HOUSING PRESERVATION AND DEVELOPMENT

■ PUBLIC HEARINGS

PLEASE TAKE NOTICE that a public hearing will be held on October 15, 2026, at the 9 West 124th Street at 11:00 A.M., or as soon thereafter as the matter may be reached on the calendar, at which time and place those wishing to be heard will be given an opportunity to be heard concerning the proposed amendments to a deed and land disposition agreement identified below.

Pursuant to Section 695(2)(b) of the General Municipal Law and Section 1802(6)(j) of the Charter, the Department of Housing Preservation and Development ("HPD") of the City of New York ("City") proposed amendments to the terms and conditions of the sale of certain real property previously conveyed by the City of New York (collectively, "Disposition Area") in the Borough of Manhattan:

Address	Block /Lots	Community District
53 East 110 Street	1616/123	11
304 East 126 Street	1802/47	11
201 East 120 Street	1785/1	11
204 West 121 Street	1926/35	10

Under HPD's Division of Property Disposition and Finance program, City-owned vacant and/or occupied multifamily residential buildings may be purchased and gut-rehabilitated by a designated sponsor in order to create affordable rental housing units with a range of affordability. Construction and permanent financing is provided through loans from private institutional lenders and from public sources, including HPD.

On November 23, 2020, the City conveyed the Disposition Area to CLT East Harlem/El Barrio Community Land Trust Housing Development Fund Corporation. The deed and land disposition agreement recorded against the Premises requires compliance with a project summary approved by the Council requiring the development of approximately 36 rental dwelling units, two commercial spaces, and one community facility space. While it was originally intended that there would be commercial spaces in the project, it is now being developed with three community facility spaces and approximately 38 rental dwelling units. On July 16, 2026 (Res. No. 579), the Council approved and amended project summary reflecting these new conditions, and the deed and land disposition agreement will be amended to reflect these changes.

A public file containing copies of the calendar document and other public documents will be made available to Manhattan Community Board 10 for public review at the office of Manhattan Community Board 10 no later than twenty (20) days prior to the public hearing.

The hearing location is accessible to individuals using wheelchairs or other mobility devices. For further information on accessibility or to make a request for accommodation, such as sign language interpretation services, please contact the Mayor's Office Of Contract Services ("MOCS") via e-mail at disabilityaffairs@mocs.nyc.gov or via phone at (212) 788-0010. TDD users should call Verizon relay services. Any person requiring reasonable accommodation for the public hearing should contact MOCS at least three (3) business days in advance of the hearing to ensure availability.

PROCUREMENT

“Compete To Win” More Contracts!

Thanks to a new City initiative - “Compete To Win” - the NYC Department of Small Business Services offers a new set of FREE services to help create more opportunities for minority and Women-Owned Businesses to compete, connect and grow their business with the City. With NYC Construction Loan, Technical Assistance, NYC Construction Mentorship, Bond Readiness, and NYC Teaming services, the City will be able to help even more small businesses than before.

- Win More Contracts, at nyc.gov/competetowin

“The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed, to the City's prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence.”

HHS ACCELERATOR PREQUALIFICATION

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York (“PPB Rules”), vendors must first complete and submit an electronic HHS Accelerator Prequalification Application using the City's PASSPort system. The PASSPort system is a web-based system maintained by the City of New York for use by its Mayoral Agencies to manage procurement. Important business information collected in the Prequalification Application is required every three years. Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete. Prequalification applications will be reviewed to validate compliance with corporate filings and organizational capacity. Approved organizations will be eligible to compete and would submit electronic proposals through the PASSPort system. The PASSPort Public Portal, which lists all RFPs, including HHS RFPs that require HHS Accelerator Prequalification, may be viewed, at https://passport.cityofnewyork.us/page.aspx/en/rfp/request_browse_public

All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding. For additional information about HHS Accelerator Prequalification and PASSPort, including background materials, user guides and video tutorials, please visit <https://www.nyc.gov/site/mocs/hhsa/hhs-accelerator-guides.page>

ECONOMIC DEVELOPMENT CORPORATION

CONTRACTS

SOLICITATION

Goods and Services

CONSULTANT SERVICES, NYCEDC ASSET MANAGEMENT BUILDING PLANS AND DOCUMENT MANAGEMENT PLATFORM RFEI - Request for Information - PIN# 11799 - Due 10-6-26 at 4:00 P.M.

New York City Economic Development Corporation ("NYCEDC") seeks expressions of interest from qualified respondents on solutions to modernize how NYCEDC manages building plans, drawings, engineering documents, studies, reports, models, and related property records. NYCEDC's immediate challenge is that critical asset documentation is fragmented across legacy systems, network drives, Microsoft SharePoint sites, project repositories, and other platforms. This fragmentation makes it difficult to identify the official record, locate complete drawing sets, manage versions, collaborate with stakeholders, and avoid duplicative studies or rework. NYCEDC is seeking a centralized, governed platform that improves access, search, collaboration, metadata quality, records management, security, and long-term stewardship. The solution should also establish a scalable data foundation for future capabilities, including digital twins, virtual tours, geospatial navigation, predictive asset maintenance, scenario modeling, and portfolio-level analytics.

It is the policy of NYCEDC to comply with all federal, state and City laws and regulations which prohibit unlawful discrimination because of race, creed, color, national origin, sex, age, disability, marital status and other protected category and to take affirmative action in working with contracting parties to ensure certified Minority and Women-owned Business Enterprises (M/WBEs) share in the economic opportunities generated by NYCEDC's projects and initiatives.

Companies who have been certified with the New York City Department of Small Business Services as Minority and Women Owned Business Enterprises ("M/WBE") are strongly encouraged to apply. To learn more about M/WBE certification, NYCEDC's M/WBE program, and programs to assist M/WBE in navigating current and upcoming opportunities on NYCEDC projects, please visit <https://sbsconnect.nyc.gov/certification-directory-search/> and edc.nyc.gov/opportunity-mwdbe.

Respondents may submit questions and/or request clarifications from NYCEDC by directing such questions and/or clarification requests to the Q&A webform available at <https://edc.nyc/rfps>. Answers to all questions will be posted by October 2, 2026 to <https://edc.nyc/rfps>.

Questions regarding the subject matter of this RFEI will not be accepted after 5:00 P.M. ET on Wednesday, September 30, 2026; however, technical questions pertaining to downloading and submitting responses to this RFEI may be directed to RFPREQUEST@nyc.edc on or before Tuesday, October 6, 2026 at 4:00 P.M. ET.

Detailed submission guidelines and requirements are outlined in the RFEI, available as of Tuesday, September 22, 2026. To download a copy of the solicitation documents please visit <https://edc.nyc/rfps>. RESPONSES ARE DUE NO LATER THAN 4:00 P.M. ON Tuesday, October 6, 2026. Please click the link in the "Submission Guidelines" section of this project's webpage (which can be found on <https://edc.nyc/rfps>) to electronically upload a response to this solicitation. Please upload your response as a .zip file with your company name and the title of this project.

COMPASS PROGRAMS IN PUBLIC SCHOOLS - MIDDLE

- Competitive Sealed Proposals/Pre-Qualified List - Other - PIN# 26026P0003061 - AMT: \$6,353,100.00 - TO: Replications Inc, 50 Rockefeller Plaza 2nd Floor c/o Robert Steinmetz at Citrin Cooperman New York NY 10020.

Bronx Middle: I.S. 229 Roland Patterson, I.S. X303 Leadership & Community Service.

DYCD has determined that Competitive Sealed Bidding is neither practicable nor advantageous to the City because this procurement necessitates the exercise of judgment in evaluating competing proposals and requires a balancing of price, quality, and programmatic factors to achieve the best outcomes. COMPASS programs are a critical part of the City's effort to support working families by providing free, high-quality afterschool and summer childcare services. They offer a wide range of enrichment activities that help students in Kindergarten through Grade 8 develop academically, socially, and emotionally, both in and out of the classroom. Given the complex nature of this work

requiring cultural competency, deep community engagement, and tailored programming to meet the diverse needs of NYC youth a proposal-based evaluation is essential. This approach allows DYCD to select providers not only based on cost, but also on their demonstrated experience, organizational capacity, staffing approach, and commitment to equitable service delivery. Therefore, the use of an RFP, rather than Competitive Sealed Bidding, is the most appropriate method to ensure the highest quality of services are delivered in alignment with the City's goals for youth development and family support.

Pursuant to Section 3-04(b)(2)(i)(A) of the New York City Procurement Policy Board (PPB) Rules, the Department of Youth and Community Development (DYCD) requests approval to enter into a noncompetitive Negotiated Acquisition with the seven (8) providers to provide programming at 12 middle school locations listed in Attachment A. This procurement maintains critical, uninterrupted Comprehensive After-School System (COMPASS) programming across eleven (12) NYC public schools. These specific school sites were not awarded a contract under the recently concluded competitive solicitation, COMPASS Programs in Public Schools RFP (EPIN: 26026P0003). However, the eleven providers selected for this Negotiated Acquisition are the incumbent contractors at these exact schools. They possess proven track records of satisfactory performance, have built deep roots within their respective school communities, and are uniquely positioned to prevent a lapse in critical student services. Central Park, Scenic Landmark			
Central Park, Scenic Landmark			

To the Mayor, the Council, and the New York City Department of Environmental Protection,

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or

proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for work at the three (3) gatehouses, flanking the Jacqueline Kennedy Onassis Reservoir, and the adjoining reservoir embankments, as well as work within various vegetative landscapes and paths within the portion of the park approximately between Terrace Drive (72nd Street) and the 102nd Street Crossing, including, at all three gatehouses, selectively repointing masonry with lime rich mortar; cleaning the masonry façade cladding and metal plaques utilizing chemical cleaners and low pressure water rinses; selectively repairing granite with patching compounds, as needed; and interior alterations; at the northwestern gatehouse ("gatehouse 1"), replacing modern masonry infill at eight (8) window openings with black painted steel, six-light, casement windows, featuring clear glazing at the exterior panes and gray tinted glazing at the interior panes; replacing the black painted wood clad metal, paired doors, featuring decorative rivet heads, at the north façade, in-kind, except that the modern metal panels affixed to the exterior side of the doors will be omitted; replacing a single modern metal door at the south façade with a black painted metal door with decorative rivet heads; selectively replacing and relocating conduits at masonry at the north and west facades to plain masonry at lower portions of the facades; and removing obsolete conduits; at the northeast gatehouse ("gatehouse 2"), replacing modern masonry infill at six (6) window openings with black painted steel assemblies, including two-light, fixed windows surmounted by a semicircular single-light transom, featuring clear glazing at the exterior panes and gray tinted glazing at the interior panes, and black painted, profiled cast iron transom bars and decorative transom security grilles; replacing the black painted metal, paneled, paired doors, featuring decorative rivet heads, at the north and south facades, in-kind; replacing the black painted cast iron transom bars in-kind, as needed; replacing modern metal infill at the transoms with single-light transoms windows and black finished cast iron security grilles; temporarily removing and reinstalling the black painted metal guardrails and posts at the north façade stair and south façade balcony in conjunction with selectively replacing deteriorated and/or missing metal components in-kind, and adding black painted metal extensions to the base of the posts, raising the guardrail heights to safety code compliant levels; installing black painted metal handrails, anchored to the granite façade adjoining each side of the stairs; and selectively replacing and relocating conduits at the north and east facades to plain masonry at lower portions of the facades; and removing obsolete conduits; and, at the south gatehouse ("gatehouse 3"), removing modern signage panels and modern metal security grilles in front of windows; replacing clear glazing at the existing steel windows with glazing, featuring clear at the exterior panes and gray tinted at the interior panes and repainting the windows black; replacing modern, paired doors and an infill panel at the south façade with black painted metal paired doors; repainting the modern gates in front of the paired doors black; and replacing a modern door and balcony at the north façade with a black painted metal door, balcony, and guardrail, as well as temporarily removing and reinstalling sections of metal fencing at the reservoir embankments in conjunction with removing vegetation and selectively resetting rocks or replacing them with rocks of a similar size and geological composition; and in various areas within this portion of the park, temporarily excavating and backfilling soil within landscaping in conjunction with below grade plumbing work and replacing poured asphalt paving at paths in-kind, as needed, as described and shown in existing condition photographs; a thirty-four (34) page document consisting of existing condition and historic photographs, and drawings; a product specifications sheet; written specifications for materials and methods for restoration; Jedrich, P.E., all submitted as components of the application.

In reviewing this proposal, the Commission notes that the Central Park Designation Report describes the Central Park Scenic Landmark as an English Romantic style public park designed in 1857-58 by Frederick Law Olmsted and Calvert Vaux. The Commission also notes that the reservoir was constructed between 1858 and 1862; and that the associated gatehouses were constructed in the 1860s.

With regard to the proposal, the Commission finds that certain aspects of the work are in accordance with the provisions set forth in Title 63 of the Rules of the City of New York, Section 2-11 for Repair, Restoration, Replacement, and Re-creation of Building Facades and Related Exterior Elements, including Section 2-11(c)(1) for cleaning or removal of paint and coatings, Section 2-11(c)(3) for pointing mortar joints, Section 2-11(c)(4) for repair of natural or cast stone, Section 2-11(d)(1) (i) for in-kind material replacement, and Section 2-11(f) for re-creation and restoration of missing façade features; Section 2-16(c) for Excavation Work; Section 2-14 for Window and Doors, including Section 2-14(f)(2)(v) for new windows and doors at primary facades at buildings in Scenic Landmarks; and Section 2-18 for Barrier-Free Access, including Section 2-18(e)(1) for handrail alterations. Furthermore, with regard to these or other aspects of the work, the Commission finds that the installation of obscure glass at the interior portion of the glazing will allow for the privacy and security needed for the buildings due to their use, while maintaining the reflectivity and transparent quality of the glazing on the exterior side; that the replacement and relocated conduits will be more limited and discreet than the existing conduit installations, while maintaining needed electrical service connections for the buildings; that increasing the height of the historic guardrails at the northeast gatehouse will comply with safety requirements; that the proposed extensions at the guardrails will be limited in height and simply designed and match the guardrails in terms of materials and finish; that if a historic guardrail existed at the balcony at the south gatehouse, it was removed prior to the designation of the scenic landmark and its design is unknown; and that the proposed guardrail at the balcony of the south gatehouse will be simply designed and typical in terms of placement, size, material and finish, thereby helping it to be a harmonious, secondary presence. Based on these findings, the Commission determined that the work is appropriate to the buildings and scenic landmark.

The work, therefore, is approved.

PLEASE NOTE: The Commission notes that the proposed project work area is unlikely to contain potentially significant archaeological resources. However, should the project expand please submit the revised plans to the Commission for further review as areas near the project may be archaeologically sensitive.

SHOP DRAWINGS AND/OR SAMPLES REQUIRED: Pursuant to Title 63 of the Rules of the City of New York, Section 2-11(b)(6) and Section 2-11(b)(5) and 2-11(b)(7) for Repair, Restoration, Replacement and Re-creation of Building Facades and Related Exterior Elements, this permit is being issued contingent upon the Commission's review and approval of shop drawings for specific elements and/or installed sample mockups at locations of the proposed work, prior to the commencement of work. A new docket number will be provided by the Commission staff, and the following required specific shop drawings and/or samples will be identified in a Materials Checklist: Shop drawings for the northeast gatehouse decorative railings (two locations), and windows and doors at all gatehouses; and samples for granite repointing and patching, and masonry replacement at the embankment.

PLEASE ASLO NOTE: As the approved work consists of subsurface work, the applicant is required to strictly adhere to all Department of Buildings' requirements for in-ground construction at, and adjacent to, historic buildings, including, when required, TPPN 10/88 monitoring.

Please see Title 63 of the Rules of the City of New York for complete text of any cited Rule section(s): <http://www1.nyc.gov/site/lpc/applications/rules-guides.page>

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. To the Mayor, the Council, and the Assistant Commissioner, NYC Department of Citywide Administrative Services,

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for exterior work at the roof, including repairing the pitched copper roofs removing select gooseneck vents and patching the openings with new copper and applying a light green pigmented liquid roofing system throughout; installing new gooseneck vents at the pitched copper roofs; removing defunct mechanical equipment throughout the main roof; replacing skylights, in-kind at the main roof; installing metal railings around the perimeter of main roof and the twenty-fourth floor roof; replacing eight (8) dark bronze finished aluminum, one-over-one, double-hung windows, in-kind, at the twenty-fifth floor of the west (Centre Street) facade; replacing seventy-four

(74) dark bronze finished aluminum, one-over-one, double-hung windows with seventy-four (74) dark bronze finished aluminum, fixed windows featuring a simulated meeting rail throughout the set-back twenty-fifth floor; replacing two (2) dark bronze finished aluminum, one-over-one, double-hung windows with two (2) dark bronze finished, one-over-one, double-hung windows featuring louvers in the lower sash at select locations of the set-back twenty-fifth floor; and interior alterations at the twenty-fourth and twenty-fifth floors, as shown on existing condition photographs; a mock-up, inspected by staff on May 26, 2026; and drawings G-001.00 through G-009.00, EN-101.00, LPC-100.00 through LPC-106.00, A-002.00, A-003.00, A-012.00, A-022.00 through A-028.00, A-032.00 through A-035.00, A-070.00, A-075.00, A-076.00, A-091.00 through A-094.00, A-097.00, A-101.00, A-102.00, A-103.00, A-112.00, A-120.00 through A-133.00, A-140.00 through A-149.00, A-200.00 through A-204.00, A-300.00 through A-303.00, A-311.00 A-312.00, A-313.00, A-315.00 through A-318.00, A-320.00, A-321.00, A-330.00 through A-333.00, A-400.00, A-401.00, A-500.00 through A-511.00, A-514.00 through A-519.00, A-521.00 through A-524.00, A530.00 through A-534.00, A-540.00 through A-545.00, A-550.00 through A-555.00, A-560.00 through A-564.00, A-802.00, A-810.00, A-820.00 through A-831.00, A-902.00, A-920.00 through A-292.00, LT-001, LT-002, and LT-003, dated July 11, 2025, and

prepared by Rafael Sten, R.A., all submitted as components of the application.

In reviewing this proposal, the Commission notes that the Municipal Building Designation Report describes 1 Centre Street as a Classical style office building, designed by William M. Kendall of McKim, Mead and White, and built 1909-14.

With regard to this proposal, the Commission finds that certain aspects of the work are in accordance with the provisions set forth in Title 63 of the Rules of the City of New York, Section 2-11 for Repair, Restoration, Replacement, and Re-creation of Building Facades and Related Exterior Elements, including Section 2-11(c)(7) for repair of ornamental sheet metal; Section 2-14 for Window and Doors, including Section 2-14(f)(2)(i)(A) for new windows and doors at primary facades at Individual Landmarks; Section 2-14(h)(1) for new windows and doors at secondary facades; Section 2-15 for non-occupiable rooftop additions on Individual Landmarks; Section 2-21 for Installation of Heating, Ventilation, Air Conditioning and other Mechanical Equipment, including Section 2-21(c)(2)(ii) for HVAC equipment within window openings on secondary facades; Section 2-21 for Installation of Heating, Ventilation, Air Conditioning and other Mechanical Equipment, including Section 2-21(g)(1) for installation of HVAC and other mechanical equipment on rooftops and terraces. Furthermore, with regard to these or other aspects of the work, the Commission finds that the existing historic copper roofing material has previously been coated; that the proposed coating will match the patinated finish of copper roofs. Based on these findings, the Commission determined that the work is appropriate to this Individual Landmark. The work, therefore, is approved.

SAMPLES REQUIRED: Pursuant to Title 63 of the Rules of the City of New York, Section 2-11(b)(5) and 2-11(b)(7) for Repair, Restoration, Replacement and Re-creation of Building Facades and Related Exterior Elements, this permit is being issued contingent upon the Commission's review and approval of installed sample mockups at locations requiring repair, prior to the commencement of work. A new docket number will be provided by the Commission staff, and the following required specific samples will be identified in a Materials Checklist: roof coating.

Upper West Side/Central Park West Historic District			

To the Mayor, the Council, and the City University of New York,

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction,

reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for exterior work at the West 67th Street (south) facade, including at the eastern (main) entrance replacing two (2) modern light fixtures returns of the stone surround with 18" tall, black finished metal and glass light fixtures, connecting to the existing conduit to remain, and at the two (2) western (service) entrances, installing two (2) 12" linear light fixtures at plain masonry at the soffits, as shown on drawings G-001, G-100, and G-200, dated April 20, 2026, prepared by Nikhil N. Kulkarni, P.E.; and submitted as components of the application.

In reviewing this proposal, the Commission notes that the Upper West Side/Central Park West Historic District Designation Report describes 35 West 67th Street as a Northern Renaissance Revival style building designed by John E. Scharsmith and built in 1904-05; and that the building's style, scale, materials and details are among the features that contribute to the special architectural and historic character of the historic district. The Commission also notes that the existing light fixtures and conduits at the eastern (main) entrance were installed prior to the designation of the historic district.

With regard to the proposal, the Commission finds that the work is in accordance with the provisions set forth in Title 63 of the Rules of the City of New York, Section 2-20 for Health, Safety, and Utility Equipment, including Section 2-20(c)(3) for light fixtures and intercom panels. Based on these findings the Commission determined that the work is appropriate to the building and to the Upper West Side/Central Park West Historic District. The work, therefore, is approved.

To the Mayor, the Council, and the NYC Economic Development Corp,

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for the temporary installation of multiple LED screens behind eighty-six

(86) windows at the second and third floors on all four facades of the building, to be fully removed on or before August 10, 2027, as described and shown on photographs; and as shown in a computer-generated rendering; and as shown in a photomontage; and as shown in a drawing set titled "Ballon Museum, Daydream, Air Becomes Art"; and as described in a letter dated on August 10, 2026, prepared by George Giaquinto, all submitted as components of the application.

In reviewing this proposal, the Commission noted that the South Street Seaport Historic District Designation Report describes 95 Marginal Street as a neo-Classical-style market building built in 1907; and that the building's style, scale, materials, and details, are among the features that contribute to the special architectural and historic character of the historic district.

With regard to this proposal, the Commission finds that the work is in accordance with the provisions set forth in Title 63 of the Rules of the City of New York, Section 2-05 for Temporary Installations. Based on these findings, the work is approved.

To the Mayor, the Council, and the Department of Cultural Affairs,

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for a temporary art installation ("Speculation") at the east (Fifth Avenue) façade, which will be installed on September 17, 2026, and removed on June 8, 2027, consisting of installing four (4) fiberglass and copper sculptures at four (4) facade niches at the first floor, adjacent to the main entrance, utilizing metal rods at existing penetrations at the skyward facing surfaces of the pedestals at each of the niches; installing 14.75"x9" beige-finished PVC signs, featuring black and fuchsia lettering at mortar joints at plain masonry, utilizing stainless steel anchors, at four (4) select locations at the east façade, including two (2) locations at the first floor adjacent to the main entrance, and two (2) locations at the basement level at the base of the stairs; installing strip lighting fixtures at the west-facing sides of eight (8) select columns at the first floor of the east façade, utilizing existing bird deterrent wires; installing two (2) unsecured beige-finished strip

light fixtures at the base of each of the pedestals; sealing the holes left after the removal of the signs with patching and pointing mortars; and sealing the penetrations at the pedestals and bases after removal of the sculptures and rods, utilizing cap nuts and washers, as described and shown in a presentation, containing narrative descriptions, photographs, drawings, and renderings, dated (received) July 28, 2026, and prepared by The Metropolitan Museum of Art; and an artist's agreement, executed October 20, 2025, all submitted as components of the application.

In reviewing this proposal, the Commission notes that the Metropolitan Museum of Art Designation Report describes 1000 Fifth Avenue as a Beaux-Arts and Roman style museum, built in 1874-1965 and designed by Vaux and Mould; R.M. Hunt; McKim, Mead, and White; and others.

With regard to the proposal, the Commission finds that certain aspects of the work are in accordance with the provisions set forth in Title 63 of the Rules of the City of New York, Section 2-05 for Temporary Installations; and Section 2-11 for Repair, Restoration, Replacement, and Re-creation of Building Facades and Related Exterior Elements, including Section 2-11(c)(4) for repair of natural or cast stone.

Furthermore, with regard to these or other aspects of the work, the Commission finds that the penetrations at the bases will be small in size and will not be visible from public thoroughfares; that the cap nuts and washers will be small in size and set nearly flush with the pedestals, helping them to remain a discreet presence; and that the cap nuts and washers will help prevent damage to the stone due to water infiltration. Based on these findings, the Commission determined that the work is appropriate to the building.

Please see Title 63 of the Rules of the City of New York for complete text of any Rule section(s) cited in this permit: <http://www1.nyc.gov/site/lpc/applications/rules-guides.page>

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. Sidewalks - Multiple Addisleigh Park Historic District			

To the Mayor, the Council, and the NYC Department of Design & Construction

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for the replacement of existing concrete sidewalks for pedestrian ramp upgrades at various locations in the Addisleigh Park Historic District.

The proposed work consists of select removal of existing concrete sidewalks, and the installation of concrete, tinted or untinted, scored to match the adjacent paving; and in-kind replacement and/or resetting of concrete, granite and bluestone curbs, limited to pedestrian ramps, as described in location list and a letter dated August 21, 2024, prepared by Thomas Wynne of the NYC Department of Design and Construction.

With regard to this proposal, the Commission finds that the work is in accordance with the provisions set forth in Title 63 of the Rules of the City of New York, Section 2-19 for Sidewalks, including Section 2-19(g) (1) for pedestrian ramps at sidewalk intersections. Based on these findings, the work is approved.

Please see Title 63 of the Rules of the City of New York for complete text of any cited Rule section(s): <http://www1.nyc.gov/site/lpc/applications/rules-guides.page>

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. Please direct inquiries to Fred Metzger.
