HOUSING PRESERVATION AND DEVELOPMENT

PUBLIC HEARINGS

CANCELLATION OF PUBLIC HEARING

PLEASE TAKE NOTICE that a Real Property Hearing, will be held, on Wednesday, July 15, 2020, at 10:00 AM. The Public Hearing, will be held, via Conference Call. Call-in #: 1-646-992-2010, Access Code 717-876-299.

Pursuant to Section 695(2)(b) of the General Municipal Law and Section 1802(6)(j) of the Charter, the Department of Housing Preservation and Development ("HPD"), of the City of New York ("City"), has proposed the sale of the following City-Owned property, (collectively, "Disposition Area"), in the Borough of Brooklyn:

Table with 2 columns: Address, Block/Lot. Row 1: 515 Blake Avenue, 3766/1

Under HPD's Extremely Low and Low Income Affordability Program, sponsors purchase City-Owned or privately-owned land or vacant buildings, and construct multifamily buildings, in order to create affordable rental housing. Construction and permanent financing is provided through loans from private institutional lenders and from public sources including HPD, the New York City Housing Development Corporation, the State of New York, and the Federal government. Additional funding may also be provided from the syndication of low-income housing tax credits. The newly constructed buildings, provide rental housing to low-income families, with a range of incomes from 30% to 80% of the Area Median Income ("AMI"). Projects, may include tiers of units with rents affordable to households earning up to 100% of AMI. Subject to project underwriting, up to 30% of the units, may be rented to formerly homeless families and individuals.

Under the Supportive Housing Loan Program, HPD funds the rehabilitation or new construction of buildings, which provide supportive housing for the homeless, people with special needs, and other persons of low income. HPD works with the Department of Homeless Services, the Department of Health and Mental Hygiene, the Human Resources Administration's HIV/AIDS Services Administration, and other public agencies, to ensure that the completed projects receive appropriate building security and social services.

Under the proposed project, the City will sell the Disposition Area, to Neighborhood Restore Housing Development Fund Corporation ("Sponsor"), for the nominal price of one dollar per tax lot. The Sponsor, will subsequently convey the Disposition Area, to HELP 515 Blake Avenue Housing Development Fund Corporation ("Owner"). The Owner, will also deliver an enforcement note and mortgage for the remainder of the appraised value ("Land Debt"). The Owner, or its affiliates, will demolish an existing 192-unit transitional housing facility and then construct approximately four buildings containing a total of approximately 507 rental dwelling units, plus three units, for superintendents, and approximately 3,945 square feet of commercial space on the Disposition Area.

The proposed project, will be developed in three phases. Phase 1 will be the construction of one approximately 183-unit building, for occupancy by homeless and low income persons, plus one unit, for a superintendent, and approximately 1,745 square feet of commercial space, to be conveyed under HPD's Supportive Housing Loan Program. Phase 2 will be the construction of one approximately 70-unit building, for occupancy by homeless and low income persons, plus one unit for a superintendent, to be conveyed, under HPD's Supportive Housing Loan Program. Phase 3 will be the construction of two buildings, with a total of approximately 254 units plus one superintendent unit, with approximately 2,200 square feet of commercial space, to be conveyed under HPD's Extremely Low and Low Income Affordability Program.

The Land Debt will be repayable out of resale or refinancing profits, for a period of at least thirty (30) years following completion of construction. The remaining balance, if any, may be forgiven at the end of the term.

The appraisal and the proposed Land Disposition Agreement and Project Summary, are available, for public examination, by contacting HPD, at pearsona@hpd.nyc.gov, on business days during business hours.

In order to access the Public Hearing and testify, please call 1-646-992-2010, Access Code: 715 951 139, no later than 9:55 A.M. If you need further accommodations, please let us know, at least five business days, in advance of the Public Hearing, via email, at DisabilityAffairs@mocs.nyc.gov.

PROCUREMENT

“Compete To Win” More Contracts!

Thanks to a new City initiative - “Compete To Win” - the NYC Department of Small Business Services offers a new set of FREE services to help create more opportunities for minority and Women-Owned Businesses to compete, connect and grow their business with the City. With NYC Construction Loan, Technical Assistance, NYC Construction Mentorship, Bond Readiness, and NYC Teaming services, the City will be able to help even more small businesses than before.

- *Win More Contracts, at nyc.gov/competetowin*

“The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City’s prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence.”

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York (“PPB Rules”), vendors must first complete and submit an electronic prequalification application using the City’s Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed, at <http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml>. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

- Administration for Children’s Services (ACS)
- Department for the Aging (DFTA)
- Department of Consumer Affairs (DCA)
- Department of Corrections (DOC)
- Department of Health and Mental Hygiene (DOHMH)
- Department of Homeless Services (DHS)
- Department of Probation (DOP)
- Department of Small Business Services (SBS)
- Department of Youth and Community Development (DYCD)
- Housing and Preservation Department (HPD)
- Human Resources Administration (HRA)
- Office of the Criminal Justice Coordinator (CJC)

To sign up for training on the new system, and for additional information about HHS Accelerator, including background materials, user guides and video tutorials, please visit www.nyc.gov/hhsaccelerator

NYC CARE OUTREACH GRANTS MANHATTAN AND QUEENS - Request for Proposals - PIN# MF202013 - Due 8-10-20 at 5:00 P.M.

NYC Care, announced in January 2019, by Mayor Bill de Blasio, is a health care access program, that provides primary and specialty care to hundreds of thousands of New Yorkers who are ineligible for health insurance, or those who cannot afford insurance. Enrollees in NYC Care (the "Program"), will be able to access comprehensive healthcare across NYC Health + Hospitals' more than 70 hospitals and clinics. The healthcare available through NYC Care, will be priced on a sliding scale, to ensure affordability. NYC Care, through NYC Health + Hospitals, will provide a primary care doctor and will provide access to specialty care, prescription drugs, mental health services, and more. As part of this initiative, NYC Health + Hospitals is enhancing 24/7 customer service, to seamlessly connect patients to healthcare. NYC Care rolled out geographically, starting in the Bronx in August 2019, followed by Staten Island and Brooklyn, in January 2020. The remaining two boroughs (Queens and Manhattan), will launch in September 2020. The Program reflects an investment by the City of at least \$100 million annually, at full scale.

PARKS AND RECREATION

VENDOR LIST

Construction Related Services

PREQUALIFIED VENDOR LIST: GENERAL CONSTRUCTION, NON-COMPLEX GENERAL CONSTRUCTION SITE WORK ASSOCIATED WITH NEW YORK CITY DEPARTMENT OF PARKS AND RECREATION ("DPR") AND/OR "PARKS") PARKS AND PLAYGROUNDS CONSTRUCTION AND RECONSTRUCTION PROJECTS.

NYC DPR is seeking to evaluate and pre-qualify a list of general contractors (a "PQL") exclusively to conduct non-complex general construction site work involving the construction and reconstruction of NYC DPR parks and playgrounds projects not exceeding \$3 million per contract ("General Construction").

By establishing contractor's qualification and experience in advance, NYC DPR will have a pool of competent contractors from which it can draw to promptly and effectively reconstruct and construct its parks, playgrounds, beaches, gardens and green-streets. NYC DPR will select contractors from the General Construction PQL for non-complex general construction site work of up to \$3,000,000.00 per contract, through the use of a Competitive Sealed Bid solicited from the PQL generated from this RFQ.

The vendors selected for inclusion in the General Construction PQL, will be invited to participate in the NYC Construction Mentorship. NYC Construction Mentorship focuses on increasing the use of small NYC contracts, and winning larger contracts with larger values. Firms participating in NYC Construction Mentorship will have the

opportunity to take management classes and receive on-the-job training provided by a construction management firm.

NYC DPR will only consider applications for this General Construction PQL from contractors who meet any one of the following criteria:

- 1) The submitting entity must be a Certified Minority/Woman Business enterprise (M/WBE)*;
2) The submitting entity must be a registered joint venture or have a valid legal agreement as a joint venture, with at least one of the entities in the joint venture being a certified M/WBE*;
3) The submitting entity must indicate a commitment to sub-contract no less than 50 percent of any awarded job to a certified M/WBE for every work order awarded.

* Firms that are in the process of becoming a New York City-Certified M/WBE, may submit a PQL application and submit a M/WBE Acknowledgement Letter, which states the Department of Small Business Services has begun the Certification process.

AGENCY RULES

HEALTH AND MENTAL HYGIENE

■ NOTICE

**NOTICE OF ADOPTION
OF AMENDMENTS TO CHAPTER 8
OF TITLE 24 OF THE RULES OF THE CITY NEW YORK**

In compliance with §1043(b) of the New York City Charter (Charter), the New York City Department of Health and Mental Hygiene (Department) submitted a notice of public hearing and opportunity comment to amend Chapter 8 of Title 24 of the Rules of the City of New York (RCNY), which was published in the City Record on May 29, 2020 and a public hearing was held on June 29, 2020. At the public hearing, two individuals testified and 17 written comments were received. Most of the comments requested clarification as to implementation of the rule change and will be addressed in a separate Frequently Asked Questions document that will be posted on the Department’s website. Several comments addressed concerns with the two-day reporting window for the declaration and the timeframe for collecting the post-hyperhalogenation Legionella culture sample. In response to the public comments and on its own initiative, the Department has made the following amendments to the rule:

- Revised the time period to collect *Legionella* culture sample in §8-04(f)(4) to be between 3 and 45 days after summertime hyperhalogenation, to be consistent with the existing 3 to 7 day post- corrective action sampling requirements in Table 8-1.
- Revised §8-04(f)(5) to require a declaration of summertime hyperhalogenation instead of an affidavit; the declaration will not require a notary public for submission.
- Extended the submission period in §8-04(f)(5) from 2 days to 30 days to provide additional time for compliance.

- Added clarification to §8-04(f)(5) that “The declaration must be kept with required building records in accordance with §8-07(a).”

Statement of Basis and Purpose

Statutory Authority

This amendment is made pursuant to sections 556 and 1043 of the Charter and section 17-194.1 of the New York City Administrative Code (Administrative Code). Section 556 of the Charter authorizes the Department to regulate all matters pertaining to the health of the City. Charter section 1043 grants the Department rulemaking authority. Section 17-194.1 of the Administrative Code requires owners of buildings with cooling towers to maintain, clean and disinfect such cooling towers and authorizes the Department to adopt rules to implement these requirements.

Chapter 8 of Title 24 of the RCNY (Chapter 8) contains the Department’s rules for the operation and maintenance of cooling towers in the City. A cooling tower is a device that extracts heat to the atmosphere through the cooling of a water stream to a lower temperature. The term “cooling tower” includes any evaporative cooling equipment with recirculating water, including direct (open circuit) and indirect (closed circuit) cooling towers, evaporative condensers, or evaporative spray fluid coolers capable of aerosolizing water. Common applications of cooling towers are for air conditioning, refrigeration, industrial/manufacturing processing or electric power generation. This includes mobile or portable cooling towers. A cooling tower may comprise one or more cooling tower cells.

Because water within a cooling tower uses heat exchange, it can provide an ideal environment for *Legionella* bacteria to grow, particularly if the cooling tower is not properly disinfected and maintained. Exposure to the *Legionella* bacteria (*Legionella pneumophila*) can cause Legionellosis disease. Cases of Legionellosis must be reported to the Department in accordance with section 11.03 of the Health Code and section 2.1 of the New York State Sanitary Code (found in title 10 of the New York Codes, Rules and Regulations). The more serious form of Legionellosis is a pneumonia known as Legionnaires’ disease; a less serious form of Legionellosis is known as Pontiac fever, which is a flu-like illness. Legionnaires’ disease is known to have a case fatality rate of 5-30%. The US Centers for Disease Control and Prevention estimates that there are between 8,000 and 18,000 cases of Legionnaires’ disease in the United States annually and that more than 10% of cases are fatal.¹

Section 8-04 of Chapter 8 provides requirements for cooling tower process control measures. The Department is requiring a summertime hyperhalogenation, a one-time per year dosing of higher-than- normal levels of chlorine or bromine based biocide, to each cooling tower system between July and August 31. Periodic hyperhalogenation is an effective method of limiting *Legionella* in recirculating water by preventing the risk of biofilm growth, which can be a host for *Legionella* survival and replication. Periodic hyperhalogenation performed routinely, while ensuring water flow throughout the cooling tower system and all its components, may reduce the need for more intensive cleaning and disinfection procedures in the future. The Department’s *Legionella* sampling results indicate that concentrations of the bacteria are highest during the summertime months. Surveillance data also indicates more cases of Legionnaires’ disease during the summertime.

Accordingly, Section 8-04 is amended by establishing a new subdivision (f) requiring a summertime hyperhalogenation to be conducted for each cooling tower system at least once each year between July 1 and August 31. Summertime hyperhalogenation is expected to occur this summer, 2020, but an owner is not required to update their cooling tower maintenance plans until the 2021 cooling season. Finally, the penalty schedule in §8-09 of Chapter 8 is amended to include monetary penalties associated with the violation of this requirement.

The amendments are as follows:

Underlined text is new. Deleted text is in [brackets].

“Shall” and “must” denote mandatory requirements and may be used interchangeably in the rules of this Department, unless otherwise specified or unless the context clearly indicates otherwise.

Section 1. Section 8-02 of Chapter 8 of Title 24 of the Rules of the City of New York is amended by adding a new definition of “summertime hyperhalogenation” in alphabetical order to read as follows:

“Summertime hyperhalogenation” means a one-time per year dosing of higher than normal levels of chlorine or bromine based biocide conducted between July 1 and August 31 to ensure the maintenance of a minimum of 5 parts per million (ppm) free halogen residual in the cooling tower system for at least 6 hours.

¹ <http://www.cdc.gov/legionella/fastfacts.html>
<http://www.cdc.gov/legionella/index.html>
<http://www.cdc.gov/legionella/about/treatment-complications.html>

Section 2. Section 8-04 of Chapter 8 of Title 24 of the Rules of the City of New York is amended by adding a new subdivision (f) to read as follows:

(f) Summertime hyperhalogenation. (1) A cooling tower system must undergo a summertime hyperhalogenation at least once each year between July 1 and August 31 in accordance with this subdivision. The hyperhalogenation must be performed by a person qualified to apply biocide pursuant to §8-05(c)(1). The hyperhalogenation must be performed with a registered chlorine or bromine based biocide that is effective at Legionella control in accordance with §8-05(c). A cooling tower system is exempt from this subdivision if it is in full system shutdown and completely drained of water, in accordance with §8-06(a), for the entire period between July 1 and August 31.

(2) Prior to the hyperhalogenation, the cooling tower system must be prepared to ensure that water flow reaches the entire cooling tower system. Biocide applied during the hyperhalogenation must reach all parts of the cooling tower system, including offline or standby equipment that may be out of service, or only used on-demand or during peak demand periods.

(3) During the hyperhalogenation, a minimum of 5 ppm free halogen residual must be continuously maintained in the cooling tower system for at least six hours. Additionally, the pH and halogen residuals must be measured at two independent sampling locations within the cooling tower system during the hyperhalogenation to verify the minimum biocide residual was achieved and maintained. The water treatment program shall be reviewed by the management and maintenance team to determine if additional chemical inhibitors are desirable to prevent corrosion and scaling.

(4) A Legionella culture sample must be collected in accordance with §8-05(f)(3) within 3 to 45 days after the hyperhalogenation required by paragraph (1) of this subdivision. Sample results must be interpreted, and corrective actions implemented, in accordance with the result levels indicated in Table 8- 1 of this Chapter.

(5) An owner must submit a declaration of summertime hyperhalogenation within 30 days of completion of the hyperhalogenation required by paragraph (1) of this subdivision through the NYC Cooling Tower Registration Portal. The declaration must include the cooling tower system ID; the hyperhalogenation protocol performed, including the name and quantity of biocides and chemicals applied; dose and contact time; effective pH range of biocides; pH and halogen residual monitoring results during hyperhalogenation; service date and name and qualifications of the person who applied the biocide. The declaration must be kept with required cooling tower records in accordance with §8-07(a).

Section 3. Section 8-09 of Chapter 8 of Title 24 of the Rules of the City of New York is amended by adding a new penalty for section of law 24 RCNY §8-04(f) in numerical order to read as follows:

24 RCNY §8-04(f)	Failure to submit declaration of a hyperhalogenation performed at least once each year between July 1 and August 31	\$500	\$1000
------------------	---	-------	--------

FINDING OF SUBSTANTIAL NEED FOR EARLIER IMPLEMENTATION

I hereby find and represent to the Mayor that there is a substantial need for the implementation, immediately upon its final publication in the City Record, of these amended New York City Department of Health and Mental Hygiene (Department) rules concerning cooling tower operations. Under these amended rules, the Department is requiring owners of cooling towers to perform a summertime hyperhalogenation, a one-time per year dosing of higher-than-normal levels of chlorine or bromine based biocide, to each cooling tower system between July 1 and August 31 in order to mitigate bacteria growth that could be aerosolized by improperly maintained cooling towers and thereby threaten public health.

The Department's sampling results indicate that concentrations of Legionella bacteria are highest during the summertime months. Surveillance data also indicates more cases of Legionnaires' disease during the summertime. Periodic hyperhalogenation is an effective method of limiting Legionella in recirculating water by preventing the risk of biofilm growth, which can be a host for Legionella survival and replication. Summertime hyperhalogenation is expected to occur this summer 2020.

In order to afford owners of building with cooling towers as much time as possible and as early in the summer season as possible in order to comply with these new requirements, I find that there is a substantial need for the protection of public health for bringing these rules into effect immediately upon publication in the City Record.

This declaration is made pursuant to Section 1043(f)(1)(c) of the New York City Charter.

OFFICE OF THE MAYOR

NOTICE

EMERGENCY EXECUTIVE ORDER NO. 129

July 2, 2020

EMERGENCY EXECUTIVE ORDER

WHEREAS, on March 7, 2020, New York State Governor Andrew Cuomo declared a State disaster emergency for the entire State of New York to address the threat that COVID-19 poses to the health and welfare of New York residents and visitors; and

WHEREAS, Emergency Executive Order No. 98, issued March 12, 2020 and extended most recently by Emergency Executive Order No. 123, issued June 7, 2020, contains a declaration of a state of emergency in the City of New York due to the threat posed by COVID-19 to the health and welfare of City residents, and such declaration remains in effect; and

WHEREAS, this Order is given because of the propensity of the virus to spread person-to-person and also because the actions taken to prevent such spread have led to property loss and damage; and

WHEREAS, measures taken to combat the spread of COVID-19 may prevent individuals, businesses and other entities from meeting legally imposed deadlines for the filing of certain documents or for the completion of other required actions; and

WHEREAS, this Order is given in order to ensure that the Governor's orders are enforced; and

NOW, THEREFORE, pursuant to the powers vested in me by the laws of the State of New York and the City of New York, including but not limited to the New York Executive Law, the New York City Charter and the Administrative Code of the City of New York, and the common law authority to protect the public in the event of an emergency:

Section 1. I hereby direct that sections 1, 2, 3, 4 and 5 of Emergency Executive Order No. 128, dated June 27, 2020, are extended for five (5) days.

§ 2. This Order incorporates any and all relevant provisions of Governor Executive Order No. 202 and subsequent orders issued by the Governor of New York State to address the State of Emergency declared in that Order pursuant to his powers under section 29-a of the Executive Law.

§ 3. I hereby direct the Fire Department of the City of New York, the New York City Police Department, the Department of Buildings, the Sheriff, and other agencies as needed to immediately enforce the directives set forth in this Order in accordance with their lawful enforcement authorities, including but not limited to Administrative Code sections 15-227(a), 28-105.10.1, and 28-201.1, and section 107.6 of the New York City Fire Code. Violations of the directives set forth in this Order may be issued as if they were violations under the New York City Health Code, title 24 Rules of the City of New York sections 3.07 and 3.11, and may be enforced as such by the Department of Health and Mental Hygiene or any other agency named in this section.

§ 4. This Emergency Executive Order shall take effect immediately, and shall remain in effect for five (5) days unless it is terminated or modified at an earlier date.

Bill de Blasio,
MAYOR
