

Pride in Public Service - Building Belonging Across New York City

Join the NYC Department of Citywide Administrative Services (DCAS) and partner agencies for a Pride Month **CityTalk** panel discussion exploring the role of inclusion, representation, and belonging in public service. Inspired by NYC Pride's 2026 theme, *For All of Us*, this conversation will bring together public servants and leaders whose work supports and advances LGBTQIA+ communities across New York City.

Through personal reflections and professional insights, panelists will discuss their career journeys, the importance of creating inclusive workplaces, and how fostering authenticity and belonging strengthens both the workforce and the communities city government serves. Together, they will explore how public service can help build a more equitable and welcoming city for all New Yorkers.

**Bring your whole self. Serve with purpose.
Help create a city that Builds Belonging.**
