

**Information About Potential Vendors
Pursuant to Executive Order 39, Fleet and Contractor Safety, and
Local Law 108, Fleet and Contractor Truck Side Guards**

Executive Order 39 of 2024

DCAS offers the below lists of vendors who may be able to perform work pursuant to Executive Order 39. These lists are provided for informational purposes only. These vendors are not mandated by DCAS. These lists are not exhaustive. These lists should not be considered a recommendation or endorsement of these vendors. Vendors that appear on this list include ones who have reached out to DCAS to express interest in providing services under EO39 and some who have participated in DCAS meetings and public events. DCAS will update this list on an occasional basis. Vendors who wish to express interest may reach out to nycfleet@dcas.nyc.gov.

Local Law 108, Truck Sideguards

DCAS and the US DOT Volpe Center have certified certain vendors as having a side guard product that meets or exceeds the requirements of Local Law 108 within the specifications of each certification. US DOT Volpe is under agreement with DCAS to support these assessments.

DCAS and the US DOT Volpe Center have also certified certain vendors as installers of side guards.

DCAS offers the below lists of certified side guard vendors and side guard installers. These vendors are not mandated by DCAS. These lists are not exhaustive of vendors who may be capable of providing side guards or installation services. All companies implementing truck side guard projects, including both vendors on these lists and not on these lists, are responsible for ensuring their installations comply with the technical specifications of the Local Law.
