

SERVICE NOTICE

Foundation Filings No Longer Require Energy Submissions

Effective January 26, 2023, Foundation (FO) filings in DOB NOW: *Build* no longer require an Energy Submission. Any prior Energy Submissions in any status have been removed from all FO filings.

This is an update to the energy review process that launched in November 2021. Based on the type of filing and information provided, DOB NOW automatically determines if an Energy Submission is required. Read the [October 2021 Service Notice](#) for more information.

For questions, review the Energy Submission [training presentation](#) or [webinar](#). Inquiries may also be submitted at nyc.gov/dobhelp.
