107-00 GENERAL PURPOSES

The "Special South Richmond Development District" established in this Resolution is designed to promote and protect public health, safety, general welfare and amenity. These general goals include, among others, the following purposes:

- (a) to guide future development in accordance with the Land Use Plan for South Richmond and the Capital Improvement Plan for the Special District area;
- (b) to promote balanced land use and development of future land uses and housing in the Special District area, including private and public improvements such as schools, transportation, water, sewers, drainage, utilities, open space and recreational facilities, on a schedule consistent with the City's Capital Improvement Plan and thereby provide public services and facilities in the most efficient and economic manner, and to ensure the availability of essential public services and facilities for new development within the area;
- (c) to avoid destruction of irreplaceable natural and recreational resources such as lakes, ponds, watercourses, beaches and natural vegetation and to maintain the natural ecological balance of the area with minimum disruption of natural topography, trees, lakes and other natural features; and
- (d) <u>to promote water-dependent uses that provide a substantial</u> environmental benefit; and
- (e) to promote the most desirable use of land in the South Richmond area and thus to conserve the value of land and buildings and thereby protect the City's tax revenues.

107-60 AUTHORIZATIONS

107-65

- (a)(1) the modifications are the minimum necessary to facilitate the project;
- (b)(2) such modification of topography is necessary to accommodate any public amenities, as applicable, such as public pedestrian ways, the #waterfront esplanade# or active recreational facilities within a #designated open space# as required under the provisions of this Chapter;
- (c)(3) such modification will not cause unnecessary disturbance of the drainage pattern in the area;
- (d)(4) such modification will have minimal impact on the existing natural features of the surrounding area and will blend harmoniously with such area; and
- (e)(5) areas that contain natural features are preserved within a proposed #area of no disturbance#, especially those areas which are contiguous to #designated open space#, #wetland-adjacent areas#, or other area containing mostly natural features.

features, provided that the Commission finds that:

- (1) the WD #use# requires unenclosed operations, not limited to vehicle movement or storage, that would not be feasible without the modification of natural features:
- (2) such modification is the minimum necessary to facilitate such #use# on the #zoning lot#;
- (3) the WD #use# would provide a substantial environmental benefit; and
- (4) such modification would not have an adverse effect on the surrounding area.

PRE-QUALIFIED LIST (PQL) PROGRAM FOR VARIOUS TRADES

NYCHA is currently accepting applications for Pre-Qualified List (PQL) program for various trades.

A PQL is a tool that NYCHA will use to qualify vendors and contract goods or services for its developments, streamlining the process for both vendors and NYCHA. NYCHA will publish contracting opportunities, and the PQL will predominantly be used to procure goods or services for those contracts. Vendors who apply to those bids must pre-qualify according to specific criteria, and vendors who are admitted to the PQL can bid on contracts.

Currently NYCHA has established six (6) PQL lists for the Closed-Circuit Television (CCTV), Carpentry, Painting, Lead Based Paint (Assessment and Abatement, Inspection and Assessment & Lab Analysis), Plumbing and Electrical.

All vendors interested in NYCHA's PQLs must follow two $\left(2\right)$ important steps:

First, vendors must prepare and submit applications to the PQL: To pre-qualify, vendors must meet the minimum requirements listed on the Request for Qualification of the select PQL. Applications will be evaluated by NYCHA on a rolling basis.

Second, vendors who are admitted to the PQL can then bid on solicitations for services on the PQL: Vendors must bid on each contract award, as these are not guaranteed.

For more information regarding PQL's and to obtain applications, please visit NYCHA's website at: https://www.nyc.gov/site/nycha/business/nycha-pql.page

Proposers shall be allowed to submit a Proposal and shall be eligible for award of an Agreement (as defined below) if their Remedial Contract is not city-wide but, if awarded an Agreement, the Proposer shall not be permitted to perform Services under such Agreement that are within the same borough covered by a Remedial Contract, nor shall the Proposer perform Services under the Agreement where such Services coincide with any work performed by them under a Remedial Contract. If such Services are assigned, then the Proposer is obligated to recuse themselves of the assignment. Additionally, Proposers are advised that if awarded an Agreement, the Proposer shall be ineligible for an award of an agreement in a future NYCHA procurement, either for the aforementioned LBP services or otherwise, to the extent that such agreement would pose a potential conflict of interest with, or otherwise impair, the Proposer's ability to perform the Services.

The release date of this RFP is April 29, 2024.

AGENCY RULES

BUILDINGS

■ NOTICE

NOTICE OF ADOPTION

NOTICE IS HEREBY GIVEN, pursuant to the authority vested in the Commissioner of Buildings by Section 643 of the New York City Charter and in accordance with Section 1043 of the Charter that the Department of Buildings hereby adopts the amendments to its rules regarding licensing. This rule was first published on January 3, 2024, and a public hearing thereon was held on February 5, 2024.

Dated: 4/19/24 New York, New York

James S. Oddo Commissioner

Statement of Basis and Purpose of Rule

Local Law 126 of 2021 became effective on November 7, 2022. Among other changes, Local Law 126 amended Chapter 4 of Title 28 of the Administrative Code regarding various licensing provisions.

Various rules are being amended to reflect these changes. Specifically, the amendments:

- Repeal Section 19-01 regarding examination, license, and conduct of the business of master plumbers and master fire suppression piping contractors as the provisions have either been superseded or now appear in Article 408 or 410 of Title 28 of the Administrative Code or in Sections 104-01 and 104-06 of Title 1 of the Rules of the City of New York.
- Increase the fees for licensing written and practical examinations and add fees for limited Hoist Machine Operator licenses.

- Amend the title of section 104-01 to reflect its contents more accurately.
- Remove the reference to Class A and B oil-burning equipment installer as those classifications were deleted from Section 28-412.2 of the Administrative Code.
- Remove the reference to portable high pressure boiler operating engineer as that term was deleted from Section 28-413.4 of the Administrative Code.
- Add language that used to be in Section 28-401.7 of the Administrative Code regarding commencing the license application process within one year of passing the examination. In response to comments received at the public hearing, language is added to clarify what constitutes commencing the license application process.
- Delete subdivision (l) of section 104-01 regarding obsolete Zoning Resolution references to place of business and add a new subdivision (l) stating that licensees with a New York City location must comply with all applicable Zoning provisions.
- Add a list of license holders who are not required to have a New York City location by either Chapter 4 of Title 28 of the Administrative Code or the Department's rules. The following license holders have not been included in that list for the reasons below:
 - o Elevator Agency Inspector, Technician and Helper. These licensees work for an Elevator Agency Director who is required to maintain a place of business in the city, which should cover these other licenses. Also, Technicians need a state elevator mechanic's license as well as the city's, so presumably they may be located elsewhere in the state.
 - o Concrete testing laboratories. §28-406.2 of the Administrative Code requires the concrete testing lab to be within 50 miles of the city, which exempts them from the requirement to maintain a place of business within the city. However, if they choose to locate within the city, they have to comply with zoning in accordance with the language added by this rule.
 - o Journeyman plumber and journeyman fire suppression pipe installer. Sections 28-409.4 and 28-411.4 of the Administrative Code specifically state that journeyman registrations are not licenses and are, therefore, exempt from the place of business requirements.
- Add language from rule 19-01 requiring licensed master plumbers and licensed master fire suppression piping contractors to have a sign outside their place of business that includes their license number.
- Repeal Section 104-03 term of license since it was intended to
 address those licenses for which an examination was not
 required, as was specified in Section 28-401.11 of the
 Administrative Code. The reference to examinations has been
 removed by Local Law 126; therefore, the provisions of section
 104-03 are now covered by the language of section 28-401.11.
- Remove all references to reinstatement of licenses from various sections and repeal Section 104-05 – reinstatement of license – since the term "reinstatement" was deleted from Section 28-401.13 and the rest of Chapter 4 of Title 28 of the Administrative Code.
- Remove requirements from Section 104-08 regarding alternate experience pathways for Site Safety Manager and Site Safety Coordinator applicants as these pathways have been incorporated into Sections 28-402.2 and 28-403.2, respectively, of the Administrative Code.
- Revise references to the Administrative Code and Building Code in Section 104-08 to reflect section renumbering made by Local Law 126.
- Delete the 30-hour course requirement for site safety managers and site safety coordinators from Section 104-08 as this requirement is satisfied by the new requirement in Administrative Code Sections 28-402.2, item 2 and 28-403.2, item 2, that the site safety manager or coordinator possess a valid Site Safety Training Supervisor Card.
- Add language to Section 104-08 clarifying that the term of the site safety coordinator certificate is one year, to distinguish it from the other license terms covered by section 28-401.11 of the Administrative Code.
- Delete course requirements for licensed riggers from Section 104-10 as these course requirements have been incorporated and modified into Section 28-404.3 of the Administrative Code.

• Repeal Section 104-25 regarding requirement of a seal for use by licensed oil-burning equipment installers as that language is now in Section 28-412.6 of the Administrative Code and the fees are in Section 28-401.15.

The Department of Buildings' authority for this rule is found in sections 643 and 1043 of the New York City Charter, and section 28-112.7.2 and Chapter 4 of Title 28 of the New York City Administrative Code

4/19/24 Dated: James S. Oddo New York, New York Commissioner

Statement of Basis and Purpose of Rule

The 2022 New York City Construction Codes amended some of the course requirements for licensees. Section 104-06 is amended to reflect those changes

Specifically the amendments to section 104-06:

- Refer more generally to an 8-hour site safety course instead of the specific site safety coordinator or site safety manager course, which allows more flexibility in accepting courses for qualification.
- Create an 8-hour refresher course for lift director license renewals. This mirrors the requirement for other license renewals.
- Amend the Master Fire Suppression Piping Contractor and Master Plumber language to match the other licenses in referring to hours, not days, for the length of the course. Mirror changes made to section 28-404.3.1 by the 2022

(3)

Code revision to the course requirements for master rigger licensees by eliminating the specific master rigger renewal course and requiring licensees to complete the rigging supervisor and lift director refresher courses upon renewal.

Mirror changes made to section 28-404.3.2 by the 2022 Code revision to the course requirements for special rigger licensees by requiring completion of the 16-hour suspended

scaffold supervisor course upon renewal.

The new requirements for master and special rigger license renewal courses go into effect beginning January 1, 2025 to allow those who may have already completed refresher courses in anticipation of a renewal in 2024 to proceed without needing a new course.

In response to comments received, language was added to paragraph (6) of subdivision (a) of Section 104-09 to allow applicants for a Limited Hoisting Machine Operator license for articulating boom cranes, mini cranes or telehandlers who submit an application on or before November 6, 2024 to take an 8-hour training course instead of a 40-hour course. Separate rulemaking to amend paragraph (4) of subdivision (a) of Section 104-09 will grandfather the experience of individuals who independently operate articulating boom cranes, mini cranes or telehandlers in New York City prior to November 7, 2024, provided the individual applies for a license by November 6, 2024. An 8-hour training course requirement will treat these individuals akin to existing licensees who are also independently operating in New York City today.

In addition, the amendments:

- Delete references to "climber crane" as the 2022 Code revision includes it as a subset of "tower crane."
- Add references to course requirements in Chapter 33 of the Building Code to eliminate the need to specify the courses in
- Clarify that the course requirements are a minimum.
- Delete incorrect and obsolete language.

In addition, subdivision (h) of section 104-09 is amended to clarify that course and examination requirements for a Class B Licensed Hoisting Machine Operator rating must completed within the one year prior to application. An obsolete date is deleted from that subdivision as well.

The Department of Buildings' authority for these rules is found in sections 643 and 1043 of the New York City Charter and Section 28-401.14 of the City Administrative Code.

New material is underlined. [Deleted material is in brackets.] Asterisks (***) indicate unamended text.

"Shall" and "must" denote mandatory requirements and may be used interchangeably in the rules of this department, unless otherwise specified or unless the context clearly indicates otherwise.

- Paragraphs (6) through (10) of subdivision (a) of section 104-06 of subchapter D of chapter 100 of Title 1 of the Rules of the City of New York are renumbered paragraphs (7) through (11); a new paragraph (6) is added; and paragraph (9), as renumbered by this section, is amended, to read as follows:

HEALTH AND MENTAL HYGIENE

■ NOTICE

Notice of Concept Paper

The New York City Department of Health and Mental Hygiene (DOHMH) intends to issue an RFP for the Substance Use Nurse Care Manager Model program.

In order to address barriers to buprenorphine treatment, reduce inequities in treatment access, and improve care for people with opioid use disorder, DOHMH implemented the New York City Buprenorphine Nurse Care Manager Initiative in 2016. The initiative was based on a nationally recognized and replicated collaborative care model—known as the "Massachusetts Model"—that utilizes a nurse care manager to ensure delivery of high-quality, office-based opioid use disorder treatment while effectively and efficiently utilizing the time of health care providers who provide buprenorphine treatment. This approach increases patient engagement and retention in treatment, supports the management of comorbid medical conditions, and ensures successful connections to additional specialty medical services and behavioral health services.

Recognizing expansion and replication of this initiative as key to increasing access to treatment for substance use disorders (SUDs), DOHMH proposes to expand upon this service delivery model to include additional services that implement or expand this model in primary care safety net settings. In addition to providing buprenorphine treatment, awarded organizations will use this team-based, collaborative care model to provide connections to or direct provision of medication treatment for alcohol use disorder, medications for tobacco use disorder, HCV and HIV testing and care, PrEP/PEP, and substance use-related wound care.

The Concept Paper will be posted on the DOHMH website, www.nyc. gov/health, from May 6, 2024 through June 20, 2024. The Concept Paper will also be made available through PASSPort during the same time frame and can be found on the PASSPort procurement navigator website, https://passport.cityofnewyork.us/page.aspx/en/rfp/request_

browse_public. Comments in response to the Concept Paper may be submitted, in writing, to RFP@health.nyc.gov by June 20, 2024. Please include "Substance Use Nurse Care Manager Model Comment" in the subject line. DOHMH will also hold a meeting with interested providers to obtain feedback and input from the provider community. Please see the Concept Paper for date, time, and RSVP details.

■ NOTICE

Notice of Intent to Extend Contract(s) Not Included in FY24 Annual Contracting Plan and Schedule

NOTICE IS HEREBY GIVEN that the Mayor will be entering into the following extension(s) of (a) contract(s) not included in the FY 2024 Annual Contracting Plan and Schedule that is published pursuant to New York City Charter § 312(a):

Agency: NYC Department of Environmental Protection

Vendor: AECOM USA, Inc.

Description of Services to be Provided: PS-OUTYYR-CM/RLCY-PRGM: The purpose of this contract is to procure Program Management and Construction Management Services. Due to the size and complexity of the Resiliency Program, along with the interface necessary with a diverse set of stakeholders both internal and external, the agency seeks a qualified team to serve as the Owner's Representative in the day-to-day facilitation, communication, and management of this program for both the design and construction phases of work. Additionally, the firm will be expected to provide as needed Construction Management services to support small capital resiliency

projects. As the Owners Representative, all said work and documentation must be done in compliance with Federal Emergency Management Agency and the Environmental Facilities Corporation (Storm Water Mitigation Loan Program) requirements.

Anticipated Procurement Method: Extension Anticipated New Start Date: September 20, 2024 Anticipated New End Date: February 27, 2027 Anticipated Modifications to Scope: None

Reason for Renewal/Extension: Item 1: Extended Duration of RLCY TOC Design Contracts. The Program includes three currently active design Task Order Contracts (TOCs), RLCY-DES-B, RLCY-DES-C, and RLCY-DES-D. The TOCs were required to submit partial extension of time (EOT) requests due to the extended duration of the SMLP and FEMA projects. These EOTs for the design TOCs were approved and currently extend the TOCs to July 08, 2025. The extended TOC design contracts require extended services from the RLCY-PRGM contract. Item 2: Extended Duration of RLCY JOC Construction Contracts. The Program currently includes 17 Job Order Contracts (JOC) for the SMLP projects. The JOCs were issued Notices to Proceed (NTPs) between August 15, 2019, and December 10, 2019, each with a two-year duration. The JOCs required renewal requests to their contracts to complete the construction of assigned SMLP projects. As a result, the longest SMLP JOC (RLCY-S-J12G) is forecasted to be completed by January 17, 2025. The extended duration of the Program's SMLP JOCs for construction require extended program and construction management services from the RLCY-PRGM contract. Item 3: Extended Design Duration of the FEMA Projects. The FEMA projects included in the Wastewater Resiliency Program are being designed under the Program's design Task Order Contracts (TOCs). As a result of the requirement for individual registration for each design task order assignment, the planning assignments for the FEMA projects did not commence until October 2019. The procurement of additional task orders for detailed design of the FEMA projects commenced October 15, 2020. The projected completion of the design for the Program's FEMA projects is expected October 11, 2024. The extended design phase of the FEMA projects requires extended program and design phase of the FEMA projects requires extended program and design management services from the RLCY-PRGM Contract. Item 4: Delayed Start of FEMA Construction Projects. As a result of the extended design phase of the FEMA projects under the Program, the construction commencement of the FEMA projects has been delayed. The original FEMA construction start date was June 5, 2020, with an original forecast completion of June 1, 2022. Based on the currently projected FEMA projects design schedules as well as procurement of the Program's FEMA Construction Contracts the construction phase of the FEMA is expected to commence August 19, 2024, and forecast to be complete February 27, 2027. The delayed and extended construction phase of the FEMA projects requires extended program and construction management services from the RLCY-PRGM Contract.
