#### **Statement of Basis and Purpose of Proposed Rule**

On November 4, 2025, New York City voters approved amendments to the City Charter that alter the City’s land use review process, including establishing a new Expedited Land Use Review Procedure (“ELURP”) pursuant to Section 197-e of Chapter 8 and an Affordable Housing Appeals Board (“AHAB”) pursuant to Section 197-g of Chapter 8.

The City Planning Commission (“Commission”) is proposing to amend its rules by adding a new Chapter 14 to Title 62 of the Rules of the City of New York to implement the ELURP pursuant to Section 197-e of the Charter. These rules would establish:

- guidelines, minimum standards, and procedural requirements for community boards, borough presidents, and the Commission in the exercise of their duties and responsibilities pursuant to Section 197-e;
- minimum standards for certification of applications pursuant to Section 197-e(d);
- specific time periods for review of applications pursuant to Section 197-e prior to certification; and
- certain criteria for determining whether an application is subject to review pursuant to Section 197-e.

The Department of City Planning (“DCP”) is also proposing to amend:

- Subchapter B of Chapter 3 of Title 62 of the Rules of the City of New York to incorporate actions reviewed pursuant to ELURP into its existing fee schedule, and
- Section 10-01 of Title 62 to apply existing pre-application process requirements to land use applications to be filed pursuant to Section 197-e of the Charter.

The Commission and DCP also propose to add a new Chapter 15 to Title 62 of the Rules of the City of New York to establish procedures and standards for the AHAB established by Section 197-g of the New York City Charter. The Commission and DCP are also proposing rules respecting the procedure and eligibility for review under Section 197-g of the Charter.

These proposed rules would meet the Charter’s mandate for the Commission to promulgate such rules in accordance with Sections 197-e(h) and 197-g(f) of the City Charter.

The proposed rules would also add clarity and transparency to the ELURP and AHAB processes.

#### **Expedited Land Use Review Procedure**

The Expedited Land Use Review Procedure is intended to simplify the review process for land use changes related to modest housing and infrastructure projects, including:

- Zoning map amendments that increase maximum residential floor area by no more than 30% in medium- and high-density areas or allow an increase in residential capacity with a standard maximum residential building height of not more than 45 feet in low-density areas;
- City map changes related to facilitating affordable housing or meeting State law street access requirements, raising and widening the grade of a street or bridge, and facilitating resiliency projects or creating open space;
- Dispositions, acquisitions, and site selections for certain City-owned property, affordable housing, and resiliency, open space, and solar energy projects;
- Proposals that have a primary purpose to facilitate additional housing and affordable housing in Community Districts that have produced the least amount of affordable housing and meet the criteria set forth in Section 197-f(b) of the Charter; and
- Zoning text amendments that apply Mandatory Inclusionary Housing requirements proposed in conjunction with an application that is reviewed under Section 197-e of the Charter.

Applications for land use actions set forth in Section 197-e(b) of the Charter must proceed under ELURP, which involves a ninety (90) day public review process ending with the City Planning Commission. As with the Uniform Land Use Review Procedure (“ULURP”), ELURP begins with advisory review of the application by the Community Board and Borough President. Under ELURP, the Community Board and Borough President’s review period runs concurrently for sixty (60) days with extended time for applications that are reviewed in the summer. After the Community Board and Borough President review, the City Planning Commission has thirty (30) days to hold a public hearing and vote to approve, approve with modifications, or disapprove the application. The City Planning Commission’s decision is final.

Importantly, except for applications that meet the Affordable Housing Fast Track criteria set out in Section 197-f of the Charter, ELURP is limited to land use actions that do not require an environmental impact statement. If an environmental impact statement is required for an Affordable Housing Fast Track application, the City Planning Commission’s review period is extended to forty-five (45) days to allow additional time for environmental review.

Land use applications that do not meet the criteria for expedited review under Section 197-e will continue to be reviewed under ULURP, which includes subsequent review by the City Council and potential review by either the Mayor or the Affordable Housing Appeals Board.

These proposed rules would assist in the implementation of ELURP by establishing:

- guidelines,
- minimum standards,
- procedural requirements for public review,
- minimum standards for certifying applications as complete,
- pre-certification time periods for application review,
- clarified eligibility criteria for certain actions.

To maintain consistency among the City's land use review procedures, the guidelines, standards, and procedural requirements proposed in these rules largely follow the operational components of existing City Planning Commission rules for ULURP applications, which are provided in Chapter 2 of Title 62 of the Rules of the City of New York. Under these proposed rules, applications that must proceed under ELURP pursuant to Section 197-e(b) of the Charter are subject to the same general pre-certification and certification requirements that exist for ULURP applications. Likewise, these proposed rules adhere to existing Community Board, Borough President, and City Planning Commission guidelines and standards applicable to their duties and responsibilities for reviewing ULURP applications, but apply the timeframes set out in Section 197-e.

### **Zoning Map Changes**

ELURP enables an expedited review of zoning map changes that would modestly increase residential capacity, and Section 197-e(b)(2) sets forth different eligibility standards for such changes proposed in medium- and high- districts and low-density districts. To provide clarity and implement the intent of Section 197-e(b)(2) of the Charter, these rules propose criteria for determining whether a proposed zoning map change application is subject to ELURP.

#### **Zoning Map Change Criteria - Medium- and High-density areas**

For designations of zoning districts that increase residential capacity in medium- and high-density areas pursuant to Section 197-e(b)(2)(a) of the Charter, the City Planning Commission proposes that:

- (i) The district designated at the time of the application allows residential uses equivalent to R6 and above;
- (ii) Each zoning district to be designated must not result in more than a thirty (30) percent increase in maximum residential floor area; and
- (iii) Where commercial or manufacturing uses are not already permitted, the maximum commercial or manufacturing floor area must be 2 FAR.

#### **Zoning Map Change Criteria - Low-density areas**

For designations of zoning districts in low-density districts pursuant to Section 197-e(b)(2)(b) of the Charter, the City Planning Commission proposes that:

- (i) The district designated at the time of application allows residential uses equivalent to R1 through R5;
- (ii) A designation that increases residential bulk, enables new residential uses, or removes required residential parking shall be considered an increase in residential capacity for purposes of determining whether a designation of a zoning district results in an increase in residential capacity; and
- (iii) The maximum height of "basic" residential buildings as set forth in the Zoning Resolution shall be used to determine "standard" maximum residential building height.

### **City Acquisitions and Dispositions of Property to Facilitate Affordable Housing Development**

Under Section 197-e(k) of the Charter, projects involving dispositions of City-owned property to companies that have been organized exclusively to develop housing projects for persons of low income, Housing Development Fund Companies (HDFCs), or acquisitions of property for such projects, would proceed under ELURP. HDFCs, which are formed exclusively for the purpose of developing and managing affordable housing, are the primary vehicle for HPD-subsidized, 100% affordable housing projects.

State law typically requires project review or approval by the City Council for HDFC projects on City-owned land. For these projects, the public review timeline under ELURP remains at 90-days, but the City Council is substituted for the City Planning Commission in the final 30-day period for its review and vote. These proposed rules establish the guidelines, minimum standards, and procedural requirements for applications reviewed pursuant to Section 197-e(k), which are processed by the NYC Department of Housing Preservation and Development.

### **ELURP Fees**

Further, as with ULURP applications, the Department of City Planning will charge fees for applications reviewed pursuant to Section 197-e of the Charter. Thus, in connection with the City Planning Commission's proposed rules to implement ELURP by establishing a new Chapter 14 to Title 62 of the Rules of the City of New York, the Department of City Planning is proposing to amend its fee schedule by incorporating actions reviewed subject to Section 197-e into Subchapter B of Chapter 3 in Title 62. These proposed amendments do

not change the current fee amounts but rather apply the existing fees charged for ULURP applications to ELURP applications.

### **Affordable Housing Appeals Board**

Section 197-g of the Charter establishes the Affordable Housing Appeals Board, a three-member body made up of the Mayor, City Council Speaker and relevant Borough President, or their designees. The Appeals Board has the power to reverse certain City Council land-use decisions relating to affordable housing. Specifically, the Charter gives the Appeals Board jurisdiction to review land-use applications where:

- The Council reviews an application pursuant to 197-d(c) of the Charter;
- The Council rejects or modifies an application that would directly facilitate the development of affordable housing; and
- The application does not include land in two or more boroughs or an urban renewal plan filed pursuant to Section 197-c(a)(8).

The Appeals Board shall review such actions if, within five days of the City Council's action, either the applicant or two members of the Board request review in writing to the Department of City Planning. Within fifteen days of a request for review, the Board is required to hold a public meeting and take final action on the appeal. The Board may, by an affirmative majority vote, approve an application disapproved by the Council, or reverse one or more modifications made by the Council by restoring, in relevant part, the application as it was approved by the City Planning Commission.

### **Procedures**

Because the Charter charges the Department of City Planning with certain administrative functions related to the Board, the Department is promulgating rules to establish and clarify the procedure for seeking review by the Board. The proposed rules would establish that designee assignments by members of the Board, and requests for review by applicants and Members of the Board, must occur by written notice to the Department in a form and manner to be determined by the Department. The rules would likewise establish that the Department must promptly notify members of the Board and applicants of a Council action eligible for review by the Board or a request for review necessitating a meeting of the Board. The proposed rules further require the Department to provide all necessary assistance to the Board in the conduct of its meetings and the exercise of its powers.

### **Applications Eligible for Review**

Section 197-g(b)(2) of the Charter provides that only applications that "would directly facilitate the development of affordable housing" are eligible for review by the Board including, but not limited to, applications that implement the City's Mandatory Inclusionary Housing Program for one or more parcels of real property, as well as "related actions that directly facilitate such housing, such as special permits that modify residential bulk regulations or remove required residential parking." Charter Section 197-g(b)(2).

Pursuant to Section 197-g(f) of the Charter, which gives the City Planning Commission the power to promulgate additional rules for determining whether an application directly facilitates the development of affordable housing, the proposed rules would further specify which applications are potentially subject to review by the Board. The proposed rules would establish that to be considered an action that "directly" facilitates the development of affordable housing, an application must facilitate the development of housing *and* involve or relate to:

- the application of the City's Mandatory Inclusionary Housing to one or more specified parcels of real property;
- one or more specified parcels of real property that were previously made subject to Mandatory Inclusionary Housing;
- the development of an Affordable Housing Building for which a government agency serves as the applicant or co-applicant; or
- the development of an Affordable Housing Building subject to binding restrictions at the time of land use approval.

The proposed rules closely track the text and purpose of Section 197-g and, as in the text of the Charter itself, reflect that applications that apply Mandatory Inclusionary Housing, and related actions, directly facilitate the development of affordable housing. Charter Section 197-g(b)(2). Because applications involving or related to property that was previously made subject to Mandatory Inclusionary Housing may equally facilitate the development of affordable housing, the proposed rule recognizes that these applications may also be eligible for review. Further, the proposed rule recognizes that there are classes of applications that may directly facilitate affordable housing but not involve Mandatory Inclusionary Housing: namely, the development of publicly financed affordable housing overseen by a government agency like HPD, and the development of affordable housing pursuant to binding restrictions requiring the delivery of affordable housing.

Notably, under the proposed rules, private applications that merely incentivize affordable housing – through, for example, the Zoning Resolution's Universal Affordability Preference – but which do not

involve the City's Mandatory Inclusionary Housing program or other binding restrictions to deliver affordable housing, would not be considered applications that directly facilitate the development of affordable housing. It follows that, under the proposed rules, applications brought by private parties with the expressed intention of delivering affordable housing would be ineligible for review by the Board absent:

- a new or prior application of Mandatory Inclusionary Housing to one or more parcels;
- a government agency, such as the Department of Housing, Preservation and Development, serving as the applicant or co-applicant; or
- the presence of a binding restriction to deliver affordable housing at the time of the land use approval.

The Department of City Planning's and City Planning Commission's authority for these rules is found in Sections 1043, 197-e, and 197-g of the New York City Charter.

An additional fee shall be charged for any applications later filed in relation to the same project, while such project is pending review and determination. Agencies of the federal, state or city governments shall not be required to pay fees nor shall any fees be charged if a neighborhood, community or similar association consisting of local residents or homeowners organized on a non-profit basis applies for a zoning map amendment for an area of at least two blocks in size, in which one or more of its members or constituents reside. Additional fees may be charged by service providers in connection with electronic payment processing.

(9) an application that meets the criteria set forth in Section 197-f(b) of the Charter.

#### **§ 14-03 Applications.**

The following requirements shall apply to applications filed pursuant to Section 197-e(b) of the Charter, except for applications pursuant to Sections 197-e(k) of the Charter.

(a) *Applications: general provisions.*

(1) *Presentation of Application.* Notwithstanding 62 RCNY § 2-02(a)(1), a request for an action subject to this Chapter shall be submitted to the Department of City Planning. The application must be submitted as provided for in the instructions on the Department of City Planning’s website. This includes the submission of forms requesting information required for the “doing business database” established by Local Law 34 for the year 2007, and must include all of the information and documents required by such instructions and forms. For purposes of the acquisition of property by the City, pursuant to 62 RCNY §§ 14-02(3), 14-02(6), and 14-02 (7), the applicant shall be the requesting agency and the Department of Citywide Administrative Services. The Department may not consider the application as filed unless it includes all required components and shall not consider the application as filed unless the required fee has been paid.

(2) *Initial Review.* The Department of City Planning shall, within five (5) days, review each application to ensure that all required forms, documents and other exhibits supplied have been submitted and prepared as required by the instructions. If any of the documentation is missing or has been improperly prepared, the applicant will be notified that the submitted application has been rejected, along with a listing of its deficiencies. If the documentation is in order, the Department shall assign a docket number and shall transmit a Notice of Receipt of the application to all the appropriate Department divisions and other agencies which review such application, and to the community board(s), Borough President(s), the City Council and the applicant in accordance with 62 RCNY § 14-03(b). Such Notice of Receipt, when sent

to the community board(s), Borough President(s), and City Council shall include a copy of the application form and all documents included therewith.

(3) *Substantive Review.* The application form, documents and other exhibits shall be subject to review by the appropriate divisions of the Department in order to ensure that the requirements for completeness in 62 RCNY § 14-03(a)(5) have been met prior to certification of the application into ELURP. The Department may request any additional documents, maps, plans, drawings or information necessary to complete or organize the submission, or to clarify its substance and the land use issues attendant to it. The Department of City Planning shall refer such additional application documents or amendments within five (5) days to each affected Borough President and community board, and to the City Council. Not later than sixty (60) days after the Notice of Receipt has been sent, the Department of City Planning shall notify the applicant of any deficiencies or errors in the application, documents and other exhibits, and shall make any requests for revised or supplementary documents and exhibits. The applicant is expected to respond within a reasonable time. Upon receipt of the corrected, revised or supplementary material, the Department of City Planning shall review it within no more than sixty (60) days and make any additional request for further corrections or supplements if needed. If the applicant fails to respond within sixty (60) days after the receipt of a request for revisions, corrections or supplement, the Department of City Planning shall give notice to the applicant that the application will be deemed withdrawn.

(4) *Appeal for Certification.* At any time after one hundred and eighty (180) days have elapsed from the date of the Notice of Receipt of any application, the applicant may appeal in writing to the Commission to certify the application as complete. The affected Borough President may also appeal in writing if the Borough President finds that the application is consistent with the land use policy or strategic policy statement of the borough formulated pursuant to Section 82, subsection 14 of the Charter. Upon receipt of such an appeal, the Commission shall refer it to the Department of City Planning and the Office of Environmental Coordination or lead agency for an evaluation of the completeness of the application, which shall include an identification of all material requested by the Department of City Planning and the environmental review staff or lead agency but not yet provided by the applicant. If the Commission determines that all pertinent information has been supplied in accordance with the criteria of 62 RCNY § 14-03(a)(5) below, it shall certify the application as complete. If the Commission determines that pertinent information has not been supplied, such information shall be listed by the Department of City Planning and the environmental review staff and sent by the Commission to the applicant within thirty (30) days of receipt of the appeal. When the applicant has responded, either by supplying all the information so requested, or by explaining why such information should not be required in order to certify the application, the Commission shall consider the evaluation and the applicant's response and either certify the application as complete in accordance with 62 RCNY § 14-03(a)(5) or deny the appeal. A denial by the Commission shall state the information that must still be supplied or clearly state the reason for denial. Such determination shall be made not later than sixty (60) days from the date the appeal is received. If the appeal is one which has been made by the affected Borough President, and the land use proposed in the application is consistent with the land use policy or strategic policy statement of the affected Borough President, then a vote of five members shall be sufficient to certify the application as complete in accordance with 62 RCNY § 14-03(a)(5) below. In all other instances, a majority vote of the Commission is necessary to certify an application. A denial of the appeal shall mean that the application remains incomplete, and the Department of City Planning and the environmental review staff shall continue with timely review of the application until all the information required for completeness has been provided at which time certification shall take place. If such review continues for an additional one hundred and eighty (180) days or more beyond the denial, the applicant may again appeal to the Commission under the procedure outlined above to certify the application.

(5) *Certification of Completeness.* The Department or the Commission shall certify the application as complete when compliance has been achieved with all of the following:

(i) The standard application form, including for any application certified on or after the effective date of the rule that added this chapter, forms requesting information required for the "doing business database" established pursuant to Local Law 34 for the year 2007, has been completed in its entirety with all requested information presented in clear language.

If any such agency does not respond within sixty (60) days, it will be deemed to have waived its review and action as applicable law permits.

(v) A determination has been made whether the action is subject to City or State Environmental Quality Review, and if so subject, the lead agency has issued either:

If the lead agency is other than the Commission, no such application shall be certified as complete pursuant to 62 RCNY § 14-03(a)(5) hereof until such other lead agency shall have submitted any notification of a proposed (E) designation, in the form and addressed to the parties required by this Section to the Department of City Planning, who shall send such notification as provided by this Section.

(2) Such notification shall be by first-class mail and shall be made to the person(s) or entity(ies) identified in the official records of the City of New York as the fee owners of such tax lot or zoning lot and shall be sent to the address or addresses indicated in such records.

If in the community board's judgment there is no suitable and convenient place within the community district, the hearing shall be held at a centrally located place of public assembly within the borough. (2) *Vote.* The adoption of a community board recommendation or the waiver of a public hearing and recommendation shall be by a public vote which results in approval by a majority of the appointed members present during the presence of a quorum, at a duly called meeting. The vote shall be taken in accordance with the by-laws of the community board.

(3) *Content.* A community board recommendation shall be in writing via a form provided by the Department of City Planning and shall include a description of the application, the time and place of the public hearing on the application, the time and place of the meeting at which the recommendation was adopted and the vote by which the recommendation was adopted. The community board may include in its submission the reasons for the vote and any conditions attached to its vote. The City Planning Commission shall give consideration only to those conditions which are related to land use and environmental aspects of the application.

(4) *Submission.* A community board shall submit its recommendation or waiver promptly after adoption, to the Commission, to the Borough President, and to the applicant. application is certified during the period of time from and including July 1 to and including July 15, not later than seventy-five (75) days after receipt of such application.

(c) For purposes of this section, a Borough President shall be deemed to have received an application nine (9) calendar days after the date of certification. The Department of City Planning shall transmit a certified application to the Borough President, making it available to the Borough President within (8) days from the date of certification.

(d) A Borough President shall submit its recommendation or waiver promptly after adoption, to the Commission and to the applicant. If a Borough President fails to act within the time limits for review the application shall be deemed referred to the Commission at the completion of the community board's time period.

(1) The Commission may propose a modification of an application, including an application for a zoning text amendment pursuant to Section 200 or Section 201 of the Charter, which meets the criteria of 62 RCNY § 14-06(g) below. Such proposed modification may be based upon a recommendation from an applicant, community board, Borough President or other source. Where a modification is proposed, the Commission shall hold a public hearing on the application as referred to a community board or boards and on the proposed modification. Promptly upon its decision to schedule a proposed modification for public hearing, the Commission shall refer the proposed modification to the community board or community boards and the affected Borough President to which the application was earlier referred, for such action as such board or boards or Borough President deem appropriate.

(2) The above provision shall not limit the Commission's ability to make a minor modification of an application.

(d) *Notice of hearing.* Notice of the time, place and subject of a public hearing by the Commission for all applications subject to this expedited land use review procedure, including applications for zoning text amendments pursuant to Section 200 and Section 201 of the Charter and modified applications pursuant to 62 RCNY § 14-06(c)(1) shall be given as follows:

**TRANSPORTATION****■ PUBLIC HEARINGS**

Bronx County (Bronx) - The Federal Highway Administration (FHWA), the New York State Department of Transportation (NYSDOT), as joint lead agencies, and the New York City Department of Transportation (NYC DOT), as project sponsor and joint lead agency, have made available the Draft Design Report (DDR) / NEPA Draft Environmental Impact Statement (DEIS) for the Shore Road Bridge over the Hutchinson River Project. In compliance with SEQRA/CEQR, the NYC DOT has also prepared additional documentation to cover topics not addressed in the DDR/NEPA DEIS.

The purpose of the Project is to address the structural deficiencies; geometric deficiencies; and operational reliability for multi-modal users, including marine vessels, of the Shore Road Bridge over the Hutchinson River. The existing Shore Road Bridge is over 115 years old and is an 865-foot-long bridge with seven spans. The main span over the navigation channel is a double-leaf movable bascule span, which opens for the passage of marine vessels. The bridge is located within Pelham Bay Park between the Bronx and Pelham Parkway and City Island Road along Shore Road in the Borough of Bronx, New York.

As a project requiring FHWA approval, the Project is subject to the requirements of Section 4(f) of the USDOT Act of 1966 (now codified in 23 USC §138 and 49 USC §303), and the FHWA implementing

regulation, 23 CFR Part 774. In accordance with the applicable regulations and as documented in the DEIS, the FHWA intends to make a *de minimis* impact finding for the Section 4(f) use of Pelham Bay Park and the Pelham Bay Park Preserve. The FHWA is soliciting comments from the public on the proposed *de minimis* impact determination for Pelham Bay Park and the Pelham Bay Park Preserve.

Two in-person public hearings will be held to provide information and receive comments on the DDR/NEPA DEIS and SEQRA/CEQR documentation. The same content will be presented at both hearings. One will be held on Thursday, October 1, 2026, from 6:00 P.M. to 8:00 P.M. at the Bartow Older Adult Center (Co-Op City) located at 2049 Bartow Avenue, Bronx, NY 10475 (Parking: Parking Garage 4, 99 Asch Loop, Bronx, NY 10475). The second will be held on Wednesday, October 7, 2026, from 6:00 P.M. to 8:00 P.M. at the Pelham Bay & Split Rock Golf Courses located at 870 Shore Road, Bronx, NY 10464 (parking available on site). Hearings will begin in an open-house format followed by a presentation and formal comment session for people who have signed up at the hearing to speak. Please submit any special accommodation requests by calling or emailing the contact below by 4:00 P.M., Monday, September 21, 2026. An on-demand presentation will also be available through the Project website after the completion of the in-person hearings.

Both the DDR/ NEPA DEIS and the SEQRA/CEQR Documentation are available at the Project website beginning September 4, 2026: <https://www.nyc.gov/html/dot/html/infrastructure/shoreroadbridge.shtml>.

Digital and/or physical copies will be available at the following locations:

**COMPASS PROGRAMS IN PUBLIC SCHOOLS - ELEMENTARY** - Competitive Sealed Proposals/Pre-Qualified List - Other - PIN#26026P0003198 - AMT: \$23,935,877.00 - TO: Center for Family Life in Sunset Park Inc., 443 39th Street, Brooklyn, NY 11232.

COMPASS and SONYC is one of DYCD's largest programs, with over 820 programs collectively throughout the five boroughs. Families rely on these programs to provide elementary and middle school students, during after school hours, summer and on holidays, programing which includes educational support, recreation, enrichment, and cultural activities to support and strengthen the overall development of our youth. Programs are offered at no cost to youth and are purposefully located in public and private schools, community centers, religious institutions, public housing and parks recreational facilities throughout the City to help families find a place that best fits their youth's needs.

Site address is 443 39th Street, Brooklyn, NY 11232.

DYCD has determined that Competitive Sealed Bidding is neither practicable nor advantageous to the City because this procurement necessitates the exercise of judgment in evaluating competing proposals and requires a balancing of price, quality, and programmatic factors to achieve the best outcomes. COMPASS programs are a critical part of the City's effort to support working families by providing free, high-quality afterschool and summer childcare services. They offer a wide range of enrichment activities that help students in Kindergarten through Grade 8 develop academically, socially, and emotionally, both in and out of the classroom. Given the complex nature of this work requiring cultural competency, deep community engagement, and tailored programming to meet the diverse needs of NYC youth a proposal-based evaluation is essential. This approach allows DYCD to select providers not only based on cost, but also on their demonstrated experience, organizational capacity, staffing approach, and commitment to equitable service delivery. Therefore, the use of an RFP, rather than Competitive Sealed Bidding, is the most appropriate method to ensure the highest quality of services are delivered in alignment with the City's goals for youth development and family support.

## AGENCY RULES

### TRANSPORTATION

#### ■ NOTICE

#### Notice of Adoption

**NOTICE OF ADOPTION** relating to amendments of Section 4-13 of Chapter 4 of Title 34 of the Rules of the City of New York ("34 RCNY") to update the citywide truck routes.

**NOTICE IS HEREBY GIVEN PURSUANT TO THE AUTHORITY VESTED IN** the Commissioner of the New York City Department of Transportation (DOT) by Sections 1043 and 2903(a) of the New York City Charter and in accordance with the requirements of Section 1043 of the New York City Charter that DOT hereby amends Chapter 4 of Title 34 of the Rules of the City of New York ("Traffic Rules").

This rule was first published in the *City Record* on May 4, 2026, and a public hearing was held on June 9, 2026. In total, DOT received approximately 445 comments submitted through the NYC Rules website, via email, and at the public hearing. Many comments were duplicative, where an individual both emailed and posted the same comment to the NYC Rules website.

The majority of comments received were opposed to the addition of truck routes in certain areas, citing increased truck traffic, air and noise pollution, illegal parking, and wear and tear of the street. The following truck routes received opposition from various members of the public:

- 3<sup>rd</sup> Avenue from 65<sup>th</sup> Street to 86<sup>th</sup> Street and 86<sup>th</sup> Street from 3<sup>rd</sup> Avenue to Fort Hamilton Parkway (Bay Ridge)
- 3<sup>rd</sup> Avenue, 2<sup>nd</sup> Avenue (Sunset Park)
- 2<sup>nd</sup> Avenue from 29<sup>th</sup> Street to 58<sup>th</sup> Street, BK

- 3<sup>rd</sup> Avenue, State Street to Schermerhorn Street (Boerum Hill)
- Farmers Boulevard from North Conduit Avenue to Rockaway Boulevard
- 44<sup>th</sup> Drive
- Red Hook
- Arthur Kill Road
- Furman Street and Old Fulton Street

The following amendments to the truck route received support:

- New Utrecht Avenue
- Broadway (Flatiron)
- 44<sup>th</sup> Drive from Vernon Boulevard to Thomson Avenue

Based on significant opposition by the surrounding community, DOT removed the proposed route additions on 3<sup>rd</sup> Avenue between 65<sup>th</sup> Street and 86<sup>th</sup> Street and 86<sup>th</sup> Street between 3<sup>rd</sup> Avenue and Fort Hamilton Parkway. DOT will continue to monitor truck traffic conditions in this area and may propose such additions for future truck route network updates. DOT acknowledges the community concerns related to some of the new truck routes and will monitor these routes with field observations and data collection. DOT will work to address any concerns that arise after the implementation of such truck route additions.

Based on the public comments and to correct an error in the proposed rule, DOT made the following changes to the proposed rule:

- Removed “41<sup>st</sup> Street” from the “Limits” of the “21<sup>st</sup> Street” route in Section 4-13(b)(1) and reverted back to “24<sup>th</sup> Avenue” as the end of that route.
- Removed “86<sup>th</sup> Street” from the “Limits” of the “3<sup>rd</sup> Avenue” route in Section 4-13(e)(2) and reverted back to “65<sup>th</sup> Street” as the end of that route.
- Removed “3<sup>rd</sup> Avenue” from the “Limits” of the “86<sup>th</sup> Street” route in Section 4-13(e)(2) and reverted back to the existing “Limits” of that route.

#### Statement of Basis and Purpose of Adopted Rule

The Commissioner of the New York City Department of Transportation (“DOT”) is authorized to promulgate rules regarding traffic operations in the city pursuant to Section 2903(a) of the New York City Charter.

The adopted rules are promulgated pursuant to Local Law 171 of 2023 (“Local Law 171”) which required DOT “to redesign the city truck route network and make any changes to such network that the department determines would enhance safety, increase visibility, reduce traffic congestion, reduce vehicle miles traveled, or otherwise facilitate the conduct of vehicular traffic within the city truck route network.” Local Law 171 required DOT to consult with specified agencies and other interested groups in conducting this redesign and to publish a report on the proposed redesign prior to its adoption. DOT published a report titled New York City Truck Route Network Redesign on November 26, 2025. This report presented DOT’s findings, analyses, and recommendations to improve freight movement while simultaneously promoting safety, efficiency, and sustainability across the five boroughs. The findings and recommendations set forth in the report are the basis for the adopted rule.

The adopted rule amends section 4-13 of the rules to update the truck route tables—removing old routes and adding new ones—in the “Street” and “Limit” columns. These route changes have been adopted to promote safety, efficiency, and sustainability. Further explanation is provided in the DOT report, which is available at <https://www.nyc.gov/html/dot/downloads/pdf/truck-network-redesign-report.pdf>.

The adopted rule updates the language in section 4-13 to replace binary pronouns with gender-inclusive pronouns. Specifically, the amendments being adopted are as follows:

- Section 4-13(b) is amended by updating “Through Truck Routes” and “Local Truck Routes” for the Borough of Queens.
- Section 4-13(c) is amended by updating “Through Truck Routes” and “Local Truck Routes” for the Borough of Staten Island.
- Section 4-13(d) is amended by updating “Through Truck Routes” and “Local Truck Routes” for the Borough of Manhattan.
- Section 4-13(e) is amended by updating “Through Truck Routes” and “Local Truck Routes” for the Borough of Brooklyn.
- Section 4-13(f) is amended by updating “Through Truck Routes” and “Local Truck Routes” for the Borough of the Bronx.

New material is underlined.

[Deleted material is in brackets.]

Asterisks (\*\*\*) indicate unamended text.

#### Section 1. Subdivision (b) of section 4-13 of chapter 4 of Title 34 of the Rules of the City of New York is amended to read as follows:

(b) *Truck routing rules for the Borough of Queens.*

(1) *Through trucks.* An operator of any truck as defined above, having neither an origin nor a destination within the Borough of Queens shall restrict the operation of such vehicle to those street segments on the following list. These are designated as “Through Truck Routes.” All trucks must adhere to all posted signs indicating locations that limit the height of vehicles permitted to operate thereon.

(2) *Local trucks.* An operator of any truck as defined in paragraph (a)(1) above, with an origin or destination for the purpose of delivery, loading, or servicing within the Borough of Queens, shall only operate such vehicle over the street segments designated as “Through Truck Routes” in paragraph (b)(1) above and the following streets listed [streets] as “Local Truck Routes”, except that an operator may operate on a street not designated below for the purpose of arriving at [his/her] the destination. This shall be accomplished by leaving a designated truck route at the intersection that is nearest and provides the most direct route to [his/her] the destination, proceeding by the most direct route while observing existing street directions and turn restrictions, and then returning to the nearest designated truck route by the most direct route. If the operator has additional destinations in the immediate vicinity, [he/she] they may proceed by the most direct route to [his/her] the next destination without returning to a designated truck route, provided that the operator’s next destination does not require that [he/she] they cross a designated truck route. All trucks must adhere to all posted signs indicating locations that limit the height of vehicles permitted to operate thereon.

[\*\* All through trucks are prohibited from 34th Street between the Queens Midtown Tunnel and Dyer Avenue between the hours of 11:00 A.M. and 6:00 P.M.]

(2) *Local trucks.* An operator of any truck as defined in paragraph (a) (1) above, having an origin or destination for the purpose of delivery, loading, or servicing within the Borough of Manhattan, shall restrict the operation of such vehicle to the street segments designated as “Through Truck Routes” in paragraph (d)(1) above and those street segments designated on the following list as “Local Truck Routes,” except that an operator may operate on a street not designated below for the purpose of leaving [his/her] the point of origin or arriving at [his/her] the destination (subject to restrictions specified in §4-13(d) (3) through §4-13(d)(5) of these rules). This shall be accomplished by leaving a designated truck route at an intersection that is nearest and provides the most direct route to [his/her] the destination, proceeding by the most direct route while observing existing street directions and turn restrictions, and then returning to the nearest designated truck route by the most direct route. If the operator has additional destinations in the immediate vicinity, [he/she] they may proceed by the most direct route to [his/her] the next destination without returning to a designated truck route, provided that the operator’s next destination does not require that [he/she] they cross a designated truck route. All trucks must adhere to all posted signs indicating locations that limit the height of vehicles permitted to operate thereon.

**NOTE:**

1. Biodiesel tax credit expired on 12/31/2024. New invoices will not reflect the credit.
2. Federal excise taxes are imposed on taxable fuels, (i.e., gasoline, kerosene, and diesel), when removed from a taxable fuel terminal. This fuel excise tax does not include Leaking Underground Storage Tank (LUST) tax. LUST tax applies to motor fuels for both diesel and gasoline invoices. Going forward, LUST Tax will appear as an additional fee at the rate of \$0.001 per gallon and will be shown as a separate line item on your invoice.
3. The National Oil Heat Research Alliance (NORA) has been extended until February 6, 2029. A related assessment of \$.002 per gallon has been added to the posted weekly fuel prices and will appear as a separate line item on invoices. This fee applies to heating oil only and since 2015 has included #4 heating oil. All other terms and conditions remain unchanged.
4. Federal Superfund Tax is included in the DCAS weekly pricing schedule, and it should not show as an additional fee.

**REMINDER FOR ALL AGENCIES:**

All entities utilizing DCAS fuel contracts are reminded to pay their invoices **on time** to avoid interruption of service. Please send inspection copy of receiving report for all gasoline (E70, UL PREM) delivered by tank wagon to OCP/Bureau of Quality Assurance (BQA), 1 Centre Street, 18th Floor, New York, NY 10007.

**Effective July 1, 2025, New York City agencies are no longer permitted to place orders for #2B5 heating fuel. In accordance with updated state regulations, all heating oil sold in NYS must contain a minimum 10% biofuel blend (B10). Starting the winter of 2026/2027, agencies should begin the transition to B20 heating oil, focusing on tanks that are used regularly and not on interruptible sites. Effective July 1, 2030, B20 will be legally required through NY State for heating oil at all sites. As was implemented for B5 and B10, the transition for City facilities should begin in advance of the mandate to ensure a smooth transition to the higher blend. City facilities have used blends of B20 in the past successfully.**

April 1st – October 31st transition to Non-Winter fuel.

November 1st – March 31st transition to Winter fuel.

On August 27, 2026, pursuant to Section 1-02(h)(1)(ii) of the New York City Procurement Policy Board Rules ("PPB Rules"), the City Chief Procurement Officer ("CCPO") ratified a Minor Rules Violation request submitted by the New York City Department of Probation ("DOP") in connection with the M/WBE Small Purchase procurement for Agency Shredding Services.

The Minor Rules Violation concerned compliance with PPB Rule §2-11 relating to the timing of the public notice and comment process. DOP and the CCPO determined that the procedural violations had no significant adverse impact on the procurement process and that ratification is in the best interests of the City.
