● Win More Contracts, at nyc.gov/competetowin

"The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed, to the City's prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence."

HHS ACCELERATOR PREQUALIFICATION

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York ("PPB Rules"), vendors must first complete and submit an electronic HHS Accelerator Prequalification Application using the City's PASSPort system. The PASSPort system is a web-based system maintained by the City of New York for use by its Mayoral Agencies to manage procurement. Important business information collected in the Prequalification Application is required every three years. Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete. Prequalification applications will be reviewed to validate compliance with corporate filings and organizational capacity. Approved organizations will be eligible to compete and would submit electronic proposals through the PASSPort system. The PASSPort Public Portal, which lists all RFPs, including HHS RFPs that require HHS Accelerator Prequalification, may be viewed, at https://passport.cityofnewyork.us/page.aspx/en/rfp/request_browse_public

All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding. For additional information about HHS Accelerator Prequalification and PASSPort, including background materials, user guides and video tutorials, please visit <https://www.nyc.gov/site/mocs/hhsa/hhs-accelerator-guides.page>

OneDrive allows users to grant access to files which are too large to transmit via electronic mail to other users. If you do not have Office 365, please take the following steps to gain access to a free version of OneDrive so that you can upload those bid submission documents which are too large to transmit via electronic mail:

1. Conduct an internet search for “Microsoft OneDrive;” 2. Navigate to the official Microsoft website and sign up for a free account; 3. Once you have created a folder for the solicitation whose name matches the subject line of your Bid Submission Email, upload the documents relevant to your bid submission in this folder. 4. Create a share link for this folder; 5. Be sure to check your share settings so that anyone receiving the link that you create will be able to open the link and access the files. If your share link permissions are restricted (e.g. to only your organization in Office 365), the DOE will not be able to view your solicitation documents. It is your responsibility to ensure that the link(s) you provide allows the DOE to view, download and/or open your documents; and 6. Include the link which you have created as the first line of your Bid Submission Email.

For hard copy (paper) bid submissions, please follow the below instructions:

Further to prior instructions regarding submissions of bids. Community Development Block Grant Program

Final Notice and Public Explanation of a Proposed Activity in a Federal Flood Risk Management Standard (FFRMS) Designated Floodplain

To: All Interested Agencies, Groups and Individuals

This is to give notice that the City of New York's Mayor's Office of Management and Budget (OMB) has conducted an evaluation as

required by Executive Order 11988, in accordance with HUD regulations at 24 CFR 55.20 Subpart C Procedures for Making Determinations on Floodplain Management and Wetlands Protection. The activity is funded under the NYC Department of Housing Preservation and Development's (HPD) Demolition Program and under U.S. Department of Housing and Urban Development (HUD) Community Development Block Grant (CDBG) grant #B-24-MC-0104.

The proposed project is located at 706 Ocean View Avenue, Brooklyn (Kings County), New York (Block 8677, Lot 5). The extent of the FFRMS floodplain was determined using a Climate Informed Science Approach (CISA).

The subject property is a 1,178-square-foot, multiple-dwelling, detached building with wood framing and masonry walls. This is a residential structure that includes two stories and a cellar. The building is vacant, open, and unguarded; the brick walls are heavily deteriorated with bulging and cracking indicating stress failure at those locations. At least two walls are structurally compromised, and their potential collapse poses a danger to the public adjacent property. The Supreme Court of the State of New York has found sufficient reason to order the building's demolition, which would include the removal of asbestos-containing materials (if applicable), demolition of the structure, removal of the foundation, grading the property, replacing the sidewalk, and the safe disposal of all debris in accordance with all NYC Department of Buildings rules and regulations.

The building sits on a 2,400-square-foot lot (approximately .06 acres), two structures in from the western corner of Brighton 7th Street and Ocean View Avenue. The surrounding community of Brighton Beach is a developed, mixed-use area situated in both a 100-year floodplain and a 500-year floodplain bounded approximately by Brighton Beach Avenue on the south, the Belt Parkway on the north, Ocean Parkway on the west, and the Sheepshead Bay on the east.

OMB has considered the following alternatives and mitigation measures to minimize adverse impacts and to restore and preserve natural and beneficial values: taking no action, fencing the property, sealing/stabilizing the building, erecting sidewalk sheds, and rehabilitating the property. The City does not have the legal authority to rehabilitate the property, and none of the remaining alternatives would alleviate the health and safety threat.

OMB has reevaluated the alternatives to demolishing this structure and has determined that it has no practicable alternative. Environmental files that document compliance with steps 3 through 6 of Executive Order 11988, will be provided for public inspection as noted in the last paragraph of this notice for receipt of comments.

There are three primary purposes for this notice. First, people who may be affected by activities in floodplains and those who have an interest in the protection of the natural environment should be given an opportunity to express their concerns and provide information about these areas. Second, an adequate public notice program can be an important public educational tool. The dissemination of information and request for public comment about floodplains can facilitate and enhance Federal efforts to reduce the risks and impacts associated with the occupancy and modification of these special areas. Third, as a matter of fairness, when the Federal government determines it will participate in actions taking place in floodplains, it must inform those who may be put at greater or continued risk.

Written comments must be received by OMB on or before December 17, 2024: CDBGComments@omb.nyc.gov or City of New York Mayor's Office of Management and Budget, Attention: Julie Freeman, Director of Community Development, 255 Greenwich Street, 8th Floor, New York, New York 10007.

A full description of the project may also be reviewed from 10:00am to 6:00 P.M. at the address provided and at www.nyc.gov/cdbgdrr. Comments may also be submitted via email at CDBGComments@omb.nyc.gov.
