PROCUREMENT

"Compete To Win" More Contracts!

Thanks to a new City initiative - "Compete To Win" - the NYC Department of Small Business Services offers a new set of FREE services to help create more opportunities for minority and women-owned businesses to compete, connect and grow their business with the City. With NYC Construction Loan, Technical Assistance, NYC Construction Mentorship, Bond Readiness, and NYC Teaming services, the City will be able to help even more small businesses than before.

• Win More Contracts at nyc.gov/competetowin

"The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence.

HHS ACCELERATOR To respond to human services Requests for Proposals (RFPs) released Fall 2013 and later, vendors must first complete and submit an electronic prequalification application using the City's Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York To establish this, the City of New York is using the innovative procurement method, as permitted and in accordance with Section 3-12 of the Procurement Policy Board Rules of the City of New York ("PPB Rules"). The new process will remove redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding will be more focused on program design, scope, and budget.

Important information about the new method:

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

RFPs to be managed by HHS Accelerator are listed on the NYC Procurement Roadmap located at http://www.nyc.gov/html/ hhsaccelerator/html/roadmap/roadmap.shtml. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Deputy Mayor for Health and Human Services, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Client and Community- based Services Agencies:

Administration for Children's Services (ACS) Department for the Aging (DFTA) Department of Corrections (DOC) Department of Health and Mental Hygiene (DOHMH) Department of Homeless Services (DHS) Department of Probation (DOP) Department of Small Business Services (SBS) Department of Youth and Community Development (DYCD) Housing and Preservation Department (HPD) Human Resources Administration (HRA) Office of the Criminal Justice Coordinator (CJC)

To sign up for training on the new system, and for additional information about HHS Accelerator, including background materials, user guides and video tutorials, please visit www.nyc.gov/hhsaccelerator.

PREQUALIFIED VENDOR LIST: GENERAL CONSTRUCTION - NON-COMPLEX GENERAL CONSTRUCTION SITE WORK ASSOCIATED WITH NEW YORK CITY DEPARTMENT OF PARKS AND RECREATION ("DPR" AND/OR "PARKS") PARKS AND PLAYGROUNDS CONSTRUCTION AND RECONSTRUCTION PROJECTS

DPR is seeking to evaluate and pre-qualify a list of general contractors (a"PQL") exclusively to conduct non-complex general construction site work involving the construction and reconstruction of DPR parks and playgrounds projects not exceeding \$3 million per contract ("General Construction").

By establishing contractor's qualifications and experience in advance, DPR will have a pool of competent contractors from which it can draw to promptly and effectively reconstruct and construction its parks, playgrounds, beaches, gardens and green-streets. DPR will select contractors from the General Construction PQL for non-complex general construction reconstruction site work of up to \$3,000,000 per contract, through the use of a Competitive Sealed Bid solicited from the PQL generated from this RFQ.

The vendors selected for inclusion in the General Construction PQL will be invited to participate in the NYC Construction Mentorship. NYC Construction Mentorship focuses on increasing the use of small NYC contractors by making them more competitive in their pursuit of NYC contracts, and winning larger contracts with larger values. Firms participating in NYC Construction Mentorship will have the opportunity to take management classes and receive on-thejob training provided by a construction management firm.DPR will only consider applications for this General Construction PQL from contractors who meet any one of the following criteria:

- 1) The submitting entity must be a Certified Minority/Woman Business enterprise (M/WBE)*;
- 2) The submitting entity must be a registered joint venture or have a valid legal agreement as a joint venture, with at least one of the entities in the venture being a certified M/WBE*;
- 3) The submitting entity must indicate a commitment to sub-contract no less than 50 percent of any awarded job to a certified M/WBE for every work order awarded.

*Firms that are in the process of becoming a New York City-certified M/WBE may submit a PQL application and submit a M/WBE Acknowledgement Letter, which states the Department of Small Business Services has begun the Certification process.

AGENCY RULES

BUILDINGS

■ NOTICE

Notice of Opportunity to Comment on Proposed Rule <u>Amendment</u>

What are we proposing? The Department of Buildings (DOB) is proposing an amendment to subdivision (g)(2)(i)(B) of 1 RCNY 104-24, regarding registered filing representatives.

When and where is the hearing? DOB will not hold a public hearing on the proposed rule amendment on the grounds that it solely concerns a typographical error and a hearing would serve no public purpose.

How do I comment on the proposed rule amendment? Anyone can comment on the proposed rule amendment by:

- Website. You can submit comments to the DOB through the NYC rules Web site at http://rules.cityofnewyork.us.
- **Email.** You can email written comments to dobrules@buildings.nyc.gov.
- Mail. You can mail written comments to the New York City Department of Buildings, Office of the General Counsel, 280 Broadway, 7th floor, New York, NY 10007.
- Fax. You can fax written comments to the New York City Department of Buildings, Office of the General Counsel, at 212-566-3843.

Is there a deadline to submit written comments? Yes, you must submit written comments by 5/5/14.

Can I review the comments made on the proposed rule amendment? You can review the comments made online on the proposed rule amendment by going to the website at http://rules.cityofnewyork.us/.

What authorizes DOB to make this rule amendment? Sections 643 and 1043(a) of the City Charter authorize DOB to make this proposed rule amendment. DOB did not include this proposed rule amendment in its regulatory agenda for this Fiscal Year, as it was not anticipated when the agenda was drafted.

Where can I find the DOB's rules? The DOB's rules are in Title 1 of the Rules of the City of New York. They can also be found on the DOB's website, here: http://www.nyc.gov/html/dob/html/codes_and_reference_materials/rules.shtml.

What rules govern the rulemaking process? DOB must meet the requirements of Section 1043 of the City Charter when creating or changing rules. This notice is made according to the requirements of Section 1043(b) of the City Charter.

Statement of Basis and Purpose

Existing rule 1 RCNY 104-24 contains a typographical error, which is misleading in terms of setting forth the requirements necessary to seek class 2 filing representative status, beginning May 1, 2014.

This error implies that such applicants need only provide proof of educational requirements "or" training requirements when, in fact, it has always been the intent of DOB that such applicants provide proof of both educational and training requirements.

Therefore, it is proposed to amend this rule in order to correct such typographical error.

As a reminder, "Class 2 registered filing representatives (also referred

to as "code and zoning representatives") may, following registration and issuance of an identification card, perform all of the activities of a class 1 registered filing representative and may also appear before and attend appointments with plan examiners and other department technical staff regarding construction document approvals, including, but not limited to, plan review, audit review, pre-determinations, and determinations."

<u>New material is underlined.</u> [Deleted material is in brackets.]

Clause (B) of subparagraph (i) of paragraph (2) of subdivision (g) of Section 104-24 of Chapter 100 of Title 1 of the Rules of the City of New York is amended to read as follows:

(B) A four (4) year degree in another field from an accredited college, and proof of two (2) years as a registered filing representative with the department with at least fifty (50) jobs filed within four (4) years of application for class 2 filing representative status[; or].

DEPARTMENT OF HOUSING PRESERVATION & DEVELOPMENT (HPD) OFFICE OF MANAGEMENT AND BUDGET (OMB) COMMUNITY DEVELOPMENT BLOCK GRANT - DISASTER

RECOVERY PROGRAM FINAL NOTICE AND PUBLIC EXPLANATION OF A PROPOSED ACTIVITY IN A 100-YEAR FLOODPLAIN

To: All Interested Agencies, Groups, and Individuals:

This publication gives notice that the City of New York (the City) has conducted an evaluation of several proposals under the United States Department of Housing and Urban Development's (HUD) Community Development Block Grant-Disaster Recovery (CDBG-DR) grant, as required by Executive Order 11988 in accordance with HUD regulations 24 CFR 55.20 Subpart C Procedures for Making Determinations on Floodplain Management. This evaluation is made to determine the potential affect that proposed activities in the floodplain will have on the human environment. Through the "Disaster Relief Appropriations Act, 2013" (Public Law 113-2, January 29), the City's initial allocation of CDBG-DR funds is \$1,772,820,000. Of this total, the City has allocated \$648 million in funding for assistance to address the various unmet housing needs. The focus of this notice is the NYC Build-It-Back: Multi-Family Building Rehabilitation Program, which will be administered by the Department of Housing Preservation & Development (HPD). Of the initial \$648 million of CDBG-DR funds allocated to housing, \$215 million would be provided to HPD for the rehabilitation of multifamily buildings (5+ units) and 3-4 unit buildings that are not owner-occupied. The properties shown below are subject to this public notice:

Public Explanation of a Proposed Activity in the 100-Year Floodplain:

The City has carried out the procedures required by Executive Order 11988 on Flood Plain Management including the consideration of a no-action alternative, to avoid adverse effects and incompatible development in the floodplain. The no-action alternative would not achieve the City's goals of restoring the health and safety of hurricanedamaged multi-family housing for its residents, nor would it promote planning and implementation of resilience measures to mitigate damage from future weather extremes. Residents would continue to be displaced from their homes located in the floodplain, live in damaged, unsafe, and unsanitary housing within the hurricane-damaged neighborhoods or seek shelter elsewhere. Poor structural integrity of hurricane-damaged buildings within the floodplain would put residents at a greater risk should a flood event occur, especially if buildings do not meet current elevation requirements. Storm debris fields on the properties of residential buildings would potentially remain unaddressed, also posing a threat to public health and water quality.

The City has considered alternatives and mitigation measures to be taken to minimize adverse impacts and to restore and preserve natural and beneficial values of the floodplain. It therefore proposes to support the projects because there is no practicable alternative to develop the projects totally outside the floodplain. To minimize potential harm to the floodplain, HPD will require that the projects implement the following mitigation measures:

- 1) Property owners will be required to purchase and maintain flood insurance for the life of the property or the term of federal assistance; and
- 2) All alterations and repair work must comply with the NYC Department of Buildings requirements for flood-resistant construction (Appendix G of the 2008 Building Code) and resiliency/mitigation measures described above will be implemented as practicable.

This notice is required by Section 2(a)(4) of Executive Order 11988 for Floodplain Management and is implemented by HUD Regulations found at 24 CFR 55.20 Subpart C Procedures for Making Determinations on Floodplain Management. All interested persons, groups and agencies are invited to submit written comments regarding the proposed use of federal funds to support activities located in a floodplain. Written comments should be sent to HPD at 100 Gold Street, New York, NY 10038, Attn: Patrick Blanchfield, AICP, Director of Environmental Planning, Office of Development, Room 91-7. Comments may also be submitted electronically to nepa_env@hpd.nyc. gov. The minimum 7 calendar day comment period will begin the day after the publication and end on the 8th day after the publication. All comments should be received by HPD on or before April 12th, 2014.

COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM (CD) FINAL NOTICE AND PUBLIC EXPLANATION OF A PROPOSED ACTIVITY IN A 100-YEAR FLOODPLAIN

To: All Interested Agencies, Groups and Individuals

This is to give notice that the City of New York has conducted an evaluation as required by Executive Order 11988 in accordance with HUD regulations at 24 CFR 55.20 Subpart C: Procedures for Making Determinations on Floodplain Management. This evaluation is made to determine the potential effect that its activity in the floodplain will have on the human environment. This notice is <u>not</u> related to the Community Development Block Grant Disaster Recovery Program.

Bronx River Project

The Bronx River Alliance (Alliance) works in harmonious partnership with the New York City Department of Parks & Recreation (Parks Dept.) to protect, improve and restore the Bronx River corridor so that it can be a healthy ecological, recreational, educational and economic resource for the communities through which the river flows. In addition to their efforts to inform and educate the public about the river, the Alliance and the Parks Dept. have already made substantial progress in cleaning and improving the river and its environs. The physical improvements have been primarily made through the availability of other funding sources. The Program's CD allocation (\$190,000 in CD 40/2014) covers the Bronx River Conservation Manager position and two crew leader positions who assist in clean-up activities as well as in riverbank stabilization, removing invasive plants from natural areas, planting of native trees and shrubs, and installing rainwater harvesting systems.

The target area is the length of the Bronx River from the Westchester County border on the north to the river's mouth at the East River on the south. Thus, there is no alternative location for the program's activities.

The Alliance and the Parks Dept. make every effort to restore the river to its original conditions. Water quality is monitored, polluting sources are identified and remediated to the extent possible, and vacant industrial sites are being reclaimed and converted for public use. The activities being undertaken are coordinated with many partners such as other city agencies, state agencies, nonprofit organizations, local community groups, schools and individuals. The project's activities will result in positive impacts on the floodplain.

The alternative of no action is unacceptable. Unfortunately, for decades, and continuing as late as the 1970's and early 1980's, it was a lack of funding and inaction that allowed the river to become polluted and it and its banks filled with debris. It was the initial efforts of Bronx River Restoration and now the Alliance that have greatly restored the river and have allowed the public to once again enjoy it as a recreational destination.

This activity will have no significant impact on the environment for the following reasons: The CD-funded activities remove blighting and polluting influences from the river and help restore it to its original conditions.

There are three primary purposes for this notice. First, people who may be affected by activities in floodplains and those who have an interest in the protection of the natural environment should be given an opportunity to express their concerns and provide information about these areas. Second, an adequate public notice program can be an important public educational tool. The dissemination of information about floodplains can facilitate and enhance Federal efforts to reduce the risks associated with the occupancy and modification of these special areas. Third, as a matter of fairness, when the Federal government determines it will participate in actions taking place in floodplains, it must inform those who may be put at greater or continued risk.

Additional information is available and can be obtained at the Office of Management and Budget, Community Development Unit, 255 Greenwich Street, 8th Floor, New York, New York 10007 between 10:00 A.M. and 5:00 P.M. Monday through Friday. Please call (212) 788-6177 to make an appointment to view the file. All interested persons, groups and agencies are invited to submit comments regarding the proposed use of federal funds to support a project in a floodplain. Such comments should be received at the Community Development Unit on or before April 11, 2014. All such comments so received will be considered.
