

NYC Stormwater Management Program: Industrial and Commercial Stormwater Sources

The New York State Department of Environmental Conservation (NYSDEC) requires certain industrial facilities to obtain coverage for stormwater discharges under the State Pollution Discharge Elimination System (SPDES) Multi-Sector General Permit for Stormwater Discharge from Industrial Activities (GP-0-17-004) (MSGP). While NYSDEC will continue to administer the MSGP program, DEP is implementing an Industrial and Commercial (I/C) Program in the municipal separate storm sewer system (MS4) area to assess unpermitted facilities for contributions of pollutants of concern to impaired waters and inspect both publicly and privately owned facilities with MSGP coverage.

For more information about the I/C program, please visit nyc.gov/dep/ms4.

What will this mean for your facility?

If your facility currently has an MSGP permit and is located in the MS4 area, then DEP will conduct ongoing inspections at your site. At a minimum, DEP will inspect high priority facilities every year; medium priority facilities every three years; and low priority facilities every five years.

The image shows a web interface titled "MSGP File Uploader". At the top, there is a blue header with the title. Below the header, a light blue box contains instructional text: "If your industrial or commercial facility is part of the Multi-Sector General Permit (MSGP) Program in New York City, please use this form to upload and submit copies of your facility monitoring reports to DEP. For more information, please visit Industrial/Commercial Stormwater Sources." Below this box, there is a form with two main sections. The first section is labeled "Permit #" and has a red asterisk next to it, followed by a text input field. The second section is labeled "Notes or Additional Information" and has a larger text area below it. At the bottom left of the form, there is a blue button labeled "Add Files".

Preview of the MSGP File Uploader

For active permitted facilities, you shall continue to send submittals to NYSDEC, though you must begin to send copies to DEP. Starting June 1, 2019, you should submit your copies to DEP online using our MSGP File Uploader at nyc.gov/dep/msgp-uploader.

If your facility does not have an MSGP permit, then you may have received a notification that DEP may soon conduct a one-time, on-site assessment to determine if your facility conducts activities as specified in the MSGP and generates significant contributions of pollutants of concern to impaired waters. DEP will update the inventory periodically.

To find out if your facility may need to be assessed, email ms4@dep.nyc.gov.

NYSDEC Industrial Stormwater Multi-Sector General Permit

The table below lists the industrial sectors subject to MSGP permitting. Permits are required for discharges from a conveyance that is used for collecting and carrying stormwater, and that is directly related to manufacturing, processing or raw materials storage areas.

Sectors of Industrial/Commercial Facilities Subject to NYSDEC's MSGP

Sector	Name	Sector	Name
A	Timber Products	Q	Water Transportation
B	Paper and Allied Products	R	Ship and Boat Building or Repairing Yards
C	Chemical and Allied Products	S	Air Transportation
D	Asphalt Paving and Roofing Materials and Lubricants	T	Treatment Works
E	Glass Clay, Cement, Concrete, and Gypsum Products	U	Food and Kindred Products
F	Primary Metals	V	Textile Mills, Apparel, Other Fabric Product Manufacturing
G	Metal Mining (Ore Mining and Dressing)	W	Furniture and Fixtures
H	[Reserved]	X	Printing and Publishing
I	Oil and Gas Extraction and Refining	Y	Rubber, Miscellaneous Plastic Products, and Miscellaneous Manufacturing Industries
J	Mineral Mining and Dressing	Z	Leather Tanning and Finishing
K	Hazardous Waste Treatment, Storage, or Disposal Facilities	AA	Fabricated Metal Products
L	Landfills and Land Application Sites	AB	Transportation Equipment, Industrial or Commercial Machinery
M	Automobile Salvage Yards	AC	Electronic, Electrical, Photographic, and Optical Goods
N	Scrap Recycling Facilities		
O	Steam Electric Generating Facilities		
P	Land Transportation
