeal requesting a Board determination that the owner of the premises has obtained the right to complete construction of a seven-story community facility building under the common law doctrine of vested rights; and

WHEREAS, a public hearing was held on this application on May 15, 2012, after due notice by publication in *The City Record*, and then to decision on June 12, 2012; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Chair Srinivasan; and

WHEREAS, the site is located on the southeast corner of 90<sup>th</sup> Avenue and 178<sup>th</sup> Street; and

WHEREAS, the site consists of an L-shaped parcel with approximately 90 feet of frontage on 90<sup>th</sup> Avenue, 77 feet of frontage on 178<sup>th</sup> Street, and a total lot area of 8,450 sq. ft.; and

WHEREAS, the applicant proposes to develop the site with a seven-story community facility building with a floor area of 38,468 sq. ft. (4.55 FAR) (the "Building"); and

WHEREAS, the subject site is currently located in an R4-1 zoning district, but was formerly located within an R6 zoning district; and

WHEREAS, the Building complies with the former R6 zoning district parameters, specifically with respect to floor area; and

WHEREAS, however, on September 10, 2007 (the "Rezoning Date"), the City Council voted to adopt the Jamaica Plan Rezoning, which rezoned the site to an R4-1 zoning district, as noted above; and

WHEREAS, the Building does not comply with the R4-1 zoning district parameters; and

WHEREAS, as a threshold matter in determining this appeal, the Board must find that the construction was conducted pursuant to valid permits; and

WHEREAS, the applicant states that Permit No. 402601500 was issued on June 26, 2007 (the "Foundation Permit"), and New Building Permit No. 402629312 was issued on August 20, 2007 authorizing the development of a nine-story mixed-use residential/community facility building with 16 dwelling units and a total of 26,609 sq. ft. of floor area (the "Original Building"), which was permitted as-of-right under the R6 zoning district; and

WHEREAS, the Board notes that, as of the Rezoning Date, the applicant had obtained permits for the development and had completed 100 percent of their foundations, such that the right to continue construction was vested pursuant to ZR § 11-331, which allows DOB to determine that construction may continue under such circumstances; and

WHEREAS, however, only two years are permitted for the completion of construction and to obtain a certificate of occupancy; and

WHEREAS, in the event that construction permitted by ZR § 11-331 has not been completed and a certificate of occupancy has not been issued within two years of a rezoning, ZR § 11-332 allows an application to be made to the Board not more than 30 days after its lapse to renew such permit; and

WHEREAS, the applicant states that construction was not completed and a certificate of occupancy was not obtained

within two years of the Rezoning Date; and

WHEREAS, accordingly, the applicant is seeking an extension of time to complete construction and obtain a certificate of occupancy; and

WHEREAS, the Board notes that the applicant failed to file an application to renew the Permit pursuant to ZR § 11-332 within 30 days of its lapse on September 10, 2009, and is therefore requesting additional time to complete construction and obtain a certificate of occupancy under the common law; and

WHEREAS, the applicant states that on September 10, 2009, DOB approved an amendment to the plans for the Original Building under a Post-Approval Amendment ("PAA") and issued a new building permit to allow the construction of the Building, which was also permitted as-of-right under the R6 zoning district; and

WHEREAS, the applicant further states that all construction work performed pursuant to the permit for the Original Building can be applied toward the Building; and

WHEREAS, the applicant notes that the Building primarily consists of faculty apartments and offices to be occupied by Queens College; and

WHEREAS, by letter dated January 11, 2012, DOB states that the Permit was lawfully issued, authorizing construction prior to the Rezoning Date; and

WHEREAS, the Board has reviewed the record and agrees that the Permit was lawfully issued to the owner of the subject premises prior to the Rezoning Date; and

WHEREAS, the Board notes that when work proceeds under a valid permit, a common law vested right to continue construction after a change in zoning generally exists if: (1) the owner has undertaken substantial construction; (2) the owner has made substantial expenditures; and (3) serious loss will result if the owner is denied the right to proceed under the prior zoning; and

WHEREAS, specifically, as held in Putnam Armonk, Inc. v. Town of Southeast, 52 A.D.2d 10 (2d Dept. 1976), where a restrictive amendment to a zoning ordinance is enacted, the owner's rights under the prior ordinance are deemed vested "and will not be disturbed where enforcement [of new zoning requirements] would cause 'serious loss' to the owner," and "where substantial construction had been undertaken and substantial expenditures made prior to the effective date of the ordinance"; and

WHEREAS, however, notwithstanding this general framework, as discussed by the court in Kadin v. Bennett, 163 A.D.2d 308 (2d Dept. 1990) "there is no fixed formula which measures the content of all the circumstances whereby a party is said to possess 'a vested right'. Rather, it is a term which sums up a determination that the facts of the case render it inequitable that the State impede the individual from taking certain action"; and

WHEREAS, as to substantial construction, the Board notes that DOB determined that the applicant had completed 100 percent of its foundation prior to the Rezoning Date, such that the right to continue construction had vested pursuant to ZR § 11-331; and

---

# MINUTES

---

WHEREAS, the applicant states that, as of the two year anniversary of the Rezoning Date the owner had completed all excavation and foundation work, all waterproofing of the foundation walls, and had begun construction of the concrete block walls on top of the foundation walls; and

WHEREAS, the applicant represents that the work completed at the site as of the two year anniversary of the Rezoning Date accounts for approximately 15 percent of the total construction work; and

WHEREAS, in support of this assertion, the applicant submitted the following evidence: construction contracts, a construction log, concrete pour tickets, and photographs of the site showing the amount of work completed prior to the two year anniversary of the Rezoning Date; and

WHEREAS, the Board has reviewed the representations as to the amount and type of work completed before the two year anniversary of the Rezoning Date and the documentation submitted in support of these representations, and agrees that it establishes that substantial work was performed; and

WHEREAS, the Board concludes that, given the size of the site, and based upon a comparison of the type and amount of work completed in this case with the type and amount of work discussed by New York State courts, a significant amount of work was performed at the site during the relevant period; and

WHEREAS, as to expenditure, the Board notes that unlike an application for relief under ZR § 11-30 *et seq.*, soft costs and irrevocable financial commitments can be considered in an application under the common law and accordingly, these costs are appropriately included in the applicant's analysis; and

WHEREAS, the applicant states that the owner expended \$2,758,239, including hard and soft costs and irrevocable commitments, out of \$11,616,685 budgeted for the entire project; and

WHEREAS, as proof of the expenditures, the applicant has submitted construction contracts, copies of cancelled checks, invoices, and accounting tables; and

WHEREAS, in relation to actual construction costs, the applicant specifically notes that the owner had paid or contractually incurred \$1,224,137 for the work performed at the site as of the two year anniversary of the Rezoning Date; and

WHEREAS, the applicant further states that the owner paid an additional \$1,534,102 in soft costs related to the work performed at the site as of the two year anniversary of the Rezoning Date; and

WHEREAS, thus, the expenditures up to the two year anniversary of the Rezoning Date represent approximately 24 percent of the projected total cost; and

WHEREAS, the Board considers the amount of expenditures significant, both for a project of this size, and when compared with the development costs; and

WHEREAS, again, the Board's consideration is guided by the percentages of expenditure cited by New York courts considering how much expenditure is needed to vest rights under a prior zoning regime; and

WHEREAS, as to serious loss, the Board considers not only whether certain improvements and expenditures could

not be recouped under the new zoning, but also considerations such as the diminution in income that would occur if the new zoning were imposed and the reduction in value between the proposed building and the building permitted under the new zoning; and

WHEREAS, the applicant states that if it is required to comply with the R4-1 zoning district regulations, the floor area of the Building would have to be decreased from the proposed 38,468 sq. ft. (4.55 FAR) to a maximum of 16,900 sq. ft. (2.0 FAR); and

WHEREAS, the applicant further states that an R4-1 compliant community facility building would not be feasible because it would not suit the programmatic needs of Queens College, which would likely withdraw from the project as a result; and

WHEREAS, the applicant represents that an R4-1 compliant mixed-use building with approximately 8,000 sq. ft. of ground floor community facility use and a maximum of 7,605 sq. ft. of residential floor area would be even less feasible than a complying community facility building; and

WHEREAS, accordingly, the applicant states that the only potentially feasible development under the R4-1 district regulations would be a residential building; however, constructing a residential building on the site would require the complete redesign of the Building; and

WHEREAS, specifically, the applicant states that the existing foundation, which is built to the lot lines, is far too large for a complying residential building and would have to be substantially or even completely demolished and rebuilt in order to provide the necessary front, side, and rear yards for a complying residential building, resulting in the loss of all of the hard and soft costs associated with the construction and maintenance of the foundation on the property, a total of \$2,758,239; and

WHEREAS, the Board agrees that the reduction in floor area of the Building, coupled with the loss of expenditures and outstanding fees that could not be recouped and the need to demolish and redesign, constitutes a serious economic loss, and that the evidence submitted by the applicant supports this conclusion; and

WHEREAS, in sum, the Board has reviewed the representations as to the work performed, the expenditures made, and serious loss, and the supporting documentation for such representations, and agrees that the applicant has satisfactorily established that a vested right to complete construction of the Buildings had accrued to the owner of the premises as of the two year anniversary of the Rezoning Date.

*Therefore it is Resolved* that this appeal made pursuant to the common law of vested rights requesting a reinstatement of Alteration Permit No. 402629312-01-NB, as well as all related permits for various work types, either already issued or necessary to complete construction and obtain a certificate of occupancy, is granted for two years from the date of this grant.

Adopted by the Board of Standards and Appeals, June 12, 2012.

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated March 1, 2012, acting on Department of Buildings Application No. 420344693, reads in pertinent part:

- A1- The proposed enlargement is on a site where the building and lot are partially located in the bed of a mapped street therefore no permit or Certificate of Occupancy can be issued as per Art. 3 Sect. 35 of the General City Law
- A2- The street giving access to the existing building to be altered is not duly placed on the map of the City of New York.

- a) A Certificate of Occupancy may not be issued as per Article 3, Section 36 of the General City Law; and
- b) Existing dwelling to be altered does not have at least 8% of the total perimeter of the building fronting directly upon a legally mapped street or frontage space is contrary to Section 27-291 of the Administrative Code.

A3- The proposed upgrade of the private disposal system is contrary to the Department of Building policy; and

WHEREAS, a public hearing was held on this application on May 8, 2012, after due notice by publication in the *City Record*, with a continued hearing on June 12, 2012, and then to decision on the same date; and

WHEREAS, by letter dated April 26, 2012 the Fire Department states that it has no objection to the subject proposal, and due to the fact that the proposed enlargement is less than 125 percent of the existing floor area, no Fire Code regulations are triggered; and

WHEREAS, by letter dated March 21, 2012, the Department of Environmental Protection states that it has no objection to the subject proposal; and

WHEREAS, by letter dated March 28, 2012, the Department of Transportation (“DOT”) states that it has no objection to the subject proposal; and

WHEREAS, DOT states that the subject lot is not currently included in the agency’s Capital Improvement Program; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

*Therefore it is Resolved* that the decision of the Queens Borough Commissioner, dated March 1, 2012, acting on Department of Buildings Application No. 420344693, is modified by the power vested in the Board by Section 35 and Section 36 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked “Received March 7, 2012”-one (1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT DOB will review the proposed plans to ensure compliance with all relevant provisions of the Zoning Resolution;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated August 4, 2011, acting on Department of Buildings Application No. 320206031, reads in pertinent part:

Residence (UG 2) is not permitted as of right use in a M1-2 district as per Section 42-00 of the Zoning Resolution and, as such must be referred to the Board of Standards and Appeals for approval; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site within an M1-2 zoning district, the construction of a four-story residential building, which is contrary to ZR § 42-00; and

WHEREAS, a public hearing was held on this application on January 24, 2012 after due notice by publication in the *City Record*, with a continued hearing on February 28, 2012, and then to decision on June 12, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 6, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the north side of Carroll Street between Nevins Street and Third Avenue; and

WHEREAS, the site is an irregularly-shaped lot with 24'-

0" of frontage along Carroll Street, with a 12'-6" bump out along the rear 25'-0" of the lot (for a total width of 36'-6" at the rear of the lot), a depth of 100 feet, and a total lot area of 2,712.5 sq. ft.; and

WHEREAS, the site is currently vacant; and

WHEREAS, the applicant proposes to construct a four-story, four-unit residential building with a floor area of 5,421 sq. ft. (2.0 FAR) and a height of 40 feet; and

WHEREAS, because residential use is not permitted in the M1-2 zoning district, the subject variance is requested; and

WHEREAS, the applicant represents that the following are unique physical conditions, which create practical difficulties and unnecessary hardship in developing the subject lot in conformance with applicable regulations: (1) the site is narrow and irregularly-shaped; and (2) the site is located on a narrow street among residential uses; and

WHEREAS, as to the size and shape of the lot, the applicant states that the lot has a narrow width of 24'-0", with a 12'-6" bump out along the rear 25'-0" of the lot; and

WHEREAS, the applicant represents that the narrow width of the site would result in a conforming commercial or manufacturing building with extremely narrow floor plates, which would impede the flow of work and material for such a use; and

WHEREAS, as to the location of the site, the applicant states that Carroll Street is a narrow, one-lane, one-way street with parking spaces along both sides of the street, and the subject block is occupied primarily by residential use; and

WHEREAS, the applicant states that due to the layout of the street, there could be no meaningful driveway or loading dock located on the subject site and it would be difficult to impossible for tractor-trailers or large commercial trucks to make deliveries or pickups at the site; and

WHEREAS, the applicant further states that the narrow width of the site also contributes to the inability to provide a viable loading dock on the site to support a conforming use; and

WHEREAS, accordingly, the applicant represents that a conforming commercial or manufacturing building would not be viable on the subject site; and

WHEREAS, as to the uniqueness of the conditions, the applicant performed a lot use and width analysis that evaluated the 443 lots bounded by Sackett Street, Fourth Avenue, Bond Street, and Third Street, which is almost equivalent to the area in the Department of City Planning's Rezoning Proposal for the Gowanus; and

WHEREAS, the applicant states that the analysis reflects that there are a total of only eight vacant lots in the study area with a width of 25 feet or less in the manufacturing zoning district, accounting for only 1.8 percent of the lots in the study area; and

WHEREAS, the applicant further states that four of these vacant narrow lots are directly adjacent to each other such that they have the opportunity for assemblage, while two of the other vacant lots are directly adjacent to existing manufacturing uses and vacant space, giving the lots the ability to merge and create a large development lot for commercial or manufacturing uses; and

---

# MINUTES

---

WHEREAS, the applicant notes that there are only two lots in the study area other than the subject site (less than 0.5 percent of lots within the study area) which have the condition of being narrow vacant lots zoned for manufacturing use which cannot merge with an adjacent vacant or commercial site to create a larger, commercially viable development lot; and

WHEREAS, based upon the above, the Board finds that the aforementioned unique physical conditions create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the applicant asserts that because of its unique physical conditions, there is no possibility that the use of the property in conformance with applicable use regulations will bring a reasonable return to the owner; and

WHEREAS, the applicant submitted a feasibility study analyzing (1) a conforming three-story commercial building with ground floor retail and office use above and (2) the proposed four-story residential building; and

WHEREAS, at the Board's direction, the applicant supplemented its feasibility study with an analysis of a conforming industrial building; and

WHEREAS, the applicant concluded that only the proposed use would realize a reasonable return; and

WHEREAS, the applicant submitted evidence that the owner had unsuccessfully attempted to market the building for a conforming use; and

WHEREAS, based upon its review of the feasibility study, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict conformance with applicable use requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that the buildings surrounding the property are predominantly residential; and

WHEREAS, the applicant notes that the proposed residential use is consistent with the character of the area, which includes many other residential uses, including the adjacent residential buildings and others on the subject block; and

WHEREAS, in support of the above statements, the applicant submitted a land use map, showing the various uses in the immediate vicinity of the site; and

WHEREAS, during the course of the hearing process, the applicant submitted revised plans reflecting that the fourth floor of the proposed building will be set back 15 feet from the street line, and submitted a streetscape which reflects that the height of the building fits within the context of the surrounding buildings on the street; and

WHEREAS, the applicant notes that DCP issued a Gowanus Canal Corridor Rezoning Study in 2008 which outlined the basis for rezoning the subject neighborhood and specifically recommended that the blocks immediately surrounding and including the subject site be rezoned to an

M1-4/R6B zoning district, which would permit the use and bulk of the proposed building as-of-right; and

WHEREAS, the applicant states that the Draft Zoning Proposal for the subject neighborhood reflects an acknowledgment that residential use is appropriate for the proposed site; however, the applicant represents that the Environmental Protection Agency's designation of the Gowanus Canal as a Superfund site had the effect of halting DCP's proposed rezoning of the neighborhood; and

WHEREAS, as to the bulk, the applicant states that the proposed building complies with R6B (Quality Housing) equivalent regulations; and

WHEREAS, based upon its review of the submitted land use map and its site inspection, the Board agrees that the area includes a significant amount of residential use, and finds that the introduction of the proposed building will not impact nearby conforming uses nor negatively affect the area's character; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title, but is rather a function of the pre-existing unique physical conditions cited above; and

WHEREAS, the Board finds that the proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to Sections 617.6(h) and 617.2(h) of 6 NYCRR; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 12BSA019K, dated May 31, 2012; and

WHEREAS, the EAS documents indicate that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved* that the Board of Standards and Appeals issues a Negative Declaration, with conditions as

# MINUTES

stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit the construction of a four-story residential building, which is contrary to ZR § 42-00 *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received March 23, 2012"– six (6) sheets; and *on further condition*:

THAT the following are the bulk parameters of the building: a maximum floor area of 5,421 sq. ft. (2.0 FAR), four dwelling units, and a maximum height of 40'-0", as indicated on the BSA-approved plans;

THAT the cellar will not be used for dwelling, habitable, or sleeping purposes, as indicated on the BSA-approved plans;

THAT construction shall proceed in accordance with ZR § 72-23;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 12, 2012.

### CEQR #12-BSA-064K

APPLICANT – Law Office of Fredrick A. Becker, for Gladys Mandalaoui and Solomon Mandalaoui, owners.

SUBJECT – Application January 17, 2012 – Special Permit (§73-622) for the enlargement of an existing single family home, contrary to floor area, lot coverage and open space (§23-141); side yards (§23-461) and less than the required rear yard (§23-47). R4 zoning district/Special Ocean Parkway District.

PREMISES AFFECTED – 705 Gravesend Neck Road, north side of Gravesend Neck Road, between East 7<sup>th</sup> Street and East 8<sup>th</sup> Street, block 7159, Lot 39, Borough of Brooklyn.

### COMMUNITY BOARD #15BK

APPEARANCES –

For Applicant: Lyra J. Altman.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated January 24, 2012, acting on Department of Buildings Application No. 320404745, reads in pertinent part:

1. Creates non-compliance with respect to the side yards by not meeting the minimum requirements of Section 23-461 & 23-48 of the Zoning Resolution.
2. Creates non-compliance with respect to the rear yard by not meeting the minimum requirements of Section 23-47 of the Zoning Resolution.
3. Creates non-compliance with respect to floor area by exceeding the allowable floor area ratio and is contrary to Section 23-141 of the Zoning Resolution.
4. Creates non-compliance with respect to the lot coverage and is contrary to Section 23-141 of the Zoning Resolution.
5. Creates non-compliance with respect to the open space and is contrary to Section 23-141 of the Zoning Resolution; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03, to permit, in an R4 zoning district within the Special Ocean Parkway District, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio ("FAR"), open space, lot coverage, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, 23-47, and 23-48; and

WHEREAS, a public hearing was held on this application on May 8, 2012 after due notice by publication in *The City Record*, and then to decision on June 12, 2012; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Hinkson; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, at hearing, an adjacent neighbor provided oral testimony in opposition to this application, citing concerns with drainage problems and associated flooding on the site; and

WHEREAS, the subject site is located on the north side of Gravesend Neck Road, between East 7<sup>th</sup> Street and East 8<sup>th</sup> Street, in an R4 zoning district within the Special Ocean Parkway District; and

WHEREAS, the subject site has a total lot area of 2,192 sq. ft., and is occupied by a single-family home with a floor area of 1,548 sq. ft. (0.71 FAR); and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 1,548 sq. ft. (0.71 FAR) to 2,323 sq. ft. (1.06 FAR); the maximum permitted floor area is 1,644 sq. ft. (0.75 FAR); and

WHEREAS, the applicant proposes to provide an open

# MINUTES

space of 47 percent (55 percent is the minimum required); and

WHEREAS, the applicant proposes to provide a lot coverage of 53 percent (45 percent is the maximum permitted); and

WHEREAS, the applicant proposes to maintain the existing side yard along the eastern lot line with a width of 0'-10 ¾", and to maintain the existing side yard along the western lot line with a width of 3'-10 ¼" (a minimum width of 5'-0" is required for each side yard); and

WHEREAS, the proposed enlargement will provide a rear yard with a depth of 20'-0" (a minimum rear yard depth of 30'-0" is required); and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, and will not impair the future use or development of the surrounding area; and

WHEREAS, in response to the concerns raised by the adjacent neighbor, the applicant notes that the Department of Buildings ("DOB") will require that the site provide proper drainage in accordance with the Building Code; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03.

*Therefore it is resolved*, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, in an R4 zoning district within the Special Ocean Parkway District, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio ("FAR"), open space, lot coverage, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, 23-47, and 23-48; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received January 18, 2012"-(11) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 2,323 sq. ft. (1.06 FAR); an open space of 47 percent; lot coverage of 53 percent; a side yard with a minimum width of 0'-10 ¾" along the eastern lot line; a side yard with a minimum width of 3'-10 ¼" along the western lot line; and a rear yard with a

minimum depth of 20'-0", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 12, 2012.

## 26-12-BZ

### CEQR #12-BSA-074Q

APPLICANT –Sheldon Lobel, P.C., for Elmnic, LLC, owner.

SUBJECT – Application February 3, 2012 – Special Permit (§73-52) to allow the extension of accessory commercial parking in a residential zoning district. C1-2/R6B & R4-1 zoning districts.

PREMISES AFFECTED – 73-49 Grand Avenue, northwest corner of the intersection formed by Grand Avenue and 74<sup>th</sup> Street, Block 2491, Lot 40, Borough of Queens.

### COMMUNITY BOARD #5Q

APPEARANCES –

For Applicant: Jordan Most.

**ACTION OF THE BOARD** – Application granted on condition.

**THE VOTE TO GRANT** –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....

Negative:.....0

**THE RESOLUTION** –

WHEREAS, the decision of the Queens Borough Superintendent, dated January 27, 2012, acting on Department of Buildings Application No. 420521215, reads in pertinent part:

"Proposed accessory parking in the R4-1 portion of the premises is contrary to ZR 22-10 and must be referred to the BSA for approval." and

WHEREAS, this is an application under ZR §§ 73-52 and 73-03, to permit, on a site partially within a C1-2 (R6B) zoning district and partially within an R4-1 zoning district, the extension of the C1-2 zoning district regulations 25 feet into the R4-1 zoning district, to allow for accessory parking for the commercial use (Use Group 6) located in the C1-2 portion of the site, contrary to ZR § 22-00; and

WHEREAS, a public hearing was held on this application on April 24, 2012 after due notice by publication

---

# MINUTES

---

in *The City Record*, with a continued hearing on May 15, 2012, and then to decision on June 12, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 5, Queens, recommends approval of this application, with the following conditions: (1) that the property be maintained graffiti free; and (2) that a fence with a height of four feet and with opaque slats be installed along the 53<sup>rd</sup> Road side of the property; and

WHEREAS, Queens Borough President Helen Marshall recommends approval of this application; and

WHEREAS, the subject site is located on an irregularly-shaped corner through lot with 102 feet of frontage on Grand Avenue, 109 feet of frontage on 74<sup>th</sup> Street and 100 feet of frontage on 53<sup>rd</sup> Road; and

WHEREAS, the site has a total lot area of 12,037 sq. ft.; and

WHEREAS, the site is currently occupied by a vacant one-story commercial building located along the northern portion of the site along 53<sup>rd</sup> Road and 74<sup>th</sup> Street, which is proposed to be demolished; and

WHEREAS, the applicant proposes to construct a one-story bank (Use Group 6) with a floor area of 2,939 sq. ft. (0.24 FAR) and 16 accessory parking spaces,

WHEREAS, the applicant requests a special permit pursuant to ZR § 73-52 to extend the C1-2 zoning district regulations 25 feet into the portion of the zoning lot located within an R4-1 district; and

WHEREAS, the applicant states that the extension of the C1-2 district would allow for the usage of the R4-1 portion of the lot for ten parking spaces; and

WHEREAS, the applicant further states that the building would be entirely within the C1-2 district; and

WHEREAS, the applicant notes that the majority of the zoning lot is located within a C1-2 (R6B) zoning district that extends 100 feet into the site from Grand Avenue, but that the remaining portion of the zoning lot is located within an R4-1 zoning district; and

WHEREAS, the portion of the site that is within the C1-2 (R6B) zoning district occupies 10,222 sq. ft. (84.9 percent) of the zoning lot, and the portion of the site that is within the R4-1 zoning district occupies 1,790 sq. ft. (15.1 percent) of the zoning lot; and

WHEREAS, the R4-1 portion fronts on 53<sup>rd</sup> Road and occupies an irregularly-shaped portion of the site, located to the west of the C1-2 portion of the site; and

WHEREAS, the C1-2 district permits the Use Group 6 bank; the R4-1 district permits only residential or community facility uses; and

WHEREAS, ZR § 73-52 provides that when a zoning lot, in single ownership as of December 15, 1961, is divided by district boundaries in which two or more uses are permitted, the Board may permit a use which is permitted in the district in which more than 50 percent of the lot area of the zoning lot is located to extend not more than 25 feet into the remaining

portion of the zoning lot where such use is not permitted, provided: (a) that, without any such extension, it would not be economically feasible to use or develop the remaining portion of the zoning lot for a permitted use; and (b) that such extension will not cause impairment of the essential character or the future use or development of the surrounding area; and

WHEREAS, as to the threshold single ownership requirement, the applicant submitted deeds and historic Sanborn maps establishing that the subject property has existed in single ownership since prior to December 15, 1961; and

WHEREAS, accordingly, the Board finds that the applicant has provided sufficient evidence showing that the zoning lot was in single ownership prior to December 15, 1961 and continuously from that time onward; and

WHEREAS, as to the threshold 50 percent requirement, 10,222 sq. ft. (84.9 percent) of the site's total lot area of 12,037 sq. ft. is located within the C1-2 zoning district, which is more than the required 50 percent of lot area; and

WHEREAS, as to the first finding, the applicant represents that it would not be economically feasible to use or develop the R4-1 portion of the zoning lot for a permitted use; and

WHEREAS, specifically, the applicant states that the R4-1 portion is irregularly shaped, with a varying width of 28 feet to six feet, and given yard requirements would be difficult to develop with a conforming use; and

WHEREAS, based upon the shape and yard requirements, the Board finds that it would not be economically feasible to use or develop the remaining portion of the zoning lot, zoned R4-1, for a permitted use; and

WHEREAS, as to the second finding, the applicant states that the proposed development is consistent with existing land use conditions and anticipated projects in the immediate area; and

WHEREAS, as noted above, the proposed building will be located entirely within the C1-2 district; and

WHEREAS, the applicant states that it will provide landscaping and a fence along the street and side lot line of the R4-1 portion of the site; and

WHEREAS, the applicant further states that ingress and egress to the site will be within the commercial zoned portion of the site located on Grand Avenue and 74<sup>th</sup> Street; and

WHEREAS, the applicant represents that the surrounding area is characterized by commercial uses; and

WHEREAS, specifically, the applicant states that the intersection of Grand Avenue and 74<sup>th</sup> Street is entirely commercial in context; and

WHEREAS, accordingly, the Board finds that the proposed extension of the C1-2 zoning district portion of the lot into the R4-1 portion will not cause impairment of the essential character or the future use or development of the surrounding area, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that this action will neither 1) alter the essential character of the surrounding

# MINUTES

neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the proposed action will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-52 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 17.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No.12BSA074Q, dated February 3, 2012; and

WHEREAS, the EAS documents that the operation of the bank would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

*Therefore it is Resolved* that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-52 and 73-03, to permit, on a site partially within a C1-2 (R4-1) zoning district and partially within an R4-1 zoning district, the extension of the C1-2 zoning district regulations 25 feet into the R4-1 zoning district, to allow for accessory parking for a new bank (Use Group 6) at the site, contrary to ZR § 22-00; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received June 6, 2012" – seven(7) sheets; and *on further condition*:

THAT landscaping and trees will be planted in accordance with the BSA-approved plans;

THAT fencing will be provided, and the portion along 53<sup>rd</sup> Road will be maintained with ivy, in accordance with the BSA-approved plans;

THAT all lighting will be directed down and away from adjacent residential uses;

THAT the above conditions will be implemented prior

to the opening date of the bank;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 12, 2012.

APPEARANCES –

For Applicant: Lyra J. Altman.

**ACTION OF THE BOARD** – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated February 17, 2012, acting on Department of Buildings Application No. 320382778, reads in pertinent part:

1. Proposed plans are contrary to ZR 23-141 in that the proposed floor area ratio exceeds the maximum permitted.
2. Proposed plans are contrary to ZR 23-141 in that the proposed open space ratio is less than the minimum required.
3. Proposed plans are contrary to ZR 23-461 and 23-48 in that the proposed side yard is less than the minimum required.

---

# MINUTES

---

4. Proposed plans are contrary to ZR 23-47 in that the proposed rear yard is less than the minimum required; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03, to permit, in an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio ("FAR"), open space, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, 23-47, and 23-48; and

WHEREAS, a public hearing was held on this application on May 15, 2012 after due notice by publication in *The City Record*, and then to decision on June 12, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of East 27<sup>th</sup> Street, between Avenue L and Avenue M, within an R2 zoning district; and

WHEREAS, the subject site has a total lot area of 2,500 sq. ft., and is occupied by a single-family home with a floor area of 1,651 sq. ft. (0.66 FAR); and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 1,651 sq. ft. (0.66 FAR) to 2,558 sq. ft. (1.02 FAR); the maximum permitted floor area is 1,250 sq. ft. (0.50 FAR); and

WHEREAS, the applicant proposes to provide an open space ratio of 54 percent (150 percent is the minimum required); and

WHEREAS, the applicant proposes to maintain the existing side yard along the northern lot line with a width of 1'-0", and to maintain the existing side yard along the southern lot line with a width of 8'-0" (a minimum width of 5'-0" is required for each side yard); and

WHEREAS, the proposed enlargement will provide a rear yard with a depth of 20'-0" (a minimum rear yard depth of 30'-0" is required); and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, and will not impair the future use or development of the surrounding area; and

WHEREAS, the applicant submitted an FAR study which identified 21 homes within a 400-ft. radius of the site which have an FAR of 1.0 or greater, including five homes which were enlarged pursuant to a special permit granted by the Board under ZR § 73-622; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project

will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03.

*Therefore it is resolved*, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, in an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for FAR, open space ratio, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, 23-47, and 23-48; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received March 8, 2012"-(11) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 2,558 sq. ft. (1.02 FAR); an open space ratio of 54 percent; a side yard with a minimum width of 1'-0" along the northern lot line; a side yard with a width of 8'-0" along the southern lot line; and a rear yard with a minimum depth of 20'-0", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 12, 2012.

WHEREAS, this is an application for a reopening and an amendment to a previously granted variance for an automotive service station with accessory uses (Use Group 16); and

WHEREAS, a public hearing was held on this application on June 5, 2012 after due notice by publication in *The City Record*, and then to decision on June 19, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Manhattan, recommends approval of this application, but notes concerns regarding traffic caused by the site; and

WHEREAS, the site is located on an irregularly-shaped corner lot bounded by West 13<sup>th</sup> Street to the north, Eighth Avenue to the east, and Horatio Street to the south, in a C1-6 zoning district within the Greenwich Village Landmark District; and

WHEREAS, the subject site is occupied by an automotive service station with accessory uses; and

WHEREAS, the Board has exercised jurisdiction over the subject site since April 8, 1975 when, under the subject

calendar number, the Board granted a variance to permit the enlargement in lot area and reconstruction of an automotive service station with accessory uses; and

WHEREAS, the applicant now requests an amendment to legalize a modification to the pump island layout and the size of the underground storage tanks (“USTs”) from the previously-approved plans; and

WHEREAS, specifically, the applicant seeks to legalize the southernmost pump island on the site which varies from the previously-approved plans in that it provides one dispenser instead of two and is orientated parallel to Eighth Avenue rather than perpendicular to Horatio Street, as approved; and

WHEREAS, the applicant also seeks to replace the three 4,000 gallon USTs with one 12,000 gallon UST and one 12,000 gallon compartment UST with a 8,000/4,000 product split; and

WHEREAS, at hearing, the Board directed the applicant to confirm that the site complies with the landscaping reflected on the previously-approved plans; and

WHEREAS, in response, the applicant submitted photographs reflecting the existing trees located within the planted islands, in compliance with the previously-approved plans; and

WHEREAS, the Board also questioned whether the applicant had addressed the issues raised by the Fire Department regarding the proposed replacement of the existing USTs on the site; and

WHEREAS, in response, the applicant states that these issues will be addressed prior to obtaining a certificate of occupancy; and

WHEREAS, the applicant represents that the proposal will not affect the historical integrity of the property; and

WHEREAS, the applicant submitted a Certificate of No Effect from the Landmarks Preservation Commission (“LPC”) dated August 30, 2011, and letters from LPC dated October 11, 2011 and March 1, 2012, approving the proposed work at the site; and

WHEREAS, based upon its review of the record, the Board finds the requested amendment to the approved plans is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated April 8, 1975, so that as amended this portion of the resolution shall read: “to permit the noted modifications to the approved plans; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked ‘Received March 30, 2012’–(2) sheets and ‘June 5, 2012’–(1) sheet; and *on further condition*:

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure

# MINUTES

compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (DOB Application No. 120818669)

Adopted by the Board of Standards and Appeals June 19, 2012.

## 290-06-BZ

APPLICANT – Kramer Levin Naftalis & Frankel, LLP, for Rusabo 368 LLC, owner; Great Jones Lafayette LLC, lessee.

SUBJECT – Application February 2, 2012 – Amendment of an approved variance (§72-21) for a new residential building with ground floor commercial, contrary to use regulations. The amendment requests an increase in commercial floor area and a decrease in the residential floor area. M1-5B zoning district.

PREMISES AFFECTED – 372 Lafayette Street, block bounded by Lafayette, Great Jones and Bond Streets, Shinbone Alley, Block 530, Lot 13, Borough of Manhattan.

## COMMUNITY BOARD #2M

### APPEARANCES –

For Applicant: Jim Power.

**ACTION OF THE BOARD** – Application granted on condition.

### THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez .....5

Negative:.....0

### THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment to a previously granted variance permitting the construction of a six-story mixed-use commercial/residential building; and

WHEREAS, a public hearing was held on this application on April 24, 2012, after due notice by publication in *The City Record*, and then to decision on June 19, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of Lafayette Street, between Great Jones Street and Bond Street, in an M1-5B zoning district within the NoHo Historic District; and

WHEREAS, the Board has exercised jurisdiction over the site since April 17, 2007 when, under the subject calendar number, the Board granted a variance to permit the proposed construction of a six-story, eight-unit residential building with ground floor retail, contrary to ZR §§ 42-10 and 42-14; and

WHEREAS, on May 24, 2011, the Board granted an extension of time to complete construction, to expire on May

24, 2015; and

WHEREAS, the applicant now requests an amendment to permit certain modifications to the previously-approved plans; and

WHEREAS, specifically, the applicant seeks to (1) reconfigure the ground floor of the building by moving the residential entrance and elevator toward the middle of the building and establishing two separate retail spaces to the north and south along Lafayette Street; (2) reconfigure the cellar level to include retail spaces connected to the ground floor retail spaces; and (3) remove the terrace on the fifth floor and reconfigure the terrace/roof deck on the sixth floor; and

WHEREAS, the applicant states that the proposed amendment would result in a slight increase in the height of the building, from 70'-10 3/4" to 72'-11 1/4", and a slight decrease in the total floor area of the building, from 15,556 sq. ft. to 15,520 sq. ft.; and

WHEREAS, the applicant notes that the retail floor area would be increased from 1,530 sq. ft. to 2,143 sq. ft., with an additional increase of approximately 1,200 sq. ft. of floor space at the cellar, and the residential floor area would be reduced from 14,026 sq. ft. to 13,377 sq. ft.; and

WHEREAS, the applicant states that the proposed amendment would not have any significant impact on the reasonable return analysis that formed the basis of the Board's original grant for the following reasons: (1) the total building area would be approximately the same; (2) the increase in the retail area is offset by the loss of approximately 650 sq. ft. of residential floor area above grade and the loss of accessory residential storage area in the cellar which would have contributed to the value of the residential units; (3) the retail in the subject proposal is less valuable than the retail in the previously-approved scheme because it is broken up into two smaller units which generate less rent on a square foot basis; and (4) most of the increase in retail area is cellar area, which is substantially less valuable than ground floor area; and

WHEREAS, the applicant represents that the proposed amendment will not affect the historical integrity of the property; and

WHEREAS, the applicant submitted a Certificate of Appropriateness from the Landmarks Preservation Commission ("LPC") approving the alterations to the proposed building, dated June 13, 2012; and

WHEREAS, based upon its review of the record, the Board finds that the requested amendment is appropriate with certain conditions as set forth below.

*Therefore it is Resolved* that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated April 17, 2007, so that as amended this portion of the resolution shall read: "to permit the noted modifications to the previously-approved plans; *on condition* that all work substantially complies to drawings marked 'Received February 2, 2012' – eleven (11) sheets; and *on further condition*:

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

# MINUTES

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB Application No. 120933302)

Adopted by the Board of Standards and Appeals, June 19, 2012.

## APPEALS CALENDAR

### 86-11-A

APPLICANT – Cozen O’Connor, for Perl binder Holdings, LLC, owner.

SUBJECT – Application June 10, 2011 – Appeal of the Department of Buildings’ revocation of an approval to permit a non-conforming sign. C1-9 zoning district.

PREMISES AFFECTED – 663-673 2<sup>nd</sup> Avenue, northwest corner of East 36<sup>th</sup> Street and 2<sup>nd</sup> Avenue, Block 917, Lot 21, 24-31, Borough of Manhattan.

## COMMUNITY BOARD #6M

APPEARANCES –

For Applicant: Harold Hornstein.

**ACTION OF THE BOARD** – Appeal denied.

THE VOTE TO GRANT –

Affirmative:.....0

Negative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez.....5

THE RESOLUTION –

WHEREAS, the subject appeal comes before the Board in response to the determination of the Borough Commissioner of the Department of Buildings (“DOB”), dated June 9, 2011 to revoke permits in connection with Application No. 110179912 for a ground sign structure, and Application No. 110301343 for a two-sided illuminated advertising sign (the “Permits”) at the subject site (the “Final Determination”); and

WHEREAS, the Final Determination reads, in pertinent part:

Request to allow advertising sign within C1-9 is hereby denied.

The zoning lot in question is subject to Board of Standards and Appeals (BSA) calendar number 280-01-BZ granted on 5/7/2002. By letter dated 12/17/2003, the then Chairman of the BSA

determined that the installation of a sign 54’-6” high by 14’ wide relocated to the corner of 2<sup>nd</sup> Avenue and East 37<sup>th</sup> Street, was found to be substantially in compliance with the above referenced BSA grant.

However, the location and size as approved per job number 110179912 does not conform to the BSA letter and the BSA-approved plans attached thereto. The BC-1 Reconsideration Form signed by former Borough Commissioner Santulli, PE, on 10/28/2008 is unclear in that the applicant did not specify on the form that the sign would be relocated from the corner of 2<sup>nd</sup> Avenue and East 37<sup>th</sup> Street to the corner of 2<sup>nd</sup> Avenue and East 36<sup>th</sup> Street. Nonetheless, to the extent that such BC-1 form purports to authorize the relocation of the sign contrary to the size and location approved by BSA, such determination was issued in error and is hereby rescinded because the Department of Buildings does not have the legal authority to modify the terms of the BSA grant.

Further, if the applicant chooses to construct a sign of the size and in the location approved by BSA (the corner of 2<sup>nd</sup> Avenue and East 37<sup>th</sup> Street), the applicant shall provide evidence to the borough office that the original grant has not lapsed or has not been extended pursuant to ZR 72-23.

In addition, the original nonconforming sign was attached to the side of a building on Second Avenue and this building and the sign have been demolished and removed. Therefore, the sign has been discontinued and is subject to ZR 52-00. Pursuant to ZR 52-83 (“Non-Conforming Advertising Signs”) the sign could have been reconstructed provided there was not a discontinuance of more than two years, notwithstanding ZR 52-22, provided, however, that the sign is located in the same location and position.

It should be noted that, with regard to measuring the length of discontinuance, the time during which the building was being demolished upon order of the City of New York could, in accordance with 149 Fifth Ave. Corp. v. Chin, 305 A.D.2d 194 (1<sup>st</sup> Dept. 2003) be seen to toll the two-year limitation. However, as it has already been more than two years since the completion of the demolition, and because the sign was not reconstructed within two years of the date of demolition, in the same location and position per ZR 52-83 (...same size, etc), the nonconforming use is determined to have been discontinued; and

WHEREAS a public hearing was held on this application on December 13, 2011, after due notice by publication in *The City Record*, with a continued hearing on February 28, 2011, and then to decision on June 19, 2012; and

---

# MINUTES

---

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commission Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 6, Manhattan, recommends disapproval of this appeal; and

WHEREAS, the site comprises a series of formerly independent tax lots located on the west side of Second Avenue, between East 36<sup>th</sup> Street and East 37<sup>th</sup> Street (Block 917, Lots 21 and 24-31) and is currently vacant except for a public parking lot and a double-sided advertising sign and sign structure (the "Current Double-Sided Sign"); and

WHEREAS, in 1980, the site was within a C6-4 zoning district and was occupied by a mixed-use residential/commercial building, at which time DOB authorized the installation of a sign along the north-facing wall of the building 35'-0" above curb level (the "Former Wall Sign"); and

WHEREAS, subsequently, the zoning map was amended to change the subject site to a C1-9 zoning district, which does not allow advertising signs as of right; and
