NOTICE

On Wednesday, November 6, 2024, a public hearing is being held by the City Planning Commission (CPC), accessible in-person and remotely, in conjunction with the above ULURP hearing to receive comments related to a Draft Environmental Impact Statement (DEIS) concerning an application by The New York City Economic Development Corporation (NYCEDC), the Office of the Chief Medical Examiner (OCME), and the New York City Department of Citywide Administrative Services (DCAS) (collectively, the Applicants), in affiliation with the New York City Health and Hospitals Corporation (H+H), New York City Public Schools (NYCPS), the New York City School Construction Authority (SCA), and the City University of New York (CUNY). The Applicants are seeking a series of land use actions including a zoning map amendment; a zoning text amendment to Appendix F of the New York City Zoning Resolution (ZR); special permits pursuant to ZR Section 74-171 and 75-901; Dispositions, acquisitions, and site selections; and a City Map Change related to the demapping of the East 25th Street replacement bridge (the "Proposed Actions") from the City Planning Commission. The area subject to the Proposed Actions is generally bounded by East 25th Street to the south, First Avenue to the west, FDR Drive to the east, and the northern edge of the former East 26th Street, and encompasses the southern, approximately 4.75-acre portion of Manhattan Block 962, Lot 100 (the Development Site) located at 425 East 25th Street in the Kips Bay area of Manhattan Community District 6. The Proposed Actions, along with other discretionary approvals, would facilitate the development of the Science Park and Research Campus (SPARC) Kips Bay project, which would transform Hunter College's antiquated Brookdale Campus into approximately 2.19 million gross square feet (gsf) of state-of-the-art academic, healthcare, and life sciences and retail space and public realm improvements (the Proposed Project).

The proposed project would also require other discretionary approvals including the use of City capital funding to construct the new CUNY building, New York State financing for the development of the proposed project, and the siting of CUNY and NYCPS facilities, which are not subject to ULURP. The Build Year is 2031.

Written comments on the DEIS are requested and will be received and considered by the Lead Agency through 5:00 PM on Monday, November 18, 2024.

For instructions on how to submit comments and participate, both in-person and remotely, please refer to the instructions at the beginning of this agenda.

This hearing is being held pursuant to the State Environmental Quality Review Act (SEQRA) and City Environmental Quality Review (CEQR), CEQR No. 23DME013M.

Where can I find the Commission’s rules? The Commission’s rules are in Title 35 of the Rules of the City of New York.

What rules govern the rulemaking process? TLC must meet the requirements of Section 1043 of the City Charter when creating or changing rules. This notice is made according to the requirements of Section 1043 of the City Charter.

Statement of Basis and Purpose

In 2018, TLC promulgated rules to improve wheelchair-accessible vehicle (WAV) service in the for-hire vehicle (FHV) industry, with the aim of ensuring more New Yorkers and visitors have access to the black cars, liveries, and community car services that form a critical component of the city’s transportation system. Those rules required FHV bases to either (a) dispatch 25% of their trips to WAVs by 2022 or (b) meet certain passenger wait time requirements for WAV requests directly or by working with an approved WAV dispatcher. The rules codified passenger wait time as a key measure for assessing the quality of service provided by accessible vehicle dispatchers and their affiliated FHV Bases, and established wait time benchmarks that were tightened over a four-year period. The strictest wait time benchmarks, in place since June 2021, require accessible vehicle dispatchers to serve at least 80% of requests for WAVs in under 10 minutes and 90% in under 15 minutes.

The quality of FHV WAV service has improved steadily since wait time requirements were introduced in 2019, including after 2021 when the current benchmarks took effect. In May 2019, for example, Uber and Lyft—both approved accessible vehicle dispatchers—took longer than 15 minutes to serve about half of riders who requested a WAV compared to fewer than 2% of riders in other vehicles. By December 2023, however, both companies served over 96% of WAV requests in under 15 minutes. That number, though a sign of marked progress, still falls short of the level of service provided to customers in other, non-accessible, vehicles.

A combination of the WAV exemption to the FHV license pause (while the TLC stopped issuing new FHV Licenses for non-wheelchair accessible vehicles, the agency continued to provide FHV Licenses where the vehicle in question was wheelchair accessible) and the wait time requirements for dispatchers has encouraged growth of the accessible vehicle fleet. In 2018, there were more than 260 million FHV trips and very limited wheelchair accessible FHV availability (263 total FHV WAVs were licensed at the end of 2018). In 2023, with total trip volume slightly below 2018 levels at roughly 251 million total trips, 18 million accessible trips were provided in nearly 6,000 WAVs. With the increased vehicle availability, accessible dispatchers should be able to meet stricter response-time targets and improve service.

To encourage accessible vehicle dispatchers and their associated FHV bases to continue prioritizing and improving the quality of accessible vehicle service, TLC is proposing amendments to its rules that would require that dispatchers serve at least 90% of WAV requests in under 10 minutes. The rules would also remove outdated compliance benchmarks.

In addition to amending the wait time requirements, these proposed rules make other changes related to FHV accessibility, including by requiring high-volume for-hire services to report on-scene time so that TLC can better compare WAV and non-WAV wait times.

New material is underlined.

[Deleted material is in brackets.]

“Shall” and “must” denote mandatory requirements and may be used interchangeably in the rules of this commission, unless otherwise specified or unless the context clearly indicates otherwise.

Section 1. Paragraph (3) of subdivision (f) of section 59B-17 of Title 35 of the Rules of the City of New York is amended to read as follows:

- (3) *Response Time Requirement for Requests for Accessible Vehicles for Accessible Vehicle Dispatchers*
 - (i) [Between June 1, 2019, and June 30, 2019, the Accessible Vehicle dispatcher must service at least sixty percent (60%) of all the requests for Accessible Vehicles it receives in under fifteen (15) minutes and ninety percent (90%) of those requests in under thirty (30) minutes.
 - (ii) Between June 1, 2020, and June 30, 2020, the Accessible Vehicle dispatcher must service at least eighty percent (80%) of all the requests for Accessible Vehicles it receives in under fifteen (15) minutes and ninety percent (90%) of those requests in under thirty (30) minutes.
 - (iii) Between June 1, 2021 and June 30, 2021, and continuing each quarter thereafter, the Accessible Vehicle dispatcher must service at least [eighty] ninety percent ([80|90%]) of all the requests for Accessible Vehicles it

receives in under ten (10) minutes [and ninety percent (90%) of those requests in under fifteen (15) minutes].

- (iv) Between the effective date of subdivision (f) and June 30, 2020, the percentage of trips that meet the applicable response time criteria must improve each quarter, measured from the effective date of subdivision (f) for purposes of (i) above and measured from the beginning of the compliance periods for (ii) and (iii) above, until such time as the Accessible Vehicle dispatcher meets the response time requirements contained in (i), (ii), and (iii) above.
- (v)(ii) For purposes of (i) [and (ii)], "requests" will not include requests for Accessible Vehicles that were cancelled by the passenger [within fifteen (15) minutes of the requests and for purposes of (iii), "requests" will not include requests for Accessible Vehicles that were cancelled by the passenger] within ten (10) minutes of the request[s].
- (vi)iii If an Accessible Vehicle dispatcher fails to meet the requirements contained in (i) [(ii), (iii), and (iv)] above, the Commission will notify the Accessible Vehicle dispatcher and provide the Accessible Vehicle dispatcher thirty (30) days to come into compliance with the stated response time requirement. Failure to come into compliance within thirty (30) days of notification may result in termination of the Accessible Vehicle dispatcher's approval, immediately subjecting the Accessible Vehicle dispatcher to the requirements contained in section 59B-17(c)(1), pro-rated for the duration of the compliance period.

Section 2. Subparagraphs (xi) and (xii) of paragraph (1) of subdivision (a) of section 59D-14 of Title 35 of the Rules of the City of New York are amended and a new subparagraph (xiii) is added, to read as follows:

- (xi) If the trip enters the Congestion Zone but the pick-up did not occur in the Congestion Zone, the date, time, and location (latitude, longitude, and human-readable street address) of the point at which the vehicle entered the Congestion Zone and, if applicable, the date, time, and location (latitude, longitude, and human-readable street address) of the point at which the vehicle exited the Congestion Zone, [and]
- (xii) An indicator as to whether the trip was administered as part of the MTA's Access-A-Ride program and,
- (xiii) the time at which the dispatched Vehicle reached the pickup location.

Statement of Basis and Purpose

TLC is proposing to amend its insurance rules to better ensure coverage for TLC-licensed vehicles. These amendments require more comprehensive reporting to TLC, including the mandatory submission of certain insurance policy information, such as Vehicle Identification Numbers and Certificates of Liability. These amendments also clarify that TLC's minimum coverage requirements for TLC-licensed vehicles must be met through one primary policy, which will make it easier for TLC to track coverage and ensure the prompt payment of claims.

Additionally, TLC is updating its rules to align with the New York State Vehicle and Traffic Law and the regulations of New York State Department of Motor Vehicles and the New York State Department of Financial Services by requiring insurers to be solvent and responsible companies authorized to do business in this State by the Superintendent of Insurance.

The amendments proposed in this rule would provide stronger insurance carrier requirements to ensure carrier solvency, the prompt payment of claims, and the tracking of required coverage.

This rule is authorized by Sections 1043 and 2303 of the City Charter and Section 19-503 of the New York City Administrative Code.

New material is underlined. Deleted material is shown in [brackets].
