HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York (“PPB Rules”), vendors must first complete and submit an electronic prequalification application using the City’s Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed at <http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml>. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

Administration for Children’s Services (ACS)
 Department for the Aging (DFTA)
 Department of Consumer Affairs (DCA)
 Department of Corrections (DOC)
 Department of Health and Mental Hygiene (DOHMH)
 Department of Homeless Services (DHS)
 Department of Probation (DOP)
 Department of Small Business Services (SBS)
 Department of Youth and Community Development (DYCD)
 Housing and Preservation Department (HPD)
 Human Resources Administration (HRA)

AGENCY RULES

TAXI AND LIMOUSINE COMMISSION

■ NOTICE

Notice of Promulgation of Rules

NOTICE IS HEREBY GIVEN in accordance with Section 1043(b) of the Charter of the City of New York ("Charter") that the Taxi and Limousine Commission ("TLC") promulgates rules to require all For-Hire Vehicle (FHV) Bases to send 25% of their dispatched trips to wheelchair accessible vehicles. These rules are promulgated pursuant to Sections 1043 and 2303 of the Charter and Section 19-503 of the Administrative Code of the City of New York. These rules were published in the City Record on July 7, 2017 for public comment. On September 28, 2017, a public hearing on these rules was held by the TLC at the New York Marriott Downtown, 85 West Street, New York, NY, and the rules were adopted by the Commission on December 13, 2017. Pursuant to Section 1043(e)(1)(c) of the Charter, these rules will take effect 30 days after publication.

Statement of Basis and Purpose

Increasing access to the New York City Taxi and Limousine Commission's fleet of over 110,000 licensed vehicles is an important step to make New York City a place that is truly accessible to all of our residents and visitors, including those who use wheelchairs. In 2014 the TLC created a framework to introduce wheelchair accessible green and yellow taxis into the City's fleet over time. To reach the for-hire vehicle sector (black cars, car services and luxury limousines),

which today transports at least 400,000 passengers each day, the TLC promulgates an accessible service requirement that would put wheelchair accessible for-hire vehicles (FHVs) in circulation and available for the passengers who need them.

Specifically the TLC will now:

- Require all FHV bases to dispatch 25% of their trips in wheelchair accessible vehicles, beginning with 5% in the first year of implementation, scaling up to 25% over the course of five years
- Give every base the flexibility to dispatch to any wheelchair accessible for hire vehicle
- Perform an annual review of the percentage levels

The key to real accessible service is vehicle availability. Licensing wheelchair accessible vehicles alone does not achieve this goal. Generally, vehicles are available for service when they are in circulation. That is, they are steadily getting dispatches from a base and between trips the vehicles remain "at the ready." That is true for standard vehicles, and it is equally true for accessible vehicles. If each base is required to dispatch a certain percentage of its trips to vehicles that are wheelchair accessible, then these vehicles will be on the road and available to pick up passengers that use wheelchairs, but who today are unable to get reliable for hire service.

For the base owners, the rule would provide significant flexibility. Base owners would be able to dispatch to wheelchair accessible vehicles from both the livery and black car sectors, regardless of the base to which they are affiliated, and could also dispatch to existing wheelchair accessible green taxis in areas where green taxis are permitted to accept dispatches. Additionally, TLC will phase in this requirement over a period of several years to reach 25% of trips.

The Commission's authority for these rules is found in Section 2303 of the New York City Charter and Section 19-503 of the Administrative Code.
