Statement of Basis and Purpose of Rules

These rules are proposed pursuant to sections 1043 and 2303 of the Charter and section 19-503 of the Administrative Code of the City of New York. The rules are part of a project undertaken by the Taxi and Limousine Commission ("TLC") to revise its existing rule book. The first phase of this project consists of reorganizing and redrafting TLC's rules, to enhance their clarity and accessibility without substantive change. Accordingly, these rules are not intended to make any changes to TLC's current policies, procedures or operations.

During this first phase of the rules revision project, all of TLC's existing rules will be redrafted, then posted on a chapter-by-chapter basis on the TLC Web site for review and discussion by interested members of the public. Each chapter will be revised based on that discussion, then published for public comment and public hearing pursuant to the City Administrative Procedure Act (CAPA). Because this phase of the rules revision is intended to involve no substantive changes to the rules, and as announced at the Commission meeting held on August 7, 2008, public hearings will be held separately from monthly stated Commission meetings.

When this process has been completed for all TLC rules, the complete set of rules will be presented to the Commission for promulgation simultaneously with repeal of the current set of TLC rules. The revised rules will replace the existing rules compiled in chapter 35 of the Rules of the City of New York. It is anticipated that the promulgation of the revised rules and repeal of the current rules will occur in 2009.

After the first phase of its rules revision is completed, TLC will move to the second phase, which will involve the assessment of its rules for more substantive changes.

The rules proposed here are as follows:

Current Rule Chapters revised in this rule-making	Proposed Rule Chapters
Chapter 2, Taxicab Drivers Rules	Chapter 4, Medallion

Chapter 4, Medallion Taxicab Drivers

The proposed rules make several substantive changes to the provisions of current rules governing taxicab drivers. Specifically, the proposed rules:

- Eliminate as obsolete certain transition provisions
- governing driver continuing education. Eliminate as obsolete certain transition provisions regarding the TPEP system.
- Eliminate as obsolete certain transition provisions
- concerning the persistent violator program set forth in section 4-27(b).
- Require that non-New York State driver license abstracts be no more than 30 days old, to align the rule to actual TLC practice regarding abstracts.
- Eliminate penalties for failure to complete Authorized Taxicab Training as being obsolete; completion of such training is a condition of licensure.
- Eliminate penalty for course providers as being obsolete; course providers are not TLC licensees. Provide, consistent with TLC practice, that
- applicants for new or replacement licenses come to the TLC to be photographed, rather than supply photographs to the TLC.
- Align penalties for failure to update a driver address to those for failure to comply with a TLC directive, which is the practical effect of the failure to update penalty under the prior rules. Eliminate references to drug addiction that are
- contrary to the Americans with Disabilities Act.
- Add the concept of Relief Time which is consistent with existing taxi stand provisions. Clarify that the rules regarding idling are derived from provisions of the Administrative Code. Clarify that a driver with a non-paying passenger must illuminate the off-duty light. To fully incorporate the provisions of Local Law 16 of 2008, the penalty provisions have been amended to reflect that fines are stayed for thirty days, and further pending decision of a timely-filed appeal.

- Provisions were added governing the collection of the MTA taxi surcharge to track rules passed by the TLC.
- The penalty for bribery was corrected based upon staff comment. The provisions regarding cell phone use were revised to track revised TLC rules governing the •
- use of cell phones and electronic devices. The provisions governing payment of tolls for Newark airport trips were modified to align with •
- similar provisions for other out of town trips, based upon a staff technical comment.
- The drug test provisions of section 4-14 were amended to reflect that both a positive test and a sample that cannot be tested will result in . suspension, based upon a staff comment. 🖝 j2

Statement of Basis and Purpose of Rules

These rules are proposed pursuant to sections 1043 and 2303 of the Charter and section 19-503 of the Administrative Code of the City of New York. The rules are part of a project undertaken by the Taxi and Limousine Commission ("TLC") to revise its existing rule book. The first phase of this project consists of reorganizing and redrafting TLC's rules, to enhance their clarity and accessibility without substantive change. Accordingly, these rules are not intended to make any changes to TLC's current policies, procedures or operations

During this first phase of the rules revision project, all of TLC's existing rules will be redrafted, then posted on a chapter-by-chapter basis on the TLC Web site for review and discussion by interested members of the public. Each chapter will be revised based on that discussion, then published for public comment and public hearing pursuant to the City Administrative Procedure Act (CAPA). Because this phase of the rules revision is intended to involve no substantive changes to the rules, and as announced at the Commission meeting held on August 7, 2008, public hearings will be held separately from monthly stated Commission meetings.

When this process has been completed for all TLC rules, the complete set of rules will be presented to the Commission for promulgation simultaneously with repeal of the current set of TLC rules. The revised rules will replace the existing rules compiled in chapter 35 of the Rules of the City of New York. It is anticipated that the promulgation of the revised rules and repeal of the current rules will occur in 2010.

After the first phase of its rules revision is completed, TLC will move to the second phase, which will involve the assessment of its rules for more substantive changes.

The rules proposed here are as follows:

Current Rule Chapters revised Proposed Rule Chapters Definitions, as a result of staff comment. The provisions of section 5-11 were amended based on staff comment to make clear that a licensed driver must drive a vehicle that has been licensed

by the TLC. The drug test provisions of section 5-14 were amended to reflect that both a positive test and a • sample that cannot be tested will result in suspension, based upon a staff comment. 🖝 j2

These rules are proposed pursuant to sections 1043 and 2303 of the Charter and section 19-503 of the Administrative Code of the City of New York. The rules are part of a project undertaken by the Taxi and Limousine Commission ("TLC") to revise its existing rule book. The first phase of this project consists of reorganizing and redrafting TLC's rules, to enhance their clarity and accessibility without substantive change. Accordingly, these rules are not intended to make any changes to TLC's current policies, procedures or operations.

During this first phase of the rules revision project, all of TLC's existing rules will be redrafted, then posted on a chapter-by-chapter basis on the TLC Web site for review and discussion by interested members of the public. Each chapter will be revised based on that discussion, then published for public comment and public hearing pursuant to the City Administrative Procedure Act (CAPA). Because this phase of the rules revision is intended to involve no substantive changes to the rules, and as announced at the Commission matrixe held or a constraint of the commission meeting held on August 7, 2008, public hearings will be held separately from monthly stated Commission meetings.

When this process has been completed for all TLC rules, the complete set of rules will be presented to the Commission for promulgation simultaneously with repeal of the current set of TLC rules. The revised rules will replace the existing rules compiled in chapter 35 of the Rules of the City of New York. It is anticipated that the promulgation of the revised rules and repeal of the current rules will occur in 2009.

After the first phase of its rules revision is completed, TLC will move to the second phase, which will involve the assessment of its rules for more substantive changes.

The rules proposed here are as follows:

Written comments in connection with these proposed rules should be submitted to the Office of Legal Affairs and must be received no later than July 6, 2010 to:

Charles R. Fraser Deputy Commissioner for Legal Affairs/General Counsel Taxi and Limousine Commission 40 Rector Street, 5th Floor New York, New York 10006 Telephone: 212-676-1135 Fax: 212-676-1102 Email: tlcrules@tlc.nyc.gov

Statement of Basis and Purpose of Rules

These rules are proposed pursuant to sections 1043 and 2303 of the Charter and section 19-503 of the Administrative Code of the City of New York. The rules are part of a project undertaken by the Taxi and Limousine Commission ("TLC") to revise its existing rule book. The first phase of this project consists of reorganizing and redrafting TLC's rules, to enhance their clarity and accessibility without substantive change Accordingly these rules are not intended to make change. Accordingly, these rules are not intended to make any changes to TLC's current policies, procedures or operations.

During this first phase of the rules revision project, all of TLC's existing rules will be redrafted, then posted on a chapter-by-chapter basis on the TLC Web site for review and discussion by interested members of the public. Each chapter will be revised based on that discussion, then published for public comment and public hearing pursuant to the City Administrative Procedure Act (CAPA). Because this phase of the rules revision is intended to involve no substantive changes to the rules, and as announced at the Commission meeting held on August 7, 2008, public hearings will be held separately from monthly stated Commission meetings.

When this process has been completed for all TLC rules, the complete set of rules will be presented to the Commission for promulgation simultaneously with repeal of the current set of TLC rules. The revised rules will replace the existing rules compiled in chapter 35 of the Rules of the City of New York. It is anticipated that the promulgation of the revised rules and repeal of the current rules will occur in 2009.

After the first phase of its rules revision is completed, TLC will move to the second phase, which will involve the assessment of its rules for more substantive changes.

The rules proposed here are as follows:

Current Rule Chapters revised Proposed Rule Chapters

Chapter 8, Medallion Taxicab Service Chapter 2, Taxicab Owners Rules

The proposed rules make several substantive changes to the provisions of current rules governing taxicab owners. Specifically, the proposed rules:

- Correct the mis-numbering of the penalty applicable to failure to report loss or theft of licenses plates.
- Eliminate references to pinion gears, which are obsolete.
 - Eliminate obsolete transition provisions phasing in now well-established requirements regarding medallion renewal dates, TPEP phase-in, and the requirement that only one agent may manage an
 - owner's medallions. Provide that the TLC will reject an agent designation if the agent is the subject of a stop-use directive (the prior rule provides only that no owner may use an agent subject to such a directive, but not that the TLC will reject the designation). Eliminate a reference to an "association" which was used in the prior rule as a type of owner to which ownership standards apply. This change was made to make the rule consistent with existing requirements for owners. Medallions may be owned by persons, corporations, partnerships, and limited
 - liability companies. Clarify the medallion transfer provisions requiring 30 days notice of transfer to a taxicab technology system vendor to permit the vendor to waive the 30 day notice, which is consistent with existing practice.

(e)

(d)

(1)

- Delete as obsolete the provisions permitting a taxicab to contain a cell phone for use by the passenger
- Clarify that a camera is the only device, together with a cell phone with an emergency dialing feature, that has been approved by the Commission for taxicabs that are not required to have a
- partition. To fully incorporate the provisions of Local Law 16 of 2008, the penalty provisions have been amended to reflect that fines are stayed for thirty days, and further pending decision of a timely-filed appeal.

Supplemental Statement

A public hearing on these proposed rules was held on February 19, 2010. Following that hearing, the TLC voted at a public meeting on March 18, 2010 to conditionally approve these rules, subject to a further vote of approval after all 19 revised rules chapters have been conditionally approved. All 19 chapters having now been conditionally approved by the TLC, the 19 chapters are being republished for additional public comment and final approval by the TLC.

After the conditional TLC approval of this rules chapter, the following additional substantive changes have been made to this chapter as a result of public comment and testimony previously received and considered and staff comments:

- Technical changes were made to conform certain definitions to those proposed in Chapter 1,
- Definitions as a result of staff comment. Technical changes were made to clarify lease
- charge pass-throughs based on staff comment.
- The general penalty and fines section was amended to include the subject of unlicensed activity and to align payment of fines terms with those of other chapters. These changes were made as a result of staff comment based on further drafting refinements made by the consultant.
- Provisions regarding advertising permits, including fees for such permits, were added based on staff comment to reflect provisions of the Administrative Code.
- Provisions regarding costs for new models of medallions as opposed to the cost to replace lost or stolen medallions were clarified, based on staff comment.
- Provisions were added specifying the fees for standby vehicles, consistent with existing practice, based on staff comment.
- The provisions of section 8-15 regarding acts of commission and omission were modified based on staff comment to reflect further refinements to this language by the consultant and the staff, including
- following public comment on these provisions. The provisions regarding response to TLC communications were modified to make clear that the TLC expects a response to any communication, not just a communication by telephone or pager.
- The markings provisions of section 8-31 wer updated to accommodate the revised cell phone and electronic device rules passed by the TLC.
