107-02

General Provisions

In harmony with the general purpose and intent of this Resolution and the general purpose of the #Special South Richmond Development District#, the regulations of the districts upon which this Special District is superimposed are supplemented or modified in accordance with the provisions of this Chapter. Except as modified by the express provisions of this Chapter, the regulations of the underlying districts remain in effect. In #flood zones#, or for #transit-adjacent sites#, as defined in Section 66-11 (Definitions), in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Hazard Areas), or Article VI, Chapter 6 (Special Regulations Applying Around Mass Transit Stations), the provisions of Article VI shall control.

Property within the jurisdiction and control of the Department of Environmental Protection shall be exempt from the provisions of this Chapter where such property is an existing or planned portion of the Staten Island Bluebelt intended to support best management practices of stormwater.

In addition to applicability as provided in Section 11-10 (ESTABLISHMENT AND SCOPE OF CONTROLS, ESTABLISHMENT OF DISTRICTS, AND INCORPORATION OF MAPS), the provisions of this Chapter shall apply to #site alterations# or subdivision of #zoning lots#, except:

- (a) public improvement projects for which preliminary design contracts were approved by the Board of Estimate prior to January 2, 1975, or for which title was vested by the City prior to September 11, 1975; and
- (b) any #large-scale development# for which an authorization or special permit was granted prior to September 11, 1975. For the purposes of this Chapter, the City Planning Commission may extend such authorization or special permit for a renewable term of one year provided that the Commission finds that the facts upon which the authorization or special permit was granted have not substantially changed and that the adoption of this amendment shall not constitute a substantial change of fact.

For all #developments# located within areas D, F or K as shown on the District Plan (Map 4 in Appendix A), the applicant shall obtain from the Commission a certification indicating that the #development# complies with the approved South Richmond Development Plan. As a condition for such certification, the Commission shall find that:

- (1) the minimum #lot area# for any #commercial# #development# is at least two acres;
- (2) vehicular access and egress for the #development# is arranged so that it affords the best means of controlling the flow of traffic generated by such #development#; and
- (3) due consideration has been given to relate the proposed #development# to the character of the surrounding area by providing suitable buffering, landscaping and #building# setbacks.

For such certification, the applicant shall submit to the Commission a site plan and drawings depicting the proposed #buildings# and location of off-street parking facilities, curb cuts and pedestrian walkways. For #residential uses# within Area K, the #bulk# and parking regulations of R3-2 Districts, as modified by this Chapter, shall apply.

107-03 Requirements for Certification, Authorization or Special Permit Application

An application to the City Planning Commission for a certification, authorization or special permit respecting a #development#, #enlargement#, or #site alteration# shall include a survey map, prepared by a licensed land surveyor and dated no more than two years prior to the date of filing an application, showing:

- (a) existing topography at two foot contour intervals;;
- (b) the location of all existing #buildings or other structures#; and the location of all proposed #buildings or other structures#;;
- (c) the location of individual existing trees of six inch caliper or more;;
- (d) the location of any elements of the #open space network# on or adjacent to the #zoning lot#; and
- (e) the location of any #wetland-adjacent areas#, streams, and natural watercourses;

and such other information as may be required by the Commission for its determination as to whether or not the certification, authorization or special permit is warranted.

107-05 Relationship to Public Improvement Projects

In all cases, the City Planning Commission shall deny a special permit, authorization or certification application whenever a #development# will interfere with a public improvement project (including, without limitation, housing, highways, public #buildings# or facilities, redevelopment or renewal projects, or rights-of-way for sewers, transit or other public facilities) which is approved by or pending before the Board of Estimate, City Planning Commission or Site Selection Board.

107-06 District Plan (Appendix A)

The District Plan for the #Special South Richmond Development District# shows the #open space network#, #designated open space#, #park streets#, #waterfront esplanade#, and #building# setback lines. The elements of the District Plan are set forth in Appendix A, which is hereby incorporated as an integral part of the provisions of this Chapter.

107-07 Tree Selection (Appendix B)

Where planting of trees is required by the provisions of this Chapter, the selection of trees for their planting shall be in accordance with the Tree Selection Table set forth in Appendix B, which is hereby incorporated as an integral part of the provisions of this Chapter.

107-08 Future Subdivision of Certain Plan Review Sites

Within the Special District, any #zoning lot# existing on September 11, 1975, may be subdivided into two or more #zoning lots# provided that the existing topography, all individual trees of six inch caliper or more and all land located within a #designated open space#, to the greatest extent possible, are preserved under future #development# options.

Any subdivision of a #plan review site# that is proposed to take place within the Special District after September 11, 1975, shall be filed with the Department of City Planning Commission, and the Chairperson of the City Planning Commission shall certify that such subdivision of such #plan review site# complies with the approved South Richmond Plan and the above objective.

- (a) does not contain, or have frontage along, any District Plan Element listed in Section 107-20 (DISTRICT PLAN ELEMENTS), inclusive;
- (b) does not contain a #wetland-adjacent area#;
- (c) does not exceed the rate of two #tree credits# per 1,000 square feet of lot area; and
- (d) does not have a violation for tree removal without prior permission or approval and no trees been removed since [date of adoption] unless permitted pursuant to Section 107-312 (Regulations within plan review sites).

In the case of a subdivision which does not comply with the above conditions, subdivision of such #plan review site# shall not be permitted unless authorized by the Commission pursuant to Section 107-64 (Future Subdivision of Certain Plan Review Sites), of a tract of land containing #designated open space#, a site plan indicating the distribution of #bulk# for the individual #zoning lots# shall be submitted to the Commission. Such approved subdivision shall then be recorded in the land records and indexed against all #zoning lots#.

The subdivision plan for the #plan review site# shall include a survey map indicating existing topography at two foot contour intervals, all individual trees of six inch #caliper# or more, and the location of #designated open space# or any #wetland-adjacent area# within the area. When a #zoning lot# existing on September 11, 1975, is more than five acres and is intended to be subdivided, an area plan of the entire subdivision shall be filed with the Commission. The area plan shall include the proposed vehicular circulation system within the area, #block# and lot layouts and any other information required by the Commission.

For the purpose of applying the provisions of this Section, a subdivision includes reconfiguration of a #zoning lot# in a manner that would change its area or any dimension of such #zoning lot#.

107-10 GENERAL SPECIAL REQUIREMENTS

107-11 Special Requirements for Application

Prior to the approval of any application to the Department of Buildings for For a #site alteration#, or a #development#, or #enlargement#, no certificate of occupancy or sign-off of a permit, as applicable, shall be issued by the Department of Buildings until the planting requirements of the following provisions, as applicable, have been satisfied, and reflected on an as-built survey, tree schedule, or any such information as may be required:

Section 107-32 (Tree Requirements)

Section 107-48 (Special Landscaping and Buffering Provisions)

the applicant shall file applications with the appropriate City agency requesting the certifications required in Section 107-12 (Public Facilities);

Any application to the Department of Buildings for a #site alteration# or #development# shall include a survey map or maps prepared by a licensed land surveyor showing, for the site, existing topography at two foot contour intervals and the locations, names and calipers of all existing trees of six inch caliper or more and; for any #development#, the application shall also include certifications from the appropriate City agencies as required by Section 107-12.

However, the requirements of a survey map at two foot contour

intervals shall not apply to #zoning lots# 4,000 square feet or less owned separately and individually from all other adjoining #zoning lots# on September 11, 1975, and on the date of filing such application.

However, when a #zoning lot# which was owned separately and individually from all other adjoining #zoning lots# existing prior to January 2, 1975, is proposed to be #developed# with one #single-# or #two-family# #detached# #residence#, the certification reports of Section 107-12 shall not be required, but the provisions of local laws shall apply. When a permit for land contour work, storm water drainage systems or other #site alteration# work is required from the Department of Transportation or Department of Environmental Protection or when a public agency requires a #site alteration# on either privately or City-owned land, the public agency involved shall, prior to initiating or issuing a permit for such site work, notify the Department of Buildings.

The Department of Buildings and the public agency involved shall jointly determine that the proposed #site alteration# work is consistent with the provisions of Sections 107-31 (Topographic Regulations), 107-32 (Tree Regulations) and 107-25 (Special Regulations along Certain Streets and Railroads). In case of non-agreement, the provisions of Section 107-91 (Inter-agency Coordination) shall apply.

107-12

Public Facilities

107-121

Public schools

For any #development# containing #residential uses#, the Department of Buildings shall be in receipt of a certification from the Chairperson of the City Planning Commission which certifies that sufficient #school# capacity exists to accommodate the anticipated primary and intermediate public school children of the #development#. All applications for certification pursuant to this Section shall be referred by the Chairperson of the Commission to the Board of Education.

The Board of Education shall issue a report concerning the availability of #school# capacity within 60 days after receipt of the application. The Chairperson of the Commission shall respond within 90 days after receipt of an application. The report shall specify the following:

- (a) whether or not #school# space is available;
- (b) if #school# space is not available, the report shall include:
 - (1) the number of seats required;
 - (2) the grade organization;
 - (3) the location of the #school#;
 - (4) the size of #school# (sq. ft. per pupil); and
 - (5) the proposed financing mechanism.

For the purposes of this Section, sufficient #school# capacity shall be deemed to exist if:

- (1) such capacity is available in existing #schools#; or
- (2) construction funds have been authorized in the Capital Budget to accommodate anticipated primary and intermediate public school children from the #development# upon its completion or within three years from the date of the Chairperson's certification; or
- (3) sufficient #school# space is to be provided by the applicant under a plan jointly approved by the Chairperson of the Commission and Board of Education.

After approval of the Chairperson of the Commission and Board of Education of the applicant's plan to provide the #school# #building#, the certification may be granted either upon approval of a financial agreement by the Board of Estimate or such guarantee of construction with provision for future #school# occupancy as may be accepted by the Board of Education and the Chairperson of the Commission.

However, the Chairperson of the Commission may grant such certification if capacity is not currently available and the Board of Education after consulting with the Community School Board determines that the impact from the #development# will have a minimal effect on the concerned #schools# and includes such statement in their report.

A certification by the Chairperson of the Commission that sufficient capacity will be available in the public #schools#, as set forth in the above circumstances, shall automatically lapse if substantial construction of the foundations of the #development# in accordance with approved plans has not been completed within one year from the date of such certification.

No certification concerning the availability of #school# capacity shall be required for any #development# within a predominantly built up area or within an area for which #drainage schemes# were approved prior to January 1, 1975. For the purposes of this Chapter, a "predominantly built up area" is a #block# having a maximum of four acres which is #developed# with #buildings# on #zoning lots# comprising 75 percent or more of the area of the #block#. All such #buildings# shall have a certificate of occupancy or other evidence acceptable to the Commissioner of Buildings issued not less than three years prior to the date of application for a building permit.

* * *

107-221

Active recreational facilities

#Designated open space# may be used for active recreational facilities provided that the City Planning Commission certifies that such #uses# are compatible with the purposes of the network #open space network# and have minimal impact on tree removal, topographic alterations or drainage conditions.

Active recreational facilities may include swimming pools, tennis courts or facilities and equipment normally found in playgrounds, and shall comply with the #use# regulations of the underlying district.

In the development of active recreational facilities, no individual trees of six-inch #caliper# or more shall be removed except by special authorization of the Commission in accordance with the provisions of Section 107-64 (Removal of Trees) or 107-65 (Modification of Existing Topography) 107-65 (Modification of Natural Feature Regulations). Active recreational facilities shall not be allowed within 60 feet of any watercourse in #designated open space# unless the Commission certifies that a location closer to such watercourse will not adversely affect the natural character of the watercourse or its drainage function. The Commission, where appropriate, shall be guided by the reports from other City agencies involved in land contour work, storm water drainage systems or similar operations.

If the City of New York acquires an easement for public access to any #designated open space# on which a #building# has been, is being or could be in the future, constructed in accordance with the provisions of this Chapter, the City's acquisition of an easement shall not affect the qualifications of the #designated open space# for satisfying #lot area# requirements, #yard# requirements, #floor area# or #lot coverage# restrictions or #open space# requirements as provided in Section 107-224 (Qualification of designated open space as lot area for bulk computations) and shall not be deemed to create a #non-compliance#.

Public pedestrian ways

For any #site alteration#, #development#, or #enlargement# on a #zoning lot# which contains #designated open space#, the City Planning Commission shall certify whether or not the applicant shall be required to provide a public pedestrian way through a portion of the #designated open space#.

When a public pedestrian way is required, it shall be built and maintained by the owner of the #zoning lot# and shall be accessible to the public at all times. The public pedestrian way shall be improved at the time the #site alteration#, #enlargement#, or #development# takes place, except that for #site alterations# or #developments# on a tract of land less than 1.5 acres, the Commission may allow the applicant to delay the construction of the public pedestrian way if the applicant complies with Section 107-24 (Performance Bond).

The location and dimension of such pedestrian way shall be determined by the Commission. The owner of the #zoning lot# may request the City to take an easement on the property. If the City of New York acquires an easement for public access to any #designated open space# on which a #building# has been, is being or could be in the future, constructed in accordance with the provisions of this Chapter, the City's acquisition of an easement shall not affect the qualifications of the #designated open space# requirements as provided in Section 107-224 (Qualification of designated open space as lot area for bulk computations) and shall not be deemed to create a #non-compliance#.

Zoning lots entirely or substantially within designated open space**

When a #zoning lot# owned separately or individually from all adjoining #zoning lots# prior to January 2, 1975, is located entirely or substantially within #designated open space# and no reasonable development is possible on the #zoning lot#, the owner may request the City to provide, in exchange, a City-owned #zoning lot#.

The #zoning lots# may be exchanged only after an appraisal made by a body consisting of the following:

- (a) one independent fee appraiser appointed by the City;

The following regulations in Sections 107-321 through 107-323, inclusive, shall not apply to existing trees which are unsafe and the removal of which is required by the Department of Buildings.

**107-321
Tree preservation**

No trees of six-inch caliper or more shall be removed, or land operations affecting their survival undertaken, in connection with any #site alteration#, or #development#, except in compliance with the provisions of this Section.

Prior to any such removal or land operations, plans shall be filed with the Department of Buildings showing the locations of all trees of six-inch caliper or more on the #zoning lot# and in the public sidewalk area of the #street# or #streets# adjacent thereto, and identifying those which are proposed to be removed. Removal of live trees of six-inch caliper or more will be permitted only under the following circumstances:

- (a) where such trees are located areas to be occupied by #buildings#, driveways, areas for required #accessory# parking, or within a distance of eight feet of the exterior walls of such #building#, provided that it is not possible to avoid such removal by adjustments in the arrangement of such #buildings#, driveways or required parking areas;
- (b) where the would create special hazards or dangers to persons or property, which it would not be possible or practical to eliminate by pruning;
- (c) where continued presence of the trees would interfere with another tree of six-inch caliper or more designated for preservation and belonging to a species listed in Appendix B (Tree Selection Tables); or
- (d) where authorizations granted by the City Planning Commission under the provisions of this Chapter require or clearly contemplate the removal of such trees.

If an existing tree of six-inch caliper or more identified for preservation is removed without prior approval by the Department of Buildings or the City Planning Commission, any permit issued by the Department of Buildings for a #site alteration#, #development# or any #use# on the #zoning lot# shall be revoked.

In order to remove such violations, the owner of the #zoning lot# shall request the Commission to specify the tree restoration requirements and to certify such requirements to the Department of Buildings.

No building permit, reinstatement of such permit or issuance of a certificate of occupancy shall occur until the owner of the #zoning lot# either posts with the Comptroller of the City of New York a landscaping performance bond in an amount determined by the Commission or completes the replanting in accordance with the requirements set forth by the Commission in order to correct the planting violations.

Replacement trees to be planted shall be of a caliper no less than three inches and be of a species listed in Appendix B and the sum of whose calipers shall be at least equivalent to that of the trees removed.

In addition, the Commission may require a restrictive declaration specifying the terms of implementing the restoration plan.

Where on-site planting of such replacement trees would result in over-crowding or would adversely affect the ecology of the site, the Commission may authorize planting of one or more replacement trees on adjoining public sidewalks or in a nearby public area or substituting

other planting material pursuant to Section 107-323.

**107-322-107-32
Tree requirements Requirements**

For all #zoning lots#, New newly planted trees shall be provided in accordance with the table set forth in Appendix B planted no closer than eight feet from any other tree and be of a species selected from the New York City Native Species Planting Guide (as issued and revised by the Department of Parks and Recreation), or its successor.

For any existing tree of at least six-inch caliper which is preserved, credit for one tree shall be given for the first six inches of caliper and, for each additional four inches of caliper, credit for an additional tree shall be given.

- (a) On site Planting in #Residence Districts# or in a #zoning lot# with fewer than 10 parking spaces.

In connection with any #development#, #site alteration#, or #enlargement# involving the addition of at least 1,000 square feet of #floor area# in a #Residence District#, or in any #group parking facility# with fewer than 10 parking spaces, that are not fully enclosed, newly planted trees of at least one three-inch #caliper# and less than six-inch #caliper#, or pre-existing or newly planted, trees of at least six-inch #caliper#, shall be provided on the #zoning lot# at the rate of one #tree credit# for each 1,000 square feet of #lot area# or portion thereof.

A newly planted tree of between one and two-inch #caliper# shall have 0.5 #tree credits#, and a newly planted tree greater than two-inch #caliper# but less than six-inch #caliper# shall have one #tree credit#. Newly planted trees appearing on a site plan in an approved application may be counted toward #tree credits# on site plans for future applications if they have not yet grown to a six-inch or greater #caliper#, provided that they remain in good health and continue to comply with the standards set forth in this Section.

Any existing tree of at least six-inch #caliper# which is preserved and has no new paving, #development#, #enlargement#, or modification of topography within eight feet of such tree, shall have one #tree credit# for the first six inches of #caliper# and an additional #tree credit# for each additional three inches of #caliper#.

- (b) Planting for open parking areas

Any #development# or #enlargement# on a #zoning lot# that contains with open off-street parking areas with a #group parking facility# with 10 or more parking spaces that are not fully enclosed in or more shall be subject to the tree planting and screening requirements of Section 107-483.

**107-323-107-33
Substitution of other plant materials Other Plant Materials**

For any #development#, #site alteration# or #enlargement# which is required to provide trees in accordance with the provisions of paragraph (a) of Section 107-322, the City Planning Commission may allow the substitution of other plant material for such required trees, provided a detailed landscaping plan is filed with the Commission for approval and certification. A copy of such approved landscaping plan shall be filed with the Department of Buildings by the Commission.

Where two or more #buildings# that are #single-# or #two-family# #detached# or #semi-detached# #residences# are located on a #zoning lot#, the applicable minimum #lot area# requirement shall be multiplied by the number of such #buildings# on the #zoning lot#.

The #lot width# requirements set forth in this Section shall be applied as set forth in the definition of #lot width# in Section 12-10 (DEFINITIONS), provided that the applicable #lot width#, in feet, set forth in the table shall be met along at least one #street line# of the #zoning lot# or, for #corner lots#, along each intersecting #street line#. No #residence#, or portion thereof, shall be permitted between opposing #side lot lines# where such #lot lines# would be nearer to one another at any point where such #residence# is located than the applicable minimum lot width, in feet, set forth in the table.

However, one #single-family# #detached# #residence# or, where permitted, one #single-# or #two-family residence#, may be built upon a #zoning lot# consisting entirely of a tract of land, that:

- (b) was owned separately and individually from all other adjoining tracts of land, both on December 8, 2005, and on the date of application for a building permit.

In all cases, the density regulations of the applicable district shall remain in effect, except that the factor for determining the maximum number of #dwelling units# shall be 1,000 in R3A and R4A Districts, 1,140 in R3X Districts, and 685 for #semi-detached# #residences# in R3-1 and R3-2 Districts.

Planting and screening for open parking areas

#Zoning lots# that contain a #group parking facility# with 10 or more parking spaces that are not fully enclosed, shall be subject to paragraphs (a) and (b) of this Section and may be subject to paragraph (c) of this Section.

(a) Tree planting requirements for open parking

The provisions of Section 37-921 (Perimeter landscaping) shall apply to all facilities. In addition, one tree, of three-inch #caliper# or more, pre-existing or newly planted, shall be provided for each four open parking spaces and. Such trees may be located in the perimeter landscaped area of the parking area or in planting islands within the parking area.

However, where 30 or more open parking spaces are provided, at least 50 percent of the required trees shall be located within planting islands within the parking area. Such planting islands shall have a minimum area of 150 square feet of pervious surface and comply with the requirements of paragraphs (a), (b) and (c) of Section 37-922 (Interior landscaping).

For open parking areas with at least 36 parking spaces, the total number of trees required pursuant to Section 37-922- (Interior landscaping) shall be superseded by the number of trees required pursuant to this Section.

(b) Screening requirements

The For open parking areas or parking garages located on the ground floor and not fully enclosed, such non-enclosed portion shall be screened from all adjoining #zoning lots# by a landscaped area at least four feet in width, densely planted with shrubs maintained at a maximum height of three feet. Such Open parking areas shall also be screened from all adjoining #streets# by a perimeter landscaped area at least seven feet in width in accordance with Section 37-921 (Perimeter landscaping). Such perimeter landscaped area may be interrupted only by vehicular entrances and exits. Sidewalks that provide a direct connection between the public sidewalk and a pedestrian circulation route within the parking area may also interrupt a perimeter landscaped area.

In addition, such screening shall be maintained in good condition at all times and may be interrupted by normal entrances and exits.

(c) Planting Wwaiver

Tree planting and screening requirements may be waived if the Commissioner of Buildings certifies that planting is unfeasible due to:

- (1) unique geological conditions, such as excessive subsurface rock conditions or high water table;
(2) underground municipal infrastructure; or
(3) a City, State or Federal mandated brownfield remediation that requires the site to be capped.

Such waiver shall be based on a report prepared by a licensed engineer that such conditions exist.

For #developments# in #Residential Residence Districts#, trees provided in accordance with the provisions of this Section may be counted for the purposes of meeting the requirements of paragraph (a) of Section 107-322, paragraph (a). Furthermore, for #developments# in #Commercial# or #Manufacturing Districts#, which provide trees in accordance with the provisions of this Section, the requirements of

Yard, Court and Parking Regulations**

For any #plan review site# or any #zoning lots# containing #designated open space# or a #wetland-adjacent area#, the City Planning Commission may authorize variations in the #yard# or #court# regulations as set forth in Section 107-46, inclusive, or in the location of parking, driveway or curb cut regulations as set forth in Sections 23-44 (Permitted Obstructions in Required Yards or Rear Yard Equivalents), 25-621 (Location of parking spaces in certain districts), 25-622 (Location of parking spaces in lower density growth management areas) and 25-631 (Location and width of curb cuts in certain districts) 25-632 (Driveway and curb cut regulations in lower density growth management areas) for the purpose of allowing proper arrangements of #buildings#, driveways or required parking areas so as to avoid the destruction of natural features, existing topography and individual trees of six-inch caliper or more. #Rear yard#, #side yard# or #side yard# equivalent variations shall not be authorized on the periphery of a #development# unless acceptable agreements are jointly submitted for #development# of two or more adjacent #zoning lots# by the owners thereof, incorporating the proposed #yard# or #side yard# equivalent variations along their common #lot lines#.

As a condition for granting such authorizations, the Commission shall find that the proposed placement of #buildings# and arrangement of #open spaces# will not have adverse effects upon light, air and privacy on adjacent #zoning lots# and will preserve natural features in #areas of no disturbance#.

Removal of Trees Future Subdivision of Certain Plan Review Sites**

For any #development#, the City Planning Commission may authorize the removal of trees of six-inch caliper or more whose removal would otherwise be prohibited under the provisions of Section 107-32 provided that the Commission makes one or more of the following findings:

- (a) that the tree's retention would cause serious disadvantage in the arrangement of open areas on the lot, impairing the usefulness of such areas;
- (b) that such tree is located in an area where more than two feet of cut or fill is required and measures for saving the tree would be extremely difficult and impractical; or
- (c) that provision of a segment of the #waterfront esplanade# is not feasible without such tree's removal.

For any #plan review site# that does not comply with Section 107-08 (Future Subdivision of Certain Plan Review Sites), the City Planning Commission may authorize a future subdivision into two or more #zoning lots#, provided that the Commission finds that:

- (a) to the greatest extent possible, all individual trees of six-inch #caliper# or more, the existing topography, and all land located within a #designated open space#, are preserved under future #development# options;
- (b) such subdivision complies with the goals described in paragraph (c) of Section 107-00 (GENERAL PURPOSES); and
- (c) where vehicular access and egress are located on an #arterial#, the location of such vehicular access and egress permits better site planning.

Any subdivision that is proposed to take place within the Special District after [date of adoption], shall be filed with the City Planning Commission. A site plan and #area plan# shall indicate the distribution of #bulk# for the individual #zoning lots# submitted to the Commission. Such approved subdivision shall then be recorded in the land records and indexed against all #zoning lots#.

**107-65
Modifications of Existing Topography Natural Feature Regulations**

For any #development#, #enlargement#, or #site alteration# on #plan review sites# or within #designated open space#, the City Planning Commission may authorize modifications of the natural topography existing on September 11, 1975 [date of adoption] beyond the amount specified in Section 107-31 (Topographic Regulations General Regulations for Natural Features), inclusive, or modification of tree regulations pursuant to Sections 107-312 (Regulations within plan review sites) and 107-32 (Tree Requirements), provided that the Commission finds that:

The Commission may authorize modifications to natural features, provided that the Commission finds that:

- (a) #development# on the #zoning lot# is not feasible without such modifications the modifications are the minimum necessary to facilitate the project;
- (b) such modification of topography is necessary to accommodate public amenities, such as public pedestrian ways, the #waterfront esplanade# or active recreational facilities within a #designated open space# as required under the provisions of this Chapter;
- (c) such modification will not cause unnecessary disturbance of the drainage pattern in the area; and
- (d) such modified topography modification will have minimal impact on the existing natural topography features of the surrounding area and will blend harmoniously with it; and
- (e) areas within the #zoning lot# that contain natural features are preserved within a proposed #area of no disturbance#, especially those areas which are contiguous to #designated open space#, #wetland-adjacent areas#, or other area containing mostly natural features.

Where a permit for land contour work or topographic modification is required from the Department of Transportation or the Department of Buildings, the City Planning Commission and other such agencies shall jointly determine the conditions under which such topographic modification may be permitted so as best to serve the purposes of the Special District, in accordance with the provisions of Section 107-91 (Inter-agency Coordination).

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

In Areas F and K, as shown in the District Plan (Map 4 in Appendix A), the City Planning Commission may authorize one or more #uses# in the Use Groups specified in this Section not permitted by the underlying district regulations:

As a condition for such authorization, the Commission shall find that:

- (a) such #uses# are so located as not to impair the essential character of the surrounding area for its future development;
- (b) the minimum #lot area# of a #zoning lot# on which such #uses# are located is at least 20 acres;
- (c) vehicular access and egress for such proposed #uses# are located and arranged so as to draw a minimum of vehicular traffic to and through local #streets# in nearby residential areas; and
- (d) where vehicular access and egress are located on an #arterial#, such location affords the best means for controlling the flow of traffic generated by such proposed #uses# to and from such #arterial#.

In order to grant such authorization, the Commission, upon a review of the site plan, shall find that:

- (a) vehicular access and egress are located and arranged so as to draw a minimum of vehicular traffic to and through local #streets# in nearby residential areas;
- (b) where vehicular access and egress are located on an #arterial# or #park street#, such location affords the best means for controlling the flow of traffic generated by such #use# to and from such #arterial# or #park street#, and does not unduly interfere with pedestrian traffic; and
- (c) the location of such vehicular access and egress the design of the parking facility permits better site planning avoids undue conflict between pedestrian and vehicular movements in a manner that results in a better site plan.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area and may, in appropriate cases, condition its authorization upon compliance with an approved site and landscaping plan. - (b) allow a #building# to be arranged on a #zoning lot# that includes #designated open space# without encroaching on such #designated open space#.

As a condition for granting such modifications, the Commission shall find that:

- (1) the siting of the #building# will not adversely affect adjacent properties by impairing privacy or access of light and air;

NOTICE

On Wednesday, June 28, 2023, a public hearing is being held by the City Planning Commission (CPC), accessible in-person and remotely, in conjunction with the above hearing to receive comments related to a Draft Environmental Impact Statement (DEIS) concerning an application by the New York City Department of City Planning (DCP). The Proposed Action is a zoning text amendment to update the Special South Richmond Development District (SSRDD) to provide a clear and consistent framework that balances developments with natural features regulations within the special district. In 2020 and 2021, the project was proposed as the Staten Island Special Districts Update. Since the public scoping meeting, the project has been renamed and limited to only amend the SSRDD due to public feedback received during the public outreach process. The modifications to Special Natural Area District and Special Hillside Preservation District are no longer included in the Proposed Action.

The Proposed Action is a zoning text amendment that would affect the SSRDD (Article X, Chapter 7) and all of Staten Island's SSRDD which is located in Community District 3. The Proposed Action would amend the existing SSRDD regulations to allow most small sites, less than 1 acre, an as-of-right framework by codifying CPC best practices and updating the regulations that govern the natural features on large sites to provide a clearer framework for CPC discretionary review. The analysis year is 2030.

Written comments on the DEIS are requested and will be received and considered by the Lead Agency through 5:00 PM on Monday, July 10, 2023.

For instructions on how to submit comments and participate, both in-person and remotely, please refer to the instructions at the beginning of this agenda.

This hearing is being held pursuant to the State Environmental Quality Review Act (SEQRA) and City Environmental Quality Review (CEQR), CEQR No. 20DCP130R.

COMMUNITY BOARDS

■ PUBLIC HEARINGS

NOTICE IS HEREBY GIVEN that the following matters have been scheduled for public hearing by Community Board:

BOROUGH OF BROOKLYN

COMMUNITY BOARD NO. 18 - Wednesday, June 21, 2023, 7:00 P.M., **Board Office Meeting Room, 1097 Bergen Avenue** and **via WebEx** for participants who wish to participate online.

A Public Hearing on The NYC Department of City Planning in close consultation with the Mayor's Office of Climate and Environmental Justice (MOCEJ) proposed citywide zoning text amendment to implement changes to the City's Zoning Resolution to remove impediments to, and expand opportunities for, decarbonization projects within all zoning districts, and across all 59 of the City's Community Districts. City of Yes for Carbon Neutrality will help us decarbonize NYC. Decarbonize means reducing our reliance on carbon-based fuels, which are harming our health and our planet. Updating our zoning rules will make it easier to install green energy technology. City of Yes for Carbon Neutrality would modernize NYC's zoning rules to make our homes, businesses, electric power grid and even waste streams much cleaner.

HHS ACCELERATOR PREQUALIFICATION

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York (“PPB Rules”), vendors must first complete and submit an electronic HHS Accelerator Prequalification Application using the City’s PASSPort system. The PASSPort system is a web-based system maintained by the City of New York for use by its Mayoral Agencies to manage procurement. Important business information collected in the Prequalification Application is required every three years. Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete. Prequalification applications will be reviewed to validate compliance with corporate filings and organizational capacity. Approved organizations will be eligible to compete and would submit electronic proposals through the PASSPort system. The PASSPort Public Portal, which lists all RFPs, including HHS RFPs that require HHS Accelerator Prequalification, may be viewed at https://passport.cityofnewyork.us/page.aspx/en/rfp/request_browse_public. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding. For additional information about HHS Accelerator Prequalification and PASSPort, including background materials, user guides and video tutorials, please visit <https://www1.nyc.gov/site/mocs/systems/about-go-to-passport.page>.

DEP intends to enter into a Sole Source Agreement with Control Associates Inc., for CAS-1 the Purchase of nine (9) Fisher type ET

The Bureau of Wastewater Treatment (BWT) Coney Island Wastewater Resource Recovery Facility (WRRF) has nine Fisher type ET Control Valve Systems that control hot water supply to the digester heat exchangers.
