Model 200373 is a double well unit with the “Rapid System”.

Model 200396 is a single well unit with a standard heating system.

Model 200397 is a double well unit with a standard heating system.

Electrical Ratings:

Model 200372: 208 V, 3 ϕ , 60 Hz, 7.7 A.

Model 200373: 208 V, 3 ϕ , 60 Hz, 17.0A.

Model 200396: 208 V, 1 ϕ , 60 Hz, 0.5 A.

Model 200397: 208 V, 1 ϕ , 60 Hz, 0.8 A.

Gas:

Single well units are rated 53,000 BTU/Hr (15.5 kW)

Double well units are rated 106,000 BTU/Hr (31 kW)

4 inches W.C. (10.0 mBar) for Natural Gas

Recommendation - That the above commercial pasta cookers, be accepted under the following conditions:

1. Units shall be installed in accordance with manufacturer's instructions and National Fuel Gas Code requirements.
2. Gas line tubing and fitting connectors shall permit flexibility for operation, cleaning and servicing, and shall be MEA accepted for such use.
3. All gas line connections shall be made and equipment gas input settings shall be set by the licensed plumber installing unit.
4. All work provided by the installer from the point of gas utility company main line service termination to the equipment shall be subject to approval by the plumbing inspector.
5. All shipments and deliverers of such equipment shall be provided with a metal tag, suitably placed, certifying that the equipment shipped or delivered is equivalent to that tested and acceptable for use, as provided for in section 27-131 of the Building Code.
6. Approval of all electrical equipment, apparatus, materials and devices shall be obtained from the Bureau of Electrical Control before installation.

Final Acceptance 2/24/04
