Where can I find the City Planning Commission’s and Department of City Planning’s rules? The City Planning Commission’s and Department of City Planning’s rules are in title 62 of the Rules of the City of New York.

What rules govern the rulemaking process? The City Planning Commission and Department of City Planning must meet the requirements of Section 1043 of the City Charter when creating or changing rules. This notice is made according to the requirements of Section 1043 of the City Charter.

Statement of Basis and Purpose of Proposed Rule

On November 4, 2025, New York City voters approved amendments to the City Charter that alter the City’s land use review process, including establishing a new Expedited Land Use Review Procedure (“ELURP”) pursuant to Section 197-e of Chapter 8 and an Affordable Housing Appeals Board (“AHAB”) pursuant to Section 197-g of Chapter 8.

The City Planning Commission (“Commission”) is proposing to amend its rules by adding a new Chapter 14 to Title 62 of the Rules of the City of New York to implement the ELURP pursuant to Section 197-e of the Charter. These rules would establish:

- guidelines, minimum standards, and procedural requirements for community boards, borough presidents, and the Commission in the exercise of their duties and responsibilities pursuant to Section 197-e;
- minimum standards for certification of applications pursuant to Section 197-e(d);
- specific time periods for review of applications pursuant to Section 197-e prior to certification; and
- certain criteria for determining whether an application is subject to review pursuant to Section 197-e.

The Department of City Planning (“DCP”) is also proposing to amend:

- Subchapter B of Chapter 3 of Title 62 of the Rules of the City of New York to incorporate actions reviewed pursuant ELURP into its existing fee schedule, and
- Section 10-01 of Title 62 to apply existing pre-application process requirements to land use applications to be filed pursuant to Section 197-e of the Charter.

The Commission and DCP also propose to add a new Chapter 15 to Title 62 of the Rules of the City of New York to establish procedures and standards for the AHAB established by Section 197-g of the New York City Charter. The Commission and DCP are also proposing rules respecting the procedure and eligibility for review under Section 197-g of the Charter.

These proposed rules would meet the Charter’s mandate for the Commission to promulgate such rules in accordance with Sections 197-e(h) and 197-g(f) of the City Charter.

The proposed rules would also add clarity and transparency to the ELURP and AHAB processes.

Expedited Land Use Review Procedure

The Expedited Land Use Review Procedure is intended to simplify the review process for land use changes related to modest housing and infrastructure projects, including:

- Zoning map amendments that increase maximum residential floor area by no more than 30% in medium- and high-density areas or allow an increase in residential capacity with a standard maximum residential building height of not more than 45 feet in low-density areas;
- City map changes related to facilitating affordable housing or meeting State law street access requirements, raising and widening the grade of a street or bridge, and facilitating resiliency projects or creating open space;
- Dispositions, acquisitions, and site selections for certain City-owned property, affordable housing, and resiliency, open space, and solar energy projects;
- Proposals that have a primary purpose to facilitate additional housing and affordable housing in Community Districts that have produced the least amount of affordable housing and meet the criteria set forth in Section 197-f(b) of the Charter; and
- Zoning text amendments that apply Mandatory Inclusionary Housing requirements proposed in conjunction with an application that is reviewed under Section 197-e of the Charter.

Applications for land use actions set forth in Section 197-e(b) of the Charter must proceed under ELURP, which involves a ninety (90) day public review process ending with the City Planning Commission. As with the Uniform Land Use Review Procedure (“ULURP”), ELURP begins with advisory review of the application by the Community Board and Borough President. Under ELURP, the Community Board and Borough President’s review period runs concurrently for sixty (60) days with extended time for applications that are reviewed in the summer. After the Community Board and Borough President review, the City Planning Commission has thirty (30) days to hold a public hearing and vote to approve, approve with modifications, or disapprove the application. The City Planning Commission’s decision is final.

Importantly, except for applications that meet the Affordable Housing Fast Track criteria set out in Section 197-f of the Charter, ELURP is limited to land use actions that do not require an environmental impact statement. If an environmental impact statement is required for an Affordable Housing Fast Track application, the City Planning Commission’s review period is extended to forty-five (45) days to allow additional time for environmental review.

Land use applications that do not meet the criteria for expedited review under Section 197-e will continue to be reviewed under ULURP, which includes subsequent review by the City Council and potential review by either the Mayor or the Affordable Housing Appeals Board.

These proposed rules would assist in the implementation of ELURP by establishing:

- guidelines,
- minimum standards,
- procedural requirements for public review,
- minimum standards for certifying applications as complete,
- pre-certification time periods for application review,
- clarified eligibility criteria for certain actions.

To maintain consistency among the City's land use review procedures, the guidelines, standards, and procedural requirements proposed in these rules largely follow the operational components of existing City Planning Commission rules for ULURP applications, which are provided in Chapter 2 of Title 62 of the Rules of the City of New York. Under these proposed rules, applications that must proceed under ELURP pursuant to Section 197-e(b) of the Charter are subject to the same general pre-certification and certification requirements that exist for ULURP applications. Likewise, these proposed rules adhere to existing Community Board, Borough President, and City Planning Commission guidelines and standards applicable to their duties and responsibilities for reviewing ULURP applications, but apply the timeframes set out in Section 197-e.

Zoning Map Changes

ELURP enables an expedited review of zoning map changes that would modestly increase residential capacity, and Section 197-e(b)(2) sets forth different eligibility standards for such changes proposed in medium- and high- density districts and low-density districts. To provide clarity and implement the intent of Section 197-e(b)(2) of the Charter, these rules propose criteria for determining whether a proposed zoning map change application is subject to ELURP.

Zoning Map Change Criteria - Medium- and High-density areas

For designations of zoning districts that increase residential capacity in medium- and high-density areas pursuant to Section 197-e(b)(2)(a) of the Charter, the City Planning Commission proposes that:

- (i) The district designated at the time of the application allows residential uses equivalent to R6 and above;
- (ii) Each zoning district to be designated must not result in more than a thirty (30) percent increase in maximum residential floor area; and
- (iii) Where commercial or manufacturing uses are not already permitted, the maximum commercial or manufacturing floor area must be 2 FAR.

Zoning Map Change Criteria - Low-density areas

For designations of zoning districts in low-density districts pursuant to Section 197-e(b)(2)(b) of the Charter, the City Planning Commission proposes that:

- (i) The district designated at the time of application allows residential uses equivalent to R1 through R5;
- (ii) A designation that increases residential bulk, enables new residential uses, or removes required residential parking shall be considered an increase in residential capacity for purposes of determining whether a designation of a zoning district results in an increase in residential capacity; and
- (iii) The maximum height of "basic" residential buildings as set forth in the Zoning Resolution shall be used to determine "standard" maximum residential building height.

City Acquisitions and Dispositions of Property to Facilitate Affordable Housing Development

Under Section 197-e(k) of the Charter, projects involving dispositions of City-owned property to companies that have been organized exclusively to develop housing projects for persons of low income, Housing Development Fund Companies (HDFCs), or acquisitions of property for such projects, would proceed under ELURP. HDFCs, which are formed exclusively for the purpose of developing and managing affordable housing, are the primary vehicle for HPD-subsidized, 100% affordable housing projects.

State law typically requires project review or approval by the City Council for HDHC projects on City-owned land. For these projects, the public review timeline under ELURP remains at 90-days, but the City Council is substituted for the City Planning Commission in the final 30-day period for its review and vote. These proposed rules establish the guidelines, minimum standards, and procedural requirements for applications reviewed pursuant to Section 197-e(k), which are processed by the NYC Department of Housing Preservation and Development.

ELURP Fees

Further, as with ULURP applications, the Department of City Planning will charge fees for applications reviewed pursuant to Section 197-e of the Charter. Thus, in connection with the City Planning Commission's proposed rules to implement ELURP by establishing a new Chapter 14 to Title 62 of the Rules of the City of New York, the Department of City Planning is proposing to amend its fee schedule by incorporating actions reviewed subject to Section 197-e into Subchapter B of Chapter 3 in Title 62. These proposed amendments do

not change the current fee amounts but rather apply the existing fees charged for ULURP applications to ELURP applications.

Affordable Housing Appeals Board

Section 197-g of the Charter establishes the Affordable Housing Appeals Board, a three-member body made up of the Mayor, City Council Speaker and relevant Borough President, or their designees. The Appeals Board has the power to reverse certain City Council land-use decisions relating to affordable housing. Specifically, the Charter gives the Appeals Board jurisdiction to review land-use applications where:

- The Council reviews an application pursuant to 197-d(c) of the Charter;
- The Council rejects or modifies an application that would directly facilitate the development of affordable housing; and
- The application does not include land in two or more boroughs or an urban renewal plan filed pursuant to Section 197-c(a)(8).

The Appeals Board shall review such actions if, within five days of the City Council's action, either the applicant or two members of the Board request review in writing to the Department of City Planning. Within fifteen days of a request for review, the Board is required to hold a public meeting and take final action on the appeal. The Board may, by an affirmative majority vote, approve an application disapproved by the Council, or reverse one or more modifications made by the Council by restoring, in relevant part, the application as it was approved by the City Planning Commission.

Procedures

Because the Charter charges the Department of City Planning with certain administrative functions related to the Board, the Department is promulgating rules to establish and clarify the procedure for seeking review by the Board. The proposed rules would establish that designee assignments by members of the Board, and requests for review by applicants and Members of the Board, must occur by written notice to the Department in a form and manner to be determined by the Department. The rules would likewise establish that the Department must promptly notify members of the Board and applicants of a Council action eligible for review by the Board or a request for review necessitating a meeting of the Board. The proposed rules further require the Department to provide all necessary assistance to the Board in the conduct of its meetings and the exercise of its powers.

Applications Eligible for Review

Section 197-g(b)(2) of the Charter provides that only applications that "would directly facilitate the development of affordable housing" are eligible for review by the Board including, but not limited to, applications that implement the City's Mandatory Inclusionary Housing Program for one or more parcels of real property, as well as "related actions that directly facilitate such housing, such as special permits that modify residential bulk regulations or remove required residential parking." Charter Section 197-g(b)(2).

Pursuant to Section 197-g(f) of the Charter, which gives the City Planning Commission the power to promulgate additional rules for determining whether an application directly facilitates the development of affordable housing, the proposed rules would further specify which applications are potentially subject to review by the Board. The proposed rules would establish that to be considered an action that "directly" facilitates the development of affordable housing, an application must facilitate the development of housing *and* involve or relate to:

- the application of the City's Mandatory Inclusionary Housing to one or more specified parcels of real property;
- one or more specified parcels of real property that were previously made subject to Mandatory Inclusionary Housing;
- the development of an Affordable Housing Building for which a government agency serves as the applicant or co-applicant; or
- the development of an Affordable Housing Building subject to binding restrictions at the time of land use approval.

The proposed rules closely track the text and purpose of Section 197-g and, as in the text of the Charter itself, reflect that applications that apply Mandatory Inclusionary Housing, and related actions, directly facilitate the development of affordable housing. Charter Section 197-g(b)(2). Because applications involving or related to property that was previously made subject to Mandatory Inclusionary Housing may equally facilitate the development of affordable housing, the proposed rule recognizes that these applications may also be eligible for review. Further, the proposed rule recognizes that there are classes of applications that may directly facilitate affordable housing but not involve Mandatory Inclusionary Housing: namely, the development of publicly financed affordable housing overseen by a government agency like HPD, and the development of affordable housing pursuant to binding restrictions requiring the delivery of affordable housing.

Notably, under the proposed rules, private applications that merely incentivize affordable housing – through, for example, the Zoning Resolution's Universal Affordability Preference – but which do not

involve the City's Mandatory Inclusionary Housing program or other binding restrictions to deliver affordable housing, would not be considered applications that directly facilitate the development of affordable housing. It follows that, under the proposed rules, applications brought by private parties with the expressed intention of delivering affordable housing would be ineligible for review by the Board absent:

- a new or prior application of Mandatory Inclusionary Housing to one or more parcels;
- a government agency, such as the Department of Housing, Preservation and Development, serving as the applicant or co-applicant; or
- the presence of a binding restriction to deliver affordable housing at the time of the land use approval.

The Department of City Planning's and City Planning Commission's authority for these rules is found in Sections 1043, 197-e, and 197-g of the New York City Charter.

The following requirements shall apply to applications filed pursuant to Section 197-e(b) of the Charter, except for applications pursuant to Sections 197-e(k) of the Charter.

The application must be submitted as provided for in the instructions on the Department of City Planning’s website. This includes the submission of forms requesting information required for the “doing business database” established by Local Law 34 for the year 2007, and must include all of the information and documents required by such instructions and forms. For purposes of the acquisition of property by the City, pursuant to 62 RCNY §§ 14-02(3), 14-02(6), and 14-02 (7), the applicant shall be the requesting agency and the Department of Citywide Administrative Services. The Department may not consider the application as filed unless it includes all required components and shall not consider the application as filed unless the required fee has been paid.

(2) *Initial Review.* The Department of City Planning shall, within five (5) days, review each application to ensure that all required forms, documents and other exhibits supplied have been submitted and prepared as required by the instructions. If any of the documentation is missing or has been improperly prepared, the applicant will be notified that the submitted application has been rejected, along with a listing of its deficiencies. If the documentation is in order, the Department shall assign a docket number and shall transmit a Notice of Receipt of the application to all the appropriate Department divisions and other agencies which review such application, and to the community board(s), Borough President(s), the City Council and the applicant in accordance with 62 RCNY § 14-03(b). Such Notice of Receipt, when sent

to the community board(s), Borough President(s), and City Council shall include a copy of the application form and all documents included therewith.

(3) *Substantive Review.* The application form, documents and other exhibits shall be subject to review by the appropriate divisions of the Department in order to ensure that the requirements for completeness in 62 RCNY § 14-03(a)(5) have been met prior to certification of the application into ELURP. The Department may request any additional documents, maps, plans, drawings or information necessary to complete or organize the submission, or to clarify its substance and the land use issues attendant to it. The Department of City Planning shall refer such additional application documents or amendments within five (5) days to each affected Borough President and community board, and to the City Council. Not later than sixty (60) days after the Notice of Receipt has been sent, the Department of City Planning shall notify the applicant of any deficiencies or errors in the application, documents and other exhibits, and shall make any requests for revised or supplementary documents and exhibits. The applicant is expected to respond within a reasonable time. Upon receipt of the corrected, revised or supplementary material, the Department of City Planning shall review it within no more than sixty (60) days and make any additional request for further corrections or supplements if needed. If the applicant fails to respond within sixty (60) days after the receipt of a request for revisions, corrections or supplement, the Department of City Planning shall give notice to the applicant that the application will be deemed withdrawn.

(4) *Appeal for Certification.* At any time after one hundred and eighty (180) days have elapsed from the date of the Notice of Receipt of any application, the applicant may appeal in writing to the Commission to certify the application as complete. The affected Borough President may also appeal in writing if the Borough President finds that the application is consistent with the land use policy or strategic policy statement of the borough formulated pursuant to Section 82, subsection 14 of the Charter. Upon receipt of such an appeal, the Commission shall refer it to the Department of City Planning and the Office of Environmental Coordination or lead agency for an evaluation of the completeness of the application, which shall include an identification of all material requested by the Department of City Planning and the environmental review staff or lead agency but not yet provided by the applicant. If the Commission determines that all pertinent information has been supplied in accordance with the criteria of 62 RCNY § 14-03(a)(5) below, it shall certify the application as complete. If the Commission determines that pertinent information has not been supplied, such information shall be listed by the Department of City Planning and the environmental review staff and sent by the Commission to the applicant within thirty (30) days of receipt of the appeal. When the applicant has responded, either by supplying all the information so requested, or by explaining why such information should not be required in order to certify the application, the Commission shall consider the evaluation and the applicant's response and either certify the application as complete in accordance with 62 RCNY § 14-03(a)(5) or deny the appeal. A denial by the Commission shall state the information that must still be supplied or clearly state the reason for denial. Such determination shall be made not later than sixty (60) days from the date the appeal is received. If the appeal is one which has been made by the affected Borough President, and the land use proposed in the application is consistent with the land use policy or strategic policy statement of the affected Borough President, then a vote of five members shall be sufficient to certify the application as complete in accordance with 62 RCNY § 14-03(a)(5) below. In all other instances, a majority vote of the Commission is necessary to certify an application. A denial of the appeal shall mean that the application remains incomplete, and the Department of City Planning and the environmental review staff shall continue with timely review of the application until all the information required for completeness has been provided at which time certification shall take place. If such review continues for an additional one hundred and eighty (180) days or more beyond the denial, the applicant may again appeal to the Commission under the procedure outlined above to certify the application.

(a) General provisions.

(1) Except as provided below, within sixty (60) calendar days after a community board's receipt of a complete application referred by the Department of City Planning or the Commission, the community board shall hold a public hearing and adopt and submit as provided herein a written recommendation concerning such application.

(2) Where an application has been certified during the month of June, the affected community board shall provide notification pursuant to Section 197-e(1)(a) of the Charter and conduct a hearing or, where authorized, submit a waiver of the right to conduct a public hearing pursuant to Section 197-e(1)(b) of the Charter not later than ninety (90) days after receipt of such application or, where such application is certified during the period of time from and including July 1 to and including July 15, not later than seventy-five (75) days after receipt of such application.

(3) For purposes of this subdivision, a community board shall be deemed to have received an application nine (9) calendar days after the date of certification. The Department of City Planning shall transmit a certified application to the community board, making it available to the community board within (8) days from the date of certification.

(b) *Waivers of hearings and recommendations.* In the case of a proposed lease of property of the City which in the judgment of the community board does not involve a substantial land use interest, such board may waive the holding of a public hearing and preparation of a written recommendation. In such case the community board shall submit to the Department a written waiver of its right to hold a public hearing and to submit recommendations to the City Planning Commission and affected Borough President. When a written waiver of the community board's right to hold a hearing and submit a recommendation is received by the Department of City Planning the community board's period of review shall be deemed ended.

(c) *Notice of hearing.* Notice of the time, place and subject of a public hearing to be held by a community board on an application shall be given as follows:

(1) by publication in The City Record for the five (5) days of publication immediately preceding and including the date of the public hearing;

(d) Conduct of public hearing.

(1) *Location.* A community board public hearing shall be held at a convenient place of public assembly chosen by the board and located within its community district. If in the community board's judgment there is no suitable and convenient place within the community district, the hearing shall be held at a centrally located place of public assembly within the borough. This provision is not intended to affect the requirement of Section 2800(h) of the Charter stating a community board's obligation to meet at least monthly (except during July and August) within its district.

(1) *Quorum.* The adoption of a community board recommendation, or the waiver of a public hearing and recommendation by a community board, shall require a quorum of a majority of the appointed members of the board. The minutes of a meeting at which a recommendation or waiver was adopted shall record the individual members present.

(2) *Vote.* The adoption of a community board recommendation or the waiver of a public hearing and recommendation shall be by a public vote which results in approval by a majority of the appointed members present during the presence of a quorum, at a duly called meeting. The vote shall be taken in accordance with the by-laws of the community board.

(3) *Content.* A community board recommendation shall be in writing via a form provided by the Department of City Planning and shall include a description of the application, the time and place of the public hearing on the application, the time and place of the meeting at which the recommendation was adopted and the vote by which the recommendation was adopted. The community board may include in its submission the reasons for the vote and any conditions attached to its vote. The City Planning Commission shall give consideration only to those conditions which are related to land use and environmental aspects of the application.

(4) *Submission.* A community board shall submit its recommendation or waiver promptly after adoption, to the Commission, to the Borough President, and to the applicant. (b) Where an application has been certified during the month of June, the affected Borough President shall submit such recommendation or waiver not later than ninety (90) days after receipt of such application or, where such

application is certified during the period of time from and including July 1 to and including July 15, not later than seventy-five (75) days after receipt of such application.

(c) For purposes of this section, a Borough President shall be deemed to have received an application nine (9) calendar days after the date of certification. The Department of City Planning shall transmit a certified application to the Borough President, making it available to the Borough President within (8) days from the date of certification.

(d) A Borough President shall submit its recommendation or waiver promptly after adoption, to the Commission and to the applicant. If a Borough President fails to act within the time limits for review the application shall be deemed referred to the Commission at the completion of the community board's time period.

Such proposed modification may be based upon a recommendation from an applicant, community board, Borough President or other source. Where a modification is proposed, the Commission shall hold a public hearing on the application as referred to a community board or boards and on the proposed modification. Promptly upon its decision to schedule a proposed modification for public hearing, the Commission shall refer the proposed modification to the community board or community boards and the affected Borough President to which the application was earlier referred, for such action as such board or boards or Borough President deem appropriate.

(2) The above provision shall not limit the Commission's ability to make a minor modification of an application.

COMPASS PROGRAMS IN PUBLIC SCHOOLS - ELEMENTARY

- Competitive Sealed Proposals/Pre-Qualified List - Other - PIN# 26026P0003104 - AMT: \$23,657,417.00 - TO: Counseling in Schools Inc, 505 Eighth Avenue, Suite 12A-06, New York, NY 10018.

COMPASS and SONYC is one of DYCD's largest programs, with over 820 programs collectively throughout the five boroughs. Families rely on these programs to provide elementary and middle school students, during after school hours, summer and on holidays, programing which includes educational support, recreation, enrichment, and cultural activities to support and strengthen the overall development of our youth. Programs are offered at no cost to youth and are purposefully located in public and private schools, community centers, religious institutions, public housing and parks recreational facilities throughout the City to help families find a place that best fits their youth's needs.

DYCD has determined that Competitive Sealed Bidding is neither practicable nor advantageous to the City because this procurement necessitates the exercise of judgment in evaluating competing proposals and requires a balancing of price, quality, and programmatic factors to achieve the best outcomes. COMPASS programs are a critical part of the City's effort to support working families by providing free, high-quality afterschool and summer childcare services. They offer a wide range of enrichment activities that help students in Kindergarten through Grade 8 develop academically, socially, and emotionally, both in and out of the classroom. Given the complex nature of this work requiring cultural competency, deep community engagement, and tailored programming to meet the diverse needs of NYC youth a proposal-based evaluation is essential. This approach allows DYCD to select providers not only based on cost, but also on their demonstrated experience, organizational capacity, staffing approach, and commitment to equitable service delivery. Therefore, the use of an RFP, rather than Competitive Sealed Bidding, is the most appropriate method to ensure the highest quality of services are delivered in alignment with the City's goals for youth development and family support.

NOTICE OF RATIFICATION OF A MINOR RULES VIOLATION

On August 17, 2026, pursuant to Section 1-02(h)(1)(ii) of the New York City Procurement Policy Board Rules ("PPB Rules"), the City Chief Procurement Officer ("CCPO") ratified a Minor Rules Violation request submitted by the New York City Department of Probation ("DOP") in connection with the Negotiated Acquisition Extension ("NAE") for Risk Assessment License services.

The Minor Rules Violation concerned compliance with PPB Rule §3-04 relating to negotiations occurring when only preliminary discussions were permitted and DOP's failure to publish the required Notice of Intent to Enter into Negotiations. DOP and the CCPO determined that the violations had no significant adverse impact on the procurement process and that ratification is in the best interests of the City.
