91-80 PUBLIC ACCESS AREAS

91-81 Certification to modify existing arcades in certain areas

For the purposes of this Section, 'arcade' shall refer to an #arcade# or #through-block arcade# provided in accordance to the provisions of Section 12-10 (DEFINITIONS) and 37-80 (ARCADES); an arcade provided in accordance with paragraphs (a) of Section 37-53 (Design Standards for Pedestrian Circulation Spaces); or an open space provided on a #zoning lot# between the #building street wall# and the #street line# where tables and chairs would otherwise not be allowed as permitted obstructions.

The provisions of this Section shall apply to existing #buildings# providing an arcade within the boundary designated by Map 8 in Appendix A of this Chapter.

Any underlying provisions restricting the placement of tables and chairs within such arcades may be modified where the Chairperson of the City Planning Commission certifies to the Commissioner of Buildings that such modifications are consistent with the provisions of this Section, as follows:

(a) Seating

Moveable seating in the form of public seating and open air café seating, as well as associated moveable tables, umbrellas and other furnishings, shall be permitted obstructions within an arcade, provided that such obstructions conform to the provisions listed below, as applicable. No plastic material shall be permitted in tables or chairs provided within an arcade.
 Where an open air café is provided, it shall be a permanently unenclosed establishment and may have waiter or table service.

(1) Amount and size of tables and chairs

A minimum of four tables and sixteen chairs shall be provided within an arcade. For the purpose of calculating the percentage of required public seating or open air café seating, every table required by a calculation shall be required to have four chairs.

(i) Public seating

Publicly accessible tables, and associated chairs, shall constitute a minimum of 40 percent of the total amount of tables provided within an arcade. Fractions resulting from such calculation shall be rounded to the nearest whole table.

All tables shall have a minimum diameter of two feet. All publicly accessible chairs

shall have seat backs, and the seats shall have a minimum depth of twelve inches and a maximum depth of 20 inches.

(ii) Open air café

Open air café tables, and associated chairs, shall constitute a maximum of 60 percent of the total amount of tables provided within an arcade. Fractions resulting from such calculation shall be rounded to the nearest whole table.

(2) Location restrictions and other prohibitions

No tables or chairs shall be permitted within five feet of any #building# entrance. For arcades with a depth of ten feet or less, as measured from the column face furthest from the #street line# to the #street wall#, a clear pedestrian circulation pathway shall be provided in an amount not less than three feet. For arcades with a depth greater than ten feet, such required clear pedestrian pathway shall be increased to an amount not less than six feet. In addition, for #through-block arcades#, a continuous clear path of ten feet shall be provided, connecting each #street# on which the public access area fronts.

(i) Public seating

Where a proposed modification to an arcade is located on a #zoning lot# with frontage along Water Street, a minimum of 50 percent of the aggregate amount of tables and chairs provided pursuant to paragraph (a)(1)(i) of this Section shall be located within 25 feet of the Water Street #street line#.

(ii) Open air café

Open air cafes shall be located at the same elevation as the adjoining sidewalk area or #publicly accessible open area#, except that platforms may be provided, provided that they do not exceed a height of six inches.

Fences, planters, walls, fabric dividers or other barriers that separate open air cafe areas from other portions of the arcade, or adjacent sidewalks or #publicly accessible open areas# shall be prohibited. No kitchen equipment shall be installed within an open air café.

(3) Hours of operation

(i) Public seating

Tables and chairs shall not be chained, fixed, or otherwise secured during the hours of 7:00 am to 9:00 pm. However, during the nighttime hours of 9:00 pm to 7:00 am such tables and chairs may be removed, or secured within the arcade.

Where public seating and open air cafe seating are provided within an arcade, such public seating shall be subject to the hours of operation of an open air café, as set forth in paragraph (a)(3)(ii) below.

(ii) Open air café

Open air cafes must be in operation and provide service a minimum of 225 days per year.

All furnishings of an open air cafe, including tables, chairs, bussing stations, and heating lamps, shall be completely removed from the arcade when the open air cafe is not in active use, except that tables and chairs may remain in such

arcade if they are unsecured and may be used by the public without restriction.

(4) Locating public seating within an adjacent #publicly accessible open area# Where tables and chairs are provided in an arcade located on the same #zoning lot# as an existing #publicly accessible open area# that fronts upon Water Street, the Chairperson of the City Planning Commission may certify public seating provided pursuant to paragraph (a)(2)(i) of this Section to be located within such a #publicly accessible open area#. The area within such #publicly accessible open area# occupied by public seating provided pursuant to this paragraph shall not be included in calculating the maximum #lot coverage# which permitted obstructions may occupy within such #publicly accessible open area#. Such public seating shall not constitute a design change pursuant to the provisions of Section 37-62 (Changes to Existing Publicly Accessible Open Areas) provided the Chairperson finds that:

- (i) no more than 50 percent of the aggregate amount of public seating required pursuant to paragraph (a)(2)(i) above is located within such #publicly accessible open area#;
(ii) such public seating shall in no event constitute required seating for such existing #publicly accessible open area#; and
(iii) such public seating complies with the hours of operation provisions of paragraph (a)(3) above.

Any proposed design change to an existing #publicly accessible open area# beyond the findings permitted in this Section shall be subject to the requirements of Section 37-62 (Changes to Existing Publicly Accessible Open Areas).

(b) Litter receptacles

Litter receptacles shall be permitted obstructions within an arcade pursuant to the provisions set forth in Section 37-744 (Litter receptacles).

In order to certify the proposed modification to an existing arcade is consistent with the provisions of this Section, the applicant shall submit to the Chairperson:

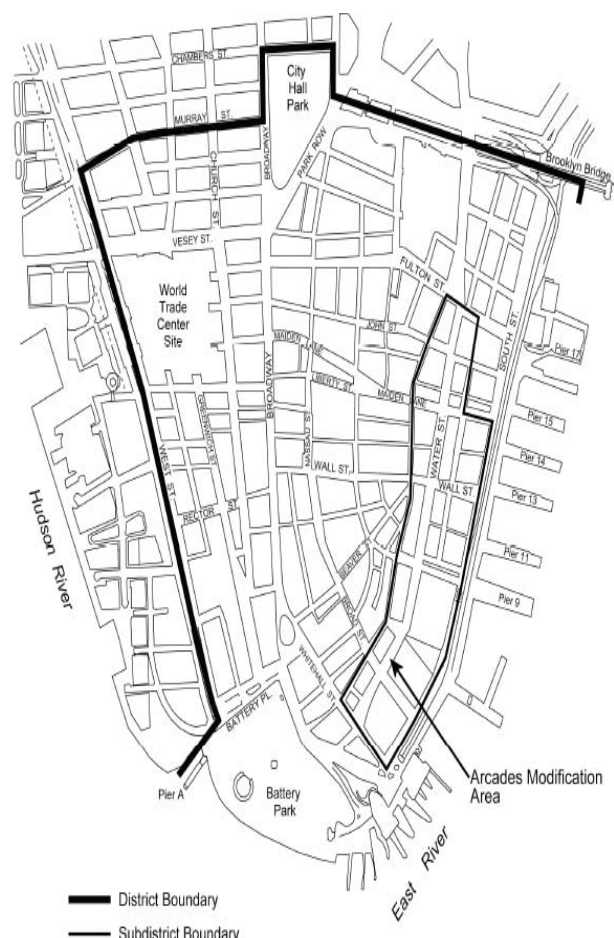

- (1) a site plan demonstrating the proposed obstructions within the existing arcade, and where applicable, the adjacent #publicly accessible open area#; and
(2) a detailed seating plan illustrating conformance with paragraph (a) of this Section.

All plans for arcades or other #publicly accessible open areas# that are the subject of a certification pursuant to this Section shall be filed and duly recorded in the Borough Office of the City Register of the City of New York, indexed against the property in the form of a legal instrument, in a form satisfactory to the Chairperson, providing notice of the certification of the arcade, pursuant to this Section. Such filing and recording of such instrument shall be a precondition to certification. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording date.
