The #bulk# regulations of this Chapter apply to any #community facility building# or any #building# used partly for a #community facility use# on any #zoning lot# located in any #Residence District# in which such #building# is permitted. As used in this Chapter, the term "any #building#" shall therefore not include a #residential building#, the #bulk# regulations for which are set forth in Article II, Chapter 3. However, in R3A, R3X, R3-1, R4A, R4-1, R4B or R5B Districts, except for #community facility uses# that have received tax exempt status from the New York City Department of Finance, or its successor, pursuant to Section 420 of the New York State Real Property Tax Law, or its successor, the #bulk# regulations of this Chapter shall apply only to a #building# that is used entirely for #community facility uses# and the #bulk# regulations of Article II, Chapter 3, shall apply to any #building# that is used partly for #community facility use# and partly for #residential use# except as otherwise permitted in Section 24-04 (Modifications of Bulk Regulations in Certain Districts).

#Buildings# containing certain #community facility uses# in #lower density growth management areas#

24-04 Modification of Bulk Regulations in Certain Districts

In the districts indicated, except for #developments# subject to the provisions of paragraph (b) of Section 24-013 (Exceptions to the bulk regulations of this Chapter) the City Planning Commission may, upon application, authorize #developments# pursuant to the #bulk# regulations of this Chapter, provided that the Commission finds that:

- (a) the design of the #development# ensures adequate separation of #uses# and sufficient independent access to each #use#; and
(b) the #floor area# designated for #community facility use# is designed in a manner that is consistent with such #use# and physically distinguishes such space from that designated for #residential use#.

The Commission may prescribe additional safeguards to prevent the conversion of such #community facility use# to #residential use#.

In all districts, as indicated, for all #accessory# off-street parking spaces, open or enclosed, each 300 square feet of unobstructed standing or maneuvering area shall be considered one parking space. However, an area of less than 300 square feet, but in no event less than 200 square feet, may be considered as one space, where the layout and design of the parking area are adequate to permit convenient access and maneuvering in accordance with regulations promulgated by the Commissioner of Buildings, or where the developer or applicant for a building permit or certificate of occupancy certifies that such spaces will be fully attended. In any case where a reduction of the required area per parking space is permitted on the basis of the developer's certification that such spaces will be fully attended, it shall be set forth in the certificate of occupancy that paid attendants employed by the owners or operators of such spaces shall be available to handle the parking and moving of automobiles at all times when such spaces are in use.

In no event shall the dimensions of any parking stall be less than 18 feet long and 8 feet, 6 inches wide.

The use of an attendant shall be permitted only where necessary to accommodate additional, non-required parking spaces within the travel aisles. For such open parking areas with 18 or more spaces, or greater than 6,000 square feet in area, the provisions of Section 37-90 (Parking Lots) shall also apply.

In addition, for #buildings# in R3, R4, and R5 Districts in #lower density growth management areas# subject to the provisions of paragraph (b) of Section 24-013 (Exceptions to the bulk regulations of this Chapter) the Board may permit the #development# of a #building# pursuant to the #bulk# regulations of Article II, Chapter 4 (Bulk Regulations for Community Facility Buildings in Residence Districts).

In order to grant such special permit, the Board shall find that the amount of open area and its distribution on the #zoning lot# conform to standards appropriate to the character of the neighborhood.

Additionally, in #lower density growth management areas#, the Board shall find that:

- (a) the distribution of #bulk# on the #zoning lot# will not unduly obstruct access of light and air to adjoining properties or #streets#; and
(b) the scale and placement of the #building# on the #zoning lot# relates harmoniously with surrounding #buildings#.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

74-49 Residential Use in C4-1 Districts in Staten Island

74-901 Certain community facility uses in R1 and R2 Districts and certain Commercial Districts

In R1 and R2 Districts, and in C1 and C2 Districts mapped within such #Residence Districts# for any #development#, #extension# or #enlargement# or change of #use# involving any #community facility uses# other than domiciliary care facilities for adults or those for which a permit is required by the Board of Standards and Appeals pursuant to Sections 73-12 (Community Facility Uses in R1 or R2 Districts) or 73-13 (Open Uses in R1 or R2 Districts), the City Planning Commission may permit the allowable community facility #floor area ratio# and #lot coverage# of Section 24-11 (Maximum Floor Area Ratio and Percentage of Lot Coverage) to apply to all such #uses#, provided that the following findings are made:

- (a) that the distribution of the #bulk# of the total #development# will not unduly obstruct the access of light and air in and to adjoining properties or public #streets#, and will result in satisfactory site planning and satisfactory urban design relationships of #buildings# to adjacent #streets# and surrounding #developments#;
(b) that the architectural and landscaping treatment and the height of the proposed #building# containing such #uses# blends harmoniously with the topography and the surrounding area;
(c) that the proposed #development# will not require any significant additions to the supporting services of the neighborhood or that provision for adequate supporting services has been made; and
(d) that the #streets# providing access to such #use# are adequate to handle the traffic generated thereby or provision has been made to handle such traffic.

The Commission may request a report from appropriate governmental agencies with respect to #community facility uses# requesting a special permit under this Section. To minimize traffic congestion in the area, the Commission may require where necessary off-street parking facilities and #accessory# off-street loading berths beyond the amount required by the district regulations.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

§8-07 Licensing - Fees

(e) Reinspection Fee. [There is no additional fee for the first re-inspection. If a second re-inspection is required, the fee is \$35. No additional fees will be charged for the third or subsequent reinspections.] There is a reinspection fee only if reinspection is required because the Taxicab failed the component of the inspection required by Section 301 of the New York State Vehicle and Traffic Law. In that case, the reinspection fee is thirty five dollars (\$35). If reinspection is required because the Taxicab failed any other component of the inspection, there is no reinspection fee.

Section 2. It is hereby proposed that a new subsection (c) be added to Section 8-28 of Chapter 8 of Title 35 of the Rules of the City of New York to read as follows:

§8-28 Vehicle Condition - Inspections

A Taxicab inspection consists of (1) inspection to verify compliance with the inspection items required by Section 301 of the New York State Vehicle and Traffic Law, (2) visual inspection of the interior and exterior of the Taxicab to verify compliance with these Rules, and (3) inspection to verify compliance with any other applicable laws, rules and requirements. If a Taxicab fails any component of the inspection, it must be reinspected until it passes all components of the inspection.

Section 2. It is hereby proposed that subsections (e) and (f) of Section 9A-04 of Chapter 9 of Title 35 of the Rules of the City of New York be amended to read as follows:

§9A-04 Licensing - General Requirements

(e) Inspection Required for a New Vehicle License.

(6) Nature of the Inspection.

(ii) If the vehicle is a year 1996 or later model:

A. The vehicle must [comply with] pass (i) the vehicle inspection requirements set forth in [section] Section 301 of the NYS Vehicle and Traffic Law, [and] (ii) a visual inspection of the interior and exterior of the vehicle to verify compliance with [all applicable] these Rules [established in this Sub-chapter], and (iii) inspection to verify compliance with any other applicable laws, rules and requirements.

(iii) If the vehicle is a year 1995 or earlier model, or if the vehicle is of any model year and the vehicle's maximum gross weight (MGW) as recorded on the registration card is 8,501 pounds or more:

A. The vehicle must [comply with] pass (i) the vehicle inspection requirements set forth in [section] Section 301 of the NYS Vehicle and Traffic Law, except that the inspections will not include emissions testing, [and] (ii) a visual inspection of the interior and exterior of the vehicle to verify compliance with [all applicable] these Rules [established in this Sub-chapter], and (iii) inspection to verify compliance with any other applicable laws, rules and requirements.

(f) Inspection Required to Renew a Vehicle License.

(6) Nature of the Inspection.

(i) If the vehicle is a year 1996 or later model:

A. The vehicle must [comply with] pass (i) the vehicle inspection requirements set forth in [section] Section 301 of the NYS Vehicle and Traffic Law, [and] (ii) a visual inspection of the interior and exterior of the vehicle to verify compliance with [all applicable] these Rules [established in this Sub-chapter], and (iii) inspection to verify compliance with any other applicable laws, rules and requirements.

(ii) If the vehicle is a year 1995 or earlier model, or if the vehicle is of any model year and the vehicle's maximum gross weight (MGW) as recorded on the registration card is 8,501 pounds or more:

A. The vehicle must [comply with] pass (i) the vehicle inspection requirements set forth in [section] Section 301 of the NYS Vehicle and Traffic Law, except that the inspections will not include emissions testing, [and] (ii) a visual inspection of the interior and exterior of the vehicle to verify compliance with [all applicable] these Rules [established in this Sub-chapter], and (iii) inspection to verify compliance with any other applicable laws, rules and requirements.

Section 4. It is hereby proposed that subsection (a) of Section 9A-26 of Chapter 9 of Title 35 of the Rules of the City of New York be amended to read as follows:

§9A-26 Vehicle Inspections

(a) Tri-annual Inspections. For-Hire Vehicles must be regularly inspected three times every year, including at least once every four months. Section [9A-4e(1)] 9A-04(e)(1) and [f(1)] (f)(1) specifies that inspections required for new and renewal applications must be done at the [Commission] Commission's Safety and Emissions Division facility, except as specifically set forth in Section 9A-04 (e) and (f); the other required inspections can be done at any DMV registered facility.

§9A-26(a) Fine: \$100 and suspension of Appearance REQUIRED until the Vehicle Owner License until any defect found is corrected

Statement of Basis and Purpose of Rules

This rule amends the version of the Taxi and Limousine Commission's rules that become effective April 1, 2011, in three respects:

- A reinspection fee is imposed for each taxicab reinspection. The fee is imposed only if the reinspection is done because the taxicab failed the state-mandated portion of the inspection.
- Emissions testing is eliminated from the state-mandated for-hire vehicle inspection for vehicles with maximum gross weight over 8,500 pounds. Emissions testing is eliminated from the inspection because the state Department of Motor Vehicles requires these vehicles to be subjected to emissions testing using High-Enhanced (Dynamometer or Idle Test) equipment, which the TLC does not have. These vehicles will have to have state-mandated emissions testing done at another DMV-certified facility. Currently, there is no vehicle model approved for taxicab service that exceeds 8,500 pounds, but some of these larger vehicles have recently been licensed as for-hire vehicles, making this amendment necessary.
- The components of a taxicab or for-hire vehicle inspection are enumerated more uniformly for taxicabs and for-hire vehicles. Except where specified otherwise, the inspection consists of (i) inspection to verify compliance with the inspection items required by Section 301 of the New York State Vehicle and Traffic Law, (ii) visual inspection of the interior and exterior of the Taxicab to verify compliance with these Rules, and (iii) inspection to verify compliance with any other applicable laws, rules and requirements. If a Taxicab fails any component of the inspection, it must be reinspected until it passes all components of the inspection.
