HHS ACCELERATOR PREQUALIFICATION

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York (“PPB Rules”), vendors must first complete and submit an electronic HHS Accelerator Prequalification Application using the City’s PASSPort system. The PASSPort system is a web-based system maintained by the City of New York for use by its Mayoral Agencies to manage procurement. Important business information collected in the Prequalification Application is required every three years. Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete. Prequalification applications will be reviewed to validate compliance with corporate filings and organizational capacity. Approved organizations will be eligible to compete and would submit electronic proposals through the PASSPort system. The PASSPort Public Portal, which lists all RFPs, including HHS RFPs that require HHS Accelerator Prequalification, may be viewed, at https://passport.cityofnewyork.us/page.aspx/en/rfp/request_browse_public

All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding. For additional information about HHS

Accelerator Prequalification and PASSPort, including background materials, user guides and video tutorials, please visit <https://www.nyc.gov/site/mocs/hhsa/hhs-accelerator-guides.page>

BROOKLYN BRIDGE PARK - 334 FURMAN ARCHITECTURAL & ENGINEERING SERVICES - Request for Proposals - PIN# BBP A&E Services - Due 10-18-24 at 4:00 P.M.

The goal of the full building renovation project at 334 Furman Street in Brooklyn Bridge Park is to introduce classroom space and renovate office areas and involves a comprehensive overhaul of an existing structure to create a modern, functional environment for both educational and professional use. The project includes the transformation of existing spaces to accommodate new, state-of-the-art classrooms equipped with advanced technology and flexible layouts to support various teaching methods. Simultaneously, the office spaces will be renovated to enhance productivity, with upgraded finishes, improved lighting, and ergonomic design. The renovation will also address infrastructure improvements, such as vertical transportation and updated electrical and HVAC systems, to support the new functions of the building. The overall objective is to create a cohesive and efficient space that meets the needs of both students and staff.

Currently, BBP along with the BBP Conservancy occupy only the first floor which is the only conditioned space in the building. The second and third floors are unoccupied, save for storage of park materials and files. The have been no infrastructure improvements made on the second and third floor in over 20 years. The third floor, just below the roof, has skylights that have been roofed over. The cast in place structure around the skylights is spalled and reinforcement exposed and rusted. The program for the third floor calls for the reactivation of the skylights. Additionally, the 3rd floor has cast in place concrete walls that conflict with the program and the Consultant Team will need to review the structural nature of these walls and accommodate the program for the space through the design and engineering process.

BBP recently engaged Gensler Architects (Gensler) to complete concept programming and preliminary code review study for the renovation. The study is included in this RFP as Exhibit 4. Submitted proposals should be consistent with the goals and guidelines outlined in the programming study. To the extent that a submitted proposal differs significantly from the results of this study, Respondents should submit a narrative explaining the justification for the change.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above.

Brooklyn Bridge Park, 334 Furman Street, Brooklyn, NY 11201.
