In the districts indicated, and in C1 or C2 Districts when mapped within R6A, R6B, R7A, R7B, R7D, R7X, R8A, R8B, R8X, R9A, R9D, R9X, R10A or R10X Districts, for all #buildings#, and for #Quality Housing buildings# in other #Commercial Districts#, setbacks are required for all portions of #buildings or other structures# that exceed the maximum base height specified in the table in this Section. Such setbacks shall be provided in accordance with the following regulations:

(1) At a height not lower than the minimum base height or higher than the maximum base height specified in Table A of this Section for #buildings# in contextual districts, and Table B for #buildings# in non-contextual districts, a setback with a depth of at least 10 feet shall be provided from any #street wall# fronting on a #wide street#, and a setback with a depth of at least 15 feet shall be provided from any #street wall# fronting on a #narrow street#, except such dimensions may include the depth of any permitted recesses in the #street wall#.

(2)

In the case of an irregular #street line#, the line connecting the most extreme points of intersection shall be deemed to be the #street line#. Furthermore, dormers provided in accordance with the provisions of paragraph (a) of this Section may penetrate a required setback area.

(d)

- In C6-3D Districts, for #buildings or other structures# on #zoning lots# that front upon an elevated rail line, at a height not lower than 15 feet or higher than 25 feet, a setback with a depth of at least 20 feet shall be provided from any #street wall# fronting on such elevated rail line, except that such dimensions may include the depth of any permitted recesses in the #street wall# and the depth of such setback may be reduced by one foot for every foot that the depth of the #zoning lot#, measured perpendicular to the elevated rail line, is less than 110 feet, but in no event shall a setback less than 10 feet in depth be provided above the minimum base height.
 - The setback provisions of paragraph (c) of this Section are optional where a #building# wall is within the area bounded by two intersecting #street lines# and lines parallel to and 70 feet from such #street lines#.
 - (ii) Where such #building# is adjacent to a #public park#, such setback may be provided at grade for all portions of #buildings# outside of the area bounded by two intersecting #street lines# and lines parallel to and 70 feet from such #street lines#, provided that any area unoccupied by a #building# shall

The #street wall# shall be located on the #street line# and extend along the entire #street# frontage of the #zoning lot# up to at least the minimum base height specified in Table A of this Section for #buildings# in contextual districts, or Table B for #buildings# in non-contextual districts, or the height of the #building#, whichever is less. To allow articulation of #street walls# at the intersection of two #street lines#, the #street wall# may be located anywhere within an area bounded by the two #street lines# and a line connecting such #street lines# at points 15 feet from their intersection.

In C1 or C2 Districts when mapped within R9D Districts, to allow articulation of #street walls# at the intersection of two #street lines#, up to 50 percent of the area bounded by the two #street lines# and lines parallel to and 50 feet from such #street lines# may be unoccupied by a #building#. Such sidewalk widening shall have a depth of five feet, shall be improved to Department of Transportation standards for sidewalks, shall be at the same level as the adjoining public sidewalk, and shall be accessible to the public at all times. A line parallel to and five feet from the #street line# of such #street# containing <u>an elevated rail line, as</u> measured within the #zoning lot#, shall be considered the #street line# for the purpose of applying all regulations of this Section, 35-24, inclusive.

be improved to Department of Transportation standards for sidewalks, shall be at the same level as the adjoining public sidewalks, and shall be accessible to the public at all times.

In C4-4L Districts, for #zoning lots# bounded by a #street# containing an elevated rail line, the setback provisions of this paragraph (c) are modified as follows:

<u>(i)</u> a setback with a depth of at $\underline{least~15~feet~from~the~\#street}$ line# of the #street# containing the elevated rail line shall be provided at a height not lower than the minimum base height of either 30 feet or three #stories#, whichever is less, and not higher than the maximum base height of either 65 feet or six #stories#, whichever is less; and <u>(ii)</u> dormers shall not be a permitted obstruction within such setback distance.

Maximum #building# height No #building or other structure# shall exceed the

<u>(ii)</u>

maximum #building# height specified in Table A of this Section for contextual districts, or Table B for non-contextual districts, except as provided in this paragraph, (d), inclusive:

C6-3D C6-4X

- In the districts indicated, any #building# <u>(1)</u> or #buildings#, or portions thereof, which in the aggregate occupy not more than 40 percent of the #lot area# of a #zoning lot# (or, for #zoning lots# of less than 20,000 square feet, the percentage set forth in the table in Section 33-454) above a height of 85 feet above the #base plane#, is hereinafter referred to as a tower. Dormers permitted within a required setback area pursuant to paragraph (a) of this Section shall not be included in tower #lot coverage#. Such tower or towers may exceed a height limit of 85 feet above the #base plane#, provided:
 - (1)(i) at all levels, such tower is set back from the #street wall# of a base at least 15 feet along a #narrow street#, and at least 10 feet along a #wide street#, except such dimensions may include the depth of any permitted recesses in the #street wall#;
 - (2)(ii) the base of such tower complies with the #street wall# location provisions of paragraph (b) of this Section, and the setback provisions of paragraph (c) of this Section; and
 - (2)(iii) the minimum coverage of such tower above a height of 85 feet above the #base plane# is at least 33 percent of the #lot area# of the #zoning lot#; however, such minimum coverage requirement shall not apply to the highest 40 feet of such tower.

In C6-3D Districts, the highest four #stories#, or as many #stories# as are located entirely above a height of 165 feet. which ever is less, shall have a # lotcoverage# of at least 50 percent of the #story# immediately below such #stories#, and a maximum #lot coverage# of 80 percent of the #story# immediately below such #stories#. Such reduced #lot coverage# shall be achieved by one or more setbacks on each face of the tower, where at least one setback on each tower face has a depth of at least four feet, and a width that, individually or in the aggregate, is equal to at least 10 percent of the width of such respective tower face. For the purposes of this paragraph, each tower shall have four tower faces, with each face being the side of a rectangle within which the outermost walls of the highest #story# not subject to the reduced #lot coverage# provisions have been inscribed. The required setbacks shall be measured from the outermost walls of the #building# facing each tower face. Required setback areas may overlap.

In C6-3D Districts, for towers fronting on elevated rail lines, the outermost walls of each #story# located entirely above a height of 85 feet shall be inscribed within a rectangle. The maximum length of any side of such rectangle that is parallel or within 45 degrees of being parallel to such elevated rail line shall be 125 feet, or 75 percent of the frontage of the #zoning lot# along such elevated rail line, whichever is 180 feet in maximum depth from #street# to #street#, the #street wall# location requirements of paragraph (b) shall be mandatory along only one #street# frontage. <u>However</u>, in C4-4L Districts, such #street wall# location regulations shall apply along the frontage of any #street# containing an elevated rail line.

- (3) The #street wall# location and minimum base height provisions of paragraph (b) shall not apply along any #street# frontage of a #zoning lot# occupied by #buildings# whose #street wall# heights or widths will remain unaltered.
- (4) The minimum base height provisions of paragraph (b) shall not apply to #buildings developed# or #enlarged# after February 2, 2011, that do not exceed such minimum base heights, except where such #buildings# are located on #zoning lots# with multiple #buildings#, one or more of which is #developed#, #enlarged# or altered after February 2, 2011, to a height exceeding such minimum base heights.
- (5) The City Planning Commission may, upon application, authorize modifications in the required #street wall# location of a #development# or #enlargement# if the Commission finds that existing #buildings#, or existing open areas serving existing #buildings# to remain on the #zoning lot#, would be adversely affected by the location of the #street walls# of the #development# or #enlargement# in the manner prescribed in this Section.
- (6) For any #zoning lot# located in a Historic District designated by the Landmarks Preservation Commission, the minimum base height and #street wall# location regulations of this Section, or as modified in any applicable Special District, shall be modified as follows:
 - The minimum base height of a #street wall# may vary between the height of the #street wall# of an adjacent #building# before setback, if such height is lower than the minimum base height required, up to the minimum base height requirements of this Section, or as modified in any applicable Special District.
 - (ii) The maximum base height of a #street wall# may vary between the height of the #street wall# of an adjacent #building# before setback, if such height is higher than the maximum base height allowed, and the maximum base height requirements of this Section, provided that such height not exceed 150 feet and provided that such #zoning lot# is located within the area bounded by West 22nd Street, a line 100 feet west of Fifth Avenue, a line midway between West 16th Street and West 17th Street, and a line 100 feet east of Sixth Avenue.
 - (iii) The location of the #street wall# of any #building# may vary between the #street wall# location requirements of this Section, or as modified in any applicable Special District, and the location of the #street wall# of an adjacent #building# fronting on the same #street line#.
- (7) In C6-3D Districts, where a #building# on an adjacent #zoning lot# has #dwelling unit# windows located within 30 feet of a #side lot line# of the #development# or #enlargement#, an open area extending along the entire length of such #side lot line# with a minimum width of 15 feet shall be provided. Such open area may be obstructed only by the permitted obstructions set forth in Section 33-23 (Permitted Obstructions in Required Yards or Rear Yard Equivalents).

SOCIAL IMPACT BONDS - Innovative Procurement -Testing or experimentation is required - PIN# 0961210001 – DUE 08-23-12 AT 5:00 P.M. – HRA/Finance intends to enter

🖝 a6

into a Innovative Procurement with MDRC to test the feasibility of Social Impact Bonds.

New York City intends to test the feasibility of procuring not for profit-provided social services through a new type of performance-based contract that will provide services that benefit clients and that save the city money if the intervention is successful. Under this new procurement model, called Social Impact Bonds, HRA would contract with an outside entity that would pay the upfront costs of hiring a nonprofit to deliver social-service programming and assume the risk of the intervention failing. The City would reimburse the outside entity if and only if the nonprofit service provider reached pre-established performance thresholds. The City would benefit from this new procurement process in two major ways. First, the City would only pay for a social-service program if the program achieved City-set goals - that is, if the program "worked." By only paying for programs that have a demonstrable benefit, the City would be more efficiently allocating its financial resources. Second, the City would be able to use this sort of performance-based contract as a lowrisk way of funding programs that have not been implemented in New York City. This procurement process differs most significantly from the methods currently available in the Procurement Policy Board Rules by allowing an outside entity to act as an intermediary for the payment of social-service provisions. Social Impact Bonds offer an opportunity to create a model for the City using alternative means to fund complex human services programs. After such a contract runs its course, the City will evaluate the benefits of using this type of procurement method.

A Social Impact Bond is an entirely new approach to address the funding of client services. As such, the City must demonstrate and test its use before deciding whether this social impact investing approach would be viable as an alternate way to finance human/client service contracts. The reliability of the approach must be reviewed and tested, and the outcomes measured to determine if it should be implemented on a larger scale. The progress of this approach will be monitored closely to determine whether or not it is successful. It is anticipated that various City offices will report on this approach to determine whether and/or when additional projects would be initiated utilizing this approach. Since the demonstration project would be six years in length, reporting would be done on a periodic basis.

Please note that the initial Social Impact Bond project will be tested in phases. A partner has already been identified to participate in the initial portion of Phase I of the initiative, and Phase I of this innovative/demonstration project. Phase I may include additional projects that have yet to be identified. This partner was chosen because of their capacity to serve as an intermediary to provide services as well as manage private investment dollars. They also have the ability to be up and running without delay. The term of the contract with this partner is anticipated to be six years beginning on the date of the Notice to Proceed.

As we identify projects that would enable the City to completely test this model, we may launch additional phases of this Innovative procurement model/demonstration project. The City of New York is seeking other human service providers to participate in other social services programs involving similar Social Impact Investments through a Request for Expressions of Interest (RFEI). For participation in subsequent phases of this innovative procurement model/demonstration project, the RFEI can be found at www.nyc.gov/hra/contracts. We encourage those interested to respond to this RFEI, as we are eager to test the feasibility of this model.

It is anticipated that the City will engage additional responsible vendors for further phases once additional projects and vendors are identified for this Social Impact Investing initiative. The terms for these subsequent phases will be determined at the time that the phase is initiated, and will be based on the time it will take to evaluate the project and the timetable for the realization of the anticipated savings. However, please note that such future demonstrations shall follow the same format as Phase I. Reports will be generated consistent with the requirements of the Procurement Policy Board Rules.

If you are interested in participating in the first phase of this Innovative demonstration project, or if you are interested in participating in future phases, please go to www.nyc.gov/hra/contracts for additional information.

Statement of Basis and Purpose of Proposed Rule

Over 1.2 million people per day ride in vehicles regulated by the Taxi and Limousine Commission. Since the demise of the Checker company in the early 1980's, none of the vehicles used by the New York City medallion taxicab industry have been designed especially for taxicab service, and they are often repurposed police cruisers, minivans, or passenger sedans. Since these cars have not been designed or engineered specifically for taxi use, they have not included features and amenities that would be beneficial to owners, drivers, and passengers. Nor have they incorporated the latest technologies, accessibility features for people with disabilities, or safety advances.

In 2007, the City issued a Request for Information (RFI) and convened a Taxi of Tomorrow Advisory Committee (including taxi drivers, passengers, medallion owners, advocates for people with disabilities, advocates for the environment, various taxi driver and owner organizations, and designers) to help insure that the new taxicab meets the needs of diverse stakeholders.

In 2009, the City issued a Request for Proposals (RFP) seeking an exclusive provider of taxicabs to the medallion taxi industry. It sought a vehicle that offered:

- The highest safety standards
- Superior passenger experience Superior driver comfort and amenities
- Appropriate purchase price and on-going
- maintenance and repair costs Minimal environmental impact
- Minimal physical footprint with more useable interior room

The purpose of this proposed Negotiated Acquisition Extension (NAE) is to extend the existing call to repair hardware maintenance services contract between HRA and NPA Computers, Inc. for a period of six (6) months (5/1/2012-10/31/2012) until the new contract is in place. The vendor will continue to provide services as per the original contract terms and conditions. These services are required to maintain various computer equipment throughout the Agency.

AGENCY RULES

TAXI AND LIMOUSINE COMMISSION

NOTICE

Notice of Public Hearing and Opportunity to Comment on Proposed Rules

What are we proposing? The Taxi and Limousine Commission is considering changing its rules. The change will require owners of unrestricted taxicab medallions to purchase the Taxi of Tomorrow vehicle selected by the TLC.

When and where is the Hearing? The Commission will hold a public hearing on the proposed rule. The public hearing will take place at 10:00 A.M. on Thursday, September 6, 2012. The hearing will be in the Commission hearing room at 33 Beaver Street, New York, New York, on the 19th Floor.

- Accessibility for all users
- Iconic design that will identify the taxi with New York City

After receipt of 7 proposals from a variety of manufacturers, and a year-long detailed evaluation process, the City selected Nissan North America (Nissan) to be the exclusive taxicab provider for 10 years (with an additional 5-year commitment to provide parts and service). The Taxi of Tomorrow will also be available in a wheelchair accessible version. The Taxi of Tomorrow taxicabs will be known as Official Taxicab Vehicle (OTV) or the Accessible Official Taxicab Vehicle (AOTV).

The proposed rule requires that if a medallion owner acquires a new vehicle on or after the activation date for the Taxi of Tomorrow, the owner must hack up the medallion with the Taxi of Tomorrow vehicle, to be known as the Official Taxicab Vehicle or the Accessible Official Taxicab Vehicle. The TLC anticipates the activation date for the Taxi of Tomorrow will be October 31, 2013.

Exemptions to this requirement include: Owners of Medallions restricted

- Owners of Medallions restricted to use with Alternative Fuel Vehicles may purchase any alternative fuel taxicab which meets the specifications described in TLC Rule 67-05. Owners of the 231 Medallions issued prior to January 1, 2012 that are restricted to use with Wheelchair Accessible Vehicles, may purchase any accessible Taxicab which meets the accessible vehicle specifications set forth in proposed Rule 67-05.2, including the Accessible Official Taxicab Vehicle.
- Owners of Accessible Medallions issued by TLC on or after January 1, 2012 may purchase any accessible Taxicab which meets the accessible

vehicle specifications set forth in Rule 67-05.2, including the Accessible Official Taxicab Vehicle. With TLC's authorization, owners of up to 496 Unrestricted Medallions issued prior to January 1, 2012 who choose to use an accessible vehicle may purchase any accessible Taxicab which meets the accessible vehicle specifications set forth in proposed Rule 67-05.2, including the Accessible Official Taxicab Vehicle.

Vehicle Requirements/Options by Meallion Type

	Nissan NV200 (OTV)	Accessible (AOTV)	Approved Hybrid or CNG	TLC-Approved Wheelchair- Accessible
Unrestricted Medallion issued prior to January 1, 2012	YES	YES	Ŷ	YES, up to 496 medallions
Restricted Alternate-Fuel Medallion issued prior to January 1, 2012	ON	ON	YES	N
Restricted Wheelchair-Accessible Medallion issued prior to January 1,2012	ON	YES	Q.	YES
2000 Restricted Medallions authorized by Street Hail Livery Law.	ON	YES	ON N	YES

The proposed rule requires the TLC to provide at least 120 days notice to medallion owners prior to the date after which unrestricted medallions must be hacked-up with the Official Taxicab Vehicle. The rule also makes certain, largely technical changes, to current taxicab rules to account for the fact that the Official Taxicab Vehicle will be manufactured and delivered under specifications set by contract with the manufacture of the vehicle.

The Commission's authority for this rules change is found in section 2303 of the New York City Charter and section 19-503 of the New York City Administrative Code.

In addition, these rules amend TLC rules governing the leasing of taxicabs or taxicab medallions to reflect the implementation of the Taxi of Tomorrow and will take effect once the Taxi of Tomorrow (ToT) is available for hack-up (the OTV Activation Date). The Commission's authority to adopt these rules is found in section 2303 of the New York City Charter and section 19-503 of the New York City Administrative Code.

Amendments to Shift Leases

Some unrestricted medallion holders have hacked up hybrid vehicles and charged a \$3 higher hybrid lease cap to drivers who lease their medallions. When the ToT becomes available these medallion owners will no longer be permitted to hack up with hybrid vehicles. Therefore, to help maintain these medallion owners' business model and maintain the balance of costs and revenues for both owners and drivers, the TLC will increase by \$3 the optional gas surcharge available to unrestricted medallion holders who list on a daily or weekly shift basis.

The proposed amendments will:

- On the date when the ToT first becomes available for use as a taxi (OTV Activation Date), increase the optional fuel surcharge by \$3 per shift for all vehicles that are not hybrid vehicles.¹
- Permit all medallion owners (except for those already charging the hybrid lease rate)—including

Section 1. Chapter 51 of the Rules of the City of New York is amended to add new definitions of "Accessible Official Taxicab Vehicle," "Official Taxicab Vehicle," and "Official Taxicab Vehicle Activation Date", and the definitions of "Taxicab Model" and "Unrestricted Medallion" are amended to read as follows:

Accessible Official Taxicab Vehicle ("Accessible OTV") is the OTV modified in a manner that is consistent with the City's contract with Nissan North America and meets the specifications of §67-05.2 of these Rules.

Official Taxicab Vehicle ("OTV") is the vehicle that meets the standard specifications of Rule 67-05.1B and is the purpose built taxicab for model years 2014 – 2024, manufactured pursuant to the City's contract with Nissan North America. All references to OTV include Accessible OTV unless otherwise specified.

Official Taxicab Vehicle Activation Date ("OTV Activation Date") is the date on or after which the Official Taxicab Vehicle is required to be used in the Hack-up of any Unrestricted Medallion. The Commission will post notice of the Official Taxicab Vehicle Activation Date on its Web site at least 120 days prior to such Official Taxicab Vehicle Activation Date.

Taxicab Model is

(1) until the Official Taxicab Vehicle Activation Date, a Taxicab Candidate that has been verified by the Commission as complying with the standard specifications set forth in §67-05, §67-05.1<u>A</u>, or §67-05.2 of these Rules;

(2) on or after the OTV Activation Date, a Taxicab candidate that has been verified by the Commission as complying with the specifications set forth in 67.05; 67.05.1B or 67-05.2.

Unrestricted Medallion is

(1) Before the OTV Activation Date a Medallion Taxicab License that is not restricted to use with a particular type of vehicle and is valid for use with any vehicle that complies with §67-05, §67-05.1A, or §67-05.2 of these Rules. (2) After the OTV Activation Date, a medallion issued prior to January 1, 2012 that was not restricted when issued can be used with an OTV or an AOTV. If at any time after the OTV Activation Date such medallion is restricted by law or rule of the Commission to use with an Accessible Vehicle, the owner of such medallion must purchase an AOTV or lease such medallion for use with an AOTV. Provided, however, that with the Chairperson's approval, up to 496 Unrestricted Medallion owners in good standing may at any time purchase for Hack-up any accessible vehicle which meets the accessible vehicle specifications set forth in Rule 67-05.2, or lease their medallions for use with such a vehicle. (3) Any vehicle approved for use with an Unrestricted Medallion and Hacked-up prior to the Official Taxicab Vehicle Activation Date can remain in use as a Taxicab until its scheduled retirement as set forth in §67-18 of this Chapter, as may be modified by §67-19.

Section 2. . Section 58-21(c) of Title 35 of the Rules of the City of New York is amended to read as follows:

- (c) Rate Rules.
- (1) Standard Lease Cap Rates. An Owner of a Taxicab can charge a lease rate to a Driver that is not greater than the following Standard Lease Caps:
 - (i) The Standard Lease Cap for a Medallion and vehicle for one shift will not exceed:
 - A. \$115, for all 12-hour day shifts
 - B. \$125, for the 12-hour night shift on Sunday, Monday and Tuesday
 - C. \$130, for the 12-hour night shift on Wednesday
 - D. \$139, for the 12-hour night shifts on Thursday, Friday and Saturday
 - E. \$690, for any one-week day shift for one week or longer
 - F. \$797 for any one week night shift for one week or longer.
 - (ii) No driver leasing a medallion and vehicle

- (vi) For a driver with a weekly lease under 58-21(c)(1)(i)(E) or 58-21(c)(1)(i)(F), the lease includes costs for collision and other damage coverage, including repairs of physical damage to the vehicle.
- (2) Cost Adjustments for the Lease of Hybrid Electric and Diesel-Fueled Vehicles.
 - The Standard Lease Cap for Hybrid Electric Taxicabs and Diesel-Fueled Taxicabs that are hacked-up under §67-05 of these Rules are raised by \$3 per shift (\$21 per week), so that the lease amount for one shift must not now exceed:
 - A. \$118 for all 12-hour day shifts
 - B. \$128, for the 12-hour night shift on Sunday, Monday and Tuesday
 - C. \$133, for the 12-hour night shift on Wednesday
 - D. \$141, for the 12-hour night shifts on Thursday, Friday and Saturday
 - E. \$708, for any one-week day shift for one week or longer
 - F. \$812 for any one week night shift for one week or longer.
 - No driver leasing a medallion and vehicle under this paragraph 58-21(c)(2) can be charged more than a total of
 - A. \$708 for six or more day shifts in any seven consecutive day period
 - B. \$812 for six or more evening shifts or combination of day and evening shifts in any seven consecutive day period.
 - (iii) The lease of a medallion and vehicle under this paragraph 58-21(c)(2) includes service and maintenance. Service and maintenance of the vehicle is the responsibility of the lessor and the lessor and his or her Agent must not charge the lessee for service and maintenance costs for the vehicle.
 - (iv) The lessee of a medallion and vehicle under this paragraph 58-21(c)(2) is not responsible for payment of any Commercial Motor Vehicle Tax.
 - (v) For a driver with a weekly lease under 58-21(c)(2)(i)(E) or 58-21(c)(2)(i)(F), if the vehicle is unavailable for use for any reason that is not the lessee's responsibility during any part of any week, the payment of the Lease Cap must be pro-rated.
 - (vi) For a driver with a weekly lease under 58-21(c)(2)(i)(E) or 58-21(c)(2)(i)(F), the lease includes costs for collision and other damage coverage, including repairs of physical damage to the vehicle.
 - The Standard Lease Cap:

(3)

- (i) For a *Medallion-only* Hybrid Taxicab, Hacked-up under §67-05 is \$1114 weekly.
- (ii) For all other *Medallion-only* Taxicabs, (including Accessible Taxicabs), is \$1072
- (iii) For all Medallion-only Taxicabs (including Accessible Taxicabs) with vehicles that are placed into service on or after the OTV Activation Date and which vehicles are either Official Taxicab Vehicles or Accessible Taxicabs, is \$1114 weekly.

([iliv[i]) A medallion lessor or Agent of a lessor must not require a medallion lessee to obtain service, repairs or maintenance of the vehicle from any particular provider, including, but not limited to, a lessor or an Agent of a lessor.

those operating ToT vehicles and those still operating other vehicles—to apply the increased optional fuel surcharge on the OTV Activation Date.

 1 This \$3 per shift fuel surcharge increase will not apply to medallion owners leasing hybrid vehicles; however, these medallion owners will continue to be able to charge the higher hybrid lease rate.

Amendments to DOV Leases

The TLC proposes amending the rules governing leases of medallions to drivers who own or lease their vehicles (DOV leases) to account for the fact that many medallion owners who currently lease their medallions to DOV operators are able to benefit from the driver's operating a hybrid vehicle by charging the driver the hybrid lease cap. The proposed change will enable these medallion owners to earn the same revenues with ToT that they earned without ToT.

- As ToT vehicles are placed into service:
 - Owners leasing medallions and medallion and vehicle packages to operators of ToT vehicles will be permitted to charge hybrid lease rates.
 - Medallion owners whose vehicles are required to be hybrids (i.e., restricted alternative fuel medallions) will continue to be able to lease these vehicles at hybrid lease rates.

New material is underlined. [Deleted material is in brackets.] under this paragraph 58-21(c)(1)(i) can be charged more than a total of

- A. \$690 for six or more day shifts in any seven consecutive day period
- B. \$797 for six or more evening shifts or combination of day and evening shifts in any seven consecutive day period.
- (iii) The lease of a medallion and vehicle under this paragraph 58-21(c)(1) includes service and maintenance. Service and maintenance of the vehicle is the responsibility of the lessor and the lessor and his or her Agent must not charge the lessee for service and maintenance costs for the vehicle.
- (iv) The lessee of a medallion and vehicle under this paragraph 58-21(c)(1) is not responsible for payment of any Commercial Motor Vehicle Tax.

(v) For a driver with a weekly lease under 58-21(c)(1)(i)(E), or 58-21(c)(1)(i)(F), if the vehicle is unavailable for use for any reason that is not the lessee's responsibility during any part of any week, the payment of the Lease Cap must be pro-rated. ([i]v) A lease, and payment of the Lease Cap under this section includes (and all of the following must be provided to the lessee):

NOTICE

THE DEPARTMENT OF CITY PLANNING THE DEPARTMENT OF HOUSING PRESERVATION AND DEVELOPMENT

THE DEPARTMENT OF HOMELESS SERVICES NOTICE OF PROPOSED SUBSTANTIAL AMENDMENT TO THE 2012 CONSOLIDATED PLAN

In accordance with 24 CFR 91.505 of the U.S. Department of Housing and Urban Development (HUD) Consolidated Plan regulations regarding amendments, the City of New York announces the public comment period for the substantial amendment to the City's 2012 Consolidated Plan.

The public comment period will begin on August 9, 2012 and extend thirty (30) days to September 7, 2012.

The substantial amendment to New York City's HOME Investment Partnership (HOME) Program is necessitated by the significant decrease in the City' HOME entitlement grant award compared with the grant amount originally requested (approximately \$110.537 million). The amount actually received (approximately \$60.338 million) as a result of the Federal Fiscal Year 2012 (FFY12) appropriations process represented a 45% reduction in program funds. The amendment also revises HPD's proposed accomplishments for the existing HOME-funded programs, reflective of this decrease.

In addition, the amendment revises the programmatic activities for the City's Emergency Solutions Grant Program (ESG) (formerly the Emergency Shelter Grant). The change in the program's name reflects the change in the program's federally-mandated focus from addressing the needs of homeless people in emergency or transitional shelters to assisting families and individuals to quickly regain stability in permanent housing after experiencing a housing crisis and/or homelessness. The ESG amendment also reflects an increase in funding the City received (*\$14.146 million*) from the amount the City originally requested (*\$7.908 million*). The additional monies will fund three (3) new program types to implement the homeless prevention and rapid re-housing related activities.

(i) Official Taxicab Vehicle Activation Date ("OTV Activation Date") is the date on or after which the Official Taxicab Vehicle is required to be used in the Hack-up of any Unrestricted Medallion. The Commission will post notice of the Official Taxicab Vehicle Activation Date on its Web site at least 120 days prior to such Official Taxicab Vehicle Activation Date.

Section 8. Section 67-04 of Title 35 of the Rules of the City of New York is amended to read as follows:

(a) Meet All Specifications—Prior to OTV Activation Date. A Taxicab Candidate must meet the technical specifications in §67-05, §67-05.1<u>A</u>,[67-05.1] or §67-05.2 of these Rules, as well as all applicable federal and New York State motor vehicle standards and requirements, in order to become a Taxicab Model

(b) Meet all Specifications—After OTV Activation Date. A taxicab Candidate must meet the technical specifications in §67-05, §67-05.1A, [67-05.1] or §67-05.2 of these Rules including all relevant Federal Motor Vehicle Safety Standards ("FMVSS") and other applicable National Highway Traffic Safety Administration ("NHTSA") safety regulations and:

1. For Accessible Taxicabs – In addition to the specifications set forth in 67-05.2, all safety regulations must be met with all required taxicab Section 13. Section 67-05.2 of Title 35 of the Rules of the City of New York is amended by adding a new subdivision (d), to read as follows:

(d) Accessible Official Taxicab Vehicle ("Accessible OTV") is the OTV modified in a manner that is consistent with the City's contract with Nissan North America and meets the specifications of §67-05.2 of these Rules.
