Q & A

Project Data

Project ID:	HWCSCHPBX
Notice to Proceed (NTP)	August 2022
Start:	February 2023
Anticipated Completion:	Summer 2024
Contractor:	Triumph Construction Corp
Contract Value:	\$8,667.816.45
Typical Work Hours:	7AM to 4PM, Monday through Friday 8AM to 5PM, Saturday (as needed with community notification)
Holiday; Summer; Special Event Embargos:	Yes

Existing Conditions

E.187th Street at 3rd / Washington Avenues

E.185th Street at 3rd / Bathgate Avenues

Benefits of Safe Routes to School (Upgrades)

- Bump out at selected Pedestrian Crossings
- Reconstruction of Sidewalk and Pedestrian Ramps
- Replacement of Water Valves & Water Mains
- Installation Sewer Main & Drainage Basins
- Upgraded Street Lighting & Traffic Signals

Purpose of the Project

NYC DDC is upgrading underground infrastructures and installing safety improvements and traffic calming installation measures along school corridors.

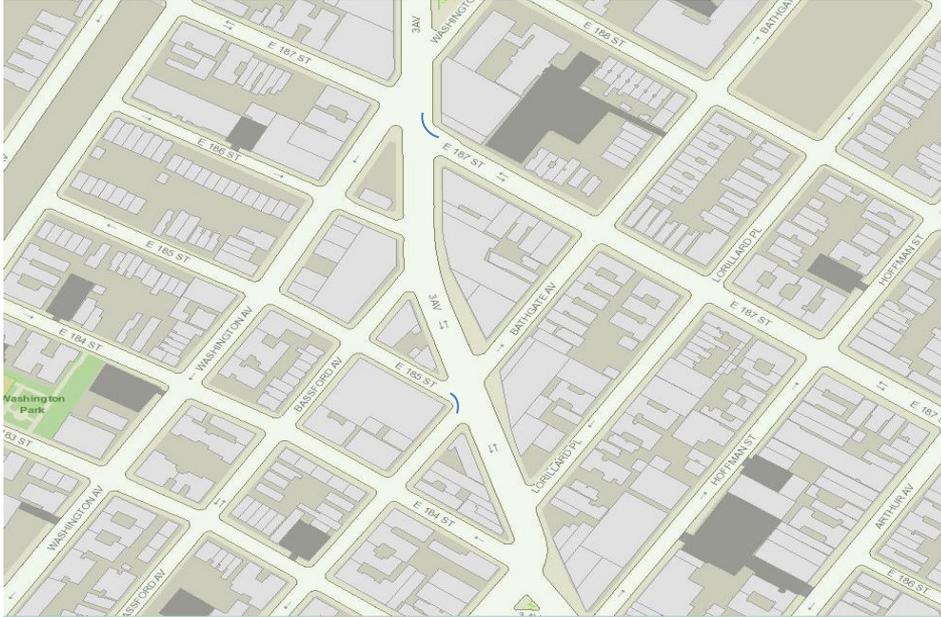

School That Will Benefit From This Work

- I.S. 254x
- X457 Fordham High School for the Arts
- Our Lady of Mount Carmel School

HWCSCHPBX

Locations

- E. 185th Street at 3rd Avenue
- E. 187th Street at 3rd / Washington Avenues

Construction Overview

PRELIMINARY WORK	IN THE GROUND (DEP WORK)	ABOVE GROUND (DOT WORK)
Utilities	Saw cutting and trench setup	Sidewalks and Curbs
Outreach	Water Valves; Water Mains	Sidewalk curb bump-outs
Permits and scheduling	Fire hydrant relocations	ADA Pedestrian ramps
Staging and storage of materials	Sewers	Upgrade Traffic Lights /signals/signage
Street tree guards and pruning	Catch basin	Street markings
Test pits and street markings		
Street furniture removal		

HWCSCHPBX

Current Construction Activities

Completed and Current Work Areas – Watermain and Sewers

Underground Work Completed

6/16/2023

- E. 187th Street 3rd /
Washington Avenues

Underground Work

- E.185th Street at 3rd /
Washington Avenues

Current Work

Catch Basin Installation

E.187th Street at 3rd Avenue

Excavation for Installation of Water Main

E.187th Street at 3rd Avenue

HWCSCHPBX

Schedule for Remaining Work

Water Main & Valve Installation (2023)

- Intersection of E.185th Street at 3rd Avenue

Catch Basins (2023)

- Intersection of E.185th Street at 3rd Avenue

Curbs, Pedestrian Walk & Ramps (2024)

- Intersection of E.185th Street at 3rd Avenue
- Intersection of E.187th Street at 3rd Avenue

Street Lighting & Traffic Lights (2024)

- Intersection of E.185th Street at 3rd Avenue
- Intersection of E.187th Street at 3rd Avenue

HWCSCHPBX

Community Impacts

Community Impacts

- Pedestrian/sidewalk access maintained
- Temporary street closures and/or limited access
- Resident engineer monitors operations and works within DEP Noise Code regulations
- Sidewalk / loading dock access from curb may be temporarily restricted while work is conducted (coordination arranged on case by case basis)
- Parking temporarily restricted
- Trash pick up impacts will be coordinate through field office
- Rodent survey performed prior to construction
- Rodent control installed by professional rodent control contractor

Installation of Storm & Sanitary Sewers in 119th Road

119th Road

The New York City Department of Design and Construction (NYCDDC) is managing a capital construction of sanitary & storm sewer project along 119th Road in Queens the cost of this project is \$8,888,124 dollars. The project began March 2017 and anticipated to end December 2018. After the completion of the project the NYC infrastructure will upgrade for generations to come, therefore, the capacity of the combine sewer will increase and reduce flooding, and the replacement of water mains will improve the drinking water as well as increasing fire protection by adding hydrants. Project work also includes: curbs, sidewalks and roadway re-surfacing, as needed. Each phase of this project is an important component that will insure better services and quality of life for the community.

Work Completed to date

- Water main installation 100% (5170 linear feet)
- Sanitary Sewers 100%

Proposed Work Schedule

October 2018 - December 2018

- Excavation for installation of storm sewers
- restoration of roadway surface curbs & sidewalks in various locations.

Preparation for storm sewer on 118rd & 120th Street

Newsletter Distribution

Construction Newsletters for this project are distributed regularly within the project area and to Community Board #12 - Queens.

Bill de Blasio
Mayor

Lorraine Grillo
Commissioner

Project # SEQ200584

Installation of Sanitary Sewer on 119th Ave.

Community Impact

During construction hours, you can expect the following:

- Greater levels of noise, trucks and heavy equipment.
- Vehicular travel lane closures will be required, as well as detours. Warning signs will be posted in advance.
- Parking and driveway/loading dock restrictions. Signs will be posted within the affected areas.
- Emergency vehicle access and pedestrian access to sidewalk and buildings will be maintained at all times.

Trash Collection

Proper trash collection can be a challenge on a project as large as this but if everyone is considerate it can be managed with a modicum of disruption. Please pack your trash properly to avoid easy breakage and/or spill over. Put it in the designated areas as close to collection time as possible. If you use a private carrier, ensure your trash collection occurs in a timely fashion. If you aren't sure where to bring your trash, please call the DDC.

Community Construction Liaison (CCL)

The DDC has assigned **Mario Antonietto** as the Community Construction Liaison (CCL) for this project. Please contact **Mario Antonietto** for any project related inquiries/concerns you may have:
Phone: 718-680-0883 Fax: 718-680-0380
Email: 118roadccl@gmail.com
Field Office: 117-25 Rockaway Blvd, suite 11 Jamaica, NY 11434

Advisory Notice

Office of Community Outreach & Notification

COMMUNITY ADVISORY

Installation of Storm & Sanitary Sewers in 119th Road and Surrounding Areas
Community Board #12
PROJECT#: SEQ200584 **BOROUGH:** Queens **DATE:** October 26, 2018

WATER SERVICE INTERRUPTION **Installation of Fire Hydrants**

- Baisley Blvd. from 119th Rd. to 177th Pl.

On/about Tuesday, October 30th, 2018
8:00am for approximately 8 hours

WHY IS MY WATER BEING TURNED OFF? A water interruption is necessary to facilitate the installation of new fire hydrant in conjunction with the 119th Road project. It will occur at/about 8:00 am and last for approximately 8 hours. On occasion, this work may be completed earlier and water service restored.

SOME THINGS TO REMEMBER:
The DDC recommends that you shut off the water main valve in your house/building in order to avoid problems that may occur when sediment enters or is released from your plumbing.

You are asked to shut off all WATER cooled appliances, which may include air conditioners, etc.

Once water service is returned, turn the main house valve back on and flush the system by running your faucets to sinks and tubs for about 15 to 30 minutes.

If you have any questions, concerns, or would like to learn more about the DDC Project, please call the **Community Construction Liaison (CCL)** **Maria Anicness Haderik at 718-680-6853** or E-mail: 119roadccl@gmail.com or visit the NYC DDC web site at www.ddc.gov/880. During non-construction hours please contact New York City Government Services and Information Hotline at 311.

PLEASE NOTE: Due to unforeseen conditions (weather, field conditions, etc.) it may become necessary to change some scheduled work locations and operations.

If you have any questions about the NYC water quality, please contact the NYC Department of Environmental Protection (NYC DEP)

For more information on the health impacts of lead please go to: www.ddc.gov/nctw/lead/leadinwater/default.htm

Outreach Materials

DDC / Moving Forward

From critical infrastructure to essential public buildings, DDC's responsibilities continue to expand to meet the challenges presented by economic and population growth and climate change.

An Introduction to the NYC Department of Design and Construction

DDC is the City's chief construction manager, providing professional project management and world-class design services to more than 20 City agencies and non-profit organizations that receive City funding.

Office of Community Outreach and Notification

About DDC's Office of Community Outreach and Notification

As DDC constructs and improves public buildings and infrastructure, the Office of Community Outreach and Notification communicates with residents, businesses, and institutions.

An Introduction to Community Construction Liaisons

Community Construction Liaisons work on behalf of DDC to inform neighbors of construction activities and quickly resolve any project-related impacts.
