The Applicant, Park Ave. Rezoning Partners, LLC., is seeking land use actions, including a Zoning Map Amendment and Zoning Text Amendments (the "Proposed Actions") to facilitate the residential, community facility and commercial redevelopment of Applicant-controlled lots in the Bedford-Stuyvesant neighborhood of Brooklyn, Community District (CD) 3. The Proposed Actions would affect Brooklyn Block 1715, Lots 3, 103, and part of (p/o) 54; Block 1716, Lots 1, 2, 59, 60, 61, 66, 70, and p/o 3; Block 1717, Lots 1, p/o 2 and 60; Block 1735, Lots 1, 3, 4, 5, 11, 12, 13, 14, 58, 59, 60, 61 and 62; and Block 1736, Lots 1, 10, 11, 13, 14, 61, 62, 63, 68, and p/o 18, collectively, the "Project Area". The Project Area is bounded by a depth of 250 feet from Park Avenue on the eastern side of Block 1715 and the western side of Block 1716, a depth of 225 feet from Park Avenue on Block 1735, a depth of 100 feet from Park Avenue on the eastern side of Block 1716

and on Block 1717, and a depth of 325 feet from Park Avenue on Block 1736.

The Proposed Actions are as follows:

- **Zoning Map Amendment to:**
 - Rezone the portion of the Project Area within 100 feet of Park Avenue from M1-1 and M1-2 to M1-4/R7D; rezone the portion of the Project Area beyond 100 feet of Park Avenue from M1-1 and M1-2 to M1-4/R6-1
- **Zoning Text Amendments to:**
 - Amend Appendix F of the New York City Zoning Resolution (ZR) to establish a Mandatory Inclusionary Housing (MIH) area program to qualifying portions of the Project Area
 - Amend Article II to establish a new R6-1 zoning district designation
 - Modify the Special Mixed Use District MX-4 (Flushing/Bedford) to include M1-4/R6-1 and M1-4/R7D zoning designations within Special Mixed Use District MX-4

In order to assess the possible effects of the Proposed Actions, a Reasonable Worst Case Development Scenario (RWCDs) was identified. The RWCDs includes nine Applicant-controlled Projected Development sites, including Block 1715, Lot 3; Block 1716, Lots 3 and 61; Block 1717, Lot 60; Block 1735, Lots 3, 5, 11, 12, 13 and 14; and Block 1736, Lots 1, 10, 11, 13, 18, 61, 62, and 63, as well as three non-Applicant-controlled Projected Development sites on Block 1716, Lots 59 and 60; Block 1717, Lot 2; and Block 1735, Lot 61 and 62; (collectively, the "Projected Development Sites") within the Project Area. The Projected Development Sites are likely to be redeveloped under the Proposed Actions. In total, across the 12 Projected Development Sites, the Proposed Actions would facilitate the development of 450,662 gross-square-feet (gsf) of residential area, 80,155 gsf of local retail area, 244,088 gsf of private school area, and 11,590 gsf of medical office area, as well as approximately 150 off-street parking spaces. The residential area would include 479 dwelling units (DU), of which approximately 124 would be permanently affordable pursuant to Mandatory Inclusionary Housing (MIH).

The Proposed Actions could also result in development on four non-Applicant controlled lots within the Project Area, (collectively, the "Potential Development Sites"). The Potential Development Sites are considered less likely to be developed by the analysis year but will be analyzed in the EIS for site-specific effects such as hazardous materials, air quality, and noise.

Absent the Proposed Actions (No-Action condition), 34,966 gsf of commercial area and 40,250 gsf of medical office development is expected to occur across two lots within the Project Area. All other lots within the Project Area are expected to remain the same as under existing conditions.

The analysis year of the Proposed Actions is 2030.

GENERAL PURPOSES

The "Special South Richmond Development District" established in this Resolution is designed to promote and protect public health, safety, general welfare and amenity. These general goals include, among others, the following purposes:

- (a) to guide future development in accordance with the Land Use Plan for South Richmond and the Capital Improvement Plan for the Special District area;

- (d) to promote water-dependent uses that provide a substantial environmental benefit; and

- (e) to promote the most desirable use of land in the South Richmond area and thus to conserve the value of land and buildings and thereby protect the City's tax revenues.

PRE-QUALIFIED LIST (PQL) PROGRAM FOR VARIOUS TRADES

NYCHA is currently accepting applications for Pre-Qualified List (PQL) program for various trades.

A PQL is a tool that NYCHA will use to qualify vendors and contract goods or services for its developments, streamlining the process for both vendors and NYCHA. NYCHA will publish contracting opportunities, and the PQL will predominantly be used to procure goods or services for those contracts. Vendors who apply to those bids must pre-qualify according to specific criteria, and vendors who are admitted to the PQL can bid on contracts.

Currently NYCHA has established six (6) PQL lists for the Closed-Circuit Television (CCTV), Carpentry, Painting, Lead Based Paint (Assessment and Abatement, Inspection and Assessment & Lab Analysis), Plumbing and Electrical.

All vendors interested in NYCHA's PQLs must follow two (2) important steps:

First, vendors must prepare and submit applications to the PQL: To pre-qualify, vendors must meet the minimum requirements listed on the Request for Qualification of the select PQL. Applications will be evaluated by NYCHA on a rolling basis.

Second, vendors who are admitted to the PQL can then bid on solicitations for services on the PQL: Vendors must bid on each contract award, as these are not guaranteed.

For more information regarding PQLs and to obtain applications, please visit NYCHA's website at: <https://www.nyc.gov/site/nycha/business/nycha-pql.page>

The Proposed Actions would affect Brooklyn Block 1715, Lots 3, 103, and part of (p/o) 54; Block 1716, Lots 1, 2, 59, 60, 61, 66, 70, and p/o 3; Block 1717, Lots 1, p/o 2 and 60; Block 1735, Lots 1, 3, 4, 5, 11, 12, 13, 14, 58, 59, 60, 61 and 62; and Block 1736, Lots 1, 10, 11, 13, 14, 61, 62, 63, 68, and p/o 18, collectively, the "Project Area". The Project Area is bounded by a depth of 250 feet from Park Avenue on the eastern side of Block 1715 and the western side of Block 1716, a depth of 225 feet from Park Avenue on Block 1735, a depth of 100 feet from Park Avenue on the eastern side of Block 1716 and on Block 1717, and a depth of 325 feet from Park Avenue on Block 1736.

The Proposed Actions are as follows:

- **Zoning Map Amendment to:**
 - Rezone the portion of the Project Area within 100 feet of Park Avenue from M1-1 and M1-2 to M1-4/R7D; rezone the portion of the Project Area beyond 100 feet of Park Avenue from M1-1 and M1-2 to M1-4/R6-1
- **Zoning Text Amendments to:**
 - Amend Appendix F of the New York City Zoning Resolution (ZR) to establish a Mandatory Inclusionary Housing (MIH) area to qualifying portions of the Project Area

- Amend Article II to establish a new R6-1 zoning district designation
- Modify the Special Mixed Use District MX-4 (Flushing/Bedford) to include M1-4/R6-1 and M1-4/R7D zoning designations within Special Mixed Use District MX-4

In order to assess the possible effects of the Proposed Actions, a Reasonable Worst Case Development Scenario (RWCDs) was identified, which includes nine Applicant-controlled Projected Development sites, including Block 1715, Lot 3; Block 1716, Lots 3 and 61; Block 1717, Lot 60; Block 1735, Lots 3, 5, 11, 12, 13 and 14; and Block 1736, Lots 1, 10, 11, 13, 18, 61, 62, and 63, as well as three non-Applicant-controlled Projected Development sites on Block 1716, Lots 59 and 60; Block 1717, Lot 2; and Block 1735, Lot 61 and 62; (collectively, the "Projected Development Sites") within the Project Area. The Projected Development Sites are likely to be redeveloped under the Proposed Actions. In total, across the 12 Projected Development Sites, the Proposed Actions would facilitate the development of 450,662 gross-square-feet (gsf) of residential area, 80,155 gsf of local retail area, 244,088 gsf of private school area, and 11,590 gsf of medical office area, as well as approximately 150 off-street parking spaces. The residential area would include 479 dwelling units (DU), of which approximately 124 would be permanently affordable pursuant to Mandatory Inclusionary Housing (MIH).

The Proposed Actions could also result in development on four non-Applicant controlled lots within the Project Area, (collectively, the "Potential Development Sites"). The Potential Development Sites are considered less likely to be developed by the analysis year but will be analyzed in the EIS for site-specific effects such as hazardous materials, air quality, and noise.

Absent the Proposed Actions (No-Action condition), 34,966 gsf of commercial area and 40,250 gsf of medical office development is expected to occur across two lots within the Project Area. All other lots within the Project Area are expected to remain the same as under existing conditions.

The analysis year for the Proposed Actions is 2030.

Statement of Significant Effect:

On behalf of the City Planning Commission, the Environmental Assessment and Review Division has determined, pursuant to 6 NYCRR Part 617.7, that the Proposed Actions may have a significant effect on the quality of the environment as detailed in the following areas, and that an environmental impact statement will be required: land use, zoning and public policy; socioeconomic conditions; open space; urban design and visual resources; hazardous materials; water and sewer infrastructure; transportation; air quality; greenhouse gas emissions and climate change; noise; public health; neighborhood character and construction.

The Proposed Actions would not result in significant adverse impacts related to: community facilities and services; shadows; historic and cultural resources; natural resources; solid waste and sanitation services; and energy.

Supporting Statement:

The above determination is based on an Environmental Assessment Statement prepared for the actions which finds that:

1. Land Use, Zoning and Public Policy – Because the Proposed Actions have the potential to affect the study area's land uses, development trends, zoning and public policies, an analysis will be included in the EIS. The Project Area is within the Coastal Zone Boundary. Therefore, an assessment of the Proposed Actions' consistency with New York City's Waterfront Revitalization Program (WRP) will also be included in the EIS.
2. Socioeconomic Conditions – Direct displacement of fewer than 500 residents or of fewer than 100 employees would not typically be expected to alter the socioeconomic characteristics of a neighborhood, according to the CEQR Technical Manual. As the Projected Development Sites comprising the RWCDs contain over 100 employees and only 3 dwelling units, the Proposed Actions would exceed the direct business displacement but would not exceed the direct residential displacement thresholds. Therefore, analysis of socioeconomic effects of direct business displacement is warranted. Analysis of socioeconomic effects of direct residential displacement is not warranted. In addition, as the Proposed Actions would not affect conditions within a specific industry, an analysis of adverse effects on specific industries is not warranted, and no significant adverse impacts would result. Lastly, as the total RWCDs would introduce less than 200,000 sf of commercial uses, an assessment of indirect business displacement is not warranted, and no significant adverse impacts would result. The Proposed Actions would add an increment of 476 DU to the Project Area, resulting in an increase of 1,219 residents, which exceeds the threshold of 200 residential units in the CEQR Technical Manual indicating an indirect residential displacement analysis is warranted. The Proposed Actions do have the potential to result in significant adverse impacts on indirect residential and direct business displacement, and therefore, a socioeconomic conditions assessment is warranted.
3. Community Facilities and Services – The development facilitated by the Proposed Actions does not meet the CEQR threshold that would require an analysis of Public Schools, Early Childhood Programs, Libraries or Police/Fire Services and Health Care Facilities. Therefore, the Proposed Actions do not have the potential to create significant adverse impacts in the area of community facilities and services.
4. Open Space – The Proposed Actions would not have a direct impact on open space resources within the Project Area, as there are no open space resources within the Project Area. The Proposed Actions would introduce 1,219 residents to the Project Area, which would have the potential for indirect significant adverse open space impacts from an increased residential population. The Proposed Actions would generate 43 workers in the Project Area, below the CEQR threshold that would require an analysis of indirect impacts on open spaces from a nonresidential population. Therefore, the Proposed Actions could have significant adverse indirect impacts on open space due to an increase in residential population.
5. Shadows – A preliminary Shadows assessment is included in the EAS and determined that there are no sunlight-sensitive resources within the area that could be shaded by the development facilitated by the Proposed Actions. Therefore, the Proposed Actions do not have the potential to cause significant adverse shadows impacts.
6. Historic and Cultural Resources – A preliminary Historical and Cultural Resources assessment is included in the EAS and determined that the Projected and Potential Development Sites within the Project Area are not architecturally or archaeologically sensitive. Therefore, the Proposed Actions do not have the potential to result in significant adverse impacts on historical and cultural resources.
7. Urban Design and Visual Resources – The Proposed Actions are expected to result in physical changes to the Project Area beyond the bulk and form currently permitted as-of-right. These changes could affect the pedestrian's experience of public space, requiring an urban design assessment. Therefore, the Proposed Actions could result in a significant adverse impact related to urban design and visual resources.
8. Natural Resources – The Proposed Actions affect an area located in a developed urban environment that is generally devoid of ecologically sensitive areas and does not provide a critical habitat supporting any rare, threatened, or endangered species. The Proposed Actions do not have the potential to create a significant adverse impact on natural resources.
9. Hazardous Materials – The Proposed Actions would result in new construction including new in-ground excavation and subsurface disturbance within the Project Area. Therefore, the Proposed Actions could result in a significant adverse impact on hazardous materials.
10. Water and Sewer Infrastructure – The Proposed Actions would result in increased development within the Project Area which could place additional demands on infrastructure, including water supply and storm water management. Therefore, the Proposed Actions could result in a significant adverse impact on wastewater and stormwater infrastructure.
11. Solid Waste and Sanitation Services – The Proposed Actions would not generate enough waste to exceed the 100,000 lbs. CEQR threshold that would require an assessment, nor would they involve a reduction in capacity at a solid waste management facility for refuse or recyclables. Therefore, the Proposed Actions could not result in significant adverse impacts on solid waste and sanitation services.
12. Energy – The Proposed Actions would not affect the transmission or generation of energy. Therefore, the Proposed Actions could not result in significant adverse impacts on energy.

13. Transportation – The Proposed Actions would increase the number of vehicular trips and increase ridership on mass transit facilities including bus, subway, or railroads. The Proposed Actions are not expected to exceed the CEQR threshold warranting a detailed analysis for bus trips, but would exceed the threshold for subway trips. The Proposed Actions would also affect pedestrian movements in the Project Area due to the increased number of residents expected. Therefore, the Proposed Actions could have significant adverse impacts on transportation.
14. Air Quality – The Proposed Actions are expected to result in additional project-generated vehicular trips that could exceed the screening thresholds for a mobile source air quality analysis. As there are no atypical roadways within 200 feet of any future sensitive receptors introduced by the Proposed Actions, an atypical roadway analysis is not warranted. The Proposed Actions would not introduce a new parking facility with 85 or more parking spaces in proximity to a new sensitive use, therefore, a mobile source garage analysis is not warranted. A stationary source analysis is warranted to consider the potential air quality impacts from heat and hot water systems, and from existing industrial uses in the surrounding area on the new development resulting from the Proposed Actions. Therefore, the Proposed Actions could result in significant adverse impacts on air quality.
15. Greenhouse Gas (GHG) Emissions and Climate Change – The threshold for detailed analysis of GHG emissions is highly dependent on the nature of the project and its potential impact. Based on the project's location within the Coastal Zone Boundary and 2020s and 2050s 100- and 500-year flood zone projections, a climate change assessment is warranted. The Proposed Actions would result in development that would exceed the development threshold of 350,000 sf, which warrants a GHG assessment. Therefore, the Proposed Actions could result in significant adverse impacts on greenhouse gas emissions and climate change.
16. Noise – The Proposed Actions would introduce new noise-sensitive receptors in an area with existing high ambient noise levels. Additionally, the Proposed Actions would generate additional vehicular trips to and from the Project Area that could potentially impact existing and project-generated sensitive receptors within and in the vicinity of the Project Area. As a result, an analysis is warranted. Therefore, the Proposed Actions could result in a significant adverse impact on noise.
17. Public Health – The Proposed Actions could result in effects related to air quality, water quality, hazardous materials, or noise. Therefore, the Proposed Actions could have the potential to result in significant adverse impacts related to public health.
18. Neighborhood Character – The Proposed Actions could affect land use, socioeconomic conditions, open space, urban design and visual resources, transportation, and noise. As a result, the Proposed Actions could have the potential to result in a significant adverse impact related the affected area's neighborhood character.
19. Construction – The construction period for the Proposed Actions would be considered long term in duration (more than 24 months) and warrants a detailed analysis. Therefore, the Proposed Actions could have the potential to result in significant adverse impacts related to construction.

Public Scoping:

The CEQR lead agency hereby requests that the applicant prepare or have prepared, at their option, a Draft Environmental Impact Statement (DEIS) in accordance with 6 NYCRR 617.9(b) and Sections 6-08 and 6-12 of Executive Order No. 91 of 1977 as amended (City Environmental Quality Review).

A public scoping meeting has been scheduled for Thursday, May 30, 2024 at 2:00 P.M. To continue to allow for broad public participation options, DCP will hold the public scoping meeting remotely. To join the meeting and comment, please visit NYC Engage (<https://www1.nyc.gov/site/nycengage/events/index.page>).

READER'S GUIDE

The City Record (CR) is published each business day. The Procurement section of the City Record is comprised of notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Notice of solicitations and other notices for most procurement methods valued at or above \$100,000 for goods, services, and construction must be published once in the City Record, among other requirements. Other procurement methods authorized by law, such as sole source procurements, require notice in the City Record for five consecutive editions. Unless otherwise specified, the agencies and offices listed are open for business Monday through Friday from 9:00 A.M. to 5:00 P.M., except on legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptroller's Office at www.comptroller.nyc.gov; and click on Prevailing Wage Schedules to view rates.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION-RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately \$17 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. Registration for these lists is free of charge. To register for these lists, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application, which can be found online at www.nyc.gov/selltonyc. To request a paper copy of the application, or if you are uncertain whether you have already submitted an application, call the Vendor Enrollment Center at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services at 110 William Street, New York, NY 10038. Sessions are convened on the second Tuesday of each month from 10:00 A.M. to 12:00 P.M. For more information, and to register, call (212) 618-8845 or visit www.nyc.gov/html/sbs/nycbiz and click on Summary of Services, followed by Selling to Government.

PRE-QUALIFIED LISTS

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstances. When an agency decides to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the CR. Information and qualification questionnaires for inclusion on such lists may be obtained directly from the Agency Chief Contracting Officer at each agency (see Vendor Information Manual). A completed qualification questionnaire may be submitted to an Agency Chief Contracting Officer at any time, unless otherwise indicated, and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings (OATH). Section 3-10 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists. For information regarding specific pre-qualified lists, please visit www.nyc.gov/selltonyc.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board Rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, and the Housing Authority. Suppliers interested in applying for inclusion on bidders lists for Non-Mayoral entities should contact these

entities directly at the addresses given in the Vendor Information Manual.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 9:30 A.M. to 5:00 P.M., except on legal holidays. For more information, contact the Mayor's Office of Contract Services at (212) 341-0933 or visit www.nyc.gov/mocs.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN-OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women-Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about this program, contact the Department of Small Business Services at (212) 513-6311 or visit www.nyc.gov/sbs and click on M/WBE Certification and Access.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City pays interest on all late invoices. However, there are certain types of payments that are not eligible for interest; these are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year: in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City's website at www.nyc.gov/selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section.

At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified unless a different one is given in the individual notice. In that event, the directions in the individual notice should be followed.

The following is a SAMPLE notice and an explanation of the notice format used by the CR.
