### ARTICLE IX SPECIAL PURPOSE DISTRICTS

#### Chapter 3 Special Hudson Yards District

\* \* \*

#### 93-50 SPECIAL HEIGHT, SETBACK AND YARD REGULATIONS

\* \* \*

#### 93-58 Special Permit for Modification of Height and Setback Regulations

Within the #Special Hudson Yards District#, except within C1-7A Districts, or C2-5 Districts mapped within R8A Districts, for #developments# or #enlargements# on #zoning lots# with at least 20,000 square feet of #lot area# or #developments# or #enlargements# on any size #zoning lot# that occupy the entire #block# front along a #wide street#, the City Planning Commission may modify the regulations set forth in Sections 93-40 (HEIGHT AND SETBACK REGULATIONS), inclusive, and 93-50 (SPECIAL HEIGHT AND SETBACK REGULATIONS), inclusive; and, within Subdistrict F, may modify or waive the regulations set forth in Sections 93-10 (USE REGULATIONS), inclusive, 93-70 (PUBLIC ACCESS REQUIREMENTS FOR SPECIAL SITES), inclusive, and 13-242 (Maximum width of curb cuts), provided the Commission finds that:

- (a) such modifications will result in a better distribution of #bulk# on the #zoning lot# and will not adversely affect access to light and air for surrounding public access areas, #streets# and properties;
- (b) where the #development# or #enlargement# is subject to the requirements of Sections 93-60 (MANDATORY IMPROVEMENTS), inclusive, or 93-70 (PUBLIC ACCESS REQUIREMENTS FOR SPECIAL SITES), inclusive, such modifications will not impair the quality of such public access areas on the #zoning lot#; where the regulations set forth in Section 93-70 are modified or waived, the resulting arrangement of public access areas on the #zoning lot# results in better site planning;

- (c) such modifications are consistent with the goal of the special district to provide flexibility of architectural design and encourage more attractive building forms; and
- (d) such modifications will result in a #development# or #enlargement# that enhances the streetscape and will be compatible with development in the surrounding area; and
- (e) such modifications to the curb cut regulations are necessary to accommodate a turnaround area for fire apparatus and other vehicular traffic.

The Commission may establish an appropriate level or levels instead of the mean level of the public sidewalk, the mean level of the final grade of open space, the #High Line bed#, or the highest level of the public sidewalk or finished grade, as applicable, as the reference plane for the applicable regulations relating to the measurement of #building# heights within Subdistrict F.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects of the #development# or #enlargement# on the character of the surrounding area.

#### No. 7

**CD 4** **C 250024 MMM**  
**IN THE MATTER OF** an application submitted by WRY Tenant LLC pursuant to Sections 197-c and 199 of the New York City Charter for an amendment to the City Map involving the change of grades on West 33<sup>rd</sup> Street between Eleventh Avenue and Twelfth Avenue and the delineation of a public access easement, including authorization for any acquisition or disposition of real property related thereto, in Community District 4, Borough of Manhattan, in accordance with map No. ACC. 30276, dated November 8, 2024 and signed by the Borough President.

#### NOTICE

On Wednesday, February 19, 2025, a public hearing is being held by the City Planning Commission (CPC), accessible in-person and remotely, in conjunction with the above ULURP hearing to receive comments related to a Draft Environmental Impact Statement (DEIS) concerning an application by WRY Tenant LLC. The area subject to the Proposed Actions encompasses the Western Rail Yard Site, comprising Block 676, Lots 1 and 5 (the "Development Site") in the Hudson Yards neighborhood of Manhattan, Community District 4. It occupies the entire area bounded by West 30<sup>th</sup> and West 33<sup>rd</sup> Streets and Eleventh and Twelfth Avenues and comprises the western portion of the John D. Caemmerer West Side Yard, an active rail yard where the Long Island Rail Road (LIRR) stores commuter trains.

The Proposed Actions include a zoning text amendment, a special permit, an amendment to the City Map, and a modification of the previously approved Restrictive Declaration for the Development Site. In addition to the requested actions, as a related action, the Applicant will seek a revocable consent from DOT for the installation of a staircase and elevator in the West 33<sup>rd</sup> Street sidewalk at Twelfth Avenue to provide additional access for the public and visitors to the Site as well as an approval from the New York City Public Design Commission for the design of the staircase and elevator to be installed pursuant to the revocable consent. In addition, the proposed gaming facility for the Proposed Project requires discretionary approval from the New York State Gaming Facility Location Board, which will serve as an Involved Agency for the environmental review under the New York State Environmental Quality Review Act (SEQRA).

The Proposed Actions would facilitate the Proposed Project, comprising three buildings and approximately 6,226,560 gross square feet (gsf), including 1,208,623 gsf of residential area (1,507 dwelling units with 324 units would be permanently affordable), 2,667,400 gsf of hotel resort with gaming uses, 2,179,899 gsf of office area, 130,000 gsf of community facility use to be used as a school and a day care facility, 16,000 gsf of cultural space, 4.58 acres of new open space, and 725 parking spaces. Because the Proposed Project's gaming use requires an approval from the New York State Gaming Facility Location Board, an Alternative Scenario was also developed that reflects a similar density of open space configuration as the Proposed Project, but does not include the gaming use. Under the Alternative Scenario, the Proposed Actions would be expected to result in 1,482,476 gsf of residential area (1,816 dwelling units with 324 units permanently affordable), 3,745,932 gsf of office space, 849,894 gsf of hotel use, 34,868 gsf of retail area, 130,000 gsf of community facility use to be used as a school and

a day care facility, 16,000 gsf of cultural space, 4.58 acres of new open space, and 675 parking spaces. The anticipated build year of either scenario is 2031.

Written comments on the DEIS are requested and will be received and considered by the Lead Agency through 5:00 P.M. on Monday, March 3, 2025.

For instructions on how to submit comments and participate, both in-person and remotely, please refer to the instructions at the beginning of this agenda.

This hearing is being held pursuant to the State Environmental Quality Review Act (SEQRA) and City Environmental Quality Review (CEQR), CEQR No. 24DCP091M.

### ■ NOTICE

#### OFFICIAL NOTICE OF PENDING DESTRUCTION OF CERTAIN UNAUTHORIZED TOBACCO, FLAVORED E-CIGARETTE OR FLAVORED E-LIQUID PRODUCTS SEIZED DURING INSPECTIONS BY THE OFFICE OF THE NEW YORK CITY SHERIFF

One or more categories of Unauthorized Products were seized from the commercial establishments listed in the table below on the dates listed in such table. These Unauthorized Products were subject to forfeiture and will be destroyed pursuant to New York City Administrative Code (Admin. Code) §§ 11-4021, 11-4024, 11-4025, or 11-4026, or other applicable provisions of law.

For the purposes of this notice, the term "Unauthorized Product" includes:

a. Cigarettes or tobacco products subject to a tax established by chapter 13 of title 11 of the Admin. Code for which such tax has not been paid or cigarettes upon which stamps required under such chapter have not been affixed;

b. Cigarettes and other tobacco products offered for sale by a person who does not possess the required retail or wholesale licenses pursuant to Titles 11, 17 or 20 of the Admin. Code; and

c. Any flavored tobacco product, flavored electronic cigarette or flavored e-liquid that is sold, offered for sale or possessed with intent to sell in violation of Chapter 7 of Title 17 of the Admin. Code.

Inquiries relating to such Unauthorized Products should be made to ceuoath@nypd.org or by mail to:

## PROCUREMENT

### *“Compete To Win” More Contracts!*

**Thanks to a new City initiative - “Compete To Win” - the NYC Department of Small Business Services offers a new set of FREE services to help create more opportunities for minority and Women-Owned Businesses to compete, connect and grow their business with the City. With NYC Construction Loan, Technical Assistance, NYC Construction Mentorship, Bond Readiness, and NYC Teaming services, the City will be able to help even more small businesses than before.**

### ● Win More Contracts, at [nyc.gov/competetowin](https://nyc.gov/competetowin)

**“The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed, to the City’s prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence.”**

### HHS ACCELERATOR PREQUALIFICATION

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York (“PPB Rules”), vendors must first complete and submit an electronic HHS Accelerator Prequalification Application using the City’s PASSPort system. The PASSPort system is a web-based system maintained by the City of New York for use by its Mayoral Agencies to manage procurement. Important business information collected in the Prequalification Application is required every three years. Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete. Prequalification applications will be reviewed to validate compliance with corporate filings and organizational capacity. Approved organizations will be eligible to compete and would submit electronic proposals through the PASSPort system. The PASSPort Public Portal, which lists all RFPs, including HHS RFPs that require HHS Accelerator Prequalification, may be viewed, at [https://passport.cityofnewyork.us/page.aspx/en/rfp/request\\_browse\\_public](https://passport.cityofnewyork.us/page.aspx/en/rfp/request_browse_public)

All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding. For additional information about HHS Accelerator Prequalification and PASSPort, including background materials, user guides and video tutorials, please visit <https://www.nyc.gov/site/mocs/hhsa/hhs-accelerator-guides.page>

**FINANCIAL MANAGEMENT SOFTWARE PACKAGE AND IMPLEMENTATION** - Competitive Sealed Proposals - Specifications cannot be made sufficiently definite - PIN# 25REQ0154 - Due 3-18-25 at 5:00 P.M.

The Fund is seeking an appropriately qualified Contractor to provide an agency-wide cloud-based Financial Enterprise Resource Planning ("ERP") software and implementation. The current finance related workflows are largely paper-based and involve a significant amount of manual review and data entry. The Fund's primary interest is in moving toward a digital system which automates service delivery to the greatest extent practical, while ensuring compliance with local, state, and federal laws, auditing requirements, and best practices.

**Note:** The awarded Contractor is expected to complete any work associated to this project remotely. However, the Contractor and/or its appropriate representatives shall oblige to any request that the Fund may have to be present on-site (if required).

**OPERATION OF SEAGLASS CAROUSEL AT THE BATTERY, MANHATTAN** - Request for Proposals - PIN# M5-CL - Due 3-19-25 at 3:00 P.M.

The Battery Conservancy ("TBC") is issuing a Request for Proposals (RFP) for the operation of SeaGlass at The Battery, a carousel like no other. The Battery is the New York City public park at the southern tip of Manhattan. The Battery Conservancy partners with NYC Parks to maintain and operate The Battery and has a license agreement with NYC Parks to operate SeaGlass. Pursuant to that license agreement, TBC is seeking a sublicensee to operate the carousel and possibly ancillary merchandise and/or food cart(s).

There will be a proposer meeting at the site on Wednesday, February 12, 2025 at 11:00 A.M. If you are considering responding to this RFP, please make every effort to attend this proposer meeting.

All proposals must be submitted no later than Wednesday, March 19, 2025 at 3:00 P.M.

The RFP is available for download, commencing Monday, February 3, 2025 on TBC's website. To download the RFP, please visit <https://www.thebattery.org/about-us/seaglass/seaglassrpf> and click on the "SeaGlass RFP" link.

For more information, prospective proposers may contact Hope Cohen, Chief Operating Officer at The Battery Conservancy, at (917) 409-3710, or [hope.cohen@thebattery.org](mailto:hope.cohen@thebattery.org).

## AGENCY RULES

## HOUSING PRESERVATION AND DEVELOPMENT

### ■ NOTICE

#### Notice of Adoption

**Notice of Adoption of amendments to rules relating to lead-based paint poisoning prevention and control, to implement enacted legislation.**

**NOTICE IS HEREBY GIVEN** pursuant to the authority vested in the Commissioner of the Department of Housing Preservation and Development by sections 1043 and 1802 of the New York City Charter and Administrative Code section 27-2090, and in accordance with the requirements of New York City Charter section 1043, that the Department promulgates amendments to sections 11-02, 11-04, 11-05, 11-06, 11-09, 11-10, and 11-12, of Chapter 11 of Title 28 of the Rules of the City of New York relating to lead-based paint poisoning prevention and control. On January 17, 2025, HPD held a public hearing on the proposed rule amendments. No comments were received.

#### Statement of Basis and Purpose

The Department of Housing Preservation and Development (HPD) is adopting amendments to its rules relating to lead poisoning prevention

and control in Chapter 11 of Title 28 as the result of enacted amendments to Administrative Code sections 27-2056.4, 27-2056.8, 27-2056.9, and 27-2056.17, and the addition of new section 27-2056.6.1 by the City Council. The amendments incorporate requirements set forth in Local Laws 111, 122, 123 and 127 of 2023.

Local Law 111 amended section 27-2056.4 of the administrative code to require that, no later than August 9, 2025, owners include testing of common areas when they perform X-Ray Fluorescence (XRF) lead paint testing of dwelling units in their buildings, as required under subdivision a-1 of such section. XRF is a method of determining the elemental composition of materials. When it comes to housing and environmental safety, XRF analyzers are used to measure the concentration of lead in old paint.

The adopted amendments to the rules incorporate that requirement. The law also provides for HPD inspections of common areas, and makes the presence of lead-based paint in a common area of a multiple dwelling where a child of applicable age resides, that is peeling or on a deteriorated subsurface, a class C violation.

Local Law 122 amended section 27-2056.7 of the administrative code to provide that when an owner receives a lead hazard violation pursuant to section 27-2056.6, they must provide records of annual notice and investigations for lead-based paint hazards conducted in the previous year. The law and the adopted rules also incorporate a provision for dismissal of record keeping violations where an owner submits all records required to be kept under LL #122 for the last 10 years, or, in cases where the owner does not have all required records for the last 10 years, submits a dismissal request form with records required to be kept for the last 3 years, and a payment of \$1,000 for each year of the 10 years that the owner does not submit records.

Local Law 123 amended section 27-2056.8 of the administrative code to require that by July 1, 2027, where a child under age 6 resides, or within 3 years of the date that a child under age 6 comes to reside, in a dwelling unit in a pre-1960 multiple dwelling, the owner must comply with the turnover requirements for the dwelling unit, found in section 27-2056.8(a)(1 - 4). These requirements include the remediation of all lead based hazards and any underlying defects; making all bare floors, window sills and window wells in the dwelling unit smooth and cleanable; the removal or permanent covering of all lead-based paint on all friction surfaces on all doors and door frames; and the removal or permanent covering of all lead-based paint on all friction surfaces on all windows, or the installation of replacement window channels or slides on all lead-based painted friction surfaces on all windows. The required "turnover" work must be completed unless the unit is turned over prior to July 1, 2027 or within three years of a child under 6 beginning to reside in the unit. Work that is performed in occupied units must be performed in compliance with all applicable city and federal safe work requirements. If relocation of in-place occupants is necessary, and the occupant refuses to temporarily relocate, the owner may apply to HPD for a temporary exemption from doing such work upon approval by HPD of documentation demonstrating the owner's good faith effort to perform the required work and to show the occupant's refusal to relocate, as outlined in the amendments to these rules. Owners who receive a violation of section 27-2056.8 for failing to perform turnover work will be required to submit records of annual notice and lead-based paint investigations conducted, as required to be kept under section 27-2056.7 or section 27-2056.17. The adopted rules incorporate the amendments regarding compliance with the turnover requirements, relocation requirements, and the ability of an owner to be exempt from such turnover requirements when a tenant refuses to temporarily relocate.

Local Law 127 amends section 27-2056.17 of the administrative code to modify the criteria that HPD uses for the selection of buildings to be audited for compliance with sections 27-2056.4, 27-2056.6, and 27-2056.8, by including, in addition to lead-based paint hazard violations and turnover violations, data on the prevalence of elevated blood lead levels in certain geographic areas identified by the Department of Health and Mental Hygiene. Turnover violations are issued when lead-based paint conditions are not corrected within a certain time after an apartment is leased to a new tenant if a child of applicable age resides there. The adopted amendments to the rules incorporate the new criteria.

The adopted rule also includes minor plain language edits throughout.

New material is underlined.  
[Deleted material is in brackets.]

"Shall" and "must" denote mandatory requirements and may be used interchangeably in the rules of this department, unless otherwise specified or unless the context clearly indicates otherwise.

Section 1. Section 11-02 of chapter 11 of Title 28 of the Rules of the City of New York is amended to read as follows:

#### §11-02 Owner's Responsibility to Remediate.

An owner [shall] must remediate all lead-based paint hazards and underlying defects in a dwelling unit and in the common areas of a dwelling where a child of applicable age resides in accordance with the applicable work practices set forth in §11-06 of these rules.

§2. Subdivisions b and c of section 11-04 of chapter 11 of Title 28 of the Rules of the City of New York are amended to read as follows:

#### §11-04 Investigation for Lead-Based Paint Hazards.

(b) [Within five years after] No later than the earliest of August 9, [2020] 2025, [or within] one year after a child of applicable age comes to reside in a dwelling unit subject to the requirements of subdivision a of administrative code §27-2056.4 and subdivision (a) of this section, [whichever is sooner,] or the issuance of an order by the department of health and mental hygiene as required by such order, one investigation for the presence of lead-based paint undertaken pursuant to subdivision a of this section [shall] must be performed by a person who (i) is not the owner or the agent of the owner or any contractor hired to perform work related to the remediation of lead-based paint hazards, and (ii) is certified as an inspector or risk assessor pursuant to section 745.226 of title 40 of the code of federal regulations. Such inspection [shall consist of the use of] must be conducted with an x-ray fluorescence analyzer on all types of surfaces in accordance with the procedures described in chapter 7 of the United States department of housing and urban development guidelines for the evaluation and control of lead-based paint hazards in housing, including on chewable surfaces, friction surfaces, and impact surfaces, to determine whether lead-based paint is present, and where such paint is located, in such dwelling unit and in the common areas of such multiple dwellings. Provided, however, that the investigation specified by this subdivision shall not be required if an investigation that complies with the requirements of this subdivision was previously completed and the owner retains records of such investigation, or if the dwelling unit or common area has an exemption from the presumption of lead paint, as provided in subdivision (b) of administrative code section 27-2056.5. If a new owner does not receive from the previous owner records of such investigation having been performed, such new owner [shall] must perform the investigation required by subdivision (a-1) of [administrative code] section [27-2056] 27-2056.4 of the administrative code and retain records of such investigation.

(c) (1) An owner [shall] must maintain and transfer to a subsequent owner records of inspections of dwelling units and common areas performed pursuant to subdivisions (a) and (b) of this section. Such records [shall] must include the location of such inspection, the results of such inspection for each surface in each room, as specified in subdivisions (a) and (b) of this section, and, for subdivision (b) of this section, for any such inspection that is performed after August 9, 2020, an affidavit from the lead inspector or risk assessor who performed the investigation for the presence of lead-based paint. An owner [shall] must also keep a record of the actions taken as a result of an inspection performed under subdivisions (a) or (b) of this section pursuant to [28 RCNY §§11-02] sections 11-02 or 11-05 of these rules.

(2) If an owner claims an inability to gain access to the unit for an inspection, such records [shall] must contain a statement describing the attempt made to gain access, including, but not limited to providing a written notice to the tenant, delivered by certified or registered mail, or by first class mail with proof of mailing from the United States Postal Service, informing the tenant of the necessity of access to the dwelling unit to perform the inspection, and the reason why access could not be gained. Such records [shall] must be kept for a period of ten years from either the date of completion of the inspection, or from the date of the last attempt to gain access by the owner, or transferred to a subsequent owner and maintained by such subsequent owner during such time period, and made available to the department upon request. In addition, the owner [shall] must make such records available to the occupant of such dwelling unit upon request.

§3. Subdivisions a and b of section 11-05 of chapter 11 of Title 28 of the Rules of the City of New York are amended to read as follows:

#### §11-05 Turnover of Dwelling Units.

(a) Upon the earlier of (i) turnover of any dwelling unit in a multiple dwelling erected prior to January first, nineteen hundred and sixty[, or of a dwelling unit in a private dwelling erected prior to January first, nineteen hundred and sixty where each dwelling unit is to be occupied by persons other than the owner or the owner's family], (ii) by July 1, 2027 for any dwelling unit in such multiple dwelling where a child of applicable age resides as of January 1, 2025, or (iii) within 3 years after the date a child of applicable age begins to reside in any occupied dwelling unit in such a multiple dwelling prior to turnover, the owner shall within such dwelling unit have the responsibility to:

(1) remediate all lead-based paint hazards and any underlying defects, when such underlying defects exist for each turnover of a dwelling unit and prior to turnover as provided in this subdivision;

(2) make all bare floors, window sills, and window wells in the

dwelling unit smooth and cleanable for each turnover of a dwelling unit and prior to turnover as provided in this subdivision;

(3) provide for the removal or permanent covering of all lead-based paint on all friction surfaces on all doors and door frames; and

(4) provide for the removal or permanent covering of all lead-based paint on all friction surfaces on all windows, or provide for the installation of replacement window channels or slides on all lead-based painted friction surfaces on all windows.

(b) Such work [shall] must be performed in the time period commencing with the vacancy of the unit and [shall] must be completed prior to reoccupancy of such unit, or earlier, in occupied dwelling units where a child of applicable age resides as provided in subdivision a of this section. All work performed pursuant to this section upon turnover [shall] must be performed using the applicable safe work practices set forth in §11-06(g)(3) of these rules. All work performed pursuant to this section prior to turnover in a dwelling unit where a child of applicable age resides must be performed pursuant to safe work practices set forth in §11-06(a)-(g)(1) and (2) as applicable.

§4. Clause E of subparagraph ix of paragraph 1 of subdivision g of section 11-06 of chapter 11 of Title 28 of the Rules of the City of New York is amended to read as follows:

(E) *Relocation.* (a) An owner [shall] must request that an occupant temporarily relocate from a unit pending completion of work where it appears that work cannot be performed safely with occupants in residence. Such owner [shall] must offer a suitable, decent, safe and similarly accessible dwelling unit that does not have lead-based paint hazards to such occupants for temporary relocation. Unreasonable refusal by such occupants to relocate pursuant to such offer shall constitute a refusal of access under housing maintenance code §§27-2009 and 27-2056.4(b), and, where applicable, 9 NYCRR §2524.3(e). Relocation shall not be required provided that work can be done safely with occupants in residence, and provided further that at the end of each day of work, the work area is properly cleaned as specified in subdivision (g)(1)(ix)(A) of this section; occupants have safe access to areas adequate for sleeping; occupants have bathroom and kitchen facilities available to them; occupants have safe access to entry/egress pathways; and the work does not create other safety hazards (e.g., exposed electrical wiring or holes in the floor).

(b) Where compliance with section 27-2056.8 of the administrative code would necessitate that an occupant of a dwelling unit where a child under age six resides temporarily relocate from the dwelling unit in accordance with the safe work practices in this section, and the occupant of such dwelling unit refuses to relocate, the owner shall be exempt from such compliance with section 27-2056.8 upon approval by the department of documentation demonstrating the owner's good faith effort to perform the required work and to show the occupant's refusal to relocate. Such exemption shall remain in effect until the dwelling unit is vacated by the previous occupant and turned over to a new occupant. Upon approval of such exemption, the department shall dismiss any violation of section 27-2056.8 which was the basis for the owner's request for the exemption, or which was issued after the exemption was granted and prior to the dwelling being turned over to a new occupant.

(c) An owner must submit the following documentation to apply for an exemption from compliance with §27-2056.8: (1) a copy of the notice to the tenant explaining the scope of work required to be done, the reasons that temporary relocation is necessary, and an offer of a suitable, decent, safe and similarly accessible dwelling unit; (2) a document detailing the scope of all work required to be done in the dwelling unit to comply with the requirements of §27-2056.8; (3) the reasons that the work cannot be done without the occupant temporarily relocating from the dwelling unit, including, but not limited to, why the owner cannot provide safe temporary access to the work area as required under clause F of subparagraph ix of paragraph 1 of subdivision g of section 11-06; (4) the offer of a suitable, decent, safe and similarly accessible dwelling unit that the owner conveyed to the occupant for temporary relocation; and (5) a document, signed by the occupant, refusing to temporarily relocate from the unit so that the work described in the scope of work can be performed, or, if the tenant has refused to relocate and has refused to sign such document, an affidavit from the owner regarding such occupant's refusal, including the date and time of the owner's good faith effort to contact the occupant.

§5. Paragraph 3 of subdivision g of section 11-06 of chapter 11 of Title 28 of the Rules of the City of New York is amended to read as follows:

(3) Work performed in a vacant dwelling unit on turnover in accordance with §27-2056.8 of article 14 of the housing maintenance code.

(i) *Preparation.* The procedures described in subdivision (g)(2)(i)-(iv) of this section [shall] must be followed, unless the work is being performed during occupancy where a child under age six resides.

(ii) *Clean-up.* At the completion of work, the work area [shall] must be thoroughly wet-mopped or HEPA-vacuumed and a visual examination [shall] must be conducted in the work area and the area adjacent and exterior to the work area. Any noted lead-contaminated dust or debris [shall] must be wet-mopped or HEPA-vacuumed. All rags, cloths and other supplies used in conjunction with chemical strippers or other flammable materials, or materials contaminated with lead dust or paint [shall] must be stored at the end of each work day in sealed containers or removed from the premises, in a lawful manner.

(iii) *Lead-contaminated dust clearance testing.* Lead-contaminated dust clearance testing [shall] must be conducted in accordance with subdivision (g)(1)(ix)(C)-(D) of this section.

§6. Section 11-09 of chapter 11 of Title 28 of the Rules of the City of New York is amended to read as follows:

#### **§11-09 Certification of Correction of Lead-Based Paint Hazard Violation.**

(a) A registered owner or registered officer or director of a corporate owner or registered managing agent [shall] must submit a certification of correction of a lead-based paint hazard violation issued pursuant to [§27-2056.6] sections 27-2056.6 or 27-2056.6.1 of article 14 of the housing maintenance code and these rules within five (5) days of the date set for correction in the notice of violation. Such certification [shall] must be made in writing, under oath by the registered owner, a registered officer or director of a corporate owner or by the registered managing agent and [shall] must include the following:

(1) the date that the violation was corrected, and a statement that the violation was corrected in compliance with article 14 of the housing maintenance code and §11-06 of these rules;

(2) the results of laboratory tests performed by an independent laboratory certified by the state of New York for lead-contaminated dust clearance tests performed pursuant to §27-2056.11(b) and (d) of the housing maintenance code and §11-06(g)(1)(ix)(C) and (D) of these rules;

(3) a copy of the certificate of training required pursuant to §11-06(b)(2)(iii) qualifying the person who performed the lead-contaminated dust clearance testing; and

(4) a sworn statement by the person or firm who performed the work necessary to correct the violation that such work was performed in accordance with the applicable provisions of §27-2056.11 of article 14 of the housing maintenance code and the applicable provisions of §11-06 of these rules; and

(5) a copy of the certification by the United States environmental protection agency of the firm that performed the work as required pursuant to §11-06(b)(2)(i) of these rules.

(b) Certification of a lead-based paint hazard violation issued pursuant to sections 27-2056.6 or 27-2056.6.1 shall be rejected by the department unless the results of the laboratory tests for the required lead-contaminated dust clearance tests are submitted with the certification, and such laboratory test results comply with the standards specified in §11-06(g)(1)(ix)(D) of these rules.

(c) Failure to file a certification of correction of such violation shall establish a prima facie case that such violation has not been corrected.

§7. Subdivision a of section 11-10 of chapter 11 of Title 28 of the Rules of the City of New York is amended to read as follows:

#### **§11-10 Postponements.**

(a) An owner may apply to the department in writing for postponement of the time to correct a lead-based paint hazard violation issued pursuant to [§27-2056.6] sections 27-2056.6 or 27-2056.6.1 of article 14 of the housing maintenance code within the five days preceding the date set for correction of such violation pursuant to §27-2115(l)(1).

§8. Section 11-12 of chapter 11 of Title 28 of the Rules of the City of New York is amended to read as follows:

#### **§11-12 Additional Audits and Demands for Records.**

(a) Upon the issuance by the department of a demand for records to determine compliance with the requirements of article 14 of the housing maintenance code, the department may require that an owner submit to it records required to be kept by such owner pursuant to article 14 of the housing maintenance code and these rules. The department may make such demands and perform such audits at any time, and, in addition, shall perform such audits for a minimum of 200 buildings each fiscal year. Such records must be submitted to the department within 45 days of written demand for such records by the department, or within such other time period not less than 45 days as shall be stated in writing to the owner, in the discretion of the department.

(b) The department may select the buildings required to be audited each fiscal year pursuant to subdivision (a) of this section using the following criteria, which shall include, but need not be limited to:

(i) buildings with peeling lead-based paint violations issued pursuant to §27-2056.6 of the administrative code as a result of a positive XRF test;

(ii) buildings with violations that have been issued for other indicators of deteriorated subsurfaces including, but not limited to, mold and leaks, and;

(iii) [buildings selected from a random sample of buildings based on data on the prevalence of elevated blood lead levels in certain geographic areas identified by the department of health and mental hygiene; and

(iv) buildings selected from a random sample of buildings that are subject to the presumption in section 27-2056.5 of article 14 of the housing maintenance code] buildings with violations that have been issued pursuant to section 27-2056.8.

The buildings selected may be subject to further selection criteria including building size, date of issuance of violations, percentage of units with housing maintenance code violations, and location. Further, in selecting buildings for audit from those buildings with violations identified within this subdivision, the department may consider the number of such violations and data on the prevalence of elevated blood lead levels in certain geographic areas identified by the department of health and mental hygiene.

(c) The department may undertake an inspection, and any enforcement action authorized by law, where an owner refuses or fails to produce the records required by the department pursuant to its audit demand or pursuant to any other proper order.

(d) Documentation Required under Records Audits and other Demands for Records. The documents that may be required to be submitted to the department for each year for any audit as specified by the department or pursuant to a demand for records issued for a violation of sections 27-2056.6, 27-2056.6.1, 27-2056.8 or any other applicable provision of article 14 of the housing maintenance code are set forth in subdivisions (e) through (i) of this section. The department may make available on its website the forms or affidavits required for such submissions. If a new owner has acquired the building within the required audit period, and the documentation required to be kept was not provided to the new owner by the previous owner, the new owner must provide the required documentation for the actual years of ownership and an additional affidavit of missing records for the remaining period of time covering the audit period, accompanied by a copy of the deed of ownership.

(e) Audit or Demand for Records of Annual Notice Distribution and Investigation. Pursuant to subdivision (d) of this section, the owner [shall] must provide:

(1) Proof of delivery to the occupant of each dwelling unit of the annual notice required to be provided by section 11-03(b), including:

(i) An affidavit of Delivery/Email/Mail from the owner providing the following information: Complete owner's name, address, contact information, and date of the affidavit; name of the owner's representative who performed the delivery/ mailing/ emailing on behalf of the owner of the annual notice required to be provided by 28 RCNY §11-03 (b); and a sample copy of such annual notice in English and Spanish that was delivered/mailed/ emailed to occupants of the owner's building;

(ii) A complete list of recipient dwelling units with the building address, each dwelling unit number and the date of delivery to each dwelling unit or the date of the email/mail notice sent to each dwelling unit; and

(iii) Whenever applicable, a complete list of any dwelling units and common areas in the building for which there is a lead exemption obtained from the department [for the dwelling unit] that is in effect during the audit period; and a complete list of owner/shareholder-occupied cooperative or condominium dwelling units during the audit period, where the owner was not required to provide such annual notice to such owner/shareholder. Any such lists must be signed by the owner.

(2) Annual notice response received from the occupant of each dwelling unit, including:

(i) A list of the dwelling units that received the annual notice required to be provided by section 11-03(b), with an indication of whether each dwelling unit responded and, if so, the substance of such response, including whether a child under six resides in such dwelling unit, based on either the occupant's verbal or written response or the owner's inspection/knowledge;

(ii) Copies of the completed and returned annual notices, where

received. Such annual notice must have the building address, dwelling unit number, and occupant's name, signature and date, where received; and

(iii) For those dwelling units that did not respond to such annual notice, the date when access was attempted to confirm whether a child under six resides in such therein or an indication that the owner had knowledge of a dwelling unit in which a child under six resides; and proof of providing written notice by certified or registered mail or by first class mail with proof of mailing of the need to access the unit; and a copy of the notice sent by the owner to the department of health and mental hygiene regarding failure to access any particular dwelling unit.

(3) Annual investigation reports conducted pursuant to responses by occupants to annual notices required to be provided by section 11-03(b), including:

(i) An affidavit stating that access was gained to conduct the visual inspection of the dwelling unit, that the inspection was conducted, the person who conducted such inspection, the date of inspection, and the dwelling unit number; and

(ii) For dwelling units that were inspected, the owner must provide copies of the inspection report including a statement of whether there was or was not peeling paint on all visually inspected components or similar documentation. The owner may use a sample form made available by the department for documentation of owner investigations, or a substantially similar form containing the same information to provide a report of surface-by-surface, individual paint-containing building component investigation, including walls, chewable surfaces, deteriorated subsurfaces, friction surfaces and impact surfaces in every room, including interiors of closets and cabinets;

(iii) On and after August 1, 2025, records of any x-ray fluorescence analysis conducted pursuant to subdivision a-1 of section 27-2056.4 of the administrative code and subdivision (b) of section 11-04 of these rules, and

(iv) If access was not gained to a dwelling unit, an affidavit stating the dates that an attempt was made to gain access, including the date the owner provided written notice of the need for access by certified or registered mail or by first class mail with proof of mailing. For such units, the owner must also provide copies of the written notice to the occupant informing the occupant of the need to access the unit or similar documentation and a record regarding access attempts and the reasons for failure of access as set forth in subdivision (b) of section 11-04 of these rules.

(f) Audit or Demand for Records of Work Performed to Correct Lead Based Paint Hazard Violations.

For currently open and uncertified violations in the period, the owner must submit:

(1) An affidavit AF-5;

(2) An affidavit made by an EPA-certified abatement firm's authorized agent or individual who performed the work to correct the lead-based paint hazard violation(s) stating that the work was performed in accordance with section 27-2056.11 of article 14 of the housing maintenance code and section 11-06 of these rules; the start and completion date of the work; and the address and contact information (phone or fax) for the EPA-certified abatement firm that completed the work;

(3) A copy of the EPA certification for the EPA-certified abatement firm that performed the work to correct the lead-based paint hazard violation(s);

(4) A copy of the State-certified laboratory analysis of all surface dust samples taken which indicates the method of preparation and analysis of the samples;

(5) An affidavit from the individual who took the surface dust sample, verifying the date the sample was taken and indicating the address and dwelling unit where the sample was taken; and

(6) A copy of the Certificate of Training of the individual who took surface dust samples that is valid for the period when the dust samples were taken.

(g) Audit or Demand for Records of Non-violation Work that Disturbed Lead Based Paint or Paint of Unknown Lead Content. Upon a request by the department pursuant to subdivision (b) of this section, an owner must submit an affidavit that no non-violation work on such painted surfaces in apartments with children under six at the time of the repair was completed in the audit request period, or submit the following documents:

(1) Records for all non-violation work that disturbed lead-based paint or paint of unknown lead content on a surface greater than two square feet per room, in a dwelling unit where a child under six

years of age resides, or in the common areas of the building, including documentation of the work practices used. Such records shall include:

- (i) All documentation required under section 11-06(c) of these rules;
- (ii) A copy of all licenses and training certificates, required for the firms and personnel who performed the work;
- (iii) An affidavit made by an EPA-certified abatement or EPA-certified renovation firm's authorized agent or individual who performed the work stating that the work was performed in accordance with section 27-2056.11 of article 14 of the housing maintenance code and section 11-06 of these rules, including the start and completion date of the work, and the address and contact information (phone or fax) for such firm;
- (iv) A copy of the certification for such firm;
- (v) The location of the work performed in each room, including a description of such work or invoices for payment for such work;
- (vi) A copy of the State-certified laboratory analysis of all surface dust samples taken which indicates the method of preparation and analysis of the samples;
- (vii) An affidavit from the individual who took the surface dust samples, verifying the date the sample was taken and indicating the address/dwelling unit where the sample was taken;
- (viii) A copy of the Certificate of Training of the individual who took surface dust samples that is valid for the period when the dust samples were taken; and
- (ix) Checklists completed when and/or occupants were allowed temporary access to a work area.

(2) In addition to the documents required to be submitted by paragraph (1) of this subdivision, if the work that was performed disturbed greater than 100 square feet of lead based paint or paint of unknown lead content in a room in a dwelling unit where a child under age six resides, or involved the removal of two or more windows with lead based paint or paint of unknown lead content in such unit, the department may require the submission of the following additional documentation:

A copy of the owner's notice of commencement of work that was filed with the department of health and mental hygiene. Such notice [shall] must be signed by the owner or by a representative of the firm performing the work. Such notice [shall] must include: the name, address and telephone number of the owner of the premises in which the lead-based paint work is to be performed; the address of the building and the specific location of the lead-based paint work within the building; the name, address and telephone number of the EPA-certified abatement firm that will be responsible for performing the work; the date and time of commencement of the work, working or shift hours, and the expected date of completion; a complete description and identification of the surfaces and structures, and surface areas, subject to the work; and any changes in the information contained in such notice filed with the department of health and mental hygiene prior to commencement of work, or if work has already commenced, within 24 hours of any such change.

(h) Audit or Demand for Records of Work Performed at Turnover of any Dwelling Unit or Prior to Turnover in Dwelling Units Occupied by a Child of Applicable Age: Upon an audit of turnover of a dwelling unit, the owner [shall] must provide:

(1) An affidavit listing any dwelling units that have turned over in the audit period, which [shall] must include the dates that the dwelling unit was vacated and reoccupied; and

(2)(A) Where no work was necessary to comply with the requirements for turnover of any dwelling unit: An affidavit stating that the dwelling unit: (i) has a lead free exemption from HPD; (ii) has no painted friction surfaces and the floor, window sills and window wells are smooth and cleanable such that no turnover work or clearance activity was required; or (iii) was XRF tested by a EPA-certified risk assessor or lead inspector and no painted surfaces tested positive for lead-based paint, with a copy of the results of the XRF test and an affidavit from the risk assessor or lead inspector; or

(B) Where work was necessary to comply with the requirements for turnover of the dwelling unit:

(i) The name, address, and telephone number of the EPA-certified abatement or EPA-certified renovation firm that performed the work;

(ii) A copy of all licenses and training certificates required for the firms and personnel who performed work;

(iii) A sworn statement made by the EPA-certified abatement firm's or EPA-certified renovation firm's authorized agent or individual who performed the work on behalf of such firm stating that the work was performed in accordance with section 27-2056.11(a)(3) of article 14 of the housing maintenance code and section 11-06 of these rules, and the start and completion date of the work;

(iv) A copy of the certification for such firm ;

(v) The location of the work performed in each room, including a description of such work and components or parts of the dwelling unit that were replaced, or the invoices for payment for such work;

(vi) A copy of the State-certified laboratory analysis of all surface dust samples taken which indicates the method of preparation and analysis of the samples;

(vii) An affidavit from the individual who took the surface dust sample, verifying the date that the sample was taken and stating the address and dwelling unit where the sample was taken; [and]

(viii) A copy of the Certificate of Training of the individual who took surface dust samples that is valid for the period when the dust samples were taken; and

(ix) On and after August 1, 2025, records of any x-ray fluorescence analysis conducted pursuant to subdivision a-1 of section 27-2056.4 of the administrative code and subdivision (b) of section 11-04 of these rules.

(i) Audit or Demand for Records of Investigation for the Presence of Lead-Based Paint pursuant to Administrative Code §27-2056.4(a-1). Upon an audit of the investigation required under administrative code §27-2056.4(a-1), the owner [shall] must provide:

(1) Identification of each dwelling unit and common area that was investigated;

(2) Whether a child of applicable age resided in the dwelling unit and, if so, the date such child first came to reside in such unit;

(3) Date of the investigation;

(4) Documentation identifying the firm and individuals who performed the investigation pursuant to administrative code §27-2056.4(a-1), including copies of certifications of such firm and individuals pursuant to section 745.226 of title 40 of the code of federal regulations;

(5) Testing results from the investigation pursuant to administrative code §27-2056.4(a-1) and 28 RCNY §11-04(b); and

(6) Identification of any dwelling units in the building that have been granted an exemption by the department pursuant to 28 RCNY §11-08.

(j) Dismissal of Record Keeping Violations. Notwithstanding any other provision of law, a violation issued to an owner of a multiple dwelling pursuant to sections 27-2056.4, 27-2056.7, or 27-2056.17 of the administrative code, which require keeping or producing records for 10 years, shall be dismissed as having been corrected if the owner submits:

(1) a record production order dismissal request form for such violation with the required consecutive 10 years of records, including records for the year in which the owner is submitting the dismissal request; or

(2) the appropriate violation dismissal request form for such violation with documentation demonstrating that the owner has kept the required records for a period of at least 3 consecutive years, including such records for the year in which the owner is submitting the dismissal request, and upon notification from the department that such submitted documentation is sufficient, a payment of \$1,000 for each year of the 10 years that the owner does not submit documentation.

**NOTE:**

- Biodiesel tax credit expired on 12/31/2024. New invoices will not reflect the credit.**
- Federal excise taxes are imposed on taxable fuels, (i.e., gasoline, kerosene, and diesel), when removed from a taxable fuel terminal. This fuel excise tax does not include Leaking Underground Storage Tank (LUST) tax. LUST tax applies to motor fuels for both diesel and gasoline invoices. Going forward, LUST Tax will appear as an additional fee at the rate of \$0.001 per gallon and will be shown as a separate line item on your invoice.
- The National Oil Heat Research Alliance (NORA) has been extended until February 6, 2029. A related assessment of \$.002 per gallon has been added to the posted weekly fuel prices and will appear as a separate line item on invoices. This fee applies to heating oil only and since 2015 has included #4 heating oil. All other terms and conditions remain unchanged.
- Federal Superfund Tax is included in the DCAS weekly pricing schedule, and it should not show as an additional fee.

**REMINDER FOR ALL AGENCIES:**

All entities utilizing DCAS fuel contracts are reminded to pay their invoices **on time** to avoid interruption of service. Please send inspection copy of receiving report for all gasoline (E70, UL PREM) delivered by tank wagon to OCP/Bureau of Quality Assurance (BQA), 1 Centre Street, 18th Floor, New York, NY 10007.

- April 1st – October 31st transition to non-winter fuel.
- November 1st – March 31st transition to winter fuel.

designated in the Zoning Resolution, the owner must obtain a "Certification of No Harassment" from the Department of Housing Preservation and Development ("HPD") stating that there has not been harassment of the building's lawful occupants during a specified time period. Harassment is conduct by an owner that is intended to cause, or does cause, residents to leave or otherwise surrender any of their legal occupancy rights. It can include, but is not limited to, failure to provide essential services (such as heat, water, gas, or electricity), illegally locking out building residents, starting frivolous lawsuits, and using threats or physical force.

The owner of the building identified above has applied for a Certification of No Harassment. If you have any comments or evidence of harassment at this building, please notify HPD at **CONH Unit, 100 Gold Street, 6th Floor, New York, NY 10038** by letter postmarked not later than 30 days from the date of this notice or by an in-person statement made within the same period. To schedule an appointment for an in-person statement, please call **(212) 863-5277 or (212) 863-8211**.

**For the decision on the Certification of No Harassment Final Determination please visit our website at [www.hpd.nyc.gov](http://www.hpd.nyc.gov) or call (212) 863-8266.**

01/28/25	1/28/2031	LPC-24-10446	SRB-24-10446

<b>ADDRESS:</b> 1000 FIFTH AVENUE	<b>BOROUGH:</b> Manhattan	<b>BLOCK/ LOT:</b> 1111 / 1
Central Park, Scenic Landmark		
Metropolitan Museum of Art, Interior Landmark		
Metropolitan Museum of Art, Individual Landmark		

To the Mayor, the Council, and the Department of Cultural Affairs,

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25- 318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for interior alterations at the first floor transverse passageways and passageway connecting the Great Hall with the Grand Staircase, and at the second floor balconies encircling the Great Hall and the Grand Staircase, which are within the portion of the building designated as an Interior Landmark, including installing three (3) white-finished carbon monoxide detectors at the ceiling, including installing one (1) detector at each of the north and south transverse passageways, and at the passageway connecting the Great Hall with the Grand Staircase; and installing five (5) carbon monoxide detectors on posts on top of each of five (5) existing display cases at the second floor balconies, as well as interior alterations at the ground and first floors, outside the portion of the building designated as an Interior Landmark, as described and shown in a memorandum, dated March 29, 2024, and prepared by Beyer Blinder Belle; a digital presentation, titled "The Great Hall Modifications and Additions to Existing Fire Alarm System: Carbon Monoxide Detection," dated February 22, 2024, and prepared by Beyer Blinder Belle, consisting of 12 pages containing photographs, drawings, and photomontages; and drawings FA-001.00, FA-002.00, FA-100.00 through FA-109.00, FA-300.00, and FA-400.00 through FA-407.00, dated (issued) September 18, 2024, and prepared by Timothy Raymond Costello, PE; and G-001.00, A.102, A.104, A.106, A.204, A.206, A.301 through A.303, A.405, A.500, and A.600 through A.602, dated January 10, 2025, and prepared by Richard W. Southwick, RA, all submitted as components of the application.

In reviewing this proposal, the Commission notes that the Metropolitan Museum of Art Designation Report describes 1000 Fifth Avenue as a Beaux-Arts and Roman style museum, built in 1864-1965, and designed by Vaux and Mould, R.M. Hunt, McKim Mead and White, and others; and that the Metropolitan Museum of Art Interiors Designation Report describes the interior designated space as an entrance vestibule, the Great Hall, a passageway, corridors, the Grand Staircase, halls, balconies, and all vaults and domes above these halls and balconies, designed by Richard Morris Hunt and Richard Howland Hunt, with consulting architect George B. Post, and built in 1895-1902.

With regard to this proposal, the Commission finds that the work will not damage, eliminate, conceal, or detract from any significant architectural features; that the detectors at the first floor will be mounted at plain plaster ceilings; that the detectors at the second floor will be installed at modern elements within the Interior Landmark; that the detectors will be small in size, simply designed, and will not call undue attention to themselves; that no exposed conduit will be visible from the locations designated as an Interior Landmark; that the work is reversible in nature; and that the work is required to comply with the Building Code. Based on these findings, the Commission determined that the work is appropriate to the building. The work, therefore, is approved.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently

displayed at the site while work is in progress. Please direct inquiries to Michelle Craren.

Sealant to be replaced at existing expansion joints; deteriorated terra cotta can be locally repaired with patching material or replaced depending on the severity of the condition; steel windows will be scraped, primed and painted and perimeter sealant replaced; existing historic wrought iron security grills will be prepared, primed and painted in place; existing marble copings will be removed, salvaged, repaired and re-installed with new stainless-steel anchors, through-wall copper flashing and weather caps at all skyward facing joints; coping replacement, where required, will be performed in kind; at the underside of the mezzanine hallways repairing the concrete and coating of the concrete with mineral coating after repairs are completed; at the main entrance work entails replacement of the waterproofing under the main steps, and portico landing; it will entail careful removal, salvage of the granite steps, pavers and partial removal of the side wall trim; the cheek walls will remain in place and will be re-pointed; installing a cold applied reinforced polyurethane-methacrylate system waterproofing system; this membrane will also be used to waterproof the window wells and foundation walls at the building perimeter; at the monumental stairs removal of the existing railing and replacement with a new code compliant bronze railing of similar shape; at the main entrance portico landing, re-installation of the historic guardrail at the same location and a new bronze frame guardrail with clear glass set back into the building; at the three statues above the pediment, installation of scaffolding to reach each figure for further assessment; at the sub-basement replacing the waterproofing of the window wells above the sub-basement along with new drains, installation of negative side crystalline waterproofing around the perimeter of the sub-basement and basement, curtain grout

injection to mitigate water infiltration through construction joints; excavating along the building's perimeter to install positive side waterproofing, negative side waterproofing to be installed in the interior; replacement of the walkways and sidewalks which will ensure water is directed away from the building's walls; installation of new piping system and drains at the interior courtyards; installation of a new drainage system at the sub-basement which include re-grading of the sub-basement slab to new drains to allow surface water to be properly collected; installation of new crystalline waterproofing will entail removing the existing terra cotta wall around the perimeter of the sub-basement foundation wall; a new furring wall consisting of steel studs and gypsum wall board will be installed after structural repairs are completed and walls and floors the sub-basement will be painted in its entirety; at the four large window wells located on the south (Pearl Street), southeast (Kent Place), north (Worth Street), and northwest (Hamill Place), facing facades of the building, removal of the existing waterproofing system down to the structural slab and installation of curtain grout at the perimeter of the window well, repairs to the concrete slab, levelling and installation of new reinforced liquid applied waterproofing system which includes installation of a reglet into the granite wall to provide a watertight base flashing installation and overburden composed of drainage mat and insulation and concrete topping slopped to drain; drains will be replaced with a 2-level promenade drains which will allow drainage at the concrete topping level and below the overburden, repointing of all granite joints, stone repairs (i.e. dutchman, resetting) and installation of sealant at the granite coping cross joints; removal, salvage and re-installation of existing security metal grills to allow for repointing of window jambs; existing metal grills to be prepared, primed and painted to match existing; at the Pearl Street Window well, replacement of concrete topping above the vault for installation of waterproofing. Work will require removal, salvaging and resetting a portion of the existing granite copings for proper waterproofing installation; at the edges of the vault removal, salvaging and re-setting of the existing fences in the same location; fences will be prepared, primed and painted to match existing; at the Kent Place Window well, replacement of existing damaged railing with new steel pipe railing; preparation, priming and painting of existing security fence at the perimeter of the window well; removal and disposal of existing mechanical equipment no longer in use; removal and disposal of temporary roof platform; removal of the existing temporary protection and installation of new metal security screen similar to Cardinal Hayes and the other window wells; at the Worth Street Window well, removal of temporary wood frame with mesh installed over the window well knee wall and installation of a 4'-6" high steel fence with bear claw; fence will be similar to existing fence at Kent Place Window well, but it will be positioned near the edge of the wall; the surrounding area will be landscaped with shrubs and trees; at the Hamill Place Window well, installation of bronze handrails required per code; at the Cardinal Hayes Place Service Entrance, removal of existing steel railing and replacement with new code compliant bronze railings; at the 12 small window wells around the building; removal and resetting existing stone copings, repair of the masonry walls, waterproofing installation at the walls, new ADA compliant grating and drain replacement; window well historic security grilles will be prepared, primed and painted; perimeter sealant at windows will be replaced; at the buildings 56 roofs, 46 flat roofs, batten seams flat roofs, and copper roofs, comprehensive roofing replacement and repairs; at all 46 flat roofs, removal and replacement of existing flat roofs with SBS roofing system, except for 5 roofs at stone cornices which will be replaced with reinforced liquid applied membrane, including replacement of existing penetrations and base flashings with liquid applied reinforced flashing, installation of vacuum insulated panels combined with polyiso insulation, replacement of existing copper through wall counter flashings at walls; raising of bulkhead door sills to allow installation of new copper sill pan and proper flashing installation; replacement of sheet metal fascia at mezzanine roofs with new copper fascia; installation of new permanent tie-off points at mezzanine roofs; replacement of existing copper skylights with new aluminum energy efficient skylights on new curbs; skylights will be green patina color to match existing; curbs will be raised at a minimum of 8-inches above roof level to allow for proper flashing height; replacement of all roof drains and installation of new reinforced liquid applied flashing; installation of overflow scuppers and respective flashings; refurbishing of existing roof stairs including preparation and paint with anti-corrosive paint; replacement of existing deteriorated roof ladders with new OSHA compliant galvanized ladders; the existing non-compliant guardrail at Roof #02 will be replaced with a new NYC BC and OSHA compliant guardrail; the new guardrail will be set back 24 inches from the parapet wall and while approximately 10-inches higher than the existing, it will be minimally visible and blend in with the surroundings; design of railing is similar to existing and will be attached to the existing granite parapet wall; the existing non-compliant guardrails on the six 5th floor level roofs #04, #06, #09, #13, #17, and #20 located within the interior lightwells, will be replaced with new parapet-mounted guardrails; new parapet mounted guardrails were added to roofs #03, 03a, and 03b

along the east façade facing interior courtyard, 7th floor roofs #05, #08, #11, #14, #16, and #19 and on the bulkhead roofs #07, #10, #15, and #18 at the portion of the roof facing the interior lightwells; at the courtyard, replacement of deteriorated parapets at the courtyard down to window lintel level and replace with new three-wythe solid brick masonry parapets, including new flashing, cleaning and coating of all exposed embedded steel, installation of new anchorage and reinforcement; replacement parapets to match existing in terms of height, face brick color, texture, bond and coursing; coping will be removed, salvaged, cleaned and reinstalled with new anchors, through-wall copper flashing and T-caps at all skyward facing joints; copings at granite parapets at the street facing elevations will be removed, cleaned, stored and reinstalled with new anchors and through-wall copper flashing; and T-caps at all skyward facing joints; street facing parapets at the 7th floor will be partially reconstructed to maintain historic terra cotta; work includes replacement of inboard face brick, removal of existing aluminum coping over existing terra cotta copings, repairs and resetting of terra cotta copings with through-wall copper flashing and replacement one row of terra cotta to expose steel framing for repairs; at the ten (10) skylights on the flat roofs, replacing with new aluminum energy efficient skylights on higher curbs. deterioration of the interior due to water infiltration will be repaired and entire wall painted; existing deteriorated glass frame laylight underneath skylight at roof #3 to be replaced; new skylights will be green patina color to match existing; at roof #11, 7th floor replacement of the existing chillers with a new system on new raised steel dunnage; at the existing copper standing seam roof, removing the existing roofing system down to concrete substrate and installation of new copper batten seam roofing with waterproofing membrane and underlayment; as part of the roofing replacement, copper ladders, perimeter copper guardrails and built-in copper gutters are included; drains at copper gutter will be replaced; new copper to be green patina; at the four (4) skylights above stairs A, B, C, and D removal and replacement with new energy efficient aluminum skylights with patina green color to match the existing copper roof; interior work repairs include repairs of deteriorated interior finishes due to water infiltration and re-painting of the walls; the existing deteriorated glass frames of laylight underneath skylights will be replaced in kind; repairing of all punctures and tears in the copper sheet metal with copper patches and installation of a monolithic fluid-applied membrane to the entire pediment roof #01, including at the batten seam panels and at the perimeter gutter and vertical flashings on roof #25. The membrane will be green patina copper color; at the ridge skylights on roof #01 and 25, repairing in place by encapsulating the skylights with clear liquid applied waterproofing coating, replacement of sealant and installation reinforced liquid flashing (color to match patina copper) at all joints followed by the clear liquid waterproofing coating. Replacement of all roof drains at Roof #1 and #25, at existing granite copings at the pediment roof (roof #01) will be repointed and T-caps will be installed at sky joints; at the polygon skylight on the dome roof #25, replacement of the skylight copper sill cap and flashing with in kind; at the pediment skylight, 7th floor fire staircases, judge's chambers and public spaces removal of spalled and deteriorated plaster, patching and repainting entire wall/ceiling; interior repairs to the rotunda mural artwork which is attached to the plaster will be required after water infiltration is repaired, any work done on the rotunda mural will require separate approval from Landmarks Preservation Commission; at the courtyards, removal and replacement of slab-on-grade, as part of the slab regrading, to address the deterioration and to accommodate for new drains and slopes to minimize the water ponding and water infiltration into the sub-basement; replacement of existing cistern concrete slab and concrete encasements of existing beam at cistern; additionally, the existing slab and concrete encasements will be removed and replaced; at the foundation walls, positive side and negative side waterproofing at the foundation walls to address water infiltration, the negative side waterproofing requires removal of the terra cotta wall to expose the existing concrete foundation and installation of crystalline waterproofing and identify any locations curtain grout injection and installation of sealing strips at cold joints; positive side waterproofing involves excavation of a width of 8 feet and a depth of 5 feet to expose the foundation wall and installation of cold applied reinforced polyurethane-methacrylate system, this membrane will also be used to waterproof the main entrance steps and window wells; at various locations throughout the building, spalling at the underside of the existing structural slab, partial depth repairs will be performed at the localized deteriorations; at select locations of the existing slab, full depth slab repair will be implemented to replace the deteriorated slab; at the Kent Place window well the existing concrete beam encasements are to be removed to expose extent of corrosion along existing steel beams; existing steel beams shall be cleaned and repaired, and the concrete stair and concrete slab at the landings will be demolished and replaced in kind; removal and replacement of existing steel beam concrete encasements throughout the building will be removed and replaced in kind; reinforcement and replacement of existing steel beams with new WT6x20 beams or steel plates to recreate the make of the existing steel beams where applicable; at

locations of serious section loss, the existing beam will be replaced in kind; at Worth street entry, the deteriorated slab area at the top of the existing ramp will be replaced; new chillers are to replace the existing roof MEP units on new steel dunnage at the roof, the dunnage shall be accessible via ships ladder to platform consisting of bar grating between the new units; all steel shall be hot dipped galvanized; at the vault structures, removing or repairing cracked or delaminated concrete encasement from the steel beams, cleaning and painting the steel and restoring the fireproofing; at the Pearl Street Vault, above the main service switchgear providing waterproofing at the window well which will mitigate the water infiltration at this space; at the foundations, trenching and excavation for the installation of the new drainage piping following the radial structure as much as possible to avoid cutting the mat foundation reinforcement; at roof #11, replacing of two existing chillers with two new modular chillers upon a new platform reconnected to existing piping at the point of installation; the new units will be mounted on steel dunnage which will allow for roof maintenance, and will not be visible from the street; at the sub-basement, installation of new drains and regrading of the sub-basement slab to the new drains; new sewage ejector pits and submersible pumps will be installed in the sub-basement to discharge water from new floor and area drains; new piping will run along the ceiling at the sub-basement; the drains in window wells, courtyards and throughout the roofs will be replaced and reconnected to existing piping; at the roof, replacement of all roof drains and extending the vents on the roof to proper height; at roof #25, removing and replacing the heat trace and removing abandoned equipment; at roof #11 replacement and modifications to existing branch panel board, branch circuits and feeders; at the building perimeter, excavating for the installation of waterproofing; this process involves digging to a width of 8 feet and a depth of 5 feet; excavation will be conducted on a controlled manner and with erosions and sediment controls in place; at the walkways, sidewalks and curbs, replacement pavement within the property line will be adjusted to ensure it meets accessibility requirements; this may involve levelling uneven surfaces and creating gentle slopes compliant with the Americans with Disabilities Act guidelines; making sure that surface runoff water drains properly will also be incorporated into the design to enhance pedestrian safety; the construction of new sidewalks and curbs will adhere to the standards and specifications set forth by the New York City Department of Transportation (NYCDOT); this includes ensuring proper dimensions, slopes, materials, and surface finishes to enhance pedestrian safety and accessibility. NYCDOT standard pedestrian ramps will be installed at the sidewalk quadrants providing with safe and accessible access to the sidewalk and plaza areas; in addition, sidewalk and curb materials, finishes and special patterns will meet the guidelines set forth by the Public Design Commission(PDC); the existing four solar rays and sunburst bluestone pattern will be replaced in kind; the medallion is in good condition and will be reset in the same location with new granite and bluestone pavement; the existing bluestone and granite pavement are in poor condition; the project proposes to increase the thickness of the replacement pavement to provide a longer material life expectancy; the current concrete scoring runs in cardinal directions and the squares are 2' by 2'; the proposed concrete scoring is parallel with the courthouse's staircase and expanded to a 5' by 5' grid; this change better aligns with the pedestrian traffic flow and responds to the surrounding design at Federal Plaza; at the plaza, reducing the tree pits to two and aligned with the new sidewalk grid; new trees are proposed to be planted in the empty tree pits; the planting palette includes ornamental trees, such as serviceberry and eastern redbud, shrubs, such as knock-out roses, and perennials, such as lily turf, to provide seasonal color for the Wedding Garden in front of the courthouse; proposed trees, such as honey locust and cornelian cherry, are used on-site and at surrounding plazas, which can provide a more holistic planting scheme; the existing 1939 World's Fair benches are severely weathered and shall be refurbished, or replaced if necessary, and relocated to provide 3' by 3' clearances for wheelchair users; the bike racks along Worth Street are proposed to be replaced with City Rack bike racks per NYCDOT standard; the drinking fountain will be replaced with the Hi-Lo drinking fountain, which is ADA-compliant for accessibility; at the planters at Worth and Centre Street removing the temporary snow fences and installing post and chain fences, which are used at City Hall Park, are proposed to replace the temporary snow fences; at the sidewalk along Pearl Street, reducing the planter width near the staircase to provide an 8'-0" clear path; as described in a letter dated November 1, 2024, prepared by Lauana Lins Rodrigues, and as shown on photographs, and as shown on drawings labeled T-001.00, G-001.00, G-002.00, G-003.00, C-100.00, C-110.00, C-120.00, C-130.00, C-131.00, C-140.00, C-150.00, C-200.00, C-300.00, C-301.00, L-101.00, L-102.00, L-201.00, L-501.00, A-100.00 through A-105.00, A-110.00, A-120.00, A-121.00, A-122.00, A-201.00 through A-212.00, A-220.00 through A-226.00, A-230.00, A-300.00 through A-303.00, A-400.00, A-401.00, A-410.00, A-411.00, A-412.00, A-500.00 through A-504.00, S-001.00, DM-100.00 through DM-103.00, S-100.00 through S-104.00, S-110.00 through S-115.00, S-200.00, S-201.00, S-400.00, S-410.00 through S-421.00, M-001.00, DMM-100.00, M-201.00, M-301.00,

P-001.00, P-100.00 through P-105.00, E-001.00, E-101.00, E-102.00, and e-103.00, all dated October 25, 2024, and submitted as components of the application.

In reviewing this proposal, the Commission notes that the New York County Courthouse (New York State Supreme Court) Individual Landmark Designation Report describes 60 Centre Street as a neo-Classical style courthouse designed by Guy Lowell and built in 1919-1927. The Commission also notes that the plaza on the corner of Centre Street and Worth street was approved under Staff Advisory Report LPC-99- 3054.

With regard to this proposal, the Commission finds that the work is in accordance with the provisions set forth in Title 63 of the Rules of the City of New York, Section 2-11 for Repair, Restoration, Replacement, and Re-creation of Building Facades and Related Exterior Elements, including Section 2-11(c)(1) for cleaning or removal of paint and coatings; Section 2-11(c)(3) for pointing mortar joints; Section 2-11(c)(4) for repair of natural or cast stone; Section 2-11(c)(5) for repair of fired clay and ceramic unit masonry; Section 2-11(c)(8) for repair of cast and wrought iron and other cast or extruded ornamental metals; Section 2-11(d)(1)(i) for in-kind material replacement; Section 2-11(d)(1)(iv)(B) for replacement of cast and sheet metals; Section 2-11(d)(1)(iv)(D) for replacement of cast and natural stone; Section 2-11(d)(1)(iv)(I) for replacement of roofing material; Section 2-19 for Sidewalks, including Section 2-19(f) for other sidewalk materials; Based on these findings, the Commission determined that the work is appropriate to the building. The work, therefore, is approved, contingent upon receipt of final signed and sealed filing drawings.

**SAMPLES REQUIRED:** Pursuant to Title 63 of the Rules of the City of New York, Section 2-11(b)(5) and 2-11(b)(7) for Repair, Restoration, Replacement and Re-creation of Building Façades and Related Exterior Elements, this permit is being issued contingent upon the Commission's review and approval of installed sample mockups at locations requiring repair, prior to the commencement of work. A new docket number will be provided by the Commission staff, and the following required specific samples will be identified in a Materials Checklist: mortar joint cutting, mortar color, texture, and tooling, stone patching, brick unit patch repair, wrought metal repair, sheet metal replacement units, brick replacement at visible secondary facades, stone replacement units, caulking, sealants.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. Lampposts Prospect Park, Scenic Landmark			

To the Mayor, the Council, and the Office of Technology & Innovation, This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25- 318 of the Administrative Code of the City of New York, which require a report from the Landmarks

Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for installing telecommunications poletop antennas and shroud, and associated transmitter boxes mounted on an existing light pole, the design and attachment of which are in accordance with the guidelines established by the Public Design Commission. The work will occur at a light pole located within the Prospect Park Scenic Landmark. The work consists of installing one (1) silver finished telecommunications poletop antenna and shroud and transmitter box, in conjunction with replacing the pole shaft and base, in-kind; and installing a grey-finished handhole at the sidewalk, adjacent to the pole; and excavating asphalt pavers where the pavers will be replaced to match the pre-existing pavers, as needed, as described and shown in existing conditions photographs, locator map, poletop manager print out, and a letter, dated October 30, 2024, prepared by Judith Garcia of NYC OTI, and submitted as components of the application.

In reviewing this proposal, the Commission notes that multiple telecommunications poletop antenna and transmitter box are proposed to be mounted on light poles throughout New York City's historic districts; that the Office of Technology and Innovation applications for such work have been divided into multiple phases, of which the current proposal consists of one (1) of such installations. The Commission also notes that the current application excludes any proposal for work with the African Burial Ground and The Commons Historic District, which must be reviewed and approved separately by the Landmarks Preservation Commission's Director of Archaeology. The Commission further notes that the Art Commission issued Certificate of Final Approval 22232 on September 14, 2005, approving the design of telecommunications poletop antennas and transmitter boxes, with associated conditions; and that the Public Design Commission issued Certificate 27570 on August 10, 2020, approving the design of shrouds for 4G and 5G mobile telecommunications equipment on light poles, with associated conditions. The Approved poletop identification number within the Prospect Park Scenic Landmark is: 22209.

With regard to this proposal, the Commission finds that the neutral finish, simple design, and mounting height of the proposed poletop antenna and transmitter box will help them to be discreet installations at the upper portions of the light pole; that the installations will not call attention to themselves and will not detract from the streetscape; that the replacement shaft and base will match the existing in terms of placement, material, design, and finish; and that the handhole will be small in size, simple in design, and finished to match the adjacent asphalt pavers; and that any asphalt sidewalks to be excavated will be replaced with new asphalt pavers to match the dimensions and finish of the adjacent asphalt paving. Based on these findings, the proposed work is determined to be appropriate to this historic district. Therefore, the work is approved.

Please provide one or more 8 by 10 inch black and white photographs of the completed work to the Public Design Commission of the City of New York, for its records.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. To the Mayor, the Council, and the Manhattan Borough Commissioner, NYC Department of Transportation,

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25- 318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for temporary streetscape installations along West 14th Street between 9th and 10th Avenues, consisting of black painted steel and wood decking and seating areas, metal planters, granite blocks, gray concrete bollards, and black rubber bollards, all freestanding and unanchored, installed in the roadbed, and to be installed beginning April 14, 2025 and removed by April 14, 2026, as described and shown in a letter, dated January 6, 2025, prepared by Nicholas Pettinati; a letter, dated November 1, 2024, prepared by NYC DOT; and an undated presentation, titled "14th St. Streetscape Improvements" consisting on 22 pages of photographs and drawings; and catalog cut sheets, all submitted as components of the application.

With regard to this proposal, the Commission finds that the work is in accordance with the provisions set forth in Title 63 of the Rules of the City of New York, Section 2-05 for Temporary Installations. Based on these findings, the work is approved.

Sidewalks - Multiple Bedford Historic District Bedford Stuyvesant/Expanded Stuyvesant Heights Historic District			

To the Mayor, the Council, and the Department of NYC Parks and Recreation

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25- 318 of the Administrative Code of the City of New York, which require a report from the Landmarks

Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for sidewalk work at select locations in the Bedford/Stuyvesant Historic District Extension, including removing limited sections of concrete paving and replacing it with blue-grey tinted concrete paving at the sidewalk of 306 Macon Street and 503 Halsey Street; enlarging a tree pit by removing concrete paving and the replacement of blue-grey tinted concrete paving in-kind at the sidewalks of 306 Macon Street and 503 Halsey Street; enlarging a tree pit by removing concrete paving and the replacement of untinted concrete paving in-kind at the sidewalk of 125 Chauncey Avenue; enlarging two (2) tree pits by removing concrete paving and the replacement of untinted concrete with blue-grey tinted concrete paving; removing limited sections of concrete paving, resetting select bluestone paving, and the replacement of concrete paving with bluestone paving at the sidewalk of 2 Verona Place; enlarging a tree pit by removing concrete paving and replacing concrete paving with bluestone pavers, as well as temporarily removing the tree pit guard and re-setting it at the sidewalk of 351 Decatur Street; enlarging a tree pit by removing select bluestone paving, re-setting select bluestone paving, and the replacement of concrete paving with bluestone paving at the sidewalk of 19 Decatur Street; enlarging a tree pit by removing select bluestone paving, and selectively trimming and re-setting select bluestone paving at the sidewalks of 176 MacDonough Street and 327 Macon Street; enlarging a tree pit by removing concrete paving and a portion of one (1) bluestone paver, resetting bluestone paving, and replacing concrete paving with bluestone pavers at the sidewalk of 357 Decatur Street; enlarging a tree pit by removing select bluestone paving, as well as removing concrete paving, and the installation of bluestone paving at the sidewalk of 13 Decatur Street; expanding the size of a tree pit by removing limited sections of concrete paving, resetting bluestone paving and the replacement of concrete paving with bluestone paving at the sidewalk of 305 Macon Street; and enlarging a tree pit by removing select bluestone pavers, resetting bluestone pavers, and the replacement of concrete paving with bluestone pavers at the sidewalk of 242 Jefferson Avenue, as described and shown in a fifty-six (56) page document, containing an undated memo from Benjamin Mertz, written specifications, existing condition photographs, and line drawings, all submitted as components of the application.

In reviewing this proposal, the Commission notes that the properties are within historic district where certain paving materials and/or the locations of certain sidewalk paving are among the significant features of the historic district.

With regard to this proposal, the Commission finds that the work is in accordance with the provisions set forth in Title 63 of the Rules of the City of New York, Section 2-19 for Sidewalks, including Section 2-19(h) for installation or expansion of tree pits, sidewalk planting areas, or bioswales; Section 2-19(b)(2) for new bluestone sidewalks; and Section 2-19(c) for replacement of existing non-bluestone sidewalk. Based on these findings, the work is approved.

To the Mayor, the Council, and the NYC Department of Parks and Recreation,

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25- 318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Commission has reviewed a proposal for sidewalk work, including, at the Stuyvesant Avenue sidewalk, the removal of one (1) modern metal tree pit guard; enlarging the tree pit by removing concrete paving; and the replacement of select concrete pavers with blue-gray tinted concrete paving; and, at the Macon Street sidewalk, the removal of granite blocks, concrete paving and broken bluestone pavers from two (2) tree pits; enlarging three (3) tree pits by removing a portion of bluestone paving and concrete paving; re-setting select bluestone pavers; and the in-kind replacement of select bluestone pavers, as described and shown in a (revised) 34 page presentation, dated "fiscal year 2024," and prepared by Deric Kilti, all submitted as components of the application.

In reviewing this proposal, the Commission notes that the Bedford Stuyvesant/Expanded Stuyvesant Heights Historic District Designation Report describes 340 Stuyvesant Avenue (aka 472 Macon Street) as a neo-Grec style rowhouse designed by Isaac D. Reynolds and built c. 1876; and that the building's style, scale, materials, and details are among the features that contribute to the special architectural and historic character of the Bedford Stuyvesant/Expanded Stuyvesant Heights Historic District.

With regard to this proposal, the Commission finds that the work is in accordance with the provisions set forth in Title 63 of the Rules of the City of New York, Section 2-19 for Sidewalks, including Section 2-19(h) for installation or expansion of tree pits, sidewalk planting areas, or bioswales; Section 2-19(b)(1) for repairing and resetting existing bluestone sidewalks; Section 2-19(b)(2) for new bluestone sidewalks; and Section 2-19(c) for replacement of existing non-bluestone sidewalk. Based on these findings, the Commission determined that the work is appropriate to the streetscape and to the Bedford Stuyvesant/Expanded Stuyvesant Heights Historic District. The work, therefore, is approved.

Please see Title 63 of the Rules of the City of New York for complete text of any cited Rule section(s): <http://www1.nyc.gov/site/lpc/applications/rules-guides.page>.

African Burial Ground & The Commons Historic District			

To the Mayor, the Council, and the NYC Department of Parks and Recreation,

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The proposal, as approved, consists of replacing concrete paving in-kind in conjunction with temporarily excavating and backfilling with soil beneath a modern newsstand at the Broadway sidewalk, adjacent to the west side of City Hall Park, as described and shown in an undated memo; and an undated, one page memo; photographs; an annotated materials checklist; and an undated plan drawing, prepared by Fantastica, all submitted as components of the application.

In reviewing this proposal, the Commission notes that The African Burial Ground and the Commons Historic District Designation Report describes this portion of lower Manhattan within the historic district as having undergone intense public use since the mid-seventeenth century, resulting in the overlay of many significant historic improvements and resources-both above ground and below-all of which document the changing nature of the important area long devoted to communal, public, and civic purposes; and that, within the district, the African Burial Ground is historically significant in that it is one of the few preserved eighteenth-century African burial grounds in the Americas, and that it reflects that New York City had one of the largest urban populations of Africans in the American colonies.

With regard to this proposal, the Commission finds that the work is in accordance with the provisions set forth in Title 63 of the Rules of the City of New York, Section 2-16(c) for Excavation Work; and Section 2-19 for Sidewalks, including Section 2-19(c) for replacement of existing non-bluestone sidewalk.

Please see Title 63 of the Rules of the City of New York for complete text of any cited Rule section(s): <http://www1.nyc.gov/site/lpc/applications/rules-guides.page>

**PLEASE NOTE:** As the approved work consists of subsurface work, the applicant is required to strictly adhere to all Department of Buildings' requirements for in-ground construction at, and adjacent to, historic buildings, including, when required, TPN 10/88 monitoring.

The Commission notes that the proposed project area is unlikely to contain potentially significant archaeological resources. However, should the project expand please submit the revised plans to the Commission for further review as areas near the project may be archaeologically sensitive.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

To the Mayor, the Council, and the Deputy Commissioner, NYC Department of Transportation,

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for concrete sidewalk replacement at various locations within historic districts in the Borough of Manhattan. The proposed work consists of select replacement of damaged concrete sidewalk with tinted or untinted concrete, scored to match the adjacent paving; as described in letter dated December 10, 2024; and list of locations, both prepared and submitted by Diane Altieri/NYC Department of Transportation and submitted as components of the application.

With regard to this proposal, the Commission finds that the work is in accordance with the provisions set forth in Title 63 of the Rules of the City of New York, Section 2-19 for Sidewalks, including Section 2-19(c) for replacement of existing non-bluestone sidewalk. Based on these findings, the work is approved.

To the Mayor, the Council, and the Assistant Commissioner, NYC Department of Citywide Administrative Services,

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25- 318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for exterior work at the fourteenth floor, including installing two (2) through-wall louvers at the east facade; removing one (1) double-hung window and two (2) through-wall louvers from the north facade and installing three (3) through-wall louvers within modified openings; removing one (1) double-hung window and two (2) through-wall louvers from the west facade and installing three (3) through-wall louvers within modified openings; and removing three (3) through-wall louvers from the south facade and installing two (2) through-wall louvers and one (1) metal door within modified openings, all hidden behind a tall parapet wall, as shown on drawings G-600.00, G-604, G-605, and G-606, dated December 19, 2024, and prepared by Roberto Villa, R.A., all submitted as components of the application.

With regard to this proposal, the Commission finds that the work is in accordance with the provisions set forth in Title 63 of the Rules of the City of New York, Section 2-14 for Window and Doors, including Section 2-14(h)(1)(ii) for filling in window and door openings at secondary nonvisible or minimally visible facades; Section 2-14(h)(2-4) for new windows and doors in new or modified openings at secondary nonvisible or minimally visible facades; Section 2-21 for Installation of Heating, Ventilation, Air Conditioning and other Mechanical Equipment, including Section 2-21(d)(3) for installation of through-wall HVAC equipment on nonvisible secondary facades. Based on these findings, the work is approved.

To the Mayor, the Council, and the NYC Department of Design & Construction

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25- 318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for the installation of pedestrian ramps at multiple locations within the Douglaston Historic District.

The proposed work within the historic district includes, upgrading the pedestrian ramps; replacing deteriorated curbs; replacing deteriorated sidewalks; and replacing crosswalk materials; as described in a letter dated January 8, 2025, prepared by Lauren Tucker, and as shown on existing condition photographs; and shown on drawings included in "Project ID: HWP2021LM", prepared by the NYC Department of Design & Construction, and submitted as components of the application.

With regard to this proposal, the Commission finds that the work is in accordance with the provisions set forth in Title 63 of the Rules of the City of New York, Section 2-19 for Sidewalks, including Section 2- 19(c) for replacement of existing non-bluestone sidewalk; and Section 2-19(g) (1) for pedestrian ramps at sidewalk intersections. Based on these findings, the work is approved.

Please see Title 63 of the Rules of the City of New York for complete text of any cited Rule section(s): <http://www1.nyc.gov/site/lpc/applications/rules-guides.page>.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. <b>ADDRESS:</b> 790 BUSHWICK AVENUE		<b>BOROUGH:</b> Brooklyn	<b>BLOCK/ LOT:</b> 3241 / 18
Brooklyn Public Library, DeKalb Branch, Individual Landmark			

To the Mayor, the Council, and the Chair of the Board of Trustees, Brooklyn Public Library,

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25- 318 of the Administrative Code of the City of New York, which require a report from the Landmarks

Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for exterior work at the roof and rear yard, including replacing existing air-conditioning units, as shown in drawings labeled M001, M100, M101, M301, and EN001, issued January 7, 2025, prepared by Obaid Mian, PE, and photographs of the existing conditions, and submitted as components of the application.

In reviewing this proposal, the Commission notes that the DeKalb Branch of the Brooklyn Public Library Designation Report describes 790 Bushwick Avenue as a Classical Revival style library building designed by William B. Tubby, and built in 1904-05.

With regard to this proposal, the Commission finds that the work is in accordance with the provisions set forth in Title 63 of the Rules of the City of New York, Section 2-21 for Installation of Heating, Ventilation, Air Conditioning and other Mechanical Equipment, including Section 2-21(g)(2) for installation of HVAC and other mechanical equipment on rooftops and terraces; and Section 2-21 (h)(2) for HVAC and other mechanical equipment in yards and areaways fronting secondary facades. Based on these findings, the work is approved.

Please see Title 63 of the Rules of the City of New York for complete text of any cited Rule section(s): <http://www1.nyc.gov/site/lpc/applications/rules-guides.page>

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. Please direct inquiries to Lisa Schaeffer.

### ■ NOTICE

#### EMERGENCY EXECUTIVE ORDER NO. 741 February 7, 2025

WHEREAS, on September 2, 2021, the federal monitor in the *Nunez* use-of-force class action stated that steps must be taken immediately to address the conditions in the New York City jails; and

WHEREAS, on June 14, 2022, the federal court in *Nunez* approved the *Nunez* Action Plan, which “represents a way to move forward with concrete measures now to address the ongoing crisis at Rikers Island”; and

WHEREAS, although there has been improvement in excessive staff absenteeism, extraordinarily high rates of attrition due to staff retirements and other departures continue to seriously affect the Department of Correction’s (DOC’s) staffing levels and create a serious risk to DOC’s ability to carry out the safety and security measures required for the maintenance of sanitary conditions; and access to basic services, including showers, meals, visitation, religious services, commissary, and recreation; and

WHEREAS, this Order is given to prioritize compliance with the *Nunez* Action Plan and to address the effects of DOC’s staffing levels, the conditions at DOC facilities, and health operations; and

WHEREAS, additional reasons for requiring the measures continued in this Order are set forth in Emergency Executive Order

No. 140 of 2022, Emergency Executive Order No. 579 of 2024, and Emergency Executive Order 623 of 2024; and

WHEREAS, the state of emergency existing within DOC facilities, first declared in Emergency Executive Order No. 241, dated September 15, 2021, and extended by subsequent orders, remains in effect;

NOW, THEREFORE, pursuant to the powers vested in me by the laws of the State of New York and the City of New York, including but not limited to the New York Executive Law, the New York City Charter and the Administrative Code of the City of New York, and the common law authority to protect the public in the event of an emergency:

Section 1. I hereby direct that section 1 of Emergency Executive Order No. 738, dated February 2, 2025, is extended for five (5) days.

§ 2. This Emergency Executive Order shall take effect immediately and shall remain in effect for five (5) days unless it is terminated or modified at an earlier date.

#### EMERGENCY EXECUTIVE ORDER NO. 742 February 7, 2025

WHEREAS, it is of utmost importance to protect the health and safety of all persons in the custody of the Department of Correction (“DOC”), and of all officers and persons who work in the City of New York jails and who transport persons in custody to court and other facilities, and the public; and

WHEREAS, over 80 provisions in the various Court Orders entered in *Nunez v. City of New York*, 11 CV 5845 (SDNY), require DOC to consult with, and seek the approval of, the *Nunez* Monitor (“Monitor”) prior to implementing or amending policies on issues, including but not limited to, matters relating to security practices, the use of restraints, escorts, emergency lock-ins, de-escalation, confinement management of incarcerated individuals following serious acts of violence and subsequent housing strategies, and DOC may be held in contempt of court and sanctioned if it fails to appropriately consult with and obtain approval from the Monitor regarding policies in these areas; and

WHEREAS, as fully detailed in Emergency Executive Order 579 of 2024, DOC is already experiencing a significant staffing crisis, which poses a serious risk to the health, safety, and security of all people in custody and to DOC personnel; and

WHEREAS, attempting to comply with many of the provisions of Local Law 42 and the new BOC regulations, such as by transporting individuals to court without restraints, would require a massive increase in staff and other resources, which are not available; and

WHEREAS, even if DOC had such additional staffing and resources, that still would not obviate the direct threat to public safety posed by certain provisions of Local Law 42, nor would it obviate the fact that the Monitor has yet to approve implementation of those provisions as required by the *Nunez* Orders, nor would it obviate the fact that additional time would be needed to safely implement those provisions of Local Law 42 eventually approved by the Monitor, because, as the Monitor has expressly cautioned, the safe implementation of any new requirement or reform in DOC facilities requires planning time to “evaluat[e] the operational impact, update[e] policies and procedures, updat[e] the physical plant, determin[e] the necessary staffing complement, develop[] training materials, and provid[e] training to thousands of staff, all of which must occur before the changes in practice actually go into effect” [11 CV 5845 (SDNY) Dkt No. 758-3 at p. 61]; and

WHEREAS, on July 27, 2024, I issued Emergency Executive Order No. 624, and declared a state of emergency to exist within the correction facilities operated by the DOC, and such declaration remains in effect; and

WHEREAS, additional reasons for requiring the measures continued in this Order are set forth in Emergency Executive Order No. 625, dated July 27, 2024, and Emergency Executive Order 682, dated October 30, 2024; and

NOW, THEREFORE, pursuant to the powers vested in me by the laws of the State of New York and the City of New York, including but not limited to the New York Executive Law, the New York City Charter and the Administrative Code of the City of New York, and the common law authority to protect the public in the event of an emergency:

Section 1. I hereby direct section 1 of Emergency Executive Order No. 739, dated February 2, 2025 is extended for five (5) days.

§ 2. This Emergency Executive Order shall take effect immediately and shall remain in effect for five (5) days unless it is terminated or modified at an earlier date.

EMERGENCY EXECUTIVE ORDER NO. 743  
February 7, 2025

WHEREAS, over the past several months, thousands of asylum seekers have been arriving in New York City, from the Southern border, without having any immediate plans for shelter; and

WHEREAS, the City now faces an unprecedented humanitarian crisis that requires it to take extraordinary measures to meet the immediate needs of the asylum seekers while continuing to serve the tens of thousands of people who are currently using the DHS Shelter System; and

WHEREAS, additional reasons for requiring the measures continued in this Order are set forth in Emergency Executive Order No. 224, dated October 7, 2022, and Emergency Executive Order No. 538, dated December 27, 2023; and

WHEREAS, the state of emergency based on the arrival of thousands of individuals and families seeking asylum, first declared in Emergency Executive Order No. 224, dated October 7, 2022, and extended by subsequent orders, remains in effect;

NOW, THEREFORE, pursuant to the powers vested in me by the laws of the State of New York and the City of New York, including but not limited to the New York Executive Law, the New York City Charter and the Administrative Code of the City of New York, and the common law authority to protect the public in the event of an emergency:

Section 1. I hereby order that section 1 of Emergency Executive Order No. 740, dated February 2, 2025, is extended for five (5) days.

§ 2. This Emergency Executive Order shall take effect immediately and shall remain in effect for five (5) days unless it is terminated or modified at an earlier date.
