

Fast Track Electrical Systems (FTES)

Conduit / DATA Assembly

Fast Track's Electrical Approach

- Reduce setup time by installing directly to metal studs, stub ups above ceiling for ease of wire/cable pull.
- Manufactured in any heights or configurations based on your job's IT & other data requirements.

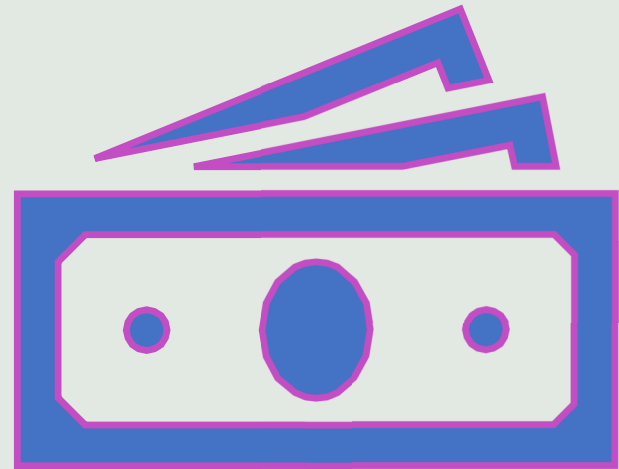

Fast Tracks Savings Concept

- Reduce Costs in time to install and / or wait for remobilization of Carpenter
- Electrical
 - Savings Based on NY labor rates
 - Units delivered preassembled for your specific site Tel/DATA requirements
 - Appox 1½ hour to setup and install
 - Could be installed by electrical apprentice
- Carpentry
 - Carpenters can continue to work
 - Eliminate re-mobilization of carpenter to wait for electrician.

Fast Track Electrical Systems Cost Savings Approach

- Labor Rates based on NYC local 3 trend
- Savings
 - Labor Rate \$155/hr (or less is using Elect apprentice)
 - Installation time = 1/2 hr
 - Labor Cost = \$80
 - FTES Cost = \$100
 - FTES & Labor Cost = $\$100 + \$80 = \$180.00$
- Without Fast Track Electricals' System
 - 4 hrs to furnish & install NYC Local 3 = \$650
- Electrical Savings = $\$650 - \$180 = \$470$ per FTES unit
- Carpentry Saving = \$200.00
 - **Total FTES Savings = \$670 per unit**
- An overall potential savings of two weeks can be realized on a 20k sq.ft. project worth \$40k-\$60k in General Conditions

Details & Specifications

+ The electrical conduit system by Fast Track Electrical System is a Pre-Fab unit using either a dual or triple 1900 box set's for both power and communication / LV needs. The standard height of the unit is 104 ½ inches to permit for above the ceiling wireway work, when the boxes are set at 18" on center off finish floor. The units have six points of strap attachments to metal studs @16" on center. Wiring is completed above the ceiling in either J-Box or 1900 Box configurations complete with drag lines. The lower wall boxes also include single or two gang, 5/8" raised covers. The system can be purchased through www.fasttrackelectricalsystem.com.

+ Modifications of the standard unit's sizes can be made depending on size of the order please contact Fast Track at 732 431 3300.
