The Applicant, Lenox Hill Hospital (LHH), is requesting a series of discretionary actions from the City Planning Commission (CPC), including a zoning map amendment to rezone from a C1-8X to a C1-9 zoning district, and from an R8B to a C1-8 zoning district; zoning text amendments; special permits; and a zoning authorization (collectively, the "Proposed Actions"). The Proposed Actions would facilitate the enlargement and modernization of the existing LHH complex located on the 1.9-acre block bounded by Park and Lexington Avenues and East 76th and East 77th Streets (Block 1411, Lots 1 and 113; "Projected Development Site 1") in the Upper East Side neighborhood of Manhattan Community District 8. Two building envelopes are of Manhattan Community District 8. Two building envelopes are proposed in the Applicant's land use application, each of which would accommodate the Proposed Project's program. Envelope 1 would include a new approximately 771,000 gross square foot (gsf), 436-foottall, 26-story building on Lexington Avenue and 56,000 gsf of additions to the existing hospital; Envelope 2 would include a new approximately 867,000 gsf, 395-foot-tall, 21-story building and 8,000 gsf of additions to the existing hospital. The Proposed Project also includes renovations to the existing hospital to accommodate connections to the new hospital the existing hospital to accommodate connections to the new hospital building; improvements to the new internal loading docks (East 76th Street); off-street parking for ambulances (East 77th Street); new entrance and lobby for the Mother-Baby Hospital on Park Avenue; a new emergency stairway on the Park Avenue frontage; and improvements to the Lexington Avenue 77th Street subway station which would provide for 725 sf of new open area at street level. With the existing buildings to remain, development of the Proposed Project would result in a state-of-the-art, approximately 1.4 million gsf (12.5 FAR) hospital complex that would include 475 single-bedded patient rooms, 30 operating suites, and a right-sized emergency department.

The Reasonable Worst Case Development Scenario (RWCDS) for the EIS also considers the as-of-right development of 111-115 East 77th Street between Lexington and Park Avenues (Block 1412, Lots 9, 10, and 11; "Projected Development Site 1a") as part of the Proposed Project. Projected Development Site 1a would be redeveloped with an approximately 46,000-gsf, six-story, 75-foot-tall building to house hospital support functions, and would be connected to Projected Development Site 1 by a utility tunnel under East 77th Street. The analysis year for the Proposed Project is 2036.

The Applicant is seeking approval of the following discretionary actions from the CPC:

Zoning Map Amendments

- Rezone the Lexington Avenue frontage of Projected Development Site 1 from a C1-8X district to a C1-9 (R10 equivalent) district; and
- Rezone the midblock portion of Projected Development Site 1 from an R8B district to a C1-8 (R9 equivalent) district.

**Zoning Text Amendments** 

- Map a Mandatory Inclusionary Housing area over the rezoned portions of Projected Development Site 1;
- Modify Zoning Resolution (ZR) Section 66-513(a)(2) to allow a floor area bonus for transit improvements in combination with other floor area bonuses where explicitly permitted by a CPC special permit.
- Modify the Special Park Improvement District regulations (ZR Section 92-21) to allow for a community facility bonus pursuant to ZR Section 74-904.
- Create a new special permit under ZR Section 74-904 to allow:
  - A floor area increase of up to 12.0 floor area ratio (FAR) for a project predominantly dedicated to Use Group III(B) hospital use;
  - A further floor area increase in connection with an authorization or special permit pursuant to ZR Section 66-51 for transit improvements, and
  - Modifications of applicable bulk regulations.

#### Special Permits

Obtain a special permit pursuant to new ZR Section 74-904 to facilitate the proposed redevelopment by:

- Permitting a floor area bonus of 2.0 FAR for a community facility project;
- Incorporating a further floor area bonus of 0.5 FAR in connection with an authorization pursuant to ZR Section 66-511 for transit improvements; and
- Modifying street wall, height, and setback and other bulk regulations.

#### Authorization

Obtain an authorization pursuant to ZR Section 66-511 to allow a floor area bonus of 0.5 FAR in connection with a major improvement to a mass transit station.

In addition, the Applicant would seek a Chairperson's certification of a transit easement volume pursuant to ZR Section 66-21, a non-discretionary, ministerial action through the CPC. The Applicant would request a revocable consent from the New York City Department of Transportation (DOT) and any other permits required for the proposed tunnel under East 77th Street. The Applicant would also seek a Certificate of Need from the New York State Department of Health (NYSDOH) and may seek tax-exempt financing of project costs through the Dormitory Authority of the State of New York.

In order to assess the potential effects of the Proposed Actions, a RWCDS for both the "future No Action" (No Action) and "future with the Proposed Actions" (With Action) conditions was established for the 2036 analysis year. The incremental difference between the No Action and With Action conditions serve as the basis for the impact analysis of the DEIS.

Compared to the future No Action condition, the Proposed Actions would result in an incremental increase of approximately 631,300 gsf (Envelope 2) to 639,300 gsf (Envelope 1) of hospital/community facility uses and 25 additional hospital beds. The Proposed Actions would result in an incremental increase of 17 patients, 45 visitors, and 339 workers. This net increment represents the basis for environmental analyses in the DEIS.

The DEIS assesses whether development resulting from the Proposed Actions could result in significant adverse environmental impacts. The DEIS identifies potential significant adverse impacts related to shadows, and construction (noise). Potential mitigation measures are being explored and will be refined between the DEIS and Final Environmental Impact Statement (FEIS).

The Proposed Project would cause significant adverse shadow impacts to the trees and plantings in the publicly accessible Eighth Church of Christ, Scientist garden located on the north side of East 77th Street across the street from Projected Development Site 1 and abutting Projected Development Site 1a, in the spring, summer, and fall, causing significant adverse impacts to the vegetation of the garden. An alternative to reduce the shadow impact has been considered; however, the analysis concluded that virtually any development on Projected Development Sites 1 or 1a that would be taller than the existing buildings would cause significant adverse shadow impacts on the March 21/September 21 analysis day. Therefore, the significant adverse shadow impacts to the church garden would be unavoidable. Potential mitigation measures are being explored and will be refined between the DEIS and FEIS. If no feasible and practicable mitigation can be identified, the impacts would remain an unavoidable significant adverse impact of the Proposed Actions.

The Proposed Project's construction activities under both Envelope 1 and Envelope 2 would result in temporary significant adverse noise impacts. The construction noise analysis predicted noise levels from construction of Envelope 1 could exceed the impact criteria at 16

receptors surrounding the construction work area. Noise levels due to construction with Envelope 2 could exceed the impact criteria at 14 receptors, most but not all of which are the same receptors as with Envelope 1. While the greatest levels of construction noise would not persist throughout construction, these locations would experience construction noise levels whose magnitude and duration could constitute temporary significant adverse impacts. To the extent practicable, mitigation has been proposed for the identified significant adverse impacts. However, because no practicable mitigation has been identified to fully mitigate the temporary construction noise impacts, the significant adverse impact will remain unmitigated.

Two potential alternatives to the Proposed Project were studied in the DEIS: a No Action Alternative, and a No Unmitigated Significant Adverse Impact Alternative. Neither of these alternatives would meet the primary objectives of the Proposed Actions, and no feasible alternatives are available that would result in no unmitigated impacts and meet the Proposed Actions' goals.

#### NOTICE

On Wednesday, May 7, 2025, a public hearing is being held by the City Planning Commission (CPC), accessible in-person and remotely, in conjunction with the above ULURP hearing to receive comments related to a Draft Environmental Impact Statement (DEIS) concerning an application by The City of New York. The City of New York, acting through the Department of City Planning (DCP), is proposing a series of land use actions - including zoning map and zoning text amendments - to implement land use and zoning recommendations in the Midtown South neighborhood of Manhattan. The area subject to the Proposed Actions (the Affected Area) is an approximately 42-block area in Midtown South, Community Districts 4 and 5, and is generally bounded by 40th Street to the north, Fifth Avenue to the east, 23rd Street to the south, and Ninth Avenue to the west. The Affected Area is comprised of Subdistrict A-2 in the Special Garment Center District, and the "Rezoning Area". The Rezoning Area consists of four noncontiguous manufacturing-zoned areas roughly bounded by 40th Street to the north, Fifth Avenue to the east, 23rd Street to the south, and Eighth Avenue to the west. ### ADAPTIVE REUSE - 44-36 VERNON BOULEVARD BUILDING

- Request for Information - PIN# 1118 - Due 8-27-25 at 11:59 P.M.

The New York City Economic Development Corporation ("NYCEDC") — on behalf of the City of New York (the "City") and in coordination with the New York City Department of City Planning ("DCP") and New York City Public Schools ("NYCPS") — is releasing a Request for Information ("RFI") to solicit ideas regarding the adaptive reuse of the City-owned building at 44-36 Vernon Boulevard (the "Vernon Building") in Long Island City, Queens, to address key priorities of Long Island City ("LIC") residents, community members, and other stakeholders. The RFI encourages responses from teams (including for- and non-profit organizations) that propose concepts or plans to redevelop all or a portion of the Vernon Building for adaptive reuse. Situated along 44th Drive and facing LIC's East River waterfront, the Vernon Building is a large, six-story warehouse structure currently owned and occupied by NYCPS. Totaling nearly 700,000 gross square feet, the Vernon Building has the potential to be redeveloped to support a mix of office, cultural, industrial, retail, and community-serving uses.

NYCEDC, DCP, and NYCPS will review complete, responsive proposals to redevelop all or a portion of the Vernon Building through adaptive reuse and may choose to publicly release summaries of those proposals.

The City will not select a development team from the RFI, but rather anticipates learning from the RFI responses to inform future approaches to the Vernon Building.

It is the policy of NYCEDC to comply with all federal, state and City laws and regulations which prohibit unlawful discrimination because of race, creed, color, national origin, sex, age, disability, marital status and other protected category and to take affirmative action in working with contracting parties to ensure certified Minority and Womenowned Business Enterprises (as defined below) share in the economic opportunities generated by NYCEDC's projects and initiatives.

Companies who have been certified with the New York City Department of Small Business Services as Minority and Women Owned Business Enterprises ("M/WBE") are strongly encouraged to apply. To learn more about M/WBE certification, NYCEDC's M/WBE program, and programs to assist M/WBE in navigating current and upcoming opportunities on NYCEDC projects, please visit https://sbsconnect.nyc.gov/certification-directory-search/ and edc.nyc/opportunity-mwdbe.

If you do not have Office 365, please take the following steps to gain access to a free version of OneDrive so that you can upload those RFP submission documents which are too large to transmit via electronic mail:

- 1. Conduct an internet search for "Microsoft OneDrive;"
- Navigate to the official Microsoft website and sign up for a free account.
- 3. Once you have created a folder for the solicitation whose name matches the subject line of your RFP Submission Email, upload the documents relevant to your RFP submission in this folder.
- 4. Create a share link for this folder.
- 5. Be sure to check your share settings so that anyone receiving the link that you create will be able to open the link and access the files. If your share link permissions are restricted (e.g. to only your organization in Office 365), the DOE will not be able to view your solicitation documents. It is your responsibility to ensure that the link(s) you provide allows the DOE to view, download and/or open your documents; and
- Include the link which you have created as the first line of your RFP Submission Email.

Stephanie Shellooe, AICP, Director (212) 720-3328 Environmental Assessment and Review Division New York City Department of City Planning

Pursuant to City Environmental Quality Review (CEQR), Mayoral Executive Order No. 91 of 1977, CEQR Rules of Procedure of 1991 and the regulations of Article 8 of the State Environmental Conservation Law, State Environmental Quality Review Act (SEQRA) as found in 6 NYCRR Part 617, a Final Environmental Impact Statement (FEIS) has been prepared for the action described below. Copies of the FEIS are available for public inspection at the office of the undersigned as well as online via the Coney Development project page on ZAP: <a href="https://zap.planning.nyc.gov/projects/2024K0230">https://zap.planning.nyc.gov/projects/2024K0230</a>. To view the Coney Development FEIS and Appendix, navigate to the project page in ZAP and select Public Documents, then "FEIS\_24DCP129K". The proposal involves actions by the City Planning Commission (CPC) and the New York City Council pursuant to Uniform Land Use Review Procedure (ULURP). A public hearing was held on the Draft Environmental Impact Statement (DEIS) on March 19, 2025, in conjunction with the City Planning Commission's citywide public hearing pursuant to ULURP. Advance notice was given of the time and place of the hearing. Written comments on the DEIS were requested and considered by the Lead Agency through 5:00 P.M., March 31, 2025. The FEIS incorporates responses to the public comments received on the DEIS and additional analysis conducted subsequent to the completion of the DEIS.

TSG Coney Island Entertainment Holdco LLC (the "Applicant") is requesting a series of discretionary approvals (the "Proposed Actions") from the City Planning Commission (CPC), subject to the Uniform Land Use Review Procedure (ULURP), which include a City Map amendment and disposition of real property owned by the City, pursuant to the New York City (NYC) Charter Section 197(c)(a)(1). The Proposed Actions would facilitate the development of an approximately 6.4-acre entertainment destination located at the Project Site, which is comprised of (1) Lots 256, 310, and 360 on Block 7074; Lots 1, 5, 11, 12, 14, 25, 30, 33, 414, and 419 on Block 8694; Lots 61, 64, 72, and 433 on Block 8695; and Lots 35, 37, 44, 47, 48, 49, and 50 on Block 8696 (collectively, the "Proposed Project Area"), and (2) a portion of Bowery between West 12th Street and Stillwell Avenue, a volume of air over a portion of West 12th Street and a volume of air over a portion of Stillwell Avenue to be eliminated, discontinued, and closed ("demapped"), and a change to the grading of a portion of Stillwell Avenue between Surf Avenue and Wonder Wheel Way (collectively, the "Proposed Demapping/Grade Change Area"), in the Coney Island neighborhood of Community District 13 (CD 13) in Brooklyn. The Proposed Demapping/Grade Change Area combined with the Proposed Project Area comprise the Project Site. The Proposed Project includes a total of approximately 1,605,623 gross square feet (gsf) comprised of an approximately 428,071 gsf gaming facility; approximately 301,464 gsf of hotel floor area, comprising approximately 500 keys; approximately 132,480 gsf of convention floor area; approximately 72,200 gsf of retail and food hall space; approximately 500 gers of rooftop open space open to visitors to the Proposed Project; and on-site parking comprising 1,500 parking spaces. The analysis year of the Proposed Actions is 2028.

The Applicant seeks to: (1) amend the City Map in order to (i) eliminate, discontinue, and close ("demap") a portion of Bowery between West 12th Street and Stillwell Avenue, (ii) demap and purchase a volume of air over a portion of West 12th Street between Surf Avenue and Bowery, (iii) demap and purchase a volume of air over a portion of Stillwell Avenue between Bowery and Wonder Wheel Way, and (iv) change the grade along Stillwell Avenue between Surf Avenue and Wonder Wheel Way (collectively, the "Proposed City Map Action") in the Coney Island neighborhood of Brooklyn, and generally within the Coney East Subdistrict of the Special Coney Island District (CI) in Community District 13 (CD 13).

In addition to the Proposed City Map and Land Acquisition Action, the Applicant is seeking: (1) a Community Reassessment, Impact and Amelioration (CRIA) action from the NYC Department of Transportation (NYCDOT), pursuant to the NYC Administrative Code Section 19-107(b) in order to pedestrianize a portion of Stillwell Avenue between Surf Avenue and Wonder Wheel Way (the "CRIA Action"); (2) pursuing a Public Design Commission (PDC) approval in order to landscape and beautify a portion of Stillwell Avenue between Surf Avenue and Wonder Wheel Way (the "PDC Action"), and (3) a license from the New York State Gaming Facility Location Board, subject to a separate New York State approval process, to operate a gaming facility on the Project Site ("Gaming Facility License"). The Proposed City Map Action, together with the CRIA Action, the PDC Action and the Gaming Facility License are referred to as the "Proposed Actions."

The New York City Department of City Planning (DCP), acting on behalf of the City Planning Commission (CPC), is the lead agency for the environmental review. Based on the Environmental Assessment Statement (EAS) that has been prepared, the lead agency has determined that the Proposed Actions have the potential to result in significant adverse environmental impacts, requiring that an Environmental Impact Statement (EIS) be prepared. The 2021 City Environmental Quality Review (CEQR) Technical Manual served as a general guide on the methodologies and impact criteria for evaluating the Proposed Project's effects on the various areas of environmental analysis.

Under the With-Action condition, the Proposed Actions would facilitate the Proposed Project, an approximately 1.6 million gsf entertainment-oriented development, located on the Project Site. The Proposed Project includes a total of approximately 1,605,623 gross square feet (gsf) comprised of an approximately 428,071 gsf gaming facility; approximately 301,464 gsf of hotel floor area, comprising approximately 500 keys; approximately 132,480 gsf of convention floor area; approximately 72,200 gsf of retail and food hall space; approximately 58,383 gsf of events space; approximately 101,500 gsf of rooftop open space open to visitors of the Proposed Project; and on-site parking comprising 1,500 parking spaces.

The Proposed Project will be constructed in a single phase and will be operational in 2028. Construction would start in 2025 upon the completion of ULURP and issuance of a Gaming Facility License by the New York State Gaming Commission.

#### HISTORIC AND CULTURAL RESOURCES

The Proposed Project would result in a significant adverse impact related to historic and cultural architectural resources. The Project Site has no archaeological significance and architectural resources within the study area are not sunlight-sensitive. The Proposed Project would result in a direct effect on State/National Registers of Historic Places (S/NR) eligible Coney Island Historic District properties within the Project Site. The New York State Office of Parks, Recreation, and Historic Preservation (OPRHP) resource evaluation for S/NR eligibility states that this resource is significant under Criterion A in the areas of entertainment/recreation and social history as the birthplace of the modern American amusement industry. The district also meets Criterion C in the area of design for its collection of several stellar twentieth century amusement rides including Deno's Wonder Wheel, the Cyclone Roller Coaster (NR-listed), the Parachute Jump (NRlisted), and the Astroland Tower. Visual and contextual impacts to NYC landmarks including the Coney Island Riegelmann Boardwalk Scenic Landmark (LP-2583), the former Child's Restaurant Building (LP-2410), the Child's Restaurant (LP-2106), the Parachute Jump (LP-1638), the Shore Theater (Coney Island Theater Building, LP-2408), and the Wonder Wheel (LP-1708) would constitute a significant adverse impact. The Child's Restaurant Building (NYC Landmark) located adjacent to the Project Site would receive protection from accidental damage due to adjacent construction with the required measures of the NYC Department of Buildings (DOB) Technical Policy and Procedure Notice (TPPN) #10/88 in place.

The Project Site is located within the S/NR-eligible Coney Island Historic District and in the vicinity of designated NYC Landmark and S/NR-listed resources. The visual prominence of the architectural resources would be diminished because of the introduction of taller structures on the Project Site, which would constitute a significant adverse impact. To partially mitigate these impacts, the following design goals will be considered, to the maximum extent practicable consistent with mitigation standards:

Referential Design: The design should aim to draw inspiration from the historic district's significant features, past and present, e.g., architectural details, materials, and forms should aim to echo those of historic structures to foster continuity and reinforce the district's historic identity.

Compatibility with Historic Features: The design should aim to respect and complement the district's historic form and features, past and present. Features should aim to be incorporated to respond to the surrounding historic context and adjacent landmarks.

Preservation of Key Relationships: The design should aim to maintain and/or complement the spatial relationships within the district and its defining elements, such as the boardwalk, waterfront, and key amusements.

Viewshed Protection: The design should aim to respect and/or complement the prominence of iconic landmarks within the district's landscape, such as the Wonder Wheel.

Additionally, photo documentation of the Project Site and adjacent architectural resources will be prepared to Historic American Buildings Survey (HABS) Level II standards to partially mitigate this significant adverse impact.

#### TRANSPORTATION

Detailed transportation analyses were conducted for vehicular traffic, transit, pedestrians, street user safety, and parking. The analysis of potential effects to transportation elements concludes that the Proposed Actions would result in significant adverse operational-period impacts to traffic, highway and pedestrians. Potential measures to mitigate these impacts to the extent practicable are presented below, including signal timing changes, lane geometry changes, and sidewalk widenings. The Applicant or developers for the Proposed Project will, in coordination with NYCDOT, conduct studies under a future TMP during construction and after project completion. The TMP studies are expected to evaluate actual project-generated demand and background conditions during construction and after project completion and would consider adjusting the identified mitigation strategies as appropriate and practicable to address traffic and pedestrian issues at that future point in time. The implementation of the approved mitigation measures will be subject to the discretion of the implementing agencies as well as the findings from the future TMP.

#### Traffic

The Proposed Project would result in significant adverse traffic impacts. Mitigation measures such as signal timing changes, modifications to curbside parking regulations, and lane geometry changes would fully mitigate or partially mitigate several of the significant adverse traffic impacts. If DOT determines that an identified traffic engineering improvement is not feasible, and no alternative and equivalent measure is identified, then that impact would remain unmitigated.

#### Pedestrians

The Proposed Project would result in significant adverse pedestrian impacts. The east crosswalk at Stillwell Avenue and Surf Avenue would be fully mitigated by widening the crosswalk by 10 feet. Implementation of these mitigation measures is subject to the review and approval of NYCDOT. If this measure is deemed infeasible and no alternative mitigation measures can be identified, then the identified significant adverse pedestrian impact would be unmitigated. The south crosswalk at West 12th Street and Surf Avenue and the north sidewalk on the east leg of Surf Avenue and Stillwell Avenue would remain unmitigated as no practicable or feasible measures were identified to mitigate these significant adverse impacts.

There would be no significant adverse impacts at the corners that were studied under the With-Action condition.  $\,$ 

#### Freeway Facilities

The Proposed Project would result in significant adverse freeway facilities impacts. The freeway segments would remain unmitigated as no practicable or feasible measures were identified to mitigate these significant adverse impacts.

#### CONSTRUCTION

Construction of the Proposed Project would result in the potential for significant adverse construction-related impacts related to traffic and pedestrians during peak construction periods. The Applicant or developers for the Proposed Project will, in coordination with NYCDOT, conduct studies under a future TMP. The discussion below outlines potential mitigation measures that would fully or partially mitigate the identified significant adverse impacts. Note that the deployment of Traffic Enforcement Agents (TEAs) and the placement of Variable Message Signs (VMSs) may be necessary to help reduce construction impacts and will be considered as part of the TMP.

#### Traffic

Construction of the Proposed Project would result in significant adverse traffic impacts at 8 signalized intersections during one or more analyzed peak hours. Mitigation measures such as signal timing changes and lane geometry changes would fully mitigate or partially mitigate several of the significant adverse construction-related traffic impacts.

Significant adverse construction-related impacts would be fully mitigated during one or more analyzed peak hours. The remaining impacted lane groups and intersections during the analysis peak hours would remain unmitigated as no practicable or feasible measures were identified to mitigate these significant adverse construction-related impacts.

#### Pedestrians

Construction of the Proposed Project would result in a significant adverse pedestrian impact at the east crosswalk at Stillwell Avenue and Surf Avenue in the Weekday PM peak hour. The east crosswalk at Stillwell Avenue and Surf Avenue would be fully mitigated by widening the crosswalk by two feet. If this measure is deemed infeasible and no alternative mitigation measures can be identified, then the identified significant adverse pedestrian impact would be unmitigated. There would be no sidewalk- and/or corner-related significant adverse pedestrian impacts during the peak construction period.

#### **ALTERNATIVES**

The DEIS considers three alternatives – a No-Action Alternative, a No Unmitigated Significant Impacts Alternative, and a Lower Limiting Plane Modification alternative. The No-Action Alternative examines future conditions within the Proposed Project Area but assumes the absence of the Proposed Actions (i.e., none of the discretionary approvals proposed as part of the Proposed Actions would be adopted). While the No-Action Alternative would not result in significant adverse impacts, it would not achieve the purpose and need of the Proposed Action.

As noted, potential mitigation measures to address significant adverse impacts related to historic and cultural resources, transportation and construction were identified for the Proposed Project. In the absence of the application of mitigation measures, the impacts would remain unmitigated. In addition, the Proposed Project would result in significant adverse impacts for which no practicable mitigation has been identified, including unmitigated impacts to transportation. No reasonable alternative could be developed to eliminate the unmitigated significant adverse impacts without substantially compromising the Proposed Project's stated purpose and need.

The Lower Limiting Plane Modification Alternative explores an alternative to the Proposed Project that would have the potential to increase the height of the lower limiting plane of the West 12th Street skybridge, to allow for an improved pedestrian experience. This alternative would reduce the amount of convention space by removing a floor from the West 12th Street skybridge, increasing the lower limiting plane of the skybridge from approximately 33.65 feet to approximately 50 feet. This alternative would reduce the amount of convention space by approximately 7,485 gsf. The overall bulk, including building heights and setbacks, and location of the Proposed Project would remain unchanged with this alternative. The Lower Limiting Plane Modification Alternative would result in the same significant adverse impacts as that of the Proposed Project.

#### **74 Bogart Street**

Statement of No Significant Effect

Pursuant to Executive Order 91 of 1977, as amended, and the Rules of Procedure for City Environmental Quality Review, found at Title 62, Chapter 5 of the Rules of the City of New York and 6 NYCRR, Part 617, State Environmental Quality Review, the Department of City Planning acting on behalf of the City Planning Commission assumed the role of lead agency for the environmental review of the proposed actions. Based on a review of information about the project contained in this environmental assessment statement (EAS) and any attachments hereto, which are incorporated by reference herein, the lead agency has determined that the proposed actions would not have a significant adverse impact on the environment. The above determination is based on information contained in this EAS, which finds the proposed actions sought before the City Planning Commission would not have a significant adverse impact on the environment. Reasons supporting this determination are noted below.

#### Land Use, Zoning, and Public Policy

A detailed analysis of land use, zoning, and public policy is included in the EAS. The Applicant, 74 Bogart LLC, is seeking a Zoning Map Amendment to rezone an existing M1-2 district to an M1-4A district on Brooklyn Block 3084, Lot 1 (the "Proposed Action") in the Bushwick neighborhood of Brooklyn Community District 1. The project area is bounded by Bogart Street to the west, Ingraham Street to the north, Morgan Avenue to the east, and Harrison Place to the south. The Proposed Action would facilitate the development of a 124-foot tall,

247,000 gross square foot (gsf) art storage facility (the "Proposed 247,000 gross square toot (gsf) art storage facility (the "Proposed Development") on the western portion of the project site, which currently contains an open parking lot for commercial vehicle storage. The Proposed Development, which would be located immediately adjacent to an existing self-storage facility, would be compatible with existing land uses in the immediate vicinity and within the study area. The proposed zoning map amendment would allow for greater commercial and community facility density, the elimination of parking requirements, and would change height and setback requirements, but the proposed M1-4A district is compatible with the existing land but the proposed M1-4A district is compatible with the existing land use and zoning character of the study area. In addition, the Proposed Action would not hinder or conflict with and public policies. Therefore, no significant adverse impacts on land use, zoning, or public policy would occur.

#### **Shadows**

A detailed analysis of shadows is included in the EAS. Within the longest shadow area of the Proposed Development there is one sunlight sensitive resource, Justice Gilbert Ramirez Park, that was determined to require a detailed analysis. The incremental shadows coverage was measured on three analysis days of the year and analysis showed that the shadows would neither significantly reduce nor completely eliminate direct sunlight expose to any of the sunlight sensitive resources in the identified open space and would not significantly alter the public's use of the open space or threaten viability of vegetation or other sunlight sensitive features. Therefore, incremental shadows from the Proposed Development would not be considered a significant adverse impact.

#### **Urban Design and Visual Resources**

A detailed analysis of urban design and visual resources is included in the EAS. The Proposed Action has the potential to change pedestrian experiences of public space surrounding the Project Site in comparison to the No-Action scenario, making it necessary to assess the Proposed Action's potential impacts on urban design and visual resources. An assessment of urban design concluded that the Proposed Action would not constitute a significant adverse impact as it would not alter the arrangement or functionality of the mainly bashead. arrangement or functionality of the neighborhood. An assessment of visual resources concluded that while the Proposed Development would represent a change from a pedestrian perspective of a State and National Register of Historic Places eligible building at 56 Bogart Street, it would not represent a significant adverse impact as the building would still be visible from already partially-obstructed viewpoints. Therefore, the Proposed Action would not result in significant adverse impacts on urban design or visual resources in the Primary or Secondary Study Areas.

#### **Historical and Cultural Resources**

This EAS includes an analysis of historic and cultural resources. NYC Landmarks and Preservation Commission (LPC) determined that there are no significant archaeological resources that exist within the Project Area. Within 400-feet of the Project area there is a State and National Register eligible building located at 56 Bogart Street (Block 3093, Lot 1). In order to avoid the potential for significant adverse impacts, the applicant will enter a restrictive declaration requiring the implementation of project components related to the environment through a construction protection plan that would preclude any potential impacts to historic resources related to construction activities. With these measures in place, the proposed actions would not result in construction-period significant adverse impacts and no further analysis is warranted.

#### **Disadvantaged Communities**

This EAS includes an assessment for effects on Disadvantaged Communities (DAC). The Project Site is located within a census tract identified as a DAC having comparatively higher burdens and vulnerabilities. As the CEQR Technical Manual has not been updated to include guidance for an assessment of Effects of Disadvantaged Communities, the SEQRA Environmental Assessment Form (EAF) has been consulted for guidance for this analysis. The Proposed Actions would not result in significant adverse impacts in any technical areas analyzed in this EAS: land use, zoning and public policy; shadows; urban design and visual resources; historical and cultural resources; hazardous materials and air quality. Based on this assessment, the Proposed Actions would not disproportionately affect disadvantages communities, nor cause or increase a disproportionate pollution burden.

#### **Hazardous Materials and Air Quality**

An (E) designation (E-841) related to hazardous materials and air quality would be established as part of the approval of the proposed actions.
