

# NYC Civil Service Engineering Spotlight Event

Discover how engineers help shape the future of the City of New York.

Join us for the **NYC DCAS Civil Service Engineering Spotlight**, an informational event highlighting rewarding engineering careers in public service. Learn how civil service engineers design, build, maintain, and protect the infrastructure that keeps New York City running—from transportation and water systems to buildings, energy, and public safety.

## Event Details

**Date:** Tuesday, February 10th, 2026

**Time:** 4:00PM – 5:30PM

**Location:** Virtual – Microsoft Teams Webinar

**Format:** Virtual

**Audience:** Students / Early-Career / Experienced Engineers / All

## What to Expect

- Overview of **engineering roles across NYC agencies**
- Insights into the **civil service hiring and exam process**
- Career pathways, professional growth, and benefits
- Live **Q&A with NYC engineering professionals**

Whether you're a student, early-career engineer, or experienced professional exploring public service, this spotlight event offers a unique opportunity to connect, learn, and take the next step toward an impactful engineering career.
