If any of the documentation is missing or has been improperly prepared, the application will be returned with a listing of its deficiencies. If the documentation is in order, the Department shall assign a docket number and shall [send] transmit a Notice of Receipt[s] of the application to all the appropriate Department divisions and other agencies which review such application, and to the community board(s), Borough President(s), borough board (when appropriate), the City Council and the applicant in accordance with § 2-02(b). In all other instances, a majority vote of the Commission is necessary to certify an application. A denial of the appeal shall mean that the application remains incomplete, and the Department of City Planning and the environmental review staff shall continue with timely review of the application until all the information required for completeness has been provided at which time certification shall take place. If such review continues for an additional one hundred and eighty (180) days or more beyond the denial, the applicant may again appeal to the Commission under the procedure outlined above to certify the application.

Environmental assessment form. (Retitled *Environmental Assessment Statement*; see City Planning Rules § 5-04(c)(3).);

"Environmental assessment form" means a written form completed by the lead agencies, designed to assist their evaluation of actions to determine whether an action under consideration may or will not have a significant effect on the environment.

Environmental impact statement (EIS). "Environmental impact statement (EIS)" means any written document prepared in accordance with §§ 6-08, 6-10, 6-12 and 6-13 of this chapter. An EIS may either be in a draft or a final form.

Environmental report. "Environmental report" means a report to be submitted to the lead agencies by a non-agency applicant when the lead agencies prepare or cause to be prepared a draft EIS for an action involving such an applicant. An environmental report shall contain an analysis of the environmental factors specified in § 6-10 of this chapter as they relate to the applicant's proposed action and such other information as may be necessary for compliance with this chapter, including the preparation of an EIS.

Lead agencies. (Inapplicable, City Planning Rules § 5-02(a). Superseded by City Planning Rules § 5-02(b)(1) and § 5-02(c)(3)(vi); also see City Planning Rules § 5-03 for choice of lead agency.);

Ministerial action. "Ministerial action" means an action performed upon a given state of facts in a prescribed manner imposed by law without the exercise of any judgment or discretion as to the propriety of the action, although such law may require, in some degree, a construction of its language or intent.

Negative declaration. "Negative declaration" means a written statement prepared by the lead agencies after conducting an environmental analysis of an action which announces that the lead agencies have determined that the action will not have a significant effect on the environment.

Notice of determination. (1) in the case of an action for which there has been duly prepared both a draft EIS and a final EIS, no agency shall have an obligation to prepare an EIS or to make findings pursuant to § 6-12 of this chapter.

(2) in the case of an action for which there has been prepared a Negative Declaration or other written threshold determination that the action will not require a federal impact statement under the National Environmental Policy Act of 1969, the lead agencies shall determine whether or not the action may have a significant effect on the environment pursuant to this chapter, and the action shall be fully subject to the same.

(b) (Inapplicable, City Planning Rules § 5-02(a). Entire subdivision (b) superseded by City Planning Rules § 5-03(j)); and § 5-04(d).); § 6-04† **Exempt Actions.** (See also City Planning Rules § 5-02(d).); The following actions shall not be subject to the provisions of this chapter:

Where possible existing City applications shall be modified to incorporate this procedure and a one-stop review process developed;

(1) within 20 calendar days of receipt of a determination pursuant to § 6-03(b) of this chapter, if applicable, the lead agencies shall notify the applicant, in writing, whether the application is complete or whether additional information is required;

§ 6-06 Determination of Significant Effect - Criteria. (a) An action may have a significant effect on the environment if it can reasonably be expected to lead to one of the following consequences:

(1) a substantial adverse change to ambient air or water quality or noise levels or in solid waste production, drainage, erosion or flooding;

(2) the removal or destruction of large quantities of vegetation or fauna, the substantial interference with the movement of any resident or migratory fish or wildlife species, impacts on critical habitat areas, or the substantial affecting of a rare or endangered species of animal or plant or the habitat of such a species;

(3) the encouraging or attracting of a large number of people to a place or places for more than a few days relative to the number of people who would come to such a place absent the action;

(4) the creation of a material conflict with a community's existing plans or goals as officially approved or adopted;

(5) the impairment of the character or quality of important historical, archeological, architectural or aesthetic resources (including the demolition or alteration of a structure which is eligible for inclusion in an official inventory of such resources), or of existing community or neighborhood character;

(6) a major change in the use of either the quantity or type of energy;

(7) the creation of a hazard to human health or safety;

(8) a substantial change in the use or intensity of use of land or other natural resources or in their capacity to support existing uses, except where such a change has been included, referred to, or implicit in a broad "programmatic" EIS prepared pursuant to § 6-13 of this chapter.

(9) the creation of a material demand for other actions which would result in one of the above consequences;

(10) changes in two or more elements of the environment, no one of which is substantial, but taken together result in a material change to the environment.

(b) (*Reference to § 6-15 Type II list, deemed to be State Type II list of 6 NYCRR Part 617.13. See City Planning Rules § 5-02(b)(2.)*); For the purpose of determining whether an action will cause one of the foregoing consequences, the action shall be deemed to include other contemporaneous or subsequent actions which are included in any long-range comprehensive integrated plan of which the action under consideration is a part, which are likely to be undertaken as a result thereof, or which are dependent thereon. The significance of a likely consequence (i.e. where it is material, substantial, large, important, etc.) should be assessed in connection with its setting, its probability of occurring, its duration, its irreversibility, its controllability, its geographic scope and its magnitude (i.e. degree of change or its absolute size). Section 6-15 of this chapter refers to lists of actions which are likely to have a significant effect on the environment and contains lists of actions found not to have a significant effect on the environment.

§ 6-07; Determination of Significant Effect - Notification. (a) (*Error. Reference to § 6-05(a) should be to § 6-05(b.)*) The lead agencies shall determine within 15 calendar days following notification of completion of the application pursuant to § 6-05(a) of this chapter whether the proposed action may have a significant effect on the environment;

(1) (*Reference to § 6-15(b) Type II list, deemed to be State Type II list of 6 NYCRR Part 617.13. (2) The lead agencies may consult with, and shall receive the cooperation of any other agency before making their determination pursuant to this subdivision (a).

(b) The lead agencies shall provide written notification to the applicant immediately upon determination of whether the action may or will not have a significant effect on the environment. Such determination shall be in one of the following forms:

(1) *Negative Declaration.* (*Reference to § 6-15, Type II list, deemed to be State Type II list of 6 NYCRR Part 617.13 See Rules § 5-02(b)(2.)*); If the lead agencies determine that the proposed action is not an exempt action or a Type II action pursuant to §§ 6-04 and 6-15 of this chapter, respectively, and that the action will not have a significant effect on the environment, they shall issue a Negative Declaration which shall contain the following information:

(i) an action identifying number;

(ii) a brief description of the action;

In such event, a Notice of Determination shall be immediately issued pursuant to paragraph (3) of this subdivision.

(3) *Notice of Determination. (Reference to § 6-15 Type II list, deemed to be State Type II list of 6 NYCRR Part 617.13. See City Planning Rules § 5-02(b)(2).);* If the lead agencies determine that the proposed action is not an exempt action or a Type II action pursuant to §§ 6-04 and 6-15 of this chapter, respectively, and that the action may have a significant effect on the environment, they shall issue a Notice of Determination which shall contain the following information:

- (i) an action description number;

§ 6-08 Draft Environmental Impact Statements – Responsibility for Preparation. (a) *Non-agency applicants.*

(1) *(Rules add formal scoping, City Planning Rules § 5-07. Interested and involved agencies assist with DEIS on request. See City Planning Rules § 5-05(b)(2).);* After receipt of a Notice of Determination pursuant to § 6-07(c)(3) of this chapter, a non-agency applicant shall notify the lead agencies in writing as to whether it will exercise its option to prepare or cause to be prepared a draft EIS, and as to whom it has designated to prepare the draft EIS, provided that no person so designated shall have an investment or employment interest in the ultimate realization of the proposed action;

(2) *(See also City Planning Rules § 5-05(b)(3) for requirements of lead consultation on mitigations.);* the lead agencies may prepare or cause to be prepared a draft EIS for an action involving a non-agency applicant. Coord., City Planning Rules § 5-04(c).);* Environmental impact statements should be clearly written in a brief and concise manner capable of being read and understood by the public. Within the framework presented in subdivision (d) of this section, such statements should deal only with the specific significant environmental impacts

which can be reasonably anticipated. They should not contain more detail than is appropriate considering the nature and magnitude of the proposed action and the significance of its potential impacts.

(b) All draft and final EIS's shall [be preceded by] include a cover [sheet] page stating:

- (1) whether it is a draft or a final;

- (1) a description of the proposed action and its environmental setting;
- (2) a statement of the environmental impacts of the proposed action, including its short-term and long-term effects, and typically associated environmental effects;
- (3) an identification of any adverse environmental effects which cannot be avoided if the proposed action is implemented;
- (4) a discussion of the social and economic impacts of the proposed action;
- (5) a discussion of alternatives to the proposed action and the comparable impacts and effects of such alternatives;
- (6) an identification of any irreversible and irretrievable commitments of resources which would be involved in the proposed action should it be implemented;
- (7) a description of mitigation measures proposed to minimize adverse environmental impacts;

- (11) (for the final EIS only) copies or a summary of the substantive comments received in response to the draft EIS and the applicant's response to such comments.

(e) An EIS may incorporate by reference all or portions of other documents which contain information relevant to the statement. The referenced documents shall be made available to the public in the same places where copies of the statement are made available. When a statement uses incorporation by reference, the referenced document shall be briefly described and its date of preparation provided.

§ 6-10 Draft Environmental Impact Statements – Procedures.

(a) *Notice of Completion.* Upon the satisfactory completion of a draft EIS, the lead agencies shall immediately prepare, file and make available for public inspection a Notice of Completion as provided in paragraphs (1), (2) and (3) of this subdivision. Where a proposed action is simultaneously subject to the Uniform Land Use Review Procedure ("ULURP"), the City Planning Commission shall not certify an application pursuant to ULURP until a Notice of Completion has been filed as provided in paragraph (3) of this subdivision.

(1) *Contents of Notice of Completion.* All Notices of Completion shall contain the following:

- (i) an action identifying number;

(c) *Public hearings on draft EIS.*

(1) Upon completion of a draft EIS, the lead agencies shall conduct a public hearing on the draft EIS.

(2) The hearing shall commence no less than 15 calendar days or more than 60 calendar days after the filing of a draft EIS pursuant to subdivision (b) of this section, except where a different hearing date is required as appropriate under another law or regulation.

(3) Notice of the public hearing may be contained in the Notice of Completion or, if not so contained, shall be given in the same manner in which the Notice of Completion is [circulated] transmitted and filed pursuant to subdivision (a) of this section. In either case, the notice of hearing shall also be published at least 10 calendar days in advance of the public hearing in a newspaper of general circulation in the area of the potential impact and effect of the proposed action.

(4) Where a proposed action is simultaneously subject to ULURP, a public hearing conducted by the appropriate community or borough board and/or the City Planning Commission pursuant to ULURP shall satisfy the hearing requirement of this section. Where more than one hearing is conducted by the aforementioned bodies, whichever hearing last occurs shall be deemed the hearing for purposes of this chapter.

§ 6-11 **Final Environmental Impact Statements – Procedures.**

(a) (*Interested and involved agencies assist with FEIS on request, City Planning Rules § 5-05(b)(2).*); Except as provided in paragraph (1) of this subdivision, the lead agencies shall prepare or cause to be prepared a final EIS within 30 calendar days after the close of a public hearing.

(1) If the proposed action has been withdrawn or if, on the basis of the draft EIS and the hearing, the lead agencies have determined that the action will not have a significant effect on the environment, no final EIS shall be prepared. In such cases, the lead agencies shall prepare, file and [circulate] transmit a Negative Declaration as prescribed in § 6-07 of this chapter.

(2) The final EIS shall reflect a revision and updating of the matters contained in the draft EIS in light of further review by the lead agencies, comments received and the record of the public hearing.

(b) Immediately upon the completion of a final EIS, the lead agencies shall prepare, file, [circulate] transmit and make available for public inspection a Notice of Completion of a final EIS in a manner specified in § 6-11(a) of this chapter, provided, however, that the Notice shall not contain the statement described in subparagraph (a)(1)(iv) of such section.

(c) Immediately upon completion of a final EIS, [copies] it shall be filed and made available for public inspection in the same manner as the draft EIS pursuant to § 6-11(b) of this chapter.

§ 6-12 **Agency Decision Making.** (a) No final decision to carry out or approve an action which may have a significant effect on the environment shall be made until after the filing and consideration of a final EIS.

(1) (*Inapplicable, City Planning Rules, § 5-02(a).*);

(2) (*Inapplicable, City Planning Rules, § 5-02(a).*);

(b) When an agency decides to carry out or approve an action which may have a significant effect on the environment, it shall make the following findings in a written decision:

(1) consistent with social, economic and other essential considerations of state and city policy, from among the reasonable alternatives thereto, the action to be carried out or approved is one which minimizes or avoids adverse environmental effects to the maximum extent possible, including the effects disclosed in the relevant environmental impact statement;

(2) consistent with social, economic and other essential considerations of state and city policy, all practicable means will be taken in carrying out or approving the action to minimize or avoid adverse environmental effects.

(c) For public information purposes, [a copy of] the Decision shall be filed in the same manner as the draft EIS pursuant to § 6-11(b) of this chapter.

§ 6-13 **Programmatic Environmental Impact Statements.** (a) Whenever possible, agencies shall identify programs or categories of actions, particularly projects or plans which are wide in scope or implemented over a long time frame, which would most appropriately serve as the subject of a single EIS. Broad program statements, master or area wide statements, or statements for comprehensive plans are often appropriate to assess the environmental effects of the following:

(1) a number of separate actions in a given geographic area;

(2) a chain of contemplated actions;

(3) separate actions having generic or common impacts;

(4) programs or plans having wide application or restricting the range of future alternative policies or projects.

(b) No further EIS's need be prepared for actions which are included in a programmatic EIS prepared pursuant to Subdivision (a) of this section. However:

(1) a programmatic EIS shall be amended or supplemented to reflect impacts which are not addressed or adequately analyzed in the EIS as originally prepared; and

(2) actions which significantly modify a plan or program which has

been the subject of an EIS shall require a supplementary EIS;

(3) programmatic EIS's requiring amendment and actions requiring supplementary EIS's pursuant to this section shall be processed in full compliance with the requirements of this chapter. § 6-14 **Rules and Regulations.** (*Inapplicable, City Planning Rules § 5-02(a).*);

§ 6-15 **Lists of Actions.** (a) *Type I.* (*See City Planning Rules § 5-02(d).*); Type I actions enumerated in § 617.12 of 6 NYCRR 617 are likely to, but will not necessarily, require the preparation of an EIS because they will in almost every instance significantly affect the environment. However, ministerial actions never require the preparation of an EIS except where such actions may directly affect a critical area or an historic resource enumerated in Paragraphs (22) and (23), respectively, of Subdivision (a) of § 617.12. In addition, for the purpose of defining Paragraph (2) of said subdivision and section, the following thresholds shall apply:

(1) relating to public institutions:

(i) new correction or detention centers with an inmate capacity of at least 200 inmates;

(ii) new sanitation facilities, including:

(A) incinerators of at least 250 tons per day capacity;

(B) garages with a capacity of more than 50 vehicles;

(C) marine transfer stations;

(iii) new hospital or health related facilities containing at least 100,000 sq. ft. of floor area;

(iv) new schools with seating capacity of at least 1,500 seats;

(v) any new community or public facility not otherwise specified herein, containing at least 100,000 sq. ft. of floor area, or the expansion of an existing facility by more than 50 percent of size or capacity, where the total size of an expanded facility exceeds 100,000 sq. ft. of floor area.

(2) relating to major office centers: any new office structure which has a minimum of 200,000 sq. ft. of floor area and exceeds permitted floor area under existing zoning by more than 20 percent, or the expansion of an existing facility by more than 50 percent of floor area, where the total size of an expanded facility exceeds 240,000 sq. ft. of floor area.

(b) *Type II.*

(1) (*See City Planning Rules § 5-02(d).*); Type II actions will never require the preparation of an EIS because they are determined not to have a significant effect on the environment, except where such actions may directly affect a critical area or an historic resource enumerated in paragraphs (22) and (23), respectively, of subdivision (a) of § 617.12 of 6 NYCRR 617.

Chapter 6: Rules For the Processing of Plans Pursuant To Charter Section 197-a

* * *

§ 6-02 Plan Submission.

(a) *Notification of Intent.* To assist the Department in anticipating the need for technical assistance for the preparation of plans in the efficient scheduling of their review, the sponsor of a plan shall notify the Department of its intent to prepare and submit a plan. This notice shall be given not less than ninety (90) days prior to the submission of a proposed plan. Periodically, the Department shall report to the Commission on the notices received and on the progress of 197-a plans underway.

(b) *Submission.* [Thirty (30) copies of a] All proposed plans shall be submitted to the Department of City Planning[,], through its website or at [Intake Office, 22 Reade Street] 120 Broadway, 31st Floor, New York, NY 10271 [007]. If a plan has been initiated by a community board, borough board or Borough President, this initial submission shall include a summary record of the public hearing held by the board or Borough President. The submission shall also include the name(s) and address(es) of the person(s) designated by the sponsor to be its representative(s) in any discussions of the plan.

§ 6-03 Threshold Review and Determination.

(a) *Department Review.* Each proposed plan shall be reviewed by the Department staff who shall report to the Commission not later than 90 days after the plan's submission as to whether the plan appears to meet the standards for form and content and for consistency with sound planning, as set forth in § 6-04 of these rules. Prior to making the report, the staff shall inform the sponsor of all deficiencies with respect to form and content and any changes, additions or deletions which, in the opinion of the staff, may correct such deficiencies. The sponsor may, thereupon, indicate its willingness to make such changes, additions or deletions in which case the Department will defer its report to the Commission until the changes have been made. The sponsor may, instead, request that the plan be presented without change to the Commission for its threshold findings of form and content and sound planning policy. At the time of any Department report on a proposed plan, the Commission may receive a similar report from representatives of the sponsor.

(b) *City Planning Commission Determination.* Within 30 days after its presentation by the Department staff, the Commission shall determine, when required by the Charter and in accordance with the standards set forth in § 6-04 of these rules, whether the proposed plan is of appropriate

form and sufficient content, and whether it is in accordance with sound planning policy. If the Commission has determined that a proposed plan does not meet the standards for form or content or for sound planning policy, it shall direct the plan back to the sponsor with a statement explaining its deficiencies. When the Commission has determined that a proposed plan is of appropriate form and content and is in accordance with sound planning policy, it shall direct the Department to undertake the necessary environmental review if the plan has been sponsored by a community board in accordance with Article 5 of these rules. If the plan has been sponsored by an agency other than a community board the Commission shall determine whether a Type II declaration, a negative declaration, or a notice of completion of a draft EIS has been issued, and if so, it shall direct the Department to distribute the plan in accordance with § 6-06 of these rules.

(c) *Coordination of Plan Review.* The Commission may determine that, despite its finding of appropriate form and content and sound planning policy, a proposed plan should not immediately proceed because there are other planning efforts, ULURP reviews or environmental studies underway which should be coordinated with the plan. In such a case, the Commission may direct the Department to work with the sponsor and any other interested agencies in developing an appropriate timetable and strategy for the plan, and to report back to the Commission.

(d) *Progress Report.* When 180 days has elapsed following a threshold determination pursuant to Subdivision (b), if a proposed plan has not been distributed for review either because the environmental review remains incomplete, or because the plan has been delayed pursuant to Subdivision (c), the sponsoring agency may make a written request to the Commission to expedite the plan's distribution. The Commission shall direct the Department to report in writing within a fixed period of time the progress of the plan, including any outstanding aspects of the environmental review, or any continuing problems of coordination delaying its review. Upon receipt of the report, the Commission may direct the Department to complete the review within a reasonable period of time.

* * *

§ 6-06 Plan Distribution and Review.

(a) *Plan Distribution.* When pursuant to § 6-03(b) of these rules, the Commission directs the Department to distribute a proposed plan, the Department shall transmit [copies of] the plan simultaneously to all affected community boards, Borough Presidents and borough boards, as defined in Charter §§ 196 and 197-a(c). The Commission may also direct its distribution to other agencies whose interests may be affected including neighboring community boards and Borough Presidents, and any city and state agency with jurisdiction over elements of the plan.

(b) *Community Board Review.* Each community board which has received from the Department of City Planning a proposed plan affecting land in its district shall conduct a public hearing on the plan except when a single borough-wide hearing is to be held on a borough plan. Notice of the public hearing shall be given and the hearing conducted in accordance with the ULURP rules for community board public hearings. Subsequent to the public hearing and within a period of sixty (60) days following its receipt of the plan, the community board shall transmit its written recommendation to the City Planning Commission with copies to the Borough President, City Council and the sponsor. The Community board which is the sponsor of a plan and which held a hearing on it prior to filing with the Department, need not hold a second hearing.

(c) *Borough president review.* The Borough President shall have one hundred twenty (120) days following the receipt of a proposed plan in which to review the plan and submit written recommendation to the City Planning Commission with copies to the City Council and sponsor. The Borough President may choose to conduct a public hearing on the plan.

(d) *Borough board review.* Each borough board which has received from the Department of City Planning a proposed plan affecting land in two or more community districts in its borough shall conduct a public hearing on the plan. Such public hearing shall take place and the report of the borough board shall be transmitted within one hundred twenty (120) days following its receipt of the plan. In the case of a plan affecting the entire borough, a single borough-wide public hearing may be held in lieu of separate hearings by the community boards. Notice of the public hearing shall be given and the hearing conducted in accordance with the ULURP rules governing borough board hearings. The borough board shall transmit its written recommendation to the City Planning Commission with copies to the City Council and the sponsor.

(e) *Request for review.* Any community board or borough board may make a written request to the Department to receive and review [a copy of] a proposed plan which does not involve land within its district or borough. In its request the Community board or borough board shall state the reason why the plan significantly affects the welfare of its district or borough. Upon receipt of the plan, the community board or borough board may conduct a public hearing and may make any recommendation to the City Planning Commission with copies to the City Council and sponsor. When it transmits such a plan, the Department shall notify the community board or borough board of the remaining time period during which it may review and comment on the plan.

(f) *Other requests.* A borough president may make a written request to the Department to receive and review [a copy of] a proposed plan for a district or area outside the borough. (b) *Revision of Plans.* A plan may be periodically reviewed and revised by its sponsor or the Commission may initiate such review. Any such revision may be presented for adoption as an amendment to the plan in accordance with the procedures set forth in these rules.

(c) *Summary of Plans.* In each Zoning and Planning Report adopted pursuant to Charter § 192(b), the Commission shall include a summary of all 197-a plans adopted during the preceding four years.

“The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City’s prestige as a global destination. The contracting opportunities for construction/construction services and construction-related

services that appear in the individual agency listings below reflect that commitment to excellence."

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York ("PPB Rules"), vendors must first complete and submit an electronic prequalification application using the City's Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
• Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
• Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
• Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed at http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

- Administration for Children's Services (ACS)
Department for the Aging (DFTA)
Department of Consumer Affairs (DCA)
Department of Corrections (DOC)
Department of Health and Mental Hygiene (DOHMH)
Department of Homeless Services (DHS)
Department of Probation (DOP)
Department of Small Business Services (SBS)
Department of Youth and Community Development (DYCD)
Housing and Preservation Department (HPD)
Human Resources Administration (HRA)
Office of the Criminal Justice Coordinator (CJC)

Name, Description and Location of Proposal:

142-150 South Portland Avenue Rezoning

The applicant, Metropolitan Development Group (MDG) Design and Construction in collaboration with the Hanson Place Seventh-Day Adventist Church, seeks (1) zoning map amendments to rezone an R7A district to an R8A and R8A/C2-4 district within the Special Downtown Brooklyn District (SDBD) and (2) zoning text amendments to extend the SDBD, designate a new Mandatory Inclusionary Housing Area, and establish special height limits within the proposed R8A district within the SDBD. The proposed actions would facilitate a proposal by the applicant to construct a 13-story (126'), approximately 95,000 gross square foot (gsf) residential and community facility building (the "Proposed Development") on a property located at 142-150 South Portland Avenue (Block 2003, Lot 37) in the Fort Greene neighborhood of Brooklyn Community District 2. The proposed actions could also facilitate additional residential, commercial, and community facility development on other parcels within the proposed rezoning area.

The proposed zoning map amendment would rezone Block 2003, Lots 19, 29, 30, 31, 32, 33, 34, and 37 (the "Project Area") from an R7A district to an R8A zoning district, establish a C2-4 commercial overlay on a portion of the Project Area (portions of Lots 19, 29, 30, 31, 32, 33, and 34) fronting on Hanson Place, and extend the Special Downtown Brooklyn District (SDBD) to an area coterminous with the Project Area. The proposed zoning text amendments would show the boundaries of the extended SDBD on zoning maps, establish a 95 ft. height limitation within 25 feet of an R7A district on buildings or portions of buildings fronting on South Portland Avenue within an R8A district, and amend Appendix F of the ZR to establish a Mandatory Inclusionary Housing ("MIH") Area coterminous with the Project Area, mapping Option 1 and Option 2. Option 1 requires 25% of residential floor area be affordable at 60% area median income (AMI). Option 2 requires 30% of residential floor area be affordable at 80% AMI.

The Proposed Development would include approximately 100 dwelling units (DUs) (of which 32 would be affordable pursuant to MIH Option 2) and 9,700 gsf of community facility uses in the ground floor and cellar occupied, primarily, by the Hanson Place Seventh-Day Adventist Church. No accessory parking is required nor would it be provided.

The Project Area, bound by Hanson Place to the north; South Portland Avenue to the east; Block 2003 Lots 8 and 43 to the south; and South Elliott Place to the west, is located in an R7A zoning district. R7A districts permit a maximum Floor to Area Ratio (FAR) of 4.0 for residential and community facility uses (Use Groups 1-4). Commercial uses are not permitted as of right in R7A districts.

Although the Project Area is located in an R7A residential district, the current uses are all non-residential. The Proposed Development Site (Lot 37) is currently occupied by a three-story, 9,400 gsf church (Community Facility, Use Group 4). Lots 30-33 are all currently vacant. Lots 19 and 29 are developed with a 12-story building occupied by the Salvation Army and an accessory surface parking lot. Lot 34 is improved with an eight-story commercial and office building, which contains the Museum of Contemporary African Diaspora Arts.

While there are no historic resources within the Project Area, it is located approximately within 100 feet from the Brooklyn Academy of Music (BAM) Historic District, which is a NYC designated historic district, and across the street from the Hanson Place Seventh Day Adventist Church, which is a NYC designated landmark and is listed on the State and National Register of Historic Places.

It is expected that the Proposed Actions would result in new

development on the Proposed Development Site (Lot 37) and on another parcel, Projected Development Site 2, comprised of Lots 30-33. Under the current R7A zoning, it is likely that the Proposed Development Site would be developed with an approximately 60,720 gsf residential building (4.6 FAR) with 71 DUs and Lots 30-33 would be developed as a single zoning lot with an approximately 38,962 gsf residential building with 27 DUs. Under the proposed R8A and R8A/C2-4, and as a result of the text amendments to the SDBD, the Proposed Development Site would be developed instead with the Applicant's Proposed Development, described above. While the applicant intends to construct this program, it is also possible that the site could be developed with more residential dwelling units and no community facility use, resulting in a program with a 145-foot, approximately 95,000 gsf residential building with an FAR of 7.2. Projected Development Site 2 would be developed with a 145-foot, approximately 61,000 gsf mixed use commercial and residential building with an FAR of 7.2, including local retail and 61 DUs (of which 18 would be affordable pursuant to MIH Option 2).

It is expected that development on the Proposed Development Site and Projected Development Site 2 would be completed by 2021.

CONSUMER AFFAIRS

■ NOTICE

REQUEST FOR INFORMATION FROM THE PUBLIC

CONTACT: Casey Adams, Deputy Director of City Legislative Affairs, (212) 436-0095, cadams@dca.nyc.gov.

SUMMARY: Income volatility refers to a month-to-month change in income of 25 percent or more. This change may stem from an income loss or an income gain. The New York City Department of Consumer Affairs (DCA) issues a request for information (RFI) from the public about the impacts that income volatility has on New York City workers, consumers, and businesses and how the regulatory framework, policy landscape, and financial services market might evolve to support the needs of New Yorkers experiencing income volatility.

Request for Information

DCA's mission is to protect and enhance the daily economic lives of New Yorkers to create thriving communities. In furtherance of that mission, DCA hereby requests information from the public about the impacts that income volatility has on New York City workers, consumers and businesses and how the regulatory framework, policy landscape, and financial services market might evolve to support the needs of New Yorkers experiencing income volatility, as set forth in greater detail in this document.

DCA is particularly interested in responses to the questions listed in Section V of this document. We also welcome additional comments, input, views, data, and other information beyond these questions that respondents believe would aid in our efforts to understand the impact of income volatility on workers, consumers, and the local economy.

Procedure

The Department welcomes the submission of all comments, input, views, data, and other information pertinent to this RFI by any interested party, organization, or person. The comment period will remain open for **60 days** from the date of publication of this notice and conclude at **5:00 P.M.** on March 11, 2018. Submissions can be made in any of the following ways:

- **Mail.** Addressed to the attention of Casey Adams, Deputy Director of City Legislative Affairs, New York City Department of Consumer Affairs, 42 Broadway, 8th Floor, New York, NY 10004
- **Fax.** (646) 500-7433
- **Email.** RFI@dca.nyc.gov
- **Online.** By visiting <http://www1.nyc.gov/site/dca/about/request-for-information.page>

Purpose

Since the 1970s, individual and household income has become much more variable. Research has shown that households experiencing income volatility face a host of challenges. They are more likely than households with stable income to experience food insecurity and to delay important spending such as making bill payments. Missing payments due to income volatility generates burdensome costs in the form of late fees and penalty interest rates. Volatile income makes paying down debt and saving for the future more difficult, and is correlated with the use of costly alternative financial services such as payday lenders. In extreme cases, income volatility - in particular misaligned income and expenses - can lead to utility disruptions, eviction or foreclosure.

While research into income volatility still lags behind research into poverty, income volatility is of growing interest to professionals in the financial health field, who seek to understand the impact of income volatility on the material and emotional wellbeing of American households. Through this RFI, DCA is seeking to learn more about the potential for regulators, policymakers, and financial services providers to evolve to support the needs of households with volatile incomes.

Background

Income volatility refers to an upward or downward swing of 25 percent or more in household income. Unlike other measures of household financial wellbeing, such as the poverty rate, income volatility focuses attention on the financial instability households may experience from month to month and week to week. As households struggle to match income and expenses they may cut back on spending in areas such as health care and food to compensate for a dip in income. Households with volatile incomes may experience episodic poverty and unreliable access to needed safety-net programs. The non-financial effects of income volatility are concerning as well. Income volatility undermines families' ability to feel secure and to plan for the future. Research suggests it may also lead to emotional distress and poor academic performance among children. To the extent that it contributes to financial stress, income volatility decreases worker productivity and increases absenteeism, undermining the health of New York City businesses and the city's economy.

Strategies to help households mitigate the effects of income volatility tend to fall into four general categories:

- Encouraging rainy day savings to aid in consumption smoothing
- Encouraging access to affordable credit to aid in consumption smoothing
- Expanding access to public benefits to aid in consumption smoothing
- Encouraging stop-gap income generation such as through gig economy work

Additionally, work has been done on the regulatory side to limit the extent to which employers contribute to income volatility through their scheduling and other employment practices, and in the private market to promote products that give workers early access to their earned wages.

Guiding Questions

Advocates, think tanks, benefits providers, businesses, and policymakers share an interest in helping households make the most of their financial resources. Dips in income and consumption associated with income volatility, and the attendant interference with a household's ability to budget and plan, have a negative impact on individual wellbeing and the local economy. With the aim of increasing our understanding of income volatility and the challenges it presents, DCA provides the below list of guiding questions for consideration. These questions are intended to guide members of the public in crafting their submissions to this RFI and need not be addressed for a submission to be accepted. Submissions may address as many, or as few, of the guiding questions as the submitter wishes.

1. What is the main source of income volatility for New York City households (e.g. within-job pay fluctuations, household composition changes, job changes or shifting benefits eligibility)?
2. How does the distribution of income volatility in New York City vary by household size, race, education level, and gender of the head of household?
3. How are income spikes (month-to-month income increases of 25 percent or more) experienced differently than income drops (month-to-month income decreases of 25 percent or more) by affected households?
4. Are there particular ways that policy and programs can be responsive to the differences, if any, identified in question 3?
5. What opportunities do income spikes present for adopting healthy financial behavior?
6. How can individuals be incentivized to take the opportunities discussed in question 5?
7. How is the experience of income volatility different for households with high levels of debt?
8. What is the impact of income volatility on worker productivity?
9. What is the impact of income volatility on household economics and budgets for low wage workers?
10. What fees that financial institutions impose may constitute a particular burden on households with volatile incomes?
11. What products and messages do predatory lenders and other predatory businesses offer households with volatile incomes?
12. By what mechanisms does a household transition from having volatile income to having stable income and how might the City help more households make this transition?

13. What strategies and resources are households with volatile incomes currently using to smooth consumption?
14. What potential benefits might reducing income volatility have for businesses and the local economy?
15. How promising are mobile applications or other new technologies as a strategy for helping individuals and households manage income volatility?
16. DCA's Office of Labor Policy & Standards (OLPS) currently enforces several laws designed to address root causes of income volatility. These laws include the Paid Sick Leave Law, the Grocery Workers Retention Act, living and prevailing wage laws, the Freelance Isn't Free Act, and the Fair Workweek Law. Do these policies aid workers in ways that address income volatility?
17. In what other ways might OLPS support efforts to reduce income volatility in New York City?
18. How might businesses and employers help to reduce income volatility?
19. What potential benefits and risks do early wage access products hold for workers with volatile incomes?
20. What kinds of financial counseling messages and strategies are most helpful to individuals with volatile incomes?
21. How effectively do currently available credit and/or savings products target the needs of households experiencing income volatility?
22. How might the products described in question 21 be improved to better target the needs of households experiencing income volatility?
23. What role, if any, might DCA or other government entities play in improving available savings and credit products, or developing new savings and credit products, to better target the needs of households experiencing income volatility?
24. What have been the effects of recent minimum wage increases on the wellbeing of New York City workers who experience income volatility?
25. Saving for retirement is an important part of building healthy finances, but may be particularly difficult for individuals with volatile incomes. What strategies, products, or policies can be used to make saving for retirement easier for individuals with volatile incomes?
26. The Obama administration proposed a system of "wage insurance" whereby displaced workers could temporarily replace a portion of their lost wages to assist them in transitioning to a new career. Would such a proposal be feasible as a City program?
27. Should DCA hold a public hearing at the conclusion of the comment period to receive further information from the public about income volatility?

Whereas, the New York City Department of Design and Construction ("DDC"), on behalf of the New York City Department of Environmental Protection ("DEP") and the City of New York ("City"), has proposed the acquisition of certain portions of the intersection of Sheldon Avenue and Belfield Avenue as shown on Damage and Acquisition Map No. 4241, (Capital Project: SER200196) in the Borough of Staten Island; and

Whereas, the New York State Eminent Domain Procedure Law ("EDPL") sets forth uniform procedures for condemnations by municipalities throughout the State of New York, which also governs over this acquisition; and

Whereas, pursuant to the EDPL, the City is required to hold a public hearing to determine whether the public would be better served by the proposed acquisition of the above-mentioned properties and the impact of such an acquisition on the neighborhood where the project is to be constructed; and

Whereas, the City held a public hearing pursuant to EDPL Section 204 in relation to this acquisition on November 21, 2017 in the Borough of Staten Island. Having given due consideration to the complete hearing record, which includes, among other things, all

documents submitted and all public comments, the City makes the following determination and findings concerning the above and below described acquisitions and project:

- 1. The public use and benefit of this project is for the construction of storm sewers and appurtenances, in the Borough of Staten Island (SER200196).
2. The properties to be acquired are shown on the City's Tax Map for the Borough of Staten Island and include the following properties:

- Block 6266, part of Lot 1
• Block 6267, part of Lot 75
• Bed of Belfield Avenue and Sheldon Avenue.

The proposed acquisition shall consist of the following locations in the Borough of Staten Island:

- Portions of the intersection of Belfield Avenue and Sheldon Avenue.

The City selected these locations based on a need for the reconstruction of storm sewers and appurtenances:

- (1) The general effect on the neighborhood will be to improve current living conditions. The proposed Project involves the reconstruction of storm sewers and appurtenances. This Project will have no significant adverse effect on the environment. The proposed property acquisition locations were included in a Final Environmental Impact Statement, also known as "FEIS," completed by the DEP, (CEQR No. 99DEP006). Based on the recommendations contained in the FEIS, necessary mitigation measures will be included in the design for this and other projects in the area covered by the aforementioned document.

Questions were raised regarding the specific impact on certain property involved, and as to the general construction schedule. Said concerns raised by the property owner at the public hearing have been reviewed by the City and thereafter resolved.

The City has also reviewed all potential alternate locations and has determined that no other sites are feasible for the Project.

DETERMINATION:

Based upon due consideration of the record and the foregoing findings, it is determined that the City of New York should exercise its power of eminent domain to acquire the above-described properties in order to promote and permit the purposes of the Project to be achieved.

NOTICE:

Pursuant to EDPL Section 207, property owners have thirty (30) days from completion of the publication of this "Determination and Findings" to seek judicial review of this determination. It was advertised on Staten Island Advance on December 27 through 29, 2017 and the expected dates of publication on City Record are January 10 through 12, 2018.

The exclusive venue for the judicial review of this determination pursuant to EDPL Sections 207 and 208 is the Appellate Division of the Supreme Court in the Judicial Department where any part of the property to be acquired is located.

A copy of this Determination and Findings by the City is available without cost upon written request to:
