NOTICE

On January 7, 2025, a public hearing is being held by the City Planning Commission (CPC), accessible in-person and remotely, in conjunction with the above ULURP hearing to receive comments related to a Draft Environmental Impact Statement (DEIS) concerning an application by The New York City Department of Environmental Protection (DEP) and the New York City Department of Citywide Administrative Services (DCAS) (the "Applicants"). The New York City Department of Environmental Protection (DEP) is the CEQR Lead Agency for the environmental review. The Applicants are seeking a series of land use actions including site selection of a capital project and acquisition of property as well as the acquisition of permanent surface and subterranean easements at several properties for long-term maintenance and security (the "Proposed Actions") in Brooklyn Community District 1 and Queens Community Districts 2 and 5. Construction and operation of a combined

sewer overflow (CSO) tunnel and additional infrastructure to reduce the volume of CSO entering Newtown Creek, under the Newtown Creek CSO Storage Tunnel project constitutes the "Proposed Project". The Proposed Actions would facilitate the Proposed Project which may require property leasing during various stages of construction and includes the CSO tunnel along with diversion chambers, drop shafts, conveyance sewers, new outfalls, and odor control systems. The proposed CSO storage tunnel would be at a depth ranging from 80-130 feet below existing ground surface, and approximately 26 feet in diameter. The tunnel alignment would run from a site in Brooklyn (on the southern side of the Creek) near Whale Creek and the Newtown Creek WRRF, east under the Creek into the Blissville neighborhood of Queens, continuing south and east along Review Avenue, underneath the Kosciusko Bridge toward the Maspeth section of Queens, then curving south and then west into Brooklyn. In addition to the tunnel, the Proposed Project would include a tunnel dewatering pump station (TDPS), diversion facilities at outfalls BB-026, NCQ-077, NCB-083, and NCB-015 to divert CSOs from the outfalls to the tunnel, and a new gravity diversion sewer to connect outfall BB-026 to the tunnel. Construction of the diversion facility at BB-026 would be facilitated by the acquisition of easements. Acquisition of the TDPS site would not be required since it is a City-owned property (currently being used by DSNY). In total, the Proposed Project would affect up to 99 properties: 9 properties are City-owned and require only site selection approval, and 90 properties are privately owned and require both site selection and acquisition approval. Of the up to 90 properties requiring both site selection and acquisition approval, 4 require fee simple acquisition (for the diversion facilities at NCQ-077, NCB-083, and NCB-015), up to 83 require subterranean easements along the proposed tunnel and gravity diversion sewer alignments (including one property that also requires both acquisition of a permanent surface easement and a temporary construction easement, and one property that also requires acquisition of a temporary construction easement), and 3 properties require both acquisition of permanent surface and temporary construction easements (but no subterranean easement). The fee simple acquisition, property leasing, and establishment of subterranean and surface easements would be facilitated by the proposed acquisition action under ULURP. The Build Year is 2040.

The Proposed Project may require several other actions, including approval by local entities such as the NYC Landmarks Preservation Commission (LPC), New York City Public Design Commission, New York City Department of Transportation (DOT) Office of Construction Mitigation and Coordination (OCMC); state entities such as the New York State Department of State (NYS DOS), New York State Office of General Services (NYSOGS), New York State Department of Environmental Conservation (NYS DEC), New York State Historic Preservation Office (SHPO), Metropolitan Transit Authority (MTA); and federal entities such as the U.S. Environmental Protection Agency (EPA), Coastal Zone Management Act, U.S. Army Corps of Engineers (USACE), United States Fish and Wildlife Service (USFWS) and National Marine Fisheries Service (NMFS), and the Advisory Council on Historic Preservation.

Written comments on the DEIS are requested and will be received and considered by the Lead Agency through 5:00 P.M. on Tuesday, January 20, 2026.

For instructions on how to submit comments and participate, both in-person and remotely, please refer to the instructions at the beginning of this agenda.

This hearing is being held pursuant to the State Environmental Quality Review Act (SEQRA) and City Environmental Quality Review (CEQR), CEQR No. 24DEP053Y.

HHS ACCELERATOR PREQUALIFICATION

RUTGERS THE STATE UNIVERSITY OF NEW JERSEY- NYC PRAMS PROJECT RENAMED TO NYC MATERNAL INFANT PERINATAL SURVEY (MIPS) - Government to Government - PIN# 81626T0001 - Due 1-12-26 at 5:00 A.M.

In accordance with Section 3-13 of the NYC Procurement Policy Board (PPB) Rules, NYC Department of Health (NYCDOH) intends to enter a Government-to-Government contract with The Bloustein Center for Survey Research (BCSR) at Rutgers -The State University of New Jersey for five years for the Maternal Infant Perinatal Survey (MIPS) for monitoring and data collection from the Newborn Home Visit Program participants, based on the standard protocol set by Center for Disease Control (CDC). The NYC MIPS project will operate independently of the CDC. The term of the contract will be 4/1/2026 to 3/31/2031, and the total procurement value is \$1,604,673.00.

During the term of this agreement, the contractor will develop a new database to replace the CDC's database used for data collection for the NYC Pregnancy Risk Assessment Monitoring System (PRAMS,) and continue data collection on this project as they have since 2014; using the same protocols and processes used with PRAMS. MIPS is an ongoing, population-based risk factor surveillance system designed to identify and monitor selected maternal experiences and behaviors that occur before, during, and shortly after pregnancy.

This vendor is the only vendor able to provide these services through this contract action because they have met or exceeded all requirements from the New York City Department of Health (NYCDOH), and response rates for the former NYC PRAMS project have exceeded the CDC's threshold along with their expertise in managing the former PRAMS project. This is the best contractor to move to an independent MIPS. Pursuant to Section 3-13 of the NYC (PPB) Rules the ACCO has determined that it is in the best interest to process a Government-to-Government contract.

This notice is for informational purposes only; however, vendors who feel they may be able to provide these services in the future, may submit an expression of interest via email by 2:00 P.M. on 1/12/2026 to Tamala Watson at twatson2@health.nyc.gov. The system in production facilitates CityFHEPS application submission, processing, and eligibility determinations, tracks CityFHEPS landlord and property records, and allows landlords to create an online account and perform functions that include submitting updated information, seeing limited payment history, and enrolling in electronic payments.
