INSPECTIONS: REQUESTING, CANCELLING AND VIEWING RESULTS

REQUESTING INSPECTIONS

You should request inspections only when the installation and/or construction complies with the New York City Construction Codes and all applicable rules, regulations, and standards, and when the installation and/or construction is complete for this permit work type and is ready for a final inspection by the Department.

Please note the following guidelines when making inspection requests in DOB NOW: Inspections:

- Inspections can only be requested by LPs, Owners, or their Delegates (with a registered DOB NOW: Inspections account) on Records that have been linked to your account. Please refer to the Account Registration and Management User Manual if you need to register for an account.
- LPs and Delegates cannot request an Inspection if the LP has an expired license or expired insurance. These rules do not apply to Owners.
- Inspections cannot be requested if the BIN is on hold or obsolete.
- A specific Inspection date or time cannot be requested. The Inspection will be scheduled for the next available date and time.
- Inspections can only be requested on Records that are in an inspectable status.
- Inspections cannot be requested on expired Permits where there are open objections. The Permit must be renewed prior to requesting the Inspection.
- Each Record can only have one open Inspection request at a time, with the exception of BPP.
- Certain Inspection Types require documents to be uploaded to DOB NOW: Inspections before the Inspection can be requested. See the Uploading Documents section for more details.
- A TR1 must be uploaded into DOB NOW: Build before a Place of Assembly Inspection is requested on a PA Permit.
- Owners cannot request Elevator Inspections.
- Directive 14 Inspections cannot be requested using DOB NOW: Inspections. Please call the appropriate Unit to schedule an Inspection.
- Boiler Inspections must be requested and performed on the “highest” permit type available on the job. Permit types are ranked as such:
  1. Boiler Permit
  2. Fuel Burner Permit
  3. Fuel Storage Permit

Withdrawal Inspections and Boiler work on LAA’s are excluded from this rule.
Request an Inspection

1. Navigate to the DOB NOW: Inspections login page from the Department of Buildings’ website.

7. Under the Inspections section of the page, click **Request an Inspection**. If this link does not appear, one of the following scenarios may apply:

- Your account is not linked to this Record. In this case, LPs should review the *Using Your PIN* User Manual and Owners should review the Alternate Access for Owners section of the *Account Registration and Management* User Manual.

- **NOTE:**
  - The Inspection types listed vary based on the Record Type.
  - Certain Records Types contain multiple pages of Inspection Types. If your desired Inspection Type is not on the first page, use the <Prev, Next>, or page number links to navigate to the additional pages.
  - You may only select one Inspection Type.
  - Elevator Application Withdrawal Inspections cannot be requested using DOB NOW: Inspections. You must contact the Elevator Unit to request Elevator Application Withdrawal Inspections.

Scroll down to the bottom of the pop-up and click **Continue**.
Request an Inspection

Step 1: Confirm that the inspection information is correct. Click the 'Continue' button to proceed. By clicking on 'Continue', I affirm that the installation and/or construction complies with the New York City Construction Codes and all applicable rules, regulations, and standards. I further affirm that the installation and/or construction is complete for this permit work type and is ready for a final inspection by the Department.

Applicants are responsible for determining if a Post Approval Amendment (PAA) must be filed to keep the accuracy of their job filings. If a PAA has been filed, request an Inspection only after the Department has approved the PAA.
