# ADVISORY BOARD CALENDAR

**October 31, 2021**

Approval #	Submission #	Type of Request	Status	Fee
MN01230A1	MN01230	Requested approval for the electric service equipment proposed to be installed	Approved	\$650.00
<p>10/21/2021 1. The engineering single line plan shall be submitted based on new NYC§ 4000-01 <a href="https://www1.nyc.gov/assets/buildings/rules/1_RCNY_4000-01.pdf">https://www1.nyc.gov/assets/buildings/rules/1_RCNY_4000-01.pdf</a>:                      The §4000-01 Rule includes but not limited to the following:                      a. Show the CON ED point of entry and provide the available short circuit current.                      b. Confirm that the existing and/or new service is 1000KVA or above.                      c. Clearly list the scope of new work and Bubble new work versus existing.                      d. A statement confirming that all fuses and/or circuit breakers have been coordinated for selective short circuit overcurrent protection must be on the drawing.                      e. All submissions for service equipment totaling 1000 KVA or more or above 600 Volts must include the following plans/drawings:                          a. One-line diagram                          b. Plan view / service equipment room layout                      All other unnecessary plan/drawings should be removed from submittals. f. Follow filing requirements as per 4000-01 (b).                      2. Provide the job address block and lot within the EPR cover sheet.                      3. Provide Asbestoses abetment compliance documents- New building note to be added on the plan or submit a copy of PW1.                      4. Confirm that all new equipment is listed by a NRTL.                      5. Provide only one line and floor (for service switch rooms) plans showing conductors, OCPDs, working clearance and clearly compliance with 2011NYCEC.                      6. Confirm grounding and bonding to new or existing service equipment..11/3/2021 1. The engineering single line plan shall be submitted based on new NYC§ 4000-01 <a href="https://www1.nyc.gov/assets/buildings/rules/1_RCNY_4000-01.pdf">https://www1.nyc.gov/assets/buildings/rules/1_RCNY_4000-01.pdf</a>:                      The §4000-01 Rule includes but not limited to the following:                      a. Show the CON ED point of entry and provide the available short circuit current. Show the point of entry on the one line and the available Short circuit current                      b. Confirm that the existing and/or new service is 1000KVA or above. (not addressed from previous review.)                      c. Clearly list the scope of new work and Bubble new work versus existing. Clearly bubble the new equipment in the service room.                      d. A statement confirming that all fuses and/or circuit breakers have been coordinated for selective short circuit overcurrent protection must be on the drawing. (Clarify if note was added.)                      e. All submissions for service equipment totaling 1000 KVA or more or above 600 Volts must include the following plans/drawings:                          a. One-line diagram                          b. Plan view / service equipment room layout                      All other unnecessary plan/drawings should be removed from submittals.                      f. Follow filing requirements as per 4000-01 (b).                      2. Provide the job address block and lot within the EPR cover sheet. Provide updated cover sheet with the block and lot, make sure the updated cover sheet is signed and sealed by the PE and the building owner                      3. Confirm that all new equipment is listed by a NRTL. Add note on the plan to confirm that all new equipment is UL listed.                      4. Provide only one line and floor (for service switch rooms) plans showing conductors, OCPDs, working clearance and clearly compliance with 2011NYCEC. This comment was not fully addressed.</p>
