"The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence."

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York ("PPB Rules"), vendors must first complete and submit an electronic prequalification application using the City's Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed at http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

Administration for Children's Services (ACS)

Department for the Aging (DFTA) Department of Consumer Affairs (DCA) Department of Corrections (DOC)

DISTRICT ATTORNEY - NEW YORK COUNTY

■ INTENT TO AWARD

RELOCATE ELECTRICAL PANEL - Negotiated Acquisition - PIN# 20150600061 - Due 12-24-14 at 3:00 P.M.

The New York County District Attorney's Office (DANY) is seeking to relocate several electrical panels located on the 4th Floor of 80 Centre Street, in Manhattan. 80 Centre Street is one of the two principal locations of the New York County District Attorney's Office. It is necessary to relocate the panels in order to extend a corridor that is currently blocked by the wall on which the panels are located (see attached plan).

The corridor in question must be extended to maintain circulation and egress on the 4th Floor that will be lost when DANY's Cybercrimes and Identity Theft Unit (CITB) is renovated and expanded. This expansion will absorb a section of the circulation corridor which will then be replaced by extending the corridor blocked by the electric panels in question. Please see the attached drawings.

The CITB renovation is part of a major initiative of the District Attorney's to combat the increasing instances of identity theft and cybercrime. A grant has been secured to fund the expansion and the District Attorney is anxious that the new facility be up and running as quickly as possible. The CITB renovation is scheduled to begin on or about December 15th, 2014 and be complete in approximately seven (7) months. However the renovation cannot begin until the electric panels have been relocated.

The electric panels were installed as part of a building-wide electrical The electric panels were installed as part of a building-wide electrical upgrade initiated by the Department of Citywide Administrative Services (DCAS) in 2011, and expected to be completed in 2015. The panels were installed by ARK Systems Electric, the contractor hired for the project, under work permit #M331936 issued by the NYC Department of Buildings (copy attached). This permit remains 'open' until the overall project is completed, inspected and signed off by the Department of Buildings (DOB).

As per section 26-207 of the New York City Building Code, no work may

be done without a permit being issued by the DOB. Since the permit is issued to a specific contractor, only that contractor may perform the work covered by the permit, including alteration of work already installed under the permit, until the work covered by the permit is completed, inspected and signed off by the DOB and the permit 'closed'. Thus only ARK Systems Electric may relocate these panels until the overall project is completed in 2015 and the permit 'closed'.

The renovation and expansion of the CITB unit is a pivotal component of District Attorney Cyrus R. Vance's strategy to combat one of the fastest growing sectors of crime worldwide. The renovation is scheduled to begin in December of this year and be completed and occupied by the middle of August of 2015. The panels must be relocated by the start of construction. Waiting until the building-wide electrical upgrade is completed in 2015, in order to seek competitive bids from multiple electrical contractors to relocate the panels, would substantially delay this project and would also delay an important crime prevention initiative.

Because DCAS prefers not to issue a change order to the contractor for the panel relocation, nor to revise the scope of the electrical upgrade project to accommodate the relocation, DANY has agreed to fund the work and hire the contractor as a separate project. We are thus seeking to retain ARK Systems Electric to relocate the panels, under their current permit, concurrent with the building-wide electrical upgrade. We thus respectfully request concurrence with our plan to pursue a negotiated acquisition with ARK System Electric

Name, Description and Location of Proposal:

<u>Stairwells Text Amendments</u>
The Department of City Planning (DCP), in collaboration with the Department of Buildings (DOB) and the Fire Department (FDNY), is proposing a city-wide Zoning Text Amendment to facilitate and make effective additional safety measures that are part of New York City's 2014 Building Code. Although the proposed action involves a city-wide zoning text amendment, the affected area would be limited to those zoning zoning text amendment, the affected area would be limited to those zoning districts without set height limits that allow a floor area ratio (FAR) of 10 or greater where buildings taller than 420 feet are typically found. These zoning districts can be found in mid- and downtown Manhattan, downtown Brooklyn and portions of Long Island City in Queens. The proposed action would modify the definition of floor area (New York City Zoning Resolution, Section 12-10, Definitions) to exempt floor space that would be occupied by the required additional safety measures, such as an additional stairway or increased stair width, from counting

towards zoning floor area (zfa). Such measures are required for all new non-residential buildings that are greater than 420 feet in height but do not apply to residential buildings. The safety measures are intended to enhance public safety in the affected buildings by providing additional exiting capacity for building occupants during emergency situations that require full building evacuation. These safety measures may be provided as designated emergency elevators, increased exit stair width, or as an additional exit stairway.

The purpose of this action is to enhance public safety in affected buildings by providing additional exit capacity for building occupants during emergency situations that require safe, orderly and timely full building evacuation. As stipulated in Local Law 141 of 2013, the new safety provisions will become effective after the approval of the subject zoning text amendment. The expected build year for the project is 2025. Absent the proposed action, the new safety provisions in the Building Code would not be in effect.

Statement of No Significant Effect:

The Environmental Assessment and Review Division of the Department of City Planning, on behalf of the City Planning
Commission, has completed its technical review of the Environmental Assessment Statement, dated November 10, 2014, prepared in connection with the ULURP Application (No. N150167ZRY). The City Planning Commission has determined that the proposed action will have no significant effect on the quality of the environment.

Supporting Statement:

The above determination is based on an environmental assessment which finds that no other significant effects on the environment which would require an Environmental Impact Statement are foreseeable.
