## Join The New York Public Library at our first annual Career Resources Fair for Teens in midtown Manhattan!

Explore resources from the Library and our partner organizations about entering the workforce after graduation, the range of career paths open to you, and the skills you'll need wherever you end up. We'll help you write a great resume and cover letter, practice interview skills, get your working papers, and jump-start your career. Workshops and hands-on activities will help you get the most from the career readiness resources and services we offer.
