

The Foundation of New York

Closing the Soil Loop from
One Borough to Another

Learn More: www.soilloop.org

Soil from one
city capital
project can be
used in other
projects that
meet B.U.D.
requirements.

This site's
foundation comes
from recycled soil
and saved the city
(xx) on carbon
emissions.

Look at the soil
being reused on site.

See the soil reused as
a base for the building.
