PROFILE OF OLDER NEW YORKERS

Introduction

Department for the Aging: Profile of Older New Yorkers
An Introduction

The Profile of Older New Yorkers is a comprehensive resource for anyone interested in information at Community District (CD), borough and/or city-wide levels about older New Yorkers. The Department for the Aging (DFTA) has compiled the data to provide the aging community and the general public with rich demographic information about this fastest- growing segment of the City's population and to support City and community planning.

The *Profile* is divided by borough; a summary comparison of borough vs. New York City precedes each borough detailed table and highlights borough demographics "at a glance." In the borough detailed table, column headings indicate key demographics, and rows present the demographic data for each CD in the borough. For comparison, the last two rows of each table provide borough and city-wide data on the same demographics. A guide to the *Profile* starting on Page 2 demonstrates how to read data for a sample CD, column by column.

Among key demographic data, the *Profile* includes:

➡ Information about mobility and self-care impairment, including the total number of persons 60 years of age or older in the CD who are mobility and/or self-care impaired;
➡ New York Center for Economic Opportunity (CEO) Level and the Federal Poverty Level data about poverty among older adults;
➡ The number of CD residents 60 years of age or older who have received Supplemental Nutrition Assistance Program (SNAP) benefits in the past 12 months;
➡ Educational attainment;
➡ Race/ethnicity and immigrant composition, and
➡ Mostly common primary languages spoken at home and those who speak English less than very well among older adults.

All data are taken from the American Community Survey (ACS) 2015-2019, except for NYC Center for Economic Opportunity (CEO) data as noted in the footnotes and endnotes.

Table of Contents

Introduction (cont.)

The following data table includes a wealth of information, from income to language, presented at the Community District (CD), borough, and citywide levels.

On the next page is an excerpt from the Brooklyn data tables that contains Brooklyn Community District 1 (Williamsburg/Greenpoint), Brooklyn borough, and citywide data; below the excerpt is a sample guide that shows how to interpret each column of data.

Readers might want to review this guide to using the Profile of Older New Yorkers before proceeding with the report.

If any data is used from this presentation, please use the following citation: "Data Source: New York City's Department for the Aging, *Profile of Older New Yorkers, February* 15, 2022, p_"

Endnotes

¹Population

All population estimates are for the civilian noninstitutional population, which is defined as persons 16 years of age and older who are not inmates of institutions (e.g., penal and mental facilities, homes for the aged), and who are not on active duty in the Armed Forces.
Source: "BLS Information". Glossary. U.S. Bureau of Labor Statistics Division of Information Services. February 28, 2008.

²Some Other Race (Non-Hispanic)

This includes all people identifying as a race other than White (alone, non-Hispanic), Black (alone, non-Hispanic), Asian (alone, non-Hispanic), or two or more races (non-Hispanic). For example, those identifying as Pacific Islander or Native Alaskan are included in "Some Other Race (Non-Hispanic).

³Measures of Poverty

Official (FPL): The current official poverty measure was developed in the early 1960s. It consists of a set of thresholds that were based on the cost of a minimum diet at that time. A family's pre-tax cash income is compared against the threshold to determine whether its members are poor. It is updated each year by the change in consumer prices. It is uniform across the United States..
CEO: The CEO poverty measure is based on a New York City-specific threshold derived from the U.S.-wide threshold developed for the Federal Supplemental Poverty Measure (SPM). The threshold is based on what families spend on basic necessities: food, clothing, shelter, and utilities. It is adjusted to reflect the variation in housing costs across the United States. The Center for Economic Opportunity (CEO) released its first report on poverty in New York City in August 2008.
