- Win More Contracts, at nyc.gov/competetowin

“The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City’s prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence.”

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York (“PPB Rules”), vendors must first complete and submit an electronic prequalification application using the City’s Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed, at <http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml>. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

- Administration for Children’s Services (ACS)
- Department for the Aging (DFTA)
- Department of Consumer Affairs (DCA)
- Department of Corrections (DOC)

NOTICE OF PUBLIC REVIEW

Governors Island Corporation, doing business as The Trust for Governors Island, is seeking discretionary approvals that would enable up to 4.5 million gross square feet of development on the South Island (the section of the Island south of Division Road). The proposed density of development is intended to create a critical mass of active uses that would enliven the Island for 24/7 year-round usage and support the maintenance of the Island's open space and landscapes as well as the historic buildings on the North Island. This increase in density would also help finance improvements to infrastructure, including additional ferry service and expanded access.

The Proposed Actions include zoning text and map amendments and potential approval of capital funding. Specifically, the Special Governors Island District would be expanded to cover the entire Island and create new controls pertaining to the South Island. The underlying zoning for the South Island would be changed to a C4-1 mid-density commercial district, while the zoning for the North Island would remain R3-2. The Special Governors Island District controls applicable to the North Island would remain unchanged. The proposed zoning framework applicable to the South Island would provide controls for future development and facilitate the preservation and use of recreational open space on the South Island.

Redevelopment of the Island was previously analyzed in two documents:

- *Final Generic Environmental Impact Statement for the Phased Redevelopment of Governors Island*, issued by the Office of the Deputy Mayor for Economic Development (ODMED) in December 2011 (the 2011 Final Generic Environmental Impact Statement [FGEIS]). The 2011 FGEIS analyzed potential future development of the Island as follows: Phase 1 (2013), which comprised park and open space development now completed and the Later Phases (through 2030), which included subsequent phases of development. The Later Phases—Park and Public Space development consisted of proposed open space development established in a Park and Public Space Master Plan (the 2010 Park and Public Space Master Plan) developed by the Trust with significant public input. The Later Phases—Island Redevelopment included two components: redevelopment of the North Island Historic Structures and development within two designated South Island Development Zones.
- *Final Supplemental Generic Environmental Impact Statement for the Phased Redevelopment of Governors Island*, issued by the ODMED on May 23, 2013 (2013 FSUGEIS). The 2013 FSUGEIS analyzed the creation of the Special Governors Island District on the North Island; the reuse and reactivation of approximately 1.2 million square feet (sf) of space on the North Island, in addition to the 176,000 sf already in use in 2013; and the completion of the 2010 Park and Public Space Master Plan. In addition, a new structure was contemplated on the open area north of Building 110, immediately west of Soissons Landing (the Soissons Concession Site). Ferry service seven days per week to support the uses in the reactivated buildings and the expanded park and public spaces was also anticipated. The 2013 FSUGEIS also considered the development of the two Development Zones by 2030 based on generic development programs (a university research option and a mixed-use option including faculty and student housing and offices uses) since there were no specific development plans or proposals for those areas. The overall floor area was anticipated to be three million sf for the entire Island.

As anticipated in both the 2011 FGEIS and the 2013 FSUGEIS, the Second Supplemental Generic Environmental Impact Statement (SSGEIS) considers the potential impacts of the proposed development of the Eastern and Western Development Zones (the Proposed Project) and accessory actions in the context of the previously approved and developed park and public spaces as well as the previously approved renovation and reactivation of the North Island.

The Notice of Completion and the Draft Second Supplemental Generic Environmental Impact Statement (DSSGEIS) for the Phased Redevelopment of Governors Island – South Island Development Zones were issued by the New York City Office of the Deputy Mayor for Housing and Economic Development (ODMHED, formerly ODMED) on October 15, 2020, which marked the beginning of the public comment period on this document. A public hearing on the DSSGEIS will be held in conjunction with the public hearing on the associated Uniform Land Use Review Procedure (ULURP) applications at a date to be announced later.

Written comments on the DSSGEIS are requested and will be received and considered by the Lead Agency during the public comment period which runs from October 15, 2020 through ten days after the DSSGEIS public hearing. Please send comments to:
