PUBLIC NOTICE OF A SCOPING MEETING DRAFT ENVIRONMENTAL IMPACT STATEMENT (CEQR No. 20DCP009K)

NOTICE IS HEREBY GIVEN that, pursuant to Section 5-07 of the Rules of Procedure for Environmental Review (CEQR), and 6 NYCRR 617.8 (State Environmental Quality Review), that the New York City Department of City Planning (DCP), acting on behalf of the City Planning Commission (CPC), as CEQR lead agency, has determined, that a Draft Environmental Impact Statement (DEIS), is to be prepared, for the Acme Fish Expansion project (CEQR No. 20DCP009K).

The CEQR lead agency, hereby requests, that the applicant prepare or have prepared, at their option, a Draft Environmental Impact Statement (DEIS), in accordance with 6 NYCRR 617.9(b) and Sections

6-08 and 6-12 of Executive Order No. 91 of 1977 as amended (City Environmental Quality Review).

A public scoping meeting has been scheduled for Tuesday, August 27, 2019, at 4:00 P.M., at the Senior Center Meeting Room of the Polish and Slavic Center, located at 176 Java Street, Brooklyn, NY 11222. Written comments will be accepted by the lead agency until the close of business on Friday, September 6, 2019.

The Applicant, RP Inlet, LLC, is requesting several discretionary actions, from the City Planning Commission (CPC), to facilitate the development of an entire block, bounded by Banker Street to the east, Wythe Avenue to the south, Gem and North 15th Streets to the west, and Meserole Avenue to the north (the "Development Site" or "Project Area"), in the Greenpoint neighborhood of Brooklyn, Community District 1. The Development Site is the entirety of the proposed rezoning area and is comprised of Block 2615, Lots 1, 6, 19, 21, 25, 50, and 125.

The actions being sought from the CPC, as described below, include zoning map and text amendments, plus a large-scale general development (LSGD) special permit. The proposed actions would facilitate the construction of a new development, with approximately 637,250 gsf (the "Proposed Project"), on the Development Site, comprised of a new and improved 105,600 gsf Acme Smoked Fish processing facility, and 531,650 gsf of commercial office and retail space (including parking/loading/bike storage spaces). The Acme Smoked Fish facility, would be located, on the northeastern portion of the block, fronting on Meserole Avenue and Banker Street. The commercial office/retail component of the Proposed Project, would occupy the remainder of the block. The Proposed Project is expected to be completed by 2024.

The actions being sought by the Applicant from the CPC include:

- **Zoning Map Amendment:**
The proposed zoning map amendment, which would rezone the Project Area from M3-1 to M1-5, would increase the permitted FAR from 2.0 to 5.0 for commercial and industrial uses (and up to 6.5 FAR for community facility uses), allowing for additional development of these uses than could be provided under existing conditions.
- **Zoning Text Amendment:**
The proposed zoning text amendment would allow, by special permit, modification of regulations applicable to the site in Section 44-54 of the zoning resolution that require additional loading berths for buildings which contain wholesale, manufacturing or storage space as well as other permitted uses, than otherwise would be required if the uses were located in separate buildings.
- **Large-Scale General Development (LSGD) Special Permits:**
Two LSGD special permits are being sought. The first LSGD special permit, pursuant to Section 74-743(a)(2) of the Zoning Resolution of the City of New York ("ZR"), is to allow the Proposed Development to penetrate the required sky exposure plane and the required initial setback distance allowing a building height in excess of the maximum allowable height under ZR 43-43. Upon approval, the Applicant would enter into a Restrictive Declaration (RD), a legally binding mechanism tied to the Development Site that governs the provisions of the LSGD.

The second LSGD special permit, pursuant to the new Section 74-745(d), is to waive Section 44-54 of the Zoning Resolution for the Proposed Development, thereby reducing the required number of loading berths for the Proposed Development from seven to five.

The Applicant, may also seek discretionary tax incentives from the NYCIDA for the commercial office component of the Proposed Development.

Copies of the Draft Scope of Work and the Environmental Assessment Statement, may be obtained from the Environmental Assessment and Review Division, New York City Department of City Planning, 120 Broadway, 31st Floor, New York, NY 10271, Olga Abinader, Director (212) 720-3493. The Draft Scope of Work and scoping protocol will also be made available for download, at <https://www1.nyc.gov/site/planning/applicants/scoping-documents.page>. Public comments are requested, with respect to issues to be addressed in the draft environmental impact statement.

NOTICE

On Wednesday, July 31, 2019, at 10:00 A.M., in the Concourse Level, at 120 Broadway, a public hearing is being held by the City Planning Commission, to receive comments related to a Draft Environmental Impact Statement (DEIS), concerning an application by New York City Department of Parks and Recreation (NYC Parks), as Lead Agency under SEQRA/CEQR, together with New York City Office of Management and Budget (OMB), as Lead Agency under the National Environmental Policy Act (NEPA), for approval of discretionary actions including a zoning text amendment and acquisition of property, to implement a reliable coastal flood protection system and to improve open spaces and enhance access to the waterfront in Manhattan Community Districts 3 and 6.

The proposed project area begins at Montgomery Street to the south and extends north to East 25th Street and is composed of two sub-areas: Project Area One and Project Area Two. Project Area One extends from Montgomery Street to the north end of John V. Lindsay East River Park (East River Park) at about East 13th Street. Project Area One is approximately 61 acres and consists primarily of East River Park, the Franklin Delano Roosevelt East River Drive (the FDR Drive) right-of-way, a portion of Pier 42, Corlears Hook Park. Project Area Two is approximately 21 acres and extends north and east from Project Area One, from East 13th Street to East 25th Street. In addition to the FDR Drive right-of-way, Project Area Two includes the Consolidated Edison Company of New York (Con Edison) East 13th Street Substation and the East River Generating Station, Murphy Brothers Playground, Stuyvesant Cove Park, Asser Levy Recreational Center and Playground, and several in-street segments. The DEIS analyzes several project alternatives. Alternative 4, the Flood Protection System with a Raised East River Park Alternative (Preferred Alternative) best meets the principal objectives for the project and therefore was selected as the Preferred Alternative. The Preferred Alternative would raise the majority of East River Park and would limit the length of exposed wall between the community and the waterfront in Project Area One to provide for enhanced neighborhood connectivity. In addition, three

pedestrian bridges would be reconstructed and two embayments would be relocated to improve access and enhance the park user experience. Furthermore, Stuyvesant Cove Park, Murphy Brothers Playground, and Asser Levy Playground would be reconstructed and improved. The Preferred Alternative includes the construction of a shared-use flyover bridge linking East River Park and Captain Patrick J. Brown Walk. This bridge will address a long-standing circulation deficiency along the East River Greenway and would substantially improve the City's greenway network. The selection of this alternative allows for the shortest construction duration and park closure, earlier deployment of the flood protection system (expected to be completed mid-2023), and reduced construction disruption along the FDR Drive. The proposed project triggers three land use actions, subject to the City's Uniform Land Use Review Procedure (ULURP), for the acquisition of real property by the City in the form of easements, a zoning text amendment to exempt a segment of the proposed project from the requirements of the City's waterfront zoning regulations, and a future City Map change. The City Map change action would be needed for the reconstruction of the pedestrian bridges and would be carried through at a later date once final design and implementation are completed to record grade and treatment line adjustments, if needed.

Written comments on the DEIS are requested and will be received and considered by NYC Parks and OMB, the Lead Agencies, until Thursday, August 15, 2019, at 5:00 P.M.

This hearing is being held, pursuant to the National Environmental Policy Act (NEPA), State Environmental Quality Review Act (SEQRA), and City Environmental Quality Review (CEQR), CEQR No. 15DPR013M.

"The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence."

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York ("PPB Rules"), vendors must first complete and submit an electronic prequalification application using the City's Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed at <http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml>. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

Administration for Children's Services (ACS)
 Department for the Aging (DFTA)
 Department of Consumer Affairs (DCA)
 Department of Corrections (DOC)
 Department of Health and Mental Hygiene (DOHMH)
 Department of Homeless Services (DHS)
 Department of Probation (DOP)
 Department of Small Business Services (SBS)
 Department of Youth and Community Development (DYCD)
 Housing and Preservation Department (HPD)
 Human Resources Administration (HRA)
 Office of the Criminal Justice Coordinator (CJC)

To sign up for training on the new system, and for additional information about HHS Accelerator, including background materials, user guides and video tutorials, please visit www.nyc.gov/hhsaccelerator.

What laws govern the rulemaking process? The Department of Finance must meet the requirements of § 1043 of the Charter when creating or amending rules. This notice is made according to the requirements of § 1043 of the Charter.

STATEMENT OF BASIS AND PURPOSE

In 2013, the Department of Finance (DOF) adopted rules establishing a consistent policy for accepting credit card payments and a uniform administrative fee of 2.49% to defray the cost incurred by the City from credit card transactions. In 2018, DOF reduced the uniform administrative fee to 2%, which will continue to cover the cost incurred by the City in connection with such credit card transactions.

On May 10, 2019, Local Law 89 of 2019 amended Section 9-148 of the Administrative Code of the City of New York to eliminate the uniform administrative fee for payments of bail unless the chief administrator of the courts requires a party making a payment of bail to pay a reasonable administrative fee. The effective date for the elimination of this administrative fee is November 10, 2019.

The proposed rule adds bail payments to the list of payments for which an administrative fee cannot be charged.

Matter underlined is new. Matter in brackets [] is to be deleted.

"Shall" and "must" denote mandatory requirements and may be used interchangeably in the rules of this department unless otherwise specified or unless the context clearly indicates otherwise.

AMENDMENT TO RULES RELATING TO THE FEE FOR CREDIT CARD TRANSACTIONS

Section 1. Subdivision (d) of Section 9-02 of Chapter 9 of Title 19 of the Rules of the City of New York is amended by adding a new paragraph (9) to read as follows:

(9) for payment of bail, unless the chief administrator of the courts requires a party making a payment of bail to pay a reasonable administrative fee.

§ 2. This rule shall take effect on November 10, 2019.

Name, Description and Location of Proposal:

Acme Fish Expansion

The Applicant, RP Inlet, LLC, seeks City Planning Commission approval of a zoning map amendment, zoning text amendment, large-scale general development (LSGD) special permit, and other land use actions (the "Proposed Actions"), to facilitate the development of an entire block, bounded by Banker Street to the east, Wythe Avenue to the south, Gem and North 15th streets to the west, and Meserole Avenue to the north (the "Development Site" or "Project Area"), in the Greenpoint neighborhood of Brooklyn, Community District 1. The Development Site is the entirety of the proposed rezoning area and is comprised of Block 2615, Lots 1, 6, 19, 21, 25, 50, and 125.

The Proposed Actions would facilitate the construction of a new development, with approximately 637,250 gsf (the "Proposed Project"), on the Development Site, comprised of a new and improved 105,600 gsf Acme Smoked Fish processing facility, and 531,650 gsf of commercial office and retail space (including parking/loading/bike storage spaces). The Acme Smoked Fish facility would be located, on the northeastern portion of the block, fronting on Meserole Avenue and Banker Street. The commercial office/retail component of the Proposed Project would occupy the remainder of the block.

The Applicant seeks the following discretionary actions, to facilitate the Proposed Project:

- **Zoning Map Amendment**
The proposed zoning map amendment, which would rezone the Project Area from M3-1 to M1-5, would increase the permitted FAR from 2.0 to 5.0, for commercial and industrial uses (and up to 6.5 FAR for community facility uses), allowing for additional development of these uses than could be provided under existing conditions.
- **Zoning Text Amendment**
The proposed zoning text amendment would allow, by special permit, modification of regulations applicable to the site in Section 44-54 of the zoning resolution that require additional loading berths for buildings which contain wholesale, manufacturing or storage space as well as other permitted uses, than otherwise would be required if the uses were located in separate buildings.
- **Large-Scale General Development (LSGD) Special Permits**
Two LSGD special permits are being sought. The first LSGD special permit, pursuant to Section 74-743(a)(2) of the Zoning Resolution of the City of New York ("ZR"), is to allow the Proposed Development to penetrate the required sky exposure plane and the required initial setback distance allowing a building height in excess of the maximum allowable height under ZR 43-43. Upon approval, the Applicant would enter into a Restrictive Declaration (RD), a

legally binding mechanism tied to the Development Site that governs the provisions of the LSGD.

The second LSGD special permit, pursuant to the new Section 74-745(d), is to waive Section 44-54 of the Zoning Resolution for the Proposed Development, thereby reducing the required number of loading berths for the Proposed Development from seven to five.

The Applicant may also seek discretionary tax incentives from the NYCIDA for the commercial office component of the Proposed Development.

Absent the Proposed Actions, the existing M3-1 zoning would remain and the Proposed Project would not be constructed. It is anticipated that Acme Smoked Fish would relocate outside of New York State and vacate its buildings on the site (Lots 1, 21, 25, and 50). Lot 6, which is currently occupied by ABC Stone, is also expected to be vacated in the No-Action, as the business is currently in the process of moving out. Based on existing and anticipated real estate market trends, existing structures and site conditions, and uses allowed by existing zoning, it is expected that those vacated buildings would be re-occupied. As such, the No-Action scenario assumes that Acme Smoked Fish's and ABC Stone's vacated buildings would be reoccupied by a mix of eating/drinking/entertainment establishments, creative office and warehouse uses. The vacant building on Lot 19 is assumed to be re-occupied by restaurant use in the No-Action. Finally, the No-Action scenario assumes that Lot 125, which currently accommodates parking and open storage, would be redeveloped with a new 3-story commercial building. Overall, the No-Action condition for the Development Site is assumed to consist of a total of 169,485 gsf, comprised of approximately 35,225 gsf of restaurant/entertainment uses, 66,750 gsf of creative office space, 28,610 gsf of warehousing spaces, and 17,500 gsf of industrial space, as well as an estimated 21,400 gsf of accessory parking (107 spaces).

The analysis year for the Proposed Actions is 2024.

Statement of Significant Effect:

On behalf of the CPC, the Department of City Planning has determined, pursuant to 6 NYCRR Part 617.7, that the Proposed Actions may have a significant adverse effect on the environment as detailed in the following areas, and that an environmental impact statement will be required:

The Proposed Actions may result in significant adverse impacts related to: land use, zoning, and public policy; socioeconomic conditions; open space; shadows; historic and cultural resources; urban design and visual resources; hazardous materials; water and sewer infrastructure; transportation; air quality; greenhouse gas emissions and climate change; noise; public health; neighborhood character; and construction.

The Proposed Actions would not result in significant adverse impacts related to community facilities; natural resources; solid waste and sanitation services; and energy.

Supporting Statement:

The above determination is based on an Environmental Assessment Statement prepared for the Proposed Actions which finds that:

1. The Proposed Actions would affect the land use and change the zoning within the project area and would have the potential to substantially affect land use regulations or policy controlling land use. Therefore, the Proposed Actions have the potential to result in significant adverse impacts related to land use, zoning, and public policy. Additionally, the Project Area is within the Coastal Zone and review of consistency with the City's Waterfront Revitalization Program policies is required. Therefore, the Proposed Actions have the potential to result in significant adverse impacts related to land use, zoning, and public policy.
2. The Proposed Actions would result in substantial new commercial development which has the potential to result in indirect business displacement. Therefore, the Proposed Actions have the potential to result in significant adverse impacts related to socioeconomic conditions.
3. The Proposed Actions would not directly affect any community facility. Additionally, the Proposed Actions would not exceed any threshold warranting additional analysis for indirect effects to community facilities and services. Therefore, the Proposed Actions would not result in significant adverse impacts to community facilities and services.
4. The Proposed Actions would create a demand for existing open space facilities that has the potential to result in indirect effects on the ability of the area's open space to serve future population. Therefore, the Proposed Actions have the potential to result in significant adverse impacts related to open space.
5. The Proposed Actions could result in new shadows long enough to reach a sunlight-sensitive resource. Therefore, the

Proposed Actions have the potential to result in significant adverse impacts related to shadows.

6. The Proposed Actions would result in a new building that has the potential to affect the visual context of and/or introduce new shadows on sunlight-sensitive historic and cultural resources. Therefore, the Proposed Actions have the potential to result in significant adverse impacts related to historic and cultural resources.
7. The Proposed Actions would result in a new building that would be beyond the bulk and form currently permitted as-of-right which may affect a pedestrian's experience of public space. Therefore, the Proposed Actions have the potential to result in significant adverse impacts related to urban design and visual resources.
8. The Proposed Actions would result in development in an area devoid of natural resources. Therefore, the Proposed Actions would not result in significant adverse impacts related to natural resources.
9. The Proposed Actions have the potential to result in an increase in pathways to human or environmental exposure to hazardous materials. Therefore, the Proposed Actions have the potential to result in significant adverse impacts related to hazardous materials.
10. The Proposed Actions would not result in a substantial increase in solid waste production that would overburden available waste management capacity or otherwise be inconsistent with the City's Solid Waste Management Plan (SWMP) or with state policy related to the City's integrated solid waste management system. Therefore, the Proposed Actions would not result in significant adverse impacts related to solid waste and sanitation services.
11. The Proposed Actions would not significantly affect the transmission or generation of energy or generate substantial indirect consumption of energy (such as a new roadway). Therefore, the Proposed Actions would not result in significant adverse impacts related energy.
12. The Proposed Actions would introduce a substantial amount of new commercial and industrial density in a combined sewer area. Therefore, the Proposed Actions have the potential to result in significant adverse impacts related to water and sewer infrastructure.
13. The Proposed Actions would generate additional vehicular, pedestrian, and transit volumes and an increase demand for parking. These new trips have the potential to affect the area's transportation systems. Therefore, the Proposed Actions have the potential to result in significant adverse impacts related to transportation.
14. The Proposed Actions would have the potential to increase or cause a redistribution of traffic, add new uses near mobile sources of pollutants, create new stationary sources of

pollutants, introduce new emissions stacks so that changes in the dispersion of emissions from the stacks may affect surrounding uses. Therefore, the Proposed Actions have the potential to result in significant adverse impacts related to air quality.

15. The Proposed Actions would facilitate development at a density at which inconsistencies with the City's greenhouse gases reduction goal would have the potential to be considered significant. Therefore, the Proposed Actions have the potential to result in significant adverse impacts related to greenhouse gas emissions and climate change.
16. The Proposed Actions would generate mobile sources of noise and be in an area with existing high ambient noise levels. Therefore, the Proposed Actions have the potential to result in significant adverse impacts related to noise.
17. The Proposed Actions have the potential to result in unmitigated significant adverse impacts related to air quality, water quality, hazardous materials, or noise. Therefore, the Proposed Actions could have the potential to result in significant adverse impacts related to public health.
18. The Proposed Actions have the potential to result in significant adverse impacts in the constituent technical areas related to neighborhood character or in moderate effects to several elements that define neighborhood character. Therefore, the Proposed Actions have the potential to result in significant adverse impacts related to neighborhood character.
19. The Proposed Actions have the potential to result in long-term construction that could have a disruptive and noticeable effect on adjacent communities and people passing through the area. Therefore, the Proposed Actions have the potential to result in significant adverse impacts related to construction.

Public Scoping:

The CEQR lead agency hereby requests that the applicant prepare or have prepared, at their option, a Draft Environmental Impact Statement (DEIS) in accordance with 6 NYCRR 617.9(b) and Sections 6-08 and 6-12 of Executive Order No. 91 of 1977 as amended (City Environmental Quality Review).

A public scoping meeting will be held on Tuesday, August 27, 2019, at 4:00 P.M., at the senior center meeting room of the Polish and Slavic Center, located at 176 Java Street, Brooklyn, NY 11222. Written comments will be accepted by the lead agency through Friday, September 6, 2019.

This determination has been prepared in accordance with Article 8 of the Environmental Conservation Law.
