

Part I

Fill out the CEQR Checklist to determine which designation under CEQR and SEQRA regulations may apply to the proposed action. Use the embedded hyperlinks to access reference materials shown in blue.

Question (3) **ECL § 8-0111 (5-a)**: For certain applications seeking designation as a Qualified Action under SEQRA by BSA as lead agency, the applicant must complete the following items at a minimum (additional items may be requested at the time of filing as needed):

- [BSA CEQR Checklist](#)
- [Qualified Action Determination form](#) explaining how the action qualifies for exemption.
- [Applicant Hazardous Materials Certification](#) and any related hazmat documents

The items above will be utilized to determine the Qualified Action Determination. *Additional SEQR Qualified Action guidance is available [here](#).

Question (7) **Green Fast Track for Housing**: For actions that may be eligible for a Type II determination under Title 2 RCNY Appendix E (d), the submission package must include:

- [BSA CEQR Checklist](#)
- A table summarizing the development increment and a Project Area map
- An output report from [DCP Fast Tracker web tool](#) (Report title: *Green Fast Track Eligibility Survey*), including a CSV export of the data for project site. All survey questions must be answered definitively.
- All required supplemental technical assessments as outlined in the Green Fast Track report and Title 2 RCNY Appendix E (d) regulations.

The items above will be utilized to determine final Type II eligibility and what sign offs will be required on technical areas. * Additional guidance on Green Fast Track for Housing is available [here](#).

Part II

Fill out the CEQR Checklist for items classified as Type II under Title 2 RCNY Appendix E (b). Provide the required supplemental technical assessments as described at the end of each question. The list of BSA actions associated with Title 2 RCNY Appendix E (b) can be found on the second page of the form.

Part III

Print and sign the applicant/representative's name, add the date the document was signed, and affix seal, if the signer is a registered architect or professional engineer.

If it is determined by the CEQR Checklist form that a Type II designation is appropriate, please submit the requisite Type II fee with required items.

If it is determined by the CEQR Checklist form that an Unlisted or Type I designation is appropriate, please fill out the required [Short or Long EAS form](#) and submit with the requisite CEQR fee. For amendment applications, please note that if a previous environmental review has already been completed, a Technical Memorandum and fee may also be appropriate for submission in lieu of an EAS.
