PROCUREMENT

"Compete To Win" More Contracts!

Thanks to a new City initiative - "Compete To Win" - the NYC Department of Small Business Services offers a new set of FREE services to help create more opportunities for minority and Women-Owned Businesses to compete, connect and grow their business with the City. With NYC Construction Loan, Technical Assistance, NYC Construction Mentorship, Bond Readiness, and NYC Teaming services, the City will be able to help even more small businesses than before.

● Win More Contracts, at nyc.gov/competetowin

"The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed, to the City's prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence."

HHS ACCELERATOR PREQUALIFICATION

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York ("PPB Rules"), vendors must first complete and submit an electronic HHS Accelerator Prequalification Application using the City's PASSPort system. The PASSPort system is a web-based system maintained by the City of New York for use by its Mayoral Agencies to manage procurement. Important business information collected in the Prequalification Application is required every three years. Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete. Prequalification applications will be reviewed to validate compliance with corporate filings and organizational capacity. Approved organizations will be eligible to compete and would submit electronic proposals through the PASSPort system. The PASSPort Public Portal, which lists all RFPs, including HHS RFPs that require HHS Accelerator Prequalification, may be viewed, at https://passport.cityofnewyork.us/page.aspx/en/rfp/request_browse_public

All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding. For additional information about HHS Accelerator Prequalification and PASSPort, including background materials, user guides and video tutorials, please visit <https://www.nyc.gov/site/mocs/hhsa/hhs-accelerator-guides.page>

In accordance with Section 3-04(b)(2)(iii) of the Procurement Policy Board (PPB) Rules, the Department of Probation (DOP) is requesting approval to extend the existing contract with Good Shepherd Services, (GSS) through a Negotiated Acquisition Extension (NAE) to support the continuation of services under the Advocate, Intervene, Mentor (AIM) Program. The contract term is from July 1, 2026 to June 30, 2028 in the amount of \$2,145,203.52 for this period.

The AIM Program is an Alternative to Placement (ATP) intervention designed for high-risk, justice-involved youth on probation. The program provides intensive, community-based mentoring through a one-on-one model that pairs participants with paid advocate-mentors who are available around the clock and serve as consistent, trusted supports. Advocate-mentors are credible messengers with strong ties to the communities served and lived experience that enables effective engagement with participants. Over an approximately six- to nine-month, court-mandated period, youth receive individualized support focused on improving decision-making, strengthening family and community connections, and reducing further justice system involvement. DOP is working to provide these services with Good Shepherd Services, Urban Youth Alliance International, Union Settlement Association, Inc., Justice Innovation, Inc., Community Mediation Services, Inc.

Pursuant to Section 3-04(b)(2)(iii) of the Procurement Policy Board Rules, DOP intends to extend the subject contract for twenty-four (24) months via the negotiated acquisition extension procurement method. Extending this contract for additional time will prevent a disruption of these critical & mandated services. The RFP is anticipated to be released late spring 2027.

Immigrant Family Services: Bronx

DYCD plans to extend their Immigrant Families contracts. These providers deliver comprehensive services for immigrant families living in low income neighborhoods throughout the City of New York. The goal of the comprehensive services to immigrant families is to: Identify the complex and multiple needs of newly-arrived limited English proficiency families, and, in collaboration with a network of community-based providers, ensure that they gain access to services that help them become self-sufficient and prosper. Help each enrolled family build the self-advocacy skills and gain the knowledge to enable them to address specific challenges and navigate key systems that impact their lives (for example, the education, healthcare, housing, benefits, tax, workplace, and legal and immigration systems).

DYCD has determined that Competitive Sealed Bidding is neither practicable nor advantageous to the City because this procurement necessitates the exercise of judgment in evaluating competing proposals and requires a balancing of price, quality, and programmatic factors to achieve the best outcomes. COMPASS programs are a critical part of the City's effort to support working families by providing free, high-quality afterschool and summer childcare services. They offer a wide range of enrichment activities that help students in Kindergarten through Grade 8 develop academically, socially, and emotionally, both in and out of the classroom. Given the complex nature of this work requiring cultural competency, deep community engagement, and tailored programming to meet the diverse needs of NYC youth a proposal-based evaluation is essential. This approach allows DYCD to select providers not only based on cost, but also on their demonstrated experience, organizational capacity, staffing approach, and commitment to equitable service delivery. Therefore, the use of an RFP, rather than Competitive Sealed Bidding, is the most appropriate method to ensure the highest quality of services are delivered in alignment with the City's goals for youth development and family support.

COMPASS and SONYC is one of DYCD's largest programs, with over 820 programs collectively throughout the five boroughs. Families rely on these programs to provide elementary and middle school students, during after school hours, summer and on holidays, programing which includes educational support, recreation, enrichment, and cultural activities to support and strengthen the overall development of our youth. Programs are offered at no cost to youth and are purposefully located in public and private schools, community centers, religious institutions, public housing and parks recreational facilities throughout the City to help families find a place that best fits their youth's needs.

Statement of No Significant Effect

Pursuant to Executive Order 91 of 1977, as amended, and the Rules of Procedure for City Environmental Quality Review, found at Title 62, Chapter 5 of the Rules of the City of New York and 6 NYCRR, Part 617, State Environmental Quality Review, the Department of City Planning acting on behalf of the City Planning Commission assumed the role of lead agency for the environmental review of the proposed actions. Based on a review of information about the project contained in this environmental assessment statement (EAS) and any attachments hereto, which are incorporated by reference herein, the lead agency has determined that the proposed actions would not have a significant adverse impact on the environment.

Reasons Supporting this Determination

The above determination is based on information contained in this EAS, which finds the proposed actions sought before the City Planning Commission would not have a significant adverse impact on the environment. Reasons supporting this determination are noted below.

Land Use, Zoning, and Public Policy

A detailed analysis of land use, zoning, and public policy is included in the EAS. 625 Mad Realty, LLC (the "Applicant") is seeking a City Planning Commission (CPC) zoning authorizations pursuant to New York City Zoning Resolution (ZR) Section 66-511 (additional floor area for mass transit station improvements) and Section 66-521 (authorization for transit-adjacent sites or qualifying transit improvement sites) (the "Proposed Actions"), to facilitate the development of a commercial office and retail building at 625 Madison Avenue (Manhattan Block 1294, Lot 46; or the "Development Site") in Midtown Manhattan, Community District 5. The Proposed Actions would facilitate an approximately 800-foot tall, 889,530 gross square foot (GSF), 17.82 floor area ratio (FAR) commercial building utilizing a transit improvement floor area bonus pursuant to the ZR Section 66-511 authorization allowing 99,413 zoning square feet (ZSF) (122,555 GSF) of additional floor area and modifying regulations governing height and setback, pedestrian circulation space, major building entrances, and the distribution of floor area on zoning lots divided between zoning districts to utilize the additional floor area pursuant to the ZR section 66-521 authorization. As a condition to utilizing the floor area bonus and other zoning modifications pursuant to the authorizations, the Applicant would

make major improvements to the Fifth Avenue-59th Street subway station at the midpoint of the southbound platform within Grand Army Plaza. The EAS assesses the Proposed Actions' effects related to development that would occur on the Development Site. Separate from the Proposed Actions, the Applicant intends to seek a non-discretionary Chairperson's certification pursuant to ZR Section 75-422 to facilitate a transfer of up to 29,780 ZSF of development rights to the Development Site from a landmark building within the "surrounding area" as defined in ZR Section 75-422 reflected in the Proposed Project. The Proposed Actions would permit the Proposed Project, analyzed as the With-Action condition, of a 17.82 floor area ratio (FAR) building containing 682,918 GSF of office use (inclusive of the 122,555 GSF of bonus floor area), 39,000 GSF of retail use, and 167,612 GSF of mechanical and support space. The EAS' analysis takes into account an as-of-right 14.99 FAR No-Action condition, inclusive of the landmark transfer of up to 29,780 ZSF of development rights pursuant to ZR Section 75-422, consisting of 560,363 GSF of office space, 39,900 GSF of retail space, and 137,700 GSF of mechanical space at 950 feet tall. The incremental increase in office space reflects 122,555 GSF facilitated by the transit improvement bonus. The Proposed Actions would permit a massing that would provide larger floorplates and regular floor layouts suitable for modern office building use as compared to the No-Action condition. The With-Action condition commercial office and retail uses facilitated by the Proposed Actions would be consistent with the 400-foot study area's high-density commercial uses on Madison Avenue as the study area is a dense commercial district primarily containing high-density office buildings with retail space below. The Proposed Actions would not change the zoning districts on the site and would be compatible with the underlying C5-3/C5-2.5 zoning district as well as other high-density commercial districts within the study area such as other C5-3 and C5-2.5 districts. Additionally, the commercial and retail development facilitated by the Proposed Actions would be consistent with and supportive of the goals of applicable public policies such as the Madison Avenue Business Improvement District and New York Works. Therefore, the Proposed Actions would not result in a significant adverse impact to Land Use, Zoning, or Public Policy.

Shadows

A detailed analysis of shadows is included in the EAS. The detailed analysis shows that twelve open space resources, three historic resources, and two natural resources would receive incremental shadows on one or more of the analysis days. The detailed analysis shows that the open space resources of 1345 Sixth Avenue Privately Owned Public Spaces (POPS) would receive incremental shadow from 6:39 A.M. to 6:52 A.M. on the May 6/Aug 6 analysis date which would eliminate the small remaining patch of sunlight on the Sixth Avenue frontage for 8 minutes then decreases in coverage moving off the patch exiting completely at 6:52 A.M., and 9 West 57th Street POPS would receive incremental shadow from 8:10 A.M. to 8:30 A.M. on the March 21/Sept 21 analysis date eliminating the remaining patches of sunlight for the first 10 minutes of that duration, reflecting minimal duration and size and early morning occurrence in each case. Central Park would receive incremental shadow on the December 21 analysis date in the morning and early afternoon hours for 3 hours and 24 minutes which would move fairly quickly over the landscape, other sunlit areas of the park would remain throughout the morning, With-Action shadow would be partially offset by the reduced shadow gained in comparison to the No-Action building, and the December 21 analysis date is outside of the City's growing season. On the March 21/Sept 21 analysis date, shadow would pass a portion of the southeast corner of Central Park of limited size and duration in the morning. Other open space resources consist of seven POPS, Grand Army Plaza, and Park Avenue Malls which would all receive incremental shadow for limited extent or duration and/or be limited to a seasonal occurrence. Grand Army Plaza's vegetation would receive sunlight for four to six hours during the growing season and several malls of the Park Avenue Malls extending to the north and south would be unaffected by the incremental shadow. Both natural resources, The Pond and Hallett Nature Preserve, would receive incremental shadow on the December 21 analysis date in the morning for 1 hour and 10 minutes and 38 minutes, respectively, for a limited duration and size and occurrence outside of the growing season. The Pond would also receive incremental shadow for 10 minutes on the March 21/Sept 21 analysis date, but shadows for 10 minutes or less is generally not considered significant. Two historic resources with sunlight-sensitive features, Fifth Avenue Synagogue and Manhattan House would receive 13 minutes or less of incremental shadow on the December 21 analysis date and the March 21/Sept 21 analysis date, respectively, reflecting a limited duration and seasonal occurrence. Christ Church United Methodist would receive 10 minutes of incremental shadow on the May 6/Aug 6 analysis date which would slide across a portion of the south facade between 1:25 P.M. to 1:35 P.M. On the June 21 analysis date, incremental shadow would move onto the facade at 1:30 P.M., eliminating remaining sunlight from the facade windows for approximately 15 minutes between 1:55 P.M. to 2:10 P.M. and then begin to recede eastward, exiting at 2:45 P.M. with one or more windows of the south facade being in sunlight from late morning to late afternoon

and other analysis dates would receive no or minimal incremental shadow. Several other resources' analysis days would receive shadow for 10 minutes or less which is not considered significant per the 2025 CEQR Technical Manual. The detailed analysis showed that the incremental shadows would be limited in extent and duration and therefore, the Proposed Actions would not result in a significant adverse shadows impact.

Historic and Cultural Resources

A detailed analysis of historic and cultural resource is included in the EAS. Regarding archaeological resources, the study area is the Development Site where disturbance is anticipated. The Development Site was determined to not be archaeologically significant. Therefore, no analysis of archaeological resources is warranted, and the Proposed Actions would not result in impacts to archaeological resources. Regarding architectural resources, there are several known architectural resources within a 400-foot study area radius surrounding the Development Site: Pepsi-Cola Building (NYCL, S/NR Eligible), Fuller Building (NYCL, Interior NYCL, S/NR Eligible), 460 Park Avenue (S/NR Eligible), Upper East Side Historic District (NYCL, S/NR Listed), L.P. Hollander and Company Building (NYCL), and Christ Church (S/NR Eligible). The Proposed Actions would permit the construction of the Proposed Project on the Development Site which is located in a dense urban environment with several high-rise buildings similar in bulk, use, and height and therefore the visual setting or context of historic resources would not be changed so as to affect those characteristics making them eligible for listing on the S/NR or NYCL designation, nor would the elimination or screening of publicly accessible views of any study area architectural resources result. The Development Site does not contain any architectural resources but is located within 90-feet of one known architectural resource, the Pepsi-Cola Building (NYCL, S/NR Eligible). As the Pepsi-Cola Building is an NYCL, NYC Department of Buildings (DOB) Technical Policy and Procedure Notice (TPPN) #10/88 would be required for any construction on the Development Site. Therefore, the Proposed Actions would not result in any significant adverse impacts to historic and cultural resources.

Construction

A detailed analysis of construction is included in the EAS. Construction of the Proposed Project (With-Action Condition) is expected to occur for a 40-month period. The analysis concluded that no construction transportation impacts would occur as incremental construction-related trips would not exceed the 50-vehicle-trip, 200-transittrip, or 200-pedestrian-trip analysis thresholds. Regarding construction air quality, measures in accordance with all applicable laws, regulations, and building codes for construction of the Proposed Project would be taken to reduce pollutant emissions during construction and, in addition, requirements would be recorded as Project Components Related to the Environment (PCRE) to further reduce air pollutant emissions during construction of the Proposed Project such as utilization of newer equipment and best available tailpipe technology as explained in the EAS. This measure would be memorialized in a Restrictive Declaration to be recorded against the Development Site (Block 1294, Lot 46) in association with the Proposed Actions. Regarding construction noise, both the No-Action condition and With-Action condition construction would result in potential exceedances of the noise impact thresholds and criteria at similar receptors and would adhere to requirements of the New York City Noise Control Code for construction noise control and measures for construction under New York City regulations such as a Construction Noise Mitigation Plan as required by the New York City Noise Code. Therefore, the Proposed Actions would not result in any significant adverse construction impacts.

Disadvantaged Communities Assessment

An assessment of the Proposed Actions' potential effects on disadvantaged communities is included in the EAS. The Development Site is not located within a designated disadvantaged community according to the New York State Department of Environmental Conservation (NYSDEC) Disadvantaged Community Assessment Tool (DACAT). However, a designated disadvantaged community is located within a ½-mile radius of the Development Site. The Proposed Actions would not result in significant adverse impacts in the following technical areas analyzed in the EAS: land use, zoning, and public policy, shadows, historic and cultural resources, urban design and visual resources, hazardous materials, transportation, air quality, noise, neighborhood character, public health, or construction. As such, the Proposed Actions would not disproportionately affect any disadvantaged communities, nor would they cause or increase a disproportionate pollution burden on disadvantaged communities.

Hazardous Materials, Air Quality, and Noise

An (E) designation (E- 941) related to hazardous materials, air quality, and noise would be established as part of the approval of the proposed actions. Refer to "Determination of Significance Appendix:

(E) designation" for the applicable (E) designation requirements. The hazardous materials, air quality, and noise analyses conclude that with the (E) designation in place, the proposed actions would not result in a significant adverse impact related to hazardous materials, air quality, or noise.

No other significant effects upon the environment that would require the preparation of a Draft Environmental Impact Statement are foreseeable. This Negative Declaration has been prepared in accordance with Article 8 of the New York State Environmental Conservation Law (SEQRA). Should you have any questions pertaining to this Negative Declaration, you may contact Erin Whitney at ewhitney@planning.nyc.gov.

INVESTIGATION

■ NOTICE

On September 30, 2026, pursuant to Section 1-02(h)(1)(ii) of the Procurement Policy Board Rules ("PPB Rules" or "Rules"), the City Chief Procurement Officer ("CCPO") approved the New York City Department of Investigation's ("DOI") request, dated September 18, 2026, to ratify minor Rules violations for Negotiated Acquisition (ePin 03227N0001) procurement, pursuant to PPB Rules Section 3-04(b)(3) and 3-04(d)(1).

DOI entered a Negotiated Acquisition with Epstein Becker Green, P.C. (EBG) and Kroll Associates (Kroll) who had submitted a joint proposal to provide professional investigative services to assist DOI in the City-Council-mandated investigation to "ascertain the knowledge possessed by the mayoral administrations on environmental toxins produced by the September 11, 2001 terrorist attacks on the World Trade Center and to subject a report to the council thereon" (the "Engagement"). The contract term for the Engagement is from November 2, 2026 to July 17, 2027, with (3) one-year (1-year) renewal options, with a not-to-exceed amount of \$3,810,000.00.

Specifically, the agency did not comply with the requirements of PPB Rule § 3-04(b)(3), which requires that CCPO shall approve the use of the negotiated acquisition method for a particular procurement or for a particular type of procurement, prior to the solicitation of vendor. In addition, the agency did not satisfy the requirements of PPB Rule § 3-04(d)(1) which requires a notice of intent to enter into negotiations to be posted into City's websites at least ten calendar days before negotiations are expected to begin.

The Department determined that these minor rules violations had no significant, adverse impact on the competitive process of the subject procurement, and it is in the best interest of the City to proceed with the subject award.

After determining that it is in the best interest of the City to do so, and that the provision of such ratification will not violate any law applicable to the procurement process, the CCPO, on September 30, 2026, ratified these minor rules violations relating to this procurement.
