HOUSING PRESERVATION AND DEVELOPMENT

■ PUBLIC HEARINGS

CORRECTED NOTICE

PLEASE TAKE NOTICE that a public hearing will be held on October 15, 2026 at the 9 West 124th Street in the borough of Manhattan, at 11:00 A.M., or as soon thereafter as the matter may be reached on the calendar, at which time and place those wishing to be heard will be given an opportunity to be heard concerning the proposed amendments to a deed and land disposition agreement identified below.

Pursuant to Section 695(2)(b) of the General Municipal Law and Section 1802(6)(j) of the Charter, the Department of Housing Preservation and Development ("HPD") of the City of New York ("City") proposed amendments to the terms and conditions of the sale of certain real property previously conveyed by the City of New York (collectively, "Disposition Area") in the Borough of Manhattan:

Address	Block/Lots	Community District
53 East 110 Street	1616/123	11
304 East 126 Street	1802/47	11
201 East 120 Street	1785/1	11
204 West 121 Street	1926/35	10

Under HPD's Division of Property Disposition and Finance program, City-owned vacant and/or occupied multifamily residential buildings may be purchased and gut-rehabilitated by a designated sponsor in order to create affordable rental housing units with a range of affordability. Construction and permanent financing are provided through loans from private institutional lenders and from public sources, including HPD.

On November 23, 2020, the City conveyed the Disposition Area to CLT East Harlem/El Barrio Community Land Trust Housing Development Fund Corporation. The deed and land disposition agreement recorded against the Premises requires compliance with a project summary approved by the Council requiring the development of approximately 36 rental dwelling units, two commercial spaces, and one community facility space. While it was originally intended that there would be commercial spaces in the project, it is now being developed with three community facility spaces and approximately 38 rental dwelling units. On July 16, 2026 (Res. No. 579), the Council approved and amended project summary reflecting these new conditions, and the deed and land disposition agreement will be amended to reflect these changes.

A public file containing copies of the calendar document and other public documents will be made available to Manhattan Community Board 10 for public review at the office of Manhattan Community Board 10 no later than twenty (20) days prior to the public hearing.

The hearing location is accessible to individuals using wheelchairs or other mobility devices. For further information on accessibility or to make a request for accommodation, such as sign language interpretation services, please contact the Mayor's Office of Contract Services ("MOCS") via e-mail at disabilityaffairs@mocs.nyc.gov or via phone at (212) 788-0010. TDD users should call Verizon relay services. Any person requiring reasonable accommodation for the public hearing should contact MOCS at least three (3) business days in advance of the hearing to ensure availability.

81627Y0869-FPHNY GRANT DEVELOPMENT AND FUNDRAISING - Request for Information - PIN#81627Y0869 - Due 10-16-26 at 2:00 P.M.

Pursuant to Section 3-05 of the New York City Procurement Policy Board Rules, the Department of Health and Mental Hygiene (DOHMH) intends to enter into negotiations for a five-year agreement with Fund for Public Health in New York, Inc. (FPHNY) for the purchase of grant acquisition, fundraising, grant management and project management needs.

FPHNY was created in 2002 as an independent nonprofit organization to partner closely with NYC DOHMH to further its mission of improving the health of all New Yorkers. FPHNY contributes to the advancement of public health in NYC by a) soliciting funds for both project and general support from public and private funding sources and donors who would or could not ordinarily support government initiatives, and b) by providing a vehicle for effective administration of grant funds for pilot projects or time-sensitive grant programs. FPHNY is the only non-profit organization that is solely dedicated to soliciting funding, facilitating partnerships, and providing administrative support to advance DOHMH's public health priorities. As such, it plays a unique role and does not duplicate the efforts of other agencies or organizations.

DOHMH has determined that FPHNY, is the only viable vendor to provide these services because FPHNY's unique ability to generate strong public and private sector support otherwise inaccessible to NYC DOHMH, bring additional partners and needed funds to NYC DOHMH projects, and greatly impact NYC DOHMH projects with such additional support. Further, FPHNY plays a unique role for NYC DOHMH, with FPHNY's significant and flexible administrative capacity augmenting NYC DOHMH's ability to meet rigorous funder requirements. FPHNY's ability to raise funds and facilitate partnerships for NYC DOHMH, coupled with its ability to efficiently administer such relationships, is invaluable to many NYC DOHMH programs and cannot be achieved by any other contractor.

Any vendor that believes it can legally provide these services is invited to submit an Expression of Interest directly to this RFI- EPIN 81627Y0869 by the due date and time.

If you need additional assistance with PASSPort, please contact the MOCSS Service Desk at <https://mocssupport.atlassian.net/servicedesk/customer/portal/8>.

SA MARCUS GARVEY SHELTER (200 BEDS) - Negotiated Acquisition - Other - PIN#07126N0020001 - AMT: \$9,286,721.00 - TO: United Cerebral Palsy Associations of New York State, 40 Rector Street, 15th Floor, New York, NY 10006.

Pursuant to Sections 3-04(b)(2)(i)(D) of the Procurement Policy Board (PPB) Rules DHS intends to enter into a Negotiated Acquisition (NA) contract with Constructive Partnerships Unlimited, Inc. for assessment services at the emergency shelter, located at 357 Marcus Garvey Boulevard, Brooklyn, NY 11221. (200 beds).

The current contract CT1-071-20268801252/07125E0008001 expired on 6/30/26, and the proposed NA would extend the incumbent vendor for the emergency shelter operation under the same conditions at the site until 6/30/27. This NA is needed for DHS to have more time to determine options for a new men's city owned assessment site by

7/1/27. Agency needs about 6 months for an appropriate assessment site creation as this process includes the extensive adjustments to the building layout, security assessments and other staffing needs. Hence DHS needs to keep 357 Marcus Garvey as a provider operated site until the assessment of this and other DHS sites are completed.

Under this NA the incumbent vendor will continue assessment services at the emergency shelter until a city operated men's assessment site will be moved to an appropriate city owned site. Procurement and award are in accordance with PPB Rule Section 3-04 (b) (2) (i) (D) for the reason set herein.

Bronx 03

DYCD has determined that Competitive Sealed Bidding is neither practicable nor advantageous to the City because this procurement necessitates the exercise of judgment in evaluating competing proposals and requires a balancing of price, quality, and programmatic factors to achieve the best outcomes. DYCD is seeking pre-qualified Health and Human Services (HHS) providers to operate COMPASS programs. These programs are located in New York City Public School (NYCPS) sites and charter schools housed within NYCPS buildings and serve elementary and middle school students across all five boroughs. COMPASS programs are a critical part of the City's effort to support working families by providing free, high-quality afterschool and summer childcare services. They offer a wide range of enrichment activities that help students in Kindergarten through Grade 8 develop academically, socially, and emotionally, both in and out of the classroom. Given the complex nature of this work—requiring cultural competency, deep community engagement, and tailored programming to meet the diverse needs of NYC youth a proposal-based evaluation is essential. This approach allows DYCD to select providers not only based on cost, but also on their demonstrated experience, organizational capacity, staffing approach, and commitment to equitable service delivery. Therefore, the use of an RFP, rather than Competitive Sealed Bidding, is the most appropriate method to ensure the highest quality of services are delivered in alignment with the City's goals for youth development and family support.

The Department of Buildings ("Department") is proposing to amend section 105-08 of subchapter E of chapter 100 of Title 1 of the Rules of the City of New York, regarding the requirements for ancillary dwelling unit (ADU) entrance identification.

The New York City Zoning Resolution (ZR) was amended to define and allow ADUs as part of the City of Yes for Housing Opportunity text amendment, effective December 5, 2024. The ZR defines an ADU in part as "an additional dwelling unit, permitted on the same zoning lot as a single- or two-family residence that does not exceed eight hundred square feet of floor area. Only one ancillary dwelling unit shall be permitted per every single- or two-family residence on a zoning lot." The New York City Council also adopted corresponding construction requirements for ADUs in existing buildings in Local Law 127 of 2024 (LL127), effective June 16, 2025.

LL127 gives authority to the Department to promulgate rules in consultation with the Fire Department and Office of Emergency Management for any standards protective of life. This proposed rule

amendment was drafted as a result of the required consultations and clarifies the entrance identification requirements to facilitate Fire Department response in an emergency.

DOB's authority for these rules is found in sections 643 and 1043(a) of the City Charter and in section U101.5 of Appendix U of the New York City Building Code.

New material is underlined.

[Deleted material is in brackets.]

Asterisks (***) indicate unamended text.

"Shall" and "must" denote mandatory requirements and may be used interchangeably in the rules of this department, unless otherwise specified or unless the context clearly indicates otherwise.

Section 1. Paragraph (1) of subdivision (f) of section 105-08 of subchapter E of chapter 100 of Title 1 of the Rules of the City of New York is amended to read as follows:

(f) Technical Requirements.

(1) ADU Entrance Identification. Where the eligible basement or cellar residence entrance is not apparent from the street and there is no existing identification sign, a permanent [directional] sign with red letters [at minimum of 5 inches tall over] on a white background must be mounted on or near the primary dwelling, stating in sentence form: "Basement (or Cellar) ADU entrance is located on Exposure [#], as viewed from street-facing side (Exposure 1)." in a location that is plainly discernable from the public street or fire apparatus access road providing access to the frontage space of the primary dwelling, and must comply with the following:

(i) each letter and number must be a minimum of 4 inches (102mm) tall with a minimum stroke width of ½ an inch (12.7mm);

(ii) the first row must state "ADU-BAS" if the ADU is in the basement or "ADU-CEL" if the ADU is in the cellar;

(iii) the second row must state "EXP - 1", "EXP - 2", "EXP - 3" or "EXP - 4" to indicate the building side on which the ADU entrance is located; and

(iv) dimensions of the sign must be no smaller than 11 inches (279mm) tall by 17 inches (432mm) wide.

For purposes of this section, building sides [shall] must be numbered as follows: Exposure 1 is the side facing the street on which the building's official address is assigned; Exposure 2 is the side to the left when standing in the street facing Exposure 1; Exposure 3 is the side opposite Exposure 1; and Exposure 4 is the side to the right when standing in the street facing Exposure 1.

The requirements of this paragraph do not apply where there is an existing identification sign that was in place as of the effective date of the rule that added this sentence and complies with the rule in effect prior to such date.

Statement of Basis and Purpose of Proposed Rule

Background

Medical Examinations for School-aged Children

Section 49.05 of the New York City Health Code requires that students receive a medical examination immediately prior to admission to school, or as soon as possible after admission. The examining health care professional must then provide a summary of the results, also known as a medical examination certificate, for the child's school. New York State currently requires a medical examination for new entrants, students entering pre-kindergarten or kindergarten, and grades 1, 3, 5, 7, 9, and 11, but excludes students in New York City. 8 N.Y.C.R.R. § 136.3(b)(1).

The Department proposes amending the Health Code to require a medical examination for children entering prekindergarten, kindergarten, 5th and 9th grades. This proposed change would modernize New York City's student health oversight framework by introducing updated health examination requirements at key developmental milestones. The proposed change would support early identification of health concerns, strengthen school safety, advance health equity, improve care coordination, and better align New York City with statewide standards to ensure students are healthy, safe, and ready to learn.

The Department also proposes amending the Health Code to specify that only licensed physicians, physician assistants, and nurse practitioners may sign the medical examination certificate, which would be consistent with New York State Education Law § 903(1).

Medical Room Standards

The Department prescribes minimum standards for every public or private school where the New York City Office of School Health ("OSH") provides health services to school children. These standards include the requirements for an appropriate medical room where school physicians and nurses can carry out their duties, as mandated by New York City Administrative Code § 17-187. New York City public and non-public schools offer health services to students. School physicians and nurses help manage the health of students with health issues like asthma, allergies and diabetes. Students with health issues and disabilities can receive prescribed medicine, skilled nursing treatments

and accommodations authorized by Section 504 of the Rehabilitation Act of 1973 in school. Additionally, school physicians conduct new admission examinations.

The Department proposes amending the medical room standards set forth in section 49.07 of the New York City Health Code to include, among other things:

- a storage cabinet,
- wired internet access,
- a desktop computer, and
- a dedicated all-in-one printer, to ensure students' privacy and support efficiency.

Statutory Authority

The authority for these proposed amendments is found in Sections 556, 558 and 1043 of the Charter. Section 556 of the Charter provides the Department with jurisdiction to protect and promote the health of all persons in the City of New York. Section 556(d)(7) of the Charter provides the Department with jurisdiction to promote and provide medical and health services for school children. Sections 558(b) and (c) of the Charter empower the Board to amend the Health Code and to include all matters to which the Department's authority extends. Section 1043 grants the Department rule-making authority.

NOTE:

1. Biodiesel tax credit expired on 12/31/2024. New invoices will not reflect the credit.
2. Federal excise taxes are imposed on taxable fuels, (i.e., gasoline, kerosene, and diesel), when removed from a taxable fuel terminal. This fuel excise tax does not include Leaking Underground Storage Tank (LUST) tax. LUST tax applies to motor fuels for both diesel and gasoline invoices. Going forward, LUST Tax will appear as an additional fee at the rate of \$0.001 per gallon and will be shown as a separate line item on your invoice.
3. The National Oil Heat Research Alliance (NORA) has been extended until February 6, 2029. A related assessment of \$.002 per gallon has been added to the posted weekly fuel prices and will appear as a separate line item on invoices. This fee applies to heating oil only and since 2015 has included #4 heating oil. All other terms and conditions remain unchanged.
4. Federal Superfund Tax is included in the DCAS weekly pricing schedule, and it should not show as an additional fee.

REMINDER FOR ALL AGENCIES:

All entities utilizing DCAS fuel contracts are reminded to pay their invoices **on time** to avoid interruption of service. Please send inspection copy of receiving report for all gasoline (E70, UL PREM) delivered by tank wagon to OCP/Bureau of Quality Assurance (BQA), 1 Centre Street, 18th Floor, New York, NY 10007.

Effective July 1, 2025, New York City agencies are no longer permitted to place orders for #2B5 heating fuel. In accordance with updated state regulations, all heating oil sold in NYS must contain a minimum 10% biofuel blend (B10). Starting the winter of 2026/2027, agencies should begin the transition to B20 heating oil, focusing on tanks that are used regularly and not on interruptible sites. Effective July 1, 2030, B20 will be legally required through NY State for heating oil at all sites. As was implemented for B5 and B10, the transition for City facilities should begin in advance of the mandate to ensure a smooth transition to the higher blend. City facilities have used blends of B20 in the past successfully.

April 1st – October 31st transition to Non-Winter fuel.

November 1st – March 31st transition to Winter fuel.

NOTICE IS HEREBY GIVEN that in-person and remote public scoping meetings for the Brooklyn-Queens Expressway/Interstate 278 (“BQE”) from Atlantic Avenue to Nassau Street Project (“BQE Central” or the “Project”) will be held. The New York City Department of Transportation (NYC DOT), as CEQR lead agency, will hold the scoping meetings at the following locations and times.

- An in-person scoping meeting will be held on **Tuesday, November 10, 2026**, from 6:30 P.M. to 8:30 P.M. at New York City College of Technology, 300 Jay Street, Brooklyn, New York (register here: www.nyc.gov/bqe);
- A virtual scoping meeting will be held remotely on **Thursday, November 12, 2026**, from 6:30 P.M. to 8:30 P.M. via Zoom (register here: www.nyc.gov/bqe).

The purpose of the scoping meeting is to provide the public with the opportunity to comment on the Draft Scope of Work proposed to be used to develop an Environmental Impact Statement (EIS) for the Project. If you need reasonable accommodation such as a sign language interpreter, foreign language assistance, or mobility assistance to participate in the meeting, please make a request using the contact information below. Requests must be submitted at least ten business days before the meetings and can also be requested through the virtual meeting registration.

Written comments on the Draft Scope of Work will be accepted by the lead agency through the end of the day on **Monday, November 23, 2026**, at the contact address below.

Directing that an Environmental Impact Statement (EIS) be prepared, the lead agency issued an Environmental Assessment Statement (EAS), Positive Declaration, and Draft Scope of Work on **Friday, October 2, 2026**. These documents are available for review at www.nyc.gov/bqe.

NYC DOT is proposing the rehabilitation of the BQE from Atlantic Avenue to Nassau Street, in the Borough of Brooklyn. The purpose of the Project is to address identified structural deficiencies of BQE Central and maintain the regional vehicular connectivity and mobility that the highway provides. The Project involves an approximately 1.5-mile section of the BQE from just north of Atlantic Avenue to Nassau Street. The project limits include the BQE Central roadway, shoulders and offsets, support structures, Furman Street, the Brooklyn Heights Promenade, local street overpasses and underpasses between Atlantic Avenue and Nassau Street, and adjacent New York City-owned property, including parking lots, maintenance and storage areas, and open space. Within the project limits, the BQE parallels the eastern and southern shore of the East River through a densely developed urban area, with a wide range of land uses in proximity to the project limits.

BQE Central includes the unique 0.4-mile-long triple cantilever section. The structure takes advantage of an extreme change in elevation between the Brooklyn waterfront and Brooklyn Heights. It is composed of two levels of highway and the Brooklyn Heights Promenade on a structure elevated above Furman Street. The structure hangs from a retaining wall that extends from ground level to the top of the bluff. The cantilever section begins at Joralemon Street just north of Atlantic Avenue and ends at Washington Street.

The Project would involve a major rehabilitation of all 21 structures within the project limits to address structural deficiencies and increase their service life. The New York State Historic Preservation Office (SHPO) has determined the portion of the BQE between Brooklyn Heights and the Kosciuszko Bridge to be eligible for listing on the State and National Registers of Historic Places (S/NR-eligible). In addition, the Brooklyn Heights Promenade is within the Brooklyn Heights Historic District, which the New York City Landmarks Preservation Commission (LPC) has designated a New York City Landmark district; the district is also S/NR-listed. The Project would generally retain the historic integrity of the highway within the project limits, including the triple cantilever structure.

NYC DOT would replace the superstructure of the Columbia Heights overpass and relocate and reconstruct its north abutment. NYC DOT would rehabilitate all the other bridges and structures within the project limits to extend their service life. At the triple cantilever section, the Project would maintain the existing mainline and ramp alignments, lane widths, shoulder widths, horizontal and vertical clearances, and other roadway geometric features. With the Project, BQE Central would continue to operate as it does today, with two lanes in each direction except for a short section of the highway between the Manhattan Bridge and just south of Sands Street which operates with three full lanes in the Staten Island-bound direction only. East of Adams Street, NYC DOT would explore addressing non-standard

features where practicable. The Project would correct current drainage issues and would provide a new bridge railing that meets current design standards.

The project limits include a portion of the property at 25 Joralemon Street. NYC DOT would acquire the portion of the property that is vacant and encased within the existing BQE structure. NYC DOT would not acquire the occupied portion of this structure that is immediately east of the BQE. The project limits also include small sections of mapped parkland adjacent to the roadway, which NYC DOT would incorporate through alienation legislation by the New York State legislature, including a home rule action by the New York City Council. The Project would require City Map amendments to account for these alterations to land use.

To fully rehabilitate the structure, NYC DOT would construct two temporary bypass structures alongside the current highway that would carry traffic during construction. One bypass structure would parallel the triple cantilever section from just north of Atlantic Avenue to Columbia Heights; this structure would be located within the Furman Street right-of-way below the promenade elevation. A second bypass structure would carry traffic from Columbia Heights, potentially above the Brooklyn Bridge, and through Dumbo, tying back into the highway structure just west of the Manhattan Bridge. Upon the completion of construction, NYC DOT would demolish both temporary structures.

NYC DOT anticipates that construction would commence in 2029 and would be completed before 2040. NYC DOT continues to develop the construction means and methods for the Project. As part of these efforts, NYC DOT will explore innovations aimed at shortening the duration of construction.

The Project is expected to require the City and State approvals described below, which collectively comprise the Proposed Approvals.
