NYCDEP	New York City Department of Environmental Protection
NYSDEC	New York State Department of Environmental Conservation
POD	Points of Discharge
PPP	Public Participation Plan
SPDES	State Pollutant Discharge Elimination System

---

## 1. Introduction and Objective

This Public Participation Plan (PPP) has been developed to implement the construction of East Side Coastal Resiliency Project between Montgomery Street and East 15<sup>th</sup> Street in the Borough of Manhattan, New York (Project ID SANDRESM1). The PPP has been prepared in accordance with the New York State Department of Environmental Conservation (NYSDEC) Commissioner Policy-29, Environmental Justice and Permitting (CP-29).

The objective of this PPP is to address environmental justice concerns and ensure public participation in the NYSDEC environmental permit review process by the impacted community. The PPP will inform the affected community of the State Pollutant Discharge Elimination System (SPDES) permit application process for the water treatment and discharge facilities operated in support of the New York City Department of Design and Construction's (NYCDDC) Project ID SANDRESM1 and will promote public communication and understanding of the SPDES permit application process.

## 2. Project Description and Proposed Actions

The East Side Coastal Resiliency Project (ESCRP) has been designed to alleviate the potential for flooding that occurs in the eastern coast of Manhattan and make the area more resilient to coastal storms and inundation from sea level rise, including the construction of a coastal flood protection system, pedestrian bridges, park reconstruction and supporting infrastructure improvements in the eastern coast of Manhattan from Montgomery Street to East 15<sup>th</sup> Street (NYCDDC Project ID SANDRESM1). The current site condition consists of existing roadway, sidewalk and park land. The ESCRP construction area (see Figure 1) is comprised of a long stretch along the eastern coast of Manhattan, NY, spanning from Montgomery Street to East 15<sup>th</sup> Street. NYCDDC has already obtained permits from NYSDEC for portions of the project within Tidal Wetlands.

To facilitate construction of ESCRP, the New York City Department of Design and Construction (NYCDDC) has determined that construction dewatering is required for replacement and construction of sewers and appurtenances related to ESCRP and has submitted an application to the New York State Department of Environmental Conservation (NYSDEC) for dewatering and groundwater pumping operations, which requires a New York State Pollutant Discharge Elimination System (SPDES) permit as well as a Water Withdrawal permit.

The overall project site is approximately 63 acres extending from Montgomery Street to the north end of East River Park (East 15<sup>th</sup> Street), including portions of Corlears Hook Park, East River Park, and Franklin D. Roosevelt (FDR) Drive right-of-way. Land use in the vicinity of the corridor is primarily characterized by commercial properties and park land. The properties beyond the immediate vicinity of the corridor are mostly used for multi-story residential or commercial purposes (including New York City Housing

Authority housing developments; Stuyvesant Town and Peter Cooper Village). Con Edison East River Generating Station, associated with four active remediation sites, is located approximately 800 feet to the north of the corridor. The topography of the project area consists of flat surfaces associated with small hills flattened during urbanization or regrading of the area. Topography at the site slopes slightly downward in a southerly to southeasterly direction toward the East River, the closest large surface water body to the site. Under natural conditions, surface runoff would be expected to follow the overall topography of the area and ultimately discharge into East River.

According to the NYCDDC's Subsurface Investigation Report dated 2015, project area include sandy fill materials down to approximately 10 to 20 feet below grade surface (bgs). Beneath this fill material, down to approximately 20 to 40 feet bgs, native sand and silt with little to trace gravel and rock fragments was encountered. Groundwater was encountered at a depth of approximately 5 to 9 feet bgs.

The project site is located in public parkland, but is developed with sports fields, footpaths and existing infrastructure systems. The excavation depth for sewers and water mains ranges approximately from 14 feet to 25 feet below grade surface (ftbg).

As shown on Figure 2, temporary dewatering to facilitate the installation of the sewers will be required during construction. Approximately 176 wells will be installed in the silty and sandy overburden to collect groundwater from the construction site and discharge it into existing storm sewers after passing through a treatment system consisting of a settling tank, bag filters and activated carbon filtration system to remove both particulates and volatile organic compounds (VOCs). Twelve (12) points of discharge (POD) are designated for the project. The POD discharge locations are as follows:

- POD1 will discharge into an existing 5' x 4' storm sewer in East River Park that discharges from CSO outfall NCM-060.
- POD2 will discharge into an existing 4' x 2'-4" storm sewer in East River Park that discharges from CSO outfall NCM-059.
- POD3 will discharge into an existing 4' x 4' storm sewer in East River Park that discharges from CSO outfall NCM-042.
- POD4 will discharge into an existing 4' x 4' storm sewer in East River Park that discharges from CSO outfall NCM-028.
- POD5 will discharge into an existing 108" interceptor sewer at the intersection of East 10<sup>th</sup> Street and Avenue D that flows to Newtown Creek Wastewater Treatment Plant.
- POD6 will discharge into an existing 5'-6" x 5' storm sewer in East River Park that discharges from CSO outfall NCM-058.
- POD7 will discharge into an existing 5'-6" x 5' storm sewer in East River Park that discharges from CSO outfall NCM-057.

- 
- POD8 will discharge into an existing 4'-6" x 6' storm sewer in East River Park that discharges from CSO outfall NCM-020.
  - POD9 will discharge into an existing 6' x 6'-6" storm sewer in East River Park that discharges from CSO outfall NCM-056.
  - POD10 will discharge into an existing 5'-6" x 4' storm sewer in East River Park that discharges from CSO outfall NCM-055.
  - POD11 will discharge into an existing 5' x 6'-6" storm sewer in East River Park that discharges from CSO outfall NCM-054.
  - POD12 will discharge into an existing 5' x 8'-9" storm sewer in East River Park that discharges from CSO outfall NCM-053.

Header pipes will convey groundwater from individual wells to the settling tank. The discharge from the filtration system will enter the existing storm sewer using a temporary hard connection. A total maximum of five (5) pumps at 300 gallons per minute (gpm) will be used at one time for all PODs except for POD5 where three (3) pumps working at 300 gpm will be used. The pumps will be used over a period of approximately 5 years to facilitate this operation. The dewatering pumps and treatment equipment will be relocated as the project progresses. The maximum groundwater withdrawal rate required for execution of the construction project is estimated at 6.6 million gallons per day (MGD). Up to three PODs will be active at a time and each POD will withdraw 2.2 MGD, except for POD5, which will withdraw 1.30 MGD.

---

### 3. Stakeholders and Contact List

Per New York State Department of Environmental Conservation's (NYSDEC) recommendations and in collaboration with the New York City Department of Design and Construction's (NYCDDC) Community Construction Liaison (CCL), the office of PM/CM HNTB-LiRo, and IPC Resiliency Partners, a contact list of interested and affected parties was developed (see Appendix A). The list includes local government and elected officials; businesses, organizations, schools, owners or occupants who live or work within a 1-2 block distance (approximately 1000 feet - see Figure 3) of the project area. This list will be used to communicate and disseminate information about the project with the affected community and stakeholders. The contact list will continue to be updated regularly to include new stakeholders.

### 4. Public Outreach Activities

In order to inform the public about the proposed temporary dewatering plan, SPDES permit process and to address the requirements of Commissioner Policy-29, Environmental Justice and Permitting, several outreach activities will be planned and conducted. These activities include: 1) preparing and disseminating a fact sheet about the project; 2) preparing and circulating a public meeting notice/invitation encouraging the affected community and stakeholders to attend an online public informational meeting; and 3) planning and holding an online public informational meeting. See sections 4.1, 4.2 and 4.3 for more details.

The public meeting notices and fact sheets will be made available and disseminated in English, Chinese and Spanish since the project is located in an area with a sizable Hispanic-American and Chinese-American population. It is the objective of these documents to provide ample information and direct communication to the individuals and groups who live or work in the project area.

Furthermore, the NYCDDC's appointed CCLs are Sonia Quinones and Joyce Xin who will be located in the vicinity of construction for the duration of the construction. The CCLs are available to the community at all times for questions, comments and requests related to the construction of the project. The CCLs are available by phone and email at:

Sonia Quinones: (347)628-8724 [squinones@ddccr.com](mailto:squinones@ddccr.com)

Joyce Xin: (929)844-0408 [jxin@ddccr.com](mailto:jxin@ddccr.com)

#### 4.1 Public Meeting

In collaboration and coordination with NYCDDC, IPC Resiliency Partners, and the office of PM/CM HNTB-LiRo, Applemon Corporation will facilitate an online public informational meeting on Thursday July 14, 2022 from 6:00 pm to 8:00 pm. Representatives from NYCDDC, IPC Resiliency Partners, PM/CM HNTB-LiRo's office and Applemon Corporation will be present at the online public meeting and Applemon Corporation will present a brief overview of the overall project, project background, a

---

fuller discussion of the reasons construction dewatering is needed, scope of dewatering work, progress schedule, community impact, SPDES permit application, and contact information. In the second part of the online public meeting, the floor will be open for public questions, comments, and concerns.

Attendees will also be informed of how they may submit formal comments on the permit application to the NYSDEC and obtain answers to questions after the meeting has concluded. The CCLs will be available to the community at all times for questions, comments and requests related to the project construction. The CCLs' contact information will be announced during the online public meeting and included in all materials distributed to the community and the stakeholders. The public may reach out to the project team following the public meeting to obtain additional information, provide input and/or express concerns using the following contact information:

Sonia Quinones: (347)628-8724 [squinones@ddccr.com](mailto:squinones@ddccr.com)  
Joyce Xin: (929)844-0408 [jxin@ddccr.com](mailto:jxin@ddccr.com)

## **4.2 Public Meeting Notice/Invitation**

A reader-friendly meeting notice/invitation in English, Chinese and Spanish (Appendix B) for the online public meeting will be circulated to the entire affected community within the project area. Through this notice, the public will be invited and encouraged to attend the online public meeting scheduled on Thursday July 14, 2022 from 6:00 pm to 8:00 pm.

Approximately three weeks in advance of the online public meeting, the public meeting notice (Appendix B) will be published in the print edition of a local paper (e.g. Daily News, AM New York: The Villager Express) which is circulated widely in lower East Side Manhattan. Also, the public meeting notice must be mailed and/or hand delivered (door-to-door) to all people listed on the stakeholders and contact list (Appendix A) by the CCLs and IPC Resiliency Partners approximately three weeks prior to the online public meeting scheduled on July 14, 2022. The CCLs will work with New York City Housing Authority (NYCHA) to post the public meeting notices at visible locations (e.g. bulletin boards, meeting rooms, common public areas) for the NYCHA buildings located within the project vicinity. Additionally, the public meeting notice will be posted and available at the following website once the PPP has been approved by NYSDEC:

<https://www1.nyc.gov/site/ddc/contracts/public-participation-plan.page>

---

### 4.3 Fact Sheet

In addition to the meeting notice/invitation for the online public meeting, a fact sheet shown in Appendix C will be published (in English, Chinese and Spanish) and distributed via mail, email blast, and/or in person to the project stakeholders and contact list (Appendix A) by the CCLs and IPC Resiliency Partners. The CCLs will work with New York City Housing Authority (NYCHA) to post the fact sheets at visible locations (e.g. bulletin boards, meeting rooms, common public areas) for the NYCHA buildings located within the project vicinity. Additionally, the fact sheet will be posted and available at the following website once the PPP has been approved by NYSDEC:

<https://www1.nyc.gov/site/ddc/contracts/public-participation-plan.page>

The CCLs will post the English, Chinese and Spanish versions of the online public meeting notices and fact sheets in the locations within the construction site and visible to the public. For example, the public notices/fact sheets may be posted on some streetlight lampposts or bulletin boards located in the lobby of residential complex buildings or public facilities such as libraries, schools or community centers within the project site.

### 5. Document Repository

An online document repository has been established for the community to access and review information about the project. The established online repository available at the <https://www1.nyc.gov/site/ddc/contracts/public-participation-plan.page> will provide information and documents relating to the SPDES permit application process. Once the PPP is approved by NYSDEC and prior to conducting any outreach activities, all the documents will be added to the repository. NYCDDC will continue maintaining the online repository.

The repository will be updated on an ongoing basis, as appropriate, and will include project-related information and written materials (i.e. approved PPP, draft SPDES permit, statement of basis, and Notice of Complete Application provided by the NYSDEC) developed during the SPDES application process. The public can contact CCLs if they have any questions about the project. The CCLs are always available by phone and email at:

Sonia Quinones: (347)628-8724 [squinones@ddccr.com](mailto:squinones@ddccr.com)

Joyce Xin: (929)844-0408 [jxin@ddccr.com](mailto:jxin@ddccr.com)

### 6. Submittals and Reporting on PPP Activities

Upon completion and implementation of this PPP, the NYCDDC will submit a written certification that it has complied with all requirements of the PPP along with a final written summary report to NYSDEC detailing the activities that occurred in accordance with the PPP. The final summary report will summarize the PPP activities including the public notices and public meeting and all concerns expressed by the community. The report will include all the notes, Q&A and the attendance/participant list from the online public meeting.

## FIGURES

**Dewatering Plan for Installation of East Side Coastal Resiliency, Manhattan**

March 25, 2022

Segment	Duration	Total
1	5 months	13 wells
2	5 months	22 wells
3	5 months	11 wells
4	5 months	16 wells
5	5 months	14 wells
6	5 months	16 wells
7	5 months	15 wells
8	5 months	6 wells
9	5 months	18 wells
10	5 months	19 wells
11	5 months	16 wells
12	5 months	10 wells

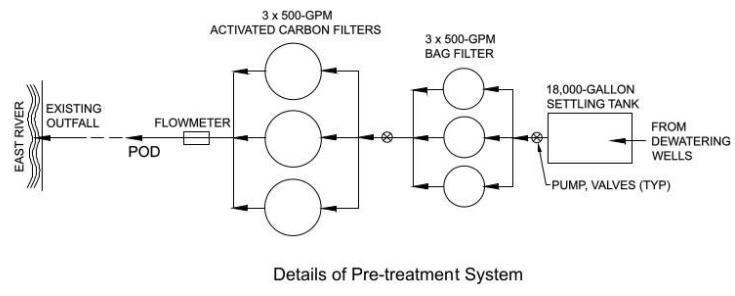

Project Name & Location	Installation of Flood Protection System, Sewers, Outfalls and Gate Chambers, Park Reconstruction from Montgomery Street to East 15th Street Manhattan
Scope of Work	Dewatering will be conducted on East River Park and East 10th Street, where a temporary dewatering and remediation system will be connected at eleven points of discharge (PODs) to an existing interceptor sewer (via manhole) and multiple storm sewers (via temporary hard connections) during construction of sewers and appurtenances.
Pump Capacity & Number of Pumps	Three 300 gpm well pumps at POD5 Five 300 gpm well pumps at remaining PODs
Estimated Daily Discharge	1.30 MGD (900 gpm = 2.01 cfs) at POD5 2.20 MGD (1,500 gpm = 3.34 cfs) at remaining PODs Up to three PODs will be active at a time
Duration of Pumping	60 months
Flow Meter	McCrometer MW500
Pre-treatment Equipment	One 18,000-gallon settling tank (15,000-gallon at POD5) Three 500 gpm bag filters (except at POD5) Three 500 gpm activated carbon filters (except at POD5)

# **YOU ARE INVITED**

## **Online Public Meeting**

### **Thursday July 14, 2022 at 6:00 pm**

#### **Construction of East Side Coastal Resiliency from Montgomery Street to East 15<sup>th</sup> Street**

The New York City Department of Design and Construction (NYCDDC) has submitted an application to the New York State Department of Environmental Conservation (NYSDEC) for a State Pollution Discharge Elimination System (SPDES) permit and a Water Withdrawal (WW) permit for the Construction of East Side Coastal Resiliency between Montgomery Street and East 15<sup>th</sup> Street in the Borough of Manhattan, New York (Project ID SANDRESM1). A Public Participation Plan has been developed in accordance with NYSDEC Commissioner Policy 29, Environmental Justice and Permitting (CP-29). The purpose of this meeting is to inform the public about the project and to involve the community during the SPDES permit application review process.

你被邀请了  
网上公开会议

2022 年 7 月 14 日星期四下午 6:00

从蒙哥马利街到东 15 街的东侧沿海弹性建设

纽约市设计和建设部 (NYCDDC) 已向纽约州环境保护部 (NYSDEC) 提交了一份申请, 申请获得州污染排放消除系统 (SPDES) 许可证, 用于在蒙哥马利街之间建设东侧沿海弹性和纽约曼哈顿区的东 15 街 (项目 ID SANDRESM1)。已根据 NYSDEC 专员政策 29, 环境正义和许可 (CP-29) 制定了公众参与计划。本次会议的目的是让公众了解该项目, 并在 SPDES 许可申请审查过程中让社区参与进来。

# ESTAS INVITADO

## Reunión pública en línea

### jueves julio 14, 2022 a las 6:00 pm

---

#### Construcción de resiliencia costera del lado este desde Montgomery Street hasta East 15th Street

El Departamento de Diseño y Construcción de la Ciudad de Nueva York (NYCDDC) ha presentado una solicitud al Departamento de Conservación Ambiental del Estado de Nueva York (NYSDEC) para obtener un permiso del Sistema de Eliminación de Descargas Contaminantes (SPDES) y un permiso de Extracción de Agua (WW) para la Construcción de resiliencia costera del lado este entre Montgomery Street y East 15th Street en el distrito de Manhattan, Nueva York (Proyecto ID SANDRESM1). Se ha desarrollado un Plan de Participación Pública de acuerdo con la Política 29 del Comisionado del NYSDEC, Justicia Ambiental y Permisos (CP-29). El propósito de esta reunión es informar al público sobre el proyecto e involucrar a la comunidad durante el proceso de revisión de la solicitud del permiso SPDES.

**Para unirse en línea:**

# **Construction Dewatering for the East Side Coastal Resiliency Project**

## **Fact Sheet**

**What is the proposed project?** The East Side Coastal Resiliency Project (ESCRP) has been designed to alleviate the potential for flooding that occurs in the eastern coast of Manhattan and make the area more resilient to coastal storms and inundation from sea level rise, including the construction of a coastal flood protection system, pedestrian bridges, park reconstruction and supporting infrastructure improvements in the eastern coast of Manhattan from Montgomery Street to East 15<sup>th</sup> Street (NYCDDC Project ID SANDRESM1). NYCDDC has already obtained permits from NYSDEC for portions of the project within Tidal Wetlands. To facilitate construction of ESCRP, the New York City Department of Design and Construction (NYCDDC) has determined that construction dewatering is required for replacement and construction of sewers and appurtenances related to the ESCRP and has submitted an application to the New York State Department of Environmental Conservation (NYSDEC) for dewatering and groundwater pumping operations, which requires a New York State Pollutant Discharge Elimination System (SPDES) permit as well as a Water Withdrawal permit. A Public Participation Plan has been developed in accordance with NYSDEC Commissioner Policy 29, Environmental Justice and Permitting (CP-29). The purpose of this fact sheet is to inform the public about the project and to involve the community during the SPDES permit application review process.

**Why does NYCDDC need to construct the ESCRP in the eastern coast of Manhattan from Montgomery Street to East 15<sup>th</sup> Street?** The existing infrastructure for management of stormwater is old and insufficient. This project will provide much needed drainage for the proposed project area. The new infrastructure will improve vehicular and pedestrian conditions, while reducing the potential for future flooding impacts and will support neighborhood resiliency with respect to coastal storms, while providing enhanced infrastructure that will support post-storm recovery efforts.

**How might the ESCRP affect the surrounding community?** Community impacts will be temporary in nature and all related to construction. NYCDDC and its contractors propose to control all dust, rodent, noise and vibration during the construction period. NYCDDC will be available to answer all questions for any issues related to special needs access, service delivery coordination (e.g. trash collection), and any property damage. Traffic impacts are expected during construction; however, NYCDDC will take all the necessary measures to minimize disruptions to property access, schools, as well as access to transportation facilities, community facilities, and emergency services.

### **How can I participate in the permit review process?**

- Attend the upcoming online public meeting scheduled for July 14, 2022, at 6:00 pm to learn about the project, submit comments, ask questions and/or express concerns about the project.
- Submit comments in writing, by phone or email to the NYCDDC Community Construction Liaison identified below.

### **Where can I get more information about the proposed project?**

- Visit the online document repository at: <https://www1.nyc.gov/site/ddc/contracts/public-participation-plan.page> to obtain application materials, relevant documents, and information about the project.
- Contact the Community Construction Liaisons Sonia Quinones: (347)628-8724 [squinones@ddccr.com](mailto:squinones@ddccr.com) or Joyce Xin: (929)844-0408 [jxin@ddccr.com](mailto:jxin@ddccr.com) for information on the project, instructions on how to attend the online public meeting.

**Who is responsible for reviewing the Permit Application?** NYSDEC Region 2 Headquarters, 47-40 21st St., Long Island City, NY 11101, is responsible for reviewing and issuing the required permits. Tel: (718) 482-4997; email: [DEP.R2@dec.ny.gov](mailto:DEP.R2@dec.ny.gov)

## 东侧沿海弹性项目的施工排水 情况说明书

拟建项目是什么？东区海岸防灾项目 (ESCRP) 旨在减轻曼哈顿东海岸发生洪水的可能性，并使该地区更能抵御海岸风暴和海平面上升造成的洪水，包括建造海岸防洪设施曼哈顿东海岸从蒙哥马利街到东 15 街的系统、人行天桥、公园重建和配套基础设施改进（NYCDDC 项目 ID SANDRESM1）。NYCDDC 已经从 NYSDEC 获得了潮汐湿地内部分项目的许可。为促进 ESCRP 的建设，纽约市设计和建设部 (NYCDDC) 已确定更换和建设  
与 ESCRP 相关的下水道和附属设备需要施工排水，并已向纽约州环境部提交了申请用于脱水和地下水抽水作业的保护 (NYSDEC)，需要纽约州污染物排放消除系统 (SPDES) 许可证和取水许可证。已根据 NYSDEC 专员政策 29，环境正义和许可 (CP-29) 制定了公众参与计划。本情况说明书的目的是让公众了解该项目，并在 SPDES 许可申请审查过程中让社区参与进来。

为什么 NYCDDC 需要在曼哈顿东海岸从蒙哥马利街到东 15 街建设 ESCRP？现有的雨水管理基础设施陈旧且不足。该项目将为拟建项目区域提供急需的排水。新的基础设施将改善车辆和行人的状况，同时减少未来洪水影响的可能性，并将支持社区抵御沿海风暴，同时提供增强的基础设施，支持风暴后的恢复工作。

ESCRP 如何影响周边社区？社区影响本质上是暂时的，并且都与施工有关。NYCDDC 及其承包商建议在施工期间控制所有灰尘、啮齿动物、噪音和振动。NYCDDC 将可以回答有关特殊需求访问、服务交付协调（例如垃圾收集）和任何财产损失的所有问题。施工期间预计会影响交通；但是，NYCDDC 将采取一切必要措施，尽量减少对物业通道、学校以及交通设施、社区设施和紧急服务的使用的干扰。

我如何参与许可审查过程？

• 参加即将于 2022 年 7 月 14 日下午 6:00 举行的在线公开会议，以了解该项目、提交评论、提出问题和/或表达对项目的担忧。

• 以书面、电话或电子邮件的形式将意见提交给下面列出的 NYCDDC 社区建设联络员。

我在哪里可以获得有关拟议项目的更多信息？

• 访问在线文件存储库：<https://www1.nyc.gov/site/ddc/contracts/public-participation-plan.page> 以获取申请材料、相关文件和项目信息。

• 联系社区建设联络员 Sonia Quinones : (347)628-8724 [squinones@ddccr.com](mailto:squinones@ddccr.com) 或 Joyce Xin : (929)844-0408 [jxin@ddccr.com](mailto:jxin@ddccr.com) 了解项目信息、如何参加在线公开会议的说明。

谁负责审查许可证申请？NYSDEC 第 2 区总部，47-40 21st St., Long Island City, NY 11101，负责审查和签发所需的许可证。电话：(718) 482-4997；电子邮件：[DEP.R2@dec.ny.gov](mailto:DEP.R2@dec.ny.gov)

# **Desagüe de la construcción para el proyecto de resiliencia costera del lado este**

## **Hoja de hechos**

¿Cuál es el proyecto propuesto? El Proyecto de resiliencia costera del lado este (ESCRP, por sus siglas en inglés) ha sido diseñado para aliviar el potencial de inundación que ocurre en la costa este de Manhattan y hacer que el área sea más resistente a las tormentas costeras y las inundaciones por el aumento del nivel del mar, incluida la construcción de una protección contra inundaciones costeras, puentes peatonales, reconstrucción de parques y mejoras de infraestructura de apoyo en la costa este de Manhattan desde Montgomery Street hasta East 15th Street (NYCDDC Project ID SANDRESM1). NYCDDC ya obtuvo permisos de NYSDEC para partes del proyecto dentro de Tidal Wetlands. Para facilitar la construcción de ESCRP, el Departamento de Diseño y Construcción de la Ciudad de Nueva York (NYCDDC, por sus siglas en inglés) ha determinado que se requiere el drenaje de la construcción para el reemplazo y la construcción de alcantarillas y accesorios relacionados con el ESCRP y ha presentado una solicitud al Departamento de Medio Ambiente del Estado de Nueva York. Conservación (NYSDEC) para operaciones de drenaje y bombeo de agua subterránea, que requiere un permiso del Sistema de Eliminación de Descarga de Contaminantes (SPDES) del Estado de Nueva York, así como un permiso de Extracción de Agua. Se ha desarrollado un Plan de Participación Pública de acuerdo con la Política 29 del Comisionado del NYSDEC, Justicia Ambiental y Permisos (CP-29). El propósito de esta hoja informativa es informar al público sobre el proyecto e involucrar a la comunidad durante el proceso de revisión de la solicitud del permiso SPDES.

¿Por qué NYCDDC necesita construir el ESCRP en la costa este de Manhattan desde Montgomery Street hasta East 15th Street? La infraestructura existente para la gestión de aguas pluviales es antigua e insuficiente. Este proyecto proporcionará drenaje muy necesario para el área del proyecto propuesto. La nueva infraestructura mejorará las condiciones vehiculares y peatonales, al tiempo que reduce el potencial de futuros impactos de inundaciones y apoyará la capacidad de recuperación de los vecindarios con respecto a las tormentas costeras, al tiempo que proporciona una infraestructura mejorada que respaldará los esfuerzos de recuperación posteriores a la tormenta.

¿Cómo podría afectar el ESCRP a la comunidad circundante? Los impactos en la comunidad serán de naturaleza temporal y todos relacionados con la construcción. NYCDDC y sus contratistas proponen controlar todo el polvo, los roedores, el ruido y las vibraciones durante el período de construcción. NYCDDC estará disponible para responder todas las preguntas sobre cualquier problema relacionado con el acceso para necesidades especiales, la coordinación de la prestación de servicios (p. ej., recolección de basura) y cualquier daño a la propiedad. Se esperan impactos de tráfico durante la construcción; sin embargo, NYCDDC tomará todas las medidas necesarias para minimizar las interrupciones en el acceso a la propiedad, las escuelas, así como el acceso a las instalaciones de transporte, las instalaciones comunitarias y los servicios de emergencia.

¿Cómo puedo participar en el proceso de revisión del permiso?

- Asista a la próxima reunión pública en línea programada para el 14 de julio de 2022 a las 6:00 p. m. para obtener información sobre el proyecto, enviar comentarios, hacer preguntas y/o expresar inquietudes sobre el proyecto.
- Envíe comentarios por escrito, por teléfono o correo electrónico al enlace de construcción comunitaria del NYCDDC identificado a continuación.

¿Dónde puedo obtener más información sobre el proyecto propuesto?

- Visite el depósito de documentos en línea en: <https://www1.nyc.gov/site/ddc/contracts/public-participation-plan.page> para obtener materiales de solicitud, documentos relevantes e información sobre el proyecto.
- Comuníquese con los Enlaces de Construcción Comunitaria Sonia Quinones: (347)628-8724 [squinones@ddccr.com](mailto:squinones@ddccr.com) o Joyce Xin: (929)844-0408 [jxin@ddccr.com](mailto:jxin@ddccr.com) para obtener información sobre el proyecto, instrucciones sobre cómo asistir a la reunión pública en línea .

¿Quién es responsable de revisar la Solicitud de Permiso? La sede de la Región 2 de NYSDEC, 47-40 21st St., Long Island City, NY 11101, es responsable de revisar y emitir los permisos requeridos. Teléfono: (718) 482-4997; correo electrónico: [DEP.R2@dec.ny.gov](mailto:DEP.R2@dec.ny.gov)
