25-62 Size and Location of Spaces

#### R1 R2 R3 R4 R5 R6 R7 R8 R9 R10

In all districts, as indicated, for all #accessory# off-street parking spaces, open or enclosed, each 300 square feet of unobstructed standing or maneuvering area shall be considered one parking space. However, an area of less than 300 square feet, but in no event less than 200 square feet, may be considered as one space, where the layout and design of the parking area are adequate to permit convenient access and maneuvering in accordance with regulations promulgated by the Commissioner of Buildings, or where the developer or applicant for a building permit or certificate of occupancy certifies that such spaces will be fully attended.

Driveways used to access required parking spaces must be unobstructed for a width of at least 8 feet and a height of 8 feet above grade and if connecting to a #street#, such driveway may only be accessed by a curb cut.

In any case where a reduction of the required area per parking space is permitted on the basis of the developer's certification that such spaces will be fully attended, it shall be set forth in the certificate of occupancy that paid attendants employed by the owners or operators of such spaces shall be available to handle the parking and moving of automobiles at all times when such spaces are in use.

Driveways are permitted to trav such planting strip, and utilitic are permitted to be located within such planting strip.

#### <u>26-421</u>

#### NOTICE

On Wednesday, April 25, 2012, at 10:00 A.M., in the National Museum of the American Indian at the historic Alexander Hamilton U.S. Custom House located at One Bowling Green, in Lower Manhattan, a public hearing is being held by the City Planning Commission in conjunction with the above ULURP hearing to receive comments related to a Draft Environmental Impact Statement (DEIS) concerning an application by New York University for a zoning map amendment and zoning text amendments as well as a special permit for a large-scale general development project (LSGD). The zoning map amendment would rezone the two blocks between LaGuardia Place, Mercer Street, West Houston Street, and West Third Street from R7-2 and R7-2/C1-5 to C1-7. It would also rezone several blocks between Washington Square East / University Place, Mercer Street, West Fourth Street, and the northern boundary of the existing R6-2 zoning district near East Eighth Street from R7-2 to R7-2/C1-5. The zoning text amendments would allow applications for LSGD special permits within the former Ŵashington Square Southeast Urban Renewal Area to be submitted without meeting normally-applicable ownership requirements and allow public parks in the former Washington Square Southeast Urban Renewal Area to be treated as a street for all zoning purposes. The applicant is also requesting a special permit under ZR Section 74-74 to waive certain bulk requirements for their LSGD. Also being requested by the applicant under a concurrent application is a change to the City Map that would eliminate, discontinue and close ("demap") four areas within the mapped rights-ofway of Mercer Street, LaGuardia Place, West 3rd Street and West 4th Street, and the subsequent disposition of portions of those demapped areas along with easements in other portions to the applicant, and the mapping of portions of two of the demapped areas as a public park. The proposed actions would facilitate a proposal by the applicant to expand their facilities at its academic core with two academic buildings, a mixed-use building containing academic, dormitory, hotel and conference space, faculty housing and retail uses, and a building containing academic and dormitory uses (the applicant anticipates making space available within this building to the New York City School Construction Authority for the provision of a public school). The proposal also

#### NOTICE OF PUBLIC SCOPING

The Office of the Deputy Mayor for Economic Development

#### **Draft Scope of Work for an Environmental Impact** Statement Cornell NYC Tech Campus

NOTICE IS HEREBY GIVEN THAT a public scoping meeting will be held on Tuesday, May 22, 2012, at the Manhattan Park Community Center, 8 River Road, Roosevelt Island, New York, at 6:30 P.M. The purpose of the scoping meeting is to provide the public with the opportunity to comment on the draft scope of work proposed to be used to develop an Environmental Impact Statement (EIS) for the proposed CornellNYC Tech Campus project. Written comments on the draft scope may also be submitted to the address below until 5:00 P.M., Friday, June 8, 2012.

Directing that an Environmental Impact Statement be prepared, the Environmental Assessment Statement, Positive Declaration, and draft Scope of Work were issued by the Office of the Deputy Mayor for Economic Development on April 18, 2012, and are available for review from the contact person listed below and on the websites of the Mayor's Office of Environmental Coordination and the New York City Economic Development Corporation: www.nyc.gov/oec and www.nycedc.com, respectively.

The proposed project entails the development of a new applied sciences and engineering campus, CornellNYC Tech in collaboration with Technion-Israel Institute of Technology, on the site of the existing Goldwater Memorial Hospital on Roosevelt Island in the Borough of Manhattan. Beginning in 2014, over a period of approximately 24 years, Cornell University proposes development that would entail construction of three new Cornell academic research buildings, three new buildings for partner research and development facilities, three new residential buildings to house a portion of the Cornell academic population affiliated with the new campus, an academic-oriented hotel with conference facility, two central energy plants, a modest amount of campus-oriented retail space, and approximately 7.5 acres of publicly-accessible open space. In addition, parking may be provided for the hotel and the research and development facilities. The total amount of development would be approximately 2.13 million square feet in the anticipated completion year of 2038.

The first phase of development would be complete by 2018 and would encompass the demolition of the existing, vacated Goldwater Memorial Hospital, construction of approximately 200,000 square feet of academic research facilities, approximately 100,000 square feet of partner research and development space, approximately 300,000 square feet of residential space (approximately 442 dwelling units), approximately 170,000 square feet for the academic hotel/ conference facility, approximately 20,000 square feet for the energy plant, and approximately 250 parking spaces. The remainder of the development would be built out over a period of approximately 20 years.

The project site is located on Block 1373, Lot 20 and a portion of Lot 1, on Roosevelt Island in the Borough of Manhattan bounded by a one-way ring road - to the north of the project site, the road is unnamed; to the east it is named East Road with southbound traffic flow; to the west it is named West Road with northbound traffic flow. The ring road meets Main Street north of the project site.

The project requires discretionary approvals from a number of agencies: (1) amendment of the New York City Health and Hospitals Corporation (NYCHHC) operating agreement with the City by the Corporation Board in order to surrender a portion of the project site; (2) disposition of City-owned property to the New York City Economic Development Corporation (NYCEDC) for a subsequent proposed long-term lease and potential future sale to Cornell; (3) Mayoral approval of the lease and sale terms of the disposition parcels pursuant to Section 384(b)(4) of the New York City Charter; (4) modification of the City's lease with the Roosevelt Island Operating Corporation (RIOC); (5) zoning map amendment to change zoning on the project site from R7-2 to C4-5; (6) zoning text amendment to create the Special Southern Roosevelt Island District and to establish special bulk, use, parking, and waterfront controls for the rezoning area; and (7) City map amendment to map the one-way ring road surrounding the project site as a City street. Other potential approvals from the New York City Department of Environmental Protection, New York State Department of Environmental Conservation and/or the U.S. Environmental Protection Agency may also be required.

The \$800 longevity increment shall not become pensionable until fifteen months after the employee begins to receive such \$800 increment. Fifteen months after the employee begins to receive the \$800 longevity increment, such \$800 longevity increment shall become pensionable and as part of the employee's base rate, the \$800 longevity increment shall be subject to the general increases provided in Article III, Section 4(a) of this Agreement.

#### Appendix B

The following rules shall govern the eligibility of Employees for the Recurring Increment Payment ("RIP") provided for in Article III, Section 12 of the 2008-2010 Clerical Agreement.

- Only service in pay status shall be used to calculate the qualifying years of service. A continuous year of service shall be a full year of service without a break of more than 31 days. Where the regular and customary work year for a title is less than a twelve month year, such as a school year, such regular and customary year shall be credited as a continuous year of service counting towards the qualifying years of service. If the normal work year for an employee is less than the regular and customary work year for the employee's title, it shall be counted as a continuous year of service if the employee has customarily worked that length work year and the applicable agency verifies that information.
- Part-time employees shall be ineligible to receive RIPs, but prior part-time service shall be credited to full-time employees on a pro rata basis, provided all other terms and conditions set forth herein are met.
  - An employee must have regularly worked a. at least one half the regular hours of full time employees in the same title or if no full-time equivalent title exists then at least 17-1/2 hours for white collar positions or 20 hours for blue collar positions.

- b. Such part time service shall be prorated by dividing the number of hours worked per week by a part-time employee by the number of hours worked per week by a full-time employee in the same title. If no full-time equivalent title exists then the divisor shall be 35 hours for white collar positions or 40 hours for blue collar positions.
- Service in pay status prior to a break in service of more than one year shall *not* be used to calculate the qualifying years of service.
- The following time in which an Employee is not in pay status shall not constitute a break in service, but such time shall **not** be used to calculate the qualifying years of service:
  - time on a leave approved by the proper a. authority which is consistent with the Personnel Rules and Regulations of the City of New York or the appropriate personnel authority of a covered organization.
  - b. time prior to a reinstatement,
- c. time on a preferred or recall list, and
- d. time not in pay status of 31 days or less.
- RIPs shall be considered a salary adjustment for the purposes of Article III, Section 1(d) of this Agreement and the maximum salary of an eligible title shall not constitute a bar to the payment thereof.
- Once an Employee has qualified for a RIP and is receiving it, the RIP shall become part of the Employee's base rate and included in calculating all salary based payments, except as provided in paragraph 7 below. Any future negotiated general increases shall be applied to RIPs.
- A RIP shall not become pensionable until two years after the Employee begins to receive such RIP.
