Statement of Basis and Purpose of Proposed Rule

Local Law 126 of 2021 became effective on November 7, 2022. Among other changes, Local Law 126 amended Chapter 4 of Title 28 of the Administrative Code regarding various licensing provisions.

Various rules are being amended to reflect these changes. Specifically, the amendments:

- Repeal Section 19-01 regarding examination, license, and conduct of the business of master plumbers and master fire suppression piping contractors as the provisions have either been superseded or now appear in Article 408 or 410 of Title 28 of the Administrative Code or in Sections 104-01 and 104-06 of Title 1 of the Rules of the City of New York.
- Increase the fees for licensing written and practical examinations and add fees for limited Hoist Machine Operator licenses.
- Amend the title of section 104-01 to reflect its contents more accurately.
- Remove the reference to Class A and B oil-burning equipment installer as those classifications were deleted from Section 28-412.2 of the Administrative Code.
- Remove the reference to portable high pressure boiler operating engineer as that term was deleted from Section 28-413.4 of the Administrative Code.
- Add language that used to be in Section 28-401.7 of the Administrative Code regarding commencing the license application process within one year of passing the examination.
- Delete subdivision (l) of section 104-01 regarding obsolete Zoning Resolution references to place of business and add a new subdivision (1) stating that licensees with a New York City location must comply with all applicable Zoning provisions.
- Add a list of license holders who are not required to have a New York City location by either Chapter 4 of Title 28 of the Administrative Code or the Department's rules. The following license holders have not been included in that list for the reasons helow
 - Elevator Agency Inspector, Technician and Helper. These 0 licensees work for an Elevator Agency Director who is required to maintain a place of business in the city, which should cover these other licenses. Also, Technicians need a state elevator mechanic's license as well as the city's, so presumably they may be located elsewhere in the state.
 - Concrete testing laboratories. \$28-406.2 of the Administrative Code requires the concrete testing lab to be within 50 miles 0 of the city, which exempts them from the requirement to maintain a place of business within the city. However, if they choose to locate within the city, they have to comply with zoning in accordance with the language added by this rule.
 - Journeyman plumber and journeyman fire suppression pipe installer. Sections 28-409.4 and 28-411.4 of the 0 Âdministrative Code specifically state that journeyman registrations are not licenses and are, therefore, exempt from the place of business requirements.
- Add language from rule 19-01 requiring licensed master plumbers and licensed master fire suppression piping contractors to have a sign outside their place of business that includes their license number.
- Repeal Section 104-03 term of license since it was intended to address those licenses for which an examination was not required, as was specified in Section 28-401.11 of the Administrative Code. The reference to examinations has been removed by Local Law 126; therefore, the provisions of section 104-03 are now covered by the language of section 28-401.11.
- Remove all references to reinstatement of licenses from various sections and repeal Section 104-05 - reinstatement of license since the term "reinstatement" was deleted from Section 28-401.13 and the rest of Chapter 4 of Title 28 of the Administrative Code.
- Remove requirements from Section 104-08 regarding alternate experience pathways for Site Safety Manager and Site Safety Coordinator applicants as these pathways have been incorporated into Sections 28-402.2 and 28-403.2, respectively, of the Administrative Code.
- Revise references to the Administrative Code and Building Code in Section 104-08 to reflect section renumbering made by Local Law 126.
- Delete the 30-hour course requirement for site safety

managers and site safety coordinators from Section 104-08 as this requirement is satisfied by the new requirement in Administrative Code Sections 28-402.2, item 2 and 28-403.2, item 2, that the site safety manager or coordinator possess a valid Site Safety Training Supervisor Card.

- Add language to Section 104-08 clarifying that the term of the site safety coordinator certificate is one year, to distinguish it from the other license terms covered by section 28-401.11 of the Administrative Code.
- Delete course requirements for licensed riggers from Section 104-10 as these course requirements have been incorporated and modified into Section 28-404.3 of the Administrative Code.
- Repeal Section 104-25 regarding requirement of a seal for use by licensed oil-burning equipment installers as that language is now in Section 28-412.6 of the Administrative Code and the fees are in Section 28-401.15.

The Department of Buildings' authority for this proposed rule is found in sections 643 and 1043 of the New York City Charter, and section 28-112.7.2 and Chapter 4 of Title 28 of the New York City Administrative Code.

New material is underlined. [Deleted material is in brackets.] Asterisks (***) indicate ellipses, i.e., unamended text.

■ NOTICE

Notice of Adoption

NOTICE OF ADOPTION relating to amendments to the New York City Department of Transportation's (DOT) "Traffic Rules" contained in Chapter 4 of Title 34 of the Rules of the City of New York. The amendments clarify that an elevated pedestrian walkway or a bicycle lane on a bridge or a bridge approach may not be used for the vending of merchandise or services. Accordingly, a vendor may not stop, remain upon or otherwise encumber, or permit any cart, table, wagon, vehicle or other object owned or controlled by such vendor to stop, remain upon, or otherwise encumber, an elevated pedestrian walkway or bicycle lane on a bridge or bridge approach, for the purpose of selling, displaying, storing or creating merchandise or providing a service.

NOTICE IS HEREBY GIVEN PURSUANT TO THE AUTHORITY VESTED IN the Commissioner of the New York City Department of Transportation by Sections 1043 and 2903(b) of the New York City Charter and in accordance with the requirements of Section 1043 of the New York City Charter that DOT hereby amends Chapter 4 of Title 34 of the Rules of the City of New York.

The proposed rule was first published in the <u>City Record</u> on October 6, 2023 and a public hearing was held on November 15, 2023. No changes were made to the rule following the public hearing.

Statement of Basis and Purpose of Adopted Rule

The Commissioner of the New York City Department of Transportation ("DOT") is authorized to promulgate rules regarding parking and traffic operations in the City pursuant to section 2903(a) of the New York City Charter. Specifically, paragraph (1) of subdivision (a) of section 2903 of the Charter authorizes DOT to promulgate rules regulating the conduct of vehicular and pedestrian traffic on streets of the City, which include the pedestrian walkways and bicycle lanes on bridges and bridge approaches.

DOT, in consultation with the Police Department ("NYPD") and the Department of Sanitation ("DSNY"), has determined that it is necessary to promulgate a rule prohibiting vending on such walkways and lanes in order to enhance pedestrian safety, ease overcrowding and promote the safety and security of the bridges. The rule will aid in the City's enforcement efforts, thereby promoting safety and security in these areas.

In recent years, pedestrian counts on the elevated pedestrian walkway of the Brooklyn Bridge have increased. In 2022, there were an average of over 34,000 pedestrians traversing the Brooklyn Bridge elevated pedestrian walkway on a fall weekend day, compared to an average of over 17,000 pedestrians on such a weekend day in 2021. The width of the elevated pedestrian walkway of the Brooklyn Bridge averages 16 feet but is less than 5 feet in multiple areas along the length of the Bridge. These high pedestrian counts make vending along the walkway an unsafe condition, particularly in areas where the width of the elevated pedestrian walkway narrows to 5 feet. The ability of pedestrians to exit the bridge safely is jeopardized by vendors who display and store their wares, carts, tables, tents, tarps, canopies, coolers, and generators along the elevated pedestrian walkway, impeding pedestrian traffic flow. Further, the Brooklyn Bridge is a critical link in and out of Manhattan and, as a result, is, at times, subjected to extremely high pedestrian traffic, such as during emergencies and protests, where the safe egress of pedestrians is crucial.

In addition to the safety challenges posed by the high number of pedestrians and the potential for obstruction of the elevated pedestrian walkway, DOT has concerns about the effect of the carts, tables, wagons, generators, and similar items on the structural load capacity of the Brooklyn Bridge. Lastly, prohibiting such objects on the elevated pedestrian walkway would reduce the susceptibility of the bridge to fire threats and to threats to national security.

Specifically, the rule amends section 4-12(g) relating to vendors to specify that no vendor may stop, remain upon or otherwise encumber, or permit any cart, table, wagon, vehicle, or other object owned by them to stop, remain upon, or otherwise encumber, elevated pedestrian walkways and bicycle lanes on bridges and bridge approaches for the purpose of selling, displaying, storing or creating merchandise or providing a service. This amendment would apply to all the bridges under the jurisdiction of DOT.

New material is underlined.

[Deleted material is in brackets.]

Section 1. Subdivision (g) of Section 4-12 of Chapter 4 of Title 34 of the Rules of the City of New York is amended to read as follows:

(g) Peddlers.

[No peddler, vendor, hawker, or huckster shall stop or remain or permit any cart, wagon, or vehicle owned or controlled by him/her, to stop, remain upon or otherwise encumber any street in front of any premises if the owner or lessee of the ground floor objects.] (1) No peddler, vendor, hawker, or huckster shall permit his cart, wagon, or vehicle to stand on any street when stopping, standing, or parking is prohibited or on any street when stopping, standing, or parking is prohibited or on any street within 25 feet of any corner of the curb or to stand at any time on any sidewalk or within 500 feet of any public market or within 200 feet of any public or private school. (2) No peddler, vendor, hawker, or huckster shall stop, remain upon or otherwise encumber, or permit any cart, table, wagon, vehicle, or other object owned or controlled by such peddler, vendor, hawker or huckster to stop, remain upon or otherwise encumber, any elevated pedestrian walkway or bicycle lane on a bridge or a bridge approach for the purpose of selling, displaying, storing or creating merchandise or providing a service. For purposes of this subdivision, the term "bridge" means a structure erected to allow for travel over a highway, body of water, railway or other obstacle; the term "elevated pedestrian walkway" means a portion of a bridge that is separated from vehicular traffic and is intended for use by pedestrians; and the term "bridge approach" means the area within the envelope of a bridge that connects a bridge to the street.

FINDING OF SUBSTANTIAL NEED FOR EARLIER IMPLEMENTATION

Pursuant to New York City Charter \$ 1043(f)(1)(d), I hereby find and represent to the Mayor that there is a substantial need for the implementation, immediately upon its final publication in the City Record, of the rule of the New York City Department of Transportation ("DOT") prohibiting vending on or within an elevated pedestrian walkway or a bicycle lane on a bridge or a bridge approach.

As explained in the Statement and Basis of Purpose accompanying the Notice of Adoption of the final rule, in recent years, pedestrian counts on the elevated pedestrian walkway of the Brooklyn Bridge have increased significantly, making vending along the walkway an unsafe condition, particularly in areas where the width of such walkway narrows to 5 feet. As a critical link between Brooklyn and Manhattan, at times, the Brooklyn Bridge may be subjected to extremely high pedestrian traffic, such as during emergencies and protests. Instances of overcrowding on the elevated pedestrian walkway of the Brooklyn

Bridge have also been observed during past holiday seasons, when the number of tourists and other visitors to New York City increases. Immediate implementation and enforcement of this rule is necessary to protect the health and safety of pedestrians from the threat presented by the presence of uncontrolled vendors on the pedestrian walkway of the Brooklyn Bridge.

Therefore, this rule must take effect immediately upon its final publication in the City Record, in accordance with Charter § 1043(f)(1)(d).
