NOTICE

On Wednesday, May 7, 2025, a public hearing is being held by the City Planning Commission (CPC), accessible in-person and remotely, in conjunction with the above ULURP hearing to receive comments related to a Draft Environmental Impact Statement (DEIS) concerning an application by The City of New York. The City of New York, acting through the Department of City Planning (DCP), is proposing a series of land use actions – including zoning map and zoning text amendments – to implement land use and zoning recommendations in the Midtown South neighborhood of Manhattan. The area subject to the Proposed Actions (the Affected Area) is an approximately 42-block area in Midtown South, Community Districts 4 and 5, and is generally bounded by 40th Street to the north, Fifth Avenue to the east, 23rd Street to the south, and Ninth Avenue to the west. The Affected Area is comprised of Subdistrict A-2 in the Special Garment Center District, and the “Rezoning Area”. The Rezoning Area consists of four noncontiguous manufacturing-zoned areas roughly bounded by 40th Street to the north, Fifth Avenue to the east, 23rd Street to the south, and Eighth Avenue to the west. Subdistrict A-2 of the Special Garment Center District (GC) encompasses approximately four blocks, bounded by a line 100 feet east of 9th Avenue to the west, 35th Street to the south, a line 100 feet west of 8th Avenue to the east, and 39th Street to the north. Overall, the Proposed Actions are expected to facilitate development on 61 projected development sites, as well as 1,093,808 gross-square-feet (gsf) of non-residential floor area likely to be converted to residential uses within the Affected Area. On these projected development sites and in the eligible conversion area, the Proposed Actions are expected to result in a net (incremental) increase of approximately 9,786,389 gsf residential floor area (9,676 dwelling units (DUs)); 462,129 gsf of projected retail space (local retail), 81,755 gsf of community facility use, and a decrease of 732,619 gsf of commercial office space (651,316 zsf), 69,782 gsf of industrial/warehouse space, and 1,093,808 gsf non-residential floor area modeled for conversion to residential uses. It is expected that

the projected development included in the Reasonable Worst Case Development Scenario (RWCDs) would be built by 2034, following approval of the proposed actions.

Written comments on the DEIS are requested and will be received and considered by the Lead Agency through 5pm on Tuesday, May 19, 2025.

For instructions on how to submit comments and participate, both in-person and remotely, please refer to the instructions at the beginning of this agenda.

This hearing is being held pursuant to the State Environmental Quality Review Act (SEQRA) and City Environmental Quality Review (CEQR), CEQR No. 24DCP094M.

1. Conduct an internet search for "Microsoft OneDrive;"

If your share link permissions are restricted (e.g. to only your organization in Office 365), the DOE will not be able to view your solicitation documents. It is your responsibility to ensure that the link(s) you provide allows the DOE to view, download and/or open your documents; and

5. Rule relating to verification of zoning lot formation

- A. Reason: To require an applicant for construction document approval in connection with a development or enlargement, or in connection with the issuance of a certificate of occupancy based on a zoning lot with new metes and bounds, to verify proper zoning lot formation in order to comply with the requirements of the New York City Zoning Resolution.

- C. Objectives: To authorize a verification process, as set forth in a Department Buildings Bulletin, requiring applicants to provide a complete zoning analysis on forms provided by the Department to ensure that a proposed zoning lot does not conflict with an already formed zoning lot.
- D. Legal basis: Sections 643 and 1043 of the New York City Charter and sections 28-104.2.4 and 28-104.2.5 of the New York City Administrative Code, which require a complete zoning analysis prior to full or partial construction document approval.

6. Rule(s) related to penalties for failing to timely complete façade repairs and penalties issued in connection with sidewalk sheds installed in the public right of way.

- A. Reason: The recent addition of Article 220 to Chapter 2 of Title 28 of the Administrative Code provides for penalties to be assessed when an owner fails to timely complete façade repairs as well as penalties where a sidewalk shed is installed in the public right of way for an extended period and no progress has been made in furtherance of the required repairs.
- B. Anticipated contents: Establish a new penalty scheme related to failing to timely complete façade repairs and to establish procedures for assessing and challenging such penalties and the penalties issued where a sidewalk shed is installed in the public right of way for an extended period and no progress has been made in furtherance of the required repairs.
- C. Objectives: Establish the penalty scheme and a procedure for challenging the assessment of the subject penalties.

- G. Approximate schedule: First half of FY'26

Contact person: Dorecia Phillip, Assistant Commissioner, Regulatory Affairs and Policy Development, (212) 393-2734.

7. Rule necessary to amend requirements related to the renewal of a sidewalk shed permit.

- A. Reason: Recent amendments to the sidewalk shed permit renewal requirements mandate that a report detailing the progress made since the last renewal of the sidewalk shed permit and the work that is in progress to repair the condition for which such permit was issued be submitted with the renewal application. Where no progress has been made since the last sidewalk shed permit renewal, the applicant must provide documentation detailing the reason for the lack of progress.
- B. Anticipated contents: Requirements setting forth the specific details that must be included in the progress report that must accompany each application for the renewal of a sidewalk shed permit. The rule shall also include provisions detailing the reasons, such as financial hardship, and documentation that will be accepted in the instances where no work has been performed since the last renewal of the sidewalk shed permit.
- C. Objectives: Provide clear criteria for what must be included in the report including the required documentation.
- D. Legal basis: Section 643 of the New York City Charter; Section 106.8.3 of Chapter 1 of the New York City Building Code.

- A. Reason: Amend the current periodic inspection requirements to align with recent changes to the applicable law.
- B. Anticipated contents: Modify the inspection frequency for an existing building and the timeframe for the initial examination for a new building to align with recent changes to the applicable law and make other amendments as appropriate.
- C. Objectives: Amend inspection frequency and other requirements.

9. Rule(s) necessary to implement revisions to the Building Code related to sidewalk shed designs and sidewalk shed alternatives.

- A. Reason: Recent amendments to Section 3307 of the New York City Building Code seek to encourage use of containment netting as an alternative to the installation of a sidewalk shed in certain scenarios and provide for the specific requirements to be established by rule. Those amendments also authorize the Department to amend sidewalk shed design and construction requirements by rule.
- B. Anticipated contents: Requirements regarding the use of containment netting as an alternative to a sidewalk shed, and amendments to the design and construction requirements for sidewalk sheds.

- C. Objectives: Establish requirements to further facilitate use of containment netting as an alternative to sidewalk sheds in certain scenarios, and amend existing sidewalk shed design and construction requirements to support the implementation of new design requirements that improve the pedestrian experience while still meeting the safety requirements for public protection.

- G. Approximate schedule: Second half of FY'26

Contact person: Dorecia Phillip, Assistant Commissioner, Regulatory and Policy Affairs and Policy Development, (212) 393-2734

10. Rule(s) necessary to add a fee. Establishment of a new fee related to request for an extension of time to complete façade repairs.

- A. Reason: Amendments to Article 220 of Chapter 2 of Title 28 of the New York City Administrative Code set forth specified timeframes for meeting certain milestones in connection with the repair of a façade. There are associated penalties for failing to meet those milestones. Understanding that there may be factors affecting an owner's ability to timely complete repairs, the applicable code provision allows for extension requests.
- B. Anticipated contents: Fee for façade repair extension requests.
- C. Objectives: Establish a new fee related to the review of requests for an extension of time to complete façade repairs.
- D. Legal basis: Section 643 of the New York City Charter; Article 220 of Chapter 2 of Title 28 of the New York City Administrative Code.
- E. Types of individuals and entities likely to be affected: Building owners, registered design professionals, licensees, and contractors.
- F. Other relevant laws: New York City Administrative Code, New York City Construction Codes.

- G. Approximate schedule: Second half of FY'26.

Contact person: Joseph Ackroyd, Assistant Commissioner, Technical Affairs and Code Development, (212) 393-2031

12. Rules relating to periodic inspection of gas piping inspections.

- A. Reason: Modifying this rule to enhance enforcement of Local Law 152 of 2016 regarding periodic gas piping inspections and to add challenge provisions.
- B. Anticipated contents: This rule amendment will allow for additional reasons to request penalty waivers to account for other circumstances that may preclude a building owner from filing a gas piping system certification.

This rule amendment will also clarify that a one-time certification of buildings with no gas piping systems is required; allow a utility company to provide supporting documentation; require advance notifications for department spot checks; and ensure gas safety inspections have been performed when dismissing violations.

- C. Objectives: To clarify requirements regarding periodic gas piping inspections and to add challenge provisions.
- D. Legal basis: Section 643 of the New York City Charter and Article 318 of Chapter 3 of the New York City Administrative Code.
- E. Types of individuals and entities likely to be affected: Licensed master plumbers, building owners, and registered design professionals.

Statement of Basis and Purpose of Proposed Rule

The Department of Consumer and Worker Protection (“DCWP” or “Department”) is proposing to repeal certain outdated provisions of the rules governing general vendors and to amend the provisions relating to transaction documentation requirements for such vendors. The rules governing general vendors currently include specific requirements relating to the provision of receipts to consumers. The proposed rule would repeal those requirements and instead clarify that general vendors must comply with 6 RCNY § 5-32, which requires that sellers

offer receipts for certain retail purchases. The proposed rule would also repeal a section of the rules that requires general vendors to wear their identification cards since such section is duplicative of NYC Administrative Code section 20-461(b), which requires such vendors to wear a license that includes a photograph conspicuously at all times while operating as a general vendor. Finally, the proposed rule would repeal an obsolete section of the rules governing pushcart permit exemptions.

Sections 1043 and 2203(f) of the New York City Charter and Sections 20-104(e) and 20-471 of the New York City Administrative Code authorize the Department to make these proposed amendments.

New material is underlined.

[Deleted material is in brackets.]

“Shall” and “must” denote mandatory requirements and may be used interchangeably in the rules of the Department, unless otherwise specified or unless the context clearly indicates otherwise.

Proposed Rule Amendments

Section 1. Section 2-307 of subchapter AA of Chapter 2 of Title 6 of the Rules of the City of New York is amended to read as follows:

§ 2-307 Practices.

(a) No general vendor shall make any misrepresentations concerning merchandise offered for sale. General vendors shall comply with all applicable provisions of the Consumer Protection Law (Title 20, Chapter 5, Subchapter 1 of the Administrative Code of The City of New York) and regulations promulgated under that law, including, but not limited to, 6 RCNY § 5-32, relating to documentation of transactions.

(b) All items sold or offered for sale by general vendors shall have conspicuously displayed, at the point of offering for sale, the total selling price exclusive of tax by means

- (1) of a stamp, tag or label attached to the item or
- (2) a sign at the point of display which indicates the item to which the price refers, provided that this information is plainly visible at the point of display for sale of the items so indicated.

[(c) Each general vendor shall offer a consumer a serially numbered receipt for any purchase. The receipt must include:

- (1) the date of the purchase;
- (2) the total amount of money and tax paid for the purchase;
- (3) a description of the item purchased; and
- (4) the license number of the vendor;
- (5) a statement that complaints can be made to the Department of Consumer Affairs, (Insert the Department’s current address and telephone number).

(d) Each vendor shall retain a duplicate copy of each receipt for the day which shall be produced for inspection upon request by police or other New York City personnel. The receipts shall be presented for review to the Department by the general vendor upon request, and the previous two years’ receipts shall be produced when applying for renewal of a license.]

§ 2. Section 2-309 of subchapter AA of Chapter 2 of Title 6 of the Rules of the City of New York, relating to identification cards, is REPEALED.

ENVIRONMENTAL PROTECTION

■ NOTICE

FY26 Regulatory Agenda

In compliance with section 1042 of the New York City Charter, the following is the regulatory agenda for rules that the New York City Department of Environment of Protection (DEP) anticipates it may promulgate during the fiscal year beginning July 1, 2025, and ending June 30, 2026. Listed below each proposed rule are an approximate schedule for adopting the proposed rules and the name and telephone number of a DEP official knowledgeable about each subject area involved.

I. New proposed rules not included in prior years and anticipated to start the CAPA process after May 1, 2025.

1. Water Shortage Rules

A. Description

General revision to the existing rules to improve clarity, actionability and ease of use. The amendments will also incorporate additional seasonal restrictions geared towards water savings during the colder months of a water shortage emergency.

B. Reasons

Clarifying the water use restrictions in the rules will make the rules easier to understand for the general public. Adding additional seasonal restrictions will ensure there is an adequate amount of water supply for New York City during extended periods of water shortage.

C. Anticipated contents

The rule will clarify, using plain language, existing prohibitions and restrictions on water usage during a declared water shortage emergency. The rule will also add additional restrictions to Phase I, II and III water shortage emergencies.

D. Objectives

The proposed amendments are designed to ensure there is an adequate amount of water for New York City during extended periods of water shortage by making the rules easier to understand and adding additional restrictions that will yield more water savings.

E. Provide a summary of the legal basis for the proposed rule.

Section 1403 of the Charter of the City of New York and §§ 24-337 and 24-346 of the Administrative Code of the City of New York.

2. Industrial Air Permit Rule for Mixed-Use Areas

A. Description

Amendments to make conditional the issuance of air permits and certificates of operation for industrial sources in certain parts of the City where co-location or proximity of industrial uses and sensitive receptors, such as residential uses and community facilities, is permitted by Zoning Resolution.

B. Reasons

Department of City Planning has proposed new policies that would allow industrial uses that require air permits from DEP to co-locate in buildings with residential or community facility uses. Because of the potential toxicity of the industrial uses and to protect public health, DEP would condition air permits and certificates of operation upon the design and installation of protective building controls.

C. Anticipated contents

The rule will require the applicant for industrial air permits in certain parts of the City where co-location or proximity of industrial uses and sensitive receptors is permitted to demonstrate compliance with all applicable requirements of the Zoning Resolution and to submit studies regarding building controls that will protect the safety and health of occupants of the building and surrounding area. If DEP finds the proposed controls (e.g., odor and vapor barriers, emission control devices, noise controls, etc.) to be adequately protective, DEP may grant a certificate of operation upon receipt of a certification that such building controls have been implemented.

D. Objectives

To ensure that the effects of industrial sources do not have adverse health impacts on the occupants of the building or the surrounding area.

E. Provide a summary of the legal basis for the proposed rule

NYC Administrative Code sections 24-125(a)(1); 24-105; 24-204

F. Relevant local laws and rules

LOFT BOARD

■ NOTICE

Notice of Adoption

The New York City Loft Board hereby gives notice—pursuant to the authority granted by Multiple Dwelling Law § 282 and New York City Charter § 1043—of the adoption of amendments to its rules in Title 29 of the Rules of the City of New York.

The amendments in this rule were proposed and published on June 3, 2024. A public hearing was held on July 18, 2024. The Loft Board received 6 comments from the public.

Statement of Basis and Purpose of Rules

Background

In 1982, the New York State Legislature enacted Article 7-C of the Multiple Dwelling Law (MDL), also known as the Loft Law. The Loft Law created a new class of buildings in New York City called interim multiple dwellings (IMD). Initially, the Loft Law allowed the conversion to residential space of former commercial and manufacturing spaces that were used as residences by at least three or more families living independently from April 1, 1980, through December 1, 1981 in zoning districts that permitted residential use. The Loft Law was subsequently amended to allow for the conversion of commercial or manufacturing space in additional districts and for the conversion of spaces used as a residence during additional time periods. In the most recent amendment, in June 2019, the Legislature expanded the scope of the law to include spaces used as residences for twelve consecutive months between 2015 and 2016.

The Loft Law also established the Loft Board, which is charged with overseeing the legal conversion of IMD buildings from commercial and manufacturing spaces to residences, including requirements that landlords of IMD buildings provide basic housing maintenance services during the conversion period.

These rule amendments expand the requirements for basic housing maintenance services set forth in section 2-04 of Title 29 of the Rules of the City of New York to include requirements to maintain the existing egress systems and add provisions for enforcement of these requirements. The objective of these rule amendments is to promote public safety in IMD buildings. These rules apply to IMD buildings until the building is removed from the Loft Board's jurisdiction.

Summary of the Proposed Amendments

Section 1 amends 29 RCNY § 2-04(a) to add definitions of fire escape, stair, corridor, and means of egress.

Section 2 amends the requirements for basic services set forth in 29 RCNY § 2-04(b) to require that egress components and pathways be maintained in proper condition. It also amends the requirements to prohibit storage of lithium battery charging devices at or near a means of egress. It also adds a requirement to post a notice in the lobby of an IMD building to inform tenants that personal items may not be stored on a fire escape, corridor, stair, or other means of egress.

Section 3 amends 29 RCNY § 2-04(e)(2) to authorize the Loft Board to request a report from a structural engineer and issue additional violations if conditions related to egress are not corrected within fifteen (15) days after the mailing date of a violation.

Section 4 amends the enforcement and penalty schedule set forth in 29 RCNY § 2-04(e)(8) to provide for the assessment of penalties against owners who fail to comply with the obligations regarding maintenance of egress components and pathways and fail to post the required notice pursuant to 29 RCNY § 2-04(b)(11)(iii).

Section 5 amends the annual registration requirements in 29 RCNY § 2-05 to include a requirement that owners file a certification that fire escapes and/or stairs have been inspected within the fourteen (14) days prior to annual registration. If defects are found, the Owner or Responsible Party must inform the Loft Board and indicate that repairs will be completed by August 1st and repair the defect on or before August 30th. A new certification must be filed with the Loft Board after repairs have been completed on or before August 30th.

Section 6 amends the penalty schedule in 29 RCNY § 2-11.1 to include a penalty for failure to file an annual certification of inspection of the means of egress.

On April 18, 2024, the Loft Board voted to initiate the rulemaking process under the Citywide Administrative Procedure Act for this proposed rule amendment.

A public hearing was held on July 18, 2024. The Loft Board received 6 comments from the public. Four of the comments are in support of the proposed rule. Two comments provided substantive feedback about the proposed rule. In response to the comments provided, the Loft Board amended the rule to add a procedure for reporting a defect in the means of egress and to provide a time frame within which necessary repairs must be completed. The rule was also modified to state that if an alteration permit is required, a Letter of No Objection must also be obtained from the Loft Board.

In response to the comments, the rule has also been modified to clarify who must sign the annual certification of inspection of the egress, and to provide that the Loft Board reserves the right to request an inspection report from a registered professional engineer.

In addition to changes described above, the Loft Board also:

1. Added definitions of the terms Corridor, Means of Egress, and Stair. These definitions were added to clarify the impacted areas;
2. Clarified that defects include but are not limited to rust and other signs of deterioration; and
3. Added a penalty for failure to post the required notice prohibiting the storage of personal property in the Corridor, Stairs or Fire Escape.

New material is underlined.

“Shall” and “must” denote mandatory requirements and may be used interchangeably in the rules of this department, unless otherwise specified or unless the context clearly indicates otherwise.

Section 1. Subdivision (a) of section 2-04 of Title 29 of the Rules of the City of New York is amended by adding new definitions of fire escape and fire stair, in alphabetical order, to read as follows:

Fire Escape(s) means a combination of exterior balconies, stairs and ladder(s) providing a means of egress from a building in case of an emergency.

Stair(s) means a combination of the landings, handrails and steps providing a means of egress from a building.

Corridor means an enclosed public passage providing a means of access to an exit from a building.

Means of Egress means a continuous and unobstructed path of travel from any occupied portion of a building to the street, including Corridors and Stairs.

Section 2. Subdivision (b) of section 2-04 of Title 29 of the Rules of the City of New York is amended by adding a new paragraph (11), to read as follows:

(11) Egress – The owner of an IMD building must maintain the Fire Escapes, Corridors and other Means of Egress in good working order. Owners must inspect Fire Escape(s) and Stair(s) (indoor and outdoor) annually for defects. Defects include but are not limited to rust and other signs of deterioration.

(i) Fire Escapes.

- (A) Fire Escapes must be kept clear and unobstructed.
- (B) Fire Escapes must be maintained in good working order. A window or other opening leading to a Fire Escape must be in good working order.
- (C) Fire Escapes must be scraped and painted or otherwise protected from deterioration every five (5) years. The existence of rust is evidence of neglect and lack of proper maintenance.
- (D) The components that attach the Fire Escape to the facade of the building must be in good condition and free of rust.
- (E) Access to Fire Escapes must be unobstructed. Iron bars, grilles, gates, or other obstructing devices may not be used on any window giving access to a Fire Escape or any required secondary means of egress unless they comply with § 1025-01 of Title 3 of these Rules.
- (F) A Fire Escape may not be removed or constructed without a permit from the Department of Buildings (“DOB”).

(G) If the Owner or Landlord of an IMD building intends to remove a Fire Escape, such Owner or Landlord must ensure that building occupants have an existing and lawful secondary Means of Egress, or that the building otherwise complies with egress requirements.

(H) Any obstruction to the operation of the Fire Escape ladder is not permitted including an awning or outdoor dining area.

(I) There can be no wires of any kind on any part of the Fire Escape.

(J) When construction work is being performed at a location adjoining a Fire Escape, owners must provide for safe egress.

(K) The egress by a Fire Escape must lead into a court or a yard with an unobstructed pathway to a street.

(ii) Stairs and Corridors.

(A) Stairs and Corridors must be kept clear and unobstructed.

(B) Stairs and Corridors must be maintained in good working order. Stairs and Corridors must have working lights that produce an illumination level no less than one foot-candle, measured at the floor level, at all times.

(C) The door leading to indoor Stairs must be a self-closing door and must otherwise be in compliance with Administrative Code §§ 28-315.10 and 27-2041.1 regarding doors in corridors in a multiple dwelling.

(iii) Personal Property Stored in the Means of Egress.

(A) Storage of items in a Means of Egress is prohibited.

(B) Owner, Landlord or Responsible Party must post a notice in the form provided by the Loft Board that personal items may not be stored in a Corridor used for egress or on a Fire Escape. Such notice must be posted every lobby and above the mailbox(es).

(C) Lithium battery charging devices may not be stored in or near the front door of an IMD unit or a Means of Egress.

Section 3. Paragraph 2 of subdivision (e) of section 2-04 of Title 29 of the Rules of the City of New York is amended to read as follows:

(2) Inspections and notices of violation.

(i) Staff employed or assigned to the Loft Board are authorized to conduct inspections in response to complaints or at the direction of the Loft Board or appropriate staff supervisors to determine whether violations of the Loft Board's Minimum Housing Maintenance Standards exist. Following an inspection, if a violation is determined to exist, a notice of violation must be issued to the landlord or his agent describing the violation and the unit in which it exists, specifying the applicable section of the Minimum Housing Maintenance rules, and establishing the maximum period of time permissible to cure the violation. A copy of the notice of violation must be left with an authorized person in charge at the premises, if that person is present, the managing agent, if that person is present, or posted in a conspicuous public place at the premises. In addition, a second copy of the notice of violation [may] must be sent by regular mail to the owner or his designated agent, as indicated in the Loft Board's records. A copy of the notice of violation [may] must also be sent by regular mail to the tenant or tenants who made the original complaint. The cure period for the first notice of violation of its kind within a 12 month period must be a minimum of 7 days from the date of: 1) personal delivery to an authorized person in charge at the premises or the managing agent or 2) posting of the notice in a conspicuous public place at the premises.

(ii) Except for heat violations, the cure period for a second notice of violation for the same condition within twelve months from the first notice of violation is 24 hours from the date of: 1) delivery of the notice of violation to an authorized person in charge at the premises or the managing agent or 2) posting the notice of violation in a conspicuous public place at the premises. The cure period for a second heat violation occurring during the same Oct-May heat season is 24 hours from the date of: 1) delivery of the notice of violation to an authorized person in charge at the premises or the managing agent or 2) the date of posting the notice of violation in a conspicuous public place at the premises. There is a presumption that the violation continues after the service of the notice of violation. Fines imposed will begin to accrue the day immediately following the cure period and continue daily until the owner demonstrates that the violation is cured.

(iii) The Loft Board may issue a second violation for the same egress condition described in a previous violation if the condition

has not been corrected within fifteen (15) days after the mailing date of the prior violation.

(iv) The Loft Board may request an inspection report by a registered professional engineer certifying the structural stability of the existing Fire Escape at any time. If such request is made by the Loft Board, Owner must file the report within thirty (30) days of the request.

Section 4. The table set forth in paragraph 8 of subdivision (e) of section 2-04 of Title 29 of the Rules of the City of New York is amended by adding two additional rows, in alphanumeric order, to read as follows:

Section	Violation	Range of Fines
29 RCNY § 2-04(b)(11)	Failure to Maintain Egress	\$5000 per violation Aggravated Penalty: \$150 per day up to \$500 if violation not corrected within 72-hours after service of the violation.
29 RCNY § 2-04(b)(11)(iii)(B)	Failure to Post Notice	\$1,000 per violation
29 RCNY § 2-04(e)(2)(iv)	Failure to Comply with Request for Inspection Report by a Professional Engineer	\$5000

Section 5. Subdivision (g) of section 2-05 of Title 29 of the Rules of the City of New York is amended to read as follows:

- (g) (1) No applications filed by or on behalf of a landlord of an IMD building shall be processed by the Loft Board unless the registration renewal application is current and all applicable fees and penalties have been paid in full as of the date of filing such application is not deemed filed until payment of all outstanding fees, fines and penalties has been received by the Loft Board.
- (2) Annual Certification Requirements Regarding Egress.
- (i) Each annual renewal of the registration package filed with the Loft Board must include a certification signed by the Owner, Landlord or Responsible Party that the Fire Escapes, if applicable, the Stairs and other Means of Egress, as defined in § 2-04 of these Rules, have been inspected within fourteen (14) days of the submission of the renewal application and indicate whether or not they are in compliance with Section 2-04(b)(11) of these Rules. The certification must include the name of the person who performed the inspection.
- (ii) If defects are found during the annual inspection, the certification must identify the defects that exist and indicate that repairs will be completed on or before August 1st.
- (iii) If a DOB permit is needed to repair a defect, Owner must file an application with DOB and seek a Letter of No Objection from the Loft Board prior to approval.
- (iv) An application filed with DOB for repair of a Fire Escape must list only the Fire Escape repair in the description of the proposed work.
- (v) Owner must file a new certification with the Loft Board no later than August 30th indicating that repairs have been completed.
- (vi) For applications due on July 1, 2025, a certification submitted no later than July 1, 2025 or forty-five (45) days after the effective date of this rule amendment, whichever is later, will be deemed timely. The inspection and the certification must be dated within fourteen (14) days of the filing.

Section 6. Paragraph (3) of subdivision (b) of section 2-11.1 of Title 29 of the Rules of the City of New York is amended to read as follows:

(3) Violation of Annual Requirements: Registration and Certification of Inspection of Egress

(i) Failure to renew IMD registration pursuant to 29 RCNY § 2-05: Where an Owner, Landlord or Responsible Party fails to renew a Building's registration as required in 29 RCNY § 2-05(f)(2), the Owner, Landlord or Responsible Party may be subject to a Class C violation civil penalty as follows:
