

## 2016 Vision Zero Fleets Safety Forum

### Queens Theatre in the Park

NYC hosted Vision Zero Fleets Safety Forums in each of the last two years to focus on best practices that private and public fleets can use to improve pedestrian and driver safety. We have seen exciting progress including NYC's new law mandating truck side guards on City owned trucks and commercial waste vehicles, a new regulation banning hands-free devices for drivers of NYC fleet vehicles, and increased dialogue between fleet owning organizations.

Please join us again to discuss developments in the last year and to help chart a course moving forward. Panels will address emerging technologies, driver distraction, training, and driver input.

Presentations and panels will feature representatives from private and public fleets, companies specializing in safety technologies, and government officials and non-profits focused on transportation safety.

This event is free. Breakfast and lunch will be provided.
